(Sections 240 - 399)
240. SIX-MONTH REVIEWS FOR CHILDREN IN ALTERNATE CARE PLACEMENT.
When a judicial review does not occur at the end of a six (6) month period for any child in alternate care placement, the Department will conduct a case review to assure compliance with all applicable state and federal laws, and to ensure the plan focuses on the goals of safety, permanency and well-being of the child. (5-8-09)

The parent(s) or legal guardian(s), foster parent(s) of a child, and any preadoptive parent(s) or relative(s) providing care for the child, are to be provided with notice of their right to be heard in the six-month review. In the case of an Indian child, the child’s tribe and any Indian custodian must also be provided with notice. Permanency hearings must be held no later than every twelve (12) months after the date of the child’s placement in alternate care and no later than every twelve (12) months thereafter as long as the child remains in alternate care. A twelve (12) month permanency hearing will be held by the court having jurisdiction in the case, if that is the preference of the court. b. As the result of a judicial determination that: (3-28-18)

i. Remaining in the home would be contrary to the child’s welfare; or (3-28-18)

b. The voluntary placement agreement was signed.

03. **AFDC Eligibility.** The child was AFDC (Aid to Families with Dependent Children) eligible in the removal home during the month of the initiation of court proceedings that initiated the removal or the month the voluntary placement agreement is signed. AFDC eligibility is based upon the standards found in the State’s IV-A Plan on July 16, 1996.

However, in these instances, a child is ineligible for Title IV-E until the placement is licensed.

02. **Intrastate Placements That Become Interstate Placements.** If a foster care placement that was initially intrastate becomes an interstate placement because the family with whom the child is placed relocates to another state, a request for foster care licensure will be made through the Interstate Compact on the Placement of Children immediately upon the decision to move the child. If the state to which the family has moved accepts the family’s Idaho foster care license as effective, the placement is considered licensed until a determination is made that

**ADOPTION ASSISTANCE**
900. ADOPTION ASSISTANCE.
The purpose of the adoption assistance program is to encourage the legal adoption of children with special needs who would not be able to have the security of a permanent home without support payments. Applications are made through the Division of Family and Community Services, Resource Development Unit for a determination of eligibility. Once an application for adoption assistance is submitted to the Division of Family and Community Services, the Division will respond with a determination of the child’s eligibility within forty-five (45) days.

01. Determination of Eligibility for Title IV-E Adoption Assistance. Child and Family Services will determine whether a child is a child with special needs. Children applying for adoption assistance benefits must meet Idaho’s definition of a child with special needs according to Section 473 (c) of P.L. 96-272 (The Adoption Assistance and Child Welfare Act of 1980). There are five (5) ways a child can be eligible for Title IV-E adoption assistance:

a. Child is Aid to Families with Dependent Children (AFDC) eligible, is in the custody or care of the public child welfare agency or an Indian tribe with whom the state has a IV-E agreement and meets the definition of a child with special needs. For children whose adoption assistance eligibility is based on the child's AFDC eligibility, the child must meet the AFDC criteria at the time of removal from his home.

i. If the child is removed from his home in accordance with the first judicial determination, such determination must indicate that it was contrary to the welfare of the child to remain in the home.

ii. If the child is removed from the home in accordance with a voluntary out-of-home placement agreement, the child must receive at least one (1) Title IV-E foster care payment to be eligible for Title IV-E adoption assistance.

b. Child is eligible for Supplemental Security Income (SSI) benefits and meets the definition of a child with special needs.

i. A child is eligible for adoption assistance if, at the time the adoption petition is filed, the child has met the requirements for Title XVI (SSI) benefits;

ii. The circumstances of a child's removal from his home or whether the public child welfare agency has responsibility for the child's placement and care are not relevant.

c. Child has been voluntarily relinquished to a private non-profit adoption agency and meets the definition of a child with special needs.

i. The child must meet the requirements, or would have met the requirements, of the AFDC program as such sections were in effect on July 16, 1996, in or for the month in which the relinquishment occurred, or court proceedings were held which led to the removal of the child from his home;

ii. At the time of the voluntary relinquishment, the court must make a judicial determination that it would be contrary to the welfare of the child for the child to remain in the home.

d. Child is eligible for Title IV-E adoption assistance as a child of a minor parent and at the time of the adoption petition the child meets the definition of a child with special needs.

i. The child's parent is in foster care and receiving Title IV-E foster care maintenance payments that cover both the minor parent and child at the time the adoption petition is filed; and

ii. The child continues to reside in the foster home with his minor parent until the adoption petition has been filed. If the child and minor parent have been separated in foster care prior to the time of the adoption petition, the child's eligibility for Title IV-E adoption assistance must be determined based on the child's current and individual circumstances.
e. Child is eligible due to prior Title IV-E adoption assistance eligibility and meets the definition of a child with special needs. (5-3-03)

   i. A child whose adoption later dissolves or the adoptive parent(s) die, may continue to be eligible for Title IV-E adoption assistance in a subsequent adoption. (5-3-03)

   ii. The subsequent adoption of a child may be arranged through an independent adoption, private agency, or state agency. (5-3-03)

   iii. No needs or eligibility redetermination is to be made upon a subsequent adoption. The child's need and eligibility remain unchanged from what they were prior to the initial adoption. (5-3-03)

   iv. It is the responsibility of the placing state to determine whether the child meets the definition of special needs and to pay the subsidy in a subsequent adoption. (5-3-03)

02. Special Needs Criteria. The definition of special needs includes the following factors: (3-30-07)

   a. The child cannot or should not be returned to the home of the parents as evidenced by an order from a court of competent jurisdiction terminating parents rights or its equivalent; and (3-29-10)

   b. The child has a physical, mental, emotional, or medical disability, or is at risk of developing such disability based on the child's experience of documented physical, emotional, or sexual abuse, or neglect; or (4-7-11)

   c. The child’s age makes it difficult to find an adoptive home; or (3-18-99)

   d. The child is being placed for adoption with at least one (1) sibling; and (4-7-11)

   e. The State must make a reasonable but unsuccessful effort to place the child with special needs without a subsidy, except in cases where it is not in the best interests of the child due to his significant emotional ties with the foster parent(s) or relative(s) who are willing to adopt the child. (4-7-11)

03. Determination of Eligibility for State Funded Adoption Assistance. Children in state custody who meet the special needs criteria found in Subsection 900.02 of these rules and do not meet any of the criteria for Title IV-E adoption assistance found at Subsection 900.01 in these rules, may be eligible for state-funded adoption assistance benefits. If the child is determined ineligible for Title IV-E adoption assistance, the application will be evaluated for a state-funded subsidy. (3-30-07)

04. Interjurisdictional Adoptions. When a child's adoption is arranged through the care and placement of a private non-profit adoption agency in another state and the adoptive family are residents of Idaho, the state of Idaho is responsible for the eligibility determination, negotiation, and payment of any subsequent Title IV-E adoption assistance benefits. (3-30-07)

05. International Adoptions and Adoption Assistance. A child who meets the criteria for special needs under Subsection 900.02 of this rule, who is not a citizen or resident of the United States, and who was adopted outside of the United States or was brought into the United States for the purpose of being adopted, is not eligible to receive adoption assistance. This restriction does not prohibit adoption assistance payments for a child described in this Subsection who is placed in foster care subsequent to the failure, as determined by the State, of the initial adoption of the child by the adoptive parents. (3-29-10)

901. ATTEMPT TO PLACE WITHOUT ADOPTION ASSISTANCE. The Department is required to attempt to place all children for adoption without adoption assistance. However, all adoptive families are entitled to full information and disclosure regarding the adoption assistance program. Once the most suitable family is located for the child, the family will be informed of the needs and history of the child and asked if they can adopt the child without adoption assistance. If the family indicates that they need adoption assistance, the Department will begin the process of determining the amount and type of benefits for the child. (3-18-99)
902. -- 909. (RESERVED)

910. TYPES AND AMOUNTS OF ASSISTANCE.
The needs of the child and the family, including any other children in the family, will be considered in determining the amount and type of support to be provided. Assistance may include the following: (3-30-07)

01. Nonrecurring Adoption Reimbursement. Payment for certain one (1) time expenses necessary to finalize the adoption may be paid when a family adopts a special needs child. The child's eligibility must be determined and the contract for reimbursement must be fully executed prior to the finalization of the adoption. The reimbursement is paid only after the adoption finalizes. The expenses are defined as reasonable and necessary adoption fees, court costs, attorney fees, and other expenses which are directly related to the legal adoption finalization of a child with special needs and which are not incurred in violation of state or federal law. They may include mileage and lodging involved in visiting the child before placement occurs. These expenses cannot be reimbursed if they are paid for the adoptive parents by other sources such as an employer. Documentation of expenses must be submitted. Costs are reimbursable up to two thousand dollars ($2,000) per child and are entered on the Adoption Assistance Program Agreement. Children for whom the adoption has been finalized without a negotiated Nonrecurring Expenses Reimbursement Agreement are not eligible to apply for these benefits. (3-29-10)

02. Monthly Cash Payment. Financial assistance in the form of a monthly cash payment may be established to assist the adoptive family in meeting the additional expenses of the child’s special needs. The amount of the payment must be negotiated with the family by the adoption worker and based on the family's circumstances and what additional resources are needed to incorporate the child into the adoptive family. The amount must not exceed the rate for family foster care found in Subsections 483 and 484 of these rules, which would be made if the child were in a family foster home in Idaho. Payments received for treatment foster care, gifts, clothing, and school fees are not considered part of the family foster care rate. For children who meet the definition of special needs at Subsection 900.02 of these rules, no monthly cash payment is allowable until such time as the specific disability for which the child is known to be at risk becomes evident. For children who are currently eligible for Personal Care Services (PCS), the treatment foster care rate of up to a maximum of one thousand dollars ($1,000) per month may be used in negotiating the adoption assistance upon prior approval of the Department's Family and Community Services (FACS) Division Administrator. Benefits will continue until the child reaches eighteen (18) years, based upon an annual determination of continuing need. (4-7-11)

03. Title XIX -- Medicaid Coverage. Any child with special needs who has an adoption assistance agreement in effect is also eligible for medical coverage. A Title IV-E adoption assistance agreement provides Medicaid coverage in the state of Idaho and in all other states. Under a state-funded adoption assistance agreement, a child living in Idaho is eligible for Medicaid. If the family moves to another state, Medicaid may or may not be available. If Medicaid is not available in the new state, provisions for medical coverage must be contained in the adoption assistance agreement or in an amendment to the agreement. Families enrolled in a group health plan who plan to request to use Medicaid as the child's primary health care coverage must apply to the Idaho Health Insurance Premium Payment (HIPP) program at the time of benefit negotiation. Medicaid provides secondary coverage after the family’s health insurance has reached its benefit limit. All services reimbursed by Medicaid must be determined to be medically necessary. Prior authorization may be required for some Medicaid reimbursable services. Medicaid benefits are available until the child reaches the age of eighteen (18), based upon an annual determination of continuing need. (3-30-07)

04. Title XX -- Social Services. Any child with special needs who has an Adoption Assistance Agreement is also eligible for state-authorized Title XX - Federal Social Services Block Grant funded services. (3-30-07)

911. ADOPTION ASSISTANCE PROGRAM AGREEMENT.
A written agreement must be negotiated and fully executed between the Department and adopting family prior to the finalization of adoption and implementation of benefits. (5-8-09)

01. Agreement Specifications. The agreement specifies the following:

a. The type and amount of assistance to be provided; (5-8-09)
b. That there will be an annual review of each agreement by the Department to evaluate the need for continued subsidy and the amount of the subsidy; (5-8-09)

c. That the agreed upon type and amount of assistance may be adjusted only with the concurrence of the adoptive parent(s) based upon changes in the needs of the child or changes in the circumstances of the adoptive family; (5-8-09)

d. That the adoptive parent(s) are required to inform the Department of any circumstances which would make them ineligible for adoption assistance payments, or eligible for adoption assistance payments in a different amount. (5-8-09)

02. Termination of Adoption Assistance. Adoption assistance will be terminated if the adoptive parent(s) no longer have legal responsibility for the child as a result of termination of parental rights, the child is no longer receiving any financial support from the parents, or the child has reached the age of eighteen (18) years regardless of the child's educational status. (4-11-06)

03. Adoption Assistance Follows the Child. If the adoptive parents are located in a state other than Idaho, or move out of Idaho with the child, the adoption assistance payments initiated by Idaho will continue for the child. If the child is IV-E or state-funded adoption assistance eligible, referral for Medicaid or other state medical insurance and social service benefits will be forwarded to the new state of residence through the Interstate Compact on Adoption and Medical Assistance. Non IV-E eligible children receiving a state adoption subsidy, may not be eligible for Medicaid in a state other than Idaho. (5-3-03)

920. REQUEST FOR RECONSIDERATION FOR ADOPTION ASSISTANCE. Families who adopted a child, or children with special needs on or after April 1, 1982, through either the Department or a licensed Idaho children’s adoption agency may be eligible for benefits through the Adoption Assistance program. Persons who adopted their relative children, may also be eligible for these adoption assistance benefits. Per Public Law 96-272, the adoptive family must sign an adoption assistance agreement prior to the finalization of the adoption in order for the child to receive benefits. Adoptive families who were not informed of these benefits or who were wrongly denied these benefits may submit an application to the Department prior to the eighteenth birthday of the adopted child for a determination of eligibility for these benefits. The Division of Family and Community Services determines eligibility based on the eligibility factors determining a special needs child that were in effect at the time of the child’s adoption. If the IV-E eligibility determination finds that a child was eligible for these benefits at the time of the child’s adoption, and an agreement was not signed prior to the finalization, the Department is required to deny benefits to the child, since no contract was in effect at the time of the adoption finalization. The adoptive family may request a fair hearing for adoption assistance IV-E eligibility determination. The determinations to be made at this hearing are whether extenuating circumstances exist and/or whether the family was wrongly denied eligibility. The Division of Family and Community Services may not change its eligibility determination for a child eligible for IV-E adoption assistance benefits and provide adoption assistance based on extenuating circumstances without obtaining a favorable ruling from a fair hearing officer. (5-8-99)

921. BURDEN OF PROOF -- EXTENUATING CIRCUMSTANCES. The family has the burden of proving extenuating circumstances at the fair hearing, although, if the state agency is in agreement that the family had erroneously been denied benefits, the agency may provide such facts to the family or present corroborating facts on behalf of the family to the fair hearing officer. Once the hearing officer rules in favor of a family that extenuating circumstance exist and that the child is eligible for IV-E adoption assistance benefits, the agency must negotiate an agreement with the adoptive family consistent with these rules. (3-18-99)

922. RETROACTIVE ADOPTION ASSISTANCE BENEFITS. The Department of Health and Welfare, Division of Family and Community Services may negotiate retroactive adoption assistance benefits for a maximum of twenty-four (24) months from the date of adoption assistance application, identified in Section 920 of these rules. (3-20-04)

923. DISRUPTION OF INTERNATIONAL ADOPTIONS.
The Intercountry Adoption Act of 2000 (P.L. 106-279) requires that each state make an annual report of children who were adopted from other countries who enter state guardianship as a result of termination of the parental rights of the adoptive parent and the dissolution of the adoption. The report will include the name of the agency who handled the placement or the adoption, the plans for the child, and the reasons for the disruption or dissolution. Each region will collect this information and send it to the Department’s Permanency Program Specialist in January of each year.

924. -- 999.  (RESERVED)
16.06.02 – RULES GOVERNING STANDARDS FOR CHILD CARE LICENSING

000. LEGAL AUTHORITY.
Under Sections 39-1111, 39-1207, 39-1209, 39-1210, 39-1211, 39-1213, 56-1003, 56-1004A, and 56-1005(8), Idaho Code, the Idaho Legislature authorizes the Department of Health and Welfare and the Board of Health and Welfare to adopt and enforce rules governing standards and procedures for licensing daycare centers, group daycare facilities, family daycare homes, foster homes, children’s agencies, children’s residential care facilities, children’s camps, and children’s therapeutic outdoor programs that are maintained or operated within Idaho. (4-7-11)

001. TITLE, SCOPE, POLICY, PURPOSE, EXCEPTIONS, AND EXEMPTIONS TO LICENSING.

01. Title. These rules are titled IDAPA 16.06.02, “Rules Governing Standards for Child Care Licensing.” (7-1-09)

02. Scope. These rules establish minimum standards and procedures for licensing, maintaining, and operating the following facilities or programs within Idaho:

a. Daycare centers; (4-7-11)

b. Group daycare facilities; (4-7-11)

c. Family daycare homes, voluntarily; (4-7-11)

d. Foster homes; (4-7-11)

e. Children’s agencies; (4-7-11)

f. Children’s residential care facilities, including non-accredited residential schools; (4-7-11)

g. Children’s camps providing child care for any one (1) child for more than nine (9) consecutive weeks in any one (1) year period; (4-7-11)

03. Policy. It is the policy of the Department to assure that children of this state receive adequate substitute parental care in the event of absence, temporary or permanent inability of parents to provide care and protection for their children or the parents are seeking alternative twenty-four (24) hour long-term care for their children. This policy is based on the fact that children are vulnerable and not capable of protecting themselves. When parents, for any reason have relinquished their children's care to others, there arises the possibility of certain risks to those children's lives, health and safety which the community as a whole must protect against. This requires the offsetting statutory protection of review and, in certain instances, licensing or registration. (7-1-09)

04. Purpose. The Department issues a license to assure, as is reasonably practicable, that the care, services, and physical surroundings of each program or facility are in substantial compliance with these rules and minimum standards. (4-7-11)

a. According to Section 39-1117, Idaho Code, a daycare license does not constitute a representation affirming to any person that the program or facility is free from risk. A daycare license does not guarantee adequacy of care, services, safety, or the well-being of any child, staff, contractor, volunteer, or visitor of a daycare facility. It is the parent’s primary responsibility for evaluation and selection of daycare services. (4-7-11)
b. The state, its employees or agents of the state or its political subdivisions, will not be liable for nor will a cause of action exist for any loss or damage based upon the failure of any daycare facility to meet the minimum standards contained in these rules.

05. Exceptions and Exemptions to Daycare Licensing. Under Section 39-1103, Idaho Code, the minimum standards and licensing requirements in these rules do not apply to:

a. Daycare facilities regulated, licensed, or certified by a city or county in accordance with local options under Section 39-1108, Idaho Code;

b. The occasional or irregular care of a neighbor's, relative's, or friend's child or children by a person not ordinarily in the business of providing daycare;

f. The provision of care for children of a family within the second degree of relationship as defined in Section 011 of these rules.

06. Exceptions and Exemptions to Child Care Licensing. Under Sections 39-1206, 39-1213(b), and 39-1211, Idaho Code, the minimum standards and licensing requirements in these rules do not apply to:

a. Foster homes that have been approved by a licensed children’s agency provided the standards for approval by such agency are no less restrictive than the rules and standards established by the Board and that such agency is maintained, operated, and conforms with these rules and standards;

b. The occasional or irregular care of a neighbor's, relative's, or friend's child or children by a person not ordinarily engaged in child care; or

c. Children's camps which only provide child care for any one (1) child for less than nine (9) consecutive weeks in any one (1) year period. A children's camp which provides child care for any one (1) child for more than nine (9) consecutive weeks in any one (1) year period constitutes a children's residential care facility and is subject to the minimum standards and licensing requirements in these rules.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and reorganized chapters with edits under IDAPA 17, rules of the Industrial Commission:

IDAPA 17
- 17.10.01, Administrative Rules Under Crime the Victims Compensation Act
- 17.11.01, Administrative Rules of Peace Officer and Detention Officer Temporary Disability Act

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and
processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These three chapters contain those rules necessary for the Industrial Commission to properly administer and carry out its responsibilities under the Idaho Workers’ Compensation Act (Chapter 1), the Crime Victims Compensation Act (Chapter 10) and the Peace Officer and Detention Officer Temporary Disability Act (Chapter 11).

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Kamerron Monroe, Commission Secretary, (208) 334-6017.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin.

Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned or kamerron.monroe@iic.idaho.gov within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

The standard for determining the allowable payment for hospitals and ASCs shall be:
   
   i. For large hospitals: Eighty-five percent (85%) of the reasonable inpatient charge. (6-30-19)
   
   ii. For small hospitals: Ninety percent (90%) of the reasonable inpatient charge. (6-30-19)

c. The Conversion Factor for the Anesthesiology CPT Codes shall be multiplied by the Anesthesia Base Units assigned to that CPT Code by the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services as of December 31 of the previous calendar year, plus the allowable time units reported for the procedure. Time units are computed by dividing reported time by fifteen (15) minutes. Time units will not be used for CPT Code 01996.

d. Adjustment of Conversion Factors. The conversion factors set out in this rule may be adjusted each fiscal year (FY), starting with FY 2012, as determined by the Commission.

e. Services Without a CPT Code, RVU or Conversion Factor. The allowable payment for medical services that do not have a current CPT code, a currently assigned RVU, or a conversion factor will be the reasonable charge for that service, based upon the usual and customary charge and other relevant evidence, as determined by the Commission. Where a service with a CPT Code, RVU, and conversion factor is, nonetheless, claimed to be exceptional or unusual, the Commission may, notwithstanding the conversion factor for that service set out in Subsection 011.07.b. of this rule, determine the allowable payment for that service, based on all relevant evidence.

f. Coding. The Commission will generally follow the coding guidelines published by the Centers for Medicare and Medicaid Services and by the American Medical Association, including the use of modifiers. The procedure with the largest RVU will be the primary procedure and will be listed first on the claim form. Modifiers will be reimbursed as follows:

08. Wage Loss Benefits. For the purpose of determining compensation benefits under Sections 72-1019(1) and 72-1019(3), Idaho Code, “wages received at the time of the criminally injurious conduct” shall be the victim’s gross weekly wage; which shall be determined under Section 72-419(1)-(3), Idaho Code, if applicable, and if not, as follows:

a. If the Wages were fixed by the hour, and the victim worked or was scheduled to work the same number of hours each week, the weekly wage shall be the hourly rate times the number of hours that the victim worked or was scheduled to work each week, plus one-half (1/2) the hourly wage times the number of hours worked or scheduled each week in excess of forty (40) hours if the victim was paid time-and-a-half for work in excess of forty (40) hours per week. (6-30-19)

b. If the Wages were fixed by the hour and the victim did not work the same number of hours each week, or if the victim was paid on a piecework or commission basis, the weekly wage shall be computed by averaging the amounts that the victim was paid during his last four completed pay periods prior to the criminally injurious conduct and converting that amount to a weekly basis using a method consistent with 72-419(1)-(3); provided that, if the victim was employed for less than four (4) pay periods before the criminally injurious conduct, the average shall be computed based upon the time period that he worked. (6-30-19)

c. If none of the above methods are applicable, the weekly wage shall be computed in a manner consistent with the above methods. (6-30-19)

09. Treating Physician. A victim may choose his own treating physician. If, after filing an Application for Compensation, a victim changes physicians without prior approval of the Commission, or if, without prior approval of the Commission, he seeks treatment or examination by a physician to whom he was referred by his treating physician, the Commission may deny payment for such treatment or examination. (6-30-19)

10. Overpayment. If the Commission erroneously makes payments, the Commission may reduce future payments by an amount equal to the overpayment or request a refund when overpayments are made to either the claimant or the provider. (6-30-19)

11. Weekly Compensation Benefits If Victim Employable But Not Employed. If a victim is qualified under Section 72-1019(7)(a), Idaho Code, the following provisions apply: (6-30-19)

a. If at the time of the injurious conduct the victim was receiving unemployment benefits and as a result of that conduct the victim becomes ineligible for those benefits, the claimant's weekly benefits under the Crime Victims Compensation Act shall be the lesser of one hundred fifty dollars ($150) or his weekly benefit amount under the Employment Security Law. (6-30-19)

b. If at the time of the criminally injurious conduct the victim was unemployed, but scheduled to begin employment on a date certain and if he was unable to work for one (1) week as a result of that conduct, weekly benefits under the Crime Victims Compensation Act shall be the lesser of one hundred fifty dollars ($150) or two-thirds (2/3) of the amount that he would have earned at his scheduled employment, and those benefits shall be payable beginning on the date that his employment was scheduled to begin. (6-30-19)

c. If prior to the criminally injurious conduct the victim was performing necessary household duties which he is disabled from performing as a result of that conduct and it is necessary to employ a person who does not
reside in the victim's house to perform those duties, the victim shall receive weekly benefits under the Crime Victims Compensation Act equal to the amount paid to the person so employed, but not exceeding one hundred fifty dollars ($150) per week. (6-30-19)T

d. In other circumstances, the Commission may award an amount it deems appropriate. (6-30-19)T

12. Reimbursement for Transportation Expenses. If the claimant utilizes a private vehicle, reimbursement shall be at the mileage rate allowed by the State Board of Examiners for state employees. Reimbursement shall be provided only if services are not available in the local area and shall be limited to one (1) round trip per day. The claimant shall not be reimbursed for the first fifteen (15) miles of any round trip, nor for traveling any round trip of fifteen (15) miles or less. Such distance shall be calculated by the shortest practical route of travel. The mileage reimbursement amount shall be credited to the medical benefit. (6-30-19)T

Evidence of service by certificate or affidavit of the person making the same shall be filed with the Commission. (6-30-19)T

04. Transcript of Hearing. All hearings shall be tape-recorded. In addition, the Commission may arrange for a stenographic or machine transcription of any hearing. (6-30-19)T

05. Record. At the hearing the Application for Compensation filed by the claimant and any other documents in the Commission’s file that contain information relevant to the issues in the case shall be admitted into the record. Such documents shall be marked for identification and the record shall specify that those documents are admitted. The Commission, member, or Referee conducting the hearing shall give those documents the weight that is appropriate under the circumstances of the particular case. (6-30-19)T

06. Evidence. **DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and reorganized chapter with edits under IDAPA 17, rules of the Industrial Commission:

**IDAPA 17**

• 17.01.01, Administrative Rules Under the Worker's Compensation Law

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These three chapters contain those rules necessary for the Industrial Commission to
properly administer and carry out its responsibilities under the Idaho Workers’ Compensation Act (Chapter 1).

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. IDAPA 17.01.01: The application fees charged to employers seeking approval to become self-insured is needed to defray added costs incurred by the Commission in evaluating these applications.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The $250 application fee charged to employers applying for Commission approval to become self-insured is set out in the new temporary and proposed rule at IDAPA 17.01.01.301.02.b.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

b. A penalty of one hundred dollars ($100) per day shall be assessed for late filing of more than seven (7) days.

c. A penalty assessed by the Commission shall be payable to the Industrial Commission and shall be submitted with the April 1 payment of the ISIF assessment, following notice by the Commission of the penalty assessment.

05. **Estimating Indemnity Payments for Entities That Fail to Report Timely.** If an entity required to report indemnity payments under these rules fails to report within the time allowed in these rules, the Commission will estimate the indemnity payments for that entity by using the indemnity amount reported for the preceding reporting period and adding twenty percent (20%).

06. **Adjustment for Overpayments or Underpayments.** Overpayments or underpayments, including those resulting from estimating the indemnity payments of entities that fail to report timely, will be adjusted on the billing for the subsequent period.
403. RULE GOVERNING COMPENSATION FOR DISABILITY DUE TO LOSS OF TEETH.

01. Compensation for Disability. A Claimant under the Worker's Compensation Law shall be entitled to compensation for permanent disability for the loss of each tooth other than wisdom teeth at the rate of one tenth of one percent (.1%) of the whole man. The loss of wisdom teeth shall not constitute any permanent disability. Compensation hereunder shall be in addition to payments for medical services including dental appliances and bridgework necessitated by the injury and any income benefits during the period of Claimant's recovery to which the Claimant be entitled.

02. Prima Facie Evidence. This rule and schedule shall be prima facie evidence of the percentage of permanent disability to be attributed to the loss of teeth.

404. SUBMISSION OF MEDICAL REPORTS FROM PROVIDERS
This procedure applies to all open worker's compensation claims where medical services are provided and which have not been denied by the Payor.

01. Procedure. In all cases in which a particular injury or occupational disease results in a worker's compensation Claim, the Provider shall submit written Medical Reports for each medical visit to the Payor. Payers and Providers may contract with one another to identify specific records that will be provided in support of billings. The Provider shall also submit the same written Medical Reports to the Claimant upon request. These reports shall be submitted within fourteen (14) days following each evaluation, examination, and/or treatment. The first copy of any such reports shall be provided to the Payor and the Claimant at no charge. If duplicate copies of reports already provided are requested by either the Payor or the Claimant, the Provider may charge the requesting party a reasonable charge to provide the additional reports. Whenever possible, billing information shall be coded using CPT. In the case of Hospitals, reports shall include a Uniform Billing Form 04. In the case of physicians and other Providers supplying outpatient services, this reporting requirement shall include a CMS 1500 form.

a. If an injury or occupational disease results in a Claim, the Employer/Surety or Provider shall submit written reports to the Commission upon request. Such request may either be in writing or telephonic. If a Claim is referred to the Rehabilitation Division, Medical Reports shall be furnished by the Payor or Provider directly to the office that requests such reports. The Payor or Provider shall consider this an on-going request until notice is received that the reports are no longer required.

b. If the injury or occupational disease results in a time-loss Claim, the Payor shall submit copies of medical records containing information regarding the beginning and ending of disability, releases to work whether light duty or regular duty, impairment ratings, physical restrictions to the Commission. Other Medical Reports shall be submitted to the Commission only upon request.

c. ISIF shall receive all copies of Medical Reports, without charge, from either the Claimant or the Payor, depending upon who seeks to join it as a party to a worker's compensation Claim.

d. If the Commission requests Medical Reports from the Payor or Provider, the information shall be provided within a reasonable time period without charge. If information is received for which the Commission has no need, the information may be discarded or destroyed.

02. Report Form and Content. Upon approval of the Commission, Medical Reports may be submitted in electronic or other machine-readable form usable to all parties.

03. Timely Response Requirement. When the Commission requests a Medical Report from a Payor or Provider for use in monitoring a worker's compensation Claim, the Payor or Provider shall provide the requested information promptly.

04. Forfeiture of Payment. If a Provider fails to give records to the Payor or Claimant, the Payor or Claimant may petition the Commission for an order requiring the Provider to provide the requested information. The petition shall set forth the Petitioner's efforts to obtain the information, the responses to those efforts, and why the Petitioner believes that the Provider has the information. In response to the petition, the Commission may enter an order requiring the Provider to furnish the requested records or demonstrate that the records are not available. If a
Provider fails to provide records when ordered by the Commission, the Commission may enter an Order of Forfeiture. In the event such an order is entered, the Provider will forfeit its right to payment from both the Payor and Claimant, until such time as the records are provided. (6-30-19)

405. RULE GOVERNING REIMBURSEMENT FOR TRAVEL EXPENSES.

01. Mileage Rate. If Claimant has access to, and is able to operate, a vehicle for transportation covered by Sections 72-432(13) or 72-433(3), Idaho Code, employer shall reimburse Claimant at the mileage rate then allowed by the State Board of Examiners for State employees. Such rate shall be published annually by the Industrial Commission, together with the average state wage for the upcoming period. All such miles shall be reimbursed, with fractions of a mile greater than one-half (1/2) mile rounded to the next higher mile and fractions of a mile below one-half (1/2) mile disregarded. (6-30-19)

02. Commercial Transportation. If Claimant has no vehicle, or has access to a vehicle and is reasonably unable to utilize the vehicle for transportation covered by Sections 72-432(13) or 72-433(3), Idaho Code, Claimant's employer shall reimburse Claimant the actual cost of commercial transportation as evidenced by actual receipts. Notwithstanding the above provision, no Claimant shall be eligible for reimbursement of the actual cost of commercial transportation where such Claimant is unable to operate a motor vehicle due to the revocation or suspension of driving privileges because Claimant was under the influence of alcohol and/or drugs. (6-30-19)

03. Request for Reimbursement. It shall be Claimant's responsibility to submit a travel reimbursement request to the employer. Such request shall be made on a form substantially the same as Industrial Commission Form IC 432(1), posted on the Commission's website. The Claimant must attach to the form a copy of a bill or receipt showing that the visit occurred. The employer shall furnish the Claimant with copies of this form. (6-30-19)

04. Frequency of Requests. Claimant shall not request transportation reimbursement more frequently than once every thirty (30) days. However, notwithstanding this provision, should a Claimant request transportation reimbursement more frequently than every thirty (30) days, employer need not issue more than one reimbursement check in any thirty-day (30) period. (6-30-19)

406. -- 500. (RESERVED)

501. RULE GOVERNING PROTECTION AND DISCLOSURE OF REHABILITATION DIVISION RECORDS.

01. Request for Disclosure. Pursuant to Section 74-105(10), Idaho Code, a party requesting rehabilitation records shall do so in writing and identify which provision of 74-105(10), Idaho Code, authorizes their request. (6-30-19)

02. Requests from Other Agencies. If records are in the possession of the Rehabilitation Division by reason of an agreement to comply with valid confidentiality regulations of any agency of the state of Idaho, or agency of the United States, then disclosure shall be requested from the source agency, and not from the Rehabilitation Division. (6-30-19)

502. RULE GOVERNING REPORTS OF ATTORNEY COSTS AND FEES IN LITIGATED CASES.

When requested by the Commission, parties to a Litigated Case shall provide the Commission the information required by Section 72-528, Idaho Code. The form for Sureties is Form 1022 and the form for Claimant's attorneys is Form 1023; both are available on the Commission's website. (6-30-19)

529. -- 600. (RESERVED)

601. SUBMISSION OF FROI AND SROI.

01. Purpose. Pursuant to Sections 72-602(1)-(2), Idaho Code, employers must submit a FROI and/or SROI in accordance with these rules. (6-30-19)

02. EDI Reporting. The Commission requires electronic submission of FROIs and SROIs in
according with the most current versions of the IAIABC EDI Release 3.0 and the Commission's EDI Guides and Tables from any employer not otherwise exempt by these rules. Each FROI and SROI must comply with formatting requirements and must contain the information identified as mandatory or mandatory conditional, as applicable.

03. **Trading Partner Agreements.** Before commencing with electronic reporting, Trading Partners shall sign a Trading Partner Agreement with the Commission, which the Commission must approve prior to submitting reports. This agreement must provide the effective date to send and receive electronic reports, the acceptable data to be sent and received, the method of transmission to be used, and other pertinent elements. This agreement will identify the insurance carrier, the Claims Administrator, the sender of the electronic files, and the electronic filing method. To ensure the accuracy of reported data, the Trading Partner must maintain their profile to reflect changes as they occur and the Commission may make periodic audits of Trading Partner files. In the event that a Trading Partner Agreement is entered into by a Claims Administrator, notice to the Trading Partner of a FROI shall be deemed to be notice to the underlying insurance carrier or self-insured employer.

04. **Report Form and Content for Parties Exempt from EDI Requirements.**

a. Individual injured workers, injured worker's legal counsel, and employers that are not insured are not required to comply with EDI requirements for FROIs and SROIs. SROIs filed on Legacy Claims will not be accepted via EDI.

b. Parties exempt from EDI requirements must submit FROIs on a form IA-1 and SROIs on a form SROI-1, or in a format substantially similar. Both forms are available on the Commission's website.

05. **Retaining Claims Files.** Upon request of the Commission, insurance carriers, Claims Administrators, or employers shall provide to the Commission, in whole or in part according to the request, a copy of the claim file at no cost to the Commission. All insurance carriers, Claims Administrators, or employers shall retain complete copies of claims files for the life of the Claim and a minimum of five (5) years from the date of closure.

06. **Filing Not an Admission.** Filing a FROI is not an admission of liability and is not conclusive evidence of any fact stated therein. If a Claim is submitted electronically, no signatures are required.

07. **Filing Considered Authorization.** Filing of a Claim shall be considered an authorization for the release of medical records that are relevant to or bearing upon the particular injury or occupational disease for which the Claimant is seeking compensation.

08. **Timely Response Requirement.** When the Commission requests additional information in order to process the Claim, the Claimant or employer shall provide the requested information promptly. The Commission request may be either in writing or telephonic.

