Preface

The Idaho Administrative Bulletin is published once each month by the Department of Administration, Office of the Administrative Rules Coordinator, pursuant to Section 67-5203, Idaho Code. The Bulletin is a compilation of all administrative rulemaking documents in Idaho. The Bulletin publishes the official text notice and full text of such actions.

State agencies are required to provide public notice of rulemaking activity and invite public input. The public receives notice of a rulemaking activity through the Idaho Administrative Bulletin and the Legal Notice published monthly in local newspapers. The Legal Notice provides reasonable opportunity for public input, either oral or written, which may be presented to the agency within the time and manner specified in the Legal Notice. After the comment period closes, the agency considers fully all information submitted in regard to the rule. Comment periods are not provided in temporary or final rulemaking activities.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is cited by year and issue number. For example, Bulletin 98-1 refers to the first Bulletin issued in calendar year 1998, Bulletin 99-1 refers to the first Bulletin issued in calendar year 1999, etc. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 1 refers to January; Volume No. 2 refers to February; and so forth. Example: The Bulletin published in January of 1999 is cited as Volume 99-1. The December 1998 Bulletin is cited as Volume 98-12.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is published once a year and is a compilation or supplemental compilation of all final and enforceable administrative rules in effect in Idaho. In an effort to provide the reader with current, enforceable rules, temporary rules are also published in the Administrative Code. Temporary rules and final rules that have been approved by the legislature during the legislative session, and published in the monthly Idaho Administrative Bulletin, supplement the Administrative Code. Negotiated, proposed, and pending rules are not printed in the Administrative Code and are published only in the Bulletin.

To determine if a particular rule remains in effect, or to determine if a change has occurred, the reader should refer to the Cumulative Index of Administrative Rulemaking, printed in each Bulletin.

TYPES OF RULES PUBLISHED IN THE ADMINISTRATIVE BULLETIN

The state of Idaho administrative rulemaking process comprises five distinct activities; Proposed, Negotiated, Temporary, Pending, and Final rulemaking. In the majority of cases, the process begins with proposed rulemaking and ends with final rulemaking. The following is a brief explanation of each type of administrative rule.

NEGOTIATED RULE

Negotiated rulemaking is a process in which all interested parties and the agency seek a consensus on the content of the rule. Agencies are encouraged to proceed through this informal rulemaking whenever it is feasible to do so. Publication of the text in the Administrative Bulletin by the agency is optional. This process should lead the rulemaking to the temporary and/or proposed rule stage.
PROPOSED RULE

A proposed rulemaking is an action by an agency in which the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a notice of proposed rulemaking in the Bulletin. The notice of proposed rulemaking must include:

a) the specific statutory authority for the rulemaking including a citation to a specific federal statute or regulation if that is the basis of authority or requirement for the rulemaking;
b) a statement in nontechnical language of the substance of the proposed rule, including a specific description of any fee or charge imposed or increased;
c) the text of the proposed rule prepared in legislative format;
d) the location, date, and time of any public hearings the agency intends to hold on the proposed rule;
e) the manner in which persons may make written comments on the proposed rule, including the name and address of a person in the agency to whom comments on the proposal may be sent;
f) the manner in which persons may request an opportunity for an oral presentation; and

g) the deadline for public (written) comments on the proposed rule.

As stated, the text of the proposed rule must be published in the Bulletin. After meeting the statutory rulemaking criteria for a proposed rule, the agency may proceed to the pending rule stage. A proposed rule does not have an assigned effective date unless published in conjunction with a temporary rule docket. An agency may vacate a proposed rulemaking if it decides not to proceed further with the promulgation process.

TEMPORARY RULE

Temporary rules may be adopted only when the governor finds that it is necessary for:

a) the protection of the public health, safety, or welfare; or

b) compliance with deadlines in amendments to governing law or federal programs; or

c) conferring a benefit.

If a rulemaking meets any one or all of the above requirements, a rule may become effective before it has been submitted to the legislature for review and the agency may proceed and adopt a temporary rule.

A temporary rule expires at the conclusion of the next succeeding regular session of the legislature unless the rule is approved, amended, or modified by concurrent resolution or when the rule has been replaced by a final rule.

In cases where the text of the temporary rule is the same as that of the proposed rule, the rulemaking can be done concurrently as a temporary/proposed rule. State law requires that the text of a proposed or temporary rule be published in the Administrative Bulletin. Combining the rulemaking allows for a single publication of the text.

An agency may rescind a temporary rule that has been adopted and is in effect if the rule is being replaced by a new temporary rule or has been published concurrently with a proposed rulemaking that is being vacated.

PENDING RULE

A pending rule is a rule that has been adopted by an agency under the regular rulemaking process and
remains subject to legislative review before it becomes a final, enforceable rule.

When a pending rule is published in the Bulletin, the agency is required to include certain information in the Notice of Pending Rule. This includes:

a) the reasons for adopting the rule;

b) a statement of any change between the text of the proposed rule and the pending rule with an explanation of the reasons for any changes;

c) the date the pending rule will become final and effective; and

d) an identification of any portion of the rule imposing or increasing a fee or charge.

Agencies are required to republish the text of the rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule. With the permission of the Rules Coordinator, only the Section(s) that have changed from the proposed text are republished. If no changes have been made to the previously published text, it is not required to republish the text again and only the Notice of Pending Rule is published.

FINAL RULE

A final rule is a rule that has been adopted by an agency under the regular rulemaking process and is in effect.

No pending rule adopted by an agency will become final and effective until it has been submitted to the legislature for review. Where the legislature finds that the agency has violated the legislative intent of the statute under which the rule was made, a concurrent resolution will be adopted rejecting, amending, or modifying the rule or any part thereof. A Notice of Final Rule must be published in the Idaho Administrative Bulletin for any rule that is rejected, amended, or modified by the legislature showing the changes made. A rule that has been reviewed by the legislature and has not been rejected, amended, or modified will become final with no further legislative action. No rule shall become final and effective before the conclusion of the regular or special legislative session at which the rule was submitted for review. However, a rule which is final and effective may be applied retroactively, as provided in the rule.

**HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN**

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering system. Each state agency has a two-digit identification code number known as the "IDAPA" number. (The "IDAPA" Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit "TITLE" number is assigned. There are "CHAPTER" numbers assigned within the Title and the rule text is divided among major sections with a number of subsections. An example IDAPA number is as follows:

**IDAPA 38.05.010.060.02.c.ii.**

"IDAPA" refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

"IDAPA 38." refers to the Idaho Department of Administration.

"05." refers to Title 05 which is the Department of Administration’s Division of Purchasing.

"01." refers to Chapter 01 of Title 05, "Rules of the Division of Purchasing”.

"060." refers to Major Section 060, "Content of the Invitation to Bid”.

"02." refers to Subsection 060.02.

"c." refers to Subsection 060.02.c.

"ii." refers to Subsection 060.02.c.ii.
DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. All rulemaking actions (documents) are assigned a "DOCKET NUMBER". The "Docket Number" is a series of numbers separated by a hyphen "-", (38-0501-9901). The docket numbers are published sequentially by IDAPA designation (e.g. the two-digit agency code). The following example is a breakdown of a typical rule docket:

"DOCKET NO. 38-0501-9901"

"38-" denotes the agency's IDAPA number; in this case the Department of Administration.

"0501-" refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), "Rules of the Division of Purchasing" (Chapter 01).

"9901" denotes the year and sequential order of the docket submitted and published during the year; in this case the first rulemaking action of the chapter published in calendar year 1999.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section "200" appears before Section "345" and so on). Whenever the sequence of the numbering is broken the following statement will appear:

"(BREAK IN CONTINUITY OF SECTIONS)"

INTERNAL AND EXTERNAL CITATIONS TO ADMINISTRATIVE RULES IN THE CODE AND BULLETIN

When making a citation to another Section or Subsection that is part of the same rule, a typical internal citation may appear as follows:

"...as found in Section 201 of this rule." OR "...in accordance with Subsection 201.06.c. of this rule."

It may also be cited to include the IDAPA, Title, and Chapter number also, as follows:

"...in accordance with IDAPA 38.05.01.201."

"38" denotes the IDAPA number of the agency.

"05" denotes the TITLE number of the agency rule.

"01" denotes the Chapter number of the agency rule.

"201" references the main Section number of the rule that is being cited.

