MEMORANDUM

TO: Members of the Public

FROM: Alex J. Adams, Administrator
        Dennis Stevenson, Rules Coordinator

SUBJECT: Overview of Special Edition of Idaho Administrative Bulletin

§67-5292 states that all administrative rules automatically expire on July 1 unless extended by statute. The 2019 Idaho Legislature did not reauthorize all existing administrative rules as they have traditionally done in the past. As a result, the Governor directed DFM and all state executive agencies to exercise necessary executive authority to minimize the impact on state agencies, and the public most importantly.

This special edition of the Idaho Administrative Bulletin re-publishes the state’s administrative rules as temporary and proposed rules concurrently, with an effective date of June 30, 2019. This approach ensures the state’s administrative rules will continue to have the full force and effect of law.

As this special edition is the first of its kind in Idaho’s history, the following memo provides additional context for interested members of the public.

Expiration of Rules. The administration allowed rules that were obsolete, unnecessary, or unenforceable to expire. When Governor Little took office, the state’s administrative code spanned 736 chapters; this bulletin re-publishes 595 chapters, or a 19% overall decrease. Many additional chapters were significantly simplified, allowing individual rules or subparts of rules to expire. All expired rules were vetted by their respective agencies, and boards/commissions with rulemaking authority held properly-noticed meetings to publicly vet their decisions. Last month, DFM posted the rules targeted for expiration to ensure the public had an opportunity to provide input. We are grateful for the active participation of the public in this process.

Method of Re-Publication. Rules in this bulletin are published as temporary and proposed rules concurrently in accordance with §67-5226. Following public engagement, dockets will be finalized as pending rules in November 2019 as set forth in §67-5224.
**Docket Numbering.** Each agency is publishing a single omnibus docket for its non-fee rules, and a separate omnibus docket for its fee rules. The docket numbering system for this bulleting follows:

- “Docket No. XX-0000-1900” and “Docket No. XX-0000-1900F”
  - “XX” denotes the agency’s IDAPA number
  - “0000” denotes this is an omnibus action, re-publishing multiple chapters per agency where applicable
  - In “1900,” the “19” denotes the calendar year, 2019. The “00” denotes the omnibus docket so that other ongoing agency rulemaking can bear the traditional sequential numbering.
  - “F” denotes the omnibus fee rules, as distinguished from the non-fee rules.

**Effective Dates and History Notes.** Traditionally effective dates are published for every subsection, paragraph and subparagraph of a rule. These individualized effective dates provide a rich history for legal scholars and interested members of the public to explore the broader context of each rule. This bulletin retains these important history notes while establishing the effective date for each chapter as June 30, 2019 to ensure there is no gap with the expiring rules. Where technical or minor corrections only have been made to any section, subsection, paragraph or subparagraph, the historic effective date is retained. The effective date has been changed for any section, or subpart thereof, where substantive changes have been made to identify those changes.

**Fiscal Impact and Fees.** As rules are merely being re-published, the rules published in this bulletin are expected to have no fiscal impact beyond existing Idaho law.

**Legislative Format.** Amendments to existing rules are traditionally denoted by a strike through for deletions while new text is underlined. Given the legislature’s decision to allow all rules to expire, there is no existing rule available to amend. As such, in the minority of chapters that were simplified, notations are made on the omnibus notice of rulemaking to ensure the public can quickly identify changes.

**Legislative Review of Rules.** There is no change in how pending rules are subject to legislative review. The legislature can review rules pursuant to §67-5291, as has traditionally been the case.

**•Relationship to Idaho Administrative Code.** Upon their effective date of June 30th, the temporary rules will become the official version of the Idaho Administrative Code. All current chapters can be found on the Rule Coordinator’s website: [https://adminrules.idaho.gov/rules/current/index.html](https://adminrules.idaho.gov/rules/current/index.html).

**Cumulative Rulemaking Index.** Typically, each rulemaking docket being promulgated is annotated individually in the Cumulative Index. The individual omnibus notices published in this special edition encapsulate the reauthorization of all an agency’s rules. Because this an omnibus action, a single, general entry will be made in the Index for each agency omnibus notice that is applicable to each agency rule chapter listed in the Index.

PREFACE

The Idaho Administrative Bulletin is an electronic-only, online monthly publication of the Office of the Administrative Rules Coordinator, Department of Administration, that is published pursuant to Section 67-5203, Idaho Code. The Bulletin is a compilation of all official rulemaking notices, official rule text, executive orders of the Governor, and all legislative documents affecting rules that are statutorily required to be published in the Bulletin. It may also include other rules-related documents an agency may want to make public through the Bulletin.

State agencies are required to provide public notice of all rulemaking actions and must invite public input. This is done through negotiated rulemaking procedures or after proposed rulemaking has been initiated. The public receives notice that an agency has initiated proposed rulemaking procedures through the Idaho Administrative Bulletin and a legal notice (Public Notice of Intent) that publishes in authorized newspapers throughout the state. The legal notice provides reasonable opportunity for the public to participate when a proposed rule publishes in the Bulletin. Interested parties may submit written comments to the agency or request public hearings of the agency, if none have been scheduled. Such submissions or requests must be presented to the agency within the time and manner specified in the individual “Notice of Rulemaking - Proposed Rule” for each proposed rule that is published in the Bulletin.

Once the comment period closes, the agency considers fully all comments and information submitted regarding the proposed rule. Changes may be made to the proposed rule at this stage of the rulemaking, but changes must be based on comments received and must be a “logical outgrowth” of the proposed rule. The agency may now adopt and publish the pending rule. A pending rule is “pending” legislative review for final approval. The pending rule is the agency’s final version of the rulemaking that will be forwarded to the legislature for review and final approval. Comment periods and public hearings are not provided for when the agency adopts a temporary or pending rule.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is identified by the calendar year and issue number. For example, Bulletin 18-1 refers to the first Bulletin issued in calendar year 2018; Bulletin 19-1 refers to the first Bulletin issued in calendar year 2019. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 19-1 refers to January 2019; Volume No. 19-2 refers to February 2019; and so forth. Example: The Bulletin published in January 2019 is cited as Volume 19-1. The December 2019 Bulletin is cited as Volume 19-12.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is an electronic-only publication that is a compilation of all final and enforceable administrative rules of the state of Idaho that are of full force and effect. Any temporary rule that is adopted by an agency and is of force and effect is codified into the Administrative Code upon becoming effective. All pending rules that have been approved by the legislature during the legislative session, and any temporary rules that are extended, are codified into the Administrative Code upon becoming effective. Because proposed and pending rules are not enforceable, they are published in the Administrative Bulletin only and cannot be codified into the Administrative Code until approved as final.

To determine if a particular rule remains in effect or whether any amendments have been made to the rule, refer to the Cumulative Rulemaking Index. Link to it on the Administrative Rules homepage at adminrules.idaho.gov.

THE DIFFERENT RULES PUBLISHED IN THE ADMINISTRATIVE BULLETIN

Idaho’s administrative rulemaking process, governed by the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, comprises distinct rulemaking actions: negotiated, proposed, temporary, pending and final rulemaking. Not all rulemakings incorporate or require all of these actions. At a minimum, a rulemaking includes proposed, pending and final rulemaking. Many rules are adopted as temporary rules when they meet the required statutory criteria and agencies must, when feasible, engage in negotiated rulemaking at the beginning of the process to facilitate consensus building. In the majority of cases, the process begins with proposed rulemaking and ends with the final rulemaking. The following is a brief explanation of the rulemaking process and each type of rule.
1. NEGOTIATED RULEMAKING

Negotiated rulemaking is a process in which all interested persons and the agency seek consensus on the content of a rule through dialogue. Agencies are required to conduct negotiated rulemaking whenever it is feasible to do so. The agency files a “Notice of Intent to Promulgate a Rule - Negotiated Rulemaking” for publication in the Administrative Bulletin inviting interested persons to contact the agency if interested in discussing the agency’s intentions regarding the rule changes. This process is intended to result in the formulation of a proposed rule and the initiation of regular rulemaking procedures. One result, however, may also be that regular (proposed) rulemaking is not initiated and no further action is taken by the agency.

2. PROPOSED RULEMAKING

A proposed rulemaking is an action by an agency wherein the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a “Notice of Rulemaking - Proposed Rule” in the Bulletin. This notice must include very specific information regarding the rulemaking including all relevant state or federal statutory authority occasioning the rulemaking, a non-technical description of the changes being made, any associated costs, guidance on how to participate through submission of written comments and requests for public hearings, and the text of the proposed rule in legislative format.

3. TEMPORARY RULEMAKING

Temporary rules may be adopted only when the governor finds that it is necessary for:

a) protection of the public health, safety, or welfare; or
b) compliance with deadlines in amendments to governing law or federal programs; or
c) conferring a benefit.

If a rulemaking meets one or more of these criteria, and with the Governor’s approval, the agency may adopt and make a temporary rule effective prior to receiving legislative authorization and without allowing for any public input. The law allows an agency to make a temporary rule immediately effective upon adoption. A temporary rule may not be made retroactively effective upon adoption but it may be made effective on a date other than the adoption date. The agency must specify what the effective date is in the rulemaking notice that publishes in the Bulletin. A temporary rule expires at the conclusion of the next succeeding regular legislative session unless the rule is extended by concurrent resolution, is replaced by a final rule, or expires under its own terms. Once adopted, a temporary rule must be published in the next available Bulletin.

4. PENDING RULEMAKING

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it becomes a final, enforceable rule. When a pending rule is published in the Bulletin, the agency is required to include certain information in the “Notice of Rulemaking - Pending Rule.” This includes a statement giving the reasons for adopting the rule, a statement regarding when the rule becomes effective, a description of how it differs from the proposed rule, and identification of any fees being imposed or changed.

 Agencies are required to republish the text of the pending rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule change is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule.

5. FINAL RULEMAKING

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is of full force and effect.
HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering schematic. Each state agency has a two-digit identification code number known as the “IDAPA” number. (The “IDAPA” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit “TITLE” number is assigned. There are “CHAPTER” numbers assigned within the Title and the rule text is divided among major sections that are further subdivided into subsections. An example IDAPA number is as follows:

IDAPA 38.05.01.200.02.c.ii.

“IDAPA” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

1. “38.” refers to the Idaho Department of Administration

   “05.” refers to Title 05, which is the Department of Administration’s Division of Purchasing

   “01.” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”

   “200.” refers to Major Section 200, “Content of the Invitation to Bid”

   “02.” refers to Subsection 200.02.

   “c.” refers to Subsection 200.02.c.

   “ii.” refers to Subsection 200.02.c.ii.

DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. Each rulemaking that is filed with the Coordinator is assigned a “DOCKET NUMBER.” The docket number is a series of numbers separated by a hyphen “-”, (38-0501-1401). Rulemaking dockets are published sequentially by IDAPA number (the two-digit agency code) in the Bulletin. The following example is a breakdown of a typical rule docket number:

“DOCKET NO. 38-0501-1401”

“38-” denotes the agency's IDAPA number; in this case the Department of Administration.

“0501-” refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), Rules of the Division of Purchasing (Chapter 01).

“1401” denotes the year and sequential order of the docket being published; in this case the numbers refer to the first rulemaking action published in calendar year 2014. A subsequent rulemaking on this same rule chapter in calendar year 2014 would be designated as “1402”. The docket number in this scenario would be 38-0501-1402.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

IDAPA 01 – BOARD OF ACCOUNTANCY

DOCKET NO. 01-0101-1900F

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-204(1) Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 01, rules of the Idaho State Board of Accountancy:

IDAPA 01
• 01.01.01, Idaho Accountancy Rules (Chapter 2, Title 54, Idaho Code) – all rules except Sections/Subsections 004.04, 010.08, 012, 013, 014, 015, 016, 017, and 608. In addition, minor housekeeping edits were made.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. To further illustrate, third parties rely on the accuracy of the financial information issued by a certified public or licensed public accountant. To not have these rules in place would endanger third parties that rely on financial information from licensees for transactions such as a buy-sell, business valuations which can include stock prices for publicly traded companies and loans from banks. Furthermore, without the rules, there would not be a way for an individual to be licensed as a certified public accountant in the state which would cause individuals and the economy in general as those seeking licensing would be denied the opportunity to leverage their education and talents.

Any fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The agency is a dedicated fund agency that receives no monies from the general fund. The agency relies primarily on the income from examination applications and licensing to fund operations. Without these fee rules, not only would the budget be set up for failure, it would also put the agency in peril which would create chaos in the financial markets in Idaho and abroad.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The fees included in this rulemaking involve examination and licensing, administrative and late fees for occurrences of late renewal, non-compliance with timely filing of Continuous Professional Education and non-compliance with firm registration and peer review.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Kent A. Absec, Executive Director at (208) 334-2490.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

An application will not be considered filed until the fee as required in Rule 700 and all required supporting documents have been received, including proof of identity as determined by the Board and specified on the application form, and official transcripts sent directly from the college or university to the Board office as proof that the applicant has satisfied the education requirement. (5-8-09)

02. **Authorization to Test and Notification to Schedule.** The Board will forward notification of eligibility in the form of an Authorization to Test (ATT) to NASBA’s national candidate database. The ATT is issued for the test section(s) the candidate applied. Candidates must pay the actual fees charged by the AICPA, the national candidate database, and the test delivery service provider directly to NASBA. Eligible candidates will receive a Notice to Schedule (NTS) for the CPA Examination from NASBA. The NTS is valid for six (6) months from the date issued. A candidate’s ATT lasts as long as the NTS is valid, or until the candidate tests, whichever occurs first. Credit for passing a test section of the computer-based examination is valid from the actual date of the testing event for that test section, regardless of the date the candidate actually receives notice of the passing grade. (3-16-04)

108. RETAKE AND GRANTING OF CREDIT (RULE 108).

01. Credit for Subjects After Computerization of the CPA Examination. Upon implementation of a computer-based CPA Examination, a candidate may take the required test sections individually and in any order. Credit for any test section(s) passed is valid for eighteen (18) months from the actual date the candidate took that test section(s), without having to attain a minimum score on any failed test section(s) and without regard to whether the candidate has taken other test sections, provided that:

a. Candidates must pass all four (4) test sections of the CPA Examination within a rolling eighteen-month period, which begins on the date that the first test section(s) passed is taken; (3-16-04)

b. Candidates cannot retake a failed test section(s) in the same examination window; and (3-16-04)

c. Candidates who do not pass all four (4) sections of the CPA Examination within the rolling eighteen-month period lose credit for any test section(s) passed outside the eighteen-month period and that test section(s) must be retaken. (3-16-04)

The renewal form requires the individual to provide a business address and phone number, residence address and phone number, business connection or employer, whether or not the individual’s work is subject to peer review, affidavit of good moral character, and other information as deemed necessary by the Board.

(5-8-09)

02. Non-Renewal. Individuals choosing not to renew their license must notify the Board, on the renewal form by the expiration date, of their intention. Upon such notification, the license is deemed lapsed. Individuals with lapsed licenses may not publicly display their wall certificates, use the title CPA or LPA, or provide services that are reserved to licensees.

(5-8-09)

03. Late Fee. Licenses renewed after July 1, but before August 1, are subject to the late renewal fee as prescribed in Rule 700. After August 1, any license not renewed is deemed lapsed and is subject to reinstatement pursuant to Section 54-211, Idaho Code.

There are no notice or fee requirements for practice privileges. Practice privilege holders are subject to the disciplinary authority of the Board, which they consent to by any act of practicing in this state.

(5-8-09)
02. **Internet Disclosures.** An individual entering into an engagement to provide professional services via a web site, pursuant to Idaho practice privileges, must disclose, via their web site, their principal state of licensure, license number, and address. A firm offering or rendering professional services to Idaho businesses or residents via a web site must provide, in the web site’s homepage, a means for regulators and the public to contact a responsible licensee in charge at the firm regarding complaints, questions, or regulatory compliance. Such a firm or individual consents to the disciplinary authority of the Board by the act of providing services via a web site. (5-8-09)

**304. RECIPROCAL LICENSURE (RULE 304).**

If the practice privilege standard set out in Section 54-227, Idaho Code, is not applicable, the Board will issue a license to an applicant provided that the applicant pays the application and licensure fees prescribed in Rule 700 and meets the one of the following:

01. **Interstate Reciprocity.** The requirements for a reciprocal license under Section 54-210(2), Idaho Code. Such licensees must report any investigations undertaken, or sanctions imposed, by a foreign credentialing body against the licensee’s foreign credential. Suspension or revocation of, or refusal to renew, the licensee’s foreign accounting credential by the foreign credentialing body, or conviction of a felony or any crime involving dishonesty or fraud under the laws of a foreign country may be evidence of conduct reflecting adversely upon the licensee’s fitness to retain the license and may be a basis for Board action. The Board will notify the appropriate foreign credentialing authorities of any sanctions imposed against the licensee. The Board will participate in joint investigations with foreign credentialing bodies and rely on evidence supplied by such bodies in disciplinary hearings. (4-2-03)

305. -- 399. (RESERVED)

**400. APPLICABILITY OF RULES (RULE 400).**

(4-2-03)

02. **Acceptance of Licensure.** Acceptance of practice privileges or licensure as a certified public accountant or licensed public accountant establishes an affirmative obligation by said individual to be diligent in the performance of professional services, and to be fair and honest in relations with clients, fellow practitioners and the public. (4-2-03)

03. **Rules.** These rules do not comprise all acts that may be considered incompatible with the obligations and responsibilities imposed by professional status or discreditable or harmful even though not specifically mentioned or described in the rules. The Board may revoke, suspend, refuse to renew, administratively penalize, reprimand, restrict, or place on probation a licensee, individual granted practice privileges or other individual. The action will not be taken until the individual has been given notice and opportunity for hearing. (4-2-03)

06. **Observation of Rules.** For the purposes of these rules, individuals granted practice privileges are held to the same standards and requirements set forth for licensees. (6-30-19)

07. **Interpretation of Rules.** In the interpretation and enforcement of these rules, the Board gives consideration, but not necessarily dispositive weight, to relevant interpretations, rulings and opinions issued by other states, and by appropriately authorized standard setting bodies. (6-30-19)

08. **Investigative Committee.** The Board may appoint an investigative committee of not less than three (3) members consisting of active licensees in good standing. The committee duties are to direct the review and investigation of complaints of violations of the Idaho Accountancy Act and these rules, and to provide reports to the Board. (4-2-03)

401. **COMMISSIONS AND CONTINGENT FEES (RULE 401).**

01. **Restrictions.** Licensees may accept commissions or contingent fees subject to the restrictions of Section 54-218, Idaho Code. (4-2-03)

   b. State the amount of the compensation or the basis on which it will be computed; (4-2-03)

   c. Be made at or prior to the time of the recommendation or referral of the product or service for which the commission is paid, or prior to the client retaining the licensee to whom the client has been referred for which a referral fee is paid; and (4-2-03)

   d. Be made prior to the time the licensee undertakes representation of or performance of the service upon which a contingent fee will be charged. (4-2-03)

402. **CONFIDENTIAL CLIENT INFORMATION (RULE 402).**

01. **Confidentiality.** A licensee may not voluntarily disclose any confidential client information obtained in the course of performing professional services, unless the licensee has obtained the specific consent of the client, or of such client’s heirs, successors or personal representatives, or others legally authorized to give such consent on behalf of the client. (4-2-03)

02. **Exemptions.** Nothing in these rules is construed as prohibiting the disclosure of information that is required to be disclosed:

   a. In reporting on the examination of financial statements; (4-2-03)

   b. In investigations by the Board or other accounting regulatory agency; (5-8-09)

   c. In ethical investigations conducted in private professional organizations; (4-2-03)

   d. In the course of peer reviews; (4-2-03)

   e. To other persons active in the organization performing services for that client on a need to know basis; (4-2-03)

   f. To persons in the entity who need this information for the sole purpose of assuring quality control; or (4-2-03)
g. By any act of law. 

03. Disciplinary Proceedings. Members of the Board and investigative officers may not disclose any confidential client information that comes to their attention from licensees in disciplinary proceedings or otherwise in carrying out their responsibilities, except that they may furnish such information to an investigative or disciplinary body as described in Rule 400.

403. RECORDS (RULE 403).
A licensee must furnish to his client or former client, upon request made within a reasonable time after original issuance of the document in question:

01. Tax Return. A copy of a tax return of a client provided the licensee has been paid for the services rendered; and

02. Other Document. A copy of any report, or other document, issued by the licensee to or for the client provided the licensee has been paid for the services rendered; and

03. Client Records. Any accounting or other records belonging to, or obtained from or on behalf of, the client that the licensee removed from the client’s premises or received for the client’s account. The licensee may make and retain copies of such documents when they form the basis for work performed by him. Client records must be returned upon request by the client, whether or not the engagement has been terminated or the licensee has been paid for services rendered; and

04. Working Papers Including Audit Documentation. A copy of the licensee’s working papers, to the extent that such working papers include records that would ordinarily constitute part of the client’s books and records and are not otherwise available to the client. This would include adjusting, closing, combining, or consolidating journal entries; information normally contained in books of original entry and general ledgers or subsidiary ledgers; and tax and depreciation carry forward information. When an engagement has been completed, such information should be made available to the client upon request. The information should be provided in the medium in which it is requested, provided it exists in that medium. The licensee is not required to convert information that is not in electronic format to an electronic format. The licensee may require that all fees due the licensee, including fees for the above services, be paid before such information is provided. A licensee’s working papers that do not become part of a client’s records, which may include analyses and schedules prepared by the client at the request of the licensee, are the licensee’s property, not client records, and need not be made available under any circumstances.

05. Charges. A licensee is not required to furnish records to a client or a former client more than once. A licensee may charge the client or former client actual costs for time and photocopying charges on subsequent requests. If the licensee previously provided work product to a client prior to being paid, then the licensee need not subsequently provide copies of the work product until the licensee is paid.

404. DISCREDITABLE ACTS (RULE 404).
A licensee may not commit any act that reflects adversely on his fitness to provide professional services.

405. ACTING THROUGH OTHERS (RULE 405).
A licensee may not permit others to carry out, on his behalf, either with or without compensation, acts that, if carried out by the licensee, would place the licensee in violation of the these rules.

406. FIRM NAMES (RULE 406).

01. General. A licensee may not provide professional services under a firm name that is misleading as to the description of the legal form of the firm, or as to the person or persons who are owner(s), partners, officers, shareholders or members of the firm. Names of one (1) or more past owners, partners, shareholders or members who were licensed may be included in the firm name. (4-2-03)

408. -- 499. (RESERVED)

502. EXCEPTIONS, EXTENSIONS, AND EXEMPTIONS (RULE 502).

01. **Exceptions and Extensions**. The Board may make exceptions to the CPE requirements or grant extensions of time for completion of the CPE requirements, where reasons of health as certified by a medical doctor prevent compliance by the licensee, or other good cause exists. (4-2-03)

a. Licensees asking for exceptions or extensions under these conditions must apply annually on the reporting form for the year in which the extension or exemption is sought, and within the time period set for CPE reporting, stating the reasons for asking for such exception or extension. Any licensee failing to file a timely application is subject to the late fee prescribed in Rule 700, in addition to any additional proceeding that may be instituted for violation of these rules. (6-30-19)

b. A penalty of no more than fifty percent (50%) of the hours a licensee is short in meeting the

The committee performs the following duties and is authorized to take all actions necessary to perform these duties: (4-2-03)
To evaluate reported CPE to determine whether it qualifies under the rules adopted by the Board. (4-2-03)

b. To consider applications for exceptions, extensions, and exemptions, and to assess penalties as permitted under Rule 502. (4-2-03)

c. To audit CPE reports and to consider other matters that may be assigned by the Board. (4-2-03)

02. Controls. The Board reviews the signed reporting forms submitted by licensees, which are subject to formal verification. If a licensee submits a reporting form and it is not approved, the licensee will be notified and administrative action will be taken pursuant to these rules. (6-30-19)

03. Late Fees. Until the licensee files the reporting form with supporting documentation, pays the fee for late filing as prescribed in Rule 700 and the license renewal fee, and any other penalty the Board may impose, a license will not be issued. (6-30-19)

507. REVIEW AND AUDIT OF CPE REPORTS (RULE 507).
The Board performs an initial review of CPE reports submitted by each licensee. This review determines sufficiency and basic qualification of hours reported. A formal audit of CPE reported may be performed to determine whether hours reported qualify for credit under these rules. (4-2-03)

508. NOTIFICATION (RULE 508).
The Board serves a notice of noncompliance upon the licensee if the Board determines that the licensee has not fulfilled the CPE requirement. both, are not, or may not be, in accordance with applicable professional standards, or that the firm does not comply with peer review program requirements or with all or some of the reporting, remedial action, or fee penalty requirements of this section. The Board’s actions may include, but are not limited to:

(a) The annual license of the principal(s) of a non-compliant firm will not be issued until the firm complies with all requirements of these rules, provided the licensee has met all licensing requirements; (4-11-19)

(b) Requiring the firm to develop quality control procedures to provide a reasonable assurance that similar occurrences will not occur in the future; (4-11-19)

c. Requiring any individual licensee who had responsibility for, or who substantially participated in, the engagement(s) to successfully complete specific courses or types of continuing education as specified by the Board; (4-11-19)

701. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 22-702, 22-802, 22-5404, 25-203, 25-212, 25-305, 25-401, 25-601, 37-303, 37-405, and 37-516, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 02, rules of the Department of Agriculture:

IDAPA 02
02.02.04, Idaho Standards for Grades of Apples; adds required sections 000-006
02.02.05, Prune Standards; adds required Sections 000-006
02.02.06, Idaho Standards for Grades of Sweet Cherries; adds required sections 000-006
02.02.10, Idaho Standards for Apricots; adds required sections 000-006
02.04.05, Rules Governing Manufacture Grade Milk
02.04.06, Rules Governing Licensed Dairy Plants
02.04.22, Rules Governing Animal Health Emergencies, modifies Section 010; eliminates Section 990
02.04.24, Rules Governing Tuberculosis, modifies Section 010; eliminates Sections 990 and 999.
02.05.01, Rules Governing Produce Safety

IDAHO CODE SECTION 22-101A STATEMENT: These rules do not regulate an activity not already regulated by the federal government, nor are they broader in scope or more stringent than federal regulations.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

These rules promulgated and implemented by the Idaho State Department of Agriculture (ISDA) protect commodity and livestock markets by ensuring consistent application of rules limiting the spread of pests, diseases and pathogens. ISDA rules are also designed to protect producers and consumers of agricultural products from unfair practices in the marketing, sale and promotion of agricultural commodities and products. Lastly, ISDA rules are designed to minimize environmental impacts of land use practices commonly part of agricultural production.

FEE SUMMARY: This rulemaking does not impose a fee or charge.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

03. Idaho No. 1. The requirements of this grade are the same as for “Idaho Fancy” except for color, russetting, and Invisible water core. In this grade less color is required for all varieties with the exception of the yellow and green varieties other than Golden Delicious. Apples of this grade are free from excessive damage caused by russetting, which means that apples meet the russetting requirements for “Idaho Fancy” as defined under the definitions of “damage by russetting,” except the aggregate area of an apple that may be covered by smooth net-like russetting shall not exceed twenty-five percent (25%); and the aggregate area of an apple that may be covered by smooth Solid russetting shall not exceed ten percent (10%): Provided, that in the case of the Yellow Newtown or similar varieties the aggregate area of an apple that may be covered with smooth solid this grade has the amount of color specified in Subsection 010.06 for the variety. There is no requirement in this grade pertaining to invisible water core. (See Subsections 010.06 and 010.09).

a. Idaho No. 1 Early: “Idaho No. 1 Early” consists of apples that meet the requirements of Idaho No.1 grade except as to color and maturity, and meet a minimum size requirement. Apples of this grade have no color requirements, need not be mature, grade is provided for varieties such as Duchess, Gravenstein, Red June, Twenty Ounce, Wealthy, Williams, Yellow Transparent, and Lodi, or other varieties that are normally marketed during the summer months. (See Subsection 010.09).

b. Idaho No. 1 Hail: “Idaho No. 1 Hail” consists of apples that meet the requirements of Idaho No. 1 grade except that hail marks where the skin has not been broken, and well healed hail marks where the skin has been broken, are permitted, provided the apples are fairly well formed. (See Subsections 010.06 and 010.09).

04. Idaho Utility. “Idaho Utility” consists of apples of one (1) variety that are mature but not overripe, carefully hand-picked, not seriously deformed, free from decay, internal browning, internal breakdown, scald, and freezing injury. The apples are also free from serious damage caused by dirt or other foreign matter, broken skins, bruises, russetting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, stem or calyx cracks, visible water core, disease, insects, or other means. (See Subsection 010.09).

05. Combination Grades.

a. Combinations of the above grades may be used as follows:

i. Combination Idaho Extra Fancy and Idaho Fancy;

ii. Combination Idaho Fancy and Idaho No. 1;

iii. Combination Idaho No. 1 and Idaho Utility;

b. Combinations other than these are not permitted in connection with the Idaho apple grades. When Combination grades are packed, at least fifty percent (50%) of the apples in any lot shall meet the requirements of the higher grade in the combination. (See Subsection 010.09).

06. Color Requirements.

a. In addition to the requirement specified for the grades set forth in Subsections 010.01 through 010.05, apples of these grades shall have the percentage of color specified for the variety in Table I appearing in Section 010. For the solid red varieties, the percentage stated refers to the area of the surface that must be covered with a good shade of solid red characteristic of the variety: Provided, that an apple having color of a lighter shade of solid red or striped red than that considered as a good shade of red characteristic of the variety may be admitted to a grade, provided it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of good red characteristic of the variety required for the grade. For the striped red varieties, the percentage stated refers to the area of the surface in which the stripes of a good shade of red characteristic of the
variety shall predominate over stripes of lighter red, green, or yellow. However, an apple having color of a lighter shade than that considered as a good shade of red characteristic of the variety, may be admitted to a grade, provided it has sufficient additional area covered, so that the apple has as good an appearance as one with the minimum percentage of stripes of a good red characteristic of the variety required for the grade. Faded brown stripes shall not be considered as color except in the case of the Gary Baldwin variety. (7-1-93)

b. Color standards will be determined by Official USDA Visual Aids for apples. APL-L-1 (6-30-19)

08. **Unclassified.** “Unclassified” consists of apples that have not been classified in conformity with any of the foregoing grades. The term “unclassified” is not a grade within the meaning of these standards, but is provided as a designation to show that no definite grade has been applied to the lot. (7-1-93)

09. **Tolerances.** In order to allow for variations incident to proper grading and handling in each of the foregoing grades, the following tolerances are provided as specified: (7-1-93)

(6-30-19)T
i. Idaho Extra Fancy, Idaho Fancy, Idaho No. 1, Idaho No. 1 Early and Idaho No. 1 Hail grades: Ten percent (10%) of the apples in any lot may fail to meet the requirements of the grade, but not more than one-half (1/2) of this amount, or five percent (5%), shall be allowed for apples that are seriously damaged, including therein not more than one percent (1%) for apples affected by decay or internal breakdown. (7-1-93)

ii. Idaho Utility grade: Ten percent (10%) of the apples in any lot may fail to meet the requirements of the grade, but not more than one-half (1/2) of this amount, or five percent (5%), shall be allowed for apples that are seriously damaged by insects, and including in the total tolerance not more than one percent (1%) for apples affected by decay or internal breakdown. (7-1-93)

b. When applying the foregoing tolerances to Combination grades, no part of any tolerance shall be allowed to reduce, for the lot as a whole, the fifty percent (50%) of apples of the higher grade required in the combination but individual containers shall have not less than forty percent (40%) of the higher grade. (7-1-93)

c. Size: When size is designated by the numerical count for a container, not more than five percent (5%) of the apples in the lot may vary more than one fourth (1/4) inch in diameter. When size is designated by minimum or maximum diameter, not more than five percent (5%) of the apples in any lot may be smaller than the designated minimum and not more than ten percent (10%) may be larger than the designated maximum. (7-1-93)

d. Firmness: Not more than five percent (5%) of the apples in any lot of Red Delicious and Delicious varieties shall be further advanced in maturity than “Firm ripe” as defined in Subsection 010.15. Provided, the Idaho No. 1, Idaho No. 1 Hail, and Idaho Utility grades shall be exempt from this requirement. (7-1-93)

10. Application of Tolerances. The contents of individual samples in the lot are subject to the following limitation: Provided, that the averages for the entire lot are within the tolerances specified for the grade:

a. That contain more than ten (10) pounds: Shall have not more than one and one-half (1 1/2) times a specified tolerance of ten percent (10%) or more and not more than double a tolerance of less than ten percent (10%), except that at least one (1) apple that is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any sample. (7-1-93)

b. Samples that contain ten (10) pounds or less: Not over ten percent (10%) of the sample may have more than three (3) times the tolerance specified, except that at least one (1) defective apple may be permitted in any sample: Provided, that not more than one (1) apple or more than six percent (6%) (whichever is the larger amount) may be seriously damaged by insects or affected by decay or internal breakdown. (7-1-93)

11. Calculation of Percentages. (7-1-93)

a. When the numerical count is marked on the container, percentages shall be calculated on the basis of count. (7-1-93)

b. When the minimum diameter or minimum and maximum diameters are marked on the container, percentages shall be calculated on the basis of weight. (7-1-93)

c. When the apples are in bulk, percentages shall be calculated on the basis of weight. (7-1-93)

12. Condition After Storage or Transit. Decay, scald or any other deterioration that may have developed on apples after they have been in storage or transit shall be considered as affecting condition and not the grade. (7-1-93)

13. Packing Requirements. (7-1-93)

a. Apples tray packed or cell packed in cartons shall be arranged according to approved and recognized methods. Packs shall be at least fairly tight or fairly well filled. (7-1-93)

i. “Fairly tight” means that apples are of the proper size for molds or cell compartments in which they
are packed, and that molds or cells are filled in such a way that no more than slight movement of apples within molds or cells is possible. The top layer of apples, or any pad or space filler over the top layer of apples shall be not more than three-fourths (3/4) inch below the top of the carton.

ii. “Fairly well filled” means that the net weight of apples in containers ranging from two thousand one hundred cubic inches (2,100 cu. in.) to two thousand nine hundred cubic inches (2,900 cu. in.) capacity is not less than thirty seven (37) pounds for Courtland, Gravenstein, Jonathan, McIntosh and Golden Delicious varieties and not less than forty (40) pounds for all other varieties.

b. Closed cartons containing apples not tray or cell packed shall be fairly well filled or the pack shall be sufficiently tight to prevent any appreciable movement of the apples.

c. Packs in wooden boxes or baskets shall be sufficiently tight to prevent any appreciable movement of apples within containers when the packages are closed. Each wrapped apple shall be completely enclosed by its individual wrapper.

d. Apples on the shown face of any container shall be reasonably representative in size, color and quality of the contents.

e. Tolerances: In order to allow for variations incident to proper packing, not more than ten percent (10%) of the containers in any lot may fail to meet these requirements.

