Preface

The Idaho Administrative Bulletin is an electronic-only, online monthly publication of the Office of the Administrative Rules Coordinator, Department of Administration, that is published pursuant to Section 67-5203, Idaho Code. The Bulletin is a compilation of all official rulemaking notices, official rule text, executive orders of the Governor, and all legislative documents affecting rules that are statutorily required to be published in the Bulletin. It may also include other rules-related documents an agency may want to make public through the Bulletin.

State agencies are required to provide public notice of all rulemaking actions and must invite public input. This is done through negotiated rulemaking procedures or after proposed rulemaking has been initiated. The public receives notice that an agency has initiated proposed rulemaking procedures through the Idaho Administrative Bulletin and a legal notice (Public Notice of Intent) that publishes in authorized newspapers throughout the state. The legal notice provides reasonable opportunity for the public to participate when a proposed rule publishes in the Bulletin. Interested parties may submit written comments to the agency or request public hearings of the agency, if none have been scheduled. Such submissions or requests must be presented to the agency within the time and manner specified in the individual “Notice of Rulemaking - Proposed Rule” for each proposed rule that is published in the Bulletin.

Once the comment period closes, the agency considers fully all comments and information submitted regarding the proposed rule. Changes may be made to the proposed rule at this stage of the rulemaking, but changes must be based on comments received and must be a “logical outgrowth” of the proposed rule. The agency may now adopt and publish the pending rule. A pending rule is “pending” legislative review for final approval. The pending rule is the agency’s final version of the rulemaking that will be forwarded to the legislature for review and final approval. Comment periods and public hearings are not provided for when the agency adopts a temporary or pending rule.

**CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN**

The Bulletin is identified by the calendar year and issue number. For example, Bulletin 13-1 refers to the first Bulletin issued in calendar year 2013; Bulletin 14-1 refers to the first Bulletin issued in calendar year 2014. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 13-1 refers to January 2013; Volume No. 13-2 refers to February 2013; and so forth. Example: The Bulletin published in January 2014 is cited as Volume 14-1. The June 2015 Bulletin is cited as Volume 15-5.

**RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE**

The Idaho Administrative Code is an electronic-only, online compilation of all final and enforceable administrative rules of the state of Idaho that are of full force and effect. Any temporary rule that is adopted by an agency and is of force and effect is codified into the Administrative Code upon becoming effective. All pending rules that have been approved by the legislature during the legislative session as final rules and any temporary rules that are extended supplement the Administrative Code. These rules are codified into the Administrative Code upon becoming effective. Because proposed and pending rules are not enforceable, they are published in the Administrative Bulletin only and cannot be codified into the Administrative Code until approved as final.

To determine if a particular rule remains in effect or whether any amendments have been made to the rule, refer to the Cumulative Rulemaking Index. Link to it on the Administrative Rules homepage at adminrules.idaho.gov.

**THE DIFFERENT RULES PUBLISHED IN THE ADMINISTRATIVE BULLETIN**

Idaho’s administrative rulemaking process, governed by the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, comprises distinct rulemaking actions: negotiated, proposed, temporary, pending and final rulemaking. Not all rulemakings incorporate or require all of these actions. At a minimum, a rulemaking includes proposed, pending and final rulemaking. Many rules are adopted as temporary rules when they meet the required statutory criteria and agencies must, when feasible, engage in negotiated rulemaking at the beginning of the process to facilitate consensus building. In the majority of cases, the process begins with proposed rulemaking and ends with the final rulemaking. The following is a brief explanation of each type of rule.

**NEGOTIATED RULEMAKING**

Negotiated rulemaking is a process in which all interested persons and the agency seek consensus on the content of a rule through dialogue. Agencies are required to conduct negotiated rulemaking whenever it is feasible to do so.
The agency files a “Notice of Intent to Promulgate - Negotiated Rulemaking” for publication in the Administrative Bulletin inviting interested persons to contact the agency if interested in discussing the agency’s intentions regarding the rule changes. This process is intended to result in the formulation of a proposed rule and the initiation of regular rulemaking procedures. One result, however, may also be that regular (proposed) rulemaking is not initiated and no further action is taken by the agency.

