c. Number of hours and topics included in staff training for the quarter; (4-11-15)

d. Community services hours; (4-11-15)
e. GED/HSE or high school diplomas awarded; and

f. A copy of juvenile offender grievances and resolutions according to Section 232 of these rules.

03. Notification of Program Changes. Residential treatment providers must notify the Department as soon as possible, but no later than thirty (30) calendar days, before there is a change in the name of the organization, type of service, characteristics of juveniles being served, changes in the licensed capacity of the program, closure of the program, changes in ownership or in the organizational structure.

04. Emergency Closure of Program. In the event of a natural disaster, fire, flood, or other emergency situation in which the residential treatment provider may be closed temporarily, the residential treatment provider will immediately notify the regional juvenile correctional center in its respective region.

05. Notification of Death of a Juvenile Offender. In the event of the death of a juvenile who is in the Department’s custody, the residential treatment provider must immediately notify the regional facility, juvenile offender’s parent or guardian, and law enforcement. Other notifications will be coordinated between the residential treatment provider and the Department.

06. Additional Incident Reporting. The residential treatment provider must report to the Department any and all incidents of the type normally requiring immediate notice to the Department, as identified in Subsection 241.01, that occur in their program or facility regardless of whether or not the juveniles involved are in the Department’s custody. Any such reports regarding juveniles not in Department custody must include the type and scope of the incident without any information identifying the juvenile, and must be made available to the Department’s Quality Improvement Services Bureau.

a. The residential treatment provider must report to the Department any and all incidents of staff misconduct relating to juvenile care and that result in any type of suspension or termination of employment, revocation or suspension of a professional license, or revocation or suspension of driver’s license of any staff who transports juveniles.

b. All instances of battery committed on staff must be documented and, whenever appropriate, charges filed with the appropriate authorities. Each such incident must be reported to the juvenile offender’s juvenile services coordinator as an incident report according to Subsection 241.01 of these rules.

07. Additional Reporting Requirements. In situations where the Department has determined that the safety, security, or order of a program are at risk, more frequent and more detailed reporting will be required by the Quality Improvement Services Bureau. The Department has a responsibility at all times to monitor the overall safety, security, and order of a program for the protection and well-being of the juvenile offenders.

201. COMPREHENSIVE AND CURRENT PROGRAM DESCRIPTION.

01. Program Description. Residential treatment providers must provide, and keep current with the Department, a program description detailing the range of services to be provided and the methods for providing these services.

02. Minimum Requirements. At a minimum, the program description must include:

a. Target population and specific admission criteria;

b. Primary and secondary treatment modalities;

c. Outline of daily schedules for juvenile offenders and staff;

d. Full description of educational services provided;
e. Description of emergency and routine medical and mental health services, including psychotropic medication monitoring, unless this population is specifically excluded from admission to the program; (4-11-15)

f. Description of religious services, recreation services, and other specialized services provided as indicated by the needs of the identified target population; (4-11-15)

g. Written criteria for successful completion of the program and written criteria for termination from the program prior to completion; (4-11-15)

h. A thorough description of all services offered as a part of the program, including a description of the frequency of service delivery; (4-11-15)

i. A detailed description of each individual treatment intervention, such as treatment group, psycho-educational group, cognitive restructuring group, and peer group including:

   i. The overall goals of the treatment intervention or service area; (4-11-15)

   ii. The average length, total length, and number of sessions in the treatment intervention or service area; (4-11-15)

   iii. The facilitator education and training requirements; and (4-11-15)

   iv. The specific curriculum used in the treatment intervention or service area. (4-11-15)

j. A detailed description of the behavior management component of the program. (4-11-15)

202. DISPOSITION OF REFERRALS FROM THE DEPARTMENT.
A juvenile offender’s admission into the program shall be based on an assessment of the juvenile offender’s strengths, risks, needs, and on the anticipated ability of the program to reasonably address those issues. Residential treatment providers must ensure that the juvenile offender and parent or guardian are provided an opportunity to participate in the admission process and related decisions. (4-11-15)

01. Accepting Referral. Upon receipt of a complete referral packet from the Department, the residential treatment provider has four (4) business days in which to decide whether to accept or decline the referral. Upon acceptance, the Referral Acceptance/Denial Form must be completed and signed. By accepting the referral, the residential treatment provider agrees to address the identified treatment goals and the anticipated length of stay. Once the acceptance has occurred, the juvenile offender’s transportation will be made. (4-11-15)

02. Declining Referral. Residential treatment providers must not, without just cause, deny admission to any juvenile offender who meets the specific admission criteria set forth in the provider’s program description. If a residential treatment provider denies a referral, the specific reason for denial must be documented on the Department’s Referral Acceptance/Denial Form and the form returned to the regional referral coordinator. The residential treatment provider must then destroy the referral packet. (4-11-15)

03. Change in Admission Criteria. Any change in the residential treatment provider’s admission criteria must be reflected in the provider’s admission policy and requires a written amendment to the contract with the Department. Temporary exceptions are covered under Section 101 of these rules. (4-11-15)

04. Reservation of Program Slots. When a program slot is to be reserved, the Department shall contact the residential treatment provider and request that the slot be reserved. Unless the Department gives specific approval, the maximum time for which a program slot may be reserved and the residential treatment provider continue to receive payment is forty-eight (48) consecutive hours. (4-11-15)

203. SAFETY AND MAINTENANCE OF BUILDINGS AND GROUNDS.

01. Compliance with State and Local Codes and Ordinances. The residential treatment provider must maintain compliance with all state and local building, life safety, and zoning requirements. Documentation of
compliance must be made available to the Department. (4-11-15)

02. **Accessibility.** The program buildings, parking lots and other structures must provide access as required by the Americans with Disabilities Act, as amended, and other applicable federal and state laws and regulations. (4-11-15)

03. **Maintenance.** The residential treatment provider must ensure that all structures are maintained, are in good repair, and are free from hazards to health and safety. The grounds must also be maintained and must be free from any hazard to health and safety. The residential treatment provider must have a written plan for preventive and ongoing maintenance of its building and grounds. (4-11-15)

04. **Construction Considerations.** When designing or acquiring any new program or facility and in planning any substantial expansion or modification of existing facilities, the residential treatment provider shall consider the effect of the design, acquisition, expansion, or modification upon the provider’s ability to protect residents from any harm, including sexual abuse. (4-11-15)

05. **Program Safety.** Each residential treatment provider must have a designated staff member who is responsible for the safety of the program. This individual must conduct monthly inspections of the program, with copies of the inspections kept on file for review by the Department, to identify:

a. Fire safety; (4-11-15)
b. Existing hazards; (4-11-15)
c. Potential hazards; and (4-11-15)
d. The corrective action that should be taken to address these hazards. (4-11-15)

06. **Emergency Procedures.** The residential treatment provider will utilize and maintain a current emergency procedure manual which must include, at a minimum, procedures pertaining to:

a. Fire safety and escape; (4-11-15)
b. Emergency medical care; (4-11-15)
c. Notification and filing charges on escape; (4-11-15)
d. Incidents of violence within the program; (4-11-15)
e. Suicide prevention; (4-11-15)
f. Child abuse reporting; and (4-11-15)
g. Sexual abuse disclosures. (4-11-15)

204. **VEHICLES.**

01. **Condition.** Vehicles used to transport juveniles must be mechanically sound, in good repair, and meet the Department’s requirements for insurance coverage. (4-11-15)

02. **Compliance with Applicable Laws.** All vehicles must possess current state licenses and must comply with all applicable state laws. When in use, all vehicles must carry a standard first aid kit and a fire extinguisher. (4-11-15)

03. **Maintenance and Equipment Checklist.** The residential treatment provider must have a vehicle maintenance and equipment checklist, which must include a listing of all critical operating systems and equipment inspections, the date of the last inspection, and the type of service or action taken. All repairs required to critical
operating systems, such as brakes and headlights, must be made immediately. All worn or missing critical equipment must be replaced immediately, such as tires, jacks, and seat belts.  

(4-11-15)

205. TRANSPORTATION.

01. Transportation for Service Plan. It shall be the responsibility of the residential treatment provider to provide all transportation associated with the juvenile offender’s service implementation plan. The family may be relied upon to provide transportation for passes and some other community contacts as long as this does not present any undue risk or burden to the juvenile offender, family, or community.  

(4-11-15)

02. Transportation for Court Proceedings. It is the provider’s responsibility to immediately notify the juvenile offender’s juvenile services coordinator of court dates and appearances. Arrangements for transportation related to court appearances, as well as related to transfer or release of juvenile offenders from Department custody, must be made between the residential treatment provider and the juvenile services coordinator.  

(4-11-15)

03. Transport in Personal Vehicles. Juveniles in the custody of the Department will not be transported in personal provider employee vehicles unless an emergency situation exists and is substantiated by documentation.  

(3-25-16)

206. DRIVERS.

01. Juvenile Transport. All drivers of vehicles transporting a juvenile offender must possess a valid driver’s license from the applicable state and the proper licenses required by state law for the type of motor vehicle operated. All such operators’ driving records must be checked through the Department of Motor Vehicles for the preceding three (3) years and annually after date of hire. During that time, the operator must not have had any felony traffic convictions or withheld judgments. Any incidents of suspended licenses during that time must be specifically reviewed by the residential treatment provider. Personnel files must contain evidence of training to transport a juvenile offender as well as other appropriate documentation.  

(4-11-15)

02. Parent or Guardian Transport. When parents or guardians are allowed to transport a juvenile offender for any reason, it is the responsibility of the residential treatment provider to ensure that the individual possesses a current and valid driver’s license and insurance coverage.  

(4-11-15)

207. -- 209. (RESERVED)

210. ADMINISTRATIVE RECORDS.

01. Documentation Retention. The residential treatment provider must document and retain documentation of all information related to the following items:  

(4-11-15)

a. Program consultation provided, such as technical assistance on program design and implementation;  

(4-11-15)

b. Training provided to staff;  

(4-11-15)

c. All alleged instances of child abuse;  

(4-11-15)

d. Program audits or reviews, including corrective actions required and taken;  

(4-11-15)

e. Reports of sexual abuse disclosures to the applicable state licensing authority or law enforcement;  

(4-11-15)

f. Juvenile offender and staff grievances;  

(4-11-15)

g. Copies of all completed incident reports; and  

(4-11-15)

h. Copies of background checks for all current employees, contractors, volunteers and interns who
may have contact with residents.  

02. Employee Files. Employee personnel files must contain the following:  

a. Minimum qualifications for the job held;  

b. Hiring information;  

c. Copies of all required licenses or certificates related to the job function;  

d. Copies of academic credentials, driving record and criminal background checks, as required by state law;  

e. Current training records; and  

f. Performance evaluations and copies of personnel actions, such as disciplinary action taken and acknowledgments of outstanding performance.  

211. STAFF QUALIFICATIONS.  

01. Licenses. All individuals providing services to juveniles in the custody of the Department must possess all licenses or certifications for their particular position as required by statute, rule, or by the applicable state licensing authority.  

02. Education or Experience. All individuals providing services must be qualified to do so, on the basis of knowledge, skills, and abilities. In addition, certain program and professional caregivers must meet specific minimum standards for education or experience. These standards shall constitute, in part, the basis for determining the adequacy of program and professional services delivered under contractual agreement with the Department.  

03. Position Descriptions. Residential treatment providers must maintain written position descriptions for every job class established in the organization. In all cases, the particular job titles used by the residential treatment provider to provide counseling, therapy, direct care, and supervision of juvenile offenders, as well as staff supervision and management, must be specifically cross-referenced with the job titles in these rules.  

212. POSITION DESCRIPTIONS AND QUALIFICATION CRITERIA.  

01. Clinician, Counselor, or Therapist. An individual who conducts a comprehensive assessment of the psychological, behavioral, social, or familial deficits or dysfunctions presented by the juvenile offender, then establishes and implements a plan for therapeutic services. The plan must specify diagnosis and treatment of problems to be addressed, an estimate of the time needed, and a schedule of the frequency and intensity of the services to be provided. The individual may also provide individual, group, or family counseling. At a minimum, the individual must have a master’s degree and be currently licensed by the applicable state as a Licensed Professional Counselor (LPC), Licensed Marriage and Family Counselor (LMFT), Licensed Master Social Worker (LMSW), or certified school psychologist.  

02. Juvenile Services Coordinator or Social Worker. An individual who is responsible for the assessment of treatment progress, and the provision and monitoring of therapeutic or rehabilitative treatment services to juvenile offenders participating in a treatment program. Individuals providing this function must possess at a minimum, a bachelor’s degree from a fully accredited college or university in social work, psychology, or counseling, and must be licensed as a social worker in the applicable state.  

03. Recreational Specialist. An individual who develops and implements an individualized and goal-directed recreational plan for a juvenile offender in connection with the overall service implementation plan. The individual providing this function must possess a bachelor’s degree in recreational therapy, health and physical education, or a related field, or have a high school diploma and two (2) years related experience in providing recreational services to juvenile offenders.
04. **Rehabilitation Specialist or Facility Case Manager.** An individual, under direct supervision, who assists the juvenile offender in implementing the service implementation plan, evaluates the juvenile offender, and maintains the case record with respect to all nonclinical matters. The rehabilitation specialist or facility case manager also assists in presenting the case in staffings, communicates with appropriate individuals, including community interests, regarding the juvenile offender, and prepares written communications, under supervision, including final progress reports. The rehabilitation specialist or facility case manager may also serve as the social worker if properly licensed in the applicable state. Individuals providing this function must possess a bachelor’s degree from a fully accredited college or university in the social sciences or a related field, or have a high school diploma and four (4) years related experience in providing services to juvenile offenders. (4-11-15)

05. **Rehabilitation Technician or Direct Care Worker.** An individual who is responsible for providing individual or group rehabilitative therapeutic services, supervising juvenile offender’s day-to-day living activities and performing such duties as preparing nutritious meals, supervising and training juvenile offenders in basic living skills, and providing some community transportation. Such individual must have a high school diploma or its equivalent. (4-11-15)

06. **Special Education Teacher.** An individual who provides a modified curriculum for those students who are eligible for services under the IDEA. This individual must hold a valid standard exceptional child certificate with an endorsement as a generalist. (4-11-15)

07. **Teacher.** An individual who provides basic educational services as required by state and federal statutes. This individual must hold a valid teaching credential in the appropriate instructional field. (4-11-15)

### 213. PROGRAM STAFFING REQUIREMENTS.

01. **General Staffing Ratios.** The residential treatment provider must ensure that an adequate number of qualified staff are present at all times to provide rehabilitation and treatment services, supervise juvenile offenders, and provide for their health, safety and treatment needs. Staffing patterns must ensure that professional staff is available to juvenile offenders at all times when they are in the program. The residential treatment provider staff should provide consistency and stability so that the juvenile offenders know the roles of each staff member. Specific staffing ratios shall be determined in each contract and must be based in the level of intervention of the program and the risk level of the juvenile offender population. (4-11-15)

02. **Emergency Staffing Ratios.** At all times at least one (1) staff member on duty per twenty (20) juvenile offenders in the program must be currently certified to administer first aid and cardiopulmonary resuscitation (CPR). (4-11-15)

### 214. GENERAL REQUIREMENTS FOR TRAINING.

01. **Training Plan.** Training for staff must be conducted in accordance with a written plan approved by management and coordinated by a designated staff member. The training plan must include:

   a. Annual in-service training for all staff to include, but not be limited to:
      i. Identifying and responding to suicide risk;
      ii. All training as outlined in section 115.331 of the Prison Rape Elimination Act (PREA) standards;
      iii. Prohibition of abuse and mandatory reporting of abuse;
      iv. De-escalation of juvenile behavior and appropriate physical restraint techniques; and
      v. Incident reporting.

   b. Those areas of practice and operations requiring a current certification;
c. Prior to being assigned sole responsibility for supervision of juvenile offenders, rehabilitation technicians or direct care staff must have training in the following areas:

i. Principles and practices of juvenile care and supervision;

ii. Program goals and objectives;

iii. Juvenile offender rights and grievance procedures;

iv. Procedures and legal requirements concerning the reporting of abuse and critical incidents and compliance with the PREA as outlined in these rules;

v. Handling of violent juvenile offenders (use of force or crisis intervention);

vi. Security procedures (key control, searches, contraband);

vii. Medical emergency procedures, first aid, and CPR;

viii. Incident reporting;

ix. How to recognize and respond to suicidal behavior;

x. How to access emergency health and mental health care;

xi. Proper storage and dispensing of medications, as well as general signs and symptoms of adverse reactions, including identification of the individual who will dispense medications in the facility;

xii. Appropriate response to health-related emergencies;

xiii. Ethics and professional boundaries; and

xiv. Appropriate and safe transportation of all juvenile offenders.

d. In-service training for all first-year staff must include:

i. Program policies and procedures;

ii. Job responsibilities;

iii. Juvenile offender supervision;

iv. Safety and security emergency procedures (fire, disaster, etc.);

v. Confidentiality issues including the Health Insurance Portability and Accountability Act of 1996 (HIPAA);

vi. Infectious diseases, blood borne pathogens, and universal precautions;

vii. Behavioral observation, adolescent psychology and child growth and development;

viii. Effective interventions with juvenile offenders including criminogenic risk and need factors;

ix. Juvenile Corrections Act, balanced and restorative justice, this chapter, and Department rules applicable to the specific type of residential treatment provider;
x. Basic security procedures; (4-11-15)

xi. Signs and symptoms of chemical use or dependency; (4-11-15)

xii. Drug-free workplace; (4-11-15)

xiii. Diversity training to include cultural awareness; and (4-11-15)

xiv. Juvenile offender searches for contraband. (4-11-15)

02. Trainer Qualifications.

a. Individuals who provide instruction in areas of life, health, and safety, including but not limited to first aid, CPR, and physical intervention techniques, shall have appropriate certification which must be documented in their personnel or training file. (4-11-15)

b. Individuals who provide instruction in treatment must have appropriate training, education, and experience which must be documented in their personnel or training file. (4-11-15)

03. Documentation of Training. Staff training records must be kept by a designated staff person. Training records must be established for each staff member and volunteer and shall include:

a. Name; (4-11-15)

b. Job title; (4-11-15)

c. Employment beginning date; (4-11-15)

d. Annual training hours required; and (4-11-15)

e. A current chronological listing of all training completed. (4-11-15)

04. Training Records. Training records may be kept separately within each individual personnel file or in a separate training file. Access to curriculum materials must be made available. (4-11-15)

215. SUBCONTRACTORS, VOLUNTEERS, AND INTERNS.
It is the responsibility of the residential treatment provider to identify the intended use of the subcontractor, volunteer, or intern. If the subcontractor, volunteer, or intern is providing direct services to juveniles, the residential treatment provider must adhere to the rules in this Section. The provider must notify the Department’s Quality Improvement Services Bureau promptly, in writing, of any proposed changes in the use of subcontractors, volunteers, or interns providing direct services to juveniles.

01. Subcontractors. It is the responsibility of the residential treatment provider to ensure that any subcontractor providing direct services to juveniles meets at least the minimum staff qualifications and terms of the original contract and these rules. The residential treatment provider must maintain a list of all subcontracted service providers and their qualifications. Documentation of services provided by subcontractors must include the scope and frequency of services.

02. Volunteers and Interns. Programs should consider soliciting the involvement of volunteers and interns to enhance and expand their services. However, volunteers and interns recruited to supplement and enrich a program may not be substituted for the activities and functions of program staff. Volunteers and interns must not be assigned sole supervision of juvenile offenders.

a. Programs that utilize volunteers and interns regularly must have a written plan that includes stipulations for their use and training, and training of program staff on the role of volunteers and interns. Training provided must include all of the information necessary for the volunteers and interns to successfully perform their roles within the program.
b. Recruiting of volunteers is conducted by the program director or designee. Recruitment is encouraged from all cultural and socio-economic segments of the community. (4-11-15)

c. Volunteers and interns must complete an application for the position and be suited for the position to which they are assigned. (4-11-15)

d. Written job descriptions must be provided for each volunteer and intern position. (4-11-15)

e. Interns must be documented to be enrolled in an accredited school or program for the profession. (4-11-15)

f. Interns must have a fully developed internship or practicum agreement which details their activities for the period, and relates these to learning objectives developed with the academic institution and program in which they are enrolled. The internship agreement must include the signatures of the intern, supervising residential treatment provider staff, and a representative of the academic institution in which the intern is enrolled. (4-11-15)

g. Interns must agree in writing to abide by all policies and standards of conduct, and must agree to meet the ethical standards for the profession for which they are training. (4-11-15)

h. Volunteers and interns must be at least twenty-one (21) years of age, of good character, and sufficiently mature to handle the responsibilities involved in the position. (4-11-15)

i. Volunteers and interns must agree in writing to abide by all program policies. (4-11-15)

03. Subcontractor, Volunteer, and Intern Requirements. Subcontractors, volunteers, and interns who perform professional services must be licensed or certified as required by state law or rule, or must be documented to be supervised directly by staff meeting those credentials. (4-11-15)

a. Subcontractors, volunteers, and interns must have background and criminal record checks as prescribed by state law. (4-11-15)

b. Minimum training for subcontractors, volunteers, and interns must include the following: (4-11-15)

i. Program goals and objectives; (4-11-15)

ii. The role of the subcontractor, volunteer or intern and job duties or duties related to the learning plan; (4-11-15)

iii. Subcontractor, volunteer, or intern’s role in reporting incidents of sexual abuse under PREA as outlined in these rules; (4-11-15)

iv. Basic security procedures; (4-11-15)

v. Recognizing suicidal behaviors; (4-11-15)

vi. Confidentiality issues including the Health Insurance Portability and Accountability Act of 1996 (HIPAA); and (4-11-15)

vii. Ethics and mandatory reporting of juvenile abuse. (4-11-15)

04. Volunteers of Minimal Use. Volunteers who meet all of the following criteria may be excluded from Subsection 215.03.a. and Subsection 215.03.b.: (4-11-15)

i. Use of the volunteer by the residential treatment provider does not exceed four visits per year; (4-11-15)
ii. Use of the volunteer by the residential treatment provider does not exceed four hours per visit; and

iii. The volunteer is under constant personal supervision of at least one staff member of the residential treatment provider during their visit.

05. Documentation. The residential treatment provider must maintain individual personnel files for each volunteer and intern working in the program. The files must contain all documentation as described in Subsection 215.03 of these rules.

06. Supervision of Volunteers. Volunteers will be supervised at all times by a staff member of the residential treatment provider. This individual shall coordinate and direct the activities of the volunteer. Volunteer performance must be evaluated periodically and evidence of this evaluation be made part of the personnel record of the volunteer.

07. Supervision of Interns. An intern will be supervised by a paid employee of the residential treatment provider who has the licenses and credentials required by state law and who has been accepted by the intern’s school as an appropriate supervisor for the discipline of instruction. This individual shall coordinate and direct the activities of the intern. Intern performance must be evaluated periodically and evidence of this evaluation made part of the work record of the intern.

08. Termination. The residential treatment provider must establish a procedure for the termination of volunteers and interns. Termination of interns shall be in collaboration with the academic institution and program in which they are enrolled.

216. CRIMINAL BACKGROUND CHECKS. The residential treatment provider must ensure that all employees, subcontractors, interns, and volunteers, with the exception of those listed in Section 215.04 of these rules, have undergone a criminal background check every five (5) years in the manner and form required by IDAPA 16.05.06, “Criminal History and Background Checks.” In addition to the crimes listed resulting in unconditional denial, any crime not specified there that requires registration on the sex offender registry in Idaho or any other state, will also result in an unconditional denial of employment for direct care or services, or where the employee would have any opportunity to have contact with a juvenile offender in the residential treatment provider’s care, including as a volunteer or intern. Documentation of appropriate requests and responses must be kept in confidential employee personnel files.

217. -- 219. (RESERVED)

220. JUVENILE RECORDS.

01. Case Management Documents. The residential treatment provider must maintain individual files on all juvenile offenders which shall include:

a. Observation and assessment evaluation provided by the Department;

b. Additional assessments;

c. Service implementation plans;

d. Progress reports;

e. Incident reports;

f. Court documents and dispositions;

g. Professional correspondence;
h. Restricted clinical information, which must be kept separate; (4-11-15)
i. Medical records, which must be kept separate; (4-11-15)
j. Educational records and school history, which must be kept separate; (4-11-15)
k. Relapse prevention plan; (4-11-15)
l. Identifying information and physical descriptions; (4-11-15)
m. Last known parent or guardian address and telephone number; (4-11-15)
n. Date of admittance and projected release from the residential treatment provider; (4-11-15)
o. Records of juvenile offender’s earnings, restitution payments, and community service hours earned; (4-11-15)

02. Confidentiality. (4-11-15)
a. Sections 20-525 and 9-340(2)(b), Idaho Code, and Idaho Court Administrative Rule 32 provide for confidentiality, under certain conditions, of records that contain information about juvenile offenders. (4-11-15)
b. All matters relating to confidentiality of juvenile offender files must also comply with the federal Health Insurance Portability and Accountability Act (HIPAA) and 42 CFR Chapter 1, Sub-Chapter A, Part 2, “Confidentiality of Alcohol and Drug Abuse Patient Records.” (4-11-15)
c. Restricted clinical information, as defined, and education and medical records must each be filed separately and stored in a secured area. (4-11-15)
d. For residential treatment providers that serve sex offenders, individual treatment assignments, such as journals and detailed sexual histories, must be destroyed at the time the juvenile offender is transferred or released from the program. (4-11-15)
e. The residential treatment provider must have written policies and procedures to address the confidentiality of juvenile offender records. In compliance with HIPAA’s privacy regulations, written procedures shall designate a privacy officer who will:
i. Supervise the maintenance of identifiable personal health care information; (4-11-15)
ii. Serve as custodian of all confidential juvenile offender records; and (4-11-15)
iii. Determine to whom records may be released. (4-11-15)

03. Automated Records. Automated records must include a procedure to ensure confidentiality and be in compliance with any state or federal privacy laws pertaining to those records. The procedure must also include provisions for backing up automated records. (4-11-15)

04. Restrictions to Records Access. (4-11-15)
a. Access to personal health information must be limited to:
i. Employees of the Department and the residential treatment provider, to the extent necessary to perform normal business functions, including health treatment, and other functions designed to maintain the good order, safety and security of the juvenile offenders or the program; (4-11-15)
ii. Individuals participating in a staffing for a juvenile offender, who have a direct need to know the information, and who are obligated to or promise to maintain the confidentiality of information disclosed. These
individuals may include employees or representatives of law enforcement, the Department, the residential treatment provider, probation officer, medical or mental health professionals and other appropriate individuals; and (4-11-15)

iii. Law enforcement members, emergency medical personnel, the Idaho Department of Health and Welfare or the applicable state licensing authority, and similar court or government officials, as necessary to perform their duties, and only if not otherwise prohibited by state or federal law or rule. (4-11-15)

b. Access to all other confidential juvenile offender records must be limited to the following authorized persons:

i. Staff authorized by the residential treatment provider and members of the administrative staff of the residential treatment provider’s parent agency; (4-11-15)

ii. A parent or guardian or the juvenile offender, to the extent that disclosure is not privileged and is clinically appropriate; (4-11-15)

iii. Appropriate staff of the Department; (4-11-15)

iv. Counsel for the juvenile offender with signed consent form; (4-11-15)

v. Judges, prosecutors, juvenile probation officers, and law enforcement officers, when essential for official business; (4-11-15)

vi. Other individuals and agencies approved by the Department; and (4-11-15)

vii. Schools, as appropriate. (4-11-15)

05. Withholding of Information. If the Department or the residential treatment provider believes that information contained in the record would be damaging to the juvenile offender’s treatment or rehabilitation, that information may be withheld from the juvenile offender, parent or guardian, or others, except under court order. (4-11-15)

06. Retention of Juvenile Records. At the time of transfer or release from Department custody, all case management records must be forwarded to the juvenile correctional center in Nampa. (4-11-15)

07. Requests for Information. Requests for information of any kind about juvenile offenders in Department custody, following their release or transfer from a residential treatment provider’s program must be directed to the juvenile correctional center in Nampa. (4-11-15)

08. Document Reproduction. The residential treatment provider agrees that documents provided by the Department shall not be distributed without written permission from the Department. (4-11-15)

221. RELEASE FORMS.

01. Release of Non-medical Information. The juvenile offender, parent or guardian, and Department representative must sign a release of information and consent form before information about the juvenile offender is released to any non-juvenile justice entity. A copy of the consent form must be maintained in the juvenile offender’s file at the program and in the case management file maintained by the Department. (4-11-15)

02. Release of Medical Information. Release of medical information requires more specific authorization. The residential treatment provider must abide by IDAPA 05.02.02, Section 262, “Rules for Staff Secure Providers” ; or IDAPA 05.02.03, Section 262, “Rules for Reintegration Providers”; or IDAPA 05.02.04, Section 262, “Rules for Supported Living Providers,” as applicable. (4-11-15)

03. Minimum Information. The release of information and consent form must, at a minimum, include the following:
a. Name of person, agency or organization requesting information; (4-11-15)
b. Name of person, agency or organization releasing information; (4-11-15)
c. The specific information to be disclosed; (4-11-15)
d. The date consent form is signed; (4-11-15)
e. Signature of the juvenile offender and the parent or guardian if the juvenile offender is under the age of 18; (4-11-15)
f. The signature of the person witnessing the juvenile offender’s signature; and (4-11-15)
g. Effective and expiration dates. (4-11-15)

222. JUVENILE OFFENDER PHOTOGRAPHS.

01. Limitations. No juvenile offender in the custody of the Department may be used in person or by photograph or any other visual image for the express purpose of any fund raising efforts. (4-11-15)

02. Department Authorization. Permission to release or use the photographs and any other visual image of juvenile offenders in the custody of the Department must require written authorization from the Department Director or designee. (4-11-15)

223. RESEARCH PROJECTS.

01. Written Policy. The residential treatment provider must have a written policy regarding the participation of juvenile offenders in research projects. The policy must prohibit participation in medical or pharmaceutical testing for experimental or research purposes. (4-11-15)

02. Voluntary Participation. Policies must govern voluntary participation in non-medical and non-pharmaceutical research programs. However, juvenile offenders must not participate in any research program without prior written approval from the Director or designee. (4-11-15)

224. PROHIBITED CONTACT AND PRISON RAPE ELIMINATION ACT (PREA) COMPLIANCE.

01. Sexual Abuse of Juvenile Offenders. The residential treatment provider must have written policies and procedures mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency’s approach to preventing, detecting, and responding to such conduct. These policies and procedures must contain, at a minimum, the following: (4-11-15)

   a. The prohibition of any sexual abuse or sexual harassment as defined in PREA Standards or as defined in Title 18, Chapter 61, Section 18-6110, Idaho Code; (4-11-15)

   b. The appointment of a PREA Coordinator, as outlined in PREA Standards 28 C.F.R. 115.311(c), to be determined by the program director; (4-11-15)

   c. Procedures that enable juvenile offenders to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine well-being checks as outlined in PREA Standards 28 C.F.R. 115.315(d); (4-11-15)

   d. The requirement of staff of the opposite gender to announce their presence when entering a housing unit or any area where juvenile offenders are likely to be showering, performing bodily functions, or changing clothing as outlined in PREA Standards 28 C.F.R. 115.315(d); (4-11-15)

   e. The provision of multiple avenues for a juvenile offender or a third party to report sexual abuse and
sexual harassment, at least one of which must be external to the agency as outlined in PREA Standards 28 C.F.R. 115.351;  

f. The process for gathering information to make classification and housing decisions to reduce the risk of sexual victimization as outlined in PREA Standards 28 C.F.R. 115.342;  

g. The handling of all information regarding sexual abuse or sexual harassment with confidentiality as outlined in PREA Standards 28 C.F.R. 115.361(c);  

h. The process to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior as outlined in PREA Standards 28 C.F.R. 115.322;  

i. Policies to protect all residents and staff who report sexual abuse or sexual harassment from acts of retaliation as outlined in PREA Standards 28 C.F.R. 115.367;  

j. The provision of timely and unimpeded access to crisis intervention services, medical, and mental health care to victims as outlined in PREA Standards 28 C.F.R. 115.382(a);  

k. The provision for and documentation of training to staff as outlined in PREA Standards 28 C.F.R. 115.331;  

l. The provision for and documentation of age appropriate education to juvenile offenders as outlined in PREA Standards 28 C.F.R. 115.333;  

m. Within 30 days of the conclusion of every sexual abuse investigation the residential treatment provider must conduct a sexual abuse incident review as outlined in PREA Standards 28 C.F.R. 115.386;  

n. A process that requires reporting and documentation of any instance of sexual abuse among juvenile offenders or between juvenile offenders and staff or volunteers, according to Subsection 241.01 and Subsection 241.05 of these rules. These must be reported on a form provided by the Department;  

o. A process for an initial internal investigation when sexual abuse is reported;  

p. An expected first response practice of separating the alleged perpetrator from the alleged victim until the investigation is complete;  

q. In addition to completing the form supplied by the Department, the residential treatment provider must document any and all steps taken to ensure the juvenile offender’s safety; and  

r. The residential treatment provider must report all sexual abuse to appropriate licensing authority or law enforcement when sexual abuse is suspected.  

02. Resident Access to Outside Support Services. The facility must provide residents with access to outside victim advocates for emotional support services related to sexual abuse as outlined in PREA Standards 28 C.F.R. 115.353.  

03. Sexual Victimization Survey. Residential treatment providers are required to participate in all state and federal surveys, and shall complete and submit the survey and supply the Department with copies.  

225. SUICIDE PRECAUTIONS.  

01. Policy Requirements. All residential treatment providers must have a written policy for responding to juvenile offenders who present a risk of suicide. The policy, at a minimum, shall require that:
a. Staff are regularly trained to identify, document and appropriately respond to behavior that may indicate a risk of suicide; (4-11-15)

b. The residential treatment provider utilizes medical or other staff trained by a mental health professional to review history, interview, and observe juvenile offenders new to the program in order to complete a suicide risk screening within two (2) hours of admission. The screening is done to identify any immediate threat of suicide or self-harm and the need for a suicide risk assessment; (4-11-15)

c. The residential treatment provider utilizes a mental health professional to complete a suicide risk assessment on a juvenile offender who has been identified by staff as presenting a risk of suicide. A suicide risk assessment is a system of structured and documented observation, interview and review of behavioral and mental health information. It comprises a thorough review of recent behavioral and mental health information and interviews of staff and the juvenile offender concerning the behavior that seems to present the threat of self-harm or suicide. A suicide risk assessment typically involves an assessment of the juvenile offender’s determination to act on intentions of self-harm, a determination of the depth of planning for making the attempt, the availability of the items or situations necessary for the juvenile to act on that plan and the lethality of the plan as expressed; (4-11-15)

d. The residential treatment provider utilizes a mental health professional to develop and disseminate a safety plan for each juvenile offender identified as presenting a risk for suicide. The safety plan includes a detailed supervision plan for the juvenile offender; (4-11-15)

e. Reassessment of suicide risk and whether it is reduced enough to reduce or terminate suicide precautions is made at a time determined by the mental health professional completing the assessment and is ideally completed by that same mental health professional; and (4-11-15)

f. The residential treatment provider prohibits the use of separation and isolation of juvenile offenders identified as presenting a risk, unless constant one-on-one (1 on 1) staff supervision is provided. (4-11-15)

02. Separation or Isolation. All juvenile offenders in separation or isolation are closely monitored to reduce the risk of suicidal behaviors. (4-11-15)

03. Reporting to the Department. All incidents of suicide, attempted suicide or threat of suicide must be reported to the Department in the manner described in Subsection 241.01 of these rules. (4-11-15)

226. -- 229. (RESERVED)

230. JUVENILE OFFENDER RIGHTS AND RESPONSIBILITIES.

01. Residential Treatment Provider Obligations. The residential treatment provider must respect, and not infringe upon, the rights of each juvenile offender in its program. The residential treatment provider must also be responsible for understanding the rights and responsibilities of juveniles in custody, and knowing which rights have been forfeited as a result of being placed in custody. (4-11-15)

02. Juvenile Offender Program Responsibilities. The residential treatment provider must inform each juvenile offender, upon admission to its program, of each juvenile offender’s responsibilities during the program. Additionally, each juvenile offender must have an understanding of the following program expectations:

a. Requirements needed to complete program; (4-11-15)

b. How to access medical services; (4-11-15)

c. How to file a grievance; (4-11-15)

d. How to report incidents of sexual abuse between juvenile offenders or between staff and juvenile offenders; and (4-11-15)

e. How to contact the juvenile services coordinator and juvenile probation officer. (4-11-15)
231. DISCIPLINE OF JUVENILE OFFENDERS.

01. Written Policies and Procedures. All providers offering treatment services must have comprehensive written discipline policies and procedures, which shall be explained to all juvenile offenders, families, and staff. These policies must include positive responses for appropriate behavior. They must include a provision for written notice to the juvenile offender being disciplined, a mechanism for a fair and impartial hearing to include at least one staff member not involved in the disciplinary action, and a process for appeal. (4-11-15)

02. Administration of Discipline. Discipline will be administered in a way to create a learning experience for the juvenile offender, and never in a way that degrades or humiliates the juvenile offender. Staff will make every effort to maintain control of juvenile offenders through positive methods. No juvenile offender shall supervise nor carry out disciplinary actions over another juvenile offender. (4-11-15)

   a. Prior to and upon initiating a disciplinary action, careful attention should be given to ensure the disciplinary sanctions are proportionate with the nature and circumstances of the behavior and the program rules to determine the seriousness of the misbehavior and the appropriate type of discipline. (4-11-15)

   b. Disciplinary actions are not the same as the consequences that are spelled out as a part of a service implementation plan for the juvenile offender. A residential treatment provider must make every effort to resolve problems with the least amount of formal disciplinary activity possible. Efforts should be made first to instruct and counsel the juvenile offender. (4-11-15)

   c. Any restriction of a juvenile offender’s participation in a program resulting from a formal disciplinary action must be reported in an incident report. (4-11-15)

03. Prohibited Actions. The residential treatment provider is prohibited from using certain actions as disciplinary responses as listed in the child care licensing rules of the Idaho Department of Health and Welfare. (4-11-15)

   a. Educational and vocational services; (4-11-15)

   b. Employment; (4-11-15)

   c. Medical or mental health services; (4-11-15)

   d. Food; (4-11-15)

   e. Access to family, juvenile services coordinator, juvenile probation officer, and legal counsel; and (4-11-15)

   f. Religious services. (4-11-15)

05. Appeal of Formal Disciplinary Penalties. Each residential treatment provider must have a formal written process through which a juvenile offender can appeal a disciplinary action and receive a review of the case. The residential treatment provider shall explain to the juvenile offender how to use the appeal process. The juvenile offender must be informed that the juvenile services coordinator may be included in the disciplinary process at the juvenile’s choice. (4-11-15)

232. GRIEVANCE PROCEDURES.

01. Written Procedures. The residential treatment provider must have a written grievance procedure for juvenile offenders, which shall include the right to appeal disciplinary actions against them if a separate disciplinary grievance procedure is not available. It must be written in a clear and simple manner and shall allow juvenile offenders to make complaints without fear of retaliation. (4-11-15)
02. **Grievance Forms.** The grievance procedure must be explained to the juvenile offender by a staff member who shall document the explanation in the juvenile’s file. Grievance forms must be in a location accessible to juvenile offenders without having to request such a form from staff. Completed forms should be placed in a secure area and collected daily. The provider must complete a review and discuss findings with the juvenile offender within three (3) working days of receipt of the grievance form. If the juvenile offender lives independently, the provider must have a process for the juvenile to submit grievance forms to the program director without having to request such a form from staff. A copy of the grievance and the resolution of that grievance must be attached to the quarterly report as specified in Subsection 200.02 of these rules. (4-11-15)

233. **JUVENILE OFFENDER SAFETY.**
Every juvenile offender has the fundamental right to feel safe. Residential treatment providers have the responsibility to ensure that a juvenile offender is safe while in their care. Every juvenile offender must be informed of procedures whereby a professional staff person can be contacted on a twenty-four (24) hour basis if the juvenile offender does not feel safe. The residential treatment provider’s administration must make periodic contact with juvenile offenders in the program to determine if they feel safe and are comfortable when interacting with peers and staff. (4-11-15)

234. **JUVENILE OFFENDER AND PARENT OR GUARDIAN HANDBOOK.**
The residential treatment provider must provide each juvenile offender and their parent or guardian with program handbooks that are written in an age-appropriate manner. (4-11-15)

01. **Required Content.** Handbooks must address, at a minimum, the following:
   a. Requirements needed to complete program;
   b. Juvenile offender rights and responsibilities;
   c. The means available to safely report sexual abuse and harassment;
   d. Grievance procedures;
   e. Religious services;
   f. A list of what constitutes as contraband and the consequences for its possession;
   g. The provider’s disciplinary process;
   h. Visitation, mail, and phone correspondence;
   i. The provider’s policy on searches for contraband, including a list of what constitutes contraband;
   j. The provider’s obligation to make reasonable accommodations for any disabilities, language barriers, or other special needs;
   k. The daily schedule for juvenile offenders; and
   l. A description of services or items for which a juvenile offender may be charged by the provider.

02. **Receipt of Handbook.** The juvenile offender and their parent or guardian acknowledge in writing their receipt of the juvenile offender and parent or guardian handbook. (4-11-15)

235. -- 239. (RESERVED)

240. **PROGRAM OPERATIONAL REQUIREMENTS.**
01. General Requirements. (4-11-15)
   a. Residential treatment providers shall provide vigorous programming that minimizes periods of idle
      time, addresses behavioral problems of juvenile offenders, and teaches and promotes healthy life choices.
      Programs should specifically address those factors in juvenile offender’s lives that contribute to delinquency and
      that can be realistically changed. (4-11-15)
   b. Providers shall encourage appropriate telephone contact, mail contact, and visitation between
      juvenile offenders and their families. (4-11-15)
   c. Residential treatment providers must structure and document services offered in the program so
      that continuity in case planning is obvious. Medical health, mental health, substance abuse, social skills,
      educational, vocational, independent living, and other special needs identified in the assessment must be clearly
      addressed in the service implementation plan. Services provided to address those needs must be documented
      regularly. (4-11-15)
   d. Service needs remaining at the time of release from Department custody or transfer must be
      accounted for in the reintegration plan for each juvenile offender. (4-11-15)
   e. The residential treatment provider shall not admit more juveniles into care than the number
      specified on the provider’s license. Residential treatment providers wishing to increase capacity are responsible
      for contacting the applicable licensing agency. A copy of the written confirmation to the residential treatment
      provider from the applicable licensing agency for verbal approval to exceed the licensed capacity must be forwarded
      to the Department’s Quality Improvement Services Bureau. (4-11-15)
   f. The residential treatment provider must have and strictly follow a comprehensive policy covering
      the supervision of juvenile offenders, including a plan for monitoring all movement of those juvenile offenders both
      in the facility and, as appropriate, within the community. Staff at the facility must be aware of the location of every
      juvenile offender assigned to that program at all times. (4-11-15)
   g. Programs may not, under any circumstances, involve juvenile offenders in plethysmographic
      assessments. (4-11-15)

02. Use of Polygraphs. (4-11-15)
   a. The use of polygraphs for juvenile offenders adjudicated for or documented to have demonstrated
      sexually abusive behavior, must only be undertaken by court order or under the following circumstances:
      (4-11-15)
      i. With the specific written authorization of the Department’s regional clinical supervisor; (4-11-15)
      ii. Only with the full, informed consent of the juvenile offender; and (4-11-15)
      iii. If the juvenile offender is a minor, only with the full, informed consent of the parent or guardian.
      (4-11-15)
   b. Polygraphers used in this process must be able to provide documentation of certification by the
      Sexual Offender Management Board in the use of polygraphy with juvenile offenders. (4-11-15)
   c. Residential treatment providers must not make treatment decisions solely on the results of a
      polygraph. (4-11-15)
   d. Polygraph reports must be sent to the juvenile services coordinator by the residential treatment
      provider. (4-11-15)

241. INCIDENT REPORTING REQUIREMENTS. (4-11-15)
   01. Incidents Requiring Immediate Notice to Parent or Guardian and Department. All
       notifications under this section must be made to the regional facility in the region where the residential treatment
provider is located. Out-of-state providers must notify the juvenile correctional center in Nampa. Residential treatment providers must ensure that a detailed, written incident report is completed and signed by involved staff before the end of the shift during which the incident took place. If any of the following events occur, the residential treatment provider must immediately notify the juvenile offender’s parent or guardian, juvenile services coordinator, juvenile probation officer, and the Department’s regional facility by telephone (not by facsimile or electronically). The Department’s regional R.N. must also be notified immediately in the event of all medical and mental health incidents.

a. Medical and mental health emergencies including, but not limited to:
   i. Every instance of emergency room access;
   ii. Refusal of medications, treatment recommended by a physician, or food for three (3) days;

b. Major incidents such as:
   i. Death of a juvenile offender;
   ii. Suicide, attempted suicide or threat of suicide;
   iii. Attempted escape;
   iv. Sexual abuse among juvenile offenders or by staff including, but not limited to, incidents reportable under PREA;
   v. Criminal activity resulting in arrest, detention, or filing a report with local law enforcement;
   vi. Any other relevant report made to the Idaho Department of Health and Welfare or applicable state agency;

c. Any incident of restraint which involves the use of medications, chemicals, or mechanical devices of any kind;

d. Incidents of alleged or suspected abuse or neglect of juvenile offenders;

e. Incidents involving major disasters affecting location or well-being of the juveniles; and

f. Any restriction of a juvenile offender’s family visitation due to the juvenile’s behavior.

g. A written incident report must also be transmitted within twenty-four (24) hours to the juvenile offender’s parent or guardian, juvenile services coordinator, and the juvenile probation officer, unless notification to the juvenile offender’s parent or guardian would endanger the juvenile. Transmission of all written incident reports may be electronic or by facsimile.

02. Escapes Also Require Immediate Notice to Parent or Guardian and Department. In all instances of escape, the residential treatment provider must immediately notify the juvenile correctional center in Nampa first, followed by the regional facility, juvenile offender’s parent or guardian, juvenile services coordinator, and juvenile probation officer by telephone (not by facsimile or electronically). A written incident report must also be transmitted within twenty-four (24) hours to the juvenile offender’s parent or guardian, juvenile services coordinator, and the juvenile probation officer, unless notification to the juvenile offender’s parent or guardian would endanger the juvenile offender. Transmission of all written incident reports may be electronic or by facsimile. Upon apprehension, all of the same parties must be notified immediately.

a. Clothing and other personal belongings must be secured immediately and maintained in a secure place until returned to the Department.
b. The juvenile offender shall continue to be assigned to the program, although not physically present, for up to forty-eight (48) hours. The program will be reimbursed for the days the juvenile offender was on escape status up to forty-eight (48) hours. Should the program, in consultation with the juvenile offender’s treatment team, choose to transfer the juvenile offender after returning, then the procedures outlined in IDAPA 05.02.02, Section 237, “Rules for Staff Secure Providers”; or IDAPA 05.02.03, Section 237, “Rules for Reintegration Providers”; or IDAPA 05.02.04, Section 237, “Rules for Supported Living Providers,” as applicable, shall apply. (4-11-15)

03. Incidents Requiring Immediate Notice to Department and Three Day Notice to Parent or Guardian. The following incidents require immediate notice to the juvenile services coordinator in the manner described in Subsection 241.01, and require notice within three (3) business days to parent or guardian of the juveniles involved.

a. Any use of separation or isolation for more than two (2) hours; (4-11-15)

b. Incidents involving the disclosure of criminal behavior by juvenile offenders; (4-11-15)

c. Instances of physical assault or fighting; (4-11-15)

d. Major misconduct by one (1) or more staff against a juvenile offender; (4-11-15)

e. Discovery of contraband that represents an immediate threat to safety and security such as weapons or drugs; (4-11-15)

f. Any instance of an unclothed body search or a body cavity search of a juvenile offender; (4-11-15)

g. Other than incidents described in Paragraph 241.01.e., significant property damage resulting from misconduct, negligence, or from incidents such as explosions, fires, floods, or other natural disasters; and (4-11-15)

h. Any pattern of restraint of a juvenile, which is defined as three (3) or more restraints within a twenty-four (24) hour period. (4-11-15)

04. Incidents Requiring Notice Within Three Days to the Department. (4-11-15)

a. Residential treatment providers must ensure that a detailed, written incident report is completed and signed by involved staff before the end of the shift during which the incident took place. A copy of the completed incident report must be submitted to the juvenile services coordinator no later than three (3) business days after the incident. (4-11-15)

b. A detailed incident report is also required for each incident of juvenile offender misconduct that is not reportable under Subsection 241.03 and results in any type of:

i. Instances of lost keys, equipment, or tools; (4-11-15)

ii. Discovery of contraband not posing an immediate risk; or (4-11-15)

iii. A pattern of refusal of program participation that rises to the point of raising questions about the appropriateness of the placement. (4-11-15)

c. A detailed incident report is also required for each incident of staff misconduct relating to juvenile care that is not reportable under Subsection 241.03 and results in any type of:

i. Any physical restraint that does not involve the use of medications, chemicals, or mechanical devices of any kind; or (4-11-15)

ii. Separation, isolation, or room confinement for more than fifteen (15) minutes but less than two (2) hours. (4-11-15)
05. **Incident Report Content.** Residential treatment providers may elect to use the Department’s standard incident report form or may use another form as long as all of the following information is included:

a. Juvenile offender’s assigned unit or location; (4-11-15)
b. Date, location, and time of the incident; (4-11-15)
c. Witnesses and other staff and juvenile offenders involved; (4-11-15)
d. Persons notified with date and time of notice; (4-11-15)
g. Brief narrative description of the incident; (4-11-15)
e. Type of incident by category, such as assault against staff or juvenile offender, behavioral and psychiatric emergency, contraband, escape, injury or illness, self-harm or suicidal behavior, or sexual abuse; (4-11-15)
f. Action taken by category, such as restraint, separation, isolation, or room confinement with times in and out, visitation restrictions due to juvenile offender behavior, suicide precautions initiated, or escape precautions initiated; (4-11-15)
h. Signature of staff and reviewing supervisor, which may be affixed electronically; (4-11-15)
i. Documentation of injury and medical attention provided; and (4-11-15)
j. If the incident involves sexual abuse, the incident report must include a description of action taken to:
   i. Keep the alleged victim(s) safe from intimidation of further abuse and maintain confidentiality; (4-11-15)
   ii. Address any immediate trauma, either physical or emotional; (4-11-15)
   iii. Address long-term medical or mental health needs related to the alleged abuse; (4-11-15)
   iv. Notify responsible licensing, regulatory, and law enforcement agencies and preserve evidence; (4-11-15)
   v. Conduct an initial internal investigation of the incident and as necessary request that an external investigation be completed; and (4-11-15)
   vi. Prevent repetition of the abusive situation. (4-11-15)

242. **ADDITIONAL PROGRAM POLICY REQUIREMENTS.**

01. **Written Policies.** In addition to other policy requirements listed in these rules, residential treatment providers must have, at a minimum, the following written policies concerning program operations available at the program site:

a. Program elements and implementation; (4-11-15)
b. Admission policy describing the target population and criteria for admission, and identifying sources of referrals to the program; (4-11-15)
c. Criteria for assigning juvenile offenders to different units within the program, if applicable;
d. The provision of (or referral for) emergency and routine medical and mental health services for the population; (4-11-15)

e. Behavior management within the program, including use of points and levels, restraints, separation, detention and other types of special management; (4-11-15)

f. Supervision of juvenile offenders policy that shall include managing juvenile offender movement within the program, including the timely transfer of behavioral information about juvenile offenders from staff during shift changes; (4-11-15)

g. Juvenile offender’s access to the community policy that shall include use of community schools or job sites, and individual or group activities away from the program site. This also includes individual community passes; (4-11-15)

h. Administrative coverage in emergency situations, after regular work hours; (4-11-15)

i. Documentation and reporting of critical incidents to program administrators, the Department and others on the community treatment team; (4-11-15)

j. Treatment planning and progress reporting to the Department, juvenile offender, family and others on the community treatment team; (4-11-15)

k. Reintegration policy that shall describe criteria for successful completion of program, termination from program prior to completion, and the involvement of the Department and community treatment team; and (4-11-15)

l. Emergency procedures in the event of a natural disaster; (4-11-15)

02. Documented Staff Training. Documented staff training on these policies must also be available for review by the Department. (4-11-15)

243. -- 999. (RESERVED)
000. LEGAL AUTHORITY.

01. Section 20-504(10), Idaho Code. Pursuant to Section 20-504(10), Idaho Code, the department has authority to establish minimum standards for the operations of all private residential and nonresidential facilities and programs which provide services to juvenile offenders committed to the department. (4-11-15)

02. Section 20-504(12), Idaho Code. Pursuant to Section 20-504(12), Idaho Code, the department has authority to adopt such administrative rules pursuant to the procedures provided in Chapter 52, Title 67, Idaho Code, as are deemed necessary or appropriate for the functioning of the department and the implementation and administration of the Juvenile Corrections Act. (4-11-15)

03. Interstate Compact on Juveniles. By the provisions of Sections 16-1901, et seq., Idaho Code, the “Interstate Compact on Juveniles,” the department is authorized to promulgate rules and regulations to carry out more effectively the terms of the compact. (4-11-15)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 05.02.02, “Rules for Staff Secure Providers,” IDAPA 05, Title 02, Chapter 02. (4-11-15)

02. Scope. These rules are established to ensure that the juvenile corrections system in Idaho will be consistently based on the following principles: accountability; community protection; and competency development. These rules apply to providers of treatment services identified in individual service implementation plans. (4-11-15)

002. WRITTEN INTERPRETATIONS.

In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency has written statements which pertain to the interpretations of these rules. The document is available for public inspection and copying at cost at the Idaho Department of Juvenile Corrections, 954 W. Jefferson St., P.O. Box 83720, Boise, Idaho 83720-0285. (4-11-15)

003. ADMINISTRATIVE APPEALS.

This chapter does not provide for appeal of the administrative requirements for agencies. (4-11-15)

004. INCORPORATION BY REFERENCE.

There are no documents incorporated by reference into these rules. (4-11-15)

005. OFFICE -- OFFICE HOURS -- MAILING ADDRESS AND STREET ADDRESS.

The Idaho Department of Juvenile Corrections is located at 954 W. Jefferson St., Boise, Idaho 83720-0285. Business hours are typically 8 a.m. to 5 p.m., Monday through Friday, excluding holidays. The telephone of the office is (208) 334-5100 and the telecommunications relay service of the office is 1 (800) 377-1363 or 711. The facsimile number of the office is (208) 334-5120. (4-11-15)

006. PUBLIC RECORDS ACT COMPLIANCE.

The records associated with the providers are juvenile records of the Idaho Department of Juvenile Corrections, and are subject to the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (4-11-15)

007. -- 009. (RESERVED)

010. DEFINITIONS.

01. Body Cavity Search. The examination and possible intrusion into the rectal or vaginal cavities to detect contraband. It is performed only by the medical health professional. (3-25-16)

02. Body Search, Clothed. Also referred to as a Pat Search. A search during which a juvenile offender
is not required to remove their clothing, with the exception of such items as a jacket, hat, socks and shoes. (4-11-15)

03. **Body Search, Unclothed.** Also referred to as a Strip Search. A search during which a juvenile offender is required to remove all clothing that is conducted by a medical health professional. (4-11-15)

04. **Education Plan.** A written plan for general education students outlining the coursework they will complete each year towards meeting the Idaho Content Standards recommended coursework for their grade level based on assessed academic, emotional, developmental and behavioral needs, and competencies. Students qualifying for Individuals with Disabilities Education Act (IDEA) services will have an Individual Education Plan (IEP) in lieu of an education plan. (4-11-15)

05. **General Education Student.** A student who does not qualify for special education services under the Individuals with Disabilities Education Act (IDEA). (4-11-15)

06. **Health Services.** Including, but not limited to, routine and emergency medical, dental, optical, obstetrics, mental health, or other related health service. (4-11-15)

07. **Independent Living Services.** Services that increase a juvenile offender's ability to achieve independence in the community. (4-11-15)

08. **Individual Community Pass.** Any instance in which a juvenile offender leaves the residential treatment provider's facility for a planned activity, without direct supervision by at least one (1) residential treatment provider or department staff. Regular school or work attendance, regular participation in off-site treatment sessions or groups and other regular off-site activities specifically included in the service implementation plan or written reintegration plan and approved by the juvenile services coordinator are not included in this definition. Individual community passes include, but are not limited to:

   a. Day passes with family or other, approved individuals; (4-11-15)
   b. Day or overnight home visits; (4-11-15)
   c. Recreational activities not otherwise approved as a part of a group activity; and (4-11-15)
   d. Funeral leave. (4-11-15)

09. **Individual Education Plan (IEP).** A written document (developed collaboratively by parents and school personnel) which outlines the special education program for a student with a disability and is based on assessed academic, emotional, developmental and behavioral needs, and competencies. This document is developed, reviewed, and revised at an IEP meeting at least annually. (4-11-15)

10. **Medical Health Assessment.** A thorough review to determine a juvenile offender's comprehensive health needs. This information is used to develop the medical terms of a juvenile offender's service plan. (4-11-15)

11. **Medical Health Professional.** An individual who meets the applicable state's criteria as a licensed LPN, RN, nurse practitioner, physician assistant, physician or the equivalent. (4-11-15)

12. **Medical Health Screening.** A process used to quickly identify a juvenile offender's immediate health needs and to determine if there are any immediate needs related to a chronic health condition. (4-11-15)

13. **Mental Health Assessment.** A thorough review to determine a juvenile offender's comprehensive mental health needs. This information is used to develop the medical terms of a juvenile offender's service plan. (4-11-15)

14. **Mental Health Screening.** A process used to quickly identify a juvenile offender's immediate mental health needs and to determine if there are any immediate needs related to a chronic mental health condition. (4-11-15)
15. **Privileged Mail.** Mail between the juvenile offender and their attorneys, legal aid services, other agencies providing legal services to juvenile, or paraprofessionals having legitimate association with such agencies; judges and clerks of federal, state and county courts; public officials and their authorized representatives acting in their official capacities; and the communications with clergy of the juvenile's faith. (4-11-15)

16. **Staff Secure Facility.** Secure residential facility with awake staff twenty-four (24) hours a day, seven (7) days a week for intensive supervision of juvenile offenders. This includes architecturally secure residential facilities. (4-11-15)

011. -- 099. (RESERVED)

100. **INITIATION OF SERVICES.**
Juveniles are committed to the department under the provisions of the Juvenile Corrections Act (Sections 20-501 through 20-547, Idaho Code). (4-11-15)

101. **WAIVER AND VARIANCE.**
Minimum program standards established herein shall apply to all services provided by the provider. Any waiver and variance from the standards stated in these rules must receive prior written approval from the department and must be attached as a formal amendment to the contract. (4-11-15)

102. **APPLICABILITY.**
This chapter applies to providers of treatment services identified in individual service implementation plans. Staff secure providers must also abide by IDAPA 05.02.01, “Rules for Residential Treatment Providers.” (4-11-15)

103. -- 199. (RESERVED)

200. **AUTHORITY TO INSPECT.**
The department shall have the authority to conduct reviews of programs, program operations, juvenile offender placements, and facilities to ensure the provider's compliance with these rules. The provider shall cooperate with the department's review, and must provide access to the facility and all juvenile records for juveniles in department custody, as deemed necessary by the department. However, in order to more fully assess the operation of the program, aggregate data and information for all juveniles must be made available. (4-11-15)

201. **COMPLIANCE WITH RULES REQUIREMENTS.**
The provider must comply with all relevant child care licensing rules of the Idaho Department of Health and Welfare, IDAPA 16.06.02, “Rules Governing Standards for Child Care Licensing,” as well as the rules of the Idaho Department of Juvenile Corrections. Providers located outside of the state of Idaho must comply with their state's relevant child care licensing rules as well as the rules of the Idaho Department of Juvenile Corrections. If a conflict exists between department rules, the more restrictive rule applies. Any and all subcontractors and consultants of the provider are also subject to these rules. (4-11-15)

202. **MINIMUM MANDATORY STAFF TRAINING REQUIREMENTS.**
Good professional practice in the area of juvenile offender treatment requires staff to be competently trained. Therefore, all staff is required to have eighty (80) hours of training for all staff during first year of employment. Up to twenty-five percent (25%) of the eighty (80) hours may be fulfilled by working with an experienced staff mentor, who must verify and document basic competencies for new staff; and forty (40) hours of training per year following the first year of employment. (4-11-15)

203. **CLOTHING AND PERSONAL ITEMS.**

01. **Clothing Management.** Juvenile offenders must have sufficient and appropriate clothing to participate in activities included in their service implementation plan. Juvenile offenders may arrive at the facility with their own clothing and personal items, which shall be inventoried. If the juvenile offender does not have sufficient or appropriate clothing, the provider must provide or purchase adequate and appropriate clothing for the juvenile offender. The provider will ensure the proper care and cleaning of clothing in the juvenile offender's possession. Providers shall not request nor require that the juvenile offender, parent or guardian pay for or purchase clothing. (4-11-15)
02. **Release from Facility.** All clothing and incidentals become the property of the juvenile offender upon release from the facility. (4-11-15)

03. **Replacement Clothing.** Clothing provided or purchased as replacement will be at the expense of the provider. Unique items of clothing not required for program participation may be purchased at the expense of the juvenile offender. (4-11-15)

204. **FOOD SERVICE.**
Juvenile offenders must be served a varied and nutritional diet with menus approved or developed by a qualified nutritionist or dietician and which meet the recommended dietary allowances of the National Research Council or its equivalent. Juvenile offenders must be provided three (3) meals daily in accordance with the child care licensing rules of the Idaho Department of Health and Welfare, or the applicable state's licensing authority. (4-11-15)

205. **RELIGIOUS SERVICES.**
The provider must ensure that attendance at religious services is voluntary. No juvenile offender shall be required to attend religious services, and no juvenile offender shall be penalized for not attending nor given privileges for certain attendance. The provider's staff schedule must not encourage or discourage participation in general or specific religious services or activities. (4-11-15)

01. **Voluntary Practice.** All juvenile offenders must be provided the opportunity to voluntarily practice their respective religions in a manner and to the extent that will not compromise the safety, security, emotional, or physical well-being of the juvenile offenders in the facility. (4-11-15)

02. **Attendance.** Juvenile offenders may be permitted to attend religious services of their choice in the community as long as community safety is ensured. (4-11-15)

03. **Transportation.** Programs must, when reasonably possible, arrange transportation for those juvenile offenders who desire to take part in religious activities of their choice in the community. (4-11-15)

04. **Risk to Community.** If the juvenile offender cannot attend religious services in the community because staff has determined that the juvenile is an escape risk, or otherwise presents a risk to the safety of the community, the provider must make reasonable efforts to ensure that the juvenile offender has the opportunity to participate in religious services of the juvenile's choice at the facility. (4-11-15)

05. **Visits.** Juvenile offenders must be permitted to receive visits from representatives of their respective faiths. (4-11-15)

206. **EMPLOYMENT OF JUVENILE OFFENDERS.**

01. **Employment.** If juvenile employment away from the program site is a part of the program, written policy and procedure must provide that program resources and staff time are devoted to helping employable juvenile offenders locate employment. Programs must ensure that each employment opportunity meets all legal and regulatory requirements for juvenile employment. The juvenile offender's employer must be consulted at least twice monthly by the provider concerning the juvenile offender's work abilities and performance on the job-site. Additionally, the provider must make checks on the job-site at least monthly to ensure the juvenile offender is working under acceptable conditions, and shall document these checks in the juvenile offender's progress report. Under no circumstances should staff or the families of staff benefit financially, or otherwise, from work done by juvenile offenders in the program. (4-11-15)

02. **Employment Opportunities.** Every reasonable effort must be made to select employment opportunities that are consistent with the individual interests of the juvenile offender to be employed. Preference will be given to jobs that are related to prior training, work experience, or institutional training, and may be suitable for continuing post-release employment. Reasonable effort must be made to provide a juvenile offender with the highest paying job possible. Income earned by a juvenile offender must be handled consistent with Subsection 207.04 of these rules. (4-11-15)

207. **PERSONAL FUNDS.**
01. Funds Handled by a Provider. The provider will follow generally accepted accounting practices in managing personal funds of juvenile offenders. (4-11-15)

a. The provider may deposit personal funds collected for the juvenile offender in a public banking institution in an account specifically designated “Juvenile Personal Funds.” The provider must maintain a reconciled ledger showing each juvenile offender's deposits and withdrawals within the “Juvenile Personal Funds” account. If the funds are collected in an interest bearing account, the interest accrued must be credited to the juvenile offender for whom the funds are collected. (4-11-15)

b. If the amount of personal funds maintained for the juvenile offender does not exceed fifty (50) dollars, the provider may secure the funds locally if the following conditions are met: (4-11-15)

i. The juvenile offender's personal funds are kept in a fire-resistant, combination or digital lock-style safe that is permanently affixed to the floor or wall, or weighs at least 200 (two-hundred) pounds. (4-11-15)

ii. The provider has a process to clearly separate each juvenile offender's personal funds from one another. (4-11-15)

iii. Access to juvenile offender personal funds is limited to the Program Director or designee. (4-11-15)

c. All withdrawals by a juvenile offender, or expenditures made on behalf of a juvenile offender by the provider, must be documented, signed, and dated by the juvenile offender. This documentation must be reconciled to the juvenile offender's ledger monthly. (4-11-15)

d. The provider must develop written procedures governing any limits to the amount of funds a juvenile offender may withdrawal from their personal funds. (4-11-15)

e. The provider shall not require juvenile offenders, parents, or guardians to pay for services and supplies that are to be provided by the provider. (4-11-15)

02. Reporting Requirements. A personal funds report must be submitted every other month to the juvenile services coordinator. The report must show a list of all juvenile offender account balances. The personal fund account is subject to review and audit by the department or its representatives at any time. Any discrepancies in juvenile offender accounts must be resolved by the provider within five (5) business days of completion of review. (4-11-15)

03. Juvenile Offenders with Earned Income. The provider is responsible for maintaining and accounting for any money earned by a juvenile offender. There must be a plan for the priority use of the juvenile offender's earned income to pay court ordered restitution, as referenced in Subsection 208.02 of these rules, and a specific allocation for daily incidental expenses. The provider must establish a written plan for the juvenile offender to save the funds necessary to be used upon program completion, for purposes such as paying deposits on utilities and housing or the purchasing of resources necessary for employment. (4-11-15)

04. Transfer of Personal Funds. If a juvenile offender is transferred to another program, the balance of the juvenile offender's funds must be given or mailed to the department's fiscal services within ten (10) business days and documented on the Provider Juvenile Check-Out Form supplied by the department, and on the final progress report. (4-11-15)

208. COMMUNITY SERVICES AND RESTITUTION.

01. Community Service. Juvenile offenders may have court-ordered community service hours. The provider must obtain prior approval from the juvenile probation officer to complete any court-ordered community service hours while at the provider. The provider shall be responsible for documenting approved community service hours and reporting the accumulation of completed hours in the juvenile offender's progress report. (4-11-15)
02. Court Ordered Restitution. The provider must create a plan for the juvenile offender to submit a portion of a juvenile offender's personal funds or earned income for the payment of restitution as described in this section. The provider must work with the juvenile probation officer and juvenile services coordinator to determine the amount of restitution owed. When juvenile personal funds are available the provider will submit payment to the county until the restitution amount is satisfied. Documentation of the payment is provided to the juvenile services coordinator. Court ordered restitution must be a claim against and paid from the juvenile offender's personal funds account in the amount of fifty percent (50%) of those funds. Should the juvenile offender have no other funds available, then a plan must be developed by the provider to assist the juvenile offender in earning the amount of restitution and, if appropriate, help him develop a payment plan. (4-11-15)

03. Restitution for Program Damages. Monetary restitution may only be sought through a court order when a juvenile offender has damaged or destroyed property, or has caused or attempted to cause injury to other juvenile offenders or staff. Restitution for damages at the program will not be paid to the exclusion of court ordered restitution. The provider must not access the juvenile offender's personal funds for program damages. Restitution for damages must begin with a plan for repair by the juvenile offender. (4-11-15)

209. JUVENILE OFFENDER MAIL.

01. Restrictions. Juvenile offenders shall be allowed to send and receive letters from approved persons, which may include persons in other programs or institutions, unless specifically prohibited by the department or by court order. All other restrictions of mail must be discussed with the community treatment team, approved in writing by the juvenile services coordinator, and documented in the juvenile offender's service implementation plan. There must be no general restrictions on the number of letters written, the length of any letter, or the language in which a letter may be written. Juvenile offenders will be provided with sufficient stationery, envelopes, and postage for all legal and official correspondence, and for at least two (2) personal letters each week. (4-11-15)

02. Inspection of Outgoing Letters.
   a. Outgoing letters are to be posted unsealed and inspected for contraband. (4-11-15)
   b. Exception: Outgoing “privileged” mail may be posted, sealed and may not be opened, except with a search warrant, as long as it can be confirmed to be to an identifiable source. For purposes of this rule, “an identifiable source” means that the official or legal capacity of the addressee is listed on the envelope and that the name, official or legal capacity, and address of the addressee have been verified. (4-11-15)
   c. Upon the determination that the mail is not identifiable as privileged mail, said mail shall be opened and inspected for contraband. (4-11-15)

03. Inspection of Incoming Letters. All incoming letters must be opened by the juvenile offender to whom it is addressed and may be inspected for contraband by staff and only in the juvenile offender's presence. (4-11-15)

04. Reading of Letters. Routine reading of letters by staff is prohibited. The department or court may determine that reading of a juvenile offender's mail is in the best interest of the juvenile offender, and is necessary to maintain security, order or program integrity. However, such reading of mail must be documented and unless court ordered, must be specifically justified and approved by the juvenile services coordinator. (4-11-15)

05. Privileged Mail. Under no circumstances shall a juvenile offender's privileged mail be read. (4-11-15)

06. Packages. All packages must be inspected for contraband. (4-11-15)

07. Publications. Books, magazines, newspapers and printed matter which may be legally sent to juvenile offenders through the postal system may be approved, unless deemed to constitute a threat to the security, integrity, or order of the programs. Juvenile offenders shall not be allowed to enter into subscription agreements while in department custody. (4-11-15)
08. Distribution of Mail. The collection and distribution of mail must never be delegated to a juvenile offender. Staff must deliver mail within twenty-four (24) hours, excluding weekends and holidays, to the juvenile offender to whom it is addressed. (4-11-15)

210. VISITATION. The provider must develop a written policy governing visitation which protects the safety of visitors, staff, and juvenile offenders. This policy may restrict visitors below an established age to the program or facility. The provider must provide a copy of the visitation policy to each juvenile offender, his parent or guardian, and the juvenile services coordinator. If there is reason to believe a visitor is under the influence of alcohol or drugs or possesses illegal contraband, admission into the residence shall be denied. In all cases, the provider will work with the juvenile services coordinator and juvenile probation officer to identify and approve potential visitors. (4-11-15)

211. -- 219. (RESERVED)

220. SEARCHES FOR CONTRABAND.

01. Searches of Personal Items. Routine searches of personal items being introduced into the program may be conducted by staff prior to the juvenile offender taking possession of his property, or when the juvenile offender is returning to the program from an individual community pass. Search of a juvenile offender's belongings may be done at any time and must be minimally intrusive. (4-11-15)

02. Policies and Procedures Governing Consequences. The provider must have written policies and procedures establishing the consequences for juvenile offenders found with contraband. (4-11-15)

03. Visitor Searches.

a. Prior to visitors being allowed in the program, they must be given rules established by the provider that govern their visit and advised that they may be subject to a search by trained staff. They must sign a statement of receipt of these rules and it shall be placed in the provider's file. (4-11-15)

b. Visitors may be required to submit personal items for inspection. If there is reason to believe that additional searches are necessary, admission to the facility shall be denied. Visitors who bring in items that are unauthorized, but not illegal, will have these items taken and locked in an area inaccessible to the juvenile offenders during the visit. These items will be returned to the visitors upon their exit from the facility. (4-11-15)

c. All visitor searches must be documented. When contraband is found, a written report must be completed and submitted to the juvenile services coordinator. If necessary, the appropriate law enforcement agency will be notified. (4-11-15)

04. Clothed Body Searches.

a. Clothed body searches of juvenile offenders may be conducted whenever the provider believes it is necessary to discourage the introduction of contraband into the program, or to promote the safety of staff, juvenile offenders, and visitors. A clothed body search may be used when a juvenile offender is returning from a visit, outside appointment, or activity. (4-11-15)

b. Clothed body searches must be conducted in the manner required by the rules of the Idaho Department of Health and Welfare under IDAPA 16.06.02, “Standards for Child Care Licensing.” Clothed body searches of juvenile offenders will be conducted by staff of the same gender as the juvenile offender. Clothed body searches will be conducted using a pat down search on the outside of the juvenile's clothing. The staff member must have had appropriate training in conducting clothed body searches. (4-11-15)

05. Unclothed Body Searches. Unclothed body searches of juvenile offenders may only be conducted by a medical health professional and with prior written authorization from the program director or designee. Unclothed body searches must be conducted with an adult in the room, in addition to the medical health professional, who is of the same gender as the juvenile offender being searched. Unclothed body searches must be based upon a reasonable belief that the juvenile is concealing contraband or signs of abuse. Immediately after conducting an
unclothed body search the provider must notify the department's regional superintendent and the Quality Improvement Services Bureau. The provider must complete an incident report according to the requirements of IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.”

06. Body Cavity Searches. Body cavity searches of juvenile offenders may only be conducted in a medical facility outside of the residential treatment provider, by a medical health professional, and with prior written authorization from the program director or designee. Body cavity searches of juveniles will not be performed by staff, interns, or volunteers under any circumstances. Looking into a juvenile's mouth, ears, or nose does not constitute a body cavity search. Body cavity searches must be based upon a reasonable belief that the juvenile is concealing contraband. Immediately after conducting a body cavity search the provider must notify the department's regional superintendent and the Quality Improvement Services Bureau. The provider must complete an incident report according to the requirements of IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.”

07. Documentation of Searches. All searches must be documented in terms of reason for the search, who conducted the search, what areas were searched, and what type of contraband was found, if any. If a search yields contraband, the juvenile services coordinator must be notified and it shall be reported according to the requirements of IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” If necessary, the appropriate law enforcement agency should be notified.

08. Contraband Disposal. All contraband found in the possession of juvenile offenders, visitors, or staff must be confiscated by staff and secured under lock and key in an area inaccessible to juvenile offenders. Local law enforcement must be notified in the event illegal drugs, paraphernalia, or weapons are found. It shall be the responsibility of the program director, in consultation with the department, to dispose of all contraband not confiscated by police.

221. SMOKING AND SALE OF CIGARETTES. Juvenile offenders, regardless of age, are strictly prohibited from purchasing or using tobacco products. Staff secure providers must establish written policies and procedures banning the use of cigarettes and other tobacco products by juvenile offenders at the facility.

222. ROOM RESTRICTIONS.

01. Policy and Procedure. The provider must have written policies and procedures regulating the use of the juvenile offender's room for room restriction. The provider's room restriction policy must at a minimum address the following:

   a. Procedures for recording each incident involving the use of restriction;

   b. The reason for the room restriction must be explained to the juvenile offender and allow the juvenile offender to have an opportunity to explain their behavior;

   c. Other less restrictive measures must have been applied prior to the room restrictions;

   d. A juvenile offender on room restriction must have access to the bathroom;

   e. Room restriction may only be used in an unlocked area; and

   f. Room restriction must not exceed a total of eight (8) hours within a twenty-four (24) hour period.

02. Monitoring During Room Restriction. Staff must check on a juvenile offender in room restriction a minimum of once every fifteen (15) minutes. Providers must ensure that a juvenile offender with a history of depression or suicidal ideation and those who have exhibited these behaviors while in care, are checked at least every five (5) minutes in order to ensure safety. Even more frequent or constant observation must be maintained if any level of suicide risk is determined to be present at any time during room restriction. All items in the area that might be used to attempt self-harm should be restricted or removed.
223. USE OF FORCE OR PHYSICAL RESTRAINTS.
Providers licensed by the Idaho Department of Health and Welfare or the applicable state licensing authority, must ensure that all terms of the licensing rules are strictly followed. Additionally, providers must ensure that:

01. Minimal Use. Only the minimum level of force necessary to control a juvenile offender's destructive behavior shall be used.

02. Physical Force. Physical force, at any level, may only be used to prevent injury to the juvenile offender or to others and to prevent serious damage to property or escape. Physical force must never be used as punishment.

03. Reporting Requirement. All instances of use of force must be documented in an incident report and submitted according to the terms of IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” Incidents of inappropriate use of force must be reported to the state's applicable licensing authority, or law enforcement as required by law.

224. -- 229. (RESERVED)

230. PROGRAMMING.

01. Basic Program Requirements. Providers must provide opportunities and services for juvenile offenders to improve their educational and vocational competence, to effectively address underlying behavior problems, and to prepare them for responsible lives in the community. Programs provided must be gender equitable, gender specific, and culturally competent. The ultimate treatment goal for juvenile offenders involved in these programs is the successful return of juvenile offenders to the community without committing further crimes.

02. General Requirements.

a. Providers must provide a range of program services specifically designed to address the characteristics of the target population identified in the comprehensive program description and in the admission policy.

b. Programs that serve a special needs population, such as developmentally delayed or seriously emotionally disturbed juvenile offenders, and those programs serving sexually abusive juvenile offenders, must be able to demonstrate that the program services offered are supported by research.

c. Programs serving female juvenile offenders must be able to demonstrate that the services provided include elements of a program specifically designed to address the unique situations and circumstances facing female juvenile offenders. These elements must be clearly identified and described within the program description.

d. Programs designed to serve juvenile offenders with gang involvement must be able to demonstrate that the services provided include elements of a program specifically designed to address gang involvement. These elements must be clearly identified and described within the program description.

e. Program services for individual juvenile offenders must be designed based upon the juvenile's service plan, and must target those behaviors or circumstances which have contributed to the juvenile's delinquency and which can reasonably be changed (criminogenic needs). These services must be clearly identified and described within the program description.

f. Juvenile offenders must always be aware of the status of their progress within the program and what remains to be done to complete the program. Providers must assure that the basic norms and expectations of the program, including any points, levels or phases that are a fundamental part of a program, are clearly presented to the juvenile offender and that they are understood.

g. Programs that contract with the department to serve juvenile offenders and their families must:
i. Provide humane, disciplined care and supervision;  
ii. Provide opportunities for juvenile offenders' development of competency and life skills;  
iii. Hold juvenile offenders accountable for their delinquent behavior through means such as victim-offender mediation, restorative conferencing, restitution, and community service;  
iv. Seek to involve juvenile offenders' families in treatment, unless otherwise indicated for the safety and benefit of the juvenile offenders or other family members;  
v. Address the principles of accountability to victims and to the community, competency development, and community protection in case planning and reporting;  
vi. To the fullest extent possible, provide balance in addressing the interests of the victim, community, and the juvenile offender.  
vii. Participate fully with the department and the community treatment team in developing and implementing service plans for juvenile offenders they serve; and  
viii. Provide juvenile offenders with educational services based upon their documented needs and abilities.

231. GUIDELINES FOR SPECIFIC SERVICES.

01. Counseling Services.  
   a. All counseling services provided to juvenile offenders, whether individual, group or family, must be performed by a clinician, counselor, or therapist as defined in these rules.  
   b. Counseling should be planned and goal directed.  
   c. Notes must be written for each service provided and include documentation of who provided the service. The notes must be dated and clearly labeled either individual, group or family counseling.  
   d. The methods and techniques applied in counseling and the frequency and intensity of the sessions should be determined by assessment.  
   e. Counseling should be reality oriented and directed toward helping juvenile offenders understand and solve specific problems; discontinue inappropriate, damaging, destructive or dangerous behaviors; and fulfill individual needs.  
   f. The minimum standard for the frequency of counseling services must be specified in the comprehensive program description attached to the contract with the department.  
   g. There should be a mechanism developed to monitor and record incremental progress toward the desired outcome of counseling services.  
   h. Programs should be able to demonstrate that counseling interventions are shared in general with other program service providers, and there is broad mutual support for the goals of counseling in all service areas of the program.  
   i. Programs must provide crisis intervention counseling if warranted by the assessment and circumstances.  
   j. The provider must furnish adequate space for conducting private interviews and counseling sessions at the facility.
k. Family counseling services must be available as a part of the juvenile offender's service implementation plan, to the extent that this is supported by the assessment. If the assessment indicates a need for these services, family counseling should specifically address issues that, directly or indirectly, resulted in the juvenile offender's removal from the home and the issue of eventual reintegration back into the family unit. A statement of goals to be achieved or worked toward by the juvenile offender and the family should be part of the service implementation plan.

02. Substance Abuse Services. As a minimum standard, programs must provide substance abuse services as determined by assessment and indicated in the service implementation plan. Substance abuse services must have direct oversight by a certified alcohol and drug counselor, or master's level clinician with three (3) years' experience in the substance abuse field. Substance abuse services must be fully described in the detailed program description and must have a written curriculum containing a description of each session offered. Juvenile offenders receiving substance abuse services must have an introduction to a community intervention program. Relapse prevention plans must be a component of the substance abuse services provided. Relapse prevention plans must be specifically based on the individual needs of the juvenile offender. Notes documenting the service provided must be dated; clearly labeled “substance abuse services,” and each entry must be signed by the counselor performing the service.

03. Social Skills Training Including Relapse Prevention Skills. Programs must assess each juvenile offender's social skills and document specific services provided to improve functioning in this area. Additionally, every juvenile offender must have developed a written relapse prevention plan prior to successfully completing the program.

04. Life Skills and Independent Living. Programs must be able to demonstrate that juvenile offenders are taught basic life skills and that age-appropriate juvenile offenders are involved in independent living skills consistent with their age and needs. This program should include, at a minimum, instruction in:

a. Hygiene and grooming skills;

b. Laundry and maintenance of clothing;

c. Appropriate social skills;

d. Housekeeping;

e. Use of recreation and leisure time;

f. Use of community resources;

g. Money management;

h. Use of public transportation, where available;

i. Budgeting and shopping;

j. Cooking;

k. Punctuality, attendance and other employment-related matters;

l. Vocational planning and job finding skills; and

m. Basic health education.

05. Recreational Services. Programs should have a written plan for providing recreational services based on individual needs, interests, and functional levels of the population served.

a. The recreational program should include indoor and outdoor activities. Activities should minimize
television and make use of a full array of activities that encourage both solitary entertainment and small group interaction. An appropriately furnished area should be designated inside the facility for leisure activities. (4-11-15)

b. Programs should have staff educated and experienced in recreational programs to ensure good planning, organizing, supervision, use of facility, and community activities. Recreational activities considered part of the service implementation plan must be funded by the provider. The use of community recreational resources should be maximized, as long as community safety is assured. The provider must arrange for the transportation and provide the supervision required for any usage of community recreational resources. No juvenile offender shall be required to pay to participate in recreational activities made available through the program. (4-11-15)

06. Transportation Services. In all transport situations there must be at least one (1) assigned staff of the same gender, or two (2) assigned staff of the opposite gender, as the juvenile offender being transported. (4-11-15)

232. CASE MANAGEMENT REPORTING REQUIREMENTS.
Each juvenile offender's progress, or lack of progress, through these levels must be clearly documented and must be related to documented behavior. Recommendations for release from department custody or transfer should be substantiated by a documented pattern of behavioral change over a period of time. Recommendations for transfer to a higher level of custody must be substantiated by a documented lack of progress over time, or by a serious or violent incident which threatens the safety of others or the stability of the overall program. (4-11-15)

01. Service Implementation Plan. Within thirty (30) calendar days of the juvenile offender's admission into the program, a written service implementation plan must be developed. The service implementation plan must address the specific goals identified in the service plan from the observation and assessment report. The service implementation plan should, at a minimum, address the following areas as indicated by need: (4-11-15)

a. Education and employment; (4-11-15)

b. Personality and behavior; (4-11-15)

c. Substance abuse; (4-11-15)

d. Attitudes, values, and delinquent orientation; (4-11-15)

e. Family circumstances and parenting; (4-11-15)

f. Peer relations; (4-11-15)

g. Leisure and recreation; (4-11-15)

h. Sexual misconduct; (4-11-15)

i. Specialized needs; and (4-11-15)

j. Reintegration plan, including living arrangements upon release from department custody or transfer and aftercare services needed. (4-11-15)

02. Juvenile Offender and Family Involvement. Each juvenile offender and, to the fullest extent possible, the family should be involved in developing the service implementation plan, and in adjusting that plan throughout the course of commitment. (4-11-15)

03. Service Implementation Plan Adjustments. The service implementation plan should be adjusted throughout placement with the concurrence of the juvenile services coordinator following communication with the community treatment team. Specifically, the service implementation plan should be adjusted as new needs are identified, as goals are achieved, and as plans for reintegration are finalized. (4-11-15)

04. Department Assessments. Assessments provided by the department shall not be repeated by the
provider at the time of admission into the program without specific justification provided to the regional clinical supervisor. (4-11-15)

05. Participation in the Progress Assessment/Reclassification. The provider may be asked by the juvenile services coordinator to provide input necessary for periodic reassessments of the juvenile offender's progress and current risk level. In all cases, the provider must participate to the fullest extent possible. (4-11-15)

06. Progress Notes. Monthly progress notes must be filed recording each juvenile offender's progress toward completing the service implementation plan and submitted to the juvenile services coordinator. (4-11-15)

07. Progress Report. A written progress report must be submitted to the juvenile services coordinator and any designees at least every two (2) months. The progress report should focus on areas of positive change in behavior and attitudes, as well as on the factors required for a successful program completion (progress in community protection, competency development, and accountability). Areas of need that were included in the service implementation plan and identified in Subsection 232.01 of these rules should also be referenced in the progress report. Each progress report should also note any changes or further development of the reintegration plan and should detail the level of involvement of the parent or guardian in treatment. (4-11-15)

08. Relapse Prevention Plan. Prior to completing the program, the provider shall supply the juvenile with the relapse prevention plan form provided by the department. The plan must address areas of risk identified in the juvenile's service implementation plan, as well as interventions the juvenile will use to prevent future problems. While in treatment the provider will solicit feedback from the juvenile services coordinator every thirty (30) calendar days regarding the development of the juvenile's relapse prevention plan. The final relapse prevention plan is due no earlier than the date of the juvenile offender's reintegration staffing. (4-11-15)

09. Final Progress Report. A final progress report must be submitted to the juvenile services coordinator and any designees no earlier than ten (10) calendar days prior to the juvenile offender's anticipated completion of the program, and no later than the date of release. This recommendation must include:

a. A current summary of the juvenile offender's progress; (4-11-15)
b. A summary of the efforts to reach the juvenile offender's goals and objectives, including education; (4-11-15)
c. Any unresolved goals or objectives; (4-11-15)
d. Recommendation for continuing services, including education, in the home community; and (4-11-15)
e. The current address of the juvenile. (4-11-15)

10. Report Distribution. Copies of the service implementation plan, progress reports, relapse prevention plan, and final progress report must be distributed by the provider to the juvenile offender and the juvenile services coordinator and any designees. The juvenile services coordinator will review and forward the progress report to the juvenile probation officer, appropriate court, and parent or guardian, unless the juvenile offender's family has been excluded from treatment by the juvenile services coordinator and the respective clinical supervisor for some well documented reason. (4-11-15)

233. INDIVIDUAL COMMUNITY PASSES. Prior to granting any individual community pass to a juvenile offender, the provider must contact the juvenile probation officer and the juvenile services coordinator, to ensure that neither the court nor the department has placed restrictions on the juvenile offender's pass privileges. All requests for passes must be approved by the juvenile services coordinator. Any pass involving an overnight stay away from the facility, or involving special circumstances such as a sexual victim in the home, requires a written plan detailing supervision and safety measures to be taken, an itinerary for the visit, transportation plan, and must be approved in writing five (5) business days in advance by the juvenile services coordinator. Each time a juvenile offender leaves on and returns from an individual community pass, the provider must notify the juvenile correctional center in Nampa of this movement, promptly at the time that
01. Potential Risk to Public Safety. Individual passes for juvenile offenders assigned to residential facilities should be considered as an integral part of the service implementation plan. However, in all cases, the potential risk to public safety and adequacy of home supervision must be considered prior to allowing a juvenile offender to return home. It is also important that passes not interfere with the ongoing treatment and supervision needed by juvenile offenders. Providers must provide parents or guardians with clearly written guidelines for approved passes, which must be signed by parents or guardians indicating their understanding and willingness to comply with those guidelines. The department's pass form may be used for this purpose. If the department's form is not used, the form signed and agreed to by the individual assuming responsibility for supervision must contain at least the following information:

   a. The juvenile offender's name and date of birth; 
   b. The name, address and telephone number of the individual assuming responsibility; 
   c. Authorized days, dates and times for the pass, including the specific date and time of departure and return; 
   d. A complete listing of the anticipated locations and activities in which the juvenile offender is expected to be involved;
   e. Specific plans for supervision and telephone checks to verify compliance with the pass conditions; 
   f. A complete listing of the activities required during the pass; 
   g. Specific stipulations prohibiting:
      i. The use of alcohol, tobacco, and drugs; 
      ii. Involvement in any illegal activity, or association with others who may be or have been involved in illegal behavior; 
      iii. Participation in sexual relations of any kind; 
      iv. Possession of any kind of firearm or weapon; 
      v. Any violation of the terms of probation; and 
   h. Specific stipulations about search and drug testing upon return, and the possible consequences for violation of any of the terms of the pass agreement.

02. Eligibility. A juvenile offender must be in placement a minimum of thirty (30) calendar days to be eligible for any pass. Any exceptions due to extenuating circumstances must be approved by the juvenile services coordinator.

03. Frequency. Frequency of passes must be consistent with the terms of the juvenile offender's service implementation plan and provider's contract with the department.

04. Documentation. Documentation of the exact date and time of the juvenile offender's departure from the program for a pass, and return, must be maintained along with complete information about the individual assuming physical custody, transportation, and supervision during the pass.

234. GROUP ACTIVITIES OFF FACILITY GROUNDS.
An activity plan and itinerary covering activities to be engaged in, when and where the group is going, how they will travel, how long they will stay, and why the activity is being planned must be submitted to the juvenile services
coordinator at least five (5) business days prior to the activity. The activity plan must identify the specific risk elements associated with the activity and provide a safety plan for each of those risk elements. Routine, low risk activities within the local community adjacent to the facility do not require prior notice, and are to be conducted at the discretion of and under the responsibility of the provider.

01. **Recreational Activities.** A pass authorizing the participation of juvenile offenders in outdoor recreational or work activities with an increased risk, such as overnight trips, must be signed by the juvenile services coordinator and juvenile probation officer prior to the activity. Any proposed activity that involves horseback riding, boating, rappelling, rock climbing, or higher risk activity must also have the prior approval, in writing, of the department's regional superintendent.

02. **Staff Requirements.**

a. A basic first aid kit will be taken with the group. At least one (1) person certified in first aid and CPR must accompany the group.

b. Swimming, boating, or rafting will only be allowed when a staff in attendance has certification in rescue and water safety, or if a lifeguard is on duty. All juvenile offenders involved in boating or rafting activities must wear an approved personal flotation device.

c. A staff to juvenile offender ratio of one to six (1:6) will be adhered to as a minimum unless there is a reason to require more staff. The risk level of the activity, as well as any physical disabilities, high client irresponsibility, mental deficiencies, or inclusion of groups of juvenile offenders under age twelve (12), are some reasons to consider additional staff.

d. All participants will be recorded in the activity plan and identified as program clients, staff, or volunteers. The individual staff or volunteer satisfying the above first aid and CPR requirements must be identified in the plan.

e. There will be no consumption of alcoholic beverages or illicit drugs by staff or juvenile offenders, interns, or volunteers while engaged in any agency-sponsored trip or activity.

03. **Consent Forms.** Recreational activities identified as presenting a higher risk require prior written approval in accordance with Subsection 234.01 of these rules. Each juvenile offender must have prior written consent from a parent or guardian, if available, and the department's regional superintendent. Consent must include:

a. Permission for the juvenile offender's participation;

b. Acknowledgment of planned activities; and

c. Permission for the provider to seek or administer necessary medical attention in an emergency.

04. **Activity Reports.** At the conclusion of each overnight or high risk recreational activity pass, the provider must document in the juvenile offender's file and include in the progress report, any significant positive or negative events that transpired while the juvenile offender was on pass. Any unusual occurrences must be reported to the juvenile services coordinator and documented on an incident report as identified in IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” A drug screening urinalysis may be conducted on each returning juvenile offender, at the expense of the provider, and the results of that exam reported to the juvenile services coordinator.

235. **OUT-OF-STATE TRAVEL.**

When a residential treatment provider is planning an out-of-state trip for any of its juvenile offenders, the facility administrator must obtain prior written authorization from the regional clinical supervisor or designee. The necessary sequence of action and approval is as follows:
01. Notification. The residential treatment provider must notify the juvenile services coordinator in writing fourteen (14) business days in advance of the scheduled trip with the following: (4-11-15)
   a. Dates of the scheduled trip; (4-11-15)
   b. Location of the trip; (4-11-15)
   c. Purpose of the trip; (4-11-15)
   d. Transportation arrangements; (4-11-15)
   e. Where the juvenile offender will be staying if overnight accommodations are required (address and phone number); and (4-11-15)
   f. Who is going, such as juvenile offender, and name and position of staff. (4-11-15)

02. Prior Approval. The program director must obtain all necessary approvals prior to authorizing travel. (4-11-15)

03. Interstate Compact for Juveniles. Any out-of-state travel for more than twenty-four (24) hours requires a travel permit and compliance with the Interstate Compact for Juveniles. (4-11-15)

236. DRUG SCREENS OF JUVENILE OFFENDERS.
Drug screens may be done randomly or on an as needed basis, at the provider's expense, with the approval of the provider's program director. A record must be kept of all drug screens and results. A positive drug screen must immediately be reported to the juvenile services coordinator. (4-11-15)

237. PLANNING FOR RELEASE OR TRANSFER.

01. Aftercare Planning. Programs must promote continuity in programming and services for juvenile offenders after they leave the program by assuring that essential information is forwarded to those agencies that will be providing services to the juvenile offenders, and working closely with department staff throughout placement to plan for reintegration. (4-11-15)

02. Approval. Reintegration, by release from department custody or transfer, must not take place without the involvement of the department's assigned juvenile services coordinator, and the approval in writing of the regional clinical supervisor and regional superintendent. (4-11-15)

03. Department Concurrence. Preparation for reintegration of a juvenile offender begins with the initial development of a service plan and is an ongoing process throughout the juvenile offender's program. Criteria for the juvenile offender's release from department custody or transfer must be explained to the juvenile as soon as possible after admission to a program. (4-11-15)

04. Reintegration Staffing. The juvenile services coordinator shall convene a reintegration staffing, which will include the juvenile offender's probation officer, the provider, the juvenile offender's parent or guardian, an education representative, and the juvenile offender. At a minimum, a review of the plans to address any ongoing medical or mental health, substance abuse, social skills, education, vocation, independent living, and other special needs will be conducted. The juvenile offender's relapse prevention plan shall be reviewed by the juvenile probation officer, the juvenile's parent or guardian, the education representative and juvenile services coordinator. Based upon the results of that staffing and pending juvenile services coordinator approval of the relapse prevention plan, the department will make the final decision regarding transfer or release from department custody. (4-11-15)

05. Check-Out Procedures. Prior to the release from department custody or transfer, the provider must have completed a Provider Juvenile Check-Out Form supplied by the department. The form must be dated, signed by the juvenile offender, and forwarded to the juvenile services coordinator and any designees on the actual date that the juvenile offender leaves the program. (4-11-15)
a. The provider must provide the juvenile's Medicaid card, and a thirty (30) day supply of all medications or a thirty (30) day prescription signed by the physician to the individual or agency authorized to transport the juvenile offender.

b. Within two (2) business days after a juvenile offender leaves the facility or program, the provider must send any available dental or medical records to the privacy officer at the juvenile correctional center in Nampa.

c. Within two (2) business days after a juvenile offender leaves the facility or program, the provider must send a report showing the juvenile offender's total hours, credits, and associated grades directly to the juvenile correctional center in Nampa. The provider must maintain adequate documentation to support the submitted education reports. Timely receipt of these records is critical to assist the transition of the juvenile offender to another educational facility.

06. Termination Prior to Completion.

a. When a provider believes a juvenile offender is at risk for transfer prior to program completion, the juvenile services coordinator must be notified as far in advance as possible so that a staffing with the regional clinical supervisor and, if necessary, the department's regional superintendent, may be held. The purpose of this staffing is to consider the circumstances which may require the transfer, and to make every effort to address the concerns with the provider to avoid the necessity of making another placement. The provider must document these efforts at problem solving. The department will make a decision about transfer based upon the results of this staffing and any subsequent work agreed upon with the provider. The provider can request transfer of a juvenile offender in the following circumstances:

i. A pattern of documented behavior clearly indicating a lack of progress; or

ii. Commission of one (1) or more serious or violent incidents that jeopardize the safety and security of individuals or the program.

b. In matters involving life, health, and safety of any juvenile in department custody, the department shall remove the juvenile offender immediately.

c. A final progress report must include, at a minimum, a report on progress or lack of progress on all service implementation plan areas, and recommendations for follow-up. The report must be forwarded to the juvenile services coordinator within twenty-four (24) hours of release from department custody or transfer prior to program completion.

238. -- 249. (RESERVED)

250. EDUCATION SERVICES.

01. Appropriate Services. The provider must ensure that each juvenile offender is given appropriate educational and vocational services that are consistent with the juvenile offender's abilities and needs, taking into consideration age, level of functioning, and any educational requirements specified by state or federal law. Providers must assure that educational services provided as a part of an overall program play an integral part in the process of reclaiming juvenile offenders to responsible roles in society. Educational services must strive to facilitate positive behavior change by helping juvenile offenders to develop abilities in academic, workplace, and technological areas; to restructure harmful or limiting cognitive patterns; and, to adopt appropriate social interactions skills. Educational services provided by providers must use whatever combination of approaches and motivations that will best facilitate the learning process in conjunction with the service implementation plan. All educational services provided must meet all mandates of the Elementary Secondary Education Act (ESEA), the Individuals with Disabilities Education Act (IDEA), the Family Educational Rights and Privacy Act (FERPA), and the Rehabilitation Act of 1973 (Section 504).

02. Mandatory Enrollment. Providers must ensure that all juvenile offenders involved in their programs who are of mandatory school age in the applicable state, or who have not yet obtained a General
Educational Development (GED) or high school diploma, are enrolled in a school system or in a program approved and certified by the applicable state's Department of Education to provide both special education and other services. For those who have obtained a GED or high school diploma, an appropriate educational and vocational service must be provided in accordance with the service implementation plan. (4-11-15)

03. Cooperative Relationships. Providers may provide educational services through a cooperative agreement with the local education agency or through an in-house educational program administered by the provider. If a local education agency provides the services, it is expected that the provider will have a written agreement with a local education agency that clearly defines the services that will be provided in the contract facility. The written agreement must include, at a minimum, all of the following:

a. Level of participation in reintegration planning for each juvenile offender; (4-11-15)

b. That grades will be submitted, as required in Subsection 237.05 of these rules, within two (2) business days of transfer or release from department custody; (4-11-15)

c. Curriculum for special education services, if appropriate; (4-11-15)

d. A plan for the provision of state required testing; and (4-11-15)

e. Types of services that will be provided beyond the established limits of the regular school year for that school district. (4-11-15)

04. Costs of Educational Services. If a local education agency agreement is developed, the Idaho Department of Education will flow education funds to the local education agency in a manner consistent with current legislative funding mandates. A copy of the memorandum of understanding between the provider and the local education agency must be provided to the department, and the source of funds to cover the costs for educational services clearly accounted for in the budget. If the provider elects to provide the services in-house, the cost of educational services will be included in the daily contract rate. The provider will not be eligible to receive educational funding through both of these sources. (4-11-15)

05. Accreditation Requirements. Each provider serving juvenile offenders, who have been committed to the department, will have, or contract with, an education program that will meet the accreditation standards of the Northwest Association of Schools or equivalent associating organization, or the applicable state's Department of Education. (4-11-15)

06. Educational Assessment. Federal and state laws mandate that juvenile offenders be provided with an appropriate education. Providers are responsible for providing an educational track which will best serve the needs of each juvenile offender, as determined by the assessment provided by the department through the observation and assessment process, or as determined by an assessment completed by a local school district. A copy of the relevant assessment and related current and valid education plan, as well as all supporting documentation for each juvenile offender, must be maintained in a separate file and must be available to the department and to the Idaho Department of Education. A copy of the IEP and all supporting documentation must be sent to the department's education records manager within ten (10) business days or less of its completion for inclusion in the juvenile offender's permanent school records that are maintained at the juvenile correctional center in Nampa. (4-11-15)

a. Providers are responsible for ongoing, yearly reassessment of each juvenile offender's progress within the education program as well as documenting and reporting that progress. This responsibility extends to completing a reassessment just prior to release from department custody or transfer, and reporting academic gain both for individual juvenile offenders as well as composite data for the education program overall. (4-11-15)

b. Consistent with statewide educational standards, providers are responsible for assuring that each juvenile offender is tested in accordance with the applicable state's assessment schedule and all required measures. Any fees associated with the testing services will be the responsibility of the provider. Results of testing must be submitted to the department's education records manager at the juvenile corrections center in Nampa within ten (10) business days after the provider's receipt of the scores. (4-11-15)
07. **GED Eligibility.** Providers must assure that GED tests will be administered to juvenile offenders meeting the criteria established in the administrative rules of the applicable state's Board of Education for school districts. All GED testing application fees will be paid by the provider. Test results must be submitted to the department's education records manager at the juvenile correctional center in Nampa within ten (10) business days after the receipt of the scores. (4-11-15)

08. **Special Education Services.**

   a. The provider must ensure that the special educational needs of juvenile offenders are addressed. The provider's in-house program or cooperating local education agency program must comply with Section 504 and the IDEA, as well as any other applicable state or federal laws. Under no circumstances shall the provider or its teaching staff make modifications in the juvenile offender's Section 504 or the IDEA educational program without conducting a Child Study Team meeting in consultation with the department's educational coordinator or designee. (4-11-15)

   b. Providers must make every reasonable effort and thoroughly document all efforts to contact parents or guardians of juvenile offenders identified as eligible for special education. If it is not possible to involve the natural parents or guardians, a surrogate parent must be appointed by the agency providing special educational services. This surrogate cannot be the director or other employee of an agency, institution, or community-based residential facility who is involved in providing care or education to a juvenile offender, or an employee of a state agency or agency volunteer, such as caseworker, social worker, or court-appointed special advocate who has been appointed by the state to provide for the welfare of the student. A surrogate parent is used only for special educational requirements and has no other legal authority. (4-11-15)

09. **Standards for Instructional Time.** Providers must assure that the school day is consistent with at least the minimum standard established for high schools by the Northwest Association of Schools. The length of the school day will further meet all requirements established by state and federal laws, regulations, and accreditation standards. Providers must provide an appropriate educational or vocational program for each juvenile offender for twelve (12) months of the year. At a minimum, this involves four (4) hours per day, five (5) days per week throughout the full calendar year. Juvenile offenders involved in any disciplinary process must not be denied their right to education and other related services. If security or other related concerns are present that may prohibit a juvenile offender's participation in educational programming, an education plan review will be completed and documented in an incident report. If the juvenile offender is eligible for services under the IDEA or Section 504, a Child Study Team will meet to make a determination as to whether or not the behavior is a result of the juvenile offender's handicap. All due process procedures will be followed according to the administrative rules for special education. (4-11-15)

10. **Educational Records and Confidentiality.**

   a. Educational records must be maintained by the provider at all times in accordance with FERPA. At a minimum, the following information must be included in the record:

      i. Subjects taken; (4-11-15)

      ii. Grades by subject and explanation of the grading system; (4-11-15)

      iii. Units of credit with explanation; (4-11-15)

      iv. Attendance records; and (4-11-15)

      v. Any standardized test scores. (4-11-15)

   b. Reports of the juvenile offender's educational progress (report cards) must be provided to the education records manager at the juvenile correctional center in Nampa within ten (10) business days after the end of the school's grading periods (midterm, semester, trimester, etc.). (4-11-15)

   c. Providers must ensure that juvenile offender educational files are consistently maintained to ensure compliance with FERPA. (4-11-15)
When a juvenile offender is released from department custody or transferred, the permanent education file must be updated by the department's education records technician. The providers will provide final withdrawal grades and credits within twenty-four (24) hours or next business day after the juvenile offender is released from department custody or transferred. The providers must send the education records manager at the juvenile correctional center in Nampa an e-mail advising that the final grades have been entered into the software program. Working educational files must be returned to the juvenile correctional center in Nampa within ten (10) business days of the juvenile offender's release from department custody or transfer.

(4-11-15)

Medical Care. Each juvenile offender must be provided with medical, dental, optical, mental health, emergency or any other related health services while in the provider's care. Each provider must have access, on a twenty-four (24) hour basis, to a licensed general hospital, clinic or physician, psychiatrist, and dentist to provide juvenile offenders with professional and qualified physical or mental health services, including medications. Medical and mental health screenings must be provided within two (2) hours of a juvenile offender's admission to a program. Comprehensive and professional medical and mental health assessments must be provided by the provider within thirty (30) calendar days of admission, unless these are provided by the department. A copy of these assessments must be forwarded to the department's regional R.N. (4-11-15)

Medical Consent. As part of the admission process, the provider must have a copy of the department's Release of Information and Consent form signed by a juvenile offender's parent, guardian, or committing authority. The consent form must be filed in the juvenile offender's medical and case files maintained by the provider. (4-11-15)

Emergency Medical Treatment. In cases of emergency medical treatment requiring signed authorization for juveniles in the custody of the department, reasonable efforts must be made to obtain the consent of the parent or guardian. The signature of only one (1) parent or guardian is sufficient to form consent or authorization. Should the parent or guardian not be available or refuses to sign, the authorization may be signed by the department's regional R.N. or designee. This does not restrict the provider from taking action in life and death situations. (4-11-15)

Reimbursement Sources. The provider must utilize private insurance or Medicaid, if available, for funding medical, dental, optical, mental health, or related services, and pharmaceutical products for any juvenile offender. The provider shall not seek reimbursement from private insurance or Medicaid for health services that are the fiscal responsibility of the provider pursuant to its contract with the department. Any health services not listed in these rules, other than emergency treatment, which was not approved in advance by the department's regional R.N. or designee, will be at the expense of the provider. (4-11-15)

Admission and Annual Health Services and Treatment Records.

Compliance with Child Care Licensing Rules. Admission and annual health services must be provided to juvenile offenders in accordance with the child care licensing rules of the Idaho Department of Health and Welfare, unless otherwise provided in these rules. (4-11-15)

Prior Approval. No prior approval or review from the department's regional R.N. is required for admission and annual health services. Examples of admission and annual health services for which no prior approval or review is required are:

a. Admission physical exams, including STD exams and treatment; (4-11-15)

b. Admission dental exams, including x-rays and cleanings (no panoramic x-rays or sealants); (4-11-15)

c. Admission eye exams and glasses, if needed; (4-11-15)
d. Annual physical exams, including STD exams and treatment; (4-11-15)
e. Annual dental exams with x-rays and cleanings (no panoramic x-rays or sealants); and (4-11-15)
f. Annual eye exams, if needed, and new glasses only if needed. (4-11-15)

03. Medical Records. Any time a juvenile offender receives treatment under this section or for any similar service, the provider must retain the original medical record regarding treatment and must immediately send a copy to the department's regional R.N. (4-11-15)

262. PRIVACY OF MEDICAL RECORDS AND INFORMATION.

01. Confidentiality. Confidentiality of personal health information of each juvenile offender must be maintained in accordance with the Privacy Regulations promulgated under HIPAA of 1996 or, if more stringent, the laws of the applicable state. Compliance with these regulations is the responsibility of the provider. Staff shall be provided information about a juvenile offender's medical condition only when that knowledge is necessary for the performance of their job duties. (4-11-15)

02. Privacy Officer. The provider must appoint a privacy officer to oversee that the control and maintenance of all juvenile offender health and medical records is in compliance with the federal Privacy Regulations, 45 Code of Federal Regulations Sections 160 and 164. (4-11-15)

03. Separate Records. All juvenile offender medical and health records must be kept in files that are physically separated from other juvenile offender files and information, and under a system of security against unauthorized access. (4-11-15)

263. NOTIFICATION OF CRITICAL HEALTH INCIDENTS. The provider must immediately report critical medical and mental health incidents according IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” (4-11-15)

264. INFECTIOUS DISEASES.

01. Policies. (4-11-15)

a. The provider must establish policies and procedures for serving juvenile offenders with infectious diseases such as tuberculosis, hepatitis, and HIV or AIDS. These policies and procedures should address the management of infectious diseases, provide an orientation for new staff and juvenile offenders concerning the diseases, and ongoing education for staff and juvenile offenders regarding these diseases. Policies and procedures should be updated as new information becomes available. Individual health information or counseling will be made available by a medical health professional for juvenile offenders diagnosed with an infectious disease. (4-11-15)

b. The provider must comply with the child care licensing rules of the Idaho Department of Health and Welfare regarding universal precautions. (4-11-15)

02. HIV Testing. In accordance with law, a juvenile offender over age fourteen (14) may request to be tested for the presence of HIV. Any such juvenile offender requesting to be tested should be taken to a public health facility or, if available, a facility which accepts Medicaid reimbursement for administration of the test. (4-11-15)

03. Examinations. Examinations must be performed on any juvenile offender by medical professionals for all symptomatic cases of infectious diseases such as tuberculosis, ova and parasites, infectious hepatitis, and sexually transmitted diseases. Juvenile offenders will be tested and, if indicated, treated. (4-11-15)

04. Notifications. The provider must notify the department's regional R.N. within three (3) business days of any positive test results, treatment recommendations, and follow up care. (4-11-15)

265. PREGNANCY.
01. **Individual Medical Plan.** Within the individual medical plan, specific goals and objectives will be developed when a pregnancy has been diagnosed. The plan must be based on the orders of the juvenile offender's licensed healthcare provider and must include special care, location for delivery, regular medical check-ups, and special dietary and recreational needs. A copy of the individual medical plan will be sent to the department's regional R.N. (4-11-15)

02. **Parenting Classes.** Parenting classes must be an integral part of the individual medical plan for all pregnant female juvenile offenders. This service should also be offered as a priority to male juvenile offenders in department custody who are already fathers or whose spouse or girlfriend is expecting a child. (4-11-15)

03. **Medicaid Reimbursement.** Medical services relating to pregnancy must be provided by a licensed healthcare provider and facility accepting Medicaid reimbursement, unless medical expenses are paid by the juvenile offender's family. (4-11-15)

04. **Infant Care.** When an infant is delivered and the mother continues in department custody, the infant must be placed with an appropriate family member or in the temporary care of the Family and Children Services Division of the Idaho Department of Health and Welfare, subject to any necessary court approval. At no time shall the infant remain in the provider's facility. (4-11-15)

266. **REFUSAL OF TREATMENT.**
Refusal of medications or treatment recommended by a physician for three (3) days requires immediate notification to the department's regional R.N. according to IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” (4-11-15)

01. **Refusal of Recommended Treatment by Physician.** If a juvenile offender chooses to refuse treatment or medication recommended by a physician, the juvenile offender must sign a detailed statement refusing this care. A provider staff member must witness the juvenile offender's signature. This refusal form will be filed in the juvenile offender's medical record. (4-11-15)

02. **Where Refusal Poses Significant Risk.** If a juvenile offender refuses a treatment or medication for a condition which poses a significant risk of death or permanent physical impairment, the provider must issue its approval for the immediate administration of the medical treatment or medication in accordance with standard practice. (4-11-15)

267. **USE OF MEDICATIONS.**

01. **Written Policy.** The provider must have written policies and procedures governing the use and administration of medication to juvenile offenders. Policies must conform to all applicable laws and regulations including, but not limited to, those of the Idaho Department of Health and Welfare or the applicable state's licensing authority. (4-11-15)

02. **Notification.** If initiating or modifying any medication, the department's regional R.N. must be notified. Notification must include the following: (4-11-15)

   a. The name of the prescribed medication; (4-11-15)

   b. The name and phone number of the prescribing doctor, nurse practitioner, or physician's assistant; (4-11-15)

   c. The reason the medication is being prescribed. (4-11-15)

268. **FIRST AID KITS.**
Each provider must maintain first aid kits. Basic first aid kits that do not include medications or sharp tools may be kept unlocked. Any complete first aid kit with medications, wound rinses, scissors, tweezers, or other such objects must be kept locked and placed in areas of the program or facility readily accessible to staff. (4-11-15)

000. LEGAL AUTHORITY.

01. Section 20-504(10), Idaho Code. Pursuant to Section 20-504(10), Idaho Code, the Department has authority to establish minimum standards for the operations of all private residential and nonresidential facilities and programs which provide services to juvenile offenders committed to the department. (4-11-15)

02. Section 20-504(12), Idaho Code. Pursuant to Section 20-504(12), Idaho Code, the Department has authority to adopt such administrative rules pursuant to the procedures provided in Chapter 52, Title 67, Idaho Code, as are deemed necessary or appropriate for the functioning of the department and the implementation and administration of the Juvenile Corrections Act. (4-11-15)

03. Interstate Compact on Juveniles. By the provisions of Sections 16-1901, et seq., Idaho Code, the “Interstate Compact on Juveniles,” the Department is authorized to promulgate rules and regulations to carry out more effectively the terms of the compact. (4-11-15)

001. TITLE AND SCOPE.

01. Title. The title of this chapter is “Rules for Reintegration Providers,” IDAPA 05, Title 02, Chapter 03. (4-11-15)

02. Scope. These rules are established to ensure that the juvenile corrections system in Idaho will be consistently based on the following principles: accountability; community protection; and competency development. These rules apply to providers of reintegration and independent living skills that coordinate needed treatment services identified in individual service implementation plans. (4-11-15)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency has written statements which pertain to the interpretations of these rules. The document is available for public inspection and copying at cost at the Idaho Department of Juvenile Corrections, 954 W. Jefferson St., P.O. Box 83720, Boise, Idaho 83720-0285. (4-11-15)

003. ADMINISTRATIVE APPEALS.
This chapter does not provide for appeal of the administrative requirements for providers. (4-11-15)

004. INCORPORATION BY REFERENCE.
There are no documents incorporated by reference into these rules. (4-11-15)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS.
The Idaho Department of Juvenile Corrections is located at 954 W. Jefferson St., Idaho 83720-0285. Business hours are typically 8 a.m. to 5 p.m., Monday through Friday, excluding holidays. Mail regarding the Idaho Department of Juvenile Corrections’ rules should be directed to 954 W. Jefferson St., P.O. Box 83720, Boise, Idaho 83720-0285. The telephone number of the office is (208) 334-5100 and the telecommunications relay service of the office is 1 (800) 377-1363 or 711. The facsimile number of the office is (208) 334-5120. (4-11-15)

006. PUBLIC RECORDS ACT COMPLIANCE.
The records associated with the providers are juvenile records of the Idaho Department of Juvenile Corrections, and are subject to the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (4-11-15)

008. -- 009. (RESERVED)

010. DEFINITIONS.

01. Body Cavity Search. The examination and possible intrusion into the rectal or vaginal cavities to
detect contraband. It is performed only by the medical health professional. (3-25-16)

02. Body Search, Clothed. Also referred to as a Pat Search. A search during which a juvenile offender is not required to remove their clothing, with the exception of such items as a jacket, hat, socks and shoes. (4-11-15)

03. Body Search, Unclothed. Also referred to as a Strip Search. A search during which a juvenile offender is required to remove all clothing that is conducted by a medical health professional. (4-11-15)

04. Education Plan. A written plan for general education students outlining the coursework they will complete each year towards meeting the Idaho Content Standards recommended coursework for their grade level based on assessed academic, emotional, developmental and behavioral needs, and competencies. Students qualifying for Individuals with Disabilities Education Act (IDEA) services will have an Individual Education Plan (IEP) in lieu of an education plan. (4-11-15)

05. General Education Student. A student who does not qualify for special education services under the Individuals with Disabilities Education Act (IDEA). (4-11-15)

06. Health Services. Including, but not limited to, routine and emergency medical, dental, optical, obstetrics, mental health, or other related health service. (4-11-15)

07. Independent Living Services. Services that increase a juvenile offender’s ability to achieve independence in the community. (4-11-15)

08. Individual Community Pass. Any instance in which a juvenile offender leaves the residential treatment provider’s facility for a planned activity, without direct supervision by at least one (1) residential treatment provider or department staff. Regular school or work attendance, regular participation in off-site treatment sessions or groups and other regular off-site activities specifically included in the service implementation plan or written reintegration plan and approved by the juvenile services coordinator are not included in this definition. Individual community passes include, but are not limited to:

a. Day passes alone or with family or other, approved individuals; (4-11-15)

b. Day or overnight home visits; (4-11-15)

c. Recreational activities not otherwise approved as a part of a group activity; and (4-11-15)

d. Funeral leave. (4-11-15)

09. Individual Education Plan (IEP). A written document (developed collaboratively by parents and school personnel) which outlines the special education program for a student with a disability and is based on assessed academic, emotional, developmental and behavioral needs, and competencies. This document is developed, reviewed, and revised at an IEP meeting at least annually. (4-11-15)

10. Medical Health Professional. An individual who meets the applicable state’s criteria as a licensed LPN, RN, nurse practitioner, physician assistant, physician or the equivalent. (4-11-15)

11. Privileged Mail. Mail between the juvenile offender and their attorneys, legal aid services, other agencies providing legal services to juvenile, or paraprofessionals having legitimate association with such agencies; judges and clerks of federal, state and county courts; public officials and their authorized representatives acting in their official capacities; and the communications with clergy of the juvenile’s faith. (4-11-15)

12. Reintegration Placement. The placement of a juvenile offender receiving independent living and reintegration skills services from the provider. This placement may be with a host family, in a group setting, or in an apartment. (4-11-15)

011. -- 099. (RESERVED)
100. **INITIATION OF SERVICES.**
Juveniles are committed to the department under the provisions of the Juvenile Corrections Act (Sections 20-501 through 20-549, Idaho Code). (4-11-15)

101. **WAIVER OR VARIANCE.**
Minimum program standards established herein shall apply to all services provided by the provider. Any waiver or variance from the standards stated in these rules must receive prior written approval from the department and must be attached as a formal amendment to the contract. (4-11-15)

102. **APPLICABILITY.**
This chapter applies to providers of reintegration and independent living skills that coordinate needed treatment services identified in individual service implementation plans. Reintegration providers must also abide by IDAPA 05.02.01, “Rules for Residential Treatment Providers.” (4-11-15)

103. -- 199. (RESERVED)

200. **AUTHORITY TO INSPECT.**

01. **Inspections.** The department shall have the authority to conduct reviews of programs, program operations, juvenile offender placements, and facilities to ensure the provider’s compliance with these rules. The provider shall cooperate with the department’s review, and must provide access to the facility and all juvenile records for juveniles in department custody, as deemed necessary by the department. However, in order to more fully assess the operation of the program, aggregate data and information for all juveniles must be made available. (4-11-15)

02. **Site Visit.** If the juvenile offender is living independently, the juvenile services coordinator or designee shall conduct site visits of the residence prior to occupancy. (4-11-15)

201. **CLOTHING AND PERSONAL ITEMS.**
The reintegration provider must ensure that the juvenile offender has sufficient clothing. The provider shall not require the juvenile offender to purchase clothing with the juvenile’s personal funds unless the purchase is above and beyond the basic requirements of the provider. Any clothing purchased with the juvenile offender’s personal funds must be documented. The provider will ensure the juvenile is provided proper care and cleaning of clothing in the juvenile offender’s possession. All clothing and incidentals become the property of the juvenile offender upon release. (4-11-15)

202. **FOOD SERVICE.**
The reintegration provider must ensure that the juvenile has sufficient food at all times. The provider shall not require the juvenile offender to purchase food with the juvenile’s personal funds unless the purchase is above and beyond the basic requirements of the provider. Shopping, meal preparation, planning and proper nutrition must be part of the independent living skills. (4-11-15)

203. **RELIGIOUS SERVICES.**
The reintegration provider must ensure that attendance at religious services is voluntary. No juvenile offender shall be required to attend religious services, and no juvenile offender shall be penalized for not attending nor given privileges for certain attendance.

01. **Voluntary Practice.** All juvenile offenders must be provided the opportunity to voluntarily practice their respective religions in a manner and to the extent that will not compromise the safety, security, emotional, or physical well-being of the juvenile offenders in the program or residence. (4-11-15)

02. **Attendance.** Juvenile offenders may be permitted to attend religious services of their choice in the community as long as community safety is ensured. (4-11-15)

03. **Transportation.** The reintegration provider must, when reasonably possible, arrange transportation for those juvenile offenders who desire to take part in religious activities of their choice in the community. (4-11-15)

04. **Risk to Community.** If the juvenile offender cannot attend religious services in the community
because staff has reason to believe he would attempt to escape, or otherwise present a risk to the safety of the community, the provider must make every reasonable effort to ensure that he has the opportunity to participate in religious services of his choice at the program or residence.  

05. Visits. Juvenile offenders must be permitted to receive visits from representatives of their respective faiths.

204. EMPLOYMENT OF JUVENILE OFFENDERS.

01. Employment. If juvenile offender employment away from the program site is a part of the program, written policy and procedure must provide that program resources and staff time are devoted to helping employable juvenile offenders locate employment. The reintegration provider must ensure that each employment opportunity meets all legal and regulatory requirements for juvenile employment. The juvenile offender’s employer must be consulted at least monthly by the provider concerning the juvenile offender’s work abilities and performance on the job-site. Additionally, the provider must make checks on the job-site at least twice monthly to ensure the juvenile offender is working under acceptable conditions, and must document these checks in the juvenile offender’s progress report. Under no circumstances should staff or the families of staff benefit financially, or otherwise, from work done by juvenile offenders in the program.

02. Employment Opportunities. Every reasonable effort must be made to select employment opportunities that are consistent with the individual interests of the juvenile offender to be employed. Preference will be given to jobs that are related to prior training, work experience, or institutional training, and may be suitable for continuing post-release employment. Reasonable effort must be made to provide a juvenile offender with the highest paying job possible. Income earned by a juvenile offender must be handled consistent with Subsection 205.04 of these rules.

205. PERSONAL FUNDS.

01. Funds Handled by a Provider. The provider will follow generally accepted accounting practices in managing personal funds of juvenile offenders and must be able to demonstrate appropriate measures of internal fiscal controls related to the juvenile’s personal funds.

a. The provider must establish a written budget for a juvenile, as part of the service implementation plan, for the use of the juvenile offender’s personal funds. There must be a specific allocation for daily incidental expenses.

b. If the amount of personal funds maintained for the juvenile offender does not exceed one hundred (100) dollars, the provider may secure the funds locally if the following conditions are met:

i. The juvenile offender’s personal funds are kept in a fire resistant combination or digital lock-style safe that is permanently affixed to the floor or wall, or weighs at least 200 (two-hundred) pounds.

ii. The provider has a process to clearly separate each juvenile offender’s personal funds from one another.

iii. Access to juvenile offender personal funds is limited to the Program Director or designee.

c. The provider must ensure that the juvenile offender saves at least thirty percent (30%) of income to be used at program completion for purchasing the resources for independent living and employment.

d. Upon the juvenile offender’s personal funds exceeding one hundred (100) dollars, the reintegration provider must assist the juvenile offender in opening an account in the juvenile’s name at a public banking institution. Supported living providers shall be required to deposit all personal funds collected for the juvenile offender in a public banking institution in an account in the juvenile's name.

e. All withdrawals by a juvenile offender, or expenditures made on behalf of a juvenile offender by
the provider, must be documented, signed, and dated by the juvenile offender. This documentation must be reconciled to the juvenile offender’s ledger monthly. (4-11-15)

g. The provider shall not require juvenile offenders, parents, or guardians to pay for services and supplies that are to be provided by the reintegration provider. (4-11-15)

h. There must be no commingling of juvenile personal funds with provider funds. Borrowing or moving funds between juvenile personal accounts is prohibited. (4-11-15)

202. Reporting Requirements. A personal funds report must be submitted monthly to the juvenile services coordinator. The report must show a list of all juvenile offender account balances. The personal fund account is subject to review and audit by the department or its representatives at any time. Any discrepancies in juvenile offender accounts must be resolved by the reintegration provider within five (5) business days of completion of the review. (4-11-15)

203. Transfer of Personal Funds. If a juvenile offender is transferred to another program, the balance of the juvenile offender’s locally secured funds must be given or mailed to the department’s fiscal services within ten (10) business days and documented on the Provider Juvenile Check-Out Form supplied by the department, and on the final progress report. (4-11-15)

206. COMMUNITY SERVICE AND RESTITUTION.

01. Community Service. Juvenile offenders may have court-ordered community service hours. The reintegration provider must obtain prior approval from the juvenile probation officer to complete any court-ordered community service hours while at the reintegration provider. The reintegration provider shall be responsible for documenting approved community service hours and reporting the accumulation of completed hours in the juvenile offender’s progress report. (4-11-15)

02. Court Ordered Restitution. The provider must create a plan for the juvenile offender to submit a portion of a juvenile offender’s personal funds or earned income for the payment of restitution as described in this section. The provider must work with the juvenile probation officer and juvenile services coordinator to determine the amount of restitution owed. When juvenile personal funds are available the provider will assist the juvenile offender in submitting payment to the county until the restitution amount is satisfied. Documentation of the payment must be provided to the juvenile services coordinator. (4-11-15)

03. Restitution for Program Damages. Monetary restitution may only be sought through a court order when a juvenile offender has damaged or destroyed property, or has caused or attempted to cause injury to other juvenile offenders or staff. Restitution for damages at the program will not be paid to the exclusion of court ordered restitution. The reintegration provider must not access the juvenile offender’s personal funds for program damages. Restitution for damages must begin with a plan for repair by the juvenile offender. (4-11-15)

207. JUVENILE OFFENDER MAIL.

01. Restrictions. Juvenile offenders must be allowed to send and receive letters from approved persons, which may include persons in other programs or institutions, unless specifically prohibited by the department or by court order. All other restrictions of mail must be discussed with the community treatment team, approved in writing by the juvenile services coordinator, and documented in the juvenile offender’s service implementation plan. There must be no general restrictions on the number of letters written, the length of any letter, or the language in which a letter may be written. Juvenile offenders will be provided with sufficient stationery, envelopes, and postage for all legal and official correspondence. (4-11-15)

02. Reading of Letters. Routine reading of letters by staff is prohibited. The department or court may determine that reading of a juvenile offender’s mail is in the best interest of the juvenile offender, and is necessary to maintain security, order or program integrity. However, such reading of mail must be documented and unless court
ordered, must be specifically justified and approved by the juvenile services coordinator.  

03. Privileged Mail. Under no circumstances shall a juvenile offender’s privileged mail be read.  

04. Packages. Packages may be inspected for contraband but only in the presence of the juvenile offender.  

05. Publications. Books, magazines, newspapers and printed matter which may be legally sent to juvenile offenders through the postal system may be approved by the reintegration provider, unless deemed to constitute a threat to the security, integrity, or order of the programs.  

06. Distribution of Mail. The collection and distribution of mail must never be delegated to a juvenile offender. Staff must deliver mail within twenty-four (24) hours, excluding weekends and holidays, to the juvenile offender to whom it is addressed unless the juvenile is living independently.  

208. VISITATION.  

01. Visitation Policy. The provider must develop a written policy governing visitation which protects the safety of visitors, staff, and juvenile offenders. This policy may restrict visitation to the residence of visitors below an established age or provide for higher levels of supervision in circumstances where safety of visitors, staff, and juvenile offenders may be at risk. The provider must provide a copy of the visitation policy to each juvenile offender, his parent or guardian, and the juvenile services coordinator. In all cases, the provider will work with the juvenile services coordinator and juvenile probation officer to identify and approve potential visitors in accordance with the provider’s criteria.  

02. Visitor Admission. If there is reason to believe a visitor is under the influence of alcohol or drugs or possesses illegal contraband, admission into the residence shall be denied. Visitors who bring in items that are unauthorized, but not illegal, must either be denied admission into the program or residence or have these items taken and locked in an area inaccessible to the juvenile offenders during the visit. These items will be returned to the visitors upon their exit from the program or residence. All visitors denied access to the program or residence, and the reason for their denial, must be documented.  

209. -- 219. (RESERVED)  

220. SEARCHES FOR CONTRABAND.  

01. Searches of Personal Items. Routine searches of personal items being introduced into the program or residence may be conducted by staff prior to the juvenile offender taking possession of their property, or when the juvenile offender is returning to the program or residence from an individual community pass. Search of a juvenile offender’s belongings or residence may be done at any time and must be minimally intrusive.  

02. Policies and Procedures Governing Consequences. The reintegration provider must have written policies and procedures establishing the consequences for juvenile offenders found with contraband.  

03. Clothed Body Searches.  

   a. Clothed body searches of juvenile offenders may be conducted whenever the reintegration provider believes it is necessary to discourage the introduction of contraband into the facility, or to promote the safety of staff, juvenile offenders, and visitors. A clothed body search may be used when a juvenile offender is returning from a visit, outside appointment, or activity.  

   b. Clothed body searches must be conducted in the manner described in the rules of the Idaho Department of Health and Welfare under IDAPA 16.06.02, “Standards for Child Care Licensing.” Clothed body searches of juvenile offenders will be conducted by staff of the same gender as the juvenile offender. Clothed body searches will be conducted using a pat down search outside the juvenile’s clothing on each quadrant.
04. Unclothed Body Searches. Unclothed body searches of juvenile offenders may only be conducted by a medical health professional and with prior written authorization from the program director or designee. Unclothed body searches must be conducted with an adult in the room, in addition to the medical health professional, who is of the same gender as the juvenile offender being searched. Unclothed body searches must be based upon a reasonable belief that the juvenile is concealing contraband or signs of abuse. Immediately after conducting an unclothed body search the provider must notify the department’s regional superintendent and the Quality Improvement Services Bureau. The provider must complete an incident report according to the requirements of IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” (3-25-16)

05. Body Cavity Searches. Body cavity searches of juvenile offenders may only be conducted in a medical facility outside of the residential treatment provider, by a medical health professional and with prior written authorization from the program director or designee. Body cavity searches of juveniles will not be performed by staff, interns, or volunteers under any circumstances. Looking into a juvenile’s mouth, ears, or nose does not constitute a body cavity search. Body cavity searches must be based upon a reasonable belief that the juvenile is concealing contraband. Immediately after conducting a body cavity search the provider must notify the department’s regional superintendent and the Quality Improvement Services Bureau. The provider must complete an incident report according to the requirements of IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” (3-25-16)

06. Documentation of Searches. All searches must be documented in terms of reason for the search, who conducted the search, what areas were searched, and what type of contraband was found, if any. If a search yields contraband, the juvenile services coordinator must be notified and it shall be reported according to the requirements of IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” If necessary, the appropriate law enforcement agency should be notified. (4-11-15)

07. Contraband Disposal. All contraband found in the possession of juvenile offenders, visitors, or staff must be confiscated by staff and secured under lock and key in an area inaccessible to juvenile offenders. Local law enforcement must be notified in the event illegal drugs, paraphernalia, or weapons are found. It shall be the responsibility of the program director, in consultation with the department, to dispose of all contraband not confiscated by police. (4-11-15)

221. -- 229. (RESERVED)

230. PROGRAMMING.

01. Basic Program Requirements. Reintegration providers must provide opportunities and services for juvenile offenders to improve their educational and vocational competence, to effectively address underlying behavior problems, and to prepare them for responsible lives in the community. Programs provided must be gender equitable, gender specific, and culturally competent. The ultimate treatment goal for juvenile offenders involved in these programs is the successful return of juvenile offenders to the community without committing further crimes. (4-11-15)

02. General Requirements. (4-11-15)

a. Providers must provide or coordinate a range of program services specifically designed to address the characteristics of the target population identified in the comprehensive program description and in the admission policy. (4-11-15)

b. Programs that serve a special needs population, such as developmentally delayed or seriously emotionally disturbed juvenile offenders, must be able to demonstrate that the program services offered address the needs of the population served by the reinteg ration provider. (4-11-15)

c. Programs providing reinteg ration services for individual juvenile offenders must target behaviors, needs, or circumstances stated in their final progress report from the sending facility or program. These services must be clearly identified and described within the program description. (4-11-15)

d. Juvenile offenders must always be aware of the status of their progress within the program and what remains to be done to complete the program. Reintegration providers must assure that the basic norms and
expectations of the program, including any points, levels, or phases that are a fundamental part of a program, are clearly presented to the juvenile offender and that they are understood. (4-11-15)

e. Programs that contract with the department to serve juvenile offenders and their families must: (4-11-15)

i. Provide humane, disciplined care and supervision; (4-11-15)

ii. Provide opportunities for juvenile offenders’ development of competency and life skills; (4-11-15)

iii. Hold juvenile offenders accountable for their delinquent behavior through means such as victim-offender mediation, restorative conferencing, restitution, and community service; (4-11-15)

iv. Seek to involve juvenile offender’s families in treatment, unless otherwise indicated for the safety and benefit of the juvenile offenders or other family members; (4-11-15)

v. Address the principles of accountability to victims and to the community, competency development, and community protection in case planning and reporting; (4-11-15)

vi. Participate fully with the department and the community treatment team in developing and implementing service plans for juvenile offenders they serve; (4-11-15)

vii. Work with the department to provide juvenile offenders with educational and vocational services based upon their documented needs and abilities; and (4-11-15)

f. Reintegration services include all aspects of case planning and service delivery designed to facilitate successful return of the juvenile offender to the community. (4-11-15)

231. GUIDELINES FOR SPECIFIC SERVICES.

01. Counseling and Other Outpatient Services. The reintegration provider must schedule all initial outpatient appointments, such as drug and alcohol counseling, for the juvenile offender within five (5) business days of arrival into the program. The provider should be able to demonstrate that counseling interventions are shared in general with other program service providers, and there is broad mutual support for the goals of counseling in all service areas of the program. (4-11-15)

02. Behavior Assessment. Supported living providers must use a current assessment of independent behavior capacity to determine the levels of service needed. (6-30-19)

03. Life Skills and Independent Living. Programs must be able to demonstrate that juvenile offenders are taught basic life skills. This program should include, at a minimum, instruction in:

a. Hygiene and grooming skills; (4-11-15)

b. Laundry and maintenance of clothing; (4-11-15)

c. Appropriate social skills; (4-11-15)

d. Housekeeping; (4-11-15)

e. Use of recreation and leisure time; (4-11-15)

f. Use of community resources, such as identifying medical and mental health providers; (4-11-15)

g. Handling personal finances, and issues such as leases, contracts, cell phone usage and agreements, insurance, banking and credit management with some support and intervention; (4-11-15)
h. Use of public transportation, where available;  
   (4-11-15)

    (4-11-15)

232. CASE MANAGEMENT REPORTING REQUIREMENTS.
Each juvenile offender’s progress or lack of progress through these levels must be clearly documented and must be related to documented behavior. Recommendations for release from department custody or transfer should be substantiated by a documented pattern of behavioral change over a period of time. Recommendations for transfer to a higher level of custody must be substantiated by a documented lack of progress over time, or by a serious or violent incident which threatens the safety of others or the stability of the overall program.  
    (4-11-15)

01. Service Implementation Plan. Within ten (10) business days of the juvenile offender’s admission into the program, a written service implementation plan must be developed. The service implementation plan must address the specific goals identified in the most recent progress report and reintegration plan from the sending facility or program. The service implementation plan must address the needs and areas in the reintegration plan.  
    (4-11-15)

02. Juvenile Offender and Family Involvement. Each juvenile offender and, to the fullest extent possible, the family should be involved in developing the service implementation plan, and in adjusting that plan throughout the course of commitment.  
    (4-11-15)

03. Service Implementation Plan Adjustments. The service implementation plan should be adjusted throughout placement with the concurrence of the juvenile services coordinator following communication with the community treatment team. Specifically, the service implementation plan should be adjusted as new needs are identified, as goals are achieved, and as plans for reintegration are finalized.  
    (4-11-15)

04. Participation in the Progress Assessment/Reclassification. The provider may be asked by the juvenile services coordinator to provide input necessary for periodic reassessments of the juvenile offender’s progress and current risk level. In all cases, the provider must participate to the fullest extent possible.  
    (4-11-15)

05. Progress Notes. Bi-weekly progress notes must be filed recording each juvenile offender’s progress toward completing the service implementation plan and submitted to the juvenile services coordinator.  
    (4-11-15)

06. Progress Report. A written progress report must be submitted to the juvenile services coordinator and any designees at least every month, and must include current bank statements and reconciled monthly budget. The progress report should focus on areas of positive change in behavior and attitudes, as well as on the factors required for a successful program completion (progress in community protection, competency development, and accountability). Areas of need that were included in the service implementation plan and identified in Subsection 232.01 of these rules should also be referenced in the progress report. Each progress report should also note any changes or further development of the reintegration plan and should detail the level of involvement of the parent or guardian in treatment.  
    (4-11-15)

07. Relapse Prevention Plan. The reintegration provider shall receive a working copy of the juvenile
offender’s relapse prevention plan from the department. The provider must work with the juvenile to continue developing the relapse prevention plan form provided as the juvenile experiences increased exposure to the community. The reintegration provider must send the relapse prevention plan to the juvenile services coordinator and any designees prior to the juvenile offender’s release from department custody.

08. **Final Progress Report.** A final progress report must be submitted to the juvenile services coordinator and any designees no earlier than ten (10) calendar days prior to the juvenile offender’s anticipated completion of the program, and no later than the date of release. This recommendation must include:

   a. A current summary of the juvenile offender’s progress;

   b. A summary of the efforts to reach the juvenile offender’s goals and objectives, including education;

   c. Any unresolved goals or objectives;

   d. Recommendation for continuing services, including education, in the home community; and

   e. The current address of the juvenile.

09. **Report Distribution.** Copies of the service implementation plan, progress reports, relapse prevention plan, and final progress report must be distributed by the provider to the juvenile offender and the juvenile services coordinator and any designees. The juvenile services coordinator will review and forward the progress report to the juvenile probation officer, appropriate court, and parent or guardian, unless the juvenile offender’s family has been excluded from treatment by the juvenile services coordinator and the respective clinical supervisor for some well documented reason.

233. **OVERNIGHT COMMUNITY PASSES.** Any pass involving an overnight stay away from the program or residence, or involving special circumstances such as a sexual victim in the home, requires a written plan detailing supervision and safety measures to be taken, an itinerary for the visit, transportation plan, and must be approved in writing five (5) business days in advance by the juvenile services coordinator. Each time a juvenile offender leaves on and returns from an overnight community pass, the provider must notify the juvenile correctional center in Nampa of this movement, promptly at the time that the juvenile offender leaves and at the time he returns.

01. **Potential Risk to Public Safety.** If the pass is to the home of a parent or guardian, reintegration providers must provide parents or guardians with clearly written guidelines for approved passes, which must be signed by parents or guardians indicating their understanding and willingness to comply with those guidelines. The department’s pass form may be used for this purpose. If the department’s form is not used, the form signed and agreed to by the individual assuming responsibility for supervision must contain at least the following information:

   a. The juvenile offender’s name and date of birth;

   b. The name, address and telephone number of the individual assuming responsibility;

   c. Authorized days, dates and times for the pass, including the specific date and time of departure and return;

   d. A complete listing of the anticipated locations and activities in which the juvenile offender is expected to be involved;

   e. Specific plans for supervision and telephone checks to verify compliance with the pass conditions;

   f. A complete listing of the activities required during the pass;
g. Specific stipulations prohibiting:

i. The use of alcohol and drugs; (4-11-15)

ii. Involvement in any illegal activity, or association with others who may be or have been involved in illegal behavior; (4-11-15)

iii. Participation in sexual relations of any kind; (4-11-15)

iv. Possession of any kind of firearm or weapon; (4-11-15)

v. Any violation of the terms of probation; and (4-11-15)

h. Specific stipulations about search and drug testing upon return, and the possible consequences for violation of any of the terms of the pass agreement. (4-11-15)

02. Frequency. Frequency of passes must be consistent with the terms of the juvenile offender’s reintegration plan and reintegration provider’s contract with the department. (4-11-15)

03. Documentation. Documentation of the exact date and time of the juvenile offender’s departure from the program for a pass, and his return, must be maintained along with complete information about the individual assuming physical custody, transportation, and supervision during the pass. (4-11-15)

234. ACTIVITIES.

01. Recreational Activities. A pass authorizing the participation of juvenile offenders in outdoor recreational or work activities with an increased risk or overnight trips must be signed by the juvenile services coordinator and juvenile probation officer prior to the activity. Any proposed activity that involves boating, rappelling, rock climbing, or higher risk activity must also have the prior approval, in writing, of the department’s regional superintendent. (4-11-15)

02. Staff Requirements for Group Activities.

a. A basic first aid kit will be taken with the group. At least one (1) person certified in first aid and CPR must accompany the group. (4-11-15)

b. Swimming, boating, or rafting will only be allowed when a staff in attendance has certification in rescue and water safety or if a lifeguard is on duty. All juvenile offenders involved in boating or rafting activities must wear an approved personal flotation device. (4-11-15)

c. A staff to juvenile offender ratio of one to six (1:6) will be adhered to as a minimum unless there is a reason to require more staff. The risk level of the activity, as well as any physical disabilities, high client irresponsibility, or mental deficiencies are some reasons to consider additional staff. (4-11-15)

d. All participants will be recorded in the activity plan and identified as program clients, staff, or volunteers. The individual staff or volunteer satisfying the above first aid and CPR requirements must be identified in the plan. (4-11-15)

e. There will be no consumption of alcoholic beverages or illicit drugs by juvenile offenders, staff, volunteers, or interns. (4-11-15)

03. Consent Forms. Recreational activities identified as presenting a higher risk require prior written approval in accordance with Subsection 234.01 of these rules. Each juvenile offender must have prior written consent from the department’s regional superintendent. Consent must include:

a. Permission for the juvenile offender’s participation; (4-11-15)
b. Acknowledgement of planned activities; and  

(4-11-15)

c. Permission for the provider to seek or administer necessary medical attention in an emergency.  

(4-11-15)

04. Activity Reports. At the conclusion of each overnight or high risk recreational activity pass, the provider must document in the juvenile offender’s file and include in the progress report, any significant positive or negative events that transpired while the juvenile offender was on pass. Any unusual occurrences must be reported to the juvenile services coordinator and documented on an incident report as identified in IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” A drug screening urinalysis may be conducted on each returning juvenile offender, at the expense of the provider, and the results of that exam reported to the juvenile services coordinator.  

(4-11-15)

235. Out-of-State Travel.
When a reintegration provider is planning an out-of-state trip for any of its juvenile offenders, the facility administrator must obtain prior written authorization from the regional clinical supervisor or designee. The necessary sequence of action and approval is as follows:  

(4-11-15)

01. Notification. The residential treatment provider must notify the juvenile services coordinator in writing fourteen (14) business days in advance of the scheduled trip with the following:  

(4-11-15)

a. Dates of the scheduled trip;  

(4-11-15)

b. Location of the trip;  

(4-11-15)

c. Purpose of the trip;  

(4-11-15)

d. Transportation arrangements;  

(4-11-15)

e. Where the juvenile offender will be staying if overnight accommodations are required (address and phone number); and  

(4-11-15)

f. Who is going, such as juvenile offender, and name and position of staff.  

(4-11-15)

02. Prior Approval. The provider must obtain all necessary approvals prior to authorizing travel.  

(4-11-15)

03. Interstate Compact for Juveniles. Any out-of-state travel for more than twenty-four (24) hours requires a travel permit and compliance with the Interstate Compact for Juveniles.  

(4-11-15)

236. Drug Screens of Juvenile Offenders.
Drug screens may be done randomly or on an as needed basis at the reintegration provider’s expense with the approval of the provider’s program director. A record must be kept of all drug screens and results. A positive drug screen must immediately be reported to the juvenile services coordinator.  

(4-11-15)

237. Planning for Release or Transfer.

01. Application for Developmental Disability Services. Supported living providers shall be responsible for compiling and submitting the necessary documentation that will determine if the juvenile offender is eligible for developmental disability services. The supported living provider must begin this process upon the juvenile's admission into the program.  

(6-30-19)

02. Reintegration Staffing. The juvenile services coordinator shall convene a reintegration staffing which will include the juvenile offender’s probation officer, the provider, the juvenile offender’s parent or guardian if applicable, and the juvenile offender. At a minimum, the reintegration staffing must consider and, to the extent possible, solidify plans to address any ongoing medical or mental health, substance abuse, social skills, education,
vocation, independent living, and other special needs. Based upon the results of that staffing, the department will make the final decision regarding transfer or release from department custody.

03. Check-Out Procedures. Prior to the release from department custody or transfer, the reintegration provider must have completed a Provider Juvenile Check-Out Form supplied by the department. The form must be dated, signed by the juvenile offender, and forwarded to the juvenile services coordinator and any designees on the actual date that the juvenile offender leaves the program.

a. If releasing, the provider must provide the juvenile offender’s Medicaid card and all medications to the juvenile.

b. If transferring, the provider must provide the juvenile offender’s Medicaid card and all medications to the individual or agency authorized to transport the juvenile offender.

c. Within two (2) business days after a juvenile offender leaves the program, the provider must send any available dental or medical records to the privacy officer at the juvenile correctional center in Nampa.

d. Within two (2) business days after a juvenile offender leaves the program, the provider must send a report showing the juvenile offender’s total academic hours, credits, and associated grades directly to the juvenile correctional center in Nampa. The provider must maintain adequate documentation to support the submitted education reports. Timely receipt of these records is critical to assist the transition of the juvenile offender to another educational facility. The education files must be mailed within two (2) business days of the juvenile offender’s transfer.

04. Termination Prior to Completion

a. When a provider believes a juvenile offender is at risk for transfer prior to program completion, the juvenile services coordinator must be notified as far in advance as possible so that a staffing with the regional clinical supervisor and, if necessary, the department’s regional superintendent, may be held. The purpose of this staffing is to consider the circumstances which may require the transfer, and to make every effort to address the concerns with the provider to avoid the necessity of making another placement. The provider must document these efforts at problem solving. The department will make a decision about transfer based upon the results of this staffing and any subsequent work agreed upon with the provider. The provider can request transfer of a juvenile offender in the following circumstances:

i. A pattern of documented behavior clearly indicating a lack of progress; or

ii. Commission of one (1) or more serious or violent incidents that jeopardize the safety and security of individuals or the program.

b. In matters involving life, health, and safety of any juvenile in department custody, the department shall remove the juvenile offender immediately.

c. A final progress report must include, at a minimum, a report on progress or lack of progress on all service implementation plan areas, and recommendations for follow-up. The report must be forwarded to the juvenile services coordinator within twenty-four (24) hours of release from department custody or transfer prior to program completion.

238. -- 249. (RESERVED)

250. EDUCATION SERVICES.

01. Appropriate Services. The provider must ensure that each juvenile offender is given appropriate educational and vocational services that are consistent with the juvenile offender’s abilities and needs, taking into consideration age, level of functioning, and any educational requirements specified by state or federal law. Providers must assure that educational services provided as a part of an overall program play an integral part in the process of reclaiming juvenile offenders to responsible roles in society. Educational services must strive to facilitate positive
behavior change by helping juvenile offenders to develop abilities in academic, workplace, and technological areas; to restructure harmful or limiting cognitive patterns; and, to adopt appropriate social interactions skills. Educational services provided by providers must use whatever combination of approaches and motivations that will best facilitate the learning process in conjunction with the service implementation plan. All educational services provided must meet all mandates of the Elementary Secondary Education Act (ESEA), the Individuals with Disabilities Education Act (IDEA), the Family Educational Rights and Privacy Act (FERPA), and the Rehabilitation Act of 1973 (Section 504). (4-11-15)

02. Mandatory Enrollment. Providers must ensure that all juvenile offenders involved in their programs who are of mandatory school age in the applicable state, or who have not yet obtained a General Educational Development (GED) or high school diploma, are enrolled in a school system or in a program approved and certified by the applicable state’s Department of Education to provide both special education and other services. For those who have obtained a GED or high school diploma, an appropriate educational and vocational service must be provided in accordance with the service implementation plan. (4-11-15)

260. PROVISION OF MEDICAL SERVICES.

01. Medical Care. Each juvenile offender must be provided with medical, dental, optical, mental health, emergency or any other related health services while in the provider’s care. Each provider must have access, on a twenty-four (24) hour basis, to a licensed general hospital, clinic or physician, psychiatrist, and dentist to provide juvenile offenders with professional and qualified medical or mental health services, including medications. The provider must coordinate services and assist juvenile offender in interpreting and complying with any follow up care as requested by healthcare provider. Any time a juvenile offender receives treatment under this section or for any health related service, a copy of any medical or dental assessments, treatments, test results, and follow up care must be forwarded to the department’s regional R.N. (4-11-15)

02. Medical Consent. As part of the admission process, the provider must have a copy of the department’s Release of Information and Consent form signed by a juvenile offender over eighteen (18) years of age. The consent form must be filed in the juvenile offender’s case file maintained by the provider. (4-11-15)

03. Emergency Medical Treatment. In cases of emergency medical treatment requiring signed authorization for juveniles in the custody of the department, the authorization may be signed by the department’s regional R.N. or designee. This does not restrict the provider from taking action in life and death situations. (4-11-15)

04. Reimbursement Sources. The provider must utilize private insurance or Medicaid, if available, for funding medical, dental, optical, mental health, or related services, and pharmaceutical products for any juvenile offender. The provider shall not seek reimbursement from private insurance or Medicaid for health services that are the fiscal responsibility of the provider pursuant to its contract with the department. Any health services not listed in these rules, other than emergency treatment, which was not approved in advance by the department’s regional R.N. or designee, will be at the expense of the provider. (4-11-15)

261. ADMISSION HEALTH SERVICES AND TREATMENT RECORDS.

01. Prior Approval. Prior approval or review from the department’s regional R.N. is required for all health services, other than emergency services. Prior approval may be given for up to five (5) routine, pre-scheduled medical appointments. (4-11-15)

02. Medical Records. The provider must assist the juvenile offender in organizing medical information, instructions, prescriptions and any necessary follow up papers in a designated medical folder. Any time a juvenile offender receives treatment under this section or for any health related service, the provider must retain the original medical record and shall immediately send a copy to the department’s regional R.N. (4-11-15)

03. Medical Billing. The direct care provider must submit medical bills directly to the department’s regional R.N. that approved the provision of services. (4-11-15)
262. PRIVACY OF MEDICAL RECORDS AND INFORMATION.
To the extent the provider has medical information, confidentiality of personal health information of each juvenile offender must be maintained in accordance with the Privacy Regulations promulgated under HIPAA of 1996 or, if more stringent, the laws of the applicable state. Compliance with these regulations is the responsibility of the provider. Staff shall be provided information about a juvenile offender’s medical condition only when that knowledge is necessary for the performance of their job duties. (4-11-15)

01. Privacy Officer. The provider must appoint a privacy officer to oversee that the control and maintenance of all juvenile offender health and medical records is in compliance with the federal Privacy Regulations, 45 Code of Federal Regulations Sections 160 and 164. (4-11-15)

02. Separate Records. All juvenile offender medical and health records must be kept in files that are physically separated from other juvenile offender files and information, and under a system of security against unauthorized access. (4-11-15)

263. NOTIFICATION OF CRITICAL HEALTH INCIDENTS.
The provider must immediately report critical medical and mental health incidents according to IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” (4-11-15)

264. INFECTIOUS DISEASES.

01. Policies. The provider must establish policies and procedures for serving juvenile offenders with infectious diseases such as tuberculosis, hepatitis, and HIV or AIDS. These policies and procedures should address the management of infectious diseases, provide an orientation for new staff and juvenile offenders concerning the diseases, and ongoing education for staff and juvenile offenders regarding these diseases. Policies and procedures should be updated as new information becomes available. Individual health information or counseling will be made available by a medical health professional for juvenile offenders diagnosed with an infectious disease. (4-11-15)

02. HIV Testing. In accordance with law, a juvenile offender over age fourteen (14) may request that he be tested for the presence of HIV. Any such juvenile offender requesting to be tested should be taken to a public health facility or, if available, a facility which accepts Medicaid reimbursement for administration of the test. (4-11-15)

03. Examinations. Examinations must be performed on any juvenile offender by medical professionals for all symptomatic cases of communicable diseases such as tuberculosis, ova and parasites, infectious hepatitis, and sexually transmitted diseases. Juvenile offenders will be tested and, if indicated, treated. (4-11-15)

04. Notifications. The provider must notify the department’s regional R.N. within three (3) business days of any positive test results, treatment recommendations, and follow up care. (4-11-15)

265. PREGNANCY.

01. Individual Medical Plan. Within the individual medical plan, specific goals and objectives will be developed when a pregnancy has been diagnosed. The plan must be based on the orders of the juvenile offender’s licensed healthcare provider and must include special care, location for delivery, regular medical check-ups, and special dietary and recreational needs. A copy of the individual medical plan will be sent to the department’s regional R.N. (4-11-15)

02. Parenting Classes. Parenting classes must be an integral part of the individual medical plan for all pregnant female juvenile offenders. This service should also be offered as a priority to male juvenile offenders in department custody who are already fathers or whose spouse or girlfriend is expecting a child. (4-11-15)

03. Medicaid Reimbursement. Medical services relating to pregnancy must be provided by a licensed healthcare provider and facility accepting Medicaid reimbursement, unless medical expenses are paid by the juvenile offender’s family. (4-11-15)

04. Infant Care. When an infant is delivered and the mother continues in department custody, the
infant must be placed with an appropriate family member or in the temporary care of the Family and Children Services Division of the Idaho Department of Health and Welfare, subject to any necessary court approval. At no time shall the infant remain in the provider’s facility. (4-11-15)

266. REFUSAL OF TREATMENT.
Refusal of medications or treatment recommended by a physician for three (3) days requires immediate notification to the department’s regional R.N. according to IDAPA 05.02.01.241, “Rules for Residential Treatment Providers.” (4-11-15)

01. Refusal of Recommended Treatment by Physician. If a juvenile offender chooses to refuse treatment or medication recommended by a physician, the juvenile offender must sign a detailed statement refusing this care. This refusal form must be sent from the direct care service provider to the regional R.N. (4-11-15)

02. Where Refusal Poses Significant Risk. If a juvenile offender refuses a treatment or medication for a condition which poses a significant risk of death or permanent physical impairment, the provider must issue its approval for the immediate administration of the medical treatment or medication in accordance with standard practice. (4-11-15)

267. USE OF MEDICATIONS.
The provider must have written policies and procedures governing the use and administration of medication to juvenile offenders. Policies must conform to all applicable laws and regulations including, but not limited to, those of the Idaho Department of Health and Welfare. (4-11-15)

01. Medication Management Upon Arrival. If the juvenile offender is taking medication, the reintegration provider must schedule an initial medication management appointment for the juvenile offender within five (5) business days of arrival into the program. (4-11-15)

02. Notification. If initiating or modifying any medication, the department’s regional R.N. must be notified. Notification must include the following: (4-11-15)

   a. The name of the prescribed medication; (4-11-15)

   b. The name and phone number of the prescribing doctor, nurse practitioner, or physician’s assistant; and (4-11-15)

   c. The reason the medication is being prescribed. (4-11-15)

268. FIRST AID KITS.
Each provider must maintain first aid kits. Basic first aid kits that do not include medications or sharp tools may be kept unlocked. Any complete first aid kit with medications, wound rinses, scissors, tweezers, or other such objects must be kept locked and placed in areas of the program readily accessible to staff. (4-11-15)

269. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the rules listed in the descriptive summary of this notice is June 19, 2019.

AUTHORITY: Pursuant to Section 20-212(1), Idaho Code, and in compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated rulemaking procedures. Sections 20-212 and 20-408, Idaho Code, require the Idaho State Board of Correction to make rules. Pursuant to Section 20-212(1), Idaho Code, rules of the Idaho State Board of Correction are subject to review of the Idaho State Legislature pursuant to Sections 67-454, 67-5291, and 67-5292, Idaho Code, but no other provisions of chapter 52, title 67, Idaho Code, shall apply to the Board, except as otherwise specifically provided by statute. Under normal circumstances, in accordance with Section 20-212(1), Idaho Code, these rules would be come final and effective thirty (30) days after the date of publication in the Idaho Administrative Bulletin. However, in accordance with Section 20-212(1), Idaho Code, the Idaho Board of Correction has determined the public health, safety and welfare is in jeopardy and these rules will become final and effective upon the governor's signature of this proclamation.

PUBLIC HEARING SCHEDULE: Pursuant to Section 20-212(1), Idaho Code, public hearings concerning this rulemaking will not be scheduled.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 06, rules of the Board of Correction:

**IDAPA 06**
- 06.01.01, *Rules of the Board of Correction*, with revisions to clarify language and remove outdated references.
- 06.01.02, *Rules of Idaho Correctional Industries*, with revisions to clarify language and remove outdated references.
- 06.02.01, *Rules Governing the Supervision of Offenders on Probation or Parole*, modified to include rules formerly known as 06.02.01, Rules Governing the Supervision of Offenders on Probation or Parole by the Department of Correction, Division of Probation and Parole and 06.02.02, Rules Governing Establishment and Operation of a Limited Supervision Unit by the Department of Correction, Division of Probation and Parole, revisions to clarify language, and remove outdated references.
- 06.02.02, *Rules Governing Release Readiness*, formerly 06.02.03, with revisions to clarify language and remove outdated references.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Negotiated rulemaking was not conducted because Section 20-212(1) exempts the Idaho State Board of Correction from conducting negotiated rulemaking.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the proposed rule, contact Jamie Hess Smith at jamismit@idoc.idaho.gov or (208) 287-3321.

Dated this 19th day of June, 2019.
NOW, THEREFORE, I, Brad Little, Governor of the State of Idaho, by the authority vested in me under Section 20-212(1) of the Idaho Code, I do hereby approve this request for emergency rulemaking.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho at the Capitol in Boise on this 19th day of June in the year of our Lord two thousand and nineteenth and of the Independence of the United States of America the two hundred forty-third and of the Statehood of Idaho the one hundred twenty-ninth.

25. **Parolee.** An offender who is released from a facility by the paroling authority under certain terms and conditions and is under the supervision of a probation and parole officer (PPO) for an established period. (6-30-19)

26. **Penological Interests.** The security, programmatic, and rehabilitative interests of the Board and the Department. (11-5-99)

27. **Person.** An individual, corporation, governmental entity or organization, however organized or constituted. (11-5-99)

28. **Photo Identification.** A state issued driver’s license, a state issued identification card displaying a photograph, a military issued identification card displaying a photograph, or a current valid passport. (10-5-07)

29. **Post Order.** A detailed set of guidelines and procedures for each post or area of employee assignment which governs and explains the duties of the employee assigned to the post or area of responsibility. (11-5-99)

30. **Probationer.** An offender supervised by a probation and parole officer (PPO) for an established period of time as established by the court. (6-30-19)

31. **Procedure.** A sequence of steps or actions to be followed to implement and support a rule or policy. (11-5-99)

32. **Public.** A person, of the general public, that does not include offenders, contractors, vendors, volunteers, interns, or the employees of the Board, Department, or the Commission of Pardons and Parole. (10-5-07)

33. **Special Investigations Unit (SIU).** The designated unit under the Director’s office with primary responsibility for conducting investigations of employee misconduct allegations and providing assessment and general investigative services for the Department. (6-30-19)

34. **Tobacco Products.** Cigarettes, whether packaged or hand rolled, cigars, snuff, chew, or any other variation of a product containing tobacco. (11-5-99)

35. **Vendor.** A person who supplies goods or services to the Board or any operation or facility under the authority of the Board. (11-5-99)

36. **Visiting Staff.** Employees of the Department or the Commission of Pardons and Parole conducting business in the Department central office building on a regular or irregular basis. (10-5-07)

38. **Volunteer.** An approved person who volunteers or donates time or services to the Board or a Department operation or facility, not employed by the Idaho Department of Correction (IDOC), who is at least eighteen (18) years of age and, of their own free will, provides good or services, for no monetary or material gain, to a facility and/or any of its sections. This person must:
   a. Completed an application; (10-5-07)
   b. Receive volunteer and facility orientation training; and (10-5-07)
   c. Be approved by a facility head or designee. (10-5-07)

011. -- 012. (RESERVED)

013. **DEPARTMENT FEE STRUCTURE.**
In order to help the Department defray the cost of various services provided to offenders, the Department may charge the following fees.

