**LEGAL NOTICE - SUMMARY OF PROPOSED RULEMAKINGS**

**SUBJECTS AFFECTED INDEX**

**ABRIDGED EDITION OF THE CUMULATIVE RULEMAKING INDEX OF IDAHO ADMINISTRATIVE RULES**

**SUBJECT INDEX**
Preface

The Idaho Administrative Bulletin is published once each month by the Department of Administration, Office of the Administrative Rules Coordinator, pursuant to Section 67-5203, Idaho Code. The Bulletin is a monthly compilation of all administrative rulemaking documents in Idaho. The Bulletin publishes the official rulemaking notices and administrative rule text of state agency rulemakings and other official documents as necessary.

State agencies are required to provide public notice of rulemaking activity and invite public input. The public receives notice of rulemaking activity through the Idaho Administrative Bulletin and the Legal Notice published monthly in local newspapers. The Legal Notice provides reasonable opportunity for public input, either oral or written, which may be presented to the agency within the time and manner specified in the Notice of Rulemaking published in the Bulletin. After the comment period closes, the agency considers fully all information submitted in regard to the rule. Comment periods are not provided in temporary or final rule-making activities.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is cited by year and issue number. For example, Bulletin 07-1 refers to the first Bulletin issued in calendar year 2007; Bulletin 08-1 refers to the first Bulletin issued in calendar year 2008. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 08-1 refers to January 2008; Volume No. 08-2 refers to February 2008; and so forth. Example: The Bulletin published in January 2008 is cited as Volume 08-1. The December 2007 Bulletin is cited as Volume 07-12.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is published once a year and is a compilation or supplemental compilation of all final and enforceable administrative rules in effect in Idaho. In an effort to provide the reader with current, enforceable rules, temporary rules are also published in the Administrative Code. Temporary rules and final rules approved by the legislature during the legislative session, and published in the monthly Idaho Administrative Bulletin, supplement the Administrative Code. Negotiated, proposed, and pending rules are only published in the Bulletin and not printed in the Administrative Code.

To determine if a particular rule remains in effect, or to determine if a change has occurred, the reader should refer to the Cumulative Rulemaking Index of Idaho Administrative Rules, printed in each Bulletin.

TYPES OF RULEMAKINGS PUBLISHED IN THE ADMINISTRATIVE BULLETIN

The state of Idaho administrative rulemaking process, governed by the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, comprises five distinct activities: negotiated, proposed, temporary, pending and final rulemaking. Not all rulemakings involve all five. At a minimum, a rulemaking includes proposed, pending and final rulemaking. Many rules are adopted as temporary rules when they meet the required statutory criteria and agencies often engage in negotiated rulemaking at the beginning of the process to facilitate consensus building in controversial or complex rulemakings. In the majority of cases, the process begins with proposed rulemaking and ends with the final rulemaking. The following is a brief explanation of each type of administrative rule.

NEGOTIATED RULEMAKING

Negotiated rulemaking is a process in which all interested parties and the agency seek consensus on the content of a rule. Agencies are encouraged, and in some cases required, to engage in this rulemaking activity whenever it is feasible to do so. Publication of a “Notice of Intent to Promulgate” a rule in the Administrative Bulletin by the agency is optional. This process should result in the formulation of a proposed and/or temporary rule.
PROPOSED RULEMAKING

A proposed rulemaking is an action by an agency wherein the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a “Notice of Proposed Rulemaking” in the Bulletin. This notice must include:

a) the specific statutory authority (from Idaho Code) for the rulemaking including a citation to a specific federal statute or regulation if that is the basis of authority or requirement for the rulemaking;

b) a statement in nontechnical language of the substance of the proposed rule, including a specific description of any fee or charge imposed or increased;

c) the text of the proposed rule prepared in legislative format;

d) the location, date, and time of any public hearings the agency intends to hold on the proposed rule;

e) the manner in which persons may make written comments on the proposed rule, including the name and address of a person in the agency to whom comments on the proposal may be sent;

f) the manner in which persons may request an opportunity for an oral presentation as provided in Section 67-5222, Idaho Code; and

g) the deadline for public (written) comments on the proposed rule.

As stated, the text of the proposed rule must be published in the Bulletin. After meeting the statutory rulemaking criteria for a proposed rule, the agency may proceed to the pending rule stage. A proposed rule does not have an assigned effective date, even when published in conjunction with a temporary rule, and therefore, is not enforceable. An agency may vacate a proposed rulemaking if it decides not to proceed beyond the proposed rulemaking step, and stops the formal rulemaking process.

TEMPORARY RULEMAKING

Temporary rules may be adopted only when the governor finds that it is necessary for:

a) protection of the public health, safety, or welfare; or

b) compliance with deadlines in amendments to governing law or federal programs; or

c) conferring a benefit;

If a rulemaking meets any one or all of the above requirements, a rule may become effective before it has been submitted to the legislature for review and the agency may proceed and adopt a temporary rule. However, a temporary rule that imposes a fee or charge may be adopted only if the Governor finds that the fee or charge is necessary to avoid an immediate danger which justifies the imposition of the fee or charge.

A temporary rule expires at the conclusion of the next succeeding regular legislative session unless the rule is approved, amended, or modified by concurrent resolution or when the rule has been replaced by a final rule.

State law requires that the text of both a proposed rule and a temporary rule be published in the Administrative Bulletin. In cases where the text of the temporary rule is the same as the proposed rule, the rulemaking can be done concurrently as a proposed/temporary rule. Combining the rulemaking allows for a single publication of the text.

An agency may, at any time, rescind a temporary rule that has been adopted and is in effect. If the temporary rule is being replaced by a new temporary rule or if it has been published concurrently with a proposed rule that is being vacated, the agency, in most instances, should rescind the temporary rule.
PENDING RULEMAKING

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it becomes a final, enforceable rule.

When a pending rule is published in the Bulletin, the agency is required to include certain information in the “Notice of Pending Rulemaking”. This includes:

a) a statement giving the reasons for adopting the rule;

b) a statement of any change between the text of the proposed rule and the pending rule with an explanation of the reasons for any changes;

c) the date the pending rule will become final and effective;

d) an identification of any portion of the rule imposing or increasing a fee or charge.

Agencies are required to republish the text of the rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule change is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule. With the permission of the Rules Coordinator, only the Section(s) that have changed from the proposed text are republished. If no changes have been made to the previously published text, it is not required to republish the text again and only the “Notice of Pending Rulemaking” is published.

FINAL RULEMAKING

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is in effect and enforceable.

No pending rule adopted by an agency will become final and effective until it has been submitted to the legislature for review. Where the legislature finds that an agency has violated the legislative intent of the statute under which the rule was made, a concurrent resolution may be adopted to reject the rulemaking or any part thereof. A “Notice of Final Rule” must be published in the Bulletin for any rule that is rejected, amended, or modified by the legislature showing the changes made. A rule reviewed by the legislature and not rejected, amended or modified becomes final with no further legislative action. No rule shall become final and effective before the conclusion of the regular or special legislative session at which the rule was submitted for review. However, a rule that is final and effective may be applied retroactively, as provided in the rule.

HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering system. Each state agency has a two-digit identification code number known as the “IDAPA” number. (The “IDAPA” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit “TITLE” number is assigned. There are “CHAPTER” numbers assigned within the Title and the rule text is divided among major sections with a number of subsections. An example IDAPA number is as follows:

IDAPA 38.05.01.200.02.c.ii.

“IDAPA” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

“38.” refers to the Idaho Department of Administration

“05.” refers to Title 05, which is the Department of Administrations’s Division of Purchasing

“01.” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”

“200.” refers to Major Section 200, “Content of the Invitation to Bid”

“02.” refers to Subsection 200.02.

“c.” refers to Subsection 200.02.c.

“ii.” refers to Subsection 200.02.c.ii.
DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. All rulemaking actions (documents) are assigned a “DOCKET NUMBER.” The “Docket Number” is a series of numbers separated by a hyphen “-”. (38-0501-0801). The docket numbers are published sequentially by IDAPA designation (e.g. the two-digit agency code). The following example is a breakdown of a typical rule docket number:

“DOCKET NO. 38-0501-0801”

“38-” denotes the agency’s IDAPA number; in this case the Department of Administration.

“0501-” refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), Rules of the Division of Purchasing (Chapter 01).

“0801” denotes the year and sequential order of the docket being published; in this case the numbers refer to the first rule-making action published in calendar year 2008. A subsequent rulemaking on this same rule chapter in calendar year 2008 would be designated as “0802”. The docket number in this scenario would be 38-0501-0802.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

(BREAK IN CONTINUITY OF SECTIONS)

INTERNAL AND EXTERNAL CITATIONS TO ADMINISTRATIVE RULES IN THE CODE AND BULLETIN

When making a citation to another Section or Subsection of a rule that is part of the same rule, a typical internal citation may appear as follows:

“...as found in Section 201 of this rule.” OR “...in accordance with Subsection 201.06.c. of this rule.”