**PROPOSED RULEMAKING**

A proposed rulemaking is an action by an agency wherein the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a “Notice of Rulemaking - Proposed Rule” in the Bulletin. This notice must include:

a) the specific statutory authority (from Idaho Code) for the rulemaking including a citation to a specific federal statute or regulation if that is the basis of authority for or is occasioning the rulemaking;

b) a statement in nontechnical language of the substance of the proposed rule, including a specific description of any fee or charge imposed or increased;

c) a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year when the pending rule will become effective; provided, however, that notwithstanding Section 67-5231, Idaho Code, the absence or accuracy of a fiscal impact statement provided pursuant to this subsection shall not affect the validity or enforceability of the rule.

d) if any document is incorporated by reference in the proposed rule, a brief written synopsis of why the incorporation is needed must be included in the notice of proposed rulemaking, along with a link to the electronic version of the incorporated material or information on how it can be obtained.

e) the text of the proposed rule prepared in legislative format;

f) the location, date, and time of any public hearings the agency intends to hold on the proposed rule;

g) the manner in which persons may make written comments on the proposed rule, including the name and address of a person in the agency to whom comments on the proposal may be sent;

h) the manner in which persons may request an opportunity for an oral presentation as provided in Section 67-5222, Idaho Code; and

i) the deadline for public (written) comments on the proposed rule.

Any proposed rulemaking that is submitted for publication in the Bulletin that would impose a fee or charge must be accompanied by a cost/benefit analysis that is prepared by the agency. This cost/benefit analysis must estimate, as reasonably as possible, the costs to the agency to implement the rule and the estimated costs that would be borne by citizens or the private sector. This analysis is filed with the Director of Legislative Services Office who then forwards it to the appropriate germane joint subcommittee assigned to review the promulgating agency’s proposed rules.

When incorporating by reference, the notice of proposed rulemaking must include a brief synopsis detailing the need to incorporate by reference any additional materials into the rule. The agency must also provide information regarding access to the incorporated materials. At a minimum, and when available, the agency must provide an electronic link to the documents that can accessed on a web site or post this information on its own web site, or both. This link can be placed into the rule and activated once it is posted on the Coordinator’s web site.

As stated, the text of the proposed rule must be published in the Bulletin. After meeting the statutory rulemaking criteria for a proposed rule, the agency may adopt the pending rule. Because a proposed rule is not enforceable, it has no effective date, even when published in conjunction with a temporary rule that is of full force and effect. An agency may vacate (terminate) a rulemaking after the publication of a proposed rule if it decides, for whatever reason, not to proceed further to finalize the rulemaking. The publication of a “Notice of Vacation of Proposed Rulemaking” in the Bulletin officially stops the formal rulemaking process.
TEMPORARY RULEMAKING

Temporary rules may be adopted only when the governor finds that it is necessary for:

a) protection of the public health, safety, or welfare; or
b) compliance with deadlines in amendments to governing law or federal programs; or
c) conferring a benefit.

If a rulemaking meets one or more of the above legal criteria and the governor determines that it is necessary that a rule become effective prior to receiving legislative authorization and without allowing for any public input, the agency may proceed and adopt a temporary rule. The law allows an agency to make a temporary rule immediately effective upon adoption. However, a temporary rule that imposes a fee or charge may be adopted only if the governor finds that the fee or charge is necessary to avoid immediate danger which justifies the imposition of the fee or charge.

A temporary rule expires at the conclusion of the next succeeding regular legislative session unless the rule is extended by concurrent resolution, is replaced by a final rule, or expires under its own terms.

The statute that regulates rulemaking in Idaho requires that the text of all proposed rulemakings publish in the Bulletin in order for the rulemaking to be valid. This is true for all temporary rules as well. In most cases, the agency wants the temporary rule to also become a final rule and in most of these cases, the temporary rule and the proposed rule text is identical. In this event, both rulemakings may be promulgated concurrently, however, they remain separate rulemaking actions. The rulemaking is published in the Bulletin as a temporary/proposed rule. Combining the rulemaking allows for a single publication of the text in the Bulletin.

An agency may, at any time, rescind a temporary rule that has been adopted and is in effect. The agency must publish a notice of rescission to effectively rescind the temporary rule. If the temporary rule is being replaced by a new temporary rule or if it has been published concurrently with a proposed rule that is being vacated, the agency, in most instances, will rescind the temporary rule.

PENDING RULEMAKING

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it becomes a final, enforceable rule.