Citations made within a rule to a different rule chapter (external citation) should also include the name of the Department and the name of the rule chapter being referenced, as well as the IDAPA, Title, and Chapter numbers. The following is a typical example of an external citation to another rule chapter:

"...as outlined in the Rules of the Department of Administration, IDAPA 38.04.04, 'Rules Governing Capitol Mall Parking.'"

EFFECTIVE DATE: The effective date of the temporary rules is October 20, 1999.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed regular rulemaking procedures have been initiated. The action is authorized pursuant to Section(s) Title 22, Chapters 1 and 20, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than December 15, 1999.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The proposed amendments will; 1) revise the title “Cull Onion Rules” to “Rules Concerning the Disposal of Cull Onions and Potatoes”; 2) add additional legal authority, Title 22, Chapter 20, Idaho Code, to provide penalty provisions; 3) update the rule to include “Title and Scope” and “Findings” sections; 4) add a definition for cull potatoes; 5) delete sections referring to outdated pesticide references; 6) specify that the quantity of cull onions to be disposed by feeding shall be governed by the number of animals to be fed; 7) add additional disposal systems and reference best management practices for pit disposal as developed by the University of Idaho; 8) establish regulated areas; 9) incorporate the cull potato disposal sections of IDAPA 02.06.33; and 10) require those wishing to dispose of cull onions to give written notification of disposal methods allowed under the rule to those who will actually carry out the disposal.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a) and 67-5226(1)(c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

There is a need to amend the rules to address the prevention of plant diseases and pests that could affect onion and potato production. The Idaho Onion Grower Association requested that penalty provisions be included in the rules and this will necessitate a change in legal authority. The amendments will include new disposal methods for cull onions and revise existing methods; and incorporate the cull potato disposal sections of IDAPA 02.06.33 (Rules Concerning The Late Blight Of Potato, Solanum Tuberosum L.) which rule will be repealed, as late blight is present in all potato growing areas of the state.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased:

None.

THIS CHAPTER IS BEING REPEALED IN ITS ENTIRETY.
**EFFECTIVE DATE:** The effective date of the temporary rules is October 1, 1999.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed regular rulemaking procedures have been initiated. The action is authorized pursuant to Section(s) Title 22, Chapter 10, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than December 15, 1999.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

**DESCRIPTIVE SUMMARY:** The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The proposed new rules will: 1) establish definitions; 2) provide for licensing and registration of persons growing, purchasing, and selling ginseng; 3) provide for the inspection of and accounting for all ginseng exported from Idaho; 4) specify the records to be kept by ginseng growers and dealers; and 5) provide a schedule of fees for services performed in implementing these rules.

Ginseng growers in the Magic Valley petitioned ISDA to establish a ginseng crop management area. Pursuant to Section 22-1003, Idaho Code, a public hearing, conducted by a Hearing Officer, was held in Burley, Idaho. These new rules are based on the decision of the Director, ISDA, to establish a Ginseng Crop Management Area for Magic Valley as recommended by the Hearing Officer. The trade in endangered plants is controlled by the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) through the United State Fish and Wildlife Service (USFWS). Species, such as ginseng are species which although not necessarily now threatened with extinction may become so unless trade in specimens of such species is subject to strict regulation in order to avoid utilization incompatible with their survival. The adoption of these rules will satisfy the USFWS rules and allow ginseng growers in Idaho to export their product.

**FEE SUMMARY:** The following is a specific description of the fee or charge imposed or increased:

b. Obedience Agility Apprehension.

i. Heeling, behavior in public, and gun sureness. The Dog shall heel off-leash beside its Handler through a series of normal, slow, and fast paces. During each pace the Handler shall make right, left, and about-turns. Next, the Handler shall walk in a straight line and at intervals of at least ten (10) paces he shall command the Dog to sit, stand, and down. As he gives each command he shall halt. Next, the Dog shall heel beside its Handler as he walks in serpentine fashion through a group of at least three (3) persons. The group shall be walking slowly and parallel to each other. At some point, the Handler will halt beside one (1) of the persons such that the Dog is immediately next to an individual. When the Handler halts, the group shall halt also. The Dog should show no unusual attention to the person beside whom it is sitting. The Dog will then heel beside its Handler as he exits the group and walks away. At a distance of about fifty (50) feet the Handler shall turn around and begin walking toward the group. At this point two (2) simulated gunshots shall be discharged by a group member. This shall be done discreetly, with the blast aimed at the ground. The Dog shall remain under control as this occurs. Apprehension without Contact. While off leash and under direction of the handler, the dog must demonstrate the ability to pursue a person acting as a suspect without any physical contact. The police service dog team shall begin the exercise off leash from a predesignated starting point. While the handler controls the dog, the evaluator shall signal the "suspect" to visually present himself at a reasonable distance of at least thirty (30) yards from the canine team. The handler shall verbally challenge the "suspect" to stop. The "suspect" shall ignore the order and continue to flee. The handler shall then release the dog in pursuit of the "suspect" and tactically follow the dog, keeping the dog and "suspect" in full view. The "suspect" shall stop fleeing and stand still. As predetermined by the handler, the dog shall either return to the handler or stay and guard the "suspect". During this exercise, the dog shall not make physical contact with the "suspect".

ii. Stand in motion and down. The Dog shall heel beside its Handler in a straight line. After a few steps the Handler shall command the Dog to stand. The Handler will continue forward, without breaking stride, for at least twenty (20) paces. He will then stop, turn and face the Dog. After a few moments, the Dog will be commanded to assume a down position. After a few moments, the Handler will return to the Dog. It should remain in the down position until commanded to sit, at a heel position. Apprehension with Contact. While under control of the handler and with the dog off-leash, the dog must demonstrate the ability to pursue and apprehend a "suspect" with physical contact. The police service dog team shall begin the exercise off leash from a predesignated starting point. While the handler controls the dog, the evaluator shall signal the "suspect" to visually present himself at a reasonable distance of at least thirty (30) yards from the canine team. The handler shall verbally challenge the "suspect" to stop. The "suspect" shall ignore the order and continue to flee. The handler shall then release the dog in pursuit of the "suspect" and tactically follow the dog, keeping the dog and "suspect" in full view. The "suspect" shall stop fleeing and stand still. The handler shall send the dog to physically apprehend the "suspect" and the dog shall hold the "suspect" until called off (verbal only) by the handler.

iii. Retrieving an object. The Handler shall obtain an object and hold it in his hand as he and his Dog assume a heel position. The Dog shall remain in position as the Handler tosses the object a moderate distance in front of the Dog. After a short pause, the Dog will be commanded to retrieve the object. The Dog should respond and present the object in a front position. When commanded, the Dog should release it, and go to a heel position.
v. Jumping an obstacle. The Handler and Dog will assume a heel position at an appropriate distance from an obstacle that is at least thirty-six (36) inches high. The Dog will be commanded to jump over the obstacle and then stand in place. After a pause, the Handler will walk to his Dog and command it to heel, without breaking his stride. The Handler will then walk away from the obstacle and halt. (7-1-99)

vi. Climbing and retrieving. The Handler should obtain an object and hold it as he and his Dog assume a position in front of a wall. The wall should be inclined and at least five (5) feet high. The Dog should remain in position as the Handler tosses the object over the wall. When commanded, the Dog should climb the wall. As the Dog descends, it will be commanded to retrieve the object. It should climb back over the wall with the object, and then present it in front of the Handler. On command, the Dog should relinquish the object. After a pause, it will then be commanded to assume a heel position. (7-1-99)

vii. Long down with distraction. The Handler will place his Dog in a down position. He will then leave the Dog and walk a distance of about fifty (50) paces, remaining in the Dog's field of vision. The Handler will stand with his back to the Dog while another Dog goes through exercises listed in Subsections 114.05.a.i. through 114.05.a.iv above. The Dog should remain calmly in position. (3-20-97)

c. Apprehension Handler Protection. The dog must demonstrate the ability to defend the handler without command during a physical attack on the handler by a "suspect". On verbal command from the handler, the dog must cease physical apprehension of the assailant. Upon the dog releasing the "suspect", the dog shall assume a guard position while the handler takes control and conducts a "pat down" of the "suspect". (3-20-97)

d. Obedience-Agility. The handler must demonstrate the ability to control the canine during an obedience performance test. Testing shall be conducted using reasonable distractions that may be encountered during the performance of law enforcement duties. (10-14-99)