The citation may also include the IDAPA, Title, or Chapter number, as follows”

“...in accordance with IDAPA 38.05.01.201...”

“38” denotes the IDAPA number of the agency.

“05” denotes the TITLE number of the rule.

“01” denotes the Chapter number of the rule.

“201” denotes the main Section number of the rule to which the citation refers.

Citations made within a rule to a different rule chapter (external citation) should also include the name of the Department and the name of the rule chapter being referenced, as well as the IDAPA, Title, and Chapter numbers. The following is a typical example of an external citation to another rule chapter:

“...as outlined in the Rules of the Department of Administration, IDAPA 38.04.04, “Rules Governing Capitol Mall Parking.”

**DOCKET NO. 07-0701-0802 - ADOPTION OF PENDING RULE**

No substantive changes have been made to the pending rule.

The complete text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 08-10, October 1, 2008, Book 1, pages 107 and 108.

This rule has been adopted as a pending rule by the Agency and is now awaiting review and approval by the 2009 Idaho State Legislature for final adoption.
COORDINATOR’S NOTE: During the publication of the 2005 Idaho Administrative Code, IDAPA 08.02.02, “Rules Governing Uniformity,” Section 004, Incorporation by Reference, Subsection .05, Incorporated Document, the date of the incorporated document, “The Idaho Standards for Public School Driver Education and Training,” shows that this document was approved for incorporation on August 13, 2004 by the State Board of Education. This is incorrect. The Board meeting held on August 13, 2004 approved the proposed rulemaking under Docket No. 08-0202-0407. Additional amendments made to the incorporated standards manual were submitted to the State Board at its November 16, 2004 Board meeting and were approved at that meeting as part of the approval of the pending rulemaking. The date that should have been published in the pending rule for Subsection 08.02.02.004.05, as approved by the Board and by the 2005 Legislature, is November 12, 2004. Section 230 of these rules also listed the dates of the incorporated documents. These dates are now being removed as part of this correction to remove redundant language and to avoid unnecessary discrepancies within the rule itself.

AUTHORITY: In compliance with Section 67-5221(1), 67-5224 and 67-5291, Idaho Code, notice is hereby given that the Office of the Administrative Rules Coordinator is correcting a final rule.

DESCRIPTIVE SUMMARY: The following is a non-technical explanation of the substance of this correction notice:

The notice corrects the date of the document that is incorporated by reference in IDAPA 08.02.02.004.05. The date was inadvertently left unchanged in the pending rule after additional amendments were made to the incorporated standards manual. The Administrative Procedure Act requires that all documents that are incorporated by reference into a rule must be date and edition specific. The pending rule with the changes to the standards manual was submitted to the State Board at its November 16, 2004 board meeting for approval. These changes were accepted and with an effective date of November 12, 2004. The Administrative Code is being updated to reflect that this error has been corrected. The 2005 legislature also approved this change as reflected in the House Education Committee meeting of January 20, 2005, page 3.

The text of the proposed rulemaking was published in Book 1 of the October 6, 2004 Administrative Bulletin, Vol. No. 04-10, pages 181 and 182.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the correction, contact Dennis Stevenson, Administrative Rules Coordinator, at (208) 332-1820.

AUTHORITY: In compliance with Section 67-5221, Idaho Code, notice is hereby given that this agency has vacated the proposed rulemaking previously initiated under this docket and is rescinding the temporary rule previously adopted under this docket. The action is authorized pursuant to Sections 54-2506 and 54-2508, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a summary of the reasons for the rescission and vacation of this rulemaking:

The Idaho State Racing Commission is rescinding this temporary rule and vacating the proposed rule so that continued study and review of the technology proposed can take place. The temporary and proposed rulemaking was done in order to implement definitions regarding Virtual Racing. The Idaho State Racing Commission wishes to withdraw these rule definitions.

The temporary rule, adopted under this docket, 11-0402-0803, by the Idaho State Racing Commission, was published in Book 1 of the October 1, 2008 Administrative Bulletin, Volume 08-10, pages 177 through 180; the proposed rule was published in Book 1 of the October 1, 2008 Administrative Bulletin, Volume 08-10, pages 177 through 180. This Notice of Rulemaking hereby rescinds the temporary rule, effective November 17, 2008, and vacates the proposed rulemaking.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning this vacation of proposed rulemaking and rescission of temporary rule, contact Dennis Jackson, Executive Director.

EFFECTIVE DATE: The effective date of the amended temporary rule is January 1, 2008. This pending rule has been adopted by the agency and is now pending review by the 2009 Idaho State Legislature for final approval. Pursuant to Section 67-5224(5)(c), Idaho Code, this pending rule will not become final and effective until it has been approved, amended, or modified by concurrent resolution of the legislature because of the fee being imposed or increased through this rulemaking. The rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Section 67-5224 and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a pending fee rule and amended a temporary rule. The action is authorized pursuant to Sections 54-2506 and 54-2508, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and amending the temporary rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

This temporary rule needs to be amended to include language that was inadvertently omitted and also to bring this rule chapter into uniformity with other rule chapters which have subsequently been rewritten.

The text of the pending rule has been amended in accordance with Section 67-5227, Idaho Code. Rather than keep the temporary rule in place while the pending rule awaits legislative approval, the Idaho State Racing Commission amended the temporary rule with the same revisions which have been made to the pending rule. Only the sections that have changes that differ from the proposed text are printed in this bulletin. The original text of the proposed rule was published in the January 2, 2008 Idaho Administrative Bulletin, Vol. 08-1, pages 58 through 71. Only those sections with changes that differ from the proposed rule are being published with this notice.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fee or charge being imposed or increased is justified and necessary to avoid immediate danger. This fee or charge is being imposed pursuant to Sections 54-2506 and 54-2508, Idaho Code. The following is a specific description of the fee or charge imposed or increased:

The Idaho State Racing Commission has been charging fees for licenses; however, the fees have never gone through the rule making process. In order to regulate racing in Idaho, charging fees for licensing is required.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: None.

DOCKET NO. 15-0202-0801 - ADOPTION OF PENDING RULE

No substantive changes have been made to the pending rule.

The complete text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 08-10, October 1, 2008, Book 1, pages 284 through 287.

This rule has been adopted as a pending rule by the Agency and is now awaiting review and approval by the 2009 Idaho State Legislature for final adoption.
EFFECTIVE DATE: The effective date of the temporary rule is November 1, 2008.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 56-202, Idaho Code, and 42 USC Sections 8621 to 8629, also known as the Low Income Home Energy Assistance Act of 1981.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than December 17, 2008.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The federal agency that administers this energy program has increased the funds available for low-income home energy assistance. The availability of these increased funds will help low-income families with the high costs of heating their homes through the winter. Expanding this program will allow more families to benefit from this safety net by creating more economic stability through subsidizing their home heating costs.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a) and (c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

With the increased funds for this program, more low-income families will benefit from this safety net by creating more economic stability through subsidizing their home heating costs.

FISCAL IMPACT: The following is a specific description, if applicable, of any fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year.

This rulemaking has no fiscal impact to the state's general fund budget.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220, Idaho Code, negotiated rulemaking was not conducted because these rules confer a benefit and are governed by federal regulations.

**DESCRIPTIVE SUMMARY:** The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

The pending rule prohibits the use of discretionary clauses in some health insurance contracts. Discretionary clauses are clauses in insurance contracts that purport to give the insurer the sole discretion to determine an insured’s eligibility for benefits under the insurance contract. In response to public comments, Section 010.05 of the pending rule has been changed from the proposed rule to exclude from the definition of “health insurance contract” any contract for group coverage offered by or through an employer. Therefore, the pending rule will not apply to group health plans offered to employees by or through their employer. In addition, Section 012 has been deleted in its entirety and references to lifetime maximum benefit limitations in Section 001 have been deleted from the pending rule due to possible conflicts with federal law as currently interpreted by federal agencies.

The text of the pending rule has been amended in accordance with Section 67-5227, Idaho Code. Only those sections that have changes that differ from the proposed text are printed in this bulletin. The complete text of the proposed rule was published in the July 2, 2008 Idaho Administrative Bulletin, Vol. 08-7, pages 55 through 58.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending rule. The action is authorized pursuant to Sections 41-211 and 41-1314, and 41-2708, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

The purpose of this Rule is to supplement the provisions of Chapter 13 and Chapter 27, Title 41, Idaho Code, which pertain to illegal rebates and inducements in the insurance business, particularly in the title insurance business, to ensure that the consumers of title industry products and services have access to a viable and competitive marketplace by requiring that producers of title provide disclosure of a financial interest in a title entity to which they refer title insurance consumers.

The pending rule is being adopted as proposed. The complete text of the proposed rule was published in Book 2 of the October 1, 2008 Idaho Administrative Bulletin, Volume 08-10, page 116.