602. **SUMMARIES OF PAYMENTS.**

01. **Summaries Requirement.** A summary of payment shall be filed, in duplicate, by the surety or self-insured employer within one hundred twenty (120) days of Termination of Disability for all legacy indemnity claims upon which a surety or self-insured employer has made payments, except for those claims which are resolved by LSS. If all claim information has been provided via EDI as prescribed by Commission rules, an electronic summary of payment transaction must be filed within one hundred twenty (120) days of Termination of Disability for all Indemnity Claims. In the case of medical-only claims, no summaries of payment need to be filed. In the context of Death Claims and permanent total disability claims, interim summaries of payments shall be filed annually within the first quarter of each calendar year. Interim summaries shall be submitted setting forth substantially the same information required by Final Summaries of Payment, including the balance of payments made to the beginning of the current calendar year, payments during the calendar year, and a total of payments made. This total balance shall be carried forward as the amount of payments made to the beginning of the current year. The Final Summary shall be so designated. Supporting documentation shall be attached to any Legacy Claim summary of payment filed with the Commission. If all claim information has been filed electronically, supporting documentation must be provided upon Commission request.
02. Form. The summary of payment for Legacy Claims shall be submitted in a format substantially similar to IC Form 6, available on the Commission's website. The final SROI transaction shall be reported electronically for non-Legacy Claims. (6-30-19)

03. Approval. Within ninety (90) days of receipt of the Legacy Claim Summary of Payment or SROI electronic transaction as set forth above, the Industrial Commission shall notify the surety or self-insured employer of any inability to reconcile the summary to its records and request additional information. If the surety or self-insured employer does not receive a request for additional information within the ninety (90) day period, the surety or self-insured employer may proceed with closure. In the event the Commission requests additional information, whether in writing or telephonic, the surety or self-insured employer shall submit the requested information within fifteen (15) working days. If the surety or self-insured employer is unable to furnish the requested information, the surety or self-insured employer shall notify the Commission, in writing, of its inability to respond and the reasons therefor within the fifteen (15) working days. The Commission may schedule a show cause hearing to determine whether or not the surety or self-insured employer should be allowed to continue its status under the worker's compensation laws, including whether the employer should be allowed to continue self-insured status. (6-30-19)

04. Change in Status of Employer. In case of any default by the Employer or in the event the Employer shall fail to pay any final award or awards, by reason of insolvency or because a receiver has been appointed, the Employer shall submit a summary of payments for every time-loss and Death Claim within one hundred twenty (120) days of the default, insolvency, or appointment of a receiver. This summary will be designated as an interim summary and does not relieve the Employer, successor or receiver from continued reporting requirements. The receiver or successor shall continue to report to the Commission, including the submission of summaries of payments and schedules of outstanding awards. (6-30-19)

603. -- 800. (RESERVED)

801. RULE GOVERNING CHANGE OF STATUS NOTICE TO CLAIMANTS.

01. Notice of Change of Status. As required and defined by Section 72-806, Idaho Code, a worker shall receive written notice within fifteen (15) days of any change of status or condition, including, but not limited to, whenever there is an acceptance, commencement, denial, reduction, or cessation of medical or monetary compensation benefits to which the worker might presently or ultimately be entitled. Such notice is required when benefits are curtailed to recoup any overpayment of benefits in accordance with the provisions of Section 72-316, Idaho Code. (6-30-19)

02. By Whom Given. Any notice to a worker required by Section 72-806, Idaho Code, shall be given by: the surety if the employer has secured Worker's Compensation Insurance; or the employer if the employer is self-insured; or the employer if the employer carries no Worker's Compensation Insurance. (6-30-19)

03. Form of Notice. Any notice to a worker required by Section 72-806, Idaho Code, shall be mailed within ten (10) days by regular United States Mail to the last known address of the worker, as shown in the records of the party required to give notice as set forth above. The Notice shall be given in a format substantially similar to IC Form 8, available on the Commission's website. (6-30-19)

04. Medical Reports. As required by Section 72-806, Idaho Code, if the change is based on a Medical Report, the party giving notice shall attach a copy of the report to the notice. (6-30-19)

05. Copies of Notice. The party giving notice pursuant to Section 72-806, Idaho Code, shall send a copy of any such notice to the Industrial Commission, the employer, and the worker's attorney, if the worker is represented, at the same time notice is sent to the worker. The party giving notice may supply the copy to the Industrial Commission in accordance with the Commission's rule on electronic submission of documents. (6-30-19)

802. RULE GOVERNING APPROVAL OF ATTORNEYS FEES

01. Purpose. The Industrial Commission promulgates this rule to govern the approval of attorney fees. (6-30-19)
02. **Charges Presumed Reasonable:**

   a. In a case in which no hearing on the merits has been held, twenty-five percent (25%) of Available Funds shall be presumed reasonable; or

   b. In a case in which a hearing has been held and briefs submitted (or waived) under Judicial Rules of Practice and Procedure (JRP), Rules X and XI, thirty percent (30%) of Available Funds shall be presumed reasonable; or

   c. In any case in which compensation is paid for total permanent disability, fifteen percent (15%) of such disability compensation after ten (10) years from date such total permanent disability payments commenced.

03. **Statement of Charging Lien.**

   a. All requests for approval of fees shall be deemed requests for approval of a Charging Lien.

   b. An attorney representing a Claimant in a Worker's Compensation matter shall in any proposed LSS, or upon request of the Commission, file with the Commission, and serve the Claimant with a copy of the Fee Agreement, and an affidavit or memorandum containing:

      i. The date upon which the attorney became involved in the matter;

      ii. Any issues which were undisputed at the time the attorney became involved;

      iii. The total dollar value of all compensation paid or admitted as owed by employer immediately prior to the attorney's involvement;

      iv. Disputed issues that arose subsequent to the date the attorney was hired;

      v. Counsel's itemization of compensation that constitutes Available Funds;

      vi. Counsel's itemization of costs and calculation of fees; and

      vii. Counsel's itemization of medical bills for which Claim was made in the underlying action, but which remain unpaid by employer/surety at the time of LSS, along with counsel's explanation of the treatment to be given such bills/claims following approval of the LSS.

      viii. The statement of the attorney identifying with reasonable detail his or her fulfillment of each element of the Charging Lien.

   c. Upon receipt and a determination of compliance with this Rule by the Commission by reference to its staff, the Commission may issue an Order Approving Fees without a hearing.

04. **Procedure if Fees Are Determined Not to Be Reasonable.**

   a. Upon receipt of the affidavit or memorandum, the Commission will designate staff members to determine reasonableness of the fee. The Commission staff will notify counsel in writing of the staff's informal determination, which shall state the reasons for the determination that the requested fee is not reasonable. Omission of any information required by Paragraph 802.02.b may constitute grounds for an informal determination that the fee requested is not reasonable.

   b. If counsel disagrees with the Commission staff's informal determination, counsel may file, within fourteen (14) days of the date of the determination, a Request for Hearing for the purpose of presenting evidence and argument on the matter. Upon receipt of the Request for Hearing, the Commission shall schedule a hearing on the
matter. A Request for Hearing shall be treated as a motion under Rule III(e), JRP.

   c. The Commission shall order an employer to release any Available Funds in excess of those subject to the requested Charging Lien and may order payment of fees subject to the Charging Lien which have been determined to be reasonable.

   d. The proponent of a fee which is greater than the percentage of recovery stated in Subsection 802.02 shall have the burden of establishing by clear and convincing evidence entitlement to the greater fee. The attorney shall always bear the burden of proving by a preponderance of the evidence his or her assertion of a Charging Lien and reasonableness of his or her fee.

05. Disclosure Statement. Upon retention, the attorney shall provide to Claimant a copy of a disclosure statement. No fee may be taken from a Claimant by an attorney on a contingency fee basis unless the Claimant acknowledges receipt of the disclosure by signing it. Upon request by the Commission, an attorney shall provide a copy of the signed disclosure statement to the Commission. The terms of the disclosure may be contained in the Fee Agreement, so long as it contains the following text:

   a. In worker's compensation matters, attorney's fees normally do not exceed twenty-five percent (25%) of the benefits your attorney obtains for you in a case in which no hearing on the merits has been completed. In a case in which a hearing on the merits has been completed, attorney's fees normally do not exceed thirty percent (30%) of the benefits your attorney obtains for you.

   b. Depending upon the circumstances of your case, you and your attorney may agree to a higher or lower percentage which would be subject to Commission approval. Further, if you and your attorney have a dispute regarding attorney fees, either of you may petition the Industrial Commission, PO Box 83720, Boise, ID 83720-0041, to resolve the dispute.

803. MEDICAL FEES.

01. General Provisions for Medical Fees. The following provisions shall apply to Commission approval of claims for medical benefits.

   a. Acceptable Charge. Payors shall pay Providers the acceptable charge for medical services.

   b. Coding. The Commission will generally follow the coding guidelines published by CMS and by the American Medical Association, including the use of modifiers.

   c. Disputes. Disputes between Providers and Payors are governed by Subsection 803.06 of this rule and JRP 19.

   d. Outside of Idaho. Reimbursement for medical services provided outside the state of Idaho may be based upon the agreement of the parties. If there is no agreement, services shall be paid in accordance with the worker's compensation fee schedule in effect in the state in which services are rendered. If there is no fee schedule in effect in such state, or if the fee schedule in that state does not allow reimbursement for the services rendered, reimbursement shall be paid in accordance with these rules.

02. Acceptable Charges For Medical Services Provided By Physicians Under The Idaho Worker's Compensation Law.

   a. The Commission adopts the Resource Based Relative Value Scale (RBRVS), published by CMS, as amended, as the standard to be used to determine acceptable charges by physicians.

   b. Modifiers. Modifiers for physicians will be reimbursed as follows:

      i. Modifier 50: Additional fifty percent (50%) for bilateral procedure.
ii. Modifier 51: Fifty percent (50%) of secondary procedure. This modifier will be applied to each medical or surgical procedure rendered during the same session as the primary procedure. (6-30-19)

iii. Modifier 80: Twenty-five percent (25%) of coded procedure. (6-30-19)

iv. Modifier 81: Fifteen percent (15%) of coded procedure. This modifier applies to MD and non-MD assistants. (6-30-19)

c. Conversion Factors. The standard for determining the acceptable charge for a medical service, identified by a code assigned to that service in the latest edition of the Physician's CPT, published by the American Medical Association, as amended, is calculated by the application of the total facility or non-facility RVU for services as determined by place of service in the latest RBRVS in effect on the first day of January of the current calendar year, to the following corresponding conversion factors. The procedure with the largest RVU will be the primary procedure and will be listed first on the claim form. (6-30-19)

d. Anesthesiology. The Conversion Factor for the Anesthesiology CPT Codes shall be multiplied by the current Anesthesia Base Units assigned to that CPT Code by CMS, plus the allowable time units reported for the procedure. Time units are computed by dividing reported time by fifteen (15) minutes. Time units will not be used for CPT Code 01996.

(6-30-19)

e. Services Without CPT Code, RVU or Conversion Factor. The acceptable charge for medical services that do not have a current CPT code, a currently assigned RVU, or a conversion factor will be the reasonable charge for that service, based upon the usual and customary charge and other relevant evidence, as determined by the Commission. Where a service with a CPT Code, RVU, and conversion factor is, nonetheless, claimed to be exceptional or unusual, the Commission may, notwithstanding the conversion factor for that service set out in Paragraph 02.c, above, determine the acceptable charge for that service, based on all relevant evidence in accordance with the procedures set out in Subsection 06, below.

(6-30-19)

f. Medicine Dispensed by Physicians. Reimbursement to physicians for any medicine shall not exceed the acceptable charge calculated for that medicine as if provided by a Pharmacy under Subsection 04 of this rule without a dispensing or compounding fee. Reimbursement to physicians for repackaged medicine shall be the AWP for the medicine prior to repackaging, identified by the NDC reported by the original manufacturer. Reimbursement may be withheld until the original manufacturer's NDC is provided by the physician.

(6-30-19)

g. Adjustment of Conversion Factors. The conversion factors set out in this rule may be adjusted each fiscal year (FY) by the Commission to reflect changes in inflation or market conditions in accordance with Section 72-803, Idaho Code.

(6-30-19)

03. Acceptable Charges For Medical Services Provided By Hospitals And Ambulatory Surgery Centers Under The Idaho Worker's Compensation Law. The following standards shall be used to determine the acceptable charge for Hospitals and ASCs.

(6-30-19)

a. Critical Access Hospitals. The standard for determining the acceptable charge for inpatient and outpatient services provided by a Critical Access Hospital is ninety percent (90%) of the reasonable charge. Implantable hardware charges shall be reimbursed at the rate of the actual cost plus fifty percent (50%).

(6-30-19)

b. Hospital Inpatient Services. The standard for determining the acceptable charge for inpatient services provided by Hospitals, other than Critical Access Hospitals, is calculated by multiplying the base rate by the current MS-DRG weight for that service. The base rate for inpatient services is ten thousand two hundred dollars ($10,200). Inpatient services that do not have a relative weight shall be paid at eighty-five percent (85%) of the reasonable charge; however, Implantable Hardware charges billed for services without an MS-DRG weight shall be reimbursed at the rate of actual cost plus fifty percent (50%).

(6-30-19)

c. Hospital Outpatient and ASC Services. The standard for determining the acceptable charge for outpatient services provided by Hospitals (other than Critical Access Hospitals) and for services provided by ASCs is calculated by multiplying the base rate by the Medicare Hospital Outpatient Prospective Payment System APC weight in effect on the first day of January of the current calendar year. The base rate for Hospital outpatient services is one hundred forty dollars and seventy-five cents ($140.75). The base rate for ASC services is ninety-one dollars

Docket No. 18-0000-1900

IDAPA 18

Omnibus Notice – Temporary/Proposed

State Fire Marshal:
• 18.01.50, Adoption of the International Fire Code; with the exception of Section 004.
  (hereby re-designated as IDAPA 18.08.01)

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. After close review, the temporary rules promulgated herein are necessary to ensure adequate protection to the insurance buying public by providing for consumer protection, appropriate guidance for producers, insurers and others licensed to transact insurance and for fire protection within the state. Many of these rules are necessary for the DOI to retain its accreditation. Without such accreditation, Idaho would lose carriers who would be forced to move out of state. The rules are requested to be renumbered and divided into categories for ease in knowing which rules apply to specific situations.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

01. Initial Notice Requirement. A licensee shall provide a clear and conspicuous notice that accurately reflects its privacy policies and practices to:

a. Customer. An individual who becomes the licensee's customer, not later than when the licensee establishes a customer relationship, except as provided in Subsection 100.05 of this rule; and (5-3-03)

b. Consumer. A consumer, before the licensee discloses any nonpublic personal financial information about the consumer to any nonaffiliated third party, if the licensee makes a disclosure other than as authorized by Sections 451 and 452. (5-3-03)

02. When Initial Notice to Consumer Not Required. A licensee is not required to provide an initial notice to a consumer under Paragraph 100.01.b. of this rule if:

a. The licensee does not disclose any nonpublic personal financial information about the consumer to any nonaffiliated third party, other than as authorized by Sections 451 and 452, and the licensee does not have a customer relationship with the consumer; or (5-3-03)

b. A notice has been provided by an affiliated licensee, as long as the notice clearly identifies all
licensees to whom the notice applies and is accurate with respect to the licensee and the other institutions. (5-3-03)

03. When Licensee Establishes a Customer Relationship. (5-3-03)

a. General rule. A licensee establishes a customer relationship at the time the licensee and the consumer enter into a continuing relationship. (5-3-03)

b. Examples of establishing customer relationship. A licensee establishes a customer relationship when the consumer:
   i. Becomes a policyholder of a licensee that is an insurer when the insurer delivers an insurance policy or contract to the consumer, or in the case of a licensee that is an insurance producer or insurance broker, obtains insurance through that licensee; or (5-3-03)
   ii. Agrees to obtain financial, economic or investment advisory services relating to insurance products or services for a fee from the licensee. (5-3-03)

a. The licensee may provide a revised policy notice, under Section 300 that covers the customer's new insurance product or service; or (5-3-03)

b. If the initial, revised, or annual notice that the licensee most recently provided to that customer was accurate with respect to the new insurance product or service, the licensee does not need to provide a new privacy notice under Subsection 100.01 of this rule. (5-3-03)

05. Exceptions Allowing Subsequent Delivery of Notice. (5-3-03)

a. A licensee may provide the initial notice required in Paragraph 100.01.a. of this rule within a reasonable time after the licensee establishes a customer relationship if:
   i. Establishing the customer relationship is not at the customer's election; or (5-3-03)
   ii. Providing notice not later than the licensee establishes a customer relationship would substantially delay the customer's transaction and the customer agrees to receive the notice at a later time. (5-3-03)

b. Examples of Exceptions:
   i. Not at customer's election. Establishing a customer relationship is not at the customer's election if a licensee acquires or is assigned a customer's policy from another financial institution or residual market mechanism and the customer does not have a choice about the licensee's acquisition or assignment. (5-3-03)
   ii. Substantial delay of customer's transaction. Providing notice not later than when a licensee establishes a customer relationship would substantially delay the customer's transaction when the licensee and the individual agree over the telephone to enter into a customer relationship involving prompt delivery of the insurance product or service.
   iii. No substantial delay of customer's transaction. Providing notice not later than when a licensee establishes a customer relationship would not substantially delay the customer's transaction when the relationship is initiated in person at the licensee's office or through other means by which the customer may view the notice, such as on a web site. (5-3-03)

06. Delivery. When a licensee is required to deliver an initial privacy notice, by Section 100, the licensee shall deliver it according to Section 350. If the licensee uses a short-form initial notice for non-customers according to Section 203, the licensee may deliver its privacy notice according to Subsection 203.03. (5-3-03)
150. **ANNUAL PRIVACY NOTICE TO CUSTOMERS REQUIRED.**

01. **General Rule.**

a. A licensee shall provide a clear and conspicuous notice to customers that accurately reflects its privacy policies and practices not less than annually during the continuation of the customer relationship. Annually means at least once in any period of twelve (12) consecutive months during which that relationship exists. A licensee may define the twelve (12) consecutive-month period, but the licensee shall apply it to the customer on a consistent basis.

b. Example. A licensee provides a notice annually if it defines the twelve (12) consecutive month period as a calendar year and provides the annual notice to the customer once in each calendar year following the calendar year in which the licensee provided the initial notice. For example, if a customer opens an account on any day of year one (1), the licensee shall provide an annual notice to that customer by December 31 of year two (2).

02. **Exceptions: Termination of Customer Relationship and Duplicate Notices.**

a. A licensee is not required to provide an annual notice to a former customer. A former customer is an individual with whom a licensee no longer has a continuing relationship.

b. Examples:

i. If the individual no longer is a current policyholder of an insurance product or no longer obtains insurance services with or through the licensee.

ii. If the individual’s policy is lapsed, expired or otherwise inactive or dormant under the licensee's business practices, and the licensee has not communicated with the customer about the relationship for a period of twelve (12) consecutive-months, other than to provide annual privacy notices, material required by law or rule, or promotional materials.

iii. If the individual’s last known address according to the licensee's records is deemed invalid. An address of record is deemed invalid if mail sent to that address by the licensee has been returned by the postal authorities as undeliverable and if subsequent attempts by the licensee to obtain a current valid address for the individual have been unsuccessful.

iv. In the case of providing real estate settlement services, at the time the customer completes execution of all documents related to the real estate closing, payment for those services has been received, or the licensee has completed all of its responsibilities with respect to the settlement, including filing documents on the public record, whichever is later.

c. Notwithstanding Subsection 150.01.a., a licensee is not required to provide the annual privacy notice to a current customer if the licensee:

i. Provides nonpublic personal information to nonaffiliated third parties only in accordance with Sections 450, 451, and 452; and

ii. Has not changed its policies and practices with regard to disclosing nonpublic personal information from the policies and practices that were disclosed in the most recent disclosure sent to consumers in accordance with Section 100 or Section 150.

03. **Delivery.** When a licensee is required by Section 150 to deliver an annual privacy notice, the licensee shall deliver it according to Section 350.
200. INFORMATION TO BE INCLUDED IN PRIVACY NOTICES.
The initial, annual and revised privacy notices that a licensee provides, under Sections 100, 150, and 300, must include each of the following items of information, in addition to any other information the licensee wishes to provide, that applies to the licensee and to the consumers to whom the licensee sends its privacy notice. (5-3-03)

05. Disclosures Under Section 450. If a licensee discloses nonpublic personal financial information to a nonaffiliated third party under Section 450 (and no other exception in Sections 451 and 452 applies to that disclosure), a separate description of the categories of information the licensee discloses and the categories of third parties with whom the licensee has contracted shall be provided. (5-3-03)

06. Explanation of Right to Opt Out. An explanation of the consumer's right under Subsection 400.01 to opt out of the disclosure of nonpublic personal financial information to nonaffiliated third parties, including the methods by which the consumer may exercise that right at that time. (5-3-03)

07. Disclosures Under Federal Law. Any disclosures that the licensee makes under Section 603(d)(2)(A)(iii) of the federal Fair Credit Reporting Act (15 U.S.C. 1681a(d)(2)(A)(iii)) (that is, notices regarding the ability to opt out of disclosures of information among affiliates); (5-3-03)

(5-3-03)

202. SATISFYING THE PRIVACY NOTICE INFORMATION REQUIREMENTS -- EXAMPLES.

01. Categories of Nonpublic Personal Financial Information That the Licensee Collects. A licensee satisfies the requirement to categorize the nonpublic personal financial information it collects if the licensee categorizes it according to the source of the information, as applicable: (5-3-03)

   a. Information from the consumer; (5-3-03)
   b. Information about the consumer's transactions with the licensee or its affiliates; (5-3-03)
02. Categories of Nonpublic Personal Financial Information a Licensee Discloses.

a. A licensee satisfies the requirement to categorize nonpublic personal financial information it discloses if the licensee categorizes the information according to source, as described in Subsection 202.01 of this rule, as applicable, and provides a few examples to illustrate the types of information in each category. These might include:

i. Information from the consumer, including application information, such as assets and income and identifying information, such as name, address and social security number;

ii. Transaction information, such as information about balances, payment history and parties to the transaction; and

iii. Information from consumer reports, such as a consumer's creditworthiness and credit history.

(1) A licensee does not adequately categorize the information that it discloses if the licensee uses only general terms, such as transaction information about the consumer.

(2) If a licensee reserves the right to disclose all of the nonpublic personal financial information about consumers that it collects, the licensee may simply state that fact without describing the categories or examples of nonpublic personal information that the licensee discloses.

03. Categories of Affiliates and Nonaffiliated Third Parties to Whom the Licensee Discloses.

a. A licensee satisfies the requirement to categorize the affiliates and nonaffiliated third parties to which the licensee discloses nonpublic personal financial information about consumers if the licensee identifies the types of businesses in which they engage.

b. Types of businesses may be described by general terms only if the licensee uses a few illustrative examples of significant lines of business. For example, a licensee may use the term financial products or services if it includes appropriate examples of significant lines of businesses, such as life insurer, automobile insurer, consumer banking, or securities brokerage.

c. A licensee also may categorize the affiliates and nonaffiliated third parties to which it discloses nonpublic personal financial information about consumers using more detailed categories.

04. Disclosures Under Exception for Service Providers and Joint Marketers. If a licensee discloses nonpublic personal financial information under the exception in Section 450 to a nonaffiliated third party to market products or services that it offers alone or jointly with another financial institution, the licensee satisfies the disclosure requirement of Subsection 200.05 of this rule if it:

a. Lists the categories of nonpublic personal financial information it discloses, using the same categories and examples the licensee used to meet the requirements of Subsection 200.02 of this rule, as applicable; and

b. States whether the third party is:

i. A service provider that performs marketing services on the licensee's behalf or on behalf of the licensee and another financial institution; or
ii. A financial institution with whom the licensee has a joint marketing agreement. (5-3-03)

05. Simplified Notices. If a licensee does not disclose, and does not wish to reserve the right to disclose, nonpublic personal financial information about customers or former customers to affiliates or nonaffiliated third parties except as authorized under Sections 451 and 452, the licensee may simply state that fact, in addition to the information it shall provide under Subsections 200.01, 200.08, 200.09, and Section 201 of this rule. (5-3-03)

06. Confidentiality and Security. A licensee describes its policies and practices with respect to protecting the confidentiality and security of nonpublic personal financial information if it does both of the following:
   a. Describes in general terms who is authorized to have access to the information; and (5-3-03)
   b. States whether the licensee has security practices and procedures in place to ensure the confidentiality of the information in accordance with the licensee's policy. The licensee is not required to describe technical information about the safeguards it uses. (5-3-03)

203. SHORT-FORM INITIAL NOTICE WITH OPT OUT NOTICE FOR NON-CUSTOMERS.

01. Short-Form Initial Notice Allowed. A licensee may satisfy the initial notice requirements in Paragraph 100.01.b. and Subsection 251.02, for a consumer who is not a customer, by providing a short-form initial notice at the same time as the licensee delivers an opt out notice as required in Section 250. (5-3-03)

02. Short-Form Initial Notice Requirements. A short-form initial notice shall:
   a. Be clear and conspicuous; (5-3-03)
   b. State that the licensee's privacy notice is available upon request; and (5-3-03)
   c. Explain a reasonable means by which the consumer may obtain that notice. (5-3-03)

03. Delivery of Short-Form Initial Notice. The licensee shall deliver its short-form initial notice according to Section 350. The licensee is not required to deliver its privacy notice with its short-form initial notice. The licensee instead may simply provide the consumer a reasonable means to obtain its privacy notice. If a consumer who receives the licensee's short-form notice requests the licensee's privacy notice, the licensee shall deliver its privacy notice according to Section 350. (5-3-03)

04. Examples of Obtaining Privacy Notice. The licensee provides a reasonable means by which a consumer may obtain a copy of its privacy notice if the licensee:
   a. Provides a toll-free telephone number that the consumer may call to request the notice; or (5-3-03)
   b. For a consumer who conducts business in person at the licensee's office, maintains copies of the notice on hand that the licensee provides to the consumer immediately upon request. (5-3-03)

204. FUTURE DISCLOSURES.
The licensee's notice may include:

01. Nonpublic Personal Financial Information. Categories of nonpublic personal financial information that the licensee reserves the right to disclose in the future, but does not currently disclose; and (5-3-03)

02. Adequate Opt Out Notice. A licensee provides adequate notice that the consumer can opt out of the disclosure of nonpublic personal financial information to a nonaffiliated third party if the licensee:

a. Identifies all of the categories of nonpublic personal financial information that it discloses or reserves the right to disclose, and all of the categories of nonaffiliated third parties to which the licensee discloses the information, and states that the consumer can opt out of the disclosure of that information; and

b. Identifies the insurance products or services that the consumer obtains from the licensee, either singly or jointly, to which the opt out direction would apply.

03. Reasonable Means to Exercise an Opt Out Right. A licensee provides a reasonable means to exercise an opt out right if it:

a. Designates check-off boxes in a prominent position on the relevant forms with the opt out notice;

b. Includes a reply form together with the opt out notice;

c. Provides an electronic means to opt out, such as a form that can be sent via electronic mail or a process at the licensee's web site, if the consumer agrees to the electronic delivery of information; or

d. Provides a toll-free telephone number that consumers may call to opt out.

04. Unreasonable Means of Opting Out. A licensee does not provide a reasonable means of opting out if:

a. The only means of opting out is for the consumer to write his own letter to exercise the opt out right; or

b. The only means of opting out as described in any notice subsequent to the initial notice is to use a check-off box that the licensee provided with the initial notice but did not include with the subsequent notice.

05. Specific Opt Out Means. A licensee may require each consumer to opt out through a specific means, as long as that means is reasonable for that consumer.

251. PROVIDING OPT OUT NOTICE TO CONSUMERS AND COMPLYING WITH OPT OUT DIRECTION.

01. Same Form as Initial Notice Permitted. A licensee may provide the opt out notice together with
or on the same written or electronic form as the initial notice the licensee provides in accordance with Section 100.  

(5-3-03)

02. Initial Notice Required When Opt Out Notice Delivered Subsequent to Initial Notice. If a licensee provides the opt out notice later than required for the initial notice in accordance with Section 100, the licensee shall also include a copy of the initial notice with the opt out notice in writing or, if the consumer agrees, electronically.  

(5-3-03)

03. Joint Relationships.  

a. If two (2) or more consumers jointly obtain an insurance product or service from a licensee, the licensee may provide a single opt out notice. The licensee's opt out notice shall explain how the licensee will treat an opt out direction by a joint consumer (as explained in Paragraph 251.03.e of this rule).  

(5-3-03)

b. Any of the joint consumers may exercise the right to opt out. The licensee may either:  

i. Treat an opt out direction by a joint consumer as applying to all of the associated joint consumers;  

(5-3-03)

ii. Permit each joint consumer to opt out separately.  

(5-3-03)

c. If a licensee permits each joint consumer to opt out separately, the licensee shall permit one (1) of the joint consumers to opt out on behalf of all of the joint consumers.  

(5-3-03)

d. A licensee may not require all joint consumers to opt out before it implements any opt out direction.  

(5-3-03)

e. Example. If John and Mary are both named policyholders on a homeowner’s insurance policy issued by a licensee and the licensee sends policy statements to John’s address, the licensee may do any of the following, but it shall explain in its opt out notice which opt out policy the licensee will follow:  

(5-3-03)

i. Send a single opt out notice to John’s address, but the licensee shall accept an opt out direction from either John or Mary.  

(5-3-03)

ii. Treat an opt out direction by either John or Mary as applying to the entire policy. If the licensee does so and John opts out, the licensee may not require Mary to opt out as well before implementing John’s opt out direction.  

(5-3-03)

iii. Permit John and Mary to make different opt out directions. If the licensee does so:  

(1) It shall permit John and Mary to opt out for each other;  

(5-3-03)

(2) If both opt out, the licensee shall permit both of them to notify it in a single response (such as on a form or through a telephone call); and  

(5-3-03)

(3) If John opts out and Mary does not, the licensee may only disclose nonpublic personal financial information about Mary, but not about John and not about John and Mary jointly.  

(5-3-03)

04. Time to Comply with Opt Out. A licensee shall comply with a consumer’s opt out direction as soon as reasonably practicable after the licensee receives it.  

(5-3-03)

05. Continuing Right to Opt Out. A consumer may exercise the right to opt out at any time.  

(5-3-03)

06. Duration of Consumer’s Opt Out Direction.  

a. A consumer’s direction to opt out under Sections 250 and 251 is effective until the consumer
revokes it in writing or, if the consumer agrees, electronically.

b. When a customer relationship terminates, the customer’s opt out direction continues to apply to the nonpublic personal financial information that the licensee collected during or related to that relationship. If the individual subsequently establishes a new customer relationship with the licensee, the opt out direction that applied to the former relationship does not apply to the new relationship.

07. Delivery. When a licensee is required to deliver an opt out notice by Section 250, the licensee shall deliver it according to Section 350.

252. -- 299. (RESERVED)

300. REVISED PRIVACY NOTICES.

01. General Rule. a. The licensee has provided to the consumer a clear and conspicuous revised notice that accurately describes its policies and practices;

b. The licensee has provided to the consumer a new opt out notice;

c. The licensee has given the consumer a reasonable opportunity, before the licensee discloses the information to the nonaffiliated third party, to opt out of the disclosure; and

02. Examples of Application of General Rule.

ii. Discloses nonpublic personal financial information to a new category of nonaffiliated third party; or

iii. Discloses nonpublic personal financial information about a former customer to a nonaffiliated third party, if that former customer has not had the opportunity to exercise an opt out right regarding that disclosure.

b. A revised notice is not required if the licensee discloses nonpublic personal financial information to a new nonaffiliated third party that the licensee adequately described in its prior notice.

03. Delivery. When a licensee is required to deliver a revised privacy notice by Section 300, the licensee shall deliver it according to Section 350.

301. -- 349. (RESERVED)

350. DELIVERY.

01. How to Provide Notices. A licensee shall provide any notices that this rule requires so that each consumer can reasonably be expected to receive actual notice in writing or, if the consumer agrees, electronically.
02. Examples of Reasonable and Unreasonable Expectation of Actual Notice. (5-3-03)
   a. A licensee may reasonably expect that a consumer will receive actual notice if the licensee:
      i. Hand-delivers a printed copy of the notice to the consumer; (5-3-03)
      ii. Mails a printed copy of the notice to the last known address of the consumer separately, or in a policy, billing or other written communication; (5-3-03)
      iii. For a consumer who conducts transactions electronically, posts the notice on the electronic site and requires the consumer to acknowledge receipt of the notice as a necessary step to obtaining a particular insurance product or service; or (5-3-03)
      iv. For an isolated transaction with a consumer, such as the licensee providing an insurance quote or selling the consumer travel insurance, posts the notice, and requires the consumer to acknowledge receipt of the notice as a necessary step to obtaining the particular insurance product or service. (5-3-03)
   b. A licensee may not reasonably expect that a consumer will receive actual notice of its privacy policies and practices if it:
      i. Only posts a sign in its office or generally publishes advertisements of its privacy policies and practices; or (5-3-03)
      ii. Sends the notice via electronic mail to a consumer who does not obtain an insurance product or service from the licensee electronically. (5-3-03)

03. Annual Notices Only. A licensee may reasonably expect that a customer will receive actual notice of the licensee's annual privacy notice if:
   a. The customer uses the licensee's web site to access insurance products and services electronically and agrees to receive notices at the web site and the licensee posts its current privacy notice continuously in a clear and conspicuous manner on the web site; or (5-3-03)
   b. The customer has requested that the licensee refrain from sending any information regarding the customer relationship, and the licensee's current privacy notice remains available to the customer upon request. (5-3-03)

04. Oral Description of Notice Insufficient. A licensee may not provide any notice required by this rule solely by orally explaining the notice, either in person or over the telephone. (5-3-03)

05. Retention or Accessibility of Notices for Customers. (5-3-03)
   a. For customers only, a licensee shall provide the initial notice required by Paragraph 100.01.a., the annual notice required by Paragraph 150.01.a, and the revised notice required by Section 300 so that the customer can retain them or obtain them later in writing or, if the customer agrees, electronically. (5-3-03)
   b. Examples of retention or accessibility. A licensee provides a privacy notice to the customer so that the customer can retain it or obtain it later if the licensee:
      i. Hand-delivers a printed copy of the notice to the customer; (5-3-03)
      ii. Mails a printed copy of the notice to the last known address of the customer; or (5-3-03)
      iii. Makes its current privacy notice available on a web site (or a link to another web site) for the customer who obtains an insurance product or service electronically and agrees to receive the notice at the web site.
06. **Joint Notice with Other Financial Institutions.** A licensee may provide a joint notice from the licensee and one (1) or more of its affiliates or other financial institutions, as identified in the notice, as long as the notice is accurate with respect to the licensee and the other institutions. A licensee also may provide a notice on behalf of another financial institution.

07. **Joint Relationships.** If two (2) or more consumers jointly obtain an insurance product or service from a licensee, the licensee may satisfy the initial, annual, and revised notice requirements of Subsections 100.01, 150.01, and 300.01, respectively, by providing one (1) notice to those consumers jointly.

