Preface

The Idaho Administrative Bulletin is an electronic-only, online monthly publication of the Office of the Administrative Rules Coordinator, Department of Administration, that is published pursuant to Section 67-5203, Idaho Code. The Bulletin is a compilation of all official rulemaking notices, official rule text, executive orders of the Governor, and all legislative documents affecting rules that are statutorily required to be published in the Bulletin. It may also include other rules-related documents an agency may want to make public through the Bulletin.

State agencies are required to provide public notice of all rulemaking actions and must invite public input. This is done through negotiated rulemaking procedures or after proposed rulemaking has been initiated. The public receives notice that an agency has initiated proposed rulemaking procedures through the Idaho Administrative Bulletin and a legal notice (Public Notice of Intent) that publishes in authorized newspapers throughout the state. The legal notice provides reasonable opportunity for the public to participate when a proposed rule publishes in the Bulletin. Interested parties may submit written comments to the agency or request public hearings of the agency, if none have been scheduled. Such submissions or requests must be presented to the agency within the time and manner specified in the individual “Notice of Rulemaking - Proposed Rule” for each proposed rule that is published in the Bulletin.

Once the comment period closes, the agency considers fully all comments and information submitted regarding the proposed rule. Changes may be made to the proposed rule at this stage of the rulemaking, but changes must be based on comments received and must be a “logical outgrowth” of the proposed rule. The agency may now adopt and publish the pending rule. A pending rule is “pending” legislative review for final approval. The pending rule is the agency’s final version of the rulemaking that will be forwarded to the legislature for review and final approval. Comment periods and public hearings are not provided for when the agency adopts a temporary or pending rule.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is identified by the calendar year and issue number. For example, Bulletin 13-1 refers to the first Bulletin issued in calendar year 2013; Bulletin 14-1 refers to the first Bulletin issued in calendar year 2014. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 13-1 refers to January 2013; Volume No. 13-2 refers to February 2013; and so forth. Example: The Bulletin published in January 2014 is cited as Volume 14-1. The August 2015 Bulletin is cited as Volume 15-8.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is an electronic-only, online compilation of all final and enforceable administrative rules of the state of Idaho that are of full force and effect. Any temporary rule that is adopted by an agency and is of force and effect is codified into the Administrative Code upon becoming effective. All pending rules that have been approved by the legislature during the legislative session as final rules and any temporary rules that are extended supplement the Administrative Code. These rules are codified into the Administrative Code upon becoming effective. Because proposed and pending rules are not enforceable, they are published in the Administrative Bulletin only and cannot be codified into the Administrative Code until approved as final.

To determine if a particular rule remains in effect or whether any amendments have been made to the rule, refer to the Cumulative Rulemaking Index. Link to it on the Administrative Rules homepage at adminrules.idaho.gov.

THE DIFFERENT RULES PUBLISHED IN THE ADMINISTRATIVE BULLETIN

Idaho’s administrative rulemaking process, governed by the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, comprises distinct rulemaking actions: negotiated, proposed, temporary, pending and final rulemaking. Not all rulemakings incorporate or require all of these actions. At a minimum, a rulemaking includes proposed, pending and final rulemaking. Many rules are adopted as temporary rules when they meet the required statutory criteria and agencies must, when feasible, engage in negotiated rulemaking at the beginning of the process to facilitate consensus building. In the majority of cases, the process begins with proposed rulemaking and ends with the final rulemaking. The following is a brief explanation of each type of rule.

NEGOTIATED RULEMAKING

Negotiated rulemaking is a process in which all interested persons and the agency seek consensus on the content of a rule through dialogue. Agencies are required to conduct negotiated rulemaking whenever it is feasible to do so.
The agency files a “Notice of Intent to Promulgate - Negotiated Rulemaking” for publication in the Administrative Bulletin inviting interested persons to contact the agency if interested in discussing the agency’s intentions regarding the rule changes. This process is intended to result in the formulation of a proposed rule and the initiation of regular rulemaking procedures. One result, however, may also be that regular (proposed) rulemaking is not initiated and no further action is taken by the agency.

PROPOSED RULEMAKING

A proposed rulemaking is an action by an agency wherein the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a “Notice of Rulemaking - Proposed Rule” in the Bulletin. This notice must include:

a) the specific statutory authority (from Idaho Code) for the rulemaking including a citation to a specific federal statute or regulation if that is the basis of authority for or is occasioning the rulemaking;

b) a statement in nontechnical language of the substance of the proposed rule, including a specific description of any fee or charge imposed or increased;

c) a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year when the pending rule will become effective; provided, however, that notwithstanding Section 67-5231, Idaho Code, the absence or accuracy of a fiscal impact statement provided pursuant to this subsection shall not affect the validity or enforceability of the rule.

d) if any document is incorporated by reference in the proposed rule, a brief written synopsis of why the incorporation is needed must be included in the notice of proposed rulemaking, along with a link to the electronic version of the incorporated material or information on how it can be obtained.

e) the text of the proposed rule prepared in legislative format;

f) the location, date, and time of any public hearings the agency intends to hold on the proposed rule;

g) the manner in which persons may make written comments on the proposed rule, including the name and address of a person in the agency to whom comments on the proposal may be sent;

h) the manner in which persons may request an opportunity for an oral presentation as provided in Section 67-5222, Idaho Code; and

i) the deadline for public (written) comments on the proposed rule.

Any proposed rulemaking that is submitted for publication in the Bulletin that would impose a fee or charge must be accompanied by a cost/benefit analysis that is prepared by the agency. This cost/benefit analysis must estimate, as reasonably as possible, the costs to the agency to implement the rule and the estimated costs that would be borne by citizens or the private sector. This analysis is filed with the Director of Legislative Services Office who then forwards it to the appropriate germane joint subcommittee assigned to review the promulgating agency’s proposed rules.

When incorporating by reference, the notice of proposed rulemaking must include a brief synopsis detailing the need to incorporate by reference any additional materials into the rule. The agency must also provide information regarding access to the incorporated materials. At a minimum, and when available, the agency must provide an electronic link to the documents that can accessed on a web site or post this information on its own web site, or both. This link can be placed into the rule and activated once it is posted on the Coordinator’s web site.

As stated, the text of the proposed rule must be published in the Bulletin. After meeting the statutory rulemaking criteria for a proposed rule, the agency may adopt the pending rule. Because a proposed rule is not enforceable, it has no effective date, even when published in conjunction with a temporary rule that is of full force and effect. An agency may vacate (terminate) a rulemaking after the publication of a proposed rule if it decides, for whatever reason, not to proceed further to finalize the rulemaking. The publication of a “Notice of Vacation of Proposed Rulemaking” in the Bulletin officially stops the formal rulemaking process.
TEMPORARY RULEMAKING

Temporary rules may be adopted only when the governor finds that it is necessary for:

a) protection of the public health, safety, or welfare; or

b) compliance with deadlines in amendments to governing law or federal programs; or

c) conferring a benefit.

If a rulemaking meets one or more of the above legal criteria and the governor determines that it is necessary that a rule become effective prior to receiving legislative authorization and without allowing for any public input, the agency may proceed and adopt a temporary rule. The law allows an agency to make a temporary rule immediately effective upon adoption. However, a temporary rule that imposes a fee or charge may be adopted only if the governor finds that the fee or charge is necessary to avoid immediate danger which justifies the imposition of the fee or charge.

A temporary rule expires at the conclusion of the next succeeding regular legislative session unless the rule is extended by concurrent resolution, is replaced by a final rule, or expires under its own terms.

The statute that regulates rulemaking in Idaho requires that the text of all proposed rulemakings publish in the Bulletin in order for the rulemaking to be valid. This is true for all temporary rules as well. In most cases, the agency wants the temporary rule to also become a final rule and in most of these cases, the temporary rule and the proposed rule text is identical. In this event, both rulemakings may be promulgated concurrently, however, they remain separate rulemaking actions. The rulemaking is published in the Bulletin as a temporary/proposed rule. Combining the rulemaking allows for a single publication of the text in the Bulletin.

An agency may, at any time, rescind a temporary rule that has been adopted and is in effect. The agency must publish a notice of rescission to effectively rescind the temporary rule. If the temporary rule is being replaced by a new temporary rule or if it has been published concurrently with a proposed rule that is being vacated, the agency, in most instances, will rescind the temporary rule.

PENDING RULEMAKING

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it becomes a final, enforceable rule.

When a pending rule is published in the Bulletin, the agency is required to include certain information in the “Notice of Rulemaking - Pending Rule.” This includes:

a) a statement giving the reasons for adopting the rule;

b) a statement of any change between the text of the proposed rule and the pending rule with an explanation of the reasons for any changes;

c) the date the pending rule will become final and effective and a statement that the pending rule may be rejected, amended or modified by concurrent resolution of the legislature;

d) an identification of any portion of the rule imposing or increasing a fee or charge and a statement that this portion of the rule shall not become final and effective unless affirmatively approved by concurrent resolution of the legislature;

e) the specific statutory authority for the rulemaking including a citation to the specific section of the Idaho Code that has occasioned the rulemaking, or the federal statute or regulation if that is the basis of authority or requirement for the rulemaking; and

f) a specific description, if applicable, of any negative fiscal impact on the state general fund greater
than ten thousand dollars ($10,000) during the fiscal year when the pending rule will become effective; provided however, that notwithstanding section 67-5231, Idaho Code, the absence or accuracy of a fiscal impact statement provided pursuant to this subsection shall not affect the validity or the enforceability of the rule.

Agencies are required to republish the text of the pending rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule change is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule. With the permission of the Rules Coordinator, only the sections or their subparts that have changed from the proposed text are republished. If no changes have been made to the previously published text, it is not required to republish the text again and only the “Notice of Rulemaking - Adoption of Pending Rule” is published.

**FINAL RULEMAKING**

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is of full force and effect.

No pending rule adopted by an agency becomes final and effective until it has been submitted to the legislature for review and approval. Where the legislature finds that an agency has violated the legislative intent of the authorizing statute, a concurrent resolution may be adopted to reject the rulemaking in whole or in part. A “Notice of Rulemaking - Final Rule” and the final codified text must be published in the Bulletin for any rule that is partially rejected by concurrent resolution of the legislature. Unless rejected by concurrent resolution, a pending rule that is reviewed by the legislature becomes final and effective at the end of the session in which it is reviewed without any further legislative action. All pending rules that are approved by concurrent resolution become final and effective upon adoption of the concurrent resolution unless otherwise stated. In no event can a pending rule become final and effective before the conclusion of the regular or special legislative session at which the rule was submitted for review. However, a rule that is final and effective may be applied retroactively, as provided in the rule.

HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering schematic. Each state agency has a two-digit identification code number known as the “IDAPA” number. (The “IDAPA” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit “TITLE” number is assigned. There are “CHAPTER” numbers assigned within the Title and the rule text is divided among major sections that are further subdivided into subsections. An example IDAPA number is as follows:

IDAPA 38.05.01.200.02.c.ii.

“IDAPA” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

“38.” refers to the Idaho Department of Administration

“05.” refers to Title 05, which is the Department of Administrations’s Division of Purchasing

“01.” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”

“200.” refers to Major Section 200, “Content of the Invitation to Bid”

“02.” refers to Subsection 200.02.

“c.” refers to Subsection 200.02.c.

“ii.” refers to Subsection 200.02.c.ii.

DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. Each rulemaking that is filed with the Coordinator is assigned a “DOCKET NUMBER.” The docket number is a series of numbers separated by a hyphen “-”, (38-0501-1401). Rulemaking dockets are published sequentially by IDAPA number (the two-digit agency code) in the Bulletin. The following example is a breakdown of a typical rule docket number:

“DOCKET NO. 38-0501-1401”

“38-” denotes the agency's IDAPA number; in this case the Department of Administration.

