LEGAL NOTICE - SUMMARY OF PROPOSED RULEMAKINGS121

**ABRIDGED EDITION OF THE CUMULATIVE RULEMAKING
INDEX OF IDAHO ADMINISTRATIVE RULES122**

SUBJECT INDEX139

Preface

The Idaho Administrative Bulletin is published once each month by the Department of Administration, Office of the Administrative Rules Coordinator, pursuant to Section 67-5203, Idaho Code. The Bulletin is a monthly compilation of all administrative rule-making documents in Idaho. The Bulletin publishes the official rulemaking notices and administrative rule text of state agency rulemakings and other official documents as necessary.

State agencies are required to provide public notice of rulemaking activity and invite public input. The public receives notice of rulemaking activity through the Idaho Administrative Bulletin and the Legal Notice published monthly in local newspapers. The Legal Notice provides reasonable opportunity for public input, either oral or written, which may be presented to the agency within the time and manner specified in the Rulemaking Notice published in the Bulletin. After the comment period closes, the agency considers fully all information submitted in regard to the rule. Comment periods are not provided in temporary or final rule-making activities.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is cited by year and issue number. For example, Bulletin 02-1 refers to the first Bulletin issued in calendar year 2002; Bulletin 03-1 refers to the first Bulletin issued in calendar year 2003. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 02-1 refers to January 2002; Volume No. 03-2 refers to February 2003; and so forth. Example: The Bulletin published in January of 2003 is cited as Volume 03-1. The December 2002 Bulletin is cited as Volume 02-12.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is published once a year and is a compilation or supplemental compilation of all final and enforceable administrative rules in effect in Idaho. In an effort to provide the reader with current, enforceable rules, temporary rules are also published in the Administrative Code. Temporary rules and final rules that have been approved by the legislature during the legislative session, and published in the monthly Idaho Administrative Bulletin, supplement the Administrative Code. Negotiated, proposed, and pending rules are not printed in the Administrative Code and are published only in the Bulletin.

*To determine if a particular rule remains in effect, or to determine if a change has occurred, the reader should refer to the **Cumulative Index of Administrative RuleMaking**, printed in each Bulletin.*

TYPES OF RULEMAKINGS PUBLISHED IN THE ADMINISTRATIVE BULLETIN

The state of Idaho administrative rulemaking process, governed by the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, comprises five distinct activities: negotiated, proposed, temporary, pending and final rulemaking. Not all rulemakings involve all five. At a minimum, a rulemaking includes proposed, pending and final rulemaking. Many rules are adopted as temporary rules when they meet the required statutory criteria and agencies often engage in negotiated rulemaking at the beginning of the process to facilitate consensus building in controversial or complex rulemakings. In the majority of cases, the process begins with proposed rulemaking and ends with the final rulemaking. The following is a brief explanation of each type of administrative rule.

NEGOTIATED RULEMAKING

Negotiated rulemaking is a process in which all interested parties and the agency seek consensus on the content of a rule. Agencies are encouraged, and in some cases required, to engage in this rulemaking activity whenever it is feasible to do so. Publication of a "Notice of Intent to Promulgate" a rule in the Administrative Bulletin by the agency is optional. This process should result in the formulation of a proposed and/or temporary rule.

PROPOSED RULEMAKING

A proposed rulemaking is an action by an agency wherein the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a "Notice of Proposed Rulemaking" in the Bulletin. This notice must include:

- a) the specific statutory authority (from Idaho Code) for the rulemaking including a citation to a specific federal statute or regulation if that is the basis of authority or requirement for the rulemaking;
- b) a statement in nontechnical language of the substance of the proposed rule, including a specific description of any fee or charge imposed or increased;
- c) the text of the proposed rule prepared in legislative format;
- d) the location, date, and time of any public hearings the agency intends to hold on the proposed rule;
- e) the manner in which persons may make written comments on the proposed rule, including the name and address of a person in the agency to whom comments on the proposal may be sent;
- f) the manner in which persons may request an opportunity for an oral presentation as provided in Section 67-5222, Idaho Code; and
- g) the deadline for public (written) comments on the proposed rule.

As stated, the text of the proposed rule must be published in the Bulletin. After meeting the statutory rulemaking criteria for a proposed rule, the agency may proceed to the pending rule stage. A proposed rule does not have an assigned effective date unless published in conjunction with a temporary rule. An agency may vacate a proposed rulemaking if it decides not to proceed further with the promulgation process.

