broken down into categories such as legal fees, witness fees, or reproduction fees. Legal and witness fees shall, where applicable, indicate hourly rates.

02. **Statement of Proposed Findings.** A statement of the intervenor’s proposed finding or recommendation that the intervenor wishes the Commission to adopt.

03. **Statement Showing Costs.** A statement showing that the costs that the intervenor proposes to recover are reasonable in amount.

04. **Explanation of Cost Statement.** A statement explaining why the costs described in Rule 162.01 constitute a significant financial hardship for the intervenor.

05. **Statement of Difference.** A statement showing how the intervenor’s proposed finding or recommendation in the case differs materially from the testimony and exhibits of the Commission Staff.

06. **Statement of Recommendation.** A statement showing how the intervenor’s recommendation or position addressed issues of concern to the general body of utility users or consumers, and

07. **Statement Showing Class of Customer.** A statement showing the class of customer on whose behalf the intervenor appeared.

163. **PROHIBITION ON APPLICATION BY COMPETITOR (RULE 163).**
No intervenor in direct competition with a public utility involved in a proceeding is entitled to intervenor funding for that proceeding.

164. **TIME TO APPLY (RULE 164).**
Unless otherwise provided by order, an intervenor requesting intervenor funding must apply no later than fourteen (14) days after the last evidentiary hearing in a proceeding or the deadline for submitting briefs, proposed orders, or statements of position, whichever is last. Motions in opposition to intervenor funding must be filed within fourteen (14) days after the request for intervenor funding is filed.

165. **AWARDS (RULE 165).**

01. **Order Awarding Intervenor Funding.** The Commission may by order award intervenor funding pursuant to Section 61-617A, Idaho Code. The total award for all intervening parties combined shall not exceed forty thousand dollars ($40,000) in any proceeding. The Commission must find that:

   a. The intervenor’s presentation materially contributed to the Commission’s decision,

   b. The costs of intervention awarded are reasonable in amount,

   c. The costs of intervention were a significant hardship for the intervenors,

   d. The recommendations of the intervenor differed materially from the testimony and exhibits of the Commission Staff, and

   e. The intervenor addressed issues of concern to the general body of users or consumers.

02. **Payment of Awards.** Awards of intervenor funding must be paid within twenty-eight (28) days of the order of the Commission awarding intervenor funding, unless the order of the Commission is stayed.

03. **Recovery of Awards of Intervenor Funding.** Awards of intervenor funding paid by electric, gas, water or telephone utilities will be an allowable business expense in the pending rate case or, if the proceeding is not a rate case, in the utility’s next rate case. Awards of intervenor funding shall be chargeable to the class of customers represented by the intervenors.
PART 3 -- POST-PLEADING PROCEDURE
(RULES 201 THROUGH 300)

MODIFIED PROCEDURE
(RULES 201 THROUGH 210)

201. SCOPE OF MODIFIED PROCEDURE (RULE 201).
The Commission may preliminarily find that the public interest may not require a hearing to consider the issues presented in a proceeding and that the proceeding may be processed under modified procedure, i.e., by written submissions rather than by hearing. (4-5-00)

202. NOTICE OF MODIFIED PROCEDURE (RULE 202).

01. Notice of Modified Procedure. When the Commission finds that it may not be in the public interest to hold a hearing in a matter, notice of modified procedure will be issued. It will:

   a. Describe the issues presented in the proceeding; (7-1-93)

   b. Summarize the moving party’s justification for the proposed changes and its position; (7-1-93)

   c. State that the Commission finds that it may be in the public interest not to hold a hearing in the proceeding and will not do so unless it receives written protests or comments opposing the use of modified procedure and stating reasons why modified procedure should not be used; and (7-1-93)

   d. Establish the deadline for filing written protests or comments, and a reply by the moving party. (7-1-93)

02. Distribution of Notice. Copies of the notice of modified procedure will be provided to all interested persons, including newspapers, municipalities, counties, and chambers of commerce located within the territorial scope of the application, petition or complaint whose readers, citizens or members may be affected by the proceedings and to all parties. Unless otherwise provided by the notice of modified procedure, all interested persons will have at least twenty-one (21) days from the date of the notice to file a written protest or comment. (4-5-00)

203. PROTESTS AND COMMENTS (RULE 203).
Any person affected by the proposal of the moving party may file a written protest, support or comment before the deadline of the notice of modified procedure. Protests, supports and comments must contain a statement of the reasons for the protest, support or comment, but need not ask for a hearing. Persons desiring a hearing must specifically request a hearing in their written protests or comments. A copy of the person’s protest, support or comment must be served on the representative of the moving party. (4-5-00)

204. ACTION BY COMMISSION (RULE 204).
If no protests, supports or comments are received within the deadline, the Commission may consider the matter and enter its order without a hearing. If protests, supports, comments or a reply are filed within the deadlines, the Commission will consider them and may set the matter for hearing or may decide the matter and issue its order on the basis of the written positions before it. (5-8-09)

205. -- 210. (RESERVED)

PREHEARING CONFERENCES
(RULES 211 THROUGH 220)

211. PURPOSES OF PREHEARING CONFERENCES (RULE 211).
The Commission may by order or notice issued to all parties and to all interested persons as defined in Rule 39 convene a prehearing conference for the purposes of formulating or simplifying the issues, obtaining concessions of
fact or of identification documents to avoid unnecessary proof, scheduling discovery, arranging for the exchange of proposed exhibits or prepared testimony, limiting witnesses, scheduling hearings, establishing procedure at the hearings, discussing settlement offers or making settlement offers, and addressing other matters that may expedite orderly conduct and disposition of the proceeding or its settlement. (7-1-93)

212. NOTICE OF PREHEARING CONFERENCES (RULE 212).
Notice of the place, date and hour of a prehearing conference will be served at least fourteen (14) days before the time set for the conference, unless the Commission finds by order that the public necessity requires the conference to be held earlier. Notices for prehearing conferences must contain the same information as notices of hearing with regard to the Commission’s obligations under the Americans with Disabilities Act. See Rule 242. (7-1-93)

213. RECORD OF CONFERENCE (RULE 213).
Prehearing conferences may be held formally (on the record) or informally (off the record) before or in the absence of a Commissioner or hearing examiner, according to order or notice. Agreements by the parties to the conference may be recorded by the reporter during formal conferences or may be reduced to writing and filed with the Commission Secretary after formal or informal conferences. (7-1-93)

214. ORDERS RESULTING FROM PREHEARING CONFERENCES (RULE 214).
The Commission may issue a prehearing order or notice based upon the results of the agreements reached at a prehearing conference. The order or notice will bind all persons who could have participated in the prehearing conference, but did not, and all those who later file untimely interventions. A prehearing order will control the course of subsequent proceedings unless modified by the Commission for good cause. (7-1-93)

215. CONFERENCE PROCEEDINGS PRIVILEGED (RULE 215).
Facts disclosed, offers made and all other aspects of negotiation (except agreements reached) in prehearing conferences are privileged and are not part of the record. Except by agreement, facts disclosed cannot be used against participating parties, before the Commission or elsewhere, unless proved by independent evidence. Offers made and other aspects of negotiations or settlement other than a final agreement itself are privileged. (3-16-04)

216. -- 220. (RESERVED)

DISCOVERY -- RELATED PREHEARING PROCEDURE
(RULES 221 THROUGH 240)

221. KINDS AND SCOPE OF DISCOVERY LISTED (RULE 221).
The kinds of discovery recognized and authorized by these rules are:

01. Depositions. (7-1-93)
02. Production Requests or Written Interrogatories. (7-1-93)
03. Requests for Admission. (7-1-93)
04. Subpoenas. (7-1-93)
05. Statutory Examination and Audit. Unless otherwise provided by these rules, order, or notice, the scope and procedure of discovery, other than statutory examination and audit, is governed by the Idaho Rules of Civil Procedure. (See Idaho Rule of Civil Procedure 26(b)). (7-1-93)

222. DISCOVERY AUTHORIZED (RULE 222).
The Commission, individual Commissioners, and all parties to a proceeding have a right of discovery of all other parties to a proceeding. The Commission may by order authorize or compel necessary discovery not listed in these rules. (7-1-93)

223. RIGHTS TO DISCOVERY RECIPROCAL (RULE 223).
All parties to a proceeding and the Commission Staff have a right of discovery of all other parties to the proceeding.
and the Commission Staff according to these rules. The Commission may by order direct further discovery not provided by these rules. (7-1-93)

224. DEPOSITIONS (RULE 224). Depositions may be taken in accordance with Section 61-605, Idaho Code, and the Idaho Rules of Civil Procedure for any purpose allowed by statute, Idaho Rule of Civil Procedure, rule of the Commission, order or notice. Depositions may be taken of expert witnesses notwithstanding contrary provisions of the Idaho Rules of Civil Procedure. Depositions rather than production requests or written interrogatories should be used to obtain statements of opinion or policy not previously written or published. Unless otherwise provided by order or notice or agreed to by the deponent or the deponent’s attorney, notice of deposition must be given at least fourteen (14) days before deposition is taken. (7-1-93)

225. PRODUCTION REQUESTS OR WRITTEN INTERROGATORIES AND REQUESTS FOR ADMISSION (RULE 225).

01. When Requests May Be Used. Production requests or written interrogatories and requests for admission may be taken in accordance with the Idaho Rules of Civil Procedure for any purpose allowed by statute, Idaho Rule of Civil Procedure, rule of the Commission, order or notice, except: (7-1-93)

a. Production requests or written interrogatories should not be used to obtain statements of opinion or policy not previously written or published and may be objected to on that ground; and (7-1-93)

b. Requests for admission concerning a matter of opinion or policy or the application of law, order or rule to fact may be denied generally and the reasons for denial required to be discovered by deposition rather than by request for admission, but a request for admission on any matter of opinion or policy or application of law to fact on an uncontested matter must be answered. (7-1-93)

02. Form of Requests. The caption of a production request or written interrogatory and of a request for admission must identify the party making the request or interrogatory, the party to whom the request or interrogatory is directed, and the number of the request or interrogatory to that party. Separate questions within a production request or written interrogatory or within a request for admission must be numbered consecutively within the request or interrogatory and consecutively with earlier production requests or written interrogatories and requests for admission, respectively, from the same party submitting the questions to the same party answering them. For example, if the last question of the Third Production Request of the Commission Staff to XYZ Electric Company is numbered 33, the first question of the Fourth Production Request of the Commission Staff to XYZ Electric Company must be numbered 34. But, if the Staff’s next production request is its first to intervenor ABC Company, that request must begin with question one (1) to that intervenor. (7-1-93)

03. Time for Objection and Answer. Unless otherwise provided by order, notice, or these rules, or pursuant to agreement with or acquiescence of the answering party, parties have at minimum fourteen (14) days to object or explain why a question cannot be answered according to this rule and twenty-one (21) days to answer. (5-8-09)

04. Numbers of Requests. The number of production requests or written interrogatories and of requests for admission and individual questions or subparts in them may be limited by order, notice or rule of the Commission, but are not limited by the provisions of the Idaho Rules of Civil Procedure. (7-1-93)

226. SUBPOENAS (RULE 226).

01. Issuance of Subpoenas. Upon a motion in writing, or upon a Commissioner’s own initiative without motion, any Commissioner may issue subpoenas: (7-1-93)

a. Requiring the attendance of a witness from any place in Idaho; (7-1-93)

b. The production of documents from any place in Idaho; or (7-1-93)

c. The production of any books, accounts, papers or records of a utility or carrier kept within or
without Idaho to any designated place of deposition, hearing or investigation for the purpose of taking testimony or examining documents before the Commission, a Commissioner or hearing examiner. (7-1-93)

02. Witness or Travel Fees. A party’s motion to issue a subpoena must be accompanied by a statement that the party will tender to the subpoenaed person all fees required by statute and rules if the subpoena is issued. (7-1-93)

03. Motions to Quash. The Commission upon motion to quash made promptly, and in any event, before the time to comply with the subpoena, may:

a. Quash the subpoena; or

b. Condition denial of the motion to quash upon reasonable terms.

227. STATUTORY EXAMINATION AND AUDIT -- CONTRASTED WITH OTHER DISCOVERY (RULE 227).
Statutory examination and audit refers to the right of the Commission, an individual Commissioner, or an authorized member of the Commission Staff to review and inspect the books, records and premises of regulated utilities and carriers pursuant to statute. This right of statutory examination and audit is independent of any right of discovery in formal proceedings and may be exercised whether or not a regulated utility or carrier is party to a formal proceeding before the Commission. Information obtained from statutory examination and audit may be used in formal proceedings or for any other regulatory purpose. The rights of deposition, production request or written interrogatory, request for admission, and subpoenas can be used by parties only in connection with formal proceedings before the Commission.

228. ANSWERS TO PRODUCTION REQUESTS OR WRITTEN INTERROGATORIES AND TO REQUESTS FOR ADMISSION (RULE 228).

01. When Answers Not Filed. Answers to production requests or written interrogatories and to requests for admission need not be filed and served in the following circumstances:

a. Voluminous answers may be filed in a depository designated and agreed to by the parties or designated by the Commission, and an explanation notifying the parties of the availability of the answers at the depository must be filed and served in their stead. (7-1-93)

b. Answers involving data compiled by computer may be transmitted in computer-readable form (e.g., by disk or other mutually agreed means) to the party requesting them and to all other parties requesting them in similar computer-readable forms and an explanation notifying the parties of their distribution must be filed and served in their stead. (3-16-04)

02. Filing of Answers. Except as provided in Rule 228.01, answers to production requests or written interrogatories and to requests for admission must restate in full each question asked, then state in full the party’s response to the question and the persons who will be able to answer questions about or sponsor the answer at hearing. Answers to production requests or interrogatories need not be separately answered under oath by each person preparing the party’s response to the question or each witness who will be able to answer questions about or sponsor the answer, but instead can be generally subscribed by the party’s representative. The restatement of the question and its accompanying answer must begin on a new page whenever the preceding answer refers to other documents or whenever the preceding question in the particular production request or written interrogatory is not answered in full in that document.

229. FILING AND SERVICE OF DISCOVERY AND RELATED DOCUMENTS (RULE 229).
Notices of deposition, production requests or written interrogatories, requests for admission, answers to production requests or written interrogatories, answers to requests for admission, explanations in lieu of answers under Rule 228.01, and objections to discovery shall be filed with the Commission Secretary and copies served on all parties according to Rules 61, 62, 63, and 64.

(5-8-09)
The Commission Secretary assigns exhibit numbers to each party. Applicants, petitioners, or complainants are assigned exhibit nos. 1-100. If the Commission is complainant, the Staff is assigned exhibit nos. 101-200. Respondents and intervenors are assigned exhibit nos. 201-300, 301-400, etc., as they make their first pleading, but the lower series are reserved first for respondents, then for intervenors. These assigned numbers should be used in all prepared testimony.

231. PREPARED TESTIMONY AND EXHIBITS (RULE 231).

01. Prepared Testimony May Be Required. Order, notice or rule may require a party or parties to submit prepared testimony and exhibits to be presented at hearing.

02. Format for Prepared Testimony.

a. Prepared testimony and exhibits must be accompanied by a cover sheet showing the case caption and case title, the person testifying, the party for whom the testimony is offered, and the nature of the testimony (direct, rebuttal, etc.).

b. The first page of prepared testimony should contain testimony only (i.e., it should begin with the first question to the witness and not repeat the information on the cover page).

c. Prepared testimony must be submitted on white eight and one-half by eleven inch (8-1/2” x 11”) paper, be double-spaced (except for quoted material and tables or other collections of numerical data), and contain no more than ten (10) characters per inch and no less than twenty-five (25) lines of double-spaced testimony or more than thirty (30) lines per page. Each page may be printed on the front and back (duplexed).

d. Each line of prepared testimony must be numbered at the left margin (except single-spaced quotations or tables of numerical data, which may be numbered at the left margin as though they were double-spaced). Each page of testimony must have a one and one-half (1-1/2) inch left margin that will allow the page to be bound on its left side without obscuring the printed material. Indentations for paragraphing and for “Q” and “A” must be seven (7) spaces.

e. Each page of prepared testimony must be numbered at the lower right corner and must be blank in the center of the bottom margin to allow the reporter to insert transcript page numbers there. Each page of prepared testimony must have at least a one-inch (1”) top and bottom margin.

f. Each page of prepared testimony must contain the witness’s surname followed by the designation “Di” (signifying direct testimony) or “Di-Reb” (signifying direct testimony on rebuttal) and the name of the party sponsoring the testimony printed in the lower right margin. For example, the marginal notation on page 5 of the testimony of the witness Lynn Accountant of ABC Company would be:

5
Accountant, Di
ABC Company

or

Accountant, Di-Reb
ABC Company

03. References to Exhibits. All references to exhibits in prepared testimony must refer to the exhibits by their number as assigned by the Commission Secretary. Exhibits accompanying prepared testimony must be consecutively numbered from the first exhibit number assigned to the party by the Commission Secretary if the party has not previously identified exhibits, or from the highest exhibit number previously identified by that party. Exhibits must be filed on eight and one-half by eleven inch (8-1/2” x 11”) paper unless it is impractical to make them that size. Exhibits accompanying prepared testimony must comply with Rule 267.

04. Number of Copies -- Filing and Service. Unless otherwise provided by order, notice or agreement of the parties, nine (9) legible copies of prepared testimony and exhibits must be filed with the Commission Secretary and copies filed on all parties pursuant to Rules 61, 62, 63 and 64 at least fourteen (14) days before the hearing at which they will be presented. The original, if there is an original, or one (1) of the copies, if there is not, must be specifically designated as the reporter’s copy by cover sheet, attached note or otherwise, and be included with the
copies filed with the Commission Secretary. In special circumstances, notice or order may provide that the reporter’s
copy of prepared testimony and exhibits be served directly on the reporter rather than the Commission Secretary.
(7-1-93)

05. Computer-Searchable Copies of Testimony. In addition to the paper copies of prepared
testimony, the Commission Secretary may also require or the parties may agree that some or all of the prepared
testimony to be submitted to the Secretary, parties and the reporter in computer searchable CD-ROM without
password protection. The CD-ROM shall be in Adobe Acrobat (PDF) or other searchable format agreed upon by
the reporter and the parties. Each CD-ROM shall be labeled with the Commission’s case number, case name, the name of
each witness and the sponsoring party. (4-7-11)

232. SANCTIONS FOR FAILURE TO OBEY ORDER COMPELLING DISCOVERY (RULE 232).
The Commission may impose all sanctions recognized by the Public Utilities Law for failure to comply with an order
compelling discovery. (7-1-93)

233. ASSERTIONS THAT DISCOVERED MATERIAL IS PROTECTED FROM PUBLIC
INSPECTIONS — PROCEDURES (RULE 233).
01. Assertion of Protection. Whenever any party to a request for discovery believes that material
otherwise discoverable is protected by statute or rule of law from inspection, examination or copying by the general
public, the attorney for the party asserting the material is protected by law from inspection, examination or copying
must state that the answer or some portion of it is protected, citing the specific statute or other legal authority for that
position. The attorney’s assertion constitutes a representation that the attorney is familiar with the material claimed
not to be available for public inspection, examination and copying and in good faith believes there is a basis in law for
that claim. (4-5-00)

02. Procedures. When an answer contains material, some of which is protected by law from public
inspection, examination, and copying and some of which is not, the protected material must be reproduced on yellow
paper and separated from material available for public review. Each page of the material exempt from public review
must be marked “Trade Secrets” or “Confidential.” All material exempt from public review shall be filed with the
Commission Secretary and served on all parties under seal pursuant to Rule 229. Material exempt from public review
shall be separately stored in a secure location with limited access and safeguarded from unauthorized disclosure. All
material for which no assertion of protection against public inspection, examination and copying is made will be
placed in files available for public inspection. (5-8-09)

234. ASSERTION OF RIGHT AGAINST SELF-INCrimINATION DURING DISCOVERY --
IMMUNITY (RULE 234).
01. Assertion of Right. During discovery any person may assert the right not to testify or not to
produce documents upon the ground that the testimony or production of documents may tend to incriminate the
person or subject him or her to penalty or forfeiture. (7-1-93)

02. Granting of Immunity. The Commission or any Commissioner may direct that person to testify or
produce documents by written order or upon the record at hearing. In such case, that person shall not be prosecuted,
punished or subjected to any forfeiture or penalty for or on account of any act, transaction, matter or thing concerning
which he or she shall under oath have testified or produced documentary evidence: provided, that no person so
testifying shall be exempt from prosecution or punishment for any perjury committed in that testimony. (7-1-93)

03. No Immunity Without Assertion of Right. No immunity is granted under this rule or under
Section 61-606, Idaho Code, in the absence of a specific assertion of the persons’ rights under Section 61-606, Idaho
Code, and the Commission’s or a Commissioner’s written order or direction on the record at hearing compelling the
person to testify or produce written documents and immunizing the person from prosecution, punishment, forfeitures
or penalty according to this rule and Section 61-606, Idaho Code. No immunity granted under this rule or Section 61-
606, Idaho Code, shall extend to any public utility. (7-1-93)

235. -- 240. (RESERVED)
241. NOTICE OF HEARING (RULE 241).

01. Timing of Notice. Notice of the place, date and hour of hearing will be served at least fourteen (14) days, or in the case of formal complaints, twenty-one (21) days, before the time set for hearing, unless the Commission finds by order that the public necessity requires the hearing to be held earlier. (7-1-93)

02. Contents of Notice. Notices must comply with Rule 242’s requirements. Notices must list the names of the parties (or the lead parties if the parties are too numerous to name), the case number, and the name of the hearing officer who will conduct the hearing if the case will not be heard by one (1) or more Commissioners. If no document previously issued by the Commission has listed the legal authority of the Commission to conduct the hearing, the notice of hearing must do so. The notice of hearing shall state that the hearing will be conducted under these rules of procedure and inform the parties where they may read or obtain a copy. (7-1-93)

03. Locations of Hearing. Hearings may be held in Boise, Idaho, or at other places designated by notice or order. (7-1-93)

04. Types of Formal Hearings. The Commission generally conducts two (2) types of formal public hearings.

a. A technical hearing is a public hearing where parties present witnesses and their prepared testimony and exhibits. (5-8-09)

b. A customer hearing is a public hearing for customers, public officials, and other persons not related to parties in the case to provide testimony. Unless otherwise ordered by the presiding officer, parties are prohibited from presenting evidence at the customer hearing. (5-8-09)

242. FACILITIES AT OR FOR HEARING AND ADA REQUIREMENTS (RULE 242).

All hearings must be held in facilities meeting the accessibility requirements of the Americans with Disabilities Act (ADA). All notices of hearing must inform the parties that the hearing will be conducted in facilities meeting the accessibility requirements of the Americans with Disabilities Act. All notices of hearing must inform the parties and other persons notified that if they require assistance of the kind that the Commission is required to provide under the Americans with Disabilities Act (e.g., sign language interpreters, Braille copies of documents) in order to participate in or understand the hearing, the Commission will supply that assistance upon request made seven (7) days before hearing. (7-1-93)

243. HOW HEARINGS ARE HELD (RULE 243).

01. All Hearings Presumed Open. All hearings conducted by the Commission are open to the public except when a hearing may be partially closed to safeguard trade secrets or other confidential information protected from public disclosure. If parties intend to cross-examine or offer testimony that may necessitate the partial closure of a hearing, they shall advise the Commission or presiding officer at the beginning of the hearing or as soon as thereafter as practical. The Commission disfavors closed hearings and parties shall take all reasonable measures to avoid the need to close a public hearing. Such measures include:

a. Using references to page and line or column numbers; (4-5-00)

b. Using summaries or generalizations; (4-5-00)

c. Stipulating that the evidence be offered in the public hearing; or (4-5-00)

d. Offering testimony in writing. (4-5-00)

02. Methods of Conducting Hearings. Hearings may be held in person or by telephone or television or other electronic means, if each participant to the hearing has an opportunity to participate in the entire proceeding.
while it is taking place.  