14. Marking Requirements. The numerical count or the minimum diameter of the apples packed in a closed container shall be indicated on the container.

a. When the numerical count is not shown, the minimum diameter shall be plainly stamped, stenciled or otherwise marked on the container in terms of whole inches, or whole inches and not less than one eighth (1/8) inch fractions thereof.

b. The word “minimum,” or its abbreviation, when following a diameter size marking, means that the apples are of the size marked or larger. (See Subsections 010.09 and 010.10).

15. Mature. “Mature” means that the apples have reached the stage of development that will ensure the proper completion of the ripening process. Before a mature apple becomes overripe, it will show varying degrees of firmness, depending upon the stage of the ripening process. The following terms are used for describing different stages of firmness of apples:

a. “Hard” means apples with a tenacious flesh and starchy flavor.

b. “Firm” means apples with a tenacious flesh, but that are becoming crisp with a slightly starchy flavor, except the Delicious variety.

c. “Firm ripe” means apples with crisp flesh except that the flesh of the Gano, Ben Davis, and Rome Beauty varieties may be slightly mealy.

d. “Ripe” means apples with mealy flesh and soon to become soft for the variety.

16. Overripe. “Overripe” means apples that are dead ripe, with flesh very mealy or soft, and past commercial utility.

17. Carefully Hand-Picked. “Carefully hand-picked” means that the apples do not show evidence of rough handling or of having been on the ground.

18. Clean. “Clean” means that the apples are free from excessive dirt, dust, spray residue and other foreign material.

19. Fairly Well Formed. “Fairly well formed” means that the apple may be slightly abnormal in shape.
but not to an extent that detracts materially from its appearance. (7-1-93)

20. Injury. “Injury” means any specific defect defined in Subsection 010.20; or an equally objectionable variation of any one (1) of these defects, any other defect, or any combination of defects, which more than slightly detracts from the appearance, or the edible or shipping quality of the apple. The following specific defects shall be considered as injury:

a. Russetting in the stem cavity or calyx basin that cannot be seen when the apple is placed stem end or calyx end down on a flat surface, shall not be considered in determining whether or not an apple is injured by russetting. Smooth net-like russetting outside of the stem cavity or calyx basin shall be considered as injury when an aggregate area of more than ten percent (10%) of the surface is covered, and the color of the russetting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russetting when the appearance is affected to a greater extent than the above amount permitted. (7-1-93)

b. Sunburn or sprayburn, when the discolored area does not blend into the normal color of the fruit. (7-1-93)

c. Dark brown or black limb rubs that affect a total area of more than one-fourth (1/4) inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of injury by russetting. The area refers to that area of a circle of the specified diameter. (7-1-93)

The following types and amounts of russetting outside of the stem cavity or calyx basin shall be considered as damage:

i. Russetting that is excessively rough on Roxbury Russet and other similar varieties. (7-1-93)

ii. Smooth net-like russetting, when an aggregate area of more than fifteen percent (15%) of the surface is covered, and the color of the russetting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russetting when the appearance is affected to a greater extent than the above amount permitted.

iii. Smooth solid russetting, when an aggregate area of more than five percent (5%) of the surface is covered, and the pattern and color of the russetting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous solid russetting when the appearance is affected to a greater extent than the above amount permitted.

The following specific defects shall be considered as serious damage: (7-1-93)

a. The following types and amounts of russetting shall be considered as serious damage: Smooth solid russetting, when more than one-half (1/2) of the surface in the aggregate is covered, including any russetting in the stem cavity or calyx basin, or slightly rough, or excessively rough or bark-like russetting, which detracts from the appearance of the fruit to a greater extent than the amount of smooth solid russetting permitted: Provided, that any amount of russetting shall be permitted on Roxbury Russet and other similar varieties. (7-1-93)

b. Sunburn or sprayburn that seriously detracts from the appearance of the fruit. (7-1-93)

c. Limb rubs that affect more than one-tenth (1/10) of the surface in the aggregate. (7-1-93)

v. Smooth net-like russetting that does not cover an aggregate area of more than ten percent (10%) of the surface and net-like russetting on the colored portions of the apple that does not materially detract from its appearance shall not be counted in computing the ten percent (10%) mentioned above. (7-1-93)

vi. Hail marks, drought spots or other similar depressions or scars where there is no appreciable discoloration, except as later noted, other than russetting, or when any individual indentation does not exceed one-fourth (1/4) inch in diameter or the total area affected does not exceed one-fourth (1/4) inch in diameter. The milk shall not show any abnormal condition (including but not limited to curdles, ropy, bloody or mastitic condition), as indicated by sight or other test procedures. The odor shall be fresh and sweet. The milk shall be free from objectionable feed and other off-odors that would adversely affect the finished dairy product. (4-8-94)

03. Sediment Content Classification. Milk shall be classified for sediment content, regardless of the results of the appearance and odor examination described in Subsection 050.02. The USDA Sediment Standard is as follows. (4-8-94)

No milk for manufacturing purposes produced on an uncertified Dairy Farm shall be bought or sold for human consumption. (4-8-94)

01. **Initial Inspection.** Certified Dairy Farms shall be inspected at least annually after initial certification to determine eligibility for recertification. The inspection criteria for recertification shall be the same as that for initial certification. (4-11-15)

02. **Inspection.** Each Dairy Farm shall be inspected by an Inspector or Approved Fieldman. When evidence indicates that it is advisable to do so, the Department may require an examination of the herd by a licensed veterinarian. If the Dairy Farm meets the applicable requirements for Dairy Farm certification described in Section 150, as indicated by the Farm Certification Report Form, the Dairy Farm shall be certified as described in Subsection 160.03. If the Dairy Farm does not meet the requirements for certification, the Dairy Farm shall be reinspected within thirty (30) days after the initial inspection. If the Dairy Farm does not meet the requirements for certification, the Dairy Farm shall not be certified, and the Producer’s authorization to sell milk for human consumption from that Dairy Farm shall be withheld by the Department until such time as the Dairy Farm qualifies for certification. Repeat violations on any item may cause a Dairy Farm to lose certification. (4-11-15)

03. **Certification.** An Inspector or Approved Fieldman shall certify Dairy Farms that meet the requirements of Section 150, as applicable, based upon the inspection criteria described in Subsection 160.02. Dairy Farm certification shall authorize the sale from that Dairy Farm of milk for manufacturing purposes that meets the quality standards. (4-11-15)

04. **Probationary Period.** If at any time an Inspector or Approved Fieldman determines that a certified Dairy Farm does not meet the requirements for certification, the Department may allow a reasonable probationary period for the Producer to bring the Dairy Farm within the requirements for certification. If at the end of this time the Dairy Farm does not meet the requirements for certification, the Department may revoke the Dairy Farm certification. (4-11-15)

05. **Reinstatement.** If, after a period of withholding, probation, or revocation of Dairy Farm certification, a Producer makes the necessary corrections at the Dairy Farm, the Producer may apply for reinspection. When conditions have been corrected, the Dairy Farm shall be reinspected by an inspector or Approved Fieldman. When the Inspector or Approved Fieldman determines that requirements for certification have been met, the Dairy Farm shall be certified. (4-11-15)

501. **STANDARDS FOR WHEY BUTTER.**

01. **Basis for Determining the Acceptability of Whey Butter.** The acceptability of whey butter is determined on the basis of classifying first the flavor characteristics and then the characteristics in body, color and salt. Flavor is the basic quality factor in grading whey butter and is determined organoleptically by taste and smell. The flavor characteristic is identified and together with it relative intensity, is rated according to the applicable classification. When more than one flavor characteristic is discernible in a sample of whey butter, the flavor classification of the sample shall be established on the basis of the flavor that carries the lowest rating. Body, color and salt characteristics are then noted and any defects are disregarded in accordance with the established classification. Acceptability for the sample is then established in accordance with the flavor classification, subject to disregarding for body, color and salt. When the disratings for body, color and salt exceed the permitted amount or if the flavor is not acceptable, the whey butter will not be allowed to be sold or distributed within the state of Idaho unless the packages are labeled as provided. (7-1-93)

02. **Specifications for Acceptability of Whey Butter.** Whey butter shall be free of foreign materials and visible mold. It shall possess a fine and highly pleasing whey butter flavor. May possess any of the following flavors to a slight degree: flat, malty, musty, neutralized, scorched, utensil, stale, and woody. May possess the following flavors to a definite degree: cooked, aged, bitter, coarse-acid, smothered, storage and old cream. May possess feed flavor to a pronounced degree. The permitted total disratings in body, color and salt characteristics are limited to one and one-half (1 1/2). (7-1-93)

03. **Whey Butter Label Requirements.** It is hereby declared to be unlawful to sell or offer for sale any whey butter within the state of Idaho unless the wrappers and containers in which said butter is packaged are conspicuously labeled as herein provided: (7-1-93)

   a. The name of the product shall be whey butter or whey cream butter or “Butter made from whey cream.” (7-1-93)

   b. The name of the product shall be placed on the principal display panel(s) and shall be of uniform type and prominence. (7-1-93)

   c. The manufacturer identification number shall be conspicuously placed on each wrapper and container of whey butter. (7-1-93)

   d. Labels of whey butter sold or distributed within Idaho shall be approved by the Department. (4-11-15)

04. **Quality Standards.** The following quality standards must be met:

   a. Coliform Standard. Compliance with the coliform standard shall be deemed to have been met if the coliform count does not exceed ten (10) colonies per gram in two (2) of the last four (4) consecutive samples. (4-11-15)

   b. Bacteria Standard. Compliance with the bacteria standard shall be deemed to have been met if the bacteria count per gram does not exceed twenty thousand (20,000) bacteria per gram in two (2) of the last four (4) consecutive samples. Whenever the whey butter is cultured, the bacteria test using the standard plate count or equivalent method would not be applicable. (4-11-15)

   c. Frequency of Tests. During any consecutive six (6) months, at least four (4) samples of whey butter shall be collected and tested. If the test or tests exceed the coliform or bacteria limit three (3) out of five (5) consecutive tests, the Butter cannot be sold for human consumption. For the whey butter to be eligible for human consumption, a subsequent sample must meet the quality standards. (4-11-15)

05. **Enforcement.** Whey butter which fails to meet flavor or body, color and salt requirements as defined in Section 500 may be sold or distributed within the state of Idaho, provided the word, “undergrade” is placed on the principal display panel(s) immediately preceding or following the product name and is of uniform type size and prominence. (7-1-93)
b. Definite: Detectable but not intense. (7-1-93)
c. Pronounced: Readily detectable and intense. (7-1-93)

f. Coarse-acid: Lacks a delicate flavor or aroma and is associated with an acid condition but there is no indication of sourness. (7-1-93)
g. Cooked (fine): Smooth, nutty-like character resembling a custard flavor. (7-1-93)
h. Feed: Aromatic flavor characteristic of feeds eaten by cows. (7-1-93)
i. Flat: Lacks natural butter flavor. (7-1-93)

l. Neutralizer: Suggestive of a bicarbonate of soda flavor or the flavor of similar compounds. (7-1-93)
m. Old Cream: Aged cream characterized by lack of freshness and imparts a rough aftertaste on the tongue. (7-1-93)
n. Scorched: A more intensified flavor than cooked (coarse) and imparts a harsh aftertaste. (7-1-93)
o. Sour: Characterized by an acid flavor and aroma. (7-1-93)

r. Utensil: A flavor suggestive of unclean cans, utensils and equipment. (7-1-93)
s. Weed: Aromatic flavor characteristic of the weeds eaten by cows. (7-1-93)

09. With Respect to Body:

a. Crumbly: When a “crumbly” body is present the particles lack cohesion. The intensity is described as “slight” when the trier plug tends to break and the butter lacks plasticity; and “definite” when the butter breaks roughly or crumbles. (7-1-93)
b. Gummy: Gummy-bodied-butter does not melt readily and is inclined to stick to the roof of the mouth. The intensity is described as “slight” when the butter tends to become chewy and “definite” when it imparts a gum-like impression in the mouth. (7-1-93)
c. Leaky: A “leaky” body is present when on visual examination there are beads of moisture on the surface of the trier plug and on the back of the trier or when slight pressure is applied to the butter on the trier plug. The intensity is described as “slight” when the droplets or beads of moisture are barely visible and about the size of a pinhead; “definite” when the moisture drops are somewhat larger or the droplets are more numerous and tend to run together; and “pronounced” when the leaky condition is so evident that drops of water drip from the trier plug. (7-1-93)
d. Mealy or grainy: A “mealy” or “grainy” condition imparts a granular consistency when the butter is
melted on the tongue. The intensity is described as “slight” when the mealiness or graininess is barely detectable on the tongue and “definite” when the mealiness or graininess is readily detectable. (7-1-93)

e. Ragged boring: A “ragged boring” body, in contrast to solid boring, is when a sticky-crumby condition is presented to such a degree that a full trier of butter cannot be drawn. The intensity is described as “slight” when there is a considerable adherence “definite” when it is practically impossible to draw a full plug of the butter. (7-1-93)

f. Short: The texture is short-grained, lacks plasticity and tends toward brittleness. The intensity is described as “slight” when the butter lacks pliability and tends to be brittle; and “definite” when sharp and distinct breaks form as pressure is applied against the plug. (7-1-93)

g. Sticky: When a “sticky” condition is present, the butter adheres to the trier as a smear and possesses excessive adhesion. The intensity is described as “slight” when the smear is present only on a portion of the back of the trier and “definite” when the trier becomes smeary throughout its length. (7-1-93)

h. Weak: A “weak” body lacks firmness and tends to be spongy. The intensity is described as “slight” when the plug of butter, under slight pressure, tends to depress and is not firm and compact; and “definite” when the plug of butter, under slight pressure, tends to depress easily and definitely lacks firmness and compactness. (7-1-93)

10. With Respect to Color:

a. Mottled: “Mottles” appear as a dappled condition with spots of lighter and deeper shades of yellow. The intensity is described as “slight” when the small spots of different shades of yellow, irregular in shape, are barely discernible on the plug of butter and “definite” when the mottles are readily discernible on the plug of butter. (7-1-93)

b. Specks: “Specks” usually appear in butter as small white or yellow spots, however, the latter may be of variable size. The intensity is described as “slight” when the spots are few in number and “definite” when they are noticeable in large numbers. (7-1-93)

c. Streaked: “Streaked” color appears as light colored portions surrounded by more highly colored portions. The intensity is described as “slight” when only a few are present and “definite” when they are more numerous on the trier plug. (7-1-93)

d. Wavy: “Wavy” color in butter is unevenness in the color that appears as waves of different shades of yellow. The intensity is described as “slight” when the waves are barely discernible and “definite” when they are readily noticeable on the trier plug. (4-11-15)

11. With Respect to Salt:

a. Sharp: “Sharp” salt is characterized by taste sensations suggestive of salt. The intensity is described as “slight” when the salt taste predominates in flavor; and “definite” when the salt taste distinctly predominates in flavor. (7-1-93)

b. Gritty: A “gritty” salt condition is detected by the gritty feel of the grains of undissolved salt, imparting a sand-like feeling on the tongue. The intensity is described as “slight” when only a few grains of undissolved salt are detected and “definite” when the condition is more readily noticeable. (7-1-93)

01. **FDA.** The U.S. Food and Drug Administration. (4-11-19)

012. VARIANCE.

01. **Procedure for Seeking a Variance.** Under the Produce Safety Rule, only a State, tribe, or a foreign country may request a variance from the Produce Safety Rule’s requirements by submitting a petition to the FDA in accordance with Subpart P of the Produce Safety Rule and with 21 CFR 10.30. Pursuant to 22-5404, Idaho Code, the Idaho Legislature designated the Department to administer the Produce Safety Rule, which includes the authority to decide whether to submit petitions to the FDA. The Department will submit a petition to the FDA if the following procedures are followed:

a. The petitioner must prepare the petition in accordance with the requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30. Additionally, the petitioner must attach all required documentation and any other supporting documentation. The petitioner must submit the petition and all attached documents to the Department via the Department’s food safety email at fsma@isda.idaho.gov or mailed to the Department at the mailing address above or hand delivered to the Department at the physical address above. (4-11-19)

i. If, after reviewing the petition, the Department determines that the petition meets the requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30, the Department will submit the petition to the FDA within ten (10) days of that determination. (4-11-19)

ii. If, after reviewing the petition, the Department determines that the petition does not meet the requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30, the Department will notify the petitioner and return the petition for correction. After correcting the deficiencies, the petitioner must resubmit the petition to the Department. Within thirty (30) days, the Department will complete an additional review of the petition to determine if the petition meets the requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30. (4-11-19)

iii. If, after reviewing the petition, the Department determines that the petition meets the requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30, the Department will submit the petition to the FDA within ten (10) days of that determination. If, after reviewing the petition, the Department determines that the petition still does not meet the requirements of Subpart P of the Produce Safety Rule and 21 CFR 10.30, the Department will follow the procedure in Subparagraph 012.01.b.ii. (4-11-19)

02. **Support and Withdrawal of Petitions.** (4-11-19)

a. When the Department submits a petition to the FDA, the petitioner who prepared the petition, or an individual, business, group, association, or entity that supports the petition, shall assist the Department in responding to inquiries or directions from the FDA regarding the petition. If neither the petitioner nor an individual, business, group, association, or entity that supports the petition provides this assistance to the Department within thirty (30) days, the Department may withdraw the petition. (4-11-19)

b. If the FDA takes action to modify or revoke a variance previously granted to the Department, the Department may waive the opportunity for a hearing unless a petitioner or an interested person adequately supports the Department in defending the variance in whole or in part from modification or revocation by FDA. (4-11-19)

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 22-103(21), 22-112, and 22-1103, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 02, rules of the Idaho State Department of Agriculture:

IDAPA 02
02.01.02, Idaho Department of Agriculture Interest Charge Rules, adds required Sections 000-006
02.01.04, Rules Governing the Idaho Preferred® Promotion Program, modifies Section 010
02.01.05, Rules Governing Certificates of Free Sale
02.06.33, Organic Food Products Rules, eliminates Section 400; modifies Section 010

IDAHO CODE SECTION 22-101A STATEMENT: These rules do not regulate an activity not already regulated by the federal government, nor is it broader in scope or more stringent than federal regulations.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. See table below for agency specific findings.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. See table below for agency specific fee summaries.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

Rules promulgated and implemented by the Idaho State Department of Agriculture (ISDA) protect commodity and livestock markets by ensuring consistent application of rules limiting the spread of pests, diseases and pathogens. ISDA rules are also designed to protect producers and consumers of agricultural products from unfair practices in the marketing, sale and promotion of agricultural commodities and products. Lastly, ISDA rules are designed to minimize environmental impacts of land use practices commonly part of agricultural production.

FEE SUMMARY: This rulemaking does not impose a fee or charge.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year:

This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

 Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. IDAHO CODE SECTION 22-101A STATEMENT: These rules are either broader in scope or more stringent than federal law or regulations, or regulate an activity not regulated by the federal government.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. See table below for agency specific findings.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fee(s) or charge(s) reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. See table below for agency specific fee summaries.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.

### FISCAL IMPACT:

The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year:

This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

### NEGOTIATED RULEMAKING:

Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

012. GRADES AND STANDARDS.
01. Classifications. The following standards, grades and weight classifications are hereby established and adopted. (7-1-93)

a. Except as otherwise provided in this subsection, all shell eggs sold for human consumption in the State of Idaho must be designated as one (1) of the following grades: “Idaho Consumer Grade AA,” “Idaho Consumer Grade A,” “Idaho Consumer Grade B.” (7-1-93)

b. An Idaho producer of shell eggs may sell shell eggs produced on his premises in Idaho directly to consumers at the place of production of the eggs, without grade designations. (7-1-93)

c. Idaho shell egg producers having three hundred (300) or less hens may sell ungraded shell eggs produced upon their premises to retailers, provided that each carton or other container of ungraded shell eggs sold must be clearly marked “Ungraded” and bear the name and address of the Idaho producer. (7-1-93)

02. Standards. The following standards for individual shell eggs are used in determining the Idaho consumer grade designation applicable thereto. (7-1-93)
03. Application. The Idaho standards for quality of individual shell eggs contained in this section are applicable only to eggs that are the product of the domesticated chicken hen and are in the shell. (7-1-93)

04. Interior Egg Quality Specifications. Interior egg quality specifications for these standards are based on the apparent condition of the interior contents of the egg as it is twirled before the candling light. Any type or make of candling light may be used that will enable the particular grader to make consistently accurate determinations of the interior quality of shell eggs. It is desirable to break out an occasional egg and by determining the Haugh unit value of the broken-out egg, compare the broken-out and candled appearance, thereby aiding in correlating candled and broken-out appearance. (7-1-93)

05. AA Quality. The shell must be clean, unbroken and practically normal. The air cell must not exceed one-eighth (1/8) inch in depth, may show unlimited movement and may be free or bubbly. The white must be clear and firm so that the yolk is only slightly defined when the egg is twirled before the candling light. The yolk must be practically free from apparent defects. (7-1-93)

06. A Quality. The shell must be clean, unbroken and practically normal. The air cell must not exceed three-sixteenths (3/16) inch in depth, may show unlimited movement and may be free or bubbly. The white must be clear and at least reasonably firm so that the yolk outline is only fairly well defined when the egg is twirled before the candling light. The yolk must be practically free from apparent defects. (7-1-93)

07. B Quality. The shell must be unbroken, may be abnormal, and may have slightly stained areas. Moderately stained areas are permitted if they do not cover more than one thirty-second (1/32) of the shell surface if localized, or one-sixteenth (1/16) of the shell surface if scattered. Eggs having shells with prominent stains or adhering dirt are not permitted. The air cell may be over three-sixteenths (3/16) inch in depth, may show unlimited movement, and may be free or bubbly. The white may be weak and watery so that the yolk outline is plainly visible when the egg is twirled before the candling light. The yolk may appear dark, enlarged and flattened and may show clearly visible germ development but no blood due to such development. It may show other serious defects that do not render the egg inedible. Small blood spots or meat spots (aggregating not more than one-eighth (1/8) inch in diameter) may be present. (7-1-93)

08. Dirty. An individual egg that has an unbroken shell with adhering dirt or foreign material, prominent stains or moderate stains covering more than one thirty-second (1/32) of the shell surface if localized, or one-sixteenth (1/16) of the shell surface if scattered. Eggs having shells with prominent stains or adhering dirt are not permitted. The air cell may be over three-sixteenths (3/16) inch in depth, may show unlimited movement, and may be free or bubbly. The white may be weak and watery so that the yolk outline is plainly visible when the egg is twirled before the candling light. The yolk may appear dark, enlarged and flattened and may show clearly visible germ development but no blood due to such development. It may show other serious defects that do not render the egg inedible. Small blood spots or meat spots (aggregating not more than one-eighth (1/8) inch in diameter) may be present. (7-1-93)

09. Check. An individual egg that has a broken shell or crack in the shell but with its shell membranes intact and its contents do not leak. A “check” is considered to be lower in quality than a “dirty.” (7-1-93)

013. -- 049. (RESERVED)

050. TERMS DESCRIPTIVE OF SHELL.

01. Clean. A shell that is free from foreign material and from stains or discolorations that are readily visible. An egg may be considered clean if it has only very small specks, stains or cage marks if such specks, stains or cage marks are not of sufficient number or intensity to detract from the generally clean appearance of the egg. Eggs that show traces of processing oil on the shell are considered clean unless otherwise soiled. (7-1-93)

02. Dirty. A shell that is unbroken and that has dirt or foreign material adhering to its surface, that has prominent stains, or moderate stains covering more than one thirty-second (1/32) of the shell surface if localized or one-sixteenth (1/16) of the shell surface if scattered. (7-1-93)

03. Practically Normal (AA or A Quality). A shell that approximates the usual shape and that is sound and is free from thin spots. Ridges and rough areas that do not materially affect the shape and strength of the shell are permitted. (7-1-93)

04. Abnormal (B Quality). A shell that may be somewhat unusual or decidedly or that may show pronounced ridges or thin spots. (7-1-93)
100. TERMS DESCRIPTIVE OF THE AIR CELL.

01. Depth of Air Cell. The depth of the air cell (air space between shell membranes, normally in the large end of the egg) is the distance from its top to its bottom when the egg is held air cell upward. (7-1-93)

02. Free Air Cell. An air cell that moves freely toward the uppermost point in the egg as the egg is rotated slowly. (7-1-93)

03. Bubbly Air Cell. A ruptured air cell resulting in one (1) or more small separate air bubbles usually floating beneath the main air cell. (7-1-93)

101. -- 149. (RESERVED)

150. TERMS DESCRIPTIVE OF THE WHITE.

01. Clear. A white that is free from discolorations or from any foreign bodies floating in it. (Prominent chalazas should not be confused with foreign bodies such as spots or blood clots). (7-1-93)

02. Firm (AA Quality). A white that is sufficiently thick or viscous to prevent the yolk outline from being more than slightly defined or indistinctly indicated when the egg is twirled. With respect to a broken-out egg, a firm white has a Haugh unit value of seventy-two (72) or higher when measured at a temperature between forty-five (45) Degrees F and sixty (60) Degrees F. (7-1-93)

03. Reasonably Firm (A Quality). A white that is somewhat less thick or viscous than a firm white. A reasonably firm white permits the yolk to approach the shell more closely that results in a fairly well defined yolk outline when the egg is twirled. With respect to a broken-out egg, a reasonably firm white has a Haugh unit value of sixty (60) to seventy-two (72) when measured at a temperature between forty-five (45) Degrees F and sixty (60) Degrees F. (7-1-93)

04. Weak and Watery (B Quality). A white that is weak, thin and generally lacking in viscosity. A weak and watery white permits the yolk to approach the shell closely, thus causing the yolk outline to appear plainly visible and dark when the egg is twirled. With respect to a broken-out egg, a weak and watery white has a Haugh unit value lower than sixty (60) when measured at a temperature between forty-five (45) Degrees F and sixty (60) Degrees F. (7-1-93)

05. Blood Spots or Meat Spots. Small blood spots or meat spots (aggregating not more than one-eighth (1/8) inch in diameter), may be classified as “B” quality. If larger, or showing diffusion of blood into the white surrounding a blood spot, the egg must be classified as Loss. Blood spots must not be due to germ development. They may be on the yolk or in the white. Meat spots may be blood spots that have lost their characteristic red color or tissue from the reproductive organs. (7-1-93)

06. Bloody White. An egg that has blood diffused through the white. Eggs with bloody whites are classed as Loss. Eggs with blood spots that show a slight diffusion into the white around the localized spot are not to be classified as bloody whites. (7-1-93)

151. -- 199. (RESERVED)

200. TERMS DESCRIPTIVE OF THE YOLK.

01. Outline Slightly Defined (AA Quality). A yolk outline that is indistinctly indicated and appears to blend into the surrounding white as the egg is twirled (7-1-93)

02. Outline Fairly Well Defined (A Quality). A yolk outline that is discernible but not clearly outlined as the egg is twirled. (7-1-93)
03. **Outline Plainly Visible (B Quality).** A yolk outline that is clearly visible as a dark shadow when the egg is twirled. *(7-1-93)*

04. **Enlarged and Flattened (B Quality).** A yolk in which the yolk membranes and tissues have weakened and moisture has been absorbed from the white to such an extent that it appears definitely enlarged and flat. *(7-1-93)*

05. **Practically Free From Defects (AA or A Quality).** A yolk that shows no germ development but may show other very slight defects on its surface. *(7-1-93)*

06. **Serious Defects (B Quality).** A yolk that shows well developed spots or areas and other serious defects, such as olive yolks, that do not render the egg inedible. *(7-1-93)*

07. **Clearly Visible Germ Development (B Quality).** A development of the germ spot on the yolk of a fertile egg that has progressed to a point where it is plainly visible as a definite circular area or spot with no blood in evidence. *(7-1-93)*

08. **Blood Due to Germ Development.** Blood caused by development of the germ in a fertile egg to the point where it is visible as definite lines or as a blood ring. Such an egg is classified as inedible. *(7-1-93)*

201. -- 249. (RESERVED)

250. **GENERAL TERMS.**

01. **Loss.** An egg that is inedible, cooked, frozen, contaminated, or containing bloody whites, large blood spots, large unsightly meat spots, or other foreign material. *(7-1-93)*

02. **Inedible Eggs.** Eggs of the following description are classed as inedible: black rots, yellow rots, white rots, mixed rots (addled eggs), sour eggs, eggs with green whites, eggs with stuck yolks, moldy eggs, musty eggs, eggs showing blood rings, eggs containing embryo chicks (at or beyond the blood ring state), and any eggs that are adulterated as such term is defined pursuant to the Federal Food, Drug and Cosmetic Act. *(7-1-93)*

03. **Leaker.** An individual egg that has a crack or break in the shell and shell membranes to the extent that the egg contents are exuding or free to exude through the shell. *(7-1-93)*

251. -- 299. (RESERVED)

300. **CONSUMER GRADES FOR SHELL EGGS - GENERAL.**

01. **Applicability.** The consumer grade designations established by this act are applicable to edible shell eggs in “lot” quantities rather than on an “individual” egg basis. These standards to the term “case” means thirty (30) dozen egg cases as used in commercial practices in the United States. *(7-1-93)*

02. **Substitution.** Substitution of higher qualities for the lower qualities specified is permitted. *(7-1-93)*

03. **No Grade.** “No Grade” means eggs of possible edible quality that fail to meet the requirements of an Idaho Consumer Grade or that have been contaminated by smoke, chemicals or other foreign material that has seriously affected the character, appearance or flavor of the eggs. *(7-1-93)*

301. -- 349. (RESERVED)

350. **GRADE STANDARDS - TOLERANCES.**

01. **Grade AA (At Origin).** Idaho Consumer Grade AA (at origin) consist of eggs that are at least eighty-seven percent (87%) AA quality. The maximum tolerance of thirteen percent (13%) that may be below AA quality may consist of A or B quality in any combination, except that within the tolerance of B quality not more than one percent (1%) may be B quality due to air cells over three-eighths (3/8) inch, blood spots (aggregating not more

500. **EGG PRODUCTS AND BREAKING OPERATIONS.**
Anyone engaged in a breaking operation for the production of egg products may obtain a copy of the Federal “Regulations Governing Voluntary Inspection of Egg Products and Grading” (7 CFR Part 55) from the United States Department of Agriculture, AMS, Poultry Division, Washington, DC 20250, Revised May 1, 1991. This is a federally mandated program. The Department of Agriculture has entered into a cooperative agreement with the United States Department of Agriculture (USDA) to provide constant monitoring of these operations. The application of this rule applies to packages and to commodities in package form, but does not apply to: (7-1-93)

01. Inner Wrappings. Inner wrappings not intended to be individually sold to the customer. (7-1-93)

02. Shipping Containers. Shipping containers or wrapping used solely for the transportation of any commodities in bulk or in quantity to manufacturers, packers, or processors, or to wholesale or retail distributors, but in no event shall this exclusion apply to packages of consumer or non-consumer commodities, as defined herein. (7-1-93)

03. Auxiliary Containers. Auxiliary containers or outer wrappings used to deliver packages of such commodities to retail customers if such containers or wrappings bear no printed matter pertaining to any particular commodity. (7-1-93)

04. Retail Display Containers. Containers used for retail tray pack displays when the container itself is not intended to be sold (e.g., the tray that is used to display individual envelopes of seasonings, gravies, etc., and the tray itself is not intended to be sold). (7-1-93)

05. Unpackaged Commodities. Commodities put up in variable weights and sizes for sale intact and intended to be either weighed or measured at the time of sale, where no package quantities are represented, and where the method of sale is clearly indicated in close proximity to the quantity being sold. (7-1-93)

06. Open Carriers. Open carriers and transparent wrappers or carriers for containers when the wrappers or carriers do not bear any written, printed, or graphic matter obscuring the label information required by this rule. (7-1-93)

03. Non-consumer Package. See Section 71-108(11), Idaho Code, of Idaho Weights and Measures Law. (7-1-93)

04. Random Package. The term “random package” means a package that is one (1) of a lot, shipment, or delivery of packages of the same consumer commodity with varying weights; that is, packages of the same consumer commodity with no fixed pattern of weight. (7-1-93)

05. Label. The term “label” means any written, printed, or graphic matter affixed to, applied to, attached to, blown into, formed, molded into, embossed on, or appearing upon or adjacent to a consumer commodity or a package containing any consumer commodity, for purposes of branding, identifying, or giving any information with respect to the commodity or to the contents of the package, except an inspector’s tag or other non-promotional matter affixed to or appearing upon a consumer commodity shall not be deemed to be a label requiring the repetition of label information required by this rule. (7-1-93)

06. Package. The term “package” means any commodity put up or packaged in any manner in advance of sale in units suitable for either wholesale or retail sale. (7-1-93)

07. Person. See Section 71-108(1), Idaho Code, of Idaho Weights and Measures Law. (7-1-93)

08. Principal Display Panel or Panels. The term “principal display panel or panels” means that part, or those parts, of a label that is, or are, so designed as to most likely be displayed, presented, shown, or examined
under normal and customary conditions of display and purchase. Wherever a principal display panel appears more than once on a package, all requirements pertaining to the "principal display panel" shall pertain to all such "principal display panels."

09. Multi-Unit Package. The term “multi-unit package” means a package containing two (2) or more individual packages of the same commodity, in the same quantity, with the individual packages intended to be sold as part of the multi-unit package but capable of being individually sold in full compliance with all requirements of this rule.

10. Sale from Bulk. The term “sale from bulk” means the sale of commodities when the quantity is determined at the time of sale.