“0501-” refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), Rules of the Division of Purchasing (Chapter 01).

“1401” denotes the year and sequential order of the docket being published; in this case the numbers refer to the first rulemaking action published in calendar year 2014. A subsequent rulemaking on this same rule chapter in calendar year 2014 would be designated as “1402”. The docket number in this scenario would be 38-0501-1402.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

WHEREAS, in December 2011, the U.S. Department of the Interior invited the eleven (11) western states impacted by a potential Endangered Species Act (ESA) listing of the greater sage-grouse to develop state-specific conservation plans that would conserve the species and its habitat while maintaining predictable levels of land use; and

WHEREAS, Governor Otter accepted the federal government’s invitation, and by and through Executive Order 2012-02 established the Governor’s Sage-grouse Task Force (Task Force) to collaboratively develop science-based recommendations for inclusion in Idaho’s sage-grouse conservation plans; and

WHEREAS, in September 2012, and based on recommendations from the Task Force, I submitted the Federal Alternative of Governor C.L. “Butch” Otter for Greater Sage-grouse Management in Idaho (Governor’s Alternative) as an alternative for inclusion in the National Greater Sage-grouse Land Use Planning Strategy. This national planning strategy amends some 68 U.S. Bureau of Land Management (BLM) planning units and 20 U.S. Forest Service (USFS) National Forest Plans by including objectives, habitat conditions and management actions for sage-grouse; and

WHEREAS, in February 2013, the U.S. Fish and Wildlife Service (FWS) published the Greater Sage-Grouse Conservation Objectives Team Final Report (COT Report). The purpose of the COT Report, which was developed in conjunction with state wildlife agencies, was to establish the ESA goals by identifying Primary Areas of Conservation (PAC) and the threats to the species throughout its range, as well as to develop conservation measures, based on the best available science, to address those threats. The COT Report provides the flexibility to create solutions that meet the needs of greater sage-grouse and the local ecological and socioeconomic conditions; and

WHEREAS, Governor Otter requested the FWS to evaluate the Governor’s Alternative for consistency under the COT Report, and in April 2013, the FWS concluded that the foundational elements, and some individual components, within the Governor’s Alternative were consistent with the COT Report. (App. 2); and

WHEREAS, based on the strength of FWS’s recommendation, the BLM and USFS selected the Governor’s Alternative as a co-preferred alternative within Idaho’s portion of the national planning strategy (see Alternative E in the Idaho and Southwestern Montana Greater Sage-Grouse Draft Land Use Plan Amendments and Draft Environmental Impact Statement, 78 Fed. Reg. 65,703 (Nov. 1, 2013)); and

WHEREAS, the State has continued refining individual components of the Governor’s Alternative, including but not limited to: (1) Idaho Code § 38-104B developing rangeland fire protection associations; (2) the State Board of Land Commissioners on April 21, 2015, adopting the Land Board’s Greater Sage-grouse Conservation Plan (Land Board Plan) for State endowment lands complementary to the Governor’s Alternative (App. 3); (3) the State Oil and Gas Conservation Commission on April 23, 2015, adopting portions of the Land Board Plan applicable to oil and gas programs (App. 3, p. 38); (4) working collaboratively with the local federal agencies’ representatives and Task Force members to better clarify the Governor’s Alternative; and (5) increasing state funding for enhanced lek monitoring, habitat restoration projects, and wildfire suppression; and

WHEREAS, it is vital to the interests of the State to continue these efforts as the listing of the species and/or overly restrictive federal land-use plan amendments would adversely impact Idaho’s sovereign interest in managing its wildlife pursuant to Idaho Code § 36-103 and § 68-818, its customs, culture and way of life, and the State’s ability to generate revenues from private property and endowment lands;

NOW, THEREFORE, I, C.L. “BUTCH” OTTER, Governor of the State of Idaho, by the authority vested in me under the Constitution and laws of the State of Idaho do hereby order the following:
That all executive agencies, to the extent consistent with existing state law, for relevant permits and policies, adopt the Governor’s Alternative and all supporting documentation, incorporated in its entirety into this Executive Order by this reference, hereinafter known as “Idaho’s Sage-grouse Management Plan,” which includes:

1. **Application of the foundational elements of Idaho’s Sage-grouse Management Plan (Idaho’s Plan) to all landownerships.** These foundational elements are consistent with the COT Report and apply across all land ownerships.

   a. **Habitat Zones** – Idaho’s Plan includes three distinct management zones: Core Habitat Zone (CHZ), Important Habitat Zone (IHZ), and General Habitat Zone (GHZ). The COT Report identified the most important habitat areas for maintaining sage-grouse representation, redundancy, and resiliency across the landscape. These areas (or PAs) closely align with CHZ and IHZ. The three management zones within the Sage-grouse Management Area (SGMA) represent a management continuum that includes, at one end, a relatively restrictive approach aimed at providing a high level of protection to the species within the CHZ, and on the other end, a relatively flexible approach for the GHZ allowing for more multiple-use activities. The zones are reflected in the attached map. (App. 1, p. 24).

   i. **Core Habitat Zone (CHZ)** – The CHZ includes approximately sixty-five percent (65%) of the known active leks and is occupied by approximately seventy-three percent (73%) of sage-grouse males. CHZ supports the highest breeding densities of sage-grouse in Idaho, and maintenance of these populations ensures that Idaho has a viable and robust population of sage-grouse. Management in CHZ is the most restrictive to protect what local data shows as the “best of the best” habitat.

   ii. **Important Habitat Zone (IHZ)** – The IHZ includes approximately twenty-five percent (25%) of the known active leks and is occupied by approximately twenty-two percent (22%) of sage-grouse males.

   iii. **General Habitat Zone (GHZ)** – This management zone includes five percent (5%) of sage-grouse males, and generally includes few active leks and fragmented or marginal habitats.

   b. **Population Objectives** – In conjunction with the habitat zones, these population goals: (1) measure the efficacy of the State plan; and (2) ensure that there is an appropriately tailored response to significant fluctuations in habitat and populations.

   i. **Objective 1** – Implement regulatory mechanisms that maintain and enhance sage-grouse habitats, populations, and connectivity within CHZ. Recognizing the impact of wildfire, the IHZ provides important management flexibility and a strategic conservation buffer.

   ii. **Objective 2** – Stabilize sage-grouse habitats and populations by monitoring the effectiveness of the regulatory measures over time. A primary objective is to minimize habitat lost within CHZ, and to a lesser extent, IHZ.

   c. **Conservation Areas** – Idaho’s Plan divided the SGMA into four Conservation Areas (CA) across the state: the Mountain Valleys, Desert, West Owyhee, and Southern. Each CA is divided into Core, Important, and General management zones. (App. 1, p. 8).

   d. **Adaptive Regulatory Triggers** – Given the unpredictability of wildfire, these triggers provide a regulatory backstop to manage loss within a CA. An adaptive trigger is employed when dramatic shifts in the population or habitat occurs based on an average over a three year period compared to the 2011 baseline.

   i. The adaptive triggers are based on the severity of habitat or population loss (i.e. a “soft trigger” or a “hard trigger”). (App. 1, pp. 11, 69-71).

   ii. When monitoring information indicates that a soft trigger may be tripped, the Implementation Commission1 – aided by technical expertise from Idaho Department of Fish and Game and other relevant State agencies – will assess the factor(s) leading to the decline and recommend potential management actions. (App. 1, p. 69).

1 Should the BLM and USFS adopt the Governor’s Alternative, or an alternative consistent with the Governor’s Alternative, for incorporation into relevant Land and Resource Management Plans, the Governor shall execute a companion Executive Order establishing an Implementation Task Force as outlined in Appendix 1, pages 21, 67–71.
iii. If the hard trigger becomes operative, management changes no longer are discretionary and will be implemented by the Implementation Task Force.

e. Rangeland Fire Protection Associations (RFPAs) – RFPAs act as a regulatory mechanism across all landownerships ensuring quicker initial attack on wildfires in the CHZ and IHZ through the deployment of additional trained firefighters and resources located in rural parts of the SGMA.
   i. Idaho Code § 38-104B provides for the creation and funding of RFPAs in Idaho.
   ii. RFPAs members work collaboratively with federal land management agencies and Idaho Department of Lands (IDL) to protect more than 2.9 million acres of federal and state rangeland and 675,000 acres of private land. These numbers are expected to grow as additional RFPAs become operational in the near future.
   iii. The success and effectiveness of RFPAs in Idaho is considered a model by other western states.

II. Applicability of Idaho’s Plan to Lands Managed by the Federal Government (as more fully described in Alternative E of the Draft Environmental Impact Statement)

   a. Fire – Idaho’s Plan for wildfire on federal lands focuses efforts on prevention, suppression, and restoration. The objective within Idaho’s Plan is to implement actions necessary to manage fire within the normal range of fire activity and maintain and restore healthy, native sage-steppe plant communities within CHZ and IHZ.
   b. Invasive species – In addition to the wildfire restoration efforts, Idaho’s Plan calls for the aggressive management of exotic undesirable plant species within the CHZ and IHZ.
   c. Infrastructure – Infrastructure means discrete, large-scale anthropogenic features, including but not limited to, highways, high voltage transmission lines, commercial wind projects, energy development (e.g. oil and gas development, geothermal wells), airports, mines, cell phone towers, landfills, residential and commercial subdivisions. (App. 1, p. 32).

   i. Permitted activities in specific habitat designations
      1. Infrastructure in CHZ – Infrastructure development in areas designated as CHZ is prohibited, except if conducted pursuant to a valid existing right, incremental upgrade and/or capacity increase of existing development, or if a project-level exemption is obtained by meeting the criteria outlined in Appendix 1, including compensatory mitigation. (App. 1, pp. 35-36).
      2. Infrastructure in IHZ – Infrastructure development in areas designated as IHZ is permissible subject to meeting the criteria specified within Idaho’s Plan and approved by the BLM State Director. (App. 1, p. 42)

   ii. Best Management Practices (BMPs) for proposed infrastructure development within CHZ and IHZ.
      1. Infrastructure development should reflect unique localized conditions including soils, vegetation, development type, predation, climate, and other local realities and should utilize best management practices as described in Idaho’s Plan. (App. 1, pp. 43-45).
      2. A lek buffer of 1 km (0.6 miles) from occupied leks will be applied to essential public services, including but not limited to distribution lines, domestic water lines, and gas lines. This will enable development in a manner that maintains populations, habitats, and essential migration routes where possible. (App. 1, pp. 43-45).

2 Governor Otter encourages the adoption of Alternative E in the final EIS as it is consistent with the laws, programs, and policies of the State of Idaho. However, the Governor recognizes that the BLM and USFS may adopt a different alternative (or revised alternative) in the record of decision (ROD) and such action may necessitate a revision to this Executive Order.
3. No Surface Occupancy (NSO) within 1 km of an occupied lek will be applied to oil and gas development. (App. 1, pp. 46-47)

iii. Nothing in Idaho’s Plan shall revoke, suspend, or modify any project or activity decision made prior to the effective date of the ROD.

d. Improper livestock grazing (secondary threat) – This section of Idaho’s Plan requires that the Idaho Rangeland Health Standards (IRHS) be met and is consistent with the COT report. While no studies exist directly relating livestock grazing systems or stocking rates to sage-grouse abundance or productivity, Idaho’s Plan addresses improper livestock grazing within CHZ and IHZ through adaptive management according to the following process:

i. Sage-grouse habitat characteristics will be incorporated into relevant Resource Management Plans as desired conditions, recognizing that these desired conditions may not be achievable due to the existing ecological condition of an allotment, the ecological potential of the area, or causal events unrelated to livestock grazing. (App. 1, pp. 14-20).

ii. Based on these habitat characteristics, habitat assessments will be conducted to help inform grazing management in conjunction with scheduled term grazing permit renewals or if an adaptive regulatory trigger has been tripped. (App. 1, p. 73-75).

iii. In conjunction with scheduled term grazing permit renewals, livestock grazing will be assessed through the IRHS (primarily Standards 2, 4, and 8), as informed by the COT Report with respect to sage-grouse. (see Idaho Standards for Rangeland Health and Guidelines for Livestock Grazing Management (1997)).