When a pending rule is published in the Bulletin, the agency is required to include certain information in the “Notice of Rulemaking - Pending Rule.” This includes:

a) a statement giving the reasons for adopting the rule;
b) a statement of any change between the text of the proposed rule and the pending rule with an explanation of the reasons for any changes;
c) the date the pending rule will become final and effective and a statement that the pending rule may be rejected, amended or modified by concurrent resolution of the legislature;
d) an identification of any portion of the rule imposing or increasing a fee or charge and a statement that this portion of the rule shall not become final and effective unless affirmatively approved by concurrent resolution of the legislature;
e) the specific statutory authority for the rulemaking including a citation to the specific section of the Idaho Code that has occasioned the rulemaking, or the federal statute or regulation if that is the basis of authority or requirement for the rulemaking; and
f) a specific description, if applicable, of any negative fiscal impact on the state general fund greater
than ten thousand dollars ($10,000) during the fiscal year when the pending rule will become effective; provided however, that notwithstanding section 67-5231, Idaho Code, the absence or accuracy of a fiscal impact statement provided pursuant to this subsection shall not affect the validity or the enforceability of the rule.

Agencies are required to republish the text of the pending rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule change is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule. With the permission of the Rules Coordinator, only the sections or their subparts that have changed from the proposed text are republished. If no changes have been made to the previously published text, it is not required to republish the text again and only the “Notice of Rulemaking - Adoption of Pending Rule” is published.

**FINAL RULEMAKING**

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is of full force and effect.

No pending rule adopted by an agency becomes final and effective until it has been submitted to the legislature for review and approval. Where the legislature finds that an agency has violated the legislative intent of the authorizing statute, a concurrent resolution may be adopted to reject the rulemaking in whole or in part. A “Notice of Rulemaking - Final Rule” and the final codified text must be published in the Bulletin for any rule that is partially rejected by concurrent resolution of the legislature. Unless rejected by concurrent resolution, a pending rule that is reviewed by the legislature becomes final and effective at the end of the session in which it is reviewed without any further legislative action. All pending rules that are approved by concurrent resolution become final and effective upon adoption of the concurrent resolution unless otherwise stated. In no event can a pending rule become final and effective before the conclusion of the regular or special legislative session at which the rule was submitted for review. However, a rule that is final and effective may be applied retroactively, as provided in the rule.

HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering schematic. Each state agency has a two-digit identification code number known as the “IDAPA” number. (The “IDAPA” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit “TITLE” number is assigned. There are “CHAPTER” numbers assigned within the Title and the rule text is divided among major sections that are further subdivided into subsections. An example IDAPA number is as follows:

**IDAPA 38.05.01.200.02.c.ii.**

“IDAPA” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

“38.” refers to the Idaho Department of Administration

“05.” refers to Title 05, which is the Department of Administrations’s Division of Purchasing

“01.” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”

“200.” refers to Major Section 200, “Content of the Invitation to Bid”

“02.” refers to Subsection 200.02.

“c.” refers to Subsection 200.02.c.

“ii.” refers to Subsection 200.02.c.ii.

DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. Each rulemaking that is filed with the Coordinator is assigned a “DOCKET NUMBER.” The docket number is a series of numbers separated by a hyphen “-.” (38-0501-1401). Rulemaking dockets are published sequentially by IDAPA number (the two-digit agency code) in the Bulletin. The following example is a breakdown of a typical rule docket number:

**“DOCKET NO. 38-0501-1401”**

“38-” denotes the agency's IDAPA number; in this case the Department of Administration.

“0501-” refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), Rules of the Division of Purchasing (Chapter 01).

“1401” denotes the year and sequential order of the docket being published; in this case the numbers refer to the first rulemaking action published in calendar year 2014. A subsequent rulemaking on this same rule chapter in calendar year 2014 would be designated as “1402”. The docket number in this scenario would be 38-0501-1402.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

NOTICE OF RULEMAKING - ADOPTION OF TEMPORARY FEE RULE

EFFECTIVE DATE: The effective date of the temporary rule is May 1, 2015.

AUTHORITY: In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 39-8605 and 39-8616, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

Pursuant to Section 39-8616, Idaho Code, the Division has authority to charge certain fees related to the initial installation inspection and annual certification of elevators. In accordance with the statute, the fees established therein represent the maximum amounts the Division may charge, but may be reduced in duly promulgated administrative rules. This rulemaking decreases the initial elevator installation, alteration or modernization certification fee for platform lift/material lift/dumbwaiters. It also reduces the annual certificate to operate fees for traction and roped hydraulic elevators, the fee for moving walk/escalators, the fee for hydraulic elevators, and the fee for platform lift/material lift/dumbwaiters.