NOTICE OF RULEMAKING - ADOPTION OF PENDING FEE RULE

EFFECTIVE DATE: This rule has been adopted by the agency and is now pending review by the 2009 Idaho State Legislature for final approval. Pursuant to Section 67-5224(5)(c), Idaho Code, this pending rule will not become final and effective until it has been approved, amended, or modified by concurrent resolution of the legislature because of the fee being imposed or increased through this rulemaking. The rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending fee rule. The action is authorized pursuant to Sections 41-211 and 41-401, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

The proposed rulemaking amends IDAPA 18.01.44, “Schedule of Fees, Licenses and Miscellaneous Charges,” to impose a filing fee for policy rates and forms submitted for filing in paper form. Insurers filing ten or fewer policy rates and forms per year will not be charged a fee; however, a fee of $20 will be charged for each paper rate or form filed in excess of ten. The fee will not apply to any filings made electronically through the national System for Electronic Rates and Forms Filing (SERFF). The use of electronic filing provides conveniences to the insurer and eliminates the need for Department staff to convert paper forms to electronic format.

DOCKET NO. 24-0201-0801 - ADOPTION OF PENDING RULE

No substantive changes have been made to the pending rule.

The complete text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 08-7, July 2, 2008, pages 67 through 74.

This rule has been adopted as a pending rule by the Agency and is now awaiting review and approval by the 2009 Idaho State Legislature for final adoption.
**EFFECTIVE DATE:** The effective date of the amendment to the temporary rule is July 1, 2008. This pending rule has been adopted by the agency and is now pending review by the 2009 Idaho State Legislature for final approval. The pending rule becomes final and effective at the conclusion of the legislative session, unless the rule is approved, rejected, amended or modified by concurrent resolution in accordance with Section 67-5224 and 67-5291, Idaho Code. If the pending rule is approved, amended or modified by concurrent resolution, the rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

**AUTHORITY:** In compliance with Section 67-5224 and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a pending rule and amended a temporary rule. The action is authorized pursuant to Section 54-821, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is a concise explanatory statement of the reasons for adopting the pending rule and amending the temporary rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

The 2008 Legislature passed HB375 which allows the Board of Cosmetology to use a third party exam administrator to provide the examination and it deletes the requirement for students enrolling in licensed cosmetology school to register with the Board. These rules comply with the new law. This change also deletes the requirement that applicants pass a jurisprudence examination. They will need to certify they know the laws and rules and agree to abide by them. The change from the temporary and proposed rule is in Subsection 450.021. In order to be consistent the reference to the jurisprudence examination needed to be removed.

The text of the pending rule has been amended in accordance with Section 67-5227, Idaho Code, and is being republished following this notice. Rather than keep the temporary rule in place while the pending rule awaits legislative approval, the Board amended the temporary rule with the same revisions which have been made to the pending rule. Only the sections that have changes differ from the proposed text are printed in this bulletin. The original text of the proposed rule was published in Book 2 of the October 1, 2008 Idaho Administrative Bulletin, Vol. 08-10, pages 161 through 168.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: N/A

NOTICE OF RULEMAKING - VACATION OF PROPOSED RULEMAKING

AUTHORITY: In compliance with Section 67-5221, Idaho Code, notice is hereby given that this agency has vacated the proposed rulemaking previously initiated under this docket. The action is authorized pursuant to Sections 36-2107(b) and (d), Idaho Code.

DESCRIPTIVE SUMMARY: The following is a summary of the reason for vacating the proposed rulemaking:

This docket was inadvertently published in two consecutive Bulletins. This error was not discovered until after the second publication and, as a result, it is necessary to vacate one of these rulemakings. Because the rulemaking was republished in the November Bulletin, the deadline dates for the submission of written comments and the public hearing requests were extended. To avoid any confusion or procedural missteps, the Board is vacating Docket No. 25-0101-0801 that published in the October 1, 2008 Administrative Bulletin, Vol. No. 08-10, and the rulemaking initiated under Docket No. 25-0101-0802 replaces it. There are no substantive differences between the text of these two rule dockets.

Any comments received by the Board as a result of the publication of the Docket No 25-0101-0801 will become part of the rulemaking record of Docket No. 25-0101-0802 and will be recognized as a comment to this rulemaking.

DOCKET NO. 33-0101-0801 - ADOPTION OF PENDING RULE

No substantive changes have been made to the pending rule.

The complete text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 08-9, September 3, 2008, pages 200 through 202.

This rule has been adopted as a pending rule by the Agency and is now awaiting review and approval by the 2009 Idaho State Legislature for final adoption.
EFFECTIVE DATE: The effective date of the temporary rule is November 1, 2008.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule. The action is authorized pursuant to Sections 63-105 and 63-3039, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

Rule 500: Controversy over the nature of the State Tax Commission’s authority to settle or compromise tax liabilities in appropriate cases demonstrates a need for an improved explanation of the grounds that the Commission considers when it receives settlement offers. The proposed rule addresses “settlements” rather than “compromises,” defines “disputed liability,” “doubt as to collectibility” and “economic hardship” based on language in Rev. Proc, 2003-71. The rule adds “promotion of effective tax administration” as an additional ground.

TEMPORARY RULE JUSTIFICATION: Pursuant to Section 67-5226(1)(c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reason: it confers a benefit.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

THE FOLLOWING IS THE TEXT OF DOCKET NO. 35-0201-0802

500. ADJUSTED OR COMPROMISED CASES -- CLOSING AGREEMENTS SETTLEMENTS (RULE 500).
Sections 63-3047 and 63-3048, Idaho Code.

01. Grounds for Compromise Settlement. The Tax Commission may compromise settle the tax liability, penalties, or both, of a case if one (1) or more of the following circumstances exist:

   a. Disputed liability

   i. A disputed liability exists where there is a reasonable disagreement as to the existence or amount of the correct tax liability under the law. A disputed liability does not exist where the liability has been established by a final court judgment concerning the existence of the liability.

   ii. An offer to settle a disputed liability generally will be considered acceptable if it reasonably reflects the likelihood the Commission could expect to collect through litigation. This analysis includes consideration of the
hazards and costs of litigation that would be involved if the liability were litigated. The evaluation of the hazards and costs of litigation is not an exact science and is within the discretion of the Commission.

b. Doubt as to collectibility
   i. Doubt as to collectibility exists in any case where the taxpayer's assets and income may not satisfy the full amount of the liability.
   ii. An offer to settle based on doubt as to collectibility generally will be considered acceptable if it is unlikely that the tax, penalty, and interest can be collected in full and the offer reasonably reflects the amount the Commission could collect through other means, including administrative and judicial collection remedies. This amount is the reasonable collection potential of a case. In determining the reasonable collection potential of a case, the Commission will take into account the taxpayer's reasonable basic living expenses. In some cases, the Commission may accept an offer of less than the total reasonable collection potential of a case if there are special circumstances.

c. Economic hardship of the taxpayer.
   i. The Commission may settle where it determines that, although collection in full could be achieved, collection of the full amount would cause the taxpayer economic hardship. Economic hardship is defined as the inability to pay reasonable basic living expenses.
   ii. An offer to settle based on economic hardship generally will be considered acceptable when, even though the tax, penalty, and interest could be collected in full, the amount offered reflects the amount the Commission can collect without causing the taxpayer economic hardship. The determination to accept a particular amount will be based on the taxpayer's individual facts and circumstances.

d. Promotion of effective tax administration.
   i. The Commission may settle to promote effective tax administration where compelling public policy or equity considerations identified by the taxpayer provide a sufficient basis for settling the liability that is equitable under the particular facts and circumstances of the case. Settlements pursuant to this paragraph will be justified only where, due to exceptional circumstances, collection of the full liability may undermine public confidence that the tax laws are being administered in a fair and equitable manner. The taxpayer will be expected to demonstrate circumstances that justify settlement even though a similarly situated taxpayer may have paid his liability in full.
   ii. The State Tax Commission may decline a settlement for reasons promoting effective tax administration if the settlement of the liability would undermine compliance by taxpayers with the tax laws.

02. Final Judgments. The Tax Commission may not compromise the tax liability if the liability has been established by a final judgment of a court, and no doubt exists as to the taxpayer's ability to pay or the state's ability to collect the amounts owing.

022. Agreement Final. A compromise settlement agreement relates to the issues agreed to for the tax periods in question. The agreement is final and conclusive and neither the Tax Commission nor the taxpayer shall be permitted to open the case again except in the case of changes to the federal return or a showing of fraud or malfeasance or misrepresentation of a material fact or as provided in the agreement. Recalculation of carryback or carryover items may not be construed as opening the case and will not affect the tax liability of a closed period or closed issue.

043. Form of Compromise Settlement. The taxpayer must submit an offer of compromise to settle in writing. An offer may not be considered accepted until the taxpayer is notified in writing. Acceptance may be made only by a Tax Commissioner or an authorized delegate. If the offer is rejected, the Tax Commission shall promptly notify the taxpayer.

