**DESCRIPTIVE SUMMARY:** The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principle issues involved:

The rule change clarifies procedures such as retired and expired license reinstatement requirements and updates the reexamination requirements for those failing a professional engineering or professional land surveying examination to be in alignment with the law.

The rule change modified the examination requirements for students or graduates taking the Fundamentals of Engineering or Fundamentals of Surveying Examinations by allowing students to take the examinations without first applying to the board. They will be automatically assigned to the examinations beginning July 1, 2015.

The rule change will display the board's requirement that land surveyors applying for licensure must have a minimum of two (2) years of boundary land surveying experience.

Fees are clarified or removed. No new fees are added.

Obsolete language is removed or updated and minor grammar errors are corrected.
