**ii.** The Department will provide all applicants for conflicted leases with the list of criteria that will be used to develop lease provisions. Among the factors to be addressed in the criteria are the following: (3-20-20)T

(1) The applicant's proposed use and the compatibility of that use of the state endowment trust land with preserving its long-term leasing viability for purposes of generating maximum return to trust beneficiaries; i.e., the impact of the proposed use and any anticipated improvements on the parcel's future utility and leasing income potential. (3-20-20)T

(2) The applicant's legal access to and/or control of land or other resources that will facilitate the proposed use and is relevant to generating maximum return to trust beneficiaries. (3-20-20)T

(3) The applicant's previous management of land leases, land management plans, or other experience relevant to the proposed use or ability/willingness to retain individuals with relevant experience. (3-20-20)T

(4) Potential environmental and land management constraints that may affect or be relevant to assessing the efficacy or viability of the proposed use. (3-20-20)T

(5) Mitigation measures designed to address trust management concerns such as: (3-20-20)T

(a) Construction of improvements at lessee's expense. (3-20-20)T

(b) Payment by lessee of additional or non-standard administrative costs where the nature of the proposed use and/or the applicant's experience raises a reasonable possibility that greater monitoring or oversight by the Department than historically provided will be necessary to ensure lease-term compliance. (3-20-20)T

(c) Bonding to ensure removal of any improvements installed for the lessee's benefit only and which would impair the future utility and leasing income potential of the state endowment trust land. (3-20-20)T

(d) Bonding to ensure future rental payments due under the lease in cases where the lessee is determined by the Department to pose a significant financial risk because of lack of experience or uncertain financial resources. (3-20-20)T

(6) Any other factors the Department deems relevant to the management of the state endowment trust land for the proposed use. (3-20-20)T

**g.** Proposed Lease. Within ten (10) days of the final meeting with the applicant to discuss lease provisions, the Department will provide the applicant with a proposed lease containing those terms and conditions upon which it will lease the state endowment trust land. If the applicant does not accept in writing the lease as proposed by the Department within seven (7) days of receipt, the application will be rejected in writing by the Department. Within twenty (20) days of the date of mailing of the rejection notice, the applicant may appeal the Department's determination as to the lease's terms and conditions to the Land Board. If the appeal is denied, the applicant may continue with the auction process by accepting the lease terms and conditions initially offered by the Department. No auction may be held until the Land Board resolves any such appeal. (3-20-20)T

**03. Expiring Leases.** Lease applications will be mailed by the Department to all holders of expiring leases no less than thirty (30) days prior to the application deadline. (3-20-20)T

**b.** New Applicants. (3-20-20)T

**i.** Expiring Lease. New applicants for expiring leases must submit the estimated first year's rental to the Department at the time of the application's submission. (3-20-20)T

**ii.** Unleased State Endowment Trust Land. All applicants for unleased state endowment trust land are deemed new applicants. If an applicant for unleased state endowment trust land is the sole applicant, the applicant may submit the rental deposit at the normal billing cycle, unless the time of application and desired time of use do not coincide with the normal billing cycle, in which case payment must be rendered at the direction of the Department. (3-20-20)T

The letter will set forth the reasons for the Department's cancellation of the lease and provide the lessee thirty (30) days' notice of the cancellation. (3-20-20)T

**02. Change in Land Use.** A lease may be canceled in whole or in part upon one hundred eighty (180) days written notice by the Department if the state endowment trust lands are to be leased for any other use as designated by the Board or the Department and the new use is incompatible with the existing lease. In the event of early cancellation due to a change in land use, the lessee will be entitled to a prorated refund of the premium bid for a conflicted lease. (3-20-20)T

The lessee may not assign a lease, or any part thereof, without prior written approval of the Department. (3-20-20)T

**072. MORTGAGE AGREEMENTS.**

livestock on state endowment trust lands to recover damages to the lessee for lost forage or other values incurred by the lessee. (3-20-20)T

**03. Continuing Trespass.** When continued trespass causes resource damage, the Department will initiate proceedings to restrict further trespass and recover damages as necessary. (3-20-20)T

**04. Trespass Claims.** Trespass claims initiated by the Department will be assessed as triple the current State AUM rate for forage taken. (3-20-20)T

**100. CONSTRUCTION AND MAINTENANCE OF IMPROVEMENTS.**

**01. Prior Written Approval.** The lessee must secure the written approval of the Department prior to constructing any improvements or buildings, or clearing any state endowment trust land. Failure to secure such approval eliminates any right to an improvement credit and may, at the Department’s discretion, be deemed a material breach of the lease and cause for cancellation. Any arrangement for cost sharing or improvement crediting will be identified in the improvement permit. Routine farming practices identified in a farm plan will not require prior approval. (3-20-20)T

**02. Maintenance.** All authorized improvements must be maintained in functional condition by the lessee. The lessee may be required to remove or reconstruct improvements in poor or non-serviceable condition. Existing maintenance agreements on lands acquired from the federal government remain in effect until amended by the parties involved. If maintenance is not being accomplished, the Department will provide a certified letter to the lessee informing the lessee of the rule violation. If work is not begun within thirty (30) days, the Department may contract repairs and add the amount to the annual rental. (3-20-20)T

(3-20-20)T

**02. Exchange.** In the event of exchange of the state endowment trust land covered under the lease, the creditable value of authorized improvements, as determined by the Department, will be paid to the former lessee by the acquiring party, if other than the existing lessee. (3-20-20)T

**03. Crediting.** Improvement credit may be allowed when the Department determines that such credit would further the objective of maximizing long-term financial return to trust beneficiaries if the improvements are: (3-20-20)T

**a.** Authorized in writing by the Department or lacking written authorization, but in existence prior to 1970; (3-20-20)T

**b.** Not expressly permitted “for lessee’s benefit only”; and (3-20-20)T

**c.** Maintained during the lease term. (3-20-20)T

**04. Value Only to Lessee.** Where improvements are approved, but due to their nature, are not acceptable to receive improvement credit because no value exists for a future lessee, a notation will be made in the permit, “For lessee’s benefit only.” If the succeeding lessee or assignee chooses not to purchase the non-creditable improvements, the former lessee will be required to remove them. (3-20-20)T

**05. Maintenance Costs.** Maintenance of improvements will be considered a normal cost of doing business and no improvement credit will be allowed, except that, with prior written approval from the Department, improvement crediting may be allowed for materials used for the maintenance of Department-funded improvements. (3-20-20)T

**06. Unauthorized Improvements.** No credit will be allowed for unauthorized improvements. At the discretion of the Department, the lessee may be required to remove unauthorized improvements. (3-20-20)T

**01. Applicant Review of Department Improvement Credit Valuation.** All applicants for a conflicted lease will be provided a copy of the Department's improvement credit valuation for review and a notice of objection form. Any applicant objecting to the appraisal will have twenty-one (21) days from the date of the valuation mailing to submit the notice of objection form to the Department. If no objections are received during the twenty-one (21) day review period, the lease auction will be scheduled and will proceed using the Department's improvement credit valuation. (3-20-20)T

**02. Failure to File a Timely Notice of Objection.** Failure to submit a notice of objection within the specified twenty-one (21) day period will preclude any applicant from further administrative remedies and the auction will proceed using the Department's improvement credit valuation. (3-20-20)T

**03. Notice of Objection.** Any applicant objecting to the Department improvement credit valuation must submit a complete and timely notice of objection form, and payment of two thousand five hundred dollars (\$2,500) or ten percent (10%) of the total Department improvement credit valuation whichever is greater, to pay for the services of an independent third party. (3-20-20)T

**04. Selection of an Independent Third Party.** The applicants will have twenty-one (21) days from the date of the Department's notification of an objection to select by mutual agreement, one individual from the list of certified appraisers to serve as an independent third party. If the applicants cannot agree on an independent third party within the twenty-one (21) day time period, the Department will randomly select one individual from the list to serve as the independent third party. (3-20-20)T

**05. Duties of the Independent Third Party.** The independent third party will review the Department improvement credit valuation and alternate valuations provided by the applicants. **02. Diligence in Utilization.** Lessee will use due diligence to market or utilize geothermal resources in paying quantities. If leased land is capable of producing geothermal resources in paying quantities, but production is shut-in, the lease will continue in force upon payment of rentals for the duration of the lease term or two (2) years after shut-in, whichever is shorter. If the Department determines that the Lessee is proceeding diligently to acquire a contract to sell or to utilize the production or is progressing with installations needed for production, the lease may continue in force for one (1) additional year if rental payments are kept current. The annual rental for the first year of the term will be due and payable and will be received by the Department, together with a lease agreement executed by Lessee within thirty (30) days of the date of notice of approval or award. Second year and subsequent rental payments must be received by the Department on or before the anniversary date of the lease. (3-20-20)T

**02. Amount.** Annual rentals will be set by the Board through competitive bidding, negotiation, fixed amounts, formulas, or some other method of valuation that a prudent investor might reasonably apply to establish such rental amounts. (3-20-20)T

**036. ROYALTIES.**

**01. Royalty Payments.** The Lessee will cause to be paid to the Department royalties on the value of geothermal production from the leased premises. The royalty rate will be established by the Board based on the market value of the geothermal resources produced from the lands under lease. The royalties specified in geothermal leases will be fixed in any manner by the Board, including but not limited to competitive bidding, negotiation, fixed amounts, or formulas. Royalty rates may be adjusted through the term of the lease in order to keep pace with market

values. When leases are issued, the following guidelines will be used for royalty rates not subject to competitive bidding: (3-20-20)T

**a.** A royalty of between five percent (5%) and twenty percent (20%) of the amount or value of geothermal resources, or any other form of heat or energy excluding electrical power generation, derived from production under the lease and sold or utilized by the Lessee or reasonably susceptible to sale or utilization by the Lessee; (3-20-20)T

**b.** A royalty of between two percent (2%) and fifteen percent (15%) of the amount or value of any associated by-product derived from production under the lease and sold or utilized or reasonably susceptible of sale or utilization by the Lessee, including commercially demineralized water. (3-20-20)T

**c.** A royalty of between two percent (2%) and five percent (5%) of gross receipts for sale of electrical power. (3-20-20)T

**02. Calculation of Value.** The value of geothermal production from the leased premises for the purpose of computing royalties is based on a total of the following: (3-20-20)T

**a.** The total consideration accruing to the Lessee from the sale of geothermal resources to another party in an arms-length transaction; and (3-20-20)T

**b.** The value of the end product attributable to the geothermal resource produced from a particular lease where geothermal resources are not sold by the Lessee before being utilized, but are instead directly used in manufacturing power production, or other industrial activity; and (3-20-20)T

**c.** The value of all renewable energy credits or similar incentives based on a proportionate share of the leased lands in the entire project area qualifying for the credits. (3-20-20)T

**03. Due Date.** Royalties will be due and payable monthly to the Department on or before the last day of the calendar month following the month in which the geothermal resources and/or their associated by-products are produced and utilized or sold. (3-20-20)T

**04. Utilization of Geothermal Resources.** The Lessee must file with the Department within thirty (30) days after execution a copy of any contract for the utilization of geothermal resources from the lease. Reports of sales or utilization by Lessee and royalty for each productive lease must be filed each month once production begins, even though production may be intermittent, unless otherwise authorized by the Department. Total volumes of geothermal resources produced and utilized or sold, including associated by-products, the value of production, and the royalty due the state of Idaho must be shown. This report is due on or before the last day of the month following the month in which production was obtained and sold or utilized, together with the royalties due the state of Idaho. (3-20-20)T

**05. Measurement.** The Lessee will measure or gauge all production in accordance with methods approved by the Department. The quantity and quality of all production will be determined in accordance with the standard practices, procedures and specifications generally used in industry. All measuring equipment must be tested consistent with industry practice and, if found defective, the Department will determine the quantity and quality of production from the best evidence available. (3-20-20)T

**06. By-Product Testing.** The Lessee will periodically furnish the Department the results of periodic tests showing the content of by-products in the produced geothermal resources. Such tests will be taken as specified by the Department and by the method of testing approved by him, except that tests not consistent with industry practices will be conducted at the expense of the Department. (3-20-20)T

**07. Commingling.** The Department may authorize a Lessee to commingle production from wells on his State lease(s) with production from non-state lands. Department approval of commingling will not be unreasonably withheld, and will consider the following: (3-20-20)T

**a.** The operator's economic necessity of commingling; (3-20-20)T

- b.** The type of geothermal use proposed for the commingled waters; and (3-20-20)T
- c.** Sufficient measurement and accounting of all the commingled waters to ensure that the Department is appropriately compensated by royalties. (3-20-20)T

**037. -- 039. (RESERVED)**

**040. SIZE OF A LEASABLE TRACT.**

**01. Surface Area.** Geothermal leases are not limited in surface area. The Board will determine the surface area of a lease after consultation with other state agencies and prospective Lessees. The probable extent of a geothermal reservoir, the surface area needed for a viable project, and other relevant factors will be used to help determine lease surface area. (3-20-20)T

**02. Navigable Water Courses.** Geothermal resources leases may be issued for state lands underlying navigable water courses in Idaho. Such lands are considered “state lands” and will be leased in accordance with these rules. Operations in the beds of navigable water courses will not be authorized except in necessary circumstances and then only with express written approval of the Board upon such conditions and security as the Department deems appropriate. (3-20-20)T

**041. -- 049. (RESERVED)**

**050. LAND SURFACE USE RIGHTS AND OBLIGATIONS.**

**01. Use and Occupancy.** (3-20-20)T

(3-20-20)T

**b.** Uses occurring on the leased area related to exploration, development, production, or marketing of geothermal resources and associated by-products produced from off-lease lands may require the Lessee to pay additional rent. (3-20-20)T

**02. Supervision.** Uses of state lands within the jurisdiction and control of the Board are subject to the supervision of the Department. Other state lands are subject to the supervision of the appropriate state agency consistent with these rules. (3-20-20)T

**03. Distance from Residence.** No well may be drilled within two hundred (200) feet of any house or barn on the premises, without the written consent of the Department and its surface Lessees, grantees or contract purchasers. (3-20-20)T

**04. Disposal of Leased Land.** The Board reserves the right to sell or otherwise dispose of the surface of the lands embraced with a lease, insofar as said surface is not necessary for the use of the Lessee in the exploration, development and production of the geothermal resources and associated by-products, but any sale of surface rights made subsequent to execution of a lease will be subject to all the terms and provisions of that lease during the life thereof. (3-20-20)T

**05. Damage.** Lessee must pay to the Board, its surface Lessees or grantees or contract purchasers, for any damage done to the surface of said lands and improvements thereon, including without limitation growing crops, by reason of Lessee’s operations. (3-20-20)T

**051. -- 053. (RESERVED)**

**054. EXPLORATION UNDER THE LEASE.**

**01. Diligent Exploration.** Lessees must perform diligent exploration and development activities in the first five (5) years of the initial lease term or as otherwise extended by lease provision. Diligent exploration includes seismic, gravity, and other geophysical surveys, geothermometry studies, drilling temperature gradient wells, or similar activities that seek to determine the presence or extent of geothermal resources. This exploration may occur off-lease if it is being done on the same geothermal field. Failure to perform diligent exploration as described may result in lease cancellation. (3-20-20)T

**02. Casual Exploration.** At any time after formal approval by the Board of a lease application, Lessee may enter upon the leased lands for casual exploration or inspection without notice to the department. As an express condition of an application to lease and of the right of casual inspection without notice, Lessee agrees to the indemnity conditions provided in Section 102 of these rules without a formally executed lease. (3-20-20)T

**03. Plan Required.** Lessee must submit a Research and Analysis Plan to the Department before any exploration using motorized equipment or before otherwise engaging in operations that may lead to an appreciable disturbance or damage to lands, timber, other resources, or improvements on or adjacent to the leased lands. The proposed activities may not start until the Department approves the plan and the applicable preconditions in Sections 100 and 101 of these rules have been satisfied. The plan of operations may be amended as needed with Department approval. The plan includes all items that the Department deems necessary or useful in managing the geothermal resources including, but not limited to, the following: (3-20-20)T

**a.** A narrative statement describing the proposed measures to be taken for protection of the environment, including, but not limited to the prevention or control of: (3-20-20)T

i. Fires; (3-20-20)T

ii. Soil loss and erosion; (3-20-20)T

iii. Pollution of surface and ground waters; (3-20-20)T

v. Air and noise pollution; and (3-20-20)T

vi. Hazards to public health and safety during lease activities. (3-20-20)T

**b.** All pertinent information or data that the department may require to support the plan of operations for the utilization of geothermal resources and the protection of the environment; (3-20-20)T

**055. DEVELOPMENT AND PRODUCTION UNDER THE LEASE.**

**01. Diligent Development of Lease and Production.** Lessee must develop the geothermal resources on their lease area and start production within the first ten (10) years of the initial lease term or as otherwise extended by lease provision. Development of the lease area requires wells to be drilled and other necessary infrastructure to be built. Production on the lease area means that geothermal fluids are being used and royalties are being paid to the state. Failure to develop the lease and start production as described may result in lease cancellation unless the Lessee applies to the Department for an extension and the extension is granted. (3-20-20)T

**02. Best Practices.** All operations will conform to the best practice and engineering principles in use in the industry. Operations must be conducted in such a manner as to protect the natural resources on the leased lands, including without limitation geothermal resources, and to result in the maximum ultimate recovery of geothermal resources with a minimum of waste, and be consistent with the principles of the use of the land for other purposes and of the protection of the environment. Lessee must promptly remove from the leased lands or store, in an orderly manner, all scraps or other materials not in use and not reasonably incident to the operation. (3-20-20)T

**03. Plans Required.** Prior to development, Lessee must submit a Development Plan, Operating Plan,

and Decommissioning and Reclamation Plan for the leased lands. All plans must be approved by the Department, in writing, prior to Lessee beginning a phase of the lease in which those plans are performed or as otherwise required by the lease. All required plans must include all items that the Department deems necessary or useful in managing the geothermal resources, including, but not limited to, those items referred to in Paragraphs 054.03.a. and 054.03.b. of these rules. (3-20-20)T

**04. Waste and Damage.** (3-20-20)T

**a.** Lessee must take all reasonable precautions to prevent the following: (3-20-20)T

i. Waste; (3-20-20)T

ii. Damage to other natural resources; (3-20-20)T

iii. Injury or damage to persons, real or personal property; and (3-20-20)T

iv. Any environmental pollution or damages that may constitute a violation of state or federal laws. (3-20-20)T

**b.** The Department may inspect Lessee's operations and issue such orders as are necessary to accomplish the purposes in Paragraph 055.04.a. Any significant effect on the environment created by the Lessee's operations or failure to comply with environmental standards must be reported to the Department by Lessee within twenty-four (24) hours and confirmed in writing within thirty (30) days. (3-20-20)T

**05. Notice of Production.** Lessee must notify the department within sixty (60) days before any geothermal resources are used or removed for commercial purposes. (3-20-20)T

**06. Amendments.** The plan of operations must be amended by the Lessee for the Department's approval to reflect changes in operations on the leased lands, including the installation of works, buildings, plants or structures for the production, marketing or utilization of geothermal resources. (3-20-20)T

**056. WASTE PREVENTION, DRILLING AND PRODUCTION OBLIGATIONS.**

**01. Waste.** All leases are subject to the condition that the Lessee will, in conducting his exploration, development and producing operations, use all reasonable precautions to prevent waste of geothermal resources and other natural resources found or developed in the leased lands. (3-20-20)T

**02. Diligence.** The Lessee must, subject to the right to surrender the lease, diligently drill and produce, or unitize such wells as are necessary to protect the Board from loss by reason of production on other properties. (3-20-20)T

**03. Prevention of Waste Through Reinjection.** Geothermal Lessees must return geothermal waters to the geothermal aquifer in a manner that supports geothermal development. (3-20-20)T

**04. Additional Requirements.** The selection of the types and weights of drilling fluids and provisions for controlling fluid temperatures, blowout preventers and other surface control equipment and materials, casing and cementing programs, etc., to be used must be based on sound engineering principles and must take into account apparent geothermal gradients, depths and pressures of the various formations to be penetrated and other pertinent geologic and engineering data and information about the area. In addition, the Lessee must do the following: (3-20-20)T

**a.** Take all necessary precautions to keep all wells under control at all times; (3-20-20)T

**b.** Utilize trained and competent personnel; (3-20-20)T

**c.** Utilize properly maintained equipment and materials; and (3-20-20)T

- d. Use operating practices that ensure the safety of life and property. (3-20-20)T

**05. Unused Wells.** Except as provided in Subsection 070.02 of these rules, the Lessee must promptly plug and abandon any well on the leased land that is not used or useful in conformity with regulations promulgated by the IDWR or its successor agency. No production well will be abandoned until its lack of capacity for further profitable production of geothermal resources has been demonstrated to the satisfaction of the Department and the Department has been given an opportunity to either acquire the well permit or assign it to another party. A producible well may be abandoned only after receipt of written approval by the Department. Equipment will be removed, and premises at the well site will be restored as near as reasonably possible to its original condition immediately after plugging operations are completed on any well except as otherwise authorized by the Department. Drilling equipment must not be removed from any suspended drilling well without taking adequate measures to close the well and protect subsurface resources. Upon failure of Lessee to comply with any requirements under this rule, the Department is authorized to cause the work to be performed at the expense of the Lessee and the surety. (3-20-20)T

**057. -- 059. (RESERVED)**

**060. EXPLORATION AND OPERATION RECORDS, CONFIDENTIALITY.**

**01. Drilling Records.** Lessee must keep or cause to be kept and filed with the IDWR such careful and accurate well drilling records as are now or may hereafter be required by that Department. Lessee must file with the Department such production records and exploration evidence as required by Sections 030, 036, and 055 of these rules, which records will be subject to inspection by the public at the offices of the Department during regular business hours under such conditions as the Department deems appropriate, subject, however, to exemptions from disclosure as set forth in Section 74107, Idaho Code. As an express condition of the lease, the Department may inspect and copy well drilling records filed with the IDWR at any time after the records are filed. (3-20-20)T

**02. Continuing Obligations.** Unless Lessee is specifically released in writing by the Department of all or any portion of its obligations under the lease upon the assignment, surrender, termination or expiration of the lease, Lessee's obligations under this rule will continue beyond assignment, surrender, termination or expiration of the lease. Lessee must, within thirty (30) days after assignment, surrender, termination or expiration or such additional time as the Department may grant, file all outstanding data and records required by this rule with the Department. (3-20-20)T

**03. Well Logs.** The confidentiality of well logs is limited to one year from well completion as stated in Section 42-4010(b), Idaho Code. (3-20-20)T

**061. -- 064. (RESERVED)**

**065. LESSEE'S RECORDS, RIGHT OF INSPECTION BY DEPARTMENT.**

Lessee will permit the Department to examine during reasonable business hours all books, records and other documents and matters pertaining to operations under a lease, in Lessee's custody or control, and to make copies of and extracts therefrom. (3-20-20)T

**066. -- 069. (RESERVED)**

**070. WATER RIGHTS.**

**01. Water Rights.** Lessee must comply with all applicable federal and state laws, rules and regulations regarding the appropriation of public waters of Idaho to beneficial uses. The establishment of any new water rights on state lands must be by and for the Lessor and no claim thereto may be made by the Lessee. Such water rights will attach to and become appurtenant to the state lands, and the Lessor will be the owner thereof. (3-20-20)T

**02. Potable Water Discovery.** All leases issued under these rules will be subject to the condition that, where the Lessee finds only potable water of no commercial value as a geothermal resource in any well drilled for exploration or production of geothermal resources, and when the water is of such quality and quantity as to be valuable and usable for agricultural, domestic, or other purpose, the Board, or where appropriate, the surface Lessee, grantee or contract purchaser, will have the right to acquire the well with whatever casing is installed in the well at the

fair market value of the casing, and upon the assumption of all future liabilities and responsibilities for the well, with the approval of the director of the IDWR. (3-20-20)T