351. -- 399. (RESERVED)

400. **LIMITS ON DISCLOSURE OF NONPUBLIC PERSONAL FINANCIAL INFORMATION TO NONAFFILIATED THIRD PARTIES.**

01. **Conditions for Disclosure.**

   a. Except as otherwise authorized in this rule, a licensee may not, directly or through any affiliate, disclose any nonpublic personal financial information about a consumer to a nonaffiliated third party unless:

   i. The licensee has provided to the consumer an initial notice as required under Section 100; (5-3-03)

   ii. The licensee has provided to the consumer an opt out notice as required in Sections 250 and 251; (5-3-03)

   c. Examples of reasonable opportunity to opt out. A licensee provides a consumer with a reasonable opportunity to opt out if:

      i. By mail. The licensee mails the notices required in Subsection 400.01 of this rule to the consumer and allows the consumer to opt out by mailing a form, calling a toll-free telephone number or any other reasonable means within thirty (30) days from the date the licensee mailed the notices. (5-3-03)

      ii. By electronic means. A customer opens an on-line account with a licensee and agrees to receive the notices required in Subsection 400.01 of this rule electronically, and the licensee allows the customer to opt out by any reasonable means within thirty (30) days after the date that the customer acknowledges receipt of the notices in conjunction with opening the account. (5-3-03)

      iii. Isolated transaction with consumer. For an isolated transaction such as providing the consumer with an insurance quote, a licensee provides the consumer with a reasonable opportunity to opt out if the licensee provides the notices required in Subsection 400.01 of this rule at the time of the transaction and requests that the consumer decide, as a necessary part of the transaction, whether to opt out before completing the transaction. (5-3-03)

02. **Application of Opt Out to All Consumers and All Nonpublic Personal Financial Information.**

   a. A licensee shall comply with Section 400, regardless of whether the licensee and the consumer have established a customer relationship. (5-3-03)
b. Unless a licensee complies with Section 400, the licensee may not, directly or through any affiliate, disclose any nonpublic personal financial information about a consumer that the licensee has collected, regardless of whether the licensee collected it before or after receiving the direction to opt out from the consumer. (5-3-03)

03. Partial Opt Out. A licensee may allow a consumer to select certain nonpublic personal financial information or certain nonaffiliated third parties with respect to which the consumer wishes to opt out. (5-3-03)

iii. The licensee may disclose and use the information pursuant to an exception in Section 451 or 452 of this rule, in the ordinary course of business to carry out the activity covered by the exception under which the licensee received the information. (5-3-03)

b. Example. If a licensee receives information from a nonaffiliated financial institution for claims settlement purposes, the licensee may disclose the information for fraud prevention, or in response to a properly authorized subpoena. ii. To its affiliates, but its affiliates may, in turn, disclose the information only to the extent that the licensee may disclose and use the information; and (5-3-03)

iii. To any other person, if the disclosure would be lawful if made directly to that person by the financial institution from which the licensee received the information. (5-3-03)

b. Example. If a licensee obtains a customer list from a nonaffiliated financial institution outside of the exceptions in Section 451 or 452:

i. The licensee may use that list for its own purposes; and (5-3-03)

ii. The licensee may disclose that list to another nonaffiliated third party only if the financial institution from which the licensee purchased the list could have lawfully disclosed the list to that third party. That is, the licensee may disclose the list in accordance with the privacy policy of the financial institution from which the licensee received the list, as limited by the opt out direction of each consumer whose nonpublic personal financial information the licensee intends to disclose, and the licensee may disclose the list in accordance with an exception in

   a. The third party may disclose the information to the licensee's affiliates; (5-3-03)

   b. To the third party's affiliates, but the third party's affiliates, in turn, may disclose the information only to the extent the third party can disclose the information; and (5-3-03)

   c. To any other person, if the disclosure would be lawful if the licensee made it directly to that person. (5-3-03)

402. LIMITS ON SHARING ACCOUNT NUMBER INFORMATION FOR MARKETING PURPOSES.

01. General Prohibition on Disclosure of Account Numbers. A licensee shall not, directly or through an affiliate, disclose, other than to a consumer reporting agency, a policy number or similar form of access number or access code for a consumer's policy or transaction account to any nonaffiliated third party for use in telemarketing, direct mail marketing or other marketing through electronic mail to the consumer. (5-3-03)

02. Exceptions. Subsection 402.01 of this rule does not apply if a licensee discloses a policy number or similar form of access number or access code:

01. General Rule. (5-3-03)
   a. The opt out requirements in Sections 250, 251 and 400 do not apply when a licensee provides nonpublic personal financial information to a nonaffiliated third party to perform services for the licensee or functions on the licensee's behalf, if the licensee:

      i. Provides the initial notice in accordance with Section 100; and (5-3-03)

(5-3-03)

   b. Example. If a licensee discloses nonpublic personal financial information under Section 450 to a financial institution with which the licensee performs joint marketing, the licensee's contractual agreement with that institution meets the requirements of Subparagraph 450.01.a.ii. of this rule if it prohibits the institution from disclosing or using the nonpublic personal financial information except as necessary to carry out the joint marketing or under an exception in Section 451 or 452 in the ordinary course of business to carry out that joint marketing.    vi. In connection with: (5-3-03)

Appendix A -- Sample Clauses

Licensees, including a group of financial holding company affiliates that use a common privacy notice, may use the following sample clauses, if the clause is accurate for each institution that uses the notice. (Note that disclosure of certain information, such as assets, income and information from a consumer reporting agency, may give rise to obligations under the federal Fair Credit Reporting Act, such as a requirement to permit a consumer to opt out of disclosures to affiliates or designation as a consumer reporting agency if disclosures are made to nonaffiliated third parties.)
A-1-Categories of information a licensee collects (all institutions)
A licensee may use this clause, as applicable, to meet the requirement to describe the categories of nonpublic personal information the licensee collects.

A-2-Categories of information a licensee discloses (institutions that disclose outside of the exceptions)
A licensee may use one of these clauses, as applicable, to meet the requirement to describe the categories of nonpublic personal information the licensee discloses. The licensee may use these clauses if it discloses nonpublic personal information other than as permitted by the exceptions in Sections 450, 451, and 452.

Sample Clause A-2, Alternative 1:

A-3-Categories of information a licensee discloses and parties to whom the licensee discloses (institutions that do not disclose outside of the exceptions)
A licensee may use this clause, as applicable, to meet the requirements to describe the categories of nonpublic personal information about customers and former customers that the licensee discloses and the categories of affiliates and nonaffiliated third parties to whom the licensee discloses. A licensee may use this clause if the licensee does not disclose nonpublic personal information to any party, other than as permitted by the exceptions in Sections 451 and 452.

Sample Clause A-3:
We do not disclose any nonpublic personal information about our customers or former customers to anyone, except as permitted by law.

A-4-Categories of parties to whom a licensee discloses (institutions that disclose outside of the exceptions)
A licensee may use this clause, as applicable, to describe the categories of affiliates and nonaffiliated third parties to whom the licensee discloses nonpublic personal information. This clause may be used if the licensee discloses nonpublic personal information other than as permitted by the exceptions in Sections 450, 451, and 452, as well as when permitted by the exceptions in Sections 451 and 452.

Sample Clause A-4:
We may disclose nonpublic personal information about you to the following types of third parties:
  Financial service providers, such as [provide illustrative examples, such as “life insurers, automobile insurers, mortgage bankers, securities broker-dealers, and insurance agents”];
  Non-financial companies, such as [provide illustrative examples, such as “retailers, direct marketers, airlines, and publishers”]; and
  Others, such as [provide illustrative examples, such as “non-profit organizations”].
We may also disclose nonpublic personal information about you to nonaffiliated third parties as permitted by law.

A-5-Service provider/joint marketing exception
A licensee may use one of these clauses, as applicable, to meet the requirements related to the exception for service providers and joint marketers in Section 450. If a licensee discloses nonpublic personal information under this exception, the licensee shall describe the categories of nonpublic personal information the licensee discloses and the categories of third parties with which the licensee has contracted.

Sample Clause A-5, Alternative 1:
We may disclose the following information to companies that perform marketing services on our behalf or to other financial institutions with which we have joint marketing agreements:

- Information we receive from you on applications or other forms, such as “your name, address, social security number, assets, income, and beneficiaries”;
- Information about your transactions with us, our affiliates or others, such as “your policy coverage, premium, and payment history”; and
- Information we receive from a consumer reporting agency, such as “your creditworthiness and credit history”.

Sample Clause A-5, Alternative 2:
We may disclose all of the information we collect, as described to companies that perform marketing services on our behalf or to other financial institutions with whom we have joint marketing agreements.

A-6-Explanation of opt out right (institutions that disclose outside of the exceptions)
A licensee may use this clause, as applicable, to provide an explanation of the consumer's right to opt out of the disclosure of nonpublic personal information to nonaffiliated third parties, including the method(s) by which the consumer may exercise that right. The licensee may use this clause if the licensee discloses nonpublic personal information other than as permitted by the exceptions in Sections 450, 451, and 452.

Sample Clause A-6:
If you prefer that we not disclose nonpublic personal information about you to nonaffiliated third parties, you may opt out of those disclosures, that is, you may direct us not to make those disclosures (other than disclosures permitted by law). If you wish to opt out of disclosures to nonaffiliated third parties, you may [describe a reasonable means of opting out, such as “call the following toll-free number: (insert number)”].

A-7-Confidentiality and security (all institutions)
A licensee may use this clause, as applicable, to describe its policies and practices with respect to protecting the confidentiality and security of nonpublic personal information.

Sample Clause A-7:
We restrict access to nonpublic personal information about you to [provide an appropriate description, such as “those employees who need to know that information to provide products or services to you”]. We maintain physical, electronic, and procedural safeguards that comply with federal rules to guard your nonpublic personal information.

007. – 009. **(RESERVED)**

010. **DEFINITIONS.**
As used in this rule, unless the context requires otherwise, the following words have the following meanings: (3-20-04)

01. **Consumer Report.** Any written, oral, or other communication of any information by a consumer reporting agency regulated under the federal Fair Credit Reporting Act (15 U.S.C. 1681) that bears on a consumer’s credit worthiness, credit standing, credit capacity, character, general reputation, personal characteristics, or mode of living. (3-20-04)

02. **Credit Factor.** A factor or criterion that consists of or is derived from information obtained from a consumer report that is used by an insurer in determining policy premium rates, or in determining whether to issue, cancel or nonrenew a policy. (3-20-04)

03. **Department.** The Idaho Department of Insurance. (3-20-04)

04. **Noncredit Factor.** Any factor other than a credit factor that is reasonably expected to affect the risk assumed by an insurer and is used by the insurer in determining policy premium rates, or in determining whether to
issue, cancel or nonrenew a policy. (3-20-04)

05. **Policy.** A contract for property or casualty insurance, as defined by Chapter 5, Title 41, Idaho Code, that is purchased or maintained primarily for personal, family or household purposes. (3-20-04)

06. **Weight.** The consideration given by an insurer to a particular credit or noncredit factor relative to other factors considered in the underwriting or rating process. (3-20-04)

011. -- 099. (RESERVED)

100. **USE OF CREDIT FACTORS.**

01. **Prohibited Acts.** An insurer shall not charge a higher premium than would otherwise be charged, or cancel, nonrenew or decline to issue a policy, based in any part upon credit factors unless:

   a. The decision is also based on a noncredit factor or factors; and (3-20-04)

   b. The aggregate weight given to the noncredit factors considered in making the decision is at least as great as the aggregate weight given to the credit factors considered in making the decision. (3-20-04)

02. **Application of Rule.** To determine whether a decision to issue, nonrenew or cancel a policy, or to charge a higher rate than would otherwise be charged, is not improperly based primarily upon a credit factor or factors and in violation of Section 41-1843, Idaho Code, the Department will apply the following criteria:

   a. If an insurer declines to issue, nonrenews or cancels a policy based in any part upon a credit factor, the insurer must be able to show that it also relied upon a noncredit factor or combination of noncredit factors in making the decision and that the noncredit factor(s) played at least as great a role in the decision as did the credit factor. Nothing in this rule is intended to modify or alter any provisions contained in Title 41, Chapter 25, Idaho Code. (4-4-13)

   b. If an insurer relies in any part upon a credit factor in establishing an initial rate for new business or to impose an increase in premium rate for a customer, the insurer must be able to show that it also considered noncredit factors in establishing the initial rate and that not more than one-half (½) of the initial or renewal premium rate is attributable to the credit factor. To satisfy this requirement, an insurer shall do one (1) of the following:

      i. Compare the premium rate using the highest credit factor to the premium rate using the lowest credit factor. The difference in the premium rate between the highest and lowest shall be not more than one-half (½) the highest premium rate; or (4-4-13)

      ii. Compare a premium rate calculated using the highest credit factor to a premium rate calculated without using credit. The premium rate calculated without using credit shall be equal to or greater than one-half (½) of the premium rate calculated using the highest credit factor. To calculate the premium rate without using credit, an insurer shall demonstrate that it has applied all the noncredit factors and replaced the actual credit factor with the average credit factor. The average credit factor must be calculated from the actual distribution of Idaho business by credit factor at the time the credit factor rating system was implemented or last revised. For purposes of this Subparagraph, 100.02.b.ii., “last revised” means any subsequent changes to the credit factor system utilized by the insurer as part of its overall rate filing. Under this approach, as long as the highest rate charged using a credit factor is not more than double the rate using the average credit factor, the rate will be treated as meeting the requirements of Section 41-1843, Idaho Code. (4-4-13)

03. **Information Used in Reviewing Insurer’s Decision.** To evaluate whether an underwriting or rating decision was based primarily upon credit factors, the department may require the insurer to explain in detail the insurer’s underwriting or rating process, identify all factors considered in the process, and describe how the process was applied in the case under review. The department may also require the insurer to apply its underwriting or rating process to hypothetical cases submitted to the insurer by the Department. (3-20-04)
200. **OTHER LAWS OR RULES.**
Nothing in this rule shall be construed to limit or modify any other laws or rules imposing restrictions regarding rating, issuing, canceling or nonrenewing a policy. (3-20-04)

300. **TRADE SECRETS.**
Any information submitted by an insurer pursuant to this rule that the insurer considers to be a trade secret as defined by Section 9-340D, Idaho Code, and not subject to public disclosure, shall be clearly identified as such at the time it is submitted to the department. (3-20-04)

400. **RETENTION OF RECORDS.**
Insurers subject to this rule shall document the factors and criteria considered in underwriting and rating decisions and shall retain the documentation for at least five (5) years from the date of the decision. (3-20-04)

500. **VIOLATIONS.**
A failure to comply with this rule is a violation of Section 41-1843, Idaho Code. (3-20-04)

007. -- 009. (RESERVED)

010. DEFINITIONS.
The Idaho Department of Insurance adopts the definitions set forth in Title 41, Chapter 25, Idaho Code. In addition,
the following terms are defined as used in this chapter. (3-28-18)

01. The Act. For the purpose of this Rule, the term “the Act” shall, unless otherwise noted, refer to Sections 41-2506, 41-2507, 41-2508, 41-2509, 41-2510, 41-2511, 41-2512 of the Idaho Insurance Laws, otherwise known as the Insurance Code. (7-1-93)

02. Non-Payment of Premium. The provisions of Section 41-2506(1)(d), Definitions - Non-Payment of Premium, means the failure of the named insured, or his legal representative, to discharge when due any of his obligations in connection with the payment of any premiums or installment premiums on a policy as defined in the Act, or any membership fees due an association or organization, other than an insurance association or organization, which by its by-laws requires the payment of such membership fees by the member prior to his obtaining or continuing insurance in force through such an association or organization. The term “non-payment of premium” as referred to in the Act shall also apply when the named insured or his legal representative is obligated to pay such premium or membership fee directly to the insurer, its agent or representative, or indirectly under any premium finance plan or extensions of credit. However, if the agent or other representative of the insurer extends credit to the insured, orally or otherwise, and said agent or representative terminates such credit arrangement with the insured because of non-payment, said agent or representative, with the knowledge and consent of the insurer, shall then mail or deliver, or cause to be mailed or delivered, to the named insured or his legal representative written notice of cancellation which states, in effect, that the insurance provided by the policy upon which such credit was granted shall cease on a given time and date. This time and date shall be no earlier than ten (10) days after the date such notice was mailed or delivered, the date of mailing considered to be the first day and the tenth day being considered to be the sixtieth (60th) day being considered to be ended at midnight, standard time, at the last known address of the named insured. Nothing in this rule shall be construed to permit any agent or other representative of the insurer to cancel any policy without the concurrence of the insurer or for any private debt between the agent and the insured. Also, nothing in the section shall be construed to prohibit a policy from being canceled effective as of any date that is mutually acceptable to the insured, the insurer and the lienholder, if any. Furthermore, a prior existing policy shall terminate on the effective date of any other policy procured by the insured with respect to any automobile designated in both policies and containing duplicate insurance coverage. (7-1-93)

03. Sixty Day Period. The sixty (60) day period referred to in Subsection (2) of Section 41-2506, Cancellation of Policies - Definitions, is intended to provide to insurers a reasonable period of time, if desired, to thoroughly investigate a particular risk while extending coverage during the period of investigation. Should an insurer, after such investigation, conclude that it does not wish to remain on the risk, it may decline to continue such policy in force provided that its action conforms with the provisions of Section 41-2506(2) of the Act. Therefore, the provisions of this section shall be interpreted to mean that an insurer may deliver notice of cancellation or mail notice of cancellation concerning any new automobile policy on or before the sixtieth (60th) day after inception date of the policy, the inception date being considered to be the first day and the sixtieth (60th) day being considered to be ended at midnight, standard time, at the last known address of the named insured. The policy shall thus remain in force from the date the notice of cancellation is mailed to the usual date the cancellation is effective as required by the terms and conditions of the policy, without the policy being considered to be subject to the provisions of the Act. For the purpose of this rule, the term “inception date” shall mean that date and time that the policy goes into effect and the protection furnished by the policy commences. (7-1-93)

011. ERRORS OR MISREPRESENTATIONS IN THE APPLICATION.

01. Material Misrepresentation. The provisions of Section 41-2507(2), Cancellation of Policies - Grounds, relating to material misrepresentation by the insured in obtaining a policy as permitted grounds for cancellation of the policy, shall be construed to mean that an insurer may cancel or refuse to renew a policy after giving the insured proper notice if the insurer has evidence that the named insured, or his legal representative, made fraudulent or material misrepresentations, omissions, concealment of facts or incorrect statements in obtaining the policy and if the insurer in good faith would not have issued the policy nor would have provided coverage with respect to a particular hazard if the true facts had been made known to the insurer as required in the application. (7-1-93)

02. Prohibitions. Nothing in this rule shall be construed to allow the insurer to void the policy back to its inception date or rescind coverage under the policy in order to prevent a recovery under the policy in the event of a loss otherwise insured by the policy. (7-1-93)
03. **Representations -- Application.** Nothing in this rule shall be construed to change the meaning of, or modify in any way, Section 41-18ll, Representations in Application, Idaho Code.  

(7-1-93)

**012. ALLOWABLE CONVICTIONS FOR TRAFFIC VIOLATIONS.**

01. **Grounds and Requests for Cancellation Due to Traffic Violation Convictions.** Section 41-2507(7)(h), Cancellation of Policies -- Grounds, shall be construed to mean that an insurer may send proper notice of cancellation as soon as the named insured has been convicted of or forfeited bail for three (3) or more violations, as described under this section, within the thirty-six (36) months immediately preceding the notice of cancellation or non-renewal. The insurer may also send proper notice of cancellation at such time as any other individual operator who either resides in the same household or customarily operates an automobile insured under the policy has been convicted of or forfeited bail for three (3) or more violations as described under this section within the thirty-six (36) months immediately preceding the notice of cancellation or non-renewal.  

(7-1-93)

02. **Conviction.** For the purposes of the Act, the term “conviction” shall mean a final conviction by any court having competent jurisdiction over violations of laws regulating the operation of motor vehicles as set out in Section 41-2507(7)(h), Idaho Code.  

(7-1-93)

03. **Conviction Exception.** For the purposes of the Act, a conviction for an overtime parking violation is not a conviction that would provide a valid reason for an insurer to send notice of cancellation of or refusal to renew a policy.  

(7-1-93)

**013. NOTICE OF PREMIUM DUE AS WILLINGNESS OF INSURER TO RENEW.**

01. **Policy Renewal, Nonrenewal Requests.** Some insurers effect a renewal of their outstanding policies of automobile insurance merely by sending a renewal premium notice to the insured a reasonable period of time in advance of the expiration date of his policy. The insured need only make a timely payment of the premium due in order to keep his policy in force. In this situation, the mailing by the insurer of the renewal premium notice does constitute such a manifestation of willingness by the insurer to renew, as to comply with Section 41-2508(2) of the Act. If the insured fails to pay the renewal premium when due, the policy will terminate in accordance with its terms. No further notice to the insured by the insurer of an intention not to renew for non-payment of premium is necessary.  

(7-1-93)

02. **Renewal.** Inasmuch as Section 41-2508(2) of the Act, entitled, Notice of Cancellation or Intention Not To Renew, requires in effect that no insurer shall fail to renew a policy to which Section 41-2506 of the Act applies unless the insurer has manifested its willingness to renew, it might be implied that the insurer must automatically renew the policy whether or not requested to do so by the named insured or his agent. It is the position of the Department of Insurance that such an implication was not intended in the Act and, therefore, failure to send notice to the insured of the insurer’s intent not to renew a policy shall also be considered to be a manifestation by the insurer of its willingness to renew the policy, and nothing in this subsection requires an insurer to renew a policy unless requested to do so by either the insured or his agent. Nevertheless, if an agent, who is properly licensed to represent the insurer, asks the insurer not to renew a particular policy and the insurer complies with this request, then such failure to renew the policy constitutes a “Refusal to Renew” under the provisions of the Act. In the event the policy in question does not have a fixed and definite expiration date, the insurer, or its authorized legal representative, shall be required to send proper notice of premium due to the insured’s last known mailing address not less than fifteen (15) days prior to the date the policy would expire in the event such premium was not paid and such notice of premium due shall plainly indicate the date that coverage ceases under the policy because of non-payment of premium. On policies that do contain a fixed and definite renewal date, proper notice of the forthcoming expiration date and the premium due shall be sent to the last known address of the named insured by the insurer or its authorized legal representative at least fifteen (15) days prior to said expiration date.  

(7-1-93)

**014. AGENT SHALL NOT WITHHOLD BENEFITS OF THIS ACT FROM THE INSURER.**

01. **Penalties.** Any insurance agent or other representative of an insurer who knowingly or willfully withholds information or gives misleading information, or in any manner conceals from the insured knowledge to the effect that the insurer under the new policy may not be subject to the obligations and responsibilities intended by the
Act for the first sixty (60) day period as provided by Section 41-2506(2) of the Act, shall be subject to the penalties prescribed or referred to in Section 41-117, General Penalty, for violation of Section 41-1305, Twisting, Prohibited, Idaho Code. (7-1-93)

015. ACCEPTABLE FORMS FOR NOTICE OF CANCELLATION, REFUSAL TO RENEW, AND AVAILABILITY OF IDAHO AUTOMOBILE INSURANCE PLAN.

01. Notice Forms. Each insurer shall prepare the forms of notice which it proposes to use and submit such to the Director of Insurance for approval. (7-1-93)

02. Acceptable Language. As a guide, the Department will accept the following language, or language substantially similar, as satisfying the indicated notice requirements of the Act:

a. Right of Insured to Request Reasons for Cancellation by Insurer: “As required by State Insurance Laws, upon your written request, mailed or delivered to (Name of Insurer) not less than ten (10) days prior to the effective date of this cancellation, (Name of Insurer) will supply to you the reason or reasons why your policy has been canceled.” (7-1-93)

b. Right of Insured to Request Reasons for Refusal to Renew by Insurer: “As required by State Insurance Laws, upon your written request, mailed or delivered to (Name of Insurer) not less than fifteen (15) days prior to the expiration date of your policy, which is the date coverage ceases under your policy unless it is renewed, the (Name of Insurer) will supply to you the reason or reasons why your policy will not be renewed.” (7-1-93)

c. Notification to Insured of Coverage Available Under Idaho Automobile Insurance Plan: “Should you experience difficulty in obtaining automobile liability insurance, please contact your agent or company representative for full particulars concerning your possible eligibility for insurance through the Idaho Automobile Insurance Plan.” (7-1-93)

016. STANDARD STATEMENT REGARDING UNINSURED AND UNDERINSURED MOTORIST COVERAGE.

The form set forth below is the standard statement approved by the director of the department of insurance pursuant to Section 41-2502, Idaho Code, and carriers must begin using the new form for all new policies and those existing policies where UM or UIM coverage is added or removed no later than January 1, 2019. Carriers may make non-substantive changes to this form, for example, including inserting company letterhead, and carriers must file their standard statement forms with the director prior to use. This rule does not create new requirements for the types of UIM coverage carriers must offer beyond what existed as of the effective date of this rulemaking. (3-28-18)

APPENDIX A

(UNINSURED/UNDERINSURED MOTORIST DISCLOSURE)
IDAHO UNINSURED MOTORIST AND UNDERINSURED MOTORIST DISCLOSURE -- Do not sign until you read

Idaho law requires that every auto liability insurance policy include Uninsured Motorist (UM) bodily injury coverage and Underinsured Motorist (UIM) bodily injury coverage, unless a named insured (you) has rejected these coverages in writing, which may be in electronic format.

These coverages can protect you and your passengers by paying damages, up to the UM/UIM policy limits you have chosen, when an at-fault person does not have any or enough liability coverage.

- UM coverage may pay damages for bodily injuries caused by an at-fault motorist who has no insurance, or from a hit-and-run vehicle where the at-fault party is unknown.

- UIM coverage may pay damages for bodily injuries if the at-fault motorist does not have enough liability insurance to cover your costs. UIM coverage is offered in different types by different insurers, and insurers are not required to offer more than one type of UIM coverage. The most common available type of UIM coverage is "Difference in Limits" (or "Offset") Coverage. Some insurers may offer "Excess" Coverage. Please refer to the attached examples to see how the different types of UIM coverage may impact your level of protection.

You have the option to purchase both UIM and UM coverage in varying amounts at or above the minimum liability requirements in Idaho, which are $25,000 per person, $50,000 for two or more persons in any one accident. By signing below, you acknowledge that the insurance company has explained the following UM/UIM coverages that are available as part of your policy:

UNINSURED AND UNDERINSURED MOTORIST COVERAGE – OPTION TO REJECT

I understand that, by signing below, I am informing my insurer that I choose to reject the UM/UIM coverage(s) under my automobile liability policy, or under any renewal or replacement of my policy.

This general explanation is NOT an insurance agreement. All auto insurance policies have terms and conditions that control your rights and obligations as a policyholder. For a more detailed explanation of these coverages, refer to your policy, agent or the insurer. The Idaho Department of Insurance can also provide assistance with insurance related questions. ### Difference in Limits (or "Offset") UIM

**Definition of the type of UIM coverage**
- Your UIM coverage limits are reduced or eliminated by any amounts recovered from another party's insurance.

**Excess** UIM
- Your UIM coverage limits are above and beyond what is paid by another party's insurance.

#### Example 1
At-fault motorist and you have the same bodily injury/UIM coverage limits

<table>
<thead>
<tr>
<th></th>
<th>&quot;Difference in Limits&quot; (or &quot;Offset&quot;) UIM</th>
<th>&quot;Excess&quot; UIM</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bodily Injury liability limit of at-fault motorist</td>
<td>$25,000</td>
<td>$25,000</td>

<td>$25,000</td>
</tr>
<tr>
<td>Maximum available for your bodily injury</td>
<td><strong>$25,000</strong></td>
<td><strong>$50,000</strong></td>
</tr>
</tbody>
</table>

**Example 1 explanation**
- Your UIM coverage doesn't provide additional coverage above the at-fault motorist's coverage because they have the same limit.
- Your UIM coverage increases the available Bodily Injury coverage above the at-fault motorist's coverage limit.

#### Example 2
At-fault motorist has lower bodily injury coverage limits than your UIM

      v. Establishing and maintaining procedures to detect recommendations that are not suitable. These
          procedures may include confirmation of consumer suitability information, systematic customer surveys, interviews,

c. Prepared sales talks, presentations and material for use by providers and brokers. (3-29-10)

02. Affiliation. For purposes of this rule and the Life Settlements Act, an affiliation shall include any contractual relationship outside of the proposed life settlement contract, any ownership interest or relation, any familial relation, an employment relation, any relationship creating financial dependency, any arrangement that provides one party the ability to control or influence the actions of another party, or any other arrangement or relationship that might reasonably result in parties treating one another in a less than arm’s length manner. (3-29-10)

03. Broker. A life settlement broker as defined at section 41-1951(6), Idaho Code. (3-29-10)

04. Operating as a Broker. A person is operating as a broker if the person, for a fee, commission or other valuable consideration, offers or attempts to negotiate a life settlement contract between an owner who is a resident of Idaho and one or more providers. A person working on behalf of a broker by offering or attempting to negotiate a life settlement contract for a fee, commission or other valuable consideration is operating as a broker regardless of whether the person has a direct contractual relationship with the owner. (3-29-10)

05. Operating as a Provider. A person is operating as a provider if the person offers to enter into or attempts to effectuate a life settlement contract with an owner who is a resident of Idaho. A person attempting to effectuate a life settlement contract on behalf of a provider is also operating as a provider regardless of whether the person will be a party to the life settlement contract. (3-29-10)

06. Owner. A life insurance owner or certificate holder as defined at section 41-1951(9), Idaho Code. (3-29-10)

07. Provider. A life settlement provider as defined at section 41-1951(8), Idaho Code. (3-29-10)

011. REGISTRATION REQUIRED TO OPERATE AS LIFE SETTLEMENT PROVIDER OR LIFE SETTLEMENT BROKER.

01. Registration Required. Not later than ten (10) days after first operating as a provider or broker a person shall notify the Director that he is acting as a provider or broker by registering with the Department and paying applicable fees as set forth at IDAPA 18.01.02, “Schedule of Fees, Licenses and Miscellaneous Charges”. Registration shall be in writing and in the form and include information as required by the Director along with a certification from the applicant that he has read and familiarized himself with the requirements of Sections 41-1950 through 41-1965, Idaho Code, and these rules. (3-29-10)

02. Renewal of Registration. Registration as a broker or provider shall continue until the next renewal date of the person’s producer license. If the initial registration takes place within ninety (90) calendar days from the producer license expiration date, registration shall continue until the following producer license renewal date. Registration may be renewed by payment of the applicable renewal fee as set forth at IDAPA 18.01.02, “Schedule of Fees, Licenses and Miscellaneous Charges”. An insurance producer who allows his registration as a broker or provider to lapse may, within twelve (12) months from the renewal due date, reinstate the registration by paying a penalty in the amount of double the unpaid renewal fee. If a registration is allowed to lapse for more than twelve (12) months without reinstatement, a producer wishing to act as a broker or provider shall re-register with the Department and pay the applicable registration fee prior to operating as a broker or provider. (3-29-10)

012. FILING OF FORMS.

01. Filing of Life Settlement Contracts and Disclosure Forms. No person shall use a life settlement contract or disclosure form in Idaho unless the form is first filed with the Department along with a certification that the form meets the requirements of Sections 41-1950 through 41-1965, Idaho Code. The certification shall be in the form as prescribed by the Director and signed by a person registered as a provider or broker. (3-29-10)

02. Filing of Advertising Materials. No person shall use advertising materials promoting or advertising the availability of life settlements or life settlement services in Idaho unless the materials are first filed with the Department. If the advertising is not in written form, a written script shall be filed. All advertising relating to the business of life settlements shall have a unique identifying form number in the lower left hand corner of the advertising piece and shall comply the following standards: (3-29-10)
a. Be truthful and not misleading in fact and implication. All information shall be set out conspicuously and in close conjunction with the statements to which such information relates or under appropriate captions of such prominence that it shall not be minimized, rendered obscure or presented in an ambiguous fashion or intermingled with the context of the advertisement so as to be confusing or misleading. (3-29-10)

b. Reference the complete form number of any life settlement contract being advertised and clearly identify the full and complete name of the provider or broker using the promotional material. Advertising materials shall not use a trade name, any insurance group designation, name of the parent company of the provider or broker, name of a particular division of the provider or broker, service mark, slogan, symbol or other device which would have the capacity and tendency to mislead or deceive as to the true identity of the provider or broker without disclosing the name of the actual provider or broker using the advertising material. (3-29-10)

c. No advertisement shall omit information or use words, phrases, statements, references or illustrations if the omission of such information or use of such words, phrases, statements, references or illustrations has the capacity, tendency or effect of misleading or deceiving sellers or prospective sellers as to the nature or extent of any policy benefit payable. The fact that the contract offered is made available to a prospective seller for inspection prior to consummation of the sale or an offer is made to rescind the life settlement contract if the seller is not satisfied, does not remedy misleading statements. (3-29-10)

d. Advertising materials shall not use words or phrases in a manner which exaggerates any benefits beyond the terms of the life settlement contract and shall fairly and accurately describe the negative features as well as the positive features of the life settlement contract and life settlement program. An advertisement shall not represent or imply that life settlements by the provider are “liberal” or “generous,” or use words of similar import, or that benefits of a life settlement are or will be beyond the actual terms of the life settlement contract. (3-29-10)

e. Advertising materials shall not be designed to encourage or promote the purchase of life insurance for the purpose of transferring ownership to third party investors who lack an insurable interest in the life of the insured. (3-29-10)

f. An advertisement shall not create the impression directly or indirectly that a provider, a broker, its financial condition or status, a life settlement contract or program, or the payment of life settlement benefits is approved, endorsed, or accredited by any division or agency of this state or the United States Government. (3-29-10)

g. Testimonials used in advertisements must be genuine, represent the current opinion of the author, be applicable to the life settlement contract advertised and be accurately reproduced. A provider or broker using a testimonial makes as its own all of the statements contained therein, and the advertisement, including such statement, is subject to all the provisions of these rules. If the person making a testimonial, an endorsement or an appraisal has a financial interest in the provider or broker, or a related entity as a stockholder, director, officer, employee, or otherwise, such fact shall be disclosed in the advertisement. If a person is compensated for making a testimonial, endorsement or appraisal, such fact shall be disclosed in the advertisement by language substantially as follows: “Paid Endorsement.” (3-29-10)

h. The source of any statistics used in an advertisement shall be identified in the advertisement. (3-29-10)

03. Font Size for Printed Materials. Pertinent text of all printed materials required to be filed with the director under the Life Settlement Act, including, but not limited to, notices, disclosure forms, contract forms, and advertising material, is required to be formatted using at least a twelve (12) point font. Signature blocks, footnotes or text not relevant to the understanding of the printed material may be printed in a smaller font, but in no case smaller than a ten (10) point font. (3-29-10)

04. Disapproval of Noncompliant Forms. The Director may disapprove for use in Idaho any form required to be filed pursuant to this Section if, in the opinion of the Director, the form does not comply with any part of Title 41, Idaho Code, or these rules, or the form is unreasonable in its terms, contrary to the interests of the public, misleading to the public, unfair to the owner, or is printed or provided in a manner making any part of the form substantially illegible. (3-29-10)
013. **ANNUAL REPORTING REQUIREMENTS.**
All persons registered with the Director as a provider shall file with the Director, on or before March 1st of each year, an annual statement. An annual report is required regardless of whether any life settlement contracts with Idaho owners were executed during the year.

014. **EXAMINATION AND RECORDS.**
Brokers and providers are subject to examination by the Director in accordance with Chapter 2, Title 41, Idaho Code, and shall pay, at the direction of the Director, the actual travel expenses, reasonable living expense allowance, and reasonable compensation incurred on account of the examination upon presentation of a detailed account of the charges and expenses.

015. **REQUIRED DISCLOSURES TO OWNER.**

01. **Disclosure to Owner Upon Application.** A broker or provider shall not provide an owner with an application for a life settlement contract unless the owner has also been provided a disclosure form containing all the information required by Idaho Code, 41-1956 and in substantially the same form as the sample form found on the Department website. The disclosures shall be provided in a separate document in at least twelve (12) point font. Each page of the disclosure document shall be initialed by the owner indicating that it has been received and read by the owner, and the final page shall be dated and signed by the owner and the broker or provider that delivered the disclosure document to the owner.

02. **Disclosures to Owner by Provider Upon Settlement.** Prior to the time an owner signs a life settlement contract, the provider shall provide the owner a disclosure form containing all the information required by Idaho Code 41-1957 and in substantially the same form as the sample form found on the Department website. The disclosures may be made by a separate document or included as a part of the life settlement contract. If the disclosures are included in the life settlement contract, they shall be conspicuously displayed in the contract by segregating the disclosures from the rest of the contract on a separate page or as a separate section using at least twelve (12) point font and with a heading in bold font stating: “Important Disclosures Required by Law.” Each disclosure page of the life settlement contract shall be initialed by the owner indicating that the owner has read the page. If the disclosures are provided in a separate document, each page of the document must be initialed by the owner and the final page shall be dated and signed by the owner and the provider.

