Codes are used to describe farm product collateral on the Farm Products Financing Statements and amendments, on the master list maintained by the SOS, and on the PMLs distributed to registered buyers, commission merchants, and selling agents. Assignment of farm product codes and PML Groupings, county codes, and farm product unit codes shall be done by the SOS. The SOS will provide a list of the established codes upon request. (3-20-20)T

**01. PML Groupings and Farm Product Codes.** The table of PML Groupings, farm products, and their codes is as follows:

<b>PML No.</b>	<b>PML Grouping</b>	<b>FP Code</b>	<b>FP Name</b>
01	Wheat and Buckwheat	010	Wheat
		011	Buckwheat
02	Feed and Oil Grains	020	Barley
		021	Rye (including Triticale)
		022	Oats
		023	Sorghum Grain
		024	Flaxseed
		025	Safflower
		026	Rape (including Canola)
		027	Field Corn
		028	Millet
03	Hay	030	Hay
04	Ensilage	040	Ensilage
05	Potatoes	050	Potatoes
06	Sugar Beets	060	Sugar Beets
07	Dry Beans	070	Dry Beans
08	Dry Peas, Lentils and Garbanzos	080	Dry Peas
		081	Lentils
		082	Garbanzos (Chick Peas)
09	Sweet Corn	090	Sweet Corn

PML No.	PML Grouping	FP Code	FP Name
10	Onions and Garlic	100	Onions
		101	Onion Seed
		102	Garlic
11	Mint	110	Mint
12	Hops	120	Hops
13	Popcorn & Sunflower Seeds	130	Popcorn
		131	Sunflower Seeds
14	Soybeans	140	Soybeans
15	Rice	150	Rice
16	Seeds	160	Grass for Seed
		161	Alfalfa for Seed
		162	Other Hay Legumes for Seed
		163	Garden Vegetables and Flower Seeds
		164	Seed Potatoes
		165	Row Crops for Seed
17	Vegetables & Melons	170	Green Peas
		171	Tomatoes
		172	Lettuce
		173	Cucumbers
		174	Broccoli
		175	Cauliflower
		176	Lima Beans
		177	Green Beans
		178	Melons
		179	Carrots
		180	Turnips

<b>PML No.</b>	<b>PML Grouping</b>	<b>FP Code</b>	<b>FP Name</b>
		181	Asparagus
		182	Spinach and Collards
		183	Pumpkins and Squash
		184	Radishes
		185	Peppers
		186	Herbs
19	Fruits	190	Apples

62	Semen	620	Cattle Semen
		621	Horse Semen

(3-20-20)T

**02. County Codes.** The table of county codes is as follows. Unless otherwise indicated, counties are in Idaho.

00	All Idaho Counties						
01	Ada	16	Cassia	31	Lewis	46	Garfield, Wa.
02	Adams	17	Clark	32	Lincoln	47	Pend Orielle, Wa.
03	Bannock	18	Clearwater	33	Madison	48	Spokane, Wa.
04	Bear Lake	19	Custer	34	Minidoka	49	Whitman, Wa.
05	Benewah	20	Elmore	35	Nez Perce	50	Malheur, Or.
06	Bingham	21	Franklin	36	Oneida	51	Elko, Nv.
07	Blaine	22	Fremont	37	Owyhee	52	Box Elder, Ut.
08	Boise	23	Gem	38	Payette	53	Cache, Ut.
09	Bonner	24	Gooding	39	Power	54	Rich, Ut.
10	Bonneville	25	Idaho	40	Shoshone	55	Lincoln, Wy.
11	Boundary	26	Jefferson	41	Teton	56	Teton, Wy
12	Butte	27	Jerome	42	Twin Falls	57	Beaverhead, Mt.
13	Camas	28	Kootenai	43	Valley	58	Lincoln, Mt
14	Canyon	29	Latah	44	Washington	59	Sanders, Mt.
15	Caribou	30	Lemhi	45	Asotin, Wa.	99	Not in Table

(3-20-20)T

**03. Unit Codes.** The table for codes for units used to indicate the amount of a FP covered is as follows:

A - acres	G - gallons	T - tons
B - bushels	H - head	V - hives
C - hundred weight	L - pounds	W - lugs
E - cases	N - bins	X - boxes
F - flats	S - sacks	Z - stubs

(3-20-20)T

**201. REGISTRATION OF BUYERS, COMMISSION MERCHANTS, AND SELLING AGENTS -- SUBSCRIPTION TO A PML.**

**01. Form.** Registration of buyers, commission merchants, and selling agents must be on SOS form "UCC-5F."  
 (3-20-20)T

**02. Right to Subscribe - Number.** Registration entitles the registrant to subscribe for PMLs. Each registrant will be assigned a permanent registration number by the SOS. (3-20-20)T

**03. Duration.** Registration is effective for a period of one (1) year. Renewal of registration may be filed at any time after ninety (90) days prior to expiration of a current registration period. The registrant must indicate his registration number on the renewal registration form. (3-20-20)T

**04. Change of Name or Address.** Notice of a registrant's change of name or address must be made in writing to the SOS. (3-20-20)T

**05. Initial Subscription.** Subscriptions for PMLs may be made at the time of registration or at any time during the period for which the registrant is registered, provided that no subscription for a PML will run beyond the calendar quarter in which the registration period expires. Subscriptions made at the time of registration must be made on the UCC-5F. (3-20-20)T

**06. Other Subscription.** Subscriptions made other than at the time of registration must be made on SOS form "UCC-6F." The registrant must indicate his registration number on the subscription form. (3-20-20)T

**07. Period of Subscription.** A subscription for any PML may be annual or by calendar quarter or quarters, which quarter or quarters may be at a specified time in the future. (3-20-20)T

**08. Initial Distribution.** If a subscription starts at any time other than the start of a calendar quarter, the registrant will receive the most recent complete compilation of the PML, and all distributions of PMLs for the remainder of the calendar quarter. (3-20-20)T

**09. Special Subscription.** If the registrant subscribes for a PML for fewer than all counties or crop years, the registrant must indicate the county codes of the desired counties or the desired crop years, or both. If no county codes or crop years are indicated, the PML will cover all counties and crop years. (3-20-20)T

**10. Copy of Rules.** At the time of registration, each registrant will be provided with a copy of these rules. (3-20-20)T

**202. -- 299. (RESERVED)**

**300. FORM AND DISTRIBUTION OF A PML AND CS.**

**01. Content of List.** Each PML includes data from all Farm Products Financing Statements which cover a particular PML Grouping. (3-20-20)T

**02. PML Publication Dates.** Each PML is published in complete form on the first regularly scheduled bi-weekly publication date in each calendar quarter. A PML may at other times be published in complete form at the discretion of the SOS when that appears to be more economical than to publish a CS. (3-20-20)T

**03. Supplementation.** At bi-weekly intervals following the publication of each PML, the SOS publishes a CS for each PML. The CS includes all additions, deletions and changes which have occurred since the publication of the last complete PML. Additions are in the same form and cross-indexed in the same way as items on the PML. Deletions and changes need only refer to the affected item in either the PML or the "addition" section of the CS, and state what action has been taken or what change has been made to that item. (3-20-20)T

**04. Cut-Off.** In order to be included on a PML or CS, a Farm Products Financing Statement must be received by the SOS at least one (1) business day prior to publication. (3-20-20)T

**05. Schedule.** At the beginning of each calendar quarter, the SOS distributes to each registrant a schedule of proposed publication dates for that calendar quarter. The SOS may, for good cause, deviate from the schedule, but every PML and CS will be clearly marked with the actual date of publication. In no case will there be more than eighteen (18) days between publications of PMLs and associated CSs. (3-20-20)T

**301. GENERATION OF AD HOC INFORMATION REPORTS.**

**01. Options.** Upon the request of any person, the SOS will provide a list organized or limited according to: (3-20-20)T

- a. An individual farm product or a PML Grouping; (3-20-20)T
- b. Alphabetical order by debtor name; (3-20-20)T
- c. By order of UIN; (3-20-20)T
- d. County; or (3-20-20)T
- e. Crop year. (3-20-20)T

**02. Internal Organization.** When the request is for organization or limitation on the criteria specified in Paragraphs 301.01.a., 301.01.d., and 301.01.e., of these rules, the list will be organized alphabetically within each resulting group unless the request specifies otherwise. (3-20-20)T

**03. Additional Criteria.** The request may specify additional criteria for further organization or limitation within the first grouping. (3-20-20)T

**302. REQUESTS FOR INFORMATION.**

Requests for information on Farm Products Financing Statements will comply with IDAPA 34.05.03, "Rules Governing Requests For Information -- Form UCC-4 -- Fees." (3-20-20)T

**303. FEES.**

**01. Farm Products Financing Statement.** Farm Products Financing Statement and changes thereto (UCC-1F, UCC-2F and UCC-3F). (3-20-20)T

a. The fee for filing either a UCC-1F or a UCC-3F is provided in IDAPA 34.05.06, "Administrative Rules Governing Lien Filings Under the UCC - Farm Product Liens," Section 606. (3-20-20)T

b. There is no charge for filing a complete termination of a Farm Products Financing Statement. (3-20-20)T

**02. Registration of Buyers, Commission Merchants, and Selling Agents.** (3-20-20)T

a. The fee for the annual registration of each buyer, commission merchant, or selling agent is thirty dollars (\$30). (3-20-20)T

b. The registration fee must be paid at the time of registration. (3-20-20)T

c. There is no fee for filing notice of a registrant's change of name or address. (3-20-20)T

**03. Subscription to PMLs by Buyers, Commission Merchants, and Selling Agents.** (3-20-20)T

a. The fee for subscribing to one (1) PML for one (1) year is:

Internet Download (DL)	CD-ROM (CD)	Paper
\$30	\$40	\$200

(3-20-20)T

b. New subscriptions purchased at any time after the beginning of a registration period will be prorated to the current or next fiscal quarter, such that the end of the new subscription coincides with the end of the

- customer's registration period. (3-20-20)T
- c. The subscription fee must be paid at the time the subscription is made. (3-20-20)T
- 04. Ad Hoc Lists.** (3-20-20)T
- a. The fee for generating an ad hoc list as provided in Section 301 of these rules, is thirty-five dollars (\$35) per hour for programming and analysis and eighty-five dollars (\$85) per hour of computer time required to produce the list. In addition thereto, there is a fee of one dollar (\$1) per printed page of the list so generated. (3-20-20)T
  - b. The fee for the generation of the list must be paid prior to or upon receipt of the list. (3-20-20)T
- 05. Fees for Requests for Information.** The fees for requests for information on Farm Products Financing Statements, both written and verbal, and for copies of Farm Products Financing Statements reported on the certificate, are provided in IDAPA 34.05.03, "Rules Governing Requests For Information -- Form UCC-4 -- Fees." (3-20-20)T
- 304. -- 999. (RESERVED)**

**34.05.02 – RULES GOVERNING LIENS IN CROPS FOR SEED  
OR LIENS IN CROPS FOR FARM LABOR**

**000. LEGAL AUTHORITY.**

In accordance with Sections 67-903(9), 45-313(3), and 45-316, Idaho Code, the Secretary of State has authority to promulgate administrative rules in order to execute the duties of the Office of the Secretary of State. (3-20-20)T

**001. TITLE AND SCOPE.**

**01. Title.** These rules shall be cited as IDAPA 34.05.02, “Rules Governing Liens in Crops for Seed or Liens in Crops for Farm Labor,” IDAPA 34, Title 05, Chapter 02. (3-20-20)T

**02. Scope.** These rules shall govern the requirements for the filing, amendment, or termination of liens in crops for seed or liens in crops for farm labor, as well as the creation and distribution of a master list of liens in crops for seed or liens in crops for farm labor. (3-20-20)T

**002. -- 009. (RESERVED)**

**010. DEFINITIONS.**

The definitions set forth in Section 45-302, Idaho Code, apply with full force and effect to all provisions and sections of these rules. Where terms used in this rule are not defined herein, definitions and usage of terms from the Legal Authority in Section 000 of these rules are applicable. (3-20-20)T

**01. Family.** A group of related persons living together as one economic unit, comprised of parents and children, including step-children. (3-20-20)T

**02. Farm Laborer.** Anyone who provides farm labor used in the production of crops. When a business entity contracts for and provides such labor, e.g., aerial spraying or custom harvesting, the entity and not its individual employees shall be deemed to be the farm laborer. When individuals provide such labor directly to a producer, each individual is a farm laborer, whether or not they have been organized as a work crew or are members of a family which works as a unit. (3-20-20)T

**03. Notice of Claim of Lien.** A written notice on the public record of a claimant’s lien in the crops of a producer. (3-20-20)T

**04. SOS.** Idaho Secretary of State. (3-20-20)T

**011. -- 099. (RESERVED)**

**100. REQUIREMENTS FOR NOTICE OF CLAIM OF LIEN.**

**01. Form.** The form for a notice of claim of lien shall be designated “SL-1.” (3-20-20)T

**a.** Form SL-1 must be completed in accordance with instructions provided by the SOS. (3-20-20)T

**b.** Collateral information codes shall be used to indicate the crop and the county where the crop is grown. The collateral information codes shall be assigned by the SOS. The SOS will provide a list of the established codes upon request. (3-20-20)T

**02. Supplement.** If there is insufficient space on the form SL-1 for all producer and claimant information, the excess will be entered on a supplement form designated “SL-2.” (3-20-20)T

**101. AMENDMENT, ASSIGNMENT, EXTENSION, AND RELEASE OF CLAIM OF LIEN.**

**01. Form.** The form for amendment, assignment, extension, and release of claim of lien shall be designated “SL-3.” (3-20-20)T

**a.** Form SL-3 must be completed in accordance with instructions provided by the SOS. (3-20-20)T

**b.** Collateral information codes shall be used to indicate the crop and the county where the crop is grown. The collateral information codes shall be assigned by the SOS. The SOS will provide a list of the established codes upon request. (3-20-20)T

**02. Supplement.** If there is insufficient space on the first page of the form SL-3 for all information, the excess shall be entered on an attached second page SL-3. (3-20-20)T

**102. -- 199. (RESERVED)**

**200. REGISTRATION AND SUBSCRIPTION FOR LIST OF LIENS IN CROPS FOR SEED OR LIENS IN CROPS FOR FARM LABOR.**

Any person may register and subscribe for regular distribution of lists of all presently effective notices of claim of liens in crops for seed or liens in crops for farm labor which have been filed under this rule. Unless otherwise set forth in this chapter, the registration and subscription for the list of liens in crops for seed or liens in crops for farm labor shall be administered by the rules as set forth in IDAPA 34.05.01, "Rules Governing Farm Products Central Filing System," Section 201. (3-20-20)T

**201. LIST OF NOTICES OF CLAIM OF LIEN (LIST).**

**01. Compilation and Distribution.** The SOS shall compile and distribute to subscribers therefore, a list which shall include all presently effective notices of claim of liens in crops for seed or liens in crops for farm labor. (3-20-20)T

**02. Schedule.** The list will be published on a bi-weekly schedule to be established by the SOS. (3-20-20)T

**03. Cut-Off.** In order to be included on a list, a notice of claim of lien must be received by the SOS at least one (1) business day prior to publication. (3-20-20)T

**04. Schedule.** At the beginning of each quarter, the SOS will distribute to each registrant a schedule of proposed publication dates for that calendar quarter. The SOS may, for good cause, deviate from the schedule, but every list will be marked with the actual date of publication. In no case will there be more than eighteen (18) days between publications of lists. (3-20-20)T

**202. -- 299. (RESERVED)**

**300. REQUEST FOR INFORMATION.**

Requests for information on notices of claim of liens in crops for seed or liens in crops for farm labor, both written and verbal, will comply with IDAPA 34.05.03, "Rule Governing Requests For Information -- Form UCC-4 -- Fees." (3-20-20)T

**301. FEES.**

**01. Notice of Claim of Lien.** (3-20-20)T

**a.** The fee is four dollars (\$4) if the form is typed or machine printed, and is eight dollars (\$8) if hand written. (3-20-20)T

**b.** The fee shall be paid at the time of filing. (3-20-20)T

**02. Notice of Amendment, Assignment, or Extension.** (3-20-20)T

**a.** The fee is four dollars (\$4) if the form is typed or machine printed, and is eight dollars (\$8) if hand written. (3-20-20)T

**b.** The fee shall be paid at the time of filing. (3-20-20)T

**03. Notice of Release.** No fee charged. (3-20-20)T

**04. Registration and Subscription for List of Notices.** The fees for registration and subscription shall be as set forth in IDAPA 34.05.01, "Rules Governing Farm Products Central Filing System," Subsections 303.02 and

303.03.

(3-20-20)T

**05. Fees for Requests for Information.** The fees for requests for information on notices of claim of liens in crops for seed or liens in crops for farm labor, both written and verbal, and for copies of notices of claim of liens in crops for seed or liens in crops for farm labor reported on the certificate, are provided in IDAPA 34.05.03, “Rules Governing Requests For Information -- Form UCC-4 -- Fees.” (3-20-20)T

**302. -- 999. (RESERVED)**

### 34.05.03 – REQUESTS FOR INFORMATION – FORM UCC-4 – FEES

#### 000. LEGAL AUTHORITY AND REFERENCES.

- 01. Title 28, Chapter 9, Part 4, Idaho Code. (3-20-20)T
- 02. Title 45, Chapters 2 and 3, Idaho Code. (3-20-20)T
- 03. Title 67, Chapter 52, Idaho Code. (3-20-20)T
- 04. IDAPA 34, Title 05, Chapter 01, “Farm Products Central Filing System.” (3-20-20)T
- 05. IDAPA 34, Title 05, Chapter 02, “Liens in Crops, For Seed and Farm Labor.” (3-20-20)T

#### 001. -- 003. (RESERVED)

#### 004. DEFINITIONS.

- 01. SOS. Secretary of State. (3-20-20)T
- 02. EFS. An effective financing statement relating to farm products, as described in IDAPA 34.05.01, “Rules Governing Farm Products Central Filing System, Office of the Secretary of State.” (3-20-20)T
- 03. **Notice of Lien in Crops.** A notice of claim of lien in crops for seed or farm labor, as described in IDAPA 34.05.02, “Rules Governing Liens in Crops, For Seed, and Farm Labor,” Office of the Secretary of State. (3-20-20)T
- 04. **Notice of Federal Lien.** A notice of lien in personal property filed by the Internal Revenue Service or other federal entity pursuant to Title 45, Chapter 2, Idaho Code. (3-20-20)T
- 05. UCCFS. A financing statement filed pursuant to Sections 28-9-402 and 28-9-403, Idaho Code, other than one relating to farm products. (3-20-20)T
- 06. **Notices.** A collective term used in this rule to include all of the notices and financing statements described in the foregoing Subsections 004.02 through 004.05, as well as all ancillary documents pertaining thereto. (3-20-20)T
- 07. **Debtor.** As used in this rule, “Debtor” shall include a licensee under Title 45, Chapter 2, Idaho Code, and a producer under Title 45, Chapter 3, Idaho Code. (3-20-20)T
- 08. **Secured Party.** As used in this rule, “Secured Party” shall include the federal government under Title 45, Chapter 2, Idaho Code and a claimant under Title 45, Chapter 3, Idaho Code. (3-20-20)T

#### 005. -- 010. (RESERVED)

#### 011. REQUESTS FOR INFORMATION.

- 01. **Content.** Upon the request of any person, the SOS shall issue a certificate showing all notices of the types included in a request naming a particular debtor. The certificate shall include the date and hour of filing of each notice, and the name and address of each secured party named therein. If the requested notices include EFS’s or notices of liens in crops, the certificate shall further include other information described in IDAPA 34.05.01, Subsection 017.03, “Rules Governing Farm Products Central Filing System,” Office of the Secretary of State, and IDAPA 34.05.02, Subsection 015.04, “Rules Governing Liens in Crops, For Seed and Farm Labor,” Office of the Secretary of State, as applicable. (3-20-20)T
- 02. **Form.** The SOS shall prescribe an approved form for such requests, designated “UCC-4.” Other forms may be used, provided they contain all the necessary information and provided that the fee for use of a non-standard form is paid. After January 31, 1993, only the form UCC-4 with a revision date of 10/92 or later will be held to be a standard form. Prior to that date, previously approved forms UCC-4 and UCC-4F will be held to be standard forms for the purposes for which they were intended; e.g. a form UCC-4F may be used to request information on EFS’s, notices of liens in crops, or both; an old UCC-4 may be used to request information on UCCFS’s, and if noted on the UCC-4, on notices of federal liens. A verbally conveyed request will be treated as a non-standard form request. (3-20-20)T

**012. VERBAL REQUESTS FOR INFORMATION.**

**01. SOS Responsibility.** Upon the verbal request of any person, the SOS shall provide, within twenty-four (24) hours, a verbal report of the filing of any notices naming a particular debtor. The SOS will include in the report as much of the information described in Section 011, supra., as the requesting party wants. (3-20-20)T

**02. Time Computation.** In computing the twenty-four (24) hour period, weekends and holidays shall not be counted, pursuant to Section 59-1007, Idaho Code. (3-20-20)T

**03. Attempts to Respond.** If the verbal report is to be made telephonically and the requesting party cannot be reached at the stated telephone number within the twenty-four (24) hour period, the SOS shall attempt to reach the requesting party over an additional twenty-four (24) hour period. If at the end of that time the requesting party has not been reached, the SOS shall be deemed to have fulfilled his obligation to make a timely verbal report. A log of each attempted call shall be maintained by the SOS. At least three (3) attempts to reach the requesting party shall be made in each twenty-four (24) hour period, if the requesting party cannot be reached earlier. (3-20-20)T

**04. Written Confirmation.** The SOS shall follow the verbal report with written confirmation, which shall be in the form of a certificate in response to a non-standard information request as prescribed in Section 011, supra. (3-20-20)T

**013. FEES.**

**01. Single Type.** The fee for the certificate of the SOS showing all notices of a single type is six dollars (\$6). (3-20-20)T

**02. Multiple Types.** The fee for the certificate of the SOS showing all notices of more than one (1) type is ten dollars (\$10). (3-20-20)T

**03. Copies.** The fee for requesting copies of the notices reported on the certificate is six dollars (\$6). (3-20-20)T

**04. Non-Standard.** The fee for use of a non-standard form or for submission of a form which is not typed is four dollars (\$4). (3-20-20)T

**05. Verbal Report.** The fee for providing a verbal report of notices naming a particular debtor is ten dollars (\$10). (3-20-20)T

**06. Single Copies.** The fee for a copy of any notice, when the requesting party provides the document number to the SOS, is one dollar (\$1) per page. (3-20-20)T

**07. Service Suspension.** Notwithstanding any other provision of this rule, cash payment in advance will be required from a requesting party against whom the SOS holds an account receivable more than sixty (60) days past due or which exceeds one hundred dollars (\$100). (3-20-20)T

**014. -- 999. (RESERVED)**

## 34.05.06 – RULES GOVERNING LIEN FILINGS UNDER THE UCC

### 000. LEGAL AUTHORITY AND REFERENCES.

In accordance with Sections 67-903(9) (1977) and 28-9-526 (2001), Idaho Code, the Secretary of State has authority to promulgate administrative rules in order to execute the duties of the Office; this authority includes rules to implement Revised Article 9 of the Uniform Commercial Code, House Bill 205 (2001). (3-20-20)T

### 001. TITLE AND SCOPE.

**01. Title.** These rules shall be cited as IDAPA 34.05.06, “Rules Governing Lien Filings Under the UCC,” IDAPA 34, Title 05, Chapter 06. (3-20-20)T

**02. Scope.** These rules shall govern the filing, acceptance, indexing and searching of financing statements in the Secretary of State’s Office under Article 9 of the Uniform Commercial Code, as amended in 2001. (3-20-20)T

### 002. -- 100. (RESERVED)

## SUBCHAPTER 1 – GENERAL PROVISIONS

### 101. DEFINITIONS.

For the purpose of the rules contained in this chapter, the following definitions apply: (3-20-20)T

**01. Amendment.** A UCC document that purports to amend the information contained in a financing statement. Amendments include assignments, continuations and terminations. (3-20-20)T

**02. Assignment.** An amendment that purports to reflect an assignment of all or a part of a secured party’s power to authorize an amendment to a financing statement. (3-20-20)T

**03. Continuation.** An amendment that purports to continue the effectiveness of a financing statement. (3-20-20)T

**04. Correction Statement.** A UCC document that purports to indicate that a financing statement is inaccurate or wrongfully filed. (3-20-20)T

**05. File Number.** The unique identifying information assigned to an initial financing statement by the filing officer for the purpose of identifying the financing statement and UCC documents relating to the financing statement in the filing officer's information management system. For a financing statement with an initial financing statement filed on or prior to June 30, 2001, the file number includes the seven-digit (7) number assigned to the financing statement by the filing officer. For a financing statement with an initial financing statement filed on or after July 1, 2001, the file number includes three (3) segments; the year of filing expressed as a four-digit (4) number, followed by a unique seven-digit (7) number assigned to the financing statement by the filing office and ending with a one-digit (1) verification number assigned by the filing office but algorithmically derived from the numbers in the first two (2) segments. The filing number bears no relation to the time of filing and is not an indicator of priority. (3-20-20)T

**06. Filing Office and Filing Officer.** The Idaho Secretary of State’s Office. (3-20-20)T

**07. Financing Statement.** An initial financing statement and all UCC documents that relate to the initial financing statement. (3-20-20)T

**08. Individual.** A human being, or a decedent in the case of a debtor that is such decedent's estate. (3-20-20)T

**09. Initial Financing Statement.** A UCC document containing the information required to be in an initial financing statement pursuant to Section 2 of these rules which, when filed, causes the filing office to establish the initial record of the existence of a financing statement in the filing office's UCC information management system. (3-20-20)T

**10. Organization.** A legal person who is not an individual under Subsection 101.08. (3-20-20)T

**11. Remitter.** A person who tenders a UCC document to the filing officer for filing, whether the person

is a filer or an agent of a filer responsible for tendering the document for filing. "Remitter" does not include a person responsible merely for the delivery of the document to the filing office, such as the postal service or a courier service but does include a service provider who acts as a filer's representative in the filing process. (3-20-20)T

**12. Secured Party of Record.** With respect to a financing statement, a secured party or representative of a secured party named on the initial financing statement or, if an assignee is designated on the initial financing statement, instead shall mean the secured party or representative named as such assignee, and shall mean each other secured party or secured party representative named as an additional or substitute secured party on any amendment. Revised Article 9 provides that a person remains a secured party of record until the authorized filing of an amendment indicating that the person is no longer a secured party or secured party representative. However, as the filing officer cannot determine if such an amendment is in fact authorized, a secured party of record on a financing statement is not deleted from the filing officer's information management system until the financing statement lapses. (3-20-20)T

**13. Termination.** An amendment intended to indicate that the related financing statement has ceased to be effective with respect to the secured party authorizing the termination. (3-20-20)T

**14. UCC.** The Uniform Commercial Code as enacted in this state, Section 28-11-101, et seq., Idaho Code. (3-20-20)T

**15. UCC Document.** An initial financing statement, a correction statement or any amendment, including an assignment, a continuation, or a termination. The word "document" in the term "UCC document" shall not be deemed to refer exclusively to paper or paper-based writings. In due time, UCC documents may be expressed or transmitted electronically or through media other than such writings. (Note: this definition is used for the purpose of these rules only. The use of the term "UCC document" in these rules has no relation to the definition of the term "document" in Section 28-9-102(a)(30), Idaho Code.) (3-20-20)T

**102. SINGULAR AND PLURAL FORMS.** Singular nouns shall include the plural form, and plural nouns shall include the singular form, unless the context otherwise requires. (3-20-20)T

**103. PLACE OF FILING.** The Secretary of State's Office is the filing office for filing UCC documents relating to all types of collateral except for timber to be cut, as-extracted collateral (Section 28-9-102(a)(6), Idaho Code) and, when the relevant financing statement is filed as a fixture filing, goods which are or are to become fixtures. (3-20-20)T

**104. FILING OFFICE IDENTIFICATION.** In addition to the promulgation of these rules, the filing office will disseminate information of its location, mailing address, telephone and facsimile numbers, and its internet and other electronic "addresses" through usual and customary means. (3-20-20)T

**105. OFFICE HOURS.** Although the filing office maintains regular office hours, it receives transmissions by facsimile twenty-four (24) hours per day, three hundred sixty-five (365) days per year, except for scheduled maintenance and unscheduled interruptions of service. Electronic filings may be available in the near future, and will be possible twenty-four (24) hours per day, three hundred sixty-five (365) days per year, except for scheduled maintenance and unscheduled interruptions of service. (3-20-20)T

**106. UCC DOCUMENT DELIVERY.** UCC documents may be tendered for filing at the filing office as follows: (3-20-20)T

**01. Personal Delivery, at the Filing Office's Street Address.** The file time for a UCC document delivered by this method is when delivery of the UCC document is accepted by the filing office (even though the UCC document may not yet have been accepted for filing and subsequently may be rejected). (3-20-20)T

**02. Courier Delivery, at the Filing Office's Street Address.** The file time for a UCC document delivered by this method is, notwithstanding the time of delivery, the next close of business following the time of delivery (even though the UCC document may not yet have been accepted for filing and may be subsequently

rejected). A UCC document delivered after regular business hours or on a day the filing office is not open for business will have a filing time of the close of business on the next day the filing office is open for business.

(3-20-20)T

**03. Postal Service Delivery to the Filing Office's Mailing Address.** The file time for a UCC document delivered by this method is the next close of business following the time of delivery (even though the UCC document may not yet have been accepted for filing and may be subsequently rejected). A UCC document delivered after regular business hours or on a day the filing office is not open for business will have a filing time of the close of business on the next day the filing office is open for business.

(3-20-20)T

**04. Facsimile Delivery to the Filing Office's Facsimile Filing Telephone Number.** The file time for a UCC document delivered by this method is, notwithstanding the time of delivery, 5 p.m. on the day the filing office is open to the public next following the time of delivery (even though the UCC document may not yet have been accepted for filing and may be subsequently rejected). A UCC document delivered after regular business hours or on a day the filing office is not open for business will have a filing time of the close of business on the next day the filing office is open for business.

(3-20-20)T

**107. SEARCH REQUEST DELIVERY.**

UCC search requests may be delivered to the filing office by any of the means by which UCC documents may be delivered to the filing office. Requirements concerning search requests are set forth in Section 501. UCC search requests upon a debtor named on an initial financing statement may be made by an appropriate indication on the face of the initial financing statement form if the form is entitled to be filed with the standard form fee and the relevant search fee is also tendered with the initial financing statement

(3-20-20)T

**108. ACCEPTABLE FORMS.**

The forms set forth in Section 28-9-521, Idaho Code, shall be accepted by the filing office. Forms approved by the International Association of Corporation Administrators on or prior to July 1, 2001, and forms approved by the filing office shall be accepted.

(3-20-20)T

**109. -- 110. (RESERVED)**

**111. FILING FEES.**

Section 28-9-525, Idaho Code.

(3-20-20)T

**01. Filing Fee.** The fee for filing and indexing a UCC document of one (1) or two (2) pages communicated on paper or in a paper-based format (including facsimiles) is six dollars \$(6). If there are additional pages, the fee is twelve dollars (\$12). When available, the fee for filing and indexing a UCC document communicated by a medium authorized by these rules which is other than on paper or in a paper-based format shall be three dollars (\$3).

(3-20-20)T

**02. UCC Search Fee.** The fee for a UCC search request communicated on paper or in a paper-based format is twelve dollars (\$12).

(3-20-20)T

**112. (RESERVED)**

**113. METHODS OF PAYMENT.**

Filing fees and fees for public records services may be paid by the following methods:

(3-20-20)T

**01. Cash.** Payment in cash shall be accepted if paid in person at the filing office.

(3-20-20)T

**02. Checks.** Personal checks, business checks, bank-certified checks or cashiers checks and money orders shall be accepted for payment if they are drawn on a bank acceptable to the filing office or if the drawer is acceptable to the filing office.

(3-20-20)T

**03. Prepaid Account.** A remitter may open an account for prepayment of filing fees by submitting an application furnished by the filing officer. Fees may be prepaid in amounts not less than fifty dollars (\$50). The filing officer shall issue an account number to be used by a remitter who chooses to pay filing fees in advance. The filing

officer shall deduct filing fees from the remitter's prepaid account when authorized to do so by the remitter. (3-20-20)T

**114. OVERPAYMENT AND UNDERPAYMENT POLICIES.**

**01. Overpayment.** The filing officer shall refund the amount of an overpayment exceeding two dollars (\$2) to the remitter. The filing officer shall refund an overpayment of two dollars (\$2) or less only upon the written request of the remitter. (3-20-20)T

**02. Underpayment.** Upon receipt of a document with an insufficient fee, the filing officer shall do one (1) of the following. (3-20-20)T

**a.** A notice of the deficiency shall be sent to the remitter and the document shall be held for a period of ten (10) days from the date of the notice, in anticipation of receipt of the fee. Upon receipt of the fee, the document will be filed as of the time and date of receipt of the full filing fee. If the fee has not been received within ten (10) days of the date of the notice, the document shall be returned to the remitter with a written explanation for the refusal to accept the document; or (3-20-20)T

**b.** The document shall be returned to the remitter as provided in Section 205. A refund of a partial payment may be included with the document or delivered under separate cover. (3-20-20)T

**115. PUBLIC RECORDS SERVICES.**

Public records services are provided on a non-discriminatory basis to any member of the public on the terms described in these rules. The following methods are available for obtaining copies of UCC documents and copies of data from the UCC information management system. (3-20-20)T

**01. Individually Identified Documents.** Copies of individually identified UCC documents are available either from a computer terminal in the reception area in the filing office or through any medium otherwise accepted by the filing office. There is a charge of twenty-five cents (\$.25) per page for printed information, but only if four (4) or more pages are printed. (3-20-20)T

**02. Bulk Copies of Documents.** Bulk copies of UCC documents are available in TIF (image) format on CD-ROM. (3-20-20)T

**03. Data from the Information Management System.** A list of available data elements from the UCC information management system, and the file layout of the data elements, are available from the filing officer upon request. Data from the information management system is available as follows: (3-20-20)T

**a.** Full Extract. A bulk data extract of information from the UCC information management system is available on a monthly basis. (3-20-20)T

**b.** Format. Extracts from the UCC information management system are available in ASCII .txt format on CD-ROM. (3-20-20)T

**04. Direct On-Line Services.** On-line services providing UCC information are available on a subscription basis from the State's Internet Portal Manager, Idaho Information Consortium, Inc., d/b/a Access Idaho. A description of subscription services is available from the filing officer or Access Idaho. (3-20-20)T

**116. FEES FOR PUBLIC RECORDS SERVICES.**

Fees for public records services are established as follows: (3-20-20)T

**01. Charge for Paper Copies.** The charge for paper copies of individual documents is twenty-five cents (\$.25) per page if no staff assistance is utilized and one dollar (\$1) per page with staff assistance. Facsimile charge is an additional fifty cents (\$.50) per page. (3-20-20)T

**02. Data From the Information Management System.** The charge for a full extract is one hundred twenty-five dollars (\$125) per monthly delivery. (3-20-20)T

**117. NEW PRACTICES AND TECHNOLOGIES.**

The filing officer may adopt practices and procedures to accomplish receipt, processing, maintenance, retrieval and transmission of, and remote access to, Article 9 filing data by means of electronic, voice, optical and/or other technologies, and, without limiting the foregoing, to maintain and operate, in addition to or in lieu of a paper-based system, a non-paper-based Article 9 filing system utilizing any of such technologies. In developing and utilizing technologies and practices, the filing officer shall, to the greatest extent feasible, take into account compatibility and consistency with technologies, practices, policies and regulations adopted in connection with Article 9 filing systems in other states. (3-20-20)T

**118. -- 199. (RESERVED)**

**SUBCHAPTER 2 – ACCEPTANCE AND REFUSAL OF DOCUMENTS**

**200. ROLE OF FILING OFFICER.**

**01. Duties and Responsibilities.** The duties and responsibilities of the filing officer with respect to the administration of the UCC are ministerial. (3-20-20)T

**02. What the Filing Officer Does Not Do.** In accepting for filing or refusing to file a UCC document pursuant to these rules, the filing officer does not: (3-20-20)T

- a. Determine the legal sufficiency or insufficiency of a document. (3-20-20)T
- b. Determine that a security interest in collateral exists or does not exist. (3-20-20)T
- c. Determine that information in the document is correct or incorrect, in whole or in part. (3-20-20)T
- d. Create a presumption that information in the document is correct or incorrect, in whole or in part. (3-20-20)T

**201. DUTY TO FILE.**

Provided that there is no ground to refuse acceptance of the document under Section 202, a UCC document is filed upon its receipt by the filing officer with the filing fee and the filing officer shall promptly assign a file number to the UCC document and index it in the information management system. (3-20-20)T

**202. GROUNDS FOR REFUSAL OF UCC DOCUMENT.**

The following grounds are the sole grounds for the filing officer's refusal to accept a UCC document for filing. As used herein, the term "legible" is not limited to refer only to written expressions on paper: it requires, when appropriate, a machine-readable transmission for electronic transmissions and an otherwise readily decipherable transmission in other cases. (3-20-20)T

**01. Debtor Name and Address.** An initial financing statement or an amendment that purports to add a debtor shall be refused if the document fails to include a legible debtor name and address for a debtor, in the case of an initial financing statement, or for the debtor purporting to be added in the case of such an amendment. If the document contains more than one debtor name or address and some names or addresses are missing or illegible, the filing officer shall index the legible name and address pairings, and provide a notice to the remitter containing the file number of the document, identification of the debtor name(s) that was (were) indexed, and a statement that debtors with illegible or missing names or addresses were not indexed. (3-20-20)T

**02. Additional Debtor Identification.** An initial financing statement or an amendment adding one or more debtors shall be refused if the document fails to identify whether each named debtor (or each added debtor in the case of such an amendment) is an individual or an organization, if the last name of each individual debtor is not identified, or if, for each debtor identified as an organization, the document does not include in legible form the organization's type, state of organization and organization number (or a statement that it does not have an organization number). UCC documents, including the UCC1 and UCC3, should not contain Social Security Account Numbers or other Taxpayer identification numbers although there are spaces for this information on the approved

UCC1 and UCC3 form. If these numbers are entered on the forms, the filing officer shall cause them not to be readable on the scanned image retained by the filing office. (3-20-20)T

**03. Secured Party Name and Address.** An initial financing statement, an amendment purporting to add a secured party of record, or an assignment, shall be refused if the document fails to include a legible secured party (or assignee in the case of an assignment) name and address. If the document contains more than one secured party (or assignee) name or address and some names or addresses are missing or illegible, the filing officer shall index the legible name and address pairings, and provide a notice to the remitter containing the file number of the document, identification of the secured party (or assignee) names that were indexed, and a statement that secured parties with illegible or missing names or addresses were not indexed. (3-20-20)T

**04. Lack of Identification of Initial Financing Statement.** A UCC document other than an initial financing statement shall be refused if the document does not provide a file number of a financing statement which exists in the UCC information management system and which has not lapsed. (3-20-20)T

**05. Other Required Information.** A UCC document that does not identify itself as an initial financing statement or as another type of UCC document shall be refused. (3-20-20)T

**06. Timeliness of Continuation.** A continuation shall be refused if it is not received during the six (6) month period concluding on the day upon which the related financing statement would lapse. (3-20-20)T

**a. First Day Permitted.** The first day on which a continuation may be filed is the date of the month corresponding to the date upon which the financing statement would lapse, six (6) months preceding the month in which the financing statement would lapse. If there is no such corresponding date during the sixth month preceding the month in which the financing statement would lapse, the first day on which a continuation may be filed is the last day of the sixth month preceding the month in which the financing statement would lapse, although filing by certain means may not be possible on such date if the filing office is not open on such date. (3-20-20)T

**b. Last Day Permitted.** The last day on which a continuation may be filed is the date upon which the financing statement lapses. (3-20-20)T

**07. Fee.** A document shall be refused if the document is accompanied by less than the full filing fee tendered by a method described in Section 113. (3-20-20)T

**08. Means of Communication.** UCC documents communicated to the filing office by a means of communication not authorized by the filing officer for the communication of UCC documents shall be refused. (3-20-20)T

**203. (RESERVED)**

**204. TIME LIMIT.**

The filing officer shall determine whether criteria exist to refuse acceptance of a UCC document for filing not later than the second business day after the date the document would have been filed had it been accepted for filing and shall index a UCC document not so refused within the same time period. (3-20-20)T

**205. PROCEDURE UPON REFUSAL.**

If the filing officer finds any basis under Section 202 to refuse acceptance of a UCC document, the filing officer shall return the document, if written, to the remitter and refund the filing fee. The filing office shall send a notice that contains the date and time the document would have been filed had it been accepted for filing (unless such date and time are stamped on the document), and a brief description of the reason(s) for refusal to accept the document under Section 202. The notice shall be sent to a secured party or the remitter as provided in Subsection 401.02.b. no later than the second business day after of the determination to refuse acceptance of the document. A refund may be delivered with the notice or under separate cover. (3-20-20)T

**206. ACKNOWLEDGMENT.**

**01. When Filing Is a Paper or Paper-Based UCC Document.** At the request of a filer or remitter

who files a paper or paper-based UCC document, the filing officer shall either: (3-20-20)T

**a.** Send to said filer or remitter an image of the record of the UCC document showing the file number assigned to it and the date and time of filing; or (3-20-20)T

**b.** If such filer or remitter provides a copy of such UCC document, note the file number and the date and time of filing on the copy and deliver or send it to said filer or remitter. (3-20-20)T

**02. When Filing Is Not a Paper or Paper-Based UCC Document.** When appropriate for UCC documents not filed in paper or paper-based form, the filing officer shall communicate to the filer or remitter the information in the filed document, the file number and the date and time of filing. (3-20-20)T

**207. OTHER NOTICES.**

Nothing in these rules prevents a filing officer from communicating to a filer or a remitter that the filing officer noticed apparent potential defects in a UCC document, whether or not it was filed or refused for filing. However, the filing office is under no obligation to do so and may not have the resources to do so. THE RESPONSIBILITY FOR THE LEGAL EFFECTIVENESS OF FILING RESTS WITH FILERS AND REMITTERS AND THE FILING OFFICE BEARS NO RESPONSIBILITY FOR SUCH EFFECTIVENESS. (3-20-20)T

**208. REFUSAL ERRORS.**

If a secured party or a remitter demonstrates to the satisfaction of the filing officer that a UCC document that was refused for filing should not have been, the filing officer will file the UCC document as provided in these rules with a filing date and time assigned when such filing occurs. The filing officer will also file a filing officer statement that states the effective date and time of filing which shall be the date and time the UCC document was originally tendered for filing. The lapse date shall be calculated based upon the date the UCC document was originally tendered. (3-20-20)T

**209. -- 299. (RESERVED)**

**SUBCHAPTER 3 – UCC INFORMATION MANAGEMENT SYSTEM**

**300. POLICY STATEMENT.**

The filing officer uses an information management system to store, index, and retrieve information relating to financing statements. The information management system includes an index of the names of debtors named on financing statements which have not been lapsed for more than one (1) year. (3-20-20)T

**301. PRIMARY DATA ELEMENTS.**

The primary data elements used in the UCC information management system are the following: (3-20-20)T

**01. Identification Numbers.** (3-20-20)T

**a.** Each initial financing statement is identified by its file number as described in Subsection 101.05. Identification in the form of the file number of the initial financing statement is stamped on written UCC documents or is otherwise permanently associated with the record maintained for UCC documents in the UCC information management system. A record is created in the information management system for each initial financing statement and all information comprising such record is maintained in such system. Such record is identified by the same information assigned to the initial financing statement. (3-20-20)T

**b.** A UCC document other than an initial financing statement is identified by a unique file number assigned by the filing officer. In the information management system, records of all UCC documents other than initial financing statements are linked to the record of their related initial financing statement. (3-20-20)T

**02. Type of Document.** The type of UCC document from which data is transferred is identified in the information management system from information supplied by the remitter. (3-20-20)T

**03. Filing Date and Filing Time.** The filing date and filing time of UCC documents are stored in the information management system. Calculation of the lapse date of an initial financing statement is based upon the

filing date or the effective filing date as provided in Section 208 of these rules. (3-20-20)T

**04. Identification of Parties.** The names and addresses of debtors and secured parties are transferred from UCC documents to the UCC information management system using one (1) or more data entry or transmittal techniques. (3-20-20)T

**05. Status of Financing Statement.** In the information management system, each financing statement has a status of active or inactive. (3-20-20)T

**06. Lapse Indicator.** An indicator is maintained by which the information management system identifies whether or not a financing statement will lapse and, if it does, when it will lapse. The lapse date is determined as provided in Section 404. (3-20-20)T

**302. NAMES OF DEBTORS WHO ARE INDIVIDUALS.**

The definition of “individual” is found in Subsection 101.08. This rule applies to the name on a UCC document of a debtor or a secured party who is an individual. (3-20-20)T

**01. Individual Name Fields.** The names of individuals are stored in the same files as the names of organizations. Separate data entry fields are established for first (given), middle (given), and last names (surnames or family names) of individuals, and an indicator is marked with “I” to distinguish the name as that of an individual. The filing officer assumes no responsibility for the accurate designation of the components of a name but will accurately enter the data in accordance with the filer's designations. (3-20-20)T

**02. Titles and Prefixes Before Names.** Titles and prefixes, such as “Doctor,” “Reverend,” “Mr.,” and “Ms.,” should not be entered in the UCC information management system. However, as provided in Section 407, when a UCC document is submitted with designated name fields, the data will be entered in the UCC information management system exactly as it appears. (3-20-20)T

**03. Titles and Suffixes After Names.** Titles or indications of status such as “M.D.” and “esquire” shall not be entered in the UCC information management system. Suffixes, such as “Sr.,” “Jr.,” “I,” “II,” and “III,” and “Est” (estate) are entered in a field designated for name suffixes. (3-20-20)T

**04. Truncation -- Individual Names.** Personal name fields in the UCC database are fixed in length. Although filers should continue to provide full names on their UCC documents, a name that exceeds the fixed length is entered as presented to the filing officer, up to the maximum length of the data entry field. The length of data entry name fields are as follows. (3-20-20)T

**a.** First name: Fifty (50) characters. (3-20-20)T

**b.** Middle name: Fifty (50) characters. (3-20-20)T

**c.** Last name: Two hundred fifty-five (255) characters. (3-20-20)T

**d.** Suffix: Ten (10) characters. (3-20-20)T

**05. No Assumed Business Names.** An assumed business name, whether or not on file under Chapter 5, Title 53, Idaho Code, is not the legal name of the individual using the assumed business name. (3-20-20)T

**303. NAMES OF DEBTORS THAT ARE ORGANIZATIONS.**

This rule applies to the names of organizations which are debtors or secured parties on a UCC document. (3-20-20)T

**01. Single Field.** The names of organizations are stored in the same files as the names of individuals. The name of an organization is stored in the last-name field only, and an indicator is marked with “O” to distinguish the name as that of an organization. The filing officer assumes no responsibility for the accurate designation of an organizational name but will accurately enter the data in accordance with the filer's designations. (3-20-20)T

**02. Truncation-Organization Names.** The organization name field in the UCC database is fixed in

length. The maximum length is two hundred fifty-five (255) characters. Although filers should continue to provide full names on their UCC documents, a name that exceeds the fixed length is entered as presented to the filing officer, up to the maximum length of the data entry field. (3-20-20)T

**03. No Assumed Business Names.** An assumed business name, whether or not on file under Chapter 5, Title 53, Idaho Code, is not the legal name of the organization using the assumed business name. (3-20-20)T

**304. ESTATES.**

Although they are not human beings, estates are treated as if the decedent were the debtor under Section 302. "Est" should be entered in the suffix field. (3-20-20)T

**305. TRUSTS.**

If the trust is named in its organic document(s), its full legal name, as set forth in such document(s), is used. Such trusts are treated as organizations. If the trust is not so named, the name of the settlor is used. If a settlor is indicated to be an organization, the name is treated as an organization name. If the settlor is an individual, the name is treated as an individual name. A UCC document that uses a settlor's name should include other information provided by the filer to distinguish the debtor trust from other trusts having the same settlor and all financing statements filed against trusts or trustees acting with respect to property held in trust should indicate the nature of the debtor. If this is done in, or as part of, the name of the debtor, it will be entered as if it were a part of the name under Sections 407 and 408. (3-20-20)T

**306. INITIAL FINANCING STATEMENT.**

Upon the filing of an initial financing statement the status of the parties and the status of the financing statement shall be as follows: (3-20-20)T

**01. Status of Secured Party.** Each secured party named on an initial financing statement shall be a secured party of record, except that if the UCC document names an assignee, the secured party/assignor shall not be a secured party of record and the secured party/assignee shall be a secured party of record. (3-20-20)T

**02. Status of Debtor.** The status of a debtor named on the document shall be active and shall continue as active until one (1) year after the financing statement lapses. (3-20-20)T

**03. Status of Financing Statement.** The status of the financing statement shall be active. A lapse date shall be calculated, five (5) years from the file date, unless the initial financing statement indicates that it is filed with respect to a public-financing transaction or a manufactured-home transaction, in which case the lapse date shall be thirty (30) years from the file date; or, if the initial financing statement indicates that it is filed against a transmitting utility, in which case there shall be no lapse date. A financing statement remains active until one (1) year after it lapses, or if it is indicated to be filed against a transmitting utility, until one (1) year after it is terminated with respect to all secured parties of record. (3-20-20)T

**307. AMENDMENT.**

Upon the filing of an amendment the status of the parties and the status of the financing statement shall be as follows: (3-20-20)T

**01. Status of Secured Party and Debtor.** An amendment shall affect the status of its debtor(s) and secured party(ies) as follows: (3-20-20)T

**a. Collateral Amendment or Address Change.** An amendment that amends only the collateral description or one (1) or more addresses has no effect upon the status of any debtor or secured party. If a statement of amendment is authorized by less than all of the secured parties (or, in the case of an amendment that adds collateral, less than all of the debtors), the statement affects only the interests of each authorizing secured party (or debtor). (3-20-20)T

**b. Debtor Name Change.** An amendment that changes a debtor's name has no effect on the status of any debtor or secured party, except that the related initial financing statement and all UCC documents that include an identification of such initial financing statement shall be cross-indexed in the UCC information management system so that a search under either the debtor's old name or the debtor's new name will reveal such initial financing

statement and such related UCC documents. Such a statement of amendment affects only the rights of its authorizing secured party(ies). (3-20-20)T

**c. Secured Party Name Change.** An amendment that changes the name of a secured party has no effect on the status of any debtor or any secured party, but the new name is added to the index as if it were a new secured party of record. (3-20-20)T

**d. Addition of a Debtor.** An amendment that adds a new debtor name has no effect upon the status of any party to the financing statement, except the new debtor name shall be added as a new debtor on the financing statement. The addition shall affect only the rights of the secured party(ies) authorizing the statement of amendment. (3-20-20)T

**e. Addition of a Secured Party.** An amendment that adds a new secured party shall not affect the status of any party to the financing statement, except that the new secured party name shall be added as a new secured party on the financing statement. (3-20-20)T

**f. Deletion of a Debtor.** An amendment that deletes a debtor has no effect on the status of any party to the financing statement, even if the amendment purports to delete all debtors. (3-20-20)T

**g. Deletion of a Secured Party.** An amendment that deletes a secured party of record has no effect on the status of any party to the financing statement, even if the amendment purports to delete all secured parties of record. (3-20-20)T

**02. Status of Financing Statement.** An amendment shall have no effect upon the status of the financing statement, except that a continuation may extend the period of effectiveness of a financing statement. (3-20-20)T

**308. ASSIGNMENT OF POWERS OF SECURED PARTY OF RECORD.**

**01. Status of the Parties.** An assignment shall have no effect on the status of the parties to the financing statement, except that each assignee named in the assignment shall become a secured party of record. (3-20-20)T

**02. Status of Financing Statement.** An assignment shall have no effect upon the status of the financing statement. (3-20-20)T

**309. CONTINUATION.**

**01. Continuation of Lapse Date.** Upon the timely filing of one (1) or more continuations by any secured party(ies) of record, the lapse date of the financing statement shall be postponed for five (5) years. (3-20-20)T

**02. Status of Parties.** The filing of a continuation shall have no effect upon the status of any party to the financing statement. (3-20-20)T

**03. Status of Financing Statement.** Upon the filing of a continuation statement, the status of the financing statement remains active. (3-20-20)T

**310. TERMINATION.**

**01. Status of Parties.** The filing of a termination shall have no effect upon the status of any party to the financing statement. (3-20-20)T

**02. Status of Financing Statement.** A termination shall have no effect upon the status of the financing statement and the financing statement shall remain active in the information management system until one (1) year after it lapses, unless the termination relates to a financing statement that indicates it is filed against a transmitting utility, in which case the financing statement will become inactive one (1) year after it is terminated with respect to all

secured parties of record. (3-20-20)T

**311. CORRECTION STATEMENT.**

**01. Status of Parties.** The filing of a correction statement shall have no effect upon the status of any party to the financing statement. (3-20-20)T

**02. Status of Financing Statement.** A correction statement shall have no effect upon the status of the financing statement. (3-20-20)T

**312. PROCEDURE UPON LAPSE.**

If there is no timely filing of a continuation with respect to a financing statement, the financing statement lapses on its lapse date but no action is then taken by the filing office. On the first anniversary of such lapse date, the information management system renders or is caused to render the financing statement inactive and the financing statement will no longer be made available to a searcher unless inactive statements are requested by the searcher and the financing statement is still retrievable by the information management system. (3-20-20)T

**313. -- 399. (RESERVED)**

**SUBCHAPTER 4 – FILING AND DATA ENTRY PROCEDURES**

**400. POLICY STATEMENT.**

This section contains rules describing the filing procedures of the filing officer upon and after receipt of a UCC document. It is the policy of the filing officer to file promptly a document that conforms to these rules. Except as provided in these rules, data is transferred from a UCC document to the information management system exactly as the data is set forth in the document. Personnel who create reports in response to search requests type search criteria exactly as set forth on the search request. No effort is made to detect or correct errors of any kind. (3-20-20)T

**401. DOCUMENT INDEXING AND OTHER PROCEDURES BEFORE ARCHIVING.**

**01. Cash Management.** Transactions necessary to payment of the filing fee are performed. (3-20-20)T

**02. Document Review.** The filing office determines whether a ground exists to refuse the document under Section 202. (3-20-20)T

**a. File Stamp.** If there is no ground for refusal of the document, the document is stamped or deemed filed and a unique identification number and the filing date is stamped on the document or permanently associated with the record of the document maintained in the UCC information management system. The sequence of the identification number is not an indication of the order in which the document was received. (3-20-20)T

**b. Correspondence.** If there is a ground for refusal of the document, notification of refusal to accept the document is prepared as provided in Section 205. If there is no ground for refusal of the document, an acknowledgment of filing is prepared as provided in Section 206. Acknowledgment of filing or notice of refusal of a UCC document is sent to the secured party (or the first secured party if there are more than one (1)) named on the UCC document or to the remitter if the remitter so requests by regular mail or by overnight courier if the remitter provides a prepaid waybill or access to the remitter's account with the courier. (3-20-20)T

**402. FILING DATE.**

The filing date of a UCC document is the date the UCC document is received with the proper filing fee if the filing office is open to the public on that date; or, if the filing office is not so open to the public on that date, the filing date is the next date the filing office is so open, except that, in each case, UCC documents received after 5 p.m. shall be deemed received on the following day. The filing officer may perform any duty relating to the document on the filing date or on a date after the filing date. (3-20-20)T

**403. FILING TIME.**

The filing time of a UCC document is determined as provided in Section 106. (3-20-20)T

**404. LAPSE DATE AND TIME.**

A lapse date is calculated for each initial financing statement (unless the debtor is indicated to be a transmitting utility). The lapse date is the same date of the same month as the filing date in the fifth year after the filing date or relevant subsequent fifth anniversary thereof if a timely continuation statement is filed, but if the initial financing statement indicates that it is filed with respect to a public-finance transaction or a manufactured-home transaction, the lapse date is the same date of the same month as the filing date in the thirtieth year after the filing date. The lapse takes effect at midnight at the end of the lapse date. The relevant anniversary for a February 29 filing date shall be March 1 in the fifth year following the year of the filing date. (3-20-20)T

**405. ERRORS OF THE FILING OFFICER.**

The filing office may correct the errors of filing officer personnel in the UCC information management system at any time. If the correction is made after the filing officer has issued a certification date that includes the filing date of a corrected document, the filing officer shall file a filing officer statement in the UCC information management system identifying the record to which it relates, the date of the correction and explaining the nature of the corrective action taken. The notation shall be preserved as long as the record is preserved in the UCC information management system. (3-20-20)T

**406. ERRORS OTHER THAN FILING OFFICE ERRORS.**

An error by a filer is the responsibility of such filer. It can be corrected by filing an amendment or it can be disclosed by a correction statement. (3-20-20)T

**407. DATA ENTRY OF NAMES – DESIGNATED FIELDS.**

A filing should designate whether a name is a name of an individual or an organization and, if an individual, also designate the first, middle and last names and any suffix. When this is done, Subsections 407.01 through 407.03 shall apply: (3-20-20)T

**01. Organization Names.** Organization names are entered into the UCC information management system exactly as set forth in the UCC document, even if it appears that multiple names are set forth in the document or if it appears that the name of an individual has been included in the field designated for an organization name. (3-20-20)T

**02. Individual Names.** On a form that designates separate fields for first, middle, and last names and any suffix, the filing officer enters the names into the first, middle, and last name and suffix fields in the UCC information management system exactly as set forth on the form. (3-20-20)T

**03. Designated Fields Encouraged.** The filing office encourages the use of forms that designate separate fields for individual and organization names and separate fields for first, middle, and last names and any suffix. Filers should be aware that the inclusion of a name in an incorrect field or the failure to transmit a name accurately to the filing office may cause a filing to be ineffective. (3-20-20)T

**408. DATA ENTRY OF NAMES -- NO DESIGNATED FIELDS.**

A UCC document that is an initial financing statement or an amendment that adds a debtor to a financing statement and that fails to specify whether the debtor is an individual or an organization shall be refused by the filing office. If it is accepted for filing in error, the following rules in Subsections 408.01 through 408.04 shall apply: (3-20-20)T

**01. Identification of Organizations.** A name is treated as an organization name if it contains words or abbreviations that indicate status such as the following and similar words or abbreviations in foreign languages: association, church, college, company, co., corp., corporation, inc., limited, ltd., club, foundation, fund, L.L.C., limited liability company, institute, society, union, syndicate, GmbH, S.A. de C.V., limited partnership, L.P., limited liability partnership, L.L.P., trust, business trust, co-op, cooperative and other designations established by statutes to indicate a statutory organization. In cases where organization or individual status is not designated by the filer and is not clear, the filing officer will use his own judgment. (3-20-20)T

**02. Identification of Individuals.** A name is entered as the name of an individual and not the name of an organization when the name is followed by a title substantially similar to one (1) of the following titles, or the equivalent of one (1) of the following titles in a foreign language: proprietor, sole proprietor, proprietorship, sole proprietorship, partner, general partner, president, vice president, secretary, treasurer, M.D., O.D., D.D.S., attorney at

law, Esq., accountant, CPA. In such cases, the title is not entered. (3-20-20)T

**03. Individual and Organization Names on a Single Line.** Where it is apparent that the name of an individual and the name of an entity are stated on a single line and not in a designated individual name field, the name of the individual and the name of the entity shall be entered as two (2) separate debtors, one (1) as an individual and one (1) as an entity. Additional filing fees for the amendment to add additional debtor name(s) may be required. (3-20-20)T

**04. Individual Names.** The failure to designate the last name of an individual debtor in an initial financing statement or an amendment adding such debtor to a financing statement should cause a filing to be refused. If the filing is accepted in error, or if only the last name is designated, the following data entry rules apply: (3-20-20)T

**a. Freestanding Initials.** An initial in the first position of the name is treated as a first name. An initial in the second position of the name is treated as a middle name. (3-20-20)T

**b. Combined Initials and Names.** An initial and a name to which the initial apparently corresponds is entered into one (1) name field only [e.g. “D. (David)” in the name “John D. (David) Rockefeller” is entered as “John” (first name); “D. (David)” (middle name); “Rockefeller” (last name)]. (3-20-20)T

**c. Multiple Individual Names on a Single Line.** Two (2) individual names contained in a single line are entered as two different debtors [e.g. the debtor name “John and Mary Smith” is entered as two (2) debtors: “John Smith” and “Mary Smith”]. (3-20-20)T

**d. One Word Names.** A one (1) word name is entered as a last name [e.g. “Charro” is treated as a last name]. (3-20-20)T

**e. Nicknames.** A nickname is entered in the name field together with the name preceding the nickname, or if none, then as the first name (e.g., “William (Bill) Jones”). (3-20-20)T

**409. VERIFICATION OF DATA ENTRY.**  
The filing officer uses double key entry to verify the accuracy of data entry tasks. (3-20-20)T

**410. INITIAL FINANCING STATEMENT.**

**01. New Record Bears the Unique UCC File Number.** A new record is opened in the UCC information management system for each initial financing statement. The new record bears the unique file number of the financing statement and the date and time of filing. (3-20-20)T

**02. Name and Address of Each Debtor.** The name and address of each debtor that are legibly set forth in the financing statement are entered into the record of the financing statement. Each such debtor name is included in the searchable index and is not removed until one (1) year after the financing statement lapses. (3-20-20)T

**03. Name and Address of Each Secured Party.** The name and address of each secured party that are legibly set forth in the financing statement are entered into the record of the financing statement. (3-20-20)T

**04. Record Is Indexed According to the Name of the Debtor.** The record is indexed according to the name of the debtor(s) and is maintained for public inspection. (3-20-20)T

**05. Lapse Date.** A lapse date is established for the financing statement, and the lapse date is maintained as part of the record. No lapse date is established for a financing statement which indicates it is filed against a transmitting utility. (3-20-20)T

**411. AMENDMENT.**

**01. Date and Time of Filing Amendment.** A record is created for the amendment that bears the file number for the amendment and the date and time of filing. (3-20-20)T

**02. Amendment Initial Financing Statement.** The record of the amendment is associated with the record of the related initial financing statement in a manner that causes the amendment to be retrievable each time a record of the financing statement is retrieved. (3-20-20)T

**03. Amendment Financing Statement Lapses.** The name and address of each additional debtor and secured parties are entered into the UCC information management system in the record of the financing statement. Each such additional debtor name is added to the searchable index and is not removed until one (1) year after the financing statement lapses. (3-20-20)T

**04. New Lapse Date Is Established.** If the amendment is a continuation, a new lapse date is established for the financing statement and maintained as part of its record. (3-20-20)T

**412. CORRECTION STATEMENT.**

A record is created for the correction statement that bears the file number for the correction statement and the date and time of filing. The record of the correction statement is associated with the record of the related initial financing statement in a manner that causes the correction statement to be retrievable each time a record of the financing statement is retrieved. (3-20-20)T

**413. GLOBAL FILINGS.**

**01. Filing a Single UCC Document.** The filing officer may accept for filing a single UCC document for the purpose of amending more than one (1) financing statement, for one (1) or both of the following purposes: (3-20-20)T

**a.** Amendment to change secured party name; or (3-20-20)T

**b.** Amendment to change secured party address. (3-20-20)T

**02. Global Filing.** A global filing shall consist of a written document describing the requested amendment on a form approved by the filing office. Acceptance of a global filing is conditioned upon the determination of the filing officer and is within the filing officer's sole discretion. (3-20-20)T

**414. NOTICE OF BANKRUPTCY.**

The filing officer shall take no action upon receipt of a notification, formal or informal, of a bankruptcy proceeding involving a debtor named in the UCC information management system. (3-20-20)T

**415. -- 499. (RESERVED)**

**SUBCHAPTER 5 – SEARCH REQUESTS AND REPORTS**

**500. GENERAL REQUIREMENTS.**

The filing officer maintains for public inspection a searchable index for all records of UCC documents that provides for the retrieval of a record by the name of the debtor and by the file number of the initial financing statement to which the record relates and which associates each initial financing statement and each filed UCC document relating to the initial financing statement. (3-20-20)T

**501. SEARCH REQUESTS.**

Search requests shall contain the following information: (3-20-20)T

**01. Name Searched.** A search request should set forth the full correct name of a debtor or the name variant desired to be searched and must specify whether the debtor is an individual or an organization. The full name of an individual should consist, whenever possible, of a first, middle, and last name, followed by any suffix that may apply to the name. The full name of an organization shall consist of the name of the organization as stated on the articles of incorporation or other organic documents in the state or country of organization or the name variant desired to be searched. A search request will be processed using the name in the exact form it is submitted. (3-20-20)T

**02. Requesting Party.** The name and address of the person to whom the search report is to be sent. (3-20-20)T

**03. Fee.** The appropriate fee shall be enclosed, payable by a method described in Section 113. (3-20-20)T

**502. OPTIONAL INFORMATION.**

A UCC search request may contain any of the following information: (3-20-20)T

**01. Copies of Documents.** A request that copies of documents referred to in the report be included with the report. The request may limit the copies requested by limiting them by reference to the city of the debtor, the date of filing, or a range of filing dates on the financing statements located by the related search. The request may ask for copies of UCC documents identified on the primary search response. (3-20-20)T

**02. Debtor Name.** A request that the search of a debtor name be limited to debtors in a particular city. A report created by the filing officer in response to such a request shall contain the following statement: "A search limited to a particular city, the date of filing, or a range of filing dates may not reveal all filings against the debtor searched and the searcher bears the risk of relying on such a search." (3-20-20)T

**03. Mode of Delivery.** Instructions on the mode of delivery requested, if other than by ordinary mail, will be honored if the requested mode is at the time available to the filing office. (3-20-20)T

**503. RULES APPLIED TO SEARCH REQUESTS.**

Search results are created by applying standardized search logic to the name presented to the filing officer by the person requesting the search. Human judgment does not play a role in determining the results of the search, except with respect to supplemental responses regarding individual debtor names that are not automated. The following, and only the following, rules are applied to conduct searches: (3-20-20)T

**01. No Limit on Number of Search Matches.** There is no limit to the number of matches that may be returned in response to the search criteria. (3-20-20)T

**02. Not Case Sensitive.** No distinction is made between upper and lower case letters. (3-20-20)T

**03. Punctuation.** Punctuation marks and accents are disregarded. (3-20-20)T

**04. Words and Abbreviations at the End of a Name.** Words and abbreviations at the end of a name that indicate the existence or nature of an organization as set forth in the "Ending Noise Words" list as promulgated and adopted by the International Association of Corporation Administrators, as amended from time to time, are disregarded (e.g., company, limited, incorporated, corporation, limited partnership, limited liability company or abbreviations of the foregoing). (3-20-20)T

**05. "The" Disregarded.** The word "the" at the beginning of the search criteria is disregarded. (3-20-20)T

**06. Spaces.** All spaces are disregarded. (3-20-20)T

**07. Initials.** For first and middle names of individuals, initials are equated with all names that begin with such initials, and no middle name or initial is equated with all middle names and initials. (3-20-20)T

**08. Names Searched On.** After taking the preceding rules into account to modify the name of the debtor requested to be searched and to modify the names of debtors contained in active financing statements in the UCC information management system, the search will reveal only names of debtors that are contained in active financing statements and, as modified, exactly match the name requested, as modified. (3-20-20)T

**504. SEARCH RESPONSES.**

Reports created in response to a search request shall include the following: (3-20-20)T

- 01. Filing Officer.** Identification of the filing officer and the certification of the filing officer required by the UCC. (3-20-20)T
- 02. Report Date.** The date the report was generated. (3-20-20)T
- 03. Name Searched.** Identification of the name searched. (3-20-20)T
- 04. Certification Date.** The certification date applicable to the report; i.e., the date and time through which the search is effective to reveal all relevant UCC documents filed on or prior to that date. (3-20-20)T
- 05. Identification of Initial Financing Statements.** Identification of each unlapsed initial financing statement filed on or prior to the certification date and time corresponding to the search criteria, by name of debtor, by identification number, and by file date and file time. (Lapsed financing statements remain active for one (1) year after the lapse date and may be requested on the search form.) (3-20-20)T
- 06. History of Financing Statement.** For each initial financing statement on the report, a listing of all related UCC documents filed by the filing officer on or prior to the certification date. (3-20-20)T
- 07. Copies.** Copies of all UCC documents revealed by the search and requested by the searcher. (3-20-20)T
- 505. -- 599. (RESERVED)**

#### **SUBCHAPTER 6 – OTHER NOTICES OF LIENS**

**600. POLICY STATEMENT.**

The purpose of the rules in this section is to describe non-UCC liens maintained by the filing office. These liens are treated by the filing officer in a manner similar to UCC documents and are included, on request, with the reports described in Sections 504 and 505. (3-20-20)T

**601. NOTICE OF FEDERAL TAX LIEN.**

- 01. Filing.** Pursuant to Section 45-202, Idaho Code, federal tax liens on business entities, estates, and trusts are filed at the Secretary of State's Office. (3-20-20)T
- a. Fee.** (3-20-20)T
- i.** The fee for filing is six dollars (\$6); (3-20-20)T
- ii.** If there is an attachment there is an additional fee of one dollar (\$1) per page. (3-20-20)T
- b. Duration.** Pursuant to the Internal Revenue Code, federal tax liens have a duration of ten (10) years. (3-20-20)T
- 02. Mechanics of Search.** (3-20-20)T
- a. Fee for Search.** (3-20-20)T
- i.** Six dollars (\$6) for information only; (3-20-20)T
- ii.** Twelve dollars (\$12) for information and copies. (3-20-20)T
- b. Combination Search Available with UCC Search:** (3-20-20)T
- i.** Ten dollars (\$10) for information; (3-20-20)T
- ii.** Sixteen dollars (\$16) for information and copies. (3-20-20)T

**602. NOTICE OF STATE TAX LIEN.**

- 01. Filing.** (3-20-20)T
  - a.** Where to File. The Secretary of State accepts electronic filings from the Idaho Tax Commission pursuant to Chapter 19, Title 45, Idaho Code, and Title 63, Idaho Code. (3-20-20)T
  - b.** Fee. None. (3-20-20)T
  - c.** Duration. Five (5) years. (3-20-20)T
- 02. Mechanics of Search.** (3-20-20)T
  - a.** Fee for Search. (3-20-20)T
    - i.** Six dollars (\$6) for information only; (3-20-20)T
    - ii.** Twelve dollars (\$12) for information and copies. (3-20-20)T
  - b.** Combination Search Available with UCC Search: (3-20-20)T
    - i.** Ten dollars (\$10) for information; (3-20-20)T
    - ii.** Sixteen dollars (\$16) for information and copies. (3-20-20)T

**603. NOTICE OF OTHER LIEN IN FAVOR OF A GOVERNMENTAL BODY (NATURE AND DURATION).**

- 01. State Agencies.** Generally under Chapter 19, Title 45, Idaho Code. (3-20-20)T
  - a.** Department of Commerce and Labor, Chapter 13, Title 72, Idaho Code (unemployment insurance-five year duration). (3-20-20)T
  - b.** Department of Commerce and Labor, Chapter 6, Title 45, Idaho Code (wage claims-five (5) year duration). (3-20-20)T
  - c.** Department of Health and Welfare, Chapter 12, Title 7, Idaho Code (child support-indefinite duration). (3-20-20)T
  - d.** Department of Health and Welfare, Chapter 2, Title 56, Idaho Code (medical assistance-five (5) year duration). (3-20-20)T
- 02. Counties.** Chapter 35, Title 31, Idaho Code (indigent medical-indefinite duration). (3-20-20)T
- 03. Mechanics of Search.** (3-20-20)T
  - a.** Fee for Search. (3-20-20)T
    - i.** Six dollars (\$6) for information only; (3-20-20)T
    - ii.** Twelve dollars (\$12) for information and copies. (3-20-20)T
  - b.** Combination Search Available with UCC Search: (3-20-20)T
    - i.** Ten dollars (\$10) for information; (3-20-20)T

- ii. Sixteen dollars (\$16) for information and copies. (3-20-20)T

**604. SEED AND FARM LABOR LIENS.**

**01. Mechanics of Filing.** Seed and farm labor liens pursuant to Chapter 3, Title 45, Idaho Code are filed in the same manner as initial financing statements and may use only forms prescribed by the Secretary of State's Office. They are indexed by debtor name and will be revealed, on request, by searches under Sections 504 and 505. (3-20-20)T

- a. Where to File. Seed and farm labor liens are filed with the filing office. (3-20-20)T

- b. Fee. (3-20-20)T

- i. Four dollars (\$4), if typed; (3-20-20)T

- ii. Eight dollars (\$8), if handwritten. (3-20-20)T

- c. Duration. (3-20-20)T

- i. Farm labor liens remain in effect for twelve (12) months after filing and may be extended for six (6) months. (3-20-20)T

- ii. Seed liens remain in effect for sixteen (16) months and may be extended for six (6) months. (3-20-20)T

- 02. Mechanics of Search.** (3-20-20)T

- a. Fee for Search. (3-20-20)T

- i. Six dollars (\$6) for information only; (3-20-20)T

- ii. Twelve dollars (\$12) for information and copies. (3-20-20)T

- b. Combination Search Available with UCC Search: (3-20-20)T

- i. Ten dollars (\$10) for information; (3-20-20)T

- ii. Sixteen dollars (\$16) for information and copies. (3-20-20)T

**605. AGRICULTURE COMMODITY LIENS.**

**01. Mechanics of Filing.** Agricultural commodity liens pursuant to Chapter 18, Title 45, Idaho Code are filed in the same manner as initial financing statements and may use only forms prescribed by the Secretary of State's Office. These types of liens are indexed by debtor name and will be revealed, on request, by searches under Sections 504 and 505. (3-20-20)T

- a. Fee. Five dollars (\$5). (3-20-20)T

- b. Duration. Ninety (90) days. (3-20-20)T

- 02. Mechanics of Search.** Fee for search: (3-20-20)T

- a. Five dollars (\$5), if combined with other searches; (3-20-20)T

- b. Ten dollars (\$10) for information; (3-20-20)T

- c. Sixteen dollars (\$16) for information and copies. (3-20-20)T

**606. FARM PRODUCT LIENS.**

**01. Mechanics of Filing.** (3-20-20)T

**a.** Pursuant to Section 28-9-526, Idaho Code, farm product liens are filed in the same manner as initial financial statements and may use only forms prescribed by the Secretary of State's Office. They are indexed by debtor name and will be revealed, on request, by searches under Sections 504 and 505. (3-20-20)T

**b.** Where to File. Farm product liens are filed with the filing office. (3-20-20)T

**c.** Fee. (3-20-20)T

**i.** Ten dollars (\$10), if typed; (3-20-20)T

**ii.** Fourteen dollars (\$14), if handwritten; (3-20-20)T

**iii.** For attachments, it is an additional one dollar (\$1) per printer page. (3-20-20)T

**d.** Duration. Farm product liens remain in effect for five (5) years and may be extended to five (5) years if continuation is received six (6) months prior to lapse. (3-20-20)T

**02. Mechanics of Search.** (3-20-20)T

**a.** Fee for Search: (3-20-20)T

**i.** Six dollars (\$6) for information only; (3-20-20)T

**ii.** Twelve dollars (\$12) for information and copies. (3-20-20)T

**b.** Combination Search Available with UCC Search: (3-20-20)T

**i.** Ten dollars (\$10) for information; (3-20-20)T

**ii.** Sixteen dollars (\$16) for information and copies. (3-20-20)T

## IDAPA 36 – IDAHO STATE BOARD OF TAX APPEALS

DOCKET NO. 36-0101-2000F (FEE RULE)

### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 63-3808, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 36:

#### **IDAPA 36**

- 36.01.01, *Idaho Board of Tax Appeals Rules*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee or charge being imposed is justified and necessary to avoid immediate danger and the fee is described herein:

The fee or charge, authorized in Section 63-3808, Idaho Code, is part of the agency's 2021 budget that relies upon the existence of this fee or charge to meet the state's obligations and to provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges: This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The Board of Tax Appeals operates with one fee rule, Board Rule 151.03. The rule provides a ten-dollar (\$10) cost, to a non-party, for providing a certified copy of a hearing recording.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Steve Wallace at 208-334-3354.

DATED this February 14, 2020.

Steve Wallace, Director  
Idaho Board of Tax Appeals  
1673 W. Shoreline Drive, Suite 120, Boise, ID 83702  
P.O. Box 36, Boise, ID 83720-0088  
Phone: (208) 334-3354  
Fax: (208) 334-4060

# IDAPA 36 – IDAHO STATE BOARD OF TAX APPEALS

## 36.01.01 – IDAHO BOARD OF TAX APPEALS RULES

### 000. LEGAL AUTHORITY (RULE 0).

These rules are promulgated in accordance with Section 63-3808, Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE (RULE 1).

01. **Title.** These rules are titled IDAPA 36.01.01, “Idaho Board of Tax Appeals Rules.” (3-20-20)T

02. **Scope.** These rules govern procedures before the Idaho Board of Tax Appeals (hereinafter “Board”). (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. DEFINITIONS (RULE 10).

As used in this chapter: (3-20-20)T

01. **Appellant.** A party filing an appeal with the Board. (3-20-20)T

02. **Board.** The Idaho Board of Tax Appeals, board members, presiding officer, or hearing officer as the context may dictate whenever it occurs in this chapter. (3-20-20)T

03. **Case File.** The official record maintained by the Board regarding an appeal. (3-20-20)T

04. **Comparable Sales.** Recently sold properties that are similar in locational and physical characteristics to the property being appraised. “Recently sold property” is property with a sale date prior to the effective date of valuation. (3-20-20)T

05. **De Novo.** The Board decides questions of fact and of law based on the evidence and legal arguments presented before the Board. A de novo review means the parties must present anew any previously submitted evidence or argument they wish to have considered. New evidence and argument may also be presented. (3-20-20)T

06. **Ex Parte.** A communication on behalf of one (1) party with the Board where the other side is not present or included. (3-20-20)T

07. **Parcel.** Each separate property ownership as represented by the county assessment rolls. (3-20-20)T

08. **Party.** A person or governmental subdivision or agency authorized to appear before the Board. (3-20-20)T

09. **Presiding Officer or Hearing Officer.** A member of the Board or other person assigned to conduct a conference or hearing for the Board. (3-20-20)T

10. **Respondent.** A party answering or otherwise responding to an appeal. (3-20-20)T

11. **Subject Property.** The property under discussion. (3-20-20)T

12. **Substantive Issue.** An issue where a right, interest or privilege of any party is involved that may be prejudiced as opposed to minor or mere procedural matter. (3-20-20)T

### 011. ABBREVIATIONS (RULE 11).

01. **BTA.** Idaho Board of Tax Appeals. (3-20-20)T

02. **BOE.** County Board of Equalization. (3-20-20)T

03. **STC.** Idaho State Tax Commission. (3-20-20)T

**012. ORGANIZATION (RULE 12).**

The Chairman of the Board serves as the administrative officer. (3-20-20)T

**01. Election.** The Chairman will be elected annually by the board members in consideration of experience with the Board and the member's availability to serve and support the Board's administrative duties. (3-20-20)T

**02. Power.** The Chairman will oversee the issuance of acknowledgment letters and notices, and is authorized to perform all other procedural duties such as issuing orders on nonsubstantive rulings without a formal meeting of the Board. (3-20-20)T

**013. -- 019. (RESERVED)**

**020. PROCEDURE GOVERNED (RULE 20).**

**01. Procedure.** These rules govern all practice and procedure before the Board. Except as provided in Rules 800 through 860, these rules are affirmatively promulgated to supersede IDAPA 04.11.01, et seq., "Idaho Rules of Administrative Procedure of the Attorney General". (3-20-20)T

**02. Purpose.** The purpose for the establishment of the Idaho Board of Tax Appeals is to provide a fully independent, fair, and less expensive opportunity for taxpayers and other parties to appeal from most tax related decisions of county boards of equalization and the State Tax Commission. (3-20-20)T

**021. LIBERAL CONSTRUCTION (RULE 21).**

These rules will be liberally construed to secure just, speedy, and economical determination of all issues presented to the Board. (3-20-20)T

**022. -- 029. (RESERVED)**

**030. REPRESENTATION AND PRACTICE BEFORE THE BOARD (RULE 30).**

To the extent authorized by law the right to appear and practice before the Board is limited as follows: (3-20-20)T

**01. Natural Persons.** A natural person may represent himself or herself or be represented by an attorney. (3-20-20)T

**02. Corporations.** Duly authorized directors or officers of corporations representing the corporations for which they are, respectively, directors or officers; (3-20-20)T

**03. Limited Liability Company (LLC).** A duly authorized member, or a manager of a manager-managed LLC, representing the LLC for which they are, respectively, a member or manager; (3-20-20)T

**04. Partnerships, Joint Ventures and Trusts.** Duly authorized partners, joint venturers, or trustees representing their respective partnerships, joint ventures or trusts; (3-20-20)T

**05. Authorized Attorneys.** Attorneys duly authorized and qualified to practice in the courts of the state of Idaho; (3-20-20)T

**06. Public Officers.** Public officers or designated representatives when representing the governmental agency; (3-20-20)T

**031. INITIAL PLEADING -- LISTING OF REPRESENTATIVES (RULE 31).**

The initial pleading of each party must name the party's qualified representative for service of documents and include the representative's address for receiving documents. Service of documents on the named representative is valid service upon the party. If no person is explicitly named as representative, the person signing the initial pleading will be considered the representative. (3-20-20)T

**032. SUBSTITUTION OF REPRESENTATIVE (RULE 32).**

A party's representative may be changed by notice to the Board and to all other parties when the proceedings are not unreasonably delayed. The presiding officer may permit substitution of a representative at hearing. (3-20-20)T

**033. PARTICIPATION BY TAXING AUTHORITY (RULE 33).**

In proceedings where a taxing authority may participate, or in any instance where a report or recommendation of the taxing authority may be considered in reaching a decision, at the timely request of a party or upon the Board's motion, an informed representative of the taxing authority shall appear at hearing and be available for examination. When such a representative is summoned, the taxing authority may further participate in the hearing as a party. (3-20-20)T

**034. (RESERVED)**

**035. CONDUCT (RULE 35).**

A party, representative or witness shall conduct themselves in all Board proceedings in an ethical, respectful, and courteous manner. (3-20-20)T

**036. ENFORCEMENT (RULE 36).**

The Board and each party to an appeal are responsible for the efficient, just, and speedy conduct of the formal hearing and other proceedings before the Board. Board members or the assigned hearing officer may impose sanctions on a party for delays, the failure to comply with a subpoena or discovery order, for discovery procedure abuses, and for any other matter regarding conduct of the appeal. Board sanctions include, but are not limited to, dismissal of an appeal or the granting of default judgment. (3-20-20)T

**037. EX PARTE COMMUNICATIONS (RULE 37).**

**01. Prohibited Ex Parte.** Unless permitted by law, the Board shall not communicate regarding any substantive issue with any party, except upon notice and opportunity for all parties to participate in the communication. (3-20-20)T

**02. Permitted Ex Parte.** The Board may communicate ex parte with a party concerning a procedural or administrative matter. (3-20-20)T

**038. -- 044. (RESERVED)**

**045. NOTICE OF APPEAL: CONTENTS (RULE 45).**

**01. Basic Contents.** An appeal must be in writing and contain clear and concise statements of the matters that lay foundation for the relief claim that may be granted by the Board. (3-20-20)T

**02. Additional Contents.** The appeal shall further contain: (3-20-20)T

**a.** Appellant's full name, mailing address and telephone number; (3-20-20)T

**b.** The tax year(s) associated with the appeal; and (3-20-20)T

**c.** A signed statement by a natural person/appellant or by a qualified representative that the notice of appeal contents are correct. (3-20-20)T

**03. Appeal Filed by an Attorney or Representative.** An appeal filed by a qualified representative shall contain: (3-20-20)T

**a.** The representative's name, official title, mailing and street addresses, telephone number; and (3-20-20)T

**b.** If the representative is an attorney, the Idaho State Bar License number. (3-20-20)T

**04. Change in Address or Phone Number.** A party or representative must provide written notice to the Board and other parties of any change in contact information. (3-20-20)T

**046. NOTICE OF APPEAL: BOE APPEALS (RULE 46).**

**01. Separate Notice.** Each parcel assessment appealed must use a separate Board Appeal Form or separate notice of appeal. (3-20-20)T

**02. BOE Appeal.** An appeal brought under Section 63-511, Idaho Code, the notice of appeal shall contain: (3-20-20)T

**a.** A legal description of the property relating to the appeal; (3-20-20)T

**b.** A copy of the county board of equalization's final decision, and when available, the decision's postmarked mailing envelope or any accompanying certificate of service; (3-20-20)T

**c.** For a valuation appeal, a clear declaration of the alleged market value for the subject property. For a property tax exemption claim, the Idaho Code section(s) associated with the claim and a summary of the factual basis supporting why exempt status should be granted or denied; and (3-20-20)T

**d.** A copy of the final tax assessment notice for the assessment appealed. (3-20-20)T

**03. Filing Place.** A BOE appeal must be filed with the county auditor in the county in which the property assessment originated. (3-20-20)T

**047. NOTICE OF APPEAL: STC APPEALS (RULE 47).**

An appeal brought under Section 63-3049 or 63-707, Idaho Code, shall contain: (3-20-20)T

**01. Attachment.** A copy of the written decision being appealed; (3-20-20)T

**02. Objections.** A list of objections to the STC's decision and the basis for said objections; (3-20-20)T

**03. Amount in Dispute.** A statement of the amount in dispute for each applicable tax year or period; and (3-20-20)T

**04. Security Deposit.** When applicable, proof of compliance with the deposit requirements in Section 63-3049(b), Idaho Code, in the form of a receipt or documented acknowledgment from the STC. (3-20-20)T

**048. ACKNOWLEDGMENT (RULE 48).**

**01. Acknowledgment Letter.** An acknowledgment letter will be mailed within fourteen (14) days of the receipt of an appeal in the Board's office. The Board may acknowledge multiple appeals by the same party with a single letter. Such acknowledgment does not constitute a formal consolidation of the appeals. (3-20-20)T

**02. Defective Appeal.** If an appeal is found to be materially defective, untimely, or not substantially in compliance with the requirements of this chapter the Board may dismiss such appeal. (3-20-20)T

**049. (RESERVED)**

**050. ANSWER TO APPEAL (RULE 50).**

A respondent or intervenor may file with the Board an answer to a notice of appeal. The answer shall be filed at least fifteen (15) days prior to hearing. (3-20-20)T

**051. (RESERVED)**

**052. COUNTY AUDITOR REQUIREMENT (RULE 52).**

**01. Contents.** Upon receiving a notice of appeal to the Board under Section 63-511, Idaho Code, the county auditor shall transmit to the Board: (3-20-20)T

**a.** A copy of the notice of appeal including the date of receipt, and if received by mail, a copy of the mailing envelope; (3-20-20)T

**b.** The exhibits or other evidence considered by the BOE; (3-20-20)T

**c.** A copy of the initial appeal to the BOE; (3-20-20)T

**d.** A copy of any decision made or action taken by the BOE together with the mailing date of the notice of decision or other proof of service; (3-20-20)T

**e.** A copy of the certified minutes for related BOE proceedings, or a verbatim record provided on its own distinct storage device; and (3-20-20)T

**f.** When applicable, a certificate that the BOE failed to act on the appeal in the time required. (3-20-20)T

**02. Minutes.** The minutes should include at a minimum: (3-20-20)T

**a.** The full name of persons appearing before the BOE in the appeal; (3-20-20)T

**b.** Clear identification of the parcel number associated with the assessment appealed; and (3-20-20)T

**c.** The decision made by the BOE specifying the value determined or exempt status decided for each parcel. (3-20-20)T

**053. -- 054. (RESERVED)**

**055. CONSOLIDATION (RULE 55).**

Whenever two (2) or more ad valorem cases from the same county or different counties involve the same or substantially similar issues and the same or similar property, or where the same or similar issues exist in other tax type cases, the Board may issue a written or verbal order consolidating the cases. There shall be no consolidation of cases where the rights of any party would be prejudiced. Parties may also request a consolidation. Prior to issuing a consolidation order, the Board will consider whether the parcels are contiguous, any response given to a consolidation request, and any other matters deemed appropriate in judging whether consolidation would likely be beneficial. (3-20-20)T

**056. -- 059. (RESERVED)**

**060. FORM OF PLEADINGS (RULE 60).**

**01. Form.** Pleadings, except those filed on Board forms, submitted by a party and intended to be part of the record should be double-spaced: (3-20-20)T

**a.** State the title of the pleading and the appeal number at the top of the cover page; (3-20-20)T

**b.** Include the name, mailing and street address, and if available, the telephone and FAX number of the person filing the document; and (3-20-20)T

**c.** Be signed by a qualified representative. (3-20-20)T

**061. SERVICE OF DOCUMENTS (RULE 61).**

**01. Service.** A notice, motion, brief, or other document submitted to the Board will be served upon all other parties' representatives of record. Service by regular mail is adequate service. A Board notice, order, or final

decision is served upon a party's representative of record. The Board may direct documents be served on persons who are not parties. (3-20-20)T

**02. Proof of Service.** Every document filed with the Board must be accompanied by a certificate of service. The following is an example:

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that on this \_\_\_\_\_ day of \_\_\_\_\_, 20XX I caused to be served a true copy of the foregoing attached document by the method indicated below and addressed to each of the following:

(representative's name)	_____	U.S. Mail, Postage Prepaid
(mailing address)	_____	Hand Delivered
	_____	Overnight Mail
	_____	Certified Mail
(Signature)	_____	
(printed name of person signing)	_____	

(3-20-20)T

**062. DEFECTIVE, INSUFFICIENT OR LATE PLEADING (RULE 62).**

A defective, insufficient, or untimely pleading may be returned, denied, or dismissed.

(3-20-20)T

**063. AMENDMENTS TO PLEADINGS -- WITHDRAWAL OF PLEADINGS (RULE 63).**

The presiding officer may allow any pleading to be amended or corrected or any omission to be supplied. Pleadings will be liberally construed, and defects that do not affect substantial rights of the parties will be disregarded. A party desiring to withdraw an appeal should file a notice of withdrawal and serve all parties with a copy. (3-20-20)T

**064. (RESERVED)**

**065. COMPUTATION OF TIME (RULE 65).**

In computing any period of time prescribed or allowed by these rules or by any applicable statute, the day of the act, event or default from which the designated period begins to run shall not be included. The last day of the period so computed shall be included in the count unless it is a weekend or legal holiday, in which event the period runs until the end of the next business day. (3-20-20)T

**066. FILING (RULE 66).**

**01. Document Filing Place.** A document filed with the Board shall be filed at the Board's mailing address or street address. (3-20-20)T

**02. Number of Copies.** Unless otherwise indicated by the Board, one (1) copy shall be filed. (3-20-20)T

**03. Fax Filing.** A filing by facsimile (fax) transmission is permitted for a notice of withdrawal or settlement, and for a notice or motion requiring an immediate response by the Board. Except for a notice of withdrawal, an original must be mailed to the Board and served on all other parties the same day. (3-20-20)T

**a.** The transmission must be legible and received in its entirety during office hours for it to be considered filed on the transmission date. (3-20-20)T

b. When making a filing by fax, if another party to the case is equipped with fax facilities, the service on that party should include fax service. (3-20-20)T

c. The originating party shall assume the risk in fax filing and retain proof of filing by fax. (3-20-20)T

**067. -- 069. (RESERVED)**

**070. PREHEARING CONFERENCE (RULE 70).**

**01. Subject of Conference.** The Board may direct parties to appear before it to consider: (3-20-20)T

a. Any and all matters that can be agreed upon. (3-20-20)T

b. Formulating or simplifying the issues. (3-20-20)T

c. Stipulations which will avoid unnecessary proof. (3-20-20)T

d. Preliminary motions to be made prior to the hearing. (3-20-20)T

e. Requiring respondent and appellant to furnish to each other and the Board a list of all witnesses to be called by the parties at the hearing. (3-20-20)T

f. The limitation of the number of expert or lay witnesses and the disclosure of the identity of persons having knowledge of relevant facts and who may be called as a witness. (3-20-20)T

g. The scheduling of discovery, hearings, or other time sensitive matters. (3-20-20)T

h. Discussing settlement. (3-20-20)T

i. Fair hearing procedures. (3-20-20)T

j. Such other matters that may expedite orderly and speedy conduct as will aid in the disposition of the controversy. (3-20-20)T

**02. Notice of Prehearing Conference.** Notice of the place, date and hour of a prehearing conference will be served at least fourteen (14) days before the time set for the conference, unless the presiding officer finds it necessary or appropriate for the conference to be held earlier. Notices for prehearing conference contain the same information as notices of hearing regarding the Board's obligations under the American with Disabilities Act. (3-20-20)T

**03. Failure to Appear.** Failure of either party to appear at the time and place appointed by the Board under Rule 70 may result in a dismissal of the appeal or the granting of said appeal. (3-20-20)T

**04. Prehearing Order.** The Board or its designate may prepare or require the preparation of an order reciting the findings and action taken at such conference. A prehearing order will control the course of subsequent proceedings unless modified by the Board for good cause. (3-20-20)T

**05. Determination Upon Results of Conference.** If, after the prehearing conference provided for in Rule 70, and after appropriate notice to the parties, the Board determines that there is sufficient evidence and stipulation upon which it can make a decision, it may determine the appeal without conducting a hearing. (3-20-20)T

**071. (RESERVED)**

**072. MOTIONS (RULE 72).**

- 01. Form and Contents.** A motion should: (3-20-20)T
- a.** Fully state the facts upon which it is based; (3-20-20)T
  - b.** Refer to the particular provision of statute, rule, order, notice, or other controlling law upon which it is based; and (3-20-20)T
  - c.** State the relief sought. (3-20-20)T
- 02. Oral Argument.** If the moving party desires oral argument on the motion it must state so in the motion. (3-20-20)T
- 03. Prehearing Motions.** Unless otherwise provided in these rules, a prehearing motion must be filed at least fifteen (15) days prior to a scheduled hearing to be considered by the Board. (3-20-20)T
- 04. Answer to Motion.** An answer to a motion, or a request for additional time to respond, may be filed within ten (10) days after the filing of the motion. (3-20-20)T
- 073. (RESERVED)**
- 074. BRIEFS (RULE 74).**  
The Board may order briefs from the parties prior to the hearing of the evidence or after said hearing. (3-20-20)T
- 075. DISCOVERY (RULE 75).**
- 01. Written Permission.** A party to a pending appeal may engage in discovery limited to a single discovery request upon the written order of the Board. The following procedures govern discovery: (3-20-20)T
- a.** The request for discovery must be filed within twenty (20) days of the mailing date of the Board's appeal acknowledgment letter. (3-20-20)T
  - b.** The request should contain a statement covering the reasons the discovery is useful to the preparation of the appeal. (3-20-20)T
  - c.** The request must include a complete copy of the discovery request. (3-20-20)T
  - d.** Discovery must be completed at least ten (10) days prior to the scheduled hearing, unless otherwise ordered by the Board. (3-20-20)T
  - e.** The Board may deny a discovery request that does not comply with the requirements of this chapter. (3-20-20)T
  - f.** Discovery responses shall be served simultaneously on all other parties. At the same time, the responding party shall file with the Board a notice stating when and on whom the response was served. The actual contents of discovery responses will not be filed with the Board unless the order so directs. Discovery responses shall be signed by a qualified representative, and in the instance of interrogatory answers, the response shall also be signed by the person answering. Such signatures constitute a certification that the signer has reviewed the responses or answers and attests to their completeness and accuracy. (3-20-20)T
  - g.** The discovery order may provide that voluminous answers need not be served so long as the documents are made available for inspection and copying under reasonable terms. (3-20-20)T
- 02. Scope and Method of Discovery: BOE Appeals.** The method of discovery is limited to production requests and written interrogatories. The scope of discovery must pertain to the subject property, comparable sale, or a comparable rental. (3-20-20)T
- a.** The scope of discovery also includes: (3-20-20)T

i. Information or records concerning an appraisal, assessment, financial statement or related schedule, a completed study or report, and contracts including a sale agreement; (3-20-20)T

ii. The identity of individuals who will be called to testify as witnesses and a summary of their expected testimony; and (3-20-20)T

iii. For an exemption appeal, information or documents relating to the claimed exemption. (3-20-20)T

b. In a valuation case the request for production of documents or written interrogatories is limited to information from the last three (3) years preceding the assessment date unless otherwise specified by the Board. (3-20-20)T

c. The request for production of documents shall specifically identify each document requested. The request for inspection of land or other property shall be in accordance with the Idaho Rules of Civil Procedure. (3-20-20)T

d. The Board may limit or expand the above scope and method of discovery when it deems such action is appropriate. (3-20-20)T

**03. Scope and Method of Discovery: STC Appeals.** (3-20-20)T

a. Production requests, requests for admissions and written interrogatories are permissible methods of discovery. The Board may limit the scope and method of discovery when it deems such action appropriate. (3-20-20)T

b. A deposition may be taken when allowed by the Board. (3-20-20)T

**04. Supplementation of Response.** The party responding to a discovery order is under a continuing duty to promptly supplement an earlier response upon the availability of new information. (3-20-20)T

**05. Special Case.** The Board may order additional or reciprocal discovery not provided by this rule. (3-20-20)T

**06. Sanctions.** Failure to substantially comply with Board ordered discovery in a good faith attempt at full compliance, may result in one or more sanctions up to and including a dismissal or default judgment of the appeals. (3-20-20)T

**076. -- 084. (RESERVED)**

**085. INTERVENTION (RULE 85).**

**01. Intervention of Right.** Upon written application received fifteen (15) days prior to the hearing of an appeal, anyone shall be permitted to intervene in an appeal when: (3-20-20)T

a. The applicant demonstrates in writing an interest relating to the property or transaction which is the subject of the action that is not adequately represented by existing parties; and (3-20-20)T

b. The Idaho State Tax Commission may intervene as a matter of right. (3-20-20)T

**02. Permissive Intervention.** Upon written application received at least fifteen (15) days prior to the hearing of an appeal a person may be permitted to intervene: (3-20-20)T

a. In an appeal brought under Section 63-511, Idaho Code, when an applicant can show in writing that he is a person aggrieved by the BOE decision; (3-20-20)T

b. When an applicant's claim or defense and the main action have a question of law or fact in

common; or (3-20-20)T

**c.** When a party to an action relies for ground of claim or defense upon any statute or executive order administered by a federal or a state governmental officer or agency or upon any regulation, order, requirement or agreement issued or made pursuant to the statute or executive order, the officer or agency may be permitted to intervene in the action. (3-20-20)T

**d.** The Board may deny or conditionally grant a petition to intervene for untimely filing that fails to state good cause for the late filing, to prevent disruption or undue delay, due to prejudice to existing parties or undue broadening of the issues, or for other reasons. An intervener who does not file a timely petition is bound by orders and notices earlier entered as a condition of granting the untimely petition. (3-20-20)T

**086. -- 099. (RESERVED)**

**100. FAIR HEARING (RULE 100).**

**01. Hearing Opportunity.** All parties shall be afforded an opportunity for a fair hearing to present evidence and argument. (3-20-20)T

**02. Purpose of Hearing.** The Board's goal in conducting hearings is the acquisition of sufficient, accurate evidence to support a fair and just determination of the issues on appeal. (3-20-20)T

**03. Notice of Hearing -- Mailing.** A notice of hearing shall be mailed at least twenty (20) days before the date set for hearing. (3-20-20)T

**04. Setting of Hearing.** The Board will schedule a reasonably convenient time and place where each party may appear and offer evidence and argument in support of their position. (3-20-20)T

**05. Telephonic Hearing.** The Board may conduct a telephonic hearing wherein each participant has an opportunity to participate in the entire hearing. (3-20-20)T

**06. Notice of Hearing -- Contents.** The notice of hearing shall include: (3-20-20)T

**a.** A statement of the place, date, and time of the hearing; (3-20-20)T

**b.** A statement of the legal authority under which the hearing is to be held; (3-20-20)T

**c.** A reference to the sections of statute or rule concerning the conduct of the hearing; (3-20-20)T

**d.** The name of the hearing officer who is scheduled to conduct the hearing; and (3-20-20)T

**e.** A short and simple statement of the matters asserted or the issues involved. (3-20-20)T

**07. Conference or Recess.** The presiding officer may convene the parties before hearing or recess the hearing to discuss formulation of issues, admissions of fact or identification of documents to avoid unnecessary proof, exchange of documents, exhibits or prepared testimony, limitation of witnesses, establishment of order of procedure, and other matters that may expedite an orderly hearing. (3-20-20)T

**101. FAILURE TO APPEAR (RULE 101).**

**01. Default or Dismissal.** Failure of either party to appear at the time and place appointed by the Board may result in a dismissal of that appeal or of the granting of the appeal. (3-20-20)T

**02. Waiver of Appearance.** Upon written stipulation of parties that no facts are at issue, an appeal may be submitted to the Board without oral argument. However, the Board may require appearance for argument or presentation of evidence. (3-20-20)T

**102. WITHDRAWAL (RULE 102).**

An appellant may withdraw the notice of appeal in writing, by electronic filing, or on the record at hearing. (3-20-20)T

**103. -- 104. (RESERVED)**

**105. INFORMAL DISPOSITION -- SETTLEMENT (RULE 105).**

Any appeal may be dismissed by the Board by stipulation, agreed settlement, consent order, or default. For good cause shown and upon written motion made within ten (10) days of entry of a Board order, the Board may set aside such order. (3-20-20)T

**01. Formalizing Agreements.** An agreement by the parties may be put on the record or may be reduced to writing and filed with the Board. (3-20-20)T

**02. Confidentiality.** Settlement negotiations in a contested case are confidential, unless all participants to the negotiation agree to the contrary in writing. Facts disclosed, offers made and all other aspects of negotiation (except agreements reached) in settlement negotiations are not part of the record. (3-20-20)T

**03. Consideration of Settlement.** The Board may convene an evidentiary hearing to consider the reasonableness of the settlement and whether acceptance of the settlement is consistent with the Board's charge under the law. (3-20-20)T

**04. Burden of Proof.** Proponents of a proposed settlement carry the burden of showing that the settlement is in accordance with the law. (3-20-20)T

**106. PRESIDING OFFICER (RULE 106).**

Any member of the Board or assigned hearing officer may preside at the hearing and shall have power to: (3-20-20)T

**01. Oath or Affirmation.** Administer oaths or affirmations, call a party or other person present at hearing as a witness, examine witnesses and receive evidence; (3-20-20)T

**02. Hearing.** Regulate the course of the hearing and maintain an orderly proceeding; (3-20-20)T

**03. Motions.** Dispose of procedural requests, motions or similar matters; (3-20-20)T

**04. Certification by Board.** Make decisions or proposals for decisions subject to certification by a majority of the Board; (3-20-20)T

**05. Official Record.** Develop a full and accurate record and certify the record of said appeal on behalf of the Board; and (3-20-20)T

**06. Other Action.** Take any other appropriate action reasonable under the circumstances. (3-20-20)T

**107. PROCEDURE AND TESTIMONY (RULE 107).**

**01. Preliminary Procedure.** The presiding officer shall call the proceeding for hearing and proceed to take the appearances and act upon any pending motion. Parties may then make opening statements. (3-20-20)T

**02. Testimony.** All testimony, except matters noticed officially or entered by stipulation at hearings or prehearing conference, shall be taken only on oath or affirmation. (3-20-20)T

**03. Order of Procedure.** The appellant shall present first with the respondent and any intervenor then presenting. Parties may then make closing statements. The presiding officer may require the submission of briefs in addition to, or in lieu of, closing arguments. A maximum of two (2) weeks is normally allowed to submit these briefs. The presiding officer may prescribe a different procedure than herein provided. (3-20-20)T

**04. Presentation of Evidence.** Evidence may be presented in the following order: (3-20-20)T

- a. Evidence is presented by appellant. (3-20-20)T
- b. Evidence is presented by any intervening or opposing party. (3-20-20)T
- c. Rebuttal evidence is presented by appellant. (3-20-20)T
- d. Surrebuttal evidence is presented by any intervening or opposing party. (3-20-20)T
- 05. Examination of Witness.** Regarding any witness who testifies, the following examination may be conducted: (3-20-20)T
  - a. Direct examination by the party who called the witness. (3-20-20)T
  - b. Cross-examination by any intervening or opposing party. (3-20-20)T
  - c. Redirect examination by the party who called the witness. (3-20-20)T
  - d. Recross-examination by any intervening or opposing party. (3-20-20)T
  - e. Examination by the presiding officer. (3-20-20)T

**108. -- 109. (RESERVED)**

**110. STIPULATIONS (RULE 110).**

With the approval of the presiding officer the parties may stipulate as to any fact at issue. The stipulation may be filed, or offered through an exhibit or by oral statement shown upon the hearing record. Any such stipulation shall be binding upon all parties so stipulating and may be regarded by the Board as evidence. The Board, however, may require evidence of the facts stipulated, notwithstanding the stipulation. (3-20-20)T

**111. CONTINUANCE (RULE 111).**

**01. Continuances.** A continuance may be ordered by the Board upon filing of a timely and written motion containing the stipulated agreement and signature of all parties. Timely means at least fifteen (15) days prior to a noticed hearing date. The motion shall show a detailed good cause and contain the specific time extension requested. (3-20-20)T

**02. Consideration.** Continuances are disfavored by the Board. The Board may grant a single continuance only when unusual and highly pressing circumstances are present. In no instance shall an extension cause a delay in proceedings for more than three (3) months. In no instance may a second continuance be granted. (3-20-20)T

**112. -- 114. (RESERVED)**

**115. OFFICIAL NOTICE (RULE 115).**

The Board may take official notice of judicially cognizable facts. In addition, the Board may take notice of general, technical, financial, or scientific facts within the Board's specialized knowledge. Parties shall be notified either before or during the hearing of the material noticed. Parties shall be given a reasonable opportunity to object, review, examine, and rebut or contest the information sought to be noticed. (3-20-20)T

**116. OPEN HEARINGS AND CLOSED DELIBERATIONS (RULE 116).**

**01. Public Hearings.** Hearings conducted by the Board are open to the public except where confidential evidence is being taken under a protective order. (3-20-20)T

**02. Closed Deliberations.** The Board may recess to closed deliberations for the limited purpose of deciding the matter before it. (3-20-20)T

**117. RULES OF EVIDENCE (RULE 117).**

**01. Evidence, Admissibility and Evaluation.** Evidence should be taken by the Board to assist the parties' development of the record. The presiding officer is not bound by the Idaho Rules of Evidence. No informality in any proceeding or in the manner of taking testimony invalidates evidence. The presiding officer may exclude evidence that is irrelevant, immaterial, unduly repetitious, or inadmissible on constitutional or statutory grounds, or on the basis of any privilege recognized in Idaho. All other evidence may be admitted if it is of a type commonly relied upon by prudent persons in the conduct of serious affairs. When proceedings will be expedited and the parties' interests not substantially prejudiced, evidence may be received in written form. The Board's experience, technical competence and specialized knowledge may be used in the evaluation of evidence. (3-20-20)T

**02. Documentary Evidence.** Upon request, parties shall be given an opportunity to compare the copy with the whole of the original document. Filing of a document does not signify its receipt in evidence, and only those documents which have been received in evidence shall be considered as evidence in the official record of the case. (3-20-20)T

**03. Prepared Testimony.** The presiding officer may order a witness's prepared testimony previously distributed to all parties be included in the record of hearing as if read. Admissibility of prepared testimony is subject to the standards expressed in this rule. (3-20-20)T

**04. Objections.** Where objections are made to the admission or exclusion of evidence, the grounds relied upon shall be stated briefly at the time of objection and before the start of closing statements. (3-20-20)T

**05. Evidentiary Rulings.** The presiding officer shall rule on the admissibility of all evidence and may grant exceptions to the requirements of this rule in the interest of justice. Such rulings may be reviewed by the Board. An evidence ruling may be deferred to the entire Board by the presiding officer or taken under advisement. The presiding officer may receive evidence subject to a motion to strike at the conclusion of the hearing. (3-20-20)T

**06. Offer of Proof.** An Offer of Proof for the record consists of a statement of the substance of the evidence to which objection has been sustained. Where the presiding officer rules evidence inadmissible, the party seeking to introduce such evidence makes an Offer of Proof to have such evidence considered by the Board. (3-20-20)T

**07. Failure to Produce Evidence -- Adverse Inference.** The Board may draw an adverse inference when a party or witness fails to produce requested evidence which is reasonably in the party or witness's control. (3-20-20)T

**08. Post-Hearing Evidence.** Unless allowed by the presiding officer, no post-hearing evidence will be accepted. (3-20-20)T

**118. EXHIBIT (RULE 118).**

**01. Custody.** The Board shall keep all original exhibits unless otherwise provided by law. (3-20-20)T

**02. Marking.** Exhibits will be marked to indicate the sponsoring and offering party. (3-20-20)T

**03. Form.** An exhibit prepared for hearing should be typed or printed on eight and one-half inch (8 1/2") by eleven inch (11") white paper, except a map, chart, photograph or non-documentary exhibit may be introduced on the size or kind of medium customarily used for them. (3-20-20)T

**04. Copies.** A copy of each documentary exhibit must be furnished to each party present and to the presiding officer, except for unusually bulky or voluminous exhibits that have previously been made available for the parties' inspection. Copies must be of good quality. (3-20-20)T

**05. Objection.** An exhibit identified at hearing is subject to appropriate and timely objection before the start of closing statements. A presented exhibit to which no objection is made is automatically admitted into evidence

without motion.

(3-20-20)T

**119. -- 124. (RESERVED)**

**125. CONFIDENTIALITY -- PROTECTIVE ORDERS (RULE 125).**

The decisions and official records in appeals before the Board are public records and are subject to disclosure unless otherwise provided by Title 74, Chapter 1, Idaho Code, or when a protective order, consistent with Title 74, Chapter 1, Idaho Code, is issued. A party may file a motion for a protective order showing good cause why specific information should remain confidential. The motion must include an affidavit as to the truthfulness of the contents. If another party opposes the request, that party must file a written objection within ten (10) days. (3-20-20)T

**126. -- 138. (RESERVED)**

**139. SCOPE OF APPEAL IN AD VALOREM CASE (RULE 139).**

In an appeal brought under Section 63-511, Idaho Code, where the appellant challenges only the value or exempt status upon either the land or the improvements on the land, the Board shall have jurisdiction to determine the value or exempt status over the entire property. The Board shall have the power to increase or decrease the value of property in a market value appeal. If the Board finds that a property classification is in error, it shall determine the correct classification. (3-20-20)T

**140. DECISIONS AND ORDERS (RULE 140).**

**01. Submission for a Decision.** The proceeding will stand submitted for decision after the record is closed by the presiding officer or as otherwise prescribed by the Board. (3-20-20)T

**02. Proposed Orders.** Prior to a final decision on the merits the Board may request proposed findings of fact and conclusions of law from each party. (3-20-20)T

**03. Notice.** Parties' representatives shall be notified by mail of any final decision or order. (3-20-20)T

**04. Decisions.** A decision of the Board will be based on the official record for the case. The Board shall hear and determine appeals as de novo proceedings. Decisions shall contain factual findings and conclusions of law upon which the Board's determination is based. (3-20-20)T

**141. -- 144. (RESERVED)**

**145. RECONSIDERATION -- REHEARING (RULE 145).**

**01. Time for Filing and Service.** A party adversely affected by a final decision may move for reconsideration or rehearing within ten (10) days of the time the decision is mailed. Service on other parties is required. The petitioner must file a supporting brief making a strong showing of good cause why reconsideration or rehearing should be granted. Where the presentation of additional evidence is sought, the motion shall include the reason why such evidence was not presented previously. (3-20-20)T

**02. Consideration.** Reconsideration or rehearing may be granted if, in reaching the decision the Board has overlooked or misconceived some material fact or statement of law; misconceived a material question in the case; found insufficient evidence in the record; or a party is found to have been denied the opportunity for a fair hearing. (3-20-20)T

**03. Answer.** Within ten (10) days after a motion for reconsideration or rehearing is filed, another party may file a response in support of or in opposition to said motion. (3-20-20)T

**04. Disposition.** A motion for reconsideration or rehearing shall be deemed denied if, within thirty (30) days from the date the petition is received by the Board, no response is made by the Board. (3-20-20)T

**146. -- 150. (RESERVED)**

**151. OFFICIAL RECORD (RULE 151).**

- 01. Content.** The record shall include: (3-20-20)T
- a.** All notices of proceedings; (3-20-20)T
  - b.** All appeals, petitions, complaints, protests, motions, and answers filed in the proceeding; (3-20-20)T
  - c.** All intermediate or interlocutory rulings; (3-20-20)T
  - d.** All evidence received; (3-20-20)T
  - e.** All offers of proof, however made; (3-20-20)T
  - f.** All briefs, memoranda, proposed orders of the parties, statements of position or support, and objections, but not discovery responses; (3-20-20)T
  - g.** All evidentiary rulings on testimony, exhibits, or offers of proof; (3-20-20)T
  - h.** All taxing authority data submitted in connection with the consideration of the proceeding; (3-20-20)T
  - i.** A statement of matters officially noticed; (3-20-20)T
  - j.** All preliminary orders, final orders, and orders on reconsideration or rehearing; and (3-20-20)T
  - k.** The recording or transcript specified in Rule 151.02. (3-20-20)T
- 02. Verbatim Record.** The official recording of hearings will be taken by means of a recorder. A party requesting a court reporter shall bear the expense of the reporter's fees. If the reporter's transcript is deemed by the Board to be the official transcript, the party requesting the reporter shall furnish the Board a transcript free of charge. (3-20-20)T
- 03. Cost.** A certified copy of a recording will be provided at the cost of ten dollars (\$10). A party may receive one (1) copy at no charge. (3-20-20)T

**152. -- 154. (RESERVED)**

**155. SUBPOENA (RULE 155).**

- 01. Issuance of Subpoena.** Upon a motion in writing, or upon the Board's own initiative without motion, the Board may issue a subpoena requiring: (3-20-20)T
- a.** The attendance of a witness from any place in Idaho; (3-20-20)T
  - b.** The production of documents from any place in Idaho; or (3-20-20)T
  - c.** The production of any book, paper, document, or tangible thing kept within or without Idaho to any designated place of deposition or hearing for the purpose of taking testimony or examining a document before the Board. (3-20-20)T
- 02. Motion Contents and Timing.** The motion shall be in writing and include a showing of relevance and the reasonable scope of the testimony or specific items sought. The motion for subpoena shall be filed at least fifteen (15) days before the date and time set forth in the subpoena, exceptions may be granted upon a showing of good cause. (3-20-20)T

**03. Service.** Service, and the filing of the proof of such service with the Board, shall be the responsibility of the requesting party. (3-20-20)T

**04. Fees.** A witness summoned pursuant to subpoena shall be paid by the party at whose instance they appear the same fees and mileage allowed by law to a witness in civil cases in the district court. (3-20-20)T

**05. Motion to Quash.** The Board, upon motion to quash may: (3-20-20)T

**a.** Quash or modify the subpoena if it is unreasonable or requires evidence not relevant to any matter in issue; or (3-20-20)T

**b.** Condition denial of the motion upon reasonable conditions. (3-20-20)T

**156. REQUEST FOR TRANSCRIPT (RULE 156).**

The party requesting a written transcript shall make the arrangements for preparation of transcript and payment of the fee directly with the transcriber. (3-20-20)T

**157. -- 999. (RESERVED)**

**IDAPA 37 – IDAHO DEPARTMENT OF WATER RESOURCES  
IDAHO WATER RESOURCE BOARD**

**DOCKET NO. 37-0000-2000F (FEE RULE)**

**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 42-238(12), 42-603, 42-1414, 42-1701A(1), 42-1714, 42-1709, 42-1721, 42-1734(19), 42-1761, 42-1762, 42-1765, 42-1414, 42-1805(8), 42-3803, 42-3913, 42-3914, 42-3915, 42-4001 42-4010, 67-2356, and 67-5206(5), Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapters under IDAPA 37:

**IDAPA 37**

- 37.01.01, *Rules of Procedure of the Idaho Department of Water Resources*
- 37.02.03, *Water Supply Bank Rules*
- 37.03.01, *Adjudication Rules*
- 37.03.02, *Beneficial Use Examination Rules*
- 37.03.03, *Rules and Minimum Standards for the Construction and Use of Injection Wells*
- 37.03.04, *Drilling for Geothermal Resources Rules*
- 37.03.05, *Mine Tailings Impoundment Structures Rules*
- 37.03.06, *Safety of Dams Rules*
- 37.03.07, *Stream Channel Alteration Rules*
- 37.03.08, *Water Appropriation Rules*
- 37.03.09, *Well Construction Standards and Rules*
- 37.03.10, *Well Driller Licensing Rules*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Title 42, Idaho Code, as further specified below, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

IDAPA 37.01.01 establishes the rules of procedure governing contested case proceedings before IDWR and the IWRB. It also addresses filing fees associated with such proceedings. This chapter was adopted under the legal authority of Sections 42-1701A(1), 42-1734(19), 42-1805(8), 67-2356 and 67- 5206(5), Idaho Code.

IDAPA 37.02.03 governs IWRB's operation and management of the water supply bank authorized by statute. The purpose of the water supply bank is to encourage the highest beneficial use of water; provide a source of adequate water supplies to benefit new and supplemental water users; and provide a source of funding for improving water user facilities and efficiencies. It also establishes lease and rental fees that are used to carry out the program which are credited to IWRB's revolving development and water management accounts. This chapter was adopted under the legal authority of Section 42-1762, Idaho Code.

IDAPA 37.03.01 implements the filing of notices of claims to water rights claimed under state law and the collection of fees for filing notices of claims to water rights acquired under state law in general adjudications. Idaho is currently in the midst of the North Idaho Adjudication (NIA) and IDWR has recently commenced the Palouse Basin Adjudication and anticipates commencing the final phase of the NIA—the Clark Fork-Pend Oreille River Basin adjudication—sometime after 2020. The Rule is integral to the processing of these general adjudications. This chapter was adopted under the legal authority of Sections 42-1414, and 42-1805(8), Idaho Code.

IDAPA 37.03.02 governs the examination requirements necessary to consider and determine the extent of application of water to beneficial use accomplished under a water right permit. The Rule also establishes that field examinations can be conducted by certified water right examiners appointed by the Director. Finally, the Rule governs licensing examination fees which are used to offset costs incurred by IDWR in reviewing and determining the extent of beneficial use. This chapter was adopted under the legal authority of Section 42-1805(8), Idaho Code.

IDAPA 37.03.03 governs injection wells in Idaho. The Rule requires all injection wells to be permitted and constructed in accordance with the Well Construction Standards Rules (IDAPA 37.03.09), which protect ground water resources from quality impairment. It is also necessary to maintain this Rule in order for the IWRB to maintain compliance with federal law, under which authority Idaho regulates the permitting, construction, and operation of certain injection wells within the state. Finally, the Rule governs inventory and permit fees which are used to partially fund the operation of the Underground Injection Control program in Idaho. This chapter was adopted under the legal authority of Sections 42-3913, 42-3914, and 42-3915, Idaho Code.

IDAPA 37.03.04 governs the regulation of geothermal resource exploration and development and ensure that such activities occur in the public interest. The Rule allows Idaho's geothermal policy, "to maximize the benefits to the entire state which may be derived from the utilization of our geothermal resources, while minimizing the detriments and costs of all kinds which could result from their utilization" is met. The Rule also requires fees for geothermal exploratory wells, production wells, injection wells, and amendments to permits, as set forth in Idaho Code Sections 42-4003 and 4011.

IDAPA 37.03.05 establishes acceptable construction standards and governs IDWR's design and technical review of mine tailing and water impoundment structures. The Rule also supports the collection of a fee to review plans, drawings, and specifications pertaining to any mine tailings impoundment structure.

IDAPA 37.03.06 establishes acceptable standards for construction of dams and establishes guidelines for safety evaluation of new or existing dams. The Rule applies to all new dams, to existing dams to be enlarged, altered or repaired, and maintenance of certain existing dams, as specifically provided in the Rule. This chapter also establishes the collection of a fee to review plans, drawings, and specifications pertaining to the construction, enlargement, alteration, or repair of small high-risk, intermediate, or large dams. This chapter was adopted pursuant to Section 42-1714, Idaho Code.

IDAPA 37.03.07 governs the permitting of stream channel alterations that are of a common type, which do not propose alterations which will be a hazard to the stream channel and its environment. This chapter also establishes the collection of stream channel alteration statutory filing fees as authorized in Idaho Code Section 42-3803.

IDAPA 37.03.08 governs appropriations from all sources of unappropriated public water in the state of Idaho under the authority of Chapter 2, Title 42, Idaho Code. Sources of public water include rivers, streams, springs, lakes and groundwater. The rules are also applicable to the reallocation of hydropower water rights (i.e. Swan Falls Trust Water) held in trust by the state of Idaho. The Rule also implements the application, re-advertisement, and mailing fees set forth in Idaho Code Sections 42-221F and 42-203(A)3.

IDAPA 37.03.09 governs IDWR's statutory responsibility for the statewide administration of the rules governing well construction. These rules establish minimum standards for the construction of all new wells and the modification and decommissioning (abandonment) of existing wells. The intent of the Rule is to protect ground water resources of the state against waste and contamination. The Rule also implements the drilling permit fees set forth in Idaho Code Section 42-235.

IDAPA 37.03.10 establishes the requirements and procedures for obtaining and renewing authorization to drill wells in the state of Idaho. The rules also establish the requirements and procedures for obtaining authorization to operate drilling equipment under the supervision of a licensed driller. The licensing rules are applicable to all individuals and companies drilling or contracting to drill wells. The rules also implement the application licensing fees set forth in Idaho Code Section 42-238.

In summary, the fee categories described in the attached rules include: (1) administrative appeals filing fees; (2) water supply bank lease and rental fees; (3) adjudication application fees; (4) water right licensing examination fees; (5) injection well inventory and permit fees; (6) geothermal well permit fees; (7) design review fees for mine tailings impoundment structure and select dams; (8) stream channel alteration statutory filing fees; (9) water right application, re-advertisement, and mailing fees; (10) well drilling permit fees; and (11) application licensing fees for well drillers.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Mathew Weaver, Deputy Director at (208) 287-4800.

DATED this 21st of February, 2020.

# IDAPA 37 – DEPARTMENT OF WATER RESOURCES

## 37.01.01 – RULES OF PROCEDURE OF THE IDAHO DEPARTMENT OF WATER RESOURCES

### SUBCHAPTER A – GENERAL PROVISIONS (Rules 0 through 99)

#### 000. LEGAL AUTHORITY (RULE 0).

This chapter is adopted under the legal authority of Sections 42-1701A(1), 42-1734(19), 42-1805(8), 67-2356 and 67-5206(5), Idaho Code. (3-20-20)T

#### 001. TITLE AND SCOPE (RULE 1).

01. **Title.** The title of this chapter is “Rules of Procedure of the Idaho Department of Water Resources.” (3-20-20)T

02. **Scope.** This chapter contains the rules of procedure that govern contested case proceedings before the Department of Water Resources and the Water Resource Board of the state of Idaho. (3-20-20)T

#### 002. -- 004. (RESERVED)

#### 005. DEFINITIONS (RULE 5).

As used in this chapter: (3-20-20)T

01. **Administrative Code.** The Idaho administrative code established in Chapter 52, Title 67, Idaho Code. (3-20-20)T

02. **Agency.** The Department of Water Resources or the Water Resource Board acting within their respective authority to make rules or to determine contested cases. (3-20-20)T

03. **Agency Action.** Agency action means: (3-20-20)T

a. The whole or part of a rule or order; (3-20-20)T

b. The failure to issue a rule or order; (3-20-20)T

c. An agency’s performance of, or failure to perform, any duty placed on it by law. (3-20-20)T

04. **Agency Head.** An individual or body of individuals in whom the ultimate legal authority of the agency is vested by any provision of law. (3-20-20)T

05. **Board.** The Idaho Water Resource Board. (3-20-20)T

06. **Bulletin.** The Idaho administrative bulletin established in Chapter 52, Title 67, Idaho Code. (3-20-20)T

07. **Contested Case.** A proceeding which results in the issuance of an order. (3-20-20)T

08. **Coordinator.** The Administrative Rules Coordinator Prescribed in Section 67-5202, Idaho Code. (3-20-20)T

09. **Department.** The Idaho Department of Water Resources. (3-20-20)T

10. **Director.** The agency head of the Idaho Department of Water Resources. (3-20-20)T

11. **Document.** Any proclamation, executive order, notice, rule or statement of policy of an agency. (3-20-20)T

12. **Electronically Signed Communication.** A message that has been processed by a computer in such a manner that ties the message to the individual that signed the message in accordance with Rules 306 through 311 of

these rules. (3-20-20)T

**13. License.** The whole or part of any agency permit, certificate, approval, registration, charter, or similar form of authorization required by law, but does not include a license required solely for revenue purposes. (3-20-20)T

**14. Official Text.** The text of a document issued, prescribed, or promulgated by an agency in accordance with this chapter, and is the only legally enforceable text of such document. (3-20-20)T

**15. Order.** An agency action of particular applicability that determines the legal rights, duties, privileges, immunities, or other legal interests of one (1) or more specific persons. (3-20-20)T

**16. Party.** Each person or agency named or admitted as a party, or properly seeking and entitled as of right to be admitted as a party. (3-20-20)T

**17. Person.** Any individual, partnership, corporation, association, governmental subdivision or agency, or public or private organization or entity of any character. For purposes of electronic signature rules, a human being or any organization capable of signing a document, either legally or as a matter of fact. (3-20-20)T

**18. Provision of Law.** The whole or a part of the state or federal constitution, or of any state or federal: (3-20-20)T

a. Statute; or (3-20-20)T

b. Rule or decision of the court. (3-20-20)T

**19. Publish.** To bring before the public by publication in the bulletin or administrative code, or as otherwise specifically provided by law. (3-20-20)T

**20. Rule.** The whole or a part of an agency statement of general applicability that has been promulgated in compliance with the provisions of Chapter 52, Title 67, Idaho Code, and that implements, interprets, or prescribes: (3-20-20)T

a. Law or policy, or (3-20-20)T

b. The procedure or practice requirements of an agency. The term includes the amendment, repeal, or suspension of an existing rule, but does not include: (3-20-20)T

i. Statements concerning only the internal management or internal personnel policies of an agency and not affecting private rights of the public or procedures available to the public; (3-20-20)T

ii. Declaratory rulings issued pursuant to Section 67-5232, Idaho Code; (3-20-20)T

iii. Intra-agency memoranda; or (3-20-20)T

iv. Any written statements given by an agency which pertain to an interpretation of a rule or to the documentation of compliance with a rule. (3-20-20)T

**21. Rulemaking.** The process for formulation, adoption, amendment or repeal of a rule. (3-20-20)T

**22. Signer.** A person who signs a communication, including an electronically signed communication with the use of an acceptable technology to uniquely link the message with the person sending it. (3-20-20)T

**006. (RESERVED)**

**007. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS (RULE 7).**

**01. State Office.** The mailing address of the state office of the Idaho Department of Water Resources

and the office of the Idaho Water Resource Board is P.O. Box 83720, Boise, Idaho 83720-0098; the street address, subject to change, is 322 East Front Street, 6th Floor, Boise, Idaho 83702; the telephone number is (208) 287-4800; and the Facsimile Machine number is (208) 287-6700. Documents may be filed at the state office during regular business hours of 8:00 am to 5:00 pm Monday through Friday. (3-20-20)T

**008. FILING OF DOCUMENTS -- NUMBER OF COPIES (RULE 8).**

In all rulemakings or contested cases, an original of all documents shall be filed with the Director of the Department of Water Resources or the Chairman of the Idaho Water Resource Board, as the case may be, showing service upon all other parties. No copies in addition to the original document need be filed with the agency unless requested by the agency. (3-20-20)T

**009. -- 049. (RESERVED)**

**050. PROCEEDINGS GOVERNED (RULE 50).**

Rules 100 through 799 govern procedure before the Department and the Board in contested cases, unless otherwise provided by rule, notice or order of the agency. The Department and the Board through the promulgation of these rules decline in whole to adopt the contested case portion of the "Idaho Rules of Administrative Procedure of the Attorney General," cited as IDAPA 04.11.01.100 through 04.11.01.799. Rulemaking before the Department and the Board shall be governed by Rules 800 through 860 of the "Idaho Rules of Administrative Procedure of the Attorney General," cited as IDAPA 04.11.01.800 through 04.11.01.860. (3-20-20)T

**051. REFERENCE TO AGENCY (RULE 51).**

Reference to the agency in these rules includes the agency director, the board, hearing officer appointed by the agency or the board, or presiding officer, as context requires. Reference to the agency head means the agency director or the board, as context requires, or such other officer designated by the agency head or the board to review recommended or preliminary orders. (3-20-20)T

**052. LIBERAL CONSTRUCTION (RULE 52).**

The rules in this chapter will be liberally construed to secure just, speedy and economical determination of all issues presented to the agency. Unless prohibited by statute, the agency may permit deviation from these rules when it finds that compliance with them is impracticable, unnecessary or not in the public interest. Unless required by statute, or otherwise provided by these rules, the Idaho Rules of Civil Procedure and the Idaho Rules of Evidence do not apply to contested case proceedings conducted before the agency. (3-20-20)T

**053. COMMUNICATIONS WITH AGENCY (RULE 53).**

All written communications and documents that are intended to be part of an official record for a decision in a contested case must be filed with the officer designated by the agency. Unless otherwise provided by statute, rule, order or notice, documents are considered filed when received by the officer designated to receive them, not when mailed, or otherwise transmitted. (3-20-20)T

**054. IDENTIFICATION OF COMMUNICATIONS (RULE 54).**

Parties' communications addressing or pertaining to a given proceeding should be written under that proceeding's case caption and case number, if applicable. General communications by other persons should refer to case captions, case numbers, permit or license numbers, or the like, if this information is known. (3-20-20)T

**055. SERVICE BY AGENCY (RULE 55).**

Unless otherwise provided by statute or these rules, the officer designated by the agency to serve rules, notices, complaints, and orders issued by the agency may serve these documents by regular mail or by certified mail, return receipt requested, to a party's last known mailing address or by personal service. Unless otherwise provided by statute, these rules, order or notice, service of orders and notices is complete when a copy, properly addressed and stamped, is deposited in the United States mail, or the Statehouse mail if the party is a state employee or state agency. The officer designated by the agency to serve documents in a proceeding must serve all orders and notices in a proceeding on the representatives of each party designated pursuant to these rules for that proceeding and upon other persons designated by these rules or by the agency. (3-20-20)T

**056. COMPUTATION OF TIME (RULE 56).**

Whenever statute, these or other rules, order, or notice requires an act to be done within a certain number of days of a

given day, the given day is not included in the count, but the last day of the period so computed is included in the count. If the day the act must be done is Saturday, Sunday or a legal holiday, the act may be done on the first day following that is not Saturday, Sunday or a legal holiday. (3-20-20)T

**057. ADDITIONAL TIME AFTER SERVICE BY MAIL (RULE 57).**

Whenever a party has the right or is required to do some act or take some proceedings within a prescribed period after the service of a notice or other paper upon the party and the notice or paper is served upon the party by mail, three (3) days shall be added to the prescribed period. This rule, however, shall not extend the time for filing a protest, a petition for reconsideration of a preliminary, recommended or final order before the agency, the time for filing exceptions with the agency head to a preliminary or recommended order, or the time for filing an appeal with the district court from a final decision of the agency. (3-20-20)T

**058. FEES AND REMITTANCES (RULE 58).**

If submitted by mail, fees and remittances to the agency may be paid by money order, bank draft or check payable to agency. Remittances in currency or coin, submitted by mail, are strongly discouraged and are wholly at the risk of the remitter, and the agency assumes no responsibility for their loss. The agency may, upon the completion of necessary arrangements by the agency, accept the payment of fees and remittances by credit card. Filings required to be accompanied by a fee are not complete until the fee is paid. (3-20-20)T

**059. -- 099. (RESERVED)**

**100. INFORMAL PROCEEDINGS DEFINED (RULE 100).**

Informal proceedings are proceedings in contested cases authorized by statute, rule or order of the agency to be conducted using informal procedures, i.e., procedures without a record to be preserved for later agency or judicial review, without the necessity of representation according to Rule 230, without formal designation of parties, without the necessity of hearing examiners or other presiding officers, or without other formal procedures required by these rules for formal proceedings. Unless prohibited by statute, an agency may provide that informal proceedings may precede formal proceedings in the consideration of a rulemaking or a contested case. (3-20-20)T

**101. INFORMAL PROCEDURE (RULE 101).**

Statute authorizes and these rules encourage the use informal proceedings to settle or determine contested cases. Unless prohibited by statute, the agency may provide for the use of informal procedure at any stage of a contested case. Informal procedure may include individual contacts, consistent with Rule 417, by or with the agency staff asking for information, advice or assistance from the agency staff, or proposing informal resolution of formal disputes under the law administered by the agency. Informal procedures may be conducted in writing, by telephone or television, or in person. (3-20-20)T

**102. FURTHER PROCEEDINGS (RULE 102).**

If statute provides that informal procedures shall be followed with no opportunity for further formal administrative review, then no opportunity for later formal administrative proceedings must be offered following informal proceedings. Otherwise, except as provided in Rule 103, any person participating in an informal proceeding must be given an opportunity for a later formal administrative proceeding before the agency, at which time the parties may fully develop the record before the agency. (3-20-20)T

**103. INFORMAL PROCEEDINGS DO NOT EXHAUST ADMINISTRATIVE REMEDIES (RULE 103).**

Unless all parties agree to the contrary in writing, informal proceedings do not substitute for formal proceedings and do not exhaust administrative remedies, and informal proceedings are conducted without prejudice to the right of the parties to present the matter formally to the agency. Settlement offers made in the course of informal proceedings are confidential and shall not be included in the agency record of a subsequent formal proceeding. (3-20-20)T

**104. FORMAL PROCEEDINGS (RULE 104).**

Formal proceedings, which are governed by rules of procedure other than Rules 100 through 103, must be initiated by a document (generally a notice, order or complaint if initiated by the agency) or another pleading listed in Rules 210 through 280 if initiated by another person. Formal proceedings may be initiated by a document from the agency informing the party(ies) that the agency has reached an informal determination that will become final in the absence of further action by the person to whom the correspondence is addressed, provided that the document complies with the requirements of Rules 210 through 280. Formal proceedings can be initiated by the same document that initiates

informal proceedings. (3-20-20)T

**105. -- 149. (RESERVED)**

**150. PARTIES TO CONTESTED CASES LISTED (RULE 150).**

Parties to contested cases before the agency are called applicants or claimants or appellants, petitioners, complainants, respondents, protestants, or intervenors. On reconsideration or appeal within the agency parties are called by their original titles listed in the previous sentence. (3-20-20)T

**151. APPLICANTS/CLAIMANTS/APPELLANTS (RULE 151).**

Persons who seek any right, license, award or authority from the agency are called “applicants” or “claimants” or “appellants.” (3-20-20)T

**152. PETITIONERS (RULE 152).**

Persons not applicants who seek to modify, amend or stay existing orders or rules of the agency, to clarify their rights or obligations under law administered by the agency, to ask the agency to initiate a contested case (other than an application or complaint), or to otherwise take action that will result in the issuance of an order or rule, are called “petitioners.” (3-20-20)T

**153. COMPLAINANTS (RULE 153).**

Persons who charge other person(s) with any act or omission are called “complainants.” In any proceeding in which the agency itself charges a person with an act or omission, the agency is called “complainant.” (3-20-20)T

**154. RESPONDENTS (RULE 154).**

Persons against whom complaints are filed or about whom investigations are initiated are called “respondents.” (3-20-20)T

**155. PROTESTANTS (RULE 155).**

Persons who oppose an application or claim or appeal and who have a statutory right to contest the right, license, award or authority sought by an applicant or claimant or appellant are called “protestants.” (3-20-20)T

**156. INTERVENORS (RULE 156).**

Persons, not applicants or claimants or appellants, complainants, respondents, or protestants to a proceeding, who are permitted to participate as parties pursuant to Rules 350 through 354 are called “intervenors.” (3-20-20)T

**157. RIGHTS OF PARTIES AND OF AGENCY STAFF (RULE 157).**

Subject to Rules 558, 560, and 600, all parties and agency staff may appear at hearing or argument, introduce evidence, examine witnesses, make and argue motions, state positions, and otherwise fully participate in hearings or arguments. (3-20-20)T

**158. PERSONS NOT PARTIES -- INTERESTED PERSONS (RULE 158).**

Persons other than the persons named in Rules 151 through 156 are not parties for the purpose of any statute or rule addressing rights or obligations of parties to a contested case. Persons not parties who have an interest in a proceeding are called “interested persons.” Interested persons may participate in a proceeding as “public witnesses” in accordance with Rule 355. (3-20-20)T

**159. -- 199. (RESERVED)**

**200. INITIAL PLEADING BY PARTY -- LISTING OF REPRESENTATIVES (RULE 200).**

The initial pleading of each party at the formal stage of a contested case (be it an application or claim or appeal, petition, complaint, protest, motion, or answer) must name the party’s representative(s) for service and state the representative’s(s’) address(es) for purposes of receipt of all official documents. No more than two (2) representatives for service of documents may be listed in an initial pleading. Service of documents on the named representative(s) is valid service upon the party for all purposes in that proceeding. If no person is explicitly named as the party’s representative, the person signing the pleading will be considered the party’s representative. If an initial pleading is signed by more than one (1) person without identifying the representative(s) for service of documents, the presiding officer may select the person(s) upon whom documents are to be served. If two (2) or more parties or persons file

identical or substantially like initial pleadings, the presiding officer may limit the number of parties or persons required to be served with official documents in order to expedite the proceeding and reasonably manage the burden of service upon the parties and the agency. (3-20-20)T

**201. TAKING OF APPEARANCES -- PARTICIPATION BY AGENCY STAFF (RULE 201).**

The presiding officer at a formal hearing or prehearing conference will take appearances to identify the representatives of all parties or other persons. In all proceedings in which the agency staff will participate, or any report or recommendation of the agency staff (other than a recommended order or preliminary order prepared by a hearing officer) will be considered or used in reaching a decision, at the timely request of any party the agency staff must appear at any hearing and be made available for cross-examination and otherwise participate in the hearing, at the discretion of the presiding officer, in the same manner as a party. (3-20-20)T

**202. REPRESENTATION OF PARTIES AT HEARING (RULE 202).**

**01. Appearances and Representation.** To the extent authorized or required by law, appearances and representation of parties or other persons at formal hearing or prehearing conference must be as follows: (3-20-20)T

**a.** Natural Person. A natural person may represent himself or herself or be represented by a duly authorized employee, attorney, or family member, or by a next friend if the person lacks full legal capacity to act for himself or herself. (3-20-20)T

**b.** A partnership may be represented by a partner, duly authorized employee, or attorney. (3-20-20)T

**c.** A corporation may be represented by an officer, duly authorized employee, or attorney. (3-20-20)T

**d.** A municipal corporation, local government agency, unincorporated association or nonprofit organization may be represented by an officer, duly authorized employee, or attorney. (3-20-20)T

**e.** A state, federal or tribal governmental entity or agency may be represented by an officer, duly authorized employee, or attorney. (3-20-20)T

**02. Representatives.** The representatives of parties at hearing, and no other persons or parties appearing before the agency, are entitled to examine witnesses and make or argue motions. (3-20-20)T

**203. SERVICE ON REPRESENTATIVES OF PARTIES AND OTHER PERSONS (RULE 203).**

From the time a party files its initial pleading in a contested case, that party must serve and all other parties must serve all future documents intended to be part of the agency record upon all other parties' representatives designated pursuant to Rule 200, unless otherwise directed by order or notice or by the presiding officer on the record. The presiding officer may order parties to serve past documents filed in the case upon those representatives. The presiding officer may order parties to serve past or future documents filed in the case upon persons not parties to the proceedings before the agency. (3-20-20)T

**204. WITHDRAWAL OF PARTIES (RULE 204).**

Any party may withdraw from a proceeding in writing or at hearing. (3-20-20)T

**205. SUBSTITUTION OF REPRESENTATIVE -- WITHDRAWAL OF REPRESENTATIVE (RULE 205).**

A party's representative may be changed and a new representative may be substituted by notice to the agency and to all other parties so long as the proceedings are not unreasonably delayed. The presiding officer at hearing may permit substitution of representatives at hearing in the presiding officer's discretion. Persons representing a party who wish to withdraw their representation of a party in a proceeding before the agency must immediately file in writing a notice of withdrawal of representation and serve that notice on the party represented and all other parties. (3-20-20)T

**206. CONDUCT REQUIRED (RULE 206).**

Representatives of parties and parties appearing in a proceeding must conduct themselves in an ethical and courteous manner. Smoking is not permitted at hearings. (3-20-20)T

**207. -- 209. (RESERVED)**

**210. PLEADINGS LISTED -- MISCELLANEOUS (RULE 210).**

Pleadings in contested cases are called applications or claims or appeals, petitions, complaints, protests, motions, answers, and consent agreements. Affidavits or declarations under penalty of perjury may be filed in support of any pleading. A party's initial pleading in any proceeding must comply with Rule 200, but the presiding officer may allow documents filed during informal stages of the proceeding to be considered a party's initial pleading without the requirement of resubmission to comply with this rule. All pleadings filed during the formal stage of a proceeding must be filed in accordance with Rules 300 through 303. A party may adopt or join any other party's pleading. Two (2) or more separately stated grounds, claims or answers concerning the same subject matter may be included in one (1) pleading. (3-20-20)T

**211. -- 219. (RESERVED)**

**220. APPLICATIONS/CLAIMS/APPEALS -- DEFINED -- FORM AND CONTENTS (RULE 220).**

All pleadings requesting a right, license, award or authority from the agency are called "applications" or "claims" or "appeals." All pleadings must be submitted on Department approved forms if available. Applications or claims or appeals not submitted on Department approved forms should: (3-20-20)T

**01. Facts.** Fully state the facts upon which they are based. (3-20-20)T

**02. Refer to Provisions.** Refer to the particular provisions of statute, rule, order, or other controlling law upon which they are based. (3-20-20)T

**03. Other.** State the right, license, award, or authority sought. (3-20-20)T

**221. -- 229. (RESERVED)**

**230. PETITIONS -- DEFINED -- FORM AND CONTENTS (RULE 230).**

**01. Pleadings Defined.** All pleadings requesting the following are called "petitions:" (3-20-20)T

**a.** Modification, amendment or stay of existing orders or rules; (3-20-20)T

**b.** Clarification, declaration or construction of the law administered by the agency or of a party's rights or obligations under law administered by the agency; (3-20-20)T

**c.** The initiation of a contested case not an application, claim or complaint or otherwise taking action that will lead to the issuance of an order or a rule; (3-20-20)T

**d.** Rehearing; or (3-20-20)T

**e.** Intervention. (3-20-20)T

**02. Petitions.** Petitions should: (3-20-20)T

**a.** Fully state the facts upon which they are based; (3-20-20)T

**b.** Refer to the particular provisions of statute, rule, order or other controlling law upon which they are based; (3-20-20)T

**c.** State the relief desired; and (3-20-20)T

**d.** State the name of the person petitioned against (the respondent), if any. (3-20-20)T

**231. -- 239. (RESERVED)**

**240. COMPLAINTS -- DEFINED -- FORM AND CONTENTS (RULE 240).**

- 01. Complaints - Defined.** All pleadings charging other person(s) with acts or omissions under law administered by the agency are called “complaints.” (3-20-20)T
- 02. Form and Contents.** Complaints must: (3-20-20)T
- a.** Be in writing; (3-20-20)T
  - b.** Fully state the acts or things done or omitted to be done by the persons complained against by reciting the facts constituting the acts or omissions and the dates when they occurred; (3-20-20)T
  - c.** Refer to statutes, rules, orders or other controlling law involved; (3-20-20)T
  - d.** State the relief desired; (3-20-20)T
  - e.** State the name of the person complained against (the respondent). (3-20-20)T

**241. -- 249. (RESERVED)**

**250. PROTESTS -- DEFINED -- FORM AND CONTENTS (RULE 250).**

- 01. Protests - Defined.** All pleadings opposing an application or claim or appeal as a matter of right are called “protests.” (3-20-20)T
- 02. Form and Contents.** Protests should: (3-20-20)T
- a.** Fully state the facts upon which they are based, including the protestant’s claim of right to oppose the application or claim; (3-20-20)T
  - b.** Refer to the particular provisions of statute, rule, order or other controlling law upon which they are based; and (3-20-20)T
  - c.** State any proposed limitation (or the denial) of any right, license, award or authority sought in the application. (3-20-20)T

**251. -- 259. (RESERVED)**

**260. MOTIONS -- DEFINED -- FORM AND CONTENTS -- TIME FOR FILING (RULE 260).**

- 01. Motions - Defined.** All other pleadings requesting the agency to take any other action in a contested case, except consent agreements or pleadings specifically answering other pleadings, are called “motions.” (3-20-20)T
- 02. Form and Contents.** Motions should: (3-20-20)T
- a.** Fully state the facts upon which they are based; (3-20-20)T
  - b.** Refer to the particular provision of statute, rule, order, notice, or other controlling law upon which they are based; and (3-20-20)T
  - c.** State the relief sought. (3-20-20)T
- 03. Other.** If the moving party desires oral argument or hearing on the motion, it must state so in the motion. Any motion to dismiss, strike or limit an application or claim or appeal, complaint, petition, or protest must be filed before the answer is due or be included in the answer, if the movant is obligated to file an answer. If a motion is directed to an answer, it must be filed within fourteen (14) days after service of the answer. Other motions may be

filed at any time upon compliance with Rule 565. (3-20-20)T

**261. -- 269. (RESERVED)**

**270. ANSWERS -- DEFINED -- FORM AND CONTENTS -- TIME FOR FILING (RULE 270).**

All pleadings responding to the allegations or requests of applications or claims or appeals, complaints, petitions, or motions are called “answers.” (3-20-20)T

**01. Answers to Pleadings Other than Motions.** Answers to applications, claims, appeals, complaints, or petitions when required to be filed by provision of statute, rule, or order must be filed and served on all parties of record within twenty-one (21) days after service of the pleading being answered, unless order or notice modifies the time within which answer may be made, or a motion to dismiss is made within twenty-one (21) days. When an answer is not timely filed under this rule, the presiding officer may issue a notice of default against the respondent pursuant to Rule 700. Answers to applications or claims, complaints, or petitions, must admit or deny each material allegation of the applications or claims, complaint, or petition. Any material allegation not specifically admitted shall be considered to be denied. Matters alleged by cross-complaint or affirmative defense must be separately stated and numbered. This rule does not prevent a party from filing a responsive pleading in instances not required under these rules. (3-20-20)T

**02. Answers to Motions.** Answers to motions may be filed by persons or parties who are the object of a motion or by parties opposing a motion within fourteen (14) days of the filing of the motion. The time to file an answer to a motion may be enlarged or shortened by the presiding officer upon a showing of good cause by a party. The presiding officer may act upon a prehearing motion under Rule 565. (3-20-20)T

**271. -- 279. (RESERVED)**

**280. CONSENT AGREEMENTS -- DEFINED -- FORM AND CONTENTS (RULE 280).**

Agreements between the agency or agency staff and another person(s) in which one (1) or more person(s) agree to engage in certain conduct mandated by statute, rule, order, case decision, or other provision of law, or to refrain from engaging in certain conduct prohibited by statute, rule, order, case decision, or other provision of law, are called “consent agreements.” Consent agreements are intended to require compliance with existing law. (3-20-20)T

**01. Requirements.** Consent agreements must: (3-20-20)T

**a.** Recite the parties to the agreement; and (3-20-20)T

**b.** Fully state the conduct proscribed or prescribed by the consent agreement. (3-20-20)T

**02. Additional.** In addition, consent agreements may: (3-20-20)T

**a.** Recite the consequences of failure to abide by the consent agreement; (3-20-20)T

**b.** Provide for payment of civil or administrative penalties authorized by law; (3-20-20)T

**c.** Provide for loss of rights, licenses, awards or authority; (3-20-20)T

**d.** Provide for other consequences as agreed to by the parties; and (3-20-20)T

**e.** Provide that the parties waive all further procedural rights (including hearing, consultation with counsel, etc.) with regard to enforcement of the consent agreement. (3-20-20)T

**281. -- 299. (RESERVED)**

**300. FILING DOCUMENTS WITH THE AGENCY -- NUMBER OF COPIES -- FACSIMILE TRANSMISSION (FAX) -- ELECTRONICALLY SIGNED DOCUMENTS (RULE 300).**

An original and necessary copies (if any are required by the agency) of all documents intended to be part of an agency record must be filed with the officer designated by the agency to receive filing in the case. Pleadings and other

documents not exceeding ten (10) pages in length requiring urgent or immediate action may be filed by facsimile transmission (FAX). Whenever any document is filed by FAX, the original must be mailed by United States mail or physically delivered to the agency the next working day. A document required to be accompanied by a filing fee shall not be filed with the agency until the fee is received. There shall be no limit as to the number of pages of a facsimile copy which was not transmitted directly to the agency by the facsimile machine process. The Department will accept electronic signatures and electronically signed communications complying with the requirements of Rules 306 through 311 and Sections 67-2351 through 67-2357, Idaho Code, for all communications, filings and transactions with the Department. (3-20-20)T

**301. FORM OF PLEADINGS (RULE 301).**

**01. Pleadings.** All pleadings, except those on agency forms, submitted by a party and intended to be part of an agency record should: (3-20-20)T

- a. Be submitted on white eight and one-half inch (8 1/2") by eleven inch (11") paper copied on one (1) side only; (3-20-20)T
- b. State the case caption, case number, if applicable, and title of the document; (3-20-20)T
- c. Include on the upper left corner of the first page the name(s), mailing and street address(es), and telephone and FAX number(s) of the person(s) filing the document or the person(s) to whom questions about the document can be directed; and (3-20-20)T
- d. Have at least one inch (1") left and top margins. (3-20-20)T

**02. Form.** Documents complying with this rule will be in the following form:

Name of Representative  
Mailing Address of Representative  
Street Address of Representative (if different)  
Telephone Number of Representative  
FAX Number of Representative (if there is one)  
Attorney/Representative for (Name of Party)

BEFORE THE AGENCY

(Title of Proceeding)	)	CASE NO.	
	)		
	)	(TITLE OF DOCUMENT)	
	)		(3-20-20)T

**302. SERVICE ON PARTIES AND OTHER PERSONS (RULE 302).**

All documents intended to be part of the agency record for decision must be served upon the representatives of each party of record concurrently with filing the original with the officer designated by the agency to receive filings in the case. (3-20-20)T

**303. PROOF OF SERVICE (RULE 303).**

Every document filed with and intended to be part of the agency record must be attached to or accompanied by proof of service by the following or similar certificate:

I HEREBY CERTIFY (swear or affirm) that I have this day of, served the foregoing (name(s) of document(s) upon all parties of record in this proceeding, (by delivering a copy thereof in person: (list names)) (by mailing a copy thereof, properly addressed with postage prepaid, to: (list names)).  
(Signature) (3-20-20)T

**304. DEFECTIVE, INSUFFICIENT OR LATE PLEADINGS (RULE 304).**

Defective, insufficient or late pleadings may be returned or dismissed. (3-20-20)T

**305. AMENDMENTS TO PLEADINGS – WITHDRAWAL OF PLEADINGS (RULE 305).**

The presiding officer may allow any pleading to be amended or corrected or any omission to be supplied. Pleadings will be liberally construed, and defects that do not affect substantial rights of the parties will be disregarded. A party desiring to withdraw a pleading must file a notice of withdrawal of the pleading and serve all parties with a copy. Unless otherwise ordered by the presiding officer, the notice is effective fourteen (14) days after filing. (3-20-20)T

**306. ELECTRONICALLY SIGNED COMMUNICATIONS (RULE 306).**

The Department will accept electronic signatures and electronically signed communications complying with the requirements of Rules 306 through 311 and Sections 67-2351 through 67-2357, Idaho Code, for all communications, filings and transactions with the Department. For an electronic signature to be valid for use by the Department, it must be created by a technology that is accepted for use by the Department. (3-20-20)T

**307. CRITERIA FOR ACCEPTABLE ELECTRONIC SIGNATURE TECHNOLOGY (RULE 307).**

For an electronic signature technology to be accepted for use by the Department, it must comply with the following criteria: (3-20-20)T

**01. Statutory Criteria.** An acceptable electronic signature technology must be capable of creating signatures that conform to the requirements set forth in Section 67-2354, Idaho Code: (3-20-20)T

- a.** It is unique to the person using it; (3-20-20)T
- b.** It is capable of verification; and (3-20-20)T
- c.** It conforms to the applicable rules promulgated by the Department pursuant to Section 67-2356, Idaho Code. (3-20-20)T

**02. Additional Criteria.** An electronic signature technology acceptable to the Department also must be capable of creating a signature that satisfies the following additional criteria: (3-20-20)T

- a.** It is under the sole control of the person using it; (3-20-20)T
- b.** It is linked to the data in such a manner that if the data are changed, the electronic signature is invalidated; and (3-20-20)T
- c.** It meets International Standards Organization ISO X.509 standard. (3-20-20)T

**308. PUBLIC KEY CRYPTOGRAPHY (RULE 308).**

The technology known as Public Key Cryptography is an accepted technology for use by the Department, provided that the electronic signature is created consistent with the provisions in these rules. (3-20-20)T

**01. Terminology.** For purposes of Rules 306 through 311, and unless the context expressly indicates otherwise, the following terms shall have the meanings here ascribed to them: (3-20-20)T

- a.** Approved certification authority. The Certification Authority authorized and accepted by the State of Idaho to issue certificates for electronic signature transactions involving the State; (3-20-20)T
- b.** Asymmetric cryptosystem. A computer algorithm or series of algorithms that utilize(s) two (2) different keys with the following characteristics: (3-20-20)T
  - i.** Identifies the certification authority issuing it; (3-20-20)T
  - ii.** One (1) key verifies a given message; and (3-20-20)T
  - iii.** The keys have the property that, knowing one (1) key, it is computationally infeasible to discover the other key. (3-20-20)T

- c.** Certificate. A computer-based record that: (3-20-20)T
- i.** Identifies the certification authority issuing it; (3-20-20)T
  - ii.** Names or identifies its subscriber; (3-20-20)T
  - iii.** Contains the subscriber's public key; (3-20-20)T
  - iv.** Is electronically signed by the Certification Authority issuing or amending it; and (3-20-20)T
  - v.** Conforms to widely-used industry standards. (3-20-20)T
- d.** Certification authority. A person or entity that issues a certificate, or in the case of certain certification processes, certifies amendments to an existing certificate; (3-20-20)T
- e.** Electronic message. An electronic representation of information intended to serve as a written communication with the Department; (3-20-20)T
- f.** Electronically signed communication. A message that has been processed by a computer in such a manner that ties the message to the individual that signed the message; (3-20-20)T
- g.** Key pair. A private key and its corresponding public key in an asymmetric cryptosystem. The keys have the property that the public key can verify an electronic signature that the private key creates; (3-20-20)T
- h.** Private key. The key of a key pair used to create an electronic signature; (3-20-20)T
- i.** Proof of identification. The document or documents presented to a Certification Authority to establish the identity of a subscriber; (3-20-20)T
- j.** Public key. The key of a pair used to verify an electronic signature; (3-20-20)T
- k.** Subscriber. A person who: (3-20-20)T
- i.** Is the subject listed in a certificate; (3-20-20)T
  - ii.** Accepts the certificate; and (3-20-20)T
  - iii.** Holds a private key which corresponds to a public key listed in that certificate. (3-20-20)T
- l.** Technology. The computer hardware or software-based method or process used to create electronic signatures. (3-20-20)T
- 02. Electronic Signature to Be Unique.** Section 67-2354, Idaho Code, requires that an electronic signature be "unique to the person using it." A public key-based electronic signature may be considered unique to the person using it if: (3-20-20)T
- a.** The private key used to create the signature on the document is known only to the signer; (3-20-20)T
  - b.** The electronic signature is created when a person runs a message through a one-way function, creating a message digest, then encrypting the resulting message digest using an asymmetrical cryptosystem and the signer's private key; (3-20-20)T
  - c.** Although not all electronically signed communications will require the signer to obtain a certificate, the signer is capable of being issued a certificate to certify that he or she controls the key pair used to create the signature; and (3-20-20)T

d. It is computationally infeasible to derive the private key from knowledge of the public key. (3-20-20)T

**03. Signature Capable of Verification.** Section 67-2354, Idaho Code, requires that an electronic signature be “capable of verification.” A public-key based electronic signature is capable of verification: (3-20-20)T

a. If the acceptor of the electronically signed document can verify the document was electronically signed by using the signer’s public key; (3-20-20)T

b. If a certificate is a required component of a transaction, the certificate was valid; and (3-20-20)T

c. If a certificate is a required component of a transaction, the issuing Certification Authority identifies which, if any, form(s) of proof of identification it required of the signer prior to issuing the certificate. (3-20-20)T

**04. Electronic Signature Must Meet ISO X.509 Standards.** The electronic signature must meet International Standards Organization ISO X.509 standards. (3-20-20)T

**05. Approved Certification Authority.** The Department shall only accept certificates from an Approved Certification Authority. (3-20-20)T

**309. CRITERIA FOR ACCEPTING AN ELECTRONIC SIGNATURE (RULE 309).** The following criteria shall be used in determining the acceptability of electronic signatures: (3-20-20)T

**01. Level of Security Used to Identify the Signer.** Prior to accepting an electronic signature, the Department shall ensure that the level of security used to identify the signer of a document is sufficient for the transaction being conducted. (3-20-20)T

**02. Level of Security Used to Transmit the Signature.** Prior to accepting an electronic signature, the Department shall ensure that the level of security used to transmit the signature is sufficient for the transaction being conducted. (3-20-20)T

**03. Certificate Format Used by the Signer.** If a certificate is a required component of an electronic signature transaction, the Department shall ensure that the certificate format used by the signer is sufficient for the security and interoperability needs of the Department. (3-20-20)T

**310. RETENTION OF CERTIFICATES (RULE 310).** All electronically signed messages received by the Department in accordance with this rule, as well as any information resources necessary to permit access to the message and to verify the electronic signature, shall be retained by the Department as necessary to comply with applicable law pertaining to records retention requirements for that message. (3-20-20)T

**311. ELECTRONIC SIGNATURE REPUDIATION (RULE 311).** It is the responsibility of the rightful holder of the private key to maintain the private key’s security. Repudiation of an electronically signed and transmitted message may only occur by the determination of a court of competent jurisdiction that the private key of the rightful holder was compromised through no fault of the rightful holder and without knowledge on the part of the rightful holder. It is the legal prerequisite for a claim of repudiation that the repudiator have filed a notice of revocation with the Certification Authority prior to making the claim of repudiation. (3-20-20)T

**312. -- 349. (RESERVED)**

**350. ORDER GRANTING INTERVENTION NECESSARY (RULE 350).** Persons not applicants or claimants or appellants, petitioners, complainants, protestants, or respondents to a proceeding who claim a direct and substantial interest in the proceeding may petition for an order from the presiding officer granting intervention to become a party, if a formal hearing is required by statute to be held in the proceeding. (3-20-20)T

**351. FORM AND CONTENTS OF PETITIONS TO INTERVENE (RULE 351).**

Petitions to intervene must comply with Rules 200, 300, and 301. The petition must set forth the name and address of the potential intervenor and must state the direct and substantial interest of the potential intervenor in the proceeding. If affirmative relief is sought, the petition must state the relief sought and the basis for granting it. (3-20-20)T

**352. TIMELY FILING OF PETITIONS TO INTERVENE (RULE 352).**

Petitions to intervene must be filed at least fourteen (14) days before the date set for formal hearing, or by the date of the prehearing conference, whichever is earlier, unless a different time is provided by order or notice. Petitions not timely filed must state a substantial reason for delay. The presiding officer may deny or conditionally grant petitions to intervene that are not timely filed for failure to state good cause for untimely filing, to prevent disruption, prejudice to existing parties or undue broadening of the issues, or for other reasons. Intervenors who do not file timely petitions are bound by orders and notices earlier entered as a condition of granting the untimely petition. (3-20-20)T

**353. GRANTING PETITIONS TO INTERVENE (RULE 353).**

If a timely-filed petition to intervene shows direct and substantial interest in any part of the subject matter of a proceeding and does not unduly broaden the issues, the presiding officer will grant intervention, subject to reasonable conditions, unless the applicant's interest is adequately represented by existing parties. If it appears that an intervenor has no direct or substantial interest in the proceeding, the presiding officer may dismiss the intervenor from the proceeding. (3-20-20)T

**354. ORDERS GRANTING INTERVENTION -- OPPOSITION (RULE 354).**

No order granting a petition to intervene will be acted upon sooner than seven (7) days after its filing, except in a hearing in which any party may be heard or except where no objection to the intervention is made. Any party opposing a petition to intervene by motion must file the motion within seven (7) days after receipt of the petition to intervene and serve the motion upon all parties of record and upon the person petitioning to intervene. (3-20-20)T

**355. PUBLIC WITNESSES (RULE 355).**

Persons not parties and not called by a party who testify at hearing are called "public witnesses." Public witnesses do not have parties' rights to examine witnesses or otherwise participate in the proceedings as parties. Public witnesses' written or oral statements and exhibits are subject to examination and objection by parties. Subject to Rules 557 and 559, public witnesses have a right to introduce evidence at hearing by their written or oral statements and exhibits introduced at hearing, except that public witnesses offering expert opinions at hearing or detailed analysis or detailed exhibits must comply with Rule 528 with regard to filing and service of testimony and exhibits to the same extent as expert witnesses of parties. A person intending to present public witness testimony shall provide five (5) days notice prior to the hearing. The notice shall include the name and address of the witness and the general nature or subject matter of the testimony to be given. If the notice is not given, the public testimony will be allowed only at the discretion of the presiding officer upon a finding of good cause. (3-20-20)T

**356. -- 399. (RESERVED)**

**400. FORM AND CONTENTS OF PETITION FOR DECLARATORY RULINGS (RULE 400).**

Any person petitioning for a declaratory ruling on the applicability of a statute, rule or order administered by the agency must substantially comply with this rule. (3-20-20)T

**01. Form.** The petition shall: (3-20-20)T

**a.** Identify the petitioner and state the petitioner's interest in the matter; (3-20-20)T

**b.** State the declaratory ruling that the petitioner seeks; and (3-20-20)T

**c.** Indicate the statute, order, rule, or other controlling law, and the factual allegations upon which the petitioner relies to support the petition. (3-20-20)T

**02. Legal Assertions.** Legal assertions in the petition may be accompanied by citations of cases and/or statutory provisions. (3-20-20)T

**401. NOTICE OF PETITION FOR DECLARATORY RULING (RULE 401).**

Notice of petition for declaratory ruling may be issued in a manner designed to call its attention to persons likely to be interested in the subject matter of the petition. (3-20-20)T

**402. PETITIONS FOR DECLARATORY RULINGS TO BE DECIDED BY ORDER (RULE 402).**

**01. Final Agency Action.** The agency’s decision on a petition for declaratory ruling on the applicability of any statute, rule or order administered by the agency is a final agency action decided by order. (3-20-20)T

**02. Content.** The order issuing the declaratory ruling shall contain or must be accompanied by a document containing the following paragraphs or substantially similar paragraphs: (3-20-20)T

**a.** This is a final agency action issuing a declaratory ruling. (3-20-20)T

**b.** Pursuant to Sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by this declaratory ruling may appeal to district court by filing a petition in the District Court in the county in which: (3-20-20)T

**i.** A hearing was held; (3-20-20)T

**ii.** The declaratory ruling was issued; (3-20-20)T

**iii.** The party appealing resides; or (3-20-20)T

**iv.** The real property or personal property that was the subject of the declaratory ruling is located. (3-20-20)T

**c.** This appeal must be filed within twenty-eight (28) days of the service date of this declaratory ruling. See Section 67-5273, Idaho Code. (3-20-20)T

**403. -- 409. (RESERVED)**

**410. APPOINTMENT OF HEARING OFFICERS (RULE 410).**

A hearing officer is a person other than the agency head appointed to hear contested cases on behalf of the agency. Unless otherwise provided by statute or rule, hearing officers may be employees of the agency or independent contractors. Hearing officers may be (but need not be) attorneys. Hearing officers who are not attorneys should ordinarily be persons with technical expertise or experience in issues before the agency. The appointment of a hearing officer is a public record available for inspection, examination and copying. (3-20-20)T

**411. HEARING OFFICERS CONTRASTED WITH AGENCY HEAD (RULE 411).**

Agency heads are not hearing officers, even if they are presiding at contested cases. The term “hearing officer” as used in these rules refers only to officers subordinate to the agency head. (3-20-20)T

**412. DISQUALIFICATION OF OFFICERS HEARING CONTESTED CASES (RULE 412).**

Pursuant to Section 67-5252, Idaho Code hearing officers are subject to disqualification for bias, prejudice, interest, substantial prior involvement in the case other than as a presiding officer, status as an employee of the agency, lack of professional knowledge in the subject matter of the contested case, or any other reason provided by law or for any cause for which a judge is or may be disqualified. Any party may promptly petition for the disqualification of a hearing officer after receiving notice that the officer will preside at a contested case or upon discovering facts establishing grounds for disqualification, whichever is later. Any party may assert a blanket disqualification for cause of all employees of the agency hearing the contested case, other than the agency head, without awaiting the designation by a presiding officer. A hearing officer whose disqualification is requested shall determine in writing whether to grant the petition for disqualification, stating facts and reasons for the hearing officer’s determination. Disqualification of agency heads, if allowed, will be pursuant to Sections 74-404 and 67-5252(4), Idaho Code. (3-20-20)T

**413. SCOPE OF AUTHORITY OF HEARING OFFICERS (RULE 413).**

The scope of hearing officers' authority may be restricted in the appointment by the agency. (3-20-20)T

**01. Scope of Authority.** Unless the agency otherwise provides hearing, officers have the standard scope of authority, which is: (3-20-20)T

**a.** Authority to schedule cases assigned to the hearing officer, including authority to issue notices of default, of prehearing conference and of hearing, or to provide for the use of informal procedure, as appropriate; (3-20-20)T

**b.** Authority to schedule and compel discovery, when discovery is authorized before the agency, and to require advance filing of expert testimony, when authorized before the agency; (3-20-20)T

**c.** Authority to preside at and conduct hearings, accept evidence into the record, rule upon objections to evidence, rule on dispositive motions upon completion of the applicant's or petitioner's case in chief, and otherwise oversee the orderly presentations of the parties at hearing; and (3-20-20)T

**d.** Authority to issue a written decision of the hearing officer, including a narrative of the proceedings before the hearing officer and findings of fact, conclusions of law, and recommended or preliminary orders by the hearing officer, following the submission of evidence through stipulation of the parties, affidavits, exhibits, or hearing testimony. (3-20-20)T

**02. Limitation.** The hearing officer's scope of authority may be limited from the standard scope, either in general, or for a specific proceeding. For example, the hearing officer's authority could be limited to scope in Rule Subsection 413.01.c. (giving the officer authority only to conduct hearing), with the agency retaining all other authority. Hearing officers can be given authority with regard to the agency's rules as provided in Rule 416. (3-20-20)T

**414. PRESIDING OFFICER(S) (RULE 414).**

One (1) or more members of the agency board, the agency director, or duly appointed hearing officers may preside at hearing as authorized by statute or rule. When more than one (1) officer sits at hearing, they may all jointly be presiding officers or may designate one (1) of them to be the presiding officer. (3-20-20)T

**415. CHALLENGES TO STATUTES (RULE 415).**

A hearing officer in a contested case has no authority to declare a statute unconstitutional. However, when a court of competent jurisdiction whose decisions are binding precedent in the state of Idaho has declared a statute unconstitutional, or when a federal authority has preempted a state statute or rule, and the hearing officer finds that the same state statute or rule or a substantively identical state statute or rule that would otherwise apply has been challenged in the proceeding before the hearing officer, then the hearing officer shall apply the precedent of the court or the preemptive action of the federal authority to the proceeding before the hearing officer and decide the proceeding before the hearing officer in accordance with the precedent of the court or the preemptive action of the federal authority. (3-20-20)T

**416. REVIEW OF RULES (RULE 416).**

When an order is issued by the agency head in a contested case, the order may consider and decide whether a rule of that agency is within the agency's substantive rulemaking authority or whether the rule has been promulgated according to proper procedure. The agency head may delegate to a hearing officer the authority to recommend a decision on issues of whether a rule is within the agency's substantive rulemaking authority or whether the rule has been promulgated according to proper procedure or may retain all such authority itself. (3-20-20)T

**417. EX PARTE COMMUNICATIONS (RULE 417).**

Unless required for the disposition of a matter specifically authorized by statute to be done ex parte, a presiding officer serving in a contested case shall not communicate, directly or indirectly, regarding any substantive issue in the contested case with any party, except upon notice and opportunity for all parties to participate in the communication. The presiding officer may communicate ex parte with a party concerning procedural matters (e.g., scheduling). Ex parte communications from members of the general public not associated with any party are not required to be reported by this rule. A party to a contested agency proceeding shall not communicate directly or indirectly with the presiding officer or the agency head regarding any substantive issue in the contested case. When a presiding officer or

the agency head becomes aware of an ex parte communication regarding any substantive issue from a party or representative of a party during a contested case, the presiding officer or agency head shall place a copy or written summary of the communication in the file for the case and order the party providing the communication to serve a copy of the communication or written summary upon all parties of record. Repeated violations of this rule shall be cause for the presiding officer to dismiss an action or to dismiss a party from an action. Written communications from a party showing service upon all other parties are not ex parte communications. (3-20-20)T

**418. -- 499. (RESERVED)**

**500. ALTERNATIVE RESOLUTION OF CONTESTED CASES (RULE 500).**

The Idaho Legislature encourages informal means of alternative dispute resolution (ADR). For contested cases, the means of ADR include, but are not limited to, settlement negotiations, mediation, fact finding, mini-trials, and arbitration, or any combination of them. These alternatives can frequently lead to more creative, efficient and sensible outcomes than may be attained under formal contested case procedures. An agency may use ADR for the resolution of issues in controversy in a contested case if the agency finds that such a proceeding is appropriate. An agency may, for example, find that using ADR is not appropriate if it determines that an authoritative resolution of the matter is needed for precedential value, that formal resolution of the matter is of special importance to avoid variation in individual decisions, that the matter significantly affects persons who are not parties to the proceeding, or that a formal proceeding is in the public interest. (3-20-20)T

**501. NEUTRALS (RULE 501).**

When ADR is used for all or a portion of a contested case, the agency may provide a neutral to assist the parties in resolving their disputed issues. The neutral may be an employee of the agency or of another state agency or any other individual who is acceptable to the parties to the proceeding. A neutral shall have no official, financial, or personal conflict of interest with respect to the issues in controversy, unless such interest is disclosed in writing to all parties and all parties agree that the neutral may serve. (3-20-20)T

**502. CONFIDENTIALITY (RULE 502).**

Communications in an ADR proceeding shall not be disclosed by the neutral or by any party to the proceeding unless all parties to the proceeding consent in writing, the communication has already been made public, or is required by court order, statute or agency rule to be made public. (3-20-20)T

**503. -- 509. (RESERVED)**

**510. PURPOSES OF PREHEARING CONFERENCES (RULE 510).**

The presiding officer, or an authorized employee of the agency, may by order or notice issued to all parties convene a prehearing conference in a contested case for the purposes of formulating or simplifying the issues, obtaining concessions of fact or identification of documents to avoid unnecessary proof, scheduling discovery (when discovery is allowed), arranging for the exchange of proposed exhibits or prepared testimony, limiting witnesses, discussing settlement offers or making settlement offers, scheduling hearings, establishing procedure at hearings, and addressing other matters that may expedite orderly conduct and disposition of the proceeding or its settlement. (3-20-20)T

**511. NOTICE OF PREHEARING CONFERENCE (RULE 511).**

Notice of the place, date and hour of a prehearing conference will be served at least fourteen (14) days before the time set for the prehearing conference, unless the presiding officer finds it necessary or appropriate for the conference to be held earlier. Notices for prehearing conference must contain the same information as notices of hearing with regard to an agency's obligations under the American with Disabilities Act. (3-20-20)T

**512. RECORD OF CONFERENCE (RULE 512).**

Prehearing conferences may be held formally (on the record) or informally (off the record) before or in the absence of a presiding officer, according to order or notice. Agreements by the parties to the conference may be put on the record during formal conferences or may be reduced to writing and filed with the agency after formal or informal conferences. (3-20-20)T

**513. ORDERS RESULTING FROM PREHEARING CONFERENCE (RULE 513).**

The presiding officer, or an authorized employee of the agency, may issue a prehearing order or notice based upon the results of the agreements reached at or rulings made at a prehearing conference. A prehearing order will control the

course of subsequent proceedings unless modified by the presiding officer for good cause. (3-20-20)T

**514. FACTS DISCLOSED NOT PART OF THE RECORD (RULE 514).**

Facts disclosed, offers made and all other aspects of negotiation (except agreements reached) in prehearing conferences in a contested case are not part of the record. (3-20-20)T

**515. -- 519. (RESERVED)**

**520. KINDS AND SCOPE OF DISCOVERY LISTED (RULE 520).**

**01. Kinds of Discovery.** The kinds of discovery recognized and authorized by these rules in contested cases are: (3-20-20)T

- a.** Depositions; (3-20-20)T
- b.** Production requests or written interrogatories; (3-20-20)T
- c.** Requests for admission; (3-20-20)T
- d.** Subpoenas; and (3-20-20)T
- e.** Statutory inspection, examination (including physical or mental examination), investigation, etc. (3-20-20)T

**02. Rules of Civil Procedure.** Unless otherwise provided by statute, rule, order or notice, the scope of discovery, other than statutory inspection, examination, investigation, etc., is governed by the Idaho Rules of Civil Procedure (see Idaho Rule of Civil Procedure 26(b)). (3-20-20)T

**521. WHEN DISCOVERY AUTHORIZED (RULE 521).**

No party before the agency is entitled to engage in discovery unless the party moves for an order authorizing discovery and the agency issues an order authorizing the requested discovery, or upon agreement of all parties to the discovery that discovery may be conducted. The presiding officer shall provide a schedule for discovery in the order authorizing discovery, but the order authorizing and scheduling discovery need not conform to the timetables of the Idaho Rules of Civil Procedure. A party, upon reasonable notice to other parties and all persons affected thereby, may apply for an order compelling discovery in a manner consistent with the provisions of Rule 37(a) of the Idaho Rules of Civil Procedure. The agency or agency staff may conduct statutory inspection, examination, investigation, etc., at any time without filing a motion to authorize discovery. (3-20-20)T

**522. RIGHTS TO DISCOVERY RECIPROCAL (RULE 522).**

All parties to a proceeding have a right of discovery of all other parties to a proceeding according to Rule 521 and to the authorizing statutes and rules. The presiding officer may by order authorize or compel necessary discovery authorized by statute or rule. (3-20-20)T

**523. DEPOSITIONS (RULE 523).**

Depositions may be taken in accordance with the Idaho Rules of Civil Procedure for any purpose allowed by statute, the Idaho Rules of Civil Procedure, or rule or order of the agency. (3-20-20)T

**524. PRODUCTION REQUESTS OR WRITTEN INTERROGATORIES AND REQUESTS FOR ADMISSION (RULE 524).**

Production requests or written interrogatories and requests for admission may be taken in accordance with the Idaho Rules of Civil Procedure for any purpose allowed by statute, the Idaho Rules of Civil Procedure, or rule or order of the agency. (3-20-20)T

**525. SUBPOENAS (RULE 525).**

The agency may issue subpoenas upon a party's motion or upon its own initiative. The agency upon motion to quash made promptly, and in any event, before the time to comply with the subpoena, may quash the subpoena, or condition denial of the motion to quash upon reasonable terms. (3-20-20)T

**526. STATUTORY INSPECTION, EXAMINATION, INVESTIGATION, ETC. -- CONTRASTED WITH OTHER DISCOVERY (RULE 526).**

This rule recognizes, but does not enlarge or restrict, an agency's statutory right of inspection, examination (including mental or physical examination), investigation, etc. This statutory right of an agency is independent of and cumulative to any right of discovery in formal proceedings and may be exercised by the agency whether or not a person is party to a formal proceeding before the agency. Information obtained from statutory inspection, examination, investigation, etc., may be used in formal proceedings or for any other purpose, except as restricted by statute or rule. The rights of deposition, production request or written interrogatory, request for admission, and subpoena, can be used by parties only in connection with formal proceedings before the agency. (3-20-20)T

**527. ANSWERS TO PRODUCTION REQUESTS OR WRITTEN INTERROGATORIES AND TO REQUESTS FOR ADMISSION (RULE 527).**

Answers to production requests or written interrogatories and to requests for admission shall be filed or served as provided by the order compelling discovery. Answers must conform to the requirements of the Idaho Rules of Civil Procedure. The order compelling discovery may provide that voluminous answers to requests need not be served so long as they are made available for inspection and copying under reasonable terms. (3-20-20)T

**528. FILING AND SERVICE OF DISCOVERY-RELATED DOCUMENTS (RULE 528).**

Notices of deposition, cover letters stating that production requests, written interrogatories or requests for admission have been served, cover letters stating answers to production requests, written interrogatories, or requests for admission have been served or are available for inspection under Rule 527, and objections to discovery must be filed and served as provided in the order authorizing discovery. (3-20-20)T

**529. EXHIBIT NUMBERS (RULE 529).**

The agency assigns exhibit numbers to each party. (3-20-20)T

**530. PREPARED TESTIMONY AND EXHIBITS (RULE 530).**

Order, notice or rule may require a party or parties to file before hearing and to serve on all other parties prepared expert testimony and exhibits to be presented at hearing. Assigned exhibit numbers should be used in all prepared testimony. (3-20-20)T

**531. SANCTIONS FOR FAILURE TO OBEY ORDER COMPELLING DISCOVERY (RULE 531).**

The agency may impose all sanctions recognized by statute or rules for failure to comply with an order compelling discovery, including but not limited to the sanctions listed in paragraphs (A), (B), and (C) of Rule 37(b)(2) of the Idaho Rules of Civil Procedure. (3-20-20)T

**532. PROTECTIVE ORDERS (RULE 532).**

As authorized by statute or rule, the agency may issue protective orders limiting access to information generated during settlement negotiations, discovery, or hearing. (3-20-20)T

**533. -- 549. (RESERVED)**

**550. NOTICE OF HEARING (RULE 550).**

Notice of the place, date and hour of hearing will be served on all parties at least fourteen (14) days before the time set for hearing, unless the agency finds by order that it is necessary or appropriate that the hearing be held earlier. Notices must comply with the requirements of Rule 551. Notices must list the names of the parties (or the lead parties if the parties are too numerous to name), the case number or docket number, the names of the presiding officers who will hear the case, the name, address and telephone number of the person to whom inquires about scheduling, hearing facilities, etc., should be directed, and the names of persons with whom the documents, pleadings, etc., in the case should be filed if the presiding officer is not the person who should receive those documents. If no document previously issued by the agency has listed the legal authority of the agency to conduct the hearing, the notice of hearing must do so. The notice of hearing shall state that the hearing will be conducted under these rules of procedure and inform the parties where they may read or obtain a copy. (3-20-20)T

**551. FACILITIES AT OR FOR HEARING AND A.D.A. REQUIREMENTS (RULE 551).**

All hearings must be held in facilities meeting the accessibility requirements of the Americans with Disabilities Act,

and all notices of hearing must inform the parties that the hearing will be conducted in facilities meeting the accessibility requirements of the Americans with Disabilities Act. All notices of hearing must inform the parties and other persons notified that if they require assistance of the kind that the agency is required to provide under the Americans with Disabilities Act in order to participate in or understand the hearing, the agency will supply that assistance upon request a reasonable number of days before the hearing. The notice of hearing shall explicitly state the number of days before the hearing that the request must be made. (3-20-20)T

**552. HOW HEARINGS HELD (RULE 552).**

Hearings may be held in person or by telephone or television or other electronic means, if each participant in the hearing has an opportunity to participate in the entire proceeding while it is taking place. (3-20-20)T

**553. CONDUCT AT HEARINGS (RULE 553).**

All persons attending a hearing must conduct themselves in a respectful manner. Smoking is not permitted at hearings. The presiding officer may exclude persons from the hearing who refuse to conduct themselves in a respectful manner. Disruptive conduct that is serious in nature shall be cause for dismissal of a disrupting party from the proceeding. (3-20-20)T

**554. CONFERENCE AT HEARING (RULE 554).**

In any proceeding the presiding officer may convene the parties before hearing or recess the hearing to discuss formulation or simplification of the issues, admissions of fact or identification of documents to avoid unnecessary proof, exchanges of documents, exhibits or prepared testimony, limitation of witnesses, establishment of order of procedure, and other matters that may expedite orderly conduct of the hearing. The presiding officer shall state the results of the conference on the record. (3-20-20)T

**555. PRELIMINARY PROCEDURE AT HEARING (RULE 555).**

Before taking evidence the presiding officer will call the hearing to order, take appearances of parties, and act upon any pending motions or petitions. The presiding officer may allow opening statements as necessary or appropriate to explain a party's presentation. (3-20-20)T

**556. CONSOLIDATION OF PROCEEDINGS (RULE 556).**

The agency may consolidate two (2) or more proceedings for hearing upon finding that they present issues that are related and that the rights of the parties will not be prejudiced. In consolidated hearings the presiding officer determines the order of the proceeding. (3-20-20)T

**557. STIPULATIONS (RULE 557).**

Parties may stipulate among themselves to any fact at issue in a contested case by written statement filed with the presiding officer or presented at hearing or by oral statement at hearing. A stipulation binds all parties agreeing to it only according to its terms. The agency may regard a stipulation as evidence or may require proof by evidence of the facts stipulated. The agency is not bound to adopt a stipulation of the parties, but may do so. If the agency rejects a stipulation, it will do so before issuing a final order, and it will provide an additional opportunity for the parties to present evidence and arguments on the subject matter of the rejected stipulation. (3-20-20)T

**558. ORDER OF PROCEDURE (RULE 558).**

The presiding officer may determine the order of presentation of witnesses and examination of witnesses. (3-20-20)T

**559. TESTIMONY UNDER OATH (RULE 559).**

All testimony presented in formal hearings will be given under oath. Before testifying each witness must swear or affirm that the testimony the witness will give before the agency is the truth, the whole truth, and nothing but the truth. (3-20-20)T

**560. PARTIES AND PERSONS WITH SIMILAR INTERESTS (RULE 560).**

If two (2) or more parties or persons have substantially like interests or positions, to expedite the proceeding and avoid duplication, the presiding officer may limit the number of them who testify, examine witnesses, or make and argue motions and objections. (3-20-20)T

**561. CONTINUANCE OF HEARING (RULE 561).**

The presiding officer may continue proceedings for further hearing. (3-20-20)T

**562. RULINGS AT HEARINGS (RULE 562).**

The presiding officer rules on motions and objections presented at hearing. When the presiding officer is a hearing officer, the presiding officer's rulings may be reviewed by the agency head in determining the matter on its merits and the presiding officer may refer or defer rulings to the agency head for determination. (3-20-20)T

**563. ORAL ARGUMENT (RULE 563).**

The presiding officer may set and hear oral argument on any matter in the contested case on reasonable notice according to the circumstances. (3-20-20)T

**564. BRIEFS -- MEMORANDA -- PROPOSED ORDERS OF THE PARTIES -- STATEMENTS OF POSITION -- PROPOSED ORDER OF THE PRESIDING OFFICER (RULE 564).**

In any contested case, any party may ask to file briefs, memoranda, proposed orders of the parties or statements of position, and the presiding officer may request briefs, proposed orders of the parties, or statements of position. The presiding officer may issue a proposed order and ask the parties for comment upon the proposed order. (3-20-20)T

**565. PROCEDURE ON PREHEARING MOTIONS (RULE 565).**

The presiding officer may consider and decide prehearing motions with or without oral argument or hearing. Unless otherwise provided by the presiding officer upon a showing of good cause by a party, when a motion has been filed, all parties joining in, answering to or responding to the motion(s) will have fourteen (14) days from the time of filing of the motion in which to respond. (3-20-20)T

**566. JOINT HEARINGS (RULE 566).**

The agency may hold joint hearings with federal agencies, with agencies of other states, and with other agencies of the state of Idaho. When joint hearings are held, the agencies may agree among themselves which agency's rules of practice and procedure will govern. (3-20-20)T

**567. -- 599. (RESERVED)**

**600. RULES OF EVIDENCE -- EVALUATION OF EVIDENCE (RULE 600).**

Evidence should be taken by the agency to assist the parties' development of a record, not excluded to frustrate that development. The presiding officer at hearing is not bound by the Idaho Rules of Evidence. No informality in any proceeding or in the manner of taking testimony invalidates any order. The presiding officer, with or without objection, may exclude evidence that is irrelevant, unduly repetitious, inadmissible on constitutional or statutory grounds, or on the basis of any evidentiary privilege provided by statute or recognized in the courts of Idaho. All other evidence may be admitted if it is of a type commonly relied upon by prudent persons in the conduct of their affairs. The agency's experience, technical competence and specialized knowledge may be used in evaluation of evidence. (3-20-20)T

**601. DOCUMENTARY EVIDENCE (RULE 601).**

Documentary evidence may be received in the form of copies or excerpts. Upon request, parties shall be given an opportunity to compare the copy with the original if available. (3-20-20)T

**602. OFFICIAL NOTICE -- AGENCY STAFF MEMORANDA (RULE 602).**

Official notice may be taken of any facts that could be judicially noticed in the courts of Idaho and of generally recognized technical or scientific facts within the agency's specialized knowledge. Parties shall be notified of the specific facts or material noticed and the source of the material noticed, including any agency staff memoranda and data. Notice that official notice will be taken should be provided either before or during the hearing, and must be provided before the issuance of any order that is based in whole or in part on facts or material officially noticed. Parties must be given an opportunity to contest and rebut the facts or material officially noticed. When the presiding officer proposes to notice agency staff memoranda or agency staff reports, responsible staff employees or agents shall be made available for cross-examination if any party timely requests their availability. (3-20-20)T

**603. DEPOSITIONS (RULE 603).**

Depositions may be offered into evidence. (3-20-20)T

**604. OBJECTIONS -- OFFERS OF PROOF (RULE 604).**

Grounds for objection to the admission or exclusion of evidence must be stated briefly at the time the evidence is offered. Formal exceptions to rulings admitting or excluding evidence are unnecessary and need not be taken. An offer of proof for the record consists of a statement of the substance of the excluded evidence. When a party objects to the admission of evidence, the presiding officer will rule on the objection, or, if the presiding officer is a hearing officer, the presiding officer may receive the evidence subject to later ruling by the agency head or refer the matter to the agency head. (3-20-20)T

**605. PREPARED TESTIMONY (RULE 605).**

The presiding officer may order a witness's prepared testimony previously distributed to all parties to be included in the record of hearing as if read. Admissibility of prepared testimony is subject to Rule 600. (3-20-20)T

**606. EXHIBITS (RULE 606).**

Exhibit numbers may be assigned to the parties before hearing. Exhibits prepared for hearing should ordinarily be typed or printed on eight and one-half inch (8 1/2") by eleven inch (11") white paper, except that maps, charts, photographs and non-documentary exhibits may be introduced on the size or kind of paper customarily used for them. A copy of each documentary exhibit must be furnished to each party present and to the presiding officer, except for unusually bulky or voluminous exhibits that have previously been made available for the parties' inspection. Copies must be of good quality. Exhibits identified at hearing are subject to appropriate and timely objection before the close of proceedings. Exhibits to which no objection is made are automatically admitted into evidence without motion of the sponsoring party. Neither motion pictures, slides, opaque projections, videotapes, audiotapes nor other materials not capable of duplication by still photograph or reproduction on paper shall be presented as exhibits without approval of the presiding officer prior to the hearing. (3-20-20)T

**607. -- 609. (RESERVED)**

**610. CONFIDENTIALITY OF SETTLEMENT NEGOTIATIONS (RULE 610).**

Settlement negotiations in a contested case are confidential, unless all participants to the negotiation agree to the contrary in writing. Facts disclosed, offers made and all other aspects of negotiation (except agreements reached) in settlement negotiations in a contested case are not part of the record. (3-20-20)T

**611. SUGGESTION FOR OR INQUIRY ABOUT SETTLEMENTS (RULE 611).**

Through notice or order or on the record at prehearing conference or hearing, the presiding officer may inquire of the parties in any proceeding whether settlement negotiations are in progress or are contemplated or may invite settlement of an entire proceeding or certain issues. (3-20-20)T

**612. CONSIDERATION OF SETTLEMENTS (RULE 612).**

Settlements must be reviewed under this rule. When a settlement is presented to the presiding officer, the presiding officer will prescribe procedures appropriate to the nature of the settlement to consider the settlement. For example, the presiding officer could summarily accept settlement of essentially private disputes that have no significant implications for administration of the law for persons other than the affected parties. On the other hand, when one (1) or more parties to a proceeding is not party to the settlement or when the settlement presents issues of significant implication for other persons, the presiding officer may convene an evidentiary hearing to consider the reasonableness of the settlement and whether acceptance of the settlement is consistent with the agency's charge under the law. (3-20-20)T

**613. BURDENS OF PROOF (RULE 613).**

Proponents of a proposed settlement carry the burden of showing that the settlement is in accordance with the law. The presiding officer may require the development of an appropriate record in support of or opposition to a proposed settlement as a condition of accepting or rejecting the settlement. (3-20-20)T

**614. SETTLEMENT NOT BINDING (RULE 614).**

The presiding officer is not bound by settlement agreements that are not unanimously accepted by all parties or that have significant implications for persons not parties. In these instances, the presiding officer will independently review any proposed settlement to determine whether the settlement is in accordance with the law. (3-20-20)T

**615. -- 649. (RESERVED)**

**650. RECORD FOR DECISION (RULE 650).**

- 01. Official Record.** The agency shall maintain an official record for each contested case and (unless statute provides otherwise) base its decision in a contested case on the official record for the case. (3-20-20)T
- 02. Contents of Record.** The record for a contested case shall include: (3-20-20)T
- a.** All notices of proceedings; (3-20-20)T
  - b.** All applications or claims or appeals, petitions, complaints, protests, motions, and answers filed in the proceeding; (3-20-20)T
  - c.** All intermediate or interlocutory rulings of hearing officers or the agency head; (3-20-20)T
  - d.** All evidence received or considered (including all transcripts or recordings of hearings and all exhibits offered or identified at hearing); (3-20-20)T
  - e.** All offers of proof, however made; (3-20-20)T
  - f.** All briefs, memoranda, proposed orders of the parties or of the presiding officers, statements of position, statements of support, and exceptions filed by parties or persons not parties; (3-20-20)T
  - g.** All evidentiary rulings on testimony, exhibits, or offers of proof; (3-20-20)T
  - h.** All staff memoranda or data submitted in connection with the consideration of the proceeding; (3-20-20)T
  - i.** A statement of matters officially noticed; and (3-20-20)T
  - j.** All recommended orders, preliminary orders, final orders, and orders on reconsideration. (3-20-20)T

**651. RECORDING OF HEARINGS (RULE 651).**

All hearings shall be recorded on audiotape or videotape at the agency's expense. The agency may provide for a transcript of the proceeding at its own expense. Any party may have a transcript prepared at its own expense. If the transcript prepared at the expense of a party is deemed by the presiding officer to be the official transcript of the hearing, the party shall furnish the agency a transcript without charge. (3-20-20)T

**652. -- 699. (RESERVED)**

**700. NOTICE OF PROPOSED DEFAULT AFTER FAILURE TO APPEAR OR RESPOND (RULE 700).**

If an applicant or claimant or appellant, petitioner, protestant, complainant, or moving party fails to appear at the time and place set for hearing, or prehearing conference, on an application or claim or appeal, petition, complaint, or motion, or fails to respond to a written information inquiry, the presiding officer may serve upon all parties a notice of a proposed default order denying the application or claim or appeal, petition, complaint, or motion. The notice of a proposed default order shall include a statement that the default order is proposed to be issued because of a failure of the applicant or claimant or appellant, petitioner, complainant or moving party to appear at the time and place set for hearing or prehearing conference, or to respond to the information inquiry. The notice of proposed default order may be mailed to the last known mailing address of the party proposed to be defaulted. (3-20-20)T

**701. SEVEN DAYS TO CHALLENGE PROPOSED DEFAULT ORDER (RULE 701).**

Within seven (7) days after the service of the notice of proposed default order, the party against whom it was filed may file a written petition requesting that a default order not be entered. The petition must state the grounds why the petitioning party believes that default should not be entered. (3-20-20)T

**702. ISSUANCE OF DEFAULT ORDER (RULE 702).**

The agency shall promptly issue a default order or withdraw the notice of proposed default order after expiration of

the seven (7) days for the party to file a petition contesting the default order or receipt of a petition. If a default order is issued, all further proceedings necessary to complete the contested case shall be conducted without participation of the party in default (if the defaulting party is not a movant) or upon the results of the denial of the motion (if the defaulting party is a movant). All issues in the contested case shall be determined, including those affecting the defaulting party. Costs may be assessed against a defaulting party. (3-20-20)T

**703. -- 709. (RESERVED)**

**710. INTERLOCUTORY ORDERS (RULE 710).**

Interlocutory orders are orders that do not decide all previously undecided issues presented in a proceeding, except the agency may by order decide some of the issues presented in a proceeding and provide in that order that its decision on those issues is final and subject to review by reconsideration or appeal, but is not final on other issues. Unless an order contains or is accompanied by a document containing one (1) of the paragraphs set forth in Rules 720, 730 or 740 or a paragraph substantially similar, the order is interlocutory. The following orders are always interlocutory: orders initiating complaints or investigations; orders joining, consolidating or separating issues, proceedings or parties; orders granting or denying intervention; orders scheduling prehearing conferences, discovery, hearing, oral arguments or deadlines for written submissions; and orders compelling or refusing to compel discovery. Interlocutory orders may be reviewed by the officer issuing the order pursuant to Rules 711, 760, and 770. (3-20-20)T

**711. REVIEW OF INTERLOCUTORY ORDERS (RULE 711).**

Any party or person affected by an interlocutory order may petition the officer issuing the order to review the interlocutory order. The officer issuing an interlocutory order may rescind, alter or amend any interlocutory order on the officer's own motion, but will not on the officer's own motion review any interlocutory order affecting any party's substantive rights without giving all parties notice and an opportunity for written comment. (3-20-20)T

**712. CONTENTS OF ORDERS (RULE 712).**

Pursuant to Section 67-5248, Idaho Code, an order that determines the legal rights or interests of one (1) or more parties must be in writing and shall include the following: (3-20-20)T

**01. Findings of Fact and Conclusions of Law.** An order shall contain a reasoned statement in support of the decision. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts of record supporting the findings. Findings of fact must be based exclusively on the evidence in the record of the contested case and on matters officially noticed in that proceeding. (3-20-20)T

**02. Statement of Available Procedure.** An order shall contain a statement of the available procedures and applicable time limits for seeking reconsideration or other administrative relief. (3-20-20)T

**713. -- 719. (RESERVED)**

**720. RECOMMENDED ORDERS (RULE 720).**

**01. Recommended Orders -- Definition.** Recommended orders are orders issued by a person other than the agency head that will become a final order of the agency only after review of the agency head (or the agency head's designee) pursuant to Section 67-5244, Idaho Code. (3-20-20)T

**02. Contents of Recommended Orders.** Every recommended order must contain or be accompanied by a document containing the following paragraphs or substantially similar paragraphs: (3-20-20)T

**a.** This is a recommended order of the hearing officer. It will not become final without action of the agency head. Any party may file a petition for reconsideration of this recommended order with the hearing officer issuing the order within fourteen (14) days of the service date of this order. The hearing officer issuing this recommended order will dispose of any petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3), Idaho Code. (3-20-20)T

**b.** Within fourteen (14) days after (a) the service date of this recommended order, (b) the service date of a denial of a petition for reconsideration from this recommended order, or (c) the failure within twenty-one (21)

days to grant or deny a petition for reconsideration from this recommended order, any party may in writing support or take exceptions to any part of this recommended order and file briefs in support of the party's position with the agency head or designee on any issue in the proceeding. If no party files exceptions to the recommended order with the agency head or designee, the agency head or designee will issue a final order within fifty-six (56) days after:

(3-20-20)T

- i. The last day a timely petition for reconsideration could have been filed with the hearing officer; (3-20-20)T
- ii. The service date of a denial of a petition for reconsideration by the hearing officer; or (3-20-20)T
- iii. The failure within twenty-one (21) days to grant or deny a petition for reconsideration by the hearing officer. (3-20-20)T

c. Written briefs in support of or taking exceptions to the recommended order shall be filed with the agency head (or designee of the agency head). Opposing parties shall have fourteen (14) days to respond. The agency head or designee may schedule oral argument in the matter before issuing a final order. The agency head or designee will issue a final order within fifty-six (56) days of receipt of the written briefs or oral argument, whichever is later, unless waived by the parties or for good cause shown. The agency may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. (3-20-20)T

**721. -- 729. (RESERVED)**

**730. PRELIMINARY ORDERS (RULE 730).**

**01. Preliminary Orders -- Definition.** Preliminary orders are orders issued by a person other than the agency head that will become a final order of the agency unless reviewed by the agency head (or the agency head's designee) pursuant to Section 67-5245, Idaho Code. (3-20-20)T

**02. Contents of Preliminary Order.** Every preliminary order must contain or be accompanied by a document containing the following paragraphs or substantially similar paragraphs: (3-20-20)T

a. This is a preliminary order of the hearing officer. It can and will become final without further action of the agency unless any party petitions for reconsideration before the hearing officer issuing it or appeals to the hearing officer's superiors in the agency. Any party may file a petition for reconsideration of this preliminary order with the hearing officer issuing the order within fourteen (14) days of the service date of this order. The hearing officer issuing this order will dispose of the petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3), Idaho Code. (3-20-20)T

b. Within fourteen (14) days after: (3-20-20)T

i. The service date of this preliminary order; (3-20-20)T

ii. The service date of the denial of a petition for reconsideration from this preliminary order; or (3-20-20)T

iii. The failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing appeal or take exceptions to any part of the preliminary order and file briefs in support of the party's position on any issue in the proceeding to the agency head (or designee of the agency head). Otherwise, this preliminary order will become a final order of the agency. (3-20-20)T

c. If any party appeals or takes exceptions to this preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal within the agency. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the agency head (or designee). The agency head (or designee) may review the preliminary order on its own motion. (3-20-20)T

d. If the agency head (or designee) grants a petition to review the preliminary order, the agency head

(or designee) shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. The agency head (or designee) will issue a final order within fifty-six (56) days of receipt of the written briefs or oral argument, whichever is later, unless waived by the parties or for good cause shown. The agency head (or designee) may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. (3-20-20)T

**e.** Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department or the Board is otherwise provided by statute, any person aggrieved by any decision, determination, order or action of the director of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the director, who is aggrieved by a denial or conditional approval ordered by the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the denial or conditional approval upon filing with the director, within fifteen (15) days after receipt of the denial or conditional approval, a written petition stating the grounds for contesting the action by the director and requesting a hearing. (3-20-20)T

**f.** Pursuant to Sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which: (3-20-20)T

i. A hearing was held; (3-20-20)T

ii. The final agency action was taken; (3-20-20)T

iii. The party seeking review of the order resides; or (3-20-20)T

iv. The real property or personal property that was the subject of the agency action is located. (3-20-20)T

**g.** This appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See Section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. (3-20-20)T

**731. -- 739. (RESERVED)**

**740. FINAL ORDERS (RULE 740).**

**01. Final Order -- Definition.** Final orders are preliminary orders that have become final under Rule 730 pursuant to Section 67-5245, Idaho Code, or orders issued by the agency head pursuant to Section 67-5246, Idaho Code, or emergency orders, including cease and desist or show cause orders, issued by the agency head pursuant to Section 67-5247, Idaho Code. (3-20-20)T

**02. Content of Final Order.** Every final order issued by the agency head must contain or be accompanied by a document containing the following paragraphs or substantially similar paragraphs: (3-20-20)T

**a.** This is a final order of the agency. Any party may file a petition for reconsideration of this final order within fourteen (14) days of the service date of this order. The agency will dispose of the petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5246(4), Idaho Code. (3-20-20)T

**b.** Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department or the Board is otherwise provided by statute, any person aggrieved by any decision, determination, order or action of the director of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the director, who is aggrieved by a denial or conditional approval ordered by the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the denial or conditional approval upon filing with the director, within fifteen (15) days after receipt of the denial or conditional approval, a written petition stating the grounds for

contesting the action by the director and requesting a hearing. (3-20-20)T

**c.** Pursuant to Sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by this final order or orders previously issued in this case may appeal this final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which: (3-20-20)T

i. A hearing was held; (3-20-20)T

ii. The final agency action was taken; (3-20-20)T

iii. The party seeking review of the order resides; or (3-20-20)T

iv. The real property or personal property that was the subject of the agency action is located. (3-20-20)T

**d.** An appeal must be filed within twenty-eight (28) days (a) of the service date of this final order, (b) of an order denying petition for reconsideration, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See Section 67-5273, Idaho Code, and Rule 84 of the Idaho Rules of Civil Procedure. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. (3-20-20)T

**741. -- 749. (RESERVED)**

**750. ORDER NOT DESIGNATED (RULE 750).**

If an order does not designate itself as recommended, preliminary or final at its release, but is designated as recommended, preliminary or final after its release, its effective date for purposes of reconsideration or appeal is the date of the order of designation. If a party believes that an order not designated as a recommended order, preliminary order or final order according to the terms of these rules should be designated as a recommended order, preliminary order or final order, the party may move to designate the order as recommended, preliminary or final, as appropriate. (3-20-20)T

**751. -- 759. (RESERVED)**

**760. MODIFICATION OF ORDER ON PRESIDING OFFICER'S OWN MOTION (RULE 760).**

A hearing officer issuing a recommended or preliminary order may modify the recommended or preliminary order on the hearing officer's own motion within fourteen (14) days after issuance of the recommended or preliminary order by withdrawing the recommended or preliminary order and issuing a substitute recommended or preliminary order. The agency head may modify or amend a final order of the agency (be it a preliminary order that became final because no party challenged it or a final order issued by the agency head itself) at any time before notice of appeal to District Court has been filed or the expiration of the time for appeal to District Court, whichever is earlier, by withdrawing the earlier final order and substituting a new final order for it. (3-20-20)T

**761. -- 769. (RESERVED)**

**770. CLARIFICATION OF ORDERS (RULE 770).**

Any party or person affected by an order may petition to clarify any order, whether interlocutory, recommended, preliminary or final. Petitions for clarification from final orders do not suspend or toll the time to petition for reconsideration or appeal the order. A petition for clarification may be combined with a petition for reconsideration or stated in the alternative as a petition for clarification and/or reconsideration. (3-20-20)T

**771. -- 779. (RESERVED)**

**780. STAY OF ORDERS (RULE 780).**

Any party or person affected by an order may petition the agency to stay any order, whether interlocutory or final. Interlocutory or final orders may be stayed by the judiciary according to statute. The agency may stay any interlocutory or final order on its own motion. (3-20-20)T

**781. -- 789. (RESERVED)**

**790. PERSONS WHO MAY APPEAL (RULE 790).**

Pursuant to Section 67-5270, Idaho Code, any party aggrieved by a final order of an agency in a contested case may appeal to district court. Pursuant to Section 67-5271, Idaho Code, a person is not entitled to judicial review of an agency action in district court until that person has exhausted all administrative remedies available with the agency, but a preliminary, procedural, or intermediate agency action or ruling is immediately reviewable in district court if review of the final agency action would not provide an adequate remedy. (3-20-20)T

**791. NOTICE OF APPEAL (RULE 791).**

The notice of appeal must be filed with the district court and served on the agency and all parties. (3-20-20)T

**01. Filing Appeal.** Pursuant to Section 67-5272, Idaho Code, appeals may be filed in the district court of the county in which: (3-20-20)T

- a.** The hearing was held; (3-20-20)T
- b.** The final agency action was taken; (3-20-20)T
- c.** The party seeking review of the agency action resides; or (3-20-20)T
- d.** The real property or personal property that was the subject of the agency is located. (3-20-20)T

**02. Filing Deadline.** Pursuant to Section 67-5273, Idaho Code, and Rule 84 of the Idaho Rules of Civil Procedure a petition for judicial review of a final order in a contested case must be filed within twenty-eight (28) days: (3-20-20)T

- a.** Of the service date of the final order; (3-20-20)T
- b.** Of the denial of the petition for reconsideration; or (3-20-20)T
- c.** The failure within twenty-one (21) days to grant or deny the petition for reconsideration. (3-20-20)T

**792. -- 999. (RESERVED)**

### 37.02.03 – WATER SUPPLY BANK RULES

**000. LEGAL AUTHORITY (RULE 0).**

This chapter is adopted under the legal authority of Section 42-1762, Idaho Code. (3-20-20)T

**001. TITLE AND SCOPE (RULE 1).**

**01. Title.** The title of this chapter is IDAPA 37.02.03, “Water Supply Bank Rules.” (3-20-20)T

**02. Scope.** These rules were first adopted by the Water Resource Board in October 1980 as mandated by Section 42-1762, Idaho Code enacted in 1979. The rules govern the Board’s operation and management of a Water Supply Bank provided for in Sections 42-1761 to 42-1766, Idaho Code. The purposes of the Water Supply Bank, as defined by statute, are to encourage the highest beneficial use of water; provide a source of adequate water supplies to benefit new and supplemental water uses; and provide a source of funding for improving water user facilities and efficiencies. These rules are to be used by the Water Resource Board in considering the purchase, sale, lease or rental of natural flow or stored water, the use of any funds generated therefrom, and the appointment of local committees to facilitate the lease and rental of stored water. The purchase, sale, lease or rental of water shall be in compliance with state and federal law. The adoption of these rules is not intended to prevent any person from directly selling or leasing water by transactions outside the purview of the Water Supply Bank Rules where such transactions are otherwise allowed by law. (3-20-20)T

**002. -- 009. (RESERVED)**

**010. DEFINITIONS (RULE 10).**

**01. Board.** The Idaho Water Resource Board. (3-20-20)T

**02. Board's Water Supply Bank.** The water exchange market operated directly by the Board to facilitate marketing of water rights. (3-20-20)T

**03. Director.** The Director of the Idaho Department of Water Resources. (3-20-20)T

**04. Department.** The Idaho Department of Water Resources. (3-20-20)T

**05. Lease.** To convey by contract a water right to the Board’s water supply bank or stored water to a rental pool operated by a local committee. (3-20-20)T

**06. Local Committee.** The committee which has been designated by action of the Board to facilitate marketing of stored water by operating a rental pool pursuant to Section 42-1765, Idaho Code. (3-20-20)T

**07. Natural Flow.** Water or the right to use water that exists in a spring, stream, river, or aquifer at a certain time and which is not the result of the storage of water flowing at a previous time. (3-20-20)T

**08. Rent.** To convey by contract a water right from the Board’s water supply bank or stored water from a rental pool. (3-20-20)T

**09. Rental Pool.** A market for exchange of stored water operated by a local committee. (3-20-20)T

**10. Stored Water.** Water made available by detention in surface reservoirs or storage space in a surface reservoir. (3-20-20)T

**11. Water Right.** The right to divert and beneficially use the public waters of the state of Idaho including any storage entitlement. (3-20-20)T

**12. Water Supply Bank.** The water exchange market operated by the Water Resource Board pursuant to Section 42-1761 through 42-1766, Idaho Code, and these rules and is a general term which includes the Board’s water supply bank and rental pools. (3-20-20)T

**13. Year.** A time period of twelve (12) consecutive months. (3-20-20)T

**14. Person.** Any company, corporation, association, firm, agency, individual, partnership, Indian tribe, government or other entity. (3-20-20)T

**011. -- 024. (RESERVED)**

**025. ACQUISITION OF WATER RIGHTS FOR THE BOARD'S WATER SUPPLY BANK (RULE 25).**

**01. General.** The Board may purchase, lease, accept as a gift or otherwise obtain rights to natural flow or stored water and credit them to the Board's water supply bank. These water rights may then be divided or combined into more marketable blocks provided that there is no injury to other right holders, or enlargement of use of the water rights, and the change is in the local public interest. Any person proposing to sell or lease water rights to the Board's water supply bank, or to otherwise make water available through the water supply bank for the purposes of Section 42-1763A, Idaho Code, shall file a completed application with the Director on a forms or in a format provided by the Department and provide such additional information as the Board or Director may require in evaluating the proposed transaction. The completed application form shall state the period of time a water right is offered for lease, or the period of time that storage water will be released for fish migration purposes in accordance with Section 42-1763A, Idaho Code, and the payment terms, if any, requested by the applicant. (3-20-20)T

**02. Application.** Submitted with the completed application shall be: (3-20-20)T

**a.** Evidence that the water right has been recorded through court decree, permit or license issued by the Department. If the right is included in an ongoing adjudication, a copy of the claim is required; (3-20-20)T

**b.** Proof of current ownership of the water right by the applicant; (3-20-20)T

**c.** Information that the water right has not been lost through abandonment, or forfeiture as defined by Section 42-222(2), Idaho Code; (3-20-20)T

**d.** Evidence to demonstrate the relative availability of water in the source to fill the water right; and (3-20-20)T

**e.** The written consent of such company, corporation or irrigation district to the proposed sale or lease must accompany the application if the right to the use of the water, or the use of the diversion works or irrigation system is represented by shares of stock in a company or corporation, or if such works or system is owned or managed by an irrigation district. (3-20-20)T

**f.** A lease application filing fee of two hundred fifty dollars (\$250) per water right up to a maximum total of five hundred dollars (\$500.00) for overlapping water rights which have a common place of use or common diversion rate or diversion volume. The lease filing fee described herein shall be deposited in the Water Administration Account and shall not apply to applications to lease stored water into rental pools described in Rule 40. (3-20-20)T

**03. Review.** Upon receipt of the completed application the Director will review it for completeness and make such further review as he deems necessary to adequately brief the Board on the proposed transaction. (3-20-20)T

**04. Inadequate Application.** If an application is not complete, the Director will correspond with the applicant to obtain the needed information. If the requested information is not returned in thirty (30) days, the application will no longer be considered a valid request to place a water right into the Board's water supply bank. (3-20-20)T

**05. Consideration.** The Board may consider an application at any regular or special meeting. (3-20-20)T

**06. Criteria.** The Board will consider the following in determining whether to accept an offered water right into the Board's water supply bank: (3-20-20)T

**a.** Whether the applicant is the current owner, title holder or contract water user of the water right proposed to be transferred to the Board's water supply bank or has authority to act on behalf of the owner; (3-20-20)T

- b.** Whether all necessary consents have been filed with the Board; (3-20-20)T
- c.** Whether the information available to the Board indicates that the water right has been abandoned or forfeited; (3-20-20)T
- d.** Whether the offering price or requested rental rate is reasonable; (3-20-20)T
- e.** Whether acquisition of the water right will be contrary to the State Water Plan; (3-20-20)T
- f.** Whether the application is in the local public interest as defined in Section 42-1763, Idaho Code; (3-20-20)T
- g.** The probability of selling or renting the water right from the Board's water supply bank. (3-20-20)T
- h.** Whether there are sufficient funds on hand to acquire the water right for the Board's water supply bank, provided that, if there are insufficient funds, or if in the opinion of the Board, existing funds should not immediately be expended for such acquisition, the Board may find that the water right should be acquired on a contingency basis, with payment to be made to the seller or lessor only after water is subsequently sold or rented from the Board's water supply bank, and (3-20-20)T
- i.** Such other factors as determined to be appropriate by the Board. (3-20-20)T

**07. Resolution of Board.** The Board may by resolution accept an application to sell or lease a water right to the Board's water supply bank, or to otherwise make water available through the water supply bank for the purposes of Section 42-1763A, Idaho Code. An application to lease together with the resolution accepting it becomes a lease and the water right is placed into the Board's water supply bank upon adoption of the resolution. A resolution accepting an application to sell a right to the Board's water supply bank will provide authority for the chairman of the Board to enter an agreement to purchase the water right. The resolution may include conditions of approval, including but not limited to, the following: (3-20-20)T

- a.** A condition providing the length of time the water right will be retained in the Board's water supply bank. (3-20-20)T
- b.** A condition describing the terms for payment to the owner of the water right and the sale or rental price from the Board's water supply bank. (3-20-20)T
- c.** Other conditions as the Board determines appropriate, including a condition recognizing that water is being made available through the water supply bank pursuant to the provisions of Section 42-1763A, Idaho Code, for purposes of fish migration. (3-20-20)T

**08. Placement of Water Right.** Effect of placement of a water right into the Board's water supply bank. (3-20-20)T

- a.** Upon acceptance of a water right into the Board's water supply bank, the owner of the right may withdraw the right within thirty (30) days of acceptance into the bank if the owner does not agree with the conditions of acceptance. (3-20-20)T
- b.** Upon acceptance of a water right into the Board's water supply bank, the owner of the water right is not authorized to continue the diversion and use of the right while it is in the Board's water supply bank, unless the water right is for hydropower and is placed in the Board's water supply bank to be released for salmon migration and power production purposes. (3-20-20)T
- c.** A water right which has been accepted shall remain in the Board's water supply bank for the period designated by the Board unless removed by resolution of the Board. (3-20-20)T

**d.** The owner of the water right shall remain responsible to take actions required to claim the water right in an adjudication or other legal action concerning the water right and to pay taxes, fees, or assessments related to the water right. (3-20-20)T

**e.** The forfeiture provisions of Section 42-222(2), Idaho Code are tolled during the time period the water right is in the Board's water supply bank, pursuant to the provisions of Section 42-1764, Idaho Code. (3-20-20)T

**026. -- 029. (RESERVED)**

**030. SALE OR RENTAL OF WATER RIGHTS FROM THE BOARD'S WATER SUPPLY BANK (RULE 30).**

**01. General.** The Board may in its discretion initiate the process to sell or rent water rights from the Board's water supply bank to achieve the purposes stated in Rule 1. The Board may from time to time, as water rights are available, authorize the Director to announce the availability of the rights from the Board's water supply bank, establishing a time and date for receiving applications in the office of the Director to purchase or rent the water rights. An application shall be on a form or in a format provided by the Director. The sale or rental price shall be the price, if any, as determined by the Board. The Director will evaluate applications with respect to the purposes of Rule 1, as to whether there will be injury to other water rights, whether the proposal would constitute an enlargement of the water right, whether the water will be put to a beneficial use, whether the water supply available from applicable rights in the Board's water supply bank is sufficient for the use intended, and whether the proposal is in the local public interest. For applications submitted pursuant to the interim authority provided by Section 42-1763A, Idaho Code, the Director will only make an evaluation as to whether the proposed use of water will cause injury to other water rights. The Director may defer the evaluation of potential injury to other water rights conditioned upon the right of any affected water right holder to petition the Director pursuant to Section 42-1766, Idaho Code, to revoke or modify the rental approval upon a showing of injury. (3-20-20)T

**02. Notice.** The Director may give notice of an intended rental as he deems necessary, provided that prior to approving any application for purchase, or for rental for a period of more than five (5) years, he shall give notice as required in Section 42-222(1), Idaho Code. (3-20-20)T

**03. Approval.** Sale or rental shall be approved only for use of water within the state of Idaho. The Director shall consider in determining whether to approve a rental of water for use outside of the state of Idaho those factors enumerated in Section 42-401(3), Idaho Code, except that this evaluation shall not be required for applications submitted pursuant to the interim authority provided by Section 42-1763A, Idaho Code. (3-20-20)T

**04. Consideration.** All applications received on or prior to the announced date for receiving applications shall be considered as having been received at the same time. Applications received after the close of the application date may be considered only if sufficient available water remains in the Board's water supply bank after all acceptable, timely applications have been filed. (3-20-20)T

**05. Authorized to Rent.** The Director is authorized to rent water rights offered by the Board from the Board's water supply bank for a period up to five (5) years, but shall submit applications for purchase, or rental for a period of more than five (5) years to the Board for action. The Director will advise the Board on applications which require Board approval under Rule Subsection 025.06 whether he can approve the application in whole or in part or with conditions to comply with Section 42-1763, Idaho Code. (3-20-20)T

**06. Board Review.** The Board will review applications for purchase or which propose the rental of water rights for a duration of more than five (5) years, and may approve, approve with conditions or may reject the applications as the Board determines to best meet the purposes of Rule 1 and promote the interest of the people of the state of Idaho. (3-20-20)T

**07. Order of Consideration.** When renting water from the bank, the Director and the Board shall consider rental of water rights in the order the rights were leased to the bank, with first consideration for the rights which have continuously been in the bank the longest period of time provided the rights are suitable for the purpose of the renter. (3-20-20)T

**031. -- 034. (RESERVED)**

**035. HANDLING OF MONEY ASSOCIATED WITH THE BOARD'S WATER SUPPLY BANK (RULE 35).**

Payments received by the Department from the sale or rental of water rights from the Board's water supply bank shall be handled as follows: (3-20-20)T

**01. Credited Amount.** Ten percent (10%) of the gross amount received from the sale or rental of a water right from the Board's water supply bank and the entire lease application fee received pursuant to Rule 025 shall be credited to the Water Administration Account created by Section 42-238a, Idaho Code, or to the federal grant fund if the payment is received from a federal agency, for administrative costs of operating the Water Supply Bank. The ten percent (10%) charge described herein shall not apply to stored water rented from the rental pools described in Rule 040. (3-20-20)T

**02. Excess Funds.** Any funds in excess of the amount needed to compensate the owner of the water right in accordance with the resolution accepting the water right into the Board's water supply bank and the administrative charge of Rule Subsection 035.01 shall be credited to the Water Management Account created by Section 42-1760, Idaho Code, for use by the Board for the purposes of Rule 1. (3-20-20)T

**036. -- 039. (RESERVED)**

**040. APPOINTMENT OF LOCAL RENTAL POOL COMMITTEES (RULE 40).**

**01. Board Meetings for Committee Appointments.** The Board may at any regular or special meeting to consider appointing an entity to serve as a local committee to facilitate the lease and rental of stored water. At least ten (10) days prior to the meeting, the entity seeking appointment shall provide to the Director information concerning the organization of the entity, a listing of its officers, a copy of its bylaws and procedures, if applicable, a copy of the proposed local committee procedures, pursuant to which the local committee would facilitate the lease and rental of stored water, together with a copy of each general lease and rental form proposed to be used by the local committee. The local committee procedures must be approved by the Board and must provide for the following: (3-20-20)T

- a.** Determination of priority among competing applicants to lease stored water to the rental pool and to rent stored water from the rental pool; (3-20-20)T
- b.** Determination of the reimbursement schedule for those leasing stored water into the rental pool; (3-20-20)T
- c.** Determination of the rental price charge to those renting stored water from the rental pool; (3-20-20)T
- d.** Determination of the administrative charge to be assessed by the local committee; (3-20-20)T
- e.** Allocation of stored water leased to the bank but not rented; (3-20-20)T
- f.** Notification of the Department and the watermaster of any rentals where stored water will be moved from the place of use authorized by the permit, license, or decree establishing the stored water right; (3-20-20)T
- g.** Submittal of applications to rent water from the rental pool for more than five (5) years to the Board for review and approval as a condition of approval by the local committee; (3-20-20)T
- h.** Prevention of injury to other water rights; (3-20-20)T
- i.** Protection of the local public interest, except for applications submitted pursuant to the interim authority provided by Section 42-1763A, Idaho Code; (3-20-20)T

**j.** Consistency with the conservation of water resources within the state of Idaho, except for applications submitted pursuant to the interim authority provided by Section 42-1763A, Idaho Code; (3-20-20)T

**k.** Management of rental pool funds as public funds pursuant to the Public Depository Law, Chapter 1, Title 57, Idaho Code. (3-20-20)T

**02. Local Committee Procedures.** The local committee procedures shall provide that a surcharge of ten percent (10%) of the rental fee charged per acre foot of stored water rented from the rental pool shall be assessed and credited to the revolving development account and the water management account established in Sections 42-1752 and 42-1760, Idaho Code, in such proportion as the Board in its discretion shall determine. Such moneys, together with moneys accruing to or earned thereon, shall be set aside, and made available until expended, to be used by the Board for the purposes of Rule 1 unless the surcharge is prohibited by statute, compact or inter-governmental agreement. (3-20-20)T

**03. Review by Director.** The Director will review the local committee procedures and submit them along with the Director's recommendation to the Board. The lease and rental form must receive the Director's approval. The Board may designate the applying entity as the local committee for a period not to exceed five (5) years. A Certificate of Appointment will be issued by the Board. The Board may extend the appointment for additional periods up to five (5) years, upon written request of the local committee. The Board may revoke a designation upon request of the local committee, or after a hearing pursuant to the promulgated Rules of Practice and Procedure of the Board, if the Board determines that the local committee is no longer serving a necessary purpose or is not abiding by its own approved procedures, these rules or applicable statutes. (3-20-20)T

**04. Annual Report.** The local committee shall report annually on the activity of the rental pool on forms provided by the Board. (3-20-20)T

**05. Submission of Amendments to Procedures to Board.** Amendments to the approved procedures of an appointed local committee which change the amount charged for the rental of stored water shall be submitted to the Board by April 1st of any year. The amendment will be considered approved by the Board unless specifically disapproved at the first regular Board meeting following the amendment action of the local committee. The Board may, upon good cause being determined by the Board, specifically approve of amendments submitted after April 1 of any year. (3-20-20)T

**041. -- 999. (RESERVED)**

## 37.03.01 – ADJUDICATION RULES

### 000. LEGAL AUTHORITY.

These rules are adopted under the legal authorities of Section 42-1414, and 42-1805(8), Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE.