170. IDENTITY.

01. Declaration of Identity -- Consumer Package. A declaration of identity on a consumer package shall appear on the principal display panel, and shall positively identify the commodity in the package by its common or usual name, description, generic term, or the like.

02. Parallel Identity Declaration -- Consumer Package. A declaration of identity on a consumer package shall appear generally parallel to the base on which the package rests as it is designed to be displayed.

03. Declaration of Identity -- Non-Consumer Package. A declaration of identity on a non-consumer package shall appear on the outside of a package and positively identify the commodity in the package by its common or usual name, description, generic term, or the like.

04. Declaration of Responsibility -- Consumer and Non-Consumer Packages.

a. Any package kept, offered, or exposed for sale, or sold, at any place other than on the premises where packed shall specify conspicuously on the label of the package the name and address of the manufacturer, packer, or distributor. The name shall be the actual corporate name, or, when not incorporated, the name under which the business is conducted. The address shall include street address, city, state, and zip code; however, the street address may be omitted if this is shown in a current city directory or telephone directory. The requirement for inclusion of the zip code shall apply only to labels that have been developed or revised after July 1, 1970.

b. If a person manufactures, packs, or distributes a commodity at a place other than his principal place of business, the label may state the principal place of business in lieu of the actual place where the commodity was manufactured or packed or is to be distributed, unless such statement would be misleading. Where the commodity is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase that reveals the connection such person has with such commodity, such as “Manufactured for and packed by,” “Distributed by,” or any other wording of similar import that expresses the facts.

171. DECLARATION OF QUANTITY -- CONSUMER PACKAGES.

01. Largest Whole Unit. Where this rule requires that the quantity declaration be in terms of the largest whole unit, the declaration shall, with respect to a particular package, be in terms of the largest whole unit of weight or measure, with any remainder expressed in:

a. Common or decimal fractions of such largest whole unit; or

b. The next smaller whole unit, or units, with any further remainder in terms of common or decimal fractions of the smallest unit present in the quantity declaration.

02. Net Quantity. A declaration of net quantity of the commodity in the package, exclusive of wrappers and any other material packed with such commodity, shall appear on the principal display panel of a
consumer package and, unless otherwise specified in this rule (see Subsections 171.06 through 171.08) shall be in terms of the largest whole unit. (7-1-93)

03. **Use of “Net Weight.”** The term “net weight” shall be used in conjunction with the declaration of quantity in terms of weight; the term may either precede or follow the declaration of weight. (7-1-93)

04. **Lines of Print or Type.** A declaration of quantity may appear on one (1) or more lines of print or type. (7-1-93)

05. **Terms -- Weight, Liquid Measures, or Count.** The declaration of the quantity of a particular commodity shall be expressed in terms of liquid measure if the commodity is liquid, or in terms of weight if the commodity is solid, semisolid, viscous, or a mixture of solid and liquid, or in terms of numerical count. However, if there exists a firmly established general consumer usage and trade custom with respect to the terms used in expressing a declaration of quantity of a particular commodity, such declaration of quantity may be expressed in its traditional terms, if such traditional declaration gives accurate and adequate information as to the quantity of the commodity. (7-1-93)

06. **Combination Declaration.** (7-1-93)

a. A declaration of quantity in terms of weight shall be combined with appropriate declarations of the measure, count, and size of the individual units unless a declaration of weight alone is fully informative. (7-1-93)

b. A declaration of quantity in terms of measure shall be combined with appropriate declarations of the weight, count, and size of the individual units unless a declaration of measure alone is fully informative. (7-1-93)

c. A declaration of quantity in terms of count shall be combined with appropriate declarations of the weight, measure, and size of the individual units unless a declaration of count alone is fully informative. (7-1-93)

07. **Units -- Weight, Measure.** A declaration of quantity shall be as follows, however provided that in the case of a commodity packed for export shipment, the declaration of quantity may be in terms of the metric system of weight or measure. (7-1-93)

a. In units of weight shall be in terms of the avoirdupois pound or ounce; (7-1-93)

b. In units of liquid measure shall be in terms of the United States gallon of two hundred thirty-one (231) cubic inches or liquid-quart, liquid-pint, or fluid-ounce subdivisions of the gallon, and shall express the volume at sixty-eight degrees (68 Degrees F), twenty degrees (20 Degrees C), except in the case of petroleum products, for which the declaration shall express the volume at sixty degrees (60 Degrees F), fifteen point six degrees (15.6 Degrees C), and except also in the case of a commodity that is normally sold and consumed while frozen, for which the declaration shall express the volume at the frozen temperature, and except also in the case of a commodity that is normally sold in the refrigerated state, for which the declaration shall express the volume at forty degrees (40 Degrees F), four degrees (4 Degrees C); (7-1-93)

c. In units of linear measure shall be in terms of the yard, foot, or inch; (7-1-93)

d. In units of area measure, shall be in terms of the square yard, square foot, or square inch; (7-1-93)

e. In units of dry measure shall be in terms of the United States bushel of two thousand one hundred fifty point forty-two (2,150.42) cubic inches, or peck, dry-quart, and dry-pint subdivisions of the bushel; (7-1-93)

f. In units of cubic measure shall be in terms of the cubic yard, cubic foot, or cubic inch. (7-1-93)

08. **Abbreviations.** Any of the following abbreviations, and none other, may be employed in the quantity statement on a package of commodity. (There normally are no periods following, nor plural forms of, these abbreviations. For example, “oz” is the abbreviation for both “ounce” and “ounces.”)

- avoirdupois - avdp
- quart - qt
09. **Units with Two or More Meanings.** When the term “ounce” is employed in a declaration of liquid quantity, the declaration shall identify the particular meaning of the term by the use of the term “fluid”; however, such distinction may be omitted when, by association of terms (for example, as in “one (1) pint four (4) ounces”), the proper meaning is obvious. Whenever the declaration of quantity is in terms of the dry pint or dry quart, the declaration shall include the word “dry.”

(7-1-93)

172. **PRESCRIBED UNITS.**

01. **Less Than One Foot, One Square Foot, One Pound, or One Pint.** The declaration of quantity shall be expressed as follows, provided, that the quantity declaration appearing on a random package may be expressed in terms of decimal fractions of the largest appropriate unit, the fraction being carried out to not more than two (2) decimal places:

   a. In the case of length measure of less than one (1) foot, inches, and fractions of inches;

   b. In the case of area measure of less than one (1) square foot, square inches, and fractions of square inches;

   c. In the case of weight of less than one (1) pound, ounces, and fractions of ounces;

   a. In the case of length measure of four (4) feet or more the declaration of quantity shall be expressed in terms of feet, followed in parentheses by a declaration of yards and common or decimal fractions of the yard, or in terms of feet followed in parentheses by a declaration of yards with any remainder in terms of feet and inches.

   b. In the case of area measure of four (4) square feet or more;

   c. In the case of weight of four (4) pounds or more;

   d. In the case of fluid measure of one (1) gallon or more the declaration of quantity shall be expressed in terms of the largest whole unit.

03. **Weight -- Dual Quantity Declaration.** On packages containing one (1) pound or more but less than four (4) pounds, the declaration shall be expressed in ounces and, in addition, be followed by a declaration in parentheses, expressed in terms of the largest whole unit, provided, that the quantity declaration appearing on a random package may be expressed in terms of pounds and decimal fractions of the pound carried out to not more than
two (2) decimal places. (7-1-93)

04. Fluid Measure -- Dual Quantity Declaration. On packages containing (1) one pint or more but less than one (1) gallon, the declaration shall be expressed in ounces and, in addition, be followed by a declaration in parentheses, expressed in terms of the largest whole unit. (7-1-93)

05. Length Measure -- Dual Quantity Declaration. On packages containing (1) one foot but less than four (4) feet, the declaration shall be expressed in inches and, in addition, be followed by a declaration in parentheses, expressed in terms of the largest whole unit. (7-1-93)

06. Area Measure -- Dual Quantity Declaration. On packages containing (1) one square foot but less than four (4) square feet, the declaration shall be expressed in square inches and, in addition, be followed by a declaration in parentheses, expressed in terms of the largest whole unit. (7-1-93)

07. Bidimensional Commodities. For bidimensional commodities (including roll-type commodities) the quantity declaration shall be expressed: (7-1-93)

a. If less than one (1) square foot, in terms of linear inches and fractions of linear inches; (7-1-93)

b. If at least one (1) square foot but less than four (4) square feet, in terms of square inches followed in parentheses by a declaration of both the length and width, each being in terms of the largest whole unit, provided, that:

i. No square inch declaration is required for a bidimensional commodity of four (4) inches width or less; (7-1-93)

ii. A dimension of less than two (2) feet may be stated in inches within the parenthetical; and (7-1-93)

iii. Commodities consisting of usable individual units (except roll-type commodities with individual usable units created by perforations, see Subsection 173.03) require a declaration of unit area but not a declaration of total area of all such units. (7-1-93)

c. If four (4) square feet or more, in terms of square feet followed in parentheses by a declaration of the length and width in terms of the largest whole unit, provided that:

i. No declaration in square feet is required for a bidimensional commodity with a width of four (4) inches or less; (7-1-93)

ii. A dimension of less than two (2) feet may be stated in inches within the parenthetical; and (7-1-93)

iii. No declaration in square feet is required for commodities for which the length and width measurements are critical in terms of end use (such as tablecloths or bedsheets) if such commodities clearly present the length and width measurements on the label. (7-1-93)

173. POLYETHYLENE SHEETING.

01. Packages. All packages of polyethylene sheeting shall be labeled as to quantity in accordance with the following: (7-1-93)

a. Actual length; (7-1-93)

b. Actual width; (7-1-93)

c. Actual thickness; and (7-1-93)

- a. The identity;  
- b. Actual length, width, thickness, and weight of each individual unit;  
- c. The number of individual units;  
- d. The total weight of all the units;  
- e. The name and address of both the vendor and purchaser; and  
- f. The date delivered or the date shipped. (7-1-93)

03. **Count -- Ply.** If the commodity is in individually usable units of one (1) or more components or ply, the quantity declaration shall, in addition to complying with other applicable quantity declaration requirements of this rule, include the number of ply and the total number of usable units. Roll-type commodities, when perforated so as to identify individual usable units, shall not be deemed to be made up of usable units; however, such roll-type commodities shall be labeled in terms of:

- a. Total area measurement;  
- b. Number of ply;  
- c. Count of usable units; and  
- d. Dimensions of a single usable unit. (7-1-93)

04. **Fractions.** A statement of net quantity of contents of any consumer commodity may contain common or decimal fractions. A common fraction shall be in terms of halves (1/2), quarters (1/4), eighths (1/8), sixteenths (1/16), or thirty-seconds (1/32), except that:

- a. If there exists a firmly established general consumer usage and trade custom of employing different common fractions in the net quantity declaration of a particular commodity, they may be employed; and  
- b. If linear measurements are required in terms of yards or feet, common fractions may be in terms of thirds (1/3). A common fraction shall be reduced to its lowest terms; a decimal fraction shall not be carried out to more than two (2) places. (7-1-93)

174. **SUPPLEMENTARY DECLARATIONS.**

01. **Supplementary Quantity Declarations.** The required quantity declaration may be supplemented by one (1) or more accurate declarations of weight, measure, or count, such declaration appearing other than on a principal display panel. Such supplemental statement of quantity of contents shall not include any terms qualifying a unit of weight, measure, or count that tends to exaggerate the amount of commodity contained in the package (e.g., “giant” quart, “full” gallon, “when packed,” “minimum,” or words of similar import). (7-1-93)

02. **Metric System Declarations.** A separate statement of the net quantity of contents in terms of the metric system is not regarded as a supplemental statement, and a statement of quantity in terms of the metric system of weight or measure may also appear on the principal display panel or on other panels. The metric system may be used as provided for by Section 71-229, Idaho Code, in lieu of the traditional system of weights and measures by substituting the proper metric terms where applicable in these rules. (7-1-93)

03. **Qualification of Declaration Prohibited.** In no case shall any declaration of quantity be qualified by the addition of the words “when packed,” “minimum,” or “not less than,” or any words of similar import, nor shall any unit of weight, measure, or count be qualified by any term (such as “jumbo,” “giant,” “full,” or the like) that tends
to exaggerate the amount of commodity.  

175. -- 179. (RESERVED) 

180. DECLARATION OF QUANTITY -- NON-CONSUMER PACKAGES. 

01. Location. A non-consumer package shall bear on the outside a declaration of the net quantity of contents. Such declaration shall be in terms of the largest whole unit (see Subsection 171.01 Largest Whole Unit). 

02. Terms -- Weight, Liquid Measure, or Count. The declaration of the quantity of a particular commodity shall be expressed in terms of liquid measure if the commodity is liquid, or in terms of weight if the commodity is solid, semisolid, viscous, or a mixture of solid and liquid, or in terms of numerical count. However, if there exists a firmly established general consumer usage and trade custom with respect to the terms used in expressing a declaration of quantity of a particular commodity, such declaration of quantity may be expressed in its traditional terms, if such traditional declaration gives accurate and adequate information as to the quantity of the commodity. 

03. Units -- Weight, Measure. A declaration of quantity:

01. **Packaging Variations.** (7-1-93)

a. Variations from Declared Net Quantity. Variations from the declared net weight, measure, or count shall be permitted when caused by unavoidable deviations in weighing, measuring, or counting the contents of individual packages that occur in good packaging practice, but such variations shall not be permitted to such extent that the average of the quantities in the packages of a particular commodity, or a lot of the commodity that is kept, offered, or exposed for sale, is below the quantity stated, and no unreasonable shortage in any package shall be permitted, even though overages in other packages in the same shipment, delivery, or lot compensate for such shortage. Variations above the declared quantity shall not be unreasonably large. (7-1-93)

b. Variations Resulting from Exposure. Variations from the declared weight or measure shall be permitted when caused by ordinary and customary exposure to conditions that normally occur in good distribution practice and that unavoidably result in change of weight or measure, but only after the commodity is introduced into intrastate commerce, provided that the phrase “introduced into intrastate commerce” as used in this paragraph shall be construed to define the time and the place at which the first sale and delivery of a package is made within the state, the delivery being either:

i. Directly to the purchaser or to his agent; or (7-1-93)

ii. To a common carrier for shipment to the purchaser, and this paragraph shall be construed as requiring that, so long as a shipment, delivery, or lot of packages of a particular commodity remains in the possession or under the control of the packager or the person who introduces the package into intrastate commerce, exposure variations shall not be permitted. (7-1-93)

02. **Magnitude of Permitted Variations.** The magnitude of variations permitted under Section 260 of this rule shall, in the case of any shipment, delivery, or lot, be determined by the facts in the individual case. (7-1-93)

261. -- 269. (RESERVED)

270. **MISLEADING PACKAGES.**

No commodity in package form shall be so wrapped, nor shall it be in a container so made, formed, or filled as to mislead the purchaser as to the quantity of the package, and the contents of a container shall not fall below such reasonable standard of fill as may have been prescribed for the commodity in question by the Director. (7-1-93)

271. **ADVERTISING PACKAGES FOR SALE.**

Whenever a packaged commodity is advertised in any manner with the retail price stated, there shall be closely and conspicuously associated with the retail price a declaration of quantity as is required by law or rule to appear on the package. Where a dual declaration is required, only the declaration that sets forth the quantity in terms of the smaller unit of weight or measure need appear in the advertisement. And provided further, that there shall not be included as part of the package declaration required under this section such qualifying terms as “when packed,” “minimum,” “not less than,” or any other terms of similar import, nor any term qualifying a unit of weight, measure, or count (for
example, “jumbo,” “giant,” “full,” and the like) that tends to exaggerate the amount of commodity in the package.

(7-1-93)

i. Immediately following the unit price indications add the term “per one-half (1/2) gallon.”

(7-1-93)

ii. Immediately beneath the unit price indication, add the correct unit price “per gallon.”

(7-1-93)

iii. Immediately following the total price, add the term “one-half total price.”

(7-1-93)

e. Establishments using half-pricing shall post a notice in the vicinity of each island or group of pumps stating that the money values on the pump are computed at the one-half (1/2) gallon price basis.

(7-1-93)

f. All roadside price signs must be complete and accurate. Price advertising using “liter” pricing must
also use comparison gallon pricing. (7-1-93)

g. All sales must be within one cent ($0.01) mathematical agreement, when total sales price is compared with volume actually dispensed. (7-1-93)

h. Half-gallon pricing with full total price retail motor fuel dispensers shall be considered to be in compliance with Handbook 44 requirements, but only at each dispenser’s present installation site and only until such time as any one (1) of the following conditions has occurred: (7-1-93)

for that laboratory’s failure to comply with these rules. (3-21-12)

102. - 109. (RESERVED)

110. MILK COMPONENT TESTING DEVICES.

If an automated testing device is used to perform a milk component test for any milk component, that device must be
calibrated and regularly checked to ensure that it accurately tests for that milk component. (3-21-12)

01. Calibration and Checks. Calibration and checks must include the utilization of calibration
samples, performance checks and accuracy checks. (3-21-12)

02. Calibration Standards. Calibration may be done either in accordance with the standards set forth

through records kept in accordance with Section 350, that calibration and checks have been performed in accordance
with these rules, and that the testing device produces test results within the tolerances established in these rules.
(3-21-12)
111. CALIBRATION OF MILK COMPONENT TESTING DEVICES.
All testing devices shall be calibrated according to the protocols set by the testing device manufacturer, or as set forth in this Section. (3-21-12)

01. Calibration Frequency. A milk component testing device shall be calibrated whenever the mean difference on a daily performance check under Section 121 herein exceeds plus or minus forty-four thousandths percent (.044%) for milkfat or protein, or eighty-four thousandths percent (.084%) for total solids or solids-nonfat. (3-21-12)

02. Calibration Samples. A set of calibration samples may consist of commercially available samples or samples made by the official laboratory. A set of calibration samples must consist of at least nine (9) individual samples, each of which:

   a. Cannot be more than twenty-one (21) days old; (3-21-12)

   b. Must be a fresh milk sample preserved with bronopol (2-bromo-2-nitro-1, 3-propanediol) or another approved preservative. Preservative methods, formulations and concentrations must be approved by the department. (3-21-12)

   c. Must have a known percentage content of each relevant milk component, determined by the sample provider. (3-21-12)

   d. Must meet the requirements of Section 120 of this rule. (3-21-12)

03. Calibration Procedure. To calibrate a testing device, the official laboratory must use the device to test a set of calibration samples. The testing device shall be adjusted, as necessary, to satisfy each of the following requirements:

   a. The performance error on each calibration sample shall be as near as practicable to zero (0). (3-21-12)

   b. The mean difference for the entire set of calibration samples shall be as near as practicable to zero (0), and shall not exceed plus or minus forty-four thousandths percent (.044%) for milkfat or protein, or eighty-four thousandths percent (.084%) for total solids or solids-nonfat. The mean difference is the sum of the performance errors for the individual calibration samples, divided by the number of samples in the set. (3-21-12)

   c. The standard deviation of test results, calculated for the set of calibration samples shall not exceed forty-four thousandths percent (.044%) for milkfat or protein, or eighty-four thousandths percent (.084%) for total solids or solids-nonfat. (3-21-12)

112 - 119. (RESERVED)

120. SAMPLE INTEGRITY.
Milk or cream samples must be handled, stored, and shipped in a manner that maintains the integrity of the samples. Samples must be maintained in a temperature range of thirty-three degrees (33°) to forty-five degrees (45°) Fahrenheit (zero point fifty-five hundredths degrees (0.55°) to seven point twenty-two hundredths degrees (7.22°) Celsius). (4-11-19)

121. DAILY PERFORMANCE CHECKS.
All testing devices must be subjected to a daily performance check before each day’s testing, in accordance with the standards set by the testing device manufacturer, or as set forth in this section. (3-21-12)

01. Daily Performance Check Samples. (3-21-12)

   a. Source. A set of daily performance check samples must be obtained from a sample provider approved by the department, or may be made by the official laboratory. (3-21-12)

c. Requirements. The control samples must comply with the requirements set forth in Section 111 of this rule and fall within the component ranges typically found in the samples to be tested. (4-11-19)

02. Procedure. To conduct a daily performance check, the official laboratory must test a set of daily performance check samples. Based on the daily performance check, the official laboratory must do the following:

a. Determine the performance error of the testing device with respect to each daily performance check sample. The performance error is the difference between the known percentage content of each milk component in that sample, as determined by the sample provider, and the percentage content as measured by the testing device; and

b. Calculate the mean difference for the set of daily performance check samples. The mean difference is the sum of the performance errors for the individual samples, divided by the number of samples in the set. (3-21-12)

03. Calibration Based On Daily Performance Check. If the mean difference calculated on a daily performance check exceeds plus or minus forty-four thousandths percent (.044%) for milkfat or protein, or eighty-four thousandths percent (.084%) for total solids or solids-nonfat, the testing device shall not be used until it is recalibrated in accordance with Section 111. (3-21-12)

122. -- 129. (RESERVED)

130. ACCURACY CHECKS. All testing devices shall be subjected to daily and hourly accuracy checks in accordance with the protocols set by the testing device manufacturer, or as set forth in this Section. (3-21-12)

01. Daily Accuracy Check. A daily accuracy check must be conducted for each relevant milk component before each day’s testing at the same time that the daily performance check is conducted. The official laboratory must perform ten (10) tests on a reference sample. The reference sample may be a homogenized milk sample prepared by the official laboratory, or it may be a daily performance check sample obtained from an approved sample provider. The ten (10) test results must be averaged, and the average result will be used as a comparison value for the hourly accuracy checks required in Subsection 130.02. (3-21-12)

02. Hourly Accuracy Check. An hourly accuracy check must be conducted for each milk component before each hour’s testing for that component.

a. To conduct an hourly accuracy check, the official laboratory must test the same reference sample used for the daily accuracy check. (3-21-12)

b. For each relevant milk component, the hourly accuracy check result must be compared to the average result obtained on the daily reference check under Subsection 130.01. If an hourly accuracy check result differs from the average result on the daily accuracy check by more than thirty-four thousandths percent (.034%) for milkfat or protein, or sixty-four thousandths percent (.064%) for total solids or solids-nonfat, the testing device shall not be used until the condition causing the difference is found and corrected. (3-21-12)

c. Test results obtained before the device is corrected, and subsequent to the last previous conforming accuracy check, must not be used in determining the amount paid to milk producers. (3-21-12)

131. -- 139. (RESERVED)

201. -- 300. (RESERVED)

301. **REGULATORY COMPLIANCE - INSPECTIONS AND RECORDS REVIEW.**
The department shall have access at any time to official laboratories to review testing procedures, records, or to conduct other inspections or tests to determine compliance with these rules and Title 37, Chapter 5, Idaho Code. Any time a testing device is being operated to test for milk components or other quality parameters, the department may provide samples to an official laboratory, and require the official laboratory to immediately process those samples in order to ensure compliance with these rules. (3-21-12)

302. **REGULATORY SAMPLES.**
01. Sample Set.

a. The department will provide sample sets to official laboratories, on a bi-weekly basis or at a frequency determined by the department to be necessary to ensure accurate component testing results.

b. The samples will be obtained from the company or entity that provides calibration samples to the official laboratory, if available. The department may provide regulatory samples from other sources if necessary.

c. The official laboratory must immediately process the samples, while being observed by a department employee or agent, for those components used by the processor or procurer as a basis of payment.

d. The official laboratory must evaluate the sample set using identical control standards and device settings which are used to routinely evaluate Idaho producer milk components for basis of payment.

e. If the official laboratory is unable to process the samples due to maintenance or mechanical issues, the department employee or agent who is delivering the samples may wait for the testing device to become operable. If the integrity of the regulatory samples is compromised due to the delay, the department may obtain and deliver an additional set of regulatory samples.

02. Regulatory Sample Results. The regulatory sample results will be compiled and evaluated by the department in rolling groups of thirteen (13)

03. Outliers. Sample results that have been identified as outliers will not be used in the calculation of tolerance for regulatory test results.

04. Regulatory Sample Tolerances. Each group of rolling thirteen (13) average shall be within the following tolerances for those components used as a basis of payment by the processor or procurer:

a. Plus or minus two hundredths percent (.02%) for milkfat and protein.

b. Plus or minus sixty-five thousandths percent (.065%) for solids, other than milkfat or protein.

303. LICENSE SUSPENSION AND REVOCATION BASED ON REGULATORY SAMPLES.

01. Two (2) Out of Four (4) Violation. Whenever the average performance error of two (2) of the last four (4) rolling groups of thirteen (13) exceed the tolerance for milkfat, protein, or solids as set forth in Subsection 302.04 of this rule, the Department will issue a written notice to the official laboratory. This notice shall be in effect as long as two (2) of the last four (4) rolling groups of thirteen (13) exceed the allowable tolerance for component testing.

02. License Suspension. If two (2) out of four (4) of an official laboratory’s rolling groups of thirteen (13) average are out of tolerance pursuant to Subsection 302.04 of this rule, the Department will evaluate the following items prior to suspending the testing license:

a. Records Review. The Department shall review records kept by the official laboratory pursuant to Section 350 of this rule.

b. Clearance Test. The average performance error of the official laboratory must be within plus or minus thirty-one thousandths percent (.031%) protein, thirty-three thousandths percent (.033%) milkfat and sixty-five thousandths percent (.065%) other solids on all scheduled sample sets, until the official laboratory no longer exceeds the performance tolerance on two (2) out of four (4) rolling groups of thirteen (13) average. If an official laboratory does not meet these performance requirements on each component of the clearance test, the testing license shall be suspended.
c. Probation. The Department may place an official laboratory on probation for two (2) weeks if:

i. The records demonstrate all calibration and performance checks of all testing devices were performed, as required under these rules, and are operating within the tolerances set forth in Sections 110, 111, and 130 of this rule; and

ii. The average performance error in the clearance test sample set was within plus or minus thirty-one thousandths percent (.031%) protein, thirty-three thousandths percent (.033%) milkfat, and sixty-five thousandths percent (.065%) other solids. Clearance test results from laboratories on probationary status shall be included in the calculation of the rolling group of thirteen (13) average.

03. License Reinstatement. An official laboratory may seek reinstatement of a suspended license by completing the following:

a. Written Request. The official laboratory shall provide the Department a written request for reinstatement of their testing license. The request shall include documentation detailing the procedural corrections that have been made to the testing device(s), as well as a minimum of two (2) weeks of component testing results demonstrating that the testing device(s) have been and will remain in tolerance.

b. Clearance Test. The average performance error of the official laboratory must be within plus or minus thirty-one thousandths percent (.031%) protein, thirty-three thousandths percent (.033%) milkfat, and sixty-five thousandths percent (.065%) other solids on a sample set issued by the Department. If the request for reinstatement does not coincide with the normal biweekly sample set issued by the Department, the official laboratory will be solely responsible for the cost of procuring and shipping the additional sample set. Clearance test results used for license reinstatement shall not be included in the calculation of the rolling group of thirteen (13) average.

04. License Revocation for Repeated Out of Tolerance Test Results. If the regulatory sample results are repeatedly out of tolerance, the department may initiate steps to revoke the official laboratory’s license to conduct component testing for three (3) months or more.

010. DEFINITIONS.
In addition to the definitions set forth in Section 22-414, Idaho Code, the Department adopts the following definition: “Condition” means drying, cleaning, scarifying and other operations which could change the purity or germination of the seed and require the seed lot to be retested to determine the label information. (4-2-08)

011. (RESERVED)

012. METHODS OF SAMPLING -- GENERAL PROCEDURE.

01. Sample. In order to secure a representative sample, equal portions shall be taken from evenly distributed parts of the quantity of seed or screenings to be sampled. Access shall be had to all parts of that quantity. When more than one (1) trierful of seed is drawn from a bag, different paths shall be followed. When more than one (1) handful is taken from a bag, the handfulls shall be taken from well-separated points. (7-1-93)

02. Free Flowing Seed. For free-flowing seed in bags or bulk, a probe or trier shall be used. For small free-flowing seed in bags a probe or trier long enough to sample all portions of the bag shall be used. (7-1-93)

03. Non-Free Flowing Seed. Non-free-flowing seed, such as certain grass seed, uncleaned seed or screenings difficult to sample with a probe or trier, shall be sampled by thrusting the hand into the bulk and withdrawing representative portions. The hand is inserted in an open position and the fingers are held closely together.
while the hand is being inserted and the portion withdrawn. (7-1-93)

04. Composite Samples. Composite samples shall be obtained to determine the quality of a lot of seed (i.e., percentages of pure seed, other crop seed, weed seed, inert matter and germination). Individual bag samples may be obtained to determine if the lot of seed is uniform. (7-1-93)

a. To determine if there is an obvious lack of uniformity of seed from which a composite sample is being obtained, each portion shall be examined and the portions shall then be combined to form a composite sample or samples. (7-1-93)

b. If the lot is found not to be uniform when obtaining a composite sample to determine its quality then additional individual bag samples shall be taken for the purpose of testing for uniformity. (7-1-93)

c. Such individual bag samples may also be taken for the purpose of testing for uniformity even though a composite sample has not previously been obtained. The identity of each individual bag sample must be maintained. (7-1-93)

05. Bulk. Bulk seed or screenings shall be sampled by inserting a long probe or thrusting the hand into the bulk, as circumstances require, in at least seven uniformly distributed parts of the quantity being sampled. At least as many trierfuls or handfuls shall be taken as the minimum which would be required for the same quantity of seed or screenings in bags of a size customarily used for such seed or screenings. (7-1-93)

06. Bags. (7-1-93)

a. For lots of six (6) bags or less, each bag shall be sampled. A total of at least five (5) trierfuls shall be taken. (7-1-93)

b. For lots of more than six (6) bags, five (5) bags plus at least ten percent (10%) of the number of bags in the lots shall be sampled. (Round off numbers with decimals to the nearest whole number, raising five tenths (.5) to the next whole number.) Regardless of the lot size it is not necessary that more than thirty (30) bags be sampled. (7-1-93)

c. Samples shall be drawn from unopened bags except under circumstances where the identity of the seed has been preserved. (7-1-93)

07. Packets. In sampling seed in packets, entire unopened packets shall be taken. (7-1-93)

08. Size of Sample. (7-1-93)

a. For composite sample to test for quality, the following are minimum weights for samples of seed to be submitted for analysis, test or examination (7-1-93)

i. Two (2) ounces (approximately fifty five (55) grams) of grass seed not otherwise mentioned, white or alsike clover, or seeds not larger than these. (7-1-93)

ii. Five (5) ounces (approximately one hundred fifty (150) grams) of red or crimson clover, alfalfa, lespedezas, ryegrasses, bromegrasses, millet, flax, rape, or seeds of similar size. (7-1-93)

iii. One (1) pound of Sudangrass, sorghum, proso, hemp seed, or seeds of similar size. (7-1-93)

iv. Two (2) pounds (approximately one thousand (1,000) grams) of cereals, vetches, or seeds of similar or larger size. (7-1-93)

b. For individual bag samples to test for uniformity. (7-1-93)

i. The size of any individual bag sample to determine uniformity in a lot of seed shall be not less than the quantities set out in the “Rules and Regulations, under the Federal Seed Act” (53 Statute 1275) (Subsection
If the sample drawn is larger than desired, it shall be thoroughly mixed before it is divided to the desired size. (7-1-93)

09. **Forwarding and Receipt of Official Samples.** Before being forwarded for analysis test or examination, the containers of official samples shall be properly sealed and identified. The containers of official samples shall be initialed and dated and the sample weighed by the person who breaks the seals. (7-1-93)

100. GERMINATION STANDARDS FOR FLOWER SEEDS.
The kinds of flower seeds listed below are those for which standard testing procedures have been prescribed by the Association of Official Seed Analysts (AOSA) and which are required by the labeling provisions of Section 22-415, Idaho Code. The percentage listed opposite each kind is the germination standard for that kind. For the kinds marked with an asterisk, the percentage is arrived at by totaling the percent germination and percent hard seed. (7-1-93)

02. **Below Standard.** A mixture of kinds of flower seeds will be considered to be below standard if the germination of any kind or combination of kinds constituting twenty-five percent (25%) or more of the mixture by number is below standard for the kind or kinds involved.

101. -- 149. **(RESERVED)**

150. **GERMINATION STANDARDS FOR SEED IN HERMETICALLY SEALED CONTAINERS.**

The period of validity of germination tests is extended to the following period for seed packaged in hermetically sealed containers under conditions and label requirements set forth in this section.

01. **Germination Tests.** The germination test for agricultural and vegetable seed shall have been completed within the following period, exclusive of the calendar month in which the test was completed, immediately prior to shipment, delivery, transportation or sales:

a. In the case of agricultural or vegetable seeds shipped, delivered, transported or sold to a dealer for resale, eighteen (18) months;

b. In the case of agricultural or vegetable seeds for sale or sold at retail, thirty-six (36) months.

02. **Conditions of Packaging.** The following standards, requirements, conditions must be met before seed is considered to be hermetically sealed under the provisions of this Act:

a. The seed was packaged within nine months after harvest.

b. The container used does not allow water vapor penetration through any wall, including the seals, greater than five hundredths (0.05) gram of water per twenty-four (24) hours per one hundred (100) square inches of surface at one hundred degrees F. (100F) with a relative humidity on one side of ninety percent (90%) and on the other of zero percent (0%). Water vapor penetration or WVP is measured by the standards of the U.S. Bureau of Standards as-gm. H2O/24 hr./100 sq. in./100 F/ 90% RH/ 0% RH.

03. **Moisture.** The seed in the container does not exceed the percentage of moisture, on a wet weight basis, as listed below:

011. RULES REGARDING THE REGISTRATION OF FERTILIZERS CONTAINING PLANT NUTRIENTS IN ADDITION TO NITROGEN, PHOSPHATE, AND POTASH.