01. **Presentence Investigation Fee.** Pursuant to Section 19-2516, Idaho Code. (11-2-12)

02. **Cost of Supervision Fee.** Pursuant to Section 20-225, Idaho Code. (6-30-19)

03. **Interstate Compact Application Fee.** Pursuant to Section 20-225A, Idaho Code. (6-30-19)

04. **Maintenance/Room and Board Fee.** Pursuant to Section 20-242, Idaho Code, the Department may require that offenders pay an amount to the Board sufficient for the offender's board and personal expenses. The Department sets these fees in Department standard operating procedure. (6-30-19)

05. **Hobby Craft Surcharge.** The Department may charge offenders who participate in facility hobby craft activities a surcharge to offset the cost of hobby craft supplies and items that are used by participating offenders, such as hobby shop tools. The Department sets the fee in Department standard operating procedure. (6-30-19)

06. **Photo Copying Fee.** The Department may charge offenders a fee for photocopying court documents relating to qualified legal claims or other documents as authorized by the Department. Offenders have access to courts regardless of their inability to pay for photocopies related to qualified legal claims. The Department sets the fee in Department standard operating procedure. (6-30-19)

07. **Medical Co-Pay Fee.** In order to offset the costs associated with offender healthcare services, the Department may charge offenders a fee for healthcare services. The IDOC and/or contract medical provider shall not deny an offender access to healthcare services based on the offender’s inability to pay. The Department sets the fee in Department standard operating procedure. (6-30-19)

014. -- 103. (RESERVED)

104. **TOBACCO FREE ENVIRONMENT.**
Department Property shall be tobacco free. No person shall use tobacco products on or in Department Property, to include vehicles, except in designated areas. Tobacco products are not allowed in any Department correctional facility or CRC; any tobacco products must be kept in a securely locked vehicle in a Department parking lot. (6-30-19)

105. **VICTIM NOTIFICATIONS.**
Upon receipt of a victim request for notification made pursuant to Section 19-5306(2), Idaho Code, the Department shall make reasonable efforts to notify the victim when the offender who is the subject of the request escapes or is released from the custody of the Board other than by the Parole Commission or a court order. (11-5-99)

106. **SERVICE OF PROCESS ON DEPARTMENT EMPLOYEES.**
The Board authorizes and directs that all service of summons, complaints, and subpoenas against or upon the Board, the Department, or any employee of the Department for or related to a cause of action arising out of or related to the scope and course of the actions, duties, or employment of the Board, the Department, or any employee of the Department shall be made upon the deputy attorneys general assigned to the Department in the manner and form required by state and federal rules of procedure. (10-5-07)

107. (RESERVED)

108. **IDAHO PUBLIC RECORDS ACT.**

01. **Intent of the Board.** It is the intent of the Board that the records of the Department shall be open to the public for inspection and copying at all reasonable times, unless the records or information contained therein is specifically exempted from disclosure by state or federal statute or court rule. The Board shall implement the exemptions for Department records as set forth in the Idaho Public Records Act. (6-30-19)

02. **Public Records Requests.** A written request for records of the Department shall be required. (6-30-19)
03. **Custodian of Records.** Certain Department employees are designated as official custodians of Department records. The employees designated as official custodians of the Department records may delegate duties and responsibilities of the custodians in order to more efficiently process public records requests. For purposes of this section, official custodians for records of the Department shall be:

- a. The director; (1-4-02)
- b. The public information officer; (11-5-99)
- c. The central records manager; (11-5-99)
- d. The chiefs of the divisions; and (6-30-19)
- e. The facility heads. (6-30-19)

04. **Records Exempt from Disclosure.** In order to protect information consistent with the public’s interest in confidentiality, public safety, security, and the habilitation of offenders, the Board has identified records of the Department to be exempt from disclosure in whole or in part. These records include, but are not limited to:

- a. Records to be exempt in their entirety:
  - i. Records of the Department that define specific building design details, such as facility blueprints, that if disclosed would jeopardize public safety and the security of the facility; (1-4-02)
  - ii. Records of the Department that define specific operations used to respond to and control emergencies, such as emergency plans, that if disclosed would interfere with the secure and orderly conduct of Department operations; (1-4-02)
  - iii. Records of the Department that define site-specific security operations, such as facility security procedures and site-specific post orders, that if disclosed would jeopardize public safety and the security of the facility; (1-4-02)
  - iv. Records containing information specific to the habilitation of any offender, including information tracking the behavior, progress or digression of a particular offender under the legal care, custody, supervision or authority of the Board, including a person within or without the state pursuant to an agreement with another state or a contractor. Notwithstanding this exemption, records of this nature specific to offenders sentenced to death shall be available to counsel of record for offenders sentenced to death, subject to redaction; (1-4-02)
  - v. Records of an offender when requested by another offender. For purposes of Subsection 108.04 the term offender shall not include an offender, probationer or parolee who has completed their sentence of incarceration or term of probation or parole; (6-30-19)
  - vi. Offender academic records. Notwithstanding this exemption, consistent with Family Educational Rights and Privacy Act, FERPA, 34 C.F.R. part 99, an offender’s academic records shall be disclosed to school officials, including teachers, having legitimate educational interests. Further, an offender’s academic records shall be disclosed to the offender’s attorney of record in their criminal case, provided that the attorney first submit a release, on their letterhead, signed by the offender. A release under Subsection 108.04.a.vi. must be current, within six (6) months. (6-30-19)
  - vii. Pre-sentence investigation reports, addenda, and the information contained in or attached to the reports, shall not be disclosed to any person except as provided by Idaho Rules of Criminal Procedure; (1-4-02)
  - viii. NCIC and ILETS records, FBI/CIB identification sheets, police reports, and drivers services sheets; (1-4-02)
ix. Medical, counseling and treatment records. Notwithstanding this exemption, an offender’s medical, counseling and treatment records shall be disclosed to the offender’s attorney of record in their criminal case, or the offender’s private professional health care provider, provided that the attorney or the health care provider submit a release for these records, on their letterhead, signed by the offender. A release under Subsection 108.04.a.ix. must be current, within six (6) months; (1-4-02)

x. Records identified in Rule 135 related to the Department's duty to carry out an execution pursuant to chapter 27, title 19, Idaho Code. (6-30-19)

b. Records exempt in part, subject to redaction: (1-4-02)

i. Records that contain any identifying information of any victims or witnesses or any information that would lead to the identification of any victims or witnesses; (6-30-19)

ii. Records of the Department containing the names and addresses of confidential informants, or containing information identifying confidential informants; (1-4-02)

iii. Department intelligence reports of offender criminal activity, that if disclosed would jeopardize public safety, the safety of confidential informants, offenders or staff, or the security of the facility; (6-30-19)

iv. Records that identify or would lead to the identification of a date, time, or a place of future transportation or movement of a prisoner; (1-4-02)

v. Department investigatory records, to the extent that disclosure of such records would interfere with enforcement proceedings, deprive a person of the right to a fair trial or impartial adjudication, disclose the identity of a confidential source or confidential information furnished only by the confidential source, disclose investigative techniques or procedures, or endanger the life or physical safety of any person. This exemption shall not preclude release of the following information: (1-4-02)

1. The time, date, location, and nature and description of a reported crime, accident or incident; (1-4-02)

2. The name, sex, age, and address of a person arrested, except as otherwise provided by law; (1-4-02)

3. The time, date, and location of the incident and of the arrest; (1-4-02)

4. The crime charged; and (1-4-02)

5. Documents given or required by law to be given to the person arrested. (1-4-02)

vi. Employee personnel records. (1-4-02)

05. Records of Civil Commitments. Civil commitment records differ in confidentiality from other offender records in that the civilly committed individual may not be convicted of a crime or may be held in a Department facility for reasons other than criminal conviction. Requests for information from the file of a civilly committed individual may be referred to Department legal counsel to determine applicability of federal and state statutes or court rules pertaining to individual privacy and the public’s right to know. (1-4-02)

109. (RESERVED)

110. MEDIA AND PUBLIC RELATIONS.
Requests for an interview with an offender will be referred to the public information officer. The offender will be informed of the request for interview and the nature of the interviewer's interest. The offender may accept, decline or modify the request for interview. Requests for an interview with an offender will be accommodated by a telephone call from the offender to the media representative. An offender accepting a request for interview will be provided with the interviewer's telephone number and any specific time frame requested for the interview. The director, chief
of the division, or head of the facility where the offender is housed may deny the interview request. Face-to-face or on-camera interviews with an offender will be permitted at the discretion of the Director. (6-30-19)

111. -- 113. (RESERVED)

114. INMATE TRUST ACCOUNT.

01. **Account Established in Inmate Name.** Pursuant to section 20-209H, Idaho Code, the Department shall establish an account in each inmate’s name at the time of admission to a facility. The Department shall develop guidelines for the withdrawal of funds by the inmate or to satisfy the inmate’s financial obligations. (6-30-19)

02. **Employers of Reentry Center Inmates.** Any person employing an inmate housed in a community reentry center shall send the inmate’s pay directly to the Department for deposit in the inmate’s account. (6-30-19)

115. (RESERVED)

116. CUSTODY OF EVIDENCE.

All evidence confiscated from Department employees, offenders, contractors, or witnesses, that is or may be utilized in administrative investigations and inquiries, probation or parole revocation hearings, or criminal proceedings, shall be maintained in a safe and secure manner until completion of the investigation, inquiry, or proceeding. A member of the public claiming an interest in an item of evidence may file a written request for its return with the Department or law enforcement agency having jurisdiction. (6-30-19)

117. ACCESS TO DEPARTMENT PROPERTIES.

In order to maintain the secure and orderly operation of Department correctional facilities, community reentry centers (CRCs), and district probation and parole offices, the Department shall control access to these Department properties. Any person entering onto and/or into a correctional facility, CRC, or district probation and parole office property, shall do so at their own risk and will be required to comply with all written and/or verbal security and control measures. The Department shall not allow public access to any correctional facility, CRC, or district probation and parole office property without approval of the Board, director, division chief, deputy division chief, district manager, or facility head. The Department may consider any person who enters onto and/or into a correctional facility, CRC, or district probation and parole office property without a business purpose or approval to be trespassing and subject to arrest and prosecution pursuant to Idaho Code. (6-30-19)

01. **Persons and Vehicles Subject to Search.** All persons entering onto and/or into a correctional facility, CRC, or district probation and parole office property, may be subject to search. All vehicles entering onto a correctional facility, CRC, or district probation and parole office property may be subject to search and unattended vehicles must be locked and have keys removed. All vehicles entering the secure perimeter of a correctional facility shall be searched upon entering and exiting the facility. (6-30-19)

02. **Photo Identification Required.** The identification of all Department visitors is necessary to ensure staff safety and building security. All Department visitors shall identify themselves to Department staff upon entering into Department property. The identification of visiting employees may be made by visual recognition or the request to see a Department-issued identification card or law enforcement/peace officer badge, or both. The identification of all other visitors, not inclusive of officials escorted by a member of the Board, director, division chief, deputy division chief, district manager, or facility head, shall be through photo identification or law enforcement/peace officer badge, or both. (6-30-19)

03. **Contraband Prohibited.** (6-30-19)

a. The items allowed onto or into a correctional facility, CRC, or district probation and parole office property shall be controlled. Unauthorized items are called contraband and any person who brings or attempts to bring contraband onto or into a Department property may be subject to arrest and prosecution. (6-30-19)

b. Any person who brings a firearm into restricted areas of a district probation and parole office property shall be subject to Section 117 of these rules. (6-30-19)
04. **Possessing Firearms and Other Deadly or Dangerous Weapons.** Without the approval of the director or division chief, no person shall be allowed to enter into or onto Department Property with a firearm or other deadly or dangerous weapon.

   a. ‘Restricted area’ shall mean any area Department property in which certain security measures are carried out for the purpose of protecting staff or Department property, or both, from harm or theft.

   b. ‘Possess’ shall mean to bring a weapon, firearm, or other deadly or dangerous weapon, or to cause such items to be brought into Department property or Department vehicles.

   c. ‘Firearm’ shall mean any weapon, whether loaded or unloaded, from which a shot, projectile, or other object may be discharged by force of combustion, explosive, gas and/or mechanical means, whether such firearm is operable or inoperable.

   d. ‘Deadly or dangerous weapon’ shall mean a weapon, device, instrument, material, or substance that is used for, or is readily capable of, causing death or serious bodily injury.

05. **Visiting Inmates.** Inmate visitation is allowed at the discretion of the facility head or designee. Nothing in these rules establishes a right to visit any inmate. The facility head will determine whether a visit is contact or non-contact. All visitors must be approved in advance to visit with an inmate, unless an exception is granted by the facility head. All visitors are subject to a criminal background investigation and a check for outstanding warrants. Visitors are responsible for reading and following the Department's rules that govern visiting. The rules can be found at the Department's website or they can be obtained at the facility visiting room during visiting hours.

   a. Restricted Visitors. The Department may restrict any person from visiting an inmate, including, but not limited to:

      i. Former inmates.

      ii. Probationer or parolee.

      iii. Minor children who are not an immediate family member of the inmate.

      iv. A minor child who was the victim of a violent or sexual crime where the inmate was the perpetrator of the crime, whether a conviction resulted or not.

      v. Current or former Department employee, volunteer, vendor, intern, or contractor.

      vi. A person who has pending criminal charges.

   b. General Standards. A person shall not be on the approved visiting list for more than one (1) inmate at a time unless the person is the immediate family of more than one (1) inmate being visited. A person will not be approved to visit an inmate if within six (6) months before the current application the person was an approved visitor on another inmate's visiting list.

   c. Termination of Visits. A visit may be suspended, restricted, or terminated at any time, for any period of time (including permanently), for violation of any of the following:

      i. Board rule;

      ii. Department policy, standard operating procedure, directive, or field memoranda; or

      iii. At the discretion of the facility head or designee.

      iv. Persons who have had visiting privileges permanently terminated may apply within fourteen (14) days to the chief of the division that governs the facility for reconsideration of the termination decision, and on an annual basis thereafter.
d. Attorney Visits with Inmates. An attorney or approved agent may visit with an inmate consistent with this section and must abide by all Department regulations, policies, and standard operating procedures governing visiting. (6-30-19)

i. Visits between inmates under the sentence of death and attorneys will be permitted pursuant to Section 19-2705, Idaho Code. (6-30-19)

ii. Visits with groups of inmates will not be permitted unless the Office of the Attorney General has verified class certification or co-parties. (6-30-19)

iii. For safety and security purposes, the facility head may assign staff to supervise visits between inmates and attorneys or their approved agents. (6-30-19)

06. Tours or Sanctioned Activities. (6-30-19)

a. Tours. The Department may allow tours of facilities and property according to procedures approved by the director and tours will take place at times that ensure the safety and convenience of the facility or Department property. All persons under eighteen (18) of age must be accompanied by a parent or guardian or have written permission from the parent or guardian, unless approved by the director or designee. (7-1-19)

b. Sanctioned Activities. Under certain circumstances, and with an invitation from the director or designee, an individual may attend events or program activities held at a facility as long as attendance does not interfere with penological interests. (6-30-19)

07. Termination. Any visit, tour, sanctioned activities, or services shall be subject to immediate cancellation upon violation of Department rule or policy. (6-30-19)

118. -- 133. (RESERVED)

134. RESEARCH REQUESTS. The Board may allow access to records, employees and offenders in the custody of the Board for purposes of appropriate and ethical research relevant to the Board’s penological interests. (11-5-99)

01. Archival Research. Research that is based solely on a review or analysis of existing data will receive an expedited review. (6-30-19)

02. Research Conducted with Human Subjects. Research conducted on offenders or employees, or both, may be conducted by professional researchers, including private consultants and Department employees, graduate students supervised by graduate level professionals, or undergraduate students supervised by Department staff undertaking research projects implemented and designed by Department administrators. A consent form, signed by the offender or employee, will be required for all requests to conduct research with a human subject. (6-30-19)

03. Required Documentation. A written proposal; a copy of the school’s Internal Review or Human Subject Review Board approval, if applicable; a copy of the consent, if applicable. Required documentation will be initially submitted to IDOC research unit. Required documentation must be submitted ninety (90) days prior to the proposed research start date. Once the proposal is approved by IDOC, a memorandum of understanding between the Department and the researcher(s) will establish the expectations of all parties. (6-30-19)

a. The written proposal will include a statement of the significance of the study, a research hypothesis or problem statement, an estimate of the time parameter for the project’s completion, and a clear statement of the research methodology, a definition of the population, the sample selection, the design, ethical procedures, a discussion on dissemination of written research reports and legal parameters. (6-30-19)

b. The written proposal, copy of the Internal Review or Human Subject Review Board approval, and copy of the consent form will be reviewed by the facility head, or designee, of the site where the research is to take place. These documents will be reviewed for compatibility with Department goals, programs and needs for research.
In addition, these documents may be rejected or returned for resubmission because there is a lack of compatibility with stated Board or Department goals, programs and needs for research, the research is inappropriate for conducting under the auspices of the Board or Department, or there is a failure to meet the required proposal criteria.  

**c.** Department employees conducting research at the request of the Department and professional researchers retained by the Department may be exempt from the requirement to submit a written research proposal.  

**d.** Department employees who wish to conduct research not requested by the Department must submit the required documentation noted in Subsection 134.03.  

**e.** Acceptable research proposals will be forwarded to the chief of the division where the research is to take place for final approval. Certain projects involving offenders should be approved with minimal review. Those projects include:  

i. Research conducted in a manner that does not link information gathered to the identity of the participants;  

ii. Research on regular and special instructional techniques;  

iii. Research involving the administration of standard tests, when information from the tests cannot be linked to the identities of the subjects; and  

iv. Research involving surveys or interview procedures where the responses cannot be identified back to the respondents.  

**04. Rights of Research Subjects.** The rights and welfare of any offender or employee as research subjects will be safeguarded at all times.  

**05. Use of Offenders in Medical Experimentation Prohibited.** The use or participation of offenders in medical, pharmaceutical or cosmetic experiments is expressly prohibited.  

**06. Written Report Required.** The principal researchers shall be required to provide the Department with a copy of the completed research results.  

**07. Termination of Project.** The director, any division chief, facility head, or designee may terminate approved research at any time for noncompliance with any rule, policy or procedure, directive, or condition previously agree upon, or for cause generated by an emergency situation or at the discretion of the director.  

### EXECUTIONS  

**01. Personnel Assigned to Execution.** Idaho Maximum Security Institution (IMSI) personnel and the Department’s administrative team will carry out the execution warrant. The IMSI facility head (or designee) shall be the official executioner.  

**02. Method of Execution.** Execution of the sentence of death shall be by lethal injection.  

**03. News Media Coordination.** Department personnel will coordinate news media activity and provide logistics and communications support. A news media center shall be established. The pre-execution briefing will be delivered in the news media center. The post-execution briefing will occur in the news media center. News media witnesses will be chosen pursuant to Department procedure. The director or designee will designate a public information officer to respond to execution-related news media requests and releases of information.  

**04. Parking and Demonstration Areas Provided.** Areas for public and news media parking will be provided and maintained in a secure manner. Areas for public gathering and demonstration of support or opposition to the death penalty will be provided and maintained in a secure manner.
05. Disclosure. (6-30-19)

a. Disclosure. The director shall determine and prepare written procedures, to be reviewed by the Board, to be used in any execution. At a minimum the procedures must address the substance or substances approved to be used, the process to test the composition of the substance or substances to be used, protocols and procedures related to the preparation and administration of the substance or substances to be used, staff, contractor and volunteer training, and qualifications of contractors or volunteers providing medical services. Except as provided by sections 74-105(4) and 74-105(19), Idaho Code, these procedures shall be made available to the public upon request. (6-30-19)

b. Non-Disclosure. The Department will not disclose under any circumstance information wherein the director determines disclosure of such information could jeopardize the Department’s ability to carry out an execution, including, but not limited to the following: (6-30-19)

i. The identity of the on-site physician; (6-30-19)

ii. The identity of staff, contractors, consultants, or volunteers serving on escort or medical teams; (6-30-19)

iii. Information that identifies or could lead to the identification of any pharmacy, prescriber, manufacturer, compounder, or other entity that supplies or has supplied any chemicals or substances to the Department of Correction or any entity that provides or has provided medical supplies or services to the Department of Correction. (6-30-19)

06. Persons Allowed in the Execution Unit. The director (or designee) shall have the discretion to determine the number of persons allowed in the execution unit at any time. In exercising this discretion, the director (or designee) shall consider the safe, secure, and orderly operation of the Idaho Maximum Security Institution (IMSI); the interests of the victim’s family; and whether multiple death warrants are being executed concurrently. The configuration of the execution unit and the occupants of each room will be in accordance with Department standard operating procedure. (1-11-12)

a. In most instances, the following persons should be allowed in the execution unit: (1-11-12)

i. The administrative team; (1-11-12)

ii. The escort team; (1-11-12)

iii. The medical team as identified by the Department’s administrative team; (1-11-12)

iv. The on-site physician; (1-11-12)

v. The director or designee; (11-4-11)

vi. An Idaho Board of Correction representative; (1-11-12)

vii. The chief of the Prisons Division or designee; (6-30-19)

viii. The IMSI facility head or designee; and (1-11-12)

ix. The following witnesses: (1-11-12)

(1) The Ada County coroner or deputy coroner; (1-11-12)

(2) The sheriff from the county of conviction; (11-5-99)

(3) The prosecuting attorney from the county of conviction; (11-5-99)
(4) A spiritual advisor of the offender’s choosing; (1-11-12)
(5) The sentencing judge; (11-5-99)
(6) The Idaho governor or their representative; (1-11-12)
(7) The Idaho attorney general or their representative; (1-11-12)
(8) Two (2) members of the victim’s family; (1-11-12)
(9) Two (2) friends (approved visitors) or members of the offender’s family; (1-11-12)
(10) The offender’s attorney of record; and (1-11-12)
(11) Four (4) members of the news media pursuant to Subsection 135.03 of these rules. (1-11-12)

b. In the event that any of the persons, to include their designee or representative, identified in Subsection 135.07.a. of these rules, do not wish to attend the execution, the director or designee may approve another individual to attend in that person’s place. (1-11-12)

136. MERITORIOUS REDUCTION OF SENTENCE.

01. Eligibility. An offender may be considered for a meritorious conduct reduction of sentence pursuant to 20-101D, Idaho Code. (6-30-19)

02. Limitations. The Director may withdraw an award of meritorious conduct reduction at their discretion based on an offender’s serious misconduct, escape, or commission of a new crime. An offender shall be entitled to a hearing prior to any withdrawal of an award of meritorious conduct reduction. Nothing herein shall create any right or entitlement of an offender to receive a meritorious conduct reduction of sentence. (11-5-10)

137. -- 144. (RESERVED)

145. SUBPOENAS.
The Department shall conduct thorough and appropriate investigations and absconder apprehensions, in part, by requesting, reviewing, processing, and issuing subpoenas consistent with Sections 20-209G and 20-228A, Idaho Code. (11-6-09)

01. Subpoena Authority. The Director has the authority to require, by way of an administrative subpoena, the production of all documents that are necessary in the performance of the functions assigned by law. (11-6-09)

a. Special Investigations Unit investigators, conducting an authorized inquiry or investigation, may request an administrative subpoena be issued for documents. (6-30-19)

b. Probation and parole officers, assisting in the apprehension of parolees who have absconded and for whom there are arrest warrants, may request an administrative subpoena be issued for documents. (11-6-09)

02. Service of Subpoenas. SIU is responsible for serving all subpoenas. The investigator will personally serve the administrative subpoena at the principal place of business or residence of the person being served. A duplicate original (i.e., a second copy with original signatures) shall be left with the business or person being served. (6-30-19)

03. Timelines for the Production of Documents. The business or person on whom the service was successfully executed, must be allowed at least seven (7) calendar days to produce the documents requested in the administrative subpoena. (6-30-19)

04. Compliance and Noncompliance with the Served Subpoena. Upon compliance with the terms of
the subpoena, the Special Investigations Unit investigator will file and record receipt of the documents subpoenaed. If the business or person subpoenaed to produce the documents does not comply with the subpoena, the investigator will promptly advise the deputy attorneys general who represent the Department, via memorandum, describing the relevant circumstances. The deputy attorneys general will advise the investigator and the Director as to whether to compel production of the documents via court action and, if so, develop a strategy and procedures to compel compliance.

05. **Reimbursement.** Generally, subpoenaed businesses or persons are entitled to reimbursement of reasonable costs associated with searching for, assembling, and copying subpoenaed documents pursuant to Idaho Rules of Civil Procedure, Rule 35.

a. Financial institutions, as defined in 12 U.S.C. Section 35, Right to Financial Privacy Act, may seek reimbursement for the costs of providing a customer’s financial records.

b. Pursuant to 18 U.S.C. Section 2706, telecommunication carriers are authorized to charge a reasonable fee to cover the costs of searching for and providing information responsive to a subpoena. Some agency subpoenas are an exception to this rule but only to the extent that they seek records or other information maintained by a common carrier that relate to telephone toll records and telephone listings.

i. Telephone toll records generally include records of outgoing long-distance calls made from a landline and records of all incoming and outgoing calls made to and from a cellular phone.

ii. With respect to landlines specifically, the cost of searching for records of incoming local calls is reimbursable, and the cost of searching for records of incoming long-distance calls may also be reimbursable.

c. Upon receipt of an invoice for documents provided by any business or person, the Special Investigations Unit chief investigator or designee will consult with the deputy attorneys general to determine if reimbursement is required. When reimbursement is approved, invoices will be paid by the respective Department division.

146. -- 301. (RESERVED)

302. **HOUSING OFFENDERS IN COUNTY FACILITIES.**

01. **Payment of Daily Fee.** The Department shall pay an Idaho county housing an offender committed to the custody of the Board a daily fee as established by Section 20-237A, Idaho Code. The fee shall accrue and become payable beginning on the day after the county sheriff provides the notification required by Subsection 302.02.

a. The fee includes the ordinary daily expenses of housing an offender, including room and board.

b. The Department will pay for all ordinary medical and dental expenses of offenders committed to the custody of the Board subject to the provisions of Subsection 302.05.

c. The Department shall not make payment for offenders held on pending charges, offenders temporarily returned to the jail by order of the court, and offenders otherwise held under court-ordered jurisdiction.

02. **Notification of New Commitment.** Upon receiving into custody an offender sentenced to imprisonment and committed to the custody of the Board, the sheriff shall notify the Department. Notification shall be made by sending a copy of the judgment of conviction to the Department by certified mail or facsimile.

03. **Accepting the Offender for Transport to a Department Facility.**

a. A newly sentenced and committed offender shall not be accepted for transport from a county jail to
a Department facility unless the notification required by Subsection 302.02 has been made or unless the director or designee authorizes the transport in writing; and  

b. If a sheriff moves an offender committed to the custody of the Board to the jail of another county, the sheriff must immediately notify the Department. The sheriff shall not transfer an offender committed to the custody of the Board to jail located in another state without the approval of the director or designee.  

c. Prior to the date of the transport of the offender from a county jail to a Department facility, the sheriff shall have sent the following information about the offender to the Department central records bureau:  

i. Judgment and commitment orders from the court;  
ii. Jail disciplinary and incident reports, if any; and  
iii. Medical and psychological files.  

04. Conditions of Confinement. The policies and guidelines of the county jail shall apply while the offender is confined at the county jail, except as may be modified by this section or agreement between the Board and the county jail.  

05. Medical, Dental, Psychological and Psychiatric Care. Delivery of routine medical, dental, psychological, and psychiatric services shall be the responsibility of the jail where the offender is held, however, the Department’s health authority shall have the responsibility for approving medical, dental, psychological, and psychiatric health care payments for offenders committed to the custody of the Board and housed in county jails.  

a. All medical services for an offender housed in a county jail delivered outside the county jail, including consultant appointments, scheduled hospitalizations, and dental care, shall be approved by the health authority or designee prior to occurring, except as noted in Subsection 302.05.  

b. The health authority or designee, shall be notified the next working day of any emergency services.  

c. Any extraordinary treatment shall be approved by the health authority prior to treatment. Emergency care, which requires possible transport of the offender out-of-state, requires prior approval by the health authority or designee.  

d. Failure to make the notifications required by Subsection 302.05 to the health authority or designee will result in the county jail being held responsible for any charges or expenses incurred.  

e. Transportation of the offender to and from appointments shall be the responsibility of the county jail. An offender committed to the custody of the Board shall not be left without security escort, except as may be approved by the director or designee.  

06. Transporting Offenders. The Department will transport newly committed offenders from the county jail to a Department destination determined by the Department. The sheriff shall transport offenders to and from a Department facility and the county jail when a court appearance is ordered. Other transport arrangements may be made between the Department and the sheriff.  

07. Offender Work Assignments. Offenders committed to the custody of the Board who are being held in county jails may be assigned to work assignments or work projects. No offender shall be assigned to a work assignment or project outside of the secure perimeter of the jail. An offender shall not be outside of the secure perimeter of the jail when not directly supervised or escorted by security personnel, except upon approval of the director or designee.  

303. -- 310. (RESERVED)
311. INMATE MARRIAGES.
Section 32-201, Idaho Code, requires that all marriages in Idaho be accomplished with a license and by solemnization. A person desiring to marry an inmate shall make application for marriage to the facility head of the facility where the inmate is held in custody. The facility head shall have discretion to allow a solemnization ceremony to be conducted within the facility between a member of the public and an inmate if in the opinion of the facility head doing so will not be contrary to penological interests. (6-30-19)

312. DECEASED INMATES.

01. Notifications. Upon verification of the death of an incarcerated inmate, the facility head or designee shall notify the coroner of the county in which the facility is located and the offender’s family in accordance with emergency contact information the inmate has on file with the facility. (11-2-12)

02. Autopsy and Inquest. The coroner shall determine if an autopsy should be performed in accordance with state law and the interests of the public. The Department shall seek an autopsy in all cases of violent or sudden and unexpected death. The coroner shall hold an inquest as required by Section 31-2801, Idaho Code, unless the autopsy was waived. (11-2-12)

03. Delivery of the Body to a Funeral Home. As soon as possible after the death of the incarcerated inmate, the facility head or designee shall arrange for the body to be delivered to coroner or a funeral home. The deceased inmate’s family, if any, shall be told where the body may be claimed and if the family claims the body, the family shall be responsible for all costs of interment. (11-2-12)

04. Body Not Claimed. In cases where the coroner has performed an autopsy and the body has been released but not claimed, or where the body has not been claimed within seventy-two (72) hours after death and a reasonable and good faith effort was made to notify the deceased inmate’s family, the facility head or designee shall arrange with a funeral home for interment. If there is not sufficient property in the estate of the deceased inmate to pay the necessary expenses of interment, the expenses are a legal charge against the county where the facility is located pursuant to Section 31-2802, Idaho Code. The director of the Department may, in their sole discretion, accept financial responsibility for the costs of interment on behalf of the Department. When the Department accepts financial responsibility for the costs of interment, the interment will be by cremation. (11-2-12)

05. Disposition of the Deceased Inmate’s Money and Property. After the death of an incarcerated inmate, the facility head or designee will make a good-faith effort to locate the person or charitable organization the deceased inmate designated in emergency contact information to receive their money and property after interment and property mailing decisions have been made.

a. In cases where none of the deceased inmate’s family or friends take financial responsibility for the deceased inmate’s interment, the Department shall first apply the deceased inmate’s money towards the inmate’s interment. (11-2-12)

b. In cases where the person or charitable organization the deceased inmate designated to receive their property and the designated person or charitable organization requests that the deceased inmate’s property be mailed, the Department shall secondly apply the deceased inmate’s money towards the cost of mailing the deceased inmate’s property to the person or charitable organization. If no money remains to cover the cost of mailing the deceased inmate’s property, the person or charitable organization will have to arrange with the facility to pick up the property, or if the person or charitable organization declines to pick up the property, the Department may dispose of the property in accordance with Department standard operating procedure. (11-2-12)

c. Any money remaining after the deduction of interment and property mailing costs shall be released by the Department to the person or charitable organization the deceased offender designated in emergency contact information to receive their money and property.

i. If the Department is unable to locate the person or charitable organization designated to receive the deceased inmate’s money, the Department will hold the money for up to two (2) fiscal years and then process the money as unclaimed funds. The Department shall submit all unclaimed funds to the Idaho State Treasurer’s Office. (11-2-12)
ii. If the Department is unable to locate the person or charitable organization designated to receive the deceased inmate’s property, the Department will hold the property for up to one hundred eighty (180) days and then donate or destroy the property in accordance with Department standard operating procedure. (11-2-12)

06. **Inmates Housed in Non-Department Facilities.** If an incarcerated inmate in the custody of the Board dies while housed in a non-Department facility, the Department shall pay for costs of disposition of the body, unless other arrangements are stated in an agreement or contract with the non-Department facility or unless the family shall claim the body of the deceased offender. (11-2-12)

313. -- 400. (RESERVED)

401. **MEDICAL CARE.**

01. **Notification of Family in Emergency.** In the event of a serious injury to an inmate or the hospitalization in an acute care setting of an inmate the facility head of the facility where the inmate was housed shall make reasonable efforts to notify the inmate’s family, unless doing so would be contrary to penological interests. (11-5-99)

02. **Contracts with Hospitals.** The Department may enter into contracts with hospitals in the community where a facility is located to provide for the secure hospital care of inmates in the custody of the Board. (11-5-99)

03. **Children Born to Inmates.** The Board or the Department shall not be financially or otherwise responsible for the medical or other care of a child born to an offender in the custody of the Board. (11-5-99)

04. **Organ Transplant Donations by Inmates.** The director or designee may approve organ donations by inmates only if the recipient is a member of the inmate’s immediate family. Any such organ donation by any inmate to an immediate family member shall meet the following criteria: (11-5-99)

a. The Department, or its medical provider if privatized, shall incur no financial liability as a result of any proposed organ donation. All costs related to the proposed organ donation and transplant must be paid by the recipient; (11-5-99)

b. The proposed transplant procedure must fall within acceptable community standards of medical care and established medical practices; (11-5-99)

c. Both the donor and the recipient shall sign a hold harmless and indemnification agreement to the benefit of the Board and the Department; and (11-5-99)

d. The Board expressly prohibits organ donation from the body of an executed inmate. (11-5-99)

402. **CORRESPONDENCE WITH INMATES.**

01. **Incoming Mail.** All incoming mail shall be opened and inspected to ensure it does not contain prohibited items and may be withheld from delivery to the inmate. Any sender of mail that violates the provisions of these rules, Department policies, or standard operating procedures may, at the sole discretion of the facility head, be restricted or prohibited from sending mail to or receiving mail from any inmate. (6-30-19)

02. **Legal Mail.** Legal mail is confidential communication directly between an inmate and an attorney for the purposes of seeking or providing legal services, an inmate and the court, and service documents pursuant to court rules. (6-30-19)

a. To be recognized and treated as legal mail, correspondence from a legal source must be clearly marked “Legal Mail” and display the name, title and address of the sender. (10-5-07)

b. Legal mail will be opened in the presence of the inmate and may be scanned to ensure that it does
not violate the provisions of these rules, Department policies, or division standard operating procedures. (6-30-19)

**c.** Any sender of legal mail that violates the provisions of these rules, Department policies, or standard operating procedures may, at the sole discretion of the division chief, have all incoming and outgoing mail treated as regular mail. (6-30-19)

**03. Confidential Mail.** Confidential mail includes correspondence sent to or received from persons or entities such as the following: the President of the United States, the governor, the Idaho Legislature or U.S. Congress (except for bulk mailings), the Board, the director, IDOC chiefs and deputy chiefs, facility heads, PREA reporting and support contacts, public interest groups or government entities providing assistance for inmates, the Idaho Commission of Pardons and Parole or any member thereof, or the Consulate or Embassy of an inmate who is a foreign national. (6-30-19)

**a.** Confidential mail will be opened in the presence of the inmate and may be scanned to ensure that it does not violate the provisions of this section, Department policies, or division standard operating procedures. (6-30-19)

**b.** Any sender of confidential mail that violates the provisions of these rules, Department policies, or standard operating procedures may, at the sole discretion of the facility head, have all incoming and outgoing mail treated as regular mail. (6-30-19)

**04. Prohibited Mail.** Mail, including a publication, that poses a threat to the penological interests of the Board or Department may be withheld from the inmate. Contraband will always be withheld without regard to this section. The Board has determined that some types of mail always pose a threat to penological interests. A list of the types of materials prohibited can be found at the Department's website or it can be obtained by request. (6-30-19)

**05. Withholding of Prohibited Material.** Any incoming mail suspected of containing any prohibited material defined in this section shall be withheld and reviewed by the facility head or designee to determine if it should be withheld or delivered to the inmate. If the facility head determines that the mail should be withheld, the offender will be given written notice. The offender may use the Department grievance procedure to contest the decision. (10-5-07)

**403. INMATE RELIGIOUS PRACTICES.**
Inmates have the opportunity to practice the tenets of their respective religious faiths, including access to religious publications, to representatives of their faiths, and to religious counseling, so long as those religious practices do not conflict with a compelling government interest. If compelling governmental interests burdens an offender’s religious practice, the Department will use the least restrictive to further that interest. (6-30-19)

**404. (RESERVED)**

**405. COURT PROCEEDINGS WITHIN A FACILITY.**
The Department may make a conference or court room within a facility available to a state or federal court for the purpose of holding a hearing or trial upon a claim involving an offender or group of offenders when doing so will not be contrary to penological interests. The facility head in consultation with the court may allow members of the public who are not witnesses to the proceeding into the facility to observe the proceeding when in the opinion of the facility head doing so will not be contrary to penological interests. (6-30-19)

**406. -- 502. (RESERVED)**

**503. TELEPHONES.**
Inmates are not allowed to use facility telephones except upon written permission of the facility head or designee. All telephone calls made from the inmate system are subject to being recorded. The facility staff shall make every reasonable effort to identify and not monitor telephone calls between an inmate and the inmate’s attorney. (6-30-19)

**504. -- 605. (RESERVED)**
606. VOLUNTEER SERVICES.  
The Department may establish a program of volunteer services within the facilities. All volunteers are subject to a criminal background check and must be approved by the appropriate authority. Orientation and training of volunteers shall include completion of a Department-approved training curriculum.  

608. -- 610. (RESERVED)

611. BUSINESS WITH INMATES AND LABOR OF INMATES.

01. Guidelines. The Department may contract with federal, state, local governmental entities, and non-profit public service organizations for public work projects.  

02. Persons Prohibited from Contracting with Inmates. No person may contract with, solicit for contract or employment or employ any inmate without written approval of the director or designee.  

612. -- 999. (RESERVED)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules of Idaho Correctional Industries are subject to, and in compliance with, the Idaho Public Records Act. (6-30-19)

007. -- 009. (RESERVED)

010. DEFINITIONS.

01. Inmate. An individual in the physical custody of the Board. (7-4-14)

02. Private Agricultural Employer. A person as defined in 44-1601(2), Idaho Code. (11-6-15)

03. Work Site. Any place where inmates may be found when assigned to a work project. (7-4-14)

011. ABBREVIATIONS.

01. IDOC. Idaho Department of Correction. (7-4-14)

02. IDOL. Idaho Department of Labor. (7-4-14)

03. ICI. Idaho Correctional Industries. (6-30-19)

012. CONTRACTS WITH PRIVATE AGRICULTURAL EMPLOYERS.
ICI will make all reasonable efforts to ensure non-inmate workers are not displaced when entering into a contract with a private agricultural employer for inmate labor. (11-6-15)

01. Wage Determination. On an annual basis, ICI will request a prevailing wage determination letter from the IDOL for the prevailing wage of the region for Standard Occupational Classification codes related to the agricultural work to be performed. (11-6-15)

02. Prior to Contract. Prior to entering into any contract with a private agricultural employer for inmate labor, ICI will conduct a work site evaluation with assistance from IDOC staff to identify inmate safety and security risks and needs. (11-6-15)

03. Contract Requirements. Contracts with a private agricultural employer must include the following: (11-6-15)

a. At a minimum, the hourly rate per inmate paid to ICI by the private agricultural employer for inmate labor must be set at the prevailing wage provided by IDOL for that region, or state minimum wage, whichever is higher. The hourly rate per inmate must also account for any other costs the private agricultural employer would be required by law to pay for non-inmate workers even if not required by law to pay for inmate workers, for example workers compensation insurance premiums. (11-6-15)

b. The security and safety provisions identified during the work site evaluation and the responsibilities of each party. Security and supervision of the inmates will be provided at the work site by IDOC correctional officers. (7-4-14)
c. A statement certifying that the private agricultural employer was unable to employ a sufficient number of non-inmate workers to complete the job as described in the contract. (7-4-14)

013. DISBURSEMENT OF FUNDS.

01. ICI Betterment Account. The moneys received for inmate labor and sale of goods will be deposited into the ICI Betterment Account and dispersed pursuant to Sections 20-214 and 20-416, Idaho Code. ICI will disperse a portion of the funds deposited from the agricultural inmate labor program to the Idaho Victim's Compensation Fund. (6-30-19)

   a. IDOC will invoice ICI for disbursement of funds to cover IDOC's costs of the agricultural inmate labor program. The funds dispersed to IDOC must be used to offset the costs of incarceration, supplement education opportunities to inmates, and provide resources for reentry to the community. (6-30-19)

02. Inmate Trust Account. Inmates will be compensated for their work in accordance with Section 20-412, Idaho Code. Inmate earnings must be deposited into the inmate's trust account. Upon deposit, deductions for court-ordered financial obligations, including child support and restitution, will be made by IDOC. Any other deductions by IDOC will be made according to IDOC policy. (11-6-15)

014. -- 999. (RESERVED)
06.02.01 – RULES GOVERNING THE SUPERVISION OF OFFENDERS ON PROBATION OR PAROLE

000. LEGAL AUTHORITY.

01. Section 19-2601(5), Idaho Code. Pursuant to Section 19-2601(5), Idaho Code, if the court places a defendant on probation to the Board of Correction the court includes in the terms and conditions of probation a requirement that the defendant enter into and comply with an agreement of supervision with the Board. (2-6-15)

02. Section 20-212, Idaho Code. Pursuant to Section 20-212, Idaho Code, the Board has authority to make all rules necessary to carry out the provisions of Title 20, Chapter 2, Idaho Code, not inconsistent with express statutes or the state constitution. (2-6-15)

03. Section 20-217A, Idaho Code. Pursuant to Section 20-217A, Idaho Code, the director has authority to assume all the authority, powers, functions and duties as may be delegated to him by the Board. (2-6-15)

04. Section 20-219(3), Idaho Code. Pursuant to Section 20-219(3), Idaho Code, the Board shall have the discretion to determine the level of supervision of all persons under its supervision, except those who are being supervised by problem solving courts. (2-6-15)

05. Section 20-219(5), Idaho Code. Pursuant to Section 20-219(5), Idaho Code, in carrying out its duty to supervise felony probationers and parolees, the Board shall use evidence-based practices, target the offender’s criminal risk and need factors with appropriate supervision and intervention and focus resources on those identified by the board as moderate and high-risk offenders. Supervision shall include the use of validated risk and needs assessments measuring criminal risk factors, specific individual needs and driving variable supervision levels. (2-6-15)

06. Section 20-219(7)(a), Idaho Code. Pursuant to Section 20-219(7)(a), Idaho Code, the Board has authority to promulgate rules in consultation with the Supreme Court to establish a program of limited supervision for offenders who qualify addressing eligibility, risk and needs assessments, transfers among levels of supervision, and reporting to the court and the prosecuting attorney. (6-30-19)

07. Section 20-219(7)(b), Idaho Code. Pursuant to Section 20-219(7)(b), Idaho Code, the Board has authority to promulgate rules in consultation with the Supreme Court to establish a matrix of swift, certain and graduated sanctions and rewards to be imposed by the Board in response to corresponding violations of or compliance with the terms or conditions imposed. Sanctions for violations include, but are not limited to, community service, increased reporting, curfew, submission to substance use assessment, monitoring or treatment, submission to cognitive behavioral treatment, submission to an educational or vocational skills development program, submission to a period of confinement in a local correctional facility for not more than three (3) consecutive days and house arrest. Rewards for compliance include but are not limited to, decreased reporting and transfer to limited supervision. (2-6-15)

08. Section 20-233(2), Idaho Code. Pursuant to Section 20-233(2), Idaho Code, the Board may submit a request to the Commission for a final order of discharge from the remaining period of parole for any parolee under the Board’s supervision at any time during the period of parole. (2-6-15)

001. TITLE AND SCOPE.

007. -- 009. (RESERVED)

010. DEFINITIONS.

1. **Agreement of Supervision.** A written agreement prepared by the Department for each offender under supervision by the Board that sets forth in language that is clear and easy to understand the specific acts that an offender must do, or must not do, while on probation or parole including compliance with the terms and conditions of probation or parole. (2-6-15)

2. **Assessment of Potential to Re-Offend.** Use of an actuarial instrument that has been validated in Idaho to determine the likelihood of an offender engaging in future criminal behavior, measure criminal risk factors, and define specific individual needs. (2-6-15)

3. **Board.** The State Board of Correction. (2-6-15)

4. **Commission.** The Commission of Pardons and Parole. The decision-making body that has the authority to grant, revoke, reinstate, or refuse parole. The Commission of Pardons and Parole is commonly referred to as the Parole Commission. (2-6-15)

5. **Department.** The Idaho Department of Correction. (2-6-15)

6. **Director.** The director of the Idaho Department of Correction. (2-6-15)

7. **Discretionary Jail Time.** A suspended jail sentence imposed as a condition of probation, to be used by the probation officer in increments not to exceed forty-eight (48) hours without prior court approval or as approved by the court. (2-6-15)
08. Division. The Idaho Department of Correction, Division of Probation and Parole. (2-6-15)

09. Idaho Response Matrix. A matrix of graduated sanctions and rewards established by the Board in consultation with the Supreme Court that provides for responding swiftly and certainly to offender violations or compliance with the terms and conditions of probation or parole imposed by the court or the Commission and the Agreement of Supervision with the intent to promote long-term behavioral change. (2-6-15)

10. Legal and Financial Obligation. An obligation owed by an offender that was incurred or imposed as a result of the commission of a criminal offense. Includes court costs, fines, fees, cost of supervision and restitution. (6-30-19)

11. Offender. A probationer or parolee under the legal care, custody, supervision, or authority of the Board, including a person within or outside of the state of Idaho pursuant to an agreement with another state or contractor. (2-6-15)

12. Parolee. A person who:

a. Has been released from a facility by the Commission prior to the completion of his sentence; (2-6-15)

b. Agrees to comply with certain conditions established by the Commission; and (2-6-15)

c. Remains under the supervision of a PPO for the established period of parole. (2-6-15)

13. Probationer. A person who is permitted by the court to continue to live and work in the community while being supervised by the Board under the terms and conditions ordered by the court and the agreement of supervision for an established period of time rather than being held in prison. (2-6-15)

14. Reward. An incentive used to acknowledge an offender’s compliance with terms and conditions of probation or parole, the agreement of supervision, the offender management plan or other prosocial behavior. (2-6-15)

15. Sanction. A sanction is a response identified in the Idaho Response Matrix (IRM) to be implemented by the PPO to respond to offender behavior that is contrary to the terms and conditions of probation or parole set by the court or Commission or the agreement of supervision. (6-30-19)

16. Terms and Conditions of Probation or Parole. The specific terms and requirements, including special terms and conditions, ordered by the court or Commission in the case of a particular offender. (2-6-15)

17. Violent Misdemeanor. Any misdemeanor offense that includes, as an element of the offense or as part of the underlying facts:

a. Physical contact with, or injury to, the person of another; or (6-30-19)

b. The use of a weapon to cause or threaten harm to another. (6-30-19)

011. ABBREVIATIONS.

01. AOS. Agreement of Supervision. (2-6-15)

02. PPO. Probation and Parole Officer. (2-6-15)

03. IRM. The Idaho Response Matrix. (2-6-15)

04. LSU. Limited Supervision Unit. (6-30-19)
012. GENERAL SUPERVISION

01. Responding to Non-Compliant Behaviors. (6-30-19)

a. All alleged violations of the terms and conditions of probation or parole and the AOS that require investigation are investigated and documented within the time limits established by Department policy. (6-30-19)

b. A report will be sent to the court or Commission any time that discretionary jail time is imposed. (6-30-19)

c. Non-compliant behaviors that require a report to the court, prosecuting attorney, or Commission under the terms of the IRM will be reported within the time limits established by Department policy. (6-30-19)

02. Encouraging Compliant Behaviors. (6-30-19)

a. The PPOs will assess an offender's readiness for change regarding the identified needs of the offender throughout the period of supervision. (6-30-19)

b. When the PPO observes or is made aware of the offender's efforts at prevention of non-compliance with conditions of supervision, or the offender is making progress on targeted behaviors the PPO will promptly provide a reward. Responses available to the PPO to address desired behavior are included in the IRM. (6-30-19)

03. Agreement of Supervision. The AOS developed by the Department will include in non-technical language the specific behavioral restrictions and requirements for the offender, including compliance with the terms and conditions of probation or parole. The Department shall require the AOS and IRM are reviewed with each offender under the supervision of the Board and require each offender to sign the AOS. (6-30-19)

04. Assessment of Potential to Re-Offend. The Department shall require the use of a validated actuarial assessment to determine the potential to re-offend and needs of each offender under the Department's supervision. The policy shall require assessments be performed upon intake for all offenders and at least annually thereafter for offenders whose most recent assessment score is in the moderate or high range of risk to re-offend. All offenders shall be re-assessed after a significant incident that indicates re-assessment should take place e.g. the filing of a special progress report or a probation or parole violation. (6-30-19)

05. Reentry Plan. The Department shall establish policies requiring that requires PPOs to review all actuarial assessments of the potential to re-offend and needs of each offender under the PPOs' supervision. PPO's will use the information to develop an OMP with the offender to establish goals and behaviors that will address the offender's identified needs and encourage compliance with the terms and conditions of probation or parole. (6-30-19)

06. Search of Home, Vehicle, and Property. Any person who resides with an offender under the supervision of the Department while on probation or parole or an offender released on furlough shall have the person's home, vehicle and property, both personal and real, subject to search by a probation and parole officer at reasonable times and in a reasonable manner to extent that the home, vehicle and property are accessible to the offender. The officer shall not need a warrant, reasonable suspicion, or probable cause. (6-30-19)

07. Visits at Place of Employment. Any person who employs an offender under the supervision of the Department while on probation or parole, an offender housed in a community reentry center, or an offender released on furlough shall have the offender's designated work areas subject to inspection by a probation and parole officer at reasonable times and in a reasonable manner. The officer shall not need a warrant, reasonable suspicion, or probable cause. (6-30-19)

013. USE OF IRM.
Supervision of Offenders. The Department shall utilize the Idaho Response Matrix (IRM) set forth in Appendix 1 to impose sanctions and rewards in response to an offender's compliance or non-compliance with the terms and conditions of probation or parole imposed by the court, the Commission, or in the AOS. (6-30-19)
014. ESTABLISHMENT OF LSU.
The Department shall establish a LSU and will monitor unit success, offender compliance, and oversee caseload and supervision activities.  

01. Transfer to LSU.  

a. Qualifying Factors. Supervisors will review District staff recommendations for transfer to the LSU. Qualifying Factors. Consideration for transfer to the LSU unit will be based on the following factors:  

i. Validated Assessment of Potential to Re-Offend. The LSU candidate shall have their potential for re-offense and needs determined through a validated actuarial assessment. To qualify for assignment to the LSU, candidate scores on the risk and needs assessment must be at or below the “low” potential to re-offend level with no increase in risk level for at least ninety (90) days during active supervision immediately prior to transfer, or at or below the “moderate” potential to re-offend level with no increase in risk level for at least three hundred sixty (360) days during active supervision immediately prior to transfer.  

ii. Income and Employment Status. The LSU candidate must have verified full-time employment of at least thirty-two (32) hours per week, or be a full-time student, or have adequate lawful income from non-employment sources including retirement, spousal or child support, student financial aid, disability income or SSI.  

iii. Drug Screening. If the LSU candidate is being supervised at moderate risk or lower they must establish a documented history of negative results on urine sample analyses for banned substances for a period of ninety (90) days before being a candidate for the LSU. Drug screening may be waived for a LSU candidate with a lack of history of drug or alcohol abuse or due to prior supervision at a low risk level of more than one (1) year.  

iv. Legal and Financial Obligations. The LSU candidate must have paid all LFOs in full as directed or have established a record of actively making payments on all outstanding LFOs.  

v. Court Ordered Jail Time and Community Service. The LSU candidate must have established a record of progress toward successful completion of all court ordered obligations for local incarceration and community service.  

vi. Special Terms and Conditions Imposed by Court or Commission. The LSU candidate must have completed or be in compliance with all of the special terms and conditions of probation or parole ordered by the court or the Commission.  

b. Disqualifying Factors. The following factors disqualify an offender from being considered a candidate for transfer to the limited supervision unit:  

i. Additional offenses:  

(1) Conviction of a new felony while on active probation or parole in the past twenty-four (24) months;  

(2) Conviction of a violent misdemeanor in the past twelve (12) months; or  

(3) Conviction of a misdemeanor DUI offense in the past twelve (12) months.  

ii. Violation in the past twelve (12) months of a term or condition of probation or parole imposed by the court or the Commission resulting in a Level 3 sanction.  

iii. Interlock Device. Any indicator of alcohol use from the state approved ignition interlock system within the past twelve (12) months.  

iv. No Contact Orders and Civil Protection Orders. The LSU candidate is the respondent in an active No Contact Order or Civil Protection Order. The disqualifying order must be independent of terms and conditions of
probation or parole and violation of the order must subject the offender to arrest and potential punishment under Section 18-920 or 39-6312, Idaho Code.

c. Consideration of Court or Commission Recommendations for Assignment to LSU. The Department will review all recommendations received at any time from the sentencing court or the Commission for assignment of an offender to the LSU and will advise the court and prosecuting attorney or Commission of its decision on such recommendation.

d. Parolee Meeting Early Discharge Criteria. Without regard to the qualifying and disqualifying factors set forth in Subsections 014.01.a. and 01.b., a parolee who has been denied early discharge by the Commission will be eligible for referral to the LSU.

02. Monitoring and Compliance.

a. Offenders must report on a regular basis

b. The PPO or designee must monitor for adherence to offender's condition of supervision to include, but not limited to, searching for the following:

i. New criminal case filings;

ii. Status of legal and financial obligations; or

iii. Warrants.

03. Removal from LSU Unit. The Department may in its discretion remove the offender from the LSU unit and assign the offender to a higher level of supervision.

Choosing a response: 1) Consider protective factors; 2) Do not mix higher risk offenders with lower risk offenders; 3) Individualize response based upon what is meaningful (as a reward or sanction) to the offender.

When responding to multiple behaviors, the level shall correspond to the most serious behavior. The PPO may select more than one reward or sanction from the same level or a lower level to respond to multiple behaviors. Use of multiple lower level responses cannot be substituted for a higher level response.
000. LEGAL AUTHORITY.

 01. Section 20-212, Idaho Code. Pursuant to Section 20-212, Idaho Code, the board is authorized to make all rules necessary to carry out the provisions of Title 20, Chapter 2, Idaho Code, not inconsistent with express statutes or the state constitution. (2-6-15)

 02. Section 20-217A, Idaho Code. Pursuant to Section 20-217A, Idaho Code, the director is authorized to assume all the authority, powers, functions and duties as may be delegated to him by the board. (2-6-15)

 03. Section 20-224(2), Idaho Code. Pursuant to Section 20-224(2), Idaho Code, the board uses a validated risk assessment to determine, for each offender, the risk of re-offense and suitability for release and the commission is to use the risk assessment in determining parole. (2-6-15)

 04. Section 20-223(10), Idaho Code. Pursuant to Section 20-223(10), Idaho Code, the Department is authorized to, in consultation with the commission, make rules regarding the preparation of offenders for release, and make rules regarding case plan development and assessment of risk. (6-30-19)

001. TITLE AND SCOPE.

 01. Title. These rules are titled IDAPA 06.02.02, “Rules Governing Release Readiness,” IDAPA 06, Title 02, Chapter 02. (6-30-19)

 02. Scope. These rules are established to govern the duties and responsibilities delegated to the board for preparing offenders for release back into their communities. (2-6-15)

002. WRITTEN INTERPRETATIONS.

Pursuant to Section 20-212(1), Idaho Code, the Board is exempt from all provisions of Chapter 52, Title 67, Idaho Code, except as specifically noted therein so there are no written interpretations of these rules. (2-6-15)

003. ADMINISTRATIVE APPEALS.

Pursuant to Section 20-212(1), Idaho Code, the Board is exempt from all provisions of Chapter 52, Title 67, Idaho Code, except as specifically noted therein so there is no provision for administrative appeal. (2-6-15)

004. INCORPORATION BY REFERENCE.

01. Board. The state of Idaho Board of Correction. (2-6-15)

02. Commission. The state of Idaho Commission of Pardons and Parole. (2-6-15)

03. Department. The state of Idaho Department of Correction. (2-6-15)

04. Director. The director of the Idaho Department of Correction. (2-6-15)

05. Motivational Interviewing. An empathic goal-directed communication style used in both group and individual settings to help promote behavior change. (6-30-19)

06. Offender. A person under the legal care, custody, supervision, or authority of the Board, including a person within or without the state of Idaho pursuant to agreement with another state or contractor. (2-6-15)

07. Parolee. An offender who:

a. Is released from a facility by the paroling authority prior to the completion of his sentence; (2-6-15)

b. Agrees to comply with certain conditions established by the paroling authority; and (2-6-15)

c. Remains under the control of a probation and parole officer (PPO) for the established period of supervision. (2-6-15)

08. Rider. An offender who:

a. Is released from a facility by the judicial authority upon completing a retained jurisdiction period; (2-6-15)

b. Agrees to comply with certain conditions established by the judicial authority; and (2-6-15)

c. Remains under the control of a probation and parole officer (PPO) for the established period of supervision. (2-6-15)

09. Reception and Diagnostic Unit (RDU). Initial housing for newly committed offenders - except those under sentence of death - where orientation, screening, assessment, and classification occur. (2-6-15)

011. ABBREVIATIONS.

01. PPO. Probation and parole officer. (2-6-15)

02. RDU. Reception and Diagnostic Unit. (2-6-15)

012. OFFENDER PROGRAMMING.

01. Core Philosophies. The department will deliver an offender program management philosophy that will embrace the following core concepts: (2-6-15)
a. Strength-based (supportive accountability); (2-6-15)
b. Assertive case management; and (2-6-15)
c. Solution-focused interventions. (2-6-15)

02. Core Intervention Tools for Offender Engagement. The department will only employ those intervention tools that foster respect and accountability without compromising the safe operation of its correctional facilities and probation and parole district offices. Intervention tools should enhance communication, technology, and partnerships, and include, but are not limited to, the following: (2-6-15)

a. Communication methods designed to enhance motivation; (6-30-19)
b. Technology for tracking and oversight; and (2-6-15)
c. Collaboration with internal, public, and private entities. (2-6-15)

03. Reentry Plan. The department will develop a reentry plan for all offenders utilizing the information obtained from the assessment and screening process. Program managers will use a multidisciplinary team approach to consider both the current needs of the offender and the transition and aftercare components of the reentry plan upon release of the offender into the community. PPOs will continue the reentry plan while the offender is in the community. (6-30-19)

04. Offender Assessment and Screening Instruments. All offenders, including Riders, will undergo screening and assessment upon arrival to RDU to identify the crime-producing attributes of each offender. (2-6-15)

a. The assessment and screening instruments to be used by the Department shall be nationally recognized for assessing criminogenic needs of offender populations. (2-6-15)

b. The department shall establish a process to approve the use of offender assessment and screening instruments. (2-6-15)

c. Department will establish a training program for staff members to administer the offender assessment and screening instruments. (2-6-15)

05. Individual Assessments.

a. The Department will identify factors that indicate when an individual assessment is necessary to further evaluate an offender’s needs in specific areas such as mental health, substance abuse, responsivity factors, and sex offender attributes. (2-6-15)

b. Individual assessments will be administered by either trained department staff or community providers. (2-6-15)

06. Youth Offender Assessments. The department will establish procedures and the assessment and screening instruments to be used to assess offenders who are under eighteen (18) years of age. (2-6-15)

07. Assessment and Reassessment Standards. The Department shall establish assessment and reassessment standards for all screening and assessment tools. (2-6-15)

08. Parole Hearing Process. Correctional case managers will ensure the summary status will be available at least ten (10) business days prior to the parole hearing in a manner and form established by the Department. (2-6-15)

013. CORRECTIONAL CASE MANAGEMENT.
01. **General Procedures.** Management staff in all correctional facilities and in each department district office will be responsible for ensuring correctional case managers, PPOs, and parole hearing officers collaborate and develop thorough discharge plans for offenders being released from correctional facilities back into their communities. (6-30-19)

02. **Reentry Priority Designations.** (6-30-19)
   a. The Department will establish reentry priority designations based upon the offender's proximity to release. The reentry priority designations will be used to determine the intensity of reentry activities and case management tasks. (6-30-19)
   b. The Department will establish correctional case manager duties and contact standards based on the offender's reentry priority designation. Correctional case manager contact shall increase as the offender's first eligible parole date approaches. Case manager contact will include reviewing, updating, and revising the reentry plan. (6-30-19)

03. **Reentry Plan.** The department will begin offender reentry processes while the offender is in the correctional facility's RDU. (2-6-15)
   a. The department will develop a reentry plan to be used while an offender is in RDU and updated throughout the offender's incarceration. The reentry plan will be designed to have all discharge planning and reentry information in one (1) place. This will ensure the accurate sharing of information and continuity of care, and that an offender's identified needs are addressed prior to the offender's release from the correctional facility back into the community. (2-6-15)
   b. Correctional case managers will address all assessed criminogenic and reentry areas with offenders early in their incarceration so that they can make modifications prior to their release. (2-6-15)

04. **Mental Health and Healthcare Services Discharge Planning.** Licensed professional staff will be responsible for identifying those offenders who have acute healthcare concerns so that discharge planning can begin. A minimum of one hundred eighty (180) days prior to release, the Department will identify offenders who have a mental health or healthcare concern that causes disability. (2-6-15)

05. **Case Management Documentation.** All case management activities, including correctional case manager contacts and reentry and discharge planning activities, will be documented in a manner and form established by the Department. (2-6-15)

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 07, rules of the (Division of Building Safety):

**IDAPA 07**
- 07.01.01, Rules Governing Electrical Permits and Inspections
- 07.01.04, Rules Governing Limited Electrical Licensing and Registration
- 07.01.05, Rules Governing Examinations
- 07.01.06, Rules Governing the Use of National Electrical Code
- 07.01.07, Rules Governing Continuing Education Requirements
- 07.01.08, Rules Governing Electrical Inspection Appeals
- 07.01.10, Rules Governing Certification and Approval of Electrical Products and Materials
- 07.02.04, Rules Governing Plumbing Safety Inspections
- 07.02.05, Rules Governing Plumbing Safety Licensing
- 07.02.06, Rules Concerning Idaho State Plumbing Code
- 07.03.09, Rules Governing Manufactured Homes - Consumer Complaints - Dispute Resolution
- 07.03.13, Rules Governing Mobile Home Rehabilitation
- 07.04.01, Rules Governing Safety Inspections – General
- 07.06.01, Rules Governing Uniform School Building Safety
- 07.08.01, Idaho Minimum Safety Standards and Practices for Logging

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Division of Building Safety Rules are necessary to ensure that properly qualified persons continue to practice in the professions over which the Division exercises regulatory authority, and that the
installations made in the various trades and professions related thereto, and other applicable construction work is performed safely and in accordance with laws, codes, standards, and processes that protect the health, safety and welfare of the public.

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Patrick Grace, Regional Manager at (208) 332-7120.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

001. TITLE AND SCOPE.
These rules are titled IDAPA 07.01.01, “Rules Governing Electrical Permits and Inspections,” Division of Building Safety. These rules include criteria for the use of electrical permits for electrical installations. (4-11-19)

002. WRITTEN INTERPRETATIONS.
This agency has no written interpretations of this chapter. (2-26-93)

003. ADMINISTRATIVE APPEALS.
This chapter does not allow administrative relief of the provisions outlined herein. (2-26-93)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into this rule. (4-11-19)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS.
The principal place of business of the Division of Building Safety, Electrical Bureau, is in Meridian, Idaho. The office is located at 1090 E. Watertower Street, Meridian, Idaho and is open from 8 a.m. to 5 p.m., except Saturday, Sunday and legal holidays. The mailing address is: Division of Building Safety, Electrical Bureau, 1090 E. Watertower Street, Meridian, Idaho 83642. (4-11-19)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (4-11-19)

007. DEFINITIONS.

01. Associated Buildings. All buildings, structures, and fixtures used for domestic purposes and in connection with the primary or secondary residence, such as garages, sheds, barns, or shops. (2-23-94)

02. Person. Includes an individual, company, firm, partnership, corporation, association or other organization. (4-11-19)

008. – 010. (RESERVED)

011. ELECTRICAL PERMITS.
Electrical permits as authorized by Section 54-1005, Idaho Code, shall each bear a serial number. Permits for electrical installations shall be available for purchase online or at the Division of Building Safety by those legally authorized to make electrical installations under Title 54, Chapter 10, Idaho Code. The serial numbers of electrical permits shall be registered in the name of the permit holder to whom they are issued and are transferable only as provided in IDAPA 07.01.02, “Rules Governing Fees for Electrical Permits and Inspections,” Subsection 011.16. Electrical permits shall be used only for the electrical installations identified in the permit application and for which said permit holder shall assume full responsibility. (4-11-19)

01. Completion of Electrical Installation. For each electrical installation made by a permit holder and
coming under the provisions of Section 54-1001, Idaho Code, said permit holder or his authorized representative shall request an inspection from the Division of Building Safety. (4-11-19)

02. Purchase of Electrical Permit. All electrical permits shall be purchased before work is commenced. Where the total cost of installation is unknown, the minimum permit fee as listed in IDAPA 07.01.02, “Rules Governing Fees for Electrical Permits and Inspections,” Subsection 011.06 of the fee schedule shall be paid. In all cases, payment of the total permit fee shall be made prior to completion of the installation and a final inspection.

a. The Division of Building Safety may refuse to extend credit to any person with outstanding fines, violations or unpaid permit fees recorded with the Division. Permit holders will not be allowed to purchase further electrical permits unless and until all outstanding fees due have been paid in full. (4-11-19)

b. No electrical inspections shall be provided prior to the purchase of an electrical permit. (4-11-19)

03. Power Supply Company. Pursuant to Section 54-1005, Idaho Code, a power supply company may connect and energize an electrical installation made by an electrical contractor without delay and before the installation has passed inspection if the contractor submits to the power supply company a copy of an electrical permit purchased by the contractor and the power supply company deems the connection and energization necessary to preserve life or property. The contractor shall request that the Division of Building Safety conduct an inspection on the next business day. (4-11-19)

012. ELECTRICAL PERMITTING AND INSPECTION REQUIREMENTS FOR PERSONS EXEMPT FROM LICENSING. Persons exempt from licensing pursuant to Section 54-1016, Idaho Code, shall secure all electrical permits required by Section 54-1005, Idaho Code, before making any electrical installation. No electrical wiring or equipment may be concealed in any manner from access or sight until the work has been inspected and approved for cover by the electrical inspector. A final inspection shall be made upon the completion of all electrical work. The procedure for obtaining electrical permits follows:

01. Electrical Permit. Any exempt person shall obtain an electrical permit from the Division of Building Safety, either online or at its Meridian main office or Pocatello or Coeur d’Alene satellite offices with the proper permit fee as provided for in rule. (4-11-19)

02. Notice to Power Supplier. The Division of Building Safety shall provide notice to the power supplier to connect installations requiring energization once an installation has passed inspection. (4-11-19)

013. ELECTRICAL PERMIT AND INSPECTION REQUIREMENTS FOR FACILITY ACCOUNTS. An electrical facility employer account licensee, as defined by Section 54-1003A, Idaho Code, who uses licensed or registered employees to make electrical installations coming under the provisions of Section 54-1001, Idaho Code, on the licensee’s own premises, shall obtain a facility account license and purchase electrical permits from the Division of Building Safety with the proper permit fee as provided in IDAPA 07.01.02, “Rules Governing Fees for Electrical Permits and Inspections, Section 011. Employees performing electrical installations under a facility account shall be licensed electrical journeymen or master electricians or registered electrical apprentices under the constant on-the-job supervision of a licensed journeyman or master electrician as provided in Title 54, Chapter 10, Idaho Code. One (1) properly licensed journeyman or master electrician shall be designated the supervising electrician for the facility account with the Division of Building Safety. Individuals employed as maintenance electricians may only perform maintenance electrical installations in accordance with Section 54-1016, Idaho Code. (4-11-19)

014. TEMPORARY INSTALLATIONS CONNECTED PRIOR TO INSPECTION. Only a licensed electrical contractor may have a power supply company connect and energize a temporary service for construction prior to an inspection being performed. Any contractor energizing a temporary service prior to inspection shall assume full responsibility for the installation of the temporary service. A power supply company may only connect and energize a temporary service upon receipt of a copy of an electrical permit purchased from the Division of Building Safety. (4-11-19)

007. -- 010. (RESERVED)

011. QUALIFIED JOURNEYMAN ELECTRICIANS.
Qualified journeyman electricians, as defined in Section 54-1003A(2), Idaho Code, shall be permitted to make all installations as subsequently described herein without securing an additional license for said installation. (4-9-79)

012. MINIMUM EXPERIENCE REQUIREMENTS.
Experience gained by an individual while engaged in the practice of one (1) or more of the limited categories named below shall not be considered towards the satisfaction of the minimum experience requirements for licensing as a journeyman electrician. (4-11-19)

013. LIMITED EXPERIENCE REQUIREMENT.

01. Limited Electrical Installer. An applicant for a limited electrical installer license must have at least two (2) years of experience, or more as specified for the individual category, with the type of installation for which the license is being applied for, in compliance with the requirements of the state in which the experience was received, or as a limited electrical installer trainee making electrical installations in accordance with the requirements as stated herein. (4-11-19)

02. Limited Electrical Installer Trainee. A limited electrical installer trainee shall be required to work not less than two (2) years, defined as a minimum of four thousand (4,000) hours of work experience, under the constant on-the-job supervision of a limited electrical installer of the same limited category to qualify for testing as a
limited electrical installer. A person wishing to become a limited electrical installer trainee shall register with the Division of Building Safety for a period of three (3) years and pay the applicable fee prior to going to work. Said person shall carry a current registration certificate on his person at all times and shall present it upon request to personnel of the Division of Building Safety for examination. A limited electrical installer trainee registration shall only be renewed by the Division upon receipt of sufficient evidence demonstrating that the trainee has worked at least one (1) year defined as a minimum of two thousand (2,000) hours of work experience under the constant on-the-job supervision of a limited electrical installer; provided however, that in no case shall a limited electrical installer trainee registration be renewed more than one (1) time by the Division without a recommendation from the Idaho Electrical Board to do so. A limited electrical installer trainee may only petition the Electrical Board for registration renewals subsequent to the first renewal. If application to the Division or petition to the Board is made pursuant to this subsection, the Division and the Board, as applicable, shall consider whether extenuating circumstances exist which prevent the completion of the instruction or work experience requirements for renewal. Time shall not be credited while the trainee is inactive or not registered.

(4-11-19)

014. ELECTRICAL INSTALLATIONS REQUIRING A LIMITED ELECTRICAL INSTALLER LICENSE.
The following categories of electrical installations shall be considered limited electrical installations, the practice of which shall require a journeyman electrician, master electrician, or limited electrical installer license:

01. Elevator, Dumbwaiter, Escalator, or Moving-Walk Electrical. Any person qualifying for and having in his possession a current elevator electrical license may install, maintain, repair, and replace equipment, controls, and wiring beyond the disconnect switch in the machine room of the elevator and pertaining directly to the operation and control thereof when located in the elevator shaft and machine room. He shall be employed by a licensed elevator electrical contractor or electrical contractor, and his installations shall be limited to this category. The holder of such limited license may only countersign a limited electrical contractor’s license application as a supervising limited electrical installer for work within this category.

(4-11-19)

**015. APPLICATIONS FOR LIMITED ELECTRICAL INSTALLER LICENSE.**

An application for a limited electrical installer license may be obtained from the Division of Building Safety. The forms shall be returned with the application fee, as provided by Section 54-1014, Idaho Code, with proof of the required two (2) years of experience in the field of limited electrical category, and the application shall be signed and notarized. Upon receiving a passing grade, the applicant may remit the license fee for issuance of the license. (4-11-19)
016. LICENSURE PERIOD AND FEES.
All original limited electrical licenses and registrations shall be issued by the Division immediately upon receipt of the licensure fee and other necessary documentation from the applicant which date shall be designated as the original license anniversary date and signify the commencement of the licensing period. All specialty license and registration renewals shall be effective in the year renewed as of the original license anniversary date. All license and registration periods shall end at midnight on the last day of the final month of the licensing or registration period. Limited electrical licenses and registrations not renewed by this date shall have expired. Any expired license revived within the twelve-month period following the expiration date will continue to have the original license anniversary date for the purposes of subsequent renewal. The license fee and renewal fee for each type of limited electrical license shall be as provided for by Section 54-1014, Idaho Code, for other journeyman licenses. (4-11-19)

017. LIMITED ELECTRICAL CONTRACTOR LICENSE.

01. Qualifications for Limited Electrical Contractor. Except as herein provided, any person, partnership, company, firm, association, or corporation shall be eligible to apply for a limited electrical contractor license upon the condition that such applicant will be responsible for supervision of electrical installations made by said company, firm, association, or corporation as provided by Section 54-1010, Idaho Code. The supervising limited electrical installer shall be available during working hours to carry out the duties of supervising limited electrical installer, as set forth herein. In addition, the applicant shall meet or have at least one (1) full-time employee who meets one (1) of the following criteria:

a. Holds a valid limited electrical installer license issued by the Division of Building Safety, in the same category as the limited electrical contractor, and has held a valid limited electrical installer license for a period of not less than two (2) years, during which time he was employed as a limited electrical installer for a minimum of four thousand (4,000) hours; (4-11-19)

b. Holds a valid limited electrical installer license issued by the Division of Building Safety, in the same category as the limited electrical contractor, and has at least four (4) years of experience in the limited electrical category with a minimum of two (2) years practical experience in planning, laying out, and supervising electrical installations in the category. (4-11-19)

02. Modification to Qualifications. Applicants for limited electrical contractor licenses, or individuals countersigning such applications, shall be subject to the same requirements, restrictions, and fees applicable to other electrical contractors and countersigning master, as set forth in the current electrical statues and rules with the exception that an electrical contractor requires a master electrician to countersign as a supervising master whereas a supervising limited electrical installer for a limited electrical contractor must meet the requirements of Subsection 017.01 of these rules. (4-11-19)

07.01.05 – RULES GOVERNING EXAMINATIONS

000. LEGAL AUTHORITY.
The Idaho Electrical Board is authorized under Sections 54-1003, 54-1005(1), and 54-1006(5), Idaho Code, to adopt rules concerning the examinations for all classifications under the electrical law and rules. (2-26-93)

001. TITLE AND SCOPE.
These rules are titled IDAPA 07.01.05, “Rules Governing Examinations,” Division of Building Safety. These rules include criteria for conducting examinations for all electrical licenses. (2-26-93)

002. WRITTEN INTERPRETATIONS.
This agency has no written interpretations of this chapter. (2-26-93)

003. ADMINISTRATIVE APPEALS.
This chapter does not allow administrative relief of the provisions outlined herein. (2-26-93)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into this rule. (4-11-19)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS.
The principal place of business of the Division of Building Safety, Electrical Bureau, is in Meridian, Idaho. The office is located at 1090 E. Watertower Street, Meridian, Idaho and is open from 8 a.m. to 5 p.m., except Saturday, Sunday and legal holidays. The mailing address is: Division of Building Safety, Electrical Bureau, 1090 E. Watertower Street, Meridian, Idaho 83642. (4-11-19)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (4-11-19)

007. -- 010. (RESERVED)

011. EXAMINATIONS.
The Electrical Board shall review and approve all versions of examinations prior to administration. (4-5-00)

01. Frequency of Conducting of Examinations. Examinations for all classifications under the Electrical Laws and Rules will be given a minimum of four (4) times each year in at least three (3) locations: One (1) to be in northern Idaho, one (1) to be in central Idaho, and one (1) to be in southern Idaho. The applicant will be notified in writing of the date, time, and location at which the examination will be given, following approval of the application. (4-5-00)

02. Professional Testing Services. In lieu of the administration by the Electrical Board of the examination for licenses pursuant to this rule, the Electrical Board may contract with a professional testing service to administer the examination and require license applicants to pay to the testing service the fee that they have set for the examination and to take such examination at the time set by such service. After taking such examination, an official copy of the test score shall be provided by the applicant to the Electrical Board before the license will be granted. If the examination is conducted in this fashion, the Electrical Board may charge and retain the application fee provided for by Section 54-1014, Idaho Code, to cover the cost of reviewing the applicant's application. (4-5-00)

03. Required Scores. The following scores are considered minimum for passing and are required to be achieved by the applicant prior to issuance of the appropriate license or certification.
04. **Failed Examinations.**

   a. An applicant receiving less than a passing score on a first or second examination attempt may be reexamined.

   b. Before being reexamined after failing an examination the third time, an applicant must:

      i. Wait until the expiration of one (1) year from the date of the failed third examination; or

      ii. Provide proof, satisfactory to the Electrical Board, of completion of a minimum of twenty-four (24) hours of Board-approved, related electrical training or continuing education since the date of the failed third examination.

   c. Before being reexamined after any further failures, an applicant for reexamination must:

      i. Wait until the expiration of an additional one (1) year from the date of the failed examination; or

      ii. Provide proof, satisfactory to the Electrical Board, of completion of thirty-two (32) hours of Board-approved, related electrical training or continuing education since the date of the failed examination.

011. ADOPTION AND INCORPORATION BY REFERENCE OF THE NATIONAL ELECTRICAL CODE.

01. Documents. Under the provisions of Section 54-1001, Idaho Code, the National Electrical Code, 2017 Edition, (herein NEC) is hereby adopted and incorporated by reference for the state of Idaho and are in full force and effect on and after July 1, 2017, with the following amendments: (3-29-17)

a. Article 110.3(A) and 110.3(B) shall not apply to submersible well pumps installed in swimming and marine areas; provided however, such articles shall apply to all other equipment required in the installation of a submersible well pump in such areas except for the actual submersible well pump itself. (3-28-18)

b. Article 210.8(A)(7) Sinks. Delete article 210.8(A)(7) and replace with the following: Sinks - located in areas other than kitchens where receptacles are installed within one and eight tenths (1.8) meters (six (6) feet) of the outside edge of the sink. (3-20-14)

c. Article 210.8(A)(10). Delete article 210.8(A)(10). (3-20-14)

d. Article 210.8(D). Delete article 210.8(D). (3-20-14)

e. Article 210.52(E)(3). Delete article 210.52(E)(3) and replace with the following: Balconies, Decks, and Porches. Balconies, decks, and porches having an overall area of twenty (20) square feet or more that are accessible from inside the dwelling unit shall have at least one (1) receptacle outlet installed within the perimeter of the balcony, deck, or porch. The receptacle shall not be located more than two (2.0) meters (six and one half (6½)
f. Add a new Article 225.30(F) – One (1)- or Two (2)-Family Dwelling Unit(s). For a one (1)- or two (2)-family dwelling unit(s) with multiple feeders with conductors one aught (1/0) or larger, it shall be permissible to install not more than six (6) disconnects grouped at one (1) location where the feeders enter the building, provided that the feeder conductors originate at the same switchboard, panelboard, or overcurrent protective device location. (3-28-18)

g. Where the height of a crawl space does not exceed one and four tenths (1.4) meters or four and one half (4.5) feet it shall be permissible to secure NM cables, that run at angles with joist, to the bottom edge of joist. NM cables that run within two and one tenth (2.1) meters or seven (7) feet of crawl space access shall comply with Article 320.23. (3-20-14)

h. Article 334.10(3). Delete Article 334.10(3) and replace with the following: Other structures permitted to be of Types III, IV, and V construction. Cables shall be concealed within walls, floors, or ceilings that provide a thermal barrier of material that has at least a fifteen (15)-minute finish rating as identified in listings of fire-rated assemblies. For the purpose of this section, cables located in attics and underfloor areas that are not designed to be occupied shall be considered concealed. (4-11-19)

i. Article 675.8(B). Compliance with Article 675.8(B) will include the additional requirement that a disconnecting means always be provided at the point of service from the utility no matter where the disconnecting means for the machine is located. (3-20-14)

j. Article 682.10 shall not apply to submersible well pumps installed in swimming and marine areas; provided however, such articles shall apply to all other equipment required in the installation of a submersible well pump in such areas except for the actual submersible well pump itself. (3-28-18)

k. Article 682.11. Add the following exception to Article 682.11: This article shall not apply to service equipment that is located on or at the dwelling unit and which is not susceptible to flooding. (3-28-18)

l. Article 682.13. Add the following exceptions to Article 682.13:

i. Exception No 1. Wiring methods such as HDPE schedule eighty (80) electrical conduit or its equivalent or greater, and clearly marked at a minimum “Caution Electrical” to indicate that it contains electrical conductors shall be approved. It shall be buried whenever practical, and in accordance with the requirements of the authority having jurisdiction. The use of gray HDPE water pipe rated at two hundred (200) PSI (e.g. SIDR-7 or DR-9) is suitable for use as a chase only when the following conditions are met:

(1) When internal conductors are jacketed submersible pump cable. (3-28-18)

(2) When used in continuous lengths, directly buried, or secured on a shoreline above and below the water line. (3-28-18)

(3) When submersible pump wiring terminations in the body of water according to 682.13 Exception No. 2 are met. (3-28-18)

ii. Exception No 2. Any listed and approved splices required to be made at the submersible well pump itself, outside of a recognized submerged pump sleeve or housing, when wires are too large to be housed inside such sleeve, shall be covered with a non-metallic, impact resistant material, no less than one quarter (.25) inches thick, such as heavy duty heat shrink or other equivalent method approved by the authority having jurisdiction. (Eg. install a heat shrink over the sleeve or housing that the submersible well pump is installed in, and then recover (apply heat) the heat shrink over both the HDPE and the water line). At least six (6) inches shall be over the sleeve and at least twelve (12) inches over the HDPE and water line. (3-28-18)

iii. Exception No 3. Pipe, conduit, PVC well casing, or other electrically unlisted tubing may be used as a chase, but not as a raceway, to protect conductors or cables from physical damage. Conductors or cables within a chase shall be rated for the location. (3-28-18)
m. Article 682.14. Add the following additional exception to Article 682.14: For installations of submersible well pumps installed in public swimming and marine areas, submersible well pumps shall be considered directly connected and shall be anchored in place. Ballast is an acceptable form of anchoring. (3-28-18)

n. Article 682.14(A). Add the following exception to Article 682.14(A): For installations of submersible well pumps installed in public swimming and marine areas, motor controller circuits such as remotely located stop pushbutton/s, disconnect/s, relay/s or switches shall be permitted as a required disconnecting means. Such circuits shall be identified at a minimum as “Emergency Pump Stop”, or “Emergency Stop” with other obvious indications on the visible side of the enclosure, that it controls a submersible pump in the body of water. (3-28-18)

o. Article 682.15. Add the following exceptions to Article 682.15: (3-28-18)
   i. Exception No. 1. Submersible pumps, and their motor leads, located in bodies of water, and that are rated sixty (60) amperes maximum, two hundred fifty (250) volts maximum of any phase, shall have GFCI or Ground Fault Equipment Protection designed to trip at a maximum of thirty (30) milliamps or less, protected by means selected by a licensed installer, meeting listing or labeling requirements, and inspected by the AHJ prior to submersion in bodies of water. (3-28-18)
   ii. Exception No. 2. Installations or repair and replacement of submersible pumps located in bodies of water, that are rated over sixty (60) amperes, and rated at any voltage, shall be evaluated by a qualified designer or experienced licensed contractor, or involve engineering or be engineered, for each specific application, with the goal of public safety. Whenever possible, GFCI or Ground Fault Equipment Protection designed to trip at a maximum of thirty (30) milliamps or less, meeting listing or labeling requirements, shall be installed, and inspected by the AHJ prior to submersion in bodies of water. (3-28-18)

p. Article 550.32(B). Compliance with Article 550.32(B) shall limit installation of a service on a manufactured home to those homes manufactured after January 1, 1992. (5-3-03)

q. Poles used as lighting standards that are forty (40) feet or less in nominal height and that support no more than four (4) luminaires operating at a nominal voltage of three hundred (300) volts or less, shall not be considered to constitute a structure as that term is defined by the National Electrical Code (NEC). The disconnecting means shall not be mounted to the pole. The disconnecting means may be permitted elsewhere in accordance with NEC, Article 225.32, exception 3. SEC special purpose fuseable connectors (model SEC 1791–DF or model SEC 1791-SF) or equivalent shall be installed in a listed handhole (underground) enclosure. The enclosure shall be appropriately grounded and bonded per the requirements of the NEC applicable to Article 230-Services. Overcurrent protection shall be provided by a (fast-acting – minimum - 100K RMS Amps 600 VAC) rated fuse. Wiring within the pole for the luminaires shall be protected by supplementary overcurrent device (time-delay – minimum - 10K RMS Amps 600 VAC) in break-a-away fuse holder accessible from the hand hole. Any poles supporting or incorporating utilization equipment or exceeding the prescribed number of luminaries, or in excess of forty (40) feet, shall be considered structures, and an appropriate service disconnecting means shall be required per the NEC. All luminaire-supporting poles shall be appropriately grounded and bonded per the NEC. (4-6-05)

r. Compliance with Article 210.12 Arc-Fault Circuit-Interrupter Protection. Article 210.12 shall apply in full. Exception: In dwelling units Arc-Fault Circuit-Interrupter Protection shall only apply to all branch circuits and outlets supplying bedrooms. All other locations in dwelling units are exempt from the requirements of Article 210.12. (3-29-17)

02. Availability. A copy of the National Electrical Code is available at the offices of the Division of Building Safety at 1090 E. Watertower Street, Suite 150, Meridian, Idaho 83642, 1250 Ironwood Drive, Suite 220, Coeur d’Alene, Idaho 83814, and 2055 Garrett Way, Suite 7, Pocatello, Idaho 83201. (3-20-14)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (4-11-19)

007. -- 010. (RESERVED)

011. CONTINUING EDUCATION REQUIREMENTS.
Journeymen and master electricians must complete at least twenty-four (24) hours of continuing education instruction in every three (3) year period between renewals of such licenses. The twenty-four (24) hours of instruction shall consist of eight (8) hours of code update covering changes included in the latest edition of the National Electrical Code. The remaining sixteen (16) hours may consist of any combination of code-update training, code-related training, or industry-related training. The Idaho Electrical Board will establish criteria for approval of instruction and instructors, and courses and instructors will be approved by the Division of Building Safety. Proof of completion of these continuing education requirements must be submitted to the Division of Building Safety prior to or with the application for license renewal by any such licensee in order to renew a journeyman or master electrician license for the code change year. (4-11-19)

012. COURSE APPROVAL REQUIREMENTS.
Continuing education courses for electricians must cover technical aspects of the electrical trade. For example, courses such as management, supervision, business practices, personal computer skills, or first aid will not be approved. Courses will be approved as either code update, code related or industry related based on the criteria as defined in this section. (4-11-19)

01. General Course Requirements. (4-2-08)

a. Courses must be at least four (4) hours in length. (4-2-08)
b. Courses must be taught by an instructor approved by the Division of Building Safety. (4-11-15)

c. The presentation should be delivered orally with the assistance of power point or other means of visual media. Pre-taped video or audio shall be held to a minimum. (4-2-08)

d. A course evaluation card shall be provided to all participants to evaluate course and presentation. The completed evaluation cards must be submitted to the Division of Building Safety. (4-11-15)

e. All programs are subject to audit by representatives of the Division of Building Safety or Idaho Electrical Board for content and quality without notice and at no charge. Course and instructor approval are subject to revocation if the minimum requirements of course content or instructor qualifications are not met. (4-2-08)

f. Credit will not be given to a licensee who attended a course prior to that course being approved by the Division of Building Safety. (4-2-08)

02. Code-Update Programs. Code-update programs must cover changes to the National Electrical Code utilizing pre-approved materials such as the NFPA-IAEI Analysis of Changes. (4-2-08)

03. Code-Related Programs. Code-related programs must cover portions of NFPA 70 other than changes to the National Electrical Code. (4-11-19)

04. Industry-Related Programs. Industry-related programs shall be technical in nature and directly related to the electrical industry. Electrical theory, application of the National Electrical Code, grounding, photovoltaic systems, programmable controllers, and residential wiring methods are examples of industry-related programs. (4-2-08)

05. Program Approval Procedures.

a. Program approvals shall be effective for one (1) code cycle. Subsequent applications for the same program may incorporate by reference all or part of the original application. (4-2-08)

b. An application for course approval may be obtained from the Division of Building Safety, 1090 E. Watertower Street, Meridian, Idaho 83642, or from the Division of Building Safety’s website at http://dbs.idaho.gov. The application shall include:

i. The title and general description of the program; (4-2-08)

ii. The name of the sponsor as it will appear on the completion certificate; (4-2-08)

iii. The address and contact person for the sponsor; (4-2-08)

iv. The names of the instructors and dates of approval by the Division of Building Safety or completed applications for the instructors; (4-2-08)

v. The hours of instruction to be presented – correspondence or on-line computer based courses must provide a minimum of twenty (20) questions to be answered by the student for each hour of credit requested for approval. For example four (4) hours of credit would require eighty (80) questions, eight (8) hours of credit would require one hundred and sixty (160) questions; (4-2-08)

vi. An outline of the program; (4-2-08)

vii. The cost of the program to the participant; (4-2-08)

viii. A schedule of classes, including locations, dates, and times; (4-2-08)

ix. A list or sample of materials to be used in the program; (4-2-08)
x. A copy of the quiz to be given to the participants, if applicable; (4-2-08)

xi. A copy or sample of the completion certificate; and (4-2-08)

xii. A copy of the evaluation card. (4-2-08)

c. Certificates of Completion. Certificates of completion must contain the following: (4-2-08)

i. The date of the program; (4-2-08)

ii. The title of the program; (4-2-08)

iii. The location of the program; (4-2-08)

iv. The name of the sponsor; (4-2-08)

v. The number of hours of credit completed; (4-2-08)

vi. The name of the attendee; (4-2-08)

vii. The license number of the attendee; (4-2-08)

viii. The name of the instructor; and (4-2-08)

ix. The Idaho course approval number. (4-2-08)

d. Evaluation Cards. Evaluation cards or forms must be pre-addressed to the Division of Building Safety and must include the following: (4-2-08)

i. The date of the program; (4-2-08)

ii. The title of the program; (4-2-08)

iii. The location of the program; (4-2-08)

iv. The instructor’s name; (4-2-08)

v. An evaluation of the course (for example: poor, fair, good, very good, excellent); and (4-2-08)

vi. An evaluation of the instructor’s presentation skills. (4-2-08)

06. Appeals. Appeals for courses that have been denied approval shall be submitted in writing and shall be presented to the Idaho Electrical Board within thirty (30) days for review. Decision by the Idaho Electrical Board on the appeal shall be final. Any further appeal shall be to the district court as provided by the Idaho Administrative Procedure Act (Title 67, Chapter 52, Idaho Code) as an appeal from a final agency action in a contested case proceeding. (4-2-08)

07. Instructor Approval Procedures. (4-2-08)

a. Instructor approvals shall be effective for one (1) code cycle. (4-2-08)

b. An application for instructor approval may be obtained from the Division of Building Safety, 1090 E. Watertower Street, Meridian, Idaho 83642, or from the Division of Building Safety’s website at http://dbs.idaho.gov. Documentation of the instructor qualifications must be included with the instructor application. The minimum qualification for an instructor shall be established by providing proof of one (1) of the following: (4-11-15)
i. Current and active master or journeyman electrician license; (4-2-08)
ii. An appropriate degree related to the electrical field; or (4-2-08)
iii. Other recognized experience or certification in the subject matter to be presented. (4-2-08)

c. Any person denied instructor approval may appeal to the Idaho Electrical Board within thirty (30) days. Decision by the Idaho Electrical Board on the appeal shall be final. Any further appeal shall be to the district court as provided by the Idaho Administrative Procedure Act (Title 67, Chapter 52, Idaho Code) as an appeal from a final agency action in a contested case proceeding. (4-2-08)

08. Revocation of Approval.

a. The Idaho Electrical Board may revoke, suspend, or cancel the approval of any continuing education program or instructor if the Idaho Electrical Board determines that the program or instruction does not meet the intent of furthering the education of electricians. Grounds for revocation of approval shall include, but not be limited to:

i. Failure of the instructor to substantially follow the approved course materials; (4-2-08)
ii. Failure to deliver instruction for the full amount of time approved for the course; or (4-2-08)
iii. Substantial dissatisfaction with the instructor’s presentation or the content of the course or materials by the class attendees or representatives of the Division of Building Safety or Idaho Electrical Board. (4-2-08)

b. Decision by the Idaho Electrical Board on the appeal shall be final. Any further appeal shall be to the district court as provided by the Idaho Administrative Procedure Act (Title 67, Chapter 52, Idaho Code), as an appeal from a final agency action in a contested case proceeding. (4-2-08)

09. Requirements for Credit. In order for a licensee to receive credit for attending a class, the following requirements must be met:

a. The class must have prior approval by the Division of Building Safety or a state that is reciprocal with Idaho for continuing education; (4-11-15)

b. The instructors must be approved instructors for the program; (4-2-08)

c. The licensee must submit a copy of the certificate of completion to the Division of Building Safety; and (4-11-15)

d. The course provider must provide a roster of attendees to include the name, license number, and the number of hours to be credited. (4-2-08)

10. Board and Negotiated Rulemaking Meetings. Licensees may receive up to eight (8) hours of industry-related continuing education credits by attending eight (8) hours of board meetings or electrical negotiated rulemaking meetings.

11. Schedule of Approved Classes. The Division of Building Safety shall publish a list of approved classes at a minimum of once a year. This list shall be forwarded to all states that are members of the continuing education reciprocal agreement and shall be made available to any licensee via the Division of Building Safety’s website or by mail.

07.01.08 – RULES GOVERNING ELECTRICAL INSPECTION APPEALS

000. LEGAL AUTHORITY.
The Idaho Electrical Board is authorized under Sections 54-1005 and 54-1006(5), Idaho Code, to adopt rules concerning the administrative appeals of electrical inspections to the administrator of the Division of Building Safety. (4-11-19)

001. TITLE AND SCOPE.
These rules are titled IDAPA 07.01.08, “Rules Governing Electrical Inspection Appeals,” Division of Building Safety. The rules contained in this chapter govern the appeal of electrical inspections performed by the Division of Building Safety on electrical installations that do not meet the requirements of state law, the administrative rules promulgated by the Electrical Board, or the National Electrical Code NFPA 70 as adopted by Idaho law. (4-11-19)

002. WRITTEN INTERPRETATIONS.
This agency has no written interpretations of this chapter. The referenced code is available at all Division of Building Safety offices. (4-11-19)

003. EXEMPTION FROM ATTORNEY GENERAL’S ADMINISTRATIVE PROCEDURE RULES FOR CONTESTED CASES.
Pursuant to Section 67-5206(5), Idaho Code, the procedures contained in Subchapter B, “Contested Cases,” of IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” Sections 100 through 799 do not apply to electrical inspections appeals. (4-11-19)

004. REASONS FOR EXEMPTION FROM ATTORNEY GENERAL’S ADMINISTRATIVE PROCEDURE RULES.
In order to protect consumers from unsafe electrical installations and to prevent unnecessary delays and increased costs in construction projects, the rules of procedure in this chapter are adopted to promote the expedited resolution of contested cases involving electrical inspections. (4-11-19)

005. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into this rule. (4-11-19)

006. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS.

011. APPEALS.
In order to determine the suitability of materials and methods of wiring and to provide for interpretations of the provisions of the National Electrical Code NFPA 70, the creation of an electrical appeals board is hereby authorized by the administrator of the Division of Building Safety, to be composed of three (3) members of the Idaho Electrical Board, or an electrical supervisor and two (2) members of the Idaho Electrical Board, as determined and selected by the administrator upon receipt of a written notice of appeal as set forth below. (4-11-19)

01. Notice of Appeal. A person, firm, or corporation making an electrical installation subject to the provisions of Title 54, Chapter 10, Idaho Code, may appeal, to the administrator, a decision by the Electrical Program Manager or other electrical inspector, that a particular electrical installation is not in conformance with Idaho Code,
these rules, or the National Electrical Code as adopted by Idaho law. An appeal must be lodged by filing a written notice of appeal with the administrator within ten (10) days of the date of issuance of a notice of correction issued pursuant to Section 54-1004, Idaho Code. The notice of appeal shall state in particular the reasons why the appellant contends that the notice of defects is incorrect.

02. **Filing Date.** If mailed, the notice of appeal shall be considered filed as of the date of postmark. The mailing address for filing such notice of appeal shall be to the administrator, Division of Building Safety, 1090 W. Watertower Street, Suite 150, Meridian, Idaho, 83642.

03. **Appeals Board.** The members of the Idaho Electrical Board and other persons appointed by the administrator to act as the appeals board, are authorized to hold hearings at the Division of Building Safety in Meridian, Idaho, to determine the merits of an appeal filed pursuant to this rule.

04. **Function of Appeals Board.** The members of the Idaho Electrical Board, acting as an appeals board, shall not have the authority to grant variances from the National Electrical Code; its sole function as an appeals board shall be to determine whether the materials or method of wiring utilized by the appellant meets the requirements of the National Electrical Code.

05. **Appeals Hearing Fee.** An appeals hearing fee of one hundred dollars ($100) shall be charged to an appellant for each appeal brought before the appeals board. The appeals hearing fee shall accompany the notice of appeal. When the appeal is found in favor of the appellant, the appeals hearing fee shall be returned to the appellant.

06. **Conditions Disqualifying Board Member.** No Idaho Electrical Board member shall sit on an appeals board in which he or his employer, employee, business partner or any person related to him, is the appellant in the matter. or where he has a pecuniary interest in the outcome of the matter to be decided by the appeals board.

07. **Rules of Evidence.** The rules of evidence for the hearing are governed by the Idaho Administrative Procedures Act, Title 67, Chapter 52, Idaho Code.

08. **Limitations of Appeal.** The filing of an appeal does not stay or discontinue a red tag, disconnect order, or notification to the power company not to connect or energize, in situations where the defect is of a nature so as to be an imminent threat to life or property.

09. **Preliminary Order.** Within five (5) days of the conclusion of the administrative hearing, the appeals board shall issue a preliminary order. The preliminary order will become a final order without further notice unless reviewed by the administrator, or review is requested by any party to the inspection appeal, pursuant to the provisions of Section 67-5245, Idaho Code. When a preliminary order is reviewed by the administrator, the administrator will issue a final order pursuant to the requirements of Sections 67-5245 and 67-5246, Idaho Code.

10. **Motions for Reconsideration.** Motions for reconsideration of the appeal board’s preliminary order or of the administrator’s final order are not allowed.
000. LEGAL AUTHORITY.
The Idaho Electrical Board is authorized under Sections 54-1001 and 54-1006(5), Idaho Code, to adopt rules concerning certification and approval of electrical products and materials. (2-26-93)

001. TITLE AND SCOPE.
01. **Title.** These rules are titled IDAPA 07.01.10, “Rules Governing Certification and Approval of Electrical Products and Materials,” Division of Building Safety. (2-26-93)

02. **Scope.** These rules prescribe criteria for the certification and approval of electrical products and materials. (2-26-93)

002. WRITTEN INTERPRETATIONS.
This agency has no written interpretations of this chapter. (2-26-93)

003. ADMINISTRATIVE APPEALS.
This chapter does not allow administrative relief of the provisions outlined herein. (2-26-93)

011. CERTIFICATION AND APPROVAL OF ELECTRICAL PRODUCTS AND MATERIALS.
In the state of Idaho, all materials, devices, fittings, equipment, apparatus, luminaires, and appliances installed or to be used in installations that are supplied with electric energy shall be approved as provided in one (1) of the following methods: (3-20-14)

01. **Testing Laboratory.** Be tested, examined, and certified (Listed) by a Nationally Recognized Testing Laboratory (NRTL). (3-20-14)

02. **Field Evaluation.** Non-listed electrical equipment may be approved for use through a field evaluation process performed in accordance with recognized practices and procedures such as those contained in the 2012 edition of NFPA 791 - Recommended Practice and Procedures for Unlabeled Electrical Equipment Evaluation published by the National Fire Protection Association (NFPA). Such evaluations shall be conducted by:

a. The authority having jurisdiction (AHJ); (3-20-14)

b. A field evaluation body (FEB) approved by the authority having jurisdiction. The field evaluation body shall meet minimum recognized standards for competency, such as NFPA 790 - Standard for Competency of Third-Party Field Evaluation Bodies, 2012 edition, published by the National Fire Protection Association (NFPA); or (3-20-14)

c. In the case of industrial machinery only, as defined by NFPA 79 - Electrical Standard for Industrial Machinery, 2012 edition, a field evaluation may be performed by a professional engineer currently licensed to practice electrical engineering by the state of Idaho and who is not involved in the design of the equipment being evaluated or the facility in which the equipment is to be installed. (3-20-14)

03. **Availability of NFPA Standards.** The most recent edition of NFPA 790 - Standard for Competency of Third-Party Field Evaluation Bodies, and NFPA 791 - Recommended Practice and Procedures for Unlabeled Electrical Equipment Evaluation published by the National Fire Protection Association (NFPA) are available at the Division of Building Safety offices located at 1090 E. Watertower Street, Suite 150, Meridian, Idaho 83642, 1250 Ironwood Drive, Suite 220, Coeur d’Alene, Idaho 83814, and 2055 Garrett Way, Building 1, Suite 4, Pocatello, Idaho 83201. (3-20-14)

010. LICENSURE HISTORY.
An applicant for any plumbing registration or certificate of competency who has been previously licensed as a journeyman or master plumber in any recognized jurisdiction is required upon application to the Division of Building Safety to disclose such licensure history and provide sufficient proof thereof. An applicant for any plumbing registration or certificate of competency who has been previously licensed as a journeyman or master plumber in any recognized jurisdiction will not be issued a plumbing apprentice registration. (3-29-12)

011. APPRENTICE REGISTRATION.
A person wishing to become a plumbing apprentice must register with the Division of Building Safety prior to going to work. All apprentices must pay the registration fee as prescribed by Section 54-2614, Idaho Code. The minimum age for any apprentice must be sixteen (16) years. No examination is required for such registration. In order to maintain registration, the apprentice must renew his registration in accordance with Sections 54-2614 and 54-2614A, Idaho Code. (3-29-12)

01. Work Requirements. A plumbing apprentice must work at the trade under the constant on-the-job supervision of a journeyman and in the employ of a contractor for a total of four (4) years, defined as a minimum of eight thousand (8,000) hours work experience in order to be eligible for a journeyman certificate of competency. (3-29-12)

02. Schooling Requirements. A plumbing apprentice must complete an Idaho Plumbing Board approved related course of instruction for four (4) years in order to be eligible for a journeyman certificate of competency. Unless prior approval has been granted by the Division of Building Safety, the apprentice must complete the required course work sequentially: year one (1) must be completed prior to beginning year two (2); year two (2) must be completed prior to beginning year three (3); and year three (3) must be completed prior to beginning year four (4). A minimum of one hundred forty-four (144) hours of classroom or other Idaho Plumbing Board-approved instruction time per school year is required. A grade average of seventy percent (70%) must be attained in these courses. Upon completion of apprenticeship schooling, the apprentice must obtain a certificate of completion, or a letter signed by the chairman of his apprenticeship committee, and attach the certificate or letter to his application for a journeyman license. (3-29-12)

03. Journeyman Examination. (3-29-12)

a. Any plumbing apprentice who desires to take the written portion of the journeyman examination must complete an Idaho Plumbing Board approved related course of instruction for four (4) years as described in
Subsection 011.02 of these rules prior to the date of the exam and provide a certificate of completion with the application for examination. There is no minimum work requirement in order to be eligible to take the written portion of the plumbing journeyman examination.

b. Successful completion of the journeyman written examination does not eliminate the requirement to complete four (4) years of work experience, defined as eight thousand (8,000) hours, under the constant on-the-job supervision of a journeyman plumber, or the practical portion of the examination in order to be issued a journeyman certificate of competency. Successful completion of the written plumbing journeyman examination notwithstanding, no journeyman certificate of competency will be issued until an apprentice successfully completes the practical portion for the examination and furnishes to the Division proof of satisfaction of the work requirements contained in Subsection 011.01 of these rules. Satisfaction of the work requirements contained in Subsection 011.01 of these rules is required before any individual is eligible to take the practical portion of the journeyman examination.

012. JOURNEYMAN.

01. Qualifications for Journeyman Plumber. An applicant for a journeyman plumber’s certificate of competency must have at least four (4) years’ experience as an apprentice making plumbing installations under the constant on-the-job supervision of a qualified journeyman plumber, as provided by Section 54-2611, Idaho Code. Pipe fitting will not be accepted as qualifications for a journeyman plumber’s certificate of competency. In order to obtain a journeyman certificate of competency, an individual must submit an application for examination and license. The application must be accompanied by proof the applicant has completed an approved course of instruction for four (4) years as provided in Subsection 011.02 of these rules. The journeyman examination may be taken by an individual who has successfully completed an Idaho Plumbing Board-approved course of instruction for four (4) years as described in Subsection 011.03 of these rules. The examination fee is as prescribed by Section 54-2614, Idaho Code, and must accompany the application.

02. Examination. The journeyman examination grade is based on answers to written questions and practical work performed on plumbing installations as determined by the Division after successful completion of the written examination. Time allowed for the written examination is four (4) hours. A passing grade is required on the written examination. The practical portion of the exam may be performed on a job in-progress or in a laboratory setting and must consist of work performed in either a residential or commercial application. The practical portion of the exam must pass with no violations.

03. Out of State Journeyman Applications.

a. Exhibition of a license issued by another recognized jurisdiction may be accepted as proof of meeting the experience and schooling requirements listed in Subsections 012.01 and 012.02 of these rules. An application for a journeyman certificate of competency from an individual previously licensed as a journeyman in another jurisdiction recognized by the Idaho Plumbing Board must include satisfactory proof of licensure in such jurisdiction. The applicant must pay all applicable application and examination fees to the Division, and successfully complete the journeyman examination administered by the Division.

b. An application for a journeyman certificate of competency from an individual who has never been previously licensed as a journeyman in a jurisdiction recognized by the Idaho Plumbing Board must include evidence that demonstrates that the applicant has four (4) years of plumbing work experience of a nature at least equivalent to that which a plumbing apprentice must perform in Idaho, as well as four (4) years of schooling equivalent to that which a plumbing apprentice must complete in Idaho. Alternatively, such an applicant may submit proof verifying eight (8) years, defined as a minimum of sixteen thousand (16,000) hours of plumbing work experience of a nature at least equivalent to that which a plumbing apprentice must perform in Idaho. Upon submission of sufficient proof of having completed such experience and schooling requirements, such applicant must also pay all applicable application and examination fees to the Division, and successfully complete the journeyman examination administered by the Division.

013. PLUMBING CONTRACTOR.

01. Qualifications for Plumbing Contractor. A plumbing contractor must be certified as competent by the Idaho Plumbing Board and the administrator of the Division before he offers his service to the public. To
obtain the certificate, he must first submit an acceptable application. The applicant must possess an active journeyman plumbing certificate of competency issued by the Division, a provable minimum of two and one-half (2 1/2) years’ experience as a licensed journeyman plumber in the state of Idaho, as well as provide payment to the Division for all applicable application and examination fees, and successfully complete the contractor examination administered by the Division. The compliance bond required by Section 54-2606, Idaho Code, is to be required to be on file with the Division upon successful completion of the examination. The examination fee is as prescribed by Section 54-2614, Idaho Code.

02. Out of State Contractor Applications. (4-11-15)

a. An applicant for a contractor certificate of competency who has previously been licensed as a journeyman in another jurisdiction recognized by the Idaho Plumbing Board must first obtain an Idaho journeyman certificate of competency in accordance with Section 012 of these rules. Such applicants may provide proof of two and one half (2 1/2) years of experience as a plumbing journeyman by providing satisfactory evidence to the Division of such work history in another recognized jurisdiction. Such applicants must also pay all applicable application and examination fees to the Division, and successfully complete the contractor examination administered by the Division. The compliance bond required by Section 54-2606, Idaho Code, is required to be on file with the Division upon successful completion of the examination.

b. An applicant for a contractor certificate of competency who has never been previously licensed as a journeyman in a jurisdiction recognized by the Idaho Plumbing Board must first obtain an Idaho journeyman certificate of competency in accordance with Section 012 of these rules. Such applicants must also provide proof of four (4) years of experience performing plumbing work of a nature equivalent to what a journeyman in Idaho must demonstrate to qualify for a contractor certificate of competency. Proof of such work experience may be provided by the submission of three (3) sworn affidavits from individuals attesting to the fact that the applicant has had at least four (4) years' experience performing such work. Alternatively, such an applicant must provide proof of two and one half (2 1/2) years of experience as a journeyman plumber in the state of Idaho. Such applicants must also pay all applicable application and examination fees to the Division, and successfully complete the contractor examination administered by the Division. The compliance bond required by Section 54-2606, Idaho Code, is required to be on file with the Division upon successful completion of the examination. Applications that are incomplete in any detail will be returned as unacceptable, or denied.

03. Restrictive Use of Contractor Certificate. Any individual holding a contractor certificate and designated by a firm to represent that firm for licensing purposes represents one (1) firm only, and must immediately notify the Division in writing when his working arrangement with that firm has been terminated for purposes of becoming self-employed or affiliation with another firm, or for any other reason. A license holder cannot represent any other person or firm, self-employed or otherwise, than originally stated on his application for license. When a change is made, he is required to so inform the Division. Otherwise, he is guilty of transferring his license in violation of Section 54-2610, Idaho Code, and is subject to license suspension, revocation, or refusal to renew under Section 54-2608, Idaho Code, or to prosecution under the provisions of Section 54-2628, Idaho Code. (8-25-88)

04. Previous Revocation. Any applicant for a plumbing contractor’s license who has previously had his plumbing contractor’s license revoked for cause, as provided by Section 54-2608, Idaho Code, is considered as unfit and unqualified to receive a new plumbing contractor’s license so long as such cause for revocation is continuing, and of such a nature that correction can be made by the applicant.

05. Reviving an Expired License. Any applicant for a plumbing contractor’s license who has allowed his license to expire and seeks to revive it under the provisions of Section 54-2617, Idaho Code, may be denied a license as unfit and unqualified if, while operating under the license prior to expiration, he violated any of the laws, rules or regulations applicable to plumbing contractors, and such violation is continuing, and of such a nature that corrections can be made by the applicant.

06. Effective Dates. The effective dates of the compliance bond referred to in Subsection 013.01 of these rules coincide with the effective dates of the contractor’s license. Proof of renewal of the compliance bond must be on file with the Division before the contractor can renew or revive his license.

07. Plumbing Contractor's Responsibility. It is the responsibility of the plumbing contractor to
ensure that all his employees working at the plumbing trade are licensed as provided by Idaho Code and these rules. (8-25-88)

08. Advertising. Any person or entity advertising to engage in the business, trade, practice, or work of a plumbing contractor as defined in Section 54-2611, Idaho Code, who does not possess a current and valid plumbing contractor certificate of competency issued by the Division of Building Safety, is in violation of the licensing provisions of Title 54, Chapter 26, Idaho Code. Such conduct is punishable as a misdemeanor as prescribed by Section 54-2628, Idaho Code, and subject to civil penalties in accordance with IDAPA 07.02.07, “Rules Governing Civil Penalties,” Section 011. (5-8-09)

a. For the purposes of this Section, advertising includes, but is not limited to: newspaper, telephone directory, community flier ads or notices; telephone, television, radio, internet, or door-to-door solicitations. (5-8-09)

b. Any advertising, as defined in Subsection 013.07 of these rules, conducted by those persons or entities with a valid certificate of competency must include the contractor certificate of competency number. (5-8-09)

014. APPLICATIONS. All applications for licenses must be properly completed giving all pertinent information, and signatures must be notarized. Applications for plumbing contractor’s license must be accompanied by a license fee in the amount prescribed by Section 54-2616, Idaho Code. An application for a journeyman license must be accompanied by a license fee in the amount prescribed by Section 54-2616, Idaho Code, and an examination fee as provided by Section 54-2614, Idaho Code. An application for a license must be submitted to the administrator of the Division and must be approved by an authorized representative of the Division before any examination is given and before any license is issued. The provisions of this section do not apply to renewal of licenses. (11-14-85)

015. EXAMINATIONS.

01. Examinations for Journeyman Plumber. Written examinations for any journeyman plumber’s license are formulated and approved by the Idaho Plumbing Board. Examination questions are based on the practical application of the Uniform Plumbing Code. No certificate of competency will be issued unless the applicant receives a final grade of seventy-five percent (75%) or higher on the written examination and passes the practical portion with no violations, as well as completes the work requirements described in Paragraph 011.03.a. of these rules. An applicant receiving a grade of less than seventy-five percent (75%) may apply for reexamination upon payment of the examination fee. An applicant has six (6) months to achieve a passing score. If an applicant does not achieve a passing score in six (6) months, the applicant must enroll in year four (4) in a, Idaho Plumbing Board-approved related training course, complete year four (4), be registered with the Division as an apprentice, and maintain registration as per Section 011 of these rules before the applicant will be eligible to apply for examination. A completion certificate for year four (4) and the proper application fee must accompany a new application for a journeyman examination. (3-29-12)

02. Frequency of Conducting of Examinations. Examinations for all classifications under the Plumbing Laws and rules will be given a minimum of four (4) times each year in three (3) locations: One (1) to be in northern Idaho, one (1) to be in central Idaho, and one (1) to be in southern Idaho. (8-25-88)

03. Professional Testing Services. In lieu of the administration by the Idaho Plumbing Board of the examination for licenses pursuant to this rule, the Idaho Plumbing Board may contract with a professional testing service to administer the examination, and require license applicants to pay to the testing service the fee that they have set for the examination and to take such examination at the time set by such service. If the examination is conducted in this fashion, the Idaho Plumbing Board may charge and retain the application fee provided for by Section 54-2616, Idaho Code, to cover the cost of reviewing the applicant’s application. (8-25-88)

016. CERTIFICATES OF COMPETENCY -- ISSUANCE, RENEWAL, EXPIRATION, REVIVAL -- FEES.

01. Issuance. Certificates of competency will be issued in such a manner as to create a renewal date that coincides with the birthdate of the individual to whom the certificate is issued and allows for renewals every three (3) years. (4-6-05)
a. Certificates of competency will be issued for a period of no less than one (1) year and no more than three (3) years. For example: a qualified applicant who applies for a certificate of competency in August of year one (1) but whose birthday will not occur until March of year two (2) will be issued a certificate of competency renewable on the anniversary of the applicant’s birthday. (4-6-05)

b. The fee for issuance of certificates of competency will be prorated based on the number of months for which it is issued. (4-6-05)

02. Renewal. Certificates of competency will be renewed in such a manner as will achieve a staggered system of certificate renewal using the birthdate of the individual to whom the certificate is issued as the expiration date. (4-6-05)

a. Certificates of competency will be renewed for a period of no less than one (1) year and no more than three (3) years. (4-6-05)

b. The fee for renewal of certificates of competency will be prorated based on the number of months for which it is issued. (4-6-05)

c. Continuing Education. The Idaho Plumbing Board will establish criteria for approval of instruction and instructors and courses and instructors will be approved by the Division of Building Safety. Proof of completion of the following continuing education requirements must be submitted to the Division prior to, or with the application for, licensure renewal by any licensee in order to renew a journeyman or contractors plumbing license. (3-29-12)

i. Journeymen must complete eight (8) hours of continuing education for every three-year license cycle, or complete an exam administered by the Division. Of the required eight (8) hours, four (4) hours must be plumbing code update related and the other four (4) hours may be industry related training. (3-29-10)

ii. Contractors must complete sixteen (16) hours of continuing education for every three-year license cycle. Hours accrued obtaining journeyman education may be applied toward this requirement whenever applicable. (3-29-10)

03. Expiration - Revival. (4-6-05)

a. Certificates that are not timely renewed will expire. (4-6-05)

b. A certificate that has expired may be revived within twelve (12) months of its expiration by submitting a completed application and paying the same fee as for an initial certificate and meeting all other certification requirements. (4-6-05)

c. Revived certificates will be issued in such a manner as to create a renewal date that coincides with the birthdate of the applicant to achieve a staggered system of renewal. (4-6-05)

017. SPECIALTY PLUMBING LICENSES. (8-25-88)

The purpose of this section is to set out the special types of plumbing installations for which a specialty license is required; to set out the minimum experience requirements for such licenses; and to describe the procedure for securing such licenses.

01. Qualified Journeyman Plumbers. Qualified journeyman plumbers as defined in Section 54-2611(b), Idaho Code, are permitted to make installations as subsequently described herein without securing an additional license for said installation. (11-14-85)

02. Minimum Experience Requirements. (8-3-83)

a. Experience gained by an individual while engaged in the practice of mobile home hook-ups is not considered towards the satisfaction of the minimum experience requirements for licensing as a journeyman plumber. (8-3-83)
b. All installers must be licensed and be in the employ of a licensed plumbing contractor or specialty contractor limited to this category. (8-3-83)

03. Mobile Home Set-Up or Installers. (8-25-88)

a. Any person qualifying for and having in his possession a current license in this category may make the proper connections of sewer and water to existing facilities on site. All material and workmanship must comply with the requirements of the Uniform Plumbing Code. (8-3-83)

b. All installers must be licensed and be in the employ of a licensed plumbing contractor or specialty contractor limited to this category. This specialty license does not permit any extension, alteration, or addition to the plumbing system within the mobile home or the installation of any underground plumbing outside the mobile home. (8-3-83)

04. Applications for Specialty Licenses. Applications for the above specialty licenses may be obtained from the Division of Building Safety. The forms must be returned with the examination fee provided by Section 54-2614, Idaho Code, with proof of the required two (2) years’ experience in the field of this specialty. (3-29-12)

05. Examinations for Specialty Licenses. Written examinations for specialty plumbing licenses are formulated from the practical application of the sections of the Uniform Plumbing Code as adopted by the Idaho Plumbing Board under Section 54-2601, Idaho Code. (11-14-85)

06. Fees. Fees for certificates are required in accordance with Section 54-2616, Idaho Code. (11-14-85)

018. APPLIANCE PLUMBING SPECIALTY LICENSE.
The purpose of this section is to set out the special types of plumbing installations for which an appliance plumbing specialty license is required; to set out the minimum experience requirements for such licenses; and to describe the procedure for securing such licenses. (7-1-99)

01. Qualified Journeyman Plumbers. Qualified journeyman plumbers as defined in Section 54-2611(b), Idaho Code, are permitted to make installations as subsequently described herein without securing an additional license for said installation. (7-1-99)

02. Qualified Apprentice Plumbers. Qualified apprentice plumbers as defined in Section 54-2611(c), Idaho Code, are permitted to make installations as subsequently described herein without securing an additional license for said installation. (7-1-99)

03. Minimum Experience Requirements. (7-1-99)

a. Experience gained by an individual while engaged in the practice of appliance plumbing specialty is not considered towards the satisfaction of the minimum experience requirements for licensing as a journeyman plumber. (7-1-99)

b. All qualified appliance plumbing specialty journeymen must be licensed and be in the employ of a licensed plumbing contractor or specialty contractor limited to this category. (7-1-99)

c. Appliance plumbing specialty contractors must have a two thousand dollar ($2,000) surety bond, thirty (30) months minimum journeyman experience, and successful completion of appliance plumbing specialty contractor’s test. (7-1-99)

d. Appliance plumbing specialty journeymen must have eighteen (18) months apprentice on-the-job experience, satisfactory completion of seventy-two (72) hours of Idaho Plumbing Board-approved, related training classes and successful completion of the appliance plumbing specialty journeyman’s test. (7-1-99)
e. Appliance plumbing specialty apprentices must be employed by a licensed contractor, under the supervision of a journeyman, be enrolled in or have completed Idaho Plumbing Board-approved related training classes and maintain state registration. (7-1-99)

04. Special Grandfathering Provision. (7-1-99)

a. Contractor: In lieu of the thirty (30) months minimum journeyman experience requirement, an individual may use five (5) years’ experience of owning and operating a business where this specialty applies and satisfactory completion of seventy-two (72) hours of Idaho Plumbing Board-approved related training classes. For this purpose, a business is defined as an activity in which tax returns were required to be and have been filed for at least five (5) years. (7-1-99)

b. Journeyman: In lieu of the eighteen (18) months apprentice on-the-job experience requirement, an individual may use five (5) years’ experience working for a business where this specialty applies. For this purpose, working for a business is defined as being issued a W-2 earning form from a related business or businesses for at least five (5) years. (7-1-99)

05. Applications for Specialty Licenses. Applications for the above specialty licenses may be obtained from the Division of Building Safety. The forms must be returned with the examination fee provided by Section 54-2614, Idaho Code, with proof of the required experience in the field of this specialty. (3-29-12)

06. Examinations for Specialty Licenses. Written examinations for specialty plumbing licenses are formulated from the practical application of the sections of the Uniform Plumbing Code as adopted by the Idaho Plumbing Board under Section 54-2601, Idaho Code. (7-1-99)

07. Fees. Fees for certificates are required in accordance with Section 54-2616, Idaho Code. (7-1-99)

08. Scope of Work Permitted. Permitted to disconnect, cap, remove, and reinstall within sixty (60) inches of original location: water heating appliance, water treating or filtering devices; air or space temperature modifying equipment which involves potable water; humidifier; temperature and pressure relief valves; condensate drains and indirect drains in one-family and two-family residences only. Does not include installation, testing, or certifying of backflow prevention devices. Does NOT include any modification to the drain, waste or vent systems. Must comply with all Idaho plumbing laws and rules and the requirements of the Uniform Plumbing Code. (7-1-99)

019. WATER PUMP PLUMBING SPECIALTY LICENSE.
The purpose of this section is to set out the special types of plumbing installations for which a water pump plumbing specialty license is required; to set out the minimum experience requirements for such licenses; and to describe the procedure for securing such licenses. (7-1-99)

01. Qualified Journeyman Plumbers. Qualified journeyman plumbers as defined in Section 54-2611(b), Idaho Code, are permitted to make installations as subsequently described herein without securing an additional license for said installation. (7-1-99)

02. Qualified Apprentice Plumbers. Qualified apprentice plumbers as defined in Section 54-2611(c), Idaho Code, are permitted to make installations as subsequently described herein without securing an additional license for said installation. (7-1-99)

03. Minimum Experience Requirements.

a. Experience gained by an individual while engaged in the practice of water pump plumbing specialty is not considered towards the satisfaction of the minimum experience requirements for licensing as a journeyman plumber. (7-1-99)

b. All qualified water pump plumbing specialty journeymen must be licensed and be in the employ of a licensed plumbing contractor or specialty contractor limited to this category. (7-1-99)

c. Water pump plumbing specialty contractors must have a two thousand dollars ($2,000) surety bond,
thirty (30) months minimum journeyman experience, and successful completion of water pump plumbing specialty contractor’s test. (7-1-99)

d. Water pump specialty journeymen must have eighteen (18) months apprentice on-the-job experience, satisfactory completion of twelve (12) hours of Idaho Plumbing Board-approved, related training classes and successful completion of the water pump plumbing specialty journeyman’s test. (7-1-99)

e. Water pump plumbing specialty apprentices must be employed by a licensed contractor, under the supervision of a journeyman, be enrolled in or have completed Idaho Plumbing Board-approved related training classes and maintain state registration. (7-1-99)

04. Special Grandfathering Provision.

a. Contractor: In lieu of the thirty (30) month minimum journeyman experience requirement, an individual may use three (3) years’ experience of owning and operating a business where this specialty applies and satisfactory completion of twenty-four (24) hours of Idaho Plumbing Board-approved related training classes. For this purpose, a business is defined as an activity in which tax returns were required to be and have been filed for at least three (3) years. (7-1-99)

b. Journeyman: In lieu of the eighteen (18) months apprentice on-the-job experience requirement, an individual may use three (3) years’ experience working for a business where this specialty applies. For this purpose, working for a business is defined as being issued a W-2 earning form from a related business or businesses for at least three (3) years. (7-1-99)

05. Applications for Specialty Licenses. Applications for the above specialty licenses may be obtained from the Division of Building Safety. The forms must be returned with the examination fee provided by Section 54-2614, Idaho Code, with proof of the required experience in the field of this specialty. (3-29-12)

06. Examinations for Specialty Licenses. Written examinations for specialty plumbing licenses are formulated from the practical application of the sections of the Uniform Plumbing Code as adopted by the Idaho Plumbing Board under Section 54-2601, Idaho Code. (7-1-99)

07. Fees. Fees for certificates are required in accordance with Section 54-2616, Idaho Code. (7-1-99)

08. Scope of Work Permitted. Permitted to install and connect water service piping from pump to storage expansion pressure tank in one (1) and two (2) family residences only. Does not include installation, testing or certifying of backflow prevention devices. Must comply with all Idaho plumbing laws and rules and the requirements of the Uniform Plumbing Code. (7-1-99)

020. -- 999. (RESERVED).
000. LEGAL AUTHORITY.
In accordance with Section 54-2605(1), Idaho Code, the Idaho Plumbing Board is authorized to make, promulgate, and publish such rules as may be necessary for carrying out the provisions of this act in order to effectuate the purposes thereof and for the orderly and efficient administration thereof, and except as may be limited or prohibited by law and the provisions of this act, such rules so made and promulgated have the force of statute. (2-26-93)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 07.02.06, “Rules Concerning Idaho State Plumbing Code,” Division of Building Safety. (3-25-13)

02. Scope. These rules prescribe the use of the Idaho State Uniform Plumbing Code. (3-25-13)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency may have written statements that pertain to the interpretation of the rules of this chapter, or to compliance with the rules of this chapter. Any such documents are available for public inspection and copying at cost at the Idaho Division of Building Safety offices. (3-29-17)

003. ADMINISTRATIVE APPEALS.
This chapter does not provide for administrative relief of the provisions contained herein. (2-26-93)

004. -- 010. (RESERVED)

011. ADOPTION AND INCORPORATION BY REFERENCE OF THE IDAHO STATE PLUMBING CODE.
The Idaho State Plumbing Code published in 2017, including Appendices “A, B, C, D, E, G, I, J, K and L,” (herein ISPC) is adopted and incorporated by reference with amendments as prescribed by the Idaho Plumbing Board and contained in this Section. The Idaho State Plumbing Code is modeled after the 2015 Uniform Plumbing Code (UPC). The Idaho State Plumbing Code is available at the Division of Building Safety offices located at 1090 E. Watertower St., Suite 150, Meridian, Idaho 83642; 1250 Ironwood Dr., Ste. 220, Coeur d’Alene, Idaho 83814; and 2055 Garrett Way, Building 1, Suite 4, Pocatello, Idaho 83201. It may also be accessed electronically online at http://dbs.idaho.gov/. (3-29-17)

01. Section 105.3 Testing of Systems.

a. Delete and replace the following: Plumbing systems must be tested and approved in accordance with this code or the Authority Having Jurisdiction. Tests may be conducted in the presence of the Authority Having Jurisdiction or the Authority Having Jurisdiction’s duly appointed representative. (3-29-17)

b. No test or inspection is required where a plumbing system, or part thereof, is set up for exhibition purposes and has no connection with a water or drainage system. In cases where it would be impractical to provide the required water or air tests, or the presences of the Authority Having Jurisdiction, or for minor installations and repairs, the Authority Having Jurisdiction, in accordance with procedures established thereby, is permitted to make such inspection as deemed advisable in accordance with the intent of this code. Joints and connections in the plumbing system must be gastight and watertight for the pressures required by the test. (3-29-17)

02. Section 218 Definitions. Delete definition of “Plumbing System.” Incorporate definition of “Plumbing System” as set forth in Section 54-2604, Idaho Code. (3-29-17)

03. Section 314.4 Excavations. Add: Where unsuitable or soft material is encountered, excavate to a depth not less than two (2) pipe diameters below the pipe and replace with select backfill. Such backfill must be sand, fine gravel, or stone and must provide lateral support for the pipe. Where rock is encountered, the trench must be
excavated to a minimum depth of six (6) inches (152 mm) below the bottom of the pipe. Sand must be added to provide uniform bedding and support for the pipe. The pipe may not rest on any rock at any point, including joints. (3-29-17)

04. **Section 401.2 Qualities of Fixtures.** Replace with the following: Plumbing fixtures must be constructed of dense, durable, non-absorbent materials and must have smooth, impervious surfaces, free from unnecessary concealed fouling surfaces. (3-29-17)

05. **Section 403.3 Exposed Pipes and Surfaces.** Delete. (3-29-17)

06. **Section 407.4 Transient Public Lavatories.** Self-closing or self-closing metering faucets may be installed on lavatories intended to serve the transient public, such as those in, but not limited to, service stations, train stations, airports, restaurants, convention halls, and rest stops. Installed metered faucets must deliver a maximum of zero point two six (0.26) gallons (one point zero (1.0) liter) of water per use. (3-29-17)

07. **Section 408.5 Finished Curb or Threshold.** Delete the last sentences of the first paragraph and replace with the following: The finished floor of the receptor must slope uniformly from the sides toward the drain not less than one-eighth (1/8) inch per foot (20.8 mm/m), nor more than one-half (1/2) inch per foot (41.8 mm/m). (3-29-17)

08. **Section 408.7.5 Tests for Shower Receptors.** Delete. (3-29-17)

09. **Section 409.4 Limitation of Hot Water in Bathtubs and Whirlpool Bathtubs.** Delete. (3-29-17)

10. **Table 501.1(1) First Hour Rating.** Delete Table 501.1(1) and replace with the following:

For SI units: one (1) gallon = 3.785 L
Notes:
¹ The first hour rating is found on the “Energy Guide” label.
² Solar water heaters must be sized to meet the appropriate first hour rating as shown in the table. (3-25-19)

11. **Section 503.1 Inspection of Chimneys or Vents.** Add the following to the end of section 503.1: Water heating appliances using Category 3 or 4 exhaust venting must be tested in its entirety with five (5) pounds of air for fifteen (15) minutes. Plastic vents must be constructed using manufacturer’s instructions. (3-29-17)

12. **Section 507.2 Seismic Provisions.** Delete. (3-29-17)

13. **Section 507.13 Installation in Garages.** Replace 507.13 with the following: Any plumbing appliance or appurtenance in residential garages and in adjacent spaces that open to the garage and are not part of the living space of a dwelling unit must be installed so that burners, burner-ignition devices or other sources of ignition are located not less than eighteen (18) inches (450 mm) above the floor unless listed as flammable vapor ignition resistant. (3-29-17)

14. **Table 603.2 Backflow Prevention Devices, Assemblies and Methods.**

a. Delete from the table the entire row related to freeze resistant sanitary yard hydrant devices. (3-29-17)
b. Delete the backflow preventer for Carbonated Beverage Dispensers text from the first column of the table and replace with the following: Backflow preventer for Carbonated Beverage Dispensers (Reduced Pressure Principle Backflow Prevention Assembly). (3-29-17)

15. **Section 603.5.7 Outlets with Hose Attachments.** Delete and replace with the following: Potable water outlets with hose attachments, other than water heater drains, boiler drains, freeze resistant yard hydrants and clothes washer connections, must be protected by a nonremovable hose bibb-type vacuum breaker, or by an atmospheric vacuum breaker installed not less than six (6) inches (one hundred fifty-two (152) mm) above the highest point of usage located on the discharge side of the last valve. In climates where freezing temperatures occur, a listed self-draining frost-proof hose bibb with an integral backflow preventer or vacuum breaker must be used. (3-28-18)

16. **Section 603.5.12 Beverage Dispensers.** Delete and replace with the following: Potable water supply to, carbonated beverage dispensers must be protected by an air gap or a Reduced Pressure Principle Backflow Prevention Assembly in accordance with ASSE 1013. For carbonated beverage dispensers, piping material installed downstream of the backflow preventer must not be affected by carbon dioxide gas. Potable water supply to beverage dispensers and coffee machines must be protected by an air gap or a vented backflow preventer in accordance with ASSE 1022. (3-25-19)

17. **Section 603.5.17 Potable Water Outlets and Valves.** Delete. (3-29-17)

18. **Section 603.5.21 Chemical Dispensers.** Add the following new section 603.5.21: The water supply to chemical dispensers must be protected against backflow. The chemical dispenser must comply with ASSE 1055 or the water supply must be protected by one of the following methods:
   a. Air gap; (3-29-17)
   b. Atmospheric vacuum breaker (AVB); (3-29-17)
   c. Pressure vacuum breaker backflow prevention assembly (PVB); (3-29-17)
   d. Spill-resistant pressure vacuum breaker (SVB); or (3-29-17)
   e. Reduced-pressure principle backflow prevention assembly (RP). (3-29-17)

19. **Section 604.10.1 Tracer Wire.** Add the following exception: Where the electrical wiring for the pump is installed in the same trench as the water line, from the point of origin to the structure, a tracer wire is not required. (3-28-18)

20. **Section 605.6.2 Mechanical Joints.** Add to the end of the section the following: Listed PE (polyethylene), one hundred sixty (160) psi minimum, water service and yard piping may be installed within a building (above ground and below ground) with one (1) joint, provided that only listed and approved metallic transition fittings must be used. Polyethylene (PE) plastic pipe or tubing and fitting joining methods must be installed in accordance with the manufacturer’s installation instructions. (3-29-17)

21. **Section 609.1 Installation.** Delete the following sentence: Building supply yard piping must be not less than twelve (12) inches (305 mm) below the average local frost depth; and replace it with the following: The cover must be not less than forty-two (42) inches (1068mm) below grade. (3-29-17)

22. **Section 609.4 Testing.** Testing. Deleting the phrase “Except for plastic piping,” at the beginning of the third sentence and add the following sentence at the end of the section: Plastic piping is to be tested in accordance with manufacturer’s installation standards. (3-25-13)

23. **Section 609.10 Water Hammer.** Does not apply to residential construction. (3-25-13)

24. **Section 609.11 Pipe Insulation.** Delete. (3-29-17)
25. Table 610.3 and Appendix Table A 103.1. Change fixture unit loading value for both public and private for bathtub or combination bath/shower, and clothes washers to two (2) fixture units. (3-29-17)

26. Section 610.2 Pressure Loss. Add the following: All new one (1) and two (2) family residences built slab on grade or that will have a finished basement at the time of final inspection must have a pre-plumbed water softener loop. The kitchen sink must have one (1) hot soft line and one (1) cold soft line and one (1) cold hard line. Exterior cold hose bibs intended for irrigation purposes must be piped with hard water. (3-29-17)

27. Table 611.4 Sizing of Residential Softeners. Amend Footnote 3 to read: Over four (4) bathroom groups, softeners must be sized according to the manufacturer’s standards. (3-29-17)

28. Section 612.0 Residential Sprinkler System. Add the following to the end of the first sentence in section 612.1: and the requirements of the Authority Having Jurisdiction (AHJ). (3-29-17)

29. Table 702.1 Drainage Fixture Unit Valves (DFU). Change fixture unit loading value for clothes washers, domestic for private to two (2) fixture units. (3-29-17)

30. Section 703.1 Minimum Size. Add the following at the end of section 703.1: No portion of the drainage or vent system installed underground, underground under concrete or below a basement or cellar must be less than two (2) inches in diameter. (3-29-17)

31. Section 704.2 Single Vertical Drainage Pipe. Two inch (2”) and smaller double sanitary tees may be used for back to back or side by side fixture trap arms without increasing the barrel size. (3-29-17)

32. Section 704.3 Commercial Sinks. Delete. (3-29-17)

33. Table 703.2 Maximum Unit Loading and Maximum Length of Drainage and Vent Piping. Change fixture unit loading value for one and a half (1 1/2) inch horizontal drainage to two (2) fixture units. (3-29-17)

34. Section 705.5.2 Solvent Cement Joints. Add to the end of the section the following: PVC DWV may be joined by the use of one-step solvent cement listed or labeled per U.P.C. Section 301.1.1. (3-29-17)

35. Section 707.4 Locations. Add the following: A clean out must be installed for double sanitary tees two (2) inches (50 mm) or less in diameter that receive the discharge from fixture connections. Exception in Section 707.4 does not apply. A full-sized accessible cleanout must be installed in the vertical immediately above the floor or at the base of each waste or soil stack. A full-size cleanout extending to or above finished grade line must be installed at the junction of the building drain and the building sewer. Cleanouts must be installed at fifty (50) foot intervals in horizontal drain lines two (2) inches or smaller. (3-29-17)

36. Section 710.3(4) Sewage Ejectors and Pumps. Add: Exception (4): One (1) pump is permitted for “public use” occupancies provided that such tank receives the discharge of not more than one (1) water closet and ten (10) fixture units (See Section 710.9 Alarms). (3-29-17)

37. Section 710.5 Size Building Drains and Sewers. Add the following exception: In single family dwellings, one (1) fixture unit may be allowed for each gallon per minute of flow from a pump or a sump ejector. (3-29-17)

38. Section 712.1 Media. In the first sentence, delete the phrase “except that plastic pipe must not be tested with air.” (3-25-13)

39. Section 717.0 Size of Building Sewers. Add the following to the end of section 717.1: Exception: The building drain and building sewer is not less than four (4) inches extending from its connection with the city or private sewer system and must run full size to inside the foundation or building lines. (3-29-17)

40. Section 723.0 General. Delete the following sentence: “Plastic DWV piping systems must not be tested by the air test method.” (3-29-17)
41. **Section 801.3.3 Food Handling Fixtures.** Add: Food preparation sinks, pot sinks, scullery sinks, dishwashing sinks, silverware sinks, commercial dishwashing machines, silverware-washing machines, steam kettles, potato peelers, ice cream dipper wells, and other similar equipment and fixtures must be indirectly connected to the drainage system by means of an air gap. The piping from the equipment to the receptor must not be smaller than the drain on the unit, but it must not be smaller than one (1) inch (twenty-five and four tenths (25.4) mm).

   (3-29-17)

42. **Section 805.41 General.** Add to the end of the first paragraph the following: Provisions must be made for the discharge of the water softener to terminate in an approved location. The drain line for a water softener must be three-fourths (3/4) inch minimum. A washer box with a dual outlet is an approved location as long as it is on the same floor or one (1) floor below the softener unit and the water softener drain line is a minimum three-fourths (3/4) inch.

   (3-29-17)

43. **Section 807.3 Domestic Dishwashing Machines.** A domestic dishwashing machine may be installed without the use of an airgap if the drain hose is looped to the bottom side of the counter top and secured properly.

   (3-29-17)

44. **Section 906.1 Roof Termination.** Delete the existing provision and replace with the following:

   a. Roof venting. When conventional roof venting is utilized, each vent pipe or stack must extend through its flashing and terminate vertically not less than six (6) inches (one hundred fifty-two (152) mm) above the roof nor less than one (1) foot (three hundred five (305) mm) from any vertical surface.

   b. Sidewall venting. When sidewall venting is utilized, the vent must extend flush with the eaves/gable end, turn down using a ninety (90) degree ell, and terminate as close to the roof peak as possible. The vent end must be properly screened. Sidewall venting is acceptable on new or remodel construction on cabins, log homes, and residential or commercial buildings.

   (4-2-08)

   c. Sidewall venting must meet the intent of Section 906.2 of the ISPC.

   (3-25-13)

45. **Section 908.1 Vertical Wet Venting.** Add to the end of the section the following: A horizontal wet vent may be created provided it is created in a vertical position and all other requirements of Section 908 of the ISPC are met.

   (3-29-17)

46. **Section 909.0 Special Venting for Island Fixtures.** Add: Parameters for the limited use of Air Admittance Valves (A.A.V.).

   a. An A.A.V. may be used only in residential buildings.

   (4-2-08)

   b. In remodels, an A.A.V. may be used with island fixtures or remotely located sinks such as in bar, kitchen, or laundry tray locations. An A.A.V. may not be used in bathroom groups.

   (4-2-08)

   c. In new construction, an A.A.V. may be used on island fixture sinks.

   (4-2-08)

   d. Each A.A.V. may be used to vent only one (1) floor.

   (4-2-08)

   e. Each A.A.V. must be readily accessible.

   (4-2-08)

   f. The cross-sectional area of venting must remain the same and must meet the largest required per ASSE 1051.

   (4-2-08)

   g. An A.A.V. may only be installed in accordance with the manufacturer’s installation standards as

   (4-2-08)

   h. An A.A.V. may not be used in an attic, crawl space, outside installation, or in connection with
chemical or acid waste systems. (4-2-08)

47. **Section 1002.3 Change of Direction.** Trap arms may not exceed one hundred eighty (180) degrees of horizontal turn without the use of a cleanout. (3-29-17)

48. **Section 1007.0 Trap Seal Protection.** Delete section 1007.1 and replace with the following: Floor drains or similar traps directly connected to the drainage system and subject to infrequent use must be protected with a trap seal primer or other approved trap seal protection device, except where not deemed necessary for safety or sanitation by the Authority Having Jurisdiction. Trap seal primers must be accessible for maintenance. (3-29-17)

49. **Section 1016.1 Discharge.** Add the following to the end of section 1016.1: Floor drains installed in residential garages must be permitted to use the interceptor as the fixture trap. (3-29-17)

50. **Section 1502.1 General.** Add to this section the following paragraph: Plumbing for a gray water system from any fixture up to, but not to include the exterior irrigation system tank must be inspected by the Authority Having Jurisdiction. The Idaho Department of Environmental Quality (IDEQ) has jurisdiction to inspect and approve the installation of the exterior irrigation system tank and all piping therefrom to the point of disposal in accordance with IDAPA 58.01.03, “Individual/Subsurface Sewage Disposal Rules.” Gray water system location and design criteria requirements related to irrigation and leaching is determined in accordance with the requirements as established by the IDEQ. (3-29-17)

006. PUBLIC RECORDS ACT COMPLIANCE.
These rules are subject to the provisions of the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (4-6-05)

007. -- 011. (RESERVED)

012 COMPLAINTS.

01. Initial Inquiry. Inquiries concerning complaints may be initiated by the consumer, and directed to the Division of Building Safety, either verbally or in writing. (4-6-05)

02. Statute of Limitations. Complaints must be reported within one (1) year following the date of initial home installation. Complaints reported more than one (1) year following the date of initial home installation are not eligible for this dispute resolution process. (4-6-05)

03. Procedure. The Division may discuss the nature of the complaint with the consumer, seek additional information or clarification, and provide the consumer with information regarding the complaint procedures. (4-6-05)

04. Complaint Form. The Division will provide the consumer with a consumer complaint form. This form must be completed and returned to the Division within thirty (30) days. (4-6-05)
013. INVESTIGATION.

01. Site Inspection. The completed consumer complaint form received by the Division is reviewed and, based either on the nature of the complaint (serious defect or imminent safety hazard) or upon request of the consumer, manufacturer, installer, or dealer, a site inspection is scheduled.

02. Inspectors. The site inspection may have only the Division inspector and consumer present, at the consumer’s request, or, if there is a dispute between the manufacturer, installer, or dealer, the inspection will be coordinated to include all involved parties.

03. Costs.

a. A site inspection made upon a consumer’s request that involves issues concerning a defect as defined by HUD is conducted at no cost to the consumer.

b. A charge for mileage to and from the inspection site, plus an hourly charge for the time spent conducting the inspection, is assessed the manufacturer, installer, or dealer if a site inspection is made upon a request by the manufacturer, installer, or dealer, and does not involve a serious defect or imminent safety hazard.

04. Inspection Report. Following a site inspection, the inspector will prepare a final report and include copies of any photographs taken.

05. Complaint Determination. Based on the complaint investigation, a determination is made as to the nature of the complaint and if follow-up is warranted by the Division for action pursuant to HUD guidelines.

014. ACTION.
Based on the determination resulting from the complaint investigation, a notification letter and copies of the completed consumer complaint form and investigation findings may be provided to all involved parties and to HUD as required.

01. Division Action. If the nature of the complaint requires Division action, notification and follow-up are completed according to HUD guidelines.

02. License File. If the nature of the complaint pertains to dealer contractual issues or installation problems, a copy of the complaint is given to the manufactured housing section of the Division to be consolidated with the appropriate license files.

03. Correction or Repair. A Division building inspector must issue a report concerning correction or repair of defects that are a matter of dispute between the homeowner, dealer, installer, or manufacturer. The report will include the likely cause of the defect and identify the party responsible for creating the defect that is in need of correction or repair.

015. DECISIONS - APPEALS - INFORMAL DISPOSITION.

01. Decisions. The Division administrator will review the inspector’s report and enter a decision setting forth the required corrective action and identifying the party to be responsible for such action. The Division administrator may initiate a contested case proceeding if the administrator, in his sole discretion, determines that such a proceeding or further investigation would be of assistance in reaching a decision. The decision must direct the responsible party to complete the required corrective action within specified timelines. In reaching a decision with respect to appropriate timelines in which to complete corrective action, the administrator will consider the needs of the involved parties including, but not limited to, safety, anticipated expense and availability of funds, time of year, and convenience to the parties.

02. Appeals. Decisions of the administrator are final orders for purposes of appeal.

03. Informal Disposition -- Arbitration -- Mediation. Unless otherwise prohibited by other
provisions of law, informal disposition may be made of any complaint by negotiation, stipulation, agreed settlement, and consent order. The parties may agree to enter into binding arbitration or mediation. Informal settlement of matters is to be encouraged. (4-6-05)

016. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
In accordance with Section 44-2504, Idaho Code, the administrator of the Idaho Division of Building Safety is authorized to promulgate rules necessary to implement the provisions of Title 44, Chapter 25, Idaho Code, otherwise known as the Mobile Home Rehabilitation Act. (7-1-99)

001. TITLE AND SCOPE.
01. Title. These rules are titled IDAPA 07.03.13, “Rules Governing Mobile Home Rehabilitation,” Division of Building Safety. (7-1-99)

02. Scope. These rules apply to the rehabilitation of mobile homes constructed prior to June 15, 1976, intended for relocation into a city or county requiring an installation permit pursuant to Section 44-2202, Idaho Code. (7-1-99)

a. Before a permit for the installation of the mobile home may be issued, the home must meet the rehabilitation requirements specified in this chapter and receive a certificate of compliance from the administrator of the Idaho Division of Building Safety. (7-1-99)

b. Upon submission of the rehabilitation form required pursuant to Section 44-2504, Idaho Code, and any other information required by the administrator to establish compliance with this chapter, the administrator issues a certificate of compliance to the homeowner. The certificate of compliance must be presented to the local jurisdiction before a permit for the installation of the home may be issued. (7-1-99)

c. Upon receipt of the certificate of compliance, the local jurisdiction issues the installation permit in the same manner as the permit would be issued with respect to a mobile/manufactured home for which rehabilitation is not required. No zoning or other ordinance or policy of the local jurisdiction prohibiting relocation or installation of a mobile home to which this chapter applies is effective to prohibit the relocation or installation of a mobile home for which a certificate of compliance has been issued in accordance with this rule. (7-1-99)

002. WRITTEN INTERPRETATIONS.
The Division may from time to time provide legal opinions regarding these rules. To the extent not privileged, these documents will be made available for inspection at the Division’s main office, 1090 E. Watertower Street, Meridian, Idaho. (7-1-99)

003. ADMINISTRATIVE APPEALS.
This chapter does not provide for administrative relief of the provisions contained herein. (7-1-99)

004. DEFINITIONS.
01. Administrator. The administrator of the Division of Building Safety for the state of Idaho. (7-1-99)

02. Division. The Division of Building Safety for the state of Idaho. (7-1-99)

03. Local Unit of Government. A city or county within Idaho which has enacted ordinances which regulate the siting or installation of mobile homes. (7-1-99)

04. Mobile Home. A structure similar to a manufactured home, but built to a mobile home code prior to June 15, 1976, the date of enactment of the federal Manufactured Housing and Safety Standards Act (H.U.D. code). (7-1-99)

005. -- 010. (RESERVED)
011. REHABILITATION REQUIREMENTS.
The mobile home must meet the following rehabilitation requirements: (7-1-99)

01. Smoke Detectors. A smoke detector (which may be a single station alarm device) must be installed on any wall in a hallway or space communicating with each bedroom area and the living area on the living area side and, when located in a hallway, the detector must be between the return air intake and the living area. Each smoke detector must be installed in accordance with its listing and the top of the detector must be located on a wall four (4) inches to twelve (12) inches below the ceiling. The detector may be battery powered or may be connected to an electrical outlet box by a permanent wiring method into a general electrical branch circuit, without any switch between the over current protection device protecting the branch circuit and the detector. (7-1-99)

02. Gas Furnace and Water Heater Compartment Protection. The walls, ceilings and doors of each compartment containing a gas-fired furnace or water heater must, as a minimum, be lined with five-sixteenth (5/16) inch gypsum board, unless the compartment access door opens to the exterior of the home, in which case, the door may be all metal construction. All exterior compartments must seal to the interior of the mobile home. (7-1-99)

03. Egress From Sleeping Areas. Each room designated expressly for sleeping purposes must have an exterior exit door or at least one (1) outside egress window or other approved exit device with a minimum clear dimension of twenty-two (22) inches and a minimum clear opening of five (5) square feet. The bottom of the exit must not be more than thirty-six (36) inches above the floor. (7-1-99)

04. Electrical System Testing. All electrical systems must be tested for continuity to assure that metallic parts are properly bonded, tested for operation to demonstrate that all equipment is connected and in working order, and given a polarity check to determine that connections are proper. The electrical system must be properly protected for the required amperage load. If the unit wiring is of aluminum conductors, all receptacles and switches rated twenty (20) amperes or less directly connected to the aluminum conductors must be marked CO/ALR. Exterior receptacles other than heat tape receptacles must be of the ground fault circuit interrupter (GFI) type. Conductors of dissimilar metals (copper/aluminum or copper clad aluminum) must be connected in accordance with Section 110-14 of the National Electrical Code. (7-1-99)

05. Gas System Testing. The mobile home’s gas piping must be tested with the appliance valves removed from the piping system and piping capped at those areas. The piping system must withstand a pressure of at least six (6) inch mercury or three (3) psi gauge for a period of not less than ten (10) minutes without showing any drop in pressure. Pressure must be measured with a mercury manometer or a slope gauge calibrated so as to read in increments of not greater than one-tenth (1/10) pound or an equivalent device. The source of normal operating pressure must be isolated before the pressure test is made. After the appliance connections are reinstalled, the piping system and connections must be tested with line pressure of not less than ten (10) inches nor more than fourteen (14) inches water column air pressure. The appliance connections must be tested for leakage with soapy water or a bubble solution. All gas furnaces and water heaters must be vented to the exterior in accordance with the latest state adopted mechanical code. (7-1-99)

06. Water System Testing. A full water or air pressure test will be performed on the mobile home’s water and sewer system. (7-1-99)

a. Water piping must be tested and proven tight under a water pressure not less than the working pressure under which it is to be used. The water used for tests must be obtained from a potable source of supply. A fifty (50) pound per square inch (344.5kPa) air pressure may be substituted for the water test. In either method of test, the piping must withstand a test without leaking for a period of not less than fifteen (15) minutes. (7-1-99)

b. A water test must be applied to the drainage and vent system either in its entirety or in sections. If applied to the entire system, all openings in the piping must be tightly closed, except at the highest opening, and the system filled with water to the point of overflow. If the system is tested in sections, each opening must be tightly plugged except the highest opening of the section under the test and each section must be filled with water, but no section must be tested with less than a ten (10) foot head of water. In testing successive sections, at least the upper ten (10) feet of the next preceding section must be tested, so that no joint or pipe in the structure, except the uppermost ten (10) feet of the system, must have been submitted to a test of less than a ten (10) foot head of water. The water
must be kept in the system or in the portion under testing for at least fifteen (15) minutes before inspection starts. The system must be tight at all points. (7-1-99)

07. Requirements for Obtaining Certificates of Compliance. All repairs or other work necessary to bring the mobile home into compliance with requirements of this section must be completed before a certificate of compliance may be issued by the Division. (7-1-99)

012. REHABILITATION FORM AND CHECKLIST -- COMPLIANCE CERTIFICATE.

01. Rehabilitation Checklist. The rehabilitation form will be completed and signed by an authorized representative of an Idaho licensed manufactured home service company or installer or dealer holding an installer’s license. Electrical, gas, water and sewer inspections and any necessary repairs must be performed by a person or company properly licensed and authorized to perform the work under Idaho law, with the person or company performing the inspections and repairs to be noted on the rehabilitation form. The term “inspections” in the context of this section is intended to mean testing of the various electrical, gas, water and sewer systems. A properly completed rehabilitation form must be presented to the Division before a certificate of compliance may be issued. (7-1-99)

02. Rehabilitation Checklist and Compliance Certification Form. The following is the official rehabilitation checklist and compliance certificate:
### MOBILE HOME REHABILITATION CHECKLIST -- COMPLIANCE CERTIFICATE (TITLE 44 CHAPTER 25 IDAHO CODE)

These rehabilitation/testing requirements are applicable only to non-HUD mobile homes manufactured prior to June 15, 1976. Separate permits and inspections may be required for any repairs made to plumbing or electrical systems. Additional permits may be required by the local authority having jurisdiction in order to do any work or make any repairs on the mobile home not involving plumbing or electrical systems. Check with your local building department to determine the need for permits and inspections before initiating any repair work or before installing your mobile home at a new site.

The undersigned installer/service company representatives, electrical or plumbing contractors attest and verify that rehabilitative repairs and testing have been completed in accordance with Title 44 - Chapter 25 Idaho Code:

The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (3-28-18)

006. INCORPORATION BY REFERENCE.
There are no documents incorporated by reference into these rules. (3-28-18)

007. -- 010. (RESERVED)

011. SAFETY INSPECTIONS.

01. Safety Advisors. Safety advisors for the Division of Building Safety, Industrial Safety Section, will make periodic inspections of public buildings covered by Sections 67-2311through 67-2318, and 67-2601A, Idaho Code, and the immediate environs thereof, for the purpose of ascertaining unsafe or hazardous conditions not only to the state’s employees but to inmates therein, attendants thereat, and to the general public. (3-28-18)

02. Inspection Standards. Safety and occupational health inspections are conducted using the rules contained herein, as the primary standards as applicable; and applicable provisions, as determined by the division, of 29 CFR 1910, Occupational Safety and Health Standards, and 29 CFR 1926, Safety and Health Regulations for Construction, with the following standards used as a basis for appraisals of other hazards: the International Building Code (IBC) as adopted by the Building Code Board, and as amended and in effect pursuant to IDAPA 07.03.01; the International Fire Code (IFC), as adopted by the Department of Insurance, and as amended and in effect pursuant to IDAPA 18.01.50; the Mechanical Codes, as adopted by the Idaho Heating, Ventilation and Air Conditioning Board, and as amended and in effect pursuant to IDAPA 07.07.01; the Idaho State Plumbing Code (IPC), as adopted by the Idaho Plumbing Board, and as amended an in effect pursuant to IDAPA 07.02.06; the National Electric Code (NEC), as adopted by the Idaho Electrical Board, and as amended and in effect pursuant to IDAPA 07.01.06; the most current edition of the Life Safety Code; the most current standards of the American National Standards Institute (ANSI); the most current standards of the National Fire Protection Association (NFPA); the most current standards of the Consumer Product Safety Commission (CPSC); the most current standards of the National Institute for Occupational Safety and Health (NIOSH); nationally recognized industry standards; and other nationally recognized standards and codes. (3-28-18)
012. REQUIREMENTS.

01. Safe Workplace. Every public employer must furnish a place of employment free from recognized hazards which may cause serious injury or death to employees. Recognized hazards are those addressed by codes adopted by the state. (3-28-18)

02. Safety Devices. Every public employer must furnish and use appropriate safety devices and safeguards, and must adopt and use practices, means, methods, operations, and processes which are adequate to render the place of employment safe and free of occupational health hazards. (3-28-18)

03. Posted Warnings. Every public employer must post warning signs in areas where employees are exposed to injury hazards and must ensure that employees comply with the posted warnings. (3-28-18)

04. Training and Equipment. No public employer may require an employee to go or be in any place of employment that is unsafe unless that employee has the appropriate training, is properly equipped, and is authorized to go or be in such place. (3-28-18)

05. Minimum Construction Standards. No public employer, owner, or lessee of any real property may construct or cause to be constructed any place of employment which does not meet the minimum safety requirements identified by codes adopted by the state, or other nationally recognized codes and standards as listed in Section 007 of these rules. (3-28-18)

06. Training.

a. It is the responsibility of the public employer to establish and ensure a safe and healthful working environment, and to establish an accident-prevention program and training program to improve the skill and competency of all employees in the area of safety and occupational health. (3-28-18)

b. Such training must include on-the-job instruction in the safe use of powered materials-handling equipment, machine tool operations, use of hazardous/toxic materials, and operation of utility systems prior to assignment to jobs involving such exposures. (3-28-18)

013. ADMINISTRATION.

01. Annual Inspections. All safety inspections of places of public employment conducted pursuant to these rules must be performed by personnel of the Division of Building Safety, Industrial Safety Section, on an annual basis in accordance with Section 67-2313, Idaho Code. Such inspection must be conducted in accordance with the standards and codes set forth herein. (3-28-18)

02. Public Employer Responses. An employer must respond within twenty (20) days of receipt of any inspection report containing findings. The response must be made to the Division of Building Safety, Industrial Safety Section, 1090 E. Watertower Street, Suite 150, Meridian, Idaho 83642. If additional time is needed to respond, the administrator is authorized to grant an extension when a written request is received from the agency. (3-28-18)

03. Inapplicability of Penalties. Any provisions contained in the Occupational Safety and Health Administration regulations, including but not limited to 29 CFR 1910 and 29 CFR 1926, which relate to or provide for civil penalties for violations of the standards contained therein, do not apply and are not enforced by the Division of Building Safety in the administration of the state’s safety and occupational health program. (3-28-18)

07.06.01 – RULES GOVERNING UNIFORM SCHOOL BUILDING SAFETY

000. LEGAL AUTHORITY.
The Administrator of the Division of Building Safety is authorized under Section 39-8007, Idaho Code, to promulgate rules concerning the enforcement and administration of the Idaho Uniform School Building Safety Act.

001. TITLE AND SCOPE.
01. Title. These rules are titled IDAPA 07.06.01, “Rules Governing Uniform School Building Safety,” Division of Building Safety.

02. Scope. These rules prescribe the Idaho Uniform School Building Safety Code and provide for enforcement and administration of the Idaho Uniform School Building Safety Act by the Administrator of the Division of Building Safety.

002. WRITTEN INTERPRETATIONS.
The Division of Building Safety may have written interpretations of this chapter. These documents, if any, are available for public inspection and copying in the central office of the Division of Building Safety.

003. ADMINISTRATIVE APPEALS.
Administrative appeals may be taken from any finding made by the Administrator of the Division of Building Safety pursuant to this chapter as provided by Section 39-8010, Idaho Code.

004. INCORPORATION BY REFERENCE.
01. Uniform Codes. The following uniform codes are hereby incorporated by reference into these rules as, and insofar as, the most recent editions have been adopted by the appropriate governing authority for the state of Idaho pursuant to Sections 39-4109, 41-253, 39-8614, 54-1001, 54-2601, 54-5001, and 72-508, Idaho Code:

   a. International Building Code;
   b. International Mechanical Code;
   c. International Fuel Gas Code;
   d. Safety Code for Elevators and Escalators (ASME/ANSI A17.1);
   e. International Energy Conservation Code;
   f. Accessible and Usable Buildings and Facilities (ICC/ANSI A117.1);
   g. International Fire Code (IFC);
   h. National Electrical Code (NEC);
   i. Uniform Plumbing Code (UPC);
   j. Pacific NW AWWA Manual for Backflow Prevention and Cross Connection Control; and
   k. Idaho General Safety and Health Standards.