i. Suspect search. The Handler shall position his Dog on the boundary of a pre-determined search area. The Dog shall be directed to search systematically. The Handler shall move through the search area in a tactical manner. While in the search area, the Dog shall encounter a person who happens to be there totally by accident. The Dog should respond to the person's submissive behavior by detaining him without physical contact. The person shall be absolutely submissive during this encounter. When the Handler arrives, the Dog shall be commanded to assume a backup position as the Handler conducts a frisk of the person, searches the location, and dismisses him. Heeling. The canine team must demonstrate the ability to perform basic routine left, right, and about turns, both slow and quick pace, on and off leash. Testing shall consist of two (2) right turns, two (2) left turns, two (2) about turns, and two (2) stop/sits, both on and off leash. (10-14-99)

ii. Surveillance and apprehension (choice of exercise). The Handler and Dog shall assume a surveillance position. The Dog should remain calm and alert. A person representing a criminal suspect shall appear about eighty (80) to one hundred (100) yards away. The Dog should remain quiet as the Handler issues a Departmental warning. The person shall flee and the Handler shall send the Dog to apprehend. The suspect shall stop and face the Dog submissively when it is about thirty (30) yards away. It shall be evident the person is surrendering when the Dog arrives. It should detain the suspect without physical contact. When the Handler arrives, he shall command the Dog to assume a backup position. It should now remain quiet and alert, ready to engage the suspect if necessary, while the Handler frisks the suspect and places him in custody. The Dog should heel beside its Handler as he escorts the suspect to the evaluator for remanding. OR Down in Motion. With the team moving forward, the handler shall "down" the dog on the evaluator’s command and continue to move forward until the handler reaches a designated point (at least thirty (30) paces away). At the evaluator’s command, the handler shall recall the dog to the "heel" position by means of voice and/or hand commands. (10-14-99)

iii. Handler defence and apprehension. The Handler and Dog shall heel along a predetermined route. A person shall emerge from a hiding place and attempt to assault the Handler. The Dog should defend its Handler without hesitation by engaging in strong combat. The perpetrator shall be armed with a simulated weapon such as a stick. At some point during the combat he shall strike the Dog twice sharply on the less sensitive parts of its body. The Dog should continue in combat until the perpetrator gives up and the Handler commands it to stop. At this point the Dog should remain alert and quiet while the Handler conducts a frisk and places the individual in custody. The Dog should heel beside its Handler as he escorts the individual to the evaluator for remanding. Down from a Distance. With the dog in a stand or a sit-stay position, the handler shall face the dog from a location at least thirty (30) paces
away, wait for the evaluator’s signal, then “down” the dog by the means of voice and/or hand signals. After the dog has remained down for five (5) minutes, the handler shall return to the dog and release him from the down.

(3-20-97)(10-14-99)

iv. The same behavior as above is to be exhibited, up to the point where the suspect stops. The Handler, upon becoming reasonably sure that the suspect shall indeed surrender and not flee further, shall recall his Dog. The team shall heel to the suspect and the Dog shall be placed in a backup position. It should remain quiet and alert, ready to engage the suspect if necessary, while the Handler-frisks the suspect and places him in custody. The Dog should heel beside its Handler as he escorts the suspect to the evaluator for remanding. Obstacle (at least thirty-six (36) inches high). From the heel position, and at least two (2) paces in front, the handler shall command the dog to jump the obstacle and to stay in a sit, stand, or down position on the other side of the obstacle. The handler shall inform the evaluator prior to the jump what position the dog will assume. The handler shall then proceed to the dog and command the dog to heel to complete the exercise.

(3-20-97)(10-14-99)

v. Gunfire Sureness Test (off-lead). The handler shall heel his canine onto the test field. After approximately twenty (20) paces, the handler shall stop, place his dog in a down or sit, draw a pistol and fire two (2) shots (blanks only). The canine may show interest, but no uncontrollable aggression toward the handler or persons in the area.

(10-14-99)

06. Appeal. Any Handler who thinks there have been improper procedures applied in implementing the standards may report the facts to the Idaho Peace Officer Standards and Training Academy in writing. This report must be filed within thirty (30) days of the testing date.

IDAPA 18
TITLE 01
Chapter 47

18.01.47 - VALUATION OF LIFE INSURANCE POLICIES INCLUDING THE INTRODUCTION AND USE OF NEW SELECT MORTALITY FACTORS

000. LEGAL AUTHORITY.
The statutory authority for this chapter is Title 67, Chapter 52, Idaho Code, and Idaho Code, Sections 41-211 and 41-612.

001. TITLE AND SCOPE.

01. Title. This chapter shall be cited in full as IDAPA 18.01.47, "Valuation of Life Insurance Policies Including the Introduction and Use of New Select Mortality Factors".

02. Scope. The purpose of this chapter is to provide:

a. Tables of select mortality factors and rules for their use;

b. Rules concerning a minimum standard for the valuation of plans with nonlevel premiums or benefits; and

c. Rules concerning a minimum standard for the valuation of plans with secondary guarantees.

03. Method. The method for calculating basic reserves defined in this chapter will constitute the commissioners' reserve valuation method for policies to which this chapter is applicable.

04. Applicability. This chapter shall apply to all life insurance policies, with or without nonforfeiture values, issued on or after the effective date of this chapter, subject to the following exceptions and conditions.

a. Exceptions:

i. This chapter shall not apply to any individual life insurance policy issued on or after the effective date of this chapter if the policy is issued in accordance with and as a result of the exercise of a reentry provision contained in the original life insurance policy of the same or greater face amount, issued before the effective date of this chapter, that guarantees the premium rates of the new policy. This chapter also shall not apply to subsequent policies issued as a result of the exercise of such a provision, or a derivation of the provision, in the new policy.

ii. This chapter shall not apply to any universal life policy that meets all the following requirements:

(1) Secondary guarantee period, if any, is five (5) years or less;

(2) Specified premium for the secondary guarantee period is not less than the net level reserve premium for the secondary guarantee period based on the CSO valuation tables as defined in Subsection 004.06 and the applicable valuation interest rate; and
(3) The initial surrender charge is not less than one hundred percent (100%) of the first year annualized specified premium for the secondary guarantee period.

(iii) This chapter shall not apply to any variable life insurance policy that provides for life insurance, the amount or duration of which varies according to the investment experience of any separate account or accounts.

(iv) This chapter shall not apply to any variable universal life insurance policy that provides for life insurance, the amount or duration of which varies according to the investment experience of any separate account or accounts.

(v) This chapter shall not apply to a group life insurance certificate unless the certificate provides for a stated or implied schedule of maximum gross premiums required in order to continue coverage in force for a period in excess of one (1) year.

b. Conditions:

(i) Calculation of the minimum valuation standard for policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits (other than universal life policies), or both, shall be in accordance with the provisions of Section 006.

(ii) Calculation of the minimum valuation standard for flexible premium and fixed premium universal life insurance policies, that contain provisions resulting in the ability of a policyholder to keep a policy in force over a secondary guarantee period shall be in accordance with the provisions of Section 007.

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency may have written statements which pertain to the interpretation of the rules of the chapter, or to the documentation of compliance with the rules of this chapter. These documents will be available for public inspection and copying at cost in the main office and each regional or district office of this agency.

003. ADMINISTRATIVE APPEALS.
There is no appeal to the Attorney General from application of this chapter. All such appeals must be instituted by written demand for a hearing before the Director of the Department of Insurance, pursuant to Chapter 2, Title 41 and Chapter 52, Title 67, Idaho Code. Further appeal from the Director’s decision can be taken to district court, pursuant to Chapter 52, Title 67, Idaho Code.