03. **Disclosure to Owner by Broker Upon Settlement.** Prior to the time an owner signs a life settlement contract, the broker shall provide the owner a disclosure form containing all the information required by Idaho Code 41-1958 and in substantially the same form as the sample form found on the Department website. The disclosures may be made by a separate document or included as a part of the life settlement contract. If the disclosures are included in the life settlement contract, they shall be conspicuously displayed in the contract by segregating the disclosures from the rest of the contract on a separate page or as a separate section using at least twelve (12) point font, and a heading in bold font stating: “Important Disclosures Required by Law.” Each disclosure page of the life settlement contract shall be initialed by the owner indicating that the owner has read the page. If the disclosures are provided in a separate document, each page of the document must be initialed by the owner and the final page shall be dated and signed by the owner and the broker.

04. **Affiliations to be Disclosed.** As a part of the disclosures required under this Section, a provider shall disclose in writing to the owner any affiliation between the provider and the issuer of the insurance policy to be settled, and a broker shall disclose in writing any affiliation or contractual arrangement between the broker and any person making an offer in connection with a proposed life settlement contract.

016. **ADDITIONAL REQUIREMENTS.**

01. **Owner's Statement.**

a. Prior to entering into a life settlement contract, the provider shall obtain from each owner a written statement in substantially the following form: “I, [owners name], have freely and voluntarily consented to the life settlement contract that accompanies this statement. I have carefully read my insurance policy that is the subject of the life settlement contract and I understand the benefits that are available under the policy. I further understand that by entering into the life settlement contract, the right to benefits under the insurance policy will be sold to another

Section 013 Page 3682
party and I, my heirs or former beneficiaries will no longer have any right to receive those policy benefits.”

(3-29-10)

b. If the owner has a terminal or chronic illness, the following wording shall also be included in the owner’s statement: “I am currently suffering from a terminal or chronic illness that was not diagnosed until after the policy that is the subject of the life settlement contract was issued.”

(3-29-10)

c. The statement of the owner must also be acknowledged by a notary public.

(3-29-10)

02. Owner’s Right to Rescind Life Settlement Contract.

a. The life settlement contract shall conspicuously inform the owner in bold type of at least twelve (12) point font that the owner has an absolute right to rescind a life settlement contract within twenty (20) calendar days of the date the contract is executed and shall set forth the manner in which notice is to be given.

(3-29-10)

b. Upon being informed of the owner’s intention or desire to rescind a life settlement contract, the provider shall immediately provide the owner with a full accounting of the amount that must be repaid by the owner in order to rescind the policy. The amount due shall include only amounts actually paid to and received by the owner pursuant to the terms of the life settlement contract along with any premiums, loans and loan interest paid by or on behalf of the provider in connection with or as a direct consequence of the life settlement contract. An owner shall not be required to pay any financial penalties, liquidated damages or other punitive fees or charges in connection with rescission of a life settlement contract.

(3-29-10)

c. Until the owner receives from the provider an accounting of the full and correct repayment amount needed to rescind the life settlement contract, a tender of payment by the owner of amounts actually received and reasonably believed to be due upon rescission shall be deemed substantial compliance with the requirement of notice and repayment of proceeds within the twenty (20) day rescission period.

(3-29-10)

03. Life Settlements Occurring Within Two Years of Policy Origination.

a. No broker or provider shall solicit, arrange for or enter into a life settlement contract within two (2) years of the date of issuance of the life insurance policy or certificate being settled unless one (1) or more of the conditions identified in Section 41-1961, Idaho Code, applies. If one (1) or more of the conditions is present, the provider shall obtain from the owner a written statement sworn before a notary public setting forth in detail the circumstances permitting the early settlement of the contract. The sworn statement shall also include the following or substantially similar wording: “I hereby affirm that there was no plan or arrangement in place or under discussion, or any promises made, regarding the settlement of this life insurance policy at the time the policy was purchased.”

(3-29-10)

b. In addition to the sworn statement, the provider shall obtain and retain as a part of its records independent documentation of the circumstances permitting early settlement of the life insurance policy along with all documentation relating to any premium financing arrangements made in connection with the policy being settled.

(3-29-10)

c. The sworn statement and copies of all supporting documentation shall be provided to the insurer at the time a request for verification of coverage is submitted to the insurer. A request for verification of coverage relating to a policy or certificate that has been in effect for two (2) years or less will be considered incomplete if it is not accompanied by the owner’s sworn statement and supporting documentation. An insurer that determines a request for verification of coverage is incomplete shall, without undue delay, inform the broker or provider in writing that the verification is incomplete and identify all items needed to complete the request.

011. QUALIFICATIONS OF INSURANCE COMPANIES TO ISSUE VARIABLE CONTRACTS.

01. Insurer Requirements. No insurer shall deliver or issue for delivery in this state contracts authorized under Section 41-1936, Idaho Code, unless it is authorized or organized to do a life insurance or annuity business in this state, and the Director is satisfied that its condition or method of operation in connection with the
issuance of such contracts will not render its operation hazardous to the public or its policyholders in this state. In this connection, the Director shall consider among other things:

a. The history and financial condition of the insurer;

b. The character, responsibility and fitness of the officers and directors of the insurer; and

c. The law and regulation under which the insurer is authorized in the state of domicile to issue variable contracts.

02. Parent or Affiliated Insurer. An insurer which issues variable contracts and which is a subsidiary of, or affiliated through common management or ownership with, another life insurer authorized to transact such insurance in this state shall be deemed to have met the provisions of this section if either it or the parent or affiliated insurer meets the requirements hereof.

04. Delivery. Before any insurer shall deliver or issue for delivery variable contracts within this state, it shall submit to the Director a general description of the kinds of variable contracts it intends to issue.

012. SEPARATE ACCOUNTS.

01. Domestic Life Insurer. A domestic life insurer issuing variable contracts shall establish one or more separate accounts pursuant to Sections 41-1936 and 41-734 of the Idaho Insurance Code subject to the following provisions of this Rule:

a. Except as hereinafter provided, amounts allocated to any separate account and accumulation thereon may be invested and reinvested without regard to any requirements or limitations prescribed by the laws of this state governing the investments of life insurance companies; provided, that to the extent that the company’s reserve liability with regard to: (a) benefits guaranteed as to dollar amount and duration, and (b) funds guaranteed as to principal amount or stated rate of interest is maintained in any separate account, a portion of the assets of such separate account at least equal to such reserve liability shall be, except as the Director may otherwise approve, invested in accordance with the laws of this state governing the investments of life insurance companies. The investments in such separate account or accounts shall not be taken into account in applying the investment limitations applicable to other investments of the insurer.

b. With respect to seventy-five percent (75%) of the market value of the total assets in a separate account no insurer shall purchase or otherwise acquire the securities of any issuer, other than securities issued or guaranteed as to principal or interest by the United States, if immediately after such purchase or acquisition the market value of such investment, together with prior investments of such separate account in such security taken at market value, would exceed ten percent (10%) of the market value of the assets of said separate account; provided, however, that the Director may waive such limitation if, in his opinion, such waiver will not render the operation of such separate account hazardous to the public or the policyholders in this state.

c. Unless otherwise permitted by law or approved by the Director, no insurer shall purchase or otherwise acquire for its separate accounts the voting securities of any issuer if as a result of such acquisition the insurance company and its separate accounts, in the aggregate, will own more than ten percent (10%) of the total issued and outstanding voting securities of such issuer; provided, that the foregoing shall not apply with respect to securities held in separate accounts, the voting rights in which are exercisable only in accordance with instructions from persons having interests in such accounts.

d. The limitations provided in Subsections 012.01.b. and 012.01.c. above shall not apply to the investment with respect to a separate account in the securities of an investment company registered under the Investment Company Act of 1940, provided that the investments of such investment company comply in substance...
02. **Valuation of Assets.** Unless otherwise approved by the Director, assets allocated to a separate account shall be valued at their market value on the date of valuation, or if there is no readily available market, then as provided under the terms of the contract or the rules or other written agreement applicable to such separate account; except, that unless otherwise approved by the Director, a portion of the assets of such separate account equal to the company’s reserve liability with regard to the benefits and funds referred to in Subsections 012.01.a. and 012.01.b. of this Section, if any, shall be valued in accordance with the rules otherwise applicable to the company’s assets.

03. **Chargeability of Assets with Liabilities.** That portion of the assets of any such separate account equal to the reserves and other contract liabilities with respect to such account shall not be chargeable with liabilities arising out of any other business the insurer may conduct. Notwithstanding any other provisions of law an insurer may:

   a. With respect to any separate account registered with the Securities and Exchange Commission as a unit investment trust, exercise voting rights in connection with any securities of a regulated investment company registered under the Investment Company Act of 1940 and held in such separate accounts in accordance with instructions from persons having interests in such accounts ratably as determined by the insurer, or

   b. With respect to any separate account registered with the Securities and Exchange Commission as a management investment company, establish for such account a committee, board, or other body, the members of which may or may not be otherwise affiliated with such company and may be elected to such membership by the vote of persons having interests in such account ratably as determined by the insurer. Such committee, board or other body may have the power, exercisable alone or in conjunction with others, to manage such separate account and the investment of its assets. An insurer, committee, board or other body, may make such other provisions in respect to any such separate account as may be deemed appropriate to facilitate compliance with requirements of any Federal or State law now or hereafter in effect; provided that the Director approves such provisions as not hazardous to the public or the company’s policyholders in this state.

04. **Sale, Exchange, Transfer.** No sale, exchange or other transfer of assets may be made by a company between any of its separate accounts or between any other investment account and one or more of its separate accounts unless, in case of a transfer into a separate account, such transfer is made solely to establish the account or to support the operation of the contracts with respect to the separate account to which the transfer is made, and unless such transfer, whether into or from a separate account, is made (a) by a transfer of cash, or (b) by a transfer of securities having a valuation which could be readily determined in the marketplace, provided that such transfer of securities is approved by the Director. The Director may authorize other transfers among such accounts if, in his opinion, such transfers would not be inequitable.

05. **Assets Equal to Reserves and Liabilities.** The company shall maintain in each such separate account assets with a value at least equal to the reserves and other contract liabilities with respect to such account.

06. **Officers and Directors.** Rules under any provision of the Insurance Law of this state of any rule applicable to the officers and directors of insurance companies with respect to conflicts of interest shall also apply to members of any separate account’s committee, board or other similar body. No officer or director of such company nor any member of the committee, board or body of a separate account shall receive directly or indirectly any commission or any other compensation with respect to the purchase or sale of assets of such separate account.

013. **FILING OF CONTRACTS.**

The filing requirements applicable to variable contracts shall be those filing requirements otherwise applicable under existing statutes and rules of this state with respect to individual and group life insurance and annuity contract form filings, to the extent appropriate. In addition, each insurer shall file with the Director a copy of each prospectus adopted by it for use in conjunction with the sale of any contract offered for sale in this state.

014. **CONTRACTS PROVIDING FOR VARIABLE BENEFITS.**
01. Benefits Payable in Variable Amounts. Any variable contract providing benefits payable in variable amounts delivered or issued for delivery in this state shall contain a statement of the essential features of the procedures to be followed by the insurer in determining the dollar amount of such variable benefits. Any such contract, including a group contract and any certificate in evidence of variable benefits issued thereunder, shall state that such dollar amount will vary to reflect investment experience and shall contain on its first page a statement to the effect that the benefits thereunder are on a variable basis.

(7-1-93)

02. Illustrations. Illustrations of benefits payable under any variable contract providing benefits payable in variable amounts shall not include projections of past investment experience into the future or attempted predictions of future investment experience; provided that nothing contained herein is intended to prohibit use of hypothetical assumed rates of return to illustrate possible levels of annuity payments.

(7-1-93)

03. Payment of Periodic Stipulated Payments. No individual variable annuity contract calling for the payment of periodic stipulated payments shall be delivered or issued for delivery in this state unless it contains in substance the following provisions or provisions which in the opinion of the Director are more favorable to the holders of such contracts:

a. A provision that there shall be a period of grace of one month, but not less than thirty (30) days, within which any stipulated payment to the insurer falling due after the first may be made, during which period of grace the contract shall continue in force. The contract may include a statement of the basis for determining the date as of which any such payment received during the period of grace shall be applied to produce the values under the contract arising therefrom;

(7-1-93)

b. A provision that, at any time within one (1) year from the date of default in making periodic stipulated payments to the insurer during the life of the annuitant, unless the cash surrender value has been paid, the contract may be reinstated upon payment to the insurer of such overdue payments as required by the contract, and payment or reinstatement of all indebtedness to the insurer on the contract, including interest. The contract may include a statement of the basis for determining the date as of which the amount to cover such overdue payments and indebtedness shall be applied to produce the values under the contract arising therefrom;

(7-1-93)

c. A provision specifying the options available in the event of default in a periodic stipulated payment. Such options may include an option to surrender the contract for a cash value as determined by the contract, and shall include an option to receive a paid-up annuity if the contract is not surrendered for cash, the amount of such paid-up annuity being determined by applying the value of the contract at the annuity commencement date in accordance with the terms of the contract.

(7-1-93)

04. Investment Increment Factor. Any individual variable annuity contract delivered or issued for delivery in this state shall stipulate the investment increment factor to be used in computing the dollar amount of variable benefits or other contractual payments or values thereunder, and may guarantee that expense and/or mortality results shall not adversely affect such dollar amounts. If not guaranteed, the expense and mortality factors shall also be stipulated in the contract. In computing the dollar amount of variable benefits or other contractual payments or values under an individual variable contract:

a. The annual net investment increment assumption shall not exceed five percent (5%), except with the approval of the Director.

(7-1-93)

b. To the extent that the level of benefits may be affected by future mortality results, the mortality factor shall be determined from the Annuity Mortality Table for 1949, Ultimate, or any modification of that table not having a higher mortality rate at any age, or, if approved by the Director, from another table.

(7-1-93)

c. “Expense,” as used in this subsection, may exclude some or all taxes, as stipulated in the contract.

(7-1-93)

05. Payment on Death. Variable annuity contracts may include as an incidental benefit provision for payment on death during the deferred period of an amount not in excess of the greater of the sum of the premiums or stipulated payments paid under the contract or the value of the contract at time of death. Any such provision shall not
be subject to the provisions of the insurance law governing life insurance contracts. A provision for any other benefit on death during the deferred period shall be subject to such insurance law provisions. (7-1-93)

06. Reserve Liability. The reserve liability for variable contracts shall be established pursuant to the requirements of the standard valuation law in accordance with actuarial procedures that recognize the variable nature of the benefits provided, and any mortality guarantees. (7-1-93)

NOTICE REGARDING REPLACEMENT
REPLACING YOUR LIFE INSURANCE POLICY OR ANNUITY?

Are you thinking about buying a new life insurance policy or annuity and discontinuing or changing an existing one? If you are, your decision could be a good one - or a mistake. You will not know for sure unless you make a careful comparison of your existing benefits and the proposed benefits. Make sure you understand the facts. You should ask for the advice of the company or agent that sold you your existing policy to give you information concerning any proposed replacement.

As a general rule, there are disadvantages to dropping your existing life insurance or annuities. Hear both sides before you decide. That way you can be sure you are making a decision that is in your best interest.

Idaho law requires your existing company to be notified that you may be replacing their policy.

prepayment did not occur until the payment of benefits terminates. No refund need be paid during any period of
disability for which credit disability benefits are payable. A refund shall be computed as if prepayment occurred at
the end of the disability period.

10. Involuntary Prepayment of Indebtedness. If an indebtedness is prepaid by the proceeds of a
credit life insurance policy covering the debtor or by a lump sum payment of a disability claim under a credit
insurance policy covering the debtor, then it shall be the responsibility of the insurer to see that the following are paid

notify the insured of such benefit in the policy or certificate.

12. Total Disability. The policy shall not restrict coverage to those periods of total disability when the
debtor is under the regular and continuing care of a physician, osteopath or chiropractor; provided, the insurer may
retain the right to require medical evidence of actual total disability at reasonable intervals to justify the
commencement and continued payment of benefits.

13. Permanent Disabilities. Credit disability insurance shall not restrict coverage to permanent
disabilities, where the debtor is in fact totally disabled for the period required by the policy, although such disability
may be of a temporary nature.

14. Statement by Debtor. No statement made by a debtor shall be used by the insurer as a basis for
denying eligibility for coverage unless such statement is contained in a written application for insurance signed by the
debtor.

15. Acceptable Insurance Constituting Waiver. Acceptance of insurance by the insurer shall
constitute a waiver of any conditions for issuance of insurance that the debtor’s application revealed as breached on
the date the application was made, unless a refund of all insurance charges to the debtor is actually made within thirty
(30) days of the date the coverage became effective.

012. POLICY FORMS AND RELATED MATERIAL.

013. DETERMINATION OF REASONABLENESS OF BENEFITS IN RELATION TO PREMIUM
CHARGE.

01. General Standard. Benefits provided by credit insurance policies must be reasonable in relation to
the premium charged. This requirement is satisfied if the premium rate charged develops or is expected to develop a
loss ratio of not less than fifty percent (50%). The Department of Insurance has established prima facie rates as a
means to achieve the loss ratio benchmark. With the exception of deviations approved under Section 019, prima facie
rates filed in accordance with Section 014 as adjusted pursuant to Section 018, shall be conclusively presumed to
satisfy this general standard. Reporting forms throughout the period of coverage. (7-1-93)

C Health Carrier’s Notice of Initial Determination

Appendix A

The summary description below provides an acceptable format approved by the director as meeting the requirements of Idaho Code Section 41-5916. A health carrier may change the terms “you, your” to “covered person” and “we, our” to the health carrier’s name, or similar references consistent with the health carrier’s typical terminology.

YOUR RIGHT TO AN INDEPENDENT EXTERNAL REVIEW

Please read this notice carefully. It describes a procedure for review of a disputed health claim by a qualified professional who has no affiliation with your health plan. If you request an independent external review of your claim, the decision made by the independent reviewer will be binding and final on the health carrier. You will have the right to further review of your claim by a court, arbitrator, mediator or other dispute resolution entity only if your plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as more fully explained below under “Binding Nature of the External Review Decision.”

If we issue a final adverse benefit determination of your request to provide or pay for a health care service or supply, you may have the right to have our decision reviewed by health care professionals who have no association with us. You have this right only if our denial decision involved:

The medical necessity, appropriateness, health care setting, level of care, or effectiveness of your health care service or supply, or

Our determination your health care service or supply was investigational.

You must first exhaust our internal grievance and appeal process. Exhaustion of that process includes completing all levels of appeal, or unless you requested or agreed to a delay, our failure to respond to a standard appeal within 35 days in writing or to an urgent appeal within three business days of the date you filed your appeal. We may also agree to waive the exhaustion requirement for an external review request. You may file for an internal urgent appeal with us and for an expedited external review with the Idaho Department of Insurance at the same time if your request
qualifies as an “urgent care request” defined below.

You may submit a written request for an external review to:

Idaho Department of Insurance  
ATTN: External Review  
700 W State St., 3rd Floor  
Boise ID 83720-0043

For more information and for an external review request form:

See the department’s website at http://www.doi.idaho.gov, or  
Call the department’s telephone number, (208) 334-4250, or toll-free in Idaho, 1-800-721-3272.

You may represent yourself in your request or you may name another person, including your treating health care provider, to act as your authorized representative for your request. If you want someone else to represent you, you must include a signed “Appointment of an Authorized Representative” form with your request.

Your written external review request to the Department of Insurance must include a completed form authorizing the release of any of your medical records the independent review organization may require to reach a decision on the external review, including any judicial review of the external review decision pursuant to ERISA, if applicable. The department will not act on an external review request without your completed authorization form.

If your request qualifies for external review, our final adverse benefit determination will be reviewed by an independent review organization selected by the department. We will pay the costs of the review.

**Standard External Review Request:** You must file your written external review request with the department within four months after the date we issue a final notice of denial.

1. Within seven days after the department receives your request, the department will send a copy to us.
2. Within 14 days after we receive your request from the department, we will review your request for eligibility. Within five business days after we complete that review, we will notify you and the department in writing if your request is eligible or what additional information is needed. If we deny your eligibility for review, you may appeal that determination to the department.
3. If your request is eligible for review, the department will assign an independent review organization to your review within seven days of receipt of our notice. The department will also notify you in writing.
4. Within seven days of the date you receive the department’s notice of assignment to an independent review organization, you may submit any additional information in writing to the independent review organization that you want the organization to consider in its review.
5. The independent review organization must provide written notice of its decision to you, to us and to the department within 42 days after receipt of an external review request.

**Expedited External Review Request:** You may file a written “urgent care request” with the department for an expedited external review of a pre-service or concurrent service denial. You may file for an internal urgent appeal with us and for an expedited external review with the department at the same time.

“Urgent care request” means a claim relating to an admission, availability of care, continued stay or health care service for which the covered person received emergency services but has not been discharged from a facility, or any pre-service or concurrent care claim for medical care or treatment for which application of the time periods for making a regular external review determination:

1. Could seriously jeopardize the life or health of the covered person or the ability of the covered person to regain maximum function;
2. In the opinion of the treating health care professional with knowledge of the covered person’s medical condition, would subject the covered person to severe pain that cannot be adequately managed without the disputed care or treatment; or
3. The treatment would be significantly less effective if not promptly initiated.

The department will send your request to us. We will determine, no later than the second full business day, if your
request is eligible for review. We will notify you and the department no later than one business day after our decision if your request is eligible. If we deny your eligibility for review, you may appeal that determination to the department.

If your request is eligible for review, the department will assign an independent review organization to your review upon receipt of our notice. The department will also notify you. The independent review organization must provide notice of its decision to you, to us and to the department within 72 hours after the date of receipt of the external review request. The independent review organization must provide written confirmation of its decision within 48 hours of notice of its decision. If the decision reverses our denial, we will notify you and the department of our intent to pay the covered benefit as soon as reasonably practicable, but not later than one business day after receiving notice of the decision.

**Binding Nature of the External Review Decision:** If your plan is subject to federal ERISA laws (generally, any plan offered through an employer to its employees), the external review decision by the independent review organization will be final and binding on us. You may have additional review rights provided under federal ERISA laws.

If your plan is not subject to ERISA requirements, the external review decision by the independent review organization will be final and binding on both you and us. **This means that if you elect to request external review, you will be bound by the decision of the independent review organization. You will not have any further opportunity for review of our denial after the independent review organization issues its final decision.** If you choose not to use the external review process, other options for resolving a disputed claim may include mediation, arbitration or filing an action in court.

Under Idaho law, the independent review organization is immune from any claim relating to its opinion rendered or acts or omissions performed within the scope of its duties unless performed in bad faith or involving gross negligence.

**Appendix B**

03. **Insurer.** “Insurer” for the purpose of these rules includes any individual, corporation, association, partnership, reciprocal exchange, inter-insurer, Lloyds, fraternal benefit society, health maintenance organization, and any other legal entity that is defined as an “insurer” in the Insurance Code of this state and is engaged in the advertisement of a policy as “policy” is herein defined.

04. **Exception.** “Exception” for the purpose of these rules means any provision in a policy whereby coverage for a specified hazard is entirely eliminated; it is a statement of a risk not assumed under the policy.

05. **Reduction.** “Reduction” for the purpose of these rules means any provision that reduces the amount of the benefit; a risk of loss is assumed but payment upon the occurrence of such loss is limited to some amount or period less than would be otherwise payable had such reduction not been used.

06. **Limitation.** “Limitation” for the purpose of these rules any provision that restricts coverage under the policy other than an exception or a reduction.

011. **METHOD OF DISCLOSURE OF REQUIRED INFORMATION.**

All information required to be disclosed by these rules shall be set out conspicuously and in close conjunction with the statements to which such information relates or under appropriate captions of such prominence that it shall not be minimized, rendered obscure or presented in an ambiguous fashion or intermingled with the context of the advertisement so as to be confusing or misleading.

012. **FORM AND CONTENT OF ADVERTISEMENTS.**

01. **Format and Content.** The format and content of an advertisement of an accident or sickness insurance policy shall be sufficiently complete and clear to avoid deception or the capacity or tendency to mislead or deceive. Whether an advertisement has a capacity or tendency to mislead or deceive shall be determined by the
Director of Insurance from the overall impression that the advertisement may be reasonably expected to create upon a person of average education or intelligence, within the segment of the public to which it is directed. (7-1-93)

**02. Truthful and Clear.** Advertisements shall be truthful and not misleading in fact or in implication. Words or phrases, the meaning of which is clear only by implication or by familiarity with insurance terminology, shall not be used. (7-1-93)

**013. ADVERTISEMENTS OF BENEFITS PAYABLE, LOSSES COVERED OR PREMIUMS PAYABLE.**

**01. Prohibitions.** Deceptive Words, Phrases Or Illustrations Prohibited: (7-1-93)

a. No advertisement shall omit information or use words, phrases, statements, references or illustrations if the omission of such information or use of such words, phrases, statements, references or illustrations has the capacity, tendency or effect of misleading or deceiving purchasers or prospective purchasers as to the nature or extent of any policy benefit payable, loss covered or premium payable. The fact that the policy offered is made available to a prospective insured for inspection prior to consummation of the sale or an offer is made to refund the premium if the purchaser is not satisfied, does not remedy misleading statements. (7-1-93)

b. No advertisement shall contain or use words or phrases such as, “all”; “full”; “complete”; “comprehensive”; “unlimited”; “up to”, “as high as”; “this policy will help pay your hospital and surgical bills”; “this policy will help fill some of the gaps that Medicare and your present insurance leave out”; “this policy will help to replace your income” (when used to express loss of income benefits); or similar words and phrases, in a manner that exaggerates any benefits beyond the terms of the policy. (7-1-93)

c. An advertisement shall not contain descriptions of a policy limitation, exception, or reduction, worded in a positive manner to imply that it is a benefit, such as, describing a waiting period as a “benefit builder,” or stating “even pre-existing conditions are covered after two years.” Words and phrases used in an advertisement to describe such policy limitations, exceptions and reductions shall fairly and accurately describe the negative features of such limitations, exceptions and reductions of the policy offered. (7-1-93)

d. No advertisement of a benefit for which payment is conditional upon confinement in a hospital or similar facility shall use words or phrases such as “tax free”; “extra cash”; “extra income”; “extra pay”; or substantially similar words or phrases in such a manner as to have the capacity, tendency or effect of misleading the public into believing that the policy advertised will, in some way, enable them to make a profit from being hospitalized. (7-1-93)

e. No advertisement of a hospital or other similar facility benefit shall advertise that the amount of the benefit is payable on a monthly or weekly basis when, in fact, the amount of the benefit payable is based upon a daily pro rata basis relating to the number of days of confinement. When the policy contains a limit on the number of days of coverage provided, such limit must appear in the advertisement. (7-1-93)

f. No advertisement of a policy covering only one (1) disease or a list of specified diseases shall imply coverage beyond the terms of the policy. Synonymous terms shall not be used to refer to any disease so as to imply broader coverage than is the fact. (7-1-93)

g. An advertisement for a policy providing benefits for specified illnesses only, such as cancer, or for specified accidents only, such as automobile accidents, shall clearly and conspicuously in prominent type state the limited nature of the policy. The statement shall be worded in language identical to, or substantially similar to the following: “THIS IS A LIMITED POLICY”; “THIS IS A CANCER ONLY POLICY”; “THIS IS AN AUTOMOBILE ACCIDENT ONLY POLICY.” (7-1-93)

h. An advertisement of a direct response insurance product shall not imply that because “no insurance agent will call and no commissions will be paid to agents” that it is a “low cost plan,” or use other similar words or phrases because the cost of advertising and servicing such policies is a substantial cost in the marketing of a direct response insurance product. (7-1-93)
i. No advertisement shall contain or use words or phrases such as, “Medicare supplement”; “Medigap”; “this policy will help fill some of the gaps that Medicare leaves out”; or similar words and phrases, unless the policy is issued in compliance with IDAPA 18.01.54, “Rule to Implement the NAIC Medicare Supplement Insurance Minimum Standards Model Act.”

j. An advertisement must state clearly the type of insurance coverage being offered.

02. Exceptions, Reductions and Limitations.

a. When an advertisement refers to either a dollar amount, or a period of time for which any benefit is payable, or the cost of the policy, or specific policy benefit, or the loss for which such benefit is payable, it shall also disclose those exceptions, reductions and limitations affecting the basic provisions of the policy without which the advertisement would have the capacity or tendency to mislead or deceive.

b. When a policy contains a waiting, elimination, probationary or similar time period between the effective date of the policy and the effective date of coverage under the policy or a time period between the date a loss occurs and the date benefits begin to accrue for such loss, an advertisement that is subject to the requirements of the preceding paragraph shall disclose the existence of such periods.

c. An advertisement shall not use the words “only”; “just”; “merely”; “minimum”; or similar words or phrases to describe the applicability of any exceptions and reductions, such as: “This policy is subject to the following minimum exceptions and reductions.”

03. Pre-Existing Conditions.

a. An advertisement that is subject to the requirements of Subsection 013.02 shall, in negative terms, disclose the extent to which any loss is not covered if the cause of such loss is traceable to a condition existing prior to the effective date of the policy. The term “pre-existing condition” without an appropriate definition or description shall not be used.

b. When a policy does not cover losses resulting from pre-existing conditions, no advertisement of the policy shall state or imply that the applicant’s physical condition or medical history will not affect the issuance of the policy or payment of a claim thereunder. This rule prohibits the use of the phrase “no medical examination required” and phrases of a similar import, but does not prohibit explaining “automatic issue.” If an insurer requires a medical examination for a specified policy, the advertisement shall disclose that a medical examination is required.

c. When an advertisement contains an application form to be completed by the applicant and returned by mail for a direct response insurance product, such application form shall contain a question or statement that reflects the pre-existing condition provisions of the policy immediately preceding the blank space for the applicant’s signature. For example, such an application form shall contain a question or statement substantially as follows: “Do you understand that this policy will not pay benefits during the first _______ year(s) after the issue date for a disease or physical condition that you now have or have had in the past?” ____ YES. Or substantially the following statement: “I understand that the policy applied for will not pay benefits for any loss incurred during the first ____ year(s) after the issue date on account of disease or physical condition that I now have or have had in the past.”

014. NECESSITY FOR DISCLOSING POLICY PROVISIONS RELATING TO RENEWABILITY, CANCELLATION AND TERMINATION.

When an advertisement refers to either a dollar amount or a period of time for which any benefit is payable, or the cost of the policy, or specific policy benefit, or the loss for which such benefit is payable, it shall disclose the provisions relating to renewability, cancellation and termination and any modification of benefits, losses covered or premiums because of age or for other reasons, in a manner that shall not minimize or render obscure the qualifying conditions.

015. TESTIMONIALS OR ENDORSEMENTS BY THIRD PARTIES.

01. Testimonials. Testimonials used in advertisements must be genuine, represent the current opinion of the author, be applicable to the policy advertised and be accurately reproduced. The insurer, in using a testimonial,
makes as its own all of the statements contained therein, and the advertisement, including such statement, is subject to all the provisions of these rules. (7-1-93)

02. Disclosure of Financial Interest. If the person making a testimonial, an endorsement or an appraisal has a financial interest in the insurer or a related entity as a stockholder, director, officer, employee, or otherwise, such fact shall be disclosed in the advertisement. If a person is compensated for making a testimonial, endorsement or appraisal, such fact shall be disclosed in the advertisement by language substantially as follows: “Paid Endorsement.” This rule does not require disclosure of union “scale” wages required by union rules if the payment is actually for such “scale” for TV or radio performances. The payment of substantial amounts, directly or indirectly, for “travel and entertainment” for filming or recording of TV or radio advertisements remove the filming or recording from the category of an unsolicited testimonial and require disclosure of such compensation. (7-1-93)

03. Limitations and Restrictions. An advertisement shall not state or imply that an insurer or a policy has been approved or endorsed by any individual group of individuals, society, association or other organizations, unless such is the fact, and unless any proprietary relationship between an organization and the insurer is disclosed. If the entity making the endorsement or testimonial has been formed by the insurer or is owned or controlled by the insurer or the person or persons who own or control the insurer, such fact shall be disclosed in the advertisement. (7-1-93)

04. Retention of Data. When a testimonial refers to benefits received under a policy, the specific claim data, including claim number, date of loss, and other pertinent information shall be retained by the insurer for inspection for a period of four (4) years or until the filing of the next regular report on examination of the insurer, whichever is the longer period of time. (7-1-93)

016. USE OF STATISTICS.

01. Requests for Use of Statistical Information. An advertisement relating to the dollar amounts of claims paid, the number of persons insured, or similar statistical information relating to any insurer or policy shall not use irrelevant facts, and shall not be used unless it accurately reflects all of the relevant facts. Such an advertisement shall not imply that such statistics are derived from the policy advertised unless such is the fact, and when applicable to other policies or plans shall specifically so state. (7-1-93)

02. Restrictions on Representations. An advertisement shall not represent or imply that claim settlements by the insurer are “liberal” or “generous,” or use words of similar import, or that claim settlements are or will be beyond the actual terms of the contract. An unusual amount paid for a unique claim for the policy advertised is misleading and shall not be used. (7-1-93)

03. Source of Statistics. The source of any statistics used in an advertisement shall be identified in such advertisement. (7-1-93)

017. IDENTIFICATION OF PLAN OR NUMBER OF POLICIES.

01. Disclosure Requirements. When a choice of the amount of benefits is referred to, an advertisement shall disclose that the amount of benefits provided depends upon the plan selected and that the premium will vary with the amount of the benefits selected. (7-1-93)

02. Disclosure Based on Combination of Policies. When an advertisement refers to various benefits that may be contained in two (2) or more policies, other than group master policies, the advertisement shall disclose that such benefits are provided only through a combination of such policies. (7-1-93)

018. DISPARAGING COMPARISONS AND STATEMENTS. An advertisement shall not directly or indirectly make unfair or incomplete comparisons of policies or benefits or comparisons of non-comparable policies of other insurers, and shall not disparage competitors, their policies, services or business methods, and shall not disparage or unfairly minimize competing methods of marketing insurance. (7-1-93)

019. JURISDICTION LICENSING AND STATUS OF INSURER.
01. **Restrictions on Licensing Jurisdiction.** An advertisement that is intended to be seen or heard beyond the limits of the jurisdiction in which the insurer is licensed shall not imply licensing beyond those limits. (7-1-93)

02. **Restrictions on Endorsements.** An advertisement shall not create the impression directly or indirectly that the insurer, its financial condition or status, or the payment of its claims, or the merits, desirability, or advisability of its policy forms or kinds or plans of insurance are approved, endorsed, or accredited by any division or agency of this state or the United States Government. (7-1-93)

020. **IDENTITY OF INSURER.**

01. **Name of Insurer to Be Identified.** The name of the actual insurer shall be clearly identified and the policy or policies advertised shall be identified by form number or otherwise described, so as to clearly identify the product being advertised. An advertisement shall not use a trade name, any insurance group designation, name of the parent company of the insurer, name of a particular division of the insurer, service mark, slogan, symbol or other device that, without disclosing the name of the actual insurer, would have the capacity and tendency to mislead or deceive as to the true identity of the insurer. (7-1-93)

02. **Identity of Insurer Not to Be Misrepresented.** No advertisement shall use any combination of words, symbols, or physical materials that by their content, phraseology, shape, color or other characteristics are so similar to combinations of words, symbols, or physical materials used by agencies of the federal government or of this state, or otherwise appear to be of such a nature that it tends to confuse or mislead prospective insureds into believing that the solicitation is in some manner connected with an agency of the municipal, state, or federal government. (7-1-93)

021. **GROUP OR QUASI-GROUP IMPLICATIONS.**

An advertisement of a particular policy shall not state or imply that prospective insureds become group or quasi-group members covered under a group policy and as such enjoy special rates or underwriting privileges, unless such is the fact. (7-1-93)

022. **INTRODUCTORY, INITIAL OR SPECIAL OFFERS.**

01. **Restrictions on Introductory, Initial or Special Offers.** (7-1-93)

a. An advertisement of an individual policy shall not directly or by implication represent that a contract or combination of contracts is an introductory, initial or special offer, or that applicants will receive substantial advantages not available at a later date, or that the offer is available only to a specified group of individuals, unless such is the fact. An advertisement shall not contain phrases describing an enrollment period as “special,” “limited,” or similar words or phrases when the insurer uses such enrollment periods as the usual method of advertising accident and sickness insurance. (7-1-93)

b. An enrollment period during which a particular insurance product may be purchased on an individual basis shall not be offered within this state unless there has been a lapse of not less than three (3) months between the close of the immediately preceding enrollment period for the same product and the opening of the new enrollment period. The advertisement shall indicate the date by which the applicant must mail the application that shall be not less than ten (10) days and not more than forty (40) days from the date that such enrollment period is advertised for the first time. This rule applies to all advertising media, i.e., mail, newspapers, radio, television, magazines and periodicals, by any one (1) insurer. It is inapplicable to solicitations of employees or members of a particular group or association that otherwise would be eligible under specific provisions of the Insurance Code for group, blanket or franchise insurance. The phrase “any one (1) insurer” includes all the affiliated companies of a group of insurance companies under common management or control. (7-1-93)

c. This rule prohibits any statement or implication to the effect that only a specific number of policies will be sold, or that a time is fixed for the discontinuance of the sale of the particular policy advertised because of special advantages available in the policy, unless such is the fact. (7-1-93)
d. The phrase “a particular insurance product” in paragraph(s) of this Section means an insurance policy that provides substantially different benefits than those contained in any other policy. Different terms of renewability; and increase or decrease in the dollar amounts of benefits; and increase or decrease in any elimination period or waiting period from those available during an enrollment period for another policy shall not be sufficient to constitute the product being offered as a different product eligible for concurrent or overlapping enrollment periods. (7-1-93)

02. Restrictions on Reduced Initial Premium. An advertisement shall not offer a policy that utilizes a reduced initial premium rate in a manner that over-emphasizes the availability and the amount of the initial reduced premium. When an insurer charges an initial premium that differs in amount from the amount of the renewal premium payable on the same mode, the advertisement shall not display the amount of the reduced initial premium either more frequently or more prominently than the renewal premium, and both the initial reduced premium and the renewal premium must be stated in juxtaposition in each portion of the advertisement where the initial reduced premium appears. (7-1-93)

03. Restriction on Special Awards. Special awards, such as a “safe drivers’ award” shall not be used in connection with advertisements of accident or accident and sickness insurance. (7-1-93)

023. STATEMENTS ABOUT AN INSURER. An advertisement shall not contain statements that are untrue in fact, or by implication misleading, with respect to the assets, corporate structure, financial standing, age or relative position of the insurer in the insurance business. An advertisement shall not contain a recommendation by any commercial rating system unless it clearly indicates the purpose of the recommendation and the limitations of the scope and extent of the recommendation. (7-1-93)

024. ENFORCEMENT PROCEDURES. Each insurer shall maintain at its home or principal office a complete file containing every printed, published or prepared advertisement of its individual policies and typical printed, published or prepared advertisements of its blanket, franchise and group policies hereafter disseminated in this or any other state whether or not licensed in such other state, with a notation attached to each such advertisement that shall indicate the manner and extent of distribution and the form number of any policy advertised. Such file shall be subject to regular and periodical inspection by this Department. All such advertisements shall be maintained in said file for a period of either four (4) years or until the filing of the next regular report on examination of the insurer, whichever is the longer period of time. (3-30-07)

025. FILING FOR PRIOR REVIEW. The Director may, at his discretion, require the filing of any accident and sickness insurance advertising material for review prior to use. Such advertising material must be filed by the insurer with this Department not less than thirty (30) days prior to the date the insurer desires to use the advertisement. (4-11-19)

   (7-1-98)
012. SOLICITATION PRIOR TO ISSUANCE OF CERTIFICATE OF AUTHORITY.