1. Assuming no adaptive regulatory trigger has been tripped, there is a rebuttable presumption that current grazing systems within a particular CA are adequate to maintain viable sage-grouse populations.

2. This does not preclude adaptive changes to grazing permits based on the other standards contained in the IRHS.

iv. If an adaptive regulatory trigger has been tripped within a CA, and after a more thorough analysis of those allotments within a relevant CA determines that improper livestock grazing is a potential limiting factor, modifications to permits will be determined based on ecological site potential and will be selected from the suite of management options outlined in Idaho’s Plan. (App. 1, pp. 48-50).

III. Applicability of Idaho’s Plan on State and private lands

a. In April 2015, the State Board of Land Commissioners and the Idaho Oil and Gas Conservation Commission contingently approved the Land Board Plan. (App. 3). The Land Board Plan, consistent with the constitutional mandate (IDAHO CONST. ART. IX, § 8), includes enforceable regulatory stipulations for inclusion into certain leases, permits, and easements on State endowment lands. Adoption and implementation of the Land Board Plan is contingent upon the incorporation of Idaho’s Plan into the federal land-use plan amendments for sage-grouse.

b. Certain permit holders on private lands can voluntarily agree to add BMPs into their permit, which would then become binding. However, private land comprises less than twenty percent (20%) of sage-grouse habitat in Idaho (and less than 6% of the CHZ).

c. Existing land uses and landowner activities are vital to the State of Idaho. Idaho’s Plan recognizes changes in sage-grouse populations and habitats on private lands could influence land management on public lands as adaptive triggers can become operative within a CA regardless of landownership. To offset any impacts, SGMAs have been designed to provide flexibility in order to allow for the continuation of land uses and valid existing rights. In addition, Idaho continues to encourage voluntary conservation efforts on private land for the conservation of sage-grouse.

This temporary rule confers a benefit to the industry by simplifying the selection of the stewards required to preside over live racing meets beginning in May 2015 and allows the Racing Commission to compensate a third steward for live racing events. Stewards enforce all of laws and rules that govern live horse racing and are necessary to protect the integrity of horse racing sanctioned in Idaho.

No fees are imposed or changed by this rule.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year:

There is no negative impact on the state general fund. The fiscal impact to dedicated funds will be $24,000.

In addition, the current EMS chapter (IDAPA 16.02.03) is being repealed and some requirements from that chapter (e.g., regarding advance “do not resuscitate” directives) need to be moved into this chapter so that they remain in effect.

The negotiated rulemaking meetings listed above will allow stakeholders to provide their input concerning the rules that are being revised, updated, and reorganized into this new EMS education chapter.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The EMS Personnel Licensing rules are being amended to align with a new chapter of rules being written that provide the education, instructor, and examination standards an individual must meet to be a licensed EMS provider in Idaho. These rules also include temporary rule changes for continuing education venues and licensing renewal cycle requirements that were extended by the 2015 Legislature. For consistency, this chapter includes references and sections from the repeal of IDAPA 16.02.03, “Emergency Medical Services,” and the new chapter in IDAPA 16.01.05, “Emergency Medical Services (EMS) -- Education, Instructors, and Examination Requirements.”

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: NA

FISCAL IMPACT: The following is a specific description, if applicable, of any fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year:

The Emergency Medical Services (EMS) program is funded through dedicated funds. This rulemaking has no fiscal impact to those funds or to the state general fund. This rulemaking is intended to be cost-neutral.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not held. However, the Department held a number of meetings around the state with EMS personnel and agencies. The changes in this rule concerning continuing education were based on concerns voiced during those meetings and required the Department to amend these rules prior to the end of the current licensure period.
INCORPORATION BY REFERENCE: There are no documents incorporated in this rulemaking.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

These rules are being amended to align with a new chapter of rules that provides the education, instructor, and examination standards an individual must meet to be a licensed EMS provider in Idaho. These rules include additions and references to rules from IDAPA 16.02.03, “Emergency Medical Services,” a chapter being repealed, and to the new chapter IDAPA 16.01.05, “Emergency Medical Services (EMS) -- Education, Instructors, and Examination Requirements.”

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was held under the Personnel Licensing and the Education chapters, but not specifically for this EMS chapter. The changes in this rule are being made for clarity and to align with the new education chapter and remove references to the repealed chapter.

As new chapters of rules have been written, the corresponding, obsolete portions of the EMS chapter (IDAPA 16.02.03) were deleted. The few rules remaining in the old chapter are being moved into the new EMS education chapter (proposed as IDAPA 16.01.05). As a result, the chapter can now be repealed.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year as a result of this rulemaking:

EFFECTIVE DATE: The effective date of the temporary rule is June 10, 2015.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule for Sales Tax Administrative Rule 027, Computer Equipment, Software, and Data Services. The action is authorized pursuant to Sections 63-105(2), 63-3624(a), 63-3635, and 63-3039, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

House Bill 209 passed during the 2015 legislative session amending the definition of tangible personal property in Section 63-3616, Idaho Code, specifically addressing issues with computer software. The amendment limited the imposition of tax on a sale of a digital video, digital music, digital book, or digital game, when the purchaser has a permanent right to use the product. The rule has been amended to the extent necessary to address conflicts with House Bill 209. In particular, sections of the rule that indicate leases, rentals, or subscriptions to any of these digital products are taxable have been changed.

TEMPORARY RULE JUSTIFICATION: Pursuant to Section 67-5226(1), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

As noted in the Descriptive Summary above, House Bill 209 amended Section 63-3616, Idaho Code, the primary governing law for Rule 027. The passage of the bill created conflicts with the rule as soon as it went into effect on April 1, 2015. Since this deadline had already passed, the rule needed to be changed to comply with amendments to the governing law. The benefit to taxpayers is a reduction in confusion by eliminating conflicts between the code and rule.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fee or charge being imposed or increased is justified and necessary to avoid immediate danger and the fee is described herein: NA

THE FOLLOWING IS THE TEXT OF THE TEMPORARY RULE FOR DOCKET NO. 35-0102-1503
(Only those Sections being amended are shown.)
027. COMPUTER EQUIPMENT, SOFTWARE, AND DATA SERVICES (RULE 027).
Section 63-3616, Idaho Code

01. Definitions. For purposes of this rule, the following terms will have the following meanings:

a. Canned Software. Canned software is prewritten software which is offered for sale, lease, or use to customers on an off-the-shelf basis with little or no modification at the time of the transaction beyond specifying the parameters needed to make the program run. Evidence of canned software includes the selling, licensing, or leasing of identical software more than once. Software may qualify as custom software for the original purchaser, licensee, or lessee, but become canned software when sold to others. Canned software includes program modules which are prewritten and later used as part of a larger computer program.

b. Computer. A computer is a programmable machine or device having information processing capabilities and includes word, data, and math processing equipment, testing equipment, programmable microprocessors, and any other integrated circuit embedded in manufactured machinery or equipment.

c. Computer Hardware. Computer hardware is the physical computer assembly and all peripherals, whether attached physically or remotely by any type of network, and includes all equipment, parts and supplies.

d. Computer Program. A computer program, or simply a program, is a sequence of instructions written for the purpose of performing a specific operation in a computer.

e. Computer Software. Computer software, or simply software, is defined as any of the following:

i. A computer program;

ii. Any part of a computer program;

iii. Any sequence of instructions that operates automatic data processing equipment; or

iv. Information stored in an electronic medium.

f. Custom Software. Custom software is software designed and written by a vendor at the specific request of a client to meet a particular need. Custom software includes software which is created when a user purchases the services of a person to create software which is specialized to meet the user’s particular needs.

g. Digital Product. See definition for “Information Stored in an Electronic Medium” in Subsection 027.01.h.

h. Information Stored in an Electronic Medium. Any electronic data file other than a computer program which can be contained on and accessed from storage media. The term includes audio and video files and any documents stored in an electronic format. For purposes of this rule, the term is interchangeable with “digital product.”

i. Load and Leave Method. A method of software delivery in which the vendor or an agent of the vendor loads software onto the user’s storage media at the user’s location but does not transfer storage media containing the software to the user.

j. Remotely Accessed Computer Software. Computer software that a user accesses over the internet, over private or public networks, or through wireless media, and the user only has the right to use or access the software by means of a license, lease, subscription, service, or other agreement.
k. Storage Media. Storage media include, but are not limited to, hard disks, optical media discs, diskettes, magnetic tape data storage, solid state drives, and other semiconductor memory chips used for nonvolatile storage of information readable by a computer. (4-11-15)

02. Computer Hardware. The sale or lease of computer hardware is a sale at retail. Sales tax is imposed based on the total purchase price, lease, or rental charges. See Rule 024 of these rules. (4-11-15)

03. Canned Software. When canned software is sold and delivered on storage media to the user and the storage media remains in the possession of the user, it is tangible personal property and the sale is taxable. If the storage media is sold along with other computer hardware, any canned software loaded on the storage media is tangible personal property the sale of which is taxable. If canned software is sold and delivered electronically or by the load and leave method, it is not tangible personal property and the sale is not taxable. If canned software is sold using a physical package but the package does not contain the canned software on storage media, it is not tangible personal property and the sale is not taxable. For example, if a printed key code is sold in a box that allows the user to download canned software and activate the canned software using the key code, the sale is not taxable. (4-11-15)

a. If canned software is loaded on a user’s computer but has minimal or no functionality without connecting to the provider’s servers over the internet, the sale of that canned software may still be taxable based upon the delivery method of the canned software as outlined in Subsection 027.03 of this rule. (4-11-15)

b. Special rules apply to digital music, digital books, digital videos, and digital games. See Subsections 027.06 through 027.08 of this rule. (4-11-15)

c. When a sale of canned software is taxable, tax applies to the entire amount charged to the customer for canned software. If the consideration consists of license fees, royalty fees, right to use fees or program design fees, whether for a period of minimum use or for extended periods, all fees are includable in the purchase price subject to tax. (4-11-15)

04. Remotely Accessed Computer Software. Remotely accessed computer software is not tangible personal property and charges to use or access such software are not subject to tax. (4-11-15)

05. Maintenance Contracts. Maintenance contracts sold in connection with the sale or lease of canned software generally provide that the purchaser will be entitled to receive periodic program enhancements and error correction, often referred to as upgrades, either on storage media or through remote telecommunications. The maintenance contract may also provide that the purchaser will be entitled to telephone or on-site support services. (3-6-00)

a. If the maintenance contract is required as a condition of the sale, lease, or rental of canned software, the gross sales price is subject to tax if the software to which the contract applies is subject to tax. Tax applies whether or not the charge for the maintenance contract is separately stated from the charge for software. In determining whether an agreement is optional or mandatory, the terms of the contract shall be controlling. (4-11-15)

b. If the maintenance contract is optional to the purchaser of canned software: (3-30-07)

i. Then only the portion of the contract fee representing upgrades is subject to sales tax if the fee for any maintenance agreement support services is separately stated and the upgrades are delivered on storage media; (4-11-15)

ii. If the fee for any maintenance agreement support services is not separately stated from the fee for upgrades and the upgrades are delivered on storage media, then fifty percent (50%) of the entire charge for the maintenance contract is subject to sales tax; (4-11-15)

iii. If the maintenance contract only provides upgrades delivered on storage media, and no maintenance agreement support services, then the entire sales price of the contract is taxable; (4-11-15)

iv. If the maintenance contract only provides support services, and the customer is not entitled to or does not receive any canned computer software upgrades or enhancements, then the sale of the contract is not taxable.
c. If an optional software maintenance contract provides for software updates to be delivered electronically but also allows a customer to receive software updates on storage media, no portion of the contract is taxable unless the customer actually receives software updates on storage media. (3-30-07)