02. Idaho Uniform School Building Safety Code. The codes set forth in Subsection 004.01 of this rule, together with the definitions contained therein and the written interpretations thereof, insofar as they are applicable to school facilities, constitute the Idaho Uniform School Building Safety Code. A copy of each of the
identified codes is available for review at the main office of the Division of Building Safety. (3-29-10)

005. -- 009. (RESERVED)

010. DEFINITIONS.

02. Administrator. The Administrator of the Division of Building Safety for the state of Idaho. (3-15-02)

03. Building Code. The Building Code specified in Paragraph 004.01.a. of these rules. (4-6-05)

05. Division. The Idaho Division of Building Safety. (3-15-02)

06. Imminent Safety Hazard. A condition that presents an unreasonable risk of death or serious bodily injury to occupants of a building. (3-15-02)

07. School Building or Building. Any school building, including its structures and appurtenances necessary for the operation of the school building, and subject to the provisions of the Act. (3-15-02)

08. Serious Safety Hazard. A condition that presents an unreasonable health risk or risk of injury to occupants of a building. (4-6-05)

011. -- 049. (RESERVED)

050. VIOLATION OF CODE.

01. Duty to Act. The Administrator must immediately undertake the steps set forth in the Act whenever he finds a violation of the Code. (3-15-02)

02. Imminent Safety Hazard. Code violations that constitute an imminent safety hazard, include, but are not limited to, the following:

a. Whenever any door, aisle, passageway, stairway or other means of exit is not of sufficient width or size or is not so arranged as to provide safe and adequate means of exit in case of fire or panic; (3-15-02)

b. Whenever the walking surface of any aisle, passageway, stairway or other means of exit is so warped, worn, loose, torn or otherwise unsafe as to not provide safe and adequate means of exit in case of fire or panic; (3-15-02)

c. Whenever the stress in any materials, member or portion thereof, due to all dead and life loads, is more than one and one half (1-1/2) times the working stress or stresses allowed in the Building Code for new buildings of similar structure, purpose or location; (3-15-02)

d. Whenever any portion thereof has been damaged by fire, earthquake, wind, flood or by any other cause, to such an extent that the structural strength or stability thereof is materially less than it was before such catastrophe and is less than the minimum requirements of the Building Code for new buildings of similar structure, purpose or location; (3-15-02)

e. Whenever any portion or member or appurtenance thereof is likely to fail, or to become detached or dislodged, or to collapse and thereby injure persons or damage property; (3-15-02)

f. Whenever any portion of a building, or any member, appurtenance or ornamentation on the exterior
thereof is not of sufficient strength or stability, or is not so anchored, attached or fastened in place so as to be capable of resisting a wind pressure of one-half (1/2) of that specified in the Building Code for new buildings of similar structure, purpose or location without exceeding the working stresses permitted in the Building Code for such buildings; (3-15-02)

g. Whenever any portion thereof has wracked, warped, buckled or settled to such an extent that walls or other structural portions have materially less resistance to winds or earthquakes than is required in the case of similar new construction; (3-15-02)

h. Whenever the building or structure, or any portion thereof, because of:

i. Dilapidation, deterioration or decay; (3-15-02)

ii. Faulty construction; (3-15-02)

iii. The removal, movement or instability of any portion of the ground necessary for the purpose of supporting such building; (3-15-02)

iv. The deterioration, decay or inadequacy of its foundation; or

v. Any other cause, is likely to partially or completely collapse; (3-15-02)

i. Whenever any building or structure has been constructed, exists or is maintained in violation of any specific requirement or prohibition applicable to such building or structure provided by the building regulations of this jurisdiction, as specified in the Building Code, or of any law or ordinance of this state or jurisdiction relating to the condition, location or structure of buildings; (4-6-05)

j. Whenever any building or structure, which, whether or not erected in accordance with all applicable laws and ordinances, has in any nonsupporting part, member or portion less than fifty percent (50%), or in any supporting part, member or portion less than sixty-six percent (66%) of the:

i. Strength; (3-15-02)

ii. Fire-resisting qualities or characteristics; or

iii. Weather-resisting qualities or characteristics required by law in the case of a newly constructed building of like area, height and occupancy in the same location; (3-15-02)

k. Whenever any building or structure, because of obsolescence; dilapidated condition; deterioration; damage; inadequate exits; lack of sufficient fire-resistive construction; faulty electric wiring, gas connections or heating apparatus; or other cause, is determined by the state fire marshal to be a fire hazard; (3-15-02)

l. Whenever a building or structure, because of inadequate maintenance; dilapidation; decay; damage; faulty construction or arrangement; inadequate light, air or sanitation facilities; or otherwise, is determined to be unsanitary, unfit for human occupancy or habitation, or in such a condition that is likely to cause accidents, sickness, or disease; (3-15-02)

m. Whenever any building or structure, because of dilapidated condition; deterioration; damage; inadequate exits; lack of sufficient fire-resistive construction; faulty electric wiring, gas connections, or heating apparatus; or other cause, is determined by the state fire marshal to be a fire or life safety hazard; and (3-15-02)

n. Whenever there is, within the building, the presence of vapors, fumes, smoke, dusts, chemicals, or materials in any form (natural or man made) in quantities that have been established by national health organizations to be a threat to the health or safety of the building occupants. This does not include materials stored, used, and processed in accordance with nationally recognized safety standards for the materials in question. (3-15-02)
Subchapter A – General Provisions
(Rules 000 - 050)

000. LEGAL AUTHORITY.
Pursuant to the provisions of Section 67-2601A, Idaho Code, the Division of Building Safety has the authority to
promulgate and adopt rules for affecting the purposes therein. (3-29-17)

001. TITLE AND SCOPE.
These rules are titled IDAPA 07.08.01, “Idaho Minimum Safety Standards and Practices forLogging,” and are
applicable to the logging industry in the state of Idaho. (6-30-19)

003. ADMINISTRATIVE APPEALS.
The procedure for appeals in logging safety matters is prescribed by Subchapter N, Section 651 through 700 of these
rules and Title 67, Chapter 52, Idaho Code. (6-30-19)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into these rules. (6-30-19)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS.

2840. The Department website is https://dbs.idaho.gov. (3-29-17)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code,
and are public records. (3-29-17)

007. DEFINITIONS A THROUGH C.
Terms used in these standards shall be interpreted in the most commonly accepted sense, excepting only those
specifically defined. (6-30-19)

01. Administrator. The Administrator of the Division of Building Safety. (6-30-19)

02. A-Frame. A structure made of the independent columns (of wood or steel) fastened together at the
top and separated a reasonable width at the bottom to stabilize the unit from tipping sideways. (6-30-19)

03. Approved. The term approved means approved by the Division of Building Safety. (6-30-19)

04. Arch. A piece of equipment attached to the rear of a vehicle, used for raising one end of logs to
facilitate skidding. (6-30-19)

05. Division. The Division of Building Safety. (6-30-19)

06. Back Cut. The final falling cut. (6-30-19)
07. Barber Chair. Slab portion of tree remaining on the stump above the back cut due to improper falling. (6-30-19)

08. Bell or Cup Hook with Spike. A hook consisting of a cylindrical cup from whose center there projects a spike. (6-30-19)

09. Bight. The loop of a line, the ends being “gast” elsewhere, or the angle formed by a line running through a block. (6-30-19)

10. Binder. Chain, cable, or steel strap used for binding loads of logs. (6-30-19)

12. Brailling. One (1) section of flat log raft enclosed by boom sticks. To place logs end to end in a long flat raft or boom. (6-30-19)

13. Brow Log. A log placed parallel to any roadway at a landing or dump to protect vehicles while loading or unloading. (6-30-19)

14. Bullbuck. The supervisor over cutting crew. (6-30-19)

15. Buckle Guy Line. Line used to stiffen or support a tree, pole, or structure between the top guys and the base. (6-30-19)

16. Bunk. The cross support for logs on a logging car or truck. (6-30-19)

17. Butt Hook. Hook at the end of a haul-in line for attaching chokers to line. (6-30-19)

18. Butt Rigging. Arrangement at the end of main line for attaching chokers. (6-30-19)

19. Cable-Assisted Logging Systems. Logging systems, including, but not limited to, winch-assisted, cable-assisted, tethered, and traction-assisted systems that enable ground-based timber harvesting machines, including, but not limited to, feller bunchers, harvesters, loaders and shovels, to be operated on slopes. (6-30-19)

20. Capped Fuse. A piece of fuse to which a blasting cap has been crimped. (6-30-19)

21. Carriage Logging. A type of high lead logging using gravity, haul back, or remote control carriages to yard logs. (Bullet carriage is one type). (6-30-19)

22. Cat Road. A tractor road. (6-30-19)

23. Chaser. The member of the yarding crew who unhooks the logs at the landing or fights hang-ups on skid road. (6-30-19)

24. Chipper. A machine that cuts materials into chips. (6-30-19)

25. Chock (Bunk Block-Cheese Block). A wedge that prevents logs from rolling off the bunks. (6-30-19)

26. Cheater. An extension to bunk stakes. (6-30-19)

27. Choker. A wire rope with special attachments put around the log near the end for hauling or lifting. (6-30-19)

28. Cold Deck. Any pile of logs that is yarded and left for future removal. (6-30-19)
29. Cold Shut. A link for joining two (2) chains, the link being closed cold with a hammer, not a weld. (6-30-19T)

30. Competent Person. An individual who is capable of identifying existing and predictable hazards in the work site surroundings or working conditions that are unsanitary, hazardous or dangerous to employees, and who has authorization to take prompt corrective measures to eliminate such. (6-30-19T)

31. Connecting Wires. Those wires that connect the leg wire of one (1) electric blasting cap or with the leading wires, when blasting in series. (6-30-19T)

32. Crotch Line. Two (2) short lines attached to a hoisting line by means of a ring or shackle, the lower ends being attached to loading hooks and used for loading or unloading. (6-30-19T)

33. Cutter. A term used to designate faller or bucker. (6-30-19T)

008. DEFINITIONS D THROUGH I.
Terms used in these standards shall be interpreted in the most commonly accepted sense, excepting only those specifically defined. (6-30-19T)

01. D or Strap Socket. A socket with a closed loop and arranged to be attached to the end of a line. It is used in place of a spliced eye. (6-30-19T)

02. Dead Man. A buried log or other object used as an anchor. (6-30-19T)

03. Detonator. A blasting cap, electric blasting cap, or delay electric blasting cap. (6-30-19T)

04. Dog Line. Any line used to tie logs together. (6-30-19T)

05. Donkey (Short for “Donkey Engine”). Power equipment equipped with drum and cable for moving or transporting logs as in loading or yarding. (6-30-19T)

06. Drag-Turn. Any log or group of logs attached by some means of power and moved from a point of rest. (6-30-19T)

07. Equipment. The term, as used, means and include all machines, machinery, tools, devices, safeguard, and protective facilities used in connection with logging operations, regardless of ownership. (6-30-19T)

08. Explosive. Any chemical compound or mechanical mixture commonly used that contains any oxidizing and combustible units, or other ingredients, in such proportions, quantities or packing that an ignition by fire, friction concussion, percussion, or detonator of any part of the compound or mixture may cause such a sudden generation of highly heated gases that the resultant gaseous pressures are capable of producing destructive effects on contiguous objects or destroying life or limb. (6-30-19T)

09. Exposed to Contact. Means the location of a hazardous object is so accessible that a workman may, in the course of his employment, come into contact with the object. (6-30-19T)

10. Fair Lead. A combination of a pair of sheaves or roller set transversely or vertically in a unit in front of another pair of sheaves to guide a line coming from any direction and leading it properly to a drum. (6-30-19T)

11. Gin Pole. A raised pole properly guyed and used to support lines and blocks. (6-30-19T)

12. Grapple. A device attached to a hoisting line for mechanically handling logs. (6-30-19T)

13. Guarded. Guarded means covered, shielded, or railed so as to remove the possibility of dangerous contact or approach by employees or objects. It further means construction of guards to ensure protection from flying objects where applicable. (6-30-19T)
14. **Gut Wrapper.** An intermediate binder for an individual tier of logs. (6-30-19)
15. **Guy Lines.** The lines used to stay or support spar trees, booms, etc. (6-30-19)
16. **Haul Back.** A small wire line traveling between the power skidder and a pulley set near the logs. Used to return the main cable with tongs, chokers, or hooks to the next log. (6-30-19)
17. **Hazard.** Hazard, as used in these standards, means any condition or circumstance that may cause accident or injury to an employee. (6-30-19)
18. **Heel Block.** The block heel of boom. (6-30-19)
19. **Heel Boom.** A type of loading boom where one end of the log is pulled up against the boom. (6-30-19)
20. **Hook Tender, Hooker.** The worker who supervises the method of moving the logs from the woods to the place of loading. (6-30-19)
21. **It is Recommended, or Should.** When these terms are used they indicate provisions that are not mandatory. (6-30-19)

**009. DEFINITIONS J THROUGH R.**
Terms used in these standards shall be interpreted in the most commonly accepted sense, excepting only those specifically defined. (6-30-19)
01. **Jaggers.** Any projecting broken strand of cable. (6-30-19)
02. **Jammer.** A machine used for handling logs. (6-30-19)
03. **Jill Poke.** A projecting object out of its normal position. (6-30-19)
04. **Knob.** A metal ferrule arranged to be attached to the end of a line, used in place of a spliced eye. (6-30-19)
05. **Landing, Rollway.** Any place where logs are placed, after being yarded, awaiting loading or unloading. (6-30-19)
06. **Lang Lay Rope.** A wire rope, in which the wires in the strands of the rope are laid in the same direction. (6-30-19)
07. **Leading Wires.** Those wires between the “connecting wires” or “leg wires” and a portable generating devise or an approved type blasting battery in series blasting. (6-30-19)
08. **Leaners.** A live or dead leaning tree. (6-30-19)
09. **Loading Boom.** Any structure projecting from a pivot point to guide a log when lifted. (6-30-19)
10. **Log or Logs.** When the word log or logs is used, it includes poles, piling, pulpwood, skids, etc. (6-30-19)
11. **Log Stacker.** A machine with lift forks used to handle logs. (6-30-19)
12. **Magazine.** Any building or other structure used exclusively for the storage of explosives. (6-30-19)
13. **Operation (Show Woods Layout).** Any place where logging is being done. (6-30-19)
14. Mainline. A cable which pulls logs or trees to loading. (6-30-19)T
15. Pan (Skidding Pan). A solid piece of metal placed behind a tractor on which one end of logs rest. (6-30-19)T
16. Peeling Bar or Spud. A tool for removing bark from trees or logs. (6-30-19)T
17. Pike, Pole. A long pole whose end is shod with a sharp pointed steel spike, point, or hook. (6-30-19)T
18. Portable Spar or Tower. An engineered structure designed to be used in a manner similar to which a wooden spar tree would be used. (6-30-19)T
19. Powder. Any explosive other than the detonating agent. (6-30-19)T
20. Primer. A cartridge of explosive with a detonator inserted there in. (6-30-19)T
21. Qualified Person. An individual who, by possession of a recognized degree, certificate or professional standing, or who by extensive knowledge, training and experience, has successfully demonstrated the ability to solve or resolve problems relating to the subject matter, the work, or the project. (6-30-19)T
22. Reach. An adjustable beam between a trailer and a motorized logging vehicle. (6-30-19)T
23. Receding Line. The line on a skidder or slack-line comparable to the haul back line on a yander. (6-30-19)T
24. Reload. Any area where logs are dumped and reloaded. (6-30-19)T
25. Running Line. Any line that moves. (6-30-19)T

010. DEFINITIONS S THROUGH Z.
Terms used in these standards shall be interpreted in the most commonly accepted sense, excepting only those specifically defined. (6-30-19)T

01. Safety Factor or Factor of Safety. This term as used is the ratio of the ultimate breaking strength of a member or piece of material to the actual working stress or to the maximum permissible (safe load) stress. For example: When a safety factor of six (6) is required, the structure, lines, hoists, or other equipment referred to shall be such as to provide a strength sufficient to support a load equal to six (6) times the total weight or stress to be imposed on it. (6-30-19)T

02. Sail Guy. A guy which holds the outer end of a boom. (6-30-19)T
03. Sail Block. A block hung inverted on the sail guy to hold the tong block in proper position. (6-30-19)T
04. Schoolmarm. A crotched tree consisting chiefly of two (2) trunks. (6-30-19)T
05. Shall, Will. Is compulsory or mandatory. (6-30-19)T
06. Skids. Any group of timbers spaced a short distance apart on which the logs are placed. (6-30-19)T
07. Side, Show, Chance. That unit of a logging operation, including men and equipment that is sufficient to fall, buck, and load a given area ready for transportation of the logs to the mill. (6-30-19)T
08. Side Winders. A piece of log, brush, or limb thrown up or sideways during skidding operation, or a tree knocked down by another tree in falling. (6-30-19)T
09. **Signalman, Whistle Punk.** The authorized worker who transfers signals from a given location to the operator.

10. **Skidding.** Movement of logs on the ground.

11. **Skyline.** The supporting line on various types of logging systems on which carriage, block, or bullet travels.

12. **Slack Line.** A form of skyline where skyline is spooled on drum and can be raised or lowered.

13. **Slack Puller.** Any device used to increase the movement of a line when its own weight is inadequate.

14. **Snags.** Any dead standing trees.

15. **Snubbing.** A method of retarding or controlling the movement of logs or machine by means of looping the line around a stationary object.

16. **Spring Board.** A board with an iron tip used by fallers to stand on when they must stand above the ground level.

17. **Standard Safeguard.** Means a device designed and constructed with the object of removing the hazard of an accident incidental to the machine, appliance, tool, building or equipment to which it is attached.

18. **Strap.** Any short piece of line with an eye or “D” in each end.

19. **Strawline.** A small line used for miscellaneous purposes.

20. **Strip.** A definite location of timber allocated to a cutting crew.

21. **Substantial.** Means constructed of such strength, of such material, and of such workmanship, that the object referred to will withstand normal wear, shock and usage.

22. **Sweeper.** Unexpected and controlled lateral movement of a log, tree, etc., during skidding operations.

23. **Swamp.** The falling or clearing of limbs and brush around or along a specific place.

24. **Tag Line.** A line used to control movement during loading, unloading, or skidding operations.

25. **Tail Hold.** Any anchor used for making fast any line.

26. **Tell Tale.** A devise used to serve as a warning for overhead hazards.

27. **Tight Line.** When power is exerted on both mainline and haul back at the same time.

28. **Tongs.** A hooking device used to lift or skid logs.

29. **Transfer.** Changing of a load of logs in a unit from one means of transportation to another.

30. **Tree Plates.** Steel protectors spiked around a tree to prevent the lines from cutting into the trees.
31. **Undercut.** A notch cut in the tree to guide and control the tree in falling. (6-30-19)

32. **Windfall.** A tree felled by the wind or other natural causes. (6-30-19)

33. **Widow Maker.** A loose limb, top, or piece of bark which may fall on a logger working beneath it. (6-30-19)

34. **Yarding.** Movement of logs or trees from the place they are felled (bucked) to a central loading or shipping point. (6-30-19)

**011. INTERPRETATION AND APPLICATION OF THESE RULES.**

**01. Scope.** These rules are part of the state of Idaho industrial accident prevention program and have the full force and effect of law. (6-30-19)

**02. Jurisdiction.** In accordance with the laws of the state of Idaho, every employer and every employee working in the state of Idaho shall comply with the rules contained herein. (6-30-19)

**03. Enforcement.** The enforcement of all rules of this chapter and the right of inspection and examination, at any time, shall rest with the Division. (6-30-19)

**04. Issues Not Covered.** Where specific standards in these rules fail to provide a rule or standard applicable to the operation in question, and other state of Idaho codes or standards are applicable, those codes or standards shall apply. (6-30-19)

**05. Interpretations.** Should any controversy develop as to the intent or application of any standard or rule as set forth in these rules, or the interpretation of any standard or rule set forth in these rules, such controversy shall be called to the direct attention of the Division, which shall render a decision as the applicability of such rule or standard. Any appeal from this decision shall be directed to the Administrator. (6-30-19)

**06. Additional Standards.** It is recognized that a definite, positive safety standard cannot anticipate all contingencies. The Division, after due notice and opportunity to be heard, may require additional standards and practices to insure adequate safety at any place of any employment, and, on its own motion or upon application of any employer, employee, group, or organization, may modify any provision of this rule. (6-30-19)

**07. Exceptions.** In exceptional cases where the rigid application or compliance with a requirement can only be accomplished to the detriment and serious disadvantage of an operation, method, or process, exception to the requirement will be considered upon written application to the Division. After thorough investigation, the Division may grant an exception if human life and physical well being will not be endangered by such exception. (6-30-19)

**08. Existing Buildings, Structures, and Equipment.** Nothing contained in this rule for logging safety shall prevent the use of existing buildings, structures, and equipment during their lifetime when maintained in good safe condition, and properly safeguarded, or require conformance with the applicable safety standards required by Idaho Safety Codes effective prior to the effective date of this rule, provided that replacements and alterations shall conform with all provisions of these rules. (6-30-19)

**012. EMPLOYER'S RESPONSIBILITY.**

**01. General Requirements.** (6-30-19)

a. Every employer subject to these rules shall furnish employment and maintain places of employment that are safe according to the standards as set forth herein. (6-30-19)

b. Every employer shall adopt and use practices, means, methods, operations and processes that are adequate to render such employment and place of employment safe. (6-30-19)
i. Employers shall place highly visible “LOGGING AHEAD” or similar-type warning signs at the entrances of active logging jobs. Employers shall also place “TRUCKS AHEAD,” “TRUCKS ENTERING,” “TREE FALLING,” and “CABLES OVERHEAD,” whenever applicable.

ii. Every employer shall furnish to its crew a Company Emergency Rescue Plan.

c. Every employer should insure that Safety Data Sheets (SDS) are reasonably accessible for every hazardous material.

d. Every employer shall post and maintain in a conspicuous place or places in and about his place or places of business a written notice stating the fact that he has complied with the worker’s compensation law as to securing the payment of compensation to his employees and their dependents in accordance with the provisions of Idaho law. Such notice shall contain the name and address of the surety, as applicable, with which the employer has secured payment of compensation. Such notice shall also be readily available on the site where logging operations are occurring, and available for inspection by Division officials upon request.

e. Every employer shall do all other things as required by these rules to protect the life and safety of employees.

f. No employer shall require any employee to go or be in any place of employment that does not meet the minimum safety requirement of these rules, except for the purpose of meeting such requirements.

g. No employer shall fail or neglect:

   i. To make available and use safety devices and safeguards as are indicated.

   ii. To adopt and use methods and processes adequate to render the employment and place of employment safe.

   iii. To do all other things as required by these rules to protect the life and safety of employees.

   iv. The use of intoxicants or drugs while on duty is prohibited. Persons reporting for duty while under the influence of or impaired by liquor or other legal or illegal drugs or substances shall not work until completely recovered.

j. A procedure for checking the welfare of all workers during working hours shall be instituted and all workmen so advised. The employer shall assume responsibility of work assignments so that no worker shall be required to work in a position or location so isolated or hazardous that he is not within visual or audible signal contact with another person who can render assistance in case of emergency. In any operation where cutting, yarding, loading, or a combination of these activities are carried on there shall be a minimum crew of two (2) persons who
shall work as a team, and shall be in visual or audible signal contact with one another. This does not apply to operators of motorized equipment, watchmen, or certain other jobs which, by their nature are singular workmen assignments. There shall be some method of checking-in men at the end of the shift. Each immediate supervisor shall be responsible for his crew being accounted for. This standard also includes operators of movable equipment.

k. Every employer shall keep a record of all cases of injuries his employees receive at their work. This record shall be kept in such manner as to enable representatives of the Division to determine by examining the record, the injury rate of the employee force for the period covered by the report.

l. Every employer shall investigate every accident resulting in a disabling injury that his employees suffer in connection with their employment. Employers shall promptly take any required action to correct the situation. Employees shall assist in the investigation by giving any information and facts they have concerning the accident.

02. Management Responsibility.

a. Management shall take an active and interested part in the development and guidance of the operation’s safety program, including fire safety.

b. Management shall apply a basic workable safety plan on the same priority as it does to any other work facet of the operation where elimination of all injuries is to be achieved in all phases of the operation. It is the duty of management to assume full and definite responsibility. To attain these safety objectives, management shall have the full cooperation of employers and the Division.

c. Every employer shall furnish employment which shall be safe for the employees therein and shall furnish such devices and safeguards and shall adopt and use such practices, means, methods, operation and processes as are adequate to render such employment and places of employment safe to protect the life and safety of employees.

The employer shall make available necessary personal protective safety equipment.

d. Regular safety inspection of all rigging, logging, machinery, rolling stock, bridges, and other equipment shall be made as often as the character of the equipment requires. Defective equipment or unsafe conditions found shall be replaced, repaired or remedied.

e. All places of employment shall be inspected by a qualified person or persons as often as the type of operation or the character of the equipment requires. Defective equipment or unsafe conditions found by these inspections shall be replaced or repaired or remedied promptly.

013. EMPLOYEE’S RESPONSIBILITY.

01. General Requirements.

a. Employees shall not indulge in horseplay, scuffling, practical jokes or any activity that creates or constitutes a hazard while on the employer’s property or at any time when being transported from or to work in facilities furnished by the employer.

b. Employees who are assigned to, or engaged in the operation of any machinery or equipment, shall ensure that all guards, hoods, safety devices, etc., that are provided by the employer are in proper place and properly adjusted.

02. Employee Accidents. Each employee shall make it his individual responsibility to keep himself, his coworkers, and his machine or equipment free from accidents to the best of his ability.

03. Study Requirements. So that each worker may be better qualified to cooperate with his fellow workmen in preventing accidents, he shall study and observe these and any other safety standards governing his work.
04. **Employee Responsibilities.** Additional responsibilities of an employee insofar as industrial safety is concerned shall be as follows: (6-30-19)

a. The employee shall report immediately, preferably in writing, to his foreman or safety committee member in his department of the plant, all known unsafe conditions and practices. (6-30-19)

b. The employee shall ascertain from the foreman where medical help may be obtained if it is needed. (6-30-19)

c. The employee shall not participate in practical jokes or horseplay. (6-30-19)

d. The employee shall make a prompt report of every accident regardless of severity to the foreman, first aid attendant, or person in charge. Such reports are required and are necessary in order that there may be a record of his injuries. (6-30-19)

e. The employee shall at all times apply the principles of accident prevention in his daily work and shall use proper safety devices and protective equipment. No employee shall remove, displace, damage, destroy, or carry off any safety device or safeguard furnished and provided for use in any employment, or interfere in any way with the use thereof by any other person, or interfere with the use of any method or process adopted for the protection of any employee in such employment, or fail or neglect to do every other thing reasonably necessary to protect the life and safety of himself and fellow employees, and by observing safe practice rules shall set a good example for his fellow workmen. (6-30-19)

f. The employee shall not report to the job impaired by intoxicants or legal or illegal drugs and shall not use intoxicants or such drugs while on the job. The employer shall prohibit any employee from working on or being in the vicinity of any job while under the influence of or impaired by intoxicants or drugs. Employers shall be responsible for the actions of any employee known to be in an intoxicated or impaired condition while on the job. (6-30-19)

g. The employee shall wear, use and properly care for personal protective safety equipment issued to him. These items shall be returned to the employer upon termination of employment. (6-30-19)

h. Workers exposed to head hazards shall wear approved head protection. (6-30-19)

i. Proper eye protection shall be worn while performing work where a known eye hazard exists. (6-30-19)

j. The employee should consider the benefits of accident prevention to himself and to his job. (6-30-19)

k. The employee should make an effort to understand his job. (6-30-19)

l. The employee should anticipate every way in which a person might be injured on the job, and conduct the work to avoid accidents. (6-30-19)

m. The employee should be on the alert constantly for any unsafe condition or practice. (6-30-19)

n. The employee shall learn first aid. (6-30-19)

o. The employee should keep physically fit, and obtain sufficient rest. (6-30-19)

p. The employee should be certain that all instructions received are understood completely before starting the work. (6-30-19)

q. The employee should actively participate in safety programs. (6-30-19)

r. The employee should study the safety educational material posted on the bulletin boards and
distributed by the employer or safety committee. (6-30-19)

t. The employee should advise inexperienced fellow-employees of safe ways to perform their work and warn them of dangers to be guarded against. (6-30-19)

t. It is the employer’s responsibility to ensure compliance with the foregoing provisions. (6-30-19)

014. --050. (RESERVED)

Subchapter B - Health, Safety, and Sanitation
(Rules 051 through 100)

051. FIRST AID.

01. Transportation. (6-30-19)

a. Suitable means of transportation shall be established and maintained at the site of all operations to be used in the event any employee is seriously injured. (6-30-19)

b. Transportation shall be of a nature to render reasonable comfort to an injured employee. (6-30-19)

c. Each crew bus, or similar vehicle, shall be equipped with at least one (1) first aid kit with the required contents as indicated in Subsection 010.06 of these rules. (6-30-19)

02. Communication. (6-30-19)

a. Every employer shall arrange suitable telephone or radio communication at the nearest reasonable point, and shall establish an emergency action plan to be taken in the event of serious injury to any employee. (6-30-19)

b. Instructions covering the emergency action plan shall be made available to all work crews. (6-30-19)

c. When practicable, a poster shall be displayed on, or near the cover of each first aid cabinet or phone. The poster shall display the phone numbers of applicable emergency services. The use of the Idaho State EMS Communication Center is recommended. The number is 1-800-632-8000 or 208-846-7610. (6-30-19)

d. Every employer shall obtain their specific job location (longitude and latitude preferred) and furnish such to crew for emergency evacuation. (6-30-19)

03. Attendance for Seriously Injured. (6-30-19)

a. Seriously injured employees shall, at all times, be attended by the most qualified available person to care for the injured employees. (6-30-19)

b. Seriously injured employees shall be carefully handled and removed to a hospital, or given medical attention as soon as possible. (6-30-19)

c. Caution shall be used in removing a helpless or unconscious person from the scene of an accident to prevent further injury. (6-30-19)

04. First Aid Training. All woods workers shall be required to complete an approved course in first-aid and have a current card. (6-30-19)

05. Stretcher or Spine Board. A spine board (designed for or adaptable to the work location and terrain) and two blankets maintained in sanitary and serviceable condition shall be available where such conditions require the use of such to provide for the proper transportation and first aid to an injured workman. (6-30-19)
06. First Aid Kits. (6-30-19)

a. The employer shall provide first aid kits at each work site where trees are being felled, at each active landing, and in each employee transport vehicle. (6-30-19)

b. The following list sets forth the minimally acceptable number and type of first-aid supplies for required first-aid kits. The contents of the first-aid kits shall be adequate for small work sites, consisting of approximately two (2) to three (3) employees. When larger operations or multiple operations are being conducted at the same location, additional first-aid kits shall be provided at the work site or additional quantities of supplies shall be included in the first-aid kits:

(6-30-19)

c. Special kits, or the equivalent, shall be provided and approved for special hazards peculiar to any given work location. (6-30-19)

d. All kits, as applicable, shall be readily available and kept supplied. (6-30-19)

e. First aid kits shall be in metal, or other sanitary containers. Such containers shall be designed and constructed so as to be impervious to conditions of weather, dust, dirt, or other foreign matter. (6-30-19)

052. SAFETY EQUIPMENT AND PERSONAL PROTECTIVE EQUIPMENT.

01. General Requirements. (6-30-19)

a. Special protective equipment or apparel required for safe employment, other than clothing or equipment customarily supplied by employees, shall be furnished by the employer where necessary for the safety of employees. (6-30-19)
b. Employees are required to utilize all prescribed safety equipment and special protective equipment or apparel, and they shall exercise due care in maintaining it in safe, efficient and sanitary conditions. (6-30-19)

c. Defective safety equipment shall not be used. Where the need for their use is indicated, protective covering, ointments, gloves or other effective protection shall be provided for and used by persons exposed to materials that are irritating to the skin. (6-30-19)

02. Inspection, Maintenance and Sanitizing. (6-30-19)

a. Each employer shall maintain a regular system of inspection and maintenance of personal protective equipment furnished to workers. (6-30-19)

b. Air line equipment shall have a necessary regulator and shall be inspected before each use. (6-30-19)

c. Workers shall check their equipment at the beginning of each shift. (6-30-19)

03. Eye Protection. (6-30-19)

a. Where workers are subject to eye hazards (flying particles, dusts, hazardous liquids, gases, mists or vapors, or injurious light rays) they shall be furnished with and shall wear eye protection suitable for the hazards involved. Such eye protection shall conform to the American National Standard Institute standards for Head, Eyes and Respiratory protection. (6-30-19)

b. Face shields may be used in lieu of other forms of eye protection where the nature of the operation is such that they will furnish equivalent protection. (6-30-19)

c. Clean water in ample quantities shall be immediately available where materials are handled that are caustic or corrosive to the eyes. (6-30-19)

04. Foot and Leg Protection. (6-30-19)

a. Employees shall wear footwear suitable for the work conditions. (6-30-19)

b. Employees shall wear sharp caulk-soled boots or other footwear which will afford maximum protection from slipping. (6-30-19)

c. Special types or designs of shoes, or foot guards, shall be required to be worn where conditions exist that make their use necessary for the safety of the workers. (6-30-19)

d. Leggings or high boots of leather, rubber or other suitable material shall be worn by climbers, persons exposed to hot substances, or caustic solutions, etc., or where poisonous snakes may be encountered. (6-30-19)

e. Employees whose duties require them to operate a chain saw shall wear ballistic nylon or equivalent protection covering each leg from upper thigh to boot top, except when working as a climber or working from a bucket truck. (6-30-19)

05. Hand Protection. (6-30-19)

a. Hand protection suitable for the required usage shall be worn wherever the nature of the work requires extra protection for the hands. (6-30-19)

b. Gloves shall not be worn where their use would create a hazard. (6-30-19)

06. Head Protection. (6-30-19)
a. Persons required to work where falling or flying objects, overhead structures, exposed electrical conductors, equipment or material create a hazard shall wear approved safety hard hats or caps at all times while exposed to such hazards. (6-30-19)

b. Employees working in locations which present a catching or fire hazard to hair shall wear caps or other head protection that completely covers the hair. (6-30-19)

07. Life Jackets, Vests and Life Rings
Where personal buoyancy equipment is provided, it shall be of a design and shall be worn in a manner that will maintain the wearer’s face above water. It shall be capable of floating a sixteen (16) pound weight for three (3) hours in fresh water. Such equipment shall not be dependent upon manual or mechanical manipulation or chemical action to secure the buoyant effect. (6-30-19)

a. Employees shall be provided with, and shall wear, approved buoyant protective equipment at all times while working on or over water, as follows: (6-30-19)

i. On floating pontoons, rafts and floating stages. (6-30-19)

ii. On open decks of floating plants (such as dredges, pile-drivers, cranes, pond saws, and similar types of equipment) which are not equipped with bulwarks, guardrails or life lines. (6-30-19)

iii. During the construction, alteration or repair of structures extending over or adjacent to water, except when guardrails, safety nets, or safety belts and life lines are provided and used. (6-30-19)

iv. Working alone at night where there are potential drowning hazards regardless of other safeguards provided. (6-30-19)

v. On floating logs, boom sticks or unguarded walkways. (6-30-19)

b. Life rings with sufficient line attached to meet conditions shall be located at convenient points along exposed sides of work areas adjacent to water. Such rings, if used at night where a person might be beyond illuminated areas, shall be provided with a means of rendering them visible. (6-30-19)

NOTE: Consult U.S. Coast Guard requirements for operations in navigable waters. (6-30-19)

08. Life Lines -- Safety Belts

a. Each life line and safety belt shall be of sufficient strength to support, without breaking, a weight of two thousand five hundred (2,500) pounds. (6-30-19)

b. All life lines and safety belts shall be periodically inspected by the supervisor in charge. Employees shall inspect their belts and lines daily. Any defective belts or life lines shall be discarded or repaired before use. (6-30-19)

c. Life lines shall be safely secured to strong stable supports and maintained with minimum slack. (6-30-19)

09. Work Clothing

a. Clothing shall be worn which is appropriate to work performed and conditions encountered. (6-30-19)

b. Loose sleeves, cuffs or other loose or ragged clothing shall not be worn near moving machinery. (6-30-19)

c. Clothing saturated or impregnated with flammable liquids, corrosive substances, irritants or oxidizing agents shall be removed immediately and not worn again until properly cleaned. (6-30-19)
10. Respiratory Equipment.

a. When filter or cartridge-type respirators are required to be used regularly, each employee shall have one such respirator for his own exclusive use.

b. Employers and employees shall familiarize themselves with the use, sanitary care and limitations of such respiratory equipment as they may have occasion to use.

c. Whenever practical, harmful dusts, fumes, mists, vapors and gases shall be suppressed by water, oil or other means which will minimize harmful exposure and permit employees to work without the use of respiratory equipment.

d. Whenever compressed air from an oil-lubricated compressor is used to supply respiratory equipment, a filter shall be inserted in the supply line to remove any oil, sediment or condensation that it may contain. Such filter shall be maintained in efficient working condition.

e. When self-contained respiratory equipment is used in hazardous locations, a standby unit shall be maintained for rescue purposes.

11. Hearing Protection. Where workers are subject to hazardous noise levels, they shall be furnished with and shall wear hearing protection suitable for the level of hazard involved.

12. Additional Information and Requirements. Additional information and requirements for the use of safety equipment and personal protective equipment may be found in the Safety and Health Standards established in IDAPA 07.09.01, “Safety and Health Rules for Places of Public Employment.”

053. FIRE PREVENTION, PROTECTION AND SUPPRESSION.

01. General Requirements.

a. Additional Standards pertinent to the storage, distribution, and use of liquefied petroleum gases and other flammables or combustibles may be obtained by reference to regulations of the Idaho State Fire Marshal and the National Fire Protective Association pamphlets.

b. Fire fighting equipment, suitable for the hazards involved, shall be provided for the protection of workmen. Such equipment shall be readily accessible, and shall be plainly labeled as to its character and method of operation. Locations of such equipment shall be conspicuously posted.

c. All equipment and apparatus for fire protection and fire fighting shall be regularly inspected and be maintained in good and serviceable condition at all times. A record of the date of the latest inspection shall be kept with each portable fire extinguisher. This includes all automatic sprinkler systems and hose lines.

d. Fire extinguishers, whether portable or automatic, shall comply with appropriate current standards as published by the National Fire Protection Association. Portable fire extinguishers shall also be subject to an annual maintenance inspection by the Division. They must also be visually inspected by the employer each month, and such inspections documented.

e. Electrical lights, apparatus, and wiring used in locations where flammable or explosive gases, vapors, mists, or dusts are present shall be of the type accepted by the adopted Electrical Code for the State of Idaho.
f. Smoking while refueling equipment is prohibited. (6-30-19)

g. All fuel storage tanks, service tanks, etc., shall be bonded for ground for fueling purposes. (6-30-19)

h. When lights are used in enclosed rooms, vaults, manholes, tanks or other containers which may contain flammable or explosive vapors, mists, gases, or dusts, such lights shall be of the approved vapor proof types. (6-30-19)

i. No torch, flame, arc, spark, or other source of ignition shall be applied to any tank or container that has contained or does contain flammable or explosive vapors or materials until such container has been made to be inert or otherwise purged of flammable or explosive vapors or materials, except that “hot tapping” on tanks may be done provided that:

   i. There shall be at least four (4) feet of liquid above the point of the “hot tap”; and (6-30-19)

   ii. The work shall be carried out under the direction of a supervisor experienced in this type of work. (6-30-19)

NOTE: A test for flammability or explosiveness of the interior of such vessels shall be made using a device which will determine the concentration of flammable vapors for this purpose. Unless the percentage of flammable vapors is found to be less than twenty percent (20%) of its lower explosive limit, no source of ignition shall be permitted. (6-30-19)

j. Frequent testing for determining the concentration of flammable and explosive vapors shall be made, and if the concentration is found to exceed twenty percent (20%) of its lower explosive limit, sources of ignition shall be extinguished or removed immediately. Fire extinguishing equipment adequate to cope with possible hazards shall be maintained close at hand. (6-30-19)

k. Smoking, the use of open flames, tools which are not approved for such areas, and other sources of ignition are prohibited in locations where flammable or explosive gases, vapors, mists, or dusts are present. Warning signs shall be conspicuously posted in such areas. (6-30-19)

l. Where salamanders and other fuel-burning heating devices are used, they shall be provided with adequate means for preventing the emission of sparks or other sources of ignition. Such devices shall be insulated or placed a sufficient distance from combustible structures and materials to prevent causing fires. Adequate ventilation shall be provided. (6-30-19)

m. When welding or cutting is done special precautionary measures shall be exercised before, during and after the job is finished to eliminate any possibility of immediate or delayed fires. (6-30-19)

02. Flammable Liquids. (6-30-19)

a. For the purpose of this section, “Flammable Liquids” shall mean any liquid having a flash point below one hundred forty (140) degrees Fahrenheit and having a vapor pressure not exceeding forty (40) pounds per square inch (absolute) at one hundred (100) degrees Fahrenheit. (6-30-19)

b. All flammable liquids shall be stored in approved containers suitable for their particular contents, and such approved containers shall be stored in areas removed from any direct source of ignition. (6-30-19)

c. Flammable liquids shall be kept in approved covered containers when not in actual use. (6-30-19)

d. The name of the flammable liquid contained therein shall be placed on all stock containers, and whenever such liquids are taken from the stock containers and put into other approved containers for use, it shall be the responsibility of the employer to ensure that these containers (except small containers of flammable liquids which are scheduled for immediate use and disposal) also bear the name of the flammable liquid contained therein. (6-30-19)
e. Flammable liquids shall not be used indoors to clean or wash floors, walls, any part of a building structure, furniture, equipment, machines or machine parts, unless sufficient ventilation is provided to bring and maintain the concentration of explosive vapors in the atmosphere below twenty percent (20%) of its lower explosive limit.

NOTE: The use of flammable liquids may create toxic contaminants in the atmosphere above permissible threshold limit values. (6-30-19)

03. Transferring Flammable Liquids and Powdered Materials. In transferring flammable liquids or finely divided flammable or explosive materials from one metal container to another, the containers shall be in firm contact with each other or be continuously bonded throughout the transfer so as to prevent the accumulation of static charges. Where portable tanks, mixers, or processing vessels are used for flammable liquids or flammable or explosive compounds, they shall be bonded and grounded while being filled or emptied. (6-30-19)

04. Transportation of Flammable Liquids. (6-30-19)
   a. When transporting gasoline or other flammable liquids, approved containers shall be used. (6-30-19)
   b. If tank truck service is not available or used, gasoline and other flammable liquids shall be transported in approved containers. Bungs shall be tight and containers shall be secured to prevent movement. (6-30-19)
   c. It may be permissible to transport gasoline or other flammable liquids on passenger vehicles if in approved, closed safety containers of not more than six and one-half (6 1/2) gallon capacity, provided such containers are carried in a suitable and safe location outside the passenger compartment. (6-30-19)

054. DESIGNATED LOGGING CAMPS. A camp used in a logging operation shall comply with the following requirements: (6-30-19)

01. Trees and Snags. Trees and snags that may constitute a hazard to persons in the camp area shall be felled. (6-30-19)

02. Sanitation. The Idaho Department of Environmental Quality rules for sanitation must be observed as to water, toilets, washrooms, refuse, etc. (6-30-19)

055. -- 100. (RESERVED)

Subchapter C - Garages, Machine Shops, and Related Work Areas (Rules 101 through 150)

101. GARAGES AND MACHINE SHOPS AND RELATED AREAS. (6-30-19)

01. General Requirements. (6-30-19)
   a. Machine shops and other structures where workers are employed shall be constructed, ventilated, lighted and maintained in a safe working condition. (6-30-19)
   b. Engines, pulleys, belts, gears, sprockets, collars and other moving parts of machinery shall be properly guarded. (6-30-19)
   c. Grinding wheels shall have proper and adequate eye guards or hoods. Face shields shall be worn by employees while grinding. (6-30-19)
   d. Machines shall be in good repair and good housekeeping shall be maintained. (6-30-19)
   e. Proper goggles or hoods shall be made available and used in grinding and cutting, acetylene welding, electric arc and other types of welding. (6-30-19)
Tools shall be kept in good condition and care shall be taken in the handling and storing of all tools and materials so as to minimize chances for injury. (6-30-19)

An approved screen shall be provided, and used, to protect other workers from welding flashes. (6-30-19)

102. -- 150. (RESERVED)

Subchapter D - Signals and Signal Systems
(Rules 151 through 200)

151. GENERAL REQUIREMENTS.

01. Rigging. (6-30-19)
   a. Rigging shall be moved by established signals and procedures only. (6-30-19)
   b. Signals shall be thoroughly understood by the crew. (6-30-19)

02. Daily Test Required. Each electric or radio signal system shall be tested daily before operations begin. (6-30-19)

03. Personnel in Clear Before Moving Logs or Turns. (6-30-19)
   a. Operators of yarding equipment shall not move logs or turns until all personnel are in the clear and a signal has been given. (6-30-19)
   b. Operators of yarding equipment shall be alert to signals at all times. (6-30-19)

152. SIGNALING.

01. One Worker to Give Signals. (6-30-19)
   a. The Worker sending drag shall be the only one to give signals. (6-30-19)
   b. Any person is authorized to give a stop signal when a worker is in danger or other emergency conditions are apparent. (6-30-19)

02. Signal Must Be Clear and Distinct. (6-30-19)
   a. Machine operators shall not move any line unless the signal received is clear and distinct. (6-30-19)
   b. If in doubt the operator shall repeat the signal as understood and wait for confirmation. (6-30-19)

03. Hand Signal Use Restricted. (6-30-19)
   a. Hand signals are permitted only when in plain sight of the operator. (6-30-19)
   b. Hand signals may be used at any time as an emergency stop signal. (6-30-19)

04. Persons in Clear Before Signal Given. All persons shall be in the clear before a signal is given to move logs or turns. (6-30-19)

05. Throwing Material Prohibited. Throwing of any type of material as a signal is prohibited. (6-30-19)
06. Use of Jerk Wire Prohibited. The use of a jerk wire whistle system for any type of yarding operations is prohibited. (6-30-19)

07. Audible Signaling to Be Installed and Used. A whistle, horn or other audible signaling device, clearly audible to all persons in the affected area, shall be installed and used on all machines operating as yarders. (6-30-19)

08. Audible Signaling Device at the Machine to Be Activated. When radio or other means of signal transmission is used, an audible signal must be activated at the machine. (6-30-19)

153. ELECTRIC SIGNAL SYSTEMS.

01. Weatherproof Wire and Attachments to Be Used. Where an electrical signal system is used, all wire and attachments shall be of the weather proof type. (6-30-19)

02. Electric Signal Systems to Be Properly Installed and Adjusted. Electric signal systems shall be properly installed and adjusted as necessary. They shall be protected against accidental signaling, and shall be maintained in good operating condition at all times. (6-30-19)

03. All Connections to Be Weatherproof. All connections in insulated signal wire shall be weatherproof. (6-30-19)

154. RADIO SIGNALING SYSTEMS.

01. Use of Conventional Space Transmission of Radio Signals. When conventional space transmission of radio signals is used under and in accordance with an authorization granted by the Federal Communications Commissions to initiate any whistle, horn, bell or other audible signaling device, or such transmission of radio signals is used to activate or control any equipment, the following specific rules contained in this section will apply.

NOTE: This rule shall apply only to devices operating on radio frequencies authorized pursuant to the rules and regulations of the Federal Communications Commission. (6-30-19)

02. Description on Outside of Case.

a. Each radio transmitter and receiver shall have its tone frequency(s) in hertz (CPS), the manufacturer’s serial number, and the assigned radio frequency clearly and permanently indicated on the outside of the case. (6-30-19)

b. When the duration of a tone frequency performs a function, the pulse-tone duration shall also be permanently indicated on the outside of the case. (6-30-19)

c. On the FCC restricted frequencies one hundred fifty-four point fifty-seven (154.57) MHZ and one hundred fifty-four point sixty (154.60) MHZ, a maximum of two (2) watts of power will be allowed. (6-30-19)

03. Activating Pulse-Tone Limitations. The activating pulse-tone of any multi-tone transmitter shall be of not more than forty (40) milliseconds duration. (6-30-19)

04. Adjustment, Repair or Alteration. All adjustments, repairs or alterations of radio-signaling devices shall be done only by or under the immediate supervision and responsibility of a person holding a first or second class commercial radio operator’s license, either radio-telephone or radio-telegraph, issued by the Federal Communications Commission. (6-30-19)

05. Testing of Tone-Signal Controlled Devices.

a. Tone-signal controlled devices shall be tested each day before work begins. If any part of the...
equipment fails to function properly, the system shall not be used until the source of trouble is detected and corrected.

b. Audible signals used for test purposes shall not include signals used for movement of lines or material.

NOTE: Equipment or machines controlled by radio-signaling devices shall be designed and built to “fail safe” or stop, in case of failure of the radio-signaling device.

06. Interference, Overlap, Fade-Out or Blackout. When interference, overlap, fade-out or blackout of radio signals is encountered, the use of the tone-signal controlled device shall be immediately discontinued. The use of such tone-signal controlled device shall not be resumed until the source of trouble has been detected and corrected.

07. Number of Transmitters Required.

a. Two (2) radio transmitters shall be in the vicinity of the rigging crew at all times when transmitters are being used by persons who are around the live rigging.

b. Only one (1) radio transmitter shall be required, if in possession of a signalman who has no other duties and remains in an area where he is not subjected to hazards created by moving logs or rigging.

08. Voice Communication.

a. Voice Communication shall be used for explanation purposes only.

b. Actual activation of equipment shall be done by audible horn, bell or whistle and not by voice.

c. The signal must be audible throughout the entire yarding and machine area.

155. -- 200. (RESERVED)

Subchapter E - Truck Road Standards
(Rules 201 through 250)

201. TRUCK ROAD STANDARDS.

01. Building Roads.

a. When building roads, all construction shall be carried on in accordance with good logging engineering practices and shall be constructed and maintained in a manner to insure reasonably safe operation.

b. The due consideration shall be given to the following factors:

i. The type of material used for roadbed and surfacing.

ii. The type of hauling equipment which will travel road.

iii. The size of loads to be hauled.

iv. The pitch and length of grades.

v. The degree of curvature and visibility on turns.

vi. The volume of traffic.
c. Truck roads shall not be too steep for safe operation of logging, or work trucks which operate over them, and should not exceed twenty percent (20%) grade unless an auxiliary means of truck lowering is provided. 
(6-30-19)

d. Sufficient turnouts shall be provided and a safe side clearance maintained along all truck roads.
(6-30-19)

e. Brush and other materials that obstruct the view at intersections or on sharp curves shall be eliminated and all possible precautions taken.
(6-30-19)

f. Culverts and bridge structures shall be adequate to support the maximum imposed loads without exceeding the maximum safe working unit stresses. Such structures shall be maintained in good condition and shall be inspected annually by a qualified individual.
(6-30-19)

g. Dangerous trees, snags and brush, which may create a hazard shall be cleared a safe distance on both sides of the right-of-way.
(6-30-19)

02. Main Truck Roads.

a. Main truck roads shall be of sufficient width and evenness to insure the safe operation of equipment.
(6-30-19)

b. Truck roads with blind curves where visibility is less than three hundred (300) feet shall be of sufficient width for two (2) trucks to pass, controlled by some type of signal system, or speed shall be limited to fifteen (15) miles per hour.
(6-30-19)

c. Conditions such as broken planking, deep holes, large rocks, logs, etc., which prevent the safe operation of equipment shall be immediately corrected.
(6-30-19)

d. Wheel guard rails on bridges shall be not less than eight (8) inches above deck and shall be substantially fastened to withstand impact of shearing wheels. Such guard rails shall extend the full length of the bridge.
(6-30-19)

03. Operation of Equipment. Excavators, tractors, bulldozers, and other equipment shall be operated in a safe and careful manner. All precautions shall be taken to insure the safety of all employees.
(6-30-19)

202. -- 250. (RESERVED)

Subchapter F - Transportation of Employees
(Rules 251 through 300)

251. TRANSPORTATION OF EMPLOYEES.

01. General Requirements.

a. Anchored seats and seat belts shall be provided for each person riding in any vehicle.
(6-30-19)

b. Vehicles used for the transportation of employees shall be constructed or accommodated for that purpose, and shall be equipped with adequate seats with back rests properly secured in place. Vehicles shall be protected on their sides and ends to prevent falling from the vehicle.
(6-30-19)

c. Vehicles, as described above, shall be equipped with adequate steps, stirrups, or other similar devices, so placed and arranged that the employees can safely mount or dismount the vehicle.
(6-30-19)

d. Vehicles designed to transport nine (9) or more passengers, shall be equipped with an emergency exit not less than six and one-half (6 1/2) feet in area, with the smaller dimension being not less than eighteen (18)
inches. Such exit shall be placed at or near the back of the vehicle on the side opposite the regular entrance. The route
to and egress from the exit must be unobstructed. (6-30-19)

e. Every emergency exit shall be conspicuously marked “Emergency Exit,” and be so fastened that it
can be readily opened by a passenger in the case of emergency. (6-30-19)

f. Emergency doors shall be not less than twenty-four (24) inches in width. (6-30-19)

g. Every vehicle used for the transportation of employees shall be equipped with an Underwriters
Laboratories, Inc. approved fire extinguisher, or its equivalent, with at least a four (4) BC rating. (6-30-19)

h. All drivers of vehicles used for the transportation of employees shall have an appropriate operator’s
license for the state of Idaho. (6-30-19)

i. Drivers shall inspect vehicles before operating them. If a vehicle is found to be unsafe, it shall be
reported to a proper authority and shall not be operated until it has been made safe. (6-30-19)

j. Brakes, steering mechanism and lights shall be tested immediately before starting any trip. (6-30-19)

k. No flammable materials, or toxic substances shall be transported in passenger compartments of
vehicles while carrying personnel. (6-30-19)

l. Transporting more individuals than the seating capacity of the vehicle is permitted only under
emergency conditions. Should it become necessary in an emergency, all employees not having seats must ride within
the vehicle. (6-30-19)

m. Under no circumstances shall employees ride on fenders or running boards. (6-30-19)

n. An employee must never ride in, or on, any vehicle with his legs hanging over the end or sides. (6-30-19)

o. If tools are transported at the same time that employees are being transported, the tools shall be
enclosed in boxes or racks and properly secured to the vehicle. (6-30-19)

p. No one shall board, or leave, moving equipment except in the case of an emergency (except
trainmen or others whose duties require such). (6-30-19)

q. Equipment shall be operated in a safe manner and in compliance with traffic regulations. Safe
speeds shall be maintained at all times. (6-30-19)

r. No explosives shall be transported on, or in, vehicles used primarily for carrying personnel while
such vehicles are being used for carrying personnel. (6-30-19)

s. The driver shall do everything reasonably possible to keep vehicles under control at all times, and
shall not operate vehicles at excessive speeds. The driver shall take into consideration the condition of the roadway,
weather factors, curves, grades and grade crossings, the mechanical condition of the vehicle and equipment and other
pertinent items. The driver shall clear rocks from between dual tires before driving on multi-lane roads. A daily
inspection shall be made of trucks and trailers with particular attention to steering apparatus, brakes, boosters, brake
hoses and connections, reaches and couplings. Any defects found shall be corrected before the equipment is used. (6-30-19)

252. --300. (RESERVED)

Subchapter G - Falling and Bucking
(Rules 301 through 350)
FALLING AND BUCKING.

01. General Requirements. (6-30-19)

a. There shall be an established method of checking-in workers from the woods. Each supervisor shall be responsible for their crew being accounted for at the end of each shift. (6-30-19)

b. Cutters not in sight of another employee shall have radio communications with crew members on that job site. (6-30-19)

c. Common sense and good judgment must govern the safety of cutters as affected by weather conditions. At no time shall they work if wind is strong enough to prevent the falling of trees in the desired direction, or when vision is impaired by weather conditions or darkness. (6-30-19)

d. All cutters shall have a current first aid certification. Employers shall provide an opportunity for cutters to take a standard first aid course. (6-30-19)

e. Tools of cutters such as axes, sledges, wedges, saws, etc., must be maintained in safe condition. Battered sledges, and wedges shall not be used. When power saws are used, wedges shall be made of soft material, such as wood or plastic. (6-30-19)

f. Cutters shall not be placed on hillsides immediately below each other or below other operations where there is possible danger. (6-30-19)

g. Trees shall not be felled if a falling tree endangers any worker, line, or any unit in operation. (6-30-19)

h. Before starting to fall or buck any tree or snag, the cutter must survey the area for possible hazards and proceed according to safe practices. Snags, which are unsafe to cut, shall be blown down with explosives, or felled by other methods. (6-30-19)

i. Dangerous or hazardous snags shall be felled prior to or in the course of cutting a strip. No danger tree shall be felled by one (1) cutter where and when the assistance of a fellow employee is necessary to minimize the danger or hazards involved. In the case that any danger tree or snag cannot be safely felled and must remain standing or unattended, such tree or snag shall be clearly identified and suitably marked, including all surrounding impact area, and the employee's supervisor shall be notified as soon as possible. (6-30-19)

j. In falling timber, adjacent brush and snow shall be cleared away from and around the tree to be felled to provide sufficient room to use saws and axes and provide an adequate escape path. (6-30-19)

k. Cutters shall not fall into another strip; leaners on the line shall be traded. Trees shall be felled into the open whenever conditions permit. (6-30-19)

l. Undercuts and side cuts shall be large enough to safely guide the trees and eliminate the possibility of splitting and barber chairing. Particular care shall be taken to hold enough wood to prevent the tree from prematurely slipping or twisting from the stump. Undercuts shall be cleaned out to the full depth of the saw cut. Especially large undercuts are necessary in heavy leaners. When required to safely fell a tree, mechanical or other means shall be employed to accomplish this objective. Pre-cutting of trees for the purpose of production logging is prohibited.

NOTE: Trees with no perceptible lean having an undercut to a depth of one quarter (1/4) of the diameter of the tree with an undercut height equal to one fifth (1/5) of the diameter of the tree will be assumed to be in reasonable compliance with this rule. (6-30-19)

m. Back-cuts shall be above the level of the upper horizontal cut of the undercut. (6-30-19)

n. While wedging, fallers shall watch for limbs or other material which might be jarred loose. Cutting
of holding wood in lieu of using wedges is prohibited. (6-30-19)

**o.** When falling or bucking a tree is completed the power saw motor should be stopped. The power saw motor shall be stopped while the operator is traveling to the next tree. (6-30-19)

**p.** Cutters shall not work on the downhill side of the log being bucked unless absolutely unavoidable and only when the log is blocked or otherwise secured to prevent rolling when cut is completed. (6-30-19)

**q.** Cutters must give timely warning to all persons within range of any log which may have a tendency to roll or slide after being cut off. (6-30-19)

**r.** Logs shall be completely bucked-through whenever possible. If it becomes hazardous to complete a cut, then the log shall be marked and identified by a predetermined method. Rigging crews shall be instructed to recognize such marks and when possible cutters shall warn rigging crew of locations where such unfinished cuts remain. (6-30-19)

**s.** A competent person properly experienced in this type of work shall be placed in charge of falling and bucking operations. Inexperienced workers shall not be allowed to fall timber or buck logs unless under the direction of experienced workers. (6-30-19)

**t.** Power saws shall be kept in good repair at all times. All exhaust parts on power chain saws shall be constructed and maintained so the operator is exposed to a minimum amount of fumes and noise. (6-30-19)

**u.** Combustion engine driven power saws shall be equipped with an automatic throttle which will return the motor to idling speed upon release of the throttle. (6-30-19)

**v.** Power saw motors shall be stopped while being fueled. (6-30-19)

**w.** All personnel shall wear approved head protection, proper clothing and footwear. (6-30-19)

**x.** Employees, whose normal duties require them to operate a chain saw, shall wear ballistic nylon or equivalent protection covering each leg from upper thigh to boot top except when working as a climber or working from a bucket truck. (6-30-19)

302. **ILLUSTRATION OF UNDERCUTS.**

**01.** Illustration of Undercuts. (6-30-19)
a. Conventional Undercut. May be made with parallel saw cut and a diagonal cut. Backcut (D) shall be above undercut.
b. Humbolt Undercut. A cut in which both cuts made with the saw leaves a square end log (See Figure 011.01-B). The cut is the same as a conventional cut (See Figure 011.01-A) except that waste is on the stump. Backcut (D) shall be above undercut.
c. Open Face Undercut. A cut in which two (2) angle cuts are made with the saw (See Figure 011.01-C) -- It is used when it is necessary that the face does not close until the tree is near the ground.  

303. MECHANICAL DELIMBERS AND FELLER BUNCHERS.

01. General Requirements.  

a. Before start-up or moving equipment, check the surrounding area for fellow employees or equipment.  

b. If any protective device is missing, it is to be replaced as soon as possible. If it affects a safe operation, the machine is to be shut down.  

c. When a machine is working, extreme caution shall be used when approaching. The operator shall be notified by radio or visual contact.  

d. All raised equipment shall be lowered to the ground or to a safe position and the park brake set before leaving the machine.  

304. -- 350. (RESERVED)
351.   **RIGGING.**

**01. General.** The determining factor in rigging-up shall be the amount of rated stump pull which a machine can deliver on each line.  

**02. Equipment Classification.**

a. Equipment shall be classed according to the manufacturer's rating.  

b. Where lower gear ratios or other devices are installed to increase the power of equipment, the size of the rigging shall be increased proportionately so that it will safely withstand the increased strains to conform to Subsection 010.04 of these rules.  

**03. Safe Loading.** Rigging, and all parts thereof, shall be of a design and application to safely withstand all expected or potential loading to which it will be subjected.  

**04. Allowable Loading or Stress.**

a. In no case shall the allowable loading or stress be imposed on one half (1/2) of the rated breaking strength of any parts of the rigging.  

b. This shall not be construed as applying to chokers.  

**05. Chokers.** Chokers shall be at least one eighth (1/8) inch smaller than the mainline.  

**06. Placing, Condition, and Operation of Rigging.** The placing, condition and operation of rigging shall be such as to ensure safety to those who will be working in the vicinity.  

**07. Arrangement and Operation.** Rigging shall be arranged and operated so that rigging or loads will not pound, rub, or saw against lines, straps, blocks, or other equipment.  

**08. Line Hazards.**

a. Running lines and changed settings shall be made in a way to avoid bight of line hazards.  

b. Signals to operator shall be made before moving lines.  

**09. Reefing.** Reefing or similar practices to increase line pull shall be prohibited.  

**10. Inspection of Rigging.**

a. A thorough inspection, by the operator or qualified person, of all blocks, straps, guylines, and other rigging shall be made before they are placed in position for use.  

b. This inspection shall include an examination for damaged, cracked or worn parts, loose nuts and bolts, lubrication, condition of straps and guylines.  

c. The repairs or replacements necessary for safe operation shall be made before rigging is used.  

352.   **GUYLINES.**

**01. General Requirements.**
a. Guylines shall be of plow steel or equivalent, and in good condition.  

b. Guylines shall be provided in sufficient number, condition and location to develop stability and strength equivalent to the breaking strength of any component part of the rigging or equipment.

c. Guylines shall be fastened by means of shackles or hooks and slides. The use of loops or molles for attaching guylines is prohibited. The use of wedge buttons on guylines is prohibited.

d. The “U” part of a shackle shall be around the guyline and the pin passed through the eye of the guyline. Pins shall be secured with molles, cotter-keys, or the equivalent.

e. Guylines shall be kept tightened while equipment or rigging they support is in use.

02. Anchoring Guylines.

a. Stumps used for fastening guylines and skylines shall be carefully chosen as to position, height and strength. They shall be tied back if necessary. See Figures 011.02-A and 011.02-B.

FIGURE 011.02-A
b. Properly installed deadman anchors are permitted. Guylines shall not be directly attached to deadman anchors. Suitable straps or equally effective means shall be used.

c. Stumps, trees and guyline anchors shall be inspected from time to time while an operation is in progress and hazardous conditions immediately corrected.

d. Standing trees which will reach landing or work areas shall not be used for guyline anchors.

e. Any guyline anchor tree that can reach the landing or work area shall be felled before using as an anchor.

03. Effectiveness of Guys.

a. Guys making an angle with the horizontal greater than sixty (60) degrees will be considered less than fifty percent (50%) effective. For the effectiveness of other angles see Table 011.03-A.

04. Minimum Guyline Requirements. A minimum of four (4) top guys are required on any portable spar tree used for yarding, swinging, loading or cold-decking.

353. LINES, SHACKLES AND BLOCKS.

01. General Requirements. All lines, shackles, blocks, etc., should be maintained in good condition and shall be of sufficient size, diameter and material to withstand one and one half (1 1/2) times the maximum stress imposed.

b. Wire rope or other rigging equipment which shows a fifteen percent (15%) reduction in strength shall be replaced.

02. Splices. Two (2) lines may be connected by a long splice, or by shackles of patent links of the next size larger than the line where practical.

b. A safe margin of line must be used for making long splices. See Table 012.02-A.

b. Clips should always be attached with the base or saddle of the clip against the longer or “live” end of the rope. See Figure 012.03-A. This is the only approved method.

FIGURE 012.03-A

(6-30-19)

c. Do not reverse the clips or stagger them. See Figure 012.03-B. Otherwise the “U” bolt will cut into the live rope when the load is applied.
d. After the rope has been used and is under tension, the clips should again be tightened to take up any looseness caused by the tension reducing the rope diameter. Remember that even when properly applied a clip fastening has only about ninety percent (90%) of the strength of the rope and far less than that when rigged improperly.

04. **Blocks.** All blocks must be of steel construction or of material of equal or greater strength and so hung that they will not strike or interfere with other blocks or rigging.

05. **Pins.** All pins in blocks shall be properly secured by keys of the largest size the pin hole will accommodate.

06. **Shackles.**
   a. Spread in jaws of shackles shall not exceed by more than one (1) inch the size of yoke or swivel of the block to which it is connected.
   b. All shackles must be made of forged steel or material of equivalent strength and one (1) size larger than the line it connects.

07. **Cable Cutting.** Cable cutters, soft hammers, or a cutting torch shall be available and shall be used for cutting cables.

08. **Damaged or Worn Wire Rope.** Worn or damaged wire rope creating a safety hazard shall be taken out of service or properly repaired before further use.

354. -- 400. (RESERVED)

Subchapter I - Canopy and Canopy Construction for Logging Equipment (Rules 401 through 450)

401. **GENERAL REQUIREMENTS.**
01. **Driver Protection Guard.**

   a. A substantial metal guard for the protection of the driver shall be installed on every piece of equipment, where exposed to overhead hazards.

   b. This guard shall be strongly constructed to afford adequate protection for the driver against overhead hazards.

   c. This guard shall be of sufficient width and height so that it will not impair the movements of the driver or prevent his immediate escape from the equipment in emergencies.

   d. This guard shall be of open construction to allow the driver all the visibility possible.

02. **Canopy Framework.**

   a. The canopy framework shall consist of at least two (2) arches, either transverse or longitudinal.

   b. If transverse, one (1) arch shall be installed at the rear of the equipment and the other at the center of the equipment. They shall be joined together by three (3) longitudinal braces, one (1) at the top and one (1) at each side of the arches.

   c. There shall be a shear or deflecting guard extending from the leading edge of the forward arch to the front part of the frame of the tractor or similar equipment.

   d. If longitudinal arches are used, they shall be extended from the rear of the tractor or equipment to the front frame of the tractor or equipment and each arch shall have an intermediate support located approximately at the dash so that ingress or egress will not be impeded.

   e. Regardless of the type of construction used, the fabrication and method of connecting to the tractor or equipment shall be of such design as to develop a strength equivalent to that of the upright members.

03. **Canopy Structure.** The canopy structural framework shall be fabricated of pipe of the following size, or materials of equivalent strength, depending upon the gross weight of the tractor or similar equipment as equipped. Under twenty-eight thousand (28,000) lbs., two (2) inch double extra strong pipe (XXS); twenty-eight thousand (28,000) to fifty-eight thousand (58,000) lbs., three (3) inch double extra strong pipe (XXS); over fifty-eight thousand (58,000) lbs., four (4) inch double extra strong pipe (XXS).

04. **Gusset Plates or Braces.** Gusset plates or braces shall be installed on the canopy framework so that the framework will withstand a horizontal pressure equal to twenty-five percent (25%) of the gross weight of the tractor or similar equipment, as equipped, when such pressure is applied to any vertical member at a point not more than six (6) inches below the roof of the canopy.

05. **Clearance Above the Deck.** The clearance above the deck of the tractor or similar equipment at points of egress shall be not less than fifty-two (52) inches and the clearance above the driver's seat shall be of such height as will allow sufficient clearance above the driver's head.

06. **Overhead Covering.** The overhead covering on the canopy structure shall be of not less than three-sixteenth (3/16) inch steel plate except that the forward eighteen (18) inches may be made of one quarter (1/4) inch woven wire having not more than one (1) inch mesh.

07. **Rear Covering.**

   a. The opening in the rear of the structure shall be covered with one quarter (1/4) inch woven wire having not less than one and one half (1 1/2) inch or more than two (2) inch wire mesh. This covering shall be affixed to the structural members so that ample clearance will be provided between the screen and the back of the operator.
b. Structural members shall present smooth, rounded edges and the covering shall be free from projections which would tend to puncture or tear flesh or clothing. (6-30-19)T

08. Pin Connections.

a. Pin connections are recommended for joints in the structural frame and especially at connections to the tractor frame or similar equipment frame. (6-30-19)T

b. Gusset plates shall be installed at each place where individual pieces of pipe are joined. (6-30-19)T

09. Sideguards. When practical, sideguards shall be installed to protect the operator from hazards. (6-30-19)T

402. TRACTORS AND SIMILAR LOGGING EQUIPMENT.

01. Operating Condition. The general operating condition of a tractor or equipment shall be sufficient to ensure the safety of the driver and other workmen. (6-30-19)T

02. Guards. All guards shall be kept in place and in good repair at all times when the tractor or similar equipment is used. (6-30-19)T

03. Repairs or Adjustments. Repairs or adjustments to clutches, frictions, or other parts of equipment which may cause hazardous movement of equipment shall not be done while engines are running. (6-30-19)T

04. Blades or Similar Equipment.

a. Blades or similar equipment shall be blocked or otherwise securely supported when making repairs or performing other work around such equipment when they are elevated from the ground. (6-30-19)T

b. Equipment under repair or adjustment should be tagged out. (6-30-19)T

05. Brakes and Steering.

a. All equipment shall be equipped with a braking system capable of stopping and holding the maximum load on all grades at all times. (6-30-19)T

b. Any defect found in the braking system or steering devices of any equipment used in skidding or yarning operations shall not be used until repaired or replaced. (6-30-19)T

06. Starting of Equipment. Equipment shall be started (cranked) only by the operator or other experienced persons. (6-30-19)T

07. Seatbelts.

a. Seatbelts shall be installed on all tractors and mobile equipment having roll-over protection or in accordance with a design by a professional engineer which offers equivalent employee protection. (6-30-19)T

b. Seatbelts shall be used when operating any machine equipped with Roll Over Protection Structure (ROPS), Falling Object Protection Structure (FOPS), or overhead guards. (6-30-19)T

08. Pin Connections.

a. Pin connections are recommended for joints in the structural frame and especially at connections to the tractor frame or similar equipment frame. (6-30-19)T

b. Gusset plates shall be installed at each place where individual pieces of pipe are joined. (6-30-19)T
09. **Sideguards.** When practical, sideguards shall be installed to protect the operator from hazards. (6-30-19)T

403. -- 450. (RESERVED)

Subchapter J - Skidding and Yarding (Rules 451 through 500)

451. **SKIDDING AND YARDING.**

01. **General Requirements.** (6-30-19)T
   a. All personnel shall wear approved head protection and proper clothing at all times in skidding and yarding. (6-30-19)T
   b. Getting on or off moving equipment is strictly prohibited. (6-30-19)T
   c. Equipment operators shall move rigging only upon the signal of an authorized person. (6-30-19)T
   d. Workers shall at all times watch for and protect themselves and their fellow workers from side-winders, rolling logs, up ending logs, snags, and other hazards caused by the movement of equipment, logs and/or lines. (6-30-19)T
   e. Chokers should be placed near, but not closer than two (2) feet, from the ends of logs if possible. (6-30-19)T
   f. Choker holes shall be dug from the uphill side of a log if there is any danger of its rolling. (6-30-19)T
   g. Knots shall not be used to connect separate lengths of chain or cable. (6-30-19)T
   h. Chaser (hooker) shall not unhook logs (trees) until rigging has stopped and the equipment operator is aware of his location. (6-30-19)T
   i. Riding on drag or logs or any part of equipment used in skidding and yarding except in the area of the driver’s seat is prohibited. (6-30-19)T
   j. A tool handle, stick, iron bar, or similar object shall be used in guiding lines onto drums. Guiding lines with hands is prohibited. (6-30-19)T
   k. Make sure all personnel are in the clear before skidding turn, drag, log, or tree into landing. (6-30-19)T
   l. All personnel shall keep out of the bight of line and clear of running lines. (6-30-19)T
   m. Logs shall not be swung over personnel. (6-30-19)T
   n. Knot bumping should be done before a log is loaded. (6-30-19)T

452. **CABLE YARDING.**

01. **Safety A.** Personnel shall not ride hooks, lines, rigging, or logs suspended in the air or being moved. (6-30-19)T

   02. **Safety B.** Personnel shall not hold on to haywire, running lines, drop lines, or chokers as an assist when walking uphill. (6-30-19)T
03. Safety C. Personnel shall not work in the bight of lines under tension. (6-30-19)

04. Safety D. Personnel shall be “in the clear” before any signal to move any lines is given. (6-30-19)

453. YARDING MACHINERY.

01. Equipment Assessment. When personnel arrive at a job site with a set of machinery on hand to perform yarding operations, evaluation of the conditions at the landing shall be made, and reassessment of the capacity of the available equipment shall be performed to determine if it meets the task. The principal options and features for yarders, log loaders, and processors are described in this section. (6-30-19)

02. Manufacturer’s Manual. Yarders of various types are used in logging operations, including ground-based and rigged trees to lift the lines, and mobile steel towers. The manufacturer’s manual shall always be consulted for essential features and inspection points on each particular machine. (6-30-19)

03. Types of Yarding Equipment. Yarding operations may include the use of, but is not limited to the following yarding equipment: (6-30-19)

a. Straight Tube Telescoping Tower. This equipment uses a hydraulic ram or multiple-sheave cable system to raise the tower. Some telescoping towers allow use at the telescop ed height. The tower may be used partially retracted if guylines need to be placed closer to the landing or on steep slopes. (6-30-19)

   i. This equipment may travel by self-propulsion, or be either trailer or track-mounted. It has long reach capacity with a typical height of ninety (90) to one hundred ten (110) feet. (6-30-19)

   ii. The advantages of this equipment include the ability to operate heavy payloads, the tower height allows for more line deflection, and some yarders allow yarding one hundred eighty (180) degrees without moving yarder or guylines. (6-30-19)

   iii. The disadvantages of this equipment are that it is heavy and difficult to move, it requires appropriate roads and it may have to be disassembled to move on public roads, it requires large landing areas, and it needs large guyline anchor capacity. (6-30-19)

FIGURE 012.03-A

b. Fixed Leaning Tower. This equipment is a one (1)-piece tower that may be front-mounted vertical, or leaning. The height of the tower varies with make and model. (6-30-19)
i. This equipment may travel by self-propulsion, or be either trailer or track-mounted. It has medium reach capacity with a typical height of forty (40) to eighty (80) feet.

ii. The advantages of this equipment include faster line setup, smaller landing area requirements, it is lighter and easier to move, and has lower guyline anchor requirements.

iii. The disadvantages include a smaller yarding window which necessitates moving the tower and guylines more frequently, and smaller payloads than straight tube towers.

---

FIGURE 012.03-B

---

**FIGURE 012.03-B**

**FIXEDLEANING TOWER**

---

**c. Swing Yarder.** This equipment is similar to the fixed leaning tower in nearly all respects; however, the swing yarder is also capable of swinging logs onto the road or landing, and capable of using a running skyline. Track mounts are more stable when moving.

**d. Grapple Yarder.** This equipment uses a swing yarder or yoader system. The grapple is controlled by signals from the rigging slinger, or by the yarder engineer using a video link on the carriage. Swing capability is necessary to allow a wider logging corridor. A grapple system is typically used in conjunction with a machine anchor and elevated support on the back end of the unit, making for quick road changes.

i. This equipment may travel by track-mount or rubber-tire mount. It has medium to short reach capacity.

ii. The advantages of this equipment include the need for a smaller crew size, typically only a yarder engineer, landing worker, and a hooktender, and it is easier to rig up which is ideal for smaller logging areas.

iii. The disadvantages of this equipment are that it requires extensive planning to achieve full production, it must have moderate to good deflection, access to the back of unit is generally necessary, and it possesses limited yarding width.
e. Yoader. This yarder is typically a log loader with two (2) drums mounted at the base of the boom. Both lines run through sheaves mounted on the boom or heel rack. The lines can be set up in a standing, live, or running skyline configuration, or a high-lead configuration.

i. This equipment may travel by track-mount or rubber-tire mount. It has medium reach capacity.

ii. The advantages of this equipment are that guylines are not necessary, it is easier to move, easy road changes, it is easier to rig up which is ideal for smaller logging areas, and it may be used as a loader.

iii. The disadvantages of this equipment are that it requires/results in slower line speeds, it requires blocking up front of the tracks to create stability, and rigging height is limited.
f. Tong-tosser/Jammer System. These are two (2) systems which basically use the same machine as the yoader, with either tongs or chokers on the end of the line to secure the logs. This version typically uses one (1) drum on the machine with a spitter wheel at the end of the boom to pull the line from the drum and push it out to the brush. The yarder engineer usually gets the tongs or chokers swinging and then tosses them to the waiting choker setters. 

   i. This equipment travels by track-mount. It has short reach capacity. 

   ii. The advantages of this equipment are that guylines are not necessary, it is easier to move, it is easier to rig up which is ideal for smaller logging areas, and it may be used as a loader. Additionally, it does not require line layouts or anchors. 

   iii. The disadvantages of this equipment are that it results in slower line speeds, it requires blocking up front of the tracks to create stability, rigging height is limited, and there is a greater potential risk to the rigging crew.

![FIGURE 012.03-F](Image)

TONG-TOSSER WITH GRAPPLE  JAMMER-SYSTEM WITH CHOKERS 

(6-30-19)T

f. Stiff-leg Spar Yarder. One of various configurations for this yarder uses an excavator or log loader fitted with a third boom between the main and jib boom, which is elevated to provide lift. The elevated boom is typically rigged with two (2) or three (3) lines. Works with high lead, standing, running, or slackline configurations. 

   i. This equipment travels by track-mount. It has medium reach capacity. 

   ii. The advantages of this equipment are that guylines may not be necessary, it is easier to move, it is easier to rig up which is ideal for smaller logging areas, and it may be used as a loader or excavator. Additionally, it does not require line layouts or anchors. Additionally, jib boom offers greater stability, and the rigging height is greater than yoader or tong-tosser/jammer system. 

   iii. The disadvantages of this equipment are that it results in slower line speeds, the attached tower boom may need to be removed for other operations, and it generates heavy stress on boom and components.

STIFF-LEG SPAR YARDER

454. WIRE ROPE.

01. General Characteristics. Wire rope comes in many grades and dimensions, and every rope has its own characteristics with regard to strength and resistance to crushing and fatigue. A larger rope will outlast a smaller rope of the same materials and construction, used in the same conditions, because wear occurs over a larger surface. Similarly, a stronger rope will outlast a weaker rope, because it performs at a lower percentage of its breaking strength, with reduced stress.

02. Wire Rope Terms. Common grades of wire rope include extra improved plow steel (EIPS) and swaged powerflex, among others. The following terms are commonly used for wire rope:

a. Abrasion Resistance. Ability of outer wires to resist wear. Abrasion resistance is greater with larger wires.

b. Core. The foundation of a wire rope which is made of materials that will provide support for the strands under normal bending and loading conditions. A fiber core (FC) can be natural or synthetic. If the core is steel, it can be a wire strand core (WSC) or an independent wire rope core (IWRC).

c. Crushing Resistance. Ability of the rope to resist being deformed. A rope with an independent wire core is more resistant to crushing than one with a fiber core.

d. Die-form Line. Made from strands that are first compacted by drawing them through a drawing die to reduce their diameter. The finished rope is then swaged or further compressed.

e. Fatigue Resistance. Ability of the rope to withstand repeated bending without failure (the ease of bending a rope in an arc is called its “bendability”). Fatigue resistance is greater with more wires.

f. Strength. Referred to as breaking strength, usually measured as a force in pounds or tons. The breaking strength is not the same as the load limit, which is calculated as a fraction of the breaking strength to ensure safety.

g. Swaged Line. Manufactured by running a nominal-sized line through a drawing die to flatten the outer crown and thus reduce the rope diameter. This compacted rope allows for increased drum capacity and increased line strength.
03. Typical Wire Rope Specifications. The table below lists a few examples of wire-rope breaking strengths.

Source: Cable Yarding Systems Handbook. 2006. Worksafe BC. Table lists typical breaking strengths. See manufacturer’s specifications for specific lines.

**04. Synthetic Rope.** High-tensile strength synthetic lines are considerably lighter than standard wire rope; however, some lines are dimensionally as strong as standard wire rope. Accordingly, high-tensile strength synthetic lines are permitted to be used in appropriate logging applications, including as substitutes for brush straps, tree straps, tail and intermediate support guylines, guyline extensions, skyline extensions, and haywire. Manufacturers’ standards and recommendations for determining usable life or criteria for retirement of such lines shall be followed. Personnel shall examine the lines for broken or abraded strands, discoloration, inconsistent diameter, glossy or glazed areas caused by compression and heat, and other inconsistencies. Rope life is affected by load history, bending, abrasion, and chemical exposure. Most petroleum products do not affect synthetic ropes.

**05. Inspection and Care.**

a. Wire rope shall be inspected daily by a qualified individual and repaired or taken out of service when there is evidence of any of the following conditions:

i. Twelve and five tenths percent (12.5%) of the wires are broken within a distance of one (1) lay.

ii. Evidence of chafing, seeing, crushing, kinking, crystallization, bird-caging, corrosion, heat damage, or other damage that has weakened the rope structure.

b. Qualified personnel shall closely inspect those points subject to the most wear, including the knob ends of lines, eye splices, and those sections of line that most often run through blocks or carriages. If there is doubt about the integrity of the line, it is far safer to replace a suspect line, or cut out and resplice a defective area, than risk a failure during operation. Evaluation of the load-bearing yarder lines shall be stringent. A qualified person shall also inspect all other lines used on site and remove any that are unsafe.
a. Ensure the working load limit for any line is adequate for the intended use. (6-30-19)

b. The manufacturer’s specifications with regard to assigned breaking strength shall be followed. Such specifications as determined by engineering test results should factor the grade of the wire, number of strands, number of wires per strand, filler wire construction, lay pattern of the wires, and the diameter of the line. (6-30-19)

07. Safety Factor. Operators shall follow the manufacturer’s specifications in determining load limits. The working load limit is a fraction of a line’s breaking strength – a factor of three (3), or one-third (1/3) the breaking strength, is commonly used as a safety factor for running and standing lines, when workers are not exposed to breaking lines or loads passing overhead. A safety factor of three (3) is commonly used to determine the working load limit for a standing or running line. A standard six (6) x twenty-six (26) IWRC wire rope with a diameter of one (1) inch has a breaking strength of approximately forty-five (45) tons – divide by three (3) – equals fifteen (15) tons working load limit. (6-30-19)

08. Wire Labeling.

a. The elements of a typical wire rope are labeled, for example, six (6) x twenty-five (25) FW PRF RL EIPS IWRC. The label indicates a six (6)-strand rope with twenty-five (25) wires per strand (six (6) x twenty-five (25)), filler-wire construction (FW), strands pre-formed in a helical pattern (PRF), laid in a right-hand lay pattern (RL), using an extra-improved plow steel (EIPS) grade of wire, and strands laid around an independent wire rope core (IWRC). See figure 013.08-A for proper labeling of wire rope. (6-30-19)

b. Out of Service Standard Example. A six (6) x twenty-five (25) IWRC wire rope = six (6) strands in one (1) lay with twenty-five (25) wires per strand = one hundred fifty (150) wires. The rope must be taken out of service when twelve and five tenths percent (12.5%), or one-eighth (1/8), of the wires are broken within the distance of one (1) lay = one hundred fifty (150) divided by eight (8) = eighteen and seventy-five one hundredths (18.75), or nineteen (19) broken wires. (6-30-19)

09. Wire Line Life. Table 013.08-A provides the allowable life of a line in million board feet in accordance with line size and use. Figure 013.09-A illustrates both the correct and incorrect manner in which to measure line size (diameter). (6-30-19)

Source: Willamette Logging Specialist's Reference by Keith L. McGonagill. 1976. Portland, OR: Willamette National Forest. Calculations of line life refer to EIPS 6x21 wire rope for the skyline, and EIPS 6x26 for other lines. Figures will be different for other classes of wire rope. (6-30-19)T
10. **Dynamic Loads.** Operators shall consider high dynamic loads when calculating safe working limits of wire ropes. Wire ropes are often subjected to high dynamic loads, which greatly multiply the force on a line and may exceed the safe working limit. Even a split second of time over the limit can lead to premature failure of a line. Typical dynamic loads occur when a turn hits a stump, a turn comes down off of the back hillside to full suspension, or when excessive force is applied to pulling a turnout of its bed. A high dynamic load or a sudden shock load that exceeds the working limit may not result in immediate failure, but rope strands may stretch and weaken, and may fail at a later time. (6-30-19)

11. **Other Common Wire Rope Considerations.**

   a. **Wire Rope Stretching and Line Diameter.** A stretched wire rope has a reduced diameter. Operators shall check for stretched lines by measuring the diameter, particularly on older lines and any line used in stressful situations. (6-30-19)

   b. **Older Wire Rope.** Standing lines and guylines are often kept in service for multiple years (four (4) to five (5), and as long as ten (10) years in some instances) without exhibiting any obvious signs of excessive wear other than rust. Operators shall check date stamps of wire rope and evaluate line life. Operators shall also inspect the core of older lines periodically for a fractured or dry core, which could indicate other deficiencies such as broken wires, excessive wear, or line deformation. (6-30-19)

   c. **Hard Use.** The life of a wire rope is also affected by hard use. Line life can be measured by the volume of wood hauled (see Table 013.08-A). Line life is reduced when a line exceeds its elastic limits, is heavily shocked, or rubbed against rocks or other lines. As a line wears, the safe working load limit shall be lower and the payload adjusted appropriately. (6-30-19)

   d. **Wire Rope endurance and elastic limits.** Working within the endurance and elastic limits of lines
can help preserve line life. The following principles shall be observed when evaluating the integrity and safe use of wire rope:

i. The “endurance limit” for all lines is fifty percent (50%) of the breaking strength. If wire rope tensioning regularly exceeds the endurance limit, the life of the line is reduced through fatigue.

ii. The “elastic limit” for all lines is sixty to sixty-five percent (60-65%) of the breaking strength. When a wire rope is loaded to its normal safe working limit, the line stretches, but then returns to its original size when the load is released. If a load increases past the elastic limit through prolonged exertion or repeated stress, the line will stretch and stay stretched, resulting in a permanent reduction in the breaking strength.

e. Lubrication and Abrasion. Wire rope is lubricated in the factory to reduce internal friction and corrosion, and prolong the life of the rope. Heat from friction causes the internal lubricant to deteriorate. Friction occurs when the rope stretches under load, particularly in places where it bends around sheaves or other objects. An improperly lubricated line can pick up particles of dirt and sand that will increase abrasion. Accordingly, operators shall:

i. Check for and ensure the proper lubrication of all lines and wire rope, following the manufacturer’s instructions. Commercial wire rope lubricants are available.

ii. Carefully inspect lines for faults in areas where dust and sand may collect.

iii. Store all wire rope and lines off the ground.

12. Line Connections.

a. Inspection. Operators shall regularly inspect shackles, hooks, splices, and other connecting equipment for damage and wear, as well as ensure the connectors are the correct type and size for the line and intended use.

b. Wire Splicing. Splices are used to form an eye at the end of a line, extend the length of a line, or repair a broken or damaged line. The splicing of wire rope requires special skill and shall only be performed under the supervision of a competent person with using the proper tools. Reference materials are available with detailed instructions for numerous types of splices. Individuals splicing wire shall always wear appropriate eye protection while splicing or assisting with a splicing procedure.

c. The logger’s eye splice and three (3)-pressed eye are the most common methods to form an eye for use as a skyline terminal. See Figure 013.12-A. The spliced eye is approximately eighty percent (80%) efficient. A three (3)-pressed eye can reach ninety percent (90%) line strength. The pressed eye is typically performed at the rigging shop. Spliced eyes may be placed in the field, but may require additional time to install.

FIGURE 013.12-A
d. Guyline Care. Guylines are a vital link in holding up a tower. Guyline extensions shall not be excessively moved around by dragging on the ground, or left on the ground for long periods of time as they will deteriorate faster. (6-30-19)

e. Line Deformity. A line may deform where it loops around a shackle or pin, producing weakness that may result in line failure. A thimble in the loop protects the line. Thimbles may be used on standing lines, but not on running lines. Examples of the appearance of deformed lines and the use of thimbles in shackles are illustrated in Figure 013.12-B. (6-30-19)

FIGURE 013.12-B

13. Shackles and Hooks. (6-30-19)

a. Hooks. Hooks shall be inspected to ensure that they have not sprung open. Ensure that shackles are positioned correctly to bear the load. Haywire swivels shall be inspected frequently, due to their susceptibility to wear rapidly. (6-30-19)

b. Shackle Safety. Proper bells or shackles shall be used to connect the guylines to the stumps, and the guyline lead blocks to the ring at the top of the tower. Connections shall have at least one and a half (1-1/2) times the strength of the guyline. The pins of the shackles must be secured to protect against dislodgement, and a nut and cotter key, or a nut and molly may be used for that purpose. The use of loops or mollies to attach guylines is prohibited. Examples of the appearance of some shackle equipment is illustrated in Figure 013.13-A.

FIGURE 013.13-A

c. The following practices shall be observed in order to ensure the safe use of shackles: (6-30-19)
i. A shackle must have a rated breaking strength greater than the rated breaking strength of the lines attached to it, and the manufacturer’s rated strengths to determine oversized requirements shall be used. Accepted industry standards shall be utilized and adhered to when determining the correct shackle size based on the type and nature of the logging operation being performed. Examples of the appearance of some shackle equipment for the purposes of proper selection is illustrated in Figure 013.13-B. (6-30-19)

ii. Shackles with pins, and securing nuts with mollies or a cotter key shall be used on standing or overhead rigging. (6-30-19)

iii. Screw shackle pins shall not be used in any standing or overhead rigging. (6-30-19)

iv. Screw shackle pins, where allowed to be used, shall be tightened securely. (6-30-19)

v. Shackle pin mollies shall be rolled sufficiently and fit the pin hole fully. Mollies shall be tucked a minimum of three (3) times. (6-30-19)

vi. The shackle shall always be placed with the pin nearest to the yader, so that in the event the shackle fails the least amount of hardware may be thrown at the yader. (6-30-19)

vii. Replace shackles that are bent, broken, or show excess wear on the inner surfaces. Examples of the appearance of some damaged or non-conforming shackles are illustrated in Figure 013.13-A.

FIGURE 013.13-A

REPLACE SHACKLES THAT ARE BENT, BROKEN, OR SHOW EXCESS WEAR ON THE INNER SURFACES.

FIGURE 013.13-B

SLEEVE WITH KNOCKOUT PIN

BELL WITH KNOCKOUT PIN

a. Poured nubbins and a double-end hook are acceptable connectors in place of shackles in some instances. The use of quick nubbins (wedge buttons) as guylines and skyline end fittings is prohibited unless attaching guylines to guyline drums. Operators shall follow the manufacturer’s recommendations when attaching sockets and similar end fastenings.

b. Poured nubbins achieve ninety-nine percent (99%) of line strength and may be used. Quick nubbins only achieve a maximum of sixty-five percent (65%) under ideal conditions, and accordingly operators shall consider whether they are appropriate for safe use in any given application. Pressed ferrule are not certifiable for strength, and shall not be used. Examples of the appearance of some knob, ferrule, and nubbin equipment are illustrated in Figure 013.14-A.

c. Operators shall inspect knobs, ferrules, and eyes at cable ends for loose or broken wires, and corroded, damaged, or improperly applied end connections. Poured nubbins shall be date stamped.

15. Brush Blocks. Brush blocks shall be thoroughly inspected for cracks, wear, or deterioration. Operators shall closely examine the areas subject to the most wear, including bearings, sheave, frame, yoke, and pins. Defective parts shall be replaced immediately. Blocks shall be greased every time before each use.
16. **Chains and Straps.** Chains or straps shall always be sized and used correctly for the intended purpose. Determining which size to use may depend on various factors. Oversized trailer lift straps, for example, shall have a breaking strength equal to five (5) times the load to be lifted. Towing chains shall have a tensile strength equivalent to the gross weight of the towed vehicle. The manufacturer’s specifications or other appropriate reference materials shall always be consulted to ensure the right chain or strap is used for a task.

**a.** Operators shall periodically inspect chains for damaged, worn, or stretched links. Chains with more than ten percent (10%) wear at the bearing surface shall be replaced. Operators shall periodically inspect straps, and examine them for broken wires or wear. Examples of the appearance of damaged and safe chains are illustrated in Figure 013.16-A.
455. TREE CLIMBING.
Loggers are often required to climb considerable heights to top trees or hang rigging on lift trees. All workers who may be exposed to fall hazards shall be specifically trained and equipped with fall protection.

01. Rescue Plan. Before rigging any tree, the employer must develop rescue procedures, which includes identifying appropriate equipment, personnel, and training to perform a rescue in case a climber is injured or incapacitated in the tree. A second set of climbing gear and a person with climbing experience shall be readily available. Equipment and procedures that will support an injured climber’s chest and pelvis in an upright position during a rescue shall be used. When an injured climber is wearing only a climbing belt, provisions must be made to prevent the climber from slipping through it; this may include using a rope to create an upper-body support system. Consideration should be made to replacing climbing belts with a climbing harness.

02. Before Leaving the Ground. Employers shall check climbing equipment and immediately remove defective equipment from service. Personnel shall ensure that hardware and safety equipment is securely fastened before placing weight on the lanyard or life-support rope. All climbing knots shall be tied, dressed, and set prior to ascending. All personnel shall follow the recommendations of the manufacturer of the cordage with respect to the use of splices.

03. Climbing Equipment.

a. A climbing harness provides both pelvic and upper-body support, and may be a one (1)-piece, full-body harness, or any two (2)-piece design that meets industry standards.

b. Climbing and life-support lines shall be conspicuous and easily identifiable.

c. All lines and webbing used for life support shall have a minimum breaking strength of five thousand four hundred (5,400) pounds and may only be used for climbing.

d. When a cutting tool is used in a tree, the climbing rope (lanyard) shall be a high-quality steel safety chain of three-sixteenths (3/16) inch size or larger, or a wire-core rope.

e. A life-support rope evidencing excessive wear or damage or that has been subjected to a shock load shall be removed from climbing service.

04. Climbing Operations.

a. Ensure climbers are appropriately well-trained in climbing and in the use of all equipment to carry out assigned tasks.

b. While climbing operations are underway, co-workers and others on the ground shall stay clear of potential falling objects. If co-workers must work directly below a climber, the climber shall stop any activity in which objects could be dropped or dislodged until the area below is cleared. Climbers shall provide warning whenever any material may be likely to fall or is dropped deliberately. Unsecured equipment, rigging, or material shall not be left in the tree.

c. Yarding activity must cease within reach of a tree or guylines of a tree where a climber is working. Machinery may operate in reach of the climber to hoist rigging into the tree. In such circumstance the following shall apply:
i. A spotter shall be utilized and yarding operations shall be performed with extra caution;
(6-30-19)T

ii. The machine operator and the spotter shall give the task their undivided attention;
(6-30-19)T

iii. Equipment that is nearby and which may be noisy, such as power saws, tractors, or logging machines shall be shut down if the noise interferes with signal communications with the climber; and
(6-30-19)T

iv. Lines attached to a tree in which a climber is working shall not be moved except on a signal from the climber.
(6-30-19)T

d. Tree climbers shall use a three (3)-point climbing system whereby three (3) points of contact must be firmly in place on a secure surface before moving to another point. Along with hands and feet, other points on the body, such as a hooked knee, can be considered a point of contact if it can support the full body weight. Additionally, the places of support must be secure, and climbers should use care to void unsound branches or stubs as a contact point. A lanyard around the tree secured to the safety harness or climbing belt on both ends constitute two (2) points of contact.
(6-30-19)T
e. Climbing without being secured to the tree is prohibited, except in conifers, when in the judgment of a qualified climber, the density of branches growing from the stem make attaching the lanyard more hazardous than simply climbing the tree. In such instances, the climber shall evaluate the tree farther up, and use attachments when it is safe to do so.
(6-30-19)T

05. **Topping Trees.** Only an experienced climber with experience felling trees shall top a tree. Cutters shall not cut when wind or other conditions make doing so hazardous. Standard safe felling procedures shall apply, with the additional following requirements:
(6-30-19)T

a. A chainsaw with a bar short enough to make both the face-cut and backcut easily from one side shall be used.
(6-30-19)T

b. Cutters shall determine the felling direction and ensure there are no obstructions. Consideration shall be given to the fact that an impact could cause violent movement in the tree being topped where the climber is perched.
(6-30-19)T
c. A safety chain shall be wrapped around the tree just below the cut to prevent the tree from splitting or slabbing down inside the climbing rope.
(6-30-19)T
d. The cutter shall ensure he is comfortable, and avoid any awkward cutting position.
(6-30-19)T
e. Exact cuts should be made. There is no escape route for the climber to get away from the stem to avoid kickback or a splintered hinge. When making horizontal side cuts, extra care shall be used to stay on the line of the backcut to avoid wood breaking away with the saw as the top falls.
(6-30-19)T

456. **TYPICAL RIGGING SYSTEMS.**

Subchapter K - Road Transportation
(Rules 501 through 550)

501. LOG TRUCK TRANSPORTATION.

01. General. The following requirements are supplemental to any Idaho law governing automobiles, trucks, tractors, trailers, and any combination of these units. If there are any discrepancies in the codes between this section and any federal or Idaho motor vehicle regulations pursuant to title 49, Idaho Code, applicable in the state of Idaho, such federal or other governmental regulations will govern. 

02. Stopping and Holding Devices for Log Trucks.

a. Motor logging trucks and trailers must be equipped with brakes or other control methods which
will safely stop and hold the maximum load on the maximum grade. Air or vacuum brake lines shall be of the type intended for such use and shall have fittings which will not be interchangeable with water or other lines. (6-30-19)T

b. Brake Test - A brake test shall be made before and immediately after moving a vehicle. Any defects shall be eliminated before proceeding. (6-30-19)T

03. Lighting Equipment Required. (6-30-19)T
   a. Motor vehicles used on roads not under the control of the Idaho Transportation Board, counties or cities, shall have equipment necessary for safe operation, such as head, tail, and stop lights. (6-30-19)T
   b. Such lights shall be used during clearance periods of reduced visibility. (6-30-19)T

04. Safe Operating Requirements. (6-30-19)T
   a. The driver shall do everything reasonably possible to keep his truck under control at all times and shall not operate in excess of a speed at which he can stop the truck in one-half (1/2) the distance between him and the range of unobstructed vision. (6-30-19)T
   b. The driver shall take into consideration the condition of the roadway, weather factors, curves, grades and grade crossings, the mechanical condition of his equipment, and other relevant factors. (6-30-19)T
   c. The driver shall clear rocks from between dual tires before driving on multi-lane roads. (6-30-19)T
   d. A daily inspection shall be made of trucks and trailers with particular attention to steering apparatus, brakes, boosters, brake hoses and connections, reaches, and couplings. Any defects found shall be corrected before equipment is used. (6-30-19)T

05. Stakes, Bunks, or Chock Blocks. All stakes and bunks, installed on log trucks and trailers, together with the means provided for securing and locking the stakes in a hauling position, shall be designed and constructed of materials of such size and dimensions that will withstand a pressure of fifteen thousand (15,000) pounds applied outward against the tops of the stakes, and, or extensions when used, without yield or permanent set resulting in the stakes, bunks or the means provided for securing and locking the stakes.

   NOTE: Test Procedure - A test pressure of fifteen thousand (15,000) pounds is applied to the top of one (1) stake, using the top of the stake opposite as a base for applying pressure. Bunk is not to be secured to floor or other base except in a manner similar to that used to mount it to truck or trailer. Stakes must return to normal upright position at end of test and stakes and all component parts examined and checked with original specifications. If no yield results in any part, the design and construction may be considered as meeting code requirements. (6-30-19)T

06. Stake Extensions. (6-30-19)T
   a. Stake extensions shall not be used unless all component parts of the bunking system are of sufficient size and strength to support the added stresses involved. (6-30-19)T
   b. Truck drivers shall report missing or broken stake extensions to the proper authority. (6-30-19)T

07. Stake and Chock Tripping Mechanisms. Stakes and chocks that trip shall be constructed in such a manner that the tripping mechanism, which releases the stake or chocks, is activated at the opposite side of the load from the stake being tripped. (6-30-19)T

08. Linkage for Stakes or Chocks. (6-30-19)T
   a. The linkage used to support the stakes or chock must be of adequate size and strength to withstand the maximum imposed impact lead. (6-30-19)T
   b. “Molly Hogans” or cold shuts are prohibited in chains or cable used for linkage. (6-30-19)T
09. **Notify Engineer When Around Truck.**  
   a. Persons shall not walk along side of or be underneath any truck being loaded.  
   b. Prior to performing any duties, such as releasing bunk locks, placing or removing compensating pin, scaling logs, reading scale, chopping limbs or making connections, persons shall notify the loading engineer of their intentions and be acknowledged.  

10. **Number of Wrappers Required.**  
   a. Each unit used for hauling logs longer than twenty six (26) feet, shall have the load secured by a minimum of three (3) wrappers, one within six (6) feet of each bunk. See Figure 010.10-A.  

**FIGURE 010.10-A**

LONG LOG LOADS

b. All exposed outside logs shall be secured by one (1) wrapper passing near each end of the log. See Figure 010.10-A.
FIGURE 010.10-B

SHORT LOG LOADS

LONG LOG LOAD WITH SHORT LOGS IN REAR OR IN FRONT
c. On one (1) log load where trailer bunk is equipped with cheese blocks, one (1) wrapper securing log to the trailer bunk will be sufficient. Outside wrappers on short logs shall have a minimum of six (6) feet spread. (See Figure 010.10-C.)

NOTE: High loads are defined as logs loaded above bunk stakes.
11. **Requirements for Crosswise Loaded Trucks.**

   a. When loads of short logs are loaded crosswise, the logs shall be properly contained by use of stake or chock blocks and shall be secured by a minimum of two (2) wrappers. (See Figure 010.11-A.)

   b. Binders shall be securely fastened to the vehicle.

12. **Construction of Wrappers.**

   a. Cables shall have a spliced eye or swaged fittings.
b. “Molly Hogans” or cold shuts are prohibited to make splices or connections. (6-30-19)T

c. Wrappers shall have a minimum breaking strength of not less than thirteen thousand (13,000) pounds. (6-30-19)T

13. Binder Placement Requirements. (6-30-19)T
a. Binders shall be placed in a manner whereby they will be released on the side opposite the brow log, or on the side where the unloading equipment operator can see the binders. (6-30-19)T

b. Truck drivers shall be required to stop vehicles, dismount, check and tighten loose load binders, either just before or immediately after leaving a private road to enter the first public road they encounter. (6-30-19)T

14. Precautions When Placing or Removing Binders and Wrappers. (6-30-19)T
a. Binders and wrappers shall remain on the load until an approved safeguard has been provided to prevent logs from rolling off the side of truck where binders are being released. (6-30-19)T

b. At least one (1) wrapper shall remain secured while relocating or tightening other binders. (6-30-19)T

15. Binders and Wrappers to Be Placed Before Leaving Landing Area. Binders and wrappers shall be placed and tightened around the completed load before shifting the load for proper balance and a wrapper or wrappers shall be placed and secured to hold the load in place before the truck is moved from the landing area or out of sight of the landing crew. (6-30-19)T

16. Adequate Reaches Required. (6-30-19)T
a. Log trailers must be connected to tractors by reaches of a size and strength to withstand all imposed stresses. (6-30-19)T

b. Spliced reaches shall not be used. (6-30-19)T

c. Documented reach inspections shall be performed annually. (6-30-19)T

17. Proper Lay of Logs in Stakes or Bunks. (6-30-19)T
a. The method of loading shall be such that the logs in any tier or layer unsecured by stakes or cheese blocks shall have their centers inside of the centers of the outer logs of the next lower tier or layer so that the load is stable without the aid of binders. (6-30-19)T

b. Logs shall be well saddled without crowding so that there will be no excessive strain on the wrappers or stakes. (6-30-19)T

c. No more than one half (1/2) of any log shall extend above the stakes unless properly and securely saddled. (6-30-19)T

d. Bunk logs shall extend not less than twelve (12) inches beyond the bunk, with the exception of non-oscillating bunks. (6-30-19)T

18. Traffic Travel on Right Side of Road Except Where Posted. All trucks shall keep to the right side of the road, except where road is plainly and adequately posted for left side traveling. (6-30-19)T

19. Towing of Trucks. When trucks must be towed on any road, the person guiding the vehicle being towed shall, by prearranged signals, govern the speed of travel. (6-30-19)T
20. **Scaling and Branding.** When at the dump or reload and where logs are scaled or branded on the truck, the logs shall be scaled or branded before the wrappers are released. (6-30-19)T

21. **Metal Parts Between Bunk and Cab to Be Covered.** Suitable material shall be used on treading surfaces between the bunk and cab to prevent persons from slipping on the metal parts. (6-30-19)T

22. **Bunks to Be Kept in Good Condition and Repair.**
   a. Log bunks or any part of bunk assembly bent enough to cause bunks to bind shall be straightened. (6-30-19)T
   b. Bunks shall be sufficiently sharp to prevent logs from slipping. (6-30-19)T

23. **Following Other Vehicles.**
   a. A vehicle not intending to pass shall not follow another vehicle closer than one hundred fifty (150) feet. (6-30-19)T
   b. Passing shall be done only when it can be done safely. The passing vehicle shall consider all factors which may be essential, such as condition of the roadway, width of the road, and distance of clear visibility ahead. (6-30-19)T

24. **Reaches to Be Clamped When Towing Unloaded Trailer.** A positive means, in addition to the clamp, shall be installed on the reach of log truck trailers when the trailers are being towed without a load. (6-30-19)T

25. **Inserting of Compensating Pin.**
   a. Persons shall never enter the area below suspended logs or trailers. (6-30-19)T
   b. At dumps where the load must remain suspended above the bunks until the truck is moved away and when the trailer is the type with a compensating pin in the reach, a device shall be installed that will allow the trailer to be towed away from the danger area. (6-30-19)T

26. **Safety Chains.**
   a. All trailers shall be secured with a safety chain, or chains, which connect the frame of the truck assembly to the trailer unit. (6-30-19)T
   b. The chains shall be capable of holding the trailer in line in case of failure of the hitch assembly. (6-30-19)T

502. **STEERED TRAILERS.**

01. **Steered Trailers.** Steered trailers not controlled from the truck cab shall be designed, constructed, and operated in accordance with this section. (6-30-19)T
   a. Secure seat. A secure seat with substantial foot rests shall be provided for the steerer at the rear of the bunk. Any arrangement that permits the steerer to ride in front of the bunk is prohibited. (6-30-19)T
   b. Unobstructed exit. The seat for the steerer shall be so arranged that the steerer has an unobstructed exit from both sides and the rear. (6-30-19)T
   c. Bunk support. The bunk support shall be so constructed that the steerer has a clear view ahead at all times. (6-30-19)T
   d. Adequate means of communication. Adequate means of communication shall be provided between
the steerer and the truck driver. (6-30-19)T

e. Eye protection and respirator. Eye protection and respirator shall be provided for the steerer. (6-30-19)T

f. Fenders and splash plates. The trailer shall be equipped with fenders or splash plates to protect the steerer from mud and dust so far as possible. (6-30-19)T

g. Lights. If used during a period of reduced visibility on roads not under the control of the Idaho Transportation Board, counties or cities, the trailer shall be equipped with head, tail and stop lights. (6-30-19)T

503. COMMON CARRIERS.

01. Responsibility. It shall be the responsibility of the common carrier, and particularly the operator of the common carrier, upon entering the premises of any sawmill, woodworking or allied industry, to exercise all possible caution and to use all necessary safety devices and precautions to their fullest extent. (6-30-19)T

02. Audible and Visual Warning Devices. (6-30-19)T

a. All common carriers equipped with audible and visual warning devices shall activate such warning devices before entering a danger zone, and they shall remain activated as long as the carrier is moving in that zone. (6-30-19)T

b. A danger zone shall be defined as an area where men or vehicles are working or normally work. (6-30-19)T

03. Train Operations. When a train is operating on a plant railway system, the safety rules shall apply as outlined by the Association of American Railroads governing train, engine and transportation of employees. (6-30-19)T

504. SELF-LOADING LOG TRUCKS.

01. Self-Loading Log Trucks. Self-loading log trucks manufactured after January 1, 1981, shall be equipped with:

a. A load check valve (velocity fuse) or similar device installed on the main boom. (6-30-19)T

b. A seat that is offset from the point of attachment of the boom. The seat and boom structure shall rotate concurrently. (6-30-19)T

02. Operator. The operator of a self-loading log truck shall not:

a. Heel the log over his head; or (6-30-19)T

b. Heel the log on the operator side of the boom of the seat if offset from the point of attachment of the boom. (6-30-19)T

03. Safe and Adequate Access. A safe and adequate means of access to and from the loading workstation on self-loading log trucks shall be provided. (6-30-19)T

04. Overhead Hazards. A self-loading log truck shall not load itself or another truck when the loading process is under or within a guyline circle or similar overhead hazard. (6-30-19)T

05. Trailers Secured. Self-loading truck trailers shall be secured to the truck when the trailer is being hauled on the truck. (6-30-19)T

505. -- 550. (RESERVED)
Subchapter L - Log Dumps, Landing, Log Handling Equipment, Loading and Unloading Booms, Log Ponds, Rafting, Towing, Stiff Booms, Boom Sticks and Foot Logs, Pond Boats and Tow Boats and Trailer Loading Hoists
(Rules 551 through 600)

551. SPECIFIC REQUIREMENTS.

01. Log Dumps, Landings, Log Handling Equipment, Loading, and Unloading. (6-30-19)

a. Only authorized persons shall operate log handling equipment. Machine operators shall be capable and experienced personnel. No persons other than the operator may be in the operator’s compartment while machinery is operating, except for purposes of operating instructions. Unnecessary talking to the operator of log handling equipment while the machine is in operation is prohibited. (6-30-19)

b. Machine operators shall make necessary inspection of machines each day before starting work. All repairs or adjustments shall be made before any strain or load is placed upon the equipment. (6-30-19)

c. Substantial barriers or bulkheads protecting the operator shall be provided for all log handling machines where the design, location, or use of such machines exposes the operator to material or loads being handled. Such barriers or bulkheads shall be of adequate area and capable of withstanding impact of materials handled. (6-30-19)

d. A safe and adequate means of access to, and egress from, the operator’s station shall be provided. Necessary ladders, steps, step plates, foot plates, running boards, walkways, grab irons, handrails, etc., shall be provided and maintained. (6-30-19)

e. All moving parts shall be guarded in an approved manner to afford complete protection to the operator and other workers. (6-30-19)

f. Throttles and all power controls shall be maintained in good operating condition. (6-30-19)

g. Landings shall be prepared and arranged to provide maximum safety for all employees and shall provide ample space for the safe movement of equipment and storage and handling of logs. (6-30-19)

h. Adequate means shall be used to prevent logs from rolling into the road or against trucks. Workers shall be sure that logs are securely landed before approaching them. While unhooking chokers, workers shall choose the safest approach. This is usually from the upper side of the log. (6-30-19)

i. Logs shall not be landed at loading areas until all workers, tractors, trucks, or equipment are in the clear. All persons shall stay in the clear of running lines, moving rigging, and loads until rigging or loads have stopped. (6-30-19)

j. The loading machine shall be set so that the operator shall have an unobstructed view of the loading area, or a signalman shall be properly placed and his signal shall be followed. Signaling the operator shall be done by standard hand signals, whistles, or other positive means of communication. (6-30-19)

k. Machines, sleds, or bases shall be of sufficient strength to safely withstand moving, and machines shall be securely anchored to their bases. (6-30-19)

l. Mufflers shall be installed on all internal combustion engines of log handling equipment and located or guarded in such a manner as to prevent accidental contact with the muffler or exhaust pipes and afford protection from fumes. (6-30-19)

m. Brakes shall be installed on all machine drums and maintained in effective working condition. (6-30-19)
n. Brake levers shall be provided with a ratchet or other equally effective means for securely holding the drum.  
(6-30-19)

o. Brake bands shall have a safety factor of five (5) times the stress to be imposed and they shall be of a design which will render them impervious to exposure. Operators shall test brakes before lifting any load at the start of each shift.  
(6-30-19)

p. In no case shall stresses in excess of the manufacturer’s recommendation be permitted. Equipment not carrying a manufacturer’s recommendation shall not exceed stresses of more than one half of the yield strength of the material used. Conversion of cranes, shovels, etc., into yarders shall be in conformity with these rules. Necessary guylines or outriggers shall be provided and used to effectively prevent mast, A-frames, etc., from tipping or overturning.  
(6-30-19)

q. The manufacturer’s recommendations for line sizes, if in compliance with these rules, shall be followed and such line sizes shall not exceed the rated capacity of the machine using it.  
(6-30-19)

r. Fork lifts or arms, tongs, clams or grapples shall be lowered to their lowest position and all equipment brakes set before the operator leaves the machine.  
(6-30-19)

s. Log unloaders shall not be moved about the premises for distances greater than absolutely necessary with the lift extended or with the loads higher than necessary for clear vision.  
(6-30-19)

t. All log handling machines which have lift arms that create a shear point with the driver’s cab or position shall be provided sheer guards that will eliminate the operator’s exposure to such hazard. Grapple arms or other positive means of keeping logs on the forks shall be required on fork lift-type loading machines.  
(6-30-19)

u. All workers shall be in the clear and in view of the machine operator before a lift is made.  
(6-30-19)

v. All mobile log handling machines shall be equipped with rearview mirrors, a horn or other audible warning device, and lights front and rear so as to illuminate the entire length of the load being lifted or carried. An automatic warning device that will activate when the vehicle is moved is preferable in areas where other workers are employed.  
(6-30-19)

w. Logs or loads shall not be swung over occupied equipment or workers and no person shall ride the load or rigging.  
(6-30-19)

x. While logs are being loaded, no person shall remain on the chain deck or behind the truck cab protector where they could be pinned between the end of a log and cab, tank, or cab protector. Cab protectors shall be cleaned of all loose gear before trucks are moved from the landing.  
(6-30-19)

y. An unimpaired clearance of not less than three (3) feet shall be maintained from swinging or moving parts of machines, where such swinging or moving parts create a hazard to personnel. If this clearance cannot be maintained, suitable barricades or safeguards shall be installed to isolate the hazardous area.  
(6-30-19)

z. A-frames, towers, masts, etc., shall be designed and constructed to provide adequate structural strength and height for positive control of materials or loads lifted. When in use, they shall be guyed or braced to provide stability and prevent tipping. Their bases shall be secured against possible displacement.  
(6-30-19)

aa. When moving machines on sleds, etc., stumps shall be used, when available, in preference to trees. These stumps shall be carefully examined to make sure that they will safely withstand the strains imposed by moving. If there is any doubt, the stumps shall be tied back. Insecure trees used for holds shall be guyed. Workers shall stand in the clear while pulls are being made. When holds are being changed, the machine shall be secured with a separate line if there is danger of the machine sliding. When snubbing machines down steep grades, the main line shall be used for snubbing and the haul back for pulls. Only the operator and those required to assist him shall ride on the machine while it is being moved.
NOTE: All lines, blocks, etc., and their use shall be in conformity with the applicable provisions of the “‘Rigging, Lines, Blocks, and Shackles’ (IDAPA 07.08.09) of this Standard.

bb. All log handling equipment shall be equipped with brakes capable of holding and controlling the vehicle with capacity load.

c. A limit stop which will prevent the lift arms from over-traveling shall be installed on all electric powered log unloaders.

d. Gas powered vehicles shall not be refueled while motor is running nor in the vicinity of smoking or open flames.

e. All log handling equipment shall be equipped with approved fire extinguisher of at least five (5) B.C. rating easily accessible to operator.

ff. Methods of unloading logs shall be properly arranged and used in a manner to provide protection to all employees.

g. A substantial log dump shall be constructed at each log pond or mill dumping ground. The road bed shall be of hard packed stone, heavy planking or equivalent material.

hh. Where logs are dumped directly into water from truck or rail car, a substantial brow log eighteen (18) inches or more in diameter shall be provided and securely anchored.

ii. After cars or trucks are spotted at such dump or landing, no person will be permitted to pass between a brow log and a truck or rail car.

jj. The use of plain end hooks without a bell is prohibited. Loading hooks shall be kept in good repair at all times. They shall be equipped with at least one half (1/2) inch diameter hand ropes in good condition and of sufficient length for workers to be in the clear. When carrying tongs, they shall not be rested on both shoulders with points around the neck.

kk. Where there is danger of tongs or hooks pulling out of the logs, straps shall be used.

ll. All equipment should be so positioned, equipped, or protected so that no part shall be capable of coming within ten (10) feet of any power line.

mm. Bunk logs shall extend not less than twelve (12) inches beyond the bunks, with the exception of non-oscillating bunks.

nn. The method of loading shall be such that the logs in any tier or layer unsecured by stakes or cheese blocks shall have their centers inside of the centers of the outer logs of the next lower tier or layer so that the load is stable without the aid of binders. Logs shall be well saddled without crowding so that there will be no excessive strain on the binders, bunk chains, or stakes. No more than one half (1/2) of any log shall extend above the stakes unless properly and securely saddled.

oo. Binders shall be so placed that they will not be fouled by the unloading machine and that they may be released from the side on which the unloader operates. Proper protection shall be provided for workers while removing wrappers.

pp. Whenever loads consist of logs to be dumped at different landings, lots shall be separated with gut wrappers. Wrappers shall be used for the entire load, as required for single unit loads. Not more than two (2) lots shall be loaded on a single vehicle.

qq. Truck drivers shall be in the clear and in view of the log unloader operator before forks are moved into the load or against it, before a lift is made. All persons are prohibited from standing under, or near, the ends of logs being lifted or moved.
rr. Loads or logs shall not be moved or shifted while binders are being applied or adjusted.

NOTE: For logs in transit see “Log Truck Transportation” (IDAPA 07.08.12, Section 010). (6-30-19)

ss. The unloading machine or lines shall be so positioned to securely hold the logs to keep them from rolling off on the side from which the wrappers, bunk blocks, or stake trips are being released, and they shall not be released until the machine is so placed. Signs to this effect shall be prominently posted at each landing or dump. An extra wrapper shall be placed to hold the logs if it becomes necessary to move a wrapper to prevent it from being fouled by the unloading machine. Stake finger trips shall be released by using rip chains. The use of hammers, peaveys, etc., is strictly prohibited. (6-30-19)

tt. All log dumps, trailer loading areas, and landings shall be kept reasonably free from bark and other debris. (6-30-19)

uu. Artificial log ponds, subject to stagnation, shall be drained and refilled at such intervals necessary to keep them in a sanitary condition. (6-30-19)

vv. Logs in storage decks shall be so arranged as to prevent logs from rolling off the face of the deck. (6-30-19)

ww. All log load wrappers shall be arranged so that they must be released in view of the unloader operator or signal person. When binders are released by remote control devices and when the person releasing the binders is in a safe location, and when in view of the unloading operators, or signal person, the binders may be released from either side. After the unloading machine is in position to hold the load, the binders shall be removed and the person removing them shall be in a safe location in view of the operator. The operator will be given a signal by the person releasing the binders before the machine or load is moved. (6-30-19)

02. Log Ponds. (6-30-19)

a. Pond walks shall be kept in good repair and free of protruding nails and obstructions. (6-30-19)

b. Persons working on logs or around booms in water shall wear sharp calked shoes. When conditions such as snow and ice render calks ineffective, other types of shoes with “safety soles” may be worn. (6-30-19)

c. Approved buoyant life vests or life jackets shall be worn and fastened by the persons working on water. (6-30-19)

d. Pike poles shall be of metal, fiberglass, or continuous, straight-grained No. 1 wood material. Metal or conductive pike poles shall not be used around exposed electrical conductors. Defective poles, blunt or dull pikes shall not be used. They shall be restricted to the use for which they are intended. (6-30-19)

e. Sufficient walkways and floats shall be proved and securely anchored to insure the safe passage of workers. (6-30-19)

f. Decks of floats or other walkways shall be kept reasonably level and above the waterline at all times and shall be capable of supporting four (4) feet from log haul. (6-30-19)

g. Pond walkways shall be at least four (4) feet or more in width for a distance of at least forty (40) feet from log haul. (6-30-19)

h. Gaps between end of boom sticks or walkways shall not be over twenty four (24) inches. (6-30-19)

03. Booms-Rafting-Towing. (6-30-19)

a. Life rings with a minimum of fifty (50) feet of approved line attached shall be provided at
convenient points where water is more than five (5) feet in depth. Life rings shall be maintained so as to retain their positive buoyancy. (6-30-19)

b. Workmen, whose duties require them to work from boats or from floating logs, boom sticks, or walkways along or on water, shall be provided with and shall wear approved, positive, buoyant equipment while performing such duties. (6-30-19)

04. Stiff Booms. (6-30-19)
a. All stiff booms shall be made of not less than two (2) boom sticks. Width of stiff booms shall be not less than thirty-six (36) inches from outside to outside float logs. Float logs shall be fastened together with not less than four by six inch (4” x 6”) cross ties, or equivalent, or cable lashings notched into float logs. All stiff booms and floating walkways shall be decked with not less than two by six inch (2” x 6”) planking and kept free of snow and other debris. (6-30-19)
b. All sorting gaps shall have a substantial stiff boom on either side of gap. Stiff booms or walkways shall be planked over with not less than two by six inch (2” x 6”) or wider planks and shall be kept free of tripping hazards. (6-30-19)

05. Boom Sticks and Foot Logs. (6-30-19)
a. All regular boom sticks and foot logs shall be made of sound straight timber and shall be free of protruding knots and bark, and shall be of a size to support two (2) workers above the water line. (6-30-19)
b. Boom sticks which have been condemned shall be marked with three (3) chopped crosses ten (10) feet from the butt end and shall not be reused as boom sticks. (6-30-19)
c. Gaps between ends of boom sticks shall not be over twenty four (24) inches. All wire shall be removed from boom sticks or boom chains before they are reused or stored. (6-30-19)
d. When power driven machinery is used on booms or sorting jacks, it shall be placed on raft or float with enough buoyancy to keep machine well above waterline. If electric power is used it shall be grounded in an approved manner. Electric powered hand tools shall not be used unless the tool has a positive ground. (6-30-19)
e. When dog lines become hazardous, they shall be discarded. (6-30-19)
f. Booms, ponds, sorting jacks or walkways, shall be provided with sufficient illumination for all employees to have clear vision at all points where work is being carried on. (6-30-19)

06. Pond Boats and Tow Boats. (6-30-19)
a. All persons whose duties require them to work from boats, floating logs, boom sticks, or floating walkways shall wear sharp calked shoes. When conditions render calks ineffective, other approved foot gear may be worn. (6-30-19)
b. All metal decks of pond boats or tow boats shall be covered with a material that will prevent slippage of calks. (6-30-19)
c. All boats used by workmen shall be provided with at least one (1) life ring with fifty (50) feet of approved line attached. (6-30-19)
d. All power boats shall be provided with one (1) or more approved fire extinguishers of five (5) B-C rating or more for each fifteen (15) feet in length. (6-30-19)
e. Power boats shall not be re-fueled while the motor is running. (6-30-19)
f. All powered boats shall be vented in accordance with U.S. Coast Guard Regulations. (6-30-19)
g. All powered boats shall conform to operating requirements of the U.S. Coast Guard where applicable.

07. **Trailer Loading Hoist/Sawmill Log Dump.**

a. The hoist shall be designed and constructed in accordance with the National Electrical Code, so as to provide safe loading or unloading of the trailer.

b. The hoist shall be equipped with a limiting device to maintain safe take-up limits of line on the hoisting drum.

c. Regular service and inspection of the hoist and hoisting equipment shall be made to assure reliable serviceability of the facility.

552. -- 600. (RESERVED)

Subchapter M - Helicopter Logging

(Rules 601 through 650)

**601. GENERAL REQUIREMENTS.**
Safety requirements are as follows:

01. **Briefings.** Prior to each day’s operation, a briefing shall be conducted. This briefing shall set forth the daily plan of operation for the pilot and ground personnel.

02. **Personal Protective Equipment.** Personal protective equipment for employees receiving the load shall, as a minimum, consist of complete eye protection and hard hats secured by chinstraps.

03. **Loose-Fitting Clothing.** Loose-fitting clothing likely to flap in the downwash, and perhaps be snagged on the hoist line, shall not be worn.

04. **Reduced Visibility.** When visibility is reduced by dust or other conditions, ground personnel shall keep clear of main and stabilizing rotors.

05. **Unauthorized Personnel.** No unauthorized person shall be allowed to approach within fifty (50) feet of the helicopter when the rotor blades are turning.

06. **Approaching or Leaving Helicopter.** All employees approaching or leaving a helicopter with blades rotating shall remain in full view of the pilot and remain in a crouched position.

07. **Areas to Avoid in Helicopter.** Employees shall avoid the area from the cockpit or cabin rearward unless authorized to be there by the helicopter operator.

08. **Approach and Departure Zones.** Helicopter approach and departure zones shall be designated and no equipment or personnel will occupy these areas during helicopter arrival or departure.

09. **External Loads.** Helicopters with an external load shall not pass over areas where fallers are working.

10. **Open Fires.** Open fires shall not be permitted in an area that could result in such fires being spread by rotor downwash.

11. **Compliance with FAA Regulations.** Helicopter operations shall comply with any applicable regulation of the Federal Aviation Administration.

12. **Protective Precautions.** Every practical precaution shall be taken to provide for the protection of
employees from flying objects in the rotor downwash. (6-30-19)

602. SPECIFIC REQUIREMENTS.

01. Signal Systems. (6-30-19)

a. Signal systems between air crew and ground personnel shall be understood and checked before hoisting the load. This applies to either radio or hand signal systems. (6-30-19)

b. There shall be constant reliable communication between the pilot and a designated signalman during the period of loading and unloading. (6-30-19)

c. The helicopter shall be equipped with a siren to warn workers of hazardous situations. (6-30-19)

02. Loading Logs. (6-30-19)

a. It shall be the responsibility of the firm, supervisor, or person who is in charge of the actual loading operation to comply with the provisions of these rules applicable to log loading. (6-30-19)

b. The helicopter operator shall be responsible for the size, weight and manner in which loads are attached to the helicopter. If, for any reason, the helicopter operator believes the lift cannot be made safely, the lift shall not be made. (6-30-19)

c. When employees are required to perform work under hovering aircraft, a safe means of access shall be provided for employees to reach the hoist line hook and engage or disengage cargo slings. (6-30-19)

d. Employees shall not work under hovering aircraft except while hooking or unhooking loads. (6-30-19)

e. The weight of an external load shall not exceed the manufacturer’s rating. (6-30-19)

f. The hook-up crew shall not work on slopes below felled and bucked timber when an unsafe situation exists. Culls left, which have a potential of rolling, should be moved to a safe position. (6-30-19)

03. Loading and Landing Areas. (6-30-19)

a. The minimum dimensions of a drop zone shall be determined by the length of the logs being hauled. All zones shall be at least one and one-half (1 1/2) times as long, and as wide as the length of the average log being harvested. (6-30-19)

b. Landing or loading machinery shall be a reasonable distance away from where logs are to be landed. (6-30-19)

c. Landing crew shall be in the clear before logs are landed. (6-30-19)

d. The approach to the landing shall be clear and long enough to prevent tree tops from being pulled onto the landing. (6-30-19)

e. Separate areas shall be designated for landing logs and fueling helicopters. (6-30-19)

f. Sufficient ground personnel shall be provided for safe helicopter loading and unloading operations. (6-30-19)

g. A clear area shall be maintained in all helicopter loading and unloading areas. (6-30-19)

h. Emergency landing areas for injured workers shall be located within a reasonable distance from all working areas. (6-30-19)
04. **Hooks and Chokers.**

a. The electrical activating device of all electrically operated cargo hooks shall be designed and installed to prevent inadvertent operation. In addition, these cargo hooks shall be equipped with an emergency mechanical control for releasing the load.

b. Logs will be laid on the ground and the helicopter completely free of the chokers before workers approach the logs.

c. One (1) end of all the logs in the turn shall be touching the ground and at an angle no greater than forty-five degrees (45°) before the chokers are released.

d. If the load must be lightened, the hook shall be placed on the ground on the uphill side of the turn before the hooker approaches to release the excess logs.

603. -- 650. (RESERVED)

**Subchapter N - Recommended Safety Program**

(Rules 651 through 700)

651. **INTRODUCTION.**

01. **Scope.**

a. These rules are part of the accident prevention program of the state of Idaho. This program is dedicated to the safety and well-being of all workers in Idaho’s logging industry. It has been established according to the processes prescribed by law.

b. These rules contain the primary safety rules for the logging industry. However, other Idaho Safety Standards promulgated and adopted by the Industrial Commission shall be applicable to this industry where not inconsistent with the provisions herein, or where any particular activity which is being carried on is not specifically covered or regulated herein.

02. **Enforcement.** The enforcement of these rules is the responsibility of the Division of Building Safety. These rules will not serve their purpose if their requirements are considered anything but a minimum for safe operation. So much variation exists in the logging industry that each operation should be judged, not by its compliance to the letter of this Standard, but according to a higher standard -- that of absolute safety under all conditions.

03. **Accident Prevention.** Accident prevention is often a problem of organization and education. It does not succeed solely on detailed safety codes but consists largely of the desire to institute a common sense safety program and determination to carry out the program effectively. Effective accident prevention embodies the following five (5) principles: management leadership; employee cooperation; effective organization; thorough training; and good supervision.

652. **FIRE AND SAFETY POLICY.**

01. **Elements.** The basic elements or management responsibility for fire and safety policy are enumerated in this section.

02. **Management Leadership.** The establishment of the safety policy should be made clear to all levels of supervision, purchasing, engineering, industrial and construction; and communicated to all employees that top management has approved the operation’s safety program.

03. **Planning.** The program should be based on the following: accounting record of safety cost, accident recording system, accident investigation recommendations, operation inspection recommended corrections,
employee suggestions, and job analysis to determine the work hazards. The hazard appraisal can be summarized as follows: mechanical and physical hazards; environmental hazards; and work procedure and practices.

04. Management Discharge of Duty. (6-30-19)T

a. If management is to discharge its duty in proper directing of the fire and safety program, it must organized a definite planned program of continuous supervision and leadership by all facets of the management organization. The very fact that safety must be woven into all operations and activities should not require extra managerial time beyond the ordinary to operate a business successfully, i.e., if the entire management team will assume their safety responsibility. (6-30-19)T

b. The first task of management is to determine the operational hazards. Once these are ascertained and appraised, suitable corrective action can be initiated. If the working unit is operating, the following specific activities should be carried out to find the hazards. These are: job inspection; job analysis; accident investigation (near accident, non-disabling injuries) to determine necessary remedial action to prevent reoccurrence of the accident. (6-30-19)T

05. Hazard Appraisal. The partial list of terms covered by appraisals are summarized briefly as follows: mechanical and physical hazards; adequacy of mechanical guarding of machines and equipment; preventing the use of inferior manufactured and unsafe supplies, equipment, chain, cables, sheaves, tires, power saws, tractor canopy guards, approved head protection, fire extinguishers, solvents, mill saws, etc.; and physical exhaustion such as may be caused by excessive work hours by truck drivers and mill maintenance employees. (6-30-19)T

06. Environmental Hazards Inherent to the Operation. (6-30-19)T

a. Personal protection devices (approved head protection, ear plugs, knee pads, proper eye protection, respirators, etc.) (6-30-19)T

b. Storage and use of flammable liquids and gases (gasoline, diesel, acetone, acetylene, acids, etc.) (6-30-19)T

c. All employees should be familiar with proper work signals (falling, blasting, high lead signals, loading, mill signals, operation fire signal, etc.) (6-30-19)T

d. Noise and fatigue hazards that are inherent to the industry (planers, cutoff saws, jack hammers, etc.). (6-30-19)T

07. Work Procedures and Practices. (6-30-19)T

a. Hazards directly related to work practices should be carefully observed and evaluated. (6-30-19)T

b. Work practices that should be investigated include, but are not necessarily limited to: use, care and maintenance of hand and portable power tools; degree of supervision given the worker; the extent of job training provided; the safety indoctrination and training of new or transferred employees; the proper use of fire extinguishers; the use of personal protective devices (approved head protection, shoes, etc.); and the repair and maintenance of equipment with respect to machines, mechanical handling equipment, log loaders, yarding equipment, tractors, fork lifts, overhead cranes, headrigs, etc.; (6-30-19)T

08. Reporting of Injuries. (6-30-19)T

a. The employer shall instruct all employees to report all job injuries to the supervisor at the time injuries occur. The employer shall check specifications for new machines, processes and equipment for compliance with existing safety standards, laws and safety requirements, and shall have such equipment fully inspected before it is placed in use. (6-30-19)T

b. The employer is responsible for reporting all industrial lost time injuries to the Industrial Commission within forty-eight (48) hours. (6-30-19)T
c. The employer is responsible for reporting all in-patient hospitalization, amputation, or the loss of
an eye for any employee to the Occupational Safety and Health Administration (OSHA) and the Division of Building
Safety Logging Safety Program within twenty-four (24) hours. (6-30-19)

09. Fatalities. All work fatalities should be immediately reported to the County Sheriff or Coroner, the
Division of Building Safety Logging Safety Program, and OSHA in accordance with the Code of Federal
Regulations, 29 CFR 1904.39. (6-30-19)

10. Management of Personnel. (6-30-19)

a. The recruiting and placing of a new worker on the job is a major responsibility of the management
organization. Every effort should be made to match the qualifications of the worker with the demands of the job.
(6-30-19)

b. The furnishing of first aid services, treatment of injuries, and inspection of working conditions is
the employer’s responsibility. (6-30-19)

11. Assignment of Responsibilities. (6-30-19)

a. Supervisors, purchasing agents, engineering personnel, safety directors, personnel directors, and
employees have responsibilities to ensure conformance with the organization’s fire and safety objectives in every
operation. (6-30-19)

b. Management must accept the normal obligation for preventing accidents. In many operations it is a
practice to delegate the actual administration of the safety program to a person who can devote full-time to it. In
smaller operations, safety administration may be a collateral duty carried on in conjunction with some other duties.
The safety director should function in a staff capacity. Because the safety director operates in a consultant capacity,
ultimate responsibility for accident prevention rests with the workers’ supervisor, the foreman and line production
organization. There is no doubt that the foreman is the key person in every safety program. Safety is not something
separate and apart from production. If the job is done right, it is done safely. (6-30-19)

c. Safety is an integral and important part of production, just as is quality and quantity, or meeting
production schedules. (6-30-19)

d. All these duties are foreman or project superintendent duties, and the most important part of the
line production organization. This obligation cannot be delegated. As the person in charge of production, the foreman
is responsible for the safety of his people. This fact must be made clear and should be included in the statement of
policy. (6-30-19)

12. Safety Director (Part-Time or Full-Time): (6-30-19)

a. Makes periodic inspections of the operations and suggests corrective measures to eliminate
hazards. (6-30-19)

b. Should assist in investigation of all types of accidents to determine the cause, so as to prevent like
accidents in the future. (6-30-19)

c. Aids foremen in developing safe work procedures and practices and assists foremen in training
their workers. (6-30-19)

d. Keeps accident records and makes periodic reports to the proper official on the progress being
made. Reports and records; report of accidents; accident investigation report; performance report (injury frequency
and severity); accident cost report; safety committee reports; report on degree of corrective action taken on different
recommendations. (6-30-19)

e. Conducts or initiates safety training courses including first aid and fire fighting, where appropriate,
and any other course inherent to the job (truck driver courses, power saw courses, welding, grinder usage, fork lift truck operator, etc.).

f. Establishes safety committee. (6-30-19)

g. Ensures that recommendations are promptly and properly implemented. (6-30-19)

h. Checks specifications for new machines, processes and equipment for compliance with existing safety standards, laws and safety requirements, and shall have such equipment fully inspected before it is placed in use. (6-30-19)

i. He shall assist the safety committee in developing agendas for their meetings. (6-30-19)

13. **Foreman Responsibilities.** It is widely accepted that the foreman is the key man in attaining proper work habits in any operation. It is the obligation of management to give the most careful attention to the selection, education, and training of foremen and train them in the proper way to train employees in correct and safe work methods to attain the best production in the safest way. (6-30-19)

14. **First Aid Training.** It shall be the responsibility of management to arrange to have all employees take a full course in first aid training. It is required that supervisory personnel shall take an approved first aid course, and have a current first aid card. (6-30-19)

15. **Injury Record and Reporting System.**

a. If an employer had ten (10) or fewer employees at all times during the last calendar year, it does not need to keep OSHA injury and illness records unless OSHA or the Bureau of Labor Statistics (BLS) informs the employer in writing that it must keep records under OSHA regulations. However, as required by such regulations, all employers covered by the OSH Act must report to OSHA and the Division of Building Safety Logging Safety Program any workplace incident that results in a fatality or the hospitalization, the amputation of a limb, or the loss of an eye for any employee. (6-30-19)

b. For those employers subject to the injury and illness recording requirements under OSHA, the employer shall establish in its main Idaho office an injury record and reporting system which is consistent with reporting, record, and statistical requirements of the Occupational Safety and Health Administration (OSHA). (6-30-19)

c. Injury frequency rates shall be calculated annually commencing the first of January each year. These rates shall be kept on file in the office of the employer for at least four (4) years after the date of entry thereof, and shall be made available to the Division of Building Safety, upon request. (6-30-19)

d. The injury frequency rate shall be the number of lost time injuries to all employees per one million (1,000,000) man hours of exposure. The frequency rate is computed by multiplying the number of lost time injuries by one million (1,000,000) (the standard of measurement) and dividing the product by the total number of man hours worked during the period. The formula is expressed as follows: Frequency equals the number of lost time injuries times one million (1,000,000) total man hours of exposure. (6-30-19)

e. A lost time injury shall be the term applied to any injury, arising out of, and in the course of employment which makes it impossible for the injured person to return to an established regular job at the beginning of the next regular shift following the shift during which the injury occurred, or some future shift. (6-30-19)

f. Man hours of exposure shall be the total number of man hours actually worked by all personnel in the industrial unit during the period for which the rate is being computed. (6-30-19)

16. **Training and Education.**

a. Training and education includes:
i. Establishment of effective job training methods and safety education. (6-30-19)T

ii. First aid courses, proper work signals and job hazard warnings. (6-30-19)T

iii. Pamphlets, bulletin boards, safety meetings, posters, etc. (6-30-19)T

b. The employer shall establish an adequate job training and safety education program. The relationship of safety to job quality and modern quantity production methods should be clearly understood. Good work production is governed by careful planning and accurate control of all phases of the operation. Accidents are the result of inadequate planning of faulty operation. (6-30-19)T

c. Safety must be made an essential and integral part of every operation and integrated into the activity if the most successful quantity production is to be attained. The soundness of this statement has been proven many times by comparing the accident cost with the day by day curve of production. (6-30-19)T

d. It is the responsibility of management to train employees in all phases of the work they are assigned. The worker training should begin at the time of employment with a careful presentation of the general safety information the employee must have to work on and in logging and lumbering or wood working operations. When the worker is placed on the job, the worker must be given detailed training on proper work methods for accomplishment of the job. The correct way is the safe way. Telling is not training. (6-30-19)T

e. People learn to do things primarily through action. The employee’s job training should be given using the five (5) step job training method:
   i. Tell the employee; (6-30-19)T
   ii. Show the employee; (6-30-19)T
   iii. Have the employee do it; (6-30-19)T
   iv. Correct until the employee does it right; and (6-30-19)T
   v. Supervise to see that the employee keeps doing it right. (6-30-19)T

f. Education and promotion are a supplemental means of reducing injuries. This device employs any number of methods to accomplish results. A good program may use but will not overemphasize emotional appeal to the workers using such devices as scholarships, stamps, posters, safety meetings, contests, and awards. It is management’s responsibility to integrate education and training program and balance its effectiveness to employee training. Unsafe acts or unsafe work practices are the result of failure to train workers in safe work procedures. In establishing or operating a safe and quality work program, an appraisal of unsafe work procedures and poor quality of work is called for, and job training methods initiated to correct these practices. (6-30-19)T

17. Employer, Employee, and Labor Representative Cooperation. (6-30-19)T

a. The workers have a responsibility to obey the units safety rules, smoking rules, report unsafe conditions, to serve on the different safety committees, perform their work in a safe way, and to help fellow workers by showing them how to do their job safely. (6-30-19)T

b. Many safety programs fail because the worker has not been made to feel that it is their program; or that they can contribute as well as benefit from the program. It often fails because it lacks employee participation and interest. The fact that employees are given the opportunity to participate and to contribute to the program not only opens a reservoir of valuable information on practical experience in accident prevention, it also gives the employee a feeling of being a part of the organization. (6-30-19)T

c. The committee on safety should be made up of personnel selected from management and workers. Management members are supervisors and worker members may be selected by the union or by the employees. (6-30-19)T

a. The employer shall provide a safe and healthy work area in which to work, including purchasing of safe equipment and tools and provide proper maintenance of such equipment.

b. Since a safe and healthy place to work is the very foundation of the safety program, the mechanical, physical, and environmental conditions should be given first consideration.

c. For almost every accident there are typically two (2) contributing causes - an unsafe condition and an unsafe act. A safe and healthy place to work will diminish or eliminate the first cause, the unsafe condition; but unless the unsafe act is corrected, accidents will continue to occur. Unsafe acts may stem from a number of factors, such as improper selection of the worker for the job, lack of job training, physical or mental limitations or inadequate supervision. When a safety program is first established or a new project with a new crew is started, this may necessitate a thorough periodic survey of the entire operation to determine hazards.

a. The employees shall support and correct the findings of job analysis, inspections, accident investigations, employee suggestions, etc.

b. The assumption of responsibility for fire and accident prevention by management carries with it the continuing responsibility to assess the progress being made on the program, and where progress is unsatisfactory to take necessary steps to bring about improvement. Inspection alone is primarily a means of finding and eliminating fire and physical hazards, particularly in connection with enforcement. All educational and promotional activities should be integrated with inspection activities, and should be based on the specific needs of the establishment or operation. Inspection and educational and promotional programs are sometimes looked upon as entirely unrelated activities rather than a single integrated program.

c. None of the foregoing activities are of value unless followed by effective corrective action. The responsible executive within top management must establish specific procedures to effect proper and complete corrective action in each area for problems that occur. In well-managed organizations the areas of responsibility are clearly defined. The activities are well coordinated, supervision is adequate and proactive, employees’ safety behavior is excellent, and policies are well-defined to permit smooth organization. This is not difficult; the corrective measures are applied as part of the day to day operating procedure.

20. Safety Order By the Administrator. In accordance with the provisions of section 67-2601A (3), Idaho Code, the administrator may issue a safety order requiring an owner, operator or other party responsible for ensuring safe logging operations to immediately stop work or close any work site, or portion thereof where an inspection has revealed evidence of a condition that poses an immediate threat of bodily harm or loss of life to any person. The process governing the issuance of a safety order is contained herein this section.

a. Upon receiving information evidencing an unsafe condition or unsafe practices at any logging workplace or place of employment, the administrator shall inspect or cause to be inspected such place of employment unless such information was obtained by previous inspection of the Division. If upon such inspection the administrator determines that an unsafe condition or unsafe practice exists which may pose an immediate threat of bodily harm or loss of life, the administrator may issue a safety order requiring the employer to immediately stop work or close any work site, or portion thereof. Any safety order issued by the administrator shall specifically identify the unsafe condition or practice, as well as the safety risks associated therewith. Written notice of such order shall immediately be provided by the administrator to the owner or operator of the business, or any other appropriate party responsible for abating the unsafe condition or practice.

b. Upon receiving such notice from the administrator, such owner, operator or responsible party shall immediately comply with such, and may notify the administrator in writing of their objection to the notice and request to contest such at a hearing. The owner, operator or responsible party shall provide the administrator with
information, documentation, or other evidence supporting their objection.  (6-30-19)

c. Upon receipt and review of such information from the owner, operator, or responsible party, the administrator may reconsider the matter and issue appropriate findings to the owner, operator, or party responsible for abating the unsafe condition or practice, including rescission of the order.  (6-30-19)

d. If after review it is the determination of the administrator to keep the safety order in place, he shall so notify the owner, operator or responsible party and designate a time and place for hearing, and may assign the matter for hearing by a hearing officer. The hearing shall be afforded at such time not to exceed five (5) business days from the date the administrator received the notice of objection unless additional time is requested by the owner, operator, or responsible party. The hearing proceedings shall be governed by the provisions of Title 67, Chapter 52, Idaho Code. The hearing officer shall issue an order in accordance with Section 67-5243, Idaho Code. The hearing may be held at such location or by such means as the administrator determines most convenient for the parties.  (6-30-19)

e. The safety order shall remain in effect, and shall not be rescinded until the administrator has determined that the safety threat has been corrected or removed from the workplace. Upon verification by the administrator that the safety threat has been corrected or otherwise removed from the worksite, the administrator shall immediately notify the owner, operator or responsible party of the rescission of the safety order. Any party aggrieved by the final order of the administrator shall be entitled to judicial review thereof in accordance with the provisions of Title 67, Chapter 52, Idaho Code.  (6-30-19)

f. Any person who knowingly fails or refuses to comply with the provisions of a safety order issued by the administrator shall be guilty of a misdemeanor, and the administrator may seek criminal prosecution of any such violations.  (6-30-19)

653. -- 700. (RESERVED)

Subchapter O - Cable-Assisted Logging Systems  (Rules 701 through 999)

701. MACHINE SAFETY REQUIREMENTS.

01. Harvesting Machines. Harvesting machines for cable-assisted logging operations shall comply with each of the following:  (6-30-19)

a. Meet the protective structure requirements set forth in IDAPA 07.08.10.010;  (6-30-19)

b. Be equipped with a certified roll-over protective structure (ROPS); and  (6-30-19)

c. Be equipped with at least a four (4)-point restraint system approved by the machine’s manufacturer or a qualified person.  (6-30-19)

02. System Approval. The cable-assisted logging system shall be designed and constructed for cable-assisted logging applications by the original equipment manufacturer, or approved for cable-assisted logging applications in writing by the original equipment manufacturer or a registered professional engineer.  (6-30-19)

03. Operation of System. The cable-assisted logging system shall be operated, inspected and maintained in accordance with the manufacturer’s recommendations, specifications and limitations, or if no manufacturer’s recommendations exist, then by the recommendations of a registered professional engineer. Cable-assisted logging systems not in safe operating condition shall be removed from service until repaired by a qualified person.  (6-30-19)

702. TETHERED LINE SAFETY REQUIREMENTS.

01. Inspection of Tethered Lines. Tether lines shall be new wire rope and have a rated breaking load
according to the cable-assisted logging system manufacturer’s recommendations and specifications. At a minimum, a competent person shall inspect the entire length of each tether line and drum connection prior to the startup of each cable-assisted logging operation, and thereafter on a monthly basis. A competent person shall also inspect the first fifty (50) feet of each tether line daily prior to use. These inspections shall be documented in writing. Tether lines must not be spliced and shall be replaced if there is evidence of chafing, sawing, crushing, kinking, crystallization, bird-caging, significant corrosion, heat damage, other damage that has weakened the tether line, or if the tether line reaches two thousand (2,000) hours of use. (6-30-19)

02. **Line Tension.** The tether line tension and machine travel shall be synchronized to ensure tether line tension is continuously provided and does not exceed thirty-three percent (33%) of the rope’s rated breaking load. The operator shall have an immediate and self-reliant or automated method to identify tether line tension, winch rotation and speed, amount of line on and off the drum, and anchor movement. (6-30-19)

03. **Tether Line Components.** All tether line assembly components shall be rated with a greater safe working load than the wire rope. Tether line attachment points and hitches shall be engineered and certified to maintain a safety factor equal to or greater than the recommendations and specifications of the cable-assisted logging system manufacturer. Inspections of tether line assembly components (except drum connection as specified in Subsection 011.01 of these rules), hitches, winches, machines, and anchors shall be performed daily by a competent person prior to use. (6-30-19)

703. **OPERATION AND SAFETY REQUIREMENTS.**

01. **General.** Cable-assisted logging systems shall be operated, inspected and maintained in accordance with the manufacturer’s recommendations and specifications. Inspections shall be documented in writing. (6-30-19)

02. **Planning.** All cable-assisted logging operations shall be planned by the operator and a competent person who has the knowledge, training or experience to identify existing and predictable hazards in the work site surroundings or working conditions, which could be hazardous to employees, and has been authorized by the employer or employer representative to eliminate the hazard or take corrective action therefrom. Items to consider during site-specific planning must include, but are not limited to, the following: (6-30-19)

  a. Experience of the operator;
  b. Limitations of the equipment;
  c. Soil and terrain conditions;
  d. Environmental conditions;
  e. Poor visibility and lighting conditions;
  f. Weather conditions;
  g. Direction of travel;
  h. Requirements for turning the machine on slopes;
  i. Load sizes;
  j. Method and adequacy of anchorage; and
  k. Any other condition that may adversely affect operations. (6-30-19)

03. **Operator Qualifications.** Cable-assisted logging operators shall have documented training or adequate experience to safely operate the equipment on slopes. (6-30-19)
04. **Operating Plans.** A cable-assisted logging system operator shall have a written operating plan on site detailing the following:

   a. Tether line replacement criteria;
   
   b. Cable size, type and breaking strength, and method of assurance that tensions do not exceed one-third (1/3) of breaking strength to maintain a 3:1 safety factor or greater;
   
   c. Inspection and maintenance to be performed on tether lines, end connectors, machines and winches;
   
   d. How the operator will use tension limiting controls to maintain desired tension;
   
   e. How the winch cable tension and machine travel are synchronized;
   
   f. How the operator will monitor machine slope, anchor movement, winch tension, amount of line on and off drum, and winch function;
   
   g. How the tether line attachment points to the harvesting machine are engineered to withstand potential loads;
   
   h. All harvesting machine modifications that allow it to operate on steep slopes, including operator harness or restraint system;
   
   i. How pre-operations planning and daily assessments will identify hazards for soil and terrain conditions;
   
   j. How the operator will determine if soil and terrain conditions are unsafe during operations;
   
   k. How operators will report new hazards identified during operations;
   
   l. Operating guidance given to the operator; and
   
   m. How emergencies are handled by the system, including line failure, machine failure, winch failure, anchor failure, winch machine movement or anchor movement, and whether there is an emergency stop for the operator or at the anchor.

05. **Unsafe Conditions.** The employer shall establish and use procedures for operators to report unsafe conditions to a supervisor or qualified person. Such conditions must be corrected prior to resuming cable-assisted logging operations. Procedures shall also include steps to take in the event of equipment breakdown and for upset conditions.

06. **Warning Signs.** Effective signage shall be affixed to all remotely operated equipment warning employees and others that lines and machines may start, stop, or move without warning. All employees working in close proximity of cable-assisted logging operations must receive training that enables them to recognize the potential hazards involved and to maintain safe distances.
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to the following Sections of Idaho Code:

I.C. § 39-8605  I.C. § 54-2605  I.C. § 54-5017
I.C. § 44-2103  I.C. § 54-2606  I.C. § 54-5022

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 07, rules of the (Division of Building Safety):

IDAPA 07
• 07.01.02, Rules Governing Fees for Electrical Permits and Inspections
• 07.01.03, Rules of Electrical Licensing and Registration – General
• 07.01.11, Rules Governing Civil Penalties
• 07.02.02, Rules Governing Plumbing Permits
• 07.02.03, Rules Governing Permit Fee Schedule
• 07.02.07, Rules Governing Civil Penalties
• 07.03.01, Rules of Building Safety
• 07.03.03, Rules for Modular Buildings
• 07.03.11, Rules Governing Manufactured/Mobile Home Industry Licensing
• 07.03.12, Rules Governing Manufactured or Mobile Home Installations
• 07.04.02, Safety Rules for Elevators, Escalators, and Moving Walks
• 07.05.01, Rules of the Public Works Contractors License Board
• 07.07.01, Rules Governing Installation of Heating, Ventilation and Air Conditioning Systems
• 07.10.01, Rules Governing the Damage Prevention Board

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Division of Building Safety Rules are necessary to ensure that properly qualified persons continue to practice in the professions over which the Division exercises regulatory authority, and that the installations made in the various trades and professions related thereto, and other applicable construction work is performed safely and in accordance with laws, codes, standards, and processes that protect the safety and welfare of the public.
The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. All Division programs that are covered by this notice operate from statutorily created dedicated funds that provide for the licensing of persons within the respective professions, as well as the inspection of such installations and/or administration of such programs by the Division. All of these operations require the collection of certain fees to ensure compliance with applicable standards and to protect the health and safety of the public.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. All fees contained in rules covered by this notice relate to licensing and related administrative fees, fees to perform inspections on various types of construction installations, or the assessment of civil penalties for non-compliance with applicable statutes.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Patrick Grace, Regional Manager at (208) 332-7120.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

07.01.02 – RULES GOVERNING FEES FOR ELECTRICAL PERMITS AND INSPECTIONS

000. LEGAL AUTHORITY.
The Idaho Electrical Board is authorized under Section 54-1006(5), Idaho Code, to adopt rules concerning the fees to be charged for permits and inspections of electrical systems. (2-26-93)

001. TITLE AND SCOPE.
These rules are titled IDAPA 07.01.02, “Rules Governing Fees for Electrical Permits and Inspections,” Division of Building Safety. These rules include criteria for the fees to be charged for permits and inspections of electrical systems. (4-1-19)

002. WRITTEN INTERPRETATIONS.
This agency has no written interpretations of this chapter. (2-26-93)

003. ADMINISTRATIVE APPEALS.
This chapter does not allow administrative relief of the provisions outlined herein. (2-26-93)

004. INCORPORATION BY REFERENCE.

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (4-1-19)

007. DEFINITIONS.

01. Person. Includes an individual, company, firm, partnership, corporation, association, or other organization. (4-1-19)

008. -- 010. (RESERVED)

011. FEES FOR ELECTRICAL PERMITS AND INSPECTIONS.
Electrical permit fees are to cover the cost of electrical inspections as provided by Section 54-1005, Idaho Code; any person making an electrical installation coming under the provisions of Section 54-1001, Idaho Code, shall pay to the Division of Building Safety a permit fee as provided in the following schedule. The type of electrical permit a person may purchase shall be limited to the scope of work for which the person is licensed. (4-1-19)

01. Temporary Construction Service (Temporary Power) Permit. To be installed for construction purposes only, for a period not to exceed one (1) year:

a. Two hundred (200) amp or less, one (1) location: sixty-five dollars ($65). (3-26-08)

b. All others shall be calculated using Subsection 011.06, Other Installation (Including Industrial and Commercial) Permit, of these rules. (4-1-19)

02. New Residential. (Includes associated buildings with wiring being constructed on each property.)
a. Existing dwelling unit permit: sixty-five dollars ($65) plus ten dollars ($10) for each additional branch circuit up to the maximum of the corresponding square footage of the dwelling unit. (4-1-19)

b. Residential Dwelling unit spa, hot tub, hydro massage tub, and swimming pool permit: sixty-five dollars ($65) for each trip to inspect. (For all other installations of spas, hot tubs, hydro massage tubs, and swimming pools, use Subsection 011.06, Other Installation (Including Industrial and Commercial) Permit, of these rules.) (4-1-19)

03. Residential Electric Space Heating and Air Conditioning. When not part of a new residential construction permit, or heat/ventilating/air conditioning permit with no additional wiring: sixty-five dollars ($65). (3-26-08)

04. Domestic Water Pump Permit. See Subsection 011.06 - Pump (Water, Domestic Water, Irrigation, Sewage) -- Each Motor Permit, of these rules. (4-1-19)

05. Mobile/Manufactured Home Permit. Sixty-five dollars ($65) basic fee plus ten dollars ($10) for each additional circuit. Mobile home and RV parks for distribution wiring including pedestal, service conductors and lot supply to individual units come under Subsection 011.06, Other Installation (Including Industrial and Commercial) Permit, of these rules. (4-1-19)

06. Other Installation (Including Industrial and Commercial) Permit. The permit fees listed in this section shall apply to any and all electrical installations not specifically mentioned elsewhere in this schedule. The electrical cost shall be the cost to the owner of all labor charges and all other costs that are incurred in order to complete the installation of any and all electrical wiring and equipment installed as part of the electrical system, factory assembled industrial machinery to be operated by electrical energy shall not be included in calculating these fees. (4-1-19)

a. Wiring cost not exceeding ten thousand dollars ($10,000): sixty dollars ($60) plus two percent (2%) of total wiring cost. (3-26-08)

b. Wiring cost over ten thousand dollars ($10,000) but not exceeding one hundred thousand dollars ($100,000): two hundred sixty dollars ($260) plus one percent (1%) of wiring cost in excess of ten thousand dollars ($10,000). (3-26-08)

c. Wiring cost over one hundred thousand dollars ($100,000): one thousand one hundred sixty dollars ($1,160) plus one-half of one percent (.5%) of the portion of wiring costs exceeding one hundred thousand dollars ($100,000). (3-26-08)
d. All fees calculated under this schedule must be calculated on the total wiring cost of the job, and this figure must be shown on the permit. The permit fees listed in this Subsection shall apply to any and all electrical installations not specifically mentioned elsewhere in this schedule. The wiring cost shall be the cost to the owner of all labor charges and all wiring materials and equipment installed as part of the wiring system. When labor is performed by the owner, such labor cost shall be based upon the market value of said labor and used or reused materials shall be based at fifty percent (50%) of the column 3 pricing as published by Trade Service Publication or National Price Service Pricing or the actual cost, whichever is greater. For all owner-supplied, factory assembled electrical infrastructural equipment to be installed, the inspection will be based on one-half of one percent (.5%) of total cost of the equipment OR an hourly rate of one hundred thirty dollars ($130) for the first hour of each inspection and sixty-five dollars ($65) for each subsequent hour. Factory assembled machinery to be operated by electrical energy shall not be included when calculating these fees. (4-1-19)

e. Small work not exceeding two hundred dollars ($200) in cost and not involving a change in service connections: ten dollars ($10). (3-30-06)

For phase inverters and roto phase equipment, use Subsection 011.06, in addition to the pump motor fee. (4-1-19)

08. Electrically-Driven Irrigation Machine Permit. Center Pivot: sixty-five dollars ($65) plus ten dollars ($10) per tower or drive motor. Other types: sixty-five dollars ($65) plus ten dollars ($10) per motor. (Note: No additional fee required for underground feeder). (4-1-19)

09. Electric Sign and Outline Lighting Permit. Electric signs: sixty-five dollars ($65) per sign; Outline lighting: sixty-five dollars ($65) per each occupancy. (4-1-19)

10. Requested Inspection Permit. A base fee of sixty-five dollars ($65) plus an additional sixty-five dollars ($65) for each hour, or portion thereof, in excess of one (1) hour including travel time. Out-of-state travel expenses shall be paid by the requesting party. (4-1-19)

11. Additional Fees and Reinspection Fees. A base fee of sixty-five dollars ($65) plus an additional sixty-five dollars ($65) for each additional hour, or portion thereof, in excess of one (1) hour including travel time, shall also be paid before approval of the installation if the following services are necessary: (3-26-08)

a. Trips to inspect when the permit holder had given notice to the inspector that the work is ready for inspection when it was not. (4-1-19)

b. Trips to inspect when the permit holder has not clearly or correctly given the location of the installation either by directions, maps, coordinates, or correct address and posting a copy of the permit at the service or other conspicuous location on the property or the inspector cannot gain access to make the inspection. (4-1-19)

c. Trips to inspect corrections required by the inspector as a result of the submitter improperly responding to a corrective notice. (1-14-87)

d. Each trip necessary to remove a red tag from the jobsite. (1-14-87)

e. Trips to conduct a reinspecon because corrections have not been made in the prescribed time, unless an extension has been requested and granted. (4-1-19)
12. **No Permit.** Failure to purchase an electrical permit before work is commenced, may result in the imposition of a double permit fee. (4-1-19)

13. **Plan Check Fee.** Sixty-five dollars ($65) minimum for one (1) hour or less. Over one (1) hour: sixty-five dollars ($65) plus sixty-five dollars ($65) for each hour, or portion thereof, in excess of one (1) hour. (3-26-08)

14. **Fees for Temporary Amusement/Industry Electrical Inspections.** Each time a ride, concession, or generator is set up: sixty-five dollars ($65) base fee plus ten dollars ($10) for each ride, concession, or generator. (3-26-08)

15. **Expiration of Permits.** Every permit issued by the Electrical Bureau shall expire by limitation and become null and void if the work authorized by such permit is not commenced within ninety (90) days from the date of issuance of such permit or if the work authorized by such permit is suspended or abandoned at any time after work is commenced for a period of one hundred eighty (180) days. A permit may be renewed for an additional year upon receipt of Bureau approval and sixty-five dollars ($65) renewal fee. (3-26-08)

16. **Transferring a Permit.** An electrical permit may be transferred to another eligible party if such party provides to the Division of Building Safety written authorization signed and notarized by the original permit holder consenting to the transfer itself and assignment of all the responsibilities and conditions incorporated into the original permit issuance. A permit may be transferred to the owner of the property on which the electrical work is to be performed and for which the permit was issued, or such owner’s designated legal agent, in cases where such owner has terminated his legal relationship with the electrical contractor who originally obtained the permit. An administrative fee in the amount of forty-five dollars ($45) for the transfer of the permit shall be assessed by the Division of Building Safety. (4-1-19)

17. **Refunds of Permits.** The administrator of the Division of Building Safety may authorize a refund for any permit fee paid on the following bases: (4-1-19)

   a. The administrator may authorize a refund of the entire permit fee paid when no work has been performed related to the installations or electrical work covered by a permit issued by the Division. A lesser amount up to fifty percent (50%) of the permit fee amount may be refunded if work has commenced and the project is less than fifty percent (50%) complete as determined by the Division; and (4-1-19)

   b. The administrator shall not authorize a refund of any permit fee paid except upon written application for such filed by the original permit holder or the property owner’s representative not less than one hundred eighty (180) days after the date the permit was issued. (4-1-19)

000. LEGAL AUTHORITY.
The Idaho Electrical Board is authorized under Section 54-1006(5), Idaho Code, to adopt rules concerning the issuance of electrician licenses and apprentice registrations referred to in Sections 54-1007 and 54-1010, Idaho Code. (2-26-93)

001. TITLE AND SCOPE.
These rules are titled IDAPA 07.01.03, “Rules of Electrical Licensing and Registration – General,” Division of Building Safety. These rules include criteria for issuance of electrical licenses and registrations. (2-26-93)

002. WRITTEN INTERPRETATIONS.
This agency has written interpretations of this chapter in the form of legal memoranda. (2-26-93)

003. ADMINISTRATIVE APPEALS.
IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” govern license revocation/suspension proceedings. (2-26-93)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into this rule. (4-11-19)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS.
The principal place of business of the Division of Building Safety, Electrical Bureau, is in Meridian, Idaho. The office is located at 1090 E. Watertower Street, Meridian, Idaho and is open from 8 a.m. to 5 p.m., except Saturday, Sunday and legal holidays. The mailing address is: Division of Building Safety, Electrical Bureau, 1090 E. 006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (4-11-19)

007. -- 009. (RESERVED)

010. LICENSURE HISTORY.
An applicant for any electrical registration or license who has been previously licensed as a journeyman or master electrician in any recognized jurisdiction is required upon application to the Division of Building Safety to disclose such licensure history and provide sufficient proof thereof. An applicant for any electrical registration, license, or certificate of competency who has been previously licensed as a journeyman or master electrician in any recognized jurisdiction shall not be issued an electrical apprentice registration. (4-11-19)

011. LICENSE APPLICATION FORMS/APPRENTICE REGISTRATION FORMS.
Application forms for electrical contractor, master electrician, journeyman electrician and limited electrical installer licenses, and registration forms for apprentice electricians and limited electrical installer trainees shall be printed and made available by the Division of Building Safety, state of Idaho. (4-11-19)

01. Application Forms. All applications for licenses and all registrations shall be properly completed, giving all pertinent information, and all signatures shall be notarized. (4-5-00)

02. Application Fee. All applications for electrical licenses shall be accompanied by the fifteen dollar ($15) application fee; apprentice and limited electrical installer trainee registration forms shall be accompanied by the ten dollar ($10) registration fee as provided by Section 54-1014, Idaho Code. (4-11-19)

03. Application Submission. An application for license shall be submitted to the Division of Building Safety and shall be approved by an authorized representative of the Division before any examination is given and
before any license is issued. (3-29-12)

04. Examination. An applicant for licensure must take the required examination within ninety (90) days of the date of application, or the application shall be considered to be null and void. (4-5-00)

05. License. Following the approval by an authorized representative and the successful completion of the required examination, the applicant must purchase a license prior to engaging in business within the state of Idaho. Applicants who fail to purchase a license within ninety (90) days of the date of successful examination shall be required to reapply for licensure, again obtain the approval of an authorized representative, and re-examine. (4-5-00)

06. License Period. All original licenses and registrations shall be issued by the Division immediately upon receipt of the licensure fee and other necessary documentation from the applicant which date shall be designated as the original license anniversary date and signify the commencement of the licensing period. All license and registration renewals shall be effective in the year renewed as of the original license anniversary date. All license and registration periods shall end at midnight on the last day of the final month of the licensing or registration period. Licenses and registrations not renewed by this date shall have expired. Any expired license revived within the twelve (12) month period following the expiration date will continue to have the original license anniversary date for purposes of subsequent renewal. (3-29-10)

012. APPRENTICE ELECTRICIAN.

01. Requirements for Apprentice Electrician. (5-3-03)

a. A person wishing to become an apprentice electrician shall register with the Division of Building Safety prior to going to work. Said person shall carry a current registration certificate on his person at all times and shall present it upon request to personnel of the Division of Building Safety for examination. Each apprentice shall register for a period of five (5) years and pay the applicable fee. During the period of registration an apprentice must annually complete a minimum of one hundred forty-four (144) hours of an organized sequence of instruction in technical subjects related to the electrical trade as approved by the Idaho Electrical Board and the Idaho State Board for Professional and Technical Education until a certificate of achievement is earned from the vocational institution attended. Each apprentice shall obtain work experience during the period of registration as described in Paragraph 012.01.b. of these rules and provide the Division with notarized letters from each employer evidencing such work to be maintained in the apprentice’s file with the Division. Time toward the work requirements detailed in Paragraph 012.01.b. of these rules shall not be credited while the apprentice is inactive or not registered. (4-7-11)

b. In order to qualify to take the journeyman electrician examination an apprentice electrician shall furnish proof of completion of four (4) years of related instruction for electrical apprentices as approved by the Idaho Electrical Board and the Idaho State Board for Professional-Technical Education, and be required to work at least three (3) years, defined as a minimum of six thousand (6,000) hours of work experience, under the constant on-the-job supervision of a journeyman electrician. Such work experience shall include three (3) categories: (4-7-11)

i. Residential; (5-3-03)

ii. Commercial; and (5-3-03)

iii. Industrial installations. (5-3-03)

c. Successful completion of the journeyman examination does not eliminate the requirement to complete four (4) years of work experience, defined as eight thousand (8,000) hours, under the constant on-the-job supervision of a journeyman electrician in order to be issued a journeyman license. Successful completion of the Idaho state journeyman examination notwithstanding, no journeyman license shall be issued until proof of satisfaction of the requirements contained in Section 013 of these rules is furnished to the Division. (4-7-11)

d. Experience shall not exceed seventy-five percent (75%) of the work time in any one (1) category. The work requirements of Paragraph 012.01.b. of these rules shall not apply to an apprentice registered in an apprenticeship program approved by the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship. (4-7-11)
e. An apprentice registration shall only be renewed by the Division upon receipt of sufficient evidence demonstrating that the apprentice has successfully completed at least two (2) years of an approved sequence of instruction and worked two (2) years defined as a minimum of four thousand (4,000) hours of work experience under the constant on-the-job supervision of a journeyman electrician in the categories described in Paragraph 012.01.b. of these rules; provided however, that in no case shall an apprentice registration be renewed more than one (1) time by the Division without a recommendation from the Idaho Electrical Board to do so. An apprentice may only petition the Electrical Board for registration renewals subsequent to the first renewal. If application to the Division or petition to the Board is made pursuant to this paragraph, the Division and the Board, as applicable, shall consider whether extenuating circumstances exist which prevent the completion of the instruction or work experience requirements for renewal. 