01. Permission for Solicitation Required. 03. Methods of Solicitation. Advertising and solicitation materials used by a proposed MCO must meet the following minimum requirements: (7-1-98)

a. The prospective enrollee shall clearly be advised that:

(7-1-98)

05. **Out of Network Services.** In the case of provider care which is delivered outside of the organized system of health care providers or defined referral system, the MCO must alert those covered under health benefit plans to the fact that providers which are not MCO providers, or have not accepted written referrals, may balance bill the customer for amounts above the MCO’s maximum allowance. Consumers should be encouraged to discuss the issue with their providers. (7-1-98)

   ii. A home or facility for the aged or for the care of drug addicts or alcoholics; or (3-30-01)

03. **Hospital.** May be defined in relation to its status, facilities and available services or to reflect its accreditation by the Joint Commission on Accreditation of Healthcare Organizations. (3-30-01)

   a. The definition of the term “hospital” shall not be more restrictive than one requiring that the hospital:
      (3-30-01)
      i. Be an institution licensed to operate as a hospital pursuant to law;
      (3-30-01)
      ii. Be primarily and continuously engaged in providing or operating, either on its premises or in facilities available to the hospital on a prearranged basis and under the supervision of a staff of licensed physicians, medical, diagnostic and major surgical facilities for the medical care and treatment of sick or injured persons on an in-patient basis for which a charge is made; and
      (3-30-01)
      iii. Provide twenty-four (24) hour nursing service by or under the supervision of registered nurses.
      (3-30-01)

04. **Medicare.** Means The Health Insurance for the Aged Act, Title XVIII of the Social Security Amendments of 1965 as then constituted or later amended. (3-30-01)

05. **Mental or Nervous Disorders.** Shall not be defined more restrictively than a definition including neurosis, psychoneurosis, psychosis, or mental or emotional disease or disorder of any kind. (3-30-01)

06. **Nurse.** May be defined so that the description of nurse is restricted to a type of nurse, such as registered nurse, a licensed practical nurse, or a licensed vocational nurse. If the words “nurse,” “trained nurse” or “registered nurse” are used without specific instruction, then the use of these terms requires the insurer to recognize the services of any individual who qualifies under the terminology in accordance with the applicable statutes or administrative rules of the licensing or registry board of the state of Idaho. (3-30-01)

07. **One Period of Confinement.** Means consecutive days of in-hospital service received as an in-patient, or successive confinements when discharge from and readmission to the hospital occurs within a period of time not more than ninety (90) days or three times the maximum number of days of in-hospital coverage provided by the policy to a maximum of one hundred eighty (180) days. (3-30-01)

08. **Partial Disability.** Shall be defined in relation to the individual’s inability to perform one or more but not all of the “major,” “important” or “essential” duties of employment or occupation, or may be related to a percentage of time worked or to a specified number of hours or to compensation. (3-30-01)

09. **Physician.** May be defined by including words such as “qualified physician” or “licensed physician.” The use of these terms requires an insurer to recognize and to accept, to the extent of its obligation under the contract, all providers of medical care and treatment when the services are within the scope of the provider’s licensed authority and are provided pursuant to applicable laws. (3-30-01)
10. **Preexisting Condition.** Shall not be defined more restrictively than the following: (3-30-01)
   a. A health benefit plan shall not deny, exclude or limit benefits for a covered individual for covered expenses incurred more than twelve (12) months following the effective date of the individual’s coverage due to a preexisting condition. A health benefit plan shall not define a preexisting condition more restrictively than: (3-30-01)
      i. A condition that would have caused an ordinarily prudent person to seek medical advice, diagnosis, care or treatment during the six (6) months immediately preceding the effective date of coverage; (3-30-01)
      ii. A condition for which medical advice, diagnosis, care or treatment was recommended or received during the six (6) months immediately preceding the effective date of coverage; or (3-30-01)
      iii. A pregnancy existing on the effective date of coverage. (3-30-01)
   b. A health benefit plan shall waive any time period applicable to a preexisting condition exclusion or limitation period with respect to particular services for the period of time an individual was previously covered by qualifying previous coverage to the extent such previous coverage provided benefits with respect to such services, provided that the qualifying previous coverage was continuous to a date not more than sixty-three (63) days prior to the effective date of the new coverage. (3-30-01)
   c. An individual carrier shall not modify a health benefit plan with respect to an individual or dependent through riders, endorsements, or otherwise, to restrict or exclude coverage for certain diseases or medical conditions otherwise covered by the health benefit plan. (3-30-01)

11. **Residual Disability.** Shall be defined in relation to the individual’s reduction in earnings and may be related either to the inability to perform some part of the “major,” “important,” or “essential duties” of employment or occupation, or to the inability to perform all usual business duties for as long as is usually required. A policy that provides for residual disability benefits may require a qualification period, during which the insured must be continuously totally disabled before residual disability benefits are payable. The qualification period for residual benefits may be longer than the elimination period for total disability. In lieu of the term “residual disability,” the insurer may use “proportionate disability” or other term of similar import that in the opinion of the Director adequately and fairly describes the benefit. (3-30-01)

12. **Sickness or Illness.** Shall not be defined to be more restrictive than the following: “Sickness (or Illness) means sickness or disease of an insured person that first manifests itself after the effective date of insurance and while the insurance is in force. The definition may be further modified to exclude sickness or disease for which benefits are provided under a worker’s compensation, occupational disease, employers’ liability or similar law.” (3-30-01)

13. **Total Disability.** Shall be defined in accordance with the following limitations: (3-30-01)
   a. A general definition of total disability shall not be more restrictive than one requiring that the individual who is totally disabled not be engaged in any employment or occupation for which he or she is or becomes qualified by reason of education, training or experience, and is not in fact engaged in any employment or occupation for wage or profit. (3-30-01)
   b. Total disability may be defined in relation to the inability of the person to perform duties but may not be based solely upon an individual’s inability to:
      i. Perform “any occupation whatsoever,” “any occupational duty,” or “any and every duty of his occupation”; or (3-30-01)
      ii. Engage in a training or rehabilitation program. (3-30-01)
   c. An insurer may require the complete inability of the person to perform all of the substantial and material duties of his or her regular occupation or words of similar import. An insurer may require care by a physician other than the insured or a member of the insured’s immediate family. (3-30-01)
011. PROHIBITED POLICY PROVISIONS.

01. Probationary or Waiting Period. Except as provided in Subsection 004.10 pertaining to the definition of a preexisting condition, a policy shall not contain provisions establishing a probationary or waiting period during which no coverage is provided under the policy. Accident policies shall not contain probationary or waiting periods. (3-30-01)

02. Additional Coverage as Dividend. A policy or rider for additional coverage may not be issued as a dividend unless an equivalent cash payment is offered as an alternative to the dividend policy or rider. A dividend policy or rider for additional coverage shall not be issued for an initial term of less than six (6) months. (3-30-01)

03. Return of Premium or Cash Value Benefit. A disability income policy, accident only policy, limited benefit policy, specified disease policy or hospital confinement indemnity policy may contain a “return of premium” or “cash value benefit” so long as the return of premium or cash value benefit is not reduced by an amount greater than the aggregate of claims paid under the policy, and the insurer demonstrates that the reserve basis for the policies is adequate. No other policy subject to this rule shall provide a return of premium or cash value benefit, except return of unearned premium upon termination or suspension of coverage, retroactive waiver of premium paid during disability, payment of dividends on participating policies, or experience rating refunds. (3-28-18)

h. Benefits provided under Medicare or other governmental program (except Medicaid), a state or federal worker’s compensation law, employers liability or occupational disease law, or motor vehicle no-fault law; services performed by a member of the covered person’s immediate family; and services for which no charge is normally made in the absence of insurance; (3-30-01)

Policy provisions precluded in Section 011 shall not be construed as a limitation on the authority of the Director to disapprove other policy provisions in accordance with Chapters 21, 22 and 42 of Title 41 of the Idaho Code, or that in the opinion of the Director are unjust, unfair or unfairly discriminatory to the policyholder, beneficiary or a person insured under the policy. (3-30-01)

012. ACCIDENT AND SICKNESS MINIMUM STANDARDS FOR BENEFITS.
The following minimum standards for benefits are prescribed for the categories of coverage noted in the following subsections. An individual accident and sickness insurance policy or group supplemental health insurance policy shall not be delivered or issued for delivery in this state unless it meets the required minimum standards for the specified categories or the Director finds that the policies or contracts are allowable as limited benefit health insurance and the outline of coverage complies with the model outline of coverage established by the National Association of Insurance Commissioners (“NAIC”) and accessible by the Internet at www.doi.state.id.us, under the “Consumer Assistance” link, for each category of coverage noted in Sections 013 through 029. Section 012 shall not preclude the issuance of any policy or contract combining two (2) or more categories set forth in Section 41-4204(1) and 41-4204(2), Idaho Code. Limitations on coinsurance percentages set forth in this rule do not apply to out-of-network benefits offered as part of a managed care plan. (3-30-01)

013. GENERAL RULES.

01. Termination of Coverage of Spouse Limitations. A “noncancellable,” “guaranteed renewable,” or “noncancellable and guaranteed renewable” individual accident and sickness policy shall not provide for termination of coverage of the spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than nonpayment of premium. In addition, the policy shall provide that in the event of the insured’s death, the spouse of the insured, if covered under the policy, shall become the insured. (3-30-01)

a. The terms “noncancellable,” “guaranteed renewable,” or “noncancellable and guaranteed renewable” shall not be used without further explanatory language in accordance with the disclosure requirements of Section 101 of this rule. (3-30-01)
b. The terms “noncancellable” or “noncancellable and guaranteed renewable” may be used only in an individual accident and sickness policy that the insured has the right to continue in force by the timely payment of premiums set forth in the policy until the age of sixty-five (65) or until eligibility for Medicare, during which period the insurer has no right to make unilaterally any change in any provision of the policy while the policy is in force. (3-30-01)

c. An individual accident and sickness or individual accident-only policy that provides for periodic payments, weekly or monthly, for a specified period during the continuance of disability resulting from accident or sickness may provide that the insured has the right to continue the policy only to age sixty (60) if, at age sixty (60), the insured has the right to continue the policy in force at least to age sixty-five (65) while actively and regularly employed. (3-30-01)

d. Except as provided in Section 013 of this rule, (the term “guaranteed renewable” may be used only in a policy that the insured has the right to continue in force by the timely payment of premiums until the age of sixty-five (65) or until eligibility for Medicare and to the extent not in conflict with Health Insurance Portability and Accountability Act, HIPAA), during which period the insurer has no right to make unilaterally any change in any provision of the policy while the policy is in force, except where the insurer is able to show good cause for changing the policy provisions and obtains prior written approval from the Director. The insurer may make changes in premium rates by classes. (3-30-01)

02. Age and Durational Requirements. In an individual accident and sickness policy covering both husband and wife, the age of the younger spouse shall be used as the basis for meeting the age and durational requirements of the definitions of “noncancellable” or “guaranteed renewable.” However, this requirement shall not prevent termination of coverage of the older spouse upon attainment of the stated age so long as the policy may be continued in force as to the younger spouse to the age or for the durational period as specified in the policy. (3-30-01)

03. Accidental Death and Dismemberment Coverage. When accidental death and dismemberment coverage is part of the individual accident and sickness insurance coverage offered under the contract, the insured shall have the option to include all insureds under the coverage and not just the principal insured. (3-30-01)

04. Military Service Limitations. If a policy contains a status-type military service exclusion or a provision that suspends coverage during military service, the policy shall provide, upon receipt of written request, for refund of premiums as applicable to the person on a pro rata basis. (3-30-01)

05. Pregnancy Benefit Extension. In the event the insurer cancels or refuses to renew, policies providing pregnancy benefits shall provide for an extension of benefits as to pregnancy commencing while the policy is in force and for which benefits would have been payable had the policy remained in force. (3-30-01)

06. Convalescent or Extended Care Benefits. Policies providing convalescent or extended care benefits following hospitalization shall not condition the benefits upon admission to the convalescent or extended care facility within a period of less than fourteen (14) days after discharge from the hospital. (3-30-01)

07. Coverage of Dependents. A policy’s coverage shall continue for a dependent child who is incapable of self-sustaining employment due to mental retardation or physical handicap on the date that the child’s coverage would otherwise terminate under the policy due to the attainment of a specified age for children and who is chiefly dependent on the insured for support and maintenance. The policy may require that within thirty-one (31) days of the date the company receives due proof of the incapacity in order for the insured to elect to continue the policy in force with respect to the child, or that a separate converted policy be issued at the option of the insured or policyholder. Provisions relating to coverage of dependents with mental or physical handicaps shall meet the requirements of Sections 41-2139 and 41-2203, Idaho Code. (3-30-01)

provision relating to recurrent disabilities shall not specify that a recurrent disability be separated by a period greater
than six (6) months. (3-30-01)

10. Accidental Death and Dismemberment. Accidental death and dismemberment benefits shall be
payable if the loss occurs within ninety (90) days from the date of the accident, irrespective of total disability.
Disability income benefits, if provided, shall not require the loss to commence less than thirty (30) days after the date
of accident, nor shall any policy that the insurer cancels or refuses to renew require that it be in force at the time
disability commences if the accident occurred while the coverage was in force. (3-30-01)

commenced while the policy or certificate was in force. The continuous total disability of the insured may be a
condition for the extension of benefits beyond the period the policy was in force, limited to the duration of the benefit
period, if any, or payment of the maximum benefits. (3-30-01)

(4-5-00)

vi. If a Medicare supplement policy eliminates an outpatient prescription drug benefit as a result of requirements imposed by the Medicare Prescription Drug, Improvement and Modernization Act of 2003, the modified policy shall be deemed to satisfy the guaranteed renewal requirements of Paragraph 021.01.e. The method proposed to be used by an issuer must be filed with the director. (3-29-10)

ii. The rating class of the new policy or certificate shall be the class closest to the insured’s class of the replaced coverage. (3-29-10)

The following standards are applicable to all Medicare supplement policies or certificates delivered or issued for delivery in this state with an effective date for coverage on or after June 1, 2010. No policy or certificate may be advertised, solicited, delivered, or issued for delivery in this state as a Medicare supplement policy or certificate unless it complies with these benefit standards. No issuer may offer any 1990 Standardized Medicare supplement benefit plan for sale on or after June 1, 2010. Benefit standards applicable to Medicare supplement policies and certificates issued with an effective date for coverage prior to June 1, 2010 remain subject to the requirements of Section 021.

01. General Standards. The following standards apply to Medicare supplement policies and certificates and are in addition to all other requirements of this regulation.

a. A Medicare supplement policy or certificate shall not exclude or limit benefits for losses incurred more than six (6) months from the effective date of coverage because it involved a preexisting condition. The policy or certificate may not define a preexisting condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six (6) months before the effective date of coverage.

b. A Medicare supplement policy or certificate shall not indemnify against losses resulting from sickness on a different basis than losses resulting from accidents.

c. A Medicare supplement policy or certificate shall provide that benefits designed to cover cost sharing amounts under Medicare will be changed automatically to coincide with any changes in the applicable Medicare deductible, copayment, or coinsurance amounts. Premiums may be modified to correspond with such changes.

d. No Medicare supplement policy or certificate shall provide for termination of coverage of a spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than the nonpayment of premium.

e. Each Medicare supplement policy shall be guaranteed renewable.

i. The issuer shall not cancel or nonrenew the policy solely on the ground of health status of the individual.

ii. The issuer shall not cancel or nonrenew the policy for any reasons other than nonpayment of premium or material representation.

iii. If the Medicare supplement policy is terminated by the group policyholder and is not replaced as provided under Subparagraph 022.01.e.v. of this rule, the issuer shall offer certificateholders an individual Medicare supplement policy which (at the option of the certificateholder):

(1) Provides for continuation of the benefits contained in the group policy; or

(2) Provides for benefits that otherwise meet the requirements of this Subsection.

iv. If an individual is a certificateholder in a group Medicare supplement policy and the individual terminates membership in the group, the issuer shall:

(1) Offer the certificateholder the conversion opportunity described in Subparagraph 022.01.e.iii. of this rule; or

(2) At the option of the group policyholder, offer the certificateholder continuation of coverage under the group policy.

v. If a group Medicare supplement policy is replaced by another group Medicare supplement policy purchased by the same policyholder, the issuer of the replacement policy shall offer coverage to all persons covered under the old group policy on its date of termination. Coverage under the new policy shall not result in any exclusion
for preexisting conditions that would have been covered under the group policy being replaced. (3-29-10)

g. Termination of a Medicare supplement policy or certificate shall be without prejudice to any continuous loss which commenced while the policy was in force, but the extension of benefits beyond the period during which the policy was in force may be conditioned upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or payment of the maximum benefits. Receipt of Medicare Part D benefits will not be considered in determining a continuous loss. (3-29-10)

h. A Medicare supplement policy or certificate shall provide that benefits and premiums under the policy or certificate shall be suspended at the request of the policyholder or certificateholder for the period (not to exceed twenty-four (24) months) in which the policyholder or certificateholder applies for and is determined to be entitled to medical assistance under Title XIX of the Social Security Act, but only if the policyholder or certificateholder notifies the issuer of the policy or certificate within ninety (90) days after the date the individual becomes entitled to assistance. (3-29-10)

i. If suspension occurs and if the policyholder or certificateholder loses entitlement to medical assistance, the policy or certificate shall be automatically reinstated (effective as of the date of termination of entitlement) as of the termination of entitlement if the policyholder or certificateholder provides notice of loss of entitlement within ninety (90) days after the date of loss and pays the premium attributable to the period, effective as of the date of termination of entitlement. 01. **Loss Ratio Standards.** (4-5-00)

- A Medicare supplement policy form or certificate form shall not be delivered or issued for delivery unless the policy form or certificate form can be expected, as estimated for the entire period for which rates are computed to provide coverage, to return to policyholders and certificateholders in the form of aggregate benefits (not including anticipated refunds or credits) provided under the policy form or certificate form. Filings of rate revisions shall also demonstrate that the anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage can be expected to meet the appropriate loss ratio standards. Demonstrations shall, at a minimum, account for:

i. Lapse rates; (3-29-17)

ii. Medical trend and rationale for trend; (3-29-17)

iii. Assumptions regarding future premium rate revisions; and (3-29-17)

iv. Interest rates for discounting and accumulating. (3-29-17)

The refund calculation shall be done on a statewide basis for each type in a standard Medicare supplement benefit plan. For purposes of the refund or credit calculation, experience on policies issued within the reporting year shall be excluded. (4-5-00)

c. For the purpose of Section 051, policies or certificates issued prior to July 1, 1992, the issuer shall make the refund or credit calculation separately for all individual policies (including all group policies subject to an individual loss ratio standard when issued) combined and all other group policies combined for experience after July 1, 1992. The first report shall be due by May 31, 1994. (4-11-19)

d. A refund or credit shall be made only when the benchmark loss ratio exceeds the adjusted experience loss ratio and the amount to be refunded or credit exceeds a de minimis level. The refund shall include interest from the end of the calendar year to the date of the refund or credit at a rate specified by the Secretary of Health and Human Services, but in no event shall it be less than the average rate of interest for thirteen (13) week Treasury notes. No premium adjustment which would modify the loss ratio experience under the policy other than the adjustments described herein shall be made with respect to a policy at any time other than upon its renewal date or anniversary date.

   c. If an issuer fails to make premium adjustments acceptable to the director, the director may order premium adjustments, refunds, or premium credits deemed necessary to achieve the loss ratio required by Section 051.

   d. Any appropriate riders, endorsements, or policy forms needed to accomplish the Medicare supplement policy or certificate modifications necessary to eliminate benefit duplications with Medicare. The riders, endorsements, or policy forms shall provide a clear description of the Medicare supplement benefits provided by the policy or certificate.

04. **Public Hearings.** The director may conduct a public hearing to gather information concerning a request by an issuer for an increase in a rate for a policy form or certificate form issued before or after the effective date of July 1, 1992 if the experience of the form for the previous reporting period is not in compliance with the applicable loss ratio standard. h. Subsection 011.02 is not intended to prohibit exclusions and limitations by type of provider. However, no long term care issuer may deny a claim because services are provided in a state other than the state of policy issue under the following conditions: (3-30-07)

i. When the state other than the state of policy issue does not have the provider licensing, certification or registration required in the policy, but where the provider satisfies the policy requirements outlined for providers in lieu of licensure, certification or registration; or (3-30-07)

ii. When the state other than the state of policy issue licenses, certifies or registers the provider under another name. For purposes of this Subsection 011.02.h. “state of policy issue” means the state in which the individual policy or certificate was originally issued. (3-30-07)

iii. Subsection 011.02 is not intended to prohibit territorial limitations. (3-30-07)

03. **Extension of Benefits.** Termination of long-term care insurance shall be without prejudice to any benefits payable for institutionalization if the institutionalization began while the long-term care insurance was in force and continues without interruption after termination. The extension of benefits beyond the period the long-term care insurance was in force may be limited to the duration of the benefit period, if any, or to payment of the maximum benefits and may be subject to any policy waiting period, and all other applicable provisions of the policy. (4-5-00)

04. **Continuation or Conversion.** (4-5-00)
a. Group long-term care insurance issued in this state on or after the effective date of Section 011 shall provide covered individuals with a basis for continuation or conversion of coverage. (3-30-07)

b. For the purposes of Section 011, “a basis for continuation of coverage” means a policy provision that maintains coverage under the existing group policy when the coverage would otherwise terminate and which is subject only to the continued timely payment of premium when due. Group policies that restrict provision of benefits and services to, or contain incentives to use certain providers or facilities, may provide continuation benefits that are substantially equivalent to the benefits of the existing group policy. The director shall make a determination as to the substantial equivalency of benefits, and in doing so, shall take into consideration the differences between managed care and non-managed care plans, including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity. (3-30-07)

c. For the purposes of Section 011, “a basis for conversion of coverage” means a policy provision that an individual whose coverage under the group policy would otherwise terminate or has been terminated for any reason, including discontinuance of the group policy in its entirety or with respect to an insured class, and who has been continuously insured under the group policy (and any group policy which it replaced) for at least six (6) months immediately prior to termination, shall be entitled to the issuance of a converted policy by the insurer under whose group policy he or she is covered, without evidence of insurability. (3-30-07)

d. For the purposes of Section 011, “converted policy” means an individual policy of long-term care insurance providing benefits identical to or benefits determined by the director to be substantially equivalent to or in excess of those provided under the group policy from which conversion is made. Where the group policy from which conversion is made restricts provision of benefits and services to, or contains incentives to use certain providers or facilities, the director, in making a determination as to the substantial equivalency of benefits, shall take into consideration the differences between managed care and non-managed care plans, including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity. (3-30-07)

e. Written application for the converted policy shall be made and the first premium due, if any, shall be paid as directed by the insurer not later than thirty-one (31) days after termination of coverage under the group policy. The converted policy shall be issued effective on the day following the termination of coverage under the group policy and shall be renewable annually. (4-5-00)

f. Unless the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured’s age at inception of coverage under the group policy from which conversion is made. Where the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured’s age at inception of coverage under the group policy replaced. (4-5-00)

g. Continuation of coverage or issuance of a converted policy shall be mandatory, except where:

i. Termination of group coverage resulted from an individual’s failure to make any required payment of premium or contribution when due; or (4-5-00)

ii. The terminating coverage is replaced not later than thirty-one (31) days after termination, by group coverage effective on the day following the termination of coverage: (4-5-00)

(1) Providing benefits identical to or benefits determined by the director to be substantially equivalent to or in excess of those provided by the terminating coverage; and (4-5-00)

(2) The premium for which is calculated in a manner consistent with the requirements of Subsection 011.04.f. (3-30-07)

h. Notwithstanding any other provision of Section 011, a converted policy issued to an individual who at the time of conversion is covered by another long-term care insurance policy that provides benefits on the basis of incurred expenses, may contain a provision that results in a reduction of benefits payable if the benefits provided
under the additional coverage, together with the full benefits provided by the converted policy, would result in payment of more than one hundred percent (100%) of incurred expenses. The provision shall only be included in the converted policy if the converted policy also provides for a premium decrease or refund which reflects the reduction in benefits payable. (3-30-07)

i. The converted policy may provide that the benefits payable under the converted policy, together with the benefits payable under the group policy from which conversion is made, shall not exceed those that would have been payable had the individual’s coverage under the group policy remained in force and effect. (3-30-07)

j. Notwithstanding any other provision of Section 011, an insured individual whose eligibility for group long-term care coverage is based upon his relationship to another person shall be entitled to continuation of coverage under the group policy upon termination of the qualifying relationship by death or dissolution of marriage. (3-30-07)

k. For the purposes of Section 011 a “managed-care plan” is a health care or assisted living arrangement designed to coordinate patient care or control costs through utilization review, case management or use of specific provider networks. (3-30-07)

05. Discontinuance and Replacement. If a group long-term care policy is replaced by another group long-term care policy issued to the same policyholder, the succeeding insurer shall offer coverage to all persons covered under the previous group policy on its date of termination. Coverage provided or offered to individuals by the insurer and premiums charged to persons under the new group policy:

a. Shall not result in an exclusion for preexisting conditions that would have been covered under the group policy being replaced; and (4-5-00)

b. Shall not vary or otherwise depend on the individual’s health or disability status, claim experience or use of long-term care services. (4-5-00)

06. Premium Changes. (4-5-00)

a. The premium charged to an insured shall not increase due to either: (4-5-00)

i. The increasing age of the insured at ages beyond sixty-five (65); or (4-5-00)

ii. The duration the insured has been covered under the policy. (4-5-00)

b. The purchase of additional coverage shall not be considered a premium rate increase, but for purposes of the calculation required under Section 032, the portion of the premium attributable to the additional coverage shall be added to and considered part of the initial annual premium. (3-30-07)

c. A reduction in benefits shall not be considered a premium change, but for purpose of the calculation required under Section 032, the initial annual premium shall be based on the reduced benefits. (3-30-07)

07. Electronic Enrollment for Group Policies. (4-5-00)

a. In the case of a group defined in Section 41-4603(4)(a), Idaho Code, any requirement that a signature of an insured be obtained by an producer or insurer shall be deemed satisfied if: (3-30-07)

i. The consent is obtained by telephonic or electronic enrollment by the group policyholder or insurer. A verification of enrollment information shall be provided to the enrollee; (4-5-00)

ii. The telephonic or electronic enrollment provides necessary and reasonable safeguards to assure the accuracy, retention, and prompt retrieval of records; and (4-5-00)

iii. The telephonic or electronic enrollment provides necessary and reasonable safeguards to assure that the confidentiality of individually identifiable information, “privileged information,” is maintained. (4-5-00)
b. The insurer shall make available, upon request of the director, records that will demonstrate the insurer’s ability to confirm enrollment and coverage amounts. (4-5-00)

012. (RESERVED)

013. UNINTENTIONAL LAPSE.

01. Notice Before Lapse or Termination. Each insurer offering long-term care insurance shall, as a protection against unintentional lapse, comply with the following: (4-5-00)

a. No individual long-term care policy or certificate shall be issued until the insurer has received from the applicant either a written designation of at least one (1) person, in addition to the applicant, who is to receive notice of lapse or termination of the policy or certificate for nonpayment of premium, or a written waiver dated and signed by the applicant electing not to designate additional persons to receive notice. The applicant has the right to designate at least one (1) person who is to receive the notice of termination, in addition to the insured. Designation shall not constitute acceptance of any liability on the third party for services provided to the insured. The form used for the written designation must provide space clearly designated for listing at least one (1) person. The designation shall include each person’s full name and home address. In the case of an applicant who elects not to designate an additional person, the waiver shall state: “Protection against unintended lapse. I understand that I have the right to designate at least one (1) person other than myself to receive notice of lapse or termination of this long-term care insurance policy for nonpayment of premium. I understand that notice will not be given until thirty (30) days after a premium is due and unpaid. I elect NOT to designate a person to receive this notice.” The insurer shall notify the insured of the right to change this written designation, no less often than once every two (2) years. (4-5-00)

b. When the policyholder or certificate holder pays premium for a long-term care insurance policy or certificate through a payroll or pension deduction plan, the requirements contained in Subsection 013.01.a. need not be met until sixty (60) days after the policyholder or certificate holder is no longer on such a payment plan. The application or enrollment form for such policies or certificates shall clearly indicate the payment plan selected by the applicant. (3-30-07)

c. Lapse or termination for nonpayment of premium. No individual long-term care policy or certificate shall lapse or be terminated for nonpayment of premium unless the insurer, at least thirty (30) days before the effective date of the lapse or termination, has given notice to the insured and to those persons designated pursuant to Subsection 013.01.a., at the address provided by the insured for purposes of receiving notice of lapse or termination. Notice shall be given by first class United States mail, postage prepaid; and notice may not be given until thirty (30) days after a premium is due and unpaid. Notice shall be deemed to have been given as of five (5) days after the date of mailing. (3-30-07)

02. Reinstatement. In addition to the requirement in Subsection 013.01, a long-term care insurance policy or certificate shall include a provision that provides for reinstatement of coverage, in the event of lapse if the insurer is provided proof that the policyholder or certificate holder was cognitively impaired or had a loss of functional capacity before the grace period contained in the policy expired. This option shall be available to the insured if requested within five (5) months after termination and shall allow for the collection of past due premium, where appropriate. The standard of proof of cognitive impairment or loss of functional capacity shall not be more stringent than the benefit eligibility criteria on cognitive impairment or the loss of functional capacity contained in the policy and certificate. (3-30-07)

014. REQUIRED DISCLOSURE PROVISIONS.

01. Renewability. Individual long-term care insurance policies shall contain a renewability provision. (3-30-01)

a. The provision shall be appropriately captioned, shall appear on the first page of the policy, and shall clearly state that the coverage is guaranteed renewable or noncancellable. This provision shall not apply to policies that do not contain a renewability provision, and under which the right to nonrenew is reserved solely to the policyholder. (3-30-01)
b. A long-term care insurance policy or certificate, other than one where the insurer does not have the right to change the premium, shall include a statement that the premium rates may change. (3-30-01)

02. Riders and Endorsements. Except for riders or endorsements by which the insurer effectuates a request made in writing by the insured under an individual long-term care insurance policy, all riders or endorsements added to an individual long-term care insurance policy after date of issue or at reinstatement or renewal that reduce or eliminate benefits or coverage in the policy shall require signed acceptance by the individual insured. After the date of policy issue, any rider or endorsement which increases benefits or coverage with a concomitant increase in premium during the policy term must be agreed to in writing signed by the insured, except if the increased benefits or coverage are required by law. Where a separate additional premium is charged for benefits provided in connection with riders or endorsements, the premium charge shall be set forth in the policy, rider or endorsement. (4-5-00)

03. Payment of Benefits. A long-term care insurance policy that provides for the payment of benefits based on standards described as “usual and customary,” “reasonable and customary,” or words of similar import shall include a definition of these terms and an explanation of the terms in its accompanying outline of coverage. (4-5-00)

04. Limitations. If a long-term care insurance policy or certificate contains any limitations with respect to preexisting conditions, the limitations shall appear as a separate paragraph of the policy or certificate and shall be labeled as “Preexisting Condition Limitations.” (4-5-00)

05. Other Limitations or Conditions on Eligibility for Benefits. A long-term care insurance policy or certificate containing any limitations or conditions for eligibility other than those prohibited in Section 41-4605(4)(b)(i), Idaho Code, shall set forth a description of the limitations or conditions, including any required number of days of confinement, in a separate paragraph of the policy or certificate and shall label such paragraph “Limitations or Conditions on Eligibility for Benefits.” (3-30-07)

06. Disclosure of Tax Consequences. With regard to life insurance policies that provide an accelerated benefit for long-term care, a disclosure statement is required at the time of application for the policy or rider and at the time the accelerated benefit payment request is submitted that receipt of these accelerated benefits may be taxable, and that assistance should be sought from a personal tax advisor. The disclosure statement shall be prominently displayed on the first page of the policy or rider and any other related documents. Subsection 014.06 shall not apply to qualified long-term care insurance contracts. (3-30-07)

07. Benefit Triggers. Activities of daily living and cognitive impairment shall be used to measure an insured’s need for long-term care and shall be described in the policy or certificate in a separate paragraph and shall be labeled “Eligibility for the Payment of Benefits.” Any additional benefit triggers shall also be explained. If these triggers differ for different benefits, explanation of the trigger shall accompany each benefit description. If an attending physician or other specified person must certify a certain level of functional dependency in order to be eligible for benefits, this too shall be specified. (4-5-00)

08. Qualified Contracts. A qualified long-term care insurance contract shall include a disclosure statement in the policy and in the outline of coverage as contained in Section 035 that the policy is intended to be a qualified long-term care insurance contract under Section 7702B (b) of the Internal Revenue Code of 1986, as amended. (3-30-07)