**071. -- 074. (RESERVED)**

**075. ASSIGNMENTS.**

**01. Prior Written Approval.** In order for Lessee to effect an assignment, Lessee must, prior to the consummation of an effective sale, transfer or assignment of the lease between Lessee and its proposed assignee, provide to the Department certain information about the proposed assignment, including identification of the proposed assignee and general terms of the proposed assignment on assignment application forms provided by the Department. Any proposed total or partial assignment of a lease must be preapproved in writing by the Department prior to any proposed sale, transfer or assignment of the lease is consummated between Lessee and the proposed assignee. Approval will not be unreasonably withheld. Following the Department's written preapproval of the proposed assignee and general terms of the proposed assignment, Lessee and assignee may consummate any such sale, transfer or assignment of Lessee's leasehold interest in the lease. The consummation of any assignment agreement by the Lessee without the Department's prior written preapproval constitutes a default of the lease, and such sale, transfer or assignment may be rejected in the Department's sole discretion; and, such assignment will only be effective if the default is expressly waived in writing by the Department. In order for an assignment of Lessee's interest in the lease to be acceptable for approval by the Department, the consummated sale, transfer or assignment must include provisions wherein Lessee has sold, transferred or assigned to the assignee any and all interest that Lessee has in the lease together with any and all interest Lessee has in any and all improvements located upon the leased premises, and assignee must assume all liabilities of Lessee under the lease together with ownership of all improvements owned by Lessee. An assignment between Lessee and its assignee will only take effect following the Department's final written approval of the assignment following receipt of copies of the final, consummated sale, transfer or assignment agreement between Lessee and assignee. (3-20-20)T

**02. Full or Partial.** A lease may be assigned as to all or part of the acreage included therein to any person qualified to hold a state lease, provided that neither the assigned nor the retained part created by the assignment contains less than forty (40) acres. No undivided interest in a lease of less than ten percent (10%) may be created by assignment. (3-20-20)T

**03. Overriding Royalty Disclosure.** Overriding royalty interests created by an assignment are subject to the requirements in Section 080 of these rules. (3-20-20)T

**04. Responsibility.** In an assignment of a partial or complete interest in all of the lands in a lease, the assignor and its surety continue to be responsible for performance of any and all obligations under the lease until such time as the Department, in writing, releases Lessee and its surety from obligations arising under the lease after the Department accepts any such assignment and provides a release of any or all obligations in writing. After the effective date of any assignment, the assignee and its surety will be bound by the terms of the lease to the same extent as if the assignee were the original Lessee, any conditions in the assignment to the contrary notwithstanding. (3-20-20)T

**05. Segregation of Assignment.** An assignment of all or any portion of Lessee's record title of the complete interest in a portion of the lands in a lease must clearly identify and segregate the assigned and retained portions. After the effective date, the assignor will be released and discharged from any obligations thereafter accruing with respect to the assigned portion of the leased lands. Such segregated leases continue in full force and effect for the primary term of the original lease or as further extended pursuant to the terms of these rules. (3-20-20)T

**06. Joint Principal.** Where an assignment does not segregate the record title to the lease, the assignee, if the assignment so provides, may become a joint principal on the bond with the assignor. The application must also be accompanied by a consent of assignor's surety to remain bound under the bond of record, if the bond, by its terms, does not contain such consent. If a party to the assignment has previously furnished a statewide bond, no additional showing by such party is necessary as to the bond requirement. (3-20-20)T

**07. Application.** The application for approval of an assignment must be on forms approved by the Department. (3-20-20)T

**08. Denial.** If the Lessee is in default of the lease at the time of a request for assignment approval, the Department may, at its sole discretion, reject any proposed assignment until the lease is brought into full compliance. The approval of an assignment of lease in good standing will not be unreasonably withheld provided such consent of the Department is requested and obtained prior to any assignment. (3-20-20)T

**076. -- 079. (RESERVED)**

**080. OVERRIDING ROYALTY INTERESTS.**

**01. Statements.** An overriding royalty interest, or any similar interest whereby an agreement is made to pay a percentage based on production, must be disclosed at the time of assignment or transfer by filing a statement of such interest with the Department. Assignees must meet the requirements of Section 021 of these rules. All assignments of overriding royalty interests without a working interest and otherwise not contemplated by Section 075 of these rules, must be filed with the Department within ninety (90) days from the date of execution. (3-20-20)T

**02. Maximum Amount.** No overriding royalty on the production of geothermal resources created by an assignment contemplated by Section 075 of these rules or otherwise will exceed five percent (5%) nor will an overriding royalty, when added to overriding royalties previously created, exceed five percent (5%). (3-20-20)T

**03. Conformance with Rules.** The creation of an overriding royalty interest that does not conform to the requirements of this rule is be deemed a violation of the lease terms, unless the agreement creating overriding royalties provides for a prorated reduction of all overriding royalties so that the aggregate rate of overriding royalties does not exceed five percent (5%). (3-20-20)T

**04. Director's Authority.** In addition to the foregoing limitations, any agreement to create or any assignment creating royalties or payments out of production from the leased lands is subject to the authority of the Director, after notice and hearing, to require the proper parties thereto to suspend or modify such royalties or payments out of production in such manner as may be reasonable when and during such periods of time as they may constitute an undue economic burden upon the reasonable operations of such lease. (3-20-20)T

**081. -- 084. (RESERVED)**

**085. UNIT OR COOPERATIVE PLANS OF DEVELOPMENT OR OPERATION.**

**01. IDWR Approval.** Nothing in this rule will excuse the parties to a unit agreement from procuring the approval of the IDWR pursuant to Section 42-4013, Idaho Code, if approval is required. (3-20-20)T

**02. Unit Plan.** For the purpose of conserving the natural resources of any geothermal pool, field or like area, Lessees under lease issued by the Board are authorized, with the written consent of the Department, to commit the state lands to unit, cooperative or other plans of development or operation with other state lands, federal lands, privately-owned lands or Indian lands. Departmental consent will not be unreasonably withheld. Applications to unitize, or a copy of the application filed with IDWR, will be filed with the Department who will certify whether such plan is necessary or advisable in the public interest. The Department may require whatever documents or data that the Department deems necessary in its reasonable discretion. To implement such unitization, the Board may with the consent of its Lessees modify and change any and all terms of leases issued by it that are committed to such unit, cooperative or other plans of development or operations. (3-20-20)T

**03. Contents.** The agreement must describe the separate tracts comprising the unit, disclose the apportionment of the production of royalties and costs to the several parties, and the name of the operator, and must contain adequate provisions for the protection of the interests of all parties, including the state of Idaho. The agreement should be signed by or in behalf of all interested necessary parties before being submitted to the Department. It will be effective only after approval by the Department. The unit operator must be a person as defined by these rules and must be approved by the Department. (3-20-20)T

**04. Lease Modification.** Any modification of an approved agreement will require approval of the Department under procedures similar to those cited in Subsection 085.02 of these rules. (3-20-20)T

**05. Term.** At the sole discretion of the Department, the term of any leases included in any cooperative or unit plan of development or operation may be extended for the term of such unit or cooperative agreement, but in no event beyond that time provided in Subsection 030.01 of these rules. Rentals or royalties on leases so extended may be reassessed for such extended term of the lease. (3-20-20)T

**06. Continuation of Lease.** Any lease that will be eliminated from any such cooperative or unit plan of development or operation, or any lease that will be in effect at the termination of any such cooperative or unit plan of development or operation, unless relinquished, will continue in effect for the term of the lease. (3-20-20)T

**07. Evidence of Agreement.** Before issuance of a lease for lands within an approved unit agreement, the lease applicant or successful bidder will be required to file evidence that they have entered into an agreement with the unit operator for the development and operation of the lands in a lease if issued to him under and pursuant to the terms and provisions of the approved unit agreement, or a statement giving satisfactory reasons for the failure to enter into such agreement. If such statement is acceptable, the lease applicant or successful bidder will be permitted to operate independently, but will be required to perform his operations in a manner that the Department deems to be consistent with the unit operations. (3-20-20)T

**086. -- 094. (RESERVED)**

**095. SURRENDER, TERMINATION, EXPIRATION OF LEASE.**

**01. Procedure.** A lease, or any surveyed subdivision of the area covered by such lease, may be surrendered by the record title holder by filing a written relinquishment in the office of the Department, on a form furnished by the Department, provided that a partial relinquishment does not reduce the remaining acreage in the lease to less than forty (40) acres. The minimum acreage provision of this section may be waived by the Department where the Department finds such exception is justified on the basis of exploratory and development data derived from activity on the leasehold. The relinquishment must: (3-20-20)T

**a.** Describe the lands to be relinquished; (3-20-20)T

**b.** Include a statement as to whether the relinquished lands had been disturbed and, if so, whether they were restored as prescribed by the terms of the lease; and (3-20-20)T

**c.** State whether wells had been drilled on the lands and, if so, whether they have been plugged and abandoned pursuant to the rules of the IDWR. (3-20-20)T

**02. Continuing Obligations.** A relinquishment takes effect on the date it is filed, subject to the continued obligation of the Lessee and his surety: (3-20-20)T

**a.** To make payments of all accrued rentals and royalties; (3-20-20)T

**b.** To place all wells on the land to be relinquished in condition for suspension of operations or abandonment; (3-20-20)T

**c.** To restore the surface resources in accordance with these rules and the terms of the lease; and (3-20-20)T

**d.** To comply with all other environmental stipulations provided for by these rules or lease. (3-20-20)T

**03. Failure to Pay Rental or Royalty.** The Director may terminate a lease for failure to pay rentals or royalties thirty (30) days after mailing a notice of delinquent payment. However, if the time for payment falls upon any day in which the office of the Department is not open, payment received on the next official working day will be deemed to be timely. The termination of the lease for failure to pay the rental will be noted on the official records of the Department. Upon termination the lands included in such lease may become subject to leasing as provided by these rules. (3-20-20)T

**04. Termination for Cause.** A lease may be terminated by the Department for any violation of these rules, or the lease terms, sixty (60) days after notice of the violation has been given to Lessee by personal service or certified mail, return receipt requested, to the address of record last appearing in the files of the Department, unless: (3-20-20)T

**a.** The violation has been corrected; or (3-20-20)T

**b.** The violation is one that cannot be corrected within the notice period and the Lessee has in good faith commenced within the notice period to correct the violation and thereafter proceeds diligently to complete the correction. (3-20-20)T

**05. Equipment Removal.** Prior to the expiration of the lease, or the earlier termination or surrender thereof pursuant to this rule, and provided the Lessee is not in default, the Lessee will have the privilege at any time during the term of the lease to remove from the leased premises any materials, tools, appliances, machinery, structures, and equipment other than improvements needed for producing wells. Any materials, tools, appliances, machinery, structures and equipment subject to removal, but not removed prior to any termination of the lease or any extension thereof that may be granted because of adverse climatic conditions during that period, will, at the option of the Department, become property of the state of Idaho, but the Lessee must remove any or all such property where so directed by the Department. (3-20-20)T

**06. Surrender After Termination.** Upon the expiration or termination of a lease, the Lessee will quietly and peaceably surrender possession of the premises to the state, and if the Lessee is surrendering the leased premises or any portion thereof, the Lessee must deliver to the state a good and sufficient release on a form furnished by the Department. (3-20-20)T

**096. -- 099. (RESERVED)**

## **100. BOND REQUIREMENTS.**

**01. Minimum Bond.** Prior to initiation of operations using motorized earth-moving equipment Lessee must furnish a bond. This bond will be in favor of the state of Idaho, conditioned on the payment of all damages to the land surface and all improvements thereon, including without limitation crops on the lands, whether or not the lands under this lease have been sold or leased by the Board for any other purpose; conditioned also upon compliance by Lessee of his obligations under this lease and these rules. The Department may require a new bond in a greater amount at any time after operations have begun, upon a finding that such action is reasonably necessary to protect state resources. (3-20-20)T

**02. Statewide Bond.** In lieu of the aforementioned bonds, Lessee may furnish a good and sufficient "statewide" bond conditioned as in Subsection 100.01. This bond will cover all Lessee's leases and operations carried on under all geothermal resource leases issued and outstanding to Lessee by the Board at any given time during the period when the "statewide" bond is in effect. The amount of such bond will be equal to the total of the requirements of the separate bonds being combined into a single bond. (3-20-20)T

**03. Period of Liability.** The period of liability of any bond will not be terminated until all lease terms and conditions have been fulfilled and the bond is released in writing by the Department. (3-20-20)T

**04. Operator Bond.** In the event suit is filed to enforce the terms of any bond furnished by an operator in which the Lessee (if a different person) is not a named party, the Department may, in its sole discretion, join the Lessee as a party to such suit. (3-20-20)T

## **101. LIABILITY INSURANCE.**

**01. Liability Insurance Required.** The Department will require the Lessee to purchase and maintain suitable insurance for the duration of the lease prior to entry upon the leased lands for other than casual exploration or inspection as contemplated by Subsection 054.02 of these rules. (3-20-20)T

**02. Insurance Certificate Required.** No work under this lease will commence prior to the Department's receipt of a certificate, signed by a licensed insurance agent, evidencing existence of insurance as required above. Further, such certificate must reflect that no change or cancellation in such coverage will become effective until after the Department receives written notice of such change or cancellation. (3-20-20)T

**102. -- 104. (RESERVED)**

**105. TITLE.**

The state of Idaho does not warrant title to the leased lands or the geothermal resources and associated by-products that may be discovered thereon; the lease is issued only under such title as the state of Idaho may have as of the effective date of the lease or thereafter acquire. If the interest owned by the state in the leased lands includes less than the entire interest in the geothermal resources and associated by-products for which royalty is payable, then the royalties provided for in the lease will be paid to the state only in the proportion that its interest bears to said whole and undivided interest in said geothermal resources and associated by-products for which royalty is payable; provided, however, that the state is not liable for any damages sustained by the Lessee, nor is the Lessee entitled to or may claim any refund of rentals or royalties therefore paid to the state in the event that the state does not own title to said geothermal resources and associated by-products, or if its title thereto is less than whole and entire. (3-20-20)T

**106. -- 110. (RESERVED)**

**111. TAXES.**

Lessee must pay, when due, all taxes and assessments of any kind lawfully assessed and levied against Lessee's interests or operations under the laws of the state of Idaho. (3-20-20)T

**112. RENTAL NOTICES.**

Advance notice of rental due is usually sent to the Lessee by the Department, but failure to receive such notices does not act to relieve the Lessee from the payment of the rental and the lease will be in default if such payment is not made as provided in these rules. (3-20-20)T

**113. OUTSTANDING LEASES.**

No right to seek, obtain or use geothermal resources has passed or will pass with any existing or future license, permit or lease of state lands, including without limitation, mineral leases and oil and gas development leases, except upon the issuance of a geothermal resources lease. (3-20-20)T

**114. -- 119. (RESERVED)**

**120. FEES.**

The following fees apply: (3-20-20)T

**01. Non-Refundable Application Fee for Lease.** Two hundred fifty dollars (\$250) per application. (3-20-20)T

**02. Application Fee for Approval of Assignment.** One hundred fifty dollars (\$150) per lease involved in the assignment. (3-20-20)T

**03. Late Payment Fee.** The greater of the following: (3-20-20)T

**a.** Twenty-five dollars (\$25); or (3-20-20)T

**b.** One percent (1%) per month (or portion thereof) on the unpaid balance. (3-20-20)T

**121. -- 999. (RESERVED)**

Advance Annual Rental, in the amount required by Section 022 for any additional and each succeeding year, must be received by the Department prior to the expiration date and entitles the Lessee to hold the lease only as long as drilling or rework operations are pursued in accord with these rules. There will be no refund of unused rental. (3-20-20)T

**d.** Abandonment. During any additional or succeeding year of any lease, cessation of production for a period of six (6) months is considered as abandonment. The lease will then automatically terminate at its next anniversary date unless the Director determines that such cessation of production is justified or the well meets the requirements of a shut in well under Subsection 022.02.e. (3-20-20)T

**e.** Suspension of Production. The Director may grant a suspension of production not to exceed one (1) year upon a written application showing that the lessee is unable to market oil or gas from a well located on the leased premises capable of oil and gas production in paying quantities due to a lack of suitable production facilities or a suitable market for the oil or gas and such conditions are outside the reasonable control of lessee and the lease is not being otherwise maintained in force and effect. If such well is shut in and the Director approves the application for suspension of production requirements prior to the expiration or termination of the lease, then the lease will be extended in accordance with the terms of Section 47-801, Idaho Code, for a period of one (1) year if the lessee timely submits an application in a form approved by the Director and, upon approval of said application, pays a shut-in royalty in the amount equal to double the annual rental provided for by these rules for each well capable of producing oil or gas in paying quantities. The lessee must remit the shut-in royalty payment while the lease is otherwise maintained in force and effect. Payment of shut-in royalty after the expiration or other termination of the lease will not revive or extend the lease. The Lessee may request continuation of this suspension of production, provided such request is received in writing by the Director at least thirty (30) days prior to the expiration date of the period of suspension. (3-20-20)T

**03. Nominating a Tract for Auction.** A tract may be nominated for auction either by application to the Department at least ninety (90) days prior to a Department-defined close of auction date, or by Department nomination at least ninety (90) days prior to a Department- defined close of auction date. Any qualified person may nominate a tract for lease auction by submitting a nomination to the Department, and paying the nomination fee in an amount determined by the Board, during regular business hours on the Department nomination form. Each nominated tract must be a maximum size of six hundred forty (640) acres or one section. The nominating person may propose that multiple tracts be included in a single lease. Each nomination for a tract for auction is deemed an offer by the nominating person to lease the tract for the advance annual rental amount as defined in Subsection 022.02 above. (3-20-20)T

**04. Withdrawing a Tract for Auction.** Any person nominating a tract for auction may withdraw their nomination if a request for such withdrawal is received by the Department at least ten (10) business days prior to the opening date of auction. The nomination fee will not be refunded. (3-20-20)T

**05. Auction Conditions.** The Department will determine the conditions associated with the auction including, but not limited to, the following: when or if a tract will be offered for auction; whether the tract is to be removed from the auction; whether multiple tracts will be combined in a single lease at the discretion of the Department; and any disclaimers, additional information, and any other such terms and conditions associated with the auction of the tracts. Any such terms and conditions, disclaimers, and additional information will be posted on the Department's website. (3-20-20)T

**06. Lease Information for Auction.** For each lease to be auctioned, the Department will provide on the website the following: a lease number designated by the Department; the legal description; the lease length; the number of acres; a minimum bid per acre; a lease template; any lease stipulations; any other lease information; a specific date designated for the beginning and ending dates that a bidder may conduct due diligence; a specific date designated for the opening of auction; and a close of auction date. A notice of lease auction will be published at least once per week for the four (4) consecutive weeks prior to the date of auction in a newspaper in general circulation in the county in which the nominated lease is located and in a newspaper in general circulation in Ada County. (3-20-20)T

**07. Auction Procedure.** The Department will determine the procedures associated with the auction,

including, but not limited to place of auction, time of auction, and bidder registration procedure. Additional auction procedures are as follows. (3-20-20)T

**a.** Bid Increments. The minimum bid increment is one dollar (\$1). (3-20-20)T

**b.** Winning Bid. At close of auction, the winning bid for a Lessee is the number of dollars bid multiplied by the number of acres in the lease, with fractions of an acre rounded up to the next whole acre. If, at close of auction, a bid for a lease has not been submitted by a bidder, then the lease will be awarded to the nominating applicant. The entry of a bid constitutes an enforceable contractual obligation. (3-20-20)T

**c.** Amount Due. The amount due for a lease is the winning bid, plus the first year's annual rental amount as per Subsection 022.02, plus the nomination fee. If the winning bid was submitted by the nominator of the tract(s), then the nomination fee will already have been submitted to the Department and will not be included in the amount due. The nominator will be refunded the nomination fee if they are not the winning bidder. (3-20-20)T

**d.** Transfer of Funds. Unless otherwise required in the notice of auction, the winning bidder for each lease has five (5) full business days after close of auction to complete the transfer of funds to the Department. Failure of the winning bidder to transfer funds within the period specified constitutes a breach of contract, and the state may pursue any action or remedy at law or in equity against the winning bidder. (3-20-20)T

**08. Execution of Lease.** The completed lease will be executed by the winning bidder within thirty (30) days from the date of mailing after close of auction, or if personally delivered to the applicant or his agent by the Department, within thirty (30) days from the date of receipt. An individual who executes a lease on behalf of another Person must submit a power of attorney outlining such delegated authority. (3-20-20)T

**023. -- 044. (RESERVED)**

**045. ROYALTIES.**

**01. Royalty Payments.** Unless otherwise specified by the Board, the lessee will pay to the state of Idaho in money or in kind to the state at its option a royalty of no less than twelve and one-half percent (12.5%) of the oil and/or gas or natural gas plant liquids produced and saved. The lessee will make payments in cash unless written instructions for payment in kind are received from the state. Royalty is due on all production from the leased premises except that consumed for the direct operation of the producing wells and that lost through no fault of the lessee. (3-20-20)T

**02. Royalty Not Reduced.** Where royalties are paid in cash, costs of marketing, transporting and processing oil and/or gas or natural gas plant liquids or all of them produced are borne entirely by the lessee, and such cost will not reduce the lessor's royalty directly or indirectly. If the Director elects to take royalty in kind, the state will reimburse the lessee for reasonable additional storage and transportation costs. (3-20-20)T

**03. Oil, Gas, and Natural Gas Plant Liquids Royalty Calculation and Reporting.** All royalty owed to the lessor hereunder and not paid in kind at the election of the lessor will be paid to the lessor in the following manner: (3-20-20)T

**a.** Payment of royalty on production of oil is due and must be received by the lessor on or before the 65th day after the month of production; (3-20-20)T

**b.** Payment of royalty on production of gas and natural gas plant liquids is due and must be received by the lessor on or before the 95th day after the month of production; (3-20-20)T

**c.** All royalty payments must be completed in the form and manner approved by the Department including, but not limited to, the gross amount and disposition of all oil, gas, and natural gas plant liquids produced and the market value of the oil, gas, and natural gas plant liquids; (3-20-20)T

**d.** Lessee must maintain, and make available to the lessor upon request, copies of all documents, records or reports confirming the gross production, disposition and market value, including gas meter readings,

pipeline receipts, gas line receipts and other checks or memoranda of the amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records that the lessor may require to verify the gross production, disposition and market value; and (3-20-20)T

e. Each royalty payment must be accompanied by a check stub, schedule, summary or other remittance advice showing, by the assigned lessor lease number, the amount of royalty being paid on each lease. (3-20-20)T

**04. Overriding Royalty.** All assignments of overriding royalty without a working interest made directly by the lessee and not included with an assignment of lease must be filed with the Department with the processing fee within ninety (90) days from the date of execution; provided that it is the lessee's responsibility, and not the Department's, to process such assignments by third parties. Any assignment that creates an overriding royalty exceeds the royalty previously payable to the state by greater than five percent (5%), is deemed a violation of the terms of the lease unless such an assignment expressly provides that the obligation to pay such excess overriding royalty is suspended when the average production of oil per well per day, averaged on a monthly basis, is fifteen (15) barrels or less. (3-20-20)T

**046. -- 049. (RESERVED)**

**050. LAND USE, SURFACE RIGHTS AND OBLIGATIONS.**

**01. Use and Occupancy.** Notwithstanding other leases for other uses of state lands, the lessee is entitled to use and occupy as much of the surface of the leased lands as may be required for all purposes reasonably incident to exploration, drilling and production and marketing of oil and gas produced from the leased land, including the right to construct and maintain all works, buildings, plants, waterways, roads, communication lines, pipelines, reservoirs, tanks pumping stations or other structures necessary to full enjoyment and development; provided that lessee's operation does not unreasonably interfere with or endanger operations under any lease, license, claim, permit or other authorized, lawful use. (3-20-20)T

**02. Prevention of Injury or Damage.** The lessee, its assignees, agents, and/or contractors must take all reasonable precautions to prevent injury or damage to persons, real and personal property and to prevent waste or damage to the oil, gas and other surface and subsurface natural resources and the surrounding environment including but not limited to, vegetation, livestock, fish and wildlife and their natural habitat, streams, rivers, lakes, timber, forest and agricultural resources. The Lessee, his assignees, agents and/or contractors will compensate the Board, his surface lessees, grantees or contract purchasers for any damage resulting by reason of their operations or any damage resulting from their failure to take all reasonable precautions to prevent injury or damage to persons, real and personal property and to prevent waste or damage to the oil, gas and other surface and subsurface natural resources and surrounding environment as set forth above. The lessee, its assignees, agents and/or contractors must comply with all environmental laws, rules and regulations as they pertain to its operation. (3-20-20)T