(3-29-12)

f. An apprentice who has completed the required number of instructional hours and has not passed the journeyman’s examination within two (2) years of completion of the required instructional training hours shall provide proof of continuation training in order to be eligible to take the journeyman exam. For the purposes of Section 012 of these rules, continuation training is defined as registration in a Board-approved fourth year apprenticeship class.

(3-29-12)

02. Direct Supervision. It shall be the responsibility of the employing electrical contractor to ensure that apprentices perform electrical work only under the constant on-the-job supervision of a journeyman electrician.

(4-11-19)

a. Journeyman to Apprentice Ratio. One (1) journeyman shall not supervise more than two (2) apprentices.

(4-11-19)

b. Any contractor violating the journeyman to apprentice ratio is presumed to be in violation of the direct supervision requirement of Section 54-1010, Idaho Code, and of the constant on-the-job supervision requirement of Section 54-1003A, Idaho Code. The journeyman to apprentice ratio may be adjusted on a case-by-case basis by a showing by a contractor of special circumstances, which are peculiar to the work done by that contractor and which allow for effective supervision by each journeyman electrician. A contractor must obtain permission from the Division of Building Safety to adjust the journeyman to apprentice ratio. Failure to comply with this requirement will be grounds for suspension or revocation of the electrical contractor’s license.

(4-11-19)

013. JOURNEYMAN ELECTRICIAN.

01. Experience and Education Required.

(5-3-03)

a. An applicant for a journeyman electrician license must have worked as an apprentice electrician making electrical installations for four (4) years, defined as a minimum of eight thousand (8,000) hours under the constant on-the-job supervision of a qualified journeyman electrician and meet the minimum vocational educational requirements of the Idaho Electrical Board and the Idaho State Board for Professional and Technical Education as provided by Section 54-1007, Idaho Code, and Paragraph 012.01.a. of these rules. That work shall include three (3) categories:

(5-3-03)

i. Residential;

(5-3-03)

ii. Commercial; and

(5-3-03)

iii. Industrial installations.

(5-3-03)

b. Experience shall not exceed seventy-five percent (75%) of the work time in any one (1) category. The requirements of Paragraph 013.01.a. of these rules shall not apply to a registered apprentice enrolled in an apprenticeship program accredited by the Division of Building Safety.

(3-29-12)

c. An applicant with out-of-state experience from a state that does not have a current reciprocal agreement with Idaho must meet the experience and vocational education requirements as set forth in Paragraph 013.01.a. of these rules or if the applicant has not completed the vocational education requirement, the applicant may
alternately submit verification of twice the amount of experience (eight (8) years defined as a minimum of sixteen thousand (16,000) hours). That work shall include three (3) categories:

i. Residential;

ii. Commercial; and

iii. Industrial installations.

d. Experience shall not exceed seventy-five percent (75%) of the work time in any one (1) category and must have been legally obtained in the state in which the applicant received his experience.

e. An applicant from a state that has a current reciprocal agreement with the state of Idaho may be issued a journeyman electrician license without testing in accordance with Section 54-1007, Idaho Code, upon verification that:

i. The license is current and active and in good standing;

ii. The license was obtained by testing from the issuing state;

iii. The license has been in effect for a minimum of one (1) year; and

iv. The applicant has not previously taken and failed the Idaho state journeyman electrical examination.

f. Experience in appliance repairing, motor winding, and communications will not be accepted towards qualification for a journeyman electrician license.

02. Application and Examination. A qualified journeyman electrician not holding an Idaho state license shall make application for a journeyman electrician license with the Division of Building Safety prior to going to work in the state of Idaho as provided by Section 54-1002(2), Idaho Code. An applicant will be permitted a maximum of thirty (30) days in which to take the examination after making application unless mutual agreements have been made between the applicant and the Division of Building Safety.

014. MASTER ELECTRICIAN.
An applicant for a master electrician license must have at least four (4) years experience as a licensed journeyman electrician as provided in Section 54-1007, Idaho Code. Any person having these qualifications may make application at any time by remitting to the Division of Building Safety the application fee. Upon approval, the applicant will be notified and may apply to take the next examination. Upon notification of passing the examination, the applicant must remit the required fee for the issuance of a master license. A person holding a current master license shall not be required to hold a journeyman license.

015. ELECTRICAL CONTRACTOR.

01. Qualifications for Electrical Contractor.

a. On and after July 1, 2008, except as hereinafter provided, any person, partnership, company, firm, association, or corporation shall be eligible to apply for an electrical contractor license upon the following requirements:

i. Applicant shall have at least one (1) full-time employee who holds a valid master electrician license issued by the Division of Building Safety. Licensed electrical contractors who are current and active prior to July 1, 2008, shall not be required to have a master electrician as the supervising electrician until a new supervising electrician is designated. A master electrician license will be required for a new supervising electrician designated after July 1, 2008.

ii. The master electrician shall be designated the supervising electrician and shall be available during
working hours to carry out the duties of supervising, as set forth herein, and who will be responsible for supervision of electrical installations made by said company, firm, association, or corporation as provided by Section 54-1010, Idaho Code.

iii. An individual electrical contractor may act as his own supervising master electrician upon the condition that he holds a valid master electrician license.

iv. Applicant must pass a contractor examination administered by the Division or its designee. Any applicant which purports to be a non-individual (such as, corporation, partnership, company, firm, or association), must designate in writing an individual to represent the partnership, company, etc., for examination purposes. Any such designee shall be a full-time supervisory employee and may not represent any other applicant for an electrical contractor’s license.

v. Applicant shall provide proof of liability insurance to the Division in the amount of three hundred thousand dollars ($300,000) from an insurance company licensed to do business in the state of Idaho. The liability insurance shall be in effect for the duration of the applicant’s contractor licensing period.

vi. Applicant shall provide to the Division proof of Idaho’s workers’ compensation insurance unless specifically exempt from Idaho law. The Division will provide written confirmation of exemption status.

b. Any person designated under Paragraph 015.01.a. of these rules, and the contractor he represents, shall each notify the Division in writing if the supervising master’s working relationship with the contractor has been terminated. Each notice must be filed with the Division within ten (10) days of the date of termination. If the supervising master’s relationship with the contractor is terminated, the contractor’s license is void within ninety (90) days unless another supervising master is qualified by the Division.

02. Required Signatures on Application. An application for an electrical contractor license shall be signed by the applicant or by the official representative of the partnership, company, firm, association, or corporation making the application. The application shall be countersigned by the supervising master electrician.

03. Electrical Contracting Work Defined. An electrical contractor license issued by the Division of Building Safety must be obtained prior to acting or attempting to act as an electrical contractor in Idaho.

a. Electrical contracting work includes electrical maintenance or repair work, in addition to new electrical installations, unless such work is expressly exempted by Section 54-1016, Idaho Code.

b. Any person or entity performing or offering to perform electrical contracting services, including, but not limited to, advertising or submitting a bid shall be considered as acting or attempting to act as an electrical contractor and shall be required to be licensed. For the purposes of Section 015, advertising shall include, but not be limited to: newspaper, telephone directory, community flier ads or notices, telephone, television, radio, internet, business card, or door-to-door solicitations.

c. Any person or entity, not otherwise exempt, who performs or offers to perform electrical contracting work, is acting as an electrical contractor, whether or not any compensation is received.

d. Registered general contractors who submit a bid on a multi-trade construction project that includes a licensed electrical contractor’s pricing shall not be considered to be acting or attempting to act as an electrical contractor.

04. Previous Revocation. Any applicant for an electrical contractor license who has previously had his electrical contractor license revoked for cause, as provided by Section 54-1009, Idaho Code, shall be considered as unfit and unqualified to receive a new electrical contractor license so long as such cause for revocation is continuing and of such nature that correction can be made by the applicant.

05. Reviving an Expired License. Any applicant for an electrical contractor license who has allowed his license to expire and seeks to revive it under the provisions of Section 54-1013, Idaho Code, may be denied a license as unfit and unqualified if, while operating under the license prior to expiration, he violates any of the laws or
rules applicable to electrical contractors. (4-1-91)

06. Qualification and Duties for Supervising Journeyman or Master. (4-2-08)

a. A master electrician shall not be considered as qualified to countersign an electrical contractor license application as the supervising master, nor shall said application be approved if he does countersign said application as the supervising master, if said master has had his Idaho electrical contractor license revoked for cause under Section 54-1009, Idaho Code. (4-2-08)

b. A supervising master shall not countersign for more than one (1) contractor. (4-2-08)

c. A journeyman who is a full time employee of a company, corporation, firm or association with an industrial account may sign as supervising journeyman for that industrial account in addition to signing as supervising journeyman for his own contractor’s license so long as the journeyman is listed as the owner and complies with the provisions of Paragraphs 015.01.a. and 015.01.b. of these rules. (7-1-97)

d. Duties include: assuring that all electrical work substantially complies with the National Electrical Code and other electrical installation laws and rules of the state, and that proper electrical safety procedures are followed; assuring that all electrical labels, permits, and licenses required to perform electrical work are used; assuring compliance with correction notices issued by the Division. (3-29-12)

07. Failure to Correct Defects in Electrical Installations. If a master countersigns an electrical contractor license application pursuant to Subsection 015.03 of these rules and thereafter willfully fails to correct defects in electrical installations he made or supervised, and such defects are within his power to correct and are not the fault of the contractor, then the Division of Building Safety shall have the power to suspend or revoke said master’s license pursuant to Section 54-1009, Idaho Code. (3-29-12)

08. Overcharging of Fees. It shall be grounds for suspension or revocation of an electrical contractor license if he charges and collects from the property owner an electrical permit or inspection fee which is higher than the fee actually in effect at the time of such charging and collection, pursuant to the current Electrical Laws and Rules of the Division of Building Safety, and the fee remitted by the contractor to the Division is less than the fee actually charged and collected by him. (3-29-12)

09. Termination of Supervising Master or Contractor Designee. (4-2-08)

a. Any person designated under Paragraph 015.01.a. of these rules, and the contractor he represents, shall each notify the Division in writing if the supervising master’s working relationship with the contractor has been terminated. Each notice must be filed with the Division within ten (10) days of the date of termination. If the supervising master’s relationship with the contractor is terminated, the contractor’s license is void within ninety (90) days unless another supervising journeyman is qualified by the Division. (3-29-12)

b. Any person designated under Paragraph 015.01.a. of these rules, and the contractor he represents, shall each notify the Division in writing if the designee’s working relationship with the contractor has been terminated. Each notice must be filed with the Division within ten (10) days of the date of termination. If the designee’s relationship with the contractor is terminated, the contractor’s license is void within ninety (90) days unless another duly qualified designee passes the electrical contractor’s examination on behalf of the contractor. (3-29-12)

016. -- 999. (RESERVED)
07.01.11 – RULES GOVERNING CIVIL PENALTIES

000. LEGAL AUTHORITY.
The Idaho Electrical Board is authorized under Section 54-1006(5), Idaho Code, to establish by administrative rule the civil penalty to be paid for citations issued. (3-30-01)

001. TITLE AND SCOPE.

01. **Title.** These rules are titled IDAPA 07.02.02, “Rules Governing Plumbing Permits,” Division of Building Safety. (2-26-93)

02. **Scope.** These rules prescribe the criteria for plumbing permits issued under the provisions of Title 54, Chapter 26, Idaho Code. (2-26-93)

002. **WRITTEN INTERPRETATIONS.**
This agency has no written interpretations of this chapter. (2-26-93)

003. **ADMINISTRATIVE APPEALS.**
This chapter does not provide for administrative relief of the provisions contained herein. (2-26-93)

004. -- 009. (RESERVED)

010. **DEFINITIONS.**

01. **Division.** The Division of Building Safety of the state of Idaho. (1-22-82)

02. **Fixture.** Any water using or waste producing unit attached to the plumbing system, and includes sewers, water treatment equipment, solar systems, sprinkler systems, hot tubs and spas. (1-22-82)

03. **Board.** The Idaho State Plumbing Board, created under the provisions of Section 54-2605, Idaho Code. (11-14-85)

011. **PERMITS.**

01. **Serial Number.** Each permit must bear a serial number. (6-4-76)

02. **Plumbing Contractors.** Permits will be furnished by the Division to licensed plumbing contractors upon request. The serial numbers of such permits must be registered in the name of the plumbing contractor to whom they are issued and are transferable only as provided herein these rules. (3-24-17)

03. **Home Owners, Commercial, Industrial, and Others.** Home owners making plumbing installations on their own premises, coming under the provisions of Section 54-2602, Idaho Code, must secure a plumbing permit by making application to the Division as provided by Section 54-2620, Idaho Code. Application forms for commercial and industrial plumbing installations must be printed by the Division and made available at the office of the Division in Meridian. The application form must be properly completed, signed by the contractor and mailed to the Division at 1090 E. Watertower Street, Suite 150, Meridian, Idaho, 83642, together with a verified copy of bid acceptance and the proper permit fee as hereinafter provided. Persons, companies, firms, associations, or corporations making plumbing installations, other than on their own property, must be licensed as a contractor by the state of Idaho as provided by Section 54-2610, Idaho Code. (11-14-85)

04. **Expiration of Permit.** Every permit issued by the administrative authority under the provisions of Idaho Code expires by limitation and becomes null and void if the work authorized by such permit is not commenced
within one hundred twenty (120) days from the date of issuance of such permit, or if work authorized by such permit is suspended or abandoned at any time after work is commenced for a period of one hundred twenty (120) days. Before such work can be recommenced, a new permit must first be obtained, and the fee is one-half (1/2) the amount required for a new permit for such work; provided, no changes have been made, or will be made in the original plans and specifications for such work; and provided further, that such suspension or abandonment has not exceeded one (1) year. All plumbing fixtures must be listed on the application for permit. (11-14-84)

05. Transferring a Permit. A plumbing permit may be transferred to another eligible party if such party provides to the Division written authorization signed and notarized by the original permit holder consenting to the transfer itself, as well as assignment of all responsibilities and conditions incorporated into the original permit issuance. A permit may be transferred to the owner of the property on which the plumbing work is to be performed and for which the permit was issued, or such owner’s designated legal agent in cases where the property owner has terminated their legal relationship with the plumbing contractor who originally obtained the permit. An administrative fee in the amount of forty-five dollars ($45) for the transfer of a permit will be assessed by the Division. (3-24-17)

06. Refunds of Permits. The administrator may authorize a refund for any permit fee paid on the following bases: (3-24-17)

a. The administrator may authorize a refund of the entire permit fee paid when no work has been performed related to the installation of plumbing work covered by a permit issued by the Division. A lesser amount up to fifty percent (50%) of the permit fee amount may be refunded if work has commenced and the project is less than fifty percent (50%) complete as determined by the Division; and (3-24-17)

b. The administrator will not authorize a refund of any permit fee paid except upon written application for such filed by the original permit holder or the property owner’s representative not less than one hundred eighty (180) days after the date the permit was issued. (3-24-17)

**g.** Delete the exception contained under IRC section R302.2 -- Townhouses, and replace with the following two (2) exceptions:

**i.** When provided with an automatic fire sprinkler system per section R313.1, a common one (1)-hour fire-resistance-rated wall assembly tested in accordance with ASTM E 119 or UL 263 is permitted for townhouses if such walls do not contain plumbing or mechanical equipment, ducts, or vents in the cavity of the common wall. The wall shall be rated for fire exposure from both sides, and shall extend to and be tight against exterior walls and the underside of the roof sheathing. Penetrations of electrical outlet boxes shall be in accordance with Section R302.4.

**ii.** Two (2) one (1)-hour fire-resistance-rated wall assemblies (as specified in Section R302.1) or a common two (2)-hour fire-resistance-rated wall assembly tested in accordance with ASTM E 119 or UL 263 are permitted for townhouses. If two (2) one (1)-hour fire-resistance-rated walls are used, plumbing and electrical installations within the wall cavity shall conform to fire-resistance penetration requirements in accordance with section R302.4 through R302.4.2 for each of the two (2) one (1)-hour rated walls penetrated. The two (2)-hour fire-resistance-rated common wall shall not contain plumbing or mechanical equipment, ducts or vents within its wall cavity. The wall shall be rated for fire exposure from both sides, and shall extend to and be tight against the exterior walls and the underside of the roof sheathing. Penetrations of electrical outlet boxes shall be in accordance with Section R302.4.

**h.** Delete IRC section R303.4 and replace with the following: R303.4 Mechanical Ventilation. Dwelling units shall be provided with whole-house mechanical ventilation in accordance with Section M1507.3

Exception: Where the air infiltration rate of a dwelling unit is equal to 5 air changes per hour or greater when tested with a blower door at a pressure of 0.2 inch w.c. (50 pa) in accordance with Section N1102.4.1.2.

**i.** Delete the exception contained under IRC section R313.1 -- Townhouse automatic fire sprinkler systems, and replace with the following: Exception: Automatic residential fire sprinkler systems shall not be required in townhouses where either two (2) one (1)-hour fire-resistance-rated walls or a common two (2)-hour fire-resistance rated wall, as specified in exception 2 of section R302.2 is installed between dwelling units or when additions or
alterations are made to existing townhouses that do not have an automatic residential fire sprinkler system installed.

j. Delete IRC section R313.2.

k. Add the following to IRC section R315.3 - Where required in existing dwellings: Exceptions: 1. Work involving the exterior surfaces of dwellings, such as, but not limited to, replacement of roofing or siding, or the addition or replacement of windows or doors, or the addition of a porch or deck or electrical permits, are exempt from the requirements of this section; and 2. Installation, alteration or repairs of noncombustion plumbing or mechanical systems are exempt from the requirements of this section.

l. Delete IRC section R322.1.10.

m. Delete IRC section R322.2.2 subparagraph 2.2, and replace with the following: The total net area of all openings shall be at least one (1) square inch (645 mm2) for each square foot (0.093 m2) of enclosed area, or the opening shall be designed and the construction documents shall include a statement that the design and installation of the openings will provide for equalization of hydrostatic flood forces on exterior walls by allowing the automatic entry and exit of floodwaters.

n. Delete IRC section R501.3 and its exceptions.

o. Delete IRC section R602.10 and replace with the following: Wall bracing. Buildings shall be braced in accordance with this section or, when applicable section R602.12, or the most current edition of APA System Report SR-102 as an alternate method. Where a building, or portion thereof, does not comply with one (1) or more of the bracing requirements in this section, those portions shall be designated and constructed in accordance with section R301.1.

p. Add an Appendix R, titled Tiny Homes to include the following provisions:

i. Section AR101 Scope. This appendix shall be applicable to tiny houses used as single dwelling units. Tiny houses shall comply with this code except as otherwise stated in this appendix.

ii. Section AR102 Definitions. The following words and terms shall, for the purposes of this appendix, have the meanings shown herein. Refer to Chapter 2 of this code for general definitions.

(1) Tiny House. A dwelling that is four hundred (400) square feet (thirty-seven (37) m) or less in floor area excluding lofts.

(2) Escape and Rescue Roof Access Window. A skylight or roof window designed and installed to satisfy the emergency escape and rescue opening requirements in Section R310.

(3) Landing Platform. A landing provided as the top step of a stairway accessing a loft.

(4) Loft. A floor level located more than thirty (30) inches (762 mm) above the main floor and open to it on at least one (1) side with a ceiling height of less than six (6) feet eight (8) inches (2032 mm), used as a living or sleeping space.

(iii) Section AR103 Minimum Ceiling Height. Habitable space and hallways in tiny houses shall have a ceiling height of not less than six (6) feet eight (8) inches (2032 mm). Bathrooms, toilet rooms, and kitchens shall have a ceiling height of not less than six (6) feet four (4) inches (1930 mm). Obstructions shall not extend below these minimum ceiling heights including beams, girders, ducts, lighting and other obstructions. Exception: Ceiling heights in lofts are permitted to be less than six (6) feet eight (8) inches (2032 mm).

iv. Section AR104 Lofts.

(1) AR104.1 Minimum loft area and dimensions. Lofts used as a sleeping or living space shall meet the minimum area and dimension requirements of Sections AR104.1.1 through AR104.1.3.
(a) AR104.1.1 Minimum area. Lofts shall have a floor area of not less than thirty-five (35) square feet (3.25 m²). (3-28-18)

(b) AR104.1.2 Minimum dimensions. Lofts shall be not less than five (5) feet (1524 mm) in any horizontal dimension. (3-28-18)

(c) AR104.1.3 Height effect on loft area. Portions of a loft with a sloping ceiling measuring less than three (3) feet (914 mm) from the finished floor to the finished ceiling shall not be considered as contributing to the minimum required area for the loft. Exception: Under gable roofs with a minimum slope of 6:12, portions of a loft with a sloping ceiling measuring less than 16 inches (406 mm) from the finished floor to the finished ceiling shall not be considered as contributing to the minimum required area for the loft. (3-28-18)

(2) AR104.2 Loft Access. The access to and primary egress from lofts shall be any type described in Sections AR104.3 through AR104.6. (3-28-18)

(3) AR104.3. Stairways. Stairways accessing lofts shall comply with this code or with Sections AR104.3.1 through AR104.3.5. (3-28-18)

(a) AR104.3.1 Width. Stairways accessing a loft shall not be less than seventeen (17) inches (432 mm) in clear width at or above the handrail. The minimum width below the handrail shall be not less than twenty (20) inches (508 mm). (3-28-18)

(b) AR104.3.2 Headroom. The headroom in stairways accessing a loft shall be not less than six (6) feet two (2) inches (1880 mm), as measured vertically, from a sloped line connecting the tread or landing platform nosings in the middle of their width. Exception: The headroom for a landing platform, where stairways access lofts, shall be not less than four (4) feet six (6) inches (1372 mm). (3-28-18)

(c) AR104.3.3 Treads and Risers. Risers for stairs accessing a loft shall be not less than seven (7) inches (178 mm) and not more than twelve (12) inches (305 mm) in height. Tread depth and riser height shall be calculated in accordance with one of the following formulas:

(i) The tread depth shall be twenty (20) inches (508 mm) minus 4/3 of the riser height, or (3-28-18)

(ii) The riser height shall be fifteen (15) inches (381 mm) minus 3/4 of the tread depth. (3-28-18)

(d) AR104.3.4 Landing Platforms. The top tread and riser of stairways accessing lofts shall be constructed as a landing platform where the loft ceiling height is less than six (6) feet two (2) inches (1880 mm) where the stairway meets the loft. The landing platform shall be eighteen (18) inches to twenty-two (22) inches (457 to 559 mm) in depth measured from the nosing of the landing platform to the edge of the loft, and sixteen (16) to eighteen (18) inches (406 to 457 mm) in height measured from the landing platform to the loft floor. (3-28-18)

(e) AR104.3.5 Stairway Handrails. Handrails shall comply with Section R311.7.8. (3-28-18)

(f) AR104.3.6 Stairway Guards. Guards at open sides of stairways shall comply with Section R312.1. (3-28-18)

(4) AR104.4 Ladders. Ladders accessing lofts shall comply with Sections AR104.4.1 and AR104.4.2. (3-28-18)

(a) AR104.4.1 Ladder Size and Capacity. Ladders accessing lofts shall have a rung width of not less than twelve (12) inches (305 mm) and ten (10) inches (254 mm) to fourteen (14) inches (356 mm) spacing between rungs. Ladders shall be capable of supporting a two hundred (200) pound (75 kg) load on any rung. Rung spacing shall be uniform within 3/8-inch (9.5 mm). (3-28-18)

(b) AR104.4.2 Ladder Incline. Ladders shall be installed at seventy (70) to eighty (80) degrees from horizontal. (3-28-18)
(5) AR104.5 Alternating Tread Devices. Alternating tread devices accessing lofts, and handrails of alternating tread devices shall comply with sections 1011.14.1 and 1011.14.2 of the International Building Code, excluding the exception. The clear width at and below the handrails shall be not less than twenty (20) inches (508 mm). (3-28-18)

(6) AR104.6 Ships Ladders. Ships ladders accessing lofts, and treads and handrails of ships ladders shall comply with sections 1011.15.1 and 1011.15.2 of the International Building Code. The clear width at and below handrails shall be not less than twenty (20) inches (508 mm). (3-28-18)

(7) AR104.7 Loft Guards. Loft guards shall be located along the open side of lofts. Loft guards shall not be less than thirty-six (36) inches (914 mm) in height or one (1)-half of the clear height to the ceiling, whichever is less. (3-28-18)

v. SECTION AR105. Emergency Escape and Rescue Openings. Tiny houses shall meet the requirements of Section R310 for emergency escape and rescue openings. Exception: Escape and rescue roof access windows in lofts used as sleeping rooms shall be deemed to meet three (3) requirements of Section R310 where installed such that the bottom of the opening is not more than forty-four (44) inches (1118 mm) above the loft floor, provided the escape and rescue roof access window complies with the minimum opening area requirements of Section R310. (3-28-18)

04. International Energy Conservation Code. 2015 Edition with the following amendments: (3-29-17)

a. Delete the Residential Provisions of the 2015 International Energy Conservation Code (IECC) set forth in chapters 1 [RE] through 6 [RE], including Appendix RA (pages R-1 through R-57), and replace with the Residential Provisions of the 2012 IECC set forth therein in chapters 1 [RE] through 5 [RE] (pages R-1 through R-47) and as such provisions may be further amended herein these rules. (3-29-17)

b. Add the following as new subsection C101.5.3: Industrial, electronic, and manufacturing equipment. Buildings or portions thereof that are heated or cooled exclusively to maintain the required operating temperature of industrial, electronic, or manufacturing equipment shall be exempt from the provisions of this code. Such buildings or portions thereof shall be separated from connected conditioned space by building thermal envelope assemblies complying with this code. (3-25-16)

c. Add the following exception No. (10) under section C403.3 Economizers (Prescriptive): Unusual outdoor air contaminate conditions – Systems where special outside air filtration and treatment for the reduction and treatment of unusual outdoor contaminants, makes an air economizer infeasible. (3-29-17)

Delete section R402.4.1 and replace with the following: Building thermal envelope. The building thermal envelope shall comply with sections R402.1.1 and either section R402.4.1.2 or R402.4.1.3. The sealing methods between dissimilar materials shall allow for differential expansion and contraction.

Delete section R402.4.1.1 and replace with the following: Installation. The components of the building thermal envelope as listed in Table R402.4.1.1 shall be installed in accordance with the manufacturer’s instructions and the criteria listed in Table R402.4.1.1, as applicable to the method of construction.

Delete the criteria requirement for the “Fireplace” component of Table R402.4.1.1 - Air Barrier and Insulation Installation, and replace with the following: An air barrier shall be installed on fireplace walls.

Delete section R402.4.1.2 and replace with the following: Testing option, Building envelope tightness and insulation installation shall be considered acceptable when tested air leakage is less than seven (7) air changes per hour (ACH) when tested with a blower door at a pressure of 33.5 psf (50 Pa). Testing shall occur after rough in and after installation of penetrations of the building envelope, including penetrations for utilities, plumbing, electrical, ventilation and combustion appliances. During testing:

i. Exterior windows and doors, fireplace and stove doors shall be closed, but not sealed; (3-20-14)

ii. Dampers shall be closed, but not sealed, including exhaust, intake, makeup air, backdraft and flue dampers; (3-20-14)

iii. Interior doors shall be open; (3-20-14)

iv. Exterior openings for continuous ventilation systems and heat recovery ventilators shall be closed and sealed; (3-20-14)

v. Heating and cooling system(s) shall be turned off; (3-20-14)

vi. HVAC ducts shall not be sealed; and (3-20-14)
vii. Supply and return registers shall not be sealed. (3-20-14)

m. Add the following as section R402.4.1.3: Visual inspection option, Building envelope tightness and insulation installation shall be considered acceptable when the items listed in Table R402.4.1.1, applicable to the method of construction, are field verified. Where required by code official an approved party independent from the installer of the insulation shall inspect the air barrier and insulation. (4-11-19)

n. Add the following section: R402.6 Residential Log Home Thermal Envelope. Residential log home construction shall comply with sections R401 (General), R402.4 (Air Leakage), R402.5 (Maximum Fenestration U-Factor and SHGC), R403.1 (Controls), R403.2.2 (Sealing), R403.2.3 (Building Cavities), sections R403.3 through R403.9 (referred to as the mandatory provisions), Section R404 (Electrical Power and Lighting Systems), and either i., ii., or iii. as follows: (4-11-19)

The terms defined in this section shall have the following meaning for all parts of this chapter, unless the context clearly indicates another meaning:

01. Act. The Idaho Building Code Act, Title 39, Chapter 41, Idaho Code.(3-30-06)

02. Administrator. The administrator of the Division of Building Safety for the state of Idaho.(3-30-06)

03. Alterations or Conversions of Modular Buildings. Any change from the approved plans or installation instructions which would affect the structural, mechanical, electrical or plumbing systems of modular buildings bearing a Division insignia of approval and shall include the replacement, addition, modification or removal of any structural member, plumbing, heat-producing or electrical equipment, or installation which may affect such systems prior to first occupancy. Any such alteration or conversion shall first be approved by testing and inspection in the same manner as original systems or component parts. The following shall not constitute alteration or conversion:

a. Repairs with approved replacement parts;(3-30-06)

b. Conversion of listed fuel-burning appliances in accordance with the terms of their listing;(3-30-06)

c. Replacement of equipment and appliances in kind;(3-30-06)

d. Adjustment and maintenance of equipment.(3-30-06)

04. Alterations to Manufactured Homes. The replacement, addition, and modification, or removal of any equipment or installation after sale by a manufacturer to a dealer but prior to sale by a dealer to a purchaser which may affect the construction, fire safety, occupancy, plumbing, heat-producing or electrical system. It includes any modification made in a manufactured home which may affect the compliance of the home with the standards, but it does not include the repair or replacement of a component or appliance “plug-in” to an electrical receptacle where the replaced item is of the same configuration and rating as the one being replaced. It also does not include the addition of an appliance requiring “plug-in” to an electrical receptacle, which appliance was not provided with the manufactured
05. **Alterations or Conversions of Commercial Coaches.** Any change from the approved plans or installation instructions which would affect the structural, mechanical, electrical or plumbing systems of commercial coaches bearing a Division insignia of approval and shall include the replacement, addition, modification or removal of any structural member; plumbing, heat-producing or electrical equipment; or installation which may affect such systems prior to first occupancy. Any such alteration or conversion shall first be approved by testing and inspection in the same manner as original systems or component parts. The following shall not constitute alteration or conversion:

   a. Repairs with approved replacement parts;
   
   b. Conversion of listed fuel-burning appliances in accordance with the terms of their listing;
   
   c. Replacement of equipment and appliances in kind;
   
   d. Adjustment and maintenance of equipment.

07. **Bureau.** The Building Bureau of the Division of Building Safety.

08. **Commercial Coach.** In order to further clarify the definition of “commercial coach” as cited in Section 39-4105(5), Idaho Code, the phrase “made so as to be readily movable as a unit on its own running gear” shall mean that the running gear shall be a permanent part of the unit and not intended to be removed or replaced, and such modular structure is used for commercial purposes.

09. **Division.** The Division of Building Safety of the state of Idaho.

10. **Equipment.** All equipment, materials, appliances, devices, fixtures, fittings or accessories installed in the manufacture and assembly of modular buildings.

11. **Field Technical Service.** Interpretation and clarification of the technical data relating to the application of these rules, but not including inspection.

12. **First Purchaser.** The first purchaser of a commercial coach for other than resale.

13. **Insignia.** A label, tab or tag issued by the Division to indicate compliance with the codes, standards, rules and regulations established for manufactured building systems, subsystems, or building elements, modular buildings, and commercial coaches.

14. **Labeled.** Equipment or other building components bearing a label or other approved marking authorized or issued for use by a recognized testing/listing or evaluation agency.

15. **Listed.** Equipment or other building components included within a current list published by a recognized testing/listing agency that maintains periodic inspection on current production of listed equipment or other building components and whose listing states either that the equipment or component complies with recognized standards or has been tested and determined to be suitable for the use intended.

16. **Listing Agency.** A person, firm, association, partnership or corporation which is in the business of listing or labeling and which maintains a periodic inspection program on current production of listed materials, and which makes available, not less frequently than annually, a published report of such listing in which specific information is included that the product has been tested to nationally approved standards and found safe for use in a specified manner.
17. **Minor Alteration.** The following definition shall be used for the purpose of administering annual permits. (3-24-16)

a. Minor alterations shall include, but are not limited to, the following: partition walls constructed within a defined room; relocation of or existing openings or installation of new doors and windows in non-load bearing walls and not in construction meant to compartmentalize fire; window replacement in unaltered existing openings; roof repairs involving installation of less than one hundred (100) square feet of new roof covering; and new suspended ceilings that are not part of a required fire resistive assembly. (3-24-16)

b. Minor alterations shall not include: work that alters the fire resistive characteristics of the building or fire suppression systems; work that creates new openings in construction meant to compartmentalize fire such as fire walls, fire barriers, fore partitions, smoke barriers, smoke partitions, horizontal assemblies, shaft enclosures, stair enclosures; work that increases the floor area or height of the building; work that changes the structural load path of the building for gravity or horizontal loads; work that reduces the thermal resistant capacity of the building envelop; changes in the occupancy classification of the building or space; increases in the floor loads. (3-24-16)

18. **Model.** As referred to in Section 39-4113(3), Idaho Code, for modular buildings and commercial coaches shall mean a specific outside dimension and floor plan with specific structural, plumbing, electrical, and mechanical systems as designated by the manufacturer to be the standard for imitation reproduction. (3-30-06)

19. **Testing/Listing Agency.** A person, firm, association, partnership or corporation that is: (3-30-06)

a. In the business of testing equipment or other building components; and (3-30-06)

b. Recognized by the Division as being qualified and equipped to conduct experimental testing in accordance with recognized standards; and (3-30-06)

c. Not under the jurisdiction or control of any single manufacturer or supplier for an affected industry; and (3-30-06)

d. Making available, not less frequently than annually, a published report in which specific information is included stating that the equipment and systems have been tested and found safe for use in a specified manner. (3-30-06)

20. **Transit Damage.** Application to manufactured home means that damage encountered en route from the place of manufacture to the dealer or first owner involving structural integrity or any repair that does not result in return to the same construction or assembly as specified in the manufacturer’s design approval without additional reinforcement or change. (3-30-06)

21. **State Buildings.** All buildings to be constructed, altered, or repaired by or for any state of Idaho agency or entity, without regard to purpose, occupancy, or the source of funding for such construction, alteration, or repair. (3-30-06)

22. **Running Gear.** Springs, spring hangers, axles, bearings, wheels, brakes, rims and tires and their related hardware. (3-30-06)

23. **Substantially Prefabricated or Assembled.** The module or major portion of modular buildings assembled in such manner that all portions may not be inspected without disassembly or destruction of the part. (3-30-06)

24. **Substantially Prefabricated or Assembled.** The module or major portion of commercial coaches is assembled in such manner that all portions may not be inspected without disassembly or destruction of the part. (3-30-06)

25. **Systems Plan.** A design plan concept that allows the interchanging of various approved construction systems to include structural, electrical, plumbing, and mechanical aspects of the system. (3-30-06)
26. **Technical Service.** Conducting research, evaluation, consultation, model and systems plan reviews, interpretation and clarification by the Division of technical data relating to the application of these rules, and shall also include special field inspections that are not covered in other portions of these rules. (3-30-06)

027. **PERMITS.**

01. **Building Permits.** Building permits shall be obtained from the Division prior to the construction of structures governed by the act or rules promulgated by the Board. (3-24-16)

02. **Annual Permit.** In lieu of an individual permit for each minor alteration to an already approved building, the Division may issue an annual permit upon application therefor to any state agency or state governmental organization regularly employing one (1) or more qualified trade persons in the building, structure or on the premises or campus owned or operated by the applicant for the permit. The agency to whom an annual permit is issued shall keep a detailed record of alterations made under such annual permit. The Division shall be allowed access to such records at all times or such records shall be filed with the Division as designated. The permit holder shall request inspections and make the work accessible for inspection as required by the adopted codes and this rule. (3-24-16)

028. **PLAN REVIEW.**

01. **Jurisdiction.** The Division shall have exclusive jurisdiction and authority to conduct plan reviews of the construction, additions, repairs, and occupancy of all state buildings regardless of the source of funding for such construction, addition, repair, or occupancy. (3-30-06)

02. **Plans Specifications.** Construction documents shall be dimensioned and drawn upon suitable material. Plans may be submitted electronically or in digital format as approved by the Division. Drawing format shall be equivalent to the paper format. Construction documents shall be of sufficient clarity to indicate the location, nature, and extent of the work proposed and show in detail that the installations will conform to the provisions of the building code and applicable laws, rules, and policies of the Division. (4-7-11)

03. **Plans Not Required.** Plans shall not be required for group U occupancies of Type V conventional light-frame wood construction. (3-30-06)

04. **Addenda and Change Orders.**

a. Documents enforcing changes or modifications. Addenda, contract change orders, changes-in-work requests, and other similar written documents enforcing changes or modifications to plans or specifications, already approved by the Division, which addenda, change orders, or change-in-work requests deal with structural or fire resistance changes, or such other changes affecting code conformance, shall be submitted to the Bureau for approval. The use of the terms “addenda,” “change orders,” and “changes-in-work requests” shall not be limited exclusively to such phraseology, but shall be inclusive of such other language used in the professions which essentially have the same meaning. (3-30-06)

b. Application provisions. The provisions of this Section shall apply to that work which will be accomplished. (3-30-06)

029. **FEES.**

The following fee schedule shall be applicable for the functions cited: (3-30-06)

01. **Document Fees.**

a. The administrator shall charge such reasonable and suitable fees necessary for copies of any record, plan approval, permit, map, sketch, drawing or other instrument. (3-30-06)

b. Charges for copies of separate published documents shall be actual cost to the Division plus postage. (3-30-06)

02. **Technical Service Fee.** One hundred dollars ($100) per hour. (4-7-11)
03. **Modular Building Fees.** Other than as herein specified in this Section, the fee schedule for modular buildings shall be as provided herein in Table 1-A, and such fees shall be based on the Freight On Board (FOB) cost to the dealer at the point of manufacture. (3-30-06)

04. **Insignia Tag Fee.** In instances where building permit fees are not charged for modular buildings, a one hundred dollar ($100) fee will be charged for an insignia. (3-30-06)

05. **Payment of Fees.** Fees shall be paid to and collected by the Division. (3-30-06)

06. **Commercial Coaches.** Other than as herein specified in this Section, the fee schedule for commercial coaches shall be as provided in Table 1-A, and such fees shall be based on the Freight On Board (FOB) cost to the dealer at the point of manufacture. (3-30-06)

07. **Building Permit Fees.** The building permit fee for each permit shall be as set forth in the following table. The determination of value or valuation shall be made by the administrator and shall be the total value of all construction work for which a permit is issued.

(4-7-11)

08. **Fees for Annual Permits.** A fee for inspections performed on annual permits shall be charged at the rate of one hundred dollars ($100) per hour. The Division shall bill the applicant for annual permits and failure of the applicant to pay the fee within sixty (60) days may result in cancellation of the annual permit. (3-24-16)

09. **Plan Review Fees.** Plan review fees shall be charged at an hourly rate of one hundred dollars ($100) per hour up to a maximum of sixty-five percent (65%) of the calculated building permit fee with a minimum required fee of forty percent (40%) of the calculated building permit fee. All requests for plan review services shall at
such time be accompanied by a payment in the amount of at least forty percent (40%) of the calculated building permit fee. Upon completion of the plan review, any additional fees, above the minimum required, shall be due to the Division by the requesting party. (4-7-11)

10. Refund of Plan Review Fees. There shall be no refund of plan review fees. (3-30-06)

11. Refund of Permit Fees. The Administrator may authorize a refund of any permit fee paid which was erroneously paid or collected. The Administrator may authorize a refund of not more than eighty percent (80%) of the permit fee paid when no work has been done under a permit issued in accordance with these rules. The Administrator shall not authorize a refund of any permit fee paid except upon written application filed by the original applicant not later than one hundred eighty (180) days after the date of permit issuance. (4-7-11)

030. RIGHT OF ENTRY.
Whenever necessary to make an inspection to enforce any of the provisions of Title 39, Chapters 40 and 41, Idaho Code, or whenever the administrator or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises, any condition which makes such building or premises unsafe, the administrator or his authorized representative shall enter such building or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Division by Title 39, Chapters 40 and 41, Idaho Code; provided that if such building or premises is occupied, he shall first present proper credentials and demand entry; and if such building or premises be unoccupied, he shall first make a reasonable effort to locate the owner or other persons having charge or control of the building or premises and demand entry. If such entry is refused, the administrator shall have recourse to every remedy provided by law to secure entry. (3-30-06)

031. WORK PROCEEDING WITHOUT PERMIT OR APPROVAL.
Where any work for which a permit or approval, to include plan or system approval, is required by these rules, or by the codes enumerated in Title 39, Chapter 41, Idaho Code, is started or proceeded prior to obtaining said approval or permit, and after notice to such person doing or causing such work to be done, and such person continues or causes to continue such work, the fees specified in these rules shall be doubled, but the payment of such double fee shall not relieve any persons from fully complying with the requirements of Title 39, Chapters 40 or 41, or both, Idaho Code, or these rules in the execution of the work nor from any other penalties prescribed by law. (3-30-06)

032. STOP WORK ORDERS.
Whenever any work is being done contrary to any provisions of the codes enumerated in Title 39, Chapters 40 or 41, or both, Idaho Code, or contrary to these rules, the administrator or his authorized representative may order the work stopped by notice in writing served on any persons engaged in the doing or causing such work to be done, and any such persons shall forthwith stop such work until authorized by the administrator or his representative to proceed with the work. Stop work orders shall be accompanied by a notice of violation which shall state the specific violation and code reference. Stop work notices shall be red in color. (3-30-06)

033. PROHIBITED SALE OR OCCUPANCY NOTICE.
Whenever any mobile/manufactured home, commercial coach or other modular building is in violation of any of the provisions of Title 39, Chapter 40 or 41, or both, Idaho Code, or these rules, the administrator or his authorized representative may prohibit the sale or occupancy of such building, and any and all persons shall be forthwith prohibited from selling or occupying such building. Prohibited sale or occupancy notices shall be removed only on authority of the administrator or his authorized representative. Prohibited sale or occupancy notices shall be orange in color. (3-30-06)

034. REMOVAL OF ORDERS AND NOTICES; SALE, RENT, LEASE OR OCCUPANCY OF A UNIT BEARING SUCH ORDER OR NOTICE.
Removal of stop work orders, prohibited sale or occupancy notices, or the sale, rent, lease or occupancy of a building or structure, bearing such order or notice by any person not authorized by the administrator or his authorized representative, shall constitute a violation under the provisions of Section 39-4126, Idaho Code, and shall fall under the provisions of Section 18-317, Idaho Code. (3-30-06)

035. MODULAR BUILDINGS.
01. Enforcement and Administration. The administrator shall administer and enforce all the
provisions of these rules. Any officer, agent or employee of the Division is authorized to enter any premises during any normal or operational hours where modular buildings are manufactured, leased, sold or offered for sale for the purpose of examining any records pertaining to quality control and inspection and may inspect any such units, equipment or installations to insure compliance with the provisions of these rules and codes enumerated in Title 39, Chapter 41, Idaho Code. When it becomes necessary, he may require that a portion of such modular building units be removed in order that an inspection may be made to determine compliance. Every manufacturer of modular buildings shall obtain prior approval and an insignia for each modular building unit to be installed in the state of Idaho.

02. **Alternates and Equivalents.**

   a. **Alternatives Acceptable.** The provisions of these rules are not intended to prevent the use of alternate designs, materials, appliances, systems, devices, arrangements, or methods of construction not specifically prescribed by Title 39, Chapter 41, Idaho Code, or of these rules; provided, any such alternate has first been recognized by the Division.

   b. **Satisfactory Alternatives.** The Division shall recognize any such alternate if it finds that the proposed design is satisfactory and that the material, appliance, device, arrangement, method, system or method of construction is at least the equivalent in performance in quality, strength, effectiveness, fire resistance, durability and adequate for the protection of the health, safety and general welfare of the people of the state of Idaho.

   c. **Unsatisfactory Alternatives.** Recognition by the Division shall not be given if there is substantial evidence that any design, material, appliance, device, arrangement, system or method of construction does not conform to the provisions or requirements of prescribed standards or these rules; provided, however, the Division may, in order to substantiate claims for alternates, upon written request cause tests or proof of compliance to be made at the expense of the manufacturer, his agent, or the seller.

   d. **Test Methods.** Test methods shall be as specified in the standards of the codes listed in Title 39, Chapter 41, Idaho Code, or by other nationally recognized standards recognized by the Division. If there are no appropriate test methods specified in the standards listed above, the Division shall determine the test procedure.

03. **Permits.** Prior to construction of modular buildings, appropriate building permits shall first be obtained from the Division.

04. **Plans.**

   a. **Specifications for Submittal.** Plans shall be submitted in accordance with Subsection 028.03 of these rules.

   b. **Nonconformance.** Should the plan submittal not conform to the requirements of these rules, the applicant shall be notified in writing within fifteen (15) work days of the date they are received by the Division. Should the applicant fail to submit a completely corrected plan submittal in accordance with the information supplied by the Division within ninety (90) days of such notice, the plan submittal will be deemed abandoned and all fees submitted shall be forfeited to the Division. Subsequent submission thereafter shall be processed as a new plan submittal.

   c. **Distribution of Approved Copies.** An approved copy of the plan submittal shall be returned to the manufacturer. An approved copy shall be retained at each place of manufacture, and a copy shall be retained by the Division.

   d. **Proprietary Information.** All material submitted by the manufacturer in the form of design plans, engineering data, test results, and other design information relating to their application will be considered proprietary information and will not be released for public scrutiny except when so ordered by a court of competent jurisdiction.

   e. **Changes to Approved Modular Building Plans.** Where the manufacturer proposes to change his
submitted designs or the Division rule is amended to necessitate such a change, the manufacturer shall submit
changed plans for examination and approval. (3-30-06)

05. Inspections. (3-30-06)

a. Inspections at Manufacturing Plants. The Division shall conduct inspections at the manufacturing
plant to determine compliance with the provisions of these rules and with Title 39, Chapter 41, Idaho Code. (3-30-06)

b. In-Plant Inspections. Due to the repetitive nature of the manufacturing process, the required
inspections outlined in the International Building Code or International Residential Code may not be required if, in
the opinion of the Division, compliance can be obtained by periodic inspections. The Division shall conduct periodic
unannounced inspections at any manufacturing site to review any or all aspects of a manufacturer’s production and
inspectional control procedures. Each unit, however, shall be inspected at least once during the course of production
for compliance with the adopted standards. No unit manufactured to be installed in the state of Idaho will be shipped
from the point of manufacture without inspection and attached insignia. (3-30-06)

c. Field Inspections. All existing modular buildings to be installed in the state of Idaho not bearing the
Division’s insignia shall not be used or occupied until required Idaho insignia has been issued by the Division and
properly affixed in accordance with these rules. Applicants for insignia shall obtain permits, plan approvals and
inspections as required by these rules. (3-30-06)

d. Field Inspection for Alterations and Conversions. Any alteration or conversion of Division
approved modular buildings after leaving the manufacturing facility shall be field inspected in accordance with this
section by the local unit of government having jurisdiction. (3-30-06)

06. Installation Inspection. In order to complete the installation of the modular building, approval and
inspection of said installation by the enforcement agency having jurisdiction over the site location shall be required.
(3-30-06)

a. In-Plant Inspection in Sister States. Where there is evidence that the in-plant inspectional controls
in out-of-state plants in states having reciprocal agreements with the state of Idaho are not being maintained for units
to be sold or placed in Idaho, the Division reserves the right to make out-of-state inspections, and fees for such
inspection as set forth in these rules shall be paid by the manufacturer. (3-30-06)

b. Field Technical Service. Any person may request field technical service and requests for such
service shall be submitted to the Division in writing. (3-30-06)

07. Local Enforcement Agencies. (3-30-06)

a. Rights of Local Enforcement Agency. A local enforcement agency shall have the right to require a
complete set of plans and specifications approved by the Division for each modular building to be installed within its
jurisdiction, to require that all permits be obtained before delivery of any unit to a building site and to require permits
for alterations, repairs or conversions of existing Division approved modular buildings. (3-30-06)

b. Limitations of Rights of Local Enforcement Agency. A local enforcement agency shall not have the
right to: open for inspection any modular building or component bearing an insignia to determine compliance with
any codes or ordinances; require by ordinance or otherwise that modular buildings meet any requirements not equally
applicable to on-site construction; or require or charge fees for any portion of the structure completed in a
construction facility remote from the building installation site. (3-30-06)

08. Insignia. (3-30-06)

a. Required Insignia. Each modular building section substantially prefabricated and assembled shall
bear a Division insignia prior to leaving the manufacturing facility. Assigned insignia are not transferable and are
void when not affixed as assigned. All such voided insignia shall be returned to, or may be confiscated by the
Division. Insignia remain the property of the Division and may be reappropriated by the Division in the event of
violation of conditions of approval. Assigned insignia affixed in the field shall be under the direction of the Division’s authorized agent.

b. Insignia Location. Single units shall have the insignia permanently attached below the electrical service entrance. Multiple section units shall have the insignia permanently attached on all perimeter sections to the outside wall next to the major access opening. For interior units and second story units the insignia shall be permanently attached on the interior wall next to the major access opening.

c. Application for Insignia. The manufacturer shall make application for an insignia for each unit to be manufactured as required by Subsection 035.03 of this rule. The permit/insignia application shall be submitted to the Division in accordance with this section and shall include the appropriate fees. Applications shall include the serial number of each unit for which an insignia is requested.

d. Alteration or Conversion. Factory alterations or conversions of an approved modular building prior to first occupancy shall NOT take place until a permit under the provisions of this section has been obtained. The jurisdiction for non-factory produced additions, repairs or alterations to modular buildings and commercial coaches built in conformance with and as prescribed in the Idaho Building Code Act, Section 39-4109, Idaho Code, once such unit has left the manufacturing facility or a dealer’s lot, and bears an appropriate insignia of compliance, rests with the local unit of government having the jurisdiction for the administration and enforcement of locally adopted codes prescribed within the Idaho Building Code Act.

e. Denial of Insignia. Should inspection reveal that a manufacturer is not manufacturing units according to the codes specified in Title 39, Chapter 41, Idaho Code, and these rules, and such manufacturer after having been served with a notice setting forth in what respect the provisions of the codes or rules have been violated continues to manufacture units in violation of the codes or rules, applications for new insignia shall be denied and insignia issued for units in noncompliance such manufacturer may resubmit an application for insignia.

f. Removal of Insignia. In the event any unit bearing an insignia is found to be in violation of the codes enumerated in Title 39, Chapter 41, Idaho Code, or these rules, the Division may remove the insignia and shall furnish the owner or his agent with a written statement of violations. The owner or his agent shall request an inspection after making corrections to bring the unit into compliance before the Division will issue a replacement insignia.

g. Serial Number. Each commercial coach rented, leased or sold, or offered for rent, lease or sale in Idaho shall bear a legible identifying serial number in accordance with the provisions of this section which shall include the state of manufacture. Each section of a multiple modular building shall have the same identifying serial number followed by a numerical sequence identifier and letter suffix.

h. Stamp of Serial Number and State of Manufacture. The unit serial number and the state of manufacture shall be stamped into the foremost cross member of all commercial coaches. Letters and numbers shall be three-eighths (3/8) inch minimum height. Numbers shall not be stamped into a hitch assembly or draw bar. The insignia shall be made of etched brass, stainless steel, anodized or alclad aluminum, or other approved material, not less than two hundredths (0.02) inches thick, and three (3) inches by one and three-fourths (1 3/4) inches minimum size, with lettering not less than one-eighth (1/8) inch high.

i. Multiple Commercial Coaches. Each section of multiple commercial coaches shall have the same identifying serial number followed by a numerical sequence identifier and letter suffix.

j. Data on Insignia. The date of manufacture, showing month, week and year will be shown on the insignia. Such data will be provided by the manufacturer on the application for insignia.

09. Reciprocal Agreements. The provisions for insignia of compliance as specified in a written and signed reciprocal agreement between the Division and any other state shall take precedence over the provisions of these rules.

036. MANUFACTURED HOMES.
01. **Construction and Safety Standards.** Effective June 15, 1976, the latest published edition of the Federal Manufactured Home Construction and Safety Standards and Manufactured Home Procedural and Enforcement Regulations shall be in effect for all manufactured homes manufactured within the state of Idaho, and for all new manufactured homes for sale within the state of Idaho. All new manufactured homes offered for sale within Idaho after the effective date of this section shall bear the Housing and Urban Development (H.U.D.) label as authorized in the Federal Manufactured Home procedural and enforcement regulations. Mobile homes manufactured between March 8, 1971 and June 15, 1976 offered for rent, lease, or sale within Idaho shall bear an Idaho insignia of approval.

02. **Inspections.**

a. Special Inspection. Whenever there is a transit damage or any alteration made to a certified manufactured home, or both, a special inspection shall be required of any person offering for rent, lease, or sale said manufactured home. The purpose of the inspection is to insure that the repairs or alteration, or both, do not result in the failure of the manufactured home to comply with the standards.

b. Installation Inspection. Installation inspections shall be conducted by local jurisdictions in accordance with Title 44, Chapter 22, Idaho Code and the state adopted Idaho Manufactured Home Installation Standard as incorporated by reference in IDAPA 07.03.12, “Rules Governing Manufactured Home Installations,” Section 004.

03. **Fees.**

a. Payment of Fees. Fees shall be paid to and collected by the Division.

b. In-Plant Inspections. The charge for routine in-plant inspections shall be equal to the latest fees approved by the Department of Housing and Urban Development-Office of Manufactured Home Standards: Forty-five dollars ($45) per floor.

c. Other Inspections. For all inspections other than routine whether they be in-plant or in the field (for models produced after June 15, 1976): Seventy dollars ($70) per hour minimum for inspection and travel time, prorated to the nearest quarter hour, per diem and lodging where applicable, plus the current state rate for mileage, as approved by the State Board of Examiners and listed in the Idaho State Travel Policies and Procedures, Appendix “A,” based on the round-trip distance from point of inspection and the inspector’s office location.

037. **JURISDICTION FOR PLAN REVIEW OF STATE BUILDINGS.**

Jurisdiction of the requirements for plan review for construction, additions, repairs, and occupancy of all state buildings within the state of Idaho shall remain exclusively with the Division. State buildings, for the purposes of this section, shall mean all buildings to be constructed for or by any agency of government at the state level for any purposes or occupancy, regardless of the source of funding for such construction, addition, repair, or occupancy.

038. **INTEGRATED DESIGN AND FUNDAMENTAL COMMISSIONING OF PUBLIC SCHOOL FACILITIES.**

01. **Definitions.** The following definitions are intended to supplement, and should be read in conjunction with the definitions contained in Section 33-356, Idaho Code.

a. Fundamental Commissioning. A quality-focused process for enhancing the delivery of a project. It makes use of a qualified third party employed directly by the building owner.

b. Integrated Design. Integrated design refers to a collaborative design effort in which each of the individual architectural or engineering professionals focuses on the whole building approach, with an emphasis on optimizing the building’s performance, environmental sustainability, and cost-savings, to include climate, use, loads and systems resulting in a more comfortable and productive environment, and a building that is more energy-efficient than would be realized using current best practices.
02. Technical and Educational Information. Technical and educational information related to integrated design and fundamental commissioning in the form of the American Institute of Architects Integrated Project Delivery Guide; Portland Energy Conservation, Inc. (PECI) Commissioning Guides; ASHRAE Guideline 0-2005-The Commissioning Process; and the Northwest Energy Efficiency Alliance Integrated Design Special Focus on Energy Performance Guide is available at the Division office locations including 1090 E. Watertower St., Meridian, Idaho 83642, and 1250 Ironwood Dr., Ste. 220, Coeur d’Alene, Idaho 83814. A building commissioned under the prescriptive approaches defined by any of the above-named national organizations is deemed to have completed the Fundamental Commissioning process.

03. Commissioning Agents. The Division has compiled and made available for public examination a list of all known third party building commissioning agents in Idaho and its contiguous states. The Division has ensured that all such commissioning agents appearing on this list have been certified by the Building Commissioning Association (BCA) or other similar certifying entity.

04. Annual Optimization Review.

a. A public school building which qualifies for the school building replacement value calculation pursuant to Section 33-356(5)(a), Idaho Code, shall undergo an annual optimization review each year following the first year of operations that the involved school district seeks to qualify such building for the building replacement value calculation.

b. The systems within a building required to undergo annual optimization review, as well as any relevant measuring criteria for such systems, shall be formulated by the third party commissioning agent that performs the initial fundamental commissioning. The school district shall be provided with a written report from the commissioning agent identifying the systems which will be subject to the annual optimization review along with any other requirements.

c. The report required above in Paragraph 038.03.b. of these rules shall include, but is not limited to, at least the following:

i. Verification that the heating, ventilation, and air conditioning (HVAC) controls, dampers, valves, sensors and other equipment used to control the system are functioning as they were at the commissioning of the building.

ii. Verification that the lighting controls are functioning as they were at the commissioning of the building.

iii. The requirement that any changes made to any of the controls contained on the agent’s list after the initial commissioning be re-set back to the commissioned settings unless it can be demonstrated that the new settings result in greater energy efficiency.

d. The annual optimization review shall be performed by persons qualified to make the required determinations and adjustments.

e. The school district shall submit to the Division written verification indicating that the systems identified by the commissioning agent, including those identified in this Section are functioning as they were at the initial commissioning. Such written verification shall also identify the persons performing the optimization and their qualifications.

05. Commissioning Anniversary Date. The date upon which the commissioning agent provides the school district with the required written report described in Paragraph 038.03.b. of these rules shall be the commissioning anniversary date for purposes of this Section. If a school district seeks to qualify a building for the building replacement value calculation, the annual optimization review shall be performed within thirty (30) days of the annual commissioning anniversary date following the first year the building is in operation. The written verification required by Paragraph 038.03.e. of these rules shall be received by the Division not later than sixty (60) days after the annual commissioning anniversary date.
06. Fundamental Building Commissioning Requirements. (3-29-10)

a. School districts seeking to qualify a building for the building replacement value calculation shall engage a building commissioning agent. (3-29-10)

b. The commissioning agent must document the owner’s requirements for each commissioned system in the facility. All HVAC and controls systems, duct work and piping, renewable and alternative technologies, lighting controls and day lighting, waste heat recovery, and any other advanced technologies incorporated in the building must be commissioned. Building envelope systems must also be verified. The owner’s requirements for these systems may include efficiency targets and other performance criteria such as temperature and lighting levels that will define the performance criteria for the functional performance testing that occurs prior to acceptance. (3-29-10)

c. The commissioning agent shall include commissioning requirements in the project construction documents. This includes the scope of commissioning for the project, the systems to be commissioned, and the various requirements related to schedule, submittal reviews, testing, training, O & M manuals, and warranty reviews. (3-29-10)

d. The commissioning agent shall develop and utilize a commissioning plan. This plan must include an overview of the commissioning process for the project, a list of commissioned systems, primary commissioning participants and their roles, a communication and management plan, an outline of the scope of commissioning tasks, a list of work products, a schedule, and a description of any commissioning testing activities. (3-29-10)

e. The commissioning agent must submit a report to the owner once the commissioning plan has been executed. (3-29-10)

039. -- 999. (RESERVED)
000. **LEGAL AUTHORITY.**
The Modular Building Advisory Board of the Division of Building Safety is authorized under Section 39-4302, Idaho Code, to promulgate rules concerning the enforcement and administration of Title 39, Chapter 43, Idaho Code, for Modular Buildings.

001. **TITLE AND SCOPE.**

01. **Title.** These rules are titled IDAPA 07.03.03, “Rules for Modular Buildings,” Division of Building Safety.

02. **Scope.** These rules prescribe the criteria for enforcement and administration of the Idaho Modular Buildings Act by the Modular Building Advisory Board and the Building Bureau of the Division of Building Safety.

002. **WRITTEN INTERPRETATIONS.**
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency has statements that pertain to the interpretation of the rules of this chapter. These statements are available for review and copying at the offices of the Division of Building Safety.

003. **ADMINISTRATIVE APPEALS.**
This chapter does not provide for administrative relief of the provisions contained herein.

004. **OFFICE -- OFFICE HOURS -- STREET ADDRESS -- MAILING ADDRESS -- TELEPHONE, FACSIMILE AND WEB ADDRESS.**
The principal place of business of the Division of Building Safety is in Meridian, Idaho. The office is located at 1090 E. Watertower Street, Meridian, Idaho and is open from 8 a.m. to 5 p.m., except Saturday, Sunday, and legal holidays. The mailing address is: Division of Building Safety, 1090 E. Watertower Street, Meridian, Idaho 83642. The telephone number of the office is (208) 334-3896. The facsimile number of the office is (208) 855-9399. The Department website at http://dbs.idaho.gov/.

005. **PUBLIC RECORDS ACT COMPLIANCE.**
The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code, and are public records.

006. -- 009. (RESERVED)

010. **DEFINITIONS.**
The terms defined in this section have the following meaning for all parts of IDAPA 07.03.03, unless the context clearly indicates another meaning.

01. **Administrator.** The Administrator of the Division of Building Safety for the state of Idaho.

02. **Alterations or Conversions of Modular Buildings.** Any change from the approved plans or installation instructions that would affect the structural, mechanical, electrical or plumbing systems of Modular Buildings bearing a Division Insignia of approval, including the replacement, addition, modification, or removal of any structural member; plumbing, heat-producing or electrical equipment, or installation that may effect such systems prior to first occupancy. Any such alteration or conversion must first be approved by testing and inspection in the same manner as original systems or component parts. The following do not constitute alteration or conversion:

a. Repairs with approved replacement parts;
b. Conversion of listed fuel-burning appliances in accordance with the terms of their listing.; (3-26-08)

c. Replacement of equipment and appliances in kind; (3-26-08)

d. Adjustment and maintenance of equipment. (3-26-08)

03. Board. The Modular Building Advisory Board, as created in Section 39-4302, Idaho Code. (3-26-08)

04. Building Site. Any tract, parcel, or subdivision of land upon which a Modular Building is installed or is to be installed. (3-26-08)

05. Closed Construction. Any manufactured building or building component that may enclose factory installed structural, mechanical, electrical, or plumbing systems and is not open for visual inspection at the Building Site. (3-26-08)

06. Commercial Coach. A Modular Building with permanent running gear and a hitch assembly that is designed and constructed for nonresidential occupancy classifications only. Permanent running gear includes springs, spring hangers, axles, bearings, wheels, brakes, rims and tires and their related hardware. (3-26-08)

07. Division. The Idaho Division of Building Safety. (3-26-08)

08. Insignia. A label or tag issued by the Division to indicate compliance with the codes, standards, rules, and regulations established for manufactured building systems, subsystems, or building elements, Modular Buildings, and Commercial Coaches. (3-26-08)

09. Modular Building. Any building or building component, other than a manufactured or mobile home, that is of Closed Construction and is either entirely or substantially prefabricated or assembled at a place other than the Building Site. (3-26-08)

10. Technical Service. Conducting research, evaluation, consultation, interpretation, and clarification by the Division of technical data relating to the application of these rules, and also include special field inspections that are not covered in other portions of these rules. (3-26-08)

011. -- 026. (RESERVED)

027. PERMITS. Building permits must be obtained from the Division prior to the construction of structures governed by Title 39, Chapter 43, Idaho Code, or rules promulgated by the Board. (3-26-08)

028. PLAN REVIEW.

01. Jurisdiction. The Division has exclusive jurisdiction and authority to conduct plan reviews of the in-plant construction of Modular Buildings. (3-26-08)

02. Plans Specifications. Plans must be drawn to scale and must be on uniformly sized standard stock drawing sheets not to exceed thirty-six (36) inches by sixty (60) inches or in digital PDF format. (3-26-08)

03. Plans Not Required. Plans are not required for group U occupancies of Type V conventional light-frame wood construction. (3-26-08)

04. Non-conformance. Should the plan submittal not conform to the requirements of these rules, the applicant will be notified in writing within fifteen (15) work days of the date they are received by the Division. Should the applicant fail to submit a completely corrected plan submittal in accordance with the information supplied by the Division within ninety (90) days of such notice, the plan submittal will be deemed abandoned. Subsequent submission thereafter will be processed as a new plan submittal. (3-26-08)
05. **Distribution of Approved Copies.** An approved copy of the plan submittal will be returned to and retained by the manufacturer and a copy will be retained by the Division. When necessary, an additional copy may be distributed for use by third party or contract inspectors. (3-26-08)

06. **Proprietary Information.** All material submitted by the manufacturer in the form of design plans, engineering data, test results, and other design information relating to their application will be considered proprietary information and will not be released for public scrutiny except when so ordered by a court of competent jurisdiction. (3-26-08)

07. **Revisions to Approved Modular Building Plans.** Where the manufacturer proposes to revise his submitted designs, or Division adopted rules or codes are amended to necessitate such a change, the manufacturer must submit revised plans for examination and approval. (3-26-08)

08. **Application Provisions.** The provisions of this section applies only to plans for work that will be accomplished at the place of manufacture. (3-26-08)

09. **FEES.**
The following fee schedule is applicable for the functions cited: (3-26-08)

01. **Modular Building Permit Fees.** Other than as herein specified in this section, the permit fee schedule for Modular Buildings is as provided herein in Table 1-A plus ninety dollars ($90) and two and one-half percent (2.5%) of the plumbing, electrical, and HVAC installation costs. The determination of value or valuation is based on the total value of all construction work for which a permit is issued.

(3-26-08)
a. Inspections outside of normal business hours: sixty-five dollars ($65) per hour (minimum charge - two (2) hours). (3-26-08)

b. Re-inspection fees: sixty-five dollars ($65) per hour. (3-26-08)

c. Inspections for which no fee is specifically indicated: sixty-five dollars ($65) per hour (minimum charge - one half (1/2) hour). (3-26-08)

d. Additional plan review required by changes, additions, or revisions to plans: sixty-five dollars ($65) per hour (minimum charge - one-half (1/2) hour). (3-26-08)

e. For use of outside consultants for plan checking and inspections or both: actual costs. (3-26-08)

03. **Insignia Tag Fee.** In instances where building permit fees are not charged for Modular Buildings, a one hundred dollar ($100) fee will be charged for an Insignia. (3-26-08)

04. **Investigation Fee.** Whenever any work for which a permit is required by these rules has been commenced without first obtaining said permit, a special investigation must be made before a permit may be issued for such work. An investigation fee, in addition to the permit fee, must be collected whether or not a permit is then or subsequently issued. The investigation fee is equal to the amount of the permit fee required by these rules. The minimum investigation fee is the same as the minimum fee set forth in Table 1-A. The payment of such investigation fee does not exempt any person from compliance with all other provisions of these rules nor from any penalty prescribed by law. (3-26-08)

05. **Payment of Fees.** Fees are paid to and collected by the Division. (3-26-08)

06. **Plan Review.** Where the Modular Building plans have not been previously approved, the Modular Building fee includes an additional amount equal to sixty-five percent (65%) of the permit fee calculated in accordance with Table 1-A. (3-26-08)

07. **Refund of Permit Fees.** The Administrator may authorize refunding of any permit fee paid that was erroneously paid or collected. The Administrator may authorize refunding of not more than eighty percent (80%) of the permit fee paid when no work has been done under a permit issued in accordance with these rules. The Administrator will not authorize refunding of any permit fee paid except on written application filed by the original applicant not later than one hundred eighty (180) days after the date of fee payment. (3-26-08)

08. **Refund of Plan Review Fees.** There is no refund of plan review fees. (3-26-08)

030. **RIGHT OF ENTRY.**

Whenever necessary to make an inspection to enforce any of the provisions of Title 39, Chapter 43, Idaho Code, or whenever the Administrator or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises, any condition that makes such building or premises unsafe, the Administrator or his authorized representative may enter such building or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Division by Title 39, Chapter 43, Idaho Code; provided that if such building or premises is occupied, he must first present proper credentials and demand entry; and if such building or premises be unoccupied, he must first make a reasonable effort to locate the owner or other persons having charge or control of the building or premises and demand entry. If such entry is refused, the Administrator has recourse to every remedy provided by law to secure entry. (3-26-08)

031. **REMOVAL OF ORDERS AND NOTICES PROHIBITED.**

Removal of stop work or prohibited occupancy orders or notices from a building or structure, bearing such order or notice by any person or persons not authorized by the Administrator or his authorized representative, constitute a violation under the provisions of Section 39-4126, Idaho Code, and falls under the provisions of Section 18-317, Idaho Code. (3-26-08)

032. **MODULAR BUILDINGS.**
01. **Enforcement and Administration.** The Administrator administers and enforces all the provisions of these rules. Any officer, agent, or employee of the Division is authorized to enter any premises during any normal or operational hours where Modular Buildings are manufactured for the purpose of examining any records pertaining to quality control and inspection and may inspect any such units, equipment, or installations to insure compliance with the provisions of these rules and codes enumerated in Title 39, Chapters 41 and 43, Idaho Code. When it becomes necessary, he may require that a portion or portions of such Modular Building units be removed in order that an inspection may be made to determine compliance. Every manufacturer of Modular Buildings must obtain prior approval and an Insignia for each Modular Building unit to be installed in the state of Idaho. (3-26-08)

02. **Inspections.** (3-26-08)

a. Inspections at Manufacturing Plants. The Division conducts inspections at the manufacturing plant to determine compliance with the provisions of these rules and with codes adopted by Title 39, Chapter 41, Idaho Code, and Title 54, Chapters 10, 26, and 50, Idaho Code. (3-26-08)

b. In-Plant Inspections. Due to the repetitive nature of the manufacturing process, the required inspections outlined in the International Building Code or International Residential Code may not be required if, in the opinion of the Division, compliance can be obtained by periodic inspections. The Division conducts periodic unannounced inspections at any manufacturing site to review any or all aspects of a manufacturer’s production and inspectional control procedures. Each unit, however, must be inspected at least once during the course of production for compliance with the adopted standards. No unit manufactured to be installed in the state of Idaho will be shipped from the point of manufacture without inspection and attached Insignia. (3-26-08)

c. Field Inspections. All existing Modular Buildings to be installed in the state of Idaho not bearing the Division’s Insignia may not be used or occupied until required Idaho Insignia has been issued by the Division and properly affixed in accordance with these rules. Applicants for Insignia must obtain permits, plan approvals, and inspections as required by these rules. (3-26-08)

d. Qualifications of Inspectors. All inspectors performing inspections of modular buildings must be properly certified for the type of inspection being conducted. The Modular Board recognizes certifications granted through the National Certification Program Construction Code Inspector program (NCPCCI), the National Inspection Testing Certification program (NITC), the International Association of Electrical Inspectors (IAEI), and the International Code Council (ICC). Certifications must be current and of the proper classification for the structure or subsystem being inspected. (3-29-10)

03. **Installation Inspection.** In order to complete the installation of the Modular Building, approval and inspection of said installation by the enforcement agency having jurisdiction over the site location is required. (3-26-08)

04. **Field Technical Service.** Any person may request field Technical Service and requests for such service must be submitted to the Division in writing. (3-26-08)

05. **Local Enforcement Agencies.** (3-26-08)

a. Rights of Local Enforcement Agency. A local enforcement agency has the right to require a complete set of plans and specifications approved by the Division for each Modular Building to be installed within its jurisdiction, to require that all permits be obtained before delivery of any unit to a Building Site. After leaving the manufacturing facility, future alterations or conversions of Division approved Modular Buildings must be field inspected by the local unit of government having jurisdiction. (3-26-08)

b. Limitations of Rights of Local Enforcement Agency. A local enforcement agency does not have the right to: open for inspection any Modular Building or component bearing an Insignia to determine compliance with any codes or ordinances; require by ordinance or otherwise that Modular Buildings meet any requirements not equally applicable to on-site construction; or to charge permit or plan review fees for any portion of the structure prefabricated or assembled at a place other than the Building Site. (3-26-08)

06. **Insignia.** (3-26-08)
a. Required Insignia. Each Modular Building section must bear a Division Insignia prior to leaving the manufacturing facility. Assigned Insignia are not transferable and are void when not affixed as assigned. All such voided Insignia must be returned to, or may be confiscated by, the Division. Insignia remain the property of the Division and may be confiscated in the event of violation of conditions of approval. Assigned Insignia affixed in the field must be under the direction of the Division’s authorized agent. (3-26-08)

b. Insignia Location. Insignias must be placed on the front, left-hand side of the building. (3-26-08)

c. Serial Number. Each Modular Building must bear a legible identifying serial number and must include the state of manufacture. Each section of a multiple Modular Building must have the same identifying serial number followed by a numerical sequence identifier or a letter suffix, or both. Characters for serial numbers must be three-eighths (3/8) inch minimum height. Numbers may not be stamped into a hitch assembly or draw bar. (3-26-08)

d. Data on Insignia. The date of manufacture, showing month, week, and year will be shown on the Insignia. Such data will be provided by the manufacturer on the application for Insignia. (3-26-08)

07. Reciprocal Agreements. The provisions for Insignia of compliance as specified in a written and signed reciprocal agreement between the Division and any other state takes precedence over the provisions of these rules. Where there is evidence that the in-plant inspection controls in out-of-state plants within states having reciprocal agreements with the state of Idaho are not being maintained for units to be placed in Idaho, the Division reserves the right to make out-of-state inspections, and fees for such inspection as set forth in these rules must be paid by the manufacturer. (3-26-08)

033. CIVIL PENALTIES.
The following acts subject the violator to penalties based on the following schedule. (5-8-09)

01. Installation. Any person who transports a modular building to or installs a modular building on a building site in this state without first receiving approval and securing to the structure insignia evidencing such approval from the Division is subject to a civil penalty of not more than two hundred dollars ($200) for the first offense and subject to a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter. (5-8-09)

02. Modification. Any person who in any way modifies or alters a modular building prior to its initial occupancy which has previously been approved by the Division without first having received approval to do so from the Division is subject to a civil penalty of not more than two hundred dollars ($200) for the first offense and subject to a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter. (5-8-09)

03. Removal of Orders. Any person who removes a stop work or prohibited occupancy order or notice from a building or structure bearing such order or notice is subject to a civil penalty of not more than two hundred dollars ($200) for the first offense and subject to a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter. (5-8-09)

04. Lawful Orders. Any person who fails, neglects, or refuses to obey any lawful order issued by the Administrator or his representative, or who refuses to perform any duty lawfully enjoined upon him by the Administrator or his representative, is subject to a civil penalty of not more than two hundred dollars ($200) for the first offense and subject to a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter. (5-8-09)

034. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
The administrator of the Idaho Division of Building Safety and the Idaho Factory Built Structures Board are authorized to promulgate rules necessary to implement the provisions of Title 44, Chapters 21 and 22, Idaho Code, including the establishment of a mandatory statewide manufactured home setup code, as well as to define and prohibit deceptive practices, and to establish administrative penalties. (3-28-18)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 07.03.11, “Rules Governing Manufactured/Mobile Home Industry Licensing,” Division of Building Safety. (3-24-05)

02. Scope. These rules apply to persons engaged in the business of manufacturing, selling, or installing manufactured or mobile homes for purposes of human habitation (living and sleeping) in the state of Idaho. (3-20-14)

002. WRITTEN INTERPRETATIONS.
The Division may from time to time provide legal opinions regarding these rules. To the extent not privileged, these documents will be made available for inspection at the Division's main office, 1090 E. Watertower Street, Suite 150, Meridian, Idaho 83642. (3-20-14)

003. ADMINISTRATIVE APPEALS.
Procedures for administrative relief of the provisions outlined herein are pursuant to Title 67, Chapter 52, Idaho Code, and the “Idaho Rules of Administrative Procedure of the Attorney General,” IDAPA 04.11.01.000, et seq. (5-25-94)

004. -- 009. (RESERVED)

010. DEFINITIONS.
For the purposes of these rules, the following terms will be used, as defined below: (5-25-94)

01. Administrator. The administrator of the Division of Building Safety of the state of Idaho. (3-24-05)

02. Board. The Factory Built Structures Board. The composition and duties of the Board are set forth at Section 44-2104, Idaho Code. (3-28-18)

03. Bond. The performance bond required by Section 44-2103, Idaho Code. (5-25-94)

04. Branch Office. An enclosed structure accessible and open to the public, at which the business of the manufactured/mobile home retailer is conducted simultaneously with and physically separated from his principal place of business. There must be displayed on the exterior a sign permanently affixed to the land or building with letters clearly visible to the major avenue of traffic. The sign must provide the business name of the retailer. (3-29-10)

05. Business. Occupation, profession, or trade. (5-25-94)

06. Deceptive Practice. Intentionally publishing or circulating any advertising concerning mobile or manufactured homes which:

a. Is misleading or inaccurate in any material respect; (3-29-10)

b. Misrepresents any of the products or services sold or provided by a manufacturer, manufactured/
mobile home retailer, salesman, or installation company. (3-20-14)

07. Division. The Division of Building Safety for the state of Idaho. (5-25-94)

08. Installer. A person who owns a business which installs manufactured/mobile homes at the sites where they are to be occupied by the consumer. The term does not include the purchaser of a manufactured/mobile home or a manufactured/mobile home retailer who does not install manufactured/mobile homes. A retailer who does install manufactured/mobile homes is an installer. The term also does not include concrete contractors or their employees. (3-29-10)

09. Installation. The term includes “setup” and is the complete operation of fixing in place a manufactured/mobile home for occupancy. (5-25-94)

10. Manufactured Home. A structure, constructed after June 15, 1976, in accordance with the HUD manufactured home construction and safety standards, and is transportable in one (1) or more sections, which, in the traveling mode, is eight (8) body feet or more in width or is forty (40) body feet or more in length, or when erected on site, is three hundred twenty (320) or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air conditioning, and electrical systems contained therein, except that such term must include any structure which meets all the requirements of this subsection except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the secretary of Housing and Urban Development and complies with the standards established under 42 U.S.C. Section 5401, et seq. (3-20-14)

11. Manufactured Home Retailer. Except as otherwise provided in these rules:

a. Any person engaged in the business of selling or exchanging new and used units; or (5-25-94)

b. Any person or who buys, sells, lists, or exchanges three (3) or more new and used units in any one (1) calendar year. (5-25-94)

12. Manufactured/Mobile Home Salesman. Any person employed by a manufactured/mobile home retailer or resale broker for a salary, commission, or compensation of any kind to sell, list, purchase, or exchange or to negotiate for the sale, listing, purchase, or exchange of new, used, brokered, or third-party owned units, except as otherwise provided in Title 44, Chapter 21, Idaho Code. (3-20-14)

13. Manufacturer. Any person engaged in the business of manufacturing manufactured homes that are offered for sale, lease, or exchange in the state of Idaho. (3-20-14)

14. Mobile Home. A factory-assembled structure or structures generally constructed prior to June 15, 1976, the date of enactment of the Federal Manufactured Housing and Safety Standards Act (HUD Code), and equipped with the necessary service connections and made so as to be readily movable as a unit or units on their own running gear and designed to be used as a dwelling unit or units with or without a permanent foundation. (3-20-14)

15. Person. A natural person, corporation, partnership, trust, society, club, association, or other organization. (5-25-94)

16. Principal Place of Business. The primary physical location at which the business of a manufactured home retailer or resale broker is lawfully conducted. Each of the following requirements must be met to qualify as the principal place of business: (3-20-14)

a. The business of the manufactured or mobile home retailer or resale broker is lawfully conducted here; (3-20-14)

b. The office or offices of the retailer or resale broker is or are located here; (3-20-14)

c. The public may contact the retailer, resale broker, or salesman here; (3-20-14)
d. The offices are accessible and open to the public; and (3-20-14)

e. The greatest portion of the retailer’s business is conducted here. The books and other records of a retailer must be kept and maintained at the retailer’s principal place of business and be open to inspection during normal business hours by any authorized agent of the Division. Moreover, there must be displayed on the exterior a sign permanently affixed to the land or building with letters clearly visible to the major avenue of traffic. The sign must provide the business name of the retailer. (3-29-10)

17. **Responsible Managing Employee (RME).** The person designated by the employer to supervise other employees, either personally or through others. (5-25-94)

18. **Unit.** A mobile or manufactured home. (5-25-94)

011. (RESERVED)

012. **LICENSE REQUIRED.**

It is unlawful to engage in business as a manufacturer, manufactured/mobile home retailer, resale broker, manufactured/mobile home salesman, responsible managing employee, or installer without being duly licensed by the Division pursuant to Title 44, Chapter 21, Idaho Code, and these rules. No issued licenses are transferable. (3-20-14)

01. **Minimum Age Requirement.** No license will be issued to a person under eighteen (18) years of age at the time of license application. (5-25-94)

02. **Designated License Holder.** Any applicant for a license under these rules who is not a natural person must designate a natural person to be license holder and represent the corporation, partnership, trust, society, club, association, or other organization for all licensing purposes under these rules including, but not limited to, testing and education. (3-24-05)

a. The authorization to act as designated license holder must be in writing, signed by the applicant and the person designated, and filed with the Division along with the application. (5-25-94)

b. Any person designated under Subsection 012.02 of these rules represents one (1) applicant only, and must immediately notify the Division in writing if his working relationship with the applicant has been terminated. The license will be issued in the name of the designated license holder with the name of the organization he represents also noted on the license. The license holder is considered by the Division to be the licensee, even if the license holder is the designated representative of an organization. (5-25-94)

c. The applicant and the person designated under Subsection 012.02 of these rules agree by acceptance of the designation that the designated person acts as agent of the applicant for all purposes under Title 44, Chapters 21 and 22, Idaho Code, and all rules promulgated thereunder. (5-25-94)

03. **Proof of License.** Proof of the existence of any license issued pursuant to these rules is carried upon the person of the responsible managing employee or supervisor of any installation at all times during the performance of the installation work. Such proof must be furnished upon demand of any person. Moreover, any license issued to a manufactured/mobile home retailer, resale broker, responsible managing employee, or salesman must be posted in a conspicuous place on the business premises of the employer for whom the holder of the license is licensed. The license of a manufacturing facility or branch office must also be posted in a conspicuous place at the
04. **Real Estate Brokers.** Licensed real estate brokers or real estate salesmen representing licensed real estate brokers are not required to obtain a license under these rules in order to sell or lease a used unit that is currently carried on the tax rolls as personal property and that otherwise falls within the exemption contained in Section 44-2102(2), Idaho Code. (3-24-05)

05. **License for Manufacturers.** In order to engage in business in the state of Idaho or to be entitled to any other license or permit required by these rules each manufacturer must be licensed by the Division. (3-24-05)

06. **License for Branch Office of Manufactured/Mobile Home Retailer or Resale Broker.**

   a. The Division requires as a condition of licensing and bonding any information it deems necessary for each location where a manufactured/mobile home retailer or resale broker maintains a branch office. The mere listing of manufactured/mobile homes for sale does not constitute a branch office, but the use of a mobile home park or a state sales office by a licensee for the sale or offering for sale of manufactured/mobile homes does constitute the maintenance of a branch office. A branch office manager may not manage more than one (1) branch office. (3-29-10)

   b. To open a branch office, a retailer or resale broker must: obtain a license from the Division to operate the branch office; and provide for direct supervision of the branch office, either by himself or by employing a branch office manager. (3-29-10)

   c. If the branch office is closed, the retailer or resale broker must immediately deliver the license to the Division. (3-29-10)

07. **License to Engage in Business as Manufactured/Mobile Home Retailer, Resale Broker, Manufacturer, or Installer; Application; Bond; Issuance, Expiration, and Renewal.**

   a. Applications for a manufacturer's, retailer's, resale broker's, or installer's license must be filed upon forms supplied by the Division, and the applicant must furnish:

      i. Any proof the Division may deem necessary that the applicant is a manufacturer, retailer, resale broker, or installer; (3-20-14)

      ii. Any proof the Division may require that the applicant has a principal place of business; (5-25-94)

      iii. Any proof the Division may require of the applicant's good character and reputation and of his fitness to engage in the activities for which the license is sought; (5-25-94)

      iv. In the case of a retailer in new manufactured homes, an instrument in the form prescribed by the Division executed by or on behalf of the manufacturer certifying that the applicant is an authorized franchise dealer for the make concerned; (3-29-10)

      v. A reasonable fee and proof of bond fixed by rule; and (5-25-94)

      vi. In the case of a retailer, resale broker, or installer, proof of passing the examination required by these rules. (3-20-14)

   b. Within thirty (30) days after receipt of a completed application, the Division will issue or deny the license. (5-25-94)

   c. Each license is valid for a period of one (1) year from the date of issuance and may be renewed for like consecutive period upon application to and approval by the Division. (5-25-94)

   d. If any installer’s working relationship with his employer is terminated, the employer must immediately deliver the license of the terminated installer to the Division. (3-20-14)
08. License for Manufactured/Mobile Home Salesman.  

a. A person may not act as a salesman in this state for a person who sells or leases any manufactured/mobile home subject to the provisions of Title 44, Chapters 21 or 22, Idaho Code, without having first received a license from the Division. Before issuing such a license, the Division requires: (1) an application, signed by the applicant and verified by his employer, stating that he desires to act as a salesman and providing his residential address and the name and address of his employer; (2) a statement as to whether any previous application of the applicant has been denied or license revoked; (3) payment of the license fee established by rule; and (4) any other relevant information the Division deems necessary.  

b. Within thirty (30) days after receipt of a completed application, the Division will issue or deny the license.  

c. Each license is valid for a period of one (1) year from the date of issuance and may be renewed for like consecutive period upon application to and approval by the Division.  

d. A person licensed pursuant to Subsection 012.08 of these rules may not engage in sales activity other than for the account of, or for and on behalf of, a single employer who is a licensed retailer or resale broker.  

e. If a salesman ceases to be employed by a licensed retailer or resale broker, his license to act as a salesman is automatically suspended and his right to act in that capacity immediately ceases. He may not engage in such activity until reemployed by a licensed retailer or resale broker. If the salesman's working relationship with his employer is terminated, the employer must immediately deliver his license to the Division.  

09. License for Responsible Managing Employee.  

a. A person may not act as a responsible managing employee for an installer without first having been issued a license by the Division. Before issuing such a license the Division requires:  

i. An application, signed by the applicant and verified by his employer, stating that he desires to act as a responsible managing employee and providing his residential address and the name and address of his employer;  

ii. A statement as to whether any previous application of the applicant has been denied or license revoked;  

iii. Payment of the license fee established by rule; and  

iv. Any other relevant information the Division deems necessary.  

b. Within thirty (30) days after receipt of a completed application, the Division will issue or deny the license.  

c. Each license is valid for a period of one (1) year from the date of issuance and may be renewed for like consecutive period upon application to and approval by the Division.  

d. A person licensed pursuant to Subsection 012.09 of these rules may not engage in such activity other than for the account of, or for and on behalf of, a single employer who is a licensed installer.  

e. If a responsible managing employee ceases to be employed by an installer, his license to act as a responsible managing employee is automatically suspended and his right to act in that capacity immediately ceases. He may not engage in such activity until reemployed by a licensed installer.  

f. If the responsible managing employee's working relationship with his employer is terminated, the employer must immediately deliver his license to the Division.
013. THE DIVISION'S MAILING ADDRESS.
Any correspondence or notices required by these rules or Title 44, Chapters 21 or 22, Idaho Code, may be addressed to the Division of Building Safety, 1090 E. Watertower Street, Suite 150 Meridian, Idaho 83642. (3-20-14)

014. PROOF OF EDUCATION REQUIRED.

01. Satisfactory Proof for Initial Application Submission. An application for a license as a manufactured/mobile home installer must include proof satisfactory to the Division that the applicant has completed the following number of hours of initial education in order to be approved: (4-7-11)
   a. Installers and retailers who are installers: eight (8) hours. (3-20-14)
   b. The course of initial education must be approved by the Division and must include information relating to the provisions of these rules, Title 44, Chapters 21 and 22, Idaho Code, and the Manufactured Housing Construction Safety Standards Act of 1974. (4-7-11)

02. Satisfactory Proof for License Renewal. The Division will not renew any installer license, or retailer license of any dealer who is also an installer, issued pursuant to Title 44, Chapters 21 or 22, Idaho Code, or these rules until the licensee has submitted proof satisfactory to the Division that he has, during the three (3) years immediately preceding the renewal of the license, completed at least eight (8) hours of continuing education. (3-28-18)

03. Continuing Education Course. The course of continuing education must be approved by the Division and must include information relating to the following: (4-7-11)
   a. Manufactured housing or mobile home parks which will enable a person to give better service to the members of the general public and tenants of manufactured/mobile home parks; (4-7-11)
   b. The construction, including components and accessories, rebuilding, servicing, installation, or sale of manufactured/mobile homes; (4-7-11)
   c. Legislative issues concerning manufactured/mobile home housing and manufactured/mobile home parks, including pending and recently enacted state or federal legislation; and (4-7-11)
   d. These rules, Title 44, Chapters 21 or 22, Idaho Code, and the Manufactured Housing Safety Standards Act of 1974. (4-7-11)

015. EXAMINATION OF APPLICANT FOR LICENSE.

01. Required Examinations. Effective January 1, 1995, the Division requires a written examination of each applicant for a license, other than a license being renewed, as a manufactured/mobile home retailer, resale broker, or installer. The examination includes, but may not be limited to, the following subjects: Title 44, Chapters 21 and 22, Idaho Code; these rules and IDAPA 07.03.12, “Rules Governing Manufactured or Mobile Home Installations”; and the Manufactured Housing Construction Safety Standards Act of 1974. To avoid the requirement of an examination and be considered a renewal, any licensee must renew his license within six (6) months of its expiration date. (3-20-14)

02. Approval of Examination and Grade. Examinations for all classifications under these rules must be approved by the Division and the Board. No license will be issued unless the applicant receives a final grade of seventy percent (70%) or higher. (5-25-94)

03. Retesting. If an applicant for a license fails the written examination offered by the Division twice, he must wait at least thirty (30) days before retesting. (5-25-94)

016. DISCIPLINARY ACTION AGAINST LICENSEES.
The Division may deny, suspend, refuse to renew, or revoke any license issued under Title 44, Chapter 21, Idaho
Code, or these rules or reissue the license subject to reasonable conditions upon any of the following grounds:

01. **Violation of Rules and Statutes.** For any willful or repeated violation of these rules, IDAPA 07.03.12, “Rules Governing Manufactured or Mobile Home Installations,” or Title 44, Chapters 21 or 22, Idaho Code. (3-24-05)

02. **Failure to Have Principal Place of Business.** With regards only to a manufactured/mobile home retailer or resale broker, failure of the applicant or licensee to have a principal place of business. (3-29-10)

03. **Revocation of License.** The revocation of the license of the employer of a responsible managing employee or salesman is grounds for the revocation of the license of the installer, responsible managing employee or salesman. (3-29-10)

04. **False Information.** Material misstatement in the application or otherwise furnishing false information to the Division. (5-25-94)

05. **Proof of Employment.** Failure of a salesman or applicant for licensing as a salesman to establish by proof satisfactory to the Division that he is employed by a licensed retailer or resale broker. (3-29-10)

06. **Disclosing Contents of Examination.** Obtaining or disclosing the contents of an examination given by the Division. (5-25-94)

07. **Deceptive Practice.** The intentional publication, circulation, or display of any advertising which constitutes a deceptive practice as that term is defined in Subsection 010.06 of these rules. (3-24-05)

08. **Failure to Provide Business Name.** Failure to include in any advertising the name of the licensed retailer, resale broker, or installer, or the name under which he is doing business. (3-20-14)

09. **Encouraging Falsification.** Intentionally inducing an applicant or licensee to falsify his credit application. (5-25-94)

10. **Poor Workmanship.** Performing workmanship which is grossly incompetent or repeatedly below the standards adopted by Title 44, Chapters 21 and 22, these rules, IDAPA 07.03.12, “Rules Governing Manufactured or Mobile Home Installations,” the Federal Manufactured Housing and Safety Standards Act of 1974, or the latest Idaho adopted editions of the International Building Code, the National Electrical Code, the Uniform Plumbing Code, and the International Mechanical Code, then in effect. (3-29-10)

11. **Installation Supervisor Required.** Failure to have a licensed responsible managing employee personally supervise any installation of a manufactured/mobile home. (3-20-14)

12. **Failure of Organizations to License its Employees.** Failure of an organization to have its employees maintain any license as required by these rules. (3-24-05)

13. **Failure to Honor Warranties.** Failure to honor any warranty or other guarantee given by a licensee for construction, workmanship, or material as a condition of securing a contract, or of selling, leasing, reconstructing, improving, repairing, or installing any manufactured/mobile home, or accessory structure. (3-29-10)

14. **Revocation or Denial of License.** Revocation or denial of a license issued pursuant to these rules or an equivalent license by any other state or U.S. territory. (3-29-10)

15. **Failure to Maintain Any Required License.** Failure of the licensee to maintain any other license required by any city or county of this state. (5-25-94)

16. **Failure to Respond to Notice.** Failure to respond to a notice served by the Division as provided by law within the time specified in the notice. (5-25-94)
17. **Failure to Permit Access to Documentary Materials.** Failure or refusing to permit access by the Division to relevant documentary materials after being requested to do so by the Division. (5-25-94)

18. **Conviction of Misdemeanor.** Conviction of a misdemeanor for violation of any of the provisions of Title 44, Chapters 21 or 22, Idaho Code. (5-25-94)

19. **Conviction of Felony.** Conviction or withheld judgment for a felony in this state, any U.S. territory, or country. (3-29-10)

20. **Dealing with Stolen Manufactured or Mobile Homes.** To knowingly purchase, sell, or otherwise acquire or dispose of a stolen manufactured or mobile home. (5-25-94)

21. **Violation of Permit or Inspection Requirements.** To knowingly violate any permit or inspection requirements of any city or county of this state. (5-25-94)

017. **PROCEDURES FOR LICENSING SUSPENSION, REVOCATION OR NONRENEWAL.**

Any proceeding to suspend, revoke, or not renew any license will be conducted as a contested case in accordance with the provisions of Title 67, Chapter 52, Idaho Code, and the “Idaho Rules of Administrative Procedure of the Attorney General,” IDAPA 04.11.01.000, et seq. Any party aggrieved by an order of the administrator suspending, revoking, or not renewing a license is entitled to judicial review thereof in accordance with the provisions of Title 67, Chapter 52, Idaho Code. (3-24-05)

018. **APPLICATION FOR NEW LICENSE.**

Any person whose license has been revoked may not apply for a new license until the expiration of one (1) year from the date of such revocation. (5-25-94)

019. **FEES.**

01. **Fees for Issuance and Renewal of License.** The following fees for the issuance and renewal of a license will be charged, and no application for licensing pursuant to these rules will be accepted by the Division unless it is accompanied by the appropriate fee: (5-25-94)

   a. Manufactured/mobile home retailer or resale broker’s license: four hundred forty dollars ($440). Retailers who are also installers will not have to pay an installer's license fee in order to hold both licenses. (3-29-10)
   b. Manufacturer license: four hundred forty dollars ($440); (3-24-05)
   c. Manufactured/mobile home installer license: two hundred twenty dollars ($220); (3-20-14)
   d. Manufactured/mobile home salesman's license: forty-five dollars ($45). (3-24-05)
   e. Responsible managing employee license: forty-five dollars ($45). (3-29-10)

02. **Performance Bonding Requirements.** No application for licensing pursuant to these rules will be accepted unless it is accompanied by evidence of the following performance bond: (3-24-05)

   a. Manufacturer: twenty thousand dollar ($20,000) bond; (5-25-94)
   b. Manufactured/mobile home retailer: twenty thousand dollar ($20,000) bond; (3-29-10)
   c. Manufactured/mobile home resale broker: thirty thousand dollar ($30,000) bond; (3-29-10)
   d. Manufactured/mobile home installer: five thousand dollar ($5,000) bond. Retailers who are also installers will not be required to post an installer's bond in order to hold both licenses. (3-20-14)
   e. Responsible managing employee. No bond. (3-29-10)
03. **Money or Securities Deposit in Lieu of Performance Bond.** A money or securities deposit will be accepted by the Division in lieu of the performance bonding requirement as set forth at Title 44, Chapter 21, Idaho Code, and Subsection 019.02 of these rules, under the following circumstances:

a. Any such money or securities deposit is in a principal sum equal to the face amount of the performance bond required for the applicable licensing category; 

b. Any such money deposit is deposited in a time certificate of deposit that provides on its face that the principal amount of such certificate of deposit is payable to the Division upon presentment and surrender of the instrument; 

c. Any such time certificate of deposit has a maturity date of one (1) year from the effective date of licensure and has an automatic renewal provision for subsequent years; 

d. Any such time certificate of deposit must be provided to the Division at the time of application for licensure and must be retained by the Division during the effective period of licensure unless otherwise expended by the Division to insure completion of the licensee's performance; 

e. Any such time certificate of deposit will be returned to an unsuccessful applicant for licensure; 

f. The principal amount of any such time certificate of deposit, to the extent not otherwise expended to insure completion of the licensee's performance, will be returned to the depositor by the Division on or before ninety (90) days subsequent to the occurrence of any of the following events: voluntary surrender or return of a license; expiration of a license; lapse of a license; or revocation or suspension of a license; and 

g. Any interest income earned by reason of the principal amount of the time certificate of deposit is the property of the licensee.

020. **LICENSING COMPLAINTS.** Persons who wish to submit comments to the Division for its consideration regarding the fitness to hold a license of anyone currently licensed or applying for a license under these rules must do so in writing. To be considered, any such writing must be signed, dated, provide the name of the license holder or applicant, provide the specific details giving rise to the comments, and contain a valid and current address and telephone number for verification purposes.

021. **RETURN OF LICENSE UPON REVOCATION.** In the event a license is revoked by the Division, the former license holder must immediately return the revoked license to the Division.

022. **CIVIL PENALTIES.** The following acts subject the violator to penalties based on the following schedule:

01. **Industry Licensing.** Except as provided for by Section 44-2106, Idaho Code, any person who engages in the business of a manufacturer, retailer, resale broker, salesman, installer, or responsible managing employee (RME) as defined in Section 44-2101A, Idaho Code, without being duly licensed by the Division is subject to a civil penalty of not more than five hundred dollars ($500) for the first offense and a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter.

02. **Deceptive Practice.** In accordance with Section 44-2106(2), Idaho Code, any retailer, resale broker, installer, salesman, or RME who intentionally publishes or circulates any advertising that is misleading or inaccurate in any material respect or that misrepresents any of the products or service sold or provided by a manufacturer, retailer, resale broker, installer, or RME, is subject to a civil penalty of not more than five hundred dollars ($500) for the first offense and a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter.

03. **Dealing with Stolen Manufactured or Mobile Homes.** In accordance with Section 44-2106(2),
Idaho Code, any person who knowingly purchases, sells, or otherwise acquires or disposes of a stolen manufactured or mobile home is subject to a civil penalty of not more than one thousand dollars ($1,000).

**04. Failure to Maintain a Principal Place of Business.** In accordance with Section 44-2106(2), Idaho Code, any person who is a retailer or resale broker duly licensed by the Division and who fails to maintain a principal place of business within Idaho, is subject to a civil penalty of not more than five hundred dollars ($500) for the first offense and a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter.

**05. Violation of Rules and Statutes.** Any person who knowingly violates any of the provisions of these rules, IDAPA 07.03.12, “Rules Governing Manufactured or Mobile Home Installations,” or the provisions of Title 44, Chapters 21 or 22, Idaho Code, is subject to a civil penalty of five hundred dollars ($500) for the first offense and one thousand dollars ($1,000) for each offense thereafter.

**06. Gross Violation.** In case of continued, repeated, or gross violations of these rules or IDAPA 07.03.12, “Rules Governing Manufactured or Mobile Home Installations,” a license revocation may be initiated for licensed individuals under Title 44, Chapter 21, Idaho Code. Non-licensed individuals are subject to prosecution by the appropriate jurisdiction under Idaho law.

**07. Judicial Review.** Any party aggrieved by the final action of the Administrator is entitled to a judicial review thereof in accordance with the provisions of Title 67, Chapter 52, Idaho Code.

**030. MANUFACTURED HOME BUYER'S INFORMATION AND DISCLOSURE FORM.**
The Manufactured Home Buyer's Information and Disclosure Form must be presented by manufactured home retailers to each purchaser of a new manufactured home, and must be executed by the retailer and purchaser at the time the initial purchase order is signed for the sale of a new manufactured home. The form is available at the Division office.

**031. -- 999. (RESERVED)**
07.03.12 – RULES GOVERNING MANUFACTURED OR MOBILE HOME INSTALLATIONS

000. LEGAL AUTHORITY.
In accordance with Section 44-2201, Idaho Code, the administrator of the Idaho Division of Building Safety is authorized to promulgate rules necessary to implement the provisions of Title 44, Chapters 21 and 22, Idaho Code. (5-3-03)

001. TITLE AND SCOPE.

01. Title. These rules are IDAPA 07.03.12, “Rules Governing Manufactured or Mobile Home Installations,” Division of Building Safety. (5-3-03)

02. Scope. These rules apply to the installation of manufactured or mobile homes used for purposes of human habitation (living, sleeping) in the state of Idaho. (5-3-03)

002. WRITTEN INTERPRETATIONS.
There are no written interpretations. (5-25-94)

003. ADMINISTRATIVE APPEALS.
This chapter does provide for administrative relief of the provisions outlined herein. (5-25-94)

004. ADOPTION AND INCORPORATION BY REFERENCE.
The Idaho Manufactured Home Installation Standard (January 1, 2018 edition), as adopted by the administrator, is hereby adopted and incorporated by reference into these rules. A current copy is available for review or copying at the office of the Division of Building Safety, 1090 E. Watertower Street, Suite 150, Meridian, Idaho 83642, 1250 Ironwood Drive, Suite 220, Coeur d’Alene, Idaho, 83814, and 2055 Garrett Way, Building 1, Suite 4, Pocatello, Idaho 83201. (3-28-18)

005. APPLICATION -- COMPLIANCE.

01. Application -- State Preemption. The standards referred to in this chapter are considered to be a comprehensive statement of all applicable standards which apply to the installation, alteration or repair of manufactured or mobile homes in Idaho. Cities and counties may not adopt or enforce more or less stringent standards, except as permitted by Section 67-6509(a), Idaho Code, as it pertains to the siting of manufactured homes in residential areas. (5-3-03)

02. Compliance -- Disciplinary Action Against Licensees. Failure to comply with these standards constitutes grounds for imposition of discipline as provided in Title 44, Chapters 21 and 22, Idaho Code, and IDAPA 07.03.11, “Rules Governing Manufactured/Mobile Home Licensing,” and these rules. (5-3-03)

006. -- 011. (RESERVED)

012. USE OF MANUFACTURERS’ INSTALLATION INSTRUCTIONS.
All new HUD manufactured homes must be installed in accordance with the manufacturer’s Design Approval Primary Inspection Agency (DAPIA) approved installation instructions. In any instance in which there is a conflict between the DAPIA installation instructions and the Idaho Manufactured Home Installation Standards, the DAPIA installation instructions supersede and serve as the controlling authority. All manufactured or mobile homes must be installed in accordance with all other applicable state laws pertaining to utility connection requirements. (3-29-10)

013. INSTALLATION PERMITS AND INSPECTIONS REQUIRED.
The owner or the installer of a manufactured or mobile home must obtain an installation permit in accordance with the requirements of Section 44-2202, Idaho Code. Installation permits must be obtained from the Division of Building Safety for installations in areas where there is no approved local program, or from a city or county that has by ordinance adopted building codes pursuant to Section 39-4116, Idaho Code, and whose installation program has
been approved by the Division. Installation permits will only be issued to the owner of the manufactured home or to a licensed installer. The installer must have a current and valid license in effect at the time of the application for the installation permit. All installations must be inspected and approved by the authority having jurisdiction before the manufactured home is occupied.

014. INSTALLATION PERMIT FEES.
A city or county whose installation inspection program has been approved by the Division establishes their own fee schedule for installation permits within their jurisdiction. Permits obtained from the Division must be accompanied by a fee in accordance with the following schedule:

01. Single Section Unit. The permit fee for a single section unit is one hundred fifty dollars ($150).

02. Double Section Unit. The permit fee for a double section unit is two hundred dollars ($200).

03. More Than Two Sections. The permit fee for a home consisting of more than two (2) sections is two hundred fifty dollars ($250).

04. Electrical and Plumbing Permits. Electrical and plumbing permits are administered separately from installation permits, and fees for such are separate from the fees identified in Section 014. Such fees are paid to the Division or other jurisdiction in accordance with the rules promulgated by the governing boards or local ordinance.

015. INSTALLATION TAGS REQUIRED.
The owner or installer of a new manufactured home must purchase an installation tag from the Division of Building Safety prior to commencing the installation of a manufactured home in Idaho. Such tag is required regardless of which jurisdiction has authority to perform the installation inspection. The fee for the installation tag is fifty dollars ($50).

016. APPROVAL OF LOCAL MANUFACTURED HOME INSTALLATION INSPECTION PROGRAMS.

01. Division Approval. A city or county that has by ordinance adopted a building code pursuant to Section 39-4116, Idaho Code, is eligible to participate in the inspection of manufactured and mobile homes. Such local installation inspection program must be approved by the Division to provide inspection services if the following minimum criteria is met:

   a. Inspections are conducted by the city or county employing inspectors holding a valid certification as residential building inspector from the International Code Council;

   b. Inspectors have attended annual training sessions provided or approved by the Division of Building Safety and received a certificate evidencing successful completion thereof; and

   c. Approval of a city or county’s inspection program has not been withdrawn by the Administrator of the Division of Building Safety.

02. Voluntary Withdrawal. A city or county may voluntarily withdraw from participation in the program to inspect manufactured homes upon providing to the Administrator of the Division of Building Safety ninety (90) days written notice of its intention to do so.

017. WITHDRAWAL OF APPROVAL OF PROGRAMS.

01. Division Withdrawal. Approval of city or county manufactured home installation program may be withdrawn by the Division of Building Safety if it determines that the city or county’s program has failed, upon notification of the program deficiencies, to adequately remedy such deficiencies within a period of time specified by the Administrator.
02. **Administrative Proceedings.** Proceedings that may result in the denial or withdrawal of approval will be conducted in accordance with Title 67, Chapter 52, Idaho Code, and IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.” (3-27-13)

03. **Re-Approval.** Re-approval of a program may be made by the Division when it determines that the reasons for the withdrawal have been remedied. (3-27-13)

018. **MINIMUM TRAINING REQUIREMENTS FOR INSPECTORS.**

01. **Annual Training or Instruction.** All installation inspectors employed by the Division of Building Safety or a city or county must complete eight (8) hours of training or instruction every three (3) years dedicated to the installation and inspection of manufactured and mobile homes. (3-28-18)

02. **Division Approval.** All training and instruction must be approved by the Division in order to qualify and satisfy the requirements in Subsection 018.01 of these rules. (3-27-13)

03. **Revocation of Approval.** Training or instruction approval is subject to revocation by the Division if in its discretion it determines that for any reason the training or instruction fails to meet the intent of furthering the education of manufactured home installation inspectors including, but not limited to, inadequacies in course content or methods of delivery. (3-27-13)

019. **QUALITY ASSURANCE.**

01. **Inspected Installations.** Any inspected installation is subject to quality assurance reviews by Division of Building Safety at its discretion. Findings made by the Division pursuant to such reviews will be forwarded to the inspection authority having jurisdiction. (3-27-13)

02. **Inspectors and Programs.** All inspectors and approved programs, including the Division of Building Safety, are subject to review. (3-27-13)

03. **Reviews by Division Personnel.** Quality assurance reviews must be performed by Division of Building Safety supervisory personnel who are experienced in and knowledgeable about the installation requirements for manufactured homes. (3-27-13)

04. **Division Personnel Training and Certification.** Supervisory personnel as identified in Section 019 of these rules, must meet minimum training and certification requirements for inspectors of manufactured home installations. (3-27-13)

020. **MINIMUM SCOPE OF INSTALLATION INSPECTION.**

01. **Scope.** At a minimum, the inspection of the installation of a manufactured home by an installer include the following:

   a. Completion of an inspection record document as required by Section 44-2202(5), Idaho Code. The inspection record document must verify that the installer has visually inspected the installation and must certify that the exterior and interior close-up processes, including the marriage line and other covered-up components, have been completed; (3-27-13)

   b. Delivery of a copy of the completed inspection record document to the homeowner and the authority having jurisdiction; (3-27-13)

   c. Verification that all installed ductwork, plumbing, electrical and fuel supply systems are operating properly; and (3-27-13)

   d. If applicable, verification that skirting has been installed correctly. (3-27-13)
02. Inspection Minimum Requirements. At a minimum, the inspection of the installation of a manufactured home must include the following by an inspector:

   a. Verification that site location is suitable for home design and construction, and inspection of site-specific conditions, including preparation and grading for drainage;
   b. Inspection of the foundation construction;
   c. Verification that installed anchorage meets minimum requirements; and
   d. Verification of receipt of a completed inspection record document from the installer.

021. Supervision by Responsible Managing Employee.
A responsible managing employee, as the term is defined in IDAPA 07.03.11, “Rules Governing Manufactured/Mobile Home Licensing,” Subsection 004.18, must personally supervise any installation of a manufactured or mobile home at its place of occupancy unless the installer licensee personally supervises such installation.

022. License Suspension or Revocation.
The administrator may suspend or revoke or not renew any license for any willful or repeated violation of these rules or Title 44, Chapters 21 or 22, Idaho Code. Any such proceeding will be handled as a contested case and according to the procedures set forth in IDAPA 07.03.11, “Rules Governing Manufactured/Mobile Home Licensing,” Title 67, Chapter 52, Idaho Code, and IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.”

006. PUBLIC RECORDS ACT COMPLIANCE.
Division records are subject to the provisions of the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (4-6-05)

007. -- 009. (RESERVED)

010. DEFINITIONS.

01. Act. The Elevator Safety Code Act, Title 39, Chapter 86, Idaho Code. (4-6-05)

02. Administrator. The administrator of the Division of Building Safety. (4-6-05)

03. Division. The Division of Building Safety of the state of Idaho. (4-6-05)

011. INSPECTION REQUIREMENTS.
In order that a required inspection may take place: (4-9-09)

01. Access. All machine rooms and spaces must be free of dirt and debris and any obstacles to access must be removed. (4-6-05)

02. Technician on Site. An elevator technician and fire alarm technician must be present on site to restore elevator and fire alarm systems. (4-6-05)

03. Installation. The elevator installation must be complete and safe for inspection. Equipment, components, or systems installed on the conveyance must function in accordance with design and code requirements. If equipment, components, or systems are installed that are not required by the currently adopted code, they must function properly or be removed. (4-7-11)

04. Inspection Fees. Inspection fees for elevators are assessed and collected according to the schedule listed in Section 39-8616, Idaho Code, except that reinspection fees for all types of conveyances is one hundred
dollars ($100) for the first hour of inspection, or portion thereof, and one hundred dollars ($100) for each hour of inspection thereafter. (4-9-09)

012. APPROVAL OF NEW OR ALTERNATIVE TECHNOLOGY.

01. Administrator Approval Required. If, due to construction or technological impediments, an elevator or conveyance cannot comply with applicable code requirements, approval of new or alternative construction or technology may be requested from the administrator. (4-6-05)

02. Approval Required Prior to Construction. Approval of new or alternative technology must be obtained from the administrator before construction is commenced. (4-6-05)

03. Submission Deadline. Details of the proposed construction or technology, including design, material specifications and calculations, and such other information as may be requested, must be submitted to the administrator at least thirty (30) days in advance of the anticipated construction start date. (4-6-05)

a. The manufacturer of the new product or system must provide the administrator with an Accredited Elevator/Escalator Certification Organization (AECO) approval and certification in accordance with ANSI/ASME A17.7 Performance-based Safety Code for Elevators and Escalators or engineering and test data demonstrating that the proposed technology is safe for the intended purpose. (3-29-12)

b. The owner of the new product or system must provide the administrator with a document in which the owner acknowledges that the proposed technology is not governed by the applicable safety code and assures the administrator that, at such time as the code is revised to include the product or system, the owner will modify the product or system to bring it into compliance. The owner must assure the administrator that if the product or system cannot be modified or altered to bring it into compliance with the applicable code it will be removed and replaced with code-compliant equipment. (4-6-05)

c. The manufacturer of the new product or system must provide training to Division personnel on the proposed technology and any related products or systems at no cost to the Division. (4-6-05)

04. Engineer Approval. The information provided in compliance with the foregoing requirements must be approved by an Accredited Elevator/Escalator Certification Organization (AECO) or a registered professional engineer experienced in elevator or conveyance design prior to submission to the administrator. (3-29-12)

07.05.01 – RULES OF THE PUBLIC WORKS CONTRACTORS LICENSE BOARD

000. LEGAL AUTHORITY.
This chapter is adopted pursuant to Section 54-1907, Idaho Code, as amended. (3-20-04)

001. TITLE.
These rules are titled IDAPA 07.05.01, “Rules of the Public Works Contractors License Board.” (3-20-04)

002. INTENT.
The Board believes the legislature in providing the License Act and subsequent amendments thereto, intended to afford some protection to officials of units of government at all levels in their dealing with persons, firms or corporations engaging in the construction, reconstruction or repair of Public Works. The licensing of a person, firm or corporation as a “Public Works Contractor” is intended to provide the investing public body some assurance of the contractor’s reputation, ability, qualifications, experience and financial responsibility. (3-20-04)

003. WRITTEN INTERPRETATIONS.
This agency has no written interpretations of this chapter. (3-20-04)

004. ADMINISTRATIVE APPEALS.
The administrative procedures governing this chapter are outlined herein. (3-20-04)

005. -- 009. (RESERVED)

010. DEFINITIONS.
As used in these rules. (7-1-93)

   01. Administrator. Refers to the administrator of the Division of Building Safety. (3-20-04)
   02. Applicant. Means any person who has filed an application with the administrator. (3-20-04)
   03. Board. Refers to the Public Works Contractors License Board which is created within the Idaho Division of Building Safety as set forth in Title 54, Chapter 19, Idaho Code. (3-20-04)
   04. Compiled. Refers to a type of financial statement in which the information presented is based solely upon representations by an organization’s management. (3-20-04)
   05. Estimated Cost. For the purposes of the application of Section 54-1903(i), Idaho Code, the term “estimated cost” refers to the total aggregate amount of the value of all the separate or individual jobs, parts, components, or undertakings involved in the construction of a single project when combined and considered as a whole, regardless of the types of trades, sub-contracts, work, or other individual aspects involved, and without regard to the number of trades or crafts that are involved. (3-29-10)
   06. Financial Statement. A balance sheet and income statement prepared in accordance with generally accepted accounting principles. (3-20-04)
   07. Incidental Work. Means work, the nature of which does not require any additional trade licenses and which may be carried out in conjunction with an activity for which the licensee is licensed, but is not intended to produce an amount of income over ten percent (10%) of the total bid amount. (3-20-04)
   08. Independent Audit Report. A report prepared by an independent certified public accountant presenting such auditor’s opinion on the fairness of the organization’s financial statements and prepared in accordance with generally accepted auditing standards. (3-20-04)
   09. Licensee. Includes any individual proprietor, partnership, limited liability partnership, limited
liability company, corporation, joint venture, or other business organization holding a current, unrevoked public works contractor license. (3-20-04)

12. Reviewed. Refers to a financial statement that is accompanied by the opinion of a certified public accountant stating that, based upon representations by the organization’s management, the reviewer has a reasonable basis for expressing limited assurance that there are no material modifications that should be made to the financial statements in order for the statements to be in accordance with generally accepted accounting principles. (3-20-04)

011. -- 099. (RESERVED)

100. BOARD OFFICE – LOCATION, HOURS, MAILING ADDRESS, TELEPHONE NUMBER, FACSIMILE NUMBER.
The address of the Board office, and its mailing address, is 1090 E. Watertower Street, Suite 150, Meridian, Idaho 83642. Office hours are from 8 a.m. until 5 p.m., daily. The office is closed on weekends and holidays. The Board telephone number is (208) 334-4057, and the facsimile number is (208) 855-9666. (3-20-14)

101. MEETINGS.
Meetings of the Board are subject to the Idaho Open Meeting Law, Title 67, Chapter 23, Idaho Code. (3-20-04)

102. COMMUNICATION.
All written communications, forms and documents concerning any matter covered by the Act or these rules may be addressed to the administrator and not to members of the Board or staff. All communications are deemed officially received only when delivered to the office of the administrator. Documents may be submitted in electronic format acceptable to the administrator. (3-20-14)

103. PETITIONS.
An applicant or licensee seeking an order or decision of the administrator or the Board on any application or other matter, or in any disciplinary proceeding, must file a written petition. (3-20-04)

104. FORM AND CONTENT OF PETITION.
   a. Paragraph 1 must state the petitioner’s name, address, and license number. (3-20-04)
   b. Paragraph 2 must state the petitioner’s request in brief, precise and specific terms, including references to any pertinent statutes or rules, and must provide a detailed explanation of the purpose for the request. (3-20-04)
   c. Paragraph 3 must contain the statements of fact to support the petitioner’s request. Briefs and
supporting documents may accompany petitions. (3-20-04)

02. **Dated and Signed.** The petition must be dated and signed by the petitioner. (3-19-99)

03. **Filed.** The petition must be filed as set forth in Section 102 of these rules. (3-20-04)

105. **LICENSE RENEWAL -- FILING DEADLINES; PETITIONS FOR EXTENSION OF TIME TO FILE; LAPSSED LICENSES.**

01. **Filing Deadline.** Applications for renewal of a license must be filed by the last working day of the month in which the license expires. (3-20-04)

02. **Extension of Time.** A petition for an extension of time in which to renew must be filed by the last working day of the month in which the license expires. The petition must be accompanied by a fee in the amount of the prorated portion of the annual license fee for the class of license applied for, with a minimum fee of at least fifty dollars ($50). The fee for this service is required in addition to the licensing and renewal fees provided for in Section 201 of these rules and must be paid to the Division at the time of application for licensure. Petitions not accompanied by the required fees or filed after the license has expired will not be honored. (3-21-12)

   a. The petition must specify the number of days for which the extension is being requested. (3-20-04)

   b. Under no circumstances may an extension exceed sixty (60) days. Petitions for more than sixty (60) days will not be honored. (3-20-04)

03. **Approval of Petition.** Approval of a petition for an extension of time authorizes operation as a contractor until the administrator completes action on the renewal application, provided the application for renewal is filed with the Board within the extended time specified. (3-20-14)

04. **Failure to File.** If the licensee fails to file a timely application for renewal or petition for extension, the license lapses and expires on the last day of the license period. Licenses not renewed in a timely manner are considered delinquent for a period of one (1) year from the last day of the license period and may be renewed at any time during that year. Licenses delinquent for more than a period of one (1) year must be reinstated and the applicant for reinstatement must apply as if for a new license. (3-20-04)

05. **Expedited Licensure.** Upon an applicant’s request and payment of a fee of one hundred dollars ($100), the Division will expedite its review and determination of a license application. The fee for this service is required in addition to the licensing and renewal fees provided for in Section 201 of these rules and must be paid to the Division at the time of application for licensure. (3-21-12)

106. **SPECIAL PROVISIONS COVERED IN A PETITION TO CHANGE OR ADD TYPES OF CONSTRUCTION.**

A petition to change or add types of construction must be supported by evidence, satisfactory to the administrator, of work history, job performance, experience, equipment, financial responsibility, and a minimum of three (3) letters of reference. The evidence of work history, job performance, experience, and financial responsibility must comply with the requirements of Subsections 110.01 and 110.02 of these rules. All of the evidence must specifically pertain to work that is similar in scope and value to that for which the change or addition is being requested. (3-20-04)

107. **RECORDS.**

Board records are subject to the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (3-20-04)

108. **REVIEW.**

Any final decision of the administrator or the Board may be reviewed in accordance with the provisions of the Idaho Administrative Procedures Act, Title 67, Chapter 52, Idaho Code. (3-20-04)

109. **NOTICE.**

In any contested case or other matter of Board business, written notification, mailed to the licensee or the applicant at the most current address on record with the Board, constitutes sufficient notification for all purposes within Title 54,
01. Application Documentation. To obtain a license, the applicant must submit to the administrator, on such forms and in a format as the administrator prescribes, including electronically, accompanied by the required fee for the class of license applied for, a complete written application for such license. All of the information submitted by the applicant must specifically pertain to work that is similar in scope and value to that for which licensure is being requested or that is being requested in a petition to change or add types of construction. The information contained in such application forms must include:

a. A complete statement of the general nature of applicant's contracting business, including a concise description of the applicant's experience and qualifications as a contractor and a list of clients for whom work has been performed; (3-20-04)

b. A description of the value and character of contract work completed and for whom performed during the three (3) year period prior to filing the application; (3-20-04)

c. A general description of applicant's machinery and equipment; and (3-30-07)

d. An annual financial statement, as herein defined, that covers a period of time ending no more than twelve (12) months prior to the date of submission of the application, indicating compliance with such financial requirements as the Board may prescribe by rule. The applicant's financial statement may be supplemented with:

i. Bonding. As authorized by Section 54-1910(e), Idaho Code, a letter from applicant's bonding company, not an insurance agent, stating the amount of the applicant's bonding capability per project and in the aggregate, including supporting documentation; (3-30-07)

ii. Guaranty. Documentation, satisfactory to the administrator, of the existence of a written guaranty agreement between the applicant and a third-party in which the third-party guarantor agrees to assume financial responsibility for payment of any obligations of the applicant for any particular project as may be determined by a court of competent jurisdiction. The guaranty agreement, along with financial statements meeting the requirements of Paragraph 110.01.e. of this rule, must be submitted with the license application. (3-30-07)

e. For Class A, AA, AAA, and Unlimited license applications, financial statements must be accompanied by an independent auditor’s report or be reviewed. For Class B and CC license applications, financial statements must be accompanied by an independent audit report or be reviewed or compiled by a certified public accountant. For Class C and Class D license applications, financial statements must be accompanied by an independent audit report or be reviewed, compiled, or on the form provided by the administrator, and include such additional information as may be required by the administrator to determine the applicant's fitness for a license. (3-27-13)

f. The name, social security number, and business address of an individual applicant or, if the applicant is a partnership, its tax identification number, business address, and the names and addresses of all general partners; and if the applicant is a corporation, association, limited liability company, limited liability partnership, or other organization, its tax identification number, business address, and the names and addresses of the president, vice president, secretary, treasurer, and chief construction managing officers, or responsible managing employee. (3-20-04)

g. Applicants requesting a licensing class higher than that for which the applicant is currently licensed must provide documentation, satisfactory to the administrator, of having performed projects, similar in scope and character to those for which license is requested. The monetary value of those jobs must fall within a range not less than thirty percent (30%) below that for which the applicant is currently licensed. (3-20-14)
which the applicant is currently licensed must be accompanied by the information in Subsection 110.01 of these rules, and the applicable fee. Licenses granted under Subsection 110.02 of these rules are valid for a period of twelve (12) months from the date of issuance.

**03. Extension of Time to File Financial Statement.** The administrator may grant an extension of time to file the annual financial statement if the licensee provides an interim compiled balance sheet and income statement for the applicant’s fiscal year-to-date, duly certified as true by the applicant, and if a partnership, limited liability company, or limited liability partnership by a member thereof, and if a corporation, by its executive or financial officer. Such renewal application must be filed prior to the first day of such renewal licensing period. In the event an extension is granted, the renewal license is valid for a period of twelve (12) months from the date of issuance of the renewal license.

**04. Appraisals.** The administrator may require submission of an independent appraisal of any real or chattel property reported by an applicant or licensee. Such appraisals must be conducted by a disinterested person or firm established and qualified to perform such services.

**05. References.** The administrator may require an applicant for an original or renewal license to furnish such personal, business, character, financial, or other written references as deemed necessary and advisable in determining the applicant’s qualifications.

**111. FINANCIAL REQUIREMENTS.**
The financial requirements for obtaining and maintaining a heavy, highway, building, and specialty construction license under this act must be as described in this section for each respective class. An applicant requesting a license for each class identified in this section must have a minimum net worth and possess an amount of working capital as provided in Table 111.01:

**112. EXAMINATION.**
The Board approves all subject areas and topics to be included in the examinations to become licensed as a public works contractor.

**01. Frequency of Conducting of Examinations.**

a. Examinations for all classes of licenses under the Public Contractors laws and rules will be given a minimum of four (4) times each year in at least three (3) locations:

i. One (1) to be in north Idaho;

ii. One (1) to be in southwest Idaho; and
iii. One (1) to be in southeast Idaho. (4-9-09)

b. The applicant will be notified in writing of the date, time, and location at which the examinations will be given, following approval of the application. (4-9-09)

02. Professional Testing Services. In lieu of the administration by the administrator of the examination for licenses pursuant to this rule, the administrator may contract with a professional testing service to administer the examination, and require license applicants to pay to the testing service the fee that they have set for the examination and to take such examination at the time set by such service with the exception of Class D applicants. After taking such examination, an official copy of the applicant’s test score must be provided to the administrator before the license will be granted. If the examination is conducted in this fashion, the Division of Building Safety may charge and retain the application fee provided for by Section 54-1911, Idaho Code, to cover the cost of reviewing the applicant’s application.

a. Class D applicants will utilize the existing in-house, open-book examination. (4-9-09)

b. Class D licensees pursuing an upgrade must reapply and pass the examination administered by the professional testing service. (4-9-09)

03. Required Score. The applicant must receive a final grade of seventy percent (70%) or higher prior to issuance of the appropriate license. (4-9-09)

04. Failed Examinations.

a. An applicant receiving less than a passing score on a first or second examination may be reexamined without reapplication. (4-9-09)

b. Before being reexamined after failing an examination the third time, an applicant must resubmit the application and fee. (4-9-09)

c. Before being reexamined after any further failures, an applicant for reexamination must wait until the expiration of sixty (60) days from the date of the failed examination and resubmit the application and fee for each subsequent examination. (4-9-09)

113. INDIVIDUAL QUALIFIED BY EXAMINATION.

01. Written Notice. Written notice, required by Section 54-1910(a), Idaho Code, that the Qualified Individual of a public works contractor has ceased to be connected with the contractor must be provided to the Administrator on forms prescribed by the Administrator. Such notice must indicate the date the Qualified Individual ceased to be connected with the contractor. (4-11-19)

02. Reasonable Length of Time. If a public works contractor notifies the Administrator that the contractor’s Qualified Individual has ceased to be connected with the contractor, the contractor’s license will remain in force for ninety (90) days from the date of the notice. (4-11-19)

114. -- 198. (RESERVED)

199. LIMITATIONS.

01. One License. A licensee will be permitted to hold only one (1) class of license at any given time. (3-20-04)

02. Previous License Null and Void. When a licensee of one class has been issued a license of another class, the previous license is null and void. (3-20-04)

03. Total Bid Cost. The total of any single bid on a given public works project, or the aggregate total
of any split bids, or the aggregate total of any base bid and any alternate bid items, or the aggregate total of any separate bid by a licensee of any class, except Class Unlimited, may not exceed the estimated cost or bid limit of the class of license held by the licensee. The aggregate total of bids must include all bids of the subcontractors. Subcontractor bids are not considered a separate bid for the purposes of computing the bid on a given public works project. (5-8-09)

04. **Two or More Licensees.** Two (2) or more licensees of the same class or of different classes are not permitted to combine the estimated cost or bid limit of their licenses to submit a bid in excess of the license held by either licensee. (3-20-04)

05. **Type 4 License Holder.** The holder of a license for Type 4, Specialty Construction, are entitled to bid a public works project as a prime contractor or as a subcontractor, if more than fifty percent (50%) of the work to be performed by him on such project is covered by a category or categories listed on the license held by the licensee. (3-20-04)

**200. TYPE 4-SPECIALTY CONSTRUCTION CATEGORIES.**
A license for Type 4-Specialty Construction must list one (1) or more specialty construction categories to which the license is restricted. Categories and their definitions are:

01. **01107 Engineering.** A specialty contractor whose primary business includes providing engineering and design services such as civil, electrical, mechanical, and structural. (4-6-05)

02. **01541 Scaffolding and Shoring.** A specialty contractor whose primary business is the installation of any temporary elevated platform and its supporting structure used for supporting workmen or materials or both, and props or posts of timber or other material in compression used for the temporary support of excavations, formwork or unsafe structures; the process of erecting shoring. (4-6-05)

03. **01542 Craning and Erection.** A specialty contractor whose primary business includes the art, ability and skill to safely control the workings of a crane in such a manner that building materials, supplies, equipment and structural work can be raised and set in a final position. (4-6-05)

04. **01550 Construction Zone Traffic Control.** A specialty contractor whose primary business is the installation or removal of temporary lane closures, flagging or traffic diversions, utilizing pilot cars, portable devices such as cones, delineators, barricades, sign stands, flashing beacons, flashing arrow trailers, and changeable message signs on roadways, public streets and highways or public conveyances. (4-6-05)

05. **01570 Temporary Erosion and Sediment Controls.** A specialty contractor whose primary business includes the ability and expertise to install silt fencing or other similar devices to prevent erosion and contain silt. (4-6-05)

06. **02110 Excavation, Removal and Handling of Hazardous Material.** A specialty contractor whose primary business includes the excavation and removal of toxic and hazardous site materials. Contractors must be properly licensed and certified if required. (4-6-05)

07. **02115 Removal of Underground Storage Tanks.** A specialty contractor whose primary business includes, but is not limited to, the excavation, removal, cleanup, and disposal of underground storage tanks that have contained petrochemical type fuels. This work should include the sampling and testing of surrounding materials and filing of closure documents. (4-6-05)

08. **02195 Environmental Remediation, Restoration and Soil Stabilization.** A specialty contractor whose primary business is the remediation and restoration of contaminated environmental sites. (4-6-05)

09. **02210 Drilling.** A specialty contractor whose primary business includes practical elementary knowledge of geology and hydrology; the art, ability, knowledge, science and expertise to bore, drill, excavate, case, pack or cement by use of standard practices, including the use of diamond bits, cable tools, percussion, air percussion, rotary, air rotary, reverse circulation rotary methods or jetting. (4-6-05)
10. **02220 Demolition.** A specialty contractor whose primary business includes the ability and expertise to demolish all types of buildings or structures and to remove all of such buildings or structures from the premises, and maintain the premises surrounding demolition site safely for passing public. (4-6-05)

11. **02230 Site Clearing.** A specialty contractor whose primary business includes the ability and expertise to remove and dispose of all trees, brush, shrubs, logs, windfalls, stumps, roots, debris and other obstacles in preparation for excavation of a construction site or other uses. (4-6-05)

12. **02231 Logging.** A specialty contractor whose primary business and expertise includes the clearing, cutting, removal and transportation of logs and trees and the construction of temporary roads and structures for such operations along with any reclamation work associated with such operations. (4-6-05)

13. **02232 Tree Removal and Trimming.** A specialty contractor whose primary business includes pruning, removal, or guying of trees, limbs, stumps, and bushes including grading and removal of such items. (4-6-05)

14. **02240 Dewatering and Subsurface Drainage.** A specialty contractor whose primary business is to control the level and flow of subsurface water. (4-6-05)

15. **02260 Earth Retention Systems, Mechanical Stabilized Earth Walls and Retaining Walls.** A specialty contractor whose primary business includes the building of earth retention systems, mechanical stabilized earth walls and retaining walls. (4-6-05)

16. **02265 Slurry Walls.** A specialty contractor whose primary business is the construction of below ground structural diaphragm walls or containment walls through the combined use of trench excavation, mud slurry and tremie concrete. (4-6-05)

17. **02310 Excavation and Grading.** A specialty contractor whose primary business includes such work as digging, moving and placing material forming the surface of the earth in such manner that a cut, fill, excavation and any similar excavating operation can be done with the use of hand and power tools and machines that are used to dig, move and place that material forming the earth’s surface. (4-6-05)

18. **02312 Dust Control, Dust Abatement and Dust Oiling.** A specialty contractor whose primary business is dust control, dust abatement and dust oiling. (4-6-05)

19. **02317 Rock Trenching.** A specialty contractor whose primary business is rock trenching. (4-6-05)

20. **02318 Hauling.** A specialty contractor whose primary business includes the ability and expertise to obtain or move specified materials by transportation in a vehicle. (4-6-05)

21. **02319 Blasting.** A specialty contractor whose primary business includes the use of conventional and high explosives for pre-splitting, surface, underground and underwater blasting, drill, trench, or excavate for use of explosives; priming and loading drilled, trenched or excavated areas by pipe tamping, pneumatic loading, injector loading, mud capping, slurry loading, combination of pneumatic and injector loading or hand loading; use of volt, ohms and milliampere meter (VOM) in testing blasting machine output voltage, power line voltage, measuring electric blasting cap or blasting circuit resistance, testing for current leakage, testing for AC-DC stray current and voltage, leading wires for open or short circuits, rack bar blasting machine for running short or galvanometer output voltage; use of blasting caps, electric blasting caps, delay electric blasting caps, primacord and all other detonating devices. (4-6-05)

22. **02325 Dredging.** A specialty contractor whose primary business includes the excavation or removal of earth, rock, silt, or sediment from bodies of water including but not limited to streams, lakes, rivers or bays by means of specialized equipment. (4-6-05)
24. 02404 Horizontal and Directional Earth Boring, Trenching and Tunneling. A specialty contractor whose primary business and expertise includes boring, trenching or tunneling. (4-6-05)

25. 02450 Drilled Piers, Pile Driving, Caisson Drilling, Geopier and Helical Piers. A specialty contractor whose primary business includes drilling piers, pile driving, caisson drilling, Geopier and helical piers. (4-6-05)

26. 02500 Utilities. A specialty contractor whose primary business includes the construction and installation of pipe lines for the transmission of sewage, gas and water, including minor facilities incidental thereto; installation of electrical poles, towers, arms, transformers, fixtures, conduits, conductors, switch gear, grounding devices, panels, appliances and apparatus installed outside of buildings; including excavating, trenching, grading, back fill, asphalt patching as well as all necessary work and installation of appurtenances in connection therewith. (4-6-05)

27. 02520 Well Drilling. A specialty contractor whose primary business includes the practical elementary knowledge of geology, hydrology, the occurrence of water in the ground, water levels in wells, the prevention of surface and sub-surface contamination and pollution of the ground water supply; and the art, ability, experience, knowledge, science, and expertise to bore, drill, excavate, case, screen, cement, clean and repair water wells; or to do any or any combination of any or all such boring, drilling, excavating, casing, cementing, cleaning and repairing with hand or power tools or rigs, including the installation and repair of pumps. (4-6-05)

28. 02580 Installation of Communication Towers. A specialty contractor whose primary business and expertise is the installation of communication towers. (4-6-05)

29. 02660 Membrane Liners for Ponds and Reservoirs. A specialty contractor whose primary business includes the installation of liners for the purpose of containment of liquids. (4-6-05)

30. 02720 Crushing. A specialty contractor whose primary business includes the ability and expertise to reduce rocks and aggregates to a smaller and uniform size and gradation to meet an agreed specification. (4-6-05)

31. 02740 Asphalt Paving. A specialty contractor whose primary business includes the installation of aggregate base course, cement treated base, bitumen treated base, asphalt concrete and the application of asphalt surfacing and surface repairs of streets, intersections, driveways, parking lots, tennis courts, running tracks, play areas; including the application or installation of primer coat, asphalt binder course, tack coating, seal coating and chips, slurry seal and chips, flush or flog coats, asphalt curbs, concrete bumper curbs, redwood headers, asphalt surface binder emulsion, asbestos and sand and acrylic color systems. (Synthetic and athletic surfacing are category 02790 Athletic and Recreational Surfaces.) Also includes crack sealing, asphalt maintenance repair and soil pulverization. (4-6-05)

32. 02761 Traffic Marking and Striping. A specialty contractor whose primary business includes the art, ability and expertise to apply markings to streets, roadways, or parking surfaces pre-designed for the use of parking or passage of vehicles by the application of directional lines, buttons, markers, and signs made of but not limited to plastic, paint, epoxies and rubber, in such manner as to provide for the channeling and controlling of the traffic flow. Also includes temporary striping. (4-6-05)

33. 02785 Asphalt Maintenance and Repair, Seal Coating, Crack Sealing and Chip Sealing. A specialty contractor whose primary business is asphalt maintenance and repair, seal coating, crack sealing and chip sealing. (4-6-05)

34. 02790 Athletic and Recreational Surfaces. A specialty contractor whose primary business is the installation of specialty surfaces including but not limited to non-wood athletic floors, tennis courts, running tracks and artificial turf. This would include any subsurface preparation such as leveling, excavation, fill and compaction or grading. The application of surfacing, mixing, spreading or placing of emulsions, binders, sand and acrylic color systems is also included along with the installation of modular, plastic athletic floors such as “Sport Court” type floors. This category does not include any type of structure required for the installation of these surfaces. (4-6-05)

35. 02810 Sprinkler and Irrigation Systems. A specialty contractor whose primary business includes
the installation of types and kinds of water distribution systems for complete artificial water or irrigation of gardens, lawns, shrubs, vines, bushes, trees and other vegetation, including the trenching, excavating and backfilling in connection therewith. (Low voltage only.)

36. **02820 Fencing.** A specialty contractor whose primary business includes the installation and repair of any type of fencing.

37. **02840 Guardrails and Safety Barriers.** A specialty contractor whose primary business includes the installation of guardrails and safety barriers (including cattle guards).

38. **02850 Bridges and Structures.** A specialty contractor whose primary business includes the installation, alteration and repair of bridges and related structures, including culverts.

39. **02855 Bridge Crossings and Box Culverts.** A specialty contractor whose primary business is the installation or construction, or both, of any bridge or crossing structure shorter than twenty (20) feet measured on the centerline of the roadway or trail.

40. **02880 Installation of School Playground Equipment.** A specialty contractor whose primary business is the installation of school playground equipment.

41. **02890 Traffic Signs and Signals.** A specialty contractor whose primary business includes the art, ability, knowledge, experience, science and expertise to fabricate, install and erect signs, including electrical signs and including the wiring of such signs. A licensed electrician must perform all the electrical work.

42. **02900 Landscaping, Seeding and Mulching.** A specialty contractor whose primary business includes the preparation of plots of land for architectural, horticulture and provisions of decorative treatment and arrangement of gardens, lawns, shrubs, vines, bushes, trees and other decorative vegetation; construction of conservatories, hot and green houses, drainage and sprinkler systems, and ornamental pools, tanks, fountains, walls, fences and walks, arrange, fabricate and place garden furniture, statuary and monuments in connection therewith.

43. **02910 Slope Stabilization, Hydoseeding, Hydromulching, Native Plant Revegetation for Erosion Control.** A specialty contractor whose primary business is slope stabilization, including necessary tillage and plant bed preparation using hydoseeding, hydromulching and native plant revegetation for erosion control.

44. **02935 Landscape Maintenance.** A specialty contractor whose primary business and expertise includes the maintenance of existing lawns, gardens, and sprinkler systems. This would include mowing, weeding, fertilization, pest control and minor repair or relocation of sprinkler systems.

45. **02937 Pest Control, Sterilization and Herbicide Applications.** A specialty contractor whose primary business includes the mixing, transportation and application of fertilizers, pesticides, herbicides, and sterilization chemicals for the control of insects, pests and weeds.

46. **02955 Pipeline Cleaning, Sealing, Lining and Bursting.** A specialty contractor whose primary business and expertise includes cleaning, sealing, lining and bursting pipelines.

47. **02965 Cold Milling, Rumble Strip Milling, Asphalt Reclaiming and Pavement Surface Grinding.** A specialty contractor whose primary business includes cold milling, rumble strip milling, asphalt reclaiming and pavement surface grinding.

48. **02990 Structural Moving.** A specialty contractor whose primary business includes but is not limited to raising, lowering, cribbing, underpinning and moving of buildings or structures. This does not include the alterations, additions, repairs or rehabilitation of the retained portion of the structure.

49. **03200 Concrete Reinforcing Rebar Installation.** A specialty contractor whose primary business includes the ability and expertise to fabricate, place and tie steel mesh or steel reinforcing bars or rods of any profile,
perimeter or cross-section that are or may be used to reinforce concrete. (4-6-05)

50. **03300 Concrete.** A specialty contractor whose primary business includes the ability and expertise to process, proportion, batch and mix aggregates consisting of sand, gravel, crushed rock or other inert materials having clean uncoated grains of strong and durable minerals, cement and water or to do any part or any combination of any thereof, in such a manner that acceptable mass, pavement, flat and other cement and concrete work can be poured, placed, finished and installed, including the placing, forming and setting of screeds for pavement or flat work. Also includes concrete sidewalks, driveways, curbs and gutters. (4-6-05)

51. **03370 Specially Placed Concrete, Concrete Pumping and Shotcreting.** A specialty contractor whose primary business includes the ability and equipment necessary to deliver and install concrete, and similar materials to their final destination in buildings and structures. (4-6-05)

52. **03380 Post-Tensioned Concrete Structures or Structural Members.** A specialty contractor whose primary business is the post-tensioning of structural elements using sleeved tendons of high-strength prestressing steel. (4-6-05)

53. **03500 Gypcrete.** A specialty contractor whose primary business includes the ability and expertise to mix and apply gypsum concrete. (4-6-05)

54. **03600 Concrete Grouting.** A specialty contractor whose primary business includes the ability and the equipment necessary to place concrete grouts. Concrete grouts are thin, fluid, shrink resistant, mortar-like materials used for filling joints and cavities and setting and anchoring items in masonry and concrete. (4-6-05)

55. **03650 Pressure Grouting and Slab Jacking.** A specialty contractor whose primary business includes pressure foundation grouting and jacking and the injection of concrete or mortar into foundations for stabilization. (4-6-05)

56. **03900 Concrete Demolition, Concrete Sawing and Cutting, Core Drilling, Joint Sealing and Hydrocutting.** A specialty contractor whose primary business includes concrete cutting, drilling, sawing, cracking, breaking, chipping or removal of concrete. This category also includes the caulking or sealing of joints or cracks caused by such operations. (4-6-05)

57. **04000 Masonry.** A specialty contractor whose primary business includes the installation with or without the use of mortar or adhesives of brick, concrete block, adobe units, gypsum partition tile, pumice block or other lightweight and facsimile units and products common to the masonry industry. (4-6-05)

58. **04900 Chemical Cleaning and Masonry Restoration.** A specialty contractor whose primary business includes the cleaning or restoration of masonry through the use of chemicals, pressure washing, sand blasting or other methods. (4-6-05)

59. **05090 Welding.** A specialty contractor whose primary business causes metal to become permanently attached, joined and fabricated by the use of gases or electrical energy, developing sufficient heat to create molten metal, fusing the elements together. (4-6-05)

60. **05100 Steel Fabrication, Erection and Installation.** A specialty contractor whose primary business includes the ability and expertise to fabricate, place and tie steel reinforcing bars, erect structural steel shapes and plates, of any profile, perimeter or cross-section, that are or may be used to reinforce concrete or as structural members for buildings and structures, including riveting, welding and rigging only in connection therewith, in such a manner that steel reinforcing and structural work can be fabricated and erected. (4-6-05)

61. **05700 Ornamental Metals.** A specialty contractor whose primary business includes the art, ability, experience, knowledge, science and expertise to assemble, case, cut, shape, stamp, forge, fabricate and install sheet, rolled and cast, brass, bronze, copper, cast iron, wrought iron, monel metal, stainless steel, and any other metal or any combination thereof, as have been or are now used in the building and construction industry for the architectural treatment and ornamental decoration of buildings and structures, in such a manner that, under an agreed specification, acceptable ornamental metal work can be executed, fabricated and installed; but does not include the work of a sheet
metal contractor. (4-6-05)

62. **05830 Bridge Expansion Joints and Repair.** A specialty contractor whose primary business and expertise is the repair of bridge expansion joints. (4-6-05)

63. **06100 Carpentry, Framing and Remodeling.** A specialty contractor whose primary business includes the placing and erection of floor systems, walls, sheathing, siding, trusses, roof decking of either wood or light gauge metal framing. This contractor also installs finish items such as running trim, sashes, doors, casing, cabinets, cases and other pre-manufactured finished items. (4-6-05)

64. **06130 Log and Heavy Timber Construction.** A specialty contractor whose primary business includes the ability and expertise to build and erect log or heavy timber structures. (4-6-05)

65. **06139 Docks - Log and Wood Structures.** A specialty contractor whose primary business includes the ability and expertise to construct log and wood structured docks. (4-6-05)

66. **06200 Finish Carpentry and Millwork.** A specialty contractor whose primary business includes the art, ability, experience, knowledge, science and expertise to cut, surface, join, stick, glue and frame wood and wood products, in such a manner that, under an agreed specification, acceptable cabinet, case, sash, door, trim, nonbearing partition, and such other mill products as are by custom and usage accepted in the building and construction industry as millwork and fixtures, can be executed; including the placing, erecting, fabricating and finishing in buildings, structures and elsewhere of such millwork and fixtures or to do any part or any combination of any thereof. (4-6-05)

67. **07100 Waterproofing and Dampproofing.** A specialty contractor whose primary business includes the ability and expertise to apply waterproofing membranes, coatings of rubber, latex, asphaltum, pitch, tar or other materials or any combination of these materials, to surfaces to prevent, hold, keep and stop water, air or steam from penetrating and passing such materials, thereby keeping moisture from gaining access to material or space beyond such waterproofing. (4-6-05)

68. **07200 Thermal Insulation.** A specialty contractor whose primary business includes the installation of any insulating media in buildings and structures for the purpose of temperature control. (4-6-05)

69. **07240 Stucco and Exterior Insulation Finish Systems (EIFS).** A specialty contractor whose primary business includes the ability and expertise to install Stucco and EIFS. (4-6-05)

70. **07400 Roofing and Siding.** A specialty contractor whose primary business includes the ability and expertise to examine surfaces and to bring such surfaces to a condition where asphaltum, pitch, tar, felt, flax, shakes, shingles, roof tile, slate and any other material or materials or any combination thereof, that use and custom has established as usable for, or which material or materials are now used as, such waterproof, weatherproof or watertight seal for such membranes, roof and surfaces; but does not include a contractor whose sole contracting business is the installation of devices or stripping for the internal control of external weather conditions. (4-6-05)

71. **07450 Siding and Decking.** A specialty contractor whose primary business includes the application or installation of exterior siding, decking or gutters including wood, wood products, vinyl, aluminum and metal to new or existing buildings and includes wooden decks and related handrails. (This category does not include the construction or installation of covers or enclosures of any kind.) (4-6-05)

72. **07700 Sheet Metal Flashings, Roof Specialties and Accessories.** A specialty contractor whose primary business includes the art, ability, experience, knowledge, science and expertise to select, cut, shape, fabricate and install sheet metal such as cornices, flashings, gutters, leaders, rainwater down spouts, pans, etc., or to do any part or any combination thereof, in such a manner that sheet metal work can be executed, fabricated and installed. (4-6-05)

73. **07800 Sprayed on Fireproofing.** A specialty contractor whose primary business includes the mixing, transportation, and installation of fire proofing materials for buildings and structures. (4-6-05)
74. **07920 Caulking and Joint Sealants.** A specialty contractor whose primary business includes the ability and expertise for installation of elastomeric and rigid joint sealants, caulking compounds, and related accessories. (4-6-05)

75. **08100 Doors, Gates, Specialty Doors and Activating Devices.** A specialty contractor whose primary business is the installation, modification or repair of residential, commercial or industrial doors and door hardware. This includes but is not necessarily limited to wood, metal clad or hollow metal, glass, automatic, revolving, folding and sliding doors, power activated gates, or movable sun shades/shutters. Card activated equipment and other access control devices and any low voltage electronic or manually operated door hardware devices are also a part of this category. (4-6-05)

76. **08500 Windows, Glass and Glazing.** A specialty contractor whose primary business includes the art, ability, experience, knowledge and expertise to select, cut, assemble and install all makes and kinds of glass and glass work, and execute the glazing of frames, panels, sash and doors, in such a manner that under an agreed specification, acceptable glass work and glazing can be executed, fabricated and installed, and may include the fabrication or installation in any building or structure of frames, glazed-in panels, sash or doors, upon or within which such frames, glazed-in panels, sash or doors, such glass work or glazing has been or can be executed or installed. (4-6-05)

77. **09110 Steel Stud Framing.** A specialty contractor whose primary business includes the ability and expertise to build or assemble steel stud framing systems. (4-6-05)

78. **09200 Lath and Plaster.** A specialty contractor whose primary business includes the ability and expertise to prepare mixtures of sand, gypsum, plaster, quick-lime or hydrated lime and water or sand and cement and water or a combination of such other materials as create a permanent surface coating; including coloring for same and to apply such mixtures by use of a plaster’s trowel, brush or spray gun to any surface which offers a mechanical key for the support of such mixture or to which such mixture will adhere by suction; and to apply wood or metal lath or any other materials which provide a key or suction base for the support of plaster coatings; including the light gauge metal shapes for the support of metal or other fire proof lath. Includes metal stud framing. (4-6-05)

79. **09250 Drywall.** A specialty contractor whose primary business includes the ability and expertise to install unfinished and prefinished gypsum board on wood and metal framing and on solid substrates; gypsum and cementitious backing board for other finishes; accessories and trim; and joint taping and finishing. (4-6-05)

80. **09300 Tile and Terrazzo.** A specialty contractor whose primary business includes the ability and expertise to examine surfaces and bring such surfaces to a condition where acceptable work can be executed and fabricated thereon by the setting of chips or marble, stone, tile or other material in a pattern with the use of cement, and to grind or polish the same. (4-6-05)

81. **09500 Acoustical Treatment.** A specialty contractor whose primary business includes the installation, application, alteration and repair of all types of acoustical systems, to include acoustical ceilings, wall panels, sound control blocks and curtains, hangers, clips, inserts, nails, staples, related hardware and adhesive, lightweight framing systems and related accessories (electrical excluded), installation and repair of gypsum wall board, painting, accessories, taping and texturing. (4-6-05)

82. **09600 Flooring.** A specialty contractor whose primary business includes the ability and expertise to examine surfaces, specify and execute the preliminary and preparatory work necessary for the installation of flooring, wherever installed, including wood floors and flooring (including the selection, cutting, laying, finishing, repairing, scraping, sanding, filling, staining, shellacking and waxing) and all flooring of any nature either developed as or established through custom and usage as flooring. (4-6-05)

83. **09680 Floor Covering and Carpeting.** A specialty contractor whose primary business includes the installation, replacement and repair of floor covering materials, including laminates and including preparation of surface to be covered, using tools and accessories and industry accepted procedures of the craft. (4-6-05)

84. **09900 Painting and Decorating.** A specialty contractor whose primary business includes the ability and expertise to examine surfaces and execute the preliminary and preparatory work necessary to bring such
surfaces to a condition where acceptable work can be executed thereon with the use of paints, varnishes, shellacs, stains, waxes, paper, oilcloth, fabrics, plastics and any other vehicles, mediums and materials that may be mixed, used and applied to the surface of buildings, and the appurtenances thereto, of every description in their natural condition or constructed of any material or materials whatsoever that can be painted or hung as are by custom and usage accepted in the building and construction industry as painting and decorating. (4-6-05)

85. **09950 Sand Blasting.** A specialty contractor whose primary business includes the ability and expertise to sand blast surfaces through the use of equipment designed to clean, grind, cut or decorate surfaces with a blast of sand or other abrasive applied to such surfaces with steam or compressed air. (4-6-05)

86. **09960 Specialty Coatings.** A specialty contractor whose primary business includes the surface preparation and installation of specialty coatings. (4-6-05)

87. **10150 Institutional Equipment.** A specialty contractor whose primary business includes the installation, maintenance and repair of booths, shelves, laboratory equipment, food service equipment, toilet partitions, and such other equipment and materials as are by custom and usage accepted in the construction industry as institutional equipment. (4-6-05)

88. **10270 Raised Access Flooring.** A specialty contractor whose primary business includes the installation of wood or metal-framed elevated computer-flooring systems. This does not include the structural floor on which the computer floor is supported or mezzanines. (4-6-05)

89. **10445 Non-Electrical Signs.** A specialty contractor whose primary business includes the installation of all types of non-electrical signs, including but not limited to traffic delineators, mile post markers, post or pole supported signs, signs attached to structures, painted wall signs, and modifications to existing signs. (4-6-05)

90. **11001 Specialty Machinery and Equipment Installation and Servicing.** A specialty contractor whose primary business is the installation, removal, modification or repair of pumps, water and waste water equipment, conveyors, cranes, dock levelers, various hoisting and material handling equipment, trash compactors and weighing scales installation and servicing. This does not include the construction of buildings or roof structures for this equipment. (4-6-05)

91. **11140 Petroleum and Vehicle Service Equipment, Installation and Repair.** A specialty contractor whose primary business includes the installation and repair of underground fuel storage tanks used for dispensing gasoline, diesel, oil or kerosene fuels. This includes installation of all incidental tank-related piping, leak line detectors, vapor recovery lines, vapor probes, low voltage electrical work, associated calibration, testing and adjustment of leak detection and vapor recovery equipment, and in-station diagnostics. This contractor may also install auto hoisting equipment, grease racks, compressors, air hoses and other equipment related to service stations. (4-6-05)

92. **11200 Water/Wastewater and Chemical Treatment.** A specialty contractor whose primary business is the supply, installation and operational startup of equipment and chemicals for chemical treatment of water, wastewater or other liquid systems. (4-6-05)

93. **11485 Climbing Wall Structures and Products.** A specialty contractor whose primary business includes the ability and expertise to design, fabricate and install climbing wall structures and equipment. This does not include concrete foundations or buildings in which the climbing walls may be supported or housed. (4-6-05)

94. **12011 Prefabricated Equipment and Furnishings.** A specialty contractor whose primary business includes the installation of prefabricated products or equipment including but not limited to the following: theater stage equipment, school classroom equipment, bleachers or seats, store fixtures, display cases, toilet or shower room partitions or accessories, closet systems, dust collecting systems, appliances, bus stop shelters, telephone booths, sound or clean rooms, refrigerated boxes, office furniture, all types of pre-finished, pre-wired components, detention equipment and other such equipment and materials as are by custom and usage accepted in the construction industry as prefabricated equipment. (4-6-05)

95. **12490 Window, Wall Coverings, Drapes and Blinds.** A specialty contractor whose primary
business includes the installation of decorative, architectural or functional window glass treatments or covering products or treatments for temperature control or as a screening device. (4-6-05)

96. 13110 Cathodic Protection. A specialty contractor whose primary business is the prevention of corrosion by using special cathodes and anodes to circumvent corrosive damage by electric current. (4-6-05)

97. 13121 Pre-Manufactured Components and Modular Structures. A specialty contractor whose primary business includes the moving, setup, alteration or repair of pre-manufactured components, houses or similar modular structures. (4-6-05)

98. 13125 Pre-Engineered Building Kits. A specialty contractor whose primary business includes the assembly of pre-engineered building kits or structures obtained from a single source. This category is limited to assembly only of pre-engineered metal buildings, pole buildings, sunrooms, geodesic structures, aluminum domes, air supported structures, manufactured built greenhouses or similar structures. This does not include any other categories such as concrete foundations, carpentry, plumbing, heating or cooling, or electrical work. (4-6-05)

99. 13150 Swimming Pools and Spas. A specialty contractor whose primary business includes the ability to construct swimming pools, spas or hot tubs including excavation and backfill of material, installation of concrete, Gunite, tile, pavers or other special materials used in pool construction. This category also includes the installation of heating and filtration equipment, using those trades or skills necessary for installing the equipment, which may require other licenses including electrical and plumbing. (4-6-05)

100. 13165 Aquatic Recreational Equipment. A specialty contractor whose primary business includes the ability and expertise to design, fabricate and erect water slides and water park equipment and structures. This does not include any other categories such as concrete foundations, carpentry, plumbing, heating, cooling or electrical work. (4-6-05)

101. 13201 Circular Prestressed Concrete Storage Tanks (Liquid and Bulk). A specialty contractor whose primary business is the construction of circular prestressed concrete structures post-tensioned with circumferential tendons or wrapped circular prestressing. (4-6-05)

102. 13280 Hazardous Material Remediation. A specialty contractor whose primary business includes the ability and expertise to safely encapsulate, remove, handle or dispose of hazardous materials within buildings, including but not limited to asbestos, lead and chemicals. Contractors must be properly licensed and certified. (4-6-05)

103. 13290 Radon Mitigation. A specialty contractor whose primary business and expertise includes the detection and mitigation of Radon gas. (4-6-05)

104. 13800 Instrumentation and Controls. A specialty contractor whose primary business includes the installation, alteration or repair of instrumentation and control systems used to integrate equipment, sensors, monitors’ controls and mechanical operators for industrial processes, building equipment, mechanical devices and related equipment. (4-6-05)

105. 13850 Alarm Systems. A specialty contractor whose primary business includes the installation, alteration and repair of communication and alarm systems, including the mechanical apparatus, devices, piping and equipment appurtenant thereto (except electrical). (4-6-05)

106. 13930 Fire Suppression Systems (Wet and Dry-Pipe Sprinklers). 03. **Payment of Fees.** Fees are payable to “Division of Building Safety -- Public Works Contractors.” 