06. Digital Products. Digital music, digital books, and digital videos are tangible personal property regardless of the delivery or access method, but only if the purchaser has a permanent right to use the digital music, digital books, or digital videos. Where the purchaser has a permanent right to use these digital products, the sale, lease, or rental of these digital products is taxable. Whether the user has the right to stream or download these digital products, the sale, lease, or rental of these digital products is taxable. Leases or rentals of these digital products are not taxable. (4-11-15)

a. Other than digital music, digital books, or digital videos, information stored in an electronic medium is tangible personal property only if it is transferred to the user on storage media that is retained by the user. (4-11-15)

b. Special rules apply to digital games. See Subsection 027.08 of this rule. (4-11-15)

07. Digital Subscriptions. Digital subscriptions consist of an agreement with a seller that grants a user the right to obtain or access digital products in a fixed quantity or for a fixed period of time. Digital subscriptions granting access to a database of digital music, digital books, or digital videos are not taxable regardless of the method of access or delivery. (4-11-15)

a. Subscription charges to a digital newspaper, magazine, or other periodical are not taxable. (4-11-15)

b. Subscription charges to an online research database that includes products other than digital music, digital books, or digital videos, are not taxable. The charges are not taxable even if the user may download content from the database onto the user’s storage media. (4-11-15)

08. Digital Games. Digital games are tangible personal property regardless of access or delivery method and, therefore, but only if the purchaser has a permanent right to use the digital game. Where the purchaser has a permanent right to use a digital game, the sale of a digital game is taxable. If a digital game requires the internet for some or all of its functionality, the sale of that digital game is still taxable if the purchaser has a permanent right to use the digital game. If a user pays a periodic subscription charge to play a digital game that requires a constant connection over the internet to a remote server, the periodic subscription charge is not taxable. If a user pays a periodic charge for a gaming service that enables certain functionality such as multiplayer capability in one (1) or more digital games, the periodic charge is not taxable. If a user purchases virtual currency that enables additional content or progress in a digital game, the purchase of the virtual currency is taxable. (4-11-15)

09. Reports Compiled by a Computer. The sale of statistical reports, graphs, diagrams, microfilm, microfiche, photorecordings, or any other information produced or compiled by a computer and sold or reproduced for sale in substantially the same form as it is produced is a sale of tangible personal property and is taxable regardless of the means of transfer. If a report is compiled from information furnished by the same person to whom the finished report is sold, the report will be subject to tax unless the person selling the report performs some sort of service regarding the data or restates the data in substantially different form than that from which it was originally presented.

a. Example: An accountant uses a computer to prepare financial statements from a client’s automated accounting records. No tax will apply since what is sought is the accountant’s expertise and knowledge of generally accepted accounting principles. (3-6-00)

b. Example: A company sells mailing lists which are transferred to the user on storage media that remains in the possession of the user. The seller compiles all the mailing lists from a single data base. Since the same data base is used for all such mailing lists it is not custom software. Therefore, the sale is subject to tax. (4-11-15)
Example: An auto parts retailer hires a data processing firm to optically scan and record its parts book on a computer disk. No analysis or other service is performed regarding the data. Essentially, this is the same as making a copy of the parts books and the sale is, therefore, subject to tax. (7-1-93)

d. When additional copies of records, reports, manuals, tabulations, etc., are provided, tax applies to the charges made for the additional copies. Additional copies are all copies in excess of those produced simultaneously with the production of the original and on the same printer, where the copies are prepared by running the same program, by using multiple printers, by looping the program, by using different programs to produce the same output, or by other means. (7-1-93)

e. Charges for copies produced by means of photocopying, multilithing, or by other means are subject to tax. (7-1-93)

10. Online or Remote Data Storage. Charges to store data on storage media owned and controlled by another party is a nontaxable service. (4-11-15)

11. Training Services. Separately stated charges for training services are not subject to the tax, unless they are incidental services agreed to be rendered as a part of the sale of tangible personal property as provided by Rule 011 of these rules. (3-6-00)

a. When separate charges are made for training materials, such as books, manuals, or canned software, sales tax applies. (7-1-93)

b. When training materials are provided at no cost to the purchaser in conjunction with the sale of tangible personal property, the training materials are considered to be included in the sales price of the tangible personal property. (7-1-93)

c. When no tangible personal property, computer hardware or canned software, is sold and training materials are provided at no charge to the customer, the provider of the training is the consumer of the training materials and must pay sales tax or accrue and remit use tax. (3-6-00)

12. Custom Software. The transfer of title, possession, or use for a consideration of custom software is not subject to sales tax. Custom software is specified, designed, and created by a vendor at the specific request of a client to meet a particular need. Custom software includes software which is created when a user purchases the services of a person to create software which is specialized to meet the user’s particular needs. The term includes those services that are represented by separately stated and identified charges for modification to existing canned software which are made to the special or ders of the customer, even though the sales, lease, or license of the existing program remains taxable. Examples of services that do not result in custom software include loading parameters to initialize program settings and arranging preprogrammed modules to form a complete program. (7-1-93)

a. Tax does not apply to the sale, license, or lease of custom software regardless of the form or means by which the program is transferred. The tax does not apply to the transfer of custom software or custom programming services performed in connection with the sale or lease of computer equipment if such charges are separately stated from the charges for the equipment. (3-6-00)

b. If the custom programming charges are not separately stated from the sale or lease of equipment, they will be considered taxable as part of the sale. (7-1-93)

c. Custom software includes a program prepared to the special order of a customer who will use the program to produce and sell or lease copies of the program. The sale of the program by the customer for whom the custom software was prepared will be a sale of canned software. (7-1-93)

13. Purchases for Resale. Sales tax does not apply when computer hardware or software is purchased for resale. A properly executed resale certificate must be on file. See Rule 128 of these rules. (3-6-00)
AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Sections 63-105 and 63-2427, Idaho Code. In addition, rulemaking is authorized by Sections 63-2424, 63-2442A, and 49-439, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than August 19, 2015.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Motor Fuels Tax Rule 004, Incorporation by Reference. This rule will be changed to update the incorporated references and move the reference to Administrative and Enforcement Rule 110 from Rule 510.

Motor Fuels Tax Rule 115, When the Gasoline Tax Rate Increases, Use Conversion Factor to Adjust Annual Gaseous Fuels Permit Fees. This rule will be deleted. HB 132 passed in the 2015 legislative session eliminated the gaseous fuels permit program and the rule is no longer required.

Motor Fuels Tax Rule 132, Licensed Gaseous Fuel Distributor’s Reports. The portions of the rule that refer to the gaseous fuel permit or gaseous fuel decal will be deleted. HB 132 passed in the 2015 legislative session eliminated the gaseous fuels permit program. The gaseous fuel distributor recordkeeping instructions for the gaseous fuel permit program are no longer required.

Motor Fuels Tax Rule 410, Adoption of International Fuel Tax Agreement. This rule will be deleted. When the International Fuel Tax Agreement was incorporated into Rule 004, this rule became unnecessary.

Motor Fuels Tax Rule 510, Application and Reporting of the Petroleum Transfer Fee. Paragraph 7 of this section will be reworded. It needs to be amended since the limited distributors license was included in Section 63-2427C by HB 0043 during the 2015 Legislative session. Paragraph 10 of this section is being deleted because Administrative and Enforcement Rule 110 is referenced incorrectly.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: None.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: NA

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted because the changes were required by HB 0132 that was passed during the 2015 Legislative session (Rules 115 and 132); is no longer necessary because of change to another rule (Rule 410); is required to update previously incorporated references (Rule 004); or to make technical corrections to the rule (Rule 510).

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into Rule 004, INCORPORATION BY REFERENCE:

The International Fuel Tax Agreement is being incorporated by reference because it is adopted by Section 63-2442A(1), Idaho Code.

The International Registration Plan is being incorporated by reference because it is adopted by Section 49-435(1), Idaho Code. The State Tax Commission references the International Registration Plan when giving the record requirements when auditing these registrants as required by 49-439, Idaho Code.

(BREAK IN CONTINUITY OF SECTIONS)

132. LICENSED GASEOUS SPECIAL FUELS DISTRIBUTOR’S REPORTS (RULE 132).
Section 63-2424, Idaho Code

01. Monthly Reports. Every licensed gaseous special fuels distributor (distributor) shall file with the State Tax Commission a monthly tax report and supporting detailed schedules on forms prescribed by the State Tax Commission. Such reports shall contain a declaration by the person filing the report that the statements contained therein are true and are made under penalties of perjury. The report shall include the following information together with such other information as the State Tax Commission may require:
(3-20-14)

a. The total taxable gallons of gaseous special fuels delivered into the supply tank of registered licensed motor vehicles;
(3-30-07)

b. The taxable gallons after deduction of a two percent (2%) allowance. See Rule 140 of these rules;
(4-5-00)

c. The tax computation;
(7-1-99)

d. The bad debt amount, if any. (This credit or debit only applies to debt from fuel taxes that have been written off for income tax purposes in the distributor’s records before December 1, 2007.) See Rule 140 of these rules;
(4-2-08)

e. The gaseous fuels permit fees (Attach to the report the yellow copy of the receipt for each gaseous fuels permit sold during that month), and
(4-5-00)

f. The net tax due;
(4-5-00)

g. A receipt schedule reporting the total number of taxable gallons of gaseous special fuels sold must be attached to the distributor’s report.
(4-5-00)

02. Report Due and Payment Required. The report shall be due on or before the last day of the month following the month to which the report relates together with the payment of any tax, annual gaseous fuels permit fees, penalty or interest due. See Rule 010 of these rules relating to method of payment and requirement for payments of one hundred thousand dollars ($100,000) or more.
(7-1-99)

03. Failure to Pay Tax and Permit Fees. Any distributor required to pay the tax or permit fee imposed by Section 63-2424, Idaho Code, who fails to pay such tax or permit fee shall be liable to the State Tax Commission.
for the amount of tax or permit fee not paid plus any applicable penalty or interest. The State Tax Commission may collect such amounts in the manner provided in Section 63-2434, Idaho Code.

04. Receipt of Gaseous Fuels. The special motor fuels tax is not imposed on gaseous special fuels when the fuels are received, as defined in Section 63-2403, in Idaho Code. Propane and natural gas are presumed to be tax-exempt fuels unless delivered into the main supply tank of a registered licensed motor vehicle.

05. Annual Fees for Gaseous Fuels Permit. Persons operating vehicles powered by gaseous fuels may pay an annual fee for a gaseous fuels permit instead of paying the special fuel taxes at the time propane or natural gas is purchased. Distributors who sell these permits shall issue a permit that will be in the form of a decal to be displayed in a conspicuous spot visible from the outside of the permitted vehicle. The fees for gaseous fuels permits are based on the gross vehicle weight of the vehicles and are set by Rule 115 of these rules as is mandated by Section 63-2424(2), Idaho Code. The gaseous fuels permit is valid for the annual permit period of July 1 through June 30 of the following year. The annual permit period displayed on the decal will be the year in which the decal expires.