TEMPORARY RULEMAKING

Temporary rules may be adopted only when the governor finds that it is necessary for:

- a) protection of the public health, safety, or welfare; or
- b) compliance with deadlines in amendments to governing law or federal programs; or
- c) conferring a benefit;

If a rulemaking meets any one or all of the above requirements, a rule may become effective before it has been submitted to the legislature for review and the agency may proceed and adopt a temporary rule. However, a temporary rule that imposes a fee or charge may be adopted only if the Governor finds that the fee or charge is necessary to avoid an immediate danger which justifies the imposition of the fee or charge.

A temporary rule expires at the conclusion of the next succeeding regular legislative session unless the rule is approved, amended, or modified by concurrent resolution or when the rule has been replaced by a final rule.

State law required that the text of both a proposed rule and a temporary rule be published in the Administrative Bulletin. In cases where the text of the temporary rule is the same as the proposed rule, the rulemaking can be done concurrently as a proposed/temporary rule. Combining the rulemaking allows for a single publication of the text.

An agency may, at any time, rescind a temporary rule that has been adopted and is in effect. If the temporary rule is being replaced by a new temporary rule or if it has been published concurrently with a proposed rulemaking that is being vacated, the agency, in most instances, should rescind the temporary rule.

PENDING RULEMAKING

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it become a final, enforceable rule.

When a pending rule is published in the Bulletin, the agency is required to include certain information in the "Notice of Pending Rulemaking". This includes:

- a) a statement giving the reasons for adopting the rule;*
- b) a statement of any change between the text of the proposed rule and the pending rule with an explanation of the reasons for any changes;*
- c) the date the pending rule will become final and effective;*
- d) an identification of any portion of the rule imposing or increasing a fee or charge.*

Agencies are required to republish the text of the rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule change is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule. With the permission of the Rules Coordinator, only the Section(s) that have changed from the proposed text are republished. If no changes have been made to the previously published text, it is not required to republish the text again and only the "Notice of Pending Rulemaking" is published.

FINAL RULEMAKING

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is in effect and enforceable.

No pending rule adopted by an agency will become final and effective until it has been submitted to the legislature for review. Where the legislature finds that an agency has violated the legislative intent of the statute under which the rule was made, a concurrent resolution may be adopted to reject the rulemaking or any part thereof. A "Notice of Final Rule" must be published in the Bulletin for any rule that is rejected, amended, or modified by the legislature showing the changes made. A rule that has been reviewed by the legislature and has not been rejected, amended or modified will become final with no further legislative action. No rule shall become final and effective before the conclusion of the regular or special legislative session at which the rule was submitted for review. However, a rule that is final and effective may be applied retroactively, as provided in the rule.

HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

*Rulemaking documents produced by state agencies and published in the **Idaho Administrative Bulletin** are organized by a numbering system. Each state agency has a two-digit identification code number known as the "**IDAPA**" number. (The "**IDAPA**" Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit "**TITLE**" number is assigned. There are "**CHAPTER**" numbers assigned within the Title and the rule text is divided among major sections with a number of subsections. An example IDAPA number is as follows:*

IDAPA 38.07.01.200.02.c.ii.

*"**IDAPA**" refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.*

*"**IDAPA 38**" refers to the Idaho Department of Administration*

*"**05**." refers to Title 05, which is the Department of Administrations's Division of Purchasing*

*"**01**." refers to Chapter 01 of Title 05, "Rules of the Division of Purchasing"*

*"**200**." refers to Major Section 200, "Content of the Invitation to Bid"*

*"**02**." refers to Subsection 200.02.*

*"**c**." refers to Subsection 200.02.c.*

*"**ii**." refers to Subsection 200.02.c.ii.*

DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. All rulemaking actions (documents) are assigned a "DOCKET NUMBER." The "Docket Number" is a series of numbers separated by a hyphen "-", (38-0501-0401). The docket numbers are published sequentially by IDAPA designation (e.g. the two-digit agency code). The following example is a breakdown of a typical rule docket:

"DOCKET NO. 38-0501-0401"

"38-" denotes the agency's **IDAPA** number; in this case the Department of Administration.

"0501-" refers to the **TITLE AND CHAPTER** numbers of the agency rule being promulgated; in this case the Division of Purchasing (**TITLE 05**), Rules of the Division of Purchasing (**Chapter 01**).

"0401" denotes the year and sequential order of the docket received during the year; in this case the first rule-making action in calendar year 2004.

Within each Docket, only the affected sections of chapters are printed. (see **Sections Affected Index** in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section "200" appears before Section "345" and so on). Whenever the sequence of the numbering is broken the following statement will appear:

"(BREAK IN CONTINUITY OF SECTIONS)"

INTERNAL AND EXTERNAL CITATIONS TO ADMINISTRATIVE RULES IN THE CODE AND BULLETIN

When making a citation to another Section or Subsection of a rule that is part of the same rule, a typical internal citation may appear as follows:

"...as found in Section 201 of this rule." OR "...in accordance with Subsection 201.06.c. of this rule."

