IDAPA 24 – BUREAU OF OCCUPATIONAL LICENSES
24.01.01 – RULES OF THE BOARD OF ARCHITECTURAL EXAMINERS
DOCKET NO. 24-0101-1900F
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-308, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.01.01, rules of the Board of Architectural Examiners:

IDAPA 24
• 24.01.01, Rules of the Board of Architectural Examiners
  - All rules except Subsections 010.02, 010.03, and 010.07.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules establish and govern the standards necessary for architectural practice. Allowing these rules to expire would harm industry, public health, safety, and welfare because the Board could not renew current licenses and admit new licensees.

The fee or charge imposed by the rule is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Board of Architectural Examiners would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-313, Idaho Code, as follows: application fee: $25; annual license renewal fee: $50; endorsement license fee: $50; and temporary license fee: $50.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-406, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 03.01.01, re-designated as IDAPA 24.02.01, Rules of the State Athletic Commission:

IDAPA 24
• 24.02.01, Rules of the State Athletic Commission — All rules except Sections/Subsections 010.01, 010.04, 010.05, 010.09, 010.10, 107.03.d., 107.03.f., 112, 150, 305, 315, 316, 412, 414, 701.02, 702.01, 707.02, 707.03, and 906.

This chapter was formerly designated at IDAPA 03.01.01. It has been moved under the administration of the Bureau of Occupational Licenses and is hereby re-designated IDAPA 24.02.01.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules establish and govern the standards and practices of the Idaho Athletic Commission, which oversees boxing, mixed martial arts, and wrestling contests. Allowing these rules to expire would deny the Commission the ability to sanction permits and admit licensees; and elimination of the standards that protect combatants in sanctioned contests would harm the health, safety, and welfare of combatants.

The fees or charges imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the fees outlined in this chapter, the Commission would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Sections 54-406, 54-410, and 54-416, Idaho Code, as follows: application fee for a combatant: $150; application fee
for a non-combatant: $150; application fee for a matchmaker: $250; application fee for a promoter: $1,000; application fee for a sanction permit: $200; application fee for a ring official: $150; annual renewal fee for a combatant: $150; annual renewal fee for a non-combatant: $150; annual renewal fee for a matchmaker: $250; annual renewal fee for a promoter: $750; and annual renewal fee for a ring official: $150.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233. Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

01. Presence of Physician at Ringside. The physician designated by the Commission must sit at the immediate ringside at every event. A contest may not proceed unless the physician is in his seat at ringside. The physician must not leave until released by the Commission. He must be prepared to assist if any serious emergency arises and must render temporary or emergency treatment for cuts and minor injuries sustained by the combatants. (5-8-09)

02. Injury to Boxer During Round. When a combatant appears to have been injured during the course of a round, his manager or second must not attempt to render aid to him before the physician has had an opportunity to examine him. (5-8-09)

709. WARNING BEFORE START OF ROUND (RULE 709).
Ten (10) seconds before the beginning of each round the timekeeper will give warning to the seconds of the combatants by blowing a whistle. (5-8-09)

710. DURATION OF ROUND (RULE 701).
A round of boxing must be three (3) minutes in duration. (3-3-94)

711. PERSONS ALLOWED IN RING (RULE 711).
No persons other than the contestants and the referee may be in the ring during the progress of a round. (3-3-94)

712. FAIR BLOWS AND FOULS (RULE 712).

01. Fair Blow. A fair blow is one delivered with the padded knuckle part of the glove on the front or side of the head or the front or side of the body above the belt. (3-3-94)

02. Foul. The following acts constitute fouls in boxing:
   a. Hitting below the belt. (3-3-94)
   b. Hitting an opponent who is down or is getting up after being down. (3-3-94)
   c. Holding an opponent with one hand and hitting with the other. (3-3-94)
   d. Holding or deliberately maintaining a clinch. (3-3-94)
   e. Wresting or kicking. (3-3-94)
   f. Butting with the head or shoulder or using the knee. (3-3-94)
g. Hitting with the open glove, the butt of the hand, the wrist or the elbow, and all backhand blows. (3-3-94)

h. Purposely going down without being hit. (3-3-94)

i. Striking deliberately at that part of the body over the kidneys. (3-3-94)

j. Deliberately using the rabbit punch. (3-3-94)

k. Jabbing the opponent’s eyes with the thumb of the glove. (3-3-94)

l. Using abusive language in the ring. (3-3-94)

m. Engaging in any unsportsman like trick or action which causes injury to an opponent. (3-3-94)

n. Hitting on the break. (3-3-94)

o. Hitting after the bell has sounded the end of the round. (3-3-94)

p. Hitting an opponent whose head is between and outside of the ropes. (3-3-94)

q. Pushing an opponent about the ring or into the ropes. (3-3-94)

713. UNFAIR PRACTICES; DUTIES OF REFEREES (RULE 713).

01. Enforcing the Rules. A referee is responsible for enforcing the rules of the contest. He must not permit unfair practices that may cause injury to a combatant. (5-8-09)

02. Warnings. The referees must warn the combatants whenever they are committing fouls. (5-8-09)

03. Deducting Points. If a combatant persists in committing fouls after he has been warned, the referee will deduct points from him or disqualify him. (5-8-09)

714. FOULS: DEDUCTION FOR POINTS; EFFECT OF CLAIMING LOW BLOW BY OPPONENT (RULE 714).

01. Deducting Points Because of Fouls. If a contestant repeatedly fouls his opponent during a contest or commits any other infraction, the referee may penalize him by deducting a point from his score, whether or not the foul or infraction was intentional. (3-3-94)

02. Notification of Point Deduction. When the referee determines that it is necessary to deduct a point because of a foul or infraction, he shall inform the offender, the scoring table and the judges of the penalty to be assessed. (3-3-94)

03. Deduction of Points in Round Foul Occurs. Any point or points to be deducted for any foul or infraction must be deducted in the round in which the foul or infraction occurred, and may not be deducted from the score of any subsequent round. (3-3-94)

04. Contestant Claiming Low Blow. A contestant may not be declared the winner of a contest on the basis of his claim that his opponent committed a foul by hitting him below the belt. If a contestant falls to the floor of the ring or otherwise indicates that he is unwilling to continue because of a claim of a blow to be a technical knockout in favor of the contestant who is willing to continue. (3-3-94)

715. FOULS: DISQUALIFICATION OF COMBATANT AND WITHHOLDING OF PURSE (RULE 715).
Any combatant guilty of a foul in a contest may be disqualified by the referee and the participant’s purse ordered
withheld by the Commission. Disposition of the purse and the penalty to be imposed upon the combatant will be
determined by the Commission. (5-8-09)

716. ACCIDENTAL FOULING (RULE 716).

01. Accidental Foul. If a contest is stopped because of an accidental foul, the referee will determine
whether the combatant who has been fouled can continue or not. If the combatant’s chance of winning has not been
seriously jeopardized as a result of a foul, the referee may order the contest continued after a reasonable interval.
Before the contest begins again, the referee must inform the Commission of his determination that the foul was
accidental. (5-8-09)

02. Contest Stopped Due to Accidental Foul. If the referee determines that the contest may not
continue because of an injury suffered as the result of an accidental foul, the bout must be declared a draw if the foul
occurs during one-half (1/2) of the total scheduled rounds. (3-26-08)

03. Contest Stopped by Referee. If an injury inflicted by an accidental foul later becomes aggra
vated by fair blows and the referee orders the contest stopped because of the injury, the outcome must be determined by
scoring the completed rounds and the round during which the referee stops the contest. (3-26-08)

717. STOPPING OF CONTEST: INJURY TO COMBATANT (RULE 717).
The referee, in consultation with the ring physician designated by the Commission, will determine whether a contest
should be stopped because of an injury to a combatant. (5-8-09)

718. STOPPING OF CONTEST: ONE-SIDED CONTEST; RISK OF INJURY; EXAMINATION BY
PHYSICIAN (RULE 718).

01. One-Sided Contested. The referee may stop a contest at any stage if he considers it too one-sided
or if either combatant is in such a condition that to continue might subject him to serious injury. (5-8-09)

02. Risk of Injury and Examination by Physician. If a combatant sustains any injury which the
referee believes may incapacitate him, the referee must call the physician into the ring to examine the combatant. The
physician must give his opinion to the referee before the referee renders his decision in the matter. (5-8-09)

719. STOPPING THE CONTEST: COMBATANT NOT HONESTLY COMPETING (RULE 719).
If the referee decides that a combatant is not honestly competing, he may stop the contest before its scheduled
completion, disqualify the combatant and recommend the purse of that combatant be held pending investigation by
the Commission. The announcer will then inform the audience that no decision has been rendered. (5-8-09)

720. FAILURE OF COMBATANT TO RESUME (RULE 720).
A combatant must not leave the ring during any one (1) minute rest period between rounds. If any combatant fails or
refuses to resume the contest when the bell sounds signaling the commencement of the next round, the referee will
award a decision of technical knockout to his opponent as of the round which has last been finished, unless the
circumstances indicate to the referee the need for investigation or punitive action, in which event the referee will not
give a decision and will recommend the purse or purses of either or both combatants to be withheld. (5-8-09)

721. GLOVES TO BE WIPED BY REFEREE AFTER BOXER FALLS (RULE 721).
Before a boxer may resume boxing after having been knocked or having fallen or slipped to the floor of the ring, the
referee shall wipe any accumulated resin from the boxer’s gloves with a damp towel or the referee’s shirt. (3-3-94)

722. KNOCKDOWN OF COMBATANT; PROCEDURE FOR COUNTING (RULE 722).

01. Knockdown. When a combatant is knocked down, the referee will order the opponent to retire to
the farthest neutral corner of the ring, pointing to the corner, and immediately begin the count over the combatant
who is down. The referee must audibly announce the passing of the seconds, accompanying the count with motions of
his arm, the downward motion indication the end of each second. (5-8-09)

02. Timekeeper. The timekeeper, by effective signaling, will give the referee the correct one (1)
second interval for his count. The referee’s count is the official count. Once the referee picks up the count from the
timekeeper, the timekeeper will cease counting. No combatant who is knocked down may be allowed to resume
boxing until the referee has finished counting to eight (8). The combatant may take the count either on the floor or
standing. (5-8-09)

03. **Failure of Opponent to Stay in Farthest Neutral Corner.** If the opponent fails to stay in the
farthest neutral corner, the referee will cease counting until he has returned to his corner and will then go on with the
count form the point at which it was interrupted. If the combatant who is down arises during the count, the referee
may step between the combatants long enough to assure himself that the combatant just arisen is in condition to
continue. If so assured, he will, without loss of time, order both combatants to go on with the contest. During the
intervention by the referee the striking of a blow by either combatant may be ruled a foul. (5-8-09)

04. **Knock-Out.** When a combatant is knocked out, the referee must perform a full ten (10) second
count unless, in the judgment of the referee, the safety for the combatant would be jeopardized by such a count. If the
combatant who is knocked down is still down when the referee calls the count of ten (10), the referee must wave both
arms to indicate that he had been knocked out and must raise the hand of the opponent as the winner. (5-8-09)

05. **Both Combatants Down.** If both combatants go down at the same time, the count must be
continued as long as one (1) is still down. If both combatants remain down until the count of ten (10), the contest
must be stopped and the decision is a technical draw. (5-8-09)

06. **Combatants Down -- Referee Counting.** If a combatant is down as a result of a legal blow at or
near the end of a round, the ring official must continue the count. The combatant cannot be saved by the bell.
(5-8-09)

07. **Knockdown After Bell Has Sounded.** If a legal blow struck in the final seconds of a round causes
a combatant to go down after the bell has sounded, that knockdown must be regarded as having occurred during the
round just ended and the appropriate count must continue into the rest period following the bell. (3-26-08)

08. **Three Knockdowns in Same Round.** There is no three (3) knockdown limit. (5-8-09)

723. **RESUMING COUNT ON BOXER (RULE 723).**
If a knockdown occurs before the normal termination of a round and the boxer who is down stands up before the
count of ten (10) is reached and then falls down immediately without being struck, the referee shall resume the count
where it was left off. (3-3-94)

724. **ADJUDICATION OF TECHNICAL KNOCKOUT (RULE 724).**

01. **Contest Termination.** It must be adjudged a technical knockout to the credit of the winner if a
contest is terminated because a combatant is:

a. Unable to continue; (3-3-94)

b. Not honestly competing; (3-3-94)

c. Injured; or (3-3-94)

d. Disqualified. (3-3-94)

02. **Win by Other Than Full Count.** A contest which is won by other than a full count of ten (10) or
the scoring of the judges must be adjudged a technical knockout to the credit of the winner. (3-3-94)

725. **PROCEDURE WHEN COMBATANT IS KNOCKED OUT; PERIOD BEFORE HIS NEXT
CONTEST; EXAMINATION IN CASE OF HEAD INJURY (RULE 725).**

01. **Combatant Who Has Been Knocked Out.** A combatant who has been knocked out must be kept
in a prone position until he has recovered. Except for the referee or chief second who may remove his mouthpiece, no
one may touch him until the ring physician enters the ring, attends him and issues any instructions to his handlers.

(3-26-08)

02. **Decision of Technical Knockout Rendered by Referee.** If the referee has rendered a decision of technical knockout against a combatant, the participant must be placed on the ill and unavailable list for a period designated by the Commission after consulting the Commission’s physician, but that period must not be less than fifteen (15) days. The combatant may not engage in any contact boxing during this period without the approval of the Commission.

(3-26-08)

03. **Knockout from Blow to Head.** If a combatant has been knocked out by a blow to the head, he must be placed on the ill and unavailable list for at least thirty (30) days. Before he is reinstated, he must satisfactorily pass an examination performed with a computerized tomographic scanning device or an electroencephalogram, or both, if the Commission or its physician finds that such an examination is necessary to determine his condition.

(3-26-08)

04. **Head Injury.** Whenever it appears that a combatant may have suffered a head injury, he must undergo such an examination if directed to do so by the Commission or its physician.

(3-26-08)

726. **WHEN COMBATANT FALLS FROM RING DURING ROUND (RULE 726).**

01. **Combatant Knocked or Falls from Ring Platform.** A combatant who has been knocked or has fallen through the ropes and over the edge of the ring platform during the contest may be helped back by anyone except his seconds or manager, and the referee may allow a reasonable amount of time for the combatant to return to the ring. If the combatant is on the ring platform outside the ropes, he must enter the ring immediately where he may resume the contest or take a count. The referee must start the count as soon as the combatant who had fallen is back in the ring.

(5-8-09)

02. **Stalling Outside Ropes.** If the combatant stalls for time outside the ropes, the referee must start the count without waiting for him to reenter the ring.

(5-8-09)

03. **Combatant to Neutral Corner.** When one (1) combatant has fallen through the ropes, the other combatant must retire to the farthest corner and stay there until ordered to continue the contest by the referee.

(5-8-09)

04. **Penalty.** A combatant who deliberately wrestles or throws an opponent from the ring, or who hits when he is partly out of the ring and is prevented by the ropes from assuming a position of defense, may be penalized.

(5-8-09)

727. **WHEN A BOXER SHALL BE DEEMED DOWN (RULE 727).**

01. **Feet Off Floor.** A boxer shall be deemed to be down when any part of his body other than his feet is on the floor.

(3-3-94)

02. **Hanging over Ropes.** A boxer shall be deemed to be down when he is hanging over the ropes without the ability to protect himself and he cannot fall to the floor. A referee may count a contestant out if he is on the floor or is being held up by the ropes.

(3-3-94)

728. **ANNOUNCEMENT OF WINNER OF BOUT (RULE 728).**
At the termination of each boxing bout the announcer shall announce the winner and the referee shall raise the winner’s hand.

(3-29-10)

729. **CHANGE OF DECISION IN CONTEST (RULE 729).**
The Commission will not change a decision rendered at the end of any contest unless:

01. **Collusion.** The Commission determines that there was collusion affecting the result of the contest;

(3-3-94)
02. **Error in Scoring.** The compilation of scorecards of the judges discloses an error which shows that the decision was given to the wrong combatant; or (3-29-10)

03. **Error in Interpretation of Rules.** As a result of an error in interpreting a provision of this chapter, the referee has rendered an incorrect decision. (3-3-94)

04. **Failure of Drug Test.** The Commission determines that there was a violation of Section 900. (5-8-09)

730. **PHYSICIAN’S REPORT TO COMMISSION AFTER CONTEST (RULE 730).**
On the report which the physician designated by the Commission files after a contest, he shall list each case in which the boxer or wrestler:

01. **Injury.** Was injured during the contest; or (3-3-94)

02. **Applies for Medical Aid.** Has applied for medical aid after the contest. (3-3-94)

731. **MARTIAL ARTS AND MIXED MARTIAL ARTS (MMA) (RULE 731).**

01. **Regulation of Martial Arts and MMA.** Except to the extent set forth under Rules 731-799, all requirements and the limitations relating to combatants and licenses (as set forth within Title 54, Chapter 4, Idaho Code, and in the remaining rules of the Commission) will apply to all martial arts and MMA contests and exhibitions. Notwithstanding the foregoing, at its sole discretion, the Commission may (by specific reference in the sanctioning permit) allow the use of other requirements and limitations during a particular martial arts contest or exhibition. (5-8-09)

02. **Practices, Belt Promotions, and Non-Contact Demonstrations.** Martial arts practices, belt promotion testing and demonstrations (as used herein the term demonstrations means displays that do not involve combative contact between combatants or between participants) conducted by martial arts schools are not considered to be boxing. Such practices, testing, and demonstrations are exempt from the licensing requirements of Title 54, Chapter 4, Idaho Code, and persons do not need a license to participate in such practices, testing, and demonstrations. (3-29-10)

03. **Licensing Exemption.** Martial arts schools that meet the conditions set forth within Section 54-406(3)(b), Idaho Code, may apply to the Commission for exemption from licensing and sanctioning permit requirements relating to exhibitions and contests. (3-29-10)

04. **Use of Official Rules for Art.** Martial arts contests and exhibitions must be conducted pursuant to the official rules of the particular art. The sponsoring organization or promoter must file a copy of the official rules with the Commission before the Commission will issue a sanctioning permit for the contest or exhibition. (4-6-05)

05. **Boxing Gloves.** The requirement set forth in Section 54-414, Idaho Code, of wearing boxing gloves applies to kickboxing but will not apply to any other form of martial art unless the use of boxing gloves is required by the official rules of that particular art. Any gloves utilized must be in good condition as approved by the commission. For the main and semi main events gloves must be in new condition and of the same brand for combatants. (5-8-09)

732. **MMA EQUIPMENT (RULE 732).**
The Commission is the final authority in all equipment matters. The following is a list of required equipment for MMA contests:

01. **Commission Approved Mouthpiece.** All combatants are required to wear a mouthpiece during the contest. It is strongly recommended that all combatants have two (2) form fitted mouthpieces available for use in each contest. (5-8-09)

    a. **To Begin the Round.** The round cannot begin if the mouthpiece is not inside the combatant’s mouth and set in place. (5-8-09)
b. During the Contest. The mouthpiece must be inside the combatant’s mouth and properly set at all times during the contest. (5-8-09)

c. Dislodged Mouthpiece. If the mouthpiece is dislodged during the contest, the referee will wait until the first opportune moment, without interfering with the action, call time out, and have the mouthpiece replaced. (5-8-09)

d. Violations. At the discretion of the referee, points may be deducted or a disqualification rendered in the following situations: (5-8-09)

i. When the mouthpiece is not being properly kept inside of the combatant’s mouth; (5-8-09)

ii. When the mouthpiece is purposely spit out; or (5-8-09)

iii. When the corner fails to have the combatant resume competition with the mouthpiece in place or delays in replacing the mouthpiece after it becomes dislodged. (5-8-09)

02. Commission Approved MMA Gloves.

a. General. The gloves must be examined by the Commission and the referee. If padding in the gloves is found to be misplaced or lumpy, or if any gloves are found to be imperfect, they must be changed before the contest starts. No breaking, roughing or twisting of gloves is permitted. (5-8-09)

b. Weight: Each combatant must wear gloves that are not less than four (4) ounces in weight; (5-8-09)

c. Specifications. Each combatant must wear open finger gloves that have no padding in the palm or fingertip area and that are appropriate in weight for the combatant’s hand size. Under no circumstances will a combatant be allowed to wear bag gloves or any other gloves with metal or plastic inserts. (5-8-09)

03. Commission Approved Attire.

a. Each combatant must wear a foul-proof groin protector. (5-8-09)

b. Each female combatant must wear Commission-approved form fitting breast support protection. Supports may not have brace, metal or hard material of any kind. (5-8-09)

c. For male combatants, no body shirts or pants are allowed. Female combatants must wear fighting shorts and rash guard. (5-8-09)

d. Combatant may only use soft materials to tie hair. (5-8-09)

04. Prohibited Equipment and Attire.

a. The following equipment and attire are prohibited: (5-8-09)

i. Shoes; (5-8-09)

ii. Facial hair, if determined by the Commission to pose a health, safety or sanitary issue; (5-8-09)

iii. Tar material on any part of the body; (5-8-09)

iv. Henna-type tattoos; (5-8-09)

v. Piercing accessories; and (5-8-09)

vi. Makeup of any kind. (5-8-09)
b. Masks, costumes, and props must be approved by the Commission prior to usage. (5-8-09)

c. Fingernails and toenails must be cut and trimmed prior to a contest. (5-8-09)

733. FAIR TECHNIQUES AND FOULS IN MMA EVENTS (RULE 733).

01. Fair Techniques. Fair MMA techniques include the use of striking and grappling techniques, either while standing or on the ground, subject to techniques designated by the rules as fouls. (5-8-09)

02. Fouls. The following actions will constitute fouls during any MMA event: (3-29-10)

a. Head-butting or striking with the head in any manner. Any use of the head as a striking instrument whether head to head, head to body or otherwise is illegal. (3-29-10)

b. Eye-gouging by means of fingers, chin, or elbow. Legal strikes or punches that contact the combatant’s eye socket are not eye gouging and will be considered legal attacks. (3-29-10)

c. A combatant must recognize that a referee may not be able to physically observe some actions and must make the referee aware if they are being bitten during an exhibition of unarmed combat. (3-29-10)

d. Hair Pulling. A combatant may not grab hold of an opponent’s hair in order to control the opponent in any way. (3-29-10)

e. Fishhooking, meaning using the fingers to attack an opponent’s mouth, nose, or ears, or stretching the skin to that area. Fishhooking generally is the placing of fingers into the mouth of an opponent and pulling the hands in opposite directions while holding onto the skin of the opponent. (3-29-10)

f. Groin attacks, including striking, grabbing, pinching or twisting the groin area. (3-29-10)

g. Smothering an opponent by cupping a hand over an opponent’s mouth and nose. (3-29-10)

h. Elbows thrown from a vertical angle. Elbows thrown from any other angle are legal, except that strikes with the elbow point from any angle are illegal during a contest or exhibition in which an amateur combatant participates. (3-29-10)

i. Knee strikes of any kind to an amateur combatant’s head. Further, when any combatant goes to the ground, only knees to the body are allowed. (3-29-10)

j. Strikes to the back of the head. The back of the head is considered from the crown of the head down the centerline of the skull into the spine, with a one (1) inch variance to each side, similar to a mohawk haircut. Strikes that are thrown to areas behind the ears but not within the mohawk limitation are legal strikes. (3-29-10)

k. Hand Chokes. A combatant may not attack an opponent with a choke utilizing only his hand or hands in an attempt to submit an opponent. A common phrase for this type of choke is the “C clamp” choke wherein the thumb is placed on one side of an opponent’s neck with the fingers on the opposite side. (3-29-10)

l. Placing one’s fingers into an open laceration on an opponent in an attempt to enlarge the cut. A combatant may not place his fingers into an opponent’s nose, ears, mouth, or any body cavity. (3-29-10)

m. Small Joint Manipulation. Fingers and toes are small joints. Wrists, ankles, knees, shoulders and elbows are all large joints. (3-29-10)

n. Spine Attacks. Illegal spine attacks include, without limitation, locks, such as the “Twister,” and strikes to the spine. (3-29-10)

o. Throat strikes of any kind including, without limitation, grabbing the trachea. (3-29-10)
i. No directed throat strikes are allowed. A directed attack would include a combatant pulling an opponent’s head in a way to open the neck area for a striking attack. Directed throat attacks are not punches that connect during an exchange from the standing position while combatants are engaged in combat. (5-8-09)

ii. A combatant may not gouge his fingers or thumb into an opponent’s neck or trachea in an attempt to submit the opponent. (5-8-09)

iii. All arm chokes such as the “rear naked,” “guillotine” and “bar arm” are legal. (5-8-09)

p. Skin Clawing. Any attack that targets the combatant’s skin by clawing at the skin or attempting to pull or twist the skin to apply pain. (3-29-10)

q. Kicking the head or groin of a grounded opponent. A grounded opponent is any combatant who has more than just the soles of the feet on the ground. If the referee determines that a combatant would be a grounded combatant, but not solely because the ring ropes or cage fence has held the combatant up from the ground, the referee can instruct the combatants that the combatant held up solely by the cage or ropes is being treated as a grounded combatant. A combatant can be kicked to the body when he is on the ground with any type of legal kick, but may not be kicked in the head or groin. (3-29-10)

r. Stomping, meaning any type of striking action with the feet wherein the combatant lifts his leg, bending it at the knee, and initiates a striking action with the bottom of the foot or heel. This includes stomping the feet while both combatants are standing. Axe kicks are not stomps. (3-29-10)

s. Pile-driving an opponent into the mat. (3-29-10)

i. A pile driver is considered to be any throw wherein a combatant controls an opponent’s body by placing the opponent’s feet straight up in the air and the head straight down and then forcibly driving the opponent’s head into the canvas or flooring material. (5-8-09)

ii. It should be noted that if a combatant is placed into a submission hold by his opponent and the combatant is capable of elevating his opponent, the combatant may bring his opponent down in any manner because he is not in control of his opponent’s body. The combatant who is attempting the submission can either adjust his position or let go of the hold before being slammed to the canvas. It is crucial that referees are properly advised and trained on this and that the combatants fully understand this at the rules meeting. (5-8-09)

t. Purposely throwing an opponent out of the ring or caged area. A combatant will not intentionally or purposely throw an opponent out of the ring or cage. (3-29-10)

u. Holding the shorts or gloves of an opponent. A combatant may not control an opponent’s movement by holding onto the opponent’s shorts or gloves. A combatant may hold onto or grab an opponent’s hand as long as the combatant is not controlling the opponent’s hand by using only the material of the glove but is actually gripping the hand. It is legal for a combatant to hold onto his own gloves or shorts. (3-29-10)

v. Engaging in any unsportsmanlike conduct is not allowed. Any type of behavior or conduct observed or heard by the referee that can be considered detrimental or disrespectful towards an opponent or the sport of MMA. This includes, but is not limited to, spitting at an opponent, using abusive language or abusive gestures, etc. (3-29-10)

w. Holding the ropes or the fence. (3-29-10)

i. A combatant may put his hands on the fence and push off at any time. A combatant may place his feet onto the cage and have his toes go through the fencing material at any time. If a combatant’s fingers go through the cage and he grabs hold of the fence and starts to control either his body position or his opponent’s body position, it is an illegal action. A combatant may not grab the ropes or wrap his arms over the ring ropes at any time. (5-8-09)

ii. If a combatant is caught holding the fence, cage or ring rope material the referee will issue a one-
point (1) deduction from the offending combatant’s scorecard. 