**03. Blowout or Spill.** The lessee must report to the Director any blowout, fire, uncontrolled venting, or oil spill on the leased land within twenty-four (24) hours and confirm this report in writing within ten (10) days. (3-20-20)T

**04. Fences.** The lessee may not at any time fence any watering place upon leased lands where it is the only accessible and feasible watering place upon the lands within a radius of one (1) mile, without first having secured the written consent of the Director. (3-20-20)T

**05. Timber Removal.** The lessee may not unreasonably interfere with the removal of timber purchased prior or subsequent to the issuance of an oil and gas lease. The lessee may remove any timber required for ingress or egress or necessary for operations. The lessee must pay for any timber cut or removed on a current stumpage price basis as determined by the Director, and proceeds therefrom accrue to the state agency that has custody and control over the leased lands. (3-20-20)T

**06. Potable Water Discovery.** If the lessee finds only potable water in any well drilled for exploration or production of oil and gas, and the water is of such quality and quantity as to be valuable and usable for agricultural, domestic, or other purposes, the Board may acquire the well with whatever casing is installed in the well at the fair

market value of the casing upon the assumption by its surface lessee, grantee, or contract purchaser of all future liabilities and responsibilities for the well, with the approval of the commission and in compliance with Section 058; provided that the surface lessee, grantee, or contract purchaser also complies with applicable laws and rules of the Department of Water Resources. (3-20-20)T

**07. Reclamation.** The lessee must reclaim all state lands disturbed by its exploration and operations at least consistent with previous use by the surface owner, including segregating and protecting topsoil and regrading to approximate previous contour. If substantial removal of topsoil has occurred as determined by the Director, the lessee will replace the topsoil and revegetate to the extent necessary to minimize erosion. (3-20-20)T

**08. Entry by Director.** The Director is permitted at all reasonable times to go in and upon the leased lands and premises to inspect the operations and the products obtained and to post any lawful notice. The Director may at any time require that reasonable tests, surveys, samples, etc., be taken in accord with his instruction, without cost to the state of Idaho, to assure compliance with these rules. The Director may at any reasonable time inspect and copy at his own expense all of lessee's books and records pertaining to a lease under these rules. Upon failure of lessee to take timely, corrective measures ordered by the Director or the Board or the commission, the Director may shut down lessee's operations if he determines they are unsafe or are causing or may cause waste or pollution to oil, gas or other resources; or the Director may terminate the lease and cause damage or unsafe conditions to be repaired or corrected at the expense of the lessee and forfeiture of bond in accordance with these rules. (3-20-20)T

**09. Other Uses.** Subject to Subsection 050.01, the Director may issue leases for other uses of state lands leased under these rules. All lessees have the right of reasonable ingress and egress at all times during the term of the lease. (3-20-20)T

**10. Disposal of Leased Lands.** The Board reserves the right to sell or otherwise dispose of the surface of the leased lands; provided that any sale of surface rights made subsequent to execution of the lease is subject to all terms and provisions of the oil and gas lease during its life including extensions and continuations under Section 040. (3-20-20)T

**051. DILIGENT EXPLORATION REQUIRED.**

The lessee must perform diligent exploration during the entire term of a lease. Diligent exploration means that the lessee provides continuing efforts as a reasonably prudent operator toward achieving production, including, without limitation, performing geological and geophysical surveys and/or the drilling of a test well. (3-20-20)T

**052. -- 054. (RESERVED)**

**055. OPERATIONS UNDER THE LEASE.**

**01. Best Practices.** The lessee will at all times conduct exploration, development, drilling and all operations as a reasonably prudent operator and conform to the best practice and engineering principles in use in the oil and gas industry. (3-20-20)T

**02. Compliance with Rules.** The lessee will comply with all rules of the oil and gas commission, including amendments promulgated pursuant to Title 67, Chapter 52, Idaho Code, and any violations of the commission's rules or other applicable state laws and rules may constitute a violation of the lease under these rules. (3-20-20)T

**03. Designation of Operator.** In all cases where operations are not conducted by the lessee but are to be conducted under authority of an approved operating agreement, assignment or other arrangement, a designation of operator must be submitted to the Director prior to commencement of operations. Such a designation authorizes the operator or his local representative to act for the lessee and to sign any papers or reports required under these rules. The lessee must immediately report to the Director all changes of address and termination of the authority of the operator. (3-20-20)T

**04. Legal Representative.** When required by the Director, the lessee must designate a local representative empowered to receive service of civil or criminal process and notices and orders of the Director issued pursuant to these rules. (3-20-20)T

**05. Diligence.** The lessee will, subject to the right to surrender the lease, diligently drill and produce such wells as are necessary to protect the Board from loss by reason of production on other properties, or with the consent of the Director, compensate the Board for failure to drill and produce any such well. All wells under lease must be drilled, maintained and operated to produce the maximum amount of oil and/or gas that can be secured without injury to the well. (3-20-20)T

**06. Loss Through Waste or Failure to Produce.** The Director will determine the value of production accruing to the Board where there is loss through waste or failure to drill and produce protection wells on the leased lands and the compensation due to the Board as reimbursement for such loss. Payment for such losses must be made within sixty (60) days after the date of billing. The value of production resulting from a loss through waste or failure to take corrective measures to protect a well is calculated at ninety percent (90%) of the last year's actual production royalty or a minimum royalty of five dollars (\$5) per acre or fraction thereof, whichever is greater. (3-20-20)T

**07. By-Products.** Where production, use or conversion of oil and gas under a lease, is susceptible of producing a valuable by-product or by-products, including, without limitation, commercially demineralized water, carbon dioxide or helium, the lessee must submit to the Director all available information concerning the potential by-product. The Department may conduct tests or studies at its expense and may issue reasonable orders to produce and preserve such by-product. (3-20-20)T

**08. Geothermal Information.** Prior to abandoning any well, the lessee must submit to the Director all available information concerning geothermal resource potential. The Department may conduct tests or studies at its expense prior to the abandoning of any well to determine geothermal resource potential. Except as provided in Subsection 040.05, the lessee must promptly plug and abandon any well on the leased land that is not used or useful, in accord with these rules and the rules of the commission, and any applicable rules and regulations of the Department of Water Resources. When drilling in a known geothermal resources area, the applicant may need a geothermal resource well permit from the Department of Water Resources. (3-20-20)T

**056. WATER RIGHTS.**

The lessee will comply with all state laws and rules regulating the appropriation of water rights. No water rights developed or obtained by the lessee in conjunction with operations under a lease may be sold, assigned or otherwise transferred without written approval of the Director. Upon surrender, termination or expiration of the lease, the lessee must take all actions required by the Director to assign to the Board all water rights, including applications and permits, subject to applicable laws regarding the transfer or assignment of permits to appropriate water. (3-20-20)T

**057. -- 059. (RESERVED)**

**060. ASSIGNMENTS.**

**01. Prior Written Approval.** No lease assignment is valid until approved in writing by the Director, and no assignment takes effect until the first day of the month following its approval. (3-20-20)T

**02. Qualified Assignee.** A lease may be assigned to any person qualified to hold a state lease, provided that in the event an assignment partitions leased lands between two (2) or more persons, neither the assigned nor the retained part created by the assignment may contain less than forty (40) acres or a government lot, whichever is less. (3-20-20)T

**03. Responsibilities.** In an assignment of the complete interest of the leasehold, the assignor and his surety continue to comply with the lease and these rules until the effective date of the assignment. After the effective date of any assignment, the assignee and his surety are bound by the lease and these rules to the same extent as if the assignee were the original lessee, notwithstanding any conditions in the assignment to the contrary; however, the assignor-lessee remains liable for rentals and royalties due and damages accruing prior to the effective date of the assignment. (3-20-20)T

**04. Segregation of Assignment.** If an assignment partitions leased lands between two (2) or more persons, it must clearly segregate the assigned and retained portions of the leasehold. Resulting segregated leases continue in full force and effect for the balance of the ten-year term of the original lease or as further extended

pursuant to these rules.

(3-20-20)T

**05. Joint Principal.** Where an assignment does not segregate the record title to the lease, the assignee, if the assignment so provides, may become a joint principal on the bond with the assignor. The application must be accompanied by a consent of assignor's surety to remain bound under the bond of record, if the bond by its terms does not contain such consent. If a party to the assignment has previously furnished a statewide bond, no additional showing by such party is necessary as to the bond requirement.

(3-20-20)T

**06. Form of Assignment.** An assignment is a valid legal instrument, properly executed and acknowledged, setting forth the number of the lease, a legal description of the land involved, the name and address of the assignee, the interest transferred and the consideration. A fully executed copy of the instrument of assignment must be filed with the application for approval pursuant to Subsection 060.07. An assignment may affect or concern more than one (1) lease.

**07. Application.** The application for approval of an assignment must be submitted in duplicate on forms of the Department or exact copies of such forms. The "lessee/assignee of record" must be designated in accordance with Subsection 010.11. If payments out of production are reserved, a statement must be submitted stating the amount, method of payment, and other pertinent items. The statement must be filed with the Department no later than fifteen (15) days after the filing of the application for approval.

(3-20-20)T

**08. Denial.** The Director may deny an application for assignment if the lessee or the assignee is delinquent in payment of rentals or royalties or otherwise has violated these rules.

(3-20-20)T

**09. Fee.** All applications for approval of assignment must be accompanied by the fee required by Section 120.

(3-20-20)T

**061. -- 069. (RESERVED)**

**070. SURRENDER - RELINQUISHMENT.**

**01. Procedure.** The lessee may surrender its lease or any surveyed subdivision of the area covered by such lease, by filing a written relinquishment with the Department, provided that a partial relinquishment does not reduce the remaining acreage in the lease to less than forty (40) acres or a government lot, whichever is less. The Director may waive the minimum acreage provision of this rule if he finds it is justified on the basis of exploratory and development data derived from activity on the leasehold.

(3-20-20)T

**02. Effective Date.** A relinquishment takes effect thirty (30) days after it is received by the Department. Thereafter the lessee is relieved of liability under these rules except for the continued obligation of the lessee and his surety to:

(3-20-20)T

- a.** Make payments of all accrued rentals and royalties; (3-20-20)T
- b.** Place all wells on the land to be relinquished in condition for suspension of operations or abandonment; (3-20-20)T
- c.** Comply with all rules of the commission for plugging of abandoned wells; (3-20-20)T
- d.** Comply with applicable laws and rules of the Department of Water Resources; and (3-20-20)T
- e.** Reclaim the surface and natural resources in accord with these rules. (3-20-20)T

**03. Partial Surrender.** In the event of a partial surrender of the land covered by such lease, the annual rental thereafter payable will be reduced proportionately.

(3-20-20)T

**071. TERMINATION - CANCELLATION OF LEASE.**

- 01. Cause.** Except as otherwise provided in these rules, the Director may terminate the lease for any

substantial violation of these rules, the lease, or the rules of the commission, ninety (90) days after notice of the violation has been given to lessee by personal service or by certified mail to the lessee, unless: (3-20-20)T

a. The violation has been corrected; or (3-20-20)T

b. The violation is one that cannot be corrected within the notice period and the lessee has in good faith commenced within the notice period to correct the violation and proceeds diligently to complete corrective action within a time period set by the Director. If sent by certified mail, such notice will be deemed served upon mailing. (3-20-20)T

**02. Surrender After Termination.** Upon the expiration or termination of the lease, the lessee will quietly and peaceably surrender possession of the premises to the state. Thereafter, lessee's obligations under these rules that have accrued prior to the date of expiration or termination continue in full force and effect. (3-20-20)T

**03. Other Wells.** Default by the lessee in the performance of any of the conditions or provisions of the lease concerning a well or wells on any legal subdivision of the leasehold do not affect the right of the lessee to continue the possession or operation of any other well or wells, situated upon any other legal subdivision of the leasehold. The term "legal subdivision" as herein used means a subdivision as established by the United States land survey that most nearly approximates in size the area allocated to one well under any approved well spacing program; provided that if no special program has been approved, "legal subdivision" means the parcel upon which such well is located, but in any event not less than forty (40) acres surrounding such well. Where such a default involving one (1) or more wells results in cancellation, and the lessee has other wells on the lease not in default, such cancellation will result in the division of the defaulting acreage from the lease and resultant reduction in the size of the lease held by the lessee. (3-20-20)T

**04. Equipment Removal.** Upon the expiration of the lease, or its earlier termination or surrender pursuant to these rules, the lessee must, within a period of ninety (90) days, remove from the premises all materials, tools, appliances, machinery, structures. Equipment subject to removal but not removed within the ninety (90) day period or any extension that may be granted because of adverse climatic conditions during that period, may, at the option of the Director, become property of the state of Idaho, or the Director may cause the property to be removed at the lessee's expense. (3-20-20)T

**072. -- 079. (RESERVED)**

**080. BOND REQUIREMENTS.**

**01. Minimum Bond.** Prior to entry with motorized exploration equipment upon leased lands, the surface of which has been sold or leased, the lessee must submit to the Director a corporate surety bond or collateral bond in the amount of one thousand dollars (\$1,000) in favor of the state of Idaho conditioned upon the payment of all damages to the surface that result from the lessee's operation. This bond is in addition to the drilling bond pursuant to commission rules. This rule notwithstanding, the oil and gas lessee may be required on a case-by-case basis to post a bond in excess of six thousand dollars (\$6,000) to protect a surface lessee's or surface owner's interests pursuant to Section 47-708, Idaho Code. (3-20-20)T

(3-20-20)T

**02. Contents.** An agreement to unitize must: describe the separate tracts comprising the unit; disclose the apportionment of the production of royalties and costs to the several parties; the name of the operation; and contain adequate provisions for the protection of the interests of all parties, including the state. The agreement must: be signed by or in behalf of those persons or entities having effective control of the geologic structure; submitted to the Director with the application to unitize; and effective only after approval by the Director. (3-20-20)T

**081. -- 089. (RESERVED)**

**091. -- 099. (RESERVED)**

**100. INJUNCTION AGAINST FURTHER CUTTING.**

Any person who cuts timber or other forest products of any kind, without having first secured an Agreement in accordance with Section 38-122, Idaho Code, may be enjoined from continuing such cutting and will be required to immediately dispose of all slash created. If the person responsible fails to properly dispose of the slash within thirty (30) days after being notified to do so, the State may dispose of the slash and such costs of disposal, plus twenty percent (20%) as a penalty, may be collected as a prior lien against the products harvested. (3-20-20)T

**02. Reduction of Total Hazard Points.** The contractor must reduce the total hazard points charged against the contract area to five (5) points or less (see Table II) on or before the expiration date on the Agreement in order to receive a refund of slash monies withheld (less three (3) percent for the fire suppression fund, ref. Rule150) or, to clear any demands that might be made against the surety bond and to receive a release of liability against any fires that start on or pass through the contract area.

<b>TABLE II - HAZARD CHARACTERISTICS AND OFFSET SLASH LOAD MAXIMUM 20 POINTS</b>	
<b>RATING (POINTS)</b>	<b>ADJECTIVE DESCRIPTION</b>
LOW (0-5)	Associated with low harvest volumes per acre such as; selection cutting, light commercial thinning, sanitation/salvage operations, tree length skidding with tops and limbs and little or no breakage. Slash is broken up; slash is in many islands over the operating area.
MODERATE (6-10)	Operation types similar to those listed above except that harvest volume per acre is higher or utilization standards are lower, or timber has higher proportion of unusable top and crown (commonly associated with partial cutting in second growth stands of mixed timber). Most diameter limit cutting falls in this category. Slash is distributed with some clear or very light areas intermingled with heavy islands of slash over the operating area, slash is not continuous.
HIGH (11-15)	Usually associated with regeneration harvest methods such as shelterwood, seed tree and most clearcuts, or any partial cut with a high harvest volume per acre. Slash is nearly continuous through the operating area frequently with heavier islands intermingled with light continuous slash.
EXTREME (16-20)	Any operation with very high cut volume, and/or low utilization standards, and/or many slashed or broken stems. Slash is continuous over the operating area with few light areas.
<b>TECHNICAL SPECIFICATIONS</b>	
LOW (0-5)	Slash load less than or equal to 3 inch diameter materials not to exceed 3.0 tons/acre.
MODERATE (6-10)	Slash load less than or equal to 3 inch diameter materials greater than 3.0 tons/acre but less than 6.0 tons/acre.
HIGH (11-15)	Slash load less than or equal to 3 inch diameter materials greater than 6.0 tons/acre but less than 12.0 tons/acre.
EXTREME (16-20)	Slash load less than or equal to 3 inch diameter materials exceeds 12.0 tons/acre.

Slash loads can be determined by using any standard photo series appropriate for the habitat type represented by the contract area, or by using USDA Forest Service General Technical Report INT-16, 1974 (HANDBOOK FOR INVENTORYING DOWNED WOODY MATERIAL). If the contractor insists upon the latter, sampling intensity will be one (1) point per two (2) acres through the area in question. The inventory cost is paid by the contractor. All slash made available as a result of the current harvest will be included in the inventory except that slash that has been piled and will be burned by the contractor before the expiration date on the Agreement or such extensions granted by the fire warden.

<b>SITE FACTORS - MAXIMUM 10 POINTS</b>

<b>UNIT SIZE - MAXIMUM 5 POINTS</b>						
<b>ACRES</b>	<b>&lt;40</b>	<b>40-160</b>	<b>161-320</b>	<b>321-480</b>	<b>481-640</b>	<b>&gt;640</b>

<b>OTHER FACTORS - MAXIMUM 7 POINTS</b>	
Pre-existing slash from operations in the past five years	0-2

330 feet	5
660 feet	4
990 feet	3
1320 feet	2
2640 feet	1

In applying offset points to large, complex contract areas, or contract areas with highly variable hazard characteristics, hazard offset techniques must first be applied toward that portion of the contract area which will do the most to reduce the hazard by optimizing fire control effects.

<b>HAZARD OFFSETS</b>		
<b>ALL POINTS ARE DEDUCTIONS</b>		
<b>DISPOSAL</b>	Piling and Burning, Broadcast Burning, etc.	0-42
<p>If disposal reduces slash load in the contract area to &lt;3 tons, deduct hazard points to five (5) or less. If disposal does not reduce slash load to that level, points should be assigned as a proportion of the area treated. For example, if twenty-five percent (25%) of the area is dozer piled and the piles burned, but the slash load in the contract area still exceeds three (3) tons, twenty-five percent (25%) of the total points charged against the job should be deducted. However, if the disposal effectively isolates the untreated portion of the slash, or is otherwise placed to optimize fire control effects the proportion of points deducted may be increased to an amount to be determined by the district fire warden.</p>		
<b>MODIFICATION:</b>	Chipping	0-42
	Crushing	0-20
	Lopping	0-10
<p>Lopping standards: All material less than three (3) inches in diameter will be cut so that it does not extend more than twenty (20) inches of the mean height above the ground. In addition, all boles greater than three (3) inches in diameter intersecting another bole will be completely severed.</p> <p>Assign points as a proportion of the contract area treated.</p>		
<b>ISOLATION</b>	Fuel Breaks	0-20

<b>HAZARD OFFSETS</b>	
<b>ALL POINTS ARE DEDUCTIONS</b>	
<p>To qualify as a fuel break, all slash and available fuels (Ref. Subsection 010.10) must be removed, or piled and burned, or treated sufficiently to prevent a fire from carrying through the area, for a minimum width of one chain (66 feet). In addition, the breaks must be placed to take advantage of terrain, manmade or natural barriers and to provide for optimum fire control effect.</p>	
Fire Lines	0-5
<p>All vegetative material must be removed to expose mineral soil. Minimum width of dozer line must be the width of the dozer blade with all dirt pushed in one direction and all vegetative debris to the other. Handlines must be eighteen (18) inches wide; additionally all fuels must be cleared for eight (8) feet. Lines must be tied to an anchor point except that they are not required to be built through a riparian management zone. In addition, the lines must be placed to take advantage of terrain, manmade or natural barriers, and to provide for optimum fire control effect. Maximum points allowed only if combined with an approved fuel break.</p>	

<b>ASSIGNING POINTS FOR ISOLATION</b>			
<b>Isolation techniques will usually be used to break the area into subunits or isolate the area from adjacent stands. Hazard offsets can be deducted for both if, in the opinion of the fire warden, both objectives are met and the total isolation points do not exceed 25 offset points.</b>			
<b>ACTIVITY</b>	<b>FUEL BREAK ONLY</b>	<b>FIRE LINE ONLY</b>	<b>BOTH</b>
Isolates contract area into subunits:			
A. Partial isolation or incomplete units	1-5	1	1-6
B. Complete isolation of area into 1 to 2 subunits	6-10	2	6-12
C. Complete isolation of area into 3 to 5 subunits	11-15	3	11-18
D. Complete isolation of area into 6 or more subunits	16-20	4	16-25

ACCESS CONTROL	0-2		
Locked gate system controls access on all secondary roads with slash treated on main road			1
Locked gate system controls all road access into unit			2
AVAILABILITY OF WATER			0-3
The water supply must provide water availability for engines within one road mile of operating area or within three air miles for helicopter bucket use. The water supply must be sufficient to supply 10,000 gallons in an operational period during the fire season.			
Water supply for engine only or helicopter only (capacity 10,000 gallons during fire season).			1

ASSIGNING POINTS FOR ISOLATION			
Isolation techniques will usually be used to break the area into subunits or isolate the area from adjacent stands. Hazard offsets can be deducted for both if, in the opinion of the fire warden, both objectives are met and the total isolation points do not exceed 25 offset points.			
ACTIVITY	FUEL BREAK ONLY	FIRE LINE ONLY	BOTH

121. -- 129. (RESERVED)

130. LIABILITY.

01. **State Liability.** With the exception of cases of negligence on the part of the landowner, operator or their agents, liability for the cost of suppressing fires that originate on or pass through a slashing area remains with the State if one of the following alternatives is executed by the contractor: (3-20-20)T

a. The contract area is covered by a Certificate of Compliance-Fire Hazard Management Agreement and all hazard money payments are current or a proper bond is in place. (3-20-20)T

b. The contractor treats the slash in accordance with the standards outlined in the Section 120, Table II within the time period specified on the Agreement or approved extensions. (3-20-20)T

c. The landowner or operator elects to enter into a contract with the State for management of the slash and liability of fire suppression costs in accordance with Section 38-404, Idaho Code. (3-20-20)T

02. **Contractor Liability.** Should the contractor choose not to treat the slash or not enter into a contract with the State in accordance with Subsection 130.01, the contractor, in addition to forfeiting any applicable bond, is liable for fire suppression costs for all fires that originate on or pass through the contractor's slashing area. The contractor retains the full liability for five (5) years from the time the Agreement or any extension thereof expires, unless a clearance has been issued. (3-20-20)T

03. **Failure to Treat.** Any contractor who fails to treat the fire hazard as outlined in Subsection 130.02, is liable for the actual costs of suppressing any wildfire that may occur on or pass through the area covered by the Agreement for an amount up to two hundred fifty thousand dollars (\$250,000). If the same wildfire occurs on or passes through several areas covered by separate agreements or if several Agreements cover the same area, the contractor is liable for the actual cost of suppression up to one million dollars (\$1,000,000). If a wildfire occurs on or passes through an area covered by separate Agreements with different contractors, the actual cost of suppression up to one million dollars (\$1,000,000) will be shared by the contractors prorated on acreage included in their Agreements. (3-20-20)T

04. **Fees.** Upon payment of the fees set forth in Table III, the State will assume liability for the cost of suppressing fires that originate on or pass through the contract area.