The citation may also include the IDAPA, Title, or Chapter number, as follows"

"...in accordance with IDAPA 38.05.01.201..."

"38" denotes the IDAPA number of the agency.

"05" denotes the TITLE number of the rule.

"01" denotes the Chapter number of the rule.

: "201" references the main Section number of the rule that the citation refers to.

Citations made within a rule to a different rule chapter (external citation) should also include the name of the Department and the name of the rule chapter being referenced, as well as the IDAPA, Title, and Chapter numbers. The following is a typical example of an external citation to another rule chapter:

"...as outlined in the Rules of the Department of Administration, IDAPA 38.04.041, "Rules Governing Capitol Mall Parking."

39.02.41 - RULES GOVERNING PROVISIONS APPLICABLE TO FEES FOR SERVICES

DOCKET NO. 39-0241-0401

NOTICE OF RULEMAKING - TEMPORARY AND PROPOSED RULE

EFFECTIVE DATE: The effective date of the temporary rule is December 1, 2004.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed regular rule-making procedures have been initiated. The action is authorized pursuant to Section(s) 49-201(1), 49-202(2), and 67-2510, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than December 15, 2004.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This rule allowed bulk sale of the driver record database (more than 925,000 records). Concerns related to privacy and re-dissemination of personal information made continuation of bulk sale of driver records questionable. The rule change removes the provision for bulk sale of driver records. Individual record access to driver information would continue to be available to authorized requestors as provided in Section 49-203, Idaho Code.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This rulemaking removes the provision for bulk sale of driver records, which will help to protect the privacy of drivers in Idaho.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fee or charge being imposed or increased is justified and necessary to avoid immediate danger and the fee is described herein: There is no fee or charge being imposed or increased.

NEGOTIATED RULE-MAKING: Pursuant to IDAPA 04.11.01.811, negotiated rulemaking was not conducted because the changes were determined to be in the public interest to protect the privacy of drivers licensed in Idaho.

Anyone may submit written comments regarding the proposed rule-making. All written comments must be directed to the undersigned and must be delivered on or before December 22, 2004.

If the pending rule is approved, amended, or modified by concurrent resolution, the rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Sections 67-5224 and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a pending rule and amended a temporary rule. The action is authorized pursuant to Section(s) 40-312 and 49-1004, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and amending the temporary rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change.

Due to ever increasing traffic volumes on the interstate highways, the proposed rule was modified to restrict over-width permitted vehicles from operating on certain sections of interstate highways during the hours of high-commuter traffic (6:30 a.m. to 8:30 a.m. and 4 p.m. to 6 p.m.). There is a minimal impact to industry since they are already subject to high commuter traffic restrictions on non-interstate state highways.

At the recommendation of the Legislative Services Office, Subsection 200.06 has been amended, pursuant to Section 67-5227, Idaho Code, to provide clarity and consistency in the language.

The temporary rule has been amended under the authority of the Idaho Transportation Board with the same revisions which have been made to the pending rule. The text of the pending rule has been amended in accordance with Section 67-5227, Idaho Code and is being republished following this notice. Only the sections that have changes which differ from the proposed text are printed in this bulletin.

The original text of the proposed rules was published in the October 6, 2004 Idaho Administrative Bulletin, Volume 04-10, pages 615 through 617.

NOTICE OF RULEMAKING - PENDING RULE

EFFECTIVE DATE: This rule has been adopted by the agency and is now pending review by the 2005 Idaho State Legislature for final approval. The pending rule becomes final and effective April 1, 2005, unless the rule is approved, rejected, amended or modified by concurrent resolution in accordance with Section 67-5224 and 67-5291, Idaho Code. If the pending rule is approved, amended or modified by concurrent resolution, the rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending rule. The action is authorized pursuant to Section(s) 40-312, 49-201(3), and 67-5229, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change.

The proposed rule adopted, by incorporation by reference, the most recent publication of the MUTCD, including Revision One, dated July 21, 2004, with specified exceptions, as noted in the rule-making. All changes and exceptions have been reviewed and approved by FHWA, ACHD and LHTAC. The exceptions were necessary to bring the MUTCD into conformance with Idaho Code, correct errors and accommodate the operations of the department and local transportation agencies. However, unlike previous years, the exceptions were not substantive but necessary due primarily to formatting changes in the 2003 MUTCD.

The pending rule is being adopted as proposed. The original text of the proposed rule was published in the October 6, 2004 Idaho Administrative Bulletin, Volume 04-10, pages 619 through 624.