TEMPORARY RULE JUSTIFICATION: Pursuant to Section 67-5226(1)(c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

The fund balance for the elevator safety fund currently exceeds the anticipated annual expenditures for the program; as such, the agency wishes to reduce the surplus by cutting fees. The temporary rule allows for annual review and adjustment of the fees.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fee or charge being imposed or increased is justified and necessary to avoid immediate danger and the fee is described herein:

This rulemaking decreases the initial elevator installation, alteration or modernization certification fee for platform lift/material lift/dumbwaiters from $750 to $375. It also reduces the annual certificate to operate fees for traction and roped hydraulic elevators from $225 to $175, the fee for moving walk/escalators from $225 to $175, the fee for hydraulic elevators from $125 to $100, and the fee for platform lift/material lift/dumbwaiters from $100 to $50.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the temporary rule, contact Steve Keys, Deputy Administrator - Operations, at (208) 332-8986.

EFFECTIVE DATE: The effective date of the temporary rule is April 16, 2015.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 33-101, 33-116, 33-118, and 33-1612, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than June 17, 2015.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Amendments to IDAPA 08.02.03.105, subsection 05 Middle School will create a mechanism to allow parents who do not wish to have eligible credits earned by their student in middle school transcribed to the students high school transcript to opt out of having the credits transcribed. Additional language is added to clarify the qualifications of the teacher that are necessary for the middle school course to be eligible for transcription to the high school transcript. These amendments need to be in place prior to the start of the new school year in order to benefit students moving this year from middle school to high school.

TEMPORARY RULE JUSTIFICATION: Pursuant to Section 67-5226(1)(c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

Current language requires the credits to be transcribed if they are eligible. A number of parents have contacted the Board office requesting an option that would allow for parents to “opt-out” of having the credits transcribed. The temporary rule will confer a benefit by allowing the “opt-out.” The temporary rule will allow for the change to impact students who are still middle school students in the 2014-2015 school year.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: None.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: NA

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted because it was not feasible prior to the promulgation of the temporary rule so that it could benefit students during the 2014-2015 school year.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: NA

This examination supplements the certified qualifying record of the applicant and establishes a more common basis for judging the application and awarding a certificate of qualification or licensure in this state. The length of these special examinations shall be determined by the Board, but shall in no case exceed the lengths specified for the regular examination. Special examinations may be given at any date and need not conform with regular examination dates. (5-8-09)

DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking:

The 2015 legislature amended Section 47-317, Idaho Code, with House Bill 123. This amendment exempts the Oil and Gas Conservation Commission's actions in exercising its statutory duties and authorities from the contested case provisions in the Idaho Administrative Procedure Act. As a result, the Department believes it is important to initiate negotiated rulemaking as soon as possible to designate the practices and procedures before the Commission.

DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principle issues involved:

Statute authorizes the Board of Nursing to develop standards and criteria to evaluate the continued competency of licensed nurses. This rulemaking establishes those standards and criteria. For public safety, the rulemaking will require registered and licensed practical nurses seeking to renew their licenses to demonstrate their continued competence to practice nursing in Idaho. The rule establishes several methods for nurses to comply with this obligation.

DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principle issues involved:

Neither the Idaho Nurse Practice Act nor Board of Nursing Rules defines the term “Active Practice” or where it occurs (i.e., the place where the nurse is located versus the place where the patient/client is located). Active practice involves nursing administrators, nurse educators, public health nurses, home health nurses, parish nurses, and many other positions and activities beyond solely direct patient care in a traditional hospital or clinic setting. Furthermore, clarifying the location (state) where active practice occurs is important, especially in the context of nursing services delivered through telehealth methods. This rulemaking docket contemplates placing a definition of the term “Active Practice” or an equivalent term and its application in Board Rules.

DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principle issues involved:

Rule 041. Food, Meals, or Drinks
Rule 072. Application and Payment of Use Tax

Passed during the 2015 legislative session, House Bill 237 exempted free meals given to employees. The rules related to food and giveaways in the above two rules will be reviewed for possible revisions to address this change in the law. In addition, House Bill 530 passed during the 2014 session exempting donations of food. While rule changes were not made last year in response to this new exemption, questions of what falls under the exemption continue to arise. Rule changes will be discussed to address these questions.

Rule 067. Real Property

The rule currently states that “the National Electrical Code requires the removal of certain abandoned fiber optic and communication cable.” Given that fact, the rule treats such cabling as tangible personal property even after
installation. Consequently, the contractor must charge sales tax on the sale of the materials when installing the cable. The National Electrical Code needs to be reviewed again to ensure that this is still the standard. If the standards have changed, the rule will need to be amended particularly if it results in a different tax treatment.

Rule 050. Veterinarians and Veterinary Supplies
Rule 079. Production Exemption
Rule 083. Farming and Ranching
Rule 103. Hand Tool, Component, and Unit Price
Rule 128. Certificates for Resale and Other Exemption Claims

House Bill 39 passed during the 2015 legislative session removing the hand tool exclusion from the production exemption. All of the above rules need to be amended to address this change.

Rule 079. Production Exemption
Rule 083. Farming and Ranching

The passage of House Bill 221 during the 2015 legislative session added hunting and fishing operations to the types of businesses that can qualify for the production exemption. Rule changes will be discussed to address the new law.

Important Note -- In addition to the specific changes noted above, all rules will be reviewed in their entirety for possible changes to improve clarity.

DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principle issues involved:

Veterinarians licensed in and veterinary technicians certified in Idaho must comply with continuing education requirements set forth at Board Rule 15 (IDAPA 46.01.01.015) and Board Rule 102 (IDAPA 46.01.01.102), respectively. Because Board Rule 102 references and incorporates portions of Board Rule 15, a change in Board Rule 15 will result in a corresponding change relative to Board Rule 102.

The proposed rulemaking will amend Board Rule 15 to simplify the reporting and processing of continued education credits. Licensees and certificate holders will retain documentation for a specified period and a random auditing system will be implemented to monitor compliance with continuing education obligations.

**EFFECTIVE DATE:** The temporary rule was effective June 1, 2015.

**AUTHORITY:** In compliance with Idaho Code §§ 67-5221(1) and 67-5226(1), notice is hereby given that the Board of Environmental Quality has adopted a temporary rule and the Department of Environmental Quality has initiated proposed rulemaking. This action is authorized by Idaho Code §§ 39-105, 39-107, 39-120, and 39-126.

**PUBLIC HEARING SCHEDULE:** No hearings have been scheduled. Pursuant to Idaho Code § 67-5222(2), a public hearing will be held if requested in writing by twenty-five (25) persons, a political subdivision, or an agency. Written requests for a hearing must be received by the undersigned on or before June 19, 2015. If no such written request is received, a public hearing will not be held.

**DESCRIPTIVE SUMMARY:** This rulemaking has been initiated to make revisions to the Ground Water Quality Rule, IDAPA 58.01.11, for consistency with the 2015 revision to Idaho Code § 39-102 enacted under House Bill 197. House Bill 197 clarifies that degradation of ground water caused by mining activities is allowed at point of compliance as long as the mine operator uses best management practices to the maximum extent practical. This rule revises Sections 150, 301, 400, and 401.

Mining industry, conservation groups, environmental protection groups, state and federal land management agencies, and concerned citizens of the state of Idaho may be interested in commenting on this proposed rule. Language the agency proposes to add is underlined. Language the agency proposes to delete is struck out. It is these additions and deletions to which public comment should be addressed.

After consideration of public comments, DEQ intends to present the final proposal to the Board of Environmental Quality in the fall of 2015 for adoption of a pending rule. The pending rule is expected to become final and effective upon adjournment of the 2016 legislative session if adopted by the Board and approved by the Legislature.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Idaho Code § 67-5226(1)(b), the Governor has found that temporary adoption of the rule is necessary to meet the statutory deadline to promulgate a rule by June 1, 2015.

**INCORPORATION BY REFERENCE:** Pursuant to Idaho Code § 67-5229(2)(a), the following is a brief synopsis of why the incorporation by reference is necessary: Not applicable.

**NEGOITIATED RULEMAKING:** Negotiated rulemaking was not conducted. House Bill 197 includes an emergency clause which requires the Board of Environmental Quality to promulgate a rule with an effective date of June 1, 2015. With this deadline, there is no time to conduct negotiated rulemaking. DEQ determined that negotiated rulemaking was not feasible due to the statutory deadline and because DEQ has no discretion with respect to implementing Idaho Code provisions.

**IDAHO CODE § 39-107D STATEMENT:** This temporary/proposed rule does regulate an activity not regulated by the federal government. This rulemaking has been initiated as directed by the Idaho Legislature in House Bill 197.

**FISCAL IMPACT STATEMENT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year when the pending rule will become effective: Not applicable.

**ASSISTANCE ON TECHNICAL QUESTIONS AND SUBMISSION OF WRITTEN COMMENTS:** For assistance on questions concerning the negotiated rulemaking, contact Ed Hagan at ed.hagan@deq.idaho.gov or (208)373-0356.

Anyone may submit written comments by mail, fax or e-mail at the address below regarding this proposed rule. DEQ will consider all written comments received by the undersigned on or before July 3, 2015.

Ground Water Quality Rule

Docket No. 58-0111-1501
Temporary & Proposed Rule

DATED this 3rd Day of June, 2015.

Paula J. Wilson,
Hearing Coordinator
Department of Environmental Quality
1410 N. Hilton / Boise, Idaho 83706-1255
(208)373-0418 / Fax No. (208)373-0481

THE FOLLOWING IS THE TEMPORARY RULE AND THE PROPOSED TEXT
OF DOCKET NO. 58-0111-1501
(Only those Sections being amended are shown.)

150. IMPLEMENTATION.
This rule establishes minimum requirements to maintain and protect ground water quality. This rule applies to all
activities with the potential to degrade ground water quality.

01. Ground Water Quality Standards. The numerical and narrative standards in Sections 200 and
301 identify minimum levels of protection for ground water quality and shall be used as a basis for:

a. Evaluating or comparing ground water quality when developing or modifying best available
methods, best management practices, or best practical methods;

b. Identifying permit conditions;

c. Establishing cleanup levels; and

d. Determining appropriate actions when ground water quality standards are exceeded.

02. Aquifer Categorization. Aquifers of the state shall be categorized based on vulnerability of the
ground water, existing and projected future beneficial uses of the ground water, existing water quality, and social and
economic considerations. There shall be three aquifer categories, Sensitive Resource, General Resource, and Other
Resource, to provide different levels of protection. The level of protection required for each category and application
of standards to these categories are shown in Table I.

<table>
<thead>
<tr>
<th>Category</th>
<th>Level of Protection</th>
<th>Application of Standards</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sensitive Resource</td>
<td>Apply best management practices and best available methods. This category provides the highest level of ground water protection.</td>
<td>May apply stricter standards than in Section 200.</td>
</tr>
<tr>
<td>Other Resource</td>
<td>Apply best management practices and best practical methods to the maximum extent practical.</td>
<td>May apply less strict standards than in Section 200.</td>
</tr>
</tbody>
</table>
All aquifers where there are activities with the potential to degrade ground water quality are categorized in Section 300. Those aquifers where no activities with the potential to degrade ground water quality are occurring will remain uncategorized until such activities are commenced. If no action is taken to categorize an aquifer when an activity(ies) with the potential to degrade ground water quality is initiated, the aquifer will automatically be categorized as General Resource.

Categorization should be considered when an activity with the potential to degrade ground water quality is proposed over an aquifer or portion of an aquifer which presently has no such activities and, based on the criteria in Section 350, the aquifer may be most appropriately categorized as Sensitive Resource or Other Resource.

Recategorization should be considered when information on vulnerability of the ground water, existing and projected future beneficial uses of the ground water, existing quality of the ground water, and social and economic considerations, in conjunction with one or more of the criteria in Section 350, demonstrates that the aquifer or portion of an aquifer may be more appropriate in another category.

The beneficial uses of interconnected surface water shall be recognized when evaluating ground water quality protection. The implementation of water quality programs shall ensure that the quality of ground water that discharges to surface water does not impair the identified beneficial uses of the surface water and that surface water infiltration does not impair beneficial uses of ground water.

The Department will coordinate with other federal, state, and local agencies to pursue interagency agreements when necessary to ensure implementation of this rule for activities which have the potential to degrade ground water quality.

MANAGEMENT OF ACTIVITIES WITH THE POTENTIAL TO DEGRADE AQUIFERS.

Sensitive Resource Category Aquifers.

Activities with the potential to degrade Sensitive Resource aquifers shall be managed in a manner which maintains or improves existing ground water quality through the use of best management practices and best available methods except when a point of compliance is set pursuant to Section 401.

Numerical and narrative standards identified in Section 200 shall apply to aquifers or portions of aquifers categorized as Sensitive Resource. In addition, stricter numerical and narrative standards, for specified constituents, may be adopted pursuant to Section 350 on a case by case basis and listed in Section 300.

General Resource Category Aquifers.

Activities with the potential to degrade General Resource aquifers shall be managed in a manner which maintains or improves existing ground water quality through the use of best management practices and best practical methods to the maximum extent practical except when a point of compliance is set pursuant to Section 401.

Numerical and narrative standards identified in Section 200 shall apply to aquifers or portions of aquifers categorized as General Resource.

Other Resource Category Aquifers.

Activities with the potential to degrade Other Resource aquifers shall be managed in a manner
which maintains existing ground water quality, except for those identified constituents which may have a less stringent standard, through the use of best management practices and best practical methods to the maximum extent practical except when a point of compliance is set pursuant to Section 401.

(b.

Numerical and narrative standards identified in Section 200 shall apply to aquifers or portions of aquifers categorized as Other Resource. In addition, less strict numerical and narrative standards, for specified constituents, may be adopted pursuant to Section 350 on a case by case basis and listed in Section 300.

iv. Related public health issues; and (3-20-97)

v. Whether the degradation involves a primary or secondary constituent in Section 200. (3-20-97)

03. Contamination Exceeding a Ground Water Quality Standard. The discovery of any contamination exceeding a ground water standard that poses a threat to existing or projected future beneficial uses of ground water shall require appropriate actions, as determined by the Department, to prevent further contamination. These actions may consist of investigation and evaluation, or enforcement actions if necessary to stop further contamination or clean up existing contamination, as required under the Environmental Protection and Health Act, Section 39-108, Idaho Code. (3-20-97)

04. Agricultural Chemicals. Agricultural chemicals found in intermittently saturated soils within the crop root zone will not be considered ground water contaminants as long as the chemicals remain within the crop root zone, and have been applied in a manner consistent with all appropriate regulatory requirements. (3-20-97)

05. Site-Specific Ground Water Quality Levels or Points of Compliance. The Department may allow site-specific ground water quality levels, for any aquifer category, that vary from a standard(s) in Section 200 or Section 300, or may allow site-specific points of compliance, based on consideration of effects to human health and the environment, for:

a. Remediation conducted under the Department’s oversight; (3-20-97)

b. Permits issued by the Department; (3-20-97)

c. Situations where the site background level varies from the ground water quality standard; (7-1-09)

The Department may allow the use of dissolved concentrations for secondary constituents if the requesting person demonstrates that doing so will not adversely affect human health and the environment; or (7-1-09)

e. Other situations authorized by the Department in writing. (3-20-97)

401. MINING.

01. Request for Setting Point(s) of Compliance and Standards Applicable to Mining Activities. At the request of a mine operator, pursuant to this section, the Department shall set a point of compliance, or points of compliance, at which the mine operator must protect current and projected future beneficial uses of the ground water and meet the ground water quality standards as described in Subsection 150.04 Section 200 or as allowed under Subsection 400.05. Degradation of ground water is allowed at a point of compliance if the mine operator implements the level of protection during mining activities appropriate for the aquifer category as specified in Table 1 of Subsection 150.02. If a request is not made, the mine operator must meet the ground water quality standards as described in Subsection 150.01 in ground water both within and beyond the mining area unless the Department establishes the point(s) of compliance consistent with Subsection 401.03. Mining activities must be managed using the level of protection appropriate for the aquifer category in accordance with Subsection 150.02 and Section 301. (7-1-09)

02. Application Process. (7-1-09)

a. If the mine operator requests a point of compliance, or points of compliance, the mine operator shall make written application to the Department. The application shall be accompanied by a fee of two thousand five hundred dollars ($2,500). The application shall include the following information in sufficient detail to allow the Department to establish point(s) of compliance:

   (4) All buildings and structures within one (1) mile of the mining area; (7-1-09)
   (5) All special resource waters within one (1) mile of the mining area; and (7-1-09)
   (6) All Clean Water Act Section 303(d) listed streams, and their listed impairments, within one (1) mile of the mining area; (7-1-09)
ix. To the extent such information is available, a description and location of underground mine workings and adits and a description of the structural geology that may influence ground water flow and direction; (7-1-09)
x. Information regarding the relevant factors set forth in Subsection 401.03; and (7-1-09)
xi. A proposed point of compliance, or points of compliance. (7-1-09)

b. Within thirty (30) days of receipt of an application, the Department shall issue a written notice to the mine operator indicating:
   i. That the application is complete; or (7-1-09)
   ii. That the Department is rejecting the application as incomplete. In such a case, the Department shall provide a list of deficiencies. Upon a determination that the application is incomplete, the Department shall refund one-half (1/2) of the application fee. (7-1-09)

c. The Department shall establish the point(s) of compliance within one hundred eighty (180) days after receipt of a complete application unless the Department determines that additional time is necessary due to unusual circumstances. (7-1-09)
03. Setting the Point(s) of Compliance. The point(s) of compliance shall be set as close as possible to the boundary of the mining area, taking into consideration the relevant factors set forth in Subsections 401.03.a. through 401.03.h., but in no event shall the point(s) of compliance be within the boundary of the mining area. The mining area boundary means the outermost perimeter of the mining area (projected in the horizontal plane) as it would exist at the completion of the mining activity. The point(s) of compliance shall be set so that, outside the mining area boundary, there is no injury to current or projected future beneficial uses of ground water and there is no violation of water quality standards applicable to any interconnected surface waters. The Department’s determination regarding the point(s) of compliance shall be based on an analysis and consideration of all relevant factors including, but not limited to:

- The hydrogeological characteristics of the mining area and surrounding land, including any dilution characteristics of the aquifer and any natural attenuation supported by site-specific data; (7-1-09)
- The concentration, volume, and physical and chemical characteristics of contaminants resulting from the mining activity, including the toxicity and persistence of the contaminants; (7-1-09)
- The quantity, quality, and direction of flow of ground water underlying the mining area; (7-1-09)
- The proximity and withdrawal rates of current ground water users; (7-1-09)
- A prediction of projected future beneficial uses; (7-1-09)
- The availability of alternative drinking water supplies; (7-1-09)
- The existing quality of the ground water, including other sources of contamination and their cumulative impacts on the ground water; and (7-1-09)
- Public health, safety, and welfare effects. (7-1-09)

04. Ground Water Monitoring and Reporting. The Department shall require ground water monitoring and reporting whenever the Department sets the point(s) of compliance. The Department shall not require ground water monitoring that duplicates ground water monitoring required by other state or federal agencies as long as the mine operator provides the data to the Department.

- A ground water monitoring system required under Subsection 401.04 shall be designed to:
  - Represent the quality of background ground water that has not been affected by the mining activity; (7-1-09)
  - Represent the quality of ground water passing the point(s) of compliance in order to determine compliance with ground water quality standards or effectiveness of best management practices. (7-1-09)

- When practicable, indicator monitoring wells or other devices may be required. Such indicator wells and other devices shall not be used to determine compliance with the ground water quality standards, but instead may be used to evaluate modeling results, to predict the quality of ground water at the point(s) of compliance, or to determine the effectiveness of best management practices. (7-1-09)

- All monitoring wells shall be constructed (well depth, well screen size, well screen interval, gravel pack, etc.) and developed so that ground water samples represent the quality of ground water that is relevant to current and future beneficial uses. (7-1-09)

05. Coordination with Other State or Federal Agencies/Public Notice. Before setting the point(s) of compliance or requiring ground water monitoring, the Department shall coordinate with and seek recommendations from other state or federal agencies that have regulatory authority over the mining activities. The Department may provide public notice and an opportunity for public comment prior to setting or changing the point(s) of compliance. The Department shall issue a public notice after it sets the point(s) of compliance. (7-1-09)
06. Limitations. Section 401 addresses only those contaminants that naturally occur in the mining area ground water or in the surrounding rock or soil and are present in concentrations above the natural background level as a result of mining activities. (7-1-09)

07. Application of Provisions. The provisions set out in Section 401 apply to new mining activities or to an expansion of existing mining activities commencing after July 1, 2009. All consent orders, compliance schedules, and other agreements adopted or issued by the Department prior to July 1, 2009 pertaining to ground water protection at mine sites shall remain in full force and effect. (7-1-09)

08. Change in Point(s) of Compliance/Ground Water Monitoring. (7-1-09)

a. A change in the point(s) of compliance may be requested by the mine operator when there is a change in, or new information regarding, the mining activity or any of the factors set forth in Subsection 401.03. A change requested by the mine operator shall include an identification of the new proposed point(s) of compliance, a description of the cause for the change and any data supporting the change. The mine operator's request shall be handled as an application submitted pursuant to Subsection 401.02.a. and shall be subject to all other provisions of Section 401. (7-1-09)

b. The Department may initiate a change in the point(s) of compliance if there is a change in, or new information regarding, the mining activity or any of the factors set forth in Subsection 401.03, and the Department determines that the change is necessary to ensure there is no injury to current or projected future beneficial uses of ground water and no violation of water quality standards applicable to any interconnected surface waters. The Department shall notify the mine operator in writing of the Department's intent to change the point(s) of compliance. The Department shall make its final decision to change the point(s) of compliance within sixty (60) days of the notice to the mine operator unless the Department and the mine operator agree more time is necessary to make the decision. (7-1-09)

c. The Department may require additional or new ground water monitoring or indicator wells when the Department changes the point(s) of compliance. The Department may also require additional or different ground water monitoring or indicator wells if the Department determines, based upon a change in or new information regarding the mining activity or any of the factors listed in Subsection 401.03, that the monitoring no longer meets the requirements set forth in Subsection 401.04. The mine operator may also request a change in the monitoring. (7-1-09)
