Pursuant to Sections 39-4107 and 39-4109, Idaho Code, the Idaho Building Code Board has the authority through the promulgation of rules to adopt and amend building codes which establish the building construction and safety standards in the state of Idaho. These codes include the International Building Code, Idaho Residential Code, Idaho Energy Conservation Code, and the International Existing Building Code. The Building Code Board desires to amend provisions of these codes as it determines necessary through the negotiated rulemaking process. The Board seeks the participation of the affected industry, enforcement jurisdictions, and the public at large in this rulemaking process to ensure that due consideration is given to the varying views about the adoption of amendments to these codes for application in Idaho.