054. Withdrawal of Offer. A taxpayer may withdraw his offer in compromise to settle at any time prior to its acceptance by the Tax Commission.
EFFECTIVE DATE: This rule has been adopted by the agency and is now pending review by the 2009 Idaho State Legislature for final approval. The pending rule becomes final and effective at the conclusion of the legislative session, unless the rule is approved, rejected, amended or modified by concurrent resolution in accordance with Section 67-5224 and 67-5291, Idaho Code. If the pending rule is approved, amended or modified by concurrent resolution, the rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending rule. The action is authorized pursuant to Section 42-1805(8), Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

Rule change is necessary to make the rules consistent with 2006, 2007 and 2008 legislative amendments to Chapter 14, Title 42, Idaho Code, update outdated citations to Idaho Code, and reduce number of claim forms from two to one.

The pending rule is being adopted as proposed. The complete text of the proposed rule was published in Book 2 of the October 1, 2008, Idaho Administrative Bulletin, Vol. 08-10, pages 409 through 425.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year:

The rule change itself does not have a fiscal impact because the rule change simply makes the rules consistent with the new fee structure in Idaho Code 42-1414. Because the 2008 Legislature lowered the fees for filing a claim in an adjudication, this will result in a negative impact on the fees collected by IDWR’s adjudication programs.

**DESCRIPTIVE SUMMARY:** The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

The Pending Rule is adopted to revise the septic system application restrictions to allow drainfields to be installed prior to the construction of the structure to be served. Upon review of the Proposed Rule by the Deputy Attorney General it was determined that addition of Subsection 100.08 was confusing and unnecessary. Only one sentence, Paragraph 100.08.b. was retained, and added to Subsection 100.07.b. The intent of the rule change remains the same but the revision eliminates potential confusion.

The text of the pending rule has been amended in accordance with Section 67-5227, Idaho Code. Only those sections that have changes that differ from the proposed text are printed in this bulletin. The complete text of the proposed rule was published in Book 2 of the October 1, 2008, Idaho Administrative Bulletin, Vol. 08-10, pages 459 through 462.

NOTICE OF RULEMAKING - ADOPTION OF PENDING FEE RULE

EFFECTIVE DATE: This rule has been adopted by the agency and is now pending review by the 2009 Idaho State Legislature for final approval. Pursuant to Section 67-5224(5)(c), Idaho Code, this pending rule will not become final and effective until it has been approved, amended, or modified by concurrent resolution of the legislature because of the fee being imposed or increased through this rulemaking. The rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that this agency has adopted a pending fee rule. The action is authorized pursuant to Section 54-3107, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

The pending rule is being adopted as proposed. The complete text of the proposed rule was published in Book 2 of the October 1, 2008 Idaho Administrative Bulletin, Vol. 08-10, pages 477 through 482.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased. This fee or charge is being imposed pursuant to Section 54-3110, Idaho Code:

The 2008 Legislature passed HB409 which set a fee cap in the law. The Board is now setting the fees in rule. This is consistent with other Boards served by the Bureau. These rules also allow the board to impose civil fines and recover costs and fees in disciplinary cases. This protects the public by giving the board additional tools for discipline and the ability to recover investigative and legal costs from the person in violation so costs are not passed onto the other licensees.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year:

Since the fees will remain the same, there will be no fiscal impact. There may be a small positive fiscal impact for the civil fines and costs and fees since the Board will be able to recover costs. Given the small number of disciplinary matters for this board, this impact will be minimal. However, any recovery of costs will help minimize future fee increases.

AUTHORITY: In compliance with Section 39-3611, Idaho Code, notice is hereby given that this agency has issued a final decision on the Potlatch River Total Maximum Daily Loads (TMDLs).

DESCRIPTIVE SUMMARY: The Department of Environmental Quality (DEQ) hereby gives notice of the final decision on the Potlatch River TMDLs, a component of the Lower Clearwater River HUC. The final decision may be appealed to the Board of Environmental Quality by initiating a contested case in accordance with Sections 39-107(5), 67-5240 et seq., Idaho Code, and IDAPA 58.01.23, “Rules of Administrative Procedure Before the Board of Environmental Quality.” The petition initiating a contested case must be filed with the undersigned hearing coordinator within thirty-five (35) days of the publication date of this notice in the Idaho Administrative Bulletin.

DOCKET NO. 58-0101-0802 - ADOPTION OF PENDING RULE

No substantive changes have been made to the pending rule.
The complete text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 08-8, August 6, 2008, pages 144 through 149.
This rule has been adopted as a pending rule by the Agency and is now awaiting review and approval by the 2009 Idaho State Legislature for final adoption.
AUTHORITY: In compliance with Section 67-5220, Idaho Code, and IDAPA 58.01.23, “Rules of Administrative Procedure Before the Board of Environmental Quality,” Sections 810 through 815, notice is hereby given that this agency intends to promulgate a rule and desires public participation before publishing a proposed rule. This rulemaking action is authorized by Sections 39-105, 39-107, and 39-3601 et seq., Idaho Code.

METHOD OF PARTICIPATION: Those interested in participating in the negotiated rulemaking process are encouraged to attend the following meeting. For those who cannot participate by attending the meeting, information for submitting written comments is provided at the end of this notice.

MEETING SCHEDULE: The negotiated rulemaking meeting will be held as follows. Additional meetings may be scheduled if necessary. For information regarding participation by telephone or scheduling of additional meetings, contact the undersigned. Requests to participate by telephone must be made by December 15, 2008.

PRELIMINARY DRAFT: By December 3, 2008, a preliminary draft of the rule can be obtained at http://www.deq.idaho.gov/rules/water/58_0102_0801_negotiated.cfm or by contacting Paula Wilson at paula.wilson@deq.idaho.gov, (208)373-0418.

DESCRIPTIVE SUMMARY: The purpose of this rulemaking is to protect human health from adverse effects of elevated arsenic (As) and protect sensitive aquatic life from cadmium (Cd) toxicity in low hardness waters. In the preliminary draft rule, the Department of Environmental Quality (DEQ) proposes to lower Idaho’s arsenic (As) human health criteria from 50 ug/L to 10 ug/L and lower the low-end hardness cap used in calculation of cadmium (Cd) aquatic life criteria from 25 mg/L to 10 mg/L or less (Section 210). In addition, DEQ proposes to make nonsubstantive revisions to portions of Section 210 identified as needing correction or clarification.

DEQ is also initiating this rulemaking in an effort to forestall pending legal action against the U.S. Environmental Protection Agency (EPA) that would force EPA to disapprove Idaho’s As standard and require EPA to promulgate a federal rule to lower the As human health criteria applicable to Idaho waters. EPA is also prepared to disapprove Idaho’s Cd standard to remove the low end hardness cap for calculating criteria. DEQ proposes to reduce the low end hardness cap for Cd from 25 mg/L to 10 mg/L or less. Idaho’s current As human health criteria are also several times higher than EPA’s recommendation for protecting human health.

The text of the rule will be drafted by DEQ in conjunction with a negotiating committee made up of persons having an interest in the development of this rule. Anyone with an interest in the quality of surface water in Idaho may be interested in participating in this rulemaking. For As, those affected include Idahoans that eat fish caught from Idaho surface waters and dischargers of As to surface water. For Cd, those affected include those who enjoy or profit from healthy communities of aquatic life in, and dischargers of Cd to, Idaho’s surface waters with hardness below 25 mg/L.

Upon conclusion of negotiations, DEQ intends to publish a proposed rule for public comment in the spring of 2009.

ASSISTANCE ON TECHNICAL QUESTIONS AND SUBMISSION OF WRITTEN COMMENTS: For assistance on questions concerning this rulemaking, contact Don Essig at don.essig@deq.idaho.gov, (208)373-0119.
For those who cannot participate by attending the scheduled meeting, written comments may be submitted by mail, fax or e-mail at the address below. Written comments on the preliminary draft rule must be received by December 24, 2008. For information regarding submission of written comments on subsequent drafts of the negotiated rule, and to receive the most recent version of the draft negotiated rule, contact the undersigned.

NOTICE OF RULEMAKING - ADOPTION OF PENDING RULE

EFFECTIVE DATE: This rule has been adopted by the Board of Environmental Quality (Board) and is now pending review by the 2009 Idaho State Legislature for final approval. The pending rule will become final and effective on July 1, 2009 unless prior to that date the rule is rejected by concurrent resolution in accordance with Idaho Code Sections 67-5224 and 67-5291.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that the Board has adopted a pending rule. This action is authorized by Chapters 1 and 36, Title 39, Idaho Code.