<b>TABLE III - ADDITIONAL FEE TO TRANSFER LIABILITY BY HAZARD POINTS</b>	
<b>POINTS</b>	<b>RATE</b>
6-10	\$1.00/MBF
11-20	\$2.00/MBF
21-30	\$3.00/MBF
>30	\$4.00/MBF

Additional fee rates for measurement other than board foot measurement are available upon request from any Department of Lands office. (3-20-20)T

**05. Additional Fee.** If the contractor is unable to reduce the hazard points on a contract area to the standards required for a clearance, but has completed some hazard reduction work, that contractor can discharge the remainder of his hazard obligation by returning a portion of his bond to the district and paying an additional fee to transfer liability. Use the following formula: [One minus (the acceptable hazard point or five, divided by the residual, or untreated hazard points)] multiply that ratio times the slash rate. This dollar amount should be multiplied by the total volume removed from the contract area. Add to that the additional fee to transfer liability (for the untreated hazard points, from Table III) times the total volume. When this amount is paid to the State the contract area can be cleared. Which can also be expressed as:

$$(1-(5/U)) * B * V + (A*V) = \text{Formula to transfer liability for a partially completed job.}$$

Where:

- U = Untreated or residual hazard points
- B = Bond rate (usually \$4.00 MBF) Ref. Section 050, Table I
- A = Additional fee to transfer liability, Table III
- V = Total volume removed from the contract areas

(3-20-20)T

**131. -- 139. (RESERVED)**

**140. CERTIFICATE OF CLEARANCE.**

The Certificate of Clearance is the instrument used to certify that hazard reduction has been accomplished, a contract entered into with the Director to ensure hazard management, or an additional fee has been paid. Anyone who has been issued an Agreement for the cutting of any forest product or potential forest product and who has met standards outlined in Section 120, or has made payment for hazard reduction under a contract with the Director, as provided in Section 38-404, Idaho Code, or has paid an additional fee in accordance with Section 38-122, Idaho Code, must apply in writing to the Director for a Certificate of Clearance. Within thirty (30) days after receipt of such written request for a Certificate of Clearance, the Director will cause the area covered by the request to be inspected. If it is found that the fire hazard has been properly disposed of, the Director will issue a Certificate of Clearance. The Certificate of Clearance must be substantially the same form as Department of Lands Form No. 760 - "Certificate of Clearance."

(3-20-20)T

**141. -- 149. (RESERVED)**

**150. FIRE SUPPRESSION AND FOREST PRACTICES ASSESSMENT.**

**01. Withholding.** An amount of three percent (3%) of the slash management rate (twelve cents (\$.12)/MBF) will be withheld from all slash management monies received and dedicated to suppression of wildfires on forest lands. For harvest from private land, an additional amount not to exceed three percent (3%) of the slash

management rate (twelve cents (\$.12)/MBF) can be withheld from slash management monies received and will be dedicated to Forest Practices support on forest lands. (3-20-20)T

**02. Assessment Costs.** Fire suppression assessment costs on operations covered by surety bond or irrevocable letter of credit or other form of bond is paid at the rate specified in Subsection 150.01. (3-20-20)T

**151. -- 159. (RESERVED)**

**160. PRELOGGING CONFERENCE AND AGREEMENT.**

Prelogging conferences and hazard reduction agreements are encouraged, however, the hazard reduction agreement will be canceled or modified if significant operational changes occur during the harvesting of forest products or potential forest products. (3-20-20)T

**503. GROSS DECIMAL “C” SCALE DETERMINATION.**

Contractual scaling agreements relating to determination of Scribner decimal “C” gross scale may not establish any scaling requirement that differs from those stated in the “Idaho Log Scaling Manual” except for a minimum top diameter that may be smaller than five and fifty-one hundredths inches (5.51”) actual measure. Licensed scalers will be provided with written scaling specifications that denote any minimum top diameter that is smaller than five and fifty-one hundredths inches (5.51”) actual measure. (3-20-20)T

**504. NET DECIMAL “C” SCALE DETERMINATION.**

(3-20-20)T

**505. -- 799. (RESERVED)**

**800. CHECK SCALING PROCEDURES.**

**01. Valid Check Scale.** (3-20-20)T

**a.** Check scaling requires a minimum of fifty (50) logs containing a decimal “C” gross scale of at least ten thousand (10,000) board feet. When other methods of measurement are used, the check scaler will investigate the situation and determine the most logical method of check scaling. (3-20-20)T

**b.** Check scaling will be performed without scaler’s knowledge, when possible. (3-20-20)T

**c.** Check scales are performed only on logs that are in the same position as presented to the scaler. (3-20-20)T

**d.** Check scales will not be performed if the logs are not spread adequately enough, in the check scaler’s discretion, to allow for accurate scaling. If these conditions arise, the check scaler makes a written report describing the conditions and surrounding circumstances. The Board will make a decision as to the disposition of these conditions and direct the check scaler accordingly. (3-20-20)T

**e.** The check scaler must use the written scaling specifications that have been provided to the scaler. In the absence or omission of written scaling specifications, logs will be check scaled according to scaling methodology stated within the “Idaho Log Scaling Manual.” (3-20-20)T

**02. Cooperative Scaling.** Cooperative scaling involves two (2) scalers, using different scaling specifications, working together to determine the log scale volume. In these instances, each scaler is individually responsible for the scale recorded. (3-20-20)T

**03. Team Scaling.** Team scaling is two (2) scalers, using the same scaling specifications, working together to determine the log scale volume. In these instances, both scalers are responsible for the scale recorded, except that if one (1) of the individuals is an apprentice scaler, the licensed scaler is responsible for the scale recorded. (3-20-20)T

**04. Holding Check Scale Log Loads.** All log loads involved in an unacceptable check scale will be held at the point of the check scale until such time as the logs have been reviewed with the scaler, or for a period up to forty-eight (48) hours. (3-20-20)T

**a.** During this period the load(s) may not be moved or tampered with in any way. (3-20-20)T

**b.** The Board’s check scaler will mark all loads that must be held, and notify the scaler and landing supervisors respectively. (3-20-20)T

**801. -- 809. (RESERVED)**

**810. CHECK SCALING STANDARDS OF VARIATION.**

**01. Allowable Limits of Variation.** To determine a check scale as acceptable or unacceptable for Board consideration, and when the method of measurement is the Coconino Scribner decimal C log rule, a scaler must be within allowable limits of variation in the following categories:

CATEGORY		ALLOWABLE VARIATION
<b>Gross Volume</b>	For logs in round form	+/- 2.0 percent
	For logs in fractional or slab form	+/- 5.0 percent
<b>Net Volume</b>	Check scale percent of defect on logs checked	
	Sawlogs	
	Up to 10	+/- 2.0 percent
	10.1 to 15	+/- 3.0 percent
	15.1 to 20	+/- 0.2 percent for each percent of defect
	Over 20	+/- 5.0 percent
	Pulp Logs	+/- 5.0 percent
	Cedar Product Logs	+/- 8.0 percent
	Species Identification Errors	3.0 percent
	Product Classification Errors	3.0 percent

(3-20-20)T

**02. Combination Logs.** For purposes of determining product classification errors, combination logs are counted as one-half (1/2), one-third (1/3), one-fourth (1/4) -- depending on the number of scaling segments -- to arrive at a piece or log count variation. Combination logs will be considered only when provided for in a contractual scaling agreement or written scaling specifications. (3-20-20)T

**03. Check Scales Involving Multiple Variations.** Some check scales will involve more than one (1) parameter of variation. The overall allowable limit of variation to determine acceptability or unacceptability of the total gross or net scales is determined by the following formula:

OAV =	$\frac{(a \times E) + (b \times E) + (c \times F)}{(D + E + F)}$
OAV =	overall allowable percentage variation
A =	allowable percentage variation for gross/net sawlog scale
B =	allowable percentage variation for gross/net pulp log scale
C =	allowable percentage variation for gross/net cedar products scale
D =	check scaler's gross/net sawlog scale
E =	check scaler's gross/net pulp log scale
F =	check scaler's gross/net cedar products log scale

The condition of such bond shall comply with the Act, the rules and orders of the Commission, and orders of the Department. The obligation of the bond shall not be discharged until one (1) year from completion of the survey or until the geophysical contractor has complied with the Oil and Gas Conservation Law, the Commission's rules, and the orders of the Commission and the Department. **a.** When water is used in conjunction with the drilling of seismic shotholes and artesian flow is not encountered at the surface, seismic holes are to be filled with a high grade bentonite/water slurry mixture. Said slurry shall have a density that is at least four percent (4%) greater than the density of fresh water; said slurry shall also have a Marsh funnel viscosity of at least sixty (60) seconds per quart. Density and viscosity are to be measured prior to adding cuttings to the slurry. Cuttings not added to the slurry are to be disposed of in accordance with Paragraph 100.09.f. of this rule. Any other suitable plugging material commonly used in the industry may be substituted for the bentonite/water slurry as long as the physical characteristics of said substitute are at least comparable to those of the bentonite/water slurry. Between November 1 and May 1, coarse ground bentonite approved by the Department shall be used as a plugging material. (3-20-20)T

**b.** The hole will be filled with the slurry from the bottom up to a depth of three (3) feet (three (3) feet below ground level). A nonmetallic plug will be set at this depth of three (3) feet, and the remaining hole will be filled and tamped to the surface with cuttings and native soil. (3-20-20)T

**c.** When drilling with air and nonartesian water is encountered, the hole shall be plugged with the slurry mixture, or coarse ground bentonite, as specified in Paragraph 100.09.a., supra. (3-20-20)T

**d.** When drilling with air only and in completely dry holes, plugging may be accomplished by returning the cuttings to the hole, tamping the returned cuttings to the above-referenced depth of three (3) feet, and setting the permaplug topped with more cuttings and soil as per Paragraph 100.09.b. above. A small mound will be left over the hole for settling allowance. Auger holes twenty (20) feet or less in depth may be plugged in this same manner. (3-20-20)T

**e.** The foregoing seismic holes shall be properly plugged and abandoned as soon as practical after the shot has been fired; however, a shot hole shall not be left unplugged for more than thirty (30) days without approval of the Department. (3-20-20)T

**f.** Any slurry, drilling fluid, or cuttings which are deposited on the surface around the seismic hole will be raked or otherwise spread out to at least within one (1) inch of the surface, so that the growth of the natural grasses or foliage will not be impaired. (3-20-20)T

**g.** The requirements of Paragraphs 100.09.a. through 100.09.f. of this rule may be modified by any reasonable written agreement between the seismic company and the surface owner. (3-20-20)T

**h.** If artesian flow (water flowing at the surface) is encountered in the drilling of any seismic hole, cement will be used to seal off the water flow thereby preventing cross-flow, erosion, and/or contamination of freshwater supplies. Said holes shall be cemented immediately. (3-20-20)T

**i.** After completing the plugging of seismic shot holes and spreading the cuttings as required by this rule, the seismic contractor shall record the GPS location of the seismic hole, and the contractor shall provide the location data to the Department. (3-20-20)T

**10. Forfeiture of Geophysical Exploration Bond.** The Department may forfeit the bond submitted under Subsection 100.03 of this rule upon failure of the owner or operator to conduct the seismic survey and complete

reclamation in conformance with Section 100 of this rule. The owner or operator will be given an opportunity to address compliance issues prior to the Department taking action against the bond. (3-20-20)T

If well treatments are not covered in the original drilling permit, then an application to amend the permit must be made to the Department with an application fee. Approval by the Department is required prior to the well treatments being implemented. Actions to clean the casing or perforations not in excess of pressures sufficient to overcome the fracture gradient in the surrounding formation are not considered to be well treatments, but operators must notify the Department when such actions occur. If a well deviates from the vertical, these surface distances will be from the entire length of the wellbore from the surface to total depth. The notification will also offer an opportunity to have the owner or operator sample and test the water, at the owner or operator's cost, prior to and after the oil or gas well being treated. **03. Application Denial.** The Department may deny well treatment applications for one (1) or more of the following reasons: (3-20-20)T

**a.** Application does not contain the information in Subsection 210.01 of these rules; (3-20-20)T

**b.** Application fee was not submitted. (3-20-20)T

**c.** Proposed treatment will result in a waste of oil or gas, a violation of correlative rights, or the pollution of fresh water supplies. (3-20-20)T

**04. Time Limit.** If a treatment approved in a drilling permit or amended drilling permit is not started within one (1) year of the approval of the well treatment, the well treatment permit will expire and reapplication will be required prior to conducting the well treatment. Prior to the anniversary date, the owner or operator may apply for a six-month (6) extension. If conditions have not changed, and no changes to the permit are requested, the extension may be approved by the Department. (3-20-20)T

**05. Inspections.** The Department may conduct inspections prior, during, and after well treatments. (3-20-20)T

**06. Reporting Requirements.** A report on the well treatment must be submitted within thirty (30) days of the treatment. The report shall present a detailed account of the work done and the manner in which such work was performed, including: (3-20-20)T

**f.** Static pressure testing results before and after the well treatment. (3-20-20)T

**g.** The amounts, handling, and if necessary, disposal at an identified appropriate disposal facility, or reuse of the well stimulation fluid load recovered during flow back, swabbing, and/or recovery from production facility vessels. Reporting of recovered fluids shall be included with other monthly production reports required by the

Department. Storage of such fluid shall be protective of ground water as demonstrated by the use of either tanks or authorized lined pits as described in Section 230 of these rules. (3-20-20)T

**h.** Any other information related to operations which alter the performance or characteristics of the well. (3-20-20)T

**07. Fresh Water Protections for Well Treatments.** (3-20-20)T

**a.** The Department will not authorize pits, lagoons, ponds, or other methods of subsurface storage for treatment fluids within IDEQ recognized source water assessment or protection areas for public drinking water systems. Owners or operators must store and transport treatment fluids using above ground storage facilities and tanker trucks for well treatments in these locations. (3-20-20)T

**b.** The Department will not authorize well treatments to create fractures within five hundred (500) vertical feet above or below fresh water aquifers. (3-20-20)T

**c.** The Department shall require the owner or operator to complete fresh water monitoring at the owner's or operator's cost before and after a well treatment unless the Department, in consultation with the IDEQ, determines that the proposed treatment does not pose a threat of pollution to fresh waters. The Department will review and approve all monitoring proposals with the IDEQ. The monitoring will be done using representative existing water wells or surface waters within one-quarter (1/4) horizontal mile of the treated well. For wells that deviate from the vertical, sampling may be required within one-quarter (1/4) horizontal mile of the wellbore's projected location on the surface. If no water wells or surface waters are present in this area, the sampling area may be enlarged as needed with approval by the Department. If the Department determines that existing water wells are not representative of the ground waters that could be impacted, then the Department may require the owner or operator to install one (1) or more ground water monitoring wells at the owner's or operator's cost. The owner or operator must obtain consent from appropriate property owners to gain access prior to any sampling or well construction. When monitoring is required by the Department, the operator will prepare a monitoring plan that includes the following: (3-20-20)T

**i.** Location of proposed monitoring sites; (3-20-20)T

**ii.** Construction details of any sampled or constructed wells including total well depth, depth of screened interval(s), screen size, and drilling log. For existing wells, the operator must make every reasonable attempt to locate this information; (3-20-20)T

**iii.** When possible, data from the existing wells collected within the last five (5) years and analyzed in a state or EPA certified drinking water lab; (3-20-20)T

**iv.** List of proposed analytes, testing methods, and their detection limits; (3-20-20)T

**v.** Additional tests such as stable isotopic analysis; and (3-20-20)T

**vi.** Pre-treatment sampling and analysis when no relevant data exists, and a schedule for post-treatment sampling and analysis. (3-20-20)T

**d.** The owner or operator will provide the Department with copies of any analysis or reports within thirty (30) days of samples being taken. All samples must be analyzed in a state or EPA certified drinking water lab. (3-20-20)T

**e.** Pollution of fresh water supplies due to a well treatment is a violation of these rules and Title 47, Chapter 3, Idaho Code. (3-20-20)T

**04. Pressure Monitoring.** During the well stimulation operation, the owner or operator shall monitor and record the annulus pressure at the casinghead. If intermediate casing has been set on the well being stimulated, the pressure in the annulus between the intermediate casing and the production casing shall also be monitored and recorded. If the annulus pressure increases by more than five hundred (500) psi gauge as compared to the pressure immediately preceding the stimulation, the owner or operator shall verbally notify the Department as soon as practicable but no later than twenty-four (24) hours following the incident. (3-20-20)T

**212. -- 219. (RESERVED)**

**220. BONDING.**

**01. Individual Bond.** The Department shall, except as hereinafter provided, require from the owner or operator a good and sufficient bond in the sum of not less than ten thousand dollars (\$10,000) plus one dollar (\$1) for each foot of planned well length in favor of the Department. The bond shall be conditioned upon the performance of the owner's or operator's duty to comply with the requirements of the Act and the rules of the Commission, with respect to the drilling, maintaining, operating, and plugging of each well drilled for oil and gas and the reclamation of surface disturbance associated with these activities. Said bond shall remain in force and effect until the plugging of said well is approved by the Department and the well site is reclaimed as described in Section 510 of these rules, or the bond is released by the Department. (3-20-20)T

**02. Blanket Bond.** In lieu of the bond in Subsection 220.01 of this rule, any owner or operator may file with the Department a good and sufficient blanket bond covering all active wells drilled or to be drilled in the state of Idaho. The amount of the blanket bond will be as follows according to the number of active wells covered by the bond: (3-20-20)T

- a.** Up to ten (10) wells, fifty thousand dollars (\$50,000); (3-20-20)T
- b.** Eleven (11) to thirty (30) wells, one hundred thousand dollars (\$100,000); or (3-20-20)T
- c.** More than thirty (30) wells, one hundred fifty thousand dollars (\$150,000). (3-20-20)T

**03. Inactive Well Bond.** An owner or operator must provide the Department with a bond of at least ten thousand dollars (\$10,000) plus eight dollars (\$8) for each foot of planned well length for each inactive well conditioned upon the performance of the duty to comply with the requirements of the Act and the rules of the Commission, with respect to the drilling, maintaining, operating, and plugging of each well drilled for oil and gas. Said bond shall remain in force and effect until the plugging of said well is approved by the Department, or the bond is released by the Department. Inactive wells may not be covered by a blanket bond as provided in Subsection 220.02 of this rule. (3-20-20)T

**04. Additional Bonding.** The Department may impose additional bonding on an owner or operator given sufficient reason, such as non-compliance, unusual conditions, horizontal drilling, or other circumstances that suggest a particular well or group of wells has potential risk or liability in excess of that normally expected. The owner or operator may request a hearing to appeal either the decision to impose an additional bond or the proposed amount of the bond. (3-20-20)T

**05. Authorized Bonds.** The bond(s) referred to in Section 220 must be by a corporate surety authorized to do business in the state of Idaho or in cash. If cash is used to satisfy the bonding requirements in these rules, interest on the cash will be allocated to the general fund. (3-20-20)T

**221. TRANSFER OF DRILLING PERMITS.**

No person to whom a permit has been issued shall transfer the permit to any other location or to any other person until the following requirements have been complied with: (3-20-20)T

**01. Prior to Drilling Well.** If, prior to the drilling of a well, the person to whom the permit was originally issued desires to change the location, he shall submit a letter so stating and another application properly filled out showing the new location. Drilling shall not be started until the transfer has been approved and the new permit posted at the new location. (3-20-20)T

**02. During Drilling or After Completion.** If, while a well is being drilled or after it has been completed, the person to whom the permit was originally issued disposes of his interest in the well, he shall submit a written statement to the Department setting forth the facts and requesting that the permit be transferred to the person who has acquired the well. (3-20-20)T

**03. Terms for Acceptance of Transfer.** Before the transfer of a drilling permit shall be recognized, the person who has acquired the well must submit a written statement setting forth that he has acquired such well and assumes full responsibility for its operation and abandonment in conformity with the law, rules, regulations, and orders issued by the Commission. If bond is required to guarantee compliance with the rules and regulations of the Commission, the person acquiring such well shall furnish bond. (3-20-20)T

**222. -- 229. (RESERVED)**

**230. PIT REQUIREMENTS.**

**01. Plans Required.** If pits are proposed to be constructed in connection with another permit application required by these rules, then the owner or operator must include plans for pit construction in the application. If a pit is needed after the other permits have been approved, then an application to amend the permit must be made to the Department with an application fee. Approval by the Department is required prior to the pit being constructed unless the pit is necessary for an emergency action. Pit applications must include the permit number, well name, well location, as-built description if drilling has been completed, proposed pit location, and plans for pit construction, operation, and reclamation. (3-20-20)T

**02. Location.** (3-20-20)T

**c.** Pits shall not be located within an IDEQ recognized source water assessment or protection areas for public drinking water systems. (3-20-20)T

**03. Site Preparation.** All sites must be properly prepared prior to pit construction. Vegetation, roots, brush, large woody debris and other deleterious materials, topsoil, historic foundations and plumbing, or other materials that may adversely affect appropriate construction, must be removed from the footprint of the pit unless

approved by the Department. (3-20-20)T

The order shall also limit the amount of oil or gas, or both, that may be produced from any well in the pool, so that each owner or operator is given an opportunity to produce his just and equitable share in the pool in accordance with sound engineering practice. (3-20-20)T

**405. GAS-OIL RATIO SURVEYS AND REPORTS.**

Within thirty (30) days following the completion or recompletion of each well producing oil and gas and thereafter as the Department may require, the owner or operator of such well shall make a gas-oil ratio test of such well and the results of such test shall be reported to the Department within twenty (20) days after the test is made. A verbal notification and approval may be used for dry holes in lieu of the written notification referenced in Subsection 502.02 of these rules. The standards in Subsections 502.04 through 502.06 of these rules will still apply. (3-20-20)T

**04. Plugging of Wells.** The owner or operator of any well drilled for oil or gas, or any seismic, core, or other exploratory holes, whether cased or uncased, and regardless of diameter shall be responsible for the plugging of said hole in a manner sufficient to properly protect all freshwater-bearing and possible or probable oil- or gas-bearing formations. The material used in plugging, whether cement, mechanical plug, or some other equivalent method approved in writing by the Director, must be placed in the well in a manner to permanently prevent migration of oil, gas, water, or other substance from the formation or horizon in which it originally occurred. The preferred plugging cement slurry is that recommended in API Bulletin E3. Pozzolan, gel, and other approved extenders may be used if the owner or operator can document to the Department's satisfaction that the slurry design will achieve a minimum compressive strength of three hundred (300) psi after twenty-four (24) hours, and eight hundred (800) psi after seventy-two (72) hours measured at ninety-five (95) degrees F and at eight hundred (800) psi. If the bottom of the hole is less than one hundred (100) feet from the bottom of the lowest casing, then the entire length of the uncased hole below the casing will be cemented. (3-20-20)T

**b.** In the uncased portions of a well, cement plugs must be placed to extend from one hundred (100) feet below the bottom up to one hundred (100) feet above the top of any oil, gas, and abnormally high pressure zones, so as to isolate fluids in the strata in which they are found and to prevent them from escaping into other strata. (3-20-20)T

**c.** A cement plug shall be placed a minimum of one hundred (100) feet above all producing zones in uncased portions of a well. (3-20-20)T

**d.** A cement plug shall be placed a minimum of fifty (50) feet above and below the following intervals: (3-20-20)T

**ii.** Top and bottom of fresh water zones. If fresh water zone is less than one hundred (100) feet thick, then continuous cement must be placed from fifty (50) feet below the zone upward to fifty (50) feet above the zone. (3-20-20)T

**e.** The top of all cement plugs will be tagged to verify their depth. (3-20-20)T

**i.** Dump bailer; (3-20-20)T

**ii.** Pumping a balanced cement plug through tubing or drill pipe; (3-20-20)T

**iii.** Pump and plug; or (3-20-20)T

h. All abandoned wells shall have a plug or seal placed at the surface of the ground or the bottom of the cellar in the hole in such manner as not to interfere with soil cultivation or other surface use. The top of the pipe must be sealed with either a cement plug and a screw cap, or cement plug and a steel plate welded in place or by other approved method, or in the alternative be marked with a permanent monument which shall consist of a piece of pipe not less than four (4) inches in diameter and not less than ten (10) feet in length, of which four (4) feet shall be above the general ground level, the remainder to be embedded in cement or to be welded to the surface casing. (3-20-20)T

**06. Subsequent Report of Abandonment.** If a well is plugged or abandoned, a subsequent record of work done must be filed with the Department. This report shall be filed separately within thirty (30) days after the work is done. The report shall give a detailed account of the manner in which the abandonment of plugging work was carried out, including the weight of mud, the nature and quantities of materials used in plugging, the location and extent (by depths) of the plugs of different materials, and the records of any tests or measurements made and of the amount, size, and location (by depths) of casing left in the well. a. Oil and gas wells, seismic, core or other exploratory holes no longer being used for their original purpose may not be converted into fresh water, low temperature geothermal, or geothermal wells unless the following actions occur: (3-20-20)T

i. Owner, operator, or surface owner files an application with the IDWR describing the conversion and the proposed use for the water or geothermal resource and any modifications necessary to meet the applicable well construction standards; (3-20-20)T

ii. The surface owner provides written documentation assuming responsibility for the converted well including, should it become necessary, decommissioning (plugging) of the converted well in accordance with applicable law; (3-20-20)T

iii. IDWR issues a permit for a geothermal resource well, a water right, or recognizes a domestic exemption authorizing the withdrawal of water from the converted well; and (3-20-20)T

iv. A licensed driller in Idaho inspects and certifies that the converted well meets all well construction standards for its intended purpose. (3-20-20)T

b. The Department's bond may not be released, and the oil and gas permit cancelled, until all requirements in Paragraph 502.07.a. of these rules are met. (3-20-20)T