09. Non-Qualified Contracts. A non-qualified long-term care insurance contract shall include a disclosure statement in the policy and in the outline of coverage as contained in Section 035 that the policy is not intended to be a qualified long-term care insurance contract. (3-30-07)

10. Required Disclosure of Rating Practices to Consumers. (3-30-01)

a. Subsection 014.10 shall apply as follows: (3-30-07)

i. Except as provided in Subsection 014.10.a.ii., Subsection 014.10 applies to any long-term care policy or certificate issued in this state on or after July 1, 2001. (3-30-07)
For certificates issued on or after the effective date of this amended rule under a group long-term care insurance policy as defined in Section 41-4603(4)(a), Idaho Code, which policy was in force at the time this amended rule became effective, the provisions of Subsection 014.10 shall apply on the policy anniversary following January 1, 2002. (3-30-07)

b. Other than policies for which no applicable premium rate or rate schedule increases can be made, insurers shall provide all of the information listed in Subsection 014.10.b. to the applicant at the time of application or enrollment, unless the method of application does not allow for delivery at that time. In such a case, an insurer shall provide all information listed in Subsection 014.10.b. to the applicant no later than at the time of delivery of the policy or certificate.

i. A statement that the policy may be subject to rate increases in the future; (3-30-07)

ii. An explanation of potential future premium rate revisions, and the policyholder’s or certificateholder’s option in the event of a premium rate revision; (3-30-07)

iii. The premium rate or rate schedules applicable to the applicant that will be in effect until a request is made for an increase; and (3-30-07)

iv. A general explanation for applying premium rate or rate schedule adjustments that shall include, a description of when premium rate or rate schedule adjustments will be effective (e.g., next anniversary date, next billing date, etc.), and the right to a revised premium rate or rate schedule as provided in Subsection 014.10.b.ii., if the premium rate or rate schedule is changed. (3-30-07)

c. Information regarding each premium rate increase on this policy form or similar forms over the past ten (10) years for this state or any other state that, at a minimum, identifies:

i. The policy forms for which premium rates have been increased; (3-30-07)

ii. The calendar years when the form was available for purchase; and (3-30-07)

iii. The amount or percent of each increase. The percentage may be expressed as a percentage of the premium rate prior to the increase, and may also be expressed as minimum and maximum percentages if the rate increase is variable by rating characteristics. (3-30-07)

d. The insurer may, in a fair manner, provide additional explanatory information related to the rate increases. (3-30-07)

e. An insurer shall have the right to exclude from the disclosure premium rate increases that only apply to blocks of business acquired from other nonaffiliated insurers or the long-term care policies acquired from other nonaffiliated insurers when those increases occurred prior to acquisition. (3-30-07)

f. If an acquiring insurer files for a rate increase on a long-term care policy form acquired from nonaffiliated insurers or a block of policy forms acquired from nonaffiliated insurers on or before the later of the effective date of Subsection 014.10 or the end of a twenty-four (24) month period following the acquisition of the block of policies, the acquiring insurer may exclude that rate increase from the disclosure. However, the nonaffiliated selling company shall include the disclosure of that rate increase in accordance with Subsection 014.10.c. (3-30-07)

g. If the acquiring insurer in Subsection 014.10.f. above files for a subsequent rate increase, even within the twenty-four (24) month period, on the same policy form acquired from nonaffiliated insurers or block of policy forms acquired from insurers referenced in Subsection 014.10.f., the acquiring insurer must make all disclosures required by Subsection 014.10.c., including disclosure of the earlier rate increase referenced in Subsection 014.10.f. (3-25-16)

h. An applicant shall sign an acknowledgement at the time of application, unless the method of application does not allow for signature at that time, that the insurer made the disclosure required under Subsections 014.10.b. and 014.10.c. If because of the method of application the applicant cannot sign an acknowledgement at the
time of application, the applicant shall sign no later than at the time of delivery of the policy or certificate. (3-30-07)

i. An insurer shall use the forms in Appendices B and F to comply with the disclosure requirements of Subsection 014.10.b. and Subsection 014.10.h. (3-25-16)

j. An insurer shall provide notice of an upcoming premium rate schedule increase to all policyholders or certificateholders, if applicable, at least thirty (30) days prior to the implementation of the premium rate schedule increase by the insurer. The notice shall include the information required by Subsection 014.10.b., when the increase is implemented. (3-30-07)

015. PROHIBITION AGAINST POST-CLAIMS UNDERWRITING.

01. Health Conditions. All applications for long-term care insurance policies or certificates except those that are guaranteed issue shall contain clear and unambiguous questions designed to ascertain the health condition of the applicant. (4-5-00)

02. Medication. If an application for long-term care insurance contains a question that asks whether the applicant has had medication prescribed by a physician, it must also ask the applicant to list the medication that has been prescribed. If the medications listed in the application were known by the insurer, or should have been known at the time of application, to be directly related to a medical condition for which coverage would otherwise be denied, then the policy or certificate shall not be rescinded for that condition. (4-5-00)

03. Non-Guaranteed Issue. Except for policies or certificates which are guaranteed issue: (4-5-00)

a. The following language shall be set out conspicuously and in close conjunction with the applicant’s signature block on an application for a long-term care insurance policy or certificate: Caution: If your answers on this application are incorrect or untrue, (company) has the right to deny benefits or rescind your policy. (4-5-00)

b. The following language, or language substantially similar to the following, shall be set out conspicuously on the long-term care insurance policy or certificate at the time of delivery: Caution: The issuance of this long-term care insurance (policy) (certificate) is based upon your responses to the questions on your application. A copy of your (application) (enrollment form) (is enclosed) (was retained by you when you applied). If your answers are incorrect or untrue, the company has the right to deny benefits or rescind your policy. The best time to clear up any questions is now, before a claim arises! If, for any reason, any of your answers are incorrect, contact the company at this address: (insert address) (4-5-00)

c. Prior to issuance of a long-term care policy or certificate to an applicant age eighty (80) or older, the insurer shall obtain one (1) of the following: (4-5-00)

i. A report of a physical examination; (4-5-00)

ii. An assessment of functional capacity; (4-5-00)

iii. An attending physician’s statement; or (4-5-00)

iv. Copies of medical records. (4-5-00)

04. Delivery of Application or Enrollment and Form. A copy of the completed application or enrollment form (whichever is applicable) shall be delivered to the insured no later than at the time of delivery of the policy or certificate unless it was retained by the applicant at the time of application. (4-5-00)

05. Record of Rescissions. Every insurer or other entity selling or issuing long-term care insurance benefits shall maintain a record of all policy or certificate rescissions, both state and countrywide, except those that the insured voluntarily effectuated and shall annually furnish this information to the insurance director in the format prescribed by the National Association of Insurance Commissioners in Appendix A. (3-25-16)
016. MINIMUM STANDARDS FOR HOME HEALTH AND COMMUNITY CARE BENEFITS IN LONG-TERM CARE INSURANCE POLICIES.

01. Limitations or Exclusions. A long-term care insurance policy or certificate shall not, if it provides benefits for home health care or community care services, limit or exclude benefits:

a. By requiring that the insured or claimant would need care in a skilled nursing facility if home health care services were not provided; (4-5-00)

b. By requiring that the insured or claimant first or simultaneously receive nursing or therapeutic services, or both, in a home, community, or institutional setting before home health care services are covered; (4-5-00)

c. By limiting eligible services to services provided by registered nurses or licensed practical nurses; (4-5-00)

d. By requiring that a nurse or therapist provide services covered by the policy that can be provided by a home health aide, or other licensed or certified home care worker acting within the scope of his or her licensure or certification; (4-5-00)

e. By excluding coverage for personal care services provided by a home health aide; (4-5-00)

f. By requiring that the provision of home health care services be at a level of certification or licensure greater than that required by the eligible service; (4-5-00)

g. By requiring that the insured or claimant have an acute condition before home health care services are covered; (4-5-00)

h. By limiting benefits to services provided by Medicare-certified agencies or providers; or (4-5-00)

i. By excluding coverage for adult day care services. (4-5-00)

02. Coverage Equivalency. A long-term care insurance policy or certificate, if it provides for home health or community care services, shall provide total home health or community care coverage that is a dollar amount equivalent to at least one-half (1/2) of one (1) year’s coverage available for nursing home benefits under the policy or certificate, at the time covered home health or community care services are being received. This requirement shall not apply to policies or certificates issued to residents of continuing care retirement communities. (4-5-00)

03. Maximum Coverage. Home health care coverage may be applied to the non-home health care benefits provided in the policy or certificate when determining maximum coverage under the terms of the policy or certificate. (4-5-00)

017. REQUIREMENT TO OFFER INFLATION PROTECTION.

01. Inflation Protection Offer. No insurer may offer a long-term care insurance policy unless the insurer also offers to the policyholder in addition to any other inflation protection the option to purchase a policy that provides for benefit levels to increase with benefit maximums or reasonable durations which are meaningful to account for reasonably anticipated increases in the costs of long-term care services covered by the policy. Insurers must offer to each policyholder, at the time of purchase, the option to purchase a policy with an inflation protection feature no less favorable than one (1) of the following:

a. Increases benefit levels annually in a manner so that the increases are compounded annually at a rate not less than five percent (5%); (4-5-00)

b. Guarantees the insured individual the right to periodically increase benefit levels without providing evidence of insurability or health status as long as the option for the previous period has not been declined. The amount of the additional benefit shall be no less than the difference between the existing policy benefit and that
benefit compounded annually at a rate of at least five percent (5%) for the period beginning with the purchase of the existing benefit and extending until the year in which the offer is made; or (4-5-00)

c. Covers a specified percentage of actual or reasonable charges and does not include a maximum specified indemnity amount or limit. (4-5-00)

d. With respect to inflation protection for a Partnership policy only: (3-30-07)

i. If the policy is sold to an individual who has not attained age sixty-one (61) as of the date of purchase, the policy must provide some level of automatic compound annual inflation protection; (3-25-16)

ii. If the policy is sold to an individual who has attained age sixty-one (61) but has not attained age 76 as of the date of purchase, the policy must provide some level of automatic annual inflation protection; and (3-25-16)

iii. If the policy is sold to an individual who has attained age seventy-six (76) as of the date of purchase, the policy may (but is not required to) provide some level of inflation protection. (3-30-07)

02. Group Offer. Where the policy is issued to a group, the required offer in Subsection 017.01 shall be made to the group policyholder; except, if the policy is issued to a group defined in Section 41-4603(4)(d), Idaho Code, other than to a continuing care retirement community, the offering shall be made to each proposed certificateholder. (3-30-07)

03. Requirements for Life Insurance Policies. The offer in Subsection 017.01 above shall not be required of life insurance policies or riders containing accelerated long-term care benefits. (3-30-07)

04. Outline of Coverage. Insurers shall include the following information in or with the outline of coverage: (4-5-00)

a. A graphic comparison of the benefit levels of a policy that increases benefits over the policy period with a policy that does not increase benefits. The graphic comparison shall show benefit levels over at least a twenty (20) year period. (4-5-00)

b. Any expected premium increases or additional premiums to pay for automatic or optional benefit increases. (4-5-00)

c. An insurer may use a reasonable hypothetical, or a graphic demonstration, for the purposes of this disclosure. (4-5-00)

05. Continuation of Inflation Protection. Inflation protection benefit increases under a policy which contains these benefits shall continue without regard to an insured’s age, claim status or claim history, or the length of time the person has been insured under the policy. (4-5-00)

06. Premium Disclosures. An offer of inflation protection that provides for automatic benefit increases shall include an offer of a premium which the insurer expects to remain constant. The offer shall disclose in a conspicuous manner that the premium may change in the future unless the premium is guaranteed to remain constant. (4-5-00)

07. Rejection of Offer. Inflation protection as provided in Subsection 017.01 shall be included in a long-term care insurance policy unless an insurer obtains a rejection of inflation protection signed by the policyholder as required in Subsection 017.07. The rejection may be either in the application or on a separate form. The rejection shall be considered a part of the application and shall state: I have reviewed the outline of coverage and the graphs that compare the benefits and premiums of this policy with and without inflation protection. Specifically, I have reviewed Plans ______, and I reject inflation protection (signature line: __________________). (3-30-07)

018. REQUIREMENTS FOR APPLICATION FORMS AND REPLACEMENT COVERAGE.

01. Application Forms. Application forms shall include the following questions designed to elicit
information as to whether, as of the date of the application, the applicant has another long-term care insurance policy or certificate in force or whether a long-term care policy or certificate is intended to replace any other accident and sickness or long-term care policy or certificate presently in force. A supplementary application or other form to be signed by the applicant and producer, except where the coverage is sold without a producer, containing the questions may be used. With regard to a replacement policy issued to a group defined by Section 41-4603(a), Idaho Code, the following questions may be modified only to the extent necessary to elicit information about health or long-term care insurance policies other than the group policy being replaced, provided that the certificateholder has been notified of the replacement.

(3-30-07)

a. Do you have another long-term care insurance policy or certificate in force (including insurance, Fraternal Benefit Societies, Managed Care Organization) or other similar organizations? (4-5-00)

b. Did you have another long-term care insurance policy or certificate in force during the last twelve months? (4-5-00)

i. If so, with which company? (4-5-00)

ii. If that policy lapsed, when did it lapse? (4-5-00)

c. Are you covered by Medicaid? (4-5-00)

d. Do you intend to replace any of your medical or health insurance coverage with this policy (certificate)? (4-5-00)

02. Other Policy Disclosures. Producers shall list any other health insurance policies they have sold to the applicant. (3-30-07)

a. List policies sold that are still in force. (4-5-00)

b. List policies sold in the past five (5) years that are no longer in force. (4-5-00)

03. Solicitations Other Than Direct Response. Upon determining that a sale will involve replacement, an insurer, other than an insurer using direct response solicitation methods, or its producer shall furnish the applicant, prior to issuance or delivery of the individual long-term care insurance policy, a notice regarding replacement of accident and sickness or long-term care coverage. One (1) copy of the notice shall be retained by the applicant and an additional copy signed by the applicant shall be retained by the insurer. (3-30-07)

019. REPORTING REQUIREMENTS.

01. Maintenance of Producer Records. Every insurer shall maintain records for each producer of that

02. Producers Experiencing Lapses and Replacements. Every insurer shall report annually by June 30 the ten percent (10%) of its producer’s with the greatest percentages of lapses and replacements as measured by Subsection 019.01.

03. Purpose of Reports. Reported replacement and lapse rates do not alone constitute a violation of insurance laws or necessarily imply wrongdoing. The reports are for the purpose of reviewing more closely producer activities regarding the sale of long-term care insurance.

04. Lapsed Policies. Every insurer shall report annually by June 30 the number of lapsed policies as a percent of its total annual sales and as a percent of its total number of policies in force as of the end of the preceding calendar year.

05. Replacement Policies. Every insurer shall report annually by June 30 the number of replacement policies sold as a percent of its total annual sales and as a percent of its total number of policies in force as of the preceding calendar year.

06. Claims Denied. Every insurer shall report annually by June 30, for qualified long-term care insurance contracts, the number of claims denied for each class of business, expressed as a percentage of claims denied, other than claims denied for failure to meet the waiting period or because of an applicable preexisting condition, in the format of Appendix E.

07. Policies and Reports. For purposes of Section 019, “policy” shall mean only long-term care insurance and “report” means on a statewide basis.

021. DISCRETIONARY POWERS OF DIRECTOR.

The director may upon written request and after an administrative hearing, issue an order to modify or suspend a specific provision or provisions of this rule with respect to a specific long-term care insurance policy or certificate upon a written finding that:

01. General Requirement. The modification or suspension would be in the best interest of the insureds; the purposes to be achieved could not be effectively or efficiently achieved without the modification or suspension; and the modification or suspension is necessary to the development of an innovative and reasonable approach for insuring long-term care; or

02. Residential Care Community. The policy or certificate is to be issued to residents of a life care or continuing care retirement community or some other residential community for the elderly and the modification or suspension is reasonably related to the special needs or nature of such a community; or

022. RESERVE STANDARDS.

01. Acceleration of Benefits Under Life Policies. When long-term care benefits are provided through the acceleration of benefits under group or individual life policies or riders to such policies, policy reserves for the benefits shall be determined in accordance with Section 41-612, Idaho Code, Standard Valuation Law – Life Insurance. Claim reserves shall also be established in the case when the policy or rider is in claim status. (4-5-00)

02. Decrement Models. Reserves for policies and riders subject to Section 022 should be based on the multiple decrement model utilizing all relevant decrements except for voluntary termination rates. Single decrement approximations are acceptable if the calculation produces essentially similar reserves, if the reserve is clearly more conservative, or if the reserve is immaterial. The calculations may take into account the reduction in life insurance benefits due to the payment of long-term care benefits. However, in no event shall the reserves for the long-term care benefit and the life insurance benefit be less than the reserves for the life insurance benefit assuming no long-term care benefit. (3-30-07)

03. Considerations Impacting Projected Claim Costs. Any applicable valuation morbidity table shall be certified as appropriate as a statutory valuation table by a member of the American Academy of Actuaries. In the development and calculation of reserves for policies and riders subject to Section 022, due regard shall be given to the applicable policy provisions, marketing methods, administrative procedures and all other considerations which have an impact on projected claim costs, including, but not limited to, the following: (3-30-07)

01. Expected Loss Ratios. Benefits under long-term care insurance policies shall be deemed reasonable in relation to premiums provided the expected loss ratio is at least sixty percent (60%), calculated in a manner which provides for adequate reserving of the long-term care insurance risk. In evaluating the expected loss ratio, due consideration shall be given to all relevant factors, including:

- a. Statistical credibility of incurred claims experience and earned premiums;
- b. The period for which rates are computed to provide coverage;

i. Annual values for the past five (5) years preceding and the three (3) years following the valuation date shall be provided separately; (3-30-01)

ii. The projections shall include the development of the lifetime loss ratio, unless the rate of increase is an exceptional increase; (3-30-01)

e. 04. Projections Filed for Review. For each rate increase that is implemented, the insurer shall file for review by the director updated projections, as defined in Subsection 025.02.a., annually for the following three (3) years and include a comparison of actual results to projected values. The director may extend the period to greater than three (3) years if actual results are not consistent with projected values from prior projections. For group insurance policies that meet the conditions in Subsection 025.13, the projections required by this Subsection 025.04 shall be provided to the policyholder in lieu of filing with the director. (3-30-07)

05. Revised Premium Rate. If any premium rate in the revised premium rate schedule is greater than 200 percent (200%) of the comparable rate in the initial premium schedule, lifetime projections, as defined in Subsection 025.02.a., shall be filed for review by the director every five (5) years following the end of the required period in Subsection 025.04. For group insurance policies that meet the conditions in Subsection 025.13, the projections required by Subsection 025.05 shall be provided to the policyholder in lieu of filing with the director. (3-30-07)

06. Actual and Projected Experience. If the director has determined that the actual experience following a rate increase does not adequately match the projected experience and that the current projections under moderately adverse conditions demonstrate that incurred claims will not exceed proportions of the premium specified in Subsection 025.03, the director may require the insurer to implement any of the following: (3-30-07)

a. Premium rate schedule adjustments; or (3-30-01)

i. Other measures to reduce the difference between the projected and actual experience. (3-30-01)

b. In determining whether the actual experience adequately matches the projected experience, consideration should be given to Subsection 025.02.d. and 025.02.e., if applicable. (3-30-07)

07. Contingent Benefit upon Lapse. If the majority of the policies or certificates to which the increase is applicable are eligible for the contingent benefit upon lapse, the insurer shall file: (3-30-01)

a. A plan, subject to director approval, for improved administration or claims processing designed to eliminate the potential for further deterioration of the policy form requiring further premium rate schedule increases, or both, or to demonstrate that appropriate administration and claims processing have been implemented or are in effect. If the director should determine that such appropriate administration and claims processing functions have not been addressed, provisions of Subsection 025.08 may be applied; and (3-30-07)
b. The original anticipated lifetime loss ratio, and the premium rate schedule increase that would have been calculated according to Subsection 025.03 had the greater of the original anticipated lifetime loss ratio or fifty-eight percent (58%) been used in the calculations described in Subsections 025.03.b.i. and 025.03.b.iii. (3-30-07)

08. Additional Rate Increase Filings. For a rate increase filing that meets the following criteria, the director shall review, for all policies included in the filing, the projected lapse rates and past lapse rates during the twelve (12) months following each increase to determine if significant adverse lapse has occurred or is anticipated:

a. The rate increase is not the first rate increase requested for the specific policy form or forms; (3-30-01)

b. The rate increase is not an exceptional increase; and (3-30-01)

c. The majority of the policies or certificates to which the increase is applicable are eligible for the contingent benefit upon lapse. (3-30-01)

d. In the event significant adverse lapse has occurred, is anticipated in the filing or is evidenced in the actual results as presented in the updated projections provided by the insurer following the requested rate increase, the director may determine that a rate spiral exists. Following the determination that a rate spiral exists, the director may require the insurer to offer, without underwriting, to all in force insureds subject to the rate increase option to replace existing coverage with one or more reasonably comparable products being offered by the insurer or its affiliates. The offer shall:
   
i. Be subject to the approval of the director; (3-30-01)
   
ii. Be based on actuarially sound principles, but not be based on attained age; and (3-30-01)
   
iii. Provide that the maximum benefits under any new policy accepted by an insured shall be reduced by comparable benefits already paid under the existing policy. (3-30-01)

e. The insurer shall maintain the experience of all the replacement insureds separate from the experience of insureds originally issued the policy forms. In the event of a request for a rate increase on the policy form, the rate increase shall be limited to the lesser of:
   
i. The maximum rate increase determined based on the combined experience; and (3-30-01)
   
ii. The maximum rate increase determined based only on the experience of the insureds originally issued the form plus ten percent (10%). (3-30-01)

09. Persistent Practice of Inadequate Rate Filings. If the director determines that the insurer has exhibited a persistent practice of filing inadequate initial premium rates for long-term care insurance, the director may, in addition to the provisions of Subsection 025.08 of this section, prohibit the insurer from either of the following:

a. Filing and marketing comparable coverage for a period of up to five (5) years; or (3-30-01)

b. Offering all other similar coverages and limiting marketing of new applications to the products subject to recent premium rate schedule increases. (3-30-01)

10. Exceptions. Subsections 025.01 and 025.09 shall not apply to policies for which the long-term care benefits provided by the policy are incidental, as defined in Subsection 010.12, if the policy complies with all of the following provisions:

a. The interest credited internally to determine cash value accumulations, including long-term care, if any, are guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without
b. The portion of the policy that provides insurance benefits other than long-term care coverage meets
the nonforfeiture requirements as applicable in any of the following:

i. Section 41-1927, Idaho Code, Standard Nonforfeiture Law-Life Insurance;

ii. Section 41-1927A, Idaho Code, Standard Nonforfeiture Law for Individual Deferred Annuities;

Performance Standards for Long-term Care Coverage.

memorandum is filed with the Department of Insurance that includes:

b. A description of the basis for the reserves;

c. A summary of the type of policy, benefits, renewability, general marketing method, and limits on
ages of issuance;

d. A description and a table of each actuarial assumption used. For expenses, an insurer must include
percent of premium dollars per policy and dollars per unit of benefits, if any;

e. A description and a table of the anticipated policy reserves and additional reserves to be held in
each future year for active lives;

f. The estimated average annual premium per policy and the average issue age;

g. A statement as to whether underwriting is performed at the time of application. The statement shall
indicate whether underwriting is used and, if used, the statement shall include a description of the type or types of
underwriting used, such as medical underwriting or functional assessment underwriting. Concerning a group policy,
the statement shall indicate whether the enrollee or any dependent will be underwritten and when underwriting
occurs; and

h. A description of the effect of the long-term care policy provision on the required premiums,
nonforfeiture values and reserves on the underlying insurance policy, both for active lives and those in long-term care
claims status.

13. Exceptions for Association Plans. Premium Rate Schedule Increases Subsections 025.06 and
025.08 shall not apply to group insurance policies as defined in Section 41-4603(4)(a), Idaho Code, where:

a. The policies insure two hundred fifty (250) or more persons and the policyholder has five thousand
(5,000) or more eligible employees of a single employer;

b. The policyholder, and not the certificateholders, pay a material portion of the premium, which shall

028. SUITABILITY.

01. Life Insurance Policies That Accelerate Benefits. Section 028 shall not apply to life insurance

02. **General Provisions.** Every Insurer, Fraternal Benefit Society, Managed Care Organization or other similar organization marketing long-term care insurance (the “issuer”) shall:

a. Develop and use suitability standards to determine whether the purchase or replacement of long-term care insurance is appropriate for the needs of the applicant;

b. Train its producers in the use of its suitability standards; and

c. Maintain a copy of its suitability standards and make them available for inspection upon request by the director.

03. **Determination of Standards.** To determine whether the applicant meets the standards developed by the issuer;

a. The producer and issuer shall develop procedures that take the following into consideration:

i. The ability to pay for the proposed coverage and other pertinent financial information related to the purchase of the coverage;

ii. The applicant’s goals or needs with respect to long-term care and the advantages and disadvantages of insurance to meet these goals or needs;

iii. The values, benefits, and costs of the applicant’s existing insurance, if any, when compared to the values, benefits and costs of the recommended purchase or replacement.

b. The issuer and producer, if involved, shall make reasonable efforts to obtain the information set out in Subsection 028.03. The efforts shall include presentation to the applicant, at or prior to application, the “Long-Term Care Insurance Personal Worksheet.” The personal worksheet used by the issuer shall contain, at a minimum, the information in the format contained in the NAIC Model Regulations in Appendix B, in not less than twelve (12) point type. The issuer may request the applicant to provide additional information to comply with its suitability standards. A copy of the issuer’s personal worksheet shall be filed with the director.

c. A completed personal worksheet shall be returned to the issuer prior to the issuer’s consideration of the applicant for coverage, except the personal worksheet need not be returned for sales of employer group long-term care insurance to employees and their spouses.

d. The sale or dissemination outside the company or agency by the issuer or producer of information obtained through the personal worksheet in the NAIC Model Regulations, Appendix B is prohibited.

04. **Appropriateness.** The issuer shall use the suitability standards it has developed pursuant to Section 028 in determining whether issuing long-term care insurance coverage to an applicant is appropriate.

05. **Use of Standards.** Producers shall use the suitability standards developed by the issuer in marketing long-term care insurance.

06. **Disclosure Form.** At the same time as the personal worksheet is provided to the applicant, the disclosure form entitled “Things You Should Know Before You Buy Long-Term Care Insurance” shall be provided. The form shall be in the format contained in the NAIC Model Regulations, Appendix C, in not less than twelve (12) point type.

07. **Rejection and Alternatives.** If the issuer determines that the applicant does not meet its financial
suitability standards, or if the applicant has declined to provide the information, the issuer may reject the application. In the alternative, the issuer shall send the applicant a letter similar to the NAIC Model Regulations, Appendix D. However, if the applicant has declined to provide financial information, the issuer may use some other method to verify the applicant’s intent. Either the applicant’s returned letter or a record of the alternative method of verification shall be made part of the applicant’s file.

08. Reporting. The issuer shall report annually to the director the total number of applications received from residents of this state, the number of those who declined to provide information on the personal worksheet, the number of applicants who did not meet the suitability standards, and the number of those who chose to confirm after receiving a suitability letter.

029. PROHIBITION AGAINST PREEXISTING CONDITIONS AND PROBATIONARY PERIODS IN REPLACEMENT POLICIES OR CERTIFICATES.

If a long-term care insurance policy or certificate replaces another long-term care policy or certificate, the replacing insurer shall waive any time periods applicable to preexisting conditions and probationary periods in the new long-term care policy for similar benefits to the extent that similar exclusions have been satisfied under the original policy.

030. AVAILABILITY OF NEW SERVICES OR PROVIDERS.

03. New Coverage. The insurer shall make the new coverage available in one of the following ways:

a. By adding a rider to the existing policy and charging a separate premium for the new rider based on the insured’s attained age;

b. The premium credits shall be based on premiums paid or reserves held for the prior policy or certificate.

c. By exchanging the existing policy or certificate for a new policy or certificate in which consideration for past insured status shall be recognized by setting the premium for the new policy or certificate at the issue age of the policy or certificate being exchanged. The cost of the new policy or certificate may recognize the difference in reserves between the new policy or certificate and the original policy or certificate; or

03. **Contingent Benefit.** If the offer required to be made under Section 41-4607, Idaho Code, is rejected, the insurer shall provide the contingent benefit upon lapse described in Section 032. Even if this offer is accepted for a policy with a fixed or limited premium paying period, the contingent benefit on lapse in Subsection 032.04.b.i. shall still apply. (3-30-07)

04. **Rejection of Offer.** After rejection of the offer required under Section 41-4607, Idaho Code, as it pertains to nonforfeiture benefits, for individual and group policies without nonforfeiture benefits issued after the effective date of Section 032, the insurer shall provide a contingent benefit upon lapse. This provision shall be in addition to the contingent benefit provided by Subsection 032.04.b. and where both are triggered, the benefit provided shall be at the option of the insured. (3-30-07)
c. On or before the effective date of a substantial premium increase as defined in Subsection 032.04.b., the insurer shall:

i. Offer to reduce policy benefits provided by the current coverage without the requirement of additional underwriting so that required premium payments are not increased; (3-30-07)

ii. Offer to convert the coverage to a paid-up status with a shortened benefit period in accordance with the terms of Subsection 032.04.e. This option may be elected at any time during the one hundred twenty (120) day period referenced in Subsection 032.04.b.; and

iii. Notify the policyholder or certificate holder that a default or lapse at any time during the one hundred twenty (120) day period referenced in Subsection 032.04.b. shall be deemed to be the election of the offer to convert in Subsection 032.04.c.ii. unless the automatic option in Subsection 032.04.d.iii. applies. (3-30-07)

d. On or before the effective date of a substantial premium increase as defined in Subsection 032.04.b.i., the insurer shall:

i. Offer to reduce policy benefits provided by the current coverage without the requirement of additional underwriting so that required premium payments are not increased; (3-30-07)

ii. Offer to convert the coverage to a paid-up status where the amount payable for each benefit is ninety percent (90%) of the amount payable in effect immediately prior to lapse times the ratio of the number of completed months of paid premiums divided by the number of months in the premium paying period. This option may be elected at any time during the one hundred twenty (120) day period referenced in Subsection 032.04.b.i.; and

iii. Notify the policyholder or certificate holder that a default or lapse at any time during the one hundred twenty (120) day period referenced in Subsection 032.04.b.i. shall be deemed to be the election of the offer to convert in Subsection 032.04.d.ii. above if the ratio is forty percent (40%) or more. (3-30-07)

e. Benefits continued as nonforfeiture benefits, including contingent benefits upon lapse, in accordance with Subsection 032.04.b. but not Subsection 032.04.b.i. are described in Subsection 032.04.e. (3-30-07)

i. For purposes of this Subsection 032.04.e., attained age rating is defined as a schedule of premiums starting from the issue date which increases age at least one percent (1%) per year prior to age fifty (50), and at least three percent (3%) per year beyond age fifty (50); (3-30-07)

ii. For purposes of Subsection 032.04.e., the nonforfeiture benefit shall be of a shortened benefit period providing paid-up long-term care insurance coverage after lapse. The same benefits (amounts and frequency in effect at the time of lapse but not increased thereafter) will be payable for a qualifying claim, but the lifetime maximum dollars or days of benefits shall be determined as specified in Subsection 032.04.e.iii.; (3-30-07)

iii. The standard nonforfeiture credit will be equal to one hundred percent (100%) of the sum of all premiums paid, including the premiums paid prior to any changes in benefits. The insurer may offer additional shortened benefit period options, as long as the benefits for each duration equal or exceed the standard nonforfeiture credit for that duration. However, the minimum nonforfeiture credit shall not be less than thirty (30) times the daily nursing home benefit at the time of lapse. In either event, the calculation of the nonforfeiture credit is subject to the limitation of Subsection 032.04.f.; (3-30-07)

iv. The nonforfeiture benefit shall begin not later than the end of the third year following the policy or certificate issue date. The contingent benefit upon lapse shall be effective during the first three (3) years as well as thereafter. (3-30-01)

v. Notwithstanding Subsection 032.04.e.iv. for a policy or certificate with attained age rating, the nonforfeiture benefit shall begin on the earlier of:
(1) The end of the tenth year following the policy or certificate issue date; or 

(2) The end of the second year following the date the policy or certificate is no longer subject to attained age rating. 

vi. Nonforfeiture credits may be used for all care and services qualifying for benefits under the terms of the policy or certificate, up to the limits specified in the policy or certificate. 

f. All benefits paid by the insurer while the policy or certificate is in premium paying status and in the paid-up status will not exceed the maximum benefits which would be payable if the policy or certificate had remained in premium paying status. 

g. There shall be no difference in the minimum nonforfeiture benefits as required under Section 032 for group and individual policies. 

h. For certificates issued on or after the effective date of this Section 032, under a group long-term care insurance policy as defined in Section 41-4603(4)(a), Idaho Code, which policy was in force at the time this rule became effective, the provisions of Section 032 shall not apply. 

i. The last sentence Subsection 032.03 and Subsection 032.04.b. and Subsection 032.04.d. shall apply to any long-term care insurance policy defined in Section 41-4603(4)(a), Idaho Code one (1) year after adoption. 

j. To determine whether contingent nonforfeiture upon lapse provisions are triggered under Subsection 032.04.b. or 032.04.b.i., a replacing insurer that purchased or otherwise assumed a block or blocks of long-term care insurance policies from another insurer shall calculate the percentage increase based on the initial annual premium paid by the insured when the policy was first purchased from the original insurer. 

k. A nonforfeiture benefit for qualified long-term care insurance contracts that are level premium contracts shall be offered that meets the following requirements: 

i. The nonforfeiture provision shall be appropriately captioned; 

ii. The nonforfeiture provision shall provide a benefit available in the event of a default on the payment of any premiums and shall state that the amount of the benefit may be adjusted subsequent to being initially granted only as necessary to reflect changes in claims, persistency and interest as reflected in changes in rates for premium paying contracts filed for review with the Director for the same contract form; and 

iii. The nonforfeiture provision shall provide at least one (1) of the following: 

(1) Reduced paid-up insurance; 

(2) Extended term insurance; 

(3) Shortened benefit period; or 

(4) Other similar offerings approved by the Director. 

033. STANDARDS FOR BENEFIT TRIGGERS. 

01. Conditions of Benefits Payment. A long-term care insurance policy shall condition the payment of benefits on a determination of the insured’s ability to perform activities of daily living and on cognitive impairment. Eligibility for the payment of benefits shall not be more restrictive than requiring either a deficiency in
the ability to perform not more than three (3) of the activities of daily living or the presence of cognitive impairment.

**02. Activities of Daily Living.** Insurers may use activities of daily living to trigger covered benefits in addition to those contained in Subsection 033.02 as long as they are defined in the policy. Activities of daily living shall include at least the following as defined in Section 010 and in the policy.

- a. Bathing;
- b. Continence;
- c. Dressing;
- d. Eating;
- e. Toileting; and
- f. Transferring.

**03. Additional Provisions.** An insurer may use additional provisions for the determination of when benefits are payable under a policy or certificate; however the provisions shall not restrict, and are not in lieu of, the requirements contained in Subsections 033.01 and 033.02.

**04. Determinations of Deficiency.** For purposes of Section 033 the determination of a deficiency shall not be more restrictive than:

- a. Requiring the hands-on assistance of another person to perform the prescribed activities of daily living; or
- b. If the deficiency is due to the presence of a cognitive impairment, supervision or verbal cueing by another person is needed in order to protect the insured or others.