**01. Title.** These rules are titled IDAPA 37.03.01, “Adjudication Rules.” (3-20-20)T

**02. Scope.** These rules implement statutes governing the filing of notices of claims to water rights acquired under state law and the collection of fees for filing notices of claims to water rights acquired under state law in general adjudications, as provided in Sections 41-1409, 42-1414 and 42-1415, Idaho Code. (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. DEFINITIONS.

**01. Amendment Fee.** The additional fee payable at the time of filing an amendment to a claim, as provided in Section 42-1414(2), Idaho Code. (3-20-20)T

**02. Aquaculture.** The use of water for propagation of fish, shell fish, and any other animal or plant product naturally occurring in an underwater environment. (3-20-20)T

**03. Aquaculture Fee.** The variable fee payable for aquaculture use, as provided in Section 42-1414(1)(b)(iii), Idaho Code, which shall be calculated for each cfs and fraction thereof to the nearest dollar. (3-20-20)T

**04. Claim.** A notice of claim to a water right acquired under state law, as provided in Section 42-1409(4), Idaho Code. (3-20-20)T

**05. Department.** The Idaho Department of Water Resources. (3-20-20)T

**06. Director.** The Director of the Idaho Department of Water Resources. (3-20-20)T

**07. Domestic Use.** Domestic use as defined in Section 42-1401A(4), Idaho Code. (3-20-20)T

**08. Flat Fee.** The per claim fee for filing claims, as provided in Section 42-1414(1)(a), Idaho Code. (3-20-20)T

**09. Late Fee.** The additional fee payable for the filing of late claims, as provided in Section 42-1414(3), Idaho Code. (3-20-20)T

**10. Per Acre Fee.** The variable fee for irrigation use, as provided in Section 42-1414(1)(b)(i), Idaho Code, which shall be calculated for each acre and fraction thereof rounded to the next whole acre. (3-20-20)T

**11. Per Cfs Fee.** The variable fee payable for other uses, as provided in Section 42-1414(1)(b)(iii), (iv) and (v), Idaho Code, which shall be calculated for each cfs and fraction thereof to the nearest dollar. (3-20-20)T

**12. Per Kilowatt Fee.** The variable fee payable for power generation use, as provided in Section 42-1414(1)(b)(ii), Idaho Code, which shall be calculated for each kilowatt and fraction thereof. (3-20-20)T

**13. State Law Claim Form.** The department’s form entitled “Notice of Claim to a Water Right Acquired Under State Law as provided in Section 42-1409(4), Idaho Code. (3-20-20)T

**14. Stock Watering Use.** Stock watering use as defined in Section 42-1401A(11), Idaho Code. (3-20-20)T

**15. Total Fee.** The fee payable for filing a claim, which consists of the flat fee plus any applicable variable fee and late fee. (3-20-20)T

**16. Variable Fee.** The fee payable for filing claims in addition to the flat fee, as provided in Section 42-1414(1)(b), Idaho Code. (3-20-20)T

**17. Water Delivery System.** All structures and equipment used for diversion, storage, transportation, and use of water from the water source to and including each place of use. (3-20-20)T

**18. Water Delivery Organization.** An irrigation district, a water utility, a municipality, or any similar claimant of a water right who diverts water pursuant to the water right claimed and delivers the water to others who make beneficial use of the water diverted by the water delivery organization pursuant to the water right claimed by the water delivery organization. (3-20-20)T

**011. ABBREVIATIONS.**

**01. AF.** An acre foot (feet). (3-20-20)T

**02. CFS.** Cubic foot (feet) per second. (3-20-20)T

**03. NA.** Not applicable. (3-20-20)T

**04. PIN.** Parcel identification number. (3-20-20)T

**012. -- 024. (RESERVED)**

**025. GENERAL.**

**01. Requirement to Pay.** All persons filing claims to water rights acquired under state law or amendments to claims to water rights acquired under state law shall be required to pay filing fees as set forth by statute and these rules. (3-20-20)T

**02. Method of Payment.** Fees shall be paid in legal tender of the United States; or by money order, certified check, cashier's check, personal check, or by electronic payment on-line payable to the department in legal tender of the United States. Two-party checks will not be accepted. (3-20-20)T

**03. Personal Check.** If a personal check in payment of a flat fee, a variable fee, or a late fee, is returned unpaid to the department or the debit or credit card payment is rejected by the financial institution, the claims covered by the returned check or the rejected debit or credit card will be rejected and returned to the claimant. If a personal check in payment of an amendment fee is returned unpaid to the department or the debit or credit card payment is rejected by the financial institution, the amended claim will be rejected and returned to the claimant, but the original claim will still be in effect. (3-20-20)T

**04. Time of Payment.** Flat fees and variable fees shall be payable to the department at the time of filing a claim. Amendment fees shall be payable to the department at the time of filing the amended claim. Late fees shall be payable at the time of filing the late claim. (3-20-20)T

**05. Government Voucher.** Fees payable by government agencies (other than agencies of foreign governments) may be paid when due by government voucher. If full payment of the voucher is not received within forty-five (45) days of the date the voucher is received, the unpaid voucher will be treated as a returned check as provided in Subsection 025.03. (3-20-20)T

**06. Rejection of Claim.** Claims submitted without the correct filing fee shall be rejected and returned to the claimant. (3-20-20)T

**07. Fire-Fighting.** A claim is not required to be filed for water used solely to extinguish an existing fire on private or public lands, structures, or equipment, or to prevent an existing fire from spreading to private or public lands, structures, or equipment endangered by an existing fire pursuant to Section 42-201(3), Idaho Code. A claim is required for the use of water for domestic purposes in regularly maintained firefighting stations and for the storage of water for fighting future fires. (3-20-20)T

**026. -- 029. (RESERVED)**

**030. FLAT FEES.**

**01. Small Domestic and Stock Water.** A flat fee of twenty-five dollars (\$25) shall be payable for each claim for domestic use and/or stock watering use meeting the definition of domestic use and/or stock watering use in Rule 010. (3-20-20)T

**02. Other Claims.** A flat fee of fifty dollars (\$50) shall be payable for each claim that does not meet the criteria of Subsection 030.01. (3-20-20)T

**031. -- 034. (RESERVED)**

**035. VARIABLE FEES.**

**01. General.** For each claim not meeting the criteria of Subsection 030.01, there may be a variable fee in addition to the flat fee. (3-20-20)T

**02. Per Acre Fee.** (3-20-20)T

**a.** A fee of one dollar (\$1.00) per acre shall be required for claims for irrigation use. (3-20-20)T

**b.** The per acre fee shall only be charged once against a particular acre, regardless of the number of claims filed for the irrigation of that acre or the number of claimants filing claims for the irrigation of that acre. (3-20-20)T

**c.** The per acre fee shall be payable by the first person to file a claim for the irrigation of a particular acre. (3-20-20)T

**d.** The per acre fee for an irrigation project where the canals constructed cover an area of twenty-five thousand (25,000) acres or more, or irrigation districts organized and existing as such under the laws of the state of Idaho, or for beneficial use by more than five (5) water users in an area of less than twenty-five thousand (25,000) acres shall be determined based upon the acreage claimed to be irrigated by the project or irrigation district within the boundaries of the project or irrigation district. (3-20-20)T

**03. Per Kilowatt Fee.** (3-20-20)T

**a.** A per kilowatt of capacity (manufacturer's nameplate rating) fee of three dollars and fifty cents (\$3.50) per kilowatt, or two hundred fifty thousand dollars (\$250,000.00), whichever is less, shall be required for claims for power use. (3-20-20)T

**b.** The per kilowatt fee shall be determined based upon the total generating capacity of all generators in which the water right claimed is used. (3-20-20)T

**c.** The total per kilowatt fee for all claims filed for a single hydropower facility shall not exceed the per kilowatt fee for the total generating capacity of all generators in the hydropower facility. (3-20-20)T

**04. Per CFS Fee.** (3-20-20)T

**a.** A fee of ten dollars (\$10) per cfs for aquaculture shall be required. A fee of one hundred dollars (\$100) per cfs for all other uses shall be required except for irrigation, power, and domestic and stock watering uses meeting the definition of domestic and stock watering use in Section 010. (3-20-20)T

**b.** For a claim to water for more than one (1) public purpose, the per cfs fee shall only be charged once per cfs claimed. Public purposes shall include public in-stream flows, lake level maintenance, wildlife, aesthetic beauty, and recreation. (3-20-20)T

**c.** If there is a seasonal variation in the number of cfs claimed, the per cfs fee shall be based upon the maximum number of cfs claimed for any period during a single calendar year. (3-20-20)T

**d.** The per cfs fee shall apply to claims for water quality improvement, recreation, aesthetic purposes, and any other purpose not expressly listed at Section 42-1414(1), Idaho Code, except as otherwise provided by these rules. (3-20-20)T

**05. Claims Including Storage.** (3-20-20)T

**a.** The variable fee for a claim that includes storage shall be based upon the ultimate use of the water stored. If the claim states purposes other than diversion to storage, storage, and diversion from storage, the total variable fee will be determined as provided in Subsection 035.06. (3-20-20)T

**b.** No variable fee shall be payable for water claimed for ground water recharge purposes. (3-20-20)T

**c.** For purposes of determining the per cfs fee for amounts of water claimed in af, one (1) cfs equals one and ninety-eight one-hundredths (1.98) af per day of diversion to storage. (3-20-20)T

**d.** No variable fee shall be payable for minimum by-pass flows. (3-20-20)T

**06. Multiple Purpose Claims.** If a claimant claims more than one (1) purpose of use on a single claim, the variable fee will be the total of the variable fees payable for each purpose of use. (3-20-20)T

**07. Exceptions.** No variable fee shall be payable for claims or portions of claims for fire-fighting purposes if a claim is required under Subsection 025.07 or for domestic use and/or stock watering use meeting the definitions of domestic use and stock watering use in Section 010. (3-20-20)T

**036. -- 044. (RESERVED)**

**045. AMENDMENT FEES.**

When a claimant files an amendment to a claim, the total fee shall be recalculated as if the amended claim were the original claim. If the total fee as recalculated is greater than the total fee paid at the time the claim was filed, the amendment fee shall be the difference between the two (2) amounts. No refund shall be made if the total fee as recalculated is less than the total fee paid at the time the claim was filed. (3-20-20)T

**046. -- 049. (RESERVED)**

**050. LATE FEES.**

**01. Late Fee Payable.** A late fee shall be payable when a claim is filed after the date set forth in the first commencement notice mailed to the claimant or the claimant's predecessor in interest pursuant to Sections 42-1414(3), Idaho Code. (3-20-20)T

**02. Waiver.** The late fee may be waived by the director for good cause shown. (3-20-20)T

**051. -- 054. (RESERVED)**

**055. REFUNDS.**

Fees shall not be refunded or returned except where the fee was miscalculated at the time the claim was filed or as expressly provided in these rules. (3-20-20)T

**056. -- 059. (RESERVED)**

**060. SUFFICIENCY OF CLAIMS.**

**01. Single Claim.** Except for claims based on both state law and federal law, a single claim may describe only one (1) water right. A claim that describes more than one (1) water right will be rejected and returned along with any fees paid, and must be refiled as multiple claims. (3-20-20)T

**02. State Law Claim Form -- Minimum Requirements.** Claims filed on the state law claim form shall contain the following information: (3-20-20)T

**a.** Name, Address and Phone Number of Claimant. The name, address, and phone number of the claimant and all co-claimants claiming the water right jointly with the claimant shall be listed at item one (1) of the form. (3-20-20)T

**b.** Date of Priority. The date of priority shall be listed at item two (2) of the form, and shall include month, day and year. Only one (1) priority may be stated unless the claim is based upon both state and federal law as provided in Subsection 060.01. If more than one (1) priority date is stated, the claim will be rejected and returned along with any fees paid, and must be refiled as multiple claims. (3-20-20)T

**i.** Within thirty (30) days, unless an extension by the director or his designee is approved, the claimant shall provide evidence of the priority date to support the water right claimed. If the claimant fails to provide evidence of priority, the form may be rejected and returned with no refund of the fees paid. (3-20-20)T

**c.** Source of Water Supply. The source of water supply shall be stated at item three (3) of the form. (3-20-20)T

**i.** For surface water sources, the source of water shall be identified by the official name listed on the U.S. Geological Survey Quadrangle map. If no official name has been given, the name in local common usage should be listed. If there is no official or common name, the source should be described as “unnamed stream” or “spring.” The first named downstream water source to which the source is tributary shall also be listed. For ground water sources, the source shall be listed as “ground water.” (3-20-20)T

**ii.** Only one (1) source shall be listed unless the claim is for a single water delivery system that has more than one (1) source, or the claim is for a single licensed or decreed right that covers more than one (1) water delivery system. If more than one (1) source is listed and the claim is not for a single water delivery system that has more than one (1) source, and the claim is not for a single licensed or decreed water right that covers more than one (1) water delivery system, the claim will be rejected and returned along with any fees paid, and must be refiled as multiple claims. (3-20-20)T

**d.** Location of Point of Diversion. For claims other than in-stream flows, the location of the point(s) of diversion shall be listed at item four (4) part (a) of the form. For claims to in-stream flows, the beginning and ending points of the claimed in-stream flow shall be listed at item four (4) part (b) of the form. (3-20-20)T

**i.** The location of the point of diversion shall be described to nearest forty (40) acre tract (quarter-quarter section) or government lot number, and shall include township number (including north or south designations), range number (including east or west designations), section number, and county. (3-20-20)T

**ii.** The claimant shall also list the Parcel Number or Parcel Identification Number (PIN) as assigned by the county assessor’s office for the parcel where the water is diverted unless no Parcel Number or PIN is recorded for the property at the point of diversion. (3-20-20)T

**iii.** If the point of diversion is located in a platted subdivision, a plat of which has been recorded in the county recorder’s office for the county in which the subdivision is located, the claimant shall also list the subdivision name, block number and lot number in item thirteen (13) of the form (remarks section). (3-20-20)T

**iv.** A claim to a water right that includes storage shall state the point at which water is impounded (applicable only to on-stream reservoirs) or the point at which water is diverted to storage (applicable only to off-stream reservoirs), the point at which water is released from storage into a natural stream channel (applicable only where a natural stream channel is used to convey stored water), and the point at which water is rediverted (applicable only where a natural channel is used to convey stored water). (3-20-20)T

**v.** Only one (1) point of diversion shall be listed unless the claim is for a single water delivery system that has more than one (1) point of diversion, or the claim is for a single licensed or decreed water right that covers more than one (1) water delivery system. If more than one (1) point of diversion is listed and the claim is not for a

single water delivery system that has more than one (1) point of diversion, and the claim is not for a single licensed or decreed water right that covers more than one (1) water delivery system, the claim will be rejected and returned along with any fees paid, and must be refiled as multiple claims. (3-20-20)T

e. Description of Diversion Works. The diversion works shall be described at item five (5) of the form. (3-20-20)T

i. The description shall include all major components of the water delivery system, such as dams, reservoirs, ditches, pipelines, pumps, wells, headgates, etc. The description shall also include those dimensions of major components which affect the diversion capacity of the water delivery system. The description shall also state whether the ditches are lined and/or covered, the depth of wells, the horsepower capacity of pumps, and whether headgates are automatic or equipped with locks and/or measuring devices. (3-20-20)T

ii. The description shall include the dates and a description of any changes in use (including change in point of diversion, place of use, purpose of use, and period of use) or enlargements in use (including an increase in the amount of water diverted, the number of acres irrigated, or additional uses of water), and as to those dimensions required to be described above, the dimensions as originally constructed and as enlarged. (3-20-20)T

iii. Water delivery organizations shall describe the water delivery system up to and including the point where responsibility for water distribution is assumed by entities other than the water delivery organization. (3-20-20)T

f. Purpose of Use and Period of Use. Each purpose for which water is claimed, the period of use for each purpose for which water is claimed, and the amount of water claimed for each purpose for which water is claimed shall be listed at item six (6) of the form. Period of use shall include the month and day of the first and last day of use. For example, the period of use for domestic use is often January 1st through December 31st. (3-20-20)T

i. The purpose may be described in general terms such as irrigation, industrial, municipal, mining, power generation, fish propagation, domestic, stock watering, etc. (3-20-20)T

ii. A claim to a water right that includes storage shall be broken down into component purposes with the ultimate use(s) of the stored water indicated. The component purposes of a storage right are diversion to storage (not applicable to on-stream reservoirs), storage, and diversion from storage (not applicable where the ultimate use is an in-reservoir public purpose). Detention of water in a holding pond that can be filled in less than twenty-four (24) hours at the claimed diversion rate is not required to be claimed as storage. The amount of water claimed shall be limited to the active storage capacity of the reservoir unless a past practice of refilling the reservoir during the water year (October 1 to September 30) is shown or the claim is for a licensed or decreed right that includes refill. If a past practice of refilling the reservoir is shown or if the claim is for a licensed or decreed right that includes refill, the total amount of water claimed for the calendar year and the entire period during which diversion to storage or impoundment occurs shall be indicated. (3-20-20)T

iii. The amount of water claimed for each purpose for which water is claimed shall not exceed the amount of water beneficially used for the purpose claimed, and the period of use for each purpose claimed shall not exceed the period in which water is beneficially used for the purpose claimed. (3-20-20)T

iv. The amount of water diverted shall be listed in cfs, and the amount of water stored shall be listed in af per annum. (3-20-20)T

g. Amount of Water Claimed. The total amount of water claimed shall be listed at item seven (7) of the form. The total amount of water claimed shall not exceed the total of the amounts listed at item six (6) of the form, or the total diversion capacity of the diversion system, whichever is less. (3-20-20)T

h. Description of Non-Irrigation Uses. Non-irrigation uses shall be fully described at item eight (8) of the form. For domestic uses, the number of households served shall be described; for stock watering uses, the type of stock and number of each type of stock shall be described. (3-20-20)T

i. If the claimant's domestic use does not meet the definition of domestic use in Subsection 010.07,

the form will be rejected and returned unless the appropriate variable fee is paid. (3-20-20)T

ii. The claimant shall also state whether the stock watering use is in-stream, or whether water is diverted from the source for stock watering. Both types of stock watering cannot be filed on the same claim form; each type requires a separate claim. (3-20-20)T

iii. Domestic use for organization camps and public campgrounds shall be fully described, including but not limited to the number of camp units, water faucets, flush toilets, showers, and sewer connections. Description of domestic use for organization camps and public campgrounds shall also include the average and peak number of individuals using the facility, and the periods when peak or average rates of usage occur. (3-20-20)T

i. Place of Use. The place of use for each purpose for which water is claimed shall be listed at item nine (9) of the form, except that the place of use for in-stream flows for public purposes need not be listed if the place of use is fully described as the stream between the beginning and ending points listed as the points of diversion. (3-20-20)T

i. Except claims for irrigation projects and irrigation districts meeting the criteria described in Subsection 060.i.ii. below, the number of acres irrigated shall be described by entering the appropriate numbers in the appropriate boxes for each forty (40) acre tract or government lot on the form. For other uses, a symbol or letter corresponding to the purpose for which water is claimed shall be placed in the appropriate box for each forty (40) acre tract or government lot on the form. (3-20-20)T

ii. Claims for an irrigation project where the canals constructed cover an area of twenty-five thousand (25,000) acres or more, or irrigation districts organized and existing as such under the laws of the state of Idaho, or for beneficial use by more than five (5) water users in an area of less than twenty-five thousand (25,000) acres shall be accompanied by a map showing the boundaries of the project or irrigation district, and shall state the total number of acres irrigated within the boundaries of the project or irrigations district. The project or district shall submit a map of the boundary of the place of use and, when available, a digital boundary defined in Section 42-202(B)(2), Idaho Code. (3-20-20)T

iii. The claimant shall also list the Parcel Number or Parcel Identification Number (PIN) as assigned by the county assessor's office for the parcel where the water is used unless no Parcel Number or PIN is recorded for the property at the place of use or the PIN is the same as the PIN shown in item four (4) for the point of diversion. (3-20-20)T

j. County of Place of Use. The county(ies) in which the place(s) of use is (are) located shall be listed at item ten (10) of the form. (3-20-20)T

k. Authority to Assert Claim. The claimant shall indicate at item eleven (11) of the form whether the claimant is the owner of the place(s) of use. If the claimant is not the owner of the place(s) of use, the claimant shall describe in the remarks section of the form the claimant's authority to assert the claim. Unless the claimant is a water delivery organization, the claimant shall also state the name, address, and phone number of the owner(s) of the place of use in item thirteen (13) (remarks section) of the form. (3-20-20)T

l. Other Water Rights. The claimant shall describe at item twelve (12) of the form any other water rights used at the same place and for the same purpose as the right claimed. If there are no other water rights used at the same place and for the same purpose as the right claimed, the claimant shall state "NA" or "none." (3-20-20)T

m. Remarks. At item thirteen (13) of the form, the claimant may submit any additional, relevant information not specifically requested. If the space provided is not sufficient, remarks shall be set forth on a separate piece of paper and attached to the form. All separate attachments must be specifically referenced in the remarks section of the form. (3-20-20)T

n. Maps. An aerial photograph or USGS quadrangle map shall be included with the claim, unless the claim meets the definition of domestic use and stock watering use as defined in Section 010 or unless the claim is submitted electronically through the department's online claim filing website. The point(s) of diversion, place(s) of use, and the water delivery system shall be identified on the aerial photograph or USGS quadrangle map. (3-20-20)T

**o.** Basis of Claim. The basis of the claim shall be indicated at item fourteen (14) of the form. If a water right number has been assigned by the department to the right claimed, the water right number shall also be indicated. If a water right number has not been assigned and the water right is based upon a decree, the claimant shall list the title and date of the decree, the case number, and the court that issued the decree. If the basis of claim is a beneficial use (also known as the constitutional method of appropriation), the claimant shall provide a short description of events or history of the development of the water right. (3-20-20)T

**p.** Signature. Each claim must be signed by the claimant at item fifteen (15) of the form, unless the claim is submitted electronically through the department's online claim filing website. Each claimant, through submission of a signed claim or through submission of a claim by means of the department's online claim filing website, solemnly swears or affirms under penalty of perjury that the statements contained in the notice of claim are true and correct. (3-20-20)T

**i.** For claims submitted through the department's online claim filing website, the form shall be submitted by a person listed as the claimant at item one (1) of the form unless the person submitting the form has authority to submit the form for the claimant or claimants. Claims by corporations, municipalities or other organizations shall be submitted by an officer of the corporation or an elected official of the municipality or an individual authorized by the organization to submit the form. (3-20-20)T

**ii.** For claims that are not submitted by means of the internet, the form must be signed by each of the persons listed as claimants at item one (1) of the form unless the signatory has authority to sign for the claimant or claimants. Claims by corporations, municipalities or other organizations shall be signed by an officer of the corporation or an elected official of the municipality or an individual authorized by the organization to sign the form. The signatory's title shall be indicated with the signature. (3-20-20)T

**q.** Notice of Appearance. If notices to be sent by the director to the claimant are to be sent to the claimant's attorney, the claimant's attorney shall list the attorney's name and address and sign and date the form at item sixteen (16) of the form. (3-20-20)T

**03. State Law Claim Form -- Insufficient Claims, Waivers.** (3-20-20)T

**a.** Claims filed on the state law claim form that do not contain the information required by Subsection 060.02 shall be rejected and returned along with any fees paid, unless otherwise provided by these rules. (3-20-20)T

**b.** The director may waive the minimum information requirements of Subsection 060.02 and accept the claim for good cause shown. (3-20-20)T

**04. Further Information.** This Rule 060 sets forth minimum requirements for the filing of claims. The director may request further information in support of the assertions contained in a claim as part of the investigation of the water system and the claims pursuant to Section 42-1410, Idaho Code. (3-20-20)T

**061. -- 064. (RESERVED)**

**065. REJECTED AND RETURNED CLAIMS.**

**01. Rejected Claims.** Rejected claims shall be returned to the claimant by ordinary mail at the most recent address shown by department records. The rejected claim shall be accompanied by a notice of rejection that states generally the reason(s) for rejection. (3-20-20)T

**02. Refiled Claims.** Claims that have been rejected and returned to the claimant may be refiled with the appropriate fees and appropriate information at any time prior to the deadline for filing the original claim. Claims refiled after the deadline for filing the original claim will be subject to the late fee, unless the claim is refiled within thirty (30) days from the date of mailing the rejected claim by the department. (3-20-20)T

**066. -- 999. (RESERVED)**

## 37.03.02 – BENEFICIAL USE EXAMINATION RULES

### 000. LEGAL AUTHORITY (RULE 0).

The director of the Department of Water Resources adopts these rules under the authority provided by Section 42-1805(8), Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE (RULE 1).

Sections 42-217 and 42-221, Idaho Code, requires a license examination fee be submitted together with the written proof of beneficial use or that a field examination report prepared by a certified water right examiner be submitted together with the written proof of beneficial use. The statutes also provided that field examinations could be conducted by certified water right examiners appointed by the director. (3-20-20)T

**01. Examination Requirements.** The examination requirements listed are intended as a guide to establish acceptable standards to determine the extent of application of water to beneficial use. The requirements are not intended to restrict the application of other sound examination principles by water right examiners. The director will evaluate any deviation from the standards hereinafter stated as they pertain to the review of any given examination. Water right examiners are encouraged to submit new ideas which will advance the art and provide for the public benefit. (3-20-20)T

**02. Rules.** These rules shall not be construed to deprive or limit the director of the Department of Water Resources of any exercise of powers, duties and jurisdiction conferred by law, nor to limit or restrict the amount or character of data, or information which may be required by the director from any owner of a water right permit or authorized representative for the proper administration of the law. (3-20-20)T

### 002. -- 008. (RESERVED)

### 009. APPLICABILITY (RULE 9).

**01. Proof of Beneficial Use.** These rules apply to all permits for which proof of beneficial use is not yet due and has not been submitted to the department. (3-20-20)T

**02. Examination.** These rules apply to all permits for which an examination has not been conducted. (3-20-20)T

**03. Re-Examination.** These rules apply to all permits that have been examined but the license has not been issued due to a request for a re-examination by the permit holder. (3-20-20)T

**04. Examination Fee.** The examination fee requirements of these rules do not apply to a permit for single family domestic use, stockwatering, or other small uses for which the use does not exceed four one-hundredths (0.04) cfs or four (4) AF/year. The examination fee is required for multiple use permits which exceed four one-hundredths (0.04) cfs or four (4) AF/year even though single family domestic use or stockwater use is included as one (1) of the uses on the permit. (3-20-20)T

### 010. DEFINITIONS (RULE 10).

Unless the context otherwise requires, the following definitions govern these rules. (3-20-20)T

**01. Acre-Foot (AF).** A volume of water sufficient to cover one (1) acre of land one (1) foot deep and is equal to forty-three thousand, five hundred sixty (43,560) cubic feet. (3-20-20)T

**02. Acre-Foot/Annum.** An annual volume of water that may be diverted under a given use or right. (3-20-20)T

**03. Amendment.** A change in point of diversion, place, period or nature of use or other substantial change in the method of diversion or use of a permitted water right. (3-20-20)T

**04. Capacity Measurement.** The maximum volume of water impounded in the case of reservoirs or the maximum rate of diversion from the source as determined by actual measurement of the system during normal operation. (3-20-20)T

**05. Certified Water Right Examiner.** A professional engineer or professional geologist, qualified and registered in the state of Idaho who has the knowledge and experience necessary to satisfactorily complete water right field examinations as determined by the Director, and who has been appointed by the Director, Idaho Department of Water Resources as a certified water right examiner. A certified water right examiner is commonly termed a field

examiner, water right examiner or examiner. A certified water right examiner is an impartial investigator and reporter of the information required by the Director to determine the extent of beneficial use established in compliance with a permit. Department employees are authorized to conduct water right examinations at the discretion of the Director.

(3-20-20)T

**06. Conveyance Works.** The ditches, pipes, conduits or other means by which water is carried or moved from the point of diversion to the place of use. Storage works, if any, such as a dam can be considered part of the conveyance works.

(3-20-20)T

**07. Cubic Foot Per Second (CFS).** A rate of flow approximately equal to four hundred forty-eight and eight tenths (448.8) gallons per minute and also equals fifty (50) miner's inches.

(3-20-20)T

**08. Department.** The Idaho Department of Water Resources.

(3-20-20)T

**09. Director.** The Director of the Idaho Department of Water Resources.

(3-20-20)T

**10. Duty of Water.** The quantity of water necessary when economically conducted and applied to land without unnecessary loss as will result in the successful growing of crops.

(3-20-20)T

**11. Examination or Field Examination.** An on-site inspection or investigation to determine the extent of application of water to beneficial use and to determine compliance with terms and conditions of the water right permit.

(3-20-20)T

**12. Field Report.** The form provided by the Department upon which the examiner records the data gathered and describes the extent of diversion of water and application to beneficial use. The report is fully termed beneficial use field report and is also termed a field examination report.

(3-20-20)T

**13. Headworks or Diversion Works.** The constructed barriers or devices on the source of water (surface water or ground water) by which water can be diverted from its natural course of flow and/or measured.

(3-20-20)T

**14. License.** The certificate issued by the Director in accordance with Section 42-219, Idaho Code confirming the extent of diversion and beneficial use of the water that has been made in conformance with the permit conditions.

(3-20-20)T

**15. License Examination Fee.** The fee required in Section 42-221K, Idaho Code, and is also termed an examination fee.

(3-20-20)T

**16. Legal Subdivision.** A tract of land described by the government land survey and usually is described by government lot or quarter-quarter, section, township and range. A lot and block of a subdivision plat recorded with the county recorder may be used in addition to the government lot, quarter-quarter, section, township and range description.

(3-20-20)T

**17. Measuring Device.** A generally accepted structure or apparatus used to determine a rate of flow or volume of water. Examples are weirs, meters, and flumes. Less typical devices may be accepted by the Director on a case-by-case basis.

(3-20-20)T

**18. Nature of Use.** The characteristic use for which water is applied. Examples are domestic, irrigation, mining, industrial, fish propagation, power generation, municipal, etc.

(3-20-20)T

**19. Period of Use.** The time period during which water under a given right can be beneficially used.

(3-20-20)T

**20. Permit Holder or Owner.** The person, association, or corporation to whom a permit has been issued or assigned as shown by the records of the Department.

(3-20-20)T

**21. Permit or Water Right Permit.** The water right document issued by the Director authorizing the

diversion and use of unappropriated public water of the state or water held in trust by the state. (3-20-20)T

**22. Place of Use (P.U. or POU).** The location where the beneficial use is made of the diverted water. (3-20-20)T

**23. Point of Diversion (P.D. or POD).** The location on the public source of water from which water is diverted. Examples are pump intake, headgate, well locations, and dam locations. (3-20-20)T

**24. Project Works.** A general term which includes diversion works, conveyance works, and any devices which may be used to measure the water or to apply the water to the intended use. Improvements which have been made as a result of application of water, such as land preparation for cultivation, are not a part of the project works. (3-20-20)T

**25. Proof of Beneficial Use.** The submittal required in Section 42-217, Idaho Code. This submittal is commonly termed proof. (3-20-20)T

**26. Source.** The name of the natural water body at the point of diversion. Examples are Snake River, Smith Creek, ground water, spring, etc. (3-20-20)T

**011. ABBREVIATIONS.**

**01. AF.** Acre-Foot or Acre-Feet. (3-20-20)T

**02. CFS.** Cubic Foot Per Second. (3-20-20)T

**03. P.D. or POD.** Point of Diversion. (3-20-20)T

**04. P.U. or POU.** Place of Use. (3-20-20)T

**05. USGS.** United States Geological Survey. (3-20-20)T

**012. -- 024. (RESERVED)**

**025. AUTHORITY OF REPRESENTATIVE (RULE 25).**

**01. Proof of Beneficial Use.** When the proof of beneficial use, field report, and drawings are filed by the water right examiner on behalf of an owner, written evidence of authority to represent the owner shall be filed with the proof, field report, and drawings. (3-20-20)T

**02. Responsibility.** It is the responsibility of the permit holder or authorized representative to submit proof of beneficial use and provide for the timely submission of a completed field report by the due date in acceptable form to the director by either paying the required examination fee to the department or by employing a certified water right examiner. (3-20-20)T

**026. -- 029. (RESERVED)**

**030. QUALIFICATION, EXAMINATION AND APPOINTMENT OF CERTIFIED WATER RIGHT EXAMINER (RULE 30).**

**01. Consideration.** Any professional engineer or geologist qualified and registered in the state of Idaho who has the knowledge and experience necessary to satisfactorily complete water right field examinations as determined by the Director shall be considered for appointment as a water right examiner upon application to the Director. The application shall be in the form prescribed by the Director and shall be accompanied by a non-refundable fee in the amount provided by statute. (3-20-20)T

**02. Information.** The Director may require an applicant for appointment to the position of water right examiner to provide detailed information of past experience, provide references, and to satisfactorily complete a

written or oral examination. (3-20-20)T

**03. Denial.** If the Director determines an applicant is not qualified, the application will be denied. If the Director determines an applicant is qualified, a certificate of appointment will be issued. (3-20-20)T

**04. Expiration.** Every water right examiner certificate of appointment shall expire March 31 of each year unless renewed by application in the manner prescribed by the Director. A non-refundable fee in the amount provided by statute shall accompany an application for renewal. (3-20-20)T

**05. Refusal or Revocation.** An appointment or renewal may be refused or revoked by the Director at any time upon a showing of reasonable cause. A party aggrieved by an action of the Director may request an administrative hearing pursuant to Section 42-1701A (3), Idaho Code. (3-20-20)T

**06. Reconsideration.** An application for appointment or renewal which has been refused or revoked by the Director may not be reconsidered for six (6) months. (3-20-20)T

**07. Liability.** The state of Idaho shall not be liable for the compensation of any water right examiner other than department employees. The permit holder shall be responsible for costs associated with proof submittal including examination and field report preparation. (3-20-20)T

**08. Examinations.** The Director may authorize sufficiently knowledgeable and experienced department employees to conduct water right examinations during the course and scope of their employment with the department. Upon termination of employment with the department, such examiners, unless reappointed as a non-department certified examiner under provisions of these rules, are not authorized to conduct field examinations. The fee provisions of these rules do not apply to department employees. (3-20-20)T

**09. Ingress or Egress Authority.** Appointment as a water right examiner does not grant ingress or egress authority to non-department examiners and does not convey authority unless explicitly prescribed in these rules. (3-20-20)T

**10. Reports.** The Director will not accept a field examination report prepared by a certified water right examiner or a department employee who has any past or present interest, direct or indirect, in either the water right permit, the land or any enterprise benefiting, or likely to benefit, from the water right. Among those that the Director will presume to have an actual or potential conflict of interest and from whom he will not accept a field examination report are the following: (3-20-20)T

**a.** The person or persons owning the water right permit or the land or enterprise benefiting from the water right permit, members of their families (spouse, parents, grandparents, lineal descendants including those that are adopted, lineal descendants of parents; and spouse of lineal descendants), and their employees. (3-20-20)T

**b.** The person or persons, who sold or installed the diversion works or distribution system. (3-20-20)T

**11. Money Received.** All moneys received by the department under the provisions of these rules shall be deposited in the water administration fund created under Section 42-238a, Idaho Code. (3-20-20)T

**031. -- 034. (RESERVED)**

**035. EXAMINATION FOR BENEFICIAL USE (RULE 35).**

**01. Field Report.** (3-20-20)T

**a.** All items of the field report must be completed and must provide sufficient information for the Director to determine the extent of the water right developed in order for the report to be acceptable to the Director. (3-20-20)T

**b.** Permitted uses partially developed by the permit holder shall be described in detail. Permitted uses which were not developed by the permit holder shall be noted. Uses determined to exist which are not authorized by

the permit being examined shall also be described in detail. (3-20-20)T

**c.** A concise description of the diversion works and a general description of the distribution works shall be given. This description must trace the water from the point of diversion to the place of use and the return to a public water source, if any. Any reservoir, diversion dam, headgate, well, canal, flume, pump and other related structure shall be included. If water is stored, the timing and method of storage, release, redirection and conveyance to the place of use shall be described. The make, capacity, serial number and model number of all pumps, boosters or measuring devices associated with the point of diversion at the source of the water supply shall be described on the field examination report. Schematic diagrams, photographs, and maps sufficient to locate and describe the diversion, conveyance and usage systems shall also be provided in the examination report. (3-20-20)T

**d.** Any interconnection of the water use being examined with other water rights or with other conveyance systems shall be described on the field report. Interconnection includes, but is not limited to, sharing the same point of diversion, distribution system, place of use, or beneficial use. The examination report shall also include an evaluation of how the water use being examined is distinct from prior existing water rights and provides an alternate source of water or increment of beneficial use not authorized by prior existing water rights. (3-20-20)T

**e.** If water is returned to a public water source after use, a legal description of the point where the water is returned and source to which discharge is made shall be provided. Examples of uses which generally have an effluent discharge include fish propagation and power facilities. (3-20-20)T

**f.** The method of compliance with each condition of approval of a permit shall be shown on the field report by the examiner. (3-20-20)T

**g.** If the water is used for irrigation, the boundaries of the irrigated areas and the location of the project works providing water to each shall be platted on the maps submitted with the report and the full or partial acreage in each legal subdivision of forty (40) acres or government lot shall be shown. (3-20-20)T

**h.** Irrigated acreage shall be shown on the field report to the nearest whole acre in a legal subdivision except the acreage shall be shown to the nearest one-tenth (0.10) acre for permits covering land of less than ten (10) acres. (3-20-20)T

**i.** Where a permit has been developed as separate distribution systems from more than one point of diversion, the separate areas irrigated from each point of diversion shall be shown on the maps submitted with the report and the legal subdivisions embracing the irrigated areas for each such respective point of diversion together with the total irrigated area shall be described. (3-20-20)T

**j.** For each use of water the examiner shall report an annual diversion volume based on actual beneficial use during the development period for the permit. The method of determining the annual diversion volume shall be shown. The annual diversion volume shall account for seasonal variations in factors affecting water use, including seasonal variations in water availability. For irrigation, the volume shall be based on the field headgate requirements in the map titled Irrigation Field Headgate Requirement appended to these rules (see Appendix A located at the end of this chapter). Annual diversion volumes for heating and cooling uses may be adjusted to account for documented weather conditions during any single heating or cooling season from among the fifty (50) years immediately prior to submitting proof of beneficial use for the permit. For storage uses that include filling the reservoir and periodically replenishing evaporation and seepage losses throughout the year, the annual diversion volume shall be the sum of the amounts used for filling and for replenishment. Volumes may include reasonable conveyance losses actually incurred by the water user. The following water uses are exempt from the volume reporting requirement: (3-20-20)T

- i. Diversion to storage. (Volume should be reported for the storage use, such as irrigation storage.) (3-20-20)T
- ii. Domestic uses as defined in Section 42-111, Idaho Code. (3-20-20)T
- iii. In-stream watering of livestock. (3-20-20)T

- iv. Fire protection. (Volume is required for fire protection storage.) (3-20-20)T
- v. On-stream, run-of-the-river, non-consumptive power generation uses. (3-20-20)T
- vi. Minimum stream flows established pursuant to Chapter 15, Title 42, Idaho Code. (3-20-20)T
- vii. Municipal use by an incorporated city or other entity serving users throughout an incorporated city, except the following situations that do require a volume to be reported: (3-20-20)T
- (1) The permit or amended permit was approved with a volume limitation; or (3-20-20)T
- (2) The permit was not approved for municipal use but can be amended and licensed for a municipal use established during the authorized development period for the permit. (3-20-20)T
- viii. Irrigation using natural stream flow diverted from a stream or spring. (Volumes must be reported for irrigation uses from ponds, lakes and ground water and for irrigation storage and irrigation from storage.) (3-20-20)T
- k. The total number of holding/rearing ponds and the dimensions and volume of the ponds shall be shown on the field report for fish rearing or fish propagation use. The annual volume shall be calculated based on the changes of water per hour. (3-20-20)T
- l. Information shall be submitted concerning the beneficial use that has been made of the water unless the purpose of use is for irrigation. For example, for stockwater use, the number and type of stock watered shall be provided. Similar indications of the extent of beneficial use shall be provided for all other non-irrigation uses. (3-20-20)T
- m. The period during each year that the water is used shall be described for each use. (3-20-20)T
- n. For permits having more than one (1) use, the diversion rate measured for each use, the annual diversion volume determined for each use (unless specifically exempted by rule or statute), and the place of use for each use shall be described. (3-20-20)T
- o. The amount (rate and/or volume) of water shall be limited by the smaller of the permitted amount, the amount upon which the license examination fee is paid, the capacity of the diversion works or the amount beneficially used prior to submitting proof of beneficial use, including any statutory limitation of the duty of water. (3-20-20)T
- p. Suggested amendments shall be noted on the field report when the place of use, point of diversion, period or nature of use is different from the permit. Suggested amendments shall be based on actual use, not on potential use. (3-20-20)T
- q. An aerial photo marked to depict the point(s) of diversion and place(s) of use for each use must accompany each field report unless waived by the Director. If existing photos are not available, the Director will accept a USGS Quadrangle map at the largest scale available. (3-20-20)T
- r. Unless required as a condition of permit approval, an on-site examination and direct measurement of the diversion rate are not required for the following water uses if the beneficial use, place of use, season of use, and point of diversion can be confirmed by documentary means such as well driller reports, property tax records, receipts and other records of the permit holder, or photographs, including aerial photographs: (3-20-20)T
- i. Irrigation up to five (5) acres. (3-20-20)T
- ii. Storage of up to fourteen point six (14.6) acre-feet of water solely for stock watering purposes. (3-20-20)T
- iii. Any uses other than irrigation or storage if the total combined diversion rate for all the uses

established in connection with the permit does not exceed twenty-four one hundredths (0.24) cubic feet per second.  
(3-20-20)T

**02. Field Report Acceptability.** (3-20-20)T

**a.** All field reports shall be prepared by or under the supervision of certified water right examiners or authorized department employees. Reports submitted by certified water right examiners must be properly endorsed with an engineer or geologist seal and signature. Field reports received from certified water right examiners will be accepted if the report includes all the information required to complete the report and provides the information required by Rule Subsection 035.01. (3-20-20)T

**b.** Field reports not completed as required by these rules will be returned to the certified water right examiner for completion. If the date for submitting proof of beneficial use has passed, the penalty provisions of Rule 055 shall apply. (3-20-20)T

**c.** If the Director determines that a field report prepared by a certified water right examiner is acceptable but that additional information is needed to clarify the field report, he will notify the examiner in writing of the information required. If the additional information is not submitted within thirty (30) days or within the time specified in the written notice, the priority date of the permit will be advanced one (1) day for each day the information submittal is late. Failure to submit the required information within one (1) year of the date of the department's request is cause for the Director to take action to cancel the permit. (3-20-20)T

**d.** Field reports which indicate that a measuring device or lockable controlling works, required as a condition of approval of the permit, has not been installed, are not acceptable and will be returned to the examiner unless the measuring device requirement or lockable controlling works requirement has been formally waived or modified by the Director. (3-20-20)T

**03. General.** (3-20-20)T

**a.** For irrigation purposes, the duty of water shall not exceed five (5) acre feet of stored water for each acre of land to be irrigated or more than one (1) cubic foot per second for each fifty (50) acres of land to be irrigated unless it can be shown to the satisfaction of the Director that a greater amount is necessary. (3-20-20)T

**b.** For irrigated acreage of five (5) acres or less, a diversion rate up to three one-hundredths (0.03) cfs per acre may be allowed on the license to be issued by the Director. (3-20-20)T

**c.** Conveyance losses of water from the point of diversion to the place of use which are determined by actual measurement may be allowed by the Director if the loss is determined by the Director to be reasonable. (3-20-20)T

**d.** The duty of water described in Subsections 035.03.a. or 035.03.b. may be exceeded if the department has authorized a greater diversion rate per acre when the permit was issued and good cause acceptable to the Director has been demonstrated. (3-20-20)T

**e.** For irrigation systems which cover twenty-five thousand (25,000) acres or more, within irrigation districts organized and existing under the laws of the state of Idaho, and for irrigation projects developed under a permit held by an association, company, corporation, or the United States to deliver surface water to more than five (5) water users under an annual charge or rental, the field report does not need to describe the irrigated land by legal subdivision, but may describe generally the lands under the project works if the total irrigated acres has been accurately determined and is shown on the field report. The amount of water beneficially used under such projects must be shown on the field report. (3-20-20)T

**036. -- 039. (RESERVED)**

**040. WATER MEASUREMENT (RULE 40).**

**01. Measurement Terminology.** (3-20-20)T

a. Rate of flow measurements shall be shown in units of cubic feet per second (cfs) with three (3) significant figures and no more precision than hundredths. (3-20-20)T

b. Volume measurements shall be shown in units of acre-feet (AF) with three (3) significant figures, and no more precision than tenths. (3-20-20)T

**02. Rate of Diversion.** The rate of diversion measurement shall be conducted as close as reasonably possible to the source of supply and shall be measured with the project works fully in place operating at normal capacity. For example, if a sprinkler system is used for irrigation purposes, discharge from the pump must be measured with the sprinkler system connected. (3-20-20)T

**03. Measurements.** Water measurements may be made by vessel, weir, meter, rated flume, reservoir capacity table or other standard method of measurement acceptable to the Director. The field report shall describe the method used in making the measurement, the date when made, the name of the person making the measurement, the legal description of the location where the measurement was taken and shall include sufficient information, including current meter notes, rating tables, and/or calibration information to enable the Director to check the quantity of water measured in each case. (3-20-20)T

**04. Unacceptable Measurements.** Theoretical diversion rates or theoretical carrying capacities are not acceptable as a measure of the rate of diversion except as indicated in these rules and for some diversion systems where the flow rate cannot be measured accurately due to the physical characteristics of the diversion and distribution system. (3-20-20)T

**05. Method.** Rate of flow measurements shall be determined using equipment and methods capable of obtaining an accuracy of plus or minus ten percent (10%). (3-20-20)T

**041. -- 044. (RESERVED)**

**045. DRAWINGS, MAP, AND SCHEMATIC DIAGRAM (RULE 45).**

The following provisions shall apply to the submittal of drawings, maps, photos and the schematic diagrams. (3-20-20)T

**01. Submittal of Drawings, Maps, Photos and Schematic Diagrams.** Drawings, maps, photos and schematic diagrams used as an attachment to the field report shall be on eight and one-half by eleven (8 1/2 x 11) inch paper whenever possible. (3-20-20)T

**02. Attachment Sheets.** Attachment sheets shall depict information on one (1) side only. (3-20-20)T

**03. Scale of Map.** The map depicting the point of diversion and place of use shall be of a reasonable scale but not less than two (2) inches equals one (1) mile. The map shall show the location of the point(s) of diversion to the nearest forty (40) acre tract or to a ten (10) acre tract for springs. The location of ditches, canals, mainlines, distribution systems and the place of use by forty (40) acre tract must be shown. (3-20-20)T

**04. Drawings.** Drawings need to generally depict the size and type of diversion works, measuring device, conveyance system, water application method, and the location of any measurements taken. (3-20-20)T

**05. Photographs.** Photographs of the diversion works, the typical distribution works and other prominent features of the system shall be provided with the field report. (3-20-20)T

**046. -- 049. (RESERVED)**

**050. LICENSE EXAMINATION FEE (RULE 50).**

**01. Examinations Conducted by Department Staff.** (3-20-20)T

a. The examination fee shall be payable to the Department of Water Resources unless the field

examination is conducted by a certified water right examiner. (3-20-20)T

**b.** The department will not conduct an examination for which the fee has not been paid to the department unless exempted in Rule Subsection 009.04, except that for any prior examination, whether conducted by a certified water right examiner or by department staff, the department may conduct a supplemental examination on its own initiative at any time. No examination fee shall be charged for a supplemental examination conducted by the department on its own initiative. (3-20-20)T

**c.** A license shall not be issued for an amount of water in excess of the amount covered by the examination fee. Subsequent to the examination and prior to a license being issued, the Director will notify the permit holder that the licensed amount will be limited because an insufficient examination fee was paid. The permit holder will be allowed thirty (30) days after the notice is mailed to pay the additional examination fee, along with a late payment penalty of twenty-five dollars (\$25) or twenty percent (20%) of the amount of the additional required fee whichever is more. If payment is received within the thirty (30) day period, the rate or volume licensed shall not be reduced by reason of the examination fee. If payment is not received within the thirty (30) day period, the rate or volume licensed shall be limited by the original examination fee paid. For the purpose of determining advancement of priority for late fee as provided in Section 42-217, Idaho Code, fees shall not be considered as having been paid until paid in full, including any subsequent fee. (3-20-20)T

**d.** Excess examination fees are non-refundable. (3-20-20)T

**e.** An examination fee equal to the initial examination fee paid to the department shall be paid for a re-examination made at the request for the permit holder except upon a showing of error by the department on the initial examination. (3-20-20)T

**02. Examinations Conducted by Non-Department Certified Water Right Examiners.** (3-20-20)T

**a.** The examination fee required by Section 42-217, Idaho Code is not applicable for examination conducted by or under the supervision of certified water right examiners. (3-20-20)T

**b.** A permit holder may not choose to have the examination conducted by the department after selecting a certified water right examiner. (3-20-20)T

**c.** After submitting proof of beneficial use and paying an examination fee to the department, but before the department's actual examination, a permit holder may submit an examination report completed by a certified water right examiner. Because the examination fee is an essential component of timely proof submittal, the department will not refund the examination fee. (3-20-20)T

**051. -- 054. (RESERVED)**

**055. PENALTY (RULE 55).**

**01. Permits for Which Proof Has Not Been Submitted.** The submittal required is the proof and the examination fee or the proof and a completed field report. (3-20-20)T

**02. Failure to Submit.** Failure to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner by the proof due date is cause to lapse the permit pursuant to Section 42-218a, Idaho Code, unless an extension of time pursuant to Section 42-204, Idaho Code, extending the proof of beneficial use due date has been approved. (3-20-20)T

**056. -- 999. (RESERVED)**

Appendix A

### 37.03.03 – RULES AND MINIMUM STANDARDS FOR THE CONSTRUCTION AND USE OF INJECTION WELLS

#### 000. LEGAL AUTHORITY.

This Chapter is adopted under the legal authority of Sections 42-3913, 42-3914, and 42-3915, Idaho Code.

(3-20-20)T

#### 001. TITLE AND SCOPE.

**01. Title.** These rules are titled IDAPA 37.03.03 “Rules and Minimum Standards for the Construction and Use of Injection Wells.”

(3-20-20)T

**02. Scope.** These rules and minimum standards are for construction and use of injection wells in the state of Idaho. Upon promulgation, these rules apply to all injection wells (see Rule Subsection 035.01). The construction and use of Class I, III, IV, or VI injection wells are prohibited by these rules. Class IV wells are also prohibited by federal law. These rules and minimum standards for construction and use of injection wells apply to all injection wells in the state of Idaho, except in Indian lands. All injection wells shall be permitted and constructed in accordance with the “Well Construction Standards Rules” found in IDAPA 37.03.09 which are authorized under Section 42-238, Idaho Code.

(3-20-20)T

**03. Rule Coverage.** In the event that a portion of these rules is less stringent than the minimum requirements for injection wells as established by Federal regulations, the correlative Federal requirement will be used to regulate the injection well.

(3-20-20)T

**04. Variance of Methods.** The Director may approve the use of a different testing method or technology if it is no less protective of human health and the environment, will not allow the migration of injected fluids into a USDW, meets the intent of the rule, and yields information or data consistent with the original method or technology required. A request for review by the Director must be submitted in writing by the applicant, permit holder, or operator and be included with all pertinent information necessary for the Director to evaluate the proposed testing method or technology.

(3-20-20)T

#### 002. INCORPORATION BY REFERENCE.

**01. Incorporated Document.** IDAPA 37.03.03 adopts and incorporates by reference those ground water quality standards found in Section 200 of IDAPA 58.01.11, “Ground Water Quality Rule,” of the Department of Environmental Quality.

(3-20-20)T

**02. Document Availability.** Copies of the incorporated document may be found at the central office of the Idaho Department of Water Resources, 322 East Front Street, Boise, Idaho, 83720-0098 or online through the department or state websites.

(3-20-20)T

#### 003. -- 009. (RESERVED)

#### 010. DEFINITIONS.

**01. Abandonment.** See “permanent decommissionion.

(3-20-20)T

**02. Abandoned Well.** See “permanent decommissionion”.

(3-20-20)T

**03. Agricultural Runoff Waste.** Excess surface water from agricultural fields generated during any agricultural operation, including runoff of irrigation tail water, as well as natural drainage resulting from precipitation, snowmelt, and floodwaters, and is identical to the statutory phrase “irrigation waste water” found in Idaho Code 42-3902.

(3-20-20)T

**04. Applicant.** Any owner or operator submitting an application for permit to construct, modify or maintain an injection well to the Director of the Department of Water Resources.

(3-20-20)T

**05. Application.** The standard Department forms for applying for a permit, including any additions, revisions or modifications to the forms.

(3-20-20)T

**06. Aquifer.** Any formation that will yield water to a well in sufficient quantities to make production of water from the formation reasonable for a beneficial use, except when the water in such formation results solely from fluids deposited through an injection well.

(3-20-20)T

- 07. Beneficial Use.** One (1) or more of the recognized beneficial uses of water including but not limited to, domestic, municipal, irrigation, hydropower generation, industrial, commercial, recreation, aquifer recharge and storage, stockwatering and fish propagation uses, as well as other uses which provide a benefit to the user of the water as determined by the Director. Industrial use as used for purposes of these rules includes, but is not limited to, manufacturing, mining and processing uses of water. (3-20-20)T
- 08. Best Management Practice (BMP).** A practice or combination of practices that are more effective than other techniques at preventing or reducing contamination of ground water and surface water by injection well operation. (3-20-20)T
- 09. Casing.** A pipe or tubing of appropriate material, of varying diameter and weight, lowered into a borehole during or after drilling in order to support the sides of the hole and thus prevent the walls from caving, to prevent loss of drilling fluid into porous ground, or to prevent water, gas, or other fluid from entering or leaving the hole. (3-20-20)T
- 10. Cementing.** The operation whereby a cement slurry is pumped into a drilled hole and/or forced behind the casing. (3-20-20)T
- 11. Cesspool.** An injection well that receives sanitary waste without benefit of a treatment system or treatment device such as a septic tank. Cesspools sometimes have open bottom and/or perforated sides. (3-20-20)T
- 12. Coliform Bacteria.** All of the aerobic and facultative anaerobic, gram-negative, non-spore forming, rod-shaped bacteria that either ferment lactose broth with gas formation within forty-eight (48) hours at thirty-five degrees Celsius (35C), or produce a dark colony with a metallic sheen within twenty-four (24) hours on an Endo-type medium containing lactose. (3-20-20)T
- 13. Confining Bed.** A body of impermeable or distinctly less permeable material stratigraphically adjacent to one (1) or more aquifers. (3-20-20)T
- 14. Construct.** To create a new injection well or to convert any structure into an injection well. (3-20-20)T
- 15. Contaminant.** Any physical, chemical, biological, or radiological substance or matter. (3-20-20)T
- 16. Contamination.** The introduction into the natural ground water of any physical, chemical, biological, or radioactive material that may: (3-20-20)T
- a.** Cause a violation of Idaho Ground Water Quality Standards found in IDAPA 58.01.11 “Ground Water Quality Rule” or the federal drinking water quality standards, whichever is more stringent; or (3-20-20)T
  - b.** Adversely affect the health of the public; or (3-20-20)T
  - c.** Adversely affect a designated or beneficial use of the State’s ground water. Contamination includes the introduction of heated or cooled water into the subsurface that will alter the ground water temperature and render the local ground water less suitable for beneficial use. (3-20-20)T
- 17. Conventional Mine.** An open pit or underground excavation for the production of minerals. (3-20-20)T
- 18. Decommission.** To remove a well from operation such that injection through the well is not possible. See “permanent decommission” and “unauthorized decommission”. (3-20-20)T
- 19. DEQ.** The Idaho Department of Environmental Quality. (3-20-20)T
- 20. Deep Injection Well.** An injection well which is more than eighteen (18) feet in vertical depth below land surface. (3-20-20)T

21. **Department.** The Idaho Department of Water Resources. (3-20-20)T
22. **Director.** The Director of the Idaho Department of Water Resources. (3-20-20)T
23. **Disposal Well.** A well used for the disposal of waste into a subsurface stratum. (3-20-20)T
24. **Draft Permit.** A prepared document indicating the Director's tentative decision to issue or deny, modify, revoke and reissue, terminate, or reissue a "permit." Permit conditions, compliance schedules, and monitoring requirements are typically included in a "draft permit". A notice of intent to terminate a permit, and a notice of intent to deny a permit are types of "draft permits." A denial of a request for modification, revocation and reissuance, or termination is not a "draft permit." (3-20-20)T
25. **Drilling Fluid.** Any number of liquid or gaseous fluids and mixtures of fluids and solids (such as solid suspensions, mixtures and emulsions of liquids, gases, and solids) used in operations to drill boreholes into the earth. (3-20-20)T
26. **Drywell.** An injection well completed above the water table so that its bottom and sides are typically dry except when receiving fluids. (3-20-20)T
27. **Endangerment.** Injection of any fluid which exceeds Idaho ground water quality standards, or federal drinking water quality standards, whichever is more stringent, that may result in the presence of any contaminant in ground water which supplies or can reasonably be expected to supply any public or non-public water system, and if the presence of such contaminant may result in such a system not complying with any ground water quality standard or may otherwise adversely affect the health of persons or result in a violation of ground water quality standards that would adversely affect beneficial uses. (3-20-20)T
28. **Exempted Aquifer.** An "aquifer" or its portion that meets the criteria in the definition of USDW but which has been recategorized as "other" according to the procedures in IDAPA 58.01.11 "Ground Water Quality Rule". (3-20-20)T
29. **Existing Injection Well.** An "injection well" other than a "new injection well." (3-20-20)T
30. **Experimental Technology.** A technology which has not been proven feasible under the conditions in which it is being tested. (3-20-20)T
31. **Facility or Activity.** Any UIC "injection well," or another facility or activity that is subject to regulation under the UIC program. (3-20-20)T
32. **Fault.** A surface or zone of rock fracture along which there has been displacement. (3-20-20)T
33. **Flow Rate.** The volume per time unit given to the flow of gases or other fluid substance which emerges from an orifice, pump, turbine or passes along a conduit or channel. (3-20-20)T
34. **Fluid.** Any material or substance which flows or moves, whether in a semisolid, liquid, sludge, gaseous or any other form or state. (3-20-20)T
35. **Formation.** A body of consolidated or unconsolidated rock characterized by a degree of lithologic homogeneity which is prevailing, but not necessarily, tabular and is mappable on the earth's surface or traceable in the subsurface. (3-20-20)T
36. **Generator.** Any person, by site location, whose act or process produces hazardous waste identified or listed in 40 CFR part 261. (3-20-20)T
37. **Ground Water.** Any water that occurs beneath the surface of the earth in a saturated formation of rock or soil. (3-20-20)T

- 38. Ground Water Quality Standards.** Standards found in IDAPA 58.01.11, “Ground Water Quality Rule,” Section 200. (3-20-20)T
- 39. Hazardous Waste.** Any substance defined by IDAPA 58.01.05, “Rules and Standards for Hazardous Waste.” (3-20-20)T
- 40. Indian Lands.** “Indian Country” as defined in 18 U.S.C. 1151. That section defines Indian Country as: (3-20-20)T
- a.** All land within the limits of any Indian reservation under the jurisdiction of the United States government, notwithstanding the issuance of any patent, and, including rights-of-way running through the reservation; (3-20-20)T
- b.** All dependent Indian communities within the borders of the United States whether within the original or subsequently acquired territory thereof, and whether within or without the limits of a State; and (3-20-20)T
- c.** All Indian allotments, the Indian titles to which have not been extinguished, including rights-of-way running through the same. (3-20-20)T
- 41. Individual Subsurface Sewage Disposal System.** For the purpose of these rules, any standard or alternative disposal system which injects sanitary waste from single family residential septic systems, or non-residential septic systems which are used solely for the disposal of sanitary waste and have the capacity to serve fewer than twenty (20) people a day. (3-20-20)T
- 42. Improved Sinkhole.** A naturally occurring karst depression or other natural crevice found in volcanic terrain and other geologic settings which have been modified by man for the purpose of directing and emplacing fluids into the subsurface. (3-20-20)T
- 43. Injection.** The subsurface emplacement of fluids through an injection well. (3-20-20)T
- 44. Injection Well.** Any feature that is operated to allow injection which also meets at least one (1) of the following criteria: (3-20-20)T
- a.** A bored, or driven shaft whose depth is greater than the largest surface dimension; (3-20-20)T
- b.** A dug hole whose depth is greater than the largest surface dimension; (3-20-20)T
- c.** An improved sinkhole; or (3-20-20)T
- d.** A subsurface fluid distribution system. (3-20-20)T
- 45. Injection Zone.** A geological “formation”, or those sections of a formation receiving fluids through an “injection well.” (3-20-20)T
- 46. IWRB.** Idaho Water Resource Board. (3-20-20)T
- 47. Large Capacity Cesspools.** Any cesspool used by a multiple dwelling, community or regional system for the disposal of sanitary wastes (for example: a duplex or an apartment building) or any cesspool used by or intended to be used by twenty (20) or more people per day (for example: a rest stop, campground, restaurant or church). (3-20-20)T
- 48. Large Capacity Septic System.** Class V wells that are used to inject sanitary waste through a septic tank and do not meet the criteria of an individual subsurface sewage disposal system. (3-20-20)T
- 49. Maintain.** To allow, either expressly or by implication, an injection well to exist in such condition as to accept or be able to accept fluids. Unless a well has been permanently decommissioned pursuant to the criteria

- contained in these rules it is considered to be capable of accepting fluids. (3-20-20)T
- 50. Modify.** To alter the construction of an injection well, but does not include cleaning or redrilling operations which neither deepen nor increase the dimensions of the well. (3-20-20)T
- 51. Motor Vehicle Waste Disposal Wells.** Injection wells that receive or have received fluids from vehicle repair or maintenance activities, such as an auto body repair shop, automotive repair shop, new and used car dealership, specialty repair shop (transmission and muffler repair shop), or any facility that does any vehicular repair work. (3-20-20)T
- 52. New Injection Well.** An “injection well” which began to be used for injection after a UIC program for the State applicable to the well is approved or prescribed. (3-20-20)T
- 53. Open-Loop Heat Pump Return Wells.** Injection wells that receive surface water or ground water that has been passed through a heat exchange system for cooling or heating purposes. (3-20-20)T
- 54. Operate.** To allow fluids to enter an injection well by action or inaction of the operator. (3-20-20)T
- 55. Operator.** Any individual, group of individuals, partnership, company, corporation, municipality, county, state agency, taxing district, federal agency or other entity that operates or proposes to operate any injection well. (3-20-20)T
- 56. Owner.** Any individual, group of individuals, partnership, company, corporation, municipality, county, state agency, taxing district, federal agency or other entity owning land on which any injection well exists or is proposed to be constructed. (3-20-20)T
- 57. Packer.** A device lowered into a well to produce a fluid-tight seal. (3-20-20)T
- 58. Perched Aquifer.** Ground water separated from an underlying main body of ground water by an unsaturated zone. (3-20-20)T
- 59. Permanent Decommission.** The discontinuance of use of an injection well in a method approved by the Director such that the injection well no longer has the capacity to inject fluids and the upward or downward migration of fluid is prevented. This also includes the disposal and proper management of any soil, gravel, sludge, liquids, or other materials removed from or adjacent to the injection well in accordance with all applicable Federal, State, and local regulations and requirements. (3-20-20)T
- 60. Permit.** An authorization, license, or equivalent control document issued by the Department. (3-20-20)T
- 61. Person.** Any individual, association, partnership, firm, joint stock company, trust, political subdivision, public or private corporation, state or federal governmental department, agency or instrumentality, or any other legal entity which is recognized by law. (3-20-20)T
- 62. Point of Beneficial Use.** The top or surface of a USDW, directly below an injection well, where water is available for a beneficial use. (3-20-20)T
- 63. Point of Diversion for Beneficial Use.** A location such as a producing well or spring where ground water is taken under control and diverted for a beneficial use. (3-20-20)T
- 64. Point of Injection.** The last accessible sampling point prior to waste being released into the subsurface environment through an injection well. For example, the point of injection for a Class V septic system might be the distribution box. For a drywell, it is likely to be the well bore itself. (3-20-20)T
- 65. Pressure.** The total load or force per unit area acting on a surface. (3-20-20)T
- 66. Radioactive Material.** Any material, solid, liquid or gas which emits radiation spontaneously.

- Radioactive geologic materials occurring in their natural state are not included. (3-20-20)T
- 67. Radioactive Waste.** Any fluid which contains radioactive material in concentrations which exceed those established for discharges to water in an unrestricted area by 10 CFR 20.1302.(b)(2)(i) and Table 2 in Appendix B of 10 CFR 20. (3-20-20)T
- 68. RCRA.** The Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976. (3-20-20)T
- 69. Remediation Project.** Use of an injection well for the removal, treatment or isolation of a contaminant from ground water through actions or the removal or treatment of a contaminant in ground water as approved by the Director. (3-20-20)T
- 70. Residential (Domestic) Activities.** Human activities that generate liquid or solid waste in any public, private, industrial, commercial, municipal, or other facility. (3-20-20)T
- 71. Sanitary Waste.** Any fluid generated through residential (domestic) activities, such as food preparation, cleaning and personal hygiene. This term does not include industrial, municipal, commercial, or other non-residential process fluids. (3-20-20)T
- 72. Schedule of Compliance.** A schedule of remedial measures including an enforceable sequence of actions or operations leading to compliance with the standards. (3-20-20)T
- 73. Septic System.** An injection well that is used to inject sanitary waste below the surface. A septic system is typically comprised of a septic tank and subsurface fluid distribution system or disposal system. (3-20-20)T
- 74. Shallow Injection Well.** An injection well which is less than or equal to eighteen (18) feet in vertical depth below land surface. (3-20-20)T
- 75. Site.** The land or water area where any “facility or activity” is physically located or conducted, including adjacent land used in connection with the facility or activity. (3-20-20)T
- 76. State.** The state of Idaho. (3-20-20)T
- 77. Stratum (plural strata).** A single sedimentary bed or layer, regardless of thickness, that consists of generally the same kind of rock material. (3-20-20)T
- 78. Subsidence.** The lowering of the natural land surface in response to: Earth movements; lowering of fluid pressure; removal of underlying supporting material by mining or solution of solids, either artificially or from natural causes; compaction due to wetting (Hydrocompaction); oxidation of organic matter in soils; or added load on the land surface. (3-20-20)T
- 79. Subsurface Fluid Distribution System.** An assemblage of perforated pipes, drain tiles, or other similar mechanisms intended to distribute fluids below the surface of the ground. (3-20-20)T
- 80. UIC.** The Underground Injection Control program under Part C of the Safe Drinking Water Act, including an “approved State program.” (3-20-20)T
- 81. Unauthorized Decommission.** The decommissioning of any injection well that has not received the approval of the Department prior to decommissioning, or was not decommissioned in a method approved by the Director. These wells may have to be properly decommissioned when discovered by the Director to ensure that the well prevents commingling of aquifers or is no longer capable of injection. (3-20-20)T
- 82. Underground Injection.** See “injection.” (3-20-20)T
- 83. Underground Source of Drinking Water (USDW).** An aquifer or its portion: (3-20-20)T

- a. Which: (3-20-20)T
  - i. Supplies any public water system; or (3-20-20)T
  - ii. Contains a sufficient quantity of ground water to supply a public water system; or (3-20-20)T
  - (1) Currently supplies drinking water for human consumption; or (3-20-20)T
  - (2) Contains fewer than ten thousand (10,000) mg/l total dissolved solids; and (3-20-20)T
  - b. Which is not an exempted aquifer. (3-20-20)T
- 84. Unreasonable Contamination.** Endangerment of a USDW or the health of persons or other beneficial uses by injection. See “endangerment.” (3-20-20)T
- 85. Water Quality Standards.** Refers to those standards found in Idaho Department of Environmental Quality Rules, IDAPA 58.01.02, “Water Quality Standards” and IDAPA 58.01.11, “Ground Water Quality Rule.” (3-20-20)T
- 86. Well.** For the purposes of these rules, “well” means “injection well.” (3-20-20)T
- 011. -- 014. (RESERVED)**
- 015. VIOLATIONS, FORMAL NOTIFICATION AND ENFORCEMENT.**
- 01. Violations.** It shall be a violation of these rules for any owner or operator to: (3-20-20)T
    - a. Fail to comply with a permit or authorization, or terms or conditions thereof; (3-20-20)T
    - b. Fail to comply with applicable standards for water quality; (3-20-20)T
    - c. Fail to comply with any permit application notification or filing requirement; (3-20-20)T
    - d. Knowingly make any false statement, representation or certification in any application, report, document or record filed pursuant to these rules, or terms and conditions of an issued permit; (3-20-20)T
    - e. Falsify, tamper with or knowingly render inaccurate any monitoring device or method required to be maintained or utilized by the terms and conditions of an issued permit; (3-20-20)T
    - f. Fail to respond to any formal notification of a violation when a response is required; or (3-20-20)T
    - g. Decommission a well in an unauthorized manner. (3-20-20)T
  - 02. Additional.** It shall be a violation of these rules for any person to construct, operate, maintain, convert, plug, decommission or conduct any other activity in a manner which results or may result in the unauthorized injection of a hazardous waste or of a radioactive waste by an injection well. (3-20-20)T
  - 03. Formal Notification.** Formal notification of violations may be communicated to the owner or operator with a letter, a notice of violation, a compliance or enforcement order or other appropriate means. (3-20-20)T
  - 04. Enforcement.** Violation of any of the provisions of the Injection Well Act (Chapter 39, Title 42, Idaho Code) or of any rule, regulation, standard or criteria pertaining to the Injection Well Act may result in the Director initiating an enforcement action as provided under Chapters 17 and 39, Title 42, Idaho Code. (3-20-20)T
- 016. -- 019. (RESERVED)**

**020. HEARING BEFORE THE WATER RESOURCE BOARD.**

**01. General.** All hearings before the IWRB will be conducted in accordance with Chapter 52, Title 67, Idaho Code, at a place convenient to the owner and/or operator. For purposes of such hearings, the IWRB or its designated hearing officer shall have power to administer oaths, examine witnesses, and issue in the name of the said Board subpoenas requiring testimony of witnesses and the production of evidence relevant to any matter in the hearing. Judicial review of the final determination by the IWRB may be secured by the owner by filing a petition for review as prescribed by Chapter 52, Title 67, Idaho Code, in the District Court of the county where the injection well is situated or proposed to be located. The petition for review shall be served upon the Chairman of the IWRB and upon the Attorney General. (3-20-20)T

**02. Hearings on Conditional Permits, Disapproved Applications, or Petitions for Exemption.** Any owner or operator aggrieved by the approval or disapproval of an application, or by conditions imposed upon a permit, or any person aggrieved by the Director's decision on a petition for exemption under Section 025 of these rules, shall be afforded an opportunity for a hearing before the IWRB or its designated hearing officer. Written notice of such grievance shall be transmitted to the Director within thirty (30) days after receipt of notice of such approval, disapproval or conditional approval. Such hearing shall be held for the purpose of determining whether the permit shall be issued, whether the conditions imposed in a permit are reasonable, whether a change in circumstances warrants a change in conditions imposed in a valid permit, or whether the Director's decision on a petition for exemption should not be changed. (3-20-20)T

**03. Hearings on Permit Cancellations.** When the Director has reason to believe the operation of an injection well for which a permit has been issued is interfering with the right of the public to withdraw water for beneficial uses, or is causing unreasonable contamination of a drinking or other ground water source as provided for in Title 42, Chapter 39, Idaho Code, the permit may be canceled by the Director. Prior to the cancellation of such permit there shall be a hearing before the IWRB for the purpose of determining whether or not the permit should be canceled. At such hearing, the Director shall be the complaining party. At least thirty (30) days prior to the hearing, a notice, which shall be in accordance with Chapter 52, Title 67, Idaho Code, shall be sent by certified mail to the owner or operator whose permit is proposed to be canceled. The Board shall affirm, modify, or reject the Director's decision and make its decision in the form of an order to the Director. (3-20-20)T

**021. -- 034. (RESERVED)**

**035. CLASSIFICATION OF INJECTION WELLS.**

**01. Classification of Injection Wells.** For the purposes of these rules, injection wells are classified as follows: (3-20-20)T

**a. Class I:** (3-20-20)T

i. Wells used by generators of hazardous waste or owners or operators of hazardous waste management facilities to inject hazardous waste beneath the lowermost formation containing, within one-quarter (1/4) mile of the well bore, an underground source of drinking water. (3-20-20)T

ii. Other industrial and municipal disposal wells which inject fluids beneath the lowermost formation containing, within one-quarter (1/4) mile of the well bore, an underground source of drinking water. (3-20-20)T

iii. Radioactive waste disposal wells which inject fluids below the lowermost formation containing an underground source of drinking water within one-quarter (1/4) mile of the well bore. (3-20-20)T

**b. Class II. Wells used to inject fluids:** (3-20-20)T

i. Which are brought to the surface in connection with natural gas storage operations, or conventional oil or natural gas production and may be commingled with waste waters from gas plants, dehydration stations, or compressor stations which are an integral part of production operations, unless those waters are classified as a hazardous waste at the time of injection. (3-20-20)T

- ii. For enhanced recovery of oil or natural gas; and (3-20-20)T
- iii. For storage of hydrocarbons which are liquid at standard temperature and pressure. (3-20-20)T
- c. Class III. Wells used to inject fluids for extraction of minerals including: (3-20-20)T
  - i. Mining of sulfur by the Frasch process; (3-20-20)T
  - ii. In situ production of uranium or other metals; this category includes only in-situ production from ore bodies which have not been conventionally mined. Solution mining of conventional mines such as stopes leaching is included in Class V. (3-20-20)T
  - iii. Solution mining of salts or potash. (3-20-20)T
- d. Class IV: (3-20-20)T
  - i. Wells used by generators of hazardous waste or of radioactive waste, by owners or operators of hazardous waste management facilities, or by owners or operators of radioactive waste disposal sites to dispose of hazardous waste or radioactive waste into a formation which within one-quarter (1/4) mile of the well contains an underground source of drinking water. (3-20-20)T
  - ii. Wells used by generators of hazardous waste or of radioactive waste, by owners or operators of hazardous waste management facilities, or by owners or operators of radioactive waste disposal sites to dispose of hazardous waste or radioactive waste above a formation which within one-quarter (1/4) mile of the well contains an underground source of drinking water. (3-20-20)T
  - iii. Wells used by generators of hazardous waste or owners or operators of hazardous waste management facilities to dispose of hazardous waste, which cannot be classified under Subparagraphs 035.01.a.i. or 035.01.d.i. or 035.01.d.ii. of this rule (e.g., wells used to dispose of hazardous waste into or above a formation which contains an aquifer which has been exempted pursuant to Section 025 of these rules). (3-20-20)T
- e. Class V -- All injection wells not included in Classes I, II, III, IV, or VI. (3-20-20)T
- f. Class VI. (3-20-20)T
  - i. Wells that are not experimental in nature that are used for geologic sequestration of carbon dioxide beneath the lowermost formation containing a USDW; or (3-20-20)T
  - ii. Wells used for geologic sequestration of carbon dioxide that have been granted a waiver of the injection depth requirements pursuant to requirements at 40 CFR Section 146.95; or (3-20-20)T
  - iii. Wells used for geologic sequestration of carbon dioxide that have received an expansion to the areal extent of an existing Class II enhanced oil recovery or enhanced gas recovery aquifer exemption pursuant to Section 025 of these rules. (3-20-20)T
- 02. Subclassification.** Class V wells are subclassified as follows: (3-20-20)T
  - a. 5A5-Electric Power Generation. (3-20-20)T
  - b. 5A6-Geothermal Heat. (3-20-20)T
  - c. 5A7-Heat Pump Return. (3-20-20)T
  - d. 5A8-Aquaculture Return Flow. (3-20-20)T
  - e. 5A19-Cooling Water Return. (3-20-20)T

<b>f.</b>	5B22-Saline Water Intrusion Barrier.	(3-20-20)T
<b>g.</b>	5D2-Storm Runoff.	(3-20-20)T
<b>h.</b>	5D3-Improved Sinkholes.	(3-20-20)T
<b>i.</b>	5D4-Industrial Storm Runoff.	(3-20-20)T
<b>j.</b>	5F1-Agricultural Runoff Waste.	(3-20-20)T
<b>k.</b>	5G30-Special Drainage Water.	(3-20-20)T
<b>l.</b>	5N24 <sup>1</sup> -Radioactive Waste Disposal.	(3-20-20)T
<b>m.</b>	5R21-Aquifer Recharge.	(3-20-20)T
<b>n.</b>	5S23-Subsidence Control.	(3-20-20)T
<b>o.</b>	5W9-Untreated Sewage.	(3-20-20)T
<b>p.</b>	5W10-Cesspools.	(3-20-20)T
<b>q.</b>	5W11-Septic Systems (General).	(3-20-20)T
<b>r.</b>	5W12-Waste Water Treatment Plant Effluent.	(3-20-20)T
<b>s.</b>	5W20-Industrial Process Water.	(3-20-20)T
<b>t.</b>	5W31-Septic Systems (Well Disposal).	(3-20-20)T
<b>u.</b>	5W32-Septic System (Drainfield).	(3-20-20)T
<b>v.</b>	5X13-Mine Tailings Backfill.	(3-20-20)T
<b>w.</b>	5X14-Solution Mining.	(3-20-20)T
<b>x.</b>	5X15-In-Situ Fossil Fuel Recovery.	(3-20-20)T
<b>y.</b>	5X16-Spent Brine Return Flow.	(3-20-20)T
<b>z.</b>	5X25-Experimental Technology.	(3-20-20)T
<b>aa.</b>	5X26-Aquifer Remediation.	(3-20-20)T
<b>bb.</b>	5X27-Other Wells.	(3-20-20)T
<b>cc.</b>	5X28 <sup>1</sup> -Motor Vehicle Waste Disposal Wells.	(3-20-20)T
<b>dd.</b>	5X29-Abandoned Water Wells.	(3-20-20)T

<sup>1</sup> The construction and operation of wells in these subclasses is currently illegal in Idaho.

**036. -- 039. (RESERVED)**

**040. AUTHORIZATIONS, PROHIBITIONS AND EXEMPTIONS.**

**01. Authorizations.** Construction and use of Class V deep injection wells may be authorized by permit

as approved by the Director in accordance with these rules. (3-20-20)T

**02. Prohibitions.** (3-20-20)T

**a.** These rules prohibit the permitting, construction, or use of any Class I, III IV, or VI injection well. (3-20-20)T

**b.** No owner or operator shall construct, operate, maintain, convert, plug, abandon, or conduct any other injection activity in a manner that allows or causes the movement of fluid containing any contaminant into underground sources of drinking water, if the presence of that contaminant may cause a violation of any primary or secondary drinking water regulation, under IDAPA 58.01.11, “Ground Water Quality Rule,” Section 200 or may otherwise adversely affect the health of persons. The applicant for a permit shall have the burden of showing that the requirements of Paragraph 040.02.c. are met. (3-20-20)T

**c.** Notwithstanding any other provision of this section, the Director may take emergency action upon receipt of information that a contaminant which is present in or likely to enter a public water system or underground source of drinking water may present an imminent and substantial endangerment to the health of persons. (3-20-20)T

**d.** Construction of large capacity cesspools, motor vehicle waste disposal wells, radioactive waste disposal wells, and untreated sewage disposal wells is prohibited. Construction and use of other Class V shallow injection wells are authorized by these rules without permit provided that: (3-20-20)T

**i.** Required inventory information is submitted to the Director pursuant to Subsection 070.01 of this rule. (3-20-20)T

**ii.** Use of the shallow injection well shall not result in unreasonable contamination of a USDW or cause a violation of surface or ground water quality standards that would affect a beneficial use. (3-20-20)T

**e.** Class IV injection wells used to inject contaminated ground water that has been treated and is being reinjected into the same formation from which it was drawn are not prohibited by these rules if such injection is approved by EPA, or Idaho, pursuant to provisions for cleanup of releases under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 U.S.C. 9601–9657, or pursuant to requirements and provisions under the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6901 through 6987. (3-20-20)T

**f.** All large capacity cesspools must be properly decommissioned by January 1, 2005. A cease and desist order may be issued to the owner or the operator when a large capacity cesspool is found to be a threat to the ground water resources as described in Paragraph 070.01.c. (3-20-20)T

**g.** All motor vehicle waste disposal wells must be properly decommissioned by January 1, 2005. A cease and desist order may be issued to the owner or the operator when a motor vehicle waste disposal well is found to be a threat to the ground water resources as described in Paragraph 070.01.c. (3-20-20)T

**h.** The Construction, operation or maintenance of any non-experimental Class V geologic sequestration well is prohibited. (3-20-20)T

**i.** Owners or operators of shallow injection wells are prohibited from injecting into the well upon failure to submit inventory information in a timely manner pursuant to Paragraph 070.01.a. of these rules. (3-20-20)T

**03. Exemptions.** (3-20-20)T

**a.** The UIC inventory and fee requirements of these rules do not apply to individual subsurface sewage disposal system wells. These systems are, however, subject to the permitting and fee requirements of IDAPA 58.01.03 “Individual/Subsurface Sewage Disposal Rules,” Title 39, Chapter 1 and Title 39, Chapter 36, Idaho Code. (3-20-20)T

**b.** State or local government entities are exempt from the permit requirements of these rules for wells

associated with highway and street construction and maintenance projects, but shall submit shallow injection well inventory information for said wells and shall comply with all other requirements of these rules. (3-20-20)T

**c.** Mine tailings backfill (5X13) wells are authorized by rule as part of mining operations. They are therefore exempt from the ground water quality standards and permitting requirements of these rules provided that their use is limited to the injection of mine tailings only. The use of any 5X13 well(s) shall not result in water quality standards at points of diversion for beneficial use being exceeded or otherwise affect a beneficial use. Should water quality standards be exceeded or beneficial uses be affected, the Director may order the wells to be put under the permit requirements of these rules, or the wells may be required to be remediated or closed. As a condition of their use, the Director may require the construction and sampling of monitoring wells by the owner/operator. 5X13 wells are subject to the inventory requirements of Subsection 070.01. (3-20-20)T

**041. -- 069. (RESERVED)**

**070. CLASS V: CRITERIA AND STANDARDS.**

**01. Class V Shallow Injection Well Requirements. (3-20-20)T**

**a.** Authorization. As a condition of authorization, all owners or operators of shallow Class V injection wells, including improved sinkholes used for aquifer recharge, that dispose of nonhazardous and nonradioactive wastes are required to submit a Shallow Injection Well Inventory Form to the Department no later than thirty (30) days prior to commencement of construction for each new well or no later than thirty (30) days after the discovery of an existing injection well that has not previously been inventoried with the Department. Forms are available from any Department office or at the Department website at <http://www.idwr.idaho.gov>. State or local government entities shall submit the following inventory information for wells associated with highway and street construction and maintenance projects. (3-20-20)T

- i. Facility name and location; and (3-20-20)T
- ii. County in which the injection well(s) is (are) located; and (3-20-20)T
- iii. Ownership of the well(s); and (3-20-20)T
- iv. Name, address and phone number of legal contact; and (3-20-20)T
- v. Type or function of the well(s); and (3-20-20)T
- vi. Number of wells of each type; and (3-20-20)T
- vii. Operational status of the well(s). (3-20-20)T

**b.** Inventory Fees. For shallow injection wells constructed after July 1, 1997, the Shallow Injection Well Inventory Form shall be accompanied by a fee as specified in Section 42-3905, Idaho Code, payable to the Department of Water Resources. State or local government entities are exempt from Shallow Injection Well Inventory Form filing fees for wells associated with highway and street construction and maintenance, but shall comply with all other requirements of these rules. (3-20-20)T

**c.** Permit Requirements. If operation of a shallow Class V injection well is causing or may cause unreasonable contamination of a USDW, or cause a violation of the ground water quality standards at a place of beneficial use, the Director shall require immediate cessation of the injection activity. Where a Class V injection well is owned or operated by an entity other than a state or local entity involved in highway and street construction and maintenance, the Director may authorize continued operation of the well through a permit that specifies the terms and conditions of acceptable operation. (3-20-20)T

**d.** Permanent Decommission. Owners or operators of shallow injection wells shall notify the Director not less than thirty (30) days prior to permanent decommissioning of any shallow injection well. Permanent decommissioning shall be accomplished in accordance with procedures approved by the Director. (3-20-20)T

e. Inter-Agency Cooperation. The Department may seek the assistance of other government agencies, including cities and counties, health districts, highway districts, and other departments of state government to inventory, monitor and inspect shallow injection wells, where local assistance is needed to prevent deterioration of ground water quality, and where injection well operation overlaps with water quality concerns of other agencies or local governing entities. Assistance is to be negotiated through a memorandum of understanding between the Department and the local entity, agency, or department, and is subject to the approval of the Director. (3-20-20)T

**02. Class V Deep Injection Well Requirements. (3-20-20)T**

**a. Application Requirements. (3-20-20)T**

i. No person shall continue to maintain or use an unauthorized injection well after the effective date given in Section 42-3903, Idaho Code, unless a permit therefor has been issued by the Director. No injection well requiring a permit under Subsection 070.02 shall be constructed, modified or maintained after the effective date given in Section 42-3903, Idaho Code, unless a permit therefor has been issued by the Director. No injection well requiring a permit shall continue to be used after the expiration of the permit issued for such well unless another application for permit therefor has been received by the Director. All applications for permit shall be on forms furnished by the Director. (3-20-20)T

ii. Each application for permit to construct, modify or maintain an injection well, as required by these rules, shall be accompanied by a filing fee as specified in Section 42-3905, Idaho Code, payable to the Department of Water Resources. For the purposes of these rules, all wells or groups of wells associated with a “Remediation Project” may be administered as one (1) “well” at the discretion of the Director. (3-20-20)T

**b. Application Information Required.** An applicant shall submit the following information to the Director for all injection wells to be authorized by permit, unless the Director determines that it is not needed in whole or in part, and issues a written waiver to the applicant: (3-20-20)T

- i. Facility name and location; (3-20-20)T
- ii. Name, address and phone number of the well operator; (3-20-20)T
- iii. Class, subclass and function of the injection well (see Section 035); (3-20-20)T
- iv. Latitude/longitude or legal description of the well location to the nearest ten (10) acre tract; (3-20-20)T
- v. Ownership of the well; (3-20-20)T
- vi. County in which the injection well is located; (3-20-20)T
- vii. Construction information for the well; (3-20-20)T
- viii. Quantity and general character of the injected fluids; (3-20-20)T
- ix. Status of the well; (3-20-20)T
- x. A topographic map or aerial photograph extending one (1) mile beyond property boundaries, depicting: (3-20-20)T
  - (1) Location of the injection well and associated facilities described in the application; (3-20-20)T
  - (2) Locations of other injection wells; (3-20-20)T
  - (3) Approximate drainage area, if applicable; (3-20-20)T

- (4) Hazardous waste facilities, if applicable; (3-20-20)T
- (5) All wells used to withdraw drinking water; (3-20-20)T
- (6) All other wells, springs and surface waters. (3-20-20)T
- xi. Distance and direction to nearest domestic well; (3-20-20)T
- xii. Depth to ground water; and (3-20-20)T
- xiii. Alternative methods of waste disposal. (3-20-20)T
- c.** Additional Information. The Director may require the following additional information for Class V injection wells to assess potential effects of injection: (3-20-20)T
- well: i. A topographic map showing locations of the following within a two (2) mile radius of the injection well: (3-20-20)T
  - (1) All wells producing water; (3-20-20)T
  - (2) All exploratory and test wells; (3-20-20)T
  - (3) All other injection wells; (3-20-20)T
  - (4) Surface waters (including man-made impoundments, canals and ditches); (3-20-20)T
  - (5) Mines and quarries; (3-20-20)T
  - (6) Residences; (3-20-20)T
  - (7) Roads; (3-20-20)T
  - (8) Bedrock outcrops; and (3-20-20)T
  - (9) Faults and fractures. (3-20-20)T
- ii. Additional maps or aerial photographs of suitable scale to accurately depict the following: (3-20-20)T
  - (1) Location and surface elevation of the injection well described in this permit; (3-20-20)T
  - (2) Location and identification of all facilities within the property boundaries; (3-20-20)T
  - (3) Locations of all wells penetrating the proposed injection zone or within a one-quarter (1/4) mile radius of the injection well; (3-20-20)T
  - (4) Maps and cross sections depicting all underground sources of drinking water to include vertical and lateral limits within a one-quarter (1/4) mile radius of the injection well, their position relative to the injection zone and the direction of water movement: local geologic structures; regional geologic setting. (3-20-20)T
- iii. A comprehensive report of the following information: (3-20-20)T
  - (1) A tabulation of all wells penetrating the proposed injection zone, listing owner, lease holder and operator; well identification (permit) number; size, weight, depth and cementing data for all strings of casing; (3-20-20)T
  - (2) Description of the quality and quantity of fluids to be injected; (3-20-20)T

- (3) Geologic, hydrogeologic, and physical characteristics of the injection zone and confining beds; (3-20-20)T
  - (4) Engineering data for the proposed injection well; (3-20-20)T
  - (5) Proposed operating pressure; (3-20-20)T
  - (6) A detailed evaluation of alternative disposal practices; (3-20-20)T
  - (7) A plan of corrective action for wells penetrating the zone of injection, but not properly sealed or decommissioned; and (3-20-20)T
  - (8) Contingency plans to cope with all shut-ins or well failures to prevent the migration of unacceptable fluids into underground sources of drinking waters. (3-20-20)T
- iv. Name, address and phone number of person(s) or firm(s) supplying the technical information and/or designing the injection well; (3-20-20)T
  - v. Proof that the applicant is financially responsible, through a performance bond or other appropriate means, to decommission the injection well in a manner approved by the Director. (3-20-20)T
- d. Other Information.** The Director may require of any applicant such additional information as may be necessary to demonstrate that the proposed or existing injection well will not endanger a USDW. The Director will not complete the processing of an application for which additional information has been requested until such time as the additional information is supplied. The Director may return any incomplete application and will not process such application until such time as the application is received in complete form. (3-20-20)T
- 03. Application Processing.** (3-20-20)T
- a. Draft Permit.** After all application information is received and evaluated, the Director will prepare a draft permit or denial, which will include the application for permit, permit conditions or reasons for denial, and any compliance schedules or monitoring requirements. In preparing the draft permit or denial, the Director shall consider the following factors: (3-20-20)T
    - i. The availability of economic and practical alternative means of disposal; (3-20-20)T
    - ii. The application of best management practices to the facilities and/or area draining into the well; (3-20-20)T
    - iii. The availability of economical, practical means of treating or otherwise reducing the amount of contaminants in the injected fluids; (3-20-20)T
    - iv. The quality of the receiving ground water, its category, its present and future beneficial uses or interconnected surface water; (3-20-20)T
    - v. The location of the injection well with respect to drinking water supply wells; and (3-20-20)T
    - vi. Compliance with the IDAPA 58.01.11, “Ground Water Quality Rule.” (3-20-20)T
  - b. Public Notice.** The Director will provide public notice of any draft permit to construct, maintain or modify a Class V injection well by means of a legal notice in a newspaper of general circulation in the county in which the well is located. The Director may give additional notice as necessary to adequately inform the interested public and governmental agencies. There shall be a period of at least thirty (30) days following publication for any interested person to submit written comments and to request a fact-finding hearing. The hearing will be held by the Director if deemed necessary. (3-20-20)T

c. Review by the Directors of Other State Agencies. The Directors of other state agencies, as determined by the Director, shall be provided the opportunity to review and comment on draft permits. Comments shall be submitted to the Director within thirty (30) days of the public or legal notice. (3-20-20)T

d. Open-Loop Heat Pump Return Wells (Subclass 5A7). (3-20-20)T

i. An open-loop heat pump return well greater than eighteen (18) feet in depth to be used solely for disposal of heat pump water at a rate not exceeding fifty (50) gpm does not require a draft permit and is not subject to a recurring permit cycle, however, registration of the well with the Department and submittal of a filing fee as specified in Section 42-3905, Idaho Code is required. The Director reserves the right to override the exemptions from the draft permit and permit cycle requirements. (3-20-20)T

ii. An open-loop heat pump return well greater than eighteen (18) feet in depth to be used solely for disposal of heat pump return water at a rate exceeding fifty (50) gpm is subject to the requirements of Subsections 070.02 and 070.03 of these rules. (3-20-20)T

e. Fact-Finding Hearings. At the Director's discretion, or upon motion of any interested individual, the Director may elect to hold a fact-finding hearing. Said hearing will be held at a location in the geographical area of the injection well. Notice of said hearing will be provided at least thirty (30) days in advance of the hearing by regular mail to the applicant and to the person or persons requesting the hearing. Public notice of the fact-finding hearing will be made by means of press release to a newspaper of general circulation in the county of the application. (3-20-20)T

**04. The Director's Action On Draft Permits and Duration Of Approved Permits.** The role of the Director is to determine whether or not the injection wells and their respective owners or operators are in compliance with the intent of these rules, thus protecting the ground waters of the state against unreasonable contamination or deterioration of quality and preserving them for diversion to beneficial uses. (3-20-20)T

a. Consideration. The Director will consider the following factors in taking final action on draft permits: (3-20-20)T

i. The likelihood and consequences of the injection well system failing; (3-20-20)T

ii. The long term effects of such disposal or storage; (3-20-20)T

iii. The recommendations and related justifications of the Directors of other state agencies and the public; (3-20-20)T

iv. The potential for violation of ground water quality standards at the point of injection or the point of beneficial use; and (3-20-20)T

v. Compliance with the Idaho Ground Water Quality Plan. (3-20-20)T

b. Issuance of Permit. After considering the draft permit for construction, modification, or maintenance, and all matters relating thereto, the Director shall issue a permit if the standards and criteria of Subsection 070.05 will be met and USDW's will not otherwise be unreasonably affected. If the Director finds that the standards and criteria cannot be met or that ground water sources cannot otherwise be protected from unreasonable contamination at all times, the draft permit may be denied or a permit may be issued with conditions designed to protect ground water sources. The Director's decision shall be in writing and a copy shall be mailed by regular mail to the applicant and to all persons who commented in writing on the draft permit or appeared at a hearing held to consider the draft permit. (3-20-20)T

c. Permit Conditions and Requirements. Any permit issued by the Director shall contain conditions to insure that ground water sources will be protected from waste, unreasonable contamination, or deterioration of ground water quality that could result in violations of the ground water quality standards. In addition to specific construction, operation, maintenance and monitoring requirements that the Director finds necessary, each permit shall be subject to the standard conditions and requirements of this rule. (3-20-20)T

- d. Construction Requirements. (3-20-20)T
- i. Well drillers or other persons involved with the construction of any injection well requiring a permit shall not commence construction on the facility until a certified copy of the approved permit is obtained from the Director. (3-20-20)T
- ii. Deep injection wells shall be constructed by a licensed water well driller to conform with the current Minimum Well Construction Standards and the conditions of the permit, except that a driller's license is not required for the construction of a driven mine shaft or a dug hole. (3-20-20)T
- iii. Shallow injection wells authorized by permit shall be constructed in accordance with the conditions of the permit. Rule-authorized shallow injection wells shall be constructed as shown or described in the inventory submittal. (3-20-20)T
- iv. Injection wells shall be constructed to prevent the entrance of any fluids other than specified in the permit. (3-20-20)T
- v. Injection wells shall be constructed to prevent waste of artesian fluids or movement of fluids from one aquifer into another. (3-20-20)T
- vi. When construction or modification of an injection well has been completed, the owner or operator shall inform the Director of completion on a form provided by the Department. (3-20-20)T
- vii. A sampling port shall be provided if the injection well system is enclosed. (3-20-20)T
- viii. All new injection wells constructed into alluvial formations shall have a minimum ten (10) foot separation from the bottom of the well and seasonal high ground water. (3-20-20)T
- (1) Injection wells installed into fractured basalt are exempt from separation distances. (3-20-20)T
- (2) The Director may reduce separation distance requirements if the quality of injected fluids are improved through additional treatment or BMPs. (3-20-20)T
- (3) Heat pump return wells (sub-class 5A7) are exempt from the separation distance requirement of this section. (3-20-20)T
- e. Operational Conditions. (3-20-20)T
- i. The injection well shall not be used until the construction, operation and maintenance requirements of the permit are met and provisions are made for any required inspection, monitoring and record keeping. (3-20-20)T
- ii. Injection of any contaminant at concentrations exceeding the standards set in Paragraph 070.05.c. into a present or future drinking or other ground water source that may cause a health hazard or adversely affect a designated and protected use is prohibited. (3-20-20)T
- iii. The injection well owner or operator shall develop approved procedures to detect constructional or operational failure in a timely fashion, and shall have contingency plans to cope with the well failure. (3-20-20)T
- iv. Authorized representatives of the Department shall be allowed to enter, inspect and/or sample: (3-20-20)T
- (1) The injection well and related facilities; (3-20-20)T
- (2) The owner or operator's records of the injection operation; (3-20-20)T

- (3) Monitoring instrumentation associated with the injection operation; and (3-20-20)T
- (4) The injected fluids. (3-20-20)T
- v. The injection facilities shall be operated and maintained to achieve compliance with all terms and conditions of this permit. (3-20-20)T
- (1) Proper operation and maintenance includes effective performance, adequate funding, operator staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures; (3-20-20)T
- (2) If compliance cannot be met, the owner shall take corrective action as determined by the Director or terminate injection. (3-20-20)T
- vi. The owner shall mitigate any adverse effects resulting from non-compliance with the terms and conditions of the permit. (3-20-20)T
- vii. If the injection well was constructed prior to issuance of the permit, the well shall be brought into compliance with the terms and conditions of the permit in accordance with the schedule of compliance issued by the Director. (3-20-20)T
- viii. The permit shall not convey any property rights. (3-20-20)T
- f. Conditions of Permanent Decommissioning. (3-20-20)T
- i. Notice of intent to permanently decommission a well shall be submitted to the Director not less than thirty (30) days prior to commencement of the decommissioning activity. (3-20-20)T
- ii. The method of permanent decommissioning for all injection wells shall be approved by the Director prior to commencement of the decommissioning activity. (3-20-20)T
- iii. Notice of completion of permanent decommission shall be submitted to the Director within thirty (30) days of completion. (3-20-20)T
- iv. All deep injection wells that are to be permanently decommissioned shall be plugged in accordance with current Well Construction Standards. (3-20-20)T
- v. Following permanent cessation of use, or where an injection well is not completed, the Director shall be notified. Decommissioning procedures or other action, as prescribed by the Director, shall be conducted. (3-20-20)T
- vi. The injection well owner or operator has the responsibility to insure that the injection operation is decommissioned as prescribed. (3-20-20)T
- g. Duration of Approved Permits. The length of time that a permit may be in effect for Class V wells requiring permits shall not exceed ten (10) years. (3-20-20)T

**05. Standards For The Quality of Injected Fluids and Criteria For Location and Use. (3-20-20)T**

a. General. These standards, which are minimum standards that are to be adhered to for all deep injection wells and shallow injection wells requiring permits and rule-authorized wells not requiring permits, are based on the premise that if the injected fluids meet ground water quality standards for physical, chemical and radiological contaminants, and if ground water produced from adjacent points of diversion for beneficial use meets the water quality standards as defined in Section 010 of these rules, then that aquifer will be protected from unreasonable contamination and will be preserved for diversion to beneficial uses. The Director may, however, when it is deemed necessary, require specific injection wells to be constructed and operated in compliance with additional requirements, such as best management practices (BMPs), so as to protect the ground water resource from

deterioration and preserve it for diversion to beneficial use. (3-20-20)T

**b.** Waivers. A waiver of one (1) or more standards may be granted by the Director if it can be demonstrated by the applicant that the contaminants in injected fluid will not endanger a ground water source for any present or future beneficial use. (3-20-20)T

**c.** Standards for Quality of Fluids Injected into Class V Wells. (3-20-20)T

**i.** Ground water quality standards for chemical and radiological contaminants in injected fluids. After the effective date of these standards, the following limits shall not be exceeded in injected fluids from a well when such fluids will or are likely to reach a USDW: (3-20-20)T

(1) Chemical contaminants. The concentration of each chemical contaminant in the injected fluids shall not exceed the ground water quality standard for that chemical contaminant, or the concentration of each contaminant in the receiving water, whichever requirement is less stringent; and (3-20-20)T

(2) Radiological contaminants. Radiological levels of the injected fluids shall not exceed those levels specified by the ground water quality standards. (3-20-20)T

**ii.** Restrictions on injection of fluids containing biological contaminants. The following restrictions apply to biological contaminants included in the ground water quality standard in injected fluids. Coliform bacteria: injected fluids containing coliform bacteria are subject to the following restrictions: (3-20-20)T

(1) Contamination of ground water produced at any existing point of diversion for beneficial use, or any point of diversion for beneficial use developed in the future, by injected fluids is prohibited; (3-20-20)T

(2) The Director may require the use of best management practices (BMPs) to reduce the concentration of coliform bacteria in the injected fluids; (3-20-20)T

(3) The Director may require the use of water treatment technology, including ozonation and chlorination devices, sand filters, and settling pond specifications to reduce the concentration of coliform bacteria in injected fluids; (3-20-20)T

(4) Ground water produced from points of diversion for beneficial use adjacent to injection wells that dispose of fluids containing coliform bacteria in concentrations greater than the current ground water quality standard shall be subject to monitoring for bacteria by the owner/operator of the injection well. A waiver of the monitoring requirement may be granted by the Director when it can be demonstrated that injection will not result in unreasonable contamination of ground water produced from these adjacent points; (3-20-20)T

(5) Construction of new Subclass 5F1 injection wells, and other shallow and deep injection wells, as specified by the Director, that are likely to exceed the current ground water quality standard for coliform bacteria at the point of beneficial use is prohibited; and (3-20-20)T

(6) At no time shall any fluid containing or suspected of containing fecal contaminants of human origin be injected into any Class V injection well authorized under these rules. (3-20-20)T

**iii.** Physical, visual and olfactory characteristics. The following restrictions apply to physical, visual and olfactory characteristics of injected fluids. Temperature, color, odor, turbidity, conductivity and pH: the temperature, color, odor, conductivity, turbidity, pH or other characteristics of the injected fluid may not result in the receiving ground water becoming less suitable for diversion to beneficial uses, as determined by the Director. (3-20-20)T

**iv.** Contamination by an injection well of ground water produced at an existing point of diversion for beneficial use, or a point of diversion for beneficial use developed in the future, shall not exceed water quality standards defined in Section 010 of these rules. (3-20-20)T

**d.** Criteria for Location and Use of Class V Wells Requiring Permits. (3-20-20)T

i. A Class V well requiring a permit may be required to be located a minimum distance, as determined from Table 1, from any point of diversion for beneficial use that could be harmed by bacterial contaminants. This requirement is not applicable to injection wells injecting wastes of quality equal to or better than adopted ground water quality standards in all respects. In addition, Class V wells may be required to be located at such a distance from a point of diversion for beneficial use as to minimize or prevent ground water contamination resulting from unauthorized or accidental injection, as determined by the Director. (3-20-20)T

ii. These location requirements in Table 1 may be waived, as per Paragraph 070.05.b., when the applicant can demonstrate that any springs or wells within the calculated perimeter of the generated perched water zone will not be contaminated by the applicant’s waste disposal or injection well. Monitoring by the applicant of the production wells or springs in question may be required to demonstrate that they are not being contaminated.

<b>Determined Radii of Perched Water Zones Based on Maximum Average Weekly Injection Rates (cfs) of Class V Injection Wells *</b>	
<b>Injection (cfs)</b>	<b>Radius of Generated Perched Water Zone (ft)</b>
0 - 0.20	800
0.20 - 0.60	1,400
0.61 - 1.00	1,800
1.01 - 2.00	2,500
2.01 - 3.00	3,000
3.01 - 4.00	3,500
4.01 - 5.00	4,000
Greater than 5.00	As determined by the Director

\* Injection rates shall be based on the average volume of wastes injected by the well during the week of greatest injection in an average water year. (3-20-20)T

e. Standards for the Quality of Fluids Injected by Subclass 5A7 Wells (Open-Loop Heat Pump Return). (3-20-20)T

i. The quality of fluids injected by a Subclass 5A7 injection well shall comply with ground water quality standards or shall be equal to the quality of the ground water source to the heat pump, whichever is less stringent. (3-20-20)T

ii. If the quality of the ground water source does not meet ground water quality standards, the injected fluids must be returned to the formation containing the ground water source. (3-20-20)T

iii. The temperature of the injected fluids shall not impair the designated beneficial uses of the receiving ground water. (3-20-20)T

iv. All Rule-authorized Injection Wells shall conform to the ground water quality standards at the point of injection and not cause any water quality standards to be violated at any point of beneficial use. (3-20-20)T

**06. Monitoring, Record Keeping and Reporting Requirements.** The Director may require monitoring, record keeping and reporting by any owner or operator if the Director finds that the well may adversely affect a ground water source or is injecting a contaminant that could have an unacceptable effect upon the quality of the ground waters of the state. (3-20-20)T

a. Monitoring. (3-20-20)T

i. Any injection authorized by the Director shall be subject to monitoring and record keeping requirements as conditions of the permit. Such conditions may require the installation, use and maintenance of monitoring equipment or methods. The Director may require where appropriate, but is not limited to, the following: (3-20-20)T

(1) Monitoring of injection pressures and pressures in the annular space between casings; (3-20-20)T

(2) Flow rate and volumes; (3-20-20)T

(3) Analysis of quality of the injected fluids for contaminants that are subject to limitation or reduction under the conditions of the permit; or contaminants which the Director determines could have an unacceptable effect on the quality of the ground waters of the state, and which the Director has reason to believe are in the injected fluids; (3-20-20)T

(4) Monitoring of ground water through special monitoring wells or existing points of diversion for beneficial use in the zone of influence as determined by the Director; (3-20-20)T

(5) A demonstration of the integrity of the casing, tubing or seal of the injection well. (3-20-20)T

ii. The frequency of required monitoring shall be specified in the permit when issued, except that the Director at any time may, in writing, require additional monitoring and reporting. (3-20-20)T

iii. All monitoring tests and analysis required by permit conditions shall be performed in a state certified laboratory or other laboratory approved by the Director. (3-20-20)T

iv. Any field instrumentation used to gather data, when specified as a condition of the permit, shall be required by the Director to be tested and maintained in such a manner as to ensure the accuracy of the data. (3-20-20)T

v. All samples and measurements taken for the purpose of monitoring shall be representative of the monitoring activity and fluids injected. (3-20-20)T

**b.** Record Keeping. The permittee shall maintain records of all monitoring activities to include: (3-20-20)T

i. Date, time and exact place of sampling; (3-20-20)T

ii. Person or firm performing analysis; (3-20-20)T

iii. Date of analysis, analytical methods used and results of analysis; (3-20-20)T

iv. Calibration and maintenance of all monitoring instruments; and (3-20-20)T

v. All original tapes, strip charts or other data from continuous or automated monitoring instruments. (3-20-20)T

**c.** Reporting. (3-20-20)T

i. Monitoring results obtained by the permittee pursuant to the monitoring requirements prescribed by the Director shall be reported to the Director as required by permit conditions. (3-20-20)T

ii. The Director shall be notified in writing by the permittee within five (5) days after the discovery of violation of the terms and conditions of the permit. If the injection activity endangers human health or a public or domestic water supply, use of the injection well shall be immediately discontinued and the owner or operator shall immediately notify the Director. Notification shall contain the following information: (3-20-20)T

- (1) A description of the violation and its cause; (3-20-20)T
  - (2) The duration of the violation, including dates and times; if not corrected or use of the well discontinued, the anticipated time of correction; and (3-20-20)T
  - (3) Steps being taken to reduce, eliminate and prevent recurrence of the injection. (3-20-20)T
  - iii. Where the owner or operator becomes aware of failure to submit any relevant facts in any permit application or report to the Director, that person shall promptly submit such facts or information. (3-20-20)T
  - iv. The permittee shall furnish the Director, within a time specified by the Director, any information which the Director may request to determine compliance with the permit. (3-20-20)T
  - v. All applications for permits, notices and reports submitted to the Director shall be signed and certified. (3-20-20)T
  - vi. The Director shall be notified in writing of planned physical alterations or additions to any facility related to the permitted injection well operation. (3-20-20)T
  - vii. Additional information to be reported to the Director in writing: (3-20-20)T
    - (1) Transfer of ownership; (3-20-20)T
    - (2) Any change in operational status not previously reported; (3-20-20)T
    - (3) Any anticipated noncompliance; and (3-20-20)T
    - (4) Reports of progress toward meeting the requirements of any compliance schedule attached or assigned to this permit. (3-20-20)T
- 07. Permit Assignable.** Permits may be assignable to a new owner or operator of an injection well if the new owner or operator, within thirty (30) days of the change, notifies the Director of such change. The new owner or operator shall be responsible for complying with the terms and conditions of the permit from the time that such change takes place. (3-20-20)T

**071. -- 999. (RESERVED)**

## 37.03.04 – DRILLING FOR GEOTHERMAL RESOURCES RULES

### 000. LEGAL AUTHORITY (RULE 0).

The Idaho Department of Water Resources, through authority granted by Section 42-4001 through Section 42-4015, Idaho Code, is the regulatory agency for the drilling, operation, maintenance, and abandonment of all geothermal wells in the state. The Department's authority also includes regulatory jurisdiction over other related operations and environmental hazards pertaining to the exploration and development of geothermal resources. (3-20-20)T

### 001. TITLE AND SCOPE (RULE 1).

The geothermal policy of the state of Idaho as stated in Section 42-4001, Idaho Code, is as follows: "It is the policy and purpose of this state to maximize the benefits to the entire state which may be derived from the utilization of our geothermal resources, while minimizing the detriments and costs of all kinds which could result from their utilization. This policy and purpose is embodied in this act which provides for the immediate regulation of geothermal resource exploration and development in the public interest." (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. DEFINITIONS (RULE 10).

For the purpose of these rules, the following definitions apply. (3-20-20)T

**01. Applicant.** Any person submitting an application to the Department of Water Resources for a permit for the construction and operation of any well or injection well. (3-20-20)T

**02. Board.** The Idaho Water Resource Board. (3-20-20)T

**03. BOPE.** An abbreviation for Blow Out Prevention Equipment which is designed to be attached to the casing in a geothermal well in order to prevent a blow out of the drilling mud. (3-20-20)T

**04. Completion.** A well is considered to be completed thirty (30) days after drilling operations have ceased unless a suspension of operation is approved by the Director, or thirty (30) days after it has commenced producing a geothermal resource, whichever occurs first, unless drilling operations are resumed before the end of the thirty (30) day period or at the end of the suspension. (3-20-20)T

**05. Conductor Pipe.** The first and largest diameter string of casing to be installed in the well. This casing extends from land surface to a depth great enough to keep surface waters from entering and loose earth from falling in the hole and to provide anchorage for blow out prevention equipment prior to setting surface casing. (3-20-20)T

**06. Department.** The Idaho Department of Water Resources. (3-20-20)T

**07. Director.** The Director of the Idaho Department of Water Resources. (3-20-20)T

**08. Drilling Logs.** The recorded description of the lithologic sequence encountered in drilling a well. (3-20-20)T

**09. Drilling Operations.** The actual drilling, re-drilling, or recompletion of the well for production or injection including the running and cementing of casing and the installation of well head equipment. Drilling operations do not include perforating, logging, and related operations after the casing has been cemented. (3-20-20)T

**10. Exploratory Well.** A well drilled for the discovery and/or evaluation of geothermal resources either in an established geothermal field or in unexplored areas. Exploratory well does not include holes six (6) inches in diameter or less if they are used for gathering geotechnical data such as, but not limited to, heat flow, earth temperature, temperature gradient and/or seismic measurements, provided said holes are not greater than one thousand (1000) feet in depth below land surface and provided the material medium is not intended to be encountered. (3-20-20)T

**11. Geothermal Area.** The same general land area which in its subsurface is underlain or reasonably appears to be underlain by geothermal resources from or in a single reservoir, pool, or other source or interrelated sources, as such area or areas may be designated from time to time by the Director. (3-20-20)T

**12. Geothermal Field.** An area designated by the Director which contains a well or wells capable of commercial production of geothermal resources. (3-20-20)T

**13. Geothermal Resource.** The natural heat energy of the earth, the energy in whatever form which may be found in any position and at any depth below the surface of the earth, present in, resulting from, or created by, or which may be extracted from such natural heat and all minerals in solution or other products obtained from the material medium of any geothermal resource. Geothermal resources are found and hereby declared to be sui generis, being neither a mineral resource nor a water resource but they are also found and hereby declared closely related to and possibly affecting and affected by water and mineral resources in many instances. (3-20-20)T

**14. Injection Well.** Any special well, converted producing well, or reactivated or converted abandoned well employed for injecting material into a geothermal area or adjacent area to maintain pressures in a geothermal reservoir, pool, or other source, or to provide new material or to serve as a material medium therein, or for reinjecting any material medium or the residue thereof, or any by-product of geothermal resource exploration or development into the earth. (3-20-20)T

**15. Intermediate String or Casing.** The casing installed within the well to seal out brackish water, caving zones, etc., below the bottom of the surface casing. Such strings may either be lapped into the surface casing or extend to land surface. (3-20-20)T

**16. Material Medium.** Any substance including, but not limited to, naturally heated fluids, brines, associated gasses and steam in whatever form, found at any depth and in any position below the surface of the earth, which contains or transmits the natural heat energy of the earth, but excluding petroleum, oil, hydrocarbon gas, or other hydrocarbon substances. (3-20-20)T

**17. Notice of Intent or Notice.** A written statement to the Director that the applicant intends to do work. (3-20-20)T

**18. Observation Well.** A small diameter well drilled strictly for monitoring purposes. In no case shall an observation well be completed for production of geothermal resources or for use as an injection well. (3-20-20)T

**19. Operator.** Any person drilling, maintaining, operating, pumping, or in control of any well. The term operator also includes owner when any well is or has been or is about to be operated by or under the direction of the owner. (3-20-20)T

**20. Owner.** The owner of the geothermal lease or well and includes operator when any well is operated or has been operated or is about to be operated by any person other than the owner. (3-20-20)T

**21. Permit.** A permit issued pursuant to these rules for the construction and operation of any well or injection well. (3-20-20)T

**22. Person.** Any individual natural person, general or limited partnership, joint venture, association, cooperative organization, corporation, whether domestic or foreign, agency or subdivision of this or any other state or municipal or quasi-municipal entity whether or not it is incorporated. (3-20-20)T

**23. Production String.** The casing or tubing through which a geothermal resource is produced. This string extends from the producing zone to land surface. (3-20-20)T

**24. Production Well.** Any well which is commercially producing or is intended for commercial production of a geothermal resource. (3-20-20)T

**25. Surface Casing.** The first string of casing which is run after the conductor pipe to anchor blow out prevention equipment and to seal out all existing groundwater zones. (3-20-20)T

**26. Suspension of Operations.** The cessation of drilling, redrilling, or alteration of casing before the well is officially abandoned or completed. All suspensions must be authorized by the Director. (3-20-20)T

**27. Waste.** Any physical waste including, but not limited to: (3-20-20)T

**a.** Underground waste resulting from inefficient, excessive, or improper use, or dissipation of

geothermal energy, or of any geothermal resource pool, reservoir, or other source; or the locating, spacing, constructing, equipping, operating, or producing of any well in a manner which results, or tends to result in reducing the quantity of geothermal energy to be recovered from any geothermal area in the state; (3-20-20)T

**b.** The inefficient above-ground transporting and storage of geothermal energy; and the locating, spacing, equipping, operating, or producing of any well or injection well in a manner causing or tending to cause unnecessary or excessive surface loss or destruction of geothermal energy; the escape into the open air from a well of steam or hot water in excess of what is reasonably necessary in the efficient development or production of a well. (3-20-20)T

**28. Well.** Any excavation or other alteration in the earth's surface or crust by means of which the energy of any geothermal resource and/or its material medium is sought or obtained. (3-20-20)T

**011. -- 024. (RESERVED)**

**025. DRILLING (RULE 25).**

**01. General.** All wells shall be drilled in such a manner as to protect or minimize damage to the environment, waters usable for all beneficial purposes, geothermal resources, life, health, or property. (3-20-20)T

**02. Permits and Notices.** (3-20-20)T

**a.** Permit to Drill for Geothermal Resources. Any person, owner, or operator who proposes to construct a well for the production of or exploration for geothermal resources or to construct an injection well shall first apply to the Director for permit. Application for permit shall be on department form 4003-1. Any person, owner, or operator who proposes to construct a hole for the gathering of geotechnical data shall file a notice of intent with the Director twenty (20) days prior to construction. Written approval of the Director is required before construction may begin. The notice of intent shall show the hole location, proposed depth, hole size, construction methods, intended use and abandonment plan together with other information as required by the Director. (3-20-20)T

**b.** Permit to Deepen or Modify an Existing Well. If the owner or operator plans to deepen, redrill, plug, or perform any operation that will in any manner modify the well, an application shall be filed with the Director and written approval must be received prior to beginning work. Application for permit to alter a geothermal well shall be on department form 4003-2. (3-20-20)T

**c.** Application for Permit to Convert to Injection. If the owner or operator plans to convert an existing geothermal well into an injection well with no change of mechanical condition, an application for permit shall be filed with the Director and written approval must be received prior to beginning injection. Application for permit shall be made on department form 4003-3. (3-20-20)T

**d.** Amendment of Permit. No well may be owned or operated by any person whose name does not appear on the permit or permit application and no changes in departure from the procedures, location, data, or persons specified on the face of a permit shall be allowed until an amendment to such permit is approved by the Director. Application for amendment shall be made on department form 4003-1. (3-20-20)T

**e.** Notice to Other Agencies. Notice of applications, permits, orders, or other actions received or issued by the Director may be given to any other agency or entity which may have information, comments, or jurisdiction over the activity involved. The Director may enter into a memorandum of understanding with other agencies to eliminate duplication of applications or other efforts. (3-20-20)T

**f.** No filing fee shall be charged for filing a notice of intent to construct a hole for gathering geotechnical data, for abandonment, or for the drilling of an observation well. (3-20-20)T

**g.** No application shall be accepted and filed by the Director until such filing fee has been deposited with the Director. (3-20-20)T

**03. Bonds.** (3-20-20)T

**a.** The Director shall require as a condition of every permit every operator or owner who engages in the construction, alteration, testing, or operation of the well to file with the Director on a form prescribed by the Director a bond indemnifying the state of Idaho providing good and sufficient security conditioned upon the performance of the duties required by these regulations and the Geothermal Resource Act and the proper abandonment of any well covered by such permit. Such bond shall be in an amount which is not less than ten thousand dollars (\$10,000) for each individual well. (3-20-20)T

**b.** Bonds remain in force for the life of the well or wells and may not be released until the well or wells are properly abandoned or another valid bond is substituted therefor. Any person who acquires the ownership or operation of any well or wells shall within five (5) days after acquisition file with the Director an indemnity bond in the sum of ten thousand dollars (\$10,000) for each well acquired. The Director reserves the right to request additional bonding prior to abandonment if deemed necessary. (3-20-20)T

**04. Well Spacing.** (3-20-20)T

**a.** Any well drilled for the discovery and production of geothermal resources or as an injection well shall be located more than one hundred (100) feet from and within the outer boundary of the parcel of land on which the well is situated, or more than one hundred (100) feet from a public road, street, or highway dedicated prior to the commencement of drilling. This requirement may be modified or waived by the Director upon written request. (3-20-20)T

**b.** For several contiguous parcels of land in one or different ownerships that are operated as a single geothermal field, the term outer boundary line means the outer boundary line of the land included in the field. In determining the contiguity of any such parcels of land, no street, road, or alley lying within the lease or field shall be determined to interrupt such contiguity. (3-20-20)T

**c.** The Director shall approve the proposed well spacing programs or prescribe such modifications to the programs as he deems necessary for proper development giving consideration to such factors as, but not limited to, topographic characteristics of the area, hydrologic, geologic, and reservoir characteristics of the area, the number of wells that can be economically drilled to provide the necessary volume of geothermal resources for the intended use, minimizing well interference, unreasonable interference with multiple use of lands, and protection of the environment. (3-20-20)T

**d.** Directional Drilling. Where the surface of the parcel of land containing one acre or more is unavailable for drilling, the surface well location may be located upon property which may or may not be contiguous. Such surface well locations shall not be less than twenty five (25) feet from the outer boundary of the parcel on which it is located, nor less than twenty-five (25) feet from an existing street or road. The production or injection interval of the well shall not be less than one hundred (100) feet from the outer boundary of the parcel into which it is drilled. Directional surveys must be filed with the Director for all wells directionally drilled. (3-20-20)T

**05. Casing.** (3-20-20)T

**a.** General. All wells shall be cased in such a manner as to protect or minimize damage to the environment, usable ground waters, geothermal resources, life, health, and property. The permanent well head completion equipment shall be attached to the production casing or to the intermediate casing if production casing does not reach the surface. No permanent well head equipment may be attached to any conductor or surface casing alone. The specification for casing strength shall be determined by the Director on a well-to-well basis. All casing reaching the surface shall provide adequate anchorage for blow out prevention equipment, hole pressure control, and protection for natural resources. Sufficient casing shall be run to reach a depth below all known or reasonably estimated groundwater levels to prevent blow outs or uncontrolled flows. The following casing requirements are general but should be used as guidelines in submitting applications for permit to drill. (3-20-20)T

**b.** Conductor Pipe. A minimum of forty (40) feet of conductor pipe shall be installed. The annular space is to be cemented solid to the surface. A twenty-four (24) hour cure period for the grout must be allowed prior to drilling out the shoe unless additives sufficient, as determined by the Director, are used to obtain early strength. An annular blow out preventer shall be installed on all exploratory wells and on development wells when deemed

necessary by the Department. (3-20-20)T

c. **Surface Casing.** The surface casing hole shall be logged with an induction electrical log or equivalent or gamma-neutron log before running casing. This requirement may be waived by the Director. Permission to waive this requirement must be granted by the Director in writing prior to running surface casing. This casing shall provide for control of formation fluids, protection of shallow usable groundwater, and for adequate anchorage for blow out prevention equipment. All surface casing shall be cemented solid to the surface. A twenty-four (24) hour cure period shall be allowed prior to drilling out the shoe of the surface casing unless additives sufficient, as determined by the Director, are used to obtain early strength. (3-20-20)T

i. A minimum of two hundred (200) feet of surface casing shall be set in areas where pressures and formations are unknown. In no case may surface casing be set at a depth less than ten percent (10%) of the proposed total depth of the well. (3-20-20)T

ii. In areas of known high formation pressure, surface casing shall be set at the depth determined by the Director after a study of geologic conditions in the area. (3-20-20)T

iii. In areas where subsurface geological conditions are variable or unknown, surface casing shall be in accordance with specifications as outlined in a. above. The casing must be seated through a sufficient series of low permeability, competent lithologic units such as claystone, siltstone, basalt, etc., to insure a solid anchor for blow out prevention equipment and to protect usable groundwater from contamination. Additional casing may be required if the first string has not been cemented through a sufficient series of such beds, or a rapidly increasing thermal gradient or formation pressures are encountered. (3-20-20)T

iv. The temperature of the return drilling mud shall be monitored continuously during the drilling of the surface casing hole. Either a continuous temperature-monitoring device shall be installed and maintained in a working condition or the temperature shall be read manually. In either case, the return temperature shall be entered into the log book for each thirty (30) feet of depth drilled. (3-20-20)T

v. Blow out prevention equipment capable of shutting in the well during any operation shall be installed on the surface casing and maintained ready for use at all times. BOPE pressure tests shall be performed by the operator for department personnel on all exploratory wells prior to drilling out the shoe of the surface casing. The decision to perform BOPE pressure tests on other types of wells shall be made on a well-to-well basis by the Director. The Director must be notified five (5) days in advance of a scheduled pressure test. Permission to proceed with the test sooner may be given orally by the Director upon request by the operator. (3-20-20)T

d. **Intermediate Casing.** Intermediate casing shall be required for protection against anomalous pressure zones, cave-ins, washouts, abnormal temperature zones, uncontrollable lost circulation zones or other drilling hazards. Intermediate casing strings when installed shall be cemented solidly to the surface or to the top of the casing. (3-20-20)T

e. **Production Casing.** Production casing may be set above or through the producing or injection zone and cemented either below or just above the objective zones. Sufficient cement shall be used to exclude overlying formation fluids from the geothermal zone, to segregate zones, and to prevent movement of fluids behind the casing into possible fresh groundwater zones. Production casing shall either be cemented solid to the surface or lapped into the intermediate casing if run. If the production casing is lapped into an intermediate string, the casing overlap shall be at least fifty (50) feet, the lap shall be cemented solid, and the lap shall be pressure tested to insure its integrity. (3-20-20)T

**06. Electric Logging.** All wells except observation wells shall be logged with an induction electrical log or equivalent or gamma-neutron log from the bottom of the hole to the bottom of the conductor pipe. This requirement may be modified or waived by the Director upon written request. (3-20-20)T

**026. -- 029. (RESERVED)**

**030. RECORDS (RULE 30).**

**01. General.** The owner or operator of any well shall keep or cause to be kept a careful and accurate log, core record, temperature logs, and history of the drilling of the well. These records shall be kept in the nearest office of the owner or operator or at the well site and together with all other reports of the owner and operator regarding the well shall be subject to inspection by the Director during business hours. All records unless otherwise specified must be filed with the Director within thirty (30) days of completion of the well. (3-20-20)T

**02. Records to Be Filed with the Director.** (3-20-20)T

**a. Drilling Logs and Core Record.** The drilling log shall include the lithologic characteristics and depths of formations encountered, the depth and temperatures of water-bearing and steam-bearing strata, the temperatures, chemical compositions and other chemical and physical characteristics of fluids encountered from time to time so far as ascertained. The core record shall show the depth, lithologic character, and fluid content of cores obtained so far as determined. (3-20-20)T

**b. Well History.** The history shall describe in detail in chronological order on a daily basis all significant operations carried out and equipment used during all phases of drilling, testing, completion, and abandonment of any well. (3-20-20)T

**c. Well Summary Report.** The well summary report shall accompany the core record and well history reports. It is designed to show data pertinent to the condition of a well at the time of completion of work done. (3-20-20)T

**d. Production Records.** The owner or operator of any well producing geothermal resources shall file with the Director on or before the 20th day of each month for the preceding month a statement of production utilized in such a form as the Director may designate. Copies of monthly geothermal energy report forms are available from the Director; however, production data can be submitted on non-department forms such as computer print-outs if they have been approved by the Director. (3-20-20)T

**e. Injection Records.** The owner or operator of any well injecting geothermal fluids or waste water for any purpose shall file with the Director on or before the twentieth day of each month for the preceding month a report of the injection in such form as the Director may designate. Copies of monthly injection report forms are available from the Director. Injection data may be submitted on non-department forms if they have been approved by the Director. (3-20-20)T

**f. Electric Logs and Directional Surveys, If Conducted.** Electric logs and directional surveys shall be filed with the Director within sixty (60) days of completion, cessation of drilling operations, excluding any approved suspension of operations, or abandonment of any well. Like copies shall be filed upon recompletion of any well. Upon a showing of hardship, the Director may extend the time within which to comply for a period not to exceed six (6) additional months. (3-20-20)T

**03. Confidential Status.** Information on file with the Director is open to public inspection except any reports, logs, records, or histories derived from the drilling of a well and filed with the Director shall not be available for public inspection and shall be kept confidential by the Director for a period of one year from receipt provided, however, that the Director may use any such reports, logs, records, or histories in any action in any court to enforce the provisions of the Geothermal Act or any order or regulation adopted hereunder. (3-20-20)T

**04. Inspection of Records.** The records filed by an operator with the Director which relates to the data gathered from the drilling operation shall be open to inspection only to those authorized in writing by the operator and designated personnel. The records of any operator filed for a completed or producing well that has been transferred by sale, lease, or otherwise shall be available to the new owner or lessee for his inspection or copying and shall be available for inspection or copying by others upon written authorization of such new owner or lessee. (3-20-20)T

**031. -- 034. (RESERVED)**

**035. BLOW OUT PREVENTION (RULE 35).**

**01. Unexplored Areas.** (3-20-20)T

**a.** A department employee may be present at the well at any time during the initial phases of drilling until the surface casing has been cemented and the BOPE has been satisfactorily pressure tested. The Department employee may be present during any drilling operations at the well and if in his opinion conditions warrant he may order additional casing to be run. (3-20-20)T

**b.** A logging unit equipped to continuously record the following data shall be installed and operated continuously by a technician approved by the Director after drilling out the shoe of the conductor pipe until the well has been drilled to the total depth. (3-20-20)T

i. Drilling mud temperature (in and out). (3-20-20)T

ii. Drilling mud pit level. (3-20-20)T

iii. Drilling mud pump volume. (3-20-20)T

iv. Drilling mud weight. (3-20-20)T

v. Drilling rate. (3-20-20)T

vi. Hydrocarbon and hydrogen sulfide gas volume (with alarm). (3-20-20)T

**c.** An annular BOPE with a minimum working pressure of one thousand (1,000) PSI shall be installed on the surface casing. If unusual conditions are anticipated, a BOPE may be required on the conductor pipe. (3-20-20)T

**d.** If drilling mud temperature out, reaches one hundred twenty-five (125) Degrees C (Celsius), drilling operations shall cease, drilling mud circulation will continue and the Director must be notified immediately. The operator must obtain the Director's approval of his proposed course of action prior to resuming drilling operations. (3-20-20)T

**e.** The above requirements for BOPE may be modified by the Director and any proposed modification by the applicant must be approved by the Director in writing. (3-20-20)T

**02. Explored Areas.** (3-20-20)T

**a.** A gate valve with a minimum working pressure rating of three hundred (300) PSI must be installed on the well head. (3-20-20)T

**b.** The temperature of the return mud shall be monitored continuously. Either a continuous temperature monitoring device shall be installed and maintained in working condition or the temperature shall be read manually. In either case, return mud temperatures shall be entered into the log book for each thirty (30) feet of depth drilled. (3-20-20)T

**c.** An annular BOPE with a minimum working pressure of one thousand (1,000) PSI shall be installed on the surface casing. (3-20-20)T

**d.** Additional requirements may be set forth by the Director depending upon the knowledge of the area. Such requirements will be set forth on the approved application for permit to drill a geothermal well. Modification of said requirements may be made in the field by Department personnel monitoring construction of the well. (3-20-20)T

**036. -- 039. (RESERVED)**

**040. INJECTION WELLS (RULE 40).**

**01. Construction.** The owner or operator of a proposed injection well or series of injection wells shall

provide the Director with such information he deems necessary for evaluation of the impact of such injection on the geothermal reservoir and other natural resources. Such information shall include existing reservoir conditions, method of injection, source of injection fluid, estimates of daily amount of material medium to be injected, zones or formations affected, and analysis of fluid to be injected and of the fluid from the intended zone of the injection. Such information shall be on department form 4003-3. (3-20-20)T

**02. Surveillance.** (3-20-20)T

**a.** When an operator or owner proposes to drill or modify an injection well or convert a producing or idle well to an injection well, he shall be required to demonstrate to the Director by means of a test that the casing has complete integrity. This test shall be conducted in a method approved by the Director. (3-20-20)T

**b.** To establish the integrity of the annular cement above the shoe of the casing, the owner or operator shall make sufficient surveys within thirty (30) days after injection is started into a well to prove that all the injected fluid is confined to the intended zone of injection. Thereafter, such surveys shall be made at least every two (2) years or more often if necessary. The Director shall be notified forty-eight (48) hours in advance of such surveys in order that a representative may be present if deemed necessary. If in the Director's opinion such tests are not necessary, he may grant a waiver excepting the operator from such tests. (3-20-20)T

**c.** After the well has been placed on injection, the injection well site will be visited periodically by Department personnel. The operator or owner will be notified of any necessary remedial work. Unless modified by the Director, this work must be performed within ninety (90) days or approval for the injection well issued by the Director will be rescinded. (3-20-20)T

**041. -- 044. (RESERVED)**

**045. ABANDONMENT (RULE 45).**

**01. Objectives.** The objectives of abandonment are to block interzonal migration of fluids so as to: (3-20-20)T

**a.** Prevent contamination of fresh water or other natural resources; (3-20-20)T

**b.** Prevent damage to geothermal reservoirs; (3-20-20)T

**c.** Prevent loss of reservoir energy; (3-20-20)T

**d.** Protect life, health, environment and property. (3-20-20)T

**02. General Requirements.** The following are general requirements which are subject to review and modification for individual wells or field conditions. (3-20-20)T

**a.** A notice of intent to abandon geothermal resource wells is required to be filed with the Director five (5) days prior to beginning abandonment procedures. A permit to abandon may be given orally by the Director provided the operator submits a written request for said abandonment on a form approved by the Director within twenty-four (24) hours of the oral request. (3-20-20)T

**b.** A history of geothermal resource wells shall be filed within sixty (60) days after completion of abandonment procedures. (3-20-20)T

**c.** All wells abandoned shall be monumented and the description of the monument shall be included in the history of well report. Such monument shall consist of a four (4) inch diameter pipe ten (10) feet in length of which four (4) feet shall be above ground. The remainder shall be embedded in concrete. The name, number, and location of the well shall be shown on the monument. Alternate methods of monumentation may be approved by the Director where land surface use indicates the above described method is not satisfactory. (3-20-20)T

**d.** Good quality heavy drilling fluid shall be used to replace any water in the hole and to fill all

- portions of the hole not plugged with cement. (3-20-20)T
- e.** All cement plugs with a possible exception of the surface plug shall be pumped into the hole through drill pipe or tubing. (3-20-20)T
  - f.** All open annuli shall be filled solid with cement to the surface. (3-20-20)T
  - g.** A minimum of one hundred (100) feet of cement shall be emplaced straddling the interface or transition zone at the base of groundwater aquifers. (3-20-20)T
  - h.** One hundred (100) feet of cement shall straddle the placement of the shoe plug on all casings including conductor pipe. (3-20-20)T
  - i.** A surface plug of either neat cement or concrete mix shall be in place from the top of the casing to at least fifty (50) feet below the top of the casing. (3-20-20)T
  - j.** All casing shall be cut off at least five (5) feet below land surface. (3-20-20)T
  - k.** Cement plugs shall extend at least fifty (50) feet over the top of any liner installed in the well. (3-20-20)T
  - l.** Abandonment. Injection wells are required to be abandoned in the same manner as other wells. (3-20-20)T
  - m.** Other abandonment procedures may be approved by the Director if the owner or operator can demonstrate that the geothermal resource, groundwaters, and other natural resources will be protected. Such approval must be given in writing by the Director prior to the beginning of any abandonment procedures. (3-20-20)T
  - n.** Within five (5) days after the completion of the abandonment of any well or injection well, the owner or operator of the abandoned well or injection well shall report in writing to the Director on such form as may be prescribed by the Director on all work done with respect to the abandonment. (3-20-20)T

**046. -- 049. (RESERVED)**

**050. MAINTENANCE (RULE 50).**

**01. General.** All well heads, separators, pumps, mufflers, manifolds, valves, pipelines, and other equipment used for the production of geothermal resources shall be maintained in good condition in order to prevent loss of or damage to life, health, property, and natural resources. (3-20-20)T

**02. Corrosion.** All surface well head equipment and pipelines and subsurface casing and tubing will be subject to periodic corrosion surveillance in order to safeguard health, life, property, and natural resources. (3-20-20)T

**03. Tests.** The Director may require such tests or remedial work as in his judgment are necessary to prevent damage to life, health, property, and natural resources, to protect geothermal reservoirs from damage or to prevent the infiltration of detrimental substances into underground or surface water suitable for irrigation or other beneficial uses to the best interest of the neighboring property owners and the public. Such tests may include, but are not limited to, casing tests, cementing tests, and equipment tests. (3-20-20)T

**051. -- 054. (RESERVED)**

**055. HEARINGS, NOTICE, PROCEDURE (RULE 55).**

Any applicant or the Director shall have the right to a hearing concerning the propriety of issuing a permit for which an application has been filed. Any applicant who desires a hearing pursuant to Section 42-4004, Idaho Code, must file a written request therefor with the Director of the Department of Water Resources. Any person may file a petition with the Director requesting that the Director hold a hearing concerning the propriety of issuing a permit for which an

application has been filed. The petitioner must serve a copy of the petition upon the applicant and set forth in the petition all reasons for requesting the hearing. The applicant may respond to the petition within ten (10) days of its service. However, failure of the applicant to respond shall not be prejudicial to his right to appear at the hearing and present such evidence as he deems proper, if the Director grants the petition for such hearing. The hearing shall be set by the Director at any location deemed appropriate. Notice of the time and location shall be served on the applicant and/or the petitioner by the Director at least twenty (20) days before said date by certified mail addressed to applicant's address as stated in the application and to the petitioner at the address given in the petition. The hearing shall be conducted in the manner prescribed in the general rules and procedures of the Department. (3-20-20)T

**056. -- 059. (RESERVED)**

**060. HEARINGS ON REFUSED, LIMITED, OR CONDITIONED PERMIT (RULE 60).**

Any applicant who is granted a limited or conditioned permit, or who is denied a permit or any person aggrieved by a decision of the Director may seek a hearing on said action of the Director by serving on the Director written notice and request for a hearing before the Board within thirty (30) days of service of the Director's decision. Said hearing will be set, conducted, and notice given as set forth in Rule 055 above. Any applicant may appeal the decision of the Board to the District Court within thirty (30) days of service of the decision. All hearings under this rule shall be conducted in the manner prescribed in the general rules and procedures of the Department. (3-20-20)T

**061. -- 064. (RESERVED)**

**065. PENALTIES (RULE 65).**

**01. Order by Director.** If the Director finds that any person is constructing, operating, or maintaining any hole, well or injection well not in accordance with any applicable permit or in a fashion so as to involve an unreasonable risk of, or so as to cause, damage to life or property or subsurface, surface, or atmospheric resources, the Director may issue an order to such person to correct or to stop such practices as are found to be improper and to mitigate any injury of any sort caused by such practices. (3-20-20)T

**02. Enforcement by Director.** The Director may enforce any provision of this act or any order or regulation issued or adopted pursuant thereto by an appropriate action in the District Court. The Director may bring action in the District Court to have enjoined any threatened noncompliance with any provision of this act or any order or regulation adopted pursuant hereto or any threatened harm to life, property, or surface, subsurface or atmospheric resources which would be caused by such noncompliance. (3-20-20)T

**03. Willful Violations or Failure to Comply.** Any willful violations of or failure to comply with any provision of these rules, or if such order or regulation has been served on such person or is otherwise known to him, any valid order or regulation issued or adopted hereto shall be a misdemeanor punishable by fine of up to five thousand dollars (\$5,000) for each offense or a sentence of up to six (6) months in a county jail or both; each day of a continuing violation shall be a separate offense under this subdivision. A responsible or principal executive officer or any corporate person may be liable under this subdivision if such corporate person is not in compliance with any provision of this act or with any valid order or regulation adopted pursuant hereto. (3-20-20)T

**066. -- 069. (RESERVED)**

**070. FORMS (RULE 70).**

Forms required by these rules. (3-20-20)T

**01. Samples of Forms.** Samples of all forms required by these rules are available from the Department to interested parties upon request. (3-20-20)T

**02. Forms.** The forms include the following: (3-20-20)T

**a.** Form 4003-1, Application for Permit to Drill for Geothermal Resources; (3-20-20)T

**b.** Form 4003-2, Application for Permit to Alter a Geothermal Well; (3-20-20)T

- c.** Form 4003-3, Application for Permit to Convert a Well to a Geothermal Injection Well; (3-20-20)T
  - d.** Form 4005, Geothermal Resources Surety Bond; (3-20-20)T
  - e.** Form 4007, Notice of Intent to Abandon a Well; (3-20-20)T
  - f.** Form 4009, Report of Abandonment of a Well; (3-20-20)T
  - g.** Form 4010-1, Monthly Injection Report for Geothermal Wells; and (3-20-20)T
  - h.** Form 4010-2, Monthly Energy Report for Geothermal Wells. (3-20-20)T
- 071. -- 999. (RESERVED)**

## 37.03.05 – MINE TAILINGS IMPOUNDMENT STRUCTURES RULES

### 000. LEGAL AUTHORITY (RULE 0).

These rules are adopted pursuant to Section 42-1714, Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE (RULE 1).

**01. Title.** These rules are titled IDAPA 37.03.05, “Mine Tailings Impoundment Structures Rules.” (3-20-20)T

**02. Scope.** (3-20-20)T

**a.** These rules and standards will only apply to structures upon which construction, lift construction, enlargement, or alteration is underway on or after July 1, 1978. Under no circumstances shall these rules be construed to deprive or limit the Director of the Department of Water Resources of any exercise of powers, duties and jurisdiction conferred by law, nor to limit or restrict the amount or character of data, or information which may be required by the Director from any owner of a mine tailings impoundment structure for the proper administration of the law. (3-20-20)T

**b.** The design requirements listed are intended as a guide to establish acceptable standards of construction. They are not intended to restrict the application of other sound design principles by engineers. The Director will evaluate any deviation from the standards hereinafter stated as they pertain to the safety of any given mine tailings impoundment structure. Engineers are encouraged to submit new ideas which will advance the art and provide for the public safety. (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. DEFINITIONS (RULE 10).

Unless the context otherwise requires, the following definitions govern these rules. (3-20-20)T

**01. Board.** The Idaho Water Resource Board. (3-20-20)T

**02. Director.** The Director of the Idaho Department of Water Resources. (3-20-20)T

**03. Department.** The Idaho Department of Water Resources. (3-20-20)T

**04. Mine Tailings Impoundment Structure.** Any artificial embankment which is or will be more than thirty (30) feet in height measured from the lowest elevation of the toe to the maximum crest elevation constructed for the purpose of storing mine tailings slurry. (3-20-20)T

**05. Mine Tailings Slurry.** All slurry wastes from a mineral processing or mining operation. (3-20-20)T

**06. Mine Tailings Storage Capacity.** The total storage volume of the impoundment when filled with tailings to the maximum approved design storage elevation. (3-20-20)T

**07. Borrowed Fill Embankment.** Any embankment constructed of borrowed earth materials and which is designed for construction by conventional earth moving equipment. (3-20-20)T

**08. Reservoir.** Any basin which contains or will contain the material impounded by the mine tailings impoundment structure. (3-20-20)T

**09. Owner.** Includes any of the following who own, control, operate, maintain, manage, or propose to construct a mine tailings impoundment structure or reservoir. (3-20-20)T

**a.** The state of Idaho and any of its departments, agencies, institutions and political subdivisions; (3-20-20)T

**b.** The United States of America and any of its departments, bureaus, agencies and institutions; provided that the United States of America are not required to pay any of the fees required by Section 42-1713, Idaho Code, and shall submit plans, drawings and specifications as required by Section 42-1721, Idaho Code, for information purposes only; (3-20-20)T

- c. Every municipal or quasi-municipal corporation; (3-20-20)T
- d. Every public utility; (3-20-20)T
- e. Every person, firm, association, organization, partnership, business, trust, corporation or company; (3-20-20)T
- f. The duly authorized agents, lessees, or trustees of any of the foregoing; (3-20-20)T
- g. Receivers or trustees appointed by any court for any of the foregoing. (3-20-20)T
- 10. Alterations, Repairs or Either of Them.** Only such alterations or repairs as may directly affect the safety of the mine tailings impoundment structure or reservoir, as determined by the Director. (3-20-20)T
- 11. Enlargement.** Any change in or addition to an existing mine tailings impoundment structure or reservoir, which raises or may raise the storage capacity of the structure, as defined in Rule Subsection 010.06. (3-20-20)T
- 12. Days Used in Establishing Deadlines.** Calendar days including Sundays and holidays. (3-20-20)T
- 13. Certificate of Approval.** A certificate issued by the Director for the mine tailings impoundment structure listing restrictions imposed by the Director, and without which no new mine tailings impoundment structures shall be allowed to impound mine tailings slurry or water and no existing impoundment shall be allowed to impound water or continue deposition of mine tailings slurry. The structure will be recertified every two (2) years, unless the Director determines that the structure is unsafe. (3-20-20)T
- 14. Engineer.** A registered professional engineer, licensed as such by the state of Idaho. (3-20-20)T
- 011. -- 024. (RESERVED)**
- 025. AUTHORITY OF REPRESENTATIVE (RULE 25).**  
When plans, drawings and specifications are filed by another person in behalf of an owner, written evidence of authority to represent the owners shall be filed with the plans, drawings and specifications. (3-20-20)T
- 026. -- 029. (RESERVED)**
- 030. FORMS (RULE 30).**  
Forms required by these rules. (3-20-20)T
- 01. Samples of Forms.** Samples of all forms required by these rules are available from the Department to interested parties upon request. (3-20-20)T
- 02. Form 1721.** Construction of a mine tailings impoundment structure requires the filing of Form 1721. (3-20-20)T
- 031. -- 034. (RESERVED)**
- 035. PLANS, DRAWINGS, AND SPECIFICATIONS (RULE 35).**  
The following provisions apply in submitting plans, drawings, and specifications. (3-20-20)T
- 01. Submission of Plans, Drawings, and Specification.** Any owner who shall desire to construct, or enlarge, or alter or repair any mine tailings impoundment structure shall submit duplicate copies of plans, drawings, and specifications prepared by an engineer for the proposed work to the Director with required fees. An owner who desires to construct a continuously raised tailings impoundment structure shall submit duplicate copies of plans, drawings, and specifications prepared by an engineer, showing the stages of lift height, by periods of time, and ultimate design height. (3-20-20)T

**02. Application for and Receipt of Written Approval.** Construction of a new mine tailings impoundment structure or enlargement, or non-emergency alteration or repairs on existing mine tailings impoundment structures shall not be commenced until the owner has applied and obtained written approval of the plans, drawings, and specifications covering the work. In emergency situations, the owner shall make the required alterations or repairs necessary to relieve the emergency, and notify the Director. (3-20-20)T

**03. Preparation and Submission of Plans.** Plans must be prepared on a good grade of tracing linen or a good quality vellum or mylar. Transparent copies reproducible by standard duplicating processes, if accurate, legible and permanent, will be accepted. Plans may initially be submitted in the form of nonreproducible paper prints. After reviewing the plans, the Director will notify the owner of any required changes. (3-20-20)T

**04. Scale of Plans and Drawings.** Plans and drawings shall be of sufficiently large scale with an adequate number of views and proper dimensions, so that drawings may be readily interpreted and studied. (3-20-20)T

**05. Dimensions of Plans.** All sheets for a set of plans shall have an outside dimension of twenty-four by thirty-six (24 x 36) inches. A margin of two (2) inches on the left-hand end and a margin of one-half (1/2) inch on the other three sides must be provided, making the available work space twenty-three (23) x thirty-three and one-half (33 1/2) inches. (3-20-20)T

**06. Plans.** The plans shall include the following: (3-20-20)T

**a.** A topographic map of the mine tailings impoundment structure site showing the location of the proposed mine tailings impoundment structure by section, township and range, and location of spillway or diversion structures, outlet works, and all borings, test pits, borrow pits; (3-20-20)T

**b.** A profile along the mine tailings impoundment structure axis showing the locations, elevations, and depths of borings or test pits, including logs of bore hole and/or test pits; (3-20-20)T

**c.** A maximum cross-section of the mine tailings impoundment structure showing elevation and width of crest, slopes of upstream and downstream faces, thickness of any proposed riprap, zoning of the earth embankment (if any), location of cutoff and bonding trenches, elevations, size and type of decant systems, valves, operating mechanism, and dimensions of all other essential structural elements such as cutoff walls, filters, embankment zones, etc.; (3-20-20)T

**d.** Detailed drawings describing the outlet system, i.e., decant line, barge pump system, siphon system; (3-20-20)T

**e.** If a spillway is used, a curve showing the discharge capacity in cubic feet per second of the spillway vs. gage height of the storage pool level above the spillway crest up to the maximum high water level, and the formula used in making such determinations; (3-20-20)T

**f.** If a stream diversion is created, a tabulation of the discharge capacity in cubic feet per second of any diversion works and of the diversion channel vs. flow depth through the diversion works or channel up to maximum capacity of the system, and the formulas used in making such determinations; (3-20-20)T

**g.** Where staged construction will take place and no spillway exists, a curve showing maximum safe operating level for the tailings as a function of embankment height and the design criteria used to arrive at this; (3-20-20)T

**h.** Detailed plans, including cross-sections and profile, of the spillway or diversion works and any associated channels; (3-20-20)T

**i.** Plans for monitoring and/or recovering seepage from the reservoir in those instances where safety of the impoundment may be affected; (3-20-20)T

**j.** An operation plan; (3-20-20)T

- k.** An emergency procedure plan for protection of life and property; (3-20-20)T
- l.** An abandonment plan that assures the Director to his satisfaction that, upon completion of the mining operation, the site will be in a safe maintenance-free condition. (3-20-20)T
- 07. Specifications.** Specifications shall include provisions acceptable to the Director for adequate observation, inspection and control of the work by a registered professional engineer during the period of construction. (3-20-20)T
- 08. Provision Included with Plans.** The specifications shall provide that the plans and specifications may not be materially changed without prior written consent of the Director. (3-20-20)T
- 09. Provisions Included with Specifications.** The specifications shall provide that certain stages of construction shall not proceed without the approval of the Director. Those stages requiring approval are as follows: (3-20-20)T
- a.** After clearing and excavation of foundation and prior to placing any fill material; (3-20-20)T
- b.** After installation of the decant conduit and any proposed collars and before placing any backfill material around conduit; (3-20-20)T
- c.** After construction is completed (first stage starter dike if staged construction) and before any water or mine tailings slurry is stored in the reservoir; (3-20-20)T
- d.** Before each successive enlargement of the impoundment structure; (3-20-20)T
- e.** After each stage of enlargement of the impoundment structure is completed and before storage is allowed to exceed the level approved for the previous approved stage; (3-20-20)T
- f.** At such other times as determined necessary by the Director. The Director will, within seven (7) days after notification by the engineer, inspect and if satisfactory, approve the completed stage of construction. Owners are encouraged to give prior notice to the Department, so that the inspection can be scheduled to prevent delays. (3-20-20)T
- 10. Inspections, Examinations, and Tests.** All materials and workmanship may be subject to inspection, examination and test by the Director at any and all reasonable times during manufacture and/or construction and at any and all places where such manufacture and/or construction are carried on. (3-20-20)T
- 11. Rejection of Defective Material.** The Director shall have the right to require the owner or engineer to reject defective material and workmanship or require its correction. Rejected workmanship shall be corrected and rejected material shall be replaced with proper material. (3-20-20)T
- 12. Suspension of Work.** The Director may order the engineer to suspend any work that may be subject to damage by climatic conditions. (3-20-20)T
- 13. Responsibility of Engineer.** These provisions shall not relieve the engineer of his responsibility to assure that construction is accomplished in accordance to approved plans and specifications or to suspend work on his own motion. (3-20-20)T
- 14. Detailing Provisions of Specifications.** The specifications shall state in sufficient detail, all provisions necessary to ensure that construction is accomplished in an acceptable manner and provide needed control for construction to ensure that a safe structure is constructed. (3-20-20)T
- 15. Required Information.** The following information shall be submitted with the plans and specifications. (3-20-20)T

- 16. Engineer's Report.** An engineer's report giving details necessary for analysis of the structure and appurtenances. Included as a part of the report where applicable shall be the following: (3-20-20)T
- a.** Formulas and assumptions used in designs; (3-20-20)T
  - b.** Hydrologic data used in determining runoff from the drainage areas; (3-20-20)T
  - c.** Engineering properties of each type of material to be used in the embankment and of the foundation areas; (3-20-20)T
  - d.** Stability analysis, including an evaluation of overturning, sliding, upstream and downstream slopes and foundation stability; (3-20-20)T
  - e.** Geologic description of reservoir area, including evaluation of landslide potential; (3-20-20)T
  - f.** Chemical analysis of all materials composing the slurry; (3-20-20)T
  - g.** Earthquake design loads must be evaluated at all sites located east of Range 22 E., Boise Meridian. This area corresponds to Seismic Zone 3 as designated by the Recommended Guidelines of the National Dam Safety Program. Earthquake analysis may be required at other impoundment structure sites if deemed necessary by the Director; (3-20-20)T
  - h.** A seepage analysis of the embankment and reservoir bottom; (3-20-20)T
  - i.** A hydraulic analysis of the outlet system and spillway, diversion work or diversion channel; (3-20-20)T
  - j.** Engineering properties and the weathering characteristics of the proposed tailings to be stored in the impoundment; (3-20-20)T
  - k.** Other information which would aid in evaluating the safety of the design. (3-20-20)T
- 17. Filing of Additional Information.** The Director may require the filing of such additional information which in his opinion is necessary to assess safety or waive any requirement herein cited if in his opinion it is unnecessary. (3-20-20)T

**036. -- 039. (RESERVED)**

**040. BONDING (RULE 40).**

An active surety bond or other means of acceptable surety payable to the Director of the Department of Water Resources shall be on file with the Director throughout the active life of the tailings disposal site. The purpose of this bond is to provide a means by which the tailings impoundment can be placed in a safe maintenance-free condition if abandoned by the owner without conforming to an abandonment plan approved by the Director. (3-20-20)T

**01. Filing of Bond.** The bond shall be filed prior to any issuance by the Director of a certificate of approval for use of the mine tailings impoundment structure to impound mine tailings slurry and shall run for the two (2) year approval period covered on the certificate of approval. (3-20-20)T

**02. Provisions of Bond.** Bond provisions shall provide that the surety may be held liable for a period of up to five (5) years following notice of default on the bond. (3-20-20)T

**03. Amount of Bond.** The bond amount will be set by the Director and is subject to revision each time it is renewed. The owner must obtain approval for the amount of his surety bond prior to each renewal. (3-20-20)T

**04. Cost Estimate Submitted by Engineer.** In order to provide a basis for setting the bond amount, the engineer shall submit a cost estimate acceptable to the Director, together with conceptual details needed to arrive at the estimate, for abandonment of the facility at each proposed stage of its construction. (3-20-20)T

**05. Current Costs for Abandonment.** Bond amount will be based on current costs for abandonment of the facility based on the approved cost estimate for abandonment at the present construction condition or the next approved proposed stage, whichever represents the larger bond amount. (3-20-20)T

**06. Determination of Bond Amount.** If the final abandonment is determined to be the most costly condition, the owner may elect to use this as a basis for bonding throughout the life of the project. The Director may, however, revise the bonding amount to reflect updated costs when he feels it is necessary in order to maintain a realistic bond. (3-20-20)T

**07. Filing Initial Bond.** The initial bond shall be filed upon completion of the first stage of construction and before the required certificate of approval is issued to allow storage of mine tailings slurry in the impoundment. No certificate of approval shall be renewed prior to filing by the owner of a bond renewal in an amount approved by the Director. (3-20-20)T

**08. Filing Copy of Performance Bond.** Upon the filing of a copy of a performance bond with the Director, covering the terms and conditions of a state of Idaho mineral lease or an approved reclamation plan, in which these documents specify compliance with a plan of restoration of all mining operations, including the tailings impounding structure, the Director may determine the bond required of this section has been met, if the amount of the bond accurately reflects the cost associated with the abandonment plan provided by the owner. (3-20-20)T

**041. -- 044. (RESERVED)**

**045. MINE TAILINGS IMPOUNDMENT STRUCTURES DESIGN CRITERIA (RULE 45).**

The following minimum design criteria shall be used for all mine tailings impoundment structures designed for installation in Idaho. These limitations are intended to serve as guidelines for a broad range of circumstances, and engineers should not consider them as a restriction to the use of other sound design criteria. Deviation from this established criteria will be considered by the Director in approving plans and specifications. (3-20-20)T

**01. Embankment Slopes.** (3-20-20)T

**a.** For construction of borrowed fill embankments, in the absence of a stability analysis, the slopes shall be:

Upstream slope	2:1 or flatter
Downstream slope	2:1 or flatter

(3-20-20)T

**b.** Construction by the upstream method shall not be used in the area of the state east of Range 22 E., Boise Meridian, unless the engineer can provide evidence that the construction and operation of the tailings impoundment will achieve a relative density of sixty percent (60%) or greater in the embankment and tailings to prevent liquefaction during earthquake loading. (3-20-20)T

**c.** Safety factors for the embankment shall be at least one and five-tenths (1.5) for static loads and a minimum of one (1) for the static plus the appropriate earthquake load. (3-20-20)T

**d.** To insure sufficient permeability and stability of the embankment, designs will require utilizing materials other than the tailings, when the tailings materials: (3-20-20)T

**i.** Contain greater than seventy-five percent (75) passing the #200 standard U.S. sieve, or fifty percent (50%) passing the #325 standard U.S. sieve; (3-20-20)T

**ii.** Contain phosphate clays; (3-20-20)T

**iii.** The design calls for the water to be impounded against the embankment; (3-20-20)T

iv. Have other properties which makes them unsuitable for use as construction materials. (3-20-20)T

e. Embankments designed for the storage of hazardous levels of radioactive materials shall, in addition to any requirements of these regulations, meet the criteria outlined in the Nuclear Regulatory Commission Regulatory Guide 3.11 and the Idaho Radiation Control Regulations administered by the Idaho Department of Environmental Quality. (3-20-20)T

f. The design shall consider the need for drains and/or operational procedures to promote consolidation and insure that a low phreatic surface is maintained within the embankment. Drainage pipe shall not be used beneath embankments where excessive or differential settlement may cause failure of the pipes and subsequent piping of the tailings or embankment. When the quality of the mine tailings slurry is such that it will adversely affect the quality of the existing groundwater, the design should be coordinated with the Department and the Department of Environmental Quality to insure that all applicable permits are obtained. (3-20-20)T

g. Instrumentation of the embankment and/or foundation will be required to insure that the structure is functioning satisfactorily. Standpipe piezometers with an inside diameter greater than one-half (1/2) inch will not be acceptable for use in fine-grained or cohesive soils in order to minimize response time. (3-20-20)T

h. Tailings impoundment structures which are constructed using the tailings shall not be constructed or raised during freezing weather to prevent frost lenses in the embankment. Sufficient freeboard must be provided during the summer construction season if the disposal operation is to continue during the winter. (3-20-20)T

i. If tailings are to be discharged during times of freezing weather and the embankment is to be constructed using either the upstream or centerline method, the pond shall be of sufficient size to insure that any ice formed in the tailings pond area melts during the next warm season. (3-20-20)T

**02. Top Width Embankment. (3-20-20)T**

a. In the absence of a stability analysis, the minimum top width for mine tailings impoundment structures shall be:

$$W = 2 (H \text{ to } 1/2 \text{ power}) + 4, \text{ minimum}$$

W = Top width  
H = Embankment height (3-20-20)T

b. The minimum top width for any tailings embankment is ten (10) feet. (3-20-20)T

**03. Cutoff Trenches or Walls. (3-20-20)T**

a. Cutoff trenches, if needed, shall be used to bond the fill through relatively pervious material to an impervious stratum or zone. The bond area shall extend up the abutments to the maximum high water or tailings impoundment elevation. Cutoff (keylock) trenches which are to be backfilled with compacted fill shall be wide enough to allow the free movement of excavation and compaction equipment. Side slopes shall be no steeper than 1:1 for depths up to twelve (12) feet, and no steeper than one and one-half (1 1/2) to one (1) for greater depths to provide for proper compaction. Flatter slopes may be required for safety and stability. (3-20-20)T

b. Concrete cutoff walls may be used to bond fills to smooth rock surfaces in a similar manner as cutoff trenches and they shall be entrenched in the rock to a depth approximately one-half (1/2) the thickness of the cutoff wall. Concrete cutoff walls shall be doweled into the rock a minimum of twelve (12) inches with a maximum spacing of eighteen (18) inches for three-quarter (3/4) inch steel dowels. Concrete walls shall have a minimum projection of three (3) feet perpendicular to the rock surface and shall have a minimum thickness of twelve (12) inches. (3-20-20)T

**04. Borrowed Fill Embankment. (3-20-20)T**

a. The approved earth materials (silt soils are seldom acceptable) shall be zoned as shown in the plans and placed in the embankment in continuous, approximately level layers. Compaction shall be based on ASTM D-

698 for cohesive soils and a minimum compaction of ninety-five percent (95%) of the laboratory Standard Proctor dry density is required. Compaction of cohesionless soils shall insure a relative density of sixty percent (60%) or greater. (3-20-20)T

**b.** An acceptable working range of moisture content for the fill material shall be established and maintained. (3-20-20)T

**c.** The material shall be compacted by means of a loaded sheepsfoot roller, vibratory roller, or other acceptable means, to the required density. (3-20-20)T

**d.** No rock shall be left in the fill material which has a maximum dimension exceeding the lift thickness. The fill material shall be free of brush and organic materials. (3-20-20)T

**e.** The fill shall be carried up simultaneously the full design width of the structure, and the top of the fill shall be kept substantially level at all times or slope slightly toward the reservoir. (3-20-20)T

**f.** No frozen or cloddy fill material shall be used, and no material shall be placed upon frozen, muddy or unscarified surfaces. (3-20-20)T

**g.** All materials used in the embankment shall meet all the stability and seepage requirements as shown by a design analysis of the structure and shall be properly installed to meet these requirements. (3-20-20)T

**05. Riprap.** (3-20-20)T

**a.** All dams shall be protected from wave action. In cases where water is stored directly against the mine tailings impoundment structure or where wave action at maximum pool level during design inflow events would affect the integrity of the embankment, the Director may require use of riprap or other protective measures. (3-20-20)T

**b.** If riprap is used the design shall specify the rock size and extent of blanket required to prevent erosion. (3-20-20)T

**06. Outlet Systems.** (3-20-20)T

**a.** Reservoirs must safely handle the design inflow for all areas draining into the reservoir. This may be done either by storing the entire design inflow or by having an outlet system or combination of systems adequate to safely pass the design inflow. If the tailings reservoir is situated on a stream channel, an outlet system or an approved alternative system capable of meeting downstream flow requirements must be provided. (3-20-20)T

**b.** The minimum design inflow for all reservoirs shall be the flood with one percent (1%) probability of occurrence. The Director may require a greater design inflow be used in instances of high hazard, for larger mine tailings impoundment structures, or when the inflow is to be entirely stored in the reservoir during the flood period. (3-20-20)T

**c.** The outlet system may be composed of one (1) or a combination of the following: decant line, spillway, stream channel diversion to bypass the reservoir. The system will be determined by individual reservoir conditions. Unless removal of the mine tailings impoundment structure and reservoir is part of the abandonment plan, the outlet system shall be maintained in perpetuity, unless it is demonstrated that an outlet system is not needed. (3-20-20)T

**d.** Outlet systems will not be allowed if their use would release toxic, highly turbid, radioactive or otherwise hazardous flows from the reservoir. In these cases the design inflow must either be entirely stored or diverted around the reservoir. (3-20-20)T

**e.** All spillways shall be stabilized to discharge flow through the use of concrete, masonry, riprap or sod, if not constructed in resistant rock. (3-20-20)T

**f.** Wherever possible, the spillway shall be constructed independent of the impoundment structure. It shall lead the water far enough away from the mine tailings impoundment structure so as not to endanger the structure. (3-20-20)T

**g.** A diversion system must not subject the mine tailings impoundment structure to erosion during the design inflow event. All stream diversions shall conform to the minimum standards for stream channel alterations as written by this Department. (3-20-20)T

**h.** Decant conduits, if under the embankment, shall be laid on a firm, stable foundation and normally must not be placed on fill. They shall have a minimum inside diameter of twelve (12) inches and one (1) of the following provisions included in the design: (3-20-20)T

**i.** The owner shall have the conduit inspected by photographic or video tape equipment and a copy of the inspection provided to the Department, if a problem is suspected; or (3-20-20)T

**ii.** The conduit shall be completely plugged with concrete and/or suitable material, for that portion which extends through the embankment, if a nonrepairable problem occurs within the conduit. The conduit shall consist of material which has been shown to possess the qualities necessary to perform in the environment of the specific tailings impoundment. The design life of the conduit shall be greater than the life of the mine tailings impoundment structure. The portion of the conduit through the embankment shall be completely filled with concrete, or other suitable material, and the riser portion of the conduit capped, upon abandonment of the mine tailings impoundment structure. (3-20-20)T

**i.** All decant conduits, if under the embankment, shall have a seepage path through the impervious zone at least equivalent in length to the maximum head above the downstream end of the system. Only one third (1/3) the horizontal distance through the impervious zone will be utilized when calculating the length of the seepage path. Collars may be used to satisfy this requirement, but all collars shall extend a minimum of three (3) feet outside the conduit. Collars shall be spaced at intervals of at least seven (7) times their height and no collar may be closer to the outer surface of the impervious zone than the distance it extends out from the conduit. (3-20-20)T

**j.** More than two (2) decant conduits are not to be used, unless special conditions warrant. (3-20-20)T

**07. Freeboard.** A minimum freeboard of two (2) feet plus wave height (H) shall be provided on the crest of the mine tailings impoundment structure during passage of the design inflow.

$H = 1.95 (F \text{ to } 1/2 \text{ power})$   
F = Fetch in miles across water surface at a design maximum level. (3-20-20)T

**08. Records.** All instrumentation shall be read and recorded on a regular basis, and all records must be available for inspection by Department personnel on request. (3-20-20)T

**09. Inspection and Completion Reports.** (3-20-20)T

**a.** It is the responsibility of the engineer to submit test reports along with periodic inspection and progress reports to the Director. (3-20-20)T

**b.** Upon completion of each approved stage of construction, a letter shall be sent to the Director, giving a short, narrative account covering all items of work. As-built plans shall be submitted to the Director if the completed project was substantially changed from the plans originally approved. (3-20-20)T

**10. Abandonment.** An abandonment plan which provides a stable, maintenance-free condition when the mine tailings impoundment is no longer being regularly maintained by the owner or the owner has ceased to use the site for disposal of mine tailings slurry, shall be submitted to the Director by the owner. The plan shall provide a safe condition by providing for removal of the tailings, or construction of a maintenance-free spillway or diversion works where needed to accommodate runoff. The plan shall include provisions to prevent water storage behind, and erosion of, the mine tailings impoundment structure and the impounded tailing. A conceptual plan which includes an engineering design report, detailed enough to provide the required cost estimate for bonding purposes, will be

required prior to the approval of the proposed project. Detailed construction plans must be approved by the Director prior to implementation of any abandonment work. The Director shall notify the owner upon acceptance of completion of abandonment in accordance with the approved plan. (3-20-20)T

**046. -- 049. (RESERVED)**

**050. DAMS STORING TAILING AND WATER (RULE 50).**

Construction of dams intended to store water in excess of the water being decanted in the tailing placement operation shall also meet the requirements for water storage reservoirs specified in the Department's Rules for the Safety of Dams. The Director may waive any or all of these requirements if, in the opinion of the Director, sound engineering design supplied by the owner indicates such requirements are not applicable. (3-20-20)T

**051. -- 054. (RESERVED)**

**055. PROVISIONS OF CHAPTER 17, TITLE 42, IDAHO CODE (RULE 55).**

The provisions of Sections 42-1709 through 42-1721, Idaho Code, are a part of these rules. (3-20-20)T

**056. -- 999. (RESERVED)**

### 37.03.06 – SAFETY OF DAMS RULES

#### 000. LEGAL AUTHORITY (RULE 0).

These rules are adopted pursuant to Chapter 17, Section 42-1714, Idaho Code, and implement the provisions of Sections 42-1709 through 42-1721, Idaho Code. (3-20-20)T

#### 001. TITLE AND SCOPE (RULE 1).

**01. Title.** These rules are titled IDAPA 37.03.06, “Safety of Dams Rules.” (3-20-20)T

**02. Scope.** (3-20-20)T

**a.** The requirements that follow are intended as a guide to establish acceptable standards for construction and to provide guidelines for safety evaluation of new or existing dams. The rules apply to all new dams, to existing dams to be enlarged, altered or repaired, and maintenance of certain existing dams, as specifically provided in the rules. The Director will evaluate any deviation from the standards hereinafter stated as they pertain to the safety of any given dam. The standards are not intended to restrict the application of other sound engineering design principles. Engineers are encouraged to submit new ideas which will advance the state of the art and provide for the public safety. (3-20-20)T

**b.** Under no circumstances shall these rules be construed to deprive or limit the Director of the Department of Water Resources of any exercise of powers, duties and jurisdiction conferred by law, nor to limit or restrict the amount or character of data, or information which may be required by the Director from any owner of a dam for the proper administration of the law. State sovereignty as expressed in Policy 1A of the adopted State Water Plan for independent review and approval of dam construction, operation and maintenance will not be waived due to any overlapping jurisdiction from federal agencies. (3-20-20)T

#### 002. -- 009. (RESERVED)

#### 010. DEFINITIONS (RULE 10).

Unless the context otherwise requires, the following definitions govern these rules. (3-20-20)T

**01. Active Storage.** The water volume in the reservoir stored for irrigation, water supply, power generation, flood control, or other purposes but does not include flood surcharge. Active storage is the total reservoir capacity in acre-feet, less the inactive and dead storage. (3-20-20)T

**02. Alterations, Repairs or Either of Them.** Only such alterations or repairs as may directly affect the safety of the dam or reservoir, as determined by the Director. Alterations, repairs does not include routine maintenance items. (See Rule Subsections 055.02.a. and 055.02.b.) (3-20-20)T

**03. Appurtenant Structures.** Ancillary features (e.g. outlets, tunnels, gates, valves, spillways, auxiliary barriers) used for operation of a dam, which are owned by the dam owner or the owner has responsible control. (3-20-20)T

**04. Board.** The Idaho Water Resource Board. (3-20-20)T

**05. Certificate of Approval.** A certificate issued by the Director for all dams listing restrictions imposed by the Director, and without which no new dams shall be allowed by the owner to impound water. A certificate of approval is also required for existing dams before impoundment of water is authorized. (3-20-20)T

**06. Dam.** Any artificial barrier together with appurtenant works, which is or will be ten (10) feet or more in height or has or will have an impounding capacity at maximum storage elevation of fifty (50) acre-feet or more. Height of a dam is defined as the vertical distance from the natural bed of the stream or watercourse at the downstream toe of the barrier, as determined by the Director, or from the lowest elevation of the outside limit of the barrier, if it is not across a stream channel or watercourse, to the maximum water storage elevation. (3-20-20)T

**07. Small Dams.** Artificial barriers twenty (20) feet or less in height that are capable of storing less than one hundred (100) acre-feet of water. (3-20-20)T

**08. Intermediate Dams.** Artificial barriers more than twenty (20) feet, but less than forty (40) feet in height, or are capable of storing one hundred (100) acre-feet or more, but less than four thousand (4,000) acre-feet of water. (3-20-20)T

- 09. Large Dams.** Artificial barriers forty (40) feet or more in height or are capable of storing four thousand (4,000) acre-feet or more of water. (3-20-20)T
- 10. Department Jurisdiction.** The following are not subject to department jurisdiction: (3-20-20)T
- a.** Artificial barriers constructed in low risk areas as determined by the Director, which are six (6) feet or less in height, regardless of storage capacity. (3-20-20)T
- b.** Artificial barriers constructed in low risk areas as determined by the Director, which impound ten (10) acre-feet or less at maximum water storage elevation, regardless of height. (3-20-20)T
- c.** Artificial barriers in a canal used to raise or lower water therein or divert water therefrom. (3-20-20)T
- d.** Fills or structures determined by the Director to be designed primarily for highway or railroad traffic. (3-20-20)T
- e.** Fills, retaining dikes or structures, which are under jurisdiction of the Department of Environmental Quality, designed primarily for retention and treatment of municipal, livestock, or domestic wastes, or sediment and wastes from produce washing or food processing plants. (3-20-20)T
- f.** Levees, that store water regardless of storage capacity. Levee means a retaining structure alongside a natural lake which has a length that is two hundred (200) times or more greater than its greatest height measured from the lowest elevation of the toe to the maximum crest elevation of the retaining structure. (3-20-20)T
- 11. Days Used in Establishing Deadlines.** Calendar days including Sundays and holidays. (3-20-20)T
- 12. Dead Storage.** The water volume in the bottom of the reservoir stored below the lowest outlet and generally is not withdrawn from storage. (3-20-20)T
- 13. Department.** The Idaho Department of Water Resources. (3-20-20)T
- 14. Design Evaluation.** The engineering analysis required to evaluate the performance of a dam relative to earthquakes, floods or other site specific conditions that are anticipated to affect the safety of a dam or operation of appurtenant facilities. (3-20-20)T
- 15. Director.** The Director of the Idaho Department of Water Resources. (3-20-20)T
- 16. Engineer.** A registered professional engineer, licensed as such by the state of Idaho. (3-20-20)T
- 17. Enlargement.** Any change in or addition to an existing dam or reservoir, which raises or may raise the water storage elevation of the water impounded by the dam. (3-20-20)T
- 18. Factor of Safety.** A ratio of available shear strength to shear stress, required for stability. (3-20-20)T
- 19. Flood Surcharge.** A variable volume of water temporarily detained in the upper part of a reservoir, in the space (or part thereof) that is filled by excess runoff or flood water, above the maximum storage elevation. Flood surcharge cannot be retained either because of physical or administrative factors but is passed through the reservoir and discharged by the spillway(s) until the reservoir level has been drawn down to the maximum storage elevation. (3-20-20)T
- 20. Inflow Design Flood (IDF).** The flood specified for designing the dam and appurtenant facilities. (3-20-20)T
- 21. Maximum Credible Earthquake.** The largest earthquake that reasonably appears capable of occurring under the conditions of the presently known geological environment. (3-20-20)T

**22. Operation Plan.** A specific plan that will assure the project is safely managed for its intended purpose and which provides reservoir operating rule curves or specific limits and procedures for controlling inflow, storage, and/or release of water, diverted into, passed through or impounded by a dam. (3-20-20)T

**23. Owner.** Includes any of the following who own, control, operate, maintain, manage, hold the right to store and use water from the reservoir or propose to construct a dam or reservoir. (3-20-20)T

**a.** The state of Idaho and any of its departments, agencies, institutions and political subdivisions; (3-20-20)T

**b.** The United States of America and any of its departments, bureaus, agencies and institutions; provided that the United States of America are not required to pay any of the fees required by Section 42-1713, Idaho Code, and shall submit plans, drawings and specifications as required by Section 42-1712, Idaho Code, for information purposes only; (3-20-20)T

**c.** Every municipal or quasi-municipal corporation. (3-20-20)T

**d.** Every public utility; (3-20-20)T

**e.** Every person, firm, association, organization, partnership, business trust, corporation or company; (3-20-20)T

**f.** The duly authorized agents, lessees, or trustees of any of the foregoing; (3-20-20)T

**g.** Receivers or trustees appointed by any court for any of the foregoing. (3-20-20)T

**24. Reservoir.** Any basin which contains or will contain the water impounded by a dam. (3-20-20)T

**25. Storage Capacity.** The total storage in acre-feet at the maximum storage elevation. (3-20-20)T

**26. Water Storage Elevation.** The maximum elevation of the water surface which can be obtained by the dam or reservoir. It is further defined as the storage level attained when the reservoir is filled to capacity (i.e. to the spillway crest) or an authorized storage level attained by installing flashboards to increase the reservoir capacity, or a specified upper storage limit, which is attained by operation of movable gates that raises the reservoir to a controlled operating level. The maximum storage elevation is an equivalent term of water storage elevation. (3-20-20)T

**27. Release Capability.** The ability of a dam to pass excess water through the spillway(s) and outlet works and otherwise discharge. (3-20-20)T

**011. -- 024. (RESERVED)**

**025. DAM SIZE CLASSIFICATION AND RISK CATEGORY (RULE 25).**

**01. Size Classification.** The following table defines the height and storage capacity limits used by the Department to classify dams:

Size Classification	Height (ft)		Storage Capacity
Small	20 ft. or less	and	Less than 100 acre-ft.
Intermediate	More than 20 ft. but less than 40 ft.	or	100 Acre-ft or more, but less than 4000 acre ft
Large	40 ft. or more	or	4000 acre-ft., or more

(3-20-20)T

**02. Risk Category.** The following table describes categories of risk used by the Department to classify losses and damages anticipated in down-stream areas, that could be attributable to failure of a dam during typical flow conditions.

<b>Risk Category</b>	<b>Dwellings</b>	<b>Economic Losses</b>
Low	No permanent structures for human habitation.	Minor damage to land, crops, agricultural, commercial or industrial facilities, transportation, utilities or other public facilities or values.
Significant	No concentrated urban development, 1 or more permanent structures for human habitation which are potentially inundated with flood water at a depth of 2 ft. or less or at a velocity of 2 ft. per second or less.	Significant damage to land, crops, agricultural, commercial or industrial facilities, loss of use and/or damage to transportation, utilities or other public facilities or values.
High	Urban development, or any permanent structure for human habitation which are potentially inundated with flood water at a depth of more than 2 ft. or at a velocity of more than 2 ft. per second.	Major damage to land, crops, agricultural, commercial or industrial facilities, loss of use and/or damage to transportation, utilities or other public facilities or values.