004. DEFINITIONS.

01. Basic Reserves. Reserves calculated in accordance with Section 41-612(5), Idaho Code.

02. Contract Segmentation Method. Method of dividing the period from issue to mandatory expiration of a policy into successive segments, with the length of each segment being defined as the period from the end of the prior segment (from policy inception, for the first segment) to the end of the latest policy year as determined below. All calculations are made using the 1980 CSO valuation tables, as defined in this chapter, (or any other valuation mortality table adopted by the National Association of Insurance Commissioners (NAIC) after the effective date of this chapter and promulgated by rule by the Director for this purpose), and, if elected, the optional minimum mortality standard for deficiency reserves set forth in Subsection 005.02. The length of a particular contract segment shall be set equal to the minimum of the value \( t \) for which \( G_t \) is greater than \( R_t \) (if \( G_t \) never exceeds \( R_t \) the segment length is deemed to be the number of years from the beginning of the segment to the mandatory expiration date of the policy), where \( G_t \) and \( R_t \) are defined as follows:

- Formulas -

\[
G_t = \frac{GP_x+k+t}{GP_x+k+t-1}
\]
where:

\[ x = \text{original issue age}; \]
\[ k = \text{the number of years from the date of issue to the beginning of the segment}; \]
\[ t = 1, 2, \ldots; \text{t is reset to 1 at the beginning of each segment}; \]

\[ \text{GP}_{x+k+t-1} = \text{Guaranteed gross premium per thousand of face amount for year } t \text{ of the segment, ignoring policy fees only if level for the premium paying period of the policy.} \]

\[ R_t = \frac{q_{x+k+t}}{q_{x+k+t-1}}, \]

However, \( R_t \) may be increased or decreased by one percent (1\%) in any policy year, at the company’s option, but \( R_t \) shall not be less than one (1);

where:

\[ x, k \text{ and } t \text{ are as defined above, and} \]

\[ q_{x+k+t-1} = \text{valuation mortality rate for deficiency reserves in policy year } k+t \text{ but using the mortality of Subsection 005.02.b. if Subsection 005.02.c. is elected for deficiency reserves.} \]

However, if \( \text{GP}_{x+k+t} \) is greater than 0 and \( \text{GP}_{x+k+t-1} \) is equal to 0, \( G_t \) shall be deemed to be 1000. If \( \text{GP}_{x+k+t} \) and \( \text{GP}_{x+k+t-1} \) are both equal to 0, \( G_t \) shall be deemed to be 0.

03. Deficiency Reserves. Excess, if greater than zero (0), of

a. Minimum reserves calculated in accordance with Section 41-612(10), Idaho Code, over

b. Basic reserves.

04. Guaranteed Gross Premiums. Premiums under a policy of life insurance that are guaranteed and determined at issue.

05. Maximum Valuation Interest Rates. Interest rates defined in Section 41-612(4b), Idaho Code (Computation of Minimum Standard by Calendar Year of Issue) that are to be used in determining the minimum standard for the valuation of life insurance policies.

06. 1980 CSO Valuation Tables. Commissioners’ 1980 Standard Ordinary Mortality Table (1980 CSO Table) without ten (10) year selection factors, incorporated into the 1980 amendments to the NAIC Standard Valuation Law, and variations of the 1980 CSO Table approved by the NAIC, such as the smoker and nonsmoker versions approved in December 1983.

07. Scheduled Gross Premium. Smallest illustrated gross premium at issue for other than universal life insurance policies. For universal life insurance policies, scheduled gross premium means the smallest specified premium described in Subsection 007.01.c., if any, or else the minimum premium described in Subsection 007.01.d.

08. Segmented Reserves.

a. Reserves calculated using segments produced by the contract segmentation method, equal to the present value of all future guaranteed benefits less the present value of all future net premiums to the mandatory expiration of a policy, where the net premiums within each segment are a uniform percentage of the respective guaranteed gross premiums within the segment. The uniform percentage for each segment is such that, at the beginning of the segment, the present value of the net premiums within the segment equals:
i. The present value of the death benefits within the segment, plus (1-1-00)T

ii. The present value of any unusual guaranteed cash value (see Subsection 006.04) occurring at the end of the segment, less (1-1-00)T

iii. Any unusual guaranteed cash value occurring at the start of the segment, plus (1-1-00)T

iv. For the first segment only, the excess of the Item one (1) over Item two (2), as follows: (1-1-00)T

(1) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for in the first segment after the first policy year, divided by the present value, at the date of issue, of an annuity of one (1) per year payable on the first and each subsequent anniversary within the first segment on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the nineteen (19) year premium whole life plan of insurance of the same renewal year equivalent level amount at an age one (1) year higher than the age at issue of the policy. (1-1-00)T

(2) A net one (1) year term premium for the benefits provided for in the first policy year. (1-1-00)T

b. The length of each segment is determined by the "contract segmentation method", as defined in this chapter. (1-1-00)T

c. The interest rates used in the present value calculations for any policy may not exceed the maximum valuation interest rate, determined with a guarantee duration equal to the sum of the lengths of all segments of the policy. (1-1-00)T

d. For both basic reserves and deficiency reserves computed by the segmented method, present values shall include future benefits and net premiums in the current segment and in all subsequent segments. (1-1-00)T

09. **Tabular Cost Of Insurance.** The net single premium at the beginning of a policy year for one (1) year term insurance in the amount of the guaranteed death benefit in that policy year. (1-1-00)T

10. **Ten Year Select Factors.** The select factors adopted with the 1980 amendments to the NAIC Standard Valuation Law. (1-1-00)T

11. **Unitary Reserves.** (1-1-00)T

a. The present value of all future guaranteed benefits less the present value of all future modified net premiums, where: (1-1-00)T

i. Guaranteed benefits and modified net premiums are considered to the mandatory expiration of the policy; and (1-1-00)T

ii. Modified net premiums are a uniform percentage of the respective guaranteed gross premiums, where the uniform percentage is such that, at issue, the present value of the net premiums equals the present value of all death benefits and pure endowments, plus the excess of Item one (1) over Item two (2), as follows: (1-1-00)T

(1) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one (1) per year payable on the first and each subsequent anniversary of the policy on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the nineteen (19) year premium whole life plan of insurance of the same renewal year equivalent level amount at an age one (1) year higher than the age at issue of the policy. (1-1-00)T

(2) A net one (1) year term premium for the benefits provided for in the first policy year. (1-1-00)T

b. The interest rates used in the present value calculations for any policy may not exceed the maximum valuation interest rate, determined with a guarantee duration equal to the length from issue to the
mandatory expiration of the policy.

12. **Universal Life Insurance Policy.** Any individual life insurance policy under the provisions of which separately identified interest credits (other than in connection with dividend accumulations, premium deposit funds, or other supplementary accounts) and mortality or expense charges are made to the policy.

005. **GENERAL CALCULATION REQUIREMENTS FOR BASIC RESERVES AND PREMIUM DEFICIENCY RESERVES.**

01. **Basic Reserves.** At the election of the company for any one (1) or more specified plans of life insurance, the minimum mortality standard for basic reserves may be calculated using the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after the effective date of this chapter and promulgated by rule by the Director for this purpose). If select mortality factors are elected, they may be:

   a. The ten (10) year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law;

   b. The select mortality factors in the tables as referenced in Section 009; or

   c. Any other table of select mortality factors adopted by the NAIC after the effective date of this chapter and promulgated by rule by the Director for the purpose of calculating basic reserves.

02. **Deficiency Reserves.** Deficiency reserves, if any, are calculated for each policy as the excess, if greater than zero (0), of the quantity A over the basic reserve. The quantity A is obtained by recalculating the basic reserve for the policy using guaranteed gross premiums instead of net premiums when the guaranteed gross premiums are less than the corresponding net premiums. At the election of the company for any one or more specified plans of insurance, the quantity A and the corresponding net premiums used in the determination of quantity A may be based upon the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after the effective date of this chapter and promulgated by rule by the Director). If select mortality factors are elected, they may be one of the following:

   a. The ten (10) year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law;

   b. The select mortality factors in the tables as referenced in Section 009;

   c. For durations in the first segment, X percent of the select mortality factors in the tables as referenced in Section 009, subject to the following:

      i. X may vary by policy year, policy form, underwriting classification, issue age, or any other policy factor expected to affect mortality experience;

      ii. X shall not be less than twenty percent (20%);

      iii. X shall not decrease in any successive policy years;

      iv. X is such that, when using the valuation interest rate used for basic reserves, Item one (1) is greater than or equal to Item two (2);

      (1) The actuarial present value of future death benefits, calculated using the mortality rates resulting from the application of X;

      (2) The actuarial present value of future death benefits calculated using anticipated mortality experience without recognition of mortality improvement beyond the valuation date;

      v. X is such that the mortality rates resulting from the application of X are at least as great as the...
anticipated mortality experience, without recognition of mortality improvement beyond the valuation date, in each of the first five (5) years after the valuation date;

vi. The appointed actuary shall increase X at any valuation date where it is necessary to continue to meet all the requirements of Subsection 005.02.c.;

vii. The appointed actuary may decrease X at any valuation date as long as X does not decrease in any successive policy years and as long as it continues to meet all the requirements of Subsection 005.02.c.; and

viii. The appointed actuary shall specifically take into account the adverse effect on expected mortality and lapsation of any anticipated or actual increase in gross premiums.

ix. If X is less than one hundred percent (100%) at any duration for any policy, the following requirements shall be met:

(1) The appointed actuary shall annually prepare an actuarial opinion and memorandum for the company in conformance with the requirements of the Acturial and Memorandum Rule, IDAPA 18.01.77, Section 008, "Statement of Actuarial Opinion Based on an Asset Adequacy Analysis"; and

(2) The appointed actuary shall annually opine for all policies subject to this chapter as to whether the mortality rates resulting from the application of X meet the requirements of Subsection 005.02.c. This opinion shall be supported by an actuarial report, subject to appropriate Actuarial Standards of Practice promulgated by the Actuarial Standards Board of the American Academy of Actuaries. The X factors shall reflect anticipated future mortality, without recognition of mortality improvement beyond the valuation date, taking into account relevant emerging experience; or

d. Any other table of select mortality factors adopted by the NAIC after the effective date of this chapter and promulgated by rule by the Director for the purpose of calculating deficiency reserves.