01. Other Plant Nutrients. A fertilizer may contain plant nutrients in addition to nitrogen, phosphate and potash. When these other nutrients are mentioned on the label in any form or manner, the fertilizer shall be registered. In addition, each nutrient amount shall be guaranteed. The guarantee shall be reported, on the label, on an elemental basis. Sources of the nutrients subjected to the guaranteed analysis, and proof of availability shall be provided to the department upon request. 02. Labeling. The label shall constitute a guarantee regarding the nutrient content of the fertilizer. No nutrients, other than those listed in Subsection 011.01, will be accepted by the department as guaranteed. Proposed labels and directions for the use of the fertilizer shall be furnished with the application for registration upon request. Any of the above listed elements which are guaranteed shall appear in the order listed immediately following guarantees for the primary nutrients of nitrogen, phosphate and potash. (3-30-01)

03. Exemptions. Guarantees for water soluble nutrients labeled for ready-to-use foliar fertilizers, ready-to-use specialty liquid fertilizers, hydroponic or continuous liquid feed programs, and potting soils, are exempted from the minimum element percentages listed in Subsection 011.01. (3-30-01)

012. -- 019. (RESERVED)

020. WARNING OR CAUTION STATEMENTS.
A warning or cautionary statement is required on any fertilizer product: (3-30-01)

01. Containing Boron. If the fertilizer product contains one tenth of a percent (.10%) or more boron in a water soluble form, the statement shall include:

a. The word “Warning” or “Caution” conspicuously displayed; (3-30-01)
b. The crops for which the fertilizer is recommended; and (3-30-01)

a. The word “Warning” or “Caution” conspicuously displayed; and (3-30-01)
b. That the application of fertilizers containing molybdenum may result in forage crops containing levels of molybdenum which are toxic to ruminant animals. (3-30-01)

03. Other Fertilizer Products. The department may require a registrant to include a warning or caution statement for any other fertilizer product that contains a micro-nutrient in water soluble form for which there is evidence that application of the micro-nutrient may be harmful to certain crops or where there are unusual environmental conditions. (3-30-01)

04. Examples. The following are examples of warning or caution statements:

a. Directions: Apply this fertilizer at a maximum rate of (number of pounds) per acre for (name of crop). (3-30-01)
b. CAUTION: Do not use on other crops. The (name of micro-nutrient) may cause injury to them. (3-30-01)
c. CAUTION: Apply this fertilizer at a maximum rate of (number of pounds) per acre for (name of crop). Do not use on other crops; the (name of micro-nutrient) may cause serious injury to them. (3-30-01)

e. CAUTION: This fertilizer is to be used only on soil that responds to (name of micro-nutrient). Crops high in (name of micro-nutrient) are toxic to grazing animals (ruminants). (3-30-01)
f. CAUTION: (Name of micro-nutrient) is recommended for all crops where (name of micro-nutrient) may be deficient; however excessive application to susceptible crops may cause damage. (3-30-01)

021. -- 029. (RESERVED)

030. FERTILIZER LABELS. The following information, in the format presented, is the minimum required for all fertilizer labels. For packaged products, this information shall either appear on the package, or be printed on a tag and attached to the package. This information shall be in a readable and conspicuous form. For bulk products, this same information in written or printed form shall accompany delivery and be supplied to the purchaser at time of delivery. (3-30-01)

01. Net Weight or Net Volume, If Liquid. Weight per gallon shall be included on the label of liquid fertilizers if net volume is stated. (4-7-11)

02. Brand. (3-30-01)

03. Grade. Grade (provided that the grade shall not be required when no primary nutrients are claimed). (3-30-01)

04. Guaranteed Analysis. A fertilizer label must contain the results of the guaranteed analysis. Zero
(0) guarantees should not be made and shall not appear in any statement except in nutrient guarantee itemizations. The sliding scale method of expressing a guaranteed analysis on fertilizer labels (for example, “Available Phosphate fifteen to eighteen percent (15-18%)”) is prohibited. If chemical forms of nitrogen are claimed or required, said form shall be set forth on the label. Nutrients other than nitrogen, phosphate and potash shall be set forth, on an elemental basis, as required by Subsection 011.01. The results of the guaranteed analysis required by this rule shall be in the following form:

05. **Sources.** Sources of nutrients shall be listed below the completed guaranteed analysis statement.

06. **Name and Address.** Name and address of manufacturer, guarantor or registrant.

07. **Specialty Fertilizers.** For specialty fertilizers distributed to the end user, the label shall set forth adequate directions for use. Such directions may include, but are not limited to:

   a. The recommended application rate or rates in units of weight or volume per unit of area coverage (where application rates are given in volume, the manufacturer shall provide the bulk density for the product on the label);

   b. Proper seasonal times and minimum intervals to apply the product when plants can rapidly utilize nutrients and loss to the environment can be minimized; and

   c. The statement “Apply Only As Directed” or a statement of similar designation.

08. **Packaging.** Refer to Idaho Department of Agriculture rules, IDAPA 02.02.14, “Rules for Weights and Measures,” for the specific requirements relating to product identity, declaration of quantity and prescribed units.

031. -- 034. **(RESERVED)**

035. **PRODUCT REGISTRATION.**

01. **Registration.** All fertilizer companies, including companies engaged in custom-formula mixing of dry or liquid fertilizers, shall comply with the product registration requirements of the Idaho Fertilizer Act of 2000, Section 22-605, Idaho Code, subject to the provisions of this chapter.
02. **Alteration From Original State.** When a fertilizer is mixed, added to, or in any way changed from its original grade or its content of secondary or minor nutrients, it is a different product, and must be registered as provided under Section 22-605, Idaho Code. (3-30-01)

03. **Registering -- Altered Fertilizers.** When a registered grade is altered by any commercial fertilizer manufacturer or ultimate dealer, such manufacturer or ultimate dealer, shall register the altered grade as provided under Section 22-605, Idaho Code. (4-7-11)

04. **Brand Name.** The addition of another prominent name or graphic design to the brand displayed on the label, other than descriptive words associated with the grade, shall constitute a different brand and thus, must be registered as provided under Section 22-605, Idaho Code. For example, changing “Rose Bud 5-10-5” to “Kilmer’s Rose Bud 5-10-5” would constitute a change in brand. (4-7-11)

05. **Sale of Fertilizer.** When a commercial fertilizer is removed from the package or vehicle in which it was placed by the original registrant and then offered for sale by a person other than the original registrant, it is a different product and shall be registered in accordance with Section 22-605, Idaho Code, except that it shall not be subject to an additional inspection fee as provided under Section 22-608, Idaho Code, provided that said fee was paid on the product by the original or prior registrant. (3-30-01)

036. -- 039. (RESERVED)

040. **SLOWLY RELEASED PLANT NUTRIENTS.**

01. **Slow Release.** No fertilizer label shall bear a statement that connotes or implies that certain plant nutrients contained in a fertilizer are released slowly over a period of time, unless the slow release components are identified and guaranteed at a level of at least fifteen percent (15%) of the total guarantee for that nutrient(s). (3-30-01)

02. **Slow Release Properties.** Types of products with slow release properties currently recognized by the department for the purposes of a guarantee include:

   a. Water insoluble, such as natural organics, ureaform materials, urea-formaldehyde products, isobutyldiene diurea, oxamide, etc.; (3-30-01)

   b. Coated slow release, such as sulfur coated urea and other encapsulated soluble fertilizers; (3-30-01)

   c. Occluded slow release, where fertilizers or fertilizer materials are mixed with waxes, resins, or other inert materials and formed into particles; and (3-30-01)

   d. Products containing water soluble nitrogen such as ureaform materials, urea-formaldehyde products, methylenediurea (MDU), dimethylenetriura (DMTU), dicyanodiamide (DCD), etc. (3-30-01)

03. **Additional Products May Be Added to List of Slow Release Nutrients.** The department may add additional products to the list of recognized slow release nutrients upon an appropriate showing by a registrant. The terms, “water insoluble,” “coated slow release,” “slow release,” “controlled release,” “slowly available water soluble,” and “occluded slow release,” are accepted as descriptive of these products, provided the manufacturer can show a testing program substantiating the claim. Testing shall be under guidance of Experiment Station personnel or a recognized researcher acceptable to the department. A laboratory procedure, acceptable to the department for evaluating the release characteristics of the product(s), must also be provided by the manufacturer. (3-30-01)

04. **Methods.** Unless otherwise specified by the department, AOAC International Method 970.04 (15th Edition) is to be used to confirm the coated slow release and occluded slow release nutrients and others whose slow release characteristics depend on particle size. AOAC International Method 945.01 (15th Edition) shall be used to determine the water insoluble nitrogen of organic materials. (3-30-01)

041. -- 049. (RESERVED)
050. INVESTIGATIONAL ALLOWANCES.

01. Use of Investigational Allowances. Investigational Allowances shall be used in determining whether a fertilizer is deficient. Fertilizers which are deemed deficient are subject to penalty. Penalties for deficient fertilizers are found in Section 22-611, Idaho Code. (3-30-01)

02. Deeming a Fertilizer Deficient. A fertilizer shall be deemed deficient if the analysis of any nutrient is below the guarantee by an amount exceeding the values in the following schedules, or if the overall index value of the fertilizer is below ninety-seven percent (97%). Note: For these investigational allowances to be applicable, the recommended AOAC International procedures for obtaining samples, preparation and analysis must be used. These are described in Official Methods of Analysis of the Association of Official Analytical Chemists, 13th Edition, 1980, and in succeeding issues of the Journal of the Association of Official Analytical Chemists. In evaluating replicate data, Table 19, page 935, Journal of the Association of Official Analytical Chemists, Volume 49, No. 5, October, 1966, should be followed. (4-6-05)

03. Investigational Allowances for Nitrogen, Phosphate and Potash. For guaranteed percentages not listed in the following table, calculate the appropriate investigational allowance by interpolation.

For dry custom mix fertilizers, an additional five percent (5%) of the guaranteed percentage shall be granted in addition to the allowances made in Subsection 050.03. (4-6-05)
04. **Investigational Allowance for Other Nutrients.** Secondary and minor elements shall be deemed deficient if any element is below the guarantee by an amount exceeding the values in the following schedule:

</table>

The maximum allowance when calculated as specified shall be one (1) unit (one percent (1%)). For dry custom mix fertilizers, an additional five percent (5%) of the guarantee shall be granted in addition to the allowances made above in this section. (3-30-01)

05. **Overall Index Value.** The overall index value is calculated by comparing the commercial dollar value guaranteed with the commercial dollar value found (Commercial Dollar Value found / Commercial Dollar Value guaranteed) x 100). Unit dollar values of the nutrients used shall be those referred to in Section 22-612, Idaho Code. The Department will conduct periodic surveys of the industry to determine unit dollar values. (4-6-05)

06. **Examples.** The following are examples of calculations for a custom mixed fertilizer of a 12-16-14 grade. For the purpose of these examples, the nutrient unit dollar values for all of the examples are assumed to be twenty-three cents ($0.23) per pound of nitrogen, twenty-seven cents ($0.27) per pound of available phosphate (P₂O₅), and eighteen cents ($0.18) per pound of potash (K₂O).

Example 1. A ten thousand (10,000) pound batch of customer formula fertilizer guaranteed at 12.0-16.0-14.0 is analyzed and found at 10.6-16.4-14.3

<table>
<thead>
<tr>
<th>Nutrient</th>
<th>Guaranteed</th>
<th>x price/lb</th>
<th>Found</th>
<th>x price/lb</th>
</tr>
</thead>
<tbody>
<tr>
<td>N</td>
<td>12.0</td>
<td>$2.76 ($0.23 x 12.0)</td>
<td>10.6</td>
<td>$2.438 ($0.23 x 10.6)</td>
</tr>
<tr>
<td>P₂O₅</td>
<td>16.0</td>
<td>$4.32 ($0.27 x 16.0)</td>
<td>16.4</td>
<td>$4.428 ($0.27 x 16.4)</td>
</tr>
<tr>
<td>K₂O</td>
<td>14.0</td>
<td>$2.52 ($0.18 x 14.0)</td>

</tr>
<tr>
<td><strong>Total</strong></td>
<td></td>
<td><strong>$9.60</strong></td>
<td></td>
<td><strong>$9.44</strong></td>
</tr>
</tbody>
</table>

Overall Index Value = ($9.44/$9.60) x 100 = 98.3%

However, the nitrogen value is in violation. The investigational allowance for a nitrogen guarantee of 12.0% is 0.61% (see the chart in section 02.06.12.050.03 above) plus an additional 5% of the guarantee for customer formula mixes.
Therefore the nitrogen value must be at least 10.79%; \((12.0 - \[.61 + 12.0(.05)\] = 10.79\%)\) in order to be within permissible values.

To find the amount (Lbs.) of N deficiency multiply the percent guaranteed by the weight of the lot minus the percentage found multiplied by the weight of the lot.

\((.12) (12\%) \text{ guaranteed} \times 10,000 \text{ lbs } - \ (0.106) (10.6\%) \text{ found} \times 10,000 \text{ lbs}) = 140 \text{ pounds}\)

The penalty will be calculated as three times the value of a deficiency of 140 pounds of nitrogen in the 10,000 pound batch. \(3 \times \[140 (\$.23)\] = $96.60\)

Example 2. A ten thousand (10,000) pound batch of customer formula fertilizer guaranteed at 12.0-16.0-14.0 is analyzed at 11.1-15.3-13.1.

<table>
<thead>
<tr>

<td>$2.52 ($.18 x 14.0)</td>
<td>13.1</td>
<td>$2.358 ($.18 x 13.1)</td>
</tr>
</tbody>
</table>

Total $9.60 $9.042

Overall Index Value = \((\$9.042/\$9.60) \times 100 = 94.2\%\)

Although each of the individual nutrients is within the investigational allowance, the cumulative deficiency is reflected in the Overall Index Value.

The investigational allowance table shows for a nitrogen guarantee of 12%, the allowance is 0.61%. An additional allowance of 5% of the guarantee is 0.60%. The minimum nitrogen value is then \(12.0 -\[0.61 + (.05 \times 12)\] = 10.79\).

The minimum acceptable values for P\textsubscript{2}O\textsubscript{5} and K\textsubscript{2}O will be 14.5 and 12.43, respectively.

The penalty will be calculated as follows:

<table>
<thead>

<th>Deficient lbs</th>

</tbody>
</table>

Total $55.80

\(3 \times (\$55.80) = \$167.40\)

If the examples were specialty fertilizers rather than customer formula mixes, the penalties will be assessed in accordance with Subsection 090.01.c.i.(1). \((4-6-05)\)

IDAPA 02.06 – IDAHO HONEY COMMISSION

DOCKET NO. 02-0616-1900

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 22-2808, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 02, rules of the Idaho Honey Commission

IDAPA 02
02.06.16, Rules Governing Honey Standards, modifies Section 010; eliminates Section 024

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules apply to all honey produced by honey bees from nectar and covers all styles of honey presentation that are processed and ultimately intended for direct consumption, and to all honey packed, processed or intended for sale in bulk containers as honey that may be repacked for retail sale or for sale or use as an ingredient in other foods. The expiration of these rules would hamper the ability of the state of Idaho from adequately controlling honey standards and would allow honey substitutes and/or imitations to flood the market without affirming that the product is not 100% honey.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.
ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Rick Waitley, Administrator, (208) 888-0988

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 22nd day of May, 2019.

EFFECTIVE DATE: The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section Title 22, Chapter 31, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 02, rules of the Idaho Hop Growers’ Commission

IDAPA 02
• 02.07.01, Rules of the Idaho Hop Growers’ Commission

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Idaho Hop Growers’ Commission is of benefit to the Hop Growers of Idaho. The assessments levied are used for research and marketing to keep the hop industry vital for the growers and the State of Idaho. Relevant research and marketing can bring a higher price for hops, helping with returns to the growers.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the Commission and reviewed and approved by the Legislature. The fees collected by the Idaho Hop Growers’ Association are not part of the dedicated fund of the state budget.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The initial hop assessment levy shall be computed and paid on the basis of twenty cents ($0.20) per net two hundred (200) pound bale of hops handled in the primary channels of trade. In addition to such initial assessment there may be levied an assessment not exceeding four dollars eighty cents ($4.80) per net two hundred (200) pound bale on each bale of hops handled in the primary channels of trade. The amount of such additional assessment shall be determined annually by the Commission. Licensed hop dealers of the state of Idaho will be notified of the determined assessment amount by registered mail prior to the harvest period.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the fees collected by the Idaho Hop Growers’ Association are not part of the dedicated fund of the state budget.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

EFFECTIVE DATE: The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 25-129(1), Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 02, rules of the Idaho Sheep and Goat Health Board.

IDAPA 02
• 02.08.01, Sheep and Goat Rules of the Idaho Sheep and Goat Health Board

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These temporary rules are necessary to prevent, control and eradicate scrapie, tuberculosis, brucellosis and other diseases in sheep and goats imported into Idaho and shipped interstate.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state's obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho's constitutional requirement that it balance its budget. The fees imposed by IDAPA 02.08.01 Sheep and Goat Rules of the Idaho Sheep and Goat Health Board fund the Board's permitting, inspection, disease control, and indemnity activities as established in Sections 25-126 through 25-160, Idaho Code.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. IDAPA 02.08.01 Sheep and Goat Rules of the Idaho Sheep and Goat Health Board impose fees of the owner of sheep of eight cents ($0.08) per pound on all wool, and on goat producers at the time of sale of eighty cents ($0.80) per goat sold.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**IDAPA 04 – OFFICE OF THE ATTORNEY GENERAL**

**DOCKET NO. 04-0000-1900**

**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 39-4903(11) 39-8405(5), 48-604(2), 67-506(2), 67-5206(3), 67-5206(4) Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 04, rules of the Office of the Attorney General:

**IDAPA 04**
- 04.02.01, Idaho Rules of Consumer Protection
- 04.11.01, Idaho Rules of Administrative Procedure of the Attorney General
- 04.12.01, Rules of Administrative Procedure for Consideration of Cooperative Agreements Filed By Health Care Providers
- 04.20.01, Rules Implementing the Idaho Tobacco Master Settlement Agreement Complementary Act

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found (and the Attorney General concurs) that temporary adoption of the rules set forth above is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

These rules govern important matters related to Idaho’s marketplace, public health, the State’s financial well-being, administrative procedures for considering cooperative health care agreements and administrative procedural processes.

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.
INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Mr. DeLange can be reached at (208) 334-4114 or brett.delange@ag.idaho.gov.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

   02. **Scope.** This chapter has the following scope: These rules are intended to protect persons in the state of Idaho against unfair, false, deceptive, misleading or unconscionable acts or practices by defining with reasonable specificity some of the acts and practices that violate the Act. Further, they are intended to provide reasonable guidance to persons doing business in the State of Idaho. (7-1-93)

002. WRITTEN INTERPRETATIONS--AGENCY GUIDELINES (RULE 2).
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency has written statements that pertain to the interpretation of the rules of this chapter, or to the compliance with the rules of this chapter. The document is available for public inspection and copying at cost at the Office of the Attorney General, Consumer Protection Unit. (7-1-93)

003. RULES OF CONSTRUCTION (RULE 3).
Without limiting the scope of any section of the Act, or any other rule or law, these rules shall be liberally construed and applied to promote the general purposes and policies of the Act. (7-1-93)

004. NON-INCLUSIVE (RULE 4).
These rules are not intended to cover all trade practices that violate the provisions of the Act. Many areas of illegal practice in trade and commerce are not specifically encompassed by these rules, but are still actionable under the Act. (7-1-93)

005. CUMULATIVE (RULE 5).
These rules are intended to be cumulative in effect and supplementary to each other. If acts or practices are governed by more than one (1) rule, compliance with one (1) rule does not excuse violations of another applicable rule. (7-1-93)

006. NON-EXCLUSIVE (RULE 6).
These rules are in addition to, and do not affect, any other rights or obligations that may exist by statute or judicial decision. (7-1-93)

007. EXCEPTIONS TO THESE RULES (RULE 7).
These rules are subject to the same exceptions as set forth in Section 48-605, Idaho Code. (7-1-93)

008. REGULATED PERSONS (RULE 8).
Enforcement activities taken pursuant to these rules shall not be commenced against persons licensed and regulated by any state regulatory board within the Department of Self-Governing Agencies or the United States Government.
when the actions or transactions are regulated by such regulatory board unless the Attorney General has first referred
the matter in writing to the appropriate regulatory board. If at any time following the expiration of thirty (30) days
from the time of forwarding the matter to the regulatory board the Attorney General is not satisfied with the progress
or decision of the regulatory board, he may proceed to the extent of his jurisdiction under the Act. The 30-day
provision will be abated to the extent that the regulatory board was given an express opportunity to review the matter
prior to the time when the Attorney General began to consider the matter. The thirty (30) day provision may be
waived in whole or in part if the Attorney General deems that the public interest requires prompt attention by the
Attorney General. (7-1-93)

009. KNOWLEDGE (RULE 9).
These rules are not violated unless a person knows, or in exercise of due care should know, that he has in the past
engaged in or is engaging in conduct specified or prohibited by the Act, or these rules. (7-1-93)

010. CITATION (RULE 10).
The official citation of these rules is IDAPA 04.02.01.000. For example, this section’s citation is IDAPA
04.02.01.010. In written submissions to the Attorney General or issued by the Attorney General, these rules may be

(7-1-93)
030. GENERAL RULE (RULE 30).
It is an unfair and deceptive act or practice for a seller to make any claim or representation concerning goods or services which directly, or by implication, has the capacity, tendency, or effect of deceiving or misleading a consumer acting reasonably under the circumstances. An omission of a material or relevant fact shall be treated with the same effect as a false, misleading, or deceptive claim or representation, when such omission, on the basis of what has been stated or implied, would have the capacity, tendency, or effect of deceiving or misleading a consumer acting reasonably under the circumstances. With reference to goods or services, this prohibition includes, but is not limited to, factors relating to the cost, construction, durability, reliability, manner or time of performance, safety, strength, condition, life expectancy, ease of operation, problems associated with repair or maintenance, availability, or the benefit to be derived from the use of the goods or services. (1-21-92)

031. SUBSTANTIATION (RULE 31).
The responsibility for truthful advertising which does not have the capacity, tendency, or effect of deceiving or misleading consumers acting reasonably under the circumstances rests with the seller. Sellers must be able to substantiate all claims or offers made before such claims or offers are advertised. Sellers must maintain sufficient records to substantiate all representations made in their advertisements. (1-21-92)

032. CONTRADICTORY REPRESENTATIONS (RULE 32).
It is an unfair and deceptive act or practice for a seller to make any claim or representation that is inconsistent with or contradictory to any written claim, representation, or provision which is contained in any contract, document, or instrument evidencing a transaction. (1-21-92)

033. VIOLATIONS OF OTHER LAWS AND COURT ORDERS (RULE 33).
It is an unfair and deceptive act or practice for any seller to engage in trade or commerce if in so doing the seller or the seller’s goods or services fail to comply with:

01. Federal and State Laws. Any Federal Trade Commission rule or regulation, the disclosure requirements of either the federal Truth in Lending Act (15 U.S.C. Section 1601 et seq.) and Regulation Z promulgated by the Board of Governors of the Federal Reserve System (12 C.F.R. Section 226) or the federal Truth in Lending Act (15 U.S.C. Section 1667 et seq.) and Regulation M promulgated by the Board of Governors of the Federal Reserve Board (12 C.F.R. Section 213), or any State of Idaho statute or rule that identifies conduct in trade and commerce as unfair or deceptive or a violation of the Act. (7-1-93)

02. Federal Trade Commission Consent Decree. Any Federal Trade Commission Consent Decree in which the seller is a party to the decree. (1-21-92)

03. Judicial Order. Any judgment, injunction, order, or other relief obtained by the Federal Trade Commission in any action brought in a United States District Court in which the seller is a party or otherwise subject to the court’s decrees and orders. (1-21-92)

034. OFFICIAL, GOVERNMENTAL, OR OTHER MISLEADING ENVELOPES OR OFFERS (RULE 34).
It is an unfair and deceptive act or practice for any seller to use any printing styles, graphics, layouts, text, colors, or formats on envelopes or on the offer which implies, creates an appearance, or would lead a reasonable person to believe that the offer originates from or is issued by or on behalf of a government or public agency, public utility, public organization, insurance company, credit reporting agency, bill collecting company or a law firm, unless the same is true. (1-21-92)

035. INvoices AND BILLS (RULE 35).
It is an unfair and deceptive act or practice for a seller to advertise by use of any written or documentary material that
has the tendency, capacity, or effect of misleading a consumer, acting reasonably under the circumstances, that the advertisement is an invoice or bill. (7-1-93)

036. MAILBOX ADDRESSES (RULE 36).
It is an unfair and deceptive act or practice for a seller to refer to a U.S. Post Office box number or a private mail service box number in trade and commerce as a “suite,” “department,” “office,” “apartment,” or any other term or abbreviation that has the tendency, capacity, or effect of misleading a consumer, acting reasonably under the circumstances, to believe that the reference pertains to anything other than a box number at a U.S. Post Office or at a private mailbox service. (7-1-93)

037. -- 039. (RESERVED)

Subchapter D -- Disclosure of Conditions in Offer
(Rules 40 - 49)

040. GENERAL RULE (RULE 40).
It is an unfair and deceptive act or practice for a seller to offer goods or services with material contingencies, conditions, or qualifications attendant to the offer unless such contingencies, conditions, or qualifications are clearly and conspicuously disclosed in connection with the initial offer. (1-21-92)

041. SUBSEQUENT DISCLOSURE (RULE 41).
Subsequent disclosure to the consumer of such material contingencies, conditions, or qualifications attendant to an initial offer, even if prior to consummation of the transaction relating to the offer, is not a defense to the requirements of CPR 40. (1-21-92)

042. -- 049. (RESERVED)

Subchapter E -- Bait and Switch Sales
(Rules 50 -- 59)

050. GENERAL RULE (RULE 50).
It is an unfair and deceptive act or practice for a seller to engage in bait-and-switch sales tactics. (1-21-92)

051. INITIAL OFFER (RULE 51).
It is an unfair and deceptive act or practice for a seller to create a false impression of the grade, quality, quantity, make, value, age, size, color, usability, availability, or origin of the goods or services offered, or which may otherwise misrepresent the goods or services in such a manner that later, on disclosure of the true facts, there is a likelihood that the consumer may be switched from the advertised goods or services to other goods or services. Even though the true facts are subsequently made known to the consumer, subchapter E is violated if the first contact or interview is secured by a bait-and-switch offer. (7-1-93)

052. DISCOURAGEMENT OF PURCHASE OF ADVERTISED MERCHANDISE (RULE 52).
It is an unfair and deceptive act or practice for a seller to discourage the purchase of the advertised goods or services as part of a bait-and-switch scheme to sell other goods or services. For example, among acts or practices which will be considered in determining if an advertisement is a bona fide offer are:

01. Refusal to Show. The refusal to reasonably show, demonstrate, or sell the goods or services advertised or otherwise offered in accordance with the terms of the initial offer. (1-21-92)

02. Disparagement. The disparagement by acts or words of the advertised goods or services or disparagement with respect to the guarantee, credit terms, availability of service, repairs, or parts, or in any other respect, in connection with the advertised goods or services. (1-21-92)

03. Availability. The failure to have available at all outlets listed in the advertisement a sufficient
quantity of the advertised goods or services to meet reasonably expected public demand, as defined in CPR 103, unless the advertisement clearly and conspicuously discloses that the supply of a particular good is limited and/or the goods or services are available only at designated outlets, or unless the advertisement discloses that a particular good is to be closed out or offered for a limited time. Issuing of “rain checks” of goods or offering comparable or better goods at the sale price will be considered a mitigating circumstance, unless there is a pattern of inadequate inventory or the inadequate inventory was intentional. (7-1-93)

04. Refusal to Take Orders. The refusal to take orders for the advertised goods or services to be delivered within a reasonable period of time. (1-21-92)

05. Showing Impractical Goods or Services. The showing or demonstrating of goods or services which are defective, unusable, or impractical for the purpose represented or implied in the advertisement. (1-21-92)

06. Compensation Plans. The use of a sales plan or method of compensation for salesmen which is designed to prevent or discourage them from selling the advertised goods or services. This does not prohibit compensating salesmen by use of a commission. (1-21-92)

053. SWITCH AFTER SALE (RULE 53). In the event of a sale of the advertised goods or services, it is an unfair and deceptive act or practice for a seller to attempt to “unsell” the advertised goods or services with the intent and purpose of selling other goods or services in their stead, except when the parties are bargaining for a bona fide trade-in. (1-21-92)

054. PATTERN OF CONDUCT (RULE 54). The fact that a seller occasionally sells the advertised goods or services at the advertised price shall not constitute a defense to a charge that the seller has engaged in bait-and-switch tactics. (1-21-92)

055. LEADER ITEMS (RULE 55). Nothing in subchapter E shall prevent a seller from advertising goods and services with the hope that consumers will buy goods or services in addition to those advertised. (7-1-93)

056. -- 059. (RESERVED)

Subchapter F -- Deceptive, Comparative, Reference, and Wholesale Pricing (Rules 60 -- 69)

060. DECEPTIVE PRICING -- GENERAL RULE (RULE 60). It is an unfair and deceptive act or practice for a seller to represent or imply that:

01. Misrepresentations. Goods or services may be purchased for a specified price, if such is not the case. (1-1-79)

02. Reduced Price. Goods or services are being offered for sale at a reduced price, if such is not the case. For example, a firm publishes a catalog or brochure entitled “pre-Christmas sale.” Some of the items in the catalog are being offered at a reduced price, but others are not. On the non-sale (discounted) items, the advertisement should disclose that the item is being offered at the everyday price or the sales items should be clearly identified as such. If none of the advertised items are being offered at a reduced price, then it is inappropriate to use a term such as “sale.” (1-1-79)

03. Hidden Costs. A stated price is for complete or functional goods or services, if, in fact, there are additional hidden costs which must be expended in order to make the goods or services complete or functional. (1-1-79)

04. Services. A stated price of goods or services includes certain services, such as delivery, installation, service or adjustments, or includes parts or accessories, if such is not the case. (1-1-79)

05. Specific Goods or Services. A stated price applies to all sizes or types of goods or services, if the
stated price is in fact applicable only to certain sizes or types of goods or services. (1-21-92)

06. Inventory. A stated price reduction applies to an entire inventory or grouping of goods when it only applies to isolated items within the inventory or grouping. (1-1-79)

061. COMPARATIVE PRICING -- GENERAL RULE (RULE 61).
It is an unfair and deceptive act or practice for a seller to represent by any means which has the capacity, tendency, or effect of deceiving or misleading a consumer acting reasonably under the circumstances as to the value of the past, present, common, or usual price of goods or services, or as to any reduction in the price of goods or services, or any savings relating to the cost or price of the goods or services. (1-21-92)

01. Savings or Value Claims. Savings or value claims utilized in connection with terms such as “originally,” “formerly,” “regularly,” “usually,” “list price,” “compare at,” or other like terms, expressions or representations must be based on facts provable by the seller:

a. By the seller’s own records; or
b. By reasonably substantial competitive sales in the trade area where such claims or representations are made, under circumstances and conditions represented or implied by the claims or representations. (1-21-92)

02. Comparison Claims. The use of such terms as “reduced,” “sale,” “special price,” “originally,” “formerly,” “slashed,” etc. shall be deemed to be comparisons between the seller’s present prices and his bona fide, regular prices. Terms such as “list price,” “compare at,” “comparable value,” “suggested price,” etc. shall be deemed to be comparisons between the seller’s present prices and the prevailing competitors’ prices. Terms such as “discount,” “usually,” “regularly,” etc., which have a vague meaning shall be presumed to be a comparison between the seller’s present prices and his bona fide, regular prices, unless the seller states otherwise in his advertising or sales promotion. (1-21-92)

062. COMPARISONS OF SELLER’S PRESENT PRICES TO SELLER’S FORMER PRICES (RULE 62).
It is an unfair and deceptive act or practice for a seller to:

01. Fictitious Prices. Offer goods or services by representations comparing present prices to former prices of the seller, if the seller establishes a fictitious or inflated former price for a short period of time and for the purpose of subsequently offering a reduction. For example, a seller usually sells a certain pen for a regular price of seven dollars and fifty cents ($7.50), but he raises the price of the pen to an inflated price of ten dollars ($10) for a short period of time. He then “cuts” the price to its usual level of seven dollars and fifty cents ($7.50), and advertises: “Terrific Bargain: Were $10.00, Now Only $7.50”; or

02. Bona Fide Regular Price. Offer goods or services by representations comparing present prices to former prices of the seller, if the former price was merely an asking price and was not the bona fide, regular price at which such goods or services were openly, actively, and actually offered for sale or sold. (1-1-79)

063. COMPETITOR RETAIL PRICE COMPARISONS (RULE 63).
It is an unfair and deceptive act or practice for a seller to offer goods or services by representations comparing the prices of the seller’s goods or services to the prices of identical goods or services of competitors, unless the seller can substantiate that the represented prices of the competitor’s goods or services are in fact the actual prices charged by the competitor in the same trade area, at the same point in time or on the date(s) clearly and conspicuously disclosed in the advertisement. If a price is stated without clear and conspicuous disclosure of a date on which it was in effect, it shall be presumed to be the current price. (7-1-93)

064. COMPARABLE PRICE COMPARISONS (RULE 64).
It is an unfair and deceptive act or practice for a seller to offer goods or services by representations comparing the prices of the seller’s goods or services to the prices of comparable, but not identical, goods or services of a competitor’s, unless the seller can substantiate that the goods or services compared are substantially similar in grade and quality and the represented prices of the competitor’s goods or services are in fact the actual prices charged by the competitor in the same trade area, at the same point in time or on the date(s) clearly and conspicuously disclosed in the advertisement. If a price is stated without clear and conspicuous disclosure of a date on which it was in effect, it
shall be presumed to be the current price. (7-1-93)

065. REFERENCE RETAIL PRICING PRACTICES (RULE 65).
It is an unfair and deceptive act or practice for a seller to offer goods or services by representations comparing present prices to “manufacturer’s suggested prices,” or similar language establishing or implying base reference price comparisons, unless such reference price represents, in fact, a good faith, honest estimate of the regular price at which a substantial number of sales of the goods or services are made by comparable sellers in the same trade area or unless federal or state law permits or requires the disclosure of the price suggested by the manufacturer. CPR 65 applies with the same force and effect regardless of whether the advertiser is a national or regional manufacturer or supplier, a mail-order or catalog seller, or a local retailer, and regardless of whether the prices, establishing a basis for comparison, are advertised or pre-ticketed. (7-1-93)

