39.03.24 - RULES GOVERNING SELF-PROPELLED SNOWPLOWS

000. LEGAL AUTHORITY.
The rule is adopted under authority of Sections 40-312 and 49-1004, Idaho Code. (12-26-90)

001. TITLE AND SCOPE.
Self-propelled snowplows cannot comply with the safety requirements as other oversize loads due to the nature of their operation. Therefore, this rule is promulgated to state the regulations and safety requirements for overwidth self-propelled snowplows operating under special permit authority. The self-propelled snowplows will be permitted at the rates listed in Rule 39.03.21 for oversize loads. (12-26-90)

002. -- 009. (RESERVED).

010. DEFINITIONS.
Refer to Rule 39.03.01 for definitions of the terms used in this rule. (12-26-90)

011. -- 099. (RESERVED).

100. CONDITIONS AND REQUIREMENTS FOR OPERATION OF SELF-PROPELLED SNOWPLOWS ON THE STATE HIGHWAY SYSTEM.

01. Maximum Width. The maximum width of the self-propelled snowplows utilized to clear roads, streets and other locations of snow or debris shall be eight (8) feet six (6) inches and the maximum width of the blade mounted on this vehicle shall be fourteen (14) feet as measured normal to the direction of travel. (8-25-94)

02. No Escort Vehicles Required. Self-propelled snowplows utilized to clear roads, streets and other locations of snow or debris may operate with no escort vehicles required twenty-four (24) hours a day, seven (7) days a week, including holidays. (8-25-94)

03. Warning Flags. An eighteen (18) inch by eighteen (18) inch red or fluorescent orange flag shall be mounted near the extremities of the blade if it exceeds eight (8) feet six (6) inches in width. (8-25-94)

04. Clearance Light or Reflector Requirements. When operating during hours of darkness, a clearance light or a clearance reflector which meets the specifications listed in Sections 49-910 and 49-911, Idaho Code, shall be mounted near the extremities of the blade if the blade exceeds eight (8) feet six (6) inches in width. (8-25-94)

101. -- 999. (RESERVED).