(1-25-95)

(1-25-95)

06. Exceptions to Ceding or Assumption of Business. Except as provided in Subsection 028.02, a small employer carrier shall not cede or assume the entire insurance obligation and/or risk for a small employer health benefit plan unless the transaction includes the ceding to the assuming carrier of the entire class of business within Idaho which includes such health benefit plan. (1-25-95)

07. Requirements for Ceding Less Than an Entire Class of Business. A small employer carrier may cede less than an entire class of business to an assuming carrier if:

a. One (1) or more small employers in the class have exercised their right under contract to reject, either directly or by implication, the ceding of their health benefit plans to another carrier. In that instance, the transaction shall include each health benefit plan in the class of business except those health benefit plans for which a small employer has rejected the proposed cession; or (1-25-95)

a. Upon assumption of the health benefit plans, such health benefit plans shall be maintained as a separate class of business. During the fifteen-month (15) period following the assumption, each of the assumed small employer health benefit plans shall be transferred by the assuming small employer carrier into a single class of business operated by the assuming small employer carrier. The assuming small employer carrier shall select the class of business into which the assumed health benefit plans will be transferred in a manner such that the transfer results in the least possible change to the benefits and rating method of the assumed health benefit plans. (1-25-95)

b. The transfers authorized in Subsection 028.09.a. shall occur with respect to each small employer on the anniversary date of the small employer’s coverage, except that the period with respect to an individual small employer may be extended beyond its first anniversary date for a period of up to twelve (12) months if the anniversary date occurs within three (3) months of the date of assumption of the class of business. (1-25-95)
c. A small employer carrier making a transfer pursuant to Subsection 028.09.a. may alter the benefits of the assumed health benefit plans to conform to the benefits currently offered by the carrier in the class of business into which the health benefit plans have been transferred. (1-25-95)

d. The premium rate for an assumed small employer health benefit plan shall not be modified by the assuming small employer carrier until the health benefit plan is transferred pursuant to Subsection 028.09.a. Upon transfer, the assuming small employer carrier shall calculate a new premium rate for the health benefit plan from the rate manual established for the class of business into which the health benefit plan is transferred. In making such calculation, the risk load applied to the health benefit plan shall be no higher than the risk load applicable to such health benefit plan prior to the assumption. (1-25-95)

e. During the fifteen-month (15) period provided in this Subsection, the transfer of small employer health benefit plans from the assumed class of business in accordance with this subsection shall not be considered a violation of the first sentence of Section 41-4706(2), Idaho Code. (1-25-95)

10. Restrictions to Apply Eligibility Requirements by Assuming Carrier. An assuming carrier may not apply eligibility requirements, including minimum participation and contribution requirements, with respect to an assumed health benefit plan (or with respect to any health benefit plan subsequently offered to a small employer covered by such an assumed health benefit plan) that are more stringent than the requirements applicable to such health benefit plan prior to the assumption. (1-25-95)

11. Request for Extension of the Transition Period. The Director may approve a longer period of transition upon application of a small employer carrier. The application shall be made within sixty (60) days after the date of assumption of the class of business and shall clearly state the justification for a longer transition period. (1-25-95)

12. Additional Information. Nothing in Section 028 or in the Act is intended to:

029. -- 035. (RESERVED)

036. RESTRICTIONS RELATING TO PREMIUM RATES.

01. Separate Rate Manual for Each Class of Business. A small employer carrier shall develop a separate rate manual for each class of business. Base premium rates and new business premium rates charged to small employers by the small employer carrier shall be computed solely from the applicable rate manual developed pursuant to this subsection. To the extent that a portion of the premium rates charged by a small employer carrier is based on the carrier’s discretion, the manual shall specify the criteria and factors considered by the carrier in exercising such discretion. (1-25-95)

02. Requirements for Adjustments to Rating Method. A small employer carrier shall not modify the rating method used in the rate manual for a class of business until the change has been approved as provided in this subsection. The Director may approve a change to a rating method if the Director finds that the change is reasonable, actuarially appropriate, and consistent with the purposes of the Act and this rule. (1-25-95)

03. Information Required for Review of Modification of Rating Method. A carrier may modify the rating method for a class of business only with prior approval of the Director. A carrier requesting to change the rating method for a class of business shall make a filing with the Director at least thirty (30) days prior to the proposed date of the change. The filing shall contain at least the following information: (1-25-95)
a. The reasons the change in rating method is being requested; (1-25-95)
b. A complete description of each of the proposed modifications to the rating method; (1-25-95)
c. A description of how the change in rating method would affect the premium rates currently charged to small employers in the class of business, including an estimate from a qualified actuary of the number of groups or individuals (and a description of the types of groups or individuals) whose premium rates may change by more than ten percent (10%) due to the proposed change in rating method (not generally including increases in premium rates applicable to all small employers in a health benefit plan); (1-25-95)
d. A certification from a qualified actuary that the new rating method would be based on objective and credible data and would be actuarially sound and appropriate; and (1-25-95)
e. A certification from a qualified actuary that the proposed change in rating method would not produce premium rates for small employers that would be in violation of Section 41-4706, Idaho Code. (1-25-95)

04. Change in Rating Method. For the purpose of Section 036 a change in rating method shall mean:

a. A change in the number of case characteristics used by a small employer carrier to determine premium rates for health benefit plans in a class of business (a small employer should not use case characteristics other than age, individual tobacco use, geography or gender without prior approval of the Director); (7-1-98)
b. A change in the manner or procedures by which insureds are assigned into categories for the purpose of applying a case characteristic to determine premium rates for health benefit plans in a class of business; (1-25-95)
c. A change in the method of allocating expenses among health benefit plans in a class of business; or (1-25-95)
d. A change in a rating factor with respect to any case characteristic if the change would produce a change in premium for any small employer that exceeds ten percent (10%). (1-25-95)
e. For the purpose of Subsection 036.04, a change in a rating factor shall mean the cumulative change with respect to such factor considered over a twelve (12) month period. If a small employer carrier changes rating factors with respect to more than one case characteristic in a twelve (12) month period, the carrier shall consider the cumulative effect of all such changes in applying the ten percent (10%) test. (1-25-95)

05. Rate Manual to Specify Case Characteristics and Rate Factors to Be Applied. The rate manual developed pursuant to Subsection 036.01 shall specify the case characteristics and rate factors to be applied by the small employer carrier in establishing premium rates for the class of business. (1-25-95)

06. Case Characteristics Shall Be Applied in a Uniform Manner. A small employer carrier shall use the same case characteristics as defined in Section 41-4706(1)(h), Idaho Code, in establishing premium rates for each health benefit plan in a class of business and shall apply them in the same manner in establishing premium rates for each such health benefit plan. Case characteristics shall be applied without regard to the risk characteristics of a small employer. (3-15-02)

07. Rate Manual Must Clearly Illustrate Relationship Among Base Premium Rate and any Difference in New Business Rate. The rate manual developed pursuant to Subsection 036.01 shall clearly illustrate the relationship among the base premium rates charged for each health benefit plan in the class of business. If the new business premium rate is different than the base premium rate for a health benefit plan, the rate manual shall illustrate the difference. (1-25-95)

08. Differences in Premium Rates Must Reflect Reasonable and Objective Differences. Differences among base premium rates for health benefit plans shall be based solely on the reasonable and objective
differences in the design and benefits of the health benefit plans and shall not be based in any way on the actual or expected health status or claims experience of the small employer groups that choose or are expected to choose a particular health benefit plan. A small employer carrier shall apply case characteristics and rate factors within a class of business in a manner that assures that premium differences among health benefit plans for identical small employer groups vary only due to reasonable and objective differences in the design and benefits of the health benefit plans and are not due to the actual or expected health status or claims experience of the small employer groups that choose or are expected to choose a particular health benefit plan.

09. **Premium Rates to be Developed in Two Step Process.** The rate manual developed pursuant to Subsection 036.01 shall provide for premium rates to be developed in a two step process. In the first step, a base premium rate shall be developed for the small employer group without regard to any risk characteristics of the group. In the second step, the resulting base premium rate may be adjusted by a risk load, subject to the provisions of Section 41-4706, Idaho Code, to reflect the risk characteristics of the group.

10. **Exception to Application Fee, Underwriter Fee, or Other Fees.** Except as provided in Subsection 036.11, a premium charged to a small employer for a health benefit plan shall not include a separate application fee, underwriting fee, or any other separate fee or charge.

11. **Uniform Application of Fees.** A carrier may charge a separate fee with respect to a health benefit plan provided the fee is applied in a uniform manner to every health benefit plan in a class of business. All such fees are premium and shall be included in determining compliance with the Act and these rules.

12. **Uniform Allocation of Administration Expenses.** The rate manual developed pursuant to Subsection 036.01 shall describe the method of allocating administrative expenses to the health benefit plans in the class of business for which the manual was developed.

b. If, for any health benefit plan with respect to any rating period, the percentage change in the new business premium rate is less than or the same as the percentage change in the base premium rate, the change in the new business premium rate shall be deemed to be the change in the base premium rate for the purposes of Sections 41-4706(1)(c)(i), Idaho Code.

c. If, for any health benefit plan with respect to any rating period, the percentage change in the new business premium rate exceeds the percentage change in the base premium rate, the health benefit plan shall be considered a health benefit plan into which the small employer carrier is no longer enrolling new small employers for the purposes of Sections 41-4706(1)(c)(i), Idaho Code.

d. If, for any rating period, the change in the new business premium rate for a health benefit plan differs from the change in the new business premium rate for any other health benefit plan in the same class of business by more than twenty percent (20%), the carrier shall make a filing with the Director containing a complete explanation of how the respective changes in new business premium rates were established and the reason for the difference. The filing shall be made within thirty (30) days of the beginning of the rating period.

      i. The risk load applicable to the small employer during the previous rating period; and (1-25-95)

      ii. Fifteen percent (15%) (prorated for periods of less than one (1) year). (1-25-95)

17. **Rating Restrictions on Plans Where Carrier Is No Longer Enrolling New Business.** In the case of a health benefit plan into which a small employer carrier is no longer enrolling new small employers, a change in premium rate for a small employer shall produce a revised premium rate that is no more than the base premium rate for the small employer (given its present composition and as shown in the rate manual in effect for the small employer at the beginning of the previous rating period), multiplied by Subsections 036.17.a. and 036.17.b. below: (3-15-02)

   a. One (1) plus the lesser of:

      i. The change in the base rate; or (1-25-95)

      ii. The percentage change in the new business premium for the most similar health benefit plan into which the small employer carrier is enrolling new small employers. (1-25-95)

19. **Waiver Request for a Taft-Hartley Trust.** A representative of a Taft-Hartley trust (including a carrier upon the written request of such a trust) may file a written request with the Director for the waiver of application of the provisions of Section 41-4706(1), Idaho Code, with respect to such trust. (1-25-95)

029. -- 035. (RESERVED)

036. **RESTRICTIONS RELATING TO PREMIUM RATES.**

   01. **Rate Manual.** An individual carrier shall develop a rate manual for all individual business. Base premium rates and new business premium rates charged to eligible individuals by the individual carrier shall be computed solely from the applicable rate manual developed pursuant to this subsection. To the extent that a portion of the premium rates charged by an individual carrier is based on the carrier’s discretion, the manual shall specify the criteria and factors considered by the carrier in exercising such discretion. (7-1-98)

   02. **Requirements for Adjustments to Rating Method.** An individual carrier shall not modify the rating method used in the rate manual for its individual business until the change has been approved as provided in this paragraph. The Director may approve a change to a rating method if the Director finds that the change is reasonable, actuarially appropriate, and consistent with the purposes of the Act and this rule. (7-1-98)

   03. **Information Required for Review of Modification of Rating Method.** A carrier may modify the rating method for its individual business only with prior approval of the Director. A carrier requesting to change the rating method for its individual business shall make a filing with the Director at least thirty (30) days prior to the proposed date of the change. The filing shall contain at least the following information:

   a. The reasons the change in rating method is being requested; (7-1-98)

   b. A complete description of each of the proposed modifications to the rating method; (7-1-98)

   c. A description of how the change in rating method would affect the premium rates currently charged to eligible individuals in the health benefit plan, including an estimate from a qualified actuary of the number of individuals (and a description of the types of individuals) whose premium rates may change by more than ten percent (10%) due to the proposed change in rating method (not generally including increases in premium rates applicable to all individuals in a health benefit plan); (7-1-98)

   d. A certification from a qualified actuary that the new rating method would be based on objective and credible data and would be actuarially sound and appropriate; and (7-1-98)

   e. A certification from a qualified actuary that the proposed change in rating method would not produce premium rates for eligible individuals that would be in violation of Section 41-5206, Idaho Code. (7-1-98)

   04. **Change in Rating Method.** For the purpose of Section 036 a change in rating method shall mean:

   a. A change in the number of case characteristics used by an individual carrier to determine premium rates for health benefit plans in its individual business (an individual carrier shall not use case characteristics other than age, individual tobacco use, geography or gender without prior approval of the Director); (7-1-98)

   b. A change in the method of allocating expenses among health benefit plans; or (7-1-98)

   c. A change in a rating factor with respect to any case characteristic if the change would produce a
change in premium for any individual that exceeds ten percent (10%). (7-1-98)

d. For the purpose of Subsection 036.04, a change in a rating factor shall mean the cumulative change with respect to such factor considered over a twelve (12) month period. If an individual carrier changes rating factors with respect to more than one case characteristic in a twelve (12) month period, the carrier shall consider the cumulative effect of all such changes in applying the ten percent (10%) test. (7-1-98)

05. Rate Manual to Specify Case Characteristics and Rate Factors to be Applied. The rate manual developed pursuant to Subsection 036.01 shall specify the case characteristics and rate factors to be applied by the individual carrier in establishing premium rates for the health benefit plans. (7-1-98)

06. Case Characteristics Other Than Age, Individual Tobacco Use, Geography and Gender - Must Have Prior Approval of Director. An individual carrier may not use case characteristics other than those specified in Section 41-5206(1)(f), Idaho Code, without the prior approval of the Director. An individual carrier seeking such an approval shall make a filing with the Director for a change in rating method under Subsection 036.02. (3-15-02)

07. Case Characteristics Shall be Applied in a Uniform Manner. An individual carrier shall use the same case characteristics in establishing premium rates for each health benefit plan and shall apply them in the same manner in establishing premium rates for each such health benefit plan. Case characteristics shall be applied without regard to the risk characteristics of an eligible individual. (7-1-98)

08. Rate Manual Must Clearly Illustrate Relationship Among Base Premium Rate and Any Difference in New Business Rate. The rate manual developed pursuant to Subsection 036.01 shall clearly illustrate the relationship among the base premium rates charged for each health benefit plan. If the new business premium rate is different than the base premium rate for a health benefit plan, the rate manual shall illustrate the difference. (7-1-98)

09. Differences in Premium Rates Must Reflect Reasonable and Objective Differences. Differences among base premium rates for health benefit plans shall be based solely on the reasonable and objective differences in the design and benefits of the health benefit plans and shall not be based in any way on the actual or expected health status or claims experience of the eligible individual or groups that choose or are expected to choose a particular health benefit plan. An individual carrier shall apply case characteristics and rate factors within its health benefit plans in a manner that assures that premium differences among health benefit plans for identical individuals vary only due to reasonable and objective differences in the design and benefits of the health benefit plans and are not due to the actual or expected health status or claims experience of the individuals that choose or are expected to choose a particular health benefit plan. (3-15-02)

10. Premium Rates to be Developed in Two Step Process. The rate manual developed pursuant to Subsection 036.01 shall provide for premium rates to be developed in a two (2) step process. In the first step, a base premium rate shall be developed for the eligible individual without regard to any risk characteristics. In the second step, the resulting base premium rate may be adjusted by a risk load, subject to the provisions of Section 41-5206, Idaho Code, to reflect the risk characteristics of the individual. (7-1-98)

11. Exception to Application Fee, Underwriter Fee or Other Fees. Except as provided in Subsection 036.12, a premium charged to an individual for a health benefit plan shall not include a separate application fee, underwriting fee, or any other separate fee or charge. (7-1-98)

12. Uniform Application of Fees. A carrier may charge a separate fee with respect to a health benefit plan provided the fee is applied in a uniform manner to all health benefit plans. All such fees are premium and shall be included in determining compliance with the Act and this rule. (7-1-98)

13. Uniform Allocation of Administration Expenses. An individual carrier shall allocate administrative expenses to the basic, standard, and catastrophic health benefit plans on no less favorable of a basis than expenses are allocated to other health benefit plans. The rate manual developed pursuant to Subsection 036.01 shall describe the method of allocating administrative expenses to the health benefit plans for which the manual was developed. (7-1-98)
14. **Rate Manual to be Maintained for a Period of Six Years.** Each rate manual developed pursuant to Subsection 036.01 shall be maintained by the carrier for a period of six (6) years. Updates and changes to the manual shall be maintained with the manual. (7-1-98)

15. **Rate Manual and Practices Must Comply With Guidelines Issued by Director.** The rate manual and rating practices of an individual carrier shall comply with any guidelines issued by the Director. (7-1-98)

16. **Application of Restrictions Related to Changes in Premium Rates.** The restrictions related to changes in premium rates are set forth in Section 41-5206(1)(b), Idaho Code, and shall be applied as follows:

   a. An individual carrier shall revise its rate manual each rating period to reflect changes in base premium rates and changes in new business premium rates. (7-1-98)

   b. If, for any health benefit plan with respect to any rating period, the percentage change in the new business premium rate is less than or the same as the percentage change in the base premium rate, the change in the new business premium rate shall be deemed to be the change in the base premium rate for the purposes of Sections 41-5206(1)(b)(i) and 41-5206(1)(d)(i), Idaho Code. (4-5-00)

   c. If for any health benefit plan with respect to any rating period, the percentage change in the new business premium rate exceeds the percentage change in the base premium rate, the health benefit plan shall be considered a health benefit plan into which the individual carrier is no longer enrolling new eligible individuals for the purposes of Sections 41-5206(1)(b)(i), Idaho Code. (3-15-02)

   d. If, for any rating period, the change in the new business premium rate for a health benefit plan differs from the change in the new business premium rate for any other health benefit plan by more than twenty percent (20%), the carrier shall make a filing with the Director containing a complete explanation of how the respective changes in new business premium rates were established and the reason for the difference. The filing shall be made within thirty (30) days of the beginning of the rating period. (7-1-98)

   e. An individual carrier shall keep on file for a period of at least six (6) years the calculations used to determine the change in base premium rates and new business premium rates for each health benefit plan for each rating period. (7-1-98)

17. **Change in Premium Rate.** Except as provided in Subsection 036.18, a change in premium rate for an eligible individual shall produce a revised premium rate that is no more than the following:

   a. The base premium rate for the eligible individual, given its present composition, (as shown in the rate manual as revised for the rating period), multiplied by:

   b. One (1) plus the sum of:

   i. The risk load applicable to the eligible individual during the previous rating period; and

   ii. Fifteen percent (15%) (prorated for periods of less than one (1) year). (7-1-98)

18. **Rating Restrictions on Plans Where Carrier Is No Longer Enrolling New Business.** In the case of a health benefit plan into which an Individual carrier is no longer enrolling new Individuals, a change in premium rate for an Individual shall produce a revised premium rate that is no more than the base premium rate for the Individual (given its present composition and as shown in the rate manual in effect for the Individual at the beginning of the previous rating period), multiplied by Subsection 036.18.a. and 036.18.b.;

   a. One (1) plus the lesser of:

   i. The change in the base rate; or
ii. The percentage change in the new business premium for the most similar health benefit plan into which the Individual carrier is enrolling new Individuals. (7-1-98)

b. One (1) plus the sum of:

i. The risk load applicable to the Individual during the previous rating period; and (7-1-98)

ii. Fifteen percent (15%) (prorated for periods of less than one (1) year). (7-1-98)

19. Limitations on Revised Premium Rate. Notwithstanding the provisions of Subsections 036.17 and 036.18, a change in premium rate for an Individual shall not produce a revised premium rate that would exceed the limitations on rates provided in Section 41-5206, Idaho Code. (7-1-98)

At the carrier’s option, the carrier shall seek to recover any amounts of claims paid in excess of premiums paid. The applicable contract or coverage shall be considered null and void. (7-1-98)

05. Coverage Rescinded for Fraud or Misrepresentation. 01. Market Status. Each carrier providing health benefit plans in this state shall make a filing to the Director if it intends to continue or discontinue to operate as an individual carrier in this state under the terms of this rule.

02. Restrictions as to the Offering of Insurance. Subject to Subsection 081.03, a carrier shall not offer health benefit plans to individuals, or continue to provide coverage under health benefit plans previously issued to individuals in this state, unless the filing provided pursuant to Subsection 081.01 indicates that the carrier intends to operate as a individual carrier in this state.

03. Specific Compliance Requirements. If the filing made pursuant Subsection 081.01 indicates that a carrier does not intend to operate as a individual carrier in this state, the carrier may continue to provide coverage under health benefit plans previously issued to individuals in this state only if the carrier complies with the following provisions:

   a. The carrier complies with the requirements of Title 41, Chapters 21, 42, and 52, Idaho Code, (other
than Sections 41-5209, 41-5210, and 41-4711, Idaho Code) with respect to each of the health benefit plans previously issued to individuals by the carrier. (3-15-02)

b. The carrier provides coverage to each new dependent to a health benefit plan previously issued to an individual by the carrier. The provisions of the Act (other than Sections 41-5209, 41-5210, and 41-4711, Idaho Code) and this rule shall apply to the coverage issued to such new dependents. (7-1-98)

c. The carrier complies with the requirements of Section 067 of this rule as they apply to individuals whose coverage has been terminated by the carrier and to individuals whose coverage has been limited or restricted by the carrier. (7-1-98)

04. Not Eligible for Reinsurance Program. A carrier that continues to provide coverage pursuant to this subsection shall not be eligible to participate in the reinsurance program established under Sections 41-4711 and 41-5505, Idaho Code. (3-15-02)

05. Precluded From Operating in Idaho. If the filing made pursuant Subsection 081.01 indicates that a carrier does not intend to operate as an individual carrier in this state, the carrier shall be precluded from operating as an individual carrier in this state (except as provided for in Subsections 081.03.a. through 081.03.c.) for a period of five (5) years from the date of the filing. Upon a written request from such a carrier, the Director may reduce the period provided for in the previous sentence if the Director finds that permitting the carrier to operate as an individual carrier would be in the best interests of the individuals in the state. (3-15-02)

007. -- 009. (RESERVED)
010. DEFINITIONS.
As used in this rule, these words and terms have the following meanings, unless the context clearly indicates otherwise:

01. Allowable Expense. “Allowable expense” means any health care expense including coinsurance or copayments, and without reduction for any applicable deductible that is covered in full or in part by any of the plans covering the person. If a plan is advised by a covered person that all plans covering the person are high-deductible health plans and the person intends to contribute to a health savings account established in accordance with Section 223 of the Internal Revenue Code of 1986, the primary high-deductible health plan’s deductible is not an allowable expense, except for any health care expense incurred that may not be subject to the deductible as described in Section 223 (c) (2) (C) of the Internal Revenue Code of 1986. An expense that a provider by law or in accordance with contractual agreement is prohibited from charging a covered person is not an allowable expense. An expense or a portion of an expense that is not covered by any of the plans is not an allowable expense.

a. The following are examples of expenses or services that are not an allowable expense:

i. If a covered person is confined in a private hospital room, the difference between the cost of a semi-private room in the hospital and the private room (unless the patient’s stay in the private hospital room is medically necessary in terms of generally accepted medical practice, or one of the plans provides coverage for private hospital rooms) is not an allowable expense.

ii. If a person is covered by two (2) or more plans that compute their benefit payments on the basis of usual and customary fees, or relative value schedule reimbursement or other similar reimbursement methodology, any amount charged by the provider in excess of the highest reimbursement amount for a specified benefit is not an allowable expense.

iii. If a person is covered by two (2) or more plans that provide benefits or services on the basis of negotiated fees, any amount in excess of the highest of the negotiated fees is not an allowable expense.

iv. If a person is covered by one plan that calculates its benefits or services on the basis of usual and customary fees or relative value schedule reimbursement or other similar reimbursement methodology and another plan that provides its benefits or services on the basis of negotiated fees, the primary plan’s payment arrangement shall be the allowable expense for all plans. However, if the provider has contracted with the secondary plan to provide the benefit or service for a specific negotiated fee or payment amount that is different than the primary plan’s payment arrangement and if the provider’s contract permits, that negotiated fee or payment shall be the allowable expense used by the secondary plan to determine its benefits.

b. The definition of the “allowable expense” may exclude certain types of coverage or benefits such as dental care, vision care, prescription drug or hearing aids. A plan that limits the application of COB to certain coverages or benefits may limit the definition of Allowable Expenses in its contract to expenses that are similar to the expenses that it provides. When COB is restricted to specific coverages or benefits in a contract the definition of “Allowable Expense” shall include similar expenses to which COB applies.

c. When a plan provides benefits in the form of service, the reasonable cash value of each service will be considered as an allowable expense and a benefit paid.

d. The amount of the reduction may be excluded from allowable expense when a covered person’s benefits are reduced under a primary plan:

i. Because the covered person does not comply with the plan provisions concerning second surgical opinions or precertification of admissions or services:

ii. Because the covered person has a lower benefit because the covered person did not use a preferred provider.

02. Birthday. “Birthday” refers only to month and day in a calendar year and does not include the year in which the individual is born.
03. **Claim.** “Claim” means a request that benefits of a plan be provided or paid. The benefits claimed may be in the form of:

a. Services (including supplies);

b. Payment for all or a portion of the expenses incurred;

c. A combination of Paragraphs 010.03.a. and 010.03.b. of this chapter; or

d. An indemnification.

04. **Closed Panel Plan.** “Closed panel plan” means a plan that provides health benefits to covered persons primarily in the form of services through a panel of providers that have contracted with or are employed by the plan, and that excludes benefits for services provided by other providers, except in cases of emergency or referral by a panel member.

05. **Consolidated Omnibus Budget Reconciliation Act of 1985.** “Consolidated Omnibus Budget Reconciliation Act of 1985” or “COBRA” means coverage provided under a right of continuation pursuant to federal law.

06. **Coordination of Benefits.** “Coordination of benefits” (COB) means a provision establishing an order in which plans pay their claims, and permitting secondary plans to reduce their benefits so that the combined benefits of all plans do not exceed total allowable expenses.

07. **Custodial Parent.** “Custodial parent” means the parent awarded custody by a court decree. In the absence of a court decree, the parent with whom the child resides more than one half of the calendar year without regard to any temporary visitation.

08. **Group-Type Contract.** Group-type contract means a contract that is not available to the general public and is obtained and maintained only because of membership in or a connection with a particular organization or group, including blanket coverage. Group-type contract does not include an individually underwritten and issued guaranteed renewable policy even if the policy is purchased through payroll deduction at a premium savings to the insured since the insured would have the right to maintain or renew the policy independently of continued employment with the employer.

09. **High-deductible Health Plan.** "High-deductible health plan" has the meaning given the term under Section 223 of the Internal Revenue Code of 1986, as amended by the Medicare Prescription Drug, Improvement and Modernization Act of 2003.

10. **Hospital Indemnity Benefits.** “Hospital indemnity benefits” means the benefits not related to expenses incurred. The term does not include reimbursement-type benefits even if they are designed or administered to give the insured the right to elect indemnity-type benefits at the time of claim.

11. **Plan.** “Plan” means a form of coverage with which coordination is allowed. Separate parts of a plan for members of a group that are provided through alternative contracts that are intended to be part of a coordinated package of benefits are considered one plan and there is no COB among the separate parts of the plan. If a plan coordinates benefits, its contract shall state the types of coverage that will be considered in applying the COB provision of that contract. Whether the contract uses the term “plan,” or some other term such as “program,” the contractual definition may be no broader than the definition of “plan” in Subsection 010.11. The definition of “plan” in the model COB provision in the National Association of Insurance Commissioners Model Coordination of Benefits Contract Provisions is an example. The National Association of Insurance Commissioners Model Coordination of Benefits Contract Provisions can be found on the Department of Insurance Internet website, Consumer Services link.

a. Plan includes:
i. Group and nongroup insurance contracts and subscriber contracts; (3-30-07)
ii. Uninsured group or group-type coverage arrangements; (3-30-07)
iii. Group and nongroup coverage through closed panel plans; (3-30-07)
iv. Group-type contracts; (3-30-07)
v. The medical care components of long-term care contracts, such as skilled nursing care; (3-30-07)
vi. Medicare or other governmental benefits, except as provided in Subparagraph 010.11.b.ix. of this chapter. That part of the definition of plan may be limited to the hospital, medical and surgical benefits of the governmental program. (3-30-07)
vii. The medical benefits coverage in automobile “no fault” and traditional automobile “fault” type contracts. No plan is required to coordinate benefits provided that it pays benefits as a primary plan. If a plan coordinates benefits, it shall do so in compliance with the provisions of this chapter. (3-30-07)
viii. Group and nongroup insurance contracts and subscriber contracts that pay or reimburse for the cost of dental or vision care. (6-30-19)

b. Plan shall not include:
   i. Hospital indemnity coverage or other fixed indemnity coverage; (3-30-07)
   ii. School accident-type coverages, such as contracts that cover students for accidents only, including athletic injuries, either on a twenty-four (24) hour basis or on a “to and from school” basis; (3-30-07)
   iii. Specified disease or specified accident coverage; (3-30-07)
   iv. Accident only coverage; (3-30-07)
   v. Benefits provided in long-term care insurance policies for non-medical service; for example, personal care, adult daycare, homemaker services, assistance with activities of daily living, respite care, and custodial care or for contracts that pay a fixed daily benefit without regard to expenses incurred or the receipt of services; (3-30-07)
   vi. Limited benefit health coverage as defined in IDAPA 18.04.08, “Individual Disability and Group Supplemental Disability Insurance Minimum Standards Rule,” Sections 012 and 029; (3-30-07)
   vii. Medicare supplement policies; (3-30-07)
   viii. A state plan under Medicaid; or (3-30-07)
   ix. A governmental plan which, by law, provides benefits that are in excess of those of any private insurance plan or other nongovernmental plan. (7-1-98)

12. **Policyholder.** “Policyholder” means the primary insured named in a non-group insurance policy. (3-30-07)

13. **Primary Plan.** “Primary plan” means a plan whose benefits for a person’s health care coverage must be determined without taking the existence of any other plan into consideration. A plan is a primary plan if;
   a. The plan either has no order of benefit determination rules, or its rules differ from those permitted by this rule; or (3-30-07)
b. All plans that cover the person use the order of benefit determination required by this rule, and under those rules the plan determines its benefits first. (3-30-07)

14. Secondary Plan. “Secondary plan” means a plan that is not a primary plan. (3-30-07)

011. -- 020. (RESERVED)

021. COB CONTRACT PROVISION.

01. Coordination of Benefits, “Model Coordination of Benefits Contract Provisions.” The National Association of Insurance Commissioners Model Coordination of Benefits Contract Provisions contains a model COB provision for use in contracts. The use of this model COB provision is subject to the provisions of Subsections 021.02 through 021.04, of this chapter, and the provisions of Section 022 of this chapter. The National Association of Insurance Commissioners Model Coordination of Benefits Contract Provisions is incorporated by reference and can be found on the Department of Insurance website. (3-30-07)

02. Coordination of Benefits Attachment “National Association of Insurance Commissioners Consumer Explanatory Booklet.” The National Association of Insurance Commissioners Consumer Explanatory Booklet is a plain language description of the COB process that explains to the covered person how health plans will implement coordination of benefits. It is not intended to replace or change the provisions that are set forth in the contract. Its purpose is to explain the process by which two (2) or more plans will pay for or provide benefits. The National Association of Insurance Commissioners Consumer Explanatory Booklet is incorporated by reference and can be found on the Department of Insurance website. (3-30-07)

03. Application of Requirements. The COB provision contained in the the National Association of Insurance Commissioners Model Coordination of Benefits Contract Provisions and the plain language explanation in the National Association of Insurance Commissioners Consumer Explanatory Booklet do not have to use the specific words and format shown in the National Association of Insurance Commissioners Model Coordination of Benefits Contract Provisions or the National Association of Insurance Commissioners Consumer Explanatory Booklet. Changes may be made to fit the language and style of the rest of the contract or to reflect differences among plans that provide services, that pay benefits for expenses incurred and that indemnify. No substantive changes are permitted. (3-30-07)

04. Limits on COB Provisions. A COB provision may not be used that permits a plan to reduce benefits on the basis that:

a. Another plan exists and the covered person did not enroll in that plan; (7-1-98)

b. A person is or could have been covered under another plan, except with respect to Part B of Medicare; or (7-1-98)

c. A person has elected an option under another plan providing a lower level of benefits than another option that could have been elected. (7-1-98)

05. “Always Excess” or “Always Secondary.” No plan may contain a provision that its benefits are “always excess” or “always secondary” except in accordance with this rule. (3-30-07)

06. Closed Panel Provider. Under the terms of a closed panel plan, benefits are not payable if the covered person does not use the services of a closed panel provider. In most instances, COB does not occur if a covered person is enrolled in two (2) or more closed panel plans and obtains services from a provider in one of the closed panel plans because the other closed panel plan (the one whose providers were not used) has no liability. However, COB may occur during the plan year when the covered person receives emergency services that would have been covered by both plans. Then the secondary plan shall use the provisions of Section 023 of this chapter to determine the amount it should pay for the benefit. (3-30-07)

07. Plan Requirements. No plan may use a COB provision, or any other provision that allows it to reduce its benefits with respect to any other coverage its insured may have that does not meet the definition of plan
022. RULES FOR COORDINATION OF BENEFITS.

01. Order of Benefit Payments. When a person is covered by two (2) or more plans, the rules for determining the order of benefit payments are as follows:

a. The primary plan shall pay or provide its benefits as if the secondary plan or plans did not exist.

b. If the primary plan is a closed panel plan and the secondary plan is not a closed panel plan, the secondary plan shall pay or provide benefits as if it were the primary plan when a covered person uses a non-panel provider, except for emergency services or authorized referrals that are paid or provided by the primary plan.

c. When multiple contracts providing coordinated coverage are treated as a single plan under this rule, Section 022 of this chapter applies only to the plan as a whole, and coordination among the component contracts is governed by the terms of the contracts. If more than one (1) carrier pays or provides benefits under the plan, the carrier designated as primary within the plan shall be responsible for the plan’s compliance with this rule.

d. If a person is covered by more than one (1) secondary plan, the order of benefit determination requirements of this rule decide the order in which secondary plan benefits are determined in relation to each other. Each secondary plan shall take into consideration the benefits of the primary plan or plans and the benefits of any other plan, which, under the requirements of this rule, has its benefits determined before those of that secondary plan.

02. Consistent Order of Benefit Provisions. Except as provided in Paragraph 022.02.a. of this chapter, a plan that does not contain order of benefit determination provisions that are consistent with this rule is always the primary plan unless the provisions of both plans, regardless of the provisions of Subsection 022.02 of this chapter, state that the complying plan is primary.

a. Coverage that is obtained by virtue of membership in a group and designed to supplement a part of a basic package of benefits may provide that the supplementary coverage shall be excess to any other parts of the plan provided by the contract holder. Examples of these types of situations are major medical coverages that are superimposed over base plan hospital and surgical benefits, and insurance type coverages that are written in connection with a closed panel plan to provide out-of-network benefits.

b. A plan may take into consideration the benefits paid or provided by another plan only when, under the requirements of this rule, it is secondary to that other plan.