03. Applicability. Subsection 005.03 applies to both basic reserves and deficiency reserves. Any set of select mortality factors may be used only for the first segment. However, if the first segment is less than ten (10) years, the appropriate ten (10) year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law may be used thereafter through the tenth policy year from the date of issue.

04. Gross Premiums. In determining basic reserves or deficiency reserves, guaranteed gross premiums without policy fees may be used where the calculation involves the guaranteed gross premium but only if the policy fee is a level dollar amount after the first policy year. In determining deficiency reserves, policy fees may be included in guaranteed gross premiums, even if not included in the actual calculation of basic reserves.

05. Changes In Guarantees. Reserves for policies that have changes to guaranteed gross premiums, guaranteed benefits, guaranteed charges, or guaranteed credits that are unilaterally made by the insurer after issue and that are effective for more than one (1) year after the date of the change shall be the greatest of the following:

a. Reserves calculated ignoring the guarantee;

b. Reserves assuming the guarantee was made at issue; and

c. Reserves assuming that the policy was issued on the date of the guarantee.

06. Reserve Adequacy. The Director may require that the company document the extent of the adequacy of reserves for specified blocks, including but not limited to policies issued prior to the effective date of this chapter. This documentation may include a demonstration of the extent to which aggregation with other non-specified blocks of business is relied upon in the formation of the appointed actuary opinion pursuant to and consistent with the requirements of the Acturial and Memorandum Rule, IDAPA 18.01.77, Section 008, "Statement of Actuarial Opinion Based on an Asset Adequacy Analysis".
006. **Calculation of Minimum Valuation Standard for Policies with Guaranteed Nonlevel Gross Premiums or Guaranteed Nonlevel Benefits (Other Than Universal Life Policies).**

**01. Basic Reserves.** Basic reserves shall be calculated as the greater of the segmented reserves and the unitary reserves. Both the segmented reserves and the unitary reserves for any policy shall use the same valuation mortality table and selection factors. At the option of the insurer, in calculating segmented reserves and net premiums, either of the adjustments described below may be made:

a. Treat the unitary reserve, if greater than zero (0), applicable at the end of each segment as a pure endowment and subtract the unitary reserve, if greater than zero (0), applicable at the beginning of each segment from the present value of guaranteed life insurance and endowment benefits for each segment; or

b. Treat the guaranteed cash surrender value, if greater than zero (0), applicable at the end of each segment as a pure endowment; and subtract the guaranteed cash surrender value, if greater than zero (0), applicable at the beginning of each segment from the present value of guaranteed life insurance and endowment benefits for each segment.

**02. Deficiency Reserves.**

a. The deficiency reserve at any duration shall be calculated:

i. On a unitary basis if the corresponding basic reserve determined by Subsection 006.01 is unitary;

ii. On a segmented basis if the corresponding basic reserve determined by Subsection 006.01 is segmented; or

iii. On the segmented basis if the corresponding basic reserve determined by Subsection 006.01 is equal to both the segmented reserve and the unitary reserve.

b. Subsection 006.02 shall apply to any policy for which the guaranteed gross premium at any duration is less than the corresponding modified net premium calculated by the method used in determining the basic reserves, but using the minimum valuation standards of mortality (specified in Subsection 005.02 and rate of interest).

c. Deficiency reserves, if any, shall be calculated for each policy as the excess if greater than zero (0), for the current and all remaining periods, of the quantity A over the basic reserve, where A is obtained as indicated in Subsection 005.02.

d. For deficiency reserves determined on a segmented basis, the quantity A is determined using segment lengths equal to those determined for segmented basic reserves.

**03. Minimum Value.** Basic reserves may not be less than the tabular cost of insurance for the balance of the policy year, if mean reserves are used. Basic reserves may not be less than the tabular cost of insurance for the balance of the current modal period or to the paid-to-date, if later, but not beyond the next policy anniversary, if mid-terminal reserves are used. The tabular cost of insurance shall use the same valuation mortality table and interest rates as that used for the calculation of the segmented reserves. However, if select mortality factors are used, they shall be the ten (10) year select factors incorporated into the 1980 amendments of the NAIC Standard Valuation Law. In no case may total reserves (including basic reserves, deficiency reserves and any reserves held for supplemental benefits that would expire upon contract termination) be less than the amount that the policyowner would receive (including the cash surrender value of the supplemental benefits, if any, referred to above), exclusive of any deduction for policy loans, upon termination of the policy.

**04. Unusual Pattern of Guaranteed Cash Surrender Values.**
a. For any policy with an unusual pattern of guaranteed cash surrender values, the reserves actually held prior to the first unusual guaranteed cash surrender value shall not be less than the reserves calculated by treating the first unusual guaranteed cash surrender value as a pure endowment and treating the policy as an $n$ year policy providing term insurance plus a pure endowment equal to the unusual cash surrender value, where $n$ is the number of years from the date of issue to the date the unusual cash surrender value is scheduled. 

b. The reserves actually held subsequent to any unusual guaranteed cash surrender value shall not be less than the reserves calculated by treating the policy as an $n$ year policy providing term insurance plus a pure endowment equal to the next unusual guaranteed cash surrender value, and treating any unusual guaranteed cash surrender value at the end of the prior segment as a net single premium, where:

\[ n \text{ is the number of years from the date of the last unusual guaranteed cash surrender value prior to the valuation date to the earlier of:} \]

1. The date of the next unusual guaranteed cash surrender value, if any, that is scheduled after the valuation date; or

2. The mandatory expiration date of the policy; and

\[ n \text{ is the number of years from the last unusual guaranteed cash surrender value prior to the valuation date to the earlier of:} \]

1. The present value, at the beginning of the $n$ year period, of death benefits payable during the $n$ year period plus the present value, at the beginning of the $n$ year period, of the next unusual guaranteed cash surrender value, if any, minus the amount of the last unusual guaranteed cash surrender value, if any, scheduled at the beginning of the $n$ year period.

2. The present value, at the beginning of the $n$ year period, of the scheduled gross premiums payable during the $n$ year period.

c. For purposes of Subsection 006.04, a policy is considered to have an unusual pattern of guaranteed cash surrender values if any future guaranteed cash surrender value exceeds the prior year’s guaranteed cash surrender value by more than the sum of:

1. One hundred ten percent (110%) of the scheduled gross premium for that year;

2. One hundred ten percent (110%) of one (1) year’s accrued interest on the sum of the prior year’s guaranteed cash surrender value and the scheduled gross premium using the nonforfeiture interest rate used for calculating policy guaranteed cash surrender values; and

3. Five percent (5%) of the first policy year surrender charge, if any.

05. Optional Exemption For Yearly Renewable Term (YRT) Reinsurance. At the option of the company, the following approach for reserves on YRT reinsurance may be used:

a. Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year;

b. Basic reserves shall never be less than the tabular cost of insurance for the appropriate period, as defined in Subsection 006.03;

c. Deficiency reserves.

i. For each policy year, calculate the excess, if greater than zero (0), of the valuation net premium over the respective maximum guaranteed gross premium.
ii. Deficiency reserves shall never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with Subsection 006.05.c.i.; (1-1-00)T

d. For purposes of Subsection 006.05, the calculations use the maximum valuation interest rate and the 1980 CSO mortality tables with or without ten (10) year select mortality factors, or any other table adopted after the effective date of this chapter by the NAIC and promulgated by rule by the Director for this purpose; (1-1-00)T

e. A reinsurance agreement shall be considered YRT reinsurance for purposes of Subsection 006.05 if only the mortality risk is reinsured; and (1-1-00)T