(3-20-20)T

**03. Determination of Size and Risk Category.** The Director shall determine the size and risk category of a new or existing dam. (3-20-20)T

**026. -- 029. (RESERVED)**

**030. AUTHORITY OF REPRESENTATIVE (RULE 30).**

When plans, drawings and specifications are filed by another person on behalf of an owner, written evidence of authority to represent the owner shall be filed with the plans, drawings and specifications. (3-20-20)T

**031. -- 034. (RESERVED)**

**035. FORMS (RULE 35).**

Forms required by these rules are available from the Department to interested parties upon request. Construction of a small dam requires the filing of Form 1710 and construction of an intermediate or large dam requires the filing of Form 1712. (3-20-20)T

**036. -- 039. (RESERVED)**

**040. CONSTRUCTION PLANS, DRAWINGS AND SPECIFICATIONS (RULE 40).**

The following provisions shall apply in submitting plans, drawings and specifications. (3-20-20)T

**01. Submission of Duplicate Plans, Drawings and Specifications.** Any owner who shall desire to construct, enlarge, alter or repair any intermediate or large dam, shall submit duplicate plans, drawings and specifications prepared by an engineer for the proposed work to the Director with required fees. The Director may, however, require the submittal of plans, drawings and specifications prior to the construction of any dam. (3-20-20)T

**02. Applying for and Obtaining Written Approval.** Construction of a new dam or enlargement, alteration or repairs on existing dams shall not be commenced until the owner has applied for and obtained written approval of the plans, drawings and specifications. Alteration or repairs do not include routine maintenance for which prior approval is not required. (See Rule Subsections 055.02.a and 055.02.b) (3-20-20)T

**03. Plans Shall Be Prepared on a Good Quality Vellum or Mylar.** Transparent copies reproducible by standard duplicating processes, if accurate, legible and permanent, will be accepted. Plans may initially be submitted in the form of nonreproducible paper prints. After reviewing the plans, the Director will notify the owner of any required changes. (3-20-20)T

**04. Preparation and Submission of Plans.** Plans and drawings shall be of a sufficient scale with an adequate number of views showing proper dimensions, so that the plans and drawings may be readily interpreted and so that the structure and appurtenances can be built in conformance with the plans and drawings. (3-20-20)T

**05. Information Included with Plans.** Plans for new dams shall include the following information and plans for enlargement, alteration or repair of an existing dam shall include as much of the following information as required by the Director to adequately describe the enlargement, alteration or repair and the affect on the existing dam or its appurtenant facilities: (3-20-20)T

**a.** A topographic map of the dam site showing the location of the proposed dam by section, township and range, and location of spillway, outlet works, and all borings, test pits, borrow pits; (3-20-20)T

**b.** A profile along the dam axis showing the locations, elevations, and depths of borings or test pits, including logs of bore holes and/or test pits; (3-20-20)T

**c.** A maximum cross-section of the dam showing elevation and width of crest, slopes of upstream and downstream faces, thickness of riprap, zoning of earth embankment, location of cutoff and bonding trenches, elevations, size and type of outlet conduit, valves, operating mechanism and dimensions of all other essential structural elements such as cutoff walls, filters, embankment zones, etc.; (3-20-20)T

**d.** Detailed drawings showing plans, cross and longitudinal sections of the outlet conduits, valves and controls for operating the same, and trash racks; (3-20-20)T

**e.** A curve or table showing the capacity of the reservoir in acre-feet vs gauge height (referenced to a common project datum) of the reservoir storage level, and the computations used in making such determinations. (3-20-20)T

**f.** A curve or table showing the outlet discharge capacity in cubic feet per second vs gauge height of reservoir storage level, and the equation used in making such determination; (3-20-20)T

**g.** A curve showing the spillway discharge capacity in cubic feet per second vs gauge height of the reservoir or flood surcharge level above the spillway crest and the equation used in making such determinations; (3-20-20)T

**h.** Detailed drawings of spillway structure(s), cross-sections of the channel heading to and from the spillway and a spillway profile; (3-20-20)T

**i.** Plans for flow measuring devices capable of providing an accurate determination of the flow of the stream above and below the reservoir, and a permanent reservoir or staff gauge near the outlet of the reservoir plainly marked in feet and tenths of a foot referenced to a common project datum; (3-20-20)T

**j.** Plans or drawings of instruments, recommended by the owner's engineer to monitor performance of intermediate or large dams to assure safe operation, or as may be required by the Director to monitor any dam regardless of size, that is situated upstream of a high risk area. (3-20-20)T

**06. Specifications.** Specifications shall include provisions acceptable to the Director for adequate observation, inspection and control of the work by a registered professional engineer, during the period of construction. (3-20-20)T

**07. Changes to Specifications.** The specifications shall not be materially changed without prior written consent of the Director. Significant design changes, while construction is underway, shall be submitted for the Director's review and approval. (3-20-20)T

**08. Inspections.** The owner shall provide for and allow inspections by the Department to assure the dam and appurtenant structures are constructed in conformance with the approved plans and specifications, or as may be revised by the engineer and approved by the Director if there are unforeseen conditions discovered during site excavation or construction of the dam which potentially jeopardize the future integrity and safety of the dam. Certain stages of construction shall not proceed without inspection and approval by the Director, including the following:

(3-20-20)T

**a.** After clearing and excavation of the foundation area and cutoff trench and prior to placing any fill material. (3-20-20)T

**b.** After installation of the outlet conduit and collars and before placing any backfill material around the conduit; (3-20-20)T

**c.** After construction is completed and before any water is stored in the reservoir. (3-20-20)T

**d.** At such other times as determined necessary by the Director. The Director will, upon seven (7) days notice, inspect and if satisfactory, approve the completed stage of construction. The Director may conduct inspections upon shorter notice upon good reason being shown or upon a schedule jointly agreed upon by the Director and the owner. (3-20-20)T

**09. Inspection, Examination and Testing of Materials.** All materials and workmanship shall be subject to inspection, examination and testing by the Director at any and all times. (3-20-20)T

**10. Rejection of Defective Material.** The Director shall have the right to require the owner or engineer to reject defective material and workmanship or require its removal or correction respectively. Rejected workmanship shall be corrected and rejected material shall be replaced with proper material. (3-20-20)T

**11. Suspension of Work.** The Director may order the engineer to suspend any work that may be subject to damage by inclement weather conditions. (3-20-20)T

**12. Responsibility of Engineer.** These provisions shall not relieve the engineer of his responsibility to assure that construction is accomplished in accordance with the approved plans and specifications or to suspend work on his own motion. (3-20-20)T

**13. Detailing Provisions of Specifications.** The specifications shall state in sufficient detail, all provisions necessary to insure that construction is accomplished in an acceptable manner and provide needed control of construction to insure that a safe structure is constructed. (3-20-20)T

**14. Design Report.** Owners proposing to construct, enlarge, alter or repair an intermediate or large dam shall submit an engineering or design evaluation report with the plans and specifications. The engineering report shall include as much of the following information as necessary to present the technical basis for the design and to describe the analyses used to evaluate performance of the structure and appurtenances. (3-20-20)T

**a.** All technical reference(s); equations and assumptions used in the design; (3-20-20)T

**b.** Hydrologic data used in determining runoff from the drainage areas; reservoir flood routing(s); and hydraulic evaluations of the outlet(s) and the spillway(s). (3-20-20)T

**c.** Engineering properties of the foundation area and of each type of material to be used in the embankment. (3-20-20)T

**d.** A stability analysis, including an evaluation of overturning, sliding, slope and foundation stability and a seepage analysis; (3-20-20)T

**i.** Seismic design loads shall be evaluated and applied at all large dams to be located in significant or high risk areas, in Seismic Zone 3, which for purposes of these rules is the area in Idaho east of Range 22 East, Boise

Meridian. The evaluation required of large dams, that are classified significant or high risk, shall use the maximum ground motion/ acceleration generated by the maximum credible earthquake, which could affect the dam site.

(3-20-20)T

ii. Seismic analysis may be required as determined by the Director for large dams located above high risk areas in Seismic Zone 2, which for purposes of these rules is the area in Idaho west of Range 22 East, Boise Meridian.

(3-20-20)T

**15. Additional Information/Waiver.** The Director may require the filing of such additional information which in his opinion is necessary or waive any requirement herein cited if in his opinion it is unnecessary.

(3-20-20)T

**16. Alternate Plans.** The Director may accept plans and specifications or portions thereof prepared for other agencies which are determined to meet the requirements of Rule 40.

(3-20-20)T

**041. -- 044. (RESERVED)**

**045. OPERATION PLAN (RULE 45).**

An operation plan is required as described in the following rules and shall provide procedures for emergency operations and include guidelines and procedures for inspection, operation and maintenance of the dam and appurtenances, including any instruments required to monitor performance of the dam during normal operating cycles, critical filling or flood periods, or as may be required to monitor new or existing dams subject to earthquake effects.

(3-20-20)T

**01. New, Reconstructed or Enlarged Dams.** Prior to the initial filling of the reservoir or refilling the reservoir for a reconstructed or enlarged dam in the following categories, the owner shall file with the Director an operation plan for review and approval:

(3-20-20)T

- a. Small, high risk. (3-20-20)T
- b. Intermediate, significant risk. (3-20-20)T
- c. Intermediate, high risk. (3-20-20)T
- d. Large, any risk category. (3-20-20)T

**02. Existing Dams.** Unless exempted by the Director, owners of the following categories of dams shall file an operation plan with the Director on or before July 1, 1992 for review and approval:

(3-20-20)T

- a. Intermediate, high risk. (3-20-20)T
- b. Large, significant risk. (3-20-20)T
- c. Large, high risk. (3-20-20)T

**03. Alternate Plans.** The Director may accept existing studies or plans in lieu of an operation plan if the Director determines the information provided fulfills the requirements of Rule 45.

(3-20-20)T

**046. -- 049. (RESERVED)**

**050. NEW INTERMEDIATE OR LARGE DAMS (RULE 50).**

The following minimum criteria shall be used to evaluate the design of intermediate or large earthfill dams in Idaho. These standards are intended to serve as guidelines for a broad range of circumstances, and engineers should not consider them as a restriction to the use of other sound engineering design principles. Exclusion from this established criteria will be considered by the Director on a case-by-case basis in approving plans and specifications and evaluating dams. Dams constructed of other materials shall comply with these criteria as found appropriate by the Director and with other engineering criteria approved by the Director.

(3-20-20)T

**01. Embankment Stability.** Slope stability analyses shall determine the appropriate upstream and downstream slopes. Unless slope stability analysis determines otherwise, the embankment slopes shall be:

Upstream slope	3:1 or flatter
Downstream slope	2:1 or flatter

(3-20-20)T

**a.** For large high and significant hazard dams and intermediate high hazard dams the embankment shall be designed, constructed and maintained to assure stability under static loads and prevent instability due to seepage or uplift forces, or drawdown conditions. Transmission of seepage through the embankment, abutments and foundation shall be controlled to prevent internal removal of material and instability where seepage erodes or emerges. (3-20-20)T

**b.** The design analysis shall consider the need for installing filters, filter fabric and/or toe drains to stabilize the fill and protect against piping of the embankment fill material. (3-20-20)T

**c.** The minimum factor of safety for a dam under steady state condition shall be 1.5. During rapid drawdown of the reservoir, the minimum factor of safety for the embankment shall be 1.2. For dams constructed in Seismic Zone 3, the minimum factor of safety under seismic load shall be 1.0. (3-20-20)T

**d.** The stability of an embankment subjected to earthquake ground motions can be analyzed by dynamic response or pseudo-static analyses. Pseudo-static analyses are acceptable for embankment dams constructed of soils that will not build-up excess pore pressures due to shaking, nor sustain more than fifteen percent (15%) strength loss during earthquake events, otherwise the stability of an embankment dam shall be analyzed by a dynamic response method. A pseudo-static analysis simplifies the structural analysis (i.e. the resultant force of the seismic occurrence is represented by a static horizontal force applied to the critical section to derive the factor of safety against sliding along an assumed shear surface). The value of the horizontal force used in the pseudo-static analysis, is the product of the seismic coefficient and the weight of the assumed sliding mass. (3-20-20)T

**e.** Slope deformation analyses are required for dams located in Seismic Zone 3, that are constructed of cohesionless soils and/or on foundations which are subject to liquefaction, when the peak acceleration at the site is anticipated to exceed 0.15g. (3-20-20)T

**f.** The design analyses for new dams located in high risk areas (in Seismic Zone 2 or 3) shall include geologic and seismic reports, location of faults and history of seismicity. (3-20-20)T

**g.** Where in the opinion of the Director, embankment design or conditions warrant, instrumentation of the embankment and/or foundation will be required. (3-20-20)T

**h.** The design analyses for new large dams located in high risk areas (in Seismic Zone 3) shall include an evaluation of potential landslides in the vicinity of the dam or immediate area of the reservoir, which could cause damage to the dam or appurtenant structures, obstruct the spillway or suddenly displace water in the reservoir causing the dam to overtop. If potential landslides pose such a threat, they shall be stabilized against sliding, with a minimum factor of safety of 1.5. (3-20-20)T

**02. Top Width.** The crest width shall be sufficient to provide a safe percolation gradient through the embankment at the level of the maximum storage elevation. The minimum crest width (top of embankment) shall be determined by:

$$W = H / 5 + 10$$

W = Width, in feet  
H = Structural Height, in feet

The minimum top width for any dam is twelve (12) feet. (3-20-20)T

**03. Cutoff Trenches or Walls.** Cutoff trenches shall be excavated through relatively pervious

foundation material to an impervious stratum or zone. The trench shall be backfilled with suitable material, compacted to the specified density. The cutoff trench shall extend up the abutments to the maximum storage elevation. (3-20-20)T

**a.** Cutoff trenches shall be wide enough to allow the free movement of excavation and compaction equipment. Side slopes shall be no steeper than one to one (1:1) for depths up to twelve (12) feet, and no steeper than one and one half to one (1 1/2:1) for greater depths to provide for proper compaction. Flatter slopes may be required for safety and stability. (3-20-20)T

**b.** Concrete cutoff walls may be used to bond fills to smooth rock surfaces in a similar manner as cutoff trenches and shall be entrenched in the rock to a depth approximately one-half the thickness of the cutoff wall. Concrete cutoff walls shall be doweled into the rock a minimum of eight (8) inches with a maximum spacing of eighteen (18) inches for three-fourths (3/4) inch steel dowels. Concrete walls shall have a minimum projection of three (3) feet perpendicular to the rock surface and shall have a minimum thickness of twelve (12) inches. (3-20-20)T

**04. Impervious Core Material.** The approved earth materials (silt soils are seldom acceptable) shall be zoned as shown in the plans and placed in the embankment in continuous, approximately level layers, having a thickness of not more than six (6) inches before compaction. Compaction shall be based on ASTM D-698. A minimum compaction of ninety-five percent (95%) is required. (3-20-20)T

**a.** An acceptable working range of moisture content for the core material shall be established and maintained. (3-20-20)T

**b.** The material shall be compacted by means of a loaded sheepsfoot or pneumatic roller to the required density. (3-20-20)T

**c.** No rock shall be left in the core material which has a maximum dimension of more than four (4) inches. The core material shall be free of organic and extraneous material. (3-20-20)T

**d.** The core material shall be carried up simultaneously the full width and length of the dam, and the top of the core material shall be kept substantially level at all times, or slope slightly toward the reservoir. (3-20-20)T

**e.** No frozen or cloddy material shall be used, and no material shall be placed upon frozen, muddy or unscarified surfaces. (3-20-20)T

**f.** All materials used in the dam shall meet the stability and seepage requirements as shown by a design analysis of the structure and shall be properly installed to meet these requirements. (3-20-20)T

**05. Drains.** Toe or chimney drains or free draining downstream material shall be installed where necessary to maintain the phreatic line within the downstream toe. (3-20-20)T

**a.** Filter design for chimney drains, filter blankets and toe drains in clay and silt soils shall be selected using the following design criteria, unless deviations are substantiated by laboratory tests. All tests are subject to review and approval by the Director.

D15 filter/D15 base > 5 but < 20

D15 filter/D85 base < 5

D50 filter/D50 base < 25

D85 filter > 2 times diameter of pipe perforations, or 1.2 times width of pipe slots. (3-20-20)T

**b.** Filter material requirements are determined by comparing the particle size distribution of the filter to the particle size distribution of the materials to be protected;

e.g. D50 filter

D50 material to be protected

Where D is the particle size passing a mechanical (sieve) analysis expressed as a percentage by weight. (3-20-20)T

c. The base material should be analyzed considering the portion of the material passing the No. 4 sieve, for designing filters for base materials that contain gravel size particles. To assure internal stability and prevent segregation of the filter material, the coefficient of uniformity (D60/D10) shall not be greater than 20. (3-20-20)T

d. The minimum thickness of filter blankets and chimney drains shall be twelve (12) inches, with the maximum size particle passing the one (1) inch sieve. The maximum particle size may be increased with increasing thickness of the filter, by the rate of one (1) inch per foot of filter. However, the maximum particle shall not exceed three (3) inches. Zoned filters and chimney drains must not be less than twelve (12) inches thick per each zone. The width of granular filters shall not be less than the width of the installation equipment unless the plans and specifications include construction procedures adequate to insure the integrity of a narrower width. (3-20-20)T

e. Perforated drain pipes must have a minimum of six (6) inches of drain material around the pipe. The maximum particle size shall not exceed one-half (1/2) inch unless the layer thickness is increased at the rate of one (1) inch per foot of filter. Underdrains and collection pipes must be constructed of noncorrosive material. (3-20-20)T

**06. Freeboard.** The elevation of the top of the embankment shall be constructed and maintained above the flood surcharge level to prevent the dam from overtopping during passage of the inflow design flood and to provide freeboard for wind generated waves. Camber shall be included in the design and incorporated in the construction of the top of the embankment, unless waived by the Director. Camber may be estimated by multiplying the structural height of the dam by five percent (5%). (3-20-20)T

a. The height of wind generated waves (H) moving across a surcharged reservoir can be estimated by the following equation:

$H = 1.95 (F/2)$  where F = fetch, the distance in miles across the reservoir, measured perpendicular to the major axis of the dam. (3-20-20)T

b. For large, high risk dams the minimum freeboard shall be two (2) feet plus wave height during passage of the one percent (1%) flood or equal to the surcharge elevation of the reservoir during passage of the inflow design flood whichever is greater. (3-20-20)T

c. Estimation of the height of the wind generated wave using the empirical equation in Rule 050.06.a. shall not preclude a more conservative design including consideration of fill materials, embankment zoning, slope surface protection, drainage or other safety factors. (3-20-20)T

**07. Riprap.** All dams which are subject to erosion shall be protected from wave action. The design engineer, with approval of the Director, shall determine whether or not rock riprap or other protection is necessary. (3-20-20)T

a. Where rock riprap is used, it shall be placed on a granular bedding material, and extend up the slope, from three (3) feet below the normal minimum operating level to the top of the dam. (3-20-20)T

b. Where riprap is required by Rule Subsection 055.07, pipes, cables, brush, tree growth, dead growth, logs, or floating debris are not acceptable substitutes for rock riprap and granular bedding material. (3-20-20)T

**08. Outlet Conduits.** All reservoirs shall be provided with an outlet conduit of sufficient capacity to prevent interference with natural streamflow through the reservoir to the injury of downstream appropriators unless waived by the Director. In addition to any natural flow releases, the outlet conduit should be of sufficient capacity to pass at the same time, the maximum water requirement of the owner. A larger outlet conduit may be required to provide adequate release capability as determined by the Director. (3-20-20)T

a. Outlet conduits shall be laid on a firm, stable foundation and normally not be placed on fills which

can consolidate, allow differential settlement, and cause separation or misalignment of the pipe. Unless otherwise required, the outlet shall have a minimum inside diameter of twelve (12) inches. The conduits shall be of reinforced concrete or of metal pipe encased in concrete, poured with a continuous seal between the concrete and the trench except as otherwise approved by the Director. Void spaces and uncompacted areas shall not be covered over when the outlet trench is backfilled. Outlets shall be properly aligned on an established grade and may be supported on a concrete cradle, or otherwise supported and kept aligned when the outlet is covered. (3-20-20)T

**b.** Asphalt dipped or other metal pipe is not acceptable unless it is encased in concrete. Exceptions may be made only where conditions warrant, but in no case shall the reasonable life expectancy of the pipe be less than the design life of the dam. (3-20-20)T

**c.** All outlet conduits shall have a seepage path through the impervious zone at least equivalent in length to the maximum head above the downstream end of the system. Only one-third (1/3) the horizontal distance through the impervious zone will be utilized when calculating the length of the seepage path. Collars may be used to satisfy this requirement but all collars shall extend a minimum of two (2) feet outside the conduit for dams up to thirty (30) feet in height and a minimum of three (3) feet for dams above that height. Collars shall be spaced at intervals of at least seven (7) times their height and no collar may be closer to the outer surface of the impervious zone than the distance it extends out from the conduit. (3-20-20)T

**d.** The use of multiple conduits is allowed only upon the written approval of the Director. (3-20-20)T

**09. Gates.** All conduits shall be gated on the upstream end, unless otherwise approved by the Director, with either a vertical or an inclined gate. All conduits shall be vented directly behind the gate unless otherwise determined by the Director. Reservoirs storing water during the winter and subject to severe ice conditions shall have inclined gate controls enclosed in a protective sleeve which is buried. All gate stem pedestals shall be made of concrete. All trash racks shall slope toward the reservoir. At least one (1) of the sides of the inlet structure shall be open to allow water to flow into the outlet conduit and shall be covered with a trash rack. Trash racks should be designed with bars primarily in one (1) direction so they can be cleaned. If fish screens are used, they shall be placed over the trash rack and shall be removable for cleaning, or of the self-cleaning type. (3-20-20)T

**10. Outlet Controls.** Outlet controls shall be installed at a stable location, on the crest or on an elevated platform, or within an enclosure when required, which is readily accessible, but secured to prevent unauthorized operation. (3-20-20)T

**11. Release Capability.** Based on the size of the dam and on the risk category assigned by the Director, the release capability of a dam shall equal or exceed the inflow design flood in the following table:

<b>Downstream Risk Category</b>	<b>Size Classification</b>	<b>Inflow Design Flood</b>
Low	Small	Q50
	Intermediate	Q100
	Large	Q500
Significant	Small	Q100
	Intermediate	Q500
	Large	0.5 PMF
High	Small	Q100
	Intermediate	0.5 PMF
	Large	PMF

NOTE: The inflow design flood(s) indicated in the table include specific frequency floods (2%/50yr, 1%/100 yr.)

expressed in terms of exceedance with a probability the flood will be equaled or exceeded in any given year (a fifty (50) year flood has a two percent (2%) chance of occurring in any given year and a one hundred (100) year flood has a one percent (1%) chance of occurring in any given year); or PMF - probable maximum flood, which may be expected from the most severe combination of meteorologic and hydrologic conditions that are reasonably possible in the region. The PMF is derived from the probable maximum precipitation (PMP) which is the greatest theoretical depth of precipitation for a given duration that is physically possible over a particular drainage area at a certain time of year. (3-20-20)T

**a.** All spillways shall be stabilized for the discharge of flow by the use of concrete, masonry, riprap or sod, if not constructed in resistant rock. (3-20-20)T

**b.** Where site conditions allow, the spillway shall be constructed independent of embankment dams. The spillway(s) shall guide the discharge of water away from the dam embankment so as not to erode or endanger the structure. (3-20-20)T

**c.** The minimum base width of an open-channel spillway shall be ten (10) feet. Conduits or siphon pipes other than glory hole spillways are not acceptable substitutes for an open-channel spillway. (3-20-20)T

**d.** The effectiveness of spillways shall be undiminished by bridges, fences, pipelines or other structures. (3-20-20)T

**e.** Unless expressly authorized in writing by the Director, or approved as an integral part of an operation plan, stop logs or flashboards shall not be installed in spillways. (3-20-20)T

**12. Reservoir Site.** The dam site shall be cleared of all trees, brush, large rocks, and debris unless otherwise waived by the Director. The reservoir site shall be cleared of all woody material, growth or debris that is large enough to lodge in the spillway, or outlet works, except as otherwise approved by the Director. (3-20-20)T

**13. Inspection and Completion Reports.** As construction proceeds, it is the responsibility of the engineer to submit test reports (e.g. soil material analyses, density tests, concrete strength tests) along with periodic inspection and progress reports to the Director. (3-20-20)T

**a.** Upon completion of construction the owner or his engineer shall provide the Director a short, written narrative account of all items of work. Record drawings and revised specifications shall be submitted to the Director if the completed project has been substantially changed from the plans and construction specifications originally approved. (3-20-20)T

**b.** The engineer representing the owner shall certify that construction, reconstruction, enlargement, replacement or repair of the dam and appurtenances was completed in accordance with the record drawings and specifications, or as revised. (3-20-20)T

**051. -- 054. (RESERVED)**

**055. EXISTING INTERMEDIATE OR LARGE DAMS (RULE 55).**

All dams regulated by the department shall be operated and maintained to retain the embankment dimensions and the hydraulic capacity of the outlet works and spillway(s) as designed and constructed, or as otherwise required by these rules. (3-20-20)T

**01. Analyses Required.** The analyses required by Rule 40 are not applicable to existing dams except as required in Rule Subsections 055.01.a. and 055.01.e. unless for good cause, the Director specifically requires the analyses. Dams constructed of other than earth material shall comply with these criteria, as determined by the Director, or with other engineering criteria approved by the Director. (3-20-20)T

**a.** For large, significant or high risk dams, the release capability required by Rule Subsection 050.11 shall be evaluated and applied to the structure. Dams of other size and risk are required to provide the release capability of Rule Subsection 050.11 but are not required to conduct the analyses. (3-20-20)T

**b.** Every dam, unless exempted by the Director shall have a spillway with a capacity to pass a flood of one percent (1%) (two percent (2%) for small low hazard dams) occurring with the reservoir full to the spillway crest at the beginning of the flood while maintaining the freeboard required by Rule Subsection 050.06. (3-20-20)T

**c.** The Director may waive the spillway requirement for dams proposing off stream storage or upon a showing acceptable to the Director. (3-20-20)T

**d.** The release capability can include the capacity of spillway(s) and outlet(s), diversion facilities, or other appurtenant structures, and any approved operating procedures which utilize upstream storage, diversion and flood routing storage to pass flood events. The remainder of the required release capacity, if any, may be met by the following: (3-20-20)T

**i.** Reconstruction, enlargement or addition of spillway(s), outlet(s), diversion facilities or other appurtenant structures. (3-20-20)T

**ii.** A showing acceptable to the Director that failure of the dam during a flood of the specified magnitude described in Rule Subsection 050.11 would not substantially increase downstream damages over and above the losses and damages that would result from any natural flood up to that magnitude. (3-20-20)T

**iii.** A showing acceptable to the Director that the release capability of the dam together with other emergency release modes such as a controlled failure or overtopping of the dam would not result in a larger rate of discharge than the rate of inflow to the reservoir. (3-20-20)T

**iv.** A showing acceptable to the Director that limiting physical factors unique to the dam site exist that prevent construction of a spillway or other release capability mechanisms during a flood of the specified magnitude described in Rule Subsection 050.11 provided the owner implements storage operational procedures and/or provides for emergency warning to protect life and property. (3-20-20)T

**e.** For large, high risk dams, the seismic design loads shall be evaluated and applied to dams located east of Range 22E, B.M. The evaluation shall use the maximum ground motion/acceleration generated by the maximum credible earthquake. (3-20-20)T

**f.** The Director may accept existing studies relative to requirements of Rule Subsections 055.01.a. and 055.01.e., if the Director determines the information provided fulfills the requirements of Rule Subsections 055.01.a. and 055.01.e. (3-20-20)T

**g.** The Director may allow until July 1, 1992 for completion of the analyses required in Rule Subsections 055.01.a. and 055.01.g. and may allow the owner of an existing dam a compliance period of up to ten years for completing the studies, to complete structural modifications or implement other improvements necessary to provide the release capability determined to be required (Rule Subsection 055.01.a.) or complete structural modifications necessary to assure the dam and appurtenant facilities will safely function under earthquake loads (Rule Subsection 055.01.g.). (3-20-20)T

**h.** Within thirty (30) days after completing the analyses required in Rule Subsection 055.01.a. or 055.01.g., the owner of an existing dam that is deficient in either case (Rule Subsection 055.01.a. or 055.01.g.) shall file with the Director a schedule outlining the dates work or construction items will be completed. (3-20-20)T

**02. Other Requirements.** (3-20-20)T

**a.** Routine maintenance items include the following: (3-20-20)T

**i.** Eradication of rodents and filling animal burrows. (3-20-20)T

**ii.** Removal of vegetation and debris from the dam. (3-20-20)T

**iii.** Restoring original dimensions of the dam by the addition of fill material. (3-20-20)T

- iv. Addition of bedding or riprap material which will not increase the height or storage capacity. (3-20-20)T
- v. Repair or replacement of gates, gate stems, seals, valves, lift mechanisms or vent pipes with similar equipment. (3-20-20)T
- vi. Repair or replacement of wingwalls, headwalls or aprons including spalling concrete. (3-20-20)T
- b.** The following are not routine maintenance items: (3-20-20)T
  - i. Reconstruction of embankment slopes. (3-20-20)T
  - ii. Replacement, reconstruction or extension of outlets. (3-20-20)T
  - iii. Foundation stabilization. (3-20-20)T
  - iv. Filter or drain construction or replacement. (3-20-20)T
  - v. Spillway size alteration or modification. (3-20-20)T
  - vi. Installation of instrumentation or piezometers. (3-20-20)T
  - vii. Release capability modification. (3-20-20)T
- c.** Items not specifically described in Rule Subsections 055.02.a. and 055.02.b. will be determined by the Director to be included in one rule or the other upon receipt of a written request from the owner or his representative seeking such a determination. (3-20-20)T
- d.** Where riprap is required to prevent erosion and to maintain a stable embankment, pipes, cables, brush, tree growth, logs, or floating debris are not acceptable substitutes for rock riprap and granular bedding material. Dams or portions thereof which are stable without riprap, are not required to have riprap. (3-20-20)T
- e.** Upon completion of reconstruction of a dam or feature of a dam included in Rule Subsection 055.02.b., the owner or his engineer shall provide the Director a short written narrative account of all items of work. Record drawings and revised specifications shall be submitted to the Director if the completed project has been substantially changed from the plans and construction specifications originally approved. (3-20-20)T
- f.** Upon request, the owner of every dam shall provide his name and address to the Director and shall advise the Director of future changes in ownership. If the owner does not reside in Idaho, the owner shall provide the name and address of the person residing in Idaho who is responsible for the operation, maintenance and repair of the dam. (3-20-20)T

**056. -- 061. (RESERVED)**

**060. SMALL DAM DESIGN CRITERIA (RULE 60).**

The following provisions apply to small dams. (3-20-20)T

**01. Design and Construction of Small Dams.** Design and construction of small dams located in high risk areas as determined by the Director require submittal of fees, plans and specifications prepared by an engineer and shall follow the same general criteria established under Rules 40, 45, 50, and 55. Other small dams not determined to be in a high risk area shall follow the same general criteria established under Rules 50 and 55 or larger dams, except that submittal of plans, specifications and test results is not required. (3-20-20)T

**02. Notification Prior to Construction.** The owner shall notify the Director in writing ten (10) calendar days prior to commencing construction. (3-20-20)T

**03. Approval Required.** The owner shall not proceed with the following stages of construction

without approval from the Director. (3-20-20)T

- a. After clearing and excavation of the foundation area and cutoff trench, and prior to placing any fill material; (3-20-20)T
- b. After installation of the outlet conduit, and before placing any backfill material around the conduit; (3-20-20)T
- c. After construction is completed, and before any water is stored in the reservoir; (3-20-20)T
- d. At such other times as determined necessary by the Director. The Director, will, upon seven (7) day notice, inspect and, if satisfactory, approve the completed stage of construction. (3-20-20)T

**04. Notification upon Completion of Construction.** The owner shall in writing notify the Director upon completion of construction. (3-20-20)T

**061. -- 064. (RESERVED)**

**065. DAMS STORING TAILINGS AND WATER (RULE 65).**

**01. Construction of Dams Storing Fifty Acre-Feet or More.** Construction of dams intended to store or likely to store fifty (50) acre-feet or more of water in excess of the water contained in the tailings material shall meet the requirements specified in Rules 40, 45, 50 and 55 of these rules. The Director may waive any or all of these requirements if, in the opinion of the Director, sound engineering design provided by the owner indicates such requirements are not applicable. (3-20-20)T

**02. Abandonment Plan.** An abandonment plan which provides a stable, maintenance-free condition at any time tailings are not being actively placed for an extended period of time, as determined by the Director, shall be submitted to the Director by the owner of a dam storing tailings and water. This rule may be waived by the Director if determined not to be applicable. (3-20-20)T

**066. -- 999. (RESERVED)**

### 37.03.07 – STREAM CHANNEL ALTERATION RULES

#### 000. LEGAL AUTHORITY (RULE 0).

The purpose of these rules and minimum standards is to specify procedures for processing and considering applications for stream channel alterations under the provisions of Title 42, Chapter 38, Idaho Code. (3-20-20)T

#### 001. TITLE AND SCOPE (RULE 1).

01. **Title.** These rules are titled IDAPA 37.03.07, “Stream Channel Alteration Rules.” (3-20-20)T

02. **Scope.** The minimum standards are intended to enable the Director to process, in a short period of time, those applications which are of a common type and which do not propose alterations which will be a hazard to the stream channel and its environment. It is intended that these rules and minimum standards be administered in a reasonable manner, giving due consideration, to all factors affecting the stream and adjacent property. (3-20-20)T

#### 002. -- 009. (RESERVED)

#### 010. DEFINITIONS (RULE 10).

01. **Alteration.** To obstruct, diminish, destroy, alter, modify, relocate or change the natural existing shape of the channel or to change the direction of flow of water of any stream channel within or below the mean high water mark. It includes removal of material from the stream channel and emplacement of material or structures in or across the stream channel where the material or structure has the potential to affect flow in the channel as determined by the director. (3-20-20)T

02. **Applicant.** Any individual, partnership, company, corporation, municipality, county, state or federal agency, their agent, or other entity proposing to alter a stream channel or actually engaged in constructing a channel alteration, whether authorized or not. (3-20-20)T

03. **Board.** The Idaho Water Resource Board. (3-20-20)T

04. **Continuously Flowing Water.** A sufficient flow of water that could provide for migration and movement of fish, and excludes those reaches of streams which, in their natural state, normally go dry at the location of the proposed alteration. IDWR will assume, subject to information to the contrary, that the USGS quadrangle maps accurately depict whether a stream reach is continuously flowing, at the location of the proposed alteration. Such exclusion does not apply to minor flood channels that are a part of a stream which is continuously flowing in the reach where the alteration is located. Also, such exclusion does not apply to streams which may be dry as a result of upstream diversion or storage of water. (3-20-20)T

05. **Department.** The Idaho Department of Water Resources. (3-20-20)T

06. **Drop Structures, Sills and Barbs.** Physical obstructions placed within a stream channel for the purpose of stabilizing the channel by decreasing stream gradient and velocity and by dissipating stream energy. (3-20-20)T

07. **Director.** The Director of the Idaho Department of Water Resources. (3-20-20)T

08. **Mean High Water Mark.** A water level corresponding to the “natural or ordinary high water mark” as defined in Section 58-104(9), Idaho Code, and is the line which the water impresses on the soil by covering it for sufficient periods of time to deprive the soil of its terrestrial vegetation and destroy its value for commonly accepted agricultural purposes. (3-20-20)T

09. **Non-Powered Sluice Equipment.** Equipment which is powered only by human strength. (3-20-20)T

10. **Plans.** Maps, sketches, engineering drawings, photos, work descriptions and specifications sufficient to describe the extent, nature, and location of the proposed stream channel alteration and the proposed method of accomplishing the alteration. (3-20-20)T

11. **Repair.** Any work needed or accomplished, to protect, maintain, or restore any water diversion structure and the associated stream channel upstream and downstream as necessary for the efficient operation of the water diversion structure. (3-20-20)T

**12. Stream Channel.** A natural water course of perceptible extent with definite beds and banks which confines and conducts continuously flowing water. The channel referred to is that which exists at the present time, regardless of where the channel may have been located at any time in the past. For the purposes of these rules only, the beds of lakes and reservoir pool areas are not considered to be stream channels. (3-20-20)T

**13. Base Flood Elevation.** The Base Flood (BF) is referred to as the one hundred (100) year flood and is a measure of flood magnitude based on probability. The base flood has a one percent chance of occurring or being exceeded in any given year, with the Base Flood Elevation (BFE) being the level of flooding reached during the BF or the one hundred (100) year flood event. (3-20-20)T

**011. -- 024. (RESERVED)**

**025. EXEMPTIONS (RULE 25).**

**01. Work on Existing or Proposed Reservoir Projects.** Permits are not required under the provisions of Title 42, Chapter 38 for construction work on any existing or proposed reservoir project, including the dam, and such areas downstream as the Director may determine is reasonably necessary for construction and maintenance of the dam. (3-20-20)T

**02. Snake and Clearwater Rivers.** Permits are not required for work within that portion of the Snake and Clearwater rivers from the state boundary upstream to the upper boundary of the Port of Lewiston Port District as it now exists or may exist in the future. (3-20-20)T

**03. Cleaning, Maintenance, Construction or Repair Work.** No permit is required of a water user or his agent to clean, maintain, construct, or repair any diversion structure, canal, ditch, or lateral or to remove any obstruction from a stream channel which is interfering with the delivery of any water under a valid existing water right or water right permit. (3-20-20)T

**04. Removal of Debris.** No permit is required for removal of debris from a stream channel provided that no equipment will be working in the channel and all material removed will be disposed of at some point outside the channel where it cannot again reenter the channel. (3-20-20)T

**026. -- 029. (RESERVED)**

**030. APPLICATIONS (RULE 30).**

**01. Joint Application Permit Form.** The Department of Water Resources, Department of Lands, and the U.S. Army Corps of Engineers have developed a joint application for permit form which will suffice for the required application under the Stream Protection Act. An application should be filed at least sixty (60) days before the applicant proposes to start the construction and shall be upon the joint application form furnished by the Department. The application shall be accompanied by plans which clearly describe the nature and purpose of the proposed work. (3-20-20)T

**02. Applicant Following Minimum Standards.** In those cases where the applicant intends to follow the minimum standards (Rule 055), detailed plans may be eliminated by referring to the specific minimum standard; however, drawings necessary to adequately define the extent, purpose, and location of the work will still be required. Plans shall include some reference to water surface elevations and stream boundaries to facilitate review. The application should show the mean high water mark on the plans; however, any water surface or water line reference available will be helpful as long as this reference is described. (Examples: present water surface, low water, high water.) (3-20-20)T

**03. Submission of Copies.** The applicant shall submit one (1) copy of all necessary plans along with the application form. When drawings submitted are larger than eight and one half by eleven (8 1/2 x 11), the applicant shall provide the number of copies specified by the department. (3-20-20)T

**04. Stream Channel Alteration Permit.** Any applicant proposing to operate a vacuum or suction dredge within or below the mean high water mark of a stream channel shall apply for and obtain a stream channel

alteration permit. The vacuum or suction dredge shall only be operated in accordance with the conditions of the permit and with the applicable rules. (3-20-20)T

**031. -- 034. (RESERVED)**

**035. APPLICATION REVIEW (RULE 35).**

**01. Prior to Issuance of Permit.** The following items shall be among those considered by the Director prior to issuing a permit: (3-20-20)T

- a.** What is the purpose of doing the work? (3-20-20)T
- b.** What is the necessity and justification for the proposed alteration? (3-20-20)T
- c.** Is the proposal a reasonable means of accomplishing the purpose? (3-20-20)T
- d.** Will the alteration be a permanent solution? (3-20-20)T
- e.** Will the alteration pass anticipated water flows without creating harmful flooding or erosion problems upstream or downstream? (3-20-20)T
- f.** What effect will the alteration have on fish habitat? (3-20-20)T
- g.** Will the materials used or the removal of ground cover create turbidity or other water quality problems? (3-20-20)T
- h.** Will the alteration interfere with recreational use of the stream? (3-20-20)T
- i.** Will the alteration detract from the aesthetic beauty of the area? (3-20-20)T
- j.** What modification or alternative solutions are reasonably possible which would reduce the disturbance to the stream channel and its environment and/or better accomplish the desired goal of the proposed alteration? (3-20-20)T
- k.** Is the alteration to be accomplished in accordance with the adopted minimum standards? (3-20-20)T
- l.** Are there public safety factors to consider? (3-20-20)T

**02. Proposed Alteration Which Does Not Follow Minimum Standards.** In those cases where a proposed alteration does not follow the minimum standards, a copy of the application will be sent for review to those state agencies requesting notification. The Director shall provide for review by the Department of Lands, copies of applications on navigable rivers. The Director will provide a copy of any other application requested by the Department of Lands and may request review by other state agencies regardless of whether or not the proposed alteration will comply with the minimum standards. (3-20-20)T

**036. -- 039. (RESERVED)**

**040. APPROVAL (RULE 40).**

**01. Conformance to Application.** All work shall be done in accordance with the approved application, subject to any conditions specified by the department. (3-20-20)T

**02. Permits Allowed Without Review.** A permit may be approved by the Director of the Department of Water Resources without review by other agencies in situations where the work is of a nature not uncommon to the particular area and where it is clear that the work will not seriously degrade the stream values except on navigable rivers which require review by the Department of Lands. All work approved in this manner shall be accomplished in

accordance with the minimum standards. (3-20-20)T

**03. Reinstatement of Expired Permit.** A permit which has expired may be reinstated by the Director after review by other agencies as determined by the Director. (3-20-20)T

**041. -- 044. (RESERVED)**

**045. ENFORCEMENT OF ACT (RULE 45).**

**01. Written Orders Issued by Designated Employees of Department.** Employees of the Department designated by the Director may issue written orders directing an applicant to cease and desist, to ensure proper notice to applicants who are found to be altering a stream without a permit or not in compliance with the conditions of a permit. Such orders shall be in effect immediately upon issuance and will continue in force until a permit is issued or until the order is rescinded by the Director. (3-20-20)T

**02. Failure to Comply with Stream Protection Act.** Failure to comply with any of the provisions of the Stream Protection Act (Chapter 38, Title 42, Idaho Code), may result in issuance of an Idaho uniform citation and/or the cancellation of any permit by the Director without further notice and the pursuit in a court of competent jurisdiction, such civil or criminal remedies as may be appropriate and provided by law. The Director may allow reasonable time for an applicant to complete stabilization and restoration work. (3-20-20)T

**046. -- 049. (RESERVED)**

**050. EMERGENCY WAIVER (RULE 50).**

**01. Waiver of Provisions of Stream Protection Act.** Section 42-3808, Idaho Code, provides for waiver of the provisions of the Stream Protection Act in emergency situations where immediate action must be taken to protect life or property including growing crops. The Director will not consider failure to submit an application for a stream channel alteration far enough ahead of the desired starting time of the construction work as an emergency situation. (3-20-20)T

**02. Verbal Waivers.** A verbal waiver may be granted initially; however, all verbal requests for waivers shall be followed up by the applicant in writing within fifteen (15) days of any initial authorization to do work. If the applicant is unable to contact the Director to obtain an emergency waiver, he may proceed with emergency work; however, he must contact the Director as soon as possible thereafter. Proving that a bonafide emergency did actually exist will be the responsibility of the applicant. (3-20-20)T

**03. Emergency Waiver.** Work authorized by an emergency waiver shall be limited to only that which is necessary to safeguard life or property, including growing crops, during the period of emergency. (3-20-20)T

**04. Conformance to Conditions of Waiver.** The applicant shall adhere to all conditions set by the Director as part of a waiver. (3-20-20)T

**05. Waivers Granted by Designated Employees.** The Director may delegate the authority to grant waivers to designated employees of the Department. Names and telephone numbers of such employees will be made available to any interested applicant upon request. (3-20-20)T

**051. -- 054. (RESERVED)**

**055. MINIMUM STANDARDS (RULE 55).**

These standards are intended to cover the ordinary type of stream channel alteration and to prescribe minimum conditions for approval of such construction. Unless otherwise provided in a permit, these standards shall govern all stream channel alterations in this state. An applicant should not assume that because an application utilizes methods set forth in these standards it will automatically be approved. These minimum standards include the following items: (3-20-20)T

**01. Construction Procedures.** (3-20-20)T

- 02. **Dumped Rock Riprap.** (3-20-20)T
- 03. **Drop Structures, Sills and Barbs.** (3-20-20)T
- 04. **Culverts and Bridges.** (3-20-20)T
- 05. **Removal of Sand and Gravel Deposits.** (3-20-20)T
- 06. **Suction Dredges and Non-Powered Sluice Equipment.** (3-20-20)T
- 07. **Piling.** (3-20-20)T
- 08. **Pipe Crossings.** (3-20-20)T
- 09. **Concrete Plank Boat Launch Ramps.** (3-20-20)T

**056. CONSTRUCTION PROCEDURES (RULE 56).**

**01. Conformance to Procedures.** Construction shall be done in accordance with the following procedures unless specific approval of other procedures has been given by the Director. When an applicant desires to proceed in a manner different from the following, such procedures should be described on the application. (3-20-20)T

**02. Operation of Construction Equipment.** No construction equipment shall be operated below the existing water surface without specific approval from the Director except as follows: Fording the stream at one (1) location only will be permitted unless otherwise specified; however, vehicles and equipment will not be permitted to push or pull material along the streambed below the existing water level. Work below the water which is essential for preparation of culvert bedding or approved footing installations shall be permitted to the extent that it does not create unnecessary turbidity or stream channel disturbance. Frequent fording will not be permitted in areas where extensive turbidity will be created. (3-20-20)T

**03. Temporary Structures.** Any temporary crossings, bridge supports, cofferdams, or other structures that will be needed during the period of construction shall be designed to handle high flows that could be anticipated during the construction period. All structures shall be completely removed from the stream channel at the conclusion of construction and the area shall be restored to a natural appearance. (3-20-20)T

**04. Minimizing Disturbance of Area.** Care shall be taken to cause only the minimum necessary disturbance to the natural appearance of the area. Streambank vegetation shall be protected except where its removal is absolutely necessary for completion of the work adjacent to the stream channel. (3-20-20)T

**05. Disposal of Removed Materials.** Any vegetation, debris, or other material removed during construction shall be disposed of at some location out of the stream channel where it cannot reenter the channel during high stream flows. (3-20-20)T

**06. New Cut of Fill Slopes.** All new cut or fill slopes that will not be protected with some form of riprap shall be seeded with grass and planted with native vegetation to prevent erosion. (3-20-20)T

**07. Fill Material.** All fill material shall be placed and compacted in horizontal lifts. Areas to be filled shall be cleared of all vegetation, debris and other materials that would be objectionable in the fill. (3-20-20)T

**08. Limitations on Construction Period.** The Director may limit the period of construction as needed to minimize conflicts with fish migration and spawning, recreation use, and other uses. (3-20-20)T

**057. DUMPED ROCK RIPRAP (RULE 57).**

- 01. **Placement of Riprap.** Riprap shall be placed on a granular bedding material or a compact and

stable embankment. (3-20-20)T

**02. Sideslopes of Riprap.** Sideslopes of riprap shall not be steeper than 2:1 (2' horizontal to 1' vertical) except at ends of culverts and at bridge approaches where a 1 1/2:1 sideslope is standard. (3-20-20)T

**03. Minimum Thickness of Riprap.** The minimum thickness of the riprap layer shall equal the dimension of the largest size riprap rock used or be eighteen (18) inches, whichever is greater. When riprap will be placed below high water level, the thickness of the layer shall be fifty percent (50%) greater than specified below. (3-20-20)T

**04. Riprap Protection.** Riprap protection must extend at least one (1) foot above the anticipated high water surface elevation in the stream. (3-20-20)T

**05. Rock Used for Riprap.** Rock for riprap shall consist of sound, dense, durable, angular rock fragments, resistant to weathering and free from large quantities of soil, shale, and organic matter. The length of a rock shall not be more than three (3) times its width or thickness. Rounded cobbles, boulders, and streambed gravels are not acceptable as dumped riprap. (3-20-20)T

**06. Size and Gradation of Riprap.** Riprap size and gradation are commonly determined in terms of the weight of riprap rock. The average size of riprap rock shall be at least as large as the maximum size rock that the stream is capable of moving. The maximum size of riprap rock used shall be two (2) to five (5) times larger than the average size. (3-20-20)T

**07. Methods Used for Determining Gradation of Riprap.** There are many methods used for determining the gradation of riprap rock. One of these many acceptable methods is shown in Table 1 below the Far West States (FWS) method shown in APPENDIX A - Table 1A at the end of this chapter.

GRADATION OF RIPRAP IN POUNDS		
Max. Weight of Stone required (lbs)	Min. and Max. Range in weight of Stones (lbs)	Weight Range 75 percent of Stones (lbs)
150	25 - 150	50 - 150
200	25 - 200	50 - 200
250	25 - 250	50 - 250
400	25 - 400	100 - 400
600	25 - 600	150 - 600
800	25 - 800	200 - 800
1000	50 - 1000	250 - 1000
1300	50 - 1300	325 - 1300
1600	50 - 1600	400 - 1600
2000	75 - 2000	600 - 2000
2700	100 - 2700	800 - 2700

(3-20-20)T

**08. Use of Filter Material.** A blanket of granular filter material or filter fabric shall be placed between the riprap layer and the bank in all cases where the bank is composed of erodible material that may be washed out from between the riprap rock. Filter material shall consist of a layer of well-graded gravel and coarse sand at least six (6) inches thick. (3-20-20)T

**09. Toe Protection.** Some suitable form of toe protection shall be provided for riprap located on erodible streambed material. (3-20-20)T

**a.** Various acceptable methods of providing toe protection are shown in APPENDIX B at the end of this chapter. (3-20-20)T

**b.** In addition to the approved methods of providing toe protection as shown in APPENDIX B at the end of this chapter, any other reasonable method will be considered by the Director during review of a proposed project. (3-20-20)T

**10. Extension of Riprap Area.** Riprap shall extend far enough upstream and downstream to reach stable areas, unless protected against undermining at ends by the method shown in APPENDIX C, Figure 3 at the end of this chapter. On extremely long riprap sections, it is recommended that similar cutoff sections be used at several intermediate points to reduce the hazard that would be created if failure of the riprap occurred at any one (1) location. (3-20-20)T

**11. Finished Surface.** Placement shall result in a smooth, even finished surface. Compaction is not necessary. (3-20-20)T

**12. Placement of Riprap.** The full course thickness of the riprap shall be placed in one (1) operation. Dumping riprap long distances down the bank or pushing it over the top of the bank with a dozer shall be avoided if possible. Material should be placed with a backhoe, loader, or dragline. Dumping material near its final position on the slope or dumping rock at the toe and bulldozing it up the slope is a very satisfactory method of placement, if approval is obtained for the use of equipment in the channel. (3-20-20)T

**13. Design Procedure.** Design procedure using the Far West States (FWS) method. (3-20-20)T

**a.** The FWS method uses a single equation to deal with variables for riprap. (3-20-20)T

$$D75 = 3.5/CK \text{ WDS for Channel Banks}$$

where:  $D75$  = Size of the rock at seventy five percent (75%) is finer in gradation, in inches.

$W$	=	Specific weight of water, usually 62.4 lbs./cu.ft.
$D$	=	Depth of flow in stream, in feet in flood stage
$S$	=	Channel slope or gradient, in ft/ft.
$C$	=	A coefficient relating to curvature in the stream
$K$	=	A coefficient relating to steepness of bank slopes

(3-20-20)T

**b.** The coefficient,  $C$ , is based on the ratio of the radius of curvature of the stream, ( $CR$ ), to the water surface width, ( $WSW$ ), so it is necessary for the user to make field determination of these values. The coefficient varies from 0.6 for a curve ratio of 4 to 6, up to 1.0 for a straight channel. If the computed ratio for a particular project is less than 4, the designer should consider some modification less than 4.

<b>CR/WSW</b>	<b>C</b>
4 - 6	0.60
6 - 9	0.75
9 - 12	0.90
Straight Channel	1.00

(3-20-20)T

c. The coefficient, K, ranges from 0.5 for a 1.5:1 sideslope to 0.87 for 3:1 sideslope. No values are given for steeper or flatter slopes. Slopes steeper than 1.5:1 are not recommended. If slopes flatter than 3:1 are desired, it would be conservative to use the K-value for 3:1 slopes.

<b>Bankslope</b>	<b>K</b>
1.5:1	0.50
1.75:1	0.63
2.0:1	0.72
2.5:1	0.80
3.0:1	0.87

(3-20-20)T

Table 1A in APPENDIX A, located at the end of this chapter.

**058. DROP STRUCTURES, SILLS AND BARBS (RULE 58).**

**01. Drop Structures.** A drop structure shall be constructed of rocks, boulders and/or logs placed within a stream channel to act as a low level dam. Placement of a drop structure perpendicular to stream flow will decrease the stream gradient, dissipate stream energy and decrease stream velocity through an increase in water surface elevation immediately above the structure. Drop structures shall comply with the following criteria: (3-20-20)T

a. Maximum water surface differential across (upstream water surface elevation minus downstream water surface elevation) a drop structure shall not exceed two (2) feet. The department shall approve the final elevation of any structure. (3-20-20)T

b. Rock drop structures shall be constructed of clean, sound, dense, durable, angular rock fragments, and/or boulders of size and gradation, such that the stream is incapable of moving the material during peak flows. Rocks shall be keyed into the stream banks to minimize the likelihood of bank erosion. (See Figure 8 in APPENDIX H located at the end of this chapter). (3-20-20)T

c. Log drop structures are acceptable in four (4) designs including the single log dam, the stacked log dam, the three (3) log dam, and the pyramid log dam. Log ends shall be keyed into both banks at least one-third (1/3) of the channel width or a distance sufficient to prevent end erosion. To prevent undercutting, the bottom log shall be imbedded in the stream bed or hardware cloth, cobbles or boulders shall be placed along the upper edge. Minimum log size for a single log structure shall be determined by on-site conditions and shall be placed to maintain flow over the entire log to prevent decay. Each log drop structure must be accompanied by downstream scour protection, such as a rock apron (See Figure 9 in APPENDIX I located at the end of this chapter). (3-20-20)T

d. All drop structures shall be constructed to facilitate fish passage and centralized scour pool development. (3-20-20)T

**02. Sills.** A sill shall be constructed of the same material and in the same manner as a drop structure. The top of the sill may not exceed the elevation of the bottom of the channel. The purpose of a sill is to halt the upstream movement of a headcut, thus precluding the widening or deepening of the existing channel. (See Figure 10 in APPENDIX J located at the end of this chapter). (3-20-20)T

**03. Barb or Partial Drop Structure.** A barb or partial drop structure shall be constructed in the same manner and of the same material as a drop structure and placed into the stream channel to act as a low level dam and grade control structure. The barb will decrease stream gradient, dissipate stream energy and redirect stream flow. (3-20-20)T

- a.** Barbs shall be constructed of clean, sound, dense, angular rock fragments, of size and gradation such that the stream is incapable of moving the material during peak flows. (3-20-20)T
- b.** Barbs shall be constructed with a downstream angle of no less than one hundred (100) degrees and no greater than one hundred thirty-five (135) degrees unless otherwise specified. (3-20-20)T
- c.** Barbs shall “extend” into the channel a distance of not more than twenty percent (20%) of the width of the channel unless otherwise specified by the Director. (3-20-20)T
- d.** Barbs shall be keyed into the bank a distance equal to or greater than the width of the structure and down to bed level. Whenever moisture is encountered in the construction of the keyways, willow cuttings or clumps shall be placed before and during rock placement in such a manner that the base of the cutting is in permanent moisture and the top extends a minimum of six (6) inches above grade (see Figure 11 in APPENDIX K located at the end of this chapter). (3-20-20)T

**059. CULVERTS AND BRIDGES (RULE 59).**

**01. Culverts and Bridges.** Culverts and bridges shall be capable of carrying streamflows and shall not significantly alter conditions upstream or downstream by causing flooding, turbidity, or other problems. The appearance of such installations shall not detract from the natural surroundings of the area. (3-20-20)T

**02. Location of Culverts and Bridges.** Culverts and bridges should be located so that a direct line of approach exists at both the entrance and exit. Abrupt bends at the entrance or exit shall not exist unless suitable erosion protection is provided. (3-20-20)T

**03. Ideal Gradient.** The ideal gradient (bottom slope) is one which is steep enough to prevent silting but flat enough to prevent scouring due to high velocity flows. It is often advisable to make the gradient of a culvert coincide with the average streambed gradient. (3-20-20)T

**a.** Where a culvert is installed on a slope steeper than twenty percent (20%), provisions to anchor the culvert in position will be required. Such provisions shall be included in the application and may involve the use of collars, headwall structures, etc. Smooth concrete pipe having no protruding bell joints or other irregularities shall have such anchoring provisions if the gradient exceeds ten percent (10%). (3-20-20)T

**04. Size of Culvert or Bridge Opening.** The size of the culvert or bridge opening shall be such that it is capable of passing design flows without overtopping the streambank or causing flooding or other damage. (3-20-20)T

**a.** Design flows shall be based upon the following minimum criteria:

<b>Drainage Area</b>	<b>Design Flow Frequency</b>
Less than 50 sq. mi.	25 Years
Over 50 sq. mi. or more	50 years or greatest flow of record, whichever is more

(3-20-20)T

**b.** For culverts and bridges located on U.S. Forest Service or other federal lands, the sizing should comply with the Forest Practices Act as adopted by the federal agencies or the Department of Lands. (3-20-20)T

**c.** For culverts or bridges located in a community qualifying for the national flood issuance program, the minimum size culvert shall accommodate the one hundred (100) year design flow frequency. (3-20-20)T

**d.** If the culvert or bridge design is impractical for the site, the crossing may be designed with additional flow capacity outside the actual crossing structure, provided there is no increase in the Base Flood

Elevation.

(NOTE: When flow data on a particular stream is unavailable, it is almost always safe to maintain the existing gradient and cross-section area present in the existing stream channel. Comparing the proposed crossing size with others upstream or downstream is also a valuable means of obtaining information regarding the size needed for a proposed crossing.) (3-20-20)T

**e.** Minimum clearance shall be at least one (1) foot at all bridges. This may need to be increased substantially in the areas where ice passage or debris may be a problem. Minimum culvert sizes required for stream crossings: (3-20-20)T

i. Eighteen (18) inch diameter for culverts up to seventy (70) feet long; (3-20-20)T

ii. Twenty-four (24) inch diameter for all culverts over seventy (70) feet long. (3-20-20)T

**f.** In streams where fish passage is of concern as determined by the director, an applicant shall comply with the following provisions and/or other approved criteria to ensure that passage will not be prevented by a proposed crossing. (3-20-20)T

**g.** Minimum water depth shall be approximately eight (8) inches for salmon and steelhead and at least three (3) inches in all other cases. (3-20-20)T

**h.** Maximum flow velocities for streams shall not exceed those shown in Figure 17 in APPENDIX N, located at the end of this chapter, for more than a forty-eight (48) hour period. The curve used will depend on the type of fish to be passed. (3-20-20)T

**i.** Where it is not feasible to adjust the size or slope to obtain permissible velocities, the following precautions may be utilized to achieve the desired situation. (3-20-20)T

**j.** Baffles downstream or inside the culvert may be utilized to increase depth and reduce velocity. Design criteria may be obtained from the Idaho Fish and Game Department. (3-20-20)T

**k.** Where multiple openings for flow are provided, baffles or other measures used in one (1) opening only shall be adequate provided that the opening is designed to carry the main flow during low-flow periods. (3-20-20)T

**05. Construction of Crossings.** When crossings are constructed in erodible material, upstream and downstream ends shall be protected from erosive damage through the use of such methods as dumped rock riprap, headwall structures, etc., and such protection shall extend below the erodible streambed and into the banks at least two (2) feet unless some other provisions are made to prevent undermining. (3-20-20)T

**a.** Where fish passage must be provided, upstream drops at the entrance to a culvert will not be permitted and a maximum drop of one (1) foot will be permitted at the downstream end if an adequate jumping pool is maintained below the drop. (3-20-20)T

**b.** Downstream control structures such as are shown in Figure 18 in APPENDIX O, located at the end of this chapter, can be used to reduce downstream erosion and improve fish passage. They may be constructed with gabions, pilings and rock drop structures. (3-20-20)T

**06. Multiple Openings.** Where a multiple opening will consist of two (2) or more separate culvert structures, they shall be spaced far enough apart to allow proper compaction of the fill between the individual structures. The minimum spacing in all situations shall be one (1) foot. In areas where fish passage must be provided, only one (1) opening shall be constructed to carry all low flows. Low flow baffles may be required to facilitate fish passage. (3-20-20)T

**07. Areas to be Filled.** All areas to be filled shall be cleared of vegetation, topsoil, and other unsuitable material prior to placing fill. Material cleared from the site shall be disposed of above the high water line of the stream. Fill material shall be reasonably well-graded and compacted and shall not contain large quantities of silt,

sand, organic matter, or debris. In locations where silty or sandy material must be utilized for fill material, it will be necessary to construct impervious sections both upstream and downstream to prevent the erodible sand or silt from being carried away (see Figure 19, APPENDIX P, located at the end of this chapter), Sideslopes for fills shall not exceed one and one half to one (1.5:1). Minimum cover over all culvert pipes and arches shall be one (1) foot.  
(3-20-20)T

**08. Installation of Pipe and Arch Culvert.** All pipe and arch culverts shall be installed in accordance with manufacturer's recommendations. (3-20-20)T

**a.** The culvert shall be designed so that headwaters will not rise above the top of the culvert entrance unless a headworks is provided. (3-20-20)T

**060. REMOVAL OF SAND AND GRAVEL DEPOSITS (RULE 60).**

**01. Removal of Sand and Gravel.** This work consists of removal of sand and gravel deposits from within a stream channel. The following conditions shall be adhered to unless other methods have been specified in detail on the application and approved by the Director. (3-20-20)T

**02. Removal Below Water Surface.** Sand and gravel must not be removed below the water surface existing at the time of the work. Where work involves clearing a new channel for flow, removal of material below water level will be permitted to allow this flow to occur; however, this must not be done until all other work in the new channel has been completed. (3-20-20)T

**03. Buffer Zone.** A buffer zone of undisturbed streambed material at least five (5) feet in width or as otherwise specified by the Director shall be maintained between the work area and the existing stream. The applicant shall exercise reasonable precautions to ensure that turbidity is kept to a minimum and does not exceed state water quality standards. (3-20-20)T

**04. Movement of Equipment.** Equipment may cross the existing stream in one (1) location only, but shall not push or pull material along the streambed while crossing the existing stream. (3-20-20)T

**05. Disturbing Natural Appearance of Area.** Work must be done in a manner that will least disturb the natural appearance of the area. Sand and gravel shall be removed in a manner that will not leave unsightly pits or other completely unnatural features at the conclusion of the project. (3-20-20)T

**061. SUCTION DREDGES AND NON-POWERED SLUICE EQUIPMENT (RULE 61).**

**01. Standards for Suction Dredges.** The following standards shall apply only to uses of suction dredges with nozzle diameter of five (5) inches or less and rated at fifteen (15) HP or less and non-powered sluice equipment moving more than one-quarter (1/4) cubic yard per hour. (3-20-20)T

**02. Operating Permit.** A permit for the operation of a suction dredge may authorize the use of the dredge within a drainage basin or a large portion of a drainage basin except as otherwise determined by the Director. (3-20-20)T

**03. Mechanized Equipment Prohibited Below High Water Mark.** There shall be no use of mechanized equipment below the mean high water mark except for the dredge itself, and any life support system necessary to operate the dredge. (3-20-20)T

**04. Operation of Dredge.** The operation of the dredge shall be done in a manner so as to prevent the undercutting of streambanks. (3-20-20)T

**05. Permit Required for Non-Powered Operation -- More Than Five People.** A permit shall be required for any non-powered operation in which more than five (5) people are working the same area. (3-20-20)T

**06. Permit Required for Non-Powered Operation -- More Than Thirty-Three Percent of Stream Width.** A permit shall be required for any non-powered operation if the disturbed area exceeds thirty-three percent

(33%) of the stream width at the mining location. (3-20-20)T

**07. Limitation of Mining Sites.** Only one (1) mining site per one hundred (100) linear feet of stream channel shall be worked at one (1) time unless waived by the Director. (3-20-20)T

**062. PILING (RULE 62).**

**01. Standards for Pilings.** The following standards apply to a piling associated with a boat or swimming dock, a log boom, a breakwater, or bridge construction. (3-20-20)T

**02. Replacement of Pilings.** In replacing a piling the old piling shall be completely removed from the channel, secured to the new piling or cut at stream bed level. (3-20-20)T

**03. Condition of Pilings.** Chemicals or compounds used for protection of piles and lumber shall be thoroughly dried to prevent bleeding, weeping or dissolution before placing such piles and lumber over, in or near water. (3-20-20)T

**04. Prohibited Materials.** The application of creosote, arsenicals or phentachlorophenol (Penta) to timber shall not occur in, or over water. (3-20-20)T

**063. PIPE CROSSINGS (RULE 63).**

**01. Standards for Pipe Crossings.** The following standards apply to pipe crossings to be installed below the bed of a stream or river such as utility crossings of a gas line, sewer line, electrical line, communication line, water line or similar line. (3-20-20)T

**02. Depth of Line.** The line shall be installed below the streambed to a depth which will prevent erosion and exposure of the line to free flowing water. In areas of high stream velocity where scouring may occur, the pipe shall be encased in concrete or covered with rock riprap to prevent the pipeline from becoming exposed. (3-20-20)T

**03. Pipe Joints.** The joints shall be welded, glued, cemented or fastened together in a manner to provide a water tight connection. (3-20-20)T

**04. Construction Methods.** Construction methods shall provide for eliminating or minimizing discharges of turbidity, sediment, organic matter or toxic chemicals. A settling basin or cofferdam may be required for this purpose. (3-20-20)T

**05. Cofferdam.** If a cofferdam is used, it shall be completely removed from the stream channel upon completion of the project. (3-20-20)T

**06. Revegetation of Disturbed Areas.** Areas disturbed as a result of the alteration shall be revegetated with plants and grasses native to these areas. (3-20-20)T

**064. CONCRETE PLANK BOAT LAUNCH RAMPS (RULE 64).**

**01. Construction of Concrete Plank Boat Launch Ramps.** Concrete plank boat launch ramps, shall be constructed with individual sections of precast, reinforced concrete planks linked together to provide a stable non-erosive water access. Typical plank size is twelve feet by fourteen inches by four inches (12' x 14" x 4"). (See Figure 20, APPENDIX Q, located at the end of this chapter). (3-20-20)T

**02. Construction of Planks.** All planks shall be constructed with Type II low alkali cement. (3-20-20)T

**03. Concrete Planks.** All concrete planks shall have a smooth form finish, free of rock pockets and loose materials. Figure 22 shows a typical launch plank detail. (See Figures 21 and 22 in APPENDIXES R and S). (3-20-20)T

**04. Assembly of Planks.** The planks shall be assembled out of the water and slid into place on a constructed launch ramp where water velocities do not exceed two (2) feet per second. In waters exceeding (2) feet per second the ramp sections shall be linked together and fastened to pre-positioned stringers anchored into the launch ramp. (See Figure 23, APPENDIX T, located at the end of this chapter). (3-20-20)T

**05. Water Depth.** The water depth above the lower end of the ramp section shall not be less than three (3) feet during low level or low flow periods. (See Figure 20, APPENDIX Q, located at the end of this chapter). (3-20-20)T

**06. Construction of Boat Ramp.** The boat launch ramp shall have a base constructed of sound, dense, durable, angular rock resistant to weathering and free from soil, shale and organic materials. Rounded cobbles, boulders and streambed material are not acceptable as base material in areas with stream flow velocities greater than two (2) fps. Base materials shall be covered with a layer of (three-fourths inches (3/4" min.) crushed rock with a minimum depth of two inches (2"). The ramp shall have a minimum and maximum slope of ten percent (10%) and fifteen percent (15%) respectively, and shall be constructed in a manner to avoid long incursions into the stream channel. All ramps and fill material shall be protected with rock riprap in accordance with Rule 057 when stream flow velocities exceed two (2) fps. (See Figure 24, APPENDIX U, located at the end of this chapter). (3-20-20)T

**065. -- 069. (RESERVED)**

**070. HEARINGS ON DENIED, LIMITED, OR CONDITIONED PERMIT OR OTHER DECISIONS OF THE DIRECTOR (RULE 70).**

Any applicant who is granted a limited or conditioned permit, or who is denied a permit, may seek a hearing on said action of the Director by serving on the Director written notice and request for a hearing before the Board within fifteen (15) days of receipt of the Director's decision. Said hearing will be set, conducted, and notice given as set forth in the Rules promulgated by the Board under the provisions of Title 67, Chapter 52, Idaho Code. (3-20-20)T

APPENDIX B

**METHOD 1:** This is most suited to areas where the toe is dry during construction.

**METHOD 2:** Used when streambed is very wet or groundwater present makes using Method 1 impractical.

**METHOD 3:** Often used when toe is underwater during construction. Both Methods 2 and 3 utilize the idea that undermining will cause rock at toe blanket to settle into eroded area providing protection during scouring.

FIGURE 2. Acceptable toe protection

APPENDIX B (CONTINUED)

**METHOD 4:** Used underwater in areas with extremely bad streambed erosion conditions which make Method 3 unfeasible. This method may also be preferred where Method 3 would destroy fish spawning beds.

**METHOD 5:** When the streambed is non-erodible, no special provisions for toe protection are needed other than insuring that the riprap is well keyed to the rock.

FIGURE 2. Acceptable toe protection *continued*

Place crushed rock as shown. Position stringers under planks in order shown and secure with 5/8" bolts. Slide planks on stringers, adding planks as needed, to desired water depth. Stringers consist of 2 - 4" x 1/4" x 20' lng. std. flat bar w/ clevis pin hole one end. Pull flat bar stringers up grade from water when planks are positioned and bolted together, remove when last plank has been set in place.

## 37.03.08 – WATER APPROPRIATION RULES

### 000. LEGAL AUTHORITY (RULE 0).

The Director of the Department of Water Resources adopts these rules under the authority provided by Section 42-1805(8), Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE (RULE 1).

**01. Title.** These rules are titled IDAPA 37.03.08, “Water Appropriation Rules.” (3-20-20)T

**02. Scope.** (3-20-20)T

**a. Background and Purpose.** The 1985 Idaho Legislature authorized reallocation of certain hydropower water rights to new upstream beneficial uses. The reallocation is to be accomplished using statutes designed to provide for the appropriation of unappropriated public water supplemented by a public interest review of those reallocations which significantly reduce existing hydropower generation. These rules provide the procedures for obtaining the right to divert and use unappropriated public water as well as water previously appropriated for hydropower use which has been placed in trust with the State of Idaho and is subject to reallocation. Guidelines are provided for the filing and processing of applications, and criteria are established for determining the actions to be taken by the Director. (3-20-20)T

**b. Scope and Applicability.** These rules are applicable to appropriations from all sources of unappropriated public water in the state of Idaho under the authority of Chapter 2, Title 42, Idaho Code. Sources of public water include rivers, streams, springs, lakes and groundwater. The rules are also applicable to the reallocation of hydropower water rights held in trust by the state of Idaho. The rules are applicable to all applications to appropriate water filed with the Department of Water Resources prior to the effective date of these rules upon which an action to approve or deny the application is pending and to all applications filed subsequent to adoption of the rules and regulations. In addition, the rules are applicable to existing permits to appropriate water required to be reviewed under the provisions of Section 42-203D, Idaho Code. (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. DEFINITIONS (RULE 10).

Unless the context otherwise requires, the following definitions govern these rules: (3-20-20)T

**01. Acre-Foot (AF).** A volume of water sufficient to cover one (1) acre of land one (1) foot deep and is equal to forty-three thousand five hundred sixty (43,560) cubic feet. (3-20-20)T

**02. Advertisement.** The action taken by the Director to provide notice, usually by publication of a legal notice in one (1) or more newspapers, of a proposed appropriation or other notice required in administration of his duties and responsibilities. (3-20-20)T

**03. Applicant.** The person, corporation, association, firm, governmental agency or other entity, or the holder of a permit being reprocessed pursuant to Section 42-203D, Idaho Code, who initiates an appropriation of water or related water matter for the Director’s consideration. (3-20-20)T

**04. Application for Permit.** The written request to the department on forms furnished by the department proposing to appropriate the public waters or trust waters of the state. (3-20-20)T

**05. Board.** The Idaho Water Resource Board. (3-20-20)T

**06. Beneficial Use.** One (1) or more of the recognized beneficial uses of water including but not limited to, domestic, municipal, irrigation, hydropower generation, industrial, commercial, recreation, stockwatering and fish propagation uses for which permits to appropriate water can be issued as well as other uses which provide a benefit to the user of the water as determined by the Director. Industrial use as used for purposes of these rules includes, but is not limited to, manufacturing, mining and processing uses of water. (3-20-20)T

**07. Cubic Foot Per Second (CFS).** A rate of flow approximately equal to four hundred forty-eight and eight-tenths (448.8) gallons per minute and also equals fifty (50) Idaho miner’s inches. (3-20-20)T

**08. DCMI.** An acronym for domestic, commercial, municipal and industrial. In these rules it designates certain classes of these uses presumed to satisfy public interest requirements. Domestic use, for purposes of this definition, is water for one or more households and water used for all other purposes including irrigation of a

residential lot in connection with each of the households where the diversion to each household does not exceed thirteen thousand (13,000) gallons per day. Also for purposes of this definition, commercial, municipal and industrial uses are any such uses which do not deplete the system containing the trust water more than two (2) acre feet per day. (3-20-20)T

**09. Department.** The Idaho Department of Water Resources. (3-20-20)T

**10. Director.** The Director of the Idaho Department of Water Resources. (3-20-20)T

**11. Legal Subdivision.** A tract of land described by the government land survey and usually is described by government lot or quarter-quarter, section, township and range. A lot and block of a subdivision plat recorded with the county recorder may be used in addition to the quarter-quarter, section, township and range description. (3-20-20)T

**12. Permit or Water Right Permit.** The water right document issued by the Director authorizing the diversion and use of unappropriated public water of the state or water held in trust by the state. (3-20-20)T

**13. Priority, or Priority of Appropriation, or Priority Date.** The date of appropriation established in the development of a water right. The priority of a water right for public water or trust water is used to determine the order of water delivery from a source during times of shortage. The earlier or prior date being the better right. (3-20-20)T

**14. Project Works.** A general term which includes diversion works, conveyance works, and any devices which may be used to apply the water to the intended use. Improvements which have been made as a result of application of water, such as land preparation for cultivation, are not a part of the project works. (3-20-20)T

**15. Single Family Domestic Purposes.** Water for household use or livestock and water used for all other purposes including irrigation of up to one half (1/2) acre of land in connection with said household where total use is not in excess of thirteen thousand (13,000) gallons per day. (3-20-20)T

**16. Subordinated Water Right.** A water right used for hydropower generation purposes that is subject to depletion without compensation by upstream water rights which are initiated later in time and which are for a purpose other than hydropower generation purposes. (3-20-20)T

**17. Trust Water.** That portion of an unsubordinated water right used for hydropower generation purposes which is in excess of a minimum stream flow established by state action either with agreement of the holder of the hydropower right as provided by Section 42-203B(5), Idaho Code or without an agreement as provided by Section 42-203B(3), Idaho Code. (3-20-20)T

**18. Unappropriated Water.** The public water of the state of Idaho in streams, rivers, lakes, springs or groundwater in excess of that necessary to satisfy prior rights including prior rights reserved by federal law. (3-20-20)T

**011. -- 024. (RESERVED)**

**025. GENERAL DESCRIPTION OF THE PROCEDURE TO BE USED FOR ALLOCATION (RULE 25).**

**01. Applications to Appropriate Unappropriated Water and Water Held in Trust.** Applications to appropriate unappropriated water and water held in trust as provided by Section 42-203B(3), Idaho Code, will be evaluated using the criteria of Section 42-203A, Idaho Code, which requires an assessment to be made of the impact of the proposed use on water availability for existing water rights, the adequacy of the water supply for the proposed use, whether the application is filed for speculative purposes, the financial ability of the applicant to complete the project, and the effect of the proposed use on the local public interest. (3-20-20)T

**02. Applications to Appropriate Water from Sources Held by State in Trust.** Applications to appropriate water from sources on which the state holds water in trust, pursuant to Section 203B(5), Idaho Code, will be processed in a three-step analysis. Evaluation will consider the purposes of "trust water" established in Section 42-

203B, Idaho Code.

(3-20-20)T

**a.** First, the proposed use must be evaluated using the procedures and criteria of Section 42-203A, Idaho Code. If all criteria of Section 42-203A(5), Idaho Code, are satisfied, the application may be approved for unappropriated water. If the application does not satisfy the criteria of Section 42-203A(5) b, c, d, and e, Idaho Code, or is found to reduce the water to existing water rights other than those held in trust by the state, the application will be denied. If the application satisfies all criteria of Section 42-203A(5), Idaho Code, except Section 42-203A(5)a, Idaho Code, but is found to reduce water held in trust by the state, the application will be reviewed under criteria of Section 42-203C, Idaho Code. (3-20-20)T

**b.** Second, Section 42-203C, Idaho Code, requires a determination of whether the proposed use will significantly reduce, individually or cumulatively with existing uses and other uses reasonably likely to exist within twelve months of the proposed use, the amount of trust water available to the holder of the water right used for power production that is defined by agreement pursuant to subsection (5) of Section 42-203B, Idaho Code (hereinafter termed “significant reduction”). If a significant reduction will not occur, the application may be approved without an evaluation of the public interest criteria of Section 42-203C(2), Idaho Code. (3-20-20)T

**c.** Third, based upon a finding of significant reduction, the proposed use will be evaluated in terms of the public interest criteria of Section 42-203C(2), Idaho Code. (3-20-20)T

**026. -- 029. (RESERVED)**

**030. LOCATION AND NATURE OF TRUST WATER (RULE 30).**

**01. Snake River Water Rights Agreement.** The legislation ratifying the Snake River water rights agreement between the state of Idaho and Idaho Power Company places in trust a part of the flows available to Idaho Power Company under its hydropower water rights in the Snake River Basin between Swan Falls Dam and Milner Dam. The flows subject to the trust water provisions and reallocation under Section 42-203C(2), Idaho Code, are as follows: (3-20-20)T

**a.** Trust water flows under the Snake River water rights agreement are located in the Snake River between Swan Falls Dam located in Section 18, Township 2 South, Range 1 East, Boise Meridian (B.M.) and Milner Dam located in Sections 28 and 29, Township 10 South, Range 21 East, Boise Meridian (B.M.) and all surface and groundwater sources tributary to the Snake River in that reach. (3-20-20)T

**b.** Surface water and groundwater tributary to the Snake River upstream from Milner Dam is not trust water. After giving notice and considering public comment, the Director will designate the area in which groundwater is presumed to be tributary to the Snake River upstream from Milner Dam. Modification or changes in the designated boundary may be made only after providing notice and considering public comment. The area presently designated as tributary to the Snake River in the Milner Dam to Swan Falls Dam reach is appended to these rules (See Attachment A in APPENDIX A located at the end of this chapter), for information purposes only. (3-20-20)T

**c.** Trust water flows under the Snake River water rights agreement are those occurring in the Snake River and tributaries in the geographic area designated in Subsection 030.01.a. that exceed the established minimum stream flows but are less than the water rights for hydropower generating facilities in the Swan Falls Dam to Milner Dam reach of Snake River, to the extent such rights were unsubordinated prior to the Snake River water rights agreement. Minimum average daily flows have been established by action of the Board and legislature at the U.S. Geological Survey gauging station located near Murphy (Section 35, Township 1 South, Range 1 West B.M.) in the amount of three thousand nine hundred (3900) cfs from April 1 to October 31 and five thousand six hundred (5600) cfs from November 1 to March 31, and at Milner gauging station located in Section 29, Township 10 South, Range 21 East, B.M. in the amount of zero (0) cfs from January 1 to December 31. (3-20-20)T

**02. Trust Water Created by State Action.** Section 42-203B(3), Idaho Code, provides that trust water can be created by state action establishing a minimum flow without an agreement with the holder of the hydropower water right. Allocation of trust water so established will be pursuant to state law except the criteria of Section 42-203C, Idaho Code, will not be considered. (3-20-20)T

**03. Sources of Public Water Not Trust Water.** The following sources of public water are not trust water and are not subject to the public interest provisions of Section 42-203C, Idaho Code: (3-20-20)T

**a.** Sources or tributaries to sources upon which no hydropower generating facilities are located downstream within the state of Idaho. (3-20-20)T

**b.** Sources or tributaries to sources which have a state hydropower water right permit or license or Federal Energy Regulatory Commission license which have not been subordinated, and the state of Idaho has not entered into an agreement with the holder of the hydropower water right pursuant to Section 42-203B(2), Idaho Code, and the State of Idaho has not established a minimum stream flow for purposes of protecting hydropower generation. (3-20-20)T

**c.** Sources or tributaries to sources for which a state hydropower water right permit or license, or the Federal Energy Regulatory Commission license included a subordination condition. Such flows are considered to be public waters subject to appropriation under the provisions of Section 42-203A, Idaho Code. (3-20-20)T

**d.** Flows in excess of established rights including rights used for hydropower purposes. Such flows are unappropriated waters subject to allocation under Section 42-203A, Idaho Code. (3-20-20)T

**e.** Flows in the Snake River upstream from Milner Dam and all surface and groundwater tributaries to that reach. Such flows are subject to allocation under Section 42-203A, Idaho Code, without consideration of water rights existing downstream from Milner Dam (Reference: 42-203B(2), Idaho Code). (3-20-20)T

**031. -- 034. (RESERVED)**

**035. APPLICATION REQUIREMENTS (RULE 35).**

**01. General Provisions.** (3-20-20)T

**a.** No person shall commence the construction of any project works or commence the diversion of the public water or trust water of the state of Idaho from any source without first having filed an application for permit to appropriate the water or other appropriate form with the department and received approval from the Director, unless exempted by these rules or by statute. (3-20-20)T

**b.** Any person proposing to commence a diversion of the public water or the trust water of the state of Idaho from a groundwater source for single family domestic purposes is exempt from the application and permit requirements of Subsection 035.01.a. (3-20-20)T

**c.** Any person watering livestock directly from a natural stream or natural lake without the use of a constructed diversion works is exempt from Subsection 035.01.a. (3-20-20)T

**d.** All applications for permit to appropriate public water or trust water of the state of Idaho shall be on the form provided by the department entitled "Application for Permit to Appropriate the Public Waters of the State of Idaho" and include all necessary information as described in Subsection 035.03. An application for permit that is not complete as described in Subsection 035.03 will not be accepted for filing and will be returned along with any fees submitted to the person submitting the application. No priority will be established by an incomplete application. Applications meeting the requirements of Subsection 035.03. will be accepted for filing and will be endorsed by the department as to the time and date received. The acceptability of applications requiring clarification or corrections shall be determined by the Director. (3-20-20)T

**e.** The department will correspond with the applicant concerning applications which have been accepted for filing by the department which require clarification or correction of the information required by Subsection 035.03. If the additional or corrected information is supplied after thirty (30) days, the priority date of the application will be determined by the date the additional or corrected information is received by the department unless the applicant has requested within the thirty (30) day period additional time to provide the information, has shown good reasons for needing additional time, and the Director has granted additional time. (3-20-20)T

f. Failure to submit the additional or corrected information is cause for the Director to void the department's records of the application. (3-20-20)T

**02. Effect of an Application.** (3-20-20)T

a. Any application that seeks to appropriate water from a source upon which the state holds trust water shall be considered an application for appropriation of unappropriated water. If the Director determines unappropriated water is not available, the application, if otherwise approvable, will be reviewed for compliance with provisions of Section 42-203C, Idaho Code. (3-20-20)T

b. The priority of an application for unappropriated or trust water is established as of the time and date the application is received in complete form along with the statutory fee in any official office of the department. The priority of the application remains fixed unless changed by action of the Director in accordance with applicable law. (3-20-20)T

c. An application for permit to appropriate water is not a water right and does not authorize diversion or use of water until approved by the Director in accordance with statutes in effect at the time the application is approved. (3-20-20)T

d. An applicant's interest in an application for permit to appropriate water is personal property. An assignment of interest in an application must include evidence satisfactory to the Director that the application was not filed for speculative purposes. (3-20-20)T

**03. Requirements for Applications to Be Acceptable for Filing.** (3-20-20)T

a. The following information shall be shown on an application for permit form and submitted together with the statutory fee to an office of the department before the application for permit may be accepted for filing by the department. (3-20-20)T

i. The name and post office address of the applicant shall be listed. If the application is in the name of a corporation, the names and addresses of its directors and officers shall be provided. If the application is filed by or on behalf of a partnership or joint venture, the application shall provide the names and addresses of all partners and designate the managing partner, if any. (3-20-20)T

ii. The name of the water source sought to be appropriated shall be listed. For surface water sources, the source of water shall be identified by the official geographic name listed on the U.S. Geological Survey Quadrangle map. If the source has not been named, it can be described as "unnamed," but the system or river to which it is tributary shall be identified. For groundwater sources, the source shall be listed as "groundwater." Only one source shall be listed on an application unless the application is for a single system which will have more than one source. (3-20-20)T

iii. The legal description of the point of diversion and place of use shall be listed. The location of the point(s) of diversion and the place of use shall be described to the nearest forty (40) acre subdivision or U.S. Government Lot of the Public Land Survey System. The location of springs shall be described to the nearest ten (10) acre tract. Subdivision names, lot and block numbers and any name in local common usage for the point of diversion, or place of use shall be included in the comments section of the application form. If irrigation is listed as a purpose of use, the number of acres in each forty (40) acre subdivision of the place of use shall be listed. (3-20-20)T

iv. The quantity of water to be diverted shall be listed as a rate of flow in cubic feet per second and/or as a volume to be stored in acre-feet per year for each purpose of use requested. (3-20-20)T

v. Impoundment (storage) applications shall show the maximum acre-feet requirement per year which shall not exceed the storage capacity of the impoundment structure unless the application describes a plan of operation for filling the reservoir more than once per year. (3-20-20)T

vi. Every offshore storage impoundment application shall show a maximum rate of diversion to storage as well as the total storage volume. (3-20-20)T

vii. The nature of the proposed beneficial use or uses of the water shall be listed. While the purpose may be described in general terms such as irrigation, industrial or municipal, a description sufficient to identify the proposed use or uses of the water shall also be included. (3-20-20)T

viii. The period of each year during which water will be diverted, stored and beneficially used shall be listed. The period of use for irrigation purposes shall coincide with the annual periods of use shown in Figure 1 in APPENDIX B (located at the end of this chapter), unless it can be shown to the satisfaction of the Director that a different period of use is necessary. (3-20-20)T

ix. The proposed method of diversion, conveyance system and system for distributing and using the water shall be described. (3-20-20)T

x. The period of time required for completion of the project works and application of water to the proposed use shall be listed. This period of time shall not exceed the time required to diligently and uninterruptedly apply the water to beneficial use and shall not exceed five (5) years. (3-20-20)T

xi. A map or plat of sufficient scale (not less than two (2) inches equal to one (1) mile) to show the project proposed shall be included. The map or plat shall agree with the legal descriptions and other information shown on the application. (3-20-20)T

xii. The application form shall be signed by the applicant listed on the application or evidence must be submitted to show that the signator has authority to sign the application. An application in more than one (1) name shall be signed by each applicant unless the names are joined by “or” or “and/or.” (3-20-20)T

xiii. Applications by corporations, companies or municipalities or other organizations shall be signed by an officer of the corporation or company or an elected official of the municipality or an individual authorized by the organization to sign the application. The signator’s title shall be shown with the signature. (3-20-20)T

xiv. Applications may be signed by a person having a current “power of attorney” authorized by the applicant. A copy of the “power of attorney” shall be included with the application. (3-20-20)T

xv. Applications to appropriate water in connection with Carey Act or Desert Land Entry proposals shall include evidence that appropriate applications have been filed for the lands involved in the proposed project. (3-20-20)T

xvi. The application form shall be accompanied with a fee in the amount required by Section 42-221A, Idaho Code. (3-20-20)T

**04. Amended Applications.** (3-20-20)T

**a.** Applications for permit shall be amended whenever significant changes to the place, period or nature of the intended use, method or location of diversion or proposed use of the water or other substantial changes from that shown on the pending application are intended. An application shall be amended if the proposed change will result in a greater rate of diversion or depletion (see Subsection 035.04.c.), if the point of diversion, place of use, or point of discharge of the return flow are to be altered, if the period of the year that water will be used is to be changed, or if the nature of the use is to be changed. (3-20-20)T

**b.** An application can be amended to clarify the name of the source of water but may not be amended to change the source of water. (3-20-20)T

**c.** An amendment which increases the rate of diversion, increases the volume of water diverted per year or the volume of water depleted, lengthens the period of use, or adds an additional purpose of use shall result in the priority of the application for permit being changed to the date the amended application is received by the department. (3-20-20)T

**d.** An application for permit may be amended by endorsement by the applicant or his agent on the

original application for permit form which endorsement shall be initialed and dated. If the changes required to the information on the application are, in the judgment of the Director, substantial enough to cause confusion in interpreting the application form, the amended application shall be submitted on a new application for permit form to be designated as an amended application. (3-20-20)T

**e.** An amended application shall be accompanied by the additional fee required by Section 42-221A, Idaho Code, if the total rate of diversion or total volume of storage requested is increased and by the fee required by Section 42-221F, Idaho Code, for readvertising if notice of the original application has been published. (3-20-20)T

**f.** If the applicant's name or mailing address changes, the applicant shall in writing notify the department of the change. (3-20-20)T

**036. -- 039. (RESERVED)**

**040. PROCESSING APPLICATIONS FOR PERMIT AND REPROCESSING PERMITS (RULE 40).**

**01. General.** (3-20-20)T

**a.** Unprotested applications, whether for unappropriated water or trust water, will be processed using the following general steps: (3-20-20)T

- i. Advertisement and protest period; (3-20-20)T
- ii. Department review of applications and additional information, including department field review if determined to be necessary by the Director; (3-20-20)T
- iii. Fact finding hearing if determined to be necessary by the Director; (3-20-20)T
- iv. Director's decision; (3-20-20)T
- v. Section 42-1701A, Idaho Code, hearing, if requested; and (3-20-20)T
- vi. Director's decision affirmed or modified. (3-20-20)T

**b.** Protested applications, whether for unappropriated water or trust water, will be processed using the following general steps: (3-20-20)T

- i. Advertisement and protest period; (3-20-20)T
- ii. Hearing and/or conference; (3-20-20)T
- iii. Department review of applications, hearing record and additional information including department field review if determined to be necessary by the Director. (3-20-20)T
- iv. Proposed decision (unless waived by parties); (3-20-20)T
- v. Briefing or oral argument in accordance with the department's adopted Rules of Procedure. (3-20-20)T
- vi. Director's decision accepting or modifying the proposed decision. (3-20-20)T

**c.** The Director's decision rejecting and denying approval of an application for permit filed for diversion from a source previously designated as a critical groundwater area or upon which a moratorium has previously been entered may be issued without advertisement of the application. (3-20-20)T

**d.** An applicant may request in writing that commencement of processing of his or her application be delayed for a period not to exceed one (1) year or that processing be interrupted for a period not to exceed six (6)

months. The Director at his discretion may approve the request unless he determines that others will be injured by the delay or that the applicant seeks the delay for the purpose of speculation, or that the public interest of the people of Idaho will not be served by the delay. The Director may approve a request for delay for a shorter period of time or upon conditions, and may renew the approval upon written request. (3-20-20)T

**02. Public Notice Requirement.** (3-20-20)T

**a.** Applications for permit which have not been advertised. (3-20-20)T

i. Advertisement of applications for permit proposing a rate of diversion of ten (10) cfs or less or storage of one thousand (1000) AF or less shall comply with Section 42-203A, Idaho Code. The first required advertisement will be published on the first or third Thursday of a month when published in daily newspapers and on the first or third publishing day of the month for weekly newspapers. (3-20-20)T

ii. Advertisement of applications for permit in excess of the amounts in Subsection 040.02.a.i. shall comply with Subsection 040.02.a.i. and shall also be published in a newspaper or newspapers to achieve statewide circulation. (3-20-20)T

iii. Statewide circulation with respect to Section 42-203A(2), Idaho Code, shall be obtained by publication of a legal notice at least once each week for two (2) successive weeks in a newspaper, as defined in Section 60-106, Idaho Code, of general circulation in the county in which the point of diversion is located and by publication of a legal notice at least once each week for two (2) successive weeks in at least one (1) daily newspaper, as defined in Section 60-107, Idaho Code, published in each of the department's four (4) administrative regions and determined by the Director to be of general circulation within the department's region within which it is published. The administrative regions of the department are identified on Figure 2 in APPENDIX C (located at the end of this chapter). The names of newspapers used for statewide publication are available from any department office. (3-20-20)T

**b.** Applications for permit which have been advertised. (3-20-20)T

i. Notice of applications for permit for water from the Snake River between Swan Falls Dam and Milner Dam or surface and groundwater tributaries to that reach of Snake River which were advertised prior to July 1, 1985 and have been held without final action by the department due to the Swan Falls controversy shall be readvertised by the Director in accordance with Subsection 040.02.a. as appropriate to allow opportunity for protests to be entered with respect to the public interest criteria of Section 42-203C(2), Idaho Code. (3-20-20)T

ii. Applications for permit from the Snake River or surface and groundwater sources upstream from Milner Dam which have been held without action due to the Swan Falls controversy may be processed without readvertisement. (3-20-20)T

iii. The applicant shall pay the readvertisement fee provided in Section 42-221F, Idaho Code, prior to the readvertisement. (3-20-20)T

iv. Failure to pay the readvertising fee within thirty (30) days after the applicant is notified to do so is cause for the Director to void the application. (3-20-20)T

**c.** Notice of existing permits. (3-20-20)T

i. Existing permits appropriating water held in trust by the state of Idaho issued prior to July 1, 1985, unless exempted by Subsection 040.02.c.ii. shall be subject to the review requirements of Section 42-203D, Idaho Code, and shall be readvertised in accordance with Subsection 040.02.a. as appropriate. The review is limited to the criteria described in Section 42-203C(2), Idaho Code. (3-20-20)T

**ii.** Permits exempt from the provisions of Section 42-203D, Idaho Code, include: (3-20-20)T

**(1)** Permits appropriating water not held in trust by the state of Idaho; (3-20-20)T

(2) Permits for DCMI uses, stockwater uses and other essentially non-consumptive uses as determined by the Director; and (3-20-20)T

(3) Permits for which an acceptable proof of beneficial use submittal was received by the department prior to July 1, 1985, or permits for which an acceptable proof of beneficial use was submitted after July 1, 1985, if evidence satisfactory to the Director has been received to show that the permit was fully developed prior to July 1, 1985 to the extent claimed on the proof of beneficial use. (3-20-20)T

iii. Holders of permits subject to the review requirement of Section 42-203D, Idaho Code, shall pay in advance, upon the request of the Director, the readvertising fee required by Section 42-221F, Idaho Code. (3-20-20)T

iv. Failure to pay the readvertising fee within thirty (30) days after the applicant is notified to do so is cause for the Director to cancel the permit. (3-20-20)T

**03. Protests, Intervention, Hearings, and Appeals.** (3-20-20)T

**a. Protests.** (3-20-20)T

i. Protests against the approval of an application for permit or against a permit being reprocessed shall comply with the requirements for pleadings as described in the department's adopted Rules of Procedure. (3-20-20)T

ii. Protests against the approval of an application for permit or against a permit being reprocessed will only be considered if received by the department after receipt of the application by the department and prior to the expiration of the protest period announced in the advertisement unless the protestant successfully intervenes in the proceeding. (3-20-20)T

iii. General statements of protest (blanket protests) against appropriations for a particular class of use or from a particular source of water will not be considered as valid protests by the Director. (3-20-20)T

**b. Intervention.** Requests to intervene in a proceeding pending before the department shall comply with the Department's adopted Rules of Procedure. (3-20-20)T

**c. Hearings.** Hearings will be scheduled and held in accordance with the department's adopted Rules of Procedure. (3-20-20)T

**d. Appeals.** Any final decision of the Director may be appealed in accordance with Section 42-1701A, Idaho Code. (3-20-20)T

**04. Burden of Proof.** (3-20-20)T

**a.** Burden of proof is divided into two (2) parts: first, the burden of coming forward with evidence to present a prima facie case, and second, the ultimate burden of persuasion. (3-20-20)T

**b.** The burden of coming forward with evidence is divided between the applicant and the protestant as follows: (3-20-20)T

i. The applicant shall bear the initial burden of coming forward with evidence for the evaluation of criteria (a) through (d) of Section 42-203A(5), Idaho Code; (3-20-20)T

ii. The applicant shall bear the initial burden of coming forward with evidence for the evaluation of criterion (e) of Section 42-203A(5), Idaho Code, as to any factor affecting local public interest of which he is knowledgeable or reasonably can be expected to be knowledgeable. The protestant shall bear the initial burden of coming forward with evidence for those factors relevant to criterion (e) of Section 42-203A(5), Idaho Code, of which the protestant can reasonably be expected to be more cognizant than the applicant. (3-20-20)T

iii. The protestant shall bear the initial burden of coming forward with evidence for the evaluation of

the public interest criteria of Section 42-203C(2), Idaho Code, and of demonstrating a significant reduction, except that the applicant shall provide details of the proposed design, construction, and operation of the project and directly associated operations to allow the impact of the project to be evaluated. (3-20-20)T

c. The applicant has the ultimate burden of persuasion for the criteria of Section 42-203A, Idaho Code, and the protestant has the ultimate burden of persuasion for the criteria of Section 42-203C, Idaho Code. (3-20-20)T

d. For unprotested applications or permits to be reprocessed, the Director will evaluate the application, information submitted pursuant to Subsection 040.05.c. and information in the files and records of the department, and the results of any studies the department may conduct to determine compliance with the appropriate criteria. (3-20-20)T

e. In protested matters the Director will take official notice of information as described in the department's adopted Rules of Procedure, and will, prior to considering, circulate to the parties information from department studies and field examinations concerning the protested application or permit being reprocessed, if such information has not otherwise been made a part of the hearing record. (3-20-20)T

**05. Additional Information Requirements.** (3-20-20)T

a. For unprotested applications and permits being reprocessed, the additional information required by Subsection 040.05.c. shall be submitted within thirty (30) days after the Director notifies the applicant that the application or permit is being reviewed for decision. The Director may extend the time within which to submit the information upon request by the applicant and upon a showing of good cause. Failure to submit the required information within the time period allowed will be cause for the Director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late. The Director will provide opportunity for hearing as provided in Section 42-1701A, Idaho Code. (3-20-20)T

b. For protested applications or protested permits being reprocessed, the information required by Subsection 040.05.c. may be requested by the Director to be submitted within thirty (30) days after notification by the Director, may be made a part of the record of the hearing held to consider the protest, or may be made available in accordance with any pre-hearing discovery procedures. Failure to submit the required information within the time period allowed will be cause for the Director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late. (3-20-20)T

c. The following information shall be submitted for applications to appropriate unappropriated water or trust water and for permits being reprocessed for trust water. The additional information submittal requirements of this rule are waived for filings which seek to appropriate five (5) cfs or less or storage of five hundred acre-feet (500 AF) or less and for filings seeking reallocation of trust water which the Director determines will reduce the flow of the Snake River measured at Murphy Gauge by not more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than two hundred (200) acres will be irrigated. However, the Director may specifically request submittal of any of the following information for any filing, as he determines necessary. Information relative to the effect on existing water rights, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows: (3-20-20)T

i. For applications appropriating springs or surface streams with five (5) or fewer existing users, either the identification number, or the name and address of the user, and the location of the point of diversion and nature of use for each existing water right shall be submitted. (3-20-20)T

ii. For applications appropriating groundwater, a plat shall be submitted locating the proposed well relative to all existing wells and springs and permitted wells within a one-half mile radius of the proposed well. (3-20-20)T

iii. Information shall be submitted concerning any design, construction, or operation techniques which will be employed to eliminate or reduce the impact on other water rights. (3-20-20)T

d. Information relative to sufficiency of water supply, Section 42-203A(5)(b), Idaho Code, shall be

submitted as follows:

(3-20-20)T

i. Information shall be submitted on the water requirements of the proposed project, including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of year that water is required, and the volume of water that will be consumptively used per year. (3-20-20)T

ii. Information shall be submitted on the quantity of water available from the source applied for, including, but not limited to, information concerning flow rates for surface water sources available during periods of peak and average project water demand, information concerning the properties of the aquifers that water is to be taken from for groundwater sources, and information on other sources of supply that may be used to supplement the applied for water source. (3-20-20)T

e. Information relative to good faith, delay, or speculative purposes of the applicant, Section 42-203A(5)(c), Idaho Code, shall be submitted as follows: (3-20-20)T

i. The applicant shall submit copies of deeds, leases, easements or applications for rights-of-way from federal or state agencies documenting a possessory interest in the lands necessary for all project facilities and the place of use or if such interest can be obtained by eminent domain proceedings the applicant must show that appropriate actions are being taken to obtain the interest. Applicants for hydropower uses shall also submit information required to demonstrate compliance with Sections 42-205 and 42-206, Idaho Code. (3-20-20)T

ii. The applicant shall submit copies of applications for other needed permits, licenses and approvals, and must keep the department apprised of the status of the applications and any subsequent approvals or denials. (3-20-20)T

f. Information Relative to Financial Resources, Section 42-203A(5)(d), Idaho Code, shall be submitted as follows: (3-20-20)T

i. The applicant shall submit a current financial statement certified to show the accuracy of the information contained therein, or a financial commitment letter along with the financial statement of the lender or other evidence to show that it is reasonably probable that financing will be available to appropriate the water and apply it to the beneficial use proposed. (3-20-20)T

ii. The applicant shall submit plans and specifications along with estimated construction costs for the project works. The plans shall be definite enough to allow for determination of project impacts and implications. (3-20-20)T

g. Information Relative to Conflict with the Local Public Interest, Section 42-203A(5)(e), Idaho Code, shall be submitted as follows: The applicant shall seek comment and shall submit all letters of comment on the effects of the construction and operation of the proposed project from the governing body of the city and/or county and tribal reservation within which the point of diversion and place of use are located, the Idaho Department of Fish and Game, the Idaho Department of Environmental Quality, and any irrigation district or canal company within which the proposed project is located and from other entities as determined by the Director. (3-20-20)T

h. The following information Relative to the Public Interest Criteria of Section 42-203C(2), Idaho Code, shall be submitted by an applicant seeking reallocation of trust water for a project which the Director determines will reduce the flow of the Snake River by more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than two hundred (200) acres will be irrigated. The Director may request any or all of the following information for any filing seeking the reallocation of trust water. (3-20-20)T

i. A project design and estimate of cost of development shall be submitted. For applications appropriating more than twenty-five (25) cfs, or ten thousand (10,000) AF of storage, or generating more than five (5) megawatts, the information shall be prepared and submitted by a qualified engineer licensed under the provisions of Chapter 12, Title 54, Idaho Code, unless waived by the Director. The design shall be definite enough to reflect the project's impacts and implications as required in subsequent rules. (3-20-20)T

ii. If the project proposes development for irrigation purposes, information shall be submitted on crop rotation, including acreages, for lands when newly developed. (3-20-20)T

iii. Information shall be submitted concerning the number and kinds of jobs that will be created or eliminated as a direct result of project development including both the construction and operating phases of the project. If jobs are seasonal, the estimated number of months per year of employment shall be submitted. (3-20-20)T

iv. For applications or permits being reprocessed for more than twenty-five (25) cfs, or more than ten thousand (10,000) AF of storage, or more than five (5) megawatts, information shall be submitted concerning the changes to community services that will be required during the construction and operation phases of the project including, but not limited to, changes to schools, roads, housing, public utilities and public health and safety facilities, if any. (3-20-20)T

v. Information shall be submitted concerning the source of energy for diverting and using water for the project, the estimated instantaneous demand and total amount of energy that will be used, the efficiency of use, and energy conservation methods. (3-20-20)T

vi. Information shall be submitted concerning the location, amount, and quality of return flow water, and any water conservation features of the proposed project. (3-20-20)T

vii. If the project proposes irrigation as a use, information shall be submitted concerning the kinship, if any, of the operator of the land to be irrigated by the project to the applicant, the location and acreage of other irrigated lands owned, leased, or rented by the applicant, the names, addresses and number of shares held by each shareholder if the applicant is a corporation, evidence of tax-exempt status if a corporation is so claiming, a soil survey prepared in accordance with the U.S. Soil Conservation Service irrigatable land classification system, and a schedule for bringing into production the project lands. (3-20-20)T

**041. -- 044. (RESERVED)**

**045. EVALUATION CRITERIA (RULE 45).**

**01. Criteria for Evaluating All Applications to Appropriate Water.** The Director will use the following criteria in evaluating whether an application to appropriate unappropriated water or trust water should be approved, denied, approved for a smaller amount of water or approved with conditions. (3-20-20)T

**a.** Criteria for determining whether the proposed use will reduce the quantity of water under existing water rights. A proposed use will be determined to reduce the quantity of water under an existing water right (i.e., injure another water right) if: (3-20-20)T

i. The amount of water available under an existing water right will be reduced below the amount recorded by permit, license, decree or valid claim or the historical amount beneficially used by the water right holder under such recorded rights, whichever is less. (3-20-20)T

ii. The holder of an existing water right will be forced to an unreasonable effort or expense to divert his existing water right. Protection of existing groundwater rights are subject to reasonable pumping level provisions of Section 42-226, Idaho Code; or (3-20-20)T

iii. The quality of the water available to the holder of an existing water right is made unusable for the purposes of the existing user's right, and the water cannot be restored to usable quality without unreasonable effort or expense. (3-20-20)T

iv. An application that would otherwise be denied because of injury to another water right may be approved upon conditions which will mitigate losses of water to the holder of an existing water right, as determined by the Director. (3-20-20)T

v. The provisions of Subsection 045.01.a.v. are not intended to require compensation or mitigation for

loss of flow to holders of subordinated hydropower rights or those from which trust water is reallocated. (3-20-20)T

**b.** Criteria for determining whether the water supply is insufficient for the proposed use. The water supply will be determined to be insufficient for the proposed use if water is not available for an adequate time interval in quantities sufficient to make the project economically feasible (direct benefits to applicant must exceed direct costs to applicant), unless there are noneconomic factors that justify application approval. In assessing such noneconomic factors, the Director will also consider the impact on other water rights if the project is abandoned during construction or after completion, the impact on public resource values, and the cost to local, state and federal governments of such an abandonment. (3-20-20)T

**c.** Criteria for determining whether the application is made in good faith. The criteria requiring that the Director evaluate whether an application is made in good faith or whether it is made for delay or speculative purposes requires an analysis of the intentions of the applicant with respect to the filing and diligent pursuit of application requirements. The judgment of another person's intent can only be based upon the substantive actions that encompass the proposed project. Speculation for the purpose of this rule is an intention to obtain a permit to appropriate water without the intention of applying the water to beneficial use with reasonable diligence. Speculation does not prevent an applicant from subsequently selling the developed project for a profit or from making a profit from the use of the water. An application will be found to have been made in good faith if: (3-20-20)T

i. The applicant shall have legal access to the property necessary to construct and operate the proposed project, has the authority to exercise eminent domain authority to obtain such access, or in the instance of a project diverting water from or conveying water across land in state or federal ownership, has filed all applications for a right-of-way. Approval of applications involving Desert Land Entry or Carey Act filings will not be issued until the United States Department of Interior, Bureau of Land Management has issued a notice classifying the lands suitable for entry; and (3-20-20)T

ii. The applicant is in the process of obtaining other permits needed to construct and operate the project; and (3-20-20)T

iii. There are no obvious impediments that prevent the successful completion of the project. (3-20-20)T

**d.** Criteria for determining whether the applicant has sufficient financial resources to complete the project. (3-20-20)T

i. An applicant will be found to have sufficient financial resources upon a showing that it is reasonably probable that funding is or will be available for project construction or upon a financial commitment letter acceptable to the Director. This showing is required as described in Subsection 040.05.c. or at the time the hearing provided by Subsection 040.05.c. is conducted. (3-20-20)T

ii. A governmental entity will be determined to have satisfied this requirement if it has the taxing, bonding or contracting authority necessary to raise the funds needed to commence and pursue project construction in accordance with the construction schedule. (3-20-20)T

**e.** Criteria for determining whether the project conflicts with the local public interest. The Director will consider the following, along with any other factors he finds to be appropriate, in determining whether the project will conflict with the local public interest: (3-20-20)T

i. The effect the project will have on the economy of the local area affected by the proposed use as determined by the employment opportunities, both short and long term, revenue changes to various sectors of the economy, short and long term, and the stability of revenue and employment gains; (3-20-20)T

ii. The effect the project will have on recreation, fish and wildlife resources in the local area affected by the proposed use; and (3-20-20)T

iii. An application which the Director determines will conflict with the local public interest will be denied unless the Director determines that an over-riding state or national need exists for the project or that the

project can be approved with conditions to resolve the conflict with the local public interest. (3-20-20)T

**02. Criteria for Evaluating Whether a Proposed Use of Trust Water Will Cause a Significant Reduction.** Reference: Section 42-203C(1), Idaho Code and Subsection 025.02.b. For purposes of reallocating trust water made available by the Snake River water rights agreement, an application for permit or a permit being reprocessed, will be presumed to not cause a significant reduction if the Director determines that it complies with both the individual and cumulative tests for evaluating significant reduction as provided in Subsections 045.02.a. and 045.02.b. (3-20-20)T

**a.** Individual test for evaluating significant reduction. A proposed use will be presumed to not cause a significant reduction if when fully developed and its impact is fully felt, the use will individually reduce the flow of the Snake River measured at Murphy Gauge by not more than two (2) acre-feet per day. An irrigation project of two hundred (200) acres or less located anywhere in the Snake River Basin above Murphy Gauge proposing to use trust water is presumed to not reduce the flow at Murphy Gauge by more than two (2) acre-feet per day. The presumption of this section is not applicable to applications or permits to be reprocessed which the Director determines to be part of a larger development. (3-20-20)T

**b.** Cumulative test for evaluating significant reduction. A proposed use will be presumed to not cause a significant reduction, if the use, when fully developed and its impact is fully felt and when considered cumulatively with other existing uses and other uses reasonably likely to exist within twelve (12) months of the proposed use, will not deplete the flow of Snake River measured at Murphy Gauge by more than: (3-20-20)T

**i.** Forty thousand (40,000) acre-feet per calendar year when considered with all other uses approved for development of trust water during that calendar year; (3-20-20)T

**ii.** Forty thousand (40,000) acre-feet per calendar year using a four (4) year moving average when considered with all other uses approved for development of trust water during that four (4) year period; and (3-20-20)T

**iii.** Twenty thousand (20,000) acre-feet per calendar year from filings approved for reallocation of trust water which meet the criteria of Subsection 045.02.a. (3-20-20)T

**c.** The Director will determine on a case-by-case basis from available information whether a permit to be reprocessed or an application for trust water which exceeds the flow depletion limits of Subsection 045.02, or one which meets the flow depletion limits but has been protested, will cause a significant reduction. In making this determination, the Director will consider: (3-20-20)T

**i.** The amount of the reduction in hydropower generation that the proposed use will cause individually and cumulatively with other uses expected to be developed within twelve (12) months of the proposed use as compared to the existing hydropower generation output of the affected facility or facilities. (3-20-20)T

**ii.** The relative importance of the affected hydropower facility or facilities to other sources of electrical power generation available to the holder of the facility or facilities. (3-20-20)T

**iii.** The timing of the reduction in hydropower generation both on an annual basis and on a long-term basis considering the lag time between the beginning of diversion by the proposed use and the resulting reduction in hydropower generation. (3-20-20)T

**iv.** The effect of the reduction in hydropower generation on the unit cost of hydropower from the facility or facilities and the average cost of electrical power offered by the holder of the facility. (3-20-20)T

**v.** The terms of contracts, mortgages, or regulatory permits and licenses which require the holder of the hydropower generation facility to retain the capability to produce hydroelectric power at a specific level. (3-20-20)T

**d.** Other provisions of these rules notwithstanding, applications or permits to be reprocessed proposing a direct diversion of water for irrigation purposes from the Snake River between Milner Dam and Swan

Falls Dam or from tributary springs in this reach are presumed to cause a significant reduction. (3-20-20)T

e. Other provisions of these rules notwithstanding, applications or permits to be reprocessed for DCMI purposes are presumed to not cause a significant reduction. (3-20-20)T

**03. Criteria for Evaluating Public Interest.** If the Director determines that a proposed use of trust water held by the state pursuant to Section 42-203B(5), Idaho Code, will cause a significant reduction, the Director will consider the criteria of Section 42-203C(2), Idaho Code, before acting on the application or permit being reprocessed. The Director shall consider and balance the relative benefits and detriments for each factor required to be weighed under Section 42-203C(2), Idaho Code, to determine whether a proposed reduction of the amount of water available for power production serves the greater public interest. The Director shall evaluate whether the proposed use sought in the permit being reprocessed or the application will provide the greater benefit to the people of the state of Idaho when balanced against other uses for the same water resource. In evaluating the public interest criteria, the Director will use the following guidelines: (3-20-20)T

a. The Director will consider the potential benefits both direct and indirect, and that the proposed use would provide to the state and local economy. The economic appraisal shall be based upon generally accepted economic analysis procedures which uniformly evaluate the following factors within the state of Idaho and the county or counties directly affected by the project: (3-20-20)T

i. Direct project benefits. (3-20-20)T

ii. Indirect benefits including net revenues to the processing, transportation, supply, service and government sectors of the economy. (3-20-20)T

iii. Direct project costs, to include the opportunity cost of previous land use. (3-20-20)T

iv. Indirect project costs, including verifiable costs to government in net lost revenue and increased regulation costs, verifiable reductions in net revenue resulting from losses to other existing instream uses, and the increased cost of replacing reduced hydropower generation from unsubordinated hydropower generating facilities. (3-20-20)T

b. The Director will consider the impact the proposed use would have upon the electric utility rates in the state of Idaho, and the availability, foreseeability and cost of alternative energy sources to ameliorate such impact. These evaluations will include the following considerations: (3-20-20)T

i. Projections of electrical supply and demand for Idaho and the Pacific Northwest made by the Bonneville Power Administration and the Northwest Power Planning Council and information available from the Idaho Public Utilities Commission or from the electric utility from whose water right trust water is being reallocated. (3-20-20)T

ii. The long term reliability of the substitute source and the cost of alternatives including the resulting impact on electrical rates. (3-20-20)T

c. The Director will consider whether the proposed use will promote the family farming tradition in the state of Idaho. For purposes of this evaluation, the Director will use the following factors. (3-20-20)T

d. If the total land to be irrigated by the applicant, including currently owned and leased irrigated land and land proposed to be irrigated in the application and other applications and permits of the applicant, do not exceed nine hundred sixty (960) acres, the application will be presumed to promote the family farming tradition. (3-20-20)T

e. If the requirement of Subsection 045.03.c.i. is not met, the Director will consider the extent the applicant conforms to the following characteristics: (3-20-20)T

i. The farming operation developed or expanded as a result of the application is operated by the applicant or a member of his family (spouse, parents or grandparents, lineal descendants, including those that are adopted, lineal descendants of parents; and spouse of lineal descendants); (3-20-20)T

ii. In the event the application is filed in the name of a partnership, one or more of the partners shall operate the farming operation; and (3-20-20)T

iii. If the application is in the name of a corporation, the number of stockholders does not exceed fifteen (15) persons, and one or more of the stockholders operates the farming operation unless the application is submitted by an irrigation district, drainage district, canal company or other water entity authorized to appropriate water for landowners within the district or for stockholders of the company all of whom shall meet the family farming criteria. (3-20-20)T

f. The Director will consider the promotion of full economic and multiple use development of the water resources of the state of Idaho. In this regard, the extent to which the project proposed complies with the following factors will be considered: (3-20-20)T

- i. Promotes and conforms with the adopted State Water Plan; (3-20-20)T
- ii. Provides for coordination of proposed and existing uses of water to maximize the beneficial use of available water supplies; (3-20-20)T
- iii. Utilizes technology economically available to enhance water and energy use efficiency; (3-20-20)T
- iv. Provides multiple use of the water, including multipurpose storage; (3-20-20)T
- v. Allows opportunity for reuse of return flows; (3-20-20)T
- vi. Preserves or enhances water quality, fish, wildlife, recreation and aesthetic values; (3-20-20)T
- vii. Provides supplemental water supplies for existing uses with inadequate supplies. (3-20-20)T

g. The Director will consider whether a proposed use, which includes irrigation, will conform to a staged development policy of up to twenty thousand (20,000) acres per year or eighty thousand (80,000) acres in any four (4) year period in the Snake River drainage above Murphy Gauge. In applying this criteria, the Director will consider the following: (3-20-20)T

i. "Above Murphy gauge" means the Snake River and any of its surface or groundwater tributaries upstream from Murphy gauge which gauge is located on the Snake River approximately four (4) miles downstream from Swan Falls Dam from which trust water is to be reallocated; (3-20-20)T

ii. Twenty thousand (20,000) acres per year or eighty thousand (80,000) acres per four (4) year period is a four (4) year moving average of Twenty thousand (20,000) acres/year of permits issued during a calendar year for irrigation development. If permits for development of less than twenty-thousand (20,000) acres are issued in a year, additional development in excess of twenty-thousand (20,000) acres can be permitted in succeeding years. Likewise, if more than twenty thousand (20,000) acres is permitted in one year (recognizing that a single large project could exceed twenty thousand (20,000) acres) the permitted development in succeeding years must be correspondingly less to maintain no greater than a twenty thousand (20,000) acres/year average for any four (4) year period; (3-20-20)T

iii. The criteria of Subsection 045.03.g. applies to multiple-use projects with irrigation as a principal purpose. Projects which use irrigation as only an incidental purpose, such as the land treatment of waste, shall not be included within this policy; and (3-20-20)T

iv. An application determined by the Director to be otherwise approvable but found to exceed the acreage limitations, when considered with other applications approved for development, may be approved with conditions providing for the construction of project works and beneficial use of water to be commenced in a future year. (3-20-20)T

h. No single public interest criterion will be entitled to greater weight than any other public interest criterion. (3-20-20)T

i. Until such time as the studies prescribed in Policy 32 I of the State Water Plan are completed and accepted by the Idaho Water Resource Board, applications and permits reprocessed which propose to divert water to surface storage from the Snake River and surface tributaries upstream from Murphy Gauging Station shall be presumed to satisfy the public interest criteria of Section 42-203C(2), Idaho Code. Applications or reprocessed permits which are approved prior to completion of the studies, will not be subject to additional reprocessing. (3-20-20)T

j. Applications for permit for trust water sources filed prior to July 1, 1985, for projects for which diversion and beneficial use was complete prior to October 1, 1984, are presumed to satisfy the public interest criteria of Section 42-203C(2), Idaho Code. (3-20-20)T

k. Applications or permits to be reprocessed proposing a direct diversion of water for irrigation purposes from the Snake River between Milner Dam and Swan Falls Dam or from tributary springs in this reach are presumed not to be in the public interest as defined by Section 42-203C, Idaho Code. Such proposals, are presumed to prevent the full economic and multiple use of water in the Snake River Basin and to adversely affect hydropower availability and electrical energy rates in the state of Idaho. (3-20-20)T

l. Proposed DCMI uses which individually do not have a maximum consumptive use of more than two acre-feet/day are presumed to meet the public interest criteria of Section 42-203C(2), Idaho Code, unless protested. (3-20-20)T

**046. -- 049. (RESERVED)**

**050. CONDITIONS OF APPROVAL (RULE 50).**

**01. Issuance of Permits with Conditions.** The Director may issue permits with conditions to insure compliance with the provisions of Title 42, Chapter 2, Idaho Code, other statutory duties, the public interest, and specifically to meet the criteria of Section 42-203A, Idaho Code, and to meet the requirements of Section 42-203C, Idaho Code, to the fullest extent possible including conditions to promote efficient use and conservation of energy and water. (3-20-20)T

**02. Requirements to Mitigate Impact of Flow Depletion.** Permits to be reprocessed or applications approved to appropriate water from the main stem of the Snake River between Milner and Murphy gauging station for diversion to off-stream storage during the period November 1 to March 31 shall include requirements to mitigate, in accordance with the State Water Plan, the impact of flow depletions on downstream generation of hydropower. (3-20-20)T

**03. Applications and Existing Permits That Are Junior and Subordinate.** Applications and existing permits approved for hydropower generation shall be junior and subordinate to all rights to the use of water, other than hydropower, within the state of Idaho that are initiated later in time than the priority of the application or existing hydropower permit. A subordinated permit shall not give rise to any right or claim against future rights to the use of water, other than hydropower, within the state of Idaho initiated later in time than the priority of the application or existing hydropower permit. A permit issued for hydropower purposes shall contain a term condition on the hydropower use in accordance with Section 42-203B(6), Idaho Code. (3-20-20)T

**04. Permanent Flow Measuring Device Requirement.** Applications approved for on-stream storage reservoirs will, unless specifically waived by the Director, require permanent flow measuring devices both upstream and downstream from the reservoir. (3-20-20)T

**05. Well Spacing and Well Construction Requirements.** Applications approved for diversion of groundwater may include conditions requiring well spacing and well construction requirements. (3-20-20)T

**06. Reprocessed Permits.** Permits reprocessed pursuant to Section 42-203D, Idaho Code, may be cancelled, modified or conditioned by the Director to make the permit comply in every way with any permit that would be issued for the same purpose based upon a new application processed under these rules. (3-20-20)T

**07. Voiding Approval of Permit.** Permits may be conditioned to authorize the Director to void the approval of the permit if he determines that the applicant submitted false or misleading information on the application or supporting documents. (3-20-20)T

**08. Retention of Jurisdiction.** The Director may condition permits to retain jurisdiction to insure compliance with the design, construction and operation provisions of the permit. (3-20-20)T

**09. Insuring Minimum Stream Flows and Prior Rights.** The Director may condition permits to insure that established minimum stream flows and prior rights including prior rights reserved by federal law are not injured. (3-20-20)T

**10. Insuring Compliance with Water Quality Standards.** The Director may condition permits to insure compliance with Idaho's water quality standards. (3-20-20)T

**11. Insuring Assignment of Interest.** The Director may condition a permit issued for trust water to require that any amendment (Section 42-211, Idaho Code), transfer (Section 42-222, Idaho Code), or assignment of interest in the permit by any method whatsoever shall not result in the project failing to meet the public interest criteria of Section 42-203C, Idaho Code except, however, lenders obtaining title to the project through default will have a reasonable period of time, as determined by the Director, to meet such criteria or to convey the project to a person or entity that does meet the criteria. (3-20-20)T

**051. -- 054. (RESERVED)**

**055. MORATORIUM (RULE 55).**

**01. Applications for Permit.** (3-20-20)T

**a.** The Director may cease to approve applications for permit in a designated geographical area upon finding a need to: (3-20-20)T

i. Protect existing water rights; (3-20-20)T

ii. Insure compliance with the provisions of Chapter 2, Title 42, Idaho Code; and (3-20-20)T

iii. Prevent reduction of flows below a minimum stream flow which has been established by the Director or the board pursuant to applicable law. (3-20-20)T

**b.** Notice of the Director's action to cease application approval will be by: (3-20-20)T

i. Summary Order served by certified mail upon the then existing affected applicants; and (3-20-20)T

ii. Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area affected. (3-20-20)T

**c.** Objections to the Director's action shall be considered under the department's adopted Rules of Procedure and applicable law. (3-20-20)T

**02. Permits.** (3-20-20)T

**a.** To the extent a permit has not been developed, the Director may cancel, or modify permits for which proof of beneficial use has not been submitted in a designated geographical area as an extension of Subsection 055.01. (3-20-20)T

**b.** Notice of the Director's action to cancel or modify permits shall be by: (3-20-20)T

i. Summary Order served by certified mail upon the affected permit holders in the designated area. (3-20-20)T

ii. Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area. (3-20-20)T

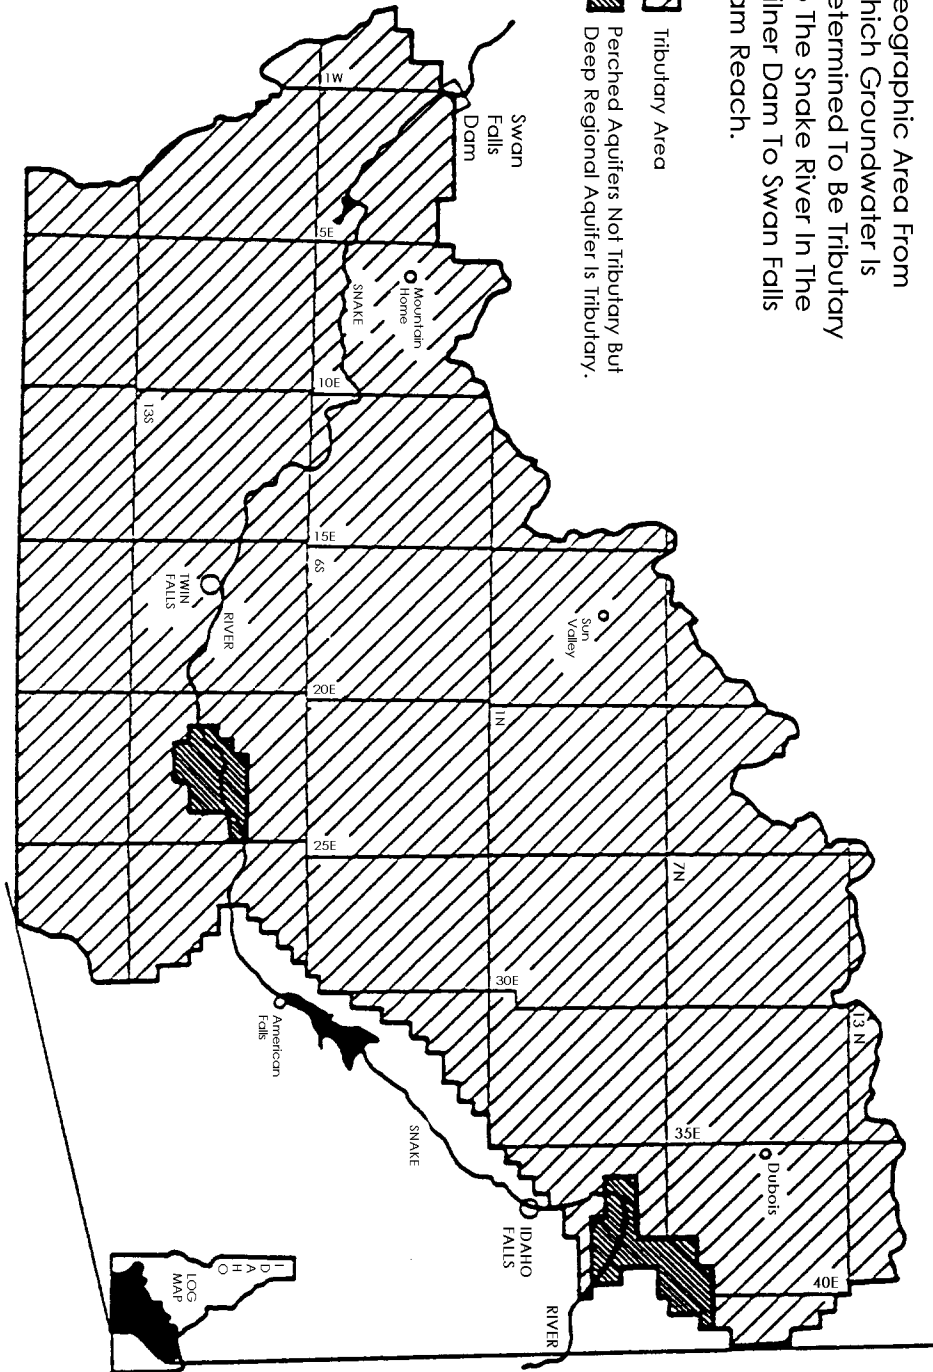

c. Objections to the Director's action shall be considered under the department's adopted Rules of Procedure and applicable law. (3-20-20)T

-  April 1 - November 1
-  April 15 - October 15

APPENDIX C

## 37.03.09 – WELL CONSTRUCTION STANDARDS RULES

### 000. LEGAL AUTHORITY (RULE 0).

The Idaho Water Resource Board adopts these administrative rules with the authority provided by Section 42-238(12), Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE (RULE 1).

**01. Title.** These rules are cited as IDAPA 37.03.09, “Well Construction Standards Rules.” (3-20-20)T

**02. Scope.** The Department of Water Resources has statutory responsibility for the statewide administration of the rules governing well construction. These rules establish minimum standards for the construction of all new wells and the modification and decommissioning (abandonment) of existing wells. The intent of the rules is to protect the ground water resources of the state against waste and contamination. These rules are applicable to all water wells, monitoring wells, low temperature geothermal wells, injection wells, cathodic protection wells, closed loop heat exchange wells, and other artificial openings and excavations in the ground that are more than eighteen (18) feet in vertical depth below land surface as described in these rules pursuant to Section 42-230 Idaho Code. Some artificial openings and excavations do not constitute a well. For the purposes of these rules, artificial openings and excavations not defined as wells are described in Subsection 045.03 of these rules. Any time that such an artificial opening or excavation is constructed, modified, or decommissioned (abandoned) the intent of these rules must be observed. If waste or contamination is attributable to this type of artificial opening or excavation, the artificial opening or excavation must be modified, or decommissioned (abandoned) as determined by the Director. (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. DEFINITIONS (RULE 10).

Unless the context otherwise requires, the following definitions apply to these rules. (3-20-20)T

**01. Approved Seal or Seal Material.** Seal material must consist of bentonite chips, pellets, or granules, bentonite grout, neat cement, or neat cement grout as defined by these rules. No other materials may be used unless specifically authorized by the Director (3-20-20)T

**02. Annular Space.** The space, measured as one-half (1/2) the difference in diameter between two (2) concentric cylindrical objects, one of which surrounds the other, such as the space between the walls of a drilled hole (borehole) and a casing or the space between two (2) strings of casing. (3-20-20)T

**03. Aquifer.** Any geologic formation(s) that will yield water to a well in sufficient quantities to make the production of water from the formation feasible for beneficial use. (3-20-20)T

**04. Area of Drilling Concern.** An area designated by the Director in which drillers must comply with additional standards to prevent waste or contamination of ground or surface water due to such factors as aquifer pressure, vertical depth of the aquifer, warm or hot ground water, or contaminated ground or surface waters, in accordance with Section 42-238(7), Idaho Code. (3-20-20)T

**05. Artesian Water.** Any water that is confined in an aquifer under pressure so that the water will rise in the well casing or drilled hole above the elevation where it was first encountered. This term includes water of flowing and non-flowing wells. (3-20-20)T

**06. Artificial Filter Pack.** Clean, rounded, smooth, uniform, sand or gravel placed in the annular space around a perforated well casing or well screen. A filter pack is frequently used to prevent the movement of finer material into the well casing and to increase well efficiency. (3-20-20)T

**07. Bentonite.** A commercially processed and packaged, low permeability, sodium montmorillonite clay certified by the NSF International for use in well construction, sealing, plugging, and decommissioning (abandonment). All bentonite products used in the construction or decommissioning (abandoning) of wells must have a permeability rating not greater than  $10^{-7}$  (ten to the minus seven) cm/sec. (3-20-20)T

**a.** Chips. Bentonite composed of pieces ranging in size from one-quarter (1/4)-inch to one (1) inch on their greatest dimension. (3-20-20)T

**b.** Granules (also Granular). Bentonite composed of pieces ranging in size from one thirty-seconds (1/32) inch (#20 standard mesh) to seven thirty-seconds (7/32) inch (#3 standard mesh) on their greatest dimension. (3-20-20)T

- c.** Bentonite Grout. A mixture of bentonite specifically manufactured for use as a well sealing or plugging material and potable water to produce a grout with an active solids content not less than twenty-five percent (25%) by weight e.g., (twenty-five percent (25%) solids content by weight = fifty (50) pounds bentonite per eighteen (18) gallons of water). (3-20-20)T
- d.** Pellets. Bentonite manufactured for a specific purpose and composed of uniform sized, one-quarter (1/4) inch, three-eighths (3/8) inch, or one-half (1/2) inch pieces on their greatest dimension. (3-20-20)T
- 08. Board.** The Idaho Water Resource Board. (3-20-20)T
- 09. Bore Diameter.** The diameter of the hole in the formation made by the drill bit or reamer. (3-20-20)T
- 10. Borehole (also Well Bore).** The subsurface hole created during the drilling process. (3-20-20)T
- 11. Bottom Hole Temperature of an Existing or Proposed Well.** The temperature of the ground water encountered in the bottom of a well or borehole. (3-20-20)T
- 12. Casing.** The permanent conduit installed in a well to provide physical stabilization, prevent caving or collapse of the borehole, maintain the well opening and serve as a solid inner barrier to allow for the installation of an annular seal. Casing does not include temporary surface casing, well screens, liners, or perforated casing as otherwise defined by these rules. (3-20-20)T
- 13. Cathodic Protection Well.** Any artificial excavation in excess of eighteen (18) feet in vertical depth constructed for the purpose of protecting certain metallic equipment in contact with the ground. Commonly referred to as cathodic protection. (3-20-20)T
- 14. Closed Loop Heat Exchange Well.** A ground source thermal exchange well constructed for the purpose of installing any underground system through which fluids are circulated but remain isolated from direct contact with the subsurface or ground water. (3-20-20)T
- 15. Conductor Pipe.** The first and largest diameter string of permanent casing to be installed in a low temperature geothermal resource well. (3-20-20)T
- 16. Confining Layer.** A subsurface zone of low-permeability earth material that naturally acts to restrict or retard the movement of water or contaminants from one zone to another. The term does not include topsoil. (3-20-20)T
- 17. Consolidated Formations.** Naturally-occurring geologic formations that have been lithified (turned to stone) such as sandstone and limestone, or igneous rocks such as basalt and rhyolite, and metamorphic rocks such as gneiss and slate. (3-20-20)T
- 18. Contaminant.** Any physical, chemical, ion, radionuclide, synthetic organic compound, microorganism, waste, or other substance that does not occur naturally in ground water or that naturally occurs at a lower concentration. (3-20-20)T
- 19. Contamination.** The introduction into the natural ground water of any physical, chemical, biological or radioactive material that may: (3-20-20)T
- a.** Cause a violation of Idaho Ground Water Quality Standards; or (3-20-20)T
- b.** Adversely affect the health of the public; or (3-20-20)T
- c.** Adversely affect a designated or beneficial use of the State's ground water. Contamination includes the introduction of heated or cooled water into the subsurface that will alter the ground water temperature and render the local ground water less suitable for beneficial use, or the introduction of any contaminant that may cause a

violation of IDAPA 58.01.11, “Ground Water Quality Rule.” (3-20-20)T

**20. Decommissioned (Abandoned) Well.** Any well that has been permanently removed from service and filled or plugged in accordance with these rules so as to meet the intent of these rules. A properly decommissioned well will not: (3-20-20)T

- a. Produce or accept fluids; (3-20-20)T
- b. Serve as a conduit for the movement of contaminants inside or outside the well casing; or (3-20-20)T
- c. Allow the movement of surface or ground water into unsaturated zones, into another aquifer, or between aquifers. (3-20-20)T

**21. Decontamination.** The process of cleaning equipment intended for use in a well in order to prevent the introduction of contaminants into the subsurface and contamination of natural ground water. (3-20-20)T

**22. Department.** The Idaho Department of Water Resources. (3-20-20)T

**23. Dewatering Well.** A well constructed for the purpose of improving slope stability, drying up borrow pits, or intercepting seepage that would otherwise enter an excavation. (3-20-20)T

**24. Director.** The Director of the Idaho Department of Water Resources or his duly authorized representatives. (3-20-20)T

**25. Disinfection.** The introduction of chlorine or other agent or process approved by the Director in sufficient concentration and for the time required to inactivate or kill fecal and Coliform bacteria, indicator organisms, and other potentially harmful pathogens. (3-20-20)T

**26. Draw Down.** The difference in vertical distance between the static water level and the pumping water level. (3-20-20)T

**27. Drive Point (also known as a Sand Point).** A conduit pipe or casing through which ground water of any temperature is sought or encountered created by joining a “drive point unit” to a length of pipe and driving the assembly into the ground. (3-20-20)T

**28. Exploratory Well.** A well drilled for the purpose of discovering or locating new resources in unproven areas. They are used to extract geological, hydrological, or geophysical information about an area. (3-20-20)T

**29. Global Positioning System (GPS).** A global navigational receiver unit and satellite system used to triangulate a geographic position. (3-20-20)T

**30. Hydraulic Conductivity.** A measurement of permeability. (3-20-20)T

**31. Hydraulic Fracturing.** A process whereby water or other fluid is pumped under high pressure into a well to further fracture the reservoir rock or aquifer surrounding the production zone of a well to increase well yield. (3-20-20)T

**32. Injection Well.** Any excavation or artificial opening into the ground which meets the following three (3) criteria: (3-20-20)T

- a. It is a bored, drilled or dug hole, or is a driven mine shaft or driven well point; and (3-20-20)T
- b. It is deeper than its largest straight-line surface dimension; and (3-20-20)T
- c. It is used for or intended to be used for subsurface placement of fluids. (3-20-20)T

- 33. Intermediate String or Casing.** The casing installed and sealed below the surface casing within a low temperature geothermal resource well to isolate undesirable water or zones below the bottom of the surface casing. Such strings may either be lapped into the surface casing or extend to land surface. (3-20-20)T
- 34. Liner.** (3-20-20)T
- a.** A conduit pipe that can be removed from the borehole or well that is used to serve as access and protective housing for pumping equipment and provide a pathway for the upward flow of water within the well. (3-20-20)T
- b.** Liner does not include casing required to prevent caving or collapse, or both, of the borehole or serve as a solid inner barrier to allow for the installation of an annular seal. (3-20-20)T
- 35. Mineralized Water.** Any naturally-occurring ground water that has an unusually high amount of chemical constituents dissolved within the water. Water with five thousand (5000) mg/L or greater total dissolved solids is considered mineralized. (3-20-20)T
- 36. Modify.** To deepen a well, increase or decrease the diameter of the casing or the well bore, install a liner, place a screen, perforate existing casing or liner, alter the seal between the casing and well bore, or alter the well to not meet well construction standards. (3-20-20)T
- 37. Monitoring Well.** Any well more than eighteen (18) feet in vertical depth constructed to evaluate, observe or determine the quality, quantity, temperature, pressure or other characteristics of the ground water or aquifer. (3-20-20)T
- 38. Neat Cement.** A mixture of water and cement in the ratio of not more than six (6) gallons of water to ninety-four (94) pounds of Portland cement (neat cement). Other cement grout mixes may be used if specifically approved by the Director. (3-20-20)T
- 39. Neat Cement Grout.** Up to five percent (5%) bentonite by dry weight may be added per sack of cement (neat cement grout) and the water increased to not more than six and one-half (6.5) gallons per sack of cement. Other neat cement mixes may be used if specifically approved by the Director. These grouts must be mixed and installed in accordance with the American Petroleum Institute Standards - API Class A through H. As found in API RP10B, "Recommended Practice for Testing Oil Well Cements and Cement Additives," current edition or other approved standards. (3-20-20)T
- 40. Oxidized Sediments.** Sediments, characterized by distinct coloration, typically shades of brown, red, or tan, caused by the alteration of certain minerals in an environment with a relative abundance of oxygen. (3-20-20)T
- 41. Perforated Well Casing.** Well casing that has been modified by the addition of openings created by drilling, torch cutting, saw cutting, mechanical down-hole perforator, or other method. (3-20-20)T
- 42. Pitless Adaptor or Pitless Unit.** An assembly of parts designed for attachment to a well casing which allows buried pipe to convey water from the well or pump and allows access to the interior of the well casing for installation or removal of the pump or pump appurtenances, while maintaining a water tight connection through the well casing and preventing contaminants from entering the well. (3-20-20)T
- 43. Potable Water.** Water of adequate quality for human consumption. (3-20-20)T
- 44. Pressure Grouting (Grouting).** The process of pumping and placing an approved grout mixture into the required annular space, by positive displacement from bottom to top using a tremie pipe, Halliburton method, float shoe, or other method approved by the Director. (3-20-20)T
- 45. Production Casing.** The casing or tubing through which a low temperature geothermal resource is produced. This string extends from the producing zone to land surface. (3-20-20)T

- 46. Public Water System.** A system for the provision to the public of water for human consumption through pipes or, after August 5, 1998, other constructed conveyances, if such system has at least fifteen (15) service connections, regardless of the number of water sources or configuration of the distribution system, or regularly serves an average of at least twenty-five (25) individuals daily at least sixty (60) days out of the year. Such term includes: (3-20-20)T
- a.** Any collection, treatment, storage, and distribution facilities under the control of the operator of such system and used primarily in connection with such system; and (3-20-20)T
  - b.** Any collection or pretreatment storage facilities not under such control that are used primarily in connection with such system. (3-20-20)T
  - c.** Such term does not include any “special irrigation district.” (3-20-20)T
  - d.** A public water system is either a “community water system” or a “non-community water system.” (3-20-20)T
- 47. Reduced Sediments.** Sediments, characterized by distinct coloration, typically shades of blue, black, gray, or green, caused by the alteration of certain minerals in an oxygen poor environment. (3-20-20)T
- 48. Remediation Well.** A well used to inject or withdraw fluids, vapor, or other solutions approved by the Director for the purposes of remediating, enhancing quality, or controlling potential or known contamination. Remediation wells include those used for air sparging, vapor extraction, or injection of chemicals for remediation or in-situ treatment of contaminated sites. (3-20-20)T
- 49. Sand.** Any sediment particle retained on a U.S. standard sieve #200 (Seventy-five hundredths (0.075) mm to two (2) mm). (3-20-20)T
- 50. Screen (Well Screen).** A commercially produced structural tubular retainer with standard sized openings to facilitate production of sand free water. (3-20-20)T
- 51. Seal or Sealing.** The placement of approved seal material in the required annular space between a borehole and casing, between casing strings, or as otherwise required to create a low permeability barrier and prevent movement or exchange of fluids. Seals are required in the construction of new wells, repair of existing wells, and in the decommissioning (abandonment) of wells. Seals are essential to the prevention of waste and contamination of ground water. (3-20-20)T
- 52. Start Card.** An expedited drilling permit process for the construction of cold water, single-family residential wells. (3-20-20)T
- 53. Static Water Level.** The height at which water will rise in a well under non-pumping conditions. (3-20-20)T
- 54. Surface Casing.** The first string of casing in a low temperature geothermal resource well which is set and sealed after the conductor pipe to anchor blow out prevention equipment and to case and seal out all existing cold ground water zones. (3-20-20)T
- 55. Temporary Surface Casing.** Steel pipe used to support the borehole within unstable or unconsolidated formations during construction of a well that will be removed following the installation of the permanent well casing and prior to or during placement of an annular seal. (3-20-20)T
- 56. Thermoplastic/PVC Casing.** Plastic piping material meeting the requirements of ASTM F 480 and specifically designed for use as well casing. (3-20-20)T
- 57. Transmissivity.** The capacity of an aquifer to transmit water through its entire saturated thickness. (3-20-20)T

**58. Tremie Pipe.** A small-diameter pipe used to convey grout, dry bentonite products, or filter pack materials into the annular space, borehole, or well from the bottom to the top of a borehole or well. (3-20-20)T

**59. Unconfined Aquifer.** An aquifer in which the water table is in contact with and influenced by atmospheric pressure through pore spaces in the overlying formation(s). (3-20-20)T

**60. Unconsolidated Formation.** A naturally-occurring earth formation that has not been lithified. Alluvium, soil, sand, gravel, clay, and overburden are some of the terms used to describe this type of formation. (3-20-20)T

**61. Unstable Unit.** Unconsolidated formations, and those portions of consolidated formations, that are not sufficiently hard or durable enough to sustain an open borehole without caving or producing obstructions without the aid of fluid hydraulics or other means of chemical or physical stabilization. (3-20-20)T

**62. Unusable Well.** Any well that can not be used for its intended purpose or other beneficial use authorized by law. (3-20-20)T

**63. Waiver.** Approval in writing by the Director of a written request from the well driller and the well owner proposing specific variance from the minimum well construction standards. (3-20-20)T

**64. Waste.** The loss, transfer, or subsurface exchange of a ground water resource, thermal characteristic, or natural artesian pressure from any aquifer caused by improper construction, misuse, or failure to properly maintain a well. Waste includes: (3-20-20)T

**a.** The flow of water from an aquifer into an unsaturated subsurface zone; (3-20-20)T

**b.** The transfer or mixing, or both, of waters from one aquifer to another (aquifer commingling); or (3-20-20)T

**c.** The release of ground water to the land surface whenever such release does not comply with an authorized beneficial use. (3-20-20)T

**65. Water Table.** The height at which water will rise in a well; also the upper surface of the zone of saturation in an unconfined aquifer. This level will change over time due to changes in water supply and aquifer impacts. (3-20-20)T

**66. Well.** (3-20-20)T

**a.** An artificial excavation or opening in the ground more than eighteen (18) feet in vertical depth below land surface by which ground water of any temperature is sought or obtained. The depth of a well is determined by measuring the maximum vertical distance between the land surface and the deepest portion of the well. Any water encountered in the well is considered to be obtained for the purpose of these rules; or (3-20-20)T

**b.** Any waste disposal and injection well, as defined in Section 42-3902, Idaho Code. (3-20-20)T

**c.** Well does not mean: (3-20-20)T

**i.** A hole drilled for mineral exploration; or (3-20-20)T

**ii.** Holes drilled for oil and gas exploration which are subject to the requirements of Section 47-320, Idaho Code; or (3-20-20)T

**iii.** Holes drilled for the purpose of collecting soil samples above the water table. (3-20-20)T

**67. Well Development.** The act of bailing, jetting, pumping, or surging water in a well to remove drilling fluids, fines, and suspended materials from within a completed well and production zone in order to establish

the optimal hydraulic connection between the well and the aquifer. (3-20-20)T

**68. Well Driller or Driller.** Any person who operates drilling equipment, or who controls or supervises the construction of a well, and is licensed under Section 42-238, Idaho Code (3-20-20)T

**69. Well Drilling or Drilling.** The act of constructing a new well or modifying or changing the construction of an existing well. (3-20-20)T

**70. Well Owner.** Any person, firm, partnership, co-partnership, corporation, association, or other entity, or any combination of these, who owns the property on which the well is or will be located or has secured ownership of the well by means of a deed, covenant, contract, easement, or other enforceable legal instrument for the purpose of benefiting from the well. (3-20-20)T

**71. Well Rig (Drill Rig).** Any power driven percussion, rotary, boring, digging, jetting or auguring machine used in the construction of a well. (3-20-20)T

**011. -- 024. (RESERVED)**

**025. CONSTRUCTION OF COLD WATER WELLS (RULE 25).**

All persons constructing wells must comply with the requirements of Section 42-238, Idaho Code, and IDAPA 37.03.10, "Well Driller Licensing Rules." The standards specified in Rule 25 apply to all wells with a bottom hole temperature of eighty-five (85) degrees Fahrenheit or less. Wells with a bottom hole temperature greater than eighty-five (85) degrees Fahrenheit, but less than two hundred twelve (212) degrees Fahrenheit, must meet the requirements of Rule 30 in addition to meeting the requirements of Rule 25. These standards also apply to any waste disposal and injection well as defined in Section 42-3902, Idaho Code. (3-20-20)T

**01. General.** The well driller must construct each well as follows: (3-20-20)T

**a.** In accordance with these rules and with the conditions of approval of any drilling permit issued pursuant Section 42-235, Idaho Code, and in a manner that will prevent waste and contamination of the ground water resources of the state of Idaho. The adopted standards are minimum standards which must be adhered to in the construction of all new wells, and in the modification or decommissioning (abandonment) of existing wells. The well driller is charged with the responsibility of preventing waste or contamination of the ground water resources during the construction, modification or abandonment of a well. The Director may add conditions of approval to a drilling permit issued pursuant to Rule 45 of these rules to require that a well be constructed, modified, or decommissioned (abandoned) in accordance with additional standards when necessary to protect ground water resources and the public health and safety from existing contamination and waste or contamination during the construction, modification or decommissioning (abandonment) of a well. (3-20-20)T

**b.** In consideration of the geologic and ground water conditions known to exist or anticipated at the well site. (3-20-20)T

**c.** Such that it is capable of producing, where obtainable, the quantity of water to support the allowed or approved beneficial use of the well, subject to law; (3-20-20)T

**d.** Meet the siting and separation distance requirements in the table in this Subsection (025.01.d.). Additional siting and separation distance requirements are set forth by the governing district health department and the Idaho Department of Environmental Quality rules at IDAPA 58.01.03, "Individual/Subsurface Sewage Disposal Rules," and IDAPA 58.01.08, "Idaho Rules for Public Drinking Water Systems".

Separation of Well from:	Minimum Separation Distance (feet)
Existing Public Water Supply well, separate ownership	- 50

Separation of Well from:	Minimum Separation Distance (feet)
Other existing well, separate ownership	- 25
Septic drain field	- 100
Septic tank	- 50
Drainfield of system with more than 2,500 GPD of sewage inflow	- 300*
Sewer line - main line or sub-main, pressurized, from multiple sources	- 100
Sewer line - main line or sub-main, gravity, from multiple sources	- 50
Sewer line - secondary, pressure tested, from a single residence or building	- 25
Effluent pipe	- 50
Property line	- 5
Permanent buildings, other than those to house the well or plumbing apparatus, or both	- 10
Above ground chemical storage tanks	- 20
Permanent (more than six months) or intermittent (more than two months) surface water	- 50
Canals, irrigation ditches or laterals, & other temporary (less than two months) surface water	- 25
*This distance may be less if data from a site investigation demonstrates compliance with IDAPA 58.01.03, "Individual/Subsurface Sewage Disposal Rules," separation distances.	

(3-20-20)T

**02. Waivers.** In unique cases where the Director concludes that the ground water resources will be protected against waste and contamination and the public health and safety are not compromised, a waiver of specific standards required by these rules may be approved prior to constructing, decommissioning, or modifying a well.

(3-20-20)T

**a.** To request a waiver the well driller and well owner must: (3-20-20)T

**i.** Jointly submit a detailed plan and written request identifying a specific Rule or Rules proposed to be waived. Additionally, the plan must detail the well construction process that will be employed in lieu of complete Rule compliance: (3-20-20)T

**ii.** Prior to submittal, the well driller and the well owner must sign the plan and written request acknowledging concurrence with the request; and (3-20-20)T

**iii.** Submit the plan and request by facsimile, e-mail, or letter. (3-20-20)T

**b.** The Director will evaluate and respond to the request within ten (10) business days of receiving the request. (3-20-20)T

**i.** If the request for waiver is approved, the intent of the rules will be served and all standards not waived will apply. Waivers approved by the Director will not supersede requirements of other regulatory agencies without specific concurrence from that agency. Work activity related to a waiver request will not proceed until a written or verbal approval is granted by the Director. (3-20-20)T

**ii.** Any verbal approval will be followed by a written approval. (3-20-20)T

**03. Records.** In order to enable a comprehensive survey of the extent and occurrence of the state’s ground water resource, the coordinates of every newly constructed, modified or decommissioned (abandoned) well location must be identified by latitude and longitude with a global positioning system (GPS) and recorded on the driller’s report in degrees and decimal minutes and within the nearest 40 acre parcel using the Public Land Survey System. Every well driller must maintain records as described in IDAPA 37.03.10 “Well Driller Licensing Rules,” pursuant to Section 42-238(11), Idaho Code, and provide the well owner with a copy of the approved well drilling permit and a copy of the well driller’s report when submitted to the Director. (3-20-20)T

**04. Casing.** The well driller must install casing in every well. Steel or thermoplastic casing may be installed in any well with a bottom hole temperature of eighty-five (85) degrees Fahrenheit or less. Thermoplastic pipe must not be installed in a well with a bottom hole temperature greater than eighty-five (85) degrees Fahrenheit. All casing to be installed must be new or in like-new condition, free of defects, and clearly marked by the manufacturer with all specifications required by these rules. For all wells the casing must extend at least twelve (12) inches above land surface and finished grade and to a minimum depth below land surface as required by these rules. Concrete slabs around a well casing will be considered finished grade (Figure 01, Appendix A).The well driller must install casing of sufficient strength to withstand calculated and anticipated subsurface forces and corrosive effects. The well driller must install casings sufficiently plumb and straight to allow the installation or removal of screens, liners, pumps and pump columns without causing adverse effects on the operation of the installed pumping equipment. (3-20-20)T

**a. Steel Casing.** When steel casing lengths are joined together, they must be joined by welded joints or screw-couple joints. All connection must be water tight. If steel casing joints are welded, the weld must be at least as thick as the well casing and fully penetrating. Welding rods or flux core wire of at least equal quality to the casing metal must be used. Casing ends to be joined by welding must be properly prepared, beveled and gapped to allow full penetration of the weld. All stick welded joints must have a minimum of two (2) passes including a “root” pass and have minimal undercut when complete. (3-20-20)T

**i.** In addition to meeting these standards, all wells that are constructed for public water systems must meet all of the casing wall thickness requirements set forth by the Idaho Department of Environmental Quality Rules, IDAPA 58.01.08, “Idaho Rules for Public Drinking Water Systems.” (3-20-20)T

**ii.** The well driller must install steel casing that meets or exceeds the American Society of Testing and Materials (ASTM) standard A53, Grade B or American Petroleum Institute (API) 5L Grade B, and that meets the following specifications for wall thickness:

<b>Minimum Single-Wall Steel Well Casing Thickness<sup>1</sup> for Selected Diameters (inches)</b>													
<b>Nominal Diameter (in.)<sup>3</sup></b>	<b>6<sup>2</sup></b>	<b>8</b>	<b>10</b>	<b>12</b>	<b>14</b>	<b>16</b>	<b>18</b>	<b>20</b>	<b>22</b>	<b>24</b>	<b>26</b>	<b>28</b>	<b>30</b>
<b>Depth (ft.)</b>	<b>Nominal Wall Thickness (in.)<sup>1</sup></b>

<p>1 Compliance with the minimum nominal wall thicknesses listed is required for any depth or location where casing is used to prevent caving or collapse, or both, of the borehole or serves as a solid inner barrier to allow for the installation of an annular seal.</p> <p>2 For nominal casing diameters less than six (6) inches, the minimum nominal wall thickness must be equivalent to ASTM Schedule 40.</p> <p>3 For any other casing diameter not addressed herein, prior approval by the Director is required.</p>													

(3-20-20)T

**b.** Thermoplastic Casing. Thermoplastic casing may be used in monitoring wells and cold water wells if drilling of the borehole confirms its suitability for use. (3-20-20)T

i. Thermoplastic casing must conform to ASTM F 480 and NSF-WC. The well driller must not use thermoplastic casing under any condition where the manufacturer's resistance to hydraulic collapse pressure (RHCP) or total depth specifications are exceeded. Thermoplastic casing extending above-ground must be protected from physical and ultraviolet light damage by enclosing it within steel casing extending at least twelve (12) inches above land surface and finished grade and to a minimum depth of eighteen (18) feet below land surface or five (5) feet below land surface for monitoring wells. (3-20-20)T

ii. Thermoplastic pipe used in wells as casing or liner must have a minimum rating of SDR-21. For nominal diameters of four (4) inches or less, a minimum rating of Schedule 40 is required. If used as casing within unconsolidated or unstable consolidated formations, thermoplastic pipe must be centralized and fully supported throughout the unstable zone(s) with filter pack or seal material as required by these rules. (3-20-20)T

iii. All thermoplastic casing and liner must be installed in accordance with the manufacturer's recommendations and specifications, and as required by these rules. The well driller will not treat thermoplastic pipe in any manner that would adversely affect its structural integrity. The well driller must: (3-20-20)T

(1) Ensure that the weight of the pump assembly, if secured to the thermoplastic pipe, does not exceed the weight limitations per manufacturer's recommendations or cause damage to the pipe resulting in breaks or leaks. (3-20-20)T

(2) Not use Type III (high-early strength) Portland cement-based seal materials in direct contact with thermoplastic pipe unless approved by the Director. (3-20-20)T

(3) Not drive, drop, force, or jack thermoplastic pipe into place. Thermoplastic pipe must be lowered or floated into an oversized, obstruction-free borehole. (3-20-20)T

**c.** Perforated Well Casing. Perforated well casing may be used in the construction or decommissioning of a well when such application does not violate any standards required by these rules. (3-20-20)T

**05 Liner.** In addition to well casing, liners may be installed in wells to prevent damage to pumping equipment. Steel or thermoplastic pipe may be installed as liner in a well with a bottom hole temperature of eighty-five (85) degrees Fahrenheit or less. Thermoplastic liner must conform to ASTM F 480 and NSF-WC. Thermoplastic liners must not be used in unconsolidated formations or unstable units. (3-20-20)T

**06. Screen.** Well screens must be used in constructing a well when necessary to avoid sand production (see sand production, Rule 25, Subsection 025.24). Well screens must be commercially manufactured, be slotted,

louvered or wire wrapped, and be installed according to the manufacturer's specifications. (3-20-20)T

**a.** Screens may require a filter pack consisting of sand or gravel to further reduce the quantity of sand produced from the well. (3-20-20)T

**b.** The well driller will not install well screens, perforated casing or filter pack across a confining layer(s) separating aquifers of different pressure, temperature, or quality. (3-20-20)T

**07. Use of Approved Sealing Materials and Required Annular Space.** Well casings must be sealed in the required annular space with approved material to prevent the possible downward movement of contaminated surface waters or other fluids in any annular space around the well casing (Figure 02, Appendix A). Proper sealing is also required to prevent the movement of groundwater either upward or downward from zones of different pressure, temperature or quality within the well or outside the casing. The well driller must notify by phone the Department's appropriate Region Office at least four (4) hours in advance of placing any annular seal to provide Department staff the opportunity to observe seal placement. (3-20-20)T

**a.** All casing to be sealed must be adequately centralized to ensure uniform seal thickness around the well casing. Surface seals must extend to not less than thirty-eight (38) feet below land surface for well depths greater than thirty-eight (38) feet. For well depths less than thirty-eight (38) feet, seals must extend to depths as hereafter required. (3-20-20)T

**b.** Seals are required at depths greater than thirty-eight (38) feet in artesian wells or to seal through confining layers separating aquifers of differing pressure, temperature, or quality in any well. (3-20-20)T

**c.** When a well is modified and the existing casing is moved or the original seal is damaged, or a well driller discovers that a seal was not installed or has been damaged, the well driller must repair, replace, or install a seal around the permanent casing that is equal to or better than required when the well was originally constructed. (3-20-20)T

**d.** Manufactured packers and shale traps may be used as devices to retain approved seal material when installing a required annular seal. Whenever these devices are used to retain seal material, the well driller must comply with the manufacturer's recommendations for installation. (3-20-20)T

**e.** If a temporary casing has been installed, upon completion of the drilling, the annular space must be filled with approved seal material and kept full while withdrawing the temporary casing. Bentonite chips should be used with caution when the annular space between a temporary casing and permanent casing is filled with water. (3-20-20)T

**i.** When attempts at removing a temporary casing are unsuccessful, the casing must be sealed in place by a method approved by the department. (3-20-20)T

**ii.** The well driller must notify the department whenever a temporary casing can not be removed and propose a plan to adequately seal the casing to prevent waste and contamination of the ground water. The plan must detail how the casing will be sealed on the outside to a sufficient depth below land surface in addition to placement of any required formation seals through the interval at which the casing will remain. (3-20-20)T

**f.** For mixed grout seals the minimum annular space required must provide for a uniform seal thickness not less than one (1) inch on all sides of the casing or a borehole at least two (2) inches larger than the outside diameter (OD) of the casing to be sealed (Figure 02, Appendix A). (Note: a seven and seven-eighths (7 7/8) inch diameter (eight (8) inch nominal) borehole around a six and five-eighths (6 5/8) inch OD (six (6) inch nominal casing does not satisfy the minimum annular space requirements). (3-20-20)T

**i.** When placing grout seals with a removable tremie pipe between casing strings or between a borehole and casing, the required annular space must be at least one (1) inch or equal to the OD of the tremie pipe whichever is greater. Permanent tremie pipes will be considered as a casing string and subject to minimum annular space requirements in addition to the annular space requirements around the well casing (Figure 03, Appendix A). (3-20-20)T

ii. All grout seals must be placed from the bottom up, by using an approved method. Bentonite grout must not be used above the water table unless specifically designed and manufactured for such use and approved by the Director in advance. (3-20-20)T

iii. If cement-based grout (neat cement or neat cement grout) is used to create a seal, the casing string sealed must not be moved or driven after the initial set. Construction must not resume for a minimum of twenty-four (24) hours following seal placement; (3-20-20)T

**g.** For dry bentonite seals the minimum annular space required must provide for a uniform seal thickness not less than one and five-eighths (1 5/8) inches on all sides of the casing or a borehole at least four (4) inches larger than the “nominal diameter” of the casing to be sealed. e.g., (six and five-eighths (6 5/8) inch OD (six (6) inch nominal) casing requires a ten and three fourths (10 3/4) inch OD (ten (10) inch nominal) temporary casing or a nine and seven-eighths (9 7/8) inch (ten (10) inch nominal) minimum borehole). Listed below are additional annular space requirements and limitations for placement of dry bentonite seals: (3-20-20)T

i. All dry bentonite seals must be tagged during placement and consider volumetric calculations to verify placement. (3-20-20)T

ii. Installation of dry bentonite seals must be consistent with the manufacturers’ recommendations and specifications for application and placement. (3-20-20)T

iii. Granular bentonite must not be placed through water. (3-20-20)T

iv. If a granular bentonite seal is placed deeper than two hundred (200) feet, the minimum annular space must be increased by at least one (1) inch e.g., (six and five-eighths (6 5/8) inch OD (six (6) inch nominal) casing requires a twelve and three fourths (12 3/4) inch OD (twelve (12) inch nominal) temporary casing or an eleven and seven eights (11 7/8) inch (twelve (12) inch nominal) minimum borehole). (3-20-20)T

v. Bentonite chips may be placed through water or drilling fluid of appropriate viscosity. Bentonite chip seals placed through more than fifty (50) feet of water or drilling fluid will require the minimum annular space to be increased by at least one (1) inch e.g., (six and five-eighths (6 5/8) inch OD (six (6) inch nominal) casing requires a twelve and three fourths (12 3/4) inch OD (twelve (12) inch nominal) temporary casing or an eleven and seven eights (11 7/8) inch (twelve (12) inch nominal) minimum borehole). (3-20-20)T

**08. Sealing of Wells.** Sealing requirements described herein are minimum standards that apply to all wells. The Director may establish alternate minimum sealing requirements in specific areas when it can be determined through detailed studies of the local hydrogeology that a specific alternate minimum will provide protection of the ground water from waste and contamination. (3-20-20)T

**a.** Consolidated Formations. When a water well is drilled into and acquires water from an aquifer that consists of consolidated formations that are above the water table, casing must be installed so that it extends and is sealed to a depth not less than thirty-eight (38) feet (Figure 04, Appendix A). If the well depth is less than thirty-eight (38) feet from land surface, well casing must be installed and sealed five (5) feet into the consolidated formation or to a depth of eighteen (18) feet, whichever is greater. (3-20-20)T

**b.** Unconsolidated Formations without Confining Layers of Clay. When a water well is drilled into and acquires water from an unconfined aquifer that is overlain with unconsolidated formations, such as sand and gravel without confining layers of clay, well casing must extend to at least five (5) feet below the water table and be sealed to a depth not less than thirty-eight (38) feet (Figure 05, Appendix A). If the well depth is less than thirty-eight (38) feet well casing must extend to at least five (5) feet below the water table or eighteen (18) feet, whichever is greater, and be sealed to a depth of at least eighteen (18) feet. (3-20-20)T

i. The extensive (for example, one hundred fifty (150) feet thick or more) unconsolidated, non-stratified, sand and gravel of the Rathdrum Prairie are characterized by extremely high transmissivity and hydraulic conductivity. Under these conditions, sealing wells to depths greater than eighteen (18) feet may not be additionally protective. When a water well is drilled within the boundaries of the Rathdrum Prairie, (shown in Figure 06,

Appendix A of these rules), well casing must extend to at least five (5) feet below the water table and be sealed to a depth not less than eighteen (18) feet (Figure 07, Appendix A). (3-20-20)T

**c.** Unconsolidated Formations with Confining Layers of Clay. When a well is drilled into and acquires water from an aquifer that is overlain by unconsolidated deposits such as sand and gravel, and there are confining layers of clay above the water table, well casing must be installed from the land surface to the confining layer immediately above and in contact with the production zone and sealed to a depth not less than thirty-eight (38) feet (Figure 08, Appendix A). If the well depth is less than thirty-eight (38) feet from land surface, well casing must extend and be sealed into the first confining layer or to a depth of eighteen (18) feet, whichever is greater. (3-20-20)T

**09. Sealing Artesian Wells.** (3-20-20)T

**a.** Unconsolidated Formations. When artesian water is encountered in unconsolidated formations, the production zone or open interval must be limited to zones of like pressure, temperature, and quality. Water encountered in oxidized sediments must not be comingled with water encountered in reduced sediments. Well casing must extend from land surface into the lower most confining layer above the production zone, and must be sealed: (3-20-20)T

i. From land surface to a depth of at least thirty-eight (38) feet; and (3-20-20)T

ii, Through all confining layer(s); and (3-20-20)T

(1) A minimum of five (5) feet of seal material must be placed into or through the lower most confining layer above the production zone (Figure 09, Appendix A); or (3-20-20)T

(2) Five (5) feet into or through the lowermost confining layer above the production zone and continuously to land surface (Figure 09, Appendix A). (3-20-20)T

iii. If the well depth is less than thirty-eight (38) feet, the well must be cased and sealed from land surface to the confining layer in direct contact with the production zone or to a depth of eighteen (18) feet, whichever is greater. (3-20-20)T

**b.** Consolidated Formations. When artesian water is encountered in a consolidated formation, well casing must be installed and sealed from land surface to a depth of at least thirty-eight (38) feet; and (3-20-20)T

i. If the consolidated formation is overlain by a permeable formation(s) and water will rise above the consolidated formation, well casing must extend and be sealed at least five (5) feet into the confining portion of the consolidated formation (Figure 10, Appendix A). (3-20-20)T

ii. If the well depth is less than thirty-eight (38) feet, the well must be cased and sealed from land surface five (5) feet into the confining consolidated formation or to a depth of eighteen (18) feet, whichever is greater. (3-20-20)T

**c.** Control Device. Pursuant to Section 42-1603, Idaho Code, if the well flows at land surface, it must be equipped with a control device approved by the Director, so that the flow can be completely stopped. If leaks occur around the well casing or adjacent to the well, the well must be completed with seals, casing or cement grout to eliminate the leakage. (3-20-20)T

i. Flowing artesian wells must be equipped with an approved pressure gage fitting that will allow access for measurement of shut-in pressure of a flowing well. All pressure gage fittings must include control valves such that the pressure gage can be removed without resulting in artesian flow from the well. (3-20-20)T

ii. The well driller must not move his well drilling rig from the site until all requirements have been satisfied. Some mixing of water may be allowed to develop an adequate water well; however, the mixing must be restricted to water zones of similar pressure, temperature and quality. The driller must take precautions to case and seal out zones which may lead to waste or contamination. (3-20-20)T

**10. Alternative Methods for Sealing Wells.** To accommodate for new technology, and in consideration of the wide variety of drilling equipment used to construct wells, other methods of sealing wells not specifically addressed in these rules may be allowed. The Director may consider specific proposals for alternative methods of sealing on a case by case basis. Director approval or acceptance of such procedures will not constitute a “waiver” of any requirements of these rules. In such cases, the well driller must provide sufficient information for the Director to determine that the full intent of the sealing requirements will be satisfied if an alternative method is employed. If it is determined that a specific alternate method will provide protection of the ground water from waste and contamination, the Director may issue a statement of acceptance qualifying the use and implementation of such methods. (3-20-20)T

**11. Injection Wells.** In addition to meeting the requirements of Rule 25 of these rules, the construction, modification, or decommissioning (abandonment) of all injection wells over eighteen (18) feet in vertical depth must also comply with the IDAPA 37.03.03, “Rules for the Construction and Use of Injection Wells,” and the injection well permit. Drillers must obtain from the Director a certified copy of the permit authorizing construction or modification of an injection well before beginning work. (3-20-20)T

**12. Cathodic Protection Wells.** All cathodic protection wells must be constructed by a licensed well driller in compliance with these rules. A detailed construction plan must be included with the drilling permit application. (3-20-20)T

**13. Monitoring and Remediation Wells.** All monitoring wells and remediation wells must be constructed and maintained in a manner that will prevent waste or contamination and as otherwise required by these rules. When a monitoring well or a remediation well is no longer useful or needed, the owner or operator of the well must decommission (abandon) the well in accordance with Rule 25, Subsection 025.16 of these rules. No person may divert ground water from a monitoring well or a remediation well for any purpose not authorized by the Director. The application for a permit for all monitoring wells and all remediation wells must include a design proposal prepared by a licensed engineer or registered geologist pursuant to Section 42-235, Idaho Code. Blanket permits for monitoring well and remediation well networks may be approved for site-specific monitoring and remediation programs. The designs and specification for monitoring wells and remediation wells must demonstrate that: (3-20-20)T

- a. The ground water resources are protected against waste and contamination; (3-20-20)T
- b. The well(s) will inject or withdraw only fluids, gases or solutions approved by the Director; (3-20-20)T
- c. The well(s) will be constructed so as to prevent aquifer commingling; and (3-20-20)T
- d. The well(s) will be properly decommissioned (abandoned) upon project completion and in accordance with these rules. (3-20-20)T

**14. Closed Loop Heat Exchange Wells.** The well driller must construct closed loop heat exchange wells consistent with these rules. The well driller is not required to install steel casing in such wells. When constructing a closed loop heat exchange well, the well driller must: (3-20-20)T

- a. Construct each borehole of sufficient size to provide the annular space required by these rules. (3-20-20)T
- b. Seal the annular space of each borehole with approved seal material in accordance with these rules; (3-20-20)T
- c. Install fluid-tight circulating pipe, composed of high-density polyethylene, grade PE3408, minimum cell classifications PE355434C or PE345434C conforming to ASTM Standard D3350, or other Director-approved pipe; (3-20-20)T
- d. Join pipe using thermal fusion techniques according to ASTM Standards D-3261 or D-2683. All personnel creating such system joints must be trained in the appropriate thermal fusion technologies; (3-20-20)T
- e. Use only propylene glycol, or other circulating fluid approved by the Director; (3-20-20)T

- f. Ensure that any other system additive is NSF approved and has prior approval from the Director; (3-20-20)T
- g. Pressure test each loop with potable water prior to grout installation; (3-20-20)T
- h. Pressure test the system with potable water prior to installation of the circulating fluid at one hundred percent (100%) of the designed system operating pressure for a minimum duration of twenty-four (24) hours; and (3-20-20)T
- i. Properly repair or decommission (abandon) all loops failing the test by pressure pumping approved seal material through the entire length of each failed loop. After grouting, loop ends must be fused together or capped. (3-20-20)T

**15. Access Port or Pressure Gage.** Upon completion of a well and before removal of the well rig from the site, the well must be equipped with an access port that will allow for measurement of the depth to water or an approved pressure gage fitting that will allow access for measurement of shut-in pressure of an artesian flowing well. All pressure gage fittings must include control valves such that the pressure gage can be removed. Approved access ports are illustrated in Figure 11, APPENDIX A, together with approved locations for pressure gage fittings. Air lines are not a satisfactory substitution for an access port. Nonflowing domestic and stock water wells that are to be equipped with a sanitary seal with a built-in access port are exempt from this requirement. (3-20-20)T

**16. Decommissioning (Abandoning) of Wells.** (3-20-20)T

a. The well owner is charged with maintaining and properly decommissioning (abandoning) a well in a manner that will prevent waste or contamination, or both, of the ground water. No person is allowed to decommission a well in Idaho without first obtaining a driller's license or receiving a waiver of the license requirement from the Director of the Department of Water Resources. Authorization is required from the Director prior to decommissioning any well. Upon decommissioning, the person who decommissioned the well must submit to the Director a report describing the procedure. (3-20-20)T

b. The Director may require decommissioning of a well in compliance with the provisions of these rules, if the well: (3-20-20)T

- i. Does not meet minimum well construction standards; (3-20-20)T
- ii. Meets the definition of an unusable well; (3-20-20)T
- iii. Poses a threat to human health and safety; (3-20-20)T
- iv. Is in violation of IDAPA 58.01.11, "Ground Water Quality Rule"; or (3-20-20)T
- v. Has no valid water right or other authorization acceptable to the Director for use of the well. (3-20-20)T

c. When required by the Director, decommissioning must be done in accordance with the following: (3-20-20)T

i. Cased wells and boreholes without a continuous seal from the top of the intakes or screen to the surface. The well driller must use one (1) of the following methods as applicable: (3-20-20)T

(1) The Director may require that well casing be perforated every five (5) feet from the bottom of the casing to within five (5) feet of the surface. Perforations made must be adequate to allow the free flow of seal material into any voids outside the well casing. There must be at least four equally spaced perforations per section circumference. Approved grout must be pressure pumped to fill any voids outside of the casing. A sufficient volume must be used to completely fill the well and annular space; or (3-20-20)T

- (2) Fill the borehole with approved seal material as the casing is being removed. (3-20-20)T
- ii. Cased wells and boreholes with full-depth seals. If the well is cased and sealed from the top of the screen or production zone to the land surface, the well must be completely filled with approved seal material. (3-20-20)T
- iii. Uncased wells must be completely filled with approved seal material. (3-20-20)T
- iv. Dry hole wells or wells from which the quantity of water to meet a beneficial use cannot be obtained must be decommissioned with cement grout, concrete or other approved seal material in accordance with these rules. (3-20-20)T

**17. Completion of a Well.** The Director will consider that every well is completed when the well drilling equipment has been removed, unless written notice has been given to the Director by the well driller that he intends to return and do additional work on the well within a specified period of time. Upon completion of the well, the well must meet all of the required standards. (3-20-20)T

**a.** Upon completion of drilling and prior to removal of well drilling equipment from a water well site, the top of the casing must be completely covered with: (3-20-20)T

i. A one-fourth inch (1/4") thick solid, new or like-new steel plate with a three-fourths inch (3/4) threaded and plugged access port, welded to and completely covering the casing (Figure 12, Appendix A); or (3-20-20)T

ii. A threaded cap, or a commercially manufactured watertight sanitary well cap (Figure 12, Appendix A); or (3-20-20)T

iii. A commercially manufactured water-tight, snorkel-vented or non-vented well cap on any well susceptible to submergence; or (3-20-20)T

iv. A control device approved by the Director per Section 42-1603, Idaho Code, on any well that flows at land surface (Figure 11, Appendix A). (3-20-20)T

**b.** Upon the completion of every well, the well driller must permanently affix the stainless steel well tag to the steel surface casing in a manner and location that maintains tag legibility. For closed loop heat exchange wells, the well driller must obtain approval for the well tag placement and method of attachment. The well driller must secure each tag by: (3-20-20)T

i. A full-length weld across the top and down each side of the tag; or (3-20-20)T

ii. Using one (1) stainless steel, closed-end domed rivet near each of the four (4) corners of the tag. (3-20-20)T

iii. Prior to welding or riveting, the tag must be pre-shaped to fit the casing such that both sides to be welded or riveted touch the casing and no gaps exist between the tag and casing. (3-20-20)T

**18. Pitless Adapters.** When a pitless adaptor is used (Figure 12, Appendix A), the adaptor should be of the type approved by the NSF International testing laboratory or the approval code adopted by the Pitless Adaptor Division of the Water Systems Council. The pitless adaptor, including the cap or cover, casing extension, and other attachments, must be so designed and constructed to be water tight and to prevent contamination of the potable water supply from external sources. If a permanent surface or outer casing is installed and is cut off or breached to install the pitless adapter on an inner well casing or liner, the space between the permanent outer casing and the liner or inner casing must be sealed. The well owner or person installing the pitless adaptor must then seal the excavation surrounding the pitless adaptor using an approved seal material. (3-20-20)T

**19. Pump Installation.** No person is allowed to install a pump into any well that would cause a violation of Rule 25, of these rules or other applicable rules or state law. (3-20-20)T

**20. Explosives.** Explosives used in well construction must never be detonated inside the required well casing. Approved explosive casing perforators may be exempted by the Director. (3-20-20)T

**21. Hydraulic Fracturing.** Hydraulic fracturing must be performed only by well drillers licensed in Idaho. The pressure must be transmitted through a drill string and must not be transmitted to the well casing. The driller must provide a report to the Director of the fracturing work which must include well location, fracturing depth, fracturing pressures and other data as requested by the Director. (3-20-20)T

**22. Drilling Fluids or Drilling Additives.** The well driller must use only potable water and drilling fluids or drilling additives that are manufactured for use in water wells, are NSF International, American Petroleum Institute (API), or ASTM/ANSI approved; and do not contain a concentration of any substance in excess of Primary Drinking Water Standards, as set forth in IDAPA 58.01.08, "Rules for Public Drinking Water Systems," according to manufacturer's specifications. The well driller may seek approval from the Director to use specific, non-certified products on a case-by-case basis. In addition, the well driller must ensure the containment of all drilling fluids and materials used or produced to the immediate drilling site, and will not dispose of such fluids or materials into any streams, canals, boreholes, wells, or other subsurface pathways. (3-20-20)T

**23. Disinfection and Decontamination.** Upon completion of a well, the driller is responsible for adding the appropriate amount of disinfecting chemical compound and distributing it throughout the well to achieve a uniform concentration for "in place" disinfection of the well. Chlorine compounds used in accordance with the table listed below will satisfy this requirement. Other methods may be used if approved by the Director in advance.

Amount of Chlorine Needed Per 100 Feet of Water in Well			
Casing Diameter (in.)	Gallons of water in casing per 100 ft. of water depth	Amount of 5.25% Sodium Hypochlorite (Unscented Laundry Bleach)	Amount of 65% Calcium Hypochlorite (Chlorine Granules)
6	147	2 ¼ cups	3 tbsp
8	261	4 cups	5 tbsp
10	408	6 ¼ cups	½ cup
12	588	9 cups	¾ cup
16	1044	1 gal	1 ¼ cup
Note: 1 gal = 4 qt = 8 pt = 16 cups; 1 cup = 16 tbsp			
Chlorine granules or tablets must be dissolved and placed into the well as a solution.			
If another concentration of hypochlorite solution is used, the following equation should be used for calculating amounts.			
$(\text{Volume of water in gallons}) \times (0.08) / \% \text{ Hypochlorite (e.g. } 50\% = 50) = \text{cups of hypochlorite}$			
Example: To treat 147 gallons of water using a 50% concentration of hypochlorite solution: $(147 \text{ gallons water}) \times (0.08) / 50 = .23$ (or approximately 1/4) cup of 50% Hypochlorite solution			

(3-20-20)T

**24. Sand Production.** The maximum sand content produced from a well after initial well development must not exceed fifteen (15) ppm. For the purpose of this rule, sand is considered to be any sediment particle retained on a U.S. standard sieve #200 (seventy-five hundredths (0.075) mm to two (2) mm). (3-20-20)T

**a.** When necessary to mitigate sand production the well driller must: (3-20-20)T

- i. Construct each well with properly sized casing, screen(s) or perforated intake(s); and (3-20-20)T
  - ii. Install properly sized filter pack(s); or (3-20-20)T
  - iii. Install pre-packed well screens; or (3-20-20)T
  - iv. Employ other methods approved by the Director. (3-20-20)T
- b.** The Director may grant a waiver exempting a well producing water that exceeds the maximum sand content only if the well driller has met the requirements of Rule 25, Subsection 025.24.a. (3-20-20)T
- c.** Sand production in public water system wells. Wells used in connection with a public water system have more stringent requirements. See IDAPA 58.01.08, "Idaho Rules for Public Water Systems." (3-20-20)T

**25. Well Development and Testing.** For each well the well driller must measure and record the static (non-pumping) water level and the pumping water level, and the production rate. The production rate will be determined by a pump, bailer, air-lift, or other industry approved test of sufficient duration to establish production from the well. For wells with no returns the driller must report no returns and the static water level. This information must be documented on the well driller's report. (3-20-20)T

**026. -- 029. (RESERVED)**

**030. CONSTRUCTION OF LOW TEMPERATURE GEOTHERMAL RESOURCE WELLS AND BONDING (RULE 30).**

**01. General.** Drillers constructing low temperature geothermal resource wells (bottom hole temperature more than eighty-five (85) degrees Fahrenheit and less than two hundred twelve (212) degrees Fahrenheit) must be qualified under the Well Driller Licensing Rules. All low temperature geothermal resource wells must be constructed in such a manner that the resource will be protected from waste due to lost artesian pressure and temperature. The owner or well driller is required to provide bottom hole temperature data, but the Director may make the final determination of bottom hole temperature, based upon information available to him. (3-20-20)T

**a.** All standards and guidelines for construction and decommissioning (abandonment) of cold water wells apply to low temperature geothermal resource wells except as modified by Rule 30, Subsections 030.03, 030.04, and 030.06. (3-20-20)T

**b.** A drilling prospectus must be submitted to and approved by the Director prior to the construction, modification, deepening or decommissioning (abandonment) of any low temperature geothermal resource well. The well owner and the well driller are responsible for the prospectus and subsequent well construction. (3-20-20)T

**02. Well Owner Bonding.** The owner of any low temperature geothermal resource well must file a surety bond or cash bond as required by Section 42-233, Idaho Code, with the Director in an amount not less than five thousand dollars (\$5,000) nor more than twenty thousand dollars (\$20,000) payable to the Director prior to constructing, modifying or deepening the well after July 1, 1987. The bond amount will be determined by the Director within the following guidelines. The bond will be kept in force for one (1) year following completion of the well or until released in writing by the Director, whichever occurs first. (3-20-20)T

**a.** Any well less than three-hundred (300) feet deep with a bottom hole temperature of less than one hundred twenty (120) degrees Fahrenheit and a shut-in pressure of less than ten (10) pounds per square inch gage (psig) at land surface must maintain a bond of five thousand dollars (\$5,000). (3-20-20)T

**b.** The owner of any well three hundred (300) feet to one thousand (1,000) feet deep with a bottom hole temperature of less than one hundred fifty (150) degrees Fahrenheit and a shut-in pressure of less than fifty (50) psig at land surface must maintain a bond of ten thousand dollars (\$10,000). (3-20-20)T

**c.** The owner of any low temperature geothermal resource well not covered by Rule 30, Subsections 030.02.a. and 030.02.b. must maintain a bond of twenty thousand dollars (\$20,000). (3-20-20)T

**d.** The Director may decrease or increase the bonds required if it is shown to his satisfaction that well construction or other conditions merit an increase or decrease. (3-20-20)T

**e.** The bond requirements of Section 42-233, Idaho Code, are applicable to wells authorized by water right permits or licenses having a priority date earlier than July 1, 1987, if the well authorized by the permit or license was not constructed prior to July 1, 1987 or if an existing well constructed within the terms of the permit or license is modified, deepened or enlarged on or after July 1, 1987. (3-20-20)T

**03. Casing.** Low temperature geothermal resource wells must be properly cased and sealed to protect from cooling by preventing intermingling with cold water aquifers. (3-20-20)T

**a.** Steel casing which meets or exceeds the minimum specifications for permanent steel casing of Rule 25, Subsection 025.04 must be installed in every well. The Director may require a more rigid standard for collapse and burst strength as depths or pressures may dictate. Every low temperature geothermal resource well which flows at land surface must have a minimum of forty (40) feet of conductor pipe set and cemented its entire length. (3-20-20)T

**b.** Casing must be installed from twelve (12) inches above land surface into the overlying confining strata of the thermal aquifer. The casing schedule may consist of several different casing strings (i.e. conductor pipe, surface casing, intermediate casing, production casing) which may all extend to land surface or may be overlapped and sealed or packed to prevent fluid migration out of the casing at any depth (Figure 13, Appendix A). (3-20-20)T

**i.** Low temperature geothermal resource wells less than one thousand (1,000) feet deep and which encounter a shut-in pressure of less than fifty (50) psig at land surface must have two (2) strings of casing set and cemented to land surface. Conductor pipe must be a minimum of forty (40) feet in length or ten percent (10%) of the total depth of the well whichever is greater. Surface casing must extend into the confining stratum overlying the aquifer. (3-20-20)T

**ii.** Low temperature geothermal resource wells one thousand (1,000) feet or more in depth or which will likely encounter a shut-in pressure of fifty (50) psig or more at land surface require prior approval of the drilling plan by the Director and must have three strings of casing cemented their total length to land surface. Conductor pipe must be a minimum length of forty (40) feet. Surface casing must be a minimum of two hundred (200) feet in length or ten percent (10%) of the total depth of the well, whichever is greater. Intermediate casing must extend into the confining stratum overlying the aquifer. (3-20-20)T

**c.** Subsection 030.03.b. may be waived if it can be demonstrated to the Director through the lithology, electrical logs, geophysical logs, injectivity tests or other data that formations encountered below the last casing string set, will neither accept nor yield fluids at anticipated pressure to the borehole. (3-20-20)T

**d.** A nominal borehole size of two (2) inches in diameter larger than the Outside Diameter (O.D.) of the casing or casing coupler (whichever is larger) must be drilled. All casing designations must be by O.D. and wall thickness and must be shown to meet a given specification of the American Petroleum Institute, the American Society for Testing and Materials, the American Water Works Association or the American National Standards Institute. The last string of casing set during drilling operations must, at the Director's option, be flanged and capable of mounting a valve or blow out prevention equipment to control flows at the surface before drilling resumes. (3-20-20)T

**04. Sealing of Casing.** All casing must be sealed its entire length with cement or a cement grout mixture unless waived by the Director. The seal material must be placed from the bottom of the casing to land surface either through the casing or tubing or by use of a tremie pipe. The cement or cement grout must be undisturbed for a minimum of twenty-four (24) hours or as needed to allow adequate curing. (3-20-20)T

**a.** A caliper log may be run for determining the volume of cement to be placed with an additional twenty-five (25%) percent on site ready for mixing. If a caliper log is not run, an additional one hundred (100%) percent of the calculated volume of cement must be on site ready for placement. (3-20-20)T

**b.** If there is no return of cement or cement grout at the surface after circulating all of the cement mixture on site, the Director will determine whether remedial work should be done to insure no migration of fluids

around the well bore. (3-20-20)T

c. The use of additives such as bentonite, accelerators, retarders, and lost circulation material must follow manufacturer's specifications. (3-20-20)T

**05. Blow Out Prevention Equipment.** The Director may require the installation of gate valves or annular blow out prevention equipment to prevent the uncontrolled blow out of drilling mud and geothermal fluid. (3-20-20)T

**06. Repair of Wells.** The well driller must submit a drilling prospectus to the Director for review and approval prior to the repair or modification of a low temperature geothermal resource well. (3-20-20)T

**07. Decommissioning (Abandoning) of Wells.** Proper decommissioning (abandonment) of any low temperature geothermal resource well requires the following: (3-20-20)T

a. All cement plugs must be pumped into the hole through drill pipe or tubing. (3-20-20)T

b. All open annuli must be completely filled with cement. (3-20-20)T

c. A cement plug at least one hundred (100) feet in vertical depth must be placed straddling (fifty (50) feet above and fifty (50) feet below) the zone where the casing or well bore meets the upper boundary of each ground water aquifer. (3-20-20)T

d. A minimum of one hundred (100) feet of cement must be placed straddling each drive shoe or guide shoe on all casing including the bottom of the conductor pipe. (3-20-20)T

e. A surface plug of either cement grout or concrete must be placed from at least fifty (50) feet below the top of the casing to the top of the casing. (3-20-20)T

f. A cement plug must extend at least fifty (50) feet above and fifty (50) feet below the top of any liner installed in the well. The Director may waive this rule upon a showing of good cause. (3-20-20)T

g. Other decommissioning (abandonment) procedures may be approved by the Director if the owner or operator can demonstrate that the low temperature geothermal resource, ground waters, and other natural resources will be protected. (3-20-20)T

h. Approval for decommissioning (abandonment) of any low temperature geothermal well must be in writing by the Director prior to the beginning of any decommissioning (abandonment) procedures. (3-20-20)T

**031. -- 034. (RESERVED)**

**035. HEALTH STANDARDS (RULE 35).**

**01. Public Water System Wells.** In addition to meeting these standards, all wells that are constructed for public supply of domestic water must meet all of the requirements set forth by the Idaho Department of Environmental Quality Rules, IDAPA 58.01.08, "Idaho Rules for Public Drinking Water Systems." (3-20-20)T

**02. Special Standards for Construction of Wells When Mineralized or Contaminated Water Is Encountered.** Any time in the construction of a well that mineralized or contaminated water is encountered, the well driller must take the appropriate steps necessary to prevent the poor quality waters from entering the well or moving up or down the annular space around the well casing. The method employed to case and seal out this water will be determined by the well driller, provided all other minimum standards are met. The well driller will take special precautions in the case of filter-packed wells to prevent water of inferior quality from moving vertically in the filter packed portions of the well. All actions taken will be clearly documented on the well driller's report. (3-20-20)T

**03. Distances From Contaminant Sources.** All water wells constructed for domestic use must comply with minimum distances from septic tanks, drain fields, drainfield replacement area and other siting

requirements as set forth in Rule 25, Subsection 025.01.d. (3-20-20)T

**036. OWNERS RESPONSIBILITIES FOR WELL USE AND MAINTENANCE (RULE 36).**

After a well is completed the well owner is responsible for water quality testing, properly maintaining the well, and reporting problems with a well to the Director. All wells must be capped, covered and sealed such that debris cannot enter the well, persons or animals cannot fall into the well, and water cannot enter the well around the outside of the casing. Pursuant to Section 42-1603, Idaho Code, the owner of any artesian well that will flow at land surface is required to apply to the Director for approval of a flow control device. (3-20-20)T

**01. Use.** The well owner must not operate any well in a manner that causes waste or contamination of the ground water resource. Failure to operate, maintain, knowingly allow the construction of any well in a manner that violates these rules, or failure to repair or properly decommission (abandon) any well as herein required will subject the well owner to civil penalties as provided by statute. (3-20-20)T

**02. Maintenance.** The well owner must: (3-20-20)T

**a.** Not allow modification to wells under their control without first obtaining an approved Idaho Department of Water Resources (IDWR) permit, pursuant to Section 42-235, Idaho Code; (3-20-20)T

**b.** Maintain the minimum casing height of twelve (12) inches above land surface and finished grade; (3-20-20)T

**c.** Maintain the appropriate well cap, and control device if required, according to these Rules; and (3-20-20)T

**d.** Not install or allow the installation of any well pump that would cause a violation of the sand production requirements in accordance with these Rules or allow the well to pump in excess of that allowed by a valid water right or domestic exemption. (3-20-20)T

**e.** Maintain the well to prevent waste or contamination of ground waters through leaky casings, pipes, fittings, valves, pumps, seals or through leakage around the outside of the casings, whether the leakage is above or below the land surface. Any person owning or controlling a non-compliant well must have the well repaired by a licensed well driller under a permit issued by the Director in accordance with these Rules. (3-20-20)T

**03. New Construction.** The well owner must not construct or allow construction of any permanent building, except for buildings to house a well or plumbing apparatus, or both, closer than ten (10) feet from an existing well. (3-20-20)T

**04. Maintain All Other Separation Distances.** The well owner must not construct or install, or allow the construction or installation of any object listed in a location closer than that allowed by the table of Rule 25, Subsection 025.01.d. (3-20-20)T

**05. Unusable Wells.** The well owner must have any unusable well repaired or decommissioned (abandoned) by a licensed well driller under a permit issued by the Director in accordance with these Rules. (3-20-20)T

**06. Wells Posing a Threat to Human Health and Safety or Causing Contamination of the Ground Water Resource.** The well owner must have any well shown to pose a threat to human health and safety or cause contamination of the ground water resource immediately repaired or decommissioned (abandoned) by a licensed well driller under a permit issued by the Director in accordance with these Rules. (3-20-20)T

**037. -- 039. (RESERVED)**

**040. AREAS OF DRILLING CONCERN (RULE 40).**

**01. General.** (3-20-20)T

**a.** The Director may designate an “area of drilling concern” to protect public health, or to prevent waste and contamination of ground or surface water, or both, because of factors such as aquifer pressure, vertical depth to the aquifer, warm or hot ground water, or contaminated ground or surface waters. (3-20-20)T

**b.** The designation of an area of drilling concern does not supersede or preclude designation of part or all of an area as a Critical Ground Water Area (Section 42-233a, Idaho Code), Ground Water Management Area (Section 42-233b, Idaho Code), or Geothermal Resource Area (Sections 42-4002 and 42-4003, Idaho Code). (3-20-20)T

**c.** The designation of an area of drilling concern can include certain aquifers or portions thereof while excluding others. The area of drilling concern may include low temperature geothermal resources while not including the shallower cold ground water systems. (3-20-20)T

**02. Bond Requirement. (3-20-20)T**

**a.** The minimum bond to be filed by the well driller with the Director for the construction or modification of any well in an area of drilling concern is ten thousand dollars (\$10,000) unless it can be shown to the satisfaction of the Director that a smaller bond is sufficient. (3-20-20)T

**b.** The Director may determine on a case-by-case basis if a larger bond is required based on the estimated cost to repair, complete or properly decommission (abandon) a well. (3-20-20)T

**03. Additional Requirements. (3-20-20)T**

**a.** A driller must demonstrate to the satisfaction of the Director that he has the experience and knowledge to adequately construct or decommission (abandon) a well which encounters warm water or pressurized aquifers. (3-20-20)T

**b.** A driller must demonstrate to the satisfaction of the Director that he has, or has immediate access to, specialized equipment or resources needed to adequately construct or decommission (abandon) a well. (3-20-20)T

**041. -- 044. (RESERVED)**

**045. DRILLING PERMIT REQUIREMENTS (RULE 45).**

**01. General Provisions. (3-20-20)T**

**a.** Drilling permits are required pursuant to Section 42-235, Idaho Code, prior to construction or modification of any well. (3-20-20)T

**b.** Drilling permits will not be issued for construction of a well which requires another separate approval from the department, such as a water right permit, transfer, amendment or injection well permit, until the other separate permitting requirements have been satisfied. (3-20-20)T

**c.** The Director may allow the use of a start card permit or give verbal approval to a well driller for the construction of cold water single family domestic wells. Start cards must be received by the Department at least two office hours prior to commencing construction of the well. (3-20-20)T

**d.** The Director may give verbal approval to a well driller for the construction of a well for which other permitting requirements have been met, provided that the driller or owner has filed the drilling permit application and appropriate fee. (3-20-20)T

**e.** The Director will not give a verbal approval or allow the use of a start card permit for wells constructed in a designated Area of Drilling Concern, Critical Ground Water Area, or Ground Water Management Area. (3-20-20)T

**f.** A well driller will not construct, drill or modify any well until a drilling permit has been issued, or

verbal approval granted. (3-20-20)T

**02. Effect of a Permit.** (3-20-20)T

**a.** A drilling permit authorizes the construction or modification of a well in compliance with these rules and the conditions of approval on the permit. (3-20-20)T

**b.** A drilling permit does not constitute a water right, injection well permit or other authorization which may be required, authorizing use of water from a well or discharge of fluids into a well. (3-20-20)T

**c.** A drilling permit may not be assigned from one owner to another or from one driller to another. (3-20-20)T

**d.** A drilling permit authorizes the construction of one (1) well, except for blanket monitoring well and blanket remediation well drilling permits. (3-20-20)T

**03. Exclusions.** For the purposes of these Rules, artificial openings and excavations that do not constitute a well and are not subject to the drilling permit requirements must be modified, constructed, or decommissioned (abandoned) in accordance with minimum well construction standards. The Director may require decommissioning (abandonment) of artificial openings and excavations constructed pursuant to Rule 45, Subsection 045.03 of these rules, when the use ceases or if the holes may contribute to waste or contamination of the ground water. The following types of artificial openings and excavations are not considered wells: (3-20-20)T

**a.** Artificial openings and excavations with total depth less than eighteen (18) feet. (3-20-20)T

**b.** Artificial openings and excavations for collecting soil or rock samples, determining geologic properties, or mineral exploration or extraction, including gravel pits. (3-20-20)T

**c.** Artificial openings and excavations for oil and gas exploration for which a permit has been issued pursuant to Section 47-320, Idaho Code. (3-20-20)T

**d.** Artificial openings and excavations constructed for de-watering building or dam foundation excavations. (3-20-20)T

**04. Converting an Artificial Openings or Excavations Not Constructed as a Well for Use as a Well.** Artificial openings and excavations that were not constructed as a well pursuant to a drilling permit, if subsequently converted to obtain water, monitor water quantity or quality, or to dispose of water or other fluids, must be reconstructed by a licensed driller in compliance with well construction standards and drilling permit requirements. (3-20-20)T

**05. Fees.** (3-20-20)T

**a.** Drilling permit fees are as prescribed by Section 42-235, Idaho Code. (3-20-20)T

**b.** The difference between the drilling permit fee required by Section 42-235 Idaho Code as applicable, must be paid when an existing well constructed on or after July 1, 1987, for which the lower drilling permit fee was paid, is authorized by the Director for a use which would require the larger drilling permit fee. (3-20-20)T

**046. -- 049. (RESERVED)**

**050. PENALTIES (RULE 50).**

A person owning or controlling a well that allows waste or contamination of the state's ground water resources or causes a well not to meet the construction standards provided in these Rules is subject to the civil penalties as provided by statute. A driller who violates the foregoing provisions of these well construction standards Rules is subject to enforcement action and the penalties as provided by Statute. (3-20-20)T

## 37.03.10 – WELL DRILLER LICENSING RULES

### 000. LEGAL AUTHORITY (RULE 0).

The Idaho Water Resource Board adopts these rules under the authority provided by Section 42-238, Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE (RULE 1).

