Until the IFGC is able to collect and verify outfitted tag use pursuant to Section 36-408(4), Idaho Code, the use history will be based on each outfitter's use reports, or the best data available, and subject to verification by documentation or other reliable information acceptable to the Board showing that the outfitter provided outfitting services to the hunter using the tag.
(10-1-20)T
a. The use history for a capped hunt is the number of tags used by clients of each outfitter for the hunt with the most similar framework to the hunt for which the allocated tag is being designated.
(10-1-20)T
b. The use history for a controlled hunt is the number of tags used by clients of each outfitter in the hunt or hunts that have the most similar framework to the hunt for which the allocated tag is being designated. Both the hunt with allocated tags and the matching hunt with non-allocated tags will be used.
(10-1-20) T
c. Transfers - The original outfitter may transfer a designated allocated tag(s) to another outfitting operation for use that year in the same hunt and still retain credit for the tag.
(10-1-20)T
d. Surrenders - An outfitter may surrender a designated allocated tag(s) to the undesignated tag pool at any time after notification of its tag designation. The surrendering outfitter does not retain credit for the surrendered tag unless it later uses the tag from the pool. The surrendered tag will be available to any outfitter in the same hunt pursuant to IDAPA 24.35.01.057.09.
(10-1-20)T
3. New Hunt Allocated Tag Designation. When the IFGC initially allocates tags for a new capped or controlled hunt, allocated tags will be designated for that hunt proportionately as follows:
(10-1-20) T
a. Divide each outfitting operation's base allocation by the total of all base allocations in the hunt, resulting in a percentage of total use. Truncate the decimal at the hundredths place.
(10-1-20) T
b. Multiply the percentage of total use from IDAPA 24.35.01.057.03.a. by the total number of allocated tags for the hunt, which determines the number of allocated tags designated to the outfitting operation.
(10-1-20)T
4. Use of Previously Designated Allocated Tags. For established capped or controlled hunts, allocated tags will first be designated to each outfitting operation in an amount equal to the outfitting operation's use of the allocated tags previously designated to it for the same hunt.
(10-1-20)T
a. In a capped hunt, the use of previously designated allocated tags is the average use of allocated tags in the preceding two (2) years.
(10-1-20)T
b. In a controlled hunt, the use of previously designated allocated tags is the highest year of use of allocated tags in the preceding two (2) years.
(10-1-20)T
5. Remaining or Additional Allocated Tags. Allocated tags that were not designated pursuant to IDAPA 24.35.01.057.04 will be designated proportionately as follows:
(10-1-20)T
a. Subtract each outfitting operation's use of previously designated allocated tags from its base allocation number to determine the number of non-allocated tags it used; then
(10-1-20)T
b. Divide the result by the total number of non-allocated tags used by all outfitting operations, resulting in a percentage of the total non-allocated tags used by all outfitting operations in that hunt. Truncate the decimal at the hundredths place; and finally
(10-1-20)T
c. Multiply the percentage of total use from IDAPA 24.35.01.057.05.b. by the number of allocated tags yet to be designated, which determines the number of allocated tags designated to the outfitting operation.
(10-1-20)T
6. Rounding. If allocated tag designation results in a partial tag, the calculation will be rounded up when a decimal equals or exceeds six tenths (.6) and rounded down when a decimal is less than six tenths (.6). When calculating the reduction to the designation of allocated tags pursuant to Section 36-2120(4), Idaho Code, the calculation will be rounded up when a decimal equals or exceeds five tenths (.5) and rounded down when a decimal is less than five tenths (.5).
(10-1-20)T
7. Tie-breaker. If after applying IDAPA 24.35.01.057.03-06 there is a surplus or deficit of allocated tags to be designated, the unrounded proportion, with as many decimal places as necessary, will be used as follows:
(10-1-20)T
a. A surplus allocated tag will be designated to the outfitting operation whose unrounded proportion is the greatest. In the event there is more than one outfitting operation with the same unrounded proportion, the undesignated tag will be designated based on a random drawing between those outfitting operations.
(10-1-20)T
b. A deficit will be resolved from the outfitting operation whose unrounded proportion is closest to six tenths (.6). If there is more than one (1) outfitting operation with the same unrounded proportion, a random drawing will be held between those outfitters.