04. **Application Filed With Fees.** Required fees must accompany all applications. An application filed without the required fees is deemed incomplete and returned to the applicant. 

202. **COMPLAINTS.**
Complaints alleging a violation of Title 54, Chapter 19, Idaho Code, or these rules must be in writing and filed with the administrator as provided in these rules. All complaints must be verified and submitted on forms provided by the Board. 

203. -- 299. (RESERVED) 

300. **BUSINESS ORGANIZATION -- CHANGES IN ORGANIZATION OR STRUCTURE -- MEMBERS OF JOINT VENTURES - CHANGES FOR REASONS OTHER THAN DEATH.**
A licensed public works contractor or construction manager who undergoes a change in business organization or structure (such as a change from an individual proprietor to a partnership, corporation, limited liability partnership, limited liability company, joint venture, or other combination thereof), or where there is a change in ownership, must file an application for a new license on behalf of such successor organization or new owners within sixty (60) days after such change occurs. The administrator may authorize the continuous operation of the licensee as a contractor during the interim period until the application of the successor organization is reviewed; provided written notice of such change is filed within thirty (30) days after such change occurs. Each participant in a joint venture must be licensed at the time of bidding. Where there is a change in the surviving members of a licensed partnership, limited liability company, or limited liability partnership, due to a reason other than the death of one (1) of the partners, the
remaining or succeeding member or members are required to file an application for an original license. (3-20-04)

301. -- 399. (RESERVED)

400. CERTIFICATES -- DISPLAY AND POSSESSION.
Licensee must sign and display the license certificate issued to him in his main office or chief place of business and must furnish satisfactory evidence of the possession of a license certificate and the current renewal thereof upon the administrator’s demand. (3-20-04)

401. LICENSE NUMBER ON BIDS.
Licensee must place his license number on any and all bids submitted or contracts entered into, for any public works projects in the state of Idaho. (7-1-93)

402. CHANGES IN LICENSE CERTIFICATE.
When any change in the license certificate has been approved by the Board, a new license certificate will be issued. (3-20-04)

403. -- 499. (RESERVED)

500. PROCEEDINGS FOR DISCIPLINARY ACTIONS.
The procedure for disciplinary actions and contested cases is as provided in IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” the Administrative Procedure Act, as found in Title 67, Chapter 52, Idaho Code, Sections 54-1915 through 54-1919, Idaho Code, and these rules. (3-20-04)

501. FORMS.
The complaint, citation, answer, notice of hearing, decision and order of the administrator and other related documents must be filed in the form and manner prescribed in these rules, in IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” and the Administrative Procedure Act. (3-20-04)

502. TECHNICALITIES OF FORM.
The administrator may, during any hearing or proceeding waive any technicalities of form not deemed necessary in the circumstances. (3-20-04)

503. HEARINGS.
The general procedure for hearings before the administrator and the Board is as prescribed in these rules and Title 67, Chapter 52, Idaho Code. (3-20-04)

01. Notes. Any interested persons may request, in writing, five (5) days before any scheduled hearing in a contested case that the oral proceedings thereof be taken in the form of stenographic notes to be transcribed at his own expense. (7-1-93)

02. Stipulations. If the parties can agree upon any facts, issues or questions to be presented to the Board, appropriate stipulations may be made. (7-1-93)

03. Continuance. In the event a hearing cannot be completed within the time allotted, the Board may, in its discretion, continue same to a subsequent meeting as it deems necessary for proper consideration of the purpose for the hearing. (7-1-93)

04. Procedure. The Board reserves the right to amend, modify or repeal all or any part of the above procedure or to dispense with any part thereof, at any hearing before the Board, as it may deem necessary in the circumstances. (7-1-93)

504. -- 599. (RESERVED)

600. CONSTRUCTION MANAGER EXAMINATIONS.
If the applicant fails an examination, the applicant may take the examination a second time. A grade of at least seventy-five percent (75%) is required to pass each section of the examination. If the applicant fails to score a passing
grade, the applicant must pass all failed sections within one (1) year of the initial test date. If the applicant fails to achieve a passing grade in each individual section on the second examination, the applicant must wait one (1) full year before taking the examination again. The applicant must then take and pass all sections of the examination (receiving no credit for sections successfully completed during the previous year).

(3-20-04)

601. -- 999. (RESERVED)
LEGAL AUTHORITY.
This chapter is adopted in accordance with Sections 54-5001 and 54-5005(2), Idaho Code. (4-11-06)

TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 07.07.01, “Rules Governing Installation of Heating, Ventilation, and Air Conditioning Systems, Division of Building Safety” (HVAC Rules). (3-16-04)

02. Scope. These rules establish the minimum standards for heating, ventilation, and air conditioning (HVAC) installation practice, certification, registration, and educational programs. (3-16-04)

WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201, Idaho Code, this agency may have written statements that pertain to the interpretations of the rules of this chapter, or to compliance with the rules of this chapter. Any such documents are available for public inspection and copying at the Idaho Division of Building Safety offices. (3-29-17)

ADMINISTRATIVE APPEALS.
IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” Section 100, et seq., applies to contested cases, in addition to IDAPA 07.07.01, “Rules Governing Installation of Heating, Ventilation, and Air Conditioning Systems, Division of Building Safety” and the provisions of Title 54, Chapter 50, Idaho Code. (3-16-04)

ADOPTION AND INCORPORATION BY REFERENCE OF THE INTERNATIONAL MECHANICAL CODE, 2012 EDITION.

01. International Mechanical Code. The 2012 Edition, including appendix “A,” (herein IMC) is adopted and incorporated by reference with the following amendments: (3-20-14)

a. Where differences occur between the IMC and Title 54, Chapter 50, Idaho Code and IDAPA 07, Title 07, the provisions in Idaho Code and IDAPA rules apply. (4-11-06)

b. All references to the International Plumbing Code (IPC) are construed as referring to the Idaho State Plumbing Code (ISPC) as adopted and amended by the Idaho State Plumbing Board. (3-20-14)

c. All references to the International Code Council Electrical Code (ICC EC) are construed as referring to the National Electrical Code (NEC) as adopted and amended by the Idaho State Electrical Board. (4-11-06)

d. Section 109. Delete. (7-1-10)

e. Section 202 Definitions. Delete the definitions provided in the code for the terms identified herein this paragraph and replace with the following: (3-29-17)

i. Light-Duty Cooking Appliance. Light-duty cooking appliances include gas and electric ovens (including standard, bake, roasting, revolving, retherm, convection, combination convection/steamer, countertop conveyerized baking/finishing, deck, pastry, and electric and gas conveyor pizza ovens), electric and gas steam jacketed kettles, electric and gas pasta cookers, electric and gas compartment steamers (both pressure and atmospheric) and electric and gas cheesemelters. (3-29-17)

ii. Medium-Duty Cooking Appliance. Medium-duty cooking appliances include electric discrete element ranges (with or without oven), electric and gas hot-top ranges, electric and gas griddles, electric and gas
double sided griddles, electric and gas fryers (including open deep fat fryers, donut fryers, kettle fryers and pressure fryers), electric and gas tilting skillets (braising pans) and electric and gas rotisseries. (3-29-17)

f. Section 401.1 Scope. Add the following: Exception: The principles specified in ASHREA 62-2010 may be used as an alternative to this chapter to demonstrate compliance with required ventilation air for occupants. (4-7-11)

g. Section 504.6.1 Material and size. Add the following exception: Dryer duct may be constructed of 0.013 (30 gauge) or equivalent if prefabricated 0.016 (28 gauge) ducts and fittings are not available. (3-20-14)

h. Table 603.4 Duct Construction Minimum Sheet Metal Thickness for Single Dwelling Units. Add the following exception to the Table: Round duct, enclosed rectangular ducts and fittings less than fourteen (14) inches may be constructed of 0.013 (30 gauge) or equivalent if prefabricated 0.016 (28 gauge) ducts and fittings are not available. (3-20-14)

005. ADOPTION AND INCORPORATION BY REFERENCE OF THE INTERNATIONAL FUEL GAS CODE, 2012 EDITION.

01. International Fuel Gas Code. The 2012 Edition, including appendixes “A, B, C, and D,” (herein IFGC) is adopted and incorporated by reference with the following amendments: (3-20-14)

a. Where differences occur between the IFGC and Title 54, Chapter 50, Idaho Code and IDAPA 07, Title 07, the provisions in Idaho Code and IDAPA rules apply. (4-11-06)

b. All references to the International Plumbing Code (IPC) are construed as referring to the Idaho State Plumbing Code (ISPC) as adopted and amended by the Idaho State Plumbing Board. (3-20-14)

c. All references to the International Code Council Electrical Code (ICC EC) are construed as referring to the National Electrical Code (NEC) as adopted and amended by the Idaho State Electrical Board. (4-11-06)

d. Section 109. Delete. (7-1-10)

e. Section 406.4. Change the last sentence to: Mechanical gauges used to measure test pressure must have a range such that the highest end of the scale is not greater than two (2) times the test pressure nor lower than one and one-half (1.5) times the test pressure. (4-11-06)

f. Section 406.4.1. Test Pressure. Not less than twenty (20) psig (140kPa gauge) test pressure is required for systems with a maximum working pressure up to ten (10) inches water column. For systems with a maximum working pressure between ten (10) inches water column and ten (10) psig (70kPa gauge); not less than sixty (60) psig (420kPa gauge) test pressure is required. For systems over ten (10) psig (70kPa gauge) working pressure, minimum test pressure may be no less than six (6) times working pressure. (4-11-06)

g. Section 406.4.2. The test duration may not be less than twenty (20) minutes. (4-11-06)

h. Section 408.4. Sediment Trap. Delete the last sentence and replace it with the following: Illuminating appliances, ranges, clothes dryers, outdoor grills, decorative vented appliances for installation in vented fireplaces, and gas fireplaces need not be so equipped. (4-7-11)

i. Add a new section 503.4.1.2 as follows: Testing. All plastic pipe within a dwelling used for venting flue gases must be tested at five (5) psi for fifteen (15) minutes. (4-4-13)

j. Section 505.1.1. Addition. An interlock between the cooking appliance and the exhaust hood
system is not be required for appliances that are of the manually operated type and are factory equipped with standing pilot burner ignition systems.

(4-11-06)

006. ADOPTION AND INCORPORATION BY REFERENCE OF PART V (MECHANICAL) AND PART VI (FUEL GAS) OF THE INTERNATIONAL RESIDENTIAL CODE FOR ONE (1)- AND TWO (2)-FAMILY DWELLINGS, 2012 EDITION.

01. Part V (Mechanical) and Part VI (Fuel Gas) of the International Residential Code for One (1)- and Two (2)-Family Dwellings. The 2012 Edition, including appendices “A, B, C, and D,” (herein IRC) is adopted and incorporated by reference with the following amendments:

(3-20-14)

a. Where differences occur between the IRC and Title 54, Chapter 50, Idaho Code, and IDAPA 07, Title 07, Chapter 01, the provisions in Idaho Code and IDAPA rules apply. (4-7-11)

b. All references to the International Plumbing Code (IPC) are construed as referring to the Idaho State Plumbing Code (ISPC) as adopted and amended by the Idaho State Plumbing Board. (3-20-14)

c. All references to the International Code Council Electrical Code (ICC EC) are construed as referring to the National Electrical Code (NEC) as adopted and amended by the Idaho State Electrical Board. (4-7-11)

d. Add the following as section M1201.3 and section G2402.4 (201.4): Alternative materials, design and methods of construction equipment. The provisions of this part of the code are not intended to prevent the installation of any material or to prohibit any design or method of construction not specifically prescribed by this code, provided that any such alternative has been approved. An alternative material, design or method of construction must be approved where the authority having jurisdiction finds that the proposed design is satisfactory and complies with the intent of the provisions of this code, and that the material, method or work offered is, for the purpose intended, at least the equivalent of that prescribed in this code. Compliance with the specific performance-based provisions of this part of the code in lieu of specific requirements of this code will also be permitted as an alternate. (4-4-13)

e. Add the following as section M1201.3.1 and section G2402.4.1 (201.4.1): Tests. Whenever there is insufficient evidence of compliance with the provisions of this part of the code, or evidence that a material or method does not conform to the requirements of this part of the code, or in order to substantiate claims for alternative materials or methods, the authority having jurisdiction has the authority to require tests as evidence of compliance to be made at no expense to the jurisdiction. Test methods are as specified in this code or by other recognized test standards. In the absence of recognized and accepted test methods, the authority having jurisdiction approves the testing procedures. Tests must be performed by an approved agency. Reports of such tests must be retained by the authority having jurisdiction for the period required for retention of public records. (4-4-13)

f. Add the following as section M1203.1: Carbon monoxide alarms. For new construction, an approved carbon monoxide alarm must be installed outside of each separate sleeping area in the immediate vicinity of the bedrooms in dwelling units within which fuel-fired appliances are installed and in dwelling units that have attached garages. (4-4-13)

g. Add the following as section M1203.2: Where required in existing dwellings. Where work requiring a permit occurs in existing dwellings that have attached garages or in existing dwellings within which fuel-fired appliances exist, carbon monoxide alarms must be provided in accordance with Subsection 006.01.f. of these rules. (4-4-13)

h. Add the following as section M1203.3: Alarm requirements. Single station carbon monoxide alarms must be listed as complying with UL 2034 and must be installed in accordance with this code and the manufacturer’s installation instructions. (4-4-13)
i. Section M1502.4.1 Material and size. Add the following exception: Dryer duct may be constructed of 0.013 (30 gauge) or equivalent if prefabricated 0.016 (28 gauge) ducts and fittings are not available. (3-20-14)

j. Delete Section M1502.4.2 Duct Installation and replace with the following: Exhaust ducts must be supported at four (4) foot (1.219 mm) intervals and secured in place. The insert end of the duct must extend into the adjoining duct or fitting in the direction of airflow. Ducts must not be joined with screws or similar fasteners that protrude into the inside of the duct. (3-20-14)

k. Table M1601.1.1 (2) Gauges of Metal Ducts and Plenums Used for Heating or Cooling. Add the following exception: Round duct, enclosed rectangular ducts and fittings less than fourteen (14) inches may be constructed of 0.013 (30 gauge) or equivalent if prefabricated 0.016 (28 gauge) ducts and fittings are not available. (3-20-14)

l. Section G2417.4 (406.4). Change the last sentence to: Mechanical gauges used to measure test pressure must have a range such that the highest end of the scale is not greater than two (2) times the test pressure nor lower than one and one-half (1.5) times the test pressure. (4-7-11)

m. Section G2417.4.1 (406.4.1). Test Pressure. Not less than twenty (20) psig (one hundred forty (140) kPa gauge) test pressure is required for systems with a maximum working pressure up to ten (10) inches water column. For systems with a maximum working pressure between ten (10) inches water column and ten (10) psig (seventy (70) kPa gauge), not less than sixty (60) psig (four hundred twenty (420) kPa gauge) test pressure is required. For systems over ten (10) psig (seventy (70) kPa gauge) working pressure, minimum test pressure may be no less than six (6) times working pressure. (4-7-11)

n. Section G2417.4.2 (406.4.2). The test duration may not be less than twenty (20) minutes. (4-7-11)

o. Add a new section G2427.4.1.2 as follows: Testing. All plastic pipe within a dwelling used for venting flue gases must be tested at five (5) psi for fifteen (15) minutes. (4-4-13)

02. Availability of the International Residential Code for One (1)- and Two (2)-Family Dwellings. The 2012 Edition is available at the Division of Building Safety offices located at 1090 E. Watertower St., Suite 150 Meridian, Idaho 83642, 1250 Ironwood Dr., Ste. 220, Coeur d’Alene, Idaho 83814, and 2055 Garrett Way, Building 1, Suite 4, Pocatello, Idaho 83201. (3-20-14)

007. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS. The principal place of business of the Division of Building Safety, HVAC Program is located at 1090 E. Watertower Street, Suite 150, Meridian, Idaho. The office is open from 8 a.m. to 5 p.m., except Saturday, Sunday, and legal holidays. The mailing address is: Division of Building Safety, HVAC Program, 1090 E. Watertower Street, Suite 150, Meridian, Idaho 83642. The office telephone number is (208) 334-6180 and the facsimile number is (208) 855-0768. (4-4-13)

008. FILING OF DOCUMENTS. All written communications and documents that are intended to be part of an official record for decision in a rulemaking or contested case, must be filed with the administrator of the Division. Communications and documents must be filed by mail, hand-delivery, or by facsimile transmission. One (1) original must be filed with the administrator, and one (1) copy must be submitted to the opposing parties. Whenever documents are filed by facsimile transmission, originals must be deposited in the mail the same day or hand-delivered the following business day to the administrator and opposing parties. (3-16-04)

009. PUBLIC RECORDS ACT COMPLIANCE. These rules were promulgated in accordance with the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code. These rules and all records of the HVAC board are subject to the provisions of the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (3-16-04)

010. CHANGES IN NAME AND ADDRESS -- ADDRESS FOR NOTIFICATION PURPOSES.
01. **Change of Name.** Whenever a change of name occurs for a certified contractor, journeyman, specialty journeyman, specialty contractor, registered apprentice, or specialty apprentice, the HVAC board must be notified immediately, in writing, of the change. Documentation confirming the change of name must be provided to the board on request. (4-11-06)

02. **Change of Address.** Whenever a change of mailing address occurs for a certified contractor, journeyman, specialty journeyman, specialty contractor, registered apprentice, or specialty apprentice, the HVAC board must be notified immediately, in writing, of the change. (4-11-06)

03. **Address for Notification Purposes.** The most recent mailing address on record with the HVAC board will be utilized for purposes of all written communication with certified contractors, journeymen, specialty journeymen, specialty contractors, registered apprentices, and specialty apprentices, including, but not limited to, notification of renewal and notices related to inspections. (4-11-06)

011. **MEETINGS.**
HVAC Board meetings are subject to the provisions of the Idaho Open Meeting Law, Title 67, Chapter 23, Idaho Code. (3-16-04)

012. **DEFINITIONS.**

01. **Administrator.** The administrator of the Idaho Division of Building Safety. (3-16-04)

02. **Board.** The Idaho Heating, Ventilation, and Air Conditioning (HVAC) Board. (3-16-04)

03. **Division.** The Idaho Division of Building Safety. (3-16-04)

04. **Additional Definitions.** Terms defined in Section 54-5003, Idaho Code, will have the same meaning when utilized in these rules. (3-16-04)

05. **Rules.** IDAPA 07.07.01, “Rules Governing Installation of Heating, Ventilation, and Air Conditioning Systems, Division of Building Safety.” (3-16-04)

013. **CERTIFICATES OF COMPETENCY -- ISSUANCE, RENEWAL, EXPIRATION -- REVIVAL.**

01. **Issuance.** Certificates of competency will be issued in such a manner as to create a renewal date that coincides with the birth month of the individual to whom the certificate is issued and allows for renewals every three (3) years. (4-6-05)

   a. Certificates of competency are issued for a period of no less than one (1) year and no more than (3) three years. For example: a qualified applicant who applies for a certificate of competency in August of year one (1), but whose birthday will not occur until March of year two (2) will be issued a certificate of competency renewable on the anniversary of the applicant’s birth month. (4-6-05)

   b. The fee for issuance of certificates of competency will be prorated based on the number of months for which the certificate is issued. (4-6-05)

02. **Renewal.** Certificates of competency will be renewed in such a manner as to create a staggered system of certificate renewals using the birth month of the individual to whom the certificate is issued as the expiration date. (4-6-05)

   a. Certificates of competency are renewed for a period of no less than one (1) year and no more than three (3) years. (4-6-05)

   b. The fee for renewal of certificates of competency will be prorated based on the number of months for which the certificate is issued. (4-6-05)

03. **Expiration-Revival.** (4-6-05)
a. Certificates that are not timely renewed will expire on the last day of the month in which the renewal is due. (4-6-05)

b. Revived certificates will be issued in such a manner as to create a renewal date that coincides with the birth month of the applicant so as to create a staggered system of renewal. (4-6-05)

023. HVAC JOURNEYMAN CERTIFICATES OF COMPETENCY: REQUIREMENTS.

01. Experience. Demonstrate, to the satisfaction of the board, a minimum of four (4) years’ experience working in the trade, in compliance with the requirements of the state in which the applicant received his supervision, or as a registered HVAC apprentice making HVAC installations on the job under the supervision of a qualified HVAC journeyman. Notwithstanding the requirement that an HVAC apprentice demonstrate four (4) years of on-the-job work experience under the supervision of a qualified HVAC journeyman, any HVAC apprentice who successfully completes a Board-approved, full-time, one (1)-academic-year HVAC training course may receive credit for up to one (1) year of on-the-job work experience. (4-11-19)
IDAHO ADMINISTRATIVE CODE
Division of Building Safety

02. Education. Successfully complete any required apprenticeship training courses. (3-16-04)

03. Examination. Applicants for certification as HVAC journeymen must successfully complete the examination designated by the board. (3-16-04)
   a. Each HVAC apprentice who desires to take the HVAC journeyman examination must complete a Board-approved training course as described in Subsection 025.02 of these rules prior to the date of the examination and provide a certificate of completion with the apprentice’s application for examination. There is no minimum work experience requirement to be eligible to take the HVAC journeyman examination. (4-11-19)
   b. The Division will not issue a certificate of competency to an HVAC apprentice until the apprentice furnishes to the Division proof of satisfaction of the requirements contained in Subsection 023.01 of these rules and successful completion of the journeyman examination. (4-11-19)

04. Out of State Journeyman Applications. (3-24-17)
   a. Exhibition of a license issued by another recognized jurisdiction may be accepted as proof of meeting the experience and schooling requirements listed in Subsections 023.01 and 023.02 of these rules. An application for a journeyman certificate of competency from an individual previously licensed as a journeyman in another jurisdiction recognized by the Idaho HVAC Board must include satisfactory proof of licensure in such jurisdiction. The applicant must pay all applicable application and examination fees to the Division, and successfully complete the journeyman examination administered by the Division. (3-24-17)
   b. An application for a journeyman certificate of competency from an individual who has never been previously licensed as a journeyman in a jurisdiction recognized by the Idaho HVAC Board must include evidence that demonstrates that the applicant has four (4) years, defined as eight thousand (8,000) hours of HVAC work experience or a nature at least equivalent to that which a HVAC apprentice must perform in Idaho, as well as four (4) years of schooling equivalent to that which a HVAC apprentice must complete in Idaho. Alternatively, such an applicant may submit sufficient proof verifying eight (8) years, defined as a minimum of sixteen thousand (16,000) hours of HVAC work experience of a nature at least equivalent to that which a HVAC apprentice must perform in Idaho. Upon submission of sufficient proof of having completed such experience and schooling requirements, such applicant must also pay all applicable application and examination fees to the Division, and successfully complete the journeyman examination administered by the Division. (3-24-17)

024. HVAC HEARTH SPECIALTY JOURNEYMAN CERTIFICATES OF COMPETENCY LIMITATIONS: REQUIREMENTS.

03. **Supervision.** Work under the supervision of a certified HVAC journeyman. (4-11-06)

### 026. HVAC SPECIALTY APPRENTICE REQUIREMENTS FOR REGISTRATION.

**Requirements for HVAC Specialty Apprentice.** (4-11-06)

01. **Age.** Minimum of eighteen (18) years of age unless registered in a Bureau of Apprenticeship Training (BAT) certified HVAC training program. (4-11-06)

02. **Training.** Maintain enrollment in or successfully complete a training program approved by the board. (4-11-06)

03. **Supervision.** Work under the supervision of a certificated HVAC journeyman or certificated HVAC specialty journeyman. (4-11-06)

### 027. HVAC WASTE OIL HEATING SPECIALTY JOURNEYMAN CERTIFICATES OF COMPETENCY LIMITATIONS: REQUIREMENTS.

Certification as a waste oil heating specialty journeyman entitles the holder to install non-duct connected waste oil heaters. Waste oil heating specialty journeymen are limited to the maintenance, installation, and repair of the equipment, controls, and piping directly associated with the waste oil heater, tank, and burner only. Any plumbing, electrical, ducting, venting, or associated equipment beyond the waste oil heater, tank, and burner must be installed by others. Applicants for the waste oil heating specialty journeyman certificate of competency are required to meet the experience and examination requirements as defined in Section 027. (4-2-08)

01. **Experience.** Demonstrate to the satisfaction of the board, a minimum of one (1) year experience making waste oil heating installations under the supervision of a qualified HVAC journeyman or HVAC Waste Oil Heating specialty journeyman. (4-2-08)

02. **Examination.** Applicants for certification as HVAC waste oil specialty journeymen must successfully complete a waste oil burner manufacturers certification or examination as approved by the board. (4-2-08)

### 028. HVAC FUEL GAS PIPING SPECIALTY JOURNEYMAN CERTIFICATES OF COMPETENCY LIMITATIONS: REQUIREMENTS.

Certification as fuel gas piping specialty journeyman entitles the holder to install fuel gas piping only and does not make the final termination. Appliances and the associated gas piping, chimney, and vents must be installed by others. Fuel gas specialty journeymen are required to meet the experience requirement and either the education or examination requirement of Section 028 to receive a certificate of competency. (4-2-08)

01. **Experience.** Demonstrate, to the satisfaction of the board, a minimum of one (1) year experience working in the trade, in compliance with the requirements of the state in which the applicant received his supervision, or as a registered HVAC apprentice or registered HVAC specialty apprentice making HVAC installations on the job under the supervision of a qualified HVAC journeyman or qualified HVAC specialty journeyman. (4-2-08)

02. **Education.** Successfully complete a board approved training course(s), of a minimum of sixty (60) hours of education in fuel gas code and piping installation methods. (4-2-08)

03. **Examination.** Successfully complete an examination designated by the board. (4-2-08)

### 029. -- 049. (RESERVED)

### 050. HVAC PERMITS.

01. **Serial Number.** Each permit must bear a serial number. (3-16-04)
02. **HVAC Contractors and HVAC Specialty Contractors.** The Division will furnish permits to certified HVAC contractors and HVAC specialty contractors upon request. The serial numbers of such permits must be registered in the name of the HVAC contractor or HVAC specialty contractor to whom they are issued. Permits are not transferable. (3-16-04)

03. **Home Owners.** Home owners or a contract purchaser of residential property, making HVAC installations on their own residences, coming under the provisions of Section 54-5002, Idaho Code, must secure an HVAC permit by making application to the Division as provided in Section 54-5016, Idaho Code. (3-16-04)

04. **HVAC Contractors and HVAC Specialty Contractors.** HVAC contractors and HVAC specialty contractors must secure an HVAC permit by making application to the Division as provided in Section 54-5016, Idaho Code. (3-16-04)

05. **Transferring a Permit.** A HVAC permit may be transferred to another eligible party if such party provides to the Division written authorization signed and notarized by the original permit holder consenting to the transfer itself as well as assignment of all the responsibilities and conditions incorporated into the original permit issuance. A permit may be transferred to the owner of the property on which the HVAC work is to be performed and for which the permit was issued for such owners’ designated legal agent, in cases where the property owner has terminated their legal relationship with the HVAC contractor who originally obtained the permit. An administrative fee in the amount of forty-five dollars ($45) for the transfer of a permit will be assessed by the Division. (3-24-17)

06. **Refunds of Permits.** The administrator may authorize a refund for any permit fee paid on the following bases: (3-24-17)

   a. The administrator may authorize a refund of the entire permit fee paid when no work has been performed related to the installations or HVAC work covered by a permit issued by the Division. A lesser amount up to fifty percent (50%) of the permit fee amount may be refunded if work has commenced and the project is less than fifty percent (50%) complete as determined by the Division; and (3-24-17)

   b. The administrator will not authorize a refund of any permit fee paid except upon written application for such filed by the original permit holder or the property owner’s representative not less than one hundred eighty (180) days after the date the permit was issued. (3-24-17)

051. **FEES FOR HVAC INSPECTIONS.**
HVAC inspection fees are to cover the cost of HVAC inspections as provided by Section 54-5017, Idaho Code; any person, partnership, company, firm, association, or corporation making an HVAC installation must pay to the Division of Building Safety an inspection fee as provided in the following schedule: (3-26-08)

01. **New Residential - Single-Family Dwelling.** Includes all buildings with HVAC systems being constructed on each property.

(4-9-09)

02. **New Residential - Multi-Family Dwellings.**
03. **Existing Residential.** Sixty-five dollars ($65) plus ten dollars ($10) for each additional piece of HVAC equipment being installed up to a maximum of the corresponding square footage of the residential building.

04. **Other Installations Including Industrial and Commercial.** The inspection fees listed in this Section apply to any and all HVAC installations not specifically mentioned elsewhere in this schedule. The HVAC cost is the cost to the owner of all labor charges and all other costs that are incurred in order to complete the installation of any and all HVAC equipment and materials installed as part of the HVAC system.

   a. HVAC system cost not exceeding ten thousand dollars ($10,000): sixty dollars ($60) plus two percent (2%) of the total HVAC system cost.

   b. HVAC system cost over ten thousand dollars ($10,000) but not exceeding one hundred thousand dollars ($100,000): two hundred sixty dollars ($260) plus one percent (1%) of the HVAC system cost exceeding ten thousand dollars ($10,000).

   c. HVAC system cost over one hundred thousand dollars ($100,000): one thousand one hundred sixty dollars ($1,160) plus one half of one percent (.5%) of the HVAC system cost exceeding one hundred thousand dollars ($100,000).

   d. All fees calculated under this schedule must be calculated on the total HVAC cost of the job, and this figure must be shown on the permit.

05. **Requested Inspections** A fee of sixty-five dollars ($65) per hour or portion of an hour applies, with the requesting party responsible for all costs incurred in out-of-state travel.

06. **Additional Fees and Re-Inspection Fees.** A fee of sixty-five dollars ($65) per hour or portion of an hour applies to:

   a. Trips to inspect when the submitter of the permit had given notice to the Division of Building Safety that the work is ready for inspection and it is not, if the submitter has not accurately identified the work location, or if the inspector cannot gain access to make the inspection.

   b. Trips to inspect corrections required by the inspector as a result of the submitter improperly responding to a corrective notice.

   c. Each trip necessary to remove a red tag from the jobsite.

   d. When corrections have not been made in the prescribed time, unless an extension has been requested and granted.

   e. No permit - failure to post or send permit and required fee in the prescribed time will, at the discretion of the Division, result in the assessment of a double fee.

07. **Plan Check Fee.** Sixty-five dollars ($65) per hour or portion thereof.

052. -- 059. (RESERVED)
060. REQUIRED INSPECTIONS.
All work performed under a HVAC permit must be inspected by a designated, qualified, properly identified agent of the authority having jurisdiction to ensure compliance with Title 54, Chapter 50, Idaho Code, and IDAPA 07.07.01.

01. Request for Division of Building Safety Inspection.
   a. Inspection. Each permit holder must notify the Division at least one (1) day prior to the desired inspection, Sundays and holidays excluded, that the project is ready for inspection.
   b. Reinspection. If a reinspection is required after the final inspection, due to a failure to meet requirements of Title 54, Chapter 50, Idaho Code, and/or these rules, the permit holder will be charged a fee not to exceed the actual cost of each reinspection.

02. Inspection Tags. Inspectors certify to the permit holder that an inspection has been done by securely attaching the inspection tag in a prominent location.
   a. Final Inspection Tags. An inspection tag indicating that a final inspection has been performed is attached when the HVAC installation as specified on the permit is complete and conforms to the requirements of the code and rules.
   b. Inspection Tags for Unacceptable HVAC Installations. “Notice of Correction” inspection tags are attached to indicate that the HVAC installation is not acceptable and that corrections are required.
   c. Work-in-Progress Tag. An inspection tag indicating that a work-in-progress inspection has been performed is attached following inspection of ground work, rough-in work, or any portion of the installation that is to be covered or otherwise concealed before completion of the entire HVAC installation as specified on the permit.

061. INSPECTOR QUALIFICATIONS.
In accordance with Section 54-5021, Idaho Code, all mechanical inspectors in Idaho employed by the state or a local government must hold an inspector certification as a commercial or residential mechanical inspector, as required depending on the type of mechanical work being inspected. Mechanical inspectors must obtain the requisite certification from either the International Association of Plumbing and Mechanical Officials (IAPMO), the International Code Council (ICC), or other professional certifying body as approved by the board.

062. -- 069. (RESERVED)

04. **Supervision.** Any HVAC apprentice or specialty apprentice working without the required journeyman supervision or any HVAC contractor or industrial account employing apprentices without providing the required HVAC journeyman supervision is subject to a civil penalty of not more than two hundred dollars ($200) for the first offense and a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter. (3-30-07)

05. **Performance Outside Scope of License.** Any HVAC specialty contractor or specialty journeyman performing HVAC installations, alterations, or maintenance outside the scope of the specialty certification is subject to a civil penalty of not more than two hundred dollars ($200) for the first offense and a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter. (3-30-07)

06. **Fees and Permits.** Any person failing to pay applicable fees or properly post an HVAC permit for, or to request an inspection of, any installation, alteration, improvement, or extension of any piping, venting, ductwork, appliances and appurtenances in connection with any heating, ventilation, or air conditioning system or subsystems of such is subject to a civil penalty of not more than two hundred dollars ($200) for the first offense and a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter. (3-29-10)

07. **Corrections.** Any person who fails to make corrections in the time allotted in the notice on any HVAC installation as set forth in Section 54-5019, Idaho Code, is subject to a civil penalty of not more than two hundred dollars ($200) for the first offense and a civil penalty of not more than one thousand dollars ($1,000) for each offense thereafter. (3-30-07)

08. **Gross Violation.** In the case of continued, repeated, or gross violation of Title 54, Chapter 50, Idaho Code, or IDAPA 07.07.01, “Rules Governing Installation of Heating, Ventilation, and Air Conditioning Systems, Division of Building Safety,” a certification revocation will be initiated for certificated individuals under this chapter and non-certificated individuals is subject to prosecution by the appropriate jurisdiction under Idaho law. (3-30-07)

09. **Judicial Review.** Any party aggrieved by the final action of the board is entitled to a judicial review thereof in accordance with the provisions of Title 67, Chapter 52, Idaho Code. (3-30-07)

071. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
The Idaho Damage Prevention Board of the Division of Building Safety is authorized under Section 55-2203, Idaho Code, to promulgate rules consistent with the act for the administration of Title 55, Chapter 22, Idaho Code, to effectuate the purposes thereof. (3-24-17)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 07.10.01, “Rules Governing the Damage Prevention Board, Division of Building Safety.” (3-24-17)

02. Scope. These rules are applicable to underground facilities, and facility owners as established in Title 55, Chapter 22, Idaho Code. (3-24-17)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency may have written statements that pertain to the interpretation of the rules of this chapter, or to compliance with the rules of this chapter. Any such documents are available for public inspection and copying at cost at the Idaho Division of Building Safety offices. (3-24-17)

003. ADMINISTRATIVE APPEALS.

01. Governing Procedural Requirements. IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” Section 100, et seq., applies to contested cases, in addition to the provisions of Title 55, Chapter 22, Idaho Code. (4-11-19)

02. Appeal Bond. Upon notice of the imposition of training or a civil penalty, the notified party may contest the imposition of such before the Damage Prevention Board in accordance with Section 018 of these rules. An appeal bond in the amount of two hundred dollars ($200) must accompany the request for hearing to contest the matter. In the case of training, the Division of Building Safety will refund the bond if the contesting party appears at the hearing. In the case of a civil penalty, the Division will refund any portion of the bond not used to satisfy the penalty imposed by the Board or the entire bond if the contesting party prevails at the hearing. (4-11-19)

004. INCORPORATION BY REFERENCE.
There are no documents incorporated by reference into these rules. (3-24-17)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS.
The principal place of business of the Damage Prevention Board is at the Division of Building Safety office located at 1090 E. Watertower Street, Suite 150, Meridian, Idaho 83642. The Damage Prevention Board may also be contacted at 1250 Ironwood Drive, Suite 220, Coeur d’Alene, Idaho 83814, and at 2055 Garrett Way, Building 1, Suite 4, Pocatello, Idaho 83201. All locations are open from 8:00 a.m. to 5:00 p.m., except Saturday, Sunday and legal holidays. The telephone number of the office is (208) 334-3950. The facsimile number of the office is 1-877-810-2840. The Department website is http://dbs.idaho.gov. (3-24-17)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated according to the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (3-24-17)

007. DEFINITIONS.

01. Hand Digging. Any excavation involving non-mechanized tools or equipment that when used properly will not damage underground facilities. Hand digging includes, but is not limited to, hand shovel digging, manual post hole digging, vacuum excavation, or soft digging. (3-28-18)
02. **Locator.** A person who identifies and marks the location of an underground facility owned or operated by an underground facility owner. (4-11-19)

03. **Soft Digging.** Any excavation using tools or equipment that utilize air or water pressure as the direct means to break up soil or earth for removal by vacuum excavation. (3-28-18)

**008. FUNDING OF BOARD ACTIVITIES.**

Each owner of an underground facility must pay a fee of ten cents ($0.10) each time such owner receives notice from a one-number notification service as required by Section 55-2205, Idaho Code. The fee assessed upon the underground facility owner is collected by the one-number notification service, and is payable to the board in accordance with the following schedule:

01. **Fee Assessed.** The fee will be assessed on an underground facility owner for each notification issued by the one-number notification service to the underground facility owner, with the one-number notification service required to submit a summary of the number of notices issued in a given month to the board no later than fifteen (15) days following the end of the month in which the notices were issued. (3-24-17)

02. **Payment Submission.** The one-number notification service must submit payment to the board for all payments received from underground facility owners no later than seventy (70) days following the end of the month in which the notices were issued to the facility owners. In those cases where the payment from the underground facility owner is received after the seventy-day (70) period, the one-number service must include late payments in its next payment to the board. (4-11-19)

03. **Notices Issued.** The one-number notification service must also submit a detailed list of notices issued, including the facility owner’s contact information, for which payment has not been received within the seventy (70) day period following the end of the month in which the notices were issued. Such list must be updated on a monthly basis to reflect the status of all past-due payments due from underground facility owners that have not been received. (4-11-19)

**009. AUDIT OF ONE-NUMBER SERVICE RECORDS.**

The board has the right to review and audit the payment records of any one-number notification service relating to the collection of the ten cent ($0.10) fee imposed on underground facility owners. In the event the board wishes to conduct a review and/or audit of a one-number notification service, the board will provide no less than a five (5) business day advance notice of the intended action. The board may delegate any responsibilities contained herein this chapter to the Division of Building Safety. (3-24-17)

**010. -- 014. (RESERVED)**

**015. EDUCATIONAL AND TRAINING MATERIALS.**

01. **Approval of Training and Educational Programs.** The Damage Prevention Board approves and provides public notice through the Division of Building Safety acceptable training courses or programs and educational materials on relevant underground facility damage prevention topics pertaining to safe excavation, locating and marking of facilities, determining facility damage, emergency procedures, excavator downtime, pre-marking of intended excavation areas, and appropriate procedures when encountering unmarked facilities. (3-28-18)

02. **Scope of Training and Educational Programs.** Such training programs and educational materials must relate to various aspects of underground facility damage prevention, and must contain practices, information, and standards generally accepted and recognized among stakeholders in Idaho. (3-28-18)

03. **Accessibility of Training and Educational Programs.** The Division of Building Safety must maintain a database of approved educational materials and training programs, and periodically update such as may be required by the board. The Division of Building Safety will cause such educational materials and the identity of such training programs to be placed on its website so that interested persons may view it online. (3-28-18)

04. **Purposes of Training and Educational Programs.** Such programs may be used for general
educational use by stakeholders or for remedial training that may be ordered by the board or the administrator pursuant to Section 55-2211, Idaho Code. Should completion of a training course by a stakeholder be required as a result of a violation of this chapter in accordance with Section 55-2211, Idaho Code, The Division of Building Safety must record and maintain validation of successful completion of any such required training for two (2) years from date of completion. (3-28-18)

016. ADEQUACY OF FACILITY OWNERS LOCATING UNDERGROUND FACILITIES.
The board reviews all stakeholder complaints of violations related to underground facility line locating, as well as generally accepted practices and procedures related to locating. Stakeholders must take remedial actions to improve line-locating performance and must monitor and report performance improvements to the board. (3-28-18)

017. IMPROVEMENT OF TECHNOLOGY AND COMMUNICATIONS BY STAKEHOLDERS.

01. Adoption of Technology and Communications Materials. On an annual basis the board reviews and adopts any available technology and communications materials which promote effective underground facility locating. The board will make available any such appropriate technology and communications materials as it may determine to all stakeholders on the Division of Building Safety website at http://dbs.idaho.gov. (3-28-18)

02. Availability of Technology and Communications Materials. The board may request that stakeholders provide it with information or data related to procedures, methods, or technologies utilized by such stakeholders to enhance communications among other stakeholders, or that enhances underground facility locating capabilities, or enhances the stakeholder’s ability to gather and analyze data related to underground facility damage. The board will review such technologies, methods, or materials adopted by stakeholders to ensure that such use is adequate, as well as to provide stakeholders with best practices. The Division of Building Safety must maintain an approved database of such referenced stakeholder data for public viewing and analysis on its website. (3-28-18)

018. DAMAGE PREVENTION COMPLAINTS.

01. Complaint Forms. Persons may submit written complaints to the administrator regarding an alleged violation of Title 55, Chapter 22, Idaho Code, on such forms as required by the Division of Building Safety. Forms are available at the Division of Building Safety offices located at 1090 E. Watertower St., Suite 150, Meridian, Idaho 83642; 1250 Ironwood Dr., Ste. 220, Coeur d’Alene, Idaho 83814; and 2055 Garrett Way, Building 1, Suite 4, Pocatello, Idaho 83201. They may also be accessed electronically on the Division of Building Safety’s website at http://dbs.idaho.gov/. Notice of the complaint may be served concurrently on the alleged violator by the person submitting the complaint. Verifiable proof of such notification of a complaint provided to the alleged violator must also be provided to the administrator. (3-28-18)

02. Contents. Complaints must include the name and address of the complainant and the alleged violator, the date and location of the alleged violation, as well as a complete description of the nature of the violation alleged, including whether it resulted in damage to an underground facility or an excavator downtime event. Complainants may also provide additional documentation in support of a complaint. Complaints must be accompanied by a sworn declaration from the complainant declaring that the information contained therein is true and accurate. The administrator may request additional information or documents in support of the complaint. Complaint forms are subject to Title 74, Chapter 1, Idaho Code. (3-28-18)

03. Complaint Procedures and Timelines. The following timelines and procedure govern the process of filing and administering complaints related to violations of Title 55, Chapter 22, Idaho Code, and the rules of the Damage Prevention Board. (3-28-18)

a. Initial Filing. Complaints must be filed with the administrator not later than thirty (30) days from the date of the alleged violation giving rise to the complaint or from the date the violation should have reasonably been discovered by the complainant, whichever is later. (3-28-18)

b. Response. The administrator must notify the alleged violator of the complaint and request a response and any additional information from the alleged violator as may be necessary. The alleged violator may provide a response to the administrator within thirty (30) days from the date they are notified of the complaint by the administrator. (3-28-18)
c. Recommendation. Within thirty (30) days of receipt of the response, or if no response is received, within fifteen (15) days from the deadline for filing a response, the administrator must notify the complainant and the alleged violator of his recommended course of action. The administrator may extend the period of time in which to determine a recommended course of action, and so notify the parties, if he determines it is necessary to further review or investigate the complaint. (3-28-18)

d. Contest. In accordance with Section 55-2211, Idaho Code, the alleged violator has the right to contest the imposition of a civil penalty before the damage prevention board. Notice of such contest must be provided by the alleged violator not more than thirty (30) days after receipt of the administrator’s recommended course of action. Recommendations of the administrator regarding complaints may be reviewed by the board at its next regularly scheduled meeting. (3-28-18)

019. CLAIMS AND REPORTS OF DAMAGE OR EXCAVATOR DOWNTIME.

01. Claims. Claims for the cost of repairs for damaged underground facilities are enforced by the affected underground facility owner in accordance with procedures as may be established by the facility owner, and in accordance with applicable law. Underground facility owners must provide notice to excavator contractors of such procedures, along with sufficient information supporting the basis for the amount of a claim within six (6) months from the date of the event giving rise to the claim or from the date the event should have reasonably been discovered by the underground facility owner, whichever is later. (3-28-18)

02. Reports. Underground facility owners and excavators who observe, suffer or cause damage to an underground facility or observe, suffer or cause excavator downtime related to a failure of one (1) or more stakeholders to comply with applicable damage prevention statutes or regulations must report such information to the board on forms or by such method adopted for such by the board. Forms are available at the Division of Building Safety offices located at 1090 E. Watertower St., Suite 150, Meridian, Idaho 83642; 1250 Ironwood Dr., Ste. 220, Coeur d’Alene, Idaho 83814; and 2055 Garrett Way, Building 1, Suite 4, Pocatello, Idaho 83201. They may also be accessed electronically on the Division’s website at http://dbs.idaho.gov/. (3-28-18)

020. CIVIL PENALTIES.
The Idaho Damage Prevention Board is authorized under Section 55-2203(17), Idaho Code, to establish by administrative rule the fines to be paid for civil penalties issued for violations of Title 55, Chapter 22, Idaho Code. To the extent authorized by Section 55-2211, Idaho Code, the acts described in this section subject the violator to a civil penalty of not more than one thousand dollars ($1,000) for a second offense and a civil penalty of not more than five thousand dollars ($5,000) for each offense that occurs thereafter within eighteen (18) months from an earlier violation, and where facility damage has occurred. (3-28-18)

01. Violations of Title 55, Chapter 22, Idaho Code. The following acts subject a person to civil penalties: (3-28-18)

a. Pre-marking Excavation Site. Any person who fails to adequately pre-mark onsite the path of proposed excavation as reasonably required under the circumstances in accordance with Section 55-2205(1)(b), Idaho Code, is subject to a civil penalty. (3-28-18)

b. Notice of Excavation. Any person who fails to provide notice of the scheduled commencement of excavation to any underground facility owner through a one-number notification service, or directly to a facility owner, as applicable within the prescribed time as required by Section 55-2205(1)(c), Idaho Code, is subject to a civil penalty. (3-28-18)

c. One-Number Notification to Facility Owner. A one-number notification service that fails to provide notice of a scheduled excavation upon notification from an excavator is subject to a civil penalty. (3-28-18)

d. Failure to Locate or Mark. An underground facility owner, owner’s agent, or locator who fails to locate or mark underground facilities when responsible to do so in accordance with Section 55-2205(2), Idaho Code, or within the prescribed time provided therein, is subject to a civil penalty. (4-11-19)
e. Failure to Wait for Locate or Maintain Markings. An excavator who commences excavation prior to waiting the time prescribed by Section 55-2205(2), Idaho Code, for all known facilities to be located and marked, or an excavator who fails to maintain the markings of underground facilities previously so marked subsequent to the commencement of excavation in accordance with Section 55-2205(2), Idaho Code, is subject to a civil penalty. (3-28-18)

f. Failure to Cease Excavation or Report Unidentified Facilities. An excavator who does not cease excavation in the immediate vicinity upon the discovery of underground facilities therein, whether such facilities be active or abandoned, which were not previously identified or located with reasonable accuracy, or does not notify the owner or operator of the facilities, or a one-number notification service in accordance with Section 55-2205(4), Idaho Code, is subject to a civil penalty. (3-28-18)

g. Failure to Identify Facilities in Contract Documents. Project owners who fail to indicate in bid or contract documents the existence of underground facilities known by the owner to be located within the proposed area of excavation in accordance with Section 55-2207, Idaho Code, is subject to a civil penalty. (3-28-18)

h. Precautions to Avoid Damage. An excavator who does not engage in any of the activities required by Section 55-2207(2), Idaho Code, or use reasonable care to avoid damage to underground facilities is subject to a civil penalty. (3-28-18)

i. Reporting of Damage to Facility. An excavator who fails to report to a facility owner and a one-number notification service any contact or damage to an underground facility caused by such excavator in the course of excavation, or fails to alert an appropriate authority upon an actual breach of a facility which causes the release of gas or hazardous liquids as required by Section 55-2208(1), Idaho Code, is subject to a civil penalty. (3-28-18)

j. Reporting to the Board. An excavator or underground facility owner who observes, suffers or causes damage to an underground facility or excavator downtime related to the failure of one (1) or more stakeholders to comply with the damage prevention regulations and fails to report such information to the board as required by Section 55-2208(5), Idaho Code, is subject to a civil penalty. (3-28-18)

k. Failure to Participate. Any person who fails to participate or cooperate with a one-number notification service as required by Section 55-2206, Idaho Code, is subject to a civil penalty. (3-28-18)

02. Second Offense. For the purpose of this section, a second offense is deemed to be any violation of Title 55, Chapter 22, Idaho Code, for which a civil penalty may be imposed in accordance with this section which occurs within eighteen (18) months of a previous violation of any provision. (3-28-18)

03. Multiple Violations. Each day that a violation of Title 55, Chapter 22, Idaho Code, occurs for which a civil penalty may be imposed as provided herein constitutes a separate offense. (3-28-18)

04. Judicial Review. Any party aggrieved by the final action of the Idaho Damage Prevention Board is entitled to a judicial review thereof in accordance with the provisions of Title 67, Chapter 52, Idaho Code. (3-28-18)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 08, rules of the Idaho State Board of Education:

- **IDAPA 08**, State Board of Education
  - 08.01.02, Rules Governing the Postsecondary Credit Scholarship Program
  - 08.01.10, Idaho College work Study Program
  - 08.01.11, Registration of Postsecondary Education Institutions and Proprietary Schools
  - 08.01.13, Rules Governing the Opportunity Scholarship Program
  - 08.02.01, Rules Governing Administration, adds required Sections 000-006
  - 08.02.02, Rules Governing Uniformity
  - 08.02.03, Rules Governing Thoroughness
  - 08.02.04, Rules Governing Public Charter Schools
  - 08.02.05, Rules Governing Pay for Success Contracting
  - 08.03.01, Rules of the Public Charter School Commission
  - 08.04.01, Rules of the Idaho Digital Learning Academy
  - 08.05.01, Rules Governing Seed and Plant Certification

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Tracie Bent, Chief Planning and Policy Officer, at (208) 332-1582 or tracie.bent@osbe.idaho.gov.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

007. -- 009. **(RESERVED)**

010. **DEFINITIONS.**
For the purposes of this section the following definitions apply: (3-29-17)

01. **Academic Merit Based Scholarship.** A scholarship in which a minimum academic standard must
be met to be eligible for the scholarship.  

02. Board. Idaho State Board of Education.  

03. Business Scholarship. A competitive scholarship awarded from a business entity registered with the Idaho Secretary of State or other state or federal entity that registers businesses and whose purpose is not postsecondary education nor is the entity affiliated with a postsecondary educational institution; or an association representing businesses as described herein.  

04. Executive Director. Executive Director for the Idaho State Board of Education.  

05. Grade Point Average (GPA). Average secondary grade earned by a student, figured by dividing the grade points earned by the number of credits attempted.  

06. Industry Scholarship. A competitive scholarship in which the recipient must enter into a program of study for a specific occupational area.  

011. -- 100. (RESERVED)  

101. APPLICATION PROCESS.  

01. Initial Applications. An eligible student must complete and submit the scholarship program application to the Board electronically on or before the date specified in the application, but not later than June 1 for guaranteed consideration of an award during the proceeding fall academic term. An applicant without electronic capabilities may submit an application on the form established by the Executive Director through the United States Postal Service. Applications received, or postmarked after March 1 of each year must be received at least 60 days prior to the start of the term for which the applicant has enrolled for consideration during the next academic term.  

02. Communication with State Officials. Failure to respond within the time period specified will result in cancellation of the application or forfeiture of the scholarship unless extenuating circumstances are involved and approved by the Executive Director or designee.  

030. SCHOLARSHIP AWARDS.  

01. Selection Process. Scholarship awards will be based on the availability of scholarship program funds. In the event more eligible applications are received than funds are available, those applications received by June 1 of each year will be awarded based on their GPA ranking. Applications received after June 1 of each year will only be considered after all initial applications have been processed and awardees have accepted or rejected their awards, and will be based on their GPA ranking.  

02. Monetary Value of the Opportunity Scholarship. The monetary value of the award will be based on the maximum amount the applicant is eligible to receive based on the number of postsecondary credits accepted by the institution they attend and the amount of the matching scholarship for each year they are eligible. The award amount shall not be more than the matching merit based business or industry scholarship received by the applicant within the limits of the maximum eligible amount.  

03. Payment. Payment of scholarship award will be made in the name of the recipient and will be sent to the designated official at the eligible Idaho postsecondary educational institution in which the recipient is enrolled. The official must transmit the payment to the recipient student’s account within a reasonable time following receipt of the payment.  

04. Duration. Scholarships will be awarded on an annual basis and payments will correspond to academic terms, semesters, or equivalent units. In no instance will the entire amount of a scholarship be paid in advance to, or on behalf of, a scholarship recipient. The scholarship is valid for up to four (4) educational years from
the date the recipient graduated from high school. Awards are contingent on annual appropriations by the legislature and continued eligibility of the student. 

(3-29-17)

05. Eligibility. If a student receives a scholarship payment and it is later determined that the student did not meet all of the scholarship program eligibility requirements, then the student is considered in overpayment status, and the remaining program funds must be returned to the Office of the State Board of Education.

(3-29-17)

302. CONTINUING ELIGIBILITY.
To remain eligible for the scholarship, the recipient must comply with all of the provisions of the scholarship program and these rules, in addition to the following requirements.

(3-29-17)

01. Interruption of Continuous Enrollment. A student may request an interruption of continuous enrollment for eligible students due to military service in the United States armed forces, medical circumstances, or extenuating circumstances approved by the Executive Director. A scholarship recipient whose continuous enrollment is interrupted for more than four (4) months but less than two (2) years for any reason and who intends to re-enroll in an eligible Idaho postsecondary educational institution must file a letter of intent to withdraw no later than sixty (60) days prior to the first day of the academic term of the discontinued attendance to the Office of the State Board of Education. Failure to do so may result in forfeiture of the scholarship. In addition, the individual must file a statement with the Board declaring his intent to re-enroll as a full-time student in an academic or career-technical program in an eligible Idaho postsecondary educational institution for the succeeding academic year no later than thirty (30) days prior to the first day of the academic term in which the individual intends to re-enroll and within two (2) years of the approval of the request to withdraw. Failure to do so will result in forfeiture of the scholarship unless an extension has been granted. All requests for extension must be made sixty (60) days prior to the start of the succeeding academic year. At no time may the extension extend beyond the expiration period of the scholarship. At no time may the scholarship award eligibility be extended beyond four (4) years from the date the student graduated from high school.

100. PURPOSE OF THE IDAHO COLLEGE WORK STUDY PROGRAM.
The purpose of this program is to establish the administrative procedures necessary to implement a student financial and educational aid program as called for by Chapter 44, Title 33, Idaho Code. (7-1-93)

101. INSTITUTIONAL PARTICIPATION.
Eligible postsecondary institutions are defined by statute. In order to participate in the program during a specific fiscal year, eligible institutions shall: (7-1-93)
01. **Annual Application.** Submit to the Office of the State Board of Education an annual application on or before the November 1 preceding the beginning of the fiscal year. (7-1-93)

02. **Enrollment Form.** Submit to the Office of the State Board of Education a properly completed and accurate Student Enrollment Form (PSR-1) for the fall semester prior to the previous fiscal year. The required PSR-1 shall be submitted each February as directed by the Office of the State Board of Education. (4-4-13)

03. **Educational Need.** Eligible postsecondary institutions participating in the educational need, work experience portion of the work study program shall submit to the Office of the State Board of Education, on or before August 1 preceding the beginning of the academic year, requirements for determining educational need, in accordance with Section 33-4405, Idaho Code, and Section 8 of this chapter. (7-1-93)

102. **Allocation of Funds.** Funds appropriated to the Office of the State Board of Education for the Idaho College Work Study Program shall be allocated to participating institutions based on enrollment data submitted by each institution on the Student Enrollment Form (PSR-1) for the fall semester prior to the previous fiscal year of participation. The allocation shall be based on the appropriation for that fiscal year multiplied by an enrollment factor. The enrollment factor shall be calculated by dividing the headcount of resident degree-seeking students at the participating institutions by the total headcount of resident degree-seeking students for all participating institutions. (4-4-13)

103. **(Reserved)**

104. **Audit.** Participating institutions shall agree in advance to submit to regular, periodic audits by the legislative auditor and the internal auditor of the Office of the State Board of Education to ensure compliance with the statutes, rules, and policies governing the Idaho College Work Study Program, including provision of accurate enrollment information. (7-1-93)

105. **Distribution of Funds.** Funds allocated to participating institutions for a specific fiscal year by the Office of the State Board of Education shall be distributed to the institution during the fall term for the academic year. (4-4-13)

106. **Carryover Funds.** Participating institutions may carry over up to ten percent (10%) of the work study program funds received in one fiscal year to the next fiscal year, provided however, that any carryover funds shall be used exclusively in the work study program. Any unexpended funds in excess of the ten percent (10%) provided herein shall be returned to and redistributed by the Office of the State Board of Education. (4-4-13)

107. **Educational Need; Work Experience.**

01. **Purpose.** The purpose of the educational need portion of the work study program is to enable students, without regard to financial need, to gain valuable work and career work experience related to their field of study. (7-1-93)

02. **Determination of Educational Need.** Requirements for determining educational need shall be formulated by each participating institution, subject to review by the State Board of Education. In reviewing such requirements, the State Board of Education will consider the following minimum guidelines: (7-1-93)

   a. The requirement that the work experience be related to the student’s “field of study” shall mean the student’s declared major or minor or, if a vocational student, a specific vocational program for which the student is seeking a degree, certificate, or license. “Field of study” may also include a specific course or academic or vocational project which complements the student’s major, minor, or vocational program, provided the student obtains a written statement from an advisor or the professor or instructor of the specific course or project that the work experience proposed is related to, and will complement the major, minor, or vocational programs which the student is pursuing. (7-1-93)
b. The financial resources of the student, including but not limited to individual or family income, may not be considered in determining eligibility. (7-1-93)

c. In addition to the above, participating institutions which are controlled by sectarian organizations are subject to the following constitutional and statutory restrictions: (7-1-93)

i. No student may participate whose course of study is sectarian in nature or who is pursuing an educational program leading to a baccalaureate or other degree in theology or divinity. (7-1-93)

ii. Students at such participating institutions may participate only in the off-campus work experience portion of the program. (7-1-93)

iii. Off-campus employment may not be located at, or be performed on behalf of, a church, sectarian or religious organization, religious denomination, sect, or society, whether incorporated or unincorporated. (7-1-93)

100. RECOGNITION OF ACCREDITATION ORGANIZATIONS.

For purposes of registration of postsecondary educational institutions, the Board recognizes the regional and national accreditation organizations that are recognized by and in good standing with the United States Department of Education, and which accredit entire colleges or universities, and which do not accredit only courses or courses of study (such as specialized accreditation organizations). Further, the Board may recognize other accreditation organizations on a case-by-case basis. A request for recognition of other accreditation organizations for purposes of registration should be made to the Board’s Chief Academic Officer, who will review and evaluate the request with the input and advice of the Board’s Committee on Academic Affairs and Programs (CAAP). The Board will make a final decision based on such evaluation and review.

(4-4-13)
101. -- 200. (RESERVED)

201. THE BOARD MAY NOTIFY THE POSTSECONDARY EDUCATIONAL INSTITUTION OF ADDITIONAL INFORMATION REQUIRED.
If the Board is unable to determine the nature and activities of an institution on the basis of the information provided by the institution under this rule, then the Board may notify the institution of additional information that it will be required to provide in connection with the application for registration. (4-9-09)

01. Verification of Information. The Board may verify the accuracy of submitted information by inspection, visitation, or any other means it considers necessary. The applicant institution shall be responsible for any costs the Board incurs, including travel, associated with this review. (4-9-09)

02. Criteria for Approval of Registration. To be approved for registration, the institution must demonstrate that it is in compliance with Chapter 24, Title 33, Idaho Code and this rule. An institution must remain in compliance for the registration year. (4-9-09)

03. Public Information. All information submitted to the Board in connection with the application is subject to disclosure as set forth in the Public Records Act, Title 9, Chapter 3, Idaho Code. (3-29-12)

04. Certificate of Registration or Exemption.
   a. A certificate of registration will be issued to a postsecondary educational institution that has paid its registration fee and has been approved under this rule. A certificate evidencing initial registration will be effective the date it is issued, and continue through June 30 of the next succeeding year. A renewal certificate will be for the period July 1 through June 30 of the next succeeding year. No institution that is registered with the Board shall advertise or represent in any manner that it is accredited by the Board. An institution may only represent that it is “Registered with the Idaho State Board of Education.” Registration is not an endorsement of the institution or any of its courses, courses of study, or degrees. (4-7-11)
   b. An institution exempt from registration under these rules may request a certificate of exemption. (3-29-12)
   c. If a postsecondary educational institution wishes to offer additional courses, courses of study, or degrees during a registration year that were not included in its annual registration application to the Board, then the institution must submit a letter to the Board Office along with documentation of its accrediting agency’s approval of those specific curriculum changes. (4-7-11)

05. Disapproval and Appeal. If a postsecondary educational institution’s request for initial registration, or renewal of registration, is disapproved by the Board, then the institution may appeal such decision by submitting written request. The request must be in writing and made to the Board office within thirty (30) days of the date the institution is notified of the disapproval. (3-28-18)

06. Withdrawal of Approval.
   a. The Board may refuse to renew, or may revoke or suspend approval of, an institution’s registration by giving written notice and the reasons therefore to the institution. The institution may request a hearing relating to such decision under IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.” (4-9-09)
   b. Withdrawal of approval may be for one (1) or more of the following reasons:
      i. Violation of Chapter 24, Title 33, Idaho Code or this rule; (4-9-09)
      ii. Providing false, misleading, deceptive, or incomplete information to the Board; (4-9-09)
      iii. Presenting to prospective or current students information about the institution which is false, fraudulent, misleading, deceptive, or inaccurate in a material respect; (3-29-12)
iv. Refusing to allow reasonable inspection or to supply reasonable information after a written request by the Board Office has been received; or (3-29-12)

v. Loss of accreditation status. (3-29-12)

c. If any information contained in the application submitted by the institution becomes incorrect or incomplete, then the registered institution shall notify the Board office of such change within thirty (30) days. An institution that ceases operation during the course of a registration year shall immediately inform the Board Office of this event. (3-29-12)

202. -- 300. (RESERVED)

301. APPROVAL STANDARDS FOR REGISTRATION OF PROPRIETARY SCHOOLS. The Board and its designee accepts the responsibility for setting and maintaining approval standards for proprietary schools that plan to offer courses or a set of related courses in or from Idaho in order to protect consumers and to ensure quality educational programs are provided throughout the state. A school must meet all of the standards prior to issuance of a certificate of registration and the school must provide required evidence to document compliance with the standards as identified in the application form. A certificate of registration may be denied if all of the standards are not met. (4-9-09)

01. Standard I - Legal Status and Administrative Structure. The school must be in compliance with all local, state and federal laws, administrative rules, and other regulations applicable to proprietary schools. (4-9-09)

a. The school must have a clearly stated educational purpose that is consistent with the courses or a set of related courses under consideration for approval. (4-7-11)

b. The ownership of the school, its agents, and all school officials must be identified by name and title. (4-9-09)

c. Each owner, agent, instructor and/or school official must be appropriately qualified by the trade board (as applicable) to ensure courses are of high quality and the rights of students are protected. (3-29-12)

d. Written policies must be established to govern admissions and re-admission of dismissed students, hiring procedures, and working conditions; evaluation/assessment of all employees and instructional offerings; student and instructor rights and responsibilities; grievance procedures; approval of the curriculum and other academic procedures to ensure the quality of educational offerings. (4-7-11)

e. Procedures for assessing/evaluating the effectiveness of instruction must be established. Evaluation and assessment results must be used to improve courses or courses of study. (4-9-09)

f. All advertising, pamphlets, and other literature used to solicit students and all contract forms must accurately represent the purpose of the school, its courses or courses of study, anticipated job opportunities, and other relevant information to assist students in making an informed decision to enroll. Schools offering courses or courses of study which require clinical, practicum or internship components must provide students in writing information regarding the number of clinical, practicum or internship positions available and the location of said positions. The school must provide to each prospective student, newly-enrolled student, and returning student complete and clearly presented information indicating the school’s current completion and job placement rate. (4-4-13)

02. Standard II - Courses or Courses of Study. Instruction must be the primary focus of the school. All courses or courses of study must prepare students to enter employment upon completion of the program or prepare them for self-employment. (3-29-12)

a. The requirements for each course or courses of study must be defined clearly including applicable completion requirements or other requirements such as practicums and clinicals. Courses or courses of study must follow applicable trade or occupational board training curriculum standards or be designed using effective learning strategies for students, identifying and organizing all instructional materials and specialized facilities, identifying instructional assessment methods, and evaluating the effectiveness of the course offerings. Applicants must include
an attestation that courses or courses of study applicable to occupations, which are otherwise regulated, licensed, or registered with another state agency or state board, meet the regulating state agency or state board standards for licensure or certification at the time of application. The office of the state board of education does not review course or program curriculum. (3-28-18)

b. Written course descriptions must be developed for all courses or courses of study. Written course descriptions must be provided to instructors. Instructors are expected to follow course descriptions. A syllabus must be developed for each course and distributed to students at the beginning of the course. (3-29-12)

c. The school must assure that a course or courses of study will be offered with sufficient frequency to enable students to complete courses or courses of study within the minimum time for completion. (4-9-09)

d. The school must clearly state the cost of each course or courses of study and identify the payment schedule. This information, and the refund policy, must be given to students in writing. (3-29-12)

03. **Standard III - Student Support Services.** The school must have clearly defined written policies that are readily available to students. Policies must address students rights and responsibilities, grievance procedures, and define what services are available to support students. (3-29-12)

a. The admission of students must be determined through an orderly process established in a written policy using published criteria which must be uniformly applied. Admissions decisions must take into account the capacity of the student to grasp and complete the instructional training program and the ability of the school to handle the unique needs of the students it accepts. (3-29-12)

b. There must be a clearly defined policy to re-evaluate students dismissed from the school and, if appropriate, to readmit them. (3-29-12)

c. The school must establish and adhere to a clear and fair policy regarding due process in disciplinary matters for all students, given to each student upon enrollment in the school. The school must provide the name and contact information for the individual who is responsible for dealing with student grievances and other complaints and for handling due process procedures. (3-29-12)

d. Prior to enrollment, all prospective students must receive the following information in writing: (3-29-12)

i. Information describing the purpose, length, and objectives of the courses or courses of study; (4-9-09)

ii. Completion requirements for the courses or courses of study; (4-9-09)

iii. The schedule of tuition, fees, and all other charges and all expenses necessary for completion of the courses or courses of study; (4-9-09)

iv. Cancellation and refund policies; (4-9-09)

v. An explanation of satisfactory progress, including an explanation of the grading/assessment system; (4-9-09)

vi. The calendar of study including registration dates, beginning and ending dates for all courses, and holidays; (4-9-09)

vii. A complete list of instructors and their qualifications; (4-9-09)

viii. A listing of available student services; and (4-9-09)

e. Accurate and secure records must be kept for all aspects of the student record including, at minimum, admissions information, and the courses each student completed. (4-9-09)
04. **Standard IV - Faculty/Instruction Qualifications and Compensation.** (3-29-12)
   
a. Instructor qualifications (training and experience) must be recorded and available to students. (3-29-12)

b. There must be a sufficient number of full-time instructors to maintain the continuity and stability of courses. (4-9-09)

c. The ratio of instructors to students in each course must be sufficient to assure effective instruction. (4-9-09)

d. Commissions may not be used for any portion of the faculty compensation. (4-9-09)

e. Procedures for evaluating instructors must be established. Provisions for student evaluation are recommended. (4-9-09)

05. **Standard V - Resources, Finance, Facilities, and Instructional Resources.** (4-9-09)

a. Adequate financial resources must be provided to accomplish instructional objectives and to effectively support the instructional program, including classroom and training facilities, instructional materials, supplies and equipment, instructors, staff, library, and the physical and instructional technology infrastructure. (3-29-12)

b. The school must have sufficient instructional resource materials so that, together with tuition and fees, it is able to complete its educational obligations to currently enrolled students. If the school is unable to fulfill its obligations to students, the school must make arrangements for a comparable teach-out opportunity with another proprietary school or refund one hundred (100) percent of prepaid tuition. (3-29-12)

c. School financial/business records and reports must be kept separate and distinct from those of any affiliated or sponsoring person or entity. Financial records and reports at a school shall be kept in accordance recognized financial accounting methods. (3-29-12)

d. The school must have adequate instructional resource materials available to students, either on site or through electronic means. These materials must be housed in a designated area and be available for students and instructors with sufficient regularity and at appropriate hours to support achievement of course objectives or to promote effective teaching. (4-9-09)

e. If the school relies on other schools or entities to provide library resources or instructional resources, the school must demonstrate how these arrangements effectively meet the needs of students and faculty. These arrangements must be documented through written agreements. Student and faculty use must be documented and frequently evaluated to ensure quality services are being provided. (4-9-09)

302. **THE BOARD MAY NOTIFY THE PROPRIETARY SCHOOL OF ADDITIONAL INFORMATION REQUIRED.**
If the Board is unable to determine the nature and activities of a school on the basis of the information provided by the school under this rule, then the Board may notify the school of additional information that it will be required to provide in connection with the application for registration. (3-29-10)

01. **Verification of Information.** The Board may verify the accuracy of submitted information by inspection, visitation, or any other means it considers necessary. The applicant school shall be responsible for any costs the Board incurs including travel, associated with this review. (3-29-12)

02. **Criteria for Approval or Denial of Registration.** To be approved for registration, the school must demonstrate that it is in compliance with Chapter 24, Title 33, Idaho Code and this rule, including all of the standards described in Section 301 of this rule. A school must remain in compliance for the registration year. (3-29-10)
03. **Public Information.** All information submitted to the Board is subject to disclosure as set forth in the Public Records Act, Title 9, Chapter 3, Idaho Code. (3-29-12)

04. **Certificate of Registration or Exemption.** (3-29-12)

a. A certificate of registration will be issued to a proprietary school that has paid its registration fee and been approved under this rule. A certificate evidencing initial registration will be effective the date it is issued, and continue through June 30 of the next succeeding year. A renewal certificate will be for the period July 1 through June 30 of the next succeeding year. No school that is registered with the Board shall advertise or represent in any manner that it is accredited by the Board. An institution may only represent that it is “Registered with Idaho State Board of Education.” Registration is not an endorsement of the school. (4-7-11)

b. An institution exempt from registration under these rules may request a certificate of exemption. (3-29-12)

c. If a school wishes to offer additional courses or courses of study during the course of a registration year that were not included in its application to the Board prior to issuance of the certificate of registration, then the school must submit a letter to the Board Office along with appropriate approval documentation by the applicable professional or trade board, council, or commission. This letter will be added to the school’s registration file. (4-7-11)

05. **Disapproval and Appeal.** If a proprietary school’s request for initial registration or a renewal of registration is disapproved by the Board, then the school may appeal such decision in accordance with Chapter 52, Title 67, Idaho Code. The request must be in writing and made to the Board within thirty (30) days of the date the school is notified of the disapproval. (3-29-10)

06. **Withdrawal of Approval.** (4-9-09)

a. The Board may refuse to renew, or may revoke or suspend approval of a school’s registration by giving written notice and the reasons therefore to the school. The school may request a hearing under IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.” (3-29-10)

b. Withdrawal of approval may be for one (1) or more of the following reasons: (4-9-09)

i. Violation of Chapter 24, Title 33, Idaho Code or this rule. (4-9-09)

ii. Providing false, misleading, deceptive, or incomplete information to the Board. (3-29-10)

iii. Presenting to prospective or current students information about the school which is false, fraudulent, misleading, deceptive, or inaccurate in a material respect; or (4-9-09)

iv. Refusing to allow reasonable inspection or to supply reasonable information after a written request by the Board has been received. (3-29-10)

c. If any information contained in the application submitted by the school becomes incorrect or incomplete, then the registered school shall notify the Board of such change within thirty (30) days. A school that ceases operation during the course of a registration year shall immediately provide written notice to the Board of this event. (4-7-11)

07. **Agent’s Certificate of Identification.** Each proprietary school shall ensure that its agents have a valid certificate of identification, and that all of its agents are in compliance with Section 33-2404, Idaho Code. The school shall complete a criminal history check that includes, at a minimum, the State Bureau of Identification, and statewide sex offender registry for each agent having unsupervised contact with minors in the minor’s home or at secondary schools, prior to making application for the agent’s certificate of identification. The criminal history check shall be valid for five (5) years and be kept on file by the school. When an employee returns to any proprietary school after a break in service of six (6) months or more a new criminal history check must be obtained. When an employee changes employment between proprietary schools, a new criminal history check must be obtained by the new employer. (4-7-11)
a. The Board shall revoke any agent’s certificate of identification issued or authorized under this Section and shall deny the application for issuance of a new certificate of identification of a person who pleads guilty to, or is found guilty of, notwithstanding the form of the judgment or withheld judgment, any of the following felony offenses against a child:

i. The aggravated assault of a child, Section 18-905, Idaho Code, or the assault with intent to commit a serious felony against a child, Section 18-909, Idaho Code.

ii. The aggravated battery of a child, Section 18-907, Idaho Code, or the battery with intent to commit a serious felony against a child, Section 18-911, Idaho Code.

iii. The injury or death of a child, Section 18-1501, Idaho Code.

iv. The sexual abuse of a child under sixteen (16) years of age, Section 18-1506, Idaho Code.

v. The ritualized abuse of a child under eighteen (18) years of age, Section 18-1506A, Idaho Code.

vi. The sexual exploitation of a child, Section 18-1507, Idaho Code.

viii. Lewd conduct with a child under the age of sixteen (16) years, Section 18-1508, Idaho Code.

ix. The sexual battery of a minor child sixteen (16) or seventeen (17) years of age, Section 18-1508A, Idaho Code.

x. The sale or barter of a child for adoption or other purposes, Section 18-1511, Idaho Code.

xi. The murder of a child, Section 18-4003, Idaho Code, or the voluntary manslaughter of a child, Section 18-4006 1., Idaho Code.

xii. The kidnapping of a child, Section 18-4502, Idaho Code.

xiii. The importation or exportation of a juvenile for immoral purposes, Section 18-5601, Idaho Code.

xiv. The abduction of a person under eighteen (18) years of age for prostitution, Section 18-5610, Idaho Code.

xv. The rape of a child, Section 18-6101 or 18-6108, Idaho Code.

b. The general classes of felonies listed in Section 302 shall include equivalent laws of federal or other state jurisdictions. For the purpose of Subsection 302.07, “child” means a minor or juvenile as defined by the applicable state or federal law.

08. Surety Bond. Each proprietary school shall comply with the provisions in Section 33-2406, Idaho Code, relating to a surety bond.

a. The amount of the surety bond shall be not less than the total tuition and fees to be collected by the school from its students, currently engaged in instructional activities, that covers the period from the beginning through completion of the course of instruction the student has contracted and paid for. This amount shall be based
upon the projected tuition and fee revenue for the coming registration year, subject to modification in the event a school experiences significant changes in tuition and fee revenue during the current year. The Executive Director shall determine the appropriate format and method by which this bond value is to be calculated and reported.

(3-29-12)

b. Schools must keep a valid bond in force, via periodic renewal as needed, throughout the entire registration year with no lapse in coverage. Schools shall ensure that all bonds include “extended coverage” clauses to remain in effect for one hundred twenty (120) days after the date of a school’s closure.

(3-29-12)

c. No party to the surety bond may cancel without one hundred twenty (120) day prior notice to all parties, including the Office of the State Board of Education.

(3-29-10)

d. The Board shall be the beneficiary of the bond and shall oversee the distribution of funds to students who file claims. Schools shall provide proof of the required bond and submit said documentation with their registration applications.

(3-29-10)

303. -- 399. (RESERVED)

400. ENFORCEMENT.
The Board, acting by and through its Executive Director may initiate on its own initiative any investigation relating to a violation of the state laws or rules relating to the requirement that an institution or school register with the Board pursuant to Title 33, Chapter 24, Idaho Code.

(3-29-12)

401. -- 499. (RESERVED)

500. COMPLAINTS.
A complaint concerning an institution or school operating in the State of Idaho (maintaining an Idaho presence) that pertains to a matter described herein shall be reviewed and acted upon as appropriate in accordance with the specific procedures described below:

(3-29-12)

(3-29-12)

02. Violations of State Laws or Rules Related to the Registration of Postsecondary Educational Institutions and Proprietary Schools. A complaint alleging violations of state laws or rules related to the requirement that an institution or school register with the Board shall be submitted in writing to the Board’s Executive Director for investigation and appropriate enforcement action, including the remedies specified in Section 33-2408, Idaho Code.

(3-29-12)

03. Complaints Related to Quality of Education, or Other Matters.

a. A complaint relating to the quality of education provided by an institution or school or accreditation matters, or any other matter related to the operations or practices of an institution or school other than a state consumer protection matter, shall be submitted on a form provided by the Board to the Executive Director for review and appropriate action.

(3-29-12)

b. If after initial review the Executive Director determines that the complaint relates to the quality of education or accreditation matters, the Executive Director may refer the matter to the accreditation organization of the institution or school at issue for review and recommendation. If a matter referred to an accreditation organization results in resolution of the complaint to the satisfaction of the complainant, then the matter shall be considered resolved and there shall be no further action on the matter. If the matter is not successfully resolved, then the Executive Director will review the recommendation of the accreditation organization and follow the procedures for investigations of complaints described in Subsection 500.03.c. of these rules.

(3-29-12)

c. If the complaint pertains to any other matter related to the operations or practices of an institution or school, other than a state consumer protection matter, then the Executive Director will review the complaint to
d. If the Board office receives a complaint relating to an institution or school that is exempt from registration under Idaho law or these rules, and such institution or school has not elected to voluntarily register, then such institution or school shall be responsible for reimbursing the Board office for the actual costs incurred to process and act on such complaint. (3-29-12)

501. -- 999. (RESERVED)
000. **LEGAL AUTHORITY.**
In accordance with Sections 33-105, and 33-4303, Idaho Code, the State Board of Education (Board) shall promulgate rules implementing the provisions of Title 33, Chapter 56, Idaho Code. (3-28-18)

001. **TITLE AND SCOPE.**

01. **Title.** These rules are titled IDAPA 08.01.13, “Rules Governing the Opportunity Scholarship Program.” (4-2-08)

02. **Scope.** These rules constitute the requirements for the Opportunity Scholarship Program. (4-2-08)

002. **WRITTEN INTERPRETATIONS.**
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, written interpretations, if any, of the rules of this chapter are available at the Board. (4-2-08)

003. **ADMINISTRATIVE APPEALS.**
Unless otherwise provided for in the rules of the Board or in the Board Governing Policies and Procedures, all administrative appeals allowed by law will be conducted as provided herein. (4-2-08)

004. **INCORPORATION BY REFERENCE.**
There are no documents that have been incorporated by reference into these rules. (4-2-08)

005. **OFFICE INFORMATION.**

01. **Office Hours.** The offices of the Board are open from 8 a.m. to 5 p.m., except Saturday, Sunday, and legal holidays. (4-2-08)

02. **Street Address.** The offices of the Board are located at 650 W. State Street, Boise, Idaho. (4-2-08)

03. **Mailing Address.** The mailing address of the Board is P.O. Box 83720, Boise, Idaho 83720-0037. (4-2-08)

006. **PUBLIC RECORDS ACT COMPLIANCE.**
These rules are subject to the provisions of the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (4-2-08)

007. -- 009. **(RESERVED)**

010. **DEFINITIONS.**

01. **Grade Point Average (GPA).** Means the average grade earned by a student, figured by dividing the grade points earned by the number of credits attempted. (3-20-14)

011. -- 100. **(RESERVED)**

101. **ELIGIBILITY.**
Applicants must meet all of the eligibility requirements to be considered for the scholarship award. (3-28-18)

01. **Undergraduate Student.** An eligible student must be pursuing their first undergraduate certificate or degree. A student may have received multiple certificates or degrees as part of the natural progression towards a recognized baccalaureate degree program. A student who is enrolled in a graduate program, but who has not yet earned a baccalaureate degree, is not eligible for an opportunity scholarship. A student enrolled in an undergraduate program is eligible for consideration for an opportunity scholarship, even if some of the student’s courses are at the graduate level. (3-20-14)

02. **Academic Eligibility.** To be eligible for an opportunity scholarship, an applicant must meet minimum academic eligibility criteria, as follows: (3-28-18)

   a. A student who has not yet graduated from secondary school or its equivalent in the state of Idaho must have an un-weighted minimum cumulative grade point average of three point zero (3.0) or better on a scale of four point zero (4.0) to be eligible to apply for an opportunity scholarship. Cumulative grade point averages of more than one (1) decimal place shall be rounded to one (1) place. Home schooled students must provide a transcript of subjects taught and grades received signed by the parent or guardian of the student; or

   b. A student who has obtained a general equivalency diploma must have taken the ACT assessment and received a minimum composite score of twenty (20) or better, or the equivalent SAT assessment and received a one thousand ten (1,010) or better, to be academically eligible to apply for an opportunity scholarship; or

   c. A student currently enrolled in an eligible Idaho postsecondary educational institution must have a minimum cumulative grade point average of three point zero (3.0) or better on a scale of four point zero (4.0) at such institution in order to be academically eligible to apply for an opportunity scholarship. Cumulative grade point averages of more than one (1) decimal place shall be rounded to one (1) place. (3-28-18)

03. **Financial Eligibility.** Applicants for the opportunity scholarship are selected as recipients, in part, based on of demonstrated financial need. The tool used to determine financial need is the Free Application for Federal Student Aid (FAFSA), used by the United States Department of Education. The financial need of an applicant for an opportunity scholarship will be based upon the verified expected family contribution, as identified by the FAFSA Student Aid report. The Student Aid report used to calculate financial need will be the report generated on the March 1 application deadline. (3-28-18)

04. **Additional Eligibility Requirements.** (4-2-08)

   a. A student must not be in default on a student educational loan, or owe a repayment on a federal grant, and must be in good financial standing with the opportunity scholarship program. (3-20-14)

   b. If a student has attempted or completed more than one hundred (100) postsecondary academic credits, then such student must identify his or her major, the required number of credits necessary for graduation in such major, and shall submit an academic transcript that contains all courses taken and all postsecondary academic credit received to the Board office. A student shall not be eligible for an opportunity scholarship if:

      i. The student is not meeting satisfactory academic progress at the eligible Idaho postsecondary educational institution the student is attending at the time he or she applies for an opportunity scholarship; (4-2-08)

      ii. The student has completed more than one hundred fifty percent (150%) of the courses and academic credit necessary to graduate in such major; or

      iii. Upon review of the student’s academic transcript(s), the student cannot complete their degree/certificate in the major they have identified within two (2) semesters based on normal academic course load unless a determination by the executive director or designee has been made that there are extenuating circumstances and the student has a plan approved by the executive director or designee outlining the courses that will be taken and the completion date of the degree or certificate. (3-28-18)

102. -- 201. (RESERVED)
202. APPLICATION PROCESS.

01. Initial Applications. An eligible student must complete and submit the opportunity scholarship program application to the Board electronically on or before the date specified in the application, but not later than March 1. An applicant without electronic capabilities may submit an application on the form established by the Board through the United States Postal Service, which must be postmarked not later than March 1. All applicants must complete and submit the FAFSA on or prior to March 1. (3-28-18)

02. Announcement of Award. Announcement of the award of initial scholarships will be made no later than June 1 of each year, with awards to be effective at the beginning of the first full term following July 1 of that year. Announcements must clearly state the award is part of the state’s scholarship program and is funded through state appropriated funds. Additional award announcement may be made after this date based on the availability of funds and the acceptance rate of the initial awards. (3-9-16)

03. Communication with State Officials. Applicants must respond by the date specified to any communication from officials of the opportunity scholarship program. Failure to respond within the time period specified will result in cancellation of the application or forfeiture of the scholarship unless extenuating circumstances are involved and approved by the executive director or designee. (3-28-18)

203. -- 299. (RESERVED)

300. SELECTION OF SCHOLARSHIP RECIPIENTS.

01. Selection Process. Scholarship awards will be based on the availability of scholarship program funds. Opportunity scholarships will be awarded to applicants, based on ranking and priority, in accordance with the following criteria: (3-28-18)

a. Eligible students shall be selected based on ranking criteria that assigns seventy percent (70%) to financial eligibility, and thirty percent (30%) to academic eligibility. In the event that this weighted score results in a tie, an eligible student who submitted his application to the Board earliest in time will be assigned a higher rank. (3-28-18)

b. Notwithstanding Subsection 300.01.a. of these rules, the priority for the selection of recipients of opportunity scholarship awards shall be to scholarship recipients who received an opportunity scholarship award during the previous fiscal year, and have met all of the continuing eligibility requirements provided in these rules. (3-28-18)

02. Monetary Value of the Opportunity Scholarship. (4-2-08)

a. The Board will establish annually the educational costs for attending an eligible Idaho postsecondary educational institution for purposes of the opportunity scholarship program. (3-28-18)

b. The monetary value of the opportunity scholarship award to a student shall be based on the educational costs for attending an eligible Idaho postsecondary educational institution, less the following: (4-2-08)

i. The amount of the assigned student responsibility, established by the Board annually; (4-2-08)

ii. The amount of federal grant aid, as identified by the Student Aid Report (SAR) that is known at the time of award determination; (3-20-14)

iii. The amount of other financial aid awarded the student, from private or other sources that is known at the time of award determination. (3-20-14)

c. The amount of an opportunity scholarship award to an individual student shall not exceed the educational cost established by the Board annually, and shall not exceed the actual cost of tuition and fees at an Idaho public postsecondary educational institution, or if the student attends or will attend an Idaho private postsecondary
301. OPPORTUNITY SCHOLARSHIP AWARD.

01. Payment. Payment of opportunity scholarship awards will be made in the name of the recipient and will be sent to a designated official at the eligible Idaho postsecondary educational institution in which the recipient is enrolled. The official must transmit the payment to the recipient within a reasonable time following receipt of the payment. (4-2-08)

02. Duration. Scholarships will be awarded on an annual basis and payments will correspond to academic terms, semesters, quarters, or equivalent units. In no instance will the entire amount of a scholarship be paid in advance to, or on behalf of, a scholarship recipient. The scholarship may cover up to four (4) educational years, or eight (8) semesters or equivalent for attendance at an eligible Idaho postsecondary educational institution. Awards are contingent on annual appropriations by the legislature and continued eligibility of the student. (3-28-18)

03. Eligibility. If a student receives an opportunity scholarship payment and it is later determined that the student did not meet all of the Opportunity Scholarship Program eligibility requirements, then the student is considered in overpayment status, and must return program funds in accordance with the eligible Idaho postsecondary educational institution’s refund policy. (4-2-08)

302. CONTINUING ELIGIBILITY.

To remain eligible for renewal of an opportunity scholarship, the recipient must comply with all of the provisions of the Opportunity Scholarship Program and these rules:

01. Renewal Application. A scholarship recipient must complete and submit a renewal application in order to be considered for a continuing scholarship for each succeeding year and update and submit the FAFSA on or prior to March 1. (3-20-14)

02. Credit Hours. To remain eligible for renewal of an opportunity scholarship, the scholarship recipient attending a four (4) year eligible postsecondary institution must have completed a minimum of twenty-four (24) credit hours or its equivalent each academic year that the student received an opportunity scholarship award. A scholarship recipient attending a two (2) year eligible postsecondary institution must have completed a minimum of eighteen (18) credit hours or its equivalent each academic year that the student received an opportunity scholarship award. (3-9-16)

03. Satisfactory Academic Progress. To remain eligible for renewal of an opportunity scholarship, the scholarship recipient must have maintained a minimum cumulative grade point average of three point zero (3.0) on a scale of four point zero (4.0) during the time that the recipient received an opportunity scholarship award, and must be maintaining satisfactory academic progress, consistent with federal financial aid regulations as implemented at the eligible Idaho postsecondary educational institution at which the scholarship recipient was enrolled. (3-28-18)

04. Maximum Duration of Scholarship Award. The award of an opportunity scholarship shall not exceed the equivalent of eight (8) semesters or the equivalent of four (4) academic years. (3-20-14)

05. Eligibility Following Interruption of Continuous Enrollment. A scholarship recipient whose continuous enrollment is interrupted for more than four (4) months but less than two (2) years for any reason but who intends to re-enroll in an eligible Idaho postsecondary educational institution must file a letter of intent to withdraw no later than sixty (60) days prior to the first day of the academic term of the discontinued attendance to the Office of the State Board of Education. Failure to do so may result in forfeiture of the scholarship. The Board’s Executive Director or designee will review each request for interruption and notify the individual of approval or denial of the request. In addition, the individual must file a statement with the Board declaring his intent to re-enroll as a full-time undergraduate student in an academic or career technical program in an eligible Idaho postsecondary educational institution for the succeeding academic year no later than thirty (30) days prior to the first day of the academic term in which the individual intends to re-enroll within two (2) years of the approval of the request to withdraw. Failure to do so will result in forfeiture of the scholarship unless an extension has been granted. An extension of interruption of continuous enrollment period may be granted for eligible students due to military service in the United States armed...
forces, medical circumstances, or other circumstances approved by the executive director. All requests for extension must be made sixty (60) days prior to the start of the succeeding academic year. (3-28-18)

303. -- 399. (RESERVED)

400. RESPONSIBILITIES OF ELIGIBLE IDAHO POSTSECONDARY EDUCATIONAL INSTITUTIONS.

01. Statements of Continuing Eligibility. An eligible Idaho postsecondary educational institution participating in this Opportunity Scholarship Program must submit statements of continuing student eligibility to the Board by the 30th day after the end of each academic year. Such statements must include verification that the scholarship recipient is still enrolled, attending full time, maintaining satisfactory academic progress, and has not exceeded the award eligibility terms. (3-9-16)

02. Other Requirements. An eligible Idaho postsecondary educational institution must:

a. Be eligible to participate in Federal Title IV financial aid programs, and must supply documentation to the Board verifying this eligibility, and prompt notification regarding any changes in this status; (4-2-08)

b. Have the necessary administrative computing capability to administer the Opportunity Scholarship Program on its campus, and electronically report student data records to the Board; (4-2-08)

c. Provide data on student enrollment and federal, state, and private financial aid for students to the Board, and (4-2-08)

d. Agree to permit periodic Opportunity Scholarship Program audits to verify compliance with Idaho law and these rules related to the program. (4-2-08)

401. -- 500. (RESERVED)

501. APPEALS. An opportunity scholarship applicant or recipient adversely affected by a decision made under provisions of these rules may file a written appeal of the decision within thirty (30) days following notice of the decision, and the written statement must include the basis for the appeal. Decisions based on specific requirements established in Idaho Code or these rules may not be appealed. The appeal must be submitted to the executive director of the Board. The office of the board shall acknowledge receipt of the appeal within seven (7) days. The executive director of the Board may or may not agree to review the action, or may appoint a subcommittee of three (3) persons to hear the appeal, including at least one (1) financial aid administrator at an eligible postsecondary educational institution in Idaho. (3-28-18)

01. Transmittal to Subcommittee. If the appeal is transmitted to the subcommittee, the subcommittee will review the appeal and submit a written recommendation to the executive director of the Board within fifteen (15) days from the time the subcommittee receives the appeal document. The opportunity scholarship applicant or recipient initiating the appeal will be notified by the chairperson of the subcommittee of the time and place when the subcommittee will consider the appeal and will be allowed to appear before the subcommittee to discuss the appeal. (3-20-14)

02. Subcommittee Recommendations. Following the subcommittee’s decision, the executive director of the Board will present the subcommittee’s recommendation to the full Board at the next regularly scheduled meeting of the Board. The opportunity scholarship applicant or recipient initiating the appeal may, at the discretion of the executive director of the Board, be permitted to make a presentation to the Board. (3-20-14)

03. Board Decision. The decision of the Board is final, binding, and ends all administrative remedies, unless otherwise specifically provided by the Board. The Board will inform the opportunity scholarship applicant or recipient in writing of the decision of the Board. (4-2-08)

502. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
All rules in IDAPA 08.02.01, “Rules Governing Administration,” are promulgated pursuant to the authority of the State Board of Education under Article IX, Section 2 of the Idaho Constitution and under Sections 33-101, 33-105, 33-107, 33-116, 33-117, 33-308, 33-320, 33-310B, 33-512, 33-513, 33-905, 33-1279, 33-1403, 33-1405, 33-2004 and Chapter 10, Title 33, Idaho Code. 006. PUBLIC RECORDS ACT COMPLIANCE.
This rule has been promulgated in accordance with the Administrative Procedures Act, Title 67, Chapter 52, Idaho Code, and is a public record. (6-30-19)
007. **WAIVERS.**
The State Board of Education may grant a waiver of any rule not required by state or federal law to any school district upon written request. The Board will not grant waivers of any rule required by state or federal law. State and federal law includes case law (including consent decrees), statutes, constitutions, and federal regulations. (4-1-97)

008. -- 049. **RESERVED**

050. **ALTERING SCHOOL DISTRICT BOUNDARIES.**
The State Board of Education sets forth the following rules to govern the application and hearing procedures for alteration of school boundaries pursuant to Section 33-308, Idaho Code. A written application from the person or persons requesting alteration of school district boundaries, including the reasons for making the request, will be submitted to the State Board of Education. The application shall also contain that information as required by Section 33-308, Idaho Code:

01. **Written Statement of Support.** A written statement supporting or opposing the proposed alteration will be prepared by each board of trustees no later than ten (10) days following its first regular meeting held following receipt of the written application prepared by the person or persons requesting the alteration. Such request and supporting materials shall be forwarded to the Superintendent of Public Instruction. (7-1-99)

02. **Review of Request.** The Superintendent of Public Instruction shall appoint a hearing officer in accordance with State Board of Education Governing Policies and Procedures to review the proposed alteration of boundaries. (7-1-99)

03. **Criteria for Review of Request.** The hearing officer shall review the proposed alteration of boundaries taking into account the following criteria:

a. Will the alteration as proposed leave a school district with a bonded debt in excess of the limit proscribed by law; (7-1-99)

b. Is the proposed alteration in the best interests of the children residing in the area described in the petition. In determining the best interests of the children the hearing officer shall consider all relevant factors which may include:

   i. The safety and distance of the children from the applicable schools; (7-1-99)

   ii. The views of the interested parties as these views pertain to the interests of the children residing in the petition area; (7-1-99)

   iii. The adjustment of the children to their home and neighborhood environment; and (7-1-99)

   iv. The suitability of the school(s) and school district which is gaining students in terms of capacity and community support. (7-1-99)

04. **Market Value.** The market value, for tax purposes, of the two (2) districts prior to the requested transfer and of the area proposed to be transferred will be provided. (7-1-99)

05. **Decision by State Board Education.** The recommendation from the hearing on the matter shall be forwarded to the State Board of Education for decision in accordance with the Board’s Governing Policies and Procedures. (7-1-99)

06. **Additional Information.** The applicant may submit any additional information which is deemed to be appropriate in assisting the State Board of Education to make the decision. (4-1-97)

051. -- 149. **RESERVED**

150. **DEVIATION FROM STANDARD EMPLOYMENT CONTRACT FORM.**
The State Superintendent of Public Instruction has approved a standard employment contract form. Any deviation from this contract form must be approved by the State Superintendent of Public Instruction and reviewed for reapproval once every three (3) years. (Section 33-513, Idaho Code)

(4-1-97)

151. -- 199. (RESERVED)

200. EMERGENCY CLOSURE - TEACHER STRIKE OR WITHHOLDING OF SERVICE.
The State Board of Education does not recognize a teacher strike or the withholding of service as sufficient cause to declare an emergency closure. The primary concern of the State Board of Education is for the instructional program available to students. (Section 33-1003(A), Idaho Code)

(4-1-97)

201. -- 249. (RESERVED)

250. PUPIL ACCOUNTING AND REQUIRED INSTRUCTIONAL TIME.
(Section 33-512, Idaho Code)

01. Required Instructional Time. Excluding transportation to and from school, lunch periods, passing times, and recess, schools must schedule at least the following instructional times: kindergarten, four hundred fifty (450) hours per year; grades one through three (1-3), eight hundred ten (810) hours per year; grades four through eight (4-8), nine hundred (900) hours per year; and grades nine through twelve (9-12), nine hundred ninety (990) hours per year.

(4-1-97)

02. Required Attendance. All pupils will complete four (4) years of satisfactory attendance in grades nine through twelve (9-12) to graduate from an accredited high school, except those who are approved for early graduation.

(4-1-97)

03. Day in Session When Counting Pupils in Attendance.

a. A school day for grades one through twelve (1-12) may be counted as a “day in session” when the school is open and students are under the guidance and direction of teachers in the teaching process for not less than four (4) hours of instruction per day. Lunch periods, breaks, passing time and recess will not be included in the four (4) hours. For kindergarten, each session will be at least two and one-half (2 1/2) hours per day.

(4-1-97)

b. Half-day Session. A half-day in session occurs when the students in grades one through twelve (1-12) are under the guidance and direction of teachers in the teaching process for a minimum of two and one-half (2 1/2) hours of instruction or the teachers are involved in staff development activities for not less than two and one-half (2 1/2) hours.

(4-1-97)

c. Teacher In-service Activities. For grades one through twelve (1-12), not more than twenty-two (22) hours may be utilized for teacher in-service activities, based on the district approved calendar. In the event a school district chooses to utilize full days instead of half-days, the attendance reported for these full days will be the average of the attendance for the other days of that same week.

(4-1-97)

04. Day of Attendance - Kindergarten. A day of attendance for a kindergarten pupil is one in which a pupil is physically present for a period of two and one-half (2 1/2) hours under the direction and guidance of a teacher while school is in session or under homebound instruction. A homebound student is one who is unable to attend school for at least ten (10) consecutive days due to illness, accident or an unusual disabling condition. Attendance will be reported in half-day increments. Attendance reports for any day in the school year will reflect only those students physically present. Particularly, enrollment figures are not to be used for the beginning nor closing weeks of school. (Section 33-1001(5), Idaho Code.)

(4-1-97)

05. Day of Attendance (ADA) - Grades One Through Twelve (1-12). A day of attendance is one in which a pupil is physically present for the full day under the guidance and direction of a teacher or other authorized school district personnel while school is in session or is a homebound student under the instruction of a teacher employed by the district in which the pupil resides, with the exception as stated in “day in session” above. A homebound student is one who is unable to attend school for at least ten (10) consecutive days due to illness, accident or an unusual disabling condition. Attendance will be reported in full or half-days. Attendance reports for any day in
the school year will reflect only those students physically present or under homebound instruction. (Section 33-1001(4), Idaho Code)

06. Average Daily Attendance. In a given school year, the average daily attendance for a given school is the aggregate days attendance divided by the number of days school was actually in session. (Section 33-1001(2), Idaho Code)

251. -- 299. (RESERVED)

300. FUNDS WITHHELD - LATE SUBMISSION OF RECORDS.
All professional staff records and noncertified employee records from each school district will be sent to the State Department of Education by October 15 of each year. If a district is delinquent with the forms, apportionment payment to that district will be withheld until such time as the district has met its obligation. (Section 33-1004D, Idaho Code)

301. -- 349. (RESERVED)

350. EARLY GRADUATION.
Any high school student who completes the number of credits and exiting standards required by both the state and the school district prior to completing eight (8) semesters of high school work may petition the local superintendent and board of trustees to graduate early. When calculating the aggregate average daily attendance for the educational support program, students graduating from high school prior to the end of the school year will have their ADA for the first semester (second trimester) counted as if they were in attendance during the second semester (third trimester) of the school year.

351. -- 399. (RESERVED)

400. SPECIAL EDUCATION FUNDING FOR DISTRICTS WITH APPROVED PROGRAMS.

01. Reimbursement for Exceptional Child Support Units. State reimbursement provided by exceptional child support units is based on the following formula:

a. Preschool students will generate funding based upon the weekly hours and minutes they are enrolled in special education.

b. From the fall elementary enrollment of kindergarten through grade six (K-6), subtract elementary residential facility students and multiply the result by six one-hundredths (.06). Add the elementary residential facility students to the product. (Section 33-1002(4), Idaho Code.)

c. From the fall regular secondary enrollment of grades seven through twelve (7-12), subtract secondary residential facility students and multiply the result by fifty-five one-thousandths (.055). Add the secondary residential facility students to the product. (Section 33-1002(4), Idaho Code).

d. Add the juvenile detention facility students to the total.

e. Use the exceptional child divisor to determine the number of exceptional child units. Secondary programs with a smaller divisor may use the smaller divisor for their secondary computation.

f. Elementary and secondary exceptional child support units will be calculated using one hundred percent (100%) Average Daily Attendance (ADA): the ADA will be subtracted from their respective regular elementary and secondary administrative unit for computing the support unit.

02. Contracting for Educational and Related Services. (Section 33-2004, Idaho Code)
children, all such children will be enrolled in the district of their residence and the agency will certify to the home school district the daily record of attendance of such student. (4-1-97)

b. For special education contracts between local school districts, the district receiving service will pay the district providing service the amount of the providing district’s local annual tuition rate as certified under the provision of Idaho Code. The school district providing service will include students served within such contract within the total number of special education students used to calculate exceptional education support units. Charges for additional costs may be negotiated between the districts. (4-1-97)

c. The State Department of Education will determine if public and private schools and facilities meet state standards for an approved special education program. Any agency aggrieved by the Department of Education’s final decision may appeal that decision to the State Board of Education. (4-1-97)

401. -- 449. (RESERVED)

450. REIMBURSEMENT TO DISTRICTS FOR SUBSTITUTE TEACHER COSTS.
The Professional Standards Commission (PSC) is authorized to reimburse the employing district for a classroom teacher member of the PSC for the costs incurred in the employment of a substitute teacher for a member while the member is engaged in PSC business. Such reimbursement may be made for each instance in which a substitute is employed as a replacement for a member beyond six (6) days during a given school year. Reimbursement may be made upon request by the employing district submitted in a manner determined by the PSC. Reimbursement will be based upon the prevailing rate for substitutes in that district. (Section 33-1279, Idaho Code) (4-1-97)

451. -- 499. (RESERVED)

500. SCHOOL DISTRICT BUILDING ACCOUNT (NON-LOTTERY MONEY).
The board of trustees of any school district may apply to the State Board of Education to receive a payment or payments from the School District Building Account as authorized under Section 33-905(3a), Idaho Code. (4-1-97)

01. Application for Payment. The application for payments from the School District Building Account will include:

a. A statement of need; (4-1-97)

b. A statement of the condition and use of all of the district’s existing facilities including the dates of construction and any significant remodeling or additions; (4-1-97)

c. A history of the district’s classroom student/teacher ratios, how these ratios have been affected by a lack of classroom space, and how these ratios would be improved by the project being requested. This statement should include building by building ratios as well as the overall district student/teacher ratio; (4-1-97)

d. A statement of the district’s existing tax levies for school plant facilities and bond interest redemption, along with how these levies relate to the district’s levy capacity; (4-1-97)

e. A statement of the district’s market value for assessment purposes as such valuation existed on December 31 of the previous year, as well as other factors, if any, that affect the district’s ability to finance school construction; (4-1-97)

f. A statement of past efforts to levy for the project for which funding is being requested; (4-1-97)

g. A description of any unique or special circumstances that should be considered in the evaluation of the application; (4-1-97)

02. Application Deadline. The deadline for submitting applications will be January 30th of each year. (4-1-97)

03. Eligibility. The State Board of Education will be responsible for determining which school districts
receive payments from the School District Building Account. The State Board will:

- **a.** Review all applications submitted by the established deadline, taking into consideration the criteria of need, wealth, and effort established in Section 33-905, Idaho Code; (4-1-97)

- **b.** Require resubmission of an application only when there have been substantial changes in the district which could alter the status of original determination; (4-1-97)

- **c.** Determine a priority of school districts eligible to receive monies from the School District Building Account. Such priority will be based on a point system. Once established, the priority will be annually reviewed. Unless significant new information has been submitted which impacts the original determination, the priority will not be altered; (4-1-97)

- **d.** Determine a priority within forty-five (45) days of the application submission deadline; and (4-1-97)

- **e.** Award to each successful grantee twenty-five percent (25%) of the costs of the approved project. (4-1-97)

**04. Point System for Determining Priority.** The point system for determining the priority of eligible districts is based on the following rating and weighted values:

- **a.** Need: zero through ten (0-10) points, three and one half (3.5) weighted value for each point awarded; (4-1-97)

- **b.** Effort: zero through ten (0-10) points, two (2.0) weighted value for each point awarded; (4-1-97)

- **c.** Ability: zero through ten (0-10) points, two (2.0) weighted value for each point awarded; (4-1-97)

- **d.** Past efforts (levies attempted but failed): zero through ten (0-10) points, five tenths (.5) weighted value for each point awarded; (4-1-97)

- **e.** Student/teacher ratio improvement: zero through ten (0-10) points, one (1.0) weighted value for each point awarded. (4-1-97)

- **f.** Unique/special circumstances zero through ten (0-10) points: one (1.0) weighted value for each point awarded. (4-1-97)

**05. Documentation of Revenue Sources.** The school district will, within twelve (12) months of receipt of the approved state portion, submit documentation to the State Board of Education of the approved revenue source or sources that will be used to raise the district’s portion. Failure to meet this requirement will result in return of the state grant along with any interest accrued on these monies. (4-1-97)

**501. -- 549. (RESERVED)**

**550. OUT-OF-STATE TUITION.**

- **01. Annual Agreement.** An annual agreement for out-of-state tuition, signed by a local board of trustees and approved by the State Board of Education, may allow students who are residents of an Idaho school district that borders on an adjacent state to attend school in the adjacent state for educational services in kindergarten through grade twelve (K-12). (Section 33-1403, Idaho Code) (4-1-97)

- **02. State Support Program Allowance.** An Idaho school district will be eligible to receive from the state educational support program an amount equal to the cost of the out-of-state tuition contract less the amount of local district contribution times the percentage the average daily attendance (ADA) of tuition students is to the total ADA in the school district. (Section 33-1405, Idaho Code) (4-1-97)
600. REIMBURSEMENT TO DISTRICTS FOR A FEASIBILITY STUDY OF HIGH SCHOOL OR SCHOOL DISTRICT CONSOLIDATION.
(Section 33-310B, Idaho Code) (4-1-97)

01. Application Procedure. Applications for reimbursement will be submitted to the State Superintendent of Public Instruction in narrative form with the following supporting documents:

a. A copy of the feasibility study; (4-1-97)
b. A copy of the consolidation plan, when appropriate; (4-1-97)
c. A summary of school board deliberations or joint sessions that were held by the participating school boards; (4-1-97)
d. A summary of all public hearings held, if any; and (4-1-97)
e. An itemized listing of reimbursable costs. (4-1-97)

02. Reimbursable and Non-Reimbursable Costs. Allowable costs for a feasibility study may include contracts for technical services, and the costs of public hearings, telephone bills, supplies, materials, publications, and travel. The costs of the following items will not qualify for reimbursement:

a. A salary of any person regularly employed part-time or full-time by the school district; (4-1-97)
b. Rental of district-owned facilities; (4-1-97)
c. Costs incurred more than three (3) years prior to the application. (4-1-97)

03. Maximum Reimbursement Allowed. The total costs reimbursed will not exceed ten thousand dollars ($10,000) for each feasibility study. A school district may receive reimbursement for more than one (1) feasibility study, but the aggregate total reimbursement for all studies will not exceed ten thousand dollars ($10,000) during any consecutive three (3) year period. (4-1-97)

04. Notification of Approval. Upon verifying applicant school district’s fiscal encumbrance for a feasibility study, the State Department of Education will notify the district and include the reimbursement payment in the district’s apportionment payment for the year in which the expenses were incurred. (Section 33-310B, Idaho Code) (4-1-97)

650. GENERAL EDUCATION DEVELOPMENT TESTS/IDAHO HIGH SCHOOL EQUIVALENCY CERTIFICATE.
The primary objective of the State Board of Education is to have all students complete their formal education and graduate from high school. However, students who drop out of school and believe it is in their best interest to take the (General Education Development) GED. test may do so under the following conditions and, upon successful completion of all GED requirements, may apply for an Idaho High School Equivalency Certificate (HSEC). (4-1-97)

01. General Education Development Tests. General Education Development (GED) tests are given by approved testing centers for a statewide fee set by the Idaho Division of Career Technical Education. Candidates must make the minimum score for passing the GED test as established by the GED Testing service. (3-20-14)

02. Age Criteria. The applicant must satisfy one (1) of the following age criteria:

a. The applicant must be at least eighteen (18) years of age; (4-1-97)
b. The applicant may be sixteen (16) or seventeen (17) years of age and be one (1) year or more behind in credits earned, expelled, recommended by the school, pregnant, or a parent. In such cases, the applicant is eligible if the applicant’s school verifies in writing that the student meets one of the above criteria and this verification is on file at the testing center prior to any testing. The school may give its verification only after the applicant and his or her parent or guardian submit in writing a request for the applicant to take the GED tests and the applicant and the applicant’s parent or guardian have met with school officials to review and discuss the request. (In cases where the applicant is not living with a parent or guardian, the parent or guardian’s verification is not necessary); (4-1-97)

c. The applicant may be sixteen (16) or seventeen (17) years of age and be entering college, the military, or an employment training program, enrolled in an Adult Basic Education Program, enrolled in the Job Corps, or incarcerated. In such cases, the applicant is eligible if the institution involved applies in writing for the applicant to take the GED tests and this application is on file at the testing center prior to any testing. (3-20-14)

03. Proof of Identity. Test takers must present proof of identification that shows legal name, date of birth, signature, address and photograph. Valid drivers’ licenses, passports, military, and other forms of government-issued identification are acceptable. Two (2) forms of identification may be provided to meet these criteria. (3-20-14)

04. Idaho High School Equivalency Certificate. The State Department of Education will issue an Idaho High School Equivalency Certificate (HSEC) to eligible applicants. The normal fee for issuing a certificate is ten dollars ($10); however, this fee will be waived for military service personnel and veterans. To be eligible to receive an HSEC, an applicant must submit the following documents to the Division of Career Technical Education: (3-25-16)

a. An official report of GED test results showing successful completion of all requirements applicable to the version of the GED test taken by the applicant. Test scores are accepted as official only when reported directly by the State’s approved vendor for transcripts and records management, the Transcript Service of the Defense Activity for Non-Traditional Education Support (DANTES), or, in special cases, the GED Testing Service. (3-25-16)

b. Individuals who took the exam prior to January 1, 2014, must also furnish documentation that they met the American Government requirement of the State of Idaho. This requirement may be met by resident study in high school or college, correspondence study from an accredited university, DANTES, or by successfully passing the American Government test furnished by the testing center. (3-25-16)

c. A completed form DD295 on all service personnel. This form is not required of veterans and non-veteran adults. (4-1-97)

d. A copy of a discharge if the applicant is a veteran of military service. (4-1-97)

e. Applicants should submit their request using the form furnished by the Division of Career Technical Education, along with the ten dollar ($10) processing fee and appropriate documentation of above requirements. After the applicant completes this form and pays the ten dollar ($10) processing fee, the applicant will be awarded an Idaho High School Equivalency Certificate (HSEC). (3-25-16)

700. VETERANS EDUCATION. The Governor of the state of Idaho has designated the State Department of Education as the approval agency in the State of Idaho for the purpose of approving courses for the enrollment of veterans and other eligible persons. (Sections 33-105; 33-107, Idaho Code) (4-1-97)

01. Responsibilities of State Approval Agency. The State Approval Agency carries the following responsibilities: (4-1-97)

a. Establishing criteria additional to requirements set forth in federal law for approving education or training programs. (4-1-97)
b. Approving education or training programs following the criteria set forth in federal law or established by the state approval agency. (4-1-97)

c. Regularly visiting and supervising those educational institutions and training establishments offering approved courses or programs. (4-1-97)

d. Disapproving any approved course or program that fails to meet requirements set forth in federal law or criteria established by the approval agency and notifying the affected institution or establishment and the Veterans Administration of this disapproval. (4-1-97)

e. Providing applicable approval information to educational institutions or training establishments and the Department of Veterans’ Affairs. (4-1-97)

02. Regulations Incorporated by Reference. The Federal regulations of the U.S. Department of Veterans’ Affairs as referred to by these regulations are incorporated herein and will have the same force and effect as if fully set forth. Copies of referred federal regulations may be obtained from the United States Veterans Administration, the State Department of Education, or the Idaho State Law Library. (4-1-97)

03. Definition. For the purposes of these rules, the following words and phrases will have these meanings:

a. Approval: An institution or establishment desiring to offer a course or courses for which veterans may use veterans’ educational benefits has met standards and requirements designed to ensure that such institution or establishment is qualified to provide satisfactory instruction in the course or courses to be offered. (4-1-97)

b. Accredited Course: A course which meets one (1) of the following requirements: the course has been accredited and approved by a nationally recognized agency or association; credit for such a course is approved by the State Department of Education for credit toward a high school diploma; the course is conducted under 20 U.S.C. 11-28 (Vocational Education); and the course is accepted by the State Department of Education for credit for a teacher’s certificate or a teacher’s degree. (4-1-97)

c. Nonaccredited courses: Courses that are not approved as accredited courses and that are offered by a public or private, profit or nonprofit, educational institution. These include nonaccredited courses offered by extension centers or vocational or adult education departments in institutions of higher education. (4-1-97)

d. Nationally recognized accrediting agency or association: One that appears on the list published by the Commissioner of Education as required by 38 U.S.C. 1775 (a). (4-1-97)

e. Correspondence courses: Courses that must require no less than six (6) hours of preparation per week over any twenty-six (26) week period and must require six (6) or more months to complete. No more than twenty percent (20%) of the students pursuing such a course should be able to complete the course in less than six (6) months for the normal length to be certified as six (6) months or more. The determination of this factor will be based upon the records of the school for the immediately preceding years. (4-1-97)

f. Apprentice courses: Any training on-the-job course established as an apprentice course by a training establishment as defined in VA Regulations 14200(c) and approved as an apprentice course by the state approval agency. (4-1-97)

g. Other training on-the-job courses: Any training on-the-job that does not qualify as an apprentice course as defined in these regulations, but that otherwise meets the requirements of subparagraph C of VA Regulation 14262 as incorporated by reference herein. (4-1-97)

04. Eligibility for Receipt of Veterans’ Educational Benefits. Any veteran enrolled in educational institutions or training establishments is eligible for educational benefits as provided by 38 U.S.C. Section 1771 et.seq. To qualify for eligibility, the veteran must be in training in a course or courses approved for veteran’s education by the state approval agency. (4-1-97)
05. **Attainment of Approval Status.** Attaining approval status requires that an institution or establishment desiring to offer courses for which veterans or other eligible persons may receive veterans' educational benefits meet standards designed to ensure that such an institution or establishment is qualified to provide satisfactory instruction in the course or courses to be offered. Approval of courses may be obtained upon compliance with the following requirements and standards:

- **a.** Veterans will not be eligible for educational benefits for enrollment in any course offered by an educational institution when such a course has been in operation for less than two (2) years immediately prior to the date of enrollment as defined by VA regulation 14251(B). However, this requirement does not apply to the following courses: courses pursued in a public or tax supported educational institution; any course offered by an educational institution that has been in operation for more than two (2) years, if the course is similar in nature to a course previously offered by the institution; any course that has been offered by an institution for a period of more than two (2) years, notwithstanding the fact that the institution has moved to another location in the same general locality or where the school has made a complete move with substantially the same faculty, curricula, and students without a change in ownership; any course offered by a nonprofit school of college level and recognized for credit toward a standard college degree; and any course for the educationally disadvantaged offered by a proprietary nonprofit educational institution at the principal or branch location when the institution offering the course has been in operation for more than two (2) years.

- **b.** Institutions or establishments desiring to enroll veterans or eligible persons in courses to which veterans' benefits may be applied must make written application for approval of such courses to the state approval agency. Because approval is granted on a course-by-course basis, the institution or establishment must include in the application all courses for which it seeks approval. Applications for approval of accredited courses must be in conformance with requirements set forth in VA Regulation 14253. Applications for approval of nonaccredited courses must be in conformance with and contain information required by VA Regulation 14254. Applications for approval of correspondence courses must conform with requirements set forth in VA Regulation 14256, in addition to the requirements of VA Regulations 14253 or 14254 as applicable. Applications for approval of apprentice courses must conform with and contain information required by VA Regulation 14261(B). Applications for approval of other training on-the-job courses must conform with and contain information required by VA Regulation 14262(B). Application for approval of flight training courses must conform with requirements set forth in VA Regulation 14263 and in particular VA Regulation 14263(F).

- **c.** When an institution or establishment applies for approval, it thereby consents to visits by a representative of the state approval agency. The purpose of such visits is to determine whether the applicant and the course or courses for which approval is sought comply with established approval criteria.

- **d.** Upon receipt of an application for approval conforming with the above referenced regulations, the state approval agency may, upon adequate investigation, approve the application when the course or courses to which the application pertains and the institution or establishment offering them are found to have met the following criteria: for accredited courses, criteria set forth in VA Regulation 14253(D) (E) or (F) as applicable; for nonaccredited courses, criteria set forth in VA Regulation 14254(C); for correspondence courses, criteria set forth in VA Regulation 14256, in addition to criteria set forth in VA Regulations 14253 or 14254 as applicable; for apprentice courses, criteria set forth in VA Regulation 14261(C); for other training on-the-job courses, criteria set forth in VA Regulation 14262(C); and for flight training courses, criteria set forth in VA Regulation 14263. Veterans who are basically eligible to receive educational assistance allowances under the provisions of Title 38, U.S.C. may receive educational assistance for flight training, if the individual also meets eligibility standards set forth in VA Regulation 14263(A). In addition, the state approving agency requires that students complete a minimum of thirty (30) hours of instruction per quarter to maintain such eligibility.

06. **Notice of Approval.** Upon determining that an institution or establishment has complied with all the requirements for approval, the state approval agency will notify the institution or establishment by a letter setting forth the courses that have been approved and will furnish the VA with an official copy of the letter, attachments and any subsequent amendments.

07. **Length of Time of Approval.** Approval of a course is for an indefinite period of time. However, the state approval agency may require that requests for continued approval be submitted on an annual basis with appropriate supporting documentation. Furthermore, any revision or change made in a course will require
08. **Suspension or Withdrawal of Approval.** Continuing approval of a course or courses is contingent upon maintaining prescribed standards and conformance with requirements referred to above. (4-1-97)

a. In the event that the evidence of record establishes that the course fails to meet such requirements for approval, approval of the course for new enrollments may be suspended by the state approval agency for a period not to exceed sixty (60) days to allow the institution or establishment to meet the requirements for approval. (4-1-97)

b. The length of the suspension will not be for an indeterminate period but will be of a reasonable duration as determined by the state approval agency to be necessary for the institution or establishment to meet the requirements in light of the nature of the deficiencies. (4-1-97)

c. Prior to the effective date of the suspension, the state approval agency will give notice of the intended action to the affected institution or establishment which will include facts or circumstances on which the intended suspension is based and any available supporting documentation. The state approval agency will also afford to such institution or establishment, prior to the effective date of the suspension, a reasonable opportunity to show compliance with all lawful requirements for the retention of approval either by providing written support or through oral presentations to the appropriate agency officials. (4-1-97)

d. For those cases where a discrepancy has not been corrected at the time of the expiration date of a suspension period or in lieu of suspension for those cases where a discrepancy is so major as to substantially deprive the student of the protection afforded by the approval process or is of such a nature that it cannot be corrected within a period of sixty (60) days, the state approval agency will withdraw approval of the affected course or courses. (4-1-97)

e. Prior to the effective date of the withdrawal of approval, notice of the agency’s intended action will be provided to the affected institution or establishment, which will include a statement of the institution’s right to a hearing, a statement of the authority and jurisdiction under which the hearing is to be held, a reference to the particular sections of statutes or rules involved, and a short and plain statement of the grounds upon which the intended action to withdraw approval is based. (4-1-97)

f. An opportunity will be afforded the affected institution or establishment to respond to the agency’s intended action and to present evidence and argument on all issues involved. A three (3) member hearing panel will be appointed by the executive officer of the state approval agency to review such appeal and submit recommended findings of fact and conclusions of law to the executive officer who will thereafter render a final decision in the matter. (4-1-97)

g. Any final decision adverse to an institution or establishment will be in writing or stated in the record. The decision will include findings of fact and conclusions of law, separately stated. (4-1-97)

h. The affected institution or establishment will be notified either personally or by mail of any decision; a copy of this document will be delivered or mailed forthwith to the institution or establishment and to its attorney of record upon request. (4-1-97)

701. -- 749. (RESERVED)

750. **IDAHO STATE PENITENTIARY.**
The vocational and academic programs at the Idaho State Penitentiary will be approved on an annual basis as special programs for the purpose of training inmates. (4-1-97)

751. -- 799. (RESERVED)

800. **PRIVATE CORRESPONDENCE AND TRADE SCHOOLS.**
Private correspondence and trade schools teaching any course, plan, or programs of instruction, whether conducted in person, by mail, or any other method, will register with the State Department of Education on forms approved by the Board, which are on file in the State Department of Education. (Chapter 24, Title 33, Idaho Code) (4-1-97)
01. **Cancellation Policy.** A student applicant may cancel his or her enrollment within seventy-two (72) hours after midnight of the day on which the enrollment agreement is signed and receive a full refund of all monies paid to the school or its representative. The student will receive a minimum of seven (7) days in which to cancel the enrollment agreement and the seller may retain not more than fifty dollars ($50). Accreditation allows an agent to keep one hundred dollars ($100). (4-1-97)

02. **Cancellation of Enrollment.** For a student requesting cancellation of enrollment after starting the course, the charge made will be based on lessons completed or time spent and will be computed on the following prorated basis: fifty percent (50%) retention during the first quarter; seventy-five percent (75%) retention during the second quarter; and one hundred percent (100%) retention during the third and fourth quarter. (A quarter means time reasonably expected for completion of one-fourth (1/4) of the course.) (4-1-97)

03. **Emergency Consideration.** In case of illness or accident, death in the family, or other circumstances beyond the control of the student, the student will be entitled to consideration, and the school will make a settlement that is reasonable and fair to both. (4-1-97)

801. **CONTINUOUS IMPROVEMENT PLANNING AND TRAINING.**
In accordance with Section 33-320, Idaho Code, every local education agency (LEA) shall develop and maintain a strategic plan that includes a continuous improvement process focused on improving student performance of the LEA. (3-25-16)

01. **Definitions.** (4-11-15)

   a. **Administrator.** As used in this section administrator means the superintendent of the school district or administrator of a charter school. (4-11-15)

   b. **Board.** Board means the Idaho State Board of Education. (4-11-15)

   c. **Executive Director.** Executive Director means the Executive Director of the Idaho State Board of Education. (4-11-15)

   d. **Local Education Agency Board.** As used in this section local education agency or LEA Board means the board of trustees of a school district or board of directors of a charter school. (4-11-15)

   e. **Local Education Agency.** As used in this section local education agency (LEA) means public school district or charter school. (4-11-15)

   f. **Continuous Improvement Plan.** As used in this section, a continuous improvement plan focuses on annual measurable outcomes and the analysis of data to assess and prioritize needs and measure outcomes. (3-25-16)

02. **Reimbursement Eligibility.** LEA’s may request reimbursement for training conducted pursuant to Section 33-320, Idaho Code. To be eligible for reimbursement the training and trainer must meet the following criteria: (4-11-15)

   a. **Training.** The training must cover one (1) or more the follow subjects:

      i. Continuous improvement planning training. Continuous improvement planning training must include, but is not limited to, training on continuous process improvement, use and analysis of data, and methods for setting measurable targets based on student outcomes; (3-25-16)

      ii. School finance; (4-11-15)

      iii. Administrator evaluations, including, but not limited to, specifics on the Idaho state evaluation requirements and framework; (4-11-15)

      iv. Ethics; or (4-11-15)
v. Governance.  

b. Documentation of Training. Training records shall be kept by the LEA showing:  
   i. The length of the training in hours;  
   ii. The subject(s) covered by the training;  
   iii. The participants included in the training or validation of attendance of specific participants as applicable; and  
   iv. The curriculum, agenda, or other documentation detailing the content of the training.  

c. Training Format. A majority of the LEA board and the administrator must collaborate on the continuous improvement plan and engage students, parents, educators and the community, as applicable to the training subject and format. The training facilitator must be physically present or have the ability to interact directly with all training participants. Sufficient time must be provided during the sessions to give the participants an opportunity to discuss issues specific to the LEA.  

d. Trainer Qualifications. The trainer must meet the following qualifications:  
   i. May not be a current employee of the LEA;  
   ii. Must have two (2) years of documented training experience in the area of training being provided for the LEA; and  
   iii. Must provide at least three (3) recommendations from individuals who participated in past training sessions conducted by the trainer. These recommendations must be included with the application to determine the trainer’s qualifications.  

e. Qualified Trainers. Trainer qualifications will be determined by the Office of the State Board of Education. The State Board of Education will maintain a list of qualified trainers and the subject areas in which they are qualified.  
   i. An individual or company may submit an application for consideration to be placed on the list of qualified trainers or the LEA may submit the application on behalf of the individual or company.  
   ii. Applications must be submitted to the Executive Director in a format established by the Executive Director.  
   iii. Trainer qualifications must be determined prior to the LEA’s request for reimbursement of training costs.  

03. Audit. If requested, LEA’s must provide training documentation or other information to verify eligibility prior to reimbursement.  

04. Statewide Continuous Improvement Measures. Multiple measures must be used to fully determine student readiness and improvement. At a minimum each continuous improvement plan shall include the following statewide student readiness and improvement metrics. The benchmark for each metric shall be set by the LEA.  
   a. The college and career readiness metric shall be the number and percentage of students meeting the college ready benchmark in mathematics and English Language Arts on a state recognized college entrance exam. Improvement shall be measured by year over year growth in the percentage of students meeting the college readiness benchmark. This measure may be broken out by students pursuing a career technical track and non-career technical track students. Career technical track student’s readiness will be measured based on students receiving an industry
recognized certification or passage of a Division of Career Technical Education recognized workplace readiness assessment.

b. The high school readiness metric shall be the number and percentage of students meeting proficient or advanced on the grade eight (8) Idaho standards achievement test in mathematics and English language usage. Improvement shall be measured by year over year growth in the percentage of students scoring proficient or advanced.

(3-22-17)

c. The grade seven (7) readiness metric shall be the number and percentage of students meeting proficient or advanced on the grade six (6) Idaho standards achievement test in mathematics and English language usage. Improvement shall be measured by year over year growth in the percentage of students scoring proficient or advanced.

(3-22-17)

d. The grade four (4) reading readiness metric shall be the number and percentage of students reading at grade level on the spring grade three (3) statewide reading assessment. Improvement shall be measured by year over year growth in the percentage of students scoring at grade level.

(3-22-17)

e. The grade three (3) reading readiness metric shall be the number and percentage of students reading at grade level on the spring grade two (2) statewide reading assessment. Improvement shall be measured by year over year growth in the percentage of students scoring at grade level.

(3-22-17)

f. The grade two (2) reading readiness metric shall be the number and percentage of students reading at grade level on the spring grade one (1) statewide reading assessment. Improvement shall be measured by year over year growth in the percentage of students scoring at grade level.

(3-22-17)

g. The grade one (1) reading readiness metric shall be the number and percentage of students reading at grade level on the spring kindergarten statewide reading assessment. Improvement shall be measured by year over year growth in the percentage of students scoring at grade level.

(3-22-17)

05. Annual Literacy Intervention Plan. Annually each LEA will report on the effectiveness of the LEA’s literacy intervention plan. Plans and reports are due by October 1 of each year. Plans shall include at a minimum:

a. Projected literacy plan budget for the current school year;

(3-22-17)

b. Metrics chosen by the LEA to determine effectiveness of the literacy plan and annual performance benchmarks; and

(3-22-17)

c. Performance on metrics chosen to show program effectiveness for at a minimum the previous academic year.

(3-22-17)

06. College and Career Advising and Mentoring Plans. Annually each LEA shall submit their college and career advising and mentoring plan to the State Board of Education by October 1.

a. Plans shall include required metrics and at least one (1) or more additional metrics chosen by the LEA to determine effectiveness of the college and career advising and mentoring plan, baseline data and annual benchmarks.

(3-22-17)

b. Performance on all effectiveness metrics shall be reported annually in the LEA’s Continuous Improvement Plan annual report.

(3-22-17)

c. At a minimum effectiveness metrics must include:

(3-22-17)

i. Percent of learning plans reviewed annually by grade level, in grade nine (9) through grade twelve (12);

(3-22-17)

ii. Number and percent of students who go on to some form of postsecondary education one (1) and
two (2) years after graduation; and

iii. Number of students graduating high school with a career technical certificate or an associate
degree. (3-22-17)

802. LITERACY GROWTH TARGETS.

01. Statewide Trajectory Growth Targets. Statewide trajectory annual growth targets are based on
aggregated student performance on the spring administration of the statewide reading assessments. Local growth
targets are set by the LEA based on the LEA’s available resources and student demographics. Statewide trajectory
growth targets indicated the statewide goal for year over year increases in the percentage of students reading at grade
level.

a. Year one (1) and two (2):

i. Kindergarten -- one percent (1%). (3-29-17)

ii. Grade one (1) -- one percent (1%). (3-29-17)

iii. Grade two (2) -- one percent (1%). (3-29-17)

iv. Grade three (3) -- one percent (1%). (3-29-17)

b. Year three (3), four (4), five (5), and six (6):

i. Kindergarten -- one point eight percent (1.8%). (3-29-17)

ii. Grade one (1) -- two percent (2%). (3-29-17)

iii. Grade two (2) -- one point six percent (1.6%). (3-29-17)

iv. Grade three (3) -- one point two percent (1.2%). (3-29-17)

02. Annual Review. The State Board of Education will review the statewide student proficiency levels
and the statewide trajectory growth targets annually. (3-29-17)

803. STATEWIDE AVERAGE CLASS SIZE.

For the purpose of determining the statewide average class size used in school district staff allowance calculations,
school districts shall be grouped as follows:

01. Group 1. Group 1 shall consist of school districts with an elementary divisor, pursuant to Section
33-1004, Idaho Code, of twenty (20) for grades one (1) through three (3) and twenty-three (23) for grades four (4)
through six (6), and a secondary divisor of eighteen point five (18.5). (3-29-17)

02. Group 2. Group 2 will consist of school districts with an elementary divisor, pursuant to Section
33-1004, Idaho Code, of twenty (20) for grades one (1) through three (3) and twenty-three (23) for grades four (4)
through six (6), and a secondary divisor less than eighteen point five (18.5). (3-29-17)

03. Group 3. Group 3 will consist of school districts with elementary divisors, pursuant to Section 33-
1004, Idaho Code, of nineteen (19) or twenty (20) for grades one (1) through six (6), and a secondary divisor of less
than eighteen point five (18.5). (3-29-17)

04. Group 4. Group 4 will consist of school districts with elementary divisors, pursuant to Section 33-
1004, Idaho Code, of less than nineteen (19) for grades one (1) through six (6), and a secondary divisor of less than
eighteen point five (18.5). (3-29-17)

04. **Clinical Practice.** Student teaching or internship opportunities that provide candidates with an intensive and extensive culminating field-based set of responsibilities, assignments, tasks, activities, and assessments that demonstrate candidates’ progressive development of the professional knowledge, skills, and dispositions to be effective educators. Clinical practice includes student teaching and internship. (4-11-19)

05. **Credential.** The general term used to denote the document on which all of a person’s educational certificates and endorsements are listed. The holder is entitled to provide educational services in any and/or all areas listed on the credential. (3-16-04)

06. **Endorsement.** Term used to refer to the content area or specific area of expertise in which a holder is granted permission to provide services. (3-16-04)

07. **Field Experience.** Early and ongoing practice opportunities to apply content and pedagogical knowledge in Pre-K-12 settings to progressively develop and demonstrate knowledge, skills, and dispositions. (4-11-19)

08. **Idaho Student Achievement Standards.** Standards of achievement for Idaho’s K-12 students. See IDAPA 08.02.03, “Rules Governing Thoroughness.” (3-16-04)

09. **Individualized Professional Learning Plan.** An individualized professional development plan based on the Idaho framework for teaching evaluation as outlined in Section 120 of these rules to include interventions based on the individual’s strengths and areas of needed growth. (3-28-18)

10. **Institutional Recommendation.** Signed form or written verification from an accredited institution with a state board approved educator preparation program stating that an individual has completed the program, received a basic or higher rating in all components of the approved Idaho framework for teaching evaluation, has an individualized professional learning plan, has demonstrated the ability to produce measurable student achievement or student success, has the ability to create student learning objectives, and is now being recommended for state certification. Institutional recommendations must include statements of identified competency areas and grade ranges. Institutional Recommendation for administrators must additionally include a competency statement indicating proficiency in conducting accurate evaluations of instructional practice based upon the state’s framework for evaluation as outlined in Section 120 of these rules. (3-28-18)

11. **Internship.** Full-time or part-time supervised clinical practice experience in Pre-K-12 settings where candidates progressively develop and demonstrate their knowledge, skills, and dispositions. (4-11-19)

12. **Local Education Agency (LEA).** An Idaho public school district or charter school pursuant to Section 33-5203(8), Idaho Code. (3-29-17)

13. **Orientation.** School district/school process used to acquaint teachers new to district/school on its policies, procedures and processes. (3-16-04)

14. **Paraprofessional.** A noncertificated individual who is employed by a school district or charter school to support educational programming. Paraprofessionals must work under the direct supervision of a properly
certificated staff member for the areas they are providing support. Paraprofessionals cannot serve as the teacher of record and may not provide direct instruction to a student unless the paraprofessional is working under the direct supervision of a teacher.

**a.** To qualify as a paraprofessional the individual must have a high school diploma or general equivalency diploma (GED) and:

i. Demonstrate through a state board approved academic assessment knowledge of and the ability to assist in instructing or preparing students to be instructed as applicable to the academic areas they are providing support in; or

ii. Have completed at least two (2) years of study at an accredited postsecondary educational institution.; or

iii. Obtained an associate degree or higher level degree; demonstrate through a state board approved academic assessment knowledge of and the ability to assist in instructing or preparing students to be instructed as applicable to the academic areas they are providing support in.

**b.** Individuals who do not meet these requirements will be considered school or classroom aides.

**c.** Duties of a paraprofessional include, but are not limited to, one-on-one tutoring; assisting in classroom management; assisting in computer instruction; conducting parent involvement activities; providing instructional support in a library or media center; acting as a translator in instructional matters; and providing instructional support services. Non-instructional duties such as providing technical support for computers, personal care services, and clerical duties are generally performed by classroom or school aides, however, this does not preclude paraprofessionals from also assisting in these non-instructional areas.

15. **Pedagogy.** Teaching knowledge and skills.

16. **Practicum.** Full-time or part-time supervised, industry-based experience in an area of intended career technical education teaching field to extend understanding of industry standards, career development opportunities, and application of technical skills.

17. **Student Learning Objective (SLO).** A measurable, long-term academic growth target that a teacher sets at the beginning of the year for all student or for subgroups of students. SLOs demonstrate a teacher’s impact on student learning within a given interval of instruction based upon baseline data gathered at the beginning of the course.

18. **Student Teaching.** Extensive, substantive, and supervised clinical practice in Pre-K-12 schools for candidates preparing to teach.

19. **Teacher Leader.** A teacher who facilitates the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs.

008. -- 011. (RESERVED)

012. **ACCREDITED INSTITUTION.**
For purposes of educator certification, an accredited school, college, university, or other educator training institution is considered by the Idaho State Board of Education to be one that is accredited by a regional accrediting association recognized by the State Board of Education or an alternative or non-traditional model approved by the State Board of Education. (Sections 33-107; 33-114; 33-1203, Idaho Code)

013. **CERTIFICATION OF TEACHERS TRAINED IN FOREIGN INSTITUTIONS.**
Considering credentials for teacher certification submitted by persons trained in the institutions of foreign countries will be initiated by a translation and evaluation of the applicant’s credentials.

015. IDAHO EDUCATOR CREDENTIAL. The State Board of Education authorizes the State Department of Education to issue certificates and endorsements to those individuals meeting the specific requirements for each area provided herein. (3-25-16)

01. Standard Instructional Certificate. A Standard Instructional Certificate makes an individual eligible to teach all grades, subject to the grade ranges and subject areas of the valid endorsement(s) attached to the certificate. A standard instructional certificate may be issued to any person who has a baccalaureate degree from an accredited college or university and who meets the following requirements:

   a. Professional education requirements:

      i. Earned a minimum of twenty (20) semester credit hours, or thirty (30) quarter credit hours, in the philosophical, psychological, methodological foundations, instructional technology, and in the professional subject matter, which shall include at least three (3) semester credit hours, or four (4) quarter credit hours, in reading and its application to the content area;

      ii. The required minimum credit hours must include at least six (6) semester credit hours, or nine (9) quarter credit hours, of student teaching in the grade range and subject areas as applicable to the endorsement; and

   b. Completed an approved educator preparation program and have an institutional recommendation from an accredited college or university specifying the grade ranges and subjects for which they are eligible to receive an endorsement in;

   c. Individuals seeking endorsement in a secondary grade (pursuant to Section 33-1001, Idaho Code) range must complete preparation in at least two (2) fields of teaching. One (1) of the teaching fields must consist of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours and a second field of teaching consisting of at least twenty (20) semester credit hours, or thirty (30) quarter credit hours. Preparation of not less than forty-five (45) semester credit hours, or sixty-seven (67) quarter credit hours, in a single subject area may be used in lieu of the two (2) teaching field requirements;

   d. Proficiency in areas noted above is measured by completion of the credit hour requirements provided herein. Additionally, each candidate must meet or exceed the state qualifying score on the state board approved content area and pedagogy assessments.

   e. The Standard Instructional Certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the certificate.

(3-29-17)
02. **Pupil Service Staff Certificate.** Persons who serve as school counselors, school psychologists, speech-language pathologists, school social workers, school nurses and school audiologists are required to hold the Pupil Service Staff Certificate, with the respective endorsement(s) for which they qualify. Persons who serve as an occupational therapist or physical therapist may be required, as determined by the local educational agency, to hold the Pupil Service Staff Certificate with respective endorsements for which they qualify.

   a. **School Counselor (K-12) Endorsement.** To be eligible for a Pupil Service Staff Certificate - School Counselor (K-12) endorsement, a candidate must have satisfied the following requirements. 04. Certification Standards For Career Technical Educators. Teachers of career technical courses or programs in secondary schools must hold an occupational specialist certificate and an endorsement in an appropriate occupational discipline. All occupational certificates must be approved by the Division of Career Technical Education regardless of the route an individual is pursuing to receive the certificate.

(3-28-18)
05. **Degree Based Career Technical Certification.** (3-25-16)

   a. Individuals graduating from an approved occupational teacher preparation degree program qualify to teach in the following five (5) disciplines: agricultural science and technology; business technology education; computer science technology; engineering; family and consumer sciences; marketing technology education; and technology education. Occupational teacher preparation course work must meet the Idaho Standards for the Initial Certification of Professional School Personnel. The occupational teacher education program must provide appropriate content to constitute a major in the identified field. Student teaching shall be in an approved program and include experiences in the major field. Applicants shall have accumulated one thousand (1,000) clock hours of related work experience or practicum in their respective field of specialization, as approved by the Division of Career Technical Education. The certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years pursuant to Section 060 of these rules.

   b. The Career Technical Administrator certificate is required for an individual serving as an administrator, director, or manager of career technical education programs at the state Division of Career Technical Education or in Idaho public schools. Individuals must meet one (1) of the two (2) following prerequisites to qualify for the Career Technical Administrator Certificate. The certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years pursuant to Section 060 of these rules to renew.

      i. Qualify for or hold an Advanced Occupational Specialist certificate or hold an occupational endorsement on a standard instructional certificate; provide evidence of a minimum of four (4) years teaching, three (3) of which must be in a career technical discipline; hold a master's degree; and complete at least fifteen (15) semester credits of administrative course work.

         (1) Applicants must have completed credits in: education finance, administration and supervision of personnel, legal aspects of education; and conducting evaluations using the statewide framework for teacher evaluations.

         (2) Additional course work may be selected from any of the following areas: administration and supervision of occupational programs; instructional supervision; administration internship; curriculum development; curriculum evaluation; research in curriculum; school community relations; communication; teaching the adult learner; coordination of work-based learning programs; and/or measurement and evaluation.

      ii.    c. Work-Based Learning Coordinator Endorsement. Educators assigned to coordinate approved work-based experiences must hold the Work-Based Learning Coordinator endorsement. To be eligible, applicants must hold an occupational endorsement on the Standard Instructional Certificate or qualify for an Occupational Specialist Certificate, plus complete course work in coordination of work-based learning programs.

   d. Career Counselor Endorsement. The endorsement for a Career Counselor may be issued to applicants who hold a current Pupil Service Staff Certificate with a School Counselor (K-12) endorsement, and who have satisfied the following career technical requirement: Career Pathways and Career Technical Guidance; Principles/Foundations of Career Technical Education; and Theories of Occupational Choice.

06. **Industry-Based Occupational Specialist Certificate.** The industry-based Occupational Specialist Certificates are industry-based career technical certifications issued in lieu of a degree-based career technical certificate. Certificate holders must meet the following eligibility requirements:

   a. Be at least twenty-two (22) years of age; document recent, gainful employment in the area for which certification is requested; possess either a high school diploma or General Educational Development (GED) certificate; meet provisions of Idaho Code; and, verify technical skills through work experience, industry certification or testing as listed below. When applicable, requirements of occupationally related state agencies must also be met. Since educational levels and work experiences vary, applicants may be determined highly qualified under any one (1)
of the following three (3) options: (3-28-18)

i. Have six (6) years or twelve thousand (12,000) hours of recent, gainful employment in the occupation for which certification is requested. Up to forty-eight (48) months credit or up to eight thousand (8,000) hours can be counted toward the six (6) years or twelve thousand (12,000) hours on a month-to-month basis for journeyman training or completed postsecondary training in a career technical education program; or (3-28-18)

ii. Have a baccalaureate degree in the specific occupation or related area, plus two (2) years or four thousand (4,000) hours of recent, gainful employment in the occupation for which certification is required, at least half of which must have been during the immediate previous five (5) years; or (3-28-18)

iii. Have completed a formal apprenticeship program in the occupation or related area for which certification is requested plus two (2) years or four thousand (4,000) hours of recent, gainful, related work experience, at least half of which must have been completed in the immediate previous five (5) years. (3-28-18)

b. Limited Occupational Specialist Certificate. This certificate is issued to individuals who are new to teaching in Idaho public schools or new to teaching in career technical education in Idaho public schools. The certificate is an interim certificate and is valid for three (3) years and is non-renewable. Applicants must meet all of the minimum requirements established in Subsection 015.06.a. of these rules. Individuals on a limited occupational specialist certificate must complete one (1) of the two (2) following pathways during the validity period of the certificate: (3-28-18)

i. Pathway I – Coursework: Within the three-year period of the Limited Occupational Specialist Certificate, the instructor must satisfactorily complete the pre-service training prescribed by the Division of Career Technical Education and demonstrate competencies in principles/foundations of occupational education and methods of teaching occupational education. Additionally, the instructor must satisfactorily demonstrate competencies in two (2) of the following areas: career pathways and guidance; analysis, integration, and curriculum development; and measurement and evaluation. (3-28-18)

ii. Pathway II – Cohort Training: Within the first twelve (12) months, the holder must enroll in the Division of Career Technical Education sponsored two-year cohort training and complete the two (2) training within the three-year validity period of the interim certificate. (3-28-18)

c. Standard Occupational Specialist Certificate. (3-28-18)

i. This certificate is issued to individuals who have held a limited occupational specialist certificate and completed one (1) of the pathways for completions. (3-28-18)

ii. The Standard Occupational Specialist Certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years pursuant to Section 060 of these rules to renew. Credit equivalency will be based on verification of forty-five (45) hours of participation at approved technical conferences, institutes, or workshops where participation is prorated at the rate of fifteen (15) hours per credit; or one hundred twenty (120) hours of approved related work experience where hours worked may be prorated at the rate of forty (40) hours per credit; or any equivalent combination thereof, and having on file a new professional development plan for the next certification period. (3-28-18)

d. Advanced Occupational Specialist Certificate. This certificate is issued to individuals who: (3-29-17)

i. Are eligible for the Standard Occupational Specialist Certificate; (3-28-18)

ii. Provide evidence of completion of a teacher training degree program or eighteen (18) semester credits of Division of Career Technical Education approved education or content-related course work in addition to the twelve (12) semester credits required for the Standard Occupational Specialist Certificate (a total of thirty (30) semester credits); and (3-28-18)

iii. Have on file a new professional development plan for the next certification period. (3-28-18)
iv. The Advanced Occupational Specialist Certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years pursuant to Section 060 of these rules to renew. (3-28-18)

07. Postsecondary Specialist. A Postsecondary Specialist certificate will be granted to a current academic faculty member whose primary employment is with any accredited Idaho postsecondary institution. To be eligible to teach in the public schools under this postsecondary specialist certificate, the candidate must supply a recommendation from the employing institution (faculty's college dean). The primary use of this state-issued certificate will be for distance education, virtual classroom programs, and for public and postsecondary partnerships.

   a. Renewal. This certificate is good for five (5) years and is renewable. To renew the certificate, the renewal application must be accompanied with a new written recommendation from the postsecondary institution (faculty's college dean level or higher). (3-29-17)

   b. Fees. The fee is the same as currently in effect for an initial or renewal certificate as established in Section 066 of these rules. (3-25-16)

   c. The candidate must meet the following qualifications:

      i. Hold a master's degree or higher in the content area being taught; (3-25-16)

      ii. Be currently employed by the postsecondary institution in the content area to be taught; and (3-25-16)

      iii. Complete and pass a criminal history background check as required according to Section 33-130, Idaho Code. (3-25-16)

08. American Indian Language. Each Indian tribe shall provide to the State Department of Education the names of those highly and uniquely qualified individuals who have been designated to teach the tribe's native language in accordance with Section 33-1280, Idaho Code. Individuals identified by the tribe(s) may apply for an Idaho American Indian Certificate as American Indian languages teachers.

   a. The Office of Indian Education at the State Department of Education will process an application that has met the requirements of the Tribe(s) for an American Indian languages teacher. (3-25-16)

   b. Once an application with Tribal approval has been received, it will be reviewed and, if approved, it will be forwarded to the Office of Certification for a criminal history background check as required in Section 33-130, Idaho Code. The application must include a ten-finger fingerprint card or scan and a fee for undergoing a background investigation check pursuant to Section 33-130, Idaho Code. (3-28-18)

   c. The Office of Certification will review the application and verify the applicant is eligible for an Idaho American Indian Certificate. The State Department of Education shall authorize an eligible applicant as an American Indian languages teacher. An Idaho American Indian Certificate is valid for not more than five (5) years. Individuals may apply for a renewal certificate. (3-25-16)

09. Junior Reserved Officer Training Corps (Junior ROTC) Instructors.

   a. Each school district with a Junior ROTC program shall provide the State Department of Education with a list of the names of those individuals who have completed an official armed forces training program to qualify as Junior ROTC instructors in high schools. (3-25-16)

   b. Each school district with a Junior ROTC program shall provide the State Department of Education with a notarized copy of their certificate(s) of completion. (3-25-16)

   c. Authorization Letter. Upon receiving the items identified in Subsections 015.09.a. and 09.b., the State Department of Education shall issue a letter authorizing these individuals as Junior ROTC instructors. (3-29-17)
10. **Additional Renewal Requirements.** In addition to specific certificate or endorsement renewal requirements, applicants must meet the following renewal requirements as applicable: (3-25-16)

   a. **Mathematics In-Service Program.** In order to recertify, the state board approved mathematics instruction course titled “Mathematical Thinking for Instruction,” or another State Department of Education approved alternative course, shall be required. The “Mathematical Thinking for Instruction” course consists of three (3) credits. 06. **Foreign Institutions.** An educator having graduated from a foreign institution may be issued a non-renewable, three-year interim certificate. The applicant must also complete the requirements listed in Section 013 of these rules. (3-28-18)

07. **Codes of Ethics.** All laws and rules governing standard certificated staff with respect to conduct, discipline, and professional standards shall apply to all certified staff serving in an Idaho public school, including those employed under an interim certificate. (3-28-18)

017. **CONTENT, PEDAGOGY AND PERFORMANCE ASSESSMENT FOR CERTIFICATION.**

01. **Assessments.** State Board of Education approved content, pedagogy and performance area assessments shall be used in the state of Idaho to ensure qualified teachers are employed in Idaho’s classrooms. The Professional Standards Commission shall recommend assessments and qualifying scores to the State Board of Education for approval. (4-2-08)
02. **Out-of-State Waivers.** An out-of-state applicant for Idaho certification holding a current certificate may request a waiver from the above requirement. The applicant shall provide evidence of passing a state board approved content, pedagogy and performance area assessment(s) or hold current National Board for Professional Standards Teaching Certificate. (4-11-19)

03. **Idaho Comprehensive Literacy Assessment.** All applicants for initial Idaho certification (Kindergarten through grade twelve (12)) from an Idaho approved educator preparation program must demonstrate competency in comprehensive literacy. Areas to be included as parts of the assessment are: phonological awareness, phonics, fluency, vocabulary, comprehension, writing, and assessments and intervention strategies. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its educator preparation program. The assessment must measure teaching skills and knowledge congruent with current research on best literacy practices for elementary students or secondary students (adolescent literacy) dependent upon level of certification and English Language Learners. In addition, the assessment must measure understanding and the ability to apply strategies and beliefs about language, literacy instruction, and assessments based on current research and best practices congruent with International Reading Association/National Council of Teachers of English standards, National English Language Learner’s Association professional teaching standards, National Council for Accreditation of Teacher Education standards, and state accreditation standards. (4-11-19)

018. -- 020. (RESERVED)

021. **ENDORSEMENTS.**

Holders of a Standard Instructional Certificate, Standard Occupational Specialist Certificate, and Advanced Occupational Specialist Certificate may be granted endorsements in subject areas as provided herein. Instructional staff are eligible to teach in the grades and content areas of their endorsements. Idaho preparation programs shall prepare candidates for endorsements in accordance with the Idaho Standards for Initial Certification of Professional School Personnel. An official statement from the college of education of competency in a teaching area or field is acceptable in lieu of required credits if such statements are created in consultation with the department or division of the accredited college or university in which the competency is established and are approved by the director of teacher education of the recommending college or university. Statements must include the number of credits the competency evaluation is equivalent to. To add an endorsement to an existing credential, an individual shall complete the credit hour requirements as provided herein and shall also meet or exceed the state qualifying score on appropriate, state approved content, pedagogy and performance assessments. When converting semester credit hours to quarter credit hours, two (2) semester credit hours is equal to three (3) quarter credit hours. (3-28-18)

06. **Background Investigation Checks for Certification.**  

a. The SDE will make the final determination if an applicant is eligible for Idaho certification.
b. If the SDE makes a determination that the applicant is not eligible for Idaho certification, the SDE may deny the applicant Idaho certification. Upon receiving the written denial, the applicant may request a hearing pursuant to Section 33-1209, Idaho Code.

07. Substitute Teachers. Substitute teachers as defined in Section 33-512(15), Idaho Code, must undergo a background investigation check. The SDE shall maintain a statewide substitute teacher list. To remain on the list a substitute teacher shall undergo a background investigation check every five (5) years in accordance with Section 33-512, Idaho Code.

08. Break In Service. (4-9-09)

a. When an employee returns to any LEA, private or parochial school, or contractor after a break in service, a new background investigation check must be completed pursuant to Section 33-130, Idaho Code.

b. When an employee changes employment between LEAs a new background investigation check must be completed pursuant to Section 33-130, Idaho Code.

09. Postsecondary. (4-9-09)

a. The postsecondary program will submit a completed fingerprint card or scan for all candidates who are applying for unsupervised contact with students in a public K-12 setting including student teaching, internships, or other types of candidate training.

b. The SDE will make a preliminary determination based on the CHC result if the candidate is eligible for certification in Idaho. This decision will be forwarded to the postsecondary program concerning the eligibility of their candidate.

076. CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE). Believing in the worth and dignity of each human being, the professional educator recognizes the supreme importance of pursuing truth, striving toward excellence, nurturing democratic citizenship and safeguarding the freedom to learn and to teach while guaranteeing equal educational opportunity for all. The professional educator accepts the responsibility to practice the profession according to the highest ethical principles. The Code of Ethics for Idaho Professional Educators symbolizes the commitment of all Idaho educators and provides principles by which to judge conduct.

01. Aspirations and Commitments. (3-20-04)

a. The professional educator aspires to stimulate the spirit of inquiry in students and to provide opportunities in the school setting that will help them acquire viable knowledge, skills, and understanding that will meet their needs now and in the future.

b. The professional educator provides an environment that is safe to the cognitive, physical and psychological well-being of students and provides opportunities for each student to move toward the realization of his goals and potential as an effective citizen.

c. The professional educator, recognizing that students need role models, will act, speak and teach in such a manner as to exemplify nondiscriminatory behavior and encourage respect for other cultures and beliefs.

d. The professional educator is committed to the public good and will help preserve and promote the principles of democracy. He will provide input to the local school board to assist in the board’s mission of developing and implementing sound educational policy, while promoting a climate in which the exercise of professional judgment is encouraged.

e. The professional educator believes the quality of services rendered by the education profession
directly influences the nation and its citizens. He strives, therefore, to establish and maintain the highest set of professional principles of behavior, to improve educational practice, and to achieve conditions that attract highly qualified persons to the profession. (4-11-06)

f. The professional educator regards the employment agreement as a pledge to be executed in a manner consistent with the highest ideals of professional service. He believes that sound professional personal relationships with colleagues, governing boards, and community members are built upon integrity, dignity, and mutual respect. The professional educator encourages the practice of the profession only by qualified persons. (4-11-06)

02. Principle I - Professional Conduct. A professional educator abides by all federal, state, and local education laws and statutes. Unethical conduct shall include the conviction of any felony or misdemeanor offense set forth in Section 33-1208, Idaho Code. (3-20-14)

03. Principle II - Educator/Student Relationship. A professional educator maintains a professional relationship with all students, both inside and outside the physical and virtual classroom. Unethical conduct includes, but is not limited to:

a. Committing any act of child abuse, including physical or emotional abuse; (3-20-04)

b. Committing any act of cruelty to children or any act of child endangerment; (3-20-04)

c. Committing or soliciting any sexual act from any minor or any student regardless of age; (3-20-04)

d. Committing any act of harassment as defined by district policy; (4-11-06)

e. Soliciting, encouraging, or consummating a romantic or inappropriate relationship (whether written, verbal, virtual, or physical) with a student, regardless of age; (3-20-14)

f. Using inappropriate language including, but not limited to, swearing and improper sexual comments (e.g., sexual innuendoes or sexual idiomatic phrases); (3-20-04)

g. Taking or possessing images (digital, photographic, or video) of students of a harassing, confidential, or sexual nature; (4-11-15)

h. Inappropriate contact with any minor or any student regardless of age using electronic media; (4-11-06)

i. Furnishing alcohol or illegal or unauthorized drugs to any student or allowing or encouraging a student to consume alcohol or unauthorized drugs except in a medical emergency; (3-20-14)

j. Conduct that is detrimental to the health or welfare of students; and (3-20-14)

k. Deliberately falsifying information presented to students. (3-20-14)

04. Principle III - Alcohol and Drugs Use or Possession. A professional educator refrains from the abuse of alcohol or drugs during the course of professional practice. Unethical conduct includes, but is not limited to:

a. Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming illegal or unauthorized drugs; (3-20-04)

b. Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming alcohol; (3-20-04)

c. Inappropriate or illegal use of prescription medications on school premises or at any school-sponsored events, home or away; (4-11-06)
d. Inappropriate or illegal use of drugs or alcohol that impairs the individual’s ability to function; and (4-11-06)

e. Possession of an illegal drug as defined in Chapter 27, Idaho Code, Uniform Controlled Substances. (3-20-04)

05. **Principle IV - Professional Integrity.** A professional educator exemplifies honesty and integrity in the course of professional practice. Unethical conduct includes, but is not limited to: (3-20-14)

a. Fraudulently altering or preparing materials for licensure or employment; (3-20-04)

b. Falsifying or deliberately misrepresenting professional qualifications, degrees, academic awards, and related employment history when applying for employment or licensure; (3-20-04)

c. Failure to notify the state at the time of application for licensure of past revocations or suspensions of a certificate or license from another state; (3-20-04)

d. Failure to notify the state at the time of application for licensure of past criminal convictions of any crime violating the statutes or rules governing teacher certification; (3-20-14)

e. Falsifying, deliberately misrepresenting, or deliberately omitting information regarding the evaluation of students or personnel, including improper administration of any standardized tests (changing test answers; copying or teaching identified test items; unauthorized reading of the test to students, etc.); (4-11-06)

f. Falsifying, deliberately misrepresenting, or deliberately omitting reasons for absences or leaves; (3-20-04)

g. Falsifying, deliberately misrepresenting, or deliberately omitting information submitted in the course of an official inquiry or investigation; (3-20-14)

h. Falsifying, deliberately misrepresenting, or deliberately omitting material information on an official evaluation of colleagues; and (3-20-14)

i. Failure to notify the state of any criminal conviction of a crime violating the statutes and/or rules governing teacher certification. (3-20-14)

06. **Principle V - Funds and Property.** A professional educator entrusted with public funds and property honors that trust with a high level of honesty, accuracy, and responsibility. Unethical conduct includes, but is not limited to: (3-20-14)

a. Misuse, or unauthorized use, of public or school-related funds or property; (3-20-04)

b. Failure to account for school funds collected from students, parents, or patrons; (3-20-14)

c. Submission of fraudulent requests for reimbursement of expenses or for pay; (3-20-04)

d. Co-mingling of public or school-related funds in personal bank account(s); (3-20-04)

e. Use of school property for private financial gain; (3-20-14)

f. Use of school computers to deliberately view or print pornography; and, (3-20-04)

g. Deliberate use of poor budgeting or accounting practices. (3-20-04)

07. **Principle VI - Compensation.** A professional educator maintains integrity with students, colleagues, parents, patrons, or business personnel when accepting gifts, gratuities, favors, and additional
compensation. Unethical conduct includes, but is not limited to:

a. Unauthorized solicitation of students or parents of students to purchase equipment, supplies, or services from the educator who will directly benefit;

b. Acceptance of gifts from vendors or potential vendors for personal use or gain where there may be the appearance of a conflict of interest;

c. Tutoring students assigned to the educator for remuneration unless approved by the local board of education; and,

d. Soliciting, accepting, or receiving a financial benefit greater than fifty dollars ($50) as defined in Section 18-1359(b), Idaho Code.

e. Keeping for oneself donations, whether money or items, that were solicited or accepted for the benefit of a student, class, classroom, or school.