01. **Title.** The title of this chapter is “Well Driller Licensing Rules.” (3-20-20)T

02. **Scope.** These rules establish the requirements and procedures for obtaining and renewing authorization to drill wells in the state of Idaho. The rules also establish the requirements and procedures for obtaining authorization to operate drilling equipment under the supervision of a licensed driller. The licensing rules are applicable to all individuals and companies drilling or contracting to drill wells. (3-20-20)T

### 002. OTHER AUTHORITIES REMAIN APPLICABLE (RULE 2).

Nothing in these rules limits the director’s authority to take alternative or additional actions relating to the licensing of well drillers and permitting of operators as provided by Idaho law. (3-20-20)T

### 003. -- 009. (RESERVED)

### 010. DEFINITIONS (RULE 10).

Unless the context otherwise requires, the following definitions govern these rules. (3-20-20)T

01. **Abandonment.** See Decommissioned Well. (3-20-20)T

02. **Adequate Supervision.** Inspection and observation of each drilling operation and the associated drilling site by the licensed driller that has responsible charge during the critical phases of drilling to assure compliance with well construction standards and drilling permit conditions. (3-20-20)T

03. **Applicant.** An individual that submits to the department a complete application for a license or operator’s permit or a company that submits a complete application for a license. (3-20-20)T

04. **Area of Drilling Concern.** An area designated by the director in accordance with Section 42-238, Idaho Code, within which special drilling procedures and equipment are needed to prevent waste or contamination of the ground water. (3-20-20)T

05. **Auxiliary Equipment.** Powered equipment, other than the drill rig, used for grouting, installing or advancing casing, welding casings and screens, and other tasks necessary for drilling a well. (3-20-20)T

06. **Board.** The Idaho Water Resource Board. (3-20-20)T

07. **Bond.** A cash or surety bond obtained by a licensed driller or company payable to the director to provide funding for abandonment or repair should the driller fail to comply with well construction standards, and to allow information to be collected concerning the drilling of the well if the driller fails to submit a timely, accurate driller’s report. (3-20-20)T

08. **Bottom Hole Temperature of an Existing or Proposed Well.** The temperature of the ground water encountered in the bottom of a well or borehole. (3-20-20)T

09. **Company.** A firm, co-partnership, corporation or association licensed in accordance with these rules to drill or contract to drill wells. (3-20-20)T

10. **Compliance History.** An applicant’s record of compliance with the laws and rules of Idaho and other states relating to drilling of wells. The record includes, but is not limited to, the applicant’s record of obtaining and complying with drilling permits; filing accurate and complete well driller’s reports on time; adhering to well construction standards and other rules relating to drilling; and the number, nature and resolution of violations of laws, rules and conditions on licenses, operator’s permits and drilling permits. (3-20-20)T

11. **Continuing Education.** Education or training pertinent to the drilling industry and the construction, modification or decommissioning of wells. (3-20-20)T

12. **Continuing Education Committee (CEC).** A committee whose purpose is to review and approve

- activities related to continuing education credit. (3-20-20)T
- 13. Credit Unit.** The unit of measurement for continuing education requirements. (3-20-20)T
- 14. Critical Phases of Drilling.** Drilling tasks that require the added experience of a licensed driller to assure completion of the well in accordance with the well construction standards and conditions of drilling permits. These tasks include, but are not limited to, placement of required casings and seals, testing of casings and seals, and resolving problems such as casing or joint failures, heaving formations, lost circulation, and encountering high pressure or high temperature water. (3-20-20)T
- 15. Decommissioned (Abandoned) Well.** Any well which has been permanently removed from service and filled or plugged in accordance with these rules so as to meet the intent of these rules. A properly decommissioned well will not: (3-20-20)T
- a.** Produce or accept fluids; (3-20-20)T
- b.** Serve as a conduit for the movement of contaminants inside or outside the well casing; or (3-20-20)T
- c.** Allow the movement of surface or ground water into unsaturated zones, into another aquifer, or between aquifers. (3-20-20)T
- 16. Department.** The Idaho Department of Water Resources. (3-20-20)T
- 17. Director.** The director of the Idaho Department of Water Resources or his duly authorized representative. (3-20-20)T
- 18. Drilling or Well Drilling.** The act of constructing a new well, or modifying, changing the construction, or decommissioning an existing well. (3-20-20)T
- 19. Drilling Permit.** Authorization by the department to drill a well as provided in Section 42-235, Idaho Code. (3-20-20)T
- 20. Drilling Site.** The location of the drill rig and immediate area where the drill rig and auxiliary equipment are set up to drill a well. (3-20-20)T
- 21. Global Positioning System (GPS).** A global navigational receiver unit and satellite system used to triangulate a geographic position. (3-20-20)T
- 22. License.** A certificate issued by the director to an individual or a company upon meeting the requirements of Section 42-238, Idaho Code, and these rules authorizing the drilling of wells permitted in accordance with Section 42-235, Idaho Code. (3-20-20)T
- 23. Licensed Driller.** An individual having a license to drill wells and is authorized and required to supervise operators in the state of Idaho. (3-20-20)T
- 24. Modify.** To deepen a well, increase or decrease the diameter of the casing or the well bore, install a liner, place a screen, perforate existing casing or liners, alter the seal between the casing and the well bore, or alter the well to not meet well construction standards. (3-20-20)T
- 25. Operator.** An individual holding either a class I or class II operator's permit issued in accordance with these rules. (3-20-20)T
- 26. Operator's Permit.** A certificate issued by the director upon meeting the requirements of Section 42-238, Idaho Code, and these rules allowing the holder to operate a drill rig as provided in these rules. (3-20-20)T
- 27. Principal Driller.** A licensed driller in responsible charge of a company's drilling activities, which

has been designated the principal driller by the company with the department. (3-20-20)T

**28. Responsible Charge.** The responsibility for direction and control of a drilling operation to meet the requirements of these rules including, but not limited to, the following activities: (3-20-20)T

- a. Contracting to drill a well; (3-20-20)T
- b. Coordinate with property owner to locate a well to comply with applicable well construction standards; (3-20-20)T
- c. Setting up drilling equipment at the drilling site; (3-20-20)T
- d. Drilling operations; and (3-20-20)T
- e. Testing the adequacy of casing and seal; (3-20-20)T
- f. Properly completing the well. (3-20-20)T

**29. Start Card.** An expedited drilling permit process for the construction of cold water Single Family residential wells. (3-20-20)T

**30. Well.** An artificial excavation or opening in the ground more than eighteen (18) feet in vertical depth below land surface by which ground water of any temperature is sought or obtained. The depth of a well is determined by measuring the maximum vertical distance between the land surface and the deepest portion of the well. Any water encountered in the well is considered to be obtained for the purpose of these rules. Well also means any waste disposal and injection well as defined by Section 42-3902, Idaho Code. (3-20-20)T

**31. Well Construction Standards.** IDAPA 37.03.09, "Well Construction Standards Rules," adopted by the board. (3-20-20)T

**32. Well Driller's Report or Driller's Report.** A report required by Section 42-238, Idaho Code, describing drilling of the well and supplying information required on forms provided by the department. (3-20-20)T

**33. Well Log.** A diary maintained at the drilling site consistent with Section 42-238, Idaho Code. (3-20-20)T

**34. Well Rig or Drill Rig.** Any power-driven percussion, rotary, boring, digging, jetting, or augering machine used in the drilling of a well. (3-20-20)T

**011. -- 019. (RESERVED)**

**020. APPLICABILITY OF LICENSING REQUIREMENTS (RULE 20).**

**01. Licensing Requirements.** A well shall only be drilled by or under the responsible charge of a licensed driller except that a property owner, who is not licensed, can construct a well on his property for his own use without the aid of power-driven mechanical equipment. (3-20-20)T

**02. Driller to Have Responsible Charge of Other Workers.** A licensed driller shall have responsible charge of all others engaged in a well drilling operation. (3-20-20)T

**03. Operators to Have Permits.** An individual assisting a licensed driller whose duties include operation of a drill rig or auxiliary equipment shall possess an operator's permit as provided in these rules. If the driller is not present at the well site at all times that drilling operations are being conducted, one or more of those operating the equipment in the driller's absence shall have a class II operator's permit. The driller shall provide adequate supervision of class II operators. An individual having a class I operator permit shall be supervised by a licensed driller or a class II operator at all times when operating the drill rig or auxiliary equipment. (3-20-20)T

**04. Laborer Exempted.** An individual whose duties at the drilling site do not include operation of the

drill rig or auxiliary equipment at any time is not required to have either a driller's license or an operator's permit. (3-20-20)T

**05. Company to be Licensed.** No company shall drill or contract to drill a well or wells unless the company has been issued a license and has employed a principal driller as described in accordance with these rules. (3-20-20)T

**06. Drillers to Decommission (Abandon) Wells.** Only licensed drillers may decommission (abandon) wells, except that wells may be decommissioned (abandoned) by the owner after receiving a specific waiver from the Director. (3-20-20)T

**021. CONSTRUCTION AND USE OF HOLES THAT ARE NOT WELLS (RULE 21).**

**01. When a License Is Not Required.** A person drilling a hole that does not meet the definition of a well does not need a driller's license or operator's permit. (3-20-20)T

**02. Holes Not Defined as Wells.** The following list describes the types of holes that are not wells for purposes of these rules: (3-20-20)T

**a.** Holes with total depth less than eighteen (18) feet. (3-20-20)T

**b.** Holes for collecting soil or rock samples, determining geologic properties, or mineral exploration or extraction, including gravel pits. (3-20-20)T

**c.** Holes for oil and gas exploration for which a permit has been issued pursuant to Section 47-320, Idaho Code. (3-20-20)T

**d.** Holes for constructing building foundations or de-watering building or dam foundation excavations. (3-20-20)T

**e.** Holes for the installation of standpipes or piezometers to monitor the saturation of dam embankments or foundations or to measure uplift forces on buildings, dams and other structures. (3-20-20)T

**03. Converting a Hole Not Constructed as a Well for Use as a Well.** A hole that was not constructed as a well by or under the responsible charge of a driller, if subsequently converted to obtain water, to monitor water quantity or quality, or to dispose of water or other fluids, shall be reconstructed by a driller to comply with well construction standards and drilling permit conditions. The owner shall obtain a drilling permit, a water right or other approval if needed, and have the hole inspected and modified by a licensed driller as necessary to meet well construction standards. The driller shall file a driller's report for the well. (3-20-20)T

**022. -- 029. (RESERVED)**

**030. OBTAINING A LICENSE FOR AN INDIVIDUAL DRILLER (RULE 30).**

**01. Application Requirements.** An individual desiring a license shall file with the department a completed application on a form provided by the department accompanied by the following: (3-20-20)T

**a.** The application fee required by Section 42-238, Idaho Code. (3-20-20)T

**b.** Written documentation of drilling experience, compliance history, and the names and addresses of three (3) references to confirm the applicant's drilling experience. (3-20-20)T

**c.** A list of all drill rigs used by or under the responsible charge of the applicant providing the make, model, and type. (3-20-20)T

**d.** The names and addresses of all licensed drillers and permitted operators that will work under the responsible charge of the applicant. (3-20-20)T

**02. Experience Requirements.** (3-20-20)T

**a.** An applicant shall have a minimum of twenty-four (24) months of drilling experience. An applicant will be credited with one (1) month of drilling experience for each one hundred sixty (160) hours of employment as a driller or operator, or the equivalent, as determined by the director. Experience drilling monitoring wells, geothermal wells or other cased wells will be credited as experience by the Director if the equipment and drilling methods are applicable to water well construction. (3-20-20)T

**b.** An applicant for driller's license shall submit evidence to establish that the applicant, as an operator or driller, has successfully constructed a sufficient number of wells within the preceding twenty-four (24) months to demonstrate competency. Evidence of this experience can be demonstrated by the submission of driller's reports bearing the applicant's signature, well reports upon which the driller having responsible charge attests that the applicant drilled the wells or other documentation acceptable to the director. (3-20-20)T

**c.** Twelve (12) of the twenty-four (24) months drilling experience must have occurred within the five (5) year period immediately preceding the filing of the application. (3-20-20)T

**d.** Successful completion of classroom study in geology, well drilling, map reading, and other related subjects may be substituted for up to, but not exceeding, twelve (12) months of drilling experience. The director will determine the number of months of classroom study, up to twelve (12), to be credited as experience. (3-20-20)T

**03. Examination.** An applicant determined by the director to have adequate experience and an acceptable compliance history, as confirmed by references acceptable to the director, is eligible to take a written examination. The examination may include separate sections and shall test the applicant's knowledge of the following: (3-20-20)T

**a.** Idaho statutes and rules relating to appropriation and use of ground water, well drilling, construction and use of injection wells and geothermal wells, and well driller licensing under the provisions of Title 42, Idaho Code. (3-20-20)T

**b.** Land description by government lot, quarter-quarter, section, township and range, and the use of portable GPS units. (3-20-20)T

**c.** Geologic material identification including the use of correct terminology in describing the geologic material. (3-20-20)T

**d.** Well construction principles relating to the proper design, construction, development, and abandonment of wells. (3-20-20)T

**e.** The occurrence, nature, and movement of ground water. (3-20-20)T

**f.** The use of various types of drill rigs and auxiliary equipment. (3-20-20)T

**031. OBTAINING A LICENSE FOR A COMPANY (RULE 31).**

**01. Application Requirements.** A company shall file with the department a complete application for a company license upon a form provided by the department to be accompanied by the following: (3-20-20)T

**a.** The names and addresses of three (3) persons not affiliated with the company, whom the department can contact for information regarding the company's past well drilling operations, if any, and related business activities. (3-20-20)T

**b.** A complete record of the compliance history of the company and the owners and employees of the company. (3-20-20)T

**c.** Designation of a principal driller who shall be a full time employee of the company and shall drill wells only for the company. A licensed driller who renders only occasional, part-time or consulting drilling services

to or for a company may not be designated as the principal driller. (3-20-20)T

**d.** The names and addresses of drillers and operators presently employed. (3-20-20)T

**e.** A list of all drill rigs and other related equipment owned or used by the company providing the make, model, and type. (3-20-20)T

**02. Application Processing.** Applications received under this rule will be processed in accordance with Rule 33. (3-20-20)T

**032. OBTAINING AN OPERATOR'S PERMIT (RULE 32).**

**01. Application for Class I Operator's Permit.** A licensed driller or company proposing to employ a class I operator shall submit a completed application on a form provided by the director. The application shall: (3-20-20)T

**a.** Be accompanied by the fee required by Section 42-238, Idaho Code. (3-20-20)T

**b.** Be signed by the individual seeking the operator's permit and the licensed driller or principal driller of the company proposing to employ the operator. (3-20-20)T

**02. Application for Class II Operator's Permit.** A licensed driller or company proposing to employ an individual who does not currently hold a class II operator's permit shall submit the following: (3-20-20)T

**a.** A completed application on a form provided by the department. (3-20-20)T

**b.** The fee required by Section 42-238, Idaho Code. No fee is required if the applicant is presently permitted as a class I operator, but the expiration date of the permit when converted to a class II operator's permit will remain as originally issued. (3-20-20)T

**c.** Documentation that the operator has successfully constructed a sufficient number of wells, or has constructed wells for a sufficient length of time, or a combination of both to demonstrate competency. (3-20-20)T

**03. Written Examination.** An examination is not required for a class I operator's permit. An otherwise qualified applicant for a class II operator's permit shall obtain a satisfactory score on an examination as provided in Rule 34. The examination may be comprised of separate sections and shall test the applicant's knowledge of the following: (3-20-20)T

**a.** Idaho statutes and rules relating to appropriation and use of ground water, well drilling, construction and use of injection wells and geothermal wells, and well driller licensing under the provisions of Title 42, Idaho Code. (3-20-20)T

**b.** Land description by government lot, quarter-quarter, section, township, and range, and the use of portable GPS units. (3-20-20)T

**c.** Geologic material identification including the use of correct terminology in describing geologic material. (3-20-20)T

**d.** Well drilling principles relating to proper design, construction, development, and abandonment of wells. (3-20-20)T

**e.** The occurrence, nature, and movement of ground water. (3-20-20)T

**04. Operator Drills Only for Licensed Driller or Company.** An operator shall only drill for the licensed driller or company approved by the director. If an operator changes employment to another licensed driller or company, an application for an operator's permit shall be filed as provided in this rule. (3-20-20)T

**05. Processing an Application for Operator's Permit.** The department will process an application for operator's permit in accordance with Rule 33. (3-20-20)T

**033. PROCESSING APPLICATION FOR A DRILLER'S LICENSE OR OPERATOR'S PERMIT (RULE 33).**

**01. Incomplete Application.** If an application is incomplete, not properly signed, or does not include the information required by these rules, the department will advise the applicant in writing of the deficiency. If the deficiencies are not satisfied within ninety (90) days of sending the notice of the deficiency, the application will be void. The application fee is not refundable. (3-20-20)T

**02. Issuance of License.** If the director, upon review of the application, determines that an applicant for license is qualified and the driller has subsequently taken and passed an examination, a notice will be sent to the applicant requesting a bond in an amount determined in accordance with Rule 60 be filed with the department. Upon receipt of a satisfactory bond, the director will issue a license to the applicant. (3-20-20)T

**03. Issuance of Operator's Permits.** If the director determines that an applicant is qualified and has passed an examination, if required, the department will mail a notice and operator's permit card to the principal driller on behalf of the applicant. (3-20-20)T

**04. Driller's License or Operator's Permit Issued With Conditions or Denial of License or Operator's Permit.** The Director may issue a license or operator's permit with specific conditions or limitations based on the applicant's experience and compliance history. The Director may refuse to issue or renew a driller's license permanently or for a designated period of time if the driller has previously constructed wells improperly or constructed a well without a valid driller's license. If the Director determines that the applicant is not qualified, the Director will deny the application. Notice of a denied application or a conditioned license or operator's permit will be given to the applicant in accordance with IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources." (3-20-20)T

**034. EXAMINATION PROCEDURES (RULE 34).**

**01. Written Examination.** Written examinations will be offered at department offices on the first Monday of each quarter. If the first Monday is a legal holiday, written examination will be offered on the first Tuesday. Re-examination may be taken at a regularly scheduled examination date during a following quarter and shall be scheduled with the department office originally testing the applicant. (3-20-20)T

**02. Oral Examination.** Successful passage of an oral examination may satisfy all or a part of the written testing requirements under the following circumstances: (3-20-20)T

**a.** The applicant requests an oral rather than a written examination and shows cause acceptable to the director why the examination should be oral rather than written. Applicants desiring to take the examination orally shall request that an oral examination be scheduled allowing at least fifteen (15) days to set an examination date. (3-20-20)T

**b.** The director determines that because of the applicant's compliance history, additional testing is needed to determine the applicant's qualifications. (3-20-20)T

**03. Examination Scoring.** The applicant shall pass each section of the examination with a score of seventy percent (70%) or higher. (3-20-20)T

**04. Assistance Must Be Authorized.** The use of written materials, equipment or other individuals to assist an applicant during an examination is prohibited unless specifically authorized by the department. An applicant receiving unauthorized assistance during an examination may be disqualified and the application may be rejected. An application filed by a disqualified applicant will not be processed for a period of up to one (1) year from the time of disqualification. (3-20-20)T

**035. EXPIRATION AND RENEWAL OF LICENSE (RULE 35).**

**01. Expiration of Licenses.** All licenses expire at the end of the licensing period for which they are issued. The licensing period begins April 1 and ends March 31 of the second year following issuance. (3-20-20)T

**02. Renewal Application.** A license may be renewed by submitting a license renewal application including the following: (3-20-20)T

**a.** A completed application on a form provided by the department. An application to renew a license for an individual licensed driller shall be signed by the individual and an application to renew a license for a company shall be signed by the principal driller. (3-20-20)T

**b.** The renewal fee required by Section 42-238, Idaho Code. (3-20-20)T

**c.** A new bond or continuation certificate for an existing bond covering the licensed driller or company. (3-20-20)T

**d.** If the application is for renewal of a license held by an individual, the application shall include verification that the applicant has obtained the required continuing education credits. (3-20-20)T

**03. Continuing Education Requirements.** Fourteen (14) credit units are required for renewal of a license for an individual for any licensing period beginning on or after April 1, 2011. (3-20-20)T

**04. Welding Competency.** A driller that has been issued a Notice of Violation for welding that does not comply with the well construction standards may be required to obtain a certificate of welding competency from the American Welding Society or similar organization. (3-20-20)T

**036. EXPIRATION AND RENEWAL OF AN OPERATOR'S PERMIT (RULE 36).**

**01. Expiration of Operator's Permits.** Class I and class II operator's permits shall expire on March 31 of the same year that the license of the licensed driller and company employing the operator expires. (3-20-20)T

**02. Renewal Application.** An operator's permit may be renewed by submitting to the department an application for renewal including the following: (3-20-20)T

**a.** A completed application on a form provided by the department. The operator seeking renewal and the driller under whose responsible charge the operator works shall sign the form. (3-20-20)T

**b.** The renewal fee required by Section 42-238, Idaho Code. (3-20-20)T

**c.** For renewal of a class II operator's permit, verification of the required continuing education credit units. (3-20-20)T

**03. Continuing Education Required for Renewals.** Fourteen (14) credit units are required for renewal of a class II operator's permit for a licensing period beginning on or after April 1, 2011. (3-20-20)T

**04. Welding Competency.** An operator's work that has resulted in a Notice of Violation for welding that does not comply with the Well Construction Standards may be required to obtain a certificate of welding competency from the American Welding Society or similar organization. (3-20-20)T

**037. PROCESSING APPLICATION TO RENEW LICENSE OR OPERATOR'S PERMIT (RULE 37).**

**01. Processing Applications for Renewal.** Applications for renewal will be processed in the order received by the department. The department shall receive a complete application for renewal no later than March 15 to assure that the license or operator's permit will remain in force without interruption. If the director determines that the application is complete and the applicant is qualified, the license or operator's permit will be renewed for the period ending on March 31 of the second year after approval of the renewal. (3-20-20)T

**02. Regulatory Compliance Required for Renewals.** A license or operator's permit will not be

renewed if the applicant has not submitted all required driller's reports, applications for drilling permits, fees, agreed civil penalties, has not complied with all orders requiring repair or abandonment of improperly constructed wells or is not otherwise in compliance with Sections 42-235 and 42-238, Idaho Code, and the applicable rules. (3-20-20)T

**03. Compliance History.** If the Director determines that the applicant has exhibited an unacceptable compliance history, the Director may deny renewal, refuse renewal for a specified time, or renew with conditions, including but not limited to an increased bond amount. (3-20-20)T

**04. Renewal of Expired Licenses or Operator's Permits.** A license or an operator's permit which has expired or otherwise not been in effect for a period not exceeding three (3) years shall be renewed in accordance with the requirements of Rule 35 or Rule 36 as appropriate. An applicant for renewal shall provide verification of earned credit units required for the entire period since the license or class II operator's permit was last issued. If a license or operator's permit has been expired or otherwise not effective for a period of more than three (3) years, an application for a new license shall be submitted in accordance with Rule 30 for an individual license, Rule 31 for a company or Rule 32 for an operator's permit. The director may waive the examination requirement if the applicant has been previously licensed or permitted in the state of Idaho. (3-20-20)T

**05. Reuse of Identification Numbers.** The identification number assigned to a license by the department will not be reused if the license has been expired or otherwise not in effect for three (3) years or more except, at the director's discretion, the number may be reissued to the original owner. (3-20-20)T

**06. Condition or Denial of an Application for Renewal.** If the Director determines that the applicant has not or cannot fully comply with these rules, a license or operator's permit may be issued with conditions. If the Director determines that the applicant is not qualified, the Director will deny the application. When there are documented violations of well drilling laws and/or rules, including well construction standards, the Director may consult with the Driller's Advisory Committee, created in accordance with Rule 80, prior to making a decision to issue a conditional license or operator's permit or to deny an application based on the applicant's compliance history. Notice of a denied application or a conditioned license will be given as provided in IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources." (3-20-20)T

**038. -- 049. (RESERVED)**

**050. DUTIES AND RESPONSIBILITIES OF DRILLERS, COMPANIES AND OPERATORS (RULE 50).**

**01. Licensed Drillers and Principal Drillers.** All licensed drillers and principal drillers shall: (3-20-20)T

**a.** Allow drilling only by those authorized by and under the supervision required by these rules and according to any conditions of the license or permit. (3-20-20)T

**b.** Complete each well in compliance with IDAPA 37.03.09, "Well Construction Standards Rules," and drilling permit conditions. (3-20-20)T

**c.** Have a valid cash or surety bond in effect, as defined in Rule 60. (3-20-20)T

**d.** Have the license number displayed in a conspicuous place on the drill rig using a metal identification plate provided by the department or other permanent marking approved by the director. The displayed license number shall represent the company or individual driller license under which the well is being drilled. One plate will be issued upon initial licensure with replacement and additional plates available for a fee. (3-20-20)T

**e.** Keep current the department's list of operators and drillers employed by the licensed driller or company, including current addresses for the company, drillers, and operators. The licensed driller or principal driller shall be held responsible for all drilling activity of a driller or operator under their supervision until such notification has been submitted in writing to the department that the driller or operator is no longer employed by the licensed driller or company. (3-20-20)T

**f.** Have at the drilling site the driller's license and drilling permit or other written authorization from

the director to drill the well. (3-20-20)T

**g.** Only drill wells in contaminated areas identified by the department or in areas of drilling concern so designated by the department with specific written authorization of the director. Verbal authorizations to drill and pre-approved drilling permits (start cards) do not authorize drilling in these areas. (3-20-20)T

**h.** Only drill a public drinking water supply well, as defined in IDAPA 58.01.08, "Idaho Rules for Public Drinking Water Systems," low temperature geothermal resource or geothermal resource well with specific written authorization from the director. Verbal authorizations and start card permits (start cards) are not authorized for these uses. (3-20-20)T

**i.** Monitor and record bottom-hole temperature in areas where low temperature geothermal resources are known or suspected or when the well is being constructed pursuant to IDAPA 37.03.09, Rule 30, as a low temperature geothermal resource well. Bottom-hole temperature of every well being constructed pursuant to IDAPA 37.03.09, Rule 30, must be measured, recorded, and reported on the well drillers report. (3-20-20)T

**j.** Maintain a daily well log at the drilling site acceptable to the department and as required by Section 42-238(11), Idaho Code. Pertinent data required to be recorded on the daily log must include information sufficient to complete a well drillers report acceptable to the Director. The driller shall retain the well log for at least one (1) year after the driller's report is submitted to the department. (3-20-20)T

**k.** Submit driller's reports, acceptable to the Director, on forms approved by the department within thirty (30) days following removal of the drill rig from the drilling site at completion of the well. Driller's reports shall be prepared from information recorded on the daily well log. Driller's reports returned to the driller due to deficiencies must be corrected and returned to the department within thirty (30) days of mailing by the department. (3-20-20)T

**l.** Attach a well tag supplied by the department to every well drilled for which a drilling permit is required. The tag shall be affixed permanently to the casing, or other permanent object attached to the well, by a method approved by the Director prior to removing the well rig from the drilling site. (3-20-20)T

**m.** Cause all drilling activity under the supervision of the driller to cease when the driller's license expires, becomes invalid, or is suspended or revoked. (3-20-20)T

**02. Companies.** Companies shall: (3-20-20)T

**a.** Have a principal driller designated with the department at all times. (3-20-20)T

**b.** Notify the department within ten (10) days of the principal driller leaving employment with the company. The company's license shall immediately become void and of no effect when the principal driller leaves employment with the company and shall remain so until the department has been notified in writing that a new principal driller has been employed and designated by the company. Failure to designate a principal driller within ninety (90) days of the departure of the designated principal driller is cause for the director to take action to cancel the company's license. (3-20-20)T

**c.** Maintain a bond in force at all time as required in Rule 60. (3-20-20)T

**03. Operators.** Operators shall: (3-20-20)T

**a.** Have in their possession a valid operator's permit while drilling wells. (3-20-20)T

**b.** Only drill wells as authorized by the operator's permit. (3-20-20)T

**c.** Maintain a complete and accurate well log at the drilling site. (3-20-20)T

**d.** Co-sign with the driller a driller's report upon completion of the well. (3-20-20)T

**051. -- 059. (RESERVED)**

**060. BONDING (RULE 60).**

**01. Bonding Requirements.** Each licensed driller or company shall submit a surety bond or cash bond in an amount determined by the director, within the limits of 42-238, Idaho Code, for each driller employed by the company, payable to the director for the licensing period. (3-20-20)T

**a.** A company shall have a bond, which covers the drilling activities of each driller and operator employed by the company. If the licensed driller drills wells as an individual and not for a company, a separate bond must be filed with the director. (3-20-20)T

**b.** Drillers proposing to drill wells in an area of drilling concern, monitoring wells, public water supply wells, or wells to obtain or likely to encounter water with a bottom hole temperature greater than eighty-five (85) degrees Fahrenheit, shall submit an upgraded bond, in an amount determined by the director, at the time the drilling permit application is processed. Drillers anticipating drilling such wells may, instead, submit adequate bonding at the time of driller license application or renewal. (3-20-20)T

**c.** The amount of the bond, within the limits prescribed in Section 42-238, Idaho Code, will be determined by the director based on the applicant's compliance history, the size and depth of wells the applicant proposes to construct and is authorized to drill, the complexity of the wells, the resource to be recovered, the area of operation of the applicant, the number of drillers and operators employed by a company, and other relevant factors. (3-20-20)T

**d.** All bonds and continuation certificates must be on forms provided or approved by the department. (3-20-20)T

**02. Cash Bonds. (3-20-20)T**

**a.** Acceptable Cash Bonds. Cash bonds shall be in a separate account readily accessible to the director for use as provided in these rules. The director will review cash bond proposals made by an applicant. Cash bonds shall be retained in financial institutions within the state of Idaho unless waived by the director. (3-20-20)T

**b.** Retention. The director will hold cash bonds for two (2) years from the date the driller requests that the bond be released unless replaced by another bond or the director determines that all wells drilled by the driller satisfy well construction standards. The release of a cash bond must be requested in writing. (3-20-20)T

**03. License Void Without Bond.** If the issuing company cancels a bond, the bond expires or otherwise becomes non-effective during the term of a license, the license shall immediately become void and of no further effect until an adequate replacement bond is received by the department. (3-20-20)T

**061. -- 069. (RESERVED)**

**070. CONTINUING EDUCATION (RULE 70).**

**01. Requirements.** Every licensed driller or permitted operator must have earned at the time of renewal the applicable number of credit units required by these rules. The credit units shall have been obtained during the licensing period preceding the application for renewal. (3-20-20)T

**02. Earning Credit Units.** Credit units may be earned for time spent in attendance at workshops, seminars, short courses, and other educational opportunities devoted to drilling or related subjects acceptable to the Director and approved by the continuing education committee (CEC) and in compliance with the CEC guidelines. These may include completion of college courses, correspondence courses, videotaped courses, and other endeavors such as authoring appropriate publications. (3-20-20)T

**03. Documentation.** Documentation to support credit units claimed is the responsibility of the licensed driller and permitted operator. Records required include but are not limited to: (3-20-20)T

a. A log showing the type of activity claimed, sponsoring organization, duration, instructor's name, and credit units. (3-20-20)T

b. Attendance verification records in the form of completion certificates or other official documents providing evidence of attendance and completion. (3-20-20)T

**04. Submittal and Maintenance of Records.** Copies of continuing education records for the preceding license period shall be submitted with applications to renew licenses or permits. These records shall be maintained for a period of three (3) years and shall be available for review by the department at the request of the director. (3-20-20)T

**05. Insufficient Credit Units.** If at the time of renewal, the applicant is unable to provide verification of the required credit units, the director will deny renewal of the driller's license or operator's permit, except as otherwise provided in the following: (3-20-20)T

a. The director may withhold action on an application for renewal for a period not to exceed ninety (90) days to allow the applicant to provide verification of the required credit units. The applicant is not authorized to drill until the verification is provided and the renewal is issued. (3-20-20)T

b. The director may exempt an applicant from all or part of the continuing education requirements if the applicant served on active duty in the armed forces of the United States for one hundred twenty (120) consecutive days or more during the licensing period prior to filing the application for renewal; or the applicant suffered physical disability, serious illness, or other extenuating circumstances that prevented the applicant from earning the required units. (3-20-20)T

c. A licensed driller or operator who has chosen to allow his license or permit to expire or otherwise become of no effect shall be exempt from continuing education requirements unless an application for renewal is filed less than three (3) years after the license or permit expired or otherwise became of no effect. (3-20-20)T

**06. Out-of-State Residents.** The continuing education requirements for a non-resident applicant for a license or operator's permit shall be the same as for resident applicants. (3-20-20)T

**07. Responsibility for Education Development and Implementation.** The Idaho Ground Water Association (IGWA) is delegated responsibility to develop and implement a program for continuing education for review and approval by the director. (3-20-20)T

**071. CONTINUING EDUCATION COMMITTEE CONTINGENCY PLAN (RULE 71).** Should the memorandum of understanding (MOU) and/or the contract between the department and the IGWA be breached, revoked, or not renewed, the CEC shall be organized and administered by the department. (3-20-20)T

**072. -- 079. (RESERVED)**

**080. DRILLER'S ADVISORY COMMITTEE (RULE 80).**

**01. Selection and Duties.** The Director may appoint a driller's advisory committee from the list of drillers holding valid licenses. The Director will solicit appointment recommendations from the IGWA and other licensed drillers. The Director will determine the term of appointment for members of the committee. The committee shall provide recommendations and suggestions concerning revision of these rules, the minimum standards for well construction, significant violations and other matters regarding well drilling. The committee members shall serve on a voluntary basis without compensation. The department will hold meetings at the discretion of the Director. (3-20-20)T

**02. Reimbursement.** Travel costs shall be paid to members of the advisory committee for travel and per diem and for costs associated with attendance of advisory committee meetings held by the department. Reimbursement shall be based on existing department policy covering travel and per diem expenses. (3-20-20)T

**081. -- 089. (RESERVED)**

**090. ENFORCEMENT (RULE 90).**

**01. Violations.** Violations of these rules or Sections 42-235 or 42-238, Idaho Code, will be enforced as provided in Sections 42-238 and 42-1701B, Idaho Code. (3-20-20)T

**02. Enforcement Policy.** An administrative policy providing guidelines for enforcement shall be published and maintained by department staff. A copy of the enforcement guidelines is available upon request at no charge. (3-20-20)T

**091. -- 999. (RESERVED)**

## IDAPA 38 – DEPARTMENT OF ADMINISTRATION

### DOCKET NO. 38-0000-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 67-5708, Idaho Code, and Senate Concurrent Resolution No. 135 (1976).

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 38:

#### **IDAPA 38**

- 38.04.04, *Rules Governing Capitol Mall Parking*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 67-5701 and 67-5708, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

**Elected Officials Parking Permits.** The governor, lieutenant governor, secretary of state, attorney general, state controller, state treasurer, superintendent of public instruction, Senate pro-tem, and the speaker of the House of Representatives will be provided a reserved parking space at no charge. Additionally, upon request, Capitol Mall Parking will provide the governor four (4) additional reserved parking spaces. The fee for each additional reserved parking space provided to the governor will be the reserved parking permit monthly fee.

**Directors of Executive Branch Departments.** Directors of executive branch departments will be provided a reserved parking space at a cost not to exceed forty dollars (\$40) per month. Executive branch departments will be charged for the reserved parking spaces annually by Capitol Mall Parking.

**Reserved Parking Permits.** The fee for a reserved parking space permit will not exceed forty dollars (\$40) per month.

**General Parking Permits.** The fee for a general parking space permit will not exceed ten dollars (\$10) per month.

**Payment for Parking Permits.** Capitol Mall employees will be charged the respective permit fee in the first

paycheck of each month through a payroll deduction or as determined by the State Controller.

**Legislators.** Legislators who request a Legislator parking space permit must pay the parking permit fee. Legislators and Legislative personnel who request parking spaces must pay the associated space fee for every month that the Legislature is in session.

**State-Owned Vehicles.** State-owned vehicles belonging to the tenant departments will receive state vehicle parking permits for a monthly fee not to exceed fifteen dollars (\$15).

**Replacement Permits.** If a parking permit is lost, stolen or destroyed, the official, Legislator, or Capitol Mall employee will be charged a fee equal to the general permit monthly fee for a new permit. A statement attesting that the parking permit was lost, stolen or destroyed must be signed before Capitol Mall Parking will issue a new permit.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Keith Reynolds, 208-332-1823.

DATED this February 18, 2020.

Keith Reynolds, Director  
Department of Administration  
650 West state Street, Room 100  
P.O. Box 83720  
Boise, ID 83720-0004

## IDAPA 38 – DEPARTMENT OF ADMINISTRATION

### 38.04.04 – RULES GOVERNING CAPITOL MALL PARKING

#### 000. LEGAL AUTHORITY.

The following rules are promulgated pursuant to the authority of Section 67-5708, Idaho Code, and Senate Concurrent Resolution No. 135 (1976). (3-20-20)T

#### 001. TITLE AND SCOPE.

01. **Title.** These rules are titled IDAPA 38.04.04, “Rules Governing Capitol Mall Parking.” (3-20-20)T

02. **Scope.** These rules govern parking in the Capitol Mall. (3-20-20)T

#### 002. -- 009. (RESERVED)

#### 010. DEFINITIONS.

01. **Capitol Mall.** The Capitol Mall consists of the following buildings: State Capitol (700 W. Jefferson Street), Joe R. Williams (700 W. State Street), Len B. Jordan (650 W. State Street), State parking garage #1 (550 W. State Street), Pete T. Cenarrusa (450 W. State Street), Division of Public Works (502 N. 4<sup>th</sup> Street), Alexander House (304 W. State Street), State Library (325 W. State Street), 954 Jefferson (954 W. Jefferson Street), Capitol Annex (514 W. Jefferson Street), Blind Commission (341 W. Washington Street), Borah Building (304 N. 8<sup>th</sup> Street), State Parking Garage #2 (608 W. Washington Street); and Idaho Supreme Court (451 W. State Street). (3-20-20)T

02. **Capitol Mall Employee.** A state employee whose assigned work area is in the Capitol Mall, and who receives a state of Idaho-issued paycheck from a tenant of the Capitol Mall. (3-20-20)T

03. **Carpool.** A vehicle carrying two (2) or more Capitol Mall employees who work at the Capitol Mall at least four (4) work days per week. (3-20-20)T

04. **Employee with a Disability.** An employee with a disability as defined in Section 49-117(7)(b), Idaho Code. (3-20-20)T

05. **Executive Branch Departments.** Pursuant to Section 67-2402, Idaho Code, and for purposes of this rule, the following are the departments of the executive branch: Department of Administration, Department of Agriculture, Department of Commerce, Department of Correction, Department of Environmental Quality, Department of Finance, Department of Fish and Game, Department of Health and Welfare, Idaho State Police, Idaho Transportation Department, Industrial Commission, Department of Insurance, Department of Juvenile Corrections, Department of Labor, Department of Lands, Department of Parks and Recreation, Department of Revenue and Taxation, State Board of Education and Department of Water Resources. This definition excludes the Department of Self-Governing Agencies. (3-20-20)T

06. **Facilities Services.** Bureau of Facilities Services, Division of Public Works, Department of Administration. (3-20-20)T

07. **General Parking.** A parking space used for all Capitol Mall employees registered for general parking. (3-20-20)T

08. **Legislative Personnel.** An employee hired by the Legislative branch that receives a state of Idaho-issued paycheck during the Legislative session or is a year round employee of the Legislative branch. (3-20-20)T

09. **Legislator.** A member of the Idaho Senate or the Idaho House of Representatives for the state of Idaho. (3-20-20)T

10. **Reserved Parking.** A parking space assigned to a specific person, vehicle or agency. (3-20-20)T

11. **State Elected Officials.** The governor, lieutenant governor, secretary of state, attorney general, state controller, state treasurer and superintendent of public instruction, for the state of Idaho. (3-20-20)T

12. **Temporary Contract Employee.** An employee of a temporary employment service company who is working temporarily for a tenant of the Capitol Mall, and who does not receive a pay check issued by the state of

Idaho. (3-20-20)T

**13. Visitor.** Any person visiting the Capitol Mall to carry out state business or attend a state-sponsored event. (3-20-20)T

**011. -- 019. (RESERVED)**

**020. PARKING LOT LOCATIONS.**

All Capitol Mall parking lots will be identified by signage. Capitol Mall Parking manages the state-owned parking lots at the following locations: 550 W. State Street Parking Garage, State Parking Garage #1; 608 W. Washington Street, State Parking Garage #2; 10<sup>th</sup> and Jefferson Streets, 8<sup>th</sup> Street between State and Jefferson Streets, and 3<sup>rd</sup> and Washington Streets. Capitol Mall Parking also manages parking spaces in and around the following Capitol Mall buildings: Capitol Annex, Len B. Jordan, Pete T. Cenarrusa, Division of Public Works, Borah Building and Idaho State Library. (3-20-20)T

**021. TYPES OF AVAILABLE PARKING.**

Designated parking spaces are available for reserved parking, state elected officials and directors of executive branch departments, Legislators, carpool, disabled employees and state agency vehicles. All other parking spaces, unless designated as public or visitor parking, are considered general parking. (3-20-20)T

**022. PARKING SPACE ALLOCATION.**

**01. Reserved Parking Spaces.** (3-20-20)T

**a.** Reserved parking spaces are available for state elected officials and directors of executive branch departments as defined in Subsections 010.05 and 010.11 of these rules. Capitol Mall Parking will assign a reserved space to each state elected official and director of executive branch departments upon request. (3-20-20)T

**b.** Reserved parking spaces will be made available to the Senate pro-tem, and the speaker of the House of Representatives. Capitol Mall Parking will assign a reserved space to each individual. (3-20-20)T

**c.** All other Capitol Mall employees may apply for a reserved parking space. General reserved parking spaces are assigned to Capitol Mall employees on a first-come, first-served basis when designated reserved parking spaces become available. (3-20-20)T

**d.** Reserved parking spaces for state elected officials, directors of executive branch departments and Capitol Mall employees are located in the following parking lots only: the first floor of State Parking Garage #1; the first and second floors of State Parking Garage #2, the Pete T. Cenarrusa Building parking lot, and the 8<sup>th</sup> Street parking lot between State and Jefferson Streets. (3-20-20)T

**e.** Capitol Mall Parking will determine the location of all reserved parking spaces. (3-20-20)T

**f.** Reserved parking spaces for state elected officials, directors of executive branch departments and Capitol Mall employees will not exceed twenty-five percent (25%) of parking spaces available within the Capitol Mall. (3-20-20)T

**g.** Capitol Mall employees may not sell, trade or barter the right to use their assigned reserved parking space. Capitol Mall Parking retains the right to assign, reassign, suspend or revoke Capitol Mall employees' reserved parking spaces at any time. (3-20-20)T

**02. Legislators' Parking Spaces.** During Legislative sessions and special sessions, Capitol Mall Parking will make available up to one hundred three (103) reserved Legislator parking spaces to Legislators. (3-20-20)T

**a.** Each Legislator will be assigned a reserved Legislator parking space. A Legislator who elects to park in the Capitol Mall is required to pay the fee for the reserved parking permit. (3-20-20)T

**b.** During the Legislative session, Legislator reserved parking spaces will be on the third floor of State Parking Garage #1, 8th Street parking lot, and the Capitol Annex parking lot and will be clearly marked. The Legislator reserved parking permit is only valid in the assigned reserved parking space; the permit is not valid in any other CMP general parking space during the Legislative session. When the Legislature is not in session, all Legislator parking spaces will be redesignated as general parking spaces. (3-20-20)T

**c.** When the Legislature is not in session, Legislators or Legislative personnel who hold a valid Capitol Mall parking permit, may park in any general parking space. (3-20-20)T

**03. Disabled Employee Parking Spaces.** Capitol Mall Parking will make available reserved disabled employee parking spaces for employees who have a proven disability. (3-20-20)T

**a.** A temporarily or permanently disabled employee who has obtained an Americans with Disabilities Act (ADA) placard issued by the Idaho Transportation Department may request a reserved disabled employee parking space as close as possible to the employee's work location. (3-20-20)T

**b.** A disabled employee requesting a reserved disabled employee parking space must provide either a copy of his Americans with Disabilities Act (ADA) placard issued by the Idaho Transportation Department or a copy of the application to the Idaho Department of Transportation for an Americans with Disabilities Act (ADA) placard. (3-20-20)T

**c.** A temporary reserved disabled employee parking space will be provided to any eligible employee who has applied for an Americans with Disabilities Act (ADA) placard with the Idaho Department of Transportation but has not yet received the placard. A temporary reserved disabled parking space will be made available for five (5) working days only per disabled employee. (3-20-20)T

**d.** Reserved disabled employee parking spaces will be marked with signage. (3-20-20)T

**e.** A permit for a reserved disabled employee parking space will be the same fee as a permit for a general parking space. (3-20-20)T

**04. Carpool Parking Spaces.** Capitol Mall Parking will make available an indeterminate number of carpool parking spaces, which will be clearly marked, to employees who carpool at least four (4) work days per week. (3-20-20)T

**a.** Capitol Mall employees who carpool may request a carpool parking permit from Capitol Mall Parking to use a designated carpool space. (3-20-20)T

**b.** Carpool parking spaces will be available on a first-come, first-served basis for vehicles carrying two (2) or more Capitol Mall employees. All carpooling employees must be employees of the Capitol Mall and at least one (1) carpooling employee must have a general parking space permit. (3-20-20)T

**c.** A permit for a carpool parking space will be the same fee as a permit for a general parking space. (3-20-20)T

**d.** All unoccupied reserved carpool parking spaces will be redesignated as general parking spaces after 9 a.m. work days. (3-20-20)T

**e.** It is a parking violation to park in a reserved carpool parking space when the vehicle is carrying less than two (2) Capitol Mall employees before 9 a.m. (3-20-20)T

**05. State-Owned Vehicles Parking Spaces.** Capitol Mall Parking will make available designated state-owned vehicle parking spaces. (3-20-20)T

**a.** Capitol Mall Parking will make available an indeterminate number of designated state-owned vehicle parking spaces to department tenants of the Capitol Mall. (3-20-20)T

**b.** Designated state-owned vehicle parking spaces will be on the fifth level of the State Parking Garage #1, and will be clearly marked "State Vehicle Only." (3-20-20)T

**c.** A Capitol Mall employee may park his personal vehicle in a designated state-owned vehicle parking space when removing a state vehicle for state purposes. The Capitol Mall employee's personal vehicle must display the reserved state-owned vehicle parking space permit. (3-20-20)T

**d.** A visiting agency employee conducting official business at the Capitol Mall may park a state vehicle in an unoccupied designated state-owned vehicle parking space or in any Capitol Mall visitor parking space. (3-20-20)T

**06. Motorcycle Parking Spaces.** Capitol Mall Parking will make available designated motorcycle parking spaces. (3-20-20)T

**a.** Capitol Mall employees may request a special motorcycle parking permit for motorcycles, at no additional cost, to park in the designated motorcycle parking areas. (3-20-20)T

**b.** In order to receive a motorcycle permit, the Capitol Mall employee must possess a valid general or reserved parking permit. (3-20-20)T

**07. General Parking Spaces.** All other undesignated parking is considered general parking. (3-20-20)T

**a.** All Capitol Mall employees whose parking fees are deducted from their paychecks by the State Controller's Office may request a general parking permit from Capitol Mall Parking. (3-20-20)T

**b.** General parking spaces are available on a first-come, first-served basis, and possession of a valid general parking permit does not guarantee the Capitol Mall employee a general parking space. (3-20-20)T

**08. Visitor Parking Spaces.** Capitol Mall Parking will make available a limited number of parking spaces for visitors and the public visiting the Capitol Mall. (3-20-20)T

**a.** Non-metered three (3) hour visitor parking spaces will be available at the parking lot at the Capitol Annex at 514 W. Jefferson Street and on the south side of the parking lot at the State Library Building at 325 W. State Street, and will be clearly marked. (3-20-20)T

**b.** State-owned vehicles that do not belong to the departments' tenants of the Capitol Mall, and non-Capitol Mall employees visiting the Capitol Mall on business, may park in visitor parking spaces. (3-20-20)T

**c.** Capitol Mall employees may not park in visitor parking spaces between 6 a.m. and 6 p.m., Monday through Friday, excluding legal holidays with the exception of Human Rights Day and Presidents' Day. (3-20-20)T

**d.** The maximum period of use of visitor parking spaces in the Capitol Mall is three (3) hours per day per vehicle. A change from one visitor parking space to another visitor parking space does not increase the maximum period of use for each vehicle beyond three (3) hours per day. (3-20-20)T

**023. -- 029. (RESERVED)**

**030. PARKING PERMITS.** Capitol Mall Parking will issue applicable parking permits to all eligible persons who apply for a permit. (3-20-20)T

**01. Parking Permits for Reserved, Legislator, Disabled Employee, Carpool, State-Owned Vehicles and General Parking.** (3-20-20)T

**a.** Capitol Mall Parking will reissue parking permits once a year. Outdated parking permits must be returned to Capitol Mall Parking. (3-20-20)T

**b.** Capitol Mall Parking will issue the applicable parking permit to each Capitol Mall state elected official, director of an executive branch department, Legislator or employee, with the exception of the carpool parking permit and the special motorcycle parking permit. (3-20-20)T

**c.** Capitol Mall Parking will issue only one (1) parking permit per employee. Capitol Mall Parking will not provide duplicate general parking permits. State elected officials, directors of executive branch departments, and Capitol Mall employees with reserved parking spaces may request a duplicate reserved parking permit for a one-time fee equal to the general permit monthly fee. (3-20-20)T

**d.** All individuals and department tenants are responsible for displaying the parking permit in the front windshield or other prominent location of the parked vehicle at all times. (3-20-20)T

**e.** In the event that a parking permit is stolen, lost or destroyed, the official, Legislator or employee must sign a statement attesting that the parking permit was lost, stolen or destroyed and pay a replacement fee before Capitol Mall Parking will issue a new permit. The replacement fee is equal to the general permit monthly fee. (3-20-20)T

**02. Temporary Monthly Parking Permits. (3-20-20)T**

**a.** An individual performing work or providing services to a department tenant as a Temporary Contract Employee in the Capitol Mall, but who does not receive a state of Idaho-issued paycheck, may purchase a general monthly parking permit at the same cost as a general parking permit from Capitol Mall Parking. (3-20-20)T

**b.** Upon request and receipt of the general parking permit fee, Capitol Mall Parking may issue a monthly general parking permit to the following: (3-20-20)T

**i.** Individuals who do not receive a paycheck issued by the state of Idaho but are performing work or providing services to a department tenant in the Capitol Mall. This includes, but is not limited to, employees of the Idaho Central Credit Union, employees of vendors of the Commission for the Blind and Visually Impaired, and Capitol Mall tenant departments' temporary contract employees. (3-20-20)T

**ii.** Individuals who are employed by the state of Idaho, whose assigned work area is in the Capitol Mall, and who receive a state of Idaho-issued paycheck that is not issued by the State Controller's Office. This includes, but is not limited to, employees of the University of Idaho whose assigned work area is the Capitol Annex occupied by the University of Idaho. (3-20-20)T

**03. Temporary Meeting Parking Permits.** Upon submission of an application by a department tenant in the Capitol Mall, Capitol Mall Parking may issue temporary daily parking permits for meetings hosted by the department tenant. Parking will be allowed only in a limited number of parking spaces in the area designated by the permit and for the date set forth on the permit. (3-20-20)T

**031. PARKING PERMIT FEES.**

Pursuant to Sections 67-5701 and 67-5708, Idaho Code, parking permit fees will be established by the Department of Administration and administered by Capitol Mall Parking. (3-20-20)T

**01. Elected Officials Parking Permits.** The governor, lieutenant governor, secretary of state, attorney general, state controller, state treasurer, superintendent of public instruction, Senate pro-tem, and the speaker of the House of Representatives will be provided a reserved parking space at no charge. Additionally, upon request, Capitol Mall Parking will provide the governor four (4) additional reserved parking spaces. The fee for each additional reserved parking space provided to the governor will be the reserved parking permit monthly fee. (3-20-20)T

**02. Directors of Executive Branch Departments.** Directors of executive branch departments will be provided a reserved parking space at a cost not to exceed forty dollars (\$40) per month. Executive branch departments will be charged for the reserved parking spaces annually by Capitol Mall Parking. (3-20-20)T

**03. Reserved Parking Permits.** The fee for a reserved parking space permit will not exceed forty dollars (\$40) per month. (3-20-20)T

**04. General Parking Permits.** The fee for a general parking space permit will not exceed ten dollars (\$10) per month. (3-20-20)T

**05. Payment for Parking Permits.** Capitol Mall employees will be charged the respective permit fee in the first paycheck of each month through a payroll deduction or as determined by the State Controller. (3-20-20)T

**06. Legislators.** Legislators who request a Legislator parking space permit must pay the parking permit fee. Legislators and Legislative personnel who request parking spaces must pay the associated space fee for every month that the Legislature is in session. (3-20-20)T

**07. State-Owned Vehicles.** State-owned vehicles belonging to the tenant departments will receive state vehicle parking permits for a monthly fee not to exceed fifteen dollars (\$15). (3-20-20)T

**08. Replacement Permits.** If a parking permit is lost, stolen or destroyed, the official, Legislator, or Capitol Mall employee will be charged a fee equal to the general permit monthly fee for a new permit. A statement attesting that the parking permit was lost, stolen or destroyed must be signed before Capitol Mall Parking will issue a new permit. (3-20-20)T

**032. -- 039. (RESERVED)**

**040. PARKING LOT VIOLATIONS.**

**01. Driving Violations.** Any driving violation in a Capitol Mall parking lot or garage may result in the suspension or loss of parking privileges. (3-20-20)T

**a.** It is a violation of these rules to drive or operate a personal vehicle negligently or recklessly in any Capitol Mall parking lot or garage. It is a violation of these rules to drive or operate a vehicle under the influence of illegal substances or alcohol in any Capitol Mall parking lot or garage. (3-20-20)T

**b.** It is a violation for any individual to drive above the posted speed limits or drive against posted directional arrows. (3-20-20)T

**02. Parking Violations.** Any parking violation in a Capitol Mall parking lot or garage may result in the suspension or loss of parking privileges. (3-20-20)T

**a.** It is a violation of these rules to park in a location that is not marked as a parking space within the Capitol Mall. This includes, but is not limited to, parking in or on a driveway, sidewalk or other common driving areas of any parking lot or garage. It is also a violation to park one (1) vehicle in more than one (1) parking space. (3-20-20)T

**b.** It is a violation to park in a Legislator parking space without displaying the appropriate reserved parking permit during the Legislative session or to park in a general parking space without displaying the appropriate general parking permit. (3-20-20)T

**c.** It is a violation to park in a reserved parking space, in a reserved disabled employee parking space, ADA space, or in a reserved carpool parking space before 9 a.m., without displaying the appropriate parking permit. (3-20-20)T

**d.** It is a violation to park a motorcycle in any space not designated for motorcycle parking, unless a valid reserved parking permit is displayed and the motorcycle is parked in the designated reserved parking space. (3-20-20)T

**e.** It is a violation to park or store a personal trailer in a Capitol Mall parking lot. (3-20-20)T

**f.** It is a violation of these rules to: (3-20-20)T

- i. Use an invalid parking permit; (3-20-20)T
- ii. Use a parking permit reported lost or stolen; (3-20-20)T
- iii. Fail to properly display a valid Capitol Mall parking permit; or (3-20-20)T
- iv. Transfer an invalid permit to another person. (3-20-20)T
- g. It is a violation of these rules to park in one or more visitor parking spaces for a period in excess of the maximum period of use set forth in these rules. (3-20-20)T
- h. It is a violation of these rules for a CMP permit holder to park in a visitor parking space at any time. (3-20-20)T

**03. Other Violations.** The Capitol Mall parking lots and garages are private property, and any tampering or other physical defacement of any vehicle parked on the lots or in the garage is considered a violation. (3-20-20)T

**a.** The distribution of flyers or other materials on vehicles parked on Capitol Mall parking lots and in State Parking Garages #1 and #2 is prohibited, and violators will be escorted off the property. (3-20-20)T

**b.** Any individual engaging in suspicious activity or threatening behavior, or an individual loitering in a Capitol Mall parking lot or in State Parking Garages #1 and #2, will be escorted off the property. (3-20-20)T

**c.** Public access is not allowed in State Parking Garages #1 and #2 before 6 a.m. and after 6 p.m. Violators will be considered trespassers. (3-20-20)T

**04. Administrative Appeals.** Alleged violations of these rules are not subject to the provisions of Title 67, Chapter 52, Idaho Code, regarding administrative appeals. (3-20-20)T

**041. ENFORCEMENT.**

**01. Security and Patrol.** Capitol Mall parking lots and State Parking Garages #1 and #2 are secured and patrolled by Capitol Mall Parking, or its authorized representative. (3-20-20)T

**02. Notice of Violation.** Upon witnessing or finding a violation of these rules, Capitol Mall Parking, or its authorized representative, will leave notice with the occupant of the vehicle or on the vehicle parked in violation of these rules. (3-20-20)T

**a.** Notice may be in the form of a warning or a ticket. The warning or ticket will indicate the date and hour of the violation, the nature of the violation, and the name of the Capitol Mall Parking employee or its authorized representative. A warning or ticket may be issued only for those violations that do not cause the loss of a parking space and do not cause a safety hazard. (3-20-20)T

**b.** A ticket may be issued by Capitol Mall Parking, or its authorized representative, for a fine of at least two dollars (\$2), but not more than twenty-five dollars (\$25). (3-20-20)T

**c.** If an individual is determined to have altered, counterfeited or otherwise misused a parking permit, a ticket may be issued by Capitol Mall Parking, or its authorized representative, for a fine not to exceed fifty dollars (\$50). (3-20-20)T

**d.** All tickets issued by Capitol Mall Parking, or its authorized representative, will be forwarded to the city of Boise, county of Ada, for collection or prosecution. (3-20-20)T

**e.** Capitol Mall Parking retains the right to suspend or revoke an individual's parking privileges if the warnings or tickets have been issued or fines imposed for repeated violations. (3-20-20)T

**042. SUSPENSION OR REVOCATION OF PARKING PRIVILEGES.**

**01. Delinquent Payment.** Capitol Mall Parking may suspend or revoke any individual's parking permit if the parking permit fee is unpaid and at least thirty (30) days delinquent. Upon payment in full, Capitol Mall Parking will restore the individual's parking permit. (3-20-20)T

**02. Parking Privileges Suspension.** (3-20-20)T

**a.** Capitol Mall Parking may suspend an individual's parking permit and privileges for up to six (6) months for a violation of these rules. (3-20-20)T

**b.** Any Capitol Mall Parking permit holder, including a temporary parking permit holder, who has been cited for three (3) violations of these rules within six (6) months, may have his parking permit and privileges revoked for up to twelve (12) months. (3-20-20)T

**03. Towing and Impounding.** (3-20-20)T

**a.** Capitol Mall Parking or its authorized representative may tow any vehicle from any Capitol Mall parking lot or the or State Parking Garages #1 and #2, belonging to an individual who has been cited for three (3) or more Capitol Mall parking violations within a twelve-month period. The owner of the vehicle is liable for any service fee owed for releasing the towed and impounded vehicle. (3-20-20)T

**b.** In the event that a vehicle is considered a security risk, Capitol Mall Parking will make reasonable efforts to locate the owner of the vehicle before it is towed. (3-20-20)T

**04. Reactivating a Suspended Permit.** A suspended parking permit may be reactivated after the applicable suspension period ends by reapplying for the automatic payroll deduction plan through Capitol Mall Parking and paying in full of any delinquent parking fees. (3-20-20)T

**043. SURRENDER OF PARKING PERMIT.**

**01. Surrender of Permit.** When an official, Legislator or Capitol Mall employee no longer works in the Capitol Mall or no longer needs to utilize Capitol Mall parking, the individual must submit a request to Capitol Mall Parking to cease automatic payroll deduction or billing for Capitol Mall parking. The individual must surrender the parking permit to Capitol Mall Parking within ten (10) days of the effective date of termination. (3-20-20)T

**02. Cancellation of Automatic Payroll Deduction.** (3-20-20)T

**a.** Capitol Mall Parking will notify the individual's agency's payroll clerk to cease the monthly parking fee deduction. Capitol Mall Parking will not refund a monthly parking fee after a monthly payroll deduction has been made. (3-20-20)T

**b.** Agency payroll clerks must receive a written request from Capitol Mall Parking prior to deleting the monthly parking fee from the employee's payroll deduction schedule. (3-20-20)T

**044. -- 049. (RESERVED)**

**050. LOADING ZONE PARKING SPACES.**

Capitol Mall Parking will designate and mark a limited number of parking spaces to be used for short-term collection or delivery services or by authorized service contractors. It is a violation to park in loading zone parking spaces for any unauthorized purpose. (3-20-20)T

**051. WAIVER OF RULES.**

Pursuant to Section 67-5708, Idaho Code, the administrator for the Division of Public Works may waive any or all of the provisions of these rules if the administrator determines that application could result in discrimination among employees or otherwise violate law. (3-20-20)T

**052. -- 999. (RESERVED)**

## IDAPA 39 – IDAHO TRANSPORTATION DEPARTMENT

### DOCKET NO. 39-0000-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to Sections 40-312 and 49-201, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapters under IDAPA Title 39:

#### **IDAPA 39**

- 39.02.04, *Rules Governing Manufacturer & New Vehicle Dealer Hearing Fees*
- 39.02.05, *Rules Governing Issuance of Certificate of Title*
- 39.02.22, *Rules Governing Registration and Permit Fee Administration*
- 39.02.26, *Rules Governing Temporary Vehicle Clearance for Carriers*
- 39.02.41, *Rules Governing Special Provisions Applicable to Fees for Services*
- 39.02.60, *Rules Governing License Plate Provisions*
- 39.03.03, *Rules Governing Special Permits – General Conditions and Requirements*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased is justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Idaho Code are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

**39.02.04, Rules Governing Manufacturer and New Vehicle Dealer Hearing Fees:** ITD is required to collect filing fees for hearings when requested by a franchised dealer over disputes with a manufacturer. The Department is required to collect the fees, appoint a hearing officer and ensure all legal expenses including a court reporter, hearing transcripts and witness fees are reimbursed to the Department. Although the Department is not a party to the dispute, Idaho Code and this rule facilitate the hearing process between franchisees and manufacturers. The deposited fee of \$2,000 is utilized to cover initial expenses incurred by the Department. Any remaining part of the deposit is refunded to the dealer and additional expenses are billed to the responsible party. (See §49-1617, Idaho Code)

**39.02.05, Rules Governing Issuance of Certificate of Title:** The \$25 fee assessed under this rule is for an inspection of a vehicle to be performed by the Department's Motor Vehicle Investigators on vehicles with a special construction; including glider kits, replicas, street rods, replica street rods, assembled vehicles and specially constructed vehicles. This fee covers administrative costs of the Motor Vehicle Investigator for the physical

inspection of the vehicle and preparation of necessary documents for the owner to obtain a title from the Department with the correct physical classification of the vehicle. (See §49-504 and §49-525, Idaho Code)

**39.02.22, Rules Governing Registration & Permit Fee Administration:** This rule provides for installment payment plans for commercial motor vehicle registrations. It covers administrative costs for services provided by the Department, which includes a \$50 fee for setting up each installment payment plan. To reinstate a payment plan that has been suspended, a \$40 fee is required. If there are insufficient funds, the rule allows the Department to collect a \$20 insufficient funds fee and provides the Department with the ability to collect a \$40 fee for reinstatement of a revoked or suspended commercial motor vehicle registration. (See §49-434, Idaho Code)

**39.02.26, Rules Governing Temporary Vehicle Clearance for Carriers:** This rule allows the Department to authorize and issue temporary clearance for a carrier who needs to immediately operate a commercial motor vehicle and who is in the process of obtaining and submitting requirements for full issuance of vehicle registration and license plates. This temporary permit provides for a 45-day intermediate clearance at a cost of \$18. (See §49-501, Idaho Code)

**39.02.41, Rules Governing Special Provisions Applicable to Fees for Services:** This rule includes fees associated with the costs of providing records (typically bulk data) for requestors other than law enforcement and specified state agencies which receive records free of charge. Depending on the format and nature of the records requested, there is a base charge of \$75. (See §49-201, Idaho Code)

**39.02.60, Rules Governing License Plate Provisions:** This rule encompasses several license plate programs and their identifiers/formats. It provides for dealer and loaner license plates, standard license plates, restricted vehicle license plates, transporter and wrecker license plates, the personalized plate program criteria, legislatively sponsored license plates and many others. Most fees for plate programs are set in Idaho Code; however there are two that are not and they are established by rule. For vehicle dealer registration and plates, the fee is \$15 annually or the dealer may purchase single trip permits. These are only valid on boat and utility trailers for demonstration purposes. The other fee within this rule is \$12 for standard sample plates to pay for the production of the plate and administrative fees. (See §49-202, Idaho Code)

**39.03.03, Rules Governing Special Permits – General Conditions and Requirements:** This is a new rule that was part of the Department's efforts to consolidate and streamline commercial motor vehicle permit rules and was presented during the 2019 legislative session. The fees set in this rule cover a variety of commercial motor vehicle permits. These fees simply cover administrative costs for processing, issuing and enforcing special permits. This program is revenue-neutral. (See §49-1004, Idaho Code)

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, please contact Ramón Hobdey-Sánchez at (208) 334-8810.

DATED this February 6, 2020.

**39.02.04 – RULES GOVERNING MANUFACTURER AND NEW VEHICLE DEALER HEARING FEES**

**000. LEGAL AUTHORITY.**

This rule is adopted under the authority of Sections 49-201 and 49-1617(4), Idaho Code, and the Vehicle Dealer Act, Chapter 16, Title 49, Idaho Code. (3-20-20)T

**001. TITLE AND SCOPE.**

This rule is titled IDAPA 39.02.04, “Rules Governing Manufacturer and New Vehicle Dealer Hearing Fees,” and clarifies the process of collecting filing fees for hearings conducted by the Department for settling disputes between manufacturers and new vehicle dealers. (3-20-20)T

**002. -- 099. (RESERVED)**

**100. GENERAL PROVISIONS.**

**01. Hearing Officer Appointment.** The Director will appoint a hearing officer to hear the dispute who is not a current employee of either a manufacturer or dealer. (3-20-20)T

**02. Location of Hearings.** All hearings will be held in Ada County, Boise, Idaho. (3-20-20)T

**03. Hearing Filing Fee.** The dealer requesting a hearing shall deposit a filing fee of two-thousand dollars (\$2,000) with the Department. The Department shall apply the filing fee toward the hearing costs which shall include: (3-20-20)T

- a. The hearing officer fee and expenses; (3-20-20)T
- b. Department legal expenses; (3-20-20)T
- c. Department investigative expenses pertaining to the dispute; (3-20-20)T
- d. A court recorder, hearing transcript, any witness fees; and (3-20-20)T
- e. Other Department verifiable expenses. (3-20-20)T

**04. Hearing Fee Refunds and Additional Charges.** If the total verifiable costs of the hearing are less than two-thousand dollars (\$2,000), the Department shall refund the balance. If the costs exceed the two-thousand dollars (\$2,000) filing fee, the Department shall bill the responsible party for the remainder which is payable after the Department renders a decision. (3-20-20)T

**101. -- 999. (RESERVED)**

## 39.02.05 – RULES GOVERNING ISSUANCE OF CERTIFICATES OF TITLE

### 000. LEGAL AUTHORITY.

Under the authority of Sections 49-201, 49-504, 49-507 and 49-525, Idaho Code, the Department adopts the following rule. (3-20-20)T

### 001. TITLE AND SCOPE.

**01. Title.** These rules shall be cited as IDAPA 39.02.05 “Rules Governing Issuance of Certificates of Title.” (3-20-20)T

**02. Scope.** These rules identify requirements for the issuance of certificates of title, pursuant to Title 49, Chapter 5, Idaho Code. (3-20-20)T

### 003. – 009. (RESERVED)

### 010. DEFINITIONS.

**01. Appropriate Governmental Entity.** The agency or organization employing the authorized officers who take an abandoned vehicle into custody or direct a vehicle to be stored or towed. (3-20-20)T

**02. Assembled Vehicle.** A vehicle which has been constructed using parts from two (2) or more vehicles and has the same appearance as a vehicle that was manufactured under a specific make and model by a manufacturer. Changes may include frame and/or cab changes. See Section 305 for title application requirements. (3-20-20)T

**03. Body/Center Passenger Area.** The center structure, either of a unibody or frame-type passenger vehicle, consisting of a unit of sheet metal and structural components that extends from the firewall to the back of the rear seat or to the factory seam separating the rear section or the centerline of the rear wheels, i.e. cowl panel, dash panel, floor pans, center side body panels, side rails, rocker panels, and other such component parts that may be pertinent to this section. (3-20-20)T

**04. Brand.** A description on a certificate of title or title record, as determined by the Department or the equivalent agency of another jurisdiction, which indicates and advises future owners and interested parties that: (3-20-20)T

**a.** The vehicle has or has had a relevant physical condition, modification, construction, alteration or history of use; or (3-20-20)T

**b.** Past or present ownership of the vehicle could not be clearly established to the satisfaction of the Department or the equivalent agency of another jurisdiction. (3-20-20)T

**05. Cab.** The passenger compartment of a common truck or pickup truck. It is a unit of sheet metal and structural components including the top/roof and the cowl which may or may not include glass, instrumentation, steering column and seat. (3-20-20)T

**06. Frame.** The heavy metal structure that supports the auto body and other external component parts on body-over-frame constructed vehicles only. (3-20-20)T

**07. Gray Market Vehicle.** A vehicle manufactured outside of the U.S. for use in other countries that did not meet U.S. Federal Motor Vehicle Safety Standards or Environmental Protection Agency requirements at the time of manufacture. (3-20-20)T

**08. Mileage.** Actual distance that a vehicle has traveled. (3-20-20)T

**09. Replica Street Rod.** A vehicle made to replicate any pre-1949 vehicle which has had a significant drive train update from a more modern vehicle. Changes may include engine, transmission, rear axle and other suspension components. The body will resemble the same as the manufacturer's original issue. See Section 305 for title application requirements. (3-20-20)T

**10. Street Rod Vehicle.** Any pre-1949 manufactured vehicle which has had a significant drive train update from a more modern vehicle. Changes may include engine, transmission, rear axle, and other suspension components. The body will be the same as the manufacturer's original issue. See Section 305 for title application

requirements. (3-20-20)T

**11. Transferee.** Any person to whom the ownership of a motor vehicle is transferred, or any person who, as agent, accepts transfer of ownership of a motor vehicle for another, by purchase, gift or any means other than creation of a security interest. (3-20-20)T

**12. Transferor.** Any person who transfers vehicle ownership or any person who, as agent, transfers the ownership of another's motor vehicle by sale, gift or any means other than creation of a security interest. (3-20-20)T

**011. – 099. (RESERVED)**

**100. GENERAL.**

The Department will issue a Certificate of Title on any vehicle if the applicant can show proper documentation of ownership, there are no undisclosed security interests in the vehicle, and other requirements for titling have been satisfied. Unless otherwise specified in statute or administrative rule, such proper documentation of ownership will be limited to: (3-20-20)T

**01. Certificate of Title.** A valid Idaho Certificate of Title or a valid Certificate of Ownership issued by another state, province or country according to the applicable laws of another state, province or country, which has been duly assigned or transferred to the applicant if issued in another's name. (3-20-20)T

**02. MCO/MSO.** A properly executed Manufacturer's Certificate of Origin (MCO) or Manufacturer's Statement of Origin (MSO) in the case of a new vehicle being titled for the first time. (3-20-20)T

**03. Certificate of Registration.** A Certificate of Registration from a non-titling state, province or country, together with a bill of sale from the registrant if other than the applicant. (3-20-20)T

**04. Transfer by Operation of Law.** In the case of a transfer by operation of law, a certified copy of a valid court order, decree, or instrument upon which the claim of possession and ownership is founded, passing title to the applicant as a matter of law (for example: a property settlement, divorce decree, or execution sale's certificate of sale or bill of sale), together with an affidavit by the person or agent of the person to whom possession of the vehicle so passed, setting forth facts entitling him to possession and ownership. (3-20-20)T

**05. Salvage Vehicles.** For a salvage vehicle, a salvage certificate of title or other salvage ownership document issued by another state, province, or country according to the applicable laws of that state, province, or country, duly assigned or transferred to the applicant if issued in another's name. (3-20-20)T

**06. Specially Constructed Vehicles.** (3-20-20)T

**a.** For a specially constructed vehicle as defined by Section 49-123(p)(i) or (iii), Idaho Code, the original ownership document for the vehicle from which the body or cab being used has been taken unless the vehicle is from a state that requires the ownership document to remain with the frame in which case a copy of the ownership document verified to be a true and correct copy of the original, together with a bill of sale from the owner to whom the ownership document was issued if different than the applicant, and a bill of sale, invoice, or other proof of acquisition for any of the following major components used in the vehicle's construction: (3-20-20)T

i. Frame or rails; (3-20-20)T

ii. Engine or short block; (3-20-20)T

iii. Transmission and/or transfer case; (3-20-20)T

iv. Front and rear clips; or (3-20-20)T

v. Truck bed or box; (3-20-20)T

**b.** Each bill of sale for major component parts is to include the following: (3-20-20)T

- i. Name of purchaser; (3-20-20)T
- ii. Vehicle Identification Number (VIN) or engine number for a motorcycle, if applicable; (3-20-20)T
- iii. Description of major component part (by make, body type, year of manufacture, if applicable); (3-20-20)T
- iv. Purchase price; and (3-20-20)T
- v. Signature of seller. (3-20-20)T
- c.** For a specially constructed vehicle as defined by Section 49-123(p)(ii), Idaho Code, bills of sale, receipts, invoices or other proof of acquisition for the materials used in the construction. (3-20-20)T
- d.** For a specially constructed vehicle as defined by Section 49-123(p)(iv), Idaho Code, a properly executed manufacturer's certificate of origin (MCO) or manufacturer's statement of origin (MSO) for the custom kit, or if no MCO was issued, a factory invoice or bill of sale from the selling dealer, together with a statement certifying no MCO was issued for the kit. (3-20-20)T

**101. – 199. (RESERVED)**

**200. LIEN FILING.**

**01. Date of Lien Filing.** All title applications submitted to the Department or its agent for filing will include the date of filing. (3-20-20)T

**a.** If a lien is listed on a title application, the date the application is received by the Department or its agent will be the date of the filing of the lien. (3-20-20)T

**b.** A lien is perfected as of the date of the filing of a properly completed application with the department or an agent of the department. All liens filed with the department will take priority according to the order in which the properly completed applications are filed with the department or an agent of the department. The priority of liens will not be affected should the department fail to note one or more on the title or on the electronic records of the department due to error. (3-20-20)T

**02. Out-of-State Transfer.** If a lien was previously recorded on an out-of-state title, and the title is being surrendered to Idaho for issuance of a new certificate of title and the lien is still in effect, the Department will honor the previously recorded date shown on the out-of-state title, provided that at least one of the previous owners' names will remain on the new Idaho title. If there is no recorded date on the title, the following will be captured as the recorded date if displayed on the title with priority according to the order listed: (3-20-20)T

**a.** Application date; (3-20-20)T

**b.** Issue date; and (3-20-20)T

**c.** Print date (3-20-20)T

**d.** If none of the aforementioned dates are present, the Department will consider other evidence provided in the documentation submitted with the title application to determine a filing date. (3-20-20)T

**e.** In the event that no other evidence is provided to reasonably determine the date of the lien's filing, the date the title application is filed with the Department will be the recorded date. (3-20-20)T

**03. Name Change Only.** If a name change is being requested on a title containing a recorded lien, and the lien is not being released, the original recorded date will be retained for the lien filing, provided that the new title will retain the name of the same lienholder and at least one (1) of the previous owners. (3-20-20)T

**04. Taxable Transfer of Ownership.** In the case of a taxable transfer of ownership, where the lien was not released, and the new title will have the same lienholder, a new recorded date will be assigned to the lien, unless the lienholder has specified that the new owners have assumed the lien. (3-20-20)T

**05. Lien Assumptions.** If a lienholder specifies that a contract has been assumed by a new owner, and the new owner has assumed the terms of the previous lien, the original date will be retained on the new certificate of title. (3-20-20)T

**201. ODOMETERS.**

**01. Procedures.** (3-20-20)T

**a. Department Requirement.** The Department will enter the odometer reading and status as provided by a dealer or private seller or transferor on the Certificate of Title when printed unless previously recorded as exempt with no reading. (3-20-20)T

**b. Used Vehicle Transferor/Seller Requirements.** When a used vehicle is transferred, the transferor will record the odometer reading on the title certificate using indelible ink. If the vehicle has not been titled or if the title does not contain a space for the information required, the written disclosure will be executed as a separate statement. (3-20-20)T

**c. New Vehicle Transferor/Seller Requirements.** When a new vehicle is retailed, the transferor will provide a written disclosure on the MCO or on a separate document. (3-20-20)T

**d. Use of Power of Attorney.** When the transferor's title is physically held by a lienholder or if the transferor to whom the title was issued has lost the title and the transferee obtains a duplicate title on behalf of the transferor; the transferor may give a power of attorney to his transferee for the purposes of mileage disclosure. (3-20-20)T

**e. Reassignments.** When all available reassignments on a title certificate have been used, subsequent reassignments will be made on a separate reassignment document printed by the Department or by another state's motor vehicle Department. (3-20-20)T

**02. Exemptions.** (3-20-20)T

**a. Transferor/Seller Exemptions.** A transferor is not required to disclose the vehicle's odometer reading for any of the following: (3-20-20)T

i. A vehicle having a gross vehicle weight rating over sixteen thousand (16,000) pounds; (3-20-20)T

ii. A vehicle which is not self-propelled; (3-20-20)T

iii. A vehicle sold directly by the manufacturer to any agency of the United States in conformity with contractual specifications; (3-20-20)T

iv. A vehicle which is ten (10) years old or older. To calculate the vehicle's age, simply subtract the model year from the calendar year; or (3-20-20)T

**b. Manufacturers' Exemptions.** A manufacturer of a new vehicle may transfer, for purposes of resale, to a franchised dealer without disclosure of the vehicle's odometer. (3-20-20)T

**202. VEHICLE IDENTIFICATION NUMBER (VIN) INSPECTIONS.**

**01. Authorized Inspectors.** The following individuals, agents or agencies are authorized to complete Vehicle Identification Number (VIN) inspections: (3-20-20)T

**a.** Peace Officers and Special Agencies Inspections. As part of their regular assigned duties, any city, county, state or federal peace officer, or specified agent of the Department, may complete a VIN inspection. (3-20-20)T

**b.** Vehicle Dealer Inspections. Licensed Idaho vehicle dealers may complete VIN inspections. (3-20-20)T

**c.** Financial Institution Inspections. An employee of any bank that is authorized to do business in Idaho or an employee of any other financial institution registered with the Department of Finance, may complete VIN inspections as a part of normal business activity. (3-20-20)T

**d.** Special Agent Inspections. Other special designated agents of the Department may complete VIN inspections, as stipulated in a formal agreement between the Department and the special agent, i.e. vehicle rental companies allocating portions of their fleets to Idaho. (3-20-20)T

**e.** Out-of-state Inspectors. For a vehicle located in another state, a VIN inspection is acceptable when completed by any city, county, state or federal peace officer, or any employee of the state's vehicle titling and registration agency. (3-20-20)T

**02. VIN Inspections Required.** A VIN inspection is required whenever the current certificate of title was not issued for the vehicle by this state or whenever the Department is dissatisfied with the authenticity or accuracy of the vehicle identification number. (3-20-20)T

**203. – 299. (RESERVED)**

**300. TITLE BRANDING.**

**01. Brand Disclosure.** (3-20-20)T

**a.** Upon sale by a dealer of any salvage or total loss vehicle or branded vehicle or branded certificate of title, disclosure of the vehicle's salvage or branded status, will be conspicuously disclosed to the buyer and a record must be maintained by the dealer. Disclosure may be made on a form as provided by the Department for a report of sale. The buyer must sign that they have received disclosure of the vehicle brand. Proof of disclosure must be submitted to the Department. (3-20-20)T

**b.** Upon sale by a private party of any salvage or total loss vehicle or branded vehicle or vehicle with a branded certificate of title, disclosure of the vehicle's salvage or branded status, will be conspicuously disclosed to the buyer. (3-20-20)T

**02. Branding Time Frame.** Each branded vehicle and branded certificate of title will retain that brand throughout the existence of the vehicle regardless of its age or value unless the brand has an expiration date. (3-20-20)T

**03. Brands Removed.** (3-20-20)T

**a.** If any salvage vehicle leaves the state of Idaho with or without an Idaho salvage certificate of title and such vehicle returns to Idaho, it will once again be subject to the requirements under Idaho Code and this rule. (3-20-20)T

**b.** If a vehicle with a branded Idaho title leaves Idaho and then returns with a title or other ownership document issued by another jurisdiction that has either no brand or a different brand for the same incident that caused the brand on the Idaho title. (3-20-20)T

**i.** If the brand on the Idaho title originated in Idaho, the Idaho brand will be reinstated. This will occur even if the National Motor Vehicle Title Information System (NMVTIS) returns a different brand for the same incident. (3-20-20)T

ii. If the brand on the Idaho title originated in another state, the Idaho title will be issued with any brand retrieved from NMVTIS if for the same incident that caused the brand on the original Idaho title. If no brand is retrieved from NMVTIS for this incident, the brand on the previous Idaho title will be reinstated. (3-20-20)T

**301. BONDED TITLE.**

**01. Conditions and Requirements.** Application may be made for a “bonded title” when the applicant has actual possession of the vehicle but is unable to provide proper documentation of ownership. (3-20-20)T

**a. Proper Documentation Cannot Be Obtained.** The applicant must satisfy the Department that proper documentation to obtain a regular title cannot be obtained. However, the applicant must provide sufficient documentation to satisfy the Department that it is more probable than not that the applicant is the owner of the vehicle. (3-20-20)T

**b. Vehicle Physical Inspection.** The applicant must produce the vehicle for a physical inspection by a representative designated by the Department. (3-20-20)T

**c. Affidavit of Explanation.** The applicant must provide an affidavit explaining the reasons for the absence of a valid Certificate of Title or Certificate of Ownership or other documentation of ownership identified in Section 100 of this rule, and how the vehicle came into the possession of the applicant. A listing of any liens (loans) or encumbrances against the vehicle; the name of the state, province or country where the vehicle was last titled, or last registered if from a non-titling state, province, or country; and the name under which the vehicle was last titled, or last registered if from a non-titling state, province or country is also required. (3-20-20)T

**d. Bond.** The applicant will provide the Department with a bond in the amount of one (1) and one-half (1/2) times the value of the vehicle or a cash deposit of like amount, as provided in Section 49-523(b), Idaho Code. A cash bond will be in the form of a cashier’s check, money order or certified check made payable to the Idaho Transportation Department. The form of the bond will conform to the form ITD 3909, Vehicle Ownership Bond, which can be obtained by calling 208-334-8663 during regular business hours. (3-20-20)T

**e. Vehicle Appraisal.** The applicant will provide an appraisal of the vehicle either by a licensed Idaho automobile dealer on the dealer’s letterhead or other form provided by the Department with dealer’s number, or by a Motor Vehicle Investigator. The appraisal will reflect the current retail value of the vehicle. This appraisal will be considered by the Department to determine the value of the vehicle. (3-20-20)T

**f. Application for Title.** The applicant will apply for title within ninety (90) days of the bond’s issuance. Should the application for title occur more than ninety (90) days from the issue date of the bond or any subsequent rider, the applicant will obtain a rider to provide bond coverage for three (3) years. (3-20-20)T

**g. Bonded Title Brand.** Upon satisfying the Department’s requirements for a bonded title, the applicant will be issued a title bearing the brand “Bonded Title” and the brand’s expiration date, which will be three (3) years from the following: (3-20-20)T

i. Date of issuance of the bond unless a bond rider was issued; or (3-20-20)T

ii. If one or more bond riders were issued, the date of issuance of the most recent bond rider; or (3-20-20)T

iii. Date of receipt of a cash deposit. (3-20-20)T

**02. Bond Surety.** The bond must be issued by a corporate surety, qualified and licensed to do business in Idaho. (3-20-20)T

**03. Claims Against The Bond.** Should any expense, loss or damage occur, for any reason covered by the bond, persons or entities suffering such loss will make claim directly against the principal (applicant) and the surety. If the applicant has made a cash deposit, any claim will be made through the Department’s Motor Vehicle Administrator. (3-20-20)T

**04. Expiration Of Bonding Requirement.** Upon expiration of the brand, the bond or cash deposit will be returned without interest unless the Department has been notified in writing of a pending claim or action to recover on the bond or deposit. If there has been no claim, the applicant may surrender the bonded title and apply for a Certificate of Title free of the bonded title brand. A Certificate of Title free of the bonded title brand will be issued upon certification of the application and payment of any applicable fees per Idaho Code Title 49, Chapters 2 and 5, and any applicable sales or use tax, per Title 63, Chapter 36, Idaho Code. (3-20-20)T

**05. Return Of Bond Prior To Three Year Period.** The bond or cash deposit will be returned prior to the expiration of the brand if the vehicle is no longer registered in this state, and the Department has not been notified of any claim or action to recover on the bond. (3-20-20)T

**06. Sales And Use Tax.** Any sales or use tax will be paid to the Department or to the county assessor prior to issuance of a bonded title. (3-20-20)T

### **302. SPECIALLY CONSTRUCTED VEHICLES.**

**01. Specially Constructed Vehicle Examples.** Some examples of specially constructed vehicles are: Custom built vehicles, such as, kit conversions, homemade camp trailers, other homemade trailers that exceed two thousand (2,000) pounds unladen weight, motorcycles, vessels, snowmobiles, and slide-in truck-mounted campers. (3-20-20)T

**02. Engine Changes.** A vehicle that has an engine of a different make, model or year from the body, frame and running gear is not considered a specially constructed vehicle. These vehicles retain the original title and identification designation. (3-20-20)T

**03. Title Application Requirements.** (3-20-20)T

**a.** The applicant must provide proof of ownership for all significant parts that are replaced, such as frame, body, and other parts that carry vehicle identification numbers. The body must have a properly released title from the former owner. The frame only may be transferred with a bill of sale given by the legal owner showing the vehicle identification number (VIN). Other significant parts that are replaced must be verified by traceable invoices identifying the part or parts if purchased from an established new or used parts outlet. If the other significant parts are purchased from a private party, a bill of sale showing seller's name and address is required. An MCO must accompany the documents for manufactured kits or if no MCO was issued, a factory invoice or bill of sale from the selling dealer, together with a statement certifying no MCO was issued for the kit, is acceptable. (3-20-20)T

**b.** The model year will be the year that the specially constructed vehicle was first titled as a specially constructed vehicle. (3-20-20)T

**c.** he make code as shown on the certificate of title of a specially constructed vehicle will be identified as "SPCN" and the certificate of title will be branded "Specially Constructed." (3-20-20)T

**d.** When the vehicle is in operating condition, an inspection by a motor vehicle investigator is required. A fee of twenty-five dollars (\$25) is required for this inspection and the preparation of the statement of fact and indemnifying affidavit. In addition, if a vehicle identification number is assigned, the fee required by Section 49-202(2)(j), Idaho Code, will be charged. If the vehicle is eligible to be registered for road use, the owner will complete a self-certification on a form prescribed by the department stating that the vehicle is in compliance with Chapter 9, Title 49, Idaho Code, and meets the Federal Motor Vehicle Safety Standards in effect for the model. (3-20-20)T

### **303. REBUILT SALVAGE VEHICLES.**

**01. Rebuilt Salvage Vehicle.** A rebuilt salvage vehicle, as defined by Section 49-123 (2)(m), Idaho Code, includes every "Salvage or Total Loss Vehicle" that has been rebuilt, in compliance with applicable federal motor vehicle safety standards and the requirements of Chapter 9, Title 49, Idaho Code, as regulated by Sections 49-524 and 49-525, Idaho Code. (3-20-20)T

**02. Salvage Vehicles from Other Jurisdictions.** Every vehicle that is coming into Idaho from another jurisdiction with a Salvage Certificate or other equivalent document showing evidence of a total loss payoff such as a bill of sale from an insurance company, or other documentation indicating that the vehicle may have been a salvage or total loss vehicle and any vehicle for which information retrieved from the National Motor Vehicle Title Information System (NMVTIS) indicates it has been reported as “salvage” will be considered salvage unless there is sufficient evidence for the department to determine the salvage document or information retrieved from NMVTIS was in error. These vehicles may not be operated on Idaho highways until rebuilt in compliance with Chapter 9, Title 49, Idaho Code and all federal motor vehicle safety and emission standards in effect for the model year and type of vehicle. They will be issued an Idaho Salvage Certificate unless the other jurisdiction has issued a salvage certificate or other equivalent salvage ownership document. If any salvage vehicle is received by a “salvage pool” (as described in Section 49-120(4), Idaho Code), an Idaho salvage certificate of title must be issued, prior to sale unless the vehicle has a salvage certificate or other equivalent salvage ownership document issued by another jurisdiction. Any vehicle which has been declared junk, pursuant to Sections 49-516 and 49-522, Idaho Code, or is coming from another jurisdiction with a similar endorsement, or is designated by the owner or the insurance company as parts only, destroyed, or dismantled, may not be rebuilt for on-road use. Any vehicle for which information retrieved from NMVTIS indicates it has been reported as having been scrapped or crushed may not be retitled. Any vehicle for which information retrieved from NMVTIS indicates it has been reported by a salvage yard will be considered “salvage” and any vehicle for which information retrieved from NMVTIS indicates it has been reported by a junk yard will be considered “junk” unless otherwise indicated. The provisions of this section will not apply if there is sufficient evidence for the department to determine the information retrieved from NMVTIS was in error. (3-20-20)T

**03. Title Application Requirements for Vehicles Defined as Salvage and Rebuilt Salvage Vehicles.** (3-20-20)T

**a.** The applicant must provide a written statement which includes the vehicle information, vehicle identification numbers, salvage date, and the work done personally by the owner or supervised by the owner to restore the vehicle to the operating condition that existed prior to the event causing the vehicle to be salvaged. (3-20-20)T

**b.** In the event that the applicant did not personally repair the vehicle or supervise its repair, but another party performed the repairs, the applicant will certify to the best of his knowledge the name of the party that did repair the vehicle or personally supervised its repair. This certification shall be made on a salvage vehicle statement. (3-20-20)T

**c.** In the event that repairs were not necessary to bring the vehicle to operating condition pursuant to Chapter 9, Title 49, Idaho Code, the applicant will certify this on a salvage vehicle statement. (3-20-20)T

**d.** The applicant must sign an indemnifying statement agreeing to defend the title in all legal disputes arising out of his possession of the title to the vehicle, and attesting to the fact that all information contained in the statement and its attachments are true and correct. (3-20-20)T

**e.** The new Idaho title issued will be branded “REBUILT SALVAGE.” Such notation will remain on the title and on all subsequent transfers of the title. (3-20-20)T

**04. Salvage Vehicle Damaged Out-of-State.** If a vehicle that is titled in Idaho is damaged in another state or jurisdiction to the extent that the vehicle becomes a “salvage vehicle” as defined by Section 49-123(2)(o), Idaho Code, and the vehicle is not going to be returned to Idaho, the owner or insurer must, upon determining the vehicle to be salvage, notify the purchaser and the Department in writing of the salvage status. If this vehicle returns to Idaho, the title will be branded “Rebuilt Salvage” or carry another jurisdiction's comparable brand forward unless the vehicle has not yet been repaired and has not had a salvage certificate or other salvage ownership document issued by another jurisdiction in which case the owner must obtain an Idaho salvage certificate of title. (3-20-20)T

**304. GLIDER KITS.**

**01. Title Application Requirements.** (3-20-20)T

**a.** An MCO for the glider kit must be submitted with the application for title. (3-20-20)T

**b.** If the applicant dismantles a vehicle presently titled to the applicant and uses the significant parts with the glider kit, either a statement of fact will be prepared or the applicant will complete an affidavit, identifying the significant parts by identifying numbers. If the significant parts were purchased separately from a new or used parts outlet, a bill of sale or invoice is required. If the significant parts were purchased from a private owner, a bill of sale is required. (3-20-20)T

**c.** If the frame and cab that the parts were stripped from will never be used again, i.e., frame and cab destroyed, not salvageable, the title must be surrendered with the application. If the frame or cab can be used again, the owner or motor vehicle investigator will mark the title “frame only” or “cab only.” (3-20-20)T

**d.** The vehicle must be completely assembled and meet the requirements of Chapter 9, Title 49, Idaho Code, and the federal motor vehicle safety standards in effect for the model year at the time of application. (3-20-20)T

**02. Assignment of VIN.** The VIN will be the number assigned to the kit by the manufacturer. In the absence of such number, the motor vehicle investigator will assign a VIN. (3-20-20)T

**03. Model Year.** The model year will be the year of the kit, determined by priority in the following order: (3-20-20)T

**a.** Written statement from the manufacturer. (3-20-20)T

**b.** Seventeen (17) character VIN’s model year designator; (3-20-20)T

**c.** Designation of model year shown on an approved MCO; or (3-20-20)T

**04. Make of Vehicle.** The make of the vehicle will be the make of the glider kit. (3-20-20)T

**05. Title Branded.** The designation “GLIDER KIT VEHICLE” will be branded on the title. (3-20-20)T

**305. TITLE APPLICATION REQUIREMENTS FOR REPLICA, STREET RODS, REPLICA STREET RODS, AND ASSEMBLED VEHICLES.**

**01. Applicant Must Provide Proof of Ownership.** The applicant must provide proof of ownership for all significant parts that are used in replicating or assembling the vehicle. The body must have a properly released title from the previous owner or a title in the applicant’s name. The frame only may be transferred with a copy of a bill of sale given by the legal owner showing the vehicle identification number (VIN). Other significant parts that are used must be verified by traceable invoices identifying the significant part or parts if purchased from an established new or used parts outlet. If the other significant parts are purchased from a private party, a bill of sale showing the seller’s name and address is required. An MCO must accompany the documents for manufactured kits or if no MCO was issued, a factory invoice or bill of sale from the selling dealer together with a statement certifying no MCO was issued for the kit is acceptable. (3-20-20)T

**02. Model Year.** The model year for replica vehicles and replica street rods will be the year that the vehicle replicates. The model year for assembled vehicles and street rods will be the model year of the vehicle body. (3-20-20)T

**03. Inspection by a Motor Vehicle Investigator.** When the vehicle is in operating condition an inspection by a motor vehicle investigator is required. A fee of twenty-five dollars (\$25) is required for this inspection and the preparation of the statement of fact and indemnifying statement. In addition, if a vehicle identification number is assigned, the fee required by Section 49-202(2)(j), Idaho Code, will be charged. If the vehicle is eligible to be registered for road use, the owner will complete a self-certification form prescribed by the Department stating that the vehicle is in compliance with Chapter 9, Title 49, Idaho Code, and meets the federal motor vehicle safety and emission standards in effect for the model year and type of vehicle. (3-20-20)T

**306. -- 399. (RESERVED)**

**400. ABANDONED VEHICLES.**

Abandoned vehicles not claimed before the day of sale will be sold by the appropriate governmental entity if one exists. This regulation will not prevent governmental entities from entering into agreements with other governmental entities to conduct sales. (3-20-20)T

**401. GRAY MARKET VEHICLES.**

**01. Required Documents.** When the owner of a gray market vehicle applies for title and registration, the following documents must be presented. (3-20-20)T

**a.** Statement indemnifying the Department. (3-20-20)T

**b.** Statement of Facts from a motor vehicle investigator, unless waived by the Department based on facts presented by the owner. (3-20-20)T

**c.** All documents relating to ownership including but not limited to; manufacturer's certificate of origin, manufacturer's statement of origin, foreign title, or registration (if the vehicle is not from a titling country), and bills of sale. A complete chain of ownership must be presented from the manufacturer (for new vehicles) or from the last titled owner, or registered owner (if the vehicle is not from a titling country) to all subsequent owners of the vehicle both in the foreign market and the United States. (3-20-20)T

**d.** U.S. Department of Transportation bond release letter. (3-20-20)T

**e.** Environmental Protection Agency (EPA) bond release letter or Independent Commercial Importer (ICI) release letter or Designated Canadian Importer (DCI) release letter or EPA letter of waiver. (3-20-20)T

**02. Designation of Model Year.** The model year for titling and registering gray market vehicles will be determined in an order of priority, based on the following criteria: (3-20-20)T

**a.** The model year used by a specific manufacturer to designate a discrete vehicle model irrespective of the calendar year in which the vehicle was actually produced; (3-20-20)T

**b.** The model year shown on an ownership document issued by that vehicle's country of origin; (3-20-20)T

**c.** Any vehicle manufactured during a twelve (12) month period beginning September 1, and ending August 31, will bear the production year of the calendar year in which August 31 occurs; or (3-20-20)T

**d.** The model year by certification of the importer of record. The certification can be verified against vehicle production dates, based upon substantially similar models of the same make of vehicle. (3-20-20)T

**03. Foreign Documents.** When a foreign manufacturer's certificate of origin, manufacturer's statement of origin, or registration and/or titling documents are presented, a translation of the foreign documents may be required to clarify the information contained in the documents. If required, such translation will be at the owner's expense and certified by the translator as true and correct. (3-20-20)T

**04. Conditional Registration.** Until gray market vehicles meet Idaho registration and titling requirements, the county assessor will issue a conditional registration under the "Conditional Registration" program to allow time for the federal government to act upon the required releases or for the owner to obtain legal ownership documentation. (3-20-20)T

**05. Exception.** When the owner of a gray market vehicle has a current title issued by another state, the other requirements of Section 401 of this rule for title and registration will not apply unless the title carries the brand, "Gray Market Vehicle (not in compliance)" or another brand or notation indicating the vehicle was not brought into compliance with U.S. DOT and EPA requirements. If a gray market vehicle has a current title issued by another state

that carries the brand, “Gray Market Vehicle (not in compliance)” or another equivalent brand or notation and the other requirements of Section 401 of this rule have not been met, the vehicle cannot be registered and the owner may only receive an Idaho title issued with same or equivalent brand or notation. (3-20-20)T

**402. – 899. (RESERVED)**

**900. WAIVER OF TITLING REQUIREMENTS.**

**01. Purpose.** This rule specifies the circumstances under which a person or entity may waive the thirty (30) day requirement to apply for title to a vehicle which has been acquired by operation of law, and to provide that the person or entity, in lieu of having a certificate of title issued in the person’s name, may provide a bill of sale together with the court order or other instrument entitling the person or entity to the vehicle and any existing certificate of title, if available, to the buyer or transferee upon sale or transfer of the vehicle. (3-20-20)T

**02. Law Enforcement Agencies.** Vehicles awarded to law enforcement agencies through operations of law are not required to be titled if the vehicle is not to be put into service by the agency and is to be sold or transferred. In this case, the agency may provide a bill of sale to the purchaser together with a copy of the court order or other instrument awarding the vehicle to the agency, and any existing certificate of title, if available. (3-20-20)T

**03. Inheritance.** Vehicles coming into possession by inheritance will not be required to be titled in the name of the heir when the intent of the heir is not to use or register the vehicle, but to dispose of the vehicle to a transferee. Upon sale or transfer of the vehicle, the heir will provide a bill of sale to the purchaser or gift transfer affidavit to the transferee, together with an affidavit of inheritance or small estate affidavit and any existing certificate of title if available. (3-20-20)T

**901. – 999. (RESERVED)**

## 39.02.22 – RULES GOVERNING REGISTRATION AND PERMIT FEE ADMINISTRATION

### 000. LEGAL AUTHORITY.

This rule, governing registration and permit fee administration as provided for in Sections 49-434 and 49-439, Idaho Code, is adopted under authority of Section 49-201, Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE.

**01. Title.** This rule is titled IDAPA 39, Title 02, Chapter 22, “Rules Governing Registration and Permit Fee Administration.” (3-20-20)T

**02. Scope.** This rule clarifies the procedures for administering registration and permit fees. (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. DEFINITIONS.

**01. Combination of Vehicles.** A tractor or truck tractor and one (1) or more trailers and/or semitrailers. (3-20-20)T

**02. Customer.** The individual or entity that is registering/permitting the vehicle. The following terms; customer, individual, company or registrant are interchangeable in this rule. (3-20-20)T

**03. Insufficient Funds (ISF).** ISF will be the abbreviation as it pertains to checks written on personal and/or business checking accounts without sufficient funds to cover the check, for payment to the department. (3-20-20)T

**04. Non-Reducible Load.** Defined in IDAPA 39.03.01, Rules Governing Definitions Regarding Special Permits. (3-20-20)T

**05. Probable Cause.** Information sufficient to create a reasonable belief that the registrant of a motor vehicle(s) has either not paid fees due or has under reported miles traveled or has underpaid fees due. (3-20-20)T

**06. Quarterly Report.** The form for registrants to report the laden miles traveled on Idaho highways during the preceding three (3) months when transporting non-reducible vehicles/loads under annual overweight/oversize permits. (3-20-20)T

**07. Revocation of Registration.** The termination of a registrant’s vehicle registrations and authority to operate on Idaho highways for failure to comply with requirements specified by the Department and Idaho Code. (3-20-20)T

**08. Registrant.** A person, firm, or corporation in whose name a vehicle or vehicles are registered, with an Idaho account number assigned by the department. (3-20-20)T

**09. Road Use Fee.** The fee per mile paid for non-reducible vehicles or combinations of vehicles hauling non-reducible loads. The fees are based on the number of axles on the vehicle or combination of vehicles and the total gross weight, in addition to the registration fee. (3-20-20)T

**10. Suspension of Registration.** The temporary withdrawal of a registrant’s vehicle registrations and authority to operate on Idaho highways for failure to comply with requirements specified by the department and Idaho Code. (3-20-20)T

**11. Third-Party Checks.** Checks payable to one entity, and endorsed over to another entity for payment. (3-20-20)T

### 011. -- 099. (RESERVED)

### 100. QUARTERLY ROAD USE FEE REPORTS FOR ANNUAL OVERWEIGHT PERMITS.

To comply with Section 49-1001, Idaho Code, the customer will make quarterly reports of laden only mileage to the department for the movements of non-reducible vehicle/loads, at the appropriate permitted weight level of the annual overweight/oversize permits. These fees are in addition to the registration fees required to be paid to the department. Mileage and road use fees for single trip overweight/oversize permits are calculated and collected at the time of issuance and are not reported quarterly. (3-20-20)T

**101. QUARTERLY ROAD USE FEE REPORTING.**

**01. Quarterly Reporting Forms Issued.** The department will generate an online quarterly report form for each valid annual overweight/oversize permit issued to them. Customers can choose to opt-in and receive a printed form via mail. (3-20-20)T

**02. Use of Quarterly Reporting Form.** The customer is required to report each quarter's information on the form provided online or on a Department printed copy that will be mailed on or before the due date specified on the quarterly report form, even when reporting zero (0) miles traveled. (3-20-20)T

**a.** If the customer does not receive a quarterly report form or report their information online, it is the customer's responsibility to notify the department allowing adequate time to submit the report before the due date. (3-20-20)T

**b.** Any report transmitted through the US Postal Service shall be considered filed and received by the department on the date shown by the post office cancellation mark stamped on the envelope or wrapper containing the report. A postage meter cancellation shall not be considered as a post office cancellation mark. (3-20-20)T

**c.** If the quarterly report form due date falls on a Saturday, Sunday, or legal holiday, the due date will be extended to the next business day. (3-20-20)T

**d.** Quarterly reports not submitted will result in the account being suspended. (3-20-20)T

**03. Information Required on the Quarterly Report Form.** Customers must report the following: (3-20-20)T

**a.** The number of laden miles traveled on Idaho highways when operating under an annual overweight/oversize permit with non-reducible vehicles and/or load that exceed eighty thousand (80,000) pounds and/or legal axle weights for the appropriate weight category for the quarter specified on the quarterly report form, rounded to the next full mile; and the road use fee due; and penalty, if the report is filed after the due date. (3-20-20)T

**b.** Total amount due. (3-20-20)T

**c.** Signature and title of company official, and date of report. All reports filed with the department must be signed by an authorized representative of the company/individual in order to be considered a valid report even if zero (0) miles are being reported. (3-20-20)T

**d.** Address change, if different from quarterly report form. (3-20-20)T

**e.** Customer telephone number (3-20-20)T

**102. -- 199. (RESERVED)**

**200. INSTALLMENT PAYMENTS FOR COMMERCIAL VEHICLE REGISTRATION.**  
The department offers a Payment Plan for registrants in compliance with Sections 49-434, Idaho Code. (3-20-20)T

**01. Requirements to Participate in Installment Payments.** (3-20-20)T

**a.** Participant must sign participation contract agreement. (3-20-20)T

**b.** Only Full Fee and Idaho IRP registration fees are included in the payment plan. Other jurisdictions' IRP fees shall not be included. (3-20-20)T

**c.** Only full annual registration fees shall be included in payment plan. Registrations for less than one full year shall not be included. (3-20-20)T

**d.** Vehicles not registered within thirty (30) days after the previous year registration has expired shall not be eligible for the installment payment option. Submitted applications for registration that have been invoiced, but not paid for, by the last day of the registration effective month shall not be eligible for the installment payment option. (3-20-20)T

**e.** Installment contract requirements do not provide opportunity for registrant to opt out of any remaining installment payments. The balance of the payment plan shall continue to be paid even if the truck is not being operated. (3-20-20)T

**f.** If registrant meets the criteria in Section 300 of this rule, the prorated portion of the Idaho fee shall be credited toward the installment plan or refunded if the plan has been paid in full. (3-20-20)T

**g.** Registrant shall not participate in installment payment plan if the registrant's account has previously been suspended as stated in Subsection 200.06 of this rule. (3-20-20)T

**h.** The contract shall stipulate the payment periods and the installment payment vouchers shall stipulate the due dates of each subsequent payment. (3-20-20)T

**i.** An installment payment plan fee of fifty dollars (\$50) shall be required and collected at the time of setup for each installment payment plan created. (3-20-20)T

**02. Billings, Payments and Due Dates of Installment Plan.** (3-20-20)T

**a.** The department shall upon acceptance of the contract by the registrant, receive one-quarter of the annual registration fee along with the installment payment plan fee, and then shall bill the registrant for three (3) equal installments based upon the previously set payment periods outlined in the contract, which are due by the end of the third, sixth, and ninth months after the effective date of the registration. (3-20-20)T

**b.** Installment payment vouchers will be provided with the initial invoice. (3-20-20)T

**c.** US Postal Service postmark shall be used to determine if payment is received on time. If the envelope is postmarked on or before the last day of the month, the payment shall be considered "on time." (3-20-20)T

**d.** If the last day of the month falls on a Saturday, Sunday or legal holiday, the next business day shall be considered the due date. (3-20-20)T

**e.** Failure to retain provided payment vouchers does not relieve the burden of the registrant to pay the installment amount by the due date. (3-20-20)T

**03. Failure to Pay Installment Payment by Due Date.** (3-20-20)T

**a.** The department shall send out courtesy pre-suspension notices approximately five (5) days after the due date to registrants who have failed to remit payment by the due date printed on the quarterly billing. (3-20-20)T

**b.** The pre-suspension letter shall contain a late penalty fee of ten percent (10%) of the amount due and an additional one percent (1%) for each month or portion of a month that the payment is past due. (3-20-20)T

**c.** Registrant shall pay installment amount portion that is due, plus assessed penalties and interest. (3-20-20)T

**04. Suspension of Registrant's Account Due to Non-Payment of Payment Plan.** Approximately two (2) weeks after pre-suspension notices are mailed to the registrant, the department shall suspend accounts of registrant's that have failed to remit installment payment and/or interest and penalty. (3-20-20)T

**05. Reinstatement Fee for Payment Plan Registration.** (3-20-20)T

**a.** A forty dollar (\$40) reinstatement fee shall be applied to all payment plan accounts that have been suspended. (3-20-20)T

**b.** Registrant must pay quarterly payment portion, penalty and interest, if applicable, and reinstatement fee before suspension shall be cleared from account. (3-20-20)T

**06. Repetitive Suspensions Result.** (3-20-20)T

**a.** After the registrant's account has been suspended for delinquent installment payments two (2) or more times, the registrant shall not be allowed to participate in future payment plan programs unless; (3-20-20)T

**i.** Customer has twelve (12) consecutive months of no suspensions related to the account starting from the month the account is cleared; and (3-20-20)T

**ii.** Customer requests in writing to the department to participate in future installment payment plans and will be allowed to do so. (3-20-20)T

**201. -- 299. (RESERVED)**

**300. REFUNDS.**

**01. Fees Eligible for Refund.** (3-20-20)T

**a.** Commercial vehicle registration is eligible for refund when the criteria in Section 49-434, Idaho Code, are met. (3-20-20)T

**b.** If account has been overpaid, and no other fees are owed to the department. (3-20-20)T

**c.** Unexpired portion of Idaho based fees are refundable for: (3-20-20)T

**i.** A vehicle that has been sold or repossessed; (3-20-20)T

**ii.** A vehicle that has been damaged beyond repair; or (3-20-20)T

**iii.** A vehicle on which the lease has been terminated. (3-20-20)T

**iv.** Other refund requests will be reviewed and approved or denied on a case by case basis. (3-20-20)T

**02. Fees Not Eligible for Refunds.** Other jurisdiction's fees are not refundable by Idaho. (3-20-20)T

**03. Request for Refunds:** (3-20-20)T

**a.** Registrant can make a request for refund of fees from the department. The refund request must include: (3-20-20)T

**i.** Proof of sale or repossession of the vehicle; (3-20-20)T

**ii.** Proof from the insurance company or law enforcement agency that the vehicle has been damaged beyond repair; or (3-20-20)T

**iii.** Proof of lease termination from the leasing company. (3-20-20)T

**b.** Request shall be subject to audit as provided in Idaho Code. (3-20-20)T

**c.** All refund requests shall be reviewed to ensure that all requests are valid and eligible. The Revenue Operations supervisor shall also approve/disapprove refunds. If the refund amount is greater than or equal to one thousand (\$1,000) dollars, a Financial Services manager shall also review and approve/disapprove the request before

refund is processed. (3-20-20)T

**d.** Approval/disapproval shall be indicated by either signature, or electronic approval by means of the department's financial management system. (3-20-20)T

**301. -- 599. (RESERVED)**

**600. INSUFFICIENT FUNDS.**

Insufficient Funds will be indicated by the abbreviation ISF. (3-20-20)T

**01. Payment With Insufficient Fund Check.** If a customer pays a fee by check and the check is returned to the department as ISF, the transaction will be cancelled. The department reserves the right to not accept checks from a customer who has written two (2) or more ISF checks within four (4) years to the department. That customer will have to pay with cash, or verifiable check, or credit card. (3-20-20)T

**02. Suspension of Account.** The department will suspend the customer's account until the customer has paid the amount of the ISF check, along with the twenty dollar (\$20) ISF fee. (3-20-20)T

**03. No Further Transactions.** The department will not complete further transactions with the customer until the customer has paid the amount of the ISF check along with the twenty dollar (\$20) ISF fee. (3-20-20)T

**601. ACCEPTANCE OF CHECKS.**

The department will accept personal checks as form of payment with sufficient proof of identification. If check payment is received by mail, the check will be accepted unless the customer has written two (2) or more ISF checks within four (4) years to the department, per Subsection 600.01 of this rule. (3-20-20)T

**602. CREDIT CARD PAYMENTS.**

The department will accept only Visa, Discover, American Express, or Mastercard for any fees due to or purchases from the department. (3-20-20)T

**603. -- 699. (RESERVED)**

**700. SUSPENSION OF REGISTRATION.**

The department shall suspend the vehicle registration(s) by notifying the registrant in writing sent via first class pre-paid mail to the registrant's last known address if: (3-20-20)T

**01. Failure to Comply.** The registrant fails to comply with a billing letter requesting payment of fees and penalties. (3-20-20)T

**02. Non-Filing by the Registrant.** The registrant does not file quarterly reports or make installment payments to the department. (3-20-20)T

**701. REVOCATION OF REGISTRATION.**

The department shall revoke the vehicle registration(s) if the registrant fails to comply with a suspension notice within fifteen (15) days of receipt of the notice. (3-20-20)T

**702. REQUIREMENTS FOR REINSTATEMENT OF REVOKED OR SUSPENDED VEHICLE REGISTRATION.**

**01. Revocation.** In the case of a revocation, a registrant must pay all fees due and a forty dollar (\$40) reinstatement fee to be reinstated and must also re-register to resume operating. (3-20-20)T

**02. Suspension.** In the case of a suspension all fees, reports, and records required prior to the suspension must be provided to the department, including a forty dollar (\$40) reinstatement fee. (3-20-20)T

**703. REQUIREMENTS FOR COLLECTIONS.**

All unpaid amounts owed to the department may be sent to an external collection agency. Collection agencies may charge a fee for their efforts in collection of a debt as per Section 67-2358, Idaho Code. Accounts that have been assigned to a collection agency must pay the collection agency all fees due. The department will not accept the payment once assigned to the collection agency. (3-20-20)T

**704. -- 799. (RESERVED)**

**800. ENFORCEMENT.**

**01. Delayed Movement.** If the registration of a vehicle is suspended the Ports of Entry shall delay movement of the vehicle until such time as the registrant complies with the condition(s) that caused the suspension. (3-20-20)T

**02. Revoked Registrations.** If a registrant's registrations are revoked for failure to respond to a suspension notice, the motor vehicle cannot be operated on Idaho highways until the registrant complies with Section 702 of this rule. Registrants with outstanding balances owed to the department or revoked registrations are not eligible to purchase trip permits. (3-20-20)T

**801. -- 899. (RESERVED)**

**900. APPEAL PROCEDURE.**

**01. Filing of Appeal.** A registrant wishing to contest a penalty or suspension of a registration or an account may file an appeal within ten (10) days of receipt of the notice. (3-20-20)T

**02. Delivery of Appeal.** The appeal must be either hand delivered or mailed to Compliance Manager, Idaho Transportation Department, P.O. Box 7129, Boise, Idaho 83707-1129. (3-20-20)T

**03. Delivery of Decision.** A copy of the final decision in response to the request will be sent to the registrant. (3-20-20)T

**901. -- 999. (RESERVED)**

**39.02.26 – RULES GOVERNING TEMPORARY VEHICLE CLEARANCE FOR CARRIERS**

**000. LEGAL AUTHORITY.**

This rule is adopted under the authority of Sections 49-201, 49-202, and 49-501, Idaho Code. (3-20-20)T

**001. TITLE AND SCOPE.**

**01. Title.** This rule is titled IDAPA 39.02.26, “Rules Governing Temporary Vehicle Clearance for Carriers,” IDAPA 39, Title 02, Chapter 26. (3-20-20)T

**02. Scope.** This rule provides for temporary vehicle clearance (TVC) procedures in Idaho, self issued by carriers or issued by the Department. (3-20-20)T

**002. -- 009. (RESERVED)**

**010. DEFINITIONS.**

**01. Carrier.** The person or company who is qualified for registration in Idaho, and whose vehicles are issued Temporary Vehicle Clearances. (3-20-20)T

**02. Temporary Vehicle Clearance (TVC).** Temporary clearance issued for immediate operation of a vehicle pending receipt of credentials. (3-20-20)T

**011. -- 099. (RESERVED)**

**100. ADMINISTRATION.**

Temporary Vehicle Clearances, valid for a maximum of forty-five (45) days or to the registration year expiration date, may be issued to a carrier whose account is in good standing. (3-20-20)T

**101. -- 199. (RESERVED)**

**200. ISSUANCE OF TVC.**

**01. Temporary Vehicle Clearances.** Carriers may request temporary vehicle clearances online, from the department or an Idaho port of entry. Fees are payable when the clearance is issued. (3-20-20)T

**201. ISSUANCE OF VEHICLE REGISTRATION (CAB CARD) AND LICENSE PLATE(S).**

**01. Issuance of Vehicle Registration & License Plate(s).** The vehicle registration and license plate(s) may be issued when: (3-20-20)T

**a.** The online application is received by the Department and all licensing requirements are met; (3-20-20)T

**b.** The carrier submits a copy of an Idaho title or title receipt showing that the vehicle is titled in the owners name; (3-20-20)T

**02. Permanent Identification.** When all criteria are met, a registration and a validation plate and/or sticker will be issued. (3-20-20)T

**202. -- 299. (RESERVED)**

**300. COST AND PAYMENT.**

The fee for temporary vehicle clearances issued via facsimile transceiver equipment or self issued by the carrier is eighteen dollars (\$18) per clearance, payable in advance by the carrier. (3-20-20)T

**301. -- 999. (RESERVED)**

**39.02.41 – RULES GOVERNING SPECIAL PROVISIONS APPLICABLE TO FEES FOR SERVICES**

**000. LEGAL AUTHORITY.**

This rule is adopted under the authority of Sections 49-201, Idaho Code. (3-20-20)T

**001. TITLE AND SCOPE.**

This rule is titled IDAPA 39.02.41, “Rules Governing Special Provisions Applicable to Fees for Services,” and identifies special provisions applicable to fees for services not specifically outlined in Title 49, Idaho Code. (3-20-20)T

**002. -- 099. (RESERVED)**

**100. ADMINISTRATION.**

Idaho Code provides for the collection of fees for related services. This rule provides for automation considerations and a fee schedule to uniformly apply the fee provided by Section 49-202(2)(h), Idaho Code. The following fees apply for services and copies of files regarding motor vehicle or other registrations, motor vehicle titles, driver’s licenses or commercial driver’s licenses, and are based on the per hour charge specified in Section 49-202(2)(h), Idaho Code. (3-20-20)T

**01. Paper or Imaged Records.** Copies of supporting driver’s license, registration, or title records from paper or imaged records, based on an average of twenty-four (24) minutes to fully process these requests at the per-hour rate specified in Section 49-202(2)(h), Idaho Code, and rounded to the nearest whole dollar. (3-20-20)T

**02. Automated Records.** Idaho Code does not provide a fee for complete county or statewide automated copies of registration or title files. A fee has been based on the costs to produce special file requests. (3-20-20)T

**a.** A base charge for programs requiring: One (1) to three (3) sorts, seventy-five dollars (\$75). Each additional sort, twenty-five (\$25). (3-20-20)T

**b.** In addition to the above, the computer cost, printer cost and tape access cost, as established by the information technology section will be charged. (3-20-20)T

**c.** Any mailing, shipping or special handling costs will also be added to the charges. (3-20-20)T

**03. Electronic Media Must Be Provided.** Requestors must provide electronic media for this purpose, unless the file can be transmitted electronically. Data is provided in a standard department format. Vehicle or driver history information is not included. The only selection criterion is by counties. (3-20-20)T

**04. Records Provided Free of Charge.** Motor vehicle and driver records will be provided free of charge to the following: (3-20-20)T

**a.** State Agencies. (3-20-20)T

**b.** County Assessors. (3-20-20)T

**c.** County Sheriffs. (3-20-20)T

**d.** Peace Officers requesting records in the performance of their duties as per Section 49-202(3), Idaho Code. (3-20-20)T

**05. Rules for Providing Records Free of Charge.** The Division of Motor Vehicles will observe the following guidelines when providing records free of charge: (3-20-20)T

**a.** Records will be provided free of charge only if they are a standard computer run that does not require special programming and/or sorting. Records requiring special handling will be provided for a fee equal to the cost of the additional handling. (3-20-20)T

**b.** Records will be provided free of charge electronically or on electronic media supplied by the requestor, or as a standard computer printout. All other formats will be provided for a fee equal to the cost of the additional materials. (3-20-20)T

**c.** The Assessor’s Clearinghouse and the Sheriff’s Clearinghouse shall each establish a single

standardized computer printout that will be used for all motor vehicle and driver requests from their respective agencies. (3-20-20)T

**d.** Records access agreements between the Division of Motor Vehicles and government agencies requesting motor vehicle and driver records shall be negotiated and renewed annually, and shall contain a list of all personnel who will have access to the records and/or on-line terminals. (3-20-20)T

**e.** On-line computer installation and equipment shall be charged at a rate defined in the annual agreement. (3-20-20)T

**101. -- 199. (RESERVED)**

**200. LAW ENFORCEMENT INQUIRIES.**

The Department provides full access to motor vehicle files by Law Enforcement at no charge through the Idaho Law Enforcement Telecommunication Systems (ILETS). There is also no charge to Law Enforcement for certified motor vehicle or driver record packets to peace officers. For additional services beyond access to motor vehicle records (special reports, etc...), actual costs incurred by the Department will be charged. (3-20-20)T

**201. JURY LISTS.**

Idaho Code provides for the use of motor vehicle records for jury lists. The Department does not charge the counties for this use. (3-20-20)T

**202. SPECIAL AGREEMENTS.**

**01. Agreements for Services.** The Department may enter into agreements for services and copies of motor vehicle files to requestors with special highway safety and statistical reporting requirements. Initial costs incurred by the Department shall be reimbursed by the requestor. Ongoing charges or fees will be based on the agreement. (3-20-20)T

**02. Right to Receive Information Subject to Idaho Code.** This rule is not intended to imply that a requestor has the right to receive information. The fees, as stipulated in this rule, apply when the requestor is eligible to receive the information, subject to Idaho Code. (3-20-20)T

**203. MISCELLANEOUS.**

The fee for vehicle inquiries by name will be based on the proper fee per vehicle record. Commercial vehicle inquiries shall be based on a per vehicle record fee. (3-20-20)T

**204. -- 999. (RESERVED)**

## 39.02.60 – RULES GOVERNING LICENSE PLATE PROVISIONS

### 000. LEGAL AUTHORITY.

This rule, establishing the policies used to administer Idaho's standard and specialized license plate programs, is adopted under the authority of Section 49-201, Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE.

**01. Title.** These rules are titled IDAPA 39.02.60 "Rules Governing License Plate Provisions." (3-20-20)T

**02. Scope.** This rule governs license plate provisions for standard license plates not otherwise detailed in Title 49, Idaho Code, and provisions for all specialty program license plates, personalized plates, and special eligibility plates. Subchapter A further establishes provisions for administering the exempt and undercover license plate programs not otherwise detailed in Title 49, Chapter 4, Idaho Code. (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. DEFINITIONS.

**01. Authorized Employees.** Authorized employee as used in this rule means any non-salesperson or employee who is paid compensation for a minimum of thirty (30) hours each week, and appears on the records of the employer as an employee for which social security, income tax, and all deductions required by law have been made. (3-20-20)T

**02. Exempt License Plate.** Standard license plate issued to the entities described in Section 49-426(1), Idaho Code, which are exempt from payment of vehicle operating fees. (3-20-20)T

**03. Exempt Personalized License Plate.** An exempt plate which identifies the agency by a unique identifier specified by the agency that does not conform to the standard exempt identifier listed in Section 400; a plate wherein the serial number portion represents inventory control numbers, badge numbers, radio call signs, or other unique lettering or numbering schemes developed by the requesting agency; plates that are lettered and/or numbered to indicate a person's position in the hierarchy of an agency. (3-20-20)T

**04. Furtherance or Pursuance of Business.** Furtherance or pursuance of business as used in this rule or in Section 49-1627, Idaho Code, means any lawful use of a dealer or loaner plate by an authorized employee of a dealership for the movement of a vehicle to be sold, repaired or transferred from one (1) location to another. (3-20-20)T

**05. Leased or Rented Vehicles.** Leased or rented vehicles owned by the licensed dealer as used in Section 49-1627, Idaho Code, means vehicles titled in the name of the dealership which are leased or rented on a contractual basis to the public. (3-20-20)T

**06. Undercover License Plate.** A standard license plate issued upon application to the Department from an exempt agency with law enforcement authority. Undercover license plates will be randomly issued by the Department, and appear as a standard county plate. (3-20-20)T

**07. Vehicles Not Held in Stock.** Vehicles not held in stock for sale as used in Section 49-1627, Idaho Code, means vehicles titled in the name of the dealership or vehicles which cannot be titled or for which the dealership does not hold title. (3-20-20)T

**08. Vehicles Sold.** Vehicles which have been sold as used in Section 49-1627, Idaho Code, means vehicles for which a dealer has a signed contract of sale or other vehicles not belonging to the dealership. (3-20-20)T

### 011. LICENSE PLATE PROVISIONS FOR ALL LICENSE PLATES.

**01. Plate Numbering and Lettering.** The Idaho Transportation Department is authorized to assign unique plate letter/number spacing schemes and to use specific letter/number combination schemes as needed for the purpose of ensuring unique numbering systems for all license plate programs and to administer the provisions of this rule. (3-20-20)T

**02. Plate Life Expiration Date.** License plates will be valid for the period described in 49-443 (2) and will expire on the last day of the month, consistent with the month of the registration expiration. (3-20-20)T

**012. PROOF OF REGISTRATION FOR NEW, REPLACEMENT, OR REISSUED LICENSE PLATES.**

**01. Proof of Registration Document.** Upon receipt of payment for required registration and program fees proof of registration receipt document may be issued, indicating “license plates on order.” This option will be used whenever license plates are manufactured after the registration transaction has been completed. The proof of registration receipt document will provide proof that the vehicle has been registered and fees have been paid, and the vehicle may be operated until new plates have been received by the registrant. At the discretion of the Department, more than one (1) proof of registration may be issued, if needed, in order to manufacture license plates. (3-20-20)T

**02. Placement of Proof of Registration Document.** The proof of registration receipt document will be displayed in the rear window or on the rear of the vehicle for which it is issued in a manner that is readily legible for a distance of twenty five (25) feet and will be legible throughout the duration of the permit. When issued to a convertible, motorcycle, or other vehicle in which it is not possible to display in the rear window, the proof of registration must be conspicuously displayed where the expiration date of the newly issued plate may be easily read at a distance of twenty five (25) feet, and where it is protected from exposure to weather conditions, which would render it illegible. (3-20-20)T

**03. Issuance of Manually Completed Temporary Registrations When Automated System is Unavailable.** Upon receipt of payment for required registration and program fees, the county may issue a manual temporary registration valid for thirty (30) days, through use of a temporary form provided by the Department, in the event the automated system is unavailable. When the system resumes normal operation, the county office will enter such registration information in the system, and produce the registration form and validation decals and mail to the registered applicant. The manual temporary registration form will be displayed in the rear window of the vehicle for which it is issued in a manner that is readily legible for a distance of twenty five (25) feet and will be legible throughout the duration of the permit. When issued to a convertible, motorcycle, or other vehicle in which it is not possible to display in the rear window, the temporary registration must be conspicuously displayed where the expiration date of the permit may be easily read at a distance of twenty five (25) feet, and where it is protected from exposure to weather conditions, which would render it illegible. (3-20-20)T

**013. -- 099. (RESERVED)**

**100. LICENSE PLATE PROVISIONS FOR STANDARD PLATES.**

**01. County Designations.** The county in which a vehicle is registered will be designated by a number and letter on license plates for passenger cars, pick-up trucks eight thousand (8,000) pounds and under gross weight, hearses, ambulances, wreckers, farm vehicles between eight thousand one (8,001) and sixty thousand (60,000) pounds gross weight, and recreational trailers. The county designators are as follows:

<b>County Designations</b>			
1A - Ada	2A - Adams	1B - Bannock	2B - Bear Lake
3B - Benewah	4B - Bingham	5B - Blaine	6B - Boise
7B - Bonner	8B - Bonneville	9B - Boundary	10B - Butte
1C - Camas	2C - Canyon	3C - Caribou	4C - Cassia
5C - Clark	6C - Clearwater	7C - Custer	E - Elmore
1F - Franklin	2F - Fremont	1G - Gem	2G - Gooding
I - Idaho	1J - Jefferson	2J - Jerome	K - Kootenai
1L - Latah	2L - Lemhi	3L - Lewis	4L - Lincoln
1M - Madison	2M - Minidoka	N - Nez Perce	1O - Oneida
2O - Owyhee	1P - Payette	2P - Power	S - Shoshone
1T - Teton	2T - Twin Falls	V - Valley	W - Washington

(3-20-20)T

**02. Designation for Farm Vehicles.** License plates for farm vehicles between eight thousand one (8,001) and sixty thousand (60,000) pounds gross weight will have the county designator, then a unique serial number followed by the letter "T". (3-20-20)T

**03. Designation for Recreational Vehicles.** License plates for recreational trailers will have the county designator, then a unique serial number followed by the letter "R". (3-20-20)T

**04. Designations for Motor Homes.** License plates for motor homes will have the county designator, then a unique serial number followed by the letter "M". (3-20-20)T

**101. LICENSE PLATE PROVISIONS FOR RESTRICTED VEHICLE PLATES.**

Per Section 49-402 (4), Idaho Code, the Idaho Transportation Department will provide restricted vehicle plates for issuance to all-terrain vehicles, utility type vehicles, and motorbikes. Idaho Transportation Department will provide these plates to county DMV offices and to the Idaho Department of Parks and Recreation (if needed). Per Section 49-443(1), Idaho Code, such plates will be four inch by seven inch (4" x 7") plates, be printed with a combination of letters and numbers as determined by the department, and be printed in black on a white reflective background. Plates will be printed with "Idaho Restricted Vehicle" on the top and no other inscription. The plate will also have a decal placed in the lower left-hand corner indicating the year it is required to be re-placed. The plate will not be valid without the registration sticker, issued pursuant to Section 67-7122, Idaho Code, affixed to the lower right-hand corner of the plate. Idaho restricted vehicle plates may not be personalized. (3-20-20)T

**102. -- 149. (RESERVED)**

**150. VEHICLE DEALER LICENSE PLATES FORMATS.**

**01. Designation for Manufacturers Plates.** Plates issued to manufacturers will bear the designation "MFR" and be numbered from nine thousand (9000) through nine thousand, nine hundred, ninety-nine (9999). (3-20-20)T

**02. Designation for Dealer Plates.** Plates issued to dealers will bear the designation "DLR" and the sequential license plate number will be a maximum of two (2) digits. (3-20-20)T

**a.** If a dealer is issued more than ninety-nine (99) plates, an alpha character will be placed in the first position, followed by a number. (3-20-20)T

**b.** The dealer number will be a maximum of four (4) digits. No dealer number may be preceded by a zero (0): Dealer number one (1), plate number one (1): 1-01; Dealer number one thousand one (1001), plate number one hundred (100): 1001-A1. (3-20-20)T

**c.** Dealer restricted vehicle plates will display the abbreviation "DLR" within the lower left hand box labeled "Restricted Vehicle". The dealer validation sticker will be displayed within the box labeled "Dealer Validation Sticker". (3-20-20)T

**151. VEHICLE DEALER LICENSE PLATES RESTRICTIONS.**

**01. Restrictions.** Restrictions on the use of manufacturer or dealer plates are provided for by Section 49-1627, Idaho Code. In addition, the following restrictions apply: (3-20-20)T

**a.** Authorized employees may operate vehicles displaying dealer plates only when operated in the furtherance of the dealer's business. The authorized employee must carry an identification card issued by the dealer. The identification card will contain the employee name, dealership, date of issue, dealer number and signature of an authorized representative of the dealership and the signature of the employee. This use will be limited to normal business hours unless the operator is in possession of a letter from the dealer listing the specific reason for the after-hour use. (3-20-20)T

**b.** A manufacturer will not display manufacturer plates on vehicle types other than those manufactured by the manufacturer. (3-20-20)T

**c.** A new or used motorcycle dealer will not display motorcycle dealer plates on other vehicle types nor on a new motorcycle that the dealer is not enfranchised to sell. (3-20-20)T

**d.** A new vehicle dealer will not display new vehicle dealer plates on new vehicles that the dealer is not enfranchised to sell. (3-20-20)T

**e.** A new or used motorbike, all terrain vehicle, or utility vehicle dealer will not display dealer restricted vehicle plates on other vehicle types nor on any new motorbike, all terrain vehicle, or utility vehicle that the dealer is not enfranchised to sell. (3-20-20)T

**f.** Vehicles displaying a dealer restricted vehicle plate are not required to display the Idaho Department of Parks and Recreation Off-highway registration to be valid, but are required to be validated in the same manner as are standard dealer plates and display the required annual validation sticker on the restricted plate. Use will be permitted pursuant to Section 49-426 (3) and (4), Idaho Code. (3-20-20)T

**g.** A prospective purchaser will not have in his possession a vehicle belonging to a dealership after normal business hours without a letter of authority from the dealership. (3-20-20)T

**h.** A dealer or manufacturer will not display a dealer plate for purposes other than provided for by law or regulation. (3-20-20)T

**02. Penalties.** In addition to the penalties for violation of plate use provided for in Section 49-236, Idaho Code, a dealer or manufacturer may have his license to do business in Idaho suspended for a period not less than fifteen (15) days nor more than thirty (30) days. (3-20-20)T

**152. VEHICLE DEALER LOANER PLATES.**

**01. Numbering.** Plates will be numbered from LAA001 to LZZ999. (3-20-20)T

**02. Surrender of Plates.** If the dealership license becomes invalid, the dealer must surrender the registration and loaner plates that have been issued. There will be no refund of fees. (3-20-20)T

**03. Vehicle Log.** Dealerships will maintain a vehicle log of each vehicle on which a loaner plate is displayed. The log will be available for inspection by any peace officer or agent of the Department and contain the: (3-20-20)T

**a.** Vehicle Identification Number (VIN) or dealership stock number if such stock number can be traced to the vehicle's VIN; (3-20-20)T

**b.** Date(s) the plates were displayed on a vehicle; (3-20-20)T

**c.** Number printed on the plate displayed; (3-20-20)T

**d.** Name of person authorized to use the plate; and (3-20-20)T

**e.** Purpose for which vehicle was used. (3-20-20)T

**04. Identification Card.** The Department will provide an identification card, (registration) for each plate showing the: (3-20-20)T

**a.** Dealership name and address; (3-20-20)T

**b.** Number printed on the plate; (3-20-20)T

- c. Calendar year for which the registration is valid; (3-20-20)T
- d. Dealer number; (3-20-20)T
- e. Date of issue; and (3-20-20)T
- f. A place for the dealer's signature. (3-20-20)T

**05. Letter of Authorization.** Persons using the plate on loaner vehicles while waiting for their own vehicle to be repaired will have in their possession a letter of authorization or a document showing both the user and dealership name. The document or letter must be signed and dated by an authorized employee of the dealership. (3-20-20)T

**06. Vehicle Use Donation for Civic and Charitable Events.** Licensed dealers may authorize the use of their loaner plates when donating the use of vehicles held in their inventory for civic or charitable events. Such time period will not exceed thirty (30) days. The dealer will provide a letter of authorization to be carried in the vehicle and proof of current liability insurance, as required by Chapter 12, Title 49, Idaho Code. (3-20-20)T

**07. User Fee.** The dealer may charge the user a fee for vehicles held in stock for sale and provided to a customer of a dealership while the customer's vehicle is being repaired. (3-20-20)T

**08. Fees.** The fees charged for dealer loaner plates will be the same as the fees required by Section 49-402, Idaho Code, for new vehicles, and will be in addition to the current Emergency Medical Service (EMS) and plate fees. Applicants for new loaner plates received after January 1 will be charged one-twelfth (1/12) the annual fee required for a new vehicle for each month remaining in the licensing year, including the month of application. The annual EMS and plate fees are not prorated. (3-20-20)T

### **153. VEHICLE DEALER TRANSPORTER REGISTRATION AND PLATE.**

**01. Purpose.** Utility and boat trailers that weigh under two thousand (2,000) pounds unladen may be moved by a manufacturer, dealer, or an employee of either, or by a transporter service contracted by the vehicle's manufacturer or dealer upon registration and payment of an annual fifteen dollar (\$15) transporter plate fee to the department, or by purchase of a single trip permit. These plates may be used only on boat trailers and utility trailers for demonstration purposes, and may be used while laden for demonstration purposes. (3-20-20)T

**02. Numbering of Plates.** Transporter plates will be numbered from PA1 TO PZ9999. Transporter plates are required to be displayed on the rear of the trailer. (3-20-20)T

**03. Renewal of Plates.** The transporter registration and plate are valid for one (1) year from January 1 through December 31 and may be renewed by use of a registration sticker showing the year of validation. (3-20-20)T

**04. Use of Plates.** Transporter plates may be moved by registrants from one (1) utility or boat trailer weighing under two thousand (2,000) pounds unladen to another trailer meeting this criteria during the current registration period. Vehicles towing a laden trailer displaying a transporter plate must be registered within the appropriate gross vehicle weight category for the combined load. (3-20-20)T

**05. Possession of Registration.** When transporting a vehicle displaying a transporter plate, the operator of a towing vehicle will carry the transporter registration in the towing vehicle at all times. (3-20-20)T

**06. Violations.** Violations of this section include: (3-20-20)T

- a. Display of a transporter plate on any vehicle not required to be registered under this Section; and (3-20-20)T
- b. Display of a transporter plate on a vehicle not lawfully under the control of the registration holder. (3-20-20)T

**07. Penalties:** (3-20-20)T

**a.** Violation of this section will be a misdemeanor as provided for by Section 49-236, Idaho Code; and (3-20-20)T

**b.** The plate and registration of anyone who displays a transporter plate other than provided for by this section may be canceled. (3-20-20)T

**154. PROVISIONS FOR WRECKER PLATES.**

**01. Purpose.** Wrecker plates are for the exclusive use of businesses engaged in the towing of a wrecked, abandoned, salvaged, or disabled motorized vehicle. Plates will not be used on vehicles being repossessed. (3-20-20)T

**02. Numbering of Plates.** Plates will be numbered as determined by the department and will display the abbreviation "WRKR" vertically on the left hand side of the plate. (3-20-20)T

**03. Renewal of Plates.** The wrecker registration and plate are valid for one (1) year from January 1 through December 31 and may be renewed by use of a registration sticker showing the year of validation. (3-20-20)T

**04. Use of Plates.** Plates are not to be displayed on the towing power unit vehicle nor are they to be used on a vehicle not being towed. Plates are to be displayed on the rear of the towed vehicle in such a manner as to be visible to vehicles approaching from the rear. Wrecker plates may be moved from one (1) towed motorized vehicle to another vehicle under the direct lawful control of the registration holder. (3-20-20)T

**05. Possession of Registration.** When towing a motorized vehicle displaying a wrecker plate, the operator of the towing vehicle will carry the wrecker plate registration in the towing vehicle. (3-20-20)T

**06. Acquisition/Renewal of Wrecker Plates.** Wrecker plates will be issued and renewed through the department by mail or by fax using an application and renewal process determined by the department. (3-20-20)T

**155. PROVISIONS FOR SPECIAL LICENSE PLATE PROGRAM PREQUALIFICATION AND APPLICATION PROCEDURES.**

**01. Special License Plate Prequalification.** Anyone desiring legislation to establish a Special License Plate Program may make application to the Department on a Special Plate Program application form designed and provided by the Department. If all the prequalification requirements are met by the submission of other documentation, this will also be acceptable. A Special Plate Program Development Guide will also be provided to each applicant, detailing the procedures for the prequalification and application and providing information regarding the steps required to successfully accomplish a special plate program from prequalification through passage of the legislation, statutory requirements and standards for the plate color and license plate design. (3-20-20)T

**02. Special License Plate Approved by the Legislature.** If a special license plate program is approved by the Idaho legislature, prior to production and sale of the special license plates, the sponsor will be meet the requirements outlined in Subsection 155.03 of this rule. (3-20-20)T

**03. Special Plate Requirements:** (3-20-20)T

**a.** The individual responsible for representing the agency requesting the prequalification/application procedure will complete and sign a Special Plate Program application form that will contain a declaration of the responsible individual for certifying compliance with the requirements to the Department. (3-20-20)T

**b.** Responsible individual representing the agency will submit a financial plan detailing the use for the proceeds from the special plate sales. (3-20-20)T

**c.** For non-profit agencies, the responsible individual will provide evidence that the applicant has had 501 (c) Federal Income Tax status for at least two (2) years. (3-20-20)T

**04. Special License Plate Program Application Approval:** (3-20-20)T

**a.** Upon approval of application by Department, applicant will, by September 1, deposit programming and administration fees determined by an estimate of projected programming hours required. One thousand dollars (\$1,000) of this fee will not be refundable. (3-20-20)T

**b.** Applicant will complete and submit a list of two hundred fifty (250) applicants, currently registered in Idaho, who intend to purchase the Specialty License Plates when available. The form may be delivered to the Department by mail or electronic means such as e-mail or facsimile. (3-20-20)T

**05. Submission to the Legislature.** (3-20-20)T

**a.** For those desiring legislation, when all requirements have been met, the Department will forward the completed application to the chairmen of the Transportation and Defense Committees of the Senate and the House of Representatives for consideration in the next Legislative Session. This submission will be on a form developed by the Department or other documentation that meets all the requirements listed in this rule. (3-20-20)T

**b.** For those Special License Plate Programs with enacting legislation that fail to meet the requirements of this Section, the Department will report such finding to the chairmen of the Transportation and Defense Committees of the Idaho State Senate and the House of Representatives, and will not proceed with production and sale of the special plates. (3-20-20)T

**06. Annual Report.** An annual report form, designed and provided by the Department, will be made available to special license plate sponsors. The report will require an accounting of revenues and expenditures associated with the funds collected for the special license plate program. The report will be completed and submitted to the Department by January 1 so that by January 15 of each year the Department has the necessary data compiled and the required information forwarded to the chairmen of the Transportation and Defense Committees of the Idaho State Senate and the House of Representatives. If the agency fails to provide the required report, the Department will suspend special license plate sales for that program until the accounting is provided. Military License Plate programs will not be included in this requirement. (3-20-20)T

**07. Appeals.** The appeals process will allow the applicant for a special license plate program to appeal the Department's decision to deny the application (See Section 003 of this rule). The notice of the appeal will be sent in writing via mail, electronic mail or facsimile within twenty (20) days of the denial. (3-20-20)T

**156. -- 198. (RESERVED)**

**199. LICENSE PLATE PROVISIONS FOR SPECIAL PROGRAM AND PERSONALIZED PLATES FOR TRAILERS.**

Special program and personalized plates may be issued to trailers manufactured primarily for recreational vehicle uses. Such trailers will include camper, tent or fifth-wheel recreational trailers. Trailers with multiple uses such as utility, horse, or boat, with or without recreational vehicle facilities, will be excluded. (3-20-20)T

**200. LICENSE PLATE PROVISIONS FOR SPECIAL PLATES.**

**01. Year of Manufacture Plates.** (3-20-20)T

**a.** Owners of vehicles manufactured up through 1974, excluding model years 1969, 1971, 1972, and 1973, but including and ending with model year 1974, may apply for the renewal and use of previously canceled Idaho license plates which were originally issued to the same category of vehicle, where the year designation of the plate matches the year of manufacture of a motor vehicle. (3-20-20)T

**b.** The license plate must be in serviceable condition as originally manufactured, i.e., cannot be marred, bent, faded, or otherwise damaged to the point it is illegible. If the plate is repainted to bring it to a serviceable condition, the colors will match the original colors as closely as possible and will equal or exceed the original quality. The plate number cannot be a duplicate of a previously manufactured "year of manufacture" plate

still in use. (3-20-20)T

**c.** The application for use of the plate will include a statement signed by the applicant attesting that the applicant understands, if the plate use is approved, the plate does not have reflectorized material which meets the requirements of Section 49-443, Idaho Code. The responsibility for any accident or injury arising out of the possible consequence of not having this reflectorized safety feature on the license plate will be borne by the registrant. (3-20-20)T

**d.** “Classic” or “Old Timer” plates may be used in conjunction with this revived plate at the option of the registrant. (3-20-20)T

**02. Centennial License Plates.** Personalized and regular number plates are available in the centennial format. (3-20-20)T

**03. Disabled Veteran License Plates.** Disabled veteran license plates may, upon the registrant's request, display the international disability symbol to ensure reciprocal parking privileges in all states and provinces. (3-20-20)T

## **201. PROVISIONS FOR LEGISLATIVE LICENSE PLATES.**

**01. Option to Apply.** Members of the Idaho Legislature have the option of applying to the Department's Special Plates Unit for one (1) set of specially numbered license plates bearing the designation “HOUSE” or “SENATE.” (3-20-20)T

**02. Numbering Assignment List.** On or before June 15 each year, the Department will request from the Speaker and Pro Tem a current list of license numbers assigned to all legislators. The Department will request that these lists be returned by September 1 or, in an election year, within fifteen (15) days after the election. (3-20-20)T

**03. Plate Availability.** Upon receipt of the lists, the Department will ensure that a complete set of special legislative license plates will be available for each legislator. (3-20-20)T

## **202. PROVISIONS FOR PERSONALIZED LICENSE PLATES.**

**01. Special Characters or Marks.** No special characters, or punctuation marks, may be used for personalized messages on license plates. (3-20-20)T

**a.** Up to seven (7) letters or any combination of seven (7) letters and numbers and spaces (no half spaces) may be used for personalized messages on eligible six inch by twelve inch (6” x 12”) license plates. (3-20-20)T

**b.** Up to six (6) letters or any combination of six (6) letters and numbers and spaces (no half spaces) may be used for personalized messages on four inch by seven inch (4” x 7”) motorcycle plates. (3-20-20)T

**c.** Up to six (6) letters or any combination of six (6) letters and numbers and spaces (no half spaces) may be used for personalized messages on specialty program license plates. (3-20-20)T

**d.** Disability six inch by twelve inch (6” x 12”) plates will display the international disability symbol followed by up to five (5) letters, numbers, and spaces in the personalized message. Disability four inch by seven inch (4” x 7”) motorcycle plates will display the international disability symbol followed by up to four (4) letters, numbers, and spaces (no half spaces) in the personalized message. (3-20-20)T

**02. Issue of Personalized Plates.** Personalized plates may be issued to vehicles if no specific wording is required on the plate to identify the purpose for which the vehicle is registered. Personalized plates will not be issued if such plates would jeopardize the integrity of unique plate identification requirements. Examples include but are not limited to: (3-20-20)T

**a.** Commercial vehicles registered under the International Registration Plan (IRP), because the

designators PRP are required to be printed on the plate; (3-20-20)T

and **b.** Vehicles for which the designators “PRP” are required to be printed on the plate to identify the use; (3-20-20)T

**c.** Utility, horse, or enclosed car hauling trailers with RV facilities or boat trailers. (3-20-20)T

**03. Specific Requests.** Requests for specific plate letters and/or numbers will be issued on a first come, first served basis. In the event of a request for the same plate by more than one (1) individual, the request with the earliest postmark, e-mail transmission time, or fax transmission time will prevail. If the postmarks are the same, the date stamped upon arrival at the Department will prevail. Applications submitted at county assessors’ offices will be considered valid when date stamped in by the Department. Telephone requests will not be accepted. (3-20-20)T

**04. Lack of Current Plates.** When an applicant for personalized plates does not have current regular number plates: (3-20-20)T

**a.** The Department may issue a thirty (30) day temporary registration to allow time for the billing process for personalized plates. The fee for each thirty (30) day temporary registration will be as required by Section 49-523, Idaho Code. (3-20-20)T

**b.** The Department may, upon payment of all required fees, issue a proof of registration document as provided in Section 012 of these rules. (3-20-20)T

**05. Credits.** When personalized plates are issued before an applicant’s current registration is expired, credit will be given for unexpired registration fees only. (3-20-20)T

**06. Renewing Plates.** The applicant will have the choice of renewing existing personalized plates with validation stickers or ordering a new set of plates at the time of renewal. If new plates are requested, the plate fee will be charged in addition to all other fees that are due. New plates must be purchased every seven (7) years as provided in Section 49-443, Idaho Code. (3-20-20)T

**07. Transfer of Plates.** When personalized plates are issued, the vehicle’s regular number plates may be transferred to another vehicle belonging to the owner. If registration credit is given from the regular number plates to the personalized, the regular number plate registration is canceled. (3-20-20)T

**08. Acceptability of Plates Message.** Acceptability of the personalized license plate message and issuance, denial or cancellation will be determined by the Department based on the following criteria: (3-20-20)T

**a.** The combination of numbers and letters requested or combinations of same may not duplicate an existing combination in use, with the following exception. A duplication is allowed only when the combination of numbers and letters requested is the same on a small (ie: motorcycle sized plate) and a large (ie: passenger car) sized plate. (3-20-20)T

**b.** The message, in any language, may not carry a sexual connotation nor consist of a term that is considered to be one of obscenity, contempt, prejudice, hostility, insult, racial degradation, ethnic degradation, or profanity, or vulgarity, as defined in dictionaries of general use, including, but not limited to, Webster’s Unabridged Dictionary and the Harper & Row New Dictionary of American Slang. (3-20-20)T

**i.** The message may not refer to any of the following: bodily functions, bodily fluids, or intimate body parts; sexual preference or orientation; acts of violence; illegal substances or the use thereof. (3-20-20)T

**ii.** The message may not represent a club, membership, or gang that is commonly known to promote violence, illegal substances or illegal acts. (3-20-20)T

**c.** The criteria in Paragraph 202.08.b. of these rules is not to be considered an exhaustive list. A compilation of offensive or obscene words, terms or letter/number combinations gathered from the experience of Idaho and other states may also be used as a guide. The Department may also rely on information obtained from law

enforcement agencies within or outside of Idaho. (3-20-20)T

**d.** When a complaint is received from the public concerning an issued plate, the name of the complainant will not be recorded nor, if known, revealed. (3-20-20)T

**e.** Final determination regarding applications for questionable messages or cancellation of issued plates will be made by the Division of Motor Vehicles. The determination process will include a first review by technical staff, followed by a second review by supervisory and management staff. An applicant does, however, have a right to a hearing on the decision. (3-20-20)T

**09. Message Preferences.** Applicants may submit three (3) message preferences including the specific meaning of each. The first choice that is available and acceptable will be issued. If none of the preferences are available or acceptable, the applicant will be notified by return mail or email. (3-20-20)T

**10. Recalled Plates.** Personalized plates may be recalled by the Department for the following reasons: (3-20-20)T

**a.** Error in manufacturing; or (3-20-20)T

**b.** Clerical error. (3-20-20)T

**c.** Unacceptable personalized messages as outlined in Paragraph 202.08.b. of these rules. (3-20-20)T

**11. Unexpired Fees.** If a set of personalized plates is recalled, the personalized plate program fee, unexpired portion of the registration fee, E.M.S. fee, plate fee, (if plates are returned to the Department), and all other applicable special plate fees, will be refunded or transferred to a new issue of personalized plates. (3-20-20)T

**12. Expired Plates.** Personalized plates that are allowed to expire will become immediately available for reissue to another applicant. There is no grace period. (3-20-20)T

**203. PROVISIONS FOR FORMER PRISONER OF WAR (POW) LICENSE PLATES.**

**01. Eligible Person.** Any veteran who was a prisoner of war (POW) of an armed enemy of the United States during active service in the armed forces of the United States during the following recognized war periods may be eligible:

WORLD WAR I	April 6, 1917 to November 11, 1918
WORLD WAR II	December 7, 1941 to December 31, 1946
KOREAN WAR	June 27, 1950 to January 31, 1955
VIETNAM WAR	August 5, 1964 to May 7, 1975
USS PUEBLO	January 23, 1968 to December 23, 1968
PERSIAN GULF	August 2, 1990 (Congress has not assigned an ending date.)

(3-20-20)T

**02. Certified Documentation.** Eligibility will be documented by a copy of the applicant's 53.55 or DD-214 Separation from Active Duty papers, or other specific documentation received from the Veterans Administration that certifies that the applicant was a prisoner of war during the recognized war periods stated above. (3-20-20)T

**204. -- 299. (RESERVED)**

**300. PROVISIONS FOR SAMPLE PLATES.**

Sample plates are issued at on the "Scenic Idaho/Famous Potatoes" red, white, and blue plate or Special Program License plates as follows: (3-20-20)T

**01. Plate Size.** Plates carrying the word SAMPLE in both passenger car size (six inches by twelve inches (6" x 12")) and motorcycle size (four inches by seven inches (4" x 7")). (3-20-20)T

**02. Personalized Sample Plates.** Personalized Sample plates are issued on both plate sizes, passenger car with maximum of seven (7) characters and motorcycle size with a maximum of six (6). (3-20-20)T

**a.** The applicant completes an Application for Personalized Sample License Plate Form. (3-20-20)T

**b.** The acceptability screening process used is the same as that used for regular personalized plate application. (3-20-20)T

**c.** The Department will adopt written policy for the issuance of duplicate and replacement sample plates with personalized character combinations. (3-20-20)T

**d.** The department may include other special license plate programs for sample plate sale, when not prohibited by code, or that would not cause a compromise of a special eligibility plate program. (3-20-20)T

**03. Penalties.** There is a penalty for fictitious display of sample plates (Section 49-456, Idaho Code). (3-20-20)T

**301. -- 399. (RESERVED)**

**SUBCHAPTER A – RULES GOVERNING LICENSE PLATES  
FOR GOVERNMENTAL AGENCIES AND TAXING DISTRICTS**

**400. STANDARD EXEMPT PLATE DESIGNATORS.**

The standard exempt license plate designators used to identify the agency, entity, or office will be assigned pursuant to Section 49-443B (2), Idaho Code. (3-20-20)T

**401. ISSUING AGENCY.**

All exempt and undercover license plates will be issued by the Idaho Transportation Department upon receipt of a request from an authorized agency. (3-20-20)T

**402. INFORMATION TO BE PROVIDED BY AN AUTHORIZED AGENCY.**

A request for exempt or undercover plates will contain: (3-20-20)T

**01. Actual Name and Address.** The name and address of the requesting agency. (3-20-20)T

**02. Vehicle Description.** The description of the vehicle(s) to be registered, including the year, the make, model, type, vehicle identification (VIN), color and title number, and truck weight if eight thousand one pounds (8,001 lbs.) or more. (3-20-20)T

**03. Fictitious Name and Address.** The name and address of the registrant to appear on the undercover plate registration, and title records of the Department. (3-20-20)T

**04. Authorized Official.** The request must be signed by an authorized official of the authorized agency. (3-20-20)T

**403. VEHICLE TITLING.**

**01. For Exempt Registration and License Plates.** If the vehicle is not titled, the title transaction will be completed at the local county assessor's office before requesting exempt plates. The control number from the title application may be used in lieu of the title number on the exempt plate request letter. (3-20-20)T

**02. Undercover Vehicle Titling.** The actual name and address of the requesting agency, along with the fictitious name and address of the registrant will be provided directly to the Department on a completed application

approved by the authorized official. (3-20-20)T

**404. EXEMPT AND UNDERCOVER PLATE FEES.**

**01. Department Reimbursement.** State and federal agencies and taxing districts will reimburse the Department the cost of providing license plates. These costs will be determined by the cost of manufacture and the cost to the Department of processing the transaction. (3-20-20)T

**02. Adjusted Fees.** Periodically, fees may be adjusted in accordance with changes in manufacturing costs, postage, employee costs and legislative mandate. (3-20-20)T

**405. EXEMPT PLATE DISPLAY.**

Exempt license plates will be displayed in accordance with Section 49-428, Idaho Code. A pressure-sensitive sticker with the designator "EX" will be provided with each exempt plate and be attached to the plate(s) in the space provided for this purpose. The department may have the EX designator printed in the appropriate space on the plate as an alternative to the sticker. (3-20-20)T

**406. UNDERCOVER PLATE DISPLAY.**

Undercover license plates will be displayed in accordance with Section 49-428, Idaho Code. A pressure-sensitive sticker displaying an expiration date matching the plate number will be attached to the plate(s) in the space provided for this purpose. There will be no discerning markings to indicate that the plate or registration record is in undercover use. (3-20-20)T

**407. ALTERNATIVE PLATES.**

If an authorized agency requests a specialized license plate format normally reserved for the general public, all the statutory special program fees for the plate will be paid, with the exception of the registration (operating) fee, in addition to the department administrative and plate manufacturing fees. Special eligibility plates will not be issued to exempt vehicles. "Special eligibility" requires the individual registrant to meet specific requirements for programs such as: Purple Heart, Disabled Veteran, Disability, Military Reservist, Former Prisoner of War, Congressional Medal of Honor, National Guard and Air National Guard, Radio Amateur, Pearl Harbor Survivor, and Legislative plates. (3-20-20)T

**408. EXEMPT PLATE STATUS.**

**01. Non-Expiring Plates.** Exempt plates are non-expiring and require no annual renewal. (3-20-20)T

**02. Transfer of Plates.** Exempt plates may be transferred between vehicles. If an exempt plate is transferred to another vehicle, a transfer request must be made to the Department's Vehicle Services Section/Special Plates Unit. (3-20-20)T

**03. Reissue of Plates.** Exempt plates will be reissued in accordance with Section 49-443(2), Idaho Code. (3-20-20)T

**409. UNDERCOVER PLATE STATUS.**

**01. Expiration of Plates.** Undercover license plates will expire annually or biennially based upon the application of the authorized agency. Registration status will appear as valid, until expiration date. Renewals must be made to the Department upon expiration of the undercover license plate. (3-20-20)T

**02. Transfer of Plates.** Undercover license plates may be transferred between vehicles. If an undercover license plate is transferred to another vehicle, a transfer request must be made to the Department's Vehicle Services Section/Special Plates Unit. (3-20-20)T

**03. Reissue of Plates.** Undercover plates will be reissued in accordance with Section 49-443(2), Idaho Code. (3-20-20)T

**04. Emission Testing of Undercover Vehicles.** Vehicles issued undercover license plates who list an

address in a county or area of required emission testing will need to check with the emission authority to be exempted from the testing requirement, or test as a typical registered vehicle. (3-20-20)T

**410. -- 999. (RESERVED)**

**39.03.03 – RULES GOVERNING SPECIAL PERMITS –  
GENERAL CONDITIONS AND REQUIREMENTS**

**000. LEGAL AUTHORITY.**

This rule, governing the movement of vehicles or loads that are in excess of the sizes or weights allowed by Sections 49-1001, 49-1002 or 49-1010, Idaho Code, is adopted under the authority of Sections 40-312, 49-201, 49-1001, 49-1004, and 49-1005 Idaho Code. (3-20-20)T

**001. TITLE AND SCOPE.**

**01. Title.** This rule is titled IDAPA 39.03.03, “Rules Governing Special Permits – General Conditions and Requirements,” IDAPA 39, Title 03, Chapter 03. (3-20-20)T

**02. Scope.** This rule states the general conditions and requirements for special permits. (3-20-20)T

**002. -- 009. (RESERVED)**

**010. DEFINITIONS.**

Refer to IDAPA 39.03.01, “Rules Governing Definitions Regarding Special Permits,” for definitions of the terms used in this rule. (3-20-20)T

**01. Loaded Truck.** A truck or truck combination equipped with VLS axles shall be considered to be hauling a load when VLS axles need to be fully deployed to reduce loads on fixed axles and groups of axles that would otherwise exceed legally prescribed weight limits as set forth in Section 49-1001, Idaho Code. (3-20-20)T

**011. – 049. (RESERVED)**

**050. SAFETY INSPECTION REQUIREMENTS FOR PERMITTED VEHICLES AND/OR LOADS.**

**01. Inspections.** All vehicles, tractors, trailers, and dolly converters operating under the authority of a special permit issued by the Department must have a valid annual inspection at the time a permit is issued. The inspection shall be completed in compliance with 49 CFR Part 396.17. (3-20-20)T

**02. Inspectors.** Inspectors completing required annual inspections shall meet the certifications requirement in 49 CFR 396.19 and brake inspector qualification in 49 CFR 396.25. (3-20-20)T

**03. Drivers.** All drivers shall meet the special training requirements for Longer Combination Vehicles as outlined in 49 CFR Part 380. (3-20-20)T

**04. Motor Carriers.** By applying for a special permit, motor carriers self-certify that they have performed inspections as set forth in 49 CFR Part 396.17. (3-20-20)T

**05. Exemption.** Oversize vehicles and/or loads operating under an exemption outlined in Section 67-2901B (2), Idaho Code, are exempt from this safety inspection requirement. (3-20-20)T

**051. – 059. (RESERVED)**

**060. BRAKES.**

Brakes shall meet the Federal Motor Carrier Safety Regulations and shall be maintained to the Federal Motor Vehicle Safety Standards No. 121 in effect at the time the commercial motor vehicle was manufactured. (3-20-20)T

**061. – 069. (RESERVED)**

**070. LIGHTING REQUIREMENTS FOR LOADS TRAVELING AFTER DARK.**

Those over dimensional vehicles and/or loads traveling during hours of darkness shall be required to display lights to mark the extremities of the vehicle and/or loads and shall be in addition to those clearance lights required on legal size vehicles when traveling at night. (3-20-20)T

**01. Standards for Lights on Oversize Vehicles and/or Loads.** (3-20-20)T

**a.** Lights are required on those vehicles traveling sunset to sunrise. (3-20-20)T

**b.** The lights must be visible from a minimum of five hundred (500) feet. (3-20-20)T

- c. The lights may be flashing or steady burning. (3-20-20)T
- d. The color of the lights shall be as follows: (3-20-20)T
  - i. Lights visible from the front of the oversized vehicle and/or loads and the extremities in the middle or near the front of the oversized vehicle and/or load shall be amber. (3-20-20)T
  - ii. Lights visible from the back of the oversized vehicle and/or load and the extremities near the back of the oversized vehicle and/or load shall be red. (3-20-20)T

**02. Standards for Lights on Rear Overhang.** Lights are required when rear overhang exceeds the end of the trailer by four (4') feet or more. (3-20-20)T

- a. If the overhang is two (2') feet wide or less, only one (1) light is required on the end of the overhang. (3-20-20)T
- b. If the overhang is over two (2') feet wide, two (2) lights are required on the end of the overhang to show the maximum width of the overhang. (3-20-20)T

**071. – 079. (RESERVED)**

**080. FLAGGING REQUIREMENTS FOR OVERSIZE VEHICLES AND/OR LOADS.**

Warning flags for oversize vehicles and/or loads, excluding extra-length vehicle combinations, shall be marked by warning flags meeting the following: (3-20-20)T

**01. Warning Flags.** Warning flags are required on all overwidth vehicles and/or loads, and when the rear overhang exceeds the end of the trailer by four (4') feet or more. (3-20-20)T

**02. Size.** Minimum size of flags is eighteen (18") inches by eighteen (18") inches. (3-20-20)T

**03. Color.** Red or fluorescent orange. (3-20-20)T

**04. Placement of Flags.** On overwidth vehicles and/or loads flags shall be placed at the four (4) corners and/or extremities of the vehicle and/or load as follows: (3-20-20)T

- a. Front. Fastened to each front corner of the oversized vehicle and/or load if it exceeds legal width. (3-20-20)T
- b. Rear. Fastened to each rear corner of the oversized vehicle and/or load if it exceeds legal width. (3-20-20)T
- c. Side. Fastened to mark any extremity, when extremity is wider than the front or the rear of the vehicle and/or load. (3-20-20)T
- d. Overhang. If the overhang is two (2') feet wide or less, only one (1) flag is required on the end of the overhang. If the overhang is over two (2') feet wide, two (2) flags are required on the end of the overhang to show the maximum width of the overhang. (3-20-20)T

**081. – 089. (RESERVED)**

**090. SIGN REQUIREMENTS FOR VEHICLES COMBINATIONS INCLUSIVE OF LOAD.**

Refer to IDAPA39.03.05, "Rules Governing Special Permits – Oversize Non-Reducible," for conditions in this rule. (3-20-20)T

**091. – 099. (RESERVED)**

**100. RESPONSIBILITY OF ISSUING AUTHORITY.**

**01. Primary Concerns.** The primary concern of the Department, in the issuance of special permits, shall be the safety and convenience of the general public and the preservation of the highway system. (3-20-20)T

**02. Permit Issuance.** The Department shall, in each case, predicate the issuance of a special permit on a reasonable determination of the necessity and feasibility of the proposed movement. (3-20-20)T

**101. – 199. (RESERVED)**

**200. AUTHORITY TO ISSUE PERMITS.**

The authority to issue permits on state highways is described in Subsection 200.01. Subsection 200.02 describes the Department’s authority to issue special permits on local jurisdiction highways pursuant to an agreement between the Department and the local highway jurisdictions. (3-20-20)T

**01. Special Permit.** The special permit authority of the Department shall cover travel on state highways only and special permits issued by the Department shall be valid only on completed sections of state highway, described on the permit by route number or otherwise. The right to use county highways or city streets is neither granted nor implied. The special permit authority of the Department shall include those sections of state highways within corporate limits of cities and towns, but will not include sections of state highways intersecting with local highways, when travel is occurring on the local highway(s). Contractors hauling loads within the limits of state highway construction projects do not require special permits, but the loads must comply with the weight limits specified in the state highway contract. (3-20-20)T

**02. Authority.** Special permit authority agreed to by the Department and local highway jurisdiction shall include travel on the local jurisdiction’s highways under the rules of this title, IDAPA 39.03.03, “Rules Governing Special Permits – General Conditions and Requirements.” (3-20-20)T

**201. – 299. (RESERVED)**

**300. OFFICES FOR ISSUANCE OF SPECIAL PERMITS.**

The Department shall maintain a centralized special permit office at the Department Headquarters, making permits available electronically at the following listed office and Ports of Entry throughout the State. Permits will be available Monday through Friday, state holidays excluded, from 7:30 a.m. to 5 p.m. Mountain Time. Special permits can also be obtained online at [itd.idaho.gov](http://itd.idaho.gov) or by phone. (3-20-20)T

Terreton, Idaho 83450  
(208) 228-3636 (3-20-20)T

**301. – 399. (RESERVED)**

**400. INSURANCE OR BOND FOR EXTRAORDINARY HAZARD.**

Evidence of insurance or the posting of a bond shall be required when necessary because of loads creating an extraordinary hazard to the traveling public or to protect the public investment when a load presents an extraordinary hazard to the highway system. In such cases of extraordinary hazard to the roadway or structures, the Department may require the posting of a cash bond in such amount as to cover the maximum damage that could be expected to occur to the highway with the permittee also required to reimburse the Department for any engineering required to ascertain the extent of damages, if any, occurring to the roadway during the movement of the excessive load.

(3-20-20)T

**401. – 449. (RESERVED)**

**450. RESPONSIBILITY OF PERMITTEE.**

**01. General Responsibilities.** The permittee shall determine and declare the gross weight, distribution of weight, and the dimensions of the vehicle and load and shall submit all other required information before issuance of the permit. The acceptance of a special permit by the permittee is his agreement that the vehicle and load covered by the permit can and will be moved in compliance with the terms and limitations set forth in the permit. When a permit has been accepted by the permittee, such action shall be deemed an unequivocal assurance that he has complied, or will comply with all operating, licensing, and financial responsibility requirements. (3-20-20)T

**02. Permit to Be Carried in Vehicle.** (3-20-20)T

**a.** The special permit must be carried or available electronically in the vehicle to which it refers during the time of movement and shall upon demand be delivered for inspection to any peace officer or authorized agent of the Idaho Transportation Board or any officer or employee charged with the care and protection of the public highways. (3-20-20)T

**b.** When the route of the permitted vehicle will not pass in the vicinity of a state operated transceiver station, the applicant may complete Form ITD-216, APPLICATION FOR SPECIAL PERMIT NUMBER, and provide pertinent information by telephone to the special permit office. If the special permit office approves the application, a special permit number will be assigned to complete the Form ITD-216. Form ITD-216 will serve as evidence of intent to obtain the special permit and will be honored by law enforcement subject to the officer checking with the special permit office. The applicant must qualify for this procedure by obtaining a permit fee account number. The special permit office will complete the Special Permit Form ITD-216 and charge the fee to the applicant's permit fee account number. (3-20-20)T

**03. Certification Load Is Non-Reducible.** Upon application, the permittee must certify that steps have been taken to reduce the dimensions, the weight of vehicle, or the load, or all three, concerned in the permit to legal limitations or, if that is impractical, to reduce the excess to a minimum. (3-20-20)T

**04. Basic Limitations Shall Not Be Exceeded.** Special permits shall not be issued for vehicles or loads in excess of the maximum limitations of size or weight or that otherwise exceed the limitations for loads as set forth in these rules unless exception is made by the Transportation Board, or as otherwise provided herein.

(3-20-20)T

**05. Hazardous Travel Conditions Restrictions.** Extreme caution in the operation of a special-permitted vehicle shall be exercised when hazardous conditions exist. The driver of a permitted vehicle is responsible for checking the conditions of the permitted route before travel. The movement of vehicles or loads operating on valid permits shall automatically become invalid en route when:

(3-20-20)T

**a.** The Idaho Transportation Department, Idaho State Police, or other law enforcement office determines and provides public notice by any available means that a hazardous road condition exists.

(3-20-20)T

**b.** The driver reasonably knows that hazardous road conditions exist along route.

(3-20-20)T

**c.** Whenever a road is marked “Difficult” on 511 or as having a hazardous condition.

(3-20-20)T

**d.** Hazardous road conditions may include, but are not limited to:

(3-20-20)T

**i.** Loss of traction on roadways due to ice, snow, frost, excessive water, or mud;

(3-20-20)T

**ii.** Whenever a roadway is under conditions of wind over forty (40) mph;

(3-20-20)T

**iii.** Visibility is less than five hundred (500) feet due to snow, rain, smoke, dust, or fog;

(3-20-20)T

**iv.** Whenever a roadway becomes obstructed due to snow, water, mud, rocks, or other debris; or

(3-20-20)T

**v.** Whenever a roadway is subject to a natural disaster or emergency.

(3-20-20)T

**06. Delaying Movement.** Enforcement personnel responsible for any section of highway shall carry out enforcement action for violations involving special permit operations and may delay movements.

(3-20-20)T

**451. – 499. (RESERVED)**

**500. ALLOWABLE TOLERANCE, LEGAL OR PERMITTED SIZE LIMITS.**

**01. Determination of Vehicular Dimensions.** Determination of vehicular length and/or width as defined by Idaho Code or by Board rule shall be exclusive of those external devices or appurtenances whose function is related to safe and efficient operation.

(3-20-20)T

**02. Appurtenances.** Rearview mirrors, turn signal lamps, splash and spray suppressant devices; awnings on recreational vehicles, load induced tire bulge, and other noncargo carrying appurtenances shall be excluded from the calculation of allowable width. Front mounted refrigeration units, energy conservation devices, bolsters, mechanical fastening devices, hydraulic lift gates, external front mounted side curtain rollers, and other noncargo carrying appurtenances or devices shall be excluded from a determination of allowable length.

(3-20-20)T

**03. Other Appurtenances.** Other appurtenances not listed above may not extend beyond three (3) inches on each side or end of a vehicle or load. Other appurtenances may include, but shall not be limited to, clearance lights, door handles, handholds, window fasteners, door and window trim, moldings, and load securement devices.

(3-20-20)T

**501. – 509. (RESERVED)**

**510. DROMEDARY TRACTORS.**

A truck tractor containing a dromedary box, deck, or plate in legal operation on or before December 1, 1982, shall be authorized to continue to operate, notwithstanding its cargo carrying capacity, throughout its useful life. Proof of such

legal operation on December 1, 1982, shall rest upon the operator of the equipment. (3-20-20)T

**511. – 519. (RESERVED)**

**520. LOAD OVERHANG.**

The overhang or extension of a load shall not extend beyond the limits as set forth in Section 49-1010, Idaho Code. (3-20-20)T

**521. – 599. (RESERVED)**

**600. GENERAL.**

A special permit, in writing, shall be required for any movement on any completed section of highway under the jurisdiction of the Department by any vehicle or vehicles with reducible or non-reducible loads that exceed the allowable weights or sizes established in Sections 49-1001, 49-1002 and 49-1010, Idaho Code. (3-20-20)T

**601. – 619. (RESERVED)**

**620. COMPLIANCE WITH OTHER LAWS AND ORDINANCES.**

The special permit will be effective only insofar as the Department has authority for its issue and does not release the permittee from complying with other existing laws, local ordinances or resolutions which may govern the movement. (3-20-20)T

**621. – 629. (RESERVED)**

**630. WAIVER OF LIMITATIONS FOR EMERGENCY MOVEMENTS.**

Notwithstanding other provisions of these rules, the Idaho Transportation Board may waive existing permit policy limitations in the event of an emergency, subject to such limitations or special requirements as the Board may impose. (3-20-20)T

**01. Military Emergency Affecting National Security.** Any movement by or for a military or other government agency which is in excess of permit policy maximum limits of weight or size or which is otherwise outside established rules must be certified as a military necessity involving national security before receiving any special consideration to provide any waiver of normal permit rules. Certification of military necessity must be made by an official designated as having such authority by the Department of Defense Directory, issued by the Office of the Chief of Transportation, Department of Army. All applications for military emergency movements must be channeled through the Special Permit Office, Idaho Transportation Department. (3-20-20)T

**02. Emergencies Endangering the Public Health, Safety, or Welfare Including but Not Limited to Fire, Flood, or Earthquake.** During an emergency endangering the public health, safety or welfare, there may be an urgent and immediate need for equipment and it will not be in the public interest to require that a special permit be in the vehicle prior to an over legal movement. Verbal approval to proceed without a special permit in the vehicle may be obtained from the Special Permit Office or an Idaho Port-of-Entry. Once the emergency movement is completed, formal application for a Special Permit must be submitted to the Special Permit Office. (3-20-20)T

**03. Emergency Movement of Implements of Husbandry.** It shall be considered an emergency when an implement of husbandry being operated on an official state holiday or a weekend breaks down and a dealer brings replacement equipment to the farmer that exceeds legal height, length, and weight. Verbal approval to proceed without a special permit in the vehicle may be obtained from the Special Permit on-call staff. That verbal authorization may include escort vehicle requirements based on the route of travel and dimensions of load. Once the emergency movement is completed, the permittee shall make formal application for a permit to the Special Permit Office on the first working day after the occurrence. (3-20-20)T

**04. Economic Emergencies.** When a circumstance occurs in which an economic hardship is expected to result due to the application of existing rules or limitations, the Transportation Board may consider a petition for the temporary waiver of those rules or limitations which are perceived as being the cause of such economic hardship. (3-20-20)T

**631. – 699. (RESERVED)**

**700. SPRING BREAKUP SEASON TYPE OF LOAD RESTRICTIONS.**

Depending upon the type of road construction, the amount of moisture, temperature conditions, and severity of frost heaves and breakup, routes or sections of routes will be posted for restricted loadings to one (1) of the following categories as required to protect the roadway and in the interests of public safety: (3-20-20)T

- 01. Legal Weight.** Maximum of legal allowable weight; (3-20-20)T
- 02. 16,000 Pounds.** Maximum of sixteen thousand (16,000) pounds on any axle; (3-20-20)T
- 03. 14,000 Pounds.** Maximum of fourteen thousand (14,000) pounds on any axle; and (3-20-20)T
- 04. 12,000 Pounds.** Maximum of twelve thousand (12,000) pounds on any axle. (3-20-20)T

**701. – 709. (RESERVED)**

**710. WEIGHT LIMITS BASED ON TIRE SIZES.**

In administering load limits based on tire sizes or width of tires, credit for tubed tires will be based on the manufacturer's width marked on the tire; for example, a ten point zero-zero by twenty-four (10.00 x 24) tire will be given credit for ten (10") inches of tire width. Tubeless tires will be given credit for the width of the conventional tubed tires that they replace. (3-20-20)T

**711. – 719. (RESERVED)**

**720. WIDTH LIMITATION ON TWO LANE ROAD.**

A spring breakup weight restriction to less than legal weight shall automatically place a restriction on width allowed by special permit. On any section of highway restricted to less than legal weight, the maximum width by special permit shall be restricted to twelve feet six (12'6") inches during the period of the weight restriction. (3-20-20)T

**721. – 729. (RESERVED)**

**730. SPEED RESTRICTIONS.**

On those sections of highways which are posted for a maximum of legal loads, or to less than legal loads, trucks and buses with a gross weight of ten thousand (10,000) pounds or more will be restricted in critical areas to a maximum speed of thirty (30) miles per hour. Restricted speed zones will be marked by red and green markers. A red marker will mean speed is restricted to thirty (30) miles per hour and a green marker will mean that legal speed may be resumed. These markers will generally be attached to existing highway sign posts and when properly used will afford protection to the highway subgrade and surface as well as speeding the flow of traffic. (3-20-20)T

**731. – 739. (RESERVED)**

**740. SPECIAL PERMIT POLICY DURING SPRING BREAKUP.**

**01. Suspended Weight Limits.** Normal overweight special permit limits will be suspended on all highways in the area when seasonal load and speed restrictions are imposed. (3-20-20)T

**02. Weight Restrictions.** Spring breakup weight restrictions are primarily concerned with limiting the weight imposed on the highway by individual axles rather than the total gross weight of vehicles or vehicle combination. It will therefore be permissible to issue special permits that exceed legal allowable total gross load for a vehicle combination subject to these conditions: (3-20-20)T

- a.** Minimum tire width is ten (10") inches or larger. (3-20-20)T
- b.** Maximum axle weight on single axle having two (2) single wheels shall not exceed ten thousand (10,000) pounds. (3-20-20)T

c. Maximum axle weight on single axle having four (4) or more tires shall not exceed fourteen thousand (14,000) pounds. (3-20-20)T

d. Permits for nonreducible loads only. (3-20-20)T

**741. – 749. (RESERVED)**

**750. LEGAL WEIGHT LIMITS MAINTAINED ON CERTAIN HIGHWAYS.**

The policy of the Department will be to maintain legal load limits on the Interstate highway system and arterials serving through state traffic or connecting major terminals, unless conditions are such that severe breakup will result. (3-20-20)T

**751. – 759. (RESERVED)**

**760. ENFORCEMENT OF POSTED WEIGHT AND/OR SPEED RESTRICTIONS.**

The Districts will sign and mark affected state highways the day before the weight and/or speed restrictions are in effect. The weight and/or speed restrictions will be enforced the day after the Districts sign and mark a state highway. (3-20-20)T

**761. – 769. (RESERVED)**

**770. TEMPORARY SUSPENSION OF POSTED WEIGHT AND SPEED RESTRICTIONS.**

**01. Why Required.** Spring breakup restrictions are required because of a seasonal characteristic in which freeze/thaw cycles occur, making the roadway unstable and reducing its load-bearing capability. The load-bearing capacity may be temporarily restored by a freeze-up of the pavement after a section has been posted for load and speed restrictions. (3-20-20)T

**02. Temporary Waiver of Spring Breakup.** District Engineers may provide a temporary waiver of the spring breakup restrictions by posting GREEN markers on the speed limit signs, and on other signs, if appropriate, within a section of highway posted for reduced loads. (3-20-20)T

**771. – 779. (RESERVED)**

**780. SPECIAL ALLOWANCES FOR EMERGENCY AND CRITICAL SERVICE VEHICLES.**

District Engineers may allow exceptions to the spring breakup weight restrictions for emergency and critical service vehicle(s), ie. fire trucks, heating fuel trucks, and other such service vehicles that are critical to the health and safety of the public. Documentation of special allowance shall be in writing from the District Engineer and must be carried in the vehicle. (3-20-20)T

**781. – 799. (RESERVED)**

**800. SPECIAL PERMIT FEES COSTS TO BE BORNE BY PERMITTEE.**

The movement of oversize or overweight vehicles or vehicles with special loads is a privilege not accorded every user of the highway. Administrative cost incurred in the processing, issuance and enforcement of special permits shall be borne by such permittees and not by the general traveling public through expenditure of highway user funds. Special permits issued for non-reducible, overweight vehicles and/or loads will be charged a road use fee as set forth in Section 49-1004(2), Idaho Code. Tax supported agencies are required to obtain special permits if their loads exceed the sizes or weights stated in Idaho Code, but they are exempt from paying fees for the permits. (3-20-20)T

**801. – 909. (RESERVED)**

**910. PAYMENT OF SPECIAL PERMIT FEES.**

**01. Payment of Fees.** The Idaho Constitution prohibits the state from extending credit to any individual, corporation, municipality, or association. Permit fees are collectible at the time of issuance. (3-20-20)T

**02. Refund.** Permit fees are not refundable once they have been processed into the Department's accounting system, unless the permittee contacts the Special Permit Office no more than two (2) working days (during office hours) following the start date of the special permit or the Department issued the special permit in error. (3-20-20)T

**03. Permit Costs.** Special permit fees listed below are intended to cover cost of administration and are subject to periodic change depending on costs incurred in processing, issuance, and enforcement of special permit rules. (3-20-20)T

**04. Current Schedule of Fees.** Periodic changes to the fee schedule will be subject to legislative review and approval procedures in accordance with Chapter 52, Title 67, Idaho Code, Administrative Procedure Act. (3-20-20)T

**a.** Oversize only, single trip, thirty dollars (\$30). (3-20-20)T

**b.** Oversize only, two (2) trips, thirty six dollars (\$36). (3-20-20)T

**c.** Oversize single trip exceeding sixteen (16') feet wide, or sixteen (16') feet high or one hundred ten (110') feet long, thirty-three dollars (\$33). (3-20-20)T

**d.** Reducible Loads, annual, twelve (12) consecutive months: Cylindrical hay bales, two (2) wide, Multiple width loads of kiln stacked lumber, reducible loads, up to and including fifteen (15') feet high, Disabled Vehicle, forty-five dollars (\$45). (3-20-20)T

**e.** Oversize Non-Reducible, annual, twelve (12) consecutive months: Manufactured homes, modular building and office trailers; Farm tractors exceeding nine (9') feet width on Interstate and implements of husbandry; Oversize/Overweight Snowplow; Multiple width loads of crane booms; Multiple width loads of conveyor units; East port/Canadian Weight; forty five dollars (\$45). (3-20-20)T

**f.** Extra Length/Weight (reducible) annual, twelve (12) consecutive months, authority to exceed eighty thousand (80,000) lbs. on reducible loads up to one hundred twenty nine thousand (129,000) pounds, or exceeding the length limits imposed in Section 49-1010, Idaho Code, forty five dollars (\$45). (3-20-20)T

**g.** Overweight/Oversize or Overweight only (non-reducible) single trip, thirty-three dollars (\$33). (3-20-20)T

**h.** Overweight/Oversize or Overweight only (non-reducible), two (2) trips, thirty-three dollars (\$33). (3-20-20)T

**i.** Overweight/Oversize (non-reducible) single trip, exceeding sixteen (16') feet wide, or sixteen (16') feet high or one hundred ten (110') feet long, thirty- three dollars (\$33). (3-20-20)T

**j.** Overweight/Oversize (non-reducible) two (2) trips within seven (7) days, exceeding sixteen (16') feet wide, or sixteen (16') feet high or one hundred ten (110') feet long, thirty-three dollars (\$33). (3-20-20)T

**k.** Overweight/Oversize (non-reducible) annual permit fee for twelve (12) consecutive months, one hundred twenty-eight dollars (\$128). (3-20-20)T

**l.** Fee for reissuance or transfers, fifteen dollars (\$15). (3-20-20)T

**m.** Annual special permits purchased online will be five dollars (\$5) less than the listed price. (3-20-20)T

**05. Additional Fees.** The Department may require reimbursement of actual costs incurred for extraordinary services provided, incidental and necessary to the planning and/or movement of loads that require a special permit moving under the requirements of a traffic control plan. (3-20-20)T

911. – 949. (RESERVED)

**950. REVOCATION OF PERMIT FOR NON-COMPLIANCE WITH THE LIMITATIONS OR PROVISIONS OF THE PERMIT.**

**01. Disqualification of Permits.** The permit shall become invalid and the cited vehicle may be disqualified for reissuance of permits if convicted of the following: (3-20-20)T

**a.** The vehicle combination does not satisfy the requirements of Federal Motor Carrier Safety Regulations Part 393. (3-20-20)T

**b.** The vehicle combination violates permitting conditions (other than weight) for the following: (3-20-20)T

**i.** Failure to travel on Extra Length or Up to 129,000 Pound designated routes. (3-20-20)T

**ii.** Failure to properly display required flags and/or signs. (3-20-20)T

**iii.** Failure to provide required number of pilot cars and/or proper placement. (3-20-20)T

**iv.** Failure to provide required lighting for travel during hours of darkness. (3-20-20)T

**v.** Failure to travel during the hours of operation as specified on the permit. (3-20-20)T

**vi.** Failure to comply with wind velocity requirements when moving manufactured housing, office trailers, and modular buildings. (3-20-20)T

**vii.** Failure to comply when travel conditions become hazardous. Hazardous conditions include, but are not limited to, ice, snow or frost; or when visibility is restricted to less than five hundred (500) feet. (3-20-20)T

**c.** The vehicle combination violates weight limits under Section 49-1001 (1)(2) and (9), Idaho Code. (3-20-20)T

**i.** Violating weight limits for single, tandem, tridem, quad, or other type axle groups by more than fifteen percent (15%). (3-20-20)T

**ii.** Violating gross or bridge weight allowances by more than seven percent (7%). (3-20-20)T

**d.** The motor carrier has violated an Out-of-Service order by the Federal Motor Carrier Safety Administration as described in Part 386 (386.73) of the Federal Motor Carrier Safety Regulations. (3-20-20)T

**02. Permit Revocation Process.** A copy of the judgment of conviction from the court and the special permit authorizing operation must be provided to the Permit Office by enforcement personnel. Paperwork will be reviewed for compliance with the provisions of this rule and, if met, notification will be sent to the company informing them of the pending revocation that will occur within ten (10) days of the letter being issued. (3-20-20)T

**03. Disqualification Periods.** When a permit has become invalid, the vehicle identified on the invalidated permit may be disqualified for reapplication for permit for a period of thirty (30) days after the first violation, for a period of six (6) months after the second violation, and for a period of one (1) year after the third violation. (3-20-20)T

**04. Penalties.** In addition to revocation of permits as authorized in this rule, the permittee shall be subject to all applicable penalties provided by law with regard to the provisions violated. (3-20-20)T

951. – 979. (RESERVED)

**980. PERMITTEE RESPONSIBLE FOR INJURY TO PERSONS OR PROPERTY.**

The permittee shall assume all responsibility for injury to persons or damage to public or private property caused directly or indirectly by the transportation of a vehicle or vehicle and load under special permit; and he shall hold harmless the Department and all its officers, agents, employees, and servants from all suits, claims, damages or proceedings, of any kind, as a direct or indirect result of the transportation of the vehicle or vehicle with a load that requires a special permit. (3-20-20)T

**981. – 999. (RESERVED)**

**IDAPA 41 – IDAHO PUBLIC HEALTH DISTRICTS  
(PANHANDLE HEALTH DISTRICT #1)**

**DOCKET NO. 41-0101-2000**

**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 39-413, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rule adopts the following chapter under IDAPA 41:

**IDAPA 41**

- 41.01.01, *Rules of Idaho Public Health District #1*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Section 67-5226(1), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Mr. Erik Ketner, PHD#1 Environmental Health Section Manager at (208) 415-5224.

DATED this 19th day of February, 2020.

Joe Righello  
Division Administrator  
Environmental and Health Protection Division  
Panhandle Health District  
8500 N. Atlas Road  
Hayden, Idaho 83835  
Phone: (208) 415-5200  
Fax: (208) 415-5201

**IDAPA 41 – IDAHO PUBLIC HEALTH DISTRICTS  
(PANHANDLE HEALTH DISTRICT #1)**

**41.01.01 – RULES OF IDAHO PUBLIC HEALTH DISTRICT #1**

**000. LEGAL AUTHORITY.**

The rules and standards set forth hereinafter shall be known as the Environmental Code of Panhandle Health District 1. This Code is adopted pursuant to the authority granted to the District Board of Health under Chapter 4, Title 39, Idaho Code. The provisions of the Code are supplementary, and should be interpreted in a manner consistent with Chapter 1, Title 39, Idaho Code and any state or federal laws which establish exclusivity or primacy in a field of rule for another public entity as a matter of law. (3-20-20)T

**01. Conflict.** In the event of any conflict between city or county ordinances or heretofore existing rules of county health boards and departments and this Code, the respective provision which more completely protects public health or the environment, prevails. Nothing in this Code is deemed to prevent the enforcement of any standard, or rule relating to air, water, or health quality now existing or hereinafter adopted by the State Board of Health and Welfare or any interested agency of the federal government. Nothing in this Code is deemed to conflict with the enactment by any city or county in the District of any ordinance or rule placing additional restrictions or limitations which contribute to enhancement of water, air, land, or health quality. Where the provisions of this Code conflict with state or federal statutes or rules which preempt regulation of a particular subject or application of this Code in a particular manner, the preemptive state rule or federal regulation prevails to the extent that application of the conflicting rules cannot be accommodated. (3-20-20)T

**02. Policy.** This Environmental Health Code is based on the recognition that pollution of the air, land, and waters of this district constitutes a menace to public health and welfare, creates public nuisances, is harmful to wildlife, fish, and other aquatic life, and impairs domestic, agricultural, industrial, recreational, and other beneficial uses of air, land, and water. It is the duty of the Board to establish the quality standards of the environment in the interest of health, individual and community alike, and to prevent the outbreak and spread of dangerous and infectious disease. (3-20-20)T

**001. TITLE AND SCOPE.**

**01. Title.** This chapter is titled IDAPA 41.01.01, “Rules of Idaho Public Health District #1.” (3-20-20)T

**02. Scope.** These rules govern issues concerning the mission of Idaho Public Health District #1 as established by the Idaho Legislature, in particular addressing matters of local concern in order to protect public health and the environment in the counties that comprise the District. (3-20-20)T

**002. OFFICE – OFFICE HOURS – MAILING ADDRESS – STREET ADDRESS.**

**01. Office Hours.** 8 a.m. to 5 p.m., except Saturday, Sunday and legal holidays. (3-20-20)T

**02. Mailing and Street Address.** The District’s mailing/street address is: Panhandle Health District, 8500 N. Atlas Road, Hayden, ID 83835. (3-20-20)T

**003. -- 009. (RESERVED)**

**010. DEFINITIONS.**

The following definitions apply: (3-20-20)T

**01. Board.** The Board of Panhandle Health District 1. (3-20-20)T

**02. Code.** Environmental Health Code of Panhandle Health District 1, including the several sections which follow and the entire series of rules now and hereinafter adopted by the Board and by the State Board of Health and Welfare. (3-20-20)T

**03. Floathouse.** A watercraft that is not self-propelled and with a dwelling place on it for habitation by human beings, whether said habitat is seasonal, itinerant, temporary, or permanent; and whether the floathouse is attached to land, floating free in the water, or tied to a fixed structure. (3-20-20)T

**04. Health Officer.** Means the Director of Panhandle Health District 1, or any agent or employee thereof whose duties include enforcement of any provision of this Code. (3-20-20)T

**05. Public Sewage Treatment Facility.** Any sewage collection and treatment system with more than two (2) individual service connections. (3-20-20)T

**06. Variance.** A grant of relief from the literal application of a Panhandle Health District 1 rule upon a showing that undue hardship, related to unique characteristics of a site, would result from literal adherence to such rule. (3-20-20)T

**011. -- 099. (RESERVED)**

**100. WATER QUALITY CONTROL.**

**01. Sewage and Waste Disposal: Political Subdivisions.** Any political subdivision within the District may enter into a sewage management plan agreement with the District, the purpose of which will be to establish permanent sewage disposal practices that will fulfill the needs and goals of the political subdivision and the responsibilities of the District. The Board has authority to enforce the provisions of sewage management plan agreements. (3-20-20)T

**02. Sewage and Waste Disposal: Prohibited Conditions.** (3-20-20)T

**a.** Domestic sewage, septage, sanitary sewage, industrial waste, agricultural waste, sewage effluent, or human excreta is not allowed to remain open to the atmosphere or on the surface of the ground in such a manner so as to be a source of noxious or offensive odors, to be dangerous to health, or to be a public nuisance. (3-20-20)T

**b.** Domestic sewage, sanitary sewage, septage, industrial sewage, industrial waste, agricultural waste, sewage effluent, or human excreta is not allowed to endanger any source or supply of drinking water, or cause damage to any public or private property. (3-20-20)T

**c.** Raw or untreated sewage, septage, or industrial waste, or agricultural waste is not allowed in any body of water, water course, or any underground water drain, any storm water drain, channel, or other surface water drain. (3-20-20)T

**101. -- 109. (RESERVED)**

**110. SEWAGE DISPOSAL ON THE RATHDRUM PRAIRIE IN KOOTENAI COUNTY, IDAHO.**

The Board has determined that extensive use of subsurface wastewater disposal on the Rathdrum Prairie presents a threat to the public health by contamination of the Rathdrum Aquifer, which is a drinking water source. It is the intent of the Board to adopt rules to govern subsurface sewage disposal on the Rathdrum Prairie. (3-20-20)T

**01. Title.** These rules, within this Section, are known and cited as the "Rathdrum Prairie Sewage Disposal Rules." (3-20-20)T

**02. Scope.** The provisions of this Section apply to subsurface sewage disposal systems installed on the Rathdrum Prairie. (3-20-20)T

**03. Definitions.** The following definitions apply to the Rathdrum Prairie sections of these rules. (3-20-20)T

**a. Sewage Loading.** The total liquid volume of sewage produced on any given parcel of land and expressed as gallons/day. (3-20-20)T

**b. Dwelling Equivalent.** The total sewage loading from a single family dwelling. When applied to structures or facilities other than housing units, a dwelling equivalent shall be equal to two-hundred and fifty (250) gallons per day or be equal to twenty (20) persons using a non-residential facility on forty (40) hour per week basis, with no wastewater generation except from restrooms. (3-20-20)T

c. Rathdrum Prairie. That area of land situated in Kootenai County and more particularly defined by the USGS map describing the boundaries of the Rathdrum Prairie Aquifer identified and designated under the authority of Section 1424(e) of the Safe Drinking Water Act (PL 93-523) (Federal Register, Vol. 43, No. 28 -Thursday, February 9, 1978). (3-20-20)T

d. Sewage Management Plan. A method of action, procedure, or arrangement approved by the Panhandle Health District 1 describing how collection, treatment, and disposal of sewage shall be addressed within the boundaries of a political subdivision and include a map of the area affected by the Sewage Management Plan. (3-20-20)T

**04. Subsurface Sewage Disposal Systems. (3-20-20)T**

a. All installations of subsurface sewage disposal systems must be made in compliance with the Code and the rules of the Idaho Department of Environmental Quality. (3-20-20)T

b. A subsurface sewage disposal system for one (1) dwelling equivalent may be installed without requirements other than Subsection 110.04.a., if the system is on a single parcel of land of five (5) acres or larger in surface area and the total loading for that parcel does not exceed one (1) dwelling equivalent per five (5) acres, except where one (1) system is replacing another. Every parcel of land created after December 20, 1977, except as otherwise permitted by these rules, maintains the dwelling equivalent(s) allowed for the original parcel of land. (3-20-20)T

c. No subsurface sewage disposal system may be installed on any parcel of land of less than (5) five acres in surface area except under the following conditions: (3-20-20)T

i. The parcel of land is located within the boundaries of a public sewer district or municipality where the governing board has adopted a Sewage Management Plan approved by the Board which will result in the construction and operation of, or connection to, a central sewage treatment plant. The Sewage Management Plan area must be entirely within the boundaries of the municipality, and the Sewage Management Plan must include a map delineating the boundaries of the Sewage Management Plan Area; (3-20-20)T

ii. Parcels of land less than five (5) acres in size and acquired or established prior to December 20, 1977, will be permitted for a subsurface sewage disposal system for a single-dwelling equivalent, provided such parcels meet all other rules governing individual and subsurface sewage disposal systems; or (3-20-20)T

iii. Where one (1) subsurface sewage disposal system is replacing another with no increase in sewage loading. (3-20-20)T

d. On all developments subject to the provisions of Subsection 110.04.c.iii., the subsurface sewage disposal system needs to have the dry or wet sewer system with necessary laterals installed within the development. All installations needs to be done in coordination with local government planning, and approved by the state Department of Environmental Quality where applicable. (3-20-20)T

e. Upon notification by the Health Officer the owner of any parcel of land utilizing a subsurface sewage disposal system shall disconnect such system from any buildings on his parcel of land and connect the building sewer from the buildings to a collection and treatment system whenever it becomes available for service to his parcel. (3-20-20)T

**111. -- 199. (RESERVED)**

**200. OPEN WATER PROTECTION.**

**01. Boats and Houseboats. (3-20-20)T**

a. It is unlawful for any boat, motorboat, floathouse, sailboat, or any other kind of boat containing wastewater facilities to be on the waters of any stream, river, or lake in Panhandle Health District 1 unless such wastewater facilities shall be sealed to prevent a discharge into any waters. The method of sealing such wastewater

facilities is subject to the approval of Panhandle Health District 1. (3-20-20)T

**b.** Any person authorized by the Health Officer or any law enforcement person may stop and board any boat on the said waters and examine the wastewater facilities on such boats to see that such facilities are properly closed and sealed. (3-20-20)T

**c.** It is unlawful for any person to throw overboard, dump, or otherwise dispose of or discharge, or cause, permit, or suffer to be discharged, any garbage, refuse, rubbish, waste, or sewage from any boat into or upon the waters of any stream, river, lake, or other body of water within the boundaries of Panhandle Health District 1. (3-20-20)T

**d.** If any watercraft located upon the waters of this District is found to have a marine toilet which is not in compliance with the requirements of this section, the Health Officer shall have the following alternative or cumulative powers to: (3-20-20)T

- i.** Cause the marine toilet to be locked and sealed to prevent usage; (3-20-20)T
- ii.** Require such watercraft to be removed from the waters of Panhandle Health District 1 until the marine toilets are made to conform with the requirements of this Code. (3-20-20)T

**02. Public and Private Marinas.** (3-20-20)T

**a.** Any marinas, whether public or private, providing moorage for vessels equipped with on-board wastewater facilities shall provide sewage waste disposal facilities. These facilities shall consist of a pump station that is capable of adequately cleaning waste retention tanks on the largest boat that could reasonably use the moorage. Such plans must be approved by the Department of Environmental Quality. (3-20-20)T

**b.** All marinas, whether public or private, must provide shore-based toilet facilities for their users. (3-20-20)T

**03. Floathouses.** (3-20-20)T

**a.** All floathouses must have approved wastewater facilities. (3-20-20)T

**b.** All discharges from all floathouses, whether old or new, regardless of source, are prohibited. (3-20-20)T

**201. -- 399. (RESERVED)**

**400. CRITICAL MATERIALS AT FIXED FACILITIES ON THE RATHDRUM PRAIRIE IN KOOTENAI COUNTY, IDAHO.**

**01. Purpose and Intent.** The purpose and intent of this section is to provide agencies that are currently involved with emergency planning and emergency response duties and businesses with duties to report their handling of chemicals and other potentially hazardous materials, with a mechanism to meet the mandate of existing rules by facilitating channels of communication. It is also intended to aid in protection of the Rathdrum Prairie Aquifer in Kootenai County, designated as a sole source aquifer by the United States of America, from potential sources of contamination from materials handling and storage at facilities located over or adjacent to the Aquifer. The rules strive to achieve such protection through proper use of secondary containment systems at Fixed Facilities that use, store, manufacture or handle Critical Materials. Reporting these chemicals to the concerned agencies will facilitate coordination among industry, government agencies and response personnel so that they may more successfully meet the requirements of the following: (3-20-20)T

- a.** Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA III). (3-20-20)T
- b.** The International Fire Code. (3-20-20)T
- c.** The International Building Code. (3-20-20)T

- d.** Local building, planning and zoning codes applicable to lands which overlie the Aquifer. (3-20-20)T
- e.** Any applicable rules administered by any other state, federal or local agency which has jurisdiction over matters related to Critical Materials. (3-20-20)T
- 02. Definitions.** The following have the following definitions: (3-20-20)T
- a.** Container. Any vessel used to hold critical materials. A single container is one not connected to any other container by way of valves, piping, etc. (3-20-20)T
- b.** Critical Material. Any liquid, semi-liquid, flowable, or water soluble solid that is listed on the most current Superfund Amendments and Reauthorization Act, Title III (SARA III) List of Lists published by the Office of Solid Waste and Emergency Response, U.S. Environmental Protection Agency, Washington, D.C. or is required by the U.S. Occupational Safety and Health Administration to have a safety data sheet (SDS). (3-20-20)T
- c.** Critical Materials Compliance Certificate (CMCC). A certificate indicating compliance with the reporting and secondary containment requirements of this rule. (3-20-20)T
- d.** Critical Materials Use Activity. Any undertaking that involves the use, storage, manufacture or handling of Critical Materials at a Fixed Facility above the secondary containment quantity set forth in this rule, or incorporated into this rule by reference. (3-20-20)T
- e.** Director. The Director of Panhandle Health District 1 or his designee. (3-20-20)T
- f.** Fixed Facility. Any established land use, building, dwelling, structure or site upon which or wherein a Critical Material Use Activity is conducted. (3-20-20)T
- g.** Key Box. A durable, locked box that holds keys firefighters or other emergency personnel may use to gain entry into a structure. The key box needs to be a type approved by the local fire chief pursuant to Section 10.209 of the Uniform Fire Code. (3-20-20)T
- h.** Local Emergency Planning Committee (LEPC). A standing committee established by the Office of the Governor through the State Emergency Response Commission (SERC) to fulfill Emergency Planning and Community Right to Know requirements pursuant to SARA III. (3-20-20)T
- i.** Safety Data Sheets (SDS). Documentation required by OSHA to provide a description of the characteristics and potential hazards of a wide range of substances that are potentially Critical Materials. (3-20-20)T
- j.** NFPA 704. The National Fire Protection Association's placarding system used to identify the health hazard, flammability, reactivity and potential to react with water of a particular substance. (3-20-20)T
- k.** Secondary Containment Quantity. The quantity of a Critical Material that requires compliance with this rule. For those Critical Materials specifically listed in the SARA III List of Lists (or as otherwise noted) the following quantities of qualifying substances are subject to this rule: (3-20-20)T
- i.** SARA Section 302 Extremely Hazardous Substances - ten (10) pounds in the aggregate, exclusive of solvent or other medium or, one hundred (100) pounds in the aggregate, inclusive of solvent or other medium. (3-20-20)T
- ii.** CERCLA Hazardous Substances (listed in 40 CFR 302, Table 302.4) - one hundred (100) pounds in the aggregate, exclusive of solvent or other medium or, one thousand (1000) pounds in the aggregate, inclusive of solvent or other medium. (3-20-20)T
- iii.** SARA Section 313 Toxic Chemicals - one hundred (100) pounds in the aggregate, exclusive of solvent or other medium or, one thousand (1000) pounds in the aggregate, inclusive of solvent or other medium.