58.01.01 - RULES FOR THE CONTROL OF AIR POLLUTION IN IDAHO

DOCKET NO. 58-0101-0304

NOTICE OF RULEMAKING

PENDING RULE AND AMENDMENT TO TEMPORARY RULE

EFFECTIVE DATE: The amendments to the temporary rule are effective December 1, 2004. This rule has been adopted by the Board of Environmental Quality (Board) and is now pending review by the 2005 Idaho State Legislature for final approval. The pending rule will become final and effective immediately upon the adjournment sine die of the First Regular Session of the Fifty-eighth Idaho Legislature unless prior to that date the rule is rejected, amended or modified by concurrent resolution in accordance with Idaho Code Sections 67-5224 and 67-5291.

AUTHORITY: In compliance with Idaho Code Sections 67-5224 and 67-5226, notice is hereby given that the Board has adopted a pending rule and amended a temporary rule. This action is authorized by Sections 39-105 and 39-107, Idaho Code.

DESCRIPTIVE SUMMARY: The U.S. Environmental Protection Agency has revised regulations in 40 CFR Part 52, governing the New Source Review programs mandated by Title I of the Clean Air Act. DEQ has initiated this rulemaking to incorporate these changes into the Rules for the Control of Air Pollution in Idaho. Incorporation of the revisions to 40 CFR Part 52 into the Rules for the Control of Air Pollution in Idaho will include changes in New Source Review applicability requirements for modifications to allow sources of air emissions greater regulatory certainty, flexibility and permit streamlining while ensuring protection of public health and the environment. This rule was adopted by the Board of Environmental Quality as a temporary rule in February 2004 and is currently effective.

In May 2004, the Department of Environmental Quality (DEQ) published the proposed rule, inviting the public to comment on the rule. Idaho Administrative Bulletin, May 5, 2004, Volume 04-5, pages 116 through 137. All public comments received are in support of the rule, and the rule has been adopted as initially proposed.

After adoption of the temporary rule, DEQ discovered minor errors and requested that the Board amend the temporary rule for consistency with the pending rule. The temporary rule has been amended at Subsection 205.02.f. and the table in Section 225. The rulemaking record, which contains a detailed explanation for these changes, can be obtained by contacting the undersigned.

IDAHO CODE 39-107D STATEMENT: This rule does not regulate an activity not regulated by the federal government, nor is it broader in scope or more stringent than federal law or regulations.

GENERAL INFORMATION: For more information about DEQ's programs and activities, visit DEQ's web site at www.deq.state.id.us.

NOTICE OF RULEMAKING - PENDING RULE

EFFECTIVE DATE: This rule has been adopted by the Board of Environmental Quality (Board) and is now pending review by the 2005 Idaho State Legislature for final approval. The pending rule will become final and effective immediately upon the adjournment sine die of the First Regular Session of the Fifty-eighth Idaho Legislature unless prior to that date the rule is rejected, amended or modified by concurrent resolution in accordance with Idaho Code Sections 67-5224 and 67-5291.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that the Board has adopted a pending rule. This action is authorized by Chapters 44 and 58, Title 39, Idaho Code.

DESCRIPTIVE SUMMARY: In May 2004, this rule was adopted by the Board as a temporary rule and is currently effective. A detailed summary of the reason for adopting the rule is set forth in the initial notice of proposed rule that published in the Idaho Administrative Bulletin, July 7, 2004 Volume 04-7, pages 112 through 114. The agency received no public comments on the proposal, and the rule has been adopted as initially proposed. The rulemaking record can be obtained by contacting the undersigned.

IDAHO CODE SECTION 39-107D STATEMENT: In compliance with Section 39-107D, Idaho Code, the Department of Environmental Quality (DEQ) states that this rule is not broader in scope, more stringent than federal law or regulations and does not regulate an activity that is not regulated by the federal government. This rule is introduced for the purpose of making the procedures applicable to HWMA permits consistent with the Idaho Administrative Procedures Act and the Rules of Administrative Procedure Before the Board of Environmental Quality, IDAPA 58.01.23. As such, the procedures applicable to HWMA permit appeals will differ from procedures before the Environmental Appeals Board for the United States Environmental Protection Agency as governed by 40 CFR Section 124.19. The major differences are as follows:

- 1) The right to initiate an appeal will not be limited to persons who have commented on the proposed permit or testified at the public hearing. Instead, any person affected or aggrieved and having legal standing shall be entitled to initiate a permit appeal pursuant to the contested case rules. Compare 40 CFR 124.19(a) and 40 CFR Section 124.13.
- 2) The issues raised in HWMA permit appeals may not be limited to issues raised in the public comment period or at the public hearing. Instead, any issues germane and legally relevant to the issuance of the permit may be raised, whether addressed to the agency previously or not. Compare 40 CFR 124.19(a) and 40 CFR Section 124.13.
- 3) The record for review may not be limited to the administrative record compiled during issuance of the permit, but will instead be available for supplementation including the presentation of testimony and the right of cross-examination. Compare 40 CFR 124.19(c) and 40 CFR Section 124.18.
- 4) The ability to deny review based upon the contents of the petition alone will not be available. Compare 40 CFR 124.19(c). Instead, DEQ will be required to respond to the petition and address the merits of the petition through appropriate motions and evidentiary proceedings under IDAPA 58.01.23.