06. Documentation of Exempt Sales of Gaseous Special Fuels Delivered into Motor Vehicles. Gaseous special fuels delivered into the fuel supply tank of a registered licensed or required to be registered licensed motor vehicle are taxable except for:

a. Government. Gaseous special fuels used by vehicles owned or leased, and operated by the federal government, or by an instrumentality of the state of Idaho, including all of its political subdivisions, are exempt from the special motor fuels tax on gaseous special fuels. In this case, the distributor must record the name of the governmental entity, the license or identification number of the vehicle, and the type of vehicle on the sales document.

b. Gaseous Fuels Decal. Gaseous fuels dispensed into the fuel supply tank of a motor vehicle displaying a valid Gaseous Fuels Decal are exempt from tax. For the exempt status to be valid, the distributor must record the purchaser’s name, address, vehicle license number, and the words “gaseous fuels decal” or the decal number on the sales document.

c. Manned and Unmanned Stations. A manned station must have a representative at the point of sale to visually inspect the vehicle, including the decal when required, in order to make exempt sales of gaseous special fuels. Exempt sales of gaseous special fuels from an unmanned station are allowed when each sale is recorded by other visual means. When a distributor cannot meet the previous two requirements, it must request approval from the State Tax Commission before making exempt sales of gaseous special fuels.

07. Completion of Gaseous Fuels Receipt Book(s). The following information is required to be recorded by a gaseous fuels distributor in his gaseous fuels receipt book for each gaseous fuels permit (decal) sold:

a. The date;

b. The amount;

c. One (1) of the following weight classes:
   i. Zero—eight thousand pounds (0 – 8,000 lbs.); or
   ii. Eight thousand one—sixteen thousand pounds (8,001 – 16,000 lbs.); or
   iii. Sixteen thousand one—twenty-six thousand pounds (16,001 – 26,000 lbs.); or
   iv. Twenty-six thousand one pounds (26,001 lbs.) and over.

d. The current month.
e. The annual permit period.

f. The customer’s name and vehicle license plate number.

g. The name and license number of the gaseous fuels distributor who is selling the permit; and

h. The signature of the salesperson.

8. Annual Reconciliation of Gaseous Fuels Receipt Books and Decals. A distributor who sells gaseous fuels permits must reconcile its account with the State Tax Commission for the annual permit period ending June 30, by July 31, of the same year. Distributors may begin ordering decals and receipt books in May for the upcoming annual permit period. The following is required to be received by the State Tax Commission for reconciliation:

a. All unused/unsold gaseous fuels decals;

b. All voided receipts (white and yellow copies) not previously submitted with the distributor report;

c. All receipt books (pink copies must be intact); and

d. A completed gaseous fuels reconciliation form which includes:

   i. The number of decals ordered for the annual permit period;

   ii. The number of decals sold for the annual permit period;

   iii. The balance of decals at the end of the annual permit period; and

   iv. The number, if any, of decals lost or destroyed. If decals are lost or destroyed, a statement describing the circumstances of the loss or destruction must accompany the distributor’s gaseous fuels permit reconciliation.

9. Assessment for Unaccounted for Decals. An amount equal to the annual fee of the highest weight class will be assessed for each decal not accounted for during the annual reconciliation, unless there is clear and convincing evidence the decal was destroyed or mutilated.

10. Sales of Gaseous Fuels Decals by The State Tax Commission. The State Tax Commission may act as a seller of gaseous fuels decals. The State Tax Commission will maintain records and report sales of decals in a manner sufficient to reconcile its accounts.

(BREAK IN CONTINUITY OF SECTIONS)

401. -- 409. (RESERVED)

410. ADOPTION OF INTERNATIONAL FUEL TAX AGREEMENT (RULE 410). Under the authority of Sections 63-2434, 63-3039, 67-5203, and 63-2442A, Idaho Code, the State Tax Commission and motor fuels users licensed or required to be licensed pursuant to the International Fuel Tax Agreement (IFTA), are governed by the provisions of the IFTA Articles of Agreement (Agreement), Article I, Section R120 Governing Documents (revised January 1, 2013). This section is incorporated by reference. The Agreement, Procedures Manual and Audit Manual are equally binding on all IFTA member jurisdictions and licensees. Motor fuels users who operate under an Idaho IFTA license must comply with all applicable rules contained in these rules.
510. APPLICATION AND REPORTING OF THE PETROLEUM TRANSFER FEE (RULE 510).

Section 41-4909, Idaho Code

01. Application.

   a. The Petroleum Transfer Fee applies to the first receipt of any petroleum or petroleum product within this state. The amount of the fee is one cent ($0.01) for each gallon of petroleum or petroleum product received. The fee shall be paid by the distributor who receives any petroleum or petroleum product not excluded from the fee, unless the fee has previously been paid on the same petroleum or petroleum product. Only licensed Idaho fuel distributors may receive refunds or credits of the transfer fee. The refunds or credits must be claimed on the distributor report required in Section 63-2406, Idaho Code, according to Rule 180. (3-20-14)

   b. The legal incidence of the fee is on the first distributor which receives any petroleum or petroleum product. This distributor is required to report and pay the transfer fee to the State Tax Commission. The fee is not required to be separately stated on any invoice, receipt, or other billing document. A choice to state separately the fee does not change its legal incidence or its nature. (3-20-14)

02. Receipt of Petroleum Products. Receipt of petroleum or petroleum products shall be determined according to Section 63-2403, Idaho Code. Receipt is determined by the movement of petroleum or petroleum products from permanent storage facility (terminal) or crossing the border of this state. Storage of petroleum or petroleum products is incidental to the movement of the petroleum or petroleum products. (3-20-14)

03. Exemption to Application of the Transfer Fee. The Petroleum Transfer Fee does not apply to petroleum or petroleum products that are:

   a. Returned to the refinery or pipeline terminal. (6-23-94)

   b. Exported from this state. No fuel will be considered exported, unless the distributor can prove the export by documentation required by Rule 140 of these rules. (7-1-99)

   c. Received by a railroad or railroad corporation or any employee of them. Petroleum or petroleum products sold by a licensed distributor to a railroad or railroad corporation or any employee of them is subject to the Petroleum Transfer Fee unless the petroleum or petroleum products are “received” by the railroad or railroad corporation as defined in Section 63-2403, Idaho Code. The exclusion for railroad employees applies only when the activity relating to the fuel is part of their employment with the railroad or railroad corporation. (7-1-99)

   d. Received in retail containers of fifty-five (55) gallons or less or petroleum products to be packaged or repackaged into retail containers of fifty-five (55) gallons or less, if such containers are intended to be transferred to the ultimate consumer of the petroleum or petroleum products. (6-23-94)

04. Casualty Loss and Two Percent (2%) Allowance Not Deductible. All petroleum and petroleum products received in this state that are not within an exemption or exclusion listed in this rule are subject to the fee, without further deductions or discounts despite the product’s use. Deductions allowed to motor fuel distributors in Section 63-2407, Idaho Code, for casualty loss and the two percent (2%) allowance are not deductions applicable to the Petroleum Transfer Fee. (3-20-14)

05. Petroleum and Petroleum Products. The products subject to the Petroleum Transfer Fee are crude oil or any fraction of it that is liquid at a temperature of sixty (60) degrees Fahrenheit and a pressure of fourteen and seven tenths (14 7/10) psi. These products are all products refined from crude oil including but not limited to motor gasoline, alcohol blended fuels, such as E-10 and E-85, including the alcohol content of blended fuel, diesel fuel (#1 - #6), biodiesel blended fuels, such as B-20, including the biodiesel content of the blended fuel, heating oil,
aviation fuel, naphtha, naphtha-type jet fuel, kerosene-type jet fuel (JP#1 - #8), motor oil, brake fluid, tractor fuel, distillate fuel oil, stove fuel, unfinished oils, turpentine substitutes, lamp fuel, diesel oils (#1 - #6), engine oils, railroad oils, kerosene, commercial solvents, lubricating oils, fuel oil, boiler fuel, refinery fuel, industrial fuel, bunker fuel, residual fuel oil, road oils, and transmission fluids. Ethanol (E00), natural gasoline, and biodiesel (B00) are also defined as petroleum and petroleum products that are subject to the Petroleum Transfer Fee. (4-7-11)

06. Exclusion of Petroleum and Petroleum Products on Which The Fee Has Previously Been Paid. Used oil as defined by 40 CFR Part 279 (July 1, 2000) is presumed to be comprised of petroleum or petroleum products on which the transfer fee has previously been paid when generated in Idaho. The distributor shall not report used oil generated in Idaho on the distributor report nor shall a distributor pay or receive a credit of the transfer fee on used oil generated in Idaho. When used oil is not generated in Idaho it is presumed to be subject to the transfer fee. The distributor must report and pay the transfer fee unless an exemption or exclusion applies. (3-20-14)

07. Licensed Motor Fuel Distributors License and Limited Distributor License. Any person holding a motor fuel distributor's license issued by the State Tax Commission under Section 63-2427A, Chapter 24, Title 63, Idaho Code, is also licensed for the Petroleum Transfer Fee. No additional license is required. Any person who receives any petroleum or petroleum product in this state, but who is not a licensed distributor nor required to obtain a motor fuel distributor license under Section 63-2427A, Idaho Code, shall apply to the State Tax Commission for a limited distributor license. The limited distributor license is only for reporting the Petroleum Transfer Fee and is not a license for any purpose under Chapter 24, Title 63, Idaho Code. (7-1-99)

08. Reporting Requirements. (6-23-94)

a. Distributors licensed under Section 63-2427A, Idaho Code. A motor fuel distributor shall report and pay the Petroleum Transfer Fee with the distributor’s report required by Section 63-2406, Idaho Code. For fuel subject to the taxes imposed by Sections 63-2402 and 63-2408, Idaho Code, the Petroleum Transfer Fee shall be included in the report in which the distributor is required to report the tax on the same fuel. (5-3-03)

EFFECTIVE DATE: The effective date of the temporary rule is June 6, 2015.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 67-5717(11), Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than August 19, 2015.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The term “purchasing authority” is used in the rules revised by the 2015 legislative session. The term “purchasing activity” remains in the rules where revisions were not approved. This temporary and proposed rule provides a consistent definition for both terms and blends the revised and unrevised rules. This rulemaking establishes a definition for the terms “purchasing activity” and “purchasing authority.”

TEMPORARY RULE JUSTIFICATION: Pursuant to Section 67-5226(1)(b), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

The 2015 Legislature accepted only a few sections in a proposed global revision to IDAPA 38.05.01. The partial revision resulting from this action created an unintended ambiguity in the use of the term “purchasing authority.” This temporary and proposed rulemaking defines the term and resolves the ambiguity created by the Legislature’s partial revision of IDAPA 38.05.01.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: NA

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: NA

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted because a temporary rulemaking was required.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: NA

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This rule change is necessary so that the Idaho Transportation Department (ITD) is in compliance with the passage of HB 70, passed during the 2015 Idaho Legislative Session, and that the rules and statutes affecting ITD are consistent. It allows more flexibility in the amount of weight carried on steer axles.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(b) and (c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons: the change ensures consistency between this administrative rule and the passage of HB 70. It also confers a benefit.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: There are no fees being imposed or increased by this rulemaking.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: There is no fiscal impact to the state general fund.