In addition, material may be burned or buried on the

premises only with the prior written consent of the surface owner. (3-20-20)T

**03. Road Removal.** All access roads to plugged and abandoned wells and associated production facilities shall be ripped, regraded, and recontoured unless otherwise specified in a surface use agreement. Culverts and any other obstructions that were part of the access road(s) shall be removed. Roads to be left will be graded to drain and prepared with rolling dips or other best management practices to minimize erosion. (3-20-20)T

**04. Regrading.** Drill pads, pits, berms, cut and fill slopes, and other disturbed areas will be regraded to approximate the original contour. Where possible, slopes should be reduced to three (3) horizontal feet to one (1) vertical foot (3H:1V) or flatter. (3-20-20)T

**05. Compacted Areas.** All areas compacted by drilling and subsequent oil and gas operations that are no longer needed following completion of such operations shall be cross-ripped. Ripping shall be undertaken to a depth of eighteen (18) inches or bedrock, whichever is reached first. (3-20-20)T

**06. Topsoiling.** Stockpiled topsoil shall be replaced in a manner that will support reestablishment of the pre-disturbance land use and contoured to control erosion and provide long-term stability. If necessary, topsoiled areas shall be tilled adequately in order to establish a proper seedbed. (3-20-20)T

**07. Revegetation.** (3-20-20)T

**a.** The owner or operator shall select and establish plant species that can be expected to result in vegetation comparable to that growing on the affected lands prior to the oil and gas operations. Certified weed free seed should be used in revegetation. The owner or operator may use available technical data and results of field tests for selecting seeding practices and soil amendments that will result in viable revegetation. (3-20-20)T

**b.** The disturbed areas shall be reseeded in the first favorable season following rig demobilization, site regrading, and topsoil replacement. (3-20-20)T

**c.** Unless otherwise specified in the approved permit, the success of revegetation efforts shall be measured against the existing vegetation on site prior to the oil and gas operations, or against an adjacent reference area supporting similar types of vegetation. Reseeding or replanting is required until the following cover standards are met: (3-20-20)T

**i.** The ground cover of living plants on the revegetated area should be comparable to the ground cover of living plants on an adjacent reference area for two (2) full growing seasons after cessation of soil amendment or irrigation, if used; (3-20-20)T

**ii.** Ground cover shall be considered comparable if the planted area has at least seventy percent (70%) of the pre-disturbance, or adjacent reference area, ground cover; (3-20-20)T

**iii.** For locations with an average annual precipitation of more than twenty-six (26) inches, the Department, in approving a drilling permit or a pit, may set a minimum standard for success of revegetation as follows: Vegetative cover of seventy percent (70%) for two (2) full growing seasons in areas planted to herbaceous species only; or fifty percent (50%) vegetative cover for two (2) full growing seasons and six hundred (600) woody plants per acre in areas planted to a mixture of herbaceous and woody species; (3-20-20)T

**iv.** As used in this section, “herbaceous species” means grasses, legumes, and other forbs; “woody plants” means woody shrubs, trees, and vines; and “ground cover” means the area of the ground surface covered by the combined aerial parts of vegetation and the litter that is produced naturally on-site, expressed as a percentage of the total area measured. Rock surface areas will be excluded from this calculation; and (3-20-20)T

**v.** In all cases, vegetative cover shall be established to the extent necessary to control erosion. (3-20-20)T

**d.** Introduced species may be planted if they are known to be comparable to previous vegetation, or if known to be of equal or superior use for the approved post-reclamation land use, or, if necessary, to achieve a quick,

temporary cover for soil stabilization purposes. Species classified as poisonous or noxious weed species shall not be used in revegetation. (3-20-20)T

**e.** By mutual agreement of the Department, the surface owner, and the owner or operator, a site may be converted to a different, more desirable or more economically suitable habitat. (3-20-20)T

**f.** Planting of grasses and forbs should be done in a manner which promotes rapid stabilization of the soil surface. Wherever terrain permits, grasses and forbs should be drilled or compacted into the ground using agricultural grass planting equipment or other seeders specifically designed for revegetation applications. Broadcast and hydroseeding may be used on areas where other methods are impractical or unavailable. (3-20-20)T

**g.** The owner or operator should plant shrubs or shrub seed, as required, where shrub communities existed prior to oil and gas operations. Shrub seed may be planted as a portion of a grass seed mix or planted as bare-root transplants after grass seeding. Where the surface owner desires a specific land use such as grazing or cropland, shrubs will not be required in the revegetation species mix. Shrub lands undergoing revegetation with shrubs shall be protected from erosion by vegetation, chemical binders, or other acceptable means during establishment of the shrubs. (3-20-20)T

**h.** Tree stocking of forestlands should meet the following criteria: (3-20-20)T

**i.** Trees that are adapted to the site should be planted in a density which can be expected over time to yield a timber stand comparable to pre-disturbance timber stands; (3-20-20)T

**ii.** Trees shall be established for two (2) full growing seasons after cessation of any soil amendments and irrigation before they are considered to be established; and (3-20-20)T

**iii.** Forestlands undergoing revegetation with trees should be protected from erosion by vegetation, chemical binders, or other acceptable means during seedling establishment. (3-20-20)T

**i.** Revegetation is not required on areas that the surface owner wishes to incorporate into an irrigated field and any roads which will be used for other oil and gas operations. (3-20-20)T

**j.** Mulch should be used on severe sites and may be required by the permit where slopes are steeper than three (3) horizontal feet to one (1) vertical foot (3H:1V) or the mean annual rainfall is less than twelve (12) inches. When used, straw, or hay mulch should be obtained from certified weed free sources. "Mulch" means vegetation residues or other suitable materials to aid in the stabilization of soil and soil moisture conservation which will provide a micro-climate more suitable for germination and growth on severe sites. Annual grains such as rye, oats, and wheat may be used as a substitute for mulch where they will provide adequate protection and will be replaced by permanent species within a reasonable length of time. (3-20-20)T

**08. Reclamation Under a Surface Use Agreement.** Notwithstanding the requirements of Subsections 510.03 through 510.07 of this rule, reclamation may be superseded by the conditions of a surface use agreement as long as the site is left in a stable, non-eroding condition that will not impact fresh waters. **AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to Sections 65-202; 65-204; and 66-907, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting temporary rules:

This temporary rulemaking adopts the following chapters under IDAPA 21, rules of the Idaho Division of Veterans Services:

These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to Sections 54-1806(2), 54-1806(4), 54-1806(11), 54-1806A, 52-1807, 54-1812, 54-1813, 54-1814 and 54-1841, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting temporary rules:

This temporary rulemaking adopts the following chapters under IDAPA 22:

#### **IDAPA 22**

- 22.01.01, *Rules of the Board of Medicine for the Licensure to Practice Medicine and Osteopathic Medicine in Idaho*
- 22.01.03, *Rules for the Licensure of Physician Assistants*
- 22.01.07, *Rules for the Licensure of Naturopathic Medical Doctors*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of these rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased is justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 54-1808, 54-3509, 54-3907, 54-4311, 54-5105, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges: The fees included in each rule chapter relate to licensure and renewal of licensure for each profession described in each rule chapter.

## IDAPA 23 – BOARD OF NURSING

### DOCKET NO. 23-0101-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to Section 54-1404(13), Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting temporary rules:

This temporary rulemaking adopts the following chapter under IDAPA 23:

**IDAPA 23**

- 23.01.01, *Rules of the State of Idaho Board of Nursing*

**TEMPORARY RULES JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of this rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed are justified and necessary to avoid immediate danger and the fees/charges are described herein:

The fees or charges, authorized in Section 54-1404(8), Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the agency's obligations and provide necessary services. Failing to reauthorize these temporary rules would create immediate danger to the agency's budget, and immediate danger to necessary agency functions and services.

**24.01.01 – RULES OF THE BOARD OF ARCHITECTURAL EXAMINERS**

**DOCKET NO. 24-0101-2000F (FEE RULE)**

**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-308, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24:

**IDAPA 24.01**

- 24.01.01, *Rules of the Board of Architectural Examiners.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules establish and govern the standards necessary for architectural practice. Allowing these rules to expire would harm industry, and the public health, safety and welfare because the Board could not renew current licenses and admit new licensees.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased is justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-313, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

## 24.02.01 – RULES OF THE STATE ATHLETIC COMMISSION

### DOCKET NO. 24-0201-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-406, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24:

#### **IDAPA 24.02**

- 24.02.01, *Rules of the State Athletic Commission.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules establish and govern the standards and practices of the Idaho Athletic Commission, which oversees boxing, mixed martial arts, and wrestling contests. Allowing these rules to expire would deny the Commission the ability to sanction permits and admit licensees; and elimination of the standards that protect combatants in sanctioned contests would harm the health, safety, and welfare of combatants.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 54-406, 54-410, and 54-416, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

<b>FEE TYPE</b>	<b>AMOUNT (Not to Exceed)</b>	<b>RENEWAL (Not to Exceed)</b>
Combatant	\$150	\$150

**705. INTRODUCTION FROM RING.**

Only a combatant or person officially identified with the contest may be introduced from the ring at an event, except with specific authority to do so from the Commission. (3-20-20)T

**706. REFEREE'S INSTRUCTIONS TO COMBATANTS.**

The referee will, before starting a contest, ascertain from each combatant the name of his chief second, who will be responsible for the conduct of the assistant seconds during the progress of the contest. The referee will call combatants together before each contest for final instructions, at which time each combatant will be accompanied by his chief second only. (3-20-20)T

**707. LIMITATIONS ON SECONDS.**

**01. Number of Seconds.** No contestant will have more than three (3) seconds except that in a contest for a world title the Commission may authorize four (4) seconds. (3-20-20)T

**02. Excessive Use of Water.** Any excessive or undue spraying or throwing of water on any boxer by a second between rounds is prohibited. (3-20-20)T

**708. CONTINUOUS PRESENCE OF PHYSICIAN AT RINGSIDE.**

**01. Presence of Physician at Ringside.** The physician designated by the Commission will sit at the immediate ringside at every event. A contest may not proceed unless the physician is in his seat at ringside. The physician must not leave until released by the Commission. He will be prepared to assist if any serious emergency arises and will render temporary or emergency treatments for cuts and minor injuries sustained by the combatants. (3-20-20)T

**02. Injury to Boxer During Round.** When a combatant appears to have been injured during the course of a round, his manager or second cannot attempt to render aid to him before the physician has had an opportunity to examine him. (3-20-20)T

**709. WARNING BEFORE START OF ROUND.**

Ten (10) seconds before the beginning of each round the timekeeper will give warning to the seconds of the combatants by blowing a whistle. (3-20-20)T

**710. DURATION OF ROUND.**

A round of boxing is three (3) minutes in duration. (3-20-20)T

**711. PERSONS ALLOWED IN RING.**

No persons other than the contestants and the referee may be in the ring during the progress of a round. (3-20-20)T

**712. FAIR BLOWS AND FOULS.**

**01. Fair Blow.** A fair blow is one delivered with the padded knuckle part of the glove on the front or side of the head or the front or side of the body above the belt. (3-20-20)T

**02. Fouls.** The following acts constitute fouls in boxing: (3-20-20)T

**a.** Hitting below the belt. (3-20-20)T

**b.** Hitting an opponent who is down or is getting up after being down. (3-20-20)T

**c.** Holding an opponent with one hand and hitting with the other. (3-20-20)T

- d. Holding or deliberately maintaining a clinch. (3-20-20)T
- e. Wrestling or kicking. (3-20-20)T
- f. Butting with the head or shoulder or using the knee. (3-20-20)T
- g. Hitting with the open glove, the butt of the hand, the wrist or the elbow, and all backhand blows. (3-20-20)T
- h. Purposely going down without being hit. (3-20-20)T
- i. Striking deliberately at that part of the body over the kidneys. (3-20-20)T
- j. Deliberately using the rabbit punch. (3-20-20)T
- k. Jabbing the opponent's eyes with the thumb of the glove. (3-20-20)T
- l. Using abusive language in the ring. (3-20-20)T
- m. Engaging in any unsportsman like trick or action which causes injury to an opponent. (3-20-20)T
- n. Hitting on the break. (3-20-20)T
- o. Hitting after the bell has sounded the end of the round. (3-20-20)T
- p. Hitting an opponent whose head is between and outside of the ropes. (3-20-20)T
- q. Pushing an opponent about the ring or into the ropes. (3-20-20)T

**713. UNFAIR PRACTICES; DUTIES OF REFEREES.**

**01. Enforcing the Rules.** A referee is responsible for enforcing the rules of the contest. He cannot permit unfair practices that may cause injury to a combatant. (3-20-20)T

**02. Warnings.** The referees will warn the combatants whenever they are committing fouls. (3-20-20)T

**03. Deducting Points.** If a combatant persists in committing fouls after he has been warned, the referee will deduct points from him or disqualify him. (3-20-20)T

**714. FOULS: DEDUCTION FOR POINTS; EFFECT OF CLAIMING LOW BLOW BY OPPONENT.**

**01. Deducting Points Because of Fouls.** If a contestant repeatedly fouls his opponent during a contest or commits any other infraction, the referee may penalize him by deducting a point from his score, whether or not the foul or infraction was intentional. (3-20-20)T

**02. Notification of Point Deduction.** When the referee determines that it is necessary to deduct a point because of a foul or infraction, he will inform the offender, the scoring table and the judges of the penalty to be assessed. (3-20-20)T

**03. Deduction of Points in Round Foul Occurs.** Any point or points to be deducted for any foul or infraction are deducted in the round in which the foul or infraction occurred, and may not be deducted from the score of any subsequent round. (3-20-20)T

**04. Contestant Claiming Low Blow.** A contestant may not be declared the winner of a contest on the basis of his claim that his opponent committed a foul by hitting him below the belt. If a contestant falls to the floor of the ring or otherwise indicates that he is unwilling to continue because of a claim of a blow to be a technical knockout in favor of the contestant who is willing to continue. (3-20-20)T

**715. FOULS: DISQUALIFICATION OF COMBATANT AND WITHHOLDING OF PURSE.**

Any combatant guilty of a foul in a contest may be disqualified by the referee and the participant's purse ordered withheld by the Commission. Disposition of the purse and the penalty to be imposed upon the combatant will be determined by the Commission. (3-20-20)T

**716. ACCIDENTAL FOULING.**

**01. Accidental Foul.** If a contest is stopped because of an accidental foul, the referee will determine whether the combatant who has been fouled can continue or not. If the combatant's chance of winning has not been seriously jeopardized as a result of a foul, the referee may order the contest continued after a reasonable interval. Before the contest begins again, the referee must inform the Commission of his determination that the foul was accidental. (3-20-20)T

**02. Contest Stopped Due to Accidental Foul.** If the referee determines that the contest may not continue because of an injury suffered as the result of an accidental foul, the bout will be declared a draw if the foul occurs during one-half (1/2) of the total scheduled rounds. (3-20-20)T

**03. Contest Stopped by Referee.** If an injury inflicted by an accidental foul later becomes aggravated by fair blows and the referee orders the contest stopped because of the injury, the outcome is determined by scoring the completed rounds and the round during which the referee stops the contest. (3-20-20)T

**717. STOPPING OF CONTEST: INJURY TO COMBATANT.**

The referee, in consultation with the ring physician designated by the Commission, will determine whether a contest should be stopped because of an injury to a combatant. (3-20-20)T

**718. STOPPING OF CONTEST: ONE-SIDED CONTEST; RISK OF INJURY; EXAMINATION BY PHYSICIAN.**

**01. One-Sided Contested.** The referee may stop a contest at any stage if he considers it too one-sided or if either combatant is in such a condition that to continue might subject him to serious injury. (3-20-20)T

**02. Risk of Injury and Examination by Physician.** If a combatant sustains any injury which the referee believes may incapacitate him, the referee will call the physician into the ring to examine the combatant. The physician will give his opinion to the referee before the referee renders his decision in the matter. (3-20-20)T

**719. STOPPING THE CONTEST: COMBATANT NOT HONESTLY COMPETING.**

If the referee decides that a combatant is not honestly competing, he may stop the contest before its scheduled completion, disqualify the combatant and recommend the purse of that combatant be held pending investigation by the Commission. The announcer will then inform the audience that no decision has been rendered. (3-20-20)T

**720. FAILURE OF COMBATANT TO RESUME.**

A combatant may not leave the ring during any one (1) minute rest period between rounds. If any combatant fails or refuses to resume the contest when the bell sounds signaling the commencement of the next round, the referee will award a decision of technical knockout to his opponent as of the round which has last been finished, unless the circumstances indicate to the referee the need for investigation or punitive action, in which event the referee will not give a decision and will recommend the purse or purses of either or both combatants to be withheld. (3-20-20)T

**721. GLOVES TO BE WIPED BY REFEREE AFTER BOXER FALLS.**

Before a boxer may resume boxing after having been knocked or having fallen or slipped to the floor of the ring, the referee shall wipe any accumulated resin from the boxer's gloves with a damp towel or the referee's shirt. (3-20-20)T

**722. KNOCKDOWN OF COMBATANT; PROCEDURE FOR COUNTING.**

**01. Knockdown.** When a combatant is knocked down, the referee will order the opponent to retire to the farthest neutral corner of the ring, pointing to the corner, and immediately begin the count over the combatant who is down. The referee will audibly announce the passing of the seconds, accompanying the count with motions of

his arm, the downward motion indication the end of each second. (3-20-20)T

**02. Timekeeper.** The timekeeper, by effective signaling, will give the referee the correct one (1) second interval for his count. The referee's count is the official count. Once the referee picks up the count from the timekeeper, the timekeeper will cease counting. No combatant who is knocked down may be allowed to resume boxing until the referee has finished counting to eight (8). The combatant may take the count either on the floor or standing. (3-20-20)T

**03. Failure of Opponent to Stay in Farthest Neutral Corner.** If the opponent fails to stay in the farthest neutral corner, the referee will cease counting until he has returned to his corner and will then go on with the count from the point at which it was interrupted. If the combatant who is down arises during the count, the referee may step between the combatants long enough to assure himself that the combatant just arisen is in condition to continue. If so assured, he will, without loss of time, order both combatants to go on with the contest. During the intervention by the referee the striking of a blow by either combatant may be ruled a foul. (3-20-20)T

**04. Knock-Out.** When a combatant is knocked out, the referee will perform a full ten (10) second count unless, in the judgment of the referee, the safety for the combatant would be jeopardized by such a count. If the combatant who is knocked down is still down when the referee calls the count of ten (10), the referee will wave both arms to indicate that he had been knocked out and will raise the hand of the opponent as the winner. (3-20-20)T

**05. Both Combatants Down.** If both combatants go down at the same time, the count will be continued as long as one (1) is still down. If both combatants remain down until the count of ten (10), the contest is stopped and the decision is a technical draw. (3-20-20)T

**06. Combatants Down -- Referee Counting.** If a combatant is down as a result of a legal blow at or near the end of a round, the ring official will continue the count. The combatant cannot be saved by the bell. (3-20-20)T

**07. Knockdown After Bell Has Sounded.** If a legal blow struck in the final seconds of a round causes a combatant to go down after the bell has sounded, that knockdown will be regarded as having occurred during the round just ended and the appropriate count will continue into the rest period following the bell. (3-20-20)T

**08. Three Knockdowns in Same Round.** There is no three (3) knockdown limit. (3-20-20)T

**723. RESUMING COUNT ON BOXER.**

If a knockdown occurs before the normal termination of a round and the boxer who is down stands up before the count of ten (10) is reached and then falls down immediately without being struck, the referee will resume the count where it was left off. (3-20-20)T

**724. ADJUDICATION OF TECHNICAL KNOCKOUT.**

**01. Contest Termination.** It must be adjudged a technical knockout to the credit of the winner if a contest is terminated because a combatant is: (3-20-20)T

a. Unable to continue; (3-20-20)T

b. Not honestly competing; (3-20-20)T

c. Injured; or (3-20-20)T

d. Disqualified. (3-20-20)T

**02. Win by Other Than Full Count.** A contest which is won by other than a full count of ten (10) or the scoring of the judges will be adjudged a technical knockout to the credit of the winner. (3-20-20)T

**725. PROCEDURE WHEN COMBATANT IS KNOCKED OUT; PERIOD BEFORE HIS NEXT CONTEST; EXAMINATION IN CASE OF HEAD INJURY.**

**01. Combatant Who Has Been Knocked Out.** A combatant who has been knocked out will be kept in a prone position until he has recovered. Except for the referee or chief second who may remove his mouthpiece, no one may touch him until the ring physician enters the ring, attends him and issues any instructions to his handlers. (3-20-20)T

**02. Decision of Technical Knockout Rendered by Referee.** If the referee has rendered a decision of technical knockout against a combatant, the participant will be placed on the ill and unavailable list for a period designated by the Commission after consulting the Commission's physician, but that period will not be less than fifteen (15) days. The combatant may not engage in any contact boxing during this period without the approval of the Commission. (3-20-20)T

**03. Knockout from Blow to Head.** If a combatant has been knocked out by a blow to the head, he will be placed on the ill and unavailable list for at least thirty (30) days. Before he is reinstated, he must satisfactorily pass an examination performed with a computerized tomographic scanning device or an electroencephalogram, or both, if the Commission or its physician finds that such an examination is necessary to determine his condition. (3-20-20)T

**04. Head Injury.** Whenever it appears that a combatant may have suffered a head injury, he will undergo such an examination if directed to do so by the Commission or its physician. (3-20-20)T

**726. WHEN COMBATANT FALLS FROM RING DURING ROUND.**

**01. Combatant Knocked or Falls from Ring Platform.** A combatant who has been knocked or has fallen through the ropes and over the edge of the ring platform during the contest may be helped back by anyone except his seconds or manager, and the referee may allow a reasonable amount of time for the combatant to return to the ring. If the combatant is on the ring platform outside the ropes, he must enter the ring immediately where he may resume the contest or take a count. The referee will start the count as soon as the combatant who had fallen is back in the ring. (3-20-20)T

**02. Stalling Outside Ropes.** If the combatant stalls for time outside the ropes, the referee will start the count without waiting for him to reenter the ring. (3-20-20)T

**03. Combatant to Neutral Corner.** When one (1) combatant has fallen through the ropes, the other combatant will retire to the farthest corner and stay there until ordered to continue the contest by the referee. (3-20-20)T

**04. Penalty.** A combatant who deliberately wrestles or throws an opponent from the ring, or who hits when he is partly out of the ring and is prevented by the ropes from assuming a position of defense, may be penalized. (3-20-20)T

**727. WHEN A BOXER SHALL BE DEEMED DOWN.**

**01. Feet Off Floor.** A boxer is deemed to be down when any part of his body other than his feet is on the floor. (3-20-20)T

**02. Hanging over Ropes.** A boxer is deemed to be down when he is hanging over the ropes without the ability to protect himself and he cannot fall to the floor. A referee may count a contestant out if he is on the floor or is being held up by the ropes. (3-20-20)T

**728. ANNOUNCEMENT OF WINNER OF BOUT.**

At the termination of each boxing bout the announcer will announce the winner and the referee will raise the winner's hand. (3-20-20)T

**729. CHANGE OF DECISION IN CONTEST.**

The Commission will not change a decision rendered at the end of any contest unless: (3-20-20)T

**01. Collusion.** The Commission determines that there was collusion affecting the result of the contest;

(3-20-20)T

**02. Error in Scoring.** The compilation of scorecards of the judges discloses an error which shows that the decision was given to the wrong combatant; or (3-20-20)T

**03. Error in Interpretation of Rules.** As a result of an error in interpreting a provision of this chapter, the referee has rendered an incorrect decision. (3-20-20)T