03. Order of Benefit Determination. Each plan determines its order of benefits using the first of the following rules that applies.

a. Non-dependent or dependent. The plan that covers the person other than as a dependent, for example, as an employee, member, subscriber, policyholder or retiree, is the primary plan and the plan that covers the person as a dependent is the secondary plan. However, if the person is a Medicare beneficiary and, as a result of the provisions of Title XVIII of the Social Security Act and implementing rules, Medicare is:

i. Secondary to the plan covering the person as a dependent; and

ii. Primary to the plan covering the person as other than a dependent (e.g. a retired employee), then the order of benefits is reversed so that the plan covering the person as an employee, member, subscriber, policyholder or retiree, is the secondary plan and the other plan covering the person as a dependent is the primary plan.

b. Dependent Child covered under more than one plan. Unless there is a court decree stating otherwise, plans covering a dependent child shall determine the order of benefits as follows:
i. For a dependent child whose parents are married or are living together, whether or not they have ever been married:

1. The plan of the parent whose birthday falls earlier in the calendar year is primary plan; or
2. If both parents have the same birthday, the plan that has covered the parent longest is the primary plan. (3-30-07)

ii. For a dependent child whose parents are divorced or separated or are not living together, whether or not they have ever been married:

1. If a court decree states that one of the parents is responsible for the dependent child’s health care expenses or health care coverage and the plan of that parent has actual knowledge of those terms, that plan is primary. If the parent with responsibility has no health care coverage for the dependent child’s health care expenses, but that parent’s spouse does, that parent’s spouse’s plan is the primary plan. This shall not apply with respect to any plan year during which benefits are paid or provided before the entity has actual knowledge of the court decree provisions; (3-30-07)
2. If a court decree states that both parents are responsible for the dependent child’s health care expenses or health care coverage, the provisions of Subparagraph 022.03.b.i. of this chapter shall determine the order of benefits; (3-30-07)
3. If a court decree states that the parents have joint custody without specifying that one (1) parent has responsibility for the health care expenses or health care coverage of the dependent child, the provisions of Subparagraph 022.03.b.i. of this chapter shall determine the order of benefits, or
4. If there is no court decree allocating responsibility for the child’s health care expenses or health care coverage, the order of benefits for the child are as follows:
   a. The plan covering the custodial parent; (3-30-07)
   b. The plan covering the custodial parent’s spouse; (3-30-07)
   c. The plan covering the noncustodial parent; and then
   d. The plan covering the noncustodial parent’s spouse. (3-30-07)
5. For a dependent child covered under more than one plan of individuals who are not the parents of the child, the order of benefits shall be determined, as applicable under Subparagraph 022.03.b.i. or 022.03.b.ii. of this chapter as if those individuals were parents of the child. (3-30-07)
6. For a dependent child who has coverage under either or both parents' plans and also has his or her own coverage as a dependent under a spouse's plan, the provisions of Paragraph 022.02.e. apply. In the event the dependent child's coverage under the spouse's plan began on the same date as the dependent child's coverage under either or both parents' plans, the order of benefits shall be determined by applying the birthday rule in Subparagraph 022.02.b.i. to the dependent child's parent(s) and the dependent's spouse. (6-30-19)

c. Active Employee or Retired or Laid-Off Employee. The plan that covers a person as an active employee; that is, an employee who is neither laid-off nor retired or as a dependent of an active employee is the primary plan. The plan covering that same person as a retired or laid-off employee or as a dependent of a retired or laid-off employee is the secondary plan. If the other plan does not have this rule and if, as a result, the plans do not agree on the order of benefits, this rule is ignored. Coverage provided an individual as a retired worker and as a dependent of that individual’s spouse as an active worker will be determined under Paragraph 022.03.a. of this chapter. (3-30-07)

d. Continuation coverage. If a person whose coverage is provided pursuant to COBRA or under a right of continuation pursuant to federal or state law is covered under another plan, the plan covering the person as an
employee, member, subscriber or retiree or covering the person as a dependent of an employee, member, subscriber or retiree is the primary plan and the plan covering that same person pursuant to COBRA or under a right of continuation pursuant to state or other federal law is the secondary plan. If the other plan does not have this rule and if, as a result, the plans do not agree on the order of benefits, this rule is ignored. This provision does not apply if the rule in Paragraph 022.03.a. of this chapter can determine the order of benefits. (3-30-07)

e. Longer/shorter length of coverage. If the preceding rules do not determine the order of benefits, the plan that covered the person for the longer period of time is the primary plan and the plan that covered the person for a shorter period of time is the secondary plan. (3-30-07)

   i. To determine the length of time a person has been covered under a plan, two (2) successive plans shall be treated as one (1) if the covered person was eligible under the second plan within twenty-four (24) hours after the coverage under the first plan ended. (3-30-07)

   ii. The start of a new plan does not include:

      (1) A change in the amount or scope of a plan’s benefits;

      (2) A change in the entity that pays, provides or administers the plan’s benefits; or

      (3) A change from one type of plan to another such as from a single employer plan to a multiple employer plan. (3-30-07)

   iii. The person’s length of time covered under a plan is measured from the person’s first date of coverage under that plan. If that date is not readily available for a group plan, the date the person first became a member of the group shall be used as the date from which to determine the length of time the person’s coverage under the present plan has been in force. (7-1-98)

f. If none of the preceding rules determines the order of benefits, the allowable expenses shall be shared equally between the plans. (3-30-07)

023. **PROCEDURE TO BE FOLLOWED BY SECONDARY PLAN.**

In determining the amount to be paid by the secondary plan on a claim, should the plan wish to coordinate benefits, the secondary plan shall calculate the benefits it would have paid on the claim in the absence of other health care coverage and apply that calculated amount to any allowable expense under its plan that is unpaid by the primary plan. The secondary plan may reduce its payment by the amount so that, when combined with the amount paid by the primary plan, the total benefits paid or provided by all plans for the claim do not exceed one hundred percent (100%) of the total allowable expense for that claim. In addition, the secondary plan shall credit to its plan deductible any amounts it would have credited to its deductible in the absence of other benefit care coverage. (6-30-19)

024. **NOTICE TO COVERED PERSONS.**

A plan shall, in its explanation of benefits provided to covered persons, include the following language: "If you are covered by more than one (1) health benefit plan, you should file all your claims with each plan." (6-30-19)

025. **MISCELLANEOUS PROVISIONS.**

01. **Benefits in the Form of Services.** A secondary plan that provides benefits in the form of services may recover the reasonable cash value of the services from the primary plan, to the extent that benefits for the services are covered by the primary plan and have not already been paid or provided by the primary plan. Nothing in this provision shall be interpreted to require a plan to reimburse a covered person in cash for the value of services provided by a plan which provides benefits in the form of services. (7-1-98)

02. **Complying Plan Versus Noncomplying Plan.** A plan with order of benefit determination rules that comply with this rule (complying plan) may coordinate its benefits with a plan that is “excess” or “always secondary” or that uses order of benefit determination rules that are inconsistent with those contained in this rule (noncomplying plan) on the following basis:

(7-1-98)
a. If the complying plan is the primary plan, it shall pay or provide its benefits first; (7-1-98)

b. If the complying plan is the secondary plan, it shall pay or provide its benefits first, but the amount of the benefits payable shall be determined as if the complying plan were the secondary plan. In such a situation, the payment shall be the limit of the complying plan’s liability; and (3-30-07)

c. If the noncomplying plan does not provide the information needed by the complying plan to determine its benefits within a reasonable time after it is requested to do so, the complying plan shall assume that the benefits of the noncomplying plan are identical to its own and shall pay its benefits accordingly. If, within two (2) years of payment, the complying plan receives information as the actual benefits of the noncomplying plan, it shall adjust payments accordingly. (7-1-98)

i. If the noncomplying plan reduces its benefits so that the covered person receives less in benefits than the covered person would have received had the complying plan paid or provided its benefits as the secondary plan and the noncomplying plan paid or provided its benefits as the primary plan, and governing state law allows the right of subrogation set forth below, then the complying plan shall advance to the covered person or on behalf of the covered person an amount equal to the difference. (3-30-07)

ii. In no event shall the complying plan advance more than the complying plan would have paid had it been the primary plan less any amount it previously paid for the same expense or services. In consideration of the advance, the complying plan shall be subrogated to all rights of the covered person against the noncomplying plan. The advance by the complying plan shall also be without prejudice to any claim it may have against the noncomplying plan in the absence of such subrogation. (7-1-98)

03. COB Versus Subrogation. COB differs from subrogation. Provisions for one may be included in health care benefits contracts without compelling the inclusion or exclusion of the other. (3-30-07)

04. Timely Payment of Benefits. If the plans cannot agree on the order of benefits within thirty (30) calendar days after the plans have received all of the information needed to pay the claim, the plans shall immediately pay the claim in equal shares and determine their relative liabilities following payment, except that no plan shall be required to pay more than it would have paid had it been primary. (7-1-98)

011. TRACT INDEXES OR ABSTRACT RECORDS.
For clarification and guidance, the following is considered to be the correct definition or meaning of “a complete set of tract indexes or abstract records” as used in Section 41-2702, Idaho Code: A set of indexes from which the record ownership and condition of title to all land within a particular county can be traced and ascertained. (4-2-08)
012. INDEX COMPONENTS.

01. Basic Component Parts. The basic component parts of such a set of indexes are:

a. An index or indexes, to be complete from the inception of title from the United States of America, in which the reference is to geographic subdivisions of land, classified according to legal description, (as distinguished from an index or indexes in which the reference is to the name of the title holder, commonly called a grantor-grantee index) wherein notations of or references to:

i. All filed or recorded instruments legally affecting title to particularly described parcels of real property and which impart constructive notice under the recording laws; and

ii. All judicial proceedings in the particular county legally affecting title to particularly described parcels of real property are posted, filed, entered or otherwise included in that part of the indexing system which designates the particular parcel of real property; provided, no reference need be made in such index to any judicial proceeding which is referred to or noted in the name index defined in Subsection 012.01.b. of these rules.

iii. No requirement is hereby made for taxes and assessments, water or otherwise, or for water and mineral rights, land use regulations, and zoning ordinances to be made a part of the plant records.

b. A name index or indexes wherein notations of or references to all instruments, proceedings and other matters of record in the particular county which legally affects or may legally affect title to all real property (as distinguished from particularly described parcels of real property) of the person, partnership, corporation or other entity named therein and affected thereby, including guardianships, absentee, bankruptcies, receiverships, divorces and mental illness matters, if available, are posted, filed, entered or otherwise included in that part of the indexing system which designates the same.

02. Index Maintenance. The indexes prescribed in Subsection 012.01 may be maintained in bound books, looseleaf books, jackets or folders, on card files, or in any other form or system, whether manual, mechanical, electronic or otherwise; or in any combination of such forms or systems.

03. Subdivision or Refinement. The extent to which the prescribed indexes shall be subdivided or refined is dependent upon all relevant circumstances. The population of the particular county, the extent to which land within the particular county has been subdivided and passed into separate ownerships, and all other factors which are reasonably related to the purpose of the statutory requirements are entitled to consideration in such determination.

04. Discarding or Destroying. Any requirement set forth in this rule to the contrary notwithstanding, it shall be permissible to discard and destroy prior index books, jackets, folders, cards, photoprints or files pertaining to recorded instruments affecting title to particularly described parcels of real property once the titles to such particularly described parcels have been searched, examined and a policy of owner’s title insurance issued thereon. The discarding and destruction of prescribed index components herein provided for is applicable only when a permanent copy of the search notes, examiner’s opinion and issued policy is retained in lieu of the discarded and destroyed index components.

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to authority granted by Chapter 27 of Title 41, Idaho Code, Chapter 52 of Title 67, Idaho Code, and Section 41-211, Idaho Code. (7-1-93)

001. TITLE AND SCOPE.
The purpose of these rules is to adopt with reference to title insurance and title insurance agents and escrow officers rules governing rates charged for various services and insurability on certain matters; rules governing procedural methods as to the way the title insurers, title insurance agents and their officers are to perform certain actions and rules governing actions of title insurance agents and employees acting as escrow agents. The purpose is to further protect consumers of title insurance industry products by ensuring that consumers are not injured by delivery of certain funds or documents (for recordation or otherwise) from an escrow without prior receipt of “collected funds” by the escrow agent and to preserve the financial stability of title insurers and title insurance agents. (7-1-93)

002. -- 003. (RESERVED)

004. PREMIUM RATES AND THEIR APPLICATION.

01. Schedule of Premium Rates. Each title insurer shall file its schedule of premium rates (including both the taxable risk portion and the service portion) for title insurance charged the public for all policies, which premium rates shall commence with the lowest rate and shall advance by one thousand dollars ($1,000) increments. The rate schedule shall include owner’s, standard mortgagee and extended coverage mortgagee policies, and may include other rates. In addition, any charges made for special endorsements shall be listed and the type of policy to which applicable. Filed rates shall provide that where a preliminary report is issued, the order for the policy may be canceled prior to closing. The applicant may be required to pay a cancellation fee. The premium rates for policies shall only include title examination and issuance of title insurance which shall be deemed to include any preliminary report, commitment to insure, binder or similar report (herein collectively called preliminary report) and the policy subsequently issued thereon. If more than one (1) chain of title is involved, an additional charge shall be made for each additional chain. An additional chain is one involving property in a different block or section or under a different ownership within the last five (5) years. (3-28-18)

02. Issuing Binders, Commitments or Preliminary Reports. No title insurer or title insurance agent shall issue a title insurance binder, commitment or preliminary report without an order. (6-30-19)

03. Amount of Owner's Policy. An owner’s policy shall be issued for not less than (a) the amount of the current sales price of the land and any existing improvements appurtenant thereto, or (b) if no sale is being made, the amount equal to the value of the land and any existing improvements at the time of the issuance of the policy. If improvements are contemplated, the amount may include the cost of such improvements immediately contemplated to be erected thereon with a following pending improvement clause set forth in Schedule B of said policy and the full premium collected, which clause reduces the policy amount to the extent the improvements are not completed. The amount of policies covering leasehold estates for a term of fifty years or more shall be for the full value of the land and existing improvements, and for less than fifty years shall be for an amount at the option of the insured based on (i) the total amount of the rentals payable for the primary term but not less than five (5) years, or (ii) the full value of the land and existing improvements together with any improvements immediately contemplated to be erected thereon. The amount of policies insuring contract purchasers shall be for the full value of the principal payments. Insurance of lesser estates shall be written for the amount of the value of the estate at the time the policy is issued. (7-1-93)

04. Amount of Mortgagee Policies. A mortgagee’s policy shall be for not less than the full principal debt of the loan insured and at insured’s request may include up to twenty percent (20%) in excess of the principal debt to cover interest, foreclosure costs, etc. Where the land covered represents only part of the security for the loan, the policy shall be written for the amount of the unencumbered value of the land or the amount of the loan, whichever is the lesser. (7-1-93)
05. **Simultaneous Issuance of Owner's and Mortgagee's Policy.** When an owner’s policy and a mortgage policy covering identical land are simultaneously issued, the owner’s policy shall bear the regular owner’s rate. Premium for the mortgagee policy simultaneously issued may be for an amount less than the full mortgagee rate for the amount of insurance not in excess of the owner’s policy. (7-1-93)

06. **Double Sale and Reissue.** No order will be held open to cover a double sale and the premium will be charged and the policy issued on each sale, unless the conveyance on resale is recorded at the same time as the original transaction. A title insurer may file an owner’s reissue rate of not less than fifty percent (50%) of the basic rate which shall be applicable to any policy ordered within two (2) years of the effective date of a prior owner’s or purchaser’s policy naming applicant as the insured provided that the following conditions are met:

a. The prior policy or a copy thereof is presented to the issuing company and shall be retained in the issuing company’s file, or in the absence thereof, reasonable proof of issuance is provided the issuing company. (7-1-93)

b. The reissue premium shall be based on the schedule of fees in effect at the time of reissue. (7-1-93)

c. Increased liability is to be computed in accordance with the basic schedule of fees in the applicable brackets. (7-1-93)

07. **Amount on Litigation and Foreclosure Reports.** Where a preliminary report is made for an owner’s policy to be issued after a quiet title action or after a foreclosure of contracts of sale, deeds of trust or mortgages, the premium charge shall be that on an owner’s policy and the policy will be issued following the successful completion of the litigation or the foreclosure. A cancellation fee may be charged if the action is unsuccessful. Each such preliminary report shall bear on its face as the limit of liability of the insurer, the value upon which the premium charge is based. (3-28-18)

005. **PROCEDURAL RULES AND DEFINITIONS.**

01. **Definitions.** All terms defined in chapters 1, 13, and 27, title 41 Idaho Code, which are used in this rule shall have the same meaning as used in those chapters. (6-30-19)

a. **Applicant.** Applicant is a party to a real estate transaction who may be the buyer, seller and/or a proposed or named insured on a title commitment, policy, guaranty or other title insurance product. (6-30-19)

b. **Financial Interest.** Financial Interest means any interest that entitles the holder in any manner to Two and one-half percent (2.5%) or more of the profits or net worth of the title entity in which the interest is held. (6-30-19)

c. **Policy.** Any contract or form of title insurance which prior to its issuance has been filed with the Director of Insurance. (7-1-93)

d. **Preliminary Report.** A binder of insurance, a commitment to insure, a preliminary report of title, and litigation reports including quiet title action, foreclosure actions of contracts of sale, deeds of trust or mortgages where a policy of title insurance will be issued on the successful completion thereof. iv. Shall include any legal entity whose ownership is, directly or indirectly, comprised fifty-one percent (51%) or more by entities or individuals described in Paragraph 010.03.c. of this rule. (6-30-19)

f. Title Examination. A search and examination of the title and a determination of insurability of the title in accordance with sound title underwriting practices. Such examination of the public records shall be made only for the purpose of determining insurability of the described property and shall not be a report on the condition of the record. (6-30-19)

g. Issuance of a Policy. The preparation, execution and delivery of a title insurance policy which is hereby deemed to be only a contract of insurance up to the face amount of such policy and in no way shall create a tort liability as to the condition of the record insured from. The same shall include any necessary investigation just prior to actual issuance of a policy to determine if there has been proper execution, acknowledgement and delivery of any conveyances, mortgage papers, and other title instruments which may be necessary for the issuance of a policy. It shall also include determination of the status of taxes based on the latest available information and a final search of the title and that all necessary papers have been filed for record. Issuance of the policy shall not include services which are essentially escrow or closing services, such as receiving and disbursing money, prorating insurance and taxes, etc., for which an escrow fee shall be charged. The issuer of the policy may specify requirements necessary for the issuance of the title insurance, but it is the responsibility of the applicant for the insurance to meet such requirements and the title insurance agent shall not act for the applicant to satisfy the same. It is not the responsibility of the policy issuer to cure defects of title or remove liens or encumbrances, nor to perform services extraneous to the issuance of the policy. Title insurers and title insurance agents in the issuance of title insurance policies shall not do any acts which constitute the practice of law and the premium shall not include the cost of legal services to be performed for the benefit of anyone other than the company. A title insurance agent who is also a licensed lawyer rendering any legal services in the transaction insured must render a separate legal billing therefor and the escrow fees shall not include such legal services. (7-1-93)

h. Tract Indexes and Abstract Records. See IDAPA 18.05.01, Rules of the Department of Insurance. The tract indexes and abstract records shall be maintained and posted to current date and shall include adequate maps that will enable a person working the title plant to locate a tract of land which is the subject of the title examination. (7-1-93)

02. Miscellaneous Reports. Where an insurer or its agent issues judgment reports, lot book reports or property search reports, each such report shall specifically contain the following statement: “This report is based on a search of our tract indexes of the county records. This is not a title or ownership report and no examination of the title to the property described has been made. For this reason, no liability beyond the amount paid for this report is assumed hereunder, and the company is not responsible beyond the amount paid for any errors and omissions contained herein.” (7-1-93)

03. Special Exceptions. An insurer may insert such special exception(s) as shall develop from an examination of the title. A special exception shall in all cases specifically describe the item excepted to and shall not be general in terms. The printed provisions of a filed policy form, including exclusions from coverage, exceptions not insured against and stipulations and conditions shall not be deemed special exceptions. (7-1-93)

04. Liens and Encumbrances, Standards of Insurability and Insuring Around. The determination of insurability as to liens and encumbrances under Section 41-2708(1) and the risk prohibited under Section 41-2708(2), Idaho Code, intentionally omitting an outstanding enforceable recorded lien or encumbrance, are interpreted by the Insurance Director to mean:

a. “Intentionally” omitting an outstanding enforceable recorded lien or encumbrance is the issuance of the policy with the intent to conceal information from any person by suppressing or withholding title information, the consequence of which could result in a monetary loss either to the title insurance company or to the insured under the policy or binder. (7-1-93)

b. “Outstanding enforceable recorded lien or encumbrance” and/or “determination of insurability” as
to possible liens and encumbrances shall not be construed as prohibiting an insurer from issuing a policy without taking exception to a specific recorded, inchoate, or death tax item when sound underwriting standards and practices allow insurance against the item. Defects of title are not regulated by this provision. Specifically, a policy may be issued without taking exception to the following items on the conditions set out:

i. Where a lien securing an obligation, though not released of record, to the satisfaction of the insurer has been discharged and the insurer or its agent has documentary evidence in its file that the obligation has been paid in full. (7-1-93)

ii. Where funds are in escrow to pay said item and a recordable release in form for filing is available for recording in the ordinary course of business. (7-1-93)

iii. Where liens, in the opinion of counsel, are barred by the statute of limitations. (7-1-93)

iv. Where inchoate liens may arise from improvements to the described property and may have priority over a mortgage being insured and a sufficient indemnity as herein defined has been delivered to and accepted by the insurer, or sufficient funds, including short term treasury bills and notes, have been deposited with the insurer or its agent to assure ultimate payment and release of such liens; provided, an exception as to such inchoate liens shall be shown on the policy with a provision insuring against the enforcement thereof. Sufficient indemnity as used herein shall mean a direct obligation to pay such liens in an amount judged adequate by the insurer executed by a financial institution regulated by the state or federal government or executed by a responsible person as hereinafter defined. This subsection shall also apply to recorded liens being contested if the indemnity is one hundred and fifty percent (150%) of the claim and is by such financial institution or in said funds. (6-30-19)

v. Where the insurer has previously issued a policy without taking exception to the specific item and is called upon to issue an additional policy where it is already obligated under such prior policy and where the new policy will not increase its liability or exposure; provided, an exception as to such item shall be shown on the policy with a provision insuring against the enforcement thereof. (7-1-93)

vi. When the mortgage policy issued insures validity and priority of a lien, the insurer shall not be required to itemize liens which are subordinate to the lien insured, whether by express subordination or operation of law, unless such subordinated matters must be shown to comply with a policy provision, or unless requested by the insured to do so; provided, when issuing a preliminary report, commitment or a binder for a mortgagee’s policy all subordinate liens shall be shown but a statement may be made that they are subordinate. (7-1-93)

vii. With reference to federal estate taxes and state inheritance taxes which have not been paid, where the insurer has examined a balance sheet of the estate and determined more than adequate funds are on hand to pay such taxes, and the insurer has taken an indemnity from a responsible person protecting itself against such unpaid taxes, or where sufficient monies or other securities to pay such taxes have been placed in escrow pending the payment thereof or pending receipt of waiver of lien from the taxing authority. (7-1-93)

viii. “Responsible person” is one (1), or more than one (1) if they are jointly and severally liable, each of whose current verified balance sheet upon examination is determined by the insurer to be sufficient for the purpose of the indemnity given. Verified copies of all statements shall be retained by the insurer or its agent. (7-1-93)

05. Mechanics’ Liens, Prohibited Risk. Under the provisions of Section 41-2708, Idaho Code, the Insurance Director has determined under standards of insurability, prohibited risks and rebates, that under all forms of mortgage policies the risk insured shall not include unrecorded liens and encumbrances, including contractors’, subcontractors’ professional services, materialsmen’s and mechanics’ liens, unless:

a. The mortgage shall have been placed of record prior to commencement of any improvement on the premises and the insurer is satisfied that the mortgage and related documents with reference to such priority; or (7-1-93)

b. Unless the provisions of Subsections 005.04.b.ii., 005.04.b.iii. or 005.04.b.iv., and 005.04.b.viii. as applicable have been complied with; or (7-1-93)
c. Unless the insurer has satisfied itself and documented its file that construction has been completed and the time for filing liens has expired. (7-1-93)

06. Usury, Truth in Lending Disclosures. Protection against usury, or disclosures required in consumer credit protection acts, truth in lending acts, or similar acts imposing duties on lenders, do not constitute a part of the issuance of title insurance policies. Title insurers and their agents shall not prepare or pass judgment on documents as to usury nor on disclosure documents and notice of right of rescission documents required by any such acts or make any computations as required therein, in the issuance of title insurance policies; provided, an endorsement to a mortgage policy insuring that the loan is one by definition of the Truth in Lending Act exempt from rescission is permissible. Nothing herein shall prohibit such title insurers or their agents from performing closing or escrow services involving such matters when a proper fee is obtained therefor. (7-1-93)

07. Filing, Approval, Unique Contract or Rate. Whenever a title insurer is requested to insure a unique kind or class of risk for which a premium rate or form of policy or endorsement has not been filed, neither of which lends itself to an advance filing and determination of said rate or form, pursuant to Section 41-2706(4) such title insurer may make a written application to the Director of Insurance for approval of said special rate or form without complying with the filing notice and thirty (30) day waiting provisions of Section 41-2707 upon complying with the following requirements:

a. The insurer shall not have agreed to the special rates nor agreed to issue the special policy or endorsement, prior to making an application to the Director of Insurance as herein set out. (7-1-93)

b. The insurer shall make a written application to the Director of Insurance, requesting approval of the applicable special rate or special insurance policy or endorsement, wherein the insurer shall set forth why the particular rate or policy or endorsement is unique as to the risk or form, that such item has or has not ever arisen in the past five (5) years to the knowledge of said insurer, and the circumstances if it has previously arisen in said period, and the circumstances which now arise which necessitate said rate, policy or endorsement and an analysis comparing said unique rate, policy or endorsement to the nearest comparable filed rate, policy or endorsement and justifying the difference on the basis of Section 41-2706(1) and (2). Such application shall have attached to it the proposed policy or endorsement form. The Director of Insurance shall have ten (10) working days after the date of receipt of such application to disapprove the same, and the filing shall be deemed effective if the same is not disapproved within such time. The burden is upon the insurer to make inquiry after the expiration after said ten (10) days to determine whether a disapproval has been made, whether or not mailed notice of such disapproval has not yet been received by said insurer. (7-1-93)

c. The provisions hereof are only applicable to rates, policies and endorsements, which by reason of the rarity of the event, or the peculiarity of the circumstances, do not lend themselves to a general advance determination and filing of said item. Applications under this rule and the applicable statute shall not be approved if it appears either that said application does not meet the standards of the statute or is such a deviation from the usual policy form or rate most nearly applicable thereto as to be an unsound underwriting practice or an inadequate premium. (7-1-93)

006. DISCLOSURE BY PRODUCER OF TITLE BUSINESS. No title entity may accept any order for; issue a title commitment, guarantee, title insurance policy for, or provide services including, but not limited to, escrow closing and foreclosure services, to an applicant if it knows or has reason to believe that the applicant was referred by a producer of title business, where the producer of title business has a financial interest in the title entity to which the business is referred unless the producer of title business has disclosed to the applicant the financial interest of the producer of title business. The disclosure must be made in writing and contain the items required in Section 007 of this rule. (6-30-19)

007. DISCLOSURE REQUIREMENTS.

01. Disclosure Required By Section 006. Shall be provided to the applicant at the time the sell and/or purchase contract is entered into. A signed copy of the disclosure shall be maintained by the producer of title business and provided to the title entity prior to, or simultaneously with, the placing or the order for a title insurance commitment or guarantee or escrow closing services. The title entity shall maintain a copy of said disclosure for a minimum period of five (5) years. (6-30-19)
02. **Disclosure.** Disclosure shall contain a heading, in bold face, all caps, type font 14 or higher that states: "NOTICE OF FINANCIAL INTEREST IN TITLE ENTITY BY PRODUCER OF TITLE BUSINESS." (6-30-19)

03. **Statement.** Disclosure shall contain the following statement in type 12 font or higher: "We call this interest to your attention for disclosure purposes. (Provide name of Producer of Title Business) has a financial interest in this title entity (provide title entity name). This financial interest may result in a conflict of interest in our representation of you. Accordingly, you are free to choose any other title entity which is licensed by the Idaho Department of Insurance in the county in which the property is located. A list of title insurers and title agents licensed in the county in which the property is located may be found by contacting the Idaho Department of Insurance." (6-30-19)

04. **Chooses to Have Transaction Served.** Disclosure shall contain a statement that the Applicant has read the aforementioned disclosure and chooses to have their transaction served by the Title Entity referred by the Producer of Title Business. The disclosure shall contain the signature of all applicants along with the date the signature(s) was accomplished. (6-30-19)

008. **FINANCIAL INTEREST NOTICE.**

01. **Names and Addresses of All Producers.** A title entity shall notify the Director of the Department of Insurance the names and addresses of all producers of title business that have a financial interest in the title entity, including the financial interest held by the producer of title business and the date the financial interest was acquired. (6-30-19)

02. **Financial Interest Notice.** The title entity will provide the financial interest notice to the Director of the Department of Insurance prior to the granting of a title agent license and upon request for renewal of a title agent license. (6-30-19)

009. -- 010. (RESERVED)

011. **TITLE INSURANCE AGENTS AND EMPLOYEES ACTING AS ESCROW AGENTS.**

01. **Written Instructions.** An escrow agent shall not accept funds or papers in escrow without a dated, written instruction signed by the parties or their authorized representatives adequate to administer the escrow account and without receiving at the time provided in the escrow instructions sufficient funds and documents to carry out terms of the escrow instructions. Funds and documents deposited shall be used only in accordance with such written instruction; and if additional specific instructions are needed, the agent shall obtain the consent of both parties or such representatives to the escrow or an order of a court of competent jurisdiction at the expense of the escrow parties. (7-1-93)

02. **Notice of Conflict of Interest.** An escrow agent shall act without partiality to any of the parties to the escrow. An escrow agent may not close a transaction where he has, directly or indirectly, a monetary interest in the subject property either as buyer or seller. If an escrow agent has a business interest in the escrow transaction other than as escrow agent, the relationship or interest must be disclosed in the written escrow instructions. After noting such interest, an additional statement shall appear as follows: “We call this interest to your attention for disclosure purposes. This interest will not, in our opinion, prevent us from being a fair and impartial escrow agent in this transaction, but you are, nevertheless, free to request the transaction be closed by some other escrow agent.” (7-1-93)

03. **Closing Statement.** On completion of an escrow transaction the agent shall deliver to each principal a written closing statement signed by the agent of each principal’s account. The same shall show all receipts and disbursements and any charge made by and disbursements to the escrow agent shall be clearly noted. A copy shall be retained. (7-1-93)

04. **Control of Funds.** An escrow agent shall maintain one or more “trust accounts” in a federally insured financial institution into which all escrow funds received shall be deposited and from which there shall be drawn escrow payments. No other funds shall be commingled with such trust account. Escrow fees shall not be drawn
until the escrow is completely ready to close in accordance with the escrow instructions and must be withdrawn not later than the day on which the final disbursements are made for the escrow closing. (7-1-93)

05. Escrow Accounting Procedures. An escrow agent shall maintain on a current basis (a) an escrow ledger with a separate numbered sheet for each escrow agreement and (b) an escrow liability control account. Disbursements shall be posted from checks or other vouchers and each item, not the total of items, must be entered. Escrow liability control account shall balance with the escrow ledger at all times and shall equal the balance of funds in the “trust accounts” for escrows at the bank. Checks may not be drawn against an escrow account without sufficient credit balance for the particular escrow existing at the time. Funds shall not be transferred between escrow agents except by writing checks and receipts which are charged and credited respectively to accounts with the reason noted and the authority therefor. All services must be performed and the escrow account ready to close before any service or escrow fees may be charged and drawn from an escrow account (unless an escrow is a long term collection, and fees are payable monthly or annually). The escrow funds will be placed in the “trust accounts” for escrows and no other funds commingled therewith. All entries in any escrow account shall be posted the date of the entry without regard of the date of posting, but all entries should be posted daily. (7-1-93)

06. Escrow Records. Each escrow agent shall maintain in each escrow transaction:

a. Evidence of all funds received including copies of all instruments, which shall include prenumbered cash receipts, copies of cashier’s checks, wire transfer confirmations or evidence of unconditional payment of checks, as applicable; (3-15-02)

b. Complete evidence of all funds disbursed which shall include check stubs or check copies, and wire instructions for all disbursements as applicable; and (3-15-02)

All records shall be made available for audit, inspection and examination by the Director upon demand, and all records shall be preserved for not less than six (6) years from the closing date of the escrow. (3-15-02)

07. Bond. Before a license shall be issued to a title insurance agent pursuant to Section 41-2710, Idaho Code, such agent must comply with the requirements for a bond for the title insurance agent, escrow officer and any of the employees of said agent thereof engaged in handling escrow accounts and funds or countersigning and issuing title insurance policies, except such employees whose duties are wholly clerical in relation thereto. Such bond need not be renewed each year, but may be in the form that continues from year to year until canceled. Such bond may be for more than one county if the title insurance agent is licensed to do business in more than one county, but the liability under such bond shall be limited to the amount per county as required by Section 41-2711, Idaho Code. Such bond shall be for the benefit of all persons who have suffered any loss because of the breach of the terms of said bond and shall be enforceable on finding of the Director of Insurance upon hearing that the terms of the bond have been violated. Deposits in Lieu of Bonds: In lieu of such bond, cash or securities as herein defined may be deposited with the Director of Insurance. 18.05.03 – REBATES AND ILLEGAL INDUCEMENTS TO OBTAINING TITLE INSURANCE BUSINESS

000. LEGAL AUTHORITY.
This rule is promulgated pursuant to the general rule making authority in Idaho Code, Section 41-211, to aid in the effectuation of Idaho Code, Section 41-2708(3), and Idaho Code, Section 41-1314. (7-1-93)

001. TITLE AND SCOPE.

01. Title. The title of this chapter is IDAPA 18.05.03, “Rebates and Illegal Inducements to Obtaining Title Insurance Business.” (3-30-07)

02. Application of Rule. The provisions of this rule apply to all title insurers and title insurance agents. This rule does not limit the Director’s authority to determine that other title insurance trade practices constitute violations of Idaho Code Sections 41-2708(3) and 41-1314. (3-30-07)

03. Purpose. The purpose of this rule is to define certain fair trade practice standards for title insurance, the violation of which will constitute rebates and/or illegal inducements prohibited by Idaho Code, Sections 41-2708(3) and 41-1314. The Department of Insurance regulates the title insurance industry. It does not regulate producers of title business. Rule 18.01.56, “Rebates and Illegal Inducements to Obtaining Title Insurance Business,” will interpret the anti-rebate and anti-illegal inducement statutes as applicable to the title insurance industry. This rule has been thoroughly researched and is based in part on the rules of Idaho’s neighbor states. In addition, written and oral comments and recommendations about the rule as well as testimony provided at five hearings conducted across the state have been carefully reviewed and have contributed to the provisions of IDAPA 18.05.03, “Rebates and Illegal Inducements to Obtaining Title Insurance Business.” This rule is intended to interpret broad anti-rebate and anti-illegal inducement statutes. The rule was drafted after representatives of the title industry and producers of title business industries advised the Department that there was an accumulation of past and present abuses that had previously gone unreported. These entities asked the Department to step in and help rectify the situation and suggested in part that the establishment of guidelines as to what is an inducement and what is an illegal inducement would help stop past and present abuses and curtail future abuses. The guidelines can be referred to in the title entity’s day to day business in interpreting what is an inducement and what is an illegal inducement. This guideline will also help the Department in its efforts to enforce the anti-rebate and anti-illegal inducement statutes. At no time has the Department of Insurance or its representatives stated that the standard practice of the title industry is to give collateral benefits and that the standard practice of the industries of producers of title business are to receive collateral benefits. The Department of Insurance recognizes as an undisputed fact that a producer of title business in most instances is involved with the consumer in assisting the consumer in the selection of a title company for title insurance services. The Department of Insurance also recognizes that abuses in the intricacies of this selection have occurred and do occur, and the occurrence of abuses is specifically acknowledged by the title industry and the Idaho Land Title Association. The Department of Insurance has taken and will continue to take action to reported violations. The Department’s goal is to assure that the selection of a title company is made on the basis of the title company’s ability to provide economy, promptness, accuracy and efficiency in its service. The elimination of “collateral benefits” with the interpretive guidance of IDAPA 18.05.03, “Rebates and Illegal Inducements to Obtaining Title Insurance Business,” will help in accomplishing this goal -- a goal that establishes a uniform set of rules for all title entities and which ultimately benefits the consumer. (3-30-07)

002. WRITTEN INTERPRETATIONS.

These documents will be available for public inspection and copying in accordance with the public records act. (3-30-07)

All administrative appeals will be governed by Chapter 2, Title 41, Idaho Code, and the Idaho Administrative Procedure Act, Title 67, Chapter 52, Idaho Code and IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of
the Attorney General.”