06. Optional Exemption For Attained-Age-Based Yearly Renewable Term Life Insurance Policies. At the option of the company, the following approach for reserves for attained-age-based YRT life insurance policies may be used: (1-1-00)T

a. Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year. (1-1-00)T

b. Basic reserves shall never be less than the tabular cost of insurance for the appropriate period, as defined in Subsection 006.03. (1-1-00)T

c. Deficiency reserves:

i. For each policy year, calculate the excess, if greater than zero (0), of the valuation net premium over the respective maximum guaranteed gross premium. (1-1-00)T

ii. Deficiency reserves shall never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with Subsection 006.06.c.i. (1-1-00)T

d. For purposes of Subsection 006.06, the calculations use the maximum valuation interest rate and the 1980 CSO valuation tables with or without ten (10) year select mortality factors, or any other table adopted after the effective date of this chapter by the NAIC and promulgated by rule by the Director for this purpose. (1-1-00)T

e. A policy shall be considered an attained-age-based YRT life insurance policy for purposes of Subsection 006.06 if:

i. The premium rates (on both the initial current premium scale and the guaranteed maximum premium scale) are based upon the attained age of the insured such that the rate for any given policy at a given attained age of the insured is independent of the year the policy was issued; and (1-1-00)T

ii. The premium rates (on both the initial current premium scale and the guaranteed maximum premium scale) are the same as the premium rates for policies covering all insureds of the same sex, risk class, plan of insurance and attained age. (1-1-00)T

f. For policies that become attained-age-based YRT policies after an initial period of coverage, the approach of Subsection 006.06 may be used after the initial period if:

i. The initial period is constant for all insureds of the same sex, risk class and plan of insurance; or (1-1-00)T

ii. The initial period runs to a common attained age for all insureds of the same sex, risk class, and plan of insurance; and (1-1-00)T

iii. After the initial period of coverage, the policy meets the conditions of Subsection 006.06.e.; and
g. If this election is made, this approach shall be applied in determining reserves for all attained-age-based YRT life insurance policies issued on or after the effective date of this chapter.

07. Exemption From Unitary Reserves For Certain n-Year Renewable Term Life Insurance Policies. Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met:

a. The policy consists of a series of n-year periods, including the first period and all renewal periods, where n is the same for each period, except that for the final renewal period, n may be truncated or extended to reach the expiry age, provided that this final renewal period is less than ten (10) years and less than twice the size of the earlier n-year periods, and for each period, the premium rates on both the initial current premium scale and the guaranteed maximum premium scale are level;

b. The guaranteed gross premiums in all n-year periods are not less than the corresponding net premiums based upon the 1980 CSO Table with or without the ten (10) year select mortality factors; and

c. There are no cash surrender values in any policy year.

08. Exemption From Unitary Reserves For Certain Juvenile Policies. Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met, based upon the initial current premium scale at issue:

a. At issue, the insured is age twenty-four (24) or younger;

b. Until the insured reaches the end of the juvenile period, which shall occur at or before age twenty-five (25), the gross premiums and death benefits are level, and there are no cash surrender values; and

c. After the end of the juvenile period, gross premiums are level for the remainder of the premium paying period, and death benefits are level for the remainder of the life of the policy.

01. General. The following general provisions apply.

a. Policies with a secondary guarantee include:

i. A policy with a guarantee that the policy will remain in force at the original schedule of benefits, subject only to the payment of specified premiums;

ii. A policy in which the minimum premium at any duration is less than the corresponding one (1) year valuation premium, calculated using the maximum valuation interest rate and the 1980 CSO valuation tables with or without ten (10) year select mortality factors, or any other table adopted after the effective date of this chapter by the NAIC and promulgated by rule by the Director for this purpose; or

iii. A policy with any combination of Subsections 007.01.a.i. and 007.01.a.ii.

b. A secondary guarantee period is the period for which the policy is guaranteed to remain in force subject only to a secondary guarantee. When a policy contains more than one secondary guarantee, the minimum reserve shall be the greatest of the respective minimum reserves at that valuation date of each unexpired secondary guarantee, ignoring all other secondary guarantees. Secondary guarantees that are unilaterally changed by the insurer after issue shall be considered to have been made at issue. Reserves described in Subsections 007.02 and 007.03 below shall be recalculated from issue to reflect these changes.
c. Specified premiums mean the premiums specified in the policy, the payment of which guarantees that the policy will remain in force at the original schedule of benefits, but which otherwise would be insufficient to keep the policy in force in the absence of the guarantee if maximum mortality and expense charges and minimum interest credits were made and any applicable surrender charges were assessed. (1-1-00)

d. For purposes of Section 007, the minimum premium for any policy year is the premium that, when paid into a policy with a zero (0) account value at the beginning of the policy year, produces a zero (0) account value at the end of the policy year. The minimum premium calculation shall use the policy cost factors (including mortality charges, loads and expense charges) and the interest crediting rate, which are all guaranteed at issue. (1-1-00)

e. The one (1) year valuation premium means the net one (1) year premium based upon the original schedule of benefits for a given policy year. The one (1) year valuation premiums for all policy years are calculated at issue. The select mortality factors defined in Subsections 005.02.b., 005.02.c., and 005.02.d. may not be used to calculate the one (1) year valuation premiums. (1-1-00)

f. The one (1) year valuation premium should reflect the frequency of fund processing, as well as the distribution of deaths assumption employed in the calculation of the monthly mortality charges to the fund. (1-1-00)

02. Basic Reserves For the Secondary Guarantees. Basic reserves for the secondary guarantees shall be the segmented reserves for the secondary guarantee period. In calculating the segments and the segmented reserves, the gross premiums shall be set equal to the specified premiums, if any, or otherwise to the minimum premiums, that keep the policy in force and the segments will be determined according to the contract segmentation method as defined in Subsection 004.02. (1-1-00)

An issuer shall not deny or condition the issuance or effectiveness of any Medicare supplement policy or certificate available for sale in this state, or discriminate in the pricing of a policy or certificate because of the health status, claims experience, receipt of health care, or medical condition of an applicant in the case of an application for a policy or certificate that is submitted prior to or during the six (6) month period beginning with the first day of the first month in which an individual is both sixty-five (65) years of age or older and is enrolled for benefits under Medicare Part B. Each Medicare supplement policy and certificate currently available from an issuer shall be made available on a guaranteed issue basis to all applicants who qualify under this Subsection 013.01 without regard to age. For the period that a person to whom this section applies is sixty five (65) years of age or less, the premium charged the person by the issuer shall not be greater than the premium charged by the issuer for persons who are sixty five (65) years of age. The same rating structure must be used as stated in Subsection 017.04 of the rule.

If an applicant qualifies under Subsection 013.01 and submits an application during the time period referenced in Subsection 013.01 and, as of the date of application, has had a continuous period of creditable coverage of at least six (6) months, the issuer shall not exclude benefits based on a preexisting condition.

The Secretary shall specify the manner of the reduction under this Subsection.

(1-1-99)T

c. Except as provided Subsection 013.01 shall not be construed as preventing the exclusion of benefits under a policy, during the first six (6) months, based on a preexisting condition for which the policyholder or certificate holder received treatment or was otherwise diagnosed during the six (6) months before the coverage became effective.

(1-1-99)T

09. Restrictions As To Contribution To Association. The small group carrier shall not require a small employer to join or contribute to any association or group as a condition of being accepted for coverage by the small employer carrier, except that, if membership in an association or other group is a requirement for accepting a small employer into a particular health benefit plan, a small employer carrier may apply such requirement, subject to the requirements of Section 41-4708(1)(b)(ii), Idaho Code.

10. No Requirement To Qualify For Other Insurance Product. A small employer carrier may not require, as a condition to the offer of sale of a health benefit plan to a small employer, that the small employer purchase or qualify for any other insurance product or service.

d. The number of small employer health benefit plans that were voluntarily not renewed by small
employers in the previous calendar year;

e. The number of small employer health benefit plans that were terminated or non renewed (for
reasons other than nonpayment of premium) by the carrier in the previous calendar year; and

f. The number of health benefit plans that were issued to residents that were uninsured for at least
sixty-three (63) days prior to issue.

The original text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 99-7, July 7, 1999, pages 219 through 226.

This rule has been adopted as Final by the Agency and is now pending review by the 2000 Idaho State Legislature for final adoption.

A pending rule becomes final and effective upon adjournment of the legislature OR July 1, 2000, unless the rule is approved, rejected, amended or modified by concurrent resolution in accordance with Section 67-5224 and 67-5291, Idaho Code. AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending rule. The action is authorized pursuant to Section 36-2107(b) and (d), Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

The changes to Section 041 are necessary to provide for a float lead boatman to qualify for a specific reach of a section of a river only, which the current rule does not allow. The changes are also necessary to extend the time the boatman must float the river applied for because the current requirement is too restrictive and should be expanded. The changes in Section 059 are necessary in order to provide an outfitting opportunity to two (2) licensed outfitters on the previously unlicensed section of the Boise River from the west or downstream side of the Garden City municipal limits to the east or upstream side of the Caldwell municipal limits. The change in section SA4B of this rule is necessary in order to reflect past and current Board policy and the current number of licensed outfitters on this section. Section 065 is necessary in order to put current Board policy regarding license amendments into a rule form which will give the force and effect of law.

The pending rule is being adopted as proposed. The original text of the proposed rule was published in the September 1, 1999 Idaho Administrative Bulletin, Volume 99-9, pages 142 through 150.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change.

The proposed rules have been amended in response to public comment and to make typographical, transcriptional, and clerical corrections to the rules, and are being amended pursuant to Section 67-5227, Idaho Code.

645.  WATER’S EDGE -- TREATMENT OF DIVIDENDS (Rule 645).
Section 63-3027C, Idaho Code.

01. Dividends Received From Payors Incorporated Outside The United States. Dividends received
from payors who are incorporated outside the fifty (50) states and District of Columbia but are not included in
the combined report are treated as business income. These dividends are treated as business income of the water's edge
combined group even if paid from earnings included in the taxpayer's combined report in prior years. (3-20-97)

02. Dividends Received From Payors Incorporated In The United States. Dividends received from
payors who are incorporated within the fifty (50) states and District of Columbia but not included in the combined
return are presumed to be business income of the water's edge combined group. (3-20-97)

03. Deemed Dividends From Possession Corporations. The income of a possession corporation,
excluded in Section 63-3027B(a), Idaho Code, shall be included in business income as a deemed dividend received
from a payor incorporated outside the fifty (50) states and District of Columbia. The income of a possession

a. As provided in Section 63-3027C(d)(1), Idaho Code, dividends received from a Foreign Sales

the dividend was paid bears to the total FSC income before taxes for that year. For purposes of computing the
dividend elimination, total FSC income before taxes means book income before the deduction of federal income
taxes.

b. For example, a FSC paid one million dollars ($1,000,000) in dividends during the taxable year. For
that same taxable year, the FSC had federal taxable income totaling ten million dollars ($10,000,000) and total FSC
income before taxes of twenty million dollars ($20,000,000). The dividends eliminated would be five hundred
thousand dollars ($500,000) computed as follows: (($10,000,000 federal taxable income / $20,000,000 total FSC
income before taxes) X $1,000,000 FSC dividend paid = $500,000 dividend elimination).

045. Interest Expense Offset. The interest expense offset provided in Section 63-3022M, Idaho
Code, does not apply to any dividends subject to the eighty-five percent (85%) or eighty percent (80%) exclusion
provided in Section 63-3027C or 63-3027E, Idaho Code. (3-20-97)

MOTOR FUELS TAX ADMINISTRATIVE RULES

There are substantive changes from the proposed rule text.

Only those sections that have changed from the original proposed text are printed in this Bulletin following this notice.

The complete original text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 99-9, September 1, 1999, pages 256 through 266.

This rule has been adopted as Final by the Agency and is now pending review by the 2000 Idaho State Legislature for final adoption.
292. CALCULATION OF REFUNDS FOR NONTAXABLE USES OF MOTOR FUELS IN MOTOR VEHICLES. (RULE 292).

01. Fuel Records Required For Refund Claims. Special fuels users may be eligible for a fuels tax refund of tax-paid special fuels if their motor vehicles have accrued nontaxable miles or have power-take-off (PTO) equipment. Records must be kept as described in Subsection 290.01 of these rules.

02. Nontaxable Miles Defined. Nontaxable miles are miles driven on roads which are not open to the public, not maintained by a governmental entity, located on private property that are maintained by the property owner, or defined in Subsection 290.03. Miles driven on a construction site would also be considered nontaxable miles and may be eligible for a special fuels tax refund. See Rule 130 of these rules regarding application of Idaho Sales and Use Taxes.

03. Additional Nontaxable Roadways. Roadways defined in Section 63-2401, Idaho Code, include those constructed and maintained by the United States Forest Service, the United States Bureau of Land Management, the Idaho Department of Lands, or forest protective associations with which the state of Idaho has contracted or become a member pursuant to Chapter 1, Title 38, Idaho Code. If the special fuels user is not using the "standard MPG" for its industry found in Subsection 290.02, the special fuels user must maintain records documenting nontaxable miles traveled on roadways that qualify for exclusion under this provision. Special fuels users may exclude from total taxable miles traveled in Idaho the miles traveled on these roadways when computing their special fuels tax liability or refund if:

a. The cost of maintaining the roadway pursuant to a contract or permit is primarily borne by them or if the special fuel user is a subcontractor of a prime contractor required by contract to bear the primary cost of maintaining the roadway; and

b. They operate motor vehicles that weigh over twenty-six thousand (26,000) pounds maximum gross weight on that roadway.

04. Calculation. Determine the number of taxable miles driven in Idaho following the procedure established in Subsection 290.01 of these rules. Divide this number by the actual MPG, the statutory MPG established by Subsection 290.01 of these rules, or the industry standard MPG provided by Subsection 290.02 of these rules. Subtract this number of gallons from the total Idaho tax-paid gallons purchased for the subject vehicles.

05. Power-Take-Off And Auxiliary Engine Allowances (Allowances). Power take-off (PTO) allowances are available for special fuels powered vehicles. Auxiliary engine allowances are available for both special fuels and gasoline powered vehicles.

a. Standard Allowances For Special Fuels. Nontaxable gallons of special fuels may be claimed when special fuels are used for purposes other than to operate or propel a motor vehicle and the fuel is drawn from the main supply tank of the motor vehicle. Examples of uses that qualify for allowances are turning a vehicle-mounted cement mixer or off-loading product.

b. Standard Allowances For Gasoline. Nontaxable gallons of gasoline may be claimed when gasoline is used in an auxiliary engine and the fuel is drawn from the main supply tank of the motor vehicle. No claim for gasoline is allowed when gasoline is used by the motor vehicle’s main engine even to operate the motor vehicle’s PTO unit.

c. Rates For Standard Allowances. The number of gallons of fuel actually delivered into the fuel tank of the vehicle may be reduced by the following allowances:

i. Gasoline/fuel oil: one point five (1.5) gallons per ten thousand (10,000) gallons pumped.
ii. Bulk cement: four (4) gallons per twenty-two point five (22.5) tons pumped;  

iii. Concrete: thirty percent (30%) of total fuel consumed;  

iv. Refrigeration Unit (Reefer): point seventy-five (.75) gallons per hour;  

v. Tree length timber: .0503 gallon/ton; 19.88 tons/gallon; 3.46 gallons/hour;  

vi. Garbage Compaction: twenty-five percent (25%) of total fuel consumed;  

vii. Carpet Cleaning: point seventy-five (.75) gallons/hour.  

06. **Non-Standard Allowances.** A request for an allowance not listed in Subsection 292.05 or greater than those listed must be submitted by the taxpayer to the State Tax Commission for approval before being used. Taxpayers must request approval of the proposed allowance in writing with a copy of the supporting calculations used to compute the proposed allowance. Taxpayers must send requests for approval to:

FUELS TAX POLICY  
IDAHO STATE TAX COMMISSION  
P. O. BOX 36  
BOISE, ID 83722-0036

The Idaho State Tax Commission may request additional information or documentation as needed in order to make a determination on the request.

07. **Nontaxable Gallons of Fuel Claimed By Non-IFTA Licensees.** The nontaxable gallons of fuel claimed by non-IFTA licensees may be the allowance gallons listed in Subsections 292.05 and 292.06 and/or the gallons calculated under Subsection 292.04. Only actual MPGs, computed by adjusting total fuel as defined in Subsection 292.01 by the allowance gallons, may be used to calculate a fuels tax refund based on both nontaxable miles and allowances. Fuels tax refunds based solely on an allowance may be calculated without regard to mileage and fuel consumption (MPG) information.