DESCRIPTIVE SUMMARY: A detailed summary of the reason for adopting the rule is set forth in the initial proposal published in the Idaho Administrative Bulletin, August 6, 2008, Vol. 08-8, pages 150 through 167. After consideration of public comments, the definition of “module” has been revised (Section 003). The remainder of the rule has been adopted as proposed. The Rulemaking and Public Comment Summary can be obtained at http://www.deq.idaho.gov/rules/subsurface/58_0103_0801_pending.cfm or by contacting the undersigned.

IDAHO CODE SECTION 39-107D STATEMENT: Section 39-107D, Idaho Code, provides that the Department of Environmental Quality (DEQ) must meet certain requirements when it formulates and recommends rules which are broader in scope or more stringent than federal law or regulations. There is no federal law or regulation that is comparable to this rule. Therefore, the changes to the rule are not broader in scope or more stringent than federal law or regulations.

Section 39-107D, Idaho Code, also applies to a rule which “proposes to regulate an activity not regulated by the federal government.” This proposed rule regulates an activity not regulated by the federal government. The following is a summary of additional information required by Sections 39-107D(3) and (4), Idaho Code. Information relating to Section 39-107D(2) has also been provided.

Section 39-107D(2), Idaho Code. To the degree that a department action is based on science, the department shall utilize (a) the best available peer reviewed science and supporting studies conducted in accordance with sound objective scientific practices, and (b) data collected by accepted methods or best available methods if the reliability of the method and the nature of the decision justifies use of the data.

The requirements set forth in the rule are based on studies and analyses conducted by the health districts, the DEQ, the U.S. Environmental Protection Agency (EPA), and national wastewater organizations that indicate the requirements are protective of human health and the environment and reduce the risk of human exposure to sewage, wastewater effluent, and associated pathogens. The referenced studies and analyses will be included in the rulemaking record and can be reviewed during the public comment period for further detailed information regarding risk.

Section 39-107D(3)(a), Idaho Code. Identification of each population or receptor addressed by an estimate of public health effects or environmental effects.

The rule, in particular the changes in rates of wastewater flow from single family dwellings, are expected to have both public health and environmental effects. The populations affected by the rule include applicants for individual septic system permits, system installers, single family dwellings on individual septic systems, users of nearby drinking water supply wells, and other users of down-gradient beneficial uses of ground water and surface water.

Section 39-107D(3)(b) and (c), Idaho Code. Identification of the expected risk or central estimate of risk for the specific population or receptor and identification of each appropriate upper bound or lower bound estimate of risk.

The expected risk of exposure to sewage, wastewater effluent, and associated pathogens for the potentially affected populations listed above is reduced by addressing undersized septic system drainfields. The current rule wastewater flow estimates account for average flows from single family dwellings and were based on national studies conducted in the 1970s. This data, and the current rules, do not adequately take into account peak flows, were not based on usage data specific to Idaho, and do not accurately reflect household usage today. As a result, the current rules underestimate wastewater flow and have resulted in failing drainfields. Failed drainfields expose the affected populations described above to potential pathogens from open sewage and wastewater effluent.
The expected risk for contamination of ground water and surface water is also reduced. The increased flow estimates in the rule result in slightly larger drainfields for standard systems. The chance of drainfield failure is reduced by the larger drainfields. Hydraulic overloading of soils will be reduced by distributing the wastewater effluent over the larger drainfield, thereby reducing the risk of ground water contamination. Overland flow of sewage and wastewater effluent into surface water bodies will likewise be reduced by properly sizing drainfields.

Section 39-107D(3)(d), Idaho Code. Identification of each significant uncertainty identified in the process of the assessment of public health effects or environmental effects and any studies that would assist in resolving the uncertainty.

There is uncertainty inherent in the process of identifying wastewater flows from single family dwellings. For instance, usage may be highly variable from person to person, and the number of persons in a household is difficult to predict. The new flow rates introduce a peaking factor that accounts for peak flows expected at the system, thereby addressing this uncertainty. Using peak flows instead of average flows adds a margin of safety during normal flow conditions.

The estimation of wastewater flow rates in the current rule are based on average wastewater flows from national studies conducted in the 1970s. Prior to the collection of flow data in 2008, there was uncertainty as to how actual usage in Idaho compared to these national estimates. While some uncertainty remains, the 2008 Idaho-specific data provides more accuracy and reduces overall uncertainty inherent in estimating flows. Reducing uncertainty in the flow rates allows for the rule to more accurately size drainfields. Since the 2008 data indicates the current rule underestimate flows, the rule is expected to improve drainfield life and reduce early drainfield failure.

Section 39-107D(3)(e), Idaho Code. Identification of studies known to the department that support, are directly relevant to, or fail to support any estimate of public health effects or environmental effects and the methodology used to reconcile inconsistencies in the data.

The requirements set forth in this rule are based upon studies and analyses conducted by the health districts, the DEQ, the EPA, and national wastewater organizations that indicate the requirements will reduce the risk of exposure to sewage, wastewater effluent, and associated pathogens for the populations listed above. The rule is also expected to more adequately protect ground water and surface water from contamination resulting from failed drainfields. The referenced studies and analysis will be included in the rulemaking record and can be reviewed during the public comment period for further detailed information regarding risk.

FISCAL IMPACT STATEMENT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: Not applicable.

DOCKET NO. 58-0105-0801 - ADOPTION OF PENDING RULE

No substantive changes have been made to the pending rule.

The complete text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 08-8, August 6, 2008, pages 168 through 174.

This rule has been adopted as a pending rule by the Agency and is now awaiting review and approval by the 2009 Idaho State Legislature for final adoption.
EFFECTIVE DATE: This rule has been adopted by the Board of Environmental Quality (Board) and is now pending review by the 2009 Idaho State Legislature for final approval. The pending rule will become final and effective immediately upon the adjournment sine die of the First Regular Session of the Sixtieth Idaho Legislature unless prior to that date the rule is rejected by concurrent resolution in accordance with Idaho Code Sections 67-5224 and 67-5291.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that the Board has adopted a pending rule. This action is authorized by Chapter 1, Title 39, Idaho Code, and Chapter 21, Title 37, Idaho Code.

DESCRIPTIVE SUMMARY: A detailed summary of the reason for adopting the rule is set forth in the initial proposal published in the Idaho Administrative Bulletin, August 6, 2008, Vol. 08-8, pages 175 through 274. After consideration of public comments, the rule has been revised at Sections 511, 514, 531, 542, 544, and 552. The remainder of the rule has been adopted as proposed. The Rulemaking and Public Comment Summary can be obtained at http://www.deq.idaho.gov/rules/drinking_water/58_0108_0801_pending.cfm or by contacting the undersigned.

IDAHO CODE SECTION 39-107D STATEMENT: Section 39-107D, Idaho Code, provides that DEQ must meet certain requirements when it formulates and recommends rules which are broader in scope or more stringent than federal law or regulations, or which propose to regulate an activity not regulated by the federal government. There is no federal law or regulation that is comparable to plan and specification review and facility standard provisions set forth in these rules. Therefore, the changes to the rules are not broader in scope or more stringent than federal law or regulations.

Section 39-107D, Idaho Code, also applies to a rule which “proposes to regulate an activity not regulated by the federal government.” The engineering standards for design, construction, and operation of public drinking water systems regulate activities that are not regulated by the federal government. These rules address the review and approval of plans and specifications for public drinking water systems and the standard by which the agency does the review and approval. This is not an activity regulated by the federal government. Therefore, Section 39-107D, Idaho Code, applies.

Section 39-107D(3), Idaho Code, provides that any rule subject to 39-107D that proposes a standard necessary to protect human health and the environment must also include in the rulemaking record and in the notice of rulemaking additional information. This additional information includes any estimates of risk accomplished, identification of populations or receptors addressed by any estimates, and other information related to an estimation of risk. These rules include facility and design standards which are intended to protect human health and the environment. The standards, however, are for the design and construction of public drinking water facilities. The rules are not based upon any express estimate or analysis of risk to public health or the environment. Instead, the facility and design standards are based upon guidelines set forth in documents, such as the “Recommended Standards for Water Works” and the “American Water Works Association Standards,” that are generally accepted and used throughout the United States by engineers and state regulators.

FISCAL IMPACT STATEMENT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: Not applicable.

514. FACILITY AND DESIGN STANDARDS: SPRING SOURCES.
Written approval by the Department is required before water from any new or reconstructed spring source may be served to the public. For new spring sources, the Department may require a site evaluation report as set forth for wells
in Section 510. Any supplier of water for a public water system served by one (1) or more springs shall ensure that the following requirements are met: (3-30-07)

02. Access to Spring Box. A watertight and locking access port shall be provided. Each spring box access port shall be elevated at least twenty-four (24) inches above the top of the box or covering and the ground level, whichever is higher. The actual height above the top of the box or the ground level must be sufficient to prevent incidental contamination from snow accumulation, storm water runoff or accumulation, irrigation water, or other potential sources of contamination. Each access shall be fitted with a solid water tight cover which overlaps a framed opening and extends down around the frame at least two (2) inches. The frame shall be at least four (4) inches high and shall have a locking device. (3-30-07)

Subsection 531.02.k.iii.

