The summary will be made available to interested persons who contact the agency or, if the agency chooses, the summary may be posted on the agency website.

DESCRIPTIVE SUMMARY AND STATEMENT OF PURPOSE: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved:

The purpose of the intended negotiated rulemaking is to invite public comment regarding the following:

The proposed amendments would change the way the Division calculates residential HVAC permit fees. Instead of calculating permit fees based on the square footage of a home, the proposed amendments would charge a base

permit fee for each home plus additional fees for each system, fixture, appliance, zone, outlet, or duct. The proposed amendments would also add fees for services and permits the Division already offers, such as inspection of mobile and manufactured homes and modular buildings, technical service, fuel gas piping systems, and hydronic systems.

The proposed amendments would also allow renewal of an HVAC apprentice registration upon completion of eight (8) hours of continuing education.

In addition, this rulemaking would eliminate or simplify provisions in IDAPA 07.07.01 to comply with the Red Tape Reduction Act (Executive Order 2019-02).

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS, OBTAINING DRAFT COPIES: For assistance on technical questions concerning this negotiated rulemaking or to obtain a preliminary draft copy of the rule text, if available, contact John Nielsen, HVAC Program Manager, Division of Building Safety at (208) 332-7112 or at john.nielsen@dbb.idaho.gov. Materials pertaining to the negotiated rulemaking, including any available preliminary rule drafts, can be found on the Division's website at <http://dbb.idaho.gov/>.

Anyone may submit written comments regarding this negotiated rulemaking. All written comments must be directed to the undersigned and delivered by July 16, 2019.