(iii) If a point deduction for holding the fence occurs, and the fouling combatant ends up in a superior position due to the foul, the combatants will be re-started, standing in a neutral position. 

(x) Attacking an opponent on or during the break. A combatant must not engage an opponent in any manner during a time-out or break of action in competition. 

(y) Engaging an opponent in any manner while the opponent is under the referee’s care or handling. 

(z) Failing to follow the referee’s instructions. Any deviation or non-compliance may result in the combatant’s disqualification.

(aa) Timidity, meaning any action by a combatant that is used to avoid contact with his opponent or to run away from the action of the fight. Timidity, includes, without limitation, intentionally avoiding contact with an opponent or consistently dropping the mouthpiece or faking an injury. The referee may also call timidity on a combatant for attempting to receive time by falsely claiming a foul or injury, for purposely dropping or spitting out his mouthpiece, or for committing any other action designed to stall the contest.

(bb) Interference by the corner, meaning any action or activity by a corner aimed at disrupting the contest or causing an unfair advantage to a combatant. Corners are not allowed to distract the referee or influence the actions of the referee in any manner.

03. Time Considerations for Fouls. 

(a) A combatant who has been struck with a low blow is allowed up to five (5) minutes to recover from the foul and can continue on in the contest if allowed to by the ringside physician.

(i) If the combatant states that they can continue on before the five (5) minute time allotment has expired, then as soon as is practical the referee will restart the contest.

(ii) If the combatant goes over the five (5) minute allotment, the contest cannot be restarted and must be stopped. The outcome is determined by the round and time in which the contest was stopped.

(b) If a combatant is fouled by a blow that the referee deems illegal, the referee must stop the action and call for time. The referee must take the injured combatant to the ringside physician and have the ringside physician examine the combatant to determine the combatant’s ability to continue on in the contest. The ringside physician has up to five (5) minutes to make his determination. If the ringside physician determines that the combatant can continue on in the contest, then as soon as is practical the referee will restart the contest. Unlike the low blow foul, the combatant does not have the five (5) minute time allotment to use at his discretion.

(c) If the referee stops the contest and employs the use of the ringside physician, the ringside physician’s examination must not exceed five (5) minutes. If five (5) minutes is exceeded, the contest cannot be re-started and must be stopped.

(d) If the ringside physician deems a combatant unfit to continue, the referee must immediately stop the contest. If the combatant is deemed unfit to continue by the ringside physician and part of the five (5) minute foul time is remaining, the combatant cannot use the remaining time. This will be enforced for all listed fouls, with the exception of a low blow foul.

04. Intentional Fouling.

(a) When a contest is interrupted due to an injury caused by an intentional foul, the referee, in consultation with the ringside physician, will determine whether the intentionally fouled combatant can continue or not. If it is determined that the intentionally fouled combatant’s chance of winning has not been seriously jeopardized as a result of the foul, the referee may order the contest continued after a reasonable interval. A combatant who is
fouled with a low blow has up to five (5) minutes to recover. (3-29-10)

b. If the referee, in consultation with the ringside physician, determines at any time during the contest that the intentionally fouled combatant’s chance of winning has been seriously jeopardized or the combatant is unable to continue the contest as a result of the foul, or by any aggravation to an injury caused by the foul, the intentionally fouled combatant wins by “technical decision.” (3-29-10)

05. Accidental Fouling.

a. When a contest is interrupted due to an injury caused by an accidental foul, the referee, in consultation with the ringside physician, will determine whether the combatant who has been fouled can continue or not. If it is determined that a combatant has been accidentally fouled and the combatant’s chance of winning has not been seriously jeopardized as a result of a foul, the referee may order the contest continued after a reasonable interval. A combatant who is fouled with a low blow has up to five (5) minutes to recover. (3-29-10)

b. If the referee or the ringside physician, or both, determine that the contest may not continue because of an injury suffered as the result of an accidental foul or because of an injury inflicted by an accidental foul which later becomes aggravated by fair blows, and if less than two (2) rounds have been completed in the contest, then a “no contest” will be entered. If two (2) or more rounds have been completed in the contest, then the combatant who is ahead on the scorecards wins by “Technical Decision.” (3-29-10)

06. Fouls or Unsportsmanlike Conduct During the One Minute Rest Period in MMA Contest.

a. If a combatant fouls or acts in an unsportsmanlike manner during the one (1) minute rest period, the referee will deduct points from the offending combatant based on the severity of the offense. (5-8-09)

b. The Chief Second is responsible for all corner activities. Any illegal activity may cause the Chief Second to be immediately removed from the corner from the entire contest. (5-8-09)

07. Concussive Head Impact Fouls in MMA Contest. Before allowing a contest to continue, the referee should consult with the ringside physician in all cases involving concussive head fouls. The referee, in conjunction with the ringside physician, will determine the length of time needed to evaluate the affected combatant’s suitability to continue.

a. If the referee determines that a foul to the head was intentional, he must follow the Intentional Foul rule. The referee must consider that allowing the contest to continue may subject the combatant to a severe injury. (3-29-10)

i. If the affected combatant is not badly injured and his chance of winning has not been seriously jeopardized because of the foul, the contest may be allowed to continue. If the contest is allowed to continue, the offending combatant will be issued an official warning and have one (1) point deducted from his score in the round. (5-8-09)

ii. If the referee determines that the affected combatant cannot continue, the offending combatant will lose by “Disqualification.” (5-8-09)

b. If the referee determines that a foul to the head was accidental, he will follow the Accidental Foul rule. The referee must consider that allowing the contest to continue may subject a combatant to a severe injury. (3-29-10)

i. If the affected combatant is not badly injured and his chance of winning has not been seriously jeopardized because of the foul, the contest may be allowed to continue. (5-8-09)

ii. If the contest cannot continue the Technical Decision rule will be applied. (5-8-09)

08. Low Blow in MMA Contest.
a. If the referee determines that the low blow foul was intentional, he will follow the Intentional Foul rule. (3-29-10)
   i. If the offended combatant is not badly injured and their chance of winning has not been seriously jeopardized because of the foul, the Five (5) Minute rule may be applied. (5-8-09)
   ii. If the referee determines that the athlete cannot continue, the offending combatant will lose by “Disqualification.” (5-8-09)

b. When a combatant is hit with an accidental low blow and claims injury, the referee, at his discretion, may apply the Five (5) Minute rule. If the injured combatant cannot resume fighting before the recovery period ends, the injured combatant will lose the contest by “No Contest.” (3-29-10)

c. The Five (5) Minute Rule is only applicable to low blow fouls. (5-8-09)

09. Disqualification. A combatant will lose by “Disqualification” when he:
   a. Intentionally fouls and causes harm to his opponent; (5-8-09)
   b. Continually refuses to follow the rules; or (5-8-09)
   c. Continually disobeys the referee. (5-8-09)

10. Referee Action on Fouls in MMA Contest.
   a. The referee must inform the Commission Representative as soon as possible of the following: (5-8-09)
      i. The type of foul; (5-8-09)
      ii. If the foul was accidental or intentional; (5-8-09)
      iii. If points will be deducted from the offending combatant; (5-8-09)
      iv. If the offending combatant will be disqualified; (5-8-09)
      v. If the Five (5) Minute rule will or will not be applied; (5-8-09)
      vi. If the contest will be delayed to evaluate a combatant; or (5-8-09)
      vii. If the contest will or will not continue. (5-8-09)

   b. The referee must declare whether a blow is legal or a foul. If declared a foul, he must declare if it was Accidental or Intentional. Point deductions for fouls will be done at the time of the infraction. If an intentional foul causes injury and the injury is severe enough to immediately terminate the bout, the combatant causing the injury loses by “Disqualification.” (5-8-09)

   c. Point deductions for an intentional foul is mandatory. If an intentional foul causes an injury and the fouled combatant can continue, the referee at his discretion will deduct points from the offending combatant. (5-8-09)

734. SUSPENSION OF MMA CONTEST FOR UNFORSEEN REASONS (RULE 734).

01. Unforeseen Reasons. If a contest has to be suspended for any reason other than the actions of the combatants, the referee will have the clock stopped and attend to the issue. The referee, Commission or Commission’s representative will decide the length of time allotted to address the issue. All reasonable efforts must
be made to resume the contest as soon as possible. It is expected that the responsible party or parties make a true effort to resolve the issue. (5-8-09)

02. **Suspicious Circumstances.** If the contest is unexpectedly stopped under suspicious circumstances, all or part of the following actions may take place: (5-8-09)

**DOCKET NO. 24-0301-1900F**

**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-707, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.03.01, rules of the State Board of Chiropractic Physicians:

**IDAPA 24**
- 24.03.01, Rules of the State Board of Chiropractic Physicians - All rules except Subsections 010.02, 010.03, 250.01, 250.03, and Section 000.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for chiropractors as well as regulate the practice of chiropractic physicians. Allowing these rules to expire would harm licensees and consumers who seek treatment from chiropractic physicians.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees defined in this chapter, the State Board of Chiropractic Physicians would not be able to remain self-sufficient, contrary to its statutory requirement.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-707A, Idaho Code, as follows: application fee: $50; original license fee: $150; annual renewal fee: $150; inactive license fee: $100; temporary permit fee: $100; intern permit fee: $100; application for clinical nutrition certification fee: $150; and clinical nutrition certification fee: $150.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

PREAMBLE

This code of ethics set forth principles for the ethical practice of chiropractic. All chiropractic physicians are responsible for maintaining and promoting ethical practice and otherwise complying with the terms of this code of ethics. To this end, the chiropractic physician shall act in the best interest of the patient. This code of ethics shall be binding on all chiropractic physicians.

1. Duty to Report
   A. Duty to Report. It shall be the duty of every licensee to notify the Board through the Bureau of Occupational Licenses of any violation of the Chiropractic Act or Board Rules, if the licensee has personal knowledge of the conduct.

   B. Reporting of Certain Judgments to Board. If a judgment is entered against a licensee in any court, or a settlement is reached on a claim involving malpractice exceeding fifty thousand dollars ($50,000), a licensee shall report that fact to the Board within thirty (30) days. The licensee may satisfy the provision of this subsection if he/she provides the Board with a copy of the judgment or settlement.

   If a licensee is convicted of a felony or a crime involving dishonesty, theft, violence, habitual use of drugs or alcohol, or sexual misconduct, he/she shall report that fact to the board within thirty (30) days following the conviction.

2. Advertising of Research Projects
   Advertisement of Affiliation with Research Projects. If a licensee advertises any affiliation with a research project, he must make a written statement of the objectives, cost and budget of the project, and the person conducting the research. Such statements are to be made available at the request of the Board, to scientific organizations, and to the general public. The advertisement must indicate that it is supported by clinical research. Any willful failure to comply with these requirements will be deemed false and deceptive advertising under rule 450. Licensee must comply with all state and federal laws and regulations governing research projects on humans, and shall obtain “Institutional Review Board” (IRB) approval as established and set forth in the U.S. Code of Federal Regulations, Title 45, Part 46, Subpart A (45 CFR 46.101-46-505).

3. Sexual Misconduct
   The doctor-patient relationship requires the chiropractic physician to exercise utmost care that he or she will do nothing to exploit the trust and dependency of the patient. Sexual misconduct is a form of behavior that adversely affects the public welfare and harms patients individually and collectively. Sexual misconduct exploits the doctor-patient relationship and is a violation of the public trust. This section of the Code of Ethics shall not apply between a chiropractor and their spouse.

   For the purposes of this subsection, sexual misconduct is divided into sub-categories based upon the severity of the conduct:

   A. Sexual Impropriety. Any behavior such as gestures, expressions, and statements which are sexually suggestive or demeaning to a patient, or which demonstrate a lack of respect for a patient's privacy.

EFFECTIVE DATE: The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-2808, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 14.01.01, re-designated as IDAPA 24.04.01, Rules of Procedure of the Board of Registration for Professional Geologists:

IDAPA 24

• 24.04.01, Rules of Procedure of the Board of Registration for Professional Geologists — all rules except Subsections 010.01, 010.02, 010.03, 010.05, 100.05, 100.07.a., 100.09, 160, 300.05.a., and 300.06.

This chapter was formerly designated as IDAPA 14.01.01. It has been moved under the administration of the Bureau of Occupational Licenses and is hereby re-designated IDAPA 24.04.01.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for registered geologists who protect the public health, safety and welfare by providing reasoned input in minimizing potential danger from geologic hazards during construction projects; alerting the public to potential danger in areas of seismic risk; defining impacts of human activities and natural occurrences on aquifers, recharge areas, and other water resources; and outlining steps in geohazard mitigation for features such as: fault zones, landslides, and unstable foundation areas. Not reauthorizing these rules would hinder the Board’s ability to admit new applicants, to renew current licenses, and would affect registered geologists’ ability to affix their stamp.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Failing to reauthorize the licensing fees would impair the Board’s ability to keep licensing fees low, while remaining self-sufficient.
FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Sections 54-2813, 54-2814, 54-2815, and 54-2816, Idaho Code, as follows: application fee $100; initial certificate $20; annual renewal $60; annual renewal fee for registrants seventy (70) years of age or older: one-half of the current renewal fee; and duplicate certificate fee: $20.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233. Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

24.05.01 – RULES OF THE BOARD OF DRINKING WATER AND WASTEWATER PROFESSIONALS

DOCKET NO. 24-0501-1900F

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-2406, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.05.01, Rules of the Board of Drinking Water and Wastewater Professionals:

IDAPA 24
• 24.05.01, Rules of the Board of Drinking Water and Wastewater Professionals—All rules except Subsections 010.01, 010.02, 010.12, 010.13, 010.14, and 010.16.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for individuals who maintain Idaho’s public drinking water and public wastewater systems. Allowing these rules to expire would harm the licensees, the localities who operate public drinking water and public wastewater systems, the environment, and the public health.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Board of Drinking Water and Wastewater Professionals would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-2407, Idaho Code, as follows: application fee: $25; examination fee: $37; license by endorsement fee: $30; original license fee: $30; and renewal fee: $30.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to
have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-3717(2), Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.06.01, rules of the Occupational Therapy Licensure Board:

IDAPA 24
• 24.06.01, Rules for the Licensure of Occupational Therapists and Occupational Therapy Assistants—All rules except Subsections 010.01, 010.02, 010.09, 010.11, 010.12, and 010.14.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Occupational Therapy Licensure Board licenses individuals who meet a national education standards and qualifications to therapeutically use everyday life activities to help individuals or groups participate in roles and situations in home, school, the workplace, community, and other settings. These rules public health, safety, and welfare through ensuring those who work with vulnerable members of our society are ethical in their practice and possess and maintain the education and training to assess and treat people who need services in order to function in everyday life activities.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Without the ability to assess and collect the licensure fees described in this chapter, the Occupational Therapy Licensure Board would not be able to remain self-sufficient, contrary to its statutory requirement.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with
Sections 54-3707 and 54-3712, Idaho Code, as follows: initial licensure fee for occupational therapists: $80; initial licensure fee for occupational therapy assistants: $60; fee for limited permit or temporary license: $25; active license annual renewal fee for occupational therapists: $40; active license renewal fee for occupational therapy assistants: $30; inactive license annual renewal fee for occupational therapists and occupational therapy assistants: $20; and the fee for reinstating an inactive license to an active license is the difference between the current inactive and active license renewal fees.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233. Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-3003, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.07.01, rules of the Idaho State Board of Landscape Architects:

IDAPA 24
• 24.07.01, Rules of the Idaho State Board of Landscape Architects—All rules except Sections 010, 100, and 600.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications to practice landscape architecture and ensure that an individual has demonstrated the knowledge, skills, and abilities to practice landscape architecture without endangering the health, safety or welfare of the public.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Idaho State Board of Landscape Architects would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-3003, Idaho Code, as follows: application fee: $75; landscape architect-in-training application fee: $25; and original license fee and annual license fee: $125.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to
have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**DOCKET NO. 24-0801-1900F**

**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 54-1106 and 54-1107, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.08.01, rules of the State Board of Morticians:

- IDAPA 24
  - 24.08.01, Rules of the State Board of Morticians - All rules except Sections 010 and 550.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The State Board of Morticians is charged with the duty to regulate, license, and supervise funeral homes, crematories, Morticians, and Funeral Directors in the State of Idaho. The Board’s primary responsibility is to protect public health, safety, and welfare through licensure and enforcement of Idaho law. Failure to renew these rules would harm public health and safety through eliminating requirements of licensees and licensed facilities to safely, compassionately, and ethically prepare and make final disposition of the deceased.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Board of Morticians would not be able to remain self-sufficient, contrary to its statutory mandate.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Sections 54-1107 and 54-1115, Idaho Code as follows: funeral director original license and annual renewal fee: $85; funeral establishment original license and annual renewal fee: $125; crematory establishment original license and annual renewal fee: $200; mortician original license and annual renewal fee: $85; original, inactive license and annual renewal fee: $40; resident trainee original license and annual renewal: $50; application fee: $100; and original certificate of authority and annual renewal fee: $50.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

24.09.01 – RULES OF THE BOARD OF EXAMINERS OF NURSING HOME ADMINISTRATORS

DOCKET NO. 24-0901-1900F

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-1604, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.09.01, rules of the Board of Examiners of Nursing Home Administrators:

IDAPA 24
• 24.09.01, Rules of the Board of Examiners of Nursing Home Administrators—All rules except Subsections/Section 010.01, 010.02, and 601.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for nursing home administrators, which ensures the integrity and competence of a profession charged with maintaining the quality of care for vulnerable citizens. Allowing these rules to expire would harm the health, safety, and welfare of residents of nursing homes, as well as current and prospective licensees.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Board of Examiners of Nursing Home Administrators would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-1605, Idaho Code, as follows: original license fee: $200; annual renewal fee: $200; original application fee: $200; endorsement application fee: $200; temporary permit fee: $100; administrator-in-training fee: $100; and license reinstatement fee: $100.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

24.10.01 – RULES OF THE STATE BOARD OF OPTOMETRY

DOCKET NO. 24-1001-1900F

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-1509, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.10.01, rules of the State Board of Optometry:

IDAPA 24
• 24.10.01, Rules of the State Board of Optometry—All rules except Subsections/Section 010.01, 010.02, 125, and 625.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications to practice optometry and maintain practice fitness. Allowing these rules to expire would reduce consumer choice, harm licensees, and impose a barrier to entry into the profession.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the State Board of Optometry would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-1506, Idaho Code, as follows: annual renewal fee: $75; annual fund fee: $75; license application fee: $100; and certificate to obtain and use pharmaceutical agents fee: $10.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to
have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

601. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-605, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.11.01, rules of the State Board of Podiatry:

IDAPA 24
• 24.11.01, Rules of the State Board of Podiatry - All rules except Subsections 010.01, 010.02, and 010.05.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for the practice of podiatry and define the ethical standards of the profession in Idaho. Allowing these rules, including the ethical standards, to expire would harm the public health, safety, and welfare, harm licensees, and harm prospective licensees.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the State Board of Podiatry would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Sections 54-605 and 54-606, Idaho Code, as follows: application fee: $200; original license fee: $400; annual renewal fee: $500; and annual renewal fee for inactive license: $250.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to
have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. DOCKET NO. 24-1201-1900F

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-2305, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.12.01, rules of the Idaho State Board of Psychological Examiners:

IDAPA 24
• 24.12.01. Rules of the Idaho State Board of Psychological Examiners—All rules except Subsections/Section 010.01, 010.02, 010.05, 010.06, 010.09, 100.03, 100.04, 100.05, 125, 201.03, 260, 600, 625, and 650.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and ethical standards for psychologists in Idaho, as well as the necessary credentials and standards of practice for certified psychologists to exercise prescriptive authority. Allowing these rules to expire would deprive the Board of the ability to admit new psychologists to practice and renew current licenses, harming the public health, safety, and welfare.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Board would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-2307, 54-2312, 54-2312A, 54-2315, and 54-2318, Idaho Code, as follows: annual renewal fee: $250; annual renewal fee for inactive license: $125; original application fee for licensure by exam: $150; original application fee for licensure by endorsement/senior psychologist: $250; original application fee for provisional certification of prescriptive authority: $250; annual renewal fee for provisional certification of prescriptive authority: $250; original...
application fee for certification of prescriptive authority: $250; annual renewal fee for certification of prescriptive authority: $250; original application fee for certification of prescriptive authority by endorsement: $250; service extender application fee $100; service extender annual renewal fee: $100; and examination and reexamination fee: $25.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

01. **General Provisions for Licensed Psychologists Extending Their Services Through Others.** (7-1-93)

   a. The licensed psychologist exercising administrative control for a service extender must:

      i. Have the authority to cause termination of compensation for the service extender. (7-1-93)

      ii. Have the authority to cause the suspension or removal of the service extender from his position as a service provider. (7-1-93)

      i. Prior to employing the service extender, formulate and provide to the Board a written supervisory plan for each service extender and obtain approval for the plan. The plan must include provisions for supervisory sessions and chart review. If the psychologist requires tapes to be made of psychological services delivered by the service extender, then the plan must also specify review and destruction of these tapes. The plan must also specify the hours per calendar week that the licensed psychologist will be at the same physical location as the person extending the services of the licensed psychologist. The plan must be accompanied by a completed application form and appropriate application fee. (3-29-17)

      ii. Establish and maintain a level of supervisory contact sufficient to be readily accountable in the event that professional, ethical, or legal issues are raised. For service extenders in Categories I and II, there will be a minimum of one (1) hour of face-to-face supervisory contact by a licensed psychologist with the service extender for each one (1) to twenty (20) hours of services provided by the service extender during any calendar week. At least one half (1/2) of this face-to-face supervisory contact will be conducted individually, and up to one half (1/2) of this face-to-face supervisory contact may be provided using a group format. A written record of this supervisory contact, including the type of activities conducted by the service extender, must be maintained by the licensed psychologist. Except under unusual circumstances, the supervisory contact will occur either during the week the services are extended or during the week following. In no case will services be extended more than two (2) weeks without supervisory contact between the service extender and a licensed psychologist. For service extenders in Category III, there will be a minimum of one (1) hour of face-to-face supervisory contact by a licensed psychologist with the service extender during each calendar month that services are provided by the service extender. A written record of this supervisory contact, including the type of activities conducted by the service extender, must be maintained by the licensed psychologist. The licensed psychologist will also be available for consultation either face-to-face, by phone, or by other means of contact on any day that services are provided by the service extender. (3-28-18)

c. Supervision of service extenders through electronic communications, including video conferencing, cannot replace face-to-face supervision. Psychologists will ensure that the service that they provide through the use of service extenders is provided according to all applicable laws and rules. (3-29-17)

02. Qualifications for Service Extenders.

720. **STANDARDS OF PRACTICE FOR PRESCRIPTIVE AUTHORITY (RULE 720).** A prescribing psychologist who issues a prescription for medication to a patient must collaborate with the patient’s licensed medical provider and follow standards of practice as set forth in these rules. (4-1-19)

01. **Licensed Medical Provider.** A prescribing psychologist may only prescribe medication to a patient who has a licensed medical provider. If a patient does not have a licensed medical provider, the prescribing psychologist must refer the patient to a licensed medical provider prior to prescribing medication. (4-1-19)

   a. In the event a patient terminates the relationship with the patient’s licensed medical provider, with whom the prescribing psychologist has established a collaborative relationship, and the patient declines to secure a new licensed medical provider, the prescribing psychologist must advise the patient that the prescribing psychologist cannot continue to psychopharmacologically manage the patient. (4-1-19)

   b. The prescribing psychologist must document that the psychologist has made every reasonable effort to encourage the patient to maintain or establish a relationship with a licensed medical provider. (4-1-19)

   c. In those cases, in which an abrupt discontinuation of a psychopharmacologic medication could represent a health risk or result in adverse effects, the prescribing psychologist, with concurrence from the previously established licensed medical provider, may prescribe the medication in a manner that is customarily recognized as a discontinuation regimen until the medication has been completely discontinued. The prescribing psychologist must document the discontinuation regimen in the patient’s medical records. (4-1-19)

02. **Release of Information.** A prescribing psychologist must obtain a release of information from the patient or the patient’s legal guardian authorizing the psychologist to contact the patient’s licensed medical provider. If the patient or the patient’s legal guardian refuses to sign a release of information for the patient’s licensed medical provider, the prescribing psychologist must inform the patient or the patient’s legal guardian that the psychologist cannot treat the patient psychopharmacologically without an ongoing collaborative relationship with the patient’s licensed medical provider. The psychologist must refer the patient to another mental health care provider who is not required to maintain an ongoing collaborative relationship with a licensed medical provider. (4-1-19)

03. **Initial Collaboration with Licensed Medical Provider.** Prior to prescribing medication, a prescribing psychologist must contact the patient’s licensed medical provider as provided in these rules and receive the results of the licensed medical provider’s assessment. (4-1-19)

   a. The prescribing psychologist must inform the licensed medical provider of:

      i. The medication(s) the prescribing psychologist intends to prescribe for mental, nervous, emotional, behavioral, substance abuse, cognitive disorders; and

      ii. Any laboratory tests that the prescribing psychologist ordered or reviewed. (4-1-19)

   b. The prescribing psychologist must discuss with the licensed medical provider the relevant indications and contraindications to the patient of prescribing the medication(s) that the prescribing psychologist intends to prescribe. (4-1-19)

   c. The prescribing psychologist must document the date and time of contacts with the licensed medical provider, a summary of what was discussed, and the outcome of the discussions or decisions reached.
04. Ongoing Collaboration with Licensed Medical Provider. After the initial collaborative relationship with the patient’s licensed medical provider is established, the prescribing psychologist must maintain and document the collaborative relationship to ensure that relevant information is exchanged accurately and in a timely manner. At a minimum the prescribing psychologist must:

a. Contact the licensed medical provider for any changes in medication not previously discussed with the licensed medical provider.

b. Contact the licensed medical provider if and when the patient experiences adverse effects from medications prescribed by the psychologist that may be related to the patient’s medical condition for which he or she is being treated by a health care practitioner.

c. Contact the licensed medical provider regarding results of laboratory tests related to the medical care of the patient that have been ordered by the psychologist in conjunction with psychopharmacological treatment.

d. Inform the licensed medical provider as soon as possible of any change in the patient’s psychological condition that may affect the medical treatment being provided by the licensed medical provider.

e. Request that as part of the collaborative relationship, the licensed medical provider inform the prescribing psychologist of any new medical diagnosis or changes in the patient’s medical condition that may affect the treatment being provided by the prescribing psychologist.

f. Request that as part of the collaborative relationship, the licensed medical provider inform the prescribing psychologist of any psychotropic medications prescribed or discontinued by the licensed medical provider or other licensed medical provider, of which the licensed medical provider is aware, the dates of any subsequent changes in psychotropic medications prescribed by the licensed medical provider or other licensed medical provider, of which the licensed medical provider is aware, and the efforts to coordinate the mental health care of the patient as soon as possible.