08. Principle VII - Confidentiality. A professional educator complies with state and federal laws and local school board policies relating to the confidentiality of student and employee records, unless disclosure is required or permitted by law. Unethical conduct includes, but is not limited to:

a. Sharing of confidential information concerning student academic and disciplinary records, personal confidences, health and medical information, family status or income, and assessment or testing results with inappropriate individuals or entities; and

b. Sharing of confidential information about colleagues obtained through employment practices with inappropriate individuals or entities.

09. Principle VIII - Breach of Contract or Abandonment of Employment. A professional educator fulfills all terms and obligations detailed in the contract with the local board of education or education agency for the duration of the contract. Unethical conduct includes, but is not limited to:

a. Abandoning any contract for professional services without the prior written release from the contract by the employing school district or agency;

b. Willfully refusing to perform the services required by a contract; and,

c. Abandonment of classroom or failure to provide appropriate supervision of students at school or school-sponsored activities to ensure the safety and well-being of students.

10. Principle IX - Duty to Report. A professional educator reports breaches of the Code of Ethics for Idaho Professional Educators and submits reports as required by Idaho Code. Unethical conduct includes, but is not limited to:

a. Failure to comply with Section 33-1208A, Idaho Code, (reporting requirements and immunity);

b. Failure to comply with Section 16-1605, Idaho Code, (reporting of child abuse, abandonment or neglect);

c. Failure to comply with Section 33-512B, Idaho Code, (suicidal tendencies and duty to warn); and

d. Having knowledge of a violation of the Code of Ethics for Idaho Professional Educators and failing to report the violation to an appropriate education official.

11. Principle X - Professionalism. A professional educator ensures just and equitable treatment for all
members of the profession in the exercise of academic freedom, professional rights and responsibilities while following generally recognized professional principles. Unethical conduct includes, but is not limited to:

a. Any conduct that seriously impairs the Certificate holder’s ability to teach or perform his professional duties;

b. Committing any act of harassment toward a colleague;

c. Failure to cooperate with the Professional Standards Commission in inquiries, investigations, or hearings;

d. Using institutional privileges for the promotion of political candidates or for political activities, except for local, state or national education association elections;

e. Willfully interfering with the free participation of colleagues in professional associations; and

f. Taking or possessing images (digital, photographic or video) of colleagues of a harassing, confidential, or sexual nature.

077. DEFINITIONS FOR USE WITH THE CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).

01. Administrative Complaint. A document issued by the State Department of Education outlining the specific, purported violations of Section 33-1208, Idaho Code, or the Code of Ethics for Idaho Professional Educators.

03. Certificate. A document issued by the Department of Education under the authority of the State Board of Education allowing a person to serve in any elementary or secondary school in the capacity of teacher, supervisor, administrator, education specialist, school nurse or school librarian (Section 33-1201, Idaho Code).

04. Certificate Denial. The refusal of the state to grant a certificate for an initial or reinstatement application.

05. Certificate Suspension. A time-certain invalidation of any Idaho certificate as determined by a stipulated agreement or a due process hearing panel as set forth in Section 33-1209, Idaho Code.

06. Complaint. A signed document defining the allegation that states the specific ground or grounds for revocation, suspension, denial, place reasonable conditions on a certificate or issuance of a letter of reprimand (Section 33-1209(1), Idaho Code). The State Department of Education may initiate a complaint.

07. Conditional Certificate. Allows an educator to retain licensure under certain stated Certificate conditions as determined by the Professional Standards Commission (Section 33-1209(10), Idaho Code).

08. Contract. Any signed agreement between the school district and a certificated educator pursuant to Section 33-513(1), Idaho Code.

09. Conviction. Refers to all instances regarding a finding of guilt by a judge or jury; a plea of guilt by Nolo Contendere or Alford plea; or all proceedings in which a sentence has been suspended, deferred or withheld.

10. Educator. A person who holds or applies for an Idaho Certificate (Section 33-1001(16) and Section 33-1201, Idaho Code).
11. **Education Official.** An individual identified by local school board policy, including, but not limited to, a superintendent, principal, assistant principal, or school resource officer (SRO). (3-20-04)

12. **Executive Committee.** A decision-making body comprised of members of the Professional Standards Commission, including the chair and/or vice-chair of the Commission. A prime duty of the Committee is to review purported violations of the Code of Ethics for Idaho Professional Educators to determine probable cause and direction for possible action to be taken against a Certificate holder. (3-20-14)

13. **Hearing.** A formal review proceeding that ensures the respondent due process. The request for a hearing is initiated by the respondent and is conducted by a panel of peers. (3-20-04)

14. **Hearing Panel.** A minimum of three (3) educators appointed by the chair of the Professional Standards Commission and charged with the responsibility to make a final determination regarding the charges specifically defined in the Administrative Complaint. (3-20-04)

15. **Investigation.** The process of gathering factual information concerning a valid, written complaint in preparation for review by the Professional Standards Commission Executive Committee, or following review by the Executive Committee at the request of the deputy attorney general assigned to the Department of Education. (3-20-14)

16. **Minor.** Any individual who is under eighteen (18) years of age. (3-20-04)

17. **Not-Sufficient Grounds.** A determination by the Executive Committee that there is not-sufficient evidence to take action against an educator’s certificate. (3-20-14)

18. **Principles.** Guiding behaviors that reflect what is expected of professional educators in the state of Idaho while performing duties as educators in both the private and public sectors. (3-20-04)

19. **Reprimand.** A written letter admonishing the Certificate holder for his conduct. The reprimand cautions that further unethical conduct may lead to consideration of a more severe action against the holder’s Certificate. (3-20-04)

20. **Respondent.** The legal term for the professional educator who is under investigation for a purported violation of the Code of Ethics for Idaho Professional Educators. (3-20-04)

21. **Revocation.** The invalidation of any Certificate held by the educator. (3-20-04)

22. **Stipulated Agreement.** A written agreement between the respondent and the Professional Standards Commission to resolve matters arising from an allegation of unethical conduct following a complaint or an investigation. The stipulated agreement is binding to both parties and is enforceable under its own terms, or by subsequent action by the Professional Standards Commission. (3-20-04)

23. **Student.** Any individual enrolled in any Idaho public or private school from preschool through grade 12. (3-20-04)

24. **Sufficient Grounds.** A determination by the Executive Committee that sufficient evidence exists to issue an Administrative Complaint. (3-20-04)

078. -- 099. (RESERVED)

100. **OFFICIAL VEHICLE FOR APPROVING EDUCATOR PREPARATION PROGRAMS.**

Section 33-114, Idaho Code

01. **The Official Vehicle for the Approval of Educator Preparation Programs.** The official vehicle for the approval of traditional educator preparation programs is the Council for the Accreditation of Educator Preparation (CAEP) standards and the approved Idaho Standards for the Initial Certification of Professional School
Personnel. The Idaho Standards are based upon the accepted national standards for educator preparation and include state-specific, core teaching requirements. The State Department of Education will transmit to the head of each Idaho college or Department of Education a copy of all revisions to the Idaho Standards for the Initial Certification of Professional School Personnel. Such revisions will take effect and must be implemented within a period not to exceed two (2) years after notification of such revision. (4-11-19)

02. Non-Traditional Educator Preparation Program. The State Board of Education must approve all non-traditional route to teacher certification programs. The programs must include, at a minimum, the following components:

- Pre-assessment of teaching and content knowledge; (3-25-16)
- An academic advisor with knowledge of the prescribed instruction area; (3-25-16)
- Exams of pedagogy and content knowledge; and (3-25-16)
- Be aligned to the Idaho Standards for the Initial Certification of Professional School Personnel. (3-25-16)

03. Reference Availability. The Idaho Standards for the Initial Certification of Professional School Personnel, incorporated by reference in Subsection 004.01, are available for inspection on the Office of the State Board of Education’s website at www.boardofed.idaho.gov. (3-29-12)

04. Continuing Approval.

- The state of Idaho will follow the Council for Accreditation of Educator Preparation (CAEP) standards model by which institutions shall pursue continuing approval through a full program review every seven (7) years. The full program review shall be based upon the Idaho Standards for Initial Certification of Professional School Personnel. (4-11-19)
- The state of Idaho will additionally conduct focused reviews of state-specific, core teaching requirements in the interim, not to exceed every third year following the full program review. (3-29-12)
- All approved non-traditional educator preparation programs will be reviewed for continued approval on the same schedule as traditional educator preparation programs. Reviews will include determination of continued alignment with the approved Idaho Standards for the Initial Certification of Professional School Personnel and effectiveness of program completers. (4-11-19)

05. Payment Responsibilities for Educator Preparation Program Reviews. The Professional Standards Commission is responsible for Idaho educator preparation program reviews, including assigning responsibility for paying for program reviews. To implement the reviews, it is necessary that:

- The Professional Standards Commission pay for all state review team expenses for on-site teacher preparation reviews from its budget. (3-25-16)
- Requesting institutions pay for all other expenses related to on-site educator preparation program reviews, including the standards review. (4-11-19)

110. PERSONNEL STANDARDS.
The State Board of Education supports the efforts made by the Idaho Legislature to lower class size. Significant progress has been made in grades one through three (1-3). The State Board of Education believes that class sizes in grades four through six (4-6) are too high. Districts are encouraged to lower all class sizes as funds become available. Each district will develop personnel policies and procedures to implement the educational program of the district. The policies and procedures will address representation in each of the following personnel areas, as appropriate to student enrollment and the needs of each attendance area. Districts should strive to achieve ratios consistent with state class size ratio goals.

* The stated pupil to personnel ratio is the goal; each school district will assign personnel as appropriate to student enrollment and the needs of each attendance area.

Classroom Assistants - State Goal: will be provided where the student/teacher ratio is deemed excessive by the district or where other student special needs exist (e.g., limited English proficiency or special education).

Classified Personnel - State Goal: will be employed in each building to support the needs of the staff, students, and community. (4-1-97)

111. BULLYING, HARASSMENT AND INTIMIDATION PREVENTION AND RESPONSE.

01. Dissemination of Information. School districts and charter schools shall make reasonable efforts to ensure that information on harassment, intimidation and bullying of students is disseminated annually to all school personnel, parents and students. (3-29-17)

02. Professional Development. The content of ongoing professional development for school staff related to bullying, harassment and intimidation shall include:

a. School philosophy regarding school climate and student behavior expectations; (3-29-17)

b. Definitions of bullying, harassment, and intimidation; (3-29-17)

c. School prevention strategies or programs including the identification of materials to be distributed annually to students and parents; (3-29-17)

d. Expectations of staff intervention for bullying, harassment, and intimidation; (3-29-17)

e. School process for responding to bullying, harassment, and intimidation including the reporting process for students and staff, investigation protocol, the involvement of law enforcement, related student support services and parental involvement; and (3-29-17)
03. **Graduated Consequences.** Graduated consequences for a student who commits acts of bullying, harassment, and intimidation shall include a series of measures proportional to the act(s) committed and appropriate to the severity of the violation as determined by the school board of trustees, school administrators, or designated personnel depending upon the level of discipline. Graduated consequences should be in accordance with the nature of the behavior, the developmental age of the student, and the student’s history of problem behaviors and performance.

   a. Graduated consequences may include, but are not limited to:
      i. Meeting with the school counselor;
      ii. Meeting with the school principal and student’s parents or guardian;
      iii. Detention, suspension or special programs; and
      iv. Expulsion.

   b. The graduated consequences are not intended to prevent or prohibit the referral of a student who commits acts of harassment, intimidation or bullying to available outside counseling services or to law enforcement, or both, pursuant to Section 18-917A, Idaho Code.

   c. Students with disabilities may be afforded additional protections under the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act; school districts and charter schools shall comply with applicable state and federal law when disciplining students with individualized education programs (IEPs) or 504 plans for committing acts of bullying, harassment, and intimidation.

04. **Intervention.** School district and charter school employees are authorized and expected to intervene or facilitate intervention on behalf of students facing harassment, intimidation, and bullying. Intervention shall be reasonably calculated to:

   a. Correct the problem behavior;
   b. Prevent another occurrence of the problem;
   c. Protect and provide support for the victim of the act; and
   d. Take corrective action for documented systemic problems related to harassment, intimidation, or bullying.

05. **Reporting.** Annual reporting will occur at the end of the school year through an aggregate report identifying the total number of bullying incidents by school districts and charter schools, grade level, gender, and repeat offenders. The State Department of Education shall provide school districts and charter schools with the guidelines and forms for reporting.

112. -- 119. (RESERVED)

120. **LOCAL DISTRICT EVALUATION POLICY -- INSTRUCTIONAL STAFF AND PUPIL SERVICE STAFF CERTIFICATE HOLDERS.**

Each school district board of trustees will develop and adopt policies for certified staff performance evaluation using multiple measures in which criteria and procedures for the evaluation of certificated personnel are research based. For pupil service staff, those standards shall be aligned with the profession’s national standards. For instructional staff, those standards shall be aligned to Charlotte Danielson Framework for Teaching Second Edition domains and components specified in Subsection 120.01 of this rule, and must be determined based on professional practice. For all certification personnel, domain or component ratings, or both, may be weighted based on the individual’s individualized professional learning plan. The summative evaluation rating must be based on a combination of
professional practice and student achievement as specified in Subsections 120.02 and 120.03. The process of developing criteria and procedures for certificated personnel evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers, and parents. The evaluation policy will be a matter of public record and communicated to the certificated personnel for whom it is written.

01. **Standards.** Each district evaluation model shall be aligned to state minimum standards that are based on Charlotte Danielson’s Framework for Teaching Second Edition domains and components of instruction. Those domains and components include:

a. Domain 1 - Planning and Preparation:
   i. Demonstrating Knowledge of Content and Pedagogy;
   ii. Demonstrating Knowledge of Students;
   iii. Setting Instructional Outcomes;
   iv. Demonstrating Knowledge of Resources;
   v. Designing Coherent Instruction; and
   vi. Designing Student Assessments.

b. Domain 2 - The Classroom Environment:
   i. Creating an Environment of Respect and Rapport;
   ii. Establishing a Culture for Learning;
   iii. Managing Classroom Procedures;
   iv. Managing Student Behavior; and
   v. Organizing Physical Space.

c. Domain 3 - Instruction and Use of Assessment:
   i. Communicating with Students;
   ii. Using Questioning and Discussion Techniques;
   iii. Engaging Students in Learning;
   iv. Using Assessment in Instruction; and
   v. Demonstrating Flexibility and Responsiveness.

d. Domain 4 - Professional Responsibilities:
   i. Reflecting on Teaching;
   ii. Maintaining Accurate Records;
   iii. Communicating with Families;
   iv. Participating in a Professional Community;
02. Professional Practice. All certificated instructional employees must receive an evaluation in which at least a majority of the evaluation ratings must be based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Charlotte Danielson Framework for Teaching Second Edition domains and components. Professional Practice shall include a minimum of two (2) documented observations annually, with at least one (1) observation being completed by January 1 of each year. In situations where certificated personnel are unavailable for two (2) documented classroom observations, due to situations such as long-term illness, late year hire, etc., one (1) documented classroom observation is acceptable. At least one (1) documented summative evaluation must include a rating for all components of the applicable professional standards used for evaluation of certified personnel. District evaluation models shall also include at least one (1) of the following as a measure to inform the Professional Practice portion of each certificated instructional employee evaluations:

a. Parent/guardian input; (3-20-14)

b. Student input; and/or (3-20-14)

c. Portfolios. (3-20-14)

03. Student Achievement. Instructional staff evaluation ratings must in part be based on measurable student achievement, as defined in Section 33-1001, Idaho Code, as applicable to the subjects and grade ranges taught by the instructional staff. All other certificated staff evaluations must include measurable student achievement or student success indicators, as defined in Section 33-1001, Idaho Code, as applicable to the position. This portion of the evaluation may be calculated using current and/or the immediate past year's data and may use one (1) year or both years’ data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees. (3-29-17)

04. Participants. Each district evaluation policy will include provisions for evaluating all certificated employees identified in Section 33-1001(16), Idaho Code. Evaluations shall be differentiated for certificated non-instructional employees and Pupil Service Staff Certificate holders in a way that aligns with the Charlotte Danielson Framework for Teaching Second Edition to the extent possible and aligned to the pupil service staff’s applicable national standards. Policies for evaluating certificated employees should identify the differences, if any, in the conduct of evaluations for nonrenewable contract personnel and renewable contract personnel. (3-28-18)

05. Evaluation Policy – Content. Local school district policies will include, at a minimum, the following information:

a. Evaluation criteria -- statements of the criteria upon which certificated personnel will be evaluated and rated. (3-28-18)

b. Evaluator -- identification of the individuals responsible for observing or evaluating certificated instructional staff and pupil service staff performance. The individuals assigned this responsibility shall have received training in conducting evaluations based on the statewide framework for evaluations within the immediate previous five (5) years of conducting any evaluations. (3-28-18)

c. Communication of results -- the method by which certificated personnel are informed of the results of evaluation. (4-1-97)

d. Personnel actions -- the action available to the school district as a result of the evaluation and the procedures for implementing these actions; e.g., job status change. Note: in the event the action taken as a result of evaluation is to not renew an individual’s contract or to renew an individual’s contract at a reduced rate, school districts should take proper steps to follow the procedures outlined in Sections 33-513 through 33-515, Idaho Code in order to assure the due process rights of all personnel. (3-20-14)
f. Individualizing teacher evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time and be used to develop individualized professional learning plans. Districts shall have an individualized teacher evaluation rating system with a minimum of three (3) ratings used to differentiate performance of teachers and Pupil Service Staff Certificate holders including:

   i. Unsatisfactory being equal to “1”;  
   ii. Basic being equal to “2”; and  
   iii. Proficient being equal to “3”.  

   iv. A fourth evaluation rating of Distinguished, being equal to “4,” may be used in addition to the three (3) minimum ratings at the discretion of the school district or charter school.

   g. A plan for including all stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their teacher evaluation plan.  

   (3-20-14)

06. Evaluation Policy – Frequency of Evaluation. The evaluation policy shall include a provision for evaluating all certificated personnel on a fair and consistent basis.  

   (3-20-14)

07. Evaluation Policy - Personnel Records. Permanent records of each certificated personnel evaluation will be maintained in the employee’s personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the ratings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that the privacy of all certificated personnel is protected by not releasing statistical data of evaluation ratings in local school districts with fewer than five (5) teachers and by only reporting that information in the aggregate by local school district. 

   (3-28-18)

08. Evaluation System Approval. Each school district board of trustees will develop and adopt policies for teacher and Pupil Service Staff certificated performance evaluation in which criteria and procedures for the evaluation are research based and aligned with the Charlotte Danielson Framework for Teaching Second Edition and national standards for pupil service staff as applicable. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. 

   (3-28-18)

121. LOCAL DISTRICT EVALUATION POLICY – SCHOOL ADMINISTRATOR. 

   All school and school district administrators must receive an annual evaluation. Individuals serving in the role of superintendent or its equivalent shall be evaluated by the local board of trustees. Individuals serving in the capacity of a school district superintendent shall be evaluated based on the school district evaluation policy for superintendents. For principal and other school level administrator evaluations, each school district board of trustees will develop and adopt policies for performance evaluation using multiple measures in which criteria and procedures for the evaluation of administratively certificated personnel serving as school principal or other school level administrators are research based and aligned to the standards and requirements outlined in Subsections 121.01 through 121.07 of this rule. For Special Education Directors, standards aligned with the profession’s national standards may replace those outlined in Subsection 121.01. The process of developing criteria and procedures for administrator evaluations will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers and parents. The evaluation policy will be a matter of public record and communicated to the principal for whom it is written. 

   (3-28-18)

01. Standards. Each district principal and school level administrator evaluation model shall be aligned to state minimum standards based on the Interstate School Leaders Licensure Consortium (ISLLC) standards and include proof of proficiency in conducting teacher evaluations using the state’s framework for evaluations, the Charlotte Danielson Framework for Teaching Second Edition. Proof of training in evaluating teacher performance
shall be required of all individuals assigned the responsibility for observing or evaluating certificated personnel performance. Principal evaluation standards shall additionally address the following domains and components:

(3-28-18)

a. Domain 1: School Climate - An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

(3-20-14)

i. School Culture - Principal establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow’s careers and life endeavors.

(3-20-14)

ii. Communication - Principal is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders.

(3-20-14)

iii. Advocacy - Principal advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement.

(3-20-14)

b. Domain 2: Collaborative Leadership - An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. The educational leader uses research and/or best practices in improving the education program.

(3-20-14)

i. Shared Leadership - Principal fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.

(3-20-14)

ii. Priority Management - Principal organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.

(3-20-14)

iii. Transparency - Principal seeks input from stakeholders and takes all perspectives into consideration when making decisions.

(3-20-14)

iv. Leadership Renewal - Principal strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.

(3-20-14)

v. Accountability - Principal establishes high standards for professional, legal, ethical, and fiscal accountability for self and others.

(3-20-14)

c. Domain 3: Instructional Leadership - An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. The educational leader provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

(3-20-14)

i. Innovation - Principal seeks and implements innovative and effective solutions that comply with general and special education law.

(3-20-14)

ii. Instructional Vision - Principal insures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn.

(3-20-14)

iii. High Expectations - Principal sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.

(3-20-14)

iv. Continuous Improvement of Instruction - Principal has proof of proficiency in assessing teacher performance based upon the Charlotte Danielson Framework for Teaching Second Edition. Aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.

(3-20-14)
v. Evaluation - Principal uses teacher/principal evaluation and other formative feedback mechanisms to continuously improve teacher/principal effectiveness. (3-20-14)

vi. Recruitment and Retention - Principal recruits and maintains a high quality staff. (3-20-14)

02. Professional Practice. All principals must receive an evaluation in which a majority of the summative evaluation results are based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Domains and Components listed in Subsection 121.01.a. through 121.01.c. of this rule. As a measure to inform the Professional Practice portion of each evaluation, district evaluation models shall also include at least one (1) of the following:

a. Parent/guardian input; (3-20-14)
b. Teacher input; (3-20-14)
c. Student input; and/or (3-20-14)
d. Portfolios. (3-20-14)

03. Student Achievement. All administrators must receive an evaluation in which part of the summative evaluation results are based in part on objective measures of growth in measurable student achievement, as defined in Section 33-1001, Idaho Code. This portion of the evaluation may be calculated using current and/or the immediate past year’s data and may use one (1) or both years data. Growth in student achievement may be considered as an optional measure for all other school based and district based administrators, as determined by the local board of trustees. (3-28-18)

04. Evaluation Policy - Content. For evaluations conducted on or after July 1, 2014, local school district policies will include, at a minimum, the following information:

a. Evaluation criteria -- statements of the criteria upon which administrators will be evaluated. (3-20-14)
b. Evaluator -- identification of the individuals responsible for observing or evaluating school level administrator performance. The individuals assigned this responsibility shall have received training in administrator evaluations based on the statewide framework for evaluations. (3-28-18)
c. Communication of results -- the method by which principals are informed of the results of evaluation. (3-20-14)
d. Personnel actions -- the action, available to the school district as a result of the evaluation, and the procedures for implementing these actions; e.g., job status change. (3-20-14)
e. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of an evaluation. (3-20-14)
f. Individualizing principal evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time. Districts shall have an individualized principal evaluation rating system with a minimum of three ratings used to differentiate performance of principals including:

i. Unsatisfactory being equal to “1”; (3-20-14)
ii. Basic being equal to “2”; and (3-20-14)
iii. Proficient being equal to “3”. (3-20-14)
iv. A fourth evaluation rating of Distinguished, being equal to “4,” may be used in addition to the three
(3) minimum ratings at the discretion of the school district or charter school. (3-28-18)

g. A plan for including stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their principal evaluation plan. (3-20-14)

05. Evaluation Policy - Frequency of Evaluation. The evaluation policy should include a provision for evaluating all administrators on a fair and consistent basis. All administrators shall be evaluated at least once annually no later than June 1 of each year. (3-28-18)

06. Evaluation Policy - Personnel Records. Permanent records of each principal evaluation will be maintained in the employee’s personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the ratings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that the privacy of all certificated personnel is protected by not releasing statistical data of evaluation ratings in local school districts in accordance with the approved policies of the Idaho State Board of Education Data Management Council. (3-28-18)

07. Evaluation System Approval. Each school district board of trustees will develop and adopt policies for principal performance evaluation in which criteria and procedures for the evaluation are research based and aligned with state standards. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. (3-20-14)

122. -- 129. (RESERVED)

130. SCHOOL FACILITIES. Each school facility consists of the site, buildings, equipment, services, and is a critical factor in carrying out educational programs. The focus of concern in each school facility is the provision of a variety of instructional activities and programs, with the health and safety of all persons essential. (4-1-97)

01. Buildings. All school buildings, including portable or temporary buildings, will be designed and built in conformance with the current edition of the codes specified in the Idaho Building Code Act, Section 39-4109, Idaho Code, including, the National Electrical Code, Uniform Plumbing Code, and Idaho General Safety and Health Standards. All school buildings, including portable or temporary buildings, will meet other more stringent requirements established in applicable local building codes. (4-16-04)

02. Inspection of Buildings. All school buildings, including portable or temporary buildings, will be inspected as provided in Section 39-4130, Idaho Code, for compliance with applicable codes. Following this inspection, the school district will, within twenty (20) days, (1) correct any deficiencies specified in the inspection report or (2), if the corrective action involves structural modification, file a written plan with the inspecting agency for correction by the beginning of the following school year. (4-1-97)

131. -- 139. (RESERVED)

140. ACCREDITATION. All public secondary schools, serving any grade(s) 9-12, will be accredited pursuant to Section 33-119, Idaho Code. Accreditation is voluntary for elementary schools, grades K-8, and alternative schools not identified in Subsection 140.01.a. through 140.01.e. of this rule. (3-28-18)

01. Alternative Schools. Beginning with the 2014-15 school year, an alternative school serving any grade(s) 9-12 that meets any three (3) of the criteria in Subsections 140.01.a. through 140.01.e. of this rule, shall be required to be accredited. An alternative school that does not meet three (3) of the following criteria in Subsections 140.01.a. through 140.01.e. shall be considered as an alternative program by the district board of trustees and shall be included in the accreditation process and reporting of another secondary school within the district for the purposes of meeting the intent of this rule. (3-20-14)

a. School has an Average Daily Attendance greater than or equal to 36 students based on previous
year’s enrollment;

b. School enrolls any students full-time for the school year once eligibility determination is made as opposed to schools that enroll students for “make-up” or short periods of time; (3-20-14)

c. School offers an instructional model that is different than that provided by the traditional high school within the district for a majority of the coursework, including but not limited to online/virtual curriculum; (3-20-14)

d. School administers diplomas that come from that alternative school as opposed to students receiving a diploma from the traditional high school within the school district; or (3-20-14)

e. School receives its own accountability rating for federal reporting purposes. (3-20-14)

02. Standards. Schools will meet the accreditation standards of the Northwest Accreditation Commission, a division of AdvancED. (3-28-18)

03. Residential Schools. In addition to the academic standards, residential schools must meet the applicable health and safety standards established pursuant to Section 39-1210, Idaho Code, to be considered fully accredited by the State Board of Education. (3-28-18)

04. Reporting. An annual accreditation report will be submitted to the State Board of Education identifying each accredited school and school district in the state and the status of their accreditation. (3-28-18)

141. -- 149. (RESERVED)

150. TRANSPORTATION. Minimum School Bus Construction Standards. All new school bus chassis and bodies must meet or exceed Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules and as authorized in Section 33-1511, Idaho Code. (5-8-09)

151. -- 159. (RESERVED)

160. MAINTENANCE STANDARDS AND INSPECTIONS.

01. Safety. School buses will be maintained in a safe operating condition at all times. Certain equipment or parts of a school bus that are critical to its safe operation must be maintained at prescribed standards. When routine maintenance checks reveal any unsafe condition identified in the Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules the school district will eliminate the deficiency before returning the vehicle to service. (5-8-09)

02. Annual Inspection. After completion of the annual school bus inspection, and if the school bus is approved for operation, an annual inspection sticker, indicating the year and month of inspection, will be placed in the lower, right-hand corner of the right side front windshield. The date indicated on the inspection sticker shall correlate to State Department of Education's annual school bus inspection certification report signed by pupil transportation maintenance personnel and countersigned by the district superintendent. (Section 33-1506, Idaho Code) (7-1-02)

03. Sixty-Day Inspections. At intervals of not more than sixty (60) calendar days, excluding documented out-of-use periods in excess of thirty (30) days, the board of trustees shall cause inspection to be made of each school bus operating under the authority of the board. Except that, no bus with a documented out-of-use period in excess of sixty (60) days shall be returned to service without first completing a documented sixty (60) day inspection. Annual inspections are considered dual purpose and also meet the sixty (60) day inspection requirement. (Section 33-1506, Idaho Code) (7-1-04)

04. Documentation of Inspection. All inspections will be documented in writing. Annual inspections must be documented in writing on the form provided by the State Department of Education. (4-1-97)
05. Unsafe Vehicle. When a bus has been removed from service during a State Department of Education inspection due to an unsafe condition, the district will notify the State Department of Education on the appropriate form before the bus can be returned to service. When a bus has been found to have deficiencies that are not life-threatening, it will be repaired within thirty (30) days and the State Department of Education notified on the appropriate form. If the deficiencies cannot be repaired within thirty (30) days, the bus must be removed from service until the deficiencies have been corrected or an extension granted. (7-1-02)

06. Withdraw from Service Authority. Subsequent to any federal, national, or state advisory with good cause given therefor, the district shall, under the direction of the State Department of Education, withdraw from service any bus determined to be deficient in any prescribed school bus construction standard intended to safeguard life or minimize injury. No bus withdrawn from service under the provisions of this section shall be returned to service or used to transport students unless the district submits to the State Department of Education a certification of compliance specific to the school bus construction standard in question. (Section 33-1506, Idaho Code) (7-1-04)

161. -- 169. (RESERVED)

170. SCHOOL BUS DRIVERS AND VEHICLE OPERATION.
All school districts and school bus drivers must meet or exceed the training, performance and operation requirements delineated in the Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules. (Section 33-1508; 33-1509, Idaho Code) (5-8-09)

171. -- 179. (RESERVED)

180. WRITTEN POLICY.
The board of trustees will establish and adopt a set of written policies governing the pupil transportation system. Each school district that provides activity bus transportation for pupils shall have comprehensive policies and guidelines regarding activity transportation. (7-1-02)

181. -- 189. (RESERVED)

190. PROGRAM OPERATIONS.
School district fiscal reporting requirements as well as reimbursable and non-reimbursable costs within the Pupil Transportation Support Program, including but not limited to administration, field and activity trips, safety busing, contracting for transportation services, leasing of district-owned buses, insurance, ineligible and non-public school students, ineligible vehicles, capital investments including the purchasing of school buses and equipment, program support and district waiver procedures shall be delineated in Standards for Idaho School Buses and Operations incorporated in Section 004 of these rules. Approved school activities shall include structured college/university visits when such visits are part of the school district college and career advising and mentoring plan. (Section 33-1006, Idaho Code) (3-28-18)

191. -- 219. (RESERVED)

220. RELEASE TIME PROGRAM FOR ELEMENTARY AND SECONDARY SCHOOLS.
In the view of the State Board of Education, public elementary and secondary school programs that permit the practice of releasing students from school for the purpose of attending classes in religious education or for other purposes should observe certain practices that are in keeping with the present state of the law. These practices are designed to ensure that the public school operation is not adversely affected and that public funds and property are not used for sectarian religious instruction in a way which violates the United States Constitution, the Idaho State Constitution, or state law. These practices should include the following: (Section 33-519, Idaho Code) (4-1-97)

01. Scheduling. The local school board will have reasonable discretion over the scheduling and timing of the release program. Release time programs may not interfere with the scheduling of classes, activities and programs of the public schools. (4-1-97)

02. Voluntary Decision. The decision of a school district to permit release time programs for kindergarten through grade eight (K-8), as well as the decision of individual students to participate, must be purely voluntary. (4-1-97)
03. **Time Limit.** Release time will be scheduled upon the application of a parent or guardian of a student in grades nine through twelve (9-12), not to exceed five (5) periods per week or one hundred sixty-five (165) hours during any one (1) academic school year. (4-1-97)

04. **Location.** Release time programs will be conducted away from public school buildings and public school property. (4-1-97)

05. **Request by Parent.** No student will be permitted to leave the school grounds during the school day to attend release time programs except upon written request from a parent or guardian filed with the school principal. Such written request by the parent will become a part of the student’s permanent record. (4-1-97)

06. **Record Maintenance.** The public school will not be responsible for maintaining attendance records for a student who, upon written request of a parent or guardian, is given permission to leave the school grounds to attend a release time program. The school district will maintain a record of each student’s daily schedule that indicates when a student is released for classes in religious education or for other purposes. (4-1-97)

07. **Liability.** The school district is responsible for ensuring that no public school property, public funds or other public resources are used in any way to operate these programs. The school district is not liable for any injury, act or event occurring while the student participates in such programs. (4-1-97)

08. **Course Credit.** No credit will be awarded by the school or district for satisfactory completion by a student of a course or courses in release time for religious instruction. Credit may be granted for other purposes, at the discretion of the local school board. (4-1-97)

09. **Separation From Public Schools.** Public schools will not include schedules of classes for release time programs in school catalogs, registration forms or any other regularly printed public school material. Registration for release time programs must occur off school premises, and must be done on forms and supplies furnished by the group or institution offering the program. Teachers of release time programs are not to be considered members of any public school faculty and should not be asked to participate as faculty members in any school functions or to assume responsibilities for operation of any part of the public school program. (4-1-97)

10. **Transportation Liability.** Public schools and school districts will not be liable or responsible for the health, safety and welfare of students while they are being transported to and from or participating in release time programs. (4-1-97)

221. -- 229. (RESERVED)

230. **DRIVER EDUCATION.**
Public Schools. Pursuant to Section 004 of these rules, all public driver education courses offered in Idaho public schools must be conducted in compliance with all the requirements in the Operating Procedures for Idaho Public Driver Education Programs, as incorporated. (4-7-11)

231. -- 239. (RESERVED)

240. **JUVENILE DETENTION CENTERS.**

01. **Definition of Terms.**

a. **Juvenile Detention Centers:** Facilities that provide for the temporary care of children, as defined in the Juvenile Justice Reform Corrections Act, who require secure custody, for their own or the community’s protection, in physically restricting facilities pending court disposition or subsequent to court disposition. (Section 33-2009, Idaho Code) (4-1-97)

b. **Juvenile Offender:** A person, as defined in the Juvenile Justice Reform Act, who has been petitioned or adjudicated for a delinquent act that would constitute a felony or misdemeanor if committed by an adult. (4-1-97)
02. **Instructional Program.** Every public school district in the state within which is located a public or private detention facility housing juvenile offenders pursuant to court order will provide an instructional program. The instructional program will:

a. Provide course work that meets the minimum requirements of Idaho State Board of Education Rules. (4-1-97)

b. Provide instruction in the core of instruction. (4-1-97)

c. Include the following components, where appropriate: self-concept improvement, social adjustment, physical fitness/personal health, vocational/occupational, adult living skills, and counseling. (4-1-97)

d. Provide instruction and guidance that may lead to a high school diploma. School districts will accept such instruction for purposes of issuing credit when the detention center certifies to the school that the appropriate work is completed. (4-1-97)

e. Be directed by an instructor who holds an appropriate, valid certificate. (4-1-97)

f. Be provided to each student not later than two (2) school days after admission and continue until the student is released from the detention center. (4-1-97)

g. Be provided to students who have attained “school age” as defined in Idaho Code 33-201. (4-1-97)

h. Be provided for a minimum of four (4) hours during each school day. (4-1-97)

i. Be based on the needs and abilities of each student. The resident school district will provide pertinent status information as requested by the Juvenile Detention Center. (4-1-97)

j. Be coordinated with the instructional program at the school the student attends, where appropriate. (4-1-97)

k. Be provided in a facility that is adequate for instruction and study. (4-1-97)

03. **State Funding of Instructional Programs at Juvenile Detention Centers.** (4-1-97)

a. Every student housed in a juvenile detention center pursuant to court order and participating in an instructional program provided by a public school district will be counted as an exceptional child by the district for purposes of state reimbursement. (4-1-97)

b. Public school districts that educate pupils placed by Idaho court order in juvenile detention centers will be eligible for an allowance equivalent to the previous year’s certified local annual tuition rate per pupil. The district allowance will be in addition to support unit funding and included in the district apportionment payment. (4-1-97)

c. To qualify for state funding of instructional programs at Juvenile Detention Centers, school districts must apply for such funding on forms provided by the State Department of Education. Applications are subject to the review and approval of the State Superintendent of Public Instruction. School districts will submit attendance and enrollment reports as required by the State Superintendent of Public Instruction. Juvenile Detention Centers will submit reports to the local school district as required. (4-1-97)
08.02.03 – RULES GOVERNING THOROUGHNESS

000. LEGAL AUTHORITY.
All rules in this Thoroughness chapter (IDAPA 08.02.03) are promulgated pursuant to the authority of the State Board of Education under Article IX, Section 2 of the Idaho Constitution and under sections 33-116, 33-118, and 33-1612, Idaho Code. 05. The Idaho Extended Content Standards. The Idaho Extended Content Standards as adopted by the State Board of Education on August 10, 2017. Copies of the document can be found at the State Board of Education website at https://boardofed.idaho.gov. (3-28-18)

06. The Idaho Content Standards Core Content Connectors. The Idaho Content Standards Core Content Connectors as adopted by the State Board of Education on August 10, 2017. Copies of the document can be found at the State Board of Education website at https://boardofed.idaho.gov. (3-28-18)

a. English Language Arts, as adopted by the State Board of Education on August 10, 2017. (3-28-18)
b. Mathematics, as adopted by the State Board of Education on August 10, 2017. (3-28-18)

07. The Idaho Alternate Assessment Achievement Standards. Alternate Assessment Achievement Standards as adopted by the State Board of Education on October 18, 2017. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (3-28-18)

08. The Idaho Standards for Infants, Toddlers, Children, and Youth Who Are Deaf or Hard of Hearing. As adopted by the State Board of Education on October 11, 2007. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (4-2-08)

09. The Idaho Standards for Infants, Toddlers, Children, and Youth Who Are Blind or Visually Impaired. As adopted by the State Board of Education on October 11, 2007. Copies of the document can be found on the State Board of Education website at https://boardofed.idaho.gov. (4-2-08)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS AND STREET ADDRESS.
The principal place of business of the State Board of Education is in Boise, Idaho. The office is located at 650 W. State Street, Room 307, Boise, Idaho and is open from 8 a.m. to 5 p.m., except Saturday, Sunday and legal holidays. The mailing address is: Office of the State Board of Education, PO Box 83720, Boise, Idaho 83720-0037, the telephone number is (208) 334-2270, the facsimile number is (208) 334-2632, and the email address is board@osbe.idaho.gov. (3-15-02)

006. PUBLIC RECORDS ACT COMPLIANCE.
This rule has been promulgated in accordance with the Administrative Procedures Act, Title 67, Chapter 52, Idaho Code, and is a public record. (3-15-02)

007. DEFINITIONS A - G.

01. Achievement Standards. Define “below basic,” “basic,” “proficient,” and “advanced” achievement levels on the Idaho Standards Achievement Tests (ISAT) and level one (1) through level six (6) on Idaho’s English language assessment by setting scale score cut points. These cut scores are paired with descriptions of how well students are mastering the material in the content standards. These descriptions are called performance level descriptors or PLDs, and are provided by performance level, by content area, and by grade. (3-29-17)

02. Advanced Opportunities. Are defined as Advanced Placement courses, Dual Credit courses, Technical Competency Credit, or International Baccalaureate programs. (3-25-16)

03. Advanced Placement® (AP) - College Board. The Advanced Placement Program is administered by the College Board at http://www.collegeboard.com. AP students may take one (1) or more college level courses in a variety of subjects. AP courses are not tied to a specific college curriculum, but rather follow national College Board curricula. While taking the AP exam is optional, students can earn college credit by scoring well on the national exams. It is up to the discretion of the receiving college to accept the scores from the AP exams to award college credit or advanced standing. (4-11-06)

04. All Students. All students means all public school students, grades K-12. (4-11-06)

05. Alternative Assessment (Other Ways of Testing). Any type of assessment in which students create a response to a question rather than choose a response from a given list, as with multiple-choice or true/false. Alternative assessments can include short-answer questions, essays, oral presentations, exhibitions, and portfolios. (4-5-00)

06. Assessment. The process of quantifying, describing, or gathering information about skills, knowledge or performance. (4-5-00)
07. **Assessment Standards.** Statements setting forth guidelines for evaluating student work, as in the “Standards for the Assessment of Reading and Writing.” (4-5-00)

08. **Asynchronous Course.** An online course in which an online platform is used to deliver all curricula. The majority of communication exchanges occur in elapsed time and allow students and teachers to participate according to their schedule. Asynchronous courses do not prohibit the use of a paraprofessional, certificated staff or other staff member being present at the physical location during instructional periods where instruction takes place, such as a school computer lab. (4-4-13)

09. **Authentic.** Something that is meaningful because it reflects or engages the real world. An “authentic task” asks students to do something they might really have to do in the course of their lives, or to apply certain knowledge or skills to situations they might really encounter. (4-5-00)

10. **Basic Educational Skills Training.** Instruction in basic skills toward the completion/attainment of a certificate of mastery, high school diploma, or GED. (4-5-00)

11. **Career Technical Education.** Formal preparation for semi-skilled, skilled, technical, or paraprofessional occupations, usually below the baccalaureate level. (4-11-06)

12. **Classic Texts.** Literary or other works (e.g., films, speeches) that have been canonized, either continuously or intermittently, over a period of time beyond that of their initial publication and reception. (4-5-00)

13. **College and Career Readiness.** College and career readiness is the attainment and demonstration of state board adopted competencies that broadly prepare high school graduates for a successful transition into some form of postsecondary education and/or the workplace. (3-28-18)

14. **Content Standards.** Describe the knowledge, concepts, and skills that students are expected to acquire at each grade level in each content area. (4-2-08)

15. **Context (of a Performance Assessment).** The surrounding circumstances within which the performance is embedded. For example, problem solving can be assessed in the context of a specific subject (such as mathematics) or in the context of a real-life laboratory problem requiring the use of mathematics, scientific, and communication skills. (4-5-00)

16. **Cooperative Work Experience.** Classroom learning is integrated with a productive, structured work experience directly related to the goals and objectives of the educational program. Schools and participating businesses cooperatively develop training and evaluation plans to guide and measure the progress of the student. School credit is earned for successful completion, and the work may be paid or unpaid. Cooperative work experiences are also known as co-operative education or co-op. (4-5-00)

17. **Criteria.** Guidelines, rules or principles by which student responses, products, or performances, are judged. What is valued and expected in the student performance, when written down and used in assessment, become rubrics or scoring guides. (4-5-00)

18. **Cues.** Various sources of information used by readers to construct meaning. The language cueing systems include the graphophonic (also referred to as graphophonemic) system, which is the relationship between oral and written language (phonics); the syntactic system, which is the relationship among linguistic units such as prefixes, suffixes, words, phrases, and clauses (grammar); and semantic system, which is the study of meaning in language. Reading strategies and language cueing systems are also influenced by pragmatics—the knowledge readers have about the ways in which language is understood by others in their culture. (4-5-00)

19. **“C” Average.** A combined average of courses taken on a four (4) point scale with “C” equal to two (2) points. (4-11-06)

20. **Diploma.** A document awarded to a student by a secondary school to show the student has successfully completed the state and local education agency graduation requirements. Diplomas may be awarded to
individuals who attended a secondary school prior to the year in which the student is requesting issuance of a diploma based on the graduation requirements in existence at the time the student attended. Determination of meeting past graduation requirements may be determined based on proficiency as determined by the local education agency. Each local education agency may determine the format of the diploma, including the recognition of emphasis areas based on a student’s completion of courses or courses or studies in an emphasis area or educational pathways, including but not limited to science, technology, engineering and math (STEM), career technical education, or arts and music. (3-28-18)

21. **Decode.**  
   a. To analyze spoken or graphic symbols of a familiar language to ascertain their intended meaning. (4-5-00)  
   b. To change communication signals into messages, as to decode body language. (4-5-00)

22. **Dual Credit.** Dual credit allows high school students to simultaneously earn credit toward a high school diploma and a postsecondary degree or certificate. Postsecondary institutions work closely with high schools to deliver college courses that are identical to those offered on the college campus. Credits earned in a dual credit class become part of the student’s permanent college record. Students may enroll in dual credit programs taught at the high school or on the college campus. (4-11-06)

23. **Emergent Literacy.** Development of the association of print with meaning that begins early in a child’s life and continues until the child reaches the stage of conventional reading and writing. (4-5-00)

24. **Employability Skills.** Work habits and social skills desirable to employers, such as responsibility, communication, cooperation, timeliness, organization, and flexibility. (4-5-00)

25. **Entry-Level Skills.** The minimum education and skill qualifications necessary for obtaining and keeping a specific job; the starting point in a particular occupation or with a certain employer. (4-5-00)

26. **Evaluation (Student).** Judgment regarding the quality, value, or worth of a response, product, or performance based on established criteria, derived from multiple sources of information. Student evaluation and student assessment are often used interchangeably. (4-5-00)

27. **Experiential Education (Application).** Experiential education is a process through which a learner constructs knowledge, skill, and value from direct experiences. (4-5-00)

28. **Exploratory Experience (Similar to a Job Shadow).** An opportunity for a student to observe and participate in a variety of worksite activities to assist in defining career goals. An in-school exploratory experience is a school-based activity that simulates the workplace. (4-5-00)

29. **Fluency.** The clear, rapid, and easy expression of ideas in writing or speaking; movements that flow smoothly, easily, and readily. (4-5-00)

30. **Genre (Types of Literature).** A category used to classify literary and other works, usually by form, technique, or content. Categories of fiction such as mystery, science fiction, romance, or adventure are considered genres. (4-5-00)

31. **Graphophonic/Graphophonemic.** One (1) of three (3) cueing systems readers use to construct texts; the relationships between oral and written language (phonics). (4-5-00)

**008. DEFINITIONS H - S.**

**01. Idaho Standards Achievement Tests.** Statewide assessments aligned to the state content standards and used to measure a student’s knowledge of the applicable content standards. (3-29-17)

**02. Integrated Assessment.** Assessment based on tasks that measures a student’s ability to apply...
concepts, principles, and processes from two (2) or more subject disciplines to a project, issue, or problem. (3-24-17)

03. International Baccalaureate (IB) - Administered by the International Baccalaureate Organization, the IB program provides a comprehensive liberal arts course of study for students in their junior and senior years of high school. IB students take end-of-course exams that may qualify for college credit. Successful completion of the full course of study leads to an IB diploma. (4-11-06)

04. Interdisciplinary Study. An approach to learning in two (2) or more disciplines that enables students to identify and apply authentic connections and integrate essential concepts that transcend individual disciplines. (3-24-17)

05. Laboratory. A laboratory science course is defined as one in which at least one (1) class period each week is devoted to providing students with the opportunity to manipulate equipment, materials, specimens or develop skills in observation and analysis and discover, demonstrate, illustrate or test scientific principles or concepts. (3-24-17)

06. Learning Plan. The plan that outlines a student’s program of study, which should include a rigorous academic core and a related sequence of electives in academic, career technical education (CTE), or humanities aligned with the student’s post-graduation goals. (4-11-06)

07. Narrative. Text in any form (print, oral, or visual) that recounts events or tells a story. (4-11-06)

08. Norm-Referenced Assessment. Comparing a student’s performance or test result to performance of other similar groups of students; (e.g., he typed better than eighty percent (80%) of his classmates.) (4-5-00)

09. On-Demand Assessment. Assessment that takes place at a predetermined time and place. Quizzes, state tests, SATs, and most final exams are examples of on-demand assessment. (4-5-00)

10. Performance Assessment. Direct observation of student performance or student work and professional judgment of the quality of that performance. Good quality performance assessment has pre-established performance criteria. (4-5-00)

11. Performance-Based Assessment. The measurement of educational achievement by tasks that are similar or identical to those that are required in the instructional environment, as in performance assessment tasks, exhibitions, or projects, or in work that is assembled over time into portfolio collections. (4-5-00)

12. Performance Criteria. A description of the characteristics that will be judged for a task. Performance criteria may be holistic, analytic trait, general or specific. Performance criteria are expressed as a rubric or scoring guide. Anchor points or benchmark performances may be used to identify each level of competency in the rubric or scoring guide. (4-5-00)

13. Phonics. Generally used to refer to the system of sound-letter relationships used in reading and writing. Phonics begins with the understanding that each letter (or grapheme) of the English alphabet stands for one (1) or more sounds (or phonemes). (4-5-00)

14. Portfolio. A collection of materials that documents and demonstrates a student’s academic and work-based learning. Although there is no standard format for a portfolio, it typically includes many forms of information that exhibit the student’s knowledge, skills, and interests. By building a portfolio, students can recognize their own growth and learn to take increased responsibility for their education. Teachers, mentors, and employers can use portfolios for assessment purposes and to record educational outcomes. (4-5-00)

15. Professional Development. A comprehensive, sustained, timely, and intensive process to improve effectiveness of teachers and administrators in raising student achievement, which:

a. Aligns with rigorous state academic achievement standards, local educational agency goals, school improvement goals, and effective technology integration. (4-4-13)
b. Utilizes data driven instruction using a thorough review and continual evaluation of data on teacher and student performance to define clear goals and distinct outcomes. (4-4-13)

c. Provides opportunities that are individualized enough to meet distinct and diverse levels of need for teachers and administrators. (4-4-13)

d. Is facilitated by well-prepared school administrators, coaches, mentors, master teachers, lead teachers, or third-party providers under contract with the State Department of Education, school district, or charter school, and supported by external research, expertise, or resources. (4-4-13)

e. Fosters a collective responsibility by educators within the school for improved student performance and develops a professional learning community. (4-4-13)

16. Project Based Learning. A hands-on approach to learning that encourages students to create/interpret/communicate an original work or project and assesses quality and success of learning through performance/presentation/production of that work or project. (3-24-17)

17. Print Awareness. In emergent literacy, a learner’s growing awareness of print as a system of meaning, distinct from speech and visual modes of representation. (4-5-00)

18. Proficiency. Having or demonstrating a high degree of knowledge or skill in a particular area. (4-5-00)

19. School-to-Work Transition. A restructuring effort that provides multiple learning options and seamless integrated pathways to increase all students’ opportunities to pursue their career and educational interests. (4-5-00)

20. Service Learning. Combining service with learning activities to allow students to participate in experiences in the community that meet actual human needs. Service learning activities are integrated into the academic curriculum and provide structured time for a student to think, talk, or write about what was done or seen during the actual service activity. Service learning provides students with opportunities to use newly acquired skills and knowledge in real-life situations in their communities, and helps foster the development of a sense of caring for others. (4-5-00)

21. Skill Certificate. Portable, industry-recognized credential that certifies the holder has demonstrated competency on a core set of performance standards related to an occupational cluster area. Serving as a signal of skill mastery at benchmark levels, skill certificates may assist students in finding work within their community, state, or elsewhere. A National Skills Standards Board is presently charged with issuing skill voluntary standards in selected occupations based on the result of research and development work completed by twenty-two (2) contractors. (4-5-00)

22. Standards. Statements about what is valued in a given field, such as English language arts, and/or descriptions of what is considered quality work. See content standards, assessment standards, and achievement standards. (4-2-08)

23. Standardization. A set of consistent procedures for constructing, administering and scoring an assessment. The goal of standardization is to ensure that all students are assessed under uniform conditions so the interpretation of performance is comparable and not influenced by differing conditions. Standardization is an important consideration if comparisons are to be made between scores of different individuals or groups. (4-5-00)

24. Standards-Based Education. Schooling based on defined knowledge and skills that students must attain in different subjects, coupled with an assessment system that measures their progress. (4-5-00)

25. Structured Work Experience. A competency-based educational experience that occurs at the worksite but is tied to the classroom by curriculum through the integration of school-based instruction with worksite experiences. Structured work experience involves written training agreements between school and the worksite, and individual learning plans that link the student’s worksite learning with classroom course work. Student progress is
supervised and evaluated collaboratively by school and worksite personnel. Structured work experience may be paid or unpaid; may occur in a public, private, or non-profit organization; and may or may not result in academic credit and/or outcome verification. It involves no obligation on the part of the worksite employer to offer regular employment to the student subsequent to the experience. (4-5-00)

26. Student Learning Goals (Outcomes). Statements describing the general areas in which students will learn and achieve. Student learning goals typically reflect what students are expected to know by the time they leave high school, such as to read and communicate effectively; think critically and solve problems; develop positive self-concept, respect for others and healthy patterns of behavior; work effectively in groups as well as individually; show appreciation for the arts and creativity; demonstrate civic, global and environmental responsibility; recognize and celebrate multicultural diversity; exhibit technological literacy; have a well developed knowledge base which enhances understanding and decision making, and demonstrate positive problem solving and thinking skills. (4-5-00)

27. Synchronous Course. A course in which the teacher and students interact at the same time. May be applied to both traditional and technology based courses. (3-29-12)

009. DEFINITIONS T - Z.

01. Technical Competency Credit. Technical competency credit is a sequenced program of study that allows secondary students to document proficiency in the skills and abilities they develop in approved high school career technical programs to be evaluated for postsecondary transcription at a later date. Technical Competency Credits are awarded for skills and competencies identified as eligible through an agreement with at least one Idaho postsecondary institution. Eligible skills and competencies are included as part of a high school career technical program and approved by the postsecondary institution through the agreement in advance to student participation. Credits are granted by the postsecondary institution for which the agreement is with and are transcripted at the time the student enrolls at the postsecondary institution. (3-25-16)

02. Technology Education. A curriculum for elementary, middle, and senior high schools that integrates learning about technology (e.g., transportation, materials, communication, manufacturing, power and energy, and biotechnology) with problem-solving projects that require students to work in teams. Many technology education classrooms and laboratories are well equipped with computers, basic hand tools, simple robots, electronic devises, and other resources found in most communities today. (4-5-00)

03. Total Quality Management. A systematic approach to standardizing and increasing the efficiency of internal systems and processes, whether in a business or a school, using statistical and management tools for continuous improvement. Emphasis is on documenting effective processes, committing to meet customers’ needs and sharing decision making. (3-15-02)

04. Transferable Skills. Skills that are inter-changeable among different jobs and workplaces. For example, the ability to handle cash is a skill one could use as both a restaurant cashier and a bank teller. The ability to problem solve or work as a team member is transferable among most jobs and workplaces. (4-11-06)

05. 2+2 or 4+2. A planned, streamlined sequence of academic and career technical courses which eliminates redundancies between high school and community college curricula; 2+2 is high school years eleven (11) and twelve (12) and community college years thirteen (13) and fourteen (14); 4+2 is high school years nine (9), ten (10), eleven (11), and twelve (12) and community college years thirteen (13) and fourteen (14). (4-11-06)

06. Unique Student Identifier. A number issued and assigned by the State Department of Education to each student currently enrolled or who will be enrolled in an Idaho local education agency to obtain data. (5-8-09)

07. Writing Process. The many aspects of the complex act of producing written communication; specifically, planning, drafting, revising, editing, and publishing. (4-5-00)

08. Word Recognition.

a. The quick and easy identification of the form, pronunciation, and appropriate meaning of a work previously met in print or writing; (4-5-00)
b. The process of determining the pronunciation and some degree of meaning of a word in written or printed form. (4-5-00)

010. – 099. (RESERVED)

100. **BASIC CURRICULUM.**
(Section 33-118, Idaho Code) (4-1-97)

101. **KINDERGARTEN CURRICULUM.**
Kindergarten curriculum will be established at the local level. (Section 33-208, Idaho Code) (4-5-00)

102. **INSTRUCTIONAL REQUIREMENTS.**

01. **Instruction and Programs.** All schools will deliver a core of instruction and advisement programs (see Section 108, Guidance Programs) for each student in elementary schools, middle schools/junior high and high schools. (4-5-00)

02. **Standards.** All students will meet standards established locally (at a minimum, the standards of the state) through rigorous accountability, which includes challenging examinations, demonstrations of achievement, and other appropriate tests and measures. (4-5-00)

103. **INSTRUCTION GRADES 1-12.**

01. **Instruction.** Instruction is inclusive of subject matter, content and course offerings. Patterns of instructional organization are a local school district option. Schools will assure students meet locally developed standards with the state standards as a minimum.* (*This includes special instruction that allows limited English proficient students to participate successfully in all aspects of the school’s curriculum and keep up with other students in the regular education program. It also includes special learning opportunities for accelerated, learning disabled students and students with other disabilities.) (4-5-00)

02. **Instructional Courses.** At appropriate grade levels, instruction will include but not be limited to the following: (4-11-06)

a. Language Arts and Communication will include instruction in reading, writing, English, literature, technological applications, spelling, speech and listening, and, in elementary schools, cursive writing. (3-20-14)

b. Mathematics will include instruction in addition, subtraction, multiplication, division, percentages, mathematical reasoning and probability. (4-1-97)

c. Science will include instruction in applied sciences, earth and space sciences, physical sciences, and life sciences. (4-1-97)

d. Social Studies will include instruction in history, government, geography, economics, current world affairs, citizenship, and sociology. (4-1-97)

104. **OTHER REQUIRED INSTRUCTION.**
Other required instruction for all students and other required offerings of the school are: (4-1-97)

01. **Elementary Schools.** (4-11-06)

a. The following section outlines other information required for all elementary students, as well as other required offerings of the school:

- Fine Arts (art and music)
- Health (wellness)
- Physical Education (fitness)

(4-11-06)
b. Additional instructional options as determined by the local school district. For example:

Languages other than English
Career Awareness

02. Middle Schools/Junior High Schools.

a. No later than the end of Grade eight (8) each student shall develop parent-approved student learning plans for their high school and post-high school options. The learning plan shall be developed by students with the assistance of parents or guardians, and with advice and recommendation from school personnel. It shall be reviewed annually and may be revised at any time. The purpose of a parent-approved student learning plan is to outline a course of study and learning activities for students to become contributing members of society. A student learning plan describes, at a minimum, the list of courses and learning activities in which the student will engage while working toward meeting the state and school district’s or LEA’s graduation standards in preparation for postsecondary goals. The school district or LEA will have met its obligation for parental involvement if it makes a good faith effort to notify the parent or guardian of the responsibility for the development and approval of the learning plan. A learning plan will not be required if the parent or guardian requests, in writing, that no learning plan be developed.

b. A student must have met the grade eight (8) mathematics standards before the student will be permitted to enter grade nine (9).

c. Other required instruction for all middle school students:

Health (wellness)
Physical Education (fitness)

03. High Schools.

a. High schools must offer a wide variety of courses to satisfy state and local graduation requirements. High schools are required to provide instructional offerings in Physical Education (fitness) and Career Technical Education and the instruction necessary to assure students are college and career ready at the time of graduation.

b. High schools will annually review and update with the student the parent-approved student learning plans outlined in Subsection 104.02.a.

105. HIGH SCHOOL GRADUATION REQUIREMENTS.

A student must meet all of the requirements identified in this section before the student will be eligible to graduate from an Idaho high school. The local school district or LEA may establish graduation requirements beyond the state minimum.

01. Credit Requirements. The State minimum graduation requirement for all Idaho public high schools is forty-six (46) credits and must include twenty-nine (29) credits in core subjects as identified in Paragraphs 105.01.c. through 105.01.i.

a. Credits. (Effective for all students who enter the ninth grade in the fall of 2010 or later.) One (1) credit shall equal sixty (60) hours of total instruction. School districts or LEA’s may request a waiver from this provision by submitting a letter to the State Department of Education for approval, signed by the superintendent and
chair of the board of trustees of the district or LEA. The waiver request shall provide information and documentation that substantiates the school district or LEA’s reason for not requiring sixty (60) hours of total instruction per credit.

(3-29-10)

b. Mastery. Notwithstanding the credit definition of Subsection 105.01.a., a student may also achieve credits by demonstrating mastery of a subject’s content standards as defined and approved by the local school district or LEA.

(3-29-17)

c. Secondary Language Arts and Communication. Nine (9) credits are required. Eight (8) credits of instruction in Language Arts. Each year of Language Arts shall consist of language study, composition, and literature and be aligned to the Idaho Content Standards for the appropriate grade level. One (1) credit of instruction in communications consisting of oral communication and technological applications that includes a course in speech, a course in debate, or a sequence of instructional activities that meet the Idaho Speech Content Standards requirements.

(3-29-10)

d. Mathematics. Six (6) credits are required. Secondary mathematics includes Integrated Mathematics, Applied Mathematics, Business Mathematics, Algebra, Geometry, Trigonometry, Fundamentals of Calculus, Probability and Statistics, Discrete Mathematics, and courses in mathematical problem solving and quantitative reasoning. Dual credit engineering and computer science courses aligned to the state standards for grades nine (9) through (12), including AP Computer Science and dual credit computer Science courses may also be counted as a mathematics credit if the student has completed Algebra II (or equivalent integrated mathematics) standards. Students who choose to take computer science and dual credit engineering courses may not concurrently count such courses as both a mathematics and science credit.

(3-29-10)

i. Students must complete secondary mathematics in the following areas:

(1) Two (2) credits of Algebra I, Algebra I level equivalent Integrated Mathematics or courses that meet the High School Algebra Content Standards;

(4-11-19)

(2) Two (2) credits of Geometry, Geometry level equivalent Integrated Mathematics, or courses that meet the Idaho High School Geometry Content Standards; and

(4-11-19)

(3) Two (2) credits of mathematics of the student’s choice.

(3-29-10)

ii. Two (2) credits of the required six (6) credits of mathematics must be taken in the last year of high school in which the student intends to graduate. For the purposes of this subsection, the last year of high school shall include the summer preceding the fall start of classes. Students who return to school during the summer or the following fall of the next year for less than a full schedule of courses due to failing to pass a course other than mathematics are not required to retake a mathematics course as long as they have earned six (6) credits of high school level mathematics.

(4-11-19)

iii. Students who have completed six (6) or more high school credits of mathematics prior to the fall of their last year of high school, including at least two (2) semesters of an Advanced Placement or dual credit calculus or higher level course, are exempt from taking mathematics during their last year of high school. High School mathematics credits completed in middle school shall count for the purposes of this section.

(4-11-19)

iv. Students who earn eight (8) or more high school credits of mathematics that include Algebra II or higher level of mathematics class before the student’s senior year are not required to take mathematics during their last year of high school. High school mathematics credits earned in middle school shall count for the purposes of this section.

(4-11-19)

e. Science. Six (6) credits are required, four (4) of which will be laboratory based. Secondary sciences include instruction in applied sciences, earth and space sciences, physical sciences, and life sciences.

(4-11-19)

i. Up to two (2) credits in Dual credit engineering and computer science courses aligned to the state standards for grades nine (9) through (12), including AP Computer Science, Dual Credit Computer Science may be used as science credits. Students who choose to take computer science and Dual Credit Engineering may not
concurrently count such courses as both a mathematics and science credit. (4-11-19)

ii. Secondary sciences include instruction in the following areas: biology, physical science or chemistry, and earth, space, environment, or approved applied science. Four (4) credits of these courses must be laboratory based. (3-29-10)

f. Social Studies. Five (5) credits are required, including government (two (2) credits), United States history (two (2) credits), and economics (one (1) credit). Courses such as geography, sociology, psychology, and world history may be offered as electives, but are not to be counted as a social studies requirement. (3-29-10)

g. Humanities. Two (2) credits are required. Humanities courses include instruction in visual arts, music, theatre, dance, or world language aligned to the Idaho content standards for those subjects. Other courses such as literature, history, philosophy, architecture, or comparative world religions may satisfy the humanities standards if the course is aligned to the Interdisciplinary Humanities Content Standards. (3-28-18)

h. Health/Wellness. One (1) credit is required. Course must be aligned to the Idaho Health Content Standards. Effective for all public school students who enter grade nine (9) in Fall 2015 or later, each student shall receive a minimum of one (1) class period on psychomotor cardiopulmonary resuscitation (CPR) training as outlined in the American Heart Association (AHA) Guidelines for CPR to include the proper utilization of an automatic external defibrillator (AED) as part of the Health/Wellness course. (3-12-14)

i. Students participating in one (1) season in any sport recognized by the Idaho High School Activities Association or club sport recognized by the local school district, or eighteen (18) weeks of a sport recognized by the local school district may choose to substitute participation up to one (1) credit of physical education. Students must show mastery of the Physical Education Content Standards in a format provided by the school district. (3-28-18)

02. **Content Standards.** Each student shall meet locally established subject area standards (using state content standards as minimum requirements) demonstrated through various measures of accountability including examinations or other measures. (3-29-10)

03. **College Entrance Examination.** (Effective for all public school students who enter grade nine (9) in Fall 2012 or later.) (3-12-14)

a. A student must take one (1) of the following college entrance examinations before the end of the student’s eleventh grade year: SAT or ACT. Students who participated in the Compass assessment prior to its final administration may also use the Compass to meet this requirement. Students receiving special education services through a current Individualized Education Plan (IEP) may utilize the ACCUPLACER placement exam in lieu of the SAT or ACT. (3-28-18)

b. A student who misses the statewide administration of the college exam during the student’s grade eleven (11) for one (1) of the following reasons, may take the examination during their grade twelve (12) to meet this requirement: (3-25-16)

i. Transferred to an Idaho school district during grade eleven (11) and has not previously participated in one of the allowed college entrance exams outlined in Subsection 03.a; (3-28-18)

ii. Was homeschooled during grade eleven (11) and is enrolled in an Idaho high school as a diploma seeking student; or (3-28-18)

iii. Missed the spring statewide administration of the college entrance exam dates for documented medical reasons. (3-12-14)

c. A student may elect an exemption in from the college entrance exam requirement if the student is: (3-28-18)

i. Receiving special education services through a current Individual Education Plan (IEP) that
specifies the student meets the alternate assessment eligibility criteria;

ii. Enrolled in a Limited English Proficient (LEP) program for three (3) academic years or less; or

iii. Transferring from out of state to an Idaho high school in grade twelve (12).

d. A school district, on behalf of a student, on a form established by the State Department of Education, may submit an appeal application requesting the Superintendent of Public Instruction or their designee consider another college entrance exam or college placement exam to fulfill this requirement, or exempt the student due to extenuating circumstances. (3-28-18)

04. Senior Project. The senior project is a culminating project to show a student’s ability to analyze, synthesize, and evaluate information and communicate that knowledge and understanding. A student must complete a senior project by the end of grade twelve (12). Senior projects may be multi-year projects, group or individual projects, or approved pre-internship or school to work internship programs, at the discretion of the school district or charter school. The project must include elements of research, development of a thesis using experiential learning or integrated project based learning experiences and presentation of the project outcome. Additional requirements for a senior project are at the discretion of the local school district or LEA. Completion of a postsecondary certificate or degree at the time of high school graduation or an approved pre-internship or internship program may be used to meet this requirement. (3-28-18)

05. Civics and Government Proficiency. Pursuant to Section 33-1602, Idaho Code, each LEA may establish an alternate path for determining if a student has met the state civics and government content standards. Alternate paths are open to all students in grades seven (7) through twelve (12). Any student who has been determined proficient in the state civics and government content standards either through the completion of the civics test or an alternate path shall have it noted on the student’s high school transcript. (3-29-17)

06. Middle School. A student will have met the high school content and credit area requirement for any high school course if the requirements outlined in Subsections 105.06.a. through 105.06.c. of this rule are met. (3-25-16)

a. The student completes such course with a grade of C or higher before entering grade nine (9); (3-12-14)

b. The course meets the same content standards that are required in high school for the same course; and (3-25-16)

c. The course is taught by a teacher properly certified to teach high school content and who meets the federal definition of highly qualified for the course being taught. (3-25-16)

d. The student shall be given a grade for the successful completion of that course and such grade and the number of credit hours assigned to the course shall be transferred to the student's high school transcript. Notwithstanding this requirement, the student's parent or guardian shall be notified in advance when credits are going to be transcribed and may elect to not have the credits and grade transferred to the student's high school transcript. Courses taken in middle school appearing in the student's high school transcript, pursuant to this subsection, shall count for the purpose of high school graduation. However, the student must complete the required number of credits in all high school core subjects as identified in Subsections 105.01.c. through 105.01.h. except as provided in 105.01.d.iii. The transcribing high school is required to verify the course meets the requirements specified in Subsections 105.06.a. through 105.06.b. of this rule. (3-25-16)

07. Special Education Students. A student who is eligible for special education services under the Individuals With Disabilities Education Improvement Act must, with the assistance of the student’s Individualized Education Program (IEP) team, refer to the current Idaho Special Education Manual for guidance in addressing graduation requirements. (4-11-06)

08. Foreign Exchange Students. A foreign exchange student may be eligible for graduation by
completing a comparable program as approved by the school district or LEA. (4-11-06)

106. ADVANCED OPPORTUNITIES.

01. Advanced Opportunities Requirement. All high schools in Idaho shall be required to provide Advanced Opportunities, as defined in Section 007, or provide opportunities for students to take courses at the postsecondary campus. (3-29-17)

02. Advanced Opportunities Early Graduation Scholarship Funding (Effective July 1, 2016). (3-29-17)

a. Scholarship Calculation. (3-29-17)

i. The statewide average daily attendance-driven funding per enrolled pupil shall be calculated by adding the previous fiscal year’s statewide distributions for salary-based apportionment, benefit apportionment and discretionary funds, and dividing the total by the previous year’s statewide public school enrollment for all grades. (3-29-17)

ii. The statewide average daily attendance-driven funding per enrolled pupil shall be recalculated each fiscal year. (3-29-17)

iii. All benefits paid for scholarships and to public schools shall be based on the statewide average daily attendance-driven funding per enrolled pupil figure for the fiscal year in which the benefit is paid. (3-29-17)

b. Payments to Idaho Colleges and Universities. (3-29-17)

i. Annual scholarship payments will be made in one (1) installment during the first semester in which the student is enrolled, regardless of the number of years early the student graduated. Proof of enrollment in an Idaho public college or university must be obtained before any scholarship payment is made. (3-29-17)

ii. The State Department of Education will be responsible for making payments to the Idaho public colleges and universities attended by eligible students. The payments must be made no later than August 30 for the fall semester and January 30 for the spring semester. (3-29-17)

c. Payments to Public Schools. (3-29-17)

i. Public schools shall report to the State Department of Education, no later than June 15 of each school year, students who have graduated early. (3-29-17)

ii. The State Department of Education will make a single annual payment to public schools no later than October 1 of each year for all early graduates who are not attending the public school that school year as a result of early graduation. (3-29-17)

107. MIDDLE LEVEL CREDIT SYSTEM.
A school district or LEA must implement a credit system no later than grade seven (7) that includes components that address the credit requirements, credit recovery, alternate mechanisms and attendance. The local school district or LEA may establish credit requirements beyond the state minimum. (3-29-10)

01. Credit Requirements. Each district or LEA credit system shall require students to attain a minimum of eighty percent (80%) of the total credits attempted before the student will be eligible for promotion to the next grade level. Each district or LEA credit system shall require a student to attain, at a minimum, a portion of the total credits attempted in each area in which credits are attempted except for areas in which instruction is less than a school year before the student will be eligible for promotion to the next grade level. (3-29-10)

02. Credit Recovery. A student who does not meet the minimum requirements of the credit system shall be given an opportunity to recover credits or complete an alternate mechanism in order to become eligible for promotion to next grade level. (3-29-10)
03. **Alternate Mechanism.** A school district or LEA may establish an alternate mechanism to determine eligibility for grade level promotion. The alternate mechanism shall require a student to demonstrate proficiency of the appropriate content standards. All locally established mechanisms used to demonstrate proficiency will be forwarded to the State Department of Education. Alternate mechanisms must be re-submitted to the Department when changes are made to the mechanism. (3-29-10)

04. **Attendance.** Attendance shall be an element included in the credit system, alternate mechanism or both. (3-29-10)

05. **Special Education Students.** The Individualized Education Program (IEP) team for a student who is eligible for special education services under the Individuals with Disabilities Education Improvement Act may, establish alternate requirements or accommodations to credit requirements as are deemed necessary for the student to become eligible for promotion to the next grade level. (3-29-10)

06. **Limited English Proficient (LEP) Students.** The Educational Learning Plan (ELP) team for a Limited English Proficient (LEP) students, as defined in Subsection 112.05.g.iv., may establish alternate requirements or accommodations to credit requirements as deemed necessary for the student to become eligible for promotion to the next grade level. (3-29-10)

108. **GUIDANCE PROGRAMS (SECTION 33-1212, IDAHO CODE).**

In each Idaho school, a comprehensive guidance program will be provided as an integral part of the educational program. A comprehensive guidance and counseling program includes these elements:

- **Guidance.** A guidance curriculum that identifies knowledge and skills to be attained by all students at various stages of their development and provides appropriate activities for their achievement. (4-5-00)

- **Individual Planning.** Individualized planning with students and their parents in each of these domains: personal/social development, educational development, and career development. (4-5-00)

- **Response Services of Counseling, Consultation, and Referral.** (4-5-00)

- **System Support Functions That Promote Effective Delivery of Guidance Services.** (4-5-00)

109. **SPECIAL EDUCATION.**

- **Definitions.** The following definitions apply only to Section 109 of these rules. (4-5-00)
  
  - **Adult Student.** A student who is eligible for special education, is eighteen (18) years of age or older and to whom special education rights have transferred. (4-5-00)
  
  - **Department.** State Department of Education. (4-5-00)
  
  - **Due Process Hearing.** An administrative hearing that is conducted to resolve disputes. (3-29-10)
    
    - **Regular due process hearing regarding issues on any matter related to identification, evaluation, placement, or the provision of a free appropriate public education.** (3-29-10)
    
    - **For disputes concerning discipline for which shortened time lines are in effect, an expedited due process hearing may be requested in accordance with the Individuals with Disabilities Education Act.** (3-29-10)
  
    - **Education Agency.** Each school district and other public agency that is responsible for providing special education and related services to students with disabilities, including the Department of Juvenile Corrections and the Idaho School for the Deaf and Blind. (4-5-00)
  
    - **Governing Special Education Requirements.** Sections 33-201, 33-2001 through 2002, 33-2004 through 2005, and 33-2010, Idaho Code; Section 109 of these rules; the Individuals with Disabilities Education Act (4-5-00)
f. Idaho Special Education Manual. Policies and procedures, as approved by the State Board of Education, that the State Department of Education is required to adopt to meet the eligibility requirements of 20 U.S.C. Section 1412 and are consistent with state and federal laws, rules, regulations, and legal requirements.

(3-29-10)

g. Special Education. Specially designed instruction as defined by the Individuals with Disabilities Education Act or speech-language pathology services to meet the unique needs of a special education student.

(4-5-00)

02. Legal Compliance. The State Department of Education and education agencies shall comply with all governing special education requirements.

a. The Board of Trustees or other comparable governing body of each education agency shall adopt policies and procedures for providing special education services and obtain approval from the State Department of Education for the same. Department approval shall be based on current governing special education requirements. Each education agency shall revise its policies and procedures as necessary to conform with changes in governing special education requirements.

(4-5-00)

b. The State Department of Education shall provide education agencies with a sample set of policies and procedures that is consistent with governing special education requirements. The Department shall monitor all education agencies and private agencies who provide special education services to students with disabilities for compliance with governing special education requirements and adopted policies and procedures.

(4-5-00)

c. Each education agency shall ensure that charter schools and alternative schools located in its jurisdiction have nondiscriminatory enrollment practices. Each education agency shall ensure the provision of special education and related services to eligible students enrolled in charter and alternative schools in accordance with governing special education requirements.

(4-5-00)

d. Each education agency contracting with a private school or facility shall ensure that the private school or facility is approved by the State Department of Education to provide special education services. The Department may approve a private school or facility to provide special education services upon application to the Department if it:

i. Is an accredited school or a licensed rehabilitation center; and

(4-5-00)

ii. Meets minimum health, fire and safety standards; and

(4-5-00)

iii. Is nonsectarian; and

(4-5-00)

iv. Provides special education services consistent with governing special education requirements.

(4-5-00)

v. Any private school or facility aggrieved by the Department’s final decision may appeal that decision to the State Board of Education.

(4-5-00)

e. Education agencies shall employ special education and related services professional personnel using certification standards approved by the State Board of Education or licensing standards adopted by the appropriate Idaho state licensing board. Education agencies shall employ individuals who meet the highest entry-level standard that applies to a specific discipline unless there is a shortage of fully qualified candidates for a specific position. If there is a shortage of fully qualified candidates, the education agency shall hire the most qualified individual available who is making satisfactory progress toward meeting the highest entry-level standard within three (3) years.

(4-5-00)

f. Education agencies may employ paraprofessional personnel to assist in the provision of special
education and related services to students with disabilities if they meet standards established by the State Department of Education. (4-5-00)

g. Education agencies shall collect and report data as necessary to meet state and federal requirements concerning special education services, staff or students. Education agencies shall develop, implement and revise district improvement plans as necessary to improve results as measured by data on goals and indicators for the performance of special education students that are established by the State Department of Education in accordance with the Individuals with Disabilities Education Act. (4-5-00)

h. Education agencies shall establish a team process to problem solve and plan general education interventions to ensure that referrals to special education are appropriate. (4-5-00)

03. Eligibility for Special Education. The State Department of Education shall provide state eligibility criteria for special education services for categorical eligibility consistent with the Individuals with Disabilities Education Act. Education agencies shall consider eligibility under all disability categories set forth in the Idaho Special Education Manual with the exception of developmental delay, which is an optional category. If an education agency elects to use the developmental delay category, it shall consider developmental delay for students ages three (3) through nine (9) using the eligibility criteria adopted by the Department and set forth in the Idaho Special Education Manual. The total timeline from the date of receipt of written parental consent for an initial evaluation to the date of determination of eligibility for special education and related services must not exceed sixty (60) calendar days, excluding periods when regular school is not in session for five (5) or more consecutive school days, unless all parties agree to an extension. (4-7-11)

04. Individualized Education Programs. Each education agency shall develop an individualized education program (IEP) for each student who is eligible for special education. The IEP shall be implemented as soon as possible after it is developed. The total timeline from the determination that the student needs special education and related services to the date of implementation of the initial IEP shall not exceed thirty (30) calendar days. A new IEP shall be developed at least annually, on or before the date the previous IEP was developed. (3-25-16)

a. IEP team meetings shall be convened upon reasonable request of any IEP team member at times other than the annual review. If the education agency refuses to convene an IEP team meeting requested by a parent or adult student, the agency shall provide written notice of the refusal. (4-5-00)

b. Education agencies shall document the attendance of all participants at each IEP team meeting. Any participant who does not agree with an IEP team decision regarding a student’s educational program may place a minority report in that student’s file. A minority report shall not prevent implementation of an IEP team decision. (4-5-00)

c. The IEP team shall determine the student’s placement in the least restrictive environment. (5-3-03)

d. At the discretion of the education agency, an individualized family service plan (IFSP) may be used in place of an IEP if:

i. The child is ages three (3) through five (5), and

ii. The child’s parents are provided with a detailed explanation of the differences between an IFSP and an IEP, and

iii. The child’s parents provide written consent to use the IFSP, and

iv. The IFSP is developed in accordance with IDEA Part B policies and procedures. (3-29-10)

v. Nothing in this part requires education agencies to develop IFSPs rather than IEPs for three (3) through five (5) year old nor to implement more than the educational components of the IFSP. (4-5-00)

e. When a student who has been determined eligible for special education, as indicated by a current IEP, transfers from one (1) Idaho education agency to another, the student is entitled to continue to receive special
education services. The receiving education agency may accept and implement the existing IEP or may convene an IEP team meeting to develop a new IEP. If a new IEP cannot be developed within five (5) school days, or if the education agency wishes to re-evaluate the child, an interim (short-term) IEP shall be implemented pending development of the standard IEP. (4-5-00)

f. If a student who is eligible for special education in another state transfers to an Idaho education agency, the Idaho education agency shall request a copy of the student’s most recent eligibility documentation and IEP within two (2) school days. Within five (5) school days of receipt of the eligibility documentation and IEP, the Idaho education agency shall determine if it will adopt the existing eligibility documentation and IEP. If the education agency disagrees with the existing eligibility documentation, or if the documentation is not available within a reasonable time period, consent for an initial assessment shall be sought. While the assessment and evaluation is in process, the education agency may implement an interim IEP if the parent or adult student agrees. If the parent or adult student does not agree to an interim IEP, the student shall be placed in general education. (4-5-00)

05. Procedural Safeguards. Education agencies will use appropriate procedural safeguards consistent with the Individuals with Disabilities Education Act. (8-4-99)

a. If a parent or adult student disagrees with an individualized education program (IEP) team’s proposed IEP for the student, the parent or adult student may file a written objection to all or parts of the proposed IEP. If the written objection is emailed, postmarked or hand delivered within ten (10) calendar days of the date the parent or adult student receives written notice of the proposed IEP, the proposed change cannot be implemented for fifteen (15) calendar days, or as extended through mutual agreement by the district and the parent or adult student while the parties work to resolve the dispute. Parties may choose to hold additional IEP team meetings which may be facilitated by the State Department of Education (SDE) or request voluntary mediation through the SDE. If these methods fail or are refused, the proposed IEP shall be implemented after fifteen (15) calendar days unless a due process hearing is filed by the parents or adult student, during which time the student shall remain in the current educational placement during the pendency of any administrative or judicial proceeding, unless the district/adult student agree otherwise. The written objection cannot be used to prevent the education agency from placing a student in an interim alternative educational setting in accordance with IDEA discipline procedures, or to challenge an eligibility/identification determination. (3-29-17)

b. Mediation may be requested by an education agency, parent, or adult student, or offered by the State Department of Education at any time. The Department shall screen all such requests to determine appropriateness. Any time a hearing is requested, the Department shall offer mediation using policies and requirements set forth in the Individuals with Disabilities Education Act regulations. If the Department appoints a mediator, the Department shall be responsible for compensating the mediator. All mediation participants will receive a copy of the Notification of Mediation Confidentiality form. Attorney fees may not be awarded for a mediation that is conducted prior to a request for a due process hearing. (3-29-17)

c. The State Department of Education shall administer a single-tiered due process hearing system to resolve disputes between education agencies and parents or adult students. When a due process hearing is requested, the superintendent, special education director, or other agency administrator shall inform the agency’s board of trustees or other governing body of the request. The education agency shall immediately notify the Department’s Director of Special Education of any request for a due process hearing. Within ten (10) calendar days of a written request for a regular hearing, or within five (5) business days of a written request for an expedited hearing, an impartial hearing officer shall be assigned by the Department. The Department shall maintain a list of trained hearing officers and their qualifications. (3-29-10)

d. The education agency that is a party to the hearing shall be responsible for compensating the hearing officer and paying for the cost of a verbatim transcript of the hearing. (4-5-00)

e. Due process hearings shall be conducted pursuant to IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General,” Individuals with Disabilities Education Act requirements, and the Idaho Special Education Manual, incorporated by reference in Section 004 of this rule. In case of any conflict between the IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General” and the IDEA, the IDEA shall supersede the IDAPA 04.11.01, and IDAPA 04.11.01 shall supersede the Idaho Special Education Manual. (3-29-17)
f. The hearing officer shall issue a written decision that includes findings of fact and conclusions of law within forty-five (45) calendar days of the date a regular hearing is requested, unless a specific extension of this time line is requested by one (1) of the parties and granted by the hearing officer. The hearing officer shall issue a written decision that includes findings of fact and conclusions of law within twenty (20) calendar days of a written request for an expedited hearing, unless a specific extension of this time line has been granted. An extension of the time line for an expedited hearing shall not exceed an additional twenty-five (25) calendar days, and may be granted only if requested by one (1) of the parties and agreed to by both parties. The decision shall be sent to the parent or adult student, the education agency administrator, their respective representatives, and the State Department of Education.

(4-5-00)

g. The hearing officer’s decision shall be binding unless either party appeals the decision by initiating a civil action. The hearing officer’s decision shall be implemented not later than fourteen (14) calendar days from the date of issuance unless an appeal is filed by a parent or adult student or the decision specifies a different implementation date. An appeal to civil court must be filed within forty-two (42) calendar days from the date of issuance of the hearing officer’s decision.

(4-5-00)

h. During the hearing the education agency shall provide reasonable accommodations as required by federal and state regulations. Disputes concerning reasonable accommodations shall be referred to the U.S. Department of Education’s Americans with Disabilities Act (ADA) Committee for resolution.

(3-29-17)

i. During the pendency of any due process hearing or civil appeal the child’s educational placement shall be determined by the Individuals with Disabilities Education Act “stay put” requirements.

(4-5-00)

j. A parent or adult student has the right to an independent educational evaluation (IEE) at public expense if the parent or adult student disagrees with an evaluation obtained by the education agency. Whenever an IEE is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, shall be the same as the criteria the education agency uses when it initiates an evaluation, to the extent those criteria are consistent with the parent or adult student’s right to an IEE. If an education agency has cost as one (1) of the criteria the education agency uses when it initiates an evaluation, the education agency may apply that criteria to independent educational evaluations. However, the parent or adult student has the right to demonstrate that unique circumstances justify an IEE that falls outside the education agency’s cost criteria, and if so demonstrated, that IEE shall be publicly funded. A due process hearing may be initiated by the education agency to determine if the evaluation conducted by the education agency is appropriate. If the final decision of a hearing officer, or civil court, if the hearing officer’s decision is appealed, is that the evaluation conducted by the education agency is appropriate, the parent or adult student still has the right to an independent educational evaluation, but not at the education agency’s expense.

(3-29-17)

k. Student records shall be managed in accordance with IDEA and Family and Educational Rights and Privacy Act regulations governing security, confidentiality, access, maintenance, destruction, inspection and amendment.

(4-5-00)

06. Assistive Technology Devices. Education agencies may hold a parent liable for the replacement or repair of an assistive technology device that is purchased or otherwise procured by the education agency if it is lost, stolen, or damaged due to negligence or misuse at home or in another setting outside of school time.

(4-5-00)

07. Diplomas and Graduation. School districts shall use a regular diploma for students who are eligible for special education at the completion of their secondary program. The transcript serves as a record of individual accomplishments, achievements, and courses completed. A modified or differentiated diploma or certificate may not be used for students who are eligible for special education unless the same diploma or certificate is granted to students without disabilities. If a student is not granted a regular high school diploma or if a regular high school diploma is granted for completing requirements that are not comparable to regular graduation requirements, a student who is eligible for special education is entitled to receive a free appropriate public education through the semester in which the student turns twenty-one (21) years of age or until the student completes requirements that are comparable to regular graduation requirements, whichever comes first.

(4-5-00)

08. Special Education Advisory Panel. The State Superintendent of Public Instruction shall appoint
members to serve on the Special Education Advisory Panel. Panel members shall elect annually an individual to serve a one (1) year term as vice-chair followed by a one (1) year term as chair. (4-5-00)

110. ALTERNATIVE SECONDARY PROGRAMS (SECTION 33-1002; 33-1002C; 33-1002F, IDAHO CODE).

Alternative secondary programs are those that provide special instructional courses and offer special services to eligible at-risk youth to enable them to earn a high school diploma. Designated differences must be established between the alternative school programs and the regular secondary school programs. Alternative secondary school programs will include course offerings, teacher/pupil ratios and evidence of teaching strategies that are clearly designed to serve at-risk youth as defined in this section. Alternative high school programs conducted during the regular school year will be located on a separate site from the regular high school facility or be scheduled at a time different from the regular school hours. (3-29-17)

01. Student Qualifications. An at-risk youth is any secondary student grade six through twelve (6-12) who meets any three (3) of the following criteria, Subsections 110.01.a. through 110.01.g., or any one (1) of criteria in Subsections 110.01.h. through 110.01.n. (3-29-17)

a. Has repeated at least one (1) grade. (4-1-97)

b. Has absenteeism that is greater than ten percent (10%) during the preceding semester. (4-1-97)

c. Has an overall grade point average that is less than 1.5 (4.0 scale) prior to enrolling in an alternative secondary program. (4-1-97)

d. Has failed one (1) or more academic subjects in the past year. (3-29-17)

e. Is below proficient, based on local criteria or standardized tests, or both. (3-29-17)

f. Is two (2) or more credits per year behind the rate required to graduate or for grade promotion. (3-29-17)

g. Has attended three (3) or more schools within the previous two (2) years, not including dual enrollment. (3-29-17)

h. Has documented or pattern of substance abuse. (3-29-17)

i. Is pregnant or a parent. (4-1-97)

j. Is an emancipated youth or unaccompanied youth. (3-29-17)

k. Is a previous dropout. (4-1-97)

l. Has serious personal, emotional, or medical issue(s). (3-29-17)

m. Has a court or agency referral. (3-29-17)

n. Demonstrates behavior that is detrimental to their academic progress. (3-29-17)

02. Instruction. Special instruction courses for at-risk youth enrolled in an alternative secondary program will include: (4-1-97)

a. Core academic content that meets or exceeds minimum state standards; (3-29-17)

b. A physical fitness and personal health component; (3-29-17)

c. Career and technical education component approved by the state division of career technical education; (3-29-17)
d. A personal finance, parenting, and child care component; and (3-29-17)
e. A personal and career counseling component. (3-29-17)

03. Graduation Credit. Graduation credit may be earned in the following areas: academic subjects, electives, and approved work-based learning experiences. Nonacademic courses, i.e., classroom and office aides do not qualify for credit unless they are approved work-based learning experiences. (4-5-00)

04. Special Services. Special services for at-risk youth enrolled in alternative secondary programs include the following where appropriate:

   a. A day care center when enrollees are also parents. This center should be staffed by a qualified child care provider. (4-1-97)
   b. Direct social services that may include officers of the court, social workers, counselors/psychologists. (4-1-97)
   c. All services in accordance with the student’s Individualized Education Program. (3-29-17)

111. ASSESSMENT IN THE PUBLIC SCHOOLS.

01. Philosophy. Acquiring the basic skills is essential to realization of full educational, vocational and personal/social development. Since Idaho schools are responsible for instruction in the basic scholastic skills, the State Board of Education has a vested interest in regularly surveying student skill acquisition as an index of the effectiveness of the educational program. This information can best be secured through objective assessment of student growth. The State Board of Education will provide oversight for all components of the comprehensive assessment program. (4-2-08)

02. Purposes. The purpose of assessment in the public schools is to:

   a. Measure and improve student achievement; (3-15-02)
   b. Assist classroom teachers in designing lessons; (3-15-02)
   c. Identify areas needing intervention and remediation, and acceleration; (3-15-02)
   d. Assist school districts in evaluating local curriculum and instructional practices in order to make needed curriculum adjustments; (3-15-02)
   e. Inform parents and guardians of their child’s progress; (3-15-02)
   f. Provide comparative local, state and national data regarding the achievement of students in essential skill areas; (3-15-02)
   g. Identify performance trends in student achievement across grade levels tested and student growth over time; and (3-15-02)
   h. Help determine technical assistance/consultation priorities for the State Department of Education. (3-15-02)

03. Content. The comprehensive assessment program will consist of multiple assessments, including, the Idaho Reading Indicator (IRI), the National Assessment of Educational Progress (NAEP), the Idaho English Language Assessment, the Idaho Standards Achievement Tests (ISAT), the Idaho Alternate Assessment, and a college entrance exam. (3-29-12)

04. Testing Population. All students in Idaho public schools, grades kindergarten through twelve (K-
12), are required to participate in the comprehensive assessment program approved by the State Board of Education and funded.

   a. All students who are eligible for special education shall participate in the statewide assessment program.

   b. Each student’s individualized education program team shall determine whether the student shall participate in the regular assessment without accommodations, the regular assessment with accommodations or adaptations, or whether the student qualifies for and shall participate in the alternate assessment.

   c. Limited English Proficient (LEP) students, as defined in Subsection 112.05.g.iv., may receive designated supports or accommodations, or both, for the ISAT assessment if need has been indicated by the LEP student's Educational Learning Plan (ELP) team. The team shall outline the designated supports or accommodations, or both, in an ELP prior to the assessment administration. Designated supports or accommodations, or both, shall be familiar to the student during previous instruction and for other assessments. LEP students who are enrolled in their first year of school in the United States may take Idaho’s English language assessment in lieu of the English language ISAT, but will still be required to take the ISAT (Mathematics and Science). Such LEP students will be counted as participants for the ninety-five percent (95%) participation target, as described in Subsection 112.05.e. However, such LEP students are not required to be counted for accountability purposes as described in Subsection 112.05.i.

   (3-29-17)

   05. **Scoring and Report Formats.** Scores will be provided for each subject area assessed and reported in standard scores, benchmark scores, or holistic scores. Test results will be presented in a class list report of student scores, building/district summaries, content area criterion reports by skill, disaggregated group reports, and pressure sensitive labels as appropriate. Information about the number of students who are eligible for special education who participate in regular and alternate assessments, and their performance results, shall be included in reports to the public if it is statistically sound to do so and would not disclose performance results identifiable to individual students.

   a. Effective April 1, 2009, all students taking the Idaho Standards Achievement Test (ISAT) must have a unique student identifier.

   b. Districts must send all assessment results and related communication to parents within three (3) weeks of receipt from the state.

   (4-7-11)

   06. **Comprehensive Assessment Program.** The State approved comprehensive assessment program is outlined in Subsections 111.06.a. through 111.06.n. Each assessment will be comprehensive of and aligned to the Idaho State Content Standards it is intended to assess. In addition, districts are responsible for writing and implementing assessments in those standards not assessed by the state assessment program.

   a. Kindergarten - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment.

   (4-2-08)

   b. Grade 1 - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment.

   (4-2-08)

   c. Grade 2 - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment.

   (4-11-15)

   d. Grade 3 - Idaho Reading Indicator, Grade 3 Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment.

   (3-29-17)

   e. Grade 4 - National Assessment of Educational Progress, Grade 4 Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment.

   (3-29-17)

   f. Grade 5 - Grade 5 Idaho Standards Achievement Tests in English language usage, mathematics,
and science, Idaho Alternate Assessment, Idaho English Language Assessment.

- **g.** Grade 6 - Grade 6 Idaho Standards Achievement Tests, Idaho Alternate Assessment in English language usage and mathematics, Idaho English Language Assessment.

- **h.** Grade 7 - Grade 7 Idaho Standards Achievement Tests, Idaho Alternate Assessment in English language usage, mathematics, and science, Idaho English Language Assessment.

- **i.** Grade 8 - National Assessment of Educational Progress, Grade 8 Idaho Standards Achievement Tests in English language usage and mathematics, Idaho Alternate Assessment, Idaho English Language Assessment.

- **j.** Grade 9 - High School Idaho Standards Achievement Tests (optional at the discretion of the school district or charter school), Idaho Alternate Assessment, Idaho English Language Assessment.

- **k.** Grade 10 - High School Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment.

- **l.** Grade 11 - Idaho English Language Assessment, college entrance exam.

- **m.** Grade 12 - National Assessment of Educational Progress, Idaho English Language Assessment.

- **n.** Students are required to take a high school End of Course Assessment in science provided by the state and administered by the district as applicable to the course completed by the students.

**07. Comprehensive Assessment Program Schedule.**

- **a.** The Idaho Reading Indicator will be administered in accordance with Section 33-1615, Idaho Code.

- **b.** The National Assessment of Educational Progress will be administered in timeframe specified by the U.S. Department of Education.

- **c.** The Idaho Standards Achievement Tests will be administered in the Spring in a time period specified by the State Board of Education.

- **d.** The Idaho Alternate Assessment will be administered in a time period specified by the State Board of Education.

- **e.** Idaho’s English Language Assessment will be administered in a time period specified by the State Board of Education.

**08. Costs Paid by the State.** Costs for the following testing activities will be paid by the state:

- **a.** All consumable and non-consumable materials needed to conduct the prescribed statewide comprehensive assessment program;

- **b.** Statewide distribution of all assessment materials; and

- **c.** Processing and scoring student response forms, distribution of prescribed reports for the statewide comprehensive assessment program.

**09. Costs of Additional Services.** Costs for any additional administrations or scoring services not included in the prescribed statewide comprehensive assessment program will be paid by the participating school districts.
10. **Services.** The comprehensive assessment program should be scheduled so that a minimum of instructional time is invested. Student time spent in testing will not be charged against attendance requirements.
   (3-15-02)

11. **Test Security, Validity and Reliability.**
   (4-2-08)
   a. Test security is of the utmost importance. To ensure integrity of secure test items and protect validity and reliability of test outcomes, test security must be maintained. School districts will employ security measures in protecting statewide assessment materials from compromise. Each individual who has any opportunity to see test items must sign a state-provided confidentiality agreement, which the district must keep on file in the district for at least two (2) years. Documentation of security safeguards must be available for review by authorized state and federal personnel.
   (4-2-08)

   b. Any assessment used for federal reporting shall be independently reviewed for reliability, validity, and alignment with the Idaho Content Standards.
   (4-2-08)

12. **Demographic Information.** Accurate demographic information must be submitted as required for each test to assist in interpreting test results. It may include but is not limited to race, sex, ethnicity, and special programs, (Title I, English proficiency, migrant status, special education status, gifted and talented status, and socio-economic status).
   (4-2-08)

13. **Dual Enrollment.** For the purpose of non-public school student participation in non-academic public school activities as outlined in Section 33-203, Idaho Code, the Idaho State Board of Education recognizes the following:
   (3-15-02)
   a. The Idaho Standards Achievement Tests (grades 3-8 and High School).
   (3-29-17)
   b. A portfolio demonstrating grade level proficiency in at least five (5) of the subject areas listed in Subsections 111.13.b.i. through 111.13.b.vi. Portfolios are to be judged and confirmed by a committee comprised of at least one (1) teacher from each subject area presented in the portfolio and the building principal at the school where dual enrollment is desired.
   (4-6-05)
   i. Language Arts/Communications.
   (3-15-02)
   ii. Math.
   (3-15-02)
   iii. Science.
   (3-15-02)
   iv. Social Studies.
   (3-15-02)
   v. Health.
   (3-15-02)
   vi. Humanities.
   (3-15-02)

112. **ACCOUNTABILITY.**
School district, charter school district and public charter school accountability will be based on multiple measures aimed at providing meaningful data showing progress toward interim and long-term goals set by the State Board of Education for student achievement and school improvement. The state accountability framework will be used to meet both state and federal school accountability requirements and will be broken up by school category and include measures of student academic achievement and school quality as determined by the State Board of Education.
(3-29-17)

01. **School Category.**
   (3-29-17)
   a. Kindergarten through grade eight (K-8): Schools in this category include elementary and middle schools as defined in Subsection 112.05.1.
b. High Schools, not designated as alternative high schools, as defined in Subsection 112.05.f. (3-29-17)

c. Alternative High Schools. (3-29-17)

02. Academic Measures by School Category. (3-29-17)

a. K-8: (3-29-17)
   i. Idaho Standards Achievement Tests (ISAT) Proficiency. (3-29-17)
   ii. ISAT growth toward proficiency based on a trajectory model approved by the State Board of Education. (3-29-17)
   iii. ISAT proficiency gap closure. (3-29-17)
   iv. Idaho statewide reading assessment proficiency. (3-29-17)
   v. English Learners achieving English language proficiency. (3-29-17)
   vi. English Learners achieving English language growth toward proficiency. (3-29-17)

b. High School: (3-29-17)
   i. ISAT proficiency. (3-29-17)
   ii. ISAT proficiency gap closure. (3-29-17)
   iii. English Learners achieving English language proficiency. (3-29-17)
   iv. English Learners achieving English language growth toward proficiency. (3-29-17)
   v. Four (4) year cohort graduation rate, including students who complete graduation requirements prior to the start of the school district or charter schools next fall term. (3-29-17)
   vi. Five (5) year cohort graduation rate, including students who complete graduation requirements prior to the start of the school district or charter schools next fall term. (3-29-17)

c. Alternative High School: (3-29-17)
   i. ISAT proficiency. (3-29-17)
   ii. English learners achieving English language proficiency. (3-29-17)
   iii. English learners achieving English language growth towards proficiency. (3-29-17)
   iv. Four (4) year cohort graduation rate, including students who complete graduation requirements prior to the start of the school district or charter schools next fall term. (3-29-17)
   v. Five (5) year cohort graduation rate, including students who complete graduation requirements prior to the start of the school district or charter schools next fall term. (3-29-17)

03. School Quality Measures by School Category. (3-29-17)

a. K-8: (3-29-17)
   i. Students in grade 8 enrolled in pre-algebra or higher. (3-29-17)
ii. State satisfaction and engagement survey administered to parents, students, and teachers (effective starting in the 2018-2019 school year). (3-29-17)

iii. Communication with parents on student achievement (effective starting in the 2018-2019 school year). (3-29-17)

b. High School:

i. College and career readiness determined through a combination of students participating in advanced opportunities, earning industry recognized certification, and/or participation in recognized high school apprenticeship programs. (3-29-17)

ii. State satisfaction and engagement survey administered to parents, students, and teachers (effective starting in the 2018-2019 school year). (3-29-17)

iii. Students in grade 9 enrolled in algebra I or higher. (3-29-17)

iv. Communication with parents on student achievement (effective starting in the 2018-2019 school year). (3-29-17)

c. Alternative High School:

i. Credit recovery and accumulation. (3-29-17)

ii. College and career readiness determined through a combination of students participating in advanced opportunities, earning industry recognized certification, and/or participation in recognized high school apprenticeship programs. (3-29-17)

iii. State satisfaction and engagement survey administered to parents, students, and teachers (effective starting in the 2018-2019 school year). (3-29-17)

iv. Communication with parents on student achievement (effective starting in the 2018-2019 school year). (3-29-17)

04. Reporting. Methodologies for reporting measures and determining performance will be set by the State Board of Education. (3-29-17)

05. Annual Measurable Progress Definitions. For purposes of calculating and reporting progress, the following definitions shall be applied.

a. ISAT Student Achievement Levels. There are four (4) levels of student achievement for the ISAT: Below Basic, Basic, Proficient, and Advanced. Definitions for these levels of student achievement are adopted by reference in Section 004 of these rules. (4-11-19)

b. Idaho’s English Language Assessment Proficiency Levels. There are six (6) levels of language proficiency for students testing on the Idaho English Language Assessment: Level 1, Level 2, Level 3, Level 4, Level 5, and Level 6. Definitions for these levels of language proficiency are adopted by reference in Section 004 of these rules. (4-11-19)

c. Annual Measurable Progress.

i. ISAT Proficiency is defined as the number of students scoring proficient or advanced on the spring on-grade level ISAT. (3-29-17)

ii. The State Department of Education will make determinations for schools and districts each year. Results will be given to the districts at least one (1) month prior to the first day of school. (3-29-17)
iii. The State Board of Education will set long-term goals and measurements of interim progress targets toward those goals. The baseline for determining measurable student progress will be set by the State Board of Education and shall identify the amount of growth (percentage of students reaching proficiency) required for each intermediate period. (3-29-17)

d. Full Academic Year (continuous enrollment). (3-20-04)

i. A student who is enrolled continuously in the same public school from the end of the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included in the calculation to determine if the school achieved progress in any statewide assessment used for determining proficiency. A student is continuously enrolled if the student has not transferred or dropped-out of the public school. Students who are serving suspensions are still considered to be enrolled students. (3-29-17)

ii. A student who is enrolled continuously in the school district from the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included when determining if the school district has achieved AYP. (4-2-08)

iii. A student who is enrolled continuously in a public school within Idaho from the end of the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included when determining if the state has achieved progress in any statewide assessment used for determining proficiency. (3-29-17)

e. Participation Rate. (3-20-04)

i. Failure to include ninety-five percent (95%) of all students and ninety-five percent (95%) of students in designated subgroups automatically identifies the school as not having achieved measurable progress in ISAT proficiency. The ninety-five percent (95%) determination is made by dividing the number of students assessed on the Spring ISAT by the number of students reported on the class roster file for the Spring ISAT. (3-29-17)

(1) If a school district does not meet the ninety-five percent (95%) participation target for the current year, the participation rate can be calculated by the most current three (3) year average of participation. (4-6-05)

(2) Students who are absent for the entire state-approved testing window because of medical reasons or are homebound are exempt from taking the ISAT if such circumstances prohibit them from participating. Students who drop out, withdraw, or are expelled prior to the beginning of the final makeup portion of the test window are considered exited from the school. (4-7-11)

ii. For groups of ten (10) or more students, absences for the state assessment may not exceed five percent (5%) of the current enrollment or two (2) students, whichever is greater. Groups of less than ten (10) students will not have a participation determination. (3-20-04)

f. Schools. As used in this section, schools refers to any school within a school district or charter school district and public charter schools. (3-29-17)

i. An elementary school includes a grade configuration of grades Kindergarten (K) through six (6) inclusive, or any combination thereof. (3-20-04)

ii. A middle school is a school that does not meet the definition of an elementary school and contains grade eight (8) but does not contain grade twelve (12). (4-6-05)

iii. A high school is any school that contains grade twelve (12). (3-20-04)

iv. An alternative high school is any school that contains grade twelve (12) and meets the requirements of Section 110 of these rules. (3-29-17)
v. The accountability of public schools without grades assessed by this system (i.e., K-2 schools) will be based on the third grade test scores of the students who previously attended that feeder school. (3-20-04)

vi. A “new school” for purposes of accountability is a wholly new entity receiving annual measurable progress determinations for the first time, or a school with a significant student population change as a result of schools being combined or geographic boundaries changing, or a result of successful school restructuring sanctioned by the Office of the State Board of Education. (3-29-17)

g. Subgroups. Scores on the ISAT must be disaggregated and reported by the following subgroups:
   (3-20-04)
   i. Race/Ethnicity - Black/African American, Asian, Native Hawaiian/Pacific Islander, White, Hispanic/Latino Ethnicity, American Indian/Alaska Native. (3-20-04)
   ii. Economically disadvantaged - identified through the free and reduced lunch program. (3-20-04)
   iii. Students with disabilities - individuals who are eligible to receive special education services through the Individuals with Disabilities Education Act (IDEA). (3-20-04)
   iv. Limited English Proficient - individuals who do not score proficient on the state-approved language proficiency test and meet one (1) of the following criteria:
      (4-11-15)
      (1) Individuals whose native language is a language other than English; or
      (4-6-05)
      (2) Individuals who come from environments where a language other than English is dominant; or
      (4-6-05)
      (3) Individuals who are American Indian and Alaskan natives and who come from environments where a language other than English has had a significant impact on their level of English language proficiency, and who, by reason thereof, have sufficient difficulty speaking, reading, writing, or understanding the English language to deny such individuals the opportunity to learn successfully in classrooms, where the language of instruction is English. (4-6-05)

h. Graduation Rate. The graduation rate will be based on the rate of the cohort of students entering grade nine (9) during the same academic year and attending or exiting the school within a four (4) year or five (5) year period as applicable to the measure being determined. In determining the graduation cohort the school year shall include the students who complete graduation requirements prior to the start of the school district or charter schools next fall term. School districts may only report students as having graduated if the student has met, at a minimum, the state graduation requirements, pursuant to Section 105, and will not be returning to the school in following years to complete required academic coursework. The State Board of Education will establish a target for graduation. All high schools must meet the target or make sufficient progress toward the target each year, as determined by the State Board of Education. The graduation rate will be disaggregated by the subgroups listed in Subsection 112.05.g. (3-29-17)

i. Additional Academic Indicator. The State Board of Education will establish a target for all additional academic and school quality measures. All schools must maintain or make progress toward the additional academic and school quality measure target each year. The additional academic and school quality measure targets will be disaggregated by the subpopulations listed in Subsection 112.05.g. (3-29-17)

113. (RESERVED)

114. FAILURE TO MEET ANNUAL MEASURABLE PROGRESS.

01. Accountability Measures and Timelines. Accountability measures and timelines will be determined by the state board of education for school districts and schools who fail to meet annual measurable progress. (3-29-17)
02.  **Compliance with Federal Law.** All schools and local educational agencies in this state shall comply with applicable federal laws governing specific federal grants. (4-6-05)

a.  With respect to schools and local educational agencies in this state that receive federal grants under title I of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act of 2015 (Title I schools), the State Department of Education shall develop procedures for approval by the State Board of Education, consistent with federal law, that describe actions to be taken by local educational agencies and schools in this state in regard to schools that fail to meet interim and long-term progress goals. (3-29-17)

b.  With respect to schools and local educational agencies in this state that do not receive federal grants under Title I of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act of 2015, such non-Title I schools and local educational agencies shall be required to comply with federal law and state requirements with the procedures relating to failure to meet interim and long-term progress goals as provided in Subsection 114.02.a. of this rule, as if they were Title I schools, except that any provisions relating to the use of federal grants to pay for such expenses shall not be applicable to such non-Title I schools and local educational agencies. In such event, non-title I schools shall be required to fund such compliance costs from general operating funds. (3-29-17)

03.  **State Department of Education.** With respect to the implementation of duties and responsibilities described under Title I of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act of 2015, that are applicable to a state educational agency, the State Department of Education shall perform such duties and responsibilities delegated by the State Board of Education, including, but not limited to, making technical assistance available to local educational agencies that fail to meet interim and long-term goals, and for providing technical assistance, developing improvement plans, and providing for mandatory corrective actions to local educational agencies as required under federal law and state law. (3-29-17)

115.  **DATA COLLECTION.**
The State Department of Education will collect the required information from participating school files for state and federal reporting and decision-making. The enrollment collection will contain information about the enrollment of the student attributes such as unique student identifier, active special education, Limited English Proficient (LEP), migrant, grade level, gender, race, and free/reduced lunch status. The collection will be done in mid-October, early February, and May (end of the testing window). Each participating school is required to verify and assure the accuracy of the data submitted in the files. (5-8-09)

01.  **State Data System.** In accordance with the provisions of Section 33-133, Idaho Code, the following data elements will be added to the state data system: (3-28-18)

a.  Grade Point Average (GPA). (3-28-18)

116.  **UNIQUE STUDENT IDENTIFIER.**

01.  **Assignment.** Effective April 1, 2009, each student enrolled or enrolling in an Idaho school district or LEA will be assigned a unique student identifier. The unique student identifier shall follow the student from each school district or LEA or upon return to a school district or LEA after an absence from a school district or LEA no matter how long of absence has occurred. (5-8-09)

a.  School districts must obtain unique student identifiers by providing the following information to the State Department of Education for each student: (5-8-09)

i.  First and last name as written on a legal document such as birth certificate, passport, visa, social security card, or other such legal document. (5-8-09)

ii.  Date of birth. (5-8-09)

iii.  Ethnicity. (5-8-09)
iv. Gender. (5-8-09)

b. School districts or LEAs may provide any or all of the following additional information to help ensure unique identification such as:

i. Birth mother’s first and last name. (5-8-09)

ii. Parents’ or guardians’ first and last name(s). (5-8-09)

iii. Social security number. (5-8-09)

iv. County of birth. (5-8-09)

117. (RESERVED)

118. HOME SCHOOL. Any student not attending a public or private school within the state of Idaho may, as an alternative, receive educational instruction in a home school setting at the direction of the student’s parent or guardian. A home schooled student is required to receive such instruction in subjects commonly and usually taught in the public schools of the state of Idaho. (4-4-13)

119. -- 127. (RESERVED)

128. CURRICULAR MATERIALS SELECTION AND ONLINE COURSE APPROVAL (SECTIONS 33-118; 33-118A, IDAHO CODE). The State Board of Education will appoint a committee to select curriculum materials. Committee appointments will be for a period of five (5) years. Committee appointments shall consist of not less than ten (10) total members from the following stakeholder groups: certified Idaho classroom teachers, Idaho public school administrators, Idaho higher education officials, parents, trustees, local board of education members, members of the Division of Career Technical Education, and State Department of Education personnel. The Executive Secretary will be an employee of the State Department of Education and will be a voting member of the committee. The State Department of Education shall charge publishers submission fees of sixty dollars ($60) or equal to the retail price of each, whichever is greater, to defray the costs incurred in the curricular material review and adoption process. (3-27-13)

01. Subject Areas. Curricular materials are adopted by the State Board of Education for a period of six (6) years in the following subject areas: reading, English, spelling, speech, journalism, languages other than English, art, drama, social studies, music, mathematics, business education, career education and counseling, vocational/technical education, science, health, physical education, handwriting, literature, driver education, limited English proficiency. (3-25-16)

02. Multiple Adoptions. Multiple adoptions are Made in Each Subject Area. (4-5-00)

03. Bids. Each publisher must deliver, according to the committee schedule, a sealed bid on all curricular materials presented for adoption. (4-5-00)

04. Depository. The State Board will appoint a depository for the state-adopted curricular materials. Resource materials are a local option. (4-5-00)

05. Local Policies. School districts will follow their own policies for adoption in subject areas offered by a school district for which materials are not covered by the state curriculum materials committee. (4-5-00)

06. Online Course Review and Approval Process. The State Department of Education shall administer the review and approval of online course providers and courses. Reviewers shall be certified Idaho classroom teachers. Online course providers are approved for a period of four (4) years. The State Department of Education shall charge online course providers submission fees based on the number of courses offered, not to exceed the actual costs incurred in the online course and course provider review and approval process. (3-20-14)
129. **COMMUNICATION.**

**01. Communication Skills Emphasis.** Communication skills enabling students to be responsible citizens of their homes, schools and communities will be emphasized throughout the curriculum. The teaching and demonstrating of effective communication skills will be exemplified throughout the kindergarten through twelve (K-12) system. (4-1-97)

**02. Age-Appropriate Classroom, School, and Community Activities.** Each year, age-appropriate classroom, school and community activities will be provided to all students for the purpose of developing written and oral communication skills with individuals and groups. Good listening skills are a critical component of the communication process. (Section 33-1612, Idaho Code) (4-1-97)

130. **TECHNOLOGY.**

Throughout the kindergarten through twelve (K-12) system, technology will be integral to curriculum, instruction and assessment. (Section 33-1612, Idaho Code). Technology moves communication to a new dimension. The kindergarten through twelve (K-12) system must lay the foundation for students to be able to participate comfortably in an increasingly technological society. Classroom activities will include instruction using multi-media, distance learning and other technologies. (4-1-97)

**01. Distance Learning Settings.** In distance learning settings, districts will provide for: (4-1-97)

a. Adequate student contact with a teacher or paraprofessional during instructional process. (4-1-97)

b. Ready access for answering student questions. (4-1-97)

c. Adequate teacher time to provide students with feedback on assignments and questions. (4-1-97)

**02. Cooperative Instructional Initiatives.** Cooperative instructional initiatives from post-secondary institutions among districts and other sources are encouraged. Local school districts will be responsible for the quality of the programs offered and will assure that all state standards are met. (4-1-97)

131. -- 139. (RESERVED)

140. **WORKFORCE SKILLS.**

**01. Academic Skill Development.** All students will be provided the opportunity to develop their academic skills (i.e., reading, language arts and communication, mathematics, science, social studies) and to develop the skills necessary for entering the workforce, including self-management skills (i.e., ability to plan, self-discipline, respect for authority, ongoing skill improvement), individual and teamwork skills (i.e., personal initiative, working with others), thinking/information skills (i.e., reasoning, problem solving, acquiring and using information) and vocational-technical skills based on the standards of the industry as approved by the State Board of Vocational Education. (4-1-97)

**02. Other Skill Development.** Recognizing that students may or may not be active in the workforce, the State Board believes all students should be provided the opportunity to become contributing community and family members. This instruction includes homemaking skills (i.e., nutrition, child development, resource management); balancing work and family responsibilities; and entrepreneurial skills. (4-1-97)

**03. Work-Based Learning Experiences.** Work-based learning experiences may be provided as part of the instruction in the school. For students to receive credit, these experiences will include: training plans, training agreements, approved work sites, and supervision by appropriately certificated personnel. If work-based learning experiences are selected, they will be included in the Parent Approved Student Learning Plans. Instruction will be organized to facilitate a successful transition into the workforce and further education. (4-1-97)

141. -- 149. (RESERVED)

150. **BASIC VALUES.**
Honesty, self-discipline, unselfishness, respect for authority and the central importance of work are emphasized. (See Section 33-1612)  

151. -- 159. (RESERVED)

160. SAFE ENVIRONMENT AND DISCIPLINE.
Each school district will have a comprehensive districtwide policy and procedure encompassing the following:

- School Climate
- Discipline
- Student Health
- Violence Prevention
- Possessing Weapons on Campus
- Substance Abuse - Tobacco, Alcohol, and Other Drugs
- Suicide Prevention
- Student Harassment
- Drug-free School Zones
- Building Safety including Evacuation Drills
- Relationship Abuse and Sexual Assault Prevention and Response

Districts will conduct an annual review of these policies and procedures. (See Section 33-1612)  

161. -- 169. (RESERVED)

170. CITIZENSHIP.
Schools will provide instruction and activities necessary for students to acquire the skills to enable them to be responsible citizens in their homes, schools, communities, state and nation. (Section 33-1612, Idaho Code)  

171. GIFTED AND TALENTED PROGRAMS.

01. Definitions. The following definitions apply only to Section 171 of these rules.  
   a. Department. State Department of Education.  
   b. District. Local school district.  
   c. Gifted/talented children. Those students who are identified as possessing demonstrated or potential abilities that give evidence of high performing capabilities in intellectual, creative, specific academic or leadership areas, or ability in the performing or visual arts and who require services or activities not ordinarily provided by the school in order to fully develop such capabilities Section 33-2001, Idaho Code.  

02. Legal Compliance. The State Department of Education and districts shall comply with all governing gifted and talented education requirements.

03. District Plan. Each school district shall develop and write a plan for its gifted and talented program. The plan shall be submitted to the Department no later than October 15, 2001. The plan shall be updated and submitted every three (3) years thereafter and shall include:
04. **Screening.** The district’s process for identifying gifted and talented students shall include the following steps:

a. The district shall screen all potentially gifted and talented students to ensure they have an opportunity to be considered; and

b. The district shall assess those students meeting the screening criteria and gather additional information concerning their specific aptitudes and educational needs; and

c. The district shall match student needs with appropriate program options.

05. **Assessment.** Placement decisions shall not be determined by a single criterion (for instance, test scores, other measurement, teacher recommendation, or nomination). The district’s identification process shall use multiple indicators of giftedness with information obtained through the following methods and sources:

a. Procedures for obtaining information about students shall include formal assessment methods, such as group and individual tests of achievement, general ability, specific aptitudes and creativity.

b. Procedures for obtaining information about students shall also include informal assessment methods, such as checklists, rating scales, pupil product evaluations, observations, nominations, biographical data, questionnaires, interviews and grades.

c. Information about students shall be obtained from multiple sources, such as teachers, counselors, peers, parents, community members, subject area experts, and the students themselves.

06. **Administration.** The district shall designate a certificated staff person to be responsible for development, supervision, and implementation of the gifted and talented program.

172. -- 199. (RESERVED)

200. **K-12 IDAHO CONTENT STANDARDS.**
As stated in Subsection 105.02 of these Thoroughness rules, all students graduating from Idaho public high schools must meet locally established content standards. The standards set forth in Section 004 of this rule are state content standards that shall be the minimum standards used by every school district in the state in order to establish a level of academic content necessary to graduate from Idaho’s public schools. Each school district may set standards more rigorous than these state content standards but no district shall use any standards less rigorous than those set forth in these Thoroughness rules. The implementation time and effective date for these Content Standards rules is the graduating senior class of 2005.

007. -- 009. (RESERVED)

010. DEFINITIONS.

01. Authorizer Fee. Fee paid by each public charter school to its authorized chartering entity. (3-20-14)

02. Board. Means the Idaho State Board of Education. (4-11-06)
03. **Commission.** Means the Idaho Public Charter School Commission, as provided by Section 33-5213, Idaho Code. (4-11-06)

04. **Department.** Means the Idaho Department of Education. (4-11-06)

05. **Institution.** For the purpose of this section, Institution means an Idaho public college, university of community college, or a private, nonprofit Idaho-based, nonsectarian college or university that is accredited by the same organization that accredits Idaho public colleges and universities. (3-20-14)

06. **Petitioners.** Means the group of persons who submit a petition to establish a new public charter school, or to convert an existing traditional public school to a public charter school, as provided by Section 33-5205, Idaho Code, and the procedures described in Sections 200 through 205 of these rules. (4-11-06)

07. **School Year.** Means the period beginning on July 1 and ending the next succeeding June 30 of each year. (4-11-06)

011. -- 099. (RESERVED)

100. **LIMITATIONS ON NEW PUBLIC CHARTER SCHOOLS.**

01. **Responsibilities of Petitioners on Approval of Charter.** Upon the approval of a new public charter school by an authorized chartering entity, the petitioners shall provide the Board with written notice of such approval. The authorized chartering entity of the public charter school shall provide the Board with copies of the charter and any charter revisions upon request. (4-4-13)

02. **Authorization to Begin Educational Instruction.** The public charter schools authorized to begin educational instruction during a given school year shall be those public charter schools that have received approval from their authorized chartering entities to begin educational instruction during such school year. A public charter school that is approved by an authorized chartering entity, but which does not begin educational instruction must confirm with the Board, on or before March 1 preceding the next succeeding school year, that it is able to begin educational instruction during such school year. (3-20-14)

101. **AUTHORIZED CHARTERING ENTITY.**

01. **Institution.** An institution shall receive approval from their governing board prior to authorizing any charter schools. (3-20-14)

   a. Petitions shall be submitted to the president of the institution or his designee. (3-20-14)

   b. An institution may approve or deny a petition. (3-28-18)

   c. Notwithstanding Sections 400 through 404, of these rules, denial of a new petition by an institution is final. A petitioner may submit a petition that has been denied by an institution to any authorized chartering entity. (3-20-14)

102. **AUTHORIZER FEE.**

01. **Notification.** It is the responsibility of each authorizer to notify the Department if the authorizer fee has not been received by the date specified in Section 33-5208, Idaho Code. (3-20-14)

   a. The authorizer must provide notification of the delinquent fee to the charter school prior to reporting to the Department. (3-20-14)

   b. The authorizer must provide the amount delinquent and proof of notification to the charter school within thirty (30) days of the non-payment of the authorizer fee. (3-20-14)

   c. The Department shall withhold the amount of the delinquent fee from the next scheduled release of
funds to the charter school. The funds will be withheld until the Department has received notification from the authorizer that the authorizer fee has been paid in full. (3-20-14)

103. -- 199. (RESERVED)

200. PROCEDURE FOR FORMATION OF A NEW PUBLIC CHARTER SCHOOL.

01. Assistance with Petitions. The Department shall, in accordance with Section 33-5211, Idaho Code, provide technical assistance to public charter school petitioners. The Department shall undertake this statutory responsibility by conducting public charter school workshops, as discussed in Subsection 200.02 of this rule. (4-11-06)

02. Public Charter School Workshops. The purpose of the public charter school workshops shall be to provide public charter school petitioners with a brief overview of a variety of educational and operational issues relating to public charter schools, as well as to answer questions and to provide technical assistance, as may be necessary, to aid petitioners in the preparation of public charter school petitions. (4-11-06)

03. Petition Submittal. A public charter school petition may be submitted to only one (1) authorized chartering entity at a time. A petitioner may submit a petition that has been denied by an authorized chartering entity to any other authorized chartering entity after an appeal process, if any, is complete and a final decision has been reached. (3-28-18)

201. POLICIES AND PROCEDURES ADOPTED BY AN AUTHORIZED CHARTERING ENTITY.
An authorized chartering entity may adopt its own charter school policies and procedures describing the charter school petition process and the procedures that petitioners must comply with in order to form a new public charter school, including a public virtual school. Petitioners must comply with the charter school policies and procedures adopted by the authorized chartering entity with which a petition is submitted. Such charter school policies and procedures must comply with Title 33, Chapter 52, Idaho Code, and the rules promulgated by the Board. If there is any conflict between the charter school policies and procedures adopted by an authorized chartering entity and rules promulgated by the Board, then the Board rules shall govern. (3-20-14)

202. NEW PUBLIC CHARTER SCHOOL APPLICATION REQUIREMENTS.
Pursuant to Section 33-5205, Idaho Code, petitioners seeking to establish a new public charter school must complete an application consisting of all of the following elements: (3-28-18)

01. Introduction. Briefly introduce the proposed public charter school by providing the following: (3-28-18)

a. Cover page with the proposed school’s name, intended opening year, general location, and the contact information for one (1) petitioner who will serve as liaison with the authorizer during the petition process; (3-28-18)

b. Table of contents; (3-28-18)

c. One-page (1) executive summary describing the proposed school’s organizational structure, educational program, and student outcome expectations; and (3-28-18)

d. Mission statement. (3-28-18)

02. Educational Program. Describe the proposed school’s educational program by explaining the following: (3-28-18)

a. Educational philosophy; (3-28-18)

b. Student academic achievement standards and any additional goals and methods for measuring achievement; (3-28-18)
c. Key educational design elements, including curricula, tools and instructional methods identified to carry out the educational philosophy and meet academic and mission-specific goals, which may include evidence demonstrating efficacy of these elements; and

(3-28-18)

d. Strategies for meeting the needs of specific student populations, including, but not limited to, at-risk students, special education students, English language learners, and gifted students.

(3-28-18)

03. Financial and Facilities Plan. Demonstrate a sound understanding of public charter school finances and facilities needs.

(3-28-18)
a. State whether the school intends to provide transportation or food service, and provide plans for provision of these services if they will be offered;

(3-28-18)
b. Describe how the school’s finances will be managed and monitored;

(3-28-18)
c. Provide a working draft of the school’s prospective facilities plan, including likely facilities needs and estimated costs;

(3-28-18)
d. Provide a description of any potential facilities that have been identified and a timeline and process for securing appropriate space; and

(3-28-18)
e. Attach the following to Appendix A: Pre-opening budget and three-year operating budget, including detailed assumptions for all revenue and expenditures for each year; year one (1), break-even budget demonstrating the minimum enrollment needed to achieve a zero (0) or marginal net income balance at the end of the year; cash flow projection for the first operational year, demonstrating an understanding of charter school monetary flow; evidence of existing and anticipated funds; and evidence that projected facilities costs are reasonable within the start-up and three-year budgets.

(3-28-18)

04. Board Capacity And Governance Structure. Provide information about the legal entity and the individuals involved in opening the proposed school.

(3-28-18)
a. Attach copies of the nonprofit corporation’s Articles of Incorporation and Corporate Bylaws to Appendix B, though note that they will not be incorporated as part of the school’s charter;

(3-28-18)
b. Provide a description of the governance structure;

(3-28-18)
c. List any already identified members of the board of directors, attach their professional resumes to Appendix C, and provide any additional information about their qualifications;

(3-28-18)
d. Describe the board’s plan for a smooth transition from initial founding members to subsequent members; and

(3-28-18)
e. Describe the plan for board member recruitment and training.

(3-28-18)

05. Student Demand and Primary Attendance Area. Demonstrate the need and community demand for the proposed public charter school in the selected location.

(3-28-18)
a. Describe the primary attendance area and list the public school districts that overlap this area;

(3-28-18)
b. Clearly articulate the need and demand for a school in the selected location, including demographics for the intended neighborhood. Need is the reason(s) existing schools are insufficient or inadequate and includes state performance data. Demand is evidence of desire from prospective families to attend the school;

(3-28-18)
c. Describe the population of students the proposed school intends to serve and how the selected location supports serving such students;
d. Provide the target enrollment by grade level and projected growth over five (5) years; (3-28-18)
e. Describe any community partnerships or other local support for the proposed school; and (3-28-18)
f. Describe strategies for informing under-served students and their families about the prospective school and the enrollment process. (3-28-18)

**06. School Leadership and Management.** Describe the proposed school’s administrative leadership structure, and provide information about any potential education service providers. (3-28-18)

a. Attach an organizational chart to Appendix D illustrating the proposed school’s leadership structure and indicating the reporting structures of school leaders to the board. If school leaders have already been identified, include their names, contact information, resumes, and any additional information about their qualifications in the appendices. (3-28-18)

b. Describe the responsibilities of and relationships among school leadership, the governing board, instructional leaders, and staff, and include a plan for evaluating school leaders. (3-28-18)

c. If the proposed school intends to work with an educational service provider, provide the name of the company, a contact within the company, and specify in detail the extent of the entity’s participation in the management and operation of the school. Attach the following to Appendix E:

i. A term sheet indicating the fees to be paid by the proposed school to the management company, the length of the proposed contract, the terms for the contracts renewal, and provisions for termination; (3-28-18)

ii. Copies of the two (2) most recent contracts that the entity has executed with operating charter schools; and (3-28-18)

iii. A detailed description of the education service provider’s relationship to the school’s board of directors; (3-28-18)

iv. A detailed description of how and why the management organization or educational service provider was selected, and evidence that the organization provides high-quality service to similarly situated schools, if applicable. (3-28-18)

**07. Supporting Documents.** (3-28-18)

a. Appendix A – Budgets, cash flow, additional funds. (3-28-18)

b. Appendix B – Articles of Incorporation and Bylaws. (3-28-18)

c. Appendix C – Board of Directors. (3-28-18)

d. Appendix D – School Administration. (3-28-18)

e. Appendix E – Education Service Provider. (3-28-18)

f. Appendix F – Optional additional supporting documents. (3-28-18)

**203. ADMISSION PROCEDURES.**

**01. Model Admission Procedures.** All public charter schools must have an admission procedure approved by their authorized chartering entity, which complies with Section 33-5206(11), Idaho Code, and Section 203 of this rule. In order to ensure that public charter schools utilize a fair and equitable selection process for initial admission to and enrollment in a public charter school, as well as admission to and enrollment in a public charter school during subsequent school years, the Board has approved model admission procedures that may be utilized and
adopted by petitioners. The approved model admission procedures are described in Subsections 203.03 through 203.12 of these rules. Petitioners are not required to adopt the Board’s model admission procedures, but must demonstrate a reason for varying from the Board’s approved procedures. (3-28-18)

02. Enrollment Opportunities. Charter holders shall ensure that citizens in the primary attendance area shall be made aware of the enrollment opportunities of the public charter school. Such process shall include the dissemination of enrollment information, taking into consideration the language demographics of the attendance area, at least three (3) months in advance of the enrollment deadline established by the public charter school each year, to be posted in highly visible and prominent locations within the area of attendance of the public charter school. In addition, petitioners shall ensure that such process includes the dissemination of press release or public service announcements, to media outlets that broadcast within, or disseminate printed publications within, the area of attendance of the public charter school; petitioners must ensure that such announcements are broadcast or published by such media outlets on not less than three (3) occasions, beginning not later than fourteen (14) days prior to the enrollment deadline each year. Finally, such enrollment information shall advise that all prospective students will be given the opportunity to enroll in the public charter school, regardless of race, color, national or ethnic origin, religion, gender, social or economic status, or special needs. (3-28-18)

03. Enrollment Deadline. Each year a public charter school shall establish an enrollment admissions deadline, which shall be the date by which all written requests for admission to attend the public charter school for the next school year must be received. The enrollment deadline cannot be changed once the enrollment information is disseminated as required by Subsection 203.02. (4-11-06)

04. Requests for Admission. A parent, guardian, or other person with legal authority to make decisions regarding school attendance on behalf of a child in this state, may make a request in writing for such child to attend a public charter school. In the case of a family with more than one (1) child seeking to attend a public charter school, a single written request for admission must be submitted on behalf of all siblings. The written request for admission must be submitted to, and received by, the public charter school at which admission is sought on or before the enrollment deadline established by the public charter school. The written request for admission shall contain the name, grade level, address, and telephone number of each prospective student in a family. If the initial capacity of the public charter school is insufficient to enroll all prospective students, then an equitable selection process, such as a lottery or other random method, shall be utilized to determine which prospective students will be admitted to the public charter school, as described in Subsection 203.09 of this rule. Only those written requests for admission submitted on behalf of prospective students that are received prior to the enrollment deadline established by the public charter school shall be permitted in the equitable selection process. Only written requests for admission shall be considered by the public charter school. Written requests for admission received after the established enrollment deadline will be added to the bottom of the waiting list for the appropriate grade. If there is an opening in one grade, a sibling, if any, from a late submitted application must go to the bottom of the sibling list. (4-11-06)

05. Admission Preferences. A public charter school shall establish an admission preference for students residing in the attendance area of the public charter school, as provided in Section 33-5206, Idaho Code. In addition, a public charter school may establish additional admission preferences, as authorized by Section 33-5206(11), Idaho Code. (3-28-18)

06. Proposed Attendance List for Lottery. Each year the public charter school shall create an attendance list containing the names of all prospective students on whose behalf a written request for admission was timely received by the public charter school, separated by grade level. In addition, the proposed attendance list shall contain columns next to the name of each student, in which the public charter school will designate admission preferences applicable to each prospective student. The columns shall be designated “A” for returning student preference; “B” for founders preference; “C” for sibling preference, with a corresponding cross-reference to each of the siblings of the prospective student; and “D” for attendance area preference. (4-11-06)

07. Equitable Selection Process. If the initial capacity of a public charter school is insufficient to enroll all prospective students, or if capacity is insufficient to enroll all prospective students in subsequent school years, then the public charter school shall determine the students who will be offered admission to the public charter school by conducting a fair and equitable selection process. The selection procedure shall be conducted as follows:

(4-11-06)
a. The name of each prospective student on the proposed attendance list shall be individually affixed to or written on a three by five (3 x 5) inch index card. The index cards shall be separated by grade. The selection procedure shall be conducted one (1) grade level at a time, with the order for each grade level selected randomly. The index cards containing the names of the prospective students for the grade level being selected shall be placed into a single container. (4-11-06)

b. A neutral, third party shall draw the grade level to be completed first and then draw each index card from the container for that grade level, and such person shall write the selection number on each index card as drawn, beginning with the numeral “1” and continuing sequentially thereafter. In addition, after selecting each index card, the name of the person selected will be compared to the proposed attendance list to determine whether any preferences are applicable to such person. (4-11-06)

c. If the name of the person selected is a returning student, then the letter “A” shall be written on such index card. If the name of the person selected is the child of a founder, the letter “B” shall be written on such index card. If the name of the person selected is the sibling of another student that has already been selected for admission to the public charter school, then the letter “C” shall be written on such index card. If the name of the person selected resides in the attendance area of the public charter school, then the letter “D” shall be written on such index card. (4-11-06)

d. With regard to the sibling preference, if the name of the person selected has a sibling who has already been selected, but the person previously selected did not have the letter “C” written on his or her index card (because a sibling had not been selected for admission prior to the selection of the index card of that person), then the letter “C” shall now be written on that person’s index card at this time. (4-4-13)

e. With regard to the founder’s preference, a running tally shall be kept during the course of the selection procedure of the number of index cards, in the aggregate, that have been marked with the letter “B.” When the number of index cards marked with the letter “B” equals ten percent (10%) of the proposed capacity of the public charter school for the school year at issue, then no additional index cards shall be marked with the letter “B,” even if such person selected would otherwise be eligible for the founders preference. (4-11-06)

f. After all index cards have been selected for each grade, then the index cards shall be sorted for each grade level in accordance with the following procedure. All index cards with the letter “A” shall be sorted first, based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “B,” based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “C,” based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “D,” based on the chronological order of the selection number written on each index card; followed, finally, by all index cards containing no letters, based on the chronological order of the selection number written on each index card. (4-11-06)

g. After the index cards have been drawn and sorted for all grade levels, the names shall be transferred by grade level, and in such order as preferences apply, to the final selection list. (4-11-06)

08. Final Selection List. The names of the persons in highest order on the final selection list shall have the highest priority for admission to the public charter school in that grade, and shall be offered admission to the public charter school in such grade until all seats for that grade are filled. (4-11-06)

09. Notification and Acceptance Process. (4-11-06)

a. With respect to students selected for admission to the public charter school, within seven (7) days after conducting the selection process, the public charter school shall send an offer letter to the parent, guardian, or other person who submitted a written request for admission on behalf of a student, advising such person that the student has been selected for admission to the public charter school. The offer letter must be signed by such student’s parent, or guardian, and returned to the public charter school by the date designated in such offer letter by the public charter school. (4-11-06)

b. With respect to a prospective student not eligible for admission to the public charter school, within seven (7) days after conducting the selection process, the public charter school shall send a letter to the parent,
guardian, or other person who submitted a request for admission on behalf of such student, advising such person that the prospective student is not eligible for admission, but will be placed on a waiting list and may be eligible for admission at a later date if a seat becomes available.

(4-11-06)

c. If a parent, guardian, or other person receives an offer letter on behalf of a student and declines admission, or fails to timely sign and return such offer by the date designated in such offer letter by the public charter school, then the name of such student will be stricken from the final selection list, and the seat that opens in that grade will be made available to the next eligible student on the final selection list.

(4-11-06)

d. If a student withdraws from the public charter school during the school year for any reason, then the seat that opens in that grade will be made available to the next eligible student on the final selection list.

(4-11-06)

10. Subsequent School Years. The final selection list for a given school year shall not roll over to the next subsequent school year. If the capacity of the public charter school is insufficient to enroll all prospective students during the next subsequent school year, then a new equitable selection process shall be conducted by the public charter school for such school year.

(4-11-06)

204. (RESERVED)

205. REVIEW OF PETITIONS.

01. If Denied, Petitioners May Appeal.

a. If a petition is denied, then the authorized chartering entity must promptly prepare for petitioners a written notice of its decision to deny the charter. The written decision shall include all of the reasons for the denial, and shall also include a reasoned statement that states or explains the criteria and standards considered relevant by the authorized chartering entity, the relevant contested facts relied upon, and the rationale for the decision based on the applicable statutory provisions and factual information presented to the authorized chartering entity.

(4-11-06)

b. Petitions submitted to a local board of trustees of a school district or the public charter school commission may be appealed. The petitioners may appeal the decision of the authorized chartering entity, in accordance with the procedures described in Sections 401 through 402 of these rules.

(3-20-14)

206. -- 299. (RESERVED)

300. PUBLIC CHARTER SCHOOL RESPONSIBILITIES.

01. General. The governing board of a public charter school shall be responsible for ensuring that the public charter school is adequately staffed, and that such staff provides sufficient oversight over all public charter school operational and educational activities. In addition, the governing board of a public charter school shall be responsible for ensuring that the school complies with all applicable federal and state education standards, as well as all applicable state and federal laws, rules and regulations, and policies.

(3-20-14)

02. Compliance with Terms of Performance Certificate. The governing board of a public charter school shall be responsible for ensuring that the school is in compliance with the terms and conditions of the performance certificate approved executed in accordance with Section 33-5205B(1), Idaho Code.

(3-20-14)

03. Annual Reports. The governing board of a public charter school must submit an annual audit of the fiscal operations as required in Section 33-5206(7), Idaho Code. An authorized chartering entity may reasonably request that a public charter school provide additional information to ensure that the public charter school is meeting the terms of its performance certificate.

(3-28-18)

04. Operational Issues. The governing board of the public charter school shall be responsible for promptly notifying its authorized chartering entity if it becomes aware that the public charter school is not operating in compliance with the terms and conditions of its performance certificate. Thereafter, the governing board of the public charter school shall also be responsible for advising its authorized chartering entity with follow-up information...
as to when, and how, such operational issues are finally resolved and corrected. (3-20-14)

05. Articles of Incorporation and Bylaws. The governing board of the public charter school shall be responsible for promptly notifying its authorized chartering entity of any revisions or amendments to the articles of incorporation or bylaws. (3-28-18)

301. AUTHORIZED CHARTERING ENTITY RESPONSIBILITIES.
Notwithstanding Section 300 of these rules, the authorized chartering entity of a public charter school shall be responsible for monitoring the public charter school’s operations in accordance with all of the terms and conditions of the performance certificate. (3-20-14)

302. CHARTER REVISIONS.
The governing board of a public charter school may reasonably request revisions to an approved charter or performance certificate, as authorized by Section 33-5206(8), Idaho Code. (3-20-14)

01. Request for Revision of Charter or Performance Certificate. The governing board of a public charter school that desires to revise its charter or performances certificate must submit a written request and the proposed revisions to the public charter school’s authorized chartering entity. (3-28-18)

02. Procedure for Reviewing Request for Charter or Performance Certificate Revision. The authorized chartering entity shall have seventy-five (75) days from the date of receipt of the written request and proposed revisions in which to issue its decision on the request for charter or performance certificate revision. The authorized chartering entity shall consider the request for charter or performance certificate revision at its next regular meeting following the date of receipt of the written request and proposed revisions, provided that the request and proposed revisions are submitted no fewer than thirty (30) days in advance of that meeting. If permitted by applicable policies and procedures adopted by the authorized chartering entity, the review of a request for a charter or performance certificate revision may be delegated to appropriate staff employed by the authorized chartering entity. An authorized chartering entity may, but is not required to, conduct a public hearing to consider the request for charter or performance certificate revision. (3-28-18)

03. Approval of Proposed Charter or Performance Certificate Revision. If the authorized chartering entity approves the proposed charter or performance certificate revision, a copy of such revision shall be executed by each of the parties to the charter or performance certificate and shall be treated as either a supplement to, or amendment of, the final approved charter or performance certificate, whatever the case may be. (3-28-18)

04. Denial of Proposed Charter or Performance Certificate Revision. If the proposed revision is denied, then the authorized chartering entity must prepare a written notice of its decision denying the request for charter or performance certificate revision. The decision to deny a request for a charter or performance certificate revision shall contain all of the reasons for the decision. The public charter school may appeal the decision denying the request for charter or performance certificate revision to the Board. The provisions of Section 403 of these rules shall govern the appeal. (3-20-14)

303. REVOCATION.
An authorized chartering entity may revoke a charter in accordance with the procedure described in this Section 303 of this rule if a public charter school has failed to meet any of the specific, written conditions for necessary improvements established pursuant to the provisions of Section 33-5209B(1), Idaho Code, by the dates specified. (3-20-14)

01. Written Notice of Intention to Revoke Charter. The authorized chartering entity must provide the public charter school with reasonable notice of the authorized chartering entity’s intent to revoke the charter, which shall be in writing and must include all of the reasons for such proposed action. In addition, such notice shall provide the public charter school with a reasonable opportunity to reply, which shall not be less than thirty (30) days after the date of such notice. (4-11-06)

02. Public Hearing. The authorized chartering entity shall conduct a public hearing with respect to its intent to revoke a charter. Such hearing shall be held no later than thirty (30) days after receipt of such written reply. If the public charter school does not reply by the date set in the notice, then such hearing shall be held no later than
sixty (60) days after the date the notice was sent by the authorized chartering entity. (4-11-06)

a. Written notification of the hearing shall be sent to the public charter school at least ten (10) days in advance of the hearing. (4-11-06)

b. The public hearing shall be conducted by the authorized chartering entity, or such other person or persons appointed by the authorized chartering entity to conduct public hearings and receive evidence as a contested case in accordance with Section 67-5242, Idaho Code. (4-11-06)

03. Charter Revocation. If the authorized chartering entity determines that the public charter school has failed to meet any of the specific written conditions for necessary improvements established pursuant to the provisions of Section 33-520B(1), Idaho Code, by the dates specified, then the authorized chartering entity may revoke the charter. Such decision may be appealed to the Board. The provisions of Section 403 of these rules shall govern the appeal. (3-20-14)

304. -- 399. (RESERVED)

400. APPEALS.
The following actions relating to public charter schools may be appealed to the Department or to the Board, as applicable, in accordance with the procedures described in Sections 401 through 403 of these rules: (4-11-06)

01. Denial of New Petition. The denial by an authorized chartering entity of a petition to form a new public charter school, as authorized by Section 33-5207, Idaho Code. (4-11-06)

02. Approval of Conversion Petition. The approval of a petition by an authorized chartering entity to convert a traditional public school to a public charter school over the objection of thirty (30) or more persons or employees of the local school district, as authorized by Section 33-5207, Idaho Code. (4-11-06)

03. Denial of Charter or Performance Certificate Revision. The denial by the authorized chartering entity of a public charter school of a request to revise a charter or performance certificate, as authorized by Section 33-5206(8), Idaho Code. (3-20-14)

04. Revocation. A decision of an authorized chartering entity to revoke a charter, as authorized by Section 33-5209C(7), Idaho Code. (3-20-14)

401. APPEAL TO THE DEPARTMENT OF A DECISION RELATING TO THE FORMATION OF A NEW OR CONVERSION PUBLIC CHARTER SCHOOL.
The denial of a petition to form a new public charter school, or the granting of a petition to form a conversion public charter school over the objection of thirty (30) or more persons or employees of the local school district, may be appealed to the Department, as provided by Section 33-5207(1), Idaho Code. The following procedures shall govern such appeals. (4-11-06)

01. Submission of Appeal. To institute an appeal, the petitioners/appellants shall submit a notice of appeal and request for public hearing in writing to the Department that describes, in detail, all of the grounds for the appeal, and the remedy requested, within thirty (30) days from the date of the decision of the authorized chartering entity that reviewed the petition. A copy of the notice of appeal shall be submitted to the authorized chartering entity, and with the Board. In addition, contemporaneous with the submission of the notice of appeal, the petitioners/appellants shall also submit to the Department two (2) copies of the complete record of all actions taken with respect to the consideration of the public charter school petition. The record must be in chronological order and must be appropriately tabbed and indexed. The record must contain, at a minimum, all of the following documents: (4-11-06)

a. The name, address, and telephone number of the person or persons submitting the appeal on behalf of petitioners/appellants, as well as the authorized chartering entity that issued the decision being appealed. (4-11-06)

b. The complete petition that was submitted to the authorized chartering entity, including any amendments thereto or supplements thereof. (4-11-06)
c. Copies of audio or video recordings, if any, and the minutes from all meeting(s) where the petition was considered or discussed. (4-11-06)

d. All correspondence between the petitioners/appellants and the authorized chartering entity relating to the petition from the date the original petition was submitted until the date the authorized chartering entity issued the decision being appealed. (4-11-06)

e. The written decision provided by the authorized chartering entity to the petitioner. A copy of such notice of appeal shall be submitted to the authorized chartering entity whose decision is being appealed, and to the Board. (4-11-06)

02. Hearing Officer. The Department shall hire a hearing officer to review the action of the authorized chartering entity and to conduct a public hearing, pursuant to Section 67-5242, Idaho Code. The Department shall forward to the hearing officer one (1) copy of the record provided by petitioners/appellants and attached to the notice of appeal within ten (10) business days of receipt. (4-11-06)

03. Public Hearing. A public hearing to review the decision of the authorized chartering entity shall be conducted within thirty (30) days after the hearing officer receives the notice of appeal and request for a public hearing submitted to the Department. (4-11-06)

04. Notice of Hearing. All parties in an appeal shall be notified of a public hearing at least ten (10) days in advance, or within such time period as may be mandated by law. The notice shall identify the time, place, and nature of the hearing; a statement of the legal authority under which the hearing is to be held; the particular sections of the statutes and any rules involved; the issues involved; and the right to be represented. The notice shall identify how and when documents for the hearing will be provided to all parties. (4-11-06)

05. Prehearing Conference. The hearing officer may, upon written or other sufficient notice to all interested parties, hold a prehearing conference to formulate or simplify the issues; obtain admissions or stipulations of fact and documents; identify whether there is any additional information that had not been presented to the authorized chartering entity; arrange for exchange of any proposed exhibits or prepared expert testimony; limit the number of witnesses; determine the procedure at the hearing; and to determine any other matters which may expedite the orderly conduct and disposition of the proceeding. (4-11-06)

06. Hearing Record. The hearing shall be recorded unless a party requests a stenographic recording by a certified court reporter, in writing, at least seven (7) days prior to the date of the hearing. Any party requesting a stenographic recording by a certified court reporter shall be responsible for the costs of same. Any party may request that a transcript of the recorded hearing be prepared, at the expense of the party requesting such transcript, and prepayment or guarantee of payment may be required. Once a transcript is requested, any party may obtain a copy at the party’s own expense. (4-11-06)

07. Hearing Officer’s Recommendation. The hearing officer shall issue a recommendation within ten (10) days after the date of the hearing. The recommendation shall include specific findings on all major facts at issue; a reasoned statement in support of the recommendation; all other findings and recommendations of the hearing officer; and a recommendation affirming or reversing the decision of the authorized chartering entity. The hearing officer shall mail or deliver a copy of the recommendation to the Department, the petitioners/appellants, and the authorized chartering entity. (4-11-06)

08. Review of Recommendation by Authorized Chartering Entity. (4-11-06)

a. The authorized chartering entity shall hold a public hearing to review the recommendation of the hearing officer within thirty (30) days of receipt of the recommendation. (4-11-06)

b. Written notification of the scheduled public hearing shall be sent by the authorized chartering entity to the petitioners/appellants at least ten (10) days prior to the scheduled hearing date. (4-11-06)

c. The authorized chartering entity shall make a final decision to affirm or reverse its initial decision within ten (10) days after the date the public hearing is conducted. (4-11-06)
09. Reversal of Initial Decision. (4-11-06)

a. If the authorized chartering entity reverses its initial decision and denies the conversion of a traditional public school to a public charter school, then that decision is final and there shall be no further appeal. (4-11-06)

b. If the authorized chartering entity reverses its initial decision and approves the new public charter school, then the charter shall be granted and there shall be no further appeal. (4-11-06)

10. Affirmation of Initial Decision. (4-11-06)

a. If the authorized chartering entity affirms its initial decision to authorize the conversion of a traditional public school to a public charter school, then the charter shall be granted and there shall be no further appeal. (4-11-06)

b. If the authorized chartering entity affirms its initial decision and denies the grant of a new public charter school, then the petitioners/appellants may appeal such final decision further to the Board in accordance with the procedure described in Section 402 of these rules. (4-11-06)

402. APPEAL TO THE BOARD RELATING TO THE DENIAL OF A REQUEST TO FORM A NEW PUBLIC CHARTER SCHOOL.
The following procedures shall govern an appeal to the Board of the final decision of an authorized chartering entity relating to the denial of a petition to form a new public charter school. (4-11-06)

01. Submission of Appeal. The petitioners/appellants shall submit a notice of appeal in writing with the Board that describes, in detail, all of the grounds for the appeal, and the remedy requested, within twenty-one (21) days from the date the authorized chartering entity issues its final decision to deny a petition to form a new public charter school. A copy of the notice of appeal shall be submitted to the authorized chartering entity. In addition, contemporaneous with the submission of the notice of appeal, the petitioners/appellants shall also submit to the Board, two (2) copies of a complete record of all actions taken with respect to the consideration of the public charter school petition. The record must be in chronological order, must be tabbed and indexed, and must contain, at a minimum, the following documents: (4-11-06)

a. The complete record submitted to the Department, as provided in Subsection 401.01.a. through 401.01.e. of these rules. (4-11-06)

b. A transcript, prepared by a neutral person whose interests are not affiliated with a party to the appeal, of the recorded public hearing conducted by the hearing officer, as described in Subsection 401.06 of these rules. (4-11-06)

c. A copy of the hearing officer’s recommendation. (4-11-06)

d. Copies of audio or video recordings, if any, and the minutes of the public hearing conducted by the authorized chartering entity to consider the recommendation of the hearing officer, as described in Subsection 401.08.a. through 401.08.c. of these rules. (4-11-06)

e. Copies of any additional correspondence between the petitioners/appellants and the authorized chartering entity relating to the petition subsequent to the public hearing conducted by the Department. (4-11-06)

f. The final written decision provided by the authorized chartering entity to the petitioners/appellants. (4-11-06)

02. Public Hearing. A public hearing to review the final decision of the authorized chartering entity shall be conducted within a reasonable time from the date that the Board receives the notice of appeal, but not later than sixty (60) calendar days from such date. The public hearing shall be for the purpose of considering all of the materials in the record that were presented at prior proceedings. However, new evidence, testimony, documents, or
materials that were not previously considered at prior hearings on the matter may be accepted or considered, in the sole reasonable discretion of the Board, or of the charter appeal committee or public hearing officer, as described in Subsection 402.04 of this rule. (4-11-06)

03. Notice of Hearing. All parties in an appeal shall be notified of a public hearing at least ten (10) days in advance, or within such time period as may be mandated by law. The notice shall identify the time and place of the hearing; a statement of the legal authority under which the hearing is to be held; the particular sections of the statutes and any rules involved; the issues involved; and the right to be represented. The notice shall identify how and when documents for the hearing will be provided to all parties. (4-11-06)

04. Appointment of Charter Appeal Committee or Public Hearing Officer. The Board may, in its reasonable discretion, determine to appoint a charter appeal committee, composed solely of Board members, or a combination of Board members and Board staff, or alternatively, to appoint a public hearing officer, for the purpose of conducting the public hearing. If the Board determines not to make such an appointment, then the Board shall conduct the public hearing. (4-11-06)

05. Recommended Findings. If the public hearing is conducted by a charter appeal committee or appointed public hearing officer, then such committee or appointed public hearing officer shall forward to the Board all materials relating to the hearing as soon as reasonably practicable after the date of the public hearing. If so requested by the Board, the entity conducting the public hearing may prepare recommended findings for the Board to consider. The recommended findings shall include specific findings on all major facts at issue; a reasoned statement in support of the recommendation; all other findings and recommendations of the charter appeal committee or public hearing officer; and a recommended decision affirming or reversing the decision of the authorized chartering entity, or such other action recommended by the charter appeal committee or public hearing officer, such as remanding the matter back to the authorized chartering entity, or directing the petition to another authorized chartering entity. A copy of the recommended findings shall be mailed or delivered to all the parties. (4-11-06)

06. Final Decision and Order by the Board. The Board shall consider the materials forwarded by the entity conducting the public hearing, including any recommended findings of the charter appeal committee or appointed public hearing officer, as may be applicable, in a meeting open to the public at the next regularly scheduled meeting of the Board that occurs after the public hearing. If the public hearing was not conducted by the Board, then the Board may allow representatives for both the petitioner/appellant and the authorized chartering entity an opportunity to deliver oral arguments to the Board advocating their respective positions, limited to thirty (30) minutes for each party. Whether the public hearing is conducted by the Board or by a charter appeal committee, the Board shall issue a final written decision on such appeal within sixty (60) days from the date of the public hearing. The final decision and order of the Board shall be sent to both the petitioners/appellants and the authorized chartering entity, and will not be subject to reconsideration. With respect to such written decision, the Board may take any of the following actions: (4-11-06)

a. Approve the charter, if the Board determines that the authorized chartering entity failed to appropriately consider the charter petition, or if it acted in an arbitrary manner in denying the request. In the event the Board approves the charter, the charter shall operate under the jurisdiction of the Commission, as provided by Section 33-5207(6), Idaho Code. (4-11-06)

b. Remand the petition back to the authorized chartering entity for further consideration with directions or instructions relating to such further review. If the authorized chartering entity further considers the matter and again denies the petition, then that decision is final and there shall be no further appeal. (4-4-13)

c. Redirect the petition for consideration by the Commission, if the appeal is regarding a denial decision made by the board of trustees of a local school district. (4-4-13)

d. Deny the appeal submitted by the petitioners/appellants. (4-11-06)

403. APPEAL RELATING TO THE DENIAL OF A REQUEST TO REVISE A CHARTER OR PERFORMANCE CERTIFICATE OR A CHARTER NON-RENEWAL OR REVOCATION DECISION.
The following procedures shall govern an appeal relating to the denial of a request to revise a charter or a charter non-renewal or revocation decision. (3-20-14)
01. **Submission of Appeal.** The public charter school shall submit a notice of appeal in writing to the Board that describes, in detail, all of the grounds for the appeal, and the remedy requested, within thirty (30) days from the date of the written decision of the authorized chartering entity to non-renew or revoke a charter or to deny a charter or performance certificate revision. A copy of the notice of appeal shall be submitted to the authorized chartering entity. In addition, contemporaneous with the submission of the notice of appeal, the appellant charter school shall also submit to the Board one (1) hard copy and one (1) electronic copy of the complete record of all actions taken with respect to the matter being appealed. The record must be in chronological order and must be appropriately tabbed and indexed. The record must contain, at a minimum, all of the following documents: (3-20-14)

   a. The name, address, and telephone number of the appellant public charter school and the authorized chartering entity that issued the decision being appealed. (4-11-06)

   b. Copies of all correspondence or other documents between the appellant public charter school and the authorized chartering entity relating to the matter being appealed. (4-11-06)

   c. Copies of audio or video recordings, if any, and the minutes from all meeting(s) where the matter on appeal was considered or discussed. (4-11-06)

   d. The written decision provided by the authorized chartering entity to the appellant public charter school. (4-11-06)

02. **Public Hearing.** A public hearing to review the decision of the authorized chartering entity shall be conducted within thirty (30) days after the date of the filing of the notice of appeal. (4-11-06)

03. **Notice of Hearing.** All parties in an appeal shall be notified of a public hearing at least ten (10) days in advance, or within such time period as may be mandated by law. The notice shall identify the time and place of the hearing; a statement of the legal authority under which the hearing is to be held; the particular sections of the statutes and any rules involved; the issues involved; and the right to be represented. The notice shall identify how and when documents for the hearing will be provided to all parties. (4-11-06)

04. **Appointment of Charter Appeal Committee or Public Hearing Officer.** The Board may, in its reasonable discretion, determine to appoint a charter appeal committee, composed solely of Board members, or a combination of Board members and Board staff, or alternatively, to appoint a public hearing officer, for the purpose of conducting the public hearing. If the Board determines not to make such an appointment, then the Board shall conduct the public hearing. (4-11-06)

05. **Prehearing Conference.** The entity conducting the public hearing may, upon written or other sufficient notice to all interested parties, hold a prehearing conference to formulate or simplify the issues; obtain admissions or stipulations of fact and documents; identify whether there is any additional information that had not been presented to the authorized chartering entity; arrange for exchange of any proposed exhibits or prepared expert testimony; limit the number of witnesses; determine the procedure at the hearing; and to determine any other matters which may expedite the orderly conduct and disposition of the proceeding. (4-11-06)

06. **Hearing Record.** The hearing shall be recorded unless a party requests a stenographic recording by a certified court reporter, in writing, at least seven (7) days prior to the date of the hearing. Any party requesting a stenographic recording by a certified court reporter shall be responsible for the costs of same. The record shall be transcribed at the expense of the party requesting a transcript, and prepayment or guarantee of payment may be required. Once a transcript is requested, any party may obtain a copy at the party’s own expense. (4-11-06)

07. **Recommended Findings.** If the public hearing is conducted by a charter appeal committee or appointed public hearing officer, then such committee or public hearing officer shall forward to the Board all materials relating to the hearing as soon as reasonably practicable after the date of the public hearing. If so requested by the Board, the entity conducting the public hearing may prepare recommended findings for the Board to consider. The recommended findings shall include specific findings on all major facts at issue; a reasoned statement in support of the recommendation; all other findings and recommendations of the charter appeal committee or public hearing officer; and a recommended decision affirming, or reversing the action or decision of the authorized chartering entity.
A copy of the recommended findings shall be mailed or delivered to all the parties. (4-11-06)

08. Final Decision and Order by the Board. The Board shall consider the materials forwarded by the entity conducting the public hearing, including any recommended findings of the charter appeal committee or appointed public hearing officer, as may be applicable, in a meeting open to the public at the next regularly scheduled meeting of the Board that occurs after the public hearing. If the public hearing was not conducted by the Board, then the Board may allow representatives for both the appellant public charter school and the authorized chartering entity an opportunity to deliver oral arguments to the Board advocating their respective positions, limited to thirty (30) minutes for each party. Whether the public hearing is conducted by the Board, or by a charter appeal committee or appointed public hearing officer, the Board shall issue a final written decision on such appeal within sixty (60) days from the date of the public hearing. The decision shall be sent to both the appellant public charter school and the authorized chartering entity. With respect to such written decision, the Board may take any of the following actions:

(a) Grant the appeal and reverse the decision of the authorized chartering entity if the Board determines that the authorized chartering entity failed to appropriately consider the non-renewal or revocation of the charter, or the request to revise the charter or performance certificate, or that the authorized chartering authority acted in an arbitrary manner in determining to non-renew or revoke the charter, or in denying the request to revise the charter or performance certificate. (3-20-14)

(b) Deny the appeal filed by the appellants. (4-11-06)

404. EX PARTE COMMUNICATIONS. Unless required for the disposition of a matter specifically authorized by statute to be done ex parte, no party to the appeal nor any representative of any such party to the appeal, nor any person or entity interested in such appeal, may communicate, directly or indirectly, regarding any substantive issue in the appeal with the Board or the charter appeal committee or any hearing officer appointed to hear or preside over the appeal hearing, except upon notice and opportunity for all parties to participate in the communication. (4-11-06)

405. -- 499. (RESERVED)

500. MISCELLANEOUS.

01. Definition of LEA. As used in Section 500 of these rules, the term “local education agency” or “LEA” means a public authority legally constituted within the state for either administrative control or direction of, or to perform a service function for, public elementary or secondary schools in the state, as such term is defined in the Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001, and as such term is further defined in 34 CFR 300.18. (4-11-06)

02. LEA Designations. Section 33-5203(7), Idaho Code, provides that the board of trustees of a school district may designate a public charter school it authorizes as an LEA, with the concurrence of the public charter school board of directors. In order to designate a public charter school as an LEA, the board of trustees of the school district must submit to the Department the following no later than February 1 in order for such designation to be effective for the following school year:

(a) Verification that the board of trustees is the authorized chartering entity of the public charter school it wishes to designate as an LEA. (3-20-14)

(b) Written documentation that the board of trustees of the school district and the board of trustees of the public charter school have agreed to the designation of the public charter school as an LEA. Such documentation shall be signed by representatives of both parties. (3-20-14)

007. – 009. (RESERVED)

010. DEFINITIONS.

01. Idaho Digital Learning Academy (IDLA). Idaho Digital Learning Academy is defined in Section 33-5505(3) and means an online educational program organized as a fully accredited secondary school with statewide
capabilities for delivering accredited courses to Idaho resident students at no cost to the student unless the student
enrolls in additional courses beyond full-time enrollment. Participation in the academy by public school students
shall be in compliance with academy and local school district policies. Adult learners and out-of-state students shall
pay tuition commensurate with rates established by the state board with the advice of the superintendent, and such
funds shall be included in the budget and audit of the academy's fiscal records. (3-28-18)

02. Acceptable Use Policy (AUP). An Acceptable Use Policy is a policy that governs behavior in a
computer or online environment. An Acceptable Use Policy outlines appropriate and inappropriate behavior,
including specific examples of inappropriate behavior as well as the consequences of violating the policy. Acceptable
use guidelines include, but are not limited to, guidelines pertaining to the use of profanity or threatening language,
copyright violations, revealing personal information (either their own or someone else’s), disrupting the use of a
school network, or importation of sexually explicit, drug-related, and other offensive materials into the course
environment.