**04. Failure of Drug Test.** The Commission determines that there was a violation of Section 900. (3-20-20)T

**730. PHYSICIAN'S REPORT TO COMMISSION AFTER CONTEST.**

On the report which the physician designated by the Commission files after a contest, he shall list each case in which the boxer or wrestler: (3-20-20)T

**01. Injury.** Was injured during the contest; or (3-20-20)T

**02. Applies for Medical Aid.** Has applied for medical aid after the contest. (3-20-20)T

**731. MARTIAL ARTS AND MIXED MARTIAL ARTS (MMA).**

**01. Regulation of Marital Arts and MMA.** Except to the extent set forth under Rules 731-799, all requirements and the limitations relating to combatants and licenses (as set forth within Title 54, Chapter 4, Idaho Code, and in the remaining rules of the Commission) will apply to all martial arts and MMA contests and exhibitions. Notwithstanding the foregoing, at its sole discretion, the Commission may (by specific reference in the sanctioning permit) allow the use of other requirements and limitations during a particular martial arts contest or exhibition. (3-20-20)T

**02. Practices, Belt Promotions, and Non-Contact Demonstrations.** Martial arts practices, belt promotion testing and demonstrations (as used herein the term demonstrations means displays that do not involve combative contact between combatants or between participants) conducted by martial arts schools are not considered to be boxing. Such practices, testing, and demonstrations are exempt from the licensing requirements of Title 54, Chapter 4, Idaho Code, and persons do not need a license to participate in such practices, testing, and demonstrations. (3-20-20)T

**03. Licensing Exemption.** Martial arts schools that meet the conditions set forth within Section 54-406(3)(b), Idaho Code, may apply to the Commission for exemption from licensing and sanctioning permit requirements relating to exhibitions and contests. (3-20-20)T

**04. Use of Official Rules for Art.** Martial arts contests and exhibitions will be conducted pursuant to the official rules of the particular art. The sponsoring organization or promoter must file a copy of the official rules with the Commission before the Commission will issue a sanctioning permit for the contest or exhibition. (3-20-20)T

**05. Boxing Gloves.** The requirement set forth in Section 54-414, Idaho Code, of wearing boxing gloves applies to kickboxing but will not apply to any other form of martial art unless the use of boxing gloves is required by the official rules of that particular art. Any gloves utilized must be in good condition as approved by the commission. For the main and semi main events, gloves will be in new condition and of the same brand for combatants. (3-20-20)T

**732. MMA EQUIPMENT.**

The Commission is the final authority in all equipment matters. The following is a list of required equipment for MMA contests: (3-20-20)T

**01. Commission Approved Mouthpiece.** All combatants will wear a mouthpiece during the contest. It is strongly recommended that all combatants have two (2) form fitted mouthpieces available for use in each contest. (3-20-20)T

**a.** To Begin the Round. The round cannot begin if the mouthpiece is not inside the combatant's mouth and set in place. (3-20-20)T

**b.** During the Contest. The mouthpiece will be inside the combatant's mouth and properly set at all times during the contest. (3-20-20)T

**c.** Dislodged Mouthpiece. If the mouthpiece is dislodged during the contest, the referee will wait until the first opportune moment, without interfering with the action, call time out, and have the mouthpiece replaced. (3-20-20)T

**d.** Violations. At the discretion of the referee, points may be deducted or a disqualification rendered in the following situations: (3-20-20)T

i. When the mouthpiece is not being properly kept inside of the combatant's mouth; (3-20-20)T

ii. When the mouthpiece is purposely spit out; or (3-20-20)T

iii. When the corner fails to have the combatant resume competition with the mouthpiece in place or delays in replacing the mouthpiece after it becomes dislodged. (3-20-20)T

**02. Commission Approved MMA Gloves.** (3-20-20)T

**a.** General. The gloves will be examined by the Commission and the referee. If padding in the gloves is found to be misplaced or lumpy, or if any gloves are found to be imperfect, they must be changed before the contest starts. No breaking, roughing or twisting of gloves is permitted. (3-20-20)T

**b.** Weight: Each combatant will wear gloves that are not less than four (4) ounces in weight; (3-20-20)T

**c.** Specifications. Each combatant will wear open finger gloves that have no padding in the palm or fingertip area and that are appropriate in weight for the combatant's hand size. Under no circumstances will a combatant be allowed to wear bag gloves or any other gloves with metal or plastic inserts. (3-20-20)T

**03. Commission Approved Attire.** (3-20-20)T

**a.** Each combatant will wear a foul-proof groin protector. (3-20-20)T

**b.** Each female combatant will wear Commission-approved form fitting breast support protection. Supports may not have brace, metal or hard material of any kind. (3-20-20)T

**c.** For male combatants, no body shirts or pants are allowed. Female combatants will wear fighting shorts and rash guard. (3-20-20)T

**d.** Combatant may only use soft materials to tie hair. (3-20-20)T

**04. Prohibited Equipment and Attire.** (3-20-20)T

**a.** The following equipment and attire are prohibited: (3-20-20)T

i. Shoes; (3-20-20)T

ii. Facial hair, if determined by the Commission to pose a health, safety or sanitary issue; (3-20-20)T

iii. Tar material on any part of the body; (3-20-20)T

iv. Henna-type tattoos; (3-20-20)T

- v. Piercing accessories; and (3-20-20)T
- vi. Makeup of any kind. (3-20-20)T
- b. Masks, costumes, and props must be approved by the Commission prior to usage. (3-20-20)T
- c. Fingernails and toenails must be cut and trimmed prior to a contest. (3-20-20)T

**733. FAIR TECHNIQUES AND FOULS IN MMA EVENTS.**

**01. Fair Techniques.** Fair MMA techniques include the use of striking and grappling techniques, either while standing or on the ground, subject to techniques designated by the rules as fouls. (3-20-20)T

**02. Fouls.** The following actions will constitute fouls during any MMA event: (3-20-20)T

**a.** Head-butting or striking with the head in any manner. Any use of the head as a striking instrument whether head to head, head to body or otherwise is illegal. (3-20-20)T

**b.** Eye-gouging by means of fingers, chin, or elbow. Legal strikes or punches that contact the combatant's eye socket are not eye gouging and will be considered legal attacks. (3-20-20)T

**c.** A combatant must recognize that a referee may not be able to physically observe some actions and must make the referee aware if they are being bitten during an exhibition of unarmed combat. (3-20-20)T

**d.** Hair Pulling. A combatant may not grab hold of an opponent's hair in order to control the opponent in any way. (3-20-20)T

**e.** Fishhooking, meaning using the fingers to attack an opponent's mouth, nose, or ears, or stretching the skin to that area. Fishhooking generally is the placing of fingers into the mouth of an opponent and pulling the hands in opposite directions while holding onto the skin of the opponent. (3-20-20)T

**f.** Groin attacks, including striking, grabbing, pinching or twisting the groin area. (3-20-20)T

**g.** Smothering an opponent by cupping a hand over an opponent's mouth and nose. (3-20-20)T

**h.** Elbows thrown from a vertical angle. Elbows thrown from any other angle are legal, except that strikes with the elbow point from any angle are illegal during a contest or exhibition in which an amateur combatant participates. (3-20-20)T

**i.** Knee strikes of any kind to an amateur combatant's head. Further, when any combatant goes to the ground, only knees to the body are allowed. (3-20-20)T

**j.** Strikes to the back of the head. The back of the head is considered from the crown of the head down the centerline of the skull into the spine, with a one (1) inch variance to each side, similar to a mohawk haircut. Strikes that are thrown to areas behind the ears but not within the mohawk limitation are legal strikes. (3-20-20)T

**k.** Hand Chokes. A combatant may not attack an opponent with a choke utilizing only his hand or hands in an attempt to submit an opponent. A common phrase for this type of choke is the "C clamp" choke wherein the thumb is placed on one side of an opponent's neck with the fingers on the opposite side. (3-20-20)T

**l.** Placing one's fingers into an open laceration on an opponent in an attempt to enlarge the cut. A combatant may not place his fingers into an opponent's nose, ears, mouth, or any body cavity. (3-20-20)T

**m.** Small Joint Manipulation. Fingers and toes are small joints. Wrists, ankles, knees, shoulders and elbows are all large joints. (3-20-20)T

**n.** Spine Attacks. Illegal spine attacks include, without limitation, locks, such as the "Twister," and

- strikes to the spine. (3-20-20)T
- o.** Throat strikes of any kind including, without limitation, grabbing the trachea. (3-20-20)T

    - i.** No directed throat strikes are allowed. A directed attack would include a combatant pulling an opponent's head in a way to open the neck area for a striking attack. Directed throat attacks are not punches that connect during an exchange from the standing position while combatants are engaged in combat. (3-20-20)T
    - ii.** A combatant may not gouge his fingers or thumb into an opponent's neck or trachea in an attempt to submit the opponent. (3-20-20)T
    - iii.** All arm chokes such as the "rear naked," "guillotine" and "bar arm" are legal. (3-20-20)T
  - p.** Skin Clawing. Any attack that targets the combatant's skin by clawing at the skin or attempting to pull or twist the skin to apply pain. (3-20-20)T
  - q.** Kicking the head or groin of a grounded opponent. A grounded opponent is any combatant who has more than just the soles of the feet on the ground. If the referee determines that a combatant would be a grounded combatant, but not solely because the ring ropes or cage fence has held the combatant up from the ground, the referee can instruct the combatants that the combatant held up solely by the cage or ropes is being treated as a grounded combatant. A combatant can be kicked to the body when he is on the ground with any type of legal kick, but may not be kicked in the head or groin. (3-20-20)T
  - r.** Stomping, meaning any type of striking action with the feet wherein the combatant lifts his leg, bending it at the knee, and initiates a striking action with the bottom of the foot or heel. This includes stomping the feet while both combatants are standing. Axe kicks are not stomps. (3-20-20)T
  - s.** Pile-driving an opponent into the mat. (3-20-20)T

    - i.** A pile driver is considered to be any throw wherein a combatant controls an opponent's body by placing the opponent's feet straight up in the air and the head straight down and then forcibly driving the opponent's head into the canvas or flooring material. (3-20-20)T
    - ii.** It should be noted that if a combatant is placed into a submission hold by his opponent and the combatant is capable of elevating his opponent, the combatant may bring his opponent down in any manner because he is not in control of his opponent's body. The combatant who is attempting the submission can either adjust his position or let go of the hold before being slammed to the canvas. It is crucial that referees are properly advised and trained on this and that the combatants fully understand this at the rules meeting. (3-20-20)T
  - t.** Purposely throwing an opponent out of the ring or caged area. A combatant will not intentionally or purposely throw an opponent out of the ring or cage. (3-20-20)T
  - u.** Holding the shorts or gloves of an opponent. A combatant may not control an opponent's movement by holding onto the opponent's shorts or gloves. A combatant may hold onto or grab an opponent's hand as long as the combatant is not controlling the opponent's hand by using only the material of the glove but is actually gripping the hand. It is legal for a combatant to hold onto his own gloves or shorts. (3-20-20)T
  - v.** Engaging in any unsportsmanlike conduct is not allowed. Any type of behavior or conduct observed or heard by the referee that can be considered detrimental or disrespectful towards an opponent or the sport of MMA. This includes, but is not limited to, spitting at an opponent, using abusive language or abusive gestures, etc. (3-20-20)T
  - w.** Holding the ropes or the fence. (3-20-20)T

    - i.** A combatant may put his hands on the fence and push off at any time. A combatant may place his feet onto the cage and have his toes go through the fencing material at any time. If a combatant's fingers go through the cage and he grabs hold of the fence and starts to control either his body position or his opponent's body position,

it is an illegal action. A combatant may not grab the ropes or wrap his arms over the ring ropes at any time. (3-20-20)T

ii. If a combatant is caught holding the fence, cage or ring rope material the referee will issue a one-point (1) deduction from the offending combatant's scorecard. (3-20-20)T

iii. If a point deduction for holding the fence occurs, and the fouling combatant ends up in a superior position due to the foul, the combatants will be re-started, standing in a neutral position. (3-20-20)T

x. Attacking an opponent on or during the break. A combatant will not engage an opponent in any manner during a time-out or break of action in competition. (3-20-20)T

y. Engaging an opponent in any manner while the opponent is under the referee's care or handling. (3-20-20)T

z. Failing to follow the referee's instructions. Any deviation or non-compliance may result in the combatant's disqualification. (3-20-20)T

aa. Timidity, meaning any action by a combatant that is used to avoid contact with his opponent or to run away from the action of the fight. Timidity, includes, without limitation, intentionally avoiding contact with an opponent or consistently dropping the mouthpiece or faking an injury. The referee may also call timidity on a combatant for attempting to receive time by falsely claiming a foul or injury, for purposely dropping or spitting out his mouthpiece, or for committing any other action designed to stall the contest. (3-20-20)T

bb. Interference by the corner, meaning any action or activity by a corner aimed at disrupting the contest or causing an unfair advantage to a combatant. Corners are not allowed to distract the referee or influence the actions of the referee in any manner. (3-20-20)T

**03. Time Considerations for Fouls. (3-20-20)T**

a. A combatant who has been struck with a low blow is allowed up to five (5) minutes to recover from the foul and can continue on in the contest if allowed to by the ringside physician. (3-20-20)T

i. If the combatant states that they can continue on before the five (5) minute time allotment has expired, then as soon as is practical the referee will restart the contest. (3-20-20)T

ii. If the combatant goes over the five (5) minute time allotment, the contest cannot be restarted and is stopped. The outcome is determined by the round and time in which the contest was stopped. (3-20-20)T

b. If a combatant is fouled by a blow that the referee deems illegal, the referee will stop the action and call for time. The referee will take the injured combatant to the ringside physician and have the ringside physician examine the combatant to determine the combatant's ability to continue on in the contest. The ringside physician has up to five (5) minutes to make his determination. If the ringside physician determines that the combatant can continue on in the contest, then as soon as is practical the referee will restart the contest. Unlike the low blow foul, the combatant does not have the five (5) minute time allotment to use at his discretion. (3-20-20)T

c. If the referee stops the contest and employs the use of the ringside physician, the ringside physician's examination cannot exceed five (5) minutes. If five (5) minutes is exceeded, the contest cannot be restarted and is stopped. (3-20-20)T

d. If the ringside physician deems a combatant unfit to continue, the referee must immediately stop the contest. If the combatant is deemed unfit to continue by the ringside physician and part of the five (5) minute foul time is remaining, the combatant cannot use the remaining time. This will be enforced for all listed fouls, with the exception of a low blow foul. (3-20-20)T

**04. Intentional Fouling. (3-20-20)T**

**a.** When a contest is interrupted due to an injury caused by an intentional foul, the referee, in consultation with the ringside physician, will determine whether the intentionally fouled combatant can continue or not. If it is determined that the intentionally fouled combatant's chance of winning has not been seriously jeopardized as a result of the foul, the referee may order the contest continued after a reasonable interval. A combatant who is fouled with a low blow has up to five (5) minutes to recover. (3-20-20)T

**b.** If the referee, in consultation with the ringside physician, determines at any time during the contest that the intentionally fouled combatant's chance of winning has been seriously jeopardized or the combatant is unable to continue the contest as a result of the foul, or by any aggravation to an injury caused by the foul, the intentionally fouled combatant wins by "technical decision." (3-20-20)T

**05. Accidental Fouling.** (3-20-20)T

**a.** When a contest is interrupted due to an injury caused by an accidental foul, the referee, in consultation with the ringside physician, will determine whether the combatant who has been fouled can continue or not. If it is determined that a combatant has been accidentally fouled and the combatant's chance of winning has not been seriously jeopardized as a result of a foul, the referee may order the contest continued after a reasonable interval. A combatant who is fouled with a low blow has up to five (5) minutes to recover. (3-20-20)T

**b.** If the referee or the ringside physician, or both, determine that the contest may not continue because of an injury suffered as the result of an accidental foul or because of an injury inflicted by an accidental foul which later becomes aggravated by fair blows, and if less than two (2) rounds have been completed in the contest, then a "no contest" will be entered. If two (2) or more rounds have been completed in the contest, then the combatant who is ahead on the scorecards wins by "Technical Decision." (3-20-20)T

**06. Fouls or Unsportsmanlike Conduct During the One Minute Rest Period in MMA Contest.** (3-20-20)T

**07. Concussive Head Impact Fouls in MMA Contest.** Before allowing a contest to continue, the referee should consult with the ringside physician in all cases involving concussive head fouls. The referee, in conjunction with the ringside physician, will determine the length of time needed to evaluate the affected combatant's suitability to continue. (3-20-20)T

**a.** If the referee determines that a foul to the head was intentional, he must follow the Intentional Foul rule. The referee will consider that allowing the contest to continue may subject the combatant to a severe injury. (3-20-20)T

**i.** If the affected combatant is not badly injured and his chance of winning has not been seriously jeopardized because of the foul, the contest may be allowed to continue. If the contest is allowed to continue, the offending combatant will be issued an official warning and have one (1) point deducted from his score in the round. (3-20-20)T

**ii.** If the referee determines that the affected combatant cannot continue, the offending combatant will lose by "Disqualification." (3-20-20)T

  - b. When a combatant is hit with an accidental low blow and claims injury, the referee, at his discretion, may apply the Five (5) Minute rule. If the injured combatant cannot resume fighting before the recovery period ends, the injured combatant will lose the contest by “No Contest.” (3-20-20)T
  - c. The Five (5) Minute Rule is only applicable to low blow fouls. (3-20-20)T
- 09. Disqualification.** A combatant will lose by “Disqualification” when he: (3-20-20)T

Point deductions for fouls will be done at the time of the infraction. If an intentional foul causes injury and the injury is severe enough to immediately terminate the bout, the combatant causing the injury loses by “Disqualification.” (3-20-20)T
  - c. Point deductions for an intentional foul is mandatory. If an intentional foul causes an injury and the fouled combatant can continue, the referee at his discretion will deduct points from the offending combatant. (3-20-20)T

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24:

#### **IDAPA 24.03**

- 24.03.01, *Rules of the State Board of Chiropractic Physicians.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for chiropractors as well as regulate the practice of chiropractic physicians. Allowing these rules to expire would harm licensees and consumers who seek treatment from chiropractic physicians.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-707A, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

## 24.04.01 – RULES OF PROCEDURE OF THE BOARD OF REGISTRATION FOR PROFESSIONAL GEOLOGISTS

DOCKET NO. 24-0401-2000F (FEE RULE)

### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-2808, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24:

#### **IDAPA 24.04**

- 24.04.01, *Rules of Procedure of the Board of Registration of Professional Geologists.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for registered geologists who protect the public health, safety and welfare by providing reasoned input in minimizing potential danger from geologic hazards during construction projects; alerting the public to potential danger in areas of seismic risk; defining impacts of human activities and natural occurrences on aquifers, recharge areas, and other water resources; and outlining steps in geohazard mitigation for features such as: fault zones, landslides, and unstable foundation areas. Not reauthorizing these rules would hinder the Board's ability to admit new applicants, to renew current licenses, and would affect registered geologists' ability to affix their stamp.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 54-2813, 54-2814, and 54-2816, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

FEE TYPE	AMOUNT (Not to Exceed)
Application	\$100

#### **DOCKET NO. 24-0501-2000F (FEE RULE)**

#### **NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-2406, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24:

#### **IDAPA 24.05**

- 24.05.01, *Rules of the Board of Drinking Water and Wastewater Professionals.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for individuals who maintain Idaho's public drinking water and public wastewater systems. Allowing these rules to expire would harm the licensees, the localities who operate public drinking water and public wastewater systems, the environment, and the public health.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-2407, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-3003, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24:

**IDAPA 24.07**

- 24.07.01, *Rules of the Idaho State Board of Landscape Architects.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications to practice landscape architecture and ensure that an individual has demonstrated the knowledge, skills, and abilities to practice landscape architecture without endangering the health, safety or welfare of the public.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-3003, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

## 24.08.01 – RULES OF THE STATE BOARD OF MORTICIANS

### DOCKET NO. 24-0801-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 54-1106 and 54-1107, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rule adopts the following chapter under IDAPA 24:

#### **IDAPA 24.08**

- 24.08.01, *Rules of the State Board of Morticians.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The State Board of Morticians is charged with the duty to regulate, license, and supervise funeral homes, crematories, Morticians, and Funeral Directors in the State of Idaho. The Board's primary responsibility is to protect public health, safety, and welfare through licensure and enforcement of Idaho law. Failure to renew these rules would harm public health and safety through eliminating requirements of licensees and licensed facilities to safely, compassionately, and ethically prepare and make final disposition of the deceased.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-1115, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

<b>FEE TYPE</b>	<b>AMOUNT (Not to Exceed)</b>

**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-1604, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapters under IDAPA 24:

**IDAPA 24.09**

- 24.09.01, *Rules of the Board of Examiners of Nursing Home Administrators.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for nursing home administrators, which ensures the integrity and competence of a profession charged with maintaining the quality of care for vulnerable citizens. Allowing these rules to expire would harm the health, safety, and welfare of residents of nursing homes, as well as current and prospective licensees.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-1604, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

### DOCKET NO. 24-1101-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-605, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.11.01:

**IDAPA 24.11**

- 24.11.01, *Rules of the State Board of Podiatry.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for the practice of podiatry and define the ethical standards of the profession in Idaho. Allowing these rules, including the ethical standards, to expire would harm the public health, safety, and welfare, harm licensees, and harm prospective licensees.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 54-605, and 54-606, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

Application	\$200
Original License	\$400

## 24.12.01 – RULES OF THE IDAHO STATE BOARD OF PSYCHOLOGIST EXAMINERS

### DOCKET NO. 24-1201-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 54-2305, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.12.01:

#### **IDAPA 24.12**

- 24.12.01, *Rules of the Idaho State Board of Psychologist Examiners.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and ethical standards for psychologists in Idaho, as well as the necessary credentials and standards of practice for certified psychologists to exercise prescriptive authority. Allowing these rules to expire would deprive the Board of the ability to admit new psychologists to practice and renew current licenses, harming the public health, safety, and welfare.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 54-2307, 54-2312, 54-2312A, 54-2315, and 54-2318, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

psychological condition that may affect the medical treatment being provided by the licensed medical provider.

The prescribing psychologist must consult with the licensed medical provider as soon as possible. The prescribing psychologist must document in the patient's psychological evaluation/treatment records the nature and extent of the emergency and the attempt(s) made to contact the licensed medical provider prior to prescribing or other reason why contact could not be made.