05. Disagreement between Prescribing Psychologist and Licensed Medical Provider. If the licensed medical provider and the prescribing psychologist do not agree about a particular psychopharmacological treatment strategy, the prescribing psychologist must document the reasons for recommending the psychopharmacological treatment strategy that is in disagreement and must inform the licensed medical provider of that recommendation. If the licensed medical provider believes the medication is contraindicated because of a patient’s medical condition, the prescribing psychologist must defer to the judgment of the licensed medical provider and may not prescribe that psychopharmacological treatment strategy.

06. Prohibited Agreements with Licensed Medical Providers. A prescribing psychologist is prohibited from employing a licensed medical provider or entering into an independent contractor or similar contractual or financial relationship with a licensed medical provider with whom the prescribing psychologist collaborates, unless approved by the Board. The Board may grant an exception to this requirement on a case-by-case basis where the prescribing psychologist shows that such relationship is structured so as to prohibit interference with the licensed medical provider’s relationship with patients, the licensed medical provider’s exercise of independent medical judgment, and satisfaction of the obligations and responsibilities in Chapter 23, Title 57, Idaho Code, and these rules.

07. Prescriptions. All prescriptions issued by a prescribing psychologist must comply with all applicable federal and state laws, rules and regulations and these rules.

08. Emergencies. If a prescribing psychologist determines that an emergency exists that may jeopardize the health or well being of the patient, the prescribing psychologist may, without prior consultation with the patient’s licensed medical provider, prescribe psychotropic medications or modify an existing prescription for psychotropic medication previously written for that patient by that prescribing psychologist. The prescribing
psychologist must consult with the licensed medical provider as soon as possible. The prescribing psychologist must document in the patient’s psychological evaluation/treatment records the nature and extent of the emergency and the attempt(s) made to contact the licensed medical provider prior to prescribing or other reason why contact could not be made. (4-1-19)

09. **Disaster Areas.** If a prescribing psychologist is working in a declared emergency/disaster area, the on-site medical staff can serve as the evaluating licensed medical provider. (4-1-19)

730. **FORMULARY (RULE 730).**
A prescribing psychologist may prescribe medications and controlled substances that are recognized in or customarily used in the diagnosis, treatment and management of individuals with mental, nervous, emotional, behavioral, substance abuse and cognitive disorders and that are relevant to the practice of psychology or other procedures directly related thereto under the following limitations. (4-1-19)

01. **Prohibited Medications and Controlled Substances.** A prescribing psychologist may not prescribe:

a. Any medication or controlled substance designated or included as a Schedule I controlled substance; or

b. Any opioid. (4-1-19)

02. **Disorders and Conditions.** A prescribing psychologist may not prescribe medication to treat a primary endocrine, cardiovascular, orthopedic, neurologic, gynecologic, obstetric, metabolic, hematologic, respiratory, renal, gastrointestinal, hepatic, dermatologic, oncologic, infectious, ophthalmologic, or rheumatologic illness or disorder. The provisions of this rule do not prohibit a prescribing psychologist from prescribing to treat a mental, nervous, emotional, behavioral, substance abuse or cognitive disorder that arises secondary to a primary physical illness, provided that the primary illness is being treated and the prescribing psychologist collaborates with the patient’s licensed medical provider, as provided in these rules. 24.13.01 – RULES GOVERNING THE PHYSICAL THERAPY LICENSURE BOARD
DOCKET NO. 24-1301-1900F
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-2206, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.13.01, rules of the Idaho Physical Therapy Licensure Board:

IDAPA 24
• 24.13.01, Rules governing the Physical Therapy Licensure Board—All rules except Subsections 010.01, 010.02, and 010.03.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for physical therapists and physical therapist assistants and define the ethical standards to which licensees must adhere. Allowing these rules to expire would harm the public health, safety, and welfare since these rules help ensure the competence and appropriate conduct of physical therapists and physical therapist assistants.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Physical Therapy Licensure Board would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 65-2207, Idaho Code, as follows: initial licensure and annual renewal fee of a physical therapist: $25; initial licensure and annual renewal fee of a physical therapist assistant: $20; examination fee: $20; and application fee: $25.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233. Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

**IDAPA 24 – BUREAU OF OCCUPATIONAL LICENSES**  
**24.14.01 – RULES OF THE STATE BOARD OF SOCIAL WORK EXAMINERS**  
**DOCKET NO. 24-1401-1900F**  
**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-3204, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.14.01, rules of the State Board of Social Work Examiners:

- IDAPA 24  
  - 24.14.01, Rules of the State Board of Social Work Examiners - All rules except Subsections/Subsection 010.01, 010.02, and 250.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for licensed professional social workers, as well as outline the ethical responsibilities and code of professional conduct licensees must adhere to. Allowing these rules and the requirements contained within them to lapse would harm the safety and welfare of citizens, licensees, and prospective licensees.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the State Board of Social Work Examiners would not be able to remain self-sufficient, contrary to its statutory mandate.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-3209, Idaho Code, as follows: application and original license fee for licensed clinical social worker or licensed masters social worker or licensed social worker: $70; endorsement and license fee for licensed clinical social worker or licensed masters social worker or licensed social worker: $90; licensed clinical social worker renewal fee: $90; licensed masters social worker: $80; licensed social worker: $80; inactive licensed clinical social worker: $45; inactive licensed masters social worker: $40; and inactive licensed social worker: $40.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

j. A social worker must report any violation of the law or rules, including Code of Professional Conduct, by a person certified under Chapter 32, Title 54, Idaho Code.  

03. Competent Practice for Social Workers. All social workers must practice in a competent manner consistent with their level of education, training and experience.  

a. A social worker must only represent himself and practice within the boundaries of his education, training, licensure level, supervision, and other relevant professional experience.  

b. A social worker must only practice within new areas or use new intervention techniques or approaches after engaging in appropriate study, training, consultation, or supervision.  

c. A social worker must exercise careful judgment, when generally recognized standards do not exist with respect to an emerging area of practice, and take responsible steps to ensure the competence of his practice.  

04. The Advertising Rules for Social Workers. No social worker may disseminate or cause the dissemination of any advertisement or advertising that is in any way fraudulent, false, deceptive or misleading. Any advertisement or advertising is deemed by the board to be fraudulent, false, deceptive, or misleading if it:  

a. Contains a misrepresentation of fact; or  

b. Is misleading or deceptive because in its content or in the context in which it is presented it makes only a partial disclosure of relevant facts. More specifically, it is misleading and deceptive for a social worker to advertise free services or services for a specific charge when in fact the social worker is transmitting a higher charge for the advertised services to a third party payor for payment or charges the patient or a third party. It is misleading and deceptive for a social worker or a group of social workers to advertise a social work referral service or bureau unless the advertisement specifically names each of the individual social workers who are participating in the referral service or bureau.  

c. Creates false or unjustified expectations of beneficial treatment or successful outcomes; or  

d. Fails to identify conspicuously the social worker or social workers referred to in the advertising as a social worker or social workers; or  

e. Contains any representation or claims, as to which the social worker, referred to in the advertising, fails to perform; or  

f. Contains any representation which identifies the social worker practice being advertised by a name which does not include the terms “social worker,” “social work,” or some easily recognizable derivation thereof; or  

g. Contains any representation that the practitioner has received any license or recognition by the state of Idaho or its authorized agents, which is superior to the license and recognition granted to any social worker who successfully meets the licensing requirements of Chapter 32, Title 54, Idaho Code; or  

h. Appears in any classified directory, listing, or compendium under a heading, which when considered together with the advertisement, has the capacity or tendency to be deceptive or misleading with respect to the profession or professional status of the social worker; or  

i. Contains any other representation, statement, or claim which is misleading or deceptive.  

05. Dual Relationships. A social worker may not engage in dual or multiple relationships with clients, with relatives of a client, or with individuals with whom clients maintain close personal relationships, in which a reasonable and prudent social worker would conclude after appropriate assessment that there is a risk of harm or exploitation to the client or of impairing a social worker’s objectivity or professional judgment. A dual or multiple relationship is a relationship that occurs when a social worker interacts with a client in more than one capacity,
whether it be before, during, or after the professional, social, or business relationship. Dual or multiple relationships can occur simultaneously or consecutively. After an appropriate assessment that the relationship does not create a risk of harm or exploitation to the client and will not impair a social worker’s objectivity or professional judgment, the social worker must document in case records, prior to the interaction, when feasible, the rationale for such a relationship, the potential benefit to the client, and anticipated consequences for the client.

06. Business Relationships. A social worker may not purchase goods or services from a client or otherwise engage in a business relationship with a client except when:

a. The client is providing necessary goods or services to the general public;

b. A reasonable and prudent social worker would determine that it is not practical or reasonable to obtain the goods or services from another provider; and

c. A reasonable and prudent social worker would determine that engaging in the business relationship will not be detrimental to the client or the professional relationship.

07. Bartering. Bartering is the acceptance of goods, services, or other nonmonetary remuneration from a client in return for a social worker’s services. Social workers may not barter except when such arrangement is not exploitative and:

a. Is initiated by the client and with the client’s written informed consent; and

b. Has an easily determined fair market value of the goods or services received.

24.15.01 – RULES OF THE IDAHO LICENSING BOARD OF PROFESSIONAL COUNSELORS
AND MARRIAGE AND FAMILY THERAPISTS
DOCKET NO. 24-1501-1900F
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-3404, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.15.01, rules of the Idaho Licensing Board of Professional Counselors and Marriage and Family Therapists:

   IDAPA 24
   • 24.15.01, Rules of the Idaho Licensing Board of Professional Counselors and Marriage and Family Therapists
     - All rules except Subsections 010.01 and 010.02.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and ethical standards for professional counselors and marriage and family therapists. Allowing these rules to expire would harm public health, safety, and welfare through removing safeguards designed to protect against harm or damage to vulnerable children, adolescents, and adults.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Idaho Licensing Board of Professional Counselors and Marriage and Family Therapists would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-3411, Idaho Code, as follows: application fee for professional counselor, clinical professional counselor, marriage and family therapist, and associate marriage and family therapist: $75; application fee for intern
registration: $25; marriage and family therapist examination or reexamination fee: $25; original license fee for professional counselor, clinical professional counselor, associate marriage and family therapist, and marriage and family therapist: $75; annual license renewal fee for professional counselor, clinical professional counselor, associate marriage and family therapist, and marriage and family therapist: $100; annual inactive license renewal fee for professional counselor, clinical professional counselor, associate marriage and family therapist, and marriage and family therapist: $50; and annual license renewal fee for senior professional counselor, clinical professional counselor, associate marriage and family therapist, and marriage and family therapist: $60.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-3309, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.16.01, rules of the State Board of Denturitry:

IDAPA 24
• 24.16.01, Rules of the State Board of Denturitry - All rules except Subsections/Sections 010.01, 010.03, 100, 450.01.g, 450.01.k, 500, 550, and 600.

The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and facility standards for the practice of denturitry. Allowing these rules to expire would deny the Board of its ability to ensure minimum qualifications for practice are met and facility standards are maintained.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Board would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-3309, Idaho Code, as follows: license application and examination fee: $300; license application and re-examination fee: $300; intern application and permit fee: $300; initial license fee: $300; annual renewal fee: $75; and inactive license fee: $50.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to
have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-4705, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.17.01, rules of the State Board of Acupuncture:

IDAPA 24
• 24.17.01, Rules of the State Board of Acupuncture - All rules except Subsections/Sections 010.01, 010.02, 010.03, 010.10, 010.12, 100, and 551.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for the practice of acupuncture and allowing the rules to expire would impede the Board’s ability to ensure that acupuncture services are provided by competent individuals.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the State Board of Acupuncture would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-4710, Idaho Code, as follows: application fee: $50; original license fee: $150; original fee for certification $150; original fee for acupuncture trainee permit: $150; annual renewal fee for licensure: $75; annual renewal fee for certification: $75; annual renewal fee for technician certification or acupuncture trainee permit: $50; fee for inactive license or certification: $50.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

02. **Misleading or Deceptive.** Is misleading or deceptive because in its content or in the context in which it is presented it makes only a partial disclosure of relevant facts. It is misleading and deceptive for a practitioner to advertise free or services for a specific charge when in fact the practitioner is transmitting a higher charge for the advertised services to a third party payor for payment or charges the patient or a third party. It is misleading and deceptive for a practitioner to use the word “Doctor” in offering to perform services without also indicating the profession in which the licensee holds a doctorate level degree. 576. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-4106, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.18.01, rules of the Real Estate Appraiser Board:

IDAPA 24

• 24.18.01, Rules of the Real Estate Appraiser Board
  - All rules except Subsections 010.03, 010.06, 010.07 and 401.06.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the initial and ongoing licensure requirements for real estate appraisers and appraisal management companies in Idaho. These rules are required under federal law in order for Idaho licensed appraisers to conduct appraisals for federally related transactions. Allowing these rules to expire would put Idaho out of compliance with the federal requirements, which would harm licensees and the public.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Real Estate Appraiser Board would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Sections 54-4113, 54-4124, and 54-4134, Idaho Code, as follows: application fee for license and registration: $200; original license fee: $100; original appraisal management company registration: $1,000; license renewal fee: $275; appraisal management company registration renewal: $900; application for reciprocity: $200; original license via reciprocity: $100; temporary permit: $75; trainee registration fee: $50; and continuing education provider application fee: $100.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

24.19.01 – RULES OF THE BOARD OF EXAMINERS OF RESIDENTIAL CARE FACILITY ADMINISTRATORS

DOCKET NO. 24-1901-1900F

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-4205, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.19.01, rules of the Board of Examiners of Residential Care Facility Administrators:

IDAPA 24
• 24.19.01, Rules of the Board of Examiners of Residential Care Facility Administrators - All rules except Sections 010, 500, and 700.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and code of ethics for individuals who run residential care facilities, which are home to residents with varying assistive needs. Allowing these rules to expire would harm the safety and welfare of the residents of residential care facilities, current licensees, and prospective licensees.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Board of Examiners of Residential Care Facility Administrators would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Sections 54-4205, 54-4206, and 54-4210, Idaho Code, as follows: license application fee: $150; annual renewal fee: $150; provisional permit fee: $150; and reissuance of lost license fee: $10.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 67-2609, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.20.01, rules of the Bureau of Occupational Licenses:

IDAPA 24
• 24.20.01, Rules of the Bureau of Occupational Licenses - All rules except Subsections/Section 010.03, 010.06, 201.07, and 600.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules primarily govern the process for inquiries into licensees and registrants, and, where necessary, supplement the contested case procedures for each of the boards the Bureau serves. Allowing these rules to expire would disrupt the uniform process the Bureau uses for each of the boards it serves, adding an unnecessary burden on licensees and registrants.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-5206, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.21.01, rules of the Idaho State Contractors Board:

IDAPA 24
• 24.21.01, Rules of the Idaho State Contractors Board - All rules except Sections 010 and 200.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the process for registering as a contractor in Idaho. Allowing these rules to expire would harm the public safety and welfare because the Board would not have a framework to analyze applicants with felony convictions.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the registration fees outlined in this chapter, the Idaho State Contractors Board would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-5207, Idaho Code, as follows: application fee: $35; reciprocal fee: $35; annual registration renewal fee: $35; and reinstatement fee: $35.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. DOCKET NO. 24-2201-1900F
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-5310, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.22.01, rules of the Idaho State Liquefied Petroleum Gas Safety Board:

IDAPA 24

• 24.22.01, Rules of the Idaho State Liquefied Petroleum Gas Safety Board - All rules except Subsections/Sections 010.01, 010.02, 100.01, 200, 225.02, and 300.02.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for facilities and individuals who engage in the selling, filling, refilling, transporting, delivering, or commercial handling of liquefied petroleum gas (LPG), or engage in the installation or maintenance of systems, equipment, pipes or containers for the use or storage of LPG. Allowing these rules and the standards set forth within them to expire would endanger public health, safety, and welfare.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Idaho State Liquefied Petroleum Gas Safety Board would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-5313, as follows: application fee: $30; original individual license and annual renewal fee: $75; dealer-in-training license fee: $50; original facility license fee and annual renewal fee: $400; original bulk storage facility fee and annual renewal fee: $400; and endorsement fee: $75.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**24.23.01 – RULES OF THE SPEECH, HEARING AND COMMUNICATION SERVICES LICENSURE BOARD**

**DOCKET NO. 24-2301-1900F**

**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-2910, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.23.01, rules of the Speech, Hearing and Communication Services Licensure Board:

- **IDAPA 24**
  - 24.23.01, Rules of the Speech, Hearing and Communication Services Licensure Board - All rules except Subsections 010.01, 010.02, and 200.01.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications for speech pathologists, audiologists, hearing aid dealers and fitters, and sign language interpreters, as well as the code of ethics for sign language interpreters. Allowing these rules to expire would harm the health, safety, and welfare of Idaho citizens with speech and hearing disorders.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges realigned in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to realign these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the of the Speech, Hearing and Communication Services Licensure Board would not be able to remain self-sufficient, contrary to its statutory mandate.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Sections 54-2912, 54-2913, 54-2914, 54-2915, 54-2916A, 54-2918, and 54-2921, Idaho Code, as follows: application
fee: $30; original license fee: $70; examination and reexamination administrative fee when administered by the Board: $50; provisional permit: $100; registration fee for out-of-state licenses: $10; annual renewal fee: $100; and annual renewal fee for inactive license: $65.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

24.24.01 – RULES OF THE GENETIC COUNSELORS LICENSING BOARD
DOCKET NO. 24-2401-1900F
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-5607, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.24.01, rules of the Genetic Counselors Licensing Board:

**IDAPA 24**

- 24.24.01, Rules of the Genetic Counselors Licensing Board - All rules except Subsections/Sections 010.01, 010.02, 010.05, 010.06, 010.11, 010.12, 010.13, 010.14, 010.15, 011.02, 011.03, 301, and 400.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications, code of ethics, and standards of practice for genetic counselors. Allowing these rules to expire would harm the public health, safety, and welfare of those citizens who utilize genetic services.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Genetic Counselors Licensing Board would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-5613, Idaho Code, as follows: application fee: $200; original license fee: $200; annual renewal fee: $200; provisional license fee: $200; license by endorsement fee: $200; and duplicate license fee: $10.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to
have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

DOCKET NO. 24-2501-1900F
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-5403, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.25.01, rules of the Idaho Driving Businesses Licensure Board:

IDAPA 24
• 24.25.01, Rules of the Idaho Driving Businesses Licensure Board - All rules except Sections/Subsections 0100 and 200.01.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the credentials required to instruct Idaho’s student drivers and protect the public sharing the roadways with student drivers. Allowing these rules to expire would mean the dissolution of the curriculum standards for students in private driving schools, suspension of the standards driving instructors and driving businesses are required to maintain, and removal of an alternative form of driver’s education for Idaho students and their families.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose licensure fees outlined in this chapter, the Driving Businesses Licensure Board would not be able to remain self-sufficient, in contradiction to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-5404, Idaho Code, as follows: application fee: $25; original instructor license fee and renewal fee: $25; instructor apprentice permit fee: $25; and original business license fee and renewal fee: $125.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. (4-7-11)

229. -- 249. (RESERVED)

250. **DRIVING INSTRUCTOR LICENSE (RULE 250).**

01. **Application.** Each applicant for a driving instructor license must apply as required by Rule 150. Each applicant is required to provide his name, date of birth, and contact information, including mailing address and telephone number, on the Board-approved application form.

(4-7-11)

02. **Age.** An applicant for a driving instructor license must be at least twenty-one (21) years old.

(4-7-11)

03. **Driving Record and Drivers License.** Each applicant must submit a copy of a valid driver’s license in good standing and a copy of a satisfactory driving record. An unsatisfactory record includes, but is not limited to, two (2) moving violations in the past twelve (12) months, or suspension or revocation of a driver’s license in the last thirty-six (36) months, or a conviction involving alcohol or controlled substances within the last thirty-six (36) months.

(4-7-11)

04. **Criminal History Background Check.** Each applicant must submit to a current, fingerprint-based criminal history check conducted by an organization approved by the Board. Each applicant must submit a full set of the applicant’s fingerprints, and any relevant fees, to the Bureau which will forward the fingerprints and fees to the organization that conducts the fingerprint based criminal history background check. The application will not be processed until the completed fingerprint-based criminal history background check has been received.

(3-20-14)

05. **Medical Certificate.** A driving instructor licensee may not provide in-vehicle instruction to students if the instructor suffers from a medical condition that may impair the instructor’s ability to safely instruct student drivers. Accordingly, each applicant for an instructor’s license must obtain a medical examination performed by a licensed medical professional. The examination must be completed within two (2) years preceding the application. The applicant must submit a medical examiner’s certificate, issued and signed by a licensed, qualified medical professional documenting that the examination occurred and that the applicant does not suffer from any physical or mental condition or disease that would impair the applicant’s ability to safely instruct student drivers. If a medical condition exists, the applicant must re-certify as the medical professional requires and submit that information to the Board.

(3-29-17)
06. **Education.** Each applicant must submit written evidence, satisfactory to the Board, of having graduated from a high school or a regionally or nationally accredited college or university, or of having obtained a GED. (4-7-11)

The applicant must have undertaken and completed the apprenticeship training program within the five (5) year period immediately preceding the application. (4-11-15)

a. Proof of successful completion must include written certificate from a Board-approved apprenticeship training program certifying that the applicant has satisfactorily completed the program. An applicant need not have completed all required classroom instruction and behind-the-wheel training hours through a single program so long as the last program attended by the applicant ensures itself, and its business licensee certifies to the Board that the applicant has satisfactorily completed all required hours through Board-approved apprenticeship training programs. (4-7-11)

b. A person may not enroll in an apprenticeship training program unless the person has applied for, paid for, and obtained an apprenticeship permit from the Board. The applicant must apply on Board-approved forms, which must identify the applicant and the business licensee in whose approved apprenticeship training program the applicant will be enrolled. The individual applicant must establish that they are at least twenty-one (21) years old, hold a valid driver’s license and a satisfactory driver license record, have passed a fingerprint based criminal history background check, and have obtained a medical certificate consistent with the requirements of Subsections 250.02 through 250.05. An apprenticeship permit automatically expires one (1) year after issuance. The Board also may suspend or revoke an apprenticeship permit, and refuse to issue another permit, if the permittee engages in any act or omission that would subject the permittee to discipline if the permittee had an instructor’s license. No one may be a permittee for more than three (3) years. (3-20-14)

08. **Waiver of Instructor Apprenticeship Training Program.** An applicant is entitled to a waiver of the apprenticeship training program if they possess the requisite training and experience as set forth below. (4-11-15)

a. An applicant who holds a current active unrestricted equivalent driving instructor license from another state qualifies for a waiver of the apprenticeship training program requirement. The applicant is responsible to provide proof to the Board that they hold a current unrestricted driving instructor license from another state, and that said license is equivalent to an Idaho driver instructor license in its qualifications and scope of practice; or

b. An applicant who has held within the past five (5) years an active and unrestricted public driver education instructor license issued by the Idaho State Department of Education and has completed eight (8) hours of continuing education within the prior year or an individual who has completed the Idaho State Department of Education driving instructor program within the past five (5) years and has completed eight (8) hours of continuing education within the prior year qualifies for a waiver of the apprenticeship training program requirement. The applicant is responsible to provide proof to the Board that they meet the requirements herein. (4-11-19)

251. -- 274. (RESERVED)

275. **INSTRUCTOR APPRENTICESHIP TRAINING PROGRAM (RULE 275).**

01. **Application for Approval.** A business licensee may operate a Board-approved instructor apprenticeship training program. The business licensee must apply for program approval on forms provided by the Board, and submit with the application such documentation as the Board may require to enable the Board to assess whether the proposed program meets the Board’s approval criteria, as specified in Subsections 275.03 through 275.08 of these rules. (4-7-11)

02. **Suspension or Revocation of Approval and Discipline.** If an approved program fails to
consistently adhere to the approval criteria in Subsections 275.03 through 275.08 of these rules, the Board may suspend or revoke the approval. Further, if a business licensee that operates an approved program fails to cooperate with the Board in any inspection or audit of the program, the licensee may be disciplined. (4-7-11)

**03. Apprentices.** The business licensee must ensure that all persons who enroll in the licensee’s program possess a valid instructor apprenticeship training permit from the Board. (3-20-14)

**04. Instruction and Training Hours.** The Board must be satisfied that the program has designed its proposed instruction and training to produce safe and effective driving instructors. The business licensee must ensure that the program includes at least the following instruction and training components:

a. Each apprentice must receive at least sixty (60) hours of classroom instruction covering the curriculum components for student classroom instruction specified in Subsections 226.01 through 226.10 of these rules. These hours may also be completed through on-line or internet based instruction. (4-7-11)

b. Each apprentice must receive at least one hundred eight (108) hours of behind-the-wheel-training covering the curriculum components for student in-car instruction specified in Subsections 226.11 through 226.14 of these rules. When an apprentice begins to provide behind-the-wheel driving instruction to students, a program instructor must supervise the apprentice by riding in the vehicle with the apprentice and students for the first six (6) hours. A program instructor also must ride in the vehicle with the apprentice and students to evaluate the apprentice during the final two (2) hours of the apprentice’s behind-the-wheel training. (4-7-11)

**05. Instructors.** The business licensee must ensure that only licensed driving instructors are allowed to teach in the program. A list of the instructors must accompany the application for approval. (4-11-19)

**06. Recordkeeping.** The business licensee must ensure that the program maintains progress records for each apprentice. A program instructor and the apprentice must sign and date the records each month, and copies of the records must be provided to the apprentice. The records must, at a minimum, identify each lesson completed, the number of hours of instruction involved in the lesson, the date the apprentice completed the lesson, the instructor who taught the lesson, and whether the apprentice passed. When an apprentice’s course of instruction has been completed or terminated, the program business licensee must maintain the records of the apprentice’s progress, and the total hours recorded and maintained by the program for a period of five (5) years from completion or termination date. These records are subject to inspection by the Board at any time. (4-7-11)

**07. Certificate of Proficiency.** The program must provide each apprentice with a certificate of proficiency evidencing all hours satisfactorily completed by the apprentice while in the program, and that the apprentice is proficient in all areas covered by the certificate. (4-7-11)

**08. Discontinuance of Program.** If the business licensee ceases to operate the program, the business licensee must provide the program’s current and prior apprentices with any progress or other records that the program is required to maintain under this Section. (4-7-11)

276. -- 449. (RESERVED)

450. **DISCIPLINE (RULE 450).**

**01. Grounds for Discipline.** In addition to the grounds for discipline listed in Section 54-5408, Idaho Code, grounds for discipline also include:

a. Failure to cooperate with an inspection or audit conducted by the Board or its agents, including, without limitation, any continuing education audit, as specified in Section 54-5403(6), Idaho Code. Failure to cooperate includes, without limitation, failure to provide documentation requested by the Board or its agents during an inspection or audit of the licensee’s compliance with Board laws or rules. (4-7-11)

b. Violating any of the following standards of conduct that have been adopted by the Board: (4-7-11)

i. A licensee must not use fraud or deception in procuring or renewing, or in attempting to procure or
renew, a license, permit, or other authorization issued by the Board.  