531. FACILITY DESIGN STANDARDS: DESIGN STANDARDS FOR CHEMICAL APPLICATION.

02. Facility Design. (3-30-07)

k. Day tanks are subject to the requirements in Subsections 531.02.k.i. through 531.02.k.iv. For the purposes of Section 531, day tanks are defined as liquid chemical tanks holding no more than a thirty (30) hour chemical supply.

531.02.k.iii.

iii. Where feasible, secondary containment shall be provided so that chemicals from equipment failure, spillage, or accidental drainage of day tanks shall be fully contained. A common receiving basin may be provided for each group of compatible chemicals. The common receiving basin shall provide a secondary containment volume sufficient to hold the volume of the largest storage tank. If secondary containment is not feasible, day tanks shall be located and protective curblings provided so that chemicals from equipment failure, spillage, or accidental drainage of day tanks shall not enter the water in conduits, treatment, or storage basins. Secondary containment is not required for a day tank if an Idaho licensed professional engineer demonstrates to the Department that the chemical concentration and volume, if spilled, will not be a safety hazard to employees, will not be hazardous to the public health, and will not harm the environment.

Subsections 542.15, 542.15.a., and 542.15.b.

542. FACILITY AND DESIGN STANDARDS - DISTRIBUTION SYSTEM.

542.15

15. Air Valves. At high points in water mains where air can accumulate, provisions shall be made to remove the air by means of air release and vacuum relief valves or combination air release/vacuum relief valves. Air release valves, vacuum relief valves, or combination air release/vacuum relief valves may not be required if vacuum relief and air release functions in the pipeline can be adequately handled by approved appurtenances such as fire hydrants.

a. The open end of an air valve shall be extended to at least one (1) foot above grade and provided with a screened, downward-facing elbow. When the air vent on an air relief valve cannot be practically installed above ground, the vent may be below grade provided that the valve is manually operated and the air vent is extended to the top of the valve vault and provided with a screened, downward-facing elbow. In addition, for below ground
vents, the valve vault must be rated for appropriate traffic loading in traffic areas and the vault drained to daylight or provided with adequate drainage to prevent flooding of the vault.

b. Discharge piping from air relief valves or combination air release/vacuum relief valves shall not connect directly to any storm drain, storm sewer, or sanitary sewer.

Subsections 544.02.e., 544.07.a. through 544.07.c., and 544.08.d.

544. FACILITY AND DESIGN STANDARDS: GENERAL DESIGN OF FINISHED WATER STORAGE.
The materials and designs used for finished water storage structures shall provide stability and durability as well as protect the quality of the stored water. Finished water storage structures shall be designed to maintain water circulation and prevent water stagnation. Steel structures and facilities such as steel tanks, standpipes, reservoirs, and elevated tanks shall be designed and constructed in accordance with applicable AWWA Standards, incorporated by reference into these rules at Subsection 002.01. Other materials of construction are acceptable when properly designed to meet the requirements of Section 544.

02. Location. Storage facilities shall be located in a manner that protects against contamination, ensures structural stability, and protects against flooding, and provides year-round access by vehicles and equipment needed for repair and maintenance.

544.02.e.

e. Ground-level or above-ground storage structures or facilities shall be located a minimum of twenty (20) feet from the nearest property line and a minimum of twenty (20) feet from any potential source of contamination.

544.07

a. The following access requirements apply to elevated above-ground and ground-level storage structures:

i. At least one (1) of the Each access manholes shall be framed at least a minimum of four (4) inches above the surface of the roof at the opening. The manholes shall be fitted with a solid water tight cover which overlaps the framed opening and extends down around the frame at least two (2) inches, shall be hinged on one side, and shall have a locking device. The actual height above the surface of the roof must be sufficient to prevent incidental contamination from snow accumulation, storm water runoff or accumulation, irrigation water, or other potential sources of contamination.

ii. All other manholes or access ways shall be bolted and gasketed according to the requirements of the reviewing authority, or shall meet the requirements of the Subsection 544.07.a.

b. The following access requirements apply to groundlevel, partially buried or below-ground storage structures:

i. Each access manhole shall be elevated a minimum of twenty-four (24) inches above the surface of the roof or the ground level, whichever is higher. The actual height above the surface of the roof or the ground level must be sufficient to prevent incidental contamination from snow accumulation, storm water runoff or accumulation, irrigation water, or other potential sources of contamination.

ii. Each manhole shall be elevated at least twenty-four (24) inches above the top of the tank or covering sod, whichever is higher.
Each manhole shall be fitted with a solid water tight cover which overlaps a framed opening and extends down around the frame at least two (2) inches. The frame shall be at least four (4) inches high. Each cover shall be hinged on one side, and shall have a locking device.

(3-30-07)

(3-30-07)

d. On ground-level, partially buried, or below-ground structures, open downward with the opening at least twenty-four (24) inches above the roof or see the ground level and covered with twenty-four (24) mesh non-corrodible screen. The screen shall be installed within the pipe at a location least susceptible to vandalism.

(3-30-07)(____)

Subsections 552.01.a. and 552.01.a.i.

EFFECTIVE DATE: This rule has been adopted by the Board of Environmental Quality (Board) and is now pending review by the 2009 Idaho State Legislature for final approval. The pending rule will become final and effective immediately upon the adjournment sine die of the First Regular Session of the Sixtieth Idaho Legislature unless prior to that date the rule is rejected by concurrent resolution in accordance with Idaho Code Sections 67-5224 and 67-5291.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that the Board has adopted a pending rule. This action is authorized by Chapter 1, Title 39, Idaho Code, and Chapter 21, Title 37, Idaho Code.

DESCRIPTIVE SUMMARY: A detailed summary of the reason for adopting the rule is set forth in the initial proposal published in the Idaho Administrative Bulletin, August 6, 2008, Vol. 08-8, pages 275 through 285. After consideration of public comments, the rule has been adopted as initially proposed. The Rulemaking and Public Comment Summary can be obtained at http://www.deq.idaho.gov/rules/drinking_water/58_0108_0802_pending.cfm or by contacting the undersigned.

IDAHO CODE SECTION 39-107D STATEMENT: This rule does not regulate an activity not regulated by the federal government, nor is it broader in scope or more stringent than federal regulations.

FISCAL IMPACT STATEMENT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rule does not impact the state general fund because the drinking water program is funded by EPA grants and by dedicated fees paid by regulated water systems. The agency intends to address the impact of the increased workload required by this rule through redirection of existing staff, use of existing vacant positions, and/or through contracting. Together these strategies will add the equivalent of 1.4 full time persons to the drinking water program in approximately four years. DEQ is not requesting an increase in personnel as a result of adopting this rule.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on questions concerning this rulemaking, contact Tom John at thomas.john@deq.idaho.gov, (208)373-0191.

DOCKET NO. 58-0108-0802- ADOPTION OF PENDING RULE

No substantive changes have been made to the pending rule.

The complete text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 08-8, August 6, 2008, pages 275 through 285.

This rule has been adopted as a pending rule by the Agency and is now awaiting review and approval by the 2009 Idaho State Legislature for final adoption.
EFFECTIVE DATE: This rule has been adopted by the Board of Environmental Quality (Board) and is now pending review by the 2009 Idaho State Legislature for final approval. The pending rule will become final and effective on July 1, 2009 if the rule is approved by concurrent resolution in accordance with Sections 67-5224 and 67-5291, Idaho Code.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that the Board has adopted a pending rule. This action is authorized by Sections 39-105, 39-107, 39-120, and 39-126, Idaho Code.

DESCRIPTIVE SUMMARY: A detailed summary of the reason for adopting the rule is set forth in the initial proposal published in the Idaho Administrative Bulletin, August 6, 2008, Vol. 08-8, pages 286 through 294. After consideration of public comments, the rule has been revised at Sections 007 and 401. The remainder of the rule has been adopted as proposed. The Rulemaking and Public Comment Summary can be obtained at http://www.deq.idaho.gov/rules/groundwater/58_0111_0801_pending.cfm or by contacting the undersigned.

FEE SUMMARY: This rule includes a requirement that applicants submit a $2500 fee at the time the application is submitted to DEQ (Subsection 401.02.a.). Imposition of the fee is authorized by Section 39-119, Idaho Code.

IDAHO CODE SECTION 39-107D STATEMENT: Section 39-107D, Idaho Code, provides that DEQ must meet certain requirements when it formulates and recommends rules which are broader in scope or more stringent than federal law or regulations. There is no federal law or regulation that is comparable to the Ground Water Quality Rule. Therefore, the changes to the rule are not broader in scope or more stringent than federal law or regulations.