(3-20-20)T

iv. SARA Section 311 and 312 Chemicals (Not listed in the List of Lists) for which OSHA MSDS must be developed pursuant to OSHA Hazard Communication Standards - five thousand (5000) pounds in the aggregate, inclusive of solvent or other medium. (3-20-20)T

**l.** Secondary Containment System. Site improvements and/or development criteria that are designed to isolate and prevent Critical Materials from entering the soil or surface or ground waters. (3-20-20)T

**m.** Rathdrum Prairie Aquifer (Aquifer). The underground water source identified and designated under the authority of Section 1424(e) of the Safe Drinking Water Act (PL 93- 523) (Federal Register, Vol. 43, No. 28 - Thursday, February 9, 1978). (3-20-20)T

**03. Applicability.** (3-20-20)T

**a.** This rule applies to any person, firm, corporation, or government agency owning, operating, or proposing to locate, establish, or operate a Fixed Facility over the Aquifer or within a recognized Aquifer recharge area in Kootenai County, Idaho. Any Fixed Facility so located shall comply with the requirements of this rule prior to initiation of operation or engaging in any Critical Materials Use Activity, if established after the effective date of this rule. Every owner or operator of a Fixed Facility needs to show compliance with this rule by obtaining a Critical Materials Compliance Certificate appropriate for current operations. (3-20-20)T

**b.** The following activities require a new application to the Panhandle Health District 1 to determine compliance with this rule: (3-20-20)T

i. Establishing a new use that could qualify as a Fixed Facility. (3-20-20)T

ii. Remodeling, operating changes, or expansion of an existing Fixed Facility which would modify the type or quantity of Critical Materials Use Activity. (3-20-20)T

iii. Changes in the location or method of use, storage, manufacture or handling of Critical Materials in any Fixed Facility. (3-20-20)T

iv. A change in ownership or addition of new Critical Materials meeting the quantity thresholds established by this rule at a Fixed Facility. (3-20-20)T

**c.** Any CMCC granted is specific to that action and the application filed therefore. Subsequent actions, meeting the criteria set by Subsection 400.03.b., shall require separate plan reviews and approvals to obtain compliance. (3-20-20)T

**d.** All businesses over the Rathdrum Prairie Aquifer in Kootenai County are subject to inspection in order to determine if they are governed by this rule. (3-20-20)T

**04. Application Requirements of Fixed Facilities Engaged in Critical Materials Use Activities.** Each applicant for a Critical Materials Compliance Certificate must provide. (3-20-20)T

**a.** Sufficient information to allow the Director to determine the type, quantity, and physical state of all Critical Materials that are used, stored, manufactured, or handled at the Fixed Facility location. The Director may require the applicant to provide a complete list of Critical Materials present at the Fixed Facility. (3-20-20)T

**b.** Building plans and site development drawings showing compliance with the secondary containment requirements established by this rule. Such plans shall also provide confirmation that the secondary containment methods are compatible with the materials to be contained and that Critical Materials at the Fixed Facility are isolated from storm water or other surface waters on the site. The Director may require that any such plans be certified by a licensed engineer. The building and/or site plans need to show at least the following: (3-20-20)T

- i. Location of Critical Materials in buildings and other designated site areas. (3-20-20)T
  - ii. Location of Key Box if needed by the local fire chief. (3-20-20)T
  - iii. Location of NFPA 704 placards if needed by the local fire chief. (3-20-20)T
  - c.** Proof of contact and resultant acknowledgment from the agencies named below which have codes, standards, and/or rules which must be met by the applicant with respect to handling of Critical Materials. The Director will designate the agencies needing contact for each Fixed Facility based upon information provided by the applicant. (3-20-20)T
    - i. Local Fire Department. (3-20-20)T
    - ii. Local Emergency Planning Committee. (3-20-20)T
    - iii. Kootenai County Department of Planning and Zoning. (3-20-20)T
    - iv. Kootenai County Building Department. (3-20-20)T
    - v. Applicable City Building Department. (3-20-20)T
    - vi. Applicable City Planning and Zoning Department. (3-20-20)T
    - vii. Bureau of Pesticides, Department of Agriculture. (3-20-20)T
    - viii. Department of Environmental Quality. (3-20-20)T
    - ix. Idaho Department of Water Resources. (3-20-20)T
  - d.** An opportunity for Panhandle Health District 1 to perform an inspection to assure compliance with secondary containment criteria previously approved through the plan review. If approved, and the agency review and reporting checklist (Subsection 400.04.d.) has been completed, a CMCC will be issued. The Director may delegate site inspection duties to officials of a cooperating agency. (3-20-20)T
- 05. Performance Standards for Fixed Facilities.** Each Fixed Facility, as defined in this rule, needs to conform to the following performance standards: (3-20-20)T
- a.** Construct and maintain a secondary containment system for all Critical Materials. Said secondary containment system shall be designed to prevent infiltration of any Critical Materials into the ground in the event that they are released from their original storage containers. (3-20-20)T
  - b.** The secondary containment system and methods must be non-reactive and resistant to the materials to be contained and isolate the Critical Materials at the Fixed Facility from storm water, other surface waters on the site, and from reactive critical materials present in the same Fixed Facility. (3-20-20)T
  - c.** Secondary containment systems must be sized to contain at least one-hundred and ten percent (110%) of the volume of the largest container, or ten percent (10%) of the aggregate volume of all containers, whichever is greater, in any containment area within a Fixed Facility. (3-20-20)T
  - d.** The owner or operator of any Fixed Facility shall report the presence of any Critical Materials Use Activities to the responsible local, state, and federal agencies as specified by statutes, rules, and provisions of this rule. (3-20-20)T
  - e.** Any spilling, leaking, emitting, discharging, escaping, or leaching of any Critical Material into the secondary containment system or the environment must be reported to Panhandle Health District 1 or the local fire department immediately upon discovery of the release. (3-20-20)T

**f.** Should conflict arise among the applications of local, state rules, and federal regulations regarding Critical Materials Use Activities, the rule that provides the greatest degree of protection to the Aquifer shall prevail, except where legal preemption of regulatory authority by state or federal agencies may require application of a different standard of protection. (3-20-20)T

**g.** Each Fixed Facility is subject to biennial inspection to verify continued compliance with these rules. (3-20-20)T

**06. Violation.** Any owner or operator of a Fixed Facility shall be deemed to have violated this rule if: (3-20-20)T

**a.** A Fixed Facility is operated or if Critical Materials Use Activities are conducted on any site without first procuring a Critical Materials Compliance Certificate or if changes are made to Critical Materials Use Activities at a Fixed Facility as set forth in Section 400.03.b. without reapplying for a CMCC for the Fixed Facility. (3-20-20)T

**b.** An owner or operator of a Fixed Facility submits knowingly false or incomplete reports to the Panhandle Health District or other responsible agencies or officials concerning the nature or quantity of Critical Materials present at a Fixed Facility governed by this rule. (3-20-20)T

**c.** An owner or operator fails to implement or maintain secondary containment of Critical Materials at a Fixed Facility as necessitated by this rule. (3-20-20)T

**d.** An owner or operator fails to comply with time and reporting standards for any Critical Materials Use Activities or fails to report any discharge of Critical Materials into the secondary containment system necessitated by this rule. (3-20-20)T

**401. -- 499. (RESERVED)**

**500. CONTAMINANT MANAGEMENT IN THE BUNKER HILL SUPERFUND SITE, SHOSHONE COUNTY, IDAHO.**

**01. Legal Authority.** The Idaho Legislature has given the Board of Health of the District the authority to promulgate rules governing contaminant management pursuant to Section 39-416, Idaho Code. (3-20-20)T

**02. Purpose.** The purpose of these rules is to ensure that activities involving excavations, building development, construction and renovation and grading within the Bunker Hill Superfund Site provide for the installation and maintenance of Barriers and implementation of other Contaminant management standards to preclude the migration of, and particularly, human exposure to Contaminants within the Site as necessary to protect the public health and the environment. It is imperative that redevelopment and future development proceed in a manner which minimizes the release of Contaminants into the air or water to minimize exposure to workers, Site residents and the communities. Further, it is the purpose of these rules to complement existing land use authorities and permitting processes, and to provide a screening process to determine whether proposed activities are subject to these rules. (3-20-20)T

**03. Written Interpretations.** This agency may have written statements and standards which pertain to the interpretation of the rules of this chapter, or to the documentation of compliance with the rules of this chapter. If available, written statements and standards can be inspected and copied at cost at the Panhandle Health District Office, Kellogg, Idaho. (3-20-20)T

**04. Administrative Appeals.** Persons may be entitled to appeal final agency actions authorized under this chapter pursuant to IDAPA 04.11.01, "Idaho Rules of Administrative Procedure of the Attorney General." (3-20-20)T

**05. Definitions.** The following terms are defined as follows: (3-20-20)T

**a.** Applicant. Any person, contractor, public utility, government or other entity that is required to

- apply for an ICP Permit. (3-20-20)T
- b.** Barrier. Any physical structure, material or mechanism which breaks the pathway between contaminants and human receptors, including but not limited to walls, floors, ceilings, soil, asphalt, concrete, fences, control over access, or other structure or covering which separates contaminants from contact with people or keeps contaminants in place. (3-20-20)T
- c.** Board. The Board of Health of the District. (3-20-20)T
- d.** B.O.P. Barrier Option Plan, which will be provided by an Applicant when required; such plans needs to set forth the location and type of Barrier which the Applicant intends to construct as part of the permitted work. (3-20-20)T
- e.** Building Renovation. Construction activity to be performed on any structure involving any ceiling or insulation removal or disturbance of soil in basements or crawl spaces. (3-20-20)T
- f.** Contaminants. Soil or other materials containing, or likely to contain, lead in excess of the levels established in Section 510 of these rules. (3-20-20)T
- g.** Director. The Director of the District. (3-20-20)T
- h.** Disposal. The placement of Contaminants into an authorized permanent repository. (3-20-20)T
- i.** District or PHD. The Idaho Public Health District No. 1 (also the Panhandle Health District). (3-20-20)T
- j.** Excavation. Any digging, breaching or disruption of a soil or other protective Barrier which may expose Contaminants to the environment. (3-20-20)T
- k.** Hearing Officer. A lawyer, engineer or other professional trained in conducting hearings, appointed by the Board for purposes of conducting hearings authorized by these rules. (3-20-20)T
- l.** ICP. The Institutional Controls Program for the Site. (3-20-20)T
- m.** ICP Permit. The Contaminant management authorization for projects subject to these rules. (3-20-20)T
- n.** Large Project. A project within the Site where one (1) cubic yard or more of soil containing Contaminants is disturbed or removed. Large Projects also include, but are not limited to, new building construction, demolition of existing buildings and construction of subdivisions and planned unit developments (PUD's) (and the infrastructure necessary to serve them) and construction within and maintenance of rights-of-way. (3-20-20)T
- o.** Owner. Any person, partnership, or corporation having ownership, title, or dominion over property for which an ICP permit is sought. (3-20-20)T
- p.** Record of Compliance. The record maintained by the District pursuant to Section 011 of these rules for Small Projects. (3-20-20)T
- q.** Site. The Area within the boundaries of the Bunker Hill Superfund Site Allocation Map dated December 10, 1993 attached as Appendix 1 to these rules. (3-20-20)T
- r.** Small Project. A project where less than one (1) cubic yard of soil containing Contaminants is disturbed or interior work that is not Building Renovation. (3-20-20)T
- s.** Working Day. Monday through Friday, but does not include any holiday recognized as such by the state of Idaho. (3-20-20)T

**06. Statement of Intent.** It is the intent of Idaho Public Health District No. 1 (the 'District') to work with local governments, the state of Idaho, the United States Environmental Protection Agency and private parties in managing Contaminants within the regulated area by way of an Institutional Controls Program (herein referred to as the ICP). These rules establish standards for Barrier installation and maintenance, and other Contaminant management practices. These rules govern management of Contaminants by: (3-20-20)T

- a. Requiring ICP permits and requiring barriers for certain construction and excavation activities; (3-20-20)T
- b. Licensing contractors, utilities, and government entities which may disrupt or install Barriers, or otherwise disturb Contaminants; (3-20-20)T
- c. Adopting performance standards; (3-20-20)T
- d. Inspecting for project compliance as required; (3-20-20)T
- e. Regulating the movement and disposal of Contaminants; (3-20-20)T
- f. Making it unlawful to knowingly disrupt a barrier in a fashion likely to expose persons to contaminants. (3-20-20)T

**07. Additional Provisions by District.** In conjunction with these Rules it is the intent of the District to provide, as needed: (3-20-20)T

- a. Technical assistance and testing; (3-20-20)T
- b. Health screening and intervention; (3-20-20)T
- c. That there will be a readily available repository for Contaminants; (3-20-20)T
- d. Clean soil to restore Barriers for Small Projects; (3-20-20)T
- e. Disposal containers to assist in removing contaminated soil for Small Projects and transport and disposal of such soil; (3-20-20)T
- f. Health and safety information and education to licensees and the public; (3-20-20)T
- g. Plastic, gravel and use of vacuums for interior projects; (3-20-20)T
- h. A database tracking system to assist the public, lenders, and potential purchasers of property within the Site; and (3-20-20)T
- i. Guidelines for managing Contaminants. (3-20-20)T

**501. -- 509. (RESERVED)**

**510. THE BUNKER HILL SUPERFUND SITE; APPLICATION OF REGULATIONS.**

These rules apply to the Bunker Hill Superfund Site in Shoshone County, Idaho, more particularly as shown on the Bunker Hill Superfund Site Allocation Map identified as Appendix 1 to these rules. These rules do not apply to operations undertaken at the direction of, under the supervision of, and subject to inspection by, the United States Environmental Protection Agency. (3-20-20)T

- 01. Standards Adopted.** (3-20-20)T
  - a. All Barriers now or hereinafter constructed within the Site shall be maintained and protected. (3-20-20)T

**b.** Except as otherwise provided in this section, Contaminant management is required in connection with any Large or Small Project or Building Renovation involving the breaching or disturbance of a Barrier or the disturbance or migration of Contaminants exceeding one thousand (1000) ppm lead. (3-20-20)T

**c.** No new PUD or subdivision may be occupied where the average concentration of Contaminants exceeds three hundred fifty (350) ppm lead or a single lot exceeds one thousand (1000) ppm lead without Contaminant management on any portion of the property that exceeds these levels. (3-20-20)T

**d.** As necessary to protect public health and the environment, PHD may impose Contaminant management requirements, other than Barrier installations, on projects where soils exhibit lead concentrations in excess of three hundred fifty (350) ppm lead, particularly where a property has been remediated with either six (6) or twelve (12) inches of clean fill but Contaminants in the three hundred fifty to one thousand (350 - 1000) ppm lead range remain below the six (6) or twelve (12) inch depth and those Contaminants may be disturbed by a Large or Small Project. (3-20-20)T

**e.** No person may conduct, except in accordance with these rules, any activity within the Site which breaches a Barrier, may breach a Barrier, or disturbs the same, or otherwise results in a threat to public health or the environment from the migration of Contaminants through tracking on tires or vehicles, visible airborne dust, excavation, transport, disposal, remodeling, demolition, or run-on or run-off from stormwater or in any other manner. (3-20-20)T

**02. Barriers; Construction and Maintenance.** (3-20-20)T

**a.** Barriers are required as necessary to attain the standards described in Section 510. Temporary Barriers also may be required to prevent the migration of Contaminants during construction activities. (3-20-20)T

**b.** Types of acceptable Barriers for specific uses and activities are set forth in Appendices 3, 4, and 5. (3-20-20)T

**c.** All twelve (12) inch permanent permeable exterior Barriers required to be installed under the ICP which overlay soils having lead levels in excess of one thousand (1000) ppm shall have an underlying visual delineator at the twelve (12) inch depth. Visual delineators are not required if the soil underlying the Barrier has tested under one thousand (1000) ppm lead. Permanent impermeable Barriers such as concrete and asphaltic concrete do not require delineators. (3-20-20)T

**d.** The minimum Barrier requirements for residential properties and other properties that are frequently used by children (zero (0) to twelve (12) years) and/or pregnant women are as follows: (3-20-20)T

**i.** All soil which contains lead in excess of one thousand (1000) ppm and lies within twelve inches (12") of the final grade shall be removed, replaced, or covered as appropriate with clean earthen material such that, after all work is completed, the soil remaining in the top twelve inches (12") has less than one thousand (1000) ppm lead. Replacement material must meet the requirements listed in Section 008.06. Acceptable soil removal and Barrier thicknesses for these properties are set forth in Appendix 6. (3-20-20)T

**ii.** Any such property with unrestricted access to an adjacent property not meeting the requirements of Subsection 510.02.a. shall restrict access to such adjacent property. (3-20-20)T

**e.** The minimum Barrier requirements for properties that are not frequently used by children (zero (0) to twelve (12) years) and/or pregnant women are as follows: (3-20-20)T

**i.** All soil which contains lead in excess of one thousand (1000) ppm and lies within six inches (6") of the final grade shall be removed, replaced, or covered as appropriate with clean earthen material such that, after all work is completed, the soil remaining in the top six inches (6") has less than one thousand (1000) ppm lead, and the replacement material meets the requirements listed in Section 510.02.f. (3-20-20)T

**ii.** Acceptable soil removal and Barrier thicknesses for these properties are set forth in Appendix 7. (3-20-20)T

f. No earthen materials containing, on average, more than one hundred (100) ppm of lead or arsenic, nor more than five (5) ppm of cadmium, with no individual sample containing more than one hundred fifty (150) ppm of lead, shall be utilized for a Barrier. (3-20-20)T

g. Should any inconsistency exist between the wording of these rules and the wording in any appendix, the wording in the rule supercedes the wording in the appendix. (3-20-20)T

**03. ICP Permits.** (3-20-20)T

a. ICP Permits are required for: (3-20-20)T

i. Large projects; (3-20-20)T

ii. Building renovations. (3-20-20)T

b. A permit is required for a change in use of property which has Contaminants located thereon to a use which requires an additional or more substantial Barrier; constructing or establishing such additional Barriers shall be required, unless waived by the District. (3-20-20)T

c. A single annual permit covering a specific list of projects may be obtained from the District by entities eligible under Section 015 at the beginning of each year's construction season. (3-20-20)T

**511. CONTAMINANT MANAGEMENT RULES IN THE BUNKER HILL SUPERFUND SITE OPERABLE UNIT #3 INSTITUTIONAL CONTROLS ADMINISTRATIVE AREA, SHOSHONE AND KOOTENAI COUNTIES, IDAHO.**

**01. Purpose.** The purpose of these Rules is to ensure that activities associated with excavation and grading such as infrastructure development and maintenance; building construction and renovation; and land development, redevelopment and/or modification within the Institutional Controls Administrative Area of the Bunker Hill Superfund Site Operable Unit #3 (OU-3) provide for the construction and maintenance of Contaminant Barriers and implementation of other Contaminant management requirements to preclude the release and migration of Contaminants as necessary to protect the public health and the environment. It is imperative that current and future development and construction activities proceed in a manner which minimizes the release of Contaminants into the environment to minimize exposure to Area residents, communities, to workers involved in Area project work, and to environmental receptors. Further, it is the purpose of these Rules to complement existing land use regulations and permitting processes, and to provide a screening process to determine whether proposed activities are subject to these Rules. These Rules will rely upon procedures and provisions applicable to the Institutional Controls Program set forth in Section 500 of these rules. Differences identified in Sections 511 and 512 of these rules, is deemed applicable only to the lands encompassed by OU-3. (3-20-20)T

**02. Implementation Policy and Standards.** Implementation policy and standards which pertain to the interpretation and enforcement of these Rules or to the documentation of compliance with these Rules have been developed by PHD and are available for inspection and/or copying at cost at the PHD office, 114 West Riverside Avenue, Kellogg, Idaho. (3-20-20)T

**03. Administrative Appeals.** Persons may be entitled to appeal final PHD actions authorized under this chapter, pursuant to IDAPA 04.11.01, "Idaho Rules of Administrative Procedure of the Attorney General." (3-20-20)T

**04. Definitions.** The following terms are defined as follows: (3-20-20)T

a. Agricultural Land. Land used for pasturing animals or for cultivation and production of agricultural crops including conservation reserve activities. (3-20-20)T

b. Applicant. Any person, contractor, public utility, government or other entity that is required to apply for an Institutional Controls Program (ICP) Permit. (3-20-20)T

- c.** Access Restrictions. Physical barriers such as fences, barricades, curbs, barrier rocks, trenches, etc. that provide restricted access by vehicles, pedestrians, and animals to contaminated areas. (3-20-20)T
- d.** Barrier. Any physical structure, material or mechanism which acts to break the pathway between Contaminants and human receptors, including but not limited to soil, crushed aggregate/gravel, asphalt and Portland cement concrete, fences, access restrictions, or other structure or covering which separates Contaminants from contact with people or keeps Contaminants in place. (3-20-20)T
- e.** Board. The Board of Health of the Idaho Public Health District No. 1. (3-20-20)T
- f.** B.O.P. Barrier Option Plan, a plan which will be provided by an Applicant, when required, that sets forth the location and type of Barrier which the Applicant intends to construct as part of the permitted work. (3-20-20)T
- g.** Building Construction. Construction activity to be performed for any new structure involving disturbance of soil in excess of one cubic yard. (3-20-20)T
- h.** Building Renovation. Construction activity to be performed on any existing structure involving ceiling or insulation removal, work in dirt crawl spaces or basements, or disturbance of soil in excess of one cubic yard. (3-20-20)T
- i.** CERCLA. Comprehensive Environmental Response, Compensation, and Liability Act. (3-20-20)T
- j.** Commercial Property. Retail, wholesale and secondhand businesses; public and common use areas; public buildings; and undeveloped properties accessed by a maintained road or street and zoned for commercial development as of the date of promulgation of these Rules. (3-20-20)T
- i.** Type I. Commercial Property predominantly used by Sensitive Populations (e.g. daycare facilities, municipal parks, playgrounds, etc.) (3-20-20)T
- ii.** Type II. All other Commercial Property. (3-20-20)T
- k.** Contaminants. Soil or other material containing, or likely to contain, concentrations of lead equal to or greater than one thousand (1000) ppm or concentrations of arsenic equal to or greater than one hundred (100) ppm. (3-20-20)T
- l.** Developed Recreation Area. Commercial and public recreation areas containing constructed features such as boat ramps, picnic areas, and campgrounds outside the city limits of incorporated communities in the Coeur d'Alene River corridor as defined in Subsection 511.04.s. of these rules. The Developed Recreation Areas of the Trail of the Coeur d'Alenes includes all constructed trail surfaces, stop and views, oases (rest stops) and trailheads, exclusive of all undeveloped areas within the trail right of way. (3-20-20)T
- m.** Director. The Director of the Idaho Public Health District No. 1. (3-20-20)T
- n.** Disposal. The placement of Contaminants into an authorized repository. (3-20-20)T
- o.** Environmental Office. PHD office in Kellogg, ID. (3-20-20)T
- p.** Excavation – Any digging, breaching or disruption of soil not including cultivation of Agricultural Lands and gardens or mining activities regulated under other state and federal programs which may release or expose Contaminants to the environment. (3-20-20)T
- q.** Health Officer. The Director or designee. (3-20-20)T
- r.** Hearing Officer. An attorney, engineer or other professional trained in conducting hearings, appointed by the Board for purposes of conducting hearings authorized by these Rules. (3-20-20)T

- s.** Institutional Controls Administrative Area. The Area designated by the Administrative Area Map in Appendix 2 which includes areas of mining, milling, and smelting related contamination in the South Fork of the Coeur d'Alene River corridor from its headwaters to the confluence with the North Fork Coeur d'Alene River and from the confluence of the North and South Fork to the mouth of the River and its confluence with Coeur d'Alene Lake including adjacent floodplains, tributaries, and fill areas. The Area also includes the Trail of the Coeur d'Alenes inside and outside the administrative boundary indicated on the map in Appendix 2 except that portion within the exterior boundaries of the Coeur d'Alene Indian Reservation. The Area does not include any area within OU-1 and OU-2 (Box) which has a separate ICP, or any other area excluded under this rule. The Area also includes areas in the Coeur d'Alene River corridor, as defined above, outside the administrative boundary indicated on the map in Appendix 2 where testing has verified that Contaminants related to mining, milling, and smelting have come to lie and remediation is required. (3-20-20)T
- t.** ICP. The Institutional Controls Program for the Institutional Controls Administrative Area as defined in Subsection 511.05.s. of these rules. (3-20-20)T
- u.** ICP Permit. The Contaminant management authorization for projects subject to these Rules. (3-20-20)T
- v.** Infrastructure. Facilities such as trails, roads, streets, highways, bridges; storm water, drinking water, and wastewater systems; flood prevention systems including dikes and levees; and utilities including electrical power and natural gas systems. (3-20-20)T
- w.** Large Project. A project where one cubic yard or more of soil containing Contaminants is disturbed or removed. Large Projects include, but are not limited to, infrastructure construction and maintenance, building construction, renovation, and demolition, land development or any change in the use of land that may result in the release or migration of Contaminants. (3-20-20)T
- x.** Owner. Any person, partnership, or corporation having ownership, title, or dominion over property for which an ICP permit is required. (3-20-20)T
- y.** PHD. The Idaho Public Health District No. 1 (also the Panhandle Health District). (3-20-20)T
- z.** PUD. Planned Unit Development. (3-20-20)T
- aa.** Record of Compliance. The record maintained by the PHD pursuant to Section 523 of these rules for Small Projects. (3-20-20)T
- bb.** Release. Any excavation, spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, dumping, or disposing of Contaminants into the environment. (3-20-20)T
- cc.** Residential Property. Property used by private individuals or families as a residence, and undeveloped properties accessed by a maintained road or street and zoned for residential development as of the date of promulgation of these Rules. (3-20-20)T
- dd.** Sensitive Populations. Pregnant women and children up to twelve (12) years old. (3-20-20)T
- ee.** Small Project. A project where less than one (1) cubic yard of soil containing Contaminants is disturbed or interior work that is not Building Renovation. (3-20-20)T
- ff.** Trail of the Coeur d'Alenes. All Developed Recreation Areas and undeveloped areas within the former Union Pacific Railroad Mullan and Wallace Branch right of way. (3-20-20)T
- gg.** Working day. Monday through Friday, excluding any legal holiday recognized as such by the State of Idaho. (3-20-20)T
- 05.** **Statement of Intent.** It is the intent of the PHD to work with local governments, the State of Idaho,

the United States Environmental Protection Agency, Federal Land Management Agencies (Bureau of Land Management, USDA Forest Service), Coeur d'Alene Tribe, and private parties in managing Contaminants within the regulated Institutional Controls Administrative Area by way of an ICP. These Rules establish standards for Barrier construction and maintenance, and other Contaminant management practices. These Rules do not address financial liability for Contaminant management resulting from a failure of a CERCLA remedy due to a natural disaster. These Rules govern management of Contaminants by: (3-20-20)T

- a. Requiring ICP permits and requiring barriers for certain construction and excavation activities; (3-20-20)T
- b. Licensing contractors, utilities, and state and local government entities which may disrupt or construct Barriers, or otherwise disturb Contaminants; (3-20-20)T
- c. Adopting performance standards; (3-20-20)T
- d. Inspecting for project compliance as required; (3-20-20)T
- e. Regulating the movement and disposal of Contaminants; (3-20-20)T
- f. Making it unlawful to knowingly disrupt a barrier in a fashion likely to expose persons or the environment to Contaminants; (3-20-20)T
- g. Maintaining records of ICP activities. (3-20-20)T

**06. Additional Provisions by PHD.** In conjunction with these Rules it is the intent of the PHD to provide, depending on project size and complexity and at the discretion of PHD: (3-20-20)T

- a. Technical assistance and soil testing; (3-20-20)T
- b. Health screening and intervention; (3-20-20)T
- c. Readily available repositories for disposal of Contaminants; (3-20-20)T
- d. Clean material to restore Barriers for Small Projects; (3-20-20)T
- e. Disposal containers for Small Projects to assist in removal, transportation and disposal of contaminated soil; (3-20-20)T
- f. Health and safety information and education to licensees and the public; (3-20-20)T
- g. Sheet plastic, crushed aggregate and gravel, or other items as appropriate; (3-20-20)T
- h. A database tracking system to assist the public, lenders, and prospective purchasers of property within the Institutional Controls Administrative Area; (3-20-20)T
- i. Guidelines for managing Contaminants. (3-20-20)T

**512. APPLICATION OF REGULATIONS; INSTITUTIONAL CONTROLS ADMINISTRATIVE AREA.** These Rules apply to the Institutional Controls Administrative Area as defined in Subsection 511.05.s. of these rules. These Rules do not apply to the direct operations of the United States Environmental Protection Agency including directing, supervising, and inspecting project work or on lands owned or otherwise under the jurisdiction, custody and control of the Coeur d'Alene Tribe or the Federal Land Management Agencies such as the USDA Forest Service and the Bureau of Land Management. These Rules do not apply to the Union Pacific Railroad or its contractors when conducting activities within the Trail of the Coeur d'Alenes pursuant to the requirements of the Consent Degree entered August 25, 2000 by the United States District Court for the District of Idaho (Case Nos. 91-0342 and 99-606). (3-20-20)T

**01. Standards Adopted.** (3-20-20)T

**a.** Except as otherwise provided in Section 512 of these rules, contaminant management is required on all properties within the Institutional Controls Administrative Area including properties that have been remediated; properties tested and scheduled for remediation; properties not yet tested; and properties testing below action levels in the top eighteen (18) inches where Large or Small Projects may disturb Contaminants below eighteen (18) inches in excess of one thousand (1000) ppm lead or one hundred (100) ppm arsenic. Contaminant management may include testing of untested areas by the Applicant; testing of deep soils (below eighteen (18) inches) by the Applicant where a project may result in deep excavations; and replacement and repair of remediation Barriers in accordance with Subsection 512.02 of these rules; or other management activities. Contaminant Management on Residential Properties and Commercial Properties existing as of the date of promulgation of these Rules and requiring remediation, but not yet remediated will not require construction of final barriers in accordance with Subsection 512.02 of these rules, by the owner, but may require dust, erosion, health and safety and temporary cap controls to prevent further migration onto lands of others. Final barrier construction will be the responsibility of the state of Idaho and United States Environmental Protection Agency if needed. Applicant performed soil testing will be conducted consistent with sampling and analytic procedures developed by PHD. (3-20-20)T

**b.** Developed Recreation Areas with surface soil containing lead concentrations greater than seven hundred (700) ppm lead and one hundred (100) ppm arsenic shall be capped pursuant to Subsection 512.02.c. of these rules. (3-20-20)T

**c.** Agricultural and undeveloped land within the Institutional Controls Administrative Area are exempt from these Rules unless excavation and grading activities such as soil transport off site or development by the owner or his/her agents on these lands is likely to result in the release or migration of Contaminants from these lands to adjacent non-agricultural or undeveloped areas. (3-20-20)T

**d.** All Barriers existing or hereinafter constructed shall be maintained and protected to original construction specifications. (3-20-20)T

**e.** No new PUD or subdivision containing concentrations of Contaminants exceeding one thousand (1000) ppm lead or one hundred (100) ppm arsenic shall be developed without Contaminant management. (3-20-20)T

**f.** No person may conduct, except in accordance with these Rules, any activity within the Institutional Controls Administrative Area which breaches a Barrier, may breach a Barrier, or disturbs the same, or otherwise results in a threat to public health or the environment from the migration of Contaminants through tracking on tires or vehicles, visible airborne dust, excavation, transport, disposal, renovation, demolition, or run-on or run-off from stormwater or in any other manner on properties tested and requiring remediation and on properties not yet tested within the Institutional Controls Administrative Area (3-20-20)T

**02. Barriers; Construction and Maintenance.** (3-20-20)T

**a.** The minimum Barrier construction requirements for Residential and Type I Commercial Properties are as follows: (3-20-20)T

**i.** All soil which contains lead equal to or in excess of one thousand (1000) ppm or arsenic equal to or in excess of one hundred (100) ppm and lies within twelve (12) inches of the final grade shall be removed and replaced with replacement material meeting the requirements of Subsection 512.02.d. of these rules. (3-20-20)T

**ii.** Any such property with unrestricted access to an adjacent property not meeting the requirements of Subsection 512.01.a. of these rules, shall restrict access to such adjacent property. (3-20-20)T

**b.** The minimum Barrier construction requirement for Type II Commercial Properties is a six (6) inch soil with vegetative cover barrier or six (6) inch crushed rock/gravel barrier or asphalt/Portland cement concrete cap. Excavation may be necessary for the installation of barriers to maintain grade or drainage requirements. (3-20-20)T

**c.** The minimum Barrier construction requirement for Developed Recreation Areas is a six (6) inch

soil with vegetative cover barrier or six (6) inch crushed rock/gravel barrier or asphalt/Portland cement concrete cap. Excavation may be necessary for the installation of barriers to maintain grade or drainage requirements. (3-20-20)T

**d.** All twelve (12) inch deep Barriers of soil or crushed rock/gravel required pursuant to the ICP which overlay soils having concentrations of lead equal to or greater than one thousand (1000) ppm or arsenic concentrations equal to or greater than one hundred (100) ppm shall have an underlying visual delineator at the twelve (12) inch depth. Visual delineators are not required if the soil underlying the Barrier has tested under one thousand (1000) ppm lead and one hundred (100) ppm arsenic. Cap Barriers such as Portland cement and asphalt concrete do not require delineators. (3-20-20)T

**e.** Soil and crushed aggregate/gravel imported for barrier material shall contain less than one hundred (100) ppm lead, thirty five (35) ppm arsenic and five (5) ppm cadmium based on average of backfill sampling results. No single sample of replacement materials may exceed one hundred fifty (150) ppm lead or forty five (45) ppm arsenic. (3-20-20)T

**f.** Barriers needs to be maintained and repaired to original construction specifications. (3-20-20)T

**g.** Contaminated waste material generated in the construction, maintenance and repair of Barriers shall be disposed of in designated repositories or as directed by PHD. (3-20-20)T

**03. ICP Permits.** (3-20-20)T

**a.** Permits are required for Large Projects and Building Renovations. (3-20-20)T

**b.** A permit is required for a project which changes the use of a property containing Contaminants. A new Barrier or additional or more substantial Barrier may be required unless waived by the PHD. (3-20-20)T

**c.** A single annual permit covering a specific list of projects may be obtained from the PHD by entities eligible under Section 531 of these rules, at the beginning of each year's construction season. (3-20-20)T

**513. -- 519. (RESERVED)**

**520. PERMIT APPLICATION AND ADMINISTRATION.**

**01. Application for ICP Permit.** Application for an ICP Permit shall be made in writing at the Kellogg office of the District on forms provided by the District. (3-20-20)T

**02. Applicant Information.** All Applicants shall provide the following information when applying for an ICP Permit with the District: (3-20-20)T

**a.** Name, address and telephone number of the Applicant and the property owner. (3-20-20)T

**b.** Location of the work and whether the work is being done on private or public property, or both. (3-20-20)T

**c.** Description of work. The description must include methods of handling or storing, and transporting contaminated materials. A site plan may be required by the District if one has not been provided pursuant to the permit process. (3-20-20)T

**d.** Dates work will be started and completed. (3-20-20)T

**e.** Such other information as the District requires. (3-20-20)T

**03. Use of Discretion on Requirements by District.** The District may, at its own discretion, waive certain application requirements or information, or require additional or alternative actions or information, depending upon the type and extent of the project and conditions encountered. In no instance may a waiver violate the intent of this rule and/or the Record of Decision for the relevant Operable Unit. (3-20-20)T

**04. Site Inspection or Waiver When Permit Required.** Work requiring a permit may not commence until a site inspection has been made or waived by the District and a permit has been issued. (3-20-20)T

**05. Other Inspections and Requirements.** All permits granted pursuant to this Rule remain subject to such other inspections and requirements prescribed by state or local governments. (3-20-20)T

**06. Work Involving Public Right-of-Way.** If the permit involves work within any public right-of-way, the appropriate agencies must be notified of the work by the entity receiving the permit. (3-20-20)T

**521. INSPECTION.**

The Applicant shall notify the District by telephone when work is completed. Applicants shall call for inspection in accordance with the terms of the permit; forty-eight (48) hours notice (excluding weekends and holidays) to PHD needs to be provided. The inspector will note approval of the work in writing and enter same in the database tracking system, or note reasons for disapproval and steps which must be taken to complete the work. Upon completion of the work to the District's satisfaction, the District's final approval will be noted in the database tracking system. Such entry constitutes the Record of Compliance for such project. All work governed by these regulations is subject to inspection by the District or its designated agents and it is unlawful to obstruct or hinder any official, inspector or designated agent making an inspection. The District may obtain an inspection warrant if access to the property is refused. The District reserves the right to waive the inspection requirement. (3-20-20)T

**522. PERMIT REVOCATION OR STOP WORK ORDER.**

Any Permit may be revoked or a Stop Work Order may be issued, without notice by the District, for non-compliance with or violation of any of the provisions of this chapter or any requirement or limitation of the Permit. If a Permit is revoked, the District may take such steps as are necessary to eliminate any danger from contamination, including completion of work by the District. The Applicant, contractor and/or Owner may be required to pay all costs and expenses for abatement of any danger and/or completion of the project, including legal fees incurred by the District to obtain compliance. The District will endeavor to provide written notice, but reserves the right to act summarily to protect public health and the environment. (3-20-20)T

**523. RECORD OF COMPLIANCE.**

A Record of Compliance for Small Projects which documents compliance with the performance standards established by these rules will be entered into the database tracking system based upon an inspection requested of PHD by the property owner or tenant. The Record signifies the property owner or tenant was informed of and provided with applicable performance standards and guidelines and materially complied with the same. (3-20-20)T

**524. -- 529. (RESERVED)**

**530. CONTRACTOR LICENSING.**

**01. License Required.** Any contractor performing Large Projects, Building Renovation or transportation or disposal of Contaminants within the Site or the Institutional Controls Administrative Area which is likely to expose the contractor, workers or others to Contaminants, must be licensed by the District. There will be no charge for a contractor's license. It is unlawful for a contractor to work on a project requiring an ICP permit without a current contractor's license issued by PHD. A contractor's license will not be required of an owner working on his or her own property. (3-20-20)T

**02. Training.** In order to obtain a contractor's license from the District, the Contractor must have those supervisors involved in activities dealing with Contaminants participate in training approved by the District and pass an annual examination focusing on the reasons for, and methods of, controlling Contaminants. The purpose of the examination is to assure that all of the Contractor's employees are aware of and observe the procedures and standards that will protect themselves and the public from the Contaminants. The District will create and administer the test. The trained supervisor must pass information on to employees as is necessary to protect their health and safety and assure compliance with these rules. The District will provide training which owners and employees may participate in. (3-20-20)T

**03. Bonding.** Any contractor whose license has been revoked by the District within the past three (3)

years must, as a condition of reinstatement and maintaining the status of a licensed contractor, be bonded in the minimum amount of two-thousand dollars (\$2000). Said bond shall be at least five percent (5%) of the cost of any contract the contractor is engaged in whichever is greater, be in a form approved by the District, and must be suitable to insure payment for completion of Barrier work not completed by the Contractor. A cash deposit or other security acceptable to the District may be utilized in lieu of a bond. The District may establish a bonding program for all contractors, if deemed necessary to carry out these Rules. (3-20-20)T

**04. Suspension or Revocation of License.** (3-20-20)T

**a.** Upon a showing that a licensee has violated any provision of these Rules, or has violated any other health or building code within the boundaries of the Site or Institutional Controls Administrative Area, suspension or revocation of license may be imposed. Suspension may be made by any District health officer. Revocation may be made by the Director upon recommendation of the District health officer. Notification of suspension or revocation must be in writing. No suspension may be made for more than thirty (30) days without approval of the Director. Revocation of license may be made by the Director upon a showing of good cause. (3-20-20)T

**b.** Appeal. Suspension or revocation may be appealed by the licensee to the Board in writing within thirty (30) days of receipt of notice of suspension or revocation. Appeal stays the suspension or revocation unless the Director makes a finding that such stay is likely to present a health risk to a person or persons. (3-20-20)T

**c.** Any decision by the Board pertaining to a suspension or revocation of a license may be made only after a licensee has been accorded an opportunity for hearing at which the licensee has a right to appear and be heard, to be represented by counsel, to testify, to present evidence, to call witnesses and to rebut any evidence presented. A transcribable recording of all such hearings will be made and retained for at least six (6) months. Such hearing may be conducted by a hearing officer designated by the Board or by the Board itself. (3-20-20)T

**d.** If a license is revoked, the contractor may, upon payment of any cleanup or remediation costs related to past work, reapply for reinstatement of license after one (1) year, however, a contractor whose license has been revoked may not obtain a new license under a different corporate or partnership status until this provision is satisfied. (3-20-20)T

**531. LICENSES FOR PUBLIC UTILITIES AND GOVERNMENT ENTITIES.**

Upon a demonstration that supervisory employees of a public utility or government entity (city, county, special purpose district, or state of Idaho) have participated in an education program approved by, or provided by, the District, a utility company or government entity may receive an annual license which will allow their employees to perform excavation and grading operations without obtaining individual ICP permits. This license may be granted by the District and will require that the utility comply with performance standards and all other regulations contained herein or adopted by Resolution of the Board. All supervisory employees involved in and responsible for excavation and grading operations shall have participated in a District approved education program. The trained supervisor must pass information on to employees as is necessary to protect their health and safety and assure compliance with these rules. The District will provide training which owners and employees may participate in. Entities licensed under this section shall maintain a log of all excavations and grading operations on a form approved by the District. Such logs need to be forwarded to the District on a regular basis determined by the District. All licensees shall telephone the Shoshone or Kootenai County one-call locating service, as appropriate, prior to any excavation or grading operations. Licenses shall be renewed annually upon a showing that the utility or government entity has operated in compliance with this rule. This license may also be revoked as provided in Subsection 530.04. (3-20-20)T

**532. -- 539. (RESERVED)**

**540. PERFORMANCE OF WORK.**

**01. Completion of Work.** All work done pursuant to an ICP Permit shall be completed in a neat and workmanlike manner and so scheduled as to cause the minimum interference with traffic or public use (if applicable) and a minimum dispersal of Contaminants. (3-20-20)T

**02. Work Delayed by Applicant.** If the work is unduly delayed by the Applicant, and if the public interest reasonably so demands, the District has the authority, upon twenty-four (24) hours' written notice to the

Applicant, to complete the work to the extent that the Barrier is restored and any hazardous material covered or removed. The actual cost of such work by the District (including legal fees), plus fifteen percent (15%) as an overhead charge, shall be charged to and paid by, the Applicant and/or the Owner. (3-20-20)T

**541. PERFORMANCE STANDARDS.**

The Board will adopt, and from time to time amend, performance standards by Resolution; said standards to ensure that work is performed in a safe and responsible manner and specify how work will be completed. Said standards shall be applicable to, but not be limited to, the following: materials handling; dust control; erosion/runoff control; disposal; transportation; barrier construction; demolition; renovation; grading; and subdivision development. Performance standards so adopted will not amend any standard adopted within these rules, and these rules apply should any conflict arise between a rule and a performance standard. (3-20-20)T

**542. APPROVAL OF ALTERNATIVE STANDARDS.**

Any person aggrieved by the substantive requirements of these rules or the performance standards, may appeal these requirements by providing a written request for approval of an alternative standard. The appeal shall be accompanied by an engineering report indicating why the appealing party should be relieved of the requirement for compliance or why the requested alternate standard is appropriate. At the Applicant's expense, the District may consult with its own engineer to confirm the applicability of these rules to the proposed project. The District health officer may approve an alternate standard where such approval does not jeopardize the public welfare or existing Barriers. The decision of the District health officer will be in writing, stating the reasons therefor. (3-20-20)T

**543. OWNER AND APPLICANT RESPONSIBILITY FOR CLAIMS AND LIABILITIES.**

Both the Owner and the Applicant are responsible to ensure that all rules contained herein are complied with. Applicant is responsible for all claims and liabilities arising out of work performed by the Applicant under the ICP Permit or arising out of the Applicant's failure to perform obligations with respect to these regulations. Owner is responsible for all claims and liabilities for work done by the Owner with or without a permit and for work done at the direction of the owner without a permit. Owner remains responsible to complete the project or restore the premises to a safe condition to the satisfaction of the District should the Applicant fail to complete or restore it. (3-20-20)T

**544. -- 899. (RESERVED)**

**900. ADMINISTRATIVE PROCEDURES, EXCEPTIONS, PENALTIES.**

**01. Responsibility of Permit Applicant.** It is the responsibility of any person applying for, or required to apply for, a permit by this Code, to show affirmatively, by all reasonable means, that his undertaking complies with this Code or with any related rules, statutes, or ordinances. (3-20-20)T

**02. Permit Revocation.** Any permit or permission, actual or implied, granted by the Health Officer or his predecessors may be revoked, for cause, by written notice sent to the permit holder or his agent. Any person, association, or corporation who continues to act under such permit or permission actual or implied, more than ten days after the sending or delivery of notice of revocation is presumed to be in violation of this code and subject to the penalties provided herein. (3-20-20)T

**03. Variance Standards.** A variance may be granted only upon an affirmative showing by an applicant that a unique and undue hardship is caused by a physical characteristic of a site that is not of the applicant's making and that approval of the variance would not be contrary to the public interest or to the purposes of the Code. (3-20-20)T

**04. Variance Procedures.** (3-20-20)T

**a.** An applicant for a variance shall obtain a Variance Application Form from Panhandle Health District 1 and, after completing the application form, return it to the Environmental Office. The Variance Application shall require the applicant to provide, in addition to information required by the application form itself, the following (3-20-20)T

**i.** An accurate site plan showing development of the site in question, present and proposed, depicting

all features relevant to the variance request. The Director, or his designee, shall identify information necessary to proper processing of the request if information other than that normally required needs to be supplied. The applicant shall describe the current and proposed use of the site in question. (3-20-20)T

ii. A narrative statement addressing the efforts, including consideration of design alternatives, which the applicant has undertaken to comply with the rule from which a variance is sought. (3-20-20)T

iii. A narrative statement explaining the nature of the hardship, if any, imposed by literal compliance with the rule in question. (3-20-20)T

iv. A narrative statement explaining the effects of the requested variance on the interests of adjoining landowners and/or of the public at large. (3-20-20)T

v. A narrative statement detailing what use could be made of the site in question if the requested variance were not granted. (3-20-20)T

b. The completed Variance Application shall be returned to the Environmental Office accompanied by an initial filing fee as established by the Board. The completed application shall be submitted to the Panhandle Health District 1 Hearing Officer who will determine whether, on its face, it sets forth a colorable claim for a variance from the Code. If the Hearing Officer determines that the application does not set forth a colorable claim for variance, he will return the application to the applicant with a written explanation of the action taken. Said initial determination and the accompanying explanation will be forwarded to the Board which will act upon the Hearing Officer's initial determination by affirming it or remanding it to the Hearing Officer for further proceedings. (3-20-20)T

c. If the Hearing Officer determines that the application presents a colorable claim for a variance, he shall return the application to the Environmental Office with instructions to prepare a notice of public hearing concerning the requested variance. The applicant shall pay an additional processing fee if the Hearing Officer makes such a finding. Said fee may be adjusted as with all other Panhandle Health District 1 fees in accordance with a sliding scale coordinated with Federal poverty standards. (3-20-20)T

d. The Environmental Office staff will notify the applicant that his application has passed the initial screening and that the names and mailing addresses, on self-adhesive labels, of all owners of land located within three hundred (300) feet of the external boundaries of the site in question must be provided. Said names will be provided or checked by a land title company or other business whose commercial purpose it is to provide such information. The applicant is solely responsible for the accuracy of such information. (3-20-20)T

e. Using the mailing list provided by the applicant, notice of public hearing will be sent by first class mail and posted on the site in question in a conspicuous manner. The Environmental Office will maintain records verifying completion of the notification process. Mailing and posting shall be accomplished at least fifteen (15) days prior to the date of the hearing established by the Hearing Officer. (3-20-20)T

f. Upon the appointed date, the Hearing Officer shall conduct a public hearing concerning the variance request. The applicant, Panhandle Health District 1 staff, interested members of the public, and public agency representatives will be allowed to participate in such hearing. The Hearing Officer may establish time limits or other rules of procedure to expedite hearing of the request. The Hearing Officer shall establish a record of the hearing and see that a tape recording is made of the proceedings. Exhibits shall be identified in the record in order that they may be associated with the taped record of the hearing. (3-20-20)T

g. Upon completion of the hearing and compilation of the record in each application, the Hearing officer shall prepare a recommended decision which is transmitted to the Board for final action. The Hearing Officer may recommend that the application be approved, be approved with conditions, or that the application be disapproved. His recommendation shall set forth facts found relevant to the decision, legal principles applicable to the recommended ruling, and conclusions drawn from the hearing process. (3-20-20)T

h. At its next regular meeting, or as soon as the application can be placed upon its agenda, the Board will consider the record compiled and the Hearing Officer's recommendation and decide the request without further hearing by the Board. The Board may accept the recommendation of the Hearing Officer, may reverse the

recommendation, or may modify the recommended decision for reasons to be found in the record. If the Board modifies or reverses the Hearing Officer's recommendation it shall set forth its reasons for doing so in writing with reference to parts of the compiled record or conclusions drawn therefrom. The Board may also elect to remand the request to the Hearing Officer for clarification or for further hearings to obtain information the Board deems essential. Confirmation of the Hearing Officer's recommendation may be accomplished by Board action adopting the Hearing Officer's decision as its own. Appeals from Board action may be taken in accord with provisions of Section 39-418, Idaho Code. (3-20-20)T

**901. (RESERVED)**

**902. VIOLATION AND ENFORCEMENT.**

Violation of any provision of these rules is subject to the following enforcement procedures: (3-20-20)T

**01. Violation of Rules.** Any person, association, or corporation, or the officers thereof, violating any of the provisions of these rules is deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding three hundred dollars (\$300), or by imprisonment in the county jail for a term not exceeding six (6) months, or by both such fine and imprisonment. (3-20-20)T

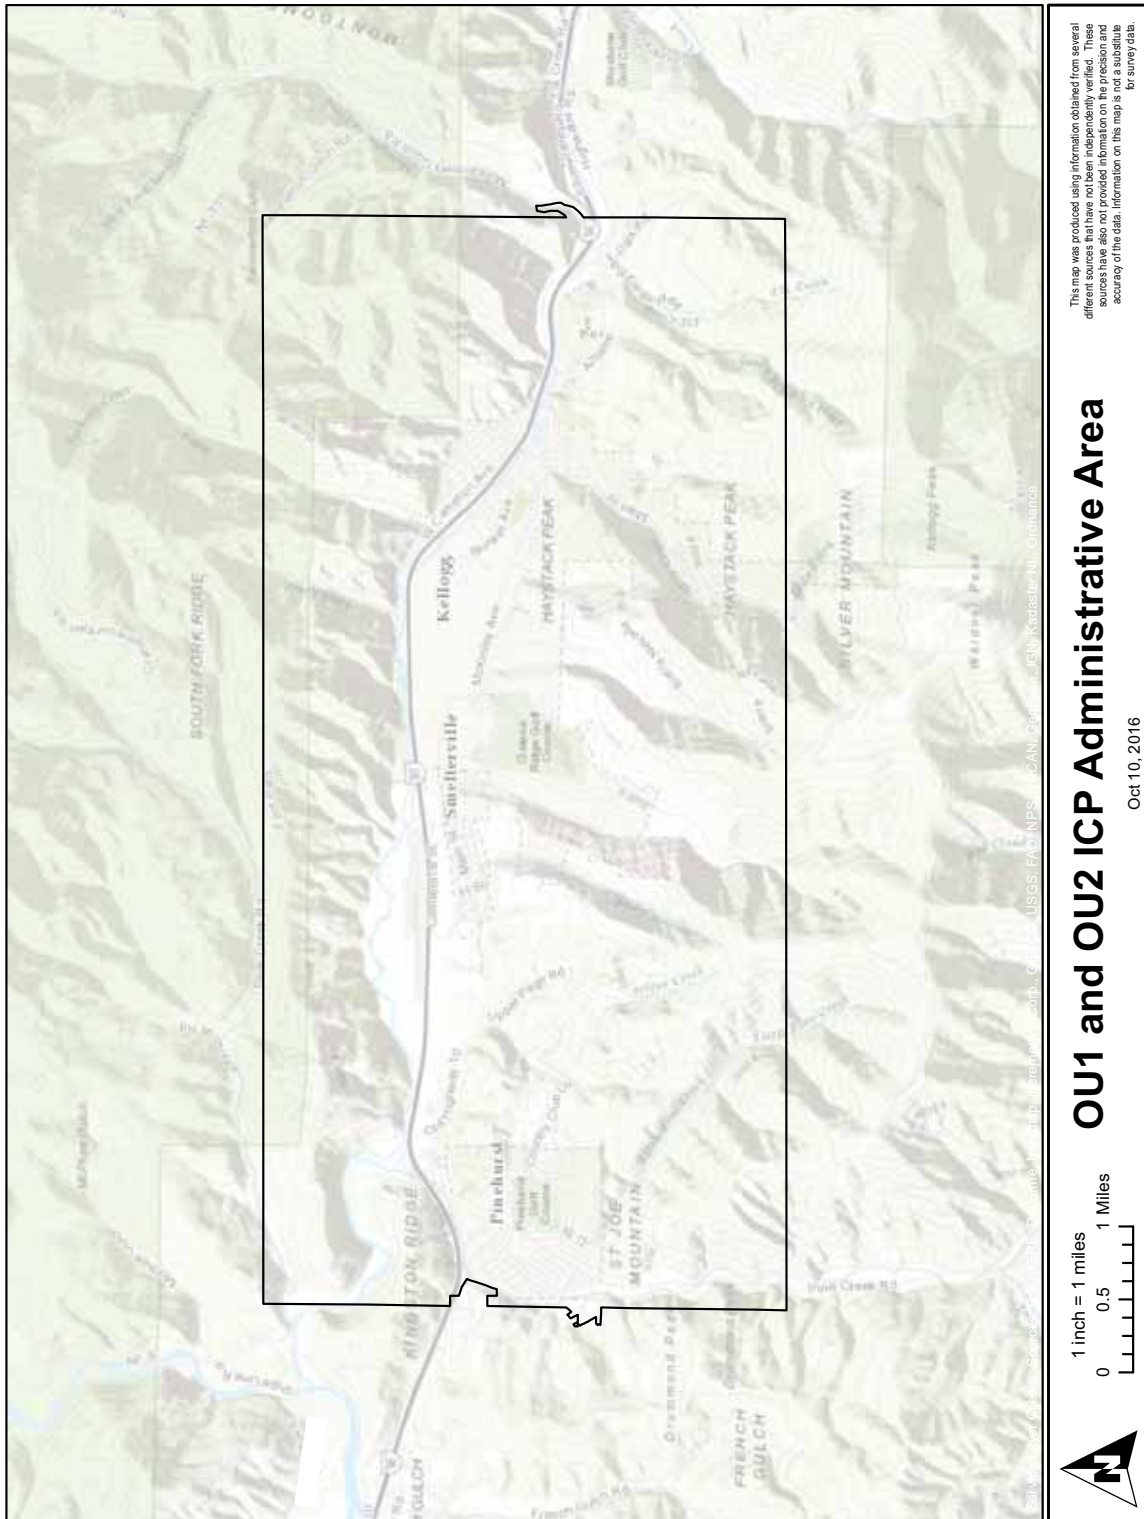

**02. Liability of Violator.** In addition to fine and imprisonment, any person, association, or corporation, or the officers thereof found to be in violation of these rules is liable, by civil action or restitution, for any expense incurred by the District in enforcing this act, or in removing or terminating any nuisance or health hazard. (3-20-20)T

**03. Other Action.** Any person, association, or corporation, or the officers thereof is additionally subject to civil court action, including an injunction or restraining order, and to such penalties, costs, or fees as may be necessary to compel compliance. (3-20-20)T

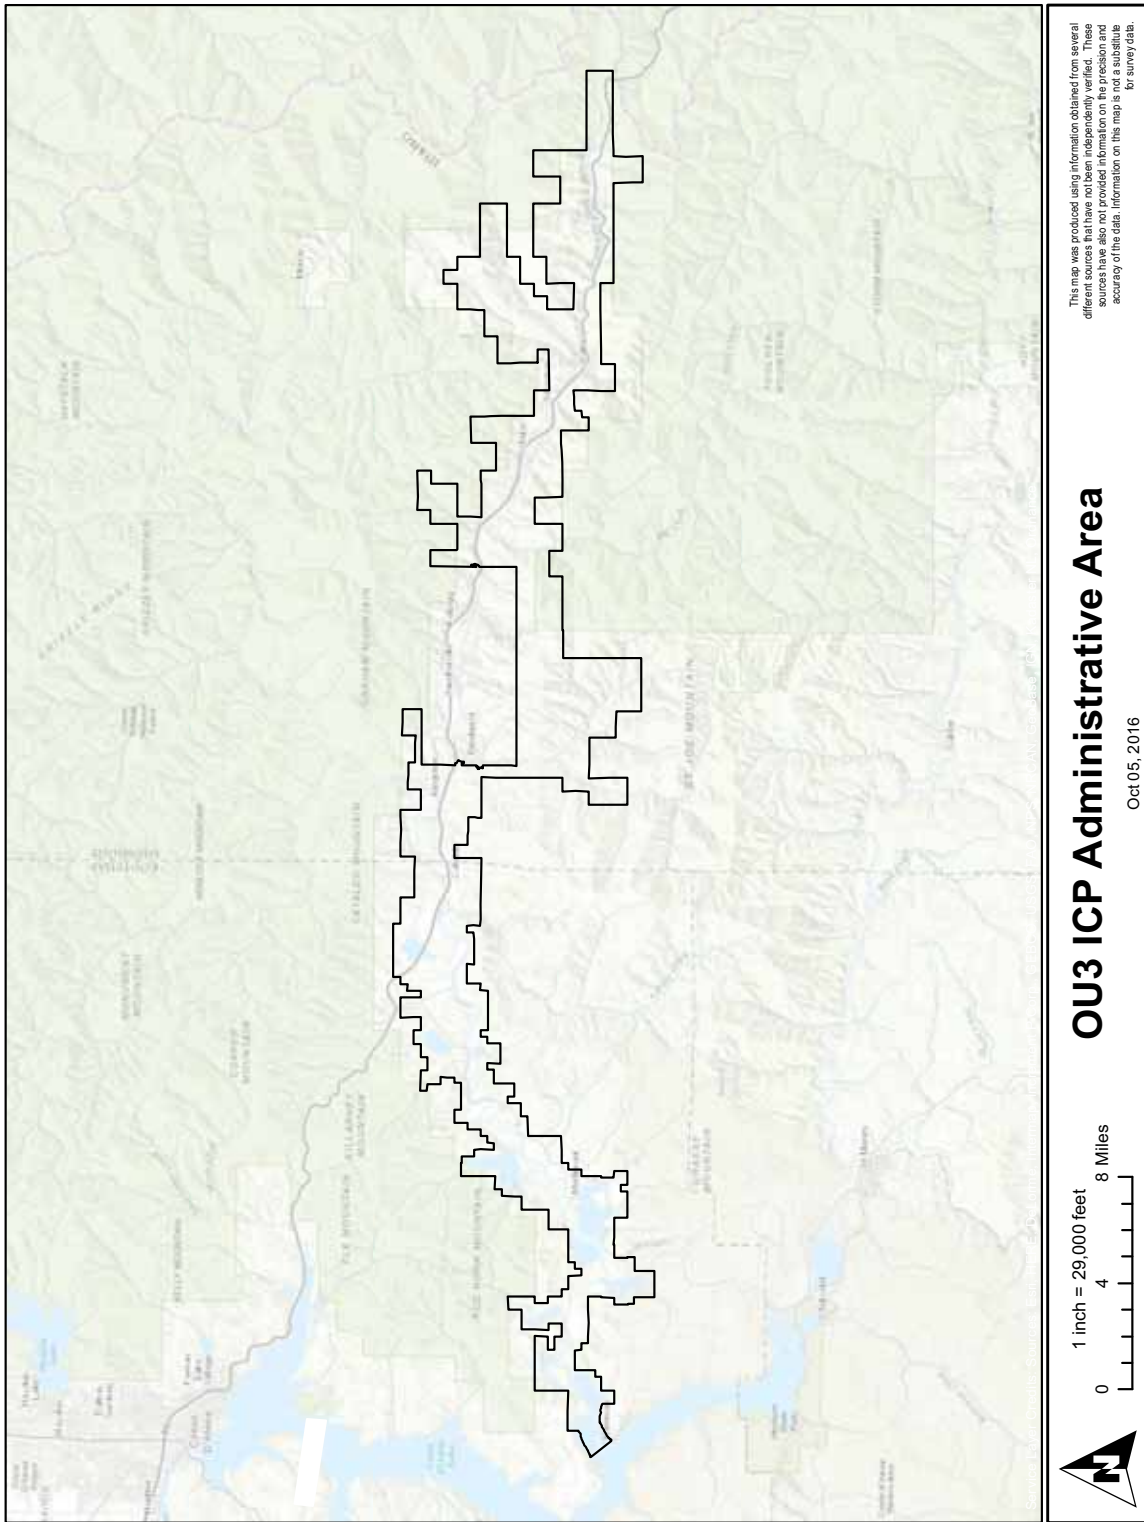

**04. Successive Days in Violation.** Each successive day in violation shall be considered a separate offense and be subject to individual penalties for each separate offense. (3-20-20)T

**903. -- 999. (RESERVED)**

## IDAPA 42 – IDAHO WHEAT COMMISSION

DOCKET NO. 42-0101-2000F (FEE RULE)

### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Title 22, Chapter 33, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 42:

**IDAPA 42**

- 42.01.01 *Rules of the Idaho Wheat Commission*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 22-3315, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges: Three and one-half cents per bushel collected at point of first purchase.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Blaine Jacobson, 208-334-2353.

DATED this 19th day of February, 2020.

Blaine Jacobson, Executive Director  
Idaho Wheat Commission  
821 W. State Street  
Boise, ID 83706

## IDAPA 42 – IDAHO WHEAT COMMISSION

### 42.01.01 – RULES OF THE IDAHO WHEAT COMMISSION

#### 000. LEGAL AUTHORITY.

In accordance with Section 22-3309, Idaho Code, the Idaho Wheat Commission has promulgated rules implementing the provisions of Title 22, Chapter 33, Idaho Code. (3-20-20)T

#### 001. TITLE AND SCOPE.

**01. Title.** These rules are titled IDAPA 42.01.01, “Rules of the Idaho Wheat Commission,” IDAPA 42, Title 01, Chapter 01. (3-20-20)T

**02. Scope.** Pursuant to Section 22-3301, Idaho Code, the rules of the Idaho Wheat Commission promote the public health and welfare of the citizens of our state by providing means for the protection, promotion, study, research, analysis and development of markets concerning the growing and marketing of Idaho wheat. (3-20-20)T

#### 002. -- 009. (RESERVED)

#### 010. DEFINITIONS.

The definitions set forth in Section 22-3303, Idaho Code, apply to this chapter. (3-20-20)T

#### 011 -- 099. (RESERVED)

#### 100. WHEAT TAX RETURN FORM.

**01. Form.** Wheat Tax Return forms are available at the Commission office for use by the first purchaser (buyer) of Idaho grown wheat in transmitting the Idaho wheat tax to the Commission. (3-20-20)T

**02. Procedures.** At the end of each quarter, buyers shall execute the Wheat Tax Return (form). One (1) copy of the form and a check covering the entire amount of all wheat tax collections made during the quarter shall be mailed to the Executive Director of the Commission not later than the fifteenth day of the month at the end of each quarter (October 15, January 15, April 15, and July 15, respectively) of each calendar year. If no wheat has been purchased during any quarter, one (1) copy of the Wheat Tax Return form declaring that no wheat has been purchased, shall be signed and mailed to the Executive Director of the Commission. (3-20-20)T

#### 101. MIXTURES.

When the grain is purchased as wheat, the tax must be collected on the full net weight of the grain purchased. The tax must also be collected on any mixtures containing fifty percent (50%) or more of wheat. (3-20-20)T

#### 102. NET WEIGHT.

The tax must be collected on the net weight of the wheat after deduction of dockage and smut, and not upon the gross weight. (3-20-20)T

#### 103. TRUCKERS.

When a trucker purchases wheat from a grower, it is his responsibility under the law to deduct the tax and remit the amount to the Commission. The trucker in such instances is liable for the deduction of tax. Those who purchase wheat from such truckers are not directly liable for the deduction of tax, but buyers should make sure that the trucker has in fact purchased the wheat from a grower and is not the person who produced the wheat. (3-20-20)T

#### 104. WHEAT DELIVERED ON ACCOUNT OR EXCHANGED FOR OTHER WHEAT.

When wheat is delivered and credited to the account of a grower who is purchasing mixed feeds and other commodities, such transactions are really sales of the wheat delivered. In these cases, the buyer must deduct the tax from the amount credited to the grower and remit to the Commission just as though the sale had been made for cash. On the other hand, if the grower delivers the wheat in exchange for other wheat and no sale of the wheat is involved, the tax should not be deducted. (3-20-20)T

#### 105. END USE.

Idaho wheat is subject to tax when it is first sold or contracted into commercial channels. Beside traditional uses of wheat for flour milling, domestic and export, commercial channels include sale of wheat for use as feed, or any industrial or chemurgic use. (3-20-20)T

**106. -- 199. (RESERVED)**

**200. PENALTY FOR LATE PAYMENT OF WHEAT TAX.**

**01. Interest Penalties.** Any person or firm who makes payment of wheat tax collections to the Commission at a date later than the fifteenth day of the month at the end of each quarter as prescribed in Subsection 100.02 of these rules, is subject to a late payment penalty of fifteen percent (15%) per annum on the amount due, unless that person or firm, within fifteen (15) days of the date, notifies the Commission in writing of any delay in payment and submits the payment of wheat tax collections within thirty (30) days of the prescribed due date. (3-20-20)T

**02. Additional Penalties.** The Commission is entitled, in addition to the penalty of fifteen percent (15%) per annum, to recover from the buyer, all costs, fees, and reasonable attorney's fees incurred in collecting the wheat tax collections and penalty as prescribed in Section 22-3315, Idaho Code. (3-20-20)T

**201. -- 299. (RESERVED)**

**300. WHEAT UNDER COMMODITY CREDIT CORPORATION LOANS.**

**01. Payee.** The Commission will be named as payee to receive three and one half cents (\$.3½) per bushel when the producer's note and loan agreement is executed by the Farm Service Agency (FSA). In such cases, the lending agency will send the tax directly to the Commission. When the producer's note and loan agreement shows that the tax has been deducted and sent to the Commission, it will not be necessary for the buyer to deduct the tax when the wheat is purchased. (3-20-20)T

**02. Tax.** Since the legislature has made the tax a lien prior to all other liens and encumbrances of the wheat, it is necessary for the grain buyer to make sure the tax has been paid in order to obtain clear title to the wheat. The tax should be deducted in all cases where there is not evidence that the tax was previously paid by a lending agency. In case errors occur and the tax is deducted by a lending agency and again deducted by a grain buyer, refund will be made by the Commission. (3-20-20)T

**301. INVOICES AND RECORDS.**

**01. Invoices.** Section 22-3316, Idaho Code, provides for invoices to be delivered to the grower for each purchase. The Wheat Commission is not providing a special form for this purpose and suggests that buyers use the final settlement vouchers of accounts of sale commonly used in Idaho. The amount of the Idaho state wheat tax deducted must be shown on each settlement voucher. (3-20-20)T

**02. Vouchers.** Buyers do not need to send the Commission copies of their settlement vouchers issued to individual growers but should keep copies available for examination by representatives of the Commission at a later date. Where it is not the practice to issue settlement vouchers of accounts of sale, buyers should be sure that they have accurate records of all wheat bought from growers and the amount of wheat bought from each grower. (3-20-20)T

**03. Delivery of Documents to Commission.** The first purchaser of wheat shall complete and return the Report of Tax, or equivalent, to the Commission office at the end of each production year (July 1 through June 30). The report is due on the same date as the final quarter wheat tax as specified in Section 22-3315(1), Idaho Code, and along with the following: (3-20-20)T

- a.** Name or names of the grower and seller; and (3-20-20)T
- b.** Address or addresses of the grower and seller. (3-20-20)T

**302. -- 999. (RESERVED)**

## IDAPA 43 – IDAHO OILSEED COMMISSION

DOCKET NO. 43-0101-2000F (FEE RULE)

### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 22-4716, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rule adopts the following chapter under IDAPA 43:

#### **IDAPA 43**

- IDAPA 43.01.01, *Rules Governing the Idaho Oilseed Commission*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 22-4716, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges: This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. If a person is late in paying the assessment on oilseed sold or contacted for, the fee rule sets a late payment penalty of twelve percent (12%) per annum on the amount due.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Benjamin Kelly, 208-888-0988.

DATED this February 18th, 2020.

Benjamin Kelly  
Administrator  
Idaho Oilseed Commission  
55 SW 5th Ave, Suite 100  
Meridian, Idaho 83642  
(208) 888-0988

# IDAPA 43 – IDAHO OILSEED COMMISSION

## 43.01.01 – RULES GOVERNING THE IDAHO OILSEED COMMISSION

### 000. LEGAL AUTHORITY.

The Idaho Oilseed Commission (hereinafter “Commission”) promulgates these rules implementing the provisions of Title 22, Chapter 47, Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE.

These rules are titled IDAPA 43.01.01, “Rules Governing the Idaho Oilseed Commission.” (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. FIRST PURCHASER RULES.

**01. Designated Quarters.** In accordance with Section 22-4716, Idaho Code, the Commission shall designate the quarters (three (3) month periods) for the purpose of collecting the tax imposed by such statute as follows: (3-20-20)T

**a.** The Commission’s first quarter will begin on the first day of July and end the thirtieth day of September. The first quarter tax is due on or before the fifteenth day of October. (3-20-20)T

**b.** The Commission’s second quarter will begin on the first day of October and end the thirty-first day of December. The second quarter tax is due on or before the fifteenth day of January. (3-20-20)T

**c.** The Commission’s third quarter will begin on the first day of January and end the thirty-first day of March. The third quarter tax is due on or before the fifteenth day of April. (3-20-20)T

**d.** The Commission’s fourth quarter will begin on the first day of April and end the thirtieth day of June. The fourth quarter tax is due on or before the fifteenth day of July. (3-20-20)T

**02. Oilseed Tax Invoice (Form Number 1).** Pursuant to Section 22-4719, Idaho Code, the first purchaser of oilseed is required to complete and send the Oilseed Tax Invoice (Form Number 1) to the Commission office each and every quarter on or before the dates specified in these rules. Form Number 1 shall be on official forms as prescribed by the Commission and be provided to the first purchaser by the Commission and, at a minimum, require the following legible information: (3-20-20)T

**a.** The date of purchases and tax reporting period. (3-20-20)T

**b.** The name and address of the oilseed seller and purchaser. (3-20-20)T

**c.** The net weight of the oilseed sold in pounds or hundredweights. (3-20-20)T

**d.** The total amount of tax deducted from Idaho oilseed producers by the purchaser. (3-20-20)T

**e.** The total amount of tax due the Commission. (3-20-20)T

**03. Late Payment Penalty.** Per Section 22-4716(4), Idaho Code, any person or firm who makes payment to the Commission at a date later than prescribed by law, is subject to a late payment penalty of twelve percent (12%) per annum on the amount due. (3-20-20)T

### 011. -- 499. (RESERVED)

### 500. REFUND APPLICATIONS.

**01. Assessment Refund.** In accordance with Section 22-4717, Idaho Code, any seller may request from the Commission in writing, within thirty (30) days after payment thereof, a refund of all or any portion of an assessment levied on oilseed and paid by such seller. Sellers requesting an oilseed assessment refund, as specified in Section 22-4717, Idaho Code, are required to complete and return a refund application form (Form Number 2) to the Commission office no later than thirty (30) days after payment of the assessment. Form Number 2 will be available through the Commission office. Written requests for refund application forms must be sent to the Commission office.

(3-20-20)T

**02. Refund Application Form Number 2.** Form Number 2 shall, at a minimum, require the following information from the applicant: (3-20-20)T

**a.** The applicant's name and address. (3-20-20)T

**b.** The applicant's federal tax identification number. (3-20-20)T

**c.** The first purchaser or lender who deducted the assessment from the applicant's settlement. (3-20-20)T

**d.** The applicant's date of settlement. (3-20-20)T

**e.** The hundredweight of oilseed sold by the applicant. (3-20-20)T

**f.** The dollar amount of oilseed assessment deducted from the applicant's settlement. (3-20-20)T

**g.** The applicant shall enclose evidence with the application proving the oilseed assessment was deducted by providing a copy of the invoice (Form Number 1) for which the refund is claimed. In the absence of a copy of the invoice, the Commission may, but is not bound to, accept other satisfactory evidence of payment. (3-20-20)T

**501. -- 999. (RESERVED)**

# IDAPA 46 – IDAHO BOARD OF VETERINARY MEDICINE

## DOCKET NO. 46-0101-2000F (FEE RULE)

### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 54-2105, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 46:

**IDAPA 46**

- 46.01.01, *Rules of the State of Idaho Board of Veterinary Medicine*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. This docket also incorporates minor rule changes related to the COVID-19 response adopted in an open meeting.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges authorized in Title 54, Chapter 21, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

	New	Temporary Permit	Active Renewal	Inactive Renewal	Late/ Reinstatement	Re-Activation Fee
Veterinary License	\$275	\$150	\$175	\$50	\$200	\$150
Certified Veterinary Technician	\$125	\$50	\$75	\$25	\$50	\$50
Certified Euthanasia Agency	\$100		\$200		\$50	
Certified Euthanasia Technician	\$100		\$100		\$50	

Administrative Services	
Duplicate Wall License/Certificate	\$25
Veterinary License Verification	\$20

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Jeremy Brown at (208) 332-8588.

DATED this February 7, 2020.

# IDAPA 46 – IDAHO BOARD OF VETERINARY MEDICINE

## 46.01.01 – RULES OF THE STATE OF IDAHO BOARD OF VETERINARY MEDICINE

**000. LEGAL AUTHORITY.**

This chapter is adopted under the legal authority of Title 54, Chapter 21, Idaho Code. (3-20-20)T

**001. TITLE AND SCOPE.**

**01. Title.** The title of this chapter is the “Rules of the State of Idaho Board of Veterinary Medicine,” hereinafter referred to in these rules as the Board. (3-20-20)T

**02. Scope.** These rules govern the licensing procedures, supervision requirements, standards of practice, inspections, and grounds for discipline of veterinarians, veterinary technicians, Committee on Humane Euthanasia members, and certified euthanasia technicians and agencies. The official citation of this chapter is IDAPA 46.01.01, et seq. For example, this Section’s citation is IDAPA 46.01.01.001. (3-20-20)T

**002. -- 004. (RESERVED)**

**005. INCORPORATION BY REFERENCE.**

The Principles of Veterinary Medical Ethics of the American Veterinary Medical Association (AVMA), as adopted and revised April 2016, is incorporated herein by reference in accordance with the provisions of Section 67-5229, Idaho Code. (3-20-20)T

**006. -- 009. (RESERVED)**

**010. LICENSE.**

Change of address. It is the responsibility of each licensed veterinarian to notify the Board office of any change of address. Failure to receive a renewal form from the Board does not constitute an excuse for failure to pay the renewal fee and fulfill the requirements of Section 54-2112, Idaho Code. (3-20-20)T

**011. FEES.**

Fees for licensure and certification are established, as authorized under Title 54, Chapter 21, Idaho Code, by action of the Board, as follows: (3-20-20)T

**01. Fees.**

	New	Temporary Permit	Active Renewal	Inactive Renewal	Late/ Reinstatement	Inactive to Active Fee
Veterinary License	\$275	\$150	\$175	\$50	\$200	\$150
Certified Veterinary Technician	\$125	\$50	\$75	\$25	\$50	\$50
Certified Euthanasia Agency	\$100	-	\$200	-	\$50	-
Certified Euthanasia Technician	\$100	-	\$100	-	\$50	-

(3-20-20)T

**02. Administrative Services.**

Duplicate Wall License/Certificate	\$25
Veterinary License Verification	\$20

(3-20-20)T

**012. MANDATORY CONTINUING VETERINARY EDUCATION.**

**01. Statement of Purpose.** It is of primary importance to the public that veterinarians continue their veterinary education throughout the period of their active practice of veterinary medicine. These rules establish the minimum continuing veterinary education requirements necessary for veterinarians to maintain a license to engage in the practice of veterinary medicine in the state of Idaho. (3-20-20)T

**02. Approved Courses.** Courses and providers accredited by the American Association of Veterinary State Board's Continuing Education Registry and courses and providers approved by the Board. (3-20-20)T

**03. Education Requirements.** (3-20-20)T

**a.** Minimum requirement. Beginning July 1 after the initial license is issued all active veterinarian in the state of Idaho shall complete a minimum of ten (10) credit hours in every two-year period following the date of their admission to the practice of veterinary medicine in this state. (3-20-20)T

**b.** Credit requirements. The following are the minimum and maximum credits that may be earned for each reporting period and the number of credits that may be obtained by participating in on-line or correspondence courses. (3-20-20)T

**i.** A minimum of seven (7) hours of continuing education in veterinary medicine, surgery, and dentistry. (3-20-20)T

**ii.** A maximum of three (3) hours of continuing education in management. (3-20-20)T

**c.** Retention of Original Documentation. The supporting documentation for compliance with continuing education requirements shall not be submitted with the report. Rather, the veterinarian needs to retain original documentation of attendance or completion of ten (10) credit hours of approved courses at least until December 31 following the two-year (2) renewal period covered by the courses. (3-20-20)T

**d.** Audit. Within thirty (30) days of notification of an audit, a veterinarian shall provide to the Board all documentation supporting attendance or completion of the courses reported. (3-20-20)T

**04. Credit for Attendance.** (3-20-20)T

**a.** Credits can be earned by the active member in attendance at an accredited, domestic or foreign, course. No credit will be given for: (3-20-20)T

**i.** Time spent in introductory remarks, coffee and lunch breaks, business meetings or other activities not involving the educational aspects of the course. (3-20-20)T

**ii.** Any course attended before admission to practice veterinary medicine in Idaho. (3-20-20)T

**iii.** Journal and magazine articles, videos or correspondence courses, unless specially approved by the Board. (3-20-20)T

**b.** In cases of solo presentation, the presenter of an approved course shall be entitled to claim one (1) credit hour for each fifty (50) minutes of actual course instruction. By way of limitation, in no case shall the presenter be allowed more than eight (8) credit hours for any particular course or substantially related topic during the applicable two (2) year reporting period, regardless of how many times the course is offered or given. (3-20-20)T

**c.** In cases of panel presentations, the number of continuing credit hours each panel member is entitled to claim shall be calculated by multiplying the actual number of course hours by two (2) and dividing that number by the number of panel members involved. (3-20-20)T

**d.** Carryover Credit. No credit for attending approved courses in continuing veterinary education shall be applicable to any reporting period other than that during which the credit is actually earned. (3-20-20)T

**013. -- 099. (RESERVED)**

**100. CERTIFICATION OF VETERINARY TECHNICIANS.**

**01. Certificate Required.** Any person representing themselves as a veterinary technician, licensed veterinary technician, registered veterinary technician, or certified veterinary technician, shall hold a valid, unexpired certificate to practice veterinary technology in Idaho. (3-20-20)T

**02. Application for Certification -- Contents -- Examinations.** An individual desiring to be certified as a veterinary technician shall make written application to the Board upon a form furnished by the Board. Applicants for certified veterinary technician in Idaho should be of good moral character and reputation. A complete application is valid for a period of one (1) year, contain the applicant's notarized signature, and include: (3-20-20)T

**a.** A copy of a birth certificate or current passport proving that the applicant is eighteen (18) years of age or older. (3-20-20)T

**b.** Documentation of education/training/experience as follows: (3-20-20)T

**i.** A certified copy of a diploma or transcript, or a letter verifying graduation from a veterinary technology program, accredited by the American Veterinary Medical Association; (3-20-20)T

**ii.** A certified copy of a diploma or transcript, or a letter verifying the award of a D.V.M. or V.M.D. degree or equivalent, from an accredited school of veterinary medicine; or (3-20-20)T

**iii.** If a foreign veterinary graduate, a letter from the Educational Commission for Foreign Veterinary Graduates (ECFVG) certifying completion of the ECFVG program or a copy of the ECFVG certificate. (3-20-20)T

**c.** Verification of a criterion-referenced passing score reported by the Professional Examination Service or its designee, or by other designated test vendors or their designees approved by the American Association of Veterinary State Boards on the Veterinary Technician National Examination (VTNE) or other national examination approved by the American Association of Veterinary State Boards or its designated test vendor or by the Board. If such a score is not available, the passing score shall be as reported by the Professional Examination Service or its designee, or by other designated test vendors or their designees approved by the American Association of Veterinary State Boards or by the Board and shall be considered equal to or greater than one and five-tenths (1.5) standard deviation below the mean score of the examination. (3-20-20)T

**i.** The VTNE or other national examination approved by the American Association of Veterinary State Boards or its designated test vendor or by the Board may have been taken at any time. (3-20-20)T

**ii.** Scores for the VTNE or other national examination approved by the American Association of Veterinary State Boards or its designated test vendor or by the Board are to be provided to the Board by the Professional Examination Service or its designee or by other designated test vendors or their designees approved by the American Association of Veterinary State Boards. (3-20-20)T

**d.** A passing score for the jurisprudence examination, which should be ninety percent (90%) or such score as deemed appropriate by the Board. The jurisprudence examination, as prepared by the Board or its designee, may be taken more than once, at three-month intervals. (3-20-20)T

**e.** A completed application, other required documents, and first year's certification fee in the amount established by the Board shall be received at the Board office by the first day of January or June. All application and certification fees are nonrefundable. (3-20-20)T

**101. TEMPORARY CERTIFICATION.**

The Board may, at its discretion, issue a temporary certification. The temporary certification shall be valid for one (1) year or until the next certification review by the Board, whichever comes first, and under no circumstances can a second temporary certification be issued to the same person. A temporary certification will not be issued to any applicant whose certification, license or registration has been revoked in any state for a reason other than nonpayment

of fees or failure to fulfill the renewal requirements. An applicant granted a temporary certification shall provide notarized verification of twelve (12) months of active practice during the past year as a veterinary technician in another state or perform all veterinary technology procedures under the direct supervision of an Idaho licensed veterinarian. (3-20-20)T

**01. Certification Requirements.** Requirements for a temporary certification shall be the same as for the original certification. (3-20-20)T

**02. Responsibility.** Nothing herein shall be construed to relieve the temporary certificate holder of any responsibility or liability for any of their own acts and omissions. (3-20-20)T

**102. MANDATORY CONTINUING EDUCATION FOR CERTIFIED VETERINARY TECHNICIANS.**

**01. Statement of Purpose.** It is of primary importance to the public that certified veterinary technicians continue their veterinary technology education throughout the period of their active practice of veterinary technology. These rules establish the minimum continuing veterinary technology education requirements necessary for certified veterinary technicians to maintain a license to engage in the practice of veterinary technology in Idaho. (3-20-20)T

**02. Approved Courses.** Includes courses and providers listed on the American Association of Veterinary State Board's Continuing Education Registry and courses and providers approved by the Board. (3-20-20)T

**03. Education Requirements.** (3-20-20)T

**a. Minimum requirement.** Each active certified veterinary technician in Idaho shall complete a minimum of seven (7) credit hours of accredited continuing veterinary technology education activity in each and every two-year period following the date of their admission to the practice of veterinary technology in Idaho. (3-20-20)T

**b. Credit requirements.** The following are minimum and maximum credits that may be earned for each reporting period and the number of credits that may be obtained by participating in on-line or correspondence courses. (3-20-20)T

i. A minimum of five (5) hours of continuing education in veterinary technology. (3-20-20)T

ii. A maximum of two (2) hours of continuing education in management. (3-20-20)T

**c. Attendance period.** The attendance period is based upon the fiscal year (July 1 through June 30). (3-20-20)T

i. Retention of original documentation. The supporting documentation for compliance with continuing education requirements shall not be submitted with the report but rather, retained with the certified veterinary technician at least until December 31 following the two-year (2) renewal period covered by the course. (3-20-20)T

ii. Within thirty (30) days of notification of an audit, a certified veterinary technician shall provide to the Board all documentation supporting completion of the courses reported. (3-20-20)T

**04. Credit for Attendance.** Continuing veterinary technology education credits may be earned by attending or presenting approved continuing veterinary technology education. (3-20-20)T

**a. Credits.** One (1) credit hour will be given for each fifty (50) minutes actually spent by the active certificant in attendance at an accredited, domestic or foreign, course. No credit will be given for: (3-20-20)T

i. Time spent in introductory remarks, coffee and lunch breaks, business meetings or other activities not involving the educational aspects of the courses; (3-20-20)T

- ii. Any course attended before admission to practice veterinary technology in Idaho; or (3-20-20)T
- iii. Journal and magazine articles, videos or correspondence courses, unless specially approved by the Board. (3-20-20)T

**b.** In cases of solo presentation, the presenter of an approved course shall be entitled to claim one (1) credit hour for each fifty (50) minutes of actual course instruction. By way of limitation, in no case shall the presenter be allowed more than eight (8) credit hours for any particular course or substantially related topic during the applicable two-year reporting period, regardless of how many times the course is offered or given. (3-20-20)T

**c.** In cases of panel presentations, the number of continuing credit hours each panel member is entitled to claim shall be calculated by multiplying the actual number of course hours by two (2) and dividing that number by the number of panel members involved. (3-20-20)T

**d.** Carryover Credit. No credit for attending approved courses in continuing veterinary technology education is applicable to any reporting period other than that during which the credit is actually earned. (3-20-20)T

### **103. SUPERVISING VETERINARIANS.**

**01. Statement of Purpose.** Veterinarians licensed under the provisions of Title 54, Chapter 21, Idaho Code, are responsible for all temporary licensees and temporary certification holders, certified euthanasia technicians, certified veterinary technicians, veterinary assistants, or any others to whom they delegate the performance of acts pertaining to the practice of veterinary medicine. (3-20-20)T

**02. A Supervising Veterinarian Shall:** (3-20-20)T

**a.** Provide direct supervision for all procedures pertaining to the practice of veterinary medicine that are delegated to a certified veterinary technician, a veterinary technician working under a temporary certification, an assistant or any others with the exception of: (3-20-20)T

i. Routine procedures in the practice of veterinary technology that include, but are not limited to, taking radiographs, weight and temperature, or as determined by the standard of practice for the area. These routine procedures may be performed under the indirect supervision of the veterinarian. (3-20-20)T

ii. Previously prescribed antibiotics and medications, which may be administered, dispensed, and delivered under the indirect supervision of the veterinarian. Previously prescribed antibiotics and medications does not include injectable controlled substances, injectable tranquilizers, injectable sedatives, and injectable or inhalant anesthetics, which may only be administered under the direct supervision of the veterinarian. (3-20-20)T

iii. Emergency situations. In these situations, in order to stabilize the animal, the veterinarian, while en route to the location of the distressed animal, may prescribe treatment and delegate appropriate procedures pertaining to the practice of veterinary medicine under indirect supervision. (3-20-20)T

**b.** Be available to supervise and direct all procedures pertaining to the practice of veterinary medicine that are delegated to others. (3-20-20)T

**c.** Bear legal responsibility for the health, safety and welfare of the animal patient that the temporary licensee, temporary certification holder, certified veterinary technician, assistant, or any others serves. (3-20-20)T

**d.** Not delegate an animal health care task to an unqualified individual. (3-20-20)T

**e.** Make all decisions relating to the diagnosis, treatment, management, and future disposition of an animal patient. (3-20-20)T

**f.** Have examined the animal patient prior to the delegation of any animal health care task to a certified veterinary technician, temporary certification holder, or assistant. The examination of the animal patient

shall be conducted at such times as acceptable veterinary medical practice dictates, consistent with the particular delegated animal health care task. (3-20-20)T

**g.** Diagnose and perform operative dentistry, oral surgery, and teeth extraction procedures. Operative dentistry and oral surgery are considered to be any dental procedure which invades the hard or soft oral tissue including, but not limited to, a procedure that alters the structure of one (1) or more teeth or repairs damaged and diseased teeth, or the deliberate extraction of one (1) or more teeth. Operative dentistry and oral surgery do not include, removal of calculus, soft deposits, plaque, stains, floating to shape the teeth, or smoothing, filing or polishing of tooth surfaces above the gum line. (3-20-20)T

**03. Limitations on Supervising Veterinarians.** Unless otherwise provided by law or rule, a supervising veterinarian shall not authorize a certified veterinary technician, a veterinary technician working under a temporary certification, an assistant or anyone else, other than a licensed veterinarian or a veterinarian holding a valid temporary permit to perform the following functions: (3-20-20)T

**a.** Surgery; (3-20-20)T

**b.** Diagnosis and prognosis of animal disease; (3-20-20)T

**c.** Prescribing drugs, medicines and appliances; or (3-20-20)T

**d.** Diagnosis and performance of procedures that constitute operative dentistry/oral surgery as defined by Section 54-2103(13)(b), Idaho Code. (3-20-20)T

**104. VETERINARY TECHNICIAN CERTIFICATION -- RENEWAL.**

Change of address. It is the responsibility of each certified veterinary technician to notify the Board office of any change of address. Failure to receive a renewal form from the Board does not constitute an excuse for failure to pay the renewal fee and completion of the prescribed form. (3-20-20)T

**105. GROUNDS FOR DISCIPLINE OF VETERINARY TECHNICIANS.**

In addition to the provisions of Section 54-2118, Idaho Code, the Board may refuse to issue, renew, or reinstate the certification of a veterinary technician, or may deny, revoke, suspend, sanction, place on probation, or require voluntary surrender of the certification of a veterinary technician, or may impose other forms of discipline, and enter into consent agreements and negotiated settlements with certified veterinary technicians pursuant to the procedures set forth in Title 67, Chapter 52, Idaho Code, for any of the following reasons: (3-20-20)T

**01. Fraud, Misrepresentation, or Deception.** The employment of fraud, misrepresentation or deception in obtaining certification. (3-20-20)T

**02. Unethical or Unprofessional Conduct.** Unethical or unprofessional conduct is conduct that includes, but is not limited to, any of the following: (3-20-20)T

**a.** False or misleading advertising or solicitation; (3-20-20)T

**b.** Providing any procedure to an animal that constitutes the practice of veterinary medicine or veterinary technology and which has not been delegated by the supervising veterinarian, except in the case of an emergency as defined by Section 54-2103(16), Idaho Code; (3-20-20)T

**c.** Working in conjunction with any unlicensed or uncertified person who is practicing veterinary medicine or veterinary technology; (3-20-20)T

**d.** Failing to apply sanitary methods or procedures in the treatment of any animal; (3-20-20)T

**e.** Physically abusing a patient or failing to conform to the currently accepted standards of care in the field of veterinary technology for any animal under their care; (3-20-20)T

**f.** Practicing veterinary technology in a manner that endangers the health and welfare of the patient or

the public. A certified veterinary technician shall not practice veterinary technology if their ability to practice with reasonable skill and safety is adversely affected by reason of illness, excessive use of alcohol, drugs, narcotics, chemicals, or any other substance, or as a result of any mental or physical disability; (3-20-20)T

**g.** Gross ignorance, incompetence or inefficiency in the practice of veterinary technology as determined by, but not limited to, the practices generally and currently followed and accepted by persons certified to practice veterinary technology in Idaho and the current teaching at accredited programs in veterinary technology; (3-20-20)T

**h.** Intentionally performing a duty, task or procedure in the field of veterinary technology for which the individual is not qualified; (3-20-20)T

**i.** Swearing falsely in any testimony or affidavits relating to, or in the course of, the practice of veterinary technology. (3-20-20)T

**j.** Engaging in conduct of a character likely to deceive or defraud the public. (3-20-20)T

**03. Conviction of Violating Any Federal or State Statute, Rule or Regulation.** Conviction of a charge of violating any federal or state statute or rule or regulation regulating narcotics, dangerous drugs or controlled substances. (3-20-20)T

**04. Conviction of a Charge or Crime.** Being found guilty, convicted, placed on probation, having entered a guilty plea that is accepted by the court, forfeiture of bail, bond or collateral deposited to secure a defendant's appearance, or having received a withheld judgment or suspended sentence by a court of competent jurisdiction in Idaho or any other state of one (1) or more of the following: (3-20-20)T

**a.** Any felony, as defined by Title 18, Chapter 1, Idaho Code; or (3-20-20)T

**b.** Any other criminal act that in any way is related to the practice of veterinary technology as defined by Section 54-2103(47), Idaho Code. (3-20-20)T

**05. Medical Incompetence.** Medical incompetence in the practice of veterinary technology, which means lacking in sufficient medical knowledge or skills or both to a degree likely to endanger the health of patients. (3-20-20)T

**06. Physical or Mental Incompetence.** Physical or mental incompetence, which means the individual's ability to practice veterinary technology with reasonable skill and safety is impaired by reason of illness, excessive use of alcohol, drugs, narcotics, chemicals or any other substance, or as a result of any physical or mental disability. (3-20-20)T

**07. Malpractice or Negligence.** Malpractice or negligence, in the practice of veterinary technology, which includes, but is not limited to: (3-20-20)T

**a.** Treatment in a manner contrary to accepted practices in veterinary technology and with injurious results; (3-20-20)T

**b.** Any professional misconduct or unreasonable lack of professional skill or fidelity in the performance of an act that is part of the practice of veterinary technology; (3-20-20)T

**c.** Performance of an act that is part of the practice of veterinary technology without adequate supervision; except in the case of an emergency as defined by Section 54-2103(16), Idaho Code; or (3-20-20)T

**d.** The negligent practice of veterinary technology, as determined by the standard of practice for the area, that results in injury, unnecessary suffering or death. (3-20-20)T

**08. Cruelty to Animals.** Cruelty to animals, including, but not limited to, the intentional and malicious infliction of pain, physical suffering, injury or death, performance of experimental treatments without the owner's

consent, deprivation of necessary sustenance, withholding of appropriate pain medications or levels of pain medications, or the administration of unnecessary procedures and treatment. Infliction of pain on any animal in self-defense, or to prevent physical harm to others, or in accordance with local custom and culture in moving, handling, treating, dehorning, castrating or performing other procedures on livestock, shall not be considered cruel or physically abusive unless done in an unnecessary or intentionally malicious manner. This provision does not alter Section 25-3514, Idaho Code. (3-20-20)T

**09. Revocation, Suspension, Limitation or Subjection.** The revocation, suspension, limitation, or subjection of a license, certificate or registration or any other disciplinary action by another state or U.S. jurisdiction or voluntary surrender of a license, certificate or registration by virtue of which one is licensed, certified or registered to practice veterinary technology in that state or jurisdiction on grounds other than nonpayment of the renewal fee. (3-20-20)T

**10. Continuing Education.** Failure to comply with the continuing education requirements outlined by Board rules. (3-20-20)T

**11. Failure to Cooperate.** (3-20-20)T

**a.** Failure of any applicant or certificate holder to cooperate with the Board during any investigation, even if such investigation does not personally concern the applicant or certificate holder. (3-20-20)T

**b.** Failure to comply with the terms of any order, negotiated settlement or probationary agreement of the Board. (3-20-20)T

**c.** Failure to comply with the terms for certification renewal or to timely pay certification renewal fees as specified by Section 104 of these rules. (3-20-20)T

**12. Aiding or Abetting.** Knowingly aiding or abetting an unlicensed or uncertified person to practice veterinary medicine or veterinary technology. (3-20-20)T

**13. Current Certification.** Practicing as a certified veterinary technician without a current certification. (3-20-20)T

**14. Acceptance of Fees.** Accepting fees for veterinary technician services from a client. (3-20-20)T

**15. Unlawful Practice.** Representing oneself as a doctor of veterinary medicine, which constitutes the unauthorized practice of veterinary medicine in violation of Title 54, Chapter 21, Idaho Code. (3-20-20)T

**16. Violation of Law, Rules or Order.** Violating or attempting to violate, directly or indirectly, or assisting or abetting the violation or conspiracy to violate any of the provisions of the veterinary law or rules or a written order of the Board issued pursuant to Title 54, Chapter 21, Idaho Code. (3-20-20)T

**106. -- 149. (RESERVED)**

**150. VALID VETERINARIAN/CLIENT/PATIENT RELATIONSHIP.**  
An appropriate veterinarian/client/patient relationship will exist when: (3-20-20)T

**01. Responsibility.** The veterinarian has assumed the responsibility for making medical judgements regarding the health of the animal and the need for medical treatment, and the client (owner or other caretaker) has followed the instructions of the veterinarian. (3-20-20)T

**02. Medical Knowledge.** There is sufficient knowledge of the animal by the veterinarian to initiate at least a general or preliminary diagnosis of the medical condition of the animal. This means that the veterinarian has seen the animal within the last twelve (12) months or is personally acquainted with the keeping and care of the animal, either by virtue of an examination of the animal, or by medically appropriate visits to the premises where the animals are maintained within the last twelve (12) months. (3-20-20)T

**03. Availability.** The practicing veterinarian or designate is readily available for follow-up in case of adverse reactions or failure of the regimen of therapy. (3-20-20)T

**151. UNPROFESSIONAL CONDUCT.**

Any violation of the Principles of the Veterinary Medical Ethics of the American Veterinary Medical Association, these rules, Chapter 21, Title 54, Idaho Code, constitutes unprofessional conduct. Unprofessional conduct includes, but is not limited to: (3-20-20)T

**01. Unsanitary Methods or Procedures.** Failure to apply sanitary methods or procedures in the treatment of any animal, contrary to Board rules. (3-20-20)T

**02. Association with Illegal Practitioners.** Includes, but is not limited to: (3-20-20)T

**a.** Having a professional relationship or connection with, lending one's name to, or otherwise aiding and abetting any illegal or unlicensed practice or practitioner of veterinary medicine and the various branches thereof; (3-20-20)T

**b.** Rendering professional service in association with a person who is not licensed and does not hold a temporary permit; or (3-20-20)T

**c.** Sharing fees with any person, except a licensed veterinarian, for services actually performed. (3-20-20)T

**03. False Testimony.** Swearing falsely in any testimony or affidavits relating to, or in the course of, the practice of veterinary medicine, surgery or dentistry. (3-20-20)T

**04. Gross Ignorance, Incompetence or Inefficiency.** In determining gross ignorance, incompetence or inefficiency in the profession, the Board may take into account all relevant factors and practices including, but not limited to, the practices generally and currently followed and accepted by the persons licensed to practice veterinary medicine in Idaho, the current teaching at accredited veterinary schools, relevant technical reports published in recognized veterinary medical journals, and the desirability of reasonable experimentation in the furtherance of the art of veterinary medicine. (3-20-20)T

**05. Improper Supervision.** Includes, but is not limited to: (3-20-20)T

**a.** Permitting, allowing, causing or directing any individual to perform a duty, task or procedure that they are not qualified to perform. (3-20-20)T

**b.** Providing, permitting, allowing, causing or directing any individual to perform inadequate anesthetic monitoring. Evidence of this monitoring shall be documented in written form and contained within the medical record. (3-20-20)T

**06. Association with Others.** Accepting fees from the providers of animal services or products when referring clients to such providers. (3-20-20)T

**152. CODE OF PROFESSIONAL CONDUCT.**

The Board's code of professional conduct includes, but is not limited to, the following standards of conduct. A veterinarian shall: (3-20-20)T

**01. Veterinarian/Client/Patient Relationship.** Not dispense or prescribe controlled substances, prescription or legend drugs except in the course of their professional practice and after a bona fide veterinarian/client/patient relationship as defined by Section 150 of these rules has been established. (3-20-20)T

**02. Health Certificate.** Not issue a certificate of health unless they have personal knowledge by means of actual examination and appropriate testing of the animal that the animal meets the requirements for issuance of such a certificate. (3-20-20)T

**03. DEA and Controlled Substance Registration.** Notify the Board of the suspension, revocation, or voluntary surrender of their federal Drug Enforcement Administration (DEA) registration and their state controlled substance registration. (3-20-20)T

**04. Ability to Practice.** Not practice veterinary medicine as to endanger the health and welfare of their patients or the public. A veterinarian shall not practice veterinary medicine if their ability to practice with reasonable skill and safety is adversely affected by reason of illness, excessive use of alcohol, drugs, narcotics, chemicals, or any other substance or as a result of any mental or physical disability. (3-20-20)T

**05. Conflicting Interests.** Not represent conflicting interests except by the express consent of all the parties after full disclosure of all the facts. A conflict of interest includes, but not be limited to, accepting a fee from a buyer to inspect an animal for soundness and accepting a fee from the seller. (3-20-20)T

**06. Confidentiality.** Maintain a confidential relationship with their clients, except as otherwise provided by law or required by considerations related to public health and animal health. (3-20-20)T

**a.** The information contained in veterinary medical records is considered confidential. It is unethical for a veterinarian to release this information except by court order or consent of the patient's owner or other caretaker at the time treatment was rendered. (3-20-20)T

**b.** Without express permission of the practice owner, it is unethical for a veterinarian or certified veterinary technician to remove, copy, or use the medical records or any part of any record belonging to the practice or its owner for any purpose other than the business of the practice. (3-20-20)T

**07. Physical Abuse-Patient.** Not physically abuse a patient or fail to conform to the currently accepted standards of care in the veterinary profession for any animal under their care. (3-20-20)T

**08. Preservation of Patient's Body.** Where possible preserve for twenty-four (24) hours the body of any patient that dies while in the veterinarian's care until the owner can be contacted, except as otherwise provided by law. The time of contact or attempted contact with the owner shall be documented in the medical record. The veterinarian is allowed to use the usual manner of disposal if the owner has not made pick-up arrangements within twenty-four (24) hours of the documented contact time. (3-20-20)T

**09. Consent for Transporting.** Obtain written consent from a patient's owner or other caretaker before transporting a patient to another facility for veterinary medical care or any other reason, unless circumstances qualifying as an emergency do not permit obtaining such consent. (3-20-20)T

**10. Patient Record.** Maintain a patient record for each animal or herd that accurately reflects the veterinary problems and interventions and conforms to the standards set forth in Section 154 of these rules. (3-20-20)T

**11. Supervision.** Provide the proper form of supervision required for persons to whom veterinary functions are delegated or assigned. (3-20-20)T

**12. Cooperation with Authorities.** Cooperate with authorities in the investigation of the incompetent, unethical or illegal practice of veterinary medicine by any individual including another veterinarian. (3-20-20)T

**13. Refusal to Render Services.** Have the right to refuse to render veterinary medical services for any reason, or refuse an owner's request to euthanize a healthy or treatable animal. (3-20-20)T

**14. Improper Disposal of Controlled Substances.** Dispose of all controlled substances and the containers, instruments and equipment used in their administration in conformance with the requirements of the Code of Federal Regulations and the Idaho Board of Pharmacy law and rules. (3-20-20)T

**153. STANDARDS OF PRACTICE.** Veterinarians shall adhere to the standards of practice including, but not limited to: (3-20-20)T

**01. Practice Procedures.** A licensed veterinarian shall exercise at least the same degree of care, skill, and diligence in treating patients that is ordinarily used in the same or similar circumstances by members of the veterinary medical profession of similar training and experience in the community in which he practices. (3-20-20)T

**02. Immunization.** When the primary objective is to protect the patient's health and a professionally acceptable immunization procedure is being sought, an examination of the animal by the veterinarian is required prior to each and every immunization procedure, unless the animal has been examined in the last ninety (90) days, except in the practice of large animal medicine where mass immunizations of animal herds is involved or when immunization is performed by the patient's owner. For the purpose of this subsection, the definition of "owner" in addition to ownership as defined by the laws of the ownership of property, non-profit organizations dedicated to the care and treatment of animals is considered the owners of animals in their custody if such organizations are the primary care giver for the animal or if the true owner of such animal cannot be immediately determined. (3-20-20)T

**03. Relationship.** A veterinarian shall establish a valid veterinarian/client/patient relationship as defined by Section 150 of these rules, prior to dispensing, using, prescribing, or selling any controlled substance or legend drug, or the prescribing of an extra-label use of any drug. (3-20-20)T

**04. Dispense and Distribute in Good Faith.** A veterinarian dispensing or distributing any drug or medicine shall dispense or distribute such drug or medicine in good faith, within the context of a valid veterinarian/client/patient relationship as defined by Section 150 of these rules, and shall, except in the case of any drugs and medicines that are in containers that bear a label of the manufacturer with information describing their contents and that are in compliance with the requirements of the Federal Food, Drug, and Cosmetic Act, 21 CFR 201.105, affix or cause to be affixed to the container containing the drug or medicine a label indicating: (3-20-20)T

- a. The date on which such drug or medicine is dispensed; (3-20-20)T
- b. The name of the owner and patient; (3-20-20)T
- c. The last name of the person dispensing such drug or medicine; (3-20-20)T
- d. Directions for use thereof, including dosage and quantity; and (3-20-20)T
- e. The proprietary or generic name of the drug or medicine. (3-20-20)T

**05. Anesthesia Standards.** All anesthetized animals shall be appropriately monitored and under supervision. (3-20-20)T

**154. RECORD KEEPING STANDARDS.**

Every veterinarian shall maintain detailed daily medical records of the animals treated that meet the professional standards set out in Section 153 of these rules. These records may be computerized and shall be readily retrievable to be inspected, duplicated, or submitted when requested by the Board. All records, including electronic records, shall be safeguarded against loss, defacement, tampering, and use by unauthorized personnel. If changes are made to any records (either hard-copy or electronic), the records must clearly reflect what the change is, who made the change, when the change was made, and why. In the case of electronic records, the veterinarian shall keep either a duplicate hard-copy record or a back-up electronic record. Records shall be maintained for a period of three (3) years following the last treatment or examination. Patient medical records shall be maintained for every animal accepted and treated as an individual patient by a veterinarian, or for every animal group (for example, herd, litter, and flock) treated by a veterinarian. (3-20-20)T

- 01. Medical Records.** Medical records shall include, but not be limited to: (3-20-20)T
- a. Name, address and phone number of the animal's owner or other caretaker. (3-20-20)T
  - b. Name and description, sex (if readily determinable), breed and age of animal; or description of group. (3-20-20)T
  - c. Dates (beginning and ending) of custody of the animal. (3-20-20)T

- d.** A short history of the animal's condition as it pertains to the animal's medical status. (3-20-20)T
- e.** Results and notation of each examination, including the animal's condition and diagnosis suspected. (3-20-20)T
- f.** All medications, treatments, prescriptions or prophylaxis given, including amount, frequency, and route of administration for both inpatient and outpatient care. (3-20-20)T
- g.** Diagnostic and laboratory tests or techniques utilized, and results of each. (3-20-20)T
- h.** All anesthetized animals shall be appropriately monitored and under supervision at all times. Evidence of this monitoring shall be documented in writing in the medical record. (3-20-20)T
- 02. Consent Forms.** Consent forms, signed by the patient's owner or other legal caretaker for each surgical or anesthesia procedure requiring hospitalization or euthanasia, shall be obtained, except in emergency situations, for each animal and be maintained on file with the practitioner. (3-20-20)T
- 03. Postoperative Instructions.** Postoperative home-care instructions shall be provided in writing and be noted in the medical record. (3-20-20)T
- 04. Treatment Records.** Veterinarians who practice with other veterinarians shall indicate by recognizable means on each patient's or animal group's medical record any treatment the veterinarian personally performed and which treatments and procedures were delegated to a technician or assistant to perform. The patient's record must also include a notation indicating when the animal was handed-off to another veterinarian or a treatment or procedure delegated to a technician or assistant along with a summary of the animal's condition and diagnosis at the time of the hand-off. (3-20-20)T
- 05. Ownership of Medical Records.** Medical records are the personal property of the hospital or the proprietor of the practice that prepares them. Other veterinarians, including those providing subsequent health needs for a patient, and the patient's owner may receive a copy of the patient's medical record, upon the request of the patient's owner or other caretaker. Records shall be supplied within three (3) business days, counting the day of the request if a business day. (3-20-20)T
- 06. Diagnostic Image Identification and Ownership.** All diagnostic images shall be labeled in the emulsion film or digitally imprinted to identify the veterinarian or premise, the patient, the owner, the date, and anatomical orientation. A diagnostic image is the physical property of the hospital or the proprietor of the practice that prepares it, and it shall be released upon the request of another veterinarian who has the authorization of the owner of the animal to whom it pertains or to the Board. Such diagnostic images shall be returned within a reasonable time to the veterinarian who originally ordered them to be prepared. (3-20-20)T
- 07. Estimates.** A veterinarian shall make available to each client a written estimate on request. (3-20-20)T
- 08. Controlled Substances and Prescription or Legend Drugs.** A controlled substance is any substance classified by the federal Food and Drug Administration or the Idaho Board of Pharmacy in Schedules I through V of the state or federal Controlled Substances Act, Title 37, Chapter 27, Idaho Code, or 21 CFR 1308. A prescription or legend drug is any drug that under federal law is required, prior to being dispensed or delivered, to be labeled with one (1) of the following statements: "Caution federal law prohibits dispensing without a prescription"; or "RX Only"; or "Caution: Federal law restricts this drug to use by or on the order of a licensed veterinarian"; or a drug which is required by any applicable federal or state law or regulation or rule to be dispensed on prescription only, or is restricted to use by practitioners only. A veterinarian shall only dispense or distribute a controlled substance or prescription or legend drug within the context of a valid veterinarian/client/patient relationship as defined by Section 150 of these rules. (3-20-20)T

  - a.** Records shall be kept in compliance with all federal and state laws and be recorded in the patient records along with the initials of the veterinarian who authorized the dispensing or distribution of the controlled

- substances, prescription, or legend drugs. (3-20-20)T
- b.** A separate inventory record shall be kept for each controlled substance by name and strength including: (3-20-20)T
- i.** Records of the receipt, which include all information required by federal law, the date of the receipt, the amount received, the source of receipt, and the invoice number. (3-20-20)T
- ii.** Records of dispensing, which include the date the controlled substance was dispensed, the amount dispensed, the animal's name, identification of the patient record, identification of the person who dispensed the drug, identification of the veterinarian who supervised the dispensing and any other information required by federal law. (3-20-20)T
- c.** Records for all dispensed or distributed prescription or legend drugs shall be maintained in the individual patient or herd record and include the date the drug was dispensed or distribution was authorized, the amount dispensed or distributed, identification of the person who dispensed or authorized distribution of the drug, identification of the veterinarian who supervised the dispensing and any other information required by federal or state law, regulation or rule. (3-20-20)T
- d.** Prescription drug order means a lawful written or verbal order of a veterinarian for a drug. (3-20-20)T
- i.** When prescription drug orders are issued by a licensed veterinarian to be distributed to the animal's owner or legal caretaker by a retail veterinary drug outlet, all orders for prescription or legend drugs shall be written on an official numbered three (3) part order form available through the Idaho Department of Agriculture. The veterinarian shall retain the second copy in their medical record with the original and one (1) copy sent to the retail veterinary drug outlet. The retail veterinary drug outlet shall retain the original and attach the copy of the original to the order for delivery to the animal's owner or legal caretaker. (3-20-20)T
- ii.** Under no circumstances shall a prescription or legend drug be distributed by a retail veterinary drug outlet to an animal's owner or legal caretaker prior to the issuance of either a written or oral prescription drug order from the veterinarian: (3-20-20)T
- (1)** When a written prescription drug order from the veterinarian has been issued to a retail veterinary drug outlet, a copy of the veterinarian's original numbered prescription drug order shall be attached to the prescription or legend drugs that are delivered to the animal's owner or legal caretaker. (3-20-20)T
- (2)** When a retail veterinary drug outlet receives an oral prescription drug order from the veterinarian, the oral order shall be promptly reduced to writing on a Department of Agriculture unnumbered telephone drug order blank. A copy of this completed form shall be attached to the prescription or legend drugs that are delivered to the animal(s)'s owner or legal caretaker. (3-20-20)T
- (3)** When a veterinarian issues an oral prescription drug order to a retail veterinary drug outlet, the oral order shall be followed by a written prescription drug order signed by the veterinarian using the official numbered three (3) part order form and procedures required under these rules. The written order shall be sent promptly by the veterinarian so that it is received by the retail veterinary drug outlet no later than seven (7) days after the retail veterinary drug outlet receives the oral order. The written confirmation order may be hand-delivered, mailed, faxed, attached to an e-mail, or otherwise properly delivered to the retail veterinary drug outlet. (3-20-20)T
- e.** When prescription or legend drugs are dispensed, the labeling on all containers shall be in compliance with the requirements of Paragraph 153.01.d. of these rules. (3-20-20)T
- f.** When controlled substances are dispensed, all containers shall be properly labeled with:(3-20-20)T
- i.** The clinic's name, address, and phone number; (3-20-20)T
- ii.** The name of the client and patient; (3-20-20)T

iii. The drug name and quantity; and (3-20-20)T

iv. The directions for use, including dosage and quantity. (3-20-20)T

**g.** All controlled substances shall be stored, dispensed, and disposed of in accordance with the requirements of the Uniform Controlled Substances Law and Code of Federal Regulations. (3-20-20)T

**09. Return or Disposal of Expired Pharmaceuticals and Biologicals.** Except for controlled substances, which shall be disposed of in accordance with Paragraph 154.08.g. of these rules, all pharmaceuticals and biologicals that have exceeded their expiration date shall be removed from inventory and disposed of appropriately. (3-20-20)T

**155. -- 199. (RESERVED)**

**200. COMMITTEE ON HUMANE EUTHANASIA.**

Pursuant to Section 54-2105(8), Idaho Code, a Committee on Humane Euthanasia (COHE) is established for the purpose of training, examining, and certifying euthanasia agencies and euthanasia technicians. The COHE will consist of no fewer than five (5) members appointed by the Board. At its discretion, the Board may appoint itself as the COHE. New members will be nominated by either the Board or the COHE and be confirmed by the Board. Applicants for a COHE position shall be certified euthanasia technicians (CETs) as defined by Section 54-2103(9), Idaho Code, and employed by a certified euthanasia agency as defined by Section 54-2103(8), Idaho Code, or be an Idaho licensed veterinarian (3-20-20)T

**01. Term.** Each member will serve for three (3) years, at the pleasure of the Board. A COHE member may be eligible for reappointment. If there is a vacancy for any cause, the COHE or the Board shall nominate and confirm a successor to fill the unexpired term. (3-20-20)T

**02. Duties.** The duties of COHE members include, but are not limited to, the following: (3-20-20)T

**a.** Coordinate and provide euthanasia training classes as needed. (3-20-20)T

**b.** Inspect and certify agencies. (3-20-20)T

**c.** Review the applications, records, performance, methods and procedures used by agencies and persons seeking to be certified or to renew their certification as a Certified Euthanasia Agency (CEA) or Certified Euthanasia Technician (CET). (3-20-20)T

**d.** Conduct written and practical examinations for applicants applying for certification and authorize certification through the Board. (3-20-20)T

**e.** Recommend suspension or revocation of a certification when necessary. (3-20-20)T

**03. Compensation.** Members of the COHE will be compensated as provided by Section 59-509(n), Idaho Code. (3-20-20)T

**201. METHODS OF EUTHANASIA, PRE-EUTHANASIA SEDATION, AND CHEMICAL CAPTURE.**

Methods approved by the COHE and used for the purpose of humanely euthanizing, sedating, or remote chemical capturing injured, sick, homeless, or unwanted pets and animals: (3-20-20)T

**01. Euthanasia Drugs.** Any Schedule II non-narcotic or Schedule III non-narcotic euthanasia drug covered by the Controlled Substances Act that has first been approved in writing by the COHE and the Board. A list of approved euthanasia drugs is on file at the Board office. (3-20-20)T

**02. Pre-Euthanasia Sedation Drugs.** Any Schedule III or Schedule IV narcotic or non-narcotic controlled substance as defined by the Controlled Substances Act, or other legend drugs that have been approved for use by CEAs or CETs at a CEA facility. Such pre-euthanasia sedation drugs shall be limited to those approved in

writing by the COHE and the Board. A list of approved pre-euthanasia sedation drugs is on file at the Board office. (3-20-20)T

**03. Remote Chemical Capture Restraint Drugs.** Any Schedule III or Schedule IV narcotic or non-narcotic controlled substance as defined by the Controlled Substances Act, or other legend drugs that have been approved for use by CEAs or CETs. Such remote chemical capture restraint drugs shall be limited to those approved in writing by the COHE and the Board. A list of approved remote chemical capture restraint drugs is on file at the Board office. Use of remote chemical capture is limited to CEAs and CETs who are classified as law enforcement agencies or law enforcement personnel who have successfully completed a Board-approved course in remote chemical capture. (3-20-20)T

**202. PROCUREMENT AND ADMINISTRATION OF APPROVED DRUGS.**

In order for a certified euthanasia agency to obtain approved drugs for euthanizing animals and a certified euthanasia technician to administer such drugs, the following procedure shall be followed: (3-20-20)T

**01. DEA Registration.** A certified euthanasia agency (CEA) shall appoint a person who will be responsible for ordering the approved drugs and who shall submit an application for the agency's registration as a Euthanasia Agency Practitioner-A.S. to the Drug Enforcement Agency (DEA). The CEA shall also designate a certified euthanasia technician (CET) who will be responsible for the security of the agency's approved drugs. (3-20-20)T

**02. Controlled Substance Registration.** Each CET employed by the agency shall apply for a controlled substance registration from the Idaho Board of Pharmacy under their individual name and using the CEA's DEA registration number. (3-20-20)T

**03. Purchase of Approved Drugs.** After the certified euthanasia agency has received a DEA registration number and the CETs at that agency have received their Idaho Board of Pharmacy controlled substance registrations, the designated individual for the agency may on behalf of the agency purchase approved drugs for storage at the CEA location. Approved drugs shall only be obtained from a drug wholesaler. (3-20-20)T

**04. Administration of Approved Drugs.** Certified euthanasia technicians employed by certified euthanasia agencies and registered with the Idaho Board of Pharmacy may perform euthanasia by the administration of approved drugs. (3-20-20)T

**203. FEES.**

**01. Payment.** All fees shall be paid prior to training, examination, certification, and renewal. (3-20-20)T

**02. Refunds.** Fees are non-refundable. (3-20-20)T

**204. CERTIFIED EUTHANASIA AGENCY.**

A certified euthanasia agency is a law enforcement agency, an animal control agency, a humane society, or an animal shelter that has been inspected and certified by the COHE or the Board, Section 54-2103(8), Idaho Code. In order to be certified to purchase and store approved drugs, certified euthanasia agencies shall be inspected by the COHE or the Board and meet the following criteria: (3-20-20)T

**01. Approved Drugs.** Approved drugs shall be kept in a locked cabinet securely attached to the building in which it is housed. (3-20-20)T

**a.** Each agency shall maintain a current written list of CET(s). (3-20-20)T

**b.** Access to the drug storage cabinet shall be limited to licensed veterinary supervisors and assigned CET. Such persons shall be responsible for the security of the approved drugs and allow withdrawal of the approved drugs only to a person certified by the Board and registered with the Idaho Board of Pharmacy to administer such drugs. (3-20-20)T

- c.** All approved drugs shall be prepared according to the manufacturer's instructions. (3-20-20)T
- d.** Needles in a range of sizes that are the appropriate gauge for the intended use. Needles shall be of medical quality, and not be used if they are dirty, clogged, barbed, or might otherwise cause unnecessary discomfort for the animal. (3-20-20)T
- e.** Needles and syringes shall not be reused. (3-20-20)T
- f.** Three (3) different syringe sizes are required: three (3), six (6), and twelve (12) cc. An agency may have other syringe sizes according to its needs. Syringes shall be of medical quality. (3-20-20)T
- g.** Spent needles and syringes shall be disposed of in a manner that makes their re-use impossible. (3-20-20)T
- 02. Proper Storage.** When no CET is on duty, proper storage for approved drugs is in a locked storage cabinet. (3-20-20)T

  - a.** The cabinet shall be of such material and construction that it will withstand strong attempts to break into it. A metal safe is preferred. (3-20-20)T
  - b.** The cabinet shall be securely attached to the building in which it is housed. (3-20-20)T
  - c.** The temperature and environment in the storage cabinet shall be adequate to assure the proper keeping of the drug. (3-20-20)T
- 03. Proper Labeling.** Upon removal from the shipment carton, each individual container of an approved drug shall be labeled with the drug name and strength, the date the drug was prepared, a drug hazard warning label and the name and address of the agency owning the drug. (3-20-20)T
- 04. Temporary Storage.** When a CET is on duty and when animals are being euthanized throughout the workday, approved drugs may be kept in a temporary storage cabinet. When approved drugs are transported in a vehicle, the temporary storage cabinet shall be securely bolted to the vehicle. The cabinet shall be constructed of any strong material and be securely locked when not in use. The key to this cabinet shall be secured by a licensed veterinary supervisor or the lead CET designated on the DEA controlled substance registration, and made available to the CET(s) performing euthanasia that day. (3-20-20)T
- 05. Record Keeping.** Proper record keeping of approved drugs shall include the following: (3-20-20)T

  - a.** Shipment records showing receipt of the approved drugs shall be maintained and include all information required by federal law, the date the shipment was received, the amount, the source, and the invoice number. (3-20-20)T
  - b.** Administration records showing the date an approved drug was: (3-20-20)T

    - i.** Administered; (3-20-20)T
    - ii.** Weight and species of animal; (3-20-20)T
    - iii.** Dosage of each drug administered for pre-euthanasia sedation, euthanasia, and remote chemical capture restraint; (3-20-20)T
    - iv.** Identification of the person who dispensed the approved drugs; and, if applicable; (3-20-20)T
    - v.** Identification of the veterinarian or CET who supervised the dispensing shall be maintained. (3-20-20)T
  - c.** Records of wastage shall be maintained and signed by the CET administering the approved drug

and the CET responsible for security. (3-20-20)T

**d.** A weekly record of the approved drugs on hand, minus the amounts withdrawn for administration, signed by the CET responsible for security. (3-20-20)T

**e.** Disposal records of any expired or unwanted approved drugs shall be maintained. Disposal of unwanted drugs and the containers, instruments, and equipment used in the administration of the approved drugs shall be in conformance with the Idaho Board of Pharmacy law and rules and the Code of Federal Regulations. (3-20-20)T

**f.** All records shall be filed in chronological order in a binder that is labeled with the name of the agency and be kept for a period of three (3) years from the calendar date on the record. (3-20-20)T

**06. Proper Sanitation.** The euthanasia area shall be clean and regularly disinfected. (3-20-20)T

**07. Other Site Conditions.** Other site conditions relevant to the proper euthanasia environment. (3-20-20)T

**a.** Each agency shall have a specific area designated for euthanasia that is: (3-20-20)T

i. A separate room; or (3-20-20)T

or ii. An area that is physically separated from the rest of the agency by a wall, barrier or other divider; (3-20-20)T

iii. An area that is not used for any other purpose while animals are being euthanized. (3-20-20)T

**b.** The euthanasia area shall meet the following minimum standards: (3-20-20)T

i. Lighting shall be bright and even; (3-20-20)T

ii. The air temperature shall be within a reasonable comfort range for both the personnel and animals. A minimum sixty (60) degrees F and maximum ninety (90) degrees F is recommended; (3-20-20)T

iii. The area shall have adequate ventilation that prevents the accumulation of odors. At least one (1) exhaust fan vented directly to the outside is recommended; and (3-20-20)T

iv. The floor of the area shall provide dry, non-slip footing to prevent accidents. (3-20-20)T

**c.** The euthanasia area shall have the following equipment: (3-20-20)T

i. A table or other work area where animals can be handled while being euthanized. (3-20-20)T

ii. A cabinet, table or work bench where the drugs, needles, syringes and clippers can be placed. (3-20-20)T

**d.** The following items and materials shall either be kept in the euthanasia area or brought to the area each time an animal is euthanized: (3-20-20)T

i. A first aid kit that meets minimum first aid supply standards; (3-20-20)T

ii. One (1) or more tourniquets; (3-20-20)T

iii. Standard electric clippers with No. 40 blade; (3-20-20)T

iv. Animal control stick for dogs and animal net for cats (if the agency handles cats); (3-20-20)T

v. Stethoscope; (3-20-20)T

- vi. Disinfectant. (3-20-20)T
- vii. The current certification cards for the CEA and all CETs working at the CEA, which shall be kept together. The CEA is strongly encouraged to keep all DEA and Idaho Board of Pharmacy registration cards together with the certification cards. (3-20-20)T

- e. All equipment shall be in good working order. (3-20-20)T

**08. Equipment Stored.** All equipment shall be stored so that it does not create a safety hazard for the personnel. All drugs and other chemical agents used in the euthanasia area shall be clearly labeled as specified by Subsection 204.03 of these rules. (3-20-20)T

**09. Certification Renewal.** Certifications may be renewed upon successful completion of a facility inspection by a COHE member, a member of the Board or other individual appointed by the COHE and payment of the annual renewal fee. (3-20-20)T

**205. CERTIFIED EUTHANASIA TECHNICIAN.**

**01. Training and Examinations.** The COHE or the Board will develop training sessions and materials that include, but are not limited to, the following topics: (3-20-20)T

- a. Euthanasia: (3-20-20)T
  - i. Animal anatomy; (3-20-20)T
  - ii. Proper animal handling to ease trauma and stress; (3-20-20)T
  - iii. Dosages of chemical agents, record keeping and documentation of usage, storage, handling, and disposal of out-dated drugs and their containers, instruments and equipment used in their administration in accordance with the Idaho Board of Pharmacy law and rules and the Code of Federal Regulations; (3-20-20)T
  - iv. Proper injection techniques; and (3-20-20)T
  - v. Proper use and handling of approved euthanasia drugs and equipment; (3-20-20)T
  - vi. Examination. Following the euthanasia training, a written examination covering the training topics will be given. (3-20-20)T
- b. Remote Chemical Capture: (3-20-20)T
  - i. An overview of remote chemical capture; (3-20-20)T
  - ii. Description and basic mechanism of action of approved drugs; (3-20-20)T
  - iii. Laws, regulations and rules governing remote chemical capture; (3-20-20)T
  - iv. Post-injection care; (3-20-20)T
  - v. Proper use and handling of approved restraint drugs and equipment; (3-20-20)T
  - vi. Human safety; (3-20-20)T
  - vii. Tactics and strategy; and (3-20-20)T
  - viii. Delivery systems and equipment. (3-20-20)T

**02. Certification Standards.** Applicants for certification as a CET shall be eighteen (18) years of age or older and demonstrate proficiency in compliance with the following standards: (3-20-20)T

**a.** Demonstrate competency in euthanasia techniques in the presence of a COHE or Board member, or a person approved by the Board: (3-20-20)T

i. CETs are fully responsible for all actions that take place in the euthanasia area when an animal is brought to the area including, but not limited to, animal handling, use of the proper restraint technique, the proper drug dosage, and drug handling; (3-20-20)T

ii. CETs shall be able to competently perform intravenous injections on dogs and intraperitoneal injections on both dogs and cats. Intravenous injections on cats shall not be required as part of the certification process, but when performed, meet the standards listed in Subparagraph 205.02.a.ii.(1) of these rules. Intracardiac injections on dogs and cats shall not be required as part of the certification process, but when performed, are restricted to the limitations listed in Subparagraph 205.02.a.ii.(3) of these rules. (3-20-20)T

(1) Intravenous Injections: The CET shall be able to competently insert the needle into an animal's vein when an animal is injected by this method. A minimum of two (2) people shall be required for any IV injection. One (1) person shall be a CET and one (1) or more people shall be the handler. The handler does not need to be a CET, but the handler should be trained in human safety and animal handling techniques; (3-20-20)T

(2) Intraperitoneal Injections: The CET shall be able to competently insert the needle into the proper area of the peritoneal cavity when an animal is injected by this method. It is recommended that animals injected by this method be placed into a cage or carrier with no other animals. The cage or carrier shall be covered with cloth or other material that can keep the injected animal isolated from the normal activities in the euthanasia area. Intraperitoneal injections may be administered by a CET without a handler. (3-20-20)T

(3) Intracardiac Injections: Intracardiac injection shall be performed only on an anesthetized animal. CETs shall be able to competently insert the needle into the heart of an anesthetized animal, and intracardiac injections may be administered by a CET without a handler. (3-20-20)T

iii. No other euthanasia injection procedures are permitted in any type of animal with the exception of intramuscular and subcutaneous injections for pre-euthanasia sedation; (3-20-20)T

iv. Oral administration of approved euthanasia drugs is permitted for any animal that cannot be captured or restrained without serious danger to human safety; (3-20-20)T

**b.** Demonstrate proper record keeping. A record of all approved drugs received and used by the agency shall be kept containing the following information: (3-20-20)T

i. A weekly verification of the drug stock on hand, minus the amounts withdrawn for administration, signed by the CET responsible for security; (3-20-20)T

ii. An entry of the date that a new bottle of any approved drug is opened and the volume of the bottle, signed by the CET responsible for security; (3-20-20)T

iii. The species and approximate weight of each animal administered a drug; (3-20-20)T

iv. The amount of the drug that was administered; (3-20-20)T

v. The date the drug was administered; (3-20-20)T

vi. The signature of the CET who administered the drug; (3-20-20)T

vii. A record of the amount of the drug wasted, if any, signed by the CET administering the drug and the CET responsible for security; and (3-20-20)T

viii. A record of any disposal of expired or unwanted approved drugs, other chemical agent or the containers, instruments and equipment used in their administration, signed by the CET and disposed of in accordance with the Idaho Board of Pharmacy law and rules and the Code of Federal Regulations. (3-20-20)T

c. Demonstrate understanding and concern for the needs and humane treatment of individual animals: (3-20-20)T

i. All animals shall be handled in a manner that minimizes stress to the animal and maximizes the personal safety of the CET and the handler. Each animal shall be handled with the least amount of restraint necessary, but human safety is always the primary concern. Handling includes all aspects of moving an animal from one (1) area to another; (3-20-20)T

ii. The use of control sticks and other similar devices shall be limited to fractious or potentially dangerous animals; and (3-20-20)T

iii. Animals shall not be placed in cages or kennels with other breeds or species that are incompatible with the animal in question or be overcrowded in a cage or kennel. (3-20-20)T

d. Demonstrate ability to verify death. The animal should become unconscious and show terminal signs within sixty (60) minutes of drug administration. If any animal does not show any of these signs within the designated time period, the CET shall re-administer the drug. An animal that has received an approved drug orally may be injected with the same or another approved drug after it has become unconscious. Verification is the responsibility of the CET and shall be made by physical examination of the individual animal. One (1) of the following two (2) standards for death shall be met: (3-20-20)T

i. Rigor mortis; or (3-20-20)T

ii. Complete lack of heartbeat (as checked with a stethoscope), complete lack of respiration, and complete lack of corneal and palpebral reflexes. (3-20-20)T

e. Demonstrate ability to communicate with handlers during the euthanasia process. (3-20-20)T

**03. Certification.** (3-20-20)T

a. An individual shall not be certified as a CET until such time as he has successfully passed all of the following: (3-20-20)T

i. A euthanasia written examination; (3-20-20)T

ii. A practical or clinical examination; and (3-20-20)T

iii. An Idaho euthanasia jurisprudence examination. (3-20-20)T

b. The euthanasia written examination is the “written examination” referenced in Subparagraph 205.01.a.vii. of this rule. The practical examination will test the individual’s knowledge and skills in the hands-on application of euthanasia procedures and practices in a clinical setting under the direction of a COHE member, a Board member, or a designee of either the COHE or Board. The Idaho euthanasia jurisprudence examination (which can either be a separate written test or combined with the euthanasia written examination) will be an examination testing the individual’s understanding of Idaho laws and Board rules addressing the practice of euthanasia. Both the euthanasia written examination and the euthanasia jurisprudence examination will be developed by the Board, the COHE, or a designee of either the Board or the COHE. (3-20-20)T

c. A passing score for the euthanasia written examination is eighty percent (80%), or such other score as deemed appropriate by the Board or the COHE. A passing score for the euthanasia jurisprudence examination is ninety percent (90%), or such other score as deemed appropriate by the Board or the COHE. A failed euthanasia jurisprudence examination may be retaken multiple times upon making arrangements acceptable to the Board. (3-20-20)T

**d.** Initial certification and certification renewal training sessions and examinations will be conducted at least once per year prior to July 1, and at such other times deemed necessary by the COHE, the Board, or a designee of either the COHE or the Board. Upon approval of the Board, a COHE member, or the designee of either the Board or the COHE, an individual may take the euthanasia written examination, the practical examination, and the euthanasia jurisprudence examination in any order. (3-20-20)T

**e.** An individual who has passed the written examination, but has not attended a training session and has not passed the practical examination, may serve as a probationary euthanasia technician under the direct supervision of a currently certified CET until such time as the next training course, practical examination and certification are conducted by a COHE member, a Board member, or the designee of either the COHE or the Board. (3-20-20)T

**f.** An individual who has not passed the written examination may not serve as a euthanasia technician. (3-20-20)T

**g.** An individual who attends a training session and passes the written examination but fails the practical examination may serve on probation until he has been re-examined. If the individual fails to pass the practical examination a second time and wishes to apply again, the individual shall attend the next regular training session and written examination. (3-20-20)T

**h.** Upon termination from an agency as defined in Section 204 of these rules, a CET's certification immediately becomes invalid and the CET shall not perform animal euthanasia until employed by another certified euthanasia agency, at which time the certification may be reinstated. (3-20-20)T

**i.** The agency shall notify the Board office in writing within thirty (30) days from the date the CET's employment at that agency is terminated. (3-20-20)T

**j.** If a CET is employed again by a CEA prior to the expiration of their certification, the CEA employer may request reinstatement of the CET's certification. If a CET has not attended a euthanasia training in the three (3)-year period preceding recertification, the CET may not be recertified and will need to reapply for certification, at COHE discretion. (3-20-20)T

**k.** All certifications expire on July 1 of each year. (3-20-20)T

**04. Certification Renewal.** (3-20-20)T

**a.** Certifications may be renewed each year by payment of the annual renewal fee, provided that, every third year following the date of certification, the CET will need to attend a euthanasia training and pay the current training and certification fee prescribed by Section 014 of these rules. (3-20-20)T

**b.** In addition to the above euthanasia training recertification requirement, CETs classified as law enforcement personnel who use chemical capture must recertify in remote chemical capture every third year following their original remote chemical capture certification. (3-20-20)T

**05. Duties.** The duties of a CET include, but are not limited to: (3-20-20)T

**a.** Preparing animals for euthanasia; (3-20-20)T

**b.** Accurately recording the dosages for drugs that are administered and amounts for drugs wasted; (3-20-20)T

**c.** Ordering supplies; (3-20-20)T

**d.** Maintaining the security of all controlled substances and other approved drugs; (3-20-20)T

**e.** Directly supervising probationary CET; (3-20-20)T

- f. Reporting to the Board violations or suspicions of a violation of these rules or any abuse of drugs; (3-20-20)T
- g. Humanely euthanizing animals; and (3-20-20)T
- h. Proper and lawful disposal of euthanized animals and expired or unwanted drugs, other chemical agent or the containers, instruments and equipment used in the administration of approved drugs. (3-20-20)T

**206. GROUNDS FOR DISCIPLINE -- CEAS AND CETs.**

The Board may refuse to issue, renew, or reinstate the certification of a CEA or CET, or may deny, revoke, suspend, sanction, place on probation, or require voluntary surrender of the certification of a CEA or CET, impose other forms of discipline, and enter into consent agreements and negotiated settlements with CEAs and CETs pursuant to the procedures set forth in Title 67, Chapter 52, Idaho Code, for any of the following reasons: (3-20-20)T

- 01. Failure to Carry Out Duties.** Failure to carry out the duties of a CEA or CET. (3-20-20)T
- 02. Abuse of Chemical Substances.** Abuse of any chemical substance by: (3-20-20)T
  - a. Selling or giving chemical substances away; or (3-20-20)T
  - b. Stealing chemical substances; or (3-20-20)T
  - c. The diversion or use of any chemical substances for other than legitimate chemical capture or euthanasia purposes; or (3-20-20)T
  - d. Abetting anyone in the foregoing activities. (3-20-20)T
- 03. Euthanizing of Animals Without Proper Supervision.** Allowing uncertified individuals or probationary CETs to euthanize animals or personally euthanizing animals without proper supervision. (3-20-20)T
- 04. Administration of Approved Drugs Without Proper Supervision.** Allowing uncertified individuals or probationary CETs to administer approved drugs or personally administering approved drugs without proper supervision. (3-20-20)T
- 05. Euthanizing of Animals Without Proper Certification.** Allowing individuals or probationary CETs to euthanize animals or personally euthanizing animals without being properly certified to do so. (3-20-20)T
- 06. Fraud, Misrepresentation, or Deception.** The employment of fraud, misrepresentation of a material fact, or deception by an applicant or certificate holder in securing or attempting to secure the issuance or renewal of a certificate. (3-20-20)T
- 07. Unethical or Unprofessional Conduct.** Unethical or unprofessional conduct means to knowingly engage in conduct of a character likely to deceive or defraud the public and includes, but is not limited to: (3-20-20)T
  - a. Working in conjunction with any agency or person illegally practicing as a CEA or CET; (3-20-20)T
  - b. Failing to provide sanitary facilities or apply sanitary procedures for the euthanizing of any animal; (3-20-20)T
  - c. Euthanizing animals in a manner that endangers the health and welfare of the public. A CET shall not euthanize animals if their ability to practice with reasonable skill and safety is adversely affected by reason of illness, excessive use of alcohol, drugs, narcotics, chemicals, or any other substance or as a result of any mental or physical disability; (3-20-20)T
  - d. Gross ignorance, incompetence or inefficiency in the euthanizing of animals as determined by, but not limited to, the practices generally and currently followed and accepted by persons certified to practice as CETs in

- Idaho; (3-20-20)T
- e. Intentionally performing a duty, task or procedure involved in the euthanizing of animals for which the individual is not qualified; and (3-20-20)T
  - f. Swearing falsely in any testimony or affidavits relating to practicing as a CEA or CET. (3-20-20)T
- 08. Conviction of Violating Any Federal or State Statute, Rule or Regulation.** Conviction of a charge of violating any federal or state statute or rule or regulation regulating narcotics, dangerous drugs or controlled substances. (3-20-20)T
- 09. Conviction of a Charge or Crime.** Being found guilty, convicted, placed on probation, having entered a guilty plea that is accepted by the court, forfeiture of bail, bond or collateral deposited to secure a defendant's appearance, or having received a withheld judgment or suspended sentence by a court of competent jurisdiction in Idaho or any other state of one (1) or more of the following: (3-20-20)T
- a. Any felony, as defined by Title 18, Chapter 1, Idaho Code; or (3-20-20)T
  - b. Any crime constituting or having as an element the abuse of any drug, including alcohol. (3-20-20)T
  - c. Any other criminal act that in any way is related to practicing as a CEA or CET as defined by Section 54-2103(8) and (9), Idaho Code. (3-20-20)T
- 10. Improper Record Keeping.** Failure to follow proper record keeping procedures as outlined in Board rules. (3-20-20)T
- 11. Improper Security for Approved Drugs.** Failure to provide and maintain proper security for approved euthanasia and restraint drugs as outlined in Board rules. (3-20-20)T
- 12. Improper Storage of Equipment and Approved Drugs.** Failure to properly store equipment or approved drugs as outlined in Board rules. (3-20-20)T
- 13. Improper Disposal of Approved Drugs and Equipment.** Failure to properly dispose of approved drugs and the containers, instruments and equipment used in their administration as outlined in Board rules. (3-20-20)T
- 14. Improper Labeling of Approved Drugs.** Failure to properly label approved euthanasia and restraint drugs as outlined by Board rules. (3-20-20)T
- 15. Revocation, Suspension, Limitation or Restriction.** The revocation, suspension, limitation, or restriction of a license, certificate or registration or any other disciplinary action by another state or U.S. jurisdiction or voluntary surrender of a license, certificate or registration by virtue of which one is licensed, certified or registered to practice as a CEA or CET in that state or jurisdiction on grounds other than nonpayment of the renewal fee. (3-20-20)T
- 16. Failure to Cooperate.** (3-20-20)T
- a. Failure of any applicant or certificate holder to cooperate with the Board during any investigation, even if such investigation does not personally concern the applicant or certificate holder; or (3-20-20)T
  - b. Failure to comply with the terms of any order, negotiated settlement, or probationary agreement of the Board; or (3-20-20)T
  - c. Failure to comply with the terms for certification renewal or to timely pay certification renewal fees. (3-20-20)T

17. **Aiding and Abetting.** Knowingly aiding or abetting an uncertified agency or person to practice as a CEA or CET. (3-20-20)T

18. **Current Certification.** Practicing as a CEA or CET without a current certification. (3-20-20)T

19. **Improper Drug Preparation.** Preparing approved drugs, contrary to manufacturer's instructions. (3-20-20)T

20. **Violation of any Law, Rules or Orders.** Violating or attempting to violate, directly or indirectly, or assisting or abetting the violation or conspiracy to violate any provisions of the veterinary law and rules or a written order of the Board issued pursuant to Title 54, Chapter 21, Idaho Code, the Idaho Board of Pharmacy law and rules, or the Code of Federal Regulations. (3-20-20)T

**207. INSPECTION DEFICIENCIES.**

If there are inspection deficiencies with either a CEA or CET, a COHE member or the Board will document in writing areas for correction. The CEA or CET, or both, shall make corrections within the time period specified in the notice of deficiency, and correction will be verified by a COHE or Board member as recorded on the deficiency documentation. If the deficiency has not been corrected, the certification may be revoked by the Board, and the Idaho Board of Pharmacy will be notified. (3-20-20)T

# IDAPA 48 – IDAHO GRAPE GROWERS AND WINE PRODUCERS COMMISSION

## DOCKET NO. 48-0101-2000F (FEE RULE)

### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 54-3605(15) and 54-3610, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking adopts the following chapter under IDAPA 48:

#### **IDAPA 48**

- 48.01.01, *Rules of the Idaho Grape Growers and Wine Producers Commission*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 54-3610 Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fee or charge imposed or increased. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The rule specifies the amount of grape and wine tax to be levied in accordance with statute. The rule also adopts a late payment penalty in accordance with statute.

- Seven dollars (\$7) per ton of grapes purchased by producers in Idaho during the previous calendar year for the production of wine in Idaho.
- Seven dollars (\$7) per ton of grapes harvested by growers in Idaho during the previous calendar year for the purpose of the production of wine in Idaho.
- Seven dollars (\$7) per ton of grapes purchased by producers outside Idaho during the previous calendar year for the purpose of the production of wine in Idaho.
- Four cents (\$.04) per gallons of grape juice purchased by producers outside Idaho during the previous calendar year for the purpose of the production of wine in Idaho.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Brenna Christison, (208) 332-1538.

DATED this 12th day of February 2020.

Brenna Christison  
Operations & Finance Manager  
Idaho Grape Growers and Wine Producers Commission

# IDAPA 48 – IDAHO GRAPE GROWERS AND WINE PRODUCERS COMMISSION

## 48.01.01 – RULES OF THE IDAHO GRAPE GROWERS AND WINE PRODUCERS COMMISSION

### 000. LEGAL AUTHORITY.

This chapter is adopted in accordance with Section 54-3605(15), Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE.

**01. Title.** The title of this chapter is IDAPA 48.01.01, “Rules of the Idaho Grape Growers and Wine Producers Commission.” (3-20-20)T

**02. Scope.** These rules include, but are not limited to, levy of taxes and penalties as provided by Section 54-3610, Idaho Code. (3-20-20)T

### 002. DEFINITIONS.

The definitions set forth in Title 54, Chapter 36, Idaho Code, apply to this chapter. (3-20-20)T

### 003. -- 019. (RESERVED)

### 020. TAX AND LATE PAYMENT PENALTY.

**01. Levy and Rate of Tax.** In accordance with Section 54-3610, Idaho Code, a tax is levied and imposed on wineries, grapes grown, used, or purchased, and grape juice purchased for the production of wine in Idaho. The rate of each tax is: (3-20-20)T

**a.** Seven dollars (\$7) per ton of grapes purchased by producers in Idaho during the previous calendar year for the production of wine in Idaho. (3-20-20)T

**b.** Seven dollars (\$7) per ton of grapes harvested by growers in Idaho during the previous calendar year for the purpose of the production of wine in Idaho. (3-20-20)T

**c.** Seven dollars (\$7) per ton of grapes purchased by producers outside Idaho during the previous calendar year for the purpose of the production of wine in Idaho. (3-20-20)T

**d.** Four cents (\$.04) per gallons of grape juice purchased by producers outside Idaho during the previous calendar year for the purpose of the production of wine in Idaho. (3-20-20)T

**02. Minimum Levy.** The minimum taxes paid by any grower or winery is one hundred dollars (\$100) annually. (3-20-20)T

**03. Payment of Tax.** All taxes must be paid on or before June 30 of each year as follows: (3-20-20)T

**a.** The grower harvesting grapes for the production of wine pays the tax levied upon the grower. (3-20-20)T

**b.** Each winery pays the tax levied upon the winery for the production of wine. (3-20-20)T

**c.** Purchasers of grapes grown or grape juice produced outside Idaho pay the taxes levied on such grapes and grape juice. (3-20-20)T

**d.** Purchasers of grape juice produced in Idaho pay the taxes levied on such grape juice. (3-20-20)T

**04. Opt Out Alternative.** A grower or producer may opt out of the levy of tax by submitting a letter to the Commission no later than June 30 of each year stating the grower or producer's name and address, and their intent to opt out of the application of the provisions of Title 54, Chapter 36, Idaho Code, for the upcoming fiscal year. (3-20-20)T

## **IDAPA 51 – IDAHO BEEF COUNCIL**

### **DOCKET NO. 51-0101-2000F (FEE RULE)**

#### **NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 25-2906 (9), Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rule adopts the following chapter under IDAPA 51:

#### **IDAPA 51**

- IDAPA 51.01.01, *Rules of the Idaho Beef Council*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 25-2907 (1), Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges: Assessments include \$1.50 per head of cattle at the time the cattle are sold. This includes one dollar (\$1.00) required by the National Beef Promotion and Research Act, and fifty cents (\$.50) authorized by Section 25-2907(1), Idaho Code.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact T.K. Kuwahara, 208-376-6004.

# IDAPA 51 – IDAHO BEEF COUNCIL

## 51.01.01 – IDAHO BEEF COUNCIL RULES

### 000. LEGAL AUTHORITY.

The Idaho Beef Council is authorized under Section 25-2906(9), Idaho Code, to adopt rules concerning the administration of the Beef Promotion Act. (3-20-20)T

### 001. TITLE AND SCOPE.

These rules are titled IDAPA 51.01.01, “Idaho Beef Council Rules,” IDAPA 51, Title 01, Chapter 01. These rules provide for a coordinated federal and state program of beef promotion and research funded by a one dollar and fifty cents (\$1.50) assessment on each head of cattle marketed in the state of Idaho. (3-20-20)T

### 002. ADMINISTRATIVE APPEALS.

All contested cases are governed by the procedures set forth by the National Beef Promotion and Research Order, 7 CFR 1260, issued by the United States Department of Agriculture. All written communications and documents that are intended to be part of an official record for a decision in a contested case must be filed with the Chief Executive Officer of the Idaho Beef Council. All such documents are considered filed when the original and one (1) copy of each document is received by the Chief Executive Officer of the Idaho Beef Council. (3-20-20)T

### 003. INCORPORATION BY REFERENCE.

The Idaho Beef Council operates under the rules and regulations of the National Beef Promotion and Research Order, 7 CFR 1260 (Federal Register July 18, 1986). (3-20-20)T

### 004. -- 099. (RESERVED)

### 100. FUNDING.

#### 01. Assessments. (3-20-20)T

a. Each producer shall pay an assessment of one dollar and fifty cents (\$1.50) per head of cattle at the time the cattle are sold. This assessment consists of: (3-20-20)T

i. One dollar (\$1) required by the National Beef Promotion and Research Order, and (3-20-20)T

ii. Fifty cents (\$.50) authorized by Section 25-2907(1), Idaho Code. (3-20-20)T

b. Producers selling or marketing cattle in interstate commerce will pay only one (1) assessment per individual sale of cattle. When cattle leave Idaho for the purpose of sale or slaughter, the assessment will be made at the time of brand inspection. When cattle leave Idaho for feeding or pasture where no change of ownership occurs, the promotion assessment will not be made. (3-20-20)T

c. When cattle enter Idaho for sale or slaughter, the assessment will be made only if the assessment has not been paid when the cattle left their state of origin. These cattle will be assessed by the Idaho Brand Inspector, but they will be considered cattle from their state of origin. All assessments will be remitted to the Idaho Beef Council, with these cattle indicated by their state of origin. The Idaho Beef Council will pay to the originating state the assessments due them in a timely manner after payment has been received from the State Brand Inspector. (3-20-20)T

d. The assessment implemented by this rule does not apply to the seller of cattle if the seller certifies that the seller’s only share in the proceeds of a sale of cattle or beef is a sales commission, handling fee or other service fee; or if the seller certifies that he acquired ownership of cattle to facilitate the transfer of ownership of such cattle to a third party, establishes that such cattle are being resold not later than ten (10) days from the date on which the person acquired ownership and certifies that the assessment was collected from the seller when the person acquired ownership. A completed certificate of “non-producer status” must be given to the brand inspector or his agent at the time of inspection. If no certificate is produced the assessment will be levied. (3-20-20)T

02. **Collection.** The State Brand Inspector shall collect the assessment in addition to and at the same time and manner as the fee charged for state brand inspection. The assessment will be submitted each month to the Beef Council, less collection fee. In addition, the State Brand Inspector will submit monthly, a written accounting of total number of head marketed, number of cattle assessed and not assessed (along with copies of the appropriate non-

producer exemption forms), total collections, and state of origin documentation. (3-20-20)T

**03. Refunds.** (3-20-20)T

**a.** Producers/owners of cattle from whom an assessment is collected has the right to request a refund of not more than fifty cents (\$.50) per head (Section 25-2907, Idaho Code). Refund requests must be mailed to the Idaho Beef Council within ninety (90) calendar days of payment of the assessment and include the: (3-20-20)T

i. Name and address of the producer; (3-20-20)T

ii. Name and address of the entity collecting the assessment (brand inspector or livestock market); (3-20-20)T

iii. Number of head on which a refund is requested; (3-20-20)T

iv. Total amount of refund requested; (3-20-20)T

v. Date of assessment; (3-20-20)T

vi. Producer's signature; and (3-20-20)T

vii. Proof of payment of the assessment. (3-20-20)T

**b.** The Idaho Beef Council will process the requested refunds on a calendar quarterly basis. Any refund request that is received by the Idaho Beef Council less than fifteen (15) days from the end of the calendar quarter shall be paid at the end of the next quarter. (3-20-20)T

**101. -- 199. (RESERVED)**

**200. DISBURSEMENTS.**

**01. Collection Fee, Brand Inspector.** The Idaho Beef Council will reimburse the State Brand Inspector for the reasonable and necessary expenses incurred in the collection of the assessment in an amount determined by the Beef Council and the State Brand Inspector, not to exceed five percent (5%) of gross collections. (3-20-20)T

**02. National Beef Promotion and Research Board.** The Idaho Beef Council will forward fifty cents (\$.50) credit per head of cattle assessed to the Cattlemen's Beef Promotion and Research Board. (3-20-20)T

**03. Idaho Beef Council.** Assessment funds remaining after payment of collection fee and disbursement to the National Beef Promotion and Research Board will be retained by the Idaho Beef Council and used to fund its activities and operations. (3-20-20)T

**201. -- 299. (RESERVED)**

**300. PERSONNEL.**

There will be a full time administrator whose title will be "Chief Executive Officer." Additional staff will be hired based upon Idaho Beef Council program needs and budget. (3-20-20)T

**301. -- 999. (RESERVED)**

## IDAPA 52 – IDAHO STATE LOTTERY COMMISSION

DOCKET NO. 52-0103-2000F (FEE RULE)

### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 67-7408(1), Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rule adopts the following chapter under IDAPA 52:

#### **IDAPA 52**

- 52.01.03, *Rules Governing Operations of the Idaho State Lottery*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Sections 67-74122, 67-7706, 67-7712 and 67-7715, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges: Sub Area 501 allows for an application fee for participating organizations and follow up fees based upon annual gross revenues. Sub Area 601 allows for an annual license fee imposed upon vendors, those businesses or persons who manufacture, sell, distribute, furnish or supply gaming devices to Charitable Gaming organizations. Sub Area 201 allows for an application fee for applicants interested in selling break open (PullTab) products. Rule 205.13 allows for a reduced application fee if a current Lottery product retailer is interested in adding break open (PullTab) products to their portfolio.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Becky Schroeder, Chief Operating Officer, at 208.780.2501.

DATED this February 14, 2020.

Jeffrey R. Anderson, Director  
Idaho State Lottery  
1199 Shoreline Lane, Suite 100  
Boise, ID 83702  
Ph. 208.780.2500

# IDAPA 52 – IDAHO STATE LOTTERY COMMISSION

## 52.01.03 – RULES GOVERNING OPERATIONS OF THE IDAHO STATE LOTTERY

### SUBCHAPTER A – INTRODUCTORY PROVISIONS AND DEFINITIONS

#### 000. LEGAL AUTHORITY.

These rules are adopted under the general legal authority of Title 67, Chapter 74, Idaho Code, and the specific legal authority of Sections 67-7401, 67-7404, 67-7406, 67-7408, and 67-7411, Idaho Code. (3-20-20)T

#### 001. TITLE AND SCOPE.

The title of these rules is IDAPA 52.01.03, “Rules Governing Operations of the Idaho State Lottery.” The rules govern operations of the Idaho State Lottery. The rules also set forth which bingo games and raffles are legal in the state of Idaho and to bring all legal bingo games and raffles in the state of Idaho under the control of the Lottery. (3-20-20)T

#### 002. -- 009. (RESERVED)

#### 010. DEFINITIONS.

As used throughout these rules these terms have the following definitions: (3-20-20)T

**01. Commission.** The Idaho State Lottery Commission established and appointed according to Sections 67-7402, 67-7404(2) and 67-7405, Idaho Code. See Section 67-7702(4), Idaho Code. (3-20-20)T

**02. Commissioner.** A member of the Idaho State Lottery Commission. (3-20-20)T

**03. Director.** The Director of the State Lottery appointed and confirmed according to Section 67-7407, Idaho Code. (3-20-20)T

**04. Lottery.** The Idaho State Lottery created by Section 67-7402, Idaho Code, and, as context requires, the Lottery Commission and the Lottery’s officers and employees. (3-20-20)T

**05. Person.** See definition in Section 67-7702, Idaho Code. (3-20-20)T

#### 011. -- 099. (RESERVED)

### SUBCHAPTER B – OPERATIONS OF THE IDAHO STATE LOTTERY

#### 100. DEFINITIONS.

These rules apply to Subchapter B only: (3-20-20)T

**01. Administrative Costs.** See definition in Section 67-7404, Idaho Code. (3-20-20)T

**02. Benefit.** Any thing, property or money, favorable consideration or advantage, profit, privileges, gain or interest to which a person is not otherwise entitled. (3-20-20)T

**03. Certificate.** The signed document issued by the Director authorizing a retailer to sell Lottery products. (3-20-20)T

**04. Control Person.** A person in a position of authority that is primarily defined according to organizational type. The following are control persons: (3-20-20)T

**a.** In a privately-owned corporation, the officers, directors, and stockholders of the parent company who own five percent (5%) or more of the company’s stock and, if applicable, any of its subsidiaries. (3-20-20)T

**b.** In a publicly-owned corporation, the officers and directors of the parent company and each of its subsidiaries. Additionally, stockholders who own five percent (5%) or more of the corporation’s stock are control persons. (3-20-20)T

**c.** In a trust, the trustee and all persons entitled to receive income or benefit from the trust. (3-20-20)T

- d.** In an association, the members, officers, and directors. (3-20-20)T
- e.** In a partnership or joint venture, the general partners, limited partners, or joint venturers. (3-20-20)T
- f.** A member of the immediate family of any of who is a control person under Paragraphs 010.06.a. through 06.e. of this definition. (3-20-20)T
- g.** A subcontractor of a vendor if the subcontractor performs more than half of the vendor's contract with the Lottery. (3-20-20)T
- 05. Executive Staff.** The director of Lottery Security Division and the deputy directors appointed by the Director. (3-20-20)T
- 06. Expenses.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
- 07. Fiscal Year.** The Lottery's fiscal year of twelve (12) months beginning on July 1 and ending on June 30. (3-20-20)T
- 08. Gift.** A transfer, exchange or delivery of anything, property or money, of any value whatsoever, with or without an expectation by the giver to receive anything, tangible or intangible, in return. (3-20-20)T
- 09. Immediate Family.** A natural person's spouse, children, brother, sister, or parent by blood, marriage, or adoption who resides as a member of the same household in the principal place of residence of any contractor, vendor, retailer, member, or employee of the State Lottery. (3-20-20)T
- 10. Instant Game.** A game in which a ticket is purchased and upon removal of a latex or similar secure covering on the front of the ticket, the ticket bearer determines his or her winnings, if any. (3-20-20)T
- 11. Invitation to Bid.** The solicitation of competitive offers in which specifications, price, and delivery (or project completion) will be the predominant award criteria. (3-20-20)T
- 12. Lottery Contract or Contract.** Any contract entered into either by the Lottery or for the Lottery by another public agency, for the purchase, lease, or sale of goods or services. (3-20-20)T
- 13. Lottery Contractor or Contractor.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
- 14. Lottery Employee or Employee.** Any person who works full- or part-time for the Lottery. (3-20-20)T
- 15. Lottery Game or Game.** Any procedure authorized by the Commission whereby prizes are distributed among persons who have paid, or unconditionally agreed to pay, for tickets or shares which provide the opportunity to win such prizes. Lottery game themes must be approved by the Commission, be consonant with the dignity of the state. (3-20-20)T
- 16. Lottery Game Retailer or Retailer.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
- 17. Lottery Revenue.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
- 18. Lottery Vendor or Vendor.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
- 19. Low, Medium and High Tier Claims.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
- 20. Major Procurement.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
- 21. Net Income.** See definition in Section 67-7404, Idaho Code. (3-20-20)T

22. **On-Line System.** The Lottery’s on-line computer wagering system consisting of ticket issuing terminals, central processing equipment, and a communications network. (3-20-20)T
23. **Play Symbols.** The numbers or symbols appearing in the designated area under the removable covering on the front of the ticket. (3-20-20)T
24. **Prize.** Any award, financial or otherwise, awarded by the Director for successfully playing a Lottery game. (3-20-20)T
25. **Redemption Value.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
26. **Request for Proposal.** The solicitation of competitive proposals, or offers, to be used in part as a basis for making an acquisition, or entering into a contract, when specification and price will not necessarily be the predominant award criteria. (3-20-20)T
27. **Retailer Validation Code.** The symbols found under the removable rub-off covering over the play symbols on the front of each ticket. (3-20-20)T
28. **Sensitive Procurement.** Those procurement actions or contracts, other than “major procurements,” that may either directly or indirectly affect the integrity, security, honesty, and fairness of the operation and administration of the Lottery. A typical example of this class of procurement is the acquisition of security systems that protect the security and integrity of the Lottery. (3-20-20)T
29. **Share.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
30. **State Lottery Act of 1988 or Act.** The Act approved by the legislature creating the Lottery, which became effective November 23, 1988, as amended, which is codified at Title 67, Chapter 74, Idaho Code. (3-20-20)T
31. **Subcontractor.** Any third party not in the employment of a contractor, who is performing all or part of the work in the contractor’s agreement with the Lottery under a separate contract with the contractor. The term “subcontractor” means subcontractor of any tier. (3-20-20)T
32. **Temporary Retailer.** A retailer under contract with the Lottery for a temporary or seasonal period. A temporary contract may be subject to special conditions or limitations that the Director deems prudent. These limitations or conditions may include, but are not limited to: (3-20-20)T
- a. Length of ticket sale period; (3-20-20)T
  - b. Hours or days of sale; (3-20-20)T
  - c. Location of sale; (3-20-20)T
  - d. Specific persons who may sell Lottery tickets; (3-20-20)T
  - e. Specific sporting, charitable, social, or other special events where Lottery tickets may be sold. (3-20-20)T
33. **Provisional Retailer.** A retailer granted a provisional certificate in accordance with these rules. A provisional certificate may contain some or all of the restrictions of a temporary retailer and additional restrictions deemed necessary by the Director. (3-20-20)T
34. **Ticket.** See definition in Section 67-7404, Idaho Code. (3-20-20)T
35. **Ticket Bearer.** The person who has signed the ticket or has possession of the unsigned ticket. (3-20-20)T
36. **Ticket Validation Number or Validation Number.** The multidigit number found on the front of

the ticket. It is either uncovered or found underneath the “Do Not Remove” area on the ticket or any stub. (3-20-20)T

**37. Total Annual Revenue or Annual Revenue.** The sum of all of the Lottery’s proceeds and accrued income that is characterized as a reduction or recovery of expenses. (3-20-20)T

**38. Unclaimed Prize.** Any award, financial or otherwise, of more than twenty-five dollars (\$25) for which there is physical, tangible evidence of eligibility but for which the prize has not been paid within one (1) year. (3-20-20)T

**39. Value.** See definition in Section 67-7404, Idaho Code. (3-20-20)T

**101. OPERATING PROVISIONS.**

**01. Purpose.** These rules are established by the Commission to define and regulate the operation and administration of the Lottery and the Commission. (3-20-20)T

**02. Lottery Commission.** The Commission is charged with the authority and duty to regulate Lottery activities in the state of Idaho, consistent with the Idaho Constitution and the enabling legislation. The headquarters of the Commission and of the Lottery is in Boise. (3-20-20)T

**03. Powers and Duties of the Commission.** (3-20-20)T

**a. Rule Promulgation.** The Commission promulgates rules and conditions under which the statewide Lottery will be conducted. Subjects covered in such rules include but need not be limited to: (3-20-20)T

i. The types of Lottery games to be conducted; (3-20-20)T

ii. The prices of tickets in the Lottery; (3-20-20)T

iii. In general the numbers and sizes of prize disbursements, the manner and frequency of prize drawings, and the manner in which payment will be made to holders of winning tickets; (3-20-20)T

iv. The locations at which Lottery tickets may be sold, the manner in which they are to be sold, and contracting with Lottery vendors, retailers and contractors; (3-20-20)T

v. The manner in which Lottery sales revenues are to be collected; (3-20-20)T

vi. The amount of compensation to be paid to retailers; (3-20-20)T

vii. Other areas relating to the efficient and economical operation and administration of a statewide Lottery consonant with the public interest. (3-20-20)T

**b. Delegation to Director.** In addition to those duties assigned to the Director in the Act, the Commission may, insofar as is consistent with the Idaho Constitution and the Act, delegate the performance of executive or administrative functions to the Director. (3-20-20)T

**04. Time and Place of Meetings.** (3-20-20)T

**a.** Regular meetings of the Commission will be held at least quarterly; the date, time, and place will be set by the Commission and, if possible, with at least two (2) weeks’ advance notice. The Commission may meet with the Director to make recommendations and set policy, to approve or reject reports of the Director, to adopt rules, and to transact other business. (3-20-20)T

**b.** Additional meetings necessary to discharge the business of the Commission may be called from time to time by the chairman or by a quorum of the Commission. (3-20-20)T

**05. Open Meeting Law.** All meetings of the Commission will be held in accordance with Idaho’s

Open Meeting Law, Sections 67-2340, et seq., Idaho Code, and in accordance with Section 67-7442, Idaho Code. All meetings of the Commission are open to the public, except when executive session is allowed for part of the meeting under the Open Meeting Law. (3-20-20)T

**06. Director.** The Director is responsible for the operation of the Lottery and for managing the affairs of the Commission. A Deputy Director designated by the Director may act for the Director in the absence of the Director. If there is a vacancy in the office of Director, the Commission will designate the Deputy Director as Interim Director until the vacancy can be filled. (3-20-20)T

**07. Powers and Duties of the Director.** (3-20-20)T

**a.** The Director has the authority to implement and execute procedures that he may deem appropriate for the efficient administration of the Lottery. The Director may also recommend rules governing the establishment, administration, and operation of the Lottery to the Commission for its approval; (3-20-20)T

**b.** The Director is authorized to employ sufficient staff as may be required to carry out the functions of the Commission and the Lottery; (3-20-20)T

**c.** The Director may contract with retailers for the sale of Lottery games and will suspend or terminate any contract in accordance with the provisions of the Act and the rules of the Commission; (3-20-20)T

**d.** The Director will continuously study and investigate all matters pertinent to the efficient operation of the Lottery; and (3-20-20)T

**e.** The Director will maintain full and complete records of the operation of the Lottery and report on at least a monthly basis to the Commission and to the governor on the status of the Lottery. (3-20-20)T

**f.** The duties and responsibilities of the Director that are not otherwise specified in Idaho law or the rules adopted by the Commission may be maintained as a policy of the Commission for the purpose of establishing a working relationship between the Director and the Commission. (3-20-20)T

**08. Lottery Budgets and Financial Statements.** The Director must: (3-20-20)T

**a.** Submit quarterly financial statements to the Commission, the governor, the state treasurer, and the legislature. The quarterly financial statements must be prepared in accordance with generally accepted accounting principles and include a balance sheet, a statement of operations, a statement of changes in financial position, and related footnotes. The quarterly financial statements must be provided within forty-five (45) days of the last day of each quarter. (3-20-20)T

**b.** Submit annual financial statements to the Commission, the governor, the state treasurer, and each member of the legislature. The annual financial statements must be prepared in accordance with generally accepted accounting principles and must include a balance sheet, a statement of operations, a statement of changes in financial position, and related footnotes. The annual financial statements must be examined by the state controller or a firm of independent certified public accountants in accordance with generally accepted auditing standards and must be provided within ninety (90) days of the last day of the Lottery's fiscal year. (3-20-20)T

**09. Contingency Reserve.** (3-20-20)T

**a.** The Director may, with the approval of the Commission, allot from moneys available to pay administrative expenses an amount to be transferred to a contingency reserve established by the Commission. The money allotted can include amounts retained to fund specific future expenses or can be undesignated as to purpose. (3-20-20)T

**b.** When the Commission approves a contingency reserve, it must determine the amount necessary for a reasonable contingency reserve. (3-20-20)T

**c.** Upon approval of the Commission, money in the contingency reserve may be authorized to be used

for specific purposes of the Lottery or to be used to fund general administrative expenses if there is a revenue shortfall. Expenses funded from the contingency reserve cannot be included with other administrative expenses for purposes of determining compliance with current administrative expenditure limitations. (3-20-20)T

**10. Special Drawings.** (3-20-20)T

**a.** The Director may authorize special drawings to award prizes, such as vacation trips, automobiles, or other tangible items in addition to, or in lieu of, cash awards. The Director will determine the nature and number of awards for each special drawing. Special drawings for promotional awards may be held independently of the Lottery's regular prize drawings or may be incorporated therein. The promotional drawings may be cosponsored and conducted in conjunction with Lottery retailers or other independent businesses. In view of the temporary nature and indeterminate frequency of the promotional awards drawings, a press announcement and normal advertising media will be used to inform the public of the rules and prizes for each special drawing. (3-20-20)T

**b.** Notwithstanding the provisions of Paragraph 100.11.a. of this rule, the Director may, at his discretion, award in-lieu equivalent cash awards to the winners of tangible items, in those instances where the Director deems it appropriate. The value of noncash items will be estimated by using either the cost of the item or its fair-market value. (3-20-20)T

**11. Retail Drawings.** The Director and his designee may authorize retailers to conduct drawings using non-winning Lottery tickets in conjunction with a particular Lottery game. Such authorization will be in writing, specify the type of drawing to be conducted, and forth the methodology to be used in conducting the drawing. (3-20-20)T

**12. Retail Ticket Price Discounts.** (3-20-20)T

**a.** Notwithstanding the price adopted for the retail sale of a ticket in the rules for a specific Lottery game, the Commission may offer discounts for the retail sale of Lottery tickets. (3-20-20)T

**i.** Discounts for the retail sale of Lottery tickets may be offered to the public through the use of coupons approved by the Director or by any other method approved by the Director. (3-20-20)T

**ii.** Coupons that offer a discount on the retail price of Lottery tickets will be distributed using methods designed to reach the public. (3-20-20)T

**b.** Rules for a promotion conducted by the Lottery using retail ticket discounts will be published by the Director and made available at the Lottery's offices and retailer locations. (3-20-20)T

**13. Allocation of Revenues for Prizes.** (3-20-20)T

**a.** Purpose: The primary objective of the Lottery is to produce the maximum amount of net revenues to benefit the public purpose of raising revenue consonant with the dignity of the state and the sensibilities of its citizens. In accomplishing this objective, at least forty-five percent (45%) of the total annual revenues will be returned in the form of prizes. The Lottery may design and conduct games that return more than forty-five percent (45%) of the revenues received from the sale of tickets in the form of prizes as an incentive to increase the total amount of game sales over the level of sales that otherwise would have been reasonably expected using a lower prize percentage. Games may also be authorized that return less than forty-five percent (45%) of that game's revenues so long as forty-five percent (45%) of the total annual revenues is returned as prizes. (3-20-20)T

**b.** Prize payments: In addition to cash prize payments, money set aside by the Lottery and restricted for the payment of prizes is considered in satisfying the requirement of returning at least forty-five percent (45%) of total revenues to the public in the form of prizes. (3-20-20)T

**c.** Averaging game prize payments: Notwithstanding the prize structure adopted for a Lottery game, the amount of revenue returned for prizes among all the games offered by the Lottery may be reallocated so long as at least forty-five percent (45%) of the total revenue earned from all games is returned to the public in the form of prizes on an annual basis. The Director will report to the Commission on any reallocations made pursuant to Section 100 of

these rules. (3-20-20)T

**14. Ownership of Lottery Tickets.** (3-20-20)T

**a.** Except for tickets claimed jointly in accordance with the provisions of Paragraph 100.14.d. of this rule, until a name is printed or placed upon a Lottery ticket in the designated area, the ticket is owned by the bearer, who is entitled to any prize attributable to the ticket. (3-20-20)T

**b.** If more than one (1) name appears on a ticket, the ticket must be claimed in accordance with the joint ownership procedures listed in Paragraph 100.14.d. of this rule. (3-20-20)T

**c.** Groups, family units, clubs, or other organizations may claim a winning ticket if the organization possesses a Federal Employer Identification Number (FEIN) issued by the Internal Revenue Service and that number is shown on the claim form. (3-20-20)T

**d.** If a ticket is claimed to be owned by two (2) or more people, the following steps will be taken for payment of the prize: (3-20-20)T

**i.** All people claiming ownership must complete and sign a claim form and declare their percentage of the prize prior to processing the claim. After the claim form is submitted to the Lottery, the percentage cannot be amended. The percentages claimed must add up to one hundred percent (100%) of the prize. (3-20-20)T

**ii.** At least one (1) of the people claiming ownership of the ticket must sign the ticket and also sign the claim form. (3-20-20)T

**iii.** The Lottery reserves the right to issue a single prize check instead of multiple prize checks to the owners of a ticket if the value of each individual prize check would be less than fifty dollars (\$50). (3-20-20)T

**iv.** Multiple winners of a Lottery prize will be paid only through the Boise Lottery office. Lottery retailers will not be required to pay more than one (1) winner of a single prize. (3-20-20)T

**15. Claims.** (3-20-20)T

**a.** Liability. By submitting a claim, the player agrees that the state, the Commission, the Lottery and all officials, officers, and employees of each are discharged from all further liability upon payment of the prize. (3-20-20)T

**b.** Publicity. By submitting a claim, the player also agrees that the Lottery may use the prize winner's name and photograph for publicity purposes. (3-20-20)T

**c.** Claim period. Prizes may be claimed for a period of one hundred eighty (180) days after the drawing in which the prize was won or from the last day tickets from the specific instant game were sold. Prizes won through an electronic terminal are payable in accordance with the Lottery's rules. If a claim is not made for the prize within the applicable period, the prize money may be added to future prize pools, to be used in addition to prize allotments already allocated, except as provided in Section 67-7433, Idaho Code. (3-20-20)T

**d.** Invalid tickets. If a ticket presented to the Lottery is invalid pursuant to the terms of these rules or the specific game rules, the ticket is not entitled to prize payment. (3-20-20)T

**e.** Ticket a bearer instrument. A ticket is a bearer instrument until signed in the space designated on the ticket for signature. The person who signs the ticket is considered the owner of the ticket. Payment of any prize may be made to a person in possession of an unsigned ticket. All liability of the state, the Commission, the Lottery, the Director, and Lottery employees terminates upon payment. (3-20-20)T

**f.** Time of prize payment. All prizes will be paid within a reasonable time after a claim is verified by the Lottery and a winner is determined. The date of the first installment payment of any prize to be paid in installment payments is the date the claim is validated and processed, unless a different date is specified for a particular game in

these rules or in the specific game rules. Later installment payments will be made approximately weekly, monthly, or annually, from the date the claim is processed and validated in accordance with the type of prize won and the rules applicable to the prize. The Lottery may, at any time, delay any prize payment in order to review a change in circumstances concerning the prize awarded, the payee, or the claim. (3-20-20)T

**g.** Prizes payable for winner's life. If any prize is for the life of the winner, only an individual may claim and receive the prize for life. If a group, corporation, or other organization is the winner, the life of the winner is deemed to be twenty (20) years. (3-20-20)T

**16. Prizes Payable After Death of Winner.** All prizes, and portions of prizes, that remain unpaid at the time of the prize winner's death will be payable to the personal representative of the prize winner's estate once satisfactory evidence of the personal representative's appointment has been provided, and the Director is satisfied that payment to the personal representative is lawful and proper. The Director may rely on a certified copy of a court order appointing a personal representative (or similar person responsible for the prize winner's estate, whether denominated an administrator, executor, executrix, or other representative of the prize winner's estate) or may petition the court to determine the proper payee. Payment to the personal representative of the estate of the deceased owner of any prize winnings will absolve the Director and the Lottery's employees of any further liability for payment of prize winnings. (3-20-20)T

**17. Disability of Prize Winner.** The Lottery may petition any court of competent jurisdiction for a determination of the rightful payee for the payment of any prize winnings that are or may become due to a person under a disability including, but not limited to, mental deficiency, or physical or mental incapacity. (3-20-20)T

**18. Stolen or Lost Tickets.** The Lottery has no responsibility for paying prizes attributable to stolen or lost tickets. (3-20-20)T

**19. Effect of Game Rules.** In purchasing a ticket the player agrees to comply with Title 67, Chapter 74, Idaho Code, these rules, the specific game rules, Lottery instructions and procedures, and the final decisions of the Lottery. The Lottery's decisions and judgments in respect to the determination of winning tickets or any other dispute arising from the payment or awarding of prizes will be final and binding upon all participants in the Lottery. If a dispute between the Lottery and a player occurs as to whether a ticket is a winning ticket and the prize is not paid, the Lottery may, solely at the Director's option, replace the ticket with an unplayed ticket of an equivalent price from any game or refund the price of the ticket. This will be the sole and exclusive remedy of the player. (3-20-20)T

**20. Disputed Prizes.** If there is a dispute, or it appears that there may a dispute concerning payment or ownership of any prize or any other legal issue involving the prize, the Lottery may refrain from making payment of the prize pending a final determination by the Lottery or by a court of competent jurisdiction as to the proper payment of the prize. (3-20-20)T

**21. Sale of Lottery Tickets.** Lottery tickets may be sold for cash, check, money order, credit card, electronic funds transfer, or debit card. (3-20-20)T

## **102. CONFLICT OF INTEREST POLICY.**

**01. Persons Subject to Conflict of Interest Policy.** Every Commissioner, the Director, every Deputy Director, and every other Lottery officer and employee is considered a person subject to this rule on conflict of interest. If a statutory provision, rule, or policy applicable to the Lottery conflicts with Section 67-7443, Idaho Code, the more stringent provision applies. (3-20-20)T

**02. Statements For Economic Interest.** Every person listed in Subsection 110.01 of this rule, is prohibited from directly or indirectly, individually, or as a member of a partnership, or as a shareholder of a corporation, or as a participant in a joint venture or association with any other person, having an interest in dealing in a Lottery game or in the ownership or leasing of property used by or for a Lottery game. (3-20-20)T

**03. Persons Ineligible For Prizes.** Except as provided in Section 67-7440, Idaho Code, the following persons are disqualified from purchasing a Lottery ticket or share, and from receiving a Lottery prize: (3-20-20)T

- a.** Every person listed in Subsection 110.01 of this rule; (3-20-20)T
- b.** Any officer, director, or employee of any vendor of Lottery tickets or manufacturer of equipment used to determine winners in computerized Lottery games, and any of their subcontractors who may affect the security, integrity, or honesty of the Lottery; (3-20-20)T
- c.** Any Lottery contractor or consultant under agreement with the Lottery to review the Lottery's security procedures, and any other contractor or consultant that the Director deems ineligible if the Director reasonably determines that the security, honesty, and integrity of the Lottery may be adversely affected; (3-20-20)T
- d.** An immediate family member of any individual described in Paragraphs 110.03.a., 110.03.b., or 110.03.c. of this rule who is a member of the same household. (3-20-20)T
- 04. Gift Prohibitions.** (3-20-20)T
- a.** Except as provided in Paragraph 110.03.b. of this rule, every person listed in Subsection 110.01 of this rule, including members of their immediate family, are prohibited from soliciting or receiving, directly or indirectly, a gift in excess of fifty dollars (\$50) from any person who might reasonably be expected to receive a benefit from the Lottery. (3-20-20)T
- b.** In appearances before civic groups and other organizations it is permissible to accept a meal if it is offered and it is the established practice of that group or organization. (3-20-20)T
- 05. Persons Prohibited From Providing Services.** The following individuals and entities are prohibited from being a Lottery game retailer, Lottery vendor, or Lottery contractor, and shall not provide audits or study services as specified by Title 67, Chapter 74, Idaho Code: (3-20-20)T
- a.** Every person listed in Subsection 110.01 of this rule; (3-20-20)T
- b.** A member of the immediate family who is a member of the same household of any person listed in Subsection 110.01 of this rule; (3-20-20)T
- 06. Outside Activities Restricted.** (3-20-20)T
- a.** The Director, all Deputy Directors, and all full-time Lottery officers and employees are required to render full-time service to the duties of their positions. Part-time, temporary, or seasonal Lottery employees are required to render service to the extent of their employment with the Lottery and are prohibited from accepting other employment that may conflict with the integrity of the Lottery. (3-20-20)T
- b.** Except when assisting another state lottery, no Commissioner, Director, Deputy Director or other Lottery officer or employee may provide consulting or contractual services, or accept an honorarium related to his State Lottery expertise. (3-20-20)T
- c.** When assisting another state lottery, it is permissible for the other state to reimburse normal travel costs to the individual providing the service, but no honorarium or pay to the individual will be accepted. If the other state has a policy of paying for the time of another state's employee while providing assistance, the payment will be made to the State Lottery. (3-20-20)T
- d.** Nothing contained in Paragraphs 110.06.a. through 110.06.c. of this rule precludes the Lottery from negotiating contracts in which the vendor to the Lottery must bear the expense of Lottery personnel making on-site inspections of the vendor's products or manufacturing facility, auditing the vendor, or other legitimate business reasons for traveling to the vendor's place of business or site of the vendor's records, and person listed in Subsection 110.01 of this rule may engage in travel at the vendor's expense for those legitimate business purposes. Nothing contained in Paragraphs 110.06.a. through 110.06.c. of this rule prevents a Commissioner, Director, Deputy Director or other Lottery officer or employee from participating in and traveling to educational or industry related programs. Actual expenses incurred may be reimbursed by a sponsoring entity if the integrity of the State Lottery is not adversely impacted. (3-20-20)T

**07. Conduct of Commission Business.** Business transactions conducted by the Commission, the Director, Deputy Directors, and all other Lottery officers and employees with Lottery vendors should be conducted in the Lottery's offices to the maximum extent possible. (3-20-20)T

**08. Personal Conduct.** Personal conduct that is illegal or generally considered improper or brings discredit to the Lottery may be subject to appropriate disciplinary action by the Director. (3-20-20)T

**09. Use of Lottery Property.** Every person listed in Subsection 110.01 of this rule is prohibited from using any Lottery vehicle or other Lottery property for personal use, except that telephones, computers, etc., may be used for personal use in the manner ordinarily accepted in an office setting when that use does not result in additional expense to the Lottery and when that use does not contravene state policy. (3-20-20)T

**10. Signature of Conflict Policy Required.** Every person listed in Subsection 110.01 of this rule is required to sign the following conflict of interest policy as a condition of employment. "I have read and understand the pertinent Sections of Idaho Constitution Article 7, Section 10, and Title 59, Chapter 7, Idaho Code, and these conflict of interest policies."