(ii) A licensee must not aid, abet, or assist any person or entity in conduct for which a license or permit is required under Idaho Driving Businesses Act, unless the person or entity has the required license or permit.  

(iii) A licensee must comply with final orders of the Board issued in contested cases to which the licensee is a party.  

02. Disciplinary Sanctions. If the Board determines that grounds for discipline exist, it may impose disciplinary sanctions against the licensee including, without limitation, any or all of the following:

a. Revoke or suspend the licensee’s license(s);  
b. Restrict or limit the licensee’s practice;  
c. Require the licensee to pay an administrative fine not to exceed one thousand dollars ($1000) for each violation identified in the Board’s order;  
d. Require the licensee to pay all or part of the costs and fees incurred by the Board in the investigation and prosecution of the licensee, including without limitation, all costs and fees incurred by the Board in proceedings upon which the order was entered.

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-5504, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.26.01, rules of the Idaho Board of Midwifery:

IDAPA 24
• 24.26.01, Rules of the Idaho Board of Midwifery—All rules except Subsections 010.01 and 010.02.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications, formulary, and certain standards of practice of midwives in Idaho. Allowing these rules to expire would harm licensees and would impose a barrier to care, harming the public health, safety, and welfare of the citizens of Idaho.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Idaho Board of Midwifery would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-5504, Idaho Code, as follows: initial application fee $200; initial license fee: $800; annual renewal fee: $850; and reinstatement fee: $50.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233. Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

### Obtaining Formulary Drugs

A licensed midwife may obtain formulary drugs as allowed by law, including, without limitation, from:

- A person or entity that is licensed as a Wholesale Distributor by the Idaho State Board of Pharmacy; and
- A retail pharmacy, in minimal quantities for office use.

### Storing Formulary Drugs

A licensed midwife must store all formulary drugs in secure areas suitable for preventing unauthorized access and for ensuring a proper environment for the preservation of the drugs. However, licensed midwives may carry formulary drugs to the home setting while providing care within the course and scope of the practice of midwifery. The licensed midwife must promptly return the formulary drugs to the secure area when the licensed midwife has finished using them for patient care.

### Disposing of Formulary Drugs

A licensed midwife must dispose of formulary drugs using means that are reasonably calculated to guard against unauthorized access by persons and harmful excretion of the drugs into the environment. The means that may be used include, without limitation:

- Transferring the drugs to a reverse distributor who is registered to destroy drugs with the U.S. Drug Enforcement Agency;
- Removing the drugs from their original containers, mixing them with an undesirable substance.

A licensed midwife must dispose of medical waste during the practice of midwifery according to the following protocol:

01. Containers for Non-Sharp, Medical Waste. Medical waste, except for sharps, must be placed in disposable containers/bags which are impervious to moisture and strong enough to preclude ripping, tearing or bursting under normal conditions of use. The bags must be securely tied so as to prevent leakage or expulsion of solid or liquid waste during storage, handling or transport. The containment system must have a tight-fitting cover and be kept clean and in good repair. All bags used for containment of medical waste must be clearly identified by label or color, or both.

02. Containers for Sharps. Sharps must be placed in impervious, rigid, puncture-resistant containers immediately after use. Needles must not be bent, clipped or broken by hand. Rigid containers of discarded sharps must either be labeled or colored like the disposable bags used for other medical waste, or placed in such labeled or colored bags.

24.27.01 – RULES OF THE IDAHO STATE BOARD OF MASSAGE THERAPY

DOCKET NO. 24-2701-1900F

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-4007, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.27.01, rules of the Idaho State Board of Massage Therapy:

IDAPA 24
• 24.27.01, Rules of the Idaho State Board of Massage Therapy - All rules except Subsections 010.02, 010.03, 300.02, and 300.03.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules protect the health, safety, and welfare of the public through ensuring massage therapy services are provided by those who have met minimum qualifications to perform massage therapy. Allowing these rules to expire would harm current licensees, applicants, and the public because the minimum standards of competency would lapse.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are necessary to meet the state’s obligations and provide necessary state services. The expiration of the fees or charges would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Without the ability to impose licensure fees prescribed in this chapter, the Idaho State Board of Massage Therapy would not be able to remain self-sufficient, in violation of its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-4008, Idaho Code, as follows: application fee: $50; original license fee: $65; annual renewal fee: $65; license by endorsement fee: $75; temporary license fee: $25; provisional permit fee: $25; and duplicate license fee: $10.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

c. The educational course setting may include a classroom, conference, seminar, on-line or a virtual classroom.

Documented evidence of completing a continuing education activity must be in such form as to document both completion and date of the activity.

b. A licensee must submit the verification documentation to the Board, if requested by the Board. In
the event a licensee fails to provide the Board with acceptable documentation of the hours attested to on the renewal application, the licensee may be subject to disciplinary action. (3-27-13)

This waiver is granted at the sole discretion of the Board. (3-27-13)

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 54-5807 and 54-5822, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 24.28.01, rules of the Barber and Cosmetology Services Licensing Board:

IDAPA 24  
• 24.28.01, Rules of the Barber and Cosmetology Services Licensing Board—All rules except Subsections 010.01 and 010.02.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and standards for licensees in the barber and cosmetology services industry, as well as the hygiene and sanitation standards of establishments which offer those services. Failing to reauthorize these rules would deprive the Board of the ability to protect the public health, safety, and welfare of the citizens of Idaho.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Without the ability to impose the licensure fees outlined in this chapter, the Barber and Cosmetology Services Board would not be able to remain self-sufficient, contrary to its statutory requirement.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The following fees are established in accordance with Section 54-5822, Idaho Code, as follows: original license fee for individual licenses: $25; original license fee for instructors: $30; original license fee for establishments: $20; original license fee for schools: $300; original license or registration fee for facilities: $20; renewal fee for individual licenses: $25; renewal fee for
instructors: $30; renewal fee for establishments: $20; renewal fee for schools: $85; renewal fee for facilities: $20; registration fee for apprentice: $25; certificate for makeup artist: $25; and license by endorsement fee: $35.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233. Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

EFFECTIVE DATE: The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-3107, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 49.01.01, which are re-designated as IDAPA 24.29.01, Rules of Procedure of the Idaho Certified Shorthand Reporters Board:

IDAPA 24
• 24.29.01, Rules of Procedure of the Idaho Certified Shorthand Reporters Board—all rules except Sections 008, 010, 101, and 150.

This chapter was formerly designated as IDAPA 49.01.01. It has been moved under the administration of the Bureau of Occupational Licenses and is hereby re-designated IDAPA 24.29.01.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules govern the qualifications and criteria for shorthand reporters in Idaho. Allowing these rules to expire would harm recent efforts made to reduce barriers to entry into the profession and would adversely affect the Board’s ability to admit new licensees, harming the welfare of prospective licensees and the industries the Board serves.

The fee or charge imposed by the rule is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and the immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Absent the ability to impose the licensure fees outlined in this chapter, the Certified Shorthand Reporters Board would not be able to remain self-sufficient, contrary to its statutory mandate.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or
charge, beyond what was previously approved and codified in the prior rules. Fees are established in accordance with Section 54-3110, Idaho Code, as follows: application fee: $50; examination fee: $50; annual renewal fee: $75; and examination preparation materials: $20.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state General Fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Rob McQuade at (208) 334-3233.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 36-2107 and 36-2108, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 25, rules of the Idaho Outfitters and Guides Licensing Board:

IDAPA 25.01.01, Rules of the Idaho Outfitters and Guides Licensing Board – All rules Subsections/Sections except 002.04, 002.05, 002.08, 002.21, 002.40, 002.41, 002.46, 033; and clean-up and technical amendments to Subsections/Sections 000., 001., 002.15, 002.38, 004., 017., 027., 051.04.a, 065, and 071.

IDAPA 25.01.01, Rules of the Idaho Outfitters and Guides Licensing Board – Section 057 modified by temporary rule adopted and approved April 2019.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules are necessary for the Board to carry it out its statutory charge to safeguard the health, safety, welfare and freedom from injury or danger of those persons utilizing the services of outfitters and guides, and for the conservation of wildlife and range resources in the State of Idaho. They also ensure that opportunities to hunt, fish, and recreate are made available to the public, and ensure appropriate stewardship of Idaho natural resources and wildlife.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The Board is a self-supporting, dedicated fund agency, which means that it operates almost entirely on licensure fees. These fees are necessary for the operation of the Board, including the processing of applications, investigations and enforcement, and board operations.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.
1. Rule 015.06: Expedited and emergency application fees of $150 for an outfitter license; $75 for a designated agent license; and $50 for a guide license.

2. Rule 015.07: Resubmittal, exceptional or special processing fees of $100 for an outfitter license; $75 for a designated agent license; $50 for a guide license; and $5 for an allocation fee recovery.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

018. NEW OUTFITTER OR OUTFITTER LICENSE AMENDMENT APPLICATION.
In order to be complete, a new outfitter license or outfitter license amendment application, or new landowner statement in existing areas must, in addition to all other requirements:

01. Signed. Be signed by the applicant. A new outfitter license application must be signed under oath before a notary public and be accompanied by a bond on a form approved by the Board. (3-23-98)
02. **Other Signatures.** Include the signatures of:

019. **DESIGNATED AGENT.**
When the applicant is a corporation, firm, partnership, or other organization or combination thereof, a supplemental form must be completed and it must designate at least one (1) designated agent who is a qualified outfitter who will be responsible for the outfitting business. The outfitter business and designated agent(s) must each make application and obtain licenses. Proof of a bond must be submitted to the Board to complete a renewal application. Any new applicant who has been approved by the Board must submit a bond prior to the issuance of a license.

020. **EXAMINATION.**
All new applicants applying for an outfitter or designated agent license will be required to take a written and/or oral examination on the Act, the rules, and general outfitting procedures. If the applicant fails the test, he may retake it after a fifteen (15) day waiting period. If he fails it a second time, the application for that license year will be denied due to an insufficient knowledge of matters essential to the conduct of an outfitter operation.
021. EVALUATION OF THE OUTFITTER APPLICATION.
In evaluating an outfitter application for approval or denial, the Board will consider, but not be limited to, the following criteria:

01. Compliance. Applicant compliance with qualification criteria as prescribed in the Act and the rules. (3-1-86)

02. Need for Services. The public need for the proposed service(s) in the area requested on the application. (3-1-86)

07. Area Requested. The total amount of area requested, giving due consideration to the effect such license would have upon the environment, the amount of game available to be harvested, the probable impact on the area should additional licenses be issued, and the number of persons who can be adequately served in the area. (3-1-86)

08. Operating Plan. The adequacy and acceptability of the proposed operating plan. (3-1-86)

022. ISSUANCE OF AN OUTFITTER LICENSE.
When the Board issues an outfitter license, said license specifies the activity(ies) for which the applicant is licensed, designate specific operating area(s) for each activity, and be based on an operating plan acceptable to the Board. In order to safeguard the health, safety, and welfare of the public and for the conservation of wildlife resources, the Board may place a limit on the number of outfitter licenses issued within an operating area. An outfitter may not operate in an area for which there is no landowner or land manager statement where applicable. The outfitter may operate only under the names licensed by the Board and under no other names. An outfitter business that is a corporation, partnership, LLC or LLP must have a Designated Agent in order to be licensed and to operate. (4-11-06)

023. THIRD PARTY AGREEMENTS.
An outfitter may not sublet or enter into any third party agreements involving the use of his activity(ies), operating area(s), or license. (10-15-88)

   01. Employed. No licensed outfitter may allow any person to conduct any of the activities for which he is licensed unless said person is employed directly by the outfitter as a guide. (10-15-88)

   02. No Activities. No person may conduct any outfitted activities for or on behalf of a licensed outfitter unless said person is directly employed as a guide by the outfitter to whom the operating area(s) and activity(ies) are licensed. (10-15-88)

   03. Other Activities. Any arrangement wherein an outfitter licensed to conduct outfitted activity(ies)
in an operating area(s) knowingly allows, condones, or otherwise abets and supports the conduct of outfitting activity(ies) by another, wherein said outfitter does not assume full and complete responsibility for all clients booked for such activity(ies), constitutes an unlawful third party agreement. Complete responsibility includes providing liability insurance to cover the client, collection of fees paid for the activity(ies), payment of user fees and taxes, and making the client aware as to who is the responsible outfitter(s). Such unlawful activity(ies) is grounds for discipline as unethical and unprofessional conduct in addition to any other penalties which may be assessed for violations of these rules or the laws of the state of Idaho. (10-15-88)

04. Booking Agent. This Rule is not deemed to apply to the conduct of a booking agent nor to an agreement between two (2) or more outfitters in which the outfitters provide services to the same party or parties within their respective operating areas. (10-15-88)

024. STANDARDS FOR NON-USE. An outfitter license is a publicly issued license enabling the holder to provide outfitted and guided services to the public. Because many outfitters operate on public lands and waters, there is an expectation that these services be provided adequately and that the public’s natural resources are utilized appropriately. It is important to determine whether the outfitter is providing, or attempting to provide, the public service intended. It is recognized that there are various factors outside the control of an outfitter that may affect an outfitter’s business operation. These rules establish the process used by the Board to monitor the use of outfitter assigned activities and operating areas, to determine the causes for outfitter inactivity, and to fairly administer identified remedies when this service is inadequately provided or the resource is inadequately used. The Board will prioritize the need for action on non-use based on, among other factors, interest or demand for the particular activity or area. (4-11-06)

01. Requirement. The Board may annually review the outfitter’s use reports for the preceding three (3) years to determine whether any licensed activity or operating area fall within non-use. If the outfitter falls within non-use, a “notice of non-use” may be issued to the outfitter. (4-11-06)

02. Definitions.

a. Non-use. When an outfitter is making zero (0) or negligible use of major licensed activities for any two (2) of the three (3) preceding years unless the lack of use is due to an act of nature or because of state or federal agency restrictions on hunting or fishing that limit the ability of the outfitter to seek and accommodate clients; (4-11-06)

b. Zero (0) use. No recorded use by an outfitter of their licensed area or activities; (4-11-06)

c. Negligible use. An unreasonable lack of use as determined by the Board for any one (1) or more of the particular activities in the assigned operating area. Typically, use may be determined by comparison of use levels for the same activity(s) in similar operating areas. Other factors in determining use are found in Subsection 024.04. (4-11-06)

03. Process.

a. Outfitters are required to submit use reports each year during the license renewal. (4-11-06)

b. A “notice of non-use” may be issued to an outfitter who appears to be in non-use. The notice will include the activity(s) and operating area(s) that appear to be in non-use and an explanation of how the determination was made. The outfitter will be given the opportunity to correct the use records by supplying staff with evidence of use, prior to a hearing being scheduled. If adequate proof of use is not provided, the matter will be scheduled for a hearing. (4-11-06)

c. When it is determined by the Board that any activity or operating area has had zero (0) use or negligible use, certain requirements may be imposed by the Board up to and including revocation of some or all of the outfitter’s operating areas and activities. (4-11-06)

04. Examples of Acceptable Use:

(4-11-06)
IDAHO ADMINISTRATIVE CODE
Outfitters and Guides Licensing Board

a. Paying clients participating in activities occurring within a designated operating area; (4-11-06)

b. Donated trips; (4-11-06)

c. Outfitter initiated applications for controlled hunts in their licensed operating area; (4-11-06)

d. Outfitter initiated applications for trophy species; and (4-11-06)
e. Use in conformance with a current and accepted operating plan. (4-11-06)

05. Required Records. Outfitters may be required to submit client records that include the name, address, and date of activity of individual clients or groups for a period of three (3) consecutive years. (4-11-06)

06. Non-Use During a Sale. Board staff reviews all full or partial business sales for non-use. If it is determined a major activity or operating area has had zero (0) or negligible use, the Board may review the sale and the issuance of a license may be denied. In some instances the Board may approve the sale with notification to the buyer that use must be established within the following two (2) out of the next three (3) years or the area or activity may be removed from their license. (4-11-06)

07. Waiver of Compliance. The Board may waive compliance with the non-use standard upon a showing of good cause. Waivers of non-use may be issued when the lack of use is a result of an act of nature, or by state or federal agency seasonal restrictions on hunting or fishing that limit the ability of the outfitter to seek and accommodate clients. Waivers may also be considered when personal circumstances such as illness or injury limit the ability of the outfitter to seek and accommodate clients. Non-use waivers must be applied for prior to the beginning of the license year or immediately upon the advent of extenuating circumstances. If a federal permit holder is requesting zero (0) or negligible use, the request for a waiver must be accompanied by a Land Manager’s Statement. (4-11-06)

025. OUTFITTER RENEWAL.
Every application for license renewal must include: (3-1-86)

01. Operating Plan. A proposed operating plan if any amendment to the existing operation is sought. (3-1-86)

02. Use Report. A use report for the preceding year which must contain a report on the actual use during the preceding year. (3-1-86)

026. OPERATING AREA ADJUSTMENTS.
An outfitter’s operating area may be adjusted for reasons of wildlife harvest, where territorial conflict exists, or for the safety of persons utilizing the services of outfitters. (10-15-88)

01. Hearing. If the Board determines that a hearing is necessary prior to the adjustment of a licensee's operating area, such hearing will be conducted in accordance with the Idaho Administrative Procedures Act, Title 67, Chapter 52, Idaho Code, and all affected parties will be afforded an opportunity to participate. (3-30-01)

02. Consideration. In determining whether to adjust an operating area for reasons of wildlife harvest, the Board or the hearing officer considers, among other things, the following: (10-15-88)

a. Any changes in wildlife harvest, including any increase or decrease in wildlife harvest attributable to the licensee's activity(ies). (10-15-88)

b. Any new limitation(s) imposed or recommendation(s) made regarding wildlife harvest in the operating area(s) by any governmental agency since the issuance of the license. (10-15-88)

c. Any environmental change(s) that have occurred in the operating area(s) that affect wildlife management. (10-15-88)

d. Any undesirable wildlife impact(s) that may be ameliorated by a territorial adjustment. (10-15-88)
e. Any new information discovered since the issuance of the license regarding wildlife management in the operating area(s). (10-15-88)

03. Consideration. In determining whether to adjust an operating area for reasons of territorial conflict, the Board or the hearing officer considers, among other things, the following:

a. Any incident(s) of territorial conflict and how they might be ameliorated by a territorial adjustment. (10-15-88)

b. The extent of each licensee's legal use of the disputed area. (10-15-88)

c. Any public or client safety concerns that might be ameliorated by or might arise from the inclusion of the disputed area as part of a particular licensee's operation. (10-15-88)

d. Any environmental or operational factors that indicate which licensee will be able to make the best use of the disputed area in providing services to the public considering, among other things, each licensee's licensed activity(ies) and the relationship of that activity(ies) to the activity(ies) conducted in the disputed area, each licensee's total operating area, the financial stability of each licensee, and the accessibility of the disputed area from adjacent operating area(s). (10-15-88)

e. Any recommendation(s) submitted by any governmental agency that regulates or manages land or wildlife within the disputed area. (10-15-88)

04. Safety Adjustment. In determining whether to adjust an operating area for reasons of safety of persons using the services of an outfitter, the Board or hearing officer considers, among other things, the following:

a. Any change(s) in the environmental condition(s) in the area that may pose a threat to the health and safety of persons using the operating area. (10-15-88)

b. Any change(s) in the manner or amount of public use of the operating area since the issuance of the license that may pose a threat to the health and safety of persons using the operating area. (10-15-88)

c. Any change(s) in a licensee's manner of operation within the operating area that may affect clientele safety considering, among other things, change(s) in the condition(s) of the licensee's capability or equipment. (10-15-88)

e. Any safety concern(s) expressed by any governmental agency that regulates or manages land or wildlife within the operating area. (10-15-88)

f. Any new information discovered since the issuance of the license regarding safety. (10-15-88)

027. OUTFITTER LICENSE TENURE.

Tenure in any outfitter's operating area ceases with the expiration of his outfitter license at the end of the license period. Priority in the operating area may be maintained by submitting a complete application for a license for the ensuing license period before the expiration date of the current license. (4-26-19)

028. OUTFITTER BUSINESS PURCHASE, LICENSE CONSIDERATIONS.

01. Transferability. An outfitter license is not transferable. (3-15-02)

02. Issuance to Purchaser. The purchase of an outfitting business from a licensed outfitter does not require the Board to transfer the operating area(s) of the licensee to the purchaser or to issue to him an outfitter license; however, an applicant who has negotiated a purchase agreement with a licensee may be given priority for a
license if he meets all other outfitter requirements. (3-15-02)

03. Notification to Clients. When an existing operation is acquired by another outfitter, all clients who have booked with the original outfitter must be promptly notified. Each client must be satisfied with the new arrangements or his advance payment must be refunded. (3-15-02)

029. OUTFITTER BOND CANCELLATION.
An outfitter or designated agent must immediately notify the Board in the event their bond is canceled. The cancellation of an outfitter license bond by the insurer automatically suspends the outfitter's license and the outfitter must immediately cease operation. The license remains suspended until such time that the outfitter can demonstrate that the bond has been reinstated or a new bond issued and until the license is reinstated. Special processing fees will apply. If the bond is not reinstated within ninety (90) days, the license is relinquished. (3-29-10)

030. OUTFITTER WAITING LISTS.
When there are more outfitter applications for an outfitter operating area than the maximum number of licenses allowing such activity, or when an individual wishes to be considered in an area to which another outfitter has historically been licensed, the Board will maintain a list of such individuals for notification of an available opening. If there is no waiting list for an area, the Board may proceed with the license application or may employ a competitive application process.

01. Waiting List. The waiting list will be maintained for each individual river, lake and reservoir outlined in Section 059 and for each specific Idaho Department of Fish and Game (IDFG) unit listed in IDAPA 13.01.08, “Rules Governing the Taking of Big Game Animals in the State of Idaho.” (4-11-06)

02. Outfitter Application or Outfitter Amendment Form. A new outfitter application or outfitter amendment form must be completed and a partial application fee submitted for each river section, lake and reservoir and for each specific IDFG unit that the individual desires. The individual must indicate all activities for which they wish to be considered on the application form. (4-11-06)

03. New Outfitter Waiting List Application Fee. The Board will charge the individual wishing to be placed on a waiting list a partial application fee for each area for which they wish to be considered. (4-11-06)

04. Length of Time Name Is on Waiting List. A name on the waiting list will be maintained for a period of five (5) years or until December 31 of the fifth year that the name is placed on the list, whichever comes first. (4-11-06)

05. When Available Outfitting Opening Occurs. When, or if, an available opening does occur and public announcement is made, the Board will use the waiting list for direct notification by mail of interested parties, and will select a qualified candidate from those who apply. Any person on the list who remains interested in obtaining a license following notification of availability must re-apply by submitting all necessary forms and fees during the open period as announced by the Board in order to have his application considered. (4-11-06)

06. When an Operating Area Is Relinquished by the Licensee. If an existing operating area (hunting, boating, or other) is relinquished by the licensee, the Board (if it deems it advisable to relicense the area) will publicize the area's availability and accept written applications for a thirty (30) day period of time from the date of public notice from those persons wishing to be licensed to the area. The Board will then consider the qualifications of all applicants and license the area to the candidate determined to be most qualified. Criteria to be used in making this selection includes those criteria used to consider new outfitter applications or those criteria used to consider existing outfitters who wish to amend their licenses. (4-11-06)

07. Availability. The Board will determine the availability of operating areas for relicensing by the beginning of each license year. (4-11-06)

031. EXCEPTION TO GUIDE LICENSE REQUIREMENTS/CAMP HELPER, ETC.

A log of this experience must be recorded on a form provided by the Board office giving dates, and location, and must be maintained by the outfitter. (5-8-09)

039. FLOAT BOAT GUIDE -- CLASSIFIED RIVERS.
A float boat guide on a classified river must be licensed as a float boatman or a float lead boatman according to his experience on that specific river. Each trip on a classified river must have a lead boat operated by a guide licensed as
a lead boatman for that specific river and all other boats participating in that trip must follow the lead boat and must be operated by a guide licensed as a boatman or a lead boatman for that specific river. (Note exception for trainees in Section 040). (3-1-86)

Outfitters with a gross income of the outfitting business for the previous calendar year of more than ten thousand dollars ($10,000) must submit a bond of ten thousand dollars ($10,000). An outfitter who conducts day trips only may petition the Board for a reduction to a five thousand dollar ($5,000) bond. (3-29-10)

057. **DESIGNATION OF ALLOCATED DEER AND ELK TAGS.**

   For capped zones and controlled hunts for which the Idaho Fish and Game Commission adjusted the number of allocated deer or elk tags in March 2019, the Board will designate the allocated tags among the eligible outfitter operations as prescribed by Section 36-2107(j), Idaho Code, and when necessary, based on an outfitter’s proportional use within the capped zone or controlled hunt zone, unit, or game management area as set forth in this section. For purposes of this section, an eligible outfitter operation is an outfitter whose licensed activities include hunting the species for the type of allocated tag in the affected capped zone or controlled hunt zone, unit, or game management area. (5-22-19)

   a. Calculation and Designation of Allocated Tags. Pursuant to Section 36-2107(j), Idaho Code and as set forth below, an outfitter's number of designated tags will be the outfitter's base allocation number plus a proportional share of any surplus allocated tags based on outfitted tag use as set forth below, or when there is an insufficient number of allocated tags to satisfy each outfitter's base allocation, the outfitter's proportional use. The result is the number of allocated tags designated for the outfitter operation. The Board will notify outfitters of the number of designated allocated tags and the underlying basis for the designation. The designation applies until the next big game season setting by the Idaho Fish and Game Commission. (4-26-19)

   i. An outfitter's base allocation number is: (4-26-19)

   ii. For a capped zone, the average of the last two (2) years of an outfitter's outfitted tag use. (4-26-19)

   b. An outfitter's proportional use is calculated by dividing an individual outfitter's base allocation by the total of the base allocations of all outfitters in the capped zone or controlled hunt zone, unit, or game management area, and then multiplying by the total number of allocated tags for the capped zone or controlled hunt. (4-26-19)
c. When a calculation results in a partial tag, the calculation will be rounded up when a decimal equals or exceeds zero point six (0.6) and rounded down when a decimal is less than zero point six (0.6).  