066. WHOLESALE, FACTORY DIRECT, OR SIMILAR CLAIMS (RULE 66).
It is an unfair and deceptive act or practice for a seller to:

01. Factory. Describe itself or its goods by using the terms “factory direct,” “factory to you,” “direct from maker,” “factory outlet,” or words of similar meaning in its advertisements unless the seller’s goods are actually manufactured by the seller or in factories owned or controlled by the seller. (1-21-92)

02. Wholesaler. Describe itself by using the terms “wholesaler,” “wholesale outlet,” “distributor,” or words of similar meaning in its advertisements unless the seller actually owns and operates or directly and absolutely controls a wholesale or distribution facility which primarily sells goods to retailers for resale. A seller to which this provision applies may in addition be subject to CPR 66.03 and CPR 66.04 below. (1-21-92)

03. Cost. Use in connection with the advertising or sale of any goods or services, the terms “cost,” “invoice price,” “factory invoice,” “factory billing,” or terms of similar meaning or import or other representations that a good or service will be sold at, above, or below the seller’s actual cost unless such is true. (7-1-93)

04. Wholesale Prices. State or imply that any goods or services are being offered at “wholesale” prices or to use a term of similar meaning unless the prices are in fact at or below the current prices which most retailers in the trade area usually and customarily pay when they buy such goods or services for resale. (1-21-92)

067. LIMITED OFFERS (RULE 67).
It is an unfair and deceptive act or practice to offer goods or services by representations that the offer is “limited” unless the offer is in fact limited in duration or scope, or that the offer is an advance sale or introductory offer, and the seller in good faith expects to increase the price at a later date. (7-1-93)

068. SUBSTANTIATION (RULE 68).
A seller shall keep records or other documentary proof for a period of two (2) years which establish and substantiate the price claims and comparisons made. Failure to do so shall create a rebuttable presumption that the seller lacked a reasonable basis for the claims and comparisons made. (1-21-92)

069. (RESERVED)

Subchapter G -- Use of the Word “Free” and Similar Representations (Rules 70 -- 79)

070. GENERAL RULE (RULE 70).
It is an unfair and deceptive act or practice for a seller to:

01. Free No Cost Offers. Offer any goods or services as free, by use of the word “free” or other term of similar import, unless receipt of the free goods or services by a consumer is without added cost to the consumer; provided, however, that the consumer may be required to pay necessary delivery charges to the United States Post Office or a regulated public carrier if such fact is clearly and conspicuously disclosed in the offer and provided that the consumer may be required to purchase goods at their regular price as a precondition of entitlement to the free goods if such fact is readily apparent to a consumer acting reasonably under the circumstances or is clearly and
conspicuously disclosed in the offer. (1-21-92)

02. Free With Cost Offers. Offer any goods or services as “free,” “2 for 1,” “1-cent Sale,” or other term of similar import, if the seller increases the price of the base goods or services above their regular price or if the seller reduces the quality, quantity or size of the base goods or services. (1-1-79)

071. TIE-IN SALES (RULE 71). It is an unfair and deceptive act or practice for a seller to offer any goods or services as free, by use of the word “free” or other term of similar import, if the seller fails to clearly and conspicuously disclose at the outset all terms, conditions, and obligations upon which receipt and retention of the free items are contingent. (1-21-92)

072. CONDITIONAL OFFERS (RULE 72). It is an unfair and deceptive act or practice for a seller to offer any goods or services as free, by use of the word “free” or other term of similar import, when the consumer is obligated to perform conditions which are not readily apparent to a consumer acting reasonably under the circumstances or are not clearly and conspicuously disclosed. (1-21-92)

073. USE OF SIMILAR TERMS (RULE 73). It is an unfair and deceptive act or practice for a seller to meet the provisions of subchapter G by substitution of such similar words and terms as “gift,” “given without charge,” “at no cost,” “complimentary,” “bonus,” or other words or terms which tend to convey the impression to the consuming public that goods or services are free. (7-1-93)

074. ASTERISKS (RULE 74). For purposes of this rule, disclosure of the terms of the offer set forth in a footnote of an advertisement to which reference is made by an asterisk or other symbol placed next to the offer, does not constitute a clear and conspicuous disclosure at the outset. (1-21-92)

075. DELIVERY CHARGES (RULE 75). In all instances in which delivery charges, which shall be deemed to include all shipping and handling charges, shall exceed ten dollars, pursuant to an offer subject to subchapter G, the total amount of such charges shall be clearly and conspicuously disclosed in the offer. Negative option membership plans operated in compliance with the Federal Trade Commission Rule on Use of Negative Option Plans by Sellers in Commerce (16 C.F.R. Section 425) are exempt from the provisions of CPR 75. (7-1-93)

076. -- 079. (RESERVED)

Subchapter H -- Promotional Games and Advertising and Deceptive Use of Gifts
(Rules 80 -- 89)

080. NO PURCHASE REQUIRED FOR CHANCE PROMOTIONS (RULE 80). It is an unfair and deceptive act or practice for a seller to offer, initiate, promote, or solicit participation in any kind of game of chance, contest, sweepstakes, or promotion in which goods or services are distributed by random or chance selection that requires any kind of entry fee, service charge, purchase, payments to information providers, or other obligation in order to enter or participate in the promotion or receive any of the offered awards, prizes, or gifts. Those persons authorized by Title 67, Chapter 77, Idaho Code, to conduct bingo and raffle games for charitable purposes, if conducted in conformity with Title 67, Chapter 77, Idaho Code, and negative option membership plans operated in compliance with the Federal Trade Commission Rule on Use of Negative Option Plans by Sellers in Commerce (16 C.F.R. Section 425) are exempt from CPR 80. (7-1-93)

081. DISCLOSURE REQUIREMENTS IN GIFT PROMOTIONS (RULE 81). It is an unfair and deceptive act or practice for a seller to offer, in writing, any goods or services, without obligation, as an inducement to a consumer to attend an in-person sales presentation or contact the seller by telephone or by mail, but only if the seller follows up the consumer’s mail contact with a telephone contact, unless the offer clearly and conspicuously discloses in writing all of the following: (7-1-93)

01. Name and Address. The name and street address of the seller of the goods or services which are the subject of the sales presentation or contact with the seller. If the offer is made by an independent contractor of the
seller, or is made under a name other than the true name of the seller, the name of the seller shall be more prominently and conspicuously displayed than the name of the independent contractor or other name. (1-21-92)

02. **Purpose of Contact.** The purpose of the requested sales presentation or contact with the seller, which shall include a general description of the goods or services that are the subject of the sales presentation and a clear statement, if applicable, that there will be a sales presentation and the approximate duration of the sales presentation. (7-1-93)

03. **Odds.** If the consumer is not assured of receiving any particular good or service, a statement of the odds of receiving each good or service offered. The odds “100,000” or “1:100,000.” The odds shall be printed in a type size that is at least equal to that used for the standard text on the front (or first) page of the offer. (7-1-93)

04. **Conditions.** All restrictions, qualifications, and other conditions that must be satisfied before the consumer is entitled to receive the good or service, including but not limited to:

a. Any deadline by which the consumer must attend the sales presentation or contact the seller in order to receive the good or service; and

b. Any other conditions, such as a minimum age qualification, a financial qualification, or a requirement that if the consumer is married both husband and wife must be present in order to receive the good or service. Any financial qualifications shall be stated with specificity sufficient to enable the person to reasonably determine his or her eligibility;

05. **Verifiable Retail Value.** The verifiable retail value of each good or service the consumer has been offered, awarded, or may be awarded. (7-1-93)

06. **No Purchase Necessary.** That no purchase is necessary in order to receive the goods or services that have been offered to the consumer as an inducement to attend the in-person sales presentation or contact the seller by telephone or by mail, but only if the seller follows up the consumer’s mail contact with a telephone contact. (7-1-93)

07. **Other Requirements.** All other rules, terms and conditions of the offer, plan, or program. (1-21-92)

082. **MISLEADING OFFERS (RULE 82).**

It is an unfair and deceptive act or practice for any seller making an offer subject to Subchapter H to:

01. **Misrepresent Goods or Services.** Misrepresent the size, availability, quantity, identity, value, or qualities of any good or service. (7-1-93)

02. **Misrepresent Odds.** Misrepresent in any manner the odds of receiving any particular good or service. (7-1-93)

03. **Specially Selected.** Represent directly or by implication that the number of participants has been significantly limited or that any consumer has been specially selected to receive a particular good or service unless that is the fact. (7-1-93)

04. **Labeling Offers.** Label any offer a notice of termination or notice of cancellation. (7-1-93)

05. **Misrepresent Offer.** Misrepresent, in any manner, the offer, plan, program, or the affiliation, connection, association, or contractual relationship between the person making the offer and the owner, if they are not the same. (1-21-92)

06. **Tendency to Mislead.** Use publications, literature, or any written or verbal promotion that has the capacity, tendency, or effect of misleading or deceiving a consumer acting reasonably under the circumstances. (7-1-93)
07. **Fail to Deliver.** Fail to deliver the good or service to the consumer, at no expense to him or her, within ten (10) business days of the date of the initial contact by the seller to the consumer. Negative option membership plans operated in compliance with the Federal Trade Commission Rule on Use of Negative Option Plans by Sellers in Commerce (16 C.F.R. Section 425) are exempt from CPR 82.07. (7-1-93)

083. -- 089. (RESERVED)

Subchapter I -- Going-Out-Of-Business Sales
(Rules 90 -- 99)

090. **GENERAL RULE (RULE 90).**
It is an unfair and deceptive act or practice for a seller to advertise a going-out-of-business sale, unless the circumstances are in fact true and the going-out-of-business sale prices for goods or services are in fact lower than the regular prices of such goods or services. (1-21-92)

091. **INFLATING INVENTORY (RULE 91).**
No goods may be ordered for, or in anticipation of, a going-out-of-business sale, except in accordance with sound commercial practices. For example, it would be considered commercially sound to order a dryer that matches an existing washing machine. For purposes of subchapter I, all goods ordered within thirty (30) days prior to the beginning of a going-out-of-business sale shall create a rebuttable presumption that such goods were ordered in anticipation of a going-out-of-business sale. (7-1-93)

092. -- 099. (RESERVED)

Subchapter J -- Insufficient Supply/Limitation on Quantity
(Rules 100 - 109)

100. **GENERAL RULE (RULE 100).**
It is an unfair and deceptive act or practice for a seller to advertise goods or services with intent not to have sufficient quantity of the goods, or sufficient facilities to render the services, to satisfy reasonably expected public demand unless the quantity is clearly and conspicuously advertised as limited. (1-21-92)

101. **RAIN CHECKS (RULE 101).**
If the seller issues rain checks for goods for which the advertisement does not clearly and conspicuously disclose that quantities are limited, such "rain checks" will be considered a mitigating circumstance, unless there is a pattern of inadequate inventory, or the inadequate inventory was intentional. (1-21-92)

102. **SUBSTITUTE GOODS (RULE 102).**
If the seller offers comparable or better goods at the sale price, such practice will be considered a mitigating circumstance, unless there is a pattern of inadequate inventory, or the inadequate inventory was intentional. (1-21-92)

103. **DETERMINATION OF REASONABLY EXPECTED PUBLIC DEMAND (RULE 103).**
Reasonably expected public demand shall be construed with respect to the following factors:

01. **Records of Past Sales.** The record of past sales by a seller. (1-21-92)

02. **Price Reduction.** The amount of price reduction, if any, and quality of goods or services offered. (1-21-92)

03. **Advertising Scope.** The extent of advertising engaged in regarding the sale of goods or services and duration of the sale as advertised. (1-21-92)

104. **LIMITATION OF QUANTITY OF FUNGIBLE GOODS (RULE 104).**
Pursuant to Section 48-405A, Idaho Code, as incorporated by Section 48-603(17), Idaho Code, it is an unfair and
deceptive act or practice for a seller to offer fungible, mass-produced goods to the general public with a limitation on
the quantity any one (1) consumer can purchase:

01. Personal, Family, or Household Purposes. When the proposed sale is to a person who is buying
the goods for his own personal, family, or household purposes. (1-21-92)

02. Non-Services. When the proposed sale involves goods which are not offered in conjunction with
the rendering of services, other than services normally associated with standard retailing. (1-21-92)

105. COUPON SALES (RULE 105).
For purposes of CPR 104, a seller may limit the quantity of goods per coupon if the actual limitation is contained on
the coupon, and the limitation is clearly and conspicuously disclosed. (7-1-93)

106. INCREMENT STEP PRICING (RULE 106).
For purposes of CPR 104, it is not an unfair and deceptive act or practice to offer a limited number of goods at the
sale price and subsequent goods of the same commodity at higher prices; provided, however, that the offer clearly and
conspicuously discloses such incremental pricing. Nevertheless, the seller cannot prevent the consumer from taking
advantage of the special price by limiting the number of times the consumer can return to the store. (7-1-93)

107. -- 109. (RESERVED)

Subchapter K -- Disclosure of Prior Use
(Rules 110 - 119)

110. GENERAL RULE (RULE 110).
It is an unfair and deceptive act or practice for a seller to represent, directly or indirectly, that goods are new or
unused, or that any part of a good is new or unused, if such is not in fact true, or to misrepresent the extent of previous
use of goods. (1-21-92)

111. DISCLOSURE REQUIRED (RULE 111).
It is an unfair and deceptive act or practice for a seller to advertise, offer for sale, or sell any goods, as new goods,
which are used, or contain used parts, are rebuilt, remanufactured, reconditioned, or contain rebuilt, remanufactured,
or reconditioned parts, if such is not in fact true, unless clear and conspicuous disclosure of such characteristics or
attributes is made to the consumer prior to the sale. There is a rebuttable presumption that a seller offers or advertises
goods as new goods, unless clear and conspicuous disclosure to the contrary is provided. (1-21-92)

112. ACCEPTABLE DISCLOSURES (RULE 112).
The disclosure that goods have been used or contains used parts as required by CPR 111, may be made by use of a
word or words such as, but not limited to, “used,” “second hand,” “demonstrator,” “repossessed,” “repaired,”
“remanufactured,” “reconditioned,” or “rebuilt,” etc., whichever is applicable to the product involved. (7-1-93)

113. RETURNED GOODS (RULE 113).
Goods are not considered used if a prior consumer was given a full refund or exchange for the goods, in the normal
course of business, and if the goods are not known to presently or formerly have defects. (1-1-79)

114. -- 119. (RESERVED)

Subchapter L -- Estimates
(Rules 120 - 129)

120. GENERAL RULE (RULE 120).
It is an unfair and deceptive act or practice in connection with the furnishing of any repairs or improvements to goods,
and in any rendering of services, for a seller to unreasonably understate or misstate the estimated price, whether such
estimate be oral or written, or whether such estimate be formal or indirect; provided, however, that nothing herein
shall be construed to require that an estimate actually be furnished. (1-21-92)

121. UNFORSEEABLE CONDITIONS (RULE 121).
If an estimate is given, it is an unfair and deceptive act or practice for a seller to fail to obtain oral or written authorization in advance of performing additional and related, unforeseen, but necessary, repairs or improvements or services if such repairs, improvements, or services would unreasonably increase the originally estimated price. (1-21-92)

122. EXPRESS LIMITED AUTHORIZATION (RULE 122).
When a person expressly limits the authorized price of any repairs, improvements, or services, it is an unfair and deceptive act or practice for a seller to exceed such authorization without first obtaining the express oral or written consent of such person. (1-21-92)

123. -- 129. (RESERVED)

Subchapter M -- Repairs and Improvements
(Rules 130 - 139)

130. GENERAL RULE (RULE 130).
It is an unfair and deceptive act or practice for a seller to:

01. Necessity of Repairs. Represent that repairs or improvements are necessary when such is not the fact or perform and charge for unnecessary repairs. (1-21-92)

02. Completion of Repairs. Represent that repairs or improvements have been made when such is not the fact. (1-1-79)

03. Misrepresent Danger. Represent that the goods being inspected or diagnosed are in a dangerous condition or that the person’s continued use of the goods may be harmful when such is not the fact. (1-1-79)

04. Liens. Wrongfully permit, by action or inaction, any mechanic’s or materialmen’s lien, or any other lien, to be filed or perfected against goods being repaired or improved, or wrongfully retain possession of the subject goods, when the owner or consumer has tendered payment in full or has tendered payment in accordance with the contract authorizing the repair or improvement. (1-21-92)

05. Model Jobs. In the case of any improvement to real property, represent falsely that the improvement is to serve as a “model” or “advertising job” or similarly mislead the consumer that a price reduction or other compensation will be received by reason of such real property improvement. (1-21-92)

131. ITEMIZED BILLING (RULE 131).
Unless there is an express contract setting forth a lump-sum basis for compensation, it is an unfair and deceptive act or practice for a seller to fail to provide, upon specific request, one itemized billing, statement, or copy of a work order, which includes:

01. Labor Charges. Labor charges, designating the number of hours and the rate per hour; or designating the flat rate labor charge or job rate if such repairs or improvements are customarily done and billed on a flat rate labor charge or job rate price basis; or, when a minimum charge is imposed, designating that fact. (1-21-92)

02. Parts and Materials. Parts and materials, designating each item that is separately included in calculating the total billing, and designating whether such parts or materials are used or rebuilt. (1-21-92)

03. Other Charges. Miscellaneous charges, designating the reason for the charge and the basis for calculation of the charge. (1-1-79)

04. Unit Pricing. Alternatively, where the agreement sets forth a price per unit, then the number of units being billed at that price. For example, a contract provides for carpeting and installation at ten dollars ($10) per
yard. The itemized billing would state “92 yards carpeting at $10 per yard equals $920.”

132. OLD OR REPLACED PARTS (RULE 132).
It is an unfair and deceptive act or practice for a seller to:

01. Inspection. Fail, upon request, to return or allow inspection of old or replaced parts upon completion of repairs or improvements.

02. Retaining Old Parts. Retain old or replaced parts for reuse or resale, after request has been made for their return, unless such retention is made known to the consumer prior to performing any repairs or improvements, or unless the seller is able to demonstrate that he had made a bona fide price reduction for the newly installed parts in consideration for keeping the old or replaced parts, or unless the replacement was made under a warranty.

133. -- 139. (RESERVED)

Subchapter N -- Time of Delivery or Performance Including Mail Order Sales
(Rules 140 -- 149)

140. GENERAL RULE (RULE 140).
In connection with any sale, except mail order sales, it is an unfair and deceptive act or practice for a seller to:

01. Promising Delivery. Offer or promise prompt delivery or performance unless, at the time of the offer or promise, the seller has taken reasonable action to ensure such prompt delivery or performance.

02. Failure to Deliver. Fail to deliver goods or perform services, which have been ordered in person or otherwise, within a reasonable time following a specified delivery or performance date or within a reasonable time following the receipt of payment, unless the seller can show circumstances beyond his control and not within his knowledge at the time the order was accepted which prevented the seller from meeting the specified delivery date, and unless the seller can further show that he has given timely notice to the consumer of any such delay.

141. MAIL ORDER SALES (RULE 141).
In connection with any mail order sale, pursuant to CPR 33, it is an unfair and deceptive act or practice for a seller to fail to comply with the provisions of the Federal Trade Commission Rule on Mail Order Merchandise (16 C.F.R. 435).

142. -- 149. (RESERVED)

Subchapter O -- Lay-Away Plans
(Rules 150 - 159)

150. GENERAL RULE (RULE 150).
It is an unfair and deceptive act or practice for a seller, in conjunction with a lay-away transaction, to:

01. Misrepresent Lay-Away Policies. Misrepresent, in any way, the seller’s policy with reference to a lay-away plan.

02. Failure to Lay Aside Goods. Fail to actually lay aside the specific goods chosen by the consumer or exact duplicates, unless a clear and conspicuous disclosure to the contrary is made to the consumer.

03. Lay-Away Time Periods. Fail to clearly and conspicuously disclose to the consumer that the specified goods or exact duplicates will be set aside only for a certain period of time, if such is the case.
04. **Duplicates.** Deliver to the consumer after payments are completed, goods that are not identical or exact duplicates to those specified, unless informed, mutual consent has been obtained. (7-1-93)

05. **Increase Price.** Increase the price of the goods laid away after the original agreement has been made. (1-21-92)

06. **Failure to Deliver.** Fail to deliver to the consumer, upon request, at any time payment is made, a receipt showing the amount of that payment and the date thereof and, upon request, an itemized statement showing the amount previously paid and the amount still owing. (1-21-92)

151. **REFUNDS OF LAY-AWAY PAYMENTS (RULE 151).**
It is an unfair and deceptive act or practice for a seller to fail to clearly and conspicuously disclose, or to misrepresent in any manner:

01. **Possible Default or Cancellation.** The seller’s policy with reference to the consumer’s possible default or cancellation. (1-21-92)

02. **Refund Policy.** The seller’s policy with respect to refund of payments made prior to the consumer’s default or cancellation. (1-21-92)

152. **FORFEITURE AND DEFAULT (RULE 152).**
If there is a penalty, charge or forfeiture for cancellation or default, written disclosure must be clearly and conspicuously furnished on the initial lay-away receipt and clearly and conspicuously posted at the lay-away desk. (1-21-92)

153. -- 159. (RESERVED)

Subchapter P -- Unfair Solicitation Practices at Other Than Trade Premises (Rules 160 - 169)

160. **DISCLOSURE REQUIREMENTS (RULE 160).**
It is an unfair and deceptive act or practice for a seller to solicit a sale or order for sale of goods or services at other than appropriate trade premises, in person or by means of telephone, without clearly, affirmatively, and expressly revealing at the time the seller initially contacts the consumer, and before making any other statement, except a greeting, or asking the consumer any other questions, that the purpose of the contact is to effect a sale, by doing all of the following:

01. **Solicitor's Identity.** Stating the identity of the person making the solicitation. (1-21-92)

02. **Trade Name of Seller.** Stating the trade name of the seller represented by the person making the solicitation. (1-21-92)

03. **Types of Goods or Services Offered.** Stating the kind of goods or services being offered for sale. (1-21-92)

04. **In-Person Contact.** In the case of an “in person” contact, the seller making the solicitation shall, in addition to orally revealing the above information, show or display identification which states:

a. The identity of the person making the solicitation; (1-1-79)

b. The trade name of the seller represented by the person making the solicitation; and (1-21-92)

c. The address of the place of business of one of such persons so identified. (1-1-79)

161. **GENERAL RULE (RULE 161).**
It is an unfair and deceptive act or practice for a seller, in soliciting a sale or order for the sale of goods or services,
either in person or by telephone, at other than appropriate trade premises, to:

01. **Misleading Plan.** Use any plan, scheme, or ruse which misrepresents his true identity or purpose.

02. **Representations with Capacity to Mislead.** Use any representations which have the capacity, tendency, or effect of misleading or deceiving a consumer acting reasonably under the circumstances in order to induce a sale, rental, lease, or order for the sale, rental, or lease of goods or services.

03. **Leaving Premises.** Fail to promptly leave the premises at which a sales solicitation or presentation is made when the consumer has indicated he does not wish to buy, lease, rent, or order the offered goods or services, or has requested that the person leave the premises.

**162. PROHIBITED PRACTICES (RULE 162).**

It is an unfair and deceptive act or practice for a seller:

01. **Misrepresentations About How or Why Consumer Selected.** In soliciting a sale or order for the sale of goods or services, either in person or by telephone, at other than appropriate trade premises, to:
   a. Represent that the seller making the solicitation is making an offer to specially selected persons or that the consumer has been specifically selected, unless the selection process is designed to reach a particular type or types of persons; or
   b. Represent that the seller making the solicitation is conducting a survey, test, or research project, or is engaged in a contest or other venture to win a cash award, scholarship, vacation, or similar prize, if in fact the principal purpose or objective is to make a sale of goods or services or to obtain information to help identify sales prospects.

02. **Misleading Practices.** In soliciting a sale or order for the sale of goods or services, either in person or by telephone, at other than appropriate trade premises, to misrepresent, directly or by implication:
   a. The identity of the seller, the person on whose behalf the seller is making solicitations, the seller’s affiliation or association with other firms, businesses, or governmental entities, or the identity of the goods or services he offers to sell. For example, the X City Fire Department is putting on a fireman’s ball. It hires a professional solicitor who is getting a percentage of the proceeds. The solicitor and his employees and agents should identify themselves on the telephone as follows: “I am Pat Telemarketer of XYZ Productions and I am calling for the X City Fire Department.”
   b. The reasons for, existence of, or amounts of price reductions;
   c. The length of any sales presentation;
   d. The delivery or performance date; or
   e. The nature or purpose of any documents the consumer is requested or required to execute in connection with the purchase or lease of any goods or services.

**163. MAIL ORDER AND CATALOG SALES (RULE 163).**

It is an unfair and deceptive act or practice for a seller engaged in trade and commerce at other than appropriate trade premises, to fail to disclose the legal name under which business is done and the complete street address from which business is actually conducted in all advertising and promotional materials, including order blanks and forms.

**164. APPLICATION OF OTHER RULES (RULE 164).**

Pursuant to CPR 5, subchapter P is not intended to contain the only rules governing solicitations or transactions occurring at other than appropriate trade premises.
170. GENERAL RULE (RULE 170).
In connection with any door-to-door sale, it is an unfair and deceptive act or practice for a seller to: (1-21-92)

01. Written Disclosures. Fail to furnish the consumer with a fully completed receipt or copy of any contract pertaining to such sale at the time of its execution, which is in the same language, e.g., Spanish, as that principally used in the oral sales presentation and which shows the date of the transaction and contains the name and street address of the seller, and the following statement in ten (10) point type in immediate proximity to the space reserved in the contract for the signature of the consumer or on the front page of the receipt if a contract is not used:
YOU, THE BUYER, MAY CANCEL THIS TRANSACTION AT ANY TIME PRIOR TO MIDNIGHT OF THE THIRD BUSINESS DAY AFTER THE DATE OF THIS TRANSACTION. SEE THE ATTACHED NOTICE OF CANCELLATION FORM FOR AN EXPLANATION OF THIS RIGHT. (1-21-92)

02. Notice of Cancellation. Fail to furnish each consumer, at the time he signs the door-to-door sales contract or otherwise agrees to buy goods or services from the seller, a completed form in duplicate, captioned “NOTICE OF CANCELLATION,” which shall be attached to the contract or receipt and easily detachable, and which shall contain in ten (10) point bold face type the following statement in the same language, e.g., Spanish, as that used in the contract:

NOTICE OF CANCELLATION
enter date of transaction
Date

YOU MAY CANCEL THIS TRANSACTION, WITHOUT ANY PENALTY OR OBLIGATION, WITHIN THREE BUSINESS DAYS FROM THE ABOVE DATE.

IF YOU CANCEL, ANY PROPERTY TRADED IN, ANY PAYMENTS MADE BY YOU UNDER THE CONTRACT OR SALE, AND ANY NEGOTIABLE INSTRUMENT EXECUTED BY YOU WILL BE RETURNED WITHIN 10 BUSINESS DAYS FOLLOWING RECEIPT BY THE SELLER OF YOUR CANCELLATION NOTICE, AND ANY SECURITY INTEREST ARISING OUT OF THE TRANSACTION WILL BE CANCELLED.

IF YOU CANCEL, YOU MUST MAKE AVAILABLE TO THE SELLER AT YOUR RESIDENCE, IN SUBSTANTIALLY AS GOOD CONDITION AS WHEN RECEIVED, ANY GOOD DELIVERED TO YOU UNDER THIS CONTRACT OR SALE; OR YOU MAY IF YOU WISH, COMPLY WITH THE INSTRUCTIONS OF THE SELLER REGARDING THE RETURN SHIPMENT OF THE GOODS AT THE SELLER’S EXPENSE AND RISK.

IF YOU DO MAKE THE GOODS AVAILABLE TO THE SELLER AND THE SELLER DOES NOT PICK THEM UP WITHIN 20 DAYS OF THE DATE OF YOUR NOTICE OF CANCELLATION, YOU MAY RETAIN OR DISPOSE OF THE GOODS WITHOUT ANY FURTHER OBLIGATION. IF YOU FAIL TO MAKE THE GOODS AVAILABLE TO THE SELLER, OR IF YOU AGREE TO RETURN THE GOODS TO THE SELLER AND FAIL TO DO SO, THEN YOU REMAIN LIABLE FOR PERFORMANCE OF ALL OBLIGATIONS UNDER THE CONTRACT.

TO CANCEL THIS TRANSACTION, MAIL OR DELIVER A SIGNED AND DATED COPY OF THIS CANCELLATION NOTICE OR ANY OTHER WRITTEN NOTICE, OR SEND A TELEGRAM, TO (address of seller’s place of business) NOT LATER THAN MIDNIGHT OF (Date). (1-21-92)

03. Completed Notice of Cancellation. Fail, before furnishing copies of the “Notice of Cancellation” to the consumer, to complete both copies by entering the name of the seller, the address of the seller’s place of
business, the date of the transaction, and the date, not earlier than the third business day following the date of the
transaction, by which the consumer may give notice of cancellation. (1-21-92)

04. Purported Waivers. Include in any door-to-door contract or receipt any confession of judgment or
any waiver of any of the rights to which the consumer is entitled under subchapter Q, including, specifically, his right
to cancel the sale in accordance with the provisions of subchapter Q. (7-1-93)

05. Oral Notice of Cancellation. Fail to inform each consumer orally, at the time he signs the contract
or purchases the goods or services, of his right to cancel. (1-21-92)

06. Misrepresent Right to Cancel. Misrepresent in any manner the consumer’s right to cancel. (1-21-92)

07. Failure to Honor Notice of Cancellation. Fail or refuse to honor any valid notice of cancellation
by a consumer and within ten (10) business days after the receipt of such notice, to:

a. Refund all payments made under the contract or sale; (1-1-79)

b. Return any goods or property traded in, in substantially as good condition as when received by the
seller; and (1-21-92)

c. Cancel and return any negotiable instrument executed by the consumer in connection with the
contract or sale and take any action necessary or appropriate to promptly terminate any security interest created in the
transaction. (1-21-92)

08. Transferring Evidences of Indebtedness. Negotiate, transfer, sell, or assign any note or other
evidence of indebtedness to a finance company or other third party prior to midnight of the fifth business day
following the day the contract was signed or the goods or services were purchased. (1-21-92)

09. Transferring Traded Goods. Transfer, sell, or assign any goods traded in prior to midnight of the
fifth business day following the day the contract was signed or the goods or services were purchased. (1-21-92)

abandon any goods previously shipped or delivered to the consumer under the cancelled contract. (1-21-92)

171. -- 179. (RESERVED)

Subchapter R -- Referral Sales
(Rules 180 - 189)

180. GENERAL RULE (RULE 180).
It is an unfair and deceptive act or practice for a seller to engage in any referral sale. (1-21-92)

181. ADDITIONAL REMEDIES AVAILABLE TO THE CONSUMER (RULE 181).
Pursuant to Section 28-32-411, Idaho Code, (Idaho Credit Code), if a consumer is induced by a violation of the
referral sale prohibition to enter into a purchase, the agreement is unenforceable by the seller and the consumer, at his
option, may rescind the agreement or retain the goods delivered and the benefit of any services performed without
any obligation to pay for them. However, this remedy applies only if the purchase is made on credit and only if the
consumer is acquiring the goods or services primarily for personal, family, household or agricultural purposes as
defined in the Credit Code. (1-21-92)

182. ELECTION OF REMEDIES (RULE 182).
The consumer may elect the remedy provided in CPR 181 as an alternative to any other remedy he may have under
the Act. However, other remedies under the Act would be available to the consumer even if the purchase is not made
on credit and/or even if the goods are acquired for a purpose other than personal, family, household, or agricultural
purposes. (7-1-93)
183. -- 189. (RESERVED)

Subchapter S -- Pyramid and Chain Distribution Schemes
(Rules 190 - 199)

190. GENERAL RULE (RULE 190).
It is an unfair and deceptive act or practice for a seller to promote, offer, advertise, or grant participation in a pyramid or chain distribution scheme.

191. PURPORTED LIMITATIONS (RULE 191).
A limitation as to the number of persons who may participate, or the presence of additional conditions affecting eligibility, or the fact that, in addition to the right to receive consideration for participation in the marketing plan, a person introduced into the plan actually receives something of value, does not, in and of itself, change the character of the marketing plan as a chain or pyramid distribution scheme.

192. FACTORS (RULE 192).
In determining whether a promotion is a pyramid or chain distribution scheme, the following factors, among others, may be considered:

01. Amount of Fees. Whether a substantial fee is required for entry and continued participation in the promotion. Requirement of a substantial fee suggests that the promotion is an unlawful pyramid or chain distribution scheme.

02. Refund Policies. Whether the purchase of nonrefundable goods is required for entry and continued participation in the promotion or whether a consumer’s right to a refund is subject to significant restrictions. Requirement of such purchase or purchases or significant restrictions placed on a consumer’s right to obtain a refund suggests that the promotion is an unlawful pyramid or chain distribution scheme.

03. Plan’s Primary Focus. Whether the primary focus of the promotion is the opportunity for financial gain through the recruitment of more participants, not the sale of goods or services. Marketing programs based primarily upon the recruitment of other participants suggest that the promotion is an unlawful pyramid or chain distribution scheme.

04. Price of Goods. Whether the goods, if any, for which the promotion allegedly exists to distribute, are inflated in price. An inflated price for the goods suggests that the promotion is an unlawful pyramid or chain distribution scheme.

193. -- 199. (RESERVED)

Subchapter T -- Loan Broker Fees
(Rules 200 - 209)

200. GENERAL RULE (RULE 200).
It is an unfair and deceptive act or practice for a loan broker to:

01. Prohibited Practices. Directly or indirectly receive any fee, interest, or other charge of any nature, including, but not limited to, payments to information providers, from a consumer until a loan or extension of credit is made to the consumer or a written commitment to loan or extend credit is delivered to the consumer by an exempt loan broker.

02. Qualifying for a Loan. Advertise that all or most consumers or that consumers with bad credit or no credit histories will qualify for a loan.

