Preface

The Idaho Administrative Bulletin is published once each month by the Department of Administration, Office of the Administrative Rules Coordinator, pursuant to Section 67-5203, Idaho Code. The Bulletin is a monthly compilation of all administrative rulemaking documents in Idaho. The Bulletin publishes the official rulemaking notices and administrative rule text of state agency rulemakings and other official documents as necessary.

State agencies are required to provide public notice of rulemaking activity and invite public input. The public receives notice of a rulemaking activity through the Idaho Administrative Bulletin and the Legal Notice published monthly in local newspapers. The Legal Notice provides reasonable opportunity for public input, either oral or written, which may be presented to the agency within the time and manner specified in the Rulemaking Notice published in the Bulletin. After the comment period closes, the agency considers fully all information submitted in regard to the rule. Comment periods are not provided in temporary or final rulemaking activities.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletins are cited by year and volume number. For example, Bulletin 02-1 refers to the first Bulletin issued in calendar year 2002, 03-1 refers to the first Bulletin issued in calendar year 2003. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No.02-1 refers to January 2002; Volume No. 02-2 refers to February 2002; and so forth. Example: The Bulletin published in January of 2003 is cited as Volume 03-1, the December 2002 Bulletin is cited as Volume 02-12, etc.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is published once a year and is a compilation or supplemental compilation of all final and enforceable administrative rules in effect in Idaho. In an effort to provide the reader with current, enforceable rules, temporary rules are also published in the Administrative Code. Temporary rules and final rules that have been adopted and approved by the legislature during the legislative session, and published in the monthly Idaho Administrative Bulletin, supplement the Administrative Code. Negotiated, proposed, and pending rules are not printed in the Administrative Code and are published only in the Bulletin.

To determine if a particular rule remains in effect, or to determine if a change has occurred, the reader should refer to the Cumulative Index of Administrative Rulemaking, printed in each Bulletin.

TYPES OF RULEMAKINGS PUBLISHED IN THE ADMINISTRATIVE BULLETIN

The state of Idaho administrative rulemaking process, governed by the Administrative Procedure Act, comprises five distinct activities; Negotiated, Proposed, Temporary, Pending, and Final rulemaking. Not all rulemakings include all five. At a minimum a rulemaking includes proposed, pending, and final rulemaking. Many rules are adopted as temporary rules when meeting required statutory criteria and agencies often engage in negotiated rulemaking at the beginning of the process to facilitate consensus building in controversial or complex rulemakings. In the majority of cases, the process begins with proposed rulemaking and ends with final rulemaking. The following is a brief explanation of each type of administrative rule.

NEGOTIATED RULEMAKING

Negotiated rulemaking is a process in which all interested parties and the agency seek a consensus on the
content of the rule. Agencies are encouraged, and in some cases required, to engage in this rulemaking activity whenever it is feasible to do so. Publication of a Notice of Intent to Promulgate a Rule in the Administrative Bulletin by the agency is optional. This process should result in the formulation of a proposed and/or temporary rule.

**PROPOSED RULEMAKING**

A proposed rulemaking is an action by an agency in which the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a notice of proposed rulemaking in the Bulletin. The notice of proposed rulemaking must include:

a) the specific statutory authority for the rulemaking including a citation to a specific federal statute or regulation if that is the basis of authority or requirement for the rulemaking;

b) a statement in nontechnical language of the substance of the proposed rule, including a specific description of any fee or charge imposed or increased;

c) the text of the proposed rule prepared in legislative format;

d) the location, date, and time of any public hearings the agency intends to hold on the proposed rule;

e) the manner in which persons may make written comments on the proposed rule, including the name and address of a person in the agency to whom comments on the proposal may be sent;

f) the manner in which persons may request an opportunity for an oral presentation; and

g) the deadline for public (written) comments on the proposed rule.