**103. -- 199. (RESERVED)**

**200. LOTTERY CONTRACTING RULES.**

**01. Classification of Lottery Contracts.** (3-20-20)T

**a.** Lottery contracts for the acquisition of materials, supplies, services and personal and professional services are classified according to relative sensitivity, which in turn determines the level of review, procurement method and the extent of disclosure required by Lottery vendors or if no disclosure is required as in the case of Lottery contractors. The three (3) levels of procurement are as follows: (3-20-20)T

**i.** General procurements: These procurements are the least sensitive and are for materials, supplies, equipment, services and personal and professional services required to satisfy the day-to-day administrative, ministerial and operating needs of the Lottery. Disclosure filings by Lottery vendors are not normally required for this class of procurements. Lottery contractors may supply general procurement items. The Lottery may use formal invitations to bid, informal competitive quotes and requests for proposals to solicit contracts for these acquisitions, as may be determined by the Director to be the most appropriate process for a specific acquisition. (3-20-20)T

**ii.** Sensitive procurements: These procurements are of intermediate sensitivity and are for materials, supplies, equipment, services and personal and professional services which may have direct or indirect impact upon the security, credibility and integrity of the Lottery. Also included are special studies and services required by statute (demographic, communications and performance studies). The normal procedure for acquiring the materials and services is by request for proposal; however, the Director may authorize the use of competitive quotes when the cost of the acquisition is less than fifteen thousand dollars (\$15,000). The Director may prescribe special disclosure requirements governing Lottery contractors or vendors for this class of contracts. (3-20-20)T

**iii.** Major procurements: This class is the most sensitive of Lottery contracts. The Lottery Act requires these procurements to be let by the Commission and the filing of comprehensive disclosure statements by Lottery vendors. (3-20-20)T

**b.** The procedures for announcing or soliciting various classes of Lottery contracts outlined in Paragraph 200.01.a. of this rule are intended to be advisory only and do not limit the Commission or the Director in the selection of the most appropriate process to acquire a given product or service. (3-20-20)T

**02. General Policy.** (3-20-20)T

**a.** In all decisions affecting the Lottery, the Commission and Director are specifically directed by statute to take into consideration the particularly sensitive nature of the Lottery and to act in a manner to promote and insure the integrity, security, honesty and fairness of the Lottery. Additionally, the Director, in awarding contracts in response to solicitations for proposals, must award the contracts to the responsible contractor or vendor submitting the lowest and best proposal that provides maximum benefits to the state in relation to cost in the areas of security, competence, experience, timely performance, and maximization of net revenues to benefit the public purpose of the Lottery. Consistent with these statutory directives, it is the policy of the Lottery, to the extent possible, to conduct its contracting affairs in an open, competitive manner. However, the security and integrity of the Lottery are fundamental and overriding considerations in all decisions. (3-20-20)T

**b.** Although the Lottery is exempt from the provisions of Section 67-5715, Idaho Code, it is the policy of the Lottery to conduct its contracting affairs generally in accordance with the state's competitive bidding principles contained in Section 67-5715 et seq., Idaho Code, and consistent with the specific directives contained in Paragraph 200.02.a. of this rule. In implementing this policy, the Lottery reserves the right to use the procedures developed by the Department of Administration as guidelines to govern its procurement actions. Notwithstanding this reservation, the Lottery also reserves the right to use alternate contracting and purchasing practices that take account of market realities and modern or innovative contracting and purchasing methods that are also consistent with the public policy of encouraging competition. These methods may include, but are not limited to, specialized vendor prequalifications, competitive negotiations, performance incentives and disincentives, life cycle costing and solicitations emphasizing the request for proposal process. (3-20-20)T

**c.** When the Lottery uses a Request for Proposal (RFP) for a planned acquisition, the major considerations in determining the contract award will be the quality of the product or service, the likelihood of timely performance, and price. Qualitative factors normally address issues like the Vendor's demonstrated experience in performing comparable projects, performance credibility, availability of qualified personnel and equipment, and other special factors as may apply to a particular contract. The RFP will normally specify the criteria that will be used in the evaluation of offers and the award of the contract. (3-20-20)T

**d.** Because of the specialized character of Lottery contracts, the Lottery will not normally advertise bid proposals. Rather, the Lottery will circulate bid and proposal requests for materials, equipment and services to vendors known to specialize in the required procurement or to vendors that the Lottery may reasonably expect to have an interest in providing such services. The Lottery will develop its mailing lists as the service need arises. (3-20-20)T

**e.** The Director may prepare standard terms and conditions to govern the acquisition of materials, supplies and services by the State Lottery. To the extent possible, the standard terms and conditions should be as uniform as possible with the standard terms and conditions governing contracts entered into by other state agencies. (3-20-20)T

**f.** All major departures from the state contracting guidelines referred to in Paragraph 200.02.b. of this rule will be approved by the Commission. If there is a conflict between the state guidelines and the Lottery's adopted rules, the Lottery's rules take precedence. (3-20-20)T

**03. Delegation of Purchasing Authority.** (3-20-20)T

**a.** Authority is granted to the Director to initiate all purchase actions and enter into and execute contracts for materials, supplies and services, on behalf of the Commission and the Lottery, except as follows: (3-20-20)T

i. General contracts having an estimated one-time or annual cost in excess of fifty thousand dollars (\$50,000); (3-20-20)T

ii. Contracts defined as Sensitive Procurements having a one-time or annual cost of more than fifty thousand dollars (\$50,000); (3-20-20)T

iii. Contracts defined as Major Procurements; (3-20-20)T

iv. All personal service contracts other than major or sensitive procurements having a one-time or annual cost in excess of fifteen thousand dollars (\$15,000); and (3-20-20)T

v. Procurement actions which are executed in a manner other than as provided in the contract exemption guidelines. (3-20-20)T

b. Notwithstanding the provisions of Subparagraph 200.03.a.i. of this rule, the Commission, having once approved a planned procurement action involving a general contract acquisition, grants authority to the Director to execute a contract or contracts for the purchase or service without further action by the Commission. (3-20-20)T

c. The Commission, having once approved a particular contract, delegates authority to the Director to make all disbursements and payments as provided in the contract, without further, specific approval action by the Commission. (3-20-20)T

d. The Commission grants authority to the Director to enter into emergency contracts when immediate and decisive action is required to protect the security, credibility or integrity of the Lottery or a Lottery game. All emergency contracts let by the Director in which the cost exceeds the delegated authority contained in Paragraph 200.03.a. of this rule, must be reported to the Commission within five (5) days of the contract award date, or at the next scheduled Commission meeting, whichever is sooner. Such procurement actions may be taken without competitive bid. The dollar value of a contract awarded by the Director under the provisions of this section may not exceed fifty thousand dollars (\$50,000). Any emergency contract for a major procurement in which the cost exceeds fifty thousand dollars (\$50,000), if not acted upon at a regularly scheduled Commission meeting, is subject to Commission approval by telephonic or electronic vote. (3-20-20)T

**04. State Central Services Agenda.** As provided in Section 67-7408, Idaho Code, the Lottery may contract with other state agencies for the performance of contracting responsibilities that may be required by the Lottery. Those services may include, but are not limited to, the acquisition of Fidelity and Faithful Performance Bonds covering the Commissioners, officers, and employees of the Lottery; bonding of retailers, annuity contracts; general equipment and supplies; equipment financing agreements; and disposal of surplus Lottery property. The Lottery is bound by all statutes and rules governing the actions of the state agency when the Lottery uses such services. (3-20-20)T

**05. Idaho Preference.** (3-20-20)T

a. In all contracts, the Lottery will prefer goods or services that have been manufactured or produced in this state if price, fitness, availability and quality are otherwise equal. (3-20-20)T

b. Where a Lottery contract is awarded to a foreign contractor and the contract price exceeds ten thousand dollars (\$10,000), the contractor must promptly report to the Idaho Tax Commission (ITC) on forms to be provided by ITC the total contract price, terms of payment, length of contract and such other information as the ITC may require before final payment can be received on the Lottery contract. The Lottery must satisfy itself that the requirements of this Paragraph have been complied with before it issues a final payment on a Lottery contract. For the purposes of this Paragraph, a foreign contractor is one who is not domiciled in or registered to do business in Idaho. (3-20-20)T

**06. Equal Opportunity/Affirmative Action Contracts.** The Lottery is an equal opportunity employer and also participates in any on-going state affirmative action programs. (3-20-20)T

**07. Personal Services Contract.** (3-20-20)T

a. Contracts between the Lottery and persons or firms such as advertising agencies, security consultants, auditors, other consultants required to conduct or prepare special studies and reports and other personal services contracts that may be required to fulfill the Lottery's responsibilities, will be awarded as outlined in this Subsection. The award of contracts will be either direct, informal or formal depending upon the sensitivity and estimated dollar value of the contract. In awarding personal services contracts, the Lottery will consider the contractor's qualifications in similar areas of demonstrated competency, availability, experience in successfully performing comparable projects, availability of qualified personnel, likelihood of timely performance, history of cost

containment, compensation requirements and other special factors that may apply to a particular contract. (3-20-20)T

**b.** Direct Award Procedures. (3-20-20)T

i. Any personal services contract having an estimated one-time or annual value of ten thousand dollars (\$10,000) or less may be awarded directly by the Director if the Director believes reasonable steps have been taken to obtain competitive quotes, if feasible, and the award will not negatively affect the security, credibility or integrity of the Lottery. (3-20-20)T

ii. The Director, with the approval of the Commission, may directly award personal services contracts in any appropriate or reasonable amount, without competitive solicitations, when the project consists of work that has been substantially described, planned or otherwise studied in an earlier Lottery contract and the new contract would be a continuation of the earlier project, provided that the earlier contract was awarded by a formal selection procedure. In awarding contracts under this provision the Commission and Director will take into account the effects of that action on the security, credibility and integrity of the Lottery and further ensure that the contract awards will not encourage favoritism or substantially diminish competition and will result in substantial cost savings to the Lottery. (3-20-20)T

iii. The Director, with the approval of the Commission, may directly award personal service contracts without competitive solicitation when an emergency or other condition exists that requires prompt and decisive action. The Commission and Director may exercise the provisions of this Paragraph only when immediate action is required to correct a situation that would threaten integrity, security, honesty, and fairness in the operation and administration of the Lottery or the objective of raising net revenues for the benefit of the public purpose described in the Act. (3-20-20)T

**c.** Informal Award Procedure: The Director may award any personal services contract having an estimated one-time annual value of more than ten thousand dollars (\$10,000), but not more than twenty-five thousand dollars (\$25,000), if the following informal award procedure is followed: (3-20-20)T

i. An attempt is made to obtain a minimum of three (3) competitive quotes. If three (3) quotes are not available, fewer will suffice provided a written record is made of the effort to obtain three (3) quotes. (3-20-20)T

ii. A written record must be maintained of the source and amount of quotes received. (3-20-20)T

iii. The contract award will be made to the lowest priced vendor who best meets the contract award criteria of Paragraph 200.07.a. of this rule. (3-20-20)T

iv. The Director maintains work papers documenting the basis of the award to ensure that the award will not negatively affect the security, credibility and integrity of the Lottery. (3-20-20)T

**d.** Formal Award Procedures: Unless otherwise awarded under the provisions of Subparagraphs 200.07.b.ii. or 200.07.b.iii. of this rule, all personal services contracts having an estimated one-time or annual cost of more than twenty-five thousand dollars (\$25,000) must be awarded according to the formal award procedure, as follows: (3-20-20)T

i. The Lottery will distribute copies of the proposal (usually a Request for Proposal) to Lottery vendors or to appropriate contractors who have indicated an interest, or are anticipated to have an interest, in providing the required service to the Lottery. Every Request for Proposal will include a response deadline date. All responses received by the Lottery after the deadline may be rejected. (3-20-20)T

ii. The Director will appoint an evaluation panel consisting of at least four (4) persons, at least two (2) of whom are members of the Lottery's staff. The Director of Lottery Security will be one of the appointees to evaluate the responses for any project involving the security of the Lottery. (3-20-20)T

iii. The evaluation panel must develop a system to evaluate the vendor responses and score each vendor's response. Based upon this evaluation, the evaluation panel must rank the three (3) best responses and develop an award recommendation. (3-20-20)T

- iv. The contract will be awarded to the vendor who best meets the award criteria. (3-20-20)T
- e. No contract or other agreement for the purpose of providing services to the Lottery may be entered into, renewed, or extended with any person, unless the person certifies in writing, under penalty of perjury, that the person is not in violation of any Idaho tax laws on a form prescribed by the Idaho Tax Commission (ITC). A copy of the certification form may be obtained from the Lottery or the ITC. The original certification must be retained in the Lottery's contract file as required by the state's records retention guidelines. (3-20-20)T
- 08. Major Procurements.** (3-20-20)T
- a. All bid announcements, invitations, or proposals covering major procurements will identify that the planned acquisition is classified as a major procurement. (3-20-20)T
- b. All contracts or procurement actions classified as major procurements will be subject to the disclosure requirements specified in Section 67-7421, Idaho Code. Subsection 010.05 of these rules defines the term "control person" for purposes of disclosure requirements. The Lottery will enclose a copy of the disclosure requirements with each bid announcement or proposed request for such procurement. All disclosure filings are subject to the review and approval of the Director of the Lottery Security Division. Failure of any Lottery vendor to properly execute or timely submit the disclosure requirement may be grounds for rejection of the bid or proposal. (3-20-20)T
- c. No contract for a major procurement with any Lottery vendor may be entered into if any control person of that Lottery vendor has been convicted of a crime, other than traffic infractions. Background checks must be made by the Director of Lottery Security to rigorously enforce this requirement. (3-20-20)T
- d. The Lottery may prequalify Lottery vendors as having met the disclosure filing requirements for major procurements. The disclosure prequalifications may be renewed by July 1 of each year. The prequalifications will satisfy the disclosure requirements of the Act, providing a certification is received from the Lottery vendor at the time of submitting any subsequent bid, proposal or offer and that no changes have occurred in the vendor's status, or that of its control persons, since the last filing of the complete disclosure statement. (3-20-20)T
- e. Each Lottery vendor for a major procurement must maintain its disclosure filing in a current status during the tenure of the contract. Unless otherwise provided in the contract document, any changes in the status of the vendor, any of its listed control persons or additional control persons, must be reported to the Director within fourteen (14) days of the known change, and will require written submission of the same disclosure information to the Commission. (3-20-20)T
- f. Each Lottery vendor for a major procurement is required to post a performance bond with the Commission as provided in Section 67-7427, Idaho Code. The performance bond must be issued by a surety licensed to do business in this state and be for the duration specified in the procurement announcement. (3-20-20)T
- 09. Sensitive Procurements.** (3-20-20)T
- a. All bid announcements, invitations, or Requests for Proposal covering sensitive procurements as defined in Subparagraph 200.01.a.ii. of this rule will identify that the planned acquisition is a sensitive procurement and will be subject to the provisions of this rule. (3-20-20)T
- b. The Director may establish special disclosure requirements governing State Lottery contracts for sensitive procurements that will be included in the procurement announcement. Failure of any Lottery vendor or contractor to properly execute or timely submit the disclosure requirement may be grounds for rejection of the bid or proposal. All disclosure filings are subject to the review and approval of the Director of Lottery Security. (3-20-20)T
- c. No contract for a major procurement with any Lottery vendor may be entered into if any control person of that Lottery vendor has been convicted of a crime, other than traffic infractions. Background checks must be made by the Director of Lottery Security to rigorously enforce this requirement. (3-20-20)T

**d.** The Lottery may prequalify Lottery vendors as having met the disclosure requirements of this rule. The prequalification will satisfy the disclosure filing requirement providing a certification is received from the Lottery vendor, at the time of submitting any subsequent bid, proposal or offer, that no changes have occurred in the vendor's status or any of its principals since the last filing of the full disclosure statement. (3-20-20)T

**e.** Each Lottery vendor for a sensitive procurement must maintain its disclosure filing in a current status during the tenure of the contract. Unless otherwise provided in the contract document, any changes in the vendor's status or any of its principals, must be reported to the Director within fourteen (14) days of the known change, and will require written submission of the same disclosure information to the Commission. (3-20-20)T

**f.** Each Lottery contractor for a sensitive procurement may be required to post a performance bond with the Lottery. The performance bond must be issued by a surety licensed to do business in this state and be for the amount and duration specified in the procurement announcement. (3-20-20)T

**10. Advertising and Promotional Contract.** Because advertising and promotional contracts involve unique marketing strategies for Lottery games, the acquisition of these services and purchases may be made directly without using competitive procurement procedures. The prudent person rule will apply in the award of these contracts or the acquisition of these services. This exemption applies to all advertising and promotional contracts, whether placed through the Lottery's advertising agency or directly by the Commission or the Director. For the purpose of this rule, advertising and promotional contracts include but are not limited to: agreements with radio and television stations, acquisition of prizes, media selection, placement of advertising contracts, promotional printing, art work and development and placement of all forms of commercials and display presentations. (3-20-20)T

**11. Investment Contracts.** The Lottery may enter into contracts for the acquisition of structured settlements, place investments or acquire annuities related to the pay-off of major prize winners without following competitive bidding procedures. The Lottery will follow the prudent person rule in the placement of such investments. (3-20-20)T

**12. Prequalification of Annuity Vendors.** (3-20-20)T

**a.** For the purpose of acquiring annuities related to the pay-off of major prize winners, the Lottery will maintain an ongoing prequalification list of annuity vendors. A vendor must first be prequalified by the Lottery before submitting a bid to the Lottery for the award of an annuity contract. Vendors may submit their qualifications to the Lottery for evaluation any time in the year. (3-20-20)T

**b.** The following criteria must be met by each vendor before being placed on the prequalification list: (3-20-20)T

**i.** Each bidder must be an insurance company licensed to do business in Idaho and have been in business for a period of two (2) years immediately before submitting its bid. (3-20-20)T

**ii.** An insurance company must be a Best's "A+" rated company and have at least a Best's Class VII financial size classification. (3-20-20)T

**iii.** Each bidder's request for qualification must contain: (3-20-20)T

(1) The name, address, telephone number and contact person for the bidder. (3-20-20)T

(2) The current financial statement of the bidder certified by an independent certified public accountant. (3-20-20)T

(3) The names, addresses and telephone numbers of three (3) current or past annuity client references whom the Lottery may contact. (3-20-20)T

**c.** After a vendor has been prequalified, the vendor may submit bids to the Lottery in accordance with the procedures established by the Director. Furthermore, a vendor must keep its qualifications current by promptly reporting any changes in their status to the Lottery. (3-20-20)T

d. The total amount of annuities awarded to an insurance company cannot exceed five percent (5%) of its stated surplus. (3-20-20)T

e. Nothing contained in this rule will preclude a brokerage company from representing or submitting a bid on behalf of a qualified bidder. (3-20-20)T

**201. CRITERIA FOR REVIEW OF RETAILER APPLICATIONS AND CONDUCT OF OPERATIONS.**

**01. Retailer's Application.** Any person interested in obtaining a contract for a certificate to sell Lottery tickets must first file an application on forms provided by the Director. The forms will require disclosure of, but are not limited to, an applicant's personal, financial, and criminal history, and an authorization to investigate the applicant's criminal and credit history. (3-20-20)T

**02. Fees, Procedure, and Criteria Precluding Issuing Contract.** (3-20-20)T

a. All certificate applications must be accompanied by a minimum, nonrefundable, fee of twenty-five dollars (\$25). If a certificate is awarded, an additional, nonrefundable, certificate fee of one hundred dollars (\$100) must be paid. (3-20-20)T

b. A current retailer may be required to complete an additional application or application supplements. If a current retailer requests that the existing certificate be modified to allow the sale of additional Lottery products, no additional application fee will be charged. (3-20-20)T

c. The Lottery may waive the payment of any certificate fee to facilitate an experimental program or a research project. (3-20-20)T

**03. Provisional Certifications.** (3-20-20)T

a. The Lottery may issue a provisional certificate to an applicant for a Lottery certificate after receipt of a fully completed certificate application, the authorization of a complete personal background check, completion of a credit check, and completion of a preliminary background check. The provisional certificate will expire at the time of issuance of the requested certificate or ninety (90) days from the date the provisional certificate was issued, whichever occurs first, unless the provisional certificate is extended by the Lottery. (3-20-20)T

b. No contract shall be made with an applicant: (3-20-20)T

i. Who is under eighteen (18) years of age; (3-20-20)T

ii. Who will be engaged exclusively in the business of selling tickets; (3-20-20)T

iii. Who is an employee of the Lottery; (3-20-20)T

iv. Who is, or is owned or controlled or affiliated with, a supplier of instant tickets or a manufacturer of computer equipment used to operate instant or on-line games, or both; (3-20-20)T

v. Who is not a resident of Idaho, or a corporation that is not incorporated in Idaho or not authorized to do business in Idaho; (3-20-20)T

vi. Who has been found to have violated any rule, regulation, or order of the Commission or the Director; (3-20-20)T

vii. When any person, firm, association, or corporation other than the applicant will participate in the management of the affairs of the applicant. (3-20-20)T

**04. Criteria That May Be Grounds For Refusal.** Before contracting with an applicant, the Director will consider the factors set out below. In considering these factors, the Director will seek to determine which applicants will best serve the economical and efficient operation of a statewide Lottery through their ticket sales. If

any of these factors lead the Director to determine that contracting with the applicant would not promote the economical and efficient operation of a statewide Lottery consonant with the public interest, or would not serve the public interest, convenience, or trust, the Director may deny the application. (3-20-20)T

**a.** The Director will consider the financial responsibility and security of the person and the person's business or activity and consider the person's credit worthiness and integrity in past financial transactions. The Lottery may investigate the credit worthiness of the applicant by using the services of a commercial credit reporting agency. The Director may also consider the physical security of the applicant's place of business to determine whether tickets that will be sold to the applicant and the proceeds from ticket sales will be kept safe. (3-20-20)T

**b.** The Director will consider the accessibility to the public of an applicant's place of business or activity. The Director will contract only with applicants who have regular contact with significant numbers of persons at the applicant's place of business. Before contracting with any organization that has restricted membership policies, the Director must determine whether the restrictions are generally acceptable to the public and whether contracting with that group or organization or similar groups or organizations would best serve the interests of the Lottery. (3-20-20)T

**c.** The Director will consider the sufficiency of existing retailers to serve the public interest. The Director may seek to maximize total ticket sales by encouraging retailers with the highest potential volume in a particular area or neighborhood. (3-20-20)T

**d.** The Director will consider the volume of expected sales by the applicant. In determining the anticipated actual sales volume of the applicant, the Director may rely upon the experience and knowledge of the Lottery's staff as well as any other available professional expertise. The Director will determine whether the volume of an applicant's sales is likely to be sufficient that contracting with the applicant will be economically feasible. (3-20-20)T

**e.** The Director will consider the types of products, services, or entertainment offered at the applicant's place of business. The Director will determine whether the applicant's products, services, or entertainment are generally acceptable to the public and whether they would bear adversely upon the general credibility, integrity, and reputation of the Lottery. (3-20-20)T

**f.** The Director will consider the experience, character, or general fitness of the applicant. Entering into a contract with the applicant must be consistent with the public interest, convenience, and trust. (3-20-20)T

**g.** The Director will consider the veracity and completeness of the information submitted with the retailer's application. The Director will consider the criminal history of the applicant and any person whose name is required to be disclosed under Section 67-7412, Idaho Code, of the Act and may refuse to enter into a contract with any applicant when the applicant or such person has been convicted of violating any of the gambling laws of this state, general or local, or has been convicted at any time of any crime other than traffic infraction. (3-20-20)T

**05. Reporting Changes in Circumstances of The Retailer.** Every change of business structure of a certificated business, such as from a sole proprietorship to a corporation, and every change in the name of a business, must be reported to the Lottery before the change. Substantial changes in the ownership of a certificated business must also be reported to the Lottery before the change. A substantial change of ownership is defined as the transfer of ten percent (10%) or more equity in the certificated business from or to another single individual or legal entity. If a change involves the addition or deletion of one (1) or more existing owners or officers, the certificate holder must submit a certificate application reflecting the change and any other documentation that the Lottery may require. All changes will be reviewed by the Lottery to determine if the existing certificate should be continued. (3-20-20)T

**06. Certificate Not a Vested or Legal Right.** The possession of a certificate issued by the Lottery to any person to act as a retailer in any capacity is a privilege personal to that person and is not a vested or legal right. The possession of a certificate issued by the Lottery to any person to act as a retailer in any capacity does not automatically entitle that person to sell tickets or obtain materials for any particular game. (3-20-20)T

**07. Suspension or Revocation of a Certificate.** The Lottery may suspend or revoke any certificate issued pursuant to these rules for one (1) or more of the following reasons: (3-20-20)T

- a.** Failing to meet or maintain the eligibility criteria for certificate application and issuance established by Title 67, Chapter 74, Idaho Code, or these rules; (3-20-20)T
- b.** Violation of any of the provisions of Title 67, Chapter 74, Idaho Code, these rules, or the certificate terms and conditions; (3-20-20)T
- c.** Failing to file any return or report or to keep records required by the State Lottery (3-20-20)T
- d.** Failing to maintain an acceptable level of financial responsibility as evidenced by the financial condition of the business, incidents of failure to pay taxes or other debts, or by the giving of financial instruments which are dishonored; (3-20-20)T
- e.** Fraud, deceit, misrepresentation, or other conduct prejudicial to the public confidence in the Lottery; (3-20-20)T
- f.** If the public convenience is adequately served by other certificate holders, failure to sell a minimum number of tickets as established by the Lottery; (3-20-20)T
- g.** A history of thefts or other forms of losses of tickets or revenue from the business; (3-20-20)T
- h.** Violating federal, state, or local law or allowing the violation of any of these laws on premises occupied by or controlled by any person over whom the retailer has substantial control; (3-20-20)T
- i.** Obtaining a certificate by fraud, misrepresentation, concealment or through inadvertence or mistake; (3-20-20)T
- j.** Making a misrepresentation of fact to the Commission or the Lottery on any report, record, application form, or questionnaire required to be submitted to the Commission or the Lottery; (3-20-20)T
- k.** Denying the Lottery or its authorized representative, including authorized local law enforcement agencies, access to any place where a certificate activity is conducted; (3-20-20)T
- l.** Failing to promptly produce for inspection or audit any book, record, document, or other item required to be produced by law, these rules, or the terms of the certificate; (3-20-20)T
- m.** Systemically pursuing economic gain in a manner or context that is in violation of the criminal or civil public policy of this state if there is cause to believe that the participation of such person in these activities is inimical to the proper operation of the authorized Lottery; (3-20-20)T
- n.** Failing to follow the instructions of the Lottery for the conduct of any particular game or special event; (3-20-20)T
- o.** Failing to follow security procedures of the Lottery for the management of personnel, handling of tickets, or for the conduct of any particular game or special event; (3-20-20)T
- p.** Misrepresenting a fact to a purchaser, or prospective purchaser, of a ticket, or to the general public with respect to the conduct of a particular game or special event; (3-20-20)T
- q.** Allowing activities on the licensed premises that could compromise the dignity of the state. (3-20-20)T
- 08. Surrender of Certificate Upon Revocation.** Upon revocation or suspension of a retailer's certificate, the retailer must surrender to the Lottery, by a date designated by the Lottery, the certificate and all other Lottery property. (3-20-20)T
- 09. Certified Retailers.** All Lottery retailers must be certified in the manner provided in these rules. Retailers are required to abide by all applicable laws and administrative rules, the terms and conditions of the contract

and certificate, and all other directives and instructions issued by the Lottery. (3-20-20)T

**10. Requirements For The Sale of Tickets.** (3-20-20)T

**a.** Retailers must be knowledgeable about the Lottery and Lottery products and may be required to take training in the operation of Lottery games. Retailers must make the purchase of tickets convenient to the public. (3-20-20)T

**b.** Tickets must be sold at the price designated by the Lottery. Retailers cannot sell tickets for a greater amount than the amount specified by the Lottery. Retailers may sell tickets for a lesser amount for promotional purposes if authorized by the Lottery. (3-20-20)T

**c.** No retailer or any employee or member of a retailer shall attempt to identify a winning ticket before sale of the ticket. (3-20-20)T

**d.** When a retailer is required by its contract with the Lottery to pay a prize to a winner, the retailer must pay the prize whenever the winner tenders a winning ticket during the retailer's normal business hours at the location designated on the retailer's certificate. (3-20-20)T

**e.** Retailers are prohibited from purchasing tickets previously sold by the retailer. (3-20-20)T

**11. Display of Certificate and Other Materials.** Retailers must display the Lottery certificate in an area visible to the general public wherever tickets are being sold and also display point-of-sale material provided by the Lottery in a manner that is readily seen by and available to the public. Retailers may advertise and use or display other appropriate promotional and point-of-sale material. The Lottery may require the removal of objectionable material or the discontinuance of objectionable advertising that may have an adverse impact on the Lottery. (3-20-20)T

**12. Dishonored Checks and Electronic Fund Transfers.** Any payment made to the Lottery by an applicant for a certificate or by a certificated retailer either by a check that is dishonored or by an electronic funds transfer (EFT) that is not paid by the depository, is grounds for immediate denial of the application for a certificate or for suspension or revocation of an existing certificate. The Lottery may assess a surcharge for each dishonored check or EFT. The Lottery may also alter the payment terms of a retailer's certificate and require a retailer to reimburse the Lottery for costs that occur as a result of a dishonored check or EFT. (3-20-20)T

**13. Inspection of Lottery Materials and Retailer Premises.** Retailers must allow the Lottery to enter upon the retailer's certificated premises in order to inspect Lottery materials, tickets, and the premises. All books and records pertaining to the retailer's Lottery activities must be available to the Lottery for inspection and copying during the normal business hours of the retailer and between 8 a.m. and 5 p.m., Monday through Friday. All books and records pertaining to the retailer's Lottery activities are subject to seizure by the Lottery without prior notice. (3-20-20)T

**202. GENERAL INSTANT TICKET GAME OPERATING RULES.**

**01. Instant Games -- Authorized -- Director's Authority.** The Commission hereby authorizes instant games that meet the criteria set forth in these rules. The Director is hereby authorized to select, operate, and contract relating to and for the operation of instant games that meet the criteria set forth in these rules. (3-20-20)T

**02. Definitions.** As used in Section 202 of these rules, these terms have the following definitions: (3-20-20)T

**a.** Instant Ticket Validation Bar Code. The bar code that enables retailers to validate instant tickets. (3-20-20)T

**b.** ITA System. The Instant Ticket Automation system that validates winning instant tickets. (3-20-20)T

**c.** Pack. A package of instant game tickets with a designated number of tickets that may be (but do not have to be) fanfolded and attached to each other by perforations, which perforations the retailer tears when selling a ticket, and that are packaged in plastic shrink-wrapping, foil or some similar outer wrapping material. (3-20-20)T

**d.** Pack-Ticket Number. The number printed on the ticket. A game identification number must be included in the book-ticket number. (3-20-20)T

**e.** Play Symbol Caption. The small printed material appearing below each play symbol which repeats or explains the play symbol. One (1) and only one (1) play symbol captions appears under each play symbol. (3-20-20)T

**f.** Play Symbols. Figures printed in approved ink that appear under each of the rub-off spots on the front of the ticket. (3-20-20)T

**g.** Retailer Validation Code. The small letters found under the removable rub-off covering over the play symbols on the front of the ticket, which the ticket retailer uses to verify winners of twenty-five dollars (\$25) or less. The letters appear in varying locations beneath the removable rub-off covering and among the play symbols. (3-20-20)T

**h.** Ticket. An Idaho instant game ticket. (3-20-20)T

**i.** Ticket Validation Number. The unique number on the front of the ticket. (3-20-20)T

**03. Sale of Tickets.** (3-20-20)T

**a.** No person other than a retailer under a contract for the sale of tickets with the Lottery may sell Lottery tickets, except that nothing in this section prevents a person who may lawfully purchase tickets from making a gift of Lottery tickets to another. (3-20-20)T

**b.** Unless authorized by the Lottery, tickets may not be sold at a location other than the address listed on the retailer's contract with the Lottery. (3-20-20)T

**c.** Nothing in this section prohibits the Commission from designating certain of its agents and employees to sell Lottery tickets directly to the public. (3-20-20)T

**04. Instant Games Ticket Price.** The price of an instant game ticket will be set by the Director. No person may sell a ticket at a price other than that established in accordance with these rules. (3-20-20)T

**05. Prize Structures.** The Director will provide to all Lottery game retailers a detailed tabulation of the estimated number of prizes of each particular prize denomination that are expected to be awarded in each Lottery game and a close approximation of the odds of winning the prizes. (3-20-20)T

**06. Number and Value of Instant Ticket Prizes.** Lottery game prize structures, odds of winning, number of tickets, number and value of prizes, play symbol and captions used for validation will not be adopted by administrative rules. Rather, the Director will submit proposed games to the Commission, who must approve each game's general format before the initiation of each game. All instant games must be conducted in accordance with the rules of the Commission. (3-20-20)T

**07. Official Start of Game.** (3-20-20)T

**a.** Games with a prize structure adopted by the Commission pursuant to Subsection 202.07 of this rule may be started at a time selected by the Director. The Director will publicly announce the starting date of a new game by use of a press release or any other appropriate means. The Director may also issue game information that includes a description of the game, odds of winning a prize, the number and value of prizes, and the play symbols and captions used for prize validation. (3-20-20)T

**b.** Games using a prize structure other than a prize structure previously approved by the Commission

must be approved by the Commission before game tickets can be sold to the public. (3-20-20)T

**08. Determination of Winners.** (3-20-20)T

**a.** Winners of an instant game are determined by the matching or specified alignment of the play symbols on the tickets. The play symbols are revealed by scratching or rubbing off the latex or similar secure material that covers spots on the ticket. The ticket bearer must notify the retailer or the Lottery of the win and submit the winning ticket to the retailer or the Lottery as provided in these rules. The winning ticket must be validated by the Lottery through use of the validation number or by any other means specified by the Director. (3-20-20)T

**b.** Unless otherwise provided by game rules, only the highest instant prize amount will be paid on a given ticket. (3-20-20)T

**c.** No portion of the play symbol captions, retailer validation codes, display printing nor any extraneous matter whatever will be usable or playable as a part of the instant game. (3-20-20)T

**d.** The ticket validation number or any portion thereof is not a play spot and is not usable or playable as such. (3-20-20)T

**e.** In all Lottery games, the determination of prize winners is subject to the general ticket validation requirements set forth in Subsection 200.14, et seq., and Subsection 202.11 of this rule, and the requirements set out on the back of each instant game ticket. (3-20-20)T

**f.** The length of operation of an instant game will be determined by the Director. The start date and closing date of the instant game will be publicly announced. (3-20-20)T

**09. Payment of Prizes.** The procedures for claiming instant ticket prizes are as follows: (3-20-20)T

**a.** Instant ticket prizes of less than six hundred dollars (\$600) may be claimed by one (1) of the following methods: (3-20-20)T

**i.** The claimant may present the winning ticket to any Lottery retailer. The retailer must verify the claim and, if acceptable, make payment of the amount due the claimant. A retailer may pay prizes in cash or by business check, or money order, or any combination thereof. A retailer that pays a prize with a check that is dishonored may be subject to suspension or termination of the retailer's contract. (3-20-20)T

**ii.** If the retailer cannot verify the claim, the claimant must fill out a claim form and the retailer must present the completed form and the disputed ticket to the Director. If the claim is validated, a check will be forwarded to the claimant in payment of the amount due. If the claim is not validated, the claim will be denied and the claimant will be promptly notified. (3-20-20)T

**iii.** The claimant may bring the ticket to the Lottery office or complete a claim form and mail it with the ticket to the Idaho State Lottery (registered mail recommended). Claim forms may be obtained from any Lottery game retailer or from the Lottery. (3-20-20)T

**b.** To claim an instant prize of six hundred dollars (\$600) or more, the claimant must either bring the winning ticket to the Lottery office or complete a claim form and mail the completed form together with the winning ticket to the Idaho State Lottery (registered mail recommended). (3-20-20)T

**c.** Prizes of six hundred dollars (\$600) or more can be paid only from the Boise Lottery office. Upon validation by the Director, a check will be forwarded to the claimant in payment of the amount due, less any applicable federal income tax withholding. (3-20-20)T

**d.** Any ticket not passing all the validation checks is void and ineligible for any prize and will not be paid. However, the Director may, solely at the Director's option, replace an invalid ticket with an unplayed ticket (or ticket of equivalent sales price from any other current game). If a defective ticket is purchased, the only responsibility or liability of the Lottery is the replacement of the defective ticket with another unplayed ticket (or ticket of

equivalent sale price from any other current game). (3-20-20)T

e. All prizes will be paid within a reasonable time after they are awarded and after the claims are verified by the Director. For each prize requiring annual payments, all payments after the first payment will be made on the anniversary date of the first payment in accordance with the type of prize awarded. The Director may, at any time, delay any payment in order to review a change of circumstances concerning the prize awarded, the payee, the claim, or any other matter that may have come to his attention. All delayed payments will be brought up to date immediately upon the Director's confirmation and continue to be paid on each original anniversary date thereafter. (3-20-20)T

**10. Ticket Validation Requirements.** In addition to meeting all of the other requirements in these rules or as may be printed on the back of each instant game ticket, the following validation requirements apply with regard to instant game tickets: (3-20-20)T

- a. To be a valid instant game ticket, the ticket must: (3-20-20)T
  - i. Have been issued by the Director in an authorized manner. (3-20-20)T
  - ii. Not be altered, unreadable, or tampered with in any manner. (3-20-20)T
  - iii. Not be counterfeit in whole or in part. (3-20-20)T
  - iv. Not be stolen nor appear on any list of omitted tickets on file with the Lottery. (3-20-20)T
  - v. Be complete and not blank (or partially blank), miscut, misregistered, defective, or printed or produced in error. (3-20-20)T

vi. Under the opaque covered play area, have play symbols and the correct corresponding captions, exactly one (1) pack-ticket number, exactly one (1) agent verification code, and exactly one (1) validation number as required by each approved set of game rules, all of which must be present in their entirety, legible, right-side up, and not reversed in any manner. (3-20-20)T

vii. The validation number of an apparent winning ticket must appear on the Lottery's official list of validation numbers of winning tickets; and a ticket with that validation number cannot have been previously paid. (3-20-20)T

viii. Pass all additional confidential validation requirements established by the Director. (3-20-20)T

ix. Be signed if the prize is for six hundred dollars (\$600) or more. (3-20-20)T

b. Any ticket not passing all the validation checks in Paragraph 202.11.a. of this rule is void and ineligible for any prize and shall not be paid. However, the Director may, solely at the Director's option, replace an invalid ticket with an unplayed ticket (or tickets of equivalent sales price) from any other current Lottery game. If a defective ticket is purchased, the only responsibility or liability of the Lottery will be the replacement of the defective ticket with another unplayed ticket (or ticket of equivalent sales price from any other current Lottery game). (3-20-20)T

c. The Director may authorize reconstruction of an alleged winning ticket that was not received or cannot be located by the Lottery, provided, the person requesting reconstruction must submit to the Lottery sufficient evidence to enable reconstruction and submit a claim for the prize, if any, for that ticket. If the reconstructed ticket is a winning ticket and meets the validation requirements of Paragraph 202.11.a. of this rule and any specific validation requirements contained in the rules for its specific game, the Director may authorize payment of the prize. Provided, the ticket will not be validated nor the prize paid before the one hundred eighty-first (181) day following the official end of that instant game. A ticket(s) validated pursuant to this Subsection will not entitle the claimant to be entered into the grand prize drawing, if any, for that or any subsequent instant game. (3-20-20)T

**11. Prize Rights Unassignable.** No person's right to a prize already drawn is assignable, except that payment of any prize already drawn may be paid to the estate of a deceased prize winner, and a person other than the

prize winner may be paid the prize to which the winner is entitled as provided by court order. The Director will be discharged of all liability upon payment of a prize pursuant to this rule. (3-20-20)T

**12. Payment of Prizes to Persons Under Eighteen Years of Age.** If a person entitled to a prize for a winning ticket is under the age of eighteen (18) years, the Director may direct payment of the prize to an adult member of the minor's family or to the minor's guardian by a check or draft payable to the adult member of the minor's family or the minor's guardian. The adult member of the minor's family or the minor's guardian will have the same duties and powers as a person designated as a custodian in accordance with Idaho law. For purposes of this Subsection, the terms "adult member of a minor's family" and "guardian of a minor" have the same meaning as in the Idaho Gifts to Minors Law. The Director will be discharged of all liability upon payment of a prize to a minor pursuant to this rule. (3-20-20)T

**13. Prizes Payable After Death or Disability of Owner.** (3-20-20)T

**a.** All prizes, and portions of prizes that remain unpaid at the time of the prize winner's death will be payable to the personal representative of the prize winner's estate once satisfactory evidence of the personal representative's appointment has been provided, and the Director is satisfied that payment to the personal representative is lawful and proper. The Director may rely on a certified copy of a court order appointing a personal representative (or similar person responsible for the prize winner's estate, whether denominated an administrator, executor, executrix, or other representative of the prize winner's estate) or may petition the court to determine the proper payee. Payment to the personal representative of the estate of the deceased owner of any prize winnings will absolve the Director and the Lottery's employees of any further liability for payment of prize winnings. (3-20-20)T

**b.** The Lottery may petition any court of competent jurisdiction for a determination of the rightful payee for the payment of any prize winnings that are or may become due to a person under a disability including, but not limited to, mental deficiency, or physical or mental incapacity. (3-20-20)T

**14. Governing Law.** In purchasing a ticket, the customer agrees to comply with, and abide by, Idaho law, and all rules and final decisions of the Lottery, and all procedures and instructions established by the Lottery or the Director for the conduct of the game. (3-20-20)T

**15. Discharge of All Liability Upon Payment.** The state of Idaho, its agents, officers, employees, and representatives, the Lottery, its Director, agents, officers, employees and representatives, will be discharged of all liability upon payment of a prize or any one (1) installment thereof to the holder of any winning Lottery ticket or in accordance with the information set forth on the claim form supplied by the Director. If there is a conflict between the information on a winning Lottery ticket and the information on the claim form, the Lottery may rely on the claim form after the ticket for which it has been filed has been validated as a winning ticket and, in so doing, it will be relieved of all responsibility and liability in the payment of a prize in accordance with the information set forth therein. The Lottery's decisions and judgments in respect to the determination of a winning ticket or of any other dispute arising from payment or awarding of prizes are final and binding upon all participants in the Lottery unless otherwise provided by law or these rules. If a question arises concerning the winning ticket, a claim form, the payment, or the awarding of any prize, the Lottery may deposit the prize winnings into an escrow fund until it determines the controversy and reaches a decision, or it may petition a court of competent jurisdiction for instructions and a resolution of the controversy. (3-20-20)T

**16. Unclaimed Prize Money.** Any prize not claimed within the specified period will be forfeited and placed into the State Lottery Account. (3-20-20)T

**17. Disclosure.** The Lottery may use the names, addresses, and photographs of winners in any Lottery promotional or publicity campaign. The address used will not contain the winner's street or house number without the winner's consent. The Lottery may condition payment of the prize upon agreement to these terms and conditions. (3-20-20)T

**18. Confidentiality of Tickets.** All retailers and their employees and agents are prohibited from attempting to ascertain the numbers or symbols appearing in the designated areas under the removable latex or similar secure coverings or otherwise attempting to identify winning tickets. (3-20-20)T

**19. Official End of Game.** (3-20-20)T

**a.** The official end of an instant game will be announced by the Lottery. Prizes may be claimed up to one hundred eighty (180) days after the official end of the game. If the final day of the claim period falls on a Saturday, Sunday or a state holiday, the claim period will be extended to the end of the next business day. A player may submit a winning ticket claim for prize payment up to one hundred eighty (180) days after the official end of the game. Depending on the prize amount, the ticket should be submitted to the location specified in Subsection 202.10 of this rule, "Payment of Prizes." To participate in one (1) of the Lottery's special drawings, if any, a player must redeem a ticket that qualifies for entry into that special drawing within the time limits specified by the Director. (3-20-20)T

**b.** A retailer must return to the Lottery all unsold Lottery tickets for each game within ninety (90) days of the official end of that game in order to receive credit from the Lottery as provided in retailer's contract. The Lottery has no obligation to grant credit for tickets returned after the time limit specified in the contract. (3-20-20)T

**203. (RESERVED)**

**204. ON-LINE COMPUTER GAMES.**

**01. On-Line Games -- Authorized -- Director's Authority.** The Commission hereby authorizes the Director to select and operate on-line games which meet the criteria set forth in these rules. (3-20-20)T

**02. Definitions.** As used in Rule 204 these terms have the following definitions: (3-20-20)T

**a.** "Drawing." The procedure determined by the Director by which the Lottery selects the winning combination in accordance with the rules of the game. Drawings are open to the public. (3-20-20)T

**b.** "On-line Game." (3-20-20)T

**i.** A Lottery game in which a player selects a combination of numbers or symbols, the type of game and amount of play, and the drawing date by use of a computer. In return for paying the appropriate price, the player receives a computer-generated ticket with the player's selection printed on it. Each ticket bearer whose valid ticket includes a winning combination will be entitled to a prize if claim is submitted within the specified time period. (3-20-20)T

**ii.** On-line terminal (OLT) instant ticket game having characteristics as defined in Paragraphs 202.02.a., 202.02.b., 202.02.d. and 202.02.i. of these rules. (3-20-20)T

**c.** "On-line Retailer." A person or business authorized by the Lottery to sell on-line tickets. (3-20-20)T

**d.** "On-line Terminal (OLT)." The computer hardware by which an on-line retailer or player enters the combination selected by the player and by which on-line tickets are generated and claims are validated. (3-20-20)T

**e.** "On-line Ticket." A computer-generated ticket issued by an on-line terminal to a player as a receipt for the combination a player has selected. That ticket is the only acceptable evidence of the combination of numbers or symbols selected. (3-20-20)T

**f.** "Ticket Bearer." The person who has signed the on-line ticket or who has possession of an unsigned ticket. (3-20-20)T

**g.** "Validation." The process of determining whether an on-line ticket presented for payment is a winning ticket. (3-20-20)T

**h.** "Winning Combination." One (1) or more numbers or symbols randomly selected by the State Lottery or its designee in a public drawing. (3-20-20)T

- 03. Distribution of Tickets.** (3-20-20)T
- a.** Tickets will be sold by retailers selected by the Director. (3-20-20)T
- b.** The Director is authorized to arrange for the distribution of OLTs, player-activated terminals (PATs), ticket stock, and supplies to certificated retailers. (3-20-20)T
- 04. Sale of Tickets.** (3-20-20)T
- a.** No person other than a retailer under a contract for the sale of tickets with the Lottery may sell on-line Lottery tickets, except that nothing in this section will be construed to prevent a person who may lawfully purchase tickets from making a gift of Lottery tickets to another. (3-20-20)T
- b.** Tickets may not be sold at a location other than the address listed on the retailer's contract with the Lottery. (3-20-20)T
- c.** Nothing in this section prohibits the Director from designating certain of its agents and employees to sell Lottery tickets directly to the public. (3-20-20)T
- 05. On-Line Games Criteria.** (3-20-20)T
- a.** The base price of an on-line ticket will not be less than fifty cents (\$.50), except to the extent of discounts authorized by the Commission. (3-20-20)T
- b.** The price for a ticket in any particular on-line game will be set out in the game rules adopted by the Commission for that game. No person may sell a ticket at a price other than that established in accordance with these rules. On the average, the total of all prizes available to be won in an on-line game will not be less than forty-five percent (45%) of the on-line game's projected revenue. (3-20-20)T
- c.** The manner and frequency of drawings may vary with the type of on-line game as defined in Subparagraph 204.02.b.i. of these rules. (3-20-20)T
- d.** The times, locations, and drawing procedures will be determined by the Director. (3-20-20)T
- e.** OLT instant ticket game as defined in Subparagraph 204.02.b.ii. of these rules will operate with a finite number of tickets per game and a predetermined and guaranteed prize structure approved by the Director. (3-20-20)T
- f.** A ticket bearer entitled to a prize must submit the winning ticket as specified by the Director. The winning ticket must be validated by the Lottery or an on-line retailer through use of the validation number and any other means specified by the Director. (3-20-20)T
- 06. Payment of Prizes.** (3-20-20)T
- a.** To claim an on-line game prize of less than six hundred dollars (\$600) the claimant may present the winning on-line ticket to any on-line retailer, or to the Lottery office: (3-20-20)T
- i.** If the claim is presented to an on-line retailer, the on-line retailer must validate the claim and, if determined to be a winning ticket, pay the amount due the claimant. If the on-line retailer cannot validate the claim, the claimant may obtain and complete a claim form and submit it with the disputed ticket to the Lottery by mail or in person. Upon determination that the ticket is a winning ticket, the Lottery will present or mail a check to the claimant in payment of the amount due. If the ticket is determined to be a non winning ticket, the claim will be denied and the claimant will be promptly notified. Non-winning tickets will not be returned to the claimant. (3-20-20)T
- ii.** If the claim is presented to the Lottery office, the claimant will be required to complete a claim form and submit it with the winning ticket, either by mail or in person. Upon determination that the ticket is a winning ticket, the Lottery will present or mail a check to the claimant in payment of the amount due, less any

withholding required by the Internal Revenue Code. If the ticket is determined to be a non-winning ticket, the claim will be denied and the claimant will be promptly notified. Non-winning tickets will not be returned to the claimant. (3-20-20)T

**b.** To claim an on-line prize of six hundred dollars (\$600) or more, the claimant must obtain and complete a claim form and submit it with the winning ticket to the Lottery office by mail or in person. Prizes of six hundred dollars (\$600) or more can be paid only from the Lottery office. Upon determination that the ticket is a winning ticket, the Lottery will present or mail a check to the claimant in payment of the amount due, less any withholding required by the Internal Revenue Code and the state of Idaho. The amount due will be calculated according to the rules adopted for the particular on-line game. If the ticket is determined to be a non-winning ticket, the claim will be denied and the claimant will be promptly notified. Non-winning tickets will not be returned to the claimant. (3-20-20)T

**c.** All prizes must be claimed within one hundred eighty (180) days from the drawing in which the prize was won. If the final day of the one hundred eighty (180) day period falls on a Saturday, Sunday or a state holiday, the claim period will be extended to the end of the next business day. Any prize not claimed within the specified period will be forfeited and placed into the State Lottery account. (3-20-20)T

**07. Drawings and End of Sales Prior to Drawings.** (3-20-20)T

**a.** Drawings will be conducted in a location and at days and times designated by the Director. (3-20-20)T

**b.** For each type of on-line game, the Director will establish a time before the drawing for the end of sales. (3-20-20)T

**c.** The Director will designate the type of equipment to be used and will establish procedures to randomly select the winning combination for each type of on-line game. Drawing procedures will include provisions for the substitution of backup drawing equipment if the primary drawing equipment malfunctions or fails for any reason. (3-20-20)T

**d.** The equipment used to determine the winning combination will not be electronically or otherwise connected to the central computer or to any tapes, discs, files, etc., generated or produced by the central computer. The drawing results, including sales, number of winners and numbers drawn, will be audited and reviewed after each drawing to assure proper operation and lack of tampering or fraud. (3-20-20)T

**e.** All drawings may be broadcast live on television, provided the facilities for such broadcasts are available and operational and can be done at a reasonable cost. (3-20-20)T

**f.** The Director will establish procedures governing the conduct of drawings for each type of on-line game. The procedures must include provisions for deviations that include but are not limited to: (3-20-20)T

**i.** Malfunction of the drawing equipment before determination of the winning combination; (3-20-20)T

**ii.** Fouled drawing; (3-20-20)T

**iii.** Delayed drawing; and (3-20-20)T

**iv.** Other equipment, facility or personnel difficulties. (3-20-20)T

**g.** If a deviation occurs, the drawing will be completed under the supervision of the Lottery or its designee. The winning combination will be provided to the public. (3-20-20)T

**h.** If, during any live-broadcast drawing for a game, a mechanical failure or operator error causes an interruption in the selection of all numbers or symbols, a "foul" will be called by Lottery security or the Lottery's designee. Any number drawn before a "foul" is called will stand and be deemed official after passing inspection and

certification by Lottery security or the Lottery's designee. (3-20-20)T

**i.** The Director will delay payment of all prizes if any evidence exists or there are grounds for suspicion that tampering or fraud has occurred. Payment will be made after an investigation is completed and the drawing approved by Lottery security or the Lottery's designee. If the drawing is not approved, it will be void and another drawing will be conducted to determine the actual winner. (3-20-20)T

**08. Validation Requirements.** (3-20-20)T

**a.** To be a valid winning on-line ticket, the ticket must: (3-20-20)T

**i.** Have all printing on the ticket in its entirety, be legible, and correspond, using the computer validation file, to the combination and the date printed on the ticket. (3-20-20)T

**ii.** Be intact, not be mutilated, altered, or tampered with in any manner. (3-20-20)T

**iii.** Not be counterfeit or an exact duplicate of another winning ticket. (3-20-20)T

**iv.** Have been issued by an authorized on-line retailer or dispensed by a player-activated terminal in an authorized manner. (3-20-20)T

**v.** Not have been stolen or cancelled. (3-20-20)T

**vi.** Not have been previously paid. (3-20-20)T

**vii.** Pass all other confidential security checks of the Lottery. (3-20-20)T

**viii.** Be signed if the prize is for six hundred dollars (\$600) or more. (3-20-20)T

**b.** A ticket failing any of the validation requirements listed in Paragraph 204.08.a. of this rule is invalid and ineligible for a prize. The final decision on whether a prize is paid will be made by the Director. (3-20-20)T

**c.** If there is a dispute between the Director and a claimant whether a ticket is a winning ticket, and if the Director determines that the ticket is not valid and a prize is not paid, the Director may replace the disputed ticket with a ticket of equivalent sales price for a future drawing of the same type of game. This will be the sole and exclusive remedy of the claimant. (3-20-20)T

**d.** If a defective on-line ticket is purchased, the only responsibility or liability of the Lottery or of the on-line retailer is the replacement of the defective on-line ticket with another on-line ticket of equivalent value for a future drawing of the same type of game. (3-20-20)T

**09. Retailer Duties.** Retailers with an on-line terminal (OLT) must perform the following duties: (3-20-20)T

**a.** Pay costs associated with providing a telephone line or internet or similar connection that must be located as specified by the Lottery. Payment of the telephone line or internet or similar connection is nonrefundable after installation, except if the Lottery denies, through no fault of retailer, the installation of the on-line terminal. (3-20-20)T

**b.** Pay the Lottery for the local monthly telephone or internet or similar charges per OLT as specified by the Lottery. The Lottery will pay for the mileage charges (if any) between the retailer's location and the Lottery's central site. (3-20-20)T

**c.** Hold funds generated from the sale of on-line tickets in trust for the Lottery. At a time specified by the Lottery, the retailer must pay these funds to the Lottery plus the monthly communications charge specified above in Paragraph 204.09.b. of this rule, less: (3-20-20)T

- i. Prizes paid; (3-20-20)T
- ii. Any credit; and (3-20-20)T
- iii. The retailer discount. (3-20-20)T
- d.** Locate the OLT within the retailer's premises at a point-of-sale location approved by the Lottery. The retailer is prohibited from moving an OLT unless the retailer follows the procedures established by the Director, including reimbursing the State Lottery for any telephone or internet or similar charges associated with the change of OLT location if the retailer requested the change. (3-20-20)T
- e.** Provide dedicated AC power to within approximately five (5) feet of the terminal. Dedicated AC power means that there is no other equipment on the line that is to be used for the on-line terminal. The retailer is responsible for all costs associated with providing dedicated AC power. The Lottery will provide a schematic of outlet requirements to the retailer's electrical contractor. (3-20-20)T
- f.** Sell all Lottery games, including but not limited to instant game tickets offered by the Lottery. The retailer agrees to continue the sale of instant tickets from all cash registers or other points of purchase. (3-20-20)T
- g.** Conduct the sale of on-line tickets during all hours and days that the retailer's business is open and the on-line system is functioning. The retailer must post the hours that redemption of winning tickets may take place if these hours are different from the retailer's normal business hours. The retailer must monitor ticket supply levels and give timely notice when any item is in short supply. (3-20-20)T
- h.** Post winning numbers prominently where tickets are sold as soon as possible following the drawing. (3-20-20)T
- i.** Provide secure storage for OLT supplies and a secure area for the OLT. (3-20-20)T
- j.** Exercise due diligence in the operation of the OLT and immediately notify the Lottery and the central computer facility of any telephone line, internet, radio, or OLT malfunction, such as the issuance of invalid on-line Lottery ticket, inability to sell or redeem an on-line ticket, and non-issuance of an on-line ticket. The retailer is prohibited from performing mechanical or electrical maintenance on the OLT. (3-20-20)T
- k.** Replace ribbons and on-line or instant ticket stock and clear paper jams as required for the OLT per the instructions provided by the Lottery. (3-20-20)T
- l.** Pay, without reimbursement, all electricity charges in connection with the operation of OLT. (3-20-20)T
- 10. Payment of Prizes by On-Line Retailers.** (3-20-20)T
  - a.** An on-line retailer must pay to the ticket bearer on-line games prizes of less than six hundred dollars (\$600) for any validated claims presented to that on-line retailer. These prizes must be paid during all normal business hours of the on-line retailer, unless redemption hours differ from normal business hours that have been posted pursuant to Paragraph 204.09.g. of this rule, provided, that the on-line system is operational and claims can be validated. (3-20-20)T
  - b.** An on-line retailer may pay prizes in cash or by business check, certified check, money order, or any combination thereof. An on-line retailer that pays a prize with a check that is dishonored may be subject to suspension or termination of its contract. (3-20-20)T
- 11. Retailer Settlement.** (3-20-20)T
  - a.** On-line retailers must establish an account for deposit of monies derived from on-line games with a financial institution that has the capability of electronic funds transfer (EFT). (3-20-20)T

**b.** The amount deposited must be sufficient to cover monies due the Lottery. The Lottery will withdraw by EFT the amount due the Lottery on the day specified by the Director. If the day specified for withdrawal falls on a state holiday, withdrawal may be delayed until the next business day. (3-20-20)T

**12. Prize Rights Unassignable.** No right of any person to a prize drawn is assignable, except that payment of any prize drawn may be paid to the estate of a deceased prize winner, and that any person may be paid the prize to which the winner is entitled pursuant to an appropriate judicial order. The Director will be discharged of all liability upon payment of a prize pursuant to this rule. (3-20-20)T

**13. Payment of Prizes to Persons Under Eighteen Years of Age.** If a person entitled to a prize for a winning ticket is under the age of eighteen (18) years, the Director may direct payment of the prize to an adult member of the minor's family or to the minor's guardian by a check or draft payable to the adult member of the minor's family or to the minor's guardian. The adult member of the minor's family or the minor's guardian will have the same duties and powers as a person designated as a custodian in accordance with Idaho Law. For purposes of this Subsection the terms "adult member of a minor's family" and "guardian of a minor" have the same meaning as in the Idaho Gifts to Minors Law. The Director will be discharged of all liability upon payment of a prize to a minor pursuant to this rule. (3-20-20)T

**14. Prizes Payable After Death or Disability of Owner.** (3-20-20)T

**a.** All prizes, and portions of prizes, that remain unpaid at the time of the prize winner's death will be payable to the personal representative of the prize winner's estate once satisfactory evidence of the personal representative's appointment has been provided, and the Director is satisfied that payment to the personal representative is lawful and proper. The Director may rely on a certified copy of a court order appointing of a personal representative (or similar person responsible for the prize winner's estate, whether denominated an administrator, executor, executrix, or other representative of the prize winner's estate) or may petition the court to determine the proper payee. Payment to the personal representative of the estate of the deceased owner of any prize winnings will absolve the Director and the Lottery's employees of any further liability for payment of prize winnings. (3-20-20)T

**b.** The Lottery may petition any court of competent jurisdiction for a determination of the rightful payee of any prize winnings that are or may be due to a person under a disability including, but not limited to, minority, mental deficiency, physical or mental incapacity. (3-20-20)T

**15. Discharge of State Lottery Upon Payment.** The state of Idaho, its agents, officers, employees and representatives, the Lottery, its Director, agents, officers, employees and representatives are discharged of all liability upon payment of a prize or any one (1) installment thereof to the holder of any winning Lottery ticket or in accordance with the information set forth on the claim form supplied by the Director. If there is a conflict between the information on a winning Lottery ticket and the information on the claim form, the Lottery may rely on the claim form after the ticket for which it has been filed has been validated as a winning ticket and, in so doing, it will be relieved of all responsibility and liability in the payment of a prize in accordance with the information set forth therein. The Lottery's decisions and judgments in respect to the determination of a winning ticket or of any other dispute arising from payment or awarding of prizes will be final and binding upon all participants in the Lottery unless otherwise provided by law or these rules. If a question arises concerning the winning ticket, a claim form, the payment, or the awarding of any prize, the Lottery may deposit the prize winnings into an escrow fund until it determines the controversy and reaches a decision, or it may petition a court of competent jurisdiction for instructions and a resolution of the controversy. (3-20-20)T

**16. Disclosure.** The Lottery may use the names, addresses, and photographs of winners in any Lottery promotional or publicity campaign. The address used will not contain the winner's street or house number without the winner's consent. The Lottery may condition payment of the prize upon agreement to these terms and conditions. (3-20-20)T

**205. BREAKOPEN INSTANT TICKET GAMES.**

The Commission hereby authorizes the Director to select and operate breakopen instant ticket games that meet the criteria set forth in these rules. (3-20-20)T

- 01. Definitions.** As used in Section 205 of these rules, these terms have the following definitions: (3-20-20)T
- a.** “Authorized Dispensing Device” means any machine, or mechanism designed for use of vending or dispensing of breakopen instant tickets. These devices may include mechanical, electrical, electro-mechanical or other devices approved by the Director of the Lottery pursuant to Section 100 of these rules. (3-20-20)T
  - b.** “Box” means a group of breakopen instant tickets with the same unique serial number. (3-20-20)T
  - c.** “Breakopen Instant Ticket” means a single folded or banded ticket or a card, the face of which is initially covered or otherwise hidden from view to conceal numbers or symbols, or both, a few of which numbers or symbols have been designated in advance and at random as prize winners when, for the opportunity to obtain each such folded or banded ticket or card, view the numbers or symbols thereon and possibly obtain a prize, a person pays an established price to a breakopen instant ticket retailer. (3-20-20)T
  - d.** “Breakopen Instant Ticket Game” means a group of breakopen instant ticket boxes with the same thematic design and prize structure. (3-20-20)T
  - e.** “Breakopen Instant Ticket Retailer” means any person who has been approved, certified and contracted with by the Lottery to sell breakopen instant tickets. (3-20-20)T
  - f.** “Breakopen Instant Ticket Vendor” means any person who produces and provides breakopen instant tickets to the Lottery. (3-20-20)T
  - g.** “Distributor” means any person who purchases or otherwise obtains authorized dispensing devices for use in breakopen instant ticket games from any person and sells or otherwise furnishes such device to another person for the resale of or the display or operation of that device. (3-20-20)T
    - i.** As used in these rules, the term “distributor” includes a person who services and repairs authorized dispensing devices, so long as the person performing such servicing or repairs is approved by the distributor or distributor’s representative, and makes no addition to, or modification or alteration of, the authorized device. (3-20-20)T
    - ii.** A manufacturer who sells or otherwise furnishes authorized dispensing devices not manufactured by him to any other person for resale or for display or operation of that authorized device is also a “distributor.” (3-20-20)T
  - h.** “Distributor’s Representative” means any individual who represents a distributor in any of the distributor’s activities in connection with the sale or furnishing of authorized dispensing device for use in breakopen instant ticket activities. (3-20-20)T
  - i.** “Flare” means a vendor-provided informational sign that, at a minimum, displays the prize structure, the serial number of the sleeve in play, the odds of winning a prize, and the price of the ticket. (3-20-20)T
  - j.** “Manufacturer” means any person who assembles from raw materials or subparts a completed authorized dispensing device or pieces of the authorized device for use in breakopen instant ticket activities and who sells or otherwise furnishes the same to any distributor or retail outlet. (3-20-20)T
  - k.** “Manufacturer’s representative” means any person who represents a manufacturer in any one of the manufacturer’s activities in connection with the sale or furnishing of authorized dispensing device for use in breakopen instant ticket activities. (3-20-20)T
  - l.** “Sleeve” is a portion of a box; and is the smallest unit offered. (3-20-20)T
- 02. Breakopen Instant Ticket Special Inspection.** The Director or authorized representative has the authority to select any breakopen instant ticket sleeve and examine the quality and integrity of the sleeve in any

manner, including pulling all chances remaining thereon: Provided, that if the sleeve so inspected is thereby altered by such inspection in any manner and no defect, alteration, deceptive condition, or other violation is discovered, then the owner shall be reimbursed by the Lottery at the owner's cost for the sleeve or portion thereof, and the sleeve will become the property of the Lottery. Provided further, that for each sleeve inspected which is found to be defective in any area related to a vendor's quality control deficiency, a fee may be assessed by the Director against the vendor of the breakopen instant ticket. (3-20-20)T

**03. Breakopen Instant Ticket Operation.** (3-20-20)T

**a.** No person under the age of eighteen (18) years is allowed to play or sell any breakopen instant tickets. It is the responsibility of the retailer to determine that no unauthorized person is allowed to play or sell breakopen instant tickets. (3-20-20)T

**b.** No retailer is permitted to display or operate any breakopen instant ticket that has in any manner been marked, defaced, tampered with or otherwise placed in a condition, or operated in a manner, that may deceive the public or that affects the chances of winning or losing upon the taking of any chance thereon. (3-20-20)T

**c.** All records, reports, receipts and any unsold tickets relating to a breakopen instant ticket sleeve must be retained on the retailer's premises at least ninety (90) days after the sleeve is removed from play and be made available on demand to representatives of the Idaho Lottery. (3-20-20)T

**04. Breakopen Instant Ticket Price per Play to Be Posted.** No breakopen instant ticket sleeve may be placed for public play unless the cost to the player for each ticket is clearly posted on the flare. The price per ticket will be determined by the Director. (3-20-20)T

**05. Claiming of Prizes.** Prizes must be redeemed on the same day as purchased at the location where the winning ticket was purchased, and prizes will be awarded in cash or by check. (3-20-20)T

**06. Limitation on Breakopen Instant Ticket Dispensing.** No ticket once placed in an authorized dispensing device out for public play may be removed from the authorized device until the sleeve is permanently removed from public play, except only: (3-20-20)T

**a.** Those tickets actually played by players; (3-20-20)T

**b.** Those tickets removed by representatives of the Lottery inspecting the device or sleeve; and (3-20-20)T

**c.** Those tickets temporarily removed during necessary repair or maintenance of the device. Excepting only tickets removed under Paragraphs 205.06.b. and 205.06.c. of this rule, once a ticket has been removed from public play it cannot again be put out for public play. (3-20-20)T

**07. All Devices Must Comply With Requirements.** No retailer may display or put out for play, and no distributor or manufacturer or their representatives may sell or otherwise furnish any device for the dispensing of breakopen instant tickets, unless the device is approved for use by the Director, thereby making it an authorized device. (3-20-20)T

**a.** No person may sell or transfer to another person in this state or for use within this state, nor shall place out for public play, any device for the dispensing of breakopen instant tickets that is not constructed to allow a consumer to clearly see each ticket within the device before playing the device. (3-20-20)T

**b.** No person may put out for public play any device for the dispensing of breakopen instant tickets that is not constructed to provide for at least one (1) sleeve in play in the device. (3-20-20)T

**c.** No person may put out for public play any device for the dispensing of breakopen instant tickets that is designed, used, or constructed, in a manner that detracts from the breakopen instant tickets or that is deceptive in any way, as determined by the Director. (3-20-20)T

**08. Breakopen Instant Ticket Series Assembly and Packaging.** Vendors of breakopen instant ticket games must manufacture, assemble and package each game sleeve in a manner that none of the winning tickets, nor the location or approximate location of any of the winning tickets, can be determined in advance of opening the tickets. All breakopen instant ticket games must be approved and will be distributed and sold exclusively by the Lottery. The Lottery may adopt quality control standards for the manufacture of breakopen instant ticket games. (3-20-20)T

**09. Standards For Flares.** The flare advertising prizes available from the operation of any sleeve of breakopen instant tickets must: (3-20-20)T

**a.** Be placed near or upon the upper face, or on the top, of any authorized device used to dispense breakopen instant tickets in a manner clearly visible to the public; and (3-20-20)T

**b.** Clearly set out each of the prizes available and the combination of numbers or symbols which win prizes. Each flare describing the prizes and winning number or symbols for a sleeve of breakopen instant tickets in play must clearly set out the sleeve number assigned to that sleeve by the vendor. The sleeve number will be placed upon the flare by the vendor. The total number of tickets originally in the sleeve will be placed upon the flare by the vendor. (3-20-20)T

**10. Prize Structure.** The Director will establish a prize structure detailing the estimated number of prizes that are expected to be awarded in each sleeve and a close approximation of the odds of winning such prizes. (3-20-20)T

**11. Retailers Eligible to Sell Breakopen Tickets.** Any person interested in obtaining a contract for a certificate to sell Lottery tickets must file an application on forms provided by the Director that includes, but is not limited to, requiring an applicant's personal, financial, and criminal history, and an authorization to investigate the applicant's criminal and credit history. (3-20-20)T

**12. Retailer Application and Fee.** All applications to sell breakopen instant tickets must be accompanied by a nonrefundable fee of twenty-five dollars (\$25). If a certificate is awarded to sell only breakopen instant tickets, no additional certificate fee is necessary. (3-20-20)T

**13. Certificate Modification.** (3-20-20)T

**a.** Certified instant ticket retailers may apply for a certificate modification to allow for the sale of breakopen instant tickets. A current instant ticket retailer will be required to complete an additional application or application supplements. If a current instant ticket retailer requests that the existing certificate be modified to allow for the sale of breakopen instant tickets, no additional application fee will be charged upon approval. (3-20-20)T

**b.** Certified breakopen instant ticket retailers may apply for a certificate modification to allow for the sale of instant tickets. A current breakopen instant ticket retailer will be required to complete an additional application or application supplements. If a current breakopen instant ticket retailer requests that the existing certificate be modified to allow for the sale of instant tickets, an additional certificate fee of one hundred dollars (\$100) may be charged upon approval. (3-20-20)T

**206. -- 299. (RESERVED)**

### **SUBCHAPTER C – CHARITABLE GAMING RULES OF THE IDAHO STATE LOTTERY**

#### **300. DEFINITIONS.**

As used in these rules, each word defined in this Section has the meaning given here unless a different meaning is clearly required from context: (3-20-20)T

**01. Audit.** The review of documents or other records pertaining to operation of bingo or raffles, including, but not limited to, ledgers, bank statements, checks and deposit records, nightly logs, receipts, register tapes, computer records, contracts and leases, records showing use of all revenues for charitable activities, and tax records, by representatives of the Lottery, the attorney general, other law enforcement agencies, or independent

auditors. (3-20-20)T

**02. Autodaubing Features or Autodaubing.** Electronic bingo card daubers, including software or equipment interfaced with electronic bingo cards that automatically daub the numbers as called without requiring the player to manually input the number called. (3-20-20)T

**03. Bingo.** The traditional game of chance using a card with five (5) rows and five (5) columns containing numbers from a range of one (1) to seventy-five (75) and played for a prize determined before the game begins, as elaborated in Subsection 010.03 of these rules, and other games authorized by Title 67, Chapter 77, Idaho Code, and by these rules, for example, “U-Pick Em.” See Section 67-7702(1), Idaho Code: (3-20-20)T

**a. Bingo Cards, Regular.** Regular bingo cards (reusable or disposable) contain five (5) rows and five (5) columns of squares arranged in a five-by-five (5x5) grid; each square is imprinted with randomly placed numbers from a range of one (1) through seventy-five (75), except for the center square, which may be a free space. The letters “B-I-N-G-O” must also be imprinted on the card in order with one (1) letter above each of the five (5) columns (the letter “B” above the first column and so on). (3-20-20)T

**b. Bingo Cards, Electronic, or Face.** An electronic facsimile of a regular bingo card. See Section 67-7702(6), Idaho Code. (3-20-20)T

**c. Play Method.** Players who have paid consideration for the cards that they are holding compete for a prize by covering numbers on their cards when designators with the same number are randomly drawn and called. The balls or other designators in the selection device are numbered in the same manner as the possible numbers on the bingo cards, from one (1) through seventy-five (75). The winner is the first player to cover a predetermined arrangement of numbers on the players’ cards, for example, any row, column or diagonal of the five (5) rows and (5) columns and two (2) diagonals of the bingo card. Upon approval of the Bingo-Raffle Advisory Board there may be other forms of bingo games allowed, such as, but not limited to, Blackouts, Bonanza, and “U-Pick Em” games. The game begins when the first number is called and ends when a player has covered the previously designated arrangement and declares a bingo. Each winning card must be independently verified by a floor worker and another player by calling back the winning combination of numbers in the predetermined arrangement or by entering the serial number printed on the bingo card into an electronic verification system that can verify whether a card is a winner. (3-20-20)T

**d. Exclusions from Bingo.** Bingo does not include “instant bingo,” which is a game of chance played by the selection of one (1) or more prepackaged cards, with the winner determined by the appearance of a preprinted winning designation on the card. (3-20-20)T

**04. Bingo-Raffle Advisory Board or Board.** The board established and appointed according to Sections 67-7702(2), 67-7703, and 67-7704, Idaho Code. (3-20-20)T

**05. Blackout.** A game of bingo where all numbers are covered on a bingo card. This game is also referred to as “coverall.” (3-20-20)T

**06. Bonanza.** A game of bingo that is played on a prefolded card or on another kind of card on which the numbers are not revealed until the card is purchased and in which a designated number of balls are emitted from the machine in the usual manner and displayed. If there is no “Bingo” called on these numbers, the game may continue with one (1) additional ball emitted at a time until there is a winner. (3-20-20)T

**07. Charitable Contribution Acknowledgment Report Form or CCARF.** A form, prepared by the Director, upon which the recipient of a donation for a charitable purpose must indicate the charitable purpose for which the donation will be used; the name, address, and phone number of the person receiving the donation; and acknowledgement that the recipient will provide any and all information necessary in order for the Director or his representatives to verify that the donation was used for a charitable purpose, as well as any other information needed by the Director to assure that the donation is used for a charitable purpose. See Section 67-7709(2), Idaho Code. (3-20-20)T

**08. Charitable Donation Reporting Form.** A form prepared by the Director, upon which each

licensed organization shall record all charitable donations made from the proceeds of charitable bingo or raffles held during the license year on which they are reporting. This report shall require the names, addresses, contact person's name, contact person's telephone number, dollar amount and purpose of the donation. This report will be submitted to the Lottery along with the Annual Bingo Report or Annual Raffle Report and will be subject to audit as defined in Subsection 010.01. (3-20-20)T

- 09. Charitable Organization.** See definition in Section 67-7702, Idaho Code. (3-20-20)T
- 10. Charitable Purpose.** A purpose of supporting a bona fide charitable organization, as defined by Section 67-7702(3), Idaho Code. (3-20-20)T
- 11. Concessions.** Food and beverages or other incidental items (for example, caps or tee-shirts) unrelated to gaming that are sold to players at bingo games. (3-20-20)T
- 12. Disposable Paper Bingo Card.** A non-reusable, paper bingo card. (3-20-20)T
- 13. Distributor.** Any person who purchases or otherwise obtains or supplies equipment for use in conducting gaming activities, including, but not limited to, bingo or raffles, from any person or entity, and sells or otherwise furnishes such equipment or supplies to any person or entity who engages in gaming activity. (3-20-20)T
- 14. Duck Race.** A charitable raffle as defined in Section 67-7702(5), Idaho Code. (3-20-20)T
- 15. Electronic Bingo Device.** An electronic device used to monitor bingo games as defined by Section 67-7702(7), Idaho Code. Electronic bingo devices may be used to monitor bingo cards ("mind cards") only if they meet the requirements of Section 67-7702(7)(a), Idaho Code. No devices described in Section 67-7702(7)(b), Idaho Code, can be lawfully used in a bingo operation. (3-20-20)T
- 16. Electronic Gaming Devices.** Gaming or gambling devices electronically operated by inserting a coin or token and then pulling a handle or pushing a button to activate the game. Electronic gaming devices can generate points or payout slips for accumulated wins. (3-20-20)T
- 17. Gaming.** Gambling as defined in Section 18-3801, Idaho Code, including gaming authorized by Title 67, Chapters 74 and 77, Idaho Code. (3-20-20)T
- 18. Gross Revenues.** See definition in Section 67-7702, Idaho Code. (3-20-20)T
- a.** For Bingo. All moneys paid by players during a bingo game or session of play bingo, including fees for use of electronic bingo cards or electronic bingo devices, but excluding money paid for concessions. Gross revenues are calculated before any deductions for prizes or other expenses. (3-20-20)T
- b.** For Raffles and Other Gaming Authorized by Title 67, Chapter 77, Idaho Code. All moneys or other value paid to or due to any operator of a raffle or other gaming authorized by Title 67, Chapter 77, Idaho Code, activity for any chance taken or other fees for participation in the raffle or other gaming activity. Gross revenues are calculated before any deductions for prizes or other expenses. (3-20-20)T
- 19. Hard Bingo Cards.** Reusable bingo cards with sliding windows or shutters to cover the numbers on the cards. Hard cards are legal in sessions with less than ten thousand dollars (\$10,000) of annual gross revenue or for special occasions. (3-20-20)T
- 20. Host System.** See definition in Section 67-7702, Idaho Code. (3-20-20)T
- 21. Instant Bingo.** A Lottery game played by the use of premarked cards which, when opened, scratched or otherwise revealed, determine whether the cardholder is a winner without any competition among players. "Instant Bingo" is not a game of "Bingo" as defined by these rules. (3-20-20)T
- 22. License.** A permission issued by the Director of the Lottery to operate bingo games or raffles or to manufacture, sell, distribute, furnish or supply gaming machines, equipment or material. (3-20-20)T

- 23. Licensed Game Operator.** A person who qualifies as a nonprofit or charitable organization who may operate bingo or raffles and who is licensed pursuant to Section 67-7711, Idaho Code. (3-20-20)T
- 24. Licensed Vendor.** A person who manufactures, sells, distributes, furnishes or supplies gaming machines, equipment or material who is licensed pursuant to Section 67-7715, Idaho Code. (3-20-20)T
- 25. Manufacturer.** Any person who fabricates or assembles a completed piece of gaming equipment or pieces of gaming equipment, or supplies completed gaming equipment, or pieces of gaming equipment for use in gaming activities, including, but not limited to, bingo and raffles, and who sells or otherwise furnishes the completed gaming equipment or pieces of gaming equipment to any distributor, operator, or retail outlet. (3-20-20)T
- 26. Net Proceeds of a Charitable Raffle.** The gross revenues of a charitable raffle less the cost of prizes awarded. Net proceeds of a duck race mean gross revenues less the cost of prizes awarded and the rental cost of the ducks used in the race (if there are rental costs). See Section 67-7710(3), Idaho Code. Donated prizes are considered to have no cost and do not reduce the receipts when calculating net proceeds. (3-20-20)T
- 27. Nonprofit Organization.** See definition in Section 67-7702, Idaho Code. (3-20-20)T
- 28. Organization.** A charitable organization or a nonprofit organization. (3-20-20)T
- 29. Raffle.** An event in which prizes are won by random drawings or other selections of a ticket, duck or other means of identifying the one (1) or more persons purchasing chances. See Section 67-7702(14), Idaho Code. Duck races are a form of raffles. See Sections 67-7702(5) and 67-7702(9), Idaho Code. (3-20-20)T
- 30. Reusable Bingo Cards.** Bingo cards constructed out of a durable material that use sliding windows or shutters or chips to cover the numbers and that can be reused from one (1) game to another. (3-20-20)T
- 31. Separate Bank Account.** A bank account in the name of, and controlled by, a charitable or nonprofit organization established for purposes of complying with the accounting requirements of Section 67-7709(1), Idaho Code, regarding accounting for revenues and disbursements for bingo operations. All gross revenues received in connection with licensed bingo games must be placed in the separate bank account. Concessions and other moneys received (if any) from non-gaming revenues should not be deposited in the separate bank account. (3-20-20)T
- 32. Session.** A period of time not to exceed eight (8) hours in any one (1) day in which players are allowed to participate in bingo games operated by a charitable or nonprofit organization. See Sections 67-7702(15) and 67-7708, Idaho Code. (3-20-20)T
- 33. Site System.** See definition in Section 67-7702, Idaho Code. (3-20-20)T
- 34. Tracking.** The documentation of sales by sequentially numbered bingo paper or numbered tickets in raffles. See Section 67-7709(3), Idaho Code. (3-20-20)T
- 35. U-Pick Ems.** A game where players select their own numbers on a two (2) part duplicated bingo card. One (1) copy is retained by the player and used as a bingo card. Numbers are called until there is a winner. The winner is determined by the first player to cover the numbers on a "U-Pick-Em" card. (3-20-20)T
- 36. Vendor.** See definition in Section 67-7702, Idaho Code. (3-20-20)T

**SUB AREA: CONDUCT OF BINGO GAMES**

**301. BINGO BY CHARITABLE OR NONPROFIT ORGANIZATIONS.**

All organizations operating bingo games, whether licensed or unlicensed, must abide by these rules. It is unlawful to conduct bingo sessions or bingo games in violation of Title 67, Chapter 77, Idaho Code, or in violation of these rules, and persons doing so may be subject to administrative, civil or criminal penalties. See Section 67-7707, Idaho Code. Sections 301 through 306 of these rules apply to all bingo operators. Sections 307 through 310 of these rules apply to

operators using paper bingo cards. Sections 311 through 313 of these rules apply to operators using electronic bingo machines, as defined in Section 311 of these rules. Sections 306 through 309 of these rules apply to all bingo operators. (3-20-20)T

**302. NUMBER OF SESSIONS PER WEEK.**

Licensed operators of bingo games are limited to a maximum of three (3) bingo sessions per any calendar week (Sunday-Saturday). None of these sessions may exceed eight (8) consecutive hours in any one (1) day. See Section 67-7708, Idaho Code. A session is determined by the sale of paper for a continuous series of bingo games offered for a predetermined period of time. For special sessions it is permissible to extend the hours past midnight, but all hours past midnight up to 2 a.m. on the following day will count as hours for the day during which the session started. (3-20-20)T

**303. POSTING OF LICENSE AND HOURS.**

The organization's current charitable gaming license issued by the Lottery must be displayed during bingo games and bingo sessions in plain view for all players and interested persons. Lottery Gaming Rules must be kept on site and available during all sessions. Days/hours of operation must be posted in plain view for all players and interested persons. If days or times change, it is the responsibility of the organization to provide written notice to the Lottery. House rules pertaining to bingo must be posted in plain view for all players and interested persons. (3-20-20)T

**304. MEMBERS OF ORGANIZATION IN ATTENDANCE -- TRAINING OF EMPLOYEES.**

At least one (1) member or representative of the licensed organization must be in attendance at each session of bingo to supervise all bingo-related activities of a licensed organization. See Section 67-7711(3), Idaho Code. All bingo game employees, volunteers, and managers of all organizations, whether licensed or unlicensed, must be trained in the proper conduct of the game and the control of funds. (3-20-20)T

**305. EMPLOYEES INELIGIBLE TO PLAY.**

All bingo game employees and managers are prohibited from playing in any game or in any session for which the employee or manager takes part as employee or manager. There should be no conflict of interest perceived by the public. (3-20-20)T

**306. MINORS.**

Persons under the age of eighteen (18) years are prohibited from playing bingo in a game in which a cash prize is offered, or where the prize exceeds twenty-five dollars (\$25) in value for merchandise, or where any merchandise is redeemable, in whole or in part, for cash. See Section 67-7707(2), Idaho Code. Bingo operators may allow minors to work in a bingo game or session as per local house rules. (3-20-20)T

**307. TRACKING REQUIREMENTS IN GAMES USING PAPER BINGO CARDS.**

**01. Bingo Paper -- For Whom Required.** All licensed organizations operating bingo sessions that use paper bingo cards and all organizations exempt from licensing under Section 67-7713, Idaho Code, that use paper bingo cards must track their bingo sales for each session by using sequentially numbered/colored bingo paper. Each such organization must keep a ledger of the numbers of all bingo papers used. The non-reusable colored paper cards must be manufactured with a pre-printed series and a pre-printed serial number on each card. These cards may be assembled in multiple card sheets, single sheets, or packets. A sequential series and serial number must be printed on each individual card. (3-20-20)T

**02. Tracking by Game For Bingo Paper.** The tracking may vary according to games sold at each session (packets, specials, singles, six (6) ons, three (3) ons, etc.) and may be designated by game name or color of paper. (3-20-20)T

**03. Tracking By Bingo Paper Packet.** If sales are completed by packet, then those packets must not be separated for sale as singles. Individual games or packets sold must be recorded sequentially for effective tracking. The tracking records must be retained with permanent records. Tracking records are not required to be submitted with the Annual Bingo Report form. (3-20-20)T

**04. Late Players When Bingo Paper Used.** Packets of bingo paper sold to late players must have the previously played games sheets removed and voided. The tracking must account for sheets removed and voided. (3-20-20)T

**05. Designation of Bingo Paper Color For Games.** Each game is assigned a particular color of paper card. Other colors will not be accepted. (3-20-20)T

**06. Documentation For Bingo Paper.** All bingo paper must be tracked as either sold, damaged, donated, or omitted from the original distributor or manufacturer. Invoices from the distributor or manufacturer and other documentation of transactions involving bingo funds must be kept with the records for that bingo operation. Operators may contact the Lottery Security Division for clarification concerning proper documentation to track sold, damaged, donated, or omitted bingo paper. (3-20-20)T

**308. DUTIES OF BINGO CALLER AND EMPLOYEES OR VOLUNTEERS IN GAMES USING PAPER BINGO CARDS.**

**01. Pre-Game Duties.** Before selecting or calling the first number in any game, the bingo caller must check the machine and balls for defects. This can be done by running all of the balls through the machine and placing them in their assigned slots to determine that there is one (1) ball for each number and only one (1) ball for each number. The caller will draw numbers for the Bonanza, Progressive or Hot Ball games if used and verified by a player. The caller must announce the color of paper card assigned to each game, the pattern or arrangement of squares to be covered to win the game, and the prize amount. (3-20-20)T

**02. Displaying Numbers During Play.** Each time that a number is selected, the bingo caller must display the ball or other designator in a receptacle to prevent it from being placed back into the selection pool. If electronic display boards are used the placement of the selected ball should activate the number or if not, the operator is required to manually activate each number on the board. (3-20-20)T

**03. End of Game.** After a winner has been verified as set forth in Section 108 of these rules, the caller must ask if there are additional winners. After asking for and verifying whether there are additional winners, the game is declared to be completed, and the ball machine must be cleared for the next game. (3-20-20)T

**309. DETERMINING WINNERS WHEN A PLAYER USING A PAPER BINGO CARD CLAIMS TO BE A WINNER.**

**01. Winning Cards.** A winning card is a card upon which the numbers drawn by the caller cover the previously designated arrangement of winning squares. (3-20-20)T

**02. Player's Responsibility.** It is the player's responsibility to notify the game operator or caller that the player has a winning card by yelling "bingo" loud enough for the caller to hear the player. (3-20-20)T

**03. Game Stops to Verify Winner.** When a player announces a winning card, the game must stop for winner verification before the next number is selected. The game must be secured so that it can be continued if the declaration of a winning bingo card is incorrect. If a player mistakenly announces a winning card and the card is not a winner, the game proceeds until a winner is declared. (3-20-20)T

**04. Verification of Winning Card.** To verify a winning card a bingo operator's employee or volunteer must call back the combination of numbers in the assigned pattern and the color of the paper card. The caller must verify the numbers called back. Electronic verifying devices may be used by entering the serial number of the winning card. A monitor must reveal the card and the winning pattern to verify its status as a valid bingo or an invalid bingo. Once a winner is declared the caller must announce "one (1) good winner" or "two (2)" or more if it applies to the game. (3-20-20)T

**05. Prizes For Multiple Winners.** If more than one (1) winner is declared, cash prizes must be divided equally, and merchandise prizes of equal value awarded. (3-20-20)T

**310. MISCELLANEOUS RULES FOR GAMES USING NON-ELECTRONIC BINGO CARDS.**

**01. Hard Cards.** Unlicensed charitable or nonprofit organizations with an annual gross bingo revenue of ten thousand dollars (\$10,000) or less may use hard cards. A licensed organization may request a special one (1)

time use of hard cards for community fund-raising projects that it is sponsoring. No hard cards are allowed to be reserved for any players, with the exception of Braille cards. (3-20-20)T

- 02. Braille Cards.** Braille cards are allowed in any bingo game for use by individuals who need them. (3-20-20)T
- 03. Two Part Disposable Cards.** Two (2) part disposable cards may be used in “U-Pick-Em” games, if: (3-20-20)T
- a. Original and Duplicate Copies.** The cards are printed on two (2) part, self-duplicating paper that provides for an original and duplicate copy; (3-20-20)T
- b. Operating Controls.** Players mark their numbers on each card in a distinct, clear and legible manner before separation of the duplicate and original card, and operators establish and set forth in plain view house rules setting out any conditions by which an entry may be added, deleted or changed before separation, and changes are verified by a worker authorized by the bingo manager; and (3-20-20)T
- c. Retention and Play of Duplicate Copy.** The player retains and plays the duplicate copy, and all winning cards and their duplicate copies are retained by the operator as part of the operator’s daily bingo records. (3-20-20)T
- 04. Card-Minding Devices.** Card-minding devices are prohibited unless they meet the requirement for allowable electronic bingo devices set forth in Section 67-7702(7)(a)(i) through 67-7702(7)(a)(iv), Idaho Code. (3-20-20)T
- 05. Autodaubing Features.** Autodaubing features are prohibited. (3-20-20)T
- 06. Use of Nonreusable Cards.** With the exception of Braille bingo cards authorized for use pursuant to Subsection 310.02 of these rules, every organization that uses nonreusable paper bingo cards must use only nonreusable colored bingo paper or electronic bingo paper so that all sales can be tracked. Nonreusable colored bingo paper must have a series and serial number on each card. After each bingo session, an organization using nonreusable bingo paper must track its bingo sales for that session by recording the series and serial numbers of all paper sold, damaged, donated, used for promotion, or omitted by the manufacturer or distributor. See Section 67-7709(3), Idaho Code. (3-20-20)T

**311. BINGO OPERATIONS USING ELECTRONIC BINGO MACHINES.**

- 01. Electronic Bingo Machines Defined.** Electronic bingo cards, electronic bingo devices, host systems, or site systems are individually and collectively called electronic bingo machines in these rules. (3-20-20)T
- 02. Use of Approved Hardware and Software.** All organizations that offer or use any electronic bingo machines during play must use hardware or software, or both, approved by the Commission, provided that printers used in connection with site systems may be obtained from any source. See Sections 67-7716 and 67-7719(1), Idaho Code. (3-20-20)T
- 03. List of Approved Hardware and Software.** The Director will maintain a list of approved hardware and software for electronic bingo machines and promptly update the list after any changes. (3-20-20)T
- 04. Requirements For Approved Site Systems.** All site systems licensed by the Commission must have the ability to track, either with or without input from the bingo game’s operators, the number of games played that are connected to the site system, revenue from the games played that are connected to the site system, the number of winners who are connected to the site system, and the distribution of cash and merchandise prizes to winners connected to the site system for each session played using the site system. (3-20-20)T
- 05. Inspection and Testing.** All electronic bingo machines used by bingo game operators and all records that the electronic bingo machines generate must be available to be inspected or tested, or both, to determine whether the electronic bingo machines are properly functioning. Any agency or officer listed in Section 67-7709(5),

Idaho Code, or their representative, is authorized to conduct an inspection and testing. See Sections 67-7717(8) and 67-7717(9), Idaho Code. (3-20-20)T

**06. Pre-Game Testing.** The Director or Lottery Security Division may by letter or other written communication prescribe appropriate pre-game testing procedures for electronic bingo machines as in their judgment are necessary for the particular hardware and software used. (3-20-20)T

### **312. REQUIREMENTS FOR BINGO GAME OPERATIONS USING ELECTRONIC BINGO MACHINES.**

**01. Maximum Number of Faces.** Electronic bingo devices are hereby prohibited from monitoring more than fifty-four (54) faces (electronic bingo cards) per game. All electronic bingo devices are required to be restricted by their hardware or software so that they can monitor no more than fifty-four (54) faces per game. See Section 67-7717(1), Idaho Code. (3-20-20)T

**02. Identification Number.** Every electronic bingo device that requires a site system to download electronic bingo cards to the device must comply with the requirements of Section 67-7717(2), Idaho Code, concerning identification numbers. (3-20-20)T

**03. Erasing Numbers.** Every electronic bingo device must be programmed to erase electronic bingo cards and bingo card face numbers after a session has been completed, as required by Section 67-7717(3), Idaho Code. (3-20-20)T

**04. Players Cannot Choose Numbers.** No electronic bingo device that allows bingo players to design their own bingo cards by choosing, rearranging, or placing numbers on a card is permitted. See Section 67-7717(4), Idaho Code. (3-20-20)T

**05. Connections to Site System.** Site systems are prohibited from engaging in sales, voids, or reload transactions for an electronic bingo device unless the device is connected to and communicating with the site system. See Section 67-7717(5), Idaho Code. (3-20-20)T

**06. Printouts.** Site systems must be electronically connected to an on-site printer that upon request is capable of printing a transaction log for each player that shows the device identification number and all bingo cards and face numbers loaded into the device. The site system must be able to record and print on-site a receipt showing the device identification number, the date of the bingo session, the number of electronic bingo cards purchased or loaded, and the total amount charged for each of the electronic bingos cards. This receipt must be given to the player on request or as required by any agency or officer listed in Section 67-7709(5), Idaho Code, or their representative. See Section 67-7717(6), Idaho Code. The site system must be connected to an on-site printer that can print the winning game combinations on demand for the entire bingo session. See Section 67-7717(7). (3-20-20)T

#### **07. Malfunctioning Electronic Bingo Machines. (3-20-20)T**

**a.** Whenever the Lottery or any agency or officer listed in Section 67-7709(5), Idaho Code, or their representative, detects or discovers a malfunction or other problem with an electronic bingo machine that could affect the security or integrity of a bingo game or of an electronic bingo machine, every bingo operator using such a malfunctioning electronic bingo machine must discontinue its use as directed by a representative of the Lottery or correct the malfunction or other problem as directed by a representative of the Lottery. Failure to take the directed action may result in confiscation or seizure of the electronic bingo machine that is malfunctioning or has other problems. See Section 67-7717(8), Idaho Code. (3-20-20)T

**b.** Whenever a manufacturer, a distributor, a licensed bingo operation, a player, or any other person detects or discovers a malfunction or other problem with an electronic bingo machine that could affect the security or integrity of a bingo game or of an electronic bingo machine, every bingo operator using such a malfunctioning electronic bingo machine must discontinue the use of that electronic bingo machine and notify the Commission by telephone no later than the next working day of the action taken and the nature of the malfunction or other problem. The Commission may request further written explanation as necessary. See Section 67-7717(9), Idaho Code. For purposes of this paragraph, notification to an officer or employee of the Lottery Security Division will be considered

notification to the Commission. (3-20-20)T

**08. Receipts.** The cash register or the site system must provide a receipt for the sale of all bingo cards used in conjunction with an electronic bingo device. Additional paper bingo cards must be separately receipted. The cash register receipt and the player's receipt must identify and show the sale of disposable paper bingo cards separately from receipts for electronic bingo cards. See Section 67-7719(12), Idaho Code. (3-20-20)T

### **313. PLAY USING ELECTRONIC BINGO MACHINES.**

**01. No Player-Owned Devices.** Use of player-owned electronic bingo devices is prohibited. See Section 67-7719(2), Idaho Code. (3-20-20)T

**02. Provision of Devices.** Only the bingo game operator can provide electronic bingo devices. The operator may charge for the use of an electronic bingo device. If there is a charge for use of an electronic bingo device, the fee must be separately stated on the cash register and the bingo player's receipt and be included in the gross revenues. See Section 67-7719(3) and (11), Idaho Code. (3-20-20)T

**03. Use of Devices On Premises.** A player using an electronic bingo device must be on the premises during play to be eligible to play bingo or to win a prize. See Section 67-7719(3), Idaho Code. (3-20-20)T

**04. Available Devices.** Electronic bingo devices must be made available on a first-come, first-served basis, and no device can be reserved for any player, except a device may be reserved for players with a disability (within the meaning of the Americans with Disabilities Act) if the disability would restrict or impair the player's ability to mark bingo cards. A bingo game operator may provide and reserve electronic bingo devices exclusively for persons with disabilities and forbid their use by all other persons. See Section 67-7719(5), Idaho Code. (3-20-20)T

**05. One Device Per Player.** It is prohibited for any player to use more than one (1) electronic bingo device at a time. See Section 67-7719(6), Idaho Code. No electronic bingo device can be used to monitor hard bingo or shutter cards. See Section 67-7719(7), Idaho Code. (3-20-20)T

**06. Reserve Devices.** Every bingo game operator using electronic bingo devices must keep at least one (1) electronic bingo device in reserve as a backup in case a device in use malfunctions. See Section 67-7719(4), Idaho Code. A reserve device is not considered an available device under Subsection 302.04 of this rule. If a reserve device is put in use to replace a malfunctioning electronic bingo device, and if there are no more unused electronic bingo devices available to serve as a reserve device, the operator is not required to take an electronic bingo device from a player that is then using the device in order to maintain a reserve device, and the operator may continue to offer bingo games without a reserve device throughout the remainder of the session, unless one (1) or more electronic bingo devices are turned in before the session ends, in which case a device that was turned in will then become the reserve device. (3-20-20)T

**07. Loading Electronic Bingo Devices.** A bingo operator using an electronic bingo device is prohibited from downloading electronic bingo cards into an electronic bingo device before payment by the player. The player must be on the bingo operator's premises when the device is downloaded with electronic bingo cards. The device can only be downloaded with electronic bingo cards during the session. See Section 67-7719(10), Idaho Code. Players are prohibited from choosing or rejecting individual electronic bingo cards loaded into an electronic bingo device. See Section 67-7719(8), Idaho Code. (3-20-20)T

**08. Additional Paper Cards.** When a player who has purchased fifty-four (54) bingo cards per game is using an electronic bingo device to monitor up to fifty-four (54) cards, a bingo operator may allow the player to purchase additional disposable paper bingo cards to play using a manual daubing or marking method. See Section 67-7719(9), Idaho Code. (3-20-20)T

**09. Other Requirements.** The Director or the Director of Lottery Security, or his designee may by letter or other written communication prescribe appropriate procedures for play and determination of winners and other matters generally covered by Sections 307 through 309 of these rules for paper bingo cards whenever it is necessary to do so in conjunction with the use or playing characteristics or other attributes of a given hardware or software. These letters are public records within the meaning of Title 74, Chapter 1, Idaho Code. (3-20-20)T

**314. MAXIMUM PRIZES.**

Maximum prizes are defined in Section 67-7708, Idaho Code.

(3-20-20)T

**315. (RESERVED)**

**316. LIMITS ON BINGO OPERATION'S PRIZE PAYOUT RATIOS AND ADMINISTRATIVE EXPENSES.**

**01. Applicability.** All organizations conducting bingo games, whether licensed or unlicensed, must adhere to the required limits of statute and of this rule in dedicating their gross revenues from bingo operations. These limits or percentages, or both, pertain to annual gross revenues during a twelve (12) month license year. See Section 67-7708, Idaho Code. (3-20-20)T

**02. Donated Merchandise.** Donated merchandise offered as prizes is not included in the prize amounts paid out when calculating the prize payout ratio. The organization conducting the bingo game must document the value of the donated items, describe the donated items, and list the donated items on the daily reports as prizes. (3-20-20)T

**03. Donated Cash Funds Prohibited.** Donated cash may not be offered as prizes in bingo games nor deposited into the separate bingo account. (3-20-20)T

**317. PAYMENT OF EXPENSES, WINNINGS, AND CHARITABLE CONTRIBUTIONS.**

All payments for expenses and donations for charitable purposes must be paid by check from the Separate Bank Account and recorded in the bingo operation's general ledger. See Section 67-7709, Idaho Code. (3-20-20)T

**318. MINIMUM CHARITABLE OR NONPROFIT DONATION.**

A minimum of twenty percent (20%) of annual gross revenues of a bingo operation must be paid to a charitable or nonprofit organization to be used for charitable purposes. The licensed bingo operation must maintain records showing the charitable activities to which the proceeds are applied. See Section 67-7709, Idaho Code. Organizations are permitted and encouraged to donate more than twenty percent (20%) of their gross revenues from bingo operations to charitable or nonprofit organizations to be used for charitable purposes. No part of this twenty percent (20%) can be used, whether directly or indirectly, for any bingo expense. (3-20-20)T

**319. MAXIMUM PRIZES.**

By this rule the Commission exercises its authority over maximum prizes are set forth in Section 67-7708, Idaho Code. (3-20-20)T

**01. Maximum Prize For One Game.** The maximum prize in cash and merchandise that may be offered for any one (1) bingo game is three thousand dollars (\$3,000). (3-20-20)T

**02. Maximum Prizes For One Session.** The total of the maximum prizes in cash and merchandise that may be offered at any one (1) bingo session is twenty-five thousand dollars (\$25,000). (3-20-20)T

**320. (RESERVED)**

**321. ACCOUNTING AND REPORTING REQUIRED.**

Every organization conducting bingo games, whether licensed or unlicensed, must comply with the accounting requirements of Sections 121 through 126 of these rules. (3-20-20)T

**322. SEPARATE BANK ACCOUNT AND LIMITATIONS ON USE.**

**01. Establishment of Account.** All net proceeds received in connection with a bingo game required to be licensed under Title 67, Chapter 77, Idaho Code, and by these rules must be placed in a Separate Bank Account. See Section 67-7709(1), Idaho Code. Only bingo funds generated from bingo games may be distributed as prizes, administrative expenses, or charitable/nonprofit donations. (3-20-20)T

**02. Disbursements Use of Funds.** All disbursements must be documented as defined in Section 67-7709(1), Idaho Code, and by these rules. (3-20-20)T

**323. GENERAL LEDGER.**

**01. Establishment of General Ledger.** A general ledger must be established to account separately for the bingo operation and track all transactions for the funds generated from bingo. (3-20-20)T

**02. Documentation.** The accounting of revenues from sales of bingo cards or other entry fees and all disbursements must be documented. The accounting should include, but not be limited to, total prize payouts per session, and bingo related expenses per session, charitable contributions per session, wages, date and purpose or payee for each entry. (3-20-20)T

**03. Annual Report.** Copies of general ledgers must accompany the Annual Bingo Report filed with the Lottery. Copies of the Charitable Contribution Acknowledgement Report Forms and Charitable Donation Reporting Form shall also accompany the Annual Bingo Report. All disbursements shall be recorded in the general ledger. (3-20-20)T

**04. Retention of Records.** An accounting of all gross revenues and disbursements required by statute and these rules must be retained in records with the organization for a period of five (5) years, including the date and amount of each transaction, as well as the name and address of each payee for all prize payments exceeding one hundred dollars (\$100). A copy of each CCARF and the Charitable Donation Reporting Form shall be retained in permanent records of the organization. (3-20-20)T

**324. ANNUAL REPORT.**

**01. When Due.** Every licensed charitable or nonprofit organization conducting bingo games shall prepare an annual report within thirty (30) days after the close of its license year and file the annual report with the Lottery. See Section 67-7709(2), Idaho Code. (3-20-20)T

**02. Information Required By Forms.** The nightly reports, receipts, winner records, and payouts must be documented and kept with the organization's records for five (5) years along with any further information required by the forms prescribed by the Lottery pursuant to statute and rule. (3-20-20)T

**03. Independent Audit.** Organizations that exceed two hundred thousand dollars (\$200,000) in annual gross revenue from bingo games, raffle events, or bingo games and raffles combined must submit an independent audit performed by a certified public accountant licensed in Idaho and who meets peer review requirements set forth by the Idaho State Board of Accountancy. This independent audit must be submitted within ninety (90) days of the end of the licensed organization's license year. (3-20-20)T

**325. RECORDS OF PRIZE DISBURSEMENTS.**

Organizations conducting bingo games must record names and addresses of winners for prize disbursements exceeding one hundred dollars (\$100). Any prizes exceeding one thousand one hundred ninety-nine dollars (\$1,199) must have a W2-G on file for a gaming income for these amounts as required by the Internal Revenue Service. See 26 U.S.C. Section 6041 and 26 CFR 7.6041-1 and 35a.9999-3 (question and answer 19). (3-20-20)T

**326. ACCOUNTING OF REVENUES AND EXPENSES.**

**01. Deposit of Receipts.** Bingo funds received in check form must be payable to the organization. All funds must be deposited in a Separate Bank Account. (3-20-20)T

**02. Ledger Entries and Receipts For Expenses.** All ledger entries must track disbursements of cash and checks with expenses documented with receipts. The receipts shall include the payee's name and address, date, and an authorized signature from the licensed organization. (3-20-20)T

**03. Recording of Wages.** Wages paid must be recorded on expense records as gross amounts before withholding of taxes or other withholding and net amount paid, with each item of withholding shown. Wages paid

must be documented with copies of pay stubs, or other records showing gross wages and withholding. (3-20-20)T

**04. Submission With Annual Report.** Copies of ledgers containing the documentation of all transactions must be submitted with the Annual Bingo Report. Inventory tracking of sequentially numbered paper must be retained in records for a period of five (5) years and kept available for examination. All documents must be legible and compiled in an orderly manner. (3-20-20)T

**327. INSPECTION OF FINANCIAL RECORDS AND DOCUMENTS.**

All financial records and documents of an organization shall be kept as required by these rules and be open to inspection by the county sheriff of the county where the bingo games were held, the chief of police of the city where the bingo games were held, the prosecuting attorney of the county where the bingo games were held, the Attorney General or the Lottery, or any of their agents, at reasonable times and during reasonable hours. All records must be kept for five (5) years. (3-20-20)T

**328. -- 399. (RESERVED)**

**SUB AREA: CONDUCT OF RAFFLES**

**400. REQUIREMENTS FOR ORGANIZATIONS CONDUCTING RAFFLES.**

All organizations conducting raffles, whether licensed or unlicensed, must abide by these rules. It is unlawful to conduct raffles in violation of Title 67, Chapter 77, Idaho Code, or in violation of these rules, and persons doing so may be subject to administrative, civil or criminal penalties. See Section 67-7710, Idaho Code. (3-20-20)T

**401. LIMITATION ON ANNUAL NUMBER OF RAFFLES.**

Charitable or non-profit organizations are limited to conducting twelve (12) raffle events per year, provided that this limitation shall not apply to public or private elementary or secondary schools located in the state. See Section 67-7710(2), Idaho Code. (3-20-20)T

**402. OWNERSHIP OF PRIZES.**

Organizations must be able to substantiate ownership of all prizes or other legally enforceable rights to obtain the prizes to be offered in a raffle prior to advertising or selling tickets for such prizes. Proof of ownership of prizes or other legally enforceable rights to obtain prizes must be provided to the Lottery upon request. (3-20-20)T

**403. MAXIMUM PRIZES.**

The maximum aggregate value of cash prizes that may be offered or paid for any single raffle event, which is not a duck race, is one thousand dollars (\$1,000). There is no limit on the maximum value of merchandise that may be offered as raffle prizes if the merchandise is not redeemable for cash. There is no limit on the maximum amount of the aggregate cash prizes for a duck race if the cash prize is underwritten by insurance, otherwise the maximum aggregate cash prize for a duck race is one thousand dollars (\$1,000). There is no limit on the maximum value for the merchandise used as prizes for a duck race if the merchandise is not redeemable for cash. See Section 67-7710(2), Idaho Code. (3-20-20)T

**404. REQUIREMENTS FOR DONATION TO CHARITY -- LIMITATION ON EXPENSES.**

At least eighty percent (80%) of the net proceeds from sales of raffle tickets or chances and duck races must be donated to a charitable or nonprofit organization to be used for a charitable purpose. (Net proceeds are defined in Subsection 301.30 of these rules.) The name and address of the charitable or nonprofit organizations awarded these funds must be listed on the annual raffle report submitted to the Lottery. The annual raffle report must also include the charitable purpose for which the charitable donation was used by the charitable organization or non-profit organization. A maximum of twenty percent (20%) of net proceeds is allowed for expenses. See Section 67-7710(3), Idaho Code. (3-20-20)T

**405. GENERAL LEDGER AND RECORDKEEPING.**

Every organization conducting a raffle event must establish a general ledger for the raffle. The organization must keep records that show the total number of tickets or chances sold, the revenues from tickets or chances sold, the expenses of conducting the raffle, and the prizes for each raffle. (3-20-20)T

**406. ANNUAL RAFFLE REPORT.**

Every licensed organization conducting a raffle shall prepare an annual raffle report and Charitable Donation Report and submit both reports to the Lottery within thirty (30) days after the close of its license year. See Section 67-7710, Idaho Code. (3-20-20)T

**407. INDEPENDENT AUDIT OF LARGE RAFFLES.**

Every charitable or non-profit organization whose gross annual revenues exceed two hundred thousand dollars (\$200,000) from the operation of raffles shall provide the Commission with a copy of an annual report of raffle events. The audit shall be performed by a certified public accountant licensed in Idaho and who meets the peer review requirements set forth by the Idaho State Board of Accountancy. The audit must be submitted within ninety (90) days after the end of the organizations license year. (3-20-20)T

**408. -- 499. (RESERVED)**

**SUB AREA: LICENSING AND LICENSE FEES FOR ORGANIZATIONS  
CONDUCTING BINGO GAMES OR RAFFLES**

**500. APPLICATION.**

All persons required by statute and by these rules to obtain a license before operating a bingo game or conducting a raffle must pay the license fees and apply for and receive a license under the rules in this sub area. See Section 67-7711(1), Idaho Code. (3-20-20)T

**501. LICENSE FEES.**

Each organization that applies to the Lottery for a license under these rules shall pay annually to the Lottery a nonrefundable license fee that is due upon submission of the application. An application approved by the Lottery, complete with all required information, must be submitted along with the appropriate fee to the Lottery Security Division. See Section 67-7712(1), Idaho Code. These non-refundable fees are based on flat initial fee for applicants without a license and a fee based on annual gross revenues from bingo sessions or raffle events for applicants with a license as follows:

\$100 fee - initial application
\$100 fee - up to \$25,000 annual gross revenues
\$200 fee - up to \$75,000 annual gross revenues
\$300 fee - over \$75,000 annual gross revenues

(3-20-20)T

**502. INFORMATION TO BE PROVIDED IN APPLICATION.**

**01. Background Check of Applicants.** The application for an initial license and for a renewal license to operate a bingo game or to conduct a raffle will be reviewed and relevant background investigations will be conducted on all persons listed on the application as officers, directors or members of the charitable or nonprofit organization. The signature from the organization's representative on the application gives the Lottery authority to conduct the required investigations. The persons listed on the application must be officers or directors of the organization applying for a license and the application must be signed by an officer of the organization. (3-20-20)T

**02. Proper Identification.** The application must list the name, address, date of birth, driver's license number and social security or tax identification number of the applicant, if applicable. If the applicant is a corporation, association or similar legal entity, the application must also list the full name, current home address and phone number, date of birth, social security number, driver's license number and state of issuance, of each listed officer and director in order to conduct background investigations. See Section 67-7711(2)(a) and (b), Idaho Code. (3-20-20)T

**03. Charitable Organizations.** The application of a charitable organization must include a copy of the application for recognition of exemptions and a determination letter from the Internal Revenue Service that indicates that the organization is a charitable organization and that states the section of the tax code under which the exemption is granted, except that if the organization is a state or local branch, lodge, post of chapter or a national organization, a

copy of the determination letter of the national organization will satisfy this requirement. See Section 67-7711(2)(c)(i), Idaho Code. The applicant must also provide verifiable documentation to prove charitable function, purpose and activities. Acceptable documentation includes, but is not limited to, meeting minutes, donation documentation, and membership list. (3-20-20)T

**04. Incorporated Nonprofit Organizations.** The application of an incorporated nonprofit organization must include a copy of the certificate of existence issued by the secretary of state pursuant to Title 30, Chapter 3, Idaho Code, establishing the organization's good corporate standing in the state. See Section 67-7711(2)(c)(ii), Idaho Code. The applicant must also provide verifiable documentation to prove charitable function, purpose and activities. Acceptable documentation includes, but is not limited to, meeting minutes, donation documentation, and membership list. (3-20-20)T

**05. Locations.** The application must list the location or locations at which the applicant will conduct bingo games or bingo sessions or drawings for raffles. See Section 67-7711(2)(d), Idaho Code. (3-20-20)T

**06. Raffle Drawings.** Raffle drawings must be held in Idaho and conducted within the license year for licensed organizations or within twelve (12) months from the date the first ticket was sold for unlicensed organizations. (3-20-20)T

**07. License Year and Fiscal Year.** An organization may apply for a license to coincide with the organization's fiscal year. See Section 67-7711(5), Idaho Code. (3-20-20)T

**08. Failure to Provide Information.** Failure to provide all information required for an application may result in a delay in considering an application or denial or dismissal of an application for a bingo/raffle license. See Section 67-7711(1), Idaho Code. (3-20-20)T

**503. MULTIPLE CHAPTERS LICENSED TOGETHER.**

Different chapters of an organization may apply for and share one (1) raffle license so long as the information required in Subsections 502.01 through 502.06 of these rules is provided to the Lottery before the issuance of the license. See Section 67-7711(4), Idaho Code. When two (2) or more chapters share a license, in aggregate they are subject to the limitations of a single organization with a license; multiple chapters sharing a license are not entitled to multiples of the event or prize limits for a license. (3-20-20)T

**504. COMPENSATION OF CERTAIN PERSONS AND CONTRACTS WITH CERTAIN PERSONS PROHIBITED.**

Persons listed on the application as officers or directors and their relatives and members of their household are prohibited from being compensated for their participation in the organizations bingo operation. No organization shall contract with any person not employed by, or a volunteer for, the organization for the purpose of conducting a bingo game or raffle on the organizations behalf. See Section 67-7711(3), Idaho Code. (3-20-20)T

**505. ACTION ON LICENSES.**

**01. Applications For Licenses.** An application for a license will be approved, denied or dismissed in writing within fifteen (15) days of receipt of the written application and all other required documentation, except as provided in Section 67-7712(2)(j), Idaho Code, when a criminal prosecution of an applicant is pending or an appeal from a criminal prosecution of an applicant is pending. The application will be denied if the applicant does not meet the requirements of statute and of these rules. If an application is not received thirty (30) days in advance of a proposed event, it is possible that a license may not be granted before the event, and the event will not be allowed to proceed without a license. See Section 67-7711(1), Idaho Code. (3-20-20)T

**02. Issuance of Licenses.** A license will be issued when an application for a license is approved. A license expires one (1) year after its issuance. See Section 67-7711(1), Idaho Code. (3-20-20)T

**03. Notice of Intended Actions.** If the Lottery intends to deny an application for a license or the renewal of a license or intends to revoke, cancel, rescind or suspend a license, it will provide fifteen (15) days' written notice to the applicant or to the licensee of the general basis for its intended action. If the applicant or licensee does not agree to the Lottery's intended action, the applicant or licensee must in writing request a hearing within the

fifteen (15) day notice period. If a timely written request for a hearing is made, the hearing will be conducted in the same manner as a contested case hearing under Title 67, Chapter 52, Idaho Code. If a timely written request for a hearing is not made, the intended action is final and not subject to appeal. See Section 67-7712(3), Idaho Code.

(3-20-20)T

**506. SUSPENSION OR REVOCATION OF LICENSE -- CIVIL AND CRIMINAL PENALTIES.**

Violation of the bingo and raffle statutes or of these bingo/raffle rules or of any conditions of a license may be grounds for administrative, civil or criminal actions, including, but not limited to, placement on probationary status, suspension of operations, license revocation, penalties, or fines. See Section 67-7707, Idaho Code. See also Sections 500 through 504 of these rules.

(3-20-20)T

**507. EXEMPTION FROM LICENSING AND LICENSING FEES.**

Section 67-7713, Idaho Code, exempts charitable and non-profit organizations operating certain low-stakes bingo or raffle games from licensing.

(3-20-20)T

**01. Low-Stakes Bingo.** A charitable or nonprofit organization conducting a bingo game does not need to obtain a license if its gross annual bingo sales (gross revenues from bingo operations) are less than ten thousand dollars (\$10,000).

(3-20-20)T

**02. Low-Stakes Raffle.** A charitable or nonprofit organization does not need to obtain a license to conduct a raffle if the maximum aggregate value of merchandise awarded as prizes for the raffle does not exceed five thousand dollars (\$5,000).

(3-20-20)T

**03. Exemption From Licensing Not Exemption From Rules.** Organizations exempt from licensing under this rule must still comply with applicable requirements of statute and bingo/raffle rules. This information is available by contacting the Lottery.

(3-20-20)T

**508. RULES AND FORMS.**

The Lottery will provide forms and reports necessary in regulating the charitable or nonprofit bingo and raffle events. The Commission is authorized to promulgate rules consistent with and in compliance with Title 67, Chapter 52, Idaho Code.

(3-20-20)T

**509. -- 599. (RESERVED)**

**SUB AREA: VENDORS AND VENDORS' LICENSES AND FEES – APPROVED GAMING DEVICES**

**600. VENDOR'S LICENSE REQUIRED.**

All businesses or persons who manufacture, sell, distribute, furnish, or supply to any person or organization any gaming devices, equipment, or materials in this state shall first obtain a vendor's license from the Lottery. See Section 67-7715, Idaho Code. Vendors must file an application and submit all required forms for background investigations.

(3-20-20)T

**601. LICENSE FEES.**

Each initial application for a vendor's license must be accompanied by a five hundred dollar (\$500) non-refundable annual license fee that is due upon submission of the application. An application form approved by the Lottery, completed with all required information, must be submitted with the appropriate fee to the Director of Lottery Security, or his designee. See Section 67-7715(3)-(5), Idaho Code.

(3-20-20)T

**602. INFORMATION TO BE PROVIDED IN APPLICATION.**

**01. Identification of Applicants.** The application for initial license and for renewal of a license must list:

(3-20-20)T

**a.** The name, address, date of birth, driver's license number and social security number of the applicant, and if the applicant is a corporation, proprietorship, association, partnership or other similar legal entity, the name, home address, date of birth, driver's license number and social security number of each of the officers of the corporation and their spouses, as well as the name and address of the directors and their spouses, or other persons

similarly situated and the financial information required to complete the application form. See Section 67-7715(3)(a), Idaho Code. (3-20-20)T

**b.** The locations from which or persons with which the applicant will provide any gaming devices, equipment or material in this state or for use in this state. See Section 67-7715(3)(b), Idaho Code. (3-20-20)T

**02. Incomplete Applications.** Financial reports submitted with the license application will be reviewed as part of the background investigation. All requested data must be included on the application to avoid any delay. The application may be dismissed if it is incomplete. (3-20-20)T

**603. APPROVAL, DENIAL OR DISMISSAL OF APPLICATION FOR ISSUANCE OF LICENSE.**  
The Lottery will approve, deny or dismiss an application for a vendor's license, within fifteen (15) days. At the applicant's request the Lottery may defer decision for a longer time. The application will be approved, denied or dismissed in writing. The Lottery will issue vendor licenses to successful applicants. See Section 67-7715, Idaho Code. (3-20-20)T

**604. SUSPENSION OR REVOCATION OF LICENSE.**  
Any licensed vendor in violation of statute or of these rules or of any conditions of its license may face suspension or revocation of its vendor's license. (3-20-20)T

**605. -- 609. (RESERVED)**

**610. GAMING DEVICES, EQUIPMENT OR MATERIALS.**  
Gaming devices, equipment, and materials include but are not limited to: (3-20-20)T

**01. Number Selectors and Related Equipment.** Number selection machines, manual mixing drums, or computerized random selectors, site systems, host systems or other electronic bingo machines used to select numbers for bingo or raffles are gaming devices, equipment or materials. (3-20-20)T

**02. Bingo Cards.** Numbered paper bingo cards and hard bingo cards as described in Paragraphs 310.03.a. and 301.19 of these rules, including Bonanza cards, "U-Pick-Ems," and electronic bingo cards, are gaming devices, equipment or materials. (3-20-20)T

**03. Miscellaneous.** Daubers, raffle tickets, record keeping materials, electronic bingo devices and other items used in the operation of bingo or raffles are gaming devices, equipment or materials. (3-20-20)T

**611. PAPER BINGO CARD MANUFACTURERS STANDARDS.**  
Card manufacturers must follow these standards for paper cards: (3-20-20)T

**01. Quality of Paper.** The paper must be of sufficient weight and quality to allow for clearly readable numbers and to prevent ink from spreading or bleeding through a packet and obscuring other numbers or cards. (3-20-20)T

**02. Random Assignment of Numbers.** Numbers printed on the card must be randomly assigned. (3-20-20)T

**03. Serial Numbers.** Each set of cards must be comprised of cards bearing the same serial number. No serial number may be duplicated by a manufacturer in a given calendar year. (3-20-20)T

**04. Packet Assembly.** Cards assembled in books or packets must be glued, not stapled. (3-20-20)T

**05. Labeling.** A label must be placed on the exterior of each carton of bingo paper listing the type of product, number of packets or loose sheets, serial numbers, per (series) numbers, number of cases, cut of paper, and color of paper. (3-20-20)T

**06. Packing Slips.** A packing slip inside each case must list the same information as listed on the label. (3-20-20)T

**07. Invoice.** All orders must be accompanied by an invoice which lists the type of product, number of packets or loose sheets, serial numbers of all packets or loose sheets, per (series) numbers, number of cases, cut of paper, color of paper and pricing by item. The invoice must also include the supplier (vendor) name, and the name and address of the organization purchasing the paper. (3-20-20)T

**612. NUMBER SELECTORS.**

All number selectors for bingo operations must be approved by the Commission after review and advice by the Bingo-Raffle Advisory Board. Electronic random selectors must interact with players. Auto daubing systems for paper bingo cards are prohibited. (3-20-20)T

**613. DISTRIBUTION AND USE OF ELECTRONIC BINGO MACHINES.**

**01. Approved Sources.** A licensed distributor of electronic bingo machines must purchase, rent, lease or otherwise provide electronic bingo machines only from a licensed manufacturer and purchase, lease, rent, or otherwise provide only electronic bingo machines that have been approved by the Commission. See Section 67-7718(1), Idaho Code. (3-20-20)T

**02. Approved Users.** A licensed distributor of electronic bingo machines is permitted to sell, rent, lease or otherwise provide electronic bingo machines only to licensed bingo operators. See Section 67-7718(2), Idaho Code. (3-20-20)T

**03. Initial Use.** The licensed distributor of electronic bingo machines must notify the Commission in writing of the sale, rental, lease, provision or installation of any electronic bingo machines before a licensed bingo operator's first use of the machines as follows: (3-20-20)T

- a.** The complete name and address of the licensed bingo operator and their license number. (3-20-20)T
- b.** The type of equipment and the serial numbers of equipment that was sold, rented, leased, provided or installed. (3-20-20)T
- c.** The expected date upon which the licensed bingo operator will begin to use the equipment. (3-20-20)T
- d.** A copy of any and all agreements or contracts between the licensed distributor and the licensed bingo operator regarding use of the equipment. (3-20-20)T

**04. Installation, Maintenance, Service and Repair.** The licensed distributor must be the initial contact for installation, service, maintenance or repair of electronic bingo machines and for ordering electronic bingo cards. The distributor may enlist the manufacturer's assistance for installation, service, maintenance or repair of electronic bingo machines. With the Commission's approval, a licensed manufacturer may authorize or subcontract with others for service, repair or maintenance of electronic bingo machines, but the licensed manufacturer retains ultimate responsibility and liability for service, maintenance and repair. See Section 67-7718(4), Idaho Code. (3-20-20)T

**05. Invoices and Payments.** The licensed distributor of electronic bingo machines must be the person who invoices for and collects payments for a licensed bingo operator's use of electronic bingo machines. The manufacturer may generate the invoice. All payments must be to the distributor and not the manufacturer. The invoice must contain the licensed distributor's name, complete address and license number of the licensed bingo operator. See Section 67-7718(5), Idaho Code. (3-20-20)T

**06. Transportation Of Electronic Bingo Devices.** A licensed distributor may transport electronic bingo devices from one (1) location to another for use by one (1) or more licensed bingo operator after the distributor has notified the Commission in writing of its schedule for rotating the electronic bingo devices from one (1) location to another. The notification must list the locations at which the devices will be used and name the licensed bingo operators that will be using the devices at each location. See Section 67-7718(6), Idaho Code. (3-20-20)T

**07. Site Systems and Transportation of Site Systems.** Each licensed bingo operator that uses a site system must have its own site system. A licensed bingo operator that uses a site system cannot transport its site system from one (1) location to another or allow another bingo operator to use its site system without prior written approval from the Commission. See Section 67-7718(6), Idaho Code. (3-20-20)T

**614. -- 699. (RESERVED)**

**SUB AREA: SUSPENSION, REVOCATION, OR DENIAL OF A LICENSE**

**700. SUSPENSION, REVOCATION OR DENIAL OF LICENSE.**

Any licensee or applicant for a license found by a court of competent jurisdiction or by the Lottery pursuant to the procedures of Section 67-7712, Idaho Code, to be in violation of any statutes or rules governing operating, supplying of equipment for, participating in, or establishing of gaming in the state of Idaho may be subject to suspension, revocation or denial of its license. See Sections 67-7712 and 67-7715, Idaho Code. (3-20-20)T

**701. GROUNDS FOR SUSPENSION, REVOCATION OR DENIAL OF LICENSE.**

The Lottery may suspend, revoke or deny a license if it finds that the licensee or applicant for a license has violated any provision of Title 67, Chapter 77, Idaho Code, any of these rules, or any county ordinance adopted pursuant to Title 67, Chapter 77, Idaho Code, (See Section 67-7712(2), Idaho Code). (3-20-20)T

**702. COMPLAINT AGAINST AND INVESTIGATION OF LICENSEES.**

The Lottery may, upon its own motion, or upon a written verified complaint of any other person, investigate the operation of any gaming purportedly authorized by Title 67, Chapter 77, Idaho Code, or by these rules, whether the gaming is conducted by a licensed or an exempt operation, and whether gaming equipment or supplies comply with the requirements of Title 67, Chapter 77, Idaho Code. If the Lottery has reasonable cause to believe that any gaming described in Title 67, Chapter 77, Idaho Code, or in these rules, violates the provisions of the Idaho Code or of these rules, in its discretion it may under the procedures set forth in Section 67-7712(3), Idaho Code, and as provided by these rules propose to revoke, cancel, rescind or suspend any license for a period not to exceed one (1) year, or refuse to grant a renewal of the license, or take other action as may be appropriate under Idaho Code or these rules. See Section 67-7712(3), Idaho Code. (3-20-20)T

**703. PROCEDURE UPON FINDING OF REASONABLE CAUSE.**

If the Lottery refuses to grant a license or refuse to grant a renewal of a license or revoke, cancel, rescind or suspend a license, it shall give the applicant or licensee fifteen (15) calendar days' written notice of its intended action stating generally the basis for its action. Within the fifteen (15) calendar days' notice period, the applicant or licensee shall indicate its acceptance of the decision of the Lottery or request a hearing to be held in the same manner as hearings in contested cases pursuant to Title 67, Chapter 52, Idaho Code. See Section 67-7712(3), Idaho Code. (3-20-20)T

**704. CONDUCT OF HEARING IN CONTESTED CASE.**

The hearing in a contested case shall be conducted within twenty-one (21) days of the request. The applicant or licensee may appeal the decisions of the Lottery after the hearing pursuant to Title 67, Chapter 52, Idaho Code. Failure to make the request for hearing as provided in these rules shall render the decision of the Lottery final and not subject to further appeal. See Section 67-7712(3), Idaho Code. (3-20-20)T

**705. -- 999. (RESERVED)**

**IDAPA 53 – IDAHO BARLEY COMMISSION**  
**DOCKET NO. 53-0101-2000F (FEE RULE)**  
**NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 22-4009, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rule adopts the following chapter under IDAPA 53:

**IDAPA 53**

- IDAPA 53.01.01, *Rules of the Idaho Barley Commission*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 22-4015, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

Idaho barley growers pay a Barley Tax that is currently three cents (\$.03) per hundredweight of barley marketed, which is collected at point of first purchase and remitted to the Idaho Barley Commission. Section 22-4015, Idaho Code, allows for the Barley Tax of up to four cents (\$.04) per hundredweight.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Laura Wilder at 208-334-2090 or [lwilder@barley.idaho.gov](mailto:lwilder@barley.idaho.gov).

# IDAPA 53 – IDAHO BARLEY COMMISSION

## 53.01.01 – RULES OF THE IDAHO BARLEY COMMISSION

### 000. LEGAL AUTHORITY.

In accordance with Section 22-4009, Idaho Code, the Idaho Barley Commission has promulgated rules implementing the provisions of Chapter 40, Title 22, Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE.

These rules are titled IDAPA 53.01.01, “Rules of the Idaho Barley Commission,” IDAPA 53, Title 01, Chapter 01. These rules provide the means for the protection, promotion, study, research, analysis and development of markets concerning the growing and marketing of Idaho barley. (3-20-20)T

### 002. -- 009. (RESERVED)

### 010. DEFINITIONS.

The definitions set forth in Section 22-4003, Idaho Code, apply to this chapter (3-20-20)T

### 011. -- 099. (RESERVED)

### 100. FIRST PURCHASER RULES.

In accordance with Section 22-4015(1), Idaho Code, the Commission will designate the quarters (three (3) month periods) for the purpose of collecting the tax imposed on all barley grown, delivered into, or stored within the state of Idaho and sold or contracted in the state. (3-20-20)T

**01. Designated Quarters.** The quarters designated by the Commission for payment of tax are: (3-20-20)T

**a.** The Commission’s first quarter will begin on the first day of July and end the thirtieth day of September. The first quarter barley tax is due on or before the fifteenth day of October. (3-20-20)T

**b.** The Commission’s second quarter will begin on the first day of October and end the thirty-first day of December. The second quarter barley tax is due on or before the fifteenth day of January. (3-20-20)T

**c.** The Commission’s third quarter will begin on the first day of January and end the thirty-first day of March. The third quarter barley tax is due on or before the fifteenth day of April. (3-20-20)T

**d.** The Commission’s fourth quarter will begin on the first day of April and end the thirtieth day of June. The fourth quarter barley tax is due on or before the fifteenth day of July. (3-20-20)T

**02. Barley Tax Return (Form Number 1).** The first purchaser of barley is required to complete and send the Barley Tax Return (Form Number 1) to the commission office each and every quarter on or before the dates specified in these rules. The Barley Tax Return (Form Number 1) shall be provided to the first purchaser by the Commission and, at a minimum, require the following legible information: (3-20-20)T

**a.** The tax reporting period. (3-20-20)T

**b.** The name and address of the barley purchaser. (3-20-20)T

**c.** The net weight of the barley purchased (if any) in pounds or hundredweights. (3-20-20)T

**d.** The total amount of tax deducted (if any) from sellers by the purchaser. (3-20-20)T

**e.** The tax withheld by Commodity Credit Corporation loans. (3-20-20)T

**f.** The total amount of tax due the Commission (if any). (3-20-20)T

**03. Delivery of Documents to Commission (Form Number 2).** The first purchaser of barley shall complete and return the Report of Tax on Barley (Form Number 2), or equivalent, to the commission office each and every quarter on or before the dates specified in these rules. The Commission shall provide blank copies of Form Number 2 to the first purchaser. Form Number 2, or equivalent, will, at a minimum, require the following legible

- information: (3-20-20)T
- a. The name and address of the purchaser. (3-20-20)T
  - b. The quarter the barley was purchased. (3-20-20)T
  - c. The name or names and address or addresses of the grower and seller. (3-20-20)T
  - d. The number of pounds of barley purchased. (3-20-20)T
  - e. The total barley tax withheld from each purchase. (3-20-20)T
- 04. Deduction of Tax on Net Weight of Barley.** The first purchaser shall deduct the barley tax on the NET weight of the barley after deduction of dockage. (3-20-20)T
- 05. Late Payment Penalty** (As specified in Section 22-4018 (2), Idaho Code). Any person or firm who makes payment to the Commission at a date later than prescribed in Section 22-4015, Idaho Code, shall be subject to a late payment penalty of fifteen percent (15%) per annum on the amount due. (3-20-20)T

**101. -- 199. (RESERVED)**

**200. EXEMPTIONS.**

In accordance with Section 22-4015, Idaho Code, the barley assessment shall be imposed on all barley grown, delivered into or stored within, and sold or contracted in Idaho. If a barley assessment that serves a comparable purpose to the Idaho assessment was previously paid in a jurisdiction outside Idaho, the seller of the barley is exempt from payment of the Idaho barley assessment. The Commission will determine jurisdictions outside of Idaho that collect an assessment that serves a comparable purpose, which includes, as a minimum, funding for research and market development programs. In order to qualify for the exemption, the seller must demonstrate to the first purchaser in the state of Idaho that an assessment has been previously paid to such a jurisdiction. (3-20-20)T

**201. -- 999. (RESERVED)**

# **IDAPA 57 – SEXUAL OFFENDER MANAGEMENT BOARD**

## **DOCKET NO. 57-0101-2000F (FEE RULE)**

### **NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule being adopted through this omnibus rulemaking is the adjournment date of the second regular session of the 65th Idaho State Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 18-8314, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rule adopts the following chapter under IDAPA 57:

#### **IDAPA 57**

- 57.01.01, *Rules Governing the Sexual Offender Management Board*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Section 18-8314, Idaho Code, are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

Seventy-five dollars (\$75) for initial certification applications and fifty dollars (\$50) for biennial certification renewal applications for: senior/approved level psychosexual evaluators, associate/supervised level sexual offender treatment provider, and associate/supervised level post-conviction sexual offender polygraph examiners.

Fifty dollars (\$50) for initial certification application and thirty dollars (\$30) for annual certification renewal applications for entry-level provisional/supervised psychosexual evaluators and provisional/supervised sexual offender treatment providers.

There is an option for certificate holders to seek a 60-day extension to submit proof of completing continuing education requirements upon renewal of certification. There is a \$25 fee for this 60-day extension.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Nancy Volle at (208) 658-2002.

DATED this 14th day of February, 2020.

## IDAPA 57 – SEXUAL OFFENDER MANAGEMENT BOARD

### 57.01.01 – RULES OF THE SEXUAL OFFENDER MANAGEMENT BOARD

#### 000. LEGAL AUTHORITY.

This chapter is adopted under the legal authority of Section 18-8314(3), Idaho Code, to implement the provisions of Sections 18-8312 through 18-8316, Idaho Code. (3-20-20)T

#### 001. TITLE AND SCOPE.

**01. Title.** These rules are titled IDAPA 57.01.01, “Rules of the Sexual Offender Management Board.” (3-20-20)T

**02. Scope.** These rules provide procedures for the Sexual Offender Management Board to: (3-20-20)T

**a.** Establish certified evaluator, sexual offender treatment provider and post conviction sexual offender polygraph examiner qualifications; (3-20-20)T

**b.** Establish standards for psychosexual evaluations and sexual offender treatment programs based on current and evolving best practices; (3-20-20)T

**c.** Approve, issue, renew, deny, suspend, revoke, restrict or otherwise monitor a certification; (3-20-20)T

**d.** Establish fees for initial and renewal certification; (3-20-20)T

**e.** Establish procedures for standards and qualification quality assurance; and (3-20-20)T

**f.** Establish standard protocols for sexual offender management, assessment and classification. (3-20-20)T

**03. Relationship to the Department of Correction.** The Board is created within the Idaho Department of Correction, and relies upon the department for fiscal and administrative support. The governor appoints the Board members. The powers and duties of the Board are separate from the Department of Correction, and are set forth in Section 18-8314, Idaho Code. (3-20-20)T

#### 002. ADMINISTRATIVE APPEALS.

The “Idaho Rules of Administrative Procedure of the Attorney General,” IDAPA 04.11.01, Sections 000 through 799 apply to contested cases of the Board. (3-20-20)T

#### 003. INCORPORATION BY REFERENCE.

The following documents are incorporated by reference into these rules: (3-20-20)T

**01. “Bylaws and Constitution of the American Association of Police Polygraphists,”** effective May, 2010, is herein incorporated by reference and is available from the American Association of Police Polygraphists, PO Box 657, Waynesville, Ohio 45068, website <http://www.policepolygraph.org/>. (3-20-20)T

**02. “Bylaws of the American Polygraph Association,”** effective March 2018, is herein incorporated by reference and is available from the American Polygraph Association, PO Box 8037, Chattanooga, Tennessee 37414, website <http://www.polygraph.org/>. (3-20-20)T

**03. “Idaho Sexual Offender Management Board Standards and Guidelines for Adult Sexual Offender Management Practices,”** December 2019 revision, is herein incorporated by reference and is available from the Board’s office and on the Board website, <http://somb.idaho.gov/>. (3-20-20)T

**04. “Idaho Sexual Offender Management Board Standards and Guidelines for Practitioners, Evaluations and Treatment of Juvenile Sexual Offenders,”** December 2019 revision, is herein incorporated by reference and is available from the Board's office and on the Board's website, <http://somb.idaho.gov/>. (3-20-20)T

**05. The Sexual Offender Management Board's “Required Format for Juvenile Psychosexual Evaluation Reports,”** December 2019 revision, is herein incorporated by reference and is available from the Board's

office and on the Board's website, <http://somb.idaho.gov/>. (3-20-20)T

**06. The Sexual Offender Management Board's "Required Format for Adult Psychosexual Evaluation Reports,"** December 2019 revision, is herein incorporated by reference and is available from the Board's office and on the Board's website, <http://somb.idaho.gov/>. (3-20-20)T

**005. PUBLIC RECORDS ACT COMPLIANCE.**

**01. Administrative Rules.** The rules contained herein are promulgated pursuant to Title 67, Chapter 52, Idaho Code, and are public records. (3-20-20)T

**02. Public Records Requests.** Requests for public information are processed in compliance with the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (3-20-20)T

**006. -- 009. (RESERVED)**

**010. DEFINITIONS.**

**01. Board.** The Sexual Offender Management Board described in Section 18-8312, Idaho Code. (3-20-20)T

**02. Central Roster.** A roster of evaluators, treatment providers and polygraph examiners, who meet the qualifications and are certified by the Board to conduct psychosexual evaluations, provide sexual offender treatment or conduct post-conviction sexual offender polygraphs. (3-20-20)T

**03. Certificate Holder.** A person who has been approved by the Board and certified as meeting qualifications to conduct or assist in the conduct of psychosexual evaluations, provide sexual offender treatment or conduct post conviction sexual offender polygraphs. (3-20-20)T

**04. Certified Evaluator.** Either a psychiatrist licensed by this state pursuant to Title 54, Chapter 18, Idaho Code, or a master's or doctoral level mental health professional licensed by this state pursuant to Title 54, Chapters 23, 32, or 34, Idaho Code. The evaluator shall have by education, experience, and training, expertise in the assessment and treatment of sexual offenders, meet the qualifications, and be approved by the Board to perform psychosexual evaluations in this state, as described in Section 18-8314, Idaho Code. A person meeting this definition may be certified by the Board as either a senior/approved certified evaluator or an associate/supervised certified evaluator. (3-20-20)T

**05. Certified Post Conviction Sex Offender Polygraph Examiner.** A polygraph examiner who has received specialized post conviction sexual offender testing training, and who is certified by the Board to conduct post conviction sexual offender polygraph examinations as ordered or required by the court, Idaho Department of Correction, or Idaho Commission for Pardons and Parole. A person meeting this definition may be certified by the Board as either a senior/approved post conviction sexual offender polygraph examiner or an associate/supervised post conviction sexual offender polygraph examiner. (3-20-20)T

**06. Certified Treatment Provider.** A person who has been certified by the Board as meeting qualifications to provide sexual offender treatment as ordered by the court, Idaho Department of Correction, Idaho Commission for Pardons and Parole, or Idaho Department of Juvenile Corrections. Such person shall be licensed by this state or another state or jurisdiction as a psychiatrist, or a master's or doctoral level mental health professional, and who has by education, experience and training, expertise in the treatment of sexual offenders. A person meeting this definition may be certified by the Board as either a senior/approved sex offender treatment provider or an associate/supervised sex offender treatment provider. (3-20-20)T

**07. Client.** An adult or juvenile receiving services from a person certified by the Board pursuant to Section 18-8314, Idaho Code. (3-20-20)T

**08. Established Standards.** The "Idaho Sexual Offender Management Board Standards and Guidelines for Adult Sexual Offender Management Practices" and the "Idaho Sexual Offender Management Board

Standards and Guidelines for Practitioners, Evaluations and Treatment of Juvenile Sexual Offenders” as referenced in Section 004 of these rules and established pursuant to Section 18-8314, Idaho Code. (3-20-20)T

**09. Provisional/Supervised Psychosexual Evaluator.** A person with limited clinical experience and specialized training, who may be licensed or is working toward licensure as a psychiatrist or master’s or doctoral level mental health professional, who is authorized by the Board to assist with the conduct of psychosexual evaluations under the clinical supervision of a senior/approved psychosexual evaluator. A person with a provisional/supervised psychosexual evaluator certificate is not considered to be a certified evaluator as defined in Section 18-8303, Idaho Code or for the purposes of conducting a psychosexual evaluation in accordance with Section 18-8316, Idaho Code. Certification approval is specific to adult or juvenile clients. (3-20-20)T

**10. Provisional/Supervised Sex Offender Treatment Provider.** A person with limited clinical experience and specialized training, who may be licensed or is working toward licensure as a psychiatrist or master’s or doctoral level mental health professional, who is authorized by the Board to provide sexual offender treatment under the clinical supervision of a senior/approved sex offender treatment provider. Certification approval is specific to adult or juvenile clients. (3-20-20)T

**11. Psychosexual Evaluation.** A comprehensive evaluation and assessment specifically addressing a person’s sexual development, sexual deviancy, sexual history and risk of re-offense. A psychosexual evaluation for the purpose of these rules is conducted post conviction, as ordered by the court pursuant to Section 18-8316, Idaho Code, or Title 20, Chapter 5, Idaho Code, by a person who has been certified by the Board. (3-20-20)T

**12. Quality Assurance.** Processes established by the Board to review psychosexual evaluations and sexual offender treatment procedures to assure minimum standards and certificate holder qualifications are met. All quality assurance reviews will be conducted under the direction of the Board. (3-20-20)T

**13. Sexual Offender.** A person adjudicated or convicted of an offense as listed in Section 18-8304, Idaho Code, or a substantially equivalent offense under the laws of another state, territory, commonwealth, or other jurisdiction of the United States including tribal courts and military courts; or who has been adjudicated or convicted of a sexual offense-related crime. (3-20-20)T

**14. Sexual Offender Classification Board.** A board in effect from 1998 to 2011 that determined whether a sexual offender should be designated as a violent sexual predator; set certified evaluator qualifications and standards; and administered an evaluator certification process. (3-20-20)T

**15. Supervision.** (3-20-20)T

**a.** For purposes of clinical practice supervision for associate/supervised psychosexual evaluator or associate/supervised sex offender treatment provider certification, supervision is generally considered as face-to-face direct contact, documented teleconferencing, or interactive video conferencing with a Board-approved supervisor using a ratio of one (1) hour of clinical supervision for every twenty (20) hours of direct service provided; or (3-20-20)T

**b.** For purposes of clinical practice supervision for provisional/supervised psychosexual evaluator or provisional/supervised treatment provider certification, supervision is considered as continual face-to-face direct contact with a Board-approved supervisor for the first two hundred fifty (250) hours of direct service provided followed by face-to-face direct contact with a Board-approved supervisor using a ratio of one (1) hour of clinical supervision for every fifteen (15) hours of direct service provided; or (3-20-20)T

**c.** For purposes of supervision for associate/supervised post conviction sexual offender polygraph examiners, supervision is generally considered as face-to-face direct contact with a Board-approved supervisor during conduct of the supervisee’s first five (5) PCSOT polygraphs followed by review by a Board-approved supervisor of one (1) PCSOT polygraph for every five (5) PCSOT polygraphs conducted by the supervisee. Such review shall include chart and report review. (3-20-20)T

**16. Treatment.** For purposes of certification eligibility the provision of face-to-face individual, group, or family therapy with a person who has been investigated by law enforcement or child protective services for

commission of a sexual offense, or who has been adjudicated or convicted of a sexual offense or sexual offense-related crime. Treatment must be directly relevant to the client’s sexually offending behavior. (3-20-20)T

**17. Violent Sexual Predator.** A person who was designated as a violent sexual predator by the Sexual Offender Classification Board where such designation has not been removed by judicial action or otherwise. (3-20-20)T

**011. ABBREVIATIONS.**

**01. APA.** The American Polygraph Association. (3-20-20)T

**02. PCSOT.** “Post conviction sexual offender testing” is specialized instruction beyond the basic polygraph training for the purpose of specific polygraph testing of post convicted sexual offenders. (3-20-20)T

**03. SOCB.** The Sexual Offender Classification Board. (3-20-20)T

**04. SOMB.** The Sexual Offender Management Board. (3-20-20)T

**012. -- 019. (RESERVED)**

**020. RECORDKEEPING.**

**01. Certificate Holders.** Records on all applicants and certifications issued, renewed, denied, suspended, revoked, or otherwise monitored shall be maintained for a period not less than five (5) years. (3-20-20)T

**02. Violent Sexual Predators.** The file on a sexual offender who was designated as a violent sexual predator by the SOCB is maintained by the Board and is considered the official file for all purposes. (3-20-20)T

**021. BOARD MEETINGS.**

**01. Meetings.** The Board meets at least quarterly and may meet more frequently. All business of the Board is conducted in compliance with the open meeting law, pursuant to Title 67, Chapter 23, Idaho Code, and Section 18-8315, Idaho Code. (3-20-20)T

**02. Agenda.** An agenda for each regularly scheduled meeting is posted in compliance with Section 67-2343, Idaho Code. (3-20-20)T

**022. -- 039. (RESERVED)**

**040. CERTIFIED EVALUATOR QUALIFICATIONS.**

**01. Certified Evaluators.** Each evaluator who conducts or assists with the conduct of a psychosexual evaluation pursuant to Section 18-8316, Idaho Code, must meet the qualifications as set forth in the established standards issued by the Board and be certified by the Board. (3-20-20)T

**a.** Certification approval is specific to adult or juvenile clients. (3-20-20)T

**b.** A certificate holder may be separately approved to provide services to both adult and juvenile clients. (3-20-20)T

**02. Certification Requirements.** Minimum requirements for certification as a psychosexual evaluator include criteria, requirements, and expectations in the following categories: (3-20-20)T

**a.** Formal educational requirements; (3-20-20)T

**b.** Professional licensure requirements; (3-20-20)T

- c. Clinical experience requirements; (3-20-20)T
- d. Specialized training requirements; and (3-20-20)T
- e. Continuing education and professional development requirements. (3-20-20)T

**041. LEVELS OF PSYCHOSEXUAL EVALUATOR CERTIFICATION.**

The Board issues certificates within three (3) levels reflective of a person's training and experience specific to the population to be served: (3-20-20)T

**01. Senior/Approved Psychosexual Evaluator. (3-20-20)T**

a. Possesses a valid Idaho license to practice as a psychiatrist or master's or doctoral level psychologist, social worker, professional counselor, or marriage and family therapist. (3-20-20)T

b. Has engaged in a combination of direct, face-to-face clinical practice with sexual offenders and received specialized training for a minimum of one thousand five hundred (1,500) hours. Of this requirement, a minimum of five hundred (500) combined hours shall have been accumulated within the three (3) years immediately preceding an initial application for certification at this level, as set forth in the established standards issued by the Board; and (3-20-20)T

c. Has conducted a minimum of nine (9) psychosexual evaluations within the three (3) years preceding an initial application for certification at this level. (3-20-20)T

**02. Associate/Supervised Psychosexual Evaluator. (3-20-20)T**

a. Possesses a valid Idaho license to practice as a psychiatrist or master's or doctoral level psychologist, social worker, professional counselor, or marriage and family therapist. (3-20-20)T

b. Has engaged in a combination of supervised direct, face-to-face clinical practice with sexual offenders and received specialized training for a minimum of five hundred (500) hours. Of this requirement, a minimum of three hundred (300) combined hours shall have been accumulated within the three (3) years immediately preceding an initial application for certification at this level, as set forth in the established standards issued by the Board; (3-20-20)T

c. Has conducted a minimum of six (6) psychosexual evaluations within the three (3) years preceding an initial application for certification at this level; and (3-20-20)T

d. Shall only conduct psychosexual evaluations under the clinical practice supervision of a Board-approved supervisor as defined in Paragraph 010.15.a. of these rules, and under the terms of a formal clinical supervision agreement. (3-20-20)T

**03. Provisional/Supervised Psychosexual Evaluator. (3-20-20)T**

a. Possesses or is currently enrolled in a graduate program of study toward the attainment of a master's or doctoral degree, preferably with an emphasis on the application of forensic clinical practice; (3-20-20)T

b. Possesses or is pursuing a valid license to practice as a psychiatrist or master's or doctoral level psychologist, social worker, professional counselor, or marriage and family therapist; (3-20-20)T

c. May assist with the conduct of psychosexual evaluations only under the clinical supervision of a Board-approved supervisor as defined in Paragraph 010.15.b. of these rules, and under the terms of a formal clinical supervision agreement. Face-to-face supervision is required when providing direct clinical services to sex offenders. (3-20-20)T

**042. -- 079. (RESERVED)**

**080. SEXUAL OFFENDER TREATMENT PROVIDER QUALIFICATIONS.**

**01. Certified Sexual Offender Treatment Provider.** Each person who provides treatment to sexual offenders as ordered or required by the court, Idaho Department of Correction, Idaho Commission for Pardons and Parole, or the Idaho Department of Juvenile Corrections, in accordance with Section 18-8314, Idaho Code, must meet the qualifications as set forth in the established standards issued by the Board. (3-20-20)T

- a. Certification approval is specific to adult or juvenile clients. (3-20-20)T
- b. A certificate holder may be separately approved to provide services to both adult and juvenile clients. (3-20-20)T

**02. Certification Requirements.** Minimum requirements for certification as a sexual offender treatment provider include criteria, requirements, and expectations in the following categories: (3-20-20)T

- a. Formal educational requirements; (3-20-20)T
- b. Professional licensure requirements; (3-20-20)T
- c. Clinical experience requirements; (3-20-20)T
- d. Specialized training requirements; and (3-20-20)T
- e. Continuing education and professional development requirements. (3-20-20)T

**081. LEVELS OF SEXUAL OFFENDER TREATMENT PROVIDER CERTIFICATION.**

The Board issues certificates within three (3) levels reflective of a person's training and experience specific to the population to be served: (3-20-20)T

**01. Senior/Approved Sexual Offender Treatment Provider.** (3-20-20)T

- a. Possesses a valid license to practice in this state or another state or jurisdiction as a psychiatrist or master's or doctoral level psychologist, social worker, professional counselor, or marriage and family therapist; and (3-20-20)T
- b. Has engaged in a combination of direct, face-to-face clinical practice with sexual offenders and received specialized training for a minimum of one thousand five hundred (1,500) hours. Of this requirement, a minimum of five hundred (500) combined hours shall have been accumulated within the three (3) years immediately preceding an initial application for certification at this level, as set forth in the established standards issued by the Board. (3-20-20)T

**02. Associate/Supervised Sexual Offender Treatment Provider.** (3-20-20)T

- a. Possesses a valid license to practice in this state or another state or jurisdiction as a psychiatrist or master's or doctoral level psychologist, social worker, professional counselor, or marriage and family therapist. (3-20-20)T
- b. Has engaged in a combination of supervised direct, face-to-face clinical practice with sexual offenders and received specialized training for a minimum of five hundred (500) hours. Of this requirement, a minimum of three hundred (300) combined hours shall have been accumulated within the three (3) years immediately preceding an initial application for certification at this level, as set forth in the established standards issued by the Board; and (3-20-20)T
- c. Shall only provide treatment services under the clinical practice supervision of a Board-approved supervisor as defined in Paragraph 010.15.a. of these rules, and under the terms of a formal clinical supervision agreement. (3-20-20)T

**03. Provisional/Supervised Sexual Offender Treatment Provider. (3-20-20)T**

**a.** Possesses or is currently enrolled in a graduate program of study toward the attainment of a master's or doctoral degree, preferably with an emphasis on the application of forensic clinical practice; and (3-20-20)T

**b.** Possesses or is pursuing a valid license to practice as a psychiatrist or master's or doctoral level psychologist, social worker, professional counselor, or marriage and family therapist. (3-20-20)T

**c.** Shall only provide treatment services under the clinical supervision of a Board-approved supervisor as defined in Paragraph 010.15.b. of these rules, and under the terms of a formal clinical supervision agreement. Face-to-face supervision is required when providing direct clinical services to sex offenders. (3-20-20)T

**082. -- 099. (RESERVED)**

**100. SPECIALIZED TRAINING FOR PSYCHOSEXUAL EVALUATORS AND SEXUAL OFFENDER TREATMENT PROVIDERS.**

For initial certification as a psychosexual evaluator or sexual offender treatment provider, an applicant must have participated in specialized training in the field of sexual abuse, as set forth in the established standards issued by the Board. Sources for such training may be formal conferences, symposia, seminars and workshops in areas such as: (3-20-20)T

**01. Sexually Abusive Behavior.** Contemporary research regarding the etiology of sexually abusive behavior; (3-20-20)T

**02. Offending Behavior.** Research-identified risk factors for the development and continuation of sexually abusive/offending behavior; (3-20-20)T

**03. Assessment, Treatment, and Management of Adult or Juvenile Sex Offenders.** Contemporary research and practice in the areas of assessment, treatment, and management of adult or juvenile sex offenders; (3-20-20)T

**04. Specific Risk Assessment Tools.** Research-supported, sex offender-specific risk assessment tools; and (3-20-20)T

**05. Deviant Sexual Arousal and/or Interests.** Physiological assessment of deviant sexual arousal and/or interests. (3-20-20)T

**101. CONTINUING EDUCATION FOR PSYCHOSEXUAL EVALUATORS AND SEXUAL OFFENDER TREATMENT PROVIDERS.**

To maintain certification as a psychosexual evaluator or sexual offender treatment provider, a certificate holder must receive continuing education in the field of sexual abuse. (3-20-20)T

**01. Senior/Approved and Associate/Supervised Certification Levels.** A psychosexual evaluator or sexual offender treatment provider who is certified at a senior/approved or an associate/supervised level must receive a minimum of forty (40) hours of specialized continuing education in the form of formal conferences, symposia, seminars, workshops or on-line training over the course of the two-year period prior to each renewal period as set forth in the established standards issued by the Board. A certificate holder not meeting the continuing education requirements may formally petition the SOMB for a sixty-day extension to submit proof of meeting continuing education requirements. (3-20-20)T

**02. Provisional/Supervised Certification Level.** A provisional/supervised psychosexual evaluator or sexual offender treatment provider must receive a minimum of twenty (20) hours of specialized continuing education in the form of formal conferences, symposia, seminars, workshops or on-line training annually as set forth in the established standards issued by the Board. A certificate holder not meeting the continuing education requirements may formally petition the SOMB for a sixty-day extension to submit proof of meeting continuing education

requirements. (3-20-20)T

**102. -- 149. (RESERVED)**

**150. REQUEST FOR CONDITIONAL WAIVER.**

**01. Conditional Waiver.** The Board may consider an initial applicant's request for a time limited conditional waiver for deficiencies in experience and specialized training qualifications as set forth in the established standards issued by the Board. (3-20-20)T

**02. Duration.** A conditional waiver is limited to a period of two (2) years. Conditional waivers may not be extended or renewed after the third year. (3-20-20)T

**03. Frequency.** A conditional waiver request shall only be considered one (1) time for an initial certification application for psychosexual evaluator and sexual offender treatment provider applicants at the senior/approved or associate/supervised level. (3-20-20)T

**151. (RESERVED)**

**152. RECIPROCITY.**

The Board may consider reciprocity for any applicant who has been licensed or certified to conduct psychosexual evaluations or sexual offender treatment in another state or jurisdiction as set forth in the established standards issued by the Board. (3-20-20)T

**153. EXCLUSION.**

Each mental health employee of the Idaho Department of Correction or Idaho Department of Juvenile Corrections who conducts psychosexual evaluations or provides sexual offender treatment is exempt from the certification process. This exemption shall only apply while the employee is acting within the course and scope of his employment with the applicable agency. (3-20-20)T

**154. REQUEST FOR CHANGE IN CERTIFICATION LEVEL.**

**01. Request to Advance in Level of Certification.** A certificate holder may apply at any time during an effective certification to advance to the next higher level of certification provided that he meets the established qualifications and requirements as set forth in the established standards issued by the Board. (3-20-20)T

**02. Request to Change to a Less Independent Level of Certification.** A certificate holder may apply at any time during an effective certification for a reduction in his level of certification in the event that he no longer meets the established qualifications and requirements for his current level of certification as set forth in the established standards issued by the Board. (3-20-20)T

**155. APPLICATION FOR CHANGE IN CERTIFICATION LEVEL.**

Application for change in certification level shall be on a form provided by the Board and submitted with the required supporting documentation and applicable renewal application processing fee: (3-20-20)T

**01. Advance to Senior/Approved Level of Certification Application Fee.** A non-refundable renewal application fee payable to the Board in the amount of fifty dollars (\$50) provided that the application is submitted three hundred sixty-five (365) days or more after the most recent effective certification date. The application fee shall be waived if submission is within three hundred sixty-five (365) days from the most recent effective certification date. (3-20-20)T

**02. Advance to Associate/Supervised Level of Certification Application Fee.** A non-refundable renewal application fee payable to the Board in the amount of thirty dollars (\$30) provided that the application is submitted three hundred sixty-five (365) days or more after the most recent effective certification date. The application fee shall be waived if submission is within three hundred sixty-five (365) days from the most recent effective certification date. (3-20-20)T

**03. Change to a Less Independent Level of Certification Application Fee.** A non-refundable renewal application fee payable to the Board in the amount of fifty dollars (\$50) provided that the application is submitted three hundred sixty-five (365) days or more after the most recent effective certification date. The application fee shall be waived if submission is within three hundred sixty-five (365) days from the most recent effective certification date. (3-20-20)T

**156. -- 199. (RESERVED)**

**200. POST CONVICTION SEXUAL OFFENDER POLYGRAPH EXAMINER QUALIFICATIONS.**

**01. Certified Examiner.** Each person who conducts post conviction sexual offender polygraphs as ordered or required by the court, Idaho Department of Correction, or Idaho Commission for Pardons and Parole, in accordance with Section 18-8314, Idaho Code, must meet the qualifications as set forth in the established standards issued by the Board and be certified by the Board. There shall not be a separate certification specific to adult or juvenile clients. (3-20-20)T

**02. Certification Requirements.** Minimum requirements for certification as a sexual offender treatment provider include criteria and requirements in the following categories: (3-20-20)T

- a.** Educational requirements; (3-20-20)T
- b.** Experience requirements; (3-20-20)T
- c.** Specialized training requirements; and (3-20-20)T
- d.** Continuing education and professional development requirements. (3-20-20)T

**201. LEVELS OF POST CONVICTION SEXUAL OFFENDER POLYGRAPH EXAMINER CERTIFICATION.**

The Board issues certificates within two (2) levels reflective of a person's experience in conducting post conviction sexual offender polygraphs. (3-20-20)T

**01. Senior/Approved Post Conviction Sexual Offender Polygraph Examiner.** (3-20-20)T

- a.** Has graduated from an APA-accredited polygraph school; (3-20-20)T
- b.** Has successfully completed a minimum of forty (40) hours of formal post conviction sexual offender polygraph testing beyond the basic polygraph training course requirements from an APA-accredited program or school; and (3-20-20)T
- c.** Has successfully completed a minimum of one hundred (100) polygraph examinations. Of this requirement, a minimum of ten (10) sexual history polygraph examinations and a minimum of ten (10) PCSOT maintenance polygraph examinations shall have been conducted within the three (3) years immediately preceding an initial application for certification at this level, as set forth in the established standards issued by the Board; (3-20-20)T

**02. Associate/Supervised Post Conviction Sexual Offender Polygraph Examiner.** (3-20-20)T

- a.** Has graduated from an APA-accredited polygraph school; (3-20-20)T
- b.** Has successfully completed a minimum of forty (40) hours of formal post conviction sexual offender polygraph testing beyond the basic polygraph training course requirements from an APA-accredited program or school; and (3-20-20)T
- c.** Shall only conduct polygraphs under the supervision of a Board-approved supervisor as defined in Paragraph 010.15.c. of these rules, and under the terms of a formal supervision agreement. (3-20-20)T

202. -- 230. (RESERVED)

**231. CONTINUING EDUCATION FOR POST CONVICTION SEXUAL OFFENDER POLYGRAPH EXAMINERS.**

To maintain certification as a post conviction sexual offender polygraph examiner, a certificate holder must receive a minimum of thirty (30) hours of continuing education related to the field of polygraphy in the form of formal conferences, symposia, seminars, or workshops over the course of the two-year period prior to each renewal period as set forth in the established standards issued by the Board. A certificate holder not meeting the continuing education requirements may formally petition the SOMB for a sixty-day extension to submit proof of meeting continuing education requirements. (3-20-20)T

232. -- 299. (RESERVED)

**300. STANDARDS FOR PROFESSIONAL CONDUCT AND CLIENT RELATIONS.**

**01. General Considerations for Certified Evaluators and Certified Treatment Providers.** Each person who is certified by the Board to conduct or assist with the conduct of psychosexual evaluations or provide sexual offender treatment shall: (3-20-20)T

**a.** Adhere to the ethical principles and codes, and all practice standards and guidelines for the person's respective discipline and area of professional licensure; (3-20-20)T

**b.** Be knowledgeable of statutes and scientific data relevant to specialized sexual offender evaluation and sexual offender treatment; (3-20-20)T

**c.** Be familiar with the statutory requirements for assessments and reports for the courts, pursuant to Section 18-8316, Idaho Code; (3-20-20)T

**d.** Be committed to community protection and safety; (3-20-20)T

**e.** Provide services in a manner that ensures humane and ethical treatment of clients; (3-20-20)T

**f.** Conduct testing in accordance with the person's licensing body, qualifications and experience, and in a manner that ensures the integrity of testing data; (3-20-20)T

**g.** Avoid relationships with clients that may constitute a conflict of interest, impair professional judgment and risk exploitation; and (3-20-20)T

**h.** Have no sexual relationships with any client. (3-20-20)T

**02. General Considerations for Certified Post Conviction Sexual Offender Polygraph Examiners.** Each person who is certified by the Board to conduct post conviction sexual offender polygraph examinations shall: (3-20-20)T

**a.** Adhere to the ethical principles and codes, and all practice standards and guidelines for the person's discipline, area of professional practice, or licensure as promulgated by any applicable regulatory board or licensing authority; (3-20-20)T

**b.** Adhere to the standards and guidelines specific to post conviction sexual offender testing as promulgated by the APA; (3-20-20)T

**c.** Adhere to the ethical principles and codes, and all practice standards and guidelines for the administration of polygraph examinations generally, as promulgated by the APA or the American Association of Police Polygraphists, as referenced in Section 004 of these rules; (3-20-20)T

**d.** Avoid relationships with clients that may constitute a conflict of interest, impair professional judgment and risk exploitation; (3-20-20)T

- e. Have no sexual relationships with any client; (3-20-20)T
- f. Take factors such as age, mental capacity and co-occurring mental health concerns into consideration when utilizing polygraphy with juvenile offenders; (3-20-20)T
- g. Be committed to community protection and safety; and (3-20-20)T
- h. Provide services in a manner that ensures humane and ethical treatment of clients. (3-20-20)T

**301. -- 329. (RESERVED)**

**330. INITIAL CERTIFICATION APPLICATION.**

An applicant seeking certification by the Board must submit a completed application on forms provided by the Board for the applicant's area of practice and client population, if applicable, accompanied by documentation as outlined in the established standards issued by the Board and an initial certification application fee made payable to the Board. (3-20-20)T

**331. EXPIRATION AND RENEWAL OF CERTIFICATION.**

No certification shall be renewed, except as follows: (3-20-20)T

**01. Renewal.** At least thirty (30) days prior to the expiration of a certification, a certificate holder shall apply for renewal of the certification on forms provided by the Board for the applicant's area of practice and client population, if applicable, accompanied by documentation as outlined in the established standards issued by the Board and a renewal certification application fee made payable to the Board. (3-20-20)T

**02. Removal from the Roster.** A certificate holder who has not renewed his certification shall be removed from the central roster. (3-20-20)T

**03. Renewal After Certification Expiration.** A certificate holder whose certification has expired may reapply at any time for certification as follows: (3-20-20)T

**a.** A certificate holder whose certification has been expired for less than three hundred sixty-five (365) days may reapply following the certification renewal process as referenced in Subsection 331.01 of these rules. (3-20-20)T

**b.** A certificate holder whose certification has been expired for three hundred sixty-five (365) days or longer may reapply for certification following the initial certification process as referenced in Section 330 of these rules. (3-20-20)T

**332. FEES.**

The following non-refundable application processing fees are established by the Board: (3-20-20)T

**01. Initial Certification.** Application processing fees for initial certification are: (3-20-20)T

**a.** Senior/Approved Psychosexual Evaluator, Treatment Provider, or Post Conviction Sexual Offender Polygraph Examiner – Seventy-five dollars (\$75). (3-20-20)T

**b.** Associate/Supervised Psychosexual Evaluator, Treatment Provide, or Post Conviction Sexual Offender Polygraph Examiner – Seventy-five dollars (\$75). (3-20-20)T

**c.** Provisional/Supervised Psychosexual Evaluator or Treatment Provider – Fifty dollars (\$50). (3-20-20)T

**02. Renewal Certification.** Application processing fees for renewal certification are: (3-20-20)T

**a.** Senior/Approved Psychosexual Evaluator, Treatment Provider, or Post Conviction Sexual Offender

Polygraph Examiner – Fifty dollars (\$50). (3-20-20)T

**b.** Associate/Supervised Psychosexual Evaluator, Treatment Provider, or Post Conviction Sexual Offender Polygraph Examiner – Fifty dollars (\$50). (3-20-20)T

**c.** Provisional/Supervised Psychosexual Evaluator or Treatment Provider – Thirty dollars (\$30). (3-20-20)T

**03. Change in Certification Level.** Application processing fees for a change in certification level are as referenced in Section 155 of these rules. (3-20-20)T

**04. Continuing Education Extension.** Application processing fee for a request for an extension of time to complete continuing education requirements is twenty-five dollars (\$25). (3-20-20)T

**333. CERTIFICATION PERIOD.**

Provided that the certificate holder continues to meet the criteria for certification and such certification has not been suspended, revoked, otherwise restricted or placed on voluntary inactive status, the effective period for certification is as follows: (3-20-20)T

**01. Senior/Approved Psychosexual Evaluator or Treatment Provider.** Certification shall remain in effect for two (2) years. Certification renewal shall typically occur during the certificate holder's month of birth two (2) years following initial certification and every two (2) years thereafter. (3-20-20)T

**02. Associate/Supervised Psychosexual Evaluator or Treatment Provider.** Certification shall remain in effect for two (2) years. Certification renewal shall typically occur during the certificate holder's month of birth two (2) years following initial certification and every two (2) years thereafter. (3-20-20)T

**03. Provisional/Supervised Psychosexual Evaluator or Treatment Provider.** Certification shall remain in effect for one (1) year. Certification renewal shall typically occur during the certificate holder's month of birth one (1) year following initial certification and annually thereafter. Certification at the provisional/supervised level is limited to a period of three (3) years, at which time the certificate holder must meet minimum requirements for upgrade to the associate/supervised level to be eligible for certification renewal. (3-20-20)T

**04. Senior/Approved Post Conviction Sexual Offender Polygraph Examiner.** Certification shall remain in effect for two (2) years. Certification renewal shall typically occur during the certificate holder's month of birth two (2) years following initial certification and every two (2) years. (3-20-20)T

**05. Associate/Supervised Post Conviction Sexual Offender Polygraph Examiner.** Certification shall remain in effect for two (2) years from the certificate holder's month of birth following initial certification. Thereafter, the certificate holder must meet minimum requirements for upgrade to the senior/approved level to be eligible for certification renewal. (3-20-20)T

**334. APPLICABILITY AND NOTIFICATION OF CHANGES.**

Certification shall only apply to the person named therein and is not transferable. The Board must be notified in writing within thirty (30) days of any change in the certificate holder's name, business address or phone number. (3-20-20)T

**335. REQUEST FOR PLACEMENT ON INACTIVE STATUS.**

Any certificate holder may request placement on inactive status by submitting a written request to the SOMB specifying the reasons for the request and indicating the inactive status effective date. A certificate holder who is placed on inactive status shall be removed from the central roster of certified evaluators, treatment providers and post conviction sexual offender polygraph examiners. A person who has been placed on inactive status may reapply for certification in accordance with the established standards issued by the Board. (3-20-20)T

**336. -- 349. (RESERVED)**

**350. CENTRAL ROSTER OF PSYCHOSEXUAL EVALUATORS, SEXUAL OFFENDER TREATMENT PROVIDERS AND POST CONVICTION SEXUAL OFFENDER POLYGRAPH EXAMINERS.**

**01. Identification.** The Board shall publish a central roster of psychosexual evaluators, sexual offender treatment providers and post conviction sexual offender polygraph examiners pursuant to Sections 18-8312 through 18-8316, Idaho Code. The central roster shall indicate: (3-20-20)T

- a. The certificate holder's name; (3-20-20)T
  - b. The certificate holder's business address and telephone number; (3-20-20)T
  - c. Whether the certificate holder is certified or approved by conditional waiver; (3-20-20)T
  - d. The category and applicable level of certification; (3-20-20)T
  - e. The expiration date of the certification or conditional waiver; (3-20-20)T
  - f. Whether the certificate holder is approved to provide services to adult or juvenile clients, or both; (3-20-20)T
- and
- g. Current formal disciplinary action imposed on a certificate holder by the Board. (3-20-20)T

**02. Availability.** A copy of the central roster may be obtained from the Board, and shall be posted on the Board's website. (3-20-20)T

**351. -- 379. (RESERVED)**

**380. DENIAL AND GROUNDS FOR DISCIPLINE.**

**01. Cause.** The Board may deny, suspend, revoke, restrict or otherwise monitor certification of an applicant or certificate holder for the following reasons: (3-20-20)T

- a. Failure to meet or maintain the minimum eligibility criteria and qualifications for certification; (3-20-20)T
- b. Falsification of any information or documentation, or concealing a material fact in the application for certification, or during any investigation or quality assurance review; (3-20-20)T
- c. Misrepresentation of current level or designation of certification, or practicing outside the scope or current level or designation of certification; (3-20-20)T
- d. Failure to comply with Section 18-8316, Idaho Code, any portion of this chapter, or the established standards issued by the Board; (3-20-20)T
- e. Failure to demonstrate an understanding of counter-transference issues and a broad knowledge of sexuality in the general populations, and basic theories and typologies of sexual offenders and sexual assault victims; (3-20-20)T
- f. Failure or refusal to comply with the quality assurance review process or to cooperate during any investigation concerning certification, including failure or refusal to provide data, information or records as requested by the Board or designee; (3-20-20)T
- g. Failure to comply with any informal disciplinary measures, remedial steps, corrective action or final order issued by the Board as a condition of continued certification, including practicing on a suspended or restricted certification; (3-20-20)T

- h.** Engaging in conduct that departs from the established standards issued by the Board; (3-20-20)T
- i.** Revocation, suspension, limitation, reprimand, voluntary surrender or any other disciplinary action or proceeding, including investigation against a license, certificate or privilege to practice by a professional licensing board; (3-20-20)T
- j.** Conviction of, or entry of a withheld judgment or plea of nolo contendere to conduct constituting a felony or crime of moral turpitude; or (3-20-20)T
- k.** Failure to notify the Board in writing of any circumstances that affect a certificate holder's eligibility for certification, including any disciplinary action taken by a respective professional licensing board or conviction of any felony or crime of moral turpitude. (3-20-20)T

**02. Mirroring Orders.** If a state licensing board with authority over a certificate holder's professional license takes action against the professional license which suspends, restricts, limits, or affects the certificate holder's ability to provide services pursuant to their SOMB certification, the SOMB is authorized to issue an order suspending, restricting, limiting, or otherwise affecting the certificate holder's SOMB certification in the same fashion as the professional licensing board's action. (3-20-20)T

**03. Emergency Suspension.** Pursuant to Section 67-5247, Idaho Code, if the Board finds that public health, safety or welfare requires immediate emergency action the Board may take such action necessary to prevent or avoid the immediate danger as outlined in the established standards issued by the Board. (3-20-20)T

**381. REAPPLICATION FOLLOWING CERTIFICATION DENIAL OR DISCIPLINARY ACTION.**

**01. Denial.** An applicant whose certification was denied may reapply when evidence is available confirming that he meets the required qualifications for the respective area of practice as referenced in Sections 040, 080 or 200 of these rules; (3-20-20)T

**02. Suspension.** A person whose certification has been suspended may apply for reinstatement after the suspension period has expired and following completion of any remedial steps or corrective action ordered by the Board, as outlined in the established standards issued by the Board; (3-20-20)T

**03. Restriction.** A person whose certification has been restricted or otherwise monitored may request removal of the restrictions after the restriction period has expired. If no period of restriction was established, the request may be made following completion of any remedial steps or corrective action ordered by the Board, as outlined in the established standards issued by the Board; (3-20-20)T

**04. Revocation.** A person whose certification has been revoked may request reinstatement after the revocation period has expired, as outlined in the established standards issued by the Board. The Board shall have discretion to impose any monitoring conditions upon a certificate holder whose certification has been reinstated following revocation; (3-20-20)T

**05. Withheld Discipline and Probation.** A certificate holder whose formal discipline was withheld and placed on probationary status may request reinstatement after the probationary period has expired and any conditions imposed have been met, as outlined in the established standards issued by the Board. (3-20-20)T

**382. LEVELS OF DISCIPLINE.**

The levels of disciplinary action utilized by the Board against a certificate holder may generally include formal discipline, informal discipline or withholding formal discipline and probation. (3-20-20)T

**383. FORMAL DISCIPLINE.**

Formal disciplinary action consists of suspension, revocation or other restrictions. Formal disciplinary actions restrict or otherwise impede a certificate holder's ability to perform sexual offender services consistent with their certification level. (3-20-20)T

**384. INFORMAL DISCIPLINE.**

Informal disciplinary action consists of monitoring a certificate holder or issuing letters of informal reprimand or counseling. Informal disciplinary actions do not restrict or otherwise impede a certificate holder's ability to perform sexual offender services consistent with their certification level. (3-20-20)T

**385. WITHHOLDING FORMAL DISCIPLINE AND PROBATION.**

The Board may withhold the imposition of formal discipline and place the certificate holder on a period of probation not to exceed two (2) years. The Board may impose any conditions of probation as deemed necessary to ensure compliance with the established standards issued by the Board. Such probationary conditions may include attendance at specialized training, review of the certificate holder's work product by the Board or its designee, or supervised practice by a senior level certificate holder. Failure to comply with a probationary condition imposed by the Board may result in the imposition of any suspended disciplinary action. (3-20-20)T

**386. COMPLAINTS.**

Any individual may file against a certificate holder by submitting a written complaint to the Board, as outlined in the established standards issued by the Board. (3-20-20)T

**01. Initial Review.** The Board's designee shall conduct an initial review of any complaint or information received to determine if the Board has jurisdiction. (3-20-20)T

**02. Investigation.** The Board's designee shall conduct an investigation upon a determination that the Board has jurisdiction and a possible violation may exist. Investigative findings shall be presented to the Board as outlined in the established standards issued by the Board. (3-20-20)T

**387. DISCIPLINARY PROCESS.**

The disciplinary process may be initiated as a result of a complaint received by the Board or a quality assurance review, or be based upon a review of information submitted to the Board during the certification process, monitoring process or while under formal probation. (3-20-20)T

**388. -- 399. (RESERVED)**

**400. QUALITY ASSURANCE.**

Policies for technical review and quality assurance of psychosexual evaluation reports and sexual offender treatment services and polygraph examinations are outlined in the established standards issued by the Board. (3-20-20)T

**401. -- 449. (RESERVED)**

**450. PSYCHOSEXUAL EVALUATIONS.**

**01. Adult Psychosexual Evaluations.** Pre-sentence psychosexual evaluations on adult sexual offenders shall be conducted pursuant to the established standards issued by the Board and written utilizing the "Required Format for Psychosexual Evaluation Reports," as referenced in Section 004 of these rules. (3-20-20)T

**02. Juvenile Psychosexual Evaluations.** Psychosexual evaluations on juveniles adjudicated for sexual offenses shall be conducted in accordance with the established standards issued by the Board and written utilizing the "Required Format for Juvenile Psychosexual Evaluation Reports," incorporated by reference in Section 004 of these rules. (3-20-20)T

**03. Testing.** The evaluator shall utilize testing instrumentation and assessment measures as outlined in the established standards issued by the Board. (3-20-20)T

**04. Client Participation.** The client being evaluated may refuse or decline to participate in any testing, assessment measure, or physiological measure used for the pre-sentence psychosexual evaluation. The evaluator shall document the client's refusal or declination in the psychosexual evaluation report. (3-20-20)T

**451. -- 479. (RESERVED)**

**480. POLYGRAPH EXAMINATIONS.**

Post conviction sexual offender polygraph examinations performed pursuant to an order or requirement by the court

or requested by the Idaho Department of Correction or Idaho Commission for Pardons and Parole shall be conducted by a person certified by the Board to conduct such examinations and shall follow the established standards issued by the Board. (3-20-20)T

**481. -- 499. (RESERVED)**

**500. SEXUAL OFFENDER TREATMENT.**

Specialized sexual offender treatment conducted pursuant to an order or requirement by the court, the Idaho Department of Correction, the Idaho Commission for Pardons and Parole or the Idaho Department of Juvenile Corrections shall be conducted by a person certified by the Board to conduct such treatment and shall follow the established standards issued by the Board. (3-20-20)T

**501. -- 999. (RESERVED)**

## IDAPA 58 – DEPARTMENT OF ENVIRONMENTAL QUALITY

### DOCKET NO. 58-0000-2000F (FEE RULE)

#### NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE

**EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking is the adjournment date of the Second Regular Session of the 65th Idaho Legislature - March 20, 2020.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given that the Idaho Board of Environmental Quality (Board) has adopted temporary fee rules. The action is authorized pursuant to the following Idaho Code provisions. Citations to any federal statutes that provide the basis of authority or requirement for the rulemaking are also included.

- IDAPA 58.01.01 – Sections 39-105, 39-107, 39-114(4), 39-115(3), and 39-116B, Idaho Code; Clean Air Act, 42 U.S.C. § 7401 *et seq.*
- IDAPA 58.01.05 – Chapters 44 and 58, Title 39, Idaho Code; Solid Waste Disposal Act, 42 U.S.C. § 6901 *et seq.*
- IDAPA 58.01.06 – Sections 39-105, 39-107, and 39-7408C, Idaho Code; Solid Waste Disposal Act, 42 U.S.C. § 6901 *et seq.*
- IDAPA 58.01.07 – Chapters 1 and 88, Title 39, Idaho Code; Solid Waste Disposal Act, 42 U.S.C. §§ 6991 – 6991m
- IDAPA 58.01.08 – Chapter 1, Title 39, Idaho Code; Chapter 21, Title 37, Idaho Code; Safe Drinking Water Act, 42 U.S.C. § 300f *et seq.*
- IDAPA 58.01.09 – Sections 39-104A, 39-105, and 39-107, Idaho Code
- IDAPA 58.01.11 – Sections 39-105, 39-107, 39-120, and 39-126, Idaho Code
- IDAPA 58.01.12 – Chapters 1 and 36, Title 39, Idaho Code; Clean Water Act, 33 U.S.C. § 1251 *et seq.*
- IDAPA 58.01.13 – Chapter 1, Title 39, Idaho Code
- IDAPA 58.01.14 – Sections 39-105, 39-107, and 39-119, Idaho Code
- IDAPA 58.01.18 – Sections 39-105, 39-107, 39-4405, and 39-7210, Idaho Code
- IDAPA 58.01.20 – Chapters 1 and 76, Title 39, Idaho Code; Safe Drinking Water Act, 42 U.S.C. § 300f *et seq.*
- IDAPA 58.01.25 – Chapter 1, Title 39, Idaho Code; Clean Water Act, 33 U.S.C. §§ 1342 and 1345

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting temporary rules:

On February 13, 2020, the Board adopted as temporary fee rules the IDAPA 58 rule chapters as they were presented in the pending rule dockets adopted by the Board in 2019 and submitted to the Second Regular Session of the 65th Idaho Legislature for review (2019 pending rule dockets). The 2019 pending rule dockets are posted in the [2020 Legislative Rules Review Books](#). The IDAPA 58 fee rule chapters and the 2019 pending rule dockets are listed below. More information regarding this rule docket is available at <http://www.deq.idaho.gov/laws-rules-etc/deq-rulemakings/58-0000-2000f/>.

- IDAPA 58.01.01, *Rules for the Control of Air Pollution in Idaho*
  - Docket No. 58-0101-1903
  - Docket No. 58-0101-1904
  - Docket No. 58-0101-1905
- IDAPA 58.01.05, *Rules and Standards for Hazardous Waste*
  - Docket No. 58-0000-1900F
  - Docket No. 58-0105-1901
- IDAPA 58.01.06, *Solid Waste Management Rules*
  - Docket No. 58-0000-1900F

- IDAPA 58.01.07, *Rules Regulating Underground Storage Tank Systems*
  - Docket No. 58-0000-1900F
- IDAPA 58.01.08, *Idaho Rules for Public Drinking Water Systems*
  - Docket No. 58-0000-1900F
- IDAPA 58.01.09, *Rules Regulating Swine Facilities*
  - Docket No. 58-0109-1901
- IDAPA 58.01.11, *Ground Water Quality Rule*
  - Docket No. 58-0111-1901
- IDAPA 58.01.12, *Rules for Administration of Water Pollution Control Loans*
  - Docket No. 58-0000-1900F
- IDAPA 58.01.13, *Rules for Ore Processing by Cyanidation*
  - Docket No. 58-0000-1900F
- IDAPA 58.01.14, *Rules Governing Fees for Environmental Operating Permits, Licenses, and Inspection Services*
  - Docket No. 58-0000-1900F
- IDAPA 58.01.18, *Idaho Land Remediation Rules*
  - Docket No. 58-0000-1900F
- IDAPA 58.01.20, *Rules for Administration of Drinking Water Loan Program*
  - Docket No. 58-0000-1900F
- IDAPA 58.01.25, *Rules Regulating the Idaho Pollutant Discharge Elimination System Program*
  - Docket No. 58-0000-1900F

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. DEQ would not be able to fulfill its statutory obligations without these rules. The state of Idaho would lose primacy over federal environmental laws without these rules. These rules are central to DEQ's mission to protect human health and the quality of Idaho's air, land, and water.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), Idaho Code, the Governor has found that the fees or charges being imposed are justified and necessary to avoid immediate danger and the fees are described below. This rulemaking does not impose a fee or charge beyond what was previously approved and codified.

The fees authorized in the Idaho Code sections listed below are part of the agency's 2021 budget that relies upon the existence of these fees or charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget. Temporary adoption of these rules is necessary to ensure that (1) the state of Idaho maintains primacy over federal programs; (2) DEQ is able to continue to offer services such as permit and license issuance; and (3) DEQ is able to continue to administer programs such as voluntary remediation, and the wastewater and drinking water loan programs.

Listed below are the DEQ fee rule chapters, fee categories, and the statutory authority for imposition of the fees.

- IDAPA 58.01.01, *Rules for the Control of Air Pollution in Idaho* – Idaho Code § 39-114(4), crop residue burn fee; Idaho Code § 39-115(3), application fee for industrial or commercial air pollution source permits; Idaho Code § 39-116B, motor vehicle inspection fee;
- IDAPA 58.01.05, *Rules and Standards for Hazardous Waste* – Idaho Code § 39-5813(3), hazardous waste siting license fee;
- IDAPA 58.01.06, *Solid Waste Management Rules* – Idaho Code § 39-7408(C), commercial solid waste siting license fee;
- IDAPA 58.01.07, *Rules Regulating Underground Storage Tank Systems* – Idaho Code §§ 39-119, 39-8802(d), annual UST fee;
- IDAPA 58.01.08, *Idaho Rules for Public Drinking Water Systems* – Idaho Code § 39-119, annual drinking water system fee;
- IDAPA 58.01.09, *Rules Regulating Swine Facilities* – Idaho Code § 39-119, permit application fee;
- IDAPA 58.01.11, *Ground Water Quality Rule* – Idaho Code § 39-119, point of compliance application fee;
- IDAPA 58.01.12, *Rules for Administration of Water Pollution Control Loans* – Idaho Code §§ 39-119, 39-3627(4), loan fee to offset costs of administering loan program;
- IDAPA 58.01.13, *Rules for Ore Processing by Cyanidation* – Idaho Code § 39-118A(2)(c), permit application fee;
- IDAPA 58.01.14, *Rules Governing Fees for Environmental Operating Permits, Licenses, and Inspection Services* – Idaho Code § 39-119, fees for environmental operating permits, licenses, inspection services and waiver application processing;
- IDAPA 58.01.18, *Idaho Land Remediation Rules* – Idaho Code § 39-7210(5), voluntary remediation program application fee;
- IDAPA 58.01.20, *Rules for Administration of Drinking Water Loan Program* – Idaho Code §§ 39-119, 39-3627(4), loan fee to offset costs of administering loan program;
- IDAPA 58.01.25, *Rules Regulating the Idaho Pollutant Discharge Elimination System Program* – Idaho Code § 39-175C.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary fee rules, contact the undersigned.

DATED this 13th day of February, 2020

Paula J. Wilson

# IDAPA 58 – DEPARTMENT OF ENVIRONMENTAL QUALITY

## 58.01.01 – RULES FOR THE CONTROL OF AIR POLLUTION IN IDAHO

### 000. LEGAL AUTHORITY.

The Board of Environmental Quality is authorized to promulgate rules for the Department of Environmental Quality governing air pollution pursuant to Sections 39-105 and 39-107, Idaho Code. (3-20-20)T

### 001. TITLE AND SCOPE.

These rules are titled IDAPA 58.01.01, Rules of the Department of Environmental Quality, IDAPA 58.01.01, “Rules for the Control of Air Pollution in Idaho.” These rules provide for the control of air pollution in Idaho. (3-20-20)T

### 002. WRITTEN INTERPRETATIONS.

The Department of Environmental Quality has written statements which pertain to the interpretation of the rules of this chapter, or to the documentation of compliance with the rules of this chapter. The written statements are available for public inspection and copying at cost at the Department of Environmental Quality, 1410 N. Hilton, Boise, Idaho 83706-1255 at (208) 373-0502. (3-20-20)T

### 003. ADMINISTRATIVE APPEALS.

Persons may be entitled to appeal agency actions authorized under this chapter pursuant to IDAPA 58.01.23, “Rules of Administrative Procedure Before the Board of Environmental Quality.” (3-20-20)T

### 004. (RESERVED)

### 005. DEFINITIONS.

The purpose of Sections 005 through 008 is to assemble definitions used throughout this chapter. (3-20-20)T

### 006. GENERAL DEFINITIONS.

**01. Accountable.** Any SIP emission trading program must account for the aggregate effect of the emissions trades in the demonstration of reasonable further progress, attainment, or maintenance. (3-20-20)T

**02. Act.** The Environmental Protection and Health Act of 1972 as amended (Sections 39-101 through 39-130, Idaho Code). (3-20-20)T

**03. Actual Emissions.** The actual rate of emissions of a pollutant from an emissions unit as determined in accordance with the following: (3-20-20)T

**a.** In general, actual emissions as of a particular date shall equal the average rate, in tons per year, at which the unit actually emitted the pollutant during a two-year period which precedes the particular date and which is representative of normal source operation. The Department shall allow the use of a different time period upon a determination that it is more representative of normal source operation. Actual emissions shall be calculated using the unit’s actual operating hours, production rates, and types of materials processed, stored, or combusted during the selected time period. (3-20-20)T

**b.** The Department may presume that the source-specific allowable emissions for the unit are equivalent to actual emissions of the unit. (3-20-20)T

**c.** For any emissions unit (other than an electric utility steam generating unit as specified below) which has not yet begun normal operations on the particular date, actual emissions shall equal the potential to emit of the unit on that date. (3-20-20)T

**d.** For an electric utility steam generating unit (other than a new unit or the replacement of an existing unit) actual emissions of the unit following the physical or operational change shall equal the representative actual annual emissions of the unit, provided the source owner or operator maintains and submits to the Department, on an annual basis for a period of five (5) years from the date the unit resumes regular operation, information demonstrating that the physical or operational change did not result in an emissions increase. A longer period, not to exceed ten (10) years may be required by the Department if it determines such a period to be more representative of normal source post-change operations. (3-20-20)T

**04. Adverse Impact on Visibility.** Visibility impairment which interferes with the management,

protection, preservation, or enjoyment of the visitor's visual experience of the Federal Class I Area. This determination must be made on a case-by-case basis taking into account the geographic extent, intensity, duration, frequency, and time of visibility impairments, and how these factors correlate with: (3-20-20)T

- a. Times of visitor use of the Federal Class I Area; and (3-20-20)T
- b. The frequency and timing of natural conditions that reduce visibility. (3-20-20)T
- c. This term does not include affects on integral vistas when applied to 40 CFR 51.307. (3-20-20)T

**05. Air Pollutant/Air Contaminant.** Any substance, including but not limited to, dust, fume, gas, mist, odor, smoke, vapor, pollen, soot, carbon or particulate matter or any combination thereof. (3-20-20)T

**06. Air Pollution.** The presence in the outdoor atmosphere of any air pollutant or combination thereof in such quantity of such nature and duration and under such conditions as would be injurious to human health or welfare, to animal or plant life, or to property, or to interfere unreasonably with the enjoyment of life or property. (3-20-20)T

**07. Air Quality.** The specific measurement in the ambient air of a particular air pollutant at any given time. (3-20-20)T

**08. Air Quality Criterion.** The information used as guidelines for decisions when establishing air quality goals and air quality standards. (3-20-20)T

**09. Allowable Emissions.** The allowable emissions rate of a stationary source or facility calculated using the maximum rated capacity of the source or facility (unless the source or facility is subject to federally enforceable limits which restrict the operating rate, or hours of operation, or both) and the most stringent of the following: (3-20-20)T

- a. The applicable standards set forth in 40 CFR part 60 and 61; (3-20-20)T
- b. Any applicable State Implementation Plan emissions limitation including those with a future compliance date; or (3-20-20)T
- c. The emissions rate specified as a federally enforceable permit condition, including those with a future compliance date. (3-20-20)T

**10. Ambient Air.** That portion of the atmosphere, external to buildings, to which the general public has access. (3-20-20)T

**11. Ambient Air Quality Violation.** Any ambient concentration that causes or contributes to an exceedance of a national ambient air quality standard as determined by 40 CFR Part 50. (3-20-20)T

**12. Atmospheric Stagnation Advisory.** An air pollution alert declared by the Department when air pollutant impacts have been observed and/or meteorological conditions are conducive to additional air pollutant buildup. (3-20-20)T

**13. Attainment Area.** Any area which is designated, pursuant to 42 U.S.C. Section 7407(d), as having ambient concentrations equal to or less than national primary or secondary ambient air quality standards for a particular air pollutant or air pollutants. (3-20-20)T

**14. BART-Eligible Source.** Any of the following stationary sources of air pollutants, including any reconstructed source, which was not in operation prior to August 7, 1962, and was in existence on August 7, 1977, and has the potential to emit two hundred fifty (250) tons per year or more of any air pollutant. In determining potential to emit, fugitive emissions, to the extent quantifiable, must be counted. (3-20-20)T

- a. Fossil-fuel fired steam electric plants of more than two hundred fifty (250) million BTU's per hour

heat input;		(3-20-20)T
<b>b.</b>	Coal cleaning plants (thermal dryers);	(3-20-20)T
<b>c.</b>	Kraft pulp mills;	(3-20-20)T
<b>d.</b>	Portland cement plants;	(3-20-20)T
<b>e.</b>	Primary zinc smelters;	(3-20-20)T
<b>f.</b>	Iron and steel mill plants;	(3-20-20)T

	<b>y.</b> Glass fiber processing plants; and	(3-20-20)T
	<b>z.</b> Charcoal production facilities.	(3-20-20)T
	<b>15. Baseline (Area, Concentration, Date).</b> See Section 579.	(3-20-20)T

- 16. Best Available Retrofit Technology (BART).** Means an emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant which is emitted by an existing stationary facility. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and non-air quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source, the remaining useful life of the source, and the degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology. (3-20-20)T
- 17. Board.** Idaho Board of Environmental Quality. (3-20-20)T
- 18. Breakdown.** An unplanned failure of any equipment or emissions unit which may cause excess emissions. (3-20-20)T
- 19. BTU.** British thermal unit. (3-20-20)T
- 20. Clean Air Act.** The federal Clean Air Act, 42 U.S.C. Sections 7401 through 7671q. (3-20-20)T
- 21. Collection Efficiency.** The overall performance of the air cleaning device in terms of ratio of materials collected to total input to the collector unless specific size fractions of the contaminant are stated or required. (3-20-20)T
- 22. Commence Construction or Modification.** In general, this means initiation of physical on-site construction activities on an emissions unit which are of a permanent nature. Such activities include, but are not limited to, installation of building supports and foundations, laying of underground pipework, and construction of permanent storage structures. With respect to a change in method of operation, this term refers to those on-site activities, other than preparatory activities, which mark the initiation of the change. (3-20-20)T
- 23. Complete.** A determination made by the Department that all information needed to process a permit application has been submitted for review. (3-20-20)T
- 24. Construction.** Fabrication, erection, installation, or modification of a stationary source or facility. (3-20-20)T
- 25. Control Equipment.** Any method, process or equipment which removes, reduces or renders less noxious, air pollutants discharged into the atmosphere. (3-20-20)T
- 26. Controlled Emission.** An emission which has been treated by control equipment to remove all or part of an air pollutant before release to the atmosphere. (3-20-20)T
- 27. Criteria Air Pollutant.** Any of the following: PM<sub>10</sub>; PM<sub>2.5</sub>; sulfur oxides; ozone, nitrogen dioxide; carbon monoxide; lead. (3-20-20)T
- 28. Deciview.** A measurement of visibility impairment. A deciview is a haze index derived from calculated light extinction, such that uniform changes in haziness correspond to uniform incremental changes in perception across the entire range of conditions, from pristine to highly impaired. The deciview haze index is calculated based on the following equation (for the purposes of calculating deciview, the atmospheric light extinction coefficient must be calculated from aerosol measurements): Deciview Haze Index =  $10 \ln_e (b_{\text{ext}}/10\text{Mm}^{-1})$  where  $b_{\text{ext}}$  = the atmospheric light extinction coefficient, expressed in inverse megameters ( $\text{Mm}^{-1}$ ). (3-20-20)T
- 29. Department.** The Department of Environmental Quality. (3-20-20)T
- 30. Designated Facility.** Any of the following facilities: (3-20-20)T
- a.** Fossil-fuel fired steam electric plants of more than two hundred fifty (250) million BTU's per hour heat input; (3-20-20)T
- b.** Coal cleaning plants (thermal dryers); (3-20-20)T

- c. Kraft pulp mills; (3-20-20)T
- d. Portland cement plants; (3-20-20)T
- e. Primary zinc smelters; (3-20-20)T
- f. Iron and steel mill plants; (3-20-20)T
- g. Primary aluminum ore reduction plants; (3-20-20)T
- h. Primary copper smelters; (3-20-20)T
- i. Municipal incinerators capable of charging more than two hundred and fifty (250) tons of refuse per day; (3-20-20)T
- j. Hydrofluoric, sulfuric, and nitric acid plants; (3-20-20)T
- k. Petroleum refineries; (3-20-20)T
- l. Lime plants; (3-20-20)T
- m. Phosphate rock processing plants; (3-20-20)T
- n. Coke oven batteries; (3-20-20)T
- o. Sulfur recovery plants; (3-20-20)T
- p. Carbon black plants (furnace process); (3-20-20)T
- q. Primary lead smelters; (3-20-20)T
- r. Fuel conversion plants; (3-20-20)T
- s. Sintering plants; (3-20-20)T
- t. Secondary metal production facilities; (3-20-20)T
- u. Chemical process plants; (3-20-20)T
- v. Fossil-fuel boilers (or combination thereof) of more than two hundred and fifty (250) million BTU's per hour heat input; (3-20-20)T
- w. Petroleum storage and transfer facilities with a capacity exceeding three hundred thousand (300,000) barrels; (3-20-20)T
- x. Taconite ore processing facilities; (3-20-20)T
- y. Glass fiber processing plants; and (3-20-20)T
- z. Charcoal production facilities. (3-20-20)T
- 31. **Director.** The Director of the Department of Environmental Quality or his designee. (3-20-20)T
- 32. **Effective Dose Equivalent.** The sum of the products of absorbed dose and appropriate factors to account for differences in biological effectiveness due to the quality of radiation and its distribution in the body of reference man. The unit of the effective dose equivalent is the rem. It is generally calculated as an annual dose. (3-20-20)T
- 33. **Emission.** Any controlled or uncontrolled release or discharge into the outdoor atmosphere of any

air pollutants or combination thereof. Emission also includes any release or discharge of any air pollutant from a stack, vent, or other means into the outdoor atmosphere that originates from an emission unit. (3-20-20)T

**34. Emission Standard.** A permit or regulatory requirement established by the Department or EPA which limits the quantity, rate, or concentration of emissions of air pollutants on a continuous basis, including any requirements which limit the level of opacity, prescribe equipment, set fuel specifications, or prescribe operation or maintenance procedures for a source to assure continuous emission reduction. (3-20-20)T

**35. Emissions Unit.** An identifiable piece of process equipment or other part of a facility which emits or may emit any air pollutant. This definition does not alter or affect the term “unit” for the purposes of 42 U.S.C. Sections 7651 through 7651o. (3-20-20)T

**36. EPA.** The United States Environmental Protection Agency and its Administrator or designee. (3-20-20)T

**37. Environmental Remediation Source.** A stationary source that functions to remediate or recover any release, spill, leak, discharge or disposal of any petroleum product or petroleum substance, any hazardous waste or hazardous substance from any soil, ground water or surface water, and shall have an operational life no greater than five (5) years from the inception of any operations to the cessation of actual operations. Nothing in this definition shall be construed so as to actually limit remediation projects to five (5) years or less of total operation. (3-20-20)T

**38. Excess Emissions.** Emissions that exceed an applicable emissions standard established for any facility, source or emissions unit by statute, regulation, rule, permit, or order. (3-20-20)T

**39. Existing Stationary Source or Facility.** Any stationary source or facility that exists, is installed, or is under construction on the original effective date of any applicable provision of this chapter. (3-20-20)T

**40. Facility.** All of the pollutant-emitting activities which belong to the same industrial grouping, are located on one (1) or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control). Pollutant-emitting activities shall be considered as part of the same industrial grouping if they belong to the same Major Group (i.e. which have the same two-digit code) as described in the Standard Industrial Classification Manual. The fugitive emissions shall not be considered in determining whether a permit is required unless required by federal law. (3-20-20)T

**41. Federal Class I Area.** Any federal land that is classified or reclassified “Class I.” (3-20-20)T

**42. Federal Land Manager.** The Secretary of the department with authority over the Federal Class I Area (or the Secretary's designee). (3-20-20)T

**43. Federally Enforceable.** All limitations and conditions which are enforceable by EPA and the Department under the Clean Air Act, including those requirements developed pursuant to 40 CFR Parts 60 and 61 requirements within any applicable State Implementation Plan, and any permit requirements established pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR Parts 51, 52, 60, or 63. (3-20-20)T

**44. Fire Hazard.** The presence or accumulation of combustible material of such nature and in sufficient quantity that its continued existence constitutes an imminent and substantial danger to life, property, public welfare or adjacent lands. (3-20-20)T

**45. Fuel-Burning Equipment.** Any furnace, boiler, apparatus, stack and all appurtenances thereto, used in the process of burning fuel for the primary purpose of producing heat or power by indirect heat transfer. (3-20-20)T

**46. Fugitive Dust.** Fugitive emissions composed of particulate matter. (3-20-20)T

**47. Fugitive Emissions.** Those emissions which could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening. (3-20-20)T

- 48. Garbage.** Any waste consisting of putrescible animal and vegetable materials resulting from the handling, preparation, cooking and consumption of food including, but not limited to, waste materials from households, markets, storage facilities, handling and sale of produce and other food products. (3-20-20)T
- 49. Gasoline.** Any mixture of volatile hydrocarbons suitable as a fuel for the propulsion of motor vehicles or motor boats. Gasoline also means aircraft engine fuels when used for the operation or propulsion of motor vehicles or motor boats and includes gasohol, but does not include special fuels. (3-20-20)T
- 50. Gasoline Cargo Tank.** Any tank or trailer used for the transport of gasoline from sources of supply to underground gasoline storage tanks. (3-20-20)T
- 51. Gasoline Dispensing Facility (GDF).** Any facility with underground gasoline storage tanks used for dispensing gasoline. (3-20-20)T
- 52. Grain Elevator.** Any plant or installation at which grain is unloaded, handled, cleaned, dried, stored, or loaded. (3-20-20)T
- 53. Grain Storage Elevator.** Any grain elevator located at any wheat flour mill, wet corn mill, dry corn mill (human consumption), rice mill, or soybean extraction plant which has a permanent grain storage capacity of thirty five thousand two hundred (35,200) cubic meters (ca. 1 million bushels). (3-20-20)T
- 54. Grain Terminal Elevator.** Any grain elevator which has a permanent storage capacity of more than eighty-eight thousand one hundred (88,100) cubic meters (ca. 2.5 million bushels), except those located at animal food manufacturers, pet food manufacturers, cereal manufacturers, breweries, and livestock feedlots. (3-20-20)T
- 55. Hazardous Air Pollutant (HAP).** Any air pollutant listed pursuant to Section 112(b) of the Clean Air Act. Hazardous Air Pollutants are regulated air pollutants. (3-20-20)T
- 56. Hazardous Waste.** Any waste or combination of wastes of a solid, liquid, semisolid, or contained gaseous form which, because of its quantity, concentration or characteristics (physical, chemical or biological) may:
- a.** Cause or significantly contribute to an increase in deaths or an increase in serious, irreversible, or incapacitating reversible illnesses; or (3-20-20)T
  - b.** Pose a substantial threat to human health or to the environment if improperly treated, stored, disposed of, or managed. Such wastes include, but are not limited to, materials which are toxic, corrosive, ignitable, or reactive, or materials which may have mutagenic, teratogenic, or carcinogenic properties; provided that such wastes do not include solid or dissolved material in domestic sewage, or solid or dissolved materials in irrigation return flows or industrial discharges which are allowed under a national pollution discharge elimination system permit, or source, special nuclear, or by-product material as defined by 42 U.S.C. Sections 2014(e),(z) or (aa). (3-20-20)T
- 57. Hot-Mix Asphalt Plant.** Those facilities conveying proportioned quantities or batch loading of cold aggregate to a drier, and heating, drying, screening, classifying, measuring and mixing the aggregate and asphalt for the purpose of paving, construction, industrial, residential or commercial use. (3-20-20)T
- 58. Incinerator.** Any source consisting of a furnace and all appurtenances thereto designed for the destruction of refuse by burning. "Open Burning" is not considered incineration. For purposes of these rules, the destruction of any combustible liquid or gaseous material by burning in a flare stack shall be considered incineration. (3-20-20)T
- 59. Indian Governing Body.** The governing body of any tribe, band, or group of Indians subject to the jurisdiction of the United States and recognized by the United States as possessing power of self-government. (3-20-20)T

- 60. Integral Vista.** A view perceived from within the mandatory Class I Federal Area of a specific landmark or panorama located outside the boundary of the mandatory Class I Federal Area. (3-20-20)T
- 61. Kraft Pulping.** Any pulping process which uses, for a cooking liquor, an alkaline sulfide solution containing sodium hydroxide and sodium sulfide. (3-20-20)T
- 62. Least Impaired Days.** The average visibility impairment (measured in deciviews) for the twenty percent (20%) of monitored days in a calendar year with the lowest amount of visibility impairment. (3-20-20)T
- 63. Lowest Achievable Emission Rate (LAER).** For any source, the more stringent rate of emissions based on the following: (3-20-20)T
- a.** The most stringent emissions limitation which is contained in any State Implementation Plan for such class or category of facility, unless the owner or operator of the proposed facility demonstrates that such limitations are not achievable; or (3-20-20)T
  - b.** The most stringent emissions limitation which is achieved in practice by such class or category of facilities. This limitation, when applied to a modification, means the lowest achievable emissions rate for the new or modified emissions units within the facility. In no event shall the application of the term permit a proposed new or modified facility to emit any pollutant in excess of the amount allowable under an applicable new source standard of performance. (3-20-20)T
- 64. Mandatory Class I Federal Area.** Any area identified in 40 CFR 81.400 through 81.437. (3-20-20)T
- 65. Member of the Public.** For purposes of Subsection 006.108.a.xvi., a person located at any off-site point where there is a residence, school, business or office. (3-20-20)T
- 66. Mercury.** Total mercury including elemental mercury and mercury compounds. (3-20-20)T
- 67. Mercury Best Available Control Technology (MBACT).** An emission standard for mercury based on the maximum degree of reduction practically achievable as specified by the Department on an individual case-by-case basis taking into account energy, economic and environmental impacts, and other relevant impacts specific to the source. A Department approved MBACT shall be valid until the source subject to the MBACT is modified. If the proposed modification to the source subject to MBACT occurs within ten (10) years of the MBACT determination, a new MBACT review shall not be triggered as long as the source can meet the existing MBACT requirements. If the proposed modification occurs more than ten (10) years after the MBACT determination, then the proposed modification shall be subject to a new MBACT review. (3-20-20)T
- 68. Modification.** (3-20-20)T
- a.** Any physical change in, or change in the method of operation of, a stationary source or facility which results in an emission increase as defined in Section 007 or which results in the emission of any regulated air pollutant not previously emitted. (3-20-20)T
  - b.** Any physical change in, or change in the method of operation of, a stationary source or facility which results in an increase in the emissions rate of any state only toxic air pollutant, or emissions of any state only toxic air pollutant not previously emitted. (3-20-20)T
  - c.** Fugitive emissions shall not be considered in determining whether a permit is required for a modification unless required by federal law. (3-20-20)T
  - d.** For purposes of this definition of modification, routine maintenance, repair and replacement shall not be considered physical changes and the following shall not be considered a change in the method of operation: (3-20-20)T

- i. An increase in the production rate if such increase does not exceed the operating design capacity of the affected stationary source, and if a more restrictive production rate is not specified in a permit; (3-20-20)T
- ii. An increase in hours of operation if more restrictive hours of operation are not specified in a permit; and (3-20-20)T
- iii. Use of an alternative fuel or raw material if the stationary source is specifically designed to accommodate such fuel or raw material before January 6, 1975 and use of such fuel or raw material is not specifically prohibited in a permit. (3-20-20)T

**69. Monitoring.** Sampling and analysis, in a continuous or noncontinuous sequence, using techniques which will adequately measure emission levels and/or ambient air concentrations of air pollutants. (3-20-20)T

**70. Most Impaired Days.** The average visibility impairment (measured in deciviews) for the twenty percent (20%) of monitored days in a calendar year with the highest amount of visibility impairment. (3-20-20)T

**71. Multiple Chamber Incinerator.** Any article, machine, equipment, contrivance, structure or part of a structure used to dispose of combustible refuse by burning, consisting of three (3) or more refractory lined combustion furnaces in series physically separated by refractory walls, interconnected by gas passage ports or ducts and employing adequate parameters necessary for maximum combustion of the material to be burned. (3-20-20)T

**72. Natural Conditions.** Includes naturally occurring phenomena that reduce visibility as measured in terms of light extinction, visual range, contrast, or coloration. (3-20-20)T

**73. New Stationary Source or Facility.** (3-20-20)T

**a.** Any stationary source or facility, the construction or modification of which is commenced after the original effective date of any applicable provision of this chapter; or (3-20-20)T

**b.** The restart of a nonoperating facility shall be considered a new stationary source or facility if: (3-20-20)T

i. The restart involves a modification to the facility; or (3-20-20)T

ii. After the facility has been in a nonoperating status for a period of two (2) years, and the Department receives an application for a Permit to Construct in the area affected by the existing nonoperating facility, the Department will, within five (5) working days of receipt of the application notify the nonoperating facility of receipt of the application for a Permit to Construct. Upon receipt of this Departmental notification, the nonoperating facility will comply with the following restart schedule or be considered a new stationary source or facility when it does restart: Within thirty (30) working days after receipt of the Department's notification of the application for a Permit to Construct, the nonoperating facility shall provide the Department with a schedule detailing the restart of the facility. The restart must begin within sixty (60) days of the date the Department receives the restart schedule. (3-20-20)T

**74. Nonattainment Area.** Any area which is designated, pursuant to 42 U.S.C. Section 7407(d), as not meeting (or contributes to ambient air quality in a nearby area that does not meet) the national primary or secondary ambient air quality standard for the pollutant. (3-20-20)T

**75. Noncondensibles.** Gases and vapors from processes that are not condensed at standard temperature and pressure unless otherwise specified. (3-20-20)T

**76. Odor.** The sensation resulting from stimulation of the human sense of smell. (3-20-20)T

**77. Opacity.** A state which renders material partially or wholly impervious to rays of light and causes obstruction of an observer's view, expressed as percent. (3-20-20)T

**78. Open Burning.** The burning of any matter in such a manner that the products of combustion

resulting from the burning are emitted directly into the ambient air without passing through a stack, duct or chimney. (3-20-20)T

**79. Operating Permit.** A permit issued by the Director pursuant to Sections 300 through 386 and/or 400 through 461. (3-20-20)T

**80. Particulate Matter.** Any material, except water in uncombined form, that exists as a liquid or a solid at standard conditions. (3-20-20)T

**81. Particulate Matter Emissions.** All particulate matter emitted to the ambient air as measured by an applicable reference method, or any equivalent or alternative method in accordance with Section 157. (3-20-20)T

**82. Permit to Construct.** A permit issued by the Director pursuant to Sections 200 through 228. (3-20-20)T

**83. Person.** Any individual, association, corporation, firm, partnership or any federal, state or local governmental entity. (3-20-20)T

**84. PM<sub>10</sub>.** All particulate matter in the ambient air with an aerodynamic diameter less than or equal to a nominal ten (10) micrometers as measured by a reference method based on Appendix J of 40 CFR Part 50 and designated in accordance with 40 CFR Part 53 or by an equivalent method designated in accordance with 40 CFR Part 53. (3-20-20)T

**85. PM<sub>10</sub> Emissions.** All particulate matter, including condensible particulates, with an aerodynamic diameter less than or equal to a nominal ten (10) micrometers emitted to the ambient air as measured by an applicable reference method, or an equivalent or alternative method in accordance with Section 157. (3-20-20)T

**86. PM<sub>2.5</sub>.** All particulate matter in the ambient air with an aerodynamic diameter less than or equal to a nominal two point five (2.5) micrometers measured by a reference method based on Appendix L of 40 CFR Part 50 and designated in accordance with 40 CFR Part 53 or by an equivalent method designated in accordance with 40 CFR Part 53. (3-20-20)T

**87. PM<sub>2.5</sub> Emissions.** All particulate matter, including condensible particulates, with an aerodynamic diameter less than or equal to a nominal two point five (2.5) micrometers emitted to the ambient air as measured by an applicable reference method, or an equivalent or alternative method in accordance with Section 157. (3-20-20)T

**88. Potential to Emit/Potential Emissions.** The maximum capacity of a facility or stationary source to emit an air pollutant under its physical and operational design. Any physical or operational limitation on the capacity of the facility or source to emit an air pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored or processed, shall be treated as part of its design if the limitation or the effect it would have on emissions is state or federally enforceable. Secondary emissions do not count in determining the potential to emit of a facility or stationary source. (3-20-20)T

**89. Portable Equipment.** Equipment which is designed to be dismantled and transported from one (1) job site to another job site. (3-20-20)T

**90. PPM (parts per million).** Parts of a gaseous contaminant per million parts of gas by volume. (3-20-20)T

**91. Prescribed Fire Management Burning.** The controlled application of fire to wildland fuels in either their natural or modified state under such conditions of weather, fuel moisture, soil moisture, etc., as will allow the fire to be confined to a predetermined area and at the same time produce the intensity of heat and rate of spread required to accomplish planned objectives, including: (3-20-20)T

**a.** Fire hazard reduction; (3-20-20)T

**b.** The control of pests, insects, or diseases; (3-20-20)T

- c. The promotion of range forage improvements; (3-20-20)T
- d. The perpetuation of natural ecosystems; (3-20-20)T
- e. The disposal of woody debris resulting from a logging operation, the clearing of rights of way, a land clearing operation, or a driftwood collection system; (3-20-20)T
- f. The preparation of planting and seeding sites for forest regeneration; and (3-20-20)T
- g. Other accepted natural resource management purposes. (3-20-20)T
- 92. Primary Ambient Air Quality Standard.** That ambient air quality which, allowing an adequate margin of safety, is requisite to protect the public health. (3-20-20)T
- 93. Process or Process Equipment.** Any equipment, device or contrivance for changing any materials whatever or for storage or handling of any materials, and all appurtenances thereto, including ducts, stack, etc., the use of which may cause any discharge of an air pollutant into the ambient air but not including that equipment specifically defined as fuel-burning equipment or refuse-burning equipment. (3-20-20)T
- 94. Process Weight.** The total weight of all materials introduced into any source operation which may cause any emissions of particulate matter. Process weight includes solid fuels charged, but does not include liquid and gaseous fuels charged or combustion air. Water which occurs naturally in the feed material shall be considered part of the process weight. (3-20-20)T
- 95. Process Weight Rate.** The rate established as follows: (3-20-20)T
- a. For continuous or long-run steady-state source operations, the total process weight for the entire period of continuous operation or for a typical portion thereof, divided by the number of hours of such period or portion thereof; (3-20-20)T
- b. For cyclical or batch source operations, the total process weight for a period that covers a complete cycle of operation or an integral number of cycles, divided by the hours of actual process operation during such a period. Where the nature of any process or operation or the design of any equipment is such as to permit more than one (1) interpretation of this definition, the interpretation that results in the minimum value for allowable emission shall apply. (3-20-20)T
- 96. Quantifiable.** The Department must be able to determine the emissions impact of any SIP trading programs requirement(s) or emission limit(s). (3-20-20)T
- 97. Radionuclide.** A type of atom which spontaneously undergoes radioactive decay. (3-20-20)T
- 98. Regional Haze.** Visibility impairment that is caused by the emission of air pollutants from numerous sources located over a wide geographic area. Such sources include, but are not limited to, major and minor stationary sources, mobile sources, and area sources. (3-20-20)T
- 99. Regulated Air Pollutant.** (3-20-20)T
- a. For purposes of determining applicability of major source permit to operate requirements, issuing, and modifying permits pursuant to Sections 300 through 397, and in accordance with Title V of the federal Clean Air Act amendments of 1990, 42 U.S.C. Section 7661 et seq., "regulated air pollutant" shall have the same meaning as in Title V of the federal Clean Air Act amendments of 1990, and any applicable federal regulations promulgated pursuant to Title V of the federal Clean Air Act amendments of 1990, 40 CFR Part 70; (3-20-20)T
- b. For purposes of determining applicability of any other operating permit requirements, issuing, and modifying permits pursuant to Sections 400 through 410, the federal definition of "regulated air pollutant" as defined in Subsection 006.99.a. shall also apply; (3-20-20)T

**c.** For purposes of determining applicability of permit to construct requirements, issuing, and modifying permits pursuant to Sections 200 through 228, except Section 214, and in accordance with Part D of Subchapter I of the federal Clean Air Act, 42 U.S.C. Section 7501 et seq., “regulated air pollutant” shall mean those air contaminants that are regulated in non-attainment areas pursuant to Part D of Subchapter I of the federal Clean Air Act and applicable federal regulations promulgated pursuant to Part D of Subchapter I of the federal Clean Air Act, 40 CFR 51.165; and (3-20-20)T

**d.** For purposes of determining applicability of any other major or minor permit to construct requirements, issuing, and modifying permits pursuant to 200 through 228, except Section 214, “regulated air pollutant” shall mean those air contaminants that are regulated in attainment and unclassifiable areas pursuant to Part C of Subchapter I of the federal Clean Air Act, 40 CFR 52.21, and any applicable federal regulations promulgated pursuant to Part C of Subchapter I of the federal Clean Air Act, 42 U.S.C. Section 7470 et seq. (3-20-20)T

**100. Replicable.** Any SIP procedures for applying emission trading shall be structured so that two (2) independent entities would obtain the same result when determining compliance with the emission trading provisions. (3-20-20)T

**101. Responsible Official.** One (1) of the following: (3-20-20)T

**a.** For a corporation: a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of such person if the representative is responsible for the overall operation of one (1) or more manufacturing, production, or operating facilities applying for or subject to a permit and either: (3-20-20)T

**i.** The facilities employ more than two hundred fifty (250) persons or have gross annual sales or expenditures exceeding twenty-five million dollars (\$25,000,000) (in second quarter 1980 dollars); or (3-20-20)T

**ii.** The delegation of authority to such representative is approved in advance by the Department. (3-20-20)T

**b.** For a partnership or sole proprietorship: a general partner or the proprietor, respectively. (3-20-20)T

**c.** For a municipality, State, Federal, or other public agency: either a principal executive officer or ranking elected official. For the purposes of Section 123, a principal executive officer of a Federal agency includes the chief executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., a Regional Administrator of EPA). (3-20-20)T

**d.** For Phase II sources: (3-20-20)T

**i.** The designated representative in so far as actions, standards, requirements, or prohibitions under 42 U.S.C. Sections 7651 through 7651o or the regulations promulgated thereunder are concerned; and (3-20-20)T