03. Conditions of Loan. Advertise loan brokering services without clearly and conspicuously
disclosing any material restrictions regarding obtaining a loan, the cost of the service, and the maximum period of
time the loan broker will take to arrange or make the loan to the consumer. (7-1-93)

04. **Written Disclosure.** Fail to provide the consumer a written contract with the following information
contained therein:

a. The name, street address, and telephone number of the loan broker; (7-1-93)

b. The maximum period of time the loan broker will take to arrange or make the loan to the consumer; and (7-1-93)

c. The following statement in at least ten point, bold face type in immediate proximity to the space
reserved in the contract for the signature of the consumer:

YOU THE CONSUMER ARE UNDER NO OBLIGATION TO PAY ANY FEE OR CHARGE OF ANY
NATURE UNLESS AND UNTIL YOU RECEIVE THE MONEY FROM THE LOAN APPLIED FOR OR A
WRITTEN COMMITMENT TO LOAN OR EXTEND CREDIT FROM A QUALIFIED LENDING INSTITUTION
AS DEFINED BY IDAHO CONSUMER PROTECTION RULE 20.25, CODIFIED AT IDAPA 04.02.01.020.25. (7-1-93)

201. **EXCEPTIONS (RULE 201).**
CPR 200 does not apply to fees and charges authorized by the laws of the state of Idaho or the laws of the United
States if the maximum charge and the manner of collecting the charge are set out in the law or in the rule or regulation
adopted under law. (7-1-93)

202. -- 209. (RESERVED)

Subchapter U -- Preservation of Consumers' Claims and Defenses (Holder in Due Course)
(Rules 210 - 219)

210. **GENERAL RULE (RULE 210).**
It is an unfair and deceptive act or practice for a seller, directly or indirectly, to:

01. **Accept Contract Without Written Notice.** Take or receive a consumer credit contract which fails
to contain the following statement in at least ten (10) point, bold face type:

NOTICE

ANY HOLDER OF THIS CONSUMER CREDIT CONTRACT IS SUBJECT TO ALL CLAIMS AND
DEFENSES WHICH THE DEBTOR COULD ASSERT AGAINST THE SELLER OF GOODS OR SERVICES
OBTAINED PURSUANT HERETO OR WITH THE PROCEEDS HEREOF. RECOVERY HEREUNDER BY THE

02. **Accept Monies Without Written Notice.** Accept, as full or partial payment for such sale or lease,
the proceeds of any purchase money loan, unless any consumer credit contract made in connection with such
purchase money loan contains the following statement in at least ten point, bold face type:

ANY HOLDER OF THIS CONSUMER CREDIT CONTRACT IS SUBJECT TO ALL CLAIMS AND
DEFENSES WHICH THE DEBTOR COULD ASSERT AGAINST THE SELLER OF GOODS OR SERVICES
OBTAINED WITH THE PROCEEDS HEREOF. RECOVERY HEREUNDER BY THE DEBTOR SHALL NOT

02. Bills. Send any bill to a consumer for unordered goods or services. (7-1-93)

04. Requiring Consumer Consent. Require a consumer to consent or authorize the receipt of or provision for unordered goods or services as a condition of doing business with the person. (1-21-92)

221. -- 229. (RESERVED)

Subchapter W -- Automobile Advertising and Sales
(Rules 230 - 239)

230. OBJECTIVE (RULE 230).
It is the objective of subchapter W to implement the intent of the legislature as declared in Section 48-601, Idaho Code, by furthering truthful and accurate advertising and sales practices for the benefit of the citizens and motor vehicle dealers of this state by providing for motor vehicle advertising and sales rules applicable to motor vehicle dealers. (7-1-93)

231. APPLICATION OF OTHER RULES (RULE 231).
Pursuant to CPR 5, subchapter W is not intended to contain the only rules governing automobile advertising and sales practices. (7-1-93)

232. GENERAL ADVERTISING PRACTICES (RULE 232).
The following are unfair and deceptive advertising practices:

01. Clear and Conspicuous Disclosure of Material Terms. The advertising of any motor vehicle for sale, lease, rent without clearly and conspicuously disclosing all material terms and conditions relating to the offer. Material terms include those without which the advertisement would have the capacity, tendency, or effect of misleading or deceiving consumers acting reasonably under the circumstances. (7-1-93)

02. Footnotes and Asterisks. Use of one (1) or more disclosures by footnote or asterisk which alone or in combination confuse, contradict, materially modify, or unreasonably limit a principal message of the advertisement. (1-21-92)

03. Print Size. Use of any print in type size so small as to be not readily noticeable. An advertisement is misleading if important disclosures made therein are relegated to small print and inconspicuously buried at the bottom of the page. (1-21-92)

04. Photographs and Illustrations. Use of inaccurate photographs or illustrations when describing specific automobiles. For example, advertising a fully-loaded car when the ad actually refers to a minimally-equipped automobile in text. (1-21-92)
05. **Color Contrasts.** Use of color contrasts which render the text confusing or difficult to read. (1-21-92)

06. **Abbreviations.** Advertising with abbreviations which are not commonly understood by the general public (e.g., abbreviations commonly understood—AC, AM/FM, AUTO, AIR, 2DR, CYL Dealer’s Doc Fee, MSRP, and OAC) unless approved by federal or state law (e.g., terms allowed by the Federal Truth in Lending Act, 15 U.S.C. Section 1601 et seq., such as “APR”). (7-1-93)

233. **PRICE ADVERTISING (RULE 233).**
It is an unfair and deceptive act or practice for a dealer to:

01. **Advertised Price.** Advertise the price of a motor vehicle without including in the advertised price all costs to the consumer at the time of sale, or which are necessary or usual prior to delivery of such vehicle to the consumer, including without limitation, any costs of freight, delivery, dealer preparation, and any other charges of any nature; provided, however, the following may be excluded from the advertised price of the motor vehicle:

   a. Taxes, license, and title fees; and (1-21-92)

   b. A dealer documentation service fee, as defined herein, so long as the advertisement clearly and conspicuously discloses, in close proximity to the advertised price, the amount of such fee and that the fee is a dealer imposed fee; i.e. PRICE DOES NOT INCLUDE $______ (insert actual amount charged for dealer documentation service fee) DEALER DOC FEE. (1-21-92)

02. **Advertising Limitations.** Fail to clearly and conspicuously disclose in an advertisement any material limitations including, but not limited to:

   a. The number of motor vehicles in stock subject to the offer if the number is not likely to meet reasonably expected public demand; (1-21-92)

   b. The period of time during which the offer is in effect, if the offer is subject to a time limitation of fourteen (14) days or less or when an offer is within fourteen (14) days of its close; and (7-1-93)

   c. Any other applicable restrictions to which the advertised price may be subject. (1-21-92)

03. **Low Prices.** Use the term “low prices” or words of similar meaning or import in the advertisement, unless the prices offered are lower than those usually offered by the dealer or other dealers in the same trade area. (7-1-93)

04. **Lowest Prices, Guaranteed Lowest Prices.** Advertise that motor vehicles cost less in a particular community or geographic area or use the terms “lowest prices,” “guaranteed lowest prices,” “prices lower than anyone else,” “nobody can beat our prices,” or words of similar meaning or import in the advertisement, unless the dealer, or dealer association in the case of cooperative dealer advertising, systematically monitors and continues to monitor competitive prices in the trade area and can substantiate such claims. (7-1-93)

05. **Price Matching.** Use terms “meet your best offer,” or “we won’t be undersold,” or terms of similar meaning or import which suggest that a dealer will beat or match a competitor’s price unless:

   a. The advertisement clearly and conspicuously discloses the dealer’s price matching policy and any limitations; and (1-21-92)

   b. Such policy does not require the presentation of any evidence which places an unreasonable burden on the consumer. (1-21-92)

06. **Dealer’s Cost.** Except as required in CPR 233.07.a., advertise a motor vehicle using any reference to the term “dealer’s cost,” or that a motor vehicle is available for purchase at, above or below “cost.” (7-1-93)
07. **Invoice Pricing.** Advertise that a motor vehicle is available for purchase at an amount below, at, or above “factory invoice,” “factory billing,” “manufacturer’s invoice,” or terms of similar meaning or import, unless:

a. The advertisement uses the terms “factory invoice,” “manufacturer’s invoice,” or other terms that clearly convey that the invoice referred to is the factory or manufacturer’s invoice;  

b. The advertised reference to factory or manufacturer’s invoice price shall be the final price listed on the factory or manufacturer’s invoice;  

c. The following disclosure is clearly and conspicuously disclosed in the advertisement: “FACTORY INVOICE MAY NOT REFLECT DEALER’S ACTUAL COST”; and  

d. The original factory or manufacturer’s invoice, or a true and correct copy thereof, shall be readily available at the place of business for inspection by prospective customers.

08. **Vehicle Availability.** Subject to CPR 233.01 and CPR 233.02, fail to allow consumers to purchase all motor vehicles described by the advertisement at the advertised price. If some motor vehicles in stock may not be purchased at the advertised prices, the advertisement shall clearly and conspicuously disclose that the advertised price applies only to a specified number of motor vehicles. Vehicle identification numbers for any motor vehicle advertised for sale by a dealer shall be readily available at the dealer’s place of business for inspection by customers.

09. **Buy-Down Rate.** Advertise the sale of any motor vehicle at a “buy-down” rate, as that term is defined herein, without clearly and conspicuously disclosing in the advertisement the following: “BELOW MARKET RATE MAY AFFECT PURCHASE PRICE OF CAR.”

10. **Hidden Finance Charges.** Fail to include hidden finance charges (i.e. the difference, if any, between the cash and credit price of a “buy-down” motor vehicle) in the Truth in Lending calculation and disclosure requirements.

234. **OTHER ADVERTISING PRACTICES (RULE 234).**

It is an unfair and deceptive act or practice for a dealer to:

01. **Demonstrator Vehicles.** Advertise any demonstrator vehicle without clearly and conspicuously disclosing:

a. The year, make, and model of the motor vehicle; and  

b. That the motor vehicle is a “demonstrator” or has been previously driven.

02. **Executive or Official Vehicles.** Advertise any executive or official vehicle:

a. Without clearly and conspicuously disclosing the year, make, and model of the motor vehicle;  

b. Without clearly and conspicuously disclosing that the motor vehicle is an executive or official vehicle and has been previously driven, using the words “Pre-Driven,” or “Previously Driven,” or words of similar meaning;  

c. Without displaying the Used Car Buyers Guide on the motor vehicle as required by the Federal Trade Commission Rule on Used Motor Vehicles (16 C.F.R. 455); or  

d. By using any word or phrase which would lead a reasonable consumer to believe that the advertised motor vehicle is a new motor vehicle.

03. **Leased Vehicles.** Advertise any leased vehicle:
a. Without clearly and conspicuously disclosing the year, make, and model of the motor vehicle; (1-21-92)

b. Without clearly and conspicuously disclosing that the motor vehicle is a leased vehicle; (1-21-92)

c. Without displaying the Used Car Buyers Guide on the motor vehicle as required by the Federal Trade Commission Rule on Used Motor Vehicles (16 C.F.R. 455); or (1-21-92)

d. By using any word or phrase which would lead a reasonable consumer to believe that the advertised motor vehicle is a new motor vehicle. (1-21-92)

04. Other Used Motor Vehicles. Advertise any other used motor vehicle: (7-1-93)

a. Without clearly and conspicuously disclosing the year, make, and model of the motor vehicle; (1-21-92)

b. Without displaying the Used Car Buyers Guide on the motor vehicle as required by the Federal Trade Commission Rule on Used Motor Vehicles (16 C.F.R. 455); or (1-21-92)

c. By using any word or phrase which would lead a reasonable consumer to believe that the advertised motor vehicle is a new motor vehicle. (1-21-92)

05. Dealer Rebates. Advertise that a consumer will receive a payment of money, or that a payment will be made to a third person on the consumer’s behalf, in conjunction with the purchase or lease of a motor vehicle, unless the payment is being offered by the manufacturer of the motor vehicle. A dealer may also advertise any manufacturer’s rebate for which the manufacturer requires any financial participation by the dealer so long as the dealer clearly and conspicuously discloses in the advertisement the following disclosure: “DEALER PARTICIPATION IN THE REBATE PROGRAM MAY INCREASE VEHICLE PRICE BEFORE REBATE.” (7-1-93)

06. Trade-In Allowances. Advertise or offer a specific trade-in allowance (i.e., “$2500 minimum trade-in”), including, without limitation, that the trade-in will be valued at a specific amount or guaranteed minimum amount if:

a. The price of the motor vehicle offered for sale is increased because of the amount of the allowance; (7-1-93)

or

b. The offer fails to disclose that it is conditioned upon the purchase of additional options or services, if such is the case. (1-21-92)

07. Trade-In Policies. Advertise or offer a range of amounts for trade-ins (e.g., “up to $1,000” or “as much as $1,000”), unless the advertisement clearly and conspicuously discloses the criteria the dealer will use to determine the amount to be paid for a particular trade-in. Such criteria might include age, condition, or mileage of the motor vehicle. (7-1-93)

08. No Money Down. Advertise using the phrase “no down payment,” “no money down,” or words of similar meaning, unless, subject to the consumer’s credit approval, the dealer is willing to sell the advertised motor vehicle to a consumer without the requirement of a trade-in or prior payment of any kind. (7-1-93)

09. Dealer’s Size. Use statements as to the dealer’s size, inventory, or sales volume to represent or imply that the dealer can and does sell automobiles at a lower price, as a result of such size, inventory, or volume, than do other dealers, unless such is the fact. (7-1-93)

10. Factory Outlet. Advertise using the terms “Factory Outlet,” “Authorized Distribution Center,” or similar special affiliation, connection or relationship with the manufacturer that is greater or more direct than that of any other dealer, when, in fact, no such affiliation, connection, or relationship exists. (7-1-93)
11. **Contract Add-Ons.** Negotiate the terms of a sale and thereafter add the cost of items to the contract, including, without limitation, extended warranties, credit life, dealer preparation, or undercoating, to the contract without previously disclosing this to the consumer and without first obtaining the consumer’s consent. (7-1-93)

**235. CREDIT SALES ADVERTISING (RULE 235).**

It is an unfair and deceptive act or practice for a dealer to:

01. **Disclosure Requirements.** Fail to clearly and conspicuously disclose in connection therewith that the advertised credit terms are available “On Approved Credit,” or the abbreviation, “OAC.” In advertising credit terms, a dealer shall also comply with either CPR 235.01.a. or CPR 235.01.b. below: (7-1-93)

   a. Credit terms advertised by a dealer shall be calculated on the basis of the total retail price of the advertised motor vehicle (which, for purposes of calculating credit terms must include any applicable dealer documentation service fee, as defined herein) plus taxes, license, and title fees, from which may be subtracted only the amount of the advertised down payment; or (1-21-92)

   b. The credit terms advertised by a dealer may be calculated exclusive of taxes, license, and title fees and the dealer’s documentation service fee so long as the following statement (or a statement of similar meaning) is clearly and conspicuously disclosed in connection with the credit sale advertisement: “DOES NOT INCLUDE TAXES, TITLE, LICENSE FEES OR $_______ DEALER DOC FEE” (insert actual amount charged for dealer documentation service fee). (1-21-92)

02. **Advertised Terms Unavailable.** Advertise credit terms that are not actually available. (7-1-93)

03. **Advertised Finance Rates.** Advertise a finance rate (A.P.R.) without disclosing, if such is the fact, the following: (7-1-93)

   a. That such rate is limited to certain models; (1-21-92)

   b. That to take advantage of such a reduced rate, a consumer must purchase additional options or services; (1-21-92)

   c. That taking advantage of the rate will increase the final price of the vehicle or options or services purchased; (1-21-92)

(4-7-11)

02. Electronic Service. If a party has appeared in a contested case or has not yet appeared but has consented or agreed in writing to service by facsimile transmission (FAX) or e-mail as an alternative to personal service or service by mail, and if authorized by statute, agency rule, notice or order, the officer designated to serve notices and orders in a contested case may serve those notices and orders by FAX or by e-mail in lieu of service by mail or personal service. 03. When Service Complete. Unless otherwise provided by statute, these rules, order or notice, service of orders and notices is complete when a copy, properly addressed and stamped, is deposited in the United States mail or the Statehouse mail, if the party is a State employee or State agency, or when there is an electronic verification that a facsimile transmission or an e-mail has been sent. 057. FEES AND REMITTANCES (RULE 57).
Fees and remittances to the agency must be paid by money order, bank draft or check payable to agency. Remittances
Informal proceedings are proceedings in contested cases authorized by statute, rule or order of the agency to be conducted using informal procedures, i.e., procedures without a record to be preserved for later agency or judicial review, without the necessity of representation according to Rule 202, without formal designation of parties, without the necessity of hearing examiners or other presiding officers, or without other formal procedures required by these rules for formal proceedings. Unless prohibited by statute, an agency may provide that informal proceedings may precede formal proceedings in the consideration of a rulemaking or a contested case.

Statute authorizes and these rules encourage the use informal proceedings to settle or determine contested cases. Unless prohibited by statute, the agency may provide for the use of informal procedure at any stage of a contested case. Informal procedure may include individual contacts by or with the agency staff asking for information, advice or assistance from the agency staff, or proposing informal resolution of formal disputes under the law administered by the agency. Informal procedures may be conducted in writing, by telephone or television, or in person.

If statute provides that informal procedures shall be followed with no opportunity for further formal administrative review, then no opportunity for later formal administrative proceedings must be offered following informal proceedings. Otherwise, except as provided in Rule 103, any person participating in an informal proceeding must be given an opportunity for a later formal administrative proceeding before the agency, at which time the parties may fully develop the record before the agency.

Unless all parties agree to the contrary in writing, informal proceedings do not substitute for formal proceedings and do not exhaust administrative remedies, and informal proceeding are conducted without prejudice to the right of the parties to present the matter formally to the agency. Settlement offers made in the course of informal proceedings are confidential and shall not be included in the agency record of a later formal proceeding.

Formal proceedings, which are governed by rules of procedure other than Rules 100 through 103, must be initiated by a document (generally a notice, order or complaint if initiated by the agency) or another pleading listed in Rules 210 through 280 if initiated by another person. Formal proceedings may be initiated by a document from the agency informing the party(ies) that the agency has reached an informal determination that will become final in the absence of further action by the person to whom the correspondence is addressed, provided that the document complies with the requirements of Rules 210 through 280. Formal proceedings can be initiated by the same document that initiates informal proceedings.
152. **PETITIONERS (RULE 152).**
Persons not applicants who seek to modify, amend or stay existing orders or rules of the agency, to clarify their rights or obligations under law administered by the agency, to ask the agency to initiate a contested case (other than an application or complaint), or to otherwise take action that will result in the issuance of an order or rule, are called “petitioners.”

(3-24-93)

153. **COMPLAINANTS (RULE 153).**

(3-24-93)

158. **PERSONS DEFINED -- PERSONS NOT PARTIES -- INTERESTED PERSONS (RULE 158).**
The term “person” includes natural persons, partnerships, corporations, associations, municipalities, government entities and subdivisions, and any other entity authorized by law to participate in the administrative proceeding. Persons other than the persons named in Rules 151 through 156 are not parties for the purpose of any statute or rule addressing rights or obligations of parties to a contested case. In kinds of proceedings in which persons other than the applicant or claimant or appellant, petitioner, complainant, or respondent would be expected to have an interest, persons may request the agency in writing that they be notified when proceedings of that kind are initiated. These persons are called “Interested Persons.” Interested persons may become protestants, intervenors or public witnesses. The agency must serve notice of such proceedings on all interested persons.

All pleadings responding to the allegations or requests of applications or claims or appeals, complaints, protests, or motions are called “answers.”

01. Answers to Pleadings Other Than Motions. Answers to applications, claims, or appeals, complaints, petitions, or protests must be filed and served on all parties of record within twenty-one (21) days after service of the pleading being answered, unless order or notice modifies the time within which answer may be made, or a motion to dismiss is made within twenty-one (21) days. When an answer is not timely filed under this rule, the presiding officer may issue a notice of default against the respondent pursuant to Rule 700. Answers to applications or claims or appeals, complaints, petitions, or protests must admit or deny each material allegation of the application or claim or appeal, complaint, petition or protest. Any material allegation not specifically admitted shall be considered to be denied. Matters alleged by cross-complaint or affirmative defense must be separately stated and numbered.

02. Answers to Motions. Answers to motions may be filed by persons or parties who are the object of a motion or by parties opposing a motion. The person or party answering the motion must do so with all deliberate and reasonable speed. In no event is a party entitled to more than fourteen (14) days to answer a motion or to move for additional time to answer. The presiding officer may act upon a prehearing motion under Rule 565.

Petitions not timely filed must state a substantial reason for delay. The presiding officer may deny or conditionally grant petitions to intervene that are not timely filed for failure to state good cause for untimely filing, to prevent disruption, prejudice to existing parties or undue broadening of the issues, or for other reasons. 01. Form. The petition shall:

a. Identify the petitioner and state the petitioner’s interest in the matter;

b. State the declaratory ruling that the petitioner seeks; and

402. PETITIONS FOR DECLARATORY RULINGS TO BE DECIDED BY ORDER (RULE 402).

01. Final Agency Action. The agency's decision on a petition for declaratory ruling on the applicability of any statute, rule or order administered by the agency is a final agency action decided by order.

02. Content. The order issuing the declaratory ruling shall contain or must be accompanied by a document containing the following paragraphs or substantially similar paragraphs:

a. This is a final agency action issuing a declaratory ruling.

b. Pursuant to Sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by this declaratory ruling may appeal to district court by filing a petition in the District Court in the county in which:

i. A hearing was held;

ii. The declaratory ruling was issued;

iii. The party appealing resides, or operates its principal place of business in Idaho; or

iv. The real property or personal property that was the subject of the declaratory ruling is located.

c. This appeal must be filed within twenty-eight (28) days of the service date of this declaratory ruling. See Section 67-5273, Idaho Code.
410. APPOINTMENT OF HEARING OFFICERS (RULE 410).
A hearing officer is a person other than the agency head appointed to hear contested cases on behalf of the agency. Unless otherwise provided by statute or rule, hearing officers may be employees of the agency or independent contractors. Hearing officers may be (but need not be) attorneys. Hearing officers who are not attorneys should ordinarily be persons with technical expertise or experience in issues before the agency. The appointment of a hearing officer is a public record available for inspection, examination and copying. (3-24-93)

411. HEARING OFFICERS CONTRASTED WITH AGENCY HEAD (RULE 411).
Agency heads are not hearing officers, even if they are presiding at contested cases. The term “hearing officer” as used in these rules refers only to officers subordinate to the agency head. (3-24-93)

412. DISQUALIFICATION OF OFFICERS HEARING CONTESTED CASES (RULE 412).
Pursuant to Section 67-5252, Idaho Code, any party shall have a right to one (1) disqualification without cause of any person serving or designated to serve as a presiding officer and any party shall have a right to move to disqualify a hearing officer for bias, prejudice, interest, substantial prior involvement in the case other than as a presiding officer, status as an employee of the agency hearing the contested case, lack of professional knowledge in the subject matter of the contested case, or any other reason provided by law or for any cause for which a judge is or may be disqualified. Any party may, within fourteen (14) days, petition for the disqualification of a hearing officer after receiving notice that the officer will preside at a contested case or promptly upon discovering facts establishing grounds for disqualification, whichever is later. Any party may assert a blanket disqualification for cause of all employees of the agency hearing the contested case, other than the agency head, without awaiting the designation by a presiding officer. A hearing officer whose disqualification is requested shall determine in writing whether to grant the petition for disqualification, stating facts and reasons for the hearing officer’s determination. Disqualification of agency heads, if allowed, will be pursuant to Sections 59-704 and 67-5252(4), Idaho Code. (3-24-93)

413. SCOPE OF AUTHORITY OF HEARING OFFICERS (RULE 413).
The scope of hearing officers’ authority may be restricted in the appointment by the agency.

01. Scope of Authority. Unless the agency otherwise provides hearing, officers have the standard scope of authority, which is:

a. Authority to schedule cases assigned to the hearing officer, including authority to issue notices of prehearing conference and of hearing, as appropriate; (3-24-93)

b. Authority to schedule and compel discovery, when discovery is authorized before the agency, and to require advance filing of expert testimony, when authorized before the agency; (3-24-93)

c. Authority to preside at and conduct hearings, accept evidence into the record, rule upon objections to evidence, and otherwise oversee the orderly presentations of the parties at hearing; and (3-24-93)

d. Authority to issue a written decision of the hearing officer, including a narrative of the proceedings before the hearing officer and findings of fact, conclusions of law, and recommended or preliminary orders by the hearing officer. (3-24-93)

02. Limitation. The hearing officer’s scope of authority may be limited from the standard scope, either in general, or for a specific proceeding. For example, the hearing officer’s authority could be limited to scope Rule 413.01.c. (giving the officer authority only to conduct hearing), with the agency retaining all other authority. Hearing officers may be given authority with regard to the agency’s rules as provided in Rule 416. (3-24-93)

414. PRESIDING OFFICER(S) (RULE 414).
One (1) or more members of the agency board, the agency director, or duly appointed hearing officers may preside at hearing as authorized by statute or rule. When more than one officer sits at hearing, they may all jointly be presiding officers or may designate one of them to be the presiding officer. (3-24-93)
415. **CHALLENGES TO STATUTES (RULE 415).**
A hearing officer in a contested case has no authority to declare a statute unconstitutional. However, when a court of competent jurisdiction whose decisions are binding precedent in the state of Idaho has declared a statute unconstitutional, or when a federal authority has preempted a state statute or rule, and the hearing officer finds that the same state statute or rule or a substantively identical state statute or rule that would otherwise apply has been challenged in the proceeding before the hearing officer, then the hearing officer shall apply the precedent of the court or the preemptive action of the federal authority to the proceeding before the hearing officer and decide the proceeding before the hearing officer in accordance with the precedent of the court or the preemptive action of the federal authority. (3-24-93)

416. **REVIEW OF RULES (RULE 416).**
When an order is issued by the agency head in a contested case, the order may consider and decide whether a rule of that agency is within the agency’s substantive rulemaking authority or whether the rule has been promulgated according to proper procedure. The agency head may delegate to a hearing officer the authority to recommend a decision on issues of whether a rule is within the agency’s substantive rulemaking authority or whether the rule has been promulgated according to proper procedure or may retain all such authority itself. (3-24-93)

417. **EX PARTE COMMUNICATIONS (RULE 417).**
Unless required for the disposition of a matter specifically authorized by statute to be done ex parte, a presiding officer serving in a contested case shall not communicate, directly or indirectly, regarding any substantive issue in the contested case with any party, except upon notice and opportunity for all parties to participate in the communication. The presiding officer may communicate ex parte with a party concerning procedural matters (e.g., scheduling). Ex parte communications from members of the general public not associated with any party are not required to be reported by this rule. However, when a presiding officer becomes aware of a written ex parte communication regarding any substantive issue from a party or representative of a party during a contested case, the presiding officer shall place a copy of the communication in the file for the case and distribute a copy of it to all parties of record or order the party providing the written communication to serve a copy of the written communication upon all parties of record. Written communications from a party showing service upon all other parties are not ex parte communications. (3-24-93)

418. -- 419. (RESERVED)

420. **CONTRAST BETWEEN AGENCY’S PROSECUTORIAL/INVESTIGATIVE AND ADJUDICATORY FUNCTIONS (RULE 420).**
When statute assigns to an agency both (1) the authority to initiate complaints or to investigate complaints made by the public, and (2) the authority to decide the merits of complaints, the agency is required to perform two distinct functions: prosecutorial/investigative and adjudicatory. In light of these dual functions, Rules 420 through 429 set forth procedures to be followed by the agency head, agency attorneys, agency staff and hearing officers in processing these complaints or responding to citizen inquiries. As used in Rules 420 through 429, the term agency head means the officer or officers who exercise the agency’s ultimate adjudicatory authority and includes individual members of a multimember board or commission comprising the agency head when a multimember board of commission exercises ultimate adjudicatory authority. These rules do not apply to elected constitutional officers in the exercise of their constitutional duties, either individually or in constitutional boards or commissions. (1-1-95)

01. **Prosecutorial/Investigative Function.** The prosecutorial/investigative function (including issuing a complaint) can be performed exclusively by agency attorneys and agency staff. When required or allowed by statute, the agency head may participate in or supervise investigations preceding the issuance of a complaint and may supervise the agency attorneys and agency staff conducting the prosecution of the complaint issued by the agency head, but the agency head (or members of the agency head) shall not participate in the prosecution of a formal contested case hearing for a complaint issued by the agency head unless the agency head or that member does not participate in the adjudicatory function. The investigatory function includes gathering of evidence outside of formal contested case proceedings. The prosecutorial function includes presentation of allegations or evidence to the agency head for determination whether a complaint will be issued, the issuance of a complaint when complaints are issued without the involvement of an agency adjudicator, and presentation of evidence or argument and briefing on the record in a formal contested case proceeding. (1-1-95)
02. **Adjudicatory Function.** The adjudicatory function is performed by the agency head or the agency head’s designee and/or hearing officers. The adjudicatory function includes: deciding whether to issue a complaint upon the basis of allegations before the agency when the decision to issue the complaint is made by an agency head acting in an adjudicatory capacity, i.e., when presented by agency staff in a formal setting with the question whether a complaint shall be issued; deciding whether to accept a consent order or other settlement of a complaint when the decision to accept a consent order or other settlement is made by an agency head acting in an adjudicatory capacity; and deciding the merits of a complaint following presentation of evidence in formal contested case proceedings. The adjudicatory function also includes agency attorneys’ advice to the agency head or hearing officer in the performance of any adjudicatory functions. (1-1-95)

421. **PUBLIC INQUIRIES ABOUT OR RECOMMENDATIONS FOR AGENCY ISSUANCE OF A COMPLAINT (RULE 421).**
This rule sets forth procedures to be followed by the agency head, agency attorneys, agency staff and hearing officers upon receipt of a public inquiry whether, or public recommendation that, the agency issue a complaint. (1-1-95)

01. **The Agency Head.** When the public contacts the agency head to inquire whether a complaint should be issued by the agency or to recommend that a complaint be issued, the agency head may: explain the agency’s procedures; explain the agency’s jurisdiction or authority (including the statutes or rules administered by the agency); and direct the public to appropriate staff personnel who can provide investigatory assistance or who can advise them how to pursue a complaint before the agency. When the agency head issues complaints, the agency head may discuss whether given allegations would, in the agency head’s opinion, warrant the issuance of a complaint or warrant direction to staff to pursue further investigation. No statement of the agency head in response to a public inquiry constitutes a finding of fact or other decision on the underlying matter. (1-1-95)

02. **The Agency Attorney.** When the public contacts an agency attorney to inquire whether a complaint should be issued by the agency or to recommend that a complaint be issued, the agency attorney may: explain the agency’s procedures; explain the agency’s jurisdiction or authority (including an explanation of the statutes or rules administered by the agency); and direct the public to appropriate staff personnel who can provide investigatory assistance or who can advise them how to pursue a complaint before the agency. An agency attorney assigned to a prosecutorial/investigative role may discuss whether given allegations would, in the attorney’s opinion, warrant the issuance of a complaint or warrant direction to staff to pursue further investigation. The agency is not bound by the attorney’s advice or recommendations, and the attorney should notify the public that the agency is not obligated to follow the attorney’s advice or recommendations. (1-1-95)

03. **The Agency Staff.** When the public contacts the agency staff to inquire whether a complaint should be issued or to recommend that a complaint be issued, a member of the agency staff authorized to respond to public inquiries about complaints may: explain the agency’s procedures; explain the agency’s jurisdiction or authority (including an explanation of the statutes or rules administered by the agency); direct the public to appropriate staff personnel who can provide investigatory assistance or who can advise them how to pursue a complaint before the agency; and express an opinion whether given allegations would, in the agency staff’s opinion, warrant the issuance of a complaint or warrant agency staff’s further investigation. The agency is not bound by the agency staff’s advice or recommendations, and the agency staff should notify the public that the agency is not obligated to follow the agency staff’s advice or recommendations. (1-1-95)

04. **Hearing Officers.** When the public contacts a hearing officer to inquire whether a complaint should be issued by the agency or to recommend that a complaint be issued, the hearing officer should not discuss the matter, but should refer the member of the public to other agency personnel. (1-1-95)

422. **CONSIDERATION OF CONSENT AGREEMENT OR OTHER SETTLEMENTS BEFORE COMPLAINT ISSUED (RULE 422).**
This rule sets forth procedures to be followed when a consent agreement, stipulated settlement, or other settlement is negotiated before a complaint is filed. (1-1-95)

01. **Negotiations.** As authorized by the agency, an attorney assigned to a prosecutorial/investigative role or members of the agency staff may negotiate consent agreements or other settlements with any person who might later be the subject of a complaint. When the agency head issues complaints, the agency head may participate in the negotiations. Otherwise, no member of the agency head, no attorney assigned to advise or assist the agency
head in its adjudicatory function, and no hearing officer may participate in these negotiations, but the agency head may have rules or guidelines for issuance of consent agreements or other general policy statements available to guide individual negotiations. (1-1-95)

02. Presentation of Consent Agreement to Agency Head. When the consent agreement provides, or the persons signing the consent agreement contemplate, that the consent agreement must be presented to the agency head for approval, the consent agreement may be presented to the agency head by representatives of any party, unless the agreement provides to the contrary. Any consent agreement presented to the agency head must be served on all parties and on the agency staff. (1-1-95)

03. Agency Head Consideration of Consent Agreement. A consent agreement that is presented to the agency head for approval, disapproval or modification must be reviewed under this rule. The agency head may accept or reject the consent agreement, indicate how the consent agreement must be modified to be acceptable, or inform the parties what further information is required for the agency head’s consideration of the consent agreement. When a consent agreement is rejected, no matter recited in the rejected consent agreement may be used as an admission against a party in any later proceeding before the agency, and any such matter must be proven by evidence independent of the consent agreement. (1-1-95)

423. PROCEDURES AFTER ISSUANCE OF A COMPLAINT AND BEFORE THE AGENCY HEAD'S CONSIDERATION OF THE COMPLAINT (RULE 423).
This rule sets forth procedures to be followed by the agency head, agency attorneys, agency staff and hearing officers after a complaint is issued, while investigation or discovery is underway, while a hearing is conducted, and before the recommended order or preliminary order of the hearing officer is submitted to the agency head (if a hearing officer hears the complaint and issues a recommended or preliminary order). (1-1-95)

Unless authorized or required by statute, the agency head shall not discuss the substance of the complaint ex parte with any representative of any party or with agency attorneys or agency staff involved in the prosecution or investigation of the complaint. The agency head may request periodic progress reporting on staff preparation from an executive director or other staff member in charge. For example, the agency head may ask whether the agency staff will be prepared to present its case by a given date. As required to perform statutory supervisory duties, the agency head may approve or disapprove expenditures associated with the prosecution, authorize retention of experts or outside counsel for the prosecution, address policy issues that may affect the prosecution, and otherwise discharge the agency head’s statutory management and supervisory duties. (1-1-95)

b. Allowed Contacts. The agency head may discuss the substance of the complaint with agency attorneys and agency staff who are not involved in the prosecution or investigation of the complaint. When one or more members of the agency head sits with a hearing officer to hear the contested case, any member of the agency head not participating in the prosecution and not supervising prosecutorial/investigative personnel may discuss the substance of the complaint with the hearing officer. (1-1-95)

Except as authorized by Subsection 423.01.a. of this rule, no agency attorney involved in the investigation or prosecution of a complaint shall discuss the substance of the complaint ex parte with the agency head, a hearing officer assigned to hear the complaint, or with any agency attorney assigned to advise or assist the agency head or to advise or assist a hearing officer assigned to hear the complaint; provided, that when a hearing officer has made a bench ruling and has on the record directed the agency attorney to prepare findings of fact and other reasoning supporting the decision in conformance with the bench ruling, or when a hearing officer has by written document served on all parties ordered the agency attorney to prepare findings of fact and other reasoning supporting the decision in conformance with the written document, the agency attorney may contact the hearing officer in connection with the preparation of the written document to be submitted to the hearing officer. 04. Hearing Officers. Hearing officers may discuss the substance of the complaint with attorneys of the agency assigned to advise or assist the hearing officer and with other hearing officers. Hearing officers may discuss the substance of the complaint with the agency head as authorized by Subsection 423.01.b of this rule. No hearing officer shall discuss the substance of the complaint ex parte with any representative of any party or with agency attorneys or agency staff involved in the prosecution or investigation of the complaint; except: (1-1-95)

As allowed in Subsection 423.01.b. when one (1) or more members of the agency head and the hearing officer hear the complaint, the agency head may consult with the hearing officer who heard the complaint and prepared the recommended order or preliminary order or with other hearing officers. The agency head shall not discuss the substance of the complaint ex parte with any representative of any party or with agency attorneys or agency staff involved in the prosecution or investigation of the complaint; except:

a. Bench Rulings, etc. When the agency head has made a bench ruling and has on the record directed the attorney for a party or the agency attorney to prepare findings of fact and other reasoning supporting the decision in conformance with the bench ruling, or when the agency head has by written document served on all parties directed the attorney for a party or the agency attorney to prepare findings of fact and other reasoning supporting the decision in conformance with the written document, the agency head may contact the attorney for the party or the agency attorney in connection with the preparation of the written document to be submitted to the agency head.

b. Technical Calculations. If the consideration of the complaint requires technical calculations, etc., that can most efficiently be performed by a person who participated in the investigation or hearing, the agency head may direct that person to perform the calculations, etc., for the agency head’s use in the final order.