As stated, the text of the proposed rule must be published in the Bulletin. After meeting the statutory rulemaking criteria for a proposed rule, the agency may proceed to the pending rule stage. A proposed rule does not have an assigned effective date unless published in conjunction with a temporary rule docket. An agency may vacate a proposed rulemaking if it decides not to proceed further with the promulgation process.

**TEMPORARY RULEMAKING**

Temporary rules may be adopted only when the governor finds that it is necessary for:

a) the protection of the public health, safety, or welfare; or

b) compliance with deadlines in amendments to governing law or federal programs; or

c) conferring a benefit.

If a rulemaking meets any one or all of the above requirements, a rule may become effective before it has been submitted to the legislature for review and the agency may proceed and adopt a temporary rule. However, a temporary rule that imposes a fee or charge may be adopted only if the Governor finds that the fee or charge is necessary to avoid an immediate danger which justifies the imposition of the fee or charge.

A temporary rule expires at the conclusion of the next succeeding regular session of the legislature unless the rule is approved, amended, or modified by concurrent resolution or when the rule has been replaced by a final rule.

State law requires that the text of both a proposed rule and a temporary rule be published in the Administrative Bulletin. In cases where the text of the temporary rule is the same as that of the proposed rule, the rulemaking can be done concurrently as a temporary/proposed rule. Combining the rulemaking allows for a single publication of the text.
An agency may, at any time, rescind a temporary rule that has been adopted and is in effect. If the temporary rule is being replaced by a new temporary rule or if it has been published concurrently with a proposed rulemaking that is being vacated, the agency, in most instances, should rescind the temporary rule.

**PENDING RULEMAKING**

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it becomes a final, enforceable rule.

When a pending rule is published in the Bulletin, the agency is required to include certain information in the Notice of Pending Rule. This includes:

a) the reasons for adopting the rule;

b) a statement of any change between the text of the proposed rule and the pending rule with an explanation of the reasons for any changes;

c) the date the pending rule will become final and effective; and

d) an identification of any portion of the rule imposing or increasing a fee or charge.

Agencies are required to republish the text of the rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule. With the permission of the Rules Coordinator, only the Section(s) that have changed from the proposed text are republished. If no changes have been made to the previously published text, it is not required to republish the text again and only the Notice of Pending Rule is published.

**FINAL RULEMAKING**

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is in effect and enforceable.

No pending rule adopted by an agency will become final and effective until it has been submitted to the legislature for review. Where the legislature finds that the agency has violated the legislative intent of the statute under which the rule was made, a concurrent resolution may be adopted to reject the rulemaking or any part thereof. A Notice of Final Rule must be published in the Idaho Administrative Bulletin for any rule that is rejected, amended, or modified by the legislature showing the changes made. A rule that has been reviewed by the legislature and has not been rejected, amended, or modified will become final with no further legislative action. No rule shall become final and effective before the conclusion of the regular or special legislative session at which the rule was submitted for review. However, a rule which is final and effective may be applied retroactively, as provided in the rule.

HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering system. Each state agency has a two-digit identification code number known as the “IDAPA” number. (The “IDAPA” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit “TITLE” number is assigned. There are “CHAPTER” numbers assigned within the Title and the rule text is divided among major sections with a number of subsections. An example IDAPA number is as follows:

IDAPA 38.05.01.060.02.c.ii.

“IDAPA” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

“IDAPA 38.” refers to the Idaho Department of Administration.

“05.” refers to Title 05 which is the Department of Administration’s Division of Purchasing.

“01.” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”.

“060.” refers to Major Section 060, “Content of the Invitation to Bid”.

“02.” refers to Subsection 060.02.

“c.” refers to Paragraph 060.02.c.