03. Designee. In the absence of the IDLA Director, a representative from the IDLA Board of Directors
or an administrative staff member may be appointed by the IDLA Board of Directors to serve as designee. (3-30-07)

011. -- 100. (RESERVED)

101. ACCREDITATION.
IDLA must maintain accreditation by an organization recognized by the State Board of Education. (3-28-18)

102. ACCOUNTABILITY.

01. Exams. Each IDLA course will require the student to take a comprehensive final exam at an
approved site under proctored conditions. (3-28-18)

02. Student Work and Ethical Conduct.

a. IDLA will inform students in writing of the consequences of plagiarism. The consequences for
plagiarism are set out in the IDLA student handbook which is made available online at all times and is communicated
to each student and parent prior to the beginning of each class. IDLA will investigate suspected cases of plagiarism
and inform parents, students, and the local school district when a suspected case arises. (3-28-18)

b. Acceptable use and behavior in a distance-learning environment is determined by local school
district’s policies IDLA students and parents will be informed by the IDLA AUP specifically governing behavior in
an online school. IDLA will provide a copy of the IDLA AUP to the Idaho State Board of Education in the IDLA
Annual Report. (3-28-18)

c. In a case of violation of the acceptable use policy or other disciplinary issues, IDLA will notify the
local school district. The local school district is responsible for the appropriate disciplinary action. IDLA should be
notified by the local school district of any disciplinary action resulting from a student’s participation in an IDLA
course. (3-30-07)

d. The IDLA Director or designee reserves the right to deny disruptive students access to IDLA
courses in the future or remove them from participating in an existing course. Appeals to the denial or removal from
a course may be made in writing to the IDLA Board of Directors discussing the circumstances for removal or denial.
The IDLA Board of Directors will review the appeal and hold a special board meeting to allow the student an
opportunity to speak to the issue. The IDLA Board of Directors will issue a final decision within ten (10) days of the
board meeting. (3-28-18)

03. Teacher Interaction. IDLA faculty are required to contact students within the first twenty-four
(24) hours of class. Contact includes phone, e-mail, web conferencing, or other technological means. IDLA is
required to submit periodic progress reports and final course percentages for individual students’ grades which are
then reported to the local school district for transcription to the student’s academic record. (3-28-18)

103. FEES.
The IDLA fee schedule will be provided to the Idaho State Board of Education in the IDLA Annual Report to the State Board of Education. (3-30-07)

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 33-118, 33-130, 33-1205, 33-2402 and 2403, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 08, rules of the State Board of Education:

**IDAPA 08**
- 08.01.11, Registration of Postsecondary Educational Institutions and Proprietary Schools:
  - Subsection 200.07 Registration Fee, Postsecondary Educational Institutions
  - Subsection 300.06 Registration Fee, Proprietary Schools
- 08.02.02, Rules Governing Uniformity
  - Section 066 Fees, Educator Certification
  - Subsection 075.03, Fingerprinting and Background Investigation Checks
- 08.02.03, Rules Governing Thoroughness
  - Section 128, Curricular Materials Selection and Online Course Approval

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

Chapter 24, Title 33, Idaho Code requires the State Board of Education to register postsecondary educational institutions and proprietary schools and to assure these institutions and schools meet certain requirements to provide for protection of the students who purchase educational services from them. The authorized fee is used to process, evaluate, and investigate the assurances provided through the registration process to assure for a reasonable amount of consumer protection.

Section 33-1205, Idaho Code, authorizes the State Board of Education to set fees related to the maintenance of educator certification records and ethic reviews, such fees are used for the payment of expenses for the Professional Standards Commission in performing its statutory duties, including these ethics reviews along with certification standards reviews. These standards are critical in assuring the quality of our educators and the ethical behavior of individuals educating our public school students.

Section 33-130, Idaho Code, requires all individuals who have unsupervised contact with public school student to have a criminal background check and requires the Department of Education to charge these individuals the necessary fee to cover the cost of undergoing a criminal history check. These criminal history checks are necessary to provide for the safety of the students in our public school system.
Curricular materials may be selected from a state list of materials that have been reviewed and found in alignment with our state content standards or through a process at the local level. At the state level this process is conducted through the curricular materials review committee. Section 33-118, Idaho Code requires the State Board of Education to determine the process for the review and to set any fees necessary to defray the cost of such reviews. The fee set pursuant to Section 33-118, Idaho Code is necessary to defray the costs of these state level reviews. The state reviews provide a list of material school districts can select from, allowing them to identify quality material aligned to the standards without having to incur the expense of the reviews at the local level.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. These fees are necessary to cover the cost of performing the specified statutory functions, failure to collect these fees would result in the inability for the State Board of Education to fulfill the applicable statutory requirements and reduce the protection provided for individuals purchasing educational services and the health and safety of students in the public school system.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.

IDAPA 08.01.11

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.
INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Tracie Bent, Chief Planning and Policy Officer, at (208)332-1582 or tracie.bent@osbe.idaho.gov.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

200. REGISTRATION OF POSTSECONDARY EDUCATIONAL INSTITUTIONS.

01. Delegation. Section 33-2403, Idaho Code, provides that a postsecondary educational institution must hold a valid certificate of registration issued by the Board. The Board delegates authority to its Executive Director and the Office of the State Board of Education to administer the registration of postsecondary educational institution, in accordance with Title 33, Chapter 24, Idaho Code, and this rule. (3-29-12)

02. Registration Requirement. (4-9-09)

a. Unless exempted by statute or this rule, as provided herein, a postsecondary educational institution which maintains a presence within the state of Idaho, or that operates or purports to operate from a location within the state of Idaho, shall register and hold a valid certificate of registration issued by the Board. An institution shall not conduct, provide, offer, or sell a course or courses of study, or degree unless registered. (3-29-12)

b. Registration shall be for the period beginning on the date a certificate of registration is issued and continue through June 30 of the next succeeding year. A registered postsecondary educational institution must renew its certificate of registration annually, and renewal of registration is not automatic. (3-29-10)

c. Renewal of registration shall be for the period beginning on July 1 of any year, and continue through June 30 of the next succeeding year. (4-9-09)

d. A new or start-up entity that desires to operate as a postsecondary educational institution in Idaho but which is not yet accredited by an accreditation organization recognized by the Board must register and operate as a proprietary school until accreditation is obtained. A new or start-up entity that is accredited and authorized to operate in another state, and which desires to operate as a postsecondary educational institution in Idaho offering degrees for which specialized program accreditation is required, may be granted approval to operate subject to the successful attainment of such program accreditation within the regular program accreditation cycle required by the accreditor. (3-29-12)

e. There is no inherent or private right to grant degrees in Idaho. That authority belongs only to institutions properly authorized to operate in Idaho under these rules. (3-29-12)

03. Idaho Presence. (3-29-12)

a. An institution shall be deemed to have a presence in Idaho, or to be operating or purporting to be operating from a location within the state of Idaho, if it owns, rents, leases, or uses any office or other type of physical location in Idaho, including a mailing or shipping center, or if it represents in any way, such as on an electronic or Internet website, to have an Idaho street or mailing address, including a post office box in Idaho, for purposes of conducting, providing, offering or selling a course or courses of study or degrees. (3-29-12)

b. Idaho presence shall include medical/osteopathic education clinical instruction occurring in the state of Idaho as part of a course of study leading to a degree pursuant to a formal multi-year arrangement or agreement between such clinic and an institution providing medical/osteopathic education instruction where eleven (11) or more students of the institution are physically present simultaneously at a single field site. (4-11-15)
c. Idaho presence shall not include:
   i. Distance or online education delivered by an institution located outside of the state of Idaho to students in this state when the institution does not otherwise have physical presence in Idaho, as provided in Subsection 200.03.a. of this rule;
   ii. Medical education instruction occurring in the state of Idaho by an institution pursuant to a medical education program funded by the state of Idaho;
   iii. Internship or cooperative training programs occurring in the state of Idaho where students are employed by or provide services to a business or company in this state and receive course credit from an institution related to such activities; or
   iv. Activities limited to the recruiting or interviewing of applicants or potential students in the state of Idaho, whether conducted by a compensated employee, agent, or representative of an institution, or by volunteer alumnus of an institution, even if such individual is physically located in this state.

04. Institutions Exempt from Registration.
   a. Idaho public postsecondary educational institutions. Section 33-2402(1), Idaho Code, provides that a public institution supported primarily by taxation from either the state of Idaho or a local source in Idaho shall not be required to register.
   
   b. Certain Idaho private, nonprofit, postsecondary educational institutions. A private, nonprofit, postsecondary educational institution that is already established and operational as of the date when this rule first went into effect (Brigham Young University - Idaho, College of Idaho, Northwest Nazarene University, New Saint Andrews College, Boise Bible College), and located within the state of Idaho, and that is accredited by an accreditation organization recognized by the Board, as set forth in Section 100 of this rule, shall not be required to register. A private, nonprofit, institution is located within the state of Idaho only if it has been lawfully organized in the state of Idaho and its principal place of business is located within the state of Idaho. An institution exempt under this subsection may voluntarily register by following the procedure for registration provided herein.
   
   c. Idaho religious institutions. A religious institution located within the state of Idaho that is owned, controlled, operated, and maintained by a religious organization lawfully operating as a nonprofit religious corporation and that grants only religious degrees shall not be required to register.

05. Institutions That Must Register. Unless exempt under Subsection 200.04 of this rule, any entity that desires to operate as a postsecondary educational institution in Idaho must register as provided herein.

06. Application. A postsecondary educational institution that is required to register under this rule must submit to the Board an application for registration (either an application for initial registration or renewal of registration, as applicable), on the form provided by the Board office. The application must include a list of each course, course of study, and degree the applicant institution intends to conduct, provide, offer, or sell in Idaho during the registration year.

07. Registration Fees. The Board shall assess an annual registration fee for initial registration or renewal of registration of a postsecondary educational institution. The registration fee must accompany the application for registration, and shall be in the amount of one-half of one percent (.5%) of the gross Idaho tuition revenue of the institution during the previous tax reporting year (Jan 1 - Dec 31), but not less than one hundred dollars ($100) and not to exceed five thousand dollars ($5,000). The institution must provide financial documentation to substantiate the amount of revenue reported. Registration fees are nonrefundable.

08. Deadline for Registration. An initial application for registration may be submitted to the Board at anytime. An institution should expect the Board’s review process for an initial registration to take approximately three (3) to five (5) months. An application for renewal of registration must be submitted to the Board on or before the first business day of May that precedes the registration year. The renewal will be processed within thirty (30) days. Institutions that do not adhere to this schedule and whose renewals are not processed by July 1st must cease all
active operations until approval of registration is received. (3-29-12)

09. Information Required. (3-29-12)

a. An application must include all the information requested on the application form, as well as the following information: (3-29-12)
   
i. Copy of most recent accreditation letter showing the period of approval; (4-7-11)

ii. Current list of chief officers - e.g. president, board chair, chief academic officer, chief fiscal officer; (4-9-09)

iii. Enrollment data for current and past two (2) years; (4-9-09)

iv. Copy of annual audited financial statement, or other financial instrument as established by the executive director; (4-11-15)

v. Any additional information that the Board may request. (4-9-09)

vi. All advertising, pamphlets, and other literature used to solicit students and all contract forms must accurately represent the purpose of the school, its courses or courses of study, and other relevant information to assist students in making an informed decision to enroll. Institutions offering courses or courses of study which require clinical, practicum or internship components must provide students in writing information regarding the number of clinical, practicum or internship positions available and the location of said positions. Institutions with courses or courses of study that have not been fully accredited must disclose to prospective students in these courses or courses of study the accreditation status of the program and anticipated date for full accreditation. (4-4-13)

b. The Board may, in connection with a renewal of registration, request that an institution only submit information that documents changes from the previous year, provided that the institution certifies that all information and/or documentation submitted in a previous registration year remains current. The annual registration fee, described in Subsection 200.07 of this rule, shall remain applicable. (3-29-12)

(BREAK IN CONTINUITY OF SECTIONS)

300. REGISTRATION OF PROPRIETARY SCHOOLS.

01. Delegation. Section 33-2403, Idaho Code, provides that a proprietary school must hold a valid certificate of registration issued by the Board. The Board delegates authority to its Executive Director and the Office of the State Board of Education to administer the registration of proprietary schools, in accordance with Title 33, Chapter 24, Idaho Code, and this rule. (3-29-12)

02. Registration Requirement. (4-9-09)

a. Unless exempted by statute or this rule, as provided herein, a proprietary school which maintains a presence within the state of Idaho, or which operates or purports to operate from a location within the state of Idaho, shall register annually and hold a valid certificate of registration issued by the Board. A school shall not conduct, provide, offer, or sell a course or courses of study unless registered. A school shall not solicit students for or on behalf of such school, or advertise in this state, unless registered. (3-29-10)

b. Registration shall be for the period beginning July 1 of any year and continue through June 30 of the next succeeding year. For a school that has not previously registered with the Board, registration shall be for the period beginning on the date of issuance of a certificate of registration and continue through June 30 of the next succeeding year. A registered proprietary school must renew its certificate of registration annually and renewal of registration is not automatic. (3-29-12)
c. Renewal of registration shall be for the period beginning on July 1 of any year, and continue through June 30 of the next succeeding year. (4-9-09)

03. Idaho Presence.

a. A school shall be deemed to have a presence in Idaho, or to be operating or purporting to be operating from a location within the state of Idaho, or if it owns, rents, leases, or uses any office or other type of physical location in Idaho, including a mailing or shipping center, or if it represents in any way, such as on an electronic or Internet website, to have an Idaho street or mailing address, including a post office box in Idaho, for purposes of conducting, providing, offering or selling a course or courses of study or degrees. (3-29-12)

b. Idaho presence shall not include:

i. Distance or online education delivered by an institution located outside of the state of Idaho to students in this state when the institution does not otherwise have physical presence in Idaho, as provided in Subsection 300.03.a. of this rule; (3-29-12)

ii. Internship or cooperative training programs occurring in the state of Idaho where students are employed by or provide services to a business or company in this state and receive course credit from an institution related to such activities; or (3-29-12)

iii. Activities limited to the recruiting or interviewing of applicants or potential students in the state of Idaho, whether conducted by a compensated employee, agent, or representative of an institution, or by volunteer alumnus of an institution, even if such individual is physically located in this state. (3-29-12)

04. Exemptions from Registration. The following individuals or entities are specifically exempt from the registration requirements of this rule:

a. An individual or entity that offers instruction or training solely avocational or recreational in nature, as determined by the Board. (3-29-12)

b. An individual or entity that offers courses recognized by the Board which comply in whole or in part with the compulsory education law. (4-9-09)

c. An individual or entity that offers a course or courses of study sponsored by an employer for the training and preparation of its own employees, and for which no tuition fee is charged to the student. (4-9-09)

d. An individual or entity which is otherwise regulated, licensed, or registered with another state agency pursuant to Title 54, Idaho Code. (4-9-09)

e. An individual or entity that offers intensive review courses designed to prepare students for certified public accountant tests, public accountant tests, law school aptitude tests, bar examinations or medical college admissions tests, or similar instruction for test preparation. (4-9-09)

f. An individual or entity offering only workshops or seminars lasting no longer than three (3) calendar days and offered no more than four (4) times per year. (3-29-12)

g. A parochial or denominational institution providing instruction or training relating solely to religion and for which degrees are not granted. (4-9-09)

h. An individual or entity that offers postsecondary credit through a consortium of public and private colleges and universities under the auspices of the Western Governors University. (3-29-12)

i. An individual or entity that offers flight instruction and that accepts payment for services for such training on a per-flight basis after the training occurs, or that accepts advance payment or a deposit for such training in a de minimus amount equal to or less than fifteen (15) percent of the total course or program cost. (3-29-12)
05. **Application.** A proprietary school that is required to register under this rule must submit to the Board office an application for registration (either an application for initial registration, or renewal of registration, as applicable), on a form provided by the Board office. The application must include a list of each course or courses of study the applicant school intends to conduct, provide, offer or sell in Idaho during the registration year. (3-29-10)

06. **Registration Fees.** The Board shall assess an annual registration fee for initial registration or renewal of registration. The registration fee must accompany the application for registration, and shall be one-half of one percent (.5%) of the gross Idaho tuition revenue of the school during the previous tax reporting year (Jan 1 - Dec 31), but not less than one hundred dollars ($100) and not to exceed five thousand dollars ($5,000). The school shall provide documentation to substantiate the amount of revenue reported. Registration fees are nonrefundable. (4-4-13)

07. **Deadline for Registration.** An initial application for registration may be submitted to the Board at anytime. A school should expect the Board review process for an initial registration to take approximately three (3) to five (5) months. An application for renewal of registration must be submitted to the Board on or before the first business day of May that precedes the registration year. The renewal will be processed within thirty (30) days. Institutions that do not adhere to this schedule and whose renewals are not processed by July 1st must cease all active operations until approval of registration is received. (3-29-12)

08. **Information Required.** Such application must include all the information requested on the application form. In addition, a school must attest by signature of the primary official on the application form that it is in compliance with Standards I through V set forth in Section 301 of this rule and must provide verification of compliance with Standards I through V set forth in Section 301 of this rule upon request. The Board may, in connection with a renewal of registration, request that a school only submit information that documents changes from the previous year, provided that the school certifies that all information and/or documentation submitted in a previous registration year remains current. The annual registration fee, described in Subsection 300.06 of this rule, shall remain applicable. (3-29-12)

128. CURRICULAR MATERIALS SELECTION AND ONLINE COURSE APPROVAL (SECTIONS 33-118; 33-118A, IDAHO CODE).

The State Board of Education will appoint a committee to select curriculum materials. Committee appointments will be for a period of five (5) years. Committee appointments shall consist of not less than ten (10) total members from the following stakeholder groups: certified Idaho classroom teachers, Idaho public school administrators, Idaho higher education officials, parents, trustees, local board of education members, members of the Division of Career Technical Education, and State Department of Education personnel. The Executive Secretary will be an employee of the State Department of Education and will be a voting member of the committee. The State Department of Education shall charge publishers submission fees of sixty dollars ($60) or equal to the retail price of each, whichever is greater, to defray the costs incurred in the curricular material review and adoption process. (3-27-13)

01. Subject Areas. Curricular materials are adopted by the State Board of Education for a period of six (6) years in the following subject areas: reading, English, spelling, speech, journalism, languages other than English, art, drama, social studies, music, mathematics, business education, career education and counseling, vocational/technical education, science, health, physical education, handwriting, literature, driver education, limited English proficiency. (3-25-16)

02. Multiple Adoptions. Multiple adoptions are Made in Each Subject Area. (4-5-00)

03. Bids. Each publisher must deliver, according to the committee schedule, a sealed bid on all curricular materials presented for adoption. (4-5-00)

04. Depository. The State Board will appoint a depository for the state-adopted curricular materials. Resource materials are a local option. (4-5-00)

05. Local Policies. School districts will follow their own policies for adoption in subject areas offered by a school district for which materials are not covered by the state curriculum materials committee. (4-5-00)

06. Online Course Review and Approval Process. The State Department of Education shall administer the review and approval of online course providers and courses. Reviewers shall be certified Idaho classroom teachers. Online course providers are approved for a period of four (4) years. The State Department of Education shall charge online course providers submission fees based on the number of courses offered, not to exceed the actual costs incurred in the online course and course provider review and approval process. (3-20-14)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 45-616 and 72-1333(2), Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 09, Rules of the Idaho Department of Labor, with modification.

IDAPA 09
- 09.01.01 - Rules of Administrative Procedures of the Idaho Department of Labor – Re-named from Rules of the Executive Division and with modifications and modified content from other existing chapters.
- 09.01.08 - Rules on Disclosure of Employment Security Information – with modification.
- 09.01.30 - Unemployment Insurance Benefits Administration Rules – with modification.
- 09.01.35 - Unemployment Insurance Tax Administration Rules – with modification.
- 09.01.60 - Complaint Procedures Under the Workforce Innovation and Opportunity Act – with modification.
- 09.02.01 - Rules of the Disability Determinations Service – with modification.
- 09.05.03 - Rules Determining Bargaining Representatives – with modification.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.
INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

TITLE 01
CHAPTER 01

IDAPA 09 – DEPARTMENT OF LABOR

09.01.01 – RULES OF ADMINISTRATIVE PROCEDURE OF THE DEPARTMENT OF LABOR

000. LEGAL AUTHORITY.
These rules are promulgated by the Department of Labor under the legal authority of Sections 45-616 and 72-1333(2), Idaho Code. (6-30-19)

001. TITLE AND SCOPE.
01. Title. These rules are titled IDAPA 09.01.01, “Rules of Administrative Procedure of the Department of Labor.” (6-30-19)

02. Scope. These rules govern all procedures for rulemaking, petitions for declaratory rulings, and determinations and appeals pursuant to the Employment Security Law, Title 72, Chapter 13, Idaho Code, and the Claims for Wages Act, Title 45, Chapter 6, Idaho Code, and for other programs administered by the Department unless otherwise specified by law. (6-30-19)

002. WRITTEN INTERPRETATIONS.
Written interpretations of these rules, if any, are available from the main office of the Department described in IDAPA 09.01.01.006. (6-30-19)

003. ADMINISTRATIVE APPEALS.
Administrative appeals from determinations under the Employment Security Law and the Claims for Wages Act may be taken as provided in these rules and applicable provisions of the Employment Security Law and the Claims for Wages Act. (6-30-19)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into these rules. (6-30-19)

005. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein are subject to, and in compliance with, the Public Records Act, Title 74, Chapter 1, Idaho Code. (6-30-19)

006. OFFICE – OFFICE HOURS – MAILING ADDRESS – STREET ADDRESS – WEB ADDRESS.
The mailing and physical address of the main office of the Department is 317 W. Main St., Boise, Idaho 83735. The office hours are 8:00 a.m. to 5:00 p.m., excluding Saturdays, Sundays, and legal holidays. The telephone number of the main office is (208) 332-3570, and its facsimile number is (208) 334-6455. The Department’s website, which contains information about the programs that it administers, can be found at www.labor.idaho.gov. (6-30-19)

007. PAYMENTS TO THE DEPARTMENT.
Any payment tendered to the Department will be for collection only and will not constitute payment of any amount due until the payment clears the appropriate financial institution. Should the Department incur any additional expense in the payment collection, the expense will be paid by the person who tenders said payment to the Department. (6-30-19)

008. – 009. (RESERVED)

010. DEFINITIONS.
01. Appeals Examiner. A hearing officer of the Department designated to hear administrative appeals pursuant to the Employment Security Law and the Claims for Wages Act. (6-30-19)
02. Claims for Wages Act. The Claims for Wages Act codified at Title 45, Chapter 6, Idaho Code. (6-30-19)

03. Department. The Idaho Department of Labor. (6-30-19)

04. Determination. Unless the context clearly suggests otherwise, reference to a determination in these rules includes a determination, redetermination, and revised determination. (6-30-19)

011. – 014. (RESERVED)

015. EXEMPTION FROM ATTORNEY GENERAL ADMINISTRATIVE PROCEDURE RULES FOR CONTESTED CASES. Pursuant to the provisions of Section 67-5206(5), Idaho Code, the procedures contained in Subchapter B, “Contested Cases,” of the Idaho Rules of Administrative Procedure of the Attorney General, IDAPA 04.11.01.100 through 04.11.01.799, do not apply to appeals within the Department. All appeals within the Department are governed solely by the provisions of the Employment Security Law, the Claims for Wages Act, these rules, and by the applicable federal law governing the Job Service Complaint System, the Job Training Partnership Act (JTPA) program, or other programs administered by the Department. (6-30-19)

016. REASONS FOR EXEMPTION FROM ATTORNEY GENERAL’S ADMINISTRATIVE PROCEDURE RULES.

01. Unemployment Insurance Benefits and Tax Contribution Proceedings. Sections 72-1361 and 72-1368, Idaho Code, provide that all proceedings to determine the rights to unemployment insurance benefits and tax contribution coverage are exempt from the contested case and judicial review provisions of the Idaho Administrative Procedure Act. Appeals of complaint determinations and other decisions arising within the complaint system or other programs administered by the Department must be determined by the requirements of applicable federal law. Procedures for administrative proceedings and appeals are provided for in the Employment Security Law and these rules. All procedures affecting the rights to benefits and unemployment insurance coverage must be determined solely by the requirements of the Employment Security Law. Such proceedings must be speedy and simple as required by the Federal Unemployment Tax Act and the Social Security Act. The Department determines that it can more adequately meet these requirements through promulgating its own rules rather than relying upon the rules applicable to other state agencies. (6-30-19)

02. Claims for Wages Proceedings. All proceedings to determine claims for wages are exempt from the contested case provisions of the Idaho Administrative Procedure Act pursuant to Section 45-617(2), Idaho Code. Procedures for administrative proceedings and appeals are provided for in the Claims for Wages Act and these rules. (6-30-19)

017. (RESERVED)

018. DECLARATORY RULING PROCEDURES. Form and Contents of Petitions for Declaratory Rulings on Applicability of Statutes or Rules. Any person petitioning for a declaratory ruling on the applicability of a statute or rule administered by the Department must substantially comply with this rule. (6-30-19)

01. Form of Petition. The petition shall: identify the petitioner and state the petitioner’s interest in the matter; state the declaratory ruling that the petitioner seeks; and indicate the statute, or rule, and the factual allegations upon which the petitioner relies to support the petition. (6-30-19)

02. Legal Assertions. Citations of cases and/or statutory provisions may accompany the legal assertions in a petition for a declaratory ruling. (6-30-19)

03. Filing Petition. A petition for a declaratory ruling on applicability of statutes or rules shall be filed
with the Director of the Department at 317 Main Street, Boise, Idaho 83735. (6-30-19)

04. Disposition of Petitions for Declaratory Rulings. When a petition is received in the form and content required by these rules, the Director or the Director’s designee shall review the contents of the petition and request additional information from the petitioner if necessary, and thereafter make the ruling requested and notify the petitioner and any other interested parties in writing of the ruling. (6-30-19)

019. – 024. (RESERVED)

025. WAGE CLAIMS PROCEDURES. The Claims for Wages Act provides that any person shall have the right to collect wages, penalties and liquidated damages provided by any law or pursuant to a contract of employment by filing a wage claim action either with the Department or in a court of competent jurisdiction. The administrative procedures for any such action filed with the Department are governed by the Section 45-617, Idaho Code, and these rules. (6-30-19)

026. DISMISSAL OF WAGE CLAIMS FOR LACK OF PROSECUTION. Wage claimants have an affirmative duty to seek prompt adjudication of their claims. The Department may dismiss without prejudice the wage claim of claimants who fail to respond within thirty (30) days to written notice from the Department that additional action is required on their part to prosecute their claim. The thirty (30) day period for a response begins to run on the date the notice is mailed to the wage claimant's last known address. Mailed responses will be deemed received on the date they are postmarked. A wage claim that has been dismissed for lack of prosecution may be refiled with the Department subject to the limitations of Sections 45-614 and 45-617(1), Idaho Code. (6-30-19)

027. WAGE CLAIM AND EMPLOYMENT SECURITY LAW DETERMINATIONS.

01. Determinations and Time for Filing Appeals. Department determinations under the Claims for Wages Act and Employment Security Law shall be in writing, and shall contain provisions which advise the interested parties of their right to appeal the determination within fourteen (14) days from the date of mailing, or the date of electronic transmission to an electronic-mail address approved by the Department, in accordance with Sections 45-617(5), 72-1361 and 72-1368(5), Idaho Code. Every such determination shall contain and clearly identify the mailing address, fax number and electronic address for filing an appeal. A determination shall become final unless, within fourteen (14) days after notice, as provided in Sections 45-617(5) and 72-1368(5), Idaho Code, an appeal is filed by an interested party with the Department in accordance with these rules. If an appeal from a wage claim determination is not timely filed, the amount awarded by a final determination will become immediately due and payable to the Department. (6-30-19)

02. Appeals Heard By Appeals Examiners. Appeals from wage claim and Employment Security Law determinations will be heard by an appeals examiner in accordance with the Claims for Wages Act, the Employment Security Law, and these rules. (6-30-19)

03. Computation of Time. In computing any period of time prescribed or allowed by the Employment Security Law or the Claims for Wages Act, the day of the act, event, or default is not to be included. Saturdays, Sundays, and holidays shall be counted during the period unless the last day of the period is a Saturday, Sunday, or legal holiday in which event the period shall not expire until the next business day following the Saturday, Sunday, or legal holiday. (6-30-19)

028. – 034. (RESERVED)

035. APPEALS TO APPEALS EXAMINER – FORM AND MANNER OF FILING OF NOTICES OF APPEAL.

01. Form of Notices of Appeal. Any appeal taken to an appeals examiner pursuant to the Employment Security Law and the Claims for Wages Act shall be in writing, signed by an interested party, the appellant or representative, and shall contain words that, by fair interpretation, request the appeal process for a specific determination or other decision of the Department. (6-30-19)
02. **Filing of Notices of Appeal.** To appeal a determination or other decision of the Department, interested parties must follow the instructions on the document being appealed. If an appeal is personally delivered, the date of personal delivery shall be noted on the appeal and shall be deemed the date of filing. A faxed or electronically transmitted appeal that is received by 5 p.m. on a business day shall be deemed filed on that date. A faxed or electronically transmitted appeal that is received on a weekend or holiday or after 5 p.m. on a business day shall be deemed filed on the next business day. If mailed, the appeal shall be deemed to be filed on the date of mailing as determined by the postmark on the envelope containing the appeal, unless a party establishes by a preponderance of the evidence that but for error by the U.S. Postal Service, the envelope would have been postmarked within the period for timely appeal. If such a postal error is established, the appeal shall be deemed to be timely filed. Ref. Section 72-1368(6), and Section 45-617, Idaho Code. (6-30-19)

036. **DATE OF MAILING OF DETERMINATIONS.**
The date indicated on Department determinations, revised determinations, redeterminations and decisions as the “Date of Mailing” or “Date Mailed” shall be presumed to be the date the document was deposited in the United States mail, or the date the document was electronically transmitted to an electronic-mail address approved by the Department pursuant to Section 72-1368(5), Idaho Code, unless shown otherwise by a preponderance of competent evidence. (6-30-19)

037. **EFFECT OF DELAY OR ERROR OF POSTAL SERVICE OR DEPARTMENT.**

01. **Department Determinations.** If a party establishes by a preponderance of the evidence that because of delay or error by the U.S. Postal Service or error on the part of the Department, notice of a Department determination was not delivered to the party’s last known address, or transmitted electronically to the party’s electronic-mail address approved by the Department, within fourteen (14) days of mailing, as provided by the Employment Security Law and by the Claims for Wages Act, the period for filing a timely appeal shall be extended to fourteen (14) days from the date of actual notice. (6-30-19)

02. **Decisions of the Appeals Examiner.** If a party establishes by a preponderance of the evidence that, because of delay or error by the U.S. Postal Service, or because of error on the part of the Department, notice of a decision by an appeals examiner was not delivered to the party’s last known address, or transmitted electronically to the party’s electronic-mail address approved by the Department, within the time periods prescribed by the Employment Security Law or the Claims for Wages Act for filing an application for rehearing or an appeal to the Industrial Commission, as the case may be, then:

a. For an application for rehearing that must be filed within ten (10) days of notice of a decision, the period for filing a timely application for rehearing shall be extended to ten (10) days from the date of actual notice; and (6-30-19)

b. For an appeal to the Industrial Commission that must be filed within fourteen (14) days of notice of a decision, the period for filing a timely appeal shall be extended fourteen (14) days from the date of actual notice. Ref. Section 72-1368 (5) and (6) and Section 45-617(7), Idaho Code. (6-30-19)

038. **DISMISSAL IF FILING IS LATE.**
Where it appears that any appeal (request for hearing) to the appeals examiner, or claim, or any other request or application, was not filed within the period of time prescribed for filing, it shall be dismissed on such grounds; provided, however, either before or after such dismissal, the appellant, claimant, petitioner, or applicant (as the case may be) shall be notified and be given an opportunity to show that such appeal, claim for review, petition, or other request was timely. If it is found that such appeal, claim for review, petition, or other request or application was timely, the matter shall be decided on the merits. Copies of a decision under this section shall either be given, mailed, or electronically transmitted to an electronic-mail address approved by the Department pursuant to Section 72-1368(5), Idaho Code, to all interested parties, together with a clear statement of right of appeal or review. Ref. Section 72-1368 and Section 45-617, Idaho Code. (6-30-19)

039. – 044. **RESERVED**

045. **CONDUCT OF APPEALS HEARING.**
Upon request for appeal, a hearing before an appeals examiner shall be set and written notice of the time and place of
hearing shall be mailed or electronically transmitted to each interested party not less than seven (7) days prior to the hearing date.

01. **Telephone Hearings.** Hearings will be held by telephone unless, in the sole discretion of the appeals examiner, a personal hearing should be set. In deciding the manner in which to conduct the hearing, the appeals examiner shall consider factors, including but not limited to the desires of the parties, possible delay and expense, the burden of proof; the complexity of the issues, and the number and location of witnesses.

02. **Continuance.** The appeals examiner may postpone or continue a hearing for good cause on the examiner's own motion or that of any party, before a hearing is concluded. The appeals examiner may order the dismissal of an appeal for good cause, such as abandonment of the appeal.

03. **Rehearing.** An application for rehearing shall be in writing and filed in person or postmarked within ten (10) days after the appeals examiner's decision is served.

04. **No Appearance Hearings.** If no party appears to present additional evidence, a decision may then be based on the existing record. For this purpose, the existing record will consist of documents maintained by the Department in the ordinary course of adjudicating the issues in the case, copies of which have been provided to the parties with the notice of hearing.

05. **Exhibits and Recordings.** The exhibits and recordings from a hearing may be destroyed, reused, or otherwise disposed of after the expiration of the time period for appeal from the decisions of the appeals examiner.

06. **Subpoenas.** After determining that a subpoena of a witness or records is necessary and reasonable, the appeals examiner shall issue the subpoena, which may be served by mail or in person.

07. **Failure to Respond to Subpoena.** If a person fails to respond to a subpoena issued by mail, the appeals examiner will proceed with the scheduled hearing and determine, after hearing the available testimony, whether the subpoena is still necessary and reasonable. If so, the hearing will be continued and a second subpoena will be issued and personally served.

08. **Witness Fees.** Individuals who attend hearings before the appeals examiner as subpoenaed witnesses, not parties, shall be entitled to receive a fee of seven dollars and fifty cents ($7.50) for each day or portion thereof for attendance. In no case shall a witness be paid more than seven dollars and fifty cents ($7.50) for any one (1) day. Subpoenaed witnesses shall also be entitled to mileage expense at the current allowable mileage reimbursement rate as determined by the Idaho State Board of Examiners. For appeals under the Employment Security Law, such witness fees and mileage expenses shall be paid from the Employment Security Administration fund. Under no circumstances shall interested parties to a hearing be granted witness fees or mileage expenses. Mileage fees are not allowed for vicinity travel.

09. **Undecided Issues.** When it is apparent that there is no prior ruling on an issue which must be decided under the Act, the appeals examiner may hear and decide the issue.

10. **Type of Hearing.** The proceeding before an appeals examiner will be a hearing “de novo” or original hearing and not solely a review proceeding. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

11. **Role of Appeals Examiner.** The appeals examiner will function as a fact finder and not solely as a judge. The appeals examiner will have the responsibility of developing all the evidence that is reasonably available. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

12. **Order of Witnesses.** The appeals examiner, in the exercise of reasonable discretion, will direct the order of witnesses and develop evidence in a logical and orderly manner to move the hearing along as expeditiously as possible. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

13. **Evidence.** The appeals examiner may exclude evidence that is irrelevant, unduly repetitious, or
excludable on constitutional or statutory grounds, or on the basis of any evidentiary privilege provided by statute or recognized in the courts of this state. All other evidence may be admitted if it is of a type commonly relied upon by prudent persons in the conduct of their affairs. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code. (6-30-19)

14. Disruptive Individuals. The appeals examiner may exclude disruptive individuals from the hearing or may postpone the hearing if the integrity of the proceedings is being compromised. If an interested party is excluded, he will be provided a copy of the recording of the proceedings and given an opportunity to submit written evidence and argument prior to the issuance of the decision and the opposing party will be given an opportunity to respond. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code. (6-30-19)

15. Challenge of General Knowledge. If judicially cognizable facts or general, technical, or scientific facts within the appeals examiner's specialized knowledge are used in the decision, the parties will be given an opportunity to challenge them either at the time of the hearing or prior to or at the time of the issuance of the decision. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code. (6-30-19)

16. Closing Arguments. Closing arguments including response in an appeals hearing will be limited to a total of five (5) minutes for each party unless the appeals examiner grants an exception. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code. (6-30-19)

046. COMMUNICATION WITH APPEALS STAFF. No party involved in an appeal shall communicate, either directly or indirectly, with appeals examiners, the Chief of the Appeals Bureau, or clerical staff of the Appeals Bureau, regarding any issue of fact or law relevant to an appeal, unless all parties involved in an appeal have been provided notice and an opportunity to participate in such communication. No person acting on behalf of any party, including the Idaho Department of Labor, shall attempt to influence the disposition of an appeal through such communications. No appeals examiner shall knowingly cause a communication prohibited by this section to be made. (6-30-19)

01. Prohibition of Ex Parte Contacts. The prohibition on ex parte contacts contained in this rule applies from the time an appeal is filed pursuant to IDAPA 09.01.01.025 or IDAPA 09.01.01.027 until the appeal becomes final and conclusive pursuant to Sections 72-1368 and 45-617, Idaho Code. (6-30-19)

02. Issues of Fact. As used in this rule, the term “issue of fact or law relevant to an appeal” includes any matter relating to the merits of an appeal but does not include questions of appeals procedure or case status inquiries. Parties shall not direct questions of appeals procedure or case status inquiries to the appeals examiner assigned to their case but rather to other appeals examiners, the Chief of the Appeals Bureau (unless he or she is functioning as the appeals examiner in the case), or to clerical staff of the Appeals Bureau. (6-30-19)

03. Reporting Prohibited Contacts. An appeals examiner or other employee of the Appeals Bureau who receives a communication prohibited by this rule shall place in the record of the case all such written communications or a memorandum stating the substance of all such oral communications. The Appeals Bureau shall send a full copy of the communication to the other interested parties to the appeal and allow an appropriate time for the parties to respond to the communication. (6-30-19)

047. – 059. (RESERVED)

060. INDUSTRIAL COMMISSION REVIEW OF APPEALS EXAMINER DECISIONS.

01. Claim for Review Under the Employment Security Law. A claim for review of the appeals examiner's decision, as provided in Section 72-1368, Idaho Code, shall be made in writing, signed by the person claiming the review or by his attorney or agent, and filed with the Idaho Industrial Commission in accordance with rules adopted by them. Ref. Sec. 72-1368(7) Idaho Code. (6-30-19)

02. Transcripts. Upon receipt of a notice that a claim for review has been filed with the Industrial Commission, a true and correct transcript of the recorded proceedings shall be prepared if ordered by the Commission. Copies of the transcript or the recording of the proceeding, together with the exhibits received in the case, shall be transmitted by the Department to the Commission and provided to all interested parties without charge. (6-30-19)
JUDICIAL REVIEW OF WAGE CLAIM DECISIONS.
A claimant or employer aggrieved by a final decision of the appeals examiner in a wage claim proceeding may seek judicial review of the decision pursuant to the provisions of Title 67, Chapter 52, Idaho Code, and Section 45-619, Idaho Code, by timely filing a petition for judicial review in a court of competent jurisdiction. The Department is not an aggrieved party for purposes of any judicial review proceeding and shall not be made a party in any petition for judicial review. The proper parties in a petition for judicial review are the claimant and the employer. (6-30-19)
09.01.08 – RULES ON DISCLOSURE OF EMPLOYMENT SECURITY INFORMATION

000. LEGAL AUTHORITY.
These rules are promulgated under the legal authority of Sections 72-1333 and 72-1342, Idaho Code. (5-8-09)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 09.01.08, “Rules on Disclosure of Employment Security Information.” (5-8-09)

02. Scope. These rules address disclosure of employment security information, as defined in Section 74-106(7), Idaho Code, by the Idaho Department of Labor. These rules comply with the requirements of 20 CFR Part 603, “Confidentiality and Disclosure of State Unemployment Compensation Information,” and the Idaho Public Records Act, Chapter 1, Title 74, Idaho Code. (5-8-09)

002. WRITTEN INTERPRETATIONS.
Written interpretations of these rules, if any, are available from the main office of the Department described in IDAPA 09.01.01.006. (6-30-19)

003. ADMINISTRATIVE APPEALS.
There is no administrative appeal under these rules. Appeals of denials of requests for Department records are governed by the provisions of the Idaho Public Records Act, Chapter 1, Title 74, Idaho Code. (5-8-09)

004. INCORPORATION BY REFERENCE.
No documents are incorporated by reference into this rule. (5-8-09)

005. OFFICE – MAILING ADDRESS – STREET ADDRESS – WEB ADDRESS.
The mailing and physical address of the main office of the Department is 317 W. Main St., Boise, Idaho 83735. The office hours are 8:00 a.m. to 5:00 p.m., excluding Saturdays, Sundays, and legal holidays. The telephone number of the main office is (208) 332-3570, and its facsimile number is (208) 334-6455. The Department's website, which contains information about the programs that it administers, including unemployment insurance benefits, can be found at www.labor.idaho.gov. (6-30-19)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein are subject to, and in compliance with, the Public Records Act, Chapter 1, Title 74, Idaho Code. (6-30-19)

007. -- 009. (RESERVED)

010. DEFINITIONS.
These terms have the following meanings when used in these rules, in interpretations, in forms, and in other official documents issued by the Idaho Department of Labor. (5-8-09)

01. Agent. One who acts for or in the place of an individual or employer by the authority of that individual or employer. (5-8-09)

02. Payment in Advance. Full payment of all costs before or at the time that employment security information is disclosed to a recipient. (5-8-09)

03. Public Official. In accordance with Section 72-1342, Idaho Code, a “public official” is an official, elected official, or a contractor thereof in or for a federal, state, or local government, agency, or public entity within the executive branch of federal, state, or local government, who has responsibility for administering or enforcing a law, including research related to administration of a law. (6-30-19)
011. ACCESS BY PERSONS TO INFORMATION PERTAINING TO THEM.

01. Individual or Employer. Individuals or employers may access employment security information pertaining to them, subject to the procedures and restrictions contained in the Idaho Public Records Act, Chapter 1, Title 74, Idaho Code, and the reimbursement provisions in Section 020 of these rules. Unless the disclosure is for the purposes of the Employment Security Law, Chapter 13, Title 72, Idaho Code, the Department will not comply with requests for disclosure of records to an individual or employer on an ongoing basis, and only existing records in the Department’s custody as of the date of receipt of the request will be disclosed, not records that may be created in the future. (5-8-09)

02. Attorney. An attorney representing a party for the purposes of the Employment Security Law need only submit a letter on letterhead to the Department confirming the attorney’s representation of the party, for an Employment Security Law purpose, to access any employment security information that would be available to the attorney’s client. If the attorney is not representing the client for the purposes of the Employment Security Law, the attorney must provide an informed consent release, in the same manner and with the same restrictions as an agent in Subsection 011.04 of these rules, in order to access any employment security information that would be available to the client. (5-8-09)

03. Elected Official. An elected official performing constituent services who requests employment security information on behalf of an individual or employer may access any employment security information related to the inquiry and available to the constituent if the elected official presents reasonable evidence the constituent authorized the disclosure. Such reasonable evidence may include a letter or written record of a telephone request for assistance from the constituent. (6-30-19)

04. Agent. In order to access any employment security information that would be available to the individual or employer, an agent of an individual or employer must provide an informed consent release that meets the requirements of Subsection 013.01 of these rules. If the disclosure is for the purposes of Employment Security Law and it is impossible or impracticable to obtain an informed consent release, the agent must provide clear and convincing evidence, as determined by the Department, that the agent is authorized to act on behalf of the individual or employer in order to access any employment security information available to the individual or employer. Unless the disclosure is for the purposes of the Employment Security Law, the Department will not comply with requests for disclosure of records to an agent on an ongoing basis, and only existing records in the Department’s custody as of the date of receipt of the request will be disclosed pursuant to the informed consent release, not records that may be created in the future. (6-30-19)

012. DISCLOSURE TO PUBLIC OFFICIALS.

Employment security information may be disclosed by the director or the director's authorized representative to the following public officials or to an agent or contractor of the following public officials, for use in the performance of official duties: (5-8-09)

01. Required by Federal Law. Any public agency to whom the Department is required by federal law to disclose information, under the terms and restrictions required by federal law; (5-8-09)

02. Reciprocal Disclosures. Any public agency where reciprocal disclosures from such agency to the Department will reasonably assist in the collection of contributions and payments in lieu of contributions. (5-8-09)

03. Benefit to Department. Any public agency to whom disclosure of Department information would be consistent with the mission of the Department or of benefit to the Department, as determined by the director. (5-8-09)

04. Written Agreement. Any release of information to public officials under Subsections 012.02 and 012.03 of these rules must be pursuant to a written agreement signed by both the requesting agency director or their authorized representative and the director of the Department. If an agent or contractor is to obtain or access information on behalf of a requesting agency, the director of the requesting agency or the director's authorized representative must sign the agreement. The requesting agency will be responsible for ensuring the agent or contractor complies with all security requirements of the agreement. (6-30-19)
05. **Terms and Conditions of Written Agreement.** The interagency agreement must contain the following provisions:

a. A description of the specific information to be furnished by the Department and the purpose(s) for which the information is sought and will be used; (5-8-09)

b. A statement that those who request or receive information under the agreement will be limited to those individuals, identified by name or job title, or both, with a need to access for purpose(s) specified in the agreement; (5-8-09)

c. Methods and timing, if the disclosure is to be made more than once, including the format to be used; (5-8-09)

d. Provisions for timely payment of the Department’s billed costs as required by Subsection 020.02 of these rules, including the Department’s costs of performing on-site inspections to ensure compliance with State and Federal law and agreement requirements; (6-30-19)

e. Provisions for safeguarding the information disclosed, including the following requirements:

i. Recipient will use the information only for purposes authorized by law and specified in the agreement; (5-8-09)

ii. Recipient will store the information in a place physically secure from access by unauthorized persons; (5-8-09)

iii. Recipient will store and process the information maintained in electronic format in a way that unauthorized persons cannot obtain the information by any means; (5-8-09)

iv. Recipient will undertake precautions to ensure only authorized personnel have access to the information stored in computer systems; (6-30-19)

v. Recipient will instruct and have all personnel with access to the information sign an acknowledgment that they will adhere to the agreement's confidentiality requirements; understand the civil and criminal penalties in Sections 72-1372 and 72-1374, Idaho Code for unauthorized disclosure of information; and will fully and promptly report to the Department any breach of the confidentiality requirements; (6-30-19)

vi. Except for any information possessed by any court, Recipient will dispose of the information and any copies made by the requesting agency or its agent or contractor after the purpose of the disclosure has been served, and will not retain the information with personal identifiers for any longer period of time than the Department deems appropriate; and (6-30-19)

vii. Recipient will redisclose the information only as provided in the agreement or as required by State or Federal law. (5-8-09)

f. Provisions for on-site inspections of the requesting agency and/or its agent or contractor by the Department to ensure compliance with State and Federal law and the requirements of the agreement; (5-8-09)

g. Provisions that stipulate the Department determines the requesting agency or its agent or contractor is not adhering to the requirements of the agreement, including timely payment of the Department’s billed costs, any and all further disclosures will be suspended immediately until the Department is satisfied corrective action has been taken and there will be no further breach; (6-30-19)

h. Provisions for terminating this agreement if, after a breach of the agreement, prompt and satisfactory corrective action is not taken, and for the immediate surrender to the Department of all employment security information, including copies in any form, obtained under the agreement by the requesting agency and/or its agent or contactor; and (5-8-09)
i. Provisions for the Department to take any remedial action permitted under State or Federal law to enforce the agreement, including seeking damages, penalties, restitution, and attorneys fees and costs incurred by the Department for pursuit of any breaches of the agreement and required enforcement. (5-8-09)

06. Exception for Certain Federal Agencies. These requirements do not apply to disclosures of employment security information to a Federal agency which the U.S. Department of Labor has determined, by notice in the Federal Register, to have in place safeguards adequate to satisfy the confidentiality requirement of Section 303(a)(1) of the Social Security Act, and an appropriate method of paying or reimbursing the Department for any costs involved in such disclosures. (5-8-09)

07. Safety Concerns. Employment security information may be disclosed to a public official contacted for assistance when the safety of Department staff or property may be at risk. Such disclosures are considered necessary for the proper administration of programs under the Employment Security Law and may be made without a written agreement or a subpoena from the public official. (5-8-09)

013. DISCLOSURE TO THIRD PARTIES WITH WRITTEN, INFORMED CONSENT.
A person may agree, through written, informed consent, to allow a third party to obtain employment security information pertaining to the person from the Department, subject to the following terms and conditions: (5-8-09)

01. Informed Consent Release. (5-8-09)

a. An informed consent release must be signed by the person providing informed consent and dated within one (1) year of the date of the request for access to the records. (5-8-09)

b. In the document, the person providing informed consent must:
   i. Identify the specific records to be disclosed; (5-8-09)
   ii. Acknowledge Department files will be accessed to obtain the records; (5-8-09)
   iii. List all third parties authorized to access the person’s information; and (5-8-09)
   iv. Indicate specific purpose(s) of the disclosure and state the records will be used only for the specified purpose(s). If the disclosure is not for purposes of the Employment Security Law, Chapter 13, Title 72, Idaho Code, the purpose(s) specified must provide a service or benefit to the person providing informed consent or to administer or evaluate a public program to which informed consent release pertains. (6-30-19)

c. Unless disclosure is for the purposes of the Employment Security Law, the Department will not comply with disclosure requests to a third party on an ongoing basis. Only existing records in the Department’s custody as of the date of receipt of the request will be disclosed pursuant to the informed consent release, not records that may be created in the future. (6-30-19)

02. Agreement by Third Party. Before the Department will disclose employment security information to a third party pursuant to an informed consent release, the third party must sign an agreement containing the following provisions: (5-8-09)

a. A description of the specific information to be furnished by the Department and the purpose(s) for which the information is sought and will be used, as specified in the informed consent release; (5-8-09)

b. A statement that those who request or receive information under the agreement will be limited to those individuals, identified by name, with a need to access it for the purpose(s) specified in the informed consent release; (5-8-09)

c. The method for the disclosure, including format; (5-8-09)

d. Provisions for payment of the Department’s costs of disclosure as required by Subsection 020.02 of
these rules, including the Department’s costs of performing audits to ensure compliance with State and Federal law and the requirements of the agreement;

(5-8-09)

e. Provisions for safeguarding the information disclosed, including the following requirements:

(5-8-09)

i. Recipient will use the information only for purposes authorized by law and specified in the informed consent release;

(5-8-09)

ii. Recipient will store the information in a place physically secure from access by unauthorized persons;

(5-8-09)

iii. Recipient will store and process the information maintained in electronic format in such a way unauthorized persons cannot obtain the information by any means;

(5-8-09)

iv. Recipient will undertake precautions to ensure only authorized personnel have access to the information stored in computer systems;

(5-8-09)

v. Recipient will instruct and have all personnel with access to the information sign an acknowledgment that they will adhere to the agreement's confidentiality requirements; understand the civil and criminal penalties in Sections 72-1372 and 72-1374, Idaho Code for unauthorized disclosure of information; and will fully and promptly report to the Department any breach of the confidentiality requirements.

(6-30-19)

vi. Except for any information possessed by any court, Recipient will dispose of the information and any copies made by the requesting agency or its agent or contractor after the purpose of the disclosure has been served, and will not retain the information with personal identifiers for any longer period of time than the Department deems appropriate; and

(6-30-19)

vii. Recipient will redisclose the information only as authorized under informed consent release and for purpose(s) specified in the release or as required by State or Federal law.

(5-8-09)

f. Provisions for on-site audits of the recipient by the Department as the Department may deem necessary to ensure compliance with State and Federal law and agreement requirements;

(5-8-09)

g. Provisions for the immediate suspension of the agreement if the Department determines that the recipient is not adhering to the requirements of the agreement;

(5-8-09)

h. Provisions for termination of the agreement if, after a breach of the agreement prompt and satisfactory corrective action is not taken, and for immediate surrender to the Department of all employment security information, including copies in any form, obtained under the agreement by the recipient;

(5-8-09)

i. Acknowledgment by recipient the agreement is governed by the laws of the State of Idaho, and civil and criminal penalties in Sections 72-1372 and 72-1374, Idaho Code, apply to any unauthorized disclosure of information no matter where the unauthorized disclosure may occur; and

(5-8-09)

j. Provisions for the Department to take any remedial action permitted under State or Federal law to enforce the agreement, including seeking damages, penalties, restitution, and attorneys fees and costs incurred by the Department for any breaches of the agreement and required enforcement.

(5-8-09)

03. Department’s Right to Audit. After a third party receives employment security information pursuant to an informed consent release, the Department may perform an on-site audit of the third party to ensure the information is used for authorized purposes only.

(6-30-19)

014. -- 019. (RESERVED)

020. COSTS OF DISCLOSURE. Unless the disclosure of employment security information is for the purposes of the Employment Security Law,
Chapter 13, Title 72, Idaho Code, the party requesting the disclosure must reimburse the Department’s costs of disclosure, including staff time and processing costs, as follows: (5-8-09)

01. **Private Party.** If the requestor is not a public official, there must be reimbursement in advance to the Department unless the disclosure involves only an incidental amount of staff time and nominal processing costs. (5-8-09)

02. **Public Official.** If the requestor is a public official, payment to reimburse the Department may be made in advance or by way of billing invoice, as determined by the director, unless the disclosure involves only an incidental amount of staff time and nominal processing costs or there is a reciprocal cost arrangement with the public official. The Department may enter into a reciprocal cost arrangement with a public official when the relative benefits received by each agency through information sharing are approximately equal. (5-8-09)

**021. SUBPOENAS OF EMPLOYMENT SECURITY INFORMATION.**

01. **Subpoena from Public Official.** Employment security information may be supplied to a public official with subpoena authority after the Department receives a subpoena that is reasonable in nature and scope from the public official. This provision does not apply to subpoenas served on behalf of private parties to civil or criminal proceedings to which the Department is not a party. (5-8-09)

02. **Subpoena from Private Party.** If the Department is served with a subpoena on behalf of a private party to a civil or criminal proceeding to which the Department is not a party and the private party is not entitled to access the information pursuant to Section 011 of these rules, the Department will move to quash the subpoena and attempt to recover costs if other means of avoiding unauthorized disclosure of the information have been unsuccessful or the court has not already ruled on the disclosure. (5-8-09)

**022. RECORDS REQUESTS SUBMITTED BY ELECTRONIC MAIL.**
The Department will accept records requests sent via e-mail to records_requests@labor.idaho.gov only. Records requests sent to any other Department electronic mail address will not be accepted. A person making a records request in writing or via electronic mail must include the requestor's name, mailing address, and telephone number. If the request is for employment security information, the person may be required to provide identification to the Department. For security reasons, the Department will not disclose employment security information via electronic mail. (5-8-09)

023. -- 999. **(RESERVED)**
000. **LEGAL AUTHORITY.**
These rules are promulgated under the legal authority of Section 72-1333, Idaho Code. (4-11-06)

001. **TITLE AND SCOPE.**

01. **Title.** These rules are titled IDAPA 09.01.30, “Unemployment Insurance Benefits Administration Rules.” (4-11-06)

02. **Scope.** These rules govern claims for unemployment insurance benefits. (3-19-99)

002. **WRITTEN INTERPRETATIONS.**
Written interpretations of these rules, if any, are available from the main office of the Department described in IDAPA 09.01.01.006. Brochures explaining various provisions of Idaho’s Employment Security Law are also available at the state address. (3-19-99)

003. **ADMINISTRATIVE APPEALS.**
Appeals must be governed by the provisions of Section 72-1368, Idaho Code and IDAPA 09.01.01, “Rules of Administrative Procedure of the Department of Labor.” (6-30-19)

004. **INCORPORATED BY REFERENCE.**
There are no documents that have been incorporated by reference into this rule. (3-29-10)

005. **OFFICE – OFFICE HOURS – MAILING ADDRESS – STREET ADDRESS – WEB ADDRESS.**
The mailing and physical address of the main office of the Department is 317 W. Main St., Boise, Idaho 83735. The office hours are 8:00 a.m. to 5:00 p.m., excluding Saturdays, Sundays, and legal holidays. The telephone number of the main office is (208) 332-3570, and its facsimile number is (208) 334-6455. The Department's website, which contains information about the programs that it administers, including unemployment insurance benefits, can be found at www.labor.idaho.gov. (6-30-19)

006. **PUBLIC RECORDS ACT COMPLIANCE.**
The rules contained herein are subject to, and in compliance with, the Public Records Act, Title 74, Chapter 1, Idaho Code. (3-29-10)

007. -- 009. **(RESERVED)**

010. **DEFINITIONS.**
Unless the context clearly requires otherwise, these terms have the following meanings when used in these Rules, in interpretations, in forms, and in other official documents issued by the Director of the Department of Labor. (3-19-99)

01. **Additional Claim.** An initial claim made after a period of employment subsequent to a new claim in the same benefit year. (3-19-99)

02. **Administrative Office.** The main office in Boise, Idaho, wherein the administrative functions of the Department of Labor are performed. (3-19-99)

03. **Appealed Claim.** An interested party’s appeal to the Appeals Bureau of a claims examiner’s determination on a claim or a request for review by the Industrial Commission of a decision made by an appeals examiner. (6-30-19)

04. **Average Annual Wage.** For the purpose of determining the taxable wage base, under Section 72-1350(1), Idaho Code, the average annual wage is computed by dividing that calendar year’s total wages in covered employment, excluding State government and cost reimbursement employers, by the average number of workers in
covered employment for that calendar year as derived from data reported to the Department of Labor by covered employers.

05. **Average Weekly Wage.** For the purpose of establishing the maximum weekly benefit amount, under Section 72-1367(2)(a), Idaho Code, the average weekly wage is computed by dividing the total wages paid in covered employment (including State government and cost reimbursement employers) for the preceding calendar year, as computed from data reported to the Department of Labor by covered employers, by the monthly average number of workers in covered employment for the preceding calendar year and then dividing the resulting figure by fifty-two (52).

06. **Benefit Balance.** The unpaid portion of the total benefits payable with respect to a claimant’s unemployment during a given benefit year.

07. **Central Claims Office.** A claims office designated by the director, where unemployment claims throughout the state are processed.

08. **Chargeability Determination.** A determination issued by the Director or his authorized agent with respect to whether a covered employer’s account will be charged for benefits paid on a claim.

09. **Claim.** An application for unemployment insurance or “benefits.”

10. **Combined Wage Claim.** A claim filed under any interstate agreement whereby an unemployed worker with covered wages in more than one (1) state may combine such wages.

11. **Compensable Claim.** An application for benefits which certifies to the completion of a benefit period (one (1) or more weeks).

12. **Contested Claim.** A claim in which an interested party disputes the claimant’s right to benefits.

13. **Continued Claim.** An application for waiting-week credit or for benefits for specific compensable weeks.

14. **Corporate Officer.** Any individual empowered in good faith by stockholders or directors in accordance with the corporation’s articles of incorporation or bylaws to discharge the duties of a corporate officer.

15 **Fraud Overpayment.** Is defined as an established overpayment resulting from a determination that the claimant willfully made a false statement or willfully failed to report a material fact in order to obtain benefits. Ref. Sec. 72-1369, Idaho Code.

16. **Full-Time Employment.** A week of full-time employment for a claimant is one in which he has worked what are customarily considered full-time hours for the industry in which he has been employed that week or in which the earnings are more than one and one half (1-1/2) times his weekly benefit amount.

17. **Initial Claim.** The first claim for benefits made by an unemployed individual during a continuous period of unemployment. An initial claim may be either new or additional.

18. **Interstate Claim.** A claim filed by a worker who resides in a state other than the state (or states) in which he has earned wages in covered employment.

19. **Intrastate Claim.** A claim filed by a worker who has earned wages within that state or who has federal wages assigned to that state.

20. **Itinerant Point.** A place where claims-taking services are regularly provided for less than four (4) days a week by a local office which carries on its primary operations at another point.
21. **Liability Determination.** A determination issued by the Director or his authorized agent with respect to whether a cost reimbursement employer will be charged for benefits paid on a claim. (3-19-99)

22. **Local Office.** A community office of the Department of Labor. (6-30-19)

23. **Material.** A fact is material if it is relevant to a determination of a claimant's right to benefits. All information a claimant is asked to provide when applying for unemployment benefits or when making a continued claim report is material and relevant to a determination of a claimant's right to benefits. To be considered material, the fact need not actually affect the outcome of an eligibility determination. Ref. Section 72-1366, Idaho Code. (6-30-19)

24. **Monetary Determination.** A determination of eligibility which lists a claimant’s base period employer(s) and wages and establishes, if the claimant is eligible, his benefit year, his weekly benefit amount, and his total benefit amount. (3-19-99)

24. **New Claim.** The first initial claim made in a benefit year. (3-19-99)

25. **Non-Fraud Overpayment.** Is defined as any established overpayment other than an overpayment resulting from a determination that a claimant made a false statement or willfully failed to report a material fact in order to obtain benefits. Ref. Sec. 72-1369, Idaho Code. (6-30-19)

26. **Non-Monetary Determination.** A determination issued by a claims examiner with respect to the personal eligibility conditions of a claimant. (3-19-99)

27. **Personal Identification Number (PIN).** A confidential number or other electronic method of verification unique to a claimant or an employer that is used to submit information or engage in transactions with the Department through electronic or telephonic means. A PIN has the same force and effect as a manual signature. (6-30-19)

28. **Regular Claim.** A claim based on wages earned during a base period, excluding extended benefit claims. (3-19-99)

29. **Tolerance Amount.** A tolerance of four dollars and ninety-nine cents ($4.99) is established in connection with the recovery of overpayments and at the discretion of the Director, overpayments for this amount or less may be compromised. Ref. Sec. 72-1369, Idaho Code. (6-30-19)

01. **Able to Work.** “Able to work” is defined as the physical and mental ability to perform work under conditions ordinarily existing during a normal workweek. It does not mean that a person must be able to perform work in his customary occupation or the same kind of work he last performed. Ref. Sec. 72-1366(4), Idaho Code. (3-19-99)

01. **Able to Perform Some Type of Work.** A person must be able to perform work of some type for which he can qualify at the time he files an initial claim for unemployment insurance. (6-30-19)

02. **Able to Work Part-Time.** A person who is able to work only part of the workday or part of the workweek is not considered “able to work” for the purposes of Section 72-1366(4), Idaho Code. This rule does not apply to claimants who establish eligibility under the Americans with Disabilities Act. (3-19-99)

03. **Disability Compensation.** A claimant’s receipt of disability compensation does not in itself establish that he is unable to work or unavailable for work, even though the payee has been declared totally disabled. (3-19-99)

04. **Illness Provision.** A person who claims benefits under the illness provision must remain available for local office job referral; however, he may leave the area for treatment of his illness and continue to be eligible under the illness provision. (6-30-19)
05. **Illness Provision as Applied to Transitional or Reopened Claim.** Receipt of benefits during the same illness continues throughout a spell of unemployment, even though the current benefit year has ended and a transitional claim is filed the following year or the claim is reopened after a period of not filing with no intervening employment. (3-19-99)

06. **Mental Illness.** A person who, after filing a valid claim, becomes unable to work because of mental illness is entitled to the same benefits under the illness provision as claimants who suffer from other types of illness or disability. (3-19-99)

07. **Withdrawing from Labor Market Because of Illness.** A claimant who withdraws from the labor market because of illness or injury prior to filing a claim is not eligible until he is able to work and available for work. (3-19-99)

101. -- 124. (RESERVED)

125. **ALIEN ELIGIBILITY.**

01. **Alien Eligibility.** Benefits are not payable based on services performed by an alien unless the alien was lawfully admitted for permanent residence at the time such services were performed, was lawfully present for purposes of performing such services, or was permanently residing in the United States under color of law at the time the services were performed. Ref. Sec. 72-1366(19), Idaho Code. (3-19-99)

02. **Benefit Eligibility.** To be eligible for benefits, an alien must fall within one (1) of the following three (3) categories at the time the work on which the claim is based was performed. In addition, at the time benefits are claimed, the alien must have current, valid authorization to work from the Immigration & Naturalization Service in order to meet the continuing eligibility requirement of being able and available to work (unless the alien claimant is a Canadian resident who is claiming benefits under the Interstate Benefit Payment Plan, in which case the claimant must satisfy only Canadian availability requirements). Ref. Sec. 72-1366(4), (19), Idaho Code. (3-19-99)

a. **Permanent Residence.** The category of individuals who are “lawfully admitted for permanent residence,” includes aliens who have been lawfully admitted to the United States as “immigrants” and those whose status has been adjusted from that of “non-immigrant” under the Immigration and Nationality Act. Evidence of this status is the Alien Registration Receipt Card, or “green card,” issued to each lawful permanent resident by the Immigration and Naturalization Service. (3-19-99)

b. **Performing Services.** The category of individuals who are “lawfully present for purposes of performing services” includes three (3) groups of aliens:

i. Canadian and Mexican residents who commute daily or seasonally and are authorized to work in the United States; (3-19-99)

ii. Legally-admitted non-immigrants who are granted a status by the Immigration and Naturalization Service which authorizes them to work in the United States during their stay; and (3-19-99)

iii. Other aliens with Immigration and Naturalization Service authorization to work in the United States regardless of their status. (3-19-99)

c. **Permanently Residing Under Color of Law.** The category of individuals who are “permanently residing in the United States under color of law” includes the following groups of aliens:

i. Refugees and parolees, as identified in the Immigration and Nationality Act; (3-19-99)

ii. Aliens presumed by the Immigration and Naturalization Service to be lawfully admitted for permanent residence; and (3-19-99)

iii. Aliens who, after review of their particular circumstances under INS statutory or regulatory
procedures, have been granted a status which allows them to remain in the United States for an indefinite period of
time. For informal Immigration and Naturalization Service action to authorize an alien’s residence under “color of
law,” the Immigration and Naturalization Service must know of the alien’s presence, and must provide the alien with
official, documented assurance that enforcement of deportation is not planned. (3-19-99)

126. -- 149. (RESERVED)

150. AMERICANS WITH DISABILITIES ACT (ADA).
An individual with a medically verifiable long term or permanent physical or mental disability (as defined at 29
C.F.R. Sec 1630.2(g)) that prevents the individual from working full time or during particular shifts is not deemed
unable to work or unavailable for work for so long as he is able to perform some work and remains available for work
to the full extent of his ability. Claimants meeting the above criteria must be exempt from complying with eligibility
requirements found elsewhere in these Rules which would be in conflict with the intent of this provision. (3-19-99)

01. Availability Requirement. For purposes of this rule, a claimant with a disability will be considered
as having complied with the requirement of being available for work if he is willing to work the maximum number of
hours that he has established through medically verifiable evidence that he is able to work. (3-19-99)

02. Full-Time Employment. An individual claiming benefits under this provision will be considered
fully employed and ineligible to receive benefits in any week that the individual works the maximum number of
hours that he is able to work. (3-19-99)

03. Long Term. For purposes of this rule, “long term” is defined as twelve (12) months or longer. (3-19-99)

151. -- 174. (RESERVED)

175. AVAILABLE FOR WORK.
The phrase “available for work” is defined as a state of mind which involves a readiness and willingness to work, and
a desire to find a job, including the possibility of marketing one’s services in the claimant’s area of availability. There
must remain a reasonable possibility of a claimant finding and obtaining, or being referred and hired for, suitable
work. Ref. Sec. 72-1366(4), Idaho Code. (3-19-99)

01. Availability Requirements. The type of work for which the claimant is available must exist in the
claimant’s area to the extent that a normal unemployed person would generally find work within a reasonable period
of time. (3-19-99)

02. Child Care. Child care must be arranged so as not to restrict a claimant’s availability for work or
for seeking work. (3-19-99)

03. Compelling Personal Circumstances. For the purposes of this rule, compelling personal
circumstances are defined as:
  a. A situation in which the claimant required the assistance of emergency response personnel; (4-11-06)
  b. The serious illness or death or funeral of an immediate family member; or (4-11-06)
  c. The wedding of the claimant or an immediate family member. (4-11-06)
  d. For the purposes of this rule, “immediate family member” is defined as a claimant's spouse, child,
foster child, parent, brother, sister, grandparent, grandchild, or the same relation by marriage. (4-11-06)
  e. For the purposes of this rule, “workweek” is defined: (6-30-19)
  i. Code R, U, or X. The claimant’s normal work week as defined by the employer. (6-30-19)
f. Claimant work availability requirements are waived on Independence Day, Thanksgiving Day, Christmas Day, and New Year's Day. (6-30-19)

05. **Conscientious Objection.** No person may be held to be unavailable for work solely because of religious convictions not permitting work on a certain day. (3-19-99)

06. **Contract Obligation.** A person who is bound by a contract that prevents him from accepting other employment is not eligible for benefits. (3-19-99)

07. **Distance to Work.** A claimant seeking work must be willing to travel the distance normally traveled by other workers in his area and occupation. (3-19-99)

08. **Domestic Circumstances.** A claimant is not eligible for benefits if domestic circumstances take precedence over the claimant’s availability for work or for seeking work. (3-19-99)

09. **Equipment.** Claimants will be required to provide necessary tools or equipment in certain occupations. The lack of these tools or equipment will directly affect a claimant's availability for work, unless he will accept other work. (3-19-99)

10. **Evidence.** A claimant is responsible for providing proof of his availability for work and for seeking work if his availability is questioned or proof is required by these rules. (3-19-99)

11. **Experience or Training.** A claimant is expected to be available for work consistent with his past experience or training, provided there is no change in his ability to perform that work. (3-19-99)

12. **Full-Time/Part-Time Work.** To be eligible for benefits, a claimant must be available for a full workweek and a full, normal workday unless the claimant establishes that a majority of the weeks worked in his base period were for less than full-time work or the claimant establishes eligibility under the Americans with Disabilities Act. An individual who restricts his availability to part-time work pursuant to Section 72-1366(4)(c), Idaho Code, will be considered fully employed and ineligible to receive benefits if the individual works hours comparable to his part-time work experience in his base period. (3-29-10)

13. **Incarceration/Work Release.** A claimant who is incarcerated for any part of the claimant’s normal workweek is not eligible for benefits for that week, unless the claimant can establish he has work release privileges which would provide him a reasonable opportunity to meet his work search requirements and obtain full-time employment. (3-19-99)

14. **Jury Duty/Subpoenas.** A claimant serving on jury duty or subpoenaed is excused from the availability and work-seeking requirements of the law for that time period. A claimant is not ineligible if he must refuse work because of the jury duty or subpoena. (3-19-99)

15. **Licensing or Government Restrictions.** A claimant prohibited by law from engaging in certain work must be available for other employment to be eligible for benefits. (3-19-99)

16. **Moving to Remote Area.** A claimant who moves to a remote locality where there is very little possibility of obtaining work will be ineligible for benefits. (3-19-99)

17. **Public Official.** A public official who receives pay and performs “full-time” service is not unemployed or eligible for benefits. Part-time officials, even though receiving pay, may be considered available for work the same as any other individual employed on a part-time basis. Ref. Sec. 72-1312(1). (3-19-99)

18. **Public Service.** Performing public service, including voluntary non-remunerated service, does not disqualify an individual for benefits as long as he is meeting the availability and work-seeking requirements.
19. **Restricting Work to Within the Home.** A claimant who restricts his availability to only work done within the home which severely limits the work available to him is ineligible for benefits. (3-19-99)

20. **School Attendance or a Training Course.** A person who is attending school or a training course may be eligible for benefits if the attendance does not conflict in any way with that person’s availability for work or for seeking work and if he will discontinue attendance upon receipt of an offer of employment if there is a conflict between employment and the schooling or training. (3-19-99)

21. **Temporary Absence from Local Labor Market to Seek Work.** All claimants, regardless of their attachment to an industry or employer, must meet the same standard of remaining within their local labor market area during the workweek in order to be considered available for work, unless the primary purpose of a temporary absence is to seek work in another labor market; provided, however, claimants otherwise eligible to receive benefits while participating in an approved training program or course are not deemed ineligible when the training or course occurs outside of their local labor market due to the unavailability of similar programs or courses within their local labor market. (6-30-19)

22. **Time.** (3-19-99)
   a. **Time Restrictions.** A claimant may not impose restrictions on his time, including either hours of the day or days of the week, which will limit his availability to seek or accept suitable work. (3-19-99)
   b. **Shift Restrictions.** A claimant who restricts his availability to a single shift may not be fully available for work if the restriction significantly reduces his chances of becoming employed. (3-19-99)

23. **Transportation Difficulties.** Lack of transportation is not a bona fide reason for a claimant to fail to be available for or to seek work. Transportation is the responsibility of the claimant. (3-19-99)

24. **Unreasonable Restrictions on Working Conditions.** A claimant who places unreasonable restrictions on working conditions so as to seriously hinder his availability and search for work is ineligible for benefits. (3-19-99)

25. **Vacation.** A person on a vacation approved by his employer during time when work is available is not considered available for work nor eligible for benefits. (3-19-99)

26. **Wages.** A claimant is not ineligible for benefits if the wages or other conditions of available work are substantially less favorable to the claimant than those prevailing for similar work in the local area. Ref. Sec. 72-1366(7)(b), Idaho Code. (3-19-99)
   a. **Demanding Higher Wages.** A claimant is ineligible for benefits if he unduly restricts his availability for work by insisting on a wage rate that is higher than the prevailing wage for similar work in that area. (3-19-99)
   b. **Prior Earnings.** The claimant’s prior earnings and past experience are considered in determining whether he is available for suitable work. (3-19-99)

27. **Waiver of Two-Year Training Limitation.** For purposes of approving a waiver of the two (2) year limitation on school or training courses, specified by Idaho Code Section 72-1366(8)(c)(ii), for claimants who lack skills to compete in the labor market, the following criteria must be met: (6-30-19)
   a. **Financial Plan.** The claimant must demonstrate a workable financial plan for completing the school or training course after his benefits have been exhausted. (3-19-99)
   b. **Demand for Occupation.** The claimant must establish there is a demand for the occupation in which the claimant will be trained. A “demand occupation” is one in which work opportunities are available and there is not a surplus of qualified applicants. (3-19-99)
c. Duration of Training. At the time that the claimant applies for the waiver, the duration of the school or training course is no longer than two (2) years to completion. (3-19-99)

d. Denial. No claimant will be denied a waiver of the two (2) year limitation on school or training because the claimant is already enrolled or participating in the school or training at the time he requests the waiver. (6-30-19)

176. -- 199. (RESERVED)

200. CANCELING CLAIMS.
Upon the written request of a claimant, a claim may be canceled at any time, provided that the claimant did not misrepresent or fail to report a material fact in making the claim and the claimant has repaid any benefits received on the claim, unless the benefits received will be offset from a new claim the claimant is filing. Ref. Sec. 72-1327A, Idaho Code. (3-19-99)

201. -- 224. (RESERVED)

225. DECEASED CLAIMANTS.
Upon the death of a benefit claimant who has completed a compensable period prior to his death, distribution of benefits due him will be made to the surviving spouse or, if none, to the dependent child or children. If there is no surviving spouse nor dependent child or children, the benefits become the property of the claimant’s estate. (3-29-10)

226. -- 249. (RESERVED)

250. DETERMINATIONS/APPELLATE PROCESSES.

01. Chargeability Determination. The Department will issue a determination of chargeability to the major base period employer and include the right to protest the determination within fourteen (14) days of the date of service. Ref. Sec. 72-1351(2), Idaho Code. (3-19-99)

02. Continuing a Claim During Appellate Procedures. While a decision concerning eligibility on a claim is pending at any appellate stage of review, claimants must be advised to continue the regular filing of claims during any week in which they may be eligible to receive benefits. Ref. Sec. 72-1368(1), Idaho Code. (3-19-99)

03. Corrected Monetary Determination. The Department will issue a corrected monetary determination when there is a change in base period wages which occurs within a year from the date of the last monetary determination based on such base period wages. Ref. Sec. 72-1367, 72-1368(4), Idaho Code. (3-19-99)

04. Non-Monetary Determination. A non-monetary determination will be made in writing and served on the interested parties when there is an issue as to whether a claimant meets the personal eligibility conditions of Section 72-1366, Idaho Code. Ref. Sec. 72-1368(3), Idaho Code. (3-19-99)

05. Rebuttal Procedure. Whenever any information is provided in response to a claim, and the information contradicts a statement made previously, all interested parties will be given an opportunity for rebuttal. Ref. Sec. 72-1368(3), Idaho Code. (3-19-99)

06. Reestablishing Eligibility After a Determination of Ineligibility. Evidence of requalifying wages includes, but is not limited to, the name of the employer, the mailing address, the dates of employment, the type of employment performed, and the claimant’s gross earnings. Ref. Sec 72-1366(14), Idaho Code. (6-30-19)

251. -- 274. (RESERVED)

275. DISCHARGE.
A claimant who has been discharged for misconduct in connection with his employment is ineligible. Ref. Sec. 72-1366(5), Idaho Code. (3-19-99)

01. Burden of Proof. The burden of proving that a claimant was discharged for employment-related
misconduct rests with the employer. (3-19-99)

**02. Disqualifying Misconduct.** Misconduct that disqualifies a claimant for benefits must be connected with the claimant’s employment and involve one of the following: (3-19-99)

a. Disregard of Employer’s Interest. A willful, intentional disregard of the employer’s interest. (3-19-99)

b. Violation of Reasonable Rules. A deliberate violation of the employer’s reasonable rules. (3-19-99)

c. Disregard of Standards of Behavior. If the alleged misconduct involves a disregard of a standard of behavior which the employer has a right to expect of his employees, there is no requirement that the claimant’s conduct be willful, intentional, or deliberate. The claimant’s subjective state of mind is irrelevant. The test for misconduct in “standard of behavior cases” is as follows: (3-19-99)

i. Whether the claimant’s conduct fell below the standard of behavior expected by the employer; and (3-19-99)

ii. Whether the employer’s expectation was objectively reasonable in the particular case. (3-19-99)

**03. Inability to Perform or Ordinary Negligence.** Mere inefficiency, unsatisfactory conduct, failure of good performance as the result of inability or incapacity, inadvertencies, isolated instances of ordinary negligence, or good faith errors in judgment or discretion are not considered misconduct connected with employment. (3-19-99)

**04. Non-Job Related Conduct.** If the claimant has been discharged for conduct involving personal, non-job related behavior, the discharge is not for misconduct connected with employment. (3-19-99)

**05. When Notice of Discharge Prompts a Resignation.** If a claimant has resigned after receiving a notice of discharge (or lay off due to a lack of work), but before the effective date of the discharge, both “separations” must be considered. The following three (3) elements should be present for both actions to affect the claimant’s eligibility: (3-19-99)

a. The employee was given notice by the employer of a specific separation date; (3-19-99)

b. The employee’s decision to quit before the effective date of the termination was a consequence of the pending separation; and (3-19-99)

c. The voluntary quit occurred a short time prior to the effective date of the termination. (3-19-99)

**06. Indefinite Suspension.** A claimant who has been suspended without pay for an indefinite period of time, who has not been given a date to return to work, is considered discharged. A determination will be made as to whether the discharge was for misconduct connected with employment. (3-15-02)

276. -- 324. (RESERVED)

**325. Employees of Educational Institutions.**

Benefits based on wages earned for services performed for an educational institution or educational service agency will not be paid for any week that commences during a period between two (2) successive school years or terms, or during vacation periods and holiday recesses within terms, if an individual performs services in the first year or term and there is a contract or reasonable assurance that the individual will perform such services in the second year or term. Ref. Sec. 72-1366(17)(a), (b), (c), (d), Idaho Code. (3-19-99)

**01. Possibility of Employment.** An offer of employment by an educational institution or service agency is not “bona fide” if merely a possibility of employment exists. A possibility of employment, rather than a reasonable assurance, exists when: (3-19-99)

a. The circumstances under which the claimant would be employed are not within the control of the
b. The educational institution does not provide evidence that such an individual normally would perform services the following academic year.

02. Reasonable Assurance. “Reasonable assurance” of continuing employment exists when an educational institution or service agency provides an oral or written statement to the Department indicating that the claimant has been given a bona fide offer of a specific job in the second academic period. In addition, for such “reasonable assurance” to exist, the terms and conditions of the job offered in the second period must not be substantially less favorable than the terms and conditions of the job performed in the first period.

03. Reasonable Assurance Later Given. A claimant who initially has been determined not to have a reasonable assurance of continuing employment, will subsequently become disqualified for benefits under Sections 72-1366(17)(a), (b), or (c), Idaho Code, when an educational institution or service agency gives the claimant such reasonable assurance.

04. Retroactive Payments. A claimant seeking retroactive payments pursuant to 72-1366(17)(b), Idaho Code, must make a request for the retroactive payment with the Department no later than thirty (30) days after the beginning of the second school year or term or retroactive payment will not be made. In addition, the claimant must provide written evidence from the employer who previously provided reasonable assurance of continuing work, that the claimant was not offered an opportunity to return to work in the second of two (2) successive school years or terms.

05. Under Contract, but Between School Terms. Employees of educational institutions who are hired under contract for the school term, are considered unemployed between school terms even though they may receive their salary in twelve (12) monthly payments.

326. -- 349. (RESERVED)

350. EXTENDED BENEFITS.
Ref. Sec. 72-1367A(3)(d), Idaho Code.

01. Evidence of Employment for Extended Benefits. Satisfactory evidence that an individual’s prospects for obtaining work in his customary occupation within a reasonably short period includes:

a. A letter signed by a prospective employer giving assurances of work within the next four (4) weeks; or

b. A verifiable, written statement by the claimant that he will have work within the next four (4) weeks.

02. Remuneration Earned. Remuneration earned must be in employment where an employee-employer relationship exists to satisfy requalification requirements for Extended Benefits.

351. -- 374. (RESERVED)

375. FULLY EMPLOYED/NOT UNEMPLOYED.
Ref. Section 72-1312(1), Idaho Code.

01. Excessive Earnings Week. An excessive earnings week is a week in which the claimant’s wages allocable to that week are more than one and one half (1-1/2) times the claimant’s weekly benefit amount.

02. Leave of Absence. A claimant who is on a mutually agreed upon leave of absence is employed and not eligible for benefits. In order to meet the definition of “leave of absence,” the employer must have committed to the claimant’s return to work at the end of the leave.

03. Suspension. A claimant who has been suspended with or without pay for a specific number of
days, who has been given a date to resume employment after the suspension, is not considered unemployed and is not eligible for benefits. (3-15-02)

04. Corporate Officer. A corporate officer whose claim for benefits is based on wages with a corporation in which the corporate officer or a family member of the corporate officer has an ownership interest is considered unemployed and eligible for benefits only when his unemployment is due to circumstances beyond his control or the control of a family member of the corporate officer with an ownership interest in the corporation. A corporate officer has the burden of proving by a preponderance of evidence that he is unemployed due to circumstances beyond his control or the control of a family member with an ownership interest in the corporation. (3-29-12)

a. Not unemployed. Corporate officers are not unemployed and are ineligible for benefits in any week during the corporate officer’s term of office with the corporation even if wages are not being paid. (3-29-12)

b. Circumstances beyond a corporate officer’s control or the control of a family member with an ownership interest in the corporation. Circumstances beyond a corporate officer’s or a family member’s control are circumstances that last through the corporate officer’s benefit year end date and include, but are not limited to, the following: (3-29-12)

i. Unemployment due to the corporate officer’s removal from the corporation under circumstances that satisfy the personal eligibility conditions set forth in Section 72-1366, Idaho Code; (3-29-12)

ii. Unemployment due to dissolution of the corporation; or (3-29-12)

iii. Unemployment due to the sale of the corporation to an unrelated third party. (3-29-12)

c. Rebuttable presumption - Overpayment. If at any time during the benefit year the corporate officer resumes or returns to work for the corporation, it is a rebuttable presumption that the corporate officer’s unemployment was due to circumstances within the corporate officer’s control or the control of a family member with an ownership interest in the corporation, and all benefits paid to the corporate officer during the benefit year will be considered an overpayment for which the corporate officer is liable for repayment. (3-29-12)

d. Family member. “Family member” is defined as a person related by blood or marriage as a parent, stepparent, grandparent, spouse, brother, sister, child, stepchild, adopted child or grandchild. (3-29-12)

376. -- 399. (RESERVED)

400. LABOR DISPUTE/UNION RULES. A “labor dispute” is defined as a controversy with respect to one (1) or more of the following: wages, hours, working conditions; or right of representation affecting the work or employment of a number of individuals employed for hire which results in a deadlock or impasse between the contending parties. Ref. Sec. 72-1366(7), (10), Idaho Code. (3-19-99)

01. Burden of Proving Nonparticipation. The burden of proving non-participation, lack of financing and similar factors is upon the claimant who is seeking to avoid being found ineligible on the basis that his unemployment is due to a labor dispute. (3-19-99)

02. Involvement of Work Site in Labor Dispute. A claimant may not be denied benefits because of a labor dispute if the dispute is not in any way directly connected with the factory, the establishment, or the premises at which the individual is or was last employed. (3-19-99)

03. Lack of Work. A claimant’s unemployment will be deemed due to lack of available, suitable work and not due to a labor dispute if it is shown that because of the labor dispute the employer’s business has fallen off to the extent that he can no longer utilize the services of the claimant due to the drop in business. (3-19-99)

04. Laid Off Before Labor Dispute. A claimant laid off because of lack of work from an employer
where a labor dispute later occurred will not be considered unemployed due to the labor dispute. 

05. Merits of Labor Dispute. The Department will not make a determination on the merits of a labor dispute.

06. Period of Ineligibility. The period of ineligibility applies for the whole of any week in which any part of a claimant’s unemployment is due to a labor dispute.

07. Picketing Work Site. The act of picketing the work site of a labor dispute constitutes participation in the labor dispute, whether or not payment is made for such services.

08. Refusal to Cross Picket Line. Voluntary refusal to cross a peaceable picket line to work constitutes participation in the labor dispute.

09. Subsequent Employment. Subsequent employment does not make the claimant eligible for benefits if his unemployment is still due to the labor dispute. As long as the claimant intends to return to the employer where the labor dispute exists, his unemployment is due to the labor dispute regardless of any intervening employment.

10. Termination of Labor Dispute. The period of ineligibility due to the labor dispute terminates at the end of the calendar week in which the labor dispute no longer exists. The termination of the dispute does not automatically make a claimant eligible for benefits.

11. Union Member. The fact that an individual is a dues-paying union member alone does not constitute financing a labor dispute. Nor does the fact that he is not a union member establish that he is not financing or participating in the dispute.

401. -- 424. (RESERVED)

425. NEW CLAIMS/ADDITIONAL CLAIMS.
Ref. Sec. 72-1308, Idaho Code.

01. Claims for Benefits, Delayed Filing. When the Central Claims Office has determined that a claimant’s attempt to file an initial claim was delayed due to problems with the Department’s telephone or electronic filing system, the claim may be backdated if the claimant reported the access problem to the Central Claims Office within seven (7) days of the date the problem occurred. When a claim is backdated, the continued claim report for the period of time involved will be considered timely if filed during the same week or the next week after the claim is filed.

02. Effective Date of Backdated Claims. When the filing of an initial claim for benefits is backdated due to a Department system malfunction, the effective date is the Sunday of the week in which the claimant first reported to the Central Claims Office to file the claim or attempted to access the telephone or electronic claim filing system and there were problems with the system.

03. Filing of New Claims, Additional, and Reopen Claims. Intrastate and interstate claims, including, without limitation, new claims, additional claims, and reopen claims, may be filed electronically or by telephone at the Department’s discretion.

a. Electronically Filed Claims. Claimants may file claims electronically by accessing Idaho’s Internet claim system through the Internet or, if filing through an Idaho Works location, by accessing the Department’s Intranet claim system. Electronically filed claims will be date and time stamped at the time the claimant completes the application process. The claim will not be completed until the claimant has finished the process and has electronically submitted the claim to the Department. A claim filed via the Internet or an Idaho Works location is effective as of the Sunday of the week of the date shown on the date/time stamp. A claim filed electronically will
automatically be assigned to the local office that services the zip code for the mailing address provided by the claimant. (3-30-01)

b. Interstate Claims. Any claim filed by an interstate claimant is accepted in the same manner and under the same conditions for which claims are accepted from intrastate claimants. (6-30-19)

c. Telephone Claims. A claimant may also file a claim by calling the Central Claims Office. A claim filed via telephone is effective as of the Sunday of the week in which the claimant first calls the Central Claims Office to initiate the claim. (6-30-19)

d. Itinerant Claims. Claims may be filed at itinerant points established by the Department for the taking of claims. A claim filed at an itinerant point on the first regular itinerant visit after the claimant’s separation will be effective as of the Sunday preceding the first business day of the period of unemployment. If the claimant has filed the claim on a date later than the first regular itinerant visit, the claim is effective as of the Sunday preceding the date the claim is actually filed. (3-30-01)

04. Itinerant Locations. Itinerant points for the taking of unemployment insurance claims may be established, changed, or discontinued at administrative discretion. Where itinerant service is being inaugurated, changed, or discontinued for a particular community, public notice of such inauguration, change, or discontinuance must be conspicuously posted and public notification placed in a daily or weekly newspaper of general distribution for the affected community two (2) weeks prior to such inauguration, change or discontinuance. Ref. Sec. 72-1368(1), Idaho Code. (3-19-99)

05. Registration for Work. All claimants who cannot demonstrate a firm attachment to an employer, industry, or union will be required to register for employment. Unless otherwise requested by the claimant, such registration should apply only to the days or parts of the days that the claimant is in fact unemployed and available for employment. The work history of each claimant must be recorded, and a work application completed and filed. Ref. Sec. 72-1366(2), Idaho Code. (3-19-99)

06. Registration/Reporting Requirements -- Interstate Claimants. Interstate claimants are required to register for work in the State in which they reside and to comply with the same reporting requirements prescribed for regular Idaho intrastate claimants. Ref. Sec. 72-1366(1), (2), Idaho Code. (4-11-06)

07. Requirement to Provide Information. If a claimant fails to provide the Department with all necessary information pertinent to eligibility, the claimant may be denied benefits until the information is provided. Any individual making a claim for benefits must provide the Department with:

a. The claimant’s legal name; (3-15-02)

b. The claimant’s Social Security Number; (3-15-02)

c. The address where the claimant’s mail is delivered; (3-15-02)

d. The claimant’s place of last employment; (3-15-02)

e. The name, correct mailing address, and the reason for separation from all of the claimant’s most recent and base-period employers; (3-15-02)

f. If requested by the Department, a list of all other employment in the past twenty-four (24) months; (3-15-02)

g. The claimant’s plans for finding other employment at the earliest possible time; and (3-15-02)

h. Other information necessary for the proper processing of the claim. (3-15-02)

i. Once a claim has been established, the claimant must provide, upon request, a record of the claimant’s work search, in order for the Department to assess the claimant’s compliance with personal eligibility
requirements. (3-15-02)

j. If the claimant's identifying information does not match with data provided by the Social Security Administration, the Division of Motor Vehicles, or other public entities for identity verification purposes, the claimant will be provided notice and an opportunity to provide proof of identity before benefits may be denied for failure to provide proof of identity. (6-30-19)

08. Right to Claim Benefits. In no instance, under any circumstances or conditions, may an individual be denied the right to file a claim and to receive in writing a decision regarding his eligibility. Ref. Sec. 72-1366(1), Idaho Code. (3-19-99)

09. Separation Information. Unless separation information has been provided by other means, such as a mass layoff list, at the time of filing, a notice of the filing of a claim and a request for separation information must be completed and mailed to the claimant's last employer and each next preceding employer until the wages received by the claimant equal or exceed fourteen (14) times his weekly benefit amount. For all such employers, the claimant must provide the Department with the employer’s name and correct mailing address, the claimant’s dates of employment, the type of employment performed, and the claimant’s gross earnings from each employment. Ref. Sec. 72-1366(1), (5) and (14), Idaho Code. (6-30-19)

10. Separation Notice. (3-19-99)

a. Notice to Employer of Separation. At the time a claim for benefits is filed, the Department will review the claimant's employment subsequent to which the claimant has not earned fourteen (14) times his weekly benefit amount. The Department will mail a separation notification letter to each employer within that period. A Department representative will then contact the employer within seven (7) business days for a response, unless the claimant indicated he quit the job for reasons not attributable to the employer. Every employer (including employers not subject to Title 72, Chapter 13, Idaho Code), when contacted by a Department representative for a response, must respond to the Department with the reasons for the separation whenever the claimant:

i. Left his employment voluntarily; (3-19-99)

ii. Was discharged from his employment due to misconduct; (3-19-99)

iii. Is unemployed due to a strike, lockout, or other labor dispute; (3-30-07)

iv. Is not working due to a suspension; or (3-30-07)

v. Was separated for any other reason except lack of available work. (3-19-99)

b. Employer Response. The employer’s response must be given by the employer or on the employer’s behalf by someone having personal knowledge of the facts concerning the separation. The employer should provide to the Department, via electronic media or mail, copies of any documentation supporting their position. (3-30-07)

11. Additional Claim or Reopened Claim. A claim must be reestablished after a claimant has failed to report or has reported excessive earnings for two (2) or more consecutive weeks. If the break in the claim series is two (2) weeks or longer, the claim must be reestablished by filing a reopen or additional claim. (6-30-19)

12. Use of Wage Credits. All unemployment insurance wage credits from any source that are assignble to the state of Idaho will be used in establishing a claim and determining the claimant’s monetary eligibility. Ref. Sec. 72-1367(1), Idaho Code. (3-19-99)

13. Valid Claim. To be a valid claim for benefits, a claim must be filed during a week of no work, a week of less than full-time work in which the total wages payable to the claimant for work performed in such week amount to less than one and one-half (1-1/2) times the claimant’s weekly benefit amount, or a week in which the claimant is separated from employment. Ref. Sec. 72-1327A and 72-1312, Idaho Code. (3-19-99)

426. -- 449. (RESERVED)
450. **QUIT.**

01. **Burden of Proof.** The claimant has the burden of proof to establish that he voluntarily left his employment with good cause in connection with the employment to be eligible for benefits. [3-19-99]

02. **Cause Connected with Employment.** To be connected with employment, a claimant’s reason(s) for leaving the employment must arise from the working conditions, job tasks, or employment agreement. If the claimant’s reason(s) for leaving the employment arise from personal/non-job-related matters, the reasons are not connected with the claimant’s employment. [3-19-99]

03. **Good Cause.** The standard of what constitutes good cause is the standard of reasonableness as applied to the average man or woman. Whether good cause is present depends upon whether a reasonable person would consider the circumstances resulting in the claimant’s unemployment to be real, substantial, and compelling. [3-19-99]

04. **Moral or Ethical Quit.** A claimant who leaves a job because of a reasonable and serious objection to the work requirements of the employer on moral or ethical grounds and is otherwise eligible, will not be denied benefits. [3-19-99]

05. **Quit Due to Health or Physical Condition.** A claimant whose unemployment is due to his health or physical condition which makes it impossible for him to continue to perform the duties of the job will be deemed to have quit work with good cause connected with employment. [3-19-99]

06. **Quit for Permanent Work or Quit Part-Time Work for Increase in Work Hours.** A claimant who quits a temporary job for a permanent job or who quits part-time employment for employment with an increase in the number of hours of work will be deemed to have quit work with good cause connected with employment. [3-19-99]

07. **Quit or Retirement During Employer Downsizing.** An individual who has continuing suitable work available and who voluntarily elects to retire or to terminate employment during a period of reorganization or downsizing will be considered to have voluntarily quit the employment for personal reasons. [3-19-99]

08. **Unrelated Discharge Prior to Pending Resignation.** A claimant, discharged before a pending resignation has occurred, for reasons not related to the pending resignation, will have his eligibility determined on the basis of the discharge, not on the pending resignation. [3-19-99]

09. **When Notice of Resignation Prompts a Discharge.** If a claimant had given notice of a pending resignation, but was discharged before the effective date of the resignation, both “separations” must be considered. The following three (3) elements should be present for both actions to affect the claimant’s eligibility: [3-19-99]

   a. The employee gave notice to the employer of a specific separation date; [3-19-99]

   b. The employer’s decision to discharge the claimant before the effective date of the resignation was a consequence of the pending separation; and [3-19-99]

   c. The discharge occurred a short time prior to the effective date of the resignation. [3-19-99]

10. **Quit Due to Harassment.** Good cause for quitting employment may be established by showing the party was subjected to any form of harassment that is unlawful under the Idaho Human Rights Act, Title 67, Chapter 59, Idaho Code. [6-30-19]

451. -- 459. **(RESERVED)**

460. **PROFESSIONAL ATHLETES BETWEEN SEASONS.**
Ref. Sec. 72-1366(18), Idaho Code. [3-30-07]
01. **Base Period Wages.** No base period wages are used for the purposes of establishing a claim when substantially all services performed during the base period consist of participation in sports, athletic events, training, or preparing to so participate, for any week which commences during the period between two (2) successive sport seasons (or similar periods) if the individual performed such services in the first season (or similar period) and there is a reasonable assurance that the individual will perform such services in the later of such seasons (or similar periods). (3-30-07)

02. **Reasonable Assurance.** Reasonable assurance is defined as any of the following: (3-30-07)

   a. The claimant has a contract, either written or oral;

   b. The claimant offered to work and the employer expressed an interest in hiring the player for the next season (or similar period); or

   c. The claimant expresses a readiness and willingness or intent to participate in the sport the following season. Reasonable assurance exists if the claimant asserts he or she intends to pursue employment as a professional athlete the next season despite not having a specific employer to return to or a formal offer of employment. (3-30-07)

03. **Substantially All Services.** For the purposes of Section 460, an individual is deemed to have performed “substantially all services” in sports, athletic events, training, or preparing to so participate if ninety percent (90%) or more of the base period wages were based on such services. (3-30-07)

461. -- 474. (RESERVED)

475. **REFUSAL OF WORK/Failure To APPLY.**
Ref. Sec. 72-1366(6), (7), Idaho Code. (3-19-99)

01. **Citizenship or Residency Requirements.** An employer’s restrictions on citizenship or residency is deemed good cause for a claimant’s failure to apply for available work if he does not meet the requirements. (3-19-99)

02. **Claimant Conduct.** A claimant who, by his conduct, causes an employer to withdraw an offer of suitable work or terminate the offer after the claimant has accepted it is ineligible. (3-19-99)

03. **Claimant Responsibility.** A claimant has the responsibility to apply for and accept suitable work. (3-19-99)

04. **Conscientious Objection.** A claimant may refuse employment that requires him to work on his Sabbath if his religious convictions do not permit him to work on that day. (3-19-99)

05. **Employer Requirements.** Claimants are expected to comply with reasonable, lawful requirements that are typical of certain occupations, such as a requirement that a worker be bonded. Unreasonable requirements by employers will not be used as a basis to deny benefits. However, a claimant must have good cause to refuse or fail to meet an employer’s reasonable, lawful employment requirements to be eligible for benefits. (3-19-99)

06. **Failure to Report.** A claimant who fails to report to a local office when so directed, fails to follow explicit instructions for applying for suitable, available work, or fails to report to work after accepting employment, without good cause, is ineligible. Ref. Sec. 72-1366(2), (6), Idaho Code. (3-19-99)

07. **Failure to Return to Work After Layoff.** A claimant who has been laid off, but fails to return to work on the date specified by the employer at the time of layoff or fails to respond to a callback after a layoff, will be considered to have refused an offer of work if the ongoing employment relationship is severed as a result. Whether the work was suitable and whether there was good cause for the refusal will be decided on the merits of the case. If the claimant declines work with the employer but the ongoing employment relationship is not severed as a result, the claimant’s availability for work will be examined, but the claimant will not be considered to have refused an offer of work for the purposes of Sections 72-1366(6) or (21)(a)(ii)(A), Idaho Code. (5-3-03)
Section 500

08. **Government Requirements.** A claimant who cannot meet government requirements within a reasonable period of time has good cause for refusing that opportunity to work. (6-30-19)

09. **Moral Objections.** A claimant is not ineligible for failing to apply for or accept employment if the claimant has reasonable, serious objections to the work or the workplace on moral or ethical grounds. (3-19-99)

10. **Offer of Work.** A claimant whose unemployment is due to his failure without good cause to accept available, suitable work is ineligible. The job offer must have been genuine and known to the claimant. (3-19-99)

11. **Part-Time Work.** A claimant must be available for and willing to accept suitable part-time work in the absence of suitable full-time work. (3-19-99)

12. **Personal Circumstances.** To have good cause to refuse to apply for or accept available, suitable work because of personal circumstances, a claimant must show that his circumstances were so compelling that a reasonably prudent individual would have acted in the same manner under the same circumstances. (3-19-99)

13. **Prospect of More Suitable Work.** A claimant is not ineligible for failing to accept employment if he has excellent prospects for more suitable work with his former employer or in his regular occupation. (3-19-99)

14. **Suitable Work.** Every claimant has the right to restrict his availability to suitable work. (3-19-99)

15. **Travel Distance.** A claimant is not ineligible if the travel distance to available work is excessive or unreasonable. A claimant is ineligible if he fails to apply for and accept suitable work within a commuting area similar to other workers in his area and occupation. (3-19-99)

476. -- 499. (RESERVED)

500. **REISSUING BENEFIT PAYMENTS.**
Whenever a benefit payment is lost, stolen, destroyed, or forged, the claimant will be issued a new benefit payment upon his proper presentation of the facts and submission of an affidavit, in a form prescribed by the Department, for the issuance of a new benefit payment. Ref. Section 72-1368(1), Idaho Code. (7-1-10)

01. **Affidavit for Issuance of New Benefit Payment.** A claimant’s affidavit filed for the issuance of a new benefit payment must be signed before a notary public or an authorized representative of the Department. (7-1-10)

02. **Reissuance of Stolen Benefit Payments.** If a claimant knows who took a benefit payment, he must provide evidence that he has taken all reasonably available legal steps and been unsuccessful in recovering the benefit payment before the Department will consider reissuing the benefit payment. (7-1-10)

501. -- 524. (RESERVED)

525. **REPORTABLE INCOME.**
Ref. Sections 72-1312, 72-1328, Idaho Code. (3-19-99)

01. **Back Pay or Disputed Wages.** Amounts received as a result of labor relations awards or judgments for back pay, or for disputed wages, constitute wages for the weeks in which the claimant would have earned them, or are assignable to the weeks stipulated in the award or judgment. If the claimant received waiting week credit for a week in which the award or judgment is reported or assigned, the waiting week will be denied if the amount of the award or judgment for the week renders the claimant ineligible for such credit. If the claimant received benefits for the weeks in which the award or judgment is reported or assigned, such benefits are overpaid to the extent that the weekly amount of the award or judgment affects the claimant’s eligibility. (3-19-99)

02. **Disability/Injury Compensation.** Injury or disability compensation payments are not considered wages and are not reportable income for unemployment insurance purposes. (3-19-99)
03. **Disability Retirement Payments.** Retirement payments as a result of disability are treated the same as other types of retirement payments. Ref. Section 72-1312(4), Idaho Code. (3-19-99)

04. **Gratuities or Tips.** Gratuities or tips must be reported by a claimant for the week in which each gratuity or tip is earned. (3-19-99)

05. **Holiday Pay.** Holiday pay must be reported as though earned in the week in which the holiday occurs. (4-6-05)

06. **Non-Periodic Remuneration.** All non-periodic remuneration such as one-time severance pay, profit sharing, and bonus pay is reportable for the week in which paid. (3-19-99)

07. **Penalty or Damage Awards.** Amounts awarded to a claimant as a penalty or damages against an employer, other than for lost wages, do not constitute wages. (3-19-99)

08. **Pension, Retirement, or Annuity Payments.** The pension deduction provision of Section 72-1312(4), Idaho Code, only applies if the pension, retirement pay, annuity, or other similar periodic payment is made under a plan maintained or contributed to by a base period employer. The dollar amount of the weekly pension will be deducted from the claimant’s weekly benefit amount unless the claimant has made contributions toward the pension. If the claimant has made contributions toward the pension plan, the pension offset will be reduced one hundred percent (100%), and no deduction for the pension will be made from the claimant’s weekly benefit amount. Ref. Section 72-1312(4), Idaho Code. (3-19-99)

   a. **Pension Contributions.** The burden is on the claimant to establish by substantial, competent evidence that he has made contributions toward the pension, retirement pay, annuity or other similar payment plan. (3-19-99)

   b. **Pension Payment Changes.** Any change in the amount of the pension, retirement, or annuity payments which affects the deduction from the claimant’s weekly benefit amount will be applied in the first full week after the effective date of the change. (3-19-99)

09. **Relief Work or Public Assistance.**

   a. Remuneration received for relief work or public service work will be considered wages on the same basis as any other employment. (3-19-99)

   b. **Eligibility When Public Assistance Received.** A person receiving public assistance is eligible for benefits if no work is involved and the claimant is otherwise eligible. (3-19-99)

10. **Self-Employment Earnings.** When reporting earnings, a claimant must report gross earnings from self-employment unless the claimant can prove that certain expenditures, which are not commonly associated with working for wages, were necessary in order to accomplish the work. Such expenditures may include, but are not limited to, buying products wholesale for resale and renting equipment to accomplish a task. Expenditures which are not deductible include, but are not limited to, transportation costs, uniforms, and depreciation of equipment. (3-19-99)

11. **Severance Pay.** An equal portion of a periodic severance payment must be reported in each week of the period covered by the payment. However, severance pay received in a lump sum payment at the time of severance of the employment relationship must be reported when paid. (3-19-99)

12. **Vacation Pay.** Vacation pay allocable to a certain period of time in accordance with an employment agreement must be reported in the week to which it is allocable. However, vacation pay received in a lump-sum payment at the time of severance of the employment relationship must be reported when paid. (3-19-99)

13. **Verification of Earnings on Claim Reports.** The Department may verify the earnings and/or reasons for separation reported by claimants on claim reports filed for benefit payments. Ref. Section 72-1368(1), Idaho Code. (3-19-99)
14. **Wages for Contract Services.** A person who is bound by a contract which does not prevent him from accepting other employment but who receives pay for a period of not working, is required to report the contract payments as earnings in equal portions in each week of the period covered by the contract. This rule does not apply to employees of educational institutions. (3-19-99)

15. **Wages for Services Performed Prior to Separation.** Wages for services performed prior to a claimant’s separation are reportable for the week in which earned. (3-19-99)

16. **Temporary Disability Benefits.** For any week with respect to which a claimant is receiving or has received temporary disability benefits under a worker’s compensation law of any state or under a similar law of the United States, such payments must be reported in an amount attributable to such week. If a claimant receives an award of temporary disability benefits which is attributable to any week in which the claimant had already received unemployment insurance benefits, the unemployment insurance benefits are overpaid to the extent the weekly amount of temporary disability benefits affects the claimant’s eligibility for unemployment benefits. (7-1-10)

526. -- 549. (RESERVED)

550. **REPORTING REQUIREMENTS.**

Each claimant must report weekly or biweekly for benefits as directed. When filing claim reports, a claimant must use the reporting method assigned by the Department. Failure to file timely reports in a manner required by this rule will result in ineligibility for benefits for the week(s) claimed. Ref. Section 72-1366(1), Idaho Code. (3-29-12)

01. **Mailed Reports.** Reports that are mailed are considered timely when the envelope containing the report is postmarked within nine (9) calendar days immediately following the week(s) being claimed, except if the ninth day is a holiday, the report period will be extended to include the next working day. (3-29-12)

02. **Internet Reports.** Reports filed via the internet are considered timely when made between 12:01 a.m. Mountain Time of the Sunday following the week being claimed and midnight Mountain Time of the Saturday following the week being claimed. (3-20-14)

03. **Facsimile Reports.** Reports filed by facsimile are considered timely when transmitted on a form provided by the Department to a telephone number designated by the Department to receive such documents within nine (9) calendar days immediately following the week(s) being claimed, except if the ninth day is a holiday, the reporting period will be extended to include the next working day. Reports are deemed filed upon receipt by the Department. (3-29-12)

04. **Electronic Mail Reports.** Reports filed by electronic mail are considered timely when electronically mailed in a format provided by the Department to an email address designated by the Department to receive such documents within nine (9) calendar days immediately following the week(s) being claimed, except if the ninth day is a holiday, the reporting period will be extended to include the next working day. Reports are deemed filed upon receipt by the Department. (3-29-12)

05. **Telephone Reports.** Reports filed by telephone must be considered timely when the claimant contacts the Central Claims Office at a telephone number designated by the Department to provide such reports during regular business hours within nine (9) calendar days immediately following the week(s) being claimed, except if the ninth day is a holiday, the report period must be extended to include the next working day. (6-30-19)

06. **When Report Missing.** If a claimant establishes, by credible and corroborated evidence, that a missing report was properly filed as required by this rule, a replacement report must be considered timely. (3-29-12)

551. -- 574. (RESERVED)

575. **SEEKING WORK.**

Ref. Sec. 72-1366(4), (6), Idaho Code. (3-19-99)

01. **Attitude and Behavior.** A claimant’s attitude and behavior must be conducive to a positive reaction by employers to his job search. (3-19-99)
02. **Effort to Secure Employment.** A claimant will be expected to do what is normally done by unemployed persons that are seeking work. (3-19-99)

03. **Employer's Hiring Practices.** An employer’s reluctance to hire a claimant because of his appearance or physical condition is not a determining factor in ruling on the claimant’s eligibility. (3-19-99)

04. **Job Attachment Classifications.** For the purpose of administering the work search requirements of Section 72-1366(4) and (6), Idaho Code, a claimant will be classified according to his attachment to an employer or industry, as follows:

   a. Code R-Recall, U-Union or X-Both. A claimant who has a firm attachment to an employer, industry or union, or who is temporarily or seasonally unemployed, and expects to return to his former job or employer in a reasonable length of time not to exceed a maximum of sixteen (16) weeks. If during the sixteen (16) weeks the claimant returns to work temporarily for the job attached employer, the claimant's period of job attachment must be extended by one (1) week for each week of verified full-time employment as defined by Section 72-1312, Idaho Code. (3-25-16)

   b. Code B. A claimant who possesses marketable skills in an occupation, but has no immediate prospects for reemployment, and whose employment expectations (i.e., wages, hours, etc.) are realistic in relation to the normal labor market supply and demand in his area of availability. (3-19-99)

   c. Code C. A claimant who has no marketable skills or whose skills have become obsolete and who is unable to return to his former occupation, or who has a special need for employment-related services. (3-19-99)

   d. Code D. A claimant who is assigned to a training course under the provisions of Section 72-1366(8), Idaho Code. (3-19-99)

05. **Jobs Availability.** A claimant will not be required to make useless employer contacts if there are no jobs available in the area due to seasonal factors. (3-19-99)

06. **License or Permits.** A claimant must provide or be capable of obtaining a license or permit if required by law for performance of the work. (6-30-19)

07. **No Employment Prospects.** A claimant must apply for and accept a lower or beginning pay rate for employment if he has no prospects for a better paying job in the locality. (3-19-99)

08. **Seasonal Availability.** A claimant who is regularly employed on a seasonal basis must be available for other types of work in the off-season to be eligible for benefits. (3-19-99)

09. **Work-Seeking Requirement Categories.** A claimant must seek work in accordance with the following categories of work-seeking activity, as instructed by a Department representative or as notified by the Department via electronic claims messaging. A claimant must meet the requirements of the code to which the claimant is assigned. A claimant’s category of work-seeking activity will be determined and modified based on the claimant’s prevailing local labor market conditions and/or the average county unemployment rates. A claimant that has not registered for work when filing his claim and that is required to secure employment must register with the local office within two (2) weeks of filing an initial claim for benefits. Failure to comply with work-seeking requirements may result in a denial of benefits. (4-11-06)

   a. Code O claimant must maintain regular contact with their employer(s) or union. (3-29-17)

   b. Code 1 claimant will be required to engage in one (1) or more of the following activities to increase their prospects of securing employment:

      i. Make at least one (1) employer contact each week in the manner prescribed by the Central Claims Office; (3-15-02)

      ii. Attend a Job Search Workshop; (3-15-02)
ii. Expand work search efforts to surrounding areas or states; (3-15-02)

iv. Send resumes to firms/businesses that hire people with their skills; (3-15-02)

v. Enroll in and attend a specific training program to meet the requirements of the claimant’s employment plan; or (3-15-02)

vi. Engage in other work search activities such as resume preparation or labor market research, as prescribed by a Department representative. (4-11-06)

c. Code 2 claimant will be required to engage in one (1) or more of the following activities to increase his prospects of securing employment: (3-15-02)

i. Make at least two (2) employer contacts per week in the manner prescribed by the Central Claims Office; (3-28-18)

ii. Attend a Job Search Workshop; (3-15-02)

iii. Expand work search efforts to surrounding areas or states; (3-15-02)

iv. Send resumes to firms/businesses that hire people with their skills; (3-15-02)

v. Enroll in and attend a specific training program to meet the requirements of the claimant’s employment plan; or (3-15-02)

vi. Engage in other work search activities such as resume preparation or labor market research, as prescribed by a Department representative. (4-11-06)

d. Code 3 claimant will be required to engage in one (1) or more of the following activities to increase his prospects of securing employment: (3-15-02)

i. Make at least three (3) employer contacts per week in the manner prescribed by the Central Claims Office; (3-28-18)

ii. Attend a Job Search Workshop; (3-15-02)

iii. Expand work search efforts to surrounding areas or states; (3-15-02)

iv. Send resumes to firms/businesses that hire people with their skills; (3-15-02)

v. Enroll in and attend a specific training program to meet the requirements of the claimant’s employment plan; or (3-15-02)

vi. Engage in other work search activities such as resume preparation or labor market research, as prescribed by a Department representative. (4-11-06)

576. -- 599. (RESERVED)

600. SELF-EMPLOYMENT.
A claimant must not be eligible when his self-employment is of such size and nature that the operation of it is his principal duty and working for an employer is merely incidental. Ref. Sec. 72-1366(13), Idaho Code. (3-19-99)

01. Occupational Conflicts. Agricultural activities, commercial enterprises, family enterprises, and commission sales work are examples of self-employment which may render a claimant ineligible unless he can show he is seeking employment and is available for suitable work. (3-19-99)
02. **Potential Employability.** A claimant would be eligible if his self-employment in no way interferes with his potential employability and work schedule. (3-19-99)

601. -- 649. (RESERVED)

650. **SIGNATURES OF ILLITERATES AND WITNESSES.**
If a claimant is unable to write his name, he must instead use the mark (X). The mark must be witnessed by a Department representative or an individual who must enter, immediately after the mark (X), the words “His Mark.” Next, the name of the claimant must be printed, followed by the signature of the Department representative or the individual who witnessed the mark. Ref. Sec. 72-1366 (1), Idaho Code. (3-19-99)

651. -- 674. (RESERVED)

675. **TOTAL TEMPORARY DISABILITY ALTERNATE BASE PERIOD (TTD).**
The alternate base period provision must apply only if the claimant cannot establish monetary eligibility by using the regular base period consisting of the first four (4) of the last five (5) completed calendar quarters immediately preceding the beginning of a benefit year. Ref. Sec. 72-1306(2), Idaho Code. (3-19-99)

676. -- 699. (RESERVED)

700. **PARTIAL PAYMENTS OF AMOUNTS OWED THE DEPARTMENT.**
Upon the Department's receipt of a partial payment of an overpayment or overpayments of unemployment insurance benefits and accrued interest and penalties thereon, the Department must, unless other arrangements have been made with the debtor and approved by the Department, apply the partial payment to the amounts owed as follows: (6-30-19)

01. **Interest.** The partial payment must be applied first to any accrued interest of the amounts due, starting with the oldest accrued interest; (6-30-19)

02. **Penalties.** After any accrued interest has been paid in full, the partial payment must be applied next to any assessed penalties, starting with the oldest assessed penalty; (6-30-19)

03. **Fraud Overpayments.** After all accrued interest and assessed penalties have been paid in full, the partial payment must be applied next to any fraud overpayments due, starting with the oldest fraud overpayment; and (6-30-19)

04. **Nonfraud Overpayments.** After all fraud overpayments have been paid in full, the partial payment must be applied next to any nonfraud overpayments, starting with the oldest nonfraud overpayment. Ref. Sec. 72-1369, Idaho Code. (6-30-19)

701. – 724. (RESERVED)

725. **RECOVERIES.**
Unless the overpayment resulted from a determination that the claimant willfully made a false statement or willfully failed to report a material fact, overpayments must be deducted from any future benefits payable. Ref. Secs. 72-1369 and 72-1366, Idaho Code. (6-30-19)

726. – 749. (RESERVED)

750. **WAIVER OF REPAYMENT.**
An interested party must submit a written request for a waiver of repayment within fourteen (14) days of the date of mailing of the Determination of Overpayment. Ref. Sec. 72-1369 (6-30-19)

751. – 999. (RESERVED)
000. LEGAL AUTHORITY.
These rules are promulgated under the legal authority of Section 72-1333, Idaho Code. (4-11-06)

001. TITLE AND SCOPE.
01. Title. These rules are titled as IDAPA 09.01.35, “Unemployment Insurance Tax Administration Rules.” (4-11-06)
02. Scope. These rules govern Department procedures and the rights and duties of employers under the Unemployment Insurance Program. (3-19-99)

002. WRITTEN INTERPRETATIONS.
Written interpretations of these rules, if any, are available from the main office of the Department described in IDAPA 09.01.01.006. Brochures explaining various provisions of Idaho’s Employment Security Law are also available at the state address. (4-11-06)

003. ADMINISTRATIVE APPEALS.
Administrative appeals from determinations under this chapter may be taken as provided in IDAPA 09.01.01, “Rules of Administrative Procedure of the Department of Labor,” and Sections 72-1361 and 72-1368, Idaho Code. (6-30-19)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into this rule. (5-8-09)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS – STREET ADDRESS – WEB ADDRESS.
The mailing and physical address of the main office of the Department is 317 W. Main St., Boise, Idaho 83735. The office hours are 8:00 a.m. to 5:00 p.m., excluding Saturdays, Sundays, and legal holidays. The telephone number of the main office is (208) 332-3570, and its facsimile number is (208) 334-6455. The Department’s website, which contains information about the programs that it administers, including unemployment insurance benefits, can be found at www.labor.idaho.gov. (6-30-19)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein are subject to, and in compliance with, the Public Records Act, Title 74, Chapter 1, Idaho Code. (5-8-09)

007. -- 010. (RESERVED)

011. GENERAL PROVISIONS.
01. Quarterly Reporting. Subject employers shall report all wages paid for services in covered employment each calendar quarter. In the event a subject employer does not pay wages during a calendar quarter, the employer shall file a quarterly report indicating that no wages were paid. Ref. Section 72-1337, Idaho Code. (3-22-07)

02. Contribution Due Date. If the normal due date falls on a weekend or holiday the next workday is the due date for contributions. Ref. Section 72-1349, Idaho Code. (6-30-19)

03. Penalties and Interest on Bankruptcy. Penalty and/or interest shall not be assessed on amounts covered in the Department’s Proof of Claim with the Bankruptcy Court for the period after the filing date of the Bankruptcy Petition and ending with the conclusion of bankruptcy proceedings and distribution of assets. Post petition penalty and interest shall be compromised, provided the amount due is paid in full by a date established after the termination of the bankruptcy proceedings. Ref. Section 72-1356, Idaho Code. (3-19-99)
04. **Lien Interest.** Lien interest on a delinquent account shall be assessed against the remaining unpaid balance computed from the day following the recording of a tax lien. Ref. Section 72-1360, Idaho Code. (3-19-99)

05. **Penalty and Interest During Controversy.** Penalty and/or interest shall be compromised for periods when a valid controversy exists if amounts determined to be due are paid in full by a date established at the conclusion of the issue. Ref. Sections 72-1354 and 72-1360, Idaho Code. (3-19-99)

06. **Determinations and Appeals.** The rules governing the form, filing, and other procedures relating to determinations under this chapter, and any appeal from those determinations, are provided in IDAPA 09.01.01, “Rules of Administrative Procedure of the Department of Labor.” (6-30-19)

07. **When Reports Replace Determinations.** In cases where a determination of amounts due is made by the Department pursuant to Section 72-1358, Idaho Code, the reports shall replace the determination and will be used to establish the employer’s liability if:

   a. The employer files reports for the periods covered by the determination before the determination becomes final; and (3-30-01)

   b. The Department determines that the reports are accurate and complete. If the Department determines the reports are not accurate or complete, the reports shall be treated as an appeal of the determination. (3-30-01)

08. **Determination of Payment Date.** Each amount shall be deemed to have been paid on the date that the Department receives payment thereof in cash or by check or other order for the payment of money honored by the drawer on presentment; provided, that if sent through the mail, it shall be deemed to have been paid as of the date mailed as determined by the postmark on the envelope containing same, or the date of the check in lieu of a postmark. Provided further, that in the case of payments received by means of garnishment, execution, or levy, the amount received shall be deemed to have been paid as of the date that the order of garnishment, execution, or levy is served. Ref. Section 72-1349, Idaho Code. (3-19-99)

09. **Release of Lien upon Payment in Full.** An amount secured by a lien shall be deemed to be satisfied when payment in full is received by the Department in the form of cash, money order, or other certified funds, or proof presented that a check or other negotiable instrument has been honored by its drawer upon presentment. Ref. Section 45-1908, Idaho Code. (3-19-99)

10. **Contribution Reports.** Each contribution shall be accompanied by an employer’s contribution report. All contribution reports shall be filed electronically with the department unless the employer has petitioned the department in writing for a waiver and the department has granted a waiver allowing the filing of a non-electronic contribution report. All contribution reports shall be in a form or medium prescribed and furnished or approved for such purpose by the department, giving such information as may be required, including number of individuals employed and wages paid or payable to each, which must be signed, furnished, or acknowledged by the covered employer or, on their behalf by someone having personal knowledge of the facts therein stated, and who has been authorized by the covered employer to submit the information. Ref. Section 72-1349, Idaho Code. (3-20-14)

   a. Common paymaster arrangements as referenced by Internal Revenue Code Section 3306 are prohibited for Idaho unemployment insurance purposes. Each covered employer shall complete and submit an Idaho business registration form and the Department will assign to the covered employer a unique unemployment insurance account number. The covered employer must file quarterly reports under its assigned unemployment insurance account number. The workers of one (1) covered employer may not be reported using the assigned unemployment insurance account number of a different covered employer or related entity. Ref. Sections 72-1325 and 72-1315, Idaho Code. (3-22-07)

012. -- 039. (RESERVED)

040. **COMPROMISE OF PENALTY AND CIVIL PENALTY.**  
Pursuant to Section 72-1354, Idaho Code, the Director or his authorized representative may, for good cause shown,
compromise the amount of penalties owed on an employer account. An employer shall submit a request in writing for compromise of penalties, setting forth the reason(s) for the delinquency, and attaching any available evidence supporting the request. (4-11-06)

**01. Good Cause.** An employer has established good cause if the employer can show that one (1) of the following criteria has been met: (6-30-19)

**a.** The reason for the delinquency was beyond the reasonable control of the employer. Examples of circumstances that are beyond the reasonable control of the employer include, but are not limited to, the following: (3-19-99)

**i.** Departmental error, including but not limited to providing incorrect information to the employer or not furnishing proper forms in sufficient time to permit timely payment of contributions; (3-19-99)

**ii.** Death or serious illness or injury of the employer or the employer’s accountant or members of their immediate families; (3-19-99)

**iii.** Destruction by fire or other casualty of the employer’s place of business or business records; or (3-19-99)

**iv.** Postal service delays. (3-19-99)

**b.** The delinquency was due to circumstances for which the imposition of penalties would be inequitable. (3-19-99)

**c.** Good cause is also established in the case of an employer who has never received a status determination, who has never paid any contributions to the director, who voluntarily approaches the Department to inquire as to whether workers are engaged in covered employment, and the failure to pay contributions was due to the employer’s good faith belief that the employer was not a covered employer pursuant to the provisions of Idaho Employment Security Law. Ref. Section 72-1354, Idaho Code. (7-1-05)

**041. -- 050. (RESERVED)**

**051. Rounding Wages Reported On Contribution Report to Next Lower Dollar Amount.**

The total wages and taxable wages shown on the contribution report which are to be used in computing contributions due shall be reduced to the next lower dollar amount. Ref. Section 72-1349, Idaho Code. (3-19-99)

**052. -- 055. (RESERVED)**

**056. Application of Payments on Delinquent Accounts.**

Unless otherwise specified and approved by the Department, apply payment as follows: (6-30-19)

**01. First Application.** First, credit such payment in satisfaction of interest due for the calendar quarter or period most delinquent in point of time; (3-19-99)

**02. Second Application.** Next, credit the remainder of such payment in satisfaction of penalty due for such calendar quarter or period most delinquent in point of time; (3-19-99)

**03. Third Application.** Next, credit the remainder of such payment in satisfaction of contributions due for the calendar quarter or period most delinquent in point of time; (3-19-99)

**04. Subsequent Applications.** Such applications shall be applied in a like manner for each remaining delinquent quarter. Any remaining credit shall be applied to interest on civil penalties then to civil penalty due until the amount of payment is exhausted. Ref. Section 72-1354, Idaho Code. (4-11-06)

**057. -- 060. (RESERVED)**
061. DEFINITIONS.
The definitions listed in IDAPA 09.01.35, “Unemployment Insurance Tax Administration Rules,” Section 011, and the following are applicable to the UI Compliance Bureau. (3-22-07)

01. Tolerance Amount. A tolerance of four dollars and ninety-nine cents ($4.99) is established in connection with collection of amounts due; and under normal circumstances, no delinquency or credit will be issued or carried on the books of accounts for this amount or less. Ref. Section 72-1349, Idaho Code. (3-19-99)

02. Wages. The term “wages” includes all remuneration from whatever source, paid or given in exchange for services performed or to be performed, including the cash value of remuneration in any medium other than cash. “Wages” in covered employment, and subject to unemployment insurance reporting, include, but are not limited to:

   a. Commissions, bonuses, draws, distributions, dividends and any other forms or types of payments made by corporations or other similar entities if paid in exchange for services; (4-5-00)
   b. Bonuses, prizes, and gifts given to an employee in recognition of services, sales, or production; (3-19-99)
   c. Commissions for past services in covered employment; (3-19-99)
   d. Remuneration paid to corporate officers which is paid in exchange for services performed or to be performed for or on behalf of the corporation; (4-5-00)
   e. Salary advances against commissions; (3-19-99)
   f. All forms of profit sharing for services rendered unless specifically exempt under Section 72-1328, Idaho Code; (3-19-99)
   g. Excess travel or employer business allowances over actual expense, or over the federal allowance per diem rate for the area of travel, unless returned to the employer; (3-19-99)
   h. Vacation or “idle-time” pay, no matter when paid; (3-19-99)
   i. Personal expense reimbursement, not gifts, i.e., clothing, family expenses, rent. (3-19-99)
   j. The director or his authorized representative shall determine the fair market value of any other remuneration, regardless of its classification, form, or label, which is paid to a worker in exchange for services. In making such determination, consideration will be given to the prevailing wage for similar services. Ref. Section 72-1328, Idaho Code. (3-19-99)

03. Exclusions From Wages. The term “wages” described in Section 72-1328, Idaho Code, does not include the following:

   a. Prizes or gifts for special occasions which are expressions of good will; (3-19-99)
   b. Bonuses paid for signing a contract; (3-19-99)
   c. Fees paid to participate periodically in meetings of boards of directors unless exceedingly high; i.e., amounts comparable to other employers in the same industry, of relatively the same size; (3-19-99)
   d. Drawings or advances by partners of a partnership, or by members of a limited liability company treated for federal tax purposes as a partnership or sole proprietorship; (4-5-00)
   e. Rental charge for personal equipment provided by the employee on the job: if (3-19-99)
i. There is a rental agreement; and (3-19-99)

ii. The worker has received a reasonable wage for services performed; and (3-19-99)

iii. The fees are held separately on the employer’s records. (3-19-99)

f. Stock or membership interests issued for purposes other than services performed or to be performed; (3-19-99)

g. Reimbursement for actual employee expense, or business allowance arrangements with employees that require them:

i. To have paid or incurred reasonable job-related expenses while performing services as employees; (3-19-99)

ii. To account adequately to the employer for these expenses; and (3-19-99)

iii. To return any excess reimbursement or allowance. (3-19-99)

h. Payments for employee travel expenses, provided:

i. Payments are job related expenses while performing services; and (3-19-99)

ii. Payments do not exceed actual expenses or the federal allowance per diem rate for the area of travel; and (3-19-99)

iii. Records for days of travel pertaining to per diem payments are verifiable. (3-19-99)

i. Employee fringe benefits as set forth in Section 132 of the Internal Revenue Code, which are excluded from an employee’s gross income and which are not subject to federal unemployment taxes. (3-19-99)

j. Noncash payment to farmworkers. Noncash payments for farm work will be excluded from wages if they are “de minimis” in relation to the amount of cash wages paid to the farmworkers, or are not intended to be treated as the cash equivalent of wages, or as the cash payment of wages. Ref. Section 72-1328, Idaho Code. (3-15-02)

k. Payments of any kind by a partnership to its partner or by a sole proprietorship to its owner. (3-29-17)

04. Treatment of Limited Liability Companies. For purposes of state unemployment tax coverage, a limited liability company will have the same status as it may have elected for federal tax purposes, or as that status may be determined or required by the federal government, subject to the provisions of Subsections 061.02 and 061.03. Any member of a limited liability company that has elected to be treated as a corporation for federal tax purposes shall be treated as a corporate officer for state Employment Security Law purposes. (4-4-13)

05. Domestic Employment. Domestic employment is defined as work performed in the operation or maintenance of a private home, local college club, or local chapter of a college fraternity or sorority, as distinguished from services as an employee in pursuit of an employer’s trade, occupation, profession, enterprise, or vocation. In general, domestic employment “in the operation or maintenance of a private home, local college club, or local chapter of a college fraternity or sorority” includes, but is not limited to, services rendered by:

a. Cooks; (3-15-02)

b. Waiters; (3-15-02)

c. Butlers; (3-15-02)
d. Maids; (3-15-02)
e. Janitors; (3-15-02)
f. Handymen; (3-15-02)
g. Gardeners; (3-15-02)
h. Housekeepers; (3-15-02)
i. Housemothers; and (3-15-02)

06. Casual Labor. Casual labor is labor that meets the requirements of Section 72-1316A(19), Idaho Code. The term, “services not in the course of the employer's trade or business,” refers to services that do not promote or advance the trade or business of the employer. (6-30-19)

07. Willfully. When applied to the intent with which an act is done or omitted, willfully implies simply a purpose or willingness to commit the act or make the omission referred to. It does not require any intent to violate law, in the sense of having an evil or corrupt motive or intent. It is more nearly synonymous with “intentionally,” “designedly,” “without lawful excuse,” and therefore not accidental. Ref. Section 72-1372 and 72-1351A, Idaho Code. (3-22-07)

062. SUBSTANCE VS. FORM. In recognizing covered employers, covered employment and in classifying wages, the Department shall examine both the substance and the form of the arrangement, contract, transaction or event, but more consideration shall be given to the substance of the arrangement, contract, transaction or event than to the form. If it is determined that true economic substance is lacking or the operations, accounting practices and records do not reflect the purported form or legal status, the Department shall, regardless of the form, determine proper coverage or classification. (3-15-02)

063. -- 080. (RESERVED)

081. EMPLOYER RECORDS. Each person hiring one (1) or more individuals, whether or not such employment is sufficient to create the status of a covered employer, shall maintain records for five (5) years to show the information hereinafter indicated. Ref. Section 72-1337, Idaho Code. (6-30-19)

01. Required Information. Such records shall show with respect to each employee unless the Department has ruled that the services do not constitute covered employment:

a. Full name and home address of worker; (3-19-99)
b. Social Security account number; (3-19-99)
c. The place of work within this State; (4-11-06)
d. Date on which employee was hired, rehired, or returned to work after temporary or partial layoff; (3-19-99)
e. Date employment was terminated; whether the termination occurred by voluntary action of the individual and the reason given, or by discharge or death, and the reason for discharge; (3-19-99)
f. Wages paid for employment in each pay period and total wages for all pay periods ending in each quarter of the year, showing separately:

i. Money wages; (3-19-99)
ii. The cash value of other remuneration; and  
(3-19-99)

iii. The amount of all bonuses or commissions.  
(3-19-99)

02. Travel or Employee Business Expenses. Amounts paid to employees as allowances or reimbursement for travel and employee business expenses and the amounts of such expenditures actually incurred and accounted for by them.  
(3-19-99)

03. Records to Be Made Available. The records to be made available to the director or his authorized representative, in accordance with the provisions of Section 72-1337, Idaho Code, shall include all of the business records, such as journals, ledgers, time books, minute books, or any other records or information which would tend to establish the existence of and/or amounts paid for services performed, whether or not in covered employment, and for information necessary to assist in or enable collection efforts or any other investigations conducted by the Department.  
(3-19-99)

082. -- 095. (RESERVED)

096. EMPLOYER STATUS REPORT.

01. Status Report. Each employer shall report on such form or any online system as may be prescribed and furnished, such information as may be necessary to make an initial or subsequent determination of status under the Idaho Code. Said reports shall be signed by the employer, or on behalf of the employer by a duly authorized representative for such purpose. Ref. Section 72-1337, Idaho Code.  
(4-11-06)

02. Exceptions. The provisions of this Rule shall not apply to any employer for whom the services performed do not, by virtue of the provisions of Section 72-1316, Idaho Code, constitute covered employment, except that the director reserves the right, in his discretion, to require any such employer at any time to make the reports mentioned in Section 096 of this rule. Ref. Section 72-1337, Idaho Code.  
(3-19-99)

097. -- 105. (RESERVED)

106. CLAIMS OF EXEMPTION.  
Any employer claiming that services performed for the employer or remuneration paid by the employer does not constitute covered employment or covered wages, as defined in Section 72-1316 and 72-1328, Idaho Code, shall make a report to the Department of Labor of all pertinent facts upon which said claim is based, which report shall be signed by the person making the claim, if he is the employer, or on behalf of the employer by an authorized representative. Ref. Section 72-1337, Idaho Code.  
(4-11-06)

107. REMUNERATION PAID CONSTITUTES BOTH TAXABLE WAGES AND EXCLUDED AMOUNTS.  
When remuneration paid includes payment for other than wages for services performed in covered employment, the employer’s records must account for wages and other remuneration separately. When this distribution is not shown on the records, the employee’s entire remuneration will be deemed to be wages. Ref. Section 72-1337, Idaho Code.  
(3-19-99)

108. ELECTION TO EXEMPT CORPORATE OFFICERS.  
A corporation may elect to exempt one (1) or more corporate officers from coverage by registering with the Department each qualifying corporate officer it elects to exempt pursuant to Section 72-1352A, Idaho Code. Registrations in the format prescribed by the Department made on or before December 15th shall become effective on the first day of the next calendar year and remain effective for at least two (2) consecutive calendar years. Exemptions are not retroactive and no refund or credit shall be given for contributions paid before the effective date of the exemption. Exemptions continue to remain in effect after two (2) consecutive calendar years unless the exemption is terminated according to Subsection 108.04 of this rule or coverage is reinstated according to Subsection 108.05 of this rule.  
(3-29-12)

01. Public Company Election. A public company, as defined in Section 72-1352A, Idaho Code, may
elect to exempt any bona-fide corporate officer who:

a. Is voluntarily elected or voluntarily appointed in accordance with the articles of incorporation or bylaws of the corporation;  

b. Is a shareholder of the corporation;  

c. Exercises control in the daily management of the corporation; and  

d. Does not perform manual labor as a primary work responsibility.

02. Election for Corporations That Are Not Public Companies. A corporation that is not a public company as defined in Section 72-1352A, Idaho Code, may exempt from coverage any bona-fide corporate officer who:

a. Is a shareholder of the corporation;  

b. Voluntarily agrees to be exempted from coverage; and  

c. Exercises substantial control in the daily management of the corporation.

03. Election to Exempt Not Applicable. The election to exempt does not apply to corporate officers covered by Sections 72-1316A, 72-1322D and 72-1349C, Idaho Code.

04. Termination of Exemption. A corporate officer’s exemption terminates upon the corporate officer’s failure to satisfy the election criteria of Section 72-1352A, Idaho Code. It is the responsibility of the corporation to notify the Department in writing in a format required by the Department when an exempt corporate officer no longer meets the election criteria. A corporation is responsible for any taxes, penalties, and interest due after the date the exemption is terminated or should have been terminated.

05. Reinstatement of Coverage. A corporation may elect to reinstate coverage for one (1) or more corporate officers previously exempted. Reinstatement requires written notice from the corporation to the Department in a format required by the Department. Reinstatement requests received by the Department on or before December 15th shall become effective the first day of the calendar year following the end of the exemption’s initial two (2) year effective date. Coverage shall not be reinstated retroactively.

06. Definitions. For purposes of this chapter:

a. “Bona-fide corporate officer” is defined as any individual empowered in good faith by stockholders or directors, in accordance with the corporation’s articles of incorporation or bylaws, to discharge the duties of a corporate officer.

b. “Exercise substantial control in the daily management of the corporation” is defined as when an individual makes managerial decisions over a business function or functions that have some effect on the entire corporation. This includes the authority to hire and fire, to direct other's activities in the corporation, or the responsibility to account for and pay over taxes or debts incurred by the corporation.

07. Services in Employment. Unless specifically exempted, services performed by corporate officers are considered services in employment and are covered for purposes of unemployment insurance.

109. -- 110. (RESERVED)

111. SERVICES PERFORMED PART IN COVERED EMPLOYMENT AND PART IN EXCLUDED EMPLOYMENT.
When wages paid cover services performed both in covered employment and excluded employment, the employer’s records must show the hours and wages for covered employment and also hours and wages for excluded employment. When this distribution is not shown on the records, the employee’s entire wage will be deemed to have been earned in

112. DETERMINING STATUS OF WORKER.

01. Determining if Worker Is an Employee. In making a determination as to whether a worker is performing services in covered employment, it shall be determined whether the worker is an employee. To determine whether a worker is an employee, the following factors may be considered:

a. The way in which the business entity represented its relationship with the worker prior to the investigation or litigation, including representations to the Internal Revenue Service; (3-19-99)

b. Statements made to the Department; (3-19-99)

c. Method of payment to the worker, in particular whether federal, state, and FICA taxes are withheld from paychecks; and (3-19-99)

d. Whether life, health, or other benefits are provided to the worker at the business entity’s expense. (3-19-99)

02. Determining if Worker Is an Independent Contractor. If it cannot be determined that a worker is an employee pursuant to Subsection 112.01 above, then a determination shall be made whether the worker is an “independent contractor” pursuant to the terms of Section 72-1316(4), Idaho Code. For the purposes of that section and these rules, an independent contractor is a worker who meets the requirements of both Sections 72-1316(4)(a) and (b), Idaho Code. (3-19-99)

03. Proving Worker Is Free from Control or Direction in His Work. To meet the requirement of Section 72-1316(4)(a), Idaho Code, the alleged employer must prove that a worker has been and will continue to be free from control or direction in the performance of his work, both under his contract of service and in fact. The following factors may be considered in this determination:

a. Whether the alleged employer has control over: (3-19-99)

i. The details of the work; (3-19-99)

ii. The manner, method or mode of doing the work; and (3-19-99)

iii. The means by which the work is to be accomplished, but without reference to having control over the results of the work. (3-19-99)

b. The freedom from direction and control must exist in theory (under a contract of service) and in fact; and (4-11-06)

c. The employer must demonstrate that it lacked a right to control the worker. (4-11-06)

04. Proving Worker Is Engaged in Independently Established Business. To meet the requirement of Section 72-1316(4)(b), Idaho Code, it must be proven that a worker is engaged in an independently established trade, occupation, profession or business. The following factors are significant and shall be considered in making this determination, although no single factor is regarded as controlling:

a. The level of skill required to perform the work; (3-20-14)

i. A worker who performs routine tasks requiring little or no training is indicative of the worker’s status as an employee. (3-20-14)

ii. A worker who performs work requiring skills marketable as a trade, occupation, profession or business, such as an electrician, attorney, physician, or CPA, is indicative of the worker’s status as an independent contractor. (3-20-14)
iii. A worker who performs work requiring special licensing or compliance with regulatory requirements is indicative of the worker’s status as an independent contractor. (3-20-14)

iv. A worker who receives all or substantially all of the worker’s job training from the alleged employer is indicative of the worker’s status as an employee. (3-20-14)

b. The extent to which the worker’s services are an integral part of the alleged employer’s business;

i. A worker who performs the primary type of work that the alleged employer is in business to provide to its customers or clients is indicative of the worker’s status as an employee. For example, an automotive repair business hires an additional mechanic to help in its service repair shop. Since the work provided by the worker is the primary type of work the automotive repair business provides to its customers, the work is indicative of the worker’s status as an employee. (3-20-14)

ii. A worker who performs a specific job that is secondary to an integral part of the employer’s business is indicative of the worker’s status as an independent contractor. For example, if a manufacturing business requiring routine electrical work within its manufacturing facility hires an independent electrical company to provide that service, the electrical work performed is indicative of the worker’s status as an independent contractor. (3-20-14)

iii. A worker who supervises the alleged employer’s employees is indicative of the worker’s status as an employee. (3-20-14)

iv. If the success of a business depends to an appreciable degree upon the performance of certain services, the worker performing those services is indicative of that worker’s status as an employee. (3-20-14)

v. If a worker is not required to work solely for the alleged employer and there is a separate contractual relationship for each job that ends upon the completion of that job, the work is indicative of the worker’s status as an independent contractor. (3-20-14)

c. The permanency of the relationship;

i. The longer a worker works solely for a single alleged employer, the more indicative it is of the worker’s status as an employee. (3-20-14)

ii. A worker who makes the worker’s services available to the general public for hire on a regular and consistent basis is indicative of the worker’s status as an independent contractor. (3-20-14)

iii. A worker whose hours worked are regularly scheduled, rather than sporadic or occasional, is indicative of the worker’s status as an employee. (3-20-14)

iv. Work with a specific ending date that ends the working relationship between the worker and the alleged employer is indicative of the worker’s status as an independent contractor. (3-20-14)

v. Work that is open ended allowing the worker to continue working for the same alleged employer as long as performance standards are met, is indicative of the worker’s status as an employee. (3-20-14)

d. A worker’s investment in facilities and equipment;

i. A worker who is reimbursed for work-related purchases, materials or supplies, or is furnished work-related materials or supplies by the alleged employer is indicative of the worker’s status as an employee. (3-20-14)

ii. A worker who uses the tools and equipment of the alleged employer is indicative of the worker’s status as an employee. (3-20-14)
iii. A worker’s significant investment in tools and equipment compared to the cost of the tools and equipment provided by the alleged employer is indicative of the worker’s status as an independent contractor. (3-20-14)

iv. A worker who is financially responsible to the alleged employer for damage to equipment or tools is indicative of the worker’s status as an independent contractor. (3-20-14)

v. A worker’s investment in physical facilities used by the worker in performing services is indicative of the worker’s status as an independent contractor. (3-20-14)

vi. A worker’s lack of investment in physical facilities indicating a dependence on the alleged employer for whom the worker’s services are performed is indicative of the worker’s status as an employee. (3-20-14)

e. Whether a worker is customarily engaged in an outside trade, occupation, profession, or business providing the same type of services the worker provides for the alleged employer engaging his services; (3-20-14)

i. A worker who provides one (1) type of service for an alleged employer, while providing the same type of service to others for hire, is indicative of the worker’s status as an independent contractor. (3-20-14)

ii. A worker who provides one (1) type of service for an alleged employer, while providing a different type of service to others for hire, is indicative of the worker’s status as an employee of the alleged employer. (3-20-14)

iii. A worker who advertises independently via yellow pages, business cards, web pages, or other types of media is indicative of the worker’s status as an independent contractor. (3-20-14)

f. A worker’s opportunities for profit and loss; (3-20-14)

i. A worker required to carry business related expenses such as insurance, bonding, or workers compensation coverage is indicative of the worker’s status as an independent contractor. (3-20-14)

ii. A worker’s ability to earn a profit by performing work more efficiently or suffer a loss because of the work performed is indicative of the worker’s status as an independent contractor. (3-20-14)

iii. A worker who is subject to a risk of economic loss due to significant investments or a bona fide liability for expenses is indicative of the worker’s status as an independent contractor. (3-20-14)

g. Other factors when viewed fairly in light of all the circumstances that may or may not indicate that the worker was engaged in an independently established trade occupation, profession, or business. These factors may include control of the premises, right to determine hours, or who sets the rate of pay. (3-20-14)

05. Meeting Criteria for Covered Employment. A worker who meets one (1), but not both, of the tests in Subsections 112.03 and 112.04 above shall be found to perform services in covered employment. (3-19-99)

06. Evidence of Contractual Liability for Termination. For purposes of making a determination under Section 72-1316(4), Idaho Code, and this regulation, the party alleging that summary termination by either party would result in contractual liability must present some evidence upon which to base such allegation. Ref. Section 72-1316(4), Idaho Code. (3-19-99)

113. -- 130. (RESERVED)

131. FARM COMMODITY OWNERSHIP.
In determining if the farm operator-processor produced more than fifty percent (50%) of the commodities being processed, the following shall apply:

01. Quantity. It will be determined on a quantity basis where the farm operator processes only one (1)
commodity. (3-19-99)

02. **Wages.** It will be determined on the basis of the relationship between wages paid for processing commodities raised by the farm operator-processor and total wages paid for processing where the farm operator processes several commodities. Wages paid for processing each commodity will be determined. The proportionate share of such wages paid for processing that portion of the commodity raised by the farm operator-processor will be ascertained on the basis of the percentage of such commodity which was produced by the farm operator. This will be done for each commodity processed so as to ascertain total wages paid for processing commodities produced by the farm operator-processor. If such total is more than fifty percent (50%) of the total wages paid for processing all commodities, the activity will be exempt but if it is fifty percent (50%) or less, it will not be exempt. Ref. Section 72-1304, Idaho Code. (3-19-99)

132. **STATUS.**

01. **Status Information Required.** To determine the taxable status of an employer, detailed information regarding the business activities of any person engaged in business in Idaho shall be submitted as required, including articles of incorporation, articles of organization, minutes of boards of directors, financial reports, partnership agreements, number of employees, wages paid, employment contracts, income tax records, and any other records or other information which may tend to establish such person’s status. Ref. Section 72-1337, Idaho Code. (3-19-99)

02. **Notification to Liable Employers.** An employer shall be notified in writing of any determination as to its liability for contributions, or its status as a covered employer if a formal determination was made after the employer questioned its status. The determination shall be in the form required by IDAPA 09.01.01.27.01, and shall become final if no timely appeal is taken to an appeals examiner pursuant to the Rules of Administrative Procedure of the Department of Labor. (6-30-19)

03. **Employer Quarterly Report Forms.** Employers who are liable to pay tax contributions, or who have elected a cost reimbursement option in lieu of tax contributions, shall submit quarterly report forms in any form or medium designated by the director or his authorized representative. Ref. Section 72-1349, Idaho Code. (4-11-06)

04. **Update Requirements.** Covered employers shall furnish the Department with pertinent status data when new or additional information is available. Ref. Section 72-1337, Idaho Code. (3-19-99)

133. **(RESERVED)**

134. **PROFESSIONAL EMPLOYER ORGANIZATIONS.**

A professional employer organization shall fully comply with the requirements of the Professional Employer Recognition Act, Chapter 24, Title 44, Idaho Code in order to be eligible for any transfers of experience rating as allowed by Section 72-1349B, Idaho Code.

01. **Methods of Reporting.** To report the wages and employees covered by the professional employer arrangement between a professional employer and client, professional employers and their clients shall make reports to the Department in one (1) of the following ways, subject to the conditions in Subsections 134.02 through 134.06 of this rule:

a. Report the workers included in the professional employer arrangement under the employer account number of the professional employer and transfer the rate of the client to the professional employer; or (3-15-02)

b. Report the workers included in the professional employer arrangement under the employer account number of the client without an experience rate transfer. Ref. Section 72-1349B, Idaho Code. (3-15-02)

02. **Joint Transfer of Experience Rate.** In order to effect a transfer of a client’s experience rate into the experience rate of a professional employer organization, both the client and the professional employer organization shall jointly apply for the transfer of the experience rate within the same timeframes as required of employers by Section 72-1351(5), Idaho Code, from the date of the contract entered into between the professional employer organization and the client required by Section 44-2405, Idaho Code. Failure to submit a timely joint
request for transfer of experience rate shall result in the professional employer organization reporting wages for the client under the employer account number of the client. Ref. Section 72-1351(5), Idaho Code. (3-22-07)

03. **Partial Transfers of Experience Rate Prohibited.** In the event that a client and a professional employer organization jointly apply to transfer the experience rate of the client into that of the professional employer, the client’s entire experience rate and factors of experience rate shall be transferred into that of the professional employer, and no partial transfers of experience factors or the experience rate shall be allowed. Ref. Section 72-1349B, Idaho Code. (3-15-02)

04. **Partial Reporting of Workers.** If some of the client’s workers are included in the professional employer arrangement and some are not included, and the professional employer organization and the client elect to report the workers included in the professional employer arrangement under the employer account number of the client, then only one (1) quarterly report shall be remitted to the Department, which shall list or include all the client’s workers whether or not included in the professional employer arrangement. Ref. Section 72-1349B, Idaho Code. (3-15-02)

05. **Combined Wages or Services for Purposes of Coverage.** If a client employer has employees or employment, or both, that does not independently meet the coverage or threshold requirements necessary to constitute covered employment, such employees, services or employment shall nonetheless be deemed to meet the coverage requirements of the Employment Security Law if, in combination with other employees, employment or services of such other employees of the professional employer organization or any of its clients, such wages, services or employees do jointly meet coverage requirements. (3-15-02)

135. -- 165. (RESERVED)

166. **FIELD OPERATIONS CONTROL.**
When circumstances dictate, and as a result of nonpayment of liabilities, the employer shall be notified by mail to the last known address of lien proceedings against the employer's interests, with an explanation of the amounts due, and the accrual of interest at the proper rate until the lien is satisfied. Ref. Section 72-1360, Idaho Code. (4-11-06)

01. **Limitation for Commencing Administrative Procedures.** The director may commence an administrative proceeding for purposes of establishing a tax liability by issuing a determination not less than five (5) years from the due date of a quarterly report or the date a quarterly report is filed, whichever is later, subject to tolling pursuant to Section 72-1349, Idaho Code. (6-30-19)

a. Notification of Audits. Employers shall be notified as soon as practicable of an impending payroll records audit for tax liability purposes. This shall allow time in which to agree as to a convenient time and place for audit. Ref. Section 72-1337, Idaho Code. (3-19-99)

b. Frequency of Audits. The frequency of audits or inspections of an employer’s records to ensure compliance with the law and Department rules shall be based on the following criteria:

i. On the basis of random selection and other selection criteria in accordance with federal requirements; (3-30-01)

ii. As a result of information received from any source, provided that the information received is of such a nature that it would be reasonable to conduct an audit or inspection of records as a result of that information; or (3-30-01)

iii. As a result of a previous audit, if the business practices or records of the employer are of such a nature that it would be reasonable for a Department employee to re-inspect or re-audit the records to ensure future compliance with the law. Ref. Section 72-1337, Idaho Code. (3-30-01)

02. **Execution Against Assets.** The Department of Labor, when the situation warrants, shall levy upon or execute against any real or personal property, both tangible and intangible, in which an indebted person has an interest, including any offsets as allowed by Section 67-1026, Idaho Code. Ref. Section 72-1360, Idaho Code. (3-30-01)
03. **Relief of Indebtedness.** Neither the full running of the statute of limitations nor the writing off of the account as uncollectible relieves an employer of tax indebtedness. Ref. Section 72-1364, Idaho Code.  

167. -- 185. (RESERVED)

186. **ACCOUNTING AND DELINQUENCY CONTROL.**
Overpayments on employer accounts may be refunded without written application by the employer. Credits resulting from overpayments or adjustments to an employer’s account shall be refunded periodically unless such credit is applied to a subsequent balance due. Ref. Section 72-1357, Idaho Code.

01. **Erroneous Wage Reports.** An employer submitting an erroneous report of employee wages resulting in payment of unearned unemployment insurance benefits shall have said benefit payments subtracted from any refund due that employer, if such employer benefited from the unearned benefit payments. Ref. Section 72-1372, Idaho Code.

02. **Notification of Underpayments.** Employers shall be notified periodically of any taxes, penalties, or lien interest due on their tax account. Ref. Section 72-1349, Idaho Code.

03. **Cancellation of Refund Warrants.** Refund warrants, outstanding after the validity date, shall be canceled, stop-payment procedures initiated, and then reissued only upon completion of an affidavit for the replacement of the lost or destroyed warrant. Ref. Section 72-1357, Idaho Code.

187. -- 220. (RESERVED)

221. **TRANSFER OF EXPERIENCE RATING.**
Upon request, employers shall be informed of the requirements for transferring an experience rating record. Notification shall be issued to interested parties when an experience rating record transfer request is made. Ref. Sections 72-1351 and 72-1351A, Idaho Code.

01. **Mandatory Transfer of Rate.** An experience rating record transfer shall be mandatory if there is a transfer of trade or business and ownership or management or control is substantially the same between the predecessor and successor. The parties in interest shall be notified of such transfer of experience as determined from the facts applicable to the case. The determination shall be in the form required by IDAPA 09.01.01.027.01, and shall become final if no appeal is taken to an appeals examiner pursuant to the Rules of Administrative Procedure of the Department of Labor.

02. **Partial Experience Rate Transfers.** The following method is used to compute the pro-rata share of the experience rate account that is to be transferred from the predecessor to a successor. The pro-rata share is determined by dividing the gross payroll associated with the portion of the business acquired by the total gross payroll for the entire business operations for the same time period. The time period upon which this computation is based is the four (4) most recently completed quarters as reported by the predecessor prior to the date of acquisition or change in entity.

03. **Continued Predecessor Employment for Liquidation.** When a total transfer of experience rating record has been completed and it is found that the predecessor employer continues to have employment in connection with the liquidation of his business, such employer shall continue to pay contributions at the assigned rate for the period of liquidation but not to extend beyond the balance of the rate year. Ref. Section 72-1351, Idaho Code.