**DOCKET NO. 24-1301-2000F (FEE RULE)**

**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-2206, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.13.01:

**IDAPA 24.13**

- 24.13.01, *Rules Governing the Physical Therapy Licensure Board.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Section 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for physical therapists and physical therapist assistants and define the ethical standards to which licensees must adhere. Allowing these rules to expire would harm the public health, safety, and welfare since these rules help ensure the competence and appropriate conduct of physical therapists and physical therapist assistants.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-2207, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

Physical Therapist License	\$25	\$25
Physical Therapist Assistant License	\$20	\$20

## 24.14.01 – RULES OF THE STATE BOARD OF SOCIAL WORK EXAMINERS

### DOCKET NO. 24-1401-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-3204, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.14.01:

#### **IDAPA 24.14**

- 24.14.01, *Rules of the State Board of Social Work Examiners.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for licensed professional social workers, as well as outline the ethical responsibilities and code of professional conduct licensees must adhere to. Allowing these rules and the requirements contained within them to lapse would harm the safety and welfare of citizens, licensees, and prospective licensees.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-3209, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

(3-20-20)T

**c.** The subject matter of all approved continuing education must be germane to the practice of social work as defined in Section 54-3202, Idaho Code, and may include the specialties of Marriage and Family Therapy, Psychiatry, Psychiatric Nursing, or Psychology. (3-20-20)T

b. All continuing education hours must be relevant to the profession of social work at the individual's particular level of social work licensure. The presenter's level of education must be at the licensee's level or above. (3-20-20)T

**b.** Social workers may not undertake any activity in which their personal problems are likely to lead to inadequate performance or harm to a client, colleague, student, or research participant. If engaged in such activity when they become aware of their personal problems, they must seek competent professional assistance to determine whether they should suspend, terminate, or limit the scope of their professional activities. (3-20-20)T

**g.** A social worker must obtain the client's or legal guardian's informed written consent when a client is to be involved in any research project. A social worker must explain the research, including any implications. (3-20-20)T

**h.** The social worker must obtain informed consent of clients before taping, recording, or permitting third party observation of their activities. (3-20-20)T

**04. The Advertising Rules for Social Workers.** No social worker may disseminate or cause the dissemination of any advertisement or advertising that is any way fraudulent, false, deceptive or misleading. Any advertisement or advertising is deemed by the board to be fraudulent, false, deceptive, or misleading if it: (3-20-20)T

**a.** Contains a misrepresentation of fact; or (3-20-20)T

**b.** Is misleading or deceptive because in its content or in the context in which it is presented it makes only a partial disclosure of relevant facts. More specifically, it is misleading and deceptive for a social worker to advertise free services or services for a specific charge when in fact the social worker is transmitting a higher charge for the advertised services to a third party payor for payment or charges the patient or a third party. **h.** Appears in any classified directory, listing, or compendium under a heading, which when considered together with the advertisement, has the capacity or tendency to be deceptive or misleading with respect to the profession or professional status of the social worker; or (3-20-20)T

- i. Contains any other representation, statement, or claim which is misleading or deceptive. (3-20-20)T

**05. Dual Relationships.** A social worker may not engage in dual or multiple relationships with clients, with relatives of a client, or with individuals with whom clients maintain close personal relationships, in which a reasonable and prudent social worker would conclude after appropriate assessment that there is a risk of harm or exploitation to the client or of impairing a social worker's objectivity or professional judgment. A dual or multiple relationship is a relationship that occurs when a social worker interacts with a client in more than one capacity, whether it be before, during, or after the professional, social, or business relationship. Dual or multiple relationships can occur simultaneously or consecutively. After an appropriate assessment that the relationship does not create a risk of harm or exploitation to the client and will not impair a social worker's objectivity or professional judgment, the social worker must document in case records, prior to the interaction, when feasible, the rationale for such a relationship, the potential benefit to the client, and anticipated consequences for the client. (3-20-20)T

**06. Business Relationships.** A social worker may not purchase goods or services from a client or otherwise engage in a business relationship with a client except when: (3-20-20)T

#### **DOCKET NO. 24-1501-2000F (FEE RULE)**

#### **NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-3404, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.15.01:

#### **IDAPA 24.15**

- 24.15.01, *Rules of the Idaho Licensing Board of Professional Counselors and Marriage and Family Therapists.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and ethical standards for professional counselors and marriage and family therapists. Allowing these rules to expire would harm public health, safety, and welfare through removing safeguards designed to protect against harm or damage to vulnerable children, adolescents, and adults.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-3411, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

## 24.16.01 – RULES OF THE STATE BOARD OF DENTURITRY

### DOCKET NO. 24-1601-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-3309, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.16.01:

**IDAPA 24.16**

- 24.16.01, *Rules of the State Board of Denturitry.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and facility standards for the practice of denturitry. Allowing these rules to expire would deny the Board of its ability to ensure minimum qualifications for practice are met and facility standards are maintained.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-3312, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

## 24.17.01 – RULES OF THE STATE BOARD OF ACUPUNCTURE

### DOCKET NO. 24-1701-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-4705, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.17.01:

**IDAPA 24.17**

- 24.17.01, *Rules of the State Board of Acupuncture.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Section 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules establish and govern the standards necessary for the practice of acupuncture and allowing the rules to expire would impede the Board’s ability to ensure that acupuncture services are provided by competent individuals.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased is justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-4710(2), Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

License/Certification/Permit/Certification	Initial Fee (Not to Exceed)	Annual Renewal Fee (Not to Exceed)

**DOCKET NO. 24-1801-2000F (FEE RULE)**

**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-4106, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.18.01:

**IDAPA 24.18**

24.18.01, *Rules of the Real Estate Appraiser Board.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the initial and ongoing licensure requirements for real estate appraisers and appraisal management companies in Idaho. These rules are required under federal law in order for Idaho licensed appraisers to conduct appraisals for federally related transactions. Allowing these rules to expire would put Idaho out of compliance with the federal requirements, which would harm licensees and the public.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 54-4113, 54-4124, and 54-4134, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

## 24.19.01 – RULES OF THE BOARD OF EXAMINERS OF RESIDENTIAL CARE FACILITY ADMINISTRATORS

### DOCKET NO. 24-1901-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-4205, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.19.01:

#### **IDAPA 24.19**

- 24.19.01, *Rules of the Board of Examiners of Residential Care Facility Administrators.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and code of ethics for individuals who run residential care facilities, which are home to residents with varying assistive needs. Allowing these rules to expire would harm the safety and welfare of the residents of residential care facilities, current licensees, and prospective licensees.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 54-4205, and 54-4206, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

<b>FEE TYPE</b>	<b>AMOUNT (Not to Exceed)</b>
Application	\$150
Annual Renewal	\$150
Provisional Permit	\$150

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-5206, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.21.01:

**IDAPA 24.21**

- 24.21.01, *Rules of the Idaho State Contractors Board.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the process for registering as a contractor in Idaho. Allowing these rules to expire would harm the public safety and welfare because the Board would not have a framework to analyze applicants with felony convictions.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-5207, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

<b>FEE TYPE</b>	<b>AMOUNT (Not to Exceed)</b>
Application (includes original registration)	\$50
Reciprocal	\$50

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-2910, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for speech pathologists, audiologists, hearing aid dealers and fitters, and sign language interpreters, as well as the code of ethics for sign language interpreters. Allowing these rules to expire would harm the health, safety, and welfare of Idaho citizens with speech and hearing disorders.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

**DOCKET NO. 24-2401-2000F (FEE RULE)**

**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 54-5607, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.24.01:

**IDAPA 24.24**

- 24.24.01, *Rules of the Genetic Counselors Licensing Board.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications, code of ethics, and standards of practice for genetic counselors. Allowing these rules to expire would harm the public health, safety, and welfare of those citizens who utilize genetic services.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-5613, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-5403, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.25.01:

**IDAPA 24.25**

*24.25.01, Rules of the Idaho Driving Businesses Licensure Board.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the credentials required to instruct Idaho’s student drivers and protect the public sharing the roadways with student drivers. Allowing these rules to expire would mean the dissolution of the curriculum standards for students in private driving schools, suspension of the standards driving instructors and driving businesses are required to maintain, and removal of an alternative form of driver’s education for Idaho students and their families.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-5404, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

## 24.26.01 – RULES OF THE IDAHO BOARD OF MIDWIFERY

### DOCKET NO. 24-2601-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 54-5504, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.26.01:

**IDAPA 24.26**

- 24.26.01, *Rules of the Idaho Board of Midwifery.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications, formulary, and certain standards of practice of midwives in Idaho. Allowing these rules to expire would harm licensees and would impose a barrier to care, harming the public health, safety, and welfare of the citizens of Idaho.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-5509, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

APPLICATION	FEE (Not to Exceed)
Initial Application	\$200

## 24.27.01 – RULES OF THE IDAHO STATE BOARD OF MASSAGE THERAPY

### DOCKET NO. 24-2701-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-4007, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.27.01:

**IDAPA 24.27**

- 24.27.01, *Rules of the Idaho State Board of Massage Therapy.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules protect the health, safety, and welfare of the public through ensuring massage therapy services are provided by those have met minimum qualifications to perform massage therapy. Allowing these rules to expire would harm current licensees, applicants, and the public because the minimum standards of competency would lapse.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-4008, Idaho Code, are part of the agency’s 2021 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

## 24.28.01 – RULES OF THE BARBER AND COSMETOLOGY SERVICES LICENSING BOARD

### DOCKET NO. 24-2801-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 54-5807, Idaho Code, and 54-5822.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.28.01:

#### **IDAPA 24.28**

- 24.28.01, *Rules of the Barber and Cosmetology Services Licensing Board.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and standards for licensees in the barber and cosmetology services industry, as well as the hygiene and sanitation standards of establishments which offer those services. Failing to reauthorize these rules would deprive the Board of the ability to protect the public health, safety, and welfare of the citizens of Idaho.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-5822, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

## 24.29.01 – RULES OF PROCEDURE OF THE IDAHO CERTIFIED SHORTHAND REPORTERS BOARD

### DOCKET NO. 24-2901-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-3107, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 24.9.01:

#### **IDAPA 24.29**

- 24.29.01, *Rules of the Rules of the Procedure of the Idaho Certified Shorthand Reporters Board.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and criteria for shorthand reporters in Idaho. Allowing these rules to expire would harm recent efforts made to reduce barriers to entry into the profession and would adversely effect the Board's ability to admit new licensees, harming the welfare of prospective licensees and the industries the Board serves.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 54-3110, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

## DOCKET NO. 25-0101-2000F (FEE RULE)

### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 36-2107, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 25:

#### **IDAPA 25**

- 25.01.01 *Rules of the Outfitters and Guides Licensing Board*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 36-2108, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

- Outfitters: application fee: \$400; annual license fee online: \$400; annual license fee offline: \$450; late penalty: \$150; major amendment: \$200; and minor amendment: \$35.

**03. Process.** (3-20-20)T

**a.** The notice of non-use will include the activity(s) and operating area(s) that appear to be in non-use and an explanation of how the determination was made. **052. BOAT TRANSPORT OF HUNTING CLIENTS.**

A boatman licensee (either power or float) must not transport big game hunters to any big game hunting area unless licensed to outfit for big game hunting in that area or is in the employ of the licensed outfitter for that area. (3-20-20)T

**053. CONTROLLED HUNTS OUTSIDE OUTFITTER'S OPERATING AREA.**

The Board may authorize an outfitter who is licensed for a controlled hunt species to conduct a one-time hunt for a controlled hunt outside of the outfitter's licensed area when the outfitter submits a minor amendment fee and a written request with the following: (3-20-20)T

- 01. Written Permission.** Written permission from all outfitters whose licensed area(s) will be directly involved in the hunt and all applicable landowners or land managers; (3-20-20)T
- 02. Identification of Hunter.** The hunter name and address, hunting license, tag and permit numbers, controlled hunt number, and dates of hunt. (3-20-20)T
- 03. Compensation Between Outfitters.** No compensation is permitted between outfitters participating in the conduct of a controlled hunt in another outfitter's area, unless the outfitter supplies a service for that compensation. (3-20-20)T

**054. BOAT EQUIPMENT REQUIREMENTS.**

Each float or power boat must be identified as follows: (3-20-20)T

- 01. Identification.** Identification recorded with the Board on the outfitter application consisting of

words, names, or letters not less than three (3) inches in height, and be of a contrasting color indicating the current licensed outfitter and that is placed above the water line on each side of the bow or stern of the boat utilized by that outfitter in letters. (Does not apply to single person boats or two (2) person inflatable boats). (3-20-20)T

**02. Clearwater.** On Sections CL2 and CL3 of the Clearwater River, a sticker affixed to the surface of any boat used for anadromous fishing that is not less than eight (8) inches in height and placed immediately adjacent to the identification words, names or letters on each side of the boat towards the bow, identifying the boat as operated by a licensed outfitter. Stickers will be provided and sold annually by the Board or a vendor designated by the Board. (3-20-20)T

**055. BOATING CLIENT/GUIDE RATIO.**

All float boats, occupied by three (3) or more clients, must be under the control of a licensed guide; except a boat guide trainee may operate a boat under the direct supervision of a licensed boatman, or may train as indicated in Section 040. Kayaks and canoes and clients rowing rafts that they provide are exempt from this rule. (3-20-20)T

**056. (RESERVED)**

**057. DESIGNATION OF ALLOCATED DEER AND ELK TAGS.**

Beginning with the 2021 big game season setting, the Board will designate allocated tags to eligible outfitter operations as prescribed by Section 36-2107(j), Idaho Code, and when necessary, based on an outfitter's proportional use within the capped zone or controlled hunt zone, unit, or game management area as set forth in this section. For purposes of this section, an eligible outfitter operation is an outfitter whose licensed activities include hunting the species for the type of allocated tag being designated. (3-20-20)T

**01. Calculation and Designation of Allocated Tags.** Pursuant to Section 36-2107(j), Idaho Code and as set forth below, an outfitter's number of designated allocated tags will be the outfitter's base allocation number plus a proportional share of any surplus allocated tags based on outfitted tag use as set forth below, or when there is an insufficient number of allocated tags to satisfy each outfitter's base allocation, the outfitter's proportional use. The result is the number of allocated tags designated for the outfitter operation. The Board will notify outfitters of the number of designated allocated tags and the underlying basis for the designation. The designation applies until the next big game season setting by the Idaho Fish and Game Commission. (3-20-20)T

**a.** An outfitter's base allocation number is: (3-20-20)T

**i.** For a capped zone, the average of the last two (2) years of an outfitter's outfitted tag use. (3-20-20)T

**ii.** For a controlled hunt, the highest year within the last two (2) years of an outfitter's outfitted tag use. (3-20-20)T

**b.** An outfitter's proportional use is calculated by dividing an individual outfitter's base allocation by the total of the base allocations of all outfitters in the capped zone or controlled hunt zone, unit, or game management area, and then multiplying by the total number of allocated tags for the capped zone or controlled hunt. (3-20-20)T

**c.** When a calculation results in a partial tag, the calculation will be rounded up when a decimal equals or exceeds zero point six (0.6) and rounded down when a decimal is less than zero point six (0.6). (3-20-20)T

**d.** When there are remaining allocated tags after the Board has designated tags pursuant to Paragraphs a and b of this rule, the Board will designate remaining allocated tags based on the following priorities and in the following order: (3-20-20)T

**i.** All eligible outfitters whose base allocation number is zero (0) and who want to be designated allocated tags are designated at least one (1) allocated tag; (3-20-20)T

**ii.** Eligible outfitters with the fewest number of designated allocated tags have an equal number of designated allocated tags when possible; (3-20-20)T

iii. Based on a random drawing between the eligible outfitters with the fewest number of designated allocated tags provided that an outfitter is not designated more allocated tags than another outfitter that has a greater base allocation number; (3-20-20)T

iv. Based on the greater base allocation number between the eligible outfitters with the fewest number of designated allocated tags. (3-20-20)T

e. When there is a deficit of allocated tags to satisfy each outfitter's proportional use, the Board will identify the group of outfitters whose base allocation number was rounded up, and the deficit will be resolved against the outfitter whose base allocation number prior to rounding is closest to zero point six (0.6). In the event there are two outfitters with the same unrounded base allocation number closest to zero point six (0.6), the deficit will be resolved against one of those outfitters based on a random drawing. (3-20-20)T

**02. Stipulation by Outfitters.** Outfitters in a capped zone or for a controlled hunt may submit to the Board a written stipulation determining the number of allocated tags designated for each outfitter within the capped zone or for the controlled hunt. The stipulation must be signed by all eligible outfitters for the capped zone or controlled hunt. If the Board accepts the stipulation, the stipulation will be effective until the Idaho Fish and Game Commission sets the next big game season. (3-20-20)T

a. On or before November 1, any outfitter may petition the Board to withdraw from the stipulation for good cause. If the Board grants the withdrawal, then the Board will calculate and designate the allocated tags among the outfitters in that capped zone or controlled hunt according to Subsection 01 of this rule. (3-20-20)T

b. A stipulation only applies to the designation of allocated tags by the Board. (3-20-20)T

**03. Objection to Calculation.** An outfitter that believes the calculation is incorrect may object by filing a petition in accordance with the Idaho administrative procedures act with the Board along with any supporting information or documentation. (3-20-20)T

a. The Board will notify all other eligible outfitters in the capped zone or for the controlled hunt of the petition. (3-20-20)T

b. The outfitter bears the burden of establishing that the calculation was incorrect. (3-20-20)T

**04. Hardship Request.** An outfitter may submit to the Board a written request to maintain a previous base allocation number when the outfitter can demonstrate hardship, including health, act of nature, state of federal restrictions on hunting or access or other good cause that prohibited or limited the outfitter's ability to seek and accommodate clients and impacted the outfitter's use of designated allocated tags. The outfitter must provide any information requested by the Board to assist in substantiating hardship cases. The hardship request must also be approved by the Idaho Department of Fish and Game to retain the outfitted hunter tag use history in respective hunt. (3-20-20)T

**05. Change in Operating Area or Owner of Business.** When an outfitting business is sold or when an operating area is adjusted and designated allocated tags are associated with the affected operating area, the board will transfer the associated designated allocated tags to the new owner. (3-20-20)T

**058. NUMBER OF OUTFITTERS AND GUIDES LIMITED.**

Big Lost and Little Lost Rivers and the Big Wood and the Little Wood Rivers -- All reaches from headwaters to the termination of the flow of the Big Lost and the Little Lost Rivers and all reaches of the Big Wood and Little Wood Rivers are limited to a maximum of five (5) outfitters on both rivers combined. (3-20-20)T

**059. RIVER, LAKE AND RESERVOIR POWER AND FLOAT OUTFITTER LIMITS.**

The following rivers and streams or sections that lie totally or partially within the state of Idaho are open to commercial boating operations by outfitters and guides. The Board may open other rivers and streams or sections upon a petition to adopt rules under Section 67-5230, Idaho Code. (3-20-20)T

## IDAPA 26 – DEPARTMENT OF PARKS AND RECREATION

### DOCKET NO. 26-0000-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 67-4223, 67-7115, and 67-7116, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapters under IDAPA 26, rules of the Department of Parks and Recreation:

#### **IDAPA 26**

- 26.01.10, *Rules Governing the Administration of Temporary Permits on Lands Owned by the Idaho Department of Parks and Recreation;*
- 26.01.20, *Rules Governing the Administration of Park and Recreation Areas and Facilities;*
- 26.01.33, *Rules Governing the Administration of the Land and Water Conservation Fund Program.*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Sections 67-4223, 67-7115, and 67-7116, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

- IDAPA 26.01.10, Rules Governing the Administration of Temporary Permits on Lands Owned by the Idaho Department of Parks and Recreation. Fees related to: temporary permit processing, compensation, application and enforcement.
- IDAPA 26.01.20, Rules Governing the Administration of Park and Recreation Areas and Facilities. Fees related to motor vehicle entrance, parking violations, camping, reservations (placing, modifying, and canceling), vessel moorage, overnight use, surcharges, group facility use, winter access, returned checks, and winter recreation programs. During 2019, Idaho Department of Parks and Recreation held negotiated rule-making and published proposed and pending rules to update fee caps and combine fees currently found in IDAPA 26.01.36 Rules Governing the Winter Recreational Parking Permit Program. Due to an implementation issue, we pulled the pending rules from consideration for the 2020 Legislative Session. We have included the amended IDAPA 26.01.20 in this omnibus action. The following charts detail the proposed fee changes:

**080. FUND ALLOCATION.**

**01. (3-20-20)T

**02. Allocation of Funds.** Idaho's cost of administering the SCORTP program, the LWCF program and a contingency fund are deducted from the state's annual apportionment. (3-20-20)T

**a.** To assure that the needs of rural areas are met, twenty percent (20%) of the amount dedicated for local governmental agencies is dedicated for use by governmental agencies of five thousand (5,000) population or less. If the cumulative request of the governmental agencies of five thousand (5,000) population or less is more than the twenty percent (20%) of the amount dedicated for local governmental agencies, governmental agencies of five thousand (5,000) population or less may compete for the total remaining allocation. (3-20-20)T

**b.** If the total cost for a single project of a governmental agency with a population of five thousand (5,000) or less requires over one-half (1/2) of the twenty percent (20%) dedicated for use by governmental agencies

of five thousand (5,000) population or less, that project will compete with the large governmental agency projects.  
(3-20-20)T

**03. Exceptions.** The board may suspend (through formal action at the board meeting at which LWCF grant requests are considered) any provision of Subsection 080.02 of this chapter if the allocation is too small to warrant viable projects.  
(3-20-20)T

**04. Project Requests Insufficient.** The board is not required to distribute all available funds. IDPR staff may recommend, and the board determine, to reject projects with evaluation scores so low as to be noncompetitive.  
(3-20-20)T

(3-20-20)T

**096. -- 109. (RESERVED)**

**01. Generally.** LWCF grants are available for up to fifty percent (50%) of the cost to acquire or develop land that is to be used for outdoor recreation purposes and is to be held in perpetuity for public outdoor recreation uses.  
(3-20-20)T

- b.** The value can be supported through standard appraisal techniques; and (3-20-20)T
- c.** Recreation can be demonstrated as the primary purpose of the acquisition. (3-20-20)T

**03. Ineligible Projects.** Acquisitions or developments that do not contribute directly to general public outdoor recreation facilities or activities are ineligible for LWCF funding. Acquisition of leases are not eligible.  
(3-20-20)T

**04. SCORTP.** LWCF grants are available for up to fifty percent (50%) of the cost of the SCORTP.

The cost to the sponsor of land purchased from another public agency is generally not eligible for matching assistance. (3-20-20)T

**171. -- 184. (RESERVED)**

**185. ACQUISITION OF STRUCTURES.**

Structures that are proposed to be retained and are incidental to the land are eligible for LWCF matching funds if they are to be used primarily for support facilities for outdoor recreation activities. The anticipated use must be clearly identified in the project application so that IDPR may exercise reasonable judgment in determining the eligibility of the structure for funding assistance. (3-20-20)T

**186. -- 199. (RESERVED)**

**200. WAIVER OF RETROACTIVELY.**

**01. Generally.** The SLO may grant permission to a sponsor to proceed prior to normal processing of an application through a written waiver of retroactively. This is not be construed as a qualitative approval of the proposed project. Should the project subsequently be approved, the costs incurred must be eligible for assistance. (3-20-20)T

**02. NPS Waiver Required.** The SLO may not grant a waiver of retroactivity until the NPS has issued its waiver of retroactivity. A waiver may be granted only if LWCF moneys are available and only if an emergency situation warrants it. (3-20-20)T

**03. Limitations.** Retroactive development costs are not eligible for reimbursement, other than expenses necessary for planning a development project and then only if it is specifically requested in the project application. (3-20-20)T

**201. -- 214. (RESERVED)**

**215. ENCUMBRANCES.**

Property rights obtained with LWCF assistance must be free of all reservations or encumbrances that would limit the use of the site disproportionate to the public benefit. (3-20-20)T

**216. -- 229. (RESERVED)**

**230. ACQUISITION COSTS EXCEEDING FAIR MARKET VALUE.**

An approved appraisal is an acceptable estimate of property value (see Section 350 of this chapter). The negotiation between a willing seller and a willing buyer may set a price that is higher than the appraisal, and this market place value can be considered along with the appraised value in establishing the reasonable limits of assistance. If the sponsor believes that the negotiated price is a better indication of market value, yet it is higher than the appraised value, a detailed and well documented statement of this differences must be submitted, together with a formal request for a cost increase (see Section 620 of this chapter). (3-20-20)T

**231. -- 259. (RESERVED)**

**260. ACQUISITIONS INVOLVING COMPATIBLE MULTIPLE USES.**

Nonrecreation uses, such as timber management, grazing, and other natural resource uses, may be carried out on

lands acquired with LWCF assistance if they are clearly compatible with and secondary to recreation use, and are approved by IDPR prior to execution of the project contract. (3-20-20)T

**261. -- 274. (RESERVED)**

**275. ACQUISITIONS INVOLVING NONRECREATION USE.**

**01. Nonrecreation Use Limited.** Lands acquired with LWCF assistance are immediately dedicated to public outdoor recreation and therefore, in the interim period between acquisition and planned development, the public cannot be denied use. In some instances during this period the temporary continuation of nonrecreation uses of LWCF assisted areas may be appropriate if not at the expense of public use. Continuation of existing nonrecreation uses must be approved by IDPR. When approved by IDPR, the used will be phased out within three (3) years from the date of the acquisition. (3-20-20)T

**02. Life Estates.** Life estates, whereby an owner is allowed to use the property to the end of his life, is an allowable nonrecreation use provided all of the following conditions are met: (3-20-20)T

**a.** The life estate must not totally limit public use of the site; (3-20-20)T

**b.** The value of the life estate is not included within the total project cost as established through acceptable appraisal techniques; and (3-20-20)T

**c.** The life estate provisions are approved by IDPR. (3-20-20)T

**276. -- 289. (RESERVED)**

**290. PUBLIC PARK AND SCHOOL DEVELOPMENT PROJECTS.**

Projects clearly designed and located to meet identified needs for general public recreation, as well as to provide school districts with outdoor education, physical education, and recreation facilities may be eligible for funding, provided general public recreation is clearly the primary use. (3-20-20)T