(4-26-19)

d. When there are remaining allocated tags after the Board has designated tags pursuant to Paragraphs a and b of this rule, the Board will designate remaining allocated tags based on the following priorities and in the following order: 

(4-26-19)

i. All eligible outfitters whose base allocation number is zero (0) and who want to be designated allocated tags are designated at least one (1) allocated tag; 

(4-26-19)

ii. Eligible outfitters with the fewest number of designated allocated tags have an equal number of designated allocated tags when possible;  

(4-26-19)

iii. Based on a random drawing between the eligible outfitters with the fewest number of designated allocated tags provided that an outfitter is not designated more allocated tags than another outfitter that has a greater base allocation number;  

(4-26-19)

iv. Based on the greater base allocation number between the eligible outfitters with the fewest number of designated allocated tags.  

(4-26-19)

e. When there is a deficit of allocated tags to satisfy each outfitter's proportional use, the Board will identify the group of outfitters whose base allocation number was rounded up, and the deficit will be resolved against the outfitter whose base allocation number prior to rounding is closest to zero point six (0.6). In the event there are two outfitters with the same unrounded base allocation number closest to zero point six (0.6), the deficit will be resolved against one of those outfitters based on a random drawing.  

(4-29-19)

02. Stipulation by Outfitters. Outfitters in a capped zone or for a controlled hunt may submit to the Board a written stipulation determining the number of allocated tags designated for each outfitter within the capped zone or for the controlled hunt. The stipulation must be signed by all eligible outfitters for the capped zone or controlled hunt. If the Board accepts the stipulation, the stipulation will be effective until the Idaho Fish and Game Commission sets the next big game season. 

(4-26-19)

a. On or before November 1, any outfitter may petition the Board to withdraw from the stipulation for good cause. If the Board grants the withdrawal, then the Board will calculate and designate the allocated tags among the outfitters in that capped zone or controlled hunt according to Subsection 01 of this rule.  

(4-26-19)

b. A stipulation only applies to the designation of allocated tags by the Board. 

(4-26-19)

03. Objection to Calculation. An outfitter that believes the calculation is incorrect may object by filing a petition in accordance with the Idaho administrative procedures act with the Board along with any supporting information or documentation. 

(4-26-19)

a. The Board will notify all other eligible outfitters in the capped zone or for the controlled hunt of the petition. 

(4-26-19)

b. The outfitter bears the burden of establishing that the calculation was incorrect. 

(4-26-19)

04. Hardship Request. An outfitter may submit to the Board a written request to maintain a previous base allocation number when the outfitter can demonstrate hardship, including health, act of nature, state of federal restrictions on hunting or access or other good cause that prohibited or limited the outfitter's ability to seek and accommodate clients and impacted the outfitter's use of designated allocated tags. The outfitter must provide any information requested by the Board to assist in substantiating hardship cases. The hardship request must also be approved by the Idaho Department of Fish and Game to retain the outfitted hunter tag use history in respective hunt.  

(4-26-19)

05. Change in Operating Area or Owner of Business. When an outfitting business is sold or when an
operating area is adjusted and designated allocated tags are associated with the affected operating area, the board will transfer the associated designated allocated tags to the new owner. (4-26-19)

During this one-time exception, if the two (2) additional boats do not accommodate the large client group, additional boats must come from slots allocated to other outfitters. The maximum daily boat limit for SS1 may not be exceeded. This would require written concurrence from the BLM/USFS and the IOGLB Executive Director.

Float boats may use motors (5HP or less) for downstream steerage only within the entire SS1 reach. Downstream steerage would not include holding or upstream travel of watercraft with a motor.

** One (1) license additional for waterfowl hunting covering both BLM and USFS managed lands and waters for the South Fork (Palisades Dam to Wolf Flats Boat Access may be issued. This license opportunity is in addition to the eight (8) float licenses and is limited to providing waterfowl hunting during waterfowl hunting season as defined by Idaho Fish and Game Rules and where no more than two (2) float or power boat boats per day per section a and b only can be used by the outfitter at any one time for that purpose. NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 67-4223, 67-4238, 67-7001, 67-7002, 67-7008A, 67-7103, 67-7122, 67-7125, and 67-7132, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 26, rules of the Department of Parks and Recreation:

IDAPA 26
• IDAPA 26.01.03, Rules Governing Recreational Registration Program Vendors
• IDAPA 26.01.21, Rules Governing Leasing Practices and Procedures for Recreational Residences Within Heyburn State Park, exclusive of Sections 030 and 170
• IDAPA 26.01.22, Rules Governing Cooperating Associations
• IDAPA 26.01.24, Rules Governing the Administration of the Sawtooth National Recreation Area Special License Plate Funds
• IDAPA 26.01.30, Idaho Safe Boating Rules
• IDAPA 26.01.31, Rules Governing the Administration of the Idaho Department of Parks and Recreation State and Federal Grant Funds
• IDAPA 26.01.34, Idaho Protection Against Invasive Species Sticker Rules
• IDAPA 26.01.37, Rules Governing Test Procedures and Instruments for Noise Abatement of Off Highway Vehicles

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Without the rules in place we would be unable to protect public health through the safe boating funds we received from boat registrations and the Coast Guard (close to $3.1 million) and through noise abatement of off-highway vehicles. We would also not be able to administer important funding to other agencies through our recreation programs, state and federal grant programs (totaling over $8.2 million) and the invasive species sticker program ($1.4 million). Finally, we would be unable to administer our leases with cabin owners in Heyburn State Park ($450,000).

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

450. HULL IDENTIFICATION NUMBERS -- FORM.
Each hull identification number issued according to Section 67-7004(2), Idaho Code, consists of twelve (12) characters, uninterrupted by slashes, hyphens, or spaces, as follows: (1-1-94)

01. Prefix. The first three (3) characters (prefix) are “IDZ,” which denotes Idaho as the issuing authority. (1-1-94)

02. Hull Serial Number. Characters four (4) through eight (8) is the hull serial number assigned by the director in letters of the English alphabet, or Arabic numerals, or both, except the letters “I,” “O,” and “Q.” (1-1-94)

03. Date of Manufacture. Characters nine (9) and ten (10) indicate the month and year of manufacture. The date indicated can be no earlier than the date construction or assembly began and no later than the date construction or assembly is completed or the vessel is imported into the United States. Character nine (9) is indicated using letters of the English alphabet. The first month of the year, January, is designated by the letter “A,” the second month, February, by the letter “B,” and so on until the last month of the year, December. Character ten (10) is the last digit of the year of manufacture or import and must be an Arabic numeral. (1-1-94)

04. Model Year. Characters eleven (11) and twelve (12) indicate the model year using Arabic numerals for the last two (2) numbers of the model year such as “87” for 1987 and “88” for 1988. (1-1-94)

451. -- 474. (RESERVED)

475. HULL IDENTIFICATION NUMBERS -- DISPLAY.
Each hull identification number issued according to Section 67-7004(2), Idaho Code must be displayed as follows: (1-1-94)

01. Primary Number. The primary hull identification number must be affixed: (1-1-94)

a. On vessels with transoms, to the starboard outboard side of the transom within two (2) inches of the top of the transom, gunwale, or hull/deck joint, whichever is lowest. (7-1-93)

b. On vessels without transoms or on vessels on which it would be impractical to use the transom, to the starboard outboard side of the hull, aft, within one (1) foot of the stern and within two (2) inches of the top of the hull side, gunwale or hull/deck joint, whichever is lowest. (7-1-93)

c. On catamarans and pontoon vessels which have readily replaceable hulls, to the aft crossbeam within one (1) foot of the starboard hull attachment. (7-1-93)

d. If the hull identification number would not be visible, because of rails, fittings, or other accessories, the number must be affixed as near as possible to the location specified in Subsection 475.01 of this chapter. (1-1-94)

02. Duplicate Number. The duplicate hull identification number must be affixed in an unexposed location on the interior of the vessel or beneath a fitting or item of hardware. (1-1-94)

03. Hull Identification Number to Be Permanently Affixed. Each hull identification number must be carved, burned, stamped, embossed, molded, bonded, or otherwise permanently affixed to the vessel so that alteration, removal, or replacement would be obvious. If the number is on a separate plate, the plate must be fastened in such a manner that its removal would normally cause some scarring of or damage to the surrounding hull area. A hull identification number may not be attached to parts of the vessel that are removable. (1-1-94)
4. **Size of Characters.** The characters of each hull identification number may be no less than one-fourth (1/4) of an inch high. (1-1-94)

476. -- 499. **(RESERVED)**

500. **IDAHO WATERWAY MARKING SYSTEM.**

1. **Uniform System.** In the marking of water areas, as described in Section 67-7031, Idaho Code, the Uniform State Waterway Marking System is used for the placement of aids to navigation and regulatory markers in the waters of the state. (1-1-94)

2. **Regulatory Markers.** Regulatory markers are used to indicate to a vessel operator the existence of dangerous areas as well as those which are restricted or controlled, such as speed zones and areas dedicated to a particular use, or to provide general information and directions. (1-1-94)

3. **Colors.** Each regulatory marker must be colored white with international orange geometric shapes. (7-1-93)

4. **Buoys.** When a buoy is used as a regulatory marker it must be white with horizontal bands of international orange placed completely around the buoy circumference. One (1) band must be at the top of the buoy body, with a second band placed just above the waterline of the buoy so that both international orange bands are clearly visible to approaching vessels. The area of buoy body visible between the two (2) bands must be white. (7-1-93)

5. **Geometric Shapes.** Geometric shapes must be placed on the white portion of the buoy body and must be colored international orange. The authorized geometric shapes and meanings associated with them are as follows: (7-1-93)
   a. A vertical open faced diamond shape to mean danger.
   b. A vertical open faced diamond shape having a cross centered in the diamond to mean that a vessel is excluded from the marked area.
   c. A circular shape to mean that vessel operated in the marked area is subject to certain operating restrictions.
   d. A square or rectangular shape with directions or information lettered on the inside.

6. **Signs.** Where a regulatory marker consists of a square or rectangular shaped sign displayed from a structure, the sign must be white, with an international orange border. When a diamond or circular geometric shape associated with meaning of the marker is included it must be centered on the signboard. (7-1-93)

7. **Navigation Aids.** Aids to navigation are used to supplement the federal lateral system of buoyage and have either a lateral or cardinal meaning. (1-1-94)

8. **Defined Channel.** On a well defined channel including a river or other relatively narrow natural or improved waterway, an aid to navigation is normally a solid colored buoy. A buoy that marks the left side of the channel viewed looking upstream or toward the head of navigation must be colored all black. A buoy that marks the right side of the channel viewed looking upstream or toward the head of a navigation must be colored all red. On a well defined channel, solid colored buoys are established in pairs, one (1) on each side of the navigable channel that they mark, and opposite each other to inform the user that the channel lies between the buoys and that he should pass between the buoys. (7-1-93)

9. **Irregularly Defined Channel.** On an irregularly defined channel, solid colored buoys may be used singly in staggered fashion on alternate sides of the channel provided they are spaced at sufficiently close intervals to inform the user that the channel lies between the buoys and that he should pass between the buoys. (7-1-93)
10. **Undefined Channel.** Where there is no well defined channel or when a body of water is obstructed by objects whose nature or location is such that the obstruction can be approached by a vessel from more than one (1) direction, supplemental aids to navigation having cardinal meaning (i.e., pertaining to the cardinal points of the compass, north, east, south, and west) may be used. The use of an aid to navigation having cardinal meaning is discretionary provided that the use of such a marker is limited to wholly state owned waters and the state waters for private aids to navigation as defined and described in Section 500 of this chapter. (1-1-94)

11. **Cardinal System.** Aids to navigation conforming to the cardinal system consist of three (3) distinctly colored buoys. (7-1-93)

   a. A white buoy with a red top may be used to indicate to a vessel operator that he will pass to the south or west of the buoy. (1-1-94)

   b. A white buoy with a black top may be used to indicate to a vessel operator that he will pass to the north or east of the buoy. (1-1-94)

   c. In addition, a buoy showing alternate vertical red and white stripes may be used to indicate to a vessel operator that an obstruction to navigation extends from the nearest shore to the buoy and that he may not pass between the buoy and shore. The number of white and red stripes is discretionary, provided that the white stripes are twice the width of the red stripes. (1-1-94)

12. **Markers to Be Visible.** The size, shape, material, and construction of all markers, both fixed and floating, must be such as to be observable under normal conditions of visibility at a distance such that the significance of the marker or aid must be recognizable before the observer stands into danger. (1-1-94)

13. **Lettering to Be Visible.** Numbers, letters or words on an aid to navigation or regulatory marker must be placed in a manner to enable them to be clearly visible to an approaching and passing vessel. They must be block style, well proportioned, and as large as the available space permits. Numbers and letters on red or black backgrounds must be white; numbers and letters on white backgrounds must be black. (7-1-93)

14. **Numbering Buoys.** Odd numbers must be used to identify solid colored black buoys or black topped buoys; even numbers must be used to identify solid colored red buoys or red topped buoys. All numbers must increase in an upstream direction or toward the head of navigation. The use of numbers to identify buoys is discretionary. (7-1-93)

15. **Lettering Markers.** Letters only may be used to identify regulatory and the white and red vertically striped obstruction markers. When used the letters must follow alphabetical sequence in an upstream direction or toward the head of navigation. The letters “I” and “O” are omitted to preclude confusion with numbers. The use of letters to identify regulatory markers and obstruction markers is discretionary. (7-1-93)

16. **Reflective Material.** The use of reflectors or retroreflective materials is discretionary. (7-1-93)

17. **Color of Reflective Material.** When used on buoys having lateral significance, red reflectors or retroreflective materials must be used on solid colored red buoys; green reflectors or retroreflective materials must be used on solid colored black buoys; white reflectors or retroreflective materials only may be used for all other buoys including regulatory markers, except that orange reflectors or retroreflective materials may be used on the orange portions of regulatory markers. (7-1-93)

18. **Lights.** The use of navigational lights on state aids to navigation, including regulatory markers, is discretionary. When used, lights on solid colored buoys must be regularly flashing, regularly occulting, or equal interval lights. For ordinary purposes the frequency of flashes may not be more than thirty (30) flashes per minute (slow flashing). When it is desired that lights have a distinct cautionary significance, as at sharp turns or sudden constrictions in the channel or to mark wrecks or other artificial or natural obstructions, the frequency of flashes may not be less than sixty (60) flashes per minute (quick flashing). When a light is used on a cardinal system buoy or a vertically striped white and red buoy it must always be quick flashing. The colors of the lights must be the same as for reflectors; a red light only on a solid colored red buoy; a green light on solid colored black buoy; white light only for all other buoys including regulatory markers. (1-1-94)
19. **Ownership Identification.** The use and placement of ownership identification is discretionary, provided that ownership identification is worded and placed in a manner that avoids detracting from the meaning intended to be conveyed by a navigational aid or regulatory marker. (1-1-94)

20. **Mooring Buoys.** Mooring buoys instate waters for private aids to navigation must be colored white and must have a horizontal blue band around the circumference of the buoy centered midway between the top of the buoy and the waterline. (1-1-94)

21. **Lighted Mooring Buoys.** A lighted mooring buoy must normally display a slow flashing white light. When its location in a waterway is such that it constitutes an obstruction to a vessel operated during hours of darkness, it must display a quick flashing white light. (1-1-94)

22. **Identifying Mooring Buoys.** A mooring buoy may bear ownership identification provided that the manner and placement of the identification does not detract from the meaning intended to be conveyed by the color scheme or identification letter when assigned. (7-1-93)

525. **NEGLIGENT OPERATION.**

Negligent operation, as used in Section 67-7017, Idaho Code, includes, but not be limited to, the following:

01. **Airborne.** Becoming airborne or completely leaving the water while crossing the wake of another vessel at an unsafe distance from the vessel creating the wake; or (3-23-98)

02. **Weaving.** Weaving through congested traffic; or (3-23-98)

03. **Speed or Proximity.** Operating at such a speed and proximity to another vessel, a person, or property of other persons so as to require the operator to swerve at the last moment to avoid collision. (3-23-98)
000. **LEGAL AUTHORITY.**
The Idaho Park and Recreation Board is authorized under Section 67-4223(a), Idaho Code, to adopt, amend, or rescind rules as may be necessary for proper administration of the Department and its programs. (7-1-99)

01. **Pre-Application Activities.** Projects, or any part thereof, either paid for by the grantee or completed prior to the grant application deadline date established by the Department, must be ineligible for grant funding or to be considered as match. However, costs for design and engineering incurred within one (1) year prior to the application deadline date may be considered as match, provided they are listed as a scope element on the application. Recreational Trail Program projects, or any part thereof, completed prior to the execution of the project agreement must be ineligible for grant funding or to be considered as match. (4-11-06)

02. **Priority Rating Criteria.** The Department and/or appropriate advisory committee establishes project rankings by rating each eligible project using criteria established by the Board. Specific evaluation criteria is listed in the IDPR Grant Guidelines. (4-11-06)

151. -- 174. (RESERVED)

175. **PROJECT TIME PERIOD.**

01. **Grant Cycle.** Applications for ORMV Fund, RV Account, WIF, Motorbike Recreation Account (MRB), Cutthroat License Plate Fund, (CLP), Recreational Road and Bridge Fund (RRBF), or STORE will be considered at least once each state fiscal year (July 1 through June 30) dependent upon adequate funding availability. Applications for RTP projects will be considered at least once each federal fiscal year (October 1 through September 30) dependent upon adequate funding availability. (4-11-06)

02. **Expenditure of Grant Funds.** Except as herein provided, the grantee has only the designated state or federal fiscal year or years to expend grant funds. If the grant funds are not expended within the designated fiscal year or years, the grant will be revoked unless the applicant requests and receives an extension of time from the Department. (4-11-06)

03. **Requests for Extension.** A written request for an extension of the project period must be received by the Department prior to the end of the project period. The State and Federal Grant Manager must make the final determination of extensions. No project extension will be granted for more than one (1) year, however, project extensions may be granted in consecutive years. (4-11-06)

176. -- 199. (RESERVED)

200. **AUTHORITY FOR FUNDING APPROVAL.**
Projects up to, and including, twenty thousand dollars ($20,000) may be approved by the Director. Projects over twenty thousand dollars ($20,000) must be presented to the Board for approval. (4-11-06)

01. **Minor Cost Increases.** Cost increases of fifteen percent (15%) or less of the original grant amount may be approved by the Director. (4-11-06)

02. **Major Cost Increases.** Cost increases of more than fifteen percent (15%) of the original grant amount require the project be presented as a totally new proposal and compete through the general application process described herein. Should the revised project not receive approval for cost increase grant funding, the grantee will be required to complete the scope of the project as originally proposed at its expense or return any project grant funds paid to it so that the project may be canceled and the grant funds reallocated. (4-11-06)

250. DISBURSEMENT OF FUNDS.

01. Allowable Costs. Applicable Office of Management and Budget (OMB) cost principles, program regulations, and the terms of grant agreements must be followed in determining the reasonableness and allowability of costs.  

02. Documentation and System of Internal Controls. The grantee must maintain a system of internal controls in order to identify the source and disbursement of funds provided for all project costs and match by grant or project. Accounting records must be supported by source documentation such as vouchers, canceled checks, invoices, payroll, time and attendance records, contract and sub-grant award documents, and other required billing forms. (4-11-06)

03. Match. Match is the donation of cash, product or service used to complete the grant project as approved. The following types of match may be used: (4-11-06)

a. Force account labor and equipment, i.e., the use of the grantee’s staff (labor) and equipment costs. Documentation of force account includes: the name of each worker, dates worked, hourly rate of pay, number of hours worked, and the total cost by each person. Documentation of equipment costs includes the type of equipment used, dates used, hourly rate value, number of hours used, how the hourly rate was determined, and total cost. (7-1-99)

b. Donated material that is used as match must be reasonable and cannot exceed the costs of the materials to the donor or the market price at the time they are charged to the project, whichever is less. A detailed invoice marked “donation” or a letter from the donor must be used as documentation of donated material.  (7-1-99)

c. Donated Contract Labor. When an employer, other than the grantee, furnishes the services of an employee, these services are valued at the employee’s regular rate of pay (not including fringe benefits and overhead costs). These services must be for the same skill for which the employees is normally paid. Documentation must include the employee’s name, dates worked, hourly rate, number of hours worked, and total cost. (7-1-99)

d. Rates for Volunteers. Skilled and unskilled must be consistent with the rate regularly paid by the grantee for similar work or must be consistent with those paid for similar work in the grantee’s labor market. If the volunteer is professionally skilled and employed in the work he is performing on the project, the grantee may use the individual’s normal wage rate. If the volunteer is unskilled and not professionally employed in the work he is performing the grantee must value the donated labor at the national minimum wage rate. Documentation must include the volunteer’s name, date worked, hourly rate, number of hours worked, and total cost. (7-1-99)

04. Disbursement of Funds. Except as provided in Subsection 250.05 herein, the Department will authorize disbursement of funds allocated to a project on a reimbursement basis. This means that the grantee must initially pay all project costs and then seek reimbursement through the Department. (4-11-06)

a. General. Grantees must use only the forms specified in this section, and such supplementary or other forms as may from time to time be authorized by the Department. (7-1-99)

b. Request for Reimbursement. The grantee must complete an Idaho Department of Parks & Recreation (IDPR), Request for Reimbursement/Close-out Report form certifying that the data is correct and submit the form to the State and Federal grant program with an original signature. (4-11-06)

c. Extend the Due Date. The Department may extend the due date of any financial report upon receiving a justified request from a grantee. (7-1-99)

d. Accounting Basis. Each grantee must report program outlays and program income on a cash or
accrual basis pursuant to Generally Accepted Accounting Principles. (7-1-99)

05. **Cash Advances.** When approved for an advance grantees must be paid in advance no sooner than thirty (30) days prior to project start, provided they maintain or demonstrate the willingness and ability to maintain procedures to minimize the time elapsing between the transfer of funds and their disbursement by the grantee. (4-11-06)

a. Requesting an Advance. A disbursement of funds may be made on an advance basis by submitting an IDPR Request for Advancement form provided by the Department. Written Justification for an advance is required unless there is a Memorandum of Understanding or Collection Agreement on file. (4-11-06)

b. Interest Earned on Advances. Grantees and subgrantees must promptly, at grant close-out, remit interest earned on advances to the Department. (7-1-99)

06. **Reporting.** Each grantee receiving grant funds that require reporting must remit a complete activities report to the Department no later than January 31 of each year that covers the preceding calendar year and must be on forms provided by the Department. Failure to report or poor performance indicated by the report may disqualify grantee from future grant application. (4-11-06)

07. **Grant Closeouts.** Within forty-five (45) days after the completion of the project, the grantee must submit an IDPR Request for Reimbursement/Close-out form and immediately refund to the Department any balance of unobligated cash advanced and interest earned. (4-11-06)

08. **Record Retention.** The grantee must retain all financial information referenced in these rules regarding a project for a time period of three (3) years from the date of the final grant payment, unless any litigation or audit concerning the project has been started or announced. (4-11-06)

09. **Audit Authority.** The Department has the right of access to any pertinent books, documents, papers, or other records of grantees that are pertinent to the grant, in order to make audits, examinations, excerpts, and transcripts. An audit of the award may result in the disallowance of costs incurred by the recipient and the establishment of a debt (account receivable) due the Department. (7-1-99)

10. **Contingency Fund.** The Department may retain grant funds from each recreational program grant account for the exclusive purpose of providing facilities or services. (7-1-99)

251. **OFF-HIGHWAY VEHICLE LAW ENFORCEMENT FUND DISTRIBUTION.**

01. **Deposits Into and Usage of Fund.** One dollar ($1) of every off-highway vehicle certificate of number will be deposited into the off-highway vehicle law enforcement fund. Moneys in this fund are paid out and used as follows: (4-11-15)

a. Sheriffs of counties with a current or an actively developing off-highway vehicle law enforcement program recognized by the Department receive moneys from the fund based upon the formula provided in this rule. (3-29-10)

b. A program is recognized as an off-highway vehicle law enforcement program if it is sponsored by a county sheriff to promote off-highway vehicle safety, education, and law enforcement and is overseen by an advisory committee of three (3) or more individuals to include at least one (1) sheriff or deputy sheriff, one (1) motorbike representative, and one (1) all-terrain vehicle or utility type vehicle representative. (3-29-10)

c. The Department must not withhold recognition of an off-highway vehicle law enforcement program unless it is clearly demonstrated that the program has not performed its off-highway vehicle enforcement duties within the past calendar year. An annual report of accomplishments of the previous calendar year by each participating sheriff must be delivered to the Department by March 1 of each year and includes: (3-29-10)

i. The number of citations issued; (3-29-10)
ii. Assistance calls responded to; (3-29-10)

iii. Off-highway vehicle contacts made; and (3-29-10)

iv. Safety classes held. (3-29-10)

d. Money from the off-highway vehicle law enforcement fund will be used to defray costs for enforcement by sheriff’s offices pertaining to the use of all terrain vehicles, motorbikes, specialty off-highway vehicles, and utility type vehicles as defined in section 67-7101, Idaho Code. (3-29-10)

e. Money in the off-highway vehicle law enforcement fund will be used by the Department for the purpose of defraying costs of off highway vehicle related law enforcement activities that are conducted by a county sheriff’s office and for no other purpose. Defrayable costs include:

i. Wages (including overtime wages) of county sheriff’s deputies directly engaged in off-highway vehicle law enforcement, as described in this Section; (3-29-10)

ii. Wages for court appearances pertaining to violations of Idaho law pertaining to off-highway vehicles, as described in this Section; and (3-29-10)

iii. Direct costs to the sheriff’s office required to facilitate the enforcement of off-highway vehicle laws, including vehicle purchase costs, fuel costs, supply costs and vehicle maintenance costs. (3-29-10)

02. Annual Notification of Qualifying Offices. Each year no later than April 1, the Department will notify the Idaho Sheriffs’ Association in writing regarding which sheriff’s offices are recognized by the Department as qualifying for enforcement funding under Section 67-7126, Idaho Code, and the balance of the off-highway vehicle law enforcement fund. It is the responsibility of each sheriff’s office to provide information regarding its off-highway vehicle enforcement program in order for the Department to determine whether it recognizes the program. A sheriff’s office has fourteen (14) days to request reconsideration of the Department’s decision withholding recognition, and the Department must act upon such request within fourteen (14) days. (3-29-10)

03. Formula for Distribution of Funds. The Department distributes the funds in the off-highway vehicle law enforcement fund based on the following formula:

a. Total federal acres with reference to the Payments in Lieu of Taxes (PILT) number for each eligible county minus large tracts of land not open to off-highway vehicle use. The result is the total off-highway vehicle opportunity on federal public land for that county. (3-29-10)

b. Calculate the percentage of the total off-highway vehicle opportunity on federal public land for each eligible county as compared to the entire state. (3-29-10)

c. Multiply this percentage by point zero six (0.6) to get sixty percent (60%) of the value. (3-29-10)

d. Calculate the percentage of off-highway vehicle certificate of number designations for each eligible county as compared to the entire state. (4-11-15)

e. Multiply this percentage by point zero four (0.4) to get forty percent (40%) of the value. (3-29-10)

f. Add the sixty percent (60%) value from the total off-highway vehicle opportunity on federal public land to the forty (40%) value of the off-highway vehicle certificates of number. This total will be the percentage of the off-highway vehicle law enforcement funds for which the individual county is eligible. (4-11-15)

04. Distribution of Funds Not Used. For the off-highway vehicle law enforcement funds that are not allocated to a county because they do not have an off-highway vehicle enforcement program as described by this rule, or for funds from undesignated certificates of number, the funds return to the off-highway vehicle law enforcement fund. Any undistributed money must be allocated as follows: (4-11-15)
a. Fifty percent (50%) of the unallocated money must be distributed as per the distribution formula previously listed; and (3-29-10)

b. Fifty percent (50%) of the unallocated money will be held by the Idaho Sheriff’s Association to be used for emphasis areas of off-highway vehicle law enforcement. (3-29-10)

05. Annual Audit. All counties that receive off-highway vehicle law enforcement funding are subject to an annual audit of the expenditure of the funds. (3-29-10)
current codes and standards as set by the Uniform Building Code, Uniform Plumbing Code, and the National Electrical Code.

12. Failure to Comply. Failure by the grantee to comply with such terms and obligations as set forth in the approved grant application or grant agreement will result in the immediate revocation of an approved grant or constitutes a conversion pursuant to Section 350 of this chapter, as applicable.

301. -- 349. (RESERVED)

350. PROJECT CONVERSIONS.
No grant funded project may, without the prior written approval of the Board, be converted to uses other than for the authorized purposes specified in the original grant application or grant agreement.

01. Approval of a Conversion. The Board may approve a conversion only when the grant moneys spent on the project can be returned to the appropriate grant fund or the grantee can provide an immediate substitution of other projects of at least equal current fair market value and of reasonably equivalent recreational usefulness and location.

02. Resolving a Conversion. If there is a project conversion, the grantee is responsible for repaying the appropriate grant fund an amount determined by investment amortization through use, project life expectancy, and depreciation or appreciation of the facilities or equipment.

03. Conversion Requests. Project conversion requests must be in writing by the grantee prior to any conversion attempts.

351. -- 399. (RESERVED)

400. RESPONSIBILITY FOR EQUIPMENT.
Motorized equipment purchased with grant funds become property of the grantee. Such units of motorized equipment are subject to Subsection 250.06 and Section 350 of this chapter.

401. -- 449. (RESERVED)

450. REAL PROPERTY.

01. Appraisals. A real estate appraisal is required for all real property to be acquired with grant funds. All appraisals must be prepared according to Department procedures. The appraisal must be paid for by the grantee, but may be included as part of eligible project costs. The selection of the appraiser must be approved by the Department.

02. Appraisal Review. The Department reviews appraisals as necessary. Any appraisal report that does not meet content requirements or use correct analysis procedures must be corrected to the satisfaction of the Department. All costs are covered by the grantee.

03. Negotiated Price. An approved appraisal is an acceptable estimate of property value. The negotiation between a willing seller and a willing buyer may set a price that is higher than the appraisal, and this value can be considered along with the appraised value in establishing the reasonable limits of assistance. If the grantee believes the negotiated price is a better indication of market value, yet is higher than the appraised value, a detailed statement of this difference must be submitted to the Department.

04. Adequate Title and Public Access. The grantee has clear title to, or adequate control and tenure of, the real property (land, land improvement, structures, and appurtenances) to be developed. The term “adequate control and tenure” of real property means a lease or an easement that provides the grantee sufficient control over the real property to permit the proposed development and use for a period of at least twenty-five (25) years from the date of application, unless specifically approved in writing by the Department for a shorter term. The grantee must list all outstanding rights or interests held by others in the real property to be developed. If access to the real property to be developed is over private property, then the grantee must describe the provisions made to ensure adequate public
access. In the event the real property becomes unusable for its intended purposes or if such use ceases, the grantee is responsible for conversion of the project as described in Section 350 of this chapter. (4-11-06)

05. **Limitations on Use.** Property rights obtained with grant funds are free of all reservations or encumbrances that would limit the use of the site disproportionate to the public benefit. (4-11-06)

078. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
The Idaho Park and Recreation Board is authorized under Section 67-7125, Idaho Code to promulgate rules to
effectuate the purposes of and aid in the administration of Section 67-7125, Idaho Code. (7-1-94)

001. TITLE AND SCOPE.

01. Title. The title of this chapter is cited in full as Idaho Department of Parks and Recreation Rules, IDAPA 26.01.37, “Rules Governing Test Procedures and Instruments for Noise Abatement of Off Highway Vehicles.” (7-1-94)

02. Scope. This chapter establishes rules to effectuate the purposes of and aid in the administration and
enforcement of Section 67-7125, Idaho Code. (7-1-94)

002. -- 009. (RESERVED)

010. DEFINITIONS.
As used in this chapter: (7-1-94)

01. All Terrain Vehicle (ATV). Any recreation vehicle with three (3) or more tires, under eight
hundred fifty (850) pounds and less than forty-eight (48) inches in width, having a wheelbase of sixty-one (61) inches
or less, traveling on low pressure tires, less than ten (10) pounds per square inch (psi). (4-11-06)

02. A-Weighting Scale. A sound filtering system contained in a sound meter which adjusts (weights)
the incoming sound energy to approximate human hearing. (7-1-94)

03. Calibrator. A device used to standardize the reading of a sound level meter. (7-1-94)

04. CC. The displacement (size) of an engine in cubic centimeters. The kc’s of an engine refers to the
piston displacement or engine size. (7-1-94)

05. Db or Decibel. A unit used to measure the amplitude of sounds. As a sound measured in decibels
increases, so does its loudness. (7-1-94)

06. Off Highway Vehicle (OHV). Any ATV or motorbike as defined in Section 67-7101, Idaho Code,
used off public highways but excluding those vehicles used exclusively on private land for agricultural use or used
exclusively for snow removal purposes. These vehicles, together with others not covered by these rules, are
sometimes commonly known as off-road vehicles or ORMV’s. (7-1-94)

07. Operator. Any person who is in physical control of an OHV. (7-1-94)

08. Red-Line Speed. The lowest numerical engine speed included in the red zone on the OHV
tachometer or prescribed by the manufacturer as compiled in the “Off-Highway Motorcycle and ATV Stationary
Sound Test Manual” published by the Motorcycle Industry Council, Inc. (7-1-94)

09. Revolutions per Minute (RPM). The number of times the crankshaft of an engine revolves in one
(1) minute. (7-1-94)

10. Sound Level Meter. An instrument used for measuring sound levels, which includes a
microphone, an amplifier, and meter with frequency weighting networks, such as the A-weighting scale. (7-1-94)

11. Tachometer. A device used to measure RPM of an engine. Tachometers used to obtain sound level
measurements may be permanently affixed to the OHV or may be portable units such as hand-held electric, vibrating reed, or inductive tachometers. (4-11-06)

011. -- 049. (RESERVED)

050. TEST PROCEDURE.

01. Test Site. The test site must be a flat, open surface free of large reflecting surfaces, other than the ground, such as parked vehicles, signboards, or hillsides located within sixteen (16) feet of the (OHV) being tested and the location of the microphone of the sound level meter. (7-1-94)

a. Ambient sound level. The ambient sound level, including wind effects, at the test site due to sources other than the OHV being measured must be at least ten (10) dB lower than the sound produced by the OHV under test. (7-1-94)

b. Wind speed. Wind speed at the test site must be less than twenty (20) miles per hour. (7-1-94)

c. Persons in test area. While making sound level measurements, not more than one (1) person other than the operator, the measurer, and the assistant, if necessary, must be within ten (10) feet of the OHV under test or the microphone of the sound level meter, and that person must be directly behind the measurer on a line through the microphone of the sound level meter and the measurer. (7-1-94)

The surface of the ground within the test area must be paving or hard packed earth, level within an average slope of five (5) inches per foot and must be free of loose or powdered snow, plowed soil, grass of a height greater than six (6) inches, trees, or other extraneous materials. (7-1-94)

03. Position of OHV. (7-1-94)

a. For two (2) wheeled OHV’s, the operator may sit astride of the OHV, in normal riding position with both feet on the ground. If this is not possible because of the seat height of the OHV, an assistant may hold the OHV by the forks, front wheel, or handlebars so that it is stationary with its longitudinal plane of symmetry vertical. If an assistant is not available to assist in holding the OHV upright, the operator may use a box, rock or other object to rest his feet upon to steady the OHV, so long as the OHV longitudinal plane of symmetry is vertical and stationary. (7-1-94)

b. For three (3) wheeled and four (4) wheeled ATV’s, the operator may sit in the normal riding position with one (1) or both feet on the footrests. (7-1-94)

04. Operation of OHV. (7-1-94)

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 67-4223, 67-7115, and 67-7116, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 26, rules of the Department of Parks and Recreation:

IDAPA 26
• IDAPA 26.01.10, Rules Governing the Administration of Temporary Permits on Lands Owned by the Idaho Department of Parks and Recreation
• IDAPA 26.01.20, Rules Governing the Administration of Park and Recreation Areas and Facilities
• IDAPA 26.01.33, Rules Governing the Administration of the Land and Water Conservation Fund Program
• IDAPA 26.01.36, Rules Governing the Winter Recreational Parking Permit Program

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Without the rules in place we would be unable to protect public health associated with proper conduct of individuals while using state parks and facilities. We would also not be able to administer important funding through our Land and Water Conservation Fund program ($641,000). Finally, we would be unable to collect fees that provide a substantial portion of our operating funds (over $7.3 million).

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

• IDAPA 26.01.10, Rules Governing the Administration of Temporary Permits on Lands Owned by the Idaho Department of Parks and Recreation. In FY 2018, temporary permits brought in approximately $40,000 in revenue.
• IDAPA 26.01.20, Rules Governing the Administration of Park and Recreation Areas and Facilities. In FY 2018, overnight camping and other park fees brought in nearly $6.6 million in revenue.
• IDAPA 26.01.33, Rules Governing the Administration of the Land and Water Conservation Fund Program. In FY 2018, IDPR paid out $640,000 to Land and Water Conservation Fund projects.
• IDAPA 26.01.36, Rules Governing the Winter Recreational Parking Permit Program. In FY 2018, winter recreational parking permits generated almost $37,000 in revenue.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.

• IDAPA 26.01.10, Rules Governing the Administration of Temporary Permits on Lands Owned by the Idaho Department of Parks and Recreation. Fees related to: temporary permit processing, compensation, application and enforcement.

• IDAPA 26.01.20, Rules Governing the Administration of Park and Recreation Areas and Facilities. Fees related to motor vehicle entrance, parking violations, camping, reservations (placing, modifying, and canceling), vessel moorage, overnight use, surcharges, group facility use, winter access, and returned checks.

• IDAPA 26.01.33, Rules Governing the Administration of the Land and Water Conservation Fund Program. Service fee to administer and manage process to convert property from a recreation use.

• IDAPA 26.01.36, Rules Governing the Winter Recreational Parking Permit Program. Fees for annual and temporary winter recreation parking permit.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Anna Canning (208) 861-8814.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

080. FUND ALLOCATION.

01. Eligible Applicants. Governmental agencies that are eligible to receive or apply for the grant funds
02. **Allocation of Funds.** Idaho’s cost of administering the SCORTP program, the LWCF program and a contingency fund are deducted from the state’s annual apportionment. The remaining funds are divided fifty percent (50%) for local governmental agencies and fifty percent (50%) for state agencies. This policy may be altered in any year at the discretion of the board. (1-1-94)

  a. To assure that the needs of rural areas are met, twenty percent (20%) of the amount dedicated for local governmental agencies is dedicated for use by governmental agencies of five thousand (5,000) population or less. If the cumulative request of the governmental agencies of five thousand (5,000) population or less is more than the twenty percent (20%) of the amount dedicated for local governmental agencies, governmental agencies of five thousand (5,000) population or less may compete for the total remaining allocation. (1-1-94)

  b. If the total cost for a single project of a governmental agency with a population of five thousand (5,000) or less requires over one-half (1/2) of the twenty percent (20%) dedicated for use by governmental agencies of five thousand (5,000) population or less, that project will compete with the large governmental agency projects. (1-1-94)

03. **Exceptions.** The board may suspend (through formal action at the board meeting at which LWCF grant requests are considered) any provision of Subsection 080.02 of this chapter if the allocation is too small to warrant viable projects. (1-1-94)

04. **Project Requests Insufficient.** The board is not required to distribute all available funds. IDPR staff may recommend, and the board determine, to reject projects with evaluation scores so low as to be noncompetitive. (1-1-94)

095. **CONTINGENCY FUND.**
Twenty percent (20%) of the total allocation may be held out for needed cost overruns, special projects, and emergency needs. Any unused funds at the end of the funding cycle are obligated through the normal process. (1-1-94)

125. **PROJECT TIME LIMITATIONS.**
The project must be completed by the applicant within twenty-four (24) months of the federal contract signing. (1-1-94)

140. **ELIGIBLE PROJECTS.**

  a. **Generally.** LWCF grants are available for up to fifty percent (50%) of the cost to acquire or develop land that is to be used for outdoor recreation purposes and is to be held in perpetuity for public outdoor recreation uses. (1-1-94)
02. **Less Than Fee Acquisition.** Acquisition of less than fee interest, such as easements and development right, must be considered in the same manner as simple fee acquisition subject to the following conditions: (1-1-94)

a. The interest cannot be revocable; (7-1-93)

b. The value can be supported through standard appraisal techniques; and (1-1-94)

c. Recreation can be demonstrated as the primary purpose of the acquisition. (7-1-93)

03. **Ineligible Projects.** Acquisitions or developments that do not contribute directly to general public outdoor recreation facilities or activities are ineligible for LWCF funding. Acquisition of leases are not eligible. (7-1-93)

171. -- 184. (RESERVED)

185. **ACQUISITION OF STRUCTURES.**
Structures that are proposed to be retained and are incidental to the land are eligible for LWCF matching funds if they are to be used primarily for support facilities for outdoor recreation activities. The anticipated use must be clearly identified in the project application so that IDPR may exercise reasonable judgment in determining the eligibility of the structure for funding assistance. (1-1-94)

186. -- 199. (RESERVED)

200. **WAIVER OF RETROACTIVELY.**

01. **Generally.** The SLO may grant permission to a sponsor to proceed prior to normal processing of an application through a written waiver of retroactively. This is not be construed as a qualitative approval of the proposed project. Should the project subsequently be approved, the costs incurred must be eligible for assistance. (1-1-94)

02. **NPS Waiver Required.** The SLO may not grant a waiver of retroactivity until the NPS has issued its waiver of retroactivity. A waiver may be granted only if LWCF moneys are available and only if an emergency situation warrants it. (1-1-94)

Property rights obtained with LWCF assistance must be free of all reservations or encumbrances that would limit the
use of the site disproportionate to the public benefit. (7-1-93)

216. -- 229. (RESERVED)

230. ACQUISITION COSTS EXCEEDING FAIR MARKET VALUE.
An approved appraisal is an acceptable estimate of property value (see Section 350 of this chapter). The negotiation between a willing seller and a willing buyer may set a price that is higher than the appraisal, and this market place value can be considered along with the appraised value in establishing the reasonable limits of assistance. If the sponsor believes that the negotiated price is a better indication of market value, yet it is higher than the appraised value, a detailed and well documented statement of these differences must be submitted, together with a formal request for a cost increase (see Section 620 of this chapter). (1-1-94)

231. -- 259. (RESERVED)

260. ACQUISITIONS INVOLVING COMPATIBLE MULTIPLE USES.
Nonrecreation uses, such as timber management, grazing, and other natural resource uses, may be carried out on lands acquired with LWCF assistance if they are clearly compatible with and secondary to recreation use, and are approved by IDPR prior to execution of the project contract. (1-1-94)

261. -- 274. (RESERVED)

275. ACQUISITIONS INVOLVING NONRECREATION USE.

01. Nonrecreation Use Limited. Lands acquired with LWCF assistance are immediately dedicated to public outdoor recreation and therefore, in the interim period between acquisition and planned development, the public cannot be denied use. In some instances during this period the temporary continuation of nonrecreation uses of LWCF assisted areas may be appropriate if not at the expense of public use. Continuation of existing nonrecreation uses must be approved by IDPR. When approved by IDPR, the used will be phased out within three (3) years from the date of the acquisition. (1-1-94)

02. Life Estates. Life estates, whereby an owner is allowed to use the property to the end of his life, is an allowable nonrecreation use provided all of the following conditions are met: (1-1-94)

   a. The life estate must not totally limit public use of the site; (1-1-94)
   b. The value of the life estate is not included within the total project cost as established through acceptable appraisal techniques; and (1-1-94)
   c. The life estate provisions are approved by IDPR. (1-1-94)

276. -- 289. (RESERVED)

290. PUBLIC PARK AND SCHOOL DEVELOPMENT PROJECTS.
Projects clearly designed and located to meet identified needs for general public recreation, as well as to provide school districts with outdoor education, physical education, and recreation facilities may be eligible for funding, provided general public recreation is clearly the primary use. (1-1-94)

291. -- 304. (RESERVED)

305. DONATED REAL PROPERTY AS MATCHING SHARE.

01. Generally. The value of privately owned donated real property may be used as a portion or as all of the sponsor’s matching share of an approved project when the transfer of title to the sponsor has not been accomplished prior to the execution by IDPR of the project contract, unless such action has been previously approved by IDPR under the waiver of retroactivity procedure (see Section 200 of this chapter). (1-1-94)

02. Limitations. The donation must consist of real property that would normally qualify for LWCF
If the donation does not adjoin the tract being acquired or is not being developed as part of the project then it must stand on its own merits as an acceptable public recreation area in order to be considered an eligible donation. It also must be within the jurisdiction of the sponsor.

03. Appraisal Required. The value of the donation must be established by an appraisal report prepared under the provision of Section 350 of this chapter. Any portion of the value of the donation not utilized by the sponsor for matching in the project is not available for subsequent projects. The amount of donation that is matchable is the value of the land donation up to the limit of the local agency’s share of the project. The maximum reimbursed by IDPR may never exceed the cash expended on the project.

0306. -- 319. (RESERVED)

320. DONATED GOODS AND SERVICES AS MATCHING SHARE.

01. Generally. Donated services, materials and equipment are eligible for reimbursement. Allowable rates must be agreed upon by IDPR prior to initiation of construction and must be in accordance with current federal regulations and state rules. 03. Requirements. Donated services may be furnished by professional and technical personnel, consultants, and other skilled or unskilled labor. The services must be an integral and necessary part of an approved project. Rates for donated services must be consistent with those paid for similar work in other activities of the state or local government. In those instances in which the required skills are not found in the sponsor’s organization, rates must be consistent with those paid for similar work in the labor market in which the sponsor competes for the kind of services involved.

0321. -- 334. (RESERVED)

335. FORCE ACCOUNT AS MATCHING SHARE.

All or a portion of the sponsor’s share can be provided through force account (i.e., use of sponsor’s staff and equipment) when such contributions are verifiable from the sponsor’s records, are not included as contributions for any other IDPR program, and are necessary and reasonable for proper and efficient accomplishment of the project.

336. -- 349. (RESERVED)

350. APPRAISAL REQUIREMENTS.

A real estate appraisal is required for all land to be acquired. The appraisal must be prepared and paid for by the sponsor. All appraisal must be done according to “Uniform Appraisal Standards for Federal Land Acquisitions.”

351. -- 364. (RESERVED)

365. APPRAISAL REVIEWS.

IDPR reviews appraisals as necessary. Any appraisal report that does not meet the basic content requirement or use correct analysis procedures must be corrected to the satisfaction of IDPR. All costs are paid by the sponsor.

366. -- 379. (RESERVED)

380. REVENUE FEASIBILITY STUDIES.

At the discretion of the SLO, a feasibility report prepared by a fiscal specialist may be required prior to funding consideration by the board. c. Recommendations must be formulated by IDPR staff within thirty (30) days following the evaluation committee meeting and must be made to the board no later than the next regularly scheduled meeting. (1-1-94)

d. Subject to the level of funding, the board may suspend (through formal action at any regular meeting) the evaluation committee meeting and may elect to adopt staff recommendations. (1-1-94)

03. Fees. At the discretion of the SLO, fees may be charged for the various stages of any funding cycle. When charged, fees are assessed equally on all applicants. Fees charge may not exceed fifty dollars ($50) for all stages combined. (1-1-94)

411. -- 424. (RESERVED)

425. APPLICATION PROCEDURE.

01. Initial Review.
Participation manuals are available to guide sponsors in preparing projects for funding consideration. Materials submitted for consideration are reviewed by IDPR staff for completeness and for project eligibility. Once all application materials are submitted and a project is determined to be potentially eligible under criteria established in the OPSP, IDPR will ask the sponsor to make a presentation to the evaluation committee. (1-1-94)

02. Eligible Projects.
Eligible projects are ranked according to the (OPSP (see Section 440 of this chapter) and approved by the board (see Section 470 of this chapter). Full federal application materials must be submitted to NPS for final funding approval (see Section 485 of this chapter). (1-1-94)

426. -- 439. (RESERVED)

440. OPEN PROJECT SELECTION PROCESS (OPSP).

01. Generally.
The procedures outlined in OPSP through the SCORTP process are for the purpose of defining criteria that a proposed LWCF project must meet in order to be eligible for funding, and to establish priorities on the basis of which competing eligible projects can be rated objectively. The intent is to ensure that available funds are used to fund those projects that most nearly satisfy the intent of the LWCF Act, and the recreational needs of the people of Idaho. (1-1-94)
02. Requirements. Requirements for the SCORTP and the OPSP can be found in the “LWCF Participation Manual,” available from IDPR or NPS. (1-1-94)

03. Availability. Copies of the SCORTP and the OPSP criteria used in prioritizing those projects submitted for LWCF assistance may be obtained from IDPR or NPS. Typically, this criteria is provided in all LWCF application guidelines. (1-1-94)

04. Suspension of OPSP. Subject to the level of funding, the board may elect to suspend OPSP (through formal action at any regular meeting). (1-1-94)

441. -- 454. (RESERVED)

455. EVALUATION COMMITTEE.

01. Composition. The evaluation committee includes representatives with experience in community development or public outdoor recreation. The committee ranks projects based on its review of the application and a presentation by the sponsor. It rates all projects based on the selected criteria found in OPSP. The evaluation committee includes nine (9) members as follows: (1-1-94)

a. Three (3) members are representatives of state and federal agencies with a technical relationship to community development or the outdoor recreation needs in the state. (1-1-94)

b. One (1) member represents a community of five thousand (5,000) population or more (1-1-94)

c. One (1) members represents a community of five thousand (5,000) population or less. (1-1-94)

d. One (1) member represents the interests of ethnic minorities. (1-1-94)

e. One (1) member represents the interests of the elderly. (1-1-94)

f. One (1) member represents the interests of people with disabilities. (1-1-94)

g. One (1) member must be from the board. (1-1-94)

02. Quorum. A quorum is required to conduct committee business. Five (5) people constitute a quorum. (1-1-94)

03. Appointment and Term. Members are appointed by and serve at the discretion of the SLO for three (3) funding sessions and may be reappointed, except, the board member must be selected by and serve at the discretion of the board. As necessary, the SLO provides public notice of available seats. Any interested individual or organization may nominate individuals to serve on the committee. (1-1-94)

456. -- 469. (RESERVED)

470. BOARD REVIEW AND APPROVAL. The board reviews and approve projects according to the priority list provided by IDPR staff. Applications are submitted to NPS according to priority after LWCF moneys have been appropriated by congress and allocated to the state. (1-1-94)

471. -- 484. (RESERVED)

485. NPS PROJECT APPROVAL. When a project is approved by NPS, the announcement is made by one of the state’s congressional delegation following notification from IDPR. All appraisals, title and deed work must be finalized prior to submitting a project to NPS. (1-1-94)
PROCEEDING ON THE PROJECT.

After project approval, the IDPR staff assists the sponsor in meeting the requirements of the LWCF including providing information on the steps and required documentation for acquisition and development projects along with financial responsibilities and allowable costs. The sponsor must complete work on the project according to the scope elements in the state/local agreement. (1-1-94)

DISBURSEMENT OF FUNDS.

01. **Authorization.** Except as otherwise provided herein, the SLO must authorize disbursement of funds allocated to a project through reimbursement basis. The LWCF program is a reimbursement program, which means that the participants initially pay all project costs and then seek reimbursement through IDPR. (1-1-94)

02. **Documentation.** Reimbursement not be made by IDPR until deed, title insurance and appraisal requirements are satisfied on all projects. Reimbursement may be made on development or combination acquisition and development projects once construction shows evidence and reasonable progress toward the completion of all scope elements and LWCF requirements. (1-1-94)

03. **Partial Reimbursement.** Partial reimbursement is not made for projects where the project sponsor’s matching share is less than fifteen thousand dollars ($15,000). When reimbursement is granted prior to project completion, the sponsor receives a reimbursement for fifty percent (50%) of the eligible costs incurred less a fifteen percent (15%) hold back. When the project has been completed and receives final approval from IDPR, the sponsor is paid the fifteen percent (15%) hold back. If multiple payments are to be incurred as part of the project, the final payment may be used as the fifteen percent (15%) hold back. (1-1-94)

04. **Request for Reimbursement.** Reimbursement must be requested by local governmental agencies on voucher forms provided by IDPR and includes all required documentation. The sponsor will receive a reimbursement for fifty percent (50%) of the eligible costs incurred. The amount of reimbursement must never exceed the cash expended on the project. (1-1-94)

05. **Advance Payment.** An advance payment is a payment made to a sponsor upon its request before cash outlays are made by the sponsor or payment made through the use of predetermined payment schedules before such payments are due. Advance payment may be made subject to the conditions outlined below: (1-1-94)

  a. IDPR will consider the payment of advances on development projects where the matching share is non-cash, and on acquisition projects where funds must be available up front in order to prevent the loss of an available site to other interested buyers. Such advances must receive prior approval of NPS. A written request must be submitted by the sponsor to IDPR to initiate the process. (1-1-94)

  b. Advances must be timed and procedures observed to assure that cash withdrawals occur only as and when essential to meet the needs of the project sponsors. Advances are limited to the minimum amounts needed and timed to be in accord with the requirements of carrying out the purpose of the approved project. Any moneys advanced to the sponsor are public moneys (owned by the Federal Government and the State of Idaho) and must be deposited in a bank with FDIC insurance coverage and the balances exceeding the FDIC coverage must be collateralized. (1-1-94)

  c. One (1) month after the advance has been received, the sponsor must submit a billing indicating expenditures made from the advanced funds. This will be used by IDPR as a basis for liquidating obligations, reducing the advance account and making charges to the appropriate cost account. (1-1-94)

  d. At least monthly, IDPR reviews the sponsor’s disbursements of advanced funds for reasonableness of cash balances on hand. In the event IDPR determines a sponsor is making insufficient progress using advanced funds, IDPR may request an immediate refund. (1-1-94)
516. -- 529.  (RESERVED)

530.  PROJECT CONTRACT.
For every funded project, a project contract must be executed. The project contract must be prepared by the IDPR staff subsequent to approval of the project. Upon execution by the sponsor, the parties are thereafter bound by the project contract terms. The sponsor may not proceed with the project until the project contract has been executed. IDPR may not execute a project contract until federal funding has been authorized by NPS. (1-1-94)

531. -- 544.  (RESERVED)

545.  CONTROL AND TENURE.
The sponsor has title to or adequate control and tenure of the area to be developed. The sponsor must list all outstanding rights or interests held by others in the property to be developed. In the event that outstanding rights later prove to be incompatible with public outdoor recreation uses of the site, the sponsor assumes the responsibility for having to replace the facilities developed with state or federal assistance with others of at least equal value and reasonably equivalent usefulness and location at the sole cost of the sponsor. (1-1-94)

546. -- 559.  (RESERVED)

560.  APPLICABILITY.
All LWCF requirements apply to each area or facility, regardless of the extent of LWCF assistance. When LWCF development assistance is given to a project limited to less than a complete recreational property, all lands immediately adjacent to that LWCF development that are designated as recreational property must be identified as being within the LWCF project boundary and must be subject to LWCF guidelines. (1-1-94)

561. -- 574.  (RESERVED)

575.  SPONSOR COMMITMENT.
A proclamation from the sponsor’s governing body committing the project and the sponsor to LWCF requirements must be submitted to IDPR prior to IDPR project approval. (1-1-94)

576. -- 589.  (RESERVED)

590.  RESTRICTION ON TITLE.
Land acquired in fee or developed with outdoor recreation funds must be dedicated to outdoor recreation use in perpetuity by a recorded “Deed of Right to Use Land for Public Recreation Purposes” (Deed of Right) that conveys a real property interest to the public. This must be executed and recorded by the sponsor after it has taken title to the property, and before it applies for reimbursement. (1-1-94)

591. -- 604.  (RESERVED)

605.  RECORDS.
Project records must be maintained by the state and sponsor for three (3) years after final payment. The material must be maintained beyond the required three (3) year period if audit findings have not been resolved. Property records must be maintained in perpetuity. (1-1-94)

606. -- 619.  (RESERVED)

620.  PROJECT AMENDMENTS, COST INCREASES AND TIME EXTENSIONS.

01.  Amendments. The project contract may be amended by execution of a project amendment. All amendment requests must be made in writing and must include a detailed justification. Sponsors are expected to complete projects as originally proposed and evaluated. However, amendments for minor changes in scope may be requested. Cost increases of twenty-five percent (25%) or more or changes in project elements that change the total project cost by twenty-five percent (25%) or more require that the project be presented as a totally new proposal and compete through the OPSP (see Sections 440 through 485 of this chapter) during a current funding cycle. Should the revised project not receive enough points to be funded, the sponsor is required to complete the scope of the project as
originally proposed at its expense or return any funds reimbursed so that the project may be canceled and the funds reallocated. This does not apply to SCORTP projects.

02. Cost Increases on Development Projects. For cost increase requests on development projects to be considered, all of the following requirements must be met:

a. The increase, or any portion thereof, is to be used only for costs incurred on elements specified in the project agreement; and

b. The sponsor has initiated implementation of the project in a timely manner and has had little control over the condition causing the cost overrun.

03. Cost Increases on Acquisition Projects. Acquisition project cost increases must meet all of the following conditions:

a. The increased market value is supported by an acceptable appraisal;

b. The sponsor has diligently pursued the acquisition; and

c. If increased relocation costs have caused a cost overrun, an explanation is required.

04. Condemnation. Acquisition cost increases based on condemnation awards, if granted, must be based on compensation for the property and direct relocation costs; no court or legal costs are eligible for reimbursement.

05. Basis for Cost Increase. Cost increase requests for development projects are based on the total approved costs. Cost increase requests for acquisition projects are based on a parcel by parcel determination.

06. Extensions of Time. Extensions of time limitations will be considered if based on unavoidable circumstances such as condemnation of property for acquisition projects and delays due to unusually poor weather or unavailability of supplies for a development project. Extensions are generally granted in six (6) month intervals. Avoidable project delays may result in loss of funding with the sponsor being required to return any funds reimbursed so that the project can be canceled.

621. -- 634. (RESERVED)

635. DEVELOPMENT PROJECT CONTRACT REQUIREMENTS. Development projects require competitive bidding according to state and federal statutes.

636. -- 649. (RESERVED)

650. CONVERSION TO OTHER USES.

01. Generally. Property acquired or developed with LWCF assistance is not converted to other than public outdoor recreation uses without prior approval of the SLO and the NPS regional director. The SLO has authority to disapprove conversion requests or to reject proposed property substitutions.

02. Prerequisites to Approval of Conversion. IDPR will only consider a conversion request once the following prerequisites have been met:

a. All practical alternatives to the conversion have been evaluated and rejected on a sound basis.

b. At least thirty (30) days prior to IDPR submitting a request to NPS to convert LWCF properties, the sponsors must hold a public hearing.

c. The fair market value of the property to be converted has been established and the property
proposed for substitution is of at least equal fair market value as established by a state approved appraisal. (7-1-93)

d. The property proposed for replacement is of reasonably equivalent usefulness and location as that being converted. It must be administered by the same political jurisdiction as the converted property. (1-1-94)

e. The property proposed for substitution meets the eligibility requirements for LWCF assisted acquisition. The replacement property constitutes or is part of a viable recreation area. (1-1-94)

f. Public land may not be used for substitution on acquisition projects unless it meets the criteria for an eligible acquisition project. However, in the case of development projects for which the state match was not derived from the cost of the purchase or value of a donation of the land to be converted, public land not currently dedicated to recreation or conservation use may be used as replacement land even if this land is transferred from one public agency to another without cost. (7-1-93)

g. All necessary coordination with other federal agencies has been satisfactorily accomplished. (7-1-93)

h. The guidelines for environmental evaluation have been satisfactorily completed and considered. (7-1-93)

i. The proposed conversion and substitution are in accord with the SCORTP. (1-1-94)

j. Staff consideration of the above points reveals no reason for disapproval and the project files are so documented. (7-1-93)

k. It should also be noted that the acquisition of one (1) parcel of land may be used in satisfaction of several approved conversions. However, previously acquired property cannot be used to satisfy substitution requirements except in the case of development projects. (7-1-93)

03. Project Amendments. Approved conversions require amendments in the project contract when the property to be substituted is off site or when replacement of property is deferred. (7-1-93)

04. Fees. Deposit, cost and fees for the administration and management of the LWCF conversion process must be as follows: (1-1-94)

a. The sponsor is required to pay a deposit of two and five-tenths percent (2.5%) of the appraised value of the property or the total cost of the project grant, whichever is greater. This deposit may not be less than one thousand dollars ($1,000). (1-1-94)

b. IDPR will charge the sponsor for all administrative costs relating to the conversion and a service fee of one percent (1%) of the current appraised value of the converted property. The service fee may not exceed three thousand five hundred dollars ($3,500) for each converted tract of property. (1-1-94)

c. The administrative costs and the service fee will be deducted from the deposit. The sponsor will be reimbursed the remaining amount upon the successful completion of the conversion. Any incidental costs exceeding the deposit will be paid by the sponsor. (1-1-94)

651. -- 664. (RESERVED)

665. USER FEES, CHARGES AND INCOME.

01. User Fees. User or other types of fees may be charged in connection with facilities developed with LWCF grants, provided that the fees and charges are commensurate with the value of recreation services or opportunities furnished and are in the prevailing range of public fees and charges for the particular activity involved. Discrimination on the basis of residence, including preferential reservation or membership systems and annual permit systems, is prohibited except to the extent that reasonable differences in admission and other fees may be maintained on the basis of residence. (7-1-93)
02. **Nonrecreational User Fees.** Nonrecreational income that accrues to an outdoor recreation area other than the intended recreational use, including income from land management practices, must derive from use that is consistent with, and complementary to, the intended outdoor recreational use of the area. Gross nonrecreational income that accrues during the project period established in the project contract must be used to reduce the total cost of the project. Gross nonrecreational income that accrues subsequent to the ending date identified in the project contracts must be used only to offset the expense of operation and maintenance of the facility.

(1-1-94)

666. -- 679. *(RESERVED)*

680. **PERMANENT PROJECT SIGNS.**
Permanent public acknowledgment of LWCF assistance at project sites is required on at least one (1) prominently placed area identification sign. The LWCF symbol established and provided by IDPR must be used for such acknowledgment at the project site entrance, or other appropriate locations. The sponsor may desire to provide a more detailed identification. IDPR staff must approve the sponsor’s park sign prior to its construction to ensure proper designation is included.

(1-1-94)

681. -- 694. *(RESERVED)*

695. **ARCHITECTURAL BARRIERS.**
Sponsors in the LWCF programs must assure that persons with disabilities are not precluded from the use of LWCF assisted recreational facilities.

(1-1-94)

710. **UNIFORM RELOCATION COMPLAINT PROCEDURE.**
The two (2) appeal procedure recommended by NPS are an appeal to the SLO and then to the board for resolution (see IDAPA 26.01.01, Section 250, “Rules of Administrative Procedure of the Idaho Park and Recreation Board”).

(1-1-94)

711. -- 724. *(RESERVED)*

725. **AVAILABILITY TO USERS.**

01. **Nondiscrimination.** Property must be open to entry and use by all persons regardless of race, color, or national origin. Discrimination is also prohibited on the basis of age, disability, religion or gender.

(1-1-94)

02. **Seasons and Hours.** Facilities must be kept open for public use at reasonable hours and times of the year based on intended use.

(1-1-94)

726. -- 739. *(RESERVED)*

740. **CIVIL RIGHTS COMPLAINT PROCEDURE.**
An opportunity is provided for filing civil rights complaints. A written complaint must be filed with the SLO within one hundred eighty (180) days from the date the alleged discrimination occurred. Within ten (10) working days of IDPR receiving the complaint, the complainant must be notified of action that has been or must be taken to resolve the complaint. An investigation must be conducted by the deputy director or his designee within thirty (30) working days of IDPR’s receipt of the complaint. The SLO or SLO’s designee must send a written response to the complainant regarding the results of the investigation within thirty (30) working days of the time the investigation began. If dissatisfied with the results of the investigation, the complainant may submit a written request for reconsideration to the SLO within ten (10) days of the receipt of resolution. The complainant may also file a complaint with the Idaho Human Rights Commission and The Office of Equal Opportunity. Addresses are available from IDPR.

**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections Uniform Controlled Substances Act, Title 37, Chapter 27, Idaho Code; the Idaho Pharmacy Act, the Idaho Wholesale Drug Distribution Act, and the Idaho Legend Drug Donation Act, Title 54, Chapter 17, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 27, rules of the Board of Pharmacy:

**IDAPA 27**

27.01.01, renamed as “Rules of the Idaho State Board of Pharmacy”, which consolidates content that was previously found in 27.01.01, 27.01.02, 27.01.03, 27.01.04, and 27.01.05, and makes some technical updates and streamlines content. Content from 27.01.04 was updated in accordance with House Bill 182, which passed the 2019 legislature unanimously and was signed into law.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Section 54-1702, Idaho Code, states the practice of pharmacy in the state of Idaho is declared a professional practice affecting the health, safety and welfare of the public and is subject to regulation and control in the public interest. It is further declared to be a matter of public interest and concern that the practice of pharmacy, as defined in this chapter, merits and receives the confidence of the public and that only qualified persons be permitted to engage in the practice of pharmacy in or into the state of Idaho.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The Board of Pharmacy’s budget is derived primarily from the fees established in these rules; without these fees, the approved FY2020 budget is not feasible. This would deprive the Board of Pharmacy from providing its critical functions such as administration of its opioid tracking database.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or
charge, beyond what was previously approved and codified in the prior rules. Section 023. establishes the fee schedule for the following licenses/registrations: pharmacist, nonresident pharmacist, pharmacist intern, technician, practitioner controlled substance registration, drug outlet, wholesaler, central drug outlet, mail service pharmacy, durable medical equipment outlet, outsourcing facility, manufacturer, and veterinary drug outlet. Additional fees are establish for late fees and reinstatements as well as administrative services.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Drugs stored outside a drug outlet in accordance with these rules must be regularly inventoried and inspected to ensure that they are properly stored, secured, and accounted for. Additional inventories are necessary when required by federal law. (7-1-18)

04. Rebuttal Presumption of Violation. Evidence of an amount of a controlled substance that differs
from the amount reflected on a record or inventory required by state or federal law creates a rebuttable presumption that the registrant has failed to keep records or maintain inventories in conformance with the recordkeeping and inventory requirements of state and federal law. (7-1-18)

05. Drug Distributor Records. Wholesalers and other entities engaged in wholesale drug distribution must maintain inventories and records or transactions pertaining to the receipt and distribution or other disposition of drugs in accordance with federal law. The records must include at least:

a. The source of the drugs, including the name and principal address of the seller or transferor, and the address of the location from which the drugs were shipped; (4-11-19)
b. The identity and quantity of the drugs received and distributed or disposed of; (4-11-19)
c. The dates of receipt and distribution or other disposition of the drugs; and (4-11-19)
d. Controlled substance distribution invoices, in the form and including the requirements of federal law. (4-11-19)

06. Central Records Storage. Records may be retained at a central location in compliance with federal law. (7-1-18)

07. Electronic Records Storage. Records may be electronically stored and maintained if they remain legible and are in a readily retrievable format, and if federal law does not require them to be kept in a hard copy format. (7-1-18)

501. REPORTING REQUIREMENTS.

01. Theft or Loss of Controlled Substances. A registrant must report to the Board on the same day reported to the DEA a theft or loss of a controlled substance that includes the information required by federal law. (7-1-18)

02. Individual Information Changes. Changes in employment or changes to information provided on or with the initial or renewal application must be reported to the Board within ten (10) days of the change. (7-1-18)

03. Drug Distributor Monthly Reports. An authorized distributor must report specified data on drugs distributed at least monthly to the Board in a form and manner prescribed by the Board. (4-11-19)

502. -- 599. (RESERVED)

Subchapter G – Prescription Drug Monitoring Program Requirements
(Rules 600 through 699 – Prescription Drug Monitoring Program Requirements)

600. CONTROLLED SUBSTANCES: PDMP.
Specified data on controlled substances must be reported by the end of the next business day by all drug outlets that dispense controlled substances in or into Idaho and prescribers that dispense controlled substances to humans. (7-1-18)

01. Online Access to PDMP. To obtain online access, a prescriber or pharmacist, or their delegate must complete and submit a registration application and agree to adhere to the access restrictions and limitations established by law. (7-1-18)

02. Use Outside Scope of Practice Prohibited. Information obtained from the PDMP must not be used for purposes outside the prescriber’s or pharmacist’s scope of professional practice. A delegate may not access the PDMP outside of their supervisor’s scope of professional practice. (7-1-18)

03. Profile Requests. Authorized persons without online access may obtain a profile by completing a Board form and submitting it to the Board office with proof of identification and other credentials necessary to
confirm the requestor’s authorized status pursuant to Section 37-2726, Idaho Code. (7-1-18)

601. – 699. (RESERVED)

Subchapter H - Rules Governing Drug Compounding (Rules 700 through 799 - Rules Governing Drug Compounding)

700. COMPOUNDING DRUG PREPARATIONS.
Any compounding that is not permitted herein is considered manufacturing. (7-1-18)

01. Application. This rule applies to any person, including any business entity, authorized to engage in the practice of non-sterile compounding, sterile compounding, and sterile prepackaging of drug products in or into Idaho, except these rules do not apply to:

a. Compound positron emission tomography drugs; (7-1-18)
b. Radiopharmaceutics; (7-1-18)
c. The reconstitution of a non-sterile drug or a sterile drug for immediate administration; (7-1-18)
d. The addition of a flavoring agent to a drug product; and (7-1-18)
e. Product preparation of a non-sterile, non-hazardous drug according to the manufacturer's FDA approved labeling. (7-1-18)

02. General Compounding Standards.

a. Active Pharmaceutical Ingredients. All active pharmaceutical ingredients must be obtained from an FDA registered manufacturer. FDA registration as a foreign manufacturer satisfies this requirement. (7-1-18)
b. Certificate of Analysis (COA). Unless the active pharmaceutical ingredient complies with the standards of an applicable USP-NF monograph, a COA must be obtained for all active pharmaceutical ingredients procured for compounding and retained for a period of not less than three (3) years from the date the container is emptied, expired, returned, or disposed of. The following minimum information is necessary on the COA:

i. Product name; (7-1-18)

ii. Lot number; (7-1-18)

iii. Expiration date; and (7-1-18)

iv. Assay. (7-1-18)

c. Equipment. Equipment and utensils must be of suitable design and composition and cleaned, sanitized, or sterilized as appropriate prior to use. (7-1-18)

d. Disposal of Compromised Drugs. When the correct identity, purity, strength, and sterility of ingredients and components cannot be confirmed (in cases of, for example, unlabeled syringes, opened ampoules, punctured stoppers of vials and bags, and containers of ingredients with incomplete labeling) or when the ingredients and components do not possess the expected appearance, aroma, and texture, they must be removed from stock and isolated for return, reclamation, or destruction. (7-1-18)

03. Prohibited Compounding. Compounding any drug product for human use that the FDA has identified as presenting demonstrable difficulties in compounding or has withdrawn or removed from the market for safety or efficacy reasons is prohibited. (7-1-18)

04. Limited Compounding.
a. Triad Relationship. A pharmacist may compound a drug product in the usual course of professional practice for an individual patient pursuant to an established prescriber/patient/pharmacist relationship and a valid prescription drug order. (7-1-18)

b. Commercially Available Products. A drug product that is commercially available may only be compounded if not compounded regularly or in inordinate amounts and if:
   i. It is medically warranted to provide an alternate ingredient, dosage form, or strength of significance; or (7-1-18)
   ii. The commercial product is not reasonably available in the market in time to meet the patient's needs. (7-1-18)

c. Anticipatory Compounding. Limited quantities of a drug product may be compounded or sterile prepackaged prior to receiving a valid prescription drug order based on a history of receiving valid prescription drug orders for the compounded or sterile prepackaged drug product. (7-1-18)

05. Drug Compounding Controls.

a. Policies and Procedures. In consideration of the applicable provisions of USP Chapter 795 concerning pharmacy compounding of non-sterile preparations, USP Chapter 797 concerning sterile preparations, Chapter 1075 of the USP-NF concerning good compounding practices, and Chapter 1160 of the USP-NF concerning pharmaceutical calculations, policies and procedures for the compounding or sterile prepackaging of drug products must ensure the safety, identity, strength, quality, and purity of the finished product, and must include any of the following that are applicable to the scope of compounding practice being performed:
   i. Appropriate packaging, handling, transport, and storage requirements; (7-1-18)
   ii. Accuracy and precision of calculations, measurements, and weighing; (7-1-18)
   iii. Determining ingredient identity, quality, and purity; (7-1-18)
   iv. Labeling accuracy and completeness; (7-1-18)
   v. Beyond use dating; (7-1-18)
   vi. Auditing for deficiencies, including routine environmental sampling, quality and accuracy testing, and maintaining inspection and testing records; (7-1-18)
   vii. Maintaining environmental quality control; and (7-1-18)
   viii. Safe limits and ranges for strength of ingredients, pH, bacterial endotoxins, and particulate matter. (7-1-18)

b. Accuracy. Components including, but not limited to, bulk drug substances, used in the compounding or sterile prepackaging of drug products must be accurately weighed, measured, or subdivided, as appropriate. The amount of each active ingredient contained within a compounded drug product must not vary from the labeled potency by more than the drug product’s acceptable potency range listed in the USP-NF monograph for that product. If USP-NF does not publish a range for a particular drug product, the active ingredients must not contain less than ninety percent (90%) and not more than one hundred ten percent (110%) of the potency stated on the label. (7-1-18)

c. Non-Patient Specific Records. Except for drug products that are being compounded or sterile prepackaged for direct administration, a production record of drug products compounded or sterile prepackaged in anticipation of receiving prescription drug orders or distributed in the absence of a patient specific prescription drug order (“office use”) solely as permitted in these rules, must be prepared and kept for each drug product prepared,
including:

i. Production date;

ii. Beyond use date;

iii. List and quantity of each ingredient;

iv. Internal control or serial number; and

v. Initials or unique identifier of all persons involved in the process or the compounder responsible for the accuracy of these processes.

701. STERILE PREPARATION.

01. Application. In addition to all other applicable rules in this chapter, including the rules governing Compounding Drug Preparations, these rules apply to all persons, including any business entity, engaged in the practice of sterile compounding and sterile prepackaging in or into Idaho.

02. Dosage Forms Requiring Sterility. The sterility of compounded biologics, diagnostics, drugs, nutrients, and radiopharmaceuticals must be maintained or the compounded drug preparation must be sterilized when prepared in the following dosage forms:

a. Aqueous bronchial and nasal inhalations, except sprays and irrigations intended to treat nasal mucosa only;

b. Baths and soaks for live organs and tissues;

c. Injections (for example, colloidal dispersions, emulsions, solutions, suspensions);

d. Irrigations for wounds and body cavities;

e. Ophthalmic drops and ointments; and

f. Tissue implants.

03. Compounder Responsibilities. Compounders and sterile prepackagers are responsible for ensuring that sterile products are accurately identified, measured, diluted, and mixed and are correctly purified, sterilized, packaged, sealed, labeled, stored, dispensed, and distributed, as well as prepared in a manner that maintains sterility and minimizes the introduction of particulate matter;

a. Unless following manufacturer’s guidelines or another reliable literature source, opened or partially used packages of ingredients for subsequent use must be properly stored as follows;

i. Opened or entered (such as needle-punctured) single-dose containers, such as bags, bottles, syringes, and vials of sterile products and compounded sterile preparations are to be used within one (1) hour if opened in non-sterile conditions, and any remaining contents must be discarded;

ii. Single-dose vials needle-punctured in a sterile environment may be used up to six (6) hours after initial needle puncture;

iii. Opened single-dose ampules may not be stored for any time period; and

iv. Multiple-dose containers (for example, vials) that are formulated for removal of portions on multiple occasions because they contain antimicrobial preservatives, may be used for up to twenty-eight (28) days after initial opening or entering, unless otherwise specified by the manufacturer;
b. Water-containing compounded sterile products that are non-sterile during any phase of the compounding procedure must be sterilized within six (6) hours after completing the preparation in order to minimize the generation of bacterial endotoxins; (7-1-18)

c. No food, drinks, or materials exposed in patient care and treatment areas may enter ante-areas, buffer areas, or segregated areas where components and ingredients of sterile preparations are prepared. (7-1-18)

04. **Environmental Controls**. Except when prepared for immediate administration, the environment for the preparation of sterile preparations in a drug outlet must be in an isolated area, designed to avoid unnecessary traffic and airflow disturbances, and equipped to accommodate aseptic techniques and conditions. (7-1-18)

   a. Hoods and aseptic environmental control devices must be certified for operational efficiency as often as recommended by the manufacturer or at least every six (6) months or if relocated. (7-1-18)

   b. Filters must be inspected and replaced in accordance with the manufacturer’s recommendations. (7-1-18)

05. **Sterile Preparation Equipment**. A drug outlet in which sterile preparations are prepared must be equipped with at least the following: (7-1-18)

   a. Protective apparel including gowns, masks, and sterile (or the ability to sterilize) non-vinyl gloves, unless written documentation can be provided from the aseptic isolator manufacturer that any component of garbing is not necessary; (7-1-18)

   b. A sink; (4-11-19)

   c. A refrigerator for proper storage of additives and finished sterile preparations prior to delivery when necessary; and (7-1-18)

   d. An appropriate laminar airflow hood or other aseptic environmental control device such as a laminar flow biological safety cabinet, or a comparable compounding area when authorized by USP Chapter 797. (4-11-19)

06. **Documentation Requirements**. The following documentation must also be maintained by a drug outlet in which sterile preparations are prepared: (7-1-18)

   a. Justification of beyond use dates assigned, pursuant to direct testing or extrapolation from reliable literature sources; (7-1-18)

   b. Training records, evidencing that personnel are trained on a routine basis and are adequately skilled, educated, and instructed; (7-1-18)

   c. Audits appropriate for the risk of contamination for the particular sterile preparation including:

      i. Visual inspection to ensure the absence of particulate matter in solutions, the absence of leakage from bags and vials, and the accuracy of labeling with each dispensing; (7-1-18)

      ii. Periodic hand hygiene and garbing competency; (7-1-18)

      iii. Media-fill test procedures (or equivalent), aseptic technique, and practice related competency evaluation at least annually by each compounder or sterile prepackager; (7-1-18)

      iv. Environmental sampling testing at least upon registration of a new drug outlet, following the servicing or re-certification of facilities and equipment, or in response to identified problems with end products, staff techniques or patient-related infections, or every six (6) months, including: (7-1-18)
(1) Total particle counts; (7-1-18)
(2) Viable air sampling; (7-1-18)
(3) Surface sampling; (7-1-18)

v. Gloved fingertip sampling testing at least annually for personnel who compound low- and medium-risk level compounded sterile preparations and every six (6) months for personnel who compound high-risk level compounded sterile preparations. (4-11-19)

d. Temperature, logged daily; (7-1-18)
e. Beyond use date and accuracy testing, when appropriate; and (7-1-18)
f. Measuring, mixing, sterilizing, and purification equipment inspection, monitoring, cleaning, and maintenance to ensure accuracy and effectiveness for their intended use. (7-1-18)

07. Policies and Procedures

Policies and procedures appropriate to the practice setting must be adopted by a drug outlet preparing sterile pharmaceutical preparations and must include a continuous quality improvement program for monitoring personnel qualifications and training in sterile technique, including: (7-1-18)

a. Antiseptic hand cleansing; (7-1-18)
b. Disinfection of non-sterile compounding surfaces; (7-1-18)
c. Selecting and appropriately donning protective garb; (7-1-18)
d. Maintaining or achieving sterility of sterile preparations while maintaining the labeled strength of active ingredients; (7-1-18)
e. Manipulating sterile preparations aseptically, including mixing, diluting, purifying, and sterilizing in the proper sequence; (7-1-18)
f. Choosing the sterilization method, pursuant to the risk of a contamination of particular compounded sterile preparation; and (7-1-18)
g. Inspecting for quality standards before dispensing or distributing. (7-1-18)

702. HAZARDOUS DRUGS PREPARATION.

In addition to all other applicable rules in this chapter, including the rules governing Compounding Drug Preparations and Sterile Preparation, these rules apply to all persons, including any business entity, engaged in the practice of compounding or sterile prepackaging with hazardous drugs. Such persons must: (7-1-18)

01. Ventilation. Ensure the storage and compounding areas have sufficient general exhaust ventilation to dilute and remove any airborne contaminants. (7-1-18)

02. Ventilated Cabinet. Utilize a ventilated cabinet designed to reduce worker exposures while preparing hazardous drugs. (7-1-18)

a. Sterile hazardous drugs must be prepared in a dedicated Class II biological safety cabinet or a barrier isolator of appropriate design to meet the personnel exposure limits described in product material safety data sheets; (7-1-18)

b. When asepsis is not required, a Class I BSC, powder containment hood or an isolator intended for
containment applications may be sufficient. (7-1-18)

c. A ventilated cabinet that re-circulates air inside the cabinet or exhausts air back into the room environment is prohibited, unless:

i. The hazardous drugs in use will not volatilize while they are being handled; or (7-1-18)

ii. Written documentation from the manufacturer attesting to the safety of such ventilation. (7-1-18)

03. Clear Identification. Clearly identify storage areas, compounding areas, containers, and prepared doses of hazardous drugs. (7-1-18)

04. Labeling. Label hazardous drugs with proper precautions, and dispense them in a manner to minimize risk of hazardous spills. (7-1-18)

05. Protective Equipment and Supplies. Provide and maintain appropriate personal protective equipment and supplies necessary for handling hazardous drugs, spills and disposal. (7-1-18)

06. Contamination Prevention. Unpack, store, prepackage, and compound hazardous drugs separately from other inventory in a restricted area in a manner to prevent contamination and personnel exposure until hazardous drugs exist in their final unit-of-use packaging. (7-1-18)

07. Compliance With Laws. Comply with applicable local, state, and federal laws including for the disposal of hazardous waste. (7-1-18)

08. Training. Ensure that personnel working with hazardous drugs are trained in hygiene, garbing, receipt, storage, handling, transporting, compounding, spill control, clean up, disposal, dispensing, medical surveillance, and environmental quality and control. (7-1-18)

09. Policy and Procedures Manual. Maintain a policy and procedures manual to ensure compliance with this rule. (7-1-18)

703. OUTSOURCING FACILITY.

02. Adverse Event Reports. Outsourcing facilities must submit to the Board a copy of all adverse event reports submitted to the secretary of Health and Human Services in accordance with Section 310.305 of Title 21 of the Code of Federal Regulations. (7-1-18)

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 67-4702(2), Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 28, rules of the Department of Commerce:

IDAPA 28
• 28.02.03, Rules of the Idaho Regional Travel and Convention Grant Program
• 28.02.04, Idaho Gem Grant Program
• 28.02.05, Rural Community Block Grant Program (RCBG)
• 28.02.07, Rules Governing the Administration of the IGEM Grant Program
• 28.03.01, Rules of the Idaho Opportunity Fund
• 28.04.01, Rules Governing the Idaho Reimbursement Incentive Act

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. As the lead economic development agency for the State of Idaho, the mission of the Idaho Department of Commerce is to foster a business-friendly environment to aid in job creation, support existing companies, support tourism, and strengthen Idaho communities. The temporary adoption of the rule will ensure the continued support for Idaho businesses and tourism from the Idaho Department of Commerce.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.
INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

**IDAPA 29 – IDAHO POTATO COMMISSION**  
**DOCKET NO. 29-0000-1900**  
**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 22-1205 and 22-1207, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 29, rules of the Idaho Potato Commission (IPC).

**IDAPA 29**
- 29.01.01, *Rules of Procedure of the Idaho Potato Commission* - updated and streamlined to include rules that were previously in 29.01.01 and 29.01.02, while deferring to the rules of procedure of the Attorney General when possible.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Without these rules in place, the IPC cannot bring administrative proceedings to protect the IPC’s trademarks and certification marks and undertake necessary enforcement actions relating to the infringement of these marks; we will not have any requirements for packaging and container branding and not be able to offer the industry guidance or outline how to protect the Idaho brand; and we will not have a written explanation of the methodology by which IPC taxes are assessed and collected.

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

However, if the first person is a dealer or shipper handling potatoes grown by another, he may charge back to the person he acquired the potatoes from sixty percent (60%) of the potato tax. The charge back does not reduce the first person’s tax liability due to the commission. (6-30-19)T

Such record shall be in such form as the Commission’s Executive Director, duly authorized agent, representative or employee shall prescribe. (6-30-19)T

Regular audits shall be routinely performed by the Commission or its duly authorized agents, representatives, or employees to assure adherence with these rules. In addition, compliance audits may take place at any time. For further requirements see Section 22-1212, Idaho Code. (6-30-19)T

05. Calculation of Tax Due. All first handlers of Idaho® Grown potatoes shall pay the total tax due on all potatoes handled by them on a net weight basis. Net weight shall be determined by subtracting from the gross
scale weight the dirt, rock, other foreign material only, and potatoes that are not used for human consumption. The amount of tax due is the tax rate currently imposed pursuant to Section 100.03 multiplied by the net hundredweight (cwt). The following diagram illustrates the manner in which the formula is to be applied:

<table>
<thead>
<tr>
<th>Gross Scale Weight Less</th>
<th>Dirt, rock, other foreign material, and potatoes not used for human consumption</th>

04. **Compliance for Private Brands or Labels That Do Not Reference Idaho Locations.** Private brands or labels that do not reference an Idaho location, geographical feature, or otherwise attempt to imply directly or indirectly that a container of potatoes contains potatoes grown in Idaho when in fact such is not the case, but only have an Idaho address on the container, are permitted when approved by the commission or its designee. This rule is complied with by private brands or labels that:

a. Meet the requirements of Subsection 104.02.c.;

b. State the geographical state of origin of the potatoes followed by the word “potatoes”; and

c. The lettering size of the Idaho address on the container does not exceed one-half (1/2) inch for containers fifty (50) pounds or greater and one-quarter (1/4) inch for containers less than fifty (50) pounds. APPENDIX B
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 33-2503, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 30, rules of the Idaho Commission for Libraries:

IDAPA 30
• 30.01.01, Rules of the Idaho Commission for Libraries Governing the Use of Commission Services

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Rules for the Idaho Commission for Libraries allow the agency to provide state and federal grants for eligible libraries and circulate audio books and equipment for qualified Idahoans. The rules also allow exemptions for the criteria for a proposed library district and govern the digital repository of state publications. They are in place to allow the agency to function in an orderly and fair manner.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. IDAPA 31 – IDAHO PUBLIC UTILITIES COMMISSION

DOCKET NO. 31-0000-1900

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 31, rules of the Idaho Public Utilities Commission:

IDAPA 31

• 31.01.01, Rules of Procedure of the Idaho Public Utilities Commission
• 31.11.01, Safety and Accident Reporting Rules for Utilities Regulated by the Idaho Public Utilities Commission
• 31.12.01, Systems of Accounts for Public Utilities Regulated by the Idaho Public Utilities Commission
• 31.21.01, Customer Relations Rules for Gas, Electric and Water Public Utilities (the Utility Customer Relations Rules)
• 31.26.01, Master-Metering Rules for Electric Utilities
• 31.31.01, Gas Service Rules
• 31.36.01, Policies and Presumptions for Small Water Companies
• 31.41.01, Customer Relations Rules for Telephone Corporations Providing Services in Idaho Subject to Customer Service Regulation by the Idaho Public Utilities Commission
• 31.46.01, Universal Service Fund Rules
• 31.46.02, Rules for Telecommunications Relay Services (TRS)
• 31.51.01, Operator Service and Pay Telephone Rules
• 31.61.01, Rules for the Measurement of Stray Current or Voltage
• 31.71.01, Railroad Clearance Rules
• 31.71.03, Railroad Safety and Accident Reporting Rules
• 31.81.01, Energy Consumption Reporting Rules

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the
state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Idaho Public Utilities Commission is required to regulate public utilities that provide electric, gas, telephone, water, and rail service. The utilities typically hold monopoly franchises that obligate them to serve all members of the public in a defined service territory. These rules help ensure the utilities safely and reliably serve their customers using just, reasonable, and nondiscriminatory rates and practices.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Stephen Goodson at (208) 334-0323. Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

021. INFORMAL PROCEEDINGS DEFINED (RULE 21).
Informal proceedings are proceedings in cases authorized by statute, rule or order of the Commission to be conducted using informal procedures, i.e., procedures without a record to be preserved for later Commission or judicial review, without the necessity of representation according to Rule 43, without formal designation of parties, without the necessity of presiding officers, or without other formal procedures required by these rules for formal proceedings. Unless prohibited by statute, the Commission may provide that informal proceedings may precede formal proceedings in the consideration of a rulemaking or a case. (7-1-93)

022. INFORMAL PROCEDURE (RULE 22).
These rules encourage the use of informal proceedings to settle or determine cases. Unless prohibited by statute, the Commission may provide for the use of informal procedure at any stage of a case. Informal procedure may include individual contacts by or with the Commission staff asking for information, advice or assistance from the Commission staff, or proposing informal resolution of formal disputes. Informal procedures may be conducted in writing, by telephone, or in person. (7-1-93)

023. FURTHER PROCEEDINGS (RULE 23).
Except as provided in Rule 24, any person participating in an informal proceeding must be given an opportunity for a later formal administrative proceeding before the Commission, at which time the parties may fully develop the record before the Commission. (7-1-93)

024. INFORMAL PROCEEDINGS DO NOT EXHAUST ADMINISTRATIVE REMEDIES (RULE 24).
Unless all parties agree to the contrary in writing, informal proceedings do not substitute for formal proceedings and do not exhaust administrative remedies, and informal proceedings are conducted without prejudice to the right of the parties to present the matter formally to the Commission. The Commission Staff will consider and investigate informal inquiries or complaints without prejudice to the right of the interested persons to present the matter formally to the Commission, unless all affected persons agree in writing to be bound by the informal decision. Settlement offers made in the course of informal proceedings are confidential and shall be excluded from the agency record of any later formal proceedings. Informal procedure is recommended and preferred for informal inquiries or complaints. However, the Commission itself may formally consider any informal inquiry or complaint presented to it or to the Staff. (7-1-93)

025. FORMAL PROCEEDINGS (RULE 25).
Formal proceedings, which are governed by rules of procedure other than Rules 21 through 24, must be initiated by a pleading listed in Rules 51 through 58. (7-1-93)

026. INFORMAL FILES MAY BE INVESTIGATIVE RECORDS (RULE 26).
Files created by the Commission and its Staff in response to informal inquiries or complaints are investigatory records and are generally exempt from disclosure according to Section 74-105(1), Idaho Code, but are available under Section 74-113(1), Idaho Code, to the customer, applicant, utility, carrier, etc., that are the subjects of the investigation. Persons not applicants who seek to modify, amend or stay existing orders or rules, to clarify their rights or obligations under law administered by the Commission, to ask the Commission to initiate a proceeding (other than an application or a complaint), or to otherwise take action that will result in the issuance of an order or rule, but not seeking a right or authority from the Commission, are called “petitioners.” (7-1-93)

034. **COMPLAINANTS (RULE 34).**

Persons charging other person(s) with any act or omission are called “complainants.” In any proceeding which the Commission charges an act or omission, the Commission is called “complainant.” (7-1-93)

037. **COMMISSION STAFF (RULE 37).**

The Commission Staff, without intervention, may appear at any hearing and has all rights of participation as a party to the proceeding. If counsel is desired, a Deputy Attorney General for the Commission represents the Staff. (3-16-04)

02. **Interested Persons.** Interested persons for purposes of the Commission Secretary’s service of notice under Rules 113, 123, and 202 are municipalities, counties, and chambers of commerce in the area affected by a proceeding and persons who were parties in any proceeding of a similar kind involving the same utility or railroad in the preceding three (3) years. This rule defines interested persons for purposes of Rules 113, 123, and 202, but not for purposes of Section 61-626, Idaho Code. (2-15-14)

041. INITIAL PLEADING BY PARTY -- LISTING OF REPRESENTATIVES (RULE 41).

01. Designation of Representative Required. The initial pleading of each party to a proceeding (be it an application, petition, complaint, motion, or answer) must name the party’s representative(s) for service and state each representative’s mailing and electronic (if available) address for purposes of receipt of all official documents. Service of documents on the named representative(s) by mail or by electronic mail is valid service upon the party for all purposes in that proceeding. If no person is explicitly named as a party’s representative, the person signing the pleading will be considered the party’s representative. (3-16-04)

02. Number of Representatives. b. An attorney applying for limited admission to appear before the Commission in a representative
capacity shall file a written motion with the Commission Secretary and serve a copy on all parties. The motion shall be substantially in the form set out in Bar Rule 227(j) with references to the Commission instead of the court.

121. FORM AND CONTENTS OF APPLICATION TO CHANGE RATES (RULE 121).
   a. An exhibit showing in full each proposed change in rates, tolls, rentals, charges, rules or regulation by striking over proposed deletions to existing tariffs and underlining proposed additions or amendments to existing tariffs, except applications to increase or decrease all or almost all rates and charges by a uniform percentage or by a uniform amount may be made by filing a tariff listing the proposed change and all unchanged rates and charges or rates and charges not changed by a uniform percentage or a uniform amount, or by use of another designation
previously approved by the Commission that clearly calls attention to all proposed changes in numbers or wording. (7-1-93)

b. If the application is subject to Rule 122, a complete justification of the proposed increase in the form of testimony and exhibits or a narrative exposition. (7-1-93)

c. If the application is subject to Rule 122, a statement showing how and when the application has been or will be brought to the attention of affected customers and a copy of the press release and customer notice required by Rule 125. (2-15-14)

d. A statement that the applicant stands ready for immediate consideration of the application. (7-1-93)

e. If the application is subject to Rule 122, testimony and exhibits showing financial statements, cost of capital and appropriate cost of service studies. (7-1-93)

(7-1-93)

02. Proposals Based upon Computer Modeling. In addition, in any application in which a computer model is used to represent or simulate processes from which the revenue requirement is derived or upon which allocations of the revenue requirement to different customer classes are based, complete documentation of all those computer models must be supplied to the Staff, upon request, and be available in the utility’s office or other depository. The Staff may request that the computer model itself be provided. A computer model includes the representation or simulation of a process, but does not mean or include the compilation of actual data. The application must state that the documentation of the models already on file in the applicant’s office or other depository fully describes the models or that necessary updates or additions to previous documentation that will fully describe the models is on file and will be supplied on request. (4-5-00)

03. Grounds for Returning or Dismissing Application. Failure to comply with Rule 121.01 and 121.02 of this rule is grounds to return or dismiss an application under Rule 65. (7-1-93)

122. NOTICE OF INTENT TO FILE A GENERAL RATE CASE (RULE 122).

01. Which Utilities Must File Notice. Utilities with annual gross revenues from retail customers in the State of Idaho exceeding three million dollars ($3,000,000) must file with the Commission a “notice of intent to file a general rate case” at least sixty (60) days before filing a general rate case. If the general rate case described in the notice is not filed within one-hundred twenty (120) days after filing of the notice of intent to file a general rate case, by operation of this rule a notice of intent to file a general rate case will be considered withdrawn unless it is supplemented with a written statement that the utility still intends to file a general rate case of the kind described in its notice of intent to file a general rate case. (7-1-93)

02. Exceptions for Trackers or Annual Cost Adjustments. This rule applies only to general rate increases. Examples of cases outside the scope of this rule include (but are not limited to) fuel cost adjustments (e.g., PGA), power cost adjustment (PCA), commodity or purchased power tracker rate increases, emergency or other short-notice increases caused by disaster or weather-related or other conditions unexpectedly increasing a utility’s expenses, rate increases designed to recover governmentally-imposed increases in costs of doing business, such as changes in tax laws or ordinances, or other increases designed to recover increased expenses arising on short notice and beyond the utility’s control. (5-8-09)
toll, rental, charge or classification, or any rule, regulation, or contract relating to or affecting any rate, fare, toll, rental, charge, classification, or service, or in any privilege or facility, can be effective unless notice is given to the Commission and the public pursuant to Section 61-307, Idaho Code. If the application for such a change proposes an effective date fewer than thirty (30) days after the application is filed, the effective date of the change is delayed until thirty (30) days after the application is filed by operation of Section 61-307, Idaho Code, unless the Commission by order approves an earlier effective date for good cause shown. In the absence of an order approving or suspending any or all such proposed changes, the changes not suspended or approved go into effect thirty (30) days after filing or on their proposed effective date, whichever is later. If no effective date is proposed for the changes, the changes do not go into effect until approved by order. (4-5-00)

02. **Notice of Application.** Within twenty-one (21) days of the date of any application to change any rate, fare, toll, charge, or classification, or any rule, regulation or contract relating to or affecting any rate, fare, toll, rental, charge, classification, or service, or in any privilege or facility, the Commission Secretary will issue a notice of application to all interested persons, unless notice is issued pursuant to modified procedure or the application is earlier approved or described by order. (4-5-00)

03. **Suspension of Proposed Rate Changes.** At any time before proposed changes take effect pursuant to Sections 61-307, Idaho Code and Rule 123.01 of this rule, the Commission may suspend the effectiveness of the changes pursuant to Sections 61-622, Idaho Code. Whenever the Commission suspends proposed changes for less than the maximum period of suspension allowed by statute, it may extend the period of the suspension to the statutory maximum consistent with the statutory standards. (7-1-93)

124. **DESIGNATION AS GENERAL RATE CASE IN NOTICE OF APPLICATION (RULE 124).**

When a notice of application designates a proceeding as a general rate case, all persons are thereby put upon notice that the following are at issue and the Commission may make decisions addressing them, whether the notice explicitly repeats the following or not:

01. **Revenue Requirement.** The utility’s Idaho intrastate revenue requirement, and every component of it, both rate base and expense, are at issue. The Commission may grant, deny, or modify the revenue requirement requested and may find a revenue requirement different from that proposed by any party is just, fair and reasonable. (7-1-93)

02. **Rates, Charges, and Service.** The rates and charges of all Idaho retail customers, both recurring and non-recurring, including those of special contract customers, are at issue, and every component of every existing and proposed rate and charge is at issue. The Commission may approve, reject or modify the rates and charges proposed and may find that rates and charges different from those proposed by any party are just, fair and reasonable. (7-1-93)

   a. The Commission may approve, reject or modify existing or proposed relationships between and among rates and charges within, between or among customer classes or rate groupings and may approve, reject or modify existing or proposed relationships among and between customer classes or rate groupings. (7-1-93)

   b. The Commission may abolish, reduce or create rate blocks or categories of rates and charges, abolish, create or reduce components of rates and charges, abolish, reduce or create customer classes or rate groupings, and abolish, reduce or create absolute or relative differences among and between existing classes or rate groupings of customers. (7-1-93)

   c. The tariffs, practices, rules and regulations, service, instrumentalities, equipment, facilities, classifications, and customer relations of the utility are at issue, and the Commission may address any of them in its order. (7-1-93)

125. **NOTICES TO CUSTOMERS OF PROPOSED CHANGES IN RATES (RULE 125).**

01. **Customer Notice of a Change in Rates.** (4-7-11)

   a. If a utility is requesting a rate increase, the utility shall issue a customer notice to each customer. The customer notice shall include a brief explanation of the utility’s need for additional revenue and the dollar
amount requested. The notice shall give the proposed overall percentage change from current rates as well as the
proposed percentage increase in revenue for each major customer class. (4-7-11)

b. If the utility is requesting a rate decrease, the utility shall issue a customer notice to each customer. The
customer notice shall include a brief explanation of the reason for the decrease, the overall dollar amount of the
proposed decrease, and the proposed percentage decrease for each major customer class. (4-7-11)

c. The customer notice shall make it clear that the application is a proposal, subject to public review
and a Commission decision. It shall also inform customers that a copy of the utility’s application is available for
public review at the offices of both the Commission and the utility, and on the Commission’s homepage at
www.puc.idaho.gov. (2-15-14)

d. The customer notice shall inform customers that written comments regarding the utility’s
application may be filed with the Commission. It shall also inform customers that they may subscribe to the
Commission’s RSS feed (Subsection 039.03) to receive periodic updates via e-mail about the case. (2-15-14)

02. Timing of Notice for Trackers or Annual Cost Adjustments. Tracker adjustments occasioned by
federal action that result in an increase or decrease in rates may be brought to the attention of customers in
compliance with this rule after approval by the Commission. Other tracker or annual cost adjustment cases that result
in an increase in rates remain subject to the requirements of advance notice contained in this rule. Other tracker or
annual cost adjustment cases that result in a decrease in rates may be brought to the attention of customers in
compliance with this rule after being approved by the Commission. (4-7-11)

03. Timely Distribution of Customer Notices. The customer notices referred to in Subsection 125.01
may be mailed separately to customers or included in the customer’s regular bill as a bill stuffer. At the customer’s
option, the customer notice may be provided electronically. The information required by this rule is to be clearly
identified, easily understood, and pertain only to the proposed rate change. Distribution of customer notices shall
commence when the utility files its application or as soon as possible thereafter. (2-15-14)

04. Press Release. In instances covered by Subsection 125.01, the utility shall also send a press release
containing, at minimum, the same information presented in the customer notices to all newspapers, radio, and
television stations listed on the Commission’s news organization list for that utility. The press releases shall be mailed
or delivered simultaneously with filing of the application. (5-8-09)

shall be filed with the application. (5-8-09)

06. Purposes and Effects of This Rule. The purposes of Subsections 125.01 through 125.05 of this
rule are to encourage wide dissemination to customers of information concerning proposed rate changes for utility
services. It is not a purpose of these subsections to create due process or other procedural rights in customers by
expanding, contracting, or otherwise modifying the notice and due process rights of customers under the Public
Utilities Law and the Commission’s Rules of Procedure, IDAPA 31.01.01. Accordingly, Subsections 125.01 through
125.05 of this rule create no individual procedural rights in any customer for notice that would give rise to a due
process or other procedural claim cognizable by the Commission, but failure to comply with Subsections 125.01
through 125.05 of this rule can be grounds for returning an application for incompleteness. (5-8-09)

126. APPLICATION TO APPROVE INTERCONNECTION AGREEMENTS (RULE 126).

01. Uncontested Agreements. A telephone corporation may file an application for the Commission to
approve voluntarily negotiated, adopted or amended interconnection agreements pursuant to Section 252 of the
negotiated interconnection agreements and uncontested amendments to previously approved agreements with the
assistance of an ex parte recommendation of the Commission Staff. (5-8-09)

02. Contested Agreements. Petitions to arbitrate, mediate or otherwise resolve interconnection
disputes between or among telecommunication carriers shall be processed under Rule 53. (3-16-04)
127. PUBLIC WORKSHOPS ON APPLICATIONS TO INCREASE RATES (RULE 127).

01. Public Workshop. When a public utility files an application to increase any rate, fare, toll, rental or charge regarding any classification or service, the Commission will determine if the staff should conduct a public workshop. The purpose of any workshop is for the staff to dispense information concerning the utility’s application and to receive written or oral comments from the public prior to the staff filing testimony or comments in the case. (3-16-04)

02. Notice and Location of Workshop. Notice of the public workshop shall be disseminated a minimum of seven (7) days prior to the workshop to newspapers of general circulation and radio and television stations in the affected area. The Commission shall determine the location for the workshop within the area served by the public utility. The notice shall also be posted on the Commission’s website. (3-16-04)

03. Exemptions. The requirements of Subsection 127.01 shall not apply to applications regarding uniform statewide surcharges under Sections 56-904, 62-610 and 62-610F, Idaho Code, or to utility tariff advices. (5-8-09)

Electronic tariff schedules may also be submitted as PDF documents on appropriately formatted CD-ROM or other electronic storage format approved by the Commission Secretary. (5-8-09)

133. TARIFFS SUBMITTED PURSUANT TO ORDER (RULE 133).

01. Order May Require Submission of Tariffs. When the Commission directs or authorizes by order that certain tariffs be filed, the order may require the tariff submissions to the Commission to be accompanied by appropriate explanatory documents, summaries, workpapers, or similar material. When the Commission authorizes a utility to file new tariffs pursuant to order in a general rate case, the Commission may require the utility to file a complete set of tariffs containing both pages with changed rates and charges and those without. (7-1-93)

02. Staff Review of Tariffs Filed Pursuant to Order. When a utility files tariffs with the Commission pursuant to an order of the Commission in a proceeding in which other persons are party, the responsibility for reviewing the tariff submission to determine whether it complies with the Commission’s order is upon the Commission Staff, which shall promptly report to the Commission whether the tariffs do comply. The review of tariffs filed pursuant to order is an ex parte, ministerial responsibility of the Commission Staff. If existing tariffs are changed, the advice must contain two (2) copies of each changed page: one (1) showing all the changes with appropriate symbols for deletions, additions, etc., and one (1) showing the pages after the changes as they will appear in the proposed new tariffs. (7-1-93)

02. Filing of Tariff Advice. No tariff advice can be effective unless notice is given to the Commission and the public pursuant to Sections 61-307 and 61-622, Idaho Code. If the tariff advice proposes an effective date fewer than thirty (30) days after it is filed, the effective date of the tariff is delayed until thirty (30) days after the tariff advice is filed by operation of Sections 61-307 and 61-622, Idaho Code, unless the Commission by order approves an earlier effective date for good cause shown. In the absence of an order approving or suspending the tariff advice, the tariff advice not suspended or approved goes into effect thirty (30) days after filing or on the proposed effective date, whichever is later. If no effective date is proposed for the tariff advice, the tariff advice does not go into effect until approved by order or minute entry. If a tariff advice is suspended, the Commission will open a formal proceeding and treat the tariff advice as an application. (7-1-93)

03. Ex Parte Action. Ordinarily, the Commission acts upon tariff advices with the assistance of a written ex parte recommendation of the Commission Staff. The Commission acts upon tariff advices at its open meetings. (7-1-93)