**ii.** The designated representative for any other purposes under 40 CFR Part 70. (3-20-20)T

**102. Safety Measure.** Any shutdown (and related startup) or bypass of equipment or processes undertaken to prevent imminent injury or death or severe damage to equipment or property which may cause excess emissions. (3-20-20)T

**103. Salvage Operation.** Any source consisting of any business, trade or industry engaged in whole or in part in salvaging or reclaiming any product or material, such as, but not limited to, reprocessing of used motor oils, metals, chemicals, shipping containers, or drums, and specifically including automobile graveyards and junkyards. (3-20-20)T

**104. Scheduled Maintenance.** Planned upkeep, repair activities and preventative maintenance on any

air pollution control equipment or emissions unit, including process equipment, and including shutdown and startup of such equipment. (3-20-20)T

**105. Secondary Ambient Air Quality Standard.** That ambient air quality which is requisite to protect the public welfare from any known or anticipated adverse effects associated with the presence of air pollutants in the ambient air. (3-20-20)T

**106. Secondary Emissions.** Emissions which would occur as a result of the construction, modification, or operation of a stationary source or facility, but do not come from the stationary source or facility itself. Secondary emissions must be specific, well defined, quantifiable, and affect the same general area as the stationary source, facility, or modification which causes the secondary emissions. Secondary emissions include emissions from any offsite support facility which would not be constructed or increase its emissions except as a result of the construction or operation of the primary stationary source, facility or modification. Secondary emissions do not include any emissions which come directly from a mobile source regulated under 42 U.S.C. Sections 7521 through 7590. (3-20-20)T

**107. Shutdown.** The normal and customary time period required to cease operations of air pollution control equipment or an emissions unit beginning with the initiation of procedures to terminate normal operation and continuing until the termination is completed. (3-20-20)T

**108. Significant.** In reference to a net emissions increase or the potential of a source to emit any of the following pollutants, a rate of emissions that would equal or exceed any of the following: (3-20-20)T

- a. Pollutant and emissions rate: (3-20-20)T
  - i. Carbon monoxide, one hundred (100) tons per year; (3-20-20)T
  - ii. Nitrogen oxides, forty (40) tons per year; (3-20-20)T
  - iii. Sulfur dioxide, forty (40) tons per year; (3-20-20)T
  - iv. Particulate matter: (3-20-20)T
    - (1) Twenty-five (25) tons per year of particulate matter emissions; (3-20-20)T
    - (2) Fifteen (15) tons per year of PM<sub>10</sub> emissions; or (3-20-20)T
    - (3) Ten (10) tons per year of direct PM<sub>2.5</sub> emissions; or forty (40) tons per year of sulfur dioxide emissions; or forty (40) tons per year of nitrogen oxide emissions; (3-20-20)T
  - v. Ozone, forty (40) tons per year of volatile organic compounds; (3-20-20)T
  - vi. Lead, six-tenths (0.6) of a ton per year; (3-20-20)T
  - vii. Fluorides, three (3) tons per year; (3-20-20)T
  - viii. Sulfuric acid mist, seven (7) tons per year; (3-20-20)T
  - ix. Hydrogen sulfide (H<sub>2</sub>S), ten (10) tons per year; (3-20-20)T
  - x. Total reduced sulfur (including H<sub>2</sub>S), ten (10) tons per year; (3-20-20)T
  - xi. Reduced sulfur compounds (including H<sub>2</sub>S), ten (10) tons per year; (3-20-20)T
  - xii. Municipal waste combustor organics (measured as total tetra- through octa-chlorinated dibenzo-p-dioxins and dibenzofurans), thirty-five ten-millionths (0.0000035) tons per year; (3-20-20)T
  - xiii. Municipal waste combustor metals (measured as particulate matter), fifteen (15) tons per year;

- (3-20-20)T
- xiv. Municipal waste combustor acid gases (measured as sulfur dioxide and hydrogen chloride), forty (40) tons per year; or (3-20-20)T
- xv. Municipal solid waste landfill emissions (measured as nonmethane organic compounds), fifty (50) tons per year. (3-20-20)T
- b.** In reference to a net emissions increase or the potential of a source or facility to emit a regulated air pollutant not listed in Subsection 006.108.a. above and not a toxic air pollutant, any emission rate; or (3-20-20)T
- c.** For a major facility or major modification which would be constructed within ten (10) kilometers of a Class I area, the emissions rate which would increase the ambient concentration of an emitted regulated air pollutant in the Class I area by one (1) microgram per cubic meter, twenty-four (24) hour average, or more. (3-20-20)T
- 109. Significant Contribution.** Any increase in ambient concentrations which would exceed the following: (3-20-20)T
- a.** Sulfur dioxide: (3-20-20)T
- i. One (1.0) microgram per cubic meter, annual average; (3-20-20)T
- ii. Five (5) micrograms per cubic meter, twenty-four (24) hour average; (3-20-20)T
- iii. Twenty-five (25) micrograms per cubic meter, three (3) hour average; (3-20-20)T
- b.** Nitrogen dioxide, one (1.0) microgram per cubic meter, annual average; (3-20-20)T
- c.** Carbon monoxide: (3-20-20)T
- i. One-half (0.5) milligrams per cubic meter, eight (8) hour average; (3-20-20)T
- ii. Two (2) milligrams per cubic meter, one (1) hour average; (3-20-20)T
- d.** PM<sub>10</sub>: (3-20-20)T
- i. One (1.0) microgram per cubic meter, annual average; (3-20-20)T
- ii. Five (5.0) micrograms per cubic meter, twenty-four (24) hour average; (3-20-20)T
- e.** PM<sub>2,5</sub>: (3-20-20)T
- i. Three-tenths (0.3) microgram per cubic meter, annual average; (3-20-20)T
- ii. One point two (1.2) micrograms per cubic meter, twenty-four (24) hour average. (3-20-20)T
- 110. Small Fire.** A fire in which the material to be burned is not more than four (4) feet in diameter nor more than three (3) feet high. (3-20-20)T
- 111. Smoke.** Small gas-borne particles resulting from incomplete combustion, consisting predominantly, but not exclusively, of carbon and other combustible material. (3-20-20)T
- 112. Smoke Management Plan.** A document issued by the Director to implement Sections 606 through 616, Categories of Allowable Burning. (3-20-20)T
- 113. Smoke Management Program.** A program whereby meteorological information, fuel conditions,

fire behavior, smoke movement and atmospheric dispersal conditions are used as a basis for scheduling the location, amount and timing of open burning operations so as to minimize the impact of such burning on identified smoke sensitive areas. (3-20-20)T

- 114. Source.** A stationary source. (3-20-20)T
- 115. Source Operation.** The last operation preceding the emission of air pollutants, when this operation:
- a.** Results in the separation of the air pollutants from the process materials or in the conversion of the process materials into air pollutants, as in the case of fuel combustion; and (3-20-20)T
  - b.** Is not an air cleaning device. (3-20-20)T
- 116. Special Fuels.** All fuel suitable as fuel for diesel engines; a compressed or liquefied gas obtained as a by-product in petroleum refining or natural gasoline manufacture, such as butane, isobutane, propane, propylene, butylenes, and their mixtures; and natural gas, either liquid or gas, and hydrogen, used for the generation of power for the operation or propulsion of motor vehicles. (3-20-20)T
- 117. Stack.** Any point in a source arranged to conduct emissions to the ambient air, including a chimney, flue, conduit, or duct but not including flares. (3-20-20)T
- 118. Stage 1 Vapor Collection.** Used during the refueling of underground gasoline storage tanks to reduce hydrocarbon emissions. Vapors in the tank, which are displaced by the incoming gasoline, are routed through a hose into the gasoline cargo tank and returned to the terminal for processing. Two (2) types of Stage 1 systems exist: coaxial and dual point. (3-20-20)T
- a.** Coaxial System. A Stage 1 vapor collection system that requires only one (1) tank opening. The tank opening is usually four (4) inches in diameter with a three (3) inch diameter product fill tube inserted into the opening. Fuel flows through the inner tube while vapors are displaced through the annular space between the inner and outer tubes. (3-20-20)T
  - b.** Dual Point System. A Stage 1 vapor collection system that consists of two (2) separate tank openings, one (1) for delivery of the product and the other for the recovery of vapors. (3-20-20)T
- 119. Standard Conditions.** Except as specified in Subsection 576.02 for ambient air quality standards, a dry gas temperature of twenty degrees Celsius (20C) sixty-eight degrees Fahrenheit (68F) and a gas pressure of seven hundred sixty (760) millimeters of mercury (14.7 pounds per square inch) absolute. (3-20-20)T
- 120. Startup.** The normal and customary time period required to bring air pollution control equipment or an emissions unit, including process equipment, from a nonoperational status into normal operation. (3-20-20)T
- 121. Stationary Source.** Any building, structure, facility, emissions unit, or installation which emits or may emit any air pollutant. The fugitive emissions shall not be considered in determining whether a permit is required unless required by federal law. (3-20-20)T
- 122. Tier I Source.** Any of the following: (3-20-20)T
- a.** Any source located at any major facility as defined in Section 008; (3-20-20)T
  - b.** Any source, including an area source, subject to a standard, limitation, or other requirement under 42 U.S.C. Section 7411 or 40 CFR Part 60, and required by EPA to obtain a Part 70 permit; (3-20-20)T
  - c.** Any source, including an area source, subject to a standard or other requirement under 42 U.S.C. Section 7412, 40 CFR Part 61 or 40 CFR Part 63, and required by EPA to obtain a Part 70 permit, except that a source is not required to obtain a permit solely because it is subject to requirements under 42 U.S.C. Section 7412(r); (3-20-20)T

- d. Any Phase II source; and (3-20-20)T
- e. Any source in a source category designated by the Department. (3-20-20)T
- 123. Total Suspended Particulates.** Particulate matter as measured by the method described in 40 CFR 50 Appendix B. (3-20-20)T
- 124. Toxic Air Pollutant.** An air pollutant that has been determined by the Department to be by its nature, toxic to human or animal life or vegetation and listed in Section 585 or 586. (3-20-20)T
- 125. Toxic Air Pollutant Carcinogenic Increments.** Those ambient air quality increments based on the probability of developing excess cancers over a seventy (70) year lifetime exposure to one (1) microgram per cubic meter (1 ug/m<sup>3</sup>) of a given carcinogen and expressed in terms of a screening emission level or an acceptable ambient concentration for a carcinogenic toxic air pollutant. They are listed in Section 586. (3-20-20)T
- 126. Toxic Air Pollutant Non-carcinogenic Increments.** Those ambient air quality increments based on occupational exposure limits for airborne toxic chemicals expressed in terms of a screening emission level or an acceptable ambient concentration for a non-carcinogenic toxic air pollutant. They are listed in Section 585. (3-20-20)T
- 127. Toxic Substance.** Any air pollutant that is determined by the Department to be by its nature, toxic to human or animal life or vegetation. (3-20-20)T
- 128. Trade Waste.** Any solid, liquid or gaseous material resulting from the construction or demolition of any structure, or the operation of any business, trade or industry including, but not limited to, wood product industry waste such as sawdust, bark, peelings, chips, shavings and cull wood. (3-20-20)T
- 129. TRS (Total Reduced Sulfur).** Hydrogen sulfide, mercaptans, dimethyl sulfide, dimethyl disulfide and any other organic sulfide present. (3-20-20)T
- 130. Unclassifiable Area.** An area which, because of a lack of adequate data, is unable to be classified pursuant to 42 U.S.C. Section 7407(d) as either an attainment or a nonattainment area. (3-20-20)T
- 131. Uncontrolled Emission.** An emission which has not been treated by control equipment. (3-20-20)T
- 132. Upset.** An unplanned disruption in the normal operations of any equipment or emissions unit which may cause excess emissions. (3-20-20)T
- 133. Visibility Impairment.** Any humanly perceptible change in visibility (light extinction, visual range, contrast, coloration) from that which would have existed under natural conditions. (3-20-20)T
- 134. Visibility in Any Mandatory Class I Federal Area.** Includes any integral vista associated with that area. (3-20-20)T
- 135. Wigwam Burner.** Wood waste burning devices commonly called teepee burners, silos, truncated cones, and other such burners commonly used by the wood product industry for the disposal by burning of wood wastes. (3-20-20)T
- 136. Wood Stove Curtailment Advisory.** An air pollution alert issued through local authorities and/or the Department to limit wood stove emissions during air pollution episodes. (3-20-20)T
- 007. DEFINITIONS FOR THE PURPOSES OF SECTIONS 200 THROUGH 228 AND 400 THROUGH 461.**
- 01. Agricultural Activities and Services.** For the purposes of Subsection 222.02.f., the usual and

customary activities of cultivating the soil, producing crops and raising livestock for use and consumption. Agricultural activities and services do not include manufacturing, bulk storage, handling for resale or the formulation of any agricultural chemical listed in Sections 585 or 586. (3-20-20)T

**02. Baseline Actual Emissions.** The rate of emissions, in tons per year, of a regulated air pollutant as determined by the following provisions: (3-20-20)T

**a.** For any existing electric utility steam generating unit, baseline actual emissions means the average rate, in tons per year, at which the unit actually emitted the regulated air pollutant during any consecutive twenty-four (24) month period selected by the owner or operator within the five (5) year period immediately preceding when the owner or operator begins actual construction of the project. The Director shall allow the use of a different time period upon a determination that it is more representative of normal source operation. (3-20-20)T

i. The average rate shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions. (3-20-20)T

ii. The average rate shall be adjusted downward to exclude any non-compliant emissions that occurred while the source was operating above any emission limitation that was legally enforceable during the consecutive twenty-four (24) month period. (3-20-20)T

iii. For a regulated air pollutant, when a project involves multiple emissions units, only one (1) consecutive twenty-four (24) month period must be used to determine the baseline actual emissions for all the emissions units being changed. A different consecutive twenty-four (24) month period can be used for each regulated air pollutant. (3-20-20)T

iv. The average rate shall not be based on any consecutive twenty-four (24) month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if required by Subsection 007.02.a.ii. (3-20-20)T

**b.** For an existing emissions unit (other than an electric utility steam generating unit), baseline actual emissions means the average rate, in tons per year, at which the emissions unit actually emitted the regulated air pollutant during any consecutive twenty-four (24) month period selected by the owner or operator within the ten (10) year period immediately preceding either the date the owner or operator begins actual construction of the project, or the date a complete permit application is received by the Director for a permit required under these rules, whichever is earlier, except that the ten (10) year period shall not include any period earlier than November 15, 1990. (3-20-20)T

i. The average rate shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions. (3-20-20)T

ii. The average rate shall be adjusted downward to exclude any non-compliant emissions that occurred while the source was operating above an emission limitation that was legally enforceable during the consecutive twenty-four (24) month period. (3-20-20)T

iii. The average rate shall be adjusted downward to exclude any emission limitation with which the source must currently comply, had such source been required to comply with such limitations during the consecutive twenty-four (24) month period; however, if an emission limitation is part of a standard or other requirement under 40 CFR Part 63, the baseline actual emissions need only be adjusted if the Department has taken credit for such emissions reductions in an attainment demonstration or maintenance plan. (3-20-20)T

iv. For a regulated air pollutant, when a project involves multiple emissions units, only one (1) consecutive twenty-four (24) month period must be used to determine the baseline actual emissions for all the emissions units being changed. A different consecutive twenty-four (24) month period can be used for each regulated air pollutant. (3-20-20)T

v. The average rate shall not be based on any consecutive twenty-four (24) month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if

required by Subsections 007.02.b.ii. and 007.02.b.iii. (3-20-20)T

**c.** For a new emissions unit, the baseline actual emissions for purposes of determining the emissions increase that will result from the initial construction and operation of such unit shall equal zero (0); and, thereafter, for all other purposes, shall equal the unit's potential to emit. (3-20-20)T

**d.** For a plantwide applicability limit (PAL) for a stationary source, the baseline actual emissions shall be calculated for existing electric utility steam generating units in accordance with the procedures contained in Subsection 007.02.a, for other existing emissions units in accordance with the procedures contained in Subsection 007.02.b, and for a new emissions unit in accordance with the procedures contained in Subsection 007.02.c. (3-20-20)T

**03. Begin Actual Construction.** Commence construction. (3-20-20)T

**04. Emissions Increase.** The amount by which projected actual emissions exceed baseline actual emissions of an emissions unit. (3-20-20)T

**05. Innovative Control Technology.** Any system of air pollution control that has not been adequately demonstrated in practice, but would have a substantial likelihood of achieving greater continuous emissions reduction than any control system in current practice, or of achieving at least comparable reductions at lower cost in terms of energy, economics, or non-air quality environmental effects. (3-20-20)T

**06. Net Emissions Increase.** For purposes of Sections 204 and 205, a net emissions increase shall be defined by the federal regulations incorporated by reference. For purposes of Section 210, a net emissions increase shall be an emissions increase from a particular modification plus any other increases and decreases in actual emissions at the facility that are creditable and contemporaneous with the particular modification, where: (3-20-20)T

**a.** A creditable increase or decrease in actual emissions is contemporaneous with a particular modification if it occurs between the date five (5) years before the commencement of construction or modification on the particular change and the date that the increase from the particular modification occurs. Any replacement unit that requires shakedown becomes operational only after a reasonable shakedown period, not to exceed one hundred and eighty (180) days; (3-20-20)T

**b.** A decrease in actual emissions is creditable only if it satisfies the requirements for emission reduction credits (Section 460) and has approximately the same qualitative significance for public health and welfare as that attributed to the increase from the particular modification, and is federally enforceable at and after the time that construction of the modification commences. (3-20-20)T

**c.** The increase in toxic air pollutant emissions from an already operating or permitted source is not included in the calculation of the net emissions increase for a proposed new source or modification if: (3-20-20)T

**i.** The already operating or permitted source commenced construction or modification prior to July 1, 1995; or (3-20-20)T

**ii.** The uncontrolled emission rate from the already operating or permitted source is ten per cent (10%) or less of the applicable screening emissions level listed in Section 585 or 586; or (3-20-20)T

**iii.** The already operating or permitted source is an environmental remediation source subject to or regulated by the Resource Conservation and Recovery Act (42 U.S.C. Sections 6901-6992k) and IDAPA 58.01.05, "Idaho Rules and Standards for Hazardous Waste," (IDAPA 58.01.05.000 et seq.) or the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. 6901-6992k) or a consent order. (3-20-20)T

**07. Pilot Plant.** A stationary source located at least one quarter (1/4) mile from any sensitive receptor that functions to test processing, mechanical, or pollution control equipment to determine full-scale feasibility and which does not produce products that are offered for sale except in developmental quantities. (3-20-20)T

**08. Projected Actual Emissions.** (3-20-20)T

a. The maximum annual rate, in tons per year, at which an existing emissions unit is projected to emit a regulated air pollutant in any one (1) of the five (5) years (twelve (12) month period) following the date the unit resumes regular operation after the project, or in any one (1) of the ten (10) years following that date, if the project involves increasing the emissions unit's design capacity or its potential to emit that regulated air pollutant and full utilization of the unit would result in a significant emissions increase or a significant net emissions increase at an existing major stationary source. (3-20-20)T

b. In determining the projected actual emissions, the owner or operator of the stationary source: (3-20-20)T

i. Shall consider all relevant information including, but not limited to, historical operational data, the company's own representations, the company's expected business activity and the company's highest projections of business activity, the company's filings with state or federal regulatory authorities, and compliance plans under the approved state implementation plan; and (3-20-20)T

ii. Shall include fugitive emissions to the extent quantifiable and emissions associated with startups, shutdowns, and malfunctions; and (3-20-20)T

iii. Shall exclude, in calculating any increase in emissions that results from the particular project, that portion of the unit's emissions following the project that an existing unit could have accommodated during the consecutive twenty-four (24) month period used to establish the baseline actual emissions and that are also unrelated to the particular project, including any increased utilization due to product demand growth; or (3-20-20)T

iv. In lieu of using the method set out in Subsections 007.08.b.i. through 007.08.b.iii., may elect to use the emissions unit's potential to emit, in tons per year. (3-20-20)T

**09. Reasonable Further Progress (RFP).** Annual incremental reductions in emissions of the applicable air pollutant as identified in the SIP which are sufficient to provide for attainment of the applicable ambient air quality standard by the required date. (3-20-20)T

**10. Sensitive Receptor.** Any residence, building or location occupied or frequented by persons who, due to age, infirmity or other health based criteria, may be more susceptible to the deleterious effects of a toxic air pollutant than the general population including, but not limited to, elementary and secondary schools, day care centers, playgrounds and parks, hospitals, clinics and nursing homes. (3-20-20)T

**11. Short Term Source.** Any new stationary source or modification to an existing source, with an operational life no greater than five (5) years from the inception of any operations to the cessation of actual operations. (3-20-20)T

**12. Toxic Air Pollutant Reasonably Available Control Technology (T-RACT).** An emission standard based on the lowest emission of toxic air pollutants that a particular source is capable of meeting by the application of control technology that is reasonably available, as determined by the Department, considering technological and economic feasibility. If control technology is not feasible, the emission standard may be based on the application of a design, equipment, work practice or operational requirement, or combination thereof. (3-20-20)T

**008. DEFINITIONS FOR THE PURPOSES OF SECTIONS 300 THROUGH 386.**

**01. Affected States.** All States: (3-20-20)T

a. Whose air quality may be affected by the emissions of the Tier I source and that are contiguous to Idaho; or (3-20-20)T

b. That are within fifty (50) miles of the Tier I source. (3-20-20)T

**02. Allowance.** An authorization allocated to a Phase II source by the EPA to emit during or after a specified calendar year, one (1) ton of sulfur dioxide. (3-20-20)T

**03. Applicable Requirement.** All of the following if approved or promulgated by EPA as they apply to emissions units in a Tier I source (including requirements that have been promulgated through rulemaking at the time of permit issuance but which have future-effective compliance dates): (3-20-20)T

**a.** Any standard or other requirement provided for in the applicable state implementation plan, including any revisions to that plan that are specified in 40 CFR Parts 52.670 through 52.690. (3-20-20)T

**b.** Any term or condition of any permits to construct issued by the Department pursuant to Sections 200 through 223 or by EPA pursuant to 42 U.S.C. Sections 7401 through 7515; provided that terms or conditions relevant only to toxic air pollutants are not applicable requirements. (3-20-20)T

**c.** Any standard or other requirement under 42 U.S.C. Section 7411 including 40 CFR Part 60; (3-20-20)T

**d.** Any standard or other requirement under 42 U.S.C. Section 7412 including 40 CFR Part 61 and 40 CFR Part 63; (3-20-20)T

**e.** Any standard or other requirement of the acid rain program under 42 U.S.C. Sections 7651 through 7651o; (3-20-20)T

**f.** Any requirements established pursuant to 42 U.S.C. Section 7414(a)(3), 42 U.S.C. Section 7661c(b) or Sections 120 through 128 of these rules; (3-20-20)T

**g.** Any standard or other requirement governing solid waste incineration, under 42 U.S.C. Section 7429; (3-20-20)T

**h.** Any standard or other requirement for consumer and commercial products and tank vessels, under 42 U.S.C. Sections 7511b(e) and (f); and (3-20-20)T

**i.** Any standard or other requirement under 42 U.S.C. Sections 7671 through 7671q including 40 CFR Part 82. (3-20-20)T

**j.** Any ambient air quality standard or increment or visibility requirement provided in 42 U.S.C. Sections 7470 through 7492, but only as applied to temporary sources receiving Tier I operating permits under Section 324. (3-20-20)T

**04. Designated Representative.** A responsible person or official authorized by the owner or operator of a Phase II unit to represent the owner or operator in matters pertaining to the holding, transfer, or disposition of allowances allocated to a Phase II unit, and the submission of and compliance with permits, permit applications, and compliance plans for the Phase II unit. (3-20-20)T

**05. Draft Permit.** The version of a Tier I operating permit that is made available by the Department for public participation and affected State review. (3-20-20)T

**06. Emergency.** For the purposes of Section 332, an emergency is any situation arising from sudden and reasonably unforeseeable events beyond the control of the owner or operator, including acts of God, which situation requires immediate corrective action to restore normal operation and that causes the Tier I source to exceed a technology-based emission limitation under the Tier I operating permit due to unavoidable increases in emissions attributable to the emergency. An emergency shall not include noncompliance to the extent caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operator error. (3-20-20)T

**07. Final Permit.** The version of a Tier I permit issued by the Department that has completed all review procedures required in Sections 364 and 366. (3-20-20)T

**08. General Permit.** A Tier I permit issued pursuant to Section 335. (3-20-20)T

317. **09. Insignificant Activity.** Those activities that qualify as insignificant in accordance with Section 006 through 008, the definitions in 40 CFR Part 60 shall have the meaning given in that Part, except that the term “Administrator” shall mean “Department.” (3-20-20)T

**10. Major Facility.** A facility (as defined in Section 006) is major if the facility meets any of the following criteria: (3-20-20)T

**a.** For hazardous air pollutants: (3-20-20)T

i. The facility emits or has the potential to emit ten (10) tons per year (tpy) or more of any hazardous air pollutant, other than radionuclides, which has been listed pursuant to 42 U.S.C. Section 7412(b); provided that emissions from any oil or gas exploration or production well (with its associated equipment) and emissions from any oil or gas pipeline compressor or pump station shall not be aggregated with emissions from other similar emission units within the facility. (3-20-20)T

ii. The facility emits or has the potential to emit twenty-five (25) tpy or more of any combination of any hazardous air pollutants, other than radionuclides, which have been listed pursuant to 42 U.S.C. 7412(b); provided that emissions from any oil or gas exploration or production well (with its associated equipment) and emissions from any oil or gas pipeline compressor or pump station shall not be aggregated with emissions from other similar emission units within the facility. (3-20-20)T

**b.** For non-attainment areas: (3-20-20)T

i. The facility is located in a “serious” particulate matter (PM-10) nonattainment area and the facility has the potential to emit seventy (70) tpy or more of PM-10. (3-20-20)T

ii. The facility is located in a “serious” carbon monoxide nonattainment area in which stationary sources are significant contributors to carbon monoxide levels and the facility has the potential to emit fifty (50) tpy or more of carbon monoxide. (3-20-20)T

iii. The facility is located in an ozone transport region established pursuant to 42 U.S.C. Section 7511c and the facility has the potential to emit fifty (50) tpy or more of volatile organic compounds. (3-20-20)T

iv. The facility is located in an ozone nonattainment area and, depending upon the classification of the nonattainment area, the facility has the potential to emit the following amounts of volatile organic compounds or oxides of nitrogen; provided that oxides of nitrogen shall not be included if the facility has been identified in accordance with 42 U.S.C. Section 7411a(f)(1) or (2) if the area is “marginal” or “moderate,” one hundred (100) tpy or more, if the area is “serious,” fifty (50) tpy or more, if the area is “severe,” twenty-five (25) tpy or more, and if the area is “extreme,” ten (10) tpy or more. (3-20-20)T

**c.** The facility emits or has the potential to emit one hundred (100) tons per year or more of any regulated air pollutant. The fugitive emissions shall not be considered in determining whether the facility is major unless the facility belongs to one (1) of the following categories: (3-20-20)T

i. Designated facilities. (3-20-20)T

ii. All other source categories regulated by 40 CFR Part 60, 40 CFR Part 61 or 40 CFR Part 63, but only with respect to those air pollutants that have been regulated for that category and only if determined by rule by the Administrator of EPA pursuant to Section 302(j) of the Clean Air Act. (3-20-20)T

**009. DEFINITIONS FOR THE PURPOSES OF 40 CFR PART 60.**  
Notwithstanding the definitions listed in Sections 006 through 008, the definitions in 40 CFR Part 60 shall have the meaning given in that Part, except that the term “Administrator” shall mean “Department.” (3-20-20)T

**010. DEFINITIONS FOR THE PURPOSES OF 40 CFR PART 61 AND 40 CFR PART 63.**  
Notwithstanding the definitions listed in Sections 006 through 008, the definitions in 40 CFR Part 61 and 40 CFR Part 63 shall have the meaning given in those Parts, except that the term “Administrator” shall mean “Department.” (3-20-20)T

**011. DEFINITIONS FOR THE PURPOSES OF SECTIONS 790 THROUGH 799.**

**01. Best Management Practice.** The best management practice (BMP) employed within an industry to control fugitive emissions. (3-20-20)T

**02. Control Strategy Trigger.** An event or condition that indicates that a control action is needed to prevent violation of a standard or a provision of the rule. (3-20-20)T

**03. Nonmetallic Mineral Processing Plant.** Any combination of equipment that is used to crush or grind any nonmetallic mineral or rock wherever it may be located, including equipment located at lime plants, power plants, steel mills, asphalt concrete plants, Portland cement plants, or any other facility or location processing nonmetallic minerals. (3-20-20)T

**04. NSPS Regulated Facility or Plant.** A facility or processing plant that is subject to a standard, limitation, or other requirement of 40 CFR 60, Standards for the Performance of New Stationary Sources. (3-20-20)T

**05. Permit by Rule.** A provision of the rules under which a facility or source registers with the Department and meets the specific requirements for that type of source. The source is then deemed to have a permit, thereby authorizing construction and operation without first obtaining a "Permit to Construct" as required in Section 201. Operating in accordance with a "Permit by Rule" (PBR) does not relieve the owner or operator from complying with all applicable federal, state, and local rules and regulations. (3-20-20)T

**06. Progressive Control Strategy.** A sequence of control actions that when progressively employed can reduce the potential for violation of a standard or a provision of the rules. Control actions, beginning with those early in the sequence, shall be progressively applied until an adequate level of control is achieved. (3-20-20)T

**07. Site of Operations.** The specific operating location of a nonmetallic mineral processing plant. (3-20-20)T

**012. -- 105. (RESERVED)**

**106. ABBREVIATIONS.**

**01. AAC.** Acceptable Ambient Concentration. (3-20-20)T

**02. AACC.** Acceptable Ambient Concentration for a Carcinogen. (3-20-20)T

**03. ACGIH.** American Conference of Government Industrial Hygienists. (3-20-20)T

**04. CAS.** Chemical Abstract Service. (3-20-20)T

**05. CL.** Derived from ACGIH ceiling Limit UF = 10. (3-20-20)T

**06. EL.** Emissions Screening Level. (3-20-20)T

**07. ID.** Idaho Division of Environmental Quality. Not OEL based. (3-20-20)T

**08. LA.** From LA Dept. of Environmental Quality. Not OEL based eight (8) hour TWA. (3-20-20)T

**09. MA.** From MA Dept. of Environmental Protection, Div. of Air Quality Control. Not OEL based, annual averaging time, no uf. (3-20-20)T

**10. MI.** From MI Dept. of Natural Resources, Air Quality Div. Based on toxicological data, annual av. time, no uf. (3-20-20)T

**11. NY.** From New York Dept. of Conservation, Div. of Air Quality. Not OEL based, one (1) yr. Av.

- time no uncertainty factor (uf). (3-20-20)T
- 12. OEL. Reference Occupational Exposure Level. (3-20-20)T
  - 13. PL. From Phil. Dept. of Air Management Services. Not OEL based, one (1) yr. averaging time no uf. (3-20-20)T
  - 14. PL1. From Phil. Dept. of Air Management Services. Unspecified OEL based, one (1) yr. averaging time, uf=10. (3-20-20)T
  - 15. PL2. From Phil. Dept. of Air Management Services. Not OEL based one (1) yr. Av. time, uf=10. (3-20-20)T
  - 16. PL3. From Phil. Dept. of Air Management Services. Not OEL based, one (1) yr. av. time, uf=1000. (3-20-20)T
  - 17. TWA. Time Weighted Average. (3-20-20)T
  - 18. UF. Uncertainty Factor. (3-20-20)T
  - 19. URF. Unit Risk Factor from the US Environmental Protection Agency. (3-20-20)T
  - 20. WA. From Washington Dept. of Ecology, Air Programs. Acceptable Source Impact Level based. (3-20-20)T

**107. INCORPORATIONS BY REFERENCE.**

**01. General.** Unless expressly provided otherwise, any reference in these rules to any document identified in Subsection 107.03 constitutes the full incorporation into these rules of that document for the purposes of the reference, including any notes and appendices therein. The term “documents” includes codes, standards or rules which have been adopted by an agency of the state or of the United States or by any nationally recognized organization or association. (3-20-20)T

**02. Availability of Referenced Material.** Copies of the documents incorporated by reference into these rules are available at the following locations: (3-20-20)T

- and;
- a. All federal publications: U.S. Government Printing Office at <http://www.ecfr.gov/cgi-bin/ECFR;> (3-20-20)T
  - b. Statutes of the state of Idaho: <http://legislature.idaho.gov/idstat/TOC/IDStatutesTOC.htm>; and (3-20-20)T
  - c. All documents herein incorporated by reference: (3-20-20)T
  - i. Department of Environmental Quality, 1410 N. Hilton, Boise, Idaho 83706-1255 at (208) 373-0502. (3-20-20)T
  - ii. State Law Library, 451 W. State Street, P.O. Box 83720, Boise, Idaho 83720-0051, (208) 334-3316. (3-20-20)T

**03. Documents Incorporated by Reference.** The following documents are incorporated by reference into these rules: (3-20-20)T

- a. Requirements for Preparation, Adoption, and Submittal of Implementation Plans, [40 CFR Part 51](#) revised as of July 1, 2019. The following portions of 40 CFR Part 51 are expressly excluded from any incorporation by reference into these rules: (3-20-20)T

- i. All sections included in 40 CFR Part 51, Subpart P, Protection of Visibility, except that 40 CFR 51.301, 51.304(a), 51.307, and 51.308 are incorporated by reference into these rules; and (3-20-20)T
- ii. Appendix Y to Part 51, Guidelines for BART Determinations Under the Regional Haze Rule. (3-20-20)T
- b. National Primary and Secondary Ambient Air Quality Standards, 40 CFR Part 50, revised as of July 1, 2019. (3-20-20)T
- c. Approval and Promulgation of Implementation Plans, 40 CFR Part 52, Subparts A and N and Appendices D and E, revised as of July 1, 2019. (3-20-20)T

**108. -- 120. (RESERVED)**

**121. COMPLIANCE REQUIREMENTS BY DEPARTMENT.**

Any person engaged in an activity which may violate the air quality provisions of the Act, violate an air quality order issued or entered in accordance with the Act or these rules, or violate any of these rules, may be required by the Department to do any of the following: (3-20-20)T

- 01. Schedule.** Prepare a proposed schedule whereby the unlawful activity will be brought into compliance over a specified period of time. (3-20-20)T
- 02. Report.** Submit periodic reports to the Department indicating progress in achieving compliance. (3-20-20)T
- 03. Records.** Submit, keep and maintain appropriate records. (3-20-20)T

**04. Monitoring.** Monitor air pollutants at the source, in the ambient air, or in vegetation to demonstrate compliance. (3-20-20)T

**05. Episode Plans.** Develop emergency episode plans to help prevent ambient air pollution concentrations from reaching levels which would cause substantial endangerment to health or the environment. (3-20-20)T

**122. INFORMATION ORDERS BY THE DEPARTMENT.**

The Department may issue information orders as follows: (3-20-20)T

**01. Purpose.** For the purpose of: (3-20-20)T

**a.** Developing or assisting in the development of any implementation plan, any standard of performance, any emission standard or any rule; (3-20-20)T

**b.** Determining whether any person is in violation of any standard of performance, any emission standard, any implementation plan or any rule; or (3-20-20)T

**c.** Carrying out any air quality provisions of the Act, any air quality order issued or entered in accordance with the Act or rules, or any of these rules. (3-20-20)T

**02. Persons.** The Department may issue an information order to any person who: (3-20-20)T

**a.** Owns or operates any emission source; (3-20-20)T

**b.** Manufactures emission control equipment; (3-20-20)T

**c.** The Department believes may have information necessary to meet the intent of these rules; or (3-20-20)T

**d.** Is subject to any requirement of these rules. (3-20-20)T

**03. Requirements.** The information order may require the person to perform the following on a one-time, periodic or continuous basis: (3-20-20)T

**a.** Establish, maintain and submit records; (3-20-20)T

**b.** Make reports; (3-20-20)T

**c.** Install, use, and maintain monitoring equipment, and use audit procedures or methods; (3-20-20)T

**d.** Sample emissions in accordance with procedures or methods, at such locations, at such intervals, during such periods and in such manner as the Department shall prescribe; (3-20-20)T

**e.** Keep records on control equipment parameters, production variables or other indirect data when the Department determines that direct monitoring of emissions is impractical; (3-20-20)T

**f.** Submit compliance certifications including: (3-20-20)T

**i.** Identification of the applicable requirement that is the basis of the certification; (3-20-20)T

**ii.** The method(s) or other means used by the owner or operator for determining the compliance status for each applicable requirement, and whether such methods or other means provide continuous or intermittent data; and (3-20-20)T

**iii.** The status of compliance with each applicable requirement, based on the method or means

designated in Subsection 122.03.f.ii. The certification shall identify each deviation and take it into account in the compliance certification. The certification shall also identify as possible exceptions to compliance any periods during which compliance is required and in which an excursion or exceedance as defined under 40 CFR Part 64 occurred; and (3-20-20)T

- g.** Provide such other information as the Department may require. (3-20-20)T

**123. CERTIFICATION OF DOCUMENTS.**

All documents, including but not limited to, application forms for permits to construct, application forms for operating permits, progress reports, records, monitoring data, supporting information, requests for confidential treatment, testing reports or compliance certifications submitted to the Department shall contain a certification by a responsible official. The certification shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete. (3-20-20)T

**124. TRUTH, ACCURACY AND COMPLETENESS OF DOCUMENTS.**

All documents submitted to the Department shall be truthful, accurate and complete. (3-20-20)T

**125. FALSE STATEMENTS.**

No person shall knowingly make any false statement, representation, or certification in any form, notice, or report required under any permit, or any applicable rule or order in force pursuant thereto. (3-20-20)T

**126. TAMPERING.**

No person shall knowingly render inaccurate any monitoring device or method required under any permit, or any applicable rule or order in force pursuant thereto. (3-20-20)T

**127. FORMAT OF RESPONSES.**

All responses and information submitted to the Department shall be provided in a format approved by the Department. (3-20-20)T

**128. CONFIDENTIAL INFORMATION.**

Information obtained by the Department under these rules is subject to public disclosure pursuant to the provisions of Chapter 1, Title 74, Idaho Code and Section 39-111, Idaho Code. Information submitted under a trade secret claim may be entitled to confidential treatment by the Department as provided in Section 74-114, Idaho Code, and IDAPA 58.01.21, "Rules Governing the Protection and Disclosure of Records in the Possession of the Department of Environmental Quality." If the information for which the person is requesting confidential treatment is submitted to the Department under Sections 300 through 386 or the terms or conditions of a Tier I operating permit, the person shall also submit the same information directly to the EPA. (3-20-20)T

**129. (RESERVED)**

**130. STARTUP, SHUTDOWN, SCHEDULED MAINTENANCE, SAFETY MEASURES, UPSET AND BREAKDOWN.**

The purpose of Sections 130 through 136 is to establish procedures and requirements to be implemented in all excess emissions events and to establish criteria to be applied by the Department in determining whether to take enforcement action to impose penalties for an excess emissions event where the excess emissions are caused by startup, shutdown, scheduled maintenance, upset, or breakdown of any emissions unit or which occur as a direct result of the implementation of any safety measure. (3-20-20)T

**131. EXCESS EMISSIONS.**

**01. Applicability.** The owner or operator of a facility or emissions unit generating excess emissions shall comply with Sections 131, 132, 133.01, 134.01, 134.02, 134.03, 135, and 136, as applicable. If the owner or operator anticipates requesting consideration under Subsection 131.02, then the owner or operator shall also comply with the applicable provisions of Subsections 133.02, 133.03, 134.04, and 134.05. (3-20-20)T

**02. Enforcement Action Criteria.** Where an excess emissions event occurs as a direct result of startup, shutdown, or scheduled maintenance, or an unavoidable upset or unavoidable breakdown, or the

implementation of a safety measure, the Department shall consider the sufficiency of the information submitted and the following criteria to determine if an enforcement action to impose penalties is warranted: (3-20-20)T

**a.** Whether prior to the excess emissions event, the owner or operator submitted and implemented procedures pursuant to Subsections 133.02 and 133.03 or Subsections 134.04 and 134.05, as applicable; (3-20-20)T

**b.** Whether the owner or operator complied with all relevant portions of Subsections 131, 132, 133.01, 134.01, 134.02, 134.03, 135, and 136; (3-20-20)T

**c.** Whether the excess emissions event was part of a recurring pattern of excess emissions events indicative of inadequate design, operation or maintenance of the facility or emissions unit; and (3-20-20)T

**d.** Where appropriate, whether the excess emissions event was caused by an activity necessary to prevent loss of life, personal injury or severe property damage. (3-20-20)T

**03. Effect of Determination.** Any decision by the Department under Subsection 131.02 shall not excuse the owner or operator from compliance with the relevant emission standard and shall not preclude the Department from taking an enforcement action to enjoin the activity causing the excess emissions. Any decision made by the Department under Subsection 131.02 shall not preclude the Department from taking an enforcement action for future or other excess emission events. The affirmative defense for emergencies under Section 332 of these Rules may be applied in addition to the provisions of Sections 130 through 136. (3-20-20)T

**132. CORRECTION OF CONDITION.**

The person responsible for, or in charge of a facility during, an excess emissions event shall, with all practicable speed, initiate and complete appropriate and reasonable action to correct the conditions causing such excess emissions event; to reduce the frequency of occurrence of such events; to minimize the amount by which the emission standard is exceeded; and shall, as provided below or upon request of the Department, submit a full report of such occurrence, including a statement of all known causes, and of the scheduling and nature of the actions to be taken. (3-20-20)T

**133. STARTUP, SHUTDOWN AND SCHEDULED MAINTENANCE REQUIREMENTS.**

The requirements in Subsection 133.01 shall apply in all cases where startup, shutdown, or scheduled maintenance of any equipment or emissions unit is expected to result or results in an excess emissions event. The owner or operator of the facility or emissions unit generating the excess emissions shall demonstrate compliance with all of the requirements of Subsection 133.01, as well as the development and implementation of procedures pursuant to Subsections 133.02 and 133.03 as a prerequisite to any consideration under Subsection 131.02. (3-20-20)T

**01. General Provisions.** The following shall pertain to all startup, shutdown, and scheduled maintenance activities expected to result or resulting in excess emissions: (3-20-20)T

**a.** No scheduled startup, shutdown, or maintenance resulting in excess emissions shall occur during any period in which an Atmospheric Stagnation Advisory and/or a Wood Stove Curtailment Advisory has been declared by the Department within an area designated by the Department as a PM-10 nonattainment area, unless the permittee demonstrates that such is reasonably necessary to facility operations and cannot be reasonably avoided and the Department approves such activity in advance, to the extent advance approval by the Department is feasible. This prohibition on scheduled startup, shutdown or maintenance activities during Advisories does not apply to situations where shutdown is necessitated by urgent situations, such as imminent equipment failure, power curtailment, worker safety concerns or similar situations. (3-20-20)T

**b.** The owner or operator of a source of excess emissions shall notify the Department of any startup, shutdown, or scheduled maintenance event that is expected to cause an excess emissions event. Such notification shall identify the time of the excess emissions, specific location, equipment involved, and type of excess emissions event (i.e. startup, shutdown, or scheduled maintenance). The notification shall be given as soon as reasonably possible, but no later than two (2) hours prior to the start of the excess emissions event unless the owner or operator demonstrates to the Department's satisfaction that a shorter advanced notice was necessary. The Department may prohibit or postpone any scheduled startup, shutdown, or maintenance activity upon consideration of the factors listed in Subsection 134.03. (3-20-20)T

c. The owner or operator of a source of excess emissions shall report and record the information required pursuant to Sections 135 and 136 for each excess emissions event due to startup, shutdown, or scheduled maintenance. (3-20-20)T

d. The owner or operator of a source of excess emissions must make the maximum reasonable effort, including off-shift labor where practicable to accomplish maintenance during periods of nonoperation of any related source operations or equipment. (3-20-20)T

**02. Excess Emissions Procedures.** For all equipment or emissions unit from which excess emissions may occur during startup, shutdown, or scheduled maintenance, the facility owner or operator shall prepare, implement and file with the Department specific procedures which will be used to minimize excess emissions during such events. Specific information for each of the types of excess emissions events (i.e. startup, shutdown and scheduled maintenance) shall be established or documented for each piece of equipment or emissions unit and shall include all of the following (which may be based upon the facility owner or operator's knowledge of the process or emissions where measured data is unavailable): (3-20-20)T

a. Identification of the specific equipment or emissions unit and the type of event anticipated. (3-20-20)T

b. Identification of the specific emissions in excess of applicable emission standards during the startup, shutdown, or scheduled maintenance period. (3-20-20)T

c. The estimated amount of excess emissions expected to be released during each event. (3-20-20)T

d. The expected duration of each excess emissions event. (3-20-20)T

e. An explanation of why the excess emissions are reasonably unavoidable for each of the types of excess emissions events (i.e. startup, shutdown, and scheduled maintenance). (3-20-20)T

f. Specification of the frequency at which each of the types of excess emissions events (i.e. startup, shutdown, and scheduled maintenance) are expected to occur. (3-20-20)T

g. For scheduled maintenance, the owner or operator shall also document detailed explanations of: (3-20-20)T

i. Why the maintenance is needed. (3-20-20)T

ii. Why it is impractical to reduce or cease operation of the equipment or emissions unit during the scheduled maintenance period. (3-20-20)T

iii. Why the excess emissions are not reasonably avoidable through better scheduling of the maintenance or through better operation and maintenance practices. (3-20-20)T

iv. Why, where applicable, it is necessary to by-pass, take off line, or operate equipment or emissions unit at reduced efficiency while the maintenance is being performed. (3-20-20)T

h. Justification to explain why the piece of equipment or emissions unit cannot be modified or redesigned to eliminate or reduce the excess emissions which occur during startup, shutdown, and scheduled maintenance. (3-20-20)T

i. Detailed specification of the procedures to be followed by the owner or operator which will minimize excess emissions at all times during startup, shutdown, and scheduled maintenance. These procedures may include such measures as preheating or otherwise conditioning the emissions unit prior to its use or the application of auxiliary equipment or emissions unit to reduce the excess emissions. (3-20-20)T

**03. Amendments to Procedures.** The owner or operator shall amend, and the Department may require

amendments to, the procedures established pursuant to Section 133 from time to time and as deemed reasonably necessary to ensure that the procedures are and remain consistent with good pollution control practices. (3-20-20)T

**04. Filing of Excess Emissions Procedures.** (3-20-20)T

**a.** Unless otherwise required by the Department, the failure to prepare or file procedures pursuant to Subsection 133.02 shall not be a violation of these Rules in and of itself. (3-20-20)T

**b.** To the extent procedures or plans for excess emissions resulting from startup, shutdown, or scheduled maintenance are required to be or are otherwise submitted to the Department with any permit application, such submission, if deemed adequate by the Department, shall fulfill the requirement under this Section to file plans and procedures with the Department. (3-20-20)T

**134. UPSET, BREAKDOWN AND SAFETY REQUIREMENTS.**

The requirements in Subsections 134.01, 134.02, and 134.03 shall apply in all cases where upset or breakdown of equipment or an emissions unit, or the initiation of safety measures, result or may result in an excess emissions event. The owner or operator of the facility or emissions unit generating the excess emissions shall demonstrate compliance with all of the requirements of Subsections 134.01, 134.02 and 134.03 as well as the development and implementation of procedures pursuant to Subsections 134.04 and 134.05 as a prerequisite to any consideration under Subsection 131.02. Where the owner or operator demonstrates that because of the unforeseeable nature of the excess emissions event it is impractical to develop procedures pursuant to Subsection 134.04, the Department shall exercise its enforcement discretion on a case by case basis. (3-20-20)T

**01. Routine Maintenance and Repairs.** For all equipment or emissions units from which excess emissions may occur during upset conditions or breakdowns or implementation of safety measures, the facility owner or operator shall: (3-20-20)T

**a.** Implement routine preventative maintenance and operating procedures consistent with good pollution control practices for minimizing upsets and breakdowns or events requiring implementation of safety measures, and (3-20-20)T

**b.** Make routine repairs in an expeditious fashion when the owner or operator knew or should have known that an excess emissions event was likely to occur. Off-shift labor and overtime shall be utilized, to the extent practicable, to ensure that such repairs are made expeditiously. (3-20-20)T

**02. Excess Emissions Minimization and Notification.** For all equipment or emissions units from which excess emissions result during upset or breakdown conditions, or for other situations that may necessitate the implementation of safety measures which cause excess emissions, the facility owner or operator shall comply with the following: (3-20-20)T

**a.** The owner or operator shall immediately undertake all appropriate measures to reduce and, to the extent possible, eliminate excess emissions resulting from the event and to minimize the impact of such excess emissions on the ambient air quality and public health. (3-20-20)T

**b.** The owner or operator shall notify the Department of any upset/breakdown/safety event that results in excess emissions. Such notification shall identify the time, specific location, equipment or emissions unit involved, and (to the extent known) the cause(s) of the occurrence. The notification shall be given as soon as reasonably possible, but no later than twenty-four (24) hours after the event, unless the owner or operator demonstrates to the Department's satisfaction that the longer reporting period was necessary. (3-20-20)T

**c.** The owner or operator shall report and record the information required pursuant to Sections 135 and 136 for each excess emissions event caused by an upset, breakdown, or safety measure. (3-20-20)T

**03. Discretionary Reduction or Cessation Provisions.** During any period of excess emissions caused by upset, breakdown, or operation under facility safety measures, the Department may require the owner or operator to immediately reduce or cease operation of the equipment or emissions unit causing the excess emissions until such time as the condition causing the excess emissions has been corrected or brought under control. Such action by the

Department shall be taken upon consideration of the following factors and after consultation with the facility owner or operator: (3-20-20)T

- a. Potential risk to the public or the environment. (3-20-20)T
- b. Whether ceasing operations could result in physical damage to the equipment, emissions unit or facility, or cause injury to employees. (3-20-20)T
- c. Whether continued excess emissions were reasonably unavoidable as determined by the Department. (3-20-20)T
- d. The effect of the increase in pollution resulting from the shutdown and subsequent restart of the equipment or emissions unit or facility. (3-20-20)T
- e. The owner or operator shall not be required to reduce or cease operations at the entire facility if reducing or ceasing operations at a portion of the facility eliminates or adequately reduces the excess emissions. (3-20-20)T

**04. Excess Emissions Procedures.** For equipment or emissions units and process upsets and breakdowns and situations that require implementation of safety measures, which events can reasonably be anticipated to occur periodically but which cannot be reasonably avoided or predicted with certainty, the owner or operator shall prepare, implement, and file with the Department specific procedures which will be used to minimize such events and excess emissions during such events. To the extent possible and reasonably practicable (and based upon knowledge of the process or emissions where measured data is not available), specify the following information for each type of anticipated upset/ breakdown/safety event: (3-20-20)T

- a. The specific air pollution control equipment or emissions unit and the type of event anticipated. (3-20-20)T
- b. The specific emissions in excess of applicable emission standards during the event. (3-20-20)T
- c. The estimated amount of excess emissions expected to be released during each event. (3-20-20)T
- d. The expected duration of each excess emissions event. (3-20-20)T
- e. An explanation of why the excess emissions are reasonably unavoidable. (3-20-20)T
- f. The frequency of the type of event, based on historic occurrences. (3-20-20)T
- g. Justification to explain why the piece of control equipment or emissions unit cannot be modified or redesigned to eliminate or reduce the particular type of event. (3-20-20)T
- h. Detailed specification of the procedures to be followed by the owner or operator which will minimize excess emissions at all times during such events, including without limitation those procedures listed under Subsection 134.05. (3-20-20)T

**05. Amendments to Procedures.** The owner or operator shall amend, and the Department may require amendments to, the procedures established pursuant to Section 134 from time to time and as deemed reasonably necessary to ensure that the procedures are and remain consistent with good pollution control practices. (3-20-20)T

**06. Filing of Excess Emissions Procedures.** (3-20-20)T

- a. Failure to follow procedures filed with the Department shall not preclude the Department from making a determination under Subsection 131.02 if the owner or operator demonstrates to the Department's satisfaction that alternate and equivalent procedures were used and were necessitated by the exigency of the circumstances. (3-20-20)T

**b.** Unless otherwise required by the Department, the failure to prepare or file procedures pursuant to Subsection 134.04 shall not be a violation of these Rules in and of itself. (3-20-20)T

**c.** To the extent procedures or plans for excess emissions resulting from upsets, breakdowns or safety measures are required to be or are otherwise submitted to the Department with any permit application, such submission, if deemed adequate by the Department, shall fulfill the requirement under this Section to file plans and procedures with the Department. (3-20-20)T

**135. EXCESS EMISSIONS REPORTS.**

**01. Deadline for Excess Emissions Reports.** A written report for each excess emissions event shall be submitted to the Department by the owner or operator no later than fifteen (15) days after the beginning of each such event. (3-20-20)T

**02. Contents of Excess Emissions Reports.** Each report shall contain the following information: (3-20-20)T

**a.** The time period during which the excess emissions occurred; (3-20-20)T

**b.** Identification of the specific equipment or emissions unit which caused the excess emissions; (3-20-20)T

**c.** An explanation of the cause, or causes, of the excess emissions and whether the excess emissions occurred as a result of startup, shutdown, scheduled maintenance, upset, breakdown or a safety measure; (3-20-20)T

**d.** An estimate of the emissions in excess of any applicable emission standard (based on knowledge of the process and facility where emissions data is unavailable); (3-20-20)T

**e.** A description of the activities carried out to eliminate the excess emissions; and (3-20-20)T

**f.** Certify compliance status with the requirements of Sections 131, 132, 133.01, 134.01 through 134.03, 135, and 136. (3-20-20)T

**g.** If requesting consideration under Subsection 131.02, certify compliance status with Sections 131, 132, 133.01 through 133.03, 134.01 through 134.05, 135, and 136. (3-20-20)T

**136. EXCESS EMISSIONS RECORDS.**

**01. Maintenance of Excess Emissions Records.** The owner or operator shall maintain excess emissions records at the facility for the most recent five (5) calendar year period. (3-20-20)T

**02. Availability of Excess Emissions Records.** The excess emissions records shall be made available to the Department upon request. (3-20-20)T

**03. Contents of Excess Emissions Records.** The excess emissions records shall include the following: (3-20-20)T

**a.** An excess emissions log book for each emissions unit or piece of equipment containing copies of all reports that have been submitted to the Department pursuant to Section 135 for the particular emissions unit or equipment; and (3-20-20)T

**b.** Copies of all startup, shutdown, and scheduled maintenance procedures and upset/breakdown/safety preventative maintenance plans which have been developed by the owner or operator in accordance with Sections 133 and 134, and facility records as necessary to demonstrate compliance with such procedures and plans. (3-20-20)T

**04. Protections Under Section 128.** The protections under Section 128 for confidential information

shall be available for excess emissions reports and records upon proper request of the owner or operator in accordance with Section 128. (3-20-20)T

**137. -- 139. (RESERVED)**

**140. VARIANCES.**

The purpose of Sections 140 through 149 is to establish procedures for obtaining variances. (3-20-20)T

**141. PETITION.**

A variance proceeding shall be commenced by filing three (3) copies of a petition for variance with the Department. The complaint may be accompanied by such affidavits or other proof as the petitioner may submit in order to make it possible for the Department, if it so desires, to dispose of the matter without a hearing. The petition shall contain the following: (3-20-20)T

**01. Statement of Facts.** A concise statement of the facts upon which the variance is requested, including a description of the business or activity in question; the quantity and type of raw materials processed; an estimate of the quantity and type of contaminants discharged; a description of existing and proposed equipment for the control of discharges; and a time schedule for bringing the activity into compliance. (3-20-20)T

**02. Statement of Reasons.** A concise statement of why the petitioner believes that compliance with the provision from which variance is sought would impose an arbitrary or unreasonable hardship, including a description of the costs that compliance would impose on the petitioner and others, and of the injury that the grant of the variance would impose on the public. (3-20-20)T

**03. Requested Relief.** A clear statement of the precise extent of the relief sought. (3-20-20)T

**142. NOTICE.**

The Department shall give notice of all variance petitions as required by law. (3-20-20)T

**143. INVESTIGATION AND RECOMMENDATION.**

After investigating the variance petition and considering the views of persons who might be adversely affected by the grant of the variance, the Department staff shall, within twenty-one (21) days after the filing of the petition, make a recommendation to the Department as to the disposition of the petition. The recommendation, a copy of which shall be served on the petitioner, shall include: (3-20-20)T

**01. Efforts.** A description of the efforts made by the staff to investigate the facts as alleged and to ascertain the views of persons who might be affected, and a summary of the views so ascertained. (3-20-20)T

**02. Disputed Facts.** A statement of the degree to which, if at all, the staff disagrees with the facts as alleged in the petition. (3-20-20)T

**03. Other Facts.** Allegations of any other facts the staff believes relevant to the disposition of the petition. (3-20-20)T

**04. Costs.** The staff's assessment of the costs that compliance would impose on the petitioner and on others and of the injury that the grant of the variance would impose on the public. (3-20-20)T

**05. Recommendations.** The staff's reasoned recommendations as to what disposition should be made of the petition. (3-20-20)T

**144. OBJECTIONS TO PETITION.**

Any person may file with the Department, within twenty-one (21) days after the filing of the petition, a written objection to the grant of the variance. A copy of such objection shall be provided by the Department to the petitioner. (3-20-20)T

**145. AUTHORIZATION OF HEARING.**

**01. No Objection.** If no objection is made by the staff or by any other person to the grant of the variance within twenty-one (21) days after the filing of the petition, the Department shall authorize a hearing unless it determines either: (3-20-20)T

**a.** That even if all the facts alleged in the petition are true, the petitioner is not entitled to variance; or (3-20-20)T

**b.** That the petitioner has shown from affidavits or other proof that compliance with the provision from which variance is sought would impose an arbitrary or unreasonable hardship. (3-20-20)T

**02. No Hearing.** If the Department decides not to hold a hearing, it shall pass upon the petition and shall prepare an opinion stating its reasons both for the grant or denial of the petition and for its decision not to hold a hearing. (3-20-20)T

**03. Early Hearing.** The Department may authorize a hearing without waiting for the expiration of the twenty-one (21) days during which objections may be filed; provided that if a hearing is not held the Department shall not rule upon the petition until the twenty-one (21) days have elapsed. (3-20-20)T

**146. NOTICE OF HEARING.**

The Hearing Officer, after appropriate consultation with the parties, shall set a time and place for hearing and give notice to the petitioner, the EPA, and anyone who has filed an objection to the petition at least twenty-one (21) days prior to the date of the hearing. The hearing shall be set for a date no later than sixty (60) days after the filing of the petition. Any request by the petitioner for a continuance shall constitute a waiver of the right to a decision within ninety (90) days for the period of the continuance. (3-20-20)T

**147. DECISION.**

The Department shall render a final decision upon the petition within ninety (90) days after the filing of the petition, except that time included in a continuance granted at the request of the petitioner shall not be counted. When exigencies of time require, the Department may delay the filing of an opinion until not more than thirty (30) days after the filing of its final order. (3-20-20)T

**148. PROOF OF HARDSHIP.**

No variance shall be granted, with or without hearing, without adequate proof by the petitioner that compliance would impose an arbitrary or unreasonable hardship. (3-20-20)T

**149. VARIANCE FROM NEW RULE.**

If any person files a petition for variance from a rule within twenty (20) days after the original effective date of such a rule, the operation of such rule shall be stayed as to such person, pending the disposition of the petition. The Department may hold a hearing upon said petition within five (5) days from the notice of such hearing, but in all other respects, the rules in Sections 140 through 149 shall apply to the extent they are consistent with the hearing date set by the hearing officer. (3-20-20)T

**150. -- 154. (RESERVED)**

**155. CIRCUMVENTION.**

No person shall willfully cause or permit the installation or use of any device or use of any means that conceals emissions of pollutants that would otherwise violate the provisions of this chapter without resulting in a reduction in the total amount of emissions. (3-20-20)T

**156. TOTAL COMPLIANCE.**

Where more than one (1) section of these rules applies to a particular situation, all such rules must be met for total compliance, unless otherwise provided for in these rules. (3-20-20)T

**157. TEST METHODS AND PROCEDURES.**

The purpose of this Section is to establish procedures and requirements for test methods and results. Unless otherwise specified in these rules, permit, order, consent decree, or prior written approval by the Department: (3-20-20)T

**01. General Requirements.** If a source test is performed to satisfy a performance test requirement or a compliance test requirement imposed by state or federal regulation, rule, permit, order or consent decree, then the test methods and procedures shall be conducted in accordance with the requirements of Section 157. (3-20-20)T

**a.** Prior to conducting any emission test, owners or operators are strongly encouraged to submit to the Department in writing, at least thirty (30) days in advance, the following for approval: (3-20-20)T

i. The type of method to be used; (3-20-20)T

ii. Any extenuating or unusual circumstances regarding the proposed test; and (3-20-20)T

iii. The proposed schedule for conducting and reporting the test. (3-20-20)T

**b.** Without prior Department approval, any alternative testing is conducted solely at the owner's or operator's risk. If the owner or operator fails to obtain prior written approval by the Department for any testing deviations, the Department may determine the test does not satisfy the testing requirements. (3-20-20)T

**02. Test Requirements.** Tests shall be conducted in accordance with the following requirements. (3-20-20)T

**a.** The test must be conducted under operational conditions specified in the applicable state or federal regulation, rule, permit, order, consent decree or by Department approval. If the operational requirements are not specified, the source should test at worst-case normal operating conditions. Worst-case normal conditions are those conditions of fuel type, and moisture, process material makeup and moisture and process procedures which are changeable or which could reasonably be expected to be encountered during the operation of the facility and which would result in the highest pollutant emissions from the facility. (3-20-20)T

**b.** The Department may impose operational limitations or require additional testing in a permit, order or consent decree if the test is conducted under conditions other than worst-case normal. (3-20-20)T

**c.** The Department will accept the methods approved for the applicable pollutants, source type and operating conditions found in 40 CFR Parts 51, 60, 61, and 63 in determining the appropriate test method for an emission limit where one is not otherwise specified. (3-20-20)T

**d.** The following requirements apply to owners or operators requesting minor changes in the test method. As stated in Subsection 157.01 above, without prior Department approval, other changes may result in rejection of the test results by the Department. (3-20-20)T

i. For federal emission standards codified at 40 CFR Parts 60, 61, and 63, the Department will accept those minor changes which have received written approval of the U.S. EPA Administrator so long as the Department determines they are appropriate for the specific application. (3-20-20)T

ii. For all other emission standards in these rules or for permit requirements, the Department will accept those minor changes that the Department determines are appropriate for the specific application. (3-20-20)T

**e.** An owner or operator proposing to use an alternative test method not considered a minor change in Subsection 157.02.d. above, must: (3-20-20)T

i. Demonstrate to the Department by comparative testing or sufficient analysis, that the alternative method is comparable and equivalent to the designated test method. (3-20-20)T

ii. Submit the request for approval to use an alternative test method to the Department at least thirty (30) days in advance of a scheduled test. (3-20-20)T

iii. Obtain, and submit to the Department, EPA approval for use of the alternative test method for emission standards in these rules (except for state only toxic air pollutant standards) or for federal emission standards codified at 40 CFR Parts 60, 61, and 63. (3-20-20)T

iv. Obtain verification that any prior approval of an alternative test method by the Department continues to be acceptable. Alternative methods may cease to be acceptable if new or different information indicates that the alternative test method is less accurate, less reliable, or not comparable with any current state or federal regulation, rule order, permit, or consent decree. (3-20-20)T

f. Prior approval by the Department may not constitute Department approval for subsequent tests if new or different information indicates that a previously Department approved test method is less accurate, less reliable or not comparable with any current state or federal regulation, rule, order, permit or consent decree. (3-20-20)T

**03. Observation of Tests by Department Staff.** The owner or operator shall provide notice of intent to test to the Department at least fifteen (15) days prior to the scheduled test, or shorter time period as provided in a permit, order, consent decree or by Department approval. The Department may, at its option, have an observer present at any emissions tests conducted on a source. (3-20-20)T

**04. Reporting Requirements.** If the source test is performed to satisfy a performance test requirement imposed by state or federal regulation, rule, permit, order, or consent decree, a written report shall be submitted to the Department within sixty (60) days of the completion of the test. The written report shall: (3-20-20)T

a. Meet the format and content requirements specified by the Department in any applicable rule, regulation, guidance, permit, order, or consent decree. Any deviations from the format and contents specified require prior written approval from the Department. Failure to obtain such approval may result in the rejection of the test results. (3-20-20)T

b. Include all data required to be noted or recorded in any referenced test method. (3-20-20)T

**05. Test Results Review Criteria.** The Department will make every effort to review test results within a reasonable time. The Department may reject tests as invalid for: (3-20-20)T

a. Failure to adhere to the approved/required method; (3-20-20)T

b. Using a method inappropriate for the source type or operating conditions; (3-20-20)T

c. An incomplete written report; (3-20-20)T

d. Computational or data entry errors; (3-20-20)T

e. Clearly unreasonable results; (3-20-20)T

f. Failure to comply with the certification requirements of Section 123 of these rules; or (3-20-20)T

g. Failure of the source to conform to operational requirements in orders, permits, or consent decrees at the time of the test. (3-20-20)T

**158. -- 159. (RESERVED)**

**160. PROVISIONS GOVERNING SPECIFIC ACTIVITIES AND CONDITIONS.**

Sections 160 through 164 establish provisions governing specific activities and conditions. Test methods and procedures shall comply with Section 157. (3-20-20)T

**161. TOXIC SUBSTANCES.**

Any contaminant which is by its nature toxic to human or animal life or vegetation shall not be emitted in such quantities or concentrations as to alone, or in combination with other contaminants, injure or unreasonably affect human or animal life or vegetation. (3-20-20)T

**162. MODIFYING PHYSICAL CONDITIONS.**

When physical conditions such as tall adjacent buildings, valley and mountain terrain, etc., are such as to limit the normal dispersion of air pollutants, the Board may set more restrictive emission limitations on those sources affected by the unusual conditions when air quality standards would reasonably be expected to be exceeded. (3-20-20)T

**163. SOURCE DENSITY.**

Should areas develop where each individual source is meeting the requirements of this chapter, yet the ambient air quality standards are being exceeded or might reasonably be expected to be exceeded, the Board may set more restrictive emission limits than are contained in this chapter. (3-20-20)T

**164. POLYCHLORINATED BIPHENYLS (PCBS).**

**01. Prohibition on Burning.** Burning any material containing greater than five (5) parts per million of polychlorinated biphenyls (PCBs) is prohibited, except for incineration for the purpose of disposal. Incineration for disposal shall comply with the following provisions: (3-20-20)T

**a.** No person shall commence construction or modification of a PCB incinerator without a permit issued according to Sections 200 through 225. (3-20-20)T

**b.** The Department must provide opportunity for public comments prior to a final decision for a permit to construct or modify a new PCB incinerator. (3-20-20)T

**c.** A permit issued according to Sections 200 through 225 for construction or modification of a PCB incinerator shall require, as a minimum, best available control technology and monitoring instrumentation. (3-20-20)T

**d.** No permit to operate, construct or modify a PCB incinerator shall be processed or issued prior to March 16, 1987, or such earlier date as shall be determined by the State Board of Environmental Quality. (3-20-20)T

**02. Prohibition on Sales.** No person shall sell, distribute or provide any materials containing greater than five (5) parts per million PCBs for home or commercial heating equipment. (3-20-20)T

**165. -- 174. (RESERVED)**

**175. PROCEDURES AND REQUIREMENTS FOR PERMITS ESTABLISHING A FACILITY EMISSIONS CAP.**

The purpose of Sections 176 through 181 is to establish uniform procedures to obtain a Facility Emissions Cap (FEC) for stationary sources or facilities (hereinafter referred to as facility or facilities). A permit establishing a FEC will be issued pursuant to Sections 200 through 228 or Sections 400 through 410. (3-20-20)T

**176. FACILITY EMISSIONS CAP.**

**01. Optional Facility Emissions Cap.** An owner or operator of a facility may request a FEC to establish an enforceable facility-wide emission limitation. (3-20-20)T

**02. Applicability.** (3-20-20)T

**a.** The owner or operator of any facility, which is not a major facility as defined in Sections 204 or 205, may apply to the Department for a permit to establish a FEC. (3-20-20)T

**b.** FECs are available for new and existing facilities that are not major as defined in Section 204 or 205 or existing facilities undergoing a modification that does not make the facility a major facility as defined in Section 204 or 205. (3-20-20)T

**c.** Facilities that become major facilities as defined in Section 204 or 205 are no longer eligible for a FEC under Section 176. (3-20-20)T

**03. Definitions.** For the purposes of Sections 175 through 181, the following terms shall be defined as

- below. (3-20-20)T
- a. Baseline actual emissions. As defined in Section 007. (3-20-20)T
  - b. Design concentration. The ambient concentration used in establishing the FEC. (3-20-20)T
  - c. Facility emissions cap (FEC). A facility-wide emission limitation expressed in tons per year, for any criteria pollutant or hazardous air pollutant established in accordance with Sections 176 through 181. A FEC is calculated using baseline actual emissions plus an operational variability component and a growth component. A FEC, which is defined in tons per year on a twelve (12) month rolling basis, must be set below major facility thresholds as defined in Sections 204 and 205. (3-20-20)T
  - d. FEC pollutant. The pollutant for which a FEC is established. (3-20-20)T
  - e. Growth component. The level of emissions requested by the applicant and approved by the Department to allow for potential future business growth or facility changes that may increase emissions above baseline actual emissions plus the operational variability component. (3-20-20)T
  - f. Operational variability component. The level of emissions up to the significant emission rate (SER) minus one (1) ton per year but no more than the facility's potential to emit (PTE). If the proposed FEC pollutant does not have a SER listed in Section 006 or has a SER less than or equal to ten (10) tons per year, the operational variability component is the level of emissions requested by the applicant and approved by the Department. The operational variability component cannot be more than the facility's PTE. (3-20-20)T

**177. APPLICATION PROCEDURES.**

In addition to the information required pursuant to Sections 202 or 402, whichever is applicable, applications requesting a FEC must include the information required under Sections 176 through 181 and Subsections 177.01 through 177.03. (3-20-20)T

- 01. Estimates of Emissions.** A proposed FEC for each pollutant requested by the facility, including the basis for calculating the FEC. (3-20-20)T
- 02. Estimates of Ambient Concentrations.** (3-20-20)T
  - a. Estimates of ambient concentrations will be determined as described in Subsection 202.02. (3-20-20)T
  - b. Estimates of ambient concentrations may include projections of alternative future changes within the proposed FEC. (3-20-20)T
  - c. For a new, existing, or modified facility, a demonstration that for each FEC pollutant, the FEC will not cause or significantly contribute to a violation of any ambient air quality standard. (3-20-20)T
  - d. For renewal of terms and conditions establishing a FEC, it is presumed that the previous permitting analysis is satisfactory, unless the Department determines otherwise. (3-20-20)T
- 03. Monitoring and Recordkeeping.** The application must include proposed means for the facility to determine facility emissions on a rolling twelve (12) month consecutive basis. (3-20-20)T

**178. STANDARD CONTENTS OF PERMITS ESTABLISHING A FACILITY EMISSIONS CAP.**

In addition to the elements required by Sections 203 and 211 or Sections 403 and 405, whichever is applicable, the Department shall have the authority to impose, implement and enforce the terms in Subsections 178.01 through 178.05 and conditions establishing a FEC. (3-20-20)T

- 01. Emission Limitations and Standards.** All permits establishing use of a FEC shall contain annual facility wide emissions limitations for each FEC pollutant. (3-20-20)T

- 02. Monitoring.** All permits establishing a FEC shall contain sufficient monitoring to ensure compliance with the FEC on a rolling twelve (12) month consecutive basis. (3-20-20)T
- 03. Recordkeeping.** All permits establishing a FEC shall include the following: (3-20-20)T
- a.** Sufficient recordkeeping to assure compliance with the FEC. (3-20-20)T
  - b.** Retention of required monitoring records and support information for a period of at least five (5) years from the date of the monitoring sample, measurement, report or application. Supporting information includes, but is not limited to, calibration and maintenance records and original strip-chart recordings for continuous monitoring instrumentation and copies of all reports required by the permit. (3-20-20)T
- 04. Reporting.** All permits establishing a FEC shall include the following: (3-20-20)T
- a.** Sufficient reporting to assure compliance with the permit establishing the FEC. (3-20-20)T
  - b.** Submittal of an annual report each year on or before the anniversary date of permit issuance. All required reports must be certified in accordance with Section 123. (3-20-20)T
- 05. Duration.** Each permit establishing a FEC shall state that the terms and conditions establishing the FEC are effective for a fixed term of five (5) years. (3-20-20)T

**179. PROCEDURES FOR ISSUING PERMITS ESTABLISHING A FACILITY EMISSIONS CAP.**

- 01. General Procedures.** Procedures for issuing permits establishing a FEC will follow Sections 209 or 404, whichever is applicable. (3-20-20)T
- 02. Renewal.** The renewal of the terms and conditions establishing a FEC are subject to the same procedural requirements for issuing permits (Subsection 179.01) and Subsections 179.02.a. through 179.02.d.: (3-20-20)T
- a.** The permittee shall submit a complete application to the Department for a renewal of the terms and conditions establishing the FEC at least six (6) months before, but no earlier than eighteen (18) months before, the expiration date of the existing permit. To ensure that the term of the permit does not expire before the terms and conditions are renewed, the permittee is encouraged to submit the application nine (9) months prior to expiration. (3-20-20)T
  - b.** If a timely and complete application for a renewal of the terms and conditions establishing the FEC is submitted, but the Department fails to issue or deny the renewal permit before the end of the term of the previous permit, then all the terms and conditions of the previous permit shall remain in effect until the renewal permit has been issued or denied. (3-20-20)T
  - c.** Expiration of the terms and conditions establishing a FEC may be grounds to terminate the facility's right to operate pursuant to Sections 176 through 181, unless a timely and complete renewal application has been submitted. (3-20-20)T
  - d.** On renewal, the Department may adjust a FEC with an unused growth component in accordance with the Idaho Environmental Protection and Health Act, Chapter 1, Title 39, Idaho Code, and these rules. (3-20-20)T
- 03. Reopening the FEC.** The Department may reopen a FEC to: (3-20-20)T
- a.** Reduce the FEC to reflect newly applicable federal requirements (for example, NSPS) with compliance dates after the issuance of the permit establishing the FEC. (3-20-20)T
  - b.** Reduce the FEC consistent with any other requirement that is enforceable as a practical matter, and that the state may impose on the facility under the Idaho Environmental Protection and Health Act, Chapter 1, Title

39, Idaho Code, and these rules. (3-20-20)T

**04. FEC Termination.** The Director may approve a revision of a permit establishing a FEC to terminate the FEC, provided the permittee complies with Subsections 209.04 or 404.04, as applicable, and Subsections 179.04.a. through 179.04.c.: (3-20-20)T

**a.** The permittee may request a revision of the permit establishing the FEC to terminate the FEC at anytime prior to the expiration of the permit. The permittee is encouraged to submit an application for a permit to construct or Tier I operating permit, as applicable, six (6) months prior to the time the permittee wishes to terminate the FEC. (3-20-20)T

**b.** The FEC established in the permit shall remain in effect until the Department issues a new permit to construct or Tier I operating permit, as applicable. (3-20-20)T

**c.** Nothing in Section 179 prohibits a permittee from requesting a permit revision to terminate the FEC during the permit renewal process. (3-20-20)T

**180. REVISIONS TO PERMITS ESTABLISHING A FACILITY EMISSIONS CAP.**

Section 180 requires revisions to terms and conditions establishing a FEC. The permittee is exempt from Sections 200 through 228 unless the permittee chooses to use those rules to process any change to the permit, except as provided in Subsection 180.02. (3-20-20)T

**01. Criteria.** A permit revision is required for the following: (3-20-20)T

**a.** A change to existing monitoring, reporting or recordkeeping requirements in the permit establishing the FEC; (3-20-20)T

**b.** A change to the FEC; or (3-20-20)T

**c.** A change to the facility that would impose new requirements not included in the permit establishing the FEC. (3-20-20)T

**02. Permit Revision Application Procedures.** A permittee may initiate a permit revision by submitting a permit revision application to the Department or by complying with other applicable sections (Sections 200 or 400). For revision of terms and conditions establishing the FEC, it is presumed that the previous permitting analysis is satisfactory unless the Department determines otherwise. A permit revision application shall: (3-20-20)T

**a.** Meet the standard application requirements of Section 177; (3-20-20)T

**b.** Describe the proposed permit revision; (3-20-20)T

**c.** Describe and quantify the change in emissions above the FEC permit limit; and (3-20-20)T

**d.** Identify new requirements resulting from the change. (3-20-20)T

**03. Permit Revisions.** The Department will process permit revisions pursuant to Section 209 or Section 404. (3-20-20)T

**181. NOTICE AND RECORD-KEEPING OF ESTIMATES OF AMBIENT CONCENTRATIONS.**

Section 181 authorizes facility changes that comply with the terms and conditions establishing the FEC, but that are not included in the estimate of ambient concentration analysis approved for the permit establishing the FEC. No permit revision shall be required for facility changes implemented in accordance with Section 181. (3-20-20)T

**01. Notice.** For facility changes that comply with the terms and conditions establishing the FEC, but are not included in the estimate of ambient concentration analysis approved for the permit establishing the FEC, the permittee shall review the estimate of ambient concentration analysis. (3-20-20)T

**a.** In the event that the facility change would result in a significant contribution above the design concentration determined by the estimate of ambient concentration analysis approved for the permit establishing the FEC, but does not cause or significantly contribute to a violation to any ambient air quality standard, the permittee shall provide notice to the Department in accordance with Subsection 181.01.b. (3-20-20)T

**b.** Notice procedures. The permittee may make a facility change under Section 181 if the permittee provides written notification to the Department so that the notification is received at least seven (7) days in advance of the proposed change or, in the event of an emergency, the permittee provides the notification so that it is received at least twenty-four (24) hours in advance of the proposed change. For each such change, the written notification shall: (3-20-20)T

i. Describe the proposed change; (3-20-20)T

ii. Describe and quantify expected emissions; and (3-20-20)T

iii. Provide the estimated ambient concentration analysis. (3-20-20)T

**02. Recordkeeping.** For facility changes that comply with the terms and conditions establishing the FEC, but are not included in the estimate of ambient concentration analysis approved for the permit establishing the FEC, the permittee shall review the estimate of ambient concentration analysis. In the event the facility change would not result in a significant contribution above the design concentration determined by the estimate of ambient concentration analysis approved for the permit establishing the FEC, the permittee shall record and maintain documentation on-site of the review. (3-20-20)T

**03. Estimates of Ambient Concentrations.** Estimates of ambient concentrations shall be determined during the term of this permit using the same model and model parameters as used with the estimate of ambient concentration analysis approved for the permit establishing the FEC. The permittee shall include any changes to the facility that are not included in the originally approved estimate of ambient concentration analysis. (3-20-20)T

**182. -- 199. (RESERVED)**

**200. PROCEDURES AND REQUIREMENTS FOR PERMITS TO CONSTRUCT.**

The purposes of Sections 200 through 228 is to establish uniform procedures and requirements for the issuance of "Permits to Construct." As used throughout Sections 200 through 228 and 578 through 581, major facility shall be defined as major stationary source in 40 CFR 52.21(b) and 40 CFR 51.165, incorporated by reference into these rules at Section 107, and major modification shall be defined as in 40 CFR 52.21(b) and 40 CFR 51.165, incorporated by reference into these rules at Section 107. These CFR sections have been codified in the electronic CFR which is available at [www.ecfr.gov](http://www.ecfr.gov). (3-20-20)T

**201. PERMIT TO CONSTRUCT REQUIRED.**

No owner or operator may commence construction or modification of any stationary source, facility, major facility, or major modification without first obtaining a permit to construct from the Department which satisfies the requirements of Sections 200 through 228 unless the source is exempted in any of Sections 220 through 223, or the owner or operator complies with Section 213 and obtains the required permit to construct, or the owner or operator complies with Sections 175 through 181, or the source operates in accordance with all of the applicable provisions of a permit by rule. (3-20-20)T

**202. APPLICATION PROCEDURES.**

Application for a permit to construct must be made using forms furnished by the Department, or by other means prescribed by the Department. The application shall be certified by the responsible official in accordance with Section 123 and shall be accompanied by all information necessary to perform any analysis or make any determination required under Sections 200 through 228. (3-20-20)T

**01. Required Information.** Depending upon the proposed size and location of the new or modified stationary source or facility, the application for a permit to construct shall include all of the information required by one or more of the following provisions: (3-20-20)T

- a.** For any new or modified stationary source or facility: (3-20-20)T
- i. Site information, plans, descriptions, specifications, and drawings showing the design of the stationary source, facility, or modification, the nature and amount of emissions (including secondary emissions), and the manner in which it will be operated and controlled. (3-20-20)T
  - ii. A schedule for construction of the stationary source, facility, or modification. (3-20-20)T
- b.** For any new major facility or major modification in a nonattainment area which would be major for the nonattainment regulated air pollutant(s): (3-20-20)T
- i. A description of the system of continuous emission control proposed for the new major facility or major modification, emission estimates, and other information as necessary to determine that the lowest achievable emission rate would be applied. (3-20-20)T
  - ii. A description of the emission offsets proposed for the new major facility or major modification, including information on the stationary sources, mobile sources, or facilities providing the offsets, emission estimates, and other information necessary to determine that a net air quality benefit would result. (3-20-20)T
  - iii. Certification that all other facilities in Idaho, owned or operated by (or under common ownership of) the proposed new major facility or major modification, are in compliance with all local, state or federal requirements or are on a schedule for compliance with such. (3-20-20)T
  - iv. An analysis of alternative sites, sizes, production processes, and environmental control techniques which demonstrates that the benefits of the proposed major facility or major modification significantly outweigh the environmental and social costs imposed as a result of its location, construction, or modification. (3-20-20)T
  - v. An analysis of the impairment to visibility of any federal Class I area, Class I area designated by the Department, or integral vista of any mandatory federal Class I area that the new major facility or major modification would impact (including the monitoring of visibility in any Class I area near the new major facility or major modification, if requested by the Department). (3-20-20)T
- c.** For any new major facility or major modification in an attainment or unclassifiable area for any regulated air pollutant. (3-20-20)T
- i. A description of the system of continuous emission control proposed for the new major facility or major modification, emission estimates, and other information as necessary to determine that the best available control technology would be applied. (3-20-20)T
  - ii. An analysis of the effect on air quality by the new major facility or major modification, including meteorological and topographical data necessary to estimate such effects. (3-20-20)T
  - iii. An analysis of the effect on air quality projected for the area as a result of general commercial, residential, industrial, and other growth associated with the new major facility or major modification. (3-20-20)T
  - iv. A description of the nature, extent, and air quality effects of any or all general commercial, residential, industrial, and other growth which has occurred since August 7, 1977, in the area the new major facility or major modification would affect. (3-20-20)T
  - v. An analysis of the impairment to visibility, soils, and vegetation that would occur as a result of the new major facility or major modification and general commercial, residential, industrial, and other growth associated with establishment of the new major facility or major modification. The owner or operator need not provide an analysis of the impact on vegetation or soils having no significant commercial or recreational value. (3-20-20)T
  - vi. An analysis of the impairment to visibility of any federal Class I area, Class I area designated by the Department, or integral vista of any mandatory federal Class I area that the new major facility or major

modification would affect. (3-20-20)T

vii. An analysis of the existing ambient air quality in the area that the new major facility or major modification would affect for each regulated air pollutant that a new major facility would emit in significant amounts or for which a major modification would result in a significant net emissions increase. (3-20-20)T

viii. Ambient analyses as specified in Subsections 202.01c.vii., 202.01c.ix., 202.01c.x., and 202.01c.xii., may not be required if the projected increases in ambient concentrations or existing ambient concentrations of a particular regulated air pollutant in any area that the new major facility or major modification would affect are less than the amounts listed under 40 CFR 52.21(i)(5)(i), or the regulated air pollutant is not listed therein. (3-20-20)T

ix. For any regulated air pollutant which has an ambient air quality standard, the analysis shall include continuous air monitoring data, gathered over the year preceding the submittal of the application, unless the Department determines that a complete and adequate analysis can be accomplished with monitoring data gathered over a period shorter than one (1) year, but not less than four (4) months, which is adequate for determining whether the emissions of that regulated air pollutant would cause or contribute to a violation of the ambient air quality standard or any prevention of significant deterioration (PSD) increment. (3-20-20)T

x. For any regulated air pollutant which does not have an ambient air quality standard, the analysis shall contain such air quality monitoring data that the Department determines is necessary to assess ambient air quality for that air pollutant in any area that the emissions of that air pollutant would affect. (3-20-20)T

xi. If requested by the Department, monitoring of visibility in any Class I area the proposed new major facility or major modification would affect. (3-20-20)T

xii. Operation of monitoring stations shall meet the requirements of Appendix B to 40 CFR Part 58 or such other requirements as extensive as those set forth in Appendix B as may be approved by the Department. (3-20-20)T

**02. Estimates of Ambient Concentrations.** All estimates of ambient concentrations shall be based on the applicable air quality models, data bases, and other requirements specified in 40 CFR 51, Appendix W (Guideline on Air Quality Models). (3-20-20)T

**a.** Where an air quality model specified in the "Guideline on Air Quality Models," is inappropriate, the model may be modified or another model substituted, subject to written approval of the Administrator of the U.S. Environmental Protection Agency and public comment pursuant to Subsection 209.01.c.; provided that modifications and substitutions of models used for toxic air pollutants will be reviewed by the Department. (3-20-20)T

**b.** Methods like those outlined in the U.S. Environmental Protection Agency's "Interim Procedures for Evaluating Air Quality Models (Revised)" (September 1984) should be used to determine the comparability of air quality models. (3-20-20)T

**03. Additional Information.** Any additional information, plans, specifications, evidence or documents that the Department may require to make the determinations required under Sections 200 through 225 shall be furnished upon request. (3-20-20)T

**203. PERMIT REQUIREMENTS FOR NEW AND MODIFIED STATIONARY SOURCES.**  
No permit to construct shall be granted for a new or modified stationary source unless the applicant shows to the satisfaction of the Department all of the following: (3-20-20)T

**01. Emission Standards.** The stationary source or modification would comply with all applicable local, state or federal emission standards. (3-20-20)T

**02. NAAQS.** The stationary source or modification would not cause or significantly contribute to a violation of any ambient air quality standard. (3-20-20)T

**03. Toxic Air Pollutants.** Using the methods provided in Section 210, the emissions of toxic air pollutants from the stationary source or modification would not injure or unreasonably affect human or animal life or vegetation as required by Section 161. Compliance with all applicable toxic air pollutant carcinogenic increments and toxic air pollutant non-carcinogenic increments will also demonstrate preconstruction compliance with Section 161 with regards to the pollutants listed in Sections 585 and 586. (3-20-20)T

**204. PERMIT REQUIREMENTS FOR NEW MAJOR FACILITIES OR MAJOR MODIFICATIONS IN NONATTAINMENT AREAS.**

New major facilities or major modifications proposed for location in a nonattainment area and which would be major for the nonattainment regulated air pollutant are considered nonattainment new source review (NSR) actions and are subject to the requirements in Section 204. Section 202 contains application requirements and Section 209 contains processing requirements for nonattainment NSR permitting actions. The intent of Section 204 is to incorporate the federal nonattainment NSR rule requirements. (3-20-20)T

**01. Incorporated Federal Program Requirements.** Requirements contained in the following subparts of 40 CFR 51.165 are incorporated by reference into these rules at Section 107. Requirements contained in the following subparts of 40 CFR 52.21, are incorporated by reference at Section 107 of these rules. These CFR sections have been codified in the electronic CFR at [www.ecfr.gov](http://www.ecfr.gov).

<b>40 CFR Reference</b>	<b>40 CFR Reference Title</b>
40 CFR 51.165(a)(1)	Definitions
40 CFR 51.165(a)(2)(ii) - 51.165(a)(3)	Applicability Provisions
40 CFR 51.165(a)(6)(i) - (v)	Applicability Provisions
40 CFR 52.21(aa)	Actual PALs

(3-20-20)T

**02. Additional Requirements.** The applicant must demonstrate to the satisfaction of the Department the following: (3-20-20)T

**a.** LAER. Except as otherwise provided in Section 204, the new major facility or major modification would be operated at the lowest achievable emission rate (LAER) for the nonattainment regulated air pollutant, specifically: (3-20-20)T

i. A new major facility would meet the lowest achievable emission rate at each new emissions unit which emits the nonattainment regulated air pollutant; and (3-20-20)T

ii. A major modification would meet the lowest achievable emission rate at each new or modified emissions unit which has a net emissions increase of the nonattainment regulated air pollutant. (3-20-20)T

**b.** Required offsets. Allowable emissions from the new major facility or major modification are offset by reductions in actual emissions from stationary sources, facilities, and/or mobile sources in the nonattainment area so as to represent reasonable further progress. All offsetting emission reductions must satisfy the requirements for emission reduction credits (Section 460) and provide for a net air quality benefit which satisfies the requirements of Section 208. If the offsets are provided by other stationary sources or facilities, a permit to construct shall not be issued for the new major facility or major modification until the offsetting reductions are made enforceable through the issuance of operating permits. The new major facility or major modification may not commence operation, and an operating permit for the new major facility or major modification shall not be effective before the date the offsetting reductions are achieved. (3-20-20)T

**c.** Compliance status. All other sources in the State owned or operated by the applicant, or by any entity controlling, controlled by or under common control with such person, are in compliance with all applicable emission limitations and standards or subject to an enforceable compliance schedule. (3-20-20)T

**d.** Effect on visibility. The effect on visibility of any federal Class I area, Class I area designated by the Department, or integral vista of a mandatory Class I Federal Area, by the new major facility or major modification, is consistent with making reasonable progress toward the national visibility goal referred to in 40 CFR 51.300(a). The Department may take into account the costs of compliance, the time necessary for compliance, the energy and non-air quality environmental impacts of compliance and the useful life of the source. Any integral vista which the Federal Land Manager has not identified at least six (6) months prior to the submittal of a complete application, or which the Department determines was not identified in accordance with the criteria adopted pursuant to 40 CFR 51.304(a), may be exempted from Section 204 by the Department. (3-20-20)T

**03. Nonmajor Requirements.** If the proposed action meets the requirements of an exemption or exclusion under the provisions of 40 CFR 51.165 or 40 CFR 52.21 incorporated in Section 204, the nonmajor facility or stationary source permitting requirements of Sections 200 through 228 apply, including the exemptions in Sections 220 through 223. (3-20-20)T

**205. PERMIT REQUIREMENTS FOR NEW MAJOR FACILITIES OR MAJOR MODIFICATIONS IN ATTAINMENT OR UNCLASSIFIABLE AREAS.**

The prevention of significant deterioration (PSD) program is a construction permitting program for new major facilities and major modifications to existing major facilities located in areas in attainment or in areas that are unclassifiable for any criteria air pollutant. Section 202 contains application requirements and Section 209 contains processing requirements for PSD permit actions. The intent of Section 205 is to incorporate the federal PSD rule requirements. (3-20-20)T

**01. Incorporated Federal Program Requirements.** Requirements contained in the following subparts of 40 CFR 52.21 are incorporated by reference into these rules at Section 107. These CFR sections have been codified in the electronic CFR which is available at [www.ecfr.gov](http://www.ecfr.gov).

(3-20-20)T

**02. Effect on Visibility.** The applicant must demonstrate that the effect on visibility of any federal Class I area, Class I area designated by the Department, or integral vista of a mandatory Class I Federal Area, by the new major facility or major modification, is consistent with making reasonable progress toward the national visibility goal referred to in 40 CFR 51.300(a). The Department may take into account the costs of compliance, the time necessary for compliance, the energy and non-air quality environmental impacts of compliance and the useful life of the source. Any integral vista which the Federal Land Manager has not identified at least six (6) months prior to the submittal of a complete application, or which the Department determines was not identified in accordance with the criteria adopted pursuant to 40 CFR 51.304(a), may be exempted from this requirement by the Department. (3-20-20)T

**03. Exception to Incorporation by Reference of 40 CFR 52.21.** Every use of the word Administrator in 40 CFR 52.21 means the Department except for the following: (3-20-20)T

**a.** In 40 CFR 52.21(b)(17), the definition of federally enforceable, Administrator means the EPA Administrator. (3-20-20)T

**b.** In 40 CFR 52.21(l)(2), air quality models, Administrator means the EPA Administrator. (3-20-20)T

**c.** In 40 CFR 52.21(b)(43), permit program approved by the Administrator, Administrator means the EPA Administrator. (3-20-20)T

**d.** In 40 CFR 52.21(b)(48)(ii)(c), MACT standard that is proposed or promulgated by the Administrator, Administrator means the EPA Administrator. (3-20-20)T

**e.** In 40 CFR 52.21(b)(50)(i), regulated NSR pollutant as defined by Administrator, Administrator means the EPA Administrator. (3-20-20)T

**04. Nonmajor Requirements.** If the proposed action meets the requirements of an exemption or exclusion under the provisions of 40 CFR 52.21 incorporated in Section 205, the nonmajor facility or stationary source permitting requirements of Sections 200 through 228 apply, including the exemptions in Sections 220 through 223. (3-20-20)T

**206. OPTIONAL OFFSETS FOR PERMITS TO CONSTRUCT.**

The owner or operator of any proposed new or modified stationary source, new major facility, or major modification, which cannot meet the requirements of Subsections 202.01.c.vi., 203.02, 203.03, 204.02.d., 205.01 (40 CFR 52.21(k)), and 209.02.b.vi., may propose the use of an emission offset in order to meet those requirements and thereby obtain a permit to construct. Any proposed emission offset must satisfy the requirements for emission reduction credits, Section 460, and demonstrate, through appropriate dispersion modeling, that the offset will reduce ambient concentrations sufficiently to meet the requirements at all modeled receptors which could not otherwise have met the requirements. (3-20-20)T

**207. REQUIREMENTS FOR EMISSION REDUCTION CREDIT.**

In order to be credited in a permit to construct, any emission reduction credit must satisfy the requirements of Section 460. (3-20-20)T

**208. DEMONSTRATION OF NET AIR QUALITY BENEFIT.**

The demonstration of net air quality benefit shall: (3-20-20)T

**01. VOCs.** For trades involving volatile organic compounds, show that total emissions are reduced for the air basin in which the stationary source or facility is located; (3-20-20)T

**02. Other Regulated Air Pollutants.** For trades involving any other regulated air pollutant, show through appropriate dispersion modeling that the trade will not cause an increase in ambient concentrations at any modeled receptor; (3-20-20)T

**03. Mobile Sources.** For trades involving mobile sources, show a reduction in the ambient impact of emissions upon air quality by obtaining sufficient emission reductions to, at a minimum, compensate for adverse ambient impact where the major facility or major modification would otherwise cause or significantly contribute to a violation of any national ambient air quality standard. (3-20-20)T

**209. PROCEDURE FOR ISSUING PERMITS.**

**01. General Procedures.** General procedures for permits to construct. (3-20-20)T

**a.** Within thirty (30) days after receipt of the application for a permit to construct, the Department shall determine whether the application is complete or whether more information must be submitted and shall notify the applicant of its findings in writing. (3-20-20)T

- b.** Within sixty (60) days after the application is determined to be complete the Department shall: (3-20-20)T
- i.** Upon written request of the applicant, provide a draft permit for applicant review. Agency action on the permit under this Section may be delayed if deemed necessary to respond to applicant comments. (3-20-20)T
- ii.** Notify the applicant in writing of the approval, conditional approval, or denial of the application if an opportunity for public comment is not required pursuant to Subsection 209.01.c. The Department shall set forth reasons for any denial; or (3-20-20)T
- iii.** Issue a proposed approval, proposed conditional approval, or proposed denial. (3-20-20)T
- c.** An opportunity for public comment will be provided on all applications requiring a permit to construct. Public comment shall be provided on an application for any new major facility or major modification, any new facility or modification which would affect any Class I area, any application which uses fluid modeling or a field study to establish a good engineering practice stack height pursuant to Sections 510 through 516, any application which uses an interpollutant trade pursuant to Subsection 210.17, any application which the Director determines an opportunity for public comment should be provided, and any application upon which the applicant so requests. (3-20-20)T
- i.** The Department's proposed action, together with the information submitted by the applicant and the Department's analysis of the information, shall be made available to the public in at least one (1) location in the region in which the stationary source or facility is to be located. (3-20-20)T
- ii.** The availability of such materials shall be made known by notice published in a newspaper of general circulation in the county(ies) in which the stationary source or facility is to be located. (3-20-20)T
- iii.** A copy of such notice shall be sent to the applicant and to appropriate federal, state and local agencies. (3-20-20)T
- iv.** There shall be a thirty (30) day period after initial publication for comment on the Department's proposed action, such comment to be made in writing to the Department. (3-20-20)T
- v.** After consideration of comments and any additional information submitted during the comment period, and within forty-five (45) days after initial publication of the notice, or notice of public hearing if one is requested under Subsections 209.02.b.iv. or 209.02.a.ii., unless the Director deems that additional time is required to evaluate comments and information received, the Department shall notify the applicant in writing of approval, conditional approval, or denial of the permit. The Department shall set forth the reasons for any denial. (3-20-20)T
- vi.** All comments and additional information received during the comment period, together with the Department's final determination, shall be made available to the public at the same location as the preliminary determination. (3-20-20)T
- d.** A copy of each permit will be sent to the U.S. Environmental Protection Agency. (3-20-20)T
- 02. Additional Procedures for Specified Sources.** (3-20-20)T
- a.** For any new major facility or major modification in an attainment or unclassifiable area for any regulated air pollutant. (3-20-20)T
- i.** The public notice issued pursuant to Subsection 209.01.c.ii. shall indicate the degree of increment consumption that is expected from the new major facility or major modification; and (3-20-20)T
- ii.** The public notice issued pursuant to Subsection 209.01.c.ii. shall indicate the opportunity for a public hearing for interested persons to appear and submit written or oral comments on the air quality effects of the new major facility or major modification, alternatives to it, the control technology required, and other appropriate

considerations. All requests for public hearings during a comment period with an opportunity for a hearing must be requested in writing by interested persons within fourteen (14) days of the publication of the legal notice of the proposed permit to construct or within fourteen (14) days prior to the end of the comment period, whichever is later.

(3-20-20)T

**b.** For any new major facility or major modification which would affect a federal Class I area or an integral vista of a mandatory federal Class I area. (3-20-20)T

**i.** If the Department is notified of the intent to apply for a permit to construct, it shall notify the appropriate Federal Land Manager within thirty (30) days; (3-20-20)T

**ii.** A copy of the permit application and all relevant information, including an analysis of the anticipated effects on visibility in any federal Class I area, shall be sent to the Administrator of the U.S. Environmental Protection Agency and the Federal Land Manager within thirty (30) days of receipt of a complete application and at least sixty (60) days prior to any public hearing on the application; (3-20-20)T

**iii.** Notice of every action related to the consideration of the permit shall be sent to the Administrator of the U.S. Environmental Protection Agency; (3-20-20)T

**iv.** The public notice issued pursuant to Subsection 209.01.c.ii. shall indicate the opportunity for a public hearing for interested persons to appear and submit written or oral comments on the air quality effect of the new major facility or major modification, alternatives to it, the control technology required, and other appropriate considerations. All requests for public hearings during a comment period with an opportunity for a hearing must be requested in writing by interested persons within fourteen (14) days of the publication of the legal notice of the proposed permit to construct or within fourteen (14) days prior to the end of the comment period, whichever is later. (3-20-20)T

**v.** The notice of public hearing, if required, shall explain any differences between the Department's preliminary determination and any visibility analysis performed by the Federal Land Manager and provided to the Department within thirty (30) days of the notification pursuant to Subsection 209.02.b.ii. (3-20-20)T

**vi.** Upon a sufficient showing by the Federal Land Manager that a proposed new major facility or major modification will have an adverse impact upon the air quality related values (including visibility) of any federal mandatory Class I area, the Director may deny the application notwithstanding the fact that the concentrations of regulated air pollutants would not exceed the maximum allowable increases for a Class I area. (3-20-20)T

**03. Establishing a Good Engineering Stack Height.** The Department will notify the public of the availability of any fluid model or field study used to establish a good engineering practice stack height and provide an opportunity for a public hearing before issuing a permit or setting an emission standard based thereon. (3-20-20)T

**04. Revisions of Permits to Construct.** The Director may approve a revision of any permit to construct provided the stationary source or facility continues to meet all applicable requirements of Sections 200 through 228. Revised permits will be issued pursuant to procedures for issuing permits (Section 209), except that the requirements of Subsections 209.01.c., 209.02.a., and 209.02.b., shall only apply if the permit revision results in an increase in emissions authorized by the permit or if deemed appropriate by the Director. (3-20-20)T

**05. Permit to Construct Procedures for Tier I Sources.** For Tier I sources that require a permit to construct, the owner or operator shall either: (3-20-20)T

**a.** Submit only the information required by Sections 200 through 219 for a permit to construct, in which case: (3-20-20)T

**i.** A permit to construct or denial will be issued in accordance with Subsections 209.01.a. and 209.01.b. (3-20-20)T

**ii.** The owner or operator may construct the source after permit to construct issuance or in accordance with Subsection 213.02.c. (3-20-20)T

- iii. The owner or operator may operate the source after permit to construct issuance so long as it does not violate any terms or conditions of the existing Tier I operating permit and complies with Subsection 380.02. (3-20-20)T
- iv. Unless a different time is prescribed by these rules, the applicable requirements contained in a permit to construct will be incorporated into the Tier I operating permit during renewal (Section 369). Where an existing Tier I permit would prohibit such construction or change in operation, the source must obtain a permit revision before commencing operation. Tier I sources required to meet the requirements under Section 112(g) of the Clean Air Act (Section 214), or to have a permit under the preconstruction review program approved into the applicable implementation plan under Part C (Section 205) or Part D (Section 204) of Title I of the Clean Air Act, shall file a complete application to obtain a Tier I permit revision within twelve (12) months after commencing operation. (3-20-20)T
- v. The application or minor or significant permit modification request shall be processed in accordance with timelines: Section 361 and Subsections 367.02 through 367.05. (3-20-20)T
- vi. The final Tier I operating permit action shall incorporate the relevant terms and conditions from the permit to construct; or (3-20-20)T
- b.** Submit all information required by Sections 200 through 219 for a permit to construct and Sections 300 through 386 for a Tier I operating permit, or Tier I operating permit modification, in which case: (3-20-20)T
- i. Completeness of the application shall be determined within thirty (30) days. (3-20-20)T
- ii. The Department shall prepare a proposed permit to construct or denial in accordance with Sections 200 through 219 and a draft Tier I operating permit or Tier I operating permit modification in accordance with Sections 300 through 386 within sixty (60) days. (3-20-20)T
- iii. The Department shall provide for public comment and affected state review in accordance with Sections 209, 364 and 365 on the proposed permit to construct or denial and draft Tier I operating permit or Tier I operating permit modification. (3-20-20)T
- iv. Except as otherwise provided by these rules, the Department shall prepare and issue to the owner or operator a final permit to construct or denial within fifteen (15) days of the close of the public comment period. The owner or operator may construct the source after permit to construct issuance or in accordance with Subsection 213.02.c. (3-20-20)T
- v. The final permit to construct will be sent to EPA, along with the proposed Tier I operating permit or modification. The proposed Tier I operating permit or modification shall be sent for review in accordance with Section 366. (3-20-20)T
- vi. The Tier I operating permit, or Tier I operating permit modification, will be issued in accordance with Section 367. The owner or operator may operate the source after permit to construct issuance so long as it does not violate any terms or conditions of the existing Tier I operating permit and complies with Subsection 380.02; or (3-20-20)T
- c.** Submit all information required by Sections 200 through 219 for a permit to construct and Sections 300 through 381 for a Tier I operating permit, or Tier I operating permit modification, in which case: (3-20-20)T
- i. Completeness of the application shall be determined within thirty (30) days. (3-20-20)T
- ii. The Department shall prepare a draft permit to construct or denial in accordance with Sections 200 through 219 and that also meets the requirements of Sections 300 through 381 within sixty (60) days. (3-20-20)T
- iii. The Department shall provide for public comment and affected state review in accordance with Sections 209, 364, and 365 on the draft permit to construct or denial. (3-20-20)T

iv. The Department shall prepare and send a proposed permit to construct or denial to EPA for review in accordance with Section 366. EPA review of the proposed permit to construct or denial in accordance with Section 366 can occur concurrently with public comment and affected state review of the draft permit, as provided in Subsection 209.05.c.iii. above, except that if the draft permit or denial is revised in response to public comment or affected state review, the Department must send the revised proposed permit to construct or denial to EPA for review in accordance with Section 366. (3-20-20)T

v. Except as otherwise provided by these rules, the Department shall prepare and issue to the owner or operator a final permit to construct or denial in accordance with Section 367. The owner or operator may construct the source after permit to construct issuance or in accordance with Subsection 213.02.c. (3-20-20)T

vi. The permittee may, at any time after issuance, request that the permit to construct requirements be incorporated into the Tier I operating permit through an administrative amendment in accordance with Section 381. The owner or operator may operate the source or modification upon submittal of the request for an administrative amendment. (3-20-20)T

**06. Transfer of Permits to Construct.** (3-20-20)T

a. Transfers by Revision. A permit to construct may be transferred to a new owner or operator in accordance with Subsection 209.04. (3-20-20)T

b. Automatic Transfers. Any permit to construct, with or without transfer prohibition language, may be automatically transferred if: (3-20-20)T

i. The current permittee notifies the Department at least thirty (30) days in advance of the proposed transfer date; (3-20-20)T

ii. The notice provides written documentation signed by the current and proposed permittees containing a date for transfer of permit responsibility, designation of the proposed permittee's responsible official, and certification that the proposed permittee has reviewed and intends to operate in accordance with the permit terms and conditions; and (3-20-20)T

iii. The Department does not notify the current permittee and the proposed permittee within thirty (30) days of receipt of the notice of the Department's determination that the permit must be revised pursuant to Subsection 209.04. If the Department does not issue such notice, the transfer is effective on the date provided in the notice described in Subsection 209.06.b.ii. (3-20-20)T

**210. DEMONSTRATION OF PRECONSTRUCTION COMPLIANCE WITH TOXIC STANDARDS.**

In accordance with Subsection 203.03, the applicant shall demonstrate preconstruction compliance with Section 161 to the satisfaction of the Department. The accuracy, completeness, execution and results of the demonstration are all subject to review and approval by the Department. (3-20-20)T

**01. Identification of Toxic Air Pollutants.** The applicant may use process knowledge, raw materials inputs, EPA and Department references and commonly available references approved by EPA or the Department to identify the toxic air pollutants emitted by the stationary source or modification. (3-20-20)T

**02. Quantification of Emission Rates.** (3-20-20)T

a. The applicant may use standard scientific and engineering principles and practices to estimate the emission rate of any toxic air pollutant at the point(s) of emission. (3-20-20)T

i. Screening engineering analyses use unrefined conservative data. (3-20-20)T

ii. Refined engineering analyses utilize refined and less conservative data including, but not limited to, emission factors requiring detailed input and actual emissions testing at a comparable emissions unit using EPA or Department approved methods. (3-20-20)T

**b.** The uncontrolled emissions rate of a toxic air pollutant from a source or modification is calculated using the maximum capacity of the source or modification under its physical and operational design without the effect of any physical or operational limitations. (3-20-20)T

**i.** Examples of physical and operational design include but are not limited to: the amount of time equipment operates during batch operations and the quantity of raw materials utilized in a batch process. (3-20-20)T

**ii.** Examples of physical or operational limitations include but are not limited to: shortened hours of operation, use of control equipment, and restrictions on production which are less than design capacity. (3-20-20)T

**c.** The controlled emissions rate of a toxic air pollutant from a source or modification is calculated using the maximum capacity of the source or modification under its physical and operational design with the effect of any physical or operational limitation that has been specifically described in a written and certified submission to the Department. (3-20-20)T

**d.** The T-RACT emissions rate of a toxic air pollutant from a source or modification is calculated using the maximum capacity of the source or modification under its physical and operational design with the effect of: (3-20-20)T

**i.** Any physical or operational limitation other than control equipment that has been specifically described in a written and certified submission to the Department; and (3-20-20)T

**ii.** An emission standard that is T-RACT. (3-20-20)T

**03. Quantification of Ambient Concentrations.** (3-20-20)T

**a.** The applicant may use the modeling methods provided in Subsection 202.02 to estimate the ambient concentrations at specified receptor sites for any toxic air pollutant emitted from the point(s) of emission. (3-20-20)T

**b.** The point of compliance is the receptor site that is estimated to have the highest ambient concentration of the toxic air pollutant of all the receptor sites that are located either at or beyond the facility property boundary or at a point of public access; provided that, if the toxic air pollutant is listed in Section 586, the receptor site is not considered to be at a point of public access if the receptor site is located on or within a road, highway or other transportation corridor transecting the facility. (3-20-20)T

**c.** The uncontrolled ambient concentration of the source or modification is estimated by modeling the uncontrolled emission rate. (3-20-20)T

**d.** The controlled ambient concentration of the source or modification is estimated by modeling the controlled emission rate. (3-20-20)T

**e.** The approved net ambient concentration from a modification for a toxic air pollutant at each receptor is calculated by subtracting the estimated decreases in ambient concentrations for all sources at the facility contributing an approved creditable decrease at the receptor site from the estimated ambient concentration from the modification at the receptor. (3-20-20)T

**f.** The approved offset ambient concentration from a source or modification for a toxic air pollutant at each receptor is calculated by subtracting the estimated decreases in ambient concentrations for all sources contributing an approved offset at the receptor from the estimated ambient concentration for the source or modification at the receptor. (3-20-20)T

**g.** The T-RACT ambient concentration of the source or modification is estimated by using refined modeling and the T-RACT emission rate. (3-20-20)T

**h.** The approved interpollutant ambient concentration from a source or modification for a toxic air

pollutant at each receptor is calculated as follows: (3-20-20)T

i. Step 1: Calculate the estimated decrease in ambient concentrations for each toxic air pollutant from each source contributing an approved interpollutant trade at the receptor by multiplying the approved interpollutant ratio by the overall decrease in the ambient concentration of the toxic air pollutant at the receptor site. (3-20-20)T

ii. Step 2: Calculate the total estimated decrease at the receptor by summing all of the individual estimated decreases calculated in Subsection 210.03.h.i. for that receptor. (3-20-20)T

iii. Step 3: Calculate the approved interpollutant ambient concentration by subtracting the total estimated decrease at the receptor from the estimated ambient concentration for the source or modification at the receptor. (3-20-20)T

**04. Preconstruction Compliance Demonstration.** The applicant may use any of the Department approved standard methods described in Subsections 210.05 through 210.08, and may use any applicable specialized method described in Subsections 210.09 through 210.12 to demonstrate preconstruction compliance for each identified toxic air pollutant. (3-20-20)T

**05. Uncontrolled Emissions.** (3-20-20)T

a. Compare the source's or modification's uncontrolled emissions rate for the toxic air pollutant to the applicable screening emission level listed in Sections 585 or 586. (3-20-20)T

b. If the source's or modification's uncontrolled emission rate is less than or equal to the applicable screening emission level, no further procedures for demonstrating preconstruction compliance will be required for that toxic air pollutant as part of the application process. (3-20-20)T

**06. Uncontrolled Ambient Concentration.** (3-20-20)T

a. Compare the source's or modification's uncontrolled ambient concentration at the point of compliance for the toxic air pollutant to the applicable acceptable ambient concentration listed in Sections 585 or 586. (3-20-20)T

b. If the source's or modification's uncontrolled ambient concentration at the point of compliance is less than or equal to the applicable acceptable ambient concentration, no further procedures for demonstrating preconstruction compliance will be required for that toxic air pollutant as part of the application process. (3-20-20)T

**07. Controlled Emissions.** (3-20-20)T

a. Compare the source's or modification's controlled emissions rate for the toxic air pollutant to the applicable screening emission level listed in Sections 585 or 586. (3-20-20)T

b. If the source's or modification's controlled emission rate is less than or equal to the applicable screening emission level, no further procedure for demonstrating preconstruction compliance is required for that toxic air pollutant as part of the application process. (3-20-20)T

**08. Controlled Ambient Concentration.** (3-20-20)T

a. Compare the source's or modification's controlled ambient concentration at the point of compliance for the toxic air pollutant to the applicable acceptable ambient concentration listed in Sections 585 or 586. (3-20-20)T

b. If the source's or modification's controlled ambient concentration at the point of compliance is less than or equal to the applicable acceptable ambient concentration, no further procedures for demonstrating preconstruction compliance will be required for that toxic air pollutant as part of the application process. (3-20-20)T

c. The Department shall include an emission limit for the toxic air pollutant in the permit to construct

that is equal to or, if requested by the applicant, less than the emission rate that was used in the modeling. (3-20-20)T

**09. Net Emissions.** (3-20-20)T

**a.** As provided in Section 007 (definition of net emissions increase) and Sections 460 and 461, the owner or operator may net emissions to demonstrate preconstruction compliance. (3-20-20)T

**b.** Compare the modification's approved net emissions increase (expressed as an emission rate) for the toxic air pollutant to the applicable screening emission level listed in Sections 585 or 586. (3-20-20)T

**c.** If the modification's approved net emissions increase is less than or equal to the applicable screening emission level, no further procedures for demonstrating preconstruction compliance will be required for that toxic air pollutant as part of the application process. (3-20-20)T

**d.** The Department shall include emission limits and other permit terms for the toxic air pollutant in the permit to construct that assure that the facility will be operated in the manner described in the preconstruction compliance demonstration. (3-20-20)T

**10. Net Ambient Concentration.** (3-20-20)T

**a.** As provided in Section 007 (definition of net emission increase) and Sections 460 and 461, the owner or operator may net ambient concentrations to demonstrate preconstruction compliance. (3-20-20)T

**b.** Compare the modification's approved net ambient concentration at the point of compliance for the toxic air pollutant to the applicable acceptable ambient concentration listed in Sections 585 or 586. (3-20-20)T

**c.** If the modification's approved net ambient concentration at the point of compliance is less than or equal to the applicable acceptable ambient concentration, no further procedures for demonstrating preconstruction compliance will be required for that toxic air pollutant as part of the application process. (3-20-20)T

**d.** The Department shall include emission limits and other permit terms for the toxic air pollutant in the permit to construct that assure that the facility will be operated in the manner described in the preconstruction compliance demonstration. (3-20-20)T

**11. Toxic Air Pollutant Offset Ambient Concentration.** (3-20-20)T

**a.** As provided in Sections 206 and 460, the owner or operator may use offsets to demonstrate preconstruction compliance. (3-20-20)T

**b.** Compare the source's or modification's approved offset ambient concentration at the point of compliance for the toxic air pollutant to the applicable acceptable ambient concentration listed in Sections 585 or 586. (3-20-20)T

**c.** If the source's or modification's approved offset ambient concentration at the point of compliance is less than or equal to the applicable acceptable ambient concentration, no further procedures for demonstrating preconstruction compliance will be required for that toxic air pollutant as part of the application process. (3-20-20)T

**d.** The Department shall include emission limits and other permit terms for the toxic air pollutant in the permit to construct that assure that the facility will be operated in the manner described in the preconstruction compliance demonstration. (3-20-20)T

**12. T-RACT Ambient Concentration for Carcinogens.** (3-20-20)T

**a.** As provided in Subsections 210.12 and 210.13, the owner or operator may use T-RACT to demonstrate preconstruction compliance for toxic air pollutants listed in Section 586. (3-20-20)T

**i.** This method may be used in conjunction with netting (Subsection 210.09), and offsets (Subsection

210.11). (3-20-20)T

ii. This method is not to be used to demonstrate preconstruction compliance for toxic air pollutants listed in Section 585. (3-20-20)T

b. Compare the source's or modification's approved T-RACT ambient concentration at the point of compliance for the toxic air pollutant to the amount of the toxic air pollutant that would contribute an ambient air cancer risk probability of less than one to one hundred thousand (1:100,000) (which amount is equivalent to ten (10) times the applicable acceptable ambient concentration listed in Section 586). (3-20-20)T

c. If the source's or modification's approved T-RACT ambient concentration at the point of compliance is less than or equal to the amount of the toxic air pollutant that would contribute an ambient air cancer risk probability of less than one to one hundred thousand (1:100,000), no further procedures for demonstrating preconstruction compliance will be required for that toxic air pollutant as part of the application process. (3-20-20)T

d. The Department shall include emission limits and other permit terms for the toxic air pollutant in the permit to construct that assure that the facility will be operated in the manner described in the preconstruction compliance demonstration. (3-20-20)T

**13. T-RACT Determination Processing.** (3-20-20)T

a. The applicant may submit all information necessary to the demonstration at the time the applicant submits the complete initial application or the applicant may request the Department to review a complete initial application to determine if Subsection 210.12 may be applicable to the source or modification. (3-20-20)T

b. Notwithstanding Subsections 209.01.a. and 209.01.b., if the applicant requests the Department to review a complete initial application and Subsection 210.12 is determined to be applicable, the completeness determination for the initial application will be revoked until a supplemental application is submitted and determined complete. When the supplemental application is determined complete, the timeline for agency action shall be reinitiated. (3-20-20)T

**14. T-RACT Determination.** T-RACT shall be determined on a case-by-case basis by the Department as follows: (3-20-20)T

a. The applicant shall submit information to the Department identifying and documenting which control technologies or other requirements the applicant believes to be T-RACT. (3-20-20)T

b. The Department shall review the information submitted by the applicant and determine whether the applicant has proposed T-RACT. (3-20-20)T

c. The technological feasibility of a control technology or other requirements for a particular source shall be determined considering several factors including, but not limited to: (3-20-20)T

i. Process and operating procedures, raw materials and physical plant layout. (3-20-20)T

ii. The environmental impacts caused by the control technology that cannot be mitigated, including, but not limited to, water pollution and the production of solid wastes. (3-20-20)T

iii. The energy requirements of the control technology. (3-20-20)T

d. The economic feasibility of a control technology or other requirement, including the costs of necessary mitigation measures, for a particular source shall be determined considering several factors including, but not limited to: (3-20-20)T

i. Capital costs. (3-20-20)T

ii. Cost effectiveness, which is the annualized cost of the control technology divided by the amount of emission reduction. (3-20-20)T

iii. The difference in costs between the particular source and other similar sources, if any, that have implemented emissions reductions. (3-20-20)T

e. If the Department determines that the applicant has proposed T-RACT, the Department shall determine which of the options, or combination of options, will result in the lowest emission of toxic air pollutants, develop the emission standards constituting T-RACT and incorporate the emission standards into the permit to construct. (3-20-20)T

f. If the Department determines that the applicant has not proposed T-RACT, the Department shall disapprove the submittal. If the submittal is disapproved, the applicant may supplement its submittal or demonstrate preconstruction compliance through a different method provided in Section 210. If the applicant does not supplement its submittal or demonstrate preconstruction compliance through a different method provided in Section 210, the Department shall deny the permit. (3-20-20)T

**15. Short Term Source Factor.** For short term sources, the applicant may utilize a short term adjustment factor of ten (10). For a carcinogen, multiply either the applicable acceptable ambient concentration (AACC) or the screening emission rate, but not both, by ten (10), to demonstrate preconstruction compliance. This method may be used for TAPs listed in Section 586 only and may be utilized in conjunction with standard methods for quantification of emission rates (Subsections 210.05 through 210.08). (3-20-20)T

**16. Environmental Remediation Source.** (3-20-20)T

a. For Remediation sources subject to or regulated by the Resource Conservation and Recovery Act (42 U.S.C. Sections 6901-6992k) and the "Idaho Rules and Standards for Hazardous Waste," (IDAPA 58.01.05.000 et seq.) or the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. 6901-6992k) or a consent order, if the estimated ambient concentration at the point of impact is greater than the acceptable ambient impacts listed in Sections 585 and 586, Best Available Control Technology shall be applied and operated until the estimated uncontrolled emissions from the remediation source are below the acceptable ambient concentration. (3-20-20)T

b. For Remediation sources not subject to or regulated by the Resource Conservation and Recovery Act (42 U.S.C. Sections 6901-6992k) and the "Idaho Rules and Standards for Hazardous Waste," (IDAPA 58.01.05.000 et seq.) or the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. 6901-6992k) or a consent order, shall, for the purposes of these rules, be considered the same as any other new or modified source of toxic air pollution. (3-20-20)T

c. For an environmental remediation source that functions to remediate or recover any release, spill, leak, discharge or disposal of any petroleum product or petroleum substance, the Department may waive the requirements of Section 513 of these rules. (3-20-20)T

**17. Interpollutant Trading Ambient Concentration.** (3-20-20)T

a. As provided in Subsections 209.01.c., 210.17 through 210.19, the owner or operator may use interpollutant trading to demonstrate preconstruction compliance. This method may be used in conjunction with netting (Subsection 210.10), and offsets (Subsection 210.11) (3-20-20)T

b. Compare the source's or modification's approved interpollutant ambient concentration at the point of compliance for the toxic air pollutant emitted by the source or modification to the applicable acceptable ambient concentration listed in Sections 585 or 586. (3-20-20)T

c. If the source's or modification's approved interpollutant ambient concentration at the point of compliance is less than or equal to the applicable acceptable ambient concentration listed in Sections 585 or 586, no further procedures for demonstrating preconstruction compliance will be required for that toxic air pollutant as part of the application process. (3-20-20)T

d. The Department shall include emission limits for all of the toxic air pollutants involved in the trade

in the permit to construct. The Department shall also include other permit terms in the permit to construct that assure that the facility will be operated in the manner described in the preconstruction compliance demonstration. (3-20-20)T

**18. Interpollutant Trading Determination Processing.** (3-20-20)T

**a.** The applicant may submit all information necessary to the demonstration at the time the applicant submits the complete initial application or the applicant may request the Department to review a complete initial application to determine if Subsection 210.17 may be applicable to the source or modification. (3-20-20)T

**b.** Notwithstanding Subsections 209.01.a. and 209.01.b., if the applicant requests the Department to review a complete initial application and Subsection 210.17 is determined to be applicable, the completeness determination for the initial application will be revoked until a supplemental application is submitted and determined complete. When the supplemental application is determined complete, the timeline for agency action shall be reinitiated. (3-20-20)T

**19. Interpollutant Determination.** (3-20-20)T

**a.** The applicant may request an interpollutant trade if the Department determines that: (3-20-20)T

**i.** The facility complies with an emission standard at least as stringent as best available control technology (BACT); and (3-20-20)T

**ii.** The owner or operator has instituted all known and available methods of pollution prevention at the facility to reduce, avoid or eliminate toxic air pollution prior to its generation including, but not limited to, recycling, chemical substitution, and process modification provided that such pollution prevention methods are compatible with each other and the product or service being produced; and (3-20-20)T

**iii.** The owner or operator has taken all available offsets; and (3-20-20)T

**iv.** The owner or operator has identified all geographical areas and populations that may be impacted by the proposed interpollutant trade. (3-20-20)T

**b.** Interpollutant trades shall be approved or denied on a case-by-case basis by the Department. Denials shall be within the discretion of the Department. Approvals shall be granted only if: (3-20-20)T

**i.** The Department of Health and Welfare's Division of Health approves the interpollutant trade; and (3-20-20)T

**ii.** The Department of Environmental Quality determines that the interpollutant trade will result in a overall benefit to the environment; and (3-20-20)T

**iii.** An EPA approved database or other EPA approved reference provides relative potency factors, or comparable factors, or other data that is sufficient to allow for adequate review and approval of the proposed trade by the Department and the Department of Health and Welfare's Division of Health is submitted for all of the toxic air pollutants being traded; and (3-20-20)T

**iv.** The reductions occur at the same facility where the proposed source or modification will be constructed; and (3-20-20)T

**v.** The interpollutant trade will not cause an increase in sum of the ambient concentrations of the carcinogenic toxic air pollutants involved in the particular interpollutant trade at any receptor site; and (3-20-20)T

**vi.** The total cancer risk with the interpollutant trade will be less than the total cancer risk without the interpollutant trade; and (3-20-20)T

**vii.** The total non-cancer health risk with the interpollutant trade will be less than the total non-cancer

health risk without the interpollutant trade. (3-20-20)T

**20. NSPS and NESHAP Sources.** No demonstration of compliance with the toxic air pollutant provisions is required to obtain a permit to construct or to demonstrate permit to construct exemption criteria for a new source or for modification of an existing source if the toxic air pollutant is also a listed hazardous air pollutant from: (3-20-20)T

**a.** The equipment or activity covered by a NSPS or NESHAP; or (3-20-20)T

**b.** The source category of equipment or activity addressed by a NSPS or NESHAP even if the equipment or activity is not subject to compliance requirements under the federal rule. (3-20-20)T

**21. Permit Compliance Demonstration.** Additional procedures and requirements to demonstrate and ensure actual and continuing compliance may be required by the Department in the permit to construct. (3-20-20)T

**22. Interpretation and Implementation of Other Sections.** Except as specifically provided in other sections of these rules, the provisions of Section 210 are not to be utilized in the interpretation or implementation of any other section of these rules. (3-20-20)T

## **211. CONDITIONS FOR PERMITS TO CONSTRUCT.**

**01. Reasonable Conditions.** The Department may impose any reasonable conditions upon an approval, including conditions requiring the stationary source or facility to be provided with: (3-20-20)T

**a.** Sampling ports of a size, number, and location as the Department may require; (3-20-20)T

**b.** Safe access to each port; (3-20-20)T

**c.** Instrumentation to monitor and record emissions data; (3-20-20)T

**d.** Instrumentation for ambient monitoring to determine the effect emissions from the stationary source or facility may have, or are having, on the air quality in any area affected by the stationary source or facility; and (3-20-20)T

**e.** Any other sampling and testing facilities as may be deemed reasonably necessary. (3-20-20)T

**02. Cancellation.** The Department may cancel a permit to construct if the construction is not begun within two (2) years from the date of issuance, or if during the construction, work is suspended for one (1) year. (3-20-20)T

**03. Notification to The Department.** Any owner or operator of a stationary source or facility subject to a permit to construct shall furnish the Department written notifications as follows: (3-20-20)T

**a.** A notification of the anticipated date of initial start-up of the stationary source or facility not more than sixty (60) days or less than thirty (30) days prior to such date; and (3-20-20)T

**b.** A notification of the actual date of initial start-up of the stationary source or facility within fifteen (15) days after such date. (3-20-20)T

**04. Performance Test.** Within sixty (60) days after achieving the maximum production rate at which the stationary source or facility will be operated but not later than one hundred eighty (180) days after initial start-up of such stationary source or facility, the owner or operator of such stationary source or facility may be required to conduct a performance test in accordance with methods and under operating conditions approved by the Department and furnish the Department a written report of the results of such performance test. (3-20-20)T

**a.** Such test shall be at the expense of the owner or operator. (3-20-20)T

- b. The Department may monitor such test and may also conduct performance tests. (3-20-20)T
- c. The owner or operator of a stationary source or facility shall provide the Department fifteen (15) days prior notice of the performance test to afford the Department the opportunity to have an observer present. (3-20-20)T

**212. OBLIGATION TO COMPLY.**

**01. Responsibility to Comply with All Requirements.** Receiving a permit to construct shall not relieve any owner or operator of the responsibility to comply with all applicable local, state and federal statutes, rules and regulations. (3-20-20)T

**02. Relaxation of Standards or Restrictions.** At such time that a particular facility or modification becomes a major facility or major modification solely by virtue of a relaxation in any enforceable emission standard or restriction on the operating rate, hours of operation or on the type or amount of material combusted, stored or processed, which was used to exempt the facility or modification from certain requirements for a permit to construct, the requirements for new major facilities or major modifications shall apply to the facility or modification as though construction had not yet commenced. (3-20-20)T

**213. PRE-PERMIT CONSTRUCTION.**

This section describes how owners or operators may commence construction or modification of certain stationary sources before obtaining the required permit to construct. (3-20-20)T

**01. Pre-Permit Construction Eligibility.** Pre-permit construction approval is available for non-major sources and non-major modifications and for new sources or modifications proposed in accordance with Subsection 213.01.d. Pre-permit construction is not available for any new source or modification that: uses emissions netting to stay below major source levels; uses optional offsets pursuant to Section 206; or would have an adverse impact on the air quality related values of any Class I area. Owners or operators may ask the Department for the ability to commence construction or modification of qualifying sources under Section 213 before receiving the required permit to construct. To obtain the Department's pre-permit construction approval, the owner or operator shall satisfy the following requirements: (3-20-20)T

a. The owner or operator shall apply for a permit to construct in accordance with Subsections 202.01.a., 202.02, and 202.03 of this chapter. (3-20-20)T

b. The owner or operator shall consult with Department representatives prior to submitting a pre-permit construction approval application. (3-20-20)T

c. The owner or operator shall submit a pre-permit construction approval application which must contain, but not be limited to: a letter requesting the ability to construct before obtaining the required permit to construct, a copy of the notice referenced in Subsection 213.02; proof of eligibility; process description(s); equipment list(s); proposed emission limits and modeled ambient concentrations for all regulated air pollutants and toxic air pollutants, such that they demonstrate compliance with all applicable air quality rules and regulations. The models shall be conducted in accordance with Subsection 202.02 and with written Department approved protocol and submitted with sufficient detail so that modeling can be duplicated by the Department. (3-20-20)T

d. Owners or operators seeking limitations on a source's potential to emit such that permitted emissions will be either below major source levels or below a significant increase must describe in detail in the pre-permit construction application the proposed restrictions and certify in accordance with Section 123 that they will comply with the restrictions, including any applicable monitoring and reporting requirements. (3-20-20)T

**02. Permit to Construct Procedures for Pre-Permit Construction.** (3-20-20)T

a. Within ten (10) days after the submittal of the pre-permit construction approval application, the owner or operator shall hold an informational meeting in at least one (1) location in the region in which the stationary source or facility is to be located. The informational meeting shall be made known by notice published at least ten (10) days before the meeting in a newspaper of general circulation in the county(ies) in which the stationary source or

facility is to be located. A copy of such notice shall be included in the application. (3-20-20)T

**b.** Within fifteen (15) days after the receipt of the pre-permit construction approval application, the Department shall notify the owner or operator in writing of pre-permit construction approval or denial. The Department may deny the pre-permit construction approval application for any reason it deems valid. (3-20-20)T

**c.** Upon receipt of the pre-permit construction approval letter issued by the Department, the owner or operator may begin construction at their own risk as identified in Subsection 213.02.d. Upon issuance of the pre-permit construction approval letter, any and all potential to emit limitations addressed in the pre-permit construction application pursuant to Subsection 213.01.d. shall become enforceable. The owner or operator shall not operate those emissions units subject to permit to construct requirements in accordance with Section 200 unless and until issued a permit pursuant to Section 209. (3-20-20)T

**d.** If the pre-permit construction approval application is determined incomplete or the permit to construct is denied, the Department shall issue an incompleteness or denial letter pursuant to Section 209. If the Department denies the permit to construct, then the owner or operator shall have violated Section 201 on the date it commenced construction as defined in Section 006. The owner or operator shall not contest the final permit to construct decision based on the fact that they have already begun construction. (3-20-20)T

#### **214. DEMONSTRATION OF PRECONSTRUCTION COMPLIANCE FOR NEW AND RECONSTRUCTED MAJOR SOURCES OF HAZARDOUS AIR POLLUTANTS.**

**01. Permitting Authority.** For purposes of this section, Sections 112(g) and (j) of the Clean Air Act, and 40 CFR Part 63, the permitting authority shall be the Department. (3-20-20)T

**02. Definitions.** Unless specifically provided otherwise, the definitions for terms set forth in this section shall be the definitions set forth in Section 112 of the Clean Air Act and 40 CFR Part 63 as incorporated by reference into these rules at Section 107. For purposes of determining if a source is a major source of hazardous air pollutants, the definition of potential to emit at Section 006 of these rules shall apply. (3-20-20)T

**03. Compliance with Federal MACT.** All owners or operators of major sources of hazardous air pollutants which are subject to an applicable Maximum Available Control Technology (MACT) standard promulgated by EPA pursuant to Section 112 of the Clean Air Act and 40 CFR Part 63 shall comply with the applicable MACT standard and such owners or operators are not subject to Subsections 214.04 and 214.05. (3-20-20)T

**04. Requirement to Obtain Preconstruction MACT Determination from the Director.** No owner or operator may construct or reconstruct a major source of hazardous air pollutants unless such owner or operator has obtained a MACT standard determination from the Director. The Director shall make the MACT standard determination on a case by case basis and in accordance with Section 112(g)(2)(B) of the Clean Air Act and 40 CFR 63.40 through 63.44 as incorporated by reference into these rules at Section 107. (3-20-20)T

**05. Development of MACT by the Director After EPA Deadline.** In the event that EPA fails to promulgate a MACT standard for a category or subcategory of major sources of hazardous air pollutants identified by the EPA under the Clean Air Act by the date established under Section 112(e) of the Clean Air Act, the owner or operator of any major source of hazardous air pollutants in such category or subcategory shall submit an application to the Director for a MACT standard determination. The Director shall make the MACT standard determination on a case by case basis and in accordance with Section 112(j) of the Clean Air Act and 40 CFR 63.50 through 63.56 as incorporated by reference into these rules at Section 107. (3-20-20)T

#### **215. MERCURY EMISSION STANDARD FOR NEW OR MODIFIED SOURCES.**

No owner or operator may commence construction or modification of a stationary source or facility that results in an increase in annual potential emissions of mercury of twenty-five (25) pounds or more unless the owner or operator has obtained a permit to construct under Sections 200 through 228 of these rules. The permit to construct application shall include an MBACT analysis for the new or modified source or sources for review and approval by the Department. A determination of applicability under Section 215 shall be based upon the best available information. Fugitive emissions shall not be included in a determination of applicability under Section 215. (3-20-20)T

**01. Exemptions.** New or modified stationary sources within a source category subject to 40 CFR Part 63 are exempt from the requirements of Section 215. (3-20-20)T

**02. Applicability.** Except as provided in Subsection 215.01, Section 215 applies to all new or modified sources for which an application for a permit to construct was submitted to the Department on or after July 1, 2011. (3-20-20)T

**216. -- 219. (RESERVED)**

**220. GENERAL EXEMPTION CRITERIA FOR PERMIT TO CONSTRUCT EXEMPTIONS.**

**01. General Exemption Criteria.** Sections 220 through 223 may be used by owners or operators to exempt certain sources from the requirement to obtain a permit to construct. Nothing in these sections shall preclude an owner or operator from choosing to obtain a permit to construct. For purposes of Sections 220 through 223, the term source means the equipment or activity being exempted. For purposes of Sections 220 through 223, fugitive emissions shall not be considered in determining whether a source meets the applicable exemption criteria unless required by federal law. No permit to construct is required for a source that satisfies all of the following criteria, in addition to the criteria set forth at Sections 221 and 223 or 222 and 223 (as required): (3-20-20)T

**a.** The maximum capacity of a source to emit an air pollutant under its physical and operational design without consideration of limitations on emission such as air pollution control equipment, restrictions on hours of operation and restrictions on the type and amount of material combusted, stored or processed would not: (3-20-20)T

i. Equal or exceed one hundred (100) tons per year of any regulated air pollutant. (3-20-20)T

ii. Cause an increase in the emissions of a major facility that equals or exceeds the significant emissions rates set out in the definition of significant at Section 006. (3-20-20)T

**b.** Combination. The source is not part of a proposed new major facility or part of a proposed major modification. (3-20-20)T

**02. Record Retention.** Unless the source is subject to and the owner or operator complies with Section 385, the owner or operator of the source, except for those sources listed in Subsections 222.02.a. through 222.02.g., shall maintain documentation on site which shall identify the exemption determined to apply to the source and verify that the source qualifies for the identified exemption. The records and documentation shall be kept for a period of time not less than five (5) years from the date the exemption determination has been made or for the life of the source for which the exemption has been determined to apply, which ever is greater, or until such time as a permit to construct or an operating permit is issued which covers the operation of the source. The owner or operator shall submit the documentation to the Department upon request. (3-20-20)T

**221. CATEGORY I EXEMPTION.**

No permit to construct is required for a source that satisfies the criteria set forth in Section 220 and the following: (3-20-20)T

**01. Below Regulatory Concern.** The maximum capacity of a source to emit an air pollutant under its physical and operational design considering limitations on emissions such as air pollution control equipment, restrictions on hours of operation and restrictions on the type and amount of material combusted, stored or processed shall be less than ten percent (10%) of the significant emission rates set out in the definition of significant at Section 006. (3-20-20)T

**02. Radionuclides.** The source is not required to obtain approval to construct in accordance with the applicable radionuclides standard in 40 CFR Part 61, Subpart H. (3-20-20)T

**03. Toxic Air Pollutants.** The source shall comply with Section 223. (3-20-20)T

**04. Mercury.** The source shall have potential emissions that are less than twenty-five (25) pounds per year of mercury. Fugitive emissions shall not be included in the calculation of potential mercury emissions. (3-20-20)T

**222. CATEGORY II EXEMPTION.**  
No permit to construct is required for the following sources. (3-20-20)T

**01. Exempt Source.** A source that satisfies the criteria set forth in Section 220 and that is specified below: (3-20-20)T

**a.** Laboratory equipment used exclusively for chemical and physical analyses, research or education, including, but not limited to, ventilating and exhaust systems for laboratory hoods. To qualify for this exemption, the source shall: (3-20-20)T

i. Comply with Section 223. (3-20-20)T

ii. Not be required to obtain approval to construct in accordance with the applicable radionuclides standard in 40 CFR Part 61, Subpart H. (3-20-20)T

**b.** Environmental characterization activities including emplacement and operation of field instruments, drilling of sampling and monitoring wells, sampling activities, and environmental characterization activities. (3-20-20)T

**c.** Stationary internal combustion engines of less than or equal to six hundred (600) horsepower and which are fueled by natural gas, propane gas, liquefied petroleum gas, distillate fuel oils, residual fuel oils, and diesel fuel; waste oil, gasoline, or refined gasoline shall not be used. To qualify for this exemption, the source must be operated in accordance with the following: (3-20-20)T

i. One hundred (100) horsepower or less -- unlimited hours of operation. (3-20-20)T

ii. One hundred one (101) to two hundred (200) horsepower -- less than four hundred fifty (450) hours per month. (3-20-20)T

iii. Two hundred one (201) to four hundred (400) horsepower -- less than two hundred twenty-five (225) hours per month. (3-20-20)T

iv. Four hundred one (401) to six hundred (600) horsepower -- less than one hundred fifty (150) hours per month. (3-20-20)T

**d.** Stationary internal combustion engines used exclusively for emergency purposes which are operated less than five hundred (500) hours per year and are fueled by natural gas, propane gas, liquefied petroleum gas, distillate fuel oils, residual fuel oils, and diesel fuel; waste oil, gasoline, or refined gasoline shall not be used. (3-20-20)T

**e.** A pilot plant that uses a slip stream from an existing process stream not to exceed ten percent (10%) of that existing process stream and which satisfies the following: (3-20-20)T

i. The source shall comply with Section 223. For carcinogen emissions, the owner or operator may utilize a short term adjustment factor of ten (10) by multiplying either the acceptable ambient concentration or the screening emissions level, but not both, by ten (10). (3-20-20)T

ii. The source is not required to obtain approval to construct in accordance with the applicable radionuclides standard in 40 CFR Part 61, Subpart H. (3-20-20)T

iii. The exemption for a pilot plant shall terminate one (1) year after the commencement of operations and shall not be renewed. (3-20-20)T

**02. Other Exempt Sources.** A source that satisfies the criteria set forth in Section 220 and that is specified below: (3-20-20)T

**a.** Air conditioning or ventilating equipment not designed to remove air pollutants generated by or released from equipment. (3-20-20)T

**b.** Air pollutant detectors or recorders, combustion controllers, or combustion shutoffs. (3-20-20)T

**c.** Fuel burning equipment for indirect heating and for heating and reheating furnaces using natural gas, propane gas, liquefied petroleum gas, or biogas (gas produced by the anaerobic decomposition of organic material through a controlled process) with hydrogen sulfide concentrations less than two hundred (200) ppmv exclusively with a capacity of less than fifty (50) million btu's per hour input. (3-20-20)T

**d.** Other fuel burning equipment for indirect heating with a capacity of less than one million (1,000,000) btu's per hour input. (3-20-20)T

**e.** Mobile internal combustion engines, marine installations and locomotives. (3-20-20)T

**f.** Agricultural activities and services. (3-20-20)T

**g.** Retail gasoline, natural gas, propane gas, liquefied petroleum gas, distillate fuel oils and diesel fuel sales. (3-20-20)T

**h.** Used Oil Fired Space Heaters which comply with all the following requirements: (3-20-20)T

**i.** The used oil fired space heater burns only used oil that the owner or operator generates on site, that is derived from households, such as used oil generated by individuals maintaining their personal vehicles, or on-specification used oil that is derived from commercial generators provided that the generator, transporter and owner or operator burning the oil for energy recovery comply fully with IDAPA 58.01.05.015, "Rules and Standards for Hazardous Waste"; (3-20-20)T

(1) For the purposes of Subsection 222.02.h., "used oil" refers to any oil that has been refined from crude oil or any synthetic oil that has been used and, as a result of such use, is contaminated by physical or chemical impurities. (3-20-20)T

(2) For the purposes of Subsection 222.02.h., "used oil fired space heater" refers to any furnace or apparatus and all appurtenances thereto, designed, constructed and used for combusting used oil for energy recovery to directly heat an enclosed space. (3-20-20)T

**ii.** Any used oil burned is not contaminated by added toxic substances such as solvents, antifreeze or other household and industrial chemicals; (3-20-20)T

**iii.** The used oil fired space heater is designed to have a maximum capacity of not more than one half (0.5) million BTU per hour; (3-20-20)T

**iv.** The combustion gases from the used oil fired space heater are vented to the ambient air through a stack equivalent to the type and design specified by the manufacturer of the heater and installed to minimize down wash and maximize dispersion; and (3-20-20)T

**v.** The used oil fired space heater is of modern commercial design and manufacture, except that a homemade used oil fired space heater may be used if, prior to the operation of the homemade unit, the owner or operator submits documentation to the Department demonstrating, to the satisfaction of the Department, that emissions from the homemade unit are no greater than those from modern commercially available units. (3-20-20)T

**i.** Multiple chamber crematory retorts used to cremate human or animal remains using natural gas exclusively with a maximum average charge capacity of two hundred (200) pounds of remains per hour and a minimum secondary combustion chamber temperature of one thousand five hundred (1500) degrees Fahrenheit while

operating. (3-20-20)T

**j.** Petroleum environmental remediation source by vapor extraction with an operation life not to exceed five (5) years (except for landfills). The short-term adjustment factor in Subsection 210.15 cannot be used if the remediation is within five hundred (500) feet of a sensitive receptor. Forms are available at the DEQ website at <http://www.deq.idaho.gov>, to help assist sources in this exemption determination. (3-20-20)T

**k.** Dry cleaning facilities that are not major under, but subject to, 40 CFR Part 63, Subpart M. (3-20-20)T

**223. EXEMPTION CRITERIA AND REPORTING REQUIREMENTS FOR TOXIC AIR POLLUTANT EMISSIONS.**

No permit to construct for toxic air pollutants is required for a source that satisfies any of the exemption criteria below, the recordkeeping requirements at Subsection 220.02, and reporting requirements as follows: (3-20-20)T

**01. Below Regulatory Concern (BRC) Exemption.** The source qualifies for a BRC exemption if the uncontrolled emission rate (refer to Section 210) for all toxic air pollutants emitted by the source is less than or equal to ten percent (10%) of all applicable screening emission levels listed in Sections 585 and 586. (3-20-20)T

**02. Level I Exemption.** To obtain a Level I exemption, the source shall satisfy the following criteria: (3-20-20)T

**a.** The uncontrolled emission rate (refer to Section 210) for all toxic air pollutants shall be less than or equal to all applicable screening emission levels listed in Sections 585 and 586; or (3-20-20)T

**b.** The uncontrolled ambient concentration (refer to Section 210) for all toxic air pollutants at the point of compliance shall be less than or equal to all applicable acceptable ambient concentrations listed in Sections 585 and 586. (3-20-20)T

**03. Level II Exemption.** To obtain a Level II exemption, the maximum capacity of a source to emit a toxic air pollutant under its physical and operational design considering limitations on emissions such as air pollution control equipment, restrictions on hours of operation and restrictions on the type and amount of material combusted, stored or processed at the point of compliance is less than or equal to ten percent (10%) of all applicable screening emission levels listed in Sections 585 and 586. (3-20-20)T

**04. Annual Report for Toxic Air Pollutant Exemption.** The owner or operator of a source claiming a Level I or II exemption shall submit a certified report, on or before May 1 for the previous calendar year, to the Department for each Level I or II exemption determination. The owner or operator is not required to annually submit a certified report for a Level I or II exemption determination previously claimed and reported. The report shall be labeled "Toxic Air Pollutant Exemption Report" and shall state the date construction has or will commence and shall include copies of all exemption determinations completed by the owner or operator for each Level I and II exemption. (3-20-20)T

**224. PERMIT TO CONSTRUCT APPLICATION FEE.**

All applicants for a permit to construct shall submit a permit to construct application fee of one thousand dollars (\$1,000) to the Department at the time of the original submission of the application. The permit to construct application fee is not required to be submitted for: (3-20-20)T

**01. Exemption Applicability Determinations.** Exemption applicability determinations set forth in Sections 220 through 223; (3-20-20)T

**02. Typographical Errors.** Changes to correct typographical errors; or (3-20-20)T

**03. Name or Ownership Change.** A change in the name or ownership of the holder of a permit to construct when the Department determines no other review or analysis is required. (3-20-20)T

**225. PERMIT TO CONSTRUCT PROCESSING FEE.**

A permit to construct processing fee, calculated by the Department pursuant to the categories provided in the following table, shall be paid to the Department by the person receiving the permit. The applicable processing fee category shall be determined by adding together the amount of increases of regulated pollutant emissions and subtracting any decreases of regulated pollutant emissions as identified in the permit to construct. The fee calculation shall not include fugitive emissions.

PERMIT TO CONSTRUCT CATEGORY	FEE
General permit, no facility-specific requirements (Defined as a source category specific permit for which the Department has developed standard emission limitations, operating requirements, monitoring and recordkeeping requirements, and that require minimal engineering analysis. General permit facilities may include portable concrete batch plants, portable hot-mix asphalt plants and portable rock crushing plants.)	\$500
New source or modification to existing source with increase of emissions of less than one (1) ton per year	\$1,000
New source or modification to existing source with increase of emissions of one (1) to less than ten (10) tons per year	\$2,500
New source or modification to existing source with increase of emissions of ten (10) to less than one hundred (100) tons per year	\$5,000
Nonmajor new source or modification to existing source with increase of emissions of one hundred (100) tons per year or more	\$7,500
New major facility or major modification	\$10,000
Permit modifications where no engineering analysis is required	\$250
Application submittals for exemption applicability determinations, typographical errors, and name and ownership changes as described in Subsections 224.01, 224.02, 224.03	\$0.00

(3-20-20)T

**226. PAYMENT OF FEES FOR PERMITS TO CONSTRUCT.**

**01. Fee Submittal.** The permit to construct application fee shall be submitted with the application. The permit to construct processing fee shall be payable upon receipt of an assessment sent to the person receiving a permit by the Department. The permit to construct application and processing fees shall be sent to:

Air Quality Permit to Construct Fees  
 Fiscal Office,  
 Idaho Department of Environmental Quality  
 1410 N. Hilton, Boise, ID 83706-1255

(3-20-20)T

**02. Delinquency.** No application for a permit to construct shall be processed by the Department unless accompanied by a permit to construct application fee. No permit to construct shall be issued by the Department until the Department has received the permit to construct processing fee.

(3-20-20)T

**227. RECEIPT AND USAGE OF FEES.**

Permit to construct application and processing fee receipts shall be deposited by the Department into a stationary source permit account. Monies from this account shall be used solely toward technical, legal and administrative support of the Department's permit to Construct and Tier II permit programs and shall not be used for those activities supported by the fund created for implementing the operating permit program required under Title V of the federal Clean Air Act amendments of 1990. The permit to construct application fee payable under Section 227 shall be retained by the Department regardless of whether a permit to construct is issued by the Department in response to an application. The Department will review the fee schedule at least every two (2) years.

(3-20-20)T

**228. APPEALS.**

A person may be able to file an appeal within thirty-five (35) days of the date the person receives an assessment from the Department under Section 225, in accordance with IDAPA 58.01.23, "Rules of Administrative Procedure Before the Board of Environmental Quality." (3-20-20)T

**229. -- 299. (RESERVED)**

**300. PROCEDURES AND REQUIREMENTS FOR TIER I OPERATING PERMITS.**

The purposes of Sections 300 through 399 are to establish requirements and procedures for the issuance of Tier I operating permits. (3-20-20)T

**301. REQUIREMENT TO OBTAIN TIER I OPERATING PERMIT.**

**01. Prohibition.** No owner or operator shall operate, or allow or tolerate the operation of, any Tier I source without an effective Tier I operating permit. (3-20-20)T

**02. Exceptions.** (3-20-20)T

**a.** No Tier I operating permit is required if the owner or operator is in compliance with Sections 311 through 315 and the Department has not taken final action on the application. (3-20-20)T

**b.** Tier I sources not located at major facilities do not require a Tier I operating permit until: (3-20-20)T

i. December 31, 1997 for Phase II sulfur dioxide sources; (3-20-20)T

ii. January 1, 1999 for Phase II nitrogen oxides sources; (3-20-20)T

iii. January 1, 2000 for solid waste incineration units required to obtain a permit pursuant to 42 U.S.C. Section 7429(e); and (3-20-20)T

iv. The source becomes a Tier I source under Section 006 of this chapter. (3-20-20)T

**c.** No Tier I operating permit is required for the following Tier I sources: (3-20-20)T

i. All sources and source categories that would be required to obtain a permit solely because they are subject to 40 CFR Part 60, Subpart AAA; and (3-20-20)T

ii. All sources and source categories that would be required to obtain a permit solely because they are subject to 40 CFR Part 61.145. (3-20-20)T

**302. OPTIONAL TIER I OPERATING PERMIT.**

Any facility listed in Section 301 not required to obtain a Tier I operating permit may opt to apply for a Tier I operating permit. (3-20-20)T

**303. -- 310. (RESERVED)**

**311. STANDARD PERMIT APPLICATIONS.**

The purpose of Sections 311 through 315 is to establish standard Tier I operating permit application procedures. (3-20-20)T

**312. DUTY TO APPLY.**

For each Tier I source, the owner or operator shall submit a timely and complete permit application in accordance with Sections 311 through 315. (3-20-20)T

**313. TIMELY APPLICATION.**

- 01. Original Tier I Operating Permits.** (3-20-20)T
- a.** For Tier I sources existing on May 1, 1994, the owner or operator of the Tier I source shall submit to the Department a complete application for an original Tier I operating permit by no later than June 1, 1996, or within twelve (12) months of EPA approval of the Tier I operating program, whichever is earlier, unless: (3-20-20)T
- i. The Department provides written notification of an earlier date to the owner or operator. (3-20-20)T
- ii. The Tier I source is identified in Subsections 301.02.b. or 301.02.c. (3-20-20)T
- b.** For sources that become Tier I sources after May 1, 1994, that are located at a facility not previously authorized by a Tier I operating permit, the owner or operator of the Tier I source shall submit to the Department a complete application for an original Tier I operating permit within twelve (12) months after becoming a Tier I source or commencing operation, unless: (3-20-20)T
- i. The Department provides written notification of an earlier date to the owner or operator. (3-20-20)T
- ii. The Tier I source is identified in Subsections 301.02.b. or 301.02.c. (3-20-20)T
- c.** For initial phase II acid rain sources identified in Subsections 301.02.b.i. or 301.02.b.ii., the owner or operator of the initial Phase II acid rain source shall submit to the Department a complete application for an original Tier I operating permit by January 1, 1996 for sulfur dioxide, and by January 1, 1998 for nitrogen oxides. (3-20-20)T
- d.** For Tier I sources identified in Subsection 301.02.b.iii.: (3-20-20)T
- i. Existing on July 1, 1998, the owner or operator of the Tier I source shall submit to the Department a complete application for an original Tier I operating permit by no later than January 1, 1999, unless the Department provides written notification of an earlier date to the owner or operator. (3-20-20)T
- ii. That become Tier I sources after July 1, 1998, located at a facility not previously authorized by a Tier I operating permit, the owner or operator of the Tier I source shall submit to the Department a complete application for an original Tier I operating permit within twelve (12) months after becoming a Tier I source or commencing operation, unless the Department provides written notification of an earlier date to the owner or operator. (3-20-20)T
- 02. Earlier Dates During Initial Period.** Except as otherwise provided in these rules, during the initial period which begins May 1, 1994 and ends three (3) years after EPA approval of the Tier I operating program, the Department may designate Tier I sources for processing as follows: (3-20-20)T
- a.** The Department may develop a general estimate of the total work load and benefits associated with the Tier I operating permit applications that are predicted to be submitted during the initial period including, but not limited to, original permit applications and significant permit modification applications. (3-20-20)T
- b.** Considering the complexity of the applications, air quality benefits of permitting and requests for early actions from owners and operators, the Department may divide the applications into three (3) groups each representing approximately one-third (1/3) of the total work load and benefits. (3-20-20)T
- c.** The Department may prioritize the three (3) groups and the Tier I sources within each group for processing, establish early application deadlines and notify the owners or operators of the Tier I sources in the group in writing of a required submittal date earlier than the general deadlines provided in Subsection 313.01. (3-20-20)T
- 03. Renewals of Tier I Operating Permits.** The owner or operator of the Tier I source shall submit a complete application to the Department for a renewal of the Tier I operating permit at least six (6) months before, but no earlier than eighteen (18) months before, the expiration date of the existing Tier I operating permit. To ensure that

the term of the operating permit does not expire before the permit is renewed, the owner or operator is encouraged to submit the application nine (9) months prior to expiration. (3-20-20)T

**04. Changes to Tier I Operating Permits.** Sections 380 through 386 provide the requirements and procedures for changes at Tier I sources and to Tier I operating permits. (3-20-20)T

**314. REQUIRED STANDARD APPLICATION FORM AND REQUIRED INFORMATION.**

**01. General Requirements.** (3-20-20)T

**a.** Applications shall be submitted on a form or forms provided by the Department or by other means prescribed by these rules or the Department. The application shall be certified by the responsible official in accordance with Section 123. (3-20-20)T

**i.** If the Tier I source is regulated under 42 U.S.C. Sections 7651 through 7651o, the owner or operator shall also submit nationally-standardized acid rain forms provided by EPA. (3-20-20)T

**b.** All information shall be in sufficient detail so that the Department may efficiently and effectively determine the applicability of requirements and make all other necessary evaluations and determinations. (3-20-20)T

**02. General Information for the Facility.** (3-20-20)T

**a.** Provide identifying information, including the name, address and telephone number of: (3-20-20)T

**i.** The owner; (3-20-20)T

**ii.** The operator; (3-20-20)T

**iii.** The facility where the Tier I source is located; (3-20-20)T

**iv.** The registered agent of the owner, if any; (3-20-20)T

**v.** The registered agent of the operator, if any; (3-20-20)T

**vi.** The responsible official, if other than the owner or operator; and (3-20-20)T

**vii.** The contact person. (3-20-20)T

**b.** Provide a general description of the processes used and products produced by the facility where the Tier I source is located, including any associated with each requested alternative operating scenario and trading scenario. The description shall include narrative and applicable SIC codes. (3-20-20)T

**c.** Provide a general description of each process line affecting a Tier I source. (3-20-20)T

**03. Specific Information for Each Emissions Unit.** The owner or operator shall provide, in an itemized format, all of the information identified in Subsections 314.04 through 314.11 for each emissions unit, unless the emissions unit is an insignificant activity. (3-20-20)T

**04. Emissions.** (3-20-20)T

**a.** Identify and describe all emissions of pollutants for which the source is major and all emissions of regulated air pollutants from each emissions unit. Fugitive emissions shall be included in the application in the same manner as stack emissions, regardless of whether the source category is included in the list of sources contained in the definition of major facility (Section 008). (3-20-20)T

**b.** Emissions rates shall be quantified in tons per year (tpy) or for radionuclides the effective dose equivalent (EDE) in millirem per year and in such additional terms as are necessary to determine compliance

- consistent with the applicable test method. (3-20-20)T
- c.** Identify and describe all points of emissions in sufficient detail to establish the basis for fees and applicability of requirements of the Clean Air Act. (3-20-20)T
  - d.** To the extent it is needed to determine or regulate emissions, identify and quantify all fuels, fuel use, raw materials, production rates, and operating schedules. (3-20-20)T
  - e.** Identify and describe all air pollution control equipment and compliance monitoring devices or activities. (3-20-20)T
  - f.** Identify and describe all limitations on source operation or any work practice standards affecting emissions. (3-20-20)T
  - g.** Provide the calculations on which the information provided under Subsections 314.04.a. through 314.04.e. is based. (3-20-20)T
- 05. Applicable Requirements.** (3-20-20)T
- a.** Cite and describe all applicable requirements affecting the emissions unit; and (3-20-20)T
  - b.** Describe or reference all methods required by each applicable requirement for determining the compliance status of the emissions unit with the applicable requirement, including any applicable monitoring, recordkeeping and reporting requirements or test methods. (3-20-20)T
- 06. Other Requirements.** Other specific information that may be necessary to determine the applicability of, implement or enforce any requirement of the Act, these rules, 42 U.S.C. Sections 7401 through 7671q or federal regulations. (3-20-20)T
- 07. Proposed Determinations of Nonapplicability.** Identify requirements for which the applicant seeks a determination of nonapplicability and provide an explanation of why the requirement is not applicable to the Tier I source. (3-20-20)T
- 08. Alternative Operating Scenarios.** (3-20-20)T
- a.** Identify all requested alternative operating scenarios. (3-20-20)T
  - b.** Provide a detailed description of all requested alternative operating scenarios. Include all the information required by Section 314 that is relevant to the alternative operating scenario. (3-20-20)T
- 09. Compliance Certifications.** (3-20-20)T
- a.** Provide a compliance certification regarding the compliance status of each emissions unit at the time the application is submitted to the Department that: (3-20-20)T

    - i.** Identifies all applicable requirements affecting each emissions unit. (3-20-20)T
    - ii.** Certifies the compliance status of each emissions unit with each of the applicable requirements. (3-20-20)T
    - iii.** Provides a detailed description of the method(s) used for determining the compliance status of each emissions unit with each applicable requirement, including a description of any monitoring, recordkeeping, reporting and test methods that were used. Also provide a detailed description of the method(s) required for determining compliance. (3-20-20)T
    - iv.** Certifies the compliance status of the emissions unit with any applicable enhanced monitoring requirements. (3-20-20)T

- v. Certifies the compliance status of the emissions unit with any applicable enhanced compliance certification requirements. (3-20-20)T
- vi. Provides all other information necessary to determining the compliance status of the emissions unit. (3-20-20)T
- b.** Provide a schedule for submission of compliance certifications during the term of the Tier I operating permit. The schedule shall require compliance certifications to be submitted no less frequently than annually, or more frequently if specified by the underlying applicable requirement or by the Department. (3-20-20)T
- 10. Compliance Plans.** (3-20-20)T
- a.** Provide a compliance description as follows: (3-20-20)T
- i. For each applicable requirement with which the emissions unit is in compliance, state that the emissions unit will continue to comply with the applicable requirement. (3-20-20)T
- ii. For each applicable requirement that will become effective during the term of the Tier I operating permit that does not contain a more detailed schedule, state that the emissions unit will meet the applicable requirement on a timely basis. (3-20-20)T
- iii. For each applicable requirement that will become effective during the term of the Tier I operating permit that contains a more detailed schedule, state that the emissions unit will comply with the applicable requirement on the schedule provided in the applicable requirement. (3-20-20)T
- iv. For each applicable requirement with which the emission unit is not in compliance, state that the emissions unit will be in compliance with the applicable requirement by the time the Tier I operating permit is issued or provide a compliance schedule in accordance with Subsection 314.10.b. (3-20-20)T
- b.** All compliance schedules shall: (3-20-20)T
- i. Include a schedule of remedial measures leading to compliance, including an enforceable sequence of actions and specific dates for achieving milestones and achieving compliance. (3-20-20)T
- ii. Incorporate the terms and conditions of any applicable consent order, judicial order, judicial consent decree, administrative order, settlement agreement or judgment. (3-20-20)T
- iii. Be supplemental to, and shall not sanction noncompliance with, the applicable requirements on which it is based. (3-20-20)T
- c.** Provide a schedule for submission to the Department of periodic progress reports no less frequently than every six (6) months or at a more frequent period if one (1) is specified in the underlying applicable requirement or by the Department. (3-20-20)T
- 11. Trading Scenarios.** (3-20-20)T
- a.** Identify all requested trading scenarios, including alternative emissions limits (bubbles) authorized by Section 440. (3-20-20)T
- b.** Provide a detailed description of all requested trading scenarios. Include all the information required by Section 314 that is relevant to the trading scenario and all the information required by Section 440, if applicable. Emissions trades must comply with all applicable requirements. (3-20-20)T
- c.** Provide proposed replicable procedures and permit terms that ensure the emissions trades are quantifiable and enforceable. Emissions trades involving emissions units for which the emissions are not quantifiable or for which there are no replicable procedures to enforce the emissions trade shall not be approved. (3-20-20)T

**12. Additional Information.** Provide all additional information that the Department determines is necessary for the Department to efficiently and effectively perform its functions. Such functions include, but are not limited to, determining the applicability of requirements for all regulated air pollutants, determining compliance with applicable requirements, developing or defining Tier I operating permit terms and conditions, defining all approved alternative operating scenarios, evaluating excess emissions procedures or making all necessary evaluations and determinations. (3-20-20)T

**315. DUTY TO SUPPLEMENT OR CORRECT APPLICATION.**

**01. Failure to Submit.** Any applicant who fails to submit any relevant facts or who has submitted incorrect information in a permit application shall, upon becoming aware of such failure or incorrect submittal, promptly submit such supplementary facts or corrected information. (3-20-20)T

**02. Necessary Additional Information.** If, while processing an application that has been determined or deemed to be complete, the Department determines that additional information is necessary to evaluate or take final action on that application, the Department may request such information in writing and set a deadline for a response. The applicant shall submit the requested information on or before the deadline set by the Department. (3-20-20)T

**03. Additional Information After Completeness.** The applicant shall promptly provide additional information as necessary to address any requirements that become applicable to the Tier I source after the date a complete application was filed but prior to release of a proposed action. (3-20-20)T

**316. EFFECT OF INACCURATE INFORMATION IN APPLICATIONS OR FAILURE TO SUBMIT RELEVANT INFORMATION.**

Notwithstanding the shield provisions of Section 325, the owner or operator shall be subject to enforcement action for operation of the Tier I source without a Tier I operating permit if the owner or operator submitted an incomplete or inaccurate application or the Tier I source is later determined not to qualify for coverage under the conditions and terms of the Tier I operating permit. (3-20-20)T

**317. INSIGNIFICANT ACTIVITIES.**

**01. Applicability Criteria.** This Section contains the criteria for identifying insignificant activities for the purposes of the Tier I operating permit program. Notwithstanding any other provision of this rule, no emission unit or activity subject to an applicable requirement shall qualify as an insignificant emission unit or activity. Applicants may not exclude from Tier I operating permit applications information that is needed to determine whether the facility is major or whether the facility is in compliance with applicable requirements. (3-20-20)T

- a.** Presumptively insignificant emission units. (3-20-20)T
  - i.** Except as provided above, the activities listed in this section may be omitted from the permit application. (3-20-20)T
    - (1) Blacksmith forges. (3-20-20)T
    - (2) Mobile transport tanks on vehicles except for those containing asphalt and not including loading and unloading operations. (3-20-20)T
    - (3) Natural gas pressure regulator vents, excluding venting at oil and gas production facilities. (3-20-20)T
    - (4) Storage tanks, reservoirs and pumping and handling equipment of any size, limited to soaps, lubricants, lubricating oil, treater oil, hydraulic fluid, vegetable oil, grease, animal fat, aqueous salt solutions or other materials and processes using appropriate lids and covers where there is no generation of objectionable odor or airborne particulate matter. (3-20-20)T

- (5) Pressurized storage of oxygen, nitrogen, carbon dioxide, air, or inert gases. (3-20-20)T
- (6) Storage of solid material, dust-free handling. (3-20-20)T
- (7) Boiler water treatment operations, not including cooling towers. (3-20-20)T
- (8) Vents from continuous emission monitors and other analyzers. (3-20-20)T
- (9) Vents from rooms, buildings and enclosures that contain permitted emissions units or activities from which local ventilation, controls, and separate exhaust are provided. (3-20-20)T
- (10) Internal combustion engines for propelling or powering a vehicle. (3-20-20)T
- (11) Recreational fireplaces including the use of barbecues, campfires and ceremonial fires. (3-20-20)T
- (12) Brazing, soldering, and welding equipment and cutting torches for use in cutting metal wherein components of the metal do not generate hazardous air pollutants or hazardous air pollutant precursors. (3-20-20)T
- (13) Atmospheric generators used in connection with metal heat treating processes using non-hazardous air pollutant metals as the primary raw material. (3-20-20)T
- (14) Non-hazardous air pollutant metal finishing or cleaning using tumblers. (3-20-20)T
- (15) Drop hammers or hydraulic presses for forging or metalworking. (3-20-20)T
- (16) Electrolytic deposition, used to deposit brass, bronze, copper, iron, tin, zinc, precious and other metals not listed as the parents of hazardous air pollutants. (3-20-20)T
- (17) Equipment used for surface coating, painting, dipping or spraying operations, except those that will emit volatile organic compound or hazardous air pollutant. (3-20-20)T
- (18) Process water filtration systems. (3-20-20)T
- (19) Portable electrical generators that can be moved by hand from one (1) location to another. Moved by hand means that it can be moved without the assistance of any motorized or non-motorized vehicle, conveyance, or device. (3-20-20)T
- (20) Plastic and resin curing equipment, excluding FRP and provided these activities are not related to the source's primary business activity. (3-20-20)T
- (21) Extrusion equipment, metals, minerals, plastics, grain or wood used without solvents containing hazardous air pollutant. (3-20-20)T
- (22) Presses and vacuum forming, for curing rubber and plastic products or for laminating plastics without solvents containing hazardous air pollutants present. (3-20-20)T
- (23) Roller mills and calendars for use with rubber and plastics without solvents containing hazardous air pollutants. (3-20-20)T
- (24) Conveying and storage of plastic pellets. (3-20-20)T
- (25) Plastic compression, injection, and transfer molding and extrusion, rotocasting, pultrusion, blowmolding, excluding acrylics, PVC, polystyrene and related copolymers and the use of plasticizer. Only oxygen, carbon dioxide, nitrogen, air or inert gas allowed as blowing agent. (3-20-20)T
- (26) Plastic pipe welding. (3-20-20)T

- (27) Wax application in either a molten state or aqueous suspension. (3-20-20)T
- (28) Plant maintenance and upkeep including routine housekeeping, janitorial activities, cleaning and preservation of equipment, preparation for and painting of structures or equipment, retarring roofs, applying insulation to buildings in accordance with applicable environmental and health and safety requirements and lawn, landscaping and groundskeeping activities. Provided these activities are not conducted as part of a manufacturing process, are not related to the source's primary business activity, and not otherwise triggering a permit modification. (3-20-20)T
- (29) Agricultural activities on a facility's property that are not subject to registration or new source review by the permitting authority. (3-20-20)T
- (30) Maintenance of paved streets and parking lots including paving, stripping, salting, sanding, cleaning and sweeping of streets and paved surfaces. Provided these activities are not related to the source's primary business activity, do not otherwise trigger a permit modification, and fugitive emissions are reasonably controlled as required in Section 808. (3-20-20)T
- (31) Ultraviolet curing processes. (3-20-20)T
- (32) Hot melt adhesive application with no volatile organic compounds or hazardous air pollutants in the adhesive formula. (3-20-20)T
- (33) Laundering, dryers, extractors, tumblers for fabrics, using water solutions of bleach and/or detergents except for boilers. (3-20-20)T
- (34) Steam cleaning operations. (3-20-20)T
- (35) Steam sterilizers. (3-20-20)T
- (36) Food service activities including cafeterias, kitchen facilities and barbecues located at a source for providing food service on premises. (3-20-20)T
- (37) Portable drums and totes. (3-20-20)T
- (38) Fluorescent light tube and aerosol can crushing in units designed to reduce emissions from these activities. (3-20-20)T
- (39) Flares used to indicate danger to the public. (3-20-20)T
- (40) General vehicle maintenance including vehicle exhaust from repair facilities provided these activities are not related to the source's primary business activity and do not have applicable requirements under title VI of the Clean Air Act. (3-20-20)T
- (41) Comfort air conditioning or air cooling systems, not used to remove air contaminants from specific equipment. (3-20-20)T
- (42) Natural draft hoods, natural draft stacks, or natural draft ventilators for sanitary and storm drains, safety valves, and storage tanks subject to size and service limitations expressed elsewhere in this section. (3-20-20)T
- (43) Natural and forced air vents for bathroom/toilet facilities. (3-20-20)T
- (44) Office activities. (3-20-20)T
- (45) Equipment used for quality control/assurance or inspection purposes, including sampling equipment used exclusively to withdraw materials for laboratory analyses and testing. (3-20-20)T
- (46) Fire suppression systems and similar safety equipment and equipment used to train firefighters

- including fire drill pits. (3-20-20)T
- (47) Materials and equipment used by, and activity related to operation of infirmary; infirmary is not the source's business activity except equipment affected by the radionuclide NESHAP. (3-20-20)T
- (48) Satellite Accumulation Areas (SAAs) and Temporary Accumulation Areas (TAAs) managed in compliance with RCRA. (3-20-20)T
- (49) Equipment for carving, cutting, routing, turning, drilling, machining, sawing, surface grinding, sanding, planing, buffing, shot blasting, sintering, or polishing: Ceramics, glass, leather, metals, plastics, rubber, concrete, paper stock, or wood provided that these activities are not conducted as part of a manufacturing process. (3-20-20)T
- (50) Oxygen, nitrogen, or rare gas extraction and liquefaction equipment subject to other exemption limitation, e.g., internal and external combustion equipment. (3-20-20)T
- (51) Slaughterhouses, such as rendering cookers, boilers, heating plants, incinerators, and electrical power generating equipment. (3-20-20)T
- (52) Ozonation equipment. (3-20-20)T
- (53) Temporary construction activities at a facility provided that the installation or modification of emissions units must comply with all applicable federal, state, and local rules and regulations. (3-20-20)T
- (54) Batch loading and unloading of solid phase catalysts. (3-20-20)T
- (55) Pulse capacitors. (3-20-20)T
- (56) Gas cabinets using only gases that are not regulated air pollutants. (3-20-20)T
- (57) CO<sub>2</sub> lasers, used only on metals and other materials which do not emit hazardous air pollutants in the process. (3-20-20)T
- (58) Structural changes not having air contaminant emissions. (3-20-20)T
- (59) Equipment used to mix, package, store and handle soaps, lubricants, vegetable oil, grease, animal fat, and non-volatile aqueous salt solutions, provided appropriate lids and covers are utilized. (3-20-20)T
- (60) Photographic process equipment by which an image is reproduced upon material sensitized to radiant energy, e.g., blueprint activity, photocopiers, mimeograph, telefax, photographic developing, and microfiche provided these activities are not related to the source's primary business activity. (3-20-20)T
- (61) Pharmaceutical and cosmetics packaging equipment. (3-20-20)T
- (62) Paper trimmers/binders provided these activities are not related to the source's primary business activity. (3-20-20)T
- (63) Bench-scale laboratory equipment and laboratory equipment used exclusively for physical or chemical analysis, including associated vacuum producing devices but excluding research and development facilities. (3-20-20)T
- (64) Repair and maintenance shop activities not related to the source's primary business activity. (3-20-20)T
- (65) Handling equipment and associated activities for glass and aluminum which is destined for recycling, provided these activities are not related to the source's primary business activity. (3-20-20)T

(66)	Hydraulic and hydrostatic testing equipment.	(3-20-20)T
(67)	Batteries and battery charging stations, except at battery manufacturing plants.	(3-20-20)T
(68)	Porcelain and vitreous enameling equipment.	(3-20-20)T
(69)	Solid waste containers.	(3-20-20)T
(70)	Salt baths using nonvolatile salts that do not result in emissions of any regulated air pollutants.	(3-20-20)T
(71)	Shock chambers.	(3-20-20)T
(72)	Wire strippers.	(3-20-20)T
(73)	Humidity chambers.	(3-20-20)T
(74)	Solar simulators.	(3-20-20)T
(75)	Environmental chambers not using hazardous air pollutant gases.	(3-20-20)T
(76)	Totally enclosed conveyors not including transfer points.	(3-20-20)T
(77)	Steam vents and safety relief valves.	(3-20-20)T
(78)	Air compressors, pneumatically operated equipment, systems, and hand tools.	(3-20-20)T
(79)	Steam leaks.	(3-20-20)T
(80)	Boiler blow-down tank.	(3-20-20)T
(81)	Salt cake mix tanks at pulp mills.	(3-20-20)T
(82)	Digester chip feeders at pulp mills.	(3-20-20)T
(83)	Weak liquor and filter tanks at pulp mills.	(3-20-20)T
(84)	Process water and white water storage tanks at pulp mills.	(3-20-20)T
(85)	Demineralizer water tanks, demineralization, demineralizer vents, and oxygen scavenging (deaeration) of water.	(3-20-20)T
(86)	Clean condensate tanks.	(3-20-20)T
(87)	Alum tanks.	(3-20-20)T
(88)	Broke beaters, repulpers, pulp and repulping tanks, stock chests and pulp handling.	(3-20-20)T
(89)	Lime and mud filtrate tanks.	(3-20-20)T
(90)	Hydrogen peroxide tanks.	(3-20-20)T
(91)	Lime mud washer.	(3-20-20)T
(92)	Lime mud filter.	(3-20-20)T
(93)	Hydro and liquor clarifiers or filters and storage tanks and associated pumping, piping, and	

- handling. (3-20-20)T
- (94) Lime grits washers, filters, and handling. (3-20-20)T
  - (95) Lime silos and feed bins. (3-20-20)T
  - (96) Paper forming. (3-20-20)T
  - (97) Starch cooking. (3-20-20)T
  - (98) Pulp stock cleaning and screening. (3-20-20)T
  - (99) Paper winders or other paper converting equipment. (3-20-20)T
  - (100) Sludge dewatering and wet sludge handling. (3-20-20)T
  - (101) Screw press vents. (3-20-20)T
  - (102) Pond dredging. (3-20-20)T
  - (103) Polymer tanks and storage devices and associated pumping and handling equipment, used for solids dewatering and flocculation. (3-20-20)T
  - (104) Non-PCB oil filled circuit breakers, oil filled transformers and other equipment that is analogous to, but not considered to be, a tank. (3-20-20)T
  - (105) Lab-scale electric or steam-heated drying ovens and autoclaves. (3-20-20)T
- systems.
- (106) Sewer manholes, junction boxes, sumps and lift stations associated with waste water treatment (3-20-20)T
  - (107) Water cooling towers processing exclusively noncontact cooling water. (3-20-20)T
  - (108) Paper coating and sizing. (3-20-20)T
  - (109) Process waste water and ponds. (3-20-20)T
  - (110) Outdoor firearms practice ranges. (3-20-20)T
- b.** Insignificant activities on the basis of size or production rate. (3-20-20)T
- i.** This section contains lists of units or activities that are insignificant on the basis of size or production rate. Units and activities listed in this section must be listed in the permit application. The following units and activities are determined to be insignificant based on their size or production rate: (3-20-20)T
    - (1) Operation, loading and unloading of storage tanks and storage vessels, with lids or other appropriate closure and less than two hundred sixty (260) gallon capacity thirty five cubic feet (35cft), heated only to the minimum extend to avoid solidification if necessary. (3-20-20)T
    - (2) Operation, loading and unloading of storage tanks, not greater than one thousand one hundred (1,100) gallon capacity, with lids or other appropriate closure, not for use with hazardous air pollutants, maximum (max.) vp five-hundred fifty (550) mm Hg. (3-20-20)T
    - (3) Operation, loading and unloading of volatile organic compound storage tanks, ten thousand (10,000) gallons capacity or less, with lids or other appropriate closure, vp not greater than eighty (80) mm Hg at twenty-one (21) degrees C. Operation, loading and unloading of gasoline storage tanks, ten thousand (10,000) gallons capacity or less, with lids or other appropriate closure. (3-20-20)T

- (4) Operation, loading and unloading storage of butane, propane, or liquefied petroleum gas (LPG), storage tanks, vessel capacity under forty thousand (40,000) gallons. (3-20-20)T
- (5) Combustion source, less than five million (5,000,000) Btu/hr, exclusively using natural gas, butane, propane, and/or LPG. (3-20-20)T
- (6) Combustion source, less than five hundred thousand (500,000) Btu/hr, using any commercial fuel containing less than four-tenths percent (.4%) by weight sulfur for coal or less than one percent (1%) by weight sulfur for other fuels. (3-20-20)T
- (7) Combustion source, of less than one million (1,000,000) Btu/hr, if using kerosene, No. 1 or No. 2 fuel oil. (3-20-20)T
- (8) Combustion source, not greater than five hundred thousand (500,000) Btu/hr, if burning waste wood, wood waste or waste paper. (3-20-20)T
- (9) Welding using not more than one (1) ton per day of welding rod. (3-20-20)T
- (10) Foundry sand molds, unheated and using binders with less than twenty-five hundredths percent (.25%) free phenol by sand weight. (3-20-20)T
- (11) "Parylene" coaters using less than five hundred (500) gallons of coating per year. (3-20-20)T
- (12) Printing and silkscreening, using less than two (2) gallon/day of any combination of the following: Inks, coatings, adhesives, fountain solutions, thinners, retarders, or nonaqueous cleaning solutions. (3-20-20)T
- (13) Water cooling towers and ponds, not using chromium-based corrosion inhibitors, not used with barometric jets or condensers, not greater than ten thousand (10,000) gpm, not in direct contact with gaseous or liquid process streams containing regulated air pollutants. (3-20-20)T
- (14) Combustion turbines, of less than five hundred (500) HP. (3-20-20)T
- (15) Batch solvent distillation, not greater than fifty-five (55) gallons batch capacity. (3-20-20)T
- (16) Municipal and industrial water chlorination facilities of not greater than twenty million (20,000,000) gallons per day capacity. The exemption does not apply to waste water treatment. (3-20-20)T
- (17) Surface coating, using less than two (2) gallons per day. (3-20-20)T
- (18) Space heaters and hot water heaters using natural gas, propane or kerosene and generating less than five million (5,000,000) Btu/hr. (3-20-20)T
- (19) Tanks, vessels, and pumping equipment, with lids or other appropriate closure for storage or dispensing of aqueous solutions of inorganic salts, bases and acids excluding: (3-20-20)T
- (a) Ninety-nine percent (99%) or greater H<sub>2</sub>SO<sub>4</sub> or H<sub>3</sub>PO<sub>4</sub>. (3-20-20)T
- (b) Seventy percent (70%) or greater HNO<sub>3</sub>. (3-20-20)T
- (c) Thirty percent (30%) or greater HCl. (3-20-20)T
- (d) More than one (1) liquid phase where the top phase is more than one percent (1%) volatile organic compounds. (3-20-20)T
- (20) Equipment used exclusively to pump, load, unload, or store high boiling point organic material, material with initial boiling point (IBP) not less than one hundred fifty (150) degrees C or vapor pressure (vp) not

- more than five (5) mm Hg at twenty-one (21) degrees C with lids or other appropriate closure. (3-20-20)T
- (21) Smokehouses under twenty (20) square feet. (3-20-20)T
- (22) Milling and grinding activities, using paste-form compounds with less than one percent (1%) volatile organic compounds. (3-20-20)T
- (23) Rolling, forging, drawing, stamping, shearing, or spinning hot or cold metals. (3-20-20)T
- (24) Dip-coating operations, using materials with less than one percent (1%) volatile organic compounds. (3-20-20)T
- (25) Surface coating, aqueous solution or suspension containing less than one percent (1%) volatile organic compounds. (3-20-20)T
- (26) Cleaning and stripping activities and equipment, using solutions having less than one percent (1%) volatile organic compounds by weight. On metallic substrates, acid solutions are not considered for listing as insignificant. (3-20-20)T
- (27) Storage and handling of water based lubricants for metal working where the organic content of the lubricant is less than ten percent (10%). (3-20-20)T
- (28) Municipal and industrial waste water chlorination facilities of not greater than one million (1,000,000) gallons per day capacity. (3-20-20)T
- (29) Domestic sewage treatment ponds with average flowrates less than four hundred (400) gpm or treating waste from less than three thousand (3000) people from non-residential sources. (3-20-20)T
- (30) An emission unit or activity with potential emissions less than or equal to the significant emission rate as defined in Section 006 and actual emissions less than or equal to ten percent (10%) of the levels contained in Section 006 of the definition of significant and no more than one (1) ton per year of any hazardous air pollutant. (3-20-20)T

**318. -- 320. (RESERVED)**

**321. TIER I OPERATING PERMIT CONTENT.**

The purpose of Sections 321 through 336 is to mandate and authorize the contents of Tier I operating permits. (3-20-20)T

**322. STANDARD CONTENTS OF TIER I OPERATING PERMITS.**

All Tier I operating permits shall contain and the Department shall have the authority to impose, implement and enforce, the following elements for all permitted operating scenarios and emissions trading scenarios. Fugitive emissions shall be included in the Tier I operating permit in the same manner as stack emissions. (3-20-20)T

**01. Emission Limitations and Standards.** All Tier I operating permits shall contain emission limitations and standards, including, but not limited to, those operational requirements and limitations that assure compliance with the applicable requirements identified in the application, or determined by the Department to be applicable to the source. (3-20-20)T

**02. Authority for and Form of Terms and Conditions.** All Tier I operating permits shall specify and reference the origin of and authority for each term or condition, and identify any difference in form as compared to the applicable requirement upon which the term or condition is based. (3-20-20)T

**03. Terms or Conditions for Applicable Requirements.** All Tier I operating permits shall contain at least one (1) permit term or condition for every applicable requirement specifically identified in the application or determined by the Department to be applicable to the source. (3-20-20)T

**04. Alternative Operating Scenarios.** All Tier I operating permits shall contain terms and conditions to ensure compliance with all applicable requirements for each alternative operating scenario that was requested by the applicant and approved by the Department, including, but not limited to, a requirement that the owner or operator of the source, contemporaneously with making a change from one (1) operating scenario to another, record the change in an operating scenario log located and retained at the permitted facility. (3-20-20)T

**05. Trading Scenarios.** (3-20-20)T

**a.** All Tier I operating permits shall contain terms and conditions for each trading scenario that was requested by the applicant and approved by the Department including, but not limited to, terms and conditions which ensure that any emission trade is quantifiable, accountable, enforceable and based on replicable procedures. (3-20-20)T

**b.** The Tier I operating permit shall state that no permit revision shall be required under approved economic incentives, marketable permits, emissions trading, and other similar programs or processes for changes that are provided for in the permit. (3-20-20)T

**c.** The Tier I operating permit shall, at a minimum, include a requirement that the owner or operator of the source, contemporaneously with making a change from one (1) trading scenario to another, record the change in a trading scenario log located and retained at the permitted facility and provide notice to the Department in accordance with Section 383. (3-20-20)T

**06. Monitoring.** All Tier I operating permits shall contain the following with respect to monitoring: (3-20-20)T

**a.** Sufficient monitoring to ensure compliance with all of the terms and conditions of the Tier I operating permit; (3-20-20)T

**b.** All emissions monitoring and analysis procedures or test methods required under the applicable requirements; (3-20-20)T

**c.** If the applicable requirement does not require specific periodic testing or monitoring, terms and conditions requiring periodic monitoring, recordkeeping, or both, that is sufficient to yield reliable data for the relevant time periods that are representative of the emissions unit's compliance with the Tier I operating permit, as reported pursuant to Subsection 322.08, and ensuring the use of terms, test methods, units, averaging periods, and other statistical conventions consistent with the applicable requirement; and (3-20-20)T

**d.** Requirements that the Department determines are necessary, concerning the use, maintenance and installation of monitoring equipment or methods. (3-20-20)T

**07. Recordkeeping.** All Tier I operating permits shall incorporate by reference all applicable requirements regarding recordkeeping and require all of the following: (3-20-20)T

**a.** Sufficient recordkeeping to assure compliance with all of the terms and conditions of the Tier I operating permit. (3-20-20)T

**b.** Recording of monitoring information including but not limited to the following: (3-20-20)T

**i.** The date, place (as defined in the Tier I operating permit) and time of sampling or measurements; (3-20-20)T

**ii.** The date(s) analyses were performed; (3-20-20)T

**iii.** The company or entity that performed the analyses; (3-20-20)T

**iv.** The analytical techniques or methods used; (3-20-20)T

- v. The results of such analyses; and (3-20-20)T
- vi. The operating conditions existing at the time of sampling or measurement. (3-20-20)T
- c. Retention of all monitoring records and support information for a period of at least five (5) years from the date of the monitoring sample, measurement, report or application. Supporting information includes but is not limited to all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation and copies of all reports required by the Tier I operating permit. (3-20-20)T
- 08. Reporting.** All Tier I operating permits shall incorporate by reference all applicable requirements regarding reporting and require all of the following: (3-20-20)T
- a. Sufficient reporting to assure compliance with all of the terms and conditions of the Tier I operating permit. (3-20-20)T
- b. Prompt reporting of deviations from permit requirements including, but not limited to, those attributable to excess emissions. If the deviation is an excess emission, the report shall be submitted in accordance with the requirements of Sections 130 through 136. For all other deviations, the report shall be submitted in accordance with Subsection 322.08.c. unless the permit specifies another time frame. The reports shall describe the probable cause of such deviations and any corrective actions or preventative measures taken. (3-20-20)T
- c. Submittal of reports for any required monitoring at least every six (6) months. All instances of deviations from Tier I operating permit requirements, which include monitoring, recordkeeping, and reporting, must be clearly identified in such reports. All required reports must be certified in accordance with Section 123. (3-20-20)T
- 09. Testing.** All Tier I operating permits shall contain terms and conditions requiring sufficient testing to assure compliance with all of the terms and conditions of the Tier I operating permit. (3-20-20)T
- 10. Compliance Schedule and Progress Reports.** All Tier I operating permits shall contain terms and conditions regarding the compliance plan submitted in the application in accordance with Subsection 314.10 including all of the following: (3-20-20)T
- a. For each applicable requirement for which the source is not in compliance at the time of the permit issuance, terms and conditions consistent with the compliance schedule submitted by the applicant including all of the following: (3-20-20)T
- i. A schedule of remedial measures leading to compliance including an enforceable sequence of actions and specific dates for achieving the milestones and achieving compliance. (3-20-20)T
- ii. A requirement that the permittee submit periodic progress reports to the Department no less frequently than every six (6) months or at a more frequent period if one is specified in the underlying applicable requirement or by the Department. (3-20-20)T
- iii. A requirement that any progress report shall include a statement of when the milestones and compliance were or will be achieved, an explanation of why any dates in the compliance schedule submitted by the applicant or in the terms or conditions of the Tier I operating permit were not or will not be met and a detailed description of any preventative or corrective measures undertaken by the permittee. (3-20-20)T
- iv. All terms and conditions of any applicable consent order, judicial order, judicial consent decree, administrative order, settlement agreement or judgment. (3-20-20)T
- v. A statement that the terms and conditions regarding the compliance schedule are supplemental to, and do not sanction noncompliance with, the underlying applicable requirement. (3-20-20)T
- b. For each applicable requirement that will become effective during the term of the Tier I operating permit and that requires a detailed compliance schedule, the permit shall include such compliance schedule.