04. **Management or Ownership or Control Substantially the Same.** For the purposes of Subsection 72-1351A, Idaho Code, in determining whether the ownership or management or control of a successor is substantially the same as the ownership or management or control of the predecessor factors to be considered include, but are not limited to, the extent of policy making authority, the involvement in daily management of operations, the supervision over the workforce, the percentage of ownership of shares or assets, and the involvement on boards of directors or other controlling bodies.
05. **Wage Paid by Predecessor.** The successor employer may use wages paid by the predecessor employer to arrive at the wage base for purposes of calculating taxable wages only when the experience rate of a predecessor employer has been transferred to a successor employer. Ref. Sections 72-1349(1), 72-1351(5), and 72-1350(8), Idaho Code. (4-11-06)

222. -- 230. (RESERVED)

231. **EXPERIENCE RATING -- QUALIFYING PERIOD.**
When an eligible employer ceases to have covered employment for a period of six (6) consecutive quarters or more, they must complete another qualifying period in order to again be eligible for consideration for a reduced contribution rate. Ref. Section 72-1319, Idaho Code. (4-11-06)

232. -- 240. (RESERVED)

241. **BOARD, LODGING, MEALS.**
When board, lodging, meals, or any other payment in kind considered as payment for services performed by an employee constitute a part of wages or wholly comprise an employee’s wages, the value of such board, lodging, or other payment shall be determined as follows: (3-19-99)

01. **Cash Value.** If a cash value for such board, lodging, or other payment is agreed upon in any contract of hire, the amount so agreed upon shall be used provided it is a reasonable, fair market value. If there is no agreement, or if the contract of hire states an amount less than a reasonable, fair market value, the Department of Labor shall determine the reasonable or fair market value to be used. Ref. Section 72-1328, Idaho Code. (3-30-01)

02. **Meals and Lodging Not Included in Gross Wages.** The value of meals and lodging furnished by an employer to the employee will not be included in the employee’s gross income if it meets the following tests: (4-11-06)

a. The meals or lodging are furnished on the employer’s business premises; (3-19-99)

b. The meals or lodging are furnished for the employer’s convenience; and (3-19-99)

c. In the case of lodging (but not meals), the employees must be required to accept the lodging as a condition of their employment. This means that they must accept the lodging to allow them to properly perform their duties. (3-29-10)

d. In order to exclude the value of lodging from an employee’s gross wages, the employer must show that the wages paid to the employee for services performed meets the prevailing wage for those services. If the employer’s records do not show or establish that the employee received the prevailing wage for services performed, then the reasonable or fair market value of the lodging will be included in the employee’s gross income as wages. Ref. Section 72-1328, Idaho Code. (3-29-10)

03. **Meals or Lodging for Employer Convenience.** Meals or lodging furnished will be considered for the employer’s convenience if the employer has a substantial business reason other than providing additional pay to the worker. A statement that the meals or lodging are not intended as pay is not enough to prove that either meals or lodging are furnished for the employer’s convenience. Ref. Section 72-1328, Idaho Code. (3-19-99)

04. **Subsistence Remuneration.** In the case of employees who receive remuneration in the form of subsistence, such as groceries, staples, and fundamental shelter, the fair value of such subsistence will be determined by the Director. Ref. Section 72-1328, Idaho Code. (3-19-99)

242. -- 255. (RESERVED)

256. **DETERMINATION OF FAIR VALUE OF REMUNERATION FOR PERSONAL SERVICES.**
When the amount paid to an employee by an employer includes remuneration for other than personal services such as equipment use, travel costs, etc., the Director shall determine the fair value of the remuneration for the employee’s personal services. In making such determination, the Director shall consider the wages specified in the contract of
hire, the prevailing wages for similar work under comparable conditions, and other pertinent factors. The wages so determined by the Director shall be reported by the employer. Ref. Section 72-1328, Idaho Code. (3-19-99)

257. -- 261. (RESERVED)

262. DETERMINATION OF PROPER QUARTER IN WHICH TO ASSIGN AND REPORT WAGES.

01. Wage Assignment to Proper Calendar Quarter. Wages paid shall be assigned to the calendar quarter in which the wages were:

a. Actually paid to the employee in accordance with the employer’s usual and customary payday as established by law or past practice; or (3-30-01)

b. Due the employee in accordance with the employer’s usual and customary payday as established by law or past practice but not actually paid on such date because of circumstances beyond the control of the employer or the employee; or (3-30-01)

c. Not paid on the usual or customary payday as established by law or past practice but set apart on the employer’s books as an amount due and payable or otherwise recognized as a specific and ascertainable amount due and payable to the worker in accordance with an agreement or contract of hire under which services were rendered. Ref. Section 72-1367, Idaho Code. (3-19-99)

02. Draws and Advances on Wages. Payments to employees made prior to regular or established paydays will be assignable and reportable during the quarter in which they would have been paid unless a practice is established whereby all employees or a class of employees are given an opportunity to take a “draw” by which such action, another “regular” payday appears to have been created. (3-19-99)

03. Judgments of Wages. Amounts received as a result of labor relations awards or judgments for back pay, or for disputed wages, constitute wages and will be reported in the quarter or quarters in which the award or judgment has become final, after all appeals have been exhausted, or the quarter or quarters to which the court assigns the wages, if different. Ref. Section 72-1328, Idaho Code. (3-15-02)

04. Awarded Damages Against Employers. Amounts awarded to the claimant as a penalty or damages against the employer, other than for lost wages, do not constitute wages. Ref. Section 72-1328, Idaho Code. (3-19-99)

263. DETERMINATION OF REPORTABLE QUARTERS.
An employer shall be covered for all four (4) quarters in the calendar year in which the employer becomes a covered employer as well as for all four (4) quarters in the succeeding calendar year. Employers are not required to file quarterly reports until meeting the coverage criteria pursuant to Section 72-1315, Idaho Code. Upon becoming a covered employer within a calendar year, the quarterly report(s) for the quarter(s) prior to the employer becoming covered shall be filed with the quarterly report for the quarter in which the employer became covered. Quarterly reports for the periods subsequent to coverage shall be filed when due after the end of each quarter. Ref. Sections 72-1315 and 72-1337, Idaho Code. (3-22-07)

09.01.60 – COMPLAINT PROCEDURES UNDER THE WORKFORCE INNOVATION
AND OPPORTUNITY ACT (WIOA)

000. LEGAL AUTHORITY.
These rules are promulgated under the legal authority of 20 CFR Section 683.600, 29 CFR Part 38, and Section 72-1333(2), Idaho Code. (3-15-02)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 09.01.60, “Complaint Procedures Under the Workforce Innovation and Opportunity Act.” (3-15-02)

02. Scope. These rules govern the procedures for processing and adjudicating discrimination and program complaints by or against any program or activity funded or authorized under Title I of the federal Workforce Innovation and Opportunity Act. (3-15-02)

a. Discrimination Complaints. The Workforce Innovation and Opportunity Act prohibits discrimination against all individuals in the United States on the basis of race, color, religion, sex, national origin, age, disability, political affiliation or belief, and discrimination against beneficiaries on the basis of either citizenship or status as a lawfully admitted immigrant authorized to work in the United States or participation in any WIOA Title I financially assisted program or activity; and incorporates the provisions of Title VI of the Civil Rights Act of 1964, as amended, which prohibits discrimination on the basis of race, color and national origin; Section 504 of the Rehabilitation Act of 1973, as amended, which prohibits discrimination against qualified individuals with disabilities; The Age Discrimination Act of 1975, as amended, which prohibits discrimination on the basis of age; and Title IX of the Education Amendments of 1972, as amended, which prohibits discrimination on the basis of sex in educational programs. A complaint alleging a violation of any of these provisions is a discrimination complaint which shall be processed and adjudicated according to the discrimination complaint procedures provided for in these rules. Further, no entity receiving financial assistance under WIOA may discharge, intimidate, retaliate against, threaten, coerce, or discriminate against any person because such person has filed a complaint, opposed a prohibited practice, furnished information, assisted, or participated in any manner in an investigation or hearing. These actions are also considered discrimination and are enforced under this rule’s discrimination complaint procedures. (3-15-02)

b. Program Complaints. Nondiscriminatory, non-criminal complaints involving the proper application of the Workforce Innovation and Opportunity Act and its regulations and policies are program complaints, which shall be processed and adjudicated according to the program complaint procedures provided for in these rules. (3-15-02)

002. WRITTEN INTERPRETATIONS.
The Department has no written interpretations of these rules. (3-15-02)

003. ADMINISTRATIVE APPEALS.
Appeals shall be governed by the provisions of this chapter. (3-15-02)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into this rule. (3-15-02)

005. OFFICE – OFFICE HOURS – MAILING ADDRESS – STREET ADDRESS – WEB ADDRESS.
The mailing and physical address of the main office of the Department is 317 W. Main St., Boise, Idaho 83735. The office hours are 8:00 a.m. to 5:00 p.m., excluding Saturdays, Sundays, and legal holidays. The telephone number of the main office is (208) 332-3570, and its facsimile number is (208) 334-6455. The Department's website, which contains information about the programs that it administers, including unemployment insurance benefits, can be found at www.labor.idaho.gov. (6-30-19)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein are subject to, and in compliance with, the Public Records Act, Title 74, Chapter 1, Idaho Code.

007. -- 009. (RESERVED)

010. DEFINITIONS.
Unless the context clearly requires otherwise, these terms shall have the following meanings when used in this chapter.

01. Department. Idaho Department of Labor.

02. Local Administrative Entity. The administrative entity that administers the workforce investment system within a designated local area.

03. One-Stop Operator. One (1) or more entities designated or certified under the provisions of WIOA to operate a One-Stop Center.

04. Service Provider. Any operator or provider of aid, benefits, services, or training to any WIOA Title I funded program or activity that receives financial assistance either from or through any WIOA recipient, or for any participant through that participant's Individual Training Account; or any entity that is selected or certified as an eligible provider of training services to participants.

05. WIOA Recipient. Any entity to which financial assistance under WIOA Title I is extended, either directly from the Department or through the Governor or another recipient, including any successor, assignee, or transferee of a recipient, but excluding the ultimate beneficiaries of the WIOA Title I-funded program or activity. It includes, but is not limited to state-level agencies that administer or are financed in whole or in part with WIOA Title I funds; the Department; state and local WIOA boards; local WIOA grant recipients; One-Stop operators; service providers, including eligible training providers; and on-the-job training employers. In addition, One-Stop partners are treated as WIOA recipients, but only to the extent that they participate in the One-Stop delivery system.

011. ABBREVIATIONS.
Unless the context clearly requires otherwise, these abbreviations shall have the following meanings when used in this chapter.

01. ADR. Alternate Dispute Resolution.

02. CRC. Civil Rights Center of the U.S. Department of Labor.

03. EO. Equal Opportunity.

04. WIOA. Workforce Innovation and Opportunity Act.

012. DISCRIMINATION COMPLAINTS.
Complaints alleging discrimination shall be in writing and may be filed by the complainant or the complainant’s designated representative with the Department, Local Administrative Entity, Service Provider, or One-Stop Operator. Written Complaints taken by the Department, Local Administrative Entity, Service Provider, or One-Stop Operator shall be promptly forwarded to the State EO Officer. Written complaints may also be filed directly with the Director, CRC, U.S. Department of Labor, 200 Constitution Avenue NW, Room N-4123, Washington, DC 20210.

01. Contents. A written complaint shall include:

a. The complainant's name and address;

b. The identity of the individual or entity that the complainant alleges is responsible for the discrimination;

c. A description of the complainant's allegations in enough detail to allow an initial determination of...
jurisdiction, timeliness and the apparent merit of the complaint; and

d. The complainant's signature or the signature of the complainant's authorized representative.

02. Complaint Log. All complaints shall be logged. The log shall include the name and address of the complainant, the basis for the complaint, a description of the complaint, the disposition and date of disposition of the complaint, and any other pertinent information.

03. Confidential Information. Information that could lead to the identification of the person filing the complaint shall be kept confidential unless disclosure is required by law or is necessary for conducting an investigation or engaging in enforcement activities.

04. Jurisdiction. In order to have jurisdiction to process and adjudicate a discrimination complaint the respondent against whom the complaint was filed must be a WIOA recipient, the complaint must allege a basis for discrimination that is prohibited by WIOA, and the complaint must be filed within one hundred eighty (180) days of the alleged discrimination.

05. Notice of Lack of Jurisdiction. If a determination is made that there is no jurisdiction to process the complaint, a Notice of Lack of Jurisdiction must be sent to the complainant that includes the reason for the determination and notice that the complainant has the right to file a complaint directly with CRC within thirty (30) days from receipt of the Notice of Lack of Jurisdiction.

06. Joint Jurisdiction. Where the complaint alleges discrimination by a WIOA recipient or service provider on a basis that is prohibited by both WIOA and by a civil rights law independently enforced by that WIOA recipient or service provider, the complaint must be referred to that WIOA recipient or service provider for processing under their procedures. For example, WIOA prohibits discrimination on the basis of national origin. If a discrimination complaint on the basis of national origin is made against a WIOA recipient or service provider and they are also prohibited under their own regulations from discriminating on the basis of national origin, then the complaint shall be referred to that WIOA recipient or service provider for processing according to their regulations. Notice of the referral must be sent to the complainant.

07. Sole Jurisdiction. Where the complaint alleges discrimination by a WIOA recipient or service provider on a basis that is prohibited by WIOA and is not covered by a civil rights law independently enforced by that WIOA recipient or service provider (e.g. religion, political affiliation or belief, citizenship or participation in WIOA Title I), the complaint shall be processed by that WIOA recipient or service provider under these procedures.

08. Formal Resolution. The State EO Officer shall send written notice to the complainant stating that the complaint has been received.

a. The notice must list the issues raised in the complaint and state for each issue whether it has been accepted for investigation or rejected and the reason for its rejection.

b. The notice must advise that the complainant has the right to be represented by an attorney or another person of the complainant's choice. The Notice must also give the complainant the right to choose between an ADR process or a hearing.

09. The ADR Process. If the party filing the complaint requests to use the ADR process for resolving the complaint, the State EO Officer shall request a mediator and monitor the processing of the complaint.

a. The mediator shall schedule mediation by written notice, mailed to all interested parties at least seven (7) days prior to the first mediation session. The notice shall include the date, time, and place of the mediation.

b. The mediation process must be concluded within forty-five (45) days from the date the complaint was filed. The complaint is considered resolved when all parties to the complaint enter into a written agreement.
resolving the issues raised in the complaint. (3-15-02)

c. The written agreement must give notice that if the terms of the agreement are breached, the non-breaching party may file a complaint with CRC within thirty (30) days of the date the non-breaching party learns of the breach. (3-15-02)

d. If the parties do not reach an agreement, the State EO Officer shall forward the complaint to a hearing officer for a hearing. (3-15-02)

10. The Hearing Process. If the party filing the complaint requests a hearing to resolve the complaint, or if the ADR process fails to result in an agreement, the State EO Officer shall forward the complaint to the hearing officer and monitor the processing of the complaint. (3-15-02)

a. The hearing officer shall schedule a formal hearing by written notice, mailed to all interested parties at least seven (7) days prior to the hearing. The notice shall include the date, time, and place of the hearing. (3-15-02)

b. The hearing must be conducted within sixty (60) days from the date the complaint was filed. (3-15-02)

c. Parties may present witnesses and documentary evidence, and question others who present evidence and witnesses. Parties may be represented by an attorney or other designated representative, and may request that records and documents be produced. (3-15-02)

d. All testimony shall be taken under oath or affirmation. (3-15-02)

e. The hearing will be recorded. (3-15-02)

f. The hearing officer's recommended resolution shall include a summary of factual evidence given during the hearing and the conclusions upon which the recommendation is based. (3-15-02)

g. The hearing officer's recommended resolution must be completed and sent to the State EO Officer within seventy-five (75) days from the date the discrimination complaint was filed. (3-15-02)

11. Notice of Final Action. The Department shall review the recommendation of the hearing officer and shall issue a Notice of Final Action within ninety (90) days from the date the discrimination complaint was filed. The Notice of Final Action shall contain the following: (3-15-02)

a. Department's decision on each issue and the reasons for the decision; (3-15-02)

b. A description of the way the parties resolved the issue; and (3-15-02)

c. Notice that the complainant has the right to file an appeal with CRC within thirty (30) days from the date the Notice of Final Action is issued if dissatisfied with the Department’s final action on the complaint. (3-15-02)

013. PROGRAM COMPLAINTS AGAINST LOCAL WIOA PROGRAMS AND POLICIES.
Participants, One-Stop partners, service providers, and other interested parties may file complaints alleging nondiscriminatory, non-criminal violations of the WIOA agreements, policies or activities of a Local Administrative Entity or local service provider. Local program complaints shall be in writing and shall be filed with the local service provider or local administrative entity against whom the complaint is made within one hundred eighty (180) days from the date of the event or condition that is alleged to be a violation of WIOA. A complaint may be amended prior to a scheduled hearing or withdrawn by the complainant at any time. Information about the identity of the person filing the complaint or to the identity of any person who furnishes information relating to, or assisting in, an investigation, shall be kept confidential from non-parties to the complaint process unless disclosure is required by law. No entity receiving financial assistance under WIOA may discharge, intimidate, retaliate, threaten, coerce, or discriminate against any person because such person has filed a complaint, opposed a prohibited practice, furnished
01. **Initial Review.** Written complaints shall be taken by the local service provider or local administrative entity from the complainant or the complainant’s designated representative. All complaints shall be logged. If the complaint alleges a violation of any statute, regulation, policy, or program that is not governed by WIOA, the complaint shall be referred to the appropriate organization for resolution. Notice of the referral shall be sent to the complainant. If the complaint is retained, a complaint file should be established that contains:

a. All application and enrollment forms, if appropriate;  

b. The written complaint and complaint form;  
c. A chronological log of events;  
d. All relevant correspondence; and  
e. A record of any resolution attempted.  

02. **Informal Resolution.** An attempt should be made to informally resolve the complaint to the satisfaction of all parties. This informal resolution process must be completed within ten (10) days from the date the complaint was filed. If all parties are satisfied, the complaint is considered resolved and the terms and conditions of the resolution must be documented in the complaint file.  

03. **Formal Resolution.** When no informal resolution is possible, the local service provider shall forward the complaint and a copy of the file to the local administrative entity who will review the complaint file, conduct a further investigation if necessary, and issue a determination within twenty (20) days from the date the complaint was filed. If the determination is not contested as provided for in Subsection 013.04, the complaint will be considered resolved and the complaint file shall be closed and documented accordingly.  

04. **Request for Hearing.** Any party dissatisfied with a local administrative entity’s determination may request a hearing within ten (10) days of the date of the determination. The request shall be in writing and must be timely filed with the local administrative entity. The local administrative entity shall forward the program complaint to a hearing officer for resolution. The local administrative entity will monitor the processing of the complaint.  

05. **Hearing.** The hearing officer shall schedule a formal hearing by written notice, mailed to all interested parties at least seven (7) days prior to the hearing. The notice shall include the date, time, and place of the hearing. The hearing must be conducted within forty-five (45) days from the date the complaint was filed. Parties may present witnesses and documentary evidence, and question others who present evidence and witnesses. Parties may be represented by an attorney or another designated representative, and may request that records and documents be produced. All testimony shall be taken under oath or affirmation. The hearing will be recorded. The hearing officer’s recommended resolution shall include a summary of factual evidence given during the hearing and the conclusions upon which the recommendation is based.  

06. **Final Decision.** The local administrative entity shall review the recommendation of the hearing officer and shall issue a final decision within sixty (60) days from the date the complaint was filed.  

07. **Request for Review.** Any party dissatisfied with the local administrative entity’s final decision, or any party who has not received a decision or a final resolution within sixty (60) days from the date the complaint was filed, may file a Request for Review. A request for review must be filed with the Department within ninety (90) days from the date the complaint was originally filed.  

014. **Program Complaints Against Statewide WIOA Programs and Policies.** Participants, One-Stop partners, service providers and other interested parties may file complaints alleging nondiscriminatory, non-criminal violations of statewide WIOA agreements, policies or activities. Statewide program complaints shall be in writing and shall be filed with the statewide service provider or the Department within one hundred eighty (180) days from the date of the event or condition that is alleged to be a violation of WIOA. A
complaint may be amended prior to a scheduled hearing or withdrawn at any time. Information about the identity of the person filing the complaint or to the identity of any person who furnishes information relating to, or assisting in, an investigation, shall be kept confidential from non-parties to the complaint process unless disclosure is required by law. No entity receiving financial assistance under the Act may discharge, intimidate, retaliate, threaten, coerce, or discriminate against any person because such person has filed a complaint, opposed a prohibited practice, furnished information, assisted, or participated in any manner in an investigation or hearing. (3-15-02)

**01. Initial Review.** Written complaints shall be taken from the complainant or the complainant’s designated representative. All complaints shall be logged. If the complaint alleges a violation of local WIOA programs, policies or agreements, the complaint shall be referred to the local administrative entity for processing under the complaint procedures for program complaints against local WIOA programs. If the complaint alleges a violation of any statute, regulation, policy, or program that is not governed by WIOA, the complaint shall be referred to the appropriate organization for resolution. Notice of the referral shall be sent to the complainant. If the complaint is retained, a complaint file should be established that contains:

a. All application and enrollment forms, if appropriate; (3-15-02)

b. The written complaint and complaint form; (3-15-02)

c. A chronological log of events; (3-15-02)

d. All relevant correspondence; and

e. A record of any resolution attempted. (3-15-02)

**02. Informal Resolution.** An attempt should be made to informally resolve the complaint to the satisfaction of all parties. This informal resolution process must be completed within ten (10) days from the date the complaint was filed. If all parties are satisfied, the complaint is considered resolved and the terms and conditions of the resolution must be documented in the complaint file. (3-15-02)

**03. Formal Resolution.** When no informal resolution is possible, the statewide service provider shall forward the complaint and a copy of the file to the Department who shall review the complaint file, conduct a further investigation if necessary, and issue a determination within twenty (20) days from the date the complaint was filed. If the determination is not contested as provided for in Subsection 014.04, the complaint shall be considered resolved and the complaint file will be closed and documented accordingly. (3-15-02)

**04. Request for Hearing.** Any party dissatisfied with the Department’s determination may request a hearing within ten (10) days of the date of the determination. The request shall be in writing and must be timely filed with the Department. The Department shall forward the program complaint to a hearing officer for resolution. The Department will monitor the processing of the complaint. (3-15-02)

**05. Hearing.** The hearing officer shall schedule a formal hearing by written notice, mailed to all interested parties at least seven (7) days prior to the hearing. The notice shall include the date, time, and place of the hearing. The hearing must be conducted within forty-five (45) days from the date the complaint was filed. Parties may present witnesses and documentary evidence, and question others who present evidence and witnesses. Parties may be represented by an attorney or another designated representative, and may request that records and documents be produced. All testimony shall be taken under oath or affirmation. The hearing shall be recorded. The hearing officer’s recommended resolution shall include a summary of factual evidence given during the hearing and the conclusions upon which the recommendation is based. (3-15-02)

**06. Final Decision.** The Department shall review the recommendation of the hearing officer and shall issue a final decision within sixty (60) days from the date the complaint was filed. (3-15-02)

006. -- 011. (RESERVED)

012. UNION AGREEMENTS AND INSULATED PERIOD.
Once the contract becomes effective as a bar to an election, no petition will be accepted until the end of the period during which the contract is effective as a bar. A contract for a fixed period of more than three (3) years will bar an election sought by a contracting party during the life of the contract, but will act as a bar to an election sought by an outside party for only three (3) years following its effective date. A contract of no fixed period will not act as a bar at all. Petitions filed not more than ninety (90) days but over sixty (60) days before the end of the contract bar period will be accepted and can bring about an election, or if a petition is filed after a contract expires it will be accepted. The last sixty (60) days of the contract bar period is called an insulated period. During that time the parties to the existing contract are free to negotiate a new contract or to agree to extend the old one. If they do so, petitions will not be accepted until ninety (90) days before the end of the new contract bar period. (1-21-74)

013. STRIKERS DEEMED EMPLOYEES.
Strikers are deemed to be employees even though replaced by other workers for representation purposes only and may be entitled to vote in any election conducted within twelve (12) months after the commencement of the strike. (1-21-74)

014. EMPLOYEE REPRESENTATION.
01. Petition or Union Representation. Any employer, union, or employee may petition the Department to conduct an investigation and/or hearing to determine whether the majority of the employees of any given business wish union representation and what union they wish to be represented by. Such petition must fully set forth and allege the exact question concerning representation of employees in the collective bargaining unit. The request must fully state the name of the employer, the place of business, the type of business, the name of the labor organization or organizations involved; and if the request is made by the employer it must include a list of employees employed in said unit. (1-21-74)

02. Requests Made by Unions. If the request is made by a union, such union must submit written statements or authorization cards from at least thirty percent (30%) of those workers in the unit to establish there is such a question of representation, except in establishments having less than six (6) employees, in which case twenty-five percent (25%) of the employees involved will be deemed sufficient. A description of the bargaining unit must be given. (1-21-74)

03. Collective Bargaining Unit. When a question arises concerning representation of employees in a collective bargaining unit, an investigation will be made by the Department in order to determine the wishes of the majority of the employees in said unit. (1-21-74)

04. Hearings. In any such investigation, a hearing may be held after giving due notice to all interested parties as provided for in the procedural rules of the Department. If as a result of such hearing or investigation the parties agree which union, if any, may properly represent them, a certification will be made and issued by the Director of the Department designating the union for bargaining purposes. If after such a hearing and/or investigation, there is any doubt as to the wishes of the majority of the employees employed in said unit, a time and place will be scheduled to permit the employees to vote by secret ballot. (1-21-74)

05. Preparation of Ballot. In all cases where a secret ballot is taken, the ballot must be prepared by the Department to permit a vote for or against representation by anyone named on the ballot. In case of two (2) or more unions, a place must be provided for a vote against any union. (1-21-74)

06. Waiver of Investigation and Hearing. The investigation and hearing may be waived by consent of the parties pursuant to written stipulation by all parties involved, and a cross check may be conducted by representatives of the Department. Such cross check will be made by comparing the signatures or names appearing on the employer’s payroll with signatures on authorization cards submitted by the union involved. At such cross check, no representatives will be permitted to be present except representatives of the Department. The Department may, at its discretion, also question individual employees. (1-21-74)

07. Elections. If it becomes necessary to conduct an election, such election will be held only after appropriate notice is posted by the department in a conspicuous place where the employees are employed. Whenever possible, the election will be held on the premises of the employer and at a time calculated to best permit all employees who are eligible to vote, and so far as possible at a time which will minimize the disruption of the employer’s business. Such notice must be posted at least twenty-four (24) hours before the election and in those cases where, because of the nature of the shifts, a longer time is necessary, it shall be so given. Every effort will be made to hold the election reasonably soon after the twenty-four (24) hour period except in those exceptional cases. (1-21-74)

08. Observers. The parties involved may each designate and have present at the election one (1), and only one (1), observer. Neither management nor union officials may act as observers. Employees having the right to hire or fire or to effectively recommend hiring or firing will be considered as management personnel of the employer and will not be permitted to vote at such election or to act as observers. No member of an employer’s immediate family will be eligible to vote at such representation election or to act as an observer, or any principal stockholder owning ten percent (10%) or more of the company stock. (1-21-74)

09. Voting Eligibility. All employees in said bargaining unit on the payroll at the time the petition was received in the Department may vote. Regular part-time employees will be permitted to vote. Casual part-time employees or workers who are employed for a limited period will not be permitted to vote. (1-21-74)

10. Challenging Eligibility. Any interested party or representative of the Department may challenge the eligibility of any person to participate in the election for cause under these rules. The ballots of such challenged
person will be impounded. Upon conclusion of the election and before the ballots are counted, the parties will be permitted to offer evidence in support of their contentions as to eligibility to vote, after which time a ruling will be made sustaining or overruling the objection. If overruled, the ballot will be placed in the ballot box. (1-21-74)

11. **Ballots.** Ballots prepared by the Department will set forth the question involved. One ballot will be given to each eligible voter. Such ballots are not to be signed by the voters. Voters will be requested to place an “X” in a square which will require only “YES” or “NO” votes. The ballot must be prepared to permit a vote against any representation. (1-21-74)

12. **Deauthorization of Union Representation.** A petition in a union shop for an election to determine whether there should be any union representation or not, may be filed with the Department. In such petition, it must be shown at least thirty percent (30%) or more of the employees in the unit covered by the agreement desire deauthorization. Only employees in the bargaining unit will be counted for this purpose subject to the provisions of Subsection 014.12. (1-21-74)

13. **Petition for Election.** The demand or petition set forth in Subsection 014.12 need not be in any particular form, but must comply with the procedural rules of the department. No such election as set forth in Subsection 014.12 will be conducted among employees presently covered by a valid collective bargaining agreement, except when filed in accordance with the reopening or termination clause of such agreement. (1-21-74)

14. **Existing Collective Bargaining Agreement.** An existing collective bargaining agreement is a bar to any representation election except as provided for within Section 012. (1-21-74)

15. **Frequency of Election.** No election may be held in any bargaining unit or subdivision thereof within which a valid election was held in the preceding twelve (12) month period. (1-21-74)

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 54-1208, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 10, rules of the Board of Professional Engineers and Professional Land Surveyors:

IDAPA 10
10.01.01, Rules of Procedure
   Except Section 009 is to be expired and;
   Except Section 010 is to be expired and;
   Except Subsection 013.01 is to be expired and;
   Except Subsection 013.02 is to be expired
10.01.02, Rules of Professional Responsibility
   Except Subsection 011.01 is to be expired
10.01.03, Rules of Corner Perpetuation and Filing
10.01.04, Rules of Continuing Professional Development

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Board finds that Rules of Procedure chapter of these rules is necessary for issuing, reissuing, renewing, and reinstating licenses and certificates for professional engineers and professional land surveyors, interns, retirees and business entities.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The Board’s fees are established by statute in Title 54, Chapter 12, Idaho Code. IDAPA 10.01.01, Rules of Procedure refer to required fees in Sections 011, 012, 020, and 023.
IDAPA 10.01.02, 10.0103, and 10.01.04 apply to the administrative penalty that may result from violating these rules. The maximum administrative penalty is set by 54-1220, Idaho Code.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The fee categories are as follows:

- Licensure as a Professional Engineer or Professional Land Surveyor by examination
- Licensure as a Professional Engineer or Professional Land Surveyor by comity
- Certification for a business entity applying for a certificate of authorization to practice or offer to practice engineering or land surveying
- Renewals for professional engineers, retired professional engineers, professional land surveyors, retired professional land surveyors, engineer interns, land surveyor interns, and business entities
- Late or denied renewals
- Reissuance of certificates
- Reinstatement of a retired, expired, and discontinued license or certificate
- Faculty restricted licensure and renewal as a professional engineer
- Administrative penalty for violating the statutes or rules of the Board which accrue to the general fund of the State of Idaho

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the temporary and proposed rule, contact Keith Simila at (208) 373-7210.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 9th day of May, 2019.

(4-5-00)

009. -- 010. (RESERVED)
011. FEES.

01. Applications and Renewals. All fees are set by the Board in the following categories and may in no event be more than the amount specified in Sections 54-1213, 54-1214, 54-1216, 54-1219 and 54-1223, Idaho Code. Fees are not refundable. (4-5-00)
   a. Licensure as a professional engineer or professional land surveyor by examination. (5-8-09)
   b. Reinstatement of a retired or expired license. (3-25-16)
   c. Certification for a business entity applying for a certificate of authorization to practice or offer to practice engineering or land surveying. (3-15-02)
   d. Renewals for professional engineers, retired professional engineers, professional land surveyors, retired professional land surveyors, engineer interns, land surveyor interns, and business entities. (3-25-16)
   e. Licensure for professional engineers or professional land surveyors by comity. (5-8-09)

02. Late or Denied Renewals. Failure on the part of any licensee or business entity to renew their license or certificate of authorization prior to their expiration will not deprive such persons or business entity of the right of renewal, but the fees to be paid for renewal after their expiration will be increased as prescribed in Section 54-1216, Idaho Code. (3-29-10)

03. Schedule of Fees. The schedule of fees as determined by the Board must be furnished to applicants with application forms. (7-1-93)

012. REISSUANCE OF CERTIFICATES. A new certificate of licensure or authorization, to replace any certificate lost, destroyed or mutilated, may be issued upon written request and payment of fee of ten dollars ($10). (3-25-16)

013. PUBLICATIONS.

01. News Bulletins and Online Information. News bulletins shall be published at least two (2) times each year. The news bulletins and other news postings may be made available online to all licensees and certificate holders for the purpose of sharing information on board activities and actions. (3-25-16)

02. Website and Outreach. The Board will maintain a website providing online information to current and prospective licensees and certificate holders including, but not limited to, applications, laws and rules, guidelines, publications, calendar, forms and outreach information for students and prospective licensees. (3-28-18)

014. SEALS.

01. Official Seal of Board. The official seal of this Board consists of the seal of the state of Idaho, surrounded with the words “Board of Professional Engineers and Professional Land Surveyors” and “State of Idaho.” (7-1-93)

02. Standard Seals for Engineers and Land Surveyors. The Board adopts standard seals for use by licensed professional engineers and professional land surveyors as prescribed by Section 54-1215, Idaho Code. Seals prepared and approved prior to July 1, 2008 are valid for continued use. (5-8-09)

03. Seal for Professional Engineer/Land Surveyor. Engineers obtaining licensure as land surveyors under the changes to Section 54-1217, Idaho Code, by the 1978 Legislature use the seal showing licensure as a Professional Engineer and Land Surveyor as adopted by the Board. Seals prepared and approved prior to July 1, 2008 are valid for continued use. (5-8-09)

015. CERTIFICATES. Certificates of licensure or authorization issued by the Board must be displayed in the place of business. (5-8-09)
016. APPLICATION FOR LICENSURE OR CERTIFICATION.

01. Forms. Application forms for licensure as a professional engineer, or professional land surveyor, certification as an engineer intern, land surveyor intern or certificates of authorization to practice or offer to practice engineering or land surveying by a business entity may be obtained from the office of the Executive Director of the Board of Professional Engineers and Professional Land Surveyors. (5-8-09)

02. Completion of Application. Applications must be made on such forms as may be prescribed by the Board. All forms, references, transcripts and other written materials must be in English pursuant to Section 72-121, Idaho Code. An application that is not fully completed by the applicant need not be considered or acted upon by the Board. The application by a business entity for a certificate of authorization to practice or offer to practice engineering or land surveying must set forth its address, and name and address of the individual, or individuals, duly licensed to practice engineering or land surveying in this state, who will be in responsible charge of engineering or land surveying services offered or rendered by the business entity in this state. (4-11-15)

03. Submittal of Applications and Examination Cutoff Date. Submittal of applications for licensure or intern certification must occur after passing the required national examinations. Examinations may be given in various formats and different registration dates apply depending on the examination format. (4-11-19)

a. For national examinations administered in a computer-based or paper format once or twice per year the registration requirements, including the deadline and testing windows, are established by the National Council of Examiners for Engineering and Surveying (NCEES). (4-11-19)

b. For national examinations administered continuously in a computer-based format, there is no deadline for registering with NCEES. The registration requirements, including the testing windows, are established by NCEES. (4-11-19)

c. In order for the Board to be able to verify experience, only experience up to the date of submittal of the application for licensure will be considered as valid. (4-11-19)

d. Applications for certification as engineering or surveying interns are submitted after passing the Fundamentals of Engineering or the Fundamentals of Surveying examination and providing evidence of graduation with educational credentials required by Subsection 017.03 of this chapter. (4-11-19)

04. Residency Requirement. Except for military personnel stationed in the state of Idaho on military orders, and except for persons employed full-time in the state of Idaho, only residents of the state of Idaho and students enrolled at an Idaho university or college may qualify for assignment to professional examinations for initial licensure or certification as an intern. The board will accept as proof of Idaho residency a valid Idaho issued driver’s license, a utility bill issued within the last sixty (60) days with an Idaho address in the name of the applicant, a statement from a financial institution issued within the last sixty (60) days to the applicant at an Idaho address, proof of current voter registration in Idaho, or current Idaho vehicle registration in the name of the applicant. The board will accept as proof of full-time employment in the state of Idaho an affidavit from the Idaho employer stating employment status. The Board will accept a valid student identification card as proof of enrollment at an Idaho university or college. (3-25-16)

05. Confidentiality of References. All information received from references named by the applicant is held in confidence by the Board except as provided by Section 74-113, Idaho Code. Neither members of the Board nor relatives of the applicant by blood or marriage may be named or accepted as references. (5-8-09)

06. Minimum Standards -- References. An applicant may not be admitted to the examination until satisfactory replies have been received from a minimum of five (5) of his references for professional engineers or land surveyors. It is the responsibility of each applicant to furnish references with the forms prescribed by the Board. (3-29-12)

07. Minimum Boundary Survey Experience. The board requires a minimum of two (2) years boundary survey experience as a condition of professional land surveyor licensure. (3-25-16)
017. EXAMINATIONS AND EDUCATION.

01. Special or Oral Examination. Examinations for licensure as a professional engineer or professional land surveyor, or certification as an engineer intern or land surveyor intern will be held on dates and at times and places to be determined by the Board. Special oral or written examinations may be given by the Board as necessary. (3-29-10)

02. Use of NCEES Examinations. National examinations prepared and graded by the National Council of Examiners for Engineering and Surveying (NCEES) may be used by the Board. Applicants registering for a national professional examination must have first passed the fundamentals examination unless exempted per Subsection 017.11 of this chapter. (4-11-19)

03. Eligibility for Licensure, Educational Requirements. The application for licensure as a professional engineer or professional land surveyor together with a passing score on the written ethics questionnaire or Idaho specific land surveying examination, is considered in the determination of the applicant’s eligibility. Each applicant must meet the minimum requirements as set forth in Section 54-1212, Idaho Code, before being licensed. Prescriptive education requirements are as follows:

a. In regard to educational requirements, the Board will consider as unconditionally approved only those engineering programs that are accredited by the Engineering Accreditation Commission (EAC) of ABET, Inc., or the bachelor of science programs accredited by the Canadian Engineering Accrediting Board, or those bachelor of science engineering programs that are accredited by official organizations recognized by the U.K. Engineering Council. Non-EAC/ABET accredited engineering programs, related science programs, and engineering technology programs will be considered by the Board on their specific merits, but are not considered equal to engineering programs accredited by EAC/ABET. The Board may continue consideration of an application for valid reasons for a period of one (1) year, without forfeiture of the application fee. (4-11-19)

b. An applicant who has completed a four (4) year bachelor degree program in engineering not accredited by EAC/ABET or a four (4) year bachelor degree program in engineering technology, or in a related science degree program other than engineering must have completed the following before the Board will consider them to possess knowledge and skill approximating that attained through graduation from an approved four (4) year engineering curriculum as required by Section 54-1212(3)(b), Idaho Code, for certification as an Engineer Intern or as required by Section 54-1212(1)(b), Idaho Code, for licensure as a professional engineer:

i. Thirty-two (32) college semester credit hours of higher mathematics and basic sciences. The credits in mathematics must be beyond algebra and trigonometry and must emphasize mathematical concepts and principles rather than computation. Courses in differential and integral calculus are required. Additional courses may include differential equations, linear algebra, numerical analysis, probability and statistics and advanced calculus. The credits in basic sciences must include at least two (2) courses. These courses must be in general chemistry, general calculus-based physics, or general biological sciences; the two (2) courses may not be in the same area. Additional basic sciences courses may include earth sciences (geology, ecology), advanced biology, advanced chemistry, and advanced physics. Computer skills and/or programming courses may not be used to satisfy mathematics or basic science requirements. Basic engineering science courses or sequence of courses in this area are acceptable for credit but may not be counted twice. (3-25-16)

ii. Sixteen (16) college credit hours in a general education component that complements the technical content of the curriculum. Examples of traditional courses in this area are philosophy, religion, history, literature, fine arts, sociology, psychology, political science, anthropology, economics (micro and macro), professional ethics, social responsibility. Examples of other general education courses deemed acceptable include management (such as organizational behavior), accounting, written and oral communications, business, and law. No more than six (6) credit hours may come from courses in management, accounting, business, or law. Courses in engineering economics, engineering management, systems engineering/analysis, production, and industrial engineering/management will not be counted. Language courses in the applicant's native language are not acceptable for credit; no more than six (6) credit hours of foreign language courses are acceptable for credit. Native language courses in literature and civilization may be considered in this area. Courses which instill cultural values are acceptable, while routine exercises of personal craft are not. (3-25-16)
iii. Forty-eight (48) college credit hours of engineering science and/or engineering design courses. Courses in engineering science must be taught within the college / faculty of engineering having their roots in mathematics and basic sciences but carry knowledge further toward creative application of engineering principles. Examples of approved engineering science courses are mechanics, thermodynamics, heat transfer, electrical and electronic circuits, materials science, transport phenomena, and computer science (other than computer programming skills). Courses in engineering design stress the establishment of objectives and criteria, synthesis, analysis, construction, testing, and evaluation. Graduate level engineering courses may be included to fulfill curricular requirements in this area. Engineering technology courses cannot be considered to meet engineering topic requirements. (3-25-16)

iv. The Board may require detailed course descriptions for seminar, directed study, special problem and similar courses to ensure that the above requirements are met. (3-25-16)

c. In regard to educational requirements, the Board will consider as unconditionally approved only those surveying programs that are accredited either by the Engineering Accreditation Commission (EAC), the Applied and Natural Science Accreditation Commission (ANSAC) or the Engineering Technology Accreditation Commission (ETAC) of ABET, Inc. An applicant who has completed a four (4) year bachelor degree program in a related program must have completed a minimum of the following college level academic courses, or their equivalents as determined by the Board, before the Board will consider them to possess knowledge and skill approximating that attained through graduation from an approved four (4) year surveying curriculum as required by Section 54-1212(4)(b), Idaho Code, for certification as a Land Surveyor Intern or as required by Section 54-1212(2)(b), Idaho Code, for licensure as a professional land surveyor:

i. Eighteen (18) college semester credit hours of mathematics and basic sciences. A minimum of twelve (12) credits in mathematics must be beyond basic mathematics, but the credits include college algebra or higher mathematics. These courses must emphasize mathematical concepts and principles rather than computation. Mathematics courses may include college algebra, trigonometry, analytic geometry, differential and integral calculus, linear algebra, numerical analysis, probability and statistics, and advanced calculus. A minimum of six (6) credits must be in basic sciences. These courses must cover one or more of the following topics: general chemistry, advanced chemistry, life sciences (biology), earth sciences (geology, ecology), general physics, and advanced physics. Computer skills and/or programming courses may not be used to satisfy mathematics or basic science requirements; (3-29-17)

ii. Sixteen (16) college semester credit hours in a general education component that complements the technical content of the curriculum. Examples of traditional courses in this area are religion, history, literature, fine arts, sociology, psychology, political science, anthropology, economics, professional ethics, and social responsibility. No more than six (6) credit hours of languages other than English or other than the applicant’s native language are acceptable for credit. English and foreign language courses in literature and civilization may be considered in this area. Courses that instill cultural values are acceptable, while routine exercises of personal craft are not; (3-29-17)

iii. Thirty (30) college semester credit hours of surveying science and surveying practice. Courses must be taught by qualified surveying faculty. Examples of surveying courses are basic surveying, route surveying, geodesy, geographic information systems, land development design and planning, global positioning systems, photogrammetry, mapping, survey adjustment and coordinates systems, cartography, legal descriptions, and remote sensing. Required courses will include a minimum of basic surveying, route surveying, geodesy, surveying law, public land survey system and global positioning systems. Graduate-level surveying courses can be included to fulfill curricular requirements in this area. (3-29-17)

d. The Board may require an independent evaluation of the engineering education of an applicant who has a non-EAC/ABET accredited engineering degree or a non-engineering degree. Such evaluation must be done through an organization approved by the Board and must be done at the expense of the applicant to ensure that the applicant has completed the coursework requirements of Subsection 017.02.b. The Board may table action on the application pending receipt of the evaluation, and, in the event the applicant does not provide the evaluation within one (1) year, the Board may terminate the application, in which case the application fee is forfeited. (4-11-15)

04. Two Examinations for Engineering Licensure. The complete examining procedure for licensure
as a professional engineer normally consists of two (2) separate written examinations. The first is the Fundamentals
of Engineering examination for engineer intern certification, and the second is the Principles and Practice of
Engineering for professional engineer licensure. The examination will be a duration as determined by the Board.
Normally, applicants are eligible to take the Fundamentals of Engineering examination during the last or second-to-
last semester of or after graduation from an accredited bachelor of science engineering program. A certificate as an
Engineer Intern will be issued only to those student applicants who earn a passing grade on the examination and who
receive a degree. Having passed the Fundamentals of Engineering examination, applicants will be required to take the
Principles and Practice of Engineering examination at a later date when qualified by the Board. (3-28-18)

05. Fundamentals of Engineering. The Fundamentals of Engineering examination will cover such
subjects as are ordinarily given in engineering college curricula and which are common to all fields of practice. The
examination may also cover subject matters that are specific to the engineering discipline of the applicants’
education. (5-8-09)

06. Principles and Practice of Engineering -- Disciplines. The Principles and Practice of Engineering
examination will cover the practice of engineering to test the applicant’s fitness to assume responsibility for
engineering works affecting the public health, safety and welfare. Separate examinations will be given to test the
applicant’s fitness in any discipline for which there is an examination which, in the opinion of the Board, meets the
requirements of duration and difficulty necessary to adequately test the applicant’s fitness to practice in that particular
discipline. The Board may use examinations prepared by the National Council of Examiners for Engineering and
Surveying (NCEES) or it may prepare or commission the preparation of, or utilize other state examinations in
disciplines other than those for which examinations may be available from NCEES. (3-25-16)

07. Three Examinations for Land Surveying Licensure. The complete examining procedure for
licensure as a professional land surveyor consists of three (3) separate written examinations. The first is the
Fundamentals of Surveying examination for land surveyor intern certification, and the second is the Principles and
Practice of Surveying, and the third is the Idaho specific professional land surveying examination. All examinations
are required for professional land surveyor licensure. The examination will be a duration as determined by the Board.
Having passed the Fundamentals of Surveying examination, applicants will be required to take the Principles and
Practice of Surveying examination at a later date when qualified by the Board. The examination covers the theory
and principles of surveying, the practice of land surveying and the requirements of legal enactments. The Principles and
Practice of Surveying examination may consist of separate modules, each of which must be passed. Having passed
the Principles and Practice of Surveying examination, applicants will be required to pass the Idaho specific
professional land surveying examination, which tests for knowledge of the laws and rules of Idaho, and the legal and
technical aspects of land surveying in Idaho. (3-28-18)

08. Oral or Unassembled Examinations. An oral examination or unassembled written examination,
in addition to the prescribed written examination, may be required for professional engineer and professional land
surveyor applicants. (7-1-93)

09. Special Examinations. A special examination, written or oral or both, may be required in certain
instances where the applicant is seeking licensure through comity or reciprocity with another state or political entity
having required written examinations that are not wholly comparable in length, nature or scope. This examination
supplements the certified qualifying record of the applicant and establishes a more common basis for judging the
application and awarding a certificate of qualification or licensure in this state. The length of these special
examinations will be determined by the Board, but may in no case exceed the lengths specified for the regular
examination. Special examinations may be given at any date and need not conform with regular examination dates.
(5-8-09)

10. Grading. Unless otherwise provided in 54-1219, or 54-1223 Idaho Code, each land surveyor
intern, engineer intern, professional land surveyor and professional engineer applicant must attain a passing score on
the entire examination or modules as determined by the Board, before being awarded certification or licensure.
Passing scores on national examinations are established by the National Council of Examiners for Engineering and
Surveying. A passing score on the Idaho specific ethics questionnaire is eighty (80), a passing score on the law and
rules module of the Idaho specific land surveying examination is ninety (90), and a passing score on the public land
surveying module of the Idaho specific land surveying examination is seventy-five (75). (4-11-19)
11. **Exemption – Examination on the Fundamentals of Engineering.** The Board may exempt an exceptional individual who has twelve (12) or more years of appropriate engineering experience from the requirement for satisfactory completion of an examination on the fundamentals of engineering as specified in 54-1223(2), Idaho Code. The Board will exempt an individual who has an earned bachelor's degree and an earned doctoral degree from an approved engineering program from the requirement for satisfactory completion of an examination on the fundamentals of engineering as specified in 54-1223(3), Idaho Code. (4-11-19)

12. **Review of Examination by Examinee.** Due to security concerns about the examinations, examinees are not allowed to review their examinations. Examinees who fail an examination will be provided a diagnostic analysis of their performance on the examination if such an analysis is available to the Board. (3-20-04)

13. **Proctoring of Examinations.** Unless otherwise approved, the Board will not proctor an examination for another jurisdiction except State-specific examinations, nor will they request another jurisdiction to proctor an examination for an Idaho applicant. (5-8-09)

018. **REEXAMINATIONS.**
The reexamination policy for each failed national examination will be established by NCEES. Reexamination for failed Idaho specific examinations will be allowed until a passing score is attained, but the Board may, in addition, require oral or other examinations. (4-11-19)

019. **LICENSEES OR CERTIFICATE HOLDERS OF OTHER STATES, BOARDS, AND COUNTRIES.**

01. **Interstate Licensure Evaluation.** Each application for an Idaho professional engineer license or professional land surveyor license submitted by an applicant who is licensed as a professional engineer, or licensed as a professional land surveyor, respectively, in one (1) or more states, possessions or territories or the District of Columbia, will be considered by the Board on its merits, and the application evaluated for substantial compliance with respect to the requirements of the Idaho law related to experience, examination, and education. A minimum of four (4) years of progressive experience after graduation with a bachelor of science degree is required for licensure. Individuals who have passed the National Council of Examiners for Engineering and Surveying (NCEES) examinations for professional engineering or professional land surveying will be considered to have satisfied the examination requirement for issuance of a license as a professional engineer or professional land surveyor provided that land surveyor applicants also pass the Idaho specific professional land surveying examination. Prescriptive education requirements are as follows: (4-11-15)

   a. Graduates from programs accredited by the Engineering Accreditation Commission of the ABET, Inc., (EAC/ABET), or graduates of university bachelor of science engineering programs accredited by the Canadian Engineering Accrediting Board, or those university bachelor of science engineering programs that are accredited by official organizations recognized by the U.K. Engineering Council, or graduates of engineering programs with coursework evaluated by the board as being substantially equivalent to EAC/ABET degrees, will be considered to have satisfied the educational requirement for issuance of a license as a professional engineer. (4-11-19)

   b. The Board may require an independent evaluation of the engineering education of an applicant who has a non-EAC/ABET accredited four (4) year bachelor degree. Such evaluation must be done through an organization approved by the Board and is done at the expense of the applicant to ensure that they have completed the coursework requirements of Subsection 019.01.c. Such evaluation is not required if the applicant has been licensed in another jurisdiction of the United States for an minimum of ten (10) years and has not had any disciplinary action against them and there is none pending, and possesses the education, experience and examination credentials that were specified in the applicable registration chapter in effect in this state at the time such certification was issued. The Board may table action on the application pending receipt of the evaluation, and, in the event the applicant does not provide the evaluation within one (1) year, the Board may terminate the application, in which case the application fee will be forfeited. (4-11-15)

   c. An applicant who was originally licensed in another jurisdiction after June 30, 1996, and who has completed a four (4) year bachelor degree program in engineering technology, or in a related science degree program other than engineering must have completed the following before the Board will consider them to possess knowledge and skill approximating that attained through graduation from an approved four (4) year engineering curriculum as required by Section 54-1212(1)(b), Idaho Code: (4-11-15)
Mathematics courses may include college algebra, trigonometry, analytic geometry, differential and integral calculus, technical content of the curriculum. Examples of traditional courses in this area are religion, history, literature, fine linear algebra, numerical analysis, probability and statistics, and advanced calculus. The credits in basic sciences must include at least two (2) courses. These courses must be in general chemistry, general calculus-based physics, or general biological sciences; the two (2) courses may not be in the same area. Additional basic sciences courses may include earth sciences (geology, ecology), advanced biology, advanced chemistry, and advanced physics. Computer skills and/or programming courses may not be used to satisfy mathematics or basic science requirements. Basic engineering science courses or sequence of courses in this area are acceptable for credit but may not be counted twice.

i. Thirty-two (32) college semester credit hours of higher mathematics and basic sciences. The credits in mathematics must be beyond algebra and trigonometry and must emphasize mathematical concepts and principles rather than computation. Courses in differential and integral calculus are required. Additional courses may include differential equations, linear algebra, numerical analysis, probability and statistics and advanced calculus. The credits in basic sciences must include at least two (2) courses. These courses must be in general chemistry, general calculus-based physics, or general biological sciences; the two (2) courses may not be in the same area. Additional basic sciences courses may include earth sciences (geology, ecology), advanced biology, advanced chemistry, and advanced physics. Computer skills and/or programming courses may not be used to satisfy mathematics or basic science requirements. Basic engineering science courses or sequence of courses in this area are acceptable for credit but may not be counted twice.

(3-25-16)

ii. Sixteen (16) college credit hours in a general education component that complements the technical content of the curriculum. Examples of traditional courses in this area are philosophy, religion, history, literature, fine arts, sociology, psychology, political science, anthropology, economics (micro and macro), professional ethics, social responsibility. Examples of other general education courses deemed acceptable include management (such as organizational behavior), accounting, written and oral communications, business, and law. No more than six (6) credit hours may come from courses in management, accounting, business, or law. Courses in engineering economics, engineering management, systems engineering/analysis, production, and industrial engineering/management will not be counted. Language courses in the applicant’s native language are not acceptable for credit; no more than six (6) credit hours of foreign language courses are acceptable for credit. Native language courses in literature and civilization may be considered in this area. Courses which instill cultural values are acceptable, while routine exercises of personal craft are not.

(3-25-16)

iii. Forty-eight (48) college credit hours of engineering science and engineering design courses. Courses in engineering science must be taught within the college / faculty of engineering having their roots in mathematics and basic sciences but carry knowledge further toward creative application of engineering principles. Examples of approved engineering science courses are mechanics, thermodynamics, heat transfer, electrical and electronic circuits, materials science, transport phenomena, and computer science (other than computer programming skills). Courses in engineering design stress the establishment of objectives and criteria, synthesis, analysis, construction, testing, and evaluation. Graduate level engineering courses may be included to fulfill curricular requirements in this area. Engineering technology courses cannot be considered to meet engineering topic requirements.

(3-25-16)

d. In regard to educational requirements, the Board will consider as unconditionally approved only those surveying programs that are accredited either by the Engineering Accreditation Commission (EAC), the Applied and Natural Science Accreditation Commission (ANSAC) or the Engineering Technology Accreditation Commission (ETAC) of ABET, Inc. An applicant who has completed a four (4) year bachelor degree program in a related program must have completed a minimum of the following college level academic courses, or their equivalents as determined by the Board, before the Board will consider them to possess knowledge and skill approximating that attained through graduation from an approved four (4) year surveying curriculum as required by Section 54-1212(2)(b), Idaho Code, for licensure as a professional land surveyor:

(3-29-17)

i. Eighteen (18) college semester credit hours of mathematics and basic sciences. A minimum of twelve (12) credits in mathematics must be beyond basic mathematics, but the credits include college algebra or higher mathematics. These courses must emphasize mathematical concepts and principles rather than computation. Mathematics courses may include college algebra, trigonometry, analytic geometry, differential and integral calculus, linear algebra, numerical analysis, probability and statistics, and advanced calculus. A minimum of six (6) credits must be in basic sciences. These courses must cover one or more of the following topics: general chemistry, advanced chemistry, life sciences (biology), earth sciences (geology, ecology), general physics, and advanced physics. Computer skills and/or programming courses may not be used to satisfy mathematics or basic science requirements;

(3-29-17)

ii. Sixteen (16) college semester credit hours in a general education component that complements the technical content of the curriculum. Examples of traditional courses in this area are religion, history, literature, fine arts, sociology, psychology, political science, anthropology, economics, professional ethics, and social responsibility. No more than six (6) credit hours of languages other than English or other than the applicant’s native language are
acceptable for credit. English and foreign language courses in literature and civilization may be considered in this area. Courses that instill cultural values are acceptable, while routine exercises of personal craft are not; (3-29-17)

iii. Thirty (30) college semester credit hours of surveying science and surveying practice. Courses must be taught by qualified surveying faculty. Examples of surveying courses are basic surveying, route surveying, geodesy, geographic information systems, land development design and planning, global positioning systems, photogrammetry, mapping, survey adjustment and coordinates systems, cartography, legal descriptions, and remote sensing. Required courses will include a minimum of basic surveying, route surveying, geodesy, surveying law, public land survey system and global positioning systems. Graduate-level surveying courses can be included to fulfill curricular requirements in this area. (3-29-17)

02. International Engineering Licensure Evaluation - Countries or Jurisdictions with Board Approved Licensure Process. The board may determine the professional engineering licensure process in other countries or jurisdictions within other countries is substantially equivalent to that required 54-1219 Idaho Code. As such, the board may waive prescriptive education and examination requirements if the applicant possesses a professional engineer license credential, attains a minimum of eight (8) years of experience after licensure, provided the applicant has no criminal or outstanding disciplinary action in any country or jurisdiction, and is in good standing with the licensing board within that country or jurisdiction. A bona fide licensing process in another country must include requirements of experience, education, testing, a code of professional responsibility, regulation of licensees including the ability take disciplinary action and the willingness, availability, and capacity of a foreign board to release information to the Idaho board in English. (4-11-15)

03. International Engineering Licensure Evaluation - Countries or Jurisdictions without a Board Approved Licensure Process. Each application for an Idaho professional engineer license submitted by an applicant who is licensed as a professional engineer in one (1) or more foreign countries or jurisdictions within a country, will be considered by the Board on its merits, and the application evaluated for substantial compliance with the requirements of Idaho law with respect to experience, examination, and education. A minimum of four (4) years of progressive experience after graduation is required for licensure. The Board will require two (2) years of experience working in the United States or two (2) years of experience working on projects requiring the knowledge and use of codes and standards similar to those utilized in the United States where the experience is validated by a professional engineer licensed in the United States. The Board may postpone acting on or deny an application for a license by comity if disciplinary or criminal action related to the applicant's practice has been taken or is pending in any country or jurisdiction. Applicants must have passed a professional engineering examination administered by NCEES. Applicants who meet the residency requirements of 54-1212, Idaho Code, may be assigned to an examination in Idaho when qualified by the Board after graduation from a program that meets the education requirements of the board. Prescriptive education requirements are as follows: (3-28-18)

a. Graduates of engineering university programs accredited by the Canadian Engineering Accrediting Board, or official organizations recognized by the U.K. Engineering Council, or graduates of engineering university programs accredited by EAC/ABET or evaluated by the board as being substantially equivalent to EAC/ABET programs will be considered to have satisfied the educational requirement for issuance of a license as a professional engineer. (3-28-18)

b. The Board may require an independent credentials evaluation of the engineering education of an applicant educated outside the United States who has a non-EAC/ABET accredited engineering degree. Such evaluation must be done through NCEES or another organization approved by the board and is done at the expense of the applicant. (3-28-18)

c. The Board may require an independent credentials evaluation of the education for an applicant who has completed a four (4) year bachelor degree program outside the United States in engineering technology, or in a related science degree program other than engineering and must demonstrate completion of the requirements of Subsection 019.01.c. before the Board will consider the applicant to possess the knowledge and skill approximating that attained through graduation from an approved four (4) year engineering curriculum as required by Section 54-1212(1)(b), Idaho Code. Such evaluation must be done through NCEES or another organization approved by the Board and is done at the expense of the applicant. (4-11-15)

The Board may waive the prescriptive licensure evaluation requirements of 019.03 for international applicants who, in the Board’s opinion, are qualified by reason of education and experience and offer unique technical expertise, provided the licensee meets the requirements of 54-1219 Idaho Code.

05. Denials or Special Examinations. An application from a licensee of another state, possession or territory, District of Columbia, or foreign country may be denied by the Board for any just cause and the application fee retained; or the Board may approve the applicant for a special written and/or oral examination.

06. Business Entity Requirements. No application for a certificate of authorization to practice or offer to practice professional engineering or professional land surveying, or both, in Idaho by a business entity authorized to practice professional engineering or professional land surveying, or both, in one (1) or more states, possessions or territories, District of Columbia, or foreign countries are considered by the Board unless such application includes the name and address of the individual or individuals, duly licensed to practice professional engineering or professional land surveying or both in this state, who will be in responsible charge of the engineering or land surveying services, or both, as applicable, to be rendered by the business entity in Idaho. The said individual or individuals must certify or indicate to the Board their willingness to assume responsible charge.

020. DISCONTINUED, RETIRED, AND EXPIRED LICENSES AND CERTIFICATES.

01. Reinstatement – Disciplinary. Licensees who choose to convert their license to retired status as part of a disciplinary action, or in lieu of discipline, or in lieu of compliance with continuing professional development requirements, may be reinstated upon written request. The board will consider the reinstatement request at a hearing or may waive the hearing for minor violations.

02. Reinstatement – Nondisciplinary. Licensees who chose to convert their license to retired status not as part of a disciplinary action or who want to reinstate an expired license may request reinstatement in writing. Reinstatement may require a hearing by the board.

03. Continuing Professional Development. Licensees requesting reinstatement must demonstrate compliance with the continuing professional development requirements described in IDAPA 10.01.04, “Rules of Continuing Professional Development,” as a condition of reinstatement.

04. Practice Not Permitted. Discontinued, retired, or expired status does not permit a licensee or certificate holder to engage in the practice of professional engineering or professional land surveying.

05. Designation. Licensees who chose retired status may represent themselves with the title of Professional Engineer Retired or Professional Land Surveyor Retired or similar designation.

06. Fee for Renewal. The fee for renewing a retired license is as established by the Board.

07. Fee for Reinstatement of Retired License. The fee for reinstatement of a retired license to active practice is as required for renewals in Section 54-1216, Idaho Code.

08. Fee for Reinstatement of Expired License. The fee for reinstatement of an expired license or certificate to active practice is as required for delayed renewals in Section 54-1216, Idaho Code.

09. Eligibility. Unless otherwise approved by the Board, only unexpired licensees are eligible to convert to retired status.

10. Discontinued Certificate of Authorization. Business entities no longer providing engineering or land surveying services in Idaho may request their certificates be discontinued. Reinstatement of a discontinued certificate may be requested by submitting a new application with the Board.

021. RIGHT TO PUBLISH DISCIPLINARY ACTIONS.
022. REQUIREMENTS TO BE CONSIDERED “EXCEPTIONAL” UNDER SECTION 54-1223(2), IDAHO CODE.

01. Waiver of the Fundamentals of Engineering Examination. In order to be considered “exceptional” under Section 54-1223(2), Idaho Code, an applicant for licensure as a professional engineer, either by examination or by comity, who seeks waiver of the fundamentals of engineering examination, must have a record of service and contributions beyond the ordinary in two (2) of the following three (3) areas:

a. Professional or technical;  
(4-5-00)
b. Business or industry; and  
(4-5-00)
c. Community or cultural.  
(4-5-00)

02. Activities Which the Board Believes are Exceptional. Examples of activities which the Board believes are exceptional are:

a. Serving as an officer or committee chair;  
(4-5-00)
b. Originating projects or initiatives;  
(4-5-00)
c. Investing time or energy into the community;  
(4-5-00)
d. Authoring significant publications; and  
(4-5-00)
e. Receiving significant awards.  
(4-5-00)

03. Activities Which the Board Believes Are Ordinary. Examples of activities which the Board believes are only ordinary are:

a. Completing routine job assignments;  
(4-5-00)
b. Holding membership in professional and technical societies;  
(4-5-00)
c. Contributing money to causes;  
(4-5-00)
d. Attending community events; and  
(4-5-00)
e. Owning a business.  
(4-5-00)

04. Written Request for Exceptional Designation. An applicant who seeks waiver of the fundamentals of engineering examination must submit a written request for the exceptional designation accompanied by two (2) written references supporting and explaining the applicants contributions that are beyond the ordinary.  
(4-5-00)

023. PROFESSIONAL ENGINEER LICENSURE FOR FACULTY APPLICANTS.
Written examinations related to applicable laws and rules for engineering licensure based upon criteria established by the board must be offered to Idaho college or university faculty applicants whose credentials have been approved by the board and who possess an earned doctorate degree. The credentials the board considers in this regard should include the applicant’s university course work completed, the applicant’s thesis and dissertation work, the applicant’s
peer reviewed publications, and the nature of the applicant’s professional experience. A satisfactory application, along with a passing score on the examination exempts the applicant from the written technical examinations, and may qualify the applicant for a restricted license as a professional engineer. The restricted license applies only to college or university related teaching upper division design subjects. All conditions for maintaining licensure, such as compliance with the laws and rules of the Board, fees and continuing professional development are the same as required for all licensees. The restricted license is effective from the date of issuance until such time as the licensee ceases to be a faculty member of an Idaho college or university, unless not renewed, retired, suspended or revoked and is subject to renewal requirements established in 54-1216, Idaho Code. Teaching and teaching work products are exempt from the requirements of sealing and signing engineering work under 54-1215(c), Idaho Code. Restricted licensees are not required to obtain a seal.

10.01.02 – RULES OF PROFESSIONAL RESPONSIBILITY

000. LEGAL AUTHORITY.
These rules are promulgated as authorized by Section 54-1208(1), Idaho Code. (7-1-93)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 10.01.02, “Rules of Professional Responsibility.” (5-8-09)

02. Scope. In order to establish and maintain a high standard of integrity, skills and practice in the professions of engineering and land surveying, and to safeguard the life, health, property and welfare of the public, these rules are binding in the state of Idaho upon every person holding a license as a Professional Engineer or Professional Land Surveyor, on all entities authorized to offer or perform engineering or land surveying services through a business entity or other legal entity and on every person holding a certificate as an engineer intern or a certificate as a land surveyor intern. Each Licensee and Certificate Holder under the laws of the state of Idaho is charged with being familiar with these Rules and knowledgeable in their application to the practice of engineering and land surveying. Such application must include the recognition that the practice of engineering or the practice of land surveying is a privilege and the Licensee or Certificate Holder must be forthright, candid, and timely in statements or written responses to the Board, or its representatives, on matters pertaining to these Rules. All Licensees or Certificate Holders in their original application, and for renewals thereof, must certify that they have read and agree to abide by the Rules which are in force at the time of application or renewal. These Rules will not be a basis for action involving civil liability, however, failure to obey these Rules may subject a Licensee or Certificate Holder to Board action pursuant to Chapter 12, Title 54, Idaho Code. (4-7-11)

002. ADMINISTRATIVE APPEALS.
Persons desiring to contest the actions taken in accordance with these rules may seek administrative relief under the Attorney General’s Rules, IDAPA 04, Title 11, Chapter 01, “Idaho Rules of Administrative Procedure of the Attorney General.” (7-1-98)

003. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency has written statements which pertain to the interpretation of the rules of this chapter, or to the documentation of compliance with the rules of this chapter. These documents are available for public inspection and copying at cost in the main office of this agency. (7-1-93)

004. DEFINITIONS.
For the purposes of these rules, the following terms are used as defined below: (7-1-93)

01. Board. The Board of Licensure of Professional Engineers and Professional Land Surveyors. (5-8-09)

02. Certificate Holder. Any person holding a current certificate as an Engineer Intern or a Land Surveyor Intern or a business entity (which is also herein referred to as a “person”) holding a current certificate of authorization, which has been duly issued by the Board. (5-8-09)

03. Deceit. To intentionally misrepresent a material matter, or intentionally omit to disclose a known material matter. (3-29-10)

04. Incompetence. Failure to meet the standard of care. (3-29-10)

05. Licensee. Any person holding a current license as a Professional Engineer, a Professional Land Surveyor, or a combination thereof, which has been duly issued by the Board. (5-8-09)

06. Misconduct. A violation or attempt to violate these rules of professional responsibility or to knowingly assist or induce another to do so, or do so through the acts of another; a finding of guilt of commitment of
a felony or a plea of guilty to a felony; commit fraud or deceit; failure to respond within twenty (20) days of an inquiry from the Board or its representative, unless such time is extended by the Board for justifiable cause; state or imply an ability to influence improperly a government agency or official. 

005. RESPONSIBILITY TO THE PUBLIC.

01. Primary Obligation. All Licensees and Certificate Holders must at all times recognize their primary obligation is to protect the safety, health and welfare of the public in the performance of their professional duties. 

02. Standard of Care. Each Licensee and Certificate Holder must exercise such care, skill and diligence as others in that profession ordinarily exercise under like circumstances. 

03. Professional Judgment. If any Licensee’s or Certificate Holder’s professional judgment is overruled under circumstances where the safety, health and welfare of the public are endangered, the Licensee or Certificate Holder must inform the employer or client of the possible consequences and, where appropriate, notify the Board or such other authority of the situation. 

04. Obligation to Communicate Discovery of Discrepancy. Except as provided in the Idaho Rules of Civil Procedure 26(b)(4)(B), if a Licensee or Certificate Holder, during the course of his work, discovers a material discrepancy, error, or omission in the work of another Licensee or Certificate Holder, which may impact the health, property and welfare of the public, the discoverer must make a reasonable effort to inform the Licensee or Certificate Holder whose work is believed to contain the discrepancy, error or omission. Such communication must reference specific codes, standards or physical laws which are believed to be violated and identification of documents which are believed to contain the discrepancies. The Licensee or Certificate Holder whose work is believed to contain the discrepancy must respond within twenty (20) calendar days to any question about his work raised by another Licensee or Certificate Holder. In the event a response is not received within twenty (20) days, the discoverer must notify the License or Certificate Holder in writing, who has another twenty (20) days to respond. Failure to respond (with supportable evidence) on the part of the Licensee or Certificate Holder whose work is believed to contain the discrepancy is considered a violation of these rules and may subject the Licensee or Certificate Holder to disciplinary action by the Board. The discoverer must notify the Board in the event a response that does not answer the concerns of the discoverer is not obtained within the second twenty (20) days A Licensee or Certificate Holder is exempt from this requirement if their client is an attorney and they are being treated as an expert witness. In this case, the Idaho Rules of Civil Procedure apply. 

05. Obligation to Comply with Rules of Continuing Professional Development. All Licensees must comply with the requirements contained in IDAPA 10.01.04, “Rules of Continuing Professional Development.” 

06. Obligation to Affected Landowners. Land surveyors have a duty to set monuments at the corners of their client’s property boundaries in compliance with 54-1227, Idaho Code. Per Subsection 005.04 above, land surveyors also have a duty to notify other licensees of a material discrepancy prior to setting monuments that represent a material discrepancy with a prior survey. If a monument is to be set at a location that represents a material discrepancy with an existing monument at any corner of record, land surveyors must also notify in writing all affected adjoining land owners and the Board prior to setting the new monument. 

006. COMPETENCY FOR ASSIGNMENTS.

01. Assignments in Field of Competence. A Licensee must undertake to perform assignments only when qualified by education or experience in the specific technical field involved, however, a Licensee, as the prime professional, may accept an assignment requiring education or experience outside of his own field of competence, but his services are restricted to those phases of the project in which the Licensee is qualified. All other phases of such project must be performed by qualified associates, consultants or employees. For projects encompassing one (1) or more disciplines beyond the Licensee’s competence, a Licensee may sign and seal the cover sheet for the total project only when the Licensee has first determined that all elements of the project have been prepared, signed and sealed by others who are competent, licensed and qualified to perform such services.
02. Aiding and Abetting an Unlicensed Person. A Licensee or Certificate Holder must avoid actions and procedures which, in effect, amount to aiding and abetting an unlicensed person to practice engineering or land surveying. (5-8-09)

03. Use of Seal on Documents. A Licensee must affix his signature and seal only to plans or documents prepared under his responsible charge. (5-8-09)

007. PUBLIC STATEMENTS.

01. Reports, Statements or Testimony. A Licensee or certificate holder must not commit fraud, violate the standard of care, or engage in deceit or misconduct in professional reports, statements or testimony. Each licensee or certificate holder must include all relevant and pertinent information in such reports, statements or testimony and will express opinions in such reports, statements or testimony in accordance with the standard of care. (3-29-17)

02. Opinions Based on Adequate Knowledge. A Licensee or Certificate Holder, when serving as an expert or technical witness before any court, commission or other tribunal, may express an opinion only when it is founded upon adequate knowledge of the facts in issue, upon a background of technical competence in the subject matter, and upon honest conviction of the accuracy and propriety of his testimony. (5-8-09)

03. Statements Regarding Public Policy. On matters connected with establishing public policy a Licensee or Certificate Holder may issue no statements, criticisms or arguments that are paid for by an interested party, or parties, unless he has prefaced his comment by explicitly identifying himself, by disclosing the identities of the party, or parties, on whose behalf he is speaking, and by revealing the existence of any pecuniary interest he may have in the matters. (5-8-09)

04. Actions in Regard to Other Licensees or Certificate Holders. A Licensee or Certificate Holder may not attempt to injure, maliciously or falsely, directly or indirectly, the professional reputation, prospects, practice or employment of another Licensee or Certificate Holder, nor may he indiscriminately criticize another Licensee’s or Certificate Holder’s work in public. If he believes that another Licensee or Certificate Holder is guilty of fraud, deceit, negligence, incompetence, misconduct or violation of these rules he should present such information to the Board for action. (5-8-09)

008. CONFLICT OF INTEREST.

01. Conflict of Interest to Be Avoided. Each Licensee or Certificate Holder must conscientiously avoid conflict of interest with an employer or client, and, when unavoidable, must forthwith disclose the circumstances in writing to the employer or client. In addition, the Licensee or Certificate Holder must promptly inform the employer or client in writing of any business association, interests, or circumstances which could influence a Licensee’s or Certificate Holder’s judgment or quality of service, or jeopardize the clients’ interests. (5-8-09)

02. Compensations From Multiple Parties on the Same Project. A Licensee or Certificate Holder may accept compensation, financial or otherwise, from more than one (1) party for services on the same project, or for services pertaining to the same project, provided the circumstances are fully disclosed, in writing, in advance and agreed to by all interested parties. (5-8-09)

03. Solicitation From Material or Equipment Suppliers. A Licensee or Certificate Holder may not solicit or accept financial or other valuable considerations from material or equipment suppliers for specifying or recommending the products of said suppliers, except with full disclosure as outlined in Subsection 008.02. (5-8-09)

04. Gratuities. A Licensee or Certificate Holder may not solicit or accept gratuities, gifts, travel, lodging, loans, entertainment or other favors directly or indirectly, from contractors, their agents or other third parties dealing with a client or employer in connection with work for which the Licensee or Certificate Holder is responsible, which can be construed to be an effort to improperly influence the Licensee’s or Certificate Holder’s professional judgment. Minor expenditures such as advertising trinkets, novelties and meals are excluded. Neither may a Licensee or Certificate Holder make any such improper offer. (5-8-09)
05. Solicitation From Agencies. A Licensee, a Certificate Holder or a representative thereof may not solicit or accept a contract from a governmental authority on which an existing officer, director, employee, member, partner, or sole proprietor of his organization serves as a member of the elected or appointed policy and governing body of such governmental authority or serves as a member of an entity of such governmental authority having the right to contract or recommend a contract for the services of a Licensee or a Certificate Holder. (3-20-14)

06. Professional Services Decisions of Agencies. A Licensee, Certificate Holder or representative thereof serving as a member of the governing body of a governmental authority, whether elected or appointed, or an advisor or consultant to a governmental board, commission or department may at all times be subject to the statutory provisions concerning ethics in government, Section 59-701, Idaho Code, et seq. A violation of the Ethics in Government Act will be considered a violation of these rules. (3-20-14)

07. Unfair Advantage of Position and Work Outside Regular Employment. When a Licensee or an individual Certificate Holder is employed in a full time position, the person may not use the advantages of the position to compete unfairly with other professionals and may not accept professional employment outside of that person’s regular work or interest without the knowledge of and written permission or authorization from that person’s employer. (5-8-09)

009. SOLICITATION OF WORK.

01. Commissions. A Licensee or Certificate Holder may not pay or offer to pay, either directly or indirectly, any commission, gift or other valuable consideration in an effort to secure work, except to bona fide employees or bona fide established business enterprises retained by a Licensee or Certificate Holder for the purpose of securing business or employment. (5-8-09)

02. Representation of Qualifications. A Licensee or Certificate Holder may not falsify or permit misrepresentation of his or his associates’ academic or professional qualifications, and may not misrepresent or exaggerate the degree of responsibility in or for the subject matter of prior assignments. Brochures or other presentations incidental to the solicitation of employment may not misrepresent pertinent facts concerning employers, employees, associates, joint-venturers or his or their past accomplishments with the intent and purpose of enhancing qualifications for the work. The Licensee or Certificate Holder may not indulge in publicity that is misleading. (5-8-09)

03. Assignment on Which Others Are Employed. A Licensee or Certificate Holder may not knowingly seek or accept employment for professional services for an assignment that another Licensee or Certificate Holder is employed, or contracted to perform without the currently employed or contracted entity being informed in writing. (5-8-09)

04. Contingency Fee Contracts. A Licensee or Certificate Holder may not accept an agreement, contract, or commission for professional services on a “contingency basis” that may compromise his professional judgment and may not accept an agreement, contract or commission for professional services that includes provisions wherein the payment of fee involved is contingent on a “favorable” conclusion, recommendation or judgment. (5-8-09)

05. Selection on the Basis of Qualifications. A Licensee or Certificate Holder should seek professional employment or professional service work on the basis of qualifications and competence for proper accomplishment of the work assignment. On selections for professional engineering and land surveying services that are required pursuant to Section 67-2320, Idaho Code, a licensee or certificate holder, in response to solicitations described in Section 67-2320, Idaho Code, may not submit information that constitutes a bid for services requested either as a consultant or subconsultant. (3-28-18)

010. IMPROPER CONDUCT.

01. Fraudulent or Dishonest Enterprises. A Licensee or Certificate Holder may not knowingly associate with, or permit the use of his name or the firm name in a business venture by any person or firm that it is known to be, or there is reason to believe, is engaging in business or professional practices of a fraudulent or
dishonest nature. (5-8-09)

02. **Confidentiality.** Licensees or Certificate Holders may not reveal confidential facts, data or information obtained in a professional capacity without prior written consent of the client or employer except as authorized or required by law. (5-8-09)

03. **Actions by Other Jurisdictions.** The surrender, revocation, suspension or denial of a license to practice Professional Engineering or Professional Land Surveying, as an individual or through a business entity, in another jurisdiction, for reasons or causes which the Board finds would constitute a violation of the Idaho laws regulating the practice of Engineering and Land Surveying, or any code or rules promulgated by the Board, is sufficient cause after a hearing for disciplinary action as provided in Title 54 Chapter 12, Idaho Code. (5-8-09)

011. **RULE AND STATUTE VIOLATIONS.**
The Board may, at its own discretion, initiate investigation of alleged or possible statute or rule violations that have come to its attention. (5-3-03)

012. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
As required in Section 55-1606, Idaho Code, the Board of Licensure of Professional Engineers and Professional Land Surveyors hereby establishes these rules for land survey corner perpetuation and filing. (5-8-09)

001. TITLE AND SCOPE.
01. Title. These rules are IDAPA 10.01.03, “Rules for Corner Perpetuation and Filing.” (5-8-09)
02. Scope. These rules include criteria for properly completing corner perpetuation and filing forms as set forth in Section 55-1604, Idaho Code. (7-1-93)

002. ADMINISTRATIVE APPEALS.
Persons desiring to contest the actions taken in accordance with these rules may seek administrative relief under the Attorney General’s Rules, IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.” (4-22-94)

003. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency does not have any written interpretations of the rules of this chapter. (7-1-93)

004. DEFINITIONS.
Definitions of words and terms contained in these rules are the same as those set forth in Section 55-1603, Idaho Code. (7-1-93)

005. FORM.
The form to be used in filing corner perpetuations in the state of Idaho shall be substantially the same as that form available from the Idaho Board of Licensure of Professional Engineers and Professional Land Surveyors, 1510 E. Watertower St., Ste. 110, Meridian, ID 83642-7993. Clear spaces on the form may be provided as requested and required by County Recorders in order to place recording information in an unobstructed area. The form is not available in quantity from the Board, but one (1) copy will be furnished, upon request, and it may be duplicated or reproduced. (5-8-09)

006. COMPLETION OF FORM.
Prior to filing of the form, the professional land surveyor performing the work shall complete the form in compliance with the requirements set forth in these rules. Additional information, for example latitude and longitude, with datum used, may be included. (5-8-09)

007. RECORD OF ORIGINAL CORNER AND SUBSEQUENT HISTORY.
Information provided in this section shall include the name of the original surveyor and the date or dates on which the original survey was performed and a description of the original monument set. The information shall also include the history of subsequent remonumentation, including the name(s) of the surveyor(s), the agency or company they represented, the date(s) of the survey(s) and a description of all monuments found or set, including all monuments and accessories that are not shown on previously recorded corner records. Information provided in this section shall also include the instrument numbers of all previously recorded corner records, or the filing information if the corner record was not recorded, pertaining to the corner in question. (4-11-15)

008. DESCRIPTION OF CORNER EVIDENCE FOUND.
Information provided in this section shall include a description of any evidence found relating to the original corner. If no evidence of the original corner is found, evidence of a subsequent remonumentation shall be indicated on the form. (4-11-15)
009. DESCRIPTION AND SKETCH OF MONUMENT AND ACCESSORIES FOUND OR ESTABLISHED TO PERPETUATE THE LOCATION OF THIS CORNER.
Information provided in this section shall include a description and a sketch of the monument and accessories found or placed in the current survey as well as the date the work was performed and the true or assumed magnetic declination at the time of the survey if magnetic bearings are used. If magnetic bearings are not used, the professional land surveyor shall indicate the basis of bearing to accessories. (4-11-15)

010. SURVEYOR'S CERTIFICATE.
The surveyor shall print his name, the license number issued by the Board of Licensure of Professional Engineers and Professional Land Surveyors, and the name of the employer for whom the surveyor is working. (5-8-09)

011. SEAL, SIGNATURE, DATE.
The surveyor shall place an imprint of his professional land surveyor seal, sign it and date it. (7-1-93)

012. MARKS ON MONUMENT FOUND OR SET.
The surveyor shall provide a sketch or legible image of the marks found or placed on the monument, if applicable. (5-8-09)

013. DIAGRAM.
The surveyor shall clearly mark on the section diagram the location of the monument found or being established or reestablished in the survey. (5-8-09)

014. LOCATION.
The surveyor shall state the county, section, township, range and the monument location being established or reestablished or found in the survey. (5-8-09)

015. -- 999. (RESERVED)
10.01.04 – RULES OF CONTINUING PROFESSIONAL DEVELOPMENT

000. LEGAL AUTHORITY.
These rules are promulgated as authorized by Section 54-1208(1), Idaho Code. (7-1-99)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 10.01.04, “Rules of Continuing Professional Development.” (5-8-09)

02. Scope. In order to establish and maintain a high standard of integrity, skills and practice in the professions of engineering and land surveying, and to safeguard the life, health, property and welfare of the public, these rules are binding in the state of Idaho upon every person holding a license to practice as a Professional Engineer or a Professional Land Surveyor, or both. Each Licensee under the laws of the state of Idaho is charged with being familiar with these rules and knowledgeable in their application to the practice of engineering or land surveying or both. Every Licensee must meet the continuing professional development requirements of these rules as one of the conditions for license renewal. If an individual is licensed to practice both engineering and land surveying the individual must comply with the requirements of these rules in regard to each profession. Some activities as defined herein may qualify as continuing professional development for both professions and may be included in the log for each profession. These rules will not be a basis for action involving civil liability, however, failure to obey these Rules may subject a Licensee to Board action pursuant to Chapter 12, Title 54, Idaho Code. (5-8-09)

002. ADMINISTRATIVE APPEALS.
Persons desiring to contest the actions taken in accordance with these rules may seek administrative relief under the Attorney General’s Rules, IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.” (7-1-99)

003. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency has written statements that pertain to the interpretation of the rules of this chapter, or to the documentation of compliance with the rules of this chapter. These documents are available for public inspection and copying at cost in the main office of this agency. (7-1-99)

004. DEFINITIONS.
For the purposes of these rules, the following terms are used as defined below: (7-1-99)

01. College Semester or Quarter Credit Hour. Credit for college courses. (7-1-99)

02. Continuing Education Unit (CEU). Unit of credit customarily used for continuing education courses. One (1) continuing education unit equals ten (10) hours of class in an approved continuing education course. (7-1-99)

03. Professional Development Hour (PDH). A contact hour (minimum of fifty (50) minutes) of instruction or presentation. The common denominator for other units of credit. (7-1-99)

04. Activity. Any qualifying action with a clear purpose and objective which will maintain, improve, or expand the skills and knowledge relevant to the licensee’s field of practice or practices. Routine job assignments are not considered qualified activities. (3-29-12)

05. Licensee. A person who is licensed to practice as a professional engineer or professional land surveyor or both. (5-8-09)

06. Board. The Idaho Board of Licensure of Professional Engineers and Professional Land Surveyors. (5-8-09)
07. Documented Self-Study. Documented study of professional/technical journals, published papers, articles, books, software or other areas of training which increase knowledge of the technology above and beyond routine job assignments. (5-8-09)

08. Active Participation. Serving as an officer or committee chair at either the national, state or local (section or chapter) level. (5-8-09)

005. REQUIREMENTS.
Every Licensee is required to obtain thirty (30) PDH units during the renewal period biennium (beginning on the first day of the month following the month in which the Licensee was born). Alternatively, the licensee may choose to obtain thirty (30) PDH units cumulative during the two (2) calendar years which are closest to the renewal period biennium. If a Licensee exceeds the biennial requirement in any renewal period or earns PDHs during a period in which he is exempt, a maximum of thirty (30) PDH units may be carried forward into the subsequent renewal period. If the exemption is for the “First Renewal Period” (see Rule 009.01), then at any time in the full biennium before this first license renewal the licensee may earn up to 30 PDHs to carry forward into their second renewal period following licensure. If the licensee chooses to use the calendar year basis, PDH’s in excess of thirty (30) cumulative in two (2) years, or PDH’s earned during a period in which he is exempt, can be carried forward to the next two (2) year calendar period, not to exceed thirty (30) PDH’s carried forward to the next two (2) year calendar period. PDH units may be earned in the following activities, however, PDH units must come from two (2) or more activities. (3-29-12)

01. Successful Completion of College Credits. (7-1-99)
02. Successful Completion of Continuing Education Units. (7-1-99)
03. Successful Completion of Other Courses. Correspondence, televised, videotaped, and other short courses/tutorials for which college credits or CEUs are awarded. (7-1-99)

04. Attending Qualifying Seminars. Attending qualifying seminars, inhouse courses, workshops, or technical or professional presentations made at meetings, conventions, or conferences. (7-1-99)

05. Teaching or Instructing. Teaching or instructing in Subsections 005.01 through 005.04 above, above and beyond routine job assignments. (7-1-99)

06. Authoring Published Papers, Articles, or Books. (7-1-99)
07. Membership in Technical or Professional Organizations. (7-1-99)
08. Active Participation in Technical or Professional Organizations. (7-1-99)
09. Patents. (7-1-99)
10. Presentations to Technical, Professional or Civic Organizations. (7-1-99)
11. Documented Self Study. (5-8-09)

006. UNITS.
The conversion of other units of credit to PDH (Professional Development Hour) units is as follows:

<table>
<thead>
<tr>
<th>Activity</th>
<th>PDH Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 College semester credit hour equals</td>
<td>45 PDH</td>
</tr>
<tr>
<td>1 College quarter credit hour equals</td>
<td>30 PDH</td>
</tr>
<tr>
<td>1 Continuing Education Unit equals</td>
<td>10 PDH</td>
</tr>
<tr>
<td>1 Hour of attendance in course work, seminars, or technical or professional presentations made at meetings, conventions, or conferences equals</td>
<td>1 PDH</td>
</tr>
<tr>
<td>Teaching the above, above and beyond normal job assignments, apply multiple of 2 for teaching the first time only</td>
<td></td>
</tr>
</tbody>
</table>
**007. DETERMINATION OF CREDIT.**
With the exception of those seminars and courses of continuing professional development offered by an organization registered with the Registered Continuing Education Providers Program of the American Council of Engineering Companies, which are preapproved, the Board will not pre-approve activities as qualifying for continuing professional development, but has final authority to judge the PDH value for all activities submitted to fulfill continuing professional development requirements. (5-8-09)

**008. RECORD KEEPING.**
Maintenance of records to support credits claimed is the responsibility of the Licensee. Records required include, but are not limited to:

1. **Log.** A log showing the type of activity claimed, sponsoring organization, location, duration, instructor’s or speaker’s name, and PDH credits earned; and

2. **Attendance Verification.** Attendance verification records in the form of completion certificates or other documents supporting evidence of attendance; Time sheets or expense sheets signed by the Licensee documenting the Continuing Professional Development activity claimed (sponsoring organization, location, duration, instructor’s or speaker’s name), time and/or expense related thereto, and claimed PDH credits earned are acceptable if attendance certificates are not available; or

3. **Records.** Records may be maintained by a repository for same.

4. **Documented Self-Study.** In order to qualify in this category, the licensee must prepare and retain an abstract of the material studied, the date the activity occurred and the number of PDH’s claimed, and a bibliographic reference of the material studied. A photocopy of pertinent parts of the material studied, annotated with the date the activity occurred and the number of PDH’s claimed, are deemed to meet this requirement.

5. **Record Retention.** All continuing professional development records must be maintained for a period of six (6) years and copies must be provided to the Board upon request for audit purposes.

**009. EXEMPTIONS.**
A Licensee may be exempt from the continuing professional development requirements for one (1) of the following reasons:

1. **First Renewal Period.** New Licensees by way of examination or comity may be exempt from compliance with these rules during the time between issuance of the license and the due date of their first renewal
following the issuance of the license. (5-8-09)

02. **Active Duty in the Armed Forces.** A Licensee serving on active duty in the armed forces of the United States, or a civilian deployed with the military, and temporarily assigned duty at a location other than their normal home station for a period of time exceeding one hundred twenty (120) consecutive days in a renewal period or the two (2) calendar year period closest to the renewal biennium is exempt from obtaining the professional development hours required during that renewal period or the two (2) calendar year period closest to the renewal biennium. (3-29-12)

03. **Extenuating Circumstances.** A Licensee experiencing physical disability, serious illness, or other extenuating circumstances accepted by the board. (7-1-99)

04. **Retired.** A Licensee who has chosen “Retired” status is exempt from the professional development hours required. In the event such a person elects to return to active practice of professional engineering or professional land surveying, professional development hours must be earned before returning to active practice. Thirty (30) PDH's must be earned for an exempted period less than four (4) years prior to the reinstatement request date. The thirty (30) PDH's earned must be earned within the previous two (2) years of the reinstatement request date. Sixty (60) PDH's must be earned for exempted periods of four (4) years or more prior to the reinstatement request date. The sixty (60) PDH's must be earned within the previous four (4) years of the reinstatement request date. All PDH's earned must comply with the requirements of this chapter. (3-25-16)

05. **Expired License.** A Licensee who has chosen to allow his license to expire is exempt from the professional development hours required. In the event such a person elects to reinstate the license, professional development hours must be earned and documented before reinstating the license. The requirements for PDH’s are the same as shown for retired licensees in Subsection 009.04. (3-25-16)

010. **COMITY/OUT-OF-JURISDICTION RESIDENTS.**
The CPD requirements for non-resident licensees are the same as that for resident licensees. (7-1-99)

011. **USE OF NCEES MODEL CPC STANDARD.**
Licensees have the option of complying with the requirements of this chapter, or may choose to comply with the National Council of Examiners for Engineering and Surveying (NCEES) Continuing Professional Competency (CPC) renewal standard as identified in the latest version of the NCEES Model Rule 240.30. This standard is found at http://ncees.org/wp-content/uploads/Model-Rules-2016.pdf. (3-25-16)

012. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections (Forensics) 67-2901, 18-8002A, 18-8004, 19-5504, 67-2919, (Forfeitures) 67-2901, 37-2744, (Motor Vehicles) 67-2901, 49-901, (Sex Offender Registry) 18-8304, 18-8305, (Commercial Vehicle Safety) 67-2901A, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 11, rules of the Idaho State Police:

**IDAPA 11**
- 11.03.01, Rules Governing Alcohol Testing
- 11.06.01, Rules Governing Civil Asset Forfeiture Reporting
- 11.07.01, Rules Governing Motor Vehicles-General Rules
- 11.07.02, Rules Governing Safety Glazing Material
- 11.07.03, Rules Governing Emergency Vehicles/Authorized Emergency Vehicles
- 11.10.03, Rules Governing the Sex Offender Registry
- 11.13.01, The Motor Carrier Rules

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Idaho State Police provides public safety through various programs on a vast array of topics including forensics services, coordinating civil asset forfeiture reporting, public safety while operating motor vehicles on roadways for both passenger and commercial vehicles, and processing, storing, and disseminating accurate information concerning persons convicted of crimes including convicted sex offenders. Failure to reauthorize these rules would eliminate the ability of the Idaho State Police to carry out the statutory duties of providing public safety services to law enforcement, prosecuting attorneys, the judicial system, and everyone who travels through or resides in the State of Idaho.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being
re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

000. LEGAL AUTHORITY.
The Director of the Idaho State Police has general rulemaking authority to prescribe rules and regulations for alcohol testing, pursuant to Section 67-2901, Idaho Code. (4-7-11)

001. TITLE AND SCOPE.
01. Title. These rules are titled IDAPA 11.03.01, “Rules Governing Alcohol Testing.” (4-7-11)
02. Scope. The rules relate to the governance and operation of the Alcohol Testing Program. (4-7-11)

002. WRITTEN INTERPRETATIONS.
There are no written interpretations of this rule. (4-7-11)

003. ADMINISTRATIVE APPEALS.
There is no provision for administrative appeals before the Idaho State Police under this chapter. (4-7-11)

004. INCORPORATION BY REFERENCE.
The following are incorporated by reference in this chapter of rules:

This document is available on the Internet at https://www.gpo.gov/fdsys/pkg/FR-2017-11-02/pdf/2017-23869.pdf. (12-14-17)

005. MAILING ADDRESS -- OFFICE HOURS -- WEBSITE.
The mailing address is Idaho State Police, Forensic Services, 700 S. Stratford Drive Suite 125, Meridian, ID 83642-6206. Lobby hours are Monday through Friday, 8 a.m. to 5:00 p.m. except holidays designated by the state of Idaho. Alcohol Testing information is available on the internet at http://www.isp.idaho.gov/forensics/index.html. (4-7-11)

006. PUBLIC RECORDS AVAILABILITY.
This rule is subject to and in compliance with the Public Records Act. (4-7-11)

007. -- 009. (RESERVED)

010. DEFINITIONS AND ABBREVIATIONS.
01. Alcohol. “Alcohol” means the chemical compounds of ethyl alcohol, methyl alcohol, or isopropyl alcohol. (4-11-15)
02. Approved Vendor. “Approved vendor” means a source/provider/manufacturer of an approved standard. (4-11-15)
03. Blood Alcohol Analysis. “Blood alcohol analysis” means an analysis of blood to determine the concentration of alcohol present. (7-1-93)
04. Breath Alcohol Analysis. “Breath alcohol analysis” means an analysis of breath to determine the concentration of alcohol present. (7-1-93)
05. Breath Alcohol Test. “Breath alcohol test” means a breath sample or series of separate breath
samples provided during a breath testing sequence.

06. Breath Alcohol Testing Sequence. “Breath alcohol testing sequence” means a sequence of events as determined by the Idaho State Police Forensic Services, which may be directed by the instrument, the Operator, or both, and may consist of air blanks, performance verification, internal standard checks, and breath samples. (4-11-15)

07. Breath Testing Certification Class. “Breath testing certification class” means a department approved training class for prospective or uncertified breath alcohol Operators/Breath Testing Specialists. (4-11-15)

08. Breath Testing Specialist (BTS). “Breath Testing Specialist” means an operator who has completed advanced training approved by the department and are certified to perform routine instrument maintenance, teach instrument operation skills, proctor proficiency tests for instrument Operators, and testifying as an expert on alcohol physiology and instrument function in court. (4-11-15)

09. Calibration. “Calibration” means a set of laboratory operations which establish under specified conditions, the relationship between values indicated by a measuring instrument or measuring system, or values represented by a material, and the corresponding known values of a measurement. (4-11-15)

10. Certificate of Analysis. “Certificate of analysis” means a certificate stating the standards used for performance verification have been tested and approved for use by the ISPFS or are manufactured by an ISO 17025:2005 vendor and are traceable to N.I.S.T. standards. (4-11-15)

11. Certificate of Instrument Calibration. “Certificate of instrument calibration” means a certificate stating that an individual breath alcohol testing instrument has been evaluated by the ISPFS and found to be suitable for forensic alcohol testing. The certificate bears the signature of the calibration analyst at Idaho State Police Forensic Services, and the effective date of the instrument approval. (4-11-15)

12. Changeover Class. “Changeover class” means a training class for currently certified Operators during which the Operator is taught theory, operation, and proper testing procedure for a new make or model of instrument being adopted by their agency. Breath Testing Specialists complete BTS training that qualifies them to perform BTS duties related to the new make or model instrument. (4-11-15)

13. Department. “Department” means the Idaho State Police. (7-1-93)

14. Deprivation Period. “Deprivation period” means a minimum time period of fifteen (15) minutes immediately prior to evidentiary breath alcohol testing during which the subject/individual shall not be allowed to smoke, drink, or eat substances containing alcohol. (4-11-15)

15. Evidentiary Test. “Evidentiary test” means a blood, breath, or urine test performed on a subject/individual for potential evidentiary or legal purposes. A distinction is made between evidentiary testing and non-quantitative screening/monitoring. (4-11-15)

16. Idaho State Police Forensic Services (ISPFS). “Idaho State Police Forensic Services” means a division of the Idaho State Police. ISPFS is dedicated to providing forensic science services to the criminal justice system of Idaho. ISPFS is the administrative body for the alcohol testing programs in Idaho. (4-11-15)

17. Laboratory. “Laboratory” means the place at which specialized devices, instruments and methods are used by trained personnel to measure the concentration of alcohol in samples of blood, vitreous humor, urine, or beverages for law enforcement purposes. (4-11-15)

18. MIP/MIC. “MIP/MIC” means an abbreviation used to designate minor in possession or minor in consumption of alcohol. (4-11-15)

19. Monitoring Period. “Monitoring Period” means a minimum deprivation period of fifteen (15) minutes immediately prior to evidentiary breath alcohol testing during which the subject/individual should be observed by the officer and any belch/burp/vomit/regurgitation should be noted by the operator. (4-11-15)
20. Operator Certification. “Operator certification” means the condition of having satisfied the training requirements for administering breath alcohol tests as established by the department. (4-11-15)

21. Operator. “Operator” means an individual certified by the department as qualified by training to administer breath alcohol tests. (4-11-15)

22. Performance Verification. “Performance verification” means a verification of the accuracy of the breath testing instrument utilizing a performance verification standard. Performance verification should be reported to three decimal places. While ISPFS uses the term performance verification, manufacturers and others may use a term such as “calibration check” or “simulator check.” (4-11-15)

23. Performance Verification Standard. “Performance verification standard” means an ethyl alcohol standard used for field performance verifications. The standard is provided or approved, or both, by the department. (4-11-15)

24. Proficiency Testing. “Proficiency testing” means a periodic analysis of blood, urine, or other liquid specimen(s) whose alcohol content is unknown to the testing laboratory, to evaluate the capability of that laboratory to perform accurate analysis for alcohol concentration. (4-11-15)

25. Quality Control. “Quality control” means an analysis of referenced samples whose alcohol content is known, which is performed with each batch of blood, vitreous humor, urine or beverage analysis to ensure that the laboratory’s determination of alcohol concentration is reproducible and accurate. (4-11-15)

26. Recertification Class. “Recertification class” means a training class offered by the department for currently certified personnel, completion of which results in uninterrupted continuation of their BTO or BTS status for an additional 2 years. (4-11-15)

27. Urine Alcohol Analysis. “Urine alcohol analysis” means an analysis of urine to determine the concentration of alcohol present. (7-1-93)

011. (RESERVED)

012. GENERAL PROVISIONS.
Continuation of Policies. All policies, training manuals, approvals of instruments, and/or certifications of officers in effect when the alcohol program was managed by the Department of Health and Welfare shall continue to be in effect in the Idaho State Police until the policy, training manual, approval and/or certification is changed or deleted by the Idaho State Police. (7-1-93)

013. REQUIREMENTS FOR LABORATORY ALCOHOL ANALYSIS.

01. Laboratory. Any laboratory desiring to perform urine alcohol, vitreous humor, blood alcohol, or beverage analysis shall meet the following standards: (4-11-15)

a. The laboratory shall prepare and maintain a written procedure governing its method of analysis, including guidelines for quality control and proficiency testing. A copy of the procedure shall be provided to ISPFS for initial approval. Whenever procedure, protocol, or method changes (however named) are adopted by a laboratory, a copy of the update with the changes clearly indicated shall be approved by ISPFS before implementation; (4-11-15)

b. The laboratory shall provide adequate facilities and space for the procedure used. The laboratory alcohol related functions shall be subject to an assessment by either an accrediting body or the department each calendar year, and the results from the annual audit shall be submitted to the department. The assessment shall be at the expense of the laboratory; (4-11-15)

c. Specimens shall be maintained in a limited access and secure storage area prior to analysis. A chain of custody shall be maintained while the evidence is in the laboratory; (4-11-15)

d. All instrumentation, equipment, reagents and glassware necessary for the performance of the
chosen procedure shall be on hand or readily available on the laboratory premises. Instrument maintenance documentation shall be available for review by the department;

(4-11-15)

e. The laboratory shall participate in approved proficiency testing and pass this proficiency testing according to standards set by the department. Laboratories must participate in proficiency testing from a department approved provider at least once a calendar year. Approved providers include National Highway Traffic Safety Administration (NHTSA) and Collaborative Testing Services (CTS). Each test consists of at least four (4) blood samples spiked with an unknown concentration of ethyl alcohol, and possibly other volatiles, for qualitative determination. Participating laboratories must obtain proficiency tests from approved providers and are responsible for all costs associated with obtaining and analyzing such tests. Results from proficiency tests must be submitted by the due date to the test provider and ISPFS. Results not submitted to a test provider within the allowed time do not qualify as a proficiency test. An alcohol concentration range is determined from the target value and ±3.0 standard deviations as provided by the proficiency test provider. Reported values must fall within this range. If a laboratory determines more than one (1) alcohol value for a given sample, the mean value of results will be submitted and evaluated. Upon satisfactory completion of an approved proficiency test, a certificate of approval will be issued by the department to the participating laboratory. Approval to perform legal blood alcohol determinations is continued until the results of the next proficiency test are reviewed and notification is sent to the respective laboratory by ISPFS. Failure to pass a proficiency test shall result in immediate suspension of testing by an analyst or laboratory in the form of a written inquiry from the department. The test is graded as unsuccessful when the mean results are outside the tolerance range established from the accepted mean values. The laboratory shall have thirty (30) calendar days to respond to the department inquiry. The department shall notify the laboratory within fourteen (14) calendar days regarding corrective action steps necessary to lift the testing suspension, or the department may issue a written revocation. The department shall not lift a proficiency testing related suspension or revocation until a successful proficiency test has been completed by the individual analyst or laboratory.

(4-11-15)

f. For a laboratory performing blood, urine, vitreous humor, or beverage analysis for alcohol, approval shall be awarded to the laboratory director or primary analyst responsible for that laboratory. The responsibility for the correct performance of tests in that laboratory rests with that person; however, the duty of performing such tests may be delegated to any person designated by such director or primary analyst. The department may temporarily suspend or permanently revoke the approval of a laboratory or analyst if the listed requirements are not met. The department will issue the suspension or revocation in writing to the laboratory director or primary analyst responsible;

(4-11-15)

g. Reinstatement after revocation requires completed corrective action of any items listed on the revocation documentation issued by the department. Documentation of corrective actions taken to address the nonconformities shall be submitted to the department for review. Once the department is satisfied that the laboratory is in compliance with all requirements, the department will issue written approval for the resumption of testing by that laboratory or analyst. A laboratory may appeal a suspension or revocation to the Director of the department.

(4-11-15)

02. Blood Collection. Blood collection shall be accomplished according to the following requirements:

(7-1-93)

a. Blood samples shall be collected using sterile, dry syringes and hypodermic needles, or other equipment of equivalent sterility;

(7-1-93)

b. The skin at the area of puncture shall be cleansed thoroughly and disinfected with an aqueous solution of a nonvolatile antiseptic. Alcohol or phenolic solutions shall not be used as a skin antiseptic;

(7-1-93)

c. Blood specimens shall contain at least ten (10) milligrams of sodium fluoride per cubic centimeter of blood plus an appropriate anticoagulant.

(4-4-13)

03. Blood Reported. The results of analysis on blood for alcohol concentration shall be reported in units of grams of alcohol per one hundred (100) cubic centimeters of whole blood.

(4-11-15)

04. Urine Collection. Urine samples shall be collected in clean, dry containers.

(4-11-15)
05. **Urine Reported.** The results of analysis on urine for alcohol concentration shall be reported in units of grams of alcohol per sixty-seven (67) milliliters of urine. Results of alcohol analysis of urine specimens shall be accompanied by a warning statement about the questionable value of urine alcohol results. (4-11-15)

06. **Records.** All records regarding proficiency tests, quality control and results shall be retained for three (3) years. (7-1-93)

### 014. REQUIREMENTS FOR PERFORMING BREATH ALCOHOL TESTING.

01. **Instruments.** Each breath testing instrument model shall be approved by the department and shall be listed in the “Conforming Products List of Evidential Breath Measurement Devices” published in the Federal Register by the United States Department of Transportation as incorporated by reference in Section 004 of this rule. The department will maintain a list of benchtop and portable instruments approved for evidentiary testing use in Idaho. Each individual breath testing instrument must be certified by the department. The department may, for cause, remove a specific instrument by serial number from evidentiary testing and suspend or withdraw certification thereof. (4-11-15)

02. **Report.** Each direct breath testing instrument shall report alcohol concentration as grams of alcohol per two hundred ten (210) liters of breath. (7-1-93)

03. **Administration.** Breath tests shall be administered in conformity with standards established by the department. Standards shall be developed for each type of breath testing instrument used in Idaho, and such standards shall be issued in the form of Idaho administrative rules, ISPFS analytical methods, and ISPFS standard operating procedures. (4-11-15)

   a. The breath alcohol test must be administered by an operator (BTO or BTS) currently certified in the use of the instrument. (4-11-15)

   b. Prior to administering the monitoring period, any foreign objects/materials which have the potential to enter the instrument/breath tube or may present a choking hazard (e.g. gum, chewing tobacco, food) should be removed. (4-11-15)

   c. The operator shall administer a monitoring period prior to evidentiary testing. (4-11-15)

   d. If mouth alcohol is suspected or indicated by the testing instrument, the operator shall begin another fifteen (15) minute monitoring period if repeating the testing sequence. If during the monitoring period the subject/individual vomits or regurgitates material from the stomach into the breath pathway, the monitoring period should start over. If there is doubt as to the events occurring during the monitoring period (e.g. silent burp, belch, vomit, regurgitation), the operator should evaluate the instrument results for any indication of mouth alcohol. (4-11-15)

   e. A complete breath alcohol test includes two (2) valid breath samples taken during the testing procedure and preceded by air blanks. The subsequent breath samples performed with a portable breath testing instrument should be approximately two (2) minutes apart or more. If the subject/individual fails or refuses to provide a subsequent, adequate sample as requested by the operator, the single test result shall be considered valid. If a single test result is used, then the subject must have been observed during the fifteen (15) minute monitoring period. For hygienic reasons, the operator should use a new mouthpiece for each subject/individual tested. (4-11-15)

   f. The operator has the discretion to end breath testing, repeat breath testing, or request a blood draw at any point during the testing process as the circumstances require (including but not limited to lack of sample correlation, lack of subject participation or cooperation, subject is incoherent or incapable of following instructions, subject incapacitation). If a subject/individual fails or refuses to provide a subsequent, adequate sample as requested by the operator, the results obtained are still considered valid, provided the failure to supply the requested samples was the fault of the subject/individual and not the operator. (4-11-15)

   g. A third breath sample shall, when possible, be collected if the first two (2) results differ by more than 0.02 g/210L alcohol. Unless mouth alcohol is indicated or suspected, it is not necessary to repeat the monitoring
period prior to obtaining a third breath sample.  

h. The results for subsequent breath samples should correlate within 0.02 g/210L alcohol to show consistent sample delivery, indicate the absence of RFI, and to indicate the absence of alcohol contamination in the subject/individual’s breath pathway as a contributing factor to the breath results.  

i. In the event of an instrument failure, the operator should attempt to utilize another instrument or have blood drawn.  

04. Training. Each individual operator (BTO or BTS) shall demonstrate sufficient training to operate the instrument correctly. This shall be accomplished by successfully completing a training course approved by the department on each instrument model utilized by the operator. Operator certifications issued after July 1, 2013 are valid for two (2) calendar years from the course completion date. The department may revoke individual operator (BTO/BTS) certification for cause.  

05. Performance Verification Checks. Each breath testing instrument shall be checked for accuracy with a performance verification standard approved by the department. Performance verification checks shall be performed according to a procedure established by the department and shall be documented. The official time and date of the performance verification is the time and date recorded on the printout, or the time and date recorded in the log.  

a. A performance verification check shall occur within twenty-four (24) hours before or after an evidentiary test. The benchtop instrument requires a performance verification check as part of the testing sequence. On the portable instrument, multiple breath alcohol tests may be covered by a single performance verification.  

b. A performance verification on a portable instrument consists of two (2) samples at either the 0.08 or 0.20 level. Both samples must be run with the same performance verification standard. Three (3) attempts at obtaining an acceptable performance verification are allowed. Troubleshooting measures may be employed during this process. If the third performance verification fails, the instrument shall be taken out of service. The instrument shall not be returned to service until it has been calibrated and certified by ISPFS.  

c. A performance verification acquired during a breath testing sequence on an approved benchtop instrument consists of one (1) sample at either the 0.08 or 0.20 level. A performance verification acquired outside the breath testing sequence on an approved benchtop instrument consists of two (2) samples at either the 0.08 or 0.20 level. Three (3) attempts at obtaining an acceptable performance verification are allowed. Troubleshooting measures may be employed during this process. If the third performance verification fails, the instrument must be taken out of service. The instrument must not be returned to service until it has been calibrated and certified by ISPFS.  

d. Performance verification checks must be within +/- 10% of the performance verification standard target value.  

e. A wet bath 0.08 performance verification standard should be replaced with fresh standard approximately every twenty-five (25) verifications or every calendar month, whichever comes first. For a closed loop, recirculating system (e.g. the Intox 5000 series), the 0.08 performance verification standard should be replaced with fresh standard approximately every one hundred (100) verifications or every calendar month, whichever comes first.  

f. A wet bath 0.20 performance verification standard should be replaced with fresh standard approximately every twenty-five (25) verifications.  

g. Dry gas performance verification standards may be used continuously without replacement until the canister is spent or the expiration date is reached.  

h. Performance verification standards should not be used beyond the expiration date.  

i. If Section 18-8004C, Idaho Code, (excessive alcohol concentration) is applicable, then a 0.20
performance verification must be run and results documented once per calendar month. Failure to perform a 0.20 performance verification will not invalidate any tests where Section 18-8004C, Idaho Code, is not applicable. A performance verification with a 0.20 standard does not need to be performed within twenty-four (24) hours of an evidentiary breath test in excess of 0.20 g/210L alcohol.

j. Temperature of the wet bath simulator shall be between thirty-three point five degrees Celsius (33.5°C) and thirty-four point five degrees Celsius (34.5°C) in order for the performance verification results to be valid. (4-11-15)

k. An agency may run additional performance verification standard levels at their discretion. (4-11-15)

06. Records. Operators must document and retain test results (i.e. written log, printout, or electronic database). All records regarding maintenance and results shall be retained for three (3) years. ISPFS is not responsible for storage of documentation not generated by ISPFS. (4-11-15)

07. Deficiencies. Failure to meet any of the conditions listed in Sections 013 and 014. Any laboratory or breath testing instrument may be disapproved for failure to meet one (1) or more of the requirements listed in Sections 013 and 014, and approval may be withheld until the deficiency is corrected. (4-7-11)

08. Standards. Premixed alcohol simulator solutions shall be from an approved vendor and explicitly approved in writing by the department before distribution within Idaho. Dry gas standards from ISO 17025:2005 certified providers are explicitly approved by the department for use in Idaho without evaluation by the department. (4-11-15)

09. MIP/MIC. The presence or absence of alcohol is the determining factor in the evidence in an MIP/MIC case. The instrumentation used in obtaining the breath sample is often the same instrumentation utilized for acquiring DUI evidence. The different standard of evidence requires different standards for the procedure. (4-11-15)

a. Fifteen (15) minute monitoring period: The monitoring period is not required for the MIP/MIC procedure. (4-11-15)

b. The breath alcohol test must be administered by an operator currently certified in the use of that instrument. (4-11-15)

c. The instrument used must be certified by ISPFS. The instrument only needs to be initially certified by ISPFS. Initial certification shows that the instrument responds to alcohols and not to acetone. The instrument does not need to be checked regularly or periodically with any of the 0.08 or 0.20 standard. (4-11-15)

d. The officer should have the individual being tested remove all loose foreign material from their mouth before testing. False teeth, partial plates, or bridges installed or prescribed by a dentist or physician do not need to be removed to obtain a valid test. The officer may allow the individual to briefly rinse their mouth out with water prior to the breath testing. Any alcohol containing material left in the mouth during the entirety of the breath test sampling could contribute to the results in the breath testing sequence. (4-11-15)

e. A complete breath alcohol test includes two (2) valid breath samples taken from the subject and preceded by an air blank. The subsequent breath samples do not need to be consecutive samples from the same subject. The individual breath samples should be approximately two (2) minutes apart or more. A deficient or insufficient sample does not automatically invalidate a test sample. The operator should use a new mouthpiece for each individual. (4-11-15)

f. A third breath sample is required if the first two (2) results differ by more than 0.02 g/210L alcohol. In the event that all three (3) samples fall outside the 0.02 g/210L alcohol correlation, and testing indicates or the officer suspects mouth alcohol, they must administer a fifteen (15) minute monitoring period and then retest the subject. If mouth alcohol is not suspected or indicated by the test results, then the officer may retest the subject without administering a monitoring period. (4-11-15)
g. The operator should manually log test results and/or retain printouts for possible use in court.
   
   (4-11-15)

h. The instrument must not be in passive mode for the testing of subjects for evidential purposes.
   
   (4-11-15)

i. The passive mode of testing using the Lifeloc FC20 or ASIII should be used for testing liquids or
   containers of liquid for the presence or absence of alcohol.
   
   (4-11-15)

015. -- 999. (RESERVED)
11.06.01 – RULES GOVERNING CIVIL ASSET FORFEITURE REPORTING

000. LEGAL AUTHORITY.

01. General. The Director of the Idaho State Police has general rulemaking authority to prescribe rules for civil asset forfeiture reporting, pursuant to Section 67-2901, Idaho Code. (6-30-19)

02. Specific. In accordance with Section 37-2744 (Chapter 27, Article V), Idaho Code, the Idaho State Police is authorized to promulgate such rules and forms it deems necessary to carry out the provisions and mandate of said Section 37-2744, Idaho Code. (6-30-19)

007. -- 009. (RESERVED)

010. DEFINITIONS.

01. Authorized Emergency Vehicle. Authorized emergency vehicle means any vehicle that the Director designates, upon a finding that the vehicle is necessary for the preservation of life or property or to the execution of an emergency governmental function. (7-1-93)

02. Limited Authorized Vehicle. Limited authorized emergency vehicle means a vehicle to which a limited authorization is issued by the Director for limited emergency uses as defined by the Director upon agreement with an applicant under terms specified therein. (7-1-93)

03. Driver. Driver means every person who is in actual physical control of an authorized emergency vehicle. (7-1-93)

04. Operation. Operation means the driving or moving by any driver on a public highway of any
emergency vehicle which requires authorization from the Director. (7-1-93)

011. PURPOSE.

01.  General. The purpose of this chapter is to specify a procedure to be followed to obtain approval for authorized emergency vehicles. Pursuant to Section 49-218, Idaho Code, the Director may designate any particular vehicle as an authorized emergency vehicle upon a finding that designation of that vehicle is necessary to the preservation of life or property or to the execution of an emergency governmental function. (5-3-03)

02.  Emergency Vehicles. This chapter will not pertain to emergency vehicles as defined by Section 49-123, Idaho Code, i.e., vehicles operated by any fire department or law enforcement agency of the state of Idaho or political subdivision thereof, and ambulances of any public utility or public service corporation. (5-3-03)

012. AUTHORIZATION REQUIREMENTS.

01.  General. Any person, firm, corporation, or municipal corporation, desiring to have a vehicle registered as an authorized emergency vehicle, pursuant to Section 49-218, Idaho Code, must apply for authorization to the Director on forms provided by the department. (5-3-03)

02.  Required. The applicant must furnish the following information to the department and do the following:

   a. A description of the specific geographic area in which the vehicle will be used as an authorized emergency vehicle. (7-1-93)

   b. A description of the specific purposes for which the vehicle will be used as an emergency vehicle. (7-1-93)

   c. A description of the emergency vehicle listing year, make, model, vehicle identification number and license plate number. (7-1-93)

   d. A description of the emergency lighting equipment to be used on the emergency vehicle. (7-1-93)

   e. A description of the emergency horns or warning devices to be used on the emergency vehicle. (7-1-93)

   f. Written documentation indicating the emergency vehicle will have radio communications between a central dispatch location and, when applicable, between other emergency vehicles. (7-1-93)

   g. Maintain a certificate or liability and property damage insurance executed by an insurer authorized to transact insurance business with the state. A copy of such certificate must be on file in the Director’s office and must be updated upon each renewal period, with notice of renewal being filed with the Director. The certificate must show expiration date, liability (single event and aggregate) and property damage coverage. (7-1-93)

   h. An explanation of the nature and the scope of the duties, responsibilities and the authority of the vehicle driver which necessitates the vehicle’s registration as an authorized emergency vehicle. (7-1-93)

   i. A list of the names, addresses, birthdates, social security numbers of all persons who use the vehicle as an authorized emergency vehicle. (7-1-93)

   j. Written documentation as to the emergency vehicle driving courses and hours of instruction completed by each driver. (7-1-93)

   k. A recommendation by the chief law enforcement officer or fire chief, if the vehicle is to be used for fire fighting purposes, of each jurisdiction in which the vehicle is to be used as an authorized emergency vehicle stating that a need exists in such jurisdiction for the vehicle to be used as described in the application. The Director may issue emergency vehicle authorization to vehicles which operate throughout the state. (7-1-93)
013. LIMITED AUTHORIZED EMERGENCY VEHICLE.

01. General. Any person, firm, corporation, or municipal corporation, desiring to have a vehicle registered as a limited authorized emergency vehicle must apply for authorization to the Director on forms provided by the department. (7-1-93)

02. Information. The applicant must furnish the following information to the department: (7-1-93)
   a. A description of the emergency vehicle listing year, make, model, vehicle identification number and license plate number. (7-1-93)
   b. A description of the emergency lighting equipment to be used on the emergency vehicle. (7-1-93)

03. Requirements. Each driver of an authorized emergency vehicle must: (7-1-93)
   a. Be eighteen (18) years of age or older. (7-1-93)
   b. Not have been convicted in any court within three (3) years of an offense of driving under the influence of alcohol, drugs, or any other intoxicating substance, reckless driving, failure to stop or report an accident, or any other conviction which the Director may deem a disqualifier to drive an authorized emergency vehicle. (7-1-93)
   c. Not have had driving privileges suspended for any reason within the last three (3) years. (7-1-93)

014. AUTHORIZATION LIMITATIONS.

01. Durations. The authorization proved by the Director will be for one (1) year. The application for continued emergency vehicle authorization or limited emergency vehicle authorization must be renewed prior to the expiration date. (7-1-93)

02. Restrictions. An authorized emergency vehicle may not be used except as follows: (7-1-93)
   a. Only by the drivers named on the original or amended application. (7-1-93)
   b. Only with the equipment described in the original or amended application. (7-1-93)
   c. Only within the geographical area described in the original or amended application. (7-1-93)
   d. Only for the purposes set forth in the original or amended application. (7-1-93)

03. Limited Restriction. A limited authorized emergency vehicle may not be used except as follows: (7-1-93)
   a. Where a lane of traffic is obstructed or at the discretion of a peace officer, it may display a red, flashing light. (7-1-93)
   b. To gain access to accident or emergency scenes, it may use interstate system emergency crossovers, provided such usage is done in a safe manner. (7-1-93)
   c. It is unlawful and cause for immediate revocation of the limited authorization if red lights are used while traveling to or from an incident or an emergency or for any reason not described herein. (7-1-93)

015. -- 020. (RESERVED)

021. EQUIPMENT REQUIRED.
01. **Authority.** Pursuant to Section 49-901, Idaho Code, the Director has authority to approve and disapprove warning lighting devices on emergency vehicles and to issue and enforce regulations for such emergency warning lighting devices. (5-3-03)

02. **Equipment.** Every authorized emergency vehicle must be equipped in conformance with Section 49-623(3), Idaho Code, with at least one (1) red light visible in a three hundred and sixty (360) degree arc at a distance of one thousand feet (1000') under normal atmospheric conditions and/or an audible signaling device having a decibel rating of at least one hundred (100) decibels at a distance of ten feet (10'). (5-3-03)

022. **PROCEDURE.**

01. **Approval.** If the Director approves the application, he may issue a certificate of approval which is valid for thirty (30) days, during which time the emergency equipment may be installed. After installation of the emergency equipment, the applicant must bring the vehicle to a district office of the Idaho State Police to be examined to determine if the equipment is of an approved type and is properly mounted. An Idaho State Police officer must certify the results of this examination on a form prescribed and provided by the department, and the applicant must file the form with the Idaho State Police, P.O. Box 55, Boise, Idaho 83707. (7-1-93)

02. **Carried.** The certificate of approval, and when issued the agreement or copies thereof, including all endorsements for changes of conditions, must be carried in the authorized emergency vehicle or limited authorized emergency vehicle at all times and must be displayed upon request of any law enforcement officer. (7-1-93)

03. **Violation.** Violation of any of the Rules is grounds for suspension or revocation of the authorized emergency vehicle agreement or limited authorized emergency vehicle agreement without prior written notice or opportunity for hearing. (7-1-93)

04. **Authorization.** Any authorization may be terminated at any time without cause or prior written notice or opportunity for hearing by the Director or his designated representative. (7-1-93)

05. **Copy.** A copy of the authorized emergency vehicle certificate approved by the Director or limited authorization certificate approved by the Director must be carried in each authorized vehicle and shown to any peace officer upon request. (7-1-93)

06. **Valid.** Any renewals or new applications expire on June 30 of each subsequent year following. (7-1-93)

023. -- 999. (RESERVED)
000. **LEGAL AUTHORITY.**
The Idaho State Police has authority to make rules to implement the sex offender central registry pursuant to Title 18, Chapter 83, Idaho Code, Sections 18-8301 through 18-8331. (3-29-12)

007. -- 009. (RESERVED)
DEFINITIONS.
The terms defined in Section 67-3001, Idaho Code, will have the same meaning in these rules. In addition, the following terms shall have the meanings set forth below:

02. Central Registry. “Central Registry” means the state-level records system containing information, photographs and fingerprints relating to persons required to register as a sex offender under Title 18, Chapters 83 and 84, Idaho Code.

03. Department. “Department” means the Idaho State Police.

04. Director. “Director” means the director of the Idaho State Police.

05. Substantially Equivalent. “Substantially Equivalent” means any sex offense related crime, regardless of whether a felony or misdemeanor, that consists of similar elements defined in Title 18 of the Idaho Criminal Code. It does not mean exactly the same, nor exactly identical to.

06. Working Days. “Working Days” means each day except Saturday, Sunday, or a legal state holiday.

SEX OFFENDER CENTRAL REGISTRY -- ADMINISTRATION.

01. Central Registry Established. Pursuant to Title 18, Chapter 83, Idaho Code, the department establishes a sex offender central registry in the bureau of criminal identification. The bureau is responsible for administration of the central registry pursuant to the requirements set forth in Title 18, Chapters 83 and 84, Idaho Code and these rules.

02. Forms. The following forms and procedures will be used to provide notice to and collect information from persons required to register as a sex offender pursuant to Title 18, Chapters 83 and 84, Idaho Code.

a. “Idaho Sex Offender Registry Form.” This three (3) page form notifies an offender of registration requirements and collects from an offender information required for registration or any change of address or status, as required by statute.

b. “Idaho Sex Offender Registry Homeless - Location Verification Form.” This one (1) page form is used during weekly reporting to collect from an offender the information required when the offender does not provide a physical address at the time of registration.

03. Registration Location. An offender who is required to register either as an adult under Title 18, Chapter 83, Idaho Code, or as a juvenile under Title 18, Chapter 84, Idaho Code, must notify and register at the sheriff’s office in the county where the offender’s primary address is located.

04. Photographs and Fingerprints. Whenever the Idaho Sex Offender Registry Form is used to register an offender, it will be submitted to the central registry with the offender’s photograph, fingerprints, and palmprints.

a. An offender’s photograph will be in color. The sheriff will forward a copy of the photograph with tagging information so it may easily be located by registry staff in the department of transportation photo database. Photographs submitted to the central registry will be a copy of the new photographs taken at the time of each registration. From collected registration fees, the sheriff will pay to the state the cost of photography materials lawfully required by a state agency or department.

b. The sheriff will also submit the required fingerprints on the federal bureau of investigation form.
FD-249. For each registrant, the sheriff will forward one (1) FBI fingerprint card with each registration Form.

(3-29-12)

c. The sheriff will also submit the required palmprints on the federal bureau of investigation form. For each registrant, the sheriff will forward one (1) set of FBI palmprint cards with each registration form, unless a set was previously submitted.

(3-29-12)

05. Notification to Local Law Enforcement. Lists of all offenders registered within a county are available on the sex offender registry web site located at http://isp.idaho.gov/sor_id/. The bureau will notify the appropriate county law enforcement agency with jurisdiction any time the bureau becomes aware of a change of status or change of residence of a registered sex offender; and of a registered offender’s intent to reside in an agency’s jurisdiction. Whenever practical, the bureau will provide notification using the Idaho law enforcement telecommunication system (ILETS).

(3-29-12)

06. Notification to Other Jurisdictions. Within one (1) working day of receiving notification that a registered sex offender is moving to another jurisdiction, the bureau will notify the receiving jurisdiction’s designated sex offender registration agency of the move by mail or electronic means.

(3-29-12)

07. Expungement of Central Registry Information.

(3-18-99)

a. Upon receipt of a certified copy of a death certificate recording the death of a person registered with the central registry, the bureau will expunge all records concerning the person from the central registry.

(3-29-12)

b. Upon receipt of a duly attested copy of a pardon issued by the governor of the jurisdiction where the conviction was entered and then reported to the central registry, the bureau will expunge all records concerning the conviction from the central registry. If the pardoned person has no other conviction requiring registration, the bureau will expunge all references concerning the person from the central registry.

(3-29-12)

c. Upon receipt of a duly attested document from a court clerk that a conviction previously reported to the central registry has been reversed by the court of conviction, the bureau will expunge all records concerning the conviction from the central registry, provided that the person has no other conviction requiring registration.

(3-29-12)

i. Expungement of a record will not occur in cases where a court has ordered a dismissal for a withheld judgment.

(3-29-12)

d. Pursuant to Section 18-8310(5), Idaho Code, if a person is exempted from the registration requirement by court order, the bureau will expunge all records and references concerning the offender from the central registry.

(3-29-12)

08. Determination of Substantially Equivalent or Similar Crime.

(3-29-12)

a. A person convicted of a sex offense in another jurisdiction and who moves to, works in, or becomes a student in Idaho may be required to register as a sex offender in Idaho pursuant to Title 18, Chapters 83 or 84, Idaho Code.

(3-25-16)

b. The bureau shall determine if a person's out-of-jurisdiction conviction is substantially equivalent or similar to an Idaho sex related offense, as defined by Idaho's Criminal Code, for the purposes of requiring a person to register in Idaho.

(3-29-12)

c. The bureau may make all substantially equivalent determinations using the following documents:

(3-25-16)

i. Police Report (of the incident related to the sex offense);

(3-25-16)

ii. Indictment or Information or other lawful charging document;

(3-25-16)
iii. Judgment or Order (of sex-offense conviction); (3-25-16)

iv. Psychosexual Evaluation Report; and (3-25-16)

v. Order of Probation. (3-25-16)

d. If a person seeks a substantially equivalent determination by the bureau before moving to, working in, or becoming a student in Idaho, that person shall provide a completed application and attach certified copies of all above-named documents to the bureau. If all documents are not provided as required by this rule, the application and any documents provided shall be returned to the applicant. (3-25-16)

e. The bureau shall issue a substantially equivalent determination within sixty (60) days upon receipt of a completed application and the required documents. (3-25-16)

f. The bureau’s determination is a declaratory ruling as defined by Chapter 52, Title 67, Idaho Code. (3-25-16)

g. Judicial review of the bureau's determination shall be made in accordance with Chapter 52, Title 67, Idaho Code. (3-25-16)

013. -- 999. (RESERVED)
11.13.01 – THE MOTOR CARRIER RULES

000. LEGAL AUTHORITY.
These rules are promulgated pursuant to the authority granted to the Idaho State Police pursuant to Section 67-2901A, Idaho Code. (4-5-00)

001. TITLE AND SCOPE.

01. Title. The title of these rules is IDAPA 11.13.01, “The Motor Carrier Rules.” (4-5-00)

02. Scope. These rules apply to intrastate motor carriers under the jurisdiction of the Idaho State Police and, when provided in the rule, to interstate or foreign carriers providing transportation of persons or property over highways of the state of Idaho by motor vehicles in the furtherance of their business or for hire. These rules should be construed in connection with applicable state laws, not preempted by federal laws, both of which govern the interpretation of these rules. (4-5-00)

002. WRITTEN INTERPRETATIONS -- AGENCY GUIDELINES.
The Idaho State Police Commercial Vehicle Safety Program Manager is authorized to make and give informal interpretations of the terms and definitions found in the Idaho Code, this Department’s rules applicable to motor carriers and other filings relating to motor carriers maintained by the Department pursuant to law. (3-29-10)

003. ADMINISTRATIVE APPEALS.
All administrative appeals under the Motor Carrier Rules are conducted under IDAPA 04.11.01 et seq, “Idaho Rules of Administrative Procedure of the Attorney General.” (4-5-00)

004. INCORPORATION BY REFERENCE.
In accordance with Section 67-5229, Idaho Code, the following sections of the Code of Federal Regulations, specifically 49 CFR, and 40 CFR are herein incorporated by reference: (3-25-16)

01. Safety Fitness Procedures (See Section 012). Adoption of Federal Regulations, 49 CFR subtitle, chapter III. subchapter B - Federal Motor Carrier Safety Regulations; and 49 CFR subtitle B, chapter I. subchapter C- Hazardous Materials Regulations. Amendments to the annual volumes are published in the Federal Register, pending their incorporation in the next annual volumes. Whenever a federal regulation is adopted by reference in these rules, subsequent recombinations are also adopted by reference, but subsequent amendments are not. (3-25-16)

02. Transportation of Hazardous Materials, Substances, and Wastes (See Section 018). Adoption of Federal Regulations. 40 CFR Part 262 and 49 CFR Parts 107, 171, 172, 173, 177, 178 and 180 are hereby adopted by reference. All interstate and foreign carriers and all intrastate carriers subject to the safety authority of the Idaho State Police while operating in Idaho that transport hazardous materials, substances or wastes listed in, defined by or regulated by 49 CFR Parts 107, 171, 172, 173, 177, 178 and 180 and 49 CFR Parts 107, 171, 172, 173, 177, 178 and 180 and 49 CFR Parts 171, 172, 173, 177, 178 and 180 applicable to motor carriers and their shippers, and the laws and rules of the state of Idaho. The CFRs are also available for inspection and copying at the office of the Idaho State Police and the Idaho State Law Library. Whenever any of these federal regulations exempt intrastate carriers from any of their requirements, the rule at IDAPA 11.13.01, “The Motor Carrier Rules,” Section 018, removes that exemption and subjects intrastate carriers to the same requirements. The Department asserts its authority under these rules, IDAPA 11.13.01, “The Motor Carrier Rules,” Section 018, to the maximum extent allowed by Section 67-2901A, Idaho Code, Public Laws 89-670 and 89-170 (see 49 U.S.C. 502(c)(3)), 49 CFR Part 388. (3-25-16)

a. Version of Federal Regulations Adopted. Per Section 49-2212, Idaho Code, the federal regulations adopted by reference in Section 018 of these rules, are those contained in the compilations of 40 CFR Part 262 published in the Code of Federal Regulations volume dated July 1, 1998, and as subsequently recompiled, and those contained in the compilations of 49 CFR Parts 107, 171, 172, 173, 177, 178 and 180 published in the Code of Federal Regulations volume dated October 1, 1998, and as subsequently recompiled, and all amendments to these rules appearing in the Federal Registers. Amendments to the annual volumes are published in the Federal Register pending their incorporation in the next annual volumes. The CFRs are also available for inspection and copying at the office of the Idaho State Police and the Idaho State Law Library. (3-29-17)
03. **Carrier Safety Requirements (See Rule 19).** Adoption of Federal Regulations 49 CFR Parts 356, 365, 380, 382, 383, 385, 386, 387, 388 and 390 through 399 are hereby adopted by reference. Whenever any one (1) of these federal regulations (except Section 391.11(b)(1)) exempts intrastate carriers from any of their requirements, the rule at IDAPA 11.13.01, “The Motor Carrier Rules,” Section 019, removes that exemption and subjects the intrastate carrier to the same requirements. The Department asserts its authority under Section 019 of these rules to the maximum extent allowed by Section 67-2901A, Idaho Code, Public Laws 89-679 and 89-170 (see 49 U.S.C. 502(c)(3)), 49 CFR Part 388.

04. **Availability of Incorporated Documents.** The 49 CFRs can be found on the Federal Motor Carrier Safety Administration website at www.fmcsa.dot.gov or copies may be viewed at the office of the Idaho State Police.

05. **OFFICE -- OFFICE HOURS -- MAILING ADDRESS AND STREET ADDRESS.**

01. **Office Hours.** Office hours are 8 a.m. to 5 p.m., Mountain Time, Monday through Friday, except holidays designated by the state of Idaho.

02. **Mailing Address.** The mailing address for the headquarters office is Idaho State Police, 700 S. Stratford Drive, Meridian, Idaho 83642.

03. **Street Address.** The headquarters office of the Idaho State Police is located at 700 S. Stratford Drive, Meridian, Idaho 83642.

06. **PUBLIC RECORD ACT COMPLIANCE.**

All materials in motor carrier files, except those that are investigatory records under Section 74-105(1), Idaho Code, are public records available for inspection, examination and copying. Investigatory records are not public records, but may be examined or disclosed by the object of the investigation pursuant to Section 9-335, Idaho Code.

07. **(RESERVED)**

08. **FORMS.**

The Idaho State Police Commercial Vehicle Safety Program Manager is authorized to produce and distribute forms and reports to carry out these rules.

09. **RELIEF FROM REGULATIONS.**

The Department may issue a declaration of emergency relieving intrastate carriers from the requirements of 49 CFR Parts 390 through 399 adopted by reference in Section 019 of these rules following the declaration of an emergency. The maximum duration of the declaration of emergency, the particular rules in 49 CFR Parts 390 through 399 from which the carrier is relieved from complying, and all other aspects relieved from regulation are the same as provided in those Federal regulations.

10. **DEFINITIONS.**

Whenever any term used in these rules is defined or referred to in the Idaho Code, that term takes its statutory definition in these rules.

01. **Commercial Motor Vehicle (CMV).** Any self-propelled or towed motor vehicle used on a highway in interstate or intrastate commerce to transport passengers or property when the vehicle:

a. Has a gross vehicle weight rating (GVWR) or gross combination weight rating (GCWR), or gross vehicle weight (GVW) or gross combination weight (GCW), of four thousand, five hundred thirty-six kilograms (4,536 kg.), (ten thousand, one pounds (10,001 lbs.)) or more, whichever is greater; or
b. Is designed or used to transport more than eight (8) passengers, including the driver, for compensation; or (3-29-10)

c. Is designed or used to transport more than fifteen (15) passengers, including the driver, and is not used to transport passengers for compensation; or (3-29-10)

d. Is used in transporting material found by the Secretary of Transportation to be hazardous under 49 U.S.C. 5103 and transported in a quantity requiring placarding under regulations prescribed by the Secretary under 49 CFR, Subtitle B, Chapter I, Subchapter C. (3-29-10)

02. Department. Means the Idaho State Police. (4-5-00)

03. Highway. Means the public roads, highways, and streets of the State. (4-5-00)

04. Interstate Carrier. Means any person owning or operating any motor vehicle in the state of Idaho or on the highways of the state of Idaho, in commerce between the States, or between the States and a foreign Nation, used or maintained for the transportation of persons or property. (4-5-00)

05. Motor Carrier. Means an individual, partnership, corporation or other legal entity engaged in the transportation by motor vehicle of persons or property in the furtherance of a business or for hire. (4-5-00)

06. Motor Vehicle. Means any vehicle, machine, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used upon the highway in the transportation of passengers and/or property, but does not include any vehicle, locomotive, or car operated exclusively on a rail or rails. (4-5-00)

07. Person. Means any individual, firm, co-partnership, corporation, company, association, or joint stock association, and includes any trustee, receiver, assignee, or personal representative thereof. (4-5-00)

08. Transportation. Includes all vehicles operated by, for, or in the interest of any motor carrier irrespective of ownership or contract, express or implied, together with all services, facilities and property furnished, operated or controlled by any such carrier or carriers and used in the transportation of passengers and/or property in commerce in the state of Idaho. (3-29-10)

011. (RESERVED)

012. SAFETY FITNESS PROCEDURES.

01. Purpose and Scope. (4-5-00)

a. The purpose of this Section 012 is to establish procedures to determine the safety fitness of motor carriers, assign safety ratings, take remedial action when required and prohibit motor carriers receiving a safety rating of “unsatisfactory” from operating a commercial motor vehicle: (4-5-00)

i. To provide transportation of hazardous materials for which vehicle placarding is required in accordance with 49 CFR Part 172, subpart F; or (4-5-00)

ii. To transport more than fifteen (15) passengers, including the driver. (4-5-00)

b. All provisions of Section 012 apply to all motor carriers subject to the requirement of this subchapter. (4-5-00)

02. Definitions. The following definitions apply to Section 012. (4-5-00)

a. Applicable safety regulations or requirements. Means 49 CFR subtitle, chapter III. subchapter B- Federal Motor Carrier Safety Regulations; and 49 CFR subtitle B, chapter I. subchapter C- Hazardous Materials Regulations. Amendments to the annual volumes are published in the Federal Register, pending their incorporation in the next annual volumes. The CFRs are also available for inspection and copying at the office of the Idaho State Police.
Police and the Idaho State Law Library. Whenever a federal regulation is adopted by reference in these rules, subsequent recompilations are also adopted by reference, but subsequent amendments are not. (3-25-16)

b. Preventable accident on the part of a motor carrier. Means an accident that:
   i. Involved a commercial motor vehicle, and
   ii. Could have been averted but for an act, or failure to act, by the motor carrier or the driver. (4-5-00)

c. Reviews. For the purposes of Section 012:
   i. Compliance review. Means an onsite examination of motor carrier operations, which may be at the carrier’s place of business, including driver’s hours of service, vehicle maintenance and inspection, driver qualifications, commercial driver’s license requirements, financial responsibility, accidents, hazardous materials, and such other related safety and transportation records to determine safety fitness. (4-5-00)

   (1) A compliance review may be conducted in response to a request to change a safety rating, to investigate potential violations of safety regulations by motor carriers, or to investigate complaints or other evidence of safety violations. (4-5-00)

   (2) A compliance review may result in the initiation of an enforcement action. (4-5-00)

   ii. Safety management controls. Means the systems, policies programs, practices, and procedures used by a motor carrier to ensure compliance with applicable safety and hazardous materials regulations which ensure the safe movement of products and passengers through the transportation system, and to reduce the risk of highway accidents and hazardous materials incidents resulting in fatalities, injuries, and property damage. (4-5-00)

d. Safety ratings. Means, for the purposes of this Section 012:
   i. Satisfactory safety rating. Means that a motor carrier has in place and functioning adequate safety management controls to meet the safety fitness standard prescribed in Subsection 012.03 of this rule. Safety management controls are adequate if they are appropriate for the size and type of operation of the particular motor carrier. (4-5-00)

   ii. Conditional safety rating. Means a motor carrier does not have adequate safety management controls in place to ensure compliance with the safety fitness standard that could result in occurrences listed in Subsection 012.03 of this rule. (4-5-00)

   iii. Unsatisfactory safety rating. Means a motor carrier does not have adequate safety management controls in place to ensure compliance with the safety fitness standard which has resulted in occurrences listed in Subsection 012.03 of this rule. (4-5-00)

   iv. Unrated carrier. Means that a safety rating has not been assigned to the motor carrier. (4-5-00)

03. Safety Fitness Standard. The satisfactory safety rating is based on the degree of compliance with the safety fitness standard for motor carriers. To meet the safety fitness standard, the motor carrier must demonstrate that it has adequate safety management controls in place, which function effectively to ensure acceptable compliance with applicable safety requirements to reduce the risk associated with:

a. Commercial driver’s license standards violations. (4-5-00)

b. Inadequate levels of financial responsibility. (4-5-00)

c. The use of unqualified drivers. (4-5-00)

d. Improper use and driving of motor vehicles. (4-5-00)
e. Unsafe vehicles operating on the highways. (4-5-00)
f. Failure to maintain accident register and copies of accident reports. (4-5-00)
g. The use of fatigued drivers. (4-5-00)
h. Inadequate inspection, repair, and maintenance of vehicles. (4-5-00)
i. Transportation of hazardous materials, driving and parking rule violations. (4-5-00)
j. Violation of hazardous materials regulations. (4-5-00)
k. Motor vehicle accidents and hazardous materials incidents. (4-5-00)

04. Factors to Be Considered in Determining a Safety Rating. The factors to be considered in determining the safety fitness and assigning a safety rating include information from safety reviews, compliance reviews and any other data. The factors may include all or some of the following: (4-5-00)

a. Adequacy of safety management controls. The adequacy of controls may be questioned if their degree of formalization or automation is found to be substantially below the norm for similar carriers. Violations, accidents or incidents substantially above the norm for similar carriers will be strong evidence that management controls are either inadequate or not functioning properly. (4-5-00)
b. Frequency and severity of regulatory violations. (4-5-00)
c. Frequency and severity of driver/vehicle regulatory violations identified in roadside inspections. (4-5-00)
d. Number and frequency of out-of-service driver/vehicle violations. (4-5-00)
e. Increase or decrease in similar types of regulatory violations discovered during safety or compliance reviews. (4-5-00)
f. Frequency of accidents; hazardous materials incidents; accident rate per million miles; preventable accident rate per million miles; and other accident indicators; and whether these accident and incident indicators have improved or deteriorated over time. (4-5-00)
g. The number and severity of violations of state safety rules, regulations, standards, and orders applicable to commercial motor vehicles and motor carrier safety that are compatible with Federal rules, regulations, standards and orders. (4-5-00)

05. Determination of Safety Fitness. Following a compliance review of a motor carrier operation, the Idaho State Police Commercial Vehicle Safety Program Manager, using the factors prescribed in Subsection 012.04 of this rule, will determine whether the present operations of the motor carrier are consistent with the safety fitness standards set forth in Subsection 012.03 of this rule. (3-29-10)

06. Notification of a Safety Fitness Rating. Following a compliance review, the Idaho State Police Commercial Vehicle Safety Program Manager will determine the safety fitness of a motor carrier and notify the motor carrier and the Department in writing. Notification will include a list of those items for which immediate corrective actions must be taken. (3-29-10)

07. Motor Carrier Certification. Upon notification of violations cited in the compliance review and recommendations made to correct violations a motor carrier must certify to the Idaho State Police Commercial Vehicle Safety Program Manager, within thirty (30) days, whether all corrective actions identified by the safety review have been taken. Certification required by this subsection must be made to the Idaho State Police Commercial Vehicle Safety Program Manager. Failure to certify or falsely certifying under Section 012 of this Chapter will be considered a reporting violation under Section 67-2901B(3), Idaho Code. (4-5-00)
013. -- 017. (RESERVED)

018. TRANSPORTATION OF HAZARDOUS MATERIALS, SUBSTANCES, AND WASTES.

01. Obligation of Familiarity with Rules. All interstate and foreign carriers and all intrastate carriers subject to this Rule at IDAPA 11.13.01, “The Motor Carrier Rules,” Section 018, that transport hazardous materials, substances or wastes listed in, defined by or regulated by 49 CFR Parts 107, 171, 172, 173, 177, 178 and 180 must obtain copies of these federal regulations and make them available to their drivers and other personnel handling hazardous materials, substances or wastes and must familiarize their drivers and other personnel handling hazardous materials, substances or wastes with any regulation pertaining to the particular material, substance or waste that is transported. The annual volumes of the CFRs may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Amendments to the annual volumes are published in the Federal Register, pending their incorporation in the next annual volumes. The CFRs are also available for inspection and copying at the office of the Idaho State Police and the Idaho State Law Library. Failure to be familiar with these federal regulations adopted by reference is a violation of Section 018 of this Chapter for any carrier transporting such cargoes. The federal regulations adopted by reference in this Section 018 have the following subject matter: (4-5-00)

a. Part 107. Hazardous Materials Program Procedures. (4-5-00)
b. Part 171. General Information, Regulations and Definitions. (4-5-00)
c. Part 172. Hazardous Materials Table, special provisions, hazardous materials communications, emergency response information, and training requirements. (3-29-10)
d. Part 173. Shippers-General Requirements for Shipments and Packaging. (4-5-00)
e. Parts 174-176. (Not adopted regulations for railroads, aircraft and vessels). (4-5-00)
f. Part 177. Carriage by Public Highway. (4-5-00)
g. Part 178. Specifications for packagings. (3-29-10)
h. Part 179. (Not adopted regulations for rail tanker cars). (4-5-00)
i. Part 180. Continuing Qualification and Maintenance of Packagings. (3-29-10)

02. Recognition of Federal Waivers. Whenever a carrier has applied to a federal agency and been granted a waiver of the packaging requirements of the federal regulations adopted in Subsection 018.01, the federal waiver will also be recognized under these rules. The Department will not administer a program to duplicate consideration or approval of federal waivers on the state level. (4-5-00)

03. Hazardous Materials. As used here in Section 018, means a substance or material that the Secretary of Transportation has determined is capable of posing an unreasonable risk to health, safety, and property when transported in commerce and has designated as hazardous under section 5103 of the Federal hazardous materials transportation law (49 U.S.C. 5103). The term includes hazardous substances, hazardous wastes, marine pollutants, elevated temperature materials, materials designated as hazardous in the Hazardous Materials Table (see 49 CFR 172.101), and materials that meet the defining criteria for hazard classes and divisions in Part 173 of Subchapter C of Title 49 of the Code of Federal Regulations. (3-29-10)

04. Hazardous Substances. As used in this Section 018, means a material, its mixtures or solutions, that is listed in the Appendix A to 49 CFR 172.101 and that is in a quantity in one (1) package that equals or exceeds the reportable quantity (RQ) listed in the Appendix A to 49 CFR 172.101. (3-29-10)

05. Hazardous Waste. As used in this Section 018, means any material that is subject to the Hazardous Waste Manifest requirements of the U.S. Environmental Protection Agency. See 40 CFR Part 262. (4-5-00)
019. CARRIER SAFETY REQUIREMENTS.

01. Adoption of Federal Regulations - Exceptions.

a. All interstate and foreign carriers and intrastate carriers, except those carriers listed in Subsection 019.01.b. of this rule, subject to the safety authority of the Idaho State Police while operating in Idaho that transport passengers or property, must comply with 49 CFR Parts 356, 365, 382, 383, 385, 387, 388 and 390 through 399, and the law and rules of the state of Idaho (except Part 391.11(b)(1) for intrastate carriers). (3-30-07)

b. Intrastate carriers operating commercial motor vehicles transporting property with a GVW, GVWR, GCW or GCWR greater than ten thousand (10,000) pounds and up to twenty-six thousand (26,000) pounds, subject to the authority of the Idaho State Police, must comply with 49 CFR Part 390 Subpart A, Part 391.15, Parts 392, 393, and Part 396.1, 396.3(a), (a)(1), and (a)(2), and 396.5 through 396.9 and the law and rules of the state of Idaho. All intrastate carriers transporting placardable quantities of hazardous material under 49 CFR Part 172, Subpart F and passengers, meeting the definition of a commercial motor vehicle, must comply with 49 CFR Parts 356, 365, 382, 383, 385, 387, 388 and 390 through 399, and the law and rules of the state of Idaho (except Part 391.11(b)(1) for intrastate carriers). (3-30-07)

c. The subject matter of 49 CFR 391.11(b)(1) is a twenty-one (21) year minimum age for drivers of commercial vehicles subject to federal safety regulation. Intrastate carriers subject to the safety authority of the Idaho State Police may hire drivers who are eighteen (18) years or older as set forth in Section 49-303, Idaho Code. (3-30-07)

02. Obligation of Familiarity with Rules. All interstate and foreign carriers and all intrastate carriers subject to these Rules at IDAPA 11.13.01, “The Motor Carrier Rules,” Section 019, must obtain copies of the federal regulations adopted by reference in Subsection 019.01 of this rule, and make them available to their drivers and other personnel affected by the regulations. Failure to be familiar with these federal regulations adopted by reference is a violation of this Subsection 019.02 of this rule, for any carrier subject to those regulations. The federal regulations adopted by reference address the following subject matter:

a. Part 356. Motor Carrier Routing Regulations. (3-29-10)
b. Part 365. Rules Governing Application for Operating Authority. (3-29-10)
c. Part 380. Longer Combination Vehicle (LCV) Driver-Training and Driver-Instructor Requirements. (3-29-17)
d. Part 382. Controlled Substance and Alcohol Use and Testing. (4-5-00)
e. Part 383. Commercial Driver’s License Standards; Requirements and Penalties. (4-5-00)
f. Part 385. Safety Fitness Procedures. (3-29-10)
g. Part 386.71-84. Rules of Practice for Motor Carrier, Intermodal Equipment Provider, Broker, Freight Forwarder, and Hazardous Materials Proceedings. (4-4-15)
h. Part 387. Minimum Levels of Financial Responsibility. (3-29-10)
i. Part 388. Cooperative Agreements with States. (4-5-00)
j. Part 390. Federal Motor Carrier Safety Regulations: General. (4-5-00)
k. Part 391. Qualifications of Drivers. (4-5-00)
l. Part 392. Driving of Commercial Motor Vehicles. (3-29-10)
m. Part 393. Parts and Accessories Necessary for Safe Operation. (4-5-00)
n. Part 395. Hours of Service of Drivers. (4-5-00)
o. Part 396. Inspection, Repair and Maintenance. (4-5-00)
p. Part 397. Transportation of Hazardous Materials; Driving and Parking Rules. (4-5-00)
q. Part 398. Transportation of Migrant Workers. (4-5-00)
r. Part 399. Employee Safety and Health Standards. (4-5-00)

03. Recognition of Federal Waivers. Whenever a driver or carrier has applied to a federal agency and been granted a waiver from any of the requirements of the federal regulations adopted in Subsection 019.01 of these rules, the federal waiver will also be recognized under these rules. The Department reserves the authority to implement a waiver program and grant waivers on the state level for intrastate commercial motor vehicle drivers. (4-5-00)

04. Availability of Incorporated Documents. The 49 CFRs can be found on the Federal Motor Carrier Safety Administration website at www.fmcsa.dot.gov or copies may be viewed at the office of the Idaho State Police. (3-29-10)

020. -- 029. (RESERVED)

030. INTERSTATE AND FOREIGN COMMERCE. Applicability of Rules. The following rules apply to motor carriers when engaged in interstate or foreign commerce in Idaho: (4-5-00)

01. IDAPA 11.13.01, “The Motor Carrier Rules,” Section 018 of These Rules. Transportation Of Hazardous Materials, Substances, And Wastes. (4-5-00)

02. IDAPA 11.13.01, “The Motor Carrier Rules,” Section 019 of These Rules. Motor Carrier Safety Requirements. (4-5-00)

031. OBEDIENCE AND COMPLIANCE WITH RULES AND REGULATIONS, FORCE OF LAW.

01. Proof of Compliance Required. Whenever requested by an employee of this Department whose duties include enforcement of any of these rules and regulations, all motor carriers and their agents or employees are required to demonstrate proof of compliance with these rules at IDAPA 11.13.01, “The Motor Carrier Rules.” (4-5-00)

02. Sanctions. The failure of any motor carrier to obey and comply with these rules at IDAPA 11.13.01, “The Motor Carrier Rules,” is just and sufficient cause for imposition of the sanctions authorized by Title 67, Chapter 29, Idaho Code. (4-5-00)

03. Force of Law. These rules at IDAPA 11.13.01, “The Motor Carrier Rules,” have the force and effect of law and violations of them may be subject to punishment as a misdemeanor, as provided by Section 67-2901A of the Idaho Code. (4-5-00)

032. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections (Alcohol Beverage Control) 23-616, 23-932, 23-946, 23-1010(7), 23-1011A, 23-1330, 23-1408, (Bureau of Criminal Identification) 67-3001, 67-3003, 67-3004, 67-3007, 67-3009, 67-3010, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 11, rules of the Idaho State Police:

IDAPA 11
• 11.05.01, Rules Governing Alcohol Beverage Control
• 11.10.02, Rules Governing State Criminal History Records and Crime Information

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Idaho State Police Alcohol Beverage Control is tasked with issuing licenses, maintaining priority waiting lists, inspecting new and existing premises, and enforcing violations of Idaho criminal statutes. The Idaho state central repository of criminal history records is an automated database of records based on fingerprint arrest records reported to BCI from Idaho criminal justice agencies. The information in the database is critical to effective decision-making at every phase of the criminal justice process. Additionally, the criminal history system is increasingly used for non-criminal justice background checks, such as employment screening and licensure. BCI also provides fingerprinting services to the public for a fee as prescribed in rule. Failure to reauthorize these rules would eliminate the ability of the Idaho State Police to carry out the statutory duties of providing public safety services to law enforcement, prosecuting attorneys, the judicial system, and everyone who travels through or resides in the State of Idaho.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The fees referenced in IDAPA 11.05.01.013.03 and 11.05.01.013.05 help to keep a fair and consistent list of applicants for the priority waiting list for future liquor licenses in incorporated cities. This rule ensures that the applicants are treated equitably and benefits the future economic status and development of business within the State of Idaho. The fees referenced in IDAPA 11.10.02 are...
collected for fingerprinting and background check services provided to the public and to local and state agencies and become part of a dedicated funding source for the Idaho State Police to provide these services. Failure to adopt this fee-based rule will make it impossible for these public services to be provided. Many state and local agencies will not be able to make fitness determinations for employment or licensing as required by statute due to lack of criminal history record information gained from fingerprint-based or name-based background checks run through the ISP. Fingerprinting services offered to the general public would not be available. This rule also provides procedures for expungement of criminal history records.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.

11.05.01.013.01 – Priority list fee
11.05.01.013.03 – Licensing fee return provision
11.10.02.031 – Fingerprint and background check fees

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

11.05.01 – RULES GOVERNING ALCOHOL BEVERAGE CONTROL

000. LEGAL AUTHORITY.
The Director of the Idaho State Police has general rulemaking authority to prescribe rules and regulations for alcohol beverage enforcement, pursuant to Sections 23-932, 23-946(b), 23-1330 and 23-1408, Idaho Code. (3-6-07)

001. TITLE AND SCOPE.

01. Title. These rules are titled IDAPA 11.05.01, “Rules Governing Alcohol Beverage Control.” (2-20-01)

02. Scope. The rules relate to the governance and operation of Alcohol Beverage Control. Unless a specific reference herein limits application of a rule to a particular kind of alcoholic beverage, these rules apply to and implement Idaho Code Sections for liquor (Title 23, Chapter 9, Idaho Code), beer (Title 23, Chapter 10, Idaho Code), and wine (Title 23, Chapter 13, Idaho Code). (2-20-01)

002. WRITTEN INTERPRETATIONS.
There are no written interpretations of these rules. (2-20-01)

003. ADMINISTRATIVE APPEALS.
Administrative appeals under this chapter are governed by the rules of administrative procedure of the Attorney General, IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.” (3-6-07)

004. MAILING ADDRESS AND OFFICE HOURS.
The mailing address is Idaho State Police, Bureau of Alcohol Beverage Control, 700 S. Stratford Drive, Suite 115, Meridian, ID 83642. Lobby hours are Monday through Friday, 8 a.m. to 4:30 p.m. (3-6-07)

005. PUBLIC RECORDS AVAILABILITY.
All rules contained in this chapter are subject to and in compliance with the Idaho Public Records Act (Title 74, Chapter 1, Idaho Code). (2-20-01)

006. -- 009. (RESERVED)

010. DEFINITIONS.

01. Licensee. Any person who has received a license from the Director under any of the provisions of Title 23, Chapters 9, 10 or 13, Idaho Code. (7-1-93)

02. Licensed Premises. Any premises for which a license has been issued under any of the provisions of Title 23, Chapters 9, 10 or 13, Idaho Code. All areas included on the floor plan submitted to the Director with the licensee’s application for a license constitute the licensed premises. In the event of loss or move of the physical licensed premises, the licensee has ninety (90) days to secure and occupy a new premises in which to display the license. All licenses must be prominently displayed in a suitable premises and remain in actual use by the licensee and available for legitimate sales of alcoholic beverages by the drink. An additional sixty (60) days may be granted by the Director, upon petition by the license holder. (3-6-07)

03. New Licenses. For purposes of Section 23-908(4), Idaho Code, a “new license” is one that has become available as an additional license within a city’s limits under the quota system after July 1, 1980. The requirement of Section 23-908(4), Idaho Code, that a new license be placed into actual use by the licensee and remain in use for at least six (6) consecutive months is satisfied if the licensee makes actual sales of liquor by the drink during at least eight (8) hours per day, no fewer than six (6) days per week. (3-6-07)

04. Multipurpose Arena. (4-4-13)
For purposes of Section 23-944(3), Idaho Code, a Multipurpose Arena is a:

i. Publicly or privately owned or operated arena, coliseum, stadium, or other facility where sporting events, concerts, live entertainment, community events, and other functions are presented for a ticketed price of admission or one whose premises are leased for private events such as receptions;

ii. Facility that is licensed to sell liquor by the drink at retail for consumption upon the premises; and

iii. Facility that has been endorsed by the director.

A Multipurpose Arena facility must apply annually for an endorsement on its alcohol beverage license.

To receive a Multipurpose Arena endorsement under this Section will require the facility to have food available including, but not limited to, hamburgers, sandwiches, salads, or other snack food. The director may also restrict the type of events at a Multipurpose Arena facility at which beer, wine, and liquor by the drink may be served. The director will also consider the seating accommodations, eating facilities, and circulation patterns in such a facility, and other amenities available at a Multipurpose Arena facility before the director will endorse the license.

A licensee that applies for a Multipurpose Arena endorsement must submit with the application an operating/security plan to the director and the local law enforcement agency for review and approval. Once approved, the plan remains in effect until the licensee requests a change or the director determines that a change is necessary due to demonstrated problems or conditions not previously considered or adequately addressed in the original plan. The plan must be submitted in a format designated by the director and must contain all of the following elements:

i. How the Multipurpose Arena facility will prevent the sale and service of alcohol to persons under twenty-one (21) years of age and those who appear to be intoxicated;

ii. The ratio of alcohol service staff and security staff to the size of the audiences at events where alcohol is being served;

iii. Training provided to staff who serve, regulate, or supervise the service of alcohol;

iv. The facility's policy on the number of alcoholic beverages that will be served to an individual patron during one (1) transaction;

v. A list of event type/categories to be held in the facility at which alcohol service is planned, along with a request for the level of alcohol service at each event; and

vi. Diagrams and designation of alcohol service areas for each type of event category with identified restrictions of minors.

Prior to the first of each month, the licensee must provide a schedule of events for the upcoming month to the director and local law enforcement office. This schedule must show the date and time of each event during which alcohol service is planned. The licensee must notify the director and local law enforcement at least twenty-four (24) hours in advance of any events where alcohol service is planned that were not included in the monthly schedule.

To prevent persons who are under twenty-one (21) years of age or who appear intoxicated from gaining access to alcohol, the director may require that an operating plan include additional mandatory requirements if it is determined that the plan does not effectively prevent violations of liquor laws and regulations, particularly those that prevent persons under twenty-one (21) years of age or who are apparently intoxicated from obtaining alcohol.
g. If premises, licensed as a Multipurpose Arena, subsequently ceases to meet the qualifications of a Multipurpose Arena, the restrictions contained in Section 23-943, Idaho Code, shall apply and the posting of signs as provided for in Section 23-945, Idaho Code, shall be required. The licensee shall advise the director, by mail, that his premises no longer constitute a Multipurpose Arena, so that the license may be modified accordingly. (4-4-13)

05. **Partition.** A partition, as used in Section 23-944 Idaho Code, is defined as a structure separating the place from the remainder of the premises. Access through the structure to the place will be controlled to prevent minors from entering the place. The structure must be:

a. Permanently fixed from the premises ceiling to the premises floor. (3-6-07)

b. Made or constructed of solid material such as glass, wood, metal or a combination of those products. (3-6-07)

c. Designed to prevent an alcoholic beverage from being passed over, under or through the structure. (3-6-07)

d. All partitions must be approved by the Director. (3-6-07)

06. **Place.** For the purposes of Section 23-943, Idaho Code, “Place” as defined by Section 23-942(b), for a one (1) room restaurant without a barrier or partition, refers to the immediate bar area wherein there is seating alongside a counter or barrier that encloses bar supplies and equipment that are kept, and where alcoholic beverages are mixed, poured, drawn or served for consumption. (3-6-07)

07. **Restaurant.** The term Restaurant, as defined by Section 23-942(c), Idaho Code, is further defined as an establishment maintained, advertised and held out to the public as primarily a food eating establishment, where individually priced meals are prepared and regularly served to the public, primarily for on-premises consumption. The establishment must also have a dining room or rooms, kitchen and cooking facilities for the preparation of food, and the number, and type of employees normally used in the preparing, cooking and serving of meals. Primarily as defined for the purposes of Section 010, also includes that the licensee must show to the director the following:

a. An established menu identifying the individually priced meals for consumption; (3-20-04)

b. Food service and preparation occurs on the premises by establishment employees; (3-20-04)

c. Stoves, ovens, refrigeration equipment or such other equipment usually and normally found in restaurants are located on the premises of the establishment; (3-20-04)

d. The licensee must demonstrate to the satisfaction of the Director, through appropriate business records, that the establishment is advertised and held out to the public as primarily a food eating establishment, or that at least forty percent (40%) of the establishments consumable purchases are derived from purchases of food and non-alcoholic beverages. (3-20-04)

08. **Stock Transfer.** For the purposes of Section 23-908, Idaho Code, the sale or exchange of stock in a closely held corporation holding a license is deemed a transfer of the license. However, the sale or exchange of shares in a family corporation among family members, is not a transfer. (3-6-07)

011. **GENERAL PROVISIONS.**

01. **Delegation of Authority to License Alcoholic Beverages.** The Director hereby delegates his authority for the licensing of establishments which sell alcoholic beverages, as contained in Title 23, Chapters 9, 10, and 13, Idaho Code, to the, Alcohol Beverage Control Bureau, Idaho State Police. All applications and inquiries concerning alcoholic beverage licenses must be directed to the Alcohol Beverage Control Bureau at P.O. Box 700, Meridian, Idaho 83680. The Alcohol Beverage Control Bureau provides forms for all applications and inquiries. Nothing contained herein shall interfere with the Director’s supervisory authority for alcoholic beverage licensing. (Section 67-2901(4), Idaho Code).
02. **Authority to Stagger the Renewal of Licenses to Sell Alcohol.** For the purposes of Sections 23-908, 23-1010 and 23-1316, Idaho Code, the Director may adjust the renewal month to accommodate population increases. The following table sets out the notification months and renewal months established to renew licenses to sell alcohol:
