### Subject Index
Preface

The Idaho Administrative Bulletin is published once each month by the Department of Administration, Office of the Administrative Rules Coordinator, pursuant to Section 67-5203, Idaho Code. The Bulletin is a compilation of all administrative rulemaking documents in Idaho. The Bulletin publishes the official text notice and full text of such actions.

State agencies are required to provide public notice of rulemaking activity and invite public input. The public receives notice of a rulemaking activity through the Idaho Administrative Bulletin and the Legal Notice published monthly in local newspapers. The Legal Notice provides reasonable opportunity for public input, either oral or written, which may be presented to the agency within the time and manner specified in the Legal Notice. After the comment period closes, the agency considers fully all information submitted in regard to the rule. Comment periods are not provided in temporary or final rulemaking activities.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is cited by year and issue number. For example, Bulletin 99-1 refers to the first Bulletin issued in calendar year 1999, Bulletin 00-1 refers to the first Bulletin issued in calendar year 2000, etc. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 1 refers to January; Volume No. 2 refers to February; and so forth. Example: The Bulletin published in January of 1999 is cited as Volume 99-1, the December 1998 Bulletin is cited as Volume 98-12. The March 2000 Bulletin is cited as Volume 00-3.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is published once a year and is a compilation or supplemental compilation of all final and enforceable administrative rules in effect in Idaho. In an effort to provide the reader with current, enforceable rules, temporary rules are also published in the Administrative Code. Temporary rules and final rules that have been adopted and approved by the legislature during the legislative session, and published in the monthly Idaho Administrative Bulletin, supplement the Administrative Code. Negotiated, proposed, and pending rules are not printed in the Administrative Code and are published only in the Bulletin.

To determine if a particular rule remains in effect, or to determine if a change has occurred, the reader should refer to the Cumulative Index of Administrative Rulemaking, printed in each Bulletin.

TYPES OF RULES PUBLISHED IN THE ADMINISTRATIVE BULLETIN

The state of Idaho administrative rulemaking process comprises five distinct activities; Proposed, Negotiated, Temporary, Pending, and Final rulemaking. In the majority of cases, the process begins with proposed rulemaking and ends with final rulemaking. The following is a brief explanation of each type of administrative rule.

NEGOTIATED RULE

Negotiated rulemaking is a process in which all interested parties and the agency seek a consensus on the content of the rule. Agencies are encouraged to proceed through this informal rulemaking whenever it is feasible to do so. Publication of the text in the Administrative Bulletin by the agency is optional. This process should lead the
rulemaking to the temporary and/or proposed rule stage.

PROPOSED RULE

A proposed rulemaking is an action by an agency in which the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a notice of proposed rulemaking in the Bulletin. The notice of proposed rulemaking must include:

a) the specific statutory authority for the rulemaking including a citation to a specific federal statute or regulation if that is the basis of authority or requirement for the rulemaking;

b) a statement in nontechnical language of the substance of the proposed rule, including a specific description of any fee or charge imposed or increased;

c) the text of the proposed rule prepared in legislative format;

d) the location, date, and time of any public hearings the agency intends to hold on the proposed rule;

e) the manner in which persons may make written comments on the proposed rule, including the name and address of a person in the agency to whom comments on the proposal may be sent;

f) the manner in which persons may request an opportunity for an oral presentation; and

g) the deadline for public (written) comments on the proposed rule.

As stated, the text of the proposed rule must be published in the Bulletin. After meeting the statutory rulemaking criteria for a proposed rule, the agency may proceed to the pending rule stage. A proposed rule does not have an assigned effective date unless published in conjunction with a temporary rule docket. An agency may vacate a proposed rulemaking if it decides not to proceed further with the promulgation process.

TEMPORARY RULE

Temporary rules may be adopted only when the governor finds that it is necessary for:

a) the protection of the public health, safety, or welfare; or

b) compliance with deadlines in amendments to governing law or federal programs; or

c) conferring a benefit.

If a rulemaking meets any one or all of the above requirements, a rule may become effective before it has been submitted to the legislature for review and the agency may proceed and adopt a temporary rule.

A temporary rule expires at the conclusion of the next succeeding regular session of the legislature unless the rule is approved, amended, or modified by concurrent resolution or when the rule has been replaced by a final rule.

In cases where the text of the temporary rule is the same as that of the proposed rule, the rulemaking can be done concurrently as a temporary/proposed rule. State law requires that the text of a proposed or temporary rule be published in the Administrative Bulletin. Combining the rulemaking allows for a single publication of the text.

An agency may rescind a temporary rule that has been adopted and is in effect if the rule is being replaced by a new temporary rule or has been published concurrently with a proposed rulemaking that is being vacated.
PENDING RULE

A pending rule is a rule that has been adopted by an agency under the regular rulemaking process and remains subject to legislative review before it becomes a final, enforceable rule.

When a pending rule is published in the Bulletin, the agency is required to include certain information in the Notice of Pending Rule. This includes:

a) the reasons for adopting the rule;

b) a statement of any change between the text of the proposed rule and the pending rule with an explanation of the reasons for any changes;

c) the date the pending rule will become final and effective; and

d) an identification of any portion of the rule imposing or increasing a fee or charge.

Agencies are required to republish the text of the rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule. With the permission of the Rules Coordinator, only the Section(s) that have changed from the proposed text are republished. If no changes have been made to the previously published text, it is not required to republish the text again and only the Notice of Pending Rule is published.

FINAL RULE

A final rule is a rule that has been adopted by an agency under the regular rulemaking process and is in effect.

No pending rule adopted by an agency will become final and effective until it has been submitted to the legislature for review. Where the legislature finds that the agency has violated the legislative intent of the statute under which the rule was made, a concurrent resolution will be adopted rejecting, amending, or modifying the rule or any part thereof. A Notice of Final Rule must be published in the Idaho Administrative Bulletin for any rule that is rejected, amended, or modified by the legislature showing the changes made. A rule that has been reviewed by the legislature and has not been rejected, amended, or modified will become final with no further legislative action. No rule shall become final and effective before the conclusion of the regular or special legislative session at which the rule was submitted for review. However, a rule which is final and effective may be applied retroactively, as provided in the rule.

HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering system. Each state agency has a two-digit identification code number known as the “IDAPA” number. (The “IDAPA” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit “TITLE” number is assigned. There are “CHAPTER” numbers assigned within the Title and the rule text is divided among major sections with a number of subsections. An example IDAPA number is as follows:

IDAPA 38.05.01.060.02.c.ii.

“IDAPA” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

“IDAPA 38.” refers to the Idaho Department of Administration.

“05.” refers to Title 05 which is the Department of Administration’s Division of Purchasing.

“01.” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”.

“060.” refers to Major Section 060, “Content of the Invitation to Bid”.

“02.” refers to Subsection 060.02.

“c.” refers to Subsection 060.02.c.

“ii.” refers to Subsection 060.02.c.ii.
DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. All rulemaking actions (documents) are assigned a “DOCKET NUMBER”. The “Docket Number” is a series of numbers separated by a hyphen “-”, (38-0501-9901). The docket numbers are published sequentially by IDAPA designation (e.g. the two-digit agency code). The following example is a breakdown of a typical rule docket:

“DOCKET NO. 38-0501-9901”

“38-” denotes the agency's IDAPA number; in this case the Department of Administration.

“0501-” refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), “Rules of the Division of Purchasing” (Chapter 01).

“9901” denotes the year and sequential order of the docket submitted and published during the year; in this case the first rulemaking action of the chapter published in calendar year 1999.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

“(BREAK IN CONTINUITY OF SECTIONS)”

INTERNAL AND EXTERNAL CITATIONS TO ADMINISTRATIVE RULES IN THE CODE AND BULLETIN

When making a citation to another Section or Subsection that is part of the same rule, a typical internal citation may appear as follows:

“...as found in Section 201 of this rule.” OR “...in accordance with Subsection 201.06.c. of this rule.”

It may also be cited to include the IDAPA, Title, and Chapter number also, as follows:

“...in accordance with IDAPA 38.05.01.201.”

“38” denotes the IDAPA number of the agency.

“05” denotes the TITLE number of the agency rule.

“01” denotes the Chapter number of the agency rule.

“201” references the main Section number of the rule that is being cited.

Citations made within a rule to a different rule chapter (external citation) should also include the name of the Department and the name of the rule chapter being referenced, as well as the IDAPA, Title, and Chapter numbers. The following is a typical example of an external citation to another rule chapter:

“...as outlined in the Rules of the Department of Administration, IDAPA 38.04.04, 'Rules Governing Capitol Mall Parking.'”

55.01.03 - RULE GOVERNING PERKINS TITLE III SECONDARY FUNDING FORMULA WAIVER
DOCKET NO. 55-0103-0001
NOTICE OF TEMPORARY AND PROPOSED RULE (REPEAL)

EFFECTIVE DATE: The effective date of the temporary rule is July 1, 2000.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed regular rulemaking procedures have been initiated. The action is authorized pursuant to Section(s) 33-2211, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than August 24, 2000.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking.

IDAPA 55.01.03, “Rules Governing Perkins Title III Secondary Funding Formula Waiver,” was promulgated this past year and approved by the 2000 Idaho Legislature under the assumption that the federal regulations would allow Title I funding to be used as a model. However, the U.S. Department of Education recently ruled that they are allowing Census compatible age designations and not allowing Title I funding to be used as a model. This negates the need and the direction for IDAPA 55.01.03. Therefore, IDAPA 55.01.03, “Rules Governing Perkins Title III Secondary Funding Formula Waiver,” needs to be repealed in its entirety.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(b) and 67-5226(1)(c), Idaho Code, the governor has found that temporary adoption is appropriate for the following reasons:

This rule is promulgated as temporary in order to be in compliance with U. S. Department of Education rulings and to meet federal program requirements.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Dr. Mike Rush at 208-334-3216.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered on or before August 31, 2000.

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has proposed rulemaking. The action is authorized by Sections 39-105 and 39-107, Idaho Code. The transportation conformity portion of this rulemaking is required under 40 CFR 51.390(a). In addition, the this rulemaking updates citations to the federal regulations incorporated by reference as mandated by the U.S. Environmental Protection Agency (EPA) for approval of the state’s Title V Operating Permit Program pursuant to 40 CFR Part 70 and fulfilling the requirements of Idaho’s delegation agreement with EPA under Section 112(l) of the Clean Air Act.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this proposed rulemaking will be held as follows:

Tuesday, August 8, 2000, 7:00 p.m.
Department of Environmental Quality Conference Center
1410 N. Hilton, Boise, Idaho.

Before opening the record to receive oral comments, DEQ staff will answer questions regarding the rule. The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made no later than five (5) days prior to the hearing. For arrangements, contact the undersigned at (208)373-0418.

DESCRIPTIVE SUMMARY: This proposed rule will ensure conformity of transportation plans, programs, and projects to applicable implementation plans. Transportation actions which are federally funded, or are regionally significant are subject to this rule. The rule will set forth policy, criteria, and procedures for demonstrating and assuring transportation conformity of specified actions to the applicable implementation plan and provide flexibility in the interagency consultation process for better process efficiency. The rule will incorporate by reference 40 CFR Part 93, Subpart A, Sections 100-129 (inclusive), except for Section 105 (consultation).

DEQ is specifically asking for public comment on Subsection 570.01.c.iii. This subsection provides language wherein a lead agency responsible for the rule may send a technical document for air quality analysis with only a 14 day review time. Normally, the required review time for review of technical air quality analysis is 30 days. This subsection was added to the rules based on a request from the Metropolitan Planning Organizations. DEQ is still conducting internal meetings as to the final form of this language and wishes to consider public input on this specific matter before finalizing the language. The language as it appears in the proposed rule, is as follows:

iii. If distribution of technical material pursuant to Subsection 570.01.c.ii. is not feasible thirty (30) days prior to an ICC meeting, then the lead agency shall notify the ICC members and persons on the distribution list in writing at least thirty (30) days prior to the ICC meeting. Together with the notification, the lead agency shall distribute all available material to the ICC members and persons on the distribution list, informing them of the nature, purpose, and details of possible program changes that are expected to occur from earlier analyses of the actions. All technical material and documentation shall be distributed at a minimum of fourteen (14) days prior to the ICC meeting.

This proposed rule also updates citations to the federal regulations incorporated by reference to July 1, 2000 in order to maintain conformance with EPA’s regulations as well as fulfilling the requirements of Idaho’s delegation agreement with EPA under Section 112(l) of the Clean Air Act. This includes the Maximum Achievable Control Technology (MACT) Standards promulgated as National Emissions Standards for Hazardous Air Pollutants (NESHAPS).

The proposed rule text is in legislative format. Language the agency proposes to add is underlined. Language the agency proposes to delete is struck out. It is these additions and deletions to which public comment should be addressed.

After consideration of public comments, DEQ intends to present the final proposal to the Board of Environmental Quality in November 2000 for adoption of a pending rule. The rule is expected to be final and effective upon the
conclusion of the 2001 session of the Idaho Legislature.

NEGOTIATED RULEMAKING: The rule text at Sections 563 through 574 is based on a consensus recommendation resulting from the negotiated rulemaking process conducted pursuant to Section 67-5220, Idaho Code, and IDAPA 04.11.01.812 through 815. The negotiation was open to the public. Participants in the negotiation included industry representatives, affected public transportation and air quality agencies, and members of the public. The Notice of Negotiated Rulemaking was published in the Idaho Administrative Bulletin, Volume 99-5, May 5, 1999, pages 34 through 35.

GENERAL INFORMATION: For more information about the Department of Environmental Quality’s programs and activities, visit DEQ’s web site at www.state.id.us/deq.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on questions concerning the proposed rulemaking, contact Krishna Viswanathan (208)373-0502, kviswana@deq.state.id.us.

Anyone can submit written comments by mail, fax or e-mail at the address below regarding this proposed rule. The Department will consider all written comments received by the undersigned on or before August 11, 2000.

(BREAK IN CONTINUITY OF SECTIONS)

563. TRANSPORTATION CONFORMITY.
The purpose of Sections 563 through 574 is to adopt and implement Section 176(c) of the Clean Air Act (CAA), as amended [42 U.S.C. 7401 et seq.], and the related requirements of 23 U.S.C. 109(j), with respect to the conformity of transportation plans, programs, and projects developed, funded, or approved by the United States Department of Transportation (USDOT), and by metropolitan planning organizations (MPOs) or other recipients of funds under Title 23 U.S.C. or the Federal Transit Laws (49 U.S.C. Chapter 53). These sections set forth policy, criteria, and procedures for demonstrating and assuring conformity of such activities to an applicable implementation plan developed pursuant to Section 110 and Part D of the CAA. The publications referred to or incorporated by reference in Sections 563 through 574 are available from the IDEQ.

564. INCORPORATION BY REFERENCE.
With the exception of Section 105, 40 CFR Part 93, Subpart A, Sections 100-129, are incorporated by reference into these rules at Section 107 of these rules.

565. ABBREVIATIONS.

01. CAA. Clean Air Act, as amended.
566. **DEFINITIONS FOR THE PURPOSE OF SECTIONS 563 THROUGH 574.**

Terms used but not defined in Sections 563 through 574 shall have the meaning given them by the CAA, Titles 23 and 49 U.S.C., other Environmental Protection Agency (EPA) regulations, or other USDOT regulations, in that order of priority. For the purpose of Sections 563 through 574:

01. **Applicable Implementation Plan.** Applicable Implementation Plan is defined in Section 302(q) of the CAA and means the portion (or portions) of the implementation plan, or most recent revision thereof, which has been approved under Section 110 of the CAA, or promulgated under Section 110(c) of the CAA, or promulgated or approved pursuant to regulations promulgated under Section 301(d) of the CAA and which implements the relevant requirements of the CAA.

02. **Consult Or Consultation.** The lead agency confers with other ICC members and persons on the
distribution list and considers their views prior to taking actions relating to transportation conformity. The lead agency shall distribute all appropriate information necessary to make a conformity determination and, prior to making a conformity determination, shall consider the views of such parties and shall provide a timely, written response to those views. Such views and written responses shall be included in the record of decision or action. Consultation shall not occur with respect to a transportation plan or transportation improvement program (TIP) revision that merely adds or exempts projects listed in 40 CFR 93.126.

03. **Distribute.** Make available relevant documents and information by electronic and manual means, whichever is more appropriate, to all ICC members and persons on the distribution list. Electronic distribution may include existing and future technological applications, such as electronic mail, internet web-site posting including downloadable files, or the use of an electronic mail reply system based on the distribution list. Manual distribution may include the United States Postal Service, the state internal mail system, a facsimile machine, or any commercially available mail service provider.

04. **Distribution List.** A list containing the names and addresses of ICC members and any person(s) expressing an interest in receiving information and material pertaining to ICC meetings. To express interest, a person may contact the lead agency by postal mail, electronic mail, telephone or in person, and inform the ICC member of their interest in being on the distribution list for information and material pertaining to ICC meetings.

05. **Exempt Projects.** Projects exempt from conformity requirements based on the general criteria of safety, mass transit, and other factors, as described in 40 CFR 93.126.

06. **Lead Agency.** The transportation or air quality agency responsible for conducting the consultation process, as identified in Subsections 568.01 through 568.03.

07. **Lead Air Quality Agency.** An agency designated pursuant to Section 174 of the CAA as responsible for developing an applicable implementation plan, or alternatively the agency designated by the Governor as the lead air quality agency for a county, region, or any jurisdiction.

08. **Local Highway Jurisdiction.** A county with jurisdiction over a highway system, a city with jurisdiction over a highway system, or a highway district, as defined by Section 40-113(3), Idaho Code.

09. **Local Highway Technical Assistance Council (LHTAC).** The public agency created in Chapter 24, Title 40, Idaho Code.

10. **Maximum Priority.**

   a. All possible actions must be taken to shorten the time periods necessary to complete essential steps in TCM implementation - for example, by increasing the funding rate - even though timing of other projects may be affected. It is not permissible to have prospective discrepancies with the applicable implementation plan's TCM implementation schedule due to:

   i. Lack of funding in the TIP;
   ii. Lack of commitment to the project by the sponsoring agency;
   iii. Unreasonably long periods to complete future work due to lack of staff or other agency resources;
   iv. Lack of approval or consent by local governmental bodies; or
   v. Failure to have applied for a permit where necessary work preliminary to such application has been completed.

   b. Where statewide and metropolitan funding resources, planning, and management capabilities are fully consumed within the flexibility of the Transportation Equity Act of 1998 (TEA-21), Pub. L. No. 105-178, 112 Stat 107, as amended by Pub. L. No. 105-206, 112 Stat 685, or future federal omnibus transportation funding bills,
with responding to damage from natural disasters, civil unrest, or terrorist acts, TCM implementation can be determined to be timely without regard to the above, provided reasonable efforts are being made.

11. Metropolitan Planning Organization (MPO). The organization designated as being responsible, together with the State, for conducting the continuing cooperative and comprehensive transportation planning process under 23 U.S.C. 134 and 49 U.S.C. 5303 and 23 CFR 450. It is the forum for cooperative transportation decision-making.

12. Public Notice. Distribution of the meeting times, location, duration and agenda, to all the ICC members and persons on the distribution list.

13. Recipient Of Funds Designated Under Title 23 U.S.C. Or The Federal Transit Laws. Any agency at any level of state, county, city, or regional government that routinely receives Title 23 U.S.C. or Federal Transit Laws funds to construct FHWA/FTA projects, operate FHWA/FTA projects or equipment, purchase equipment, or undertake other services or operations via contracts or agreements. This definition does not include private landowners, developers, contractors, or entities that are only paid for services or products created by their own employees.

14. Regionally Significant Project. A transportation project, other than an exempt project, that is on a facility which serves regional transportation needs (such as access to and from the area outside the region, major activity centers in the region, major planned developments such as new retail malls, sports complexes, etc., or transportation terminals as well as most terminals themselves) and would normally be included in the modeling of a metropolitan area’s transportation network, including, at a minimum:

   a. All principal arterial highways;
   b. All fixed guideway transit facilities that offer an alternative to regional highway travel; and
   c. Any other facilities determined to be regionally significant through Section 570, interagency consultation.

15. Transportation Agency. The public agency responsible for one (1) or more of the following transportation modes:

   a. Air;
   b. Rail;
   c. Water;
   d. Highway;
   e. Bicycle and pedestrian paths; and
   f. Transit.

16. Transit Agency. Any agency involved in providing mass transportation services by bus, rail, or other conveyance providing general or special service to the public on a regular and continuing basis. The term "Transit Agency” does not include school buses or charter or sightseeing services.

The written notice shall provide the name, address, and telephone number of one (1) or more contact persons representing the entity accepting the delegated role or responsibility.

07. **General Actions Requiring Consultation.** The ICC shall undertake the consultation process prior to the development of the following:
   a. The implementation plan(s), including the emission budget and list of TCMs in the applicable implementation plan(s), prepared by the lead air quality agency in a nonattainment or maintenance area;
   b. All other conformity determinations for transportation plans, projects, and programs; and
   c. Revisions to the preceding documents which may directly or indirectly affect conformity determinations.
568. **ICC MEMBER ROLES IN CONSULTATION.**
The lead agency as identified in this section is the ICC member responsible for initiating the consultation process, preparing the initial and final drafts of the document or decision, and assuring the adequacy of the consultation process for all conformity processes and procedures.

01. **Designated Lead Air Quality Agency.** IDEQ or the MPO, as the designated lead air quality agency, shall be the lead agency for the development of the implementation plan, the associated emission budgets, and the list of Transportation Control Measures (TCMs) in the plan. The concurrence of IDEQ on each applicable implementation plan is required before IDEQ adopts the plan and submits it to EPA for inclusion in the applicable implementation plan.

02. **Areas With An MPO.** For areas in which an MPO has been established, the designated MPO shall be the lead agency responsible for conformity determinations, development of the LRTP, development of the TIP, and project level documentation under 23 CFR 450.

03. **Areas Without An MPO.** For areas in which an MPO has not been established, ITD shall be the lead agency for preparing the final document on conformity determinations, the development of the statewide transportation plan, the development of the STIP, and project level documentation under 23 CFR 450.

569. **ICC Member Responsibilities In Consultation.**
This section identifies the specific responsibilities of ICC members.

01. **Designated Lead Air Quality Agency Responsibilities.** The designated lead air quality agency shall be responsible for developing or providing and distributing draft and final documentation, data and analyses for:

a. Air emission inventories;  

b. Emission budgets;  

c. Attainment and maintenance demonstrations;  

d. Control strategy implementation plan revisions;  

e. Updated motor vehicle emission factors;

b. In an MPO area, to help assure timely disclosure, the sponsor of any potentially regionally significant project shall disclose such projects to the MPO annually on or before March 1 of that calendar year; and

c. In MPO nonattainment and maintenance areas, the TIP and associated conformity demonstration shall be deemed to be incomplete if any regionally significant project has not been disclosed to the ICC in a timely manner. Therefore, such a TIP shall be considered to be non-conforming to applicable implementation plan(s).
570. GENERAL CONSULTATION PROCESS.
Section 570 provides the general procedures for interagency consultation (federal, tribal, state, and local) and public participation for transportation conformity determinations in air quality nonattainment and maintenance areas in the state of Idaho.

01. Lead Agency in Consultation. The following are the responsibilities of the lead agency at each stage of the consultation process:

b. Developing and maintaining a distribution list of all ICC members and any other persons expressing an interest in receiving information and materials pertaining to ICC meetings;

c. Distributing an agenda and all supporting material, including minutes of ICC meetings, to ICC members and persons on the distribution list as follows:

i. Fourteen (14) days in advance of an ICC meeting if there are non-technical issues to be resolved by the ICC;

ii. Thirty (30) days in advance of an ICC meeting if there are technical issues to be resolved by the ICC; or

iii. If distribution of technical material pursuant to Subsection 570.01.c.ii. is not feasible thirty (30) days prior to an ICC meeting, then the lead agency shall notify the ICC members and persons on the distribution list in writing at least thirty (30) days prior to the ICC meeting. Together with the notification, the lead agency shall distribute and disclose all available material and documentation to the ICC members and persons on the distribution list, informing them of the nature, purpose, and details of possible program changes that are expected to occur from earlier analyses of the actions. All technical material and documentation shall be distributed at a minimum of fourteen (14) days prior to the ICC meeting;

d. Conferring with other agencies and persons not on the distribution list that have expressed an interest in the document or decision to be developed;

e. Providing ICC members and persons on the distribution list access to all information needed for meaningful input;

f. Soliciting early and continuing input from other ICC members and persons on the distribution list;

j. Assuring all comments and written responses of ICC members and persons on the distribution list are made part of the record of any action.

02. Public Comment Period To Satisfy Thirty Day Document Distribution Requirement. A lead agency may use all or any part of another public comment period established for public outreach procedures pursuant to 23 CFR 450 for a transportation plan, program, or project to satisfy the thirty (30) day advance distribution requirement for technical issues, and shall notify all ICC members and other persons on the distribution list when so
14. Separate Times Or In Combination. The above actions may be conducted at separate times or in combination, as required, to enhance the efficiency of the process.

04. Final Document Distribution. A lead agency, upon completion of a final document subject to the consultation process under Sections 563 through 574 of these rules (including any federal agency), shall distribute each final document to all other ICC members and persons on the distribution list within thirty (30) days of adopting or approving such document or making such determination.

05. Use Of Checklist For Distribution Of Material. The lead agency may supply a checklist of available supporting information to ICC members and persons on the distribution list to be used to request all or part of the supporting information, in lieu of generally distributing all supporting information.

06. Use Of Other Meetings For Consultation. A meeting that is scheduled or required for another purpose may be used for the purposes of consultation only if the public notice for the meeting identifies consultation as an agenda item.

571. CONSULTATION PROCEDURES. The consultation process among ICC members and persons on the distribution list shall be undertaken for the following specific major activities (federal, tribal, state, and local), specific routine activities and specific air quality related activities, in accordance with the procedures in Section 570. Participating agencies shall be all ICC members unless otherwise specified in Subsections 571.01 through 571.04.

01. Specific Major Activities. The consultation process shall be undertaken for the following specific major activities. The lead agency for each activity shall be the designated MPO or ITD in the absence of an MPO.

a. Evaluating and choosing each air quality model and associated methods and assumptions to be used in hot-spot analyses and regional emissions analyses including vehicle miles traveled forecasting. The hot-spot analyses shall be performed consistent with procedures described in 40 CFR 93.116 and 40 CFR 93.123 and regional emissions analysis shall be performed using procedures outlined on 40 CFR 93.122.

b. Determining which minor arterials and other transportation projects should be considered “regionally significant” for the purposes of regional emissions analysis, in addition to those functionally classified as principal arterial or higher or fixed guideway transit systems or extensions that offer an alternative to regional highway travel.

c. Evaluating whether projects otherwise exempted from meeting the requirements of Sections 563 through 574 of these rules should be treated as non-exempt in cases where potential adverse emissions impacts may exist for any reason per 40 CFR 93.126 and 127.

d. Making a determination as to whether past obstacles to implementation of TCMs which are behind the schedule established in the applicable implementation plan have been identified and are being overcome, and whether state and local agencies with influence over approvals or funding for TCMs are giving maximum priority to approval or funding for TCMs. This consultation procedure shall also consider whether delays in TCM implementation necessitate revisions to the applicable implementation plan to remove TCMs or substitute TCMs with other emission reduction measures.

e. Identifying projects located at sites in PM nonattainment or maintenance areas which have vehicle and roadway emission and dispersion characteristics which are essentially identical to those at sites which have violations verified by monitoring, and therefore require quantitative PM hot-spot analysis. In case a method for quantitative hot-spot analysis has not been formally adopted by EPA, a sound qualitative analysis developed in conjunction with FHWA may be used for the same.

f. Making a determination whether the project is included in the regional emissions analysis supporting the currently conforming TIP’s conformity determination, and whether the project’s design concept and
For areas in the state with no MPOs, making a determination whether a project has undergone project-level analysis and whether the project’s design concept and scope have changed significantly from those which were included in the project-level analysis, or in a manner which would significantly impact use of the facility.

h. Establishing appropriate public participation opportunities for project-level conformity determinations, as applicable, in the manner specified by Section 574, to be initiated by the recipient of the funds designated under 23 U.S.C. or the Federal Transit Act.

i. Choosing conformity tests and methodologies for isolated and rural nonattainment and maintenance areas as required by 40 CFR 93.109(g)(2)(iii).

02. Specific Routine Activities. The consultation process shall be undertaken for the following specific routine activities. The lead agency shall be the MPO or ITD in the absence of an MPO.

a. Evaluating events that will trigger new conformity determinations in addition to those triggering events established in 40 CFR 93.104. Participating agencies shall be the MPO and state, tribal, regional, and local air quality planning agencies.

b. Consulting on emissions analysis for transportation activities that cross the borders of MPOs or nonattainment or maintenance areas. Participating agencies shall be the MPO and state, tribal, regional, and local air quality planning agencies.

c. Determining whether the project sponsor or MPO has demonstrated that the requirements are satisfied without a particular mitigation, such as emissions offsets or other control measures, or determining that a conforming project approved with mitigation no longer requires mitigation.

d. Assuring that plans for construction of regionally significant projects that are not FHWA/FTA projects, including projects for which alternative locations, design concept and scope, or the no-build option are still being considered, are disclosed to the MPO or ITD in the absence of an MPO on a regular basis, and assuring that any changes to those plans are immediately disclosed.

e. Determining whether a project, which was previously found to conform, has or will have a significant change in design concept and scope since the project plan and TIP conformity determination.

f. Designing, scheduling, and funding of research and data collection effort pertaining to transportation or air quality planning with implications for transportation conformity.

g. Reviewing and recommending regional transportation model development by the MPO (e.g., household/travel transportation surveys).

h. Development of transportation improvement programs.

i. Development of regional transportation plans.

j. Consulting when the metropolitan planning area does not include the entire nonattainment area or maintenance area, for planning requirements which may fall under the jurisdiction of more than one MPO or the MPO and ITD.

03. Specific Air Quality Related Activities. The consultation process shall be undertaken when preparing an applicable implementation plan that includes the revision or addition of a motor vehicle emissions inventory and budget activities in accordance with the procedures in Section 570. Consultation is not required for administrative amendments that do not affect conformity. The lead agency for each activity shall be IDEQ or the MPO. In addition to the Section 570 consultation process, the lead agency shall undertake the following:
a. Scheduling consultation meetings early in the process of decision on the applicable implementation plan, and prior to making a final recommendation to their management, committees, boards or commissions, for a final decision on such documents;  

b. Arranging for technical committees or teams to assist ICC members in reviewing documents provided by the lead agency. The lead agency may convene technical meetings as necessary; and  

c. Scheduling and conducting meetings of the ICC at regularly scheduled intervals, no less frequently than quarterly.  

d. The ICC may appoint subcommittees to address specific issues pertaining to applicable implementation plan development. Any recommendations of a subcommittee shall be considered by the ICC.  

04. Notification Process. The designated MPO, or ITD in the absence of an MPO, shall notify ICC members and persons on the distribution list of a transportation plan or TIP revisions that merely add or delete exempt projects listed in 40 CFR 93.126 early in the process of decision, and by supplying all relevant documents and information to the same.  

572. FINAL CONFORMITY DETERMINATIONS BY USDOT.  
Section 572 establishes the process USDOT shall follow when making final determinations on proposed or anticipated transportation actions subject to transportation conformity.  

01. Final Conformity Determination Process. USDOT will make making final determinations on proposed or anticipated STIP or transportation plan or project conformity by:  

a. Distributing a draft conformity determination to EPA for review and comment. USDOT shall allow a maximum of thirty (30) days for EPA to respond; and  

b. USDOT shall respond in writing to any significant comments raised by EPA within fourteen (14) days of receipt in writing before making a final decision.  

02. New Or Revised Information. If USDOT requests any new or revised information to support a STIP, TIP or transportation plan or project conformity determination, then USDOT shall either return the conformity determination for additional consultation pursuant to Section 570, or USDOT shall distribute the new information to the ICC members and persons on the distribution list for review and comment:  

a. When USDOT distributes such new or additional information to ICC members and persons on the distribution list, USDOT shall allow for a maximum of thirty (30) days for the lead agency to respond to any new or revised supporting information; and  

b. USDOT shall distribute a written response within fourteen (14) days of receipt to any significant comments raised by the ICC members and persons on the distribution list on the new or revised supporting information before making a final decision.  

573. RESOLVING CONFLICTS.  
Conflicts between state agencies or between state agencies and the MPO regarding a determination of conformity, applicable implementation plan submittal, or other policy decision under Sections 563 through 574, shall be resolved in the following manner.  

01. Conflict Resolution At The Level Of IDEQ Regions And ITD Districts. Every effort shall be made to resolve any conflicts among state agencies or between state agencies and an MPO at the regional level. The regional administrator of IDEQ, the District Engineer of ITD and the other agency managers at the regional level of the affected jurisdictions, or their designated representatives shall be involved in conflict resolution at the regional level.  

02. Conflict Resolution At The Level Of IDEQ And ITD Headquarters. If conflict(s) are not
resolved at the regional level, the issue shall be raised to the level of agency directors for resolution.

03. Conflict Resolution At The Governor’s Level. If conflict(s) are not resolved through Subsection 569.02, then IDEQ shall raise the conflict to the Governor, as follows:

a. The IDEQ administrator shall request in writing that ITD or the MPO provide IDEQ with written notification of resolution of IDEQ’s comments. ITD or the MPO shall provide IDEQ with the requested written notification within fourteen (14) days of receipt of IDEQ’s written request.

b. Within fourteen (14) days of its receipt of the requested written notification, IDEQ may appeal the conformity determination in writing to the Governor. If IDEQ appeals to the Governor, then the final conformity determination must have the concurrence of the Governor. If IDEQ does not appeal in writing to the Governor within fourteen (14) days of its receipt of written notification of resolution of its comments, then the lead transportation agency may proceed with the final conformity determination.

c. The fourteen (14) days shall start on the date when the IDEQ administrator receives notification of the written resolution of his comments regarding a determination of conformity, applicable implementation plan submittal, or other decision under Sections 563 through 574.

04. Process For Conflict Resolution At The Governor’s Level. The Governor may delegate to another independent official or agency within the state his or her role in this process. The Governor may not delegate his or her role to the head or staff of the state air quality agency or any local air quality agency, ITD, a state transportation commission or board, any agency that has responsibility for any one (1) of these functions, or an MPO.

574. PUBLIC CONSULTATION PROCEDURES. Affected agencies making conformity determinations on transportation plans, programs, and projects shall establish a proactive public involvement process which provides opportunity for public review and comment by, at a minimum, providing at the beginning of the public comment period and prior to taking formal action on a conformity determination for all transportation plans and TIPs, reasonable public access to technical and policy information considered by the agency, and consistent with these requirements and those of 23 CFR 450. Any charges imposed for public inspection and copying should be consistent with the fee schedule contained in 49 CFR 7.95. In addition, these agencies must specifically address, in writing, all public comments relating to known plans for a regionally significant project, which is not receiving FHWA or FTA funding, or approval. This is especially important if the project’s emissions have not been properly reflected in the emissions analysis supporting a proposed conformity finding for a transportation plan or TIP. These agencies shall also provide opportunity for public involvement in conformity determinations for projects where otherwise required by law.
AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has proposed rulemaking. The action is authorized by Chapter 1, Title 39, Idaho Code and Chapter 21, Title 37, Idaho Code. In addition, states which have primary enforcement responsibility for the Safe Drinking Water Act are required by 40 CFR 142.10(a) and 40 CFR 142.12(a) to adopt, within two years of promulgation, national primary drinking water regulations that are no less stringent than the federal regulations in effect under 40 CFR Part 141.

PUBLIC HEARING SCHEDULE: No hearings have been scheduled. Pursuant to Section 67-5222(2), Idaho Code, a public hearing will be held if requested in writing by twenty-five (25) persons, a political subdivision, or an agency. Written requests for a hearing must be received by the undersigned on or before July 19, 2000. If no such written request is received, a public hearing will not be held.

DESCRIPTIVE SUMMARY: The proposed rule incorporates by reference into the state rules the revisions to the 1991 Lead and Copper Rule, 40 CFR Part 141, Subparts E and I, as well as 40 CFR Part 142 regarding primacy requirements. The changes will involve the following: demonstration of optimal corrosion control measures, lead service line replacement, public education, monitoring, analytical methods, reporting and record keeping, and special primacy issues. All owners and operators of community water systems and nontransient noncommunity water systems in addition to state and health district staff responsible for implementing the Lead and Copper Rule including these revisions are potentially affected.

In addition, Subsection 002.02 will be corrected to reflect the exceptions between state definitions and those definitions included in the federal regulations incorporated by reference.

The proposed rule text is in legislative format. Language the agency proposes to add is underlined. Language the agency proposes to delete is struck out. It is these additions and deletions to which public comment should be addressed.

After consideration of public comments, the Idaho Department of Environmental Quality (DEQ) intends to present the final proposal to the Board of Environmental Quality in November 2000 for adoption of a pending rule. The rule is expected to be final and effective upon the conclusion of the 2001 session of the Idaho Legislature.

NEGOTIATED RULEMAKING: Negotiated rulemaking was not conducted. The state must adopt rules according to 40 CFR 142.10(a) that are no less stringent than the federal regulations and the Idaho State Legislature requires DEQ to adopt rules that are no more stringent than the federal regulations. Therefore, unless the federal regulations specifically allow the state latitude in writing their own regulations, there is little, if any, room for negotiation. Federal regulations did not allow any such latitude for this rule.

GENERAL INFORMATION: For more information about DEQ’s programs and activities, visit DEQ’s web site at www.state.id.us/deq.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the proposed rulemaking, contact Howard Woods at (208)373-0502, hwoods@deq.state.id.us, or Jerri Henry at (208)373-0502, jhenry@deq.state.id.us.

Anyone can submit written comments by mail, fax or e-mail at the address below regarding this proposed rule. The Department will consider all written comments received by the undersigned on or before July 26, 2000.

DATED this 1st day of May, 2000.

NOTICE OF NEGOTIATED RULEMAKING

AUTHORITY: In compliance with Section 67-5220, Idaho Code, and IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” Sections 810 through 815, notice is hereby given that this agency intends to promulgate a rule and desires public participation in an informal, negotiated rulemaking process prior to the initiation of formal rulemaking procedures by the agency. This action is authorized by Chapter 1, Title 39, Idaho Code. Section 39-104A, Idaho Code, (amended by House Bill 696) contains explicit authorization for requiring financial assurances for swine and poultry facilities.

MEETING SCHEDULE: Persons interested in participating in the negotiated rulemaking process are encouraged to attend the following meeting:

July 19, 2000, 9 a.m. to noon,
Department of Environmental Quality, Conference Room A,
1410 N. Hilton, Boise, Idaho.

The meeting site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the meeting. For arrangements, contact the undersigned at (208) 373-0418.

DESCRIPTIVE SUMMARY: The purpose of this rulemaking is to amend the “Rules Regulating Swine and Poultry Facilities” to set forth requirements for financial assurances. Section 39-104A, Idaho Code provides that permittees of swine and poultry facilities shall provide financial assurances for the operation, closure and remediation of their facilities. The specific requirements for financial assurances are to be determined by the Department of Environmental Quality (DEQ) in rule. This rule change only affects those swine and poultry facilities that are required to be permitted under the Rules Regulating Swine and Poultry Facilities. It does not affect existing facilities that are required to be registered under those rules.

This rule will be developed by DEQ in conjunction with an advisory committee made up of persons having interests in swine and poultry facilities. The goal of the negotiated rulemaking process will be to develop by consensus the text of a recommended rule. If a consensus is reached, a draft of the rule, incorporating the consensus and any other appropriate information, recommendations, or materials, will be transmitted to DEQ for consideration and use in the formal rulemaking process. If a consensus is unable to be achieved on particular issues, the negotiated rulemaking process may result in a report specifying those areas on which consensus was and was not reached, together with arguments for and against positions advocated by various participants. At the conclusion of the negotiated rulemaking process, DEQ intends to present a rule to the Board of Environmental Quality (Board) for temporary adoption and, at the same time, commence formal rulemaking with the publication of a proposed rule, using and taking into consideration the results of the negotiated rulemaking process. DEQ intends to present the rule to the Board for temporary adoption in November 2000.

GENERAL INFORMATION: For more information about DEQ’s programs and activities, visit DEQ’s web site at www.state.id.us/deq.

ASSISTANCE ON TECHNICAL QUESTIONS AND SUBMISSION OF WRITTEN COMMENTS: For assistance on questions concerning the negotiated rulemaking, contact Susan Burke at (208) 373-0502 or sburke@deq.state.id.us.

Anyone may submit written comments by mail, fax or e-mail at the address below regarding this proposal to initiate negotiated rulemaking. All written comments must be received by the undersigned on or before July 26, 2000.

CONTRIBUTION RULES FOR THE PUBLIC EMPLOYEE RETIREMENT SYSTEM OF IDAHO (PERSI)

There are no substantive changes from the proposed rule text.

The complete text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 99-12, December 1, 1999, pages 136 and 137.

This rule has been adopted as a pending rule by the Agency and is now pending review and adoption by the 2001 Idaho State Legislature as a final rule.
**NOTICE OF TEMPORARY AND PROPOSED RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule is July 1, 2000.

**AUTHORITY:** In compliance with Section 67-5220(1), Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section(s) 59-1314(1) and 72-1405 Idaho Code.

**PUBLIC HEARING SCHEDULE:** Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than July 19, 2000.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

**DESCRIPTIVE SUMMARY:** The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Section 59-1322(1), Idaho Code requires the Retirement Board to establish contribution rates within certain constraints. Due to legislative changes the Board has reviewed and determined, based on actuarial valuation of reserves and liabilities, the contributions necessary to fund the level of benefits authorized by the plan. Temporary rules published in docket number 59-0103-9902, which would have raised rates effective November 1, 2000, are being rescinded by a separate notice in this volume of the Idaho Administrative Bulletin. These rules continue the current rates until further modified by the Board. In addition, Rule 176 is amended to be consistent with 1999 legislative changes to Section 59-1325, Idaho Code, related to the timing for transmitting contributions to PERSI.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1)(b) and 67-5226(1)(c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

The rule change will confer a benefit on PERSI employees and employers and is necessary to comply with deadlines imposed by amendments made to governing law by the legislature.

**FEE SUMMARY:** The following is a specific description of the fee or charge imposed or increased: N/A

**NEGOTIATED RULEMAKING:** Pursuant to IDAPA 04.11.01.811, negotiated rulemaking was not conducted because the retirement board has exclusive fiduciary responsibility for plan operations.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Alan Winkle, Executive Director, 334-3365.

Anyone may submit written comments regarding this proposed rulemaking. All written comments must be directed to the undersigned and must be delivered on or before July 26, 2000.