Section 39-107D, Idaho Code, also applies to a rule which “proposes to regulate an activity not regulated by the federal government.” This rule amends portions of the Ground Water Quality Rule that address mining activities. Mining activities are regulated by the federal government. The federal government, however, does not have a regulatory program that specifically sets standards to protect ground water quality and beneficial uses of ground water as the Ground Water Quality Rule does. For this reason, DEQ believes Section 39-107D is applicable and that the amendments to the rule describe aspects of mining activities not regulated by the federal government.

The following is a summary of additional information required by Sections 39-107D(3) and (4), Idaho Code. Information relating to Section 39-107D(2) has also been provided.

Section 39-107D(2)(a), Idaho Code. To the degree that a department action is based on science, the department shall utilize the best available peer reviewed science and supporting studies conducted in accordance with sound objective scientific practices.

The rule changes were initiated for clarification purposes rather than for reasons based on new scientific information. By clarifying the language in the Ground Water Quality Rule, DEQ is facilitating more efficient implementation of the Ground Water Quality Plan and the Ground Water Quality Rule thereby reducing the economic burden on the regulated community. Improved rules also allow the public to better understand the requirements imposed on the regulated community to protect human health and the environment. Thus, the changes to the rule describe an administrative process to determine the application of the Ground Water Quality Rule to mining activities. The administrative process requires the application of sound science and identifies the scientific factors that must be considered and analyzed by mining companies and DEQ when making decisions. DEQ has relied upon its experience, the experience of federal agencies, and input from mining companies and environmental organizations in drafting the changes to the rule.

Section 39-107D(2)(b), Idaho Code. To the degree that a department action is based on science, the department shall utilize data collected by accepted methods or best available methods if the reliability of the method and the nature of the decision justifies use of the data.

This provision is not applicable because the rule changes are based on clarifying existing rule language. Please see explanation above.
Section 39-107D(3), Idaho Code. Any proposed rule subject to this section which proposes a standard necessary to protect human health and the environment shall also include in the rulemaking record requirements under chapter 52, title 67, Idaho Code, the following additional information:

(a) Identification of each population or receptor addressed by an estimate of public health effects or environmental effects;
(b) Identification of the expected risk or central estimate of risk for the specific population or receptor;
(c) Identification of each appropriate upper bound or lower bound estimate of risk;
(d) Identification of each significant uncertainty identified in the process of the assessment of public health effects or environmental effects and any studies that would assist in resolving the uncertainty; and
(e) Identification of studies known to the department that support, are directly relevant to, or fail to support any estimate of public health effects or environmental effects and the methodology used to reconcile inconsistencies in the data.

The changes to the rule set up an administrative process for DEQ to work with the mine operator and other interested persons to determine, on a site-specific basis, the application of the standards in the Ground Water Quality Rule in order to protect human health and the environment. This administrative process is not itself based upon any analysis of risk to specific populations or receptors, but rather sets out a process by which the risk to human health and the environment will be evaluated by DEQ as it reviews a specific mining site. Therefore, DEQ has no additional information relevant to this rulemaking pursuant to Section 39-107D(3).

FISCAL IMPACT STATEMENT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: Not applicable.

DOCKET NO. 58-0111-0801 - ADOPTION OF PENDING FEE RULE

Substantive changes have been made to the pending rule.
Italicized text is new text that has been added to the pending rule.

Only those sections or subsections that have changed from the original proposed text are printed in this Bulletin following this notice.

The text of the proposed rule was published in the Idaho Administrative Bulletin, Volume 08-8, August 6, 2008, pages 286 through 294.

This rule has been adopted as a pending rule by the Agency and is now awaiting review and approval by the 2009 Idaho State Legislature for final adoption.
THE FOLLOWING IS THE AMENDED TEXT OF DOCKET NO. 58-0111-0801

Subsections 007.21 and 007.22

007. DEFINITIONS.

21. Mining Activity. Recovery of a mineral from mineral-bearing deposits, which includes reclamation, extraction, excavation, overburden placement, disposal of tailings resulting from processing, and disposal of mineral extraction wastes, including tailings that are the result of extraction, waste rock, and other extraction wastes uniquely associated with mining.

22. Mining Area. The area on or within which one (1) or more mining activities occur. The Department shall determine the boundaries of the mining area as provided in Section 401. Distinct mining activities may constitute separate mining areas.

Subsections 401.03, 401.04, and 401.05

401. MINING.

03. Setting the Point(s) of Compliance. The point(s) of compliance shall be set as close as possible to the boundary of the mining area, taking into consideration the relevant factors set forth in Subsections 401.03.a. through 401.03.h., but in no event shall the point(s) of compliance be within the boundary of the mining area. The mining area boundary means the outermost perimeter of the mining area (projected in the horizontal plane) as it would exist at the completion of the mining activity. The point(s) of compliance shall be set so that, outside the mining area boundary, there is no injury to current or projected future beneficial uses of ground water and there is no violation of water quality standards applicable to any interconnected surface waters. The Department’s determination regarding the point(s) of compliance shall be based on an analysis and consideration of all relevant factors including, but not limited to:

04. Ground Water Monitoring and Reporting. The Department shall require ground water monitoring and reporting whenever the Department sets the point(s) of compliance. The Department shall not require ground water monitoring that duplicates ground water monitoring required by other state or federal agencies as long as the mine operator provides the data to the Department.

05. Coordination with Other State or Federal Agencies/Public Notice. Before setting the point(s) of compliance or requiring ground water monitoring, the Department shall coordinate with and seek recommendations from other state or federal agencies that have regulatory authority over the mining activities. The Department may provide public notice and an opportunity for public comment prior to setting or changing the point(s) of compliance. The Department shall issue a public notice after it sets the point(s) of compliance.
EFFECTIVE DATE: This rule has been adopted by the Board of Environmental Quality (Board) and is now pending review by the 2009 Idaho State Legislature for final approval. The pending rule will become final and effective immediately upon the adjournment sine die of the First Regular Session of the Sixtieth Idaho Legislature unless prior to that date the rule is rejected by concurrent resolution in accordance with Sections 67-5224 and 67-5291, Idaho Code.

AUTHORITY: In compliance with Section 67-5224, Idaho Code, notice is hereby given that the Board has adopted a pending rule. This action is authorized by Chapters 1 and 36, Title 39, Idaho Code.

DESCRIPTIVE SUMMARY: A detailed summary of the reason for adopting the rule is set forth in the initial proposal published in the Idaho Administrative Bulletin, August 6, 2008, Vol. 08-8, pages 295 through 346. DEQ received no public comments; however, the definition of “reasonably accessible” has been revised for clarification purposes (Subsection 010.68). The remainder of the rule has been adopted as proposed. The Rulemaking and Public Comment Summary can be obtained at http://www.deq.idaho.gov/rules/wastewater/58_0116_0801_pending.cfm or by contacting the undersigned.

IDAHO CODE SECTION 39-107D STATEMENT: Section 39-107D, Idaho Code, provides that DEQ must meet certain requirements when it formulates and recommends rules which are broader in scope or more stringent than federal law or regulations, or which propose to regulate an activity not regulated by the federal government. There is no federal law or regulation that is comparable to plan and specification review and facility standard provisions set forth in the Wastewater Rules. Therefore, the changes to the rules are not broader in scope or more stringent than federal law or regulations.

Section 39-107D, Idaho Code, also applies to a rule which “proposes to regulate an activity not regulated by the federal government.” The Wastewater Rules address the review and approval of plans and specifications for sewage treatment plants and other waste treatment and disposal facilities and the standard by which the agency does the review and approval. This is not an activity regulated by the federal government. Therefore, Section 39-107D, Idaho Code, applies.

Section 39-107D(3), Idaho Code, provides that any rule subject to 39-107D that proposes a standard necessary to protect human health and the environment must also include in the rulemaking record and in the notice of rulemaking additional information. This additional information includes any estimates of risk accomplished, identification of populations or receptors addressed by any estimates, and other information related to an estimation of risk. The Wastewater Rules include facility and design standards which are intended to protect human health and the environment. The standards, however, are for the design and construction of wastewater systems. The rules are not based upon any express estimate or analysis of risk to public health or the environment. Instead, the facility and design standards are based upon guidelines set forth in documents, such as the “Recommended Standards for Wastewater Facilities”, that are generally accepted and used throughout the United States by engineers and state regulators.

FISCAL IMPACT STATEMENT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: Not applicable.

THE FOLLOWING IS THE AMENDED TEXT OF DOCKET NO. 58-0116-0801

Subsection 010.68

010. DEFINITIONS.

For the purpose of the rules contained in IDAPA 58.01.16, “Wastewater Rules,” the following definitions apply:

(4-11-06)

68. **Reasonably Accessible.** The following criteria shall be used to determine whether a project proposing a new private municipal wastewater treatment plant, or a *material modification or expansion* of an existing private municipal wastewater treatment plant, is reasonably accessible to a public municipal wastewater collection system.