08. **IFTA Licensees Qualifying For Power Take-Off (PTO) And Auxiliary Engine Allowances (Allowances).** Allowances listed in Subsection 292.05 or established as provided in Subsection 292.06 may be granted for IFTA licensees by recomputing the total gallons of fuel consumed in all jurisdictions. IFTA licensees claiming refunds of Idaho fuels tax resulting from the allowances established in Subsections 292.05 and 292.06, must file the claim on an Idaho Fuels Use Report Form 75 with the relevant supplemental worksheet.

a. The IFTA licensee must recompute the total taxable fuel for Idaho by deducting the gallons determined by the allowances in all jurisdictions from the total number of gallons of fleet fuel consumed that was reported on the IFTA return. Using the new net gallons consumed, recompute the fleet miles per gallon. Apply the new fleet miles per gallon to the reported Idaho taxable miles to calculate the corrected Idaho taxable gallons. To calculate the Idaho nontaxable gallons available for refund, the licensee must subtract the recomputed taxable gallons for Idaho from the original taxable gallons reported for Idaho. This nontaxable gallon figure is then entered on the line labeled nontaxable gallons on the Form 75.  

b. Additionally, a copy of the IFTA tax return for the period subject to the refund claim and a statement or worksheet showing how allowance was calculated must be included as an attachment to the Form 75. All refund claims are subject to review and audit, therefore, adequate documentation must be retained by the licensee.

c. IFTA licensees that used an assumed MPG when preparing their original IFTA return may not claim any additional refund.
EFFECTIVE DATE: This rule has been adopted by the agency and is now pending review by the 2000 Idaho State Legislature for final adoption. DOCKET NO. 55-0105-9901
NOTICE OF PENDING RULE

EFFECTIVE DATE: These rules have been adopted by the agency and are now pending review by the 2000 Idaho State Legislature for final adoption. The pending rule becomes final and effective at the conclusion of the legislative session, unless the rule is approved, rejected, amended or modified by concurrent resolution in accordance with Section 67-5224 and 67-5291, Idaho Code. If the pending rule is approved, amended or modified by concurrent resolution, the rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending rule. The action is authorized pursuant to Section 33-2211, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for any change.

The Rules of the Division of Professional-Technical Education that are being repealed are obsolete and reflect outdated federal and state legislation requirements. In addition, Senate Bill 1246 AA, which was signed into law by Governor Kempthorne in 1999, mandates the name change of the Division of Vocational Education to the Division of Professional-Technical Education and the State Board for Vocational Education to the State Board for Professional-Technical Education. Therefore, IDAPA 55.01.05, "Reduction of Postsecondary Vocational and Applied Technology Education Programs," is being repealed in its entirety.

The pending rule is being adopted as proposed. The original text of the proposed rule was published in the July 7, 1999 Idaho Administrative Bulletin, Volume No. 99-7, pages 275 and 276.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning pending rule contact Mike Rush at (208) 334-3216.

Chapter 05

REDUCTION OF POSTSECONDARY VOCATIONAL AND APPLIED
TECHNOLOGY EDUCATION PROGRAMS

THIS RULE IS BEING REPEALED IN ITS ENTIRETY.

There are no substantive changes from the proposed rule text.

The original text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 99-7, July 7, 1999, pages 275 and 276.

This rule has been adopted as Final by the Agency and is now pending review by the 2000 Idaho State Legislature for final adoption.
AUTHORITY: In compliance with Sections 67-5221, 67-5224, and 67-5226, Idaho Code, notice is hereby given that this agency has rescinded the temporary rule previously initiated under this docket. The action is authorized pursuant to Sections 59-1314(1) and 72-1405, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a summary of the reasons for the rescission:

This temporary rule is rescinded effective October 1, 1999. The temporary rate reduction ordered by the Retirement Board for the period beginning November 1, 1997 through October 31, 1999 has been extended. These changes are reflected in temporary rules in docket number 59-0103-9902, effective October 1, 1999.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning this rescission, contact Alan H. Winkle, Executive Director of PERSI, 334-3365.

DESCRIPTIVE SUMMARY: The following is a summary of the reasons for the vacation:

This rulemaking is vacated effective October 1, 1999. EFFECTIVE DATE: These temporary rules are effective October 1, 1999.

AUTHORITY: In compliance with Sections 67-5222(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules. The action is authorized pursuant to Sections 59-1314(1) and 72-1405, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of the supporting reasons for temporary rulemaking:

Section 59-1322(1), Idaho Code, requires the Board to establish contribution rates within certain requirements. The Retirement Board has determined, based on actuarial valuation of reserves and liabilities, that it is able to continue a temporary reduction in the standard PERSI contribution rates. Temporary and proposed rules published in docket number 59-0103-9901, which would have raised rates effective November 1, 1999, are being rescinded and vacated by separate notices to be published in this bulletin. These changes are being made, in part, due to the uncertainties created by the existence of an interim legislative committee that is reviewing PERSI benefits. After legislative changes, if any, the board anticipates further rulemaking. These reductions will not reduce the contribution rate below the required normal cost and minimum amortization payment rates required by law.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(b) and 67-5226(1)(c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

That this rule change will confer a benefit on PERSI employees and employers.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased:

None.

That Docket is being vacated and rescinded by notices published in this edition of the Administrative Bulletin. Accordingly, the rule is being stricken.

The rule is being amended to comply with governing law and/or confers a benefit.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

THE FOLLOWING IS THE TEXT OF DOCKET NO. 59-0105-9901
103. METHODS OF REPAYMENT OF SEPARATION BENEFITS (Rule 103).

01. Periodic And Lump-Sum Payments. Where an active member elects to repay a separation benefit to reinstate previous service as provided in Section 59-1360, Idaho Code, the member may request that repayment be made in periodic payments or in a lump-sum payment. No service will be reinstated until the full repayment has been made.

02. Repayments Initiated On Or After March 1, 2000. For all repayments initiated on or after March 1, 2000, except as provided in Rule 101 of this chapter, a repayment amount will be determined which shall be the sum of the separation benefit(s) plus regular interest from the date of the benefit payment(s) until the date of the first payment. The repayment amount will be amortized over the repayment period at the reinstatement rate in effect on the date of the first periodic payment.

03. Repayments Initiated Before March 1, 2000. For all periodic repayments initiated before March 1, 2000, a repayment amount will be determined which shall be the sum of the separation benefit(s) plus regular interest from the date of the benefit payment(s) until the date of the first payment. The repayment amount will be amortized over the repayment period at four point seventy-five percent (4.75%) interest. This is a grandfathered rate based on the rate in effect December 31, 1999, and will apply so long as payments exceed interest charges on a calendar year basis. If payments fail to exceed interest charges in any calendar year, the grandfathered rate will be forfeited and replaced by the reinstatement rate beginning in January immediately after the year in which the failure occurs. For purposes of these rules, a repayment is initiated by signing an agreement and making a payment.

104. EMPLOYER “PICKUP” OF REINSTATEMENT PAYMENTS (Rule 104).

01. Periodic Pre-Tax Payments. Payroll deduction payments may be made pre-tax under the employer pickup provision referenced in Section 59-1332, Idaho Code, only if the member authorizes an irrevocable payroll deduction. Once executed, the deduction cannot be changed or revoked. If the member terminates employment the member may continue making payments directly to PERSI but they will not be considered pre-tax until they are picked up by a subsequent irrevocable payroll deduction, approved by PERSI, and executed with another PERSI employer.

02. Multiple Irrevocable Payroll Deductions. Members who have previously authorized an irrevocable payroll deduction for purposes of making periodic pre-tax payments to reinstate previous credited service as provided in Section 59-1360, Idaho Code, may increase repayments by executing additional irrevocable payroll deductions to supplement the previously authorized deductions so long as the previous irrevocable deductions are not modified or terminated.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The Retirement Board has determined regular interest should more closely reflect actual investment returns experienced by the PERSI fund. Accordingly, rather than using local CD rates as a basis for regular interest, regular interest will be determined by net investment returns. To reduce volatility and conform more closely to market rates, a separate rate is created, based on the prime rate, for service repurchases. For changes to rules related to service repurchases, see Notice of Temporary and Proposed Rule, Docket No. 59-0105-9901.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(b) and 67-5226(1)(c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

The rule is being amended to comply with governing law, and/or confers a benefit on PERSI members.

The Board shall adopt this average rate, rounded to the nearest quarter percent (1/4%), as the regular interest rate, with an effective date starting the first of the month following the review.