The differences are procedural in nature and do not affect the substantive rights of the permit applicant or of persons seeking to challenge the permit.

IDAHO RULES FOR PUBLIC DRINKING WATER SYSTEMS

There are no substantive changes from the proposed rule text.

The text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 04-7, July 7, 2004, pages 144 through 151.

This rule has been adopted as a pending rule by the Agency and is now pending review and approval by the 2005 Idaho State Legislature as a final rule.

THE FOLLOWING IS THE TEXT OF DOCKET NO. 58-0108-0403

005. GENERAL PROVISIONS FOR WAIVERS, VARIANCES, AND EXEMPTIONS.

40 CFR 141.4, revised as of July 1, ~~1999~~ 2004, is herein incorporated by reference.

~~(4-5-00)~~(1-22-05)T

01. Waivers. (12-10-92)

a. The Department may waive any requirement of Sections 550 through 552 that is not explicitly imposed by Idaho Statute, if it can be shown to the satisfaction of the Department that the requirement is not necessary for the protection of public health, protection from contamination, and satisfactory operation and maintenance of a public water system. (5-3-03)

b. The Department may at its discretion waive the requirements outlined in Section 010. (10-1-93)

c. Waiver of monitoring requirements is addressed in Subsection 100.07. (5-3-03)

d. The Department may, at its discretion, temporarily waive the CEU requirements outlined in Subsection 558.09 for certified operators who present documentation of deployment out of state or country on active military duty for a period of time that makes it impossible for the operator to meet the CEU requirements prior to the annual renewal date. Upon completion of active deployment, the operator shall have twelve (12) calendar months from the date of return to the state to make up the CEUs missed during deployment. This waiver does not alter the CEU requirements in Subsection 558.09 for the certification renewal cycle in progress at the time the operator returns to the state. (5-3-03)

02. Variances. (5-3-03)

a. General Variances. A variance may be granted by the Department if a public water system submits an application and demonstrates to the satisfaction of the Department that the following minimum requirements as required by 42 USC Section 1415(a) (The Safe Drinking Water Act) are met. These include but are not limited to: (5-3-03)

i. The system has installed the best available technology, treatment techniques, or other means to comply with the maximum contaminant level; and (5-3-03)

ii. Alternative sources of water are not reasonably available to the system. (5-3-03)

iii. For provisions of a national primary drinking water regulation which requires the use of a specific treatment technique with respect to a contaminant, the system must demonstrate that the technique is not necessary to protect the health of the system's customers. (5-3-03)

b. Small System Variances. A small system variance for a maximum contaminant level or treatment technique may be granted by the Department if a public water system submits an application and demonstrates to the satisfaction of the Department that the following minimum requirements as required by 42 USC Section 1415(e) are met. These include, but are not limited to: (5-3-03)

i. The system serves three thousand three hundred (3,300) or fewer persons; (5-3-03)

ii. If the system serves more than three thousand three hundred (3,300) persons but fewer than ten thousand (10,000) persons, the application shall be approved by the U.S. Environmental Protection Agency; (5-3-03)

iii. The U.S. Environmental Protection Agency has identified a variance technology that is applicable to the size and source water quality conditions of the public water system; (5-3-03)

iv. The system installs, operates and maintains such treatment technology, treatment technique, or other means; and (5-3-03)

v. The system cannot afford to comply with a national primary drinking water regulation in accordance with affordability criteria established by the state, including compliance through treatment, alternative source of water supply, restructuring or consolidation. (5-3-03)

03. Exemptions. An exemption may be granted by the Department if a public water system submits an application and demonstrates to the satisfaction of the Department that the following minimum requirements as required by 42 USC Section 1416(a) are met. These include but are not limited to: (5-3-03)

a. The system is unable to comply with a maximum contaminant level or treatment technique due to compelling factors, which may include economic factors; (5-3-03)

b. The system was in operation by the effective date of such contaminant level or treatment technique and no reasonable source of water is available to the system; or (5-3-03)

c. If the system was not in operation by the effective date of such contaminant level or treatment technique, then no reasonable alternative source of water is available to the system; and (5-3-03)

d. The granting of an exemption will not result in an unreasonable risk to health; (5-3-03)

e. Management or restructuring changes cannot reasonably be made to comply with the contaminant level or treatment technique to improve the quality of the drinking water; (5-3-03)

f. The system cannot meet the standard without capital improvements which cannot be completed prior to the date established pursuant to 42 USC Section 1412b(10); (5-3-03)

g. If the system needs financial assistance, the system has entered into an agreement to obtain such financial assistance; or (5-3-03)

h. The system has entered into an enforceable agreement to become a part of a regional public water system and is taking all practical steps to meet the standard. (5-3-03)

04. Conditions. A waiver, exemption or variance may be granted upon any conditions that the Department, in its discretion, determines are appropriate. Failure by the public water system to comply with any condition voids the waiver, variance or exemption. (12-10-92)

05. Public Hearing. The Department shall provide public notice and an opportunity for public hearing in the area served by the public water system before any exemption or variance under Section 005 is granted by the

Department. At the conclusion of the hearing, the Department shall record the findings and issue a decision approving, denying, modifying, or conditioning the application. (5-3-03)

06. Exceptions. Any person aggrieved by the Department's decision on a request for a waiver, variance or exemption may file a petition for a contested case with the Board. Such petitions shall be filed with the Board, as prescribed in, IDAPA 58.01.23, "Rules of Administrative Procedure Before the Board of Environmental Quality". (3-15-02)

07. Surface Water Variances. Variances from the requirements of Sections 300 through 303 are not allowed. (4-5-00)

08. Surface Water Exemptions. Exemptions from 40 CFR 141.72(a)(3) and 40 CFR 141.72(b)(2), incorporated by reference herein, are not allowed. (10-1-93)

IDAPA 58 - DEPARTMENT OF ENVIRONMENTAL QUALITY

58.01.17 - WASTEWATER-LAND APPLICATION PERMIT RULES

DOCKET NO. 58-0117-0301

NOTICE OF RULEMAKING - PENDING RULE

EFFECTIVE DATE: This rule has been adopted by the Board of Environmental Quality (Board) and is now pending review by the 2005 Idaho State Legislature for final approval. The pending rule will become final and effective immediately upon the adjournment sine die of the First Regular Session of the Fifty-eighth Idaho Legislature unless prior to that date the rule is rejected, amended or modified by concurrent resolution in accordance with Idaho Code Sections 67-5224 and 67-5291.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that the Board has adopted a pending rule. This action is authorized by Title 39, Chapter 1, Idaho Code.

DESCRIPTIVE SUMMARY: A detailed summary of the reasons for commencing the proposed rulemaking is set forth in the initial proposal published in the Idaho Administrative Bulletin, June 2, 2004, Volume 04-6, pages 49 through 67. DEQ received comments from the public. The proposed rule has been revised at Sections 001, 200, 300, 600, 601, and 602. The remaining sections have been adopted as initially proposed and have not been republished with this notice. DEQ's Rulemaking and Public Comment Summary, which contains a complete consideration of the issues raised by the public and an explanation of the reasons for changes between the text of the proposed rule and the text of the pending rule, is included in the rulemaking record, which can be obtained by contacting the undersigned.

IDAHO CODE SECTION 39-107D STATEMENT: This rule regulates an activity not regulated by the federal government. The following is a summary of additional information required by Sections 39-107D(3) and (4), Idaho Code, supporting modifications to the Wastewater-Land Application Permit Rules, IDAPA 58.01.17. The requirements set forth in this rule are based upon studies and analysis conducted by other states, the U.S. Environmental Protection Agency (EPA), and national water reuse organizations that indicate the requirements are protective of human health and the environment and do not pose an unreasonable risk to the public potentially exposed. The referenced studies have been included in the rulemaking record and can be reviewed for further detailed information regarding risk.

Section 39-107D(3)(a), Idaho Code. Identification of each population or receptor addressed by an estimate of public health effects or environmental effects. The limits placed on wastewater treatment in the stated modifications apply to both public health and environmental effects. The population affected by these limits includes the residents and users of facilities being irrigated by this wastewater effluent and the potential users of down-gradient beneficial uses of groundwater being recharged by this wastewater effluent.

Section 39-107D(3)(b) and (c), Idaho Code. Identification of the expected risk or central estimate of risk for the specific population or receptor and identification of each appropriate upper bound or lower bound estimate of risk. The expected risk of exposure to this quality of wastewater effluent for each of these populations is as follows.

The expected risk for nitrate contamination on groundwater is low. For nitrate from the wastewater effluent entering the groundwater and affecting down-gradient beneficial users for drinking water (either directly or indirectly), the limits are based on the Idaho Rules for Public Drinking Water Systems, IDAPA 58.01.08, and Idaho's Ground Water Quality Rule, IDAPA 58.01.11. These standards are based on past studies by EPA determining the adverse health effects on infants from nitrate in drinking water.

The limits for Five Day Biochemical Oxygen Demand (BOD₅), Total Organic Carbon (TOC), and Total Suspended Solids (TSS) for Class A Reclaimed Wastewater (5 mg/L each) are based on the study of limits in other states. These measurable quantities are indicators of the effectiveness of treatment and not direct measurements of risk to human health. There are several states that presently regulate this type of wastewater reuse. Some states have lower limits and some have higher limits in their rules. DEQ evaluated the various limits used by other states and used limits in the rule that it believes are reasonable and protective given the associated risks. Until the reliability of various treatment facilities in Idaho has shown overall protectiveness to human health and the environment, DEQ feels that these limits are required to protect the citizens and environment of Idaho.

The expected risk for pathogen contamination for affected populations is low. For pathogens in the wastewater

effluent, the coliform limits are based on Idaho's existing Wastewater-Land Application Permit Rules. Associated additional requirements regarding treatment, buffer zones, reliability and redundancy are included to give additional assurance that the limits are attained consistently.

There are multiple requirements put on the distribution system of the wastewater effluent. These requirements provide the affected populations with safeguards against contamination of their drinking water system from parallel or crossing main lines. These requirements also protect against contamination of their wastewater effluent system by raw sewage in parallel or crossing main lines. The expected risk of this type of contamination is low.

The requirements set forth in this rule are based upon studies and analysis conducted by other states, EPA, and national water reuse organizations that indicate the requirements are protective of human health and the environment and do not pose an unreasonable risk to the public potentially exposed. The referenced studies have been included in the rulemaking record and can be reviewed for further detailed information regarding risk.

Section 39-107D(3)(d), Idaho Code. Identification of each significant uncertainty identified in the process of the assessment of public health effects or environmental effects and any studies that would assist in resolving the uncertainty. The limits placed on wastewater treatment in the stated modifications apply to both public health and environmental effects. The limits in these rule modifications are based on limits and standards used by other states and as promoted by national water reuse organizations. Although Idaho's wastewater land application permit program has been in effect for many years utilizing treated effluent for agricultural and municipal beneficial irrigation, the use of highly treated wastewater for higher beneficial uses is an evolving industry throughout the U.S. and the world. These higher uses, involving almost unrestricted use and unrestricted access by the general public, call for higher treatment and monitoring requirements to protect the affected populations. The uncertainty in assessing the health and environmental effects is believed to be minimal, but not zero.

Section 39-107D(3)(e), Idaho Code. Identification of studies known to the department that support, are directly relevant to, or fail to support any estimate of public health effects or environmental effects and the methodology used to reconcile inconsistencies in the data. The use of 10 mg/l for nitrate is based on the existing Ground Water Quality Rule and the existing Idaho Rules for Public Drinking Water Systems. The use of 2.2 total coliform limit is in the existing Wastewater-Land Application Permit Rules.

The requirements set forth in this rule are based upon studies and analysis conducted by other states, EPA, and national water reuse organizations that indicate the requirements are protective of human health and the environment and do not pose an unreasonable risk to the public potentially exposed. The referenced studies have been included in the rulemaking record and can be reviewed by contacting the undersigned.

07. Direct Use Of Municipal Reclaimed Wastewater. Treatment requirements applicable to direct use

of municipal reclaimed wastewater include, but are not limited to, the following: The applicable treatment requirements, buffer zones, access restrictions, disinfection requirements, uses, and other requirements are further described in the Classification Table in Subsection 600.08. (4-1-88)()

a. Class A effluent is municipal reclaimed wastewater that may be used under particular circumstances for residential irrigation at individual homes (controlled only by the system operator), ground water recharge, surface spreading, seepage ponds, other unlined water features, and other appropriate uses. Class A effluent shall be oxidized, coagulated, clarified, and filtered, or treated by an equivalent process and adequately disinfected. Enhanced filtration approval requirements, nutrient removal requirements, turbidity limits requirements, monitoring requirements, reliability and redundancy requirements, and distribution system requirements also apply. Class A treatment systems are required to be pilot tested at full scale prior to sewer hookups, lifting of sanitary restrictions, and start-up. Class A effluent shall be considered adequately disinfected if, at the point of compliance, the median number of total coliform organisms does not exceed two and two-tenths (2.2) per one hundred (100) milliliters, and does not exceed twenty-three (23) per one hundred (100) milliliters in any confirmed sample, as determined from the bacteriological results of the last seven (7) days for which analyses have been completed. For ground water recharge, surface spreading, seepage ponds, and other unlined water features, IDAPA 58.01.11, "Ground Water Quality Rule," requirements apply. For Class A effluent, analysis shall be based on daily sampling during periods of use. The point of compliance for Class A effluent for total coliform shall be in the distribution system following final treatment, final storage and disinfection contact time. Class A effluent for residential irrigation should be applied only during periods of non-use. ()

ab. Where the Class B effluent is municipal reclaimed wastewater that may contact any edible portion of raw food crops, ~~the municipal wastewater~~ or is used to irrigate golf courses, parks, playgrounds, schoolyards and other areas where children are more likely to have access or exposure. Class B effluent shall be oxidized, coagulated, clarified, filtered, or treated by an equivalent process and adequately disinfected. Class B treatment systems are required to be pilot tested at full scale prior to sewer hookups, lifting of sanitary restrictions, and start-up. ~~The municipal wastewater~~ Class B effluent shall be considered adequately disinfected if, at ~~some location in the treatment process~~ the point of compliance, the median number of total coliform organisms does not exceed two and two-tenths (2.2) per one hundred (100) milliliters, and does not exceed twenty-three (23) per one hundred (100) milliliters in any confirmed sample, as determined from the bacteriological results of the last seven (7) days for which analyses have been completed. For Class B effluent, analysis shall be based on daily sampling during periods of application. The point of compliance for Class B effluent for total coliform shall be in the distribution system following final treatment, final storage and disinfection contact time. Residual chlorine at the point of compliance shall be not less than one (1) mg/L free chlorine after a contact time of thirty (30) minutes at peak flow. Class B effluent shall be applied only during periods of non-use by the public. (12-31-91)()

DOCKET NO. 58-0123-0401

NOTICE OF RULEMAKING - PENDING RULE

EFFECTIVE DATE: This rule has been adopted by the Board of Environmental Quality (Board) and is now pending review by the 2005 Idaho State Legislature for final approval. The pending rule will become final and effective immediately upon the adjournment sine die of the First Regular Session of the Fifty-eighth Idaho Legislature unless prior to that date the rule is rejected, amended or modified by concurrent resolution in accordance with Sections 67-5224 and 67-5291, Idaho Code.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that the Board has adopted a pending rule. This action is authorized by Sections 39-105, 39-107, and 67-5206, Idaho Code.

DESCRIPTIVE SUMMARY: In May 2004, this rule was adopted by the Board as a temporary rule and is currently effective. A detailed summary of the reason for adopting the rule is set forth in the initial proposal published in the Idaho Administrative Bulletin, July 7, 2004 Volume 04-7, pages 152 through 155. The agency received no public comments on the proposal, and the rule has been adopted as initially proposed. The rulemaking record can be obtained by contacting the undersigned.

IDAHO CODE SECTION 39-107D STATEMENT: In compliance with Section 39-107D, Idaho Code, the Department of Environmental Quality (DEQ) states that this rule is not broader in scope, more stringent than federal law or regulations and does not regulate an activity that is not regulated by the federal government. This rule is introduced for the purpose of making the procedures applicable to HWMA permits consistent with the Idaho Administrative Procedures Act and the Rules of Administrative Procedure Before the Board of Environmental Quality, IDAPA 58.01.23. As such, the procedures applicable to HWMA permit appeals will differ from procedures before the Environmental Appeals Board for the United States Environmental Protection Agency as governed by 40 CFR Section 124.19. The major differences are as follows:

- 1) The right to initiate an appeal will not be limited to persons who have commented on the proposed permit or testified at the public hearing. Instead, any person affected or aggrieved and having legal standing shall be entitled to initiate a permit appeal pursuant to the contested case rules. Compare 40 CFR 124.19(a) and 40 CFR Section 124.13.
- 2) The issues raised in HWMA permit appeals may not be limited to issues raised in the public comment period or at the public hearing. Instead, any issues germane and legally relevant to the issuance of the permit may be raised, whether addressed to the agency previously or not. Compare 40 CFR 124.19(a) and 40 CFR Section 124.13.
- 3) The record for review may not be limited to the administrative record compiled during issuance of the permit, but will instead be available for supplementation including the presentation of testimony and the right of cross-examination. Compare 40 CFR 124.19(c) and 40 CFR Section 124.18.
- 4) The ability to deny review based upon the contents of the petition alone will not be available. Compare 40 CFR 124.19(c). Instead, DEQ will be required to respond to the petition and address the merits of the petition through appropriate motions and evidentiary proceedings under IDAPA 58.01.23.

The differences are procedural in nature and do not affect the substantive rights of the permit applicant or of persons seeking to challenge the permit.

GENERAL INFORMATION: For more information about DEQ's programs and activities, visit DEQ's web site at www.deq.state.id.us.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on questions concerning this rulemaking, contact the undersigned.