(3-20-20)T

c. For each applicable requirement that will become effective during the term of the Tier I operating permit that does not require a detailed compliance schedule, the permit shall include a statement that the permittee shall meet, on a timely basis, all such applicable requirements. (3-20-20)T

**11. Periodic Compliance Certifications.** Each Tier I operating permit shall require submittal of compliance certifications during the term of the permit for each emissions unit to the Department and the EPA as follows: (3-20-20)T

a. Compliance certifications for all emissions units shall be submitted no less frequently than annually, or more frequently if specified by the underlying applicable requirement or by the Department. (3-20-20)T

b. The compliance certification for each emissions unit shall address all of the terms and conditions contained in the Tier I operating permit that are applicable to such emissions unit including emissions limitations, standards and work practices. (3-20-20)T

c. The compliance certification shall be in an itemized format providing the following information: (3-20-20)T

i. The identification of each term or condition of the Tier I operating permit that is the basis of the certification; (3-20-20)T

ii. The identification of the method(s) or other means used by the owner or operator for determining the compliance status with each term and condition during the certification period. Such methods and other means shall include, at a minimum, the methods and means required under Subsections 322.06, 322.07, and 322.08; (3-20-20)T

iii. The status of compliance with the terms and conditions of the Tier I operating permit for the period covered by the certification, including whether compliance during the period was continuous or intermittent. The certification shall be based on the method or means designated in Subsection 322.11.c.ii. above. The certification shall identify each deviation and take it into account in the compliance certification. The certification shall also identify as possible exceptions to compliance any periods during which compliance is required and in which an excursion or exceedance as defined under 40 CFR Part 64 occurred; and (3-20-20)T

iv. Such information as the Department may require to determine the compliance status of the emissions unit. (3-20-20)T

d. All original compliance certifications shall be submitted to the Department and a copy of all compliance certifications shall be submitted to the EPA; (3-20-20)T

**12. Permit Conditions Regarding Acid Rain Allowances.** (3-20-20)T

a. A permit condition prohibiting emissions exceeding any allowances that the source lawfully holds. (3-20-20)T

b. No limit shall be placed on the number of allowances held by the source and no permit revisions shall be required for increases in emissions that are authorized by allowances acquired pursuant to the acid rain program, provided that such increases do not require a permit revision under any other applicable requirement. (3-20-20)T

c. The source may not, however, use allowances as a defense to noncompliance with any other applicable requirement. (3-20-20)T

d. Any such allowance shall be accounted for according to the procedures established in 40 CFR Part 72 and 40 CFR Part 73. (3-20-20)T

**13. Permit Duration.** Each Tier I operating permit shall state that it is effective for a fixed term of five (5) years; except that during the first four (4) years after EPA approval of the Tier I operating permit program, the permit may be issued with an initial term of three (3) years to five (5) years unless the Tier I source is also a Phase II source. (3-20-20)T

**14. Other Specific Requirements.** Any terms or conditions determined by the Department to be necessary for approval of the Tier I operating permit. (3-20-20)T

**15. General Requirements.** Each Tier I operating permit shall contain provisions stating the following: (3-20-20)T

**a.** The permittee shall comply with all conditions of this permit. Any permit noncompliance constitutes a violation and is grounds for enforcement action; for permit revocation, termination, revocation and reissuance, or revision; or for denial of a permit renewal application. (3-20-20)T

**b.** It shall not be a defense in an enforcement action that it would have been necessary to halt or reduce any activity in order to maintain compliance with the terms and conditions of this permit. (3-20-20)T

**c.** This permit may be revised, revoked, reopened and reissued, or terminated for cause. (3-20-20)T

**d.** The filing of a request by the permittee for a permit revision, revocation and reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition. (3-20-20)T

**e.** This permit does not convey any property rights of any sort, or any exclusive privilege. (3-20-20)T

**f.** The permittee shall furnish all information requested by the Department, within a reasonable time, that the Department may request in writing to determine whether cause exists for modifying, revoking and reissuing or terminating the permit or to determine compliance with the permit. (3-20-20)T

**g.** Upon request, the permittee shall furnish to the Department copies of records required to be kept by this permit. (3-20-20)T

**h.** The provisions of this permit are severable, and if any provision of this permit to any circumstance is held invalid, the application of such provision to other circumstances, and the remainder of this permit shall not be affected thereby. (3-20-20)T

**i.** The permittee shall comply with Sections 380 through 386 as applicable. (3-20-20)T

**j.** Unless specifically identified as a "State Only" provision, all terms and conditions in the this permit, including any terms and conditions designed to limit a source's potential to emit, are enforceable: (3-20-20)T

**i.** By the Department in accordance with State law; and (3-20-20)T

**ii.** By the United States or any other person in accordance with Federal law. (3-20-20)T

**k.** Provisions specifically identified as a "State Only" provision are enforceable only in accordance with State law. "State Only" provisions are those that are not required under the Federal Clean Air Act or under any of its applicable requirements or those provisions adopted by the State prior to federal approval. (3-20-20)T

**l.** Upon presentation of credentials, the permittee shall allow the Department or an authorized representative of the Department to do the following: (3-20-20)T

**i.** Enter upon the permittee's premises where a Tier I source is located or emissions-related activity is conducted, or where records are kept under the conditions of this permit; (3-20-20)T

**ii.** Have access to and copy, at reasonable times, any records that are kept under the conditions of this

- permit; (3-20-20)T
- iii. Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit; and (3-20-20)T
  - iv. Sample or monitor at reasonable times substances or parameters for the purpose of determining or ensuring compliance with this permit or applicable requirements. (3-20-20)T
- m.** Nothing in this permit shall alter or affect the following: (3-20-20)T
- i. Any administrative authority or judicial remedy available to prevent or terminate emergencies or imminent and substantial dangers; (3-20-20)T
  - ii. The liability of an owner or operator of a source for any violation of applicable requirements prior to or at the time of permit issuance; (3-20-20)T
  - iii. The applicable requirements of the acid rain program, consistent with 42 U.S.C. Section 7651g(a); (3-20-20)T
  - iv. The owner or operator's duty to provide information. (3-20-20)T
- n.** The owner or operator of a Tier I source shall pay registration fees to the Department in accordance with Sections 387 through 399, which are hereby incorporated by reference. (3-20-20)T
- o.** All documents submitted to the Department shall be certified in accordance with Section 123 and comply with Section 124. (3-20-20)T
- p.** If a timely and complete application for a Tier I operating permit renewal is submitted, but the Department fails to issue or deny the renewal permit before the end of the term of the previous permit, then all the terms and conditions of the previous permit including any permit shield that may have been granted pursuant to Section 325 shall remain in effect until the renewal permit has been issued or denied. (3-20-20)T
- q.** The permittee shall promptly report deviations from permit requirements including, but not limited to, those attributable to excess emissions. If the deviation is an excess emission, the report shall be submitted in accordance with the requirements of Sections 130 through 136. For all other deviations, the report shall be submitted in accordance with Subsection 322.08.c. unless the permit specifies another time frame. The reports shall describe the probable cause of such deviations and any corrective actions or preventative measures taken. (3-20-20)T

**323. -- 324. (RESERVED)**

**325. ADDITIONAL CONTENTS OF TIER I OPERATING PERMITS -- PERMIT SHIELD.**

Each Tier I operating permit shall include provisions stating: (3-20-20)T

**01. General Permit Shield.** Compliance with the terms and conditions of the Tier I operating permit, including those applicable to all alternative operating scenarios and trading scenarios, shall be deemed compliance with all of the following: (3-20-20)T

**a.** Applicable requirements as of the date of permit issuance that are specifically identified in the Tier I operating permit and have a corresponding term or condition in the Tier I operating permit. (3-20-20)T

**b.** Non-applicable requirements. For a requirement to be a non-applicable requirement, all of the following criteria must be met: (3-20-20)T

i. The permittee must have provided the information required by Subsection 314.08.b. in the application. (3-20-20)T

ii. The requirement must be specifically identified in the Tier I operating permit as a non-applicable

requirement. (3-20-20)T

iii. The requirement must have been determined by the Department, in writing and in acting on the permit application or revision, to not be applicable to the Tier I source. (3-20-20)T

iv. Tier I operating permit must include the Department's determination or a concise summary thereof. (3-20-20)T

**02. Limitation on Permit Shield.** Permit revisions and other actions authorized by Sections 300 through 386 may eliminate, modify or suspend the permit shield. (3-20-20)T

**326. -- 331. (RESERVED)**

**332. EMERGENCY AS AN AFFIRMATIVE DEFENSE REGARDING EXCESS EMISSIONS.**

**01. General.** An emergency, as defined in Section 008, constitutes an affirmative defense to an action brought for noncompliance with such technology-based emission limitation if the conditions of Subsection 332.02 are met. (3-20-20)T

**02. Demonstration of Emergency.** The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that: (3-20-20)T

a. An emergency occurred and that the permittee can identify the cause(s) of the emergency; (3-20-20)T

b. The permitted facility was at the time being properly operated; (3-20-20)T

c. During the period of the emergency, the permittee took all reasonable steps, as determined by the Department, to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and (3-20-20)T

d. The permittee submitted written notice of the emergency to the Department within two (2) working days of the time when emission limitations were exceeded due to the emergency. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken. Compliance with this section satisfies the written reporting requirements under Section 135 and Subsection 322.15.q. (3-20-20)T

**03. Burden of Proof.** In any enforcement proceeding, the permittee seeking to establish the occurrence of an emergency has the burden of proof. (3-20-20)T

**04. Applicability.** Section 332 is in addition to any emergency or upset provision contained in any applicable requirement. (3-20-20)T

**333. -- 334. (RESERVED)**

**335. GENERAL TIER I OPERATING PERMITS AND AUTHORIZATIONS TO OPERATE.**

**01. Issuance of General Tier I Operating Permits.** The Department may, after notice and opportunity for public participation provided in accordance with Section 364, issue a general Tier I operating permit covering numerous similar sources. (3-20-20)T

**02. Contents of General Tier I Operating Permits.** Each general Tier I operating permit: (3-20-20)T

a. Shall include all terms and conditions identified in Sections 322 and 325. (3-20-20)T

b. Shall include specific criteria by which sources may qualify for coverage under the general Tier I operating permit; and (3-20-20)T

c. May provide for applications which deviate from the requirements of Sections 311 through 315, provided that such applications meet all other requirements of 42 U.S.C. 7661 through 7661f and include all information necessary to determine qualification for, and to ensure compliance with, the general Tier I operating permit. (3-20-20)T

**03. Applications for Authorizations to Operate.** The owner or operator of a Tier I source may apply for an authorization to operate under the terms and conditions of a general Tier I operating permit by: (3-20-20)T

a. Stating in the application submitted pursuant to Sections 311 through 315 that the owner or operator has determined that the Tier I source qualifies for coverage under a specifically identified general Tier I operating permit and that the owner or operator requests that operations of the Tier I source be authorized under a specifically identified general Tier I operating permit; or (3-20-20)T

b. Complying with the specific application requirements, if any, provided in the general Tier I operating permit. (3-20-20)T

**04. Procedures for Issuing Authorizations to Operate.** Without repeating the public participation procedures required under Section 364, the Department shall issue an authorization to operate a Tier I source under a specifically identified general Tier I operating permit if the Department determines that the Tier I source qualifies for coverage. (3-20-20)T

**05. Review of Authorizations to Operate.** The issuance of an authorization to operate shall be a final agency action for purposes of administrative and judicial review of the authorization. The general Tier I operating permit shall not be subject to administrative or judicial review upon the issuance of an authorization to operate. (3-20-20)T

**06. Phase II Sources.** General Tier I operating permits shall not be authorized for Phase II sources under the acid rain program unless otherwise provided in 40 CFR Part 72. (3-20-20)T

**336. TIER I OPERATING PERMITS FOR TIER I PORTABLE SOURCES.**

**01. Issuance of Tier I Operating Permits for Portable Tier I Sources.** (3-20-20)T

a. The Department may issue a single Tier I operating permit authorizing emissions from similar operations of a portable Tier I source by the owner or operator at multiple temporary locations. (3-20-20)T

b. The operation must be temporary and involve at least one (1) change of location for the portable Tier I source during the term of the Tier I operating permit. (3-20-20)T

**02. Phase II Sources.** No Phase II source shall be permitted as a portable Tier I source. (3-20-20)T

**03. Contents of Tier I Operating Permits for Portable Tier I Sources.** Tier I operating permits for portable Tier I sources shall include the following: (3-20-20)T

a. Terms and conditions that will ensure compliance with all applicable requirements at all authorized locations; (3-20-20)T

b. Requirements that the owner or operator notify the Department at least ten (10) days in advance of each change in location in accordance with Section 500; and (3-20-20)T

c. All terms and conditions identified in Sections 322 and 325 through 332. (3-20-20)T

**337. -- 359. (RESERVED)**

**360. STANDARD PROCESSING OF TIER I OPERATING PERMIT APPLICATIONS.**

The purposes of Sections 360 through 369 is to establish standard procedures and requirements for processing Tier I operating permits. (3-20-20)T

**361. COMPLETENESS OF APPLICATIONS.**

**01. Criteria for Completeness.** Except as otherwise provided by these rules, the application must comply with Section 314 including that the information must be in sufficient detail. (3-20-20)T

**02. Timelines for Determinations of Completeness.** The Department shall send written notice to the applicant of whether the application is complete within sixty (60) days of receiving the application. If the Department fails to send the written notice to the applicant within sixty (60) days of receipt, the application shall be deemed complete. (3-20-20)T

**03. Effects of Completeness Determination.** (3-20-20)T

**a.** The submittal of a complete application activates the application shield provided by Subsection 361.02. (3-20-20)T

**b.** The submittal of a complete Tier I operating permit application shall not affect the permit to construct requirements of Sections 200 through 225 or 42 U.S.C. Sections 7401 through 7515. (3-20-20)T

**c.** The timelines for final agency action provided in Subsections 367.02 and 367.03 begin on the date of the completeness determination. (3-20-20)T

**362. TECHNICAL MEMORANDUMS FOR TIER I OPERATING PERMITS.**

**01. Memorandum for Draft Permit.** As part of its review of the Tier I operating permit application, the Department shall prepare a technical memorandum that sets forth the legal and factual basis for the draft Tier I operating permit terms and conditions (including references to the applicable statutory or regulatory provisions) or the draft denial. (3-20-20)T

**02. Revised Memorandum for Proposed Permit.** If the Department revises its analysis, its conclusions or the terms or conditions of the Tier I operating permit in response to public comment, the Department may revise the technical memorandum for the proposed permit or the proposed denial. (3-20-20)T

**03. Release of Memorandum.** The technical memorandum(s) shall be made available to the public in accordance with Section 364 and sent to the EPA with the proposed Tier I operating permit or proposed denial. (3-20-20)T

**363. PREPARATION OF DRAFT PERMIT OR DRAFT DENIAL.**

Except as otherwise provided in these rules, the Department shall prepare a draft permit or draft denial as promptly as practicable or one hundred twenty (120) days before the deadline for final action, whichever is earlier. (3-20-20)T

**364. PUBLIC NOTICES, COMMENTS AND HEARINGS.**

**01. Generally.** Except as otherwise provided in these rules, all Tier I operating permit proceedings shall provide for public notice and public comment, including offering an opportunity for a hearing, on a draft permit or on a draft denial. (3-20-20)T

**02. Public Comment Package.** A public comment package including the draft permit or draft denial, the technical memorandum and the application shall be prepared and distributed to appropriate public locations, the applicant and affected States. (3-20-20)T

**03. Giving Notice.** Notice shall be given: by publication in a newspaper of general circulation in the area where the Tier I source is located or in a State publication designed to give general public notice; by mailing the notice to persons on a mailing list developed by the Department, including those who request in writing to be on the list; by mailing the notice to all affected States; and by other means if necessary to ensure adequate notice to the affected public. (3-20-20)T

**04. Content of the Notice.** The notice shall identify the affected facility; provide the name and address of the permittee; provide the name and address of the Department processing the application; identify the draft permit action; identify the emissions change if the permit action is a permit revision or reopening; provide the locations where the public may locate a copy of the public comment package; provide the name, address, and telephone number of a person from whom interested persons may obtain additional information that is relevant to the permit decision by filing a written public documents request and paying any costs; provide a brief description of the comment procedures, including the deadline for comments and the name and address of the person to whom written comments must be delivered; and state the time and place of any hearing that has been scheduled or provide information regarding how a person may request a hearing. (3-20-20)T

**05. Public Comment Procedures.** (3-20-20)T

- a.** The Department shall provide at least thirty (30) days for public comment. (3-20-20)T
- b.** The Department may designate the person to receive written comments. (3-20-20)T
- c.** The Department shall give notice of any public hearing at least thirty (30) days in advance of the hearing. (3-20-20)T
- d.** The public hearing, if any, shall be an informal meeting, conducted by a hearing officer designated by the Department and transcribed. Written comments or supporting documents may be submitted during the hearing. (3-20-20)T
- e.** The public comments and additional information received during the comment period shall be available to the public upon the filing of a written public documents request and the payment of any costs. (3-20-20)T

**365. PREPARATION OF PROPOSED PERMIT OR PROPOSED DENIAL.**

**01. Timeline.** Except as otherwise provided by these rules, the Department shall prepare a proposed permit or proposed denial within thirty (30) days after the close of the public comment period, unless the Department determines that additional time is required to evaluate comments and information received. (3-20-20)T

**02. Availability.** The proposed permit or proposed denial shall be available to the public upon the filing a written public documents request and the payment of any costs. (3-20-20)T

**03. Notice to Affected States.** If the Department refuses to accept all recommendations that an affected State submitted during the public comment period, the Department shall send a copy of the notice sent to EPA in accordance with Subsection 366.01.d. to the affected State that submitted the recommendation. (3-20-20)T

**366. EPA REVIEW PROCEDURES.**

**01. Submittal of Proposal to EPA.** Except as otherwise provided in these rules and unless EPA waives its opportunity to review a proposed permit, the Department will transmit the following to EPA: (3-20-20)T

- a.** The proposed permit or proposed denial. (3-20-20)T
- b.** The technical memorandum, as revised if appropriate. (3-20-20)T
- c.** The application including all supplements and corrections submitted by the applicant, unless the applicant has submitted the information under a claim of confidentiality or unless the Department has entered an agreement with EPA to submit only a summary form and relevant portions of the permit application. (3-20-20)T
- d.** Notice of any refusal by the Department to accept all recommendations for the proposal that any affected State submitted during the public comment period. The notice shall include the Department's reasons for not accepting any such recommendation. The Department is not required to accept recommendations that are not based on applicable requirements. (3-20-20)T

**02. Opportunity for EPA Objection.** (3-20-20)T

**a.** EPA may submit to the Department a written objection to the proposal within forty-five (45) days of receipt of the transmittal identified in Subsection 366.01. (3-20-20)T

**b.** The written objection shall state the EPA's reasons for the objection and provide the terms and conditions that the Tier I operating permit must include to respond to the objection or state that the permit must be denied. (3-20-20)T

**c.** EPA shall provide a copy of the written objection to the applicant. (3-20-20)T

**03. Response to EPA Objections.** Within ninety (90) days of receiving a written objection from EPA, the Department shall prepare a revised proposal and submit it to EPA in accordance with Subsection 366.01. If EPA determines that the revised proposal is objectionable, the Department will review the permit action taken by EPA and take a comparable final permit action in accordance with Section 367. (3-20-20)T

**04. Public Petitions to EPA.** (3-20-20)T

**a.** If the EPA does not object in writing under Subsection 366.02, any person may petition the EPA within sixty (60) days after the expiration of the EPA's forty-five (45) day review period to make such objection. (3-20-20)T

**b.** Any such petition shall be based only on objections to the draft permit or draft denial that were raised with specificity during the public comment period provided for in Section 364 unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. (3-20-20)T

**c.** If the EPA objects to the proposal in accordance with Subsection 366.02 as a result of a petition filed under Subsections 366.04.a. and 366.04.b., the Department shall: (3-20-20)T

**i.** Not issue a permit action until EPA's objection has been resolved, except that a petition for review does not stay the effectiveness of a Tier I operating permit or its requirements pending EPA's review of the petition and Department review of the objection if the Tier I operating permit was issued by the Department after the end of the forty-five (45) day review period and prior to an EPA objection initiated by a petition. (3-20-20)T

**ii.** Process the objection in accordance with Subsection 366.03. (3-20-20)T

**367. ACTION ON APPLICATION.**

**01. Issuance Conditions.** Except as otherwise provided by these rules, a Tier I operating permit, or any portion thereof, may be issued only if all of the following conditions have been met: (3-20-20)T

**a.** The owner or operator has submitted a complete application in accordance with Section 361. (3-20-20)T

**b.** The public has been provided notice and opportunities for comment and a hearing in accordance with Section 364. (3-20-20)T

**c.** Affected States have been provided notice in accordance with Section 364 and Subsection 365.03. (3-20-20)T

**d.** The terms and conditions of the Tier I operating permit comply with Sections 321 through 336 including providing for compliance with all applicable requirements. (3-20-20)T

**e.** The EPA has been provided with the proposal and an opportunity to object and the Department has responded as required by Section 366. (3-20-20)T

**02. Deadlines for Final Actions During Initial Period.** Except as otherwise provided in these rules, during the initial period beginning May 1, 1994 and ending three (3) years after EPA approval of the Tier I operating program, the Department will prioritize all of the applications predicted to be submitted during the initial period considering the groups established in accordance with Subsection 313.02, if any. The prioritization will result in the Department taking final action on one-third (1/3) of all such permit applications during each of the one (1) year periods following EPA approval of the program. (3-20-20)T

**03. Deadlines for Final Actions After Initial Period.** Except as otherwise provided in these rules, during the period beginning three (3) years after EPA approval of the Tier I operating program, the Department shall take final action on complete applications within eighteen (18) months. (3-20-20)T

**04. Deadline for Tier I Operating Permits with Early Reductions.** The Department shall take final action on any complete Tier I operating permit application containing an early reduction demonstration under 42 U.S.C. Section 7412 (i)(5) within nine (9) months of receipt of the complete application. (3-20-20)T

**05. Deadline for Tier I Operating Permits for Phase II Sources.** The permitting of phase II sources shall occur in accordance with the deadlines in 42 U.S.C. Section 7651 through 7651o. (3-20-20)T

**06. Copy to EPA.** The Department shall send a copy of the final Tier I operating permit to EPA. (3-20-20)T

**07. Original to Permittee.** The Department shall send the original Tier I operating permit to the permittee. (3-20-20)T

**368. EXPIRATION OF PRECEDING PERMITS.**

If a timely and complete Tier I permit application is received by the Department and is not acted upon in a timely manner as prescribed by these rules, the permit to construct, Tier I operating permit or Tier II operating permit, if any, that has been previously issued to the owner or operator of the Tier I source by the Department or EPA shall continue in full force until the Department has completed action of the permit application. No Tier I operating permit will be considered to have expired due solely to the Department's inaction on a timely Tier I operating permit application. (3-20-20)T

**369. TIER I OPERATING PERMIT RENEWAL.**

**01. Renewal Procedures.** Tier I operating permits being renewed are subject to the same procedural requirements, including those for public participation, including affected State review, and EPA review, that apply to initial Tier I operating permit issuance. (3-20-20)T

**02. Expiration and Renewal Application Shield.** Tier I operating permit expiration terminates the source's right to operate unless a timely and complete renewal application has been submitted. (3-20-20)T

**370. -- 379. (RESERVED)**

**380. CHANGES TO TIER I OPERATING PERMITS.**

**01. Applicability.** Sections 380 through 399 establish procedures and requirements for permit revisions and changes requiring notice. These provisions do not alter the requirements for permits to construct set forth at Sections 200 through 228. (3-20-20)T

**02. Changes Requiring Permit Revisions.** Sections 381 through 383 establish procedures and requirements for Tier I operating permit revisions. A permit revision is required for changes that are not addressed or prohibited by the Tier I operating permit if such changes are subject to any requirements under Title IV of the Clean Air Act or are modifications under any provision of Title I of the Clean Air Act. (3-20-20)T

**03. Changes Requiring Notice.** Sections 384 and 385 establish procedures and requirements for providing notice by the permittee to the Department and EPA of certain emission trades and changes that contravene

a permit term (Section 384), or certain changes that are not addressed or prohibited by the permit (Section 385). (3-20-20)T

**04. Reopening.** Section 386 establishes procedures for reopening the permit for cause by the Department, EPA, or the permittee. (3-20-20)T

**05. Acid Rain.** Changes regulated under Title IV of the Clean Air Act, 42 U.S.C. Sections 7651 through 7651o, shall be governed by regulations promulgated under Title IV of the Act. (3-20-20)T

**381. ADMINISTRATIVE PERMIT AMENDMENTS.**

**01. Criteria.** An administrative permit amendment is a permit revision that: (3-20-20)T

**a.** Corrects typographical errors; (3-20-20)T

**b.** Identifies a change in the name, address, or phone number of any person identified in the Tier I operating permit, or provides a similar minor administrative change at the Tier I source; (3-20-20)T

**c.** Requires more frequent monitoring or reporting by the permittee; (3-20-20)T

**d.** Allows for a change in ownership or operational control of a Tier I source where the Department determines that no other change in the Tier I operating permit is necessary, provided that a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the current and new permittee has been submitted to the Department; (3-20-20)T

**e.** Incorporates into the Tier I operating permit the requirements from a permit to construct that was issued by the Department in accordance with Subsection 209.05.c.; or (3-20-20)T

**f.** Is any other type of change that EPA and the Department have determined as part of the Part 70 program to be similar to those in Subsections 381.01.a. through 381.01.d. (3-20-20)T

**02. Administrative Permit Amendment Application Procedures.** (3-20-20)T

**a.** If initiated by the permittee, the permittee shall submit a request to the Department. The request shall: (3-20-20)T

**i.** State at the beginning of the request that it is a "REQUEST FOR ADMINISTRATIVE PERMIT AMENDMENT." (3-20-20)T

**ii.** Describe the proposed administrative permit amendment including any permit to construct to be incorporated; (3-20-20)T

**iii.** State the date on which the proposed administrative amendment will occur at the facility; (3-20-20)T

**iv.** Identify any Tier I operating permit term or condition that is no longer applicable as a result of the change; and (3-20-20)T

**v.** Identify any applicable requirement that would apply to the Tier I source as a result of the change. (3-20-20)T

**b.** If initiated by the Department, the Department shall notify the permittee that the Department is initiating an administrative permit amendment and provide a brief summary of the proposed administrative permit amendment including all of the information required by Subsection 381.02.a.i. through 381.02.a.v. (3-20-20)T

**c.** The Department shall, within sixty (60) days of the receipt of a request for an administrative permit amendment, take final action on the request and may incorporate such changes without providing notice to the public

or affected States provided that the Department designates any such administrative permit amendment as having been made pursuant to Section 381. The Department shall submit a copy of the revised permit, or an addendum, to the EPA and send the original to the permittee. (3-20-20)T

**03. Implementation Procedures.** (3-20-20)T

**a.** The permittee may implement the changes addressed in the request for an administrative permit amendment under Subsections 381.01.a. through 381.01.f. immediately upon submittal of the request. (3-20-20)T

**b.** If the permittee obtains a permit to construct under Subsection 209.05.c., then so long as the change does not violate any terms or conditions of the existing Tier I operating permit, the permittee may operate the source described in the permit to construct immediately upon submittal of the request for an administrative permit amendment. (3-20-20)T

**04. Permit Shield.** Upon final action by the Department, the permit shield described in Section 325 shall extend only to administrative permit amendments identified in Subsection 381.01.e. (3-20-20)T

**382. SIGNIFICANT PERMIT MODIFICATION.**

**01. Criteria.** Significant modification procedures shall be used for applications requesting permit revisions that do not qualify as minor permit modifications or as administrative amendments. Nothing herein shall be construed to preclude the permittee from making changes consistent with this chapter that would render existing permit compliance terms and conditions irrelevant. A significant permit modification is a permit revision for changes that: (3-20-20)T

**a.** Violate an existing Tier I permit term or condition derived from an applicable requirement; (3-20-20)T

**b.** Involve significant changes to existing monitoring, reporting or recordkeeping requirements in the permit. Every significant change in existing monitoring terms or conditions (except more frequent monitoring or reporting under Subsection 381.01.c.) and every relaxation of reporting or recordkeeping terms or conditions shall be considered significant; (3-20-20)T

**c.** Require or change a case-by-case determination of an emission limitation or other standard; a source-specific determination for temporary sources of ambient impacts; or a visibility or increment analysis; (3-20-20)T

**d.** Seek to establish or change a permit term or condition for which there is no corresponding underlying applicable requirement and that the source has assumed to avoid an applicable requirement to which the source would otherwise be subject. Such terms and conditions include, but are not limited to, an enforceable emissions cap assumed to avoid classification as a modification under any provision of Title I of the Clean Air Act or an alternative emissions limit for an early reduction of hazardous air pollutants that was approved pursuant to regulations promulgated under 42 U.S.C. Section 7412(i)(5) of the Clean Air Act; (3-20-20)T

**e.** Constitute a modification under any provision of Title I of the Clean Air Act; or (3-20-20)T

**f.** Could be processed as an administrative amendment or as a minor modification, except the permittee has requested the change be processed as a significant modification, including incorporating the requirements of a permit to construct that was issued by the Department in accordance with Subsection 209.05.a. (3-20-20)T

**02. Significant Permit Modification Application Procedures.** A permittee may initiate a significant permit modification by submitting a complete significant permit modification application to the Department. The application shall: (3-20-20)T

**a.** Request the use of significant permit modification procedures and state at the beginning of the request that it is a "REQUEST FOR SIGNIFICANT PERMIT MODIFICATION"; (3-20-20)T

- b. Meet the standard application requirements of Sections 314 and 315; (3-20-20)T
- c. Provide a summary sheet; (3-20-20)T
  - i. Describing the proposed significant permit modification; (3-20-20)T
  - ii. Describing and quantifying any change in emissions resulting from the significant permit modification including, but not limited to, an identification of any new regulated air pollutant(s) that will be emitted; (3-20-20)T
  - iii. Identifying any Tier I operating permit term or condition that will no longer be applicable as a result of the significant permit modification; and (3-20-20)T
  - iv. Identifying new applicable requirement resulting from the change. (3-20-20)T
- d. Significant permit modifications shall be issued in accordance with all procedural requirements as they apply to Tier I operating permit issuance and renewal, including those for applications (Sections 314 and 315), public participation (Section 364), review by affected States (Sections 364 and 365), and review by EPA (Section 366). (3-20-20)T
- e. The Department will process the majority of significant permit modifications within nine (9) months of receiving a complete application. The Department shall determine which significant permit modification applications will be processed within nine (9) months. (3-20-20)T

**03. Implementation Procedures.** The permittee shall comply with Sections 200 through 223 as applicable, including Subsection 209.05 governing permit to construct procedures for Tier I sources. (3-20-20)T

**04. Permit Shield.** Upon final action by the Department, the permit shield described in Section 325 shall extend to significant permit modifications. (3-20-20)T

**383. MINOR PERMIT MODIFICATION.**

**01. Criteria.** (3-20-20)T

a. Minor permit modification procedures may be used for permit modifications involving economic incentives, marketable permits, emissions trading, and other similar approaches explicitly provided for in the SIP or applicable requirements promulgated by EPA. A permittee may not use minor modification procedures for changes described in Subsections 382.01.a. through 382.01.e. (3-20-20)T

b. Any other permit modification that is not required to be processed as a significant permit modification under Section 382. (3-20-20)T

c. Groups of a permittee's applications eligible for processing as minor permit modifications may be processed under minor permit modification procedures if collectively, the changes proposed in the minor modification applications do not exceed the lesser of: (3-20-20)T

- i. Ten percent (10%) of the emissions allowed by the existing Tier I operating permit for the emissions unit for which the change is requested; (3-20-20)T
- ii. Twenty percent (20%) of the major facility criteria in Section 008; or (3-20-20)T
- iii. Five (5) tons per year. (3-20-20)T

**02. Minor Permit Modification Application Procedures.** A permittee may initiate a minor permit modification by submitting a complete standard application described in Section 314 to the Department. The application shall: (3-20-20)T

- a.** Request the use of minor permit modification procedures and state at the beginning of the request that it is a “REQUEST FOR MINOR PERMIT MODIFICATION,” designate either “INDIVIDUAL” or “GROUP” processing, and provide a summary sheet; (3-20-20)T
- i.** Describing the proposed minor permit modification; (3-20-20)T
- ii.** Stating the date on which the proposed minor permit modification will occur at the facility; (3-20-20)T
- iii.** Describing and quantifying any change in emissions resulting from the minor permit modification including, but not limited to, an identification of any new regulated air pollutant(s) that will be emitted; (3-20-20)T
- iv.** Identifying any Tier I operating permit term or condition that will no longer be applicable as a result of the minor permit modification; (3-20-20)T
- v.** Identifying any new applicable requirement that is applicable to the Tier I source as a result of the minor permit modification; (3-20-20)T
- vi.** Certifying by a responsible official under Section 123 that the proposed permit modification meets the criteria for a minor permit modification and, if applicable, the use of group processing procedures; and (3-20-20)T
- vii.** Listing the permittee’s other pending applications awaiting group processing and a determination of whether the requested modification, aggregated with the other applications, equals or exceeds the thresholds under Subsection 383.01.c. above. (3-20-20)T
- b.** Include completed forms for the Department to use to notify the EPA and affected States as required under Sections 364 and 366. (3-20-20)T
- c.** Include the applicant’s suggested draft Tier I permit with the minor permit modification. (3-20-20)T
- 03. EPA and Affected State Notification Procedures.** (3-20-20)T
- a.** Within five (5) working days of receipt of a complete minor permit modification application, the Department shall notify EPA and the affected States of the requested permit modification and forward the forms completed by the applicant and other required information, if any, to the EPA and affected States. Affected States and EPA review shall occur simultaneously. (3-20-20)T
- b.** On a quarterly basis or within five (5) working days of receiving an application demonstrating that the aggregate of a permittee’s pending applications equals or exceeds the threshold level established in Subsection 383.01.c. above, whichever is earlier, the Department shall notify EPA and the affected States of the requested permit modification and forward the forms completed by the applicant and other required information, if any, to the EPA and affected States. Affected States and EPA review shall occur simultaneously. (3-20-20)T
- c.** The Department shall promptly notify EPA and any affected States in writing including its reasons for not accepting any such recommendation if the Department refuses to accept all the timely recommendations submitted by affected States. (3-20-20)T
- d.** Timetable for Issuance. The Department may not issue a final permit modification until after EPA’s forty-five (45) day review period or until EPA has notified the Department that EPA will not object to issuance of the permit modification, whichever is first; although the Department can approve the permit modification prior to that time. (3-20-20)T
- e.** Within ninety (90) days of the Department’s receipt of a complete minor permit modification application or within fifteen (15) days after the end EPA’s forty-five (45) day review period, whichever is later, the

Department shall take one (1) of the following actions: (3-20-20)T

- i. Issue the minor permit modification as proposed; (3-20-20)T
- ii. Deny the minor permit modification application; (3-20-20)T
- iii. Determine that the requested minor permit modification does not meet the minor permit modification criteria and should be reviewed under the significant modification procedures; or (3-20-20)T
- iv. Revise the proposed minor permit modification, transmit the revised proposal to the EPA in accordance with Section 366, and notify the permittee. (3-20-20)T

**f.** Within one hundred and eighty (180) days of the Department's receipt of a complete application for modifications eligible for group processing or within fifteen (15) days after the end of EPA's forty-five (45) day review period, whichever is later, the Department shall take one (1) of the actions specified in Subsections 383.03.e.i., 383.03.e.ii., 383.03.e.iii., or 383.03.e.iv. (3-20-20)T

**04. Implementation Procedures.** (3-20-20)T

**a.** The permittee may make the change proposed in its minor permit modification immediately upon submittal of a complete application to the Department before final action by the Department. (3-20-20)T

**b.** After the source makes the allowed change and until the Department takes any of the actions specified in Subsections 383.03.e.i., 383.03.e.ii., or 383.03.e.iii., the permittee must comply with both the applicable requirements governing the change and the proposed terms and conditions. (3-20-20)T

**c.** During this time period, the permittee need not comply with the existing permit terms and conditions it seeks to modify; provided that, if the source fails to comply with the applicable requirements governing the change and the proposed revisions, the existing permit terms and conditions it seeks to modify may be enforced against it. (3-20-20)T

**05. Permit Shield.** The permit shield described in Section 325 shall not apply to any minor permit modification. (3-20-20)T

**384. SECTION 502(B)(10) CHANGES AND CERTAIN EMISSION TRADES.**

**01. Criteria.** This section authorizes emission changes within a permitted facility without requiring a permit revision, if the changes are not modifications under any provision of the Title I of the Clean Air Act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or total emissions). (3-20-20)T

**a.** Changes authorized are changes that: (3-20-20)T

- i. Are Section 502(b)(10) changes; (3-20-20)T
- ii. Are changes involving trades of increases and decreases of emissions within the permitted facility where the State Implementation Plan provides for such emissions trades without requiring a permit revision. SIP trades are allowed in compliance with this Section even if the Tier I operating permit does not already provide for such emission trading; or (3-20-20)T

iii. Are changes made under the terms and conditions of the Tier I permit that authorize the trading of emissions increases and decreases within the permitted facility for the purpose of complying with a federally-enforceable emissions cap that is established by the Department in the Tier I operating permit independent of otherwise applicable requirements. (3-20-20)T

**b.** Changes constituting a modification under Title I of the Clean Air Act or subject to a requirement under Title IV of the Clean Air Act are not authorized by this Section. (3-20-20)T

**02. Notice Procedures.** The permittee may make a change under this Section if the permittee provides written notification to the Department and EPA so that the notification is received at least seven (7) days in advance of the proposed change; or, in the event of an emergency, the permittee provides the notification so that it is received at least twenty-four (24) hours in advance of the proposed change. The permittee, the Department, and EPA shall attach the notification to their copy of the Tier I operating permit. (3-20-20)T

- a.** For each such change, the written notification shall: (3-20-20)T
    - i.** State at the beginning of the notification “NOTIFICATION OF SECTION 502(b)(10) CHANGE” or “NOTIFICATION OF EMISSION TRADE”; (3-20-20)T
    - ii.** Describe the proposed change; (3-20-20)T
    - iii.** Provide the date on which the proposed change will occur; (3-20-20)T
    - iv.** Describe and quantify any expected change in emissions including identification of any new regulated air pollutant(s) that will be emitted; (3-20-20)T
    - v.** Identify any permit term or condition that is no longer applicable as a result of the change; (3-20-20)T
    - vi.** Specifically identify and describe the emergency, if any; and (3-20-20)T
    - vii.** Identify any new applicable requirement that would apply to the Tier I source as a result of the change. (3-20-20)T
  - b.** For changes described in Subsection 384.01.a.ii., the written notification shall also include: (3-20-20)T
    - i.** Identification of the provisions in the SIP that provide for the emissions trade; (3-20-20)T
    - ii.** All of the information required by the provision in the SIP authorizing the emissions trade; (3-20-20)T
    - iii.** Specific identification of the provisions in the SIP with which the permittee will comply; and (3-20-20)T
    - iv.** The pollutants subject to the trade. (3-20-20)T
  - c.** For changes described in Subsection 384.01.a.iii., the written notification shall also describe how the change will comply with the terms and conditions of the permit. (3-20-20)T
- 03. Permit Shield.** The permit shield described in Section 325 shall only extend to changes made in accordance with Subsection 384.01.a.iii. (3-20-20)T

**385. OFF-PERMIT CHANGES AND NOTICE.**

**01. Criteria.** This section authorizes changes that are neither addressed nor prohibited by the Tier I operating permit to be made without a permit revision if each such change meets all applicable requirements and does not violate any existing permit terms or conditions. Changes constituting a modification under Title I of the Clean Air Act, or subject to a requirement under Title IV of the Clean Air Act are not off-permit changes. (3-20-20)T

**02. Notice Procedure.** Sources must provide written notice to the Department and EPA of each such change except changes that qualify as insignificant under Section 317, within seven (7) days of making the off-permit change. (3-20-20)T

- a. The written notification provided to the Department and EPA shall: (3-20-20)T
- i. State at the beginning of the notification “NOTIFICATION OF OFF-PERMIT CHANGE”; (3-20-20)T
- ii. Describe the off-permit change; (3-20-20)T
- iii. State the date on which the off-permit change will occur or has occurred; (3-20-20)T
- iv. Describe and quantify any change in emissions resulting from the off-permit change including, but not limited to, an identification of any new regulated air pollutant(s) that will be emitted; and (3-20-20)T
- v. Identify any new applicable requirement that is applicable to the Tier I source as a result of the off-permit change. (3-20-20)T

**b.** The permittee shall keep a record at the facility describing all off-permit changes made at the Tier I source that result in emissions of a regulated air pollutant subject to an applicable requirement, but not otherwise regulated under the permit, and identifying the emissions resulting from those changes. (3-20-20)T

**03. Permit Shield Applicability.** The permit shield described in Section 325 shall not apply to any off-permit change. (3-20-20)T

**386. REOPENING FOR CAUSE.**

The Department shall reopen a Tier I permit if cause exists. (3-20-20)T

**01. Criteria.** Cause for reopening exists under any of the following circumstances: (3-20-20)T

**a.** Additional applicable requirements become applicable to a major Tier I source with a remaining permit term of three (3) or more years; provided that no such reopening is required if the original effective date of the applicable requirement is later than the date on which the Tier I operating permit is due to expire and the original Tier I operating permit or any of its terms and conditions has not been extended pursuant to Section 368; provided further that the permittee must comply with the additional applicable requirement no later than the effective date; (3-20-20)T

**b.** Whenever additional applicable requirements become applicable to an affected source, as defined for the purposes of the acid rain program; (3-20-20)T

**c.** The Department or EPA determines that the Tier I operating permit contains a material mistake or inaccurate statements were used or considered in establishing the emissions standards or other terms or conditions of the Tier I operating permit; or (3-20-20)T

**d.** The Department or EPA determines that the Tier I operating permit does not ensure compliance with the applicable requirements. (3-20-20)T

**02. Procedures for Reopenings.** (3-20-20)T

**a.** The Department shall follow the same procedures for reopening as they apply to initial permit issuance and shall affect only those parts of the permit for which cause to reopen exists. Reopenings shall be made as expeditiously as practicable in accordance with Sections 360 through 379. (3-20-20)T

**b.** The Department shall notify the permittee in writing of reopening and provide a brief summary of the reason for the reopening at least thirty (30) days prior to the reopening. (3-20-20)T

**c.** The EPA may initiate reopenings for circumstances listed in Subsections 386.01.a. through 386.01.d. by providing written notification to the Department and the permittee. (3-20-20)T

**i.** The Department shall within ninety (90) days after receipt of notification from EPA, forward to EPA a proposed determination of termination, revocation, revision, or revocation and reissuance, as appropriate. The

Administrator may extend the ninety (90) day period for an additional ninety (90) days if EPA finds that a new or revised permit application is necessary or that the Department must require the permittee to submit additional information. (3-20-20)T

ii. The EPA will review the proposed determination from the Department within ninety (90) days of receipt. (3-20-20)T

iii. The Department shall have ninety (90) days from receipt of an EPA objection to resolve any EPA objection and to terminate, modify, or revoke and reissue the permit. (3-20-20)T

iv. If the Department fails to submit a proposed determination or fails to resolve any EPA objection, the EPA may terminate, modify, revoke and reissue the permit after taking the following actions: (3-20-20)T

(1) Providing at least thirty (30) days' notice to the permittee in writing of the reason for such action, and (3-20-20)T

(2) Providing the permittee an opportunity for comment on the EPA's proposed action and an opportunity for a hearing. (3-20-20)T

**387. REGISTRATION AND REGISTRATION FEES.**

The purpose of Sections 387 through 397 is to set forth the requirements for the annual registration of Tier I sources, and the annual assessment and payment of fees to support the Tier I permitting program. (3-20-20)T

**388. APPLICABILITY.**

**01. Applicability.** Sections 387 through 397 shall apply to all major facilities, as defined in Section 008, including facilities that obtained air quality permits that limited potential emissions below major facility levels during the previous year. Facilities, sources and emissions exempt under Section 301 are not required to register or pay fees. (3-20-20)T

**02. Deferred Sources.** Certain sources may qualify for and request deferral from the Tier 1 operating permit program under Subsection 301.02.b.iv. and thereby not pay Tier I fees. On or before such time as those deferred sources are required to submit a Tier 1 operating permit application, the Department shall reconsider Sections 387 through 397 to determine whether an alternative basis upon which those sources shall register and be assessed and pay fees should be developed. (3-20-20)T

**389. REGISTRATION INFORMATION.**

Any person owning or operating a facility or source during the previous calendar year or any portion of the previous calendar year for which Sections 387 through 397 apply shall, by April 1 of each year, register with the Department and submit the following information (submittal forms are located at the DEQ website at <http://www.deq.idaho.gov>): (3-20-20)T

**01. Facility Information.** The name, address, telephone number and location of the facility; (3-20-20)T

**02. Owner/Operator Information.** The name, address and telephone numbers of the owners and operators; (3-20-20)T

**03. Facility Emission Units.** The number and type of emission units present at the facility or the Tier I permit number for the facility; and (3-20-20)T

**04. Pollutant Registration.** The actual emissions from the previous calendar year for oxides of sulfur (SO<sub>x</sub>), oxides of nitrogen (NO<sub>x</sub>), particulate matter (PM<sub>10</sub>), and volatile organic compounds (VOC) calculated using methods to include, but not limited to, continuous emissions monitoring (CEMS), certified source tests, material balances (mass-balance), state/industry emission factors, or AP-42 emission factors applied to throughput, actual operating hours, production rates, in-place control equipment, or the types of materials processed, stored, or combusted. (3-20-20)T

**05. Radionuclide Registration.** The amount of radionuclides from facilities regulated under 40 CFR Part 61, Subpart H, for which the registrant wishes to be registered to emit from each source in curies per year except that no amount in excess of or less than an existing permit, consent order, or judicial order will be allowed. (3-20-20)T

**390. REGISTRATION FEE.**

This registration fee structure shall be reviewed at least every two (2) years to assure the funds meet the presumptive minimum as defined by EPA. The annual registration fee as determined in Section 390 shall be paid as provided in Section 393. (3-20-20)T

**01. Tier I Annual Fee.** The Tier I annual fee schedule shall be as follows: (3-20-20)T

**a.** A fixed annual fee for Tier I major sources emitting regulated air pollutants listed in Subsection 389.04 as follows: (3-20-20)T

i. Seven thousand (7,000) tons per year and above shall pay seventy-one thousand five hundred dollars (\$71,500); (3-20-20)T

ii. Four thousand five hundred (4,500) tons per year and above shall pay forty-two thousand nine hundred dollars (\$42,900); (3-20-20)T

iii. Three thousand (3,000) tons per year and above shall pay twenty-eight thousand six hundred dollars (\$28,600); (3-20-20)T

iv. One thousand (1,000) tons per year and above shall pay twenty-two thousand seven hundred fifty dollars (\$22,750); (3-20-20)T

v. Five hundred (500) tons per year and above shall pay eleven thousand fifty dollars (\$11,050); (3-20-20)T

vi. Two hundred (200) tons per year and above shall pay seven thousand one hundred fifty dollars (\$7,150); and (3-20-20)T

vii. Less than two hundred (200) tons per year shall pay three thousand five hundred seventy-five dollars (\$3,575); plus (3-20-20)T

**b.** A per ton annual fee of thirty-nine dollars and forty-eight cents (\$39.48) per ton for all regulated air pollutant emissions listed in Subsection 389.04 as follows: (3-20-20)T

i. Greater than or equal to four thousand five hundred (4,500) tons per year not to exceed one hundred forty-three thousand dollars (\$143,000); (3-20-20)T

ii. Greater than or equal to three thousand (3,000) but less than four thousand five hundred (4,500) tons per year not to exceed seventy-one thousand five hundred dollars (\$71,500); (3-20-20)T

iii. Greater than or equal to one thousand (1,000) but less than three thousand (3,000) tons per year not to exceed thirty-five thousand one hundred dollars (\$35,100); (3-20-20)T

iv. Greater than or equal to five hundred (500) but less than one thousand (1,000) tons per year not to exceed twenty-five thousand twenty-five dollars (\$25,025); (3-20-20)T

v. Greater than or equal to two hundred (200) but less than five hundred (500) tons per year not to exceed ten thousand seven hundred twenty-five dollars (\$10,725); and (3-20-20)T

vi. Less than two hundred (200) tons per year not to exceed three thousand five hundred seventy-five dollars (\$3,575). (3-20-20)T

**02. Fee-for-Service.** The fee-for-service shall be as follows: Sources requesting Section 300 permit modifications or renewals, or receiving program maintenance services, including but not limited to site visits, response to public inquiries, modeling, responses to site questions and opacity readings by the Department shall be assessed a fee for actual time expended and expenses incurred by the Department in the previous calendar year in an amount not to exceed twenty thousand dollars (\$20,000) per facility per year as a fee-for-service. Service shall be conducted by qualified Department staff or contractors. (3-20-20)T

**03. Radionuclide Registration Fee.** (3-20-20)T

**a.** A registration fee of five dollars per curie per year (\$5/curie/year) shall be paid by facilities regulated under 40 CFR Part 61, Subpart H. (3-20-20)T

**b.** The registration fee may be paid as provided in Section 397. (3-20-20)T

**391. REQUEST FOR INFORMATION.**

Any additional information, plans, specifications, evidence or documents that the Department may require to make the determinations required under Sections 387 through 397 shall be furnished on request. (3-20-20)T

**392. REGISTRATION FEE ASSESSMENT.**

All facilities to which Sections 387 through 397 apply shall pay to the Department an annual registration fee as required by Section 390. The Department shall determine the fee based on the information supplied by the registrant and the Department's analysis of information available. In the event of a failure of a facility to submit pertinent registration information, the Department may calculate the fee and shall assess the facility the fee and the costs of calculating the fee. No later than May 15 of each year, or within fifteen (15) days following the adjournment of the regular session of the Idaho State Legislature, whichever is later, the Department shall send to each registrant, to which Sections 387 through 397 apply, by certified mail, an assessment of the annual fee payable by the registrant. (3-20-20)T

**393. PAYMENT OF TIER I REGISTRATION FEE.**

**01. Fee Payment Date.** The registration fee shall be paid to and received by the Department no later than July 1 of each year, or within forty-five (45) days following the receipt of the registration fee assessment in Section 392, whichever is later. Checks should be made payable to "Department of Environmental Quality." (3-20-20)T

**02. Fee Payments Mailing Address.** All fee payments should be sent to:

Air Quality Tier I Registration Fees  
Idaho Department of Environmental Quality  
1410 N. Hilton, Boise, Idaho 83706-1255

(3-20-20)T

**394. EFFECT OF DELINQUENCY ON APPLICATIONS.**

No permit to construct or operate, other than those issued at the discretion of the Director, shall be accepted for processing, processed, or issued by the Department for any facility or to any person having Tier I operating permit fees delinquent in full or in part. (3-20-20)T

**395. APPEALS.**

Persons may file an appeal within thirty-five (35) days of the date the person received an assessment issued under Section 392. The appeal shall be filed in accordance with IDAPA 58.01.23, "Rules of Administrative Procedure Before the Board of Environmental Quality." (3-20-20)T

**396. EXEMPTIONS.**

**01. Registration Fees.** The following facilities or sources are exempt from paying registration fees under Sections 387 through 397: (3-20-20)T

**a.** Facilities and sources specified by the Department, after public notice, as exempt from the payment of registration fees; and (3-20-20)T

**b.** Country grain elevators. (3-20-20)T

**02. Registering and Paying Fees.** The following facilities or sources are exempt from registering and paying registration fees under Sections 387 through 397: (3-20-20)T

**a.** Facilities and sources specified by the Department, after public notice, as exempt from registration and the payment of registration fees; (3-20-20)T

**b.** Confined animal feeding operations; and (3-20-20)T

**c.** Insignificant activities identified in Subsection 317.01. (3-20-20)T

**03. Paying Fees.** The following emissions are exempt from registering and paying registration fees under Sections 387 through 397: (3-20-20)T

**a.** Fugitive emissions from wood products. (3-20-20)T

**b.** Fugitive dust emissions, except facilities listed in Subsections 008.10.c.i. and 008.10.c.ii. Facilities listed in that section shall not be required to pay fees for fugitive dust emission in excess of one hundred (100) tons. (3-20-20)T

### **397. LUMP SUM PAYMENTS OF REGISTRATION FEES.**

**01. Agreement.** The Department may, in its discretion, enter an agreement with any person for the lump sum payment of all, or any addition to, the registration fees required by Section 390. (3-20-20)T

**02. Minimum Amount.** The minimum amount for any lump sum agreement shall be three hundred thousand dollars (\$300,000). (3-20-20)T

**03. Payment Waiver.** Upon the execution and full performance of the agreement by the person, the Department shall waive the payment requirements of Section 390. All other provisions of Sections 387 through 397 shall remain applicable to the person. (3-20-20)T

### **398. -- 399. (RESERVED)**

### **400. PROCEDURES AND REQUIREMENTS FOR TIER II OPERATING PERMITS.**

The purpose of Sections 400 through 410 is to establish uniform procedures for the issuance of "Tier II Operating Permits." (3-20-20)T

### **401. TIER II OPERATING PERMIT.**

**01. Optional Tier II Operating Permits.** The owner or operator of any stationary source or facility which is not subject to (or wishes to accept limitations on the facility's potential to emit so as to not be subject to) Sections 300 through 399 may apply to the Department for an operating permit to: (3-20-20)T

**a.** Authorize the use of alternative emission limits (bubbles) pursuant to Section 440; (3-20-20)T

**b.** Authorize the use of an emission offset pursuant to Sections 204.02.b. or 206; (3-20-20)T

**c.** Authorize the use of a potential to emit limitation, an emission reduction or netting transaction to exempt a facility or modification from certain requirements for a permit to construct; (3-20-20)T

**d.** Authorize the use of a potential to emit limitation to exempt the facility from Tier I permitting requirements. (3-20-20)T

- e. Bank an emission reduction credit pursuant to Section 461; (3-20-20)T
- 02. Required Tier II Operating Permits.** (3-20-20)T
- a. A Tier II operating permit is required for any stationary source or facility which: (3-20-20)T
- i. Is not subject to Sections 300 through 399 with a permit to construct which establishes any emission standard different from those in these rules. (3-20-20)T
- ii. Has annual actual mercury emissions in excess of sixty-two (62) pounds. Fugitive emissions shall not be included in a determination of the actual mercury emissions. The owner or operator of the stationary source or facility shall submit a Tier II permit application for review and approval by the Department, no later than twelve (12) months after becoming subject to Subsection 401.02.a.ii., that includes an MBACT analysis for all sources that emit mercury. A determination of applicability under Subsection 401.02 shall be based upon best available information. An MBACT analysis for review and approval by the Department shall be included in a Tier II renewal application for any mercury emitting source not otherwise subject to MBACT. (3-20-20)T
- b. Stationary sources within a source category subject to 40 CFR Part 63 are exempt from the requirements of Subsection 401.02.a.ii. (3-20-20)T
- 03. Tier II Operating Permits Required by the Department.** The Director may require or revise a Tier II operating permit for any stationary source or facility whenever the Department determines that: (3-20-20)T
- a. Emission rate reductions are necessary to attain or maintain any ambient air quality standard or applicable prevention of significant deterioration (PSD) increment; or (3-20-20)T
- b. Specific emission standards, or requirements on operation or maintenance are necessary to ensure compliance with any applicable emission standard or rule. (3-20-20)T
- 04. Multiple Tier II Operating Permits.** Subject to approval by EPA, the Director may issue one (1) or more Tier II operating permits to a facility which allow any specific stationary source or emissions unit within that facility a future compliance date of up to three (3) years beyond the compliance date of any provision of these rules, provided the Director has reasonable cause to believe such a future compliance date is warranted. (3-20-20)T
- 05. Tier II Operating Permits Establishing a Facility Emissions Cap.** The owner or operator of any stationary source or facility may request a Tier II operating permit establishing a Facility Emissions Cap (FEC) pursuant to Sections 175 through 181. (3-20-20)T
- 402. APPLICATION PROCEDURES.**  
Application for a Tier II operating permit must be made using forms furnished by the Department, or by other means prescribed by the Department. The application shall be certified by the responsible official and shall be accompanied by all information necessary to perform any analysis or make any determination required under Sections 400 through 410. (3-20-20)T
- 01. Required Information.** Site information, plans, description, specifications, and drawings showing the design of the stationary source, facility, or modification, the nature and amount of emissions (including secondary emissions), and the manner in which it will be operated and controlled. (3-20-20)T
- 02. Additional Specific Information.** (3-20-20)T
- a. For emission reduction credits, a description of the emission reduction credits proposed for use, including descriptions of the stationary sources or facilities providing the reductions, a description of the system of continuous emission control which provides the emission reduction credits, emission estimates, and other information necessary to determine that the emission reductions satisfy the requirements for emission reduction credits (Section 460); and (3-20-20)T
- b. For alternative emission limits (bubbles) or emission offsets, information on the air quality impacts

of the traded emissions as necessary to determine the change in ambient air quality that would occur. (3-20-20)T

**c.** For restrictions on potential to emit, a description of the proposed potential to emit limitations including the proposed monitoring and recordkeeping requirements that will be used to verify compliance with the limitations. (3-20-20)T

**03. Estimates of Ambient Concentrations.** All estimates of ambient concentrations shall be based on the applicable air quality models, data bases, and other requirements specified in 40 CFR 51 Appendix W (Guideline on Air Quality Models). (3-20-20)T

**a.** Where an air quality model specified in the “Guideline on Air Quality Models” is inappropriate, the model may be modified or another model substituted, subject to written approval of the Administrator of the U.S. Environmental Protection Agency and public comment pursuant to Subsection 404.01.c. (3-20-20)T

**b.** Methods like those outlined in the U.S. Environmental Protection Agency’s “Interim Procedures for Evaluating Air Quality Models (revised)” (1984) should be used to determine the comparability of air quality models. (3-20-20)T

**04. Additional Information.** Any additional information, plans, specifications, evidence or documents that the Department may require to make the determinations required under Sections 400 through 410 shall be furnished upon request. (3-20-20)T

**403. PERMIT REQUIREMENTS FOR TIER II SOURCES.**

No Tier II operating permit shall be granted unless the applicant shows to the satisfaction of the Department that: (3-20-20)T

**01. Emission Standards.** The stationary source would comply with all applicable local, state or federal emission standards. (3-20-20)T

**02. NAAQS.** The stationary source would not cause or significantly contribute to a violation of any ambient air quality standard. (3-20-20)T

**404. PROCEDURE FOR ISSUING PERMITS.**

**01. General Procedures.** General procedures for Tier II operating permits. (3-20-20)T

**a.** Within thirty (30) days after receipt of the application for a Tier II operating permit, the Department shall determine whether the application is complete or whether more information must be submitted and shall notify the applicant of its findings in writing. (3-20-20)T

**b.** Within sixty (60) days after the application is determined to be complete the Department shall: (3-20-20)T

**i.** Notify the applicant in writing of the approval, conditional approval, or denial of the application if an opportunity for public comment is not required pursuant to Subsection 404.01.c. The Department shall set forth reasons for any denial; or (3-20-20)T

**ii.** Issue a proposed approval, proposed conditional approval, or proposed denial. (3-20-20)T

**c.** An opportunity for public comment shall be provided on an application for any Tier II operating permit pursuant to Subsection 401.01, any application which uses fluid modeling or a field study to establish a good engineering practice stack height pursuant to Sections 510 through 516 and any other application which the Director determines an opportunity for public comment should be provided. (3-20-20)T

**i.** The Department's proposed action, together with the information submitted by the applicant and the Department's analysis of the information, shall be made available to the public in at least one (1) location in the region in which the stationary source or facility is to be located. (3-20-20)T

ii. The availability of such materials shall be made known by notice published in a newspaper of general circulation in the county(ies) in which the stationary source or facility is to be located. (3-20-20)T

iii. A copy of such notice shall be sent to the applicant and to appropriate federal, state and local agencies. (3-20-20)T

iv. There shall be a thirty (30) day period after initial publication for comment on the Department's proposed action, such comment to be made in writing to the Department. (3-20-20)T

v. After consideration of comments and any additional information submitted during the comment period, and within forty-five (45) days after initial publication of the notice, unless the Director deems that additional time is required to evaluate comments and information received, the Department shall notify the applicant in writing of approval, conditional approval, or denial of the permit. The Department shall set forth the reasons for any denial. (3-20-20)T

vi. All comments and additional information received during the comment period, together with the Department's final determination, shall be made available to the public at the same location as the preliminary determination. (3-20-20)T

d. A copy of each proposed and final permit will be sent to the U.S. Environmental Protection Agency. (3-20-20)T

**02. Specific Procedures.** Procedures for Tier II operating permits required by the Department under Subsection 401.03. (3-20-20)T

a. The Director shall send a notification to the proposed permittee by registered mail of his intention to issue a Tier II operating permit for the facility concerned. The notification shall contain a copy of the proposed permit in draft form stating the proposed emission standards and any required action, with corresponding dates, which must be taken by the proposed permittee in order to achieve or maintain compliance with the proposed Tier II operating permit. (3-20-20)T

b. The Department's proposed Tier II operating permit shall be made available to the public in at least one (1) location in the region in which the facility is located. The availability of such materials shall be made known by notice published in a newspaper of general circulation in the county(ies) in which the facility is located. A copy of such notice shall be sent to the applicant. There shall be a thirty (30) day period after publication for comment on the Department's proposed Tier II operating permit. Such comment shall be made in writing to the Department. (3-20-20)T

c. A public hearing will be scheduled to consider the standards and limitations contained in the proposed Tier II operating permit if the proposed permittee files a request therefor with the Department within ten (10) days of receipt of the notification, or if the Director determines that there is good cause to hold a hearing. (3-20-20)T

d. After consideration of comments and any additional information submitted during the comment period or at any public hearing, the Director shall render a final decision upon the proposed Tier II operating permit within thirty (30) days of the close of the comment period or hearing. At this time the Director may adopt the entire Tier II operating permit as originally proposed or any part or modification thereof. (3-20-20)T

e. All comments and additional information received during the comment period, together with the Department's final permit, shall be made available to the public at the same location as the proposed Tier II operating permit. (3-20-20)T

**03. Availability of Fluid Models and Field Studies.** The Department will notify the public of the availability of any fluid model or field study used to establish a good engineering practice stack height and provide an opportunity for a public hearing before issuing a permit or setting an emission standard based thereon. (3-20-20)T

**04. Permit Revision or Renewal.** The Director may approve a revision of any Tier II operating permit or renewal of any Tier II operating permit provided the stationary source or facility continues to meet all applicable requirements of Sections 400 through 410. Revised permits will be issued pursuant to procedures for issuing permits (Section 404), except that the requirements of Subsection 404.01.c. shall only apply if the permit revision results in an increase in allowable emissions or if deemed appropriate by the Director. Renewed Tier II operating permits will be issued pursuant to procedures for issuing permits (Section 404), except that the requirements of Subsections 404.01.c., and 404.02.b. through 404.02.e. shall only apply if the permit revision results in an increase in allowable emissions or if deemed appropriate by the Director. The expiration of a permit will not affect the operation of a stationary source or a facility during the administrative procedure period associated with the permit renewal process. The permittee shall submit a complete application to the Department for a renewal of the terms and conditions establishing the Tier II operating permit at least six (6) months before, but no earlier than eighteen (18) months before, the expiration date of the existing permit. To ensure that the term of the permit does not expire before the terms and conditions are renewed, the permittee is encouraged to submit the application nine (9) months prior to expiration. (3-20-20)T

**05. Transfer of Tier II Permit.** (3-20-20)T

**a. Transfers by Revision.** A Tier II permit may be transferred to a new owner or operator in accordance with Subsection 404.04. (3-20-20)T

**b. Automatic Transfers.** Any Tier II permit, with or without transfer prohibition language, may be automatically transferred if: (3-20-20)T

**i.** The current permittee notifies the Department at least thirty (30) days in advance of the proposed transfer date; (3-20-20)T

**ii.** The notice provides written documentation signed by the current and proposed permittees containing a date for transfer of permit responsibility, designation of the proposed permittee's responsible official, and certification that the proposed permittee has reviewed and intends to operate in accordance with the permit terms and conditions; and (3-20-20)T

**iii.** The Department does not notify the current permittee and the proposed permittee within thirty (30) days of receipt of the notice of the Department's determination that the permit must be revised pursuant to Subsection 404.04. If the Department does not issue such notice, the transfer is effective on the date provided in the notice described in Subsection 404.05.b.ii. (3-20-20)T

**405. CONDITIONS FOR TIER II OPERATING PERMITS.**

**01. Reasonable Conditions.** The Department may impose any reasonable conditions upon an approval, including conditions requiring the stationary source or facility to be provided with: (3-20-20)T

**a.** Sampling ports of a size, number, and location as the Department may require; (3-20-20)T

**b.** Safe access to each port; (3-20-20)T

**c.** Instrumentation to monitor and record emissions data; (3-20-20)T

**d.** Instrumentation for ambient monitoring to determine the effect emissions from the stationary source or facility may have, or are having, on the air quality in any area affected by the stationary source or facility; and (3-20-20)T

**e.** Any other sampling and testing facilities as may be deemed reasonably necessary. (3-20-20)T

**02. Performance Tests.** Any performance tests required by the permit shall be performed in accordance with methods and under operating conditions approved by the Department. The owner or operator shall furnish to the Department a written report of the results of such performance test. (3-20-20)T

**a.** Such test shall be at the expense of the owner or operator. (3-20-20)T

b. The Department may monitor such test and may also conduct performance tests. (3-20-20)T

c. The owner or operator of a stationary source or facility shall provide the Department fifteen (15) days prior notice of the performance test to afford the Department the opportunity to have an observer present. (3-20-20)T

**03. Permit Term.** Tier II operating permits shall be issued for a period not to exceed five (5) years. This five (5) year operating permit restriction does not apply to the provisions contained in Section 461.02 (banked emission reduction credits). (3-20-20)T

**04. Single Tier II Operating Permit.** When a facility includes more than one (1) stationary source or emissions unit, a single Tier II operating permit may be issued including all stationary sources and emissions units located at that facility. Such Tier II operating permit shall separately identify each stationary source and emissions unit to which the Tier II operating permit applies. When a single stationary source or facility is subject to permit modification, suspension or revocation, such action by the Director shall only affect that individual stationary source or emissions unit without thereby affecting any other stationary source or emissions unit subject to that Tier II operating permit. (3-20-20)T

**406. OBLIGATION TO COMPLY.** Receiving a Tier II operating permit shall not relieve any owner or operator of the responsibility to comply with all applicable local, state and federal rules and regulations. (3-20-20)T

**407. TIER II OPERATING PERMIT PROCESSING FEE.**

**01. Tier II Operating Permit Processing Fee.** A Tier II operating permit processing fee, calculated by the Department pursuant to the categories provided in the following table, shall be paid to the Department by the person receiving a Tier II permit or permit renewal. The fee calculation shall not include fugitive emissions.

TIER II OPERATING PERMIT CATEGORY	FEE
General permit, no facility specific requirements (Defined as a source category specific permit for which the Department has developed standard emission limitations, operating requirements, monitoring and recordkeeping requirements, and that require minimal engineering analysis.)	\$500
Stationary sources or facilities with permitted emissions of less than one (1) ton per year	\$1,250
Stationary sources or facilities with permitted emissions of one (1) to less than ten (10) tons per year	\$2,500
Stationary sources or facilities with permitted emissions of ten (10) to less than one hundred (100) tons per year	\$5,000
Stationary sources or facilities with permitted emissions of one hundred (100) tons or more per year	\$10,000
Synthetic minor stationary sources with permitted emissions below a major threshold level	\$10,000

(3-20-20)T

**02. Tier II Operating Permit Processing Fee Not Required.** So long as the Department determines no other review or analysis is required, the Tier II operating permit processing fee is not required to be submitted when:

a. A permit to construct issued within the last five (5) years is rolled into a Tier II permit; (3-20-20)T

b. A change to correct typographical errors is requested; (3-20-20)T

c. A change in the name or ownership of the holder of a Tier II operating permit is requested; or (3-20-20)T

d. A synthetic minor permit is issued and the Department's processing costs can be charged against fees collected from the person receiving the permit under Title V of the federal Clean Air Act amendments of 1990. (3-20-20)T

**408. PAYMENT OF TIER II OPERATING PERMIT PROCESSING FEE.**

**01. Fee Submittal.** The Tier II operating permit processing fee shall be payable upon receipt of an assessment sent, along with the final permit or permit renewal, to the person receiving a permit or permit renewal by the Department. The Tier II operating permit fee should be sent to:

Air Quality Tier II Fees  
Fiscal Office  
Idaho Department of Environmental Quality  
1410 N. Hilton, Boise, ID 83706-1255 (3-20-20)T

**02. Delinquency.** Failure to submit a Tier II operating permit processing fee within forty-five (45) days of receipt of an assessment by the Department will result in a monthly accrual of interest in the amount of twelve percent (12%) per annum on the outstanding balance until the fee is paid in full. (3-20-20)T

**409. RECEIPT AND USAGE OF FEES.**

Tier II operating permit processing fee and delinquency interest receipts shall be deposited by the Department into a stationary source permit account. Monies from this account shall be used solely toward technical, legal and administrative support of the Department's Permit to Construct and Tier II permit programs and shall not be used for those activities supported by the fund created for implementing the operating permit program required under Title V of the federal Clean Air Act amendments of 1990. The Department will review the Tier II fee schedule at least every two (2) years. (3-20-20)T

**410. APPEALS.**

A person may be able to file an appeal within thirty-five (35) days of the date the person receives an assessment under Section 407, in accordance with IDAPA 58.01.23, "Rules of Administrative Procedure Before the Board of Environmental Quality." (3-20-20)T

**411. -- 439. (RESERVED)**

**440. REQUIREMENTS FOR ALTERNATIVE EMISSION LIMITS (BUBBLES).**

The owner or operator of any facility may apply to the Department for a Tier I or Tier II operating permit (or a revision thereto) to authorize an alternative emission limit for any stationary source or emissions unit within the facility. The Department may issue or revise a Tier II operating permit or issue a significant modification to a Tier I operating permit which authorizes an alternative emission limit provided that all of the following are met: (3-20-20)T

**01. Actual Emissions.** There is no increase in actual emissions of the applicable air pollutant at the facility. (3-20-20)T

**02. Emission Reductions.** All emission reductions satisfy the requirements for emission reduction credits (Section 460). (3-20-20)T

**03. Trade Requirements.** All trades involve the same air pollutant and demonstrate ambient equivalence as specified in Subsection 441.02. (3-20-20)T

**04. Applicable Requirement Prohibition.** No applicable Section of 40 CFR Part 60, 40 CFR Part 61, or 40 CFR Part 63, best available control technology requirement, lowest achievable emission rate requirement, or visual emission standard is exceeded. (3-20-20)T

**05. Actual HAP/TAP Emissions.** The actual emissions of any hazardous air pollutant or any toxic air

pollutant are not increased. (3-20-20)T

**06. Fugitive Dust Trades.** Where the trade involves fugitive dust, the owner or operator shall undertake an adequate post-approval monitoring program to evaluate the ambient results of the controls. If the monitoring data indicate that the air quality effects are not equivalent, then: (3-20-20)T

a. Further reductions must be proposed by the owner or operator; and/or (3-20-20)T

b. The applicable emission standards in the operating permit will be adjusted by the Department; (3-20-20)T

**07. Compliance Schedule Extension.** Any compliance schedule extension for a facility in a nonattainment area is consistent with reasonable further progress. (3-20-20)T

**08. EPA Approval.** Approval of the U.S. Environmental Protection Agency, and where necessary the appropriate court, has been obtained for any individual stationary source or facility which is the subject of a federal enforcement action or outstanding enforcement order. (3-20-20)T

**441. DEMONSTRATION OF AMBIENT EQUIVALENCE.**  
The demonstration of ambient equivalence shall: (3-20-20)T

**01. VOC Trades.** For trades involving volatile organic compounds, show that total emissions are not increased for the air basin in which the stationary source or facility is located. (3-20-20)T

**02. Other Trades.** For trades involving any other air pollutant, show through appropriate dispersion modeling that the trade will not cause a significant contribution at any modeled receptor. (3-20-20)T

**442. -- 459. (RESERVED)**

**460. REQUIREMENTS FOR EMISSION REDUCTION CREDIT.**  
In order to be credited in a permit to construct, Tier I operating permit or Tier II operating permit any emission reduction must satisfy the following: (3-20-20)T

**01. Allowable Emissions.** The proposed level of allowable emissions must be less than the actual emissions of the stationary source(s) or emission unit(s) providing the emission reduction credit. No emission reduction(s) can be credited for actual emissions which exceed the allowable emissions of the stationary source(s) or emission unit(s). (3-20-20)T

**02. Timing of Emission Reduction.** In an attainment or unclassifiable area any emission reduction which occurs prior to the minor source baseline date must have been banked with the Department prior to the minor source baseline date in order to be credited; in a nonattainment area the emission reduction must occur after the base year of any control strategy for the particular air pollutant. (3-20-20)T

**03. Emission Rate Calculation.** The emission rate before and after the reduction must be calculated using the same method and averaging time and the characteristics necessary to evaluate any future use of the emission reduction credit must be described. (3-20-20)T

**04. Permit Issuance.** A permit to construct, Tier I operating permit or Tier II operating permit shall be issued which establishes a new emission standard for the facility, or restricts the operating rate, hours of operation, or the type or amount of material combusted, stored or processed for the stationary source(s) or emission unit(s) providing the emission reductions. (3-20-20)T

**05. Imposed Reductions.** Emission reductions imposed by local, state or federal regulations or permits shall not be allowed for emission reduction credits. (3-20-20)T

**06. Mobile Sources.** The proposed level of allowable emissions must be less than the actual emissions of the mobile sources or stationary sources providing the emission reduction credit. Mobile source emission reduction

credits shall be made state or federally enforceable by SIP revision. The form of the SIP revision may be a state or local regulation, operating permit condition, consent or enforcement order, or any mechanism available to the state that is enforceable. (3-20-20)T

**461. REQUIREMENTS FOR BANKING EMISSION REDUCTION CREDITS (ERC'S).**

**01. Application to Bank an ERC.** The owner or operator of any facility may apply to the Department for a Tier I or Tier II operating permit (or a revision thereto) to bank an emission reduction credit. An application to bank an emission reduction credit must be received by the Department no later than one (1) year after the reduction occurs. The Department may issue or revise such a Tier I or Tier II operating permit and a "Certificate of Ownership" for an emission reduction credit, provided that all emission reductions satisfy the requirements for emission reduction credits (Section 460). (3-20-20)T

**02. Banking Period.** Emission reduction credits may be banked with the Department. The banked emission reduction credits may be used for offsets, netting in accordance with the definition of net emissions increase at Section 007, or alternative emission limits (bubbles), or sold to other facilities. The use of banked emission reduction credits must satisfy the applicable requirements of the program in which they are proposed for use, including approval of a permit to construct or a Tier I or Tier II operating permit. (3-20-20)T

**03. Certificate of Ownership.** Upon issuing or revising a Tier I or Tier II operating permit for an emission reduction credit, the Department will issue a "Certificate of Ownership" which will identify the owner of the credits, quantify the credited emission reduction and describe the characteristics of the emissions which were reduced and emissions unit(s) which previously emitted them. (3-20-20)T

**04. Adjustment by Department.** If at any time the Department, or the owner or operator of a facility which has produced an emission reduction credit, finds that the actual reduction in emissions differs from that in the certificate of ownership, the Department will adjust the amount of banked emission reduction credits to reflect the actual emission reduction and issue a revised certificate of ownership. (3-20-20)T

**05. Proportional Discounts.** If at any time the Department finds that additional emission reductions are necessary to attain and maintain any ambient air quality standard or applicable prevention of significant deterioration (PSD) increment, banked emission reduction credits at facilities in the affected area may be proportionally discounted by an amount which will not exceed the percentage of emission reduction required for that area. (3-20-20)T

**06. Transfer of Ownership.** Whenever the holder of a certificate of ownership for banked emission reduction credits, sells or otherwise transfers ownership of all or part of the banked credits, the holder shall submit the certificate of ownership to the Department. The Department will issue a revised certificate(s) of ownership which reflects the old and new holder(s) and amount(s) of banked emission reduction credits. (3-20-20)T

**07. Public Registry.** The Department will maintain a public registry of all banked emissions reduction credits, indicating the current holder of each certificate of ownership and the amount and type of credited emissions. (3-20-20)T

**462. -- 499. (RESERVED)**

**500. REGISTRATION PROCEDURES AND REQUIREMENTS FOR PORTABLE EQUIPMENT.**

**01. Registration Requirements.** All existing portable equipment shall be registered within ninety (90) days after the original effective date of this Section 500 and at least ten (10) days prior to relocating, using forms provided by the Department, except that no registration is required for mobile internal combustion engines, marine installations and locomotives. (3-20-20)T

**02. Compliance with Rules and Regulations.** Possessing a "Certificate of Registration" does not relieve any owner or operator of the responsibility to comply with all applicable local, state and federal rules and regulations. (3-20-20)T

501. -- 509. (RESERVED)

**510. STACK HEIGHTS AND DISPERSION TECHNIQUES.**

The purpose of Sections 510 through 516 is to establish criteria for good engineering practice for stack heights and dispersion techniques. (3-20-20)T

**511. APPLICABILITY.**

The provisions of Sections 510 through 516 shall apply to existing, new, and modified stationary sources and facilities. The provisions of Sections 510 through 516 do not apply to stack heights in existence, or dispersion techniques implemented, on or before December 31, 1970, except where regulated or toxic air pollutant(s) are being emitted from such stacks or using such dispersion techniques by sources which were constructed, or reconstructed, or for which major modifications were carried out, after December 31, 1970. (3-20-20)T

**512. DEFINITIONS.**

For the purpose of Sections 500 through 516: (3-20-20)T

**01. Dispersion Technique.** Any technique which attempts to affect the concentration of a regulated or toxic air pollutant in the ambient air by: (3-20-20)T

- a. Using that portion of a stack which exceeds good engineering practice stack height; (3-20-20)T
- b. Varying the rate of emission of a regulated or toxic air pollutant according to atmospheric conditions or ambient concentrations of that pollutant; or (3-20-20)T

c. Increasing final exhaust gas plume rise by manipulating source process parameters, exhaust gas parameters, stack parameters, or combining exhaust gases from several existing stacks into one (1) stack, or other selective handling of exhaust gas streams so as to increase the exhaust gas plume rise. This does not include the reheating of a gas stream, following use of a pollution control system, for the purpose of returning the gas to the temperature at which it was originally discharged from the facility generating the gas stream; smoke management in agricultural or silvicultural prescribed burning programs; episodic restrictions on residential woodburning and open burning; techniques which increase final exhaust gas plume rise where the resulting allowable emissions of sulfur dioxide from the facility do not exceed five thousand (5,000) tons per year; or the merging of exhaust gas streams where: (3-20-20)T

i. The source owner or operator demonstrates that the facility was originally designed and constructed with such merged gas streams; (3-20-20)T

ii. After July 8, 1985, such merging is part of a change in operation at the facility that includes the installation of pollution controls and is accompanied by a net reduction in the allowable emissions of a regulated or toxic air pollutant. This exclusion from the definition of "dispersion techniques" shall apply only to the emission limitation for the regulated or toxic air pollutant affected by such change in operation; or (3-20-20)T

iii. Before July 8, 1985, such merging was part of a change in operation at the facility that included the installation of emissions control equipment or was carried out for sound economic or engineering reasons. Where there was an increase in the emission limitation or, in the event that no emission limitation was in existence prior to the merging, the reviewing agency shall presume that merging was significantly motivated by an intent to gain emissions credit for greater dispersion. Absent a demonstration by the source owner or operator that merging was not significantly motivated by such intent, the reviewing agency shall deny credit for the effects of such merging in calculating the allowable emissions for the source. (3-20-20)T

**02. Excessive Concentration.** For the purpose of determining good engineering practice stack height in a fluid modeling evaluation or field study as provided for in Subsection 512.03.c. "Excessive Concentration" means: (3-20-20)T

- a. For sources seeking credit for stack height exceeding that established under Subsection 512.03.b., a maximum ground level concentration due to emissions from a stack due in whole or in part to downwash, wakes, or eddy effects produced by nearby structures or nearby terrain features which individually is at least forty percent

(40%) in excess of the maximum concentration experienced in the absence of such effects, and which contributes to a total concentration due to emissions from all sources that is greater than an ambient air quality standard. For sources subject to the prevention of significant deterioration program, an excessive concentration alternatively means a maximum ground-level concentration due to emissions from a stack due in whole or in part to downwash, wakes, or eddy effects produced by nearby structures or nearby terrain features which individually is at least forty percent (40%) in excess of the maximum concentration experienced in the absence of the maximum concentration deterioration increment. The allowable emission rate to be used in making demonstrations under Subsection 512.02.a., shall be prescribed by the new source performance standard that is applicable to the source category unless the owner or operator demonstrates that this emission rate is infeasible. Where such demonstrations are approved by the Department, an alternative emission rate shall be established in consultation with the source owner or operator.

(3-20-20)T

**b.** For sources seeking credit after October 1, 1983, for increases in existing stack heights up to the heights established under Subsection 512.03.b., either:

(3-20-20)T

**i.** A maximum ground-level concentration due in whole or in part to downwash, wakes or eddy effects as provided in Subsection 512.02.a., except that the emission rate specified by any applicable SIP or, in the absence of such a limit, the actual emission rate shall be used; or

(3-20-20)T

**ii.** The actual presence of a local nuisance caused by the existing stack as determined by the authority administering the Department.

(3-20-20)T

**c.** For sources seeking credit after January 12, 1979, for a stack height determined under Subsection 512.03.b., where the Department requires the use of a field study or fluid model to verify GEP stack height, for sources seeking stack height credit after November 9, 1984, based on the aerodynamic influence of cooling towers, and for sources seeking stack height credit after December 31, 1970, based on the aerodynamic influence of structures not adequately represented by the equations in Subsection 512.03.b., a maximum ground-level concentration due in whole or in part to downwash, wakes or eddy effects that is at least forty percent (40%) in excess of the maximum concentration experienced in the absence of such downwash, wakes, or eddy effects.

(3-20-20)T

**03. Good Engineering Practice (GEP) Stack Height.** The greater of:

(3-20-20)T

**a.** Sixty-five (65) meters, measured from the ground-level elevation at the base of the stack;

(3-20-20)T

**b.** For stacks in existence on January 12, 1979, and for which the owner or operator had obtained all applicable preconstruction permits or approvals required,

$$H = 2.5S$$

provided the owner or operator produces evidence that this equation was actually relied on in establishing an emission limitation. For all other stacks provided that the Department may require the use of a field study or fluid model to verify GEP stack height for the source,

$$H = S + 1.5L$$

where:

(3-20-20)T

**i.** H = good engineering practice stack height measured from the ground-level elevation at the base of the stack.

(3-20-20)T

**ii.** S = height of nearby structure(s) measured from the ground-level elevation at the base of the stack.

(3-20-20)T

**iii.** L = lesser dimension, height or projected width, of nearby structure(s).

(3-20-20)T

**c.** The height demonstrated by a fluid model or a field study approved by the Department which ensures that the emissions from a stack do not result in excessive concentrations of any regulated or toxic air pollutant as a result of atmospheric downwash, wakes, or eddy effects created by the source itself, structures, or terrain features.

(3-20-20)T

**04. Nearby Structures or Terrain Features.** “Nearby” as applied to a specific structure or terrain feature under the definition of “good engineering practice stack height”; and (3-20-20)T

**a.** For purposes of applying the formulae provided under Subsection 512.03.b., means that distance up to five (5) times the lesser of the height or the width dimension of a structure, but not greater than one-half (1/2) mile (0.8 km); and (3-20-20)T

**b.** For conducting demonstrations under Subsection 512.03.c., means not greater than one-half (0.5) mile (0.8 km), except that the portion of a terrain feature may be considered to be nearby which falls within a distance of up to ten (10) times the maximum height of the feature, not to exceed two (2) miles if such feature achieves a height one-half (0.5) mile (0.8 km) from the stack that is at least forty percent (40%) of the GEP stack height determined by the formulae provided in Subsection 512.03.b., or twenty-six (26) meters, whichever is greater, as measured from the ground-level elevation at the base of the stack. The height of the structure or terrain feature is measured from the ground-level elevation at the base of the stack. (3-20-20)T

**05. Stack in Existence.** The owner or operator had: (3-20-20)T

**a.** Begun, or caused to begin, a continuous program of physical on-site construction of the stack; or (3-20-20)T

**b.** Entered into binding agreements or contractual obligations which could not be cancelled or modified without substantial loss to the owner or operator, to undertake a program of construction of the stack to be completed in a reasonable time. (3-20-20)T

**513. REQUIREMENTS.**

The required degree of emission control of any regulated or toxic air pollutant shall not be affected by the amount of any stack height that exceeds good engineering practice (GEP) or by any other dispersion technique. (3-20-20)T

**514. OPPORTUNITY FOR PUBLIC HEARING.**

Whenever a new or revised emission limitation is to be based on a good engineering practice stack height that exceeds the height allowed by the formulae in Subsections 512.03.a. and 512.03.b., the Department will notify the public of the availability of the demonstration study submitted under Subsection 512.03.c., and will provide an opportunity for public hearing on the demonstration study. (3-20-20)T

**515. APPROVAL OF FIELD STUDIES AND FLUID MODELS.**

Any field study or fluid model used to demonstrate GEP stack height under Subsection 512.03.b. or 512.03.c., and any determination of “excessive concentration” under Subsection 512.02 must be approved by the EPA prior to an emission limit being established. The construction of any new stack, or any increase to the height of any existing stack to the height determined by the formulae in Subsection 512.03.b., without completing a fluid model and a field study must be approved by the EPA. (3-20-20)T

**516. NO RESTRICTION ON ACTUAL STACK HEIGHT.**

The provisions of Sections 510 through 516 do not restrict, in any manner, the actual stack height of any stationary source or facility. (3-20-20)T

**517. MOTOR VEHICLE INSPECTION AND MAINTENANCE PROGRAM.**

**01. Purpose.** The purpose of Sections 517 through 527 is to set forth the minimum standards for a motor vehicle inspection and maintenance program, established pursuant to Section 39-116B, Idaho Code, for registered motor vehicles as defined in Section 49-123, Idaho Code. This program is designed to follow the basic inspection and maintenance program defined in 40 CFR 51.352. (3-20-20)T

**02. Applicability.** Sections 517 through 527 apply only to the counties of Ada and Canyon and the cities of Boise, Eagle, Garden City, Meridian, Kuna, Star, Caldwell, Greenleaf, Melba, Middleton, Nampa, Notus, Parma, and Wilder. (3-20-20)T

- 03. Options.** (3-20-20)T
- a.** Section 39-116B, Idaho Code, provides the counties and cities listed in Subsection 517.02 with the following implementation options. The counties and cities may: (3-20-20)T
- i.** Enter into a joint exercise of powers agreement with the Director to implement a motor vehicle inspection and maintenance program; or (3-20-20)T
- ii.** Obtain Department approval to implement an alternative motor vehicle emissions control strategy that will result in emissions reductions equivalent to that of a motor vehicle inspection and maintenance program. (3-20-20)T
- b.** If neither of the options listed in Subsection 517.03.a. are selected, the Department shall implement the motor vehicle inspection and maintenance program. (3-20-20)T
- 04. Governing Authority.** For the purpose of Sections 517 through 527, governing authority means the governing entity responsible for the development and implementation of the motor vehicle inspection and maintenance program. The governing entity may be the counties and cities listed in Subsection 517.02 or the Department. The governing authority shall adopt Sections 517 through 527 of these rules. (3-20-20)T
- 05. Exemptions.** Sections 517 through 527 do not apply to the following: (3-20-20)T
- a.** Electric or hybrid motor vehicles; (3-20-20)T
- b.** Motor vehicles with a model year less than five (5) years old; (3-20-20)T
- c.** Motor vehicles with a model year older than 1981; (3-20-20)T
- d.** Classic automobiles as defined by Section 49-406A, Idaho Code; (3-20-20)T
- e.** Motor vehicles with a maximum vehicle gross weight of less than fifteen hundred (1500) pounds; (3-20-20)T
- f.** Motor vehicles registered as motor homes as defined by Section 49-114, Idaho Code; (3-20-20)T
- g.** Motorized farm equipment; and (3-20-20)T
- h.** Registered motor vehicles engaged solely in the business of agriculture. (3-20-20)T
- 518. REQUIREMENTS FOR LICENSING AUTHORIZED INSPECTION STATIONS OR RETEST STATIONS.**
- 01. General.** (3-20-20)T
- a.** No person or enterprise shall in any manner represent any place as an inspection station or retest station unless such station is operated under a valid license issued by the governing authority. (3-20-20)T
- b.** No license for any inspection station or retest station may be assigned, transferred or used by other than the original applicant for that specific station. (3-20-20)T
- 02. Applications for License.** Applications for license as an inspection station or retest station shall be made on the forms provided by the governing authority. No license shall be issued unless the governing authority finds that the facilities, tools and equipment of the applicant comply with the requirements set forth in Subsections 518.03 or 518.04. (3-20-20)T
- 03. Requirements for Licensed Inspection Stations.** In order to qualify for issuance and continuance of an inspection station license, an establishment must meet the following requirements: (3-20-20)T

- a. Must have a permanent location; (3-20-20)T
  - b. Must ensure that at least one employee, who has been issued an emissions technician license by the governing authority, is on duty at all times of station operation; (3-20-20)T
  - c. Must demonstrate the ability to perform the emissions test and comply with reporting and recordkeeping requirements established by the governing authority; (3-20-20)T
  - d. Must obtain and maintain in force appropriate business liability insurance; and (3-20-20)T
  - e. Must have the tools, equipment and supplies, as required by the governing authority, available for performance of the emissions test. (3-20-20)T
- 04. Requirements for Licensed Retest Stations.** In order to qualify for issuance and continuance of a retest station license, an establishment must meet the requirements listed in Subsection 518.03. (3-20-20)T
- 05. Approval Procedure.** (3-20-20)T
- a. Applications received by the governing authority will be reviewed for completeness and an inspection of the facility will be performed. An inspection report will be prepared for the governing authority's review. (3-20-20)T
  - b. Stations which meet the requirements of Subsections 518.01 through 518.04 will be granted an inspection station license or retest station license and issued a station sign. The station sign and license shall be posted in a conspicuous place, readily visible to the public. The station sign and license shall remain the property of the governing authority. (3-20-20)T
- 06. Revocation of Inspection Station or Retest Station License.** The governing authority has the authority to issue warnings and suspend or revoke a station license upon a showing that emission tests are not being performed in accordance with these rules and any other specifications or procedures enacted by the governing authority. (3-20-20)T

**519. REQUIREMENTS FOR LICENSING AUTHORIZED EMISSIONS TECHNICIANS.**

- 01. Applications for License.** Application for a license as an emissions technician shall be filed with the governing authority. Applications for the emissions technician license shall be completed on forms provided by the governing authority. (3-20-20)T
- 02. Requirements for Issuance of an Emissions Technician License.** An applicant must demonstrate the knowledge and skill necessary to perform an emissions test of motor vehicle engines. The governing authority shall require the minimum standards set forth in 40 CFR 51.367, incorporated by reference into these rules at Section 107. (3-20-20)T
- 03. Revocation of Emissions Technician License.** The governing authority has the authority to issue warnings and suspend or revoke an emissions technician license upon a showing that emission tests are not being performed in accordance with these rules or any other specifications or procedures enacted by the governing authority. (3-20-20)T

**520. INSPECTION FREQUENCY.**

The inspections shall occur no more than once every two (2) years. If the owner of the motor vehicle obtains a waiver pursuant to Section 526, the motor vehicle must be inspected the following year. (3-20-20)T

**521. TEST PROCEDURE REQUIREMENTS.**

The governing authority shall require the minimum standards set forth in 40 CFR 51.357(a), incorporated by reference into these rules at Section 107. (3-20-20)T

**522. TEST STANDARDS.**

The governing authority shall require the minimum standards set forth in 40 CFR 51.357(b), incorporated by reference into these rules at Section 107. (3-20-20)T

**523. TEST EQUIPMENT.**

The governing authority shall require the minimum standards set forth in 40 CFR 51.358, incorporated by reference in to these rules at Section 107. (3-20-20)T

**524. INSPECTION FEE.**

The fee for a motor vehicle inspection, as established in Section 39-116B(2)(g), Idaho Code, shall not exceed twenty dollars (\$20) per vehicle. This fee is necessary to carry out the provisions of Sections 517 through 527 and to fund an air quality public awareness and outreach program. (3-20-20)T

**525. PUBLIC OUTREACH.**

The governing authority shall issue a pamphlet for distribution to owners of motor vehicles. The pamphlet shall include, but not be limited to, the reasons for and the methods of the inspection. The governing authority may also establish and operate an informational hotline, website, or any other means of outreach that is deemed to be efficient and effective by the governing authority. (3-20-20)T

**526. WAIVERS.**

The governing authority shall require the minimum standards set forth in 40 CFR 51.360(a), incorporated by reference into these rules at Section 107. If the owner of the motor vehicle obtains a waiver, the motor vehicle must be inspected the following year. (3-20-20)T

**01. Financial Hardship.** If repairs required under Section 526 pose a financial hardship on the owner of the motor vehicle, the governing authority shall have the authority to issue a waiver without requiring expenditure of the amounts listed in 40 CFR 51.360(a). Such determination of hardship shall be made on a case-by-case basis by the governing authority. (3-20-20)T

**02. Public Service Vehicles Operating Less than 1,000 Miles Per Year.** For public service vehicles owned by a governmental entity and operated less than one thousand (1,000) miles per year, the governing authority shall have the authority to issue a waiver without requiring expenditure of the amounts listed in 40 CFR 51.360(a). (3-20-20)T

**527. EXTENSIONS.**

The governing authority shall have the authority to grant extensions for vehicles or vehicle owners temporarily located outside of a testing area that cannot easily be returned to an area for testing. The extension shall not exceed one (1) year. For active duty military personnel and their families stationed outside the applicable testing area specified in Subsection 517.02, a time extension not to exceed the testing period is available. Military extensions shall be renewed with current military orders. (3-20-20)T

**528. -- 549. (RESERVED)**

**550. AIR POLLUTION EMERGENCY RULE.**

The purpose of Sections 550 through 562 is to define criteria for an air pollution emergency, to formulate a plan for preventing or alleviating such an emergency, and to specify rules for carrying out the plan. The procedures for implementing Sections 550 through 562 are delineated in Chapter VI of the SIP. (3-20-20)T

**551. EPISODE CRITERIA.**

The purpose of Sections 551 through 556 is to establish criteria for stages of atmospheric stagnation and/or degraded air quality. (3-20-20)T

**552. STAGES.**

The Department has defined four (4) stages of atmospheric stagnation and/or degraded air quality. (3-20-20)T

**01. Stage 1 -- Air Pollution Forecast and Caution.** An internal watch by the Department shall be actuated by a National Weather Service report that an Atmospheric Stagnation Advisory has been issued, or the

equivalent local forecast of stagnant atmospheric conditions. (3-20-20)T

**02. Stage 2 -- Alert.** This is the first stage at which air pollution control actions by industrial sources are to begin. (3-20-20)T

**03. Stage 3 -- Warning.** The warning stage indicates that air quality is further degraded and that control actions are necessary to maintain or improve air quality. (3-20-20)T

**04. Stage 4 -- Emergency.** The emergency stage indicates that air quality has degraded to a level that will substantially endanger the public health and that the most stringent control actions are necessary. (3-20-20)T

**553. EFFECT OF STAGES.**

Once an episode stage is reached or the Department determines that reaching a particular stage is imminent, emergency action corresponding to that stage will remain in effect until air quality measurements indicate that another stage (either lower or higher) has been attained or the Department determines that reaching another stage (either lower or higher) is imminent. At such time, actions corresponding to the next stage will go into effect. This procedure will continue until the episode is terminated. The air quality criteria used to define each of the episode stages for carbon monoxide, nitrogen dioxide, ozone, particulate matter, and sulfur dioxide are specified in Section 556. The levels will be determined by the Department through its analysis of meteorological and ambient air quality monitoring data. (3-20-20)T

**554. -- 555. (RESERVED)**

**556. CRITERIA FOR DEFINING LEVELS WITHIN STAGES.**

The air quality criteria defining each of these levels for carbon monoxide (CO), nitrogen dioxide (NO<sub>2</sub>), ozone (O<sub>3</sub>), particles with an aerodynamic diameter less than or equal to a nominal ten (10) micrometers (PM-10), particles with an aerodynamic diameter less than or equal to a nominal two point five (2.5) micrometers (PM-2.5), and sulfur dioxide (SO<sub>2</sub>) are: (3-20-20)T

**01. Stage 1 -- Forecast and Caution.** A Stage 1 Forecast and Caution shall be declared by the Department when particulate concentrations reach, or are forecasted to reach, and persist, at or above the levels listed below. The Department may call a Stage 1 Forecast and Caution, if it determines, after evaluating the pertinent meteorology, weather conditions and air quality conditions such as visibility, and source parameters such as source type, strength, location and projected duration, that a Stage 1 Forecast and Caution is required to protect the public health.

CO	NA
NO <sub>2</sub>	NA
O <sub>3</sub>	NA
SO <sub>2</sub>	NA
PM-2.5	80 ug/m <sup>3</sup> 1 hour average
PM-2.5	50 ug/m <sup>3</sup> 24 hour average
PM-10	385 ug/m <sup>3</sup> 1 hour average
PM-10	150 mg/m <sup>3</sup> 24 hour average

(3-20-20)T

**02. Stage 2 -- Alert.**

CO - 17 mg/m <sup>3</sup> (15 ppm)	8-hour average
NO <sub>2</sub> - 1130 ug/m <sup>3</sup> (0.6 ppm)	1-hour average
- 282 ug/m <sup>3</sup> (0.15 ppm)	24-hour average

O <sub>3</sub> - 400 ug/m3 (0.2 ppm)	1-hour average
PM-10 - 350 ug/m3	24-hour average
SO <sub>2</sub> - 800 ug/m3 (0.3 ppm)	24-hour average

(3-20-20)T

**03. Stage 3 -- Warning.**

CO - 34 mg/m3 (30 ppm)	8-hour average
NO <sub>2</sub> - 2260 ug/m3 (1.2 ppm),	1-hour average

**04. Stage 4 -- Emergency.**

CO - 46 mg/m3 (40 ppm)	8-hour average
NO <sub>2</sub> - 3000 ug/m3 (1.6 ppm)	1-hour average
- 750 ug/m3 (0.4 ppm)	24-hour average
O <sub>3</sub> - 1000 ug/m3 (0.5 ppm)	1-hour average
PM-10 - 500 ug/m3	24-hour average
SO <sub>2</sub> - 2100 ug/m3 (0.8 ppm)	24-hour average

(3-20-20)T

**557. PUBLIC NOTIFICATION.**

The purpose of Sections 557 through 560 is to establish requirements for public notification regarding atmospheric stagnation and/or degraded air quality. (3-20-20)T

**558. INFORMATION TO BE GIVEN.**

**01. Information to Be Given.** On the basis of degrading air quality as determined by the Director, and the criteria for emergency episode stages as shown in Section 556, the Director will utilize appropriate media and techniques including, but not limited to, print, electronic and internet, to insure that the following information is announced to the public, affected government, and commercial, industrial institutional and agricultural entities as practicable: (3-20-20)T

- a. Definition of the extent of the problem; (3-20-20)T
- b. Indication of the action taken by the Director; (3-20-20)T
- c. Air pollution forecast for next few days; (3-20-20)T
- d. Notice of when the next statement from the Department will be issued; (3-20-20)T
- e. Listing of all general procedures which the public, commercial, institutional and industrial sectors are required to follow; (3-20-20)T

f. Specific warnings and advice to those persons who because of acute or chronic health problems, may be most susceptible to the effects of the episode. (3-20-20)T

g. Location and description of the affected area. (3-20-20)T

**559. MANNER AND FREQUENCY OF NOTIFICATION.**

Such announcements will be made by the news media during regularly scheduled television and radio news broadcasts and in all editions of specified newspapers. In addition, when the stage 4 emergency level is reached, television and radio stations designated by the Department will repeat these announcements at one (1) hour intervals during normal broadcasting hours. (3-20-20)T

**560. NOTIFICATION TO SOURCES.**

The Department will assure that all significant sources of the applicable air pollutant(s) are notified of the emergency stage by telephone or other appropriate means. (3-20-20)T

**561. GENERAL RULES.**

All persons in the designated stricken area shall be governed by the following rules for each emergency episode stage. The Director may waive one (1) or more of the required measures at each episode stage if, on the basis of information available to him, he judges that a measure is an inappropriate response to the specific episode conditions which then exist. (3-20-20)T

**01. Stage 1 -- Air Pollution Forecast and Caution.** There shall be no new ignition of open burning of any kind. The Director may require, if practicable, or in an emergency situation, the cessation of any open burning. (3-20-20)T

**02. Stage 2 -- Alert.** (3-20-20)T

a. There shall be no open burning of any kind. (3-20-20)T

b. The use of burners and incinerators for the disposal of any form of solid waste shall be prohibited. (3-20-20)T

c. Persons operating fuel-burning equipment which requires boiler lancing or soot blowing shall perform such operations only between the hours of 12:00 pm (noon) and 4:00 p.m. (3-20-20)T

d. Commercial, industrial and institutional facilities utilizing coal or residual fuel oil are required to switch to natural gas or distillate oil if available. (3-20-20)T

**03. Stage 3 -- Warning.** (3-20-20)T

a. There shall be no open burning of any kind. (3-20-20)T

b. The use of burners and incinerators for the disposal of any form of solid waste or liquid waste shall be prohibited. (3-20-20)T

c. Persons operating fuel-burning equipment which requires boiler lancing or soot blowing shall perform such operations only between the hours of 12:00 pm (noon) and 4:00 p.m. (3-20-20)T

d. Commercial, industrial and institutional facilities utilizing coal or residual fuel are required to either: (3-20-20)T

i. Switch completely to natural gas or distillate oil; or (3-20-20)T

ii. If these low sulfur fuels are not available, curtail the use of existing fuels to the extent possible without causing injury to persons or damage to equipment. (3-20-20)T

- 04. Stage 4 -- Emergency.** This will be called only with specific concurrence of Governor. (3-20-20)T
- a.** There shall be no open burning of any kind. (3-20-20)T
- b.** The use of burners and incinerators for the disposal of any form of solid or liquid waste shall be prohibited. (3-20-20)T
- c.** All places of employment described below shall immediately cease operations: (3-20-20)T
- i.** All mining and quarrying operations; (3-20-20)T
- ii.** All construction work except that which must proceed to avoid injury to persons; (3-20-20)T
- iii.** All manufacturing establishments except those required to have in force an air pollution emergency plan; (3-20-20)T
- iv.** All wholesale trade establishments, i.e. places of business primarily engaged in selling merchandise to retailers or industrial, commercial, institutional or professional users, or to other wholesalers, or acting as agents in buying merchandise for or selling merchandise to such persons or companies except those engaged in the distribution of drugs, surgical supplies and food; (3-20-20)T
- v.** All offices of local, county and State government including authorities, joint meetings, and other public bodies excepting such agencies which are determined by the chief administrative officer of local, county, or State government authorities, joint meetings and other public bodies to be vital for public safety and welfare and the enforcement of the provisions of this order; (3-20-20)T
- vi.** All retail trade establishments except pharmacies, surgical supply distributors, and stores primarily engaged in the sale of food; (3-20-20)T
- vii.** Banks, credit agencies other than banks, securities and commodities brokers, dealers, exchanges and services; offices of insurance carriers, agents and brokers, real estate offices; (3-20-20)T
- viii.** Wholesale and retail laundries, laundry services and cleaning and dyeing establishments; photographic studios; beauty shops, barber shops, shoe repair shops; (3-20-20)T
- ix.** Advertising offices, consumer credit reporting, adjustment and collection agencies; duplicating, addressing, blueprinting; photocopying, mailing, mailing list and stenographic services; equipment rental services, commercial testing laboratories; (3-20-20)T
- x.** Automobile repair, automobile services, garages except those located adjacent to state or interstate highways; (3-20-20)T
- xi.** Establishments rendering amusement and recreational services including motion picture theaters; (3-20-20)T
- xii.** Elementary and secondary schools, colleges, universities, professional schools, junior colleges, vocational schools, and public and private libraries. (3-20-20)T
- d.** All commercial and manufacturing establishments not included in this order will institute such actions as will result in maximum reduction of the applicable air pollutant(s) from their operation by ceasing, curtailing, or postponing operations which emit the applicable air pollutants to the extent possible without causing injury to persons or damage to equipment. These actions include limiting boiler lancing or soot blowing operations for fuel burning equipment to between the hours of 12:00 pm (noon) and 4:00 p.m. (3-20-20)T
- e.** When the emergency episode is declared for carbon monoxide, the use of motor vehicles is prohibited except in emergencies or with the approval of local or state police or the Department. (3-20-20)T

**562. SPECIFIC EMERGENCY EPISODE ABATEMENT PLANS FOR POINT SOURCES.**

In addition to the general rules presented in Section 561, the Department shall require that specific point sources adopt and implement their own Emergency Episode Abatement Plans in accordance with the criteria set forth in Sections 551 through 556. An individual plan can be revised periodically by the Department after consultation between the Department and the owners and/or operators of the source. (3-20-20)T

**563. TRANSPORTATION CONFORMITY.**

The purpose of Sections 563 through 574 is to adopt and implement Section 176(c) of the Clean Air Act (CAA), as amended [42 U.S.C. 7401 et seq.], and the related requirements of 23 U.S.C. 109(j), with respect to the conformity of transportation plans, programs, and projects developed, funded, or approved by the United States Department of Transportation (USDOT), and by metropolitan planning organizations (MPOs) or other recipients of funds under Title 23 U.S.C. or the Federal Transit Laws (49 U.S.C. Chapter 53). These sections set forth policy, criteria, and procedures for demonstrating and assuring conformity of such activities to an applicable implementation plan developed pursuant to Section 110 and Part D of the CAA. The publications referred to in Sections 563 through 574 are available from the IDEQ. (3-20-20)T

**566. DEFINITIONS FOR THE PURPOSE OF SECTIONS 563 THROUGH 574 AND 582.**

Terms used but not defined in Sections 563 through 574 and 582 shall have the meaning given them by the CAA, Titles 23 and 49 U.S.C., other Environmental Protection Agency (EPA) regulations, or other USDOT regulations, in that order of priority. For the purpose of Sections 563 through 574 and 582: (3-20-20)T

**01. Applicable Implementation Plan.** Applicable Implementation Plan is defined in Section 302(q) of the CAA and means the portion (or portions) of the implementation plan, or most recent revision thereof, which has been approved under Section 110 of the CAA, or promulgated under Section 110(c) of the CAA, or promulgated or approved pursuant to regulations promulgated under Section 301(d) of the CAA and which implements the relevant requirements of the CAA. (3-20-20)T

**02. Consult or Consultation.** The lead agency confers with other ICC members and persons on the distribution list and considers their views prior to taking actions relating to transportation conformity. The lead agency shall distribute all appropriate information necessary to make a conformity determination and, prior to making a conformity determination, shall consider the views of such parties and shall provide a timely, written response to those views. Such views and written responses shall be included in the record of decision or action. Consultation shall not occur with respect to a transportation plan or transportation improvement program (TIP) revision that merely adds or exempts projects listed in 40 CFR 93.126. (3-20-20)T

**03. Distribute.** Make available relevant documents and information by electronic and manual means, whichever is more appropriate, to all ICC members and persons on the distribution list. Electronic distribution may include existing and future technological applications, such as electronic mail, internet web-site posting including downloadable files, or the use of an electronic mail reply system based on the distribution list. Manual distribution may include the United States Postal Service, the state internal mail system, a facsimile machine, or any commercially available mail service provider. (3-20-20)T

**04. Distribution List.** A list containing the names and addresses of ICC members and any person(s) expressing an interest in receiving information and material pertaining to ICC meetings. To express interest, a person may contact the lead agency by postal mail, electronic mail, telephone or in person, and inform the ICC member of their interest in being on the distribution list for information and material pertaining to ICC meetings. (3-20-20)T

**05. Exempt Projects.** Projects exempt from conformity requirements based on the general criteria of safety, mass transit, and other factors, as described in 40 CFR 93.126. (3-20-20)T

**06. Lead Agency.** The transportation or air quality agency responsible for conducting the consultation process, as identified in Subsections 568.01 through 568.03. (3-20-20)T

**07. Lead Air Quality Agency.** An agency designated pursuant to Section 174 of the CAA as responsible for developing an applicable implementation plan, or alternatively the agency designated by the Governor as the lead air quality agency for a county, region, or any jurisdiction. (3-20-20)T

**08. Local Highway Jurisdiction.** A county with jurisdiction over a highway system, a city with jurisdiction over a highway system, or a highway district, as defined by Section 40-113(3), Idaho Code. (3-20-20)T

**09. Local Highway Technical Assistance Council (LHTAC).** The public agency created in Chapter 24, Title 40, Idaho Code. (3-20-20)T

- 10. Maximum Priority.** (3-20-20)T
- a.** All possible actions must be taken to shorten the time periods necessary to complete essential steps in TCM implementation - for example, by increasing the funding rate - even though timing of other projects may be affected. It is not permissible to have prospective discrepancies with the applicable implementation plan's TCM implementation schedule due to: (3-20-20)T
- i.** Lack of funding in the TIP; (3-20-20)T
  - ii.** Lack of commitment to the project by the sponsoring agency; (3-20-20)T
  - iii.** Unreasonably long periods to complete future work due to lack of staff or other agency resources; (3-20-20)T
  - iv.** Lack of approval or consent by local governmental bodies; or (3-20-20)T
  - v.** Failure to have applied for a permit where necessary work preliminary to such application has been completed. (3-20-20)T
- b.** Where statewide and metropolitan funding resources, planning, and management capabilities are fully consumed within the flexibility of the Transportation Equity Act of 1998 (TEA-21), Pub. L. No. 105-178, 112 Stat 107, as amended by Pub. L. No. 105-206, 112 Stat 685, or future federal omnibus transportation funding bills, with responding to damage from natural disasters, civil unrest, or terrorist acts, TCM implementation can be determined to be timely without regard to the above, provided reasonable efforts are being made. (3-20-20)T
- 11. Metropolitan Planning Organization (MPO).** The organization designated as being responsible, together with the State, for conducting the continuing cooperative and comprehensive transportation planning process under 23 U.S.C. 134 and 49 U.S.C. 5303 and 23 CFR 450. It is the forum for cooperative transportation decision-making. (3-20-20)T
- 12. Public Notice.** Distribution of the meeting times, location, duration and agenda, to all the ICC members and persons on the distribution list. (3-20-20)T
- 13. Recipient of Funds Designated Under Title 23 U.S.C. or the Federal Transit Laws.** Any agency at any level of state, county, city, or regional government that routinely receives Title 23 U.S.C. or Federal Transit Laws funds to construct FHWA/FTA projects, operate FHWA/FTA projects or equipment, purchase equipment, or undertake other services or operations via contracts or agreements. This definition does not include private landowners, developers, contractors, or entities that are only paid for services or products created by their own employees. (3-20-20)T
- 14. Regionally Significant Project.** A transportation project, other than an exempt project, that is on a facility which serves regional transportation needs (such as access to and from the area outside the region, major activity centers in the region, major planned developments such as new retail malls, sports complexes, etc., or transportation terminals as well as most terminals themselves) and would normally be included in the modeling of a metropolitan area's transportation network, including, at a minimum: (3-20-20)T
- a.** All principal arterial highways; (3-20-20)T
  - b.** All fixed guideway transit facilities that offer an alternative to regional highway travel; and (3-20-20)T
  - c.** Any other facilities determined to be regionally significant through Section 570, interagency consultation. (3-20-20)T
- 15. Transportation Agency.** The public agency responsible for one (1) or more of the following transportation modes: (3-20-20)T

- a. Air; (3-20-20)T
- b. Rail; (3-20-20)T
- c. Water; (3-20-20)T
- d. Highway; (3-20-20)T
- e. Bicycle and pedestrian paths; and (3-20-20)T
- f. Transit. (3-20-20)T

**16. Transit Agency.** Any agency involved in providing mass transportation services by bus, rail, or other conveyance providing general or special service to the public on a regular and continuing basis. The term "Transit Agency" does not include school buses or charter or sightseeing services. (3-20-20)T

**567. AGENCIES AFFECTED BY CONSULTATION.**

This Section identifies those agencies and other entities (federal, tribal, state and local) involved in the consultation process and those general actions requiring consultation. (3-20-20)T

**01. Interagency Consultation Committee.** A committee of representatives shall be formed in each nonattainment or maintenance area of the state, to convene on conformity determinations, as necessary, and shall be called the Interagency Consultation Committee (ICC) for that nonattainment or maintenance area. The ICC shall undertake consultation procedures, as applicable, in preparing for and before making conformity determinations in developing long-range transportation plans (LRTP), transportation improvement programs (TIP), and applicable implementation plans. (3-20-20)T

**02. ICC Members.** The ICC shall consist of the following agencies or entities, as applicable: (3-20-20)T

- a. A Metropolitan Planning Organization (MPO) where one exists; (3-20-20)T
- b. The Idaho Transportation Department (ITD); (3-20-20)T
- c. The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) divisional office; (3-20-20)T
- d. The Idaho Department of Environmental Quality (IDEQ); (3-20-20)T
- e. Affected Local Highway Jurisdictions involved in transportation, (3-20-20)T
- f. Affected Transit agency(ies); (3-20-20)T
- g. The Local Highway Technical Assistance Council (LHTAC); (3-20-20)T
- h. Indian Tribal governments with transportation planning responsibilities; and (3-20-20)T
- i. The United States Environmental Protection Agency (EPA). (3-20-20)T

**03. Agencies Entitled to Participate.** Agencies which may be affected by the consultation process and which are entitled to participate in the consultation process include: (3-20-20)T

- a. Any local transit agency or provider, local highway jurisdiction, and any city or county transportation or air quality board or agency where the nonattainment or maintenance area is located; and (3-20-20)T
- b. Any other state or federal or tribal organization in the state responsible under state or federal law for developing, submitting or implementing transportation related provisions of an implementation plan. (3-20-20)T

**04. More Than One Pollutant.** Areas that are nonattainment for more than one (1) pollutant may conduct consultation, as specified in this section, through a single committee for all pollutants. (3-20-20)T

**05. Open to the Public.** All meetings of the ICC shall be open to the public. (3-20-20)T

**06. Delegation.** An ICC member may delegate its role or responsibility in the consultation process to another entity pursuant to applicable state law. An ICC member making such delegation shall notify all other ICC members in writing when the delegation occurs. The written notice shall provide the name, address, and telephone number of one (1) or more contact persons representing the entity accepting the delegated role or responsibility. (3-20-20)T

**07. General Actions Requiring Consultation.** The ICC shall undertake the consultation process prior to the development of the following: (3-20-20)T

**a.** The implementation plan(s), including the emission budget and list of TCMs in the applicable implementation plan(s), prepared by the lead air quality agency in a nonattainment or maintenance area; (3-20-20)T

**b.** All other conformity determinations for transportation plans, projects, and programs; and (3-20-20)T

**c.** Revisions to the preceding documents which may directly or indirectly affect conformity determinations. (3-20-20)T

**568. ICC MEMBER ROLES IN CONSULTATION.**

The lead agency as identified in this section is the ICC member responsible for initiating the consultation process, preparing the initial and final drafts of the document or decision, and assuring the adequacy of the consultation process for all conformity processes and procedures. (3-20-20)T

**01. Designated Lead Air Quality Agency.** IDEQ or the MPO, as the designated lead air quality agency, shall be the lead agency for the development of the implementation plan, the associated emission budgets, and the list of Transportation Control Measures (TCMs) in the plan. The concurrence of IDEQ on each applicable implementation plan is required before IDEQ adopts the plan and submits it to EPA for inclusion in the applicable implementation plan. (3-20-20)T

**02. Areas with an MPO.** For areas in which an MPO has been established, the designated MPO shall be the lead agency responsible for conformity determinations, development of the LRTP, development of the TIP, and project level documentation under 23 CFR 450. (3-20-20)T

**03. Areas Without an MPO.** For areas in which an MPO has not been established, ITD shall be the lead agency for preparing the final document on conformity determinations, the development of the statewide transportation plan, the development of the STIP, and project level documentation under 23 CFR 450. (3-20-20)T

**569. ICC MEMBER RESPONSIBILITIES IN CONSULTATION.**

This Section identifies the specific responsibilities of ICC members. (3-20-20)T

**01. Designated Lead Air Quality Agency Responsibilities.** The designated lead air quality agency shall be responsible for developing or providing and distributing draft and final documentation, data and analyses for: (3-20-20)T

**a.** Air emission inventories; (3-20-20)T

**b.** Emission budgets; (3-20-20)T

**c.** Attainment and maintenance demonstrations; (3-20-20)T

**d.** Control strategy implementation plan revisions; (3-20-20)T

- e. Updated motor vehicle emission factors; (3-20-20)T
- f. Proposal and evaluation of TCMs; and (3-20-20)T
- g. Public outreach on draft air quality plans pursuant to 40 CFR Part 51. (3-20-20)T
- 02. Designated MPO Responsibilities.** The designated MPO shall be responsible for: (3-20-20)T
  - a. Conformity determinations corresponding to LRTPs and TIPs; (3-20-20)T
  - b. Making conformity determinations for the entire nonattainment or maintenance area, including areas beyond the boundaries of the MPO, where no agreement is in effect as required by 23 CFR 450.310(f); (3-20-20)T
  - c. Identify regionally significant projects through the consultation process; (3-20-20)T
  - d. Implementing TCMs in air quality nonattainment and/or maintenance areas, as applicable; (3-20-20)T
  - e. Providing technical and policy input on emissions budgets; (3-20-20)T
  - f. Performing transportation modeling, regional emissions analyses, and project level analysis, as necessary; (3-20-20)T
  - g. Documenting timely implementation of TCMs, as required, for determining conformity; and (3-20-20)T
  - h. Distributing relevant draft and final project environmental documents to ICC members and persons on the distribution list per the schedule in Subsection 570.01.c. (3-20-20)T
- 03. Non-MPO Area Responsibilities.** In areas without an established MPO, ITD shall be responsible for: (3-20-20)T
  - a. Conformity determinations corresponding to STIPs and project-level analyses; (3-20-20)T
  - b. Providing technical and policy input on proposed revisions to motor vehicle emissions factors and to emission budgets; (3-20-20)T
  - c. Distributing relevant draft and final project environmental documentation prepared by, or for ITD, to ICC members and persons on the distribution list per the schedule in Subsection 570.01.c.; (3-20-20)T
  - d. Convening air quality technical review meetings on specific projects when requested by other ICC members, or as needed; (3-20-20)T
  - e. Convening interagency consultation meetings required for purposes of making conformity determinations in nonattainment or maintenance areas, outside of MPO boundaries, as necessary; (3-20-20)T
  - f. Making conformity determinations in nonattainment or maintenance areas, outside of MPO boundaries, as necessary; and (3-20-20)T
  - g. Implementing TCMs in air quality nonattainment and/or maintenance areas, as applicable. (3-20-20)T
- 04. FHWA and FTA Responsibilities.** FHWA and FTA shall be responsible for: (3-20-20)T
  - a. Assuring timely action on final findings of conformity for transportation plans, TIPs, and federally

funded projects, including the basis for those findings after consultation with other agencies as provided in Section 569 and 40 CFR 93.105; and (3-20-20)T

**b.** Providing guidance on conformity and the transportation planning process to ICC members. FHWA and FTA may rely solely on the consultation process initiated by ITD or the MPO, where one exists, and shall not be required to duplicate that process. (3-20-20)T

**05. EPA Responsibilities.** EPA shall be responsible for providing policy and technical guidance on conformity criteria to ICC members. (3-20-20)T

**06. Responsibility to Disclose Potentially Regionally Significant Projects.** ITD, the local highway jurisdiction, transit agency, or transportation project sponsor shall be responsible for disclosing potentially regionally significant projects within air quality nonattainment and maintenance areas to the ICC in a timely manner. (3-20-20)T

**a.** Local Highway Jurisdictions shall disclose of potentially regionally significant projects upon written request of ITD within fourteen (14) days of such request, or when annual local and MPO project lists are due to ITD District Offices as part of the annual STIP development process; (3-20-20)T

**b.** In an MPO area, to help assure timely disclosure, the sponsor of any potentially regionally significant project shall disclose such projects to the MPO annually on or before March 1 of that calendar year; and (3-20-20)T

**c.** In MPO nonattainment and maintenance areas, the TIP and associated conformity demonstration shall be deemed to be incomplete if any regionally significant project has not been disclosed to the ICC in a timely manner. Therefore, such a TIP shall be considered to be non-conforming to applicable implementation plan(s). (3-20-20)T

**570. GENERAL CONSULTATION PROCESS.**

Section 570 provides the general procedures for interagency consultation (federal, tribal, state, and local) and public participation for transportation conformity determinations in air quality nonattainment and maintenance areas in the state of Idaho. (3-20-20)T

**01. Lead Agency in Consultation.** The following are the responsibilities of the lead agency at each stage of the consultation process: (3-20-20)T

**a.** Initiating the consultation process by notifying other ICC members of the document or decision that must undergo the consultation process and by scheduling and convening consultation meetings and agendas; (3-20-20)T

**b.** Developing and maintaining a distribution list of all ICC members and any other persons expressing an interest in receiving information and materials pertaining to ICC meetings; (3-20-20)T

**c.** Distributing an agenda and all supporting material, including minutes of ICC meetings, to ICC members and persons on the distribution list as follows: (3-20-20)T

**i.** Fourteen (14) days in advance of an ICC meeting if there are non-technical issues to be resolved by the ICC; (3-20-20)T

**ii.** Thirty (30) days in advance of an ICC meeting if there are technical issues to be resolved by the ICC; or (3-20-20)T

**iii.** If distribution of technical material pursuant to Subsection 570.01.c.ii. is not feasible thirty (30) days prior to an ICC meeting, then the lead agency shall notify the ICC members and persons on the distribution list in writing at least thirty (30) days prior to the ICC meeting. Together with the notification, the lead agency shall distribute and disclose all available material and documentation to the ICC members and persons on the distribution list, informing them of the nature, purpose, and details of possible program changes that are expected to occur from

earlier analyses of the actions. All technical material and documentation shall be distributed at a minimum of fourteen (14) days prior to the ICC meeting. (3-20-20)T

**d.** Conferring with other agencies and persons not on the distribution list that have expressed an interest in the document or decision to be developed; (3-20-20)T

**e.** Providing ICC members and persons on the distribution list access to all information needed for meaningful input; (3-20-20)T

**f.** Soliciting early and continuing input from other ICC members and persons on the distribution list; (3-20-20)T

**g.** Following the public consultation procedures outlined in Section 574; (3-20-20)T

**h.** Providing an opportunity for informal question and answer on the draft document or proposed decision; (3-20-20)T

**i.** Considering the views of ICC members and persons on the distribution list and responding in writing to significant comments in a timely and substantive manner prior to finalizing or taking any final action on those documents or determinations enumerated in Section 567.07.a. through 567.07.c.; and (3-20-20)T

**j.** Assuring all comments and written responses of ICC members and persons on the distribution list are made part of the record of any action. (3-20-20)T

**02. Public Comment Period to Satisfy Thirty Day Document Distribution Requirement.** A lead agency may use all or any part of another public comment period established for public outreach procedures pursuant to 23 CFR 450 for a transportation plan, program, or project to satisfy the thirty (30) day advance distribution requirement for technical issues, and shall notify all ICC members and other persons on the distribution list when so doing fourteen (14) days prior to commencement of the public comment period. (3-20-20)T

**03. Separate Times or in Combination.** The above actions may be conducted at separate times or in combination, as required, to enhance the efficiency of the process. (3-20-20)T

**04. Final Document Distribution.** A lead agency, upon completion of a final document subject to the consultation process under Sections 563 through 574 of these rules (including any federal agency), shall distribute each final document to all other ICC members and persons on the distribution list within thirty (30) days of adopting or approving such document or making such determination. (3-20-20)T

**05. Use of Checklist for Distribution of Material.** The lead agency may supply a checklist of available supporting information to ICC members and persons on the distribution list to be used to request all or part of the supporting information, in lieu of generally distributing all supporting information. (3-20-20)T

**06. Use of Other Meetings for Consultation.** A meeting that is scheduled or required for another purpose may be used for the purposes of consultation only if the public notice for the meeting identifies consultation as an agenda item. (3-20-20)T

#### **571. CONSULTATION PROCEDURES.**

The consultation process among ICC members and persons on the distribution list shall be undertaken for the following specific major activities (federal, tribal, state, and local), specific routine activities and specific air quality related activities, in accordance with the procedures in Section 570. Participating agencies shall be all ICC members unless otherwise specified in Subsections 571.01 through 571.04. (3-20-20)T

**01. Specific Major Activities.** The consultation process shall be undertaken for the following specific major activities. The lead agency for each activity shall be the designated MPO or ITD in the absence of an MPO. (3-20-20)T

**a.** Evaluating and choosing each air quality model and associated methods and assumptions to be used

in hot-spot analyses and regional emissions analyses including vehicle miles traveled forecasting. The hot-spot analyses shall be performed consistent with procedures described in 40 CFR 93.116 and 40 CFR 93.123 and regional emissions analysis shall be performed using procedures outlined on 40 CFR 93.122. (3-20-20)T

**b.** Determining which minor arterials and other transportation projects should be considered “regionally significant” for the purposes of regional emissions analysis, in addition to those functionally classified as principal arterial or higher or fixed guideway transit systems or extensions that offer an alternative to regional highway travel. (3-20-20)T

**c.** Evaluating whether projects otherwise exempted from meeting the requirements of Sections 563 through 574 of these rules should be treated as non-exempt in cases where potential adverse emissions impacts may exist for any reason per 40 CFR 93.126 and 127. (3-20-20)T

**d.** Making a determination as to whether past obstacles to implementation of TCMs which are behind the schedule established in the applicable implementation plan have been identified and are being overcome, and whether state and local agencies with influence over approvals or funding for TCMs are giving maximum priority to approval or funding for TCMs. This consultation procedure shall also consider whether delays in TCM implementation necessitate revisions to the applicable implementation plan to remove TCMs or substitute TCMs with other emission reduction measures. (3-20-20)T

**e.** Identifying projects located at sites in PM nonattainment or maintenance areas which have vehicle and roadway emission and dispersion characteristics which are essentially identical to those at sites which have violations verified by monitoring, and therefore require quantitative PM hot-spot analysis. In case a method for quantitative hot-spot analysis has not been formally adopted by EPA, a sound qualitative analysis developed in conjunction with FHWA may be used for the same. (3-20-20)T

**f.** Making a determination whether the project is included in the regional emissions analysis supporting the currently conforming TIP's conformity determination, and whether the project's design concept and scope have changed significantly from those which were included in the regional emissions analysis, or in a manner which would significantly impact use of the facility. (3-20-20)T

**g.** For areas in the state with no MPOs, making a determination whether a project has undergone project-level analysis and whether the project's design concept and scope have changed significantly from those which were included in the project-level analysis, or in a manner which would significantly impact use of the facility. (3-20-20)T

**h.** Establishing appropriate public participation opportunities for project-level conformity determinations, as applicable, in the manner specified by Section 574, to be initiated by the recipient of the funds designated under 23 U.S.C. or the Federal Transit Act. (3-20-20)T

**i.** Choosing conformity tests and methodologies for isolated and rural nonattainment and maintenance areas as required by 40 CFR 93.109(g)(2)(iii). (3-20-20)T

**02. Specific Routine Activities.** The consultation process shall be undertaken for the following specific routine activities. The lead agency shall be the MPO or ITD in the absence of an MPO. (3-20-20)T

**a.** Evaluating events that will trigger new conformity determinations in addition to those triggering events established in 40 CFR 93.104. Participating agencies shall be the MPO and state, tribal, regional, and local air quality planning agencies. (3-20-20)T

**b.** Consulting on emissions analysis for transportation activities that cross the borders of MPOs or nonattainment or maintenance areas. Participating agencies shall be the MPO and state, tribal, regional, and local air quality planning agencies. (3-20-20)T

**c.** Determining whether the project sponsor or MPO has demonstrated that the requirements are satisfied without a particular mitigation, such as emissions offsets or other control measures, or determining that a conforming project approved with mitigation no longer requires mitigation. (3-20-20)T

**d.** Assuring that plans for construction of regionally significant projects that are not FHWA/FTA projects, including projects for which alternative locations, design concept and scope, or the no-build option are still being considered, are disclosed to the MPO or ITD in the absence of an MPO on a regular basis, and assuring that any changes to those plans are immediately disclosed. (3-20-20)T

**e.** Determining whether a project, which was previously found to conform, has or will have a significant change in design concept and scope since the project plan and TIP conformity determination. (3-20-20)T

**f.** Designing, scheduling, and funding of research and data collection effort pertaining to transportation or air quality planning with implications for transportation conformity. (3-20-20)T

**g.** Reviewing and recommending regional transportation model development by the MPO (e.g., household/travel transportation surveys). (3-20-20)T

**h.** Development of transportation improvement programs. (3-20-20)T

**i.** Development of regional transportation plans. (3-20-20)T

**j.** Consulting when the metropolitan planning area does not include the entire nonattainment area or maintenance area, for planning requirements which may fall under the jurisdiction of more than one (1) MPO or the MPO and ITD. (3-20-20)T

**03. Specific Air Quality Related Activities.** The consultation process shall be undertaken when preparing an applicable implementation plan that includes the revision or addition of a motor vehicle emissions inventory and budget activities in accordance with the procedures in Section 570. Consultation is not required for administrative amendments that do not affect conformity. The lead agency for each activity shall be IDEQ or the MPO. In addition to the Section 570 consultation process, the lead agency shall undertake the following: (3-20-20)T

**a.** Scheduling consultation meetings early in the process of decision on the applicable implementation plan, and prior to making a final recommendation to their management, committees, boards or commissions, for a final decision on such documents; (3-20-20)T

**b.** Arranging for technical committees or teams to assist ICC members in reviewing documents provided by the lead agency. The lead agency may convene technical meetings as necessary; and (3-20-20)T

**c.** Scheduling and conducting meetings of the ICC at regularly scheduled intervals, no less frequently than quarterly. (3-20-20)T

**d.** The ICC may appoint subcommittees to address specific issues pertaining to applicable implementation plan development. Any recommendations of a subcommittee shall be considered by the ICC. (3-20-20)T

**04. Notification Process.** The designated MPO, or ITD in the absence of an MPO, shall notify ICC members and persons on the distribution list of a transportation plan or TIP revisions that merely add or delete exempt projects listed in 40 CFR 93.126 early in the process of decision, and by supplying all relevant documents and information to the same. (3-20-20)T

**572. FINAL CONFORMITY DETERMINATIONS BY USDOT.**

Section 572 establishes the process USDOT shall follow when making final determinations on proposed or anticipated transportation actions subject to transportation conformity. (3-20-20)T

**01. Final Conformity Determination Process.** USDOT will make making final determinations on proposed or anticipated STIP or transportation plan or project conformity by: (3-20-20)T

**a.** Distributing a draft conformity determination to EPA for review and comment. USDOT shall allow a maximum of thirty (30) days for EPA to respond; and (3-20-20)T

**b.** USDOT shall respond in writing to any significant comments raised by EPA within fourteen (14) days of receipt in writing before making a final decision. (3-20-20)T

**02. New or Revised Information.** If USDOT requests any new or revised information to support a STIP, TIP or transportation plan or project conformity determination, then USDOT shall either return the conformity determination for additional consultation pursuant to Section 570, or USDOT shall distribute the new information to the ICC members and persons on the distribution list for review and comment; (3-20-20)T

**a.** When USDOT distributes such new or additional information to ICC members and persons on the distribution list, USDOT shall allow for a maximum of thirty (30) days for the lead agency to respond to any new or revised supporting information; and (3-20-20)T

**b.** USDOT shall distribute a written response within fourteen (14) days of receipt to any significant comments raised by the ICC members and persons on the distribution list on the new or revised supporting information before making a final decision. (3-20-20)T

**573. RESOLVING CONFLICTS.**

Conflicts between state agencies or between state agencies and the MPO regarding a determination of conformity, applicable implementation plan submittal, or other policy decision under Sections 563 through 574, shall be resolved in the following manner. (3-20-20)T

**01. Conflict Resolution at the Level of IDEQ Regions and ITD Districts.** Every effort shall be made to resolve any conflicts among state agencies or between state agencies and an MPO at the regional level. The regional administrator of IDEQ, the District Engineer of ITD and the other agency managers at the regional level of the affected jurisdictions, or their designated representatives shall be involved in conflict resolution at the regional level. (3-20-20)T

**02. Conflict Resolution at the Level of IDEQ and ITD Headquarters.** If conflict(s) are not resolved at the regional level, the issue shall be raised to the level of agency directors for resolution. (3-20-20)T

**03. Conflict Resolution at the Governor's Level.** If conflict(s) are not resolved through Subsection 569.02, then IDEQ shall raise the conflict to the Governor, as follows: (3-20-20)T

**a.** The IDEQ administrator shall request in writing that ITD or the MPO provide IDEQ with written notification of resolution of IDEQ's comments. ITD or the MPO shall provide IDEQ with the requested written notification within fourteen (14) days of receipt of IDEQ's written request. (3-20-20)T

**b.** Within fourteen (14) days of its receipt of the requested written notification, IDEQ may appeal the conformity determination in writing to the Governor. If IDEQ appeals to the Governor, then the final conformity determination must have the concurrence of the Governor. If IDEQ does not appeal in writing to the Governor within fourteen (14) days of its receipt of written notification of resolution of its comments, then the lead transportation agency may proceed with the final conformity determination. (3-20-20)T

**c.** The fourteen (14) days shall start on the date when the IDEQ administrator receives notification of the written resolution of his comments regarding a determination of conformity, applicable implementation plan submittal, or other decision under Sections 563 through 574. (3-20-20)T

**04. Process for Conflict Resolution at the Governor's Level.** The Governor may delegate to another independent official or agency within the state his or her role in this process. The Governor may not delegate his or her role to the head or staff of the state air quality agency or any local air quality agency, ITD, a state transportation commission or board, any agency that has responsibility for any one (1) of these functions, or an MPO. (3-20-20)T

**574. PUBLIC CONSULTATION PROCEDURES.**

Affected agencies making conformity determinations on transportation plans, programs, and projects shall establish a proactive public involvement process which provides opportunity for public review and comment by, at a minimum, providing at the beginning of the public comment period and prior to taking formal action on a conformity

determination for all transportation plans and TIPs, reasonable public access to technical and policy information considered by the agency, and consistent with these requirements and those of 23 CFR 450. Any charges imposed for public inspection and copying should be consistent with the fee schedule contained in 49 CFR 7.95. In addition, these agencies must specifically address, in writing, all public comments relating to known plans for a regionally significant project, which is not receiving FHWA or FTA funding, or approval. This is especially important if the project's emissions have not been properly reflected in the emissions analysis supporting a proposed conformity finding for a transportation plan or TIP. These agencies shall also provide opportunity for public involvement in conformity determinations for projects where otherwise required by law. (3-20-20)T

**575. AIR QUALITY STANDARDS AND AREA CLASSIFICATION.**

Ambient Air Quality Standards. The purpose of Sections 575 through 587 is to establish air quality standards for the state of Idaho which define acceptable ambient concentrations consistent with established air quality criteria. (3-20-20)T

**576. GENERAL PROVISIONS FOR AMBIENT AIR QUALITY STANDARDS.**

**01. Applicability.** The ambient air quality standards established herein shall apply to all of the state. (3-20-20)T

**02. Standard Conditions.** Where applicable, air quality measurements shall be corrected to a reference temperature of twenty-five degrees Celsius (25C) and to a reference pressure of seven hundred and sixty (760) millimeters of mercury absolute. (3-20-20)T

**03. Revisions.** As pertinent air quality criteria information becomes available, such information shall be considered and new or revised air quality standards promulgated as appropriate. (3-20-20)T

**04. Control of Unregulated Contaminants.** The absence of an air quality standard for a specific contaminant shall not preclude action by the Department to control such contaminants to assure the health, welfare and comfort of the people of the State. (3-20-20)T

**05. Methods.** All measurement techniques for determining compliance with 40 CFR Part 50 shall be consistent with those specified in 40 CFR Parts 50 and 53. (3-20-20)T

**577. AMBIENT AIR QUALITY STANDARDS FOR FLUORIDES.**

Primary and secondary air quality standards are those concentrations in the ambient air which result in a total fluoride content in vegetation used for feed and forage of no more than: (3-20-20)T

**01. Annual Standard.** Forty (40) ppm, dry basis -- annual arithmetic mean. (3-20-20)T

**02. Bimonthly Standard.** Sixty (60) ppm, dry basis -- monthly concentration for two (2) consecutive months. (3-20-20)T

**03. Monthly Standard.** Eighty (80) ppm, dry basis -- monthly concentration never to be exceeded. (3-20-20)T

**578. DESIGNATION OF ATTAINMENT, UNCLASSIFIABLE, AND NONATTAINMENT AREAS.**

**01. Annual Review.** The Department shall annually review the available ambient air quality data and when appropriate, redesignate areas as attainment, unclassifiable or nonattainment with the standards in 40 CFR Part 50. (3-20-20)T

**02. Boundaries.** Boundaries for such areas will be based, as much as possible, on actual ambient concentrations and shall take into account such things as the location of air pollutant sources, modeled air quality concentrations, terrain, geographical boundaries and political jurisdictions. (3-20-20)T

**03. Area Designation.** Designation of attainment and unclassifiable areas shall generally be made on a county basis. Redesignation of attainment or unclassifiable areas cannot intersect or be smaller than the area of

impact of any major facility or major modification which establishes the baseline date or is subject to a PSD permit. (3-20-20)T

**04. Redesignations.** Redesignations shall be adopted by the Department after public notice and opportunity for a public hearing and will be submitted by the Governor (or if delegated, the Director) to the U.S. Environmental Protection Agency. (3-20-20)T

**579. BASELINES FOR PREVENTION OF SIGNIFICANT DETERIORATION.**

**01. Baseline Date(s).** (3-20-20)T

**a.** Major Source Baseline Date. (3-20-20)T

i. In the case of PM<sub>10</sub> and sulfur dioxide, January 6, 1975; (3-20-20)T

ii. In the case of nitrogen dioxide, February 8, 1988; and (3-20-20)T

iii. In the case of PM<sub>2.5</sub>, October 20, 2010. (3-20-20)T

**b.** Minor Source Baseline Date. The earliest date after the trigger date on which a major stationary source or a major modification subject to prevention of significant deterioration (PSD) submits a complete application. The trigger date is: (3-20-20)T

i. In the case of PM<sub>10</sub> and sulfur dioxide, August 7, 1977; and (3-20-20)T

ii. In the case of nitrogen dioxide, February 8, 1988. (3-20-20)T

iii. In the case of PM<sub>2.5</sub>, October 20, 2011. (3-20-20)T

**c.** The baseline date is established for each pollutant for which increments or other equivalent measures have been established if: (3-20-20)T

i. The area in which the proposed source or modification would construct is designated as attainment or unclassifiable under Section 107(d) of the Clean Air Act for the pollutant on the date of its complete prevention of significant deterioration (PSD) application; and (3-20-20)T

ii. In the case of a major stationary source, the pollutant would be emitted in significant amounts, or, in the case of a major modification, there would be a significant net emissions increase of the pollutant. (3-20-20)T

**d.** Any minor source baseline date established originally for the TSP increments shall remain in effect and shall apply for purposes of determining the amount of available PM<sub>10</sub> increments, except that the Department may rescind any such minor source baseline date where it can be shown, to the satisfaction of the Department, that the emissions increase from the major stationary source, or the net emissions increase from the major modification, responsible for triggering that date did not result in a significant amount of PM<sub>10</sub> emissions. (3-20-20)T

**02. Baseline Area.** Any intrastate area designated as attainment or unclassifiable under 42 U.S.C. Section 7407(d), in which the major facility or major modification establishing the minor source baseline date would construct or would have an air quality impact for the pollutant for which the baseline date is established, as follows: Equal to or greater than 1 µg/m<sup>3</sup> (annual average) for SO<sub>2</sub>, NO<sub>2</sub>, or PM<sub>10</sub>; or equal or greater than 0.3 µg/m<sup>3</sup> (annual average) for PM<sub>2.5</sub>. (3-20-20)T

**03. Baseline Concentration.** The ambient concentration for a particular regulated air pollutant which exists in the applicable baseline area on the applicable minor source baseline date. (3-20-20)T

**a.** The baseline concentration shall represent: (3-20-20)T

i. The actual emissions from sources in existence on the applicable minor source baseline date; and

(3-20-20)T

ii. The allowable emissions of major facilities and major modifications which commenced construction before the applicable major source baseline date, but were not in operation by the applicable minor source baseline date. (3-20-20)T

b. The baseline concentration shall not include the actual emissions of new major facilities and major modifications which commenced construction on or after the applicable major source baseline date. (3-20-20)T

**580. CLASSIFICATION OF PREVENTION OF SIGNIFICANT DETERIORATION AREAS.**

**01. Restrictions On Area Classification.** (3-20-20)T

a. All of the following areas which were in existence on August 7, 1977, are Class I and may not be redesignated: (3-20-20)T

i. International parks; (3-20-20)T

ii. National wilderness areas which exceed five thousand (5,000) acres; (3-20-20)T

iii. National memorial parks which exceed five thousand (5,000) acres; (3-20-20)T

iv. National parks which exceed six thousand (6,000) acres. (3-20-20)T

b. The following areas are Class II and may be redesignated only as Class I or II: (3-20-20)T

i. National monuments, national primitive areas, national preserves, national recreational areas, national wild and scenic rivers, national wildlife refuges, and national lakeshores or seashores which exceed ten thousand (10,000) acres; or (3-20-20)T

ii. National parks or national wilderness areas established after August 7, 1977, which exceed ten thousand (10,000) acres. (3-20-20)T

c. All other areas in the State are Class II and may be redesignated Class I, II or III. (3-20-20)T

**02. Procedures for Redesignation of Prevention of Significant Deterioration (PSD) Areas.** The Governor may submit to the U.S. Environmental Protection Agency a proposal to redesignate areas as a revision to the SIP. In preparing any such proposal the Department shall: (3-20-20)T

a. Consult with the elected leadership of local and other substate general purpose governments in the area covered by the proposed redesignation; (3-20-20)T

b. Prepare a discussion of the reasons for the proposed redesignation, including a satisfactory description and analysis of the health, environmental, economic, social and energy effects of the proposal. This document will be made available for public inspection at least thirty (30) days prior to the public hearing on the proposed redesignation and the notice announcing the hearing will include notification of the availability of the document; (3-20-20)T

c. Provide written notice to the appropriate Federal Land Manager of any federal lands proposed for redesignation and provide at least thirty (30) days for the Federal Land Manager to confer with the Department and to submit written comments and recommendations. If written comments and recommendations are submitted, the Department shall publish a list of any inconsistency between the proposed redesignation and the comments and recommendations, including the reasons for making a redesignation against the recommendation of the Federal Land Manager; (3-20-20)T

d. Notify other states, Indian governing bodies, and federal land managers whose land may be affected by the proposed redesignation at least thirty (30) days prior to the public hearing; (3-20-20)T

e. For a redesignation to Class III: After consulting with the appropriate committees of the legislature, if it is in session, or the leadership of the legislature, if it is not in session, obtain specific approval by the Governor and by all general purpose units of local government representing a majority of the residents of the area to be redesignated; demonstrate that the redesignation would not cause, or contribute to, violations of any ambient air quality standard, or violations of PSD increments in any other area; and make available, for public inspection prior to the public hearing, any permit application and accompanying material for any major facility or major modification which could only be permitted if the area were designated as Class III; and (3-20-20)T

f. Hold at least one (1) public hearing on the proposed redesignation. (3-20-20)T

**581. PREVENTION OF SIGNIFICANT DETERIORATION (PSD) INCREMENTS.**

The purpose of Section 581 is to establish the allowable degree of deterioration for the areas within the State which have air quality better than the ambient standards. (3-20-20)T

**01. Incorporated Federal Program Requirements - Class I, II and III Areas.** Class I, II, and III area PSD increment requirements contained in 40 CFR 52.21(c) are incorporated by reference into these rules at Section 107. These CFR sections have been codified in the electronic CFR at [www.ecfr.gov](http://www.ecfr.gov). (3-20-20)T

**02. Exceedances.** For any period other than an annual period, the applicable maximum allowable increase may be exceeded during one (1) such period per year at any one (1) location. (3-20-20)T

**03. Exclusions.** The following concentrations shall be excluded in determining compliance with the maximum allowable increases: (3-20-20)T

a. Concentrations attributable to the increase in emissions from facilities which have converted from the use of petroleum products, natural gas, or both by reason of an order in effect under the Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plan in effect pursuant to the Federal Power Act, over the emissions from such facilities before the effective date of such order or plan; this shall not apply more than five (5) years after the effective date of such order or plan; (3-20-20)T

b. Concentrations of PM-10 attributable to the increase in emissions from construction or other temporary emission-related activities of new or modified facilities; (3-20-20)T

c. The increase in concentrations attributable to new facilities outside the United States over the concentrations attributable to existing facilities which are included in the baseline concentration; and (3-20-20)T

d. Concentrations attributable to the temporary increase in emissions of sulfur dioxide, nitrogen dioxide, or particulate matter from facilities which are affected by a revision to the SIP approved by the U.S. Environmental Protection Agency; this exclusion shall not exceed two (2) years unless a longer time is approved by the U.S. Environmental Protection Agency, is not renewable, and applies only to revisions which: (3-20-20)T

i. Would not affect the applicable pollutant concentrations in a Class I area or an area where an applicable increment is known to be violated and would not cause or contribute to a violation of an ambient air quality standard; and (3-20-20)T

ii. Require limitations to be in effect at the end of the approved time period which would ensure that the emissions from facilities affected by the revision would not exceed those concentrations occurring before the revision was approved. (3-20-20)T

**582. -- 584. (RESERVED)**

**585. TOXIC AIR POLLUTANTS NON-CARCINOGENIC INCREMENTS.**

The screening emissions levels (EL) and acceptable ambient concentrations (AAC) for non-carcinogens are as provided in the following table. The AAC in this section are twenty-four (24) hour averages. (3-20-20)T

CAS NUMBER	SUBSTANCE	OEL (mg/m3)	EL (lb/hr)	AAC (mg/m3)

**587. LISTING OR DELISTING TOXIC AIR POLLUTANT INCREMENTS.**

Persons may request the listing of any toxic substance or delisting of any toxic air pollutant in Sections 585 or 586 by filing a petition for adoption of rules in accordance with IDAPA 58.01.23, "Rules of Administrative Procedure Before the Board of Environmental Quality."

(3-20-20)T

**588. -- 591. (RESERVED)**

**592. STAGE 1 VAPOR COLLECTION.**

The purpose of Sections 592 through 598 is to set forth requirements for Stage 1 vapor collection systems. Section 599 sets forth the requirements for gasoline cargo tanks that deliver gasoline to those required to install and operate Stage 1 vapor collection systems. These sections apply to gasoline dispensing facilities (GDF) and gasoline cargo tanks in Ada and Canyon Counties only. Nothing in these rules is intended to supersede or render inapplicable any federal, state, or local laws, including, but not limited to, the National Emission Standards for Hazardous Air Pollutants for Source Category: Gasoline Dispensing Facilities, 40 CFR Part 63, Subpart CCCCCC, of the federal Clean Air Act.

(3-20-20)T

**593. AFFECTED EQUIPMENT OR PROCESSES.**

**01. Applicability.** Sections 592 through 598 apply to transfers of gasoline to underground storage tanks with a tank capacity of ten thousand (10,000) gallons and not otherwise subject to 40 CFR 63.11118. The emission sources include the underground gasoline storage tanks and associated equipment components in vapor or liquid gasoline service at new, reconstructed, or existing GDFs. Pressure/vacuum vents on underground gasoline storage tanks and the equipment necessary to unload product from cargo tanks into the storage tanks at GDFs are covered emission sources.

(3-20-20)T

**02. New Sources.** A source is a new source if construction commenced on the source after April 1, 2009.

(3-20-20)T

**03. Reconstructed Sources.** A source is reconstructed if meeting the criteria for reconstruction as defined in 40 CFR 63.2, incorporated by reference into these rules at Section 107.

(3-20-20)T

**04. Existing Sources.** A source is an existing source if it is not new or reconstructed. (3-20-20)T

**594. COMPLIANCE DATES.**

**01. New or Reconstructed Sources.** For a new or reconstructed source, the owner or operator must

comply with the standards in Sections 595 and 596 no later than April 1, 2009 or upon startup, whichever is later. Owners or operators of new sources shall install dual point systems. (3-20-20)T

**02. Existing Sources.** For an existing source, the owner or operator must comply with the standards in Sections 595 and 596 upon installation of the Stage 1 vapor collection system, or by May 1, 2010, whichever is earlier. (3-20-20)T

**595. SUBMERGED FILL REQUIREMENTS.**

The owner or operator must only load gasoline into underground storage tanks at the facility by utilizing submerged filling. (3-20-20)T

**01. Installed On or Before November 9, 2006.** Submerged fill pipes installed on or before November 9, 2006 must be no more than twelve (12) inches from the bottom of the storage tank. (3-20-20)T

**02. Installed After November 9, 2006.** Submerged fill pipes installed after November 9, 2006 must be no more than six (6) inches from the bottom of the storage tank. (3-20-20)T

**596. VAPOR BALANCE REQUIREMENTS.**

The owner or operator of a GDF must comply with the following requirements on and after the applicable compliance date in Section 594: (3-20-20)T

**01. Loading.** When loading an underground gasoline storage tank equipped with a vapor balance system, connect and ensure the proper operation of the vapor balance system whenever gasoline is being loaded. (3-20-20)T

**02. Maintenance.** Maintain all equipment associated with the vapor balance system to be vapor tight and in good working order. (3-20-20)T

**03. Inspection.** In order to ensure that the vapor balance equipment is maintained to be vapor tight and in good working order, inspect the vapor balance equipment on an annual basis to discover potential or actual equipment failures. A log form is available on the Department's website at <http://www.deq.idaho.gov>. (3-20-20)T

**04. Repair.** Replace, repair or modify any worn or ineffective component or design element within twenty-four (24) hours to ensure the vapor-tight integrity and efficiency of the vapor balance system. If repair parts must be ordered, either a written or verbal order for those parts must be initiated within two (2) working days of detecting such a leak. Such repair parts must be installed within five (5) working days after receipt. (3-20-20)T

**597. TESTING AND MONITORING REQUIREMENTS.**

The owner or operator of a GDF must comply with the following requirements within ninety (90) days of registration under Section 598 and every three (3) years thereafter. (3-20-20)T

**01. Testing.** (3-20-20)T

**a.** The owner or operator must demonstrate compliance with the leak rate and cracking pressure requirements, specified in item 1(g) of Table 1 to 40 CFR Part 63, Subpart CCCCCC, incorporated by reference into these rules at Section 107, for pressure-vacuum vent valves installed on underground gasoline storage tanks using the test methods identified in Subsection 597.01.a.i. or 597.01.a.ii. (3-20-20)T

**i.** California Air Resources Board Vapor Recovery Test Procedure TP-201.1E,--Leak Rate and Cracking Pressure of Pressure/Vacuum Vent Valves, adopted October 8, 2003 (see 40 CFR 63.14, incorporated by reference into these rules at Section 107). (3-20-20)T

**ii.** Use alternative test methods and procedures in accordance with the alternative test method requirements in 40 CFR 63.7(f), incorporated by reference into these rules at Section 107. (3-20-20)T

**b.** The owner or operator must demonstrate compliance with the static pressure performance requirement, specified in item 1(h) of Table 1 to 40 CFR Part 63, Subpart CCCCCC, for the vapor balance system by

conducting a static pressure test on the underground gasoline storage tanks using the test methods identified in paragraph 597.01.b.i. or 597.01.b.ii. (3-20-20)T

i. California Air Resources Board Vapor Recovery Test Procedure TP-201.3,--Determination of 2-Inch WC Static Pressure Performance of Vapor Recovery Systems of Dispensing Facilities, adopted April 12, 1996, and amended March 17, 1999 (see 40 CFR 63.14, incorporated by reference into these rules at Section 107). (3-20-20)T

ii. Use alternative test methods and procedures in accordance with the alternative test method requirements in 40 CFR 63.7(f), incorporated by reference into these rules at Section 107. (3-20-20)T

**02. Alternative Testing.** The owner or operator of a GDF, choosing, under the provisions of 40 CFR 63.6(g), to use a vapor balance system other than that described in Table 1 to 40 CFR Part 63, Subpart CCCCCC, must demonstrate to the Department the equivalency of their vapor balance system to that described in Table 1 to 40 CFR Part 63, Subpart CCCCCC, using the procedures specified in Subsections 597.02.a. and 597.02.b. (3-20-20)T

a. The owner or operator must demonstrate compliance by conducting a performance test on the vapor balance system to demonstrate that the vapor balance system achieves 95 percent reduction using the California Air Resources Board Vapor Recovery Test Procedure TP-201.1,--Volumetric Efficiency for Phase I Vapor Recovery Systems, adopted April 12, 1996, and amended February 1, 2001, and October 8, 2003, (see 40 CFR 63.14, incorporated by reference into these rules at Section 107). (3-20-20)T

b. The owner or operator must, during the performance test required under Subsection 597.02.a., determine and document alternative acceptable values for the leak rate and cracking pressure requirements specified in item 1(g) of Table 1 to 40 CFR Part 63, Subpart CCCCCC, and for the static pressure performance requirement in item 1(h) of Table 1 to 40 CFR Part 63, Subpart CCCCCC. (3-20-20)T

**598. REGISTRATION, RECORDKEEPING, AND REPORTING REQUIREMENTS.**

**01. Registration.** (3-20-20)T

a. Any GDF subject to these rules shall: (3-20-20)T

i. Within thirty (30) days of installation of the Stage 1 vapor collection system, the owner or operator of the GDF shall submit to the Department a registration which provides, at a minimum, the operation name and address, signature of the owner or operator in accordance with Section 123 of these rules, the location of records and reports required by Subsections 598.02 and 598.03 (including contact person's name, address and telephone number), the number of underground gasoline storage tanks, the number of gasoline tank pipe vents, and the date of completion of installation of the Stage 1 vapor collection system and pressure/vacuum relief valve; and (3-20-20)T

ii. The registration certification shall be displayed at the GDF. (3-20-20)T

b. Upon modification of an existing Stage 1 vapor collection system or pressure/vacuum relief valve, the owner or operator of the GDF shall submit to the Department a registration that details the changes to the information provided in the previous registration and which includes the signature of the owner or operator. The registration must be submitted to the Department within thirty (30) days after completion of such modification. (3-20-20)T

c. A new registration must be submitted to the Department within thirty (30) days after any change in ownership of the GDF. (3-20-20)T

**02. Recordkeeping Requirements.** (3-20-20)T

a. Each owner or operator must keep the following records: (3-20-20)T

i. Records of all tests performed under Section 597; (3-20-20)T

ii. Records related to the operation and maintenance of vapor balance equipment required under Section 596. Any vapor balance component defect must be logged and tracked by station personnel on a monthly basis using forms provided by the Department or a reasonable facsimile; and (3-20-20)T

iii. Records of permanent changes made at the GDF and vapor balance equipment which may affect emissions. (3-20-20)T

b. Records required under 598.02.a. must be kept for a period of five (5) years and must be made available for inspection by the Department upon request. (3-20-20)T

**03. Reporting Requirements.** Each owner or operator subject to the management practices in Section 596 must report to the Department the results of all volumetric efficiency tests required under Section 597. Reports submitted under these rules must be submitted within thirty (30) days of the completion of the performance testing. (3-20-20)T

**599. GASOLINE CARGO TANKS.**

**01. Prohibitions.** After May 1, 2010, or if a Stage 1 vapor collection system is installed and operating, whichever is earlier, owners or operators of gasoline cargo tanks that unload gasoline into an underground gasoline storage tank with a capacity of ten thousand (10,000) gallons or more, in Ada or Canyon Counties, shall comply with Table 2 to 40 CFR Part 63, Subpart CCCCCC, incorporated by reference into these rules at Section 107. Table 2 requires that the following conditions are met prior to unloading the gasoline: (3-20-20)T

a. All hoses in the vapor balance system are properly connected; (3-20-20)T  
b. The adapters or couplers that attach to the vapor line on the storage tank have closures that seal upon disconnect; (3-20-20)T

c. All vapor return hoses, couplers, and adapters used in the gasoline delivery are vapor-tight; (3-20-20)T

d. All tank truck vapor return equipment is compatible in size and forms a vapor-tight connection with the vapor balance equipment on the GDF storage tank; and (3-20-20)T

e. All hatches on the tank truck are closed and securely fastened. (3-20-20)T

f. The filling of storage tanks at GDF shall be limited to unloading by vapor-tight gasoline cargo tanks. Documentation that the cargo tank has met the specifications of EPA Method 27 (40 CFR Part 60, Appendix A-8, incorporated by reference into these rules at Section 107), shall be carried on the cargo tank. (3-20-20)T

**02. Compliance.** The owner or operator of a gasoline cargo tank subject to Section 599 shall ensure compliance with Table 2 to 40 CFR Part 63, Subpart CCCCCC, by visually inspecting the requirements set out in Subsections 599.01.a., 599.01.b., 599.01.d., and 599.01.e. and by successfully completing the testing requirements set out in Subsections 599.01.c. and 599.01.f. (3-20-20)T

**03. Recordkeeping and Reporting.** (3-20-20)T

a. The owner or operator of the gasoline cargo tank subject to Section 599 shall maintain records of all certification testing and repairs. The records must identify the gasoline cargo tank; the date of the test or repair; and if applicable, the type of repair and the date of retest. The records must be maintained in a legible, readily available condition for at least two (2) years after the date of testing or repair was completed and must be available for inspection by the Department upon request. (3-20-20)T

b. Copies of all tests required under Subsection 599.01 shall be submitted to the Department within thirty (30) days of certification testing. (3-20-20)T

**600. RULES FOR CONTROL OF OPEN BURNING.**

The purpose of Sections 600 through 624 is to reduce the amount of emissions and minimize the impact of open

burning to protect human health and the environment from air pollutants resulting from open burning as well as to reduce the visibility impairment in mandatory Class I Federal Areas in accordance with the regional haze long-term strategy referenced at Section 667. (3-20-20)T

**601. FIRE PERMITS, HAZARDOUS MATERIALS, AND LIABILITY.**

Compliance with the provisions of Sections 600 through 623 does not exempt or excuse any person from complying with applicable laws and ordinances of other jurisdictions responsible for fire control or hazardous material disposal or from liability for damages or injuries which may result from open burning. (3-20-20)T

**602. NONPREEMPTION OF OTHER JURISDICTIONS.**

The provisions of Sections 600 through 623 are not intended to interfere with the rights of any city, county or other governmental entities or agencies to provide equal or more stringent control of open burning within their respective jurisdictions. (3-20-20)T

**603. GENERAL RESTRICTIONS.**

**01. Categories and Materials.** No person shall allow, suffer, cause or permit any open burning operation unless it is a category of open burning set forth in Sections 600 through 623 and the materials burned do not include any of the following: (3-20-20)T

- a. Garbage, as defined in Section 006. (3-20-20)T
- b. Dead animals, animal parts, or animal wastes (feces, feathers, litter, etc.) except as provided in Section 616. (3-20-20)T
- c. Motor vehicles, parts, or any materials resulting from a salvage operation. (3-20-20)T
- d. Tires or other rubber materials or products. (3-20-20)T
- e. Plastics. (3-20-20)T
- f. Asphalt or composition roofing or any other asphaltic material or product. (3-20-20)T
- g. Tar, tar paper, waste or heavy petroleum products, or paints. (3-20-20)T
- h. Lumber or timbers treated with preservatives. (3-20-20)T
- i. Trade waste, as defined in Section 006, except as specifically allowed under Sections 600 through 623. (3-20-20)T
- j. Insulated wire. (3-20-20)T
- k. Pathogenic wastes. (3-20-20)T
- l. Hazardous wastes. (3-20-20)T

**02. Air Pollution Episodes.** No person shall allow, suffer, cause or permit any open burning to be initiated during any stage of an air pollution episode declared by the Department in accordance with Sections 550, through 562. (3-20-20)T

**03. Emergency Authority.** In accordance with Title 39, Chapter 1, Idaho Code, the Department has the authority to require immediate abatement of any open burning in cases of emergency requiring immediate action to protect human health or safety. (3-20-20)T

**604. -- 605. (RESERVED)**

**606. CATEGORIES OF ALLOWABLE BURNING.**

The purpose of Sections 606 through 623 is to establish categories of open burning that are allowed when done according to prescribed conditions. Unless specifically exempted each category in Sections 606 through 623 is subject to all of the provisions of Sections 600 through 605. (3-20-20)T

**607. RECREATIONAL AND WARMING FIRES.**

Fires used for the preparation of food or for recreational purposes (e.g. campfires, ceremonial fires, and barbecues), or small fires set for handwarming purposes, are allowable forms of open burning. (3-20-20)T

**608. WEED CONTROL FIRES.**

Open outdoor fires used for the purpose of weed abatement such as along fence lines, canal banks, and ditch banks is an allowable forms of open burning. (3-20-20)T

**609. TRAINING FIRES.**

Fires used by qualified personnel to train firefighters in the methods of fire suppression and fire fighting techniques, or to display certain fire ecology or fire behavior effects are allowable forms of open burning. Training facilities shall notify the Department prior to igniting any training fires. Training fires shall not be allowed to smolder after the training session has terminated. Training fires are exempt from Subsections 603.01.c. and 603.01.e. through 603.01.j. (3-20-20)T

**610. INDUSTRIAL FLARES.**

Industrial flares, used for the combustion of flammable gases are allowable forms of open burning. Industrial flares are subject to permitting requirements in Sections 200 through 223. (3-20-20)T

**611. RESIDENTIAL SOLID WASTE DISPOSAL FIRES.**

**01. Fires Allowed.** Open outdoor fires used to dispose of solid waste (e.g. rubbish, tree leaves, yard trimmings, gardening waste, etc.) excluding garbage produced by the operation of a domestic household is an allowable form of open burning when the following provisions are met: (3-20-20)T

a. No scheduled house to house solid waste collection service is available; and (3-20-20)T

b. The burning is conducted on the property where the solid waste was generated. (3-20-20)T

**02. Fires Exempt.** Open outdoor fires used to dispose of tree leaves, gardening waste or yard trimmings are exempt from Subsection 611.01.a. when conducted in accordance with local governmental ordinances or rules which allow for the open burning of tree leaves, gardening waste or yard trimming during certain periods of the year. (3-20-20)T

**612. LANDFILL DISPOSAL SITE FIRES.**

The use of fires for the disposal of solid waste at any solid waste landfill disposal site or facility is an allowable form of open burning only if conducted in accordance with IDAPA 58.01.06, "Solid Waste Management Rules and Standards" or the Solid Waste Facilities Act, Chapter 74, Title 39, Idaho Code. (3-20-20)T

**613. ORCHARD FIRES.**

The use of heating devices to protect orchard crops from frost damage and the use of fires to dispose of orchard clippings are allowable forms of open burning when the following provisions are met: (3-20-20)T

**01. Open-Pot Heaters.** The use of stackless open-pot heaters is prohibited. (3-20-20)T

**02. Heating Device Opacity.** Orchard heating device with visible emissions exceeding forty percent (40%) opacity at normal operating conditions shall not be used. Opacity shall be determined by the procedures contained in Section 625. (3-20-20)T

**03. Heating Device Emissions.** All heaters purchased after September 21, 1970, shall emit no more than one (1.0) gram per minute of solid carbonaceous matter at normal operating conditions as certified by the manufacturer. At the time of purchase, the seller shall certify in writing to the purchaser that all new equipment is in compliance with Section 613. (3-20-20)T

**04. Orchard Clippings.** The open burning of orchard clippings shall be conducted on the property where the clippings were generated. (3-20-20)T

**614. PRESCRIBED BURNING.**

The use of open outdoor fires to obtain the objectives of prescribed fire management burning is an allowable form of open burning when the provisions of Section 614 are met. (3-20-20)T

**01. Burning Permits or Prescribed Fire Plans.** (3-20-20)T

**a.** Whenever a burning permit or prescribed fire plan is required by the Department of Lands, U.S.D.A. Forest Service, or any other state or federal agency responsible for land management, any person who conducts or allows prescribed burning shall meet all permit and/or plan conditions and terms which control smoke. (3-20-20)T

**b.** The Department will seek interagency agreements to assure permits or plans issued by agencies referred to in Subsection 614.01.a. provide adequate consideration for controlling smoke from prescribed burning. (3-20-20)T

**02. Smoke Management Plans for Prescribed Burning.** (3-20-20)T

**a.** Whenever a permit or plan is not required by the Department of Lands, U.S.D.A. Forest Service, or any other state or federal agency responsible for land management, any person who conducts or allows prescribed burning shall meet all conditions set forth in a Smoke Management Plan for Prescribed Burning. (3-20-20)T

**b.** The Department will develop and put into effect a Smoke Management Plan for Prescribed Burning consistent with the purpose of Sections 600 through 616. (3-20-20)T

**03. Rights-of-Way Fires.** The open burning of woody debris generated during the clearing of rights of way shall be open burned according to Sections 38-101 and 38-401, Idaho Code, IDAPA 20 Title 16 and Sections 606 through 616 of these rules. (3-20-20)T

**615. DANGEROUS MATERIAL FIRES.**

Fires used or permitted by a public or military fire chief to dispose of materials (including military ordnance) which present a danger to life, valuable property or the public welfare, or for the purpose of prevention of a fire hazard when no practical alternative method of disposal or removal is available are allowable forms of open burning. (3-20-20)T

**616. INFECTIOUS WASTE BURNING.**

Upon the order of a public health officer, fires used to dispose of diseased animals or infested material are an allowable form of open burning and exempt from Subsection 603.01.k. (3-20-20)T

**617. CROP RESIDUE DISPOSAL.**

The open burning of crop residue on fields where the crops were grown is an allowable form of open burning if conducted in accordance with Section 39-114, Idaho Code, and Sections 618 through 624 of these rules. (3-20-20)T

**618. PERMIT BY RULE.**

**01. General Requirements.** All persons shall be deemed to have a permit by rule if they comply with all the provisions of Sections 618 through 624. No person shall conduct an open burn of crop residue without obtaining the applicable permit by rule. Those persons applying for a spot burn, baled agricultural residue burn, or propane flaming permit shall comply with the provisions in Section 624. The permit by rule does not relieve the applicant from obtaining all other required permits and approvals required by other state and local fire agencies or permitting authorities. (3-20-20)T

**02. Forms.** The Department shall provide the appropriate forms to complete the permit by rule. Forms may be available at the Department offices or on the Department website <http://www.deq.idaho.gov>. (3-20-20)T

**619. REGISTRATION FOR PERMIT BY RULE.**

Any person applying to burn crop residue shall annually provide the following registration information to the Department at least thirty (30) days prior to the date the applicant proposes to burn: (3-20-20)T

**01. Location of Property.** Street address of the property upon which the proposed burning of crop residue will occur or, if there is no street address of the property, the legal description of the property using longitude and latitude coordinates or township, range and section for the Idaho meridian; (3-20-20)T

**02. Applicant Information.** Name, mailing address, and telephone number of the applicant, and the person who will be responsible for conducting the proposed burning of crop residue and the portable form of communication referenced in Subsection 622.01.c. of this rule; (3-20-20)T

**03. Plot Plan.** A plot plan showing the location of each proposed crop residue burning area in relation to the property lines and indicating the distances and directions of the nearest residential, public, and commercial properties, and roads; (3-20-20)T

**04. Type, Acreage and Fuel Characteristics of Crop Residue Proposed to be Burned.** The crop type, area over which burning will be conducted (acres), and other fuel characteristics; (3-20-20)T

**05. Preventive Measures.** A description of the measures that will be taken to prevent escaped burns or withhold additional material such that the fire burns down, including but not limited to, the availability of water and plowed firebreaks; and (3-20-20)T

**06. Date of Burning.** The requested date(s) when the proposed crop residue burning would be conducted or the proposed date the field will be available to be burned. (3-20-20)T

**620. BURN FEE.**

**01. Burn Fee.** The burn fee in Section 39-114, Idaho Code, shall be paid in its entirety within thirty (30) days following the receipt of the annual burn fee invoice. See also Subsection 624.02.a. for registration and fee requirements for burning under a spot and baled agricultural residue burn permit. The burn fee should be sent to:

Crop Residue Burn Fee  
Fiscal Office  
Idaho Department of Environmental Quality  
1410 N. Hilton, Boise, ID 83706-1255

(3-20-20)T

**02. Effect of Delinquent Fee Payment.** The Department shall not accept or process a registration for a permit by rule to burn for any person having burn fees delinquent, in full or in part. (3-20-20)T

**621. BURN DETERMINATION.**

**01. Burn Approval Criteria.** The Department shall develop a Crop Residue Operating Guide to use in assisting in the determination of burn approvals. The permittee shall obtain initial approval from the Department for the proposed burn at least twelve (12) hours in advance of the burn. The permittee shall confirm, with the Department, the approval the morning of the proposed burn. The Department may shorten this time frame if meteorological or other applicable conditions change that will impact the air quality during the proposed burn period. To approve a permittee's request to burn, the Department must determine that ambient air quality levels do not exceed ninety percent (90%) of the ozone national ambient air quality standard (NAAQS) and seventy-five percent (75%) of the level of any other NAAQS on any day and are not projected to exceed such level over the next twenty-four (24) hours, and ambient air quality levels have not reached, and are not forecasted to reach and persist at, eighty percent (80%) of the one (1) hour action criteria for particulate matter under Section 556 of these rules. In making this determination, the Department shall consider the following: (3-20-20)T

- a.** Expected Emissions. Expected emissions from all burns proposed for the same dates; (3-20-20)T
- b.** Proximity of Other Burns. The proximity of other burns and other potential emission sources within

- the area to be affected by the proposed burn; (3-20-20)T
- c.** Moisture Content. Moisture content of the material to be burned; (3-20-20)T
  - d.** Acreage, Crop Type, and Fuel Characteristics. Acreage, crop type, and fuel characteristics to be burned; (3-20-20)T
  - e.** Meteorological Conditions. Meteorological conditions; (3-20-20)T
  - f.** Proximity to Institutions with Sensitive Populations. The proximity of the burn to institutions with sensitive populations, including public schools while in session; hospitals; residential health care facilities for children, the elderly or infirm; and other institutions with sensitive populations as approved by the Department. The Department shall not authorize a burn if conditions are such that institutions with sensitive populations will be adversely impacted or when the plume is predicted to impact such institutions; (3-20-20)T
  - g.** Proximity to Public Roadways. Proximity to public roadways; (3-20-20)T
  - h.** Proximity to Airports. Proximity to airports; and (3-20-20)T
  - i.** Other Relevant Factors. Any other factors relevant to preventing exceedances of the air quality concentrations of Section 621. (3-20-20)T

**02. Notification of Approval.** If the Department approves the burn, then it will post on its website written notification of the approval and any specific conditions under which the burn is approved. Special conditions may include, but are not limited to: (3-20-20)T

- a.** Conditions for burns near institutions with sensitive populations; (3-20-20)T
- b.** The requirement to withhold additional material such that the fire burns down if the Department determines pollutant concentrations reach the levels in Subsection 621.01 of this rule; (3-20-20)T
- c.** Conditions to ensure the burn does not create a hazard for travel on a public roadway; and (3-20-20)T
- d.** The requirement to consult with the Department to determine actions to be taken if conditions at the burn site fail to satisfy the conditions specified in the notice of approval to burn. (3-20-20)T

**622. GENERAL PROVISIONS.**

**01. Burn Provisions.** All persons in Idaho intending to dispose of crop residue through burning shall abide by the following provisions: (3-20-20)T

- a.** Burning Prohibitions. Burning of crop residue shall not be conducted on weekends, federal or state holidays, or after sunset or before sunrise; (3-20-20)T
- b.** Designated Burn Day. Burning of crop residue shall not be conducted unless the Department has designated that day a burn day and the permittee has received individual approval specifying the conditions under which the burn may be conducted; (3-20-20)T
- c.** Portable Form of Communication. The person conducting the burning must have on their possession a portable form of communication such as a cellular phone or radio of compatible frequency with the Department in order to receive burn approval information or information that might require measures to withhold additional material such that the fire burns down; (3-20-20)T
- d.** Location of Field Burning. Open burning of crop residue shall be conducted in the field where it was generated; (3-20-20)T

**e.** Limitations on Burning. When required by the conditions of the notice of approval to burn, the permittee burning in proximity to institutions with sensitive populations shall immediately extinguish the fire or withhold additional material such that the fire burns down, unless the Department determines that the burn will not have an adverse impact on such institutions; (3-20-20)T

**f.** Training Session. All persons intending to burn crop residue shall attend a crop residue burning training session provided by the Idaho Department of Environmental Quality or the Idaho State Department of Agriculture and shall attend a crop residue disposal refresher training session every five (5) years; (3-20-20)T

**g.** Air Stagnation or Degraded Air Quality. All field burning shall be prohibited when the Department issues an air quality forecast and caution, alert, warning or emergency as identified in Section 552 of these rules; (3-20-20)T

**h.** Allowable Forms of Open Burning. The use of reburn machines, propane flammers, or other portable devices to ignite or reignite a field for the purposes of crop residue burning shall be considered an allowable form of open burning. Tires and other restricted material described in Subsection 603.01, of this rule, are not allowed for ignition of fields; (3-20-20)T

**i.** Additional Burn Permits. All persons intending to burn crop residue shall obtain any additional applicable permits from federal, state or local fire control authorities prior to receiving approval from the Department to burn crop residue; and (3-20-20)T

**j.** Reporting to the Department. All persons burning crop residue shall report to the Department the date burning was conducted, the actual number and location of acres burned, and other information as required by the Department. The Department may restrict further burning by a permittee until completed burns are reported. (3-20-20)T

**k.** Specific Conditions. The open burning of crop residue shall be conducted in accordance with the specific conditions in the permittee's permit by rule. (3-20-20)T

**02. Annual Report.** The Department shall develop an annual report that shall include, at a minimum, an analysis of the causes of each exceedance of a limitation in Section 621 of this rule, if any, and an assessment of the circumstances associated with any reported endangerment to human health associated with a burn. The report shall include any proposed revisions to these rules or the Crop Residue Operating Guide deemed necessary to prevent future exceedances. (3-20-20)T

**03. Advisory Committee.** The Department will assemble an advisory committee consisting of representatives from environmental organizations, farming organizations, health organizations, tribal organizations, the Idaho State Department of Agriculture, the Idaho Department of Environmental Quality, and others to discuss open burning of crop residue issues. (3-20-20)T

**623. PUBLIC NOTIFICATION.**

**01. Designation of Burn Days.** The Director or his designee shall designate for a given county or airshed within a county burn or no-burn days. (3-20-20)T

**02. Posting on Website.** The Department shall post daily on its website ([www.deq.idaho.gov](http://www.deq.idaho.gov)): (3-20-20)T

**a.** Whether a given day is a burn or no-burn day; (3-20-20)T

**b.** The location and number of acres permitted to be burned; (3-20-20)T

**c.** Meteorological conditions and any real time ambient air quality monitoring data; and (3-20-20)T

**d.** A toll-free number to receive requests for information (1-800-345-1007). (3-20-20)T

**03. E-Mail Update Service.** The Department shall provide an opportunity for interested persons to sign up to receive automatic e-mail updates for information regarding the open burning of crop residue. (3-20-20)T

**624. SPOT BURN, BALED AGRICULTURAL RESIDUE BURN, AND PROPANE FLAMING PERMITS.**

**01. Applicability.** (3-20-20)T

**a. Spot Burn.** A spot burn includes no more than one (1) acre of evenly distributed crop residue or two (2) tons of piled crop residue. The open burning of weed patches, spots of heavy residue, equipment plugs and dumps, pivot corners of fields, and pastures may constitute a spot burn. Spot burn does not include the open burning of wind rows. (3-20-20)T

**b. Baled Agricultural Residue Burn.** An open burn used to dispose of broken, mildewed, diseased, or otherwise pest-ridden bales still in the field where they were generated. (3-20-20)T

**c. Propane Flaming.** The use of flame-generating equipment to briefly apply flame and/or heat to the topsoil of a cultivated field of pre-emerged or plowed-under crop residue with less than five hundred fifty (550) pounds of burnable, non-green residue per acre in order to control diseases, insects, pests, and weed emergence. (3-20-20)T

**02. Spot and Baled Agricultural Residue Burn Permit.** (3-20-20)T

**a. Registration and Fee Requirements.** Any person applying for a spot and baled agricultural residue burn permit under Section 624 shall provide the registration information listed in Subsections 619.01 and 619.02 and pay a nonrefundable fee of twenty dollars (\$20) to the Department (see Section 620) at least fourteen (14) days prior to the date the applicant proposes to conduct the first burn of the calendar year. (3-20-20)T

**b. Term and Acreage.** A spot and baled agricultural residue burn permit is valid for the calendar year in which it is issued and is good for a cumulative total of no more than ten (10) acres of spots and/or equivalent piled or baled agricultural residue during the year and no more than one (1) acre of spots and/or equivalent piled or baled agricultural residue per day. Two (2) tons of piled or baled agricultural residue is assumed to be equivalent to one (1) acre. (3-20-20)T

**03. Propane Flaming Permit.** Persons conducting propane flaming as defined under Subsection 624.01.c. shall be deemed to have a permit by rule if they comply with the applicable provisions in Subsections 624.04 and 624.05. (3-20-20)T

**04. General Provisions.** All persons intending to burn under Section 624 shall comply with the provisions of Subsections 622.01.c., 622.01.d., 622.01.f., through 622.01.i., and 622.01.k. in addition to the following: (3-20-20)T

**a.** The permittee is responsible to ensure that adequate measures are taken so the burn does not create a hazard for travel on a public roadway. (3-20-20)T

**b.** Burning is not allowed if the proposed burn location is within three (3) miles of an institution with a sensitive population and the surface wind speed is greater than twelve (12) miles per hour or if the smoke is adversely impacting or is expected to adversely impact an institution with a sensitive population. (3-20-20)T

**c. Designated Burn Day.** Burning shall not be conducted unless the Department has designated that day a burn day, which for purposes of Section 624 may include weekends and holidays, and the permittee burns within the burn window provided on the Department's website at [www.deq.idaho.gov](http://www.deq.idaho.gov). Spot and baled agriculture residue burns shall not smolder and create smoke outside of the designated time period burning is allowed. (3-20-20)T

**05. Recordkeeping.** Permittees shall record the date, time frame, type of burn, type of crop, and

amount burned on the date of the burn. Records of such burns shall be retained for two (2) years and made available to the Department upon request. (3-20-20)T

**625. VISIBLE EMISSIONS.**

A person shall not discharge any air pollutant into the atmosphere from any point of emission for a period or periods aggregating more than three (3) minutes in any sixty (60) minute period which is greater than twenty percent (20%) opacity as determined by this section. (3-20-20)T

- 01. Exemptions.** The provisions of this section shall not apply to: (3-20-20)T
  - a.** Kraft Process Lime Kilns, if operating prior to January 24, 1969; or (3-20-20)T
  - b.** Carbon Monoxide Flare Pits on Elemental Phosphorous Furnaces, if operating prior to January 24, 1969; or (3-20-20)T
  - c.** Liquid Phosphorous Loading Operations, if operating prior to January 24, 1969; or (3-20-20)T
  - d.** Wigwam Burners; or (3-20-20)T
  - e.** Kraft Process Recovery Furnaces. (3-20-20)T
  - f.** Calcining Operations Utilizing an Electrostatic Precipitator to Control Emissions, if operating prior to January 24, 1969. (3-20-20)T

**02. Standards for Exempted Sources.** Except as provided in Section 626, for sources exempted from the provisions of this section, a person shall not discharge into the atmosphere from any point of emission, for any air pollutant for a period or periods aggregating more than three (3) minutes in any sixty (60) minute period which is greater than forty percent (40%) opacity as determined by this section. (3-20-20)T

**03. Exception.** The provisions of this section shall not apply when the presence of uncombined water, nitrogen oxides and/or chlorine gas are the only reason(s) for the failure of the emission to comply with the requirements of this rule. (3-20-20)T

**04. Test Methods and Procedures.** The appropriate test method under this section shall be EPA Method 9 (contained in 40 CFR Part 60) with the method of calculating opacity exceedances altered as follows: (3-20-20)T

- a.** Opacity evaluations shall be conducted using forms available from the Department or similar forms approved by the Department. (3-20-20)T
- b.** Opacity shall be determined by counting the number of readings in excess of the percent opacity limitation, dividing this number by four (4) (each reading is deemed to represent fifteen (15) seconds) to find the number of minutes in excess of the percent opacity limitation. This method is described in the Procedures Manual for Air Pollution Control, Section II (Evaluation of Visible Emissions Manual), September 1986. (3-20-20)T
- c.** Sources subject to New Source Performance Standards must calculate opacity as detailed above and as specified in 40 CFR Part 60. (3-20-20)T

**05. Applicability.** Section 625 shall not apply to the open burning of crop residue. (3-20-20)T

**626. GENERAL RESTRICTIONS ON VISIBLE EMISSIONS FROM WIGWAM BURNERS.**

Except for a period of one (1) hour following start up a person shall not discharge into the atmosphere from any wigwam burner any air pollutant for a period or periods aggregating more than three (3) minutes in any sixty (60) minute period which is greater than twenty percent (20%) opacity as determined by the procedures contained in Section 625. (3-20-20)T

**627. -- 649. (RESERVED)**

**650. RULES FOR CONTROL OF FUGITIVE DUST.**

The purpose of Sections 650 through 652 is to require that all reasonable precautions be taken to prevent the generation of fugitive dust. (3-20-20)T

**651. GENERAL RULES.**

All reasonable precautions shall be taken to prevent particulate matter from becoming airborne. In determining what is reasonable, consideration will be given to factors such as the proximity of dust emitting operations to human habitations and/or activities, the proximity to mandatory Class I Federal Areas and atmospheric conditions which might affect the movement of particulate matter. Some of the reasonable precautions may include, but are not limited to, the following: (3-20-20)T

**01. Use of Water or Chemicals.** Use, where practical, of water or chemicals for control of dust in the demolition of existing buildings or structures, construction operations, the grading of roads, or the clearing of land. (3-20-20)T

**02. Application of Dust Suppressants.** Application, where practical, of asphalt, oil, water or suitable chemicals to, or covering of dirt roads, material stockpiles, and other surfaces which can create dust. (3-20-20)T

**03. Use of Control Equipment.** Installation and use, where practical, of hoods, fans and fabric filters or equivalent systems to enclose and vent the handling of dusty materials. Adequate containment methods should be employed during sandblasting or other operations. (3-20-20)T

**04. Covering of Trucks.** Covering, when practical, open bodied trucks transporting materials likely to give rise to airborne dusts. (3-20-20)T

**05. Paving.** Paving of roadways and their maintenance in a clean condition, where practical. (3-20-20)T

**06. Removal of Materials.** Prompt removal of earth or other stored material from streets, where practical. (3-20-20)T

**652. AGRICULTURAL ACTIVITIES.**

For agricultural activity purposes, operating in conformance with generally recognized agricultural practices constitutes reasonable control of fugitive dust. For the purpose of Section 652: (3-20-20)T

**01. Agricultural Activity.** An “agricultural activity” means any activity that is exempt from the requirement to obtain a permit to construct under Subsection 222.02.f., wherein “agricultural activities and services” is defined in Section 007, that occurs in connection with the production of agricultural products for food, fiber, fuel, feed and other lawful purposes, and including, but not limited to: (3-20-20)T

**a.** Preparing land for agricultural production; (3-20-20)T

**b.** Applying or handling pesticides herbicides, or other chemicals, compounds or substances labeled for insects, pests, crops, weeds, water or soil; (3-20-20)T

**c.** Planting, irrigating, growing, fertilizing, harvesting or producing agricultural, horticultural, floricultural and viticulture crops, fruits and vegetable products, field grains, seeds, hay, sod and nursery stock, and other plant products, plant by-products, plant waste and animal compost; (3-20-20)T

**d.** Breeding, hatching, raising, producing, feeding and keeping livestock, dairy animals, swine, fur-bearing animals, poultry, eggs, fish and other aquatic species, and other animals, animal products and animal by-products, animal waste, animal compost, and bees, bee products and bee by-products; (3-20-20)T

**e.** Transporting agricultural products to or from an agricultural facility; (3-20-20)T

**f.** Grinding, chopping, cubing, or any other means of preparing or converting a commodity for animal

feed; and (3-20-20)T

- g.** Piling, stacking or other means of storing commodities outdoors. (3-20-20)T

**02. Generally Recognized Agricultural Practices.** “Generally recognized agricultural practices” means economically feasible practices that are customary among or appropriate to farms and ranches of a similar nature in the local area. In determining whether an agricultural activity is consistent with generally recognized agricultural practices, the Idaho Department of Environmental Quality shall consult with the Idaho Department of Agriculture. (3-20-20)T

**653. -- 664. (RESERVED)**

**665. REGIONAL HAZE RULES.**

The purpose of Sections 665 through 668 is to address regional haze visibility impairment in mandatory Class I Federal Areas. The intent of Sections 665 through 668 is to set forth the requirements to implement the federal programs for visibility protection and regional haze. (3-20-20)T

**666. REASONABLE PROGRESS GOALS.**

The Department will establish reasonable progress goals, expressed in deciviews for each mandatory Class I Federal Area located within Idaho. These goals will provide for reasonable progress toward achieving natural visibility conditions. The reasonable progress goals must provide for an improvement in visibility for the most impaired days over the period of the implementation plan and ensure no degradation in visibility for the least impaired days over the same period. The reasonable progress goals are not directly enforceable, but will be implemented through enforceable strategies in the long-term strategy. (3-20-20)T

**01. Process for Setting Reasonable Progress Goals.** In establishing a reasonable progress goal for any mandatory Class I Federal Area within Idaho, the Department shall: (3-20-20)T

**a.** Consider the costs of compliance, the time necessary for compliance, the energy and non-air quality environmental impacts of compliance, and the remaining useful life of any potentially affected sources, and include a demonstration showing how these factors were taken into consideration in selecting the goal. (3-20-20)T

**b.** Analyze and determine the rate of progress needed to attain natural visibility conditions by the year 2064. To calculate this rate of progress, the Department will compare baseline visibility conditions to natural visibility conditions in the mandatory Class I Federal Area and determine the uniform rate of visibility improvement (measured in deciviews) that would need to be maintained during each implementation period in order to attain natural visibility conditions by 2064. In establishing the reasonable progress, the Department will consider the uniform rate of improvement in visibility and the emission reduction measures needed to achieve it for the period covered by the implementation plan. (3-20-20)T

**c.** Consult with those states which may reasonably be anticipated to cause or contribute to visibility impairment in the mandatory Class I Federal Area. (3-20-20)T

**02. Justification for Reasonable Progress Goals.** If the Department establishes a reasonable progress goal that provides for a slower rate of improvement in visibility than the rate that would be needed to attain natural conditions by 2064, the Department will demonstrate, based on the factors in Subsection 666.01.a., that the rate of progress for the implementation plan to attain natural conditions by 2064 is not reasonable; and that the progress goal adopted by the Department is reasonable. The Department will provide to the public for review, as part of its implementation plan, an assessment of the number of years it would take to attain natural conditions if visibility improvement continues at the rate of progress selected by the Department as reasonable. (3-20-20)T

**667. LONG-TERM STRATEGY FOR REGIONAL HAZE.**

The purpose of Section 667 is to develop a long-term strategy for making reasonable progress toward the national goal of preventing any future and remedying any existing impairment of visibility in mandatory Class I Federal Areas in which impairment results from man-made air pollution. (3-20-20)T

- 01. Submittal of Long-Term Strategy.** The Department will submit to EPA a long-term strategy that

addresses regional haze visibility impairment for each mandatory Class I Federal Area within the state and for each mandatory Class I Federal Area located outside the state which may be affected by emissions from the state. (3-20-20)T

**02. Enforceable Emission Limitations.** The long-term strategy must include enforceable emissions limitations, compliance schedules, and other measures as necessary to achieve the reasonable progress goals established by the Department. (3-20-20)T

**03. Requirements for Long-Term Strategy.** In establishing long-term strategy for regional haze, the Department will meet the following requirements: (3-20-20)T

**a.** The Department will document the technical basis, including modeling, monitoring and emissions information, on which the state is relying to determine its apportionment of emission reduction obligations necessary for achieving reasonable progress in each mandatory Class I Federal Area it affects. The Department may meet this requirement by relying on technical analyses developed by the regional planning organization and approved by all state participants. The Department will identify the baseline emission inventory on which its strategies are based. The baseline emissions inventory year is presumed to be the most recent year of the consolidated periodic emissions inventory. (3-20-20)T

**b.** The Department will identify all anthropogenic sources of visibility impairment considered by the Department in developing its long-term strategy. The Department should consider major and minor stationary sources, mobile sources, and area sources. (3-20-20)T

**c.** The Department will consider, at a minimum, the following factors in developing its long-term strategy: (3-20-20)T

**i.** Emission reductions due to ongoing air pollution control programs, including measures to address reasonably attributable visibility impairment; (3-20-20)T

**ii.** Measures to mitigate the impacts of construction activities; (3-20-20)T

**iii.** Emissions limitations and schedules for compliance to achieve the reasonable progress goal; (3-20-20)T

**iv.** Source retirement replacement schedules; (3-20-20)T

**v.** Smoke management techniques for agricultural and forestry management purposes including plans as currently exist with the state for these purposes; (3-20-20)T

**vi.** Enforceability of emissions limitations and control measures; and (3-20-20)T

**vii.** The anticipated net effect on visibility due to projected changes in point, area, and mobile source emissions over the period addressed by the long-term strategy. (3-20-20)T

**04. Interstate Consultation.** The Department will undertake the following process in developing the long-term strategy where interstate consultation is required. (3-20-20)T

**a.** Where Idaho has emissions that are reasonably anticipated to contribute to visibility impairment in any mandatory Class I Federal Area located in another state or states, the Department will consult with the other state(s) in order to develop coordinated emission management strategies. (3-20-20)T

**b.** The Department will consult with any other state having emissions that are reasonably anticipated to contribute to visibility impairment in any mandatory Class I Federal Area within Idaho. (3-20-20)T

**c.** Where other states cause or contribute to impairment in a mandatory Class I Federal Area, the Department must demonstrate that the state has included in its implementation plan all measures necessary to obtain its share of the emission reductions needed to meet the progress goal for the area. If the state of Idaho has participated

in a regional planning process, the Department must ensure the state has included all measures needed to achieve its apportionment of emission reduction obligations agreed upon through that process. (3-20-20)T

**668. BART REQUIREMENT FOR REGIONAL HAZE.**

The purpose of Section 668 is to implement the BART requirements in 40 CFR 51.308(e). The following analysis and documentation is required for each BART-eligible source: (3-20-20)T

**01. BART-Eligible Sources.** The Department shall identify a list of all BART-eligible sources within the state. (3-20-20)T

**02. BART Determination.** The Department shall complete a determination of BART for each BART-eligible source in the state that emits any air pollutant which may reasonably be anticipated to cause or contribute to any impairment of visibility in any mandatory Class 1 Federal Area. All such sources are subject to BART. (3-20-20)T

**a.** A single source that is responsible for a one (1.0) deciview change or more in any mandatory Class I Federal Area is considered to “cause” visibility impairment. (3-20-20)T

**b.** A single source that is responsible for a one-half (0.5) deciview change or more in any mandatory Class I Federal Area is considered to “contribute” to visibility impairment. (3-20-20)T

**c.** The determination of BART must be based on an analysis of the best system of continuous emission control technology available and associated emission reductions achievable for each BART-eligible source that is subject to BART within the state. In this analysis, the following must be taken into consideration: (3-20-20)T

i. Costs of compliance; (3-20-20)T

ii. Energy and non-air quality environmental impacts of compliance; (3-20-20)T

iii. Any pollution control equipment in use at the source; (3-20-20)T

iv. The remaining useful life of the source; and (3-20-20)T

v. The degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology. (3-20-20)T

**d.** The Department may determine that a BART determination is not required: (3-20-20)T

i. For sulfur dioxide (SO<sub>2</sub>) or for nitrogen oxides (NO<sub>x</sub>) if a BART-eligible source has the potential to emit less than forty (40) tons per year of such pollutant(s); or (3-20-20)T

ii. For PM<sub>10</sub> if a BART-eligible source emits less than fifteen (15) tons per year of such pollutant. (3-20-20)T

**03. Alternative to Infeasible Emission Standards.** If the Department determines in establishing BART that technological or economic limitations on the applicability of measurement methodology to a particular source would make the imposition of an emission standard infeasible, it may instead prescribe a design, equipment, work practice, or other operational standard, or combination thereof, to require the application of BART. Such standard, to the degree possible, is to set forth the emission reduction to be achieved by implementation of such design, equipment, work practice, or operation and must provide for compliance by means which achieve equivalent results. (3-20-20)T

**04. BART Installation and Operation Due Date.** Each source subject to BART is required to install and operate BART as expeditiously as practicable, but in no event later than five (5) years after approval of the implementation plan. (3-20-20)T

**05. Maintenance of BART Equipment.** Each source subject to BART is required to maintain the

control equipment required by the Department and establish procedures to ensure such equipment is properly operated and maintained. (3-20-20)T

**06. BART Alternative.** As an alternative to the installation of BART for a source or sources, the Department may approve a BART alternative. If the Department approves source grouping as a BART alternative, only sources (including BART-eligible and non-BART eligible sources) causing or contributing to visibility impairment to the same mandatory Class I Federal Area may be grouped together. (3-20-20)T

**a.** If a source(s) proposes a BART alternative, the resultant emissions reduction and visibility impacts must be compared with those that would result from the BART options evaluated for the source(s). (3-20-20)T

**b.** Source(s) proposing a BART alternative must demonstrate that this BART alternative will achieve greater reasonable progress than would be achieved through the installation and operation of BART. (3-20-20)T

**c.** Source(s) proposing a BART alternative shall include in the BART analysis an analysis and justification of the averaging period and method of evaluating compliance with the proposed emission limitation. (3-20-20)T

**07. Reasonable Progress Goal Requirements for BART-Eligible Sources.** Once the Department has met the requirements for BART or BART alternative, as identified in Subsection 668.06, BART-eligible sources will be subject to the requirements of reasonable progress goals, as defined in 40 CFR 51.308(d), in the same manner as other sources. (3-20-20)T

**669. -- 674. (RESERVED)**

**675. FUEL BURNING EQUIPMENT -- PARTICULATE MATTER.**

The purpose of Sections 675 through 681 is to establish particulate matter emission standards for fuel burning equipment. (3-20-20)T

**676. STANDARDS FOR NEW SOURCES.**

A person shall not discharge into the atmosphere from any fuel burning equipment with a maximum rated input of ten (10) million BTU's per hour or more, and commencing operation on or after October 1, 1979, particulate matter in excess of the concentrations shown in the following table:

FUEL TYPE	ALLOWABLE PARTICULATE gr/dscf	EMISSIONS Oxygen
Gas	.015	3%
Liquid	.050	3%
Coal	.050	8%
Wood Product	.080	8%

The effluent gas volume shall be corrected to the oxygen concentration shown. (3-20-20)T

**677. STANDARDS FOR MINOR AND EXISTING SOURCES.**

A person shall not discharge into the atmosphere from any fuel burning equipment in operation prior to October 1, 1979, or with a maximum rated input of less than ten (10) million BTU per hour, particulate matter in excess of the concentrations shown in the following table:

FUEL TYPE	ALLOWABLE PARTICULATE gr/dscf	EMISSIONS Oxygen
Gas	.015	3%
Liquid	.050	3%
Coal	.100	8%

FUEL TYPE	ALLOWABLE PARTICULATE gr/dscf	EMISSIONS Oxygen
Wood Product	.200	8%

The effluent gas volume shall be corrected to the oxygen concentration shown. (3-20-20)T

**678. COMBINATIONS OF FUELS.**

When two (2) or more types of fuel are burned concurrently, the allowable emission shall be determined by proportioning the gross heat input and emission standards for each fuel. (3-20-20)T

**679. AVERAGING PERIOD.**

For purposes of Sections 675 through 680, emissions shall be averaged according to the following, whichever is the lesser period of time: (3-20-20)T

**01. One Cycle.** One (1) complete cycle of operation; or (3-20-20)T

**02. One Hour.** One (1) hour of operation representing worst-case conditions for the emission of particulate matter. (3-20-20)T

**680. ALTITUDE CORRECTION.**

For purposes of Sections 675 through 680, standard conditions shall be adjusted for the altitude of the source by subtracting one-tenth (0.10) of an inch of mercury for each one hundred (100) feet above sea level from the standard atmospheric pressure at sea level of twenty-nine and ninety-two one hundredths (29.92) inches of mercury. (3-20-20)T

**681. TEST METHODS AND PROCEDURES.**

The appropriate test method under Sections 675 through 680 shall be EPA Method 5 contained in 40 CFR Part 60 or such comparable and equivalent method approved in accordance with Subsection 157.02.d. Test methods and procedures shall also comply with Section 157. (3-20-20)T

**682. -- 699. (RESERVED)**

**700. PARTICULATE MATTER -- PROCESS WEIGHT LIMITATIONS.**

**01. Particulate Matter Emission Limitations.** The purpose of Sections 700 through 703 is to establish particulate matter emission limitations for process equipment. (3-20-20)T

**02. Minimum Allowable Emission.** Notwithstanding the provisions of Sections 701 and 702, no source shall be required to meet an emission limit of less than one (1) pound per hour. (3-20-20)T

**03. Averaging Period.** For the purposes of Sections 701 through 703, emissions shall be averaged according to the following, whichever is the lesser period of time: (3-20-20)T

**a.** One (1) complete cycle of operation; or (3-20-20)T

**b.** One (1) hour of operation representing worst-case conditions for the emissions of particulate matter. (3-20-20)T

**04. Test Methods and Procedures.** The appropriate test method under Sections 700 through 703 shall be EPA Method 5 contained in 40 CFR Part 60 or such comparable and equivalent methods approved in accordance with Subsection 157.02.d. Test methods and procedures shall comply with Section 157. (3-20-20)T

**701. PARTICULATE MATTER -- NEW EQUIPMENT PROCESS WEIGHT LIMITATIONS.**

**01. General Restrictions.** No person shall emit into the atmosphere from any process or process equipment commencing operation on or after October 1, 1979, particulate matter in excess of the amount shown by the following equations, where E is the allowable emission from the entire source in pounds per hour, and PW is the

process weight in pounds per hour. (3-20-20)T

a. If PW is less than 9,250 pounds per hour,  
 $E = 0.045(PW)^{0.60}$  (3-20-20)T

b. If PW is equal to or greater than 9,250 pounds per hour,  
 $E = 1.10(PW)^{0.25}$  (3-20-20)T

**02. Exemption.** The provisions of Section 701 shall not apply to fuel burning equipment. (3-20-20)T

**03. Emission Standards -- Table.** The following table illustrates the emission standards set forth in Section 701.

PROCESS WEIGHT	ALLOWABLE EMISSIONS FROM ENTIRE SOURCE	PROCESS WEIGHT	EMISSIONS FROM ENTIRE SOURCE
lb/hr	lb/hr	lb/hr	lb/hr
175 or less	1	20,000	13.08
200	1.08	40,000	15.56
400	1.64	60,000	17.22
600	2.09	80,000	18.50
800	2.40	100,000	19.56
1,000	2.84	200,000	23.26
2,000	4.30	400,000	27.66
4,000	6.52	600,000	30.61
6,000	8.32	800,000	32.90
8,000	9.89	1,000,000	34.79
10,000	11.00	2,000,000	41.37

(3-20-20)T

**702. PARTICULATE MATTER -- EXISTING EQUIPMENT PROCESS WEIGHT LIMITATIONS.**

The provisions of Section 702 shall become effective on January 1, 1981. (3-20-20)T

**01. General Restrictions.** No person shall emit into the atmosphere from any process or process equipment operating prior to October 1, 1979, particulate matter in excess of the amount shown by the following equations, where E is the allowable emission from the entire source in pounds per hour, and PW is the process weight in pounds per hour: (3-20-20)T

a. If PW is less than 17,000 pounds per hour,  
 $E = 0.045 (PW)^{0.60}$  (3-20-20)T

b. If PW is equal to or greater than 17,000 pounds per hour,  
 $E = 1.12 (PW)^{0.27}$ . (3-20-20)T

**02. Exemptions.** The provisions of Section 702 shall not apply to: (3-20-20)T

a. Fuel burning equipment; or (3-20-20)T

- b. Equipment used exclusively to dehydrate sugar beet pulp or alfalfa. (3-20-20)T

03. Emission Standards -- Table. The following table illustrates the emission standards set forth in Section 702.

PROCESS WEIGHT	EMISSIONS FROM ENTIRE SOURCE	PROCESS WEIGHT	EMISSIONS FROM ENTIRE SOURCE
lb/hr	lb/hr	lb/hr	lb/hr
175 or less	1	20,000	16.24
200	1.08	40,000	19.58
400	1.64	60,000	21.84
600	2.09	80,000	23.61
800	2.48	100,000	25.07
1,000	2.84	200,000	30.23
2,000	4.30	400,000	36.46
4,000	6.52	600,000	40.67
6,000	8.32	800,000	43.96
8,000	9.89	1,000,000	46.69
10,000	11.30	2,000,000	56.30

(3-20-20)T

703. PARTICULATE MATTER -- OTHER PROCESSES.

01. Other Processes. No person with processes exempt under Subsection 702.02.b. shall emit particulate matter to the atmosphere from any process or process equipment in excess of the amount shown in the following equations, where E is the total rate of emission from all emission points from the source in pounds per hour and P is the process weight rate in pounds per hour. (3-20-20)T

- a. If P is less than sixty thousand (60,000) pounds per hour,  
 $E = 0.02518(P)^{0.67}$  (3-20-20)T

- b. If P is greater than or equal to sixty thousand (60,000) pounds per hour,  
 $E = 23.84(P)^{0.11} - 40$  (3-20-20)T

02. Emission Standards -- Table. The following table illustrates the emission standards set forth in Section 703.

ALLOWABLE RATE OF EMISSION BASED ON PROCESS WEIGHT RATE			
Process Weight Rate	Rate of Emission	Process Weight Rate	Rate of Emission
Lb/Hr	Lb/Hr	Lb/Hr	Lb/Hr
100	0.551	16,000	16.5
200	0.877	18,000	17.9

ALLOWABLE RATE OF EMISSION BASED ON PROCESS WEIGHT RATE			
Process Weight Rate	Rate of Emission	Process Weight Rate	Rate of Emission
Lb/Hr	Lb/Hr	Lb/Hr	Lb/Hr
400	1.40	20,000	19.2
600	1.83	30,000	25.2
800	2.22	40,000	30.5
1,000	2.58	50,000	35.4
1,500	3.38	60,000	40.0
2,000	4.10	70,000	41.3
2,500	4.76	80,000	42.5
3,000	5.38	90,000	43.6
3,500	5.96	100,000	44.6
4,000	6.52	120,000	46.3
5,000	7.58	140,000	47.8
6,000	8.56	160,000	49.0
7,000	9.49	200,000	51.2
8,000	10.4	1,000,000	69.0
9,000	11.2	2,000,000	77.6
10,000	12.0	6,000,000	92.7
12,000	13.6		

(3-20-20)T

**704. -- 724. (RESERVED)**

**725. RULES FOR SULFUR CONTENT OF FUELS.**

This section applies to fuel burning sources in Idaho. Its purpose is to prevent excessive ground level concentrations of sulfur dioxide. The reference test method for measuring fuel sulfur content shall be ASTM method, D129-95 Standard Test for Sulfur in Petroleum Products (General Bomb Method) or such comparable and equivalent method approved in accordance with Subsection 157.02.d. Test methods and procedures shall comply with Section 157.

(3-20-20)T

**01. Definitions.** (3-20-20)T

**a. ASTM.** American Society for Testing and Materials. (3-20-20)T

**b. Distillate Fuel Oil.** Any oil meeting the specifications of ASTM Grade 1 or Grade 2 fuel oils. (3-20-20)T

**c. Residual Fuel Oil.** Any oil meeting the specifications of ASTM Grade 4, Grade 5 and Grade 6 fuel oils. (3-20-20)T

**02. Residual Fuel Oils.** No person shall sell, distribute, use or make available for use, any residual fuel

oil containing more than one and three-fourths percent (1.75%) sulfur by weight. (3-20-20)T

**03. Distillate Fuel Oil.** No person shall sell, distribute, use or make available for use, any distillate fuel oil containing more than the following percentages of sulfur: (3-20-20)T

**a. ASTM Grade 1.** ASTM Grade 1 fuel oil - zero point three percent (0.3%) by weight. (3-20-20)T

**b. ASTM Grade 2.** ASTM Grade 2 fuel oil - zero point five percent (0.5%) by weight. (3-20-20)T

**04. Coal.** No person shall sell, distribute, use or make available for use, any coal containing greater than one percent (1.0%) sulfur by weight. (3-20-20)T

**05. Alternative.** The Department may approve in a permit issued in accordance with these rules an alternative fuel sulfur content if the applicant demonstrates that, through control measures or other means, sulfur dioxide emissions (based on a one (1) hour averaging period) are equal to or less than those resulting from the combustion of fuels complying with the limitations of Subsections 725.01 through 725.04. (3-20-20)T

**726. -- 749. (RESERVED)**

**750. RULES FOR CONTROL OF FLUORIDE EMISSIONS.**

The purpose of Sections 750 through 751 is to prevent the emission of fluorides such that the accumulation of fluorine in feed and forage for livestock does not exceed the safe limits specified below. (3-20-20)T

**751. GENERAL RULES.**

Any owner or operator of a facility subject to Sections 750 and 751 shall demonstrate compliance with Section 751 by January 1, 1982, in accordance with a compliance schedule, listing increments of progress, which shall be submitted to the Department on or before August 1, 1980. (3-20-20)T

**01. Emission Limitations -- Phosphate Fertilizer Plants.** No person shall allow, suffer, cause or permit the discharge into the atmosphere of total fluoride emissions in gaseous and in particulate form, expressed as fluoride (F-), from the phosphate fertilizer plant sources listed in Subsection 751.03 in excess of thirty hundredths (0.30) pounds of fluoride per ton of P<sub>2</sub>O<sub>5</sub> input to the calciner operation, calculated at maximum rated capacity. (3-20-20)T

**02. Monitoring, Testing, and Reporting Requirements.** Compliance with Subsection 751.01 will be adjudged upon the results of the continuing program of fluoride sampling of potential grazing areas and alfalfa growing areas conducted by the Department. Sampling conducted by any person subject to Section 751 may be accepted for determining compliance with Subsection 751.01 if such sampling is conducted at sites approved by the Department in advance of sampling, using analytical procedures appearing in the Procedures Manual for Air Pollution Control, Section I (Source Test Methods) or equivalent methods approved by the Department in advance of sampling. Compliance with Subsection 751.01 shall be demonstrated by testing methods approved in advance by the Department. When approved by the Director in advance of sampling, engineering calculations may be submitted in lieu of emission data. Monitoring and reporting requirements shall be included in operating permits granted to each facility. (3-20-20)T

**03. Source Specific Permits.** To assure compliance with Subsection 751.01, the Director shall specify methods for calculating total allowable emissions and shall issue source specific permits containing emission limitations for the following sources within phosphate fertilizer plants: (3-20-20)T

**a.** Calciner operation; and (3-20-20)T

**b.** Wet phosphoric acid plants; and (3-20-20)T

**c.** Super phosphoric acid production; and (3-20-20)T

**d.** Diammonium phosphate plants; and (3-20-20)T

- e. Monoammonium phosphate production; and (3-20-20)T
- f. Triple super phosphate (mono calcium phosphate) production. (3-20-20)T

**04. Exemptions.** The provisions of Subsections 751.01, 751.02, and 751.03 shall not apply to any phosphate fertilizer facility which produces mono ammonium phosphate exclusively if no animal feed is grown or if no animal grazing occurs or if the animal feed and forage meets the ambient air quality standards for fluorides specified in Section 577 within a three (3) mile radius of such facility. This exemption shall only apply if the owner or operator of the facility, on an annual basis: (3-20-20)T

- a. Conducts a fluoride sampling program of potential grazing areas at locations approved in advance of sampling by the Department, using analytical techniques appearing in the Procedures Manual for Air Pollution Control, Section I (Source Test Methods); and (3-20-20)T
- b. Submits the results of such sampling program to the Department as soon as they become available. (3-20-20)T

**752. -- 759. (RESERVED)**

**760. RULES FOR THE CONTROL OF AMMONIA FROM DAIRY FARMS.**

The purpose of Sections 760 through 764 is to set forth the requirements for the control of ammonia through best management practices (BMPs) for certain size dairy farms licensed by the Idaho State Department of Agriculture to sell raw milk for human consumption. Compliance with these sections does not relieve the owner or operator of a dairy farm from the responsibility of complying with all other federal, state and local applicable laws, regulations, and requirements, including, but not limited to, Sections 161, 650 and 651 of these rules. Registration forms and guidance documents relating to these rules are located at [www.deq.idaho.gov](http://www.deq.idaho.gov). (3-20-20)T

**761. GENERAL APPLICABILITY.**

The requirements of Sections 760 through 764 apply to the following size dairy farms:

**SUMMARY: Animal Unit (AU) or mature cow threshold to produce 100 ton NH<sub>3</sub>/year**

Animal Unit (AU) Basis	Drylot	Free Stall/Scrape	Free Stall/Flush
AU (100 t NH <sub>3</sub> ) Threshold			
No land app	7089	3893	2293
27% volatilization 1	6842	3827	
80% volatilization 2	6397	3700	
Total Cows (100 t NH <sub>3</sub> ) Threshold			
Cow Basis (1400 lbs)	Drylot	Free Stall/Scrape	Free Stall/Flush
No land app	5063	2781	1638
27% volatilization 1	4887	2733	
80% volatilization 2	4569	2643	
1 Assumes: Expected level of N->NH <sub>3</sub> volatilization for: drop-hose or ground level liquid manure application			
2 Assumes: Expected level of N->NH <sub>3</sub> volatilization for: center pivot or other conventional sprinkler irrigation liquid manure application			

(3-20-20)T

**762. PERMIT BY RULE.**

**01. General Requirement.** Owners and operators of dairy farms shall be deemed to have a permit by rule if they comply with all of the applicable provisions of Sections 760 through 764. Owners and operators of dairy farms subject to Sections 760 through 764 shall not operate without obtaining the applicable permit by rule within the time frame specified. (3-20-20)T

**02. Optional Permit by Rule.** Nothing in Sections 760 through 764 shall preclude any owner or operator of a dairy farm from requesting and obtaining an air quality permit pursuant to Section 200, nor shall Sections 760 through 764 preclude an owner or operator of a dairy farm below the threshold size in Section 761 from complying with Sections 760 through 764 and thereby obtaining a permit by rule. (3-20-20)T