**291. -- 304. (RESERVED)**

**305. DONATED REAL PROPERTY AS MATCHING SHARE.**

**01. Generally.** The value of privately owned donated real property may be used as a portion or as all of the sponsor's matching share of an approved project when the transfer of title to the sponsor has not been accomplished prior to the execution by IDPR of the project contract, unless such action has been previously approved by IDPR under the waiver of retroactivity procedure (see Section 200 of this chapter). (3-20-20)T

**02. Limitations.** The donation must consist of real property that would normally qualify for LWCF funding. If the donation does not adjoin the tract being acquired or is not being developed as part of the project then it must stand on its own merits as an acceptable public recreation area in order to be considered an eligible donation. It also must be within the jurisdiction of the sponsor. (3-20-20)T

**03. Appraisal Required.** The value of the donation must be established by an appraisal report prepared under the provision of Section 350 of this chapter. Any portion of the value of the donation not utilized by the sponsor for matching in the project is not available for subsequent projects. The amount of donation that is matchable is the value of the land donation up to the limit of the local agency's share of the project. The maximum reimbursed by IDPR may never exceed the cash expended on the project. (3-20-20)T

**306. -- 319. (RESERVED)**

**320. DONATED GOODS AND SERVICES AS MATCHING SHARE.**

**01. Generally.** Donated services, materials and equipment are eligible for reimbursement. Allowable rates must be agreed upon by IDPR prior to initiation of construction and must be in accordance with current federal

regulations and state rules. Partial reimbursement on projects involving such donations are limited to the amount of actual cash outlay by the grantee. (3-20-20)T

**02. Excess Value.** Donated services above the needs for a project are not eligible for further funding assistance. (3-20-20)T

**03. Requirements.** Donated services may be furnished by professional and technical personnel, consultants, and other skilled or unskilled labor. The services must be an integral and necessary part of an approved project. Rates for donated services must be consistent with those paid for similar work in other activities of the state or local government. In those instances in which the required skills are not found in the sponsor's organization, rates must be consistent with those paid for similar work in the labor market in which the sponsor competes for the kind of services involved. (3-20-20)T

**321. -- 334. (RESERVED)**

**335. FORCE ACCOUNT AS MATCHING SHARE.**

All or a portion of the sponsor's share can be provided through force account (i.e., use of sponsor's staff and equipment) when such contributions are verifiable from the sponsor's records, are not included as contributions for any other IDPR program, and are necessary and reasonable for proper and efficient accomplishment of the project. (3-20-20)T

**336. -- 349. (RESERVED)**

**350. APPRAISAL REQUIREMENTS.**

A real estate appraisal is required for all land to be acquired. The appraisal must be prepared and paid for by the sponsor. The type of appraisal to be used must be determined by the cost of the property, and difficulty of the appraisal assignment. All appraisal must be done according to "Uniform Appraisal Standards for Federal Land Acquisitions." (3-20-20)T

**351. -- 364. (RESERVED)**

**365. APPRAISAL REVIEWS.**

IDPR reviews appraisals as necessary. Any appraisal report that does not meet the basic content requirement or use correct analysis procedures must be corrected to the satisfaction of IDPR. All costs are paid by the sponsor. (3-20-20)T

**366. -- 379. (RESERVED)**

**380. REVENUE FEASIBILITY STUDIES.**

At the discretion of the SLO, a feasibility report prepared by a fiscal specialist may be required prior to funding consideration by the board. Specifically, it must provide the SLO with detailed financial information and data that is incorporated in staff recommendations to the board. This report is paid for by the sponsor. (3-20-20)T

**381. -- 394. (RESERVED)**

**395. TECHNICAL REVIEW.**

At the discretion of the SLO, a technical report prepared by a licensed, certified engineer may be required prior to funding consideration by the board. This report is paid for by the sponsor. (3-20-20)T

**396. -- 409. (RESERVED)**

**410. FUNDING CYCLE.**

**01. Generally.** A funding cycle is held at a minimum of once every two (2) years with the following exception: subject to the level of funding, the board may suspend (through formal action at any regular meeting) a funding cycle. (3-20-20)T

- 02. Procedure.** The funding cycle consists of the following: (3-20-20)T
- a.** Notification to begin a funding cycle must be made no less than ninety (90) days before applications are due. (3-20-20)T
  - b.** The evaluation committee meeting must be held within one hundred twenty (120) days of the application due date. (3-20-20)T
  - c.** Recommendations must be formulated by IDPR staff within thirty (30) days following the evaluation committee meeting and must be made to the board no later than the next regularly scheduled meeting. (3-20-20)T
  - d.** Subject to the level of funding, the board may suspend (through formal action at any regular meeting) the evaluation committee meeting and may elect to adopt staff recommendations. (3-20-20)T
- 03. Fees.** At the discretion of the SLO, fees may be charged for the various stages of any funding cycle. When charged, fees are assessed equally on all applicants. Fees charge may not exceed fifty dollars (\$50) for all stages combined. (3-20-20)T

**411. -- 424. (RESERVED)**

**425. APPLICATION PROCEDURE.**

- 01. Initial Review.** Participation manuals are available to guide sponsors in preparing projects for funding consideration. Materials submitted for consideration are reviewed by IDPR staff for completeness and for project eligibility. Once all application materials are submitted and a project is determined to be potentially eligible under criteria established in the OPSP, IDPR will ask the sponsor to make a presentation to the evaluation committee. (3-20-20)T
- 02. Eligible Projects.** Eligible projects are ranked according to the (OPSP (see Section 440 of this chapter) and approved by the board (see Section 470 of this chapter). Full federal application materials must be submitted to NPS for final funding approval (see Section 485 of this chapter). (3-20-20)T

**426. -- 439. (RESERVED)**

**440. OPEN PROJECT SELECTION PROCESS (OPSP).**

- 01. Generally.** The procedures outlined in OPSP through the SCORTP process are for the purpose of defining criteria that a proposed LWCF project must meet in order to be eligible for funding, and to establish priorities on the basis of which competing eligible projects can be rated objectively. The intent is to ensure that available funds are used to fund those projects that most nearly satisfy the intent of the LWCF Act, and the recreational needs of the people of Idaho. (3-20-20)T
- 02. Requirements.** Requirements for the SCORTP and the OPSP can be found in the "LWCF Participation Manual," available from IDPR or NPS. (3-20-20)T
- 03. Availability.** Copies of the SCORTP and the OPSP criteria used in prioritizing those projects submitted for LWCF assistance may be obtained from IDPR or NPS. Typically, this criteria is provided in all LWCF application guidelines. (3-20-20)T
- 04. Suspension of OPSP.** Subject to the level of funding, the board may elect to suspend OPSP (through formal action at any regular meeting). (3-20-20)T

**441. -- 454. (RESERVED)**

**455. EVALUATION COMMITTEE.**

**01. Composition.** The evaluation committee includes representatives with experience in community development or public outdoor recreation. The committee ranks projects based on its review of the application and a presentation by the sponsor. It rates all projects based on the selected criteria found in OPSP. The evaluation committee includes nine (9) members as follows: (3-20-20)T

**a.** Three (3) members are representatives of state and federal agencies with a technical relationship to community development or the outdoor recreation needs in the state. (3-20-20)T

**b.** One (1) member represents a community of five thousand (5,000) population or more (3-20-20)T

**c.** One (1) members represents a community of five thousand (5,000) population or less. (3-20-20)T

**d.** One (1) member represents the interests of ethnic minorities. (3-20-20)T

**e.** One (1) member represents the interests of the elderly. (3-20-20)T

**f.** One (1) member represents the interests of people with disabilities. (3-20-20)T

**g.** One (1) member must be from the board. (3-20-20)T

**02. Quorum.** A quorum is required to conduct committee business. Five (5) people constitute a quorum. (3-20-20)T

**03. Appointment and Term.** Members are appointed by and serve at the discretion of the SLO for three (3) funding sessions and may be reappointed, except, the board member must be selected by and serve at the discretion of the board. As necessary, the SLO provides public notice of available seats. Any interested individual or organization may nominate individuals to serve on the committee. (3-20-20)T

**456. -- 469. (RESERVED)**

**470. BOARD REVIEW AND APPROVAL.**

The board reviews and approves projects according to the priority list provided by IDPR staff. Applications are submitted to NPS according to priority after LWCF moneys have been appropriated by congress and allocated to the state. (3-20-20)T

**471. -- 484. (RESERVED)**

**485. NPS PROJECT APPROVAL.**

When a project is approved by NPS, the announcement is made by one of the state's congressional delegation following notification from IDPR. All appraisals, title and deed work must be finalized prior to submitting a project to NPS. (3-20-20)T

**486. -- 499. (RESERVED)**

**500. PROCEEDING ON THE PROJECT.**

After project approval, the IDPR staff assists the sponsor in meeting the requirements of the LWCF including providing information on the steps and required documentation for acquisition and development projects along with financial responsibilities and allowable costs. The sponsor must complete work on the project according to the scope elements in the state/local agreement. (3-20-20)T

**501. -- 514. (RESERVED)**

**515. DISBURSEMENT OF FUNDS.**

**01. Authorization.** Except as otherwise provided herein, the SLO must authorize disbursement of funds allocated to a project through reimbursement basis. The LWCF program is a reimbursement program, which means that the participants initially pay all project costs and then seek reimbursement through IDPR. (3-20-20)T

**02. Documentation.** Reimbursement not be made by IDPR until deed, title insurance and appraisal requirements are satisfied on all projects. Reimbursement may be made on development or combination acquisition and development projects once construction shows evidence and reasonable progress toward the completion of all scope elements and LWCF requirements. (3-20-20)T

**03. Partial Reimbursement.** Partial reimbursement is not made for projects where the project sponsor's matching share is less than fifteen thousand dollars (\$15,000). When reimbursement is granted prior to project completion, the sponsor receives a reimbursement for fifty percent (50%) of the eligible costs incurred less a fifteen percent (15%) hold back. When the project has been completed and receives final approval from IDPR, the sponsor is paid the fifteen percent (15%) hold back. If multiple payments are to be incurred as part of the project, the final payment may be used as the fifteen percent (15%) hold back. (3-20-20)T

**04. Request for Reimbursement.** Reimbursement must be requested by local governmental agencies on voucher forms provided by IDPR and includes all required documentation. The sponsor will receive a reimbursement for fifty percent (50%) of the eligible costs incurred. The amount of reimbursement must never exceed the cash expended on the project. (3-20-20)T

**05. Advance Payment.** An advance payment is a payment made to a sponsor upon its request before cash outlays are made by the sponsor or payment made through the use of predetermined payment schedules before such payments are due. Advance payment may be made subject to the conditions outlined below: (3-20-20)T

**a.** IDPR will consider the payment of advances on development projects where the matching share is non-cash, and on acquisition projects where funds must be available up front in order to prevent the loss of an available site to other interested buyers. Such advances must receive prior approval of NPS. A written request must be submitted by the sponsor to IDPR to initiate the process. (3-20-20)T

**b.** Advances must be timed and procedures observed to assure that cash withdrawals occur only as and when essential to meet the needs of the project sponsors. Advances are limited to the minimum amounts needed and timed to be in accord with the requirements of carrying out the purpose of the approved project. Any moneys advanced to the sponsor are public moneys (owned by the federal government and the State of Idaho) and must be deposited in a bank with FDIC insurance coverage and the balances exceeding the FDIC coverage must be collaterally secure. (3-20-20)T

**c.** One (1) month after the advance has been received, the sponsor must submit a billing indicating expenditures made from the advanced funds. This will be used by IDPR as a basis for liquidating obligations, reducing the advance account and making charges to the appropriate cost account. (3-20-20)T

**d.** At least monthly, IDPR reviews the sponsor's disbursements of advanced funds for reasonableness of cash balances on hand. In the event IDPR determines a sponsor is making insufficient progress using advanced funds, IDPR may request an immediate refund. (3-20-20)T

**516. -- 529. (RESERVED)**

**530. PROJECT CONTRACT.**

For every funded project, a project contracts must be executed. The project contract must be prepared by the IDPR staff subsequent to approval of the project. Upon execution by the sponsor, the parties are thereafter bound by the project contract terms. The sponsor may not proceed with the project until the project contract has been executed. IDPR may not execute a project contract until federal funding has been authorized by NPS. (3-20-20)T

**531. -- 544. (RESERVED)**

**545. CONTROL AND TENURE.**

The sponsor has title to or adequate control and tenure of the area to be developed. The sponsor must list all outstanding rights or interests held by others in the property to be developed. In the event that outstanding rights later prove to be incompatible with public outdoor recreation uses of the site, the sponsor assumes the responsibility for having to replace the facilities developed with state or federal assistance with others of at least equal value and

reasonably equivalent usefulness and location at the sole cost of the sponsor. (3-20-20)T

**546. -- 559. (RESERVED)**

**560. APPLICABILITY.**

All LWCF requirements apply to each area or facility, regardless of the extent of LWCF assistance. When LWCF development assistance is given to a project limited to less than a complete recreational property, all lands immediately adjacent to that LWCF development that are designated as recreational property must be identified as being within the LWCF project boundary and must be subject to LWCF guidelines. (3-20-20)T

**561. -- 574. (RESERVED)**

**575. SPONSOR COMMITMENT.**

A proclamation from the sponsor's governing body committing the project and the sponsor to LWCF requirements must be submitted to IDPR prior to IDPR project approval. (3-20-20)T

**576. -- 589. (RESERVED)**

**590. RESTRICTION ON TITLE.**

Land acquired in fee or developed with outdoor recreation funds must be dedicated to outdoor recreation use in perpetuity by a recorded "Deed of Right to Use Land for Public Recreation Purposes" (Deed of Right) that conveys a real property interest to the public. This must be executed and recorded by the sponsor after it has taken title to the property, and before it applies for reimbursement. (3-20-20)T

**591. -- 604. (RESERVED)**

**605. RECORDS.**

Project records must be maintained by the state and sponsor for three (3) years after final payment. The material must be maintained beyond the required three (3) year period if audit findings have not been resolved. Property records must be maintained in perpetuity. (3-20-20)T

**606. -- 619. (RESERVED)**

**620. PROJECT AMENDMENTS, COST INCREASES AND TIME EXTENSIONS.**

**01. Amendments.** The project contract may be amended by execution of a project amendment. All amendment requests must be made in writing and must include a detailed justification. Sponsors are expected to complete projects as originally proposed and evaluated. However, amendments for minor changes in scope may be requested. Cost increases of twenty-five percent (25%) or more or changes in project elements that change the total project cost by twenty-five percent (25%) or more require that the project be presented as a totally new proposal and compete through the OPSP (see Sections 440 through 485 of this chapter) during a current funding cycle. Should the revised project not receive enough points to be funded, the sponsor is required to complete the scope of the project as originally proposed at its expense or return any funds reimbursed so that the project may be canceled and the funds reallocated. This does not apply to SCORTP projects. (3-20-20)T

**02. Cost Increases on Development Projects.** For cost increase requests on development projects to be considered, all of the following requirements must be met: (3-20-20)T

**a.** The increase, or any portion thereof, is to be used only for costs incurred on elements specified in the project agreement; and (3-20-20)T

**b.** The sponsor has initiated implementation of the project in a timely manner and has had little control over the condition causing the cost overrun. (3-20-20)T

**03. Cost Increases on Acquisition Projects.** Acquisition project cost increases must meet all of the following conditions: (3-20-20)T

- a. The increased market value is supported by an acceptable appraisal; (3-20-20)T
- b. The sponsor has diligently pursued the acquisition; and (3-20-20)T
- c. If increased relocation costs have caused a cost overrun, an explanation is required. (3-20-20)T

**04. Condemnation.** Acquisition cost increases based on condemnation awards, if granted, must be based on compensation for the property and direct relocation costs; no court or legal costs are eligible for reimbursement. (3-20-20)T

**05. Basis for Cost Increase.** Cost increase requests for development projects are based on the total approved costs. Cost increase requests for acquisition projects are based on a parcel by parcel determination. (3-20-20)T

**06. Extensions of Time.** Extensions of time limitations will be considered if based on unavoidable circumstances such as condemnation of property for acquisition projects and delays due to unusually poor weather or unavailability of supplies for a development project. Extensions are generally granted in six (6) month intervals. Avoidable project delays may result in loss of funding with the sponsor being required to return any funds reimbursed so that the project can be canceled. (3-20-20)T

**621. -- 634. (RESERVED)**

**635. DEVELOPMENT PROJECT CONTRACT REQUIREMENTS.**  
Development projects require competitive bidding according to state and federal statutes. (3-20-20)T

**636. -- 649. (RESERVED)**

**650. CONVERSION TO OTHER USES.**

**01. Generally.** Property acquired or developed with LWCF assistance is not converted to other than public outdoor recreation uses without prior approval of the SLO and the NPS regional director. The SLO has authority to disapprove conversion requests or to reject proposed property substitutions. (3-20-20)T

**02. Prerequisites to Approval of Conversion.** IDPR will only consider a conversion request once the following prerequisites have been met: (3-20-20)T

- a. All practical alternatives to the conversion have been evaluated and rejected on a sound basis. (3-20-20)T
- b. At least thirty (30) days prior to IDPR submitting a request to NPS to convert LWCF properties, the sponsors must hold a public hearing. (3-20-20)T
- c. The fair market value of the property to be converted has been established and the property proposed for substitution is of at least equal fair market value as established by a state approved appraisal. (3-20-20)T
- d. The property proposed for replacement is of reasonably equivalent usefulness and location as that being converted. It must be administered by the same political jurisdiction as the converted property. (3-20-20)T
- e. The property proposed for substitution meets the eligibility requirements for LWCF assisted acquisition. The replacement property constitutes or is part of a viable recreation area. (3-20-20)T
- f. Public land may not be used for substitution on acquisition projects unless it meets the criteria for an eligible acquisition project. However, in the case of development projects for which the state match was not derived from the cost of the purchase or value of a donation of the land to be converted, public land not currently dedicated to recreation or conservation use may be used as replacement land even if this land is transferred from one public agency to another without cost. (3-20-20)T

- g.** All necessary coordination with other federal agencies has been satisfactorily accomplished. (3-20-20)T
- h.** The guidelines for environmental evaluation have been satisfactorily completed and considered. (3-20-20)T
- i.** The proposed conversion and substitution are in accord with the SCORTP. (3-20-20)T
- j.** Staff consideration of the above points reveals no reason for disapproval and the project files are so documented. (3-20-20)T
- k.** It should also be noted that the acquisition of one (1) parcel of land may be used in satisfaction of several approved conversions. However, previously acquired property cannot be used to satisfy substitution requirements except in the case of development projects. (3-20-20)T

**03. Project Amendments.** Approved conversions require amendments in the project contract when the property to be substituted is off site or when replacement of property is deferred. (3-20-20)T

**04. Fees.** Deposit, cost and fees for the administration and management of the LWCF conversion process must be as follows: (3-20-20)T

**a.** The sponsor is required to pay a deposit of two and five-tenths percent (2.5%) of the appraised value of the property or the total cost of the project grant, whichever is greater. This deposit may not be less than one thousand dollars (\$1,000). (3-20-20)T

**b.** IDPR will charge the sponsor for all administrative costs relating to the conversion and a service fee of one percent (1%) of the current appraised value of the converted property. The service fee may not exceed three thousand five hundred dollars (\$3,500) for each converted tract of property. (3-20-20)T

**c.** The administrative costs and the service fee will be deducted from the deposit. The sponsor will be reimbursed the remaining amount upon the successful completion of the conversion. Any incidental costs exceeding the deposit will be paid by the sponsor. (3-20-20)T

**651. -- 664. (RESERVED)**

**665. USER FEES, CHARGES AND INCOME.**

**01. User Fees.** User or other types of fees may be charged in connection with facilities developed with LWCF grants, provided that the fees and charges are commensurate with the value of recreation services or opportunities furnished and are in the prevailing range of public fees and charges for the particular activity involved. Discrimination on the basis of residence, including preferential reservation or membership systems and annual permit systems, is prohibited except to the extent that reasonable differences in admission and other fees may be maintained on the basis of residence. (3-20-20)T

**02. Nonrecreational User Fees.** Nonrecreational income that accrues to an outdoor recreation area other than the intended recreational use, including income from land management practices, must derive from use that is consistent with, and complementary to, the intended outdoor recreational use of the area. Gross nonrecreational income that accrues during the project period established in the project contract must be used to reduce the total cost of the project. Gross nonrecreational income that accrues subsequent to the ending date identified in the project contracts must be used only to offset the expense of operation and maintenance of the facility. (3-20-20)T

**666. -- 679. (RESERVED)**

**680. PERMANENT PROJECT SIGNS.**

Permanent public acknowledgment of LWCF assistance at project sites is required on at least one (1) prominently

placed area identification sign. The LWCF symbol established and provided by IDPR must be used for such acknowledgment at the project site entrance, or other appropriate locations. The sponsor may desire to provide a more detailed identification. IDPR staff must approve the sponsor's park sign prior to its construction to ensure proper designation is included. (3-20-20)T

**681. -- 694. (RESERVED)**

**695. ARCHITECTURAL BARRIERS.**

Sponsors in the LWCF programs must assure that persons with disabilities are not precluded from the use of LWCF assisted recreational facilities. (3-20-20)T

**696. -- 709. (RESERVED)**

**710. UNIFORM RELOCATION COMPLAINT PROCEDURE.**

The two (2) appeal procedure recommended by NPS are an appeal to the SLO and then to the board for resolution (see IDAPA 26.01.01, Section 250, "Rules of Administrative Procedure of the Idaho Park and Recreation Board"). (3-20-20)T

**711. -- 724. (RESERVED)**

**725. AVAILABILITY TO USERS.**

**01. Nondiscrimination.** Property must be open to entry and use by all persons regardless of race, color, or national origin. Discrimination is also prohibited on the basis of age, disability, religion or gender. (3-20-20)T

**02. Seasons and Hours.** Facilities must be kept open for public use at reasonable hours and times of the year based on intended use. (3-20-20)T

**726. -- 739. (RESERVED)**

**740. CIVIL RIGHTS COMPLAINT PROCEDURE.**

An opportunity is provided for filing civil rights complaints. A written complaint must be filed with the SLO within one hundred eighty (180) days from the date the alleged discrimination occurred. Within ten (10) working days of IDPR receiving the complaint, the complainant must be notified of action that has been or must be taken to resolve the complaint. An investigation must be conducted by the deputy director or his designee within thirty (30) working days of IDPR's receipt of the complaint. The SLO or SLO's designee must send a written response to the complainant regarding the results of the investigation within thirty (30) working days of the time the investigation began. If dissatisfied with the results of the investigation, the complainant may submit a written request for reconsideration to the SLO within ten (10) days of the receipt of resolution. The complainant may also file a complaint with the Idaho Human Rights Commission and The Office of Equal Opportunity. Addresses are available from IDPR. (3-20-20)T

# IDAPA 27 – IDAHO BOARD OF PHARMACY

## DOCKET NO. 27-0101-2000F (FEE RULE)

### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section(s) Uniform Controlled Substances Act, Title 37, Chapter 27, Idaho Code; the Idaho Pharmacy Act, the Idaho Wholesale Drug Distribution Act, and the Idaho Legend Drug Donation Act, Title 54, Chapter 17, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 27:

#### IDAPA 27

- 27.01.01, *Rules of the Idaho State Board of Pharmacy*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. This docket also incorporates minor rule changes related to the COVID-19 response adopted in an open meeting.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 54-1701, Idaho Code, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

(3-20-20)T

**c.** Non-Patient Specific Records. Except for drug products that are being compounded or sterile prepackaged for direct administration, a production record of drug products compounded or sterile prepackaged in anticipation of receiving prescription drug orders or distributed in the absence of a patient specific prescription drug order ("office use") solely as permitted in these rules, must be prepared and kept for each drug product prepared, including: (3-20-20)T

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 32.01.01:

#### **IDAPA 32**

- 32.01.01, *Rule Governing the Credit Enhancement Program for School Districts*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 57-728, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges: This rule indicates that the Endowment Fund Investment Board will charge school districts an application fee of \$500 and a one-time bond guarantee fee equal to two one hundredths of one percent (0.02% or two basis points) of the Total Debt Service.