NEGOTIATED RULE-MAKING: Pursuant to Section 67-5221(j), Idaho Code, negotiated rulemaking was not conducted because the rule change is simple in nature.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: NA

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Section 22-3309, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than August 19, 2015.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The changes are necessary to update the rules to proper format and to clarify terminology. The assessment rate was increased in 2013 after surveying wheat growers and finding support was 3-to-1 in favor of a higher tax for the purpose of investing more in research and industry infrastructure. The quarterly return forms create an administrative burden for the Commission and will no longer be provided. The rule changes increase the amount per bushel from $.02 to $.03½ cents to the Commission under commodity credit loans; bring rules in line with required rules format; correct terminology; clarify elevator operator reporting; and delete reference to the quarterly return forms.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: None.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: NA

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted because the rule changes are simple in nature. Additionally, significant feedback was provided by industry stakeholders through regular meetings of the Commission.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: NA

007. - 009. (RESERVED)

010. DEFINITIONS.
The definitions set forth in Section 22-3303, Idaho Code, shall apply to this chapter.
021. **TIME OF FILING WHEAT TAX RETURNS FORM.**

01. **Forms.** Wheat assessment Tax Return forms will be available at the Idaho Wheat Commission office for use by the first purchaser (buyer) of Idaho grown wheat in transmitting the Idaho wheat assessment tax to the Idaho Wheat Commission. (7-1-93)

02. **Procedures.** At the end of each quarter, buyers shall execute the Wheat Tax Return (Form Number 1). One (1) copy of the form and a check covering the entire amount of all wheat tax collections made during the quarter shall be mailed to the Executive Director, Idaho Wheat of the Commission, 821 W. State St., Boise, Idaho, not later than the fifteenth day of the month at the end of each quarter (October 15, January 15, April 15, and July 15, respectively) of each calendar year. If no wheat has been purchased during any quarter, one (1) copy of the Wheat Tax Return Form Number 1 declaring that no wheat has been purchased, shall be signed and mailed to the Executive Director of the Idaho Wheat Commission. (7-1-93)

[Proposed Sections 101 through 105 are being moved and renumbered from Codified Sections 303 through 307 respectively]

303. **MIXTURES.**
When the grain is bought as wheat, the tax must be collected on the full net weight of the grain. The tax must also be collected on any mixtures containing fifty percent (50%) or more of wheat. (7-1-93)

304. **NET WEIGHT.**
The tax must be collected on the net weight of the wheat after deduction of dockage and smut, and not upon the gross weight. (7-1-93)

305. **TRUCKERS.**
When a trucker buys wheat from a grower, it is his responsibility under the law to deduct the tax and remit the amount to the Commission. The trucker in such instances is liable for the deduction of tax. Those who purchase wheat from such truckers are not directly liable for the deduction of tax, but buyers should make sure that the trucker has in fact purchased the wheat from a grower and is not the person who produced the wheat. (7-1-93)

306. **WHEAT DELIVERED ON ACCOUNT OR EXCHANGED FOR OTHER WHEAT.**
When wheat is delivered and credited to the account of a grower who is purchasing mixed feeds and other commodities, such transactions are really sales of the wheat delivered. In these cases, the buyer must deduct the tax from the amount credited to the grower and remit to the Commission just as though the sale had been made for cash. On the other hand, if the grower delivers the wheat in exchange for other wheat and no sale of the wheat is involved, the tax should not be deducted. (7-1-93)

307. **END USE.**
Idaho wheat is subject to tax when it is first sold or contracted into commercial channels. Beside traditional uses of wheat for flour milling, domestic and export, commercial channels include sale of wheat for use as feed, or any industrial or chemurgic use. (7-1-93)

146. -- 199. **RESERVED**

200. **PENALTY FOR LATE PAYMENT OF WHEAT TAX.**

01. **Interest Penalties.** Any person or firm who makes payment of wheat tax collections to the Idaho Wheat Commission at a date later than the fifteenth day of the month at the end of each quarter as prescribed in Subsection 100.02 of these rules, shall be subject to a late payment penalty of fifteen percent (15%) per annum on the amount due, unless that person or firm, within fifteen (15) days of the date, notifies the Idaho Wheat Commission in writing of any delay in payment and submits the payment of wheat tax collections within thirty (30) days of the
prescribed due date.

02. **Additional Penalties.** The Idaho Wheat Commission shall be entitled, in addition to the penalty of fifteen percent (15%) per annum, to recover from the buyer, all costs, fees, and reasonable attorney’s fees incurred in collecting the wheat tax collections and penalty as prescribed in Section 22-3315, Idaho Code.

201. -- 299. (RESERVED)

300. **Wheat Under Commodity Credit Corporation Loans.**

01. **Payee.** The Wheat Commission will be named as payee to receive two and one half cents ($2.35) per bushel when the producer’s note and loan agreement is executed by the County Agricultural Stabilization and Conservation Farm Service Office Agency (FSA). In such cases, the lending agency will send the tax directly to the Wheat Commission. When the producer’s note and loan agreement shows that the tax has been deducted and sent to the Wheat Commission, it will not be necessary for the buyer to deduct the tax when the wheat is purchased.

02. **Tax.** Since the legislature has made the tax a lien prior to all other liens and encumbrances of the wheat, it is necessary for the grain buyer to make sure the tax has been paid in order to obtain clear title to the wheat. The tax should be deducted in all cases where there is not evidence that the tax was previously paid by a lending agency. In case errors occur and the tax is deducted by a lending agency and again deducted by a grain buyer, refund will be made by the Idaho Wheat Commission.

[Codified Section 301 is being moved and renumbered to Proposed Section 400]

301. -- 399. (RESERVED)

302. **Wheat Commission Form Number 1.**

Form Number 1 shall be used to file quarterly returns required by these rules. One (1) copy to be sent to the Commission at the end of each quarter.

[Codified Sections 303 through 307 are being moved and renumbered to Proposed Sections 101 through 105 respectively]

[Proposed Section 400 is being moved and renumbered from Codified Section 301]

204. **Invoices and Records.**

01. **Invoices.** Pursuant to Section 22-3316, Idaho Code, provides for the Purchaser shall issue separate invoices to be delivered to the grower for each purchase. The Wheat Commission is will not provide a special form for this purpose and suggests that buyers use the final settlement vouchers of accounts of sale commonly used in Idaho. The amount of the Idaho state wheat tax deducted must be shown on each settlement voucher.

02. **Final Settlement Vouchers.** Buyers are not required to send the Commission copies of their settlement vouchers issued to individual growers, but should keep copies available for examination by representatives of the Commission at a later date upon request. Where it is not the practice to issue settlement vouchers of accounts of sale, buyers should be sure that they have accurate records of all wheat bought purchased from growers and the amount of wheat bought purchased from each grower.

03. **Elevator Operator Reports.** Elevator operators must submit to the Commission at least annually, a report listing the growers who delivered wheat to their elevator each year. Such reports must include the name and contact information for each grower.

DESCRIPTIVE SUMMARY: The purpose of this rulemaking is to ensure that the state rules are consistent with federal regulations and to update federal regulations incorporated by reference to include those revised as of July 1, 2015.

This rulemaking reconciles Idaho’s state rules with federal regulations by making three minor revisions:

1. The greenhouse gas definition of major source at Section 008 is now obsolete after the federal definition was vacated by the U.S. Supreme Court. This definition is being removed.

2. The federal regulations incorporated by reference are updated by capturing revisions as of July 1, 2015 (Section107) and by removing two federal provisions that are no longer required (Sections107.03.q. and 564).

3. The permit to construct section (Section 200) is clarified to define a major source to include both the prevention of significant deterioration (PSD) and nonattainment new source review definitions. The current rule implies that only the PSD definition applies. Idaho is required by federal law to implement both as appropriate.

Members of the regulated community who may be subject to Idaho's air quality rules, special interest groups, public officials, and members of the public who have an interest in the regulation of air emissions from sources in Idaho may be interested in commenting on this proposed rule. The proposed rule text is in legislative format. Language the agency proposes to add is underlined. Language the agency proposes to delete is struck out. It is these additions and deletions to which public comment should be addressed.

After consideration of public comments, DEQ intends to present the final proposal to the Board of Environmental Quality in the fall of 2015 for adoption of a pending rule. The rule is expected to be final and effective upon adjournment of the 2016 legislative session if adopted by the Board and approved by the Legislature. DEQ will submit the final rule to EPA for approval.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the incorporation by reference is necessary:
Incorporation by reference is necessary to ensure that the state rules are consistent with federal regulations. Information for obtaining a copy of the federal regulations is included in the rule.

NEGOTIATED RULEMAKING: Negotiated rulemaking was not conducted. DEQ determined that negotiated rulemaking is not feasible due to the simple nature of this rulemaking and because DEQ has no discretion with respect to adopting federal regulations that are necessary for EPA approval of Idaho’s Title V Operating Permit Program and state primacy of Clean Air Act programs. Whenever possible, DEQ incorporates federal regulations by reference to ensure that the state rules are consistent with federal regulations.

IDAHO CODE SECTION 39-107D STATEMENT: This proposed rule does not regulate an activity not regulated by the federal government, nor is it broader in scope or more stringent than federal regulations.

FISCAL IMPACT STATEMENT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: Not applicable.

ASSISTANCE ON TECHNICAL QUESTIONS AND SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning this rulemaking, contact Tiffany Floyd at tiffany.floyd@deq.idaho.gov or (208) 373-0440.

Anyone may submit written comments by mail, fax or e-mail at the address below regarding this proposed rule. DEQ will consider all written comments received by the undersigned on or before September 9, 2015.

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking. This action is authorized by Sections 39-105, 39-107, and 39-3601 et seq., Idaho Code.

PUBLIC HEARING SCHEDULE: No hearings have been scheduled. Pursuant to Section 67-5222(2), Idaho Code, a public hearing will be held if requested in writing by twenty-five (25) persons, a political subdivision, or an agency. Written requests for a hearing must be received by the undersigned on or before August 21, 2015. If no such written request is received, a public hearing will not be held.

DESCRIPTIVE SUMMARY: The purpose of this rulemaking is to add language to the Idaho Water Quality Standards that is consistent with the federal regulations for designating and revising uses assigned to waterbodies, providing basis for guidance on the use designation/revision process.

A Use Attainability Analysis (UAA) is required in order to revise or remove a designated beneficial use that is not an existing use on a water body. According to federal Clean Water Act regulation (40 CFR 131.10), a designated use may be changed or removed if it is demonstrated that attaining the designated use is not feasible. The federal regulations describe six reasons for justifying infeasibility of use attainment, as well as limitations on removal of a currently designated use.

Not all waterbody beneficial use designations necessarily reflect the most appropriate use and may benefit from a UAA. Idaho has had mixed success in developing UAAs and changing use designations. Currently DEQ does not have language in its Water Quality Standards pertaining to the UAA process, and consequently, DEQ has no basis for a policy or guidance document on when a UAA is appropriate or how to perform a UAA. UAA involves considerable data collection, analysis, and resources to meet the high demonstrable threshold required to revise use designations. Without guidance on when a UAA is required and the requirements of a successful UAA, a UAA is difficult and risky.

In 2014 the state of Idaho Office of Performance Evaluations (OPE) submitted Evaluation Report 14-03 to the Joint Legislative Oversight Committee. The Report recommended that DEQ complete its UAA guidance document. In the DEQ response to Report 14-03, DEQ committed to completing the UAA guidance after a basis for UAA guidance was established in the Water Quality Standards. This rulemaking is intended to develop sufficient language regarding the UAA process such that the OPE recommended guidance may be completed.

Idahoans that recreate in, drink from, or fish Idaho’s surface waters, and any who discharge pollutants to those same waters, may be interested in commenting on this proposed rule. The proposed rule text is in legislative format. Language the agency proposes to add is underlined. Language the agency proposes to delete is struck out. It is these additions and deletions to which public comment should be addressed.

After consideration of public comments, DEQ intends to present the final proposal to the Board of Environmental Quality in the fall of 2015 for adoption of a pending rule. The rule is expected to be final and effective upon adjournment of the 2016 legislative session if adopted by the Board and approved by the Legislature.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the incorporation by reference is necessary: Not applicable.

NEGOTIATED RULEMAKING: The text of the proposed rule has been drafted based on discussions held and concerns raised during negotiations conducted pursuant to Idaho Code § 67-5220 and IDAPA 58.01.23.810-815. The Notice of Negotiated Rulemaking was published in the March 2015 Idaho Administrative Bulletin, Vol. 15-3, pages 16-17, and a preliminary draft rule was made available for public review. Meetings were held on April 7 and May 19, 2015. Several members of the public participated in this negotiated rulemaking process by attending the meetings and by submitting written comments. A record of the negotiated rule drafts, written comments, documents distributed during the negotiated rulemaking process, and the negotiated rulemaking summary is available at
All comments received during the negotiated rulemaking process were considered by DEQ when making decisions that resulted in drafting the proposed rule. At the conclusion of the negotiated rulemaking process, DEQ formatted the final rule draft for publication as a proposed rule. DEQ is now seeking public comment on the proposed rule.

**IDAHO CODE SECTION 39-107D STATEMENT:** The standards included in this proposed rule are not broader in scope, nor more stringent, than federal regulations and do not regulate an activity not regulated by the federal government.

**FISCAL IMPACT STATEMENT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year when the pending rule will become effective: Not applicable.

**ASSISTANCE ON TECHNICAL QUESTIONS AND SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning this rulemaking, contact Josh Schultz at josh.schultz@deq.idaho.gov, (208)373-0264.

Anyone may submit written comments by mail, fax or email at the address below regarding this proposed rule. DEQ will consider all written comments received by the undersigned on or before September 4, 2015.

**THE FOLLOWING IS THE PROPOSED TEXT OF DOCKET NO. 58-0102-1501**

(Only those Sections being amended are shown.)

**010. DEFINITIONS.**

For the purpose of the rules contained in IDAPA 58.01.02, “Water Quality Standards,” the following definitions apply:

**01. Activity.** For purposes of antidegradation review, an activity that causes a discharge to a water subject to the jurisdiction of the Clean Water Act.

**02. Acute.** A stimulus severe enough to induce a rapid response. In aquatic toxicity tests, acute refers to a single or short-term (i.e., ninety-six (96) hours or less) exposure to a concentration of a toxic substance or effluent which results in death to fifty percent (50%) of the test organisms. When referring to human health, an acute effect is not always measured in terms of lethality.

**03. Acute Criteria.** Unless otherwise specified in these rules, the maximum instantaneous or one (1) hour average concentration of a toxic substance or effluent which ensures adequate protection of sensitive species of aquatic organisms from acute toxicity due to exposure to the toxic substance or effluent. Acute criteria are expected to adequately protect the designated aquatic life use if not exceeded more than once every three (3) years. This is also
known as the Criterion Maximum Concentration (CMC). There are no specific acute criteria for human health; however, the human health criteria are based on chronic health effects and are expected to adequately protect against acute effects. (3-30-07)

04. **Aquatic Species.** Any plant or animal that lives at least part of its life in the water column or benthic portion of waters of the state. (8-24-94)

05. **Assigned Criteria.** Criteria associated with beneficial uses from Section 100 of these rules. (3-18-11)

06. **Background.** The biological, chemical or physical condition of waters measured at a point immediately upstream (up-gradient) of the influence of an individual point or nonpoint source discharge. If several discharges to the water exist or if an adequate upstream point of measurement is absent, the Department will determine where background conditions should be measured. (8-24-94)

07. **Basin Advisory Group.** No less than one (1) advisory group named by the Director, in consultation with the designated agencies, for each of the state’s six (6) major river basins which shall generally advise the Director on water quality objectives for each basin, work in a cooperative manner with the Director to achieve these objectives, and provide general coordination of the water quality programs of all public agencies pertinent to each basin. Each basin advisory group named by the Director shall reflect a balanced representation of the interests in the basin and shall, where appropriate, include representatives from each of the following: agriculture, mining, nonmunicipal point source discharge permittees, forest products, local government, livestock, Indian tribes (for areas within reservation boundaries), water-based recreation, and environmental interests. (3-20-97)

08. **Beneficial Use.** Any of the various uses which may be made of the water of Idaho, including, but not limited to, domestic water supplies, industrial water supplies, agricultural water supplies, navigation, recreation in and on the water, wildlife habitat, and aesthetics. The beneficial use is dependent upon actual use, the ability of the water to support a non-existing use either now or in the future, and its likelihood of being used in a given manner. The use of water for the purpose of wastewater dilution or as a receiving water for a waste treatment facility effluent is not a beneficial use. (8-24-94)

09. **Best Management Practice.** A practice or combination of practices, techniques or measures developed, or identified, by the designated agency and identified in the state water quality management plan which are determined to be the cost-effective and practicable means of preventing or reducing the amount of pollution generated by nonpoint sources to a level compatible with water quality goals. (3-20-97)

10. **Bioaccumulation.** The process by which a compound is taken up by, and accumulated in the tissues of an aquatic organism from the environment, both from water and through food. (8-24-94)

11. **Bioaccumulative Pollutants.** A compound with a bioaccumulation factor of greater than one thousand (1,000) or a bioconcentration factor of greater than one thousand (1,000). (4-11-15)

12. **Biological Monitoring or Biomonitoring.** The use of a biological entity as a detector and its response as a measure to determine environmental conditions. Toxicity tests and biological surveys, including habitat monitoring, are common biomonitoring methods. (8-24-94)

13. **Board.** The Idaho Board of Environmental Quality. (7-1-93)

14. **Chronic.** A stimulus that persists or continues for a long period of time relative to the life span of an organism. In aquatic toxicity tests, chronic refers to continuous exposure to a concentration of a toxic substance or effluent which results in mortality, injury, reduced growth, impaired reproduction, or other adverse effect to aquatic organisms. The test duration is long enough that sub-lethal effects can be reliably measured. When referring to human health, a chronic effect is usually measured in terms of estimated changes in rates (# of cases/ 1000 persons) of illness over a lifetime of exposure. (3-30-07)

15. **Chronic Criteria.** Unless otherwise specified in these rules, the four (4) day average concentration of a toxic substance or effluent which ensures adequate protection of sensitive species of aquatic organisms from
chronic toxicity due to exposure to the toxic substance or effluent. Chronic criteria are expected to adequately protect the designated aquatic life use if not exceeded more than once every three (3) years. This is also known as the Criterion Continuous Concentration (CCC). Human health chronic criteria are based on lifetime exposure. (3-30-07)

16. **Compliance Schedule or Schedule Of Compliance.** A schedule of remedial measures including an enforceable sequence of actions or operations leading to compliance with an effluent limitation, other limitation, prohibition, or standard. (8-24-94)

17. **Cost-Effective and Reasonable Best Management Practices (BMPs) for Nonpoint Sources.** All approved BMPs specified in Subsections 350.03 and 055.07 of these rules. BMPs for activities not specified are, in accordance with Section 350, determined on a case-by-case basis. (3-18-11)

18. **Daily Maximum (Minimum).** The highest (lowest) value measured during one (1) calendar day or a twenty-four (24) hour period, as appropriate. For ambient monitoring of dissolved oxygen, pH, and temperature, multiple measurements should be obtained at intervals short enough that the difference between consecutive measurements around the daily maximum (minimum) is less than zero point two (0.2) ppm for dissolved oxygen, zero point one (0.1) SU for pH, or zero point five (0.5) degree C for temperature. (3-30-07)

19. **Daily Mean.** The average of at least two (2) appropriately spaced measurements, acceptable to the Department, calculated over a period of one (1) day:

   a. Confidence bounds around the point estimate of the mean may be required to determine the sample size necessary to calculate a daily mean; (8-24-94)

   b. If any measurement is greater or less than five-tenths (0.5) times the average, additional measurements over the one-day period may be needed to obtain a more representative average; (3-20-97)

   c. In calculating the daily mean for dissolved oxygen, values used in the calculation shall not exceed the dissolved oxygen saturation value. If a measured value exceeds the dissolved oxygen saturation value, then the dissolved oxygen saturation value will be used in calculating the daily mean. (8-24-94)

102. DESIGNATION AND REVISION OF BENEFICIAL USES.
When designating or revising beneficial uses for a water body, the Department shall consult with the basin advisory group and the watershed advisory group with the responsibilities for the water body described in Chapter 36, Title 39, Idaho Code. After consultation, the Director shall identify the designated beneficial uses of each water body in these rules pursuant to the rulemaking and public participation provisions of Chapter 52, Title 67, Idaho Code. 

01. Designation of Beneficial Uses. Beneficial uses shall be designated in accordance with Section 39-3604, Idaho Code, taking into consideration the uses set forth in Section 100, and such physical, geological, chemical, and biological measures as may affect the surface water. Beneficial uses are designated according to water body unit unless designated otherwise. Use designations are made for each water body or segment whether or not they are being attained or are fully supported at the time of designation.

a. In designating beneficial uses, which a water body can reasonably be expected to attain, the Department shall consider:

i. Existing uses of the water body;

ii. The physical, geological, hydrological, atmospheric, chemical and biological measures that affect the water body; 

iii. The beneficial use attainability measures identified in Section 39-3607, Idaho Code;  

iv. The economic impact of the designation and the economic costs required to fully support the beneficial uses;
v. The attainment and maintenance of the water quality standards of downstream waters, including the waters of downstream states; (____)

vi. Adopting subcategories of a beneficial use and set the appropriate criteria to reflect varying needs of such subcategories of beneficial uses, for instance, to differentiate between cold water and warm water fisheries; (____)

vii. At a minimum, that beneficial uses are deemed attainable if they can be achieved by the imposition of effluent limits required under sections 301(b) and 306 of the federal Clean Water Act and cost-effective and reasonable best management practices for nonpoint source control; and (____)

viii. Designating seasonal beneficial uses as an alternative to reclassifying a water body or segment thereof to uses requiring less stringent water quality criteria. If seasonal beneficial uses are adopted, water quality criteria may be adjusted to reflect the timing of the beneficial use, e.g., salmonid spawning. However, seasonal beneficial uses and their criteria shall not preclude the attainment and maintenance of a more protective beneficial use at other times. (____)

b. In no case shall waste transport or waste assimilation be a designated beneficial use for a water body. (____)

02. Revision of Beneficial Uses.

a. Designated beneficial uses shall be reviewed and revised when such physical, geological, hydrological, atmospheric, chemical or biological measures indicate the need to do so. Designated beneficial uses may be revised or removed if the designated beneficial use is not an existing use, and it is demonstrated that attaining the designated beneficial use is not feasible due to one of the following factors: (____)

i. Naturally occurring pollutant concentrations prevent the attainment of the use; (____)

ii. Natural, ephemeral, intermittent or low flow conditions or water levels prevent the attainment of the use unless these conditions may be compensated for by the discharge of sufficient volume of effluent discharges without violating state water conservation requirements to enable uses to be met; (____)

iii. Human caused conditions or sources of pollution prevent the attainment of the use and cannot be remedied or would cause more environmental damage to correct than to leave in place; (____)

iv. Dams, diversions or other types of hydrologic modifications preclude the attainment of the use, and it is not feasible to restore the water body to its original condition or to operate such modification in a way that would result in the attainment of the use; (____)

v. Physical conditions related to the natural features of the water body, such as the lack of a proper substrate, cover, flow, depth, pools, riffles, and the like, unrelated to water quality, preclude attainment of aquatic life protection uses; or (____)

vi. Controls more stringent than those required by sections 301(b) and 306 of the federal Clean Water Act would result in substantial and widespread economic and social impact. (____)

b. Designated beneficial uses may not be removed if: (____)

i. They are existing uses unless a use requiring more stringent criteria is added; or (____)

ii. Such uses can be attained by implementing effluent limits required under sections 301(b) and 306 of the federal Clean Water Act and by implementing cost-effective and reasonable best management practices for nonpoint source control. (____)

c. Where existing water quality standards specify designated uses less than those which are presently
being attained, the Department shall revise its standards to reflect the uses actually being attained. (___)

d. A use attainability analysis is a structured scientific assessment of the factors affecting the attainment of the use which may include physical, chemical, biological, and economic factors as described in Subsection 102.02.a. A use attainability analysis must be conducted whenever: (___)

i. The Department designates uses for a water body that do not include the protection and propagation of fish, shellfish, and wildlife and provides for recreation in and on the water; or (___)

ii. The Department acts to remove a designated use which provides for protection and propagation of fish, shellfish, and wildlife and provides for recreation in and on the water; to remove a subcategory of such uses; or to designate subcategories of such uses which require less stringent criteria than previously applicable. (___)

e. A use attainability analysis is not required under this rule whenever: (___)

i. The Department designates beneficial uses which include protection and propagation of fish, shellfish, and wildlife and provides for recreation in and on the water; or (___)

ii. The Department removes a beneficial use that does not include the protection and propagation of fish, shellfish, and wildlife and provides for recreation in and on the water. (___)
AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking. The action is authorized by Chapters 44 and 58, Title 39, Idaho Code. In addition, 40 CFR 271.21(e) and Section 39-4404, Idaho Code, require DEQ to adopt amendments to federal law as proposed under this docket.

PUBLIC HEARING SCHEDULE: No hearings have been scheduled. Pursuant to Section 67-5222(2), Idaho Code, a public hearing will be held if requested in writing by twenty-five (25) persons, a political subdivision, or an agency. Written requests for a hearing must be received by the undersigned on or before August 19, 2015. If no such written request is received, a public hearing will not be held.

DESCRIPTIVE SUMMARY: Idaho’s Rules and Standards for Hazardous Waste are updated annually to maintain consistency with the U.S. Environmental Protection Agency's (EPA's) federal regulations implementing the Resource Conservation and Recovery Act (RCRA) as directed by the Idaho Hazardous Waste Management Act (HWMA). This proposed rule updates federal regulations incorporated by reference to include those revised as of July 1, 2015. In addition, this rulemaking also denotes areas of the rules that are non-delegable to the states and must be implemented by EPA. In those instances, “EPA” will be defined as the U.S. Environmental Protection Agency.

Groups interested in hazardous waste and handlers of hazardous waste including generators, transporters, and treatment, storage, and disposal facilities may be interested in commenting on this proposed rule. The proposed rule text is in legislative format. Language the agency proposes to add is underlined. Language the agency proposes to delete is struck out. It is these additions and deletions to which public comment should be addressed.

After consideration of public comments, DEQ intends to present the final proposal to the Board of Environmental Quality in the fall of 2015 for adoption of a pending rule. The rule is expected to be final and effective upon the conclusion of the 2016 legislative session if adopted by the Board and approved by the Legislature.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the incorporation by reference is necessary:

Idaho has historically adopted both required and optional federal regulations so that Idaho's hazardous waste rules are the same as federal requirements. Optional federal regulations usually allow more flexibility to the regulated community; required federal regulations are necessary to maintain program primacy. Adoption by reference allows DEQ to keep its rules up to date with federal regulation changes and minimizes the EPA Region 10 effort needed to keep Idaho’s authorization current. Adoption by reference also simplifies compliance for the regulated community. Information for obtaining a copy of the federal regulations is included in the rule.

NEGOTIATED RULEMAKING: Negotiated rulemaking was not conducted. DEQ determined that negotiated rulemaking is not feasible due to the simple nature of this rulemaking and because DEQ has no discretion with respect to adopting EPA’s federal regulations implementing the Resource Conservation and Recovery Act (RCRA) as directed by the Idaho Hazardous Waste Management Act (HWMA). Whenever possible, DEQ incorporates federal regulations by reference to ensure that the state rules are consistent with federal regulations.

IDAHO CODE SECTION 39-107D STATEMENT: This proposed rule does not regulate an activity not regulated by the federal government, nor is it broader in scope or more stringent than federal regulations.

FISCAL IMPACT STATEMENT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: Not applicable.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on questions concerning the proposed rulemaking, contact Matt Alvarado at matt.alvarado@deq.idaho.gov or (208)373-0554.
 Anyone can submit written comments by mail, fax or e-mail at the address below regarding this proposed rule. The Department will consider all written comments received by the undersigned on or before September 2, 2015.

Dated this 5th Day of August, 2015.

01. Excluded Wastes. Chemically Stabilized Electric Arc Furnace Dust (CSEAFD) generated by Envirosafe Services of Idaho, Inc. (ESII) at ESII’s facility in Grand View, Idaho using the Super Detox(R) treatment process as modified by ESII and that is disposed of in a Subtitle D or Subtitle C landfill is excluded from the lists of hazardous waste provided ESII implements a program that meets the following conditions: (3-16-96)

a. Verification Testing Requirements. Sample Collection and analyses, including quality control procedures, conducted pursuant to Subsections 005.01.b. and 005.01.c., must be performed according to SW-846 methodologies and the RCRA Part B permit, including future revisions. (3-16-96)

b. Initial Verification Testing. (3-16-96)

i. For purposes of Subsections 005.01.b., “new source” shall mean any generator of Electric Arc Furnace Dust (EAFD), EPA and Idaho Department of Environmental Quality Hazardous Waste No. KO61, whose waste has not previously been processed by ESII using the Super Detox(R) treatment process resulting in processed EAFD which has been subjected to initial verification testing and has demonstrated compliance with the delisting levels specified in Subsection 005.01.d. (3-16-96)

ii. Prior to the initial treatment of any new source of EAFD, ESII must notify the Department in writing. The written notification shall include: (3-16-96)

(1) The waste profile information; and (3-16-96)

(2) The name and address of the generator. (3-16-96)

iii. The first four (4) consecutive batches treated must be sampled in accordance with Subsection 005.01.a. Each of the four (4) samples shall be analyzed to determine if the CSEAFD generated meets the delisting levels specified in Subsection 005.01.d. (3-16-96)

iv. If the initial verification testing demonstrates that the CSEAFD samples meet the delisting levels specified in Subsection 005.01.d., ESII shall submit the operational and analytical test data, including quality control information, to the Department, in accordance with Subsection 005.01.f. Subsequent to such data submittal, the CSEAFD generated from EAFD originating from the new source shall be considered delisted. (3-16-96)

v. CSEAFD generated by ESII from EAFD originating from a new source shall be managed as hazardous waste in accordance with Subtitle C of RCRA until: (3-16-96)

(1) Initial verification testing demonstrates that the CSEAFD meets the delisting levels specified in Subsection 005.01.d.; and (3-16-96)

(2) The operational and analytical test data is submitted to the Department pursuant to Subsection 005.01.f. (3-16-96)

c. Subsequent Verification Testing. (3-16-96)
   
i. Subsequent to initial verification testing, ESII shall collect a representative sample, in accordance with Subsection 005.01.a., from each batch of CSEAFD generated by ESII. ESII may, at its discretion, conduct subsequent verification testing on composite samples. In no event shall a composite sample consist of representative samples from more than twenty (20) batches of CSEAFD. (3-16-96)
   
   ii. The samples shall be analyzed prior to disposal of each batch of CSEAFD to determine if the CSEAFD meets the delisting levels specified in Subsection 005.01.d. (3-16-96)
   
   iii. Each batch of CSEAFD generated by ESII shall be subjected to subsequent verification testing no later than thirty (30) days after it is generated by ESII. (3-16-96)
   
   iv. If the levels of constituents measured in a sample, or composite sample, of CSEAFD do not exceed the levels set forth in Subsection 005.01.d., then any batch of CSEAFD which contributed to the sample that does not exceed the levels set forth in Subsection 005.01.d. is non-hazardous and may be managed and/or disposed of in a Subtitle D or Subtitle C landfill. (3-16-96)
   
   v. If the constituent levels in a sample, or composite sample, exceed any of the delisting levels set forth in Subsection 005.01.d., then ESII must submit written notification of the results of the analysis to the Department within fifteen (15) days from receiving the final analytical results, and any CSEAFD which contributed to the sample must be:
      
      (1) Retested, and retreated if necessary, until it meets the levels set forth in Subsection 005.01.d.; or (3-16-96)

   ii. Metal concentrations must be measured in the waste leachate by the method specified in 40 CFR Part 261.24. (3-16-96)
   
   e. Modification of Treatment Process. (3-16-96)
   
   i. If ESII makes a decision to modify the Super Detox(R) treatment process from the description of
the process as set forth in ESII’s Petition for Delisting Treated K061 Dust by the Super Detox(R) Process submitted to the Department on July 14, 1995, ESII shall notify the Department in writing prior to implementing the modification.

ii. After ESII’s receipt of written approval from the Department, and subject to any conditions included with the approval, ESII may implement the proposed modification.

iii. If ESII modifies its treatment process without first receiving written approval from the Department, this exclusion of waste will be void from the time the process was modified.

iv. ESII’s Petition for Delisting Treated K061 Dust by the Super Detox(R) Process submitted to the Department on July 14, 1995 is available at the Department of Environmental Quality, Waste Management and Remediation Division, 1410 N. Hilton, Boise, Idaho 83706.

f. Records and Data Retention and Submittal.

i. Records of disposal site, operating conditions and analytical data from verification testing must be compiled, summarized, and maintained at ESII’s Grand View facility for a minimum of five (5) years from the date the records or data are generated.

ii. The records and data maintained by ESII must be furnished upon request to the Department or EPA.

iii. Failure to submit requested records or data within ten (10) business days of receipt of a written request or failure to maintain the required records and data on site for the specified time, will be considered by the Department, at its discretion, sufficient basis to revoke the exclusion to the extent directed by the Department.

iv. All records or data submitted to the Department must be accompanied by a signed copy of the following certification statement to attest to the truth and accuracy of the records or data submitted: “Under civil and/or criminal penalty of law for the making or submission of false or fraudulent statements or representations, I certify that the information contained in or accompanying this document is true, accurate, and complete. As to any identified sections of this document for which I cannot personally verify the truth and accuracy, I certify as the ESII official having supervisory responsibility for the persons who, acting under my direct instructions, made the verification that this information is true, accurate, and complete. In the event that any of this information is determined by the Department in its sole discretion to be false, inaccurate, or incomplete, and upon conveyance of this fact to ESII, I recognize and agree that this exclusion of waste will be void as if it never had effect or to the extent directed by the Department and that ESII will be liable for any actions taken in contravention of ESII’s RCRA and CERCLA obligations premised upon ESII’s reliance on the void exclusion.”

Facility Merger and Name Change. On May 4, 2001, the Department was notified of a stock transfer that resulted in ESII’s facility merging with American Ecology. This created a name change from Envirosafe Services of Idaho, Inc. (ESII) to US Ecology Idaho, Inc. effective May 1, 2001. All references to Envirosafe Services of Idaho, Inc. or ESII now refer to US Ecology Idaho, Inc.
