This supervision is the minimal level of supervision required for students and for occupational therapy assistants applying deep thermal and electrotherapeutic modalities; (3-29-10)

c. Close Supervision - Daily, direct contact at the site of work. The occupational therapist provides direction in developing the plan of treatment and periodically inspects the actual implementation of the plan. This supervision is the minimal level of supervision required for entry level occupational therapy assistants and occupational therapy assistants who are working under a temporary license; (3-29-10)

d. Routine Supervision - Requires direct contact at least every two (2) weeks at the site of work, with interim supervision occurring by other methods, such as by telephone or written communication. The total number of supervised occupational therapy assistants and non-licensed occupational therapy personnel (including any graduate occupational therapists, graduate occupational therapy assistants, student occupational therapy, student occupational therapy assistants, and aides) may not exceed five (5) without prior Board approval. The Board may permit the supervision of a greater number by an occupational therapist if, in the Board's opinion, there would be adequate supervision and the public's health and safety would be served. It is the supervising occupational therapist's responsibility to notify the Board of any circumstances requiring approval of a greater number and to submit a written plan for resolution of the situation. An aide first must demonstrate competency to be able to perform the assigned, delegated client and non-client tasks. The occupational therapist must oversee the development, documentation, and implementation of a plan to supervise and routinely assess the ability of the occupational therapy aide to carry out non-client and client-related tasks. c. The supervision of the aide needs to be documented for every client-related activity performed by an aide. Documentation must include information about frequency and methods of supervision used, the content of supervision, and the names and credentials of all persons participating in the supervisory process.