(____)
AUTHORITY: In compliance with Section 67-5220, Idaho Code, and IDAPA 58.01.23, Rules of Administrative Procedure Before the Board of Environmental Quality, Sections 810 through 815, notice is hereby given that this agency intends to promulgate a rule and desires public participation before publishing a proposed rule. This rulemaking action is authorized by Chapters 1 and 36, Title 39, Idaho Code.

METHOD OF PARTICIPATION: Those interested in participating in the negotiated rulemaking process are encouraged to attend the following meeting. For those who cannot participate by attending the meeting, information for submitting written comments is provided at the end of this notice.

MEETING SCHEDULE: The negotiated rulemaking meeting will be held as follows. Additional meetings may be scheduled if necessary. For information regarding participation by telephone or scheduling of additional meetings, contact the undersigned. Requests to participate by telephone must be made by December 12, 2008.

PRELIMINARY DRAFT: By December 3, 2008, a preliminary draft of the rule can be obtained at http://www.deq.idaho.gov/rules/wastewater/58_0116_0802_negotiated.cfm or by contacting Paula Wilson at paula.wilson@deq.idaho.gov, (208)373-0418.

DESCRIPTIVE SUMMARY: The Department of Environmental Quality (DEQ) has initiated this rulemaking to allow for the creation of a combined very small wastewater treatment and collection system license for communities with 500 connections or less. Operators struggle with obtaining the various licenses currently required for the different aspects of very small facility operation. This difficulty in obtaining more than one license results in there being too few properly licensed operators. This lack of properly licensed operators places the facilities in danger of being out of compliance with the rules that require they use the services of properly licensed operators. Smaller systems, due to their relative simplicity of operation, are good candidates for operation by individuals with combined licenses.

DEQ has received approval from the Governor’s office for temporary adoption of the rule in order to confer the following benefits to the citizens of the state of Idaho:

1. The rule allows for the creation of a combined very small wastewater treatment and collection system license, thereby immediately reducing the licensure fee from $90 a year to $45 annually for small public wastewater systems.
2. It is expensive for small public wastewater systems to achieve compliance with the current wastewater licensure requirement. Adoption of a temporary rule will allow numerous small public wastewater systems the ability to quickly come into compliance by gathering and expending fewer funds.
3. The rule will reduce the number of noncompliant systems by making compliance with the licensure requirement less burdensome. DEQ and the Idaho Bureau of Occupational Licenses (IBOL) will achieve greater administrative efficiencies and expend fewer funds enforcing the requirement.
4. IBOL must, subsequent to this rule, promulgate a complementary rule in order to fully effectuate the benefit of a reduced licensure fee on small public wastewater system owners. Adoption of a temporary rule will allow for IBOL to act quickly to ensure the benefit is timely conferred.
The text of the rule will be drafted by DEQ in conjunction with a negotiating committee made up of persons having an interest in the development of this rule. Cities, water and sewer districts, homeowner associations, private wastewater contractors, operators, the Association of Idaho Cities, the Idaho Rural Water Association, and the Pacific Northwest Clean Water Association - Idaho Sections (North Idaho, Southeast and Southwest Idaho Operator Sections) may be interested in participating in this rulemaking.

Upon conclusion of negotiations, DEQ intends to present a rule to the Board of Environmental Quality for temporary adoption at its February 2009 meeting. If adopted by the Board, DEQ will then publish the temporary rule and initiate proposed rulemaking.

ASSISTANCE ON TECHNICAL QUESTIONS AND SUBMISSION OF WRITTEN COMMENTS: For assistance on questions concerning this rulemaking, contact Ester Ceja at ester.ceja@deq.idaho.gov, (208)373-0585.

For those who cannot participate by attending the scheduled meeting, written comments may be submitted by mail, fax or e-mail at the address below. Written comments on the preliminary draft rule must be received by December 24, 2008. DESCRIPTIVE SUMMARY: A detailed summary of the reason for adopting the rule is set forth in the initial proposal published in the Idaho Administrative Bulletin, August 6, 2008, Vol. 08-8, pages 347 through 362. After consideration of public comments, the rule has been revised at Sections 400 and 600. The remainder of the rule has been adopted as proposed. IDAHO CODE SECTION 39-107D STATEMENT: Section 39-107D, Idaho Code, provides that DEQ must meet certain requirements when it formulates and recommends rules which are broader in scope or more stringent than federal law or regulations. There is no federal law or regulation that is comparable to the Standards and Procedures for Application of Risk Based Corrective Action at Petroleum Release Sites. Therefore, this rule is not broader in scope or more stringent than federal law or regulations.

Section 39-107D, Idaho Code, also applies to a rule which “proposes to regulate an activity not regulated by the federal government.” This rule does not propose to regulate an activity not regulated by the federal government. However, the rule does delineate a process that is not specifically delineated or required by the federal government. The following is a summary of additional information specified in Sections 39-107D(3) and (4), Idaho Code.

Section 39-107D(3)(a), Idaho Code. Identification of each population or receptor addressed by an estimate of public health effects or environmental effects.

This rule delineates a process to evaluate the human health risks resulting from exposure to chemicals associated with petroleum releases. It is not known prior to the release of petroleum at a specific site which potential populations or receptors may be exposed. During the initial conservative screening portion of the process, it is assumed that the target populations at risk are residential receptors and sensitive subpopulations such as children in day care facilities and schools, elderly residents of nursing homes and individuals with compromised health at hospitals. In subsequent steps in the risk evaluation process described in the rule, site-specific determination of current and likely potential future receptors can be made. For example, other types of receptors may include but are not limited to commercial/industrial and construction workers.

Section 39-107D(3)(b) and (c), Idaho Code. Identification of the expected risk or central estimate of risk for the specific population or receptor and identification of each appropriate upper bound or lower bound estimate of risk.

This rule describes a procedure for risk evaluation at petroleum release sites and requirements, both general and specific, for the site-specific estimation of risk. In the initial step of the risk evaluation process described by this rule, a screening level approach is utilized. The screening levels are compared to site media-specific petroleum chemical concentrations to determine the need for further evaluation or corrective action.

The screening levels were calculated using target cancer and non-cancer health risks in combination with specific parameter values for each of the variables in the equations used to calculate acceptable concentrations. For some factors central estimate values were used while for other factors an upper bound estimate was selected. The screening levels can be characterized as representing upper bound estimates of risk for residential receptors for the routes of exposure evaluated.
The more detailed risk evaluation process described in the rule allows the incorporation of site-specific data and assumptions, such as the likely future land use and receptors, into the risk calculation. The requirements for site-specific risk evaluation described in this rule specify 1) the acceptable cumulative risk and hazard that should apply at all sites and 2) that calculated risks should represent a reasonable maximum exposure scenario.

Section 39-107D(3)(d), Idaho Code. Identification of each significant uncertainty identified in the process of the assessment of public health effects or environmental effects and any studies that would assist in resolving the uncertainty.

There are a number of uncertainties in the risk evaluation process described in the rule. These include uncertainty in the estimation of exposure for specific receptors or populations, as well as uncertainty in the magnitude of effects associated with a specific dose of a chemical. The estimation of exposure is based on both environmental transport pathways from a petroleum release to a receptor, as well as on physiological and behavioral characteristics of the receptor.

Examples of physiological characteristics include body weight and breathing rate. Behavioral characteristics include such things as how much time a receptor spends outdoors each day, and how long a receptor lives at one location. Within a population there is variability in physiological and behavioral characteristics; uncertainty results from lack of knowledge of the characteristics of current or future individuals who may be exposed to chemicals from a petroleum release. In the initial screening step of the risk evaluation process described in the rule, this uncertainty is addressed by utilizing values for these parameters from databases that are universally accepted in standard risk assessment practice. Many of the values selected for the screening step are upper-bound values from distributions in the databases, as the goal in this initial evaluation is to evaluate risk to residential and sensitive populations. In subsequent steps of the risk evaluation process, it is sometimes possible to collect site-specific data that can reduce uncertainty for a specific population. For example, there might be information available that allows a more accurate estimation of exposure frequency or duration, thereby reducing uncertainty for this population.

Uncertainty in environmental transport, such as the leaching of chemicals in soil to ground water, is related to the physical and chemical properties of the chemicals present in a petroleum release, as well as physical characteristics of the setting, such as depth to ground water. Parameter values from the scientific literature and accepted databases are utilized to assess environmental transport for the initial screening step of the process described in the rule. In the subsequent site-specific risk evaluation, collection of site-specific data is a powerful tool to reduce uncertainty, resulting in a better understanding of risks at the site.

Uncertainty in dose-response assessment is addressed by use of the best available toxicological data from databases which are universally recognized and accepted as part of standard risk assessment practice.

Section 39-107D(3)(e), Idaho Code. Identification of studies known to the department that support, are directly relevant to, or fail to support any estimate of public health effects or environmental effects and the methodology used to reconcile inconsistencies in the data.

The referenced studies and analyses will be included in the rulemaking record and can be reviewed during the public comment period for further detailed information regarding health effects.