(10-1-20) T
8. Stipulation by Outfitters. Outfitting operations in a hunt may submit to the Board a written stipulation determining the number of allocated tags designated for each outfitting operation within that hunt. The stipulation must be signed by all eligible outfitting operations for the hunt. If the Board approves the stipulation, the stipulation will be effective until the IFGC sets the next big game season. On or before November 1 preceding the hunt, any outfitting operation may petition the Board to vacate the stipulation for good cause that would make it unconscionable or unjust to enforce the stipulation. If the Board vacates the stipulation, the allocated tags in that hunt will be designated pursuant to Section 36-2120, Idaho Code, and IDAPA 24.35.01.057.
(10-1-20)T
9. Undesignated Tag Pool. Any designated allocated tags that are surrendered or have not been utilized by an outfitting operation on or before the tenth (10) business day prior to July 31 for a capped hunt, or on or before September 10 or the next business day for a controlled hunt, will be available in an undesignated pool for any outfitting operation, as follows:
(10-1-20) T
a. Beginning April 10 preceding the hunt, an outfitting operation without any designated allocated tags or who has utilized all of its designated allocated tags may submit a request for an allocated tag from the pool. The request must be in such a form as designated by the Board.
(10-1-20)T
b. Beginning April 20 preceding the hunt or next business day, an allocated tag will be designated from the pool on a first-come, first-served basis, using a waiting list when as necessary, with a maximum of two (2) allocated tags designated to each requesting outfitting operation until all other requesting outfitting operations have been served, then a requesting outfitting operation is eligible to receive a maximum of two (2) additional allocated tags from the pool, repeated until all requesting outfitting operations are served or until no tags remain. (10-1-20)T
10. Objection to Calculation. If an outfitting operation believes the calculation is incorrect it may object by filing a petition with the Board within fourteen (14) days from the date the notification was sent and in accordance with the Idaho administrative procedures act. The petition will include any supporting information or documentation.
(10-1-20)T
a. All outfitting operations in the hunt in question will be notified of the petition.
(10-1-20)T
b. The outfitting operation bears the burden of establishing that the calculation was incorrect.
(10-1-20)T
11. Hardship Request. A written hardship request to maintain all or a portion of previous outfitted hunter tag use history may be submitted to the Board on or before the November 1 preceding the biennial IFGC big game season setting. If a hardship occurs after October 21 but prior to the hunt being completed the request may be submitted within ten (10) days of the occurrence. A hardship may include health, act of nature, state or federal restrictions on hunting or access, or other good cause that prevented or limited the outfitting operation's ability to
seek and accommodate clients and impacted its use of designated allocated tags. The outfitting operation must provide any information requested by the Board to substantiate the request.
(10-1-20)T
12. Change in Operating Area or Owner of Business. When an outfitting operation is sold or when an operating area is adjusted and designated allocated tags are associated with the affected operating area, the associated designated allocated tags will transfer to the new owner.

During this one-time exception, if the two (2) additional boats do not accommodate the large client group, additional boats must come from slots allocated to other outfitters. The maximum daily boat limit for SS1 may not be exceeded. This would require written concurrence from the BLM/USFS and the IOGLB Executive Director.

Float boats may use motors (5HP or less) for downstream steerage only within the entire SS1 reach. Downstream steerage would not include holding or upstream travel of watercraft with a motor.

IOGLB licenses are for the entire SS1 segment; a section of SS1 cannot be separated from SS1 for the purposes of selling a portion of an outfitter's business.

During periods of preparing overnight camps (i.e., setting up tents and portable toilet facilities, boating in grills and other cooking supplies) for the season, usually May or June of each year; and removing the same items listed above from overnight camps at the end of the season, usually October or November; multiple supply boats may be used.
** One (1) license additional for waterfowl hunting covering both BLM and USFS managed lands and waters for the South Fork (Palisades Dam to Wolf Flats Boat Access may be issued.