02. The Agency Attorney

a. Prosecutorial/Investigative Attorneys. No agency attorney involved in the investigation or prosecution of a complaint shall consult with the agency head considering the hearing officer’s recommended order or preliminary order, except as provided in Subsections 423.01 and 423.02.a. An agency attorney who was involved in the investigation or prosecution of the complaint may attend public meetings of the agency head that consider complaints and may respond to questions from the agency head so long as the meetings have been noticed to all parties and all parties have the same opportunity to respond to questions from the agency head as the agency’s prosecutorial/investigative attorneys.

b. Advisory Attorneys. An agency attorney assigned to advise or assist the agency head in consideration of the complaint may consult with the agency head in preparation for or while the agency head is considering the hearing officer’s recommended order or preliminary order or draft final order when one or more members of the agency head heard the case with the hearing officer.

03. The Agency Staff

a. Prosecutorial/Investigative Staff. No member of the agency staff involved in the investigation or prosecution of the complaint shall consult with the agency head in its consideration of the recommended order or preliminary order, but a member of the agency staff who participated in the investigation or prosecution of the complaint may provide technical computations, etc., at the direction of the agency head as provided in Subsection 425.01 of this rule.

b. Advisory Staff. Any member of the agency staff assigned to advise or assist the agency head may consult with the agency head at the agency head’s direction.

04. Hearing Officers. 426. -- 499. (RESERVED)
500. ALTERNATIVE RESOLUTION OF CONTESTED CASES (RULE 500).
The Idaho Legislature encourages informal means of alternative dispute resolution (ADR). For contested cases, the means of ADR include, but are not limited to, settlement negotiations, mediation, factfinding, minitrials, and arbitration, or any combination of them. These alternatives can frequently lead to more creative, efficient and sensible outcomes than may be attained under formal contested case procedures. An agency may use ADR for the resolution of issues in controversy in a contested case if the agency finds that such a proceeding is appropriate. An agency may find that using ADR is not appropriate if it determines that an authoritative resolution of the matter is needed for precedential value, that formal resolution of the matter is of special importance to avoid variation in individual decisions, that the matter significantly affects persons who are not parties to the proceeding, or that a formal proceeding is in the public interest. (3-24-93)

501. NEUTRALS (RULE 501).
When ADR is used for all or a portion of a contested case, the agency may provide a neutral to assist the parties in resolving their disputed issues. The neutral may be an employee of the agency or of another state agency or any other individual who is acceptable to the parties to the proceeding. A neutral shall have no official, financial, or personal conflict of interest with respect to the issues in controversy, unless such interest is disclosed in writing to all parties and all parties agree that the neutral may serve. (3-24-93)

502. CONFIDENTIALITY RULE 502).
Communications in an ADR proceeding shall not be disclosed by the neutral or by any party to the proceeding unless all parties to the proceeding consent in writing, the communication has already been made public, or the communication is required by court order, statute or agency rule to be made public. (3-24-93)

503. -- 509. (RESERVED)

510. PURPOSES OF PREHEARING CONFERENCES (RULE 510).
The presiding officer may by order or notice issued to all parties and to all interested persons as defined in Section 158 convene a prehearing conference in a contested case for the purposes of formulating or simplifying the issues, obtaining concessions of fact or identification of documents to avoid unnecessary proof, scheduling discovery when discovery is authorized before the agency, arranging for the exchange of proposed exhibits or prepared testimony, limiting witnesses, discussing settlement offers or making settlement offers, scheduling hearings, establishing procedure at hearings, and addressing other matters that may expedite orderly conduct and disposition of the proceeding or its settlement. (7-1-97)

511. NOTICE OF PREHEARING CONFERENCE (RULE 511).
Notice of the place, date and hour of a prehearing conference will be served at least fourteen (14) days before the time set for the prehearing conference, unless the presiding officer finds it necessary or appropriate for the conference to be held earlier. Notices for prehearing conference must contain the same information as notices of hearing with regard to an agency’s obligations under the American with Disabilities Act (See Rule 551). (3-24-93)

512. RECORD OF CONFERENCE (RULE 512).
Prehearing conferences may be held formally (on the record) or informally (off the record) before or in the absence of a presiding officer, according to order or notice. Agreements by the parties to the conference may be put on the record during formal conferences or may be reduced to writing and filed with the agency after formal or informal conferences. (3-24-93)
513. ORDERS RESULTING FROM PREHEARING CONFERENCE (RULE 513).
The presiding officer may issue a prehearing order or notice based upon the results of the agreements reached at or rulings made at a prehearing conference. A prehearing order will control the course of subsequent proceedings unless modified by the presiding officer for good cause. (3-24-93)

514. FACTS DISCLOSED NOT PART OF THE RECORD (RULE 514).
Facts disclosed, offers made and all other aspects of negotiation (except agreements reached) in prehearing conferences in a contested case are not part of the record. (3-24-93)

520. KINDS AND SCOPE OF DISCOVERY LISTED (RULE 520).

01. Kinds of Discovery. The kinds of discovery recognized by these rules in contested cases are:

a. Depositions;

b. Production requests or written interrogatories;

c. Requests for admission;

d. Subpoenas; and

e. Statutory inspection, examination (including physical or mental examination), investigation, etc.

02. Rules of Civil Procedure. Unless otherwise provided by statute, rule, order or notice, when discovery is authorized before the agency, the scope of discovery, other than statutory inspection, examination, investigation, etc., is governed by the Idaho Rules of Civil Procedure (see Idaho Rule of Civil Procedure 26(b)).

521. WHEN DISCOVERY AUTHORIZED (RULE 521).
Parties may agree between or among themselves to provide for discovery without reference to an agency’s statutes, rules of procedure, or orders. Otherwise no party before the agency is entitled to engage in discovery unless discovery is authorized before the agency, the party moves to compel discovery, and the agency issues an order directing that the discovery be answered. The presiding officer shall provide a schedule for discovery in the order compelling discovery, but the order compelling and scheduling discovery need not conform to the timetables of the Idaho Rules of Civil Procedure. The agency or agency staff may conduct statutory inspection, examination, investigation, etc., at any time without filing a motion to compel discovery.

522. RIGHTS TO DISCOVERY RECIPROCAL (RULE 522).
All parties to a proceeding have a right of discovery of all other parties to a proceeding as allowed by Rule 521 and the agency’s authorizing statutes and rules. Rules 523 through 525, 527 and 528 set forth the scope of various forms of discovery when those forms of discovery are authorized before the agency, but do not create an independent right of discovery. The presiding officer may by order authorize or compel necessary discovery authorized by statute or rule.

523. DEPOSITIONS (RULE 523).
Depositions may be taken in accordance with the Idaho Rules of Civil Procedure for any purpose allowed by statute, the Idaho Rules of Civil Procedure, or rule or order of the agency.

525. SUBPOENAS (RULE 525).
The agency may issue subpoenas as authorized by statute, upon a party’s motion or upon its own initiative. The agency upon motion to quash made promptly, and in any event, before the time to comply with the subpoena, may quash the subpoena, or condition denial of the motion to quash upon reasonable terms. (3-24-93)

526. STATUTORY INSPECTION, EXAMINATION, INVESTIGATION, ETC. -- CONTRASTED WITH OTHER DISCOVERY (RULE 526).
This rule recognizes, but does not enlarge or restrict, an agency’s statutory right of inspection, examination (including mental or physical examination), investigation, etc. This statutory right of an agency is independent of and cumulative to any right of discovery in formal proceedings and may be exercised by the agency whether or not a person is party to a formal proceeding before the agency. Information obtained from statutory inspection, examination, investigation, etc., may be used in formal proceedings or for any other purpose, except as restricted by statute or rule. The rights of deposition, production request or written interrogatory, request for admission, and subpoena, can be used by parties only in connection with formal proceedings before the agency. (3-24-93)

527. ANSWERS TO PRODUCTION REQUESTS OR WRITTEN INTERROGATORIES AND TO REQUESTS FOR ADMISSION (RULE 527).
Answers to production requests or written interrogatories and to requests for admission shall be filed or served as provided by the order compelling discovery. Answers must conform to the requirements of the Idaho Rules of Civil Procedure. The order compelling discovery may provide that voluminous answers to requests need not be served so long as they are made available for inspection and copying under reasonable terms. (3-24-93)

528. FILING AND SERVICE OF DISCOVERY-RELATED DOCUMENTS (RULE 528).
Notices of deposition, cover letters stating that production requests, written interrogatories or requests for admission have been served, cover letters stating answers to production requests, written interrogatories, or requests for admission have been served or are available for inspection under Rule 527, and objections to discovery must be filed and served as provided in the order compelling discovery. The agency assigns exhibit numbers to each party. (3-24-93)

530. PREPARED TESTIMONY AND EXHIBITS (RULE 530).

531. SANCTIONS FOR FAILURE TO OBEY ORDER COMPELLING DISCOVERY (RULE 531).
The agency may impose all sanctions recognized by statute or rules for failure to comply with an order compelling discovery. (3-24-93)

532. PROTECTIVE ORDERS (RULE 532).
As authorized by statute or rule, the agency may issue protective orders limiting access to information generated during settlement negotiations, discovery, or hearing. (3-24-93)

Notices must list the names of the parties (or the lead parties if the parties are too numerous to name), the case number or docket number, the names of the presiding officers who will hear the case, the name, address and telephone number of the person to whom inquires about scheduling, hearing facilities, etc., should be directed, and the names of persons with whom the documents, pleadings, etc., in the case should be filed if the presiding officer is not the person who should receive those documents. If no document previously issued by the agency has listed the legal authority of the agency to conduct the hearing, the notice of hearing must do so. The notice of hearing shall state that the hearing will be conducted under these rules of procedure and inform the parties where they may read or obtain a copy of the rules of procedure. (3-24-93)

551. FACILITIES AT OR FOR HEARING AND ADA REQUIREMENTS (RULE 551).
All hearings must be held in facilities meeting the accessibility requirements of the Americans with Disabilities Act, and all notices of hearing must inform the parties that the hearing will be conducted in facilities meeting the accessibility requirements of the Americans with Disabilities Act. All notices of hearing must inform the parties and other persons notified that if they require assistance of the kind that the agency is required to provide under the Americans with Disabilities Act (e.g., sign language interpreters, Braille copies of documents) in order to participate in or understand the hearing, the agency will supply that assistance upon request a reasonable number of days before the hearing. The notice of hearing shall explicitly state the number of days before the hearing that the request must be made. (3-24-93)

552. HOW HEARINGS HELD (RULE 552).
Hearings may be held in person or by telephone or television or other electronic means, if each participant in the hearing has an opportunity to participate in the entire proceeding while it is taking place. (3-24-93)

In any proceeding the presiding officer may convene the parties before hearing or recess the hearing to discuss formulation or simplification of the issues, admissions of fact or identification of documents to avoid unnecessary proof, exchanges of documents, exhibits or prepared testimony, limitation of witnesses, establishment of order of procedure, and other matters that may expedite orderly conduct of the hearing. The presiding officer shall state the results of the conference on the record. (3-24-93)

555. PRELIMINARY PROCEDURE AT HEARING (RULE 555).
Before taking evidence the presiding officer will call the hearing to order, take appearances of parties, and act upon any pending motions or petitions. The presiding officer may allow opening statements as necessary or appropriate to explain a party’s presentation. (3-24-93)

556. CONSOLIDATION OF PROCEEDINGS (RULE 556).
The agency may consolidate two (2) or more proceedings for hearing upon finding that they present issues that are related and that the rights of the parties will not be prejudiced. In consolidated hearings the presiding officer determines the order of the proceeding. (3-24-93)

557. STIPULATIONS (RULE 557).
Parties may stipulate among themselves to any fact at issue in a contested case by written statement filed with the presiding officer or presented at hearing or by oral statement at hearing. A stipulation binds all parties agreeing to it only according to its terms. The agency may regard a stipulation as evidence or may require proof by evidence of the facts stipulated. The agency is not bound to adopt a stipulation of the parties, but may do so. If the agency rejects a stipulation, it will do so before issuing a final order, and it will provide an additional opportunity for the parties to present evidence and arguments on the subject matter of the rejected stipulation. (3-24-93)

558. ORDER OF PROCEDURE (RULE 558).
The presiding officer may determine the order of presentation of witnesses and examination of witnesses. (3-24-93)
559. TESTIMONY UNDER OATH (RULE 559).
All testimony presented in formal hearings will be given under oath. Before testifying each witness must swear or affirm that the testimony the witness will give before the agency is the truth, the whole truth, and nothing but the truth. (3-24-93)

560. PARTIES AND PERSONS WITH SIMILAR INTERESTS (RULE 560).
If two (2) or more parties or persons have substantially like interests or positions, to expedite the proceeding and avoid duplication, the presiding officer may limit the number of them who testify, examine witnesses, or make and argue motions and objections. (3-24-93)

(3-24-93)

563. ORAL ARGUMENT (RULE 563).
The presiding officer may set and hear oral argument on any matter in the contested case on reasonable notice according to the circumstances. (3-24-93)

564. BRIEFS -- MEMORANDA -- PROPOSED ORDERS OF THE PARTIES -- STATEMENTS OF POSITION -- PROPOSED ORDER OF THE PRESIDING OFFICER (RULE 564).
In any contested case, any party may ask to file briefs, memoranda, proposed orders of the parties, or statements of position, and the presiding officer may request briefs, proposed orders of the parties, or statements of position. The presiding officer may issue a proposed order of the officer and ask the parties for comment upon the officer’s proposed order. (3-24-93)

565. PROCEDURE ON PREHEARING MOTIONS (RULE 565).
The presiding officer may consider and decide prehearing motions with or without oral argument or hearing. If oral argument or hearing on a motion is requested and denied, the presiding officer must state the grounds for denying the request. Unless otherwise provided by the presiding officer, when a motion has been filed, all parties seeking similar substantive or procedural relief must join in the motion or file a similar motion within seven (7) days after receiving the original motion. 567. -- 599. (RESERVED)

Rules 600 through 609
Evidence in Contested Cases

600. RULES OF EVIDENCE -- EVALUATION OF EVIDENCE (RULE 600).
Evidence should be taken by the agency to assist the parties’ development of the record, not excluded to frustrate that development. The presiding officer at hearing is not bound by the Idaho Rules of Evidence. No informality in any proceeding or in the manner of taking testimony invalidates any order. The presiding officer, with or without objection, may exclude evidence that is irrelevant, unduly repetitious, inadmissible on constitutional or statutory grounds, or on the basis of any evidentiary privilege provided by statute or recognized in the courts of Idaho. All other evidence may be admitted if it is of a type commonly relied upon by prudent persons in the conduct of their affairs. The agency’s experience, technical competence and specialized knowledge may be used in evaluation of evidence. (3-24-93)
601. DOCUMENTARY EVIDENCE (RULE 601).
Documentary evidence may be received in the form of copies or excerpts. Upon request, parties shall be given an opportunity to compare the copy with the original if available. (3-24-93)

602. OFFICIAL NOTICE -- AGENCY STAFF MEMORANDA (RULE 602).
Official notice may be taken of any facts that could be judicially noticed in the courts of Idaho and of generally recognized technical or scientific facts within the agency’s specialized knowledge. Parties shall be notified of the specific facts or material noticed and the source of the material noticed, including any agency staff memoranda and data. Notice that official notice will be taken should be provided either before or during the hearing, and must be provided before the issuance of any order that is based in whole or in part on facts or material officially noticed. Parties must be given an opportunity to contest and rebut the facts or material officially noticed. When the presiding officer proposes to notice agency staff memoranda or agency staff reports, responsible staff employees or agents shall be made available for cross-examination if any party timely requests their availability. (3-24-93)

603. DEPOSITIONS (RULE 603).
Depositions may be offered into evidence. (3-24-93)

604. OBJECTIONS -- OFFERS OF PROOF (RULE 604).
Grounds for objection to the admission or exclusion of evidence must be stated briefly at the time the evidence is offered. Formal exceptions to rulings admitting or excluding evidence are unnecessary and need not be taken. An offer of proof for the record consists of a statement of the substance of the excluded evidence. When a party objects to the admission of evidence, the presiding officer will rule on the objection, or, if the presiding officer is a hearing officer, the presiding officer may receive the evidence subject to later ruling by the agency head. (3-24-93)

605. PREPARED TESTIMONY (RULE 605).
The presiding officer may order a witness’s prepared testimony previously distributed to all parties to be included in the record of hearing as if read. Admissibility of prepared testimony is subject to Rule 600. (3-24-93)

606. EXHIBITS (RULE 606).
Exhibit numbers may be assigned to the parties before hearing. Exhibits prepared for hearing should ordinarily be typed or printed on eight and one-half inch (8 1/2”) by eleven inch (11”) white paper, except maps, charts, photographs and non-documentary exhibits may be introduced on the size or kind of paper customarily used for them. A copy of each documentary exhibit must be furnished to each party present and to the presiding officer, except for unusually bulky or voluminous exhibits that have previously been made available for the parties’ inspection. Copies must be of good quality. Exhibits identified at hearing are subject to appropriate and timely objection before the close of proceedings. Exhibits to which no objection is made are automatically admitted into evidence without motion of the sponsoring party. Neither motion pictures, slides, opaque projections, videotapes, audiotapes nor other materials not capable of duplication by still photograph or reproduction on paper shall be presented as exhibits without advance approval of the presiding officer. (3-24-93)

Rules 610 through 649
Settlements

610. CONFIDENTIALITY OF SETTLEMENT NEGOTIATIONS (RULE 610).
Settlement negotiations in a contested case are confidential, unless all participants to the negotiation agree to the contrary in writing. Facts disclosed, offers made and all other aspects of negotiation (except agreements reached) in settlement negotiations in a contested case are not part of the record. (3-24-93)

611. SUGGESTION FOR OR INQUIRY ABOUT SETTLEMENTS (RULE 611).
Through notice or order or on the record at prehearing conference or hearing, the presiding officer may inquire of the parties in any proceeding whether settlement negotiations are in progress or are contemplated or may invite settlement of an entire proceeding or certain issues. (3-24-93)
612. CONSIDERATION OF SETTLEMENTS (RULE 612).
Settlements must be reviewed under this rule. When a settlement is presented to the presiding officer, the presiding officer will prescribe procedures appropriate to the nature of the settlement to consider the settlement. For example, the presiding officer may summarily accept settlement of essentially private disputes that have no significant implications for administration of the law for persons other than the affected parties. On the other hand, when one or more parties to a proceeding is not party to the settlement or when the settlement presents issues of significant implication for other persons, the presiding officer may convene an evidentiary hearing to consider the reasonableness of the settlement and whether acceptance of the settlement is consistent with the agency’s charge under the law. (3-24-93)

613. BURDENS OF PROOF (RULE 613).
Proponents of a proposed settlement carry the burden of showing that the settlement is in accordance with the law. The presiding officer may require the development of an appropriate record in support of or opposition to a proposed settlement as a condition of accepting or rejecting the settlement. (3-24-93)

614. SETTLEMENT NOT BINDING (RULE 614).
The presiding officer is not bound by settlement agreements that are not unanimously accepted by all parties or that have significant implications for persons not parties. In these instances, the presiding officer will independently review any proposed settlement to determine whether the settlement is in accordance with the law. (3-24-93)

700. NOTICE OF PROPOSED DEFAULT AFTER FAILURE TO APPEAR (RULE 700).
If an applicant or claimant or appellant, petitioner, complainant, or moving party fails to appear at the time and place set for hearing on an application or claim or appeal, petition, complaint, or motion, the presiding officer may serve upon all parties a notice of a proposed default order denying the application or claim or appeal, petition, complaint, or motion. The notice of a proposed default order shall include a statement that the default order is proposed to be issued because of a failure of the applicant or claimant or appellant, petitioner, complainant or moving party to appear at the time and place set for hearing. The notice of proposed default order may be mailed to the last known mailing address of the party proposed to be defaulted. (3-24-93)

701. SEVEN DAYS TO CHALLENGE PROPOSED DEFAULT ORDER (RULE 701).
Within seven (7) days after the service of the notice of proposed default order, the party against whom it was filed may file a written petition requesting that a default order not be entered. The petition must state the grounds why the petitioning party believes that default should not be entered. (3-24-93)

702. ISSUANCE OF DEFAULT ORDER (RULE 702).
The agency shall promptly issue a default order or withdraw the notice of proposed default order after expiration of the seven days for the party to file a petition contesting the default order or receipt of a petition. If a default order is issued, all further proceedings necessary to complete the contested case shall be conducted without participation of the party in default (if the defaulting party is not a movant) or upon the results of the denial of the motion (if the defaulting party is a movant). Interlocutory, Recommended, Preliminary and
Final Orders -- Review or Stay of Orders

710. INTERLOCUTORY ORDERS (RULE 710).
Interlocutory orders are orders that do not decide all previously undecided issues presented in a proceeding, except the agency may by order decide some of the issues presented in a proceeding and provide in that order that its decision on those issues is final and subject to review by reconsideration or appeal, but is not final on other issues. Unless an order contains or is accompanied by a document containing one of the paragraphs set forth in Rules 720, 730 or 740 or a paragraph substantially similar, the order is interlocutory. The following orders are always interlocutory: orders initiating complaints or investigations; orders joining, consolidating or separating issues, proceedings or parties; orders granting or denying intervention; orders scheduling prehearing conferences, discovery, hearing, oral arguments or deadlines for written submissions; and orders compelling or refusing to compel discovery. Interlocutory orders may be reviewed by the officer issuing the order pursuant to Rules 711, 760, and 770. (3-24-93)
711. REVIEW OF INTERLOCUTORY ORDERS (RULE 711).
Any party or person affected by an interlocutory order may petition the officer issuing the order to review the interlocutory order. The officer issuing an interlocutory order may rescind, alter or amend any interlocutory order on the officer’s own motion, but will not on the officer’s own motion review any interlocutory order affecting any party’s substantive rights without giving all parties notice and an opportunity for written comment. (3-24-93)

720. RECOMMENDED ORDERS (RULE 720).

01. Definition. Recommended orders are orders issued by a person other than the agency head that will become a final order of the agency only after review of the agency head (or the agency head’s designee) pursuant to Section 67-5244, Idaho Code. (3-24-93)

02. Content. Every recommended order must contain or be accompanied by a document containing the following paragraphs or substantially similar paragraphs:

a. This is a recommended order of the hearing officer. It will not become final without action of the agency head. Any party may file a petition for reconsideration of this recommended order with the hearing officer issuing the order within fourteen (14) days of the service date of this order. The hearing officer issuing this recommended order will dispose of any petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3), Idaho Code. (3-24-93)

b. Within twenty-one (21) days after (a) the service date of this recommended order, (b) the service date of a denial of a petition for reconsideration from this recommended order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this recommended order, any party may in writing support or take exceptions to any part of this recommended order and file briefs in support of the party’s position on any issue in the proceeding.

(3-24-93)

c. Written briefs in support of or taking exceptions to the recommended order shall be filed with the agency head (or designee of the agency head). Opposing parties shall have twenty-one (21) days to respond. The agency head or designee may schedule oral argument in the matter before issuing a final order. The agency head or designee will issue a final order within fifty-six (56) days of receipt of the written briefs or oral argument, whichever is later, unless waived by the parties or for good cause shown. The agency head (or designee of the agency head) may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. (3-24-93)

721. -- 729. (RESERVED)

730. PRELIMINARY ORDERS (RULE 730).

01. Definition. Preliminary orders are orders issued by a person other than the agency head that will become a final order of the agency unless reviewed by the agency head (or the agency head's designee) pursuant to Section 67-5245, Idaho Code. (3-24-93)

02. Content. Every preliminary order must contain or be accompanied by a document containing the following paragraphs or substantially similar paragraphs:

a. This is a preliminary order of the hearing officer. It can and will become final without further action of the agency unless any party petitions for reconsideration before the hearing officer issuing it or appeals to the hearing officer's superiors in the agency. Any party may file a motion for reconsideration of this preliminary order with the hearing officer issuing the order within fourteen (14) days of the service date of this order. The hearing officer issuing this order will dispose of the petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3), Idaho Code.

(3-24-93)

b. Within fourteen (14) days after (a) the service date of this preliminary order, (b) the service date of the denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days...
to grant or deny a petition for reconsideration from this preliminary order, any party may in writing appeal or take exceptions to any part of the preliminary order and file briefs in support of the party's position on any issue in the proceeding to the agency head (or designee of the agency head). Otherwise, this preliminary order will become a final order of the agency. (3-24-93)

e. If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal within the agency. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the agency head (or designee). The agency head (or designee) may review the preliminary order on its own motion. (3-24-93)

d. If the agency head (or designee) grants a petition to review the preliminary order, the agency head (or designee) shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. The agency head (or designee) will issue a final order within fifty-six (56) days of receipt of the written briefs or oral argument, whichever is later, unless waived by the parties or for good cause shown. The agency head (or designee) may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. (3-24-93)

e. Pursuant to Sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held, (3-24-93)

ii. The final agency action was taken, (3-24-93)

iii. The party seeking review of the order resides, or operates its principal place of business in Idaho, or (7-1-97)

iv. The real property or personal property that was the subject of the agency action is located. (3-24-93)

f. This appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See Section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. (3-24-93)

731. -- 739. (RESERVED)

740. FINAL ORDERS (RULE 740).

01. Definition. Final orders are preliminary orders that have become final under Rule 730 pursuant to Section 67-5245, Idaho Code, or orders issued by the agency head pursuant to Section 67-5246, Idaho Code. Emergency orders issued under Section 67-5247, Idaho Code, shall be designated as final orders if the agency will not issue further orders or conduct further proceedings in the matter. (3-24-93)

02. Content. Every final order issued by the agency head must contain or be accompanied by a document containing the following paragraphs or substantially similar paragraphs: (3-24-93)

a. This is a final order of the agency. Any party may file a motion for reconsideration of this final order within fourteen (14) days of the service date of this order. The agency will dispose of the petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5246(4), Idaho Code. (3-24-93)

b. Pursuant to Sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by this final order or orders previously issued in this case may appeal this final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which: (3-24-93)
A hearing was held, (3-24-93)

The final agency action was taken, (3-24-93)

The party seeking review of the order resides, or operates its principal place of business in Idaho, or (7-1-97)

The real property or personal property that was the subject of the agency action is located. (3-24-93)

c. An appeal must be filed within twenty-eight (28) days (a) of the service date of this final order, (b) of an order denying petition for reconsideration, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See Section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. (3-24-93)

741. ORDERS REGARDING COSTS AND/OR FEES (RULE 741).

01. Scope of Rule. This rule provides procedures for considering requests for costs and/or fees (including attorneys’ fees) when an agency has authority to award costs and/or fees under other provisions of law. This rule is not a source of authority for awarding costs and/or fees. (4-7-11)

02. Time for Filing for Costs and/or Fees Awarded in Final Order or Preliminary Order. Unless otherwise provided by statute or rule of the agency:

a. Minimum time for filing. When a final order or a preliminary order of the agency awards costs and/or fees to a party or to the agency itself, the agency must allow no fewer than fourteen (14) days from the service date of the final order or the preliminary order for the party to whom costs and/or fees were awarded or for the agency to file necessary papers (e.g., a memorandum of costs, affidavits, exhibits, etc.) quantifying and otherwise supporting costs or fees, or both, that will be claimed or a motion to extend the time to file for costs and fees. (4-7-11)

b. Longer time allowed. The final order or preliminary order of the agency may extend the time to file papers for costs and/or fees beyond fourteen (14) days after the service date of the final order or preliminary order. (4-7-11)

c. When time not set forth. If statute, rules of the agency, and the final order or preliminary order of the agency are silent on the time for filing for costs and/or fees the deadline for filing for costs and/or fees and/or for moving for an extension of the time to file for costs and fees is fourteen (14) days from the service date of the final order or preliminary order. (4-7-11)

d. Untimely filing. The agency may exercise its discretion to consider and grant an untimely filing for costs and/or fees for good cause shown. (4-7-11)

e. Contents of filing. No particular form for filing for costs and fees is required, but in the absence of a statute or rule providing for standard costs and/or fees the papers supporting a claim for costs and/or fees should ordinarily contain an affidavit or declaration under oath detailing the costs and/or fees claimed. (4-7-11)

f. Supplemental filings. Paragraphs 741.02.a. through 741.02.e. of this rule do not prohibit a party or the agency from supplementing a filing for costs and/or fees. (4-7-11)

03. Time for Petitioning for Costs and/or Fees When Costs and/or Fees Not Awarded in Final Order or Preliminary Order. Unless otherwise provided by statute:

a. Petition for reconsideration. When a final order or preliminary order of the agency does not award costs or fees to a party, and a party contends that the party is entitled to an award of costs and/or fees the party must file a petition for reconsideration addressing costs and/or fees within fourteen (14) days of the service date of the final order or preliminary order if the party wishes the agency to award costs and/or fees. (4-7-11)
b. Combination with other issues. The petition for reconsideration on costs and/or fees may be combined with a petition for reconsideration on other issues. (4-7-11)

c. Quantification not necessary. The petition for reconsideration can confine itself to the legal issue of entitlement to costs and/or fees and need not quantify the party’s claimed costs and/or fees. However, the petition can be accompanied by papers quantifying the claimed costs and/or fees. (4-7-11)

d. Legal authority. Every petition for reconsideration filed under Subsection 741.03 should cite the source of the agency’s legal authority to award costs and/or fees. The agency may (but need not) deny a petition that omits a citation to legal authority to award costs and/or fees. (4-7-11)

04. Oppositions. Unless otherwise provided by statute or rule of the agency, or extended by notice or order or the agency, oppositions to requests for costs and/or fees filed under Subsections 741.02 or 741.03 of this rule or motions to extend the time to oppose requests for costs and/or fees filed under Subsections 741.02 or 741.03 of this rule must be filed and served within fourteen (14) days of the service date of the petition to be timely. The agency may exercise its discretion to consider and grant an untimely opposition for good cause shown. (4-7-11)

05. Orders Granting or Denying Costs and/or Fees. Every agency order granting or denying a request for costs and/or fees must cite the statutes or rules under which it is deciding the request for costs and/or fees. (4-7-11)
790. PERSONS WHO MAY APPEAL (RULE 790).
Pursuant to Section 67-5270, Idaho Code, any party aggrieved by a final order of an agency in a contested case may appeal to district court. Pursuant to Section 67-5271, Idaho Code, a person is not entitled to judicial review of an agency action in district court until that person has exhausted all administrative remedies available with the agency, but a preliminary, procedural, or intermediate agency action or ruling is immediately reviewable in district court if review of the final agency action would not provide an adequate remedy. (3-24-93)

791. NOTICE OF APPEAL (RULE 791).
The notice of appeal must be filed with the agency and with the district court and served on all parties. (3-24-93)

01. Filing. Pursuant to Section 67-5272, Idaho Code, appeals may be filed in the District Court of the county in which:

a. The hearing was held,
   (3-24-93)
b. The final agency action was taken,
   (3-24-93)
c. The party seeking review of the agency action resides, or operates its principal place of business in Idaho, or
   (7-1-97)
d. The real property or personal property that was the subject of the agency is located. (3-24-93)

02. Time. Pursuant to Section 67-5273, Idaho Code, a petition for judicial review of a final order in a contested case must be filed within twenty-eight (28) days:

a. Of the service date of the final order, (3-24-93)
b. Of the denial of the petition for reconsideration, or (3-24-93)
c. The failure within twenty-one (21) days to grant or deny the petition for reconsideration. (3-24-93)

SUBCHAPTER C -- RULEMAKING
Rules 800 through 860
Rulemaking

Rules 800 through 809
Introduction

800. FORMAL AND INFORMAL RULEMAKING (RULE 800).
Formal rulemaking refers only to rulemaking procedures associated with formal notice of proposed rulemaking, receipt of and consideration of written or oral comment on the record in response to notice of proposed rulemaking, and adoption of rules. Informal rulemaking refers to informal procedures for development of, comment upon, or review of rules for later formal consideration. No rule may come into effect solely as a result of informal rulemaking. Agreements coming from informal rulemaking must be finalized by formal rulemaking. (3-24-93)

801. -- 809. (RESERVED)
810. LEGISLATIVE PREFERENCE FOR NEGOTIATED RULEMAKING PROCEDURES (RULE 810).
This rule addresses informal, negotiated rulemaking as described by Section 67-5220, Idaho Code. The agency, when feasible, shall proceed by informal, negotiated rulemaking in order to improve the substance of proposed rules by drawing upon shared information, expertise and technical abilities possessed by the affected persons; to arrive at a consensus on the content of the rule; to expedite formal rulemaking; and to lessen the likelihood that affected persons will resist enforcement or challenge the rules in court.