“ii.” refers to Subparagraph 060.02.c.ii.
**DOCKET NUMBERING SYSTEM**

Internally, the Bulletin is organized sequentially using a rule docketing system. All rulemaking actions (documents) are assigned a “DOCKET NUMBER”. The “Docket Number” is a series of numbers separated by a hyphen “-”, (38-0501-0101). The docket numbers are published sequentially by IDAPA designation (e.g. the two-digit agency code). The following example is a breakdown of a typical rule docket:

**“DOCKET NO. 38-0501-0301”**

“38-” denotes the agency's IDAPA number; in this case the Department of Administration.

“0501-” refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), “Rules of the Division of Purchasing” (Chapter 01).

“0301” denotes the year and sequential order of the docket submitted and published during the year; in this case the first rulemaking action of the chapter published in calendar year 2003.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

**“(BREAK IN CONTINUITY OF SECTIONS)”**

**INTERNAL AND EXTERNAL CITATIONS TO ADMINISTRATIVE RULES IN THE CODE AND BULLETIN**

When making a citation to another Section or Subsection that is part of the same rule, a typical internal citation may appear as follows:

“...as found in Section 201 of this rule.” OR “...in accordance with Subsection 201.06.c. of this rule.”

It may also be cited to include the IDAPA, Title, and Chapter number also, as follows:

“...in accordance with IDAPA 38.05.01.201.”

“38” denotes the IDAPA number of the agency.

“05” denotes the TITLE number of the agency rule.

“01” denotes the Chapter number of the agency rule.

“201” references the main Section number of the rule that is being cited.

Citations made within a rule to a different rule chapter (external citation) should also include the name of the Department and the name of the rule chapter being referenced, as well as the IDAPA, Title, and Chapter numbers. The following is a typical example of an external citation to another rule chapter:

“...as outlined in the Rules of the Department of Administration, IDAPA 38.04.04, 'Rules Governing Capitol Mall Parking.’”

EFFECTIVE DATE: This rule has been adopted by the agency and is now pending review by the 2004 Idaho State Legislature for final approval. Pursuant to Section 67-5224(5)(c), Idaho Code, this pending rule will not become final and effective until it has been approved, amended, or modified by concurrent resolution of the legislature because of the fee being imposed or increased through this rulemaking. The rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending rule. The action is authorized pursuant to Sections 71-111 and 71-121, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change.

This rulemaking implements the provisions of SB 1200 by establishing annual licensing and fees for weighing and measuring devices and the administration of those licenses. Other changes include the renumbering of IDAPA 02.02.14 to meet requirements, changing the date specific reference documents to the 2004 edition of NIST Handbook 44 and updating the fees for special request testing.

The text of the pending rule has been amended in accordance with Section 67-5227, Idaho Code. Only those sections that have changes that differ from the proposed text are printed in this bulletin. The original text of the proposed rule was published in the September 3, 2003 Idaho Administrative Bulletin, Volume 03-9, pages 24 through 28.

Subsection 012.02 has been amended to identify instruments and devices on applications by “Device Code”, as listed in TABLE 1-A, and “rated capacity” instead of by model and serial number. The change was made to streamline the application process. Model and serial number will continue to be used to track instruments and devices for inspections. As per the Hearing Officer’s report, Subsection 14.015 has been amended to clarify the language to show that a license is rejected thirty (30) days after the date of expiration. For clarity, device codes B, C, and D in TABLE 1-A have been amended to include less-than or equal-to indicators and numeric maximums. The word device has been added to the first column header in TABLE 1-A to make the table more clear. Section 016 has been amended to add the word “rated” to manufacturer’s capacity for consistency.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased. This fee or charge is being imposed pursuant to Section 71-121, Idaho Code.

012. LICENSE REQUIRED FOR COMMERCIALLY-USED WEIGHING OR MEASURING INSTRUMENT OR DEVICE.
Weighing or measuring instruments or devices used for commercial purposes in the State of Idaho shall be licensed annually.

02. **Specific Device.** Any license issued applies only to the instrument or device identified by Device Code, as listed in **TABLE 1-A**, and rated capacity on the application for license. The annual license fee for instruments and devices is based on manufacturer’s rated capacity. The annual license fee for commercially used instrument and device types not listed in **Table 1-A**, will be determined by one-third (1/3) of the actual average time costs involved with testing that type of device.

IDAPA 16, TITLE 03, CHAPTER 09
RULES GOVERNING MEDICAL ASSISTANCE PROGRAM

There are no substantive changes from the proposed rule text.

The complete text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 03-8, August 6, 2003, pages 92 through 94.

This rule has been adopted as a pending rule by the Agency and is now pending review and approval by the 2004 Idaho State Legislature as a final rule.
EFFECTIVE DATE: This rule has been adopted by the agency and is now pending review by the 2004 Idaho State Legislature for final approval. The pending rule becomes final and effective at the conclusion of the legislative session, unless the rule is approved, rejected, amended or modified by concurrent resolution in accordance with Section 67-5224 and 67-5291, Idaho Code. If the pending rule is approved, amended or modified by concurrent resolution, the rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending rule. The action is authorized pursuant to Sections 56-202, 56-203, 56-1003(l), and 56-1004(l)(a), Idaho Code.

DESCRIPTIVE SUMMARY: The pending rules are being adopted as proposed. The original text of the proposed rules was published in the September 3, 2003, Administrative Bulletin, Volume 03-9, pages 103 through 105.

The following is a non-technical explanation of the substance and purpose of the rulemaking: As a part of the Medicaid budget appropriation for State Fiscal year (SFY) 2004, the Department was given $147,900 with which to provide additional Targeted Case Management for the mentally ill. However, this appropriation was made subsequent to implementation of budget holdbacks during State Fiscal Year (SFY) 2003. Because the appropriation does not restore funding to prior levels, this proposed rule reduces coverage for crisis case management (from four (4) to three (3) hours) while increasing the coverage for non-crisis case management (from four (4) to five (5) hours). The Department believes greater commitment to non-crisis care can reduce the need for crisis care.

02. Categories Of Continuing Education.

a. Category I. Category I includes formally organized learning events, ideally involving face-to-face interaction with a teacher for the purpose of accomplishing specific learning objectives. Courses, workshops, conferences, practice oriented seminars, staff development and training activities coordinated and/or taught by approved and recognized educators also are included in this category. Because of our geographic location and sparse population, closed circuit TV, video tapes, and correspondence courses may be substituted for face-to-face contact if coordinated by an approved instructor. Videotaped presentations require a discussion period to follow that reviews the learning objectives of the taped program. (7-1-95)

b. Category II. Category II consists of a variety of self-directed professional study activities and growth experiences. Examples include making an initial presentation on professional issues or programs, teaching a course for the first time, presenting a lecture, or conducting a workshop for the first time, editing or writing professional books or articles, and conducting professional research. (7-1-95)

c. The subject matter of all approved continuing education shall be germane to the practice of social work as defined in Section 54-3202, Idaho Code, and may include the specialties of Marriage and Family Therapy, Psychiatry, Psychiatric Nursing, Psychology, or Pastoral Counseling. (5-3-03)

03. Continuing Education Sources.

a. Continuing education course providers shall include:

i. Professional Associations. Continuing education hours may be obtained by participating in activities sponsored by or approved by professional associations including but not limited to the Idaho Chapter of the National Association of Social Workers, Idaho Society for Clinical Social Workers. The professional association shall certify the number of clock hours of educational content in each sponsored or approved activity. (5-3-03)

ii. Educational Institutions. Continuing education hours may be obtained by completing coursework not below your level of licensing or by participating in continuing education programs sponsored by or approved by educational institutions accredited by a regional body recognized by the Council on Post Secondary Accreditation. The educational institution shall certify the number of clock hours of educational content in each sponsored or approved program. (7-1-95)

iii. Government Agencies, Schools and Hospitals. Continuing education hours may be obtained by participating in in-service training, courses or workshops sponsored by federal, state, or local government agencies, public school systems and licensed hospitals. The provider shall certify the number of clock hours of educational

(Continued on next page)
content in each approved activity. (7-1-95)

Continuing education hours may be obtained by participating in continuing education programs sponsored by agencies or entities who regularly provide social work services. The provider shall certify the number of clock hours of educational content in each approved activity. (10-21-03)

b. All continuing education hours must be relevant to the profession of social work at the individual’s particular level of social work licensure. The presenter’s level of education must be at the licensee’s level or above. Continuing education for clinical licensees must be clinical in nature except that five (5) hours each year may be non-clinical but shall be germane to the practice of social work. Final approval of acceptable programs rests with the Board. (5-3-03)

04. Documentation.

a. Each licensee shall maintain documentation verifying CE attendance and curriculum for a period of four (4) years from the date of completion. This documentation will be subject to audit by the Board. (5-3-03)

b. Licensees shall attest, on their annual license renewal application, that they have satisfied the continuing education requirements. False attestation of satisfaction of the continuing education requirements on a renewal application shall subject the licensee to disciplinary action, including revocation. (5-3-03)

d. In the event a licensee fails to provide the Board with acceptable documentation of the hours attested to on the renewal application, the license will not be renewed. (7-1-95)

e. Documented proof of meeting the continuing education requirement shall be in the form of a certificate or letter from the sponsoring entity that includes the title of the activity, the subject material covered, the dates and number of hours credited, and the presenter’s full name and professional credentials. (5-3-03)

After the pending rule is approved, rejected, amended or modified by concurrent resolution, the rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that the Commission has adopted a pending rule. This action is authorized pursuant to Sections 61-601, 61-617A(4), and 62-615(3), Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change.

With the exception of one change noted in the “Fee Summary” below, the pending rule is being adopted as proposed. The complete text of the proposed rule was published in the October 1, 2003 Idaho Administrative Bulletin, Volume 13-10, pages 468 through 479.

FEE SUMMARY: The following is a specific description of the fee or charge imposed. This fee or charge is being imposed pursuant to an Order of the Idaho Supreme Court and Sections 3-401, 3-408, and 3-413, Idaho Code.

Section 043 adopts by incorporation and modifies Idaho Bar Commission Rule 222. This Bar Rule was issued by the Idaho State Bar and approved by the Idaho Supreme Court. Bar Rule 222 governs the practice of law by out-of-state attorneys applying for limited admission in Idaho courts. Bar Rule 222 establishes a $200 fee for out-of-state attorneys (effective October 1, 2000) and the fee is payable to the State Bar. The Commission proposed to adopt a modified version of Bar Rule 222 for out-of-state attorneys applying for limited admission to represent parties in major cases before the Public Utilities Commission. In response to the one comment that addressed Section 043, the text of the section has been amended in accordance with Section 67-5227, Idaho Code. Instead of applying for separate admission for each major case, out-of-state attorneys shall apply for limited admission just once annually. Because this section has changes, the pending text is printed in this bulletin.

043. REPRESENTATION OF PARTIES AT HEARING PROCEEDINGS (Rule 43).
Recognizing that proceedings before the Commission are sometimes administrative in nature or quasi-judicial in nature, appearances and representation of parties at hearing must shall be as follows:

Out-of-state attorneys representing the same party in one (1) or more quasi-judicial cases (such as formal complaints, motions, petitions, and applications that request modified procedure or an evidentiary hearing), must request limited admission at least one (1) time per calendar year.

b. An attorney applying for limited admission to appear before the Commission in a representative capacity shall file a written motion with the Commission Secretary and serve a copy on all parties. The motion shall be substantially in the form set out in Bar Rule 222(1) with references to the Commission instead of the court.

**Note to table:** Table values are from 57 FR 60910, December 22, 1992 (National Toxics Rule) except as noted.

**Table Footnotes**

- \(^a\) Chemical Abstracts Service (CAS) registry numbers which provide a unique identification for each chemical.
- \(^b\) See Definitions, Section 003 of these rules.
- \(^c\) This criterion has been revised to reflect The Environmental Protection Agency's q1* or RfD, as contained in the Integrated Risk Information System (IRIS) as of December 22, 1992. The fish tissue bioconcentration factor (BCF) from the 1980 Ambient Water Quality Criteria document was retained in each case.
- \(^d\) Inorganic form only. The criterion for arsenic is the MCL in effect as of April 5, 2000.
- \(^e\) Criteria for these metals are expressed as a function of the water effect ratio, WER, as defined in Subsection 210.03.b.ii. CMC = column B1 value \(\times\) WER. CCC = column B2 value \(\times\) WER.
- \(^f\) Criterion expressed as total recoverable (unfiltered) concentrations.
- \(^g\) If the CCC for total mercury is exceeded more than once in a three (3) year period in ambient water, the edible portion of aquatic species of concern must be analyzed to determine whether the concentration of methyl mercury exceeds the FDA action level (one (1.0) mg/kg). If the FDA action level is exceeded, the Director must notify the EPA regional administrator, initiate a review and as appropriate, revision of its mercury criterion in these water quality standards, and take other appropriate action such as the issuance of fish consumption advisory for the affected area.
- \(^h\) No numeric human health criteria has been established for this contaminant. However, permit authorities should address this contaminant in NPDES permit actions using the narrative criteria for toxics from Section 200 of these rules.
- \(^i\) Aquatic life criteria for these metals are expressed as a function of total hardness (mg/L as calcium carbonate), the pollutant's water effect ratio (WER) as defined in Subsection 210.03.b.ii and multiplied by an appropriate dissolved conversion factor as defined in Subsection 210.02. For comparative purposes only, the values displayed in this table are shown as dissolved metal and correspond to a total hardness of one hundred (100) mg/L and a water effect ratio of one (1.0).
- \(^j\) Criteria are expressed as weak acid dissociable (WAD) cyanide.
- \(^k\) Total chlorine residual concentrations.
- \(^l\) This criterion is based on carcinogenicity of \(10^{-6}\) risk.
- \(^m\) Aquatic life criteria for pentachlorophenol are expressed as a function of pH, and are calculated as follows. Values displayed above in the table correspond to a pH of seven and eight tenths (7.8).
  
  \[
  \begin{align*}
  \text{CMC} & = \exp(1.005(pH) - 4.830) \\
  \text{CCC} & = \exp(1.005(pH) - 5.290)
  \end{align*}
  \]
- \(^n\) PCBs are a class of chemicals which include Aroclors, 1242, 1254, 1221, 1232, 1248, 1260, and 1016, CAS numbers 53469219, 11097691, 11104282, 11141165, 12672296, 11096825 and 12674112 respectively. The aquatic life criteria apply to this set of PCBs.
- \(^o\) This criterion applies to total PCBs, (e.g. the sum of all congener, isomer, or Aroclor analyses).
02. Factors For Calculating Hardness Dependent Metals Criteria. Hardness dependent metals criteria are calculated using values from the following table in the equations: (5-3-03)

a. \[ \text{CMC} = \text{WER} \exp\{m_A\ln\text{(hardness)}+b_A\} \times \text{Acute Conversion Factor.} \] (5-3-03)

b. \[ \text{CCC} = \text{WER} \exp\{m_C\ln\text{(hardness)}+b_C\} \times \text{Chronic Conversion Factor.} \] (5-3-03)

Footnotes to table:

a. Conversion factors (CF) are from “Stephan, C. E. 1995. Derivation of conversion factors for the calculation of dissolved freshwater aquatic life criteria for metals. U.S. Environmental Protection Agency, Environmental Research Laboratory – Duluth.” The conversion factors for cadmium and lead are hardness-dependent and can be calculated for any hardness (see limitations in Subsection 210.03.b.i) using the following equations. For comparative purposes, the conversion factors for a total hardness of one hundred (100) mg/L are shown in the table.

Cadmium
Acute: CF=1.136672–[(ln hardness)(0.041838)]
Chronic: CF=1.101672–[(ln hardness)(0.041838)]
Lead (Acute and Chronic): CF=1.46203–[(ln hardness)(0.145712)]

b. Not applicable

c. No chronic criteria are available for silver.

03. Applicability. The criteria established in Section 210 are subject to the general rules of applicability in the same way and to the same extent as are the other numeric chemical criteria when applied to the same use classifications including mixing zones, and low flow design discharge conditions below which numeric standards can be exceeded in flowing waters. (5-3-03)

a. For all waters for which the Department has determined mixing zones to be applicable, the criteria apply at the appropriate locations specified within or at the boundary of the mixing zone of the mixing zones; otherwise the criteria apply through the waterbody including at the end of any discharge pipe, canal or other discharge point. (5-3-03)
b. Low flow design discharge conditions. Numeric chemical standards can only be exceeded in perennial streams due to permitted discharges when flows are less than the following values:

iii. Where “7Q10” is the lowest average seven (7) consecutive day low flow with an average recurrence frequency of once in ten (10) years determined hydrologically;

iv. Where “4B3” is biologically based and indicates an allowable exceedence for four (4) consecutive days once every three (3) years. It may be determined by EPA’s computerized method (DFLOW model);

v. Where “30Q5” is the lowest average thirty (30) consecutive day low flow with an average recurrence frequency of once in five (5) years determined hydrologically; and

vi. Where the harmonic mean flow is a long term mean flow value calculated by dividing the number of daily flows analyzed by the sum of the reciprocals of those daily flows.

(5-3-03)

c. Application of metals criteria.

i. For purposes of calculating aquatic life criteria for metals from the equations in Subsection 210.02, the minimum hardness allowed for use in those equations shall not be less than twenty-five (25) mg/L as calcium carbonate, even if the actual ambient hardness is less than twenty-five (25) mg/L as calcium carbonate. The maximum hardness allowed for use in those equations shall not be greater than four hundred (400) mg/L as calcium carbonate, even if the actual ambient hardness is greater than four hundred (400) mg/L as calcium carbonate.

(5-3-03)

ii. The hardness values used for calculating aquatic life criteria for metals at design discharge conditions shall be representative of the ambient hardnesses for a receiving water that occur at the design discharge conditions given in Subsection 210.03.b.

(5-3-03)

iii. Except as otherwise noted, the aquatic life criteria for metals (compounds #1 through #13 in the criteria table of Subsection 210.02) are expressed as dissolved metal concentrations. Unless otherwise specified by the Department, dissolved concentrations are considered to be concentrations recovered from a sample which has passed through a forty-five hundredths (0.45) micron filter. For the purposes of calculating aquatic life criteria for metals from the equations in footnotes e and i in the criteria table in Subsection 210.01, the water effect ratio is computed as a specific pollutant’s acute or chronic toxicity values measured in water from the site covered by the standard, divided by the respective acute or chronic toxicity value in laboratory dilution water. The water-effect ratio shall be assigned a value of one (1.0), except where the Department assigns a different value that protects the designated uses of the water body from the toxic effects of the pollutant, and is derived from suitable tests on sampled water representative of conditions in the affected water body, consistent with the design discharge conditions established in Subsection 210.03.b. For purposes of calculating water effects ratios, the term acute toxicity value is the toxicity test results, such as the concentration lethal one-half (1/2) of the test organisms (i.e., LC50) after ninety-six (96) hours of exposure (e.g., fish toxicity tests) or the effect concentration to one-half of the test organisms, (i.e., EC50) after forty-eight (48) hours of exposure (e.g., daphnia toxicity tests). For purposes of calculating water effects ratios, the term chronic value is the result from appropriate hypothesis testing or regression analysis of measurements of growth, reproduction, or survival from life cycle, partial life cycle, or early life stage tests. The determination of acute and chronic values shall be according to current
standard protocols (e.g., those published by the American Society for Testing and Materials (ASTM)) or other comparable methods. For calculation of criteria using site-specific values for both the hardness and the water effect ratio, the hardness used in the equations in Subsection 210.02 shall be as required in Subsection 210.03.ii. Water hardness shall be calculated from the measured calcium and magnesium ions present, and the ratio of calcium to magnesium shall be approximately the same in laboratory toxicity testing water as in the site water, or be similar to average ratios of laboratory waters used to derive the criteria.

04. National Pollutant Discharge Elimination System Permitting. For the purposes of NPDES permitting, interpretation and implementation of metals criteria listed in Subsection 210.02 should be governed by the following standards, that are hereby incorporated by reference, in addition to other scientifically defensible methods deemed appropriate by the Department; provided, however, any identified conversion factors within these documents are not incorporated by reference. Metals criteria conversion factors are identified in Subsection 210.02 of this rule.

(5-3-03)

c. “Guidance Document on Clean Analytical Techniques and Monitoring,” EPA, October 1993. (4-5-00)

05. Development of Toxic Substance Criteria.

(4-5-00)

a. Aquatic Life Communities Criteria. Numeric criteria for the protection of aquatic life uses not identified in these rules for toxic substances, may be derived by the Department from the following information:

(4-5-00)

i. Site-specific criteria developed pursuant to Section 275; (4-5-00)

ii. Effluent biomonitoring, toxicity testing and whole-effluent toxicity determinations; (4-5-00)

iii. The most recent recommended criteria defined in EPA’s Aquatic Toxicity Information Retrieval (ACQUIRE) database. When using EPA recommended criteria to derive water quality criteria to protect aquatic life uses, the lowest observed effect concentrations (LOECs) shall be considered; or (4-5-00)

iv. Scientific studies including, but not limited to, instream benthic assessment or rapid bioassessment. (4-5-00)

b. Human Health Criteria. (4-5-00)

i. When numeric criteria for the protection of human health are not identified in these rules for toxic substances, quantifiable criteria may be derived by the Department from the most recent recommended criteria defined in EPA’s Integrated Risk Information System (IRIS). When using EPA recommended criteria to derive water quality criteria to protect human health, a fish consumption rate of six point five (6.5) grams/day, a water ingestion rate of two (2) liters/day and a cancer risk level of 106 shall be utilized. (4-5-00)

EFFECTIVE DATE: This pending rule has been adopted by the agency and is now pending review by the 2004 Idaho State Legislature for final approval. The pending rule becomes final and effective at the conclusion of the legislative session, unless the rule is approved, rejected, amended or modified by concurrent resolution in accordance with Section 67-5224 and 67-5291, Idaho Code. AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending rule. The action is authorized pursuant to Sections 59-1314(1) and 72-1405 Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change. The 2003 legislature has enacted Senate Bill 1050, which essentially transfers administration and funding of most public safety death benefits to PERSI, and expands eligibility for such benefits to firefighters who are active members of PERSI or FRF retirement funds. The bill’s fiscal note indicated an estimated increase in employer costs of one-tenth of one percent of payroll (.10%). The bill adds a new section, 59-1361A, Idaho Code, which governs the benefit. Subsection (5) requires that the costs associated with this benefit be paid as an additional contribution component by the employers of those public safety officers who are eligible for the benefit. Because this benefit is effective July 1, 2003, the Retirement Board finds that it is necessary to adopt a temporary rule to comply with the legislation and fund the required benefits. This change increases the employer rate on public safety officers by one-tenth of one percent (.10%).

The pending rule is being adopted as proposed. The original text of the temporary and proposed rule was published in the June 4, 2003 Idaho Administrative Bulletin, Volume 03-6, pages 99 and 100.