811. PUBLICATION IN IDAHO ADMINISTRATIVE BULLETIN (RULE 811).
If the agency determines that informal, negotiated rulemaking is feasible, it shall publish in the Idaho Administrative Bulletin a notice of intent to promulgate a rule. If the agency determines that informal, negotiated rulemaking is not feasible, it shall explain in its notice of intent to promulgate rules why informal rulemaking is not feasible and shall proceed to formal rulemaking as provided in this chapter. Reasons why the agency may find that informal, negotiated rulemaking is not feasible include, but are not limited to, the need for temporary rulemaking, the simple nature of the proposed rule change, the lack of identifiable representatives of affected interests, or determination that affected interests are not likely to reach a consensus on a proposed rule. The determination of the agency whether to use informal, negotiated rulemaking is not reviewable.

812. CONTENTS OF NOTICE OF INTENT TO PROMULGATE RULES (RULE 812).
The notice of intent to promulgate rules shall announce that the agency intends to proceed by way of informal, negotiated rulemaking to develop a proposed rule and shall include:

01. Subject Matter. A brief, nontechnical statement of the subject matter to be addressed in the proposed rulemaking.
02. Authority. The statutory authority for the rulemaking.
03. Obtain Copy. An explanation how to obtain a preliminary draft of the proposed rules, if one is available.
04. Issues. The principal issues involved and the interests which are likely to be significantly affected by the rule.
05. Agency Contacts. The person(s) designated to represent the agency.
06. Method of Participation. An explanation how a person may participate in the informal, negotiated rulemaking.
07. Schedule. A proposed schedule for written comments or for a public meeting of interested persons, and a target date, if one exists, to complete negotiation and to publish a proposed rule for notice and comment.

813. PUBLIC MEETINGS (RULE 813).
The agency may convene public meetings of interested persons to consider the matter proposed by the agency and to attempt to reach a consensus concerning a proposed rule with respect to the matter and any other matter the parties determine is relevant to the proposed rule. Person(s) representing the agency may participate in the deliberations.

814. REPORTS TO THE AGENCY (RULE 814).
If the parties reach a consensus on a proposed rule, they shall transmit to the agency a report stating their consensus and, if appropriate, a draft of a proposed rule incorporating that consensus. If the parties are unable to reach a consensus on particular issues, they may transmit to the agency a report specifying those areas on which they reached consensus and those on which they did not, together with arguments for and against positions advocated by various
participants. The participants or any individual participant may also include in a report any information, recommendations, or materials considered appropriate. (3-24-93)

815. AGENCY CONSIDERATION OF REPORT (RULE 815).
The agency may accept in whole or in part or reject the consensus reached by the parties in publishing a proposed rule for notice and comment. (3-24-93)

816. -- 819. (RESERVED)

Rules 820 through 829
Petition to Initiate Rulemaking

820. FORM AND CONTENTS OF PETITION TO INITIATE RULEMAKING (RULE 820).
This rule addresses petitions to initiate rulemaking as described by Section 67-5230, Idaho Code. (3-24-93)

01. Requirement. Any person petitioning for initiation of rulemaking must substantially comply with this rule. (3-24-93)

02. Form and Contents. The petition must be filed with the agency and shall:
   a. Identify the petitioner and state the petitioner’s interest(s) in the matter; (3-24-93)
   b. Describe the nature of the rule or amendment to the rule urged to be promulgated and the petitioner’s suggested rule or amendment; and (3-24-93)
   c. Indicate the statute, order, rule, or other controlling law, and the factual allegations upon which the petitioner relies to support the proposed rulemaking. Legal assertions in the petition may be accompanied by citations of cases and/or statutory provisions. (3-24-93)

821. AGENCY RESPONSE TO PETITION (RULE 821).

01. Action of Agency. Within twenty-eight (28) days after the agency has received a petition to initiate rulemaking, the agency shall initiate rulemaking proceedings in accordance with Sections 67-5220 through 67-5225, Idaho Code, or deny the petition in writing, stating its reasons for the denial, unless the rulemaking authority is in a multi-member agency board or commission whose members are not full-time officers or employees of the state, in which case the multi-member board or commission shall have until the first regularly scheduled meeting of the multi-member board or commission that takes place seven (7) or more days after submission of the petition to initiate rulemaking proceedings in accordance with Sections 67-5220 through 67-5225, Idaho Code, or deny the petition in writing, stating its reasons for the denial. (7-1-97)

02. Denial. If the petition is denied, the written denial shall state:
   a. The agency has denied your petition to initiate rulemaking. This denial is a final agency action within the meaning of Section 67-5230, Idaho Code. (3-24-93)
   b. Pursuant to Section 67-5270, Idaho Code, any person aggrieved by this final agency action may seek review of the denial to initiate rulemaking by filing a petition in the District Court of the county in which:
      i. The hearing was held, (3-24-93)
      ii. This final agency action was taken, (3-24-93)
      iii. The party seeking review resides, or operates its principal place of business in Idaho, or (7-1-97)
      iv. The real property or personal property that was the subject of the denial of the petition for

Section 815 Page 611
rulemaking is located. (3-24-93) c. This appeal must be filed within twenty-eight (28) days of the service date of this denial of the petition to initiate rulemaking. See Section 67-5273, Idaho Code. (3-24-93)

822. NOTICE OF INTENT TO INITIATE RULEMAKING CONSTITUTES ACTION ON PETITION (RULE 822).
The agency may initiate rulemaking proceedings in response to a petition to initiate rulemaking by issuing a notice of intent to promulgate rules in the Idaho Administrative Bulletin on the subject matter of the petition if it wishes to obtain further comment whether a rule should be proposed or what rule should be proposed. Issuance of a notice of intent to promulgate rules satisfies an agency’s obligations to take action on the petition and is not a denial of a petition to initiate rulemaking. (3-24-93)

823. -- 829. (RESERVED)

Rules 830 through 839
Procedure on Rulemaking for Proposed and Pending Rules

830. REQUIREMENTS FOR NOTICE OF PROPOSED RULEMAKING (RULE 830).

01. Content of Notice of Proposed Rulemaking. Every notice of proposed rulemaking filed with the Coordinator for publication in the Bulletin shall include: (4-7-11)

a. A statement of the specific statutory authority authorizing the rulemaking, including a citation to the specific section of Idaho Code that has occasioned the rulemaking or the federal statute or regulation if that is the basis of authority or requirement for the rulemaking; (4-7-11)

b. A statement in nontechnical language of the substance of the proposed rules, including a specific description of any fee or charge being imposed or increased; (4-7-11)

c. A statement whether the agency intends to conduct oral presentations concerning the proposed rules, and, if not, what persons must do in order to request an oral presentation. If the agency intends to take oral testimony on the proposed rule, the location, date and time of any public hearing must be included; (4-7-11)

d. A specific description, if applicable, of any negative fiscal effect on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year in which the pending rule will become effective; (4-7-11)

e. The mailing address to which written comments and requests for public hearings concerning the proposed rules must be mailed. If the agency accepts comments and requests by facsimile transmission (FAX) or by e-mail, the FAX number or e-mail address, or both, at which comments may be delivered must be provided; (4-7-11)

f. The name and telephone number of an agency contact to whom technical questions about the proposed rules may be referred; (4-7-11)

i. The text of the proposed rules in legislative format. (4-7-11)

a. In all cases. The agency must file the information required in Subsection 830.01 of this rule with the Coordinator for publication in the Bulletin. The Coordinator is responsible for transmitting all required
rulemaking documents to the Director of Legislative Services for analysis. (4-7-11)

b. When fees are imposed or increased. In addition, if a fee or charge is imposed or increased through the proposed rulemaking, the agency must prepare and file with the Coordinator a statement of economic impact. This cost/benefit analysis must reasonably estimate the agency’s costs to implement the rule and reasonably estimate the costs that would be borne by citizens, the private sector, or both, if the fees or charges being proposed are imposed by the rule. The cost/benefit analysis is not part of the proposed rulemaking notice and is not published in the Bulletin; it is a separate document that is submitted as part of the proposed rulemaking filing. (4-7-11)

03. Incorporation by Reference. If an agency proposes to incorporate by reference into its rules any codes, standards or rules authorized by subsection 67-5229(1), Idaho Code, for incorporation by reference, the agency’s notice of proposed rulemaking must also include the following information required by subsection 67-5229(2), Idaho Code:

a. Required information. A brief synopsis explaining why the incorporation is needed. (4-7-11)

b. Electronic link or other access. A statement that notes where an electronic copy can be obtained or that provides an electronic link to the incorporated materials. If an electronic link is provided, at a minimum the link must be posted on the agency’s website or included in the rule that is published in the Administrative Code on the Coordinator’s website. If the incorporated material is copyrighted or otherwise unavailable, the rule must note where a copy of the incorporated materials may be viewed or purchased. (4-7-11)

c. Identification of version or edition incorporated. The agency must provide all of the information required by Subsection 67-5229(2), Idaho Code, regarding identifying with specificity the version or edition of the code, standard or rule that is incorporated by reference, including, but not limited to, the date the document was published, approved or adopted, or became effective. (4-7-11)

d. Example incorporations. The following are examples of the kind of specificity required by this Section and by Subsection 67-5229(2), Idaho Code:

iii. Code of Federal Regulations, Title 40, Part 35 Environmental Protection Agency’s Regulations for State and Local Assistance under the Clean Water Act, Subpart A (July 1, 2009), available online at http://frwebgate.access.gpo.gov/cgi-bin/get-cfr.cgi?TITLE=40&PART=35&SUBPART=A&TYPE=PDF&YEAR=2009; and (4-7-11)

831. INFORMAL PHASES OF FORMAL RULEMAKING (RULE 831). In addition to the formal phases of rulemaking proceedings, the agency may schedule meetings after the formal proposal of rules to explain the operation of the rules proposed. (3-24-93)

832. COMMENTS ON PROPOSED RULES (RULE 832). Deadlines for comment upon proposed rules or amendments to proposed rules will be set forth in the Idaho Administrative Bulletin. Comments should be made to the officers listed in the notices of proposed rulemaking published in the Idaho Administrative Bulletin. Further information concerning individual rulemaking should be directed to the contact person listed for that rulemaking in the Idaho Administrative Bulletin. (3-24-93)
833. PETITIONS FOR ORAL PRESENTATION (RULE 833).

01. Requirement. Any person petitioning for an opportunity for an oral presentation in a substantive
rulemaking must substantially comply with this rule. (3-24-93)

02. Content. The petition shall:

   a. Identify the petitioner and state the petitioner’s interests in the matter, (3-24-93)

   b. Describe the nature of the opposition to or support of the rule or amendment to the rule proposed to
   be promulgated by the agency, and (3-24-93)

   c. Indicate alternative proposals of the petitioner and any statute, order, rule or other controlling law
   or factual allegations upon which the petitioner relies to support the request for the opportunity to provide an oral
   presentation. Legal assertions in the petition may be accompanied by citations of cases and/or statutory provisions.
   (3-24-93)

03. Oral Presentation. Within fourteen (14) days after receiving a petition for an oral presentation, the
agency shall schedule the oral presentation or deny it. The agency shall provide an opportunity for oral presentation if
requested by twenty-five (25) persons, a political subdivision, or another agency, but no oral presentation need be
provided when the agency has no discretion as the substantive content of a proposed rule because the proposed rule is
intended solely to comply with a controlling judicial decision or court order, or with the provisions of a statute or
federal rule that has been amended since the adoption of the agency rule. If oral presentation is granted, notice of the
oral presentation shall be published in the Idaho Administrative Bulletin. If oral presentation is denied, the denial
shall state the grounds for denial. (3-24-93)

834. THE RULEMAKING RECORD (RULE 834).
The agency shall maintain a record of each rulemaking proceeding. (3-24-93)

01. Contents. The record for a rulemaking proceeding shall include:

   a. Copies of all publications in the Idaho Administrative Bulletin relating to that rulemaking
   proceeding; (3-24-93)

   b. All written petitions, submissions, and comments received by the agency, and the agency’s
   responses to those petitions, submissions and comments; (3-24-93)

   c. All written materials considered by the agency in connection with formulating the proposal or
   adoption of the rule; (3-24-93)

   d. A record of any oral presentations, any transcriptions of oral presentations, and any memoranda
   summarizing the contents of such presentations; and (3-24-93)

   e. Any other materials or documents prepared in conjunction with the rulemaking, including any
   summaries prepared for the agency in considering the rulemaking. (3-24-93)

02. Recording or Reporting. All oral presentations shall be recorded on audiotape or videotape or
may be taken by a qualified court reporter at the agency’s expense. The agency may provide for a transcript of the
proceeding at its own expense. Persons may have a transcript of an oral presentation prepared at their own expense.
(7-1-97)

835. ADOPTION AND PUBLICATION OF PENDING RULES FOLLOWING COMMENT OR ORAL
PRESENTATION (RULE 835).

01. Adoption. After the expiration of the written comment period for rulemaking and following any
oral presentation on the rulemaking, but no sooner than seven (7) days after the expiration of the comment period, the
agency shall consider fully all issues presented by the written and oral submissions respecting the proposed rule before adopting a pending rule.

02. Publication. Upon the agency's adoption of a pending rule, the agency shall publish the text of the pending rule in the bulletin, except that with the permission of the coordinator, the agency need not publish the full text of the pending rule if no significant changes have been made from the text of the proposed rule as published in the bulletin, but the notice of adoption of the pending rule must cite the volume of the bulletin where the text is available and must note all changes that have been made. In addition, the agency must publish in the bulletin a concise explanatory statement containing:

   a. The reasons for adopting the pending rule;
   b. A statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for any changes;
   c. The date on which the pending rule will become final and effective pursuant to Section 67-5224(5), Idaho Code;
   d. A statement that the pending rule may be rejected, amended or modified by concurrent resolution of the Legislature;
   e. An identification of any portion of the pending rule imposing or increasing a fee or charge and stating that this portion of the pending rule shall not become final and effective unless affirmatively approved by concurrent resolution of the Legislature; and
   f. A statement how to obtain a copy of the agency’s written review of and written responses to the written and oral submissions respecting the proposed rule.

03. Rule Imposing or Increasing Fees. When any pending rule imposes a new fee or charge or increases an existing fee or charge, the agency shall provide the coordinator with a description of that portion of the rule imposing a new fee or charge or increasing an existing fee or charge, along with a citation of the specific statute authorizing the imposition or increase of the fee or charge.

836. FINAL RULES (RULE 836). Pending rules may become final rules, or may be rejected, amended or modified by concurrent resolution of the Legislature, as provided in Section 67-5224, Idaho Code.

837. -- 839. (RESERVED)

840. PROCEDURE FOR ADOPTION OF TEMPORARY RULES (RULE 840).

01. Gubernatorial Finding. The agency may adopt temporary rules upon the Governor’s finding that protection of the public health, safety, or welfare, compliance with deadlines in amendments to governing law or federal programs, or conferring a benefit requires a rule to become effective before it has been submitted to the Legislature for review. No temporary rule imposing a fee or charge may become effective before it has been approved, amended or modified by concurrent resolution of the Legislature unless the Governor finds that the fee or charge is necessary to avoid immediate danger that justifies the imposition of the fee or charge.

02. Effective Date. Temporary rules take effect according to the effective date specified in the rules. Temporary rules may be immediately effective.

03. Expiration. The purposes of these discussions between investigative/prosecutorial staff and the potential applicant, which will be open to interested members of the public, will be to gain understanding of the application to follow, to simplify or clarify issues that will be the subject of the application to follow, and to generally improve the presentations of all parties in the contested case hearing that will follow. A hearing officer is a person other than the Attorney General appointed to hear contested cases on behalf of the Attorney General. Hearing officers may be deputy attorneys general, other employees of the Attorney General or independent contractors. Hearing officers may be (but need not be) attorneys. Hearing officers who are not attorneys should ordinarily be persons with technical expertise or experience in issues of health care providers' cooperative agreements. The appointment of a hearing officer is a public record available for inspection, examination and copying.

411. HEARING OFFICERS CONTRASTED WITH ATTORNEY GENERAL (RULE 411).

The Attorney General is not a hearing officer, even if the Attorney General presides at a contested case. The term “hearing officer” as used in these rules refers only to presiding officers other than the Attorney General.

412. DISQUALIFICATION OF OFFICERS HEARING CONTESTED CASES (RULE 412).

Pursuant to Section 67-5252, Idaho Code, there are two (2) rules for disqualification of hearing officers. (1-1-95)

01. Disqualification in Applications for Certificate. Section 39-4303(3) requires applications for a certificate of public advantage to be heard within sixty (60) days. Accordingly, under Section 67-5252, Idaho Code, no party to the contested case can disqualify a hearing officer except for cause.
02. **Disqualification in Other Contested Cases.** In other contested cases, any party shall have a right to one (1) disqualification without cause of any person serving or designated to serve as a hearing officer. Any party shall have a right to move to disqualify a hearing officer for bias, prejudice, interest, substantial prior involvement in the case other than as a presiding officer, status as an employee of the Attorney General, lack of professional knowledge in the subject matter of the contested case, or any other reason provided by law or for any cause for which a judge is or may be disqualified. (1-1-95)

03. **Motion for Disqualification.** Any party may, within fourteen (14) days, petition for the disqualification of a hearing officer after receiving notice that the officer will preside at a contested case or promptly upon discovering facts establishing grounds for disqualification, whichever is later. A hearing officer whose disqualification is requested shall determine in writing whether to grant the motion for disqualification, stating facts and reasons for the hearing officer’s determination. Disqualification of the Attorney General is not allowed. See Sections 59-704 and 67-5252(4), Idaho Code. (1-1-95)

414--419. **(RESERVED)**

c. **Rules 420 through 429 -- Responsibility for Investigative/Prosecutorial and Adjudicatory Functions upon Consideration of Contested Cases**

420. **CONTRAST BETWEEN OFFICE OF ATTORNEY GENERAL’S INVESTIGATIVE/PROSECUTORIAL AND ADJUDICATORY FUNCTIONS (RULE 420).**

Rules 420 through 429 set forth procedures to be followed by the Office of the Attorney General in processing applications for a certificate of public advantage and in conducting proceedings to revoke certificates of public advantage. (1-1-95)

01. **Investigative/Prosecutorial Function.** The investigative/prosecutorial function is performed by deputy attorneys general and other personnel or consultants assigned to review applications for a certificate of public advantage or to prosecute proposed revocations of certificates of public advantage. The investigative/prosecutorial function includes gathering of evidence concerning an application or potential revocation outside of formal contested case proceedings, presentation of allegations or evidence for determination whether a complaint to revoke a certificate will be issued, and presentation of evidence in a formal contested case proceeding. (1-1-95)

02. **Adjudicatory Function.** The adjudicatory function is performed by a hearing officer appointed by the Attorney General or by the Attorney General upon review of the hearing officer’s preliminary order. The adjudicatory function includes deciding whether to issue a complaint for revocation of a certificate upon the basis of allegations before the Office of the Attorney General, deciding whether to accept a consent order or other settlement of a complaint, and deciding the merits of an application or a complaint following presentation of evidence in formal contested case proceedings. A deputy attorney general may be assigned to be a hearing officer. (1-1-95)

421. **PUBLIC INQUIRIES ABOUT OR RECOMMENDATIONS FOR COMPLAINT (RULE 421).**

This rule sets forth procedures to be followed by the Office of the Attorney General upon receipt of an inquiry whether or how an application for a certificate should be made or whether a complaint to revoke a certificate should be issued. (1-1-95)

01. **The Attorney General.** When the public contacts the Attorney General, the Attorney General may: explain the office’s procedures; explain the office’s jurisdiction or authority (including the statutes or rules administered by the Attorney General); and direct the public to appropriate staff personnel who can provide assistance or who can advise them how to pursue a formal proceeding before the Attorney General. No statement of the Attorney General in response to a public inquiry constitutes a finding of fact, conclusion of law or other decision on the underlying matter. (1-1-95)
02. **Deputy Attorneys General.** When the public contacts a deputy attorney general (other than a deputy attorney general assigned to be a hearing officer) to inquire whether or how an application for a certificate should be made or a complaint to revoke a certificate should be issued, the deputy attorney general may: explain the procedures to be followed; explain the Attorney General’s jurisdiction or authority (including an explanation of the statutes or rules administered by the Attorney General); and direct the public to appropriate staff personnel who can provide investigatory assistance or who can advise them how to pursue a formal proceeding before the Attorney General. A deputy attorney general assigned to an investigative/prosecutorial role may discuss whether given allegations would, in the deputy’s opinion, warrant the issuance of a certificate or a complaint to revoke a certificate or warrant direction to staff to pursue further investigation. Neither a hearing officer nor the Attorney General is bound by the deputy’s advice or recommendations, and the deputy should notify the public that neither a hearing officer nor the Attorney General is obligated to follow the deputy’s advice or recommendations. (1-1-95)

03. **Other Staff.** When the public contacts other staff in the Office of the Attorney General to inquire whether or how an application for a certificate should be made or a complaint to revoke a certificate should be issued, a staff member authorized to respond may: explain the Attorney General’s procedures; explain the Attorney General’s jurisdiction or authority (including an explanation of the statutes or rules administered by the Attorney General); direct the public to appropriate staff personnel who can provide investigatory assistance or who can advise them how to pursue a complaint before the Attorney General; and express an opinion whether given allegations would, in the staff’s opinion, warrant the issuance of a complaint or warrant staff’s further investigation. Neither the hearing officer nor the Attorney General is bound by the staff’s advice or recommendations, and the staff should notify the public that neither the hearing officer nor the Attorney General is obligated to follow the staff’s advice or recommendations. (1-1-95)

04. **Hearing Officers.** When the public contacts a hearing officer to inquire whether or how an application for a certificate should be made or a complaint to revoke a certificate should be issued, the hearing officer should not discuss the matter, but should refer the member of the public to other personnel. (1-1-95)

**422. CONSIDERATION OF CONSENT AGREEMENT OR OTHER SETTLEMENTS (RULE 422).**

This rule sets forth procedures to be followed by the Office of the Attorney General when a consent agreement, stipulated settlement, or other settlement is negotiated before an application for a certificate of public advantage or a complaint for revocation of a certificate is filed.

A hearing officer will be assigned to review the consent agreement. The hearing officer may accept or reject the consent agreement, indicate how the consent agreement must be modified to be acceptable, or inform the parties what further information is required for consideration of the consent agreement. When a consent agreement is rejected, no matter recited in the rejected consent agreement may be used as an admission against a party in any later proceeding before the Attorney General, and any such matter must be proven by evidence independent of the consent agreement. (1-1-95)

528. -- 530. (RESERVED)

531. SANCTIONS FOR FAILURE TO OBEY ORDER SCHEDULING DISCOVERY (RULE 531).
The hearing officer may impose all sanctions recognized by statute or rule for failure to comply with an order
scheduling discovery. In particular, whether or not the applicant has consented to discovery, the hearing officer may
find that the applicant has not met its burden of persuasion of the benefits of the cooperative agreement if the
applicant will not comply with reasonable requests for discovery on material relevant to its application.
(1-1-95)
TIMETABLE FOR PROCESSING APPLICATION FOR CERTIFICATE OF PUBLIC ADVANTAGE (RULE 540).
Section 39-4903(3), Idaho Code, provides that the Attorney General must grant or deny an application for a certificate of public advantage within sixty (60) days of the date of the filing of the application. The Attorney General interprets this timetable as establishing an applicant’s right to receive a decision on the merits within sixty (60) days, not as divesting the Attorney General of jurisdiction to make a decision more than sixty (60) days after filing the application. Furthermore, the Attorney General interprets the applicant’s right to a decision in sixty (60) days as a right that an applicant may waive in writing. (1-1-95)

APPLICANTS’ BURDENS OF PROOF (RULE 541).

01. Burden of Introduction of Evidence on Benefits. Applicants for a certificate of public advantage bear the burden of introduction of evidence that their cooperative agreement provides one (1) or more of the following benefits: (1-1-95)
   a. The quality of health care provided to consumers in the state will be enhanced. (1-1-95)
   b. A hospital, if any, and other health care facilities that customarily serve the communities in the area likely affected by the cooperative agreement will be preserved. (1-1-95)
   c. Services provided by the parties to the cooperative agreement will gain cost efficiency. (1-1-95)
   d. The utilization of health care resources and equipment in the area likely affected by the cooperative agreement will improve. (1-1-95)
   e. Duplication of health care resources in the area likely affected by the cooperative agreement will be avoided. (1-1-95)

02. Burden of Persuasion That Benefits Outweigh Disadvantages. Applicants for a certificate of public advantage bear the burden of persuasion by clear and convincing evidence that their agreement produces one (1) or more of the benefits listed in Subsection 541.01 and that these benefits outweigh any disadvantages attributable to a reduction in competition that may result from the agreement, including, but not limited to the following: (1-1-95)
   a. The likely adverse impact, if any, on the ability of health maintenance organizations, preferred provider plans, hospital provider organizations, persons performing utilization review, or other health care payers to negotiate optimal payment and service arrangements with hospitals and other health care providers. (1-1-95)
   b. Whether any reduction in competition among physicians, allied health professionals or other health care providers is likely to result directly or indirectly from the cooperative agreement. (1-1-95)
   c. Whether any arrangements that are less restrictive to competition could likely achieve substantially the same benefits or a more favorable balance of benefits over disadvantages than that likely to be achieved from reducing competition. (1-1-95)

03. Relevance of Providing Supporting Information. In assessing whether the applicant has met its burden of persuasion by clear and convincing evidence that benefits of the cooperative agreement outweigh the disadvantages, the finder of fact may take into account whether the applicant supplied at hearing relevant information available to the applicant. (1-1-95)

APPOINTMENT OF HEARING OFFICER (RULE 542).
The demands on the time of the Attorney General will not ordinarily allow the Attorney General to hear an application. Accordingly, within seven days after the Office of the Attorney General receives either a notice of intent to file an application for a certificate of public advantage or receives an application for a certificate of public advantage, whichever comes first, the Attorney General will appoint a hearing officer to hear the case. The hearing officer will be authorized to issue a preliminary order (i.e., an order that will become final in the absence of review by the Attorney General). The hearing officer will issue a preliminary order rather than a recommended order (an order that becomes final only after review by the Attorney General) because there is not time for a hearing officer to hear a case and issue a recommended order and for the Attorney General to review a recommended order in sixty (60) days.

543. ATTORNEY GENERAL'S REVIEW OF PRELIMINARY ORDER DISCRETIONARY (RULE 543).
The Attorney General’s review of a preliminary order is discretionary. The Attorney General will not review a preliminary order without the applicant’s written waiver of the sixty (60) day limit for deciding an application.

544. ORDER GRANTING AN APPLICATION FOR A CERTIFICATE -- ISSUANCE OF CERTIFICATE (RULE 544).

01. Contents of Order. An order granting an application for a certificate of public advantage must recite the parties to the cooperative agreement, attach the cooperative agreement approved by order as an exhibit, find that the benefits of the cooperative agreement outweigh any disadvantages attributable to a reduction in competition that may result from the cooperative agreement, and state whether periodic written updates of the progress of the approved cooperative agreement will be required.

02. Frequency of Periodic Updates. If the order requires periodic written updates, the order may require periodic reports at intervals no more frequently than ninety (90) days.

03. Issuance of Certificate. The Attorney General will issue a certificate of public advantage when a preliminary order of the hearing officer granting an application for a certificate becomes final, if the preliminary order is not reviewed, or concurrently with a final order of the Attorney General granting a certificate, if the Attorney General reviews a preliminary order of the hearing officer and issues a final order granting a certificate.

545. EFFECT OF ISSUANCE OF CERTIFICATE (RULE 545).
If a certificate of public advantage is issued, participants in the approved cooperative agreement are immune from civil enforcement and criminal prosecution for actions that might otherwise violate antitrust law of the state of Idaho taken in furtherance of the cooperative agreement. Nothing in the approval limits the authority of the Attorney General to initiate civil enforcement or criminal prosecution if health care providers have exceeded the scope of the cooperative agreement approved.

546. RECOMMENDATION FOR REVOCATION OF CERTIFICATE -- REVIEW BY ATTORNEY GENERAL (RULE 546).

01. Staff and Other Recommendations. If the investigative/prosecutorial staff of the Attorney General recommends to the Attorney General in writing that a certificate of public advantage be revoked, revoked in part or otherwise modified because the benefits resulting from or likely to result from a cooperative agreement under a certificate of public advantage no longer outweigh any disadvantage attributable to any actual or potential reduction in competition resulting from the cooperative agreement, the staff shall serve a copy of the recommendation upon the parties to the agreement and upon their counsel of record for the application, if there was one. If the Office of the Attorney General receives such a recommendation in writing from the public, the Office of the Attorney General shall serve a copy of the recommendation upon the parties to the agreement and upon their counsel of record, if there was one.

02. The Attorney General's Response. The Attorney General shall consider the recommendation to revoke, revoke in part or modify the certificate of public advantage and find whether the recommendation is substantial enough to warrant the initiation of a complaint to formally investigate. The Attorney General’s finding that the recommendations warrant further investigation by the initiation of a complaint does not constitute a finding.
or conclusion on any underlying matter. (1-1-95)

547. PROCEDURE WHEN COMPLAINT ISSUED (RULE 547).
If the Attorney General accepts a recommendation to initiate a formal investigation by complaint, pursuant to Section 39-4903(12), Idaho Code, the order initiating the complaint shall revoke, revoke in part or modify the certificate of public advantage and inform the parties to the cooperative agreement that they have ten (10) days to contest the revocation, revocation in part or modification of the certificate. An order of revocation, revocation in part or modification of the certificate shall not become effective until ten (10) days have elapsed and the parties to the certificate have not contested the order. If the parties contest the order of revocation, revocation in part or modification, that order shall then be ineffective. (1-1-95)

548. PROCEDURE WHEN REVOCATION CONTESTED (RULE 548).
If a proposed revocation, revocation in part or modification of a certificate of public advantage is contested, the Attorney General shall appoint a hearing officer to hear the complaint as a contested case. The hearing officer shall issue a preliminary order deciding all issues raised by the complaint following a hearing on the merits or a settlement. (1-1-95)

549. TERMINATION OF COOPERATIVE AGREEMENT (RULE 549).
If a party to a cooperative agreement terminates its participation in the cooperative agreement, the party shall file a notice of termination with the Office of the Attorney General within thirty (30) days after the termination takes effect. If all parties to the cooperative agreement terminate their participation in the agreement, the Attorney General shall revoke the certificate of public advantage for the agreement. (1-1-95)

IDAPA 04 – OFFICE OF THE ATTORNEY GENERAL
DOCKET NO. 04-0000-1900F
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 48-1006(1) and 48-1106, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 04, rules of the Office of the Attorney General:

IDAPA 04
• 04.02.02, Idaho Rules of Telephone Solicitations and Pay-Per-Telephone-Call Services

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found (and the Attorney General concurs) that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

These rules govern important matters related to Idaho’s marketplace as regards to telephone solicitations and pay-per-telephone-call services.

The fee or charge imposed by the rules, expressly authorized by Section 48-1006(3)(b), Idaho Code, is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fees would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. These rules and the fees set forth therein are necessary in order to assure that laws and rules regulating the practices of telephone solicitors are enforced.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The fees set forth in these rules impose a fifty-dollar ($50) registration fee upon telephone solicitors required to register with the Attorney General. For those solicitors renewing their registration, the fee is twenty-five dollars ($25).

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to
have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOITIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Mr. DeLange can be reached at (208) 334-4114 or brett.delange@ag.idaho.gov.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

IDAPA 05 – IDAHO DEPARTMENT OF JUVENILE CORRECTIONS
DOCKET NO. 05-0000-1900
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 20-504(10), 20-504(12), 20-520(1)(r), 20-532, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 05, rules of the Idaho Department of Juvenile Corrections:

IDAPA 05
- 05.01.02, Rules and Standards for Secure Juvenile Detention Centers
- 05.01.03, Rules of the Custody Review Board
- 05.01.04, Uniform Standards for Juvenile Probation Services
- 05.02.01, Rules for Residential Treatment Providers
- 05.02.02, Rules for Staff Secure Providers
- 05.02.03, Rules for Reintegration Providers

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. We are repealing 05.02.04 as this chapter has become redundant and unnecessary. On the few occasions when we have used supported living providers, chapter 05.02.03 has been mostly sufficient to meet these needs. For this purpose, we have carried over a couple of sections to chapter 05.02.03. The changes to chapter 05.01.03 are purely housekeeping corrections that pertain to three sections. The changes are: remove an incorrect Idaho Code citation, replace an incorrect form of a pronoun, and remove words because the Custody Review Board doesn’t have the authority to release juveniles from state custody.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.
INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.