244. **CONDUCT AT HEARINGS (RULE 244).**
All persons attending a hearing must conduct themselves in a respectful and courteous manner. Persons disrupting the hearing shall be asked to leave by the presiding officer. See Rule 47 and Section 18-6409(1), Idaho Code. Smoking is not permitted at hearings.  

245. **CONFERENCE AT HEARING (RULE 245).**
In any proceeding the presiding officer may convene the parties before hearing or recess the hearing to discuss formulation or simplification of the issues, admissions of fact or identification of documents to avoid unnecessary proof, exchanges of documents, exhibits or prepared testimony, limitation of witnesses, establishment of order of procedure, and other matters that may expedite orderly conduct of the hearing. The presiding officer will state the results of the conference on the record.  

246. **PRELIMINARY PROCEDURE AT HEARING (RULE 246).**
Before taking evidence the presiding officer will call the hearing to order, take appearances of parties, and act upon any pending motions or petitions. The presiding officer may allow opening statements as necessary or appropriate to explain a party’s presentation.  

247. **CONSOLIDATION OF PROCEEDINGS (RULE 247).**
The Commission may consolidate two (2) or more proceedings for hearing when it finds that they present issues that are related and that the rights of the parties will not be prejudiced. In consolidated hearings the presiding officer determines the order of the proceeding.  

248. **STIPULATIONS (RULE 248).**
Parties may stipulate among themselves to any fact at issue by written statement filed with the Commission Secretary or presented at hearing or by oral statement on the hearing record. A stipulation binds all parties agreeing to it only according to its terms. The Commission may regard a stipulation as evidence, but the Commission may require proof by evidence of the facts stipulated. The Commission is not bound to adopt a stipulation of the parties, but may by order do so. If the Commission rejects a stipulation, it will do so before issuing a final order, and it will provide an additional opportunity for the parties to present evidence and arguments on the subject matter of the rejected stipulation.  

249. **ORDER OF PROCEDURE (RULE 249).**

01. **Order of Presentation of Evidence.** The parties’ evidence will ordinarily be introduced in the following order:

a. Upon applications:  
   i. Applicant;  
   ii. Intervenors;  
   iii. Commission Staff; and  
   iv. Rebuttal by applicant.

b. Upon formal complaints or petitions (except when the Commission is complainant):  
   i. Complainant or petitioner;  
   ii. Intervenors;  
   iii. Commission Staff;  
   iv. Respondents; and
v. Rebuttal by complainant or petitioner. (7-1-93)
c. Upon complaints by Commission:
   i. Commission Staff; (7-1-93)
   ii. Intervenors; (7-1-93)
   iii. Respondents; and (7-1-93)
   iv. Rebuttal by Commission Staff. This order of presentation of evidence may be modified by the Commission or presiding officer. Additional evidence may be taken in the discretion of the Commission or presiding officer. Evidence of public witnesses may be taken at any time. (7-1-93)

02. Order of Examination of Witnesses. Witnesses will ordinarily be examined in the following order:

   a. Direct examination by sponsoring party or direct statement of public witness; (7-1-93)
   b. Examination by applicants, petitioners or complainants; (7-1-93)
   c. Examination by intervenors; (7-1-93)
   d. Examination by respondents; (7-1-93)
   e. Examination by Commission Staff (except when the Staff acts as complainant); (7-1-93)
   f. Examination by Commissioners or hearing examiners; and (7-1-93)
   g. Redirect examination or rebuttal statement. The presiding officer may allow additional examination of witnesses or vary the order of examination of witnesses. The presiding officer may vary the order of examination of witnesses to allow parties with interests adverse to the witness to examine the witness after parties with interests similar to the witness. (7-1-93)

250. TESTIMONY UNDER OATH (RULE 250).
All testimony presented in formal hearings will be given under oath. Before testifying each witness must swear or affirm that the testimony the witness will give before the Commission is the truth, the whole truth, and nothing but the truth. (7-1-93)

251. PARTIES AND PERSONS WITH SIMILAR INTERESTS (RULE 251).
If two (2) or more parties or persons have substantially like interests or positions, to expedite the proceeding and avoid duplication the presiding officer may limit the number of them who testify, examine witnesses, or make and argue motions and objections. (7-1-93)

252. CONTINUANCE OF HEARING (RULE 252).
The Commission or presiding officer may continue proceedings for further hearing. When a hearing for an application described by Rule 121 is continued at the request of the applicant, the applicant may be required, as a condition of granting the motion for continuance, to consent to an order tolling the running of any suspension period if the Commission ultimately finds that a final order cannot be issued within the suspension period because the applicant’s request for a continuance was granted. (7-1-93)

253. RULINGS AT HEARINGS (RULE 253).
The presiding officer rules on motions presented at hearing. The presiding officer’s rulings may be reviewed by the full Commission in determining the matter on its merits. In extraordinary circumstances, the presiding officer may refer or defer these matters to the full Commission for determination. (7-1-93)
254. ORAL ARGUMENT (RULE 254).
The Commission may set and hear oral argument on any matter before it on reasonable notice according to the circumstances. (7-1-93)

In any proceeding, any party may move to file briefs, memoranda, proposed orders of the parties or statements of position, and the Commission or presiding officer may request briefs, proposed orders of the parties, or statements of position. The Commission or presiding officer may issue a proposed order and ask the parties for comment upon the proposed order. (7-1-93)

256. PROCEDURE ON MOTIONS (RULE 256).

01. Argument. The Commission may consider and decide prehearing motions with or without oral argument or hearing. If oral argument or hearing on a motion is requested and denied, the Commission must state its grounds for denying the request. (7-1-93)

02. Requirements for Motion for Expeditious Substantive Relief. A motion requesting substantive relief on fewer than fourteen (14) days’ notice will not be acted upon on fewer than fourteen (14) days’ notice unless it states:

a. The facts supporting its request to act on shorter notice; and

b. 1) That at least one (1) representative of all parties has received actual notice of the motion, by telephone or personal delivery of the motion; or 2) stating the efforts made to reach representatives of those parties not contacted and what efforts will continue to be made to contact them. Except as otherwise provided in this paragraph, the Commission will allow at least two (2) days (excluding Saturdays, Sundays and legal holidays) after notification by telephone or actual receipt of the motion for parties to inform the Commission Secretary, either in writing personally delivered to the Secretary or by telephone, whether they support or oppose the motion and whether they desire to be heard on the motion in person, in writing or by telephone. Except in extraordinary circumstances in which the Commission states good cause for ruling on a motion without allowing two (2) days for parties to state their positions or to present their position on the motion either in person, in writing or by telephone, the Commission will not rule on a substantive motion. Whenever an order is issued in such extraordinary circumstances, it will expire in no more than seven (7) days. (7-1-93)

03. Motions for Procedural Relief. A motion requesting procedural relief on fewer than fourteen (14) days’ notice is properly filed if it complies with provisions of Rule 256.02.a. and 256.02.b. The Commission may act on such a motion without waiting for responses of other parties. (7-1-93)

04. Support or Opposition to Prehearing Motion. When a prehearing motion has been filed, all parties seeking similar substantive or procedural relief must join in the motion or file their own motions within seven (7) days after receiving the original motion. The party answering to or responding to the motion(s) will have fourteen (14) days from the time of filing of the last motion or joinder pursuant to the requirements of the previous sentence in which to respond, except as provided in Rule 256.02 and 256.03 of this rule. (7-1-93)

257. JOINT HEARINGS (RULE 257).
When the Commission participates jointly with a federal regulatory agency, the rules of practice and procedure of the federal agency govern. When the Commission participates jointly with an administrative body of another state or other states, the rules of the state where the hearing is held govern unless otherwise agreed upon by the participating agencies. Any person entitled to appear in a representative capacity for any of the agencies involved in a joint hearing may do so in such joint hearing. (7-1-93)

258. COMMISSIONERS -- HEARING EXAMINERS -- PROCEDURE (RULE 258).

01. Officers Holding Hearings. Hearings are held before one (1) or more Commissioners or one (1) or more hearing examiners appointed by the Commission. The presiding officer is designated by the Commission. Any Commissioner or hearing examiner may administer oaths. (7-1-93)
02. Procedure When Hearing Examiner Holds Hearing. When a hearing examiner hears a proceeding, the examiner must prepare and file recommended findings of fact with the Commission Secretary and serve copies of them on all parties of record within fourteen (14) days after receipt of the hearing record, unless the examiner’s recommended findings are stated on the record at hearing. Unless otherwise provided by order or notice, the Commission will issue its decision based upon its independent review of the record and of the hearing examiner’s recommended findings of fact. (7-1-93)

259. ASSERTION OF RIGHT AGAINST SELF-INCrimINATION AT HEARING -- IMMUNITY (RULE 259).

01. Assertion of Right. At hearing any person may assert the right not to testify or not to produce documents upon the ground that the testimony or production of documents may tend to incriminate the person or subject him or her to penalty or forfeiture. (7-1-93)

02. Granting of Immunity. The Commission or any Commissioner may direct that person to testify or produce the document by written order or upon the record at hearing. In such case, that person shall not be prosecuted, punished or subjected to any forfeiture or penalty for or on account of any act, transaction, matter or thing concerning which the person shall under oath have testified or produced documentary evidence: provided, that no person so testifying shall be exempt from prosecution or punishment for any perjury committed by him or her in that testimony. (7-1-93)

03. No Immunity Without Assertion of Right. No immunity is granted under this rule or under Section 61-606, Idaho Code, in the absence of a specific assertion of the person’s rights under Section 61-606, Idaho Code, and the Commission’s or a Commissioner’s written order or direction on the record at hearing compelling the person to testify or produce written documents and immunizing the person from prosecution, punishment, forfeiture or penalty according to this rule and Section 61-606, Idaho Code. No immunity granted under this rule or Section 61-606, Idaho Code, shall extend to any public utility. (7-1-93)

260. SUMMARY OF POSITION(S) AND TESTIMONY (RULE 260).

Each utility shall make available to the public at all Commission hearings a brief written summary of the utility’s position(s) and testimony filed in the case under consideration except when the Commission has determined that a summary is not necessary. If the utility is requesting a rate increase, its summary shall address the utility’s need for additional revenue, the total dollar amount requested, and the proposed percentage increase or decrease in rates for each major customer class. The Commission Staff and intervenors shall also provide a brief summary of their recommendations and the testimony filed in the case under consideration. These summaries and presentations are provided solely for the convenience of the public and will not be allowed as evidence or form the basis for cross-examination of any witness. (5-8-09)

EVIDENCE (RULES 261 THROUGH 270)

261. RULES OF EVIDENCE — EVALUATION OF EVIDENCE (RULE 261).

The presiding officer at hearing is not bound by the Idaho Rules of Evidence. No informality in any proceeding or in the manner of taking testimony invalidates any order made, approved or confirmed by the Commission. Rules as to the admissibility of evidence used by the district courts of Idaho in non-jury civil cases are generally followed, but evidence (including hearsay) not admissable in non-jury civil cases may be admitted to determine facts not reasonably susceptible of proof under the Idaho Rules of Evidence. The presiding officer, with or without objection, may exclude evidence that is irrelevant, unduly repetitious, inadmissible on constitutional or statutory grounds, or inadmissible on the basis of any evidentiary privilege provided by statute or recognized in the courts of Idaho, and order the presentation of such evidence to stop. All other evidence may be admitted if it is a type generally relied upon by prudent persons in the conduct of their affairs. The Commission’s expertise, technical competence and special knowledge may be used in the evaluation of the evidence. (7-1-93)

262. DOCUMENTARY EVIDENCE -- INTRODUCTION OF RECORDS IN THE COMMISSION SECRETARY’S OFFICIAL FILE (RULE 262).
Documentary evidence may be received in the form of copies or excerpts. Upon request, parties shall be given an opportunity to compare the copy with the original if available. When a party offers in evidence any portion of a transcript, exhibit, or other record from any other proceeding before the Commission, the portion offered must be specifically described and, if admitted, will be made an exhibit. The party offering the exhibit must comply with Rule 267.

263. OFFICIAL NOTICE (RULE 263).

01. Matters That May Be Officially Noticed. The Commission may officially note at hearing and in its orders:

a. (1) Its own orders, notices, rules, certificates and permits, and (2) those of any other regulatory agency, state or federal;

b. (1) matters of common knowledge, (2) technical, financial, or scientific facts established and published in accepted authorities or in the Commission’s specialized knowledge, and (3) matters judicially noticeable; and

c. Data contained in periodic reports of regulated utilities filed with the Commission or federal regulatory agencies.

02. Procedure for Taking Official Notice. When officially noting on its own motion matters described in Rule 263.01.b.(2) or 263.01.c. or adjudicative facts under Rule 263.01.b.(3) of this rule, the Commission will give the parties appropriate opportunity to respond or refute such matters noticed. Unless otherwise agreed by the parties and approved by the presiding officer, parties requesting the Commission to take official notice of documents must submit those documents to the Commission in the manner prescribed for documents in Rule 262.

264. DEPOSITIONS (RULE 264).

Depositions may be offered into evidence as allowed by Section 61-605, Idaho Code, and the Idaho Rules of Civil Procedure.

265. OBJECTIONS -- OFFERS OF PROOF (RULE 265).

Grounds for objection to the admission or exclusion of evidence must be stated briefly at the time the evidence is offered. Formal exceptions to rulings admitting or excluding evidence are unnecessary and need not be taken. An offer of proof for the record consists of a statement of the substance of the excluded evidence. When a party objects to the admission of evidence, the presiding officer will rule on the objection or the presiding officer may receive the evidence subject to the later ruling by the full Commission or refer to the matter to the full Commission.

266. PREPARED TESTIMONY (RULE 266).

The presiding officer may order a witness’s prepared testimony previously distributed to all parties to be incorporated in the transcript as if read if timely filed pursuant to an order, notice or rule requiring its filing before hearing. Without objection, the presiding officer may direct other prepared testimony to be incorporated in the transcript as if read. Admissibility of prepared testimony is subject to the Rule 261.

267. EXHIBITS (RULE 267).

01. Exhibit Numbers. Exhibit numbers are assigned to the parties before hearing according to Rule 230.

02. Form of Exhibits. Public exhibits offered at hearing must ordinarily be typed or printed on eight and one-half by eleven inch (8 1/2” x 11”) white paper, except maps, charts, photographs and non-documentary exhibits may be introduced on the size or kind of paper customarily used for them. Exhibits that are trade secrets, confidential information or otherwise exempt from public review shall be printed on yellow paper. A copy of each documentary exhibit must be furnished to each party present, to the reporter, and to each Commissioner or hearing examiner, except for unusually bulky or voluminous exhibits that have previously been made available for the parties’ inspection. Copies must be of good quality.
03. **Timely Filing of Exhibits.** Exhibits offered as part of a party’s direct case (except exhibits offered on redirect examination) must be timely filed. Exhibits filed pursuant to any order, notice or rule requiring their filing before hearing are timely filed. Otherwise, exhibits must be distributed or made available to all parties long enough before their introduction into evidence to allow the parties a reasonable opportunity to review them and to prepare to examine their substance, except those exhibits that update exhibits previously timely filed may be filed so long as fair opportunity is afforded other parties to examine the sponsoring witnesses about the updated material. (7-1-93)

04. **Objection -- Admission.** Exhibits identified at hearing are subject to appropriate and timely objection before the close of proceedings. Exhibits to which no objection is made are automatically admitted into evidence without motion of the sponsoring party. (7-1-93)

05. **Labeling of Exhibits.** All exhibits accompanying prepared testimony, exhibits introduced during direct examination of a party’s witnesses, and, to the extent practicable, all other exhibits introduced at hearing must label the exhibit number, case number, party and witness sponsoring the exhibit, and any subdivisions within the exhibit, such as separate schedules or charts. Examples of labeling required by this rule are:

<table>
<thead>
<tr>
<th>Exhibit No. 101</th>
<th>Exhibit No. 507</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case No. XXX-X-XX-XX</td>
<td>Case No. XXX-X-XX-XX</td>
</tr>
<tr>
<td>P. Engineer, Staff L. Accountant, ABC Company</td>
<td></td>
</tr>
<tr>
<td>Schedule 1, p. 1 of 3</td>
<td></td>
</tr>
</tbody>
</table>

Exhibits prepared for the proceeding must contain this labeling on each page of the exhibit. Exhibits reproducing previously existing documents may contain a cover page with this labeling, but need not be labeled on each page. (7-1-93)

06. **Sources for Exhibits.** Exhibits prepared from data in workpapers, answers to discovery, periodicals, reports or other documentable sources of information must contain a statement of sources. Examples of the statements of sources required by this rule are:

- P. Engineer, Workpapers -- Answer of XYZ Utility to First Tab A, pages 1 - 47 Production Request of ABC Company, Question 13
- Moody’s Public Utility -- XYZ Utility, FERC Form 1 (1993)

Exhibits especially prepared for introduction into evidence in a proceeding (i.e., exhibits not otherwise prepared or in existence) should be descriptively titled to show their contents and purpose. (7-1-93)

07. **Certain Exhibits Require Presiding Officer’s Approval.** Neither motion pictures, slides, opaque projections, video tapes, audio tapes nor other materials not capable of duplication by still photograph or reproduction on paper shall be presented as exhibits without prior approval of the presiding officer. Writing, sketching and drawing on blackboards or other similar surfaces by witnesses presenting testimony do not constitute an exhibit or evidence in the proceeding unless the writing, sketching or drawing is reproduced, photographed, or otherwise preserved for the record. (7-1-93)

268. -- 270. **(RESERVED)**

**SETTLEMENTS (RULES 271 THROUGH 280)**

271. **PASSIVE SETTLEMENTS (RULE 271).** Settlements in formal proceedings in which a party agrees to concur in, accept, or not to oppose another party’s positions previously on record with the Commission are called passive settlements. Any party may reach a passive
settlement with any other party on any issue without prior notification to the Commission or any other party. (7-1-93)

272. PROCEDURES FOR ACTIVE SETTLEMENTS (RULE 272).
Settlements in formal proceedings in which one (1) or more parties negotiate an agreement differing from positions of one (1) or more of the parties previously on record with the Commission are called active settlements. Any party other than the Commission Staff may enter into an active settlement with any party other than the Commission Staff without prior notification to the Commission or other parties. The Commission Staff, however, is precluded from entering into an active settlement without first notifying all other parties and the Commission that it intends to begin or has begun settlement negotiations. The Commission Staff must give all other parties an opportunity to participate in or be apprised of the course of the settlement negotiations before a final settlement agreement is reached. Settlement negotiations are confidential, unless all participants to the negotiation agree to the contrary. (5-8-09)

273. SUGGESTION FOR OR INQUIRY ABOUT SETTLEMENTS (RULE 273).
Through notice or order or on the record at prehearing conference or hearing, the Commission or an individual Commissioner may inquire of the parties in any proceeding whether settlement negotiations are in progress or contemplated or invite settlement of an entire proceeding or certain issues. In issuing such an invitation for settlement, the Commission or an individual Commissioner may indicate acceptable ranges of settlement, preclude certain issues from settlement, or otherwise inform the parties of his, her or their views on settlement in aid of securing a just, speedy and economical determination of the issues presented to the Commission. Neither the Commission nor individual Commissioners will indicate ex parte their views on the merits of any proposed settlement. (7-1-93)

274. CONSIDERATION OF SETTLEMENTS (RULE 274).
Settlements must be reviewed under this rule. When a settlement, be it active or passive, is presented to the Commission, the Commission will prescribe procedures appropriate to the nature of the settlement to consider the settlement. For example, the Commission may summarily accept settlement of an essentially private dispute that has no significant implications for regulatory law or policy or for other utilities or customers upon the written request of the affected parties. On the other hand, when one (1) or more parties to a proceeding is not party to the settlement or when the settlement presents issues of significant implication for other utilities, other customers or the public interest, the Commission may convene an evidentiary hearing to consider the reasonableness of the settlement and whether acceptance of the settlement is just, fair, and reasonable, in the public interest, or otherwise in accordance with law or regulatory policy. (7-1-93)

275. BURDENS OF PROOF (RULE 275).
Proponents of a proposed settlement carry the burden of showing that the settlement is reasonable, in the public interest, or otherwise in accordance with law or regulatory policy. In any instance in which parties or affected persons oppose the settlement, proponents of the settlement should be prepared to call witnesses and argue in favor of the settlement. Opponents of the settlement should be prepared to examine supporting witnesses, offer their own witnesses, or argue against the settlement. The Commission may require the development of an appropriate record in support of or opposition to a proposed settlement as a condition of accepting or rejecting the settlement. (7-1-93)

276. SETTLEMENT NOT BINDING (RULE 276).
The Commission is not bound by settlements. It will independently review any settlement proposed to it to determine whether the settlement is just, fair and reasonable, in the public interest, or otherwise in accordance with law or regulatory policy. When a settlement is presented for decision, the Commission may accept the settlement, reject the settlement, or state additional conditions under which the settlement will be accepted. In the last instance, the parties will have twenty-one (21) days to state their acceptance or rejection of the additional conditions imposed by the Commission. If the Commission rejects the settlement or if the Commission’s conditional acceptance of a settlement is rejected by the parties to the settlement, the Commission will notify the parties of procedures to be followed to decide the issues for which settlement was rejected by the Commission. (7-1-93)

277. CONSENT AGREEMENTS NOT SETTLEMENTS (RULE 277).
Consent agreements proscribing or prescribing certain conduct under Rule 58 are not settlements under this rule. (7-1-93)

278. -- 280. (RESERVED)
281. RECORDS FOR DECISION -- RELATIONSHIP TO OFFICIAL FILE (RULE 281).
The Commission bases its decisions and issues its orders on the hearing record (excluding exhibits denied admission), the Commissioners’ record and items officially noted. The hearing record and the Commissioners’ record are part of the Commission Secretary’s official file. (7-1-93)

282. THE COMMISSION SECRETARY’S OFFICIAL FILE (RULE 282).
01. Documents in File. The Commission Secretary’s official file for a proceeding is the public file maintained by the Commission Secretary. This file includes all documents filed with regard to a proceeding, whether filed by parties or other persons, and includes (but is not limited to) pleadings, discovery and related materials, briefs, proposed orders, statements of position, correspondence concerning the proceeding directed to the Commission, a Commissioner, or the Commission Secretary (whether by parties or persons not parties), prepared testimony and exhibits, workpapers, transcripts, exhibits presented at hearing, orders, notices, press releases, and other matters pertaining to or related to a proceeding and included in the public files of that proceeding by the Commission Secretary. (7-1-93)

02. Public Records. Except as provided in Rules 26, 67, 233, and 287, which refer to statutory exemptions from disclosure, all material in the Commission Secretary’s Official File is subject to inspection, examination and copying under Section 74-102, Idaho Code. In particular, information obtained in an application for a certificate issued by this Commission inquiring into a person’s fitness to be granted or to retain a certificate is not exempted from examination or copying under Sections 74-106(8) and 74-106(9), Idaho Code, but may be exempted under other statutes. (4-5-00)

283. THE HEARING RECORD (RULE 283).
The hearing record in a proceeding consists of all transcripts of hearings, conferences, arguments and other proceedings on the record and of all exhibits identified, offered, admitted or denied admission at hearing or prehearing conference. Workpapers, requests for discovery, answers to discovery and other documents filed with the Commission Secretary and served on the parties, whether or not discussed at hearing, are not part of the hearing records unless introduced as exhibits at hearing. The Commission or an individual Commissioner may add to the hearing record by reference to any document in the Commission Secretary’s official file, but only after notifying the parties of that intention and giving them reasonable opportunity to object, review, examine, and rebut or contest the document. (7-1-93)

284. THE COMMISSIONERS’ RECORD (RULE 284).
01. Documents in File. The Commissioners’ record in a proceeding automatically includes all pleadings, orders, notices, briefs, proposed orders and position papers. The Commission may add documents officially noticed to the Commissioners’ record. (7-1-93)

02. Materials Available at Hearing. The Commissioner(s) or hearing examiner(s) conducting a hearing will have the Commissioners’ record and all prepared testimony and exhibits available at hearing. Parties desiring to refer to additional documents at hearing should notify the Commission Secretary and all other parties of their intention so that these other documents will be available to the Commissioner(s) or hearing examiner(s) at hearing or should themselves provide copies at hearing to all other parties and to the Commissioner(s) or hearing examiner(s). (7-1-93)

The reporter at all hearings, conferences, arguments and other proceedings on the record must transcribe all oral proceedings on the record and collect all exhibits identified at hearing. Except as otherwise directed by the Commission, presiding officer at hearing, or the Commission Secretary, the reporter must file the complete hearing record of transcripts and exhibits with the Commission Secretary within fourteen (14) days of the close of hearing. (7-1-93)

286. TRANSCRIPTS (RULE 286).
01. Form of Transcripts -- Cover Sheet. Transcripts must be prepared on white eight and one-half by eleven inch (8 1/2” x 11”) paper. The lines of each page shall be double-spaced with a minimum of twenty-five (25) lines and a maximum of thirty (30) lines per page. Quotations, citations and parenthetical notes may be single-spaced. Each line shall be numbered on the left margin. The cover page of each volume of transcript must show the title of the proceeding, the case number, the presiding officer, the time and place of hearing, and other information as shown in the following example:

BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

(TITLE OF PROCEEDING)
CASE NO. XXX-X-XX-XX

(COMMISSIONER Able Baker, Presiding)

(HEARING OFFICER Charlie Dog, Presiding)

(Date, e.g., January 21, 1983)

(Hearing Room, e.g., Commission Hearing Room)

(Address, e.g., 472 West Washington, Boise, Idaho)

(4-7-11)

02. Volumes of Transcript -- Indices to Volumes. Each day of hearing must be transcribed in a volume or volumes separate from other days of hearing. Each volume of transcript must begin with a list of the parties who appeared that day and their representatives at hearing that day. This list must be followed with a list of all witnesses whose testimony is reported in that volume, showing the pages at which each witness’s testimony begins, what party (if any) called the witness, the pages upon which each other party’s examination begins, the pages upon which each Commissioner’s or hearing examiner’s examination begins, and the pages upon which redirect examination or any party’s, Commissioner’s or hearing examiner’s re-examination begins. These lists must be followed with a list showing all exhibits identified in that volume of transcript (including exhibits accompanying prepared testimony), the pages upon which they are first identified, and, if any exhibits are denied admission, the pages upon which the exhibits are denied admission.

(7-1-93)

03. Matters Included in Transcript. The transcript must contain all discussions on the record while the hearing is in order. Unless otherwise directed by the Commission, the presiding officer, or the Commission Secretary, prepared testimony must be included in the transcript without change or retyping. Witness’s corrections to prepared testimony should be made by distributing replacement pages to the reporter and describing those corrections on the record and/distributing an errata sheet; unless otherwise directed, no corrections other than replacement pages will be made in the prepared testimony before it is incorporated in the transcript, except the reporter may make minor corrections by interlineation in the prepared testimony. Witnesses may have seven (7) days after hearing to distribute replacement pages to all parties and to the reporter, unless the Commission, the presiding officer or the Commission Secretary otherwise directs.

(7-1-93)

04. Marginal Notes. The testimony of all witnesses reported in the transcript must be designated in the lower right margin by the witness’s surname and the party sponsoring the witness’s testimony. Witnesses not sponsored by any party must be designated “Public.” The type of testimony must be shown following the witness’s surname as “Di” (direct or redirect), “X” (examination by any party not sponsoring the witness), or “Com” (examination by a Commissioner or hearing examiner). Examples of the designations required by this Rule follow:

Accountant, Di; Accountant, Com; Ratepayer, X
ABC Company ABC Company Public
Discussions on the record that are not testimony or examination may be labeled “argument,” “decision,” “colloquy,” etc., to describe what is reported. (7-1-93)

05. Volume Size -- Number of Pages. Transcript volumes should not exceed three hundred (300) pages unless the transcript can be completed in three hundred fifty (350) pages or less. Transcript volumes and pages of all proceedings on the record, including prehearing conferences, hearings, arguments, and any other proceedings on the record, must be numbered consecutively. For example, if a prehearing conference on the record preceded a hearing, the transcript volume and page numbers of the hearing would be numbered consecutively with that of the prehearing conference. (3-16-04)

06. Number of Copies -- Binding. The reporter shall prepare an original and one (1) copy of the transcript for the Commission. The original of each transcript shall be filed with the Commission Secretary unbound but each volume shall be separated (if applicable). Copies of the transcript shall be fastened at the left margin in spiral or plastic-type binding, so as to open as flat as possible. (3-16-04)

07. Compressed Transcript. Any party may request a compressed transcript having no more than four (4) pages of regular transcript on a page. Each volume of compressed transcript shall contain no more than two hundred (200) pages unless the transcript can be completed in two hundred fifty (250) pages or less. A compressed transcript may be duplexed. The pagination shall be horizontal as follows:

```
1 2
3 4
```

(4-7-11)

08. Computer-Searchable Transcript. Any party may request a computer-searchable disk of the written transcript. The disk shall be in Adobe Acrobat (PDF) or other searchable format agreed upon by the reporter and the party ordering the disk. (4-7-11)

09. Purchase of Transcript. Any party or other person may request and pay for a copy of a transcript or portions of the transcript from the reporter. (3-16-04)

287. SEALED TRANSCRIPTS (RULE 287).
At the direction of the Commission or the presiding officer, the reporter shall prepare a separate transcript volume(s) of closed proceedings involving trade secrets, confidential information or other matters exempt from public disclosure. The reporter shall file the separate transcript volume(s) under seal. Sealed transcripts shall be separately stored in a secure location with limited access and safeguarded from unauthorized disclosure. (4-5-00)

288. -- 300. (RESERVED)

PART 4 - ORDERS AND REVIEW OF ORDERS
RULES 301 THROUGH 400

DEFAULTS
RULES 301 THROUGH 310

301. FAILURE TO ANSWER OR APPEAR AT HEARING -- DEFAULTS (RULE 301).
After an applicant’s, petitioner’s, complainant’s or moving party’s failure to appear at the time and place set for hearing, the Commission may dismiss the petition, application, complaint or motion. When a respondent that has been properly served fails to answer or appear at hearing, the Commission may order any relief against the respondent authorized by law. (7-1-93)

302. -- 310. (RESERVED)
311. **SUBMISSION FOR DECISIONS (RULE 311).**
A proceeding is submitted for decision upon filing of the hearing record with the Commission Secretary, filing of timely briefs, filing of timely orders proposed by the parties and timely written comments or exceptions, oral argument, or receipt of recommended findings of fact of the hearing examiner, whichever is last, but no later than twenty-eight (28) days after hearing is closed when a hearing is held, except when all Commissioners participating in the decision have heard the case themselves, they need not await the filing of the hearing record to consider the case submitted for their decision. The Commission (or a hearing examiner presiding over an uncontested matter) may issue a final decision earlier or rule from the bench, but a bench ruling will be followed by written order. (7-1-93)

312. **PROPOSED ORDERS BY COMMISSION (RULE 312).**
The Commission may issue a proposed order in any proceeding. Any party may file exceptions and briefs to a proposed order within twenty-one (21) days from its date of service, unless a different time is designated by the Commission. Any party may file and serve answers and accompanying briefs to the exceptions within seven (7) days after service of the exceptions. The Commission may adopt or revise the proposed order in response and issue a final order accordingly. The proposed order is not an order of the Commission unless it is adopted by order. In that case, the order of adoption is the final order for all purposes. (7-1-93)

313. -- 320. **(RESERVED)**

**INTERLOCUTORY ORDERS -- FINAL ORDERS -- REVIEW OR STAY OF ORDERS**
(RULES 321 THROUGH 330)

321. **INTERLOCUTORY ORDERS (RULE 321).**

01. **Defined.** Interlocutory orders are orders that do not finally decide all previously undecided issues presented in a proceeding, except the Commission may by order decide some of the issues presented in a proceeding and provide in that order that its decision on those issues is final and subject to review by reconsideration and appeal, but is not final on other issues. Unless an order contains one (1) of the paragraphs set forth in Rule 323 or a paragraph substantially similar, the order is interlocutory. (7-1-93)

02. **Certain Orders Always Interlocutory.** The following orders are always interlocutory: orders suspending rates, fares, tolls, rentals, charges, classifications, contracts, practices, rules or regulations under Section 61-622, Idaho Code; orders initiating complaints or investigations; orders joining, consolidating or separating issues, proceedings or parties; orders granting or denying intervention; orders scheduling prehearing conferences, discovery, hearing, arguments or deadlines for written communications; orders proposing modified procedure; orders compelling or refusing to compel discovery. (7-1-93)

03. **Review of Interlocutory Orders.** Interlocutory orders may be reviewed pursuant to Rules 322, 324 and 325. (7-1-93)

322. **REVIEW OF INTERLOCUTORY ORDERS (RULE 322).**
Any person may petition to review any interlocutory order. The Commission may rescind, alter or amend any interlocutory order on its own motion, but will not on its own motion review any interlocutory order affecting any party’s substantive rights without giving all parties notice and an opportunity for written comment. (7-1-93)

323. **FINAL ORDERS (RULE 323).**

01. **Paragraphs Designating Final Orders.** Final orders are all orders and only those orders containing one (1) of the following paragraphs or a paragraph substantially similar: (7-1-93)

a. **THIS IS A FINAL ORDER.** Any person interested in this Order (or in issues finally decided by this Order) or in interlocutory Orders previously issued in this Case No. xxx-x-xx-xx may petition for reconsideration within twenty-one (21) days of the service date of this Order with regard to any matter decided in this Order or in
interlocutory Orders previously issued in this Case No. xxx-x-xx-xx. Within seven (7) days after any person has petitioned for reconsideration, any other person may cross-petition for reconsideration in response to issues raised in the petition for reconsideration. See Section 61-626, Idaho Code; or

b. THIS IS A FINAL ORDER on reconsideration (or denying reconsideration). Any party aggrieved by this Order or other final or interlocutory Orders previously issued in this Case No. xxx-x-xx-xx may appeal to the Supreme Court of Idaho pursuant to the Public Utilities Law and the Idaho Appellate Rules. See Section 61-627, Idaho Code. Orders may be final on some issues and interlocutory on others. If so, the orders will explicitly designate the issues upon which they are final.

02. Service of Final Orders. The Commission Secretary must indicate on every order subject to petition for reconsideration the date upon which the order was served on the representatives of parties listed in Rule 41. The Commission Secretary must indicate on every order subject to appeal the date upon which the order was filed and the date upon which the order was served on the representatives of parties listed in Rule 41.

03. Petition to Designate Order as Final. Whenever a party believes that an order not designated as a final order according to the terms of these rules should be a final order, the party may petition the Commission to designate the order as final. If an order is designated as final after its release, its effective date for purposes of reconsideration or appeal is the date of the order of designation.

04. Review of Final Orders. Final orders may be reviewed pursuant to Rules 324, 325, 326, 331 and 341.

324. STAY OF ORDERS (RULE 324). Any person may petition the Commission to stay any order, whether interlocutory or final. Orders may be stayed by the judiciary according to statute. The Commission may stay any order on its own motion.

325. CLARIFICATION OF ORDERS (RULE 325). Any person may petition to clarify any order, whether interlocutory or final. Petitions for clarification from final orders do not suspend or toll the time to petition for reconsideration or appeal a final order. A petition for clarification may be combined with a petition for reconsideration or stated in the alternative as a petition for clarification and/or reconsideration. The Commission may clarify any order on its own motion.

326. RESCISSION, ALTERATION OR AMENDMENT OF FINAL ORDERS (RULE 326).

01. Petition to Rescind, Alter or Amend a Final Order. Any person may petition to rescind, alter or amend a final order pursuant to Section 61-624, Idaho Code. The petition to rescind, petition to alter, or petition to amend must state:

a. That it is filed pursuant to Section 61-629, Idaho Code, after an order has been set aside or set aside in part on appeal, or

b. That there have been changed circumstances or that new information has become available since the order was issued, or that there are other good and sufficient reasons for rescinding, altering, or amending the order. The Commission may dismiss as defective any such petition not complying with this rule and with Rule 53.

02. Rescission, Alteration or Amendment of Final Order on Commission's Own Motion. The Commission on its own motion may propose to rescind, alter or amend any final order. The Commission will give all interested persons notice of its proposal to rescind, alter or amend the final order and appropriate opportunity to be heard by evidentiary hearing or written submission.

327. SUBSTANCE OF ORDERS (RULE 327). Unless prohibited by statute, the substance of orders and the relief provided by orders may differ from the relief requested or proposed by any party. The Commission’s order may provide for any result supported by the record before the Commission without regard to whether each component of the order or any component of the order was specifically recommended by a party to the proceeding.
331. PETITIONS AND CROSS-PETITIONS FOR RECONSIDERATION (RULE 331).

01. Petition for Reconsideration. Within twenty-one (21) days after the service date of issuance of any final order, any person interested in a final order or any issue decided in a final order of the Commission may petition for reconsideration. Petitions for reconsideration must set forth specifically the ground or grounds why the petitioner contends that the order or any issue decided in the order is unreasonable, unlawful, erroneous or not in conformity with the law, and a statement of the nature and quantity of evidence or argument the petitioner will offer if reconsideration is granted. See Section 61-626, Idaho Code. (4-5-00)

02. Cross-Petition for Reconsideration. Within seven (7) days after any person has petitioned for reconsideration, any other person may cross-petition for reconsideration in response to any issues raised in the petition for reconsideration. Cross-petitions for reconsideration must set forth specifically the ground or grounds why the cross-petitioner contends that the order or any issue decided in the order is unreasonable, unlawful, erroneous or not in conformity with the law, and a statement of the nature and quantity of evidence or argument that the cross-petitioner will offer if reconsideration is granted. See Section 61-626, Idaho Code. (4-5-00)

03. Methods of Reconsideration Requested. The petition or cross-petition must state whether the petitioner or cross-petitioner requests reconsideration by evidentiary hearing, written briefs, comments, or interrogatories. (7-1-93)

04. Timely Filing -- Mailbox Rules. A petition for reconsideration is timely within the meaning of Section 61-626, Idaho Code, if it is filed with the Commission or postmarked no later than twenty-one (21) days after the date of service of the final order. Whenever a petition for reconsideration is mailed, rather than personally delivered, and it is not postmarked within eighteen (18) days from the date of service of the final order, the petitioner should notify the Commission Secretary and all other parties by telephone that the petition for reconsideration has been mailed. A cross-petition for reconsideration is timely filed within the meaning of Section 61-626, Idaho Code, if it is filed with the Commission or postmarked no later than seven (7) days after the petition for reconsideration to which it responds is received in the Office of the Commission Secretary. Whenever a cross-petition for reconsideration is mailed, rather than personally delivered, and is not postmarked within four (4) days from the date of receipt of the petition for reconsideration by the Commission Secretary, the cross-petitioner should notify the Commission Secretary and all other parties by telephone that the cross-petition for reconsideration has been mailed. (4-5-00)

05. Answers to Petitions for Reconsideration. Answers to petitions for reconsideration (pleadings that disagree with a petition for reconsideration, but do not ask for affirmative relief from the Commission’s orders) must be filed according to the procedures for cross-petitions for reconsideration. (7-1-93)
Filing a petition for reconsideration does not excuse compliance with any order nor stay the effectiveness of any order, unless otherwise ordered. Petitions to stay may accompany or precede petitions for reconsideration. (7-1-93)

334. -- 340. (RESERVED)

APPEAL
(RULES 341 THROUGH 350)

341. PERSONS WHO MAY APPEAL (RULE 341).

01. Parties Aggrieved by Order Following Petition for Reconsideration. After a petition for reconsideration is denied, or, if the petition is granted, then after the rendition of the decision on reconsideration, the state of Idaho or any party aggrieved may appeal from any such order of the Commission by filing with the Commission Secretary a notice of appeal conforming to the requirements of the Idaho Appellate Rules within the time provided by the Idaho Appellate Rules. See Section 61-627, Idaho Code. (7-1-93)

02. Parties Aggrieved by Denial of Petition for Reconsideration. No person is a party aggrieved by an order denying reconsideration unless the person is a party that petitioned for reconsideration and presented the ground(s) and issue(s) on which it contends it was aggrieved by earlier orders of the Commission as issue(s) on reconsideration pursuant to Rule 331 and the Commission denied reconsideration on some or all of those issues. (7-1-93)

03. Parties Aggrieved Following Reconsideration. No party is aggrieved by an order issued on reconsideration unless:

a. The party petitioned or cross-petitioned for reconsideration, its petition or cross-petition was granted, and the order issued on reconsideration did not grant the relief requested in the party’s petition or cross-petition for reconsideration with regard to some or all of the grounds and issues on reconsideration presented in its petition or cross-petition; or

b. The party did not petition or cross-petition for reconsideration, but stated on the record, by motion, or by brief that it opposed any alteration or change in the Commission’s earlier order(s) on some or all of the grounds associated with issue(s) on reconsideration, and the order issued on reconsideration altered or changed the earlier order(s) with regard to some or all of the grounds or issues on reconsideration that the party opposed. (7-1-93)

342. NOTICE OF APPEAL (RULE 342).

The notice of appeal must be filed with the Commission Secretary as provided in the Idaho Appellate Rules. A notice of appeal is not considered filed for any purpose when it is mailed, but is only considered filed when it is received by the Commission Secretary. (7-1-93)

343. PREPARATION OF APPELLATE RECORD (RULE 343).

The Commission by order may correct the title of an appeal to properly designate all parties as appellants, cross-appellants, respondents, or cross-respondents and to omit those designations for parties before the Commission who are not parties on appeal. All requests for a transcript on appeal must be served on the reporter and on the Commission Secretary. Reporter’s fees under Idaho Appellate Rule 24(c) should be paid directly to the reporter, not to the Commission Secretary. The Secretary’s fees under Idaho Appellate Rule 27(b) for preparation of the agency’s record are the same fees provided in that rule for the clerk of the district court to charge for preparation of the clerk’s record. (4-5-00)

344. -- 350. (RESERVED)

SETTLEMENT OF APPEAL FROM THE COMMISSION
(RULES 351 THROUGH 360)

351. DISMISSEALS (RULE 351).
Settlements in which appellants or cross-appellants from orders of the Commission agree to dismiss appeals, cross-appeals, or issues on appeal or cross-appeal without requiring the alteration, amendment or rescission of any Commission order are called dismissals. Any party may dismiss any appeal, cross-appeal, or issue on appeal or cross-appeal without any involvement of the Commission. Dismissals are governed solely by the procedures established by the Supreme Court of Idaho. (7-1-93)

352. SETTLEMENTS CALLING FOR COMMISSION ACTION (RULE 352).
Settlements in which one (1) or more parties agree to dismiss an appeal, cross-appeal, or issue on appeal or cross-appeal in conjunction with the alteration, amendment or rescission of a Commission order are called settlements calling for Commission action. If any party to an appeal wishes to attempt to negotiate a settlement calling for Commission action, it must notify the Commission and all other parties to the appeal of its intention to do so. If the Commission believes that settlement negotiations are in the public interest, it may authorize the Commission Staff to enter into settlement negotiations. In conducting those negotiations, the Staff must abide by Rule 272 with regard to active settlements of issues before the Commission. Settlement negotiations are confidential, unless all participants to the negotiation agree to the contrary. (7-1-93)

353. SUGGESTION FOR INQUIRY ABOUT SETTLEMENTS (RULE 353).
In authorizing the Staff to enter into settlement negotiations for a settlement calling for Commission action, the Commission may invite settlement of the entire appeal (including cross-appeals) or of certain issues. The authorization must be in writing and served upon all parties, but need not be done by notice or order. In authorizing negotiation for settlement calling for Commission action, the Commission or individual Commissioners may indicate acceptable ranges of settlement, preclude certain issues from settlement, or otherwise inform the parties of its views on settlement of an appeal calling for Commission action in aid of securing a just, speedy and economical settlement negotiation. Neither the Commission nor individual Commissioners will indicate ex parte their views on the merits of any proposed settlement. (7-1-93)

354. CONSIDERATION OF SETTLEMENT ON APPEAL (RULE 354).
When a settlement of an appeal calling for Commission action is presented to the Commission, the Commission will prescribe procedures appropriate to the nature of the settlement to consider the settlement. For example, the Commission may accept settlement of essentially private disputes that have no significant implications for regulatory law or policy or for other utilities or customers summarily upon the written request of the affected parties. On the other hand, when one (1) or more parties to the appeal is not party to the settlement or when the settlement presents issues of significant implication for other utilities, other customers or the public interest, the Commission may convene an evidentiary hearing to consider the reasonableness of the settlement and whether acceptance of the settlement is in the public interest. In all cases, the Commission will follow the procedure established by Section 61-624, Idaho Code, with regard to alteration, amendment or rescission of any order affected by the settlement. (7-1-93)

355. BURDENS OF PROOF (RULE 355).
Proponents of a proposed settlement carry the burden of showing that the settlement is reasonable, in the public interest, or otherwise in accordance with law or regulatory policy. In any instance in which parties or affected persons oppose the settlement, proponents of the settlement should be prepared to call witnesses and argue in favor of the settlement. Opponents of the settlement should be prepared to examine supporting witnesses, offer opposing witnesses or argue against the settlement. The Commission may require the development of an appropriate record in support of or opposition to a proposed settlement as a condition of accepting or rejecting the settlement. (7-1-93)

356. SETTLEMENTS NOT BINDING (RULE 356).
The Commission is not bound by settlement agreements. It will independently review any settlement proposed to it to determine whether the settlement is just, fair and reasonable, in the public interest or otherwise in accordance with law or regulatory policy. When a settlement agreement is presented to the Commission for its approval, the Commission may accept the settlement, reject the settlement, or state additional conditions under which the settlement will be accepted. In the last instance, the parties will have twenty-one (21) days to state their acceptance or rejection of the additional conditions imposed by the Commission. (7-1-93)

357. -- 999. (RESERVED)
000. **LEGAL AUTHORITY (RULE 0).**
These rules adopt by reference national safety codes and require the reporting of certain accidents under the general authority of the Public Utilities Law, Chapters 1 through 7, Title 61, Idaho Code, and under the specific authority of Sections 61-515 and 61-517, Idaho Code. (3-29-10)

001. **TITLE AND SCOPE (RULE 1).**
The name of this chapter is “Safety and Accident Reporting Rules for Utilities Regulated by the Idaho Public Utilities Commission.” This chapter has the following scope: All electric and telephone corporations subject to the regulation of the Idaho Public Utilities Commission are required to abide by the safety regulations adopted in Rule 101; all gas and pipeline corporations are required to abide by the safety regulations adopted in Rules 201 through 203; and all electrical, gas, pipeline, telephone, and water corporations are required to abide by the safety and accident reporting requirements of Rules 301 and 302. (7-1-93)

002. **WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).**
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. **ADMINISTRATIVE APPEALS (RULE 3).**
Any person requesting a waiver from any provision of these safety rules or accident reporting rules may petition the Idaho Public Utilities Commission for a waiver pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (4-1-98)

004. **PUBLIC RECORDS ACT COMPLIANCE (RULE 4).**
Notes of telephone reports required by Rule 301 and written reports required by Rule 302 are public records subject to inspection, examination and copying. Further investigative reports by the Commission or the Commission Staff are investigatory records exempt from disclosure. See Sections 74-101(6) and 74-105(1), Idaho Code. Reports required by these rules and the results of further investigations by the Commission are by statute prohibited from admission into evidence in any action for damages based on or arising out of the loss of life or injury to the person or property. See Section 61-517, Idaho Code. (3-29-10)

005. **DEFINITIONS (RULE 5).**

01. **Utilities.** The terms “electrical corporation,” “gas corporation,” “pipeline corporation,” “telephone corporation,” and “water corporation” have the meanings given to them by statute in Chapter 1, Title 61, Idaho Code; orders of the Idaho Public Utilities Commission; and decisions of the Idaho Supreme Court construing these statutes. (3-29-10)

02. **Serious Damage.** Damage to natural gas facilities caused by a natural disaster or terrorism that results in a loss of or reduction in pipeline throughput or storage deliverability. (4-2-08)

03. **Serious Interruption of Service.** Interruptions of natural gas pipeline service to communities, major governmental installations, and large industrial plants outside of communities or any other interruption that is significant in the judgment of the natural gas pipeline. Interruptions of less than three (3) hours or planned maintenance outages need not be reported. (4-2-08)

006. -- 007. **(RESERVED)**

008. **INCORPORATION BY REFERENCE – CODE OF FEDERAL REGULATIONS (RULE 8).**
Rules 101, 201, and 302 incorporate by reference various national safety codes and federal gas pipeline safety regulations. Each applicable rule identifies the issuing entity for each code or regulation and indicates where the incorporated materials may be obtained. Incorporated materials are also available for inspection and copying at the
offices of the Idaho Public Utilities Commission and the Idaho State Law Library. (4-2-08)

009. -- 100. (RESERVED)

ELECTRIC AND TELEPHONE UTILITIES
RULES 101 THROUGH 200

101. NATIONAL ELECTRICAL SAFETY CODE (NESC) (RULE 101).
The Commission adopts by reference the American National Standards Institute (ANSI) C2-2017 National Electrical Safety Code (NESC), 2017 Edition. The National Electrical Safety Code, 2017 Edition, is published by the Institute of Electrical and Electronics Engineers, Inc., and is available from the Institute of Electrical and Electronics Engineers, Inc., 3 Park Avenue, New York, NY 10016-5997 and may be ordered by calling 1-800-678-IEEE. All electrical and telephone corporations subject to the Commission’s jurisdiction are required to abide by applicable provisions of the NESC. (4-11-19)

102. -- 200. (RESERVED)

TRANSPORTATION OF NATURAL GAS BY PIPELINES -- LIQUEFIED NATURAL GAS FACILITIES -- TRANSPORTATION OF HAZARDOUS LIQUIDS BY PIPELINE -- INTERNATIONAL FUEL GAS CODE -- INTERNATIONAL MECHANICAL CODE
(RULES 201 THROUGH 300)

201. FEDERAL NATURAL GAS SAFETY REGULATIONS (RULE 201).
The Commission incorporates by reference Part 260.9, Title 18 (April 1, 2017) and Parts 191, 192, 193, 195, and 199, Title 49, the Code of Federal Regulations (October 1, 2017), except that federal accident reporting requirements contained in the rules adopted by reference in Rule 201 are replaced for state reporting purposes by orders of the Commission or rules of the Commission. These regulations are found in the Code of Federal Regulations, available on the web from the U.S. Government Bookstore, http://bookstore.gpo.gov, and click on “Code of Federal Regulations,” or by calling toll-free 866-512-1800. The incorporated CFR Parts are also available in electronic format at https://www.gpo.gov/fdsys. All gas and pipeline corporations subject to the Commission’s jurisdiction are required to abide by applicable provisions of these federal regulations adopted by reference. (3-28-18)

202. -- 300. (RESERVED)

REPORTING OF ACCIDENTS AND SERVICE INTERRUPTIONS
(RULES 300 THROUGH 400)

301. IMMEDIATE REPORTING OF FATALITIES AND CERTAIN ACCIDENTS AND MAJOR NATURAL GAS INTERRUPTIONS (RULE 301).

01. Fatality and Hospitalization Reporting. Whenever any employee of an electrical corporation, gas corporation, pipeline corporation, telephone corporation, or water corporation or any member of the public dies or requires in-patient hospitalization as a result of contact with or proximity to utility operating property, the utility must notify the Commission by telephone of the fatality or hospitalization no later than the first business day following discovery of the fatality or reporting of the hospitalization, except as provided in Subsection 31.11.01.301.02. Reports should be made to the Commission Secretary at (208) 334-0338. (3-29-10)

02. Operating Property -- Motor Vehicle Accident Exception. As used in this rule, operating property means electric plant as defined in Section 61-118, Idaho Code, gas plant as defined in Section 61-116, Idaho Code, pipelines as defined in Section 61-114, Idaho Code, telephone line as defined in Section 61-120, Idaho Code,
or water systems as defined in Section 61-124, Idaho Code. This reporting rule does not apply to fatalities and hospitalizations arising out of motor vehicle accidents, even if the motor vehicle later comes into contact with utility plant. Office buildings or portions of office buildings not associated with the physical delivery of utility services or commodities are not considered operating property.

03. Major Service Interruptions or Damage to Natural Gas Pipelines. The Commission incorporates by reference Section 260.9, Title 18, the Code of Federal Regulations (April 1, 2009). Every natural gas corporation must report serious damage to natural gas facilities and serious interruptions of service to the Commission. Natural gas corporations should also report other serious damage not caused by natural disaster or terrorism if such damages create the potential for serious delivery problems on its own system or the pipeline grid.

302. WRITTEN REPORTING OF ACCIDENTS AND NATURAL GAS INTERRUPTIONS (RULE 302).

01. Reporting Required. In addition to any telephone reporting required under Rule 301, a written report shall be submitted for:

a. Every accident involving an employee of the utility or member of the public that results in a fatality or in-patient hospitalization;

b. Any other accident the utility finds significant; or

c. Serious damage or service interruption of natural gas pipelines.

02. Submitting the Written Report. All written reports shall be submitted to the Commission within twenty one (21) days after the fatality or hospitalization is discovered. Reports regarding serious damage or service interruption shall be submitted at the earliest feasible time. Reports should be mailed to:

COMMISSION SECRETARY
IDAHO PUBLIC UTILITIES COMMISSION
PO BOX 83720
BOISE, ID 83720-0074

Street Address for Express Mail:
472 W. WASHINGTON ST.
BOISE, ID 83702-5918

Copies of such reports may also be provided by facsimile at (208) 334-3762 or by electronic mail at secretary@puc.idaho.gov.

03. Contents of Written Accident Report. There is no standard form for written reports prescribed by this rule. Gas companies may file copies of reports submitted to federal regulators under 49 C.F.R. Part 191. All reports submitted shall contain the following information:

a. Name of person(s) involved in the accident;

b. Status of persons involved in the accident (e.g., employees, children, contractors, etc.);

c. Time of day, day of the week and month, and location of the accident or discovery of the accident;

d. Description of the accident and events leading up to the accident; and

e. The company name, contact person, e-mail address and direct telephone number of the reporting official.

04. Contents of Written Report Involving Damage or Interruption to Natural Gas Facilities. All written reports shall provide the following information:

a. The location and cause of the service interruption or damage to natural gas pipeline or storage
facilities;

b. The nature of the serious damage to pipeline or storage facility;

c. The specific identification and location of any facilities damaged;

d. The time the service interruption or damage to facilities occurred;

e. The customers affected by the interruption of service or damage to facilities;

f. A brief description of emergency actions taken to maintain service;

g. An estimate of the time (if available) when pipeline throughput or storage deliverables are expected to be restored; and

h. The company name, contact person, e-mail address and direct telephone number of the reporting official.

303. USE OF REPORTS (RULE 303).
The Commission may find that reports required by Rules 301 and 302 constitute an adequate investigation of the accident reported, may direct the utility to provide further information to the Commission, or may direct its Staff or others to conduct further investigations. Reports required by Rules 301 and 302 and the results of further investigations by the Commission are by statute prohibited from admission into evidence in any action for damages based on or arising out of the loss of life or injury to the person or property. See Section 61-517, Idaho Code.

304. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 0).
These rules are adopted under the general legal authority of the Public Utilities Law, Chapters 1 through 7, Title 61, Idaho Code, and the specific legal authority of Section 61-524, Idaho Code. (7-1-93)

001. TITLE AND SCOPE (RULE 1).
The name of this chapter is “Systems of Accounts for Public Utilities Regulated by the Idaho Public Utilities Commission.” This chapter has the following scope: All Class A and B electric, gas, telephone, and water public utilities are required to maintain their books and records according to the systems of accounts adopted by this rule. (7-1-93)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
Any person requesting a waiver from any provision of the Uniform Systems of Accounts may petition the Idaho Public Utilities Commission for a waiver pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
All correspondence with regard to the Uniform System of Accounts is a public record subject to inspection, examination and copying. (7-1-93)

005. DEFINITIONS (RULE 5).
The terms “electrical corporation,” “gas corporation,” “telephone corporation,” and “water corporation” have the meanings given to them by statute in Chapter 1, Title 61, Idaho Code and orders of the Idaho Public Utilities Commission and decisions of the Supreme Court of Idaho construing those statutes. (7-1-93)

006. -- 007. (RESERVED)

008. INCORPORATION BY REFERENCE (RULE 8).
Rule 101, 102, 103 and 104 incorporate by reference various federal accounting regulations and accounting standards issued by the National Association of Regulatory Utility Commissioners. Each applicable rule identifies the issuing entity for each regulation or standard and indicates where the incorporated materials may be obtained. Incorporated materials are also available for inspection and copying at the offices of the Idaho Public Utilities Commission and the Idaho State Law Library. (4-2-08)

009. -- 100. (RESERVED)

UNIFORM SYSTEMS OF ACCOUNTS
RULES 101 THROUGH 200

101. UNIFORM SYSTEM OF ACCOUNTS FOR ELECTRIC UTILITIES (RULE 101).
The Commission adopts by reference the Uniform System of Accounts for Major (previously Class A and B) Electric Utilities contained in the Code of Federal Regulations, Title 18, Part 101 (April 1, 2007), available from the U.S. Government Printing Office, Attn: New Orders, PO Box 979050, St. Louis, MO 63197-9000. The incorporated material is also available in electronic format at www.ofr.gov. For payment by credit card, call toll-free 866-512-1800. The accounts adopted by reference are adopted for convenience of establishing uniform systems of accounts only for accounting and reporting and do not bind the Commission in any manner to any particular ratemaking
treatment of items in those accounts. All Major electrical corporations subject to the regulatory authority of the Idaho Public Utilities Commission are required to maintain their regulatory books according to the system of accounts adopted by this rule.  

102. UNIFORM SYSTEM OF ACCOUNTS FOR GAS UTILITIES (RULE 102).  
The Commission adopts by reference the Uniform System of Accounts for Major (previously Class A and B) Natural Gas Companies contained in the Code of Federal Regulations, Title 18, Part 201 (April 1, 2007), available from the U.S. Government Printing Office, Superintendent of Documents, Attn: New Orders, PO Box 979050, St. Louis, MO 63197-9000. The incorporated material is also available in electronic format at www.ofr.gov. For payment by credit card, call toll-free 866-512-1800. The accounts adopted by reference are adopted for convenience of establishing uniform systems of accounts only for accounting and reporting and do not bind the Commission in any manner to any particular ratemaking treatment of items in those accounts. All Major gas corporations subject to the regulatory authority of the Idaho Public Utilities Commission are required to maintain their regulatory books according to the system of accounts adopted by this rule.  

103. UNIFORM SYSTEM OF ACCOUNTS FOR TELEPHONE UTILITIES (RULE 103).  
The Commission adopts by reference the Uniform System of Accounts for Class A and B Telephone Utilities contained in the Code of Federal Regulations, Title 47, Part 32 (October 1, 2007), available from the U.S. Government Printing Office, Superintendent of Documents, Attn: New Orders, PO Box 979050, St. Louis, MO 63197-9000. The incorporated material is also available in electronic format at www.ofr.gov. For payment by credit card, call toll-free 866-512-1800. The accounts adopted by reference are adopted for convenience of establishing uniform systems of accounts only and do not bind the Commission in any manner to any particular ratemaking treatment of items in those accounts. All Class A and B telephone corporations subject to the regulatory authority of the Idaho Public Utilities Commission are required to maintain their regulatory books according to the system of accounts adopted by this rule.  

104. UNIFORM SYSTEM OF ACCOUNTS FOR WATER UTILITIES (RULE 104).  
The Commission adopts by reference the Uniform System of Accounts for Class A and B Water Utilities, 1996 Edition, published by the National Association of Regulatory Utility Commissioners (NARUC), available from NARUC at 1101 Vermont Avenue, NW, Suite 200, Washington, D.C. 20005. The Uniform System of Accounts may be purchased from NARUC by calling 202-898-2280 or ordered online at www.naruc.org/store. The accounts adopted by reference are adopted for the convenience of establishing uniform systems of accounts only and do not bind the Commission in any manner to any particular ratemaking treatment of items in these accounts. All Class A and B water corporations subject to the regulatory authority of the Idaho Public Utilities Commission are required to maintain their regulatory books according to the system of accounts adopted by this rule.  

105. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 0).
These rules are adopted under the general legal authority of the Public Utilities Law, Chapters 1 through 7, Idaho Code, and the specific legal authority of Sections 61-301, 61-302, 61-303, 61-315, 61-503, 61-507, and 61-520, Idaho Code. (7-1-93)

001. TITLE AND SCOPE (RULE 1).
The name of this chapter is “Customer Relations Rules for Gas, Electric and Water Public Utilities (the Utility Customer Relations Rules).” This chapter has the following scope: These rules provide a set of fair, just, reasonable, and non-discriminatory rules with regard to deposits, guarantees, billing, application for service, denial of service, termination of service and complaints to utilities. (3-29-10)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
This rule governs consideration of exemptions and complaints under these rules. Any person requesting and receiving an informal staff determination with regard to an exemption or complaint may formally or informally request the Commission to review the Staff’s determination. (7-1-93)

01. Exemptions From Rules. Rule 9 authorizes persons or utilities to request exemptions from these rules. This paragraph governs procedure for requests for exemptions. (7-1-93)

a. Any applicant, customer or utility may informally request an exemption from any provision of these rules for a specific applicant or applicants or customer or customers by writing the Commission’s consumer assistance staff at the Idaho Public Utilities Commission, PO Box 83720, Boise, Idaho 83720-0074 or by telephoning the Commission’s Consumer Assistance Staff at 334-0369 (Boise area) or 1 (800) 432-0369 (out of Boise calling area). Any such person may in writing or by telephone request the Commissioners to informally or formally review the Staff’s decision. (7-1-93)

b. Any applicant, customer or utility may formally petition the Commission for an exemption pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

c. Any utility requesting an exemption for all of its customers must formally petition the Commission pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

02. Complaints. Rule 402 authorizes persons or utilities to file complaints under these rules. This subsection governs procedure for filing complaints under these rules. (7-1-93)

a. Any applicant, customer or utility may file an informal complaint under any provision of these rules concerning a specific applicant or applicants or customer or customers by writing the Commission’s consumer assistance staff at the Idaho Public Utilities Commission, PO Box 83720, Boise, Idaho 83720-0074 or by telephoning the Commission’s Consumer Assistance Staff at 334-0369 (Boise area) or 1 (800) 432-0369 (out of Boise calling area). Any such person may in writing or by telephone request the Commissioners to informally or formally review the Staff’s decision. (7-1-93)

b. Any applicant, customer or utility may file a formal complaint under these rules with the Commission pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
All requests for waivers of these rules are public records subject to inspection, examination and copying under the Public Records Act. All informal complaints concerning public utilities’ compliance with the requirements of the Public Utilities Act and this Commission’s rules and orders are investigatory records exempt from disclosure under the Public Records Act. All formal complaints concerning public utilities’ compliance with these rules are public records subject to inspection, examination and copying under the Public Records Act.

005. DEFINITIONS (RULE 5).
The following definitions are used in this title and chapter:

01. Applicant. Unless restricted by definition within a rule or group of rules to a particular class of service, “applicant” means any potential customer who applies for service from a utility. Utilities may require an adult or minor competent to contract to join a minor not competent to contract as an applicant.

02. Customer. Unless restricted by definition within a rule or group of rules to a particular class of customer, “customer” means any person who has applied for, has been accepted by the utility, and is:

a. Receiving service from a utility; or

b. Has received service within the past ten (10) calendar days prior to termination by the utility; or

c. Has assumed responsibility for payment of service provided to another or others. If the person receiving service is not the same person as the person assuming responsibility for payment of service, the latter is the customer for purposes of obtaining or terminating service, receiving refunds, or making changes to the account.

03. Utility. Unless restricted by definition within a rule or group of rules, “utility” means any public utility providing gas, electric or water service subject by law to the Commission’s jurisdiction, whether previously certified or not.

006. -- 007. (RESERVED)

008. EXERCISE OF RIGHTS BY CUSTOMER (RULE 8).
No utility shall discriminate against or penalize a customer for exercising any right granted by these rules.

009. EXEMPTIONS FROM RULES (RULE 9).
If unusual or unreasonable hardships result from the application of any of these rules, any utility or customer may apply to the Commission for, or the Commission on its own motion may order, a permanent or temporary exemption.

010. INFORMAL INTERPRETATION OF RULES (RULE 10).
The Commission may authorize designated staff members to make and give informal interpretations of these rules and regulations and the utility tariffs on file with the Commission, and to investigate complaints filed with this Commission. These interpretations, which do not bind the Commission, will be distributed to utilities governed by these rules and interested consumer groups and be available from the director of the Commission’s consumer assistance staff. The Commission reserves to itself the authority to issue formal declaratory orders concerning interpretation of these rules and utility tariffs and to resolve formal complaints.

011. CONFLICT WITH UTILITY TARIFFS (RULE 11).
If a utility’s tariff on file with the Commission contains provisions that deny or restrict customer’s rights protected by any of these rules, these rules supercede any conflicting tariff provisions that deny or restrict any of those rights.

012 -- 099. (RESERVED)
DEPOSIT PRACTICES FOR RESIDENTIAL AND SMALL COMMERCIAL CUSTOMERS

RULES 100 TO 199

100. FURTHER DEFINITIONS (RULE 100).

As used in Rules 101 through 109:

01. Applicant. “Applicant” is restricted from its general definition to refer only to applicants for residential or small commercial service, unless further restricted by the rule. (7-1-93)

02. Customer. “Customer” is restricted from its general definition to refer to a residential or small commercial customer, unless further restricted by the rule. (7-1-93)

03. Deposit. “Deposit” means any payment held as security for future payment or performance that is reimbursable after the customer establishes good credit. (7-1-93)

04. Residential and Small Commercial Classes. The Commission will maintain on file a list of which customer classes of a given utility are residential and which are small commercial. (7-1-93)

101. DEPOSIT REQUIREMENTS (RULE 101).

01. Residential Customers. No utility shall demand or hold a deposit from any current residential customer or applicant for residential service without proof that the customer or applicant is likely to be a credit risk or to damage the property of the utility. A lack of previous history with the utility does not, in itself, constitute such proof. A utility shall not demand or hold a deposit under this rule as a condition of service from a residential customer or applicant unless one or more of the following criteria applies:

a. The customer or applicant has outstanding a prior residential service account with the utility that accrued within the last four (4) years and at the time of application for service remains unpaid and not in dispute. (5-3-03)

b. The customer’s or applicant’s service from the utility has been terminated within the last four (4) years for one (1) or more of the following reasons:

i. Nonpayment of any undisputed delinquent bill; (7-1-93)

ii. Misrepresentation of the customer’s or applicant’s identity for the purpose of obtaining utility service; (7-1-93)

iii. Failure to reimburse the company for damages due to negligent or intentional acts of the customer; (7-1-93)

or

iv. Obtaining, diverting or using service without the authorization or knowledge of the utility. (7-1-93)

c. Information provided by the applicant upon application for service is materially false or materially misrepresentative of the applicant’s true status. (7-1-93)

d. The applicant did not have service with the utility for a period of at least twelve (12) consecutive months during the last four (4) years, and does not pass an objective credit screen. (5-3-03)

e. The applicant requests service at a residence where a former customer who owes a past due balance for service incurred at that location still resides. (5-3-03)

f. The utility has given the customer two (2) or more written final notices of termination within the last twelve (12) consecutive months. (5-3-03)

02. Small Commercial Customers. A utility shall not demand or hold a deposit as a condition of
service from any current small commercial customer or applicant for small commercial service unless one or more of the following criteria apply:

a. Any of the criteria listed in Rule Subsection 101.01 of this rule are present.

b. The applicant is applying for service for the first time from that utility.

03. **Bankrupt Customers.** If an applicant for service or a customer, either residential or small commercial, has sought any form of relief under the Federal Bankruptcy Laws, has been brought within the jurisdiction of the bankruptcy court for any reason in an involuntary manner, or has had a receiver appointed in a state court proceeding, then deposit may be demanded as allowed by the Federal Bankruptcy Act of 1978, as amended, and, in particular, 11 USC 366, or as directed by the state court.

102. **OTHER DEPOSIT STANDARDS PROHIBITED -- RESIDENTIAL CUSTOMERS (RULE 102).**
A utility shall not require a deposit or other guarantee as a condition of new or continued residential utility service based upon residential ownership or location, income level, source of income, employment tenure, nature of occupation, race, creed, sex, age, national origin, marital status, number of dependents, or any other criterion not authorized by these rules. Rules governing deposits shall be applied uniformly.

103. (RESERVED)

104. **EXPLANATION FOR REQUIREMENT OF DEPOSIT (RULE 104).**
If the utility requires a cash deposit as a condition of providing service, then it shall immediately provide an explanation to the applicant or customer stating the precise reasons why a deposit is required. The applicant or customer shall be given an opportunity to rebut those reasons. In the event of a dispute, the applicant or customer shall be advised that an informal or formal complaint may be filed with the Commission.

105. **AMOUNT OF DEPOSIT (RULE 105).**

01. **Amount of Deposit.** A deposit allowed pursuant to Rule 101 as a condition of service shall not exceed one-sixth (1/6) the amount of reasonably estimated billing for one (1) year at rates then in effect. Where gas service is used for space heating purposes only, the deposit shall not exceed the total of the two (2) highest months’ bills during the previous twelve (12) consecutive months, adjusted for currently effective rates. Deposit amounts shall be based upon the use of service at the premises during the prior year or upon the type and size of equipment using the utility’s service.

02. **Installment Payments of Deposit.** The utility shall advise the applicant or customer that the deposit may be paid in two (2) installments. One-half (1/2) of the deposit amount shall be due immediately with the remaining installment payable in one (1) month.

106. **INTEREST ON DEPOSITS (RULE 106).**

01. **Interest Payable.** Interest will be payable on all deposited amounts at the rate provided by Subsection 106.02 of this rule. Interest will accrue from the date the deposit or deposit installment is made until the deposit is refunded or applied to the customer’s utility bill; however, interest will not accrue on a deposit or deposit installment if:

a. Service is terminated temporarily at the request of a customer who leaves the deposit with the utility for future use as a deposit; or

b. Service has been permanently terminated and the utility has been unsuccessful in its attempt to refund a deposit.

02. **Interest Rate.** On or before November 15 of each year, the Commission will determine the twelve month average interest rate for one-year Treasury Bills for the previous November 1 through October 31, rounded to the nearest whole percent, and notify the utilities of its determination of this interest rate. That rate will be in effect for the following calendar year for all deposits described in Rule Subsection 106.01 of this rule.
107. RETURN OF DEPOSIT (RULE 107).

01. Former Customers. Upon termination of service, the deposit (with accrued interest) shall be credited to the final bill. The balance of the deposit remaining, if any, shall be returned promptly to the customer.

(3-20-04)

02. Existing Customers. If the customer has paid all undisputed bills and has no more than one (1) late payment during the past twelve (12) consecutive months of service, the utility shall promptly return the deposit (with accrued interest) by either crediting the customer’s current account or issuing a refund.

(3-20-04)

03. Retention During Dispute. The utility may retain the deposit pending the resolution of a dispute over termination of service. If the deposit is later returned to the customer, the utility shall pay interest at the annual rates established in Rule 106 for the entire period over which the deposit was held.

(7-1-93)

04. Early Return of Deposit. A utility may refund a deposit plus accrued interest in whole or in part at any time before the time prescribed in this rule.

(7-1-93)

108. TRANSFER OF DEPOSIT (RULE 108).

Deposits shall not be transferred from one customer to another customer or between classes of service, except at the customer’s request. When a customer with a deposit on file transfers service to a new location within the same utility’s service area, the deposit (with accrued interest) shall be either transferred to the account for the new location or credited to the customer’s current account.

(4-6-05)

109. RECEIPT FOR DEPOSIT -- RECORDS OF DEPOSIT (RULE 109).

01. Receipts. Each customer paying a deposit or the initial installment on a deposit shall then be given a receipt containing or otherwise be provided with the following information:

a. Name of customer and service address for which deposit is held;

(7-1-93)

b. Date of payment(s);

(7-1-93)

c. Amount of payment(s); and

(7-1-93)

d. Statement of the terms and conditions governing the return of deposits. An ordinary receipt may be given for subsequent deposit installments.

(7-1-93)

02. Retention of Records. Each utility shall maintain records that will enable a customer entitled to a return of a deposit to obtain a refund even though the customer may be unable to produce the original receipt(s) for the deposit. The utility shall maintain a detailed record of all deposits received from customers, showing the name of each customer, the location of the premises occupied by the customer when the deposit is made and each successive location occupied by the customer while the deposit is retained, and the date(s) and amount(s) of the deposits or installments. The utility shall retain records of deposits that have been refunded to customers for a period of three (3) years after the date of refund. The utility shall retain records of unclaimed deposits for a period of seven (7) years as required by Section 14-531, Idaho Code.

(3-20-04)

03. Transfer of Records. Upon the sale or transfer of any utility or any of its operating units, the seller shall certify to the Commission that it has a list showing the names of all customers whose service is transferred and who have a deposit on file, the date the deposit was made, and the amount of the deposit.

(7-1-93)

110. UNCLAIMED DEPOSITS AND ADVANCE PAYMENTS (RULE 110).

01. Presumption of Abandonment. Pursuant to Section 14-508, Idaho Code, any deposit or advance payment made to obtain or maintain utility service that is unclaimed by the owner for more than one (1) year after termination of service is presumed abandoned.

(4-6-05)
Financial Assistance Program. A utility may apply to the Commission for approval to pay unclaimed deposits and advance payments presumed to be abandoned to a financial assistance program which assists the utility’s low income and disadvantaged customers with payment of utility bills. The utility shall remain obligated to file its report of such abandoned property as required by Section 14-517, Idaho Code, and retain records as required by Section 14-531, Idaho Code.

111. -- 199. (RESERVED)

BILLING
RULES 200 THROUGH 299

200. FURTHER DEFINITION (RULE 200).
As used in Rules 201 through 205, “bill” or “billing” refers to a written request for payment listing charges for services previously rendered or for services billed in advance that is mailed or otherwise delivered to the customer for payment.

201. ISSUANCE OF BILLS -- CONTENTS OF BILLS (RULE 201).
Bills shall be issued on a regular basis. Bills must contain the following information:

01. The Billing Date.

02. The Time Period Covered by the Bill.

03. Metered Service Billing. If metered service is the basis for billing, the beginning and ending meter readings, where the bill is based on actual readings, or a clearly marked statement that the bill is estimated, if the meter was not actually read, and the quantity of service provided, when applicable.

a. Each gas and electric utility shall compare on each customer’s regular billing the customer’s actual consumption of gas or electricity with the customer’s actual consumption of gas or electricity for the corresponding billing period in the previous year. If the billing periods being compared contain a different number of days, the utility shall adjust the data to take into account the different length of the billing periods and show the comparison as an absolute change in therm use or kilowatt hour use per day.

b. Each water utility with more than five thousand (5,000) customers shall compare on each customer’s regular billing the customer’s actual consumption of water with the customer’s actual consumption of water for the corresponding billing period in the previous year. The usage comparison shall be expressed in gallons or cubic feet based upon total consumption for each billing period or average consumption per day during each billing period.

04. Comparison of Consumption Data.

05. The Due Date of the Bill.

06. Itemization of All Charges. An itemization of all charges, both recurring and nonrecurring.

07. Any Amount Transferred From Another Account.

08. Any Amounts Past Due.

09. Payments or Credits. Any payments or credits applied to the customer’s account since the last bill.

10. The Total Amount Due.

11. Address and Telephone Number. The mailing address and toll-free telephone number(s) available.
to customers in the service territory for answering billing inquiries. (3-30-01)

202. DUE DATE OF BILLS -- DELINQUENT BILLS (RULE 202).

01. Ordinary Due Date. The utility may require that bills for service be paid within a specified time after the billing date. The minimum specified time after the billing date is fifteen (15) days (or twelve (12) days after mailing or delivery, if bills are mailed or delivered more than three (3) days after the billing date.) Upon the expiration of this time without payment, the bill may be considered delinquent. (7-1-93)

02. Hardship Exemption. When a residential customer certifies in writing to the utility that payment by the ordinary due date creates a hardship due to the particular date when the customer receives funds, the due date shall be extended up to an additional fifteen (15) days or at the option of the utility the customer shall be billed in a cycle that corresponds to the customer’s receipt of funds. (7-1-93)

203. BILLING UNDER INAPPROPRIATE TARIFF SCHEDULE (RULE 203).

01. Rebilling Required. If a customer was billed under an inappropriate tariff schedule, the utility shall recalculate the customer’s past billings and correctly calculate future billings based on the appropriate tariff schedule. A customer has been billed under an inappropriate tariff schedule if: (7-1-93)

a. The customer was billed under a tariff schedule for which the customer was not eligible; or (7-1-93)

b. The customer was billed under a tariff schedule based upon information supplied by the customer but the customer’s actual demand is insufficient to meet the minimum eligibility requirements for the selected tariff schedule; or (4-2-08)

c. The customer, who is eligible for billing under more than one (1) tariff schedule, was billed under a schedule contrary to the customer’s election, or the election was based on erroneous information provided by the utility. (7-1-93)

02. Exceptions. The utility shall not be required to adjust billings when it has acted in good faith based upon available information or when the customer was given written notice of options under the tariff schedules and did not make a timely election to exercise available options. (7-1-93)

03. Rebilling Time Period. When the customer has been overcharged, the period for rebilling shall not exceed three (3) years as provided by Section 61-642, Idaho Code. When the customer has been undercharged, the period for rebilling shall be limited to six (6) months unless a reasonable person should have known of the inappropriate billing, in which case the rebilling period may be extended for a period not to exceed three (3) years. Utilities shall implement procedures designed to monitor and identify customers who may be billed under an inappropriate tariff schedule. (4-2-08)

04. Refunds and Additional Payments. The utility shall promptly prepare a corrected billing indicating the refund due the customer or the amount due the utility. (4-2-08)

a. A customer who has been undercharged shall be given the opportunity to make payment arrangements under Rule 313 on the amount due. At the customer’s option, the term of the payment arrangement may extend for the length of time that the undercharge accrued. (4-2-08)

b. The utility shall promptly calculate refund amounts overpaid by the customer and issue a credit on the customer’s next bill. Any remaining credit balance may be credited against future bills, unless the customer, after notice from the utility, requests a refund. The utility shall advise the customer of the option to have any remaining credit balance refunded to the customer. (4-2-08)

204. INACCURATELY BILLED SERVICE UNDER CORRECT TARIFF SCHEDULE -- FAILURE TO BILL FOR SERVICE (RULE 204).
01. Errors in Preparation -- Malfunctions -- Failure to Bill. Whenever the billing for utility service was not accurately determined for reasons such as a meter malfunctioned or failed, bills were estimated, metering equipment was incorrectly installed or programmed, or bills were inaccurately prepared, the utility shall prepare a corrected billing. If the utility has failed to bill a customer for service, the utility shall prepare a bill for the period during which no bill was provided.  

(4-2-08)

02. Rebilling Time Period.  

a. If the time when the malfunction or error began or the time when the utility began to fail to bill for service cannot be reasonably determined to have occurred within a specific billing period, the corrected billings shall not exceed the most recent six (6) months before the discovery of the malfunction, error, or failure to bill.  

(4-2-08)

b. If the time when the malfunction, error, or failure to bill began can be reasonably determined and the utility determines the customer was overcharged, the corrected billings shall go back to that time, but not to exceed three (3) years from the time the error or malfunction occurred as provided by Section 61-642, Idaho Code.  

(4-2-08)

c. If the time when the malfunction or error can be reasonably determined and the utility determines the customer was undercharged, the utility may rebill for a period of six (6) months unless a reasonable person should have known of the inaccurate billing, in which case the rebilling may be extended for a period not to exceed three (3) years. Utilities shall implement procedures designed to monitor and identify customers who have not been billed or who have been inaccurately billed.  

(4-2-08)

03. Refunds. The utility shall promptly prepare a corrected billing indicating the refund due to the customer and issue a credit on the customer’s next bill. Any remaining credit balance shall be credited against future bills unless the customer, after notice from the utility, requests a refund. The utility shall advise the customer of the option to have any remaining credit balance refunded to the customer.  

(4-2-08)

04. Additional Payments. The utility shall promptly prepare a corrected billing for a customer who has been undercharged indicating the amount owed to the utility. An unbilled or undercharged customer shall be given the opportunity to make payment arrangements under Rule 313 on the amount due. At the customer’s option, the term of the payment arrangement may extend for the length of time that the underbilling accrued or the customer was not billed.  

(4-2-08)

205. (RESERVED)

206. RESPONSIBILITY FOR PAYMENT OF BILLS -- RESIDENTIAL CUSTOMERS (RULE 206).

01. Customer Defined. For purposes of this rule, “customer” means a customer whose name appears on the utility’s regular bill for residential service or who signed a written application for service or other document informing the customer that he or she was assuming an obligation for payment for service.  

(7-1-93)

02. Customer’s Responsibility. A customer shall not be held responsible for payment of an amount owed by any person who resides at the customer’s premises or is a member of the customer’s household, but whose name does not appear on the current bill or application for service, unless:  

(7-1-93)

a. The customer signs a written agreement to pay or otherwise expressly accepts responsibility for payment of the other person’s bill; or  

(3-20-04)

b. The customer has a legal obligation to pay the other person’s bill.  

(7-1-93)

03. Customer Notice. The utility shall provide written notice of its intent to add to the customer’s bill for current service an amount owed for:  

(3-20-04)

a. Another person’s bill; or  

(3-20-04)

b. Service rendered at a former service location, provided that the lapse in service exceeds sixty (60)
04. Contents of Notice. The notice must include:
   a. The name of the customer of record who owes the bill amount;
   b. The service location involved;
   c. The time over which the bill amount was accumulated;
   d. The amount owed;
   e. The reason(s) for adding the bill amount to the customer’s bill statement;
   f. A statement that payment arrangements may be made on the amount owed;
   g. A statement that the customer has the right to contest the utility’s proposed action with the utility or the Commission; and
   h. The response deadline after which the bill amount will be added to the customer’s bill statement.

05. Opportunity to Respond. The customer shall be given a minimum of seven (7) calendar days from the date of the proposed action to respond to the utility’s notice.

207. BILLING PROHIBITED (RULE 207). No utility shall bill for non-utility service(s) or merchandise not ordered or otherwise authorized by the customer of record. Any charges for these services that appear on a customer’s bill shall be removed from the customer’s bill no later than two (2) billing cycles following notice by the customer to the utility. A utility that unknowingly submits a bill containing charges for non-utility service(s) or merchandise not ordered or otherwise authorized by the customer of record shall not be considered in violation of Rule 207 if the disputed amounts are removed from the customer’s bill.

208. DEGREE-DAY INFORMATION (RULE 208). Upon request, each gas and electric utility shall make degree-day adjusted data available to customers for comparisons of the kind made in Rule 201.04.

209. -- 299. (RESERVED)
b. Service for which no rate or charge is contained in the utility’s tariffs; or (7-1-93)
c. Merchandise or equipment or charges for merchandise or equipment not required as a condition of receiving utility service. (7-1-93)

04. Written Notice. “Written notice” of the utility’s intent to deny or terminate service may be mailed or otherwise delivered to the applicant, resident, occupant, or customer. Written notice may be provided by electronic mail (i.e., e-mail) if the customer is billed electronically and separately consents in writing to “opt-in” to receiving electronic notification. (4-2-08)

301. EXPLANATION FOR DENIAL OF SERVICE TO APPLICANT (RULE 301).

01. Explanation to Applicant. If the utility intends to deny service to an applicant under Rule 302, the utility shall provide an explanation to the applicant stating the reasons for the utility’s refusal to serve. The applicant shall be advised of what action(s) must be taken to receive service. In the event of a dispute, the applicant shall be advised that an informal or formal complaint concerning denial of service may be filed with the Commission. (3-20-04)

02. Written Notice. If service is currently being provided to the premises occupied by an applicant, the utility shall provide written notice of its refusal to serve pursuant to Rule 312. (3-20-04)

302. GROUNDS FOR DENIAL OR TERMINATION OF SERVICE WITH PRIOR NOTICE (RULE 302).
A utility may deny or terminate service to a customer or applicant without the customer’s or applicant’s permission, but only after adequate notice has been given in accordance with these rules, for one (1) or more of the following reasons:

01. Failure to Pay. With respect to undisputed past due bills the customer or applicant: (3-20-04)
   a. Failed to pay; (3-20-04)
   b. Paid with a dishonored check; or (3-20-04)
   c. Made an electronic payment drawn on an account with insufficient funds. (3-20-04)

02. Failure to Make Security Deposit. The customer or applicant failed to make a security deposit or make an installment payment on a deposit where it is required. (3-30-01)

03. Failure to Abide by Terms of Payment Arrangement. The customer or applicant failed to abide by the terms of a payment arrangement. (3-30-01)

04. Identity Misrepresentation. The customer or applicant misrepresented the customer’s or applicant’s identity for the purpose of obtaining utility service. (7-1-93)

05. Denial of Access to Meter. The customer or applicant denied or willfully prevented the utility’s access to the meter. (7-1-93)

06. Willful Waste of Service. The utility determines as prescribed by relevant State or other applicable standards that the customer is willfully wasting service through improper equipment or otherwise. (7-1-93)

07. Service to Minors. The applicant or customer is a minor not competent to contract as described in Sections 29-101 and 32-101, Idaho Code. (3-20-04)

08. Previous Account Balance Owing. Nothing in this rule requires the utility to connect service for a customer or applicant who owes money on an existing account or from a previous account if the unpaid bill is for service provided within the past four (4) years. (4-2-08)
303. GROUNDS FOR DENIAL OR TERMINATION OF SERVICE WITHOUT PRIOR NOTICE (RULE 303).
A utility may deny or terminate service without prior notice to the customer or applicant and without the customer’s or applicant’s permission for one (1) or more of the following reasons: (7-1-93)

01. Dangerous Conditions. A condition immediately dangerous or hazardous to life, physical safety, or property exists, or if necessary to prevent a violation of federal, state or local safety or health codes. (7-1-93)

02. Order to Terminate Service. The utility is ordered to terminate service by any court, the Commission, or any other duly authorized public authority. (7-1-93)

03. Illegal Use of Service. The service is obtained, diverted or used without the authorization or knowledge of the utility. (7-1-93)

04. Unable to Contact Customer. The utility has tried diligently to meet the notice requirements of Rule 304, but has been unsuccessful in its attempts to contact the customer affected. (7-1-93)

304. REQUIREMENTS FOR NOTICE TO CUSTOMERS BEFORE TERMINATION OF SERVICE (RULE 304).

01. Initial Notice. If the utility intends to terminate service to a customer under Rule 302, the utility shall send to the customer written notice of termination mailed at least seven (7) calendar days before the proposed date of termination. This written notice shall contain the information required by Rule 305. (3-20-04)

02. Final Notice. The utility may mail a final written notice to the customer at least three (3) calendar days, excluding weekends and holidays, before the proposed date of termination. Regardless of whether the utility elects to mail a written notice, at least twenty-four (24) hours before the proposed date of termination, the utility shall diligently attempt to contact the customer affected, either in person or by telephone, to advise the customer of the proposed action and steps to take to avoid or delay termination. This final notice shall contain the same information required by Rule 305. (3-20-04)

03. Additional Notice. If service is not terminated within twenty-one (21) calendar days after the proposed termination date as specified in a written notice the utility shall again provide notice under Subsections 304.01 and 304.02 if it still intends to terminate service. (3-20-04)

04. Failure to Pay. No additional notice of termination is required if, upon receipt of a termination notice, the customer:

a. Makes a payment arrangement and subsequently fails to keep that arrangement; (3-20-04)

b. Tenders payment with a dishonored check; or (3-20-04)

c. Makes an electronic payment drawn on an account with insufficient funds. (3-20-04)

305. CONTENTS OF NOTICE OF INTENT TO TERMINATE SERVICE (RULE 305).

01. Contents of Notice. The written or oral notice of intent to terminate service required by Rule 304 shall state: (4-11-06)

a. The reason(s), citing these rules, why service will be terminated and the proposed date of termination; (4-11-06)

b. Actions the customer may take to avoid termination of service; (4-11-06)

c. That a certificate notifying the utility of a serious illness or medical emergency in the household may delay termination as prescribed by Rule 308; (4-11-06)
d. That an informal or formal complaint concerning termination may be filed with the utility or the Commission, and that service will not be terminated on the ground relating to the dispute between the customer and the utility before resolution of the complaint (the Commission’s address and telephone number must be given to the customer); and

(4-11-06)

e. That the utility is willing to make payment arrangements (this statement must be in bold print on written notices).

(4-11-06)

f. That for purposes of termination, partial payments will be applied toward utility service charges first, unless the customer requests otherwise, and that charges for non-utility services cannot be used as a basis for termination.

(4-11-06)

02. Additional Requirements for Gas and Electric Utilities. During the months of November, December, January and February, oral and written notices provided by gas and electric utilities to residential customers shall include or be accompanied by an explanation of restrictions on termination of service and the availability of the Winter Payment Plan described in Rule 306.

(4-11-06)

306. TERMINATION OF RESIDENTIAL GAS AND ELECTRIC SERVICE -- WINTER PAYMENT PLAN (RULE 306).

01. Restrictions on Termination of Service to Households with Children, Elderly, or Infirm. Except as provided in Rule 303, no gas or electric utility may terminate service or threaten to terminate service during the months of December through February to any residential customer who declares that he or she is unable to pay in full for utility service and whose household includes children, elderly or infirm persons.

(7-1-93)

02. Definitions for This Rule. For purposes of this rule:

(7-1-93)

a. “Children” means persons eighteen (18) years of age or younger, but customers who are emancipated minors are not children under this rule.

(4-11-06)

b. “Elderly” means persons sixty two (62) years of age or older.

(4-11-06)

c. “Infirm” means persons whose physical health or safety would be seriously impaired by termination of utility service.

(4-11-06)

03. Opportunity to Participate in Winter Payment Plan. Any residential customer who declares that he or she is unable to pay in full for utility service and whose household includes children, elderly or infirm persons shall be offered the opportunity to establish a Winter Payment Plan. However, no customer may be required to establish such a plan. Except as provided in Rule 303, no gas or electric utility may terminate service during the months of November through March to any customer who establishes a Winter Payment Plan before November 1. A customer may establish a Winter Payment Plan after November 1, but the extended protection from termination of service offered under such a plan will not begin until the date the plan is established. Failure of a participating customer to make payments as required will result in cancellation of the plan and elimination of the extended protection from termination of service offered under the plan. The customer may use any source of funds to satisfy the payment requirements of Winter Payment Plan.

(4-11-06)

04. Amount of Payments Under Winter Payment Plan. Monthly payments under a Winter Payment Plan are equal to one-half (1/2) of the Level Pay Plan amount for that customer. The Level Payment Plan amount shall be calculated according to Rule 313.06.

(4-11-06)

05. Payment Arrangements Following Winter Payment Plan. If a customer who received the protection of this rule has an outstanding balance owed to the utility, the customer shall either pay this balance or negotiate a new payment arrangement:

(4-11-06)

a. On or after March 1, if the customer has not established a Winter Payment Plan; or

(7-1-93)
b. On or after April 1, if the customer has established a Winter Payment plan. Failure of a customer to pay or make payment arrangements on or after these dates may result in termination of service. (7-1-93)

06. Successive Participation in Winter Payment Plan. A residential customer who participates in a Winter Payment Plan one (1) year shall be allowed to participate in the succeeding year if the customer has honored the payment arrangements and the balance owing as of November 1 does not exceed seventy-five dollars ($75) or the customer’s utility bill for the previous thirty (30) days, whichever is greater. (4-11-06)

07. Unoccupied Residences -- Failure or Refusal to Apply for Service. Nothing in this rule prevents a gas or electric utility from terminating service to unoccupied residences or residences where the occupants have failed or refused to apply for utility service. (4-11-06)

08. Customers Who Move. During the months of December, January and February, a gas or electric utility shall continue to provide service to any residential customer who made a declaration as provided for in Subsection 306.01 and subsequently moves to a new residence served by the same utility, regardless of any outstanding balance owed by the customer. If service is not connected at the new residence, service shall be connected as soon as possible after the customer requests service at the new residence. (4-11-06)

09. Applicants Previously Served. During the months of December, January and February, a gas or electric utility shall provide service to any residential applicant who made a declaration as provided for in Subsection 306.01 and within thirty (30) days of discontinuing service, subsequently applies for service at a new residence served by the same utility, regardless of any outstanding balance owed by the applicant. If service is not connected at the new residence, service shall be connected as soon as possible after the applicant requests service at the new residence. (4-11-06)

307. THIRD-PARTY NOTIFICATION -- RESIDENTIAL SERVICE (RULE 307). Each gas or electric utility shall provide a program for its residential customers known as Third-Party Notification. Under this program, the utility will, at the request of the customer, notify orally or in writing a third-party designated by the customer of the utility’s intention to terminate service. The third-party will be under no obligation to pay the bill, but as provided in Rule 313.08, no customer can be considered to have refused to enter a payment arrangement unless either the customer or the designated third-party has been given notice of the proposed termination of service and of the customer’s opportunity to make payment arrangements. (7-1-93)

308. SERIOUS ILLNESS OR MEDICAL EMERGENCY (RULE 308).

01. Medical Certificate -- Postponement of Termination of Service. A utility shall postpone termination of utility service to a residential customer for thirty (30) calendar days from the date of receipt of a written certificate signed by a licensed physician or public health official with medical training. The certificate must contain the following information:

a. A statement that the customer, a member of the customer’s family, or other permanent resident of the premises where service is rendered is seriously ill or has a medical emergency or will become seriously ill or have a medical emergency because of termination of service, and that termination of utility service would adversely affect the health of that customer, member of the customer’s family, or resident of the household. (3-20-04)

b. The name of the person whose serious illness or medical emergency would be adversely affected by termination and the relationship to the customer, and

c. The name, title, and signature of the person certifying the serious illness or medical emergency. (3-20-04)

02. Restoration of Service. If service has already been terminated when the medical certificate is received, service shall be restored as soon as possible, but no later than twenty-four (24) hours after receipt. The customer shall receive service for thirty (30) calendar days from the utility’s receipt of the certificate. (3-20-04)

03. Second Postponement. The utility may postpone termination of service upon receipt of a second certificate stating that the serious illness or medical emergency still exists. (7-1-93)
04. Verification of Medical Certificate. The utility may verify the authenticity of the certificate and may refuse to delay termination of service if it is determined that the certificate is a forgery or is otherwise fraudulent. (7-1-93)

05. Obligation to Pay. Nothing in this rule relieves the customer of the obligation to pay any undisputed bill. (3-20-04)

309. MEDICAL FACILITIES -- SHELTER CARE (RULE 309).
Where service is provided to a customer known to the utility to be or identifying itself as a medical care facility, including a hospital, medical clinic with resident patients, nursing home, intermediate care facility or shelter care facility, notice of pending termination shall be provided to the Commission and to the State Department of Health and Welfare as well as to the customer. Upon request from the Commission, a delay in termination of no less than seven (7) calendar days from the date of notice shall be allowed so that action may be taken to protect the interests of the facility’s residents. (7-1-93)

310. INSUFFICIENT GROUNDS FOR TERMINATION OR DENIAL OF SERVICE (RULE 310).

01. Termination of Service. No customer shall be given notice of termination of service nor shall the customer’s service be terminated if:
   a. The customer’s unpaid bill totals less than fifty dollars ($50) or two (2) months’ charges for service, whichever is less. (4-2-08)
   b. The unpaid bill is for utility service to any other customer (unless that customer has a legal obligation to pay the other customer’s bill) or for any other class of service. (4-2-08)
   c. The unpaid bill results from the purchase of non-utility goods or services. (4-2-08)
   d. The unpaid bill is for service provided four (4) or more years ago unless the customer has promised in writing to pay or made a payment on the bill within the last four (4) years. (4-2-08)
   e. The customer fails to pay amounts in dispute while a complaint filed pursuant to Rule 402 is pending before this Commission. (4-2-08)
   f. A case placing at issue payment of disputed amounts for utility service is pending before a court in the state of Idaho unless authorized by court order. (4-2-08)

02. Denial of Service. No applicant shall be given notice of denial nor shall the applicant be denied service if any of the criteria listed in Subsection 310.01.b. through 310.01.f. apply to the unpaid bill cited as grounds for denial of service. (4-2-08)

311. TIMES WHEN SERVICE MAY BE TERMINATED -- OPPORTUNITY TO AVOID TERMINATION OF SERVICE (RULE 311).

01. When Termination of Service Is Prohibited. Except as authorized by Rule 303 or this rule, service provided to a customer, applicant, resident or occupant shall not be terminated:
   a. On any Friday, Saturday, Sunday, legal holidays recognized by the state of Idaho, or on any day immediately preceding any legal holiday; or (4-2-08)
   b. At any time when the utility is not open for business. (4-2-08)

02. Times When Service May Be Terminated. Service may be terminated:
   a. At any time when there is a dangerous condition pursuant to Rule 303.01 or the utility is ordered to do so pursuant to Rule 303.02; (4-2-08)
b. Between the hours of 8 a.m. and 5 p.m., Monday through Thursday, for any reason authorized by Rules 302 and 303; (4-2-08)

c. Between the hours of 8 a.m. and 5 p.m. on Friday for illegal use of service pursuant to Rule 303.03 or if the premises are unoccupied and service has been abandoned; or (4-2-08)

d. Between the hours of 5 p.m. and 9 p.m., Monday through Thursday, if the utility is unable to gain access to the meter during normal business hours or for illegal use of service pursuant to Rule 303.03. (4-2-08)

03. Personnel to Authorize Reconnection. Each utility shall have personnel available who are authorized to reconnect service if the conditions cited as grounds for termination are corrected to the utility’s satisfaction. Service shall be reconnected as soon as possible, but no later than twenty-four (24) hours after the utility’s conditions are satisfied and reconnection is requested. (4-2-08)

04. Opportunity to Prevent Termination of Service. Immediately preceding termination of service, the employee designated to terminate service shall identify himself or herself to the customer or other responsible adult upon the premises and shall announce the purpose of the employee’s presence. This employee shall have in his or her possession the past due account record of the customer and shall request any available verification that the outstanding bills are satisfied or currently in dispute before this Commission. Upon presentation of evidence that outstanding bills are satisfied or currently in dispute before this Commission, service shall not be terminated. The employee shall be authorized to accept full payment, or, at the discretion of the utility, partial payment, and in such case shall not terminate service. Nothing in this rule prevents a utility from proceeding with termination of service if the customer or other responsible adult is not on the premises. (4-2-08)

05. Notice of Procedure for Reconnecting Service. The utility employee designated to terminate service shall give to the customer or leave in a conspicuous location at the affected service address, a notice showing the time of and grounds for termination, steps to be taken to secure reconnection, and the telephone numbers of utility personnel or other authorized representatives who are available to authorize reconnection. (4-2-08)

06. Applicant Without Service - Customer Requested Termination. Nothing in this rule prohibits a utility from terminating service at any time pursuant to a customer’s request. (4-2-08)

312. DENIAL OR TERMINATION OF SERVICE TO MASTER-METERED ACCOUNTS AND RESIDENTS OR OCCUPANTS WHO ARE NOT CUSTOMERS (RULE 312).

01. Notice to Occupants or Residents Not Customers. Except as provided in Rules 303.01 and 303.02, no utility shall deny or terminate service without providing written notice to the residents or occupants of:

a. A building or mobile home court where service is master-metered; (3-20-04)

b. A residence where the customer billed for service is not a resident or occupant of the premises being served; or (3-20-04)

c. Premises where service is being provided on an interim basis to a resident or occupant following a customer’s request to terminate service. (3-20-04)

02. Delivery and Contents of Notice. The utility must notify the residents or occupants of its intent to deny or terminate service at least two (2) calendar days, excluding weekends and holidays, before the proposed date of termination. The notice should be delivered to the premises or, in the case of multi-occupant buildings or mobile home parks, posted in common areas or a conspicuous location. The notice shall state:

a. The date of the notice; (7-1-93)

b. The proposed denial or termination date; (3-20-04)
c. The reason for denial or termination; (3-20-04)

d. What action(s) the resident(s) or occupant(s) must take in order to obtain or retain service in the resident’s(s’) or occupant’s(s’) own name(s); and (3-20-04)
e. That an informal or formal complaint concerning denial or termination of service may be filed with this Commission. (3-20-04)

313. PAYMENT ARRANGEMENTS (RULE 313).

01. Arrangements Allowed. When a customer cannot pay a bill in full, the utility shall continue to serve the customer if the customer and the utility agree on a reasonable portion of the outstanding bill to be paid immediately, and the manner in which the balance of the outstanding bill shall be paid. For customers who are unable to come to the utility’s local office to make payment arrangements, a gas or electric utility must, upon request by the customer, make payment arrangements over the telephone, by mail or at the customer’s home. (7-1-93)

02. Reasonableness. In deciding on the reasonableness of a particular agreement, the utility will take into account the customer’s ability to pay, the size of the unpaid balance, the customer’s payment history, and the amount of time and reasons why the debt is outstanding. (7-1-93)

03. Application of Payment. Unless the customer designates otherwise, payments are to be first applied to the undisputed balance owed by the customer for utility services and associated installation charges, taxes, franchise fees and surcharges. (3-30-01)

04. Second Arrangement. If a customer fails to make the payment agreed upon by the date that it is due, the utility may, but is not obligated to, enter into a second such agreement. (7-1-93)

05. When Arrangement Not Binding. No payment arrangement shall be binding upon a customer if it requires the customer to forego any right provided for in these rules. (7-1-93)

06. Level Pay Plans Acceptable Payment Arrangement. Payment arrangements may be in the form of a Level Pay Plan that will equalize monthly payments of all arrears, if any, and anticipated future bill amounts over a period of not less than one (1) year. No customer agreeing to a reasonable payment arrangement is required to choose this plan. (7-1-93)

07. Third-Party Contact. If a utility has been unable to contact a customer concerning termination, but has contacted the customer’s third-party designated under Rule 307 and has failed to receive a response from the customer within seven (7) days after the third-party was contacted, the utility may treat the customer as one who has been contacted and has declined to enter into a reasonable payment arrangement. (7-1-93)

314. -- 400. (RESERVED)

COMPLAINT PROCEDURE
RULES 401 THROUGH 499

401. COMPLAINT TO UTILITY (RULE 401).

01. Subject Matter. A customer or applicant for service may complain at any time to the utility about any deposit or written guarantee required as a condition of service, billing, termination of service, quality or availability of service, or any other matter regarding utility services, policies and practices. The customer or applicant may request a conference with the utility, but this provision does not affect any statute of limitation that might otherwise apply. Complaints to the utility may be made orally or in writing. A complaint is considered filed upon receipt by the utility. In making a complaint or request for conference, the customer or applicant shall state the customer’s or applicant’s name, service address, and the general nature of the complaint. (7-1-93)

02. Conference. Upon receiving each complaint or request for conference, the utility shall promptly,
thoroughly and completely investigate the complaint, confer with the customer or applicant when requested, and notify the customer or applicant of the results of the investigation and make a good-faith attempt to resolve the complaint. The oral or written notification shall advise the customer or applicant that the customer or applicant may request the Commission to review the utility’s proposed disposition of the complaint. (7-1-93)

03. **Service Maintained.** The utility shall not terminate service based upon the subject matter of the complaint while investigating the complaint or making a good-faith attempt to resolve the complaint. (7-1-93)

402. **REVIEW BY COMMISSION (RULE 402).**

01. **Informal Review.** If a customer or applicant who has complained to a utility is dissatisfied with a utility’s proposed disposition of the complaint, the customer or applicant may request the Commission to informally review the disputed issue and the utility’s proposed disposition of the complaint. (7-1-93)

02. **Procedure on Review.** The Commission will process these requests as informal complaints pursuant the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. Utility service shall not be terminated nor termination be threatened by notice or otherwise in connection with the subject matter of the complaint while the complaint is pending before the Commission so long as the customer continues to pay all amounts not in dispute, including current utility bills. Upon request by any party, the parties and a representative of the Commission shall be required to meet and confer. (7-1-93)

03. **Customer’s Rights Protected.** No customer or applicant shall be denied the opportunity to file a complaint with the Commission. (7-1-93)

04. ** Formal Complaints.** Formal complaints may be filed according to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

403. **RECORD OF COMPLAINTS (RULE 403).**

01. **Recordkeeping.** Each utility must keep a written record of complaints and requests for conferences pursuant to Rules 401 and 402. These records must be retained for a minimum of one (1) year at the office of the utility where the complaints were received or conferences held. These written records are to be readily available upon request by the concerned customer, the customer’s agent possessing written authorization, or the Commission. The records must show whether the customer or applicant was advised as required by Rule 401.02 that the customer or applicant may request the Commission to review the utility’s proposed disposition of the complaint. (4-2-08)

02. **Reporting.** Each utility must, at the Commission’s request, submit a report to the Commission that states and classifies the number of complaints made to the utility pursuant to Rules 401 and 402, the general nature of their subject matter, how received (in person, by letter, etc.), and whether a Commission review was conducted. (7-1-93)

404. **RESPONSES TO INFORMAL COMPLAINTS (RULE 404).** Within ten (10) business days of receiving notification from the Commission that an informal complaint involving the company has been filed with the Commission, utilities must either respond orally or in writing to the Commission. A utility will be granted an extension of time to prepare its response if it represents that it is making a good faith effort to resolve the matter in dispute. A full and complete response should be submitted to the Commission no later than thirty (30) days after receipt of notification from the Commission. (3-30-01)

405. -- 499. (RESERVED)

CUSTOMERS IN MULTI-OCCUPANT BUILDINGS -- RIGHT TO BILLING BASED UPON CUSTOMER'S OWN USE

RULES 500 THROUGH 599

500. -- 599. (RESERVED)
RULES FOR DEPOSIT, DENIAL, AND TERMINATION OF SERVICE FOR INDUSTRIAL, LARGE COMMERCIAL, AND IRRIGATION CUSTOMERS

RULES 600 THROUGH 700

600. DEFINITIONS (RULE 600).
As used in Rules 601 through 605.

01. Advance Payment. “Advance payment” means a payment made prior to receiving service that will be credited to the customer’s account at a later date.

02. Applicant. “Applicant” means an applicant for industrial, large commercial or irrigation service.

03. Customer. “Customer” means an industrial, large commercial or irrigation customer, unless further restricted by the rule. The Commission will maintain on file a list of which customer classes of a given utility are industrial, large commercial, and irrigation.

04. Deposit. “Deposit” means any payment held as security for future payment or performance that is reimbursable.

05. Written Notice. “Written notice” of the utility’s intent to deny or terminate service may be mailed or otherwise delivered to the applicant, occupant or customer. Written notice may be provided by electronic mail (i.e., e-mail) if the customer is billed electronically and separately consents in writing to “opt-in” to receiving electronic notification.

601. DEPOSIT REQUIREMENTS AND ADVANCE PAYMENTS (RULE 601).
An applicant or customer may be required to pay a deposit or make an advance payment in accordance with the utility’s tariff filed with the Commission. If an applicant or customer has sought any form of relief under the Federal Bankruptcy Laws, has been brought within the jurisdiction of the bankruptcy court for any reason in an involuntary manner, or has had a receiver appointed in a state court proceeding, then a deposit may be demanded as allowed by the Federal Bankruptcy Act of 1978, as amended, and, in particular, 11 U.S.C. 366, or as directed by the state court.

602. GROUNDS FOR DENIAL OR TERMINATION OF SERVICE WITH PRIOR NOTICE (RULE 602).
A utility may deny or terminate service to an industrial, large commercial or irrigation customer without its permission, but only after adequate notice has been given in accordance with these rules, for one (1) or more of the following reasons:

01. Failure to Pay Undisputed Bill. The customer or applicant did not pay undisputed delinquent bills or paid a delinquent bill with any check not honored by the bank.

02. Failure to Pay Deposit. The customer or applicant failed to make a required advance payment, pay a deposit or provide an acceptable guarantee, when required by the applicable tariff or contract.

03. The Customer or Applicant Failed to Comply with a Payment Arrangement.

04. Identify Misrepresentation. The customer or applicant misrepresented the customer’s or applicant’s identity for the purpose of obtaining utility service.

05. Denial of Access to Meter. The customer or applicant denied or willfully prevented the utility’s access to the meter.

06. Willful Waste of Service. The utility determines as prescribed by relevant State or other applicable standards that the customer is willfully wasting service through improper equipment or otherwise.
07. Failure to Apply for Service. The customer or applicant failed to apply for service with the utility.

603. REQUIREMENTS FOR AND CONTENTS OF NOTICE BEFORE TERMINATION OF SERVICE (RULE 603).

01. Initial Notice. If the utility intends to terminate service under Rule 601, the utility shall send to the customer written notice of termination mailed at least seven (7) calendar days prior to the proposed date of termination.

02. Contents of Notice. The written notice of termination shall state:
   a. The reason(s), citing these rules, why service will be terminated, and the proposed date of termination;
   b. Actions the customer may take to avoid termination;
   c. That an informal or formal complaint concerning the termination may be filed with this Commission; and
   d. That service will not be terminated prior to the resolution of such a filed complaint (if the resolution is in favor of the utility, the Commission shall set the date of termination).

03. Final Notice. The utility may mail a final written notice to customers at least three (3) calendar days, excluding weekends and holidays, before the proposed date of termination. Regardless of whether the utility elects to mail a written notice, at least twenty-four (24) hours prior to actual termination, the utility shall diligently attempt to contact the customer affected, either in person or by telephone, to apprise the customer of the proposed action. This final notice shall contain the same information required above for written notice. Each utility shall maintain clear, written records of oral notices, showing dates and the utility employee giving the notices.

604. GROUNDS FOR TERMINATION OF SERVICE WITHOUT PRIOR NOTICE (RULE 604).
A utility may terminate service without prior notice to the customer as specified in Rule 602 only:

01. Dangerous Conditions. If a condition immediately dangerous or hazardous to life, physical safety, or property exists, or if necessary to prevent a violation of federal, state or local safety or health codes.

02. Order to Terminate. Upon order by any court, the Commission, or any other duly authorized public authority.

03. Illegal Use of Utility. If such service is obtained, diverted or used without the authorization or knowledge of the utility; or

04. Unable to Contact Customer. If the utility has tried diligently to meet the notice requirements of Rule 602, but has been unsuccessful in its attempt to contact the customer.

605. NOTICE TO COMMISSION PRIOR TO TERMINATION (RULE 605).
No industrial or large commercial customer shall have its service terminated unless the Commission is given written notice seven (7) days before the termination. The Commission may stay termination of service upon its finding that the public interest requires service to be maintained to the customer.

606. -- 700. (RESERVED)

SUMMARY OF CUSTOMER RULES
RULES 701 THROUGH 800

701. SUMMARY OF RULES (RULE 701).
01. **Summary to Be Provided to Customers.** Each utility shall provide to its customers a summary of this chapter approved by the Commission. The summary shall be provided to customers at least once each year and must be available at local offices of the utility in Idaho and provided to each new customer upon commencement of service. (4-11-06)

02. **Contents of Summary.** The summary shall include the following information: (4-11-06)

a. An explanation of the conditions under which the utility may request a deposit; (4-11-06)

b. An explanation of the conditions under which the utility may deny or terminate service; (4-11-06)

c. An explanation of how termination of service may be postponed due to serious illness or medical emergency (residential customers only); (4-11-06)

d. A statement of the utility's willingness to make payment arrangements to assist customers having difficulty paying their utility bills; (4-11-06)

e. An explanation of how to file a complaint with the utility and the Commission; and (4-11-06)

f. A statement that termination of service is prohibited while a complaint is pending with the Commission or with a court in the State of Idaho. (4-11-06)

03. **Summary for Gas and Electric Customers.** The summary provided by a gas or electric utility also shall include the following information: (4-11-06)

a. An explanation of restrictions on termination of service and the availability of the Winter Payment Plan described in Rule 306 (residential customers only). (4-11-06)

b. An explanation of the Third Party Notification Program described in Rule 307 (residential customers only); and (4-11-06)

c. An explanation of the availability of the Level Pay Plan described in Rule 313. (4-11-06)

04. **Model Summaries.** Model Rules Summaries, including Spanish language translations for residential customers, shall be provided by the Commission to utilities and other interested parties upon request. (4-11-06)

702. **EXPLANATION OF RATE SCHEDULE (RULE 702).** Each gas, electric, and water utility shall transmit annually to each of its customers and give to each new customer at the time of initiation of service a clear and concise explanation of the existing rate schedule for the class of services selected by that customer. (3-29-10)

703. -- 999. (RESERVED)
31.26.01 – MASTER-METERING RULES FOR ELECTRIC UTILITIES

000. LEGAL AUTHORITY (RULE 0).
These rules are adopted under the general legal authority of the Public Utilities Law, chapters 1 through 7, Title 61, Idaho Code, and the specific authority of Sections 61-301, 61-302, 61-303, 61-315, 61-503, 61-507, and 61-520, Idaho Code, with regard to service. (7-1-93)

001. TITLE AND SCOPE (RULE 1).
The name of this chapter is “Master-Metering Rules for Electric Utilities.” This chapter has the following scope: All electric utilities are required to abide by these rules defining when and under what circumstances their customers may master-meter tenants of the customer. (7-1-93)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
There are no administrative appeals under these rules because they are not procedural rules. If an issue should arise calling for a proceeding to apply these rules, that proceeding would be conducted under the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
All correspondence with regard to these rules is a public record subject to inspection, examination and copying, unless it is an investigatory record under Section 74-105(1), Idaho Code. (7-1-93)

005. DEFINITIONS (RULE 5).
As used in these rules:

01. Electric Utility. Electric utility or utility means an “electrical corporation” as defined by statute in Chapter 1, Title 61, Idaho Code, and orders of the Idaho Public Utilities Commission and decisions of the Supreme Court of Idaho construing those statutes. (7-1-93)

02. Tenant -- Mobile Home Park. A tenant of a mobile home park is a person defined as a tenant and not a transient by the Mobile Home Park Tenant Act, Section 55-2001 et seq., Idaho Code, and in particular by Section 55-2003(4) and 55-2003(5), Idaho Code. (7-1-93)

03. Tenant -- Multi-Unit Residential or Commercial Building. A tenant of a multi-unit residential building is a person who is not a transient and who intends to reside in or be a commercial tenant in one (1) of the building’s units for a period not less than one (1) month. (7-1-93)

006. -- 100. (RESERVED)

MASTER-METERING RULES FOR ELECTRIC UTILITIES
RULES 101 THROUGH 200

101. MASTER-METERING AND INDIVIDUAL METERING IN MOBILE HOME PARKS (RULE 101).

01. Parks Metered After July 1, 1980. Tenants (excluding transients) of mobile home parks connected for service after July 1, 1980, must be individually metered by the electric utility serving the mobile home park. Master-metering of these tenants, whether or not in conjunction with sub-metering by the park operator, is prohibited. (7-1-93)
02. Exception for Sub-Metered Parks. Mobile home parks whose spaces for tenants (excluding transients) have been fully sub-metered for electricity by the park owners need not be individually metered by the electric utility supplying the park. Mobile home parks sub-metered by the park operator must charge each of their tenants the same rate for electric service that a residential customer of the utility serving the park would charge the tenant if the tenant were directly metered and billed by the utility. Testing of submeters shall be the park operator’s expense. (7-1-93)

03. Transition Rule for Sub-Metered Parks. Mobile home parks that were partially sub-metered on July 1, 1980, must individually meter all spaces to be used by non-transient tenants before January 1, 1981. At the option of the park operator, the operator may extend an existing sub-metering system to those spaces not metered by the operator or may request the utility providing service to the park to meter the unmetered spaces for non-transient tenants at the utility’s expense. (7-1-93)

04. Utility Payment for Reading Sub-Meters. The utility supplying electricity to sub-metered parks shall pay the park operator one dollar and fifteen cents ($1.15) per month per sub-metered occupied customer space. The utility will only pay one dollar and fifteen cents ($1.15) per month per space that is occupied during the month. (7-1-93)

05. List of Grandfathered Mobile Home Parks. The electric utility shall file with the Commission a list of “grandfathered” mobile home operators who are entitled to a payment for sub-metered occupied customer spaces. Each month, the owner-operator will certify to the utility the number of spaces that were occupied during the month. The utility will have the right to request from the owner-operator reasonable documentation of any customer account provided to the utility. (7-1-93)

102. MASTER-METERING AND INDIVIDUAL METERING IN MULTI-OCCUPANT RESIDENTIAL BUILDINGS (RULE 102). No multi-occupant residential buildings shall be master-metered for electric service after July 1, 1980, if the dwelling units for nontransient tenants contain an electric space heating, water heating, or air-conditioning (space cooling) unit that is not centrally controlled and for which the dwelling unit’s tenants individually control electric usage. (7-1-93)

103. MASTER-METERING AND INDIVIDUAL METERING IN COMMERCIAL BUILDINGS AND SHOPPING CENTERS (RULE 103). No unit of commercial buildings and shopping centers shall be master-metered for electric service after July 1, 1980, if the units for their tenants contain an electric space heating, water heating, or air-conditioning (space cooling) unit that is not centrally controlled and over which the unit’s tenants individually control electric usage. Tenants in otherwise master-metered buildings whose electric load or who operate appliances whose electric load exceeds the individual metering threshold found in the utility’s tariffs must be individually metered. (7-1-93)

104. TARIFFS PROHIBITING MASTER-METERING AUTHORIZED (RULE 104). Electric utilities may file tariffs prohibiting master-metering and requiring individual metering in instances not required by these rules. If these tariffs require conversion from master-metering to individual metering of buildings master-metered on July 1, 1980, the utility shall bear all wiring costs between the meter and its distribution lines unless it reaches a contrary agreement with the affected persons. (7-1-93)

105. -- 999. (RESERVED)
IDAPA 31
TITLE 31
CHAPTER 01

31.31.01 – GAS SERVICE RULES

000. LEGAL AUTHORITY (RULE 0).
These rules are adopted under the general legal authority of the Public Utilities Law, chapters 1 through 7, Title 61, Idaho Code, and the specific authority of Sections 61-301, 61-302, 61-303, 61-315, 61-503, 61-507, 61-515, and 61-520, Idaho Code, with regard to safety and service. (7-1-93)

001. TITLE AND SCOPE (RULE 1).
The name of this chapter is the “Gas Service Rules.” This chapter has the following scope: All gas utilities are required to abide by these rules in their provision of gas service. (7-1-93)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
There are no administrative appeals under these rules because they are not procedural rules. If an issue should arise calling for a proceeding to apply these rules, that proceeding would be conducted under the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
All correspondence with regard to these rules is a public record subject to inspection, examination, and copying. (7-1-93)

005. DEFINITIONS (RULE 5).
As used in these rules, gas utility or gas corporation means a “gas corporation” as defined by statute in Chapter 1, Title 61, Idaho Code, and orders of the Idaho Public Utilities Commission and decisions of the Supreme Court of Idaho construing those statutes. (7-1-93)

006. -- 100. (RESERVED)

CONSTRUCTION, OPERATION, AND MAINTENANCE OF FACILITIES FOR TRANSMISSION AND DISTRIBUTION OF GAS - RULES 101 THROUGH 200

PRELIMINARIES FOR SERVICE - RULES 101 THROUGH 150

101. MAPS OF FACILITIES (RULE 101).

01. Maps, Plans, and Records. Gas corporations must maintain maps, plans, and records as prescribed by this rule. A suitable map or maps shall be kept on file in the principal office of each division or district. The maps shall at all times show the size, character, and location of each street main, district regulator, street valve and drip, and when practicable, each service connection in the corresponding territory served. In lieu of showing date of installation and service locations on maps, a card record or other suitable means may be used. (7-1-93)

02. Distribution Records in District Offices. In each division or district office there shall be available information about the distribution system that will enable the local representatives at all times to furnish necessary information regarding rendering of service to existing and prospective customers. (7-1-93)

03. Maps of Manufacturing, Mixing, Compressor, and Storage Facilities. Each gas manufacturing or mixing plant and each compressor station and storage facility shall be provided with an accurate ground plan drawn to a suitable scale, showing the entire layout of the plant or station, the location, size, and character of plant,
equipment, major pipelines, connections, valves, and other facilities used for the production and delivery of gas, all properly identified.

04. Inspection of Facilities. In determining whether these rules are being complied with, the Commission may inspect facilities and records as necessary, as provided in Section 61-521, Idaho Code.

102. INSPECTION OF CUSTOMER'S FACILITIES (RULE 102).
The gas corporation shall inspect the customer’s installation before the connection of a meter to ascertain that the installation conforms to the provisions contained in the National Fuel Gas Code and the Uniform Mechanical Code, as adopted by the Commission. If the installation on the customer’s premises does not meet these requirements, the Company shall refuse to connect the meter and shall advise the customer in writing the reasons for such refusal. See Customer Relations Rule 301, IDAPA 31.21.01.301; see Safety and Accident Reporting Rules 201, IDAPA 31.11.01.201.

103. -- 150. (RESERVED)

STANDARDS FOR SERVICE - RULES 151 THROUGH 200

151. STANDARD FOR SERVICE (RULE 151).
Service to the customer shall assure the customer of adequate pressure, a definite heat content, and accurate measurement of gas.

152. PERIODIC TESTS OF CUSTOMER METERS (RULE 152).

01. Testing of Smaller Capacity Meters. All meters with capacities up to and including four hundred (400) cubic feet per hour (cfh) that have been in service ten (10) or more years as established by last set date shall be tested within a prescribed sample size as determined in accordance with military standard 105D.

02. Testing of Larger Capacity Meters. All meters from four hundred one (401) to three thousand (3,000) cfh that have been in service ten (10) years as established by last set date shall be replaced or field tested.

153. METER PROVING (RULE 153).

01. Meter Provers. Each gas corporation shall own at least one (1) meter prover of a type approved by the Commission and shall maintain such equipment in proper adjustment and so calibrated that the error of indication shall not exceed one-half percent. No meter prover shall be so placed as to subject it to excessive temperature variation and each meter prover shall be equipped with suitable thermometers and other necessary accessories.

02. Additional Meter Proving Stations. Additional meter proving stations shall be installed when and where found necessary by the Commission.

03. Testing Apparatus for Large Capacity Meters. Each gas utility using orifice meters, high pressure meters, proportional meters, or other large capacity meters shall own and maintain testing apparatus of a type approved by the Commission.

04. Accuracy of Meter Provers and Testers. The accuracy of all provers and methods of operation may be established from time to time by a representative of the Commission. Any alterations, accidents, or repairs that might affect the accuracy of any meter prover, or the method of operating it, shall be promptly reported in writing to the Commission.

154. CUSTOMER METER ACCURACY REQUIREMENTS (RULE 154).

01. Accuracy of Meters. A new gas meter installed for the use of any customer shall not be more than two percent (2%) slow and not more than one percent (1%) fast. Every meter removed from service when opened for
repairs shall be adjusted to be not more than two percent (2%) slow and not more than one percent (1%) fast before being reset; and if not opened for repairs may be reset without adjustment if found to be not more than two percent (2%) in error fast or slow, when passing as in both instances at the test rates provided for in Rule 155 (Customer Meter Test Loads). (7-1-93)

02. Removal of Defective Meters From Service. No meter that is mechanically defective shall be placed in service or allowed to remain in service after the defect has been discovered. When any gas meter is not connected in service, the inlet and outlet shall be capped to prevent the drying out of the diagrams. (7-1-93)

155. CUSTOMER METER TEST LOADS (RULE 155).

01. Testing of Meters. All tests to determine the accuracy of registrations of gas service meters shall be made with a suitable meter prover or testing equipment. Unless exempted by order of the Commission, at least two (2) test runs shall be made on each bellows type displacement meter, the results of which shall agree with each other within one-half of one percent (.5%). (7-1-93)

02. Gas Flows During Testing. The rate of flow to be used in testing meters having capacities up to and including three thousand (3,000) cubic feet per hour shall be twenty percent (20%) and one hundred percent (100%) of the rated capacity. The one hundred percent (100%) capacity or open run test shall not be taken into consideration in arriving at the accuracy of these meters. Meters having capacities of above three thousand (3,000) cubic feet per hour, except orifice meters, shall be tested both at twenty percent (20%) and one hundred percent (100%) of their capacity. For the purpose of determining the accuracy of these meters, the average of twenty percent (20%) and one hundred percent (100%) tests shall be used. (7-1-93)

156. CUSTOMER METER TEST RECORDS (RULE 156).

01. Records of Meter Tests. Each gas corporation shall keep records of tests of the accuracy of each of its meters, until superseded by a later test, but not less than two (2) years. These records shall give:

a. Sufficient information to identify the meter; 
   (7-1-93)
b. The reason for the test; 
   (7-1-93)
c. The date of the test and reading of the meter; 
   (7-1-93)
d. The name of the person making the test; and 
   (7-1-93)
e. The accuracy as found and as left, together with enough of the data taken at the time of the test to permit the convenient checking of the methods employed and the calculations. 
   (7-1-93)

02. Results of Meter Tests. Each gas utility shall annually make tabulations of the results of all meter accuracy tests required by these rules. 
(7-1-93)

157. -- 999. (RESERVED)
31.36.01 – POLICIES AND PRESUMPTIONS FOR SMALL WATER COMPANIES

000. LEGAL AUTHORITY (RULE 0).

001. TITLE AND SCOPE (RULE 1).
The name of this chapter is “Policies and Presumptions for Small Water Companies.” This chapter has the following scope: All small water companies created or certified after the effective date of these rules (November 1, 1987) are subject to the policies and presumptions of these rules. (7-1-93)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
There are no administrative appeals under these rules because they are not procedural rules. If an issue should arise calling for a proceeding to apply these rules, that proceeding would be conducted under the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
All correspondence with regard to these rules is a public record subject to inspection, examination and copying. (7-1-93)

005. DEFINITIONS (RULE 5).
As used in these rules, water utility, water company, or water corporation means a “water corporation” as defined by statute in Chapter 1, Title 61, Idaho Code, and orders of the Idaho Public Utilities Commission and decisions of the Supreme Court of Idaho construing those statutes. (7-1-93)

006. -- 100. (RESERVED)

101. SMALL WATER COMPANIES DEFINED (RULE 101).
Small water companies are water corporations as defined by the Public Utilities Law that:

01. Gross Revenue. Have or anticipate not more than fifty thousand dollars ($50,000) annual gross revenues from water operations, or (7-1-93)

02. Customer Base. Provide service to fewer than three hundred (300) customers or propose initially to provide service to fewer than three hundred (300) customers. (7-1-93)

102. CONSIDERATION OF ALTERNATIVE SERVICE (RULE 102).
The Commission may deny certificates for proposed new small water companies when it is shown that there is no need for the service or that another company (whether municipal, cooperative, or investor-owned) is willing and able to provide similar or better service. The Commission may deny certificates for proposed new small water companies whose creation or expansion is in violation of ordinance or resolution of cities, counties, or other local units of government or subdivisions of the state. (7-1-93)

103. PRESUMPTION OF CONTRIBUTED CAPITAL (RULE 103).
In issuing certificates for a small water company or in setting rates for a small water company, it will be presumed that the capital investment in plant associated with the system is contributed capital, i.e., that this capital investment will be excluded from rate base. (7-1-93)

104. -- 999. (RESERVED)
000. **LEGAL AUTHORITY (RULE 0).**

001. **TITLE AND SCOPE (RULE 1).**
The name of this chapter is the “Customer Relations Rules for Telephone Corporations Providing Services in Idaho Subject to Customer Service Regulation by the Idaho Public Utilities Commission,” (The Telephone Customer Relations Rules). For companies subject to Commission regulation under Title 62, Idaho Code, these rules apply to companies providing local exchange service as defined in Section 62-603, Idaho Code. This chapter has the following scope: These rules provide a set of fair, just, reasonable, and non-discriminatory rules to address recurring areas of disagreement between local exchange companies and other telephone companies and customers with regard to deposits, guarantees, billing, application for service, denial of service, termination of service, complaints to telephone companies, billing for interrupted service, and provision of certain information about customers to authorities. (3-29-10)

002. **WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).**
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. **ADMINISTRATIVE APPEALS (RULE 3).**
This rule governs consideration of formal complaints and requests for exemption under these rules. Any telephone company or customer requesting and receiving an informal staff determination with regard to a complaint may formally request the Commission to review the Staff’s determination. If unusual or unreasonable hardships result from the application of any of these rules, any telephone company or customer may apply to the Commission for; or the Commission on its own motion may order, a permanent or temporary exemption. A formal complaint or request for exemption must be filed with the Commission pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (3-29-10)

004. **PUBLIC RECORDS ACT COMPLIANCE (RULE 4).**
All requests for waivers of these rules are public records subject to inspection, examination and copying under the Public Records Act. All informal complaints concerning telephone companies’ compliance with the requirements of the Public Utilities Law or the Telecommunications Act of 1988 and this Commission’s rules and orders are investigatory records exempt from disclosure under the Public Records Act. All formal complaints concerning telephone companies’ compliance with these rules are public records subject to inspection, examination and copying under the Public Records Act. (7-1-93)

005. **DEFINITIONS (RULE 5).**
The following definitions are used in this title and chapter:

**01. Customer.** A “customer” is a person or entity who has requested service or currently receives service from a telephone company or has assumed responsibility for payment of service provided to another person or entity. Any person whose service has been temporarily disconnected for non-payment shall continue to be a “customer” for the purposes of these rules until such time as service is permanently disconnected. (3-29-10)

**02. Local Exchange Company (LEC).** “Local exchange company” (LEC) is a telephone company providing local exchange service to end-users. (3-29-10)
03. **Message Telecommunications Service (MTS)**. “MTS” (commonly known as “long-distance service”) means the transmission of two-way interactive switched voice communication between local exchange areas. (3-29-10)

04. **Other Services**. “Other services” mean all services except local exchange and MTS services provided, billed, or collected by a telephone company. (1-1-95)

05. **Residential Service**. “Residential service” means telecommunication service furnished and maintained at a dwelling primarily for personal or domestic purposes and not for business, professional or institutional purposes, i.e., service provided to residential customers as defined in Section 62-603(9), Idaho Code. (3-29-10)

06. **Small Business Service**. “Small business service” means telecommunication service furnished to a business or institutional entity, whether an individual, partnership, corporation, association or other business or institutional form, for occupational, professional, or institutional purposes, to customers who do not subscribe to more than five (5) local access lines which are billed to a single billing location, i.e., service provided to small business customers as defined in Section 62-603(11), Idaho Code. (3-29-10)

07. **Telephone Company**. Unless further restricted by definition within a rule or a group of rules, “telephone company” means any entity subject to this Commission’s regulation as a provider of telecommunication services to end-users under the Public Utilities Law (Idaho Code, Title 61, Chapters 1-7) or subject to this Commission’s authority under theTelecommunications Act of 1988, as amended, (Idaho Code, Title 62, Chapter 6) or the federal Telecommunications Act of 1996 (47 U.S.C. 151 et seq). (3-29-10)

006. -- 007. (RESERVED)

008. **EXERCISE OF RIGHTS BY CUSTOMER (RULE 8)**. No telephone company shall discriminate against or penalize a customer for exercising any right granted by these rules. (7-1-93)

009. **INFORMAL COMPLAINTS AND INTERPRETATION OF RULES (RULE 9)**. The Commission may authorize designated staff members to make and give informal interpretations of these rules and tariffs or other filings of telephone companies on record with the Commission, and to investigate complaints made to the Commission. The Commission reserves to itself the authority to issue formal declaratory orders concerning the interpretation of these rules, telephone company tariffs or similar filings, and to resolve formal complaints. (3-29-10)

010. **CONFLICT WITH TELEPHONE TARIFFS OR PRICE LISTS (RULE 10)**. If a telephone company’s tariff or price list on file with the Commission contains provisions that deny or restrict customers’ rights protected by any of these rules, these rules supersede any conflicting tariff or price list provisions that deny or restrict any of those rights. (7-1-93)

011. **INCORPORATION BY REFERENCE -- CODE OF FEDERAL REGULATIONS (RULE 11)**. Rules 701 through 703 incorporate by reference federal regulations issued by the Federal Communications Commission. The incorporated regulations are found in the Code of Federal Regulations available from the U.S. Government Printing Office. Incorporated materials are also available for inspection and copying at the offices of the Public Utilities Commission. (3-29-10)

012. -- 099. (RESERVED)

**RESIDENTIAL AND SMALL BUSINESS DEPOSIT**

**Rules 100 Through 199**

100. **DEPOSIT REQUIREMENTS -- LECS (RULE 100)**.
01. Residential Customers. No company providing local exchange service shall demand or hold any deposit from any residential customer for service without proof that the customer is likely to be a credit risk or to damage the property of the local exchange company or other companies for which it bills. A history of late payment or lack of previous history with the local exchange company does not, in itself, constitute such proof. A local exchange company shall not demand or hold a deposit under this rule as a condition of service from a residential customer unless one (1) or more of the following criteria applies:

a. The customer has outstanding a prior residential service account and at the time of application for service remains unpaid and not in dispute.

b. The customer’s service has been temporarily denied or terminated within the past four (4) years for one (1) or more of the following reasons:
   i. Non-payment of any undisputed delinquent bill;
   ii. Obtaining, diverting or using telephone service without the authorization or knowledge of the telephone company.

c. The customer does not have verifiable previous telephone service that was in existence for a period exceeding twelve (12) months and does not pass an objective credit screen.

d. The telephone company has determined that information provided by the customer is materially false or materially misrepresents the customer’s true status.

e. The customer requests service at a residence where a prior subscriber still resides and where any balance for service to that prior subscriber incurred at that location is past due or owing.

02. Small Business Customers. No local exchange company providing local exchange service shall demand or hold any deposit as a condition of service from any current small business customer for small business service unless one (1) or more of the following criteria apply:

a. Any of the conditions listed in Rule 100.01 of this rule are present.

b. The customer has not had previous service with that telephone company.

c. The customer was delinquent in payment two (2) or more times in the previous twelve (12) months.

03. Bankrupt Customers. If a customer, either residential or a small business, has sought any form of relief under the Federal Bankruptcy Laws, has been brought within the jurisdiction of the bankruptcy court for any reason in an involuntary manner, or has had a receiver appointed in a state court proceeding, then a deposit may be demanded as allowed by the Federal Bankruptcy Laws.

101. OTHER DEPOSIT STANDARDS PROHIBITED (RULE 101). A local exchange company shall not require a deposit or other guarantee as a condition of new or continued residential telephone service based upon residential ownership or location, income level, source of income, employment tenure, nature of occupation, race, creed, sex, age, national origin, marital status, number of dependents, or any other criterion not authorized by these rules. Rules governing deposits shall be applied uniformly. If the customer, either residential or small business, selects another company to provide services and arranges to be billed directly by that company rather than through the local exchange company, no deposit may be collected by the local exchange company for the services provided by the other company.

102. EXPLANATION FOR DENIAL OF SERVICE OR REQUIREMENT OF DEPOSIT -- LECS (RULE 102). If the local exchange company requires a deposit as a condition of providing service, then it shall immediately provide an explanation to the customer stating the precise reasons why a deposit is required. The customer shall be given an opportunity to rebut these reasons. In the event of a dispute, the customer must be advised that an informal
or formal complaint may be filed with the Commission. (3-29-10)

103. AMOUNT OF DEPOSIT -- LECS (RULE 103).
A deposit allowed pursuant to Rule 100 as a condition of service by a local exchange company shall not exceed two (2) months’ charges for local exchange service. Additional deposits for damage or other reasons independent of usage may be in reasonable amounts. (3-29-10)

104. INTEREST ON DEPOSITS (RULE 104).

01. Interest Payable. Interest will be payable on the deposited amounts at the rate provided by Rule 104.02. Interest will accrue from the date the deposit is made until the deposit is refunded or applied to the customer’s bill; however, interest will not accrue on a deposit if:

a. Service is terminated temporarily at the request of the customer who leaves the deposit with the telephone company for future use as a deposit; or (7-1-93)

b. Service has been permanently terminated and the telephone company has been unsuccessful in its attempt to refund a deposit. (7-1-93)

02. Interest Rate. On or before November 15 of each year, the Commission will determine the twelve-month average interest rate for one-year Treasury Bills for the previous November 1 through October 31, round that rate to the nearest whole percent, and notify the telephone companies of its determination of this interest rate. That rate will be in effect for the following calendar year for all deposits described in Rule 104.01. (3-29-10)

105. RETURN OF DEPOSIT -- LECS (RULE 105).

01. Former Customers. Upon termination of service, the deposit, with accrued interest, must be credited to the final bill. The balance of the deposit remaining, if any, must be returned promptly to the customer. (3-30-01)

02. Existing Customers. If the customer has paid all undisputed bills and has no more than one (1) late payment during the past twelve (12) consecutive months of service, the telephone company shall promptly return the deposit (with accrued interest) by crediting the customer’s current account or issuing a refund. (3-29-10)

03. Retention During Dispute. The local exchange company may retain the deposit pending resolution of a dispute over termination of service. If the deposit is later refunded to the customer, the local exchange company shall pay interest at the annual rates established in Rule 104 for the entire period over which the deposit was held. (7-1-93)

04. Early Return of Deposit. A local exchange company may refund a deposit plus accrued interest in whole or part at any time before the time prescribed in this rule. (7-1-93)

106. TRANSFER OF DEPOSIT (RULE 106).
Deposits shall not be transferred from one (1) customer to another customer or between classes of service, except at the customer’s request. When a customer with a deposit on file transfers service to a new location within the same telephone company’s service area in Idaho, the deposit and any outstanding balance shall be transferred to the account for the new location. (7-1-93)

107. RECORDS OF DEPOSITS (RULE 107).

01. Receipts. Each customer paying a deposit shall be provided the following information: (3-29-10)

a. Name of customer and service address for which deposit is held; (7-1-93)

b. Date of payment; (7-1-93)

c. Amount of payment; and (7-1-93)
d. Terms and conditions governing the return of deposits. (3-29-10)

02. Retention of Records. Each telephone company shall maintain records that will enable a customer entitled to a return of a deposit to obtain a refund even though the customer may be unable to produce the receipt for the deposit. These records must include the name of each customer, the service location(s) and telephone number(s) of the customer while the deposit is retained, and the date(s) and amount(s) of the deposits. The telephone company shall retain records of deposits that have been refunded to customers for a period of three (3) years after the date of refund. The telephone company shall retain records of unclaimed deposits for a period of seven (7) years as required by Section 14-531, Idaho Code. (4-6-05)

03. Transfer of Records. Upon the sale or transfer of any telephone company or any of its operating units, the seller shall certify to the Commission that it has a list showing the names of all customers whose service is transferred and who have a deposit on file, the date the deposit was made and the amount of the deposit. (7-1-93)

108. UNCLAIMED DEPOSITS AND ADVANCE PAYMENTS (RULE 108).

01. Presumption of Abandonment. Pursuant to Section 14-508, Idaho Code, any deposit or advance payment made to obtain or maintain local exchange service or other services that is unclaimed by the owner for more than one (1) year after termination of service is presumed abandoned. (3-29-10)

02. Financial Assistance Program. A telephone company may apply to the Commission for approval to pay unclaimed deposits and advance payments presumed to be abandoned to a financial assistance program which assists the telephone company’s low income and disadvantaged customers with payment of utility bills. The telephone company shall remain obligated to file its report of such abandoned property as required by Section 14-517, Idaho Code, and retain records as required by Section 14-531, Idaho Code. (4-6-05)

109. -- 199. (RESERVED)

BILLING
Rules 200 Through 299

200. FURTHER DEFINITION -- BILLING STATEMENT (RULE 200).
As used in Rules 201 through 205, “bill” or “billing statement” refers to a written request for payment listing charges for goods and services that is mailed or otherwise delivered to the customer for payment. A billing statement may be provided to the customer in an electronic format with the customer's consent. Oral notice of the amount of charges pending is not a bill. Bills include requests for payments for services rendered by other telephone companies or other entities that are not telephone companies. This rule does not apply to billings between or among telephone companies. (3-29-10)

201. ISSUANCE OF BILLING STATEMENTS -- CONTENTS OF BILLS -- RESIDENTIAL AND SMALL BUSINESS SERVICE (RULE 201).

01. Local Exchange Service. Billing statements for residential and small business local exchange service must be issued on a regular basis and must contain the following information: (3-29-10)

a. The date the billing statement is issued; (3-29-10)

b. The time period covered by the billing statement; (3-29-10)

c. The due date by which payment must be received, unless the customer has authorized automatic monthly payment. If automatic payment is authorized, the customer must be informed in writing when funds will be withdrawn from a bank account or charged to a credit card account. In addition, the billing statement must state the actual or earliest possible date that funds will be withdrawn or the credit card charged unless the customer consents otherwise in writing at the time automatic payment is authorized; (3-29-10)
d. Any amounts transferred from another account; (7-1-93)
e. Any amounts past due; (7-1-93)
f. Any payments or credits applied to the customer’s account since the last bill; (7-1-93)
g. The total amount due; (7-1-93)
h. Names of all telephone companies or entities providing goods and services for which the customer is billed, sufficient information to readily identify the goods and services provided, and the amounts charged; (3-29-10)
i. The toll-free telephone number(s) available to customers for answering inquiries and resolving complaints about goods and services billed; (3-29-10)
j. An itemization of charges for goods and services provided to the customer and any associated fees, taxes, surcharges or subscriber line charges. Charges for each good or service provided as part of a package under a single price, or calling plans in which individual calls are billed at a flat rate regardless of usage need not be separately itemized. (3-29-10)

02. MTS Bills. In addition to the requirements of Rule 201.01, bills for MTS service must identify the number called and the date, time, duration, destination and charge for each call, unless the customer has selected a flat rate calling plan. For collect and third-party calls the MTS provider must also itemize the origin of the call. (3-29-10)

03. Other Services. No telephone company may send demand letters or initiate collection efforts for any amount owed by a customer who subscribes to or is billed for services other than local exchange service and MTS services provided by another telephone company unless the bill separately lists those services as required by this rule. (3-29-10)

04. Customer Request for Less Detail. Upon customer request, telephone companies may provide billing statements containing less detail than required by this rule. Telephone companies must make available without charge detailed billing information for the preceding twelve (12) months to those customers who have elected to receive less detail on monthly billing statements but subsequently request more detail. (3-29-10)

202. DUE DATE OF BILLS -- DELINQUENT BILLS (RULE 202).
The telephone company may require that bills for service be paid within a specified time after the billing date. The minimum specified time after the billing date is fifteen (15) days (or twelve (12) days after mailing or delivery of a paper or electronic bill, if bills are mailed or delivered more than three (3) days after the billing date). Upon the expiration of this time without payment, the bill may be considered delinquent. With the customer’s approval, automatic monthly payments made by withdrawal from a bank account or charged to a credit card account may take place prior to the normal due date if the customer has authorized such a payment. (3-29-10)

203. BILLING ERRORS, BILLING UNDER INCORRECT RATES, OR FAILURE TO BILL (RULE 203).

01. Billing Errors -- Failure to Bill. Whenever the billing for telephone service was not accurately billed because of malfunction in billing equipment or error in preparation of bills, the telephone company shall prepare a corrected billing. If the telephone company has not billed a customer for service provided, the telephone company shall prepare a bill for the period in which service was provided and the customer was not billed. At its discretion, the telephone company may waive rebilling for undercharges. (7-1-93)

02. Billing Under Incorrect Rates. A customer has been billed under an incorrect rate if the customer was billed under a rate for which the customer was not eligible or the customer, who is eligible for billing under more than one (1) rate, was billed under a rate contrary to the customer’s election or the election was made based upon erroneous information provided by the telephone company. If a customer is billed under an incorrect rate, the telephone company must recalculate the customer’s past bills and correctly calculate future bills based on the appropriate rate. The telephone company is not required to adjust bills when it has acted in good faith based upon
information provided by the customer. (3-29-10)

03. Rebilling Time Period. (3-29-10)

a. If the time when the billing error, billing under incorrect rates, or failure to bill (collectively referred to as “billing problem”) began cannot be reasonably determined to have occurred within a specified billing period, the corrected billings shall not exceed the most recent six (6) months before the discovery of the billing problem. (3-29-10)

b. If the time when the billing problem began can be reasonably determined, and the telephone company determines the customer was overcharged, the corrected billings shall go back to that time, but not to exceed three (3) years from the time the billing problem occurred as provided by Section 61-642, Idaho Code. (3-29-10)

c. If the time when the billing problem began can be reasonably determined and the telephone company determines the customer was undercharged, the company may rebill for a period of six (6) months unless a reasonable person should have known of the inaccurate billing, in which case the rebilling may be extended for a period not to exceed three (3) years. The telephone company is responsible for identifying customers who have not been billed or who have been inaccurately billed. (3-29-10)

04. Refunds. The telephone company must promptly calculate refund amounts overpaid by the customer and issue a credit within two (2) billing cycles. Any remaining credit balance shall be credited against future bills unless the customer, after notice from the telephone company, requests a refund and the amount is more than twenty-five dollars ($25). The telephone company shall advise the customer of the option to have any remaining credit balance exceeding twenty-five dollars ($25) refunded. (3-29-10)

05. Additional Payments. The telephone company must promptly prepare a corrected billing for a customer who has been undercharged, indicating the amount owed to the company. An unbilled or undercharged customer must be given the opportunity to make payment arrangements under Rule 310 on the amount due. At the customer’s option, the term of the payment arrangement may extend for the length of time that the underbilling accrued or the customer was not billed. (3-29-10)

204. BILLING PROHIBITED -- BILLING DISPUTES (RULE 204).

01. Unauthorized Charges. No telephone company shall bill for unanswered or unaccepted telephone calls, telephone calls placed to a toll-free number, or telephone service or other goods and services not ordered or otherwise authorized by the customer of record. A telephone company that unknowingly submits a bill containing charges for unanswered or unaccepted telephone calls, telephone calls placed to a toll-free number, or telephone service or other services or goods not ordered or otherwise authorized by the customer of record shall be considered in violation of this rule unless the disputed amounts are removed from the customer’s bill within two (2) billing cycles of the customer’s notification to the company. (3-29-10)

02. Billing Disputes. A telephone company that bills and collects for other telephone companies or entities is responsible for either addressing billing disputes regarding unauthorized goods and services for which it bills or advising customers how to contact the providers of those goods and services. If a customer is unable to either contact or successfully resolve a dispute about unauthorized goods and services for which the telephone company bills, a credit equal to the disputed charges must be applied to the customer’s account within two (2) billing cycles of the customer’s notification to the company. (3-29-10)

205. RESPONSIBILITY FOR PAYMENT OF RESIDENTIAL SERVICE BILLS (RULE 205).

01. Customer Defined. For purposes of this rule, “customer” means a person whose name appears on the telephone company’s regular bill for residential service or who signed a written application for residential service or another document informing the customer that he or she was assuming an obligation for payment of service. (7-1-93)

02. Customer’s Responsibility. A customer shall not be held responsible for payment of an amount
not billed for the customer’s own service or through use of the customer’s own credit or facilities and whose own name does not appear on the current bill or application for service, unless:

a. The customer expressly accepts responsibility for payment of the other person’s bill; or

b. The customer has a legal obligation to pay the other person’s bill.

03. Customer Notice. The telephone company shall provide written notice of its intent to add to the customer’s bill for current service an amount owed for another person’s bill or service rendered at a former service location, if the lapse in service exceeds sixty (60) calendar days. The notice may be provided in an electronic format with the customer’s consent.

04. Contents of Notice. The notice must include:

a. The name of the customer of record who owes the bill;

b. The service location and telephone number or account number involved;

c. The time over which the bill amount was accumulated;

d. The amount owed;

e. The reason(s) for adding the bill amount to the customer’s billing statement;

f. Statement that payment arrangements may be made on the amount owed;

g. A statement that the customer has a right to contest the telephone company’s proposed action by contacting the Commission; and

h. The response deadline after which the bill amount will be added to the customer’s billing statement.

05. Opportunity to Respond. The customer must be given a minimum of seven (7) calendar days from the date of its proposed action to respond to the telephone company notice.

206. -- 299. (RESERVED)

DENIAL, RESTRICTION, AND TERMINATION OF SERVICE
Rules 300 Through 399

300. EXPLANATION FOR DENIAL OF A SERVICE TO A CUSTOMER (RULE 300).
If a telephone company intends to deny service to a customer under Rule 301, the telephone company must provide an explanation to the customer stating the reasons for the telephone company’s refusal to provide service and the necessary action(s) to be taken to receive service. In the event of a dispute, the customer must be advised that an informal or formal complaint concerning denial of service may be filed with the Commission.

301. GROUNDS FOR DENIAL OR TERMINATION OF LOCAL EXCHANGE SERVICE WITH PRIOR NOTICE (RULE 301).
A telephone company may deny or terminate local exchange service to a customer without the customer’s permission, but only after adequate notice has been given in accordance with these rules, for one (1) or more of the following reasons:

01. Customer Did Not Pay Undisputed Bills. With respect to undisputed past due bills for local exchange service, the customer:

a. Failed to pay;
b. Paid with a dishonored check; or                      (3-29-10)  
c. Made an electronic payment drawn on an account with insufficient funds. (3-29-10)
02. Customer Failed to Make a Security Deposit. The customer failed to make a security deposit, when one is required. (3-29-10)
03. Customer Failed to Abide by Terms. The customer failed to abide by the terms of a payment arrangement. (3-29-10)
04. Customer Is Willfully Wasting or Interfering with Service. The telephone company determines as prescribed by relevant state or other applicable standards that the customer is willfully wasting or interfering with service through improper equipment or otherwise. (3-29-10)
05. Customer Is a Minor. The customer is a minor not competent to contract as described in Sections 29-101 and 32-101, Idaho Code. (3-29-10)
06. Obligation to Connect Service. Nothing in this rule requires the telephone company to connect service for a customer who owes money on an existing account or from a previous account if the unpaid bill is for service provided within the past four (4) years. (3-29-10)

302. GROUNDS FOR DENIAL OR TERMINATION OF A SERVICE, WITHOUT PRIOR NOTICE (RULE 302).
A telephone company may deny or terminate a service or all services without prior notice to the customer and without the customer’s permission for any of the following reasons: (3-29-10)

01. Dangerous Condition. A condition immediately dangerous or hazardous to life, physical safety, or property exists, or it is necessary to prevent a violation of federal, state or local safety or health codes. (7-1-93)
02. Ordered to Terminate Service. The telephone company is ordered to terminate service by any court, the Commission, or any other duly authorized public authority. (7-1-93)
03. Illegal Use of Services. The service(s) was (were) obtained, diverted or used without the authorization or knowledge of the telephone company. (3-29-10)
04. Customer Unable to Be Contacted. The telephone company has tried diligently to meet the notice requirements of Rule 303, but has been unsuccessful in its attempt to contact the customer. (3-29-10)
05. Misrepresentation. The telephone company has determined that information provided by the customer is materially false or materially misrepresents the customer’s true status. (3-29-10)

303. REQUIREMENTS FOR NOTICE BEFORE TERMINATION OF LOCAL EXCHANGE SERVICE (RULE 303).

01. Initial Notice. If the telephone company intends to terminate local exchange service under Rule 301, it must send to the customer written notice of termination mailed at least seven (7) calendar days before the proposed date of termination. Written notice may be provided by electronic mail (i.e. e-mail) if the customer is billed electronically and separately consents in writing to receiving electronic notification. This written notice must contain the information required by Rule 304. (3-29-10)
02. Final Notice. At least twenty-four (24) hours before actual termination, the telephone company must diligently attempt to contact the customer to apprise the customer of the proposed action and the steps the customer must take to avoid or delay termination. This oral notice must contain the same information required by Rule 304. (3-29-10)
03. Additional Notice. If the telephone company has not terminated service within twenty-one (21)
days after the proposed termination date as specified in a notice, the telephone company must again provide notice under Rules 303.01 and 303.02 if it still intends to terminate service.

04. **Failure to Pay.** No additional notice of termination is required if, upon receipt of a termination notice:
   a. The customer makes a payment arrangement and subsequently fails to keep that arrangement;
   b. The customer tenders payment with a dishonored check; or
   c. Makes an electronic payment drawn on an account with insufficient funds.

304. **CONTENTS OF NOTICE OF INTENT TO TERMINATE LOCAL EXCHANGE SERVICE (RULE 304).**

01. **Contents of Notice.** The written, electronic or oral notice of intent to terminate local exchange service required by Rule 303 must state:
   a. The reason(s), citing these rules, why service will be terminated and the proposed date of termination;
   b. Actions the customer may take to avoid termination;
   c. That a certificate notifying the local exchange company of a serious illness or medical emergency in the household may delay termination under Rule 306;
   d. That an informal or formal complaint concerning termination may be filed with the telephone company or the Commission, and that service will not be terminated on grounds relating to the dispute between the customer and telephone company before resolution of the complaint (the Commission’s mailing address, Internet address, and telephone number must be given to the customer);
   e. That the telephone company is willing to make payment arrangements (in a written notice this statement must be in bold print); and
   f. What amount must be paid in order to avoid termination of local exchange service and that partial payments will be applied toward past due charges for local exchange service first.

305. **TERMINATION OF LOCAL EXCHANGE SERVICE -- MAINTENANCE OF RECORDS (RULE 305).**
Each telephone company shall maintain for three months clear, written records of the oral notices to terminate local exchange service required by Rule 303.02 showing dates and telephone company employees giving the notices.

306. **SERIOUS ILLNESS OR MEDICAL EMERGENCY (RULE 306).**

01. **Medical Certificate -- Postponement of Termination of Local Exchange or Long-Distance Services.** A telephone company offering local exchange or long-distance service between a residential customer and the customer’s nearest community providing necessary medical facilities or services must postpone termination of local exchange or long-distance service to a residential customer for thirty (30) calendar days from the date of receipt of a written certificate signed by a licensed physician or public health official with medical training. The certificate must contain the following information:
   a. A statement that the customer, a member of the customer’s family, or other permanent resident of the premises where service is provided, is seriously ill or has a medical emergency or will become seriously ill or may have a medical emergency because of termination of service; and that termination of local exchange service would adversely affect the health of that customer, member of the customer’s family, or resident of the household.
b. If the customer requests that termination of long-distance service be postponed, a statement that termination of long-distance service would impair the customer’s ability to communicate with necessary medical facilities or services. (3-29-10)

c. The name of the person whose serious illness or medical emergency would be adversely affected by termination and the relationship to the customer. (4-6-05)

d. The name, title, and signature of the person certifying the serious illness or medical emergency. (4-6-05)

02. Restoration of Service. If local exchange or long-distance service has already been terminated when the medical certificate is received, the appropriate service shall be restored as soon as possible, but no later than twenty-four (24) hours after receipt. The customer shall receive local exchange and necessary long-distance services for thirty (30) calendar days from the telephone company’s receipt of the certificate. (3-29-10)

03. Second Postponement. The telephone company may postpone termination of local exchange and necessary long-distance service for an additional thirty (30) days upon receipt of a second certificate stating that the serious illness or medical emergency still exists. (3-29-10)

04. Verification of Medical Certificate. The telephone company may verify the authenticity of the certificate and may refuse to delay termination of service if the certificate is a forgery or is otherwise fraudulent. (7-1-93)

05. Obligation to Pay. Nothing in this rule relieves the customer of the obligation to pay any undisputed bill. (4-6-05)

307. MEDICAL FACILITIES -- SHELTER CARE (RULE 307).
Where local exchange or long-distance services are provided to a customer known by the telephone company to be or identifying itself as a medical care facility, including a hospital, medical clinic with resident patients, nursing home, intermediate care facility or shelter care facility, notice of pending termination shall be provided to the Commission and to the State Department of Health and Welfare as well as to the customer. Upon request from the Commission, a delay in termination of no less than seven (7) calendar days from the date of notice shall be allowed so that action may be taken to protect the interests of the facility’s residents. (3-29-10)

308. INSUFFICIENT GROUNDS FOR TERMINATION OF LOCAL EXCHANGE SERVICE (RULE 308).

01. Termination Prohibited. No customer shall be given notice of termination of local exchange services nor shall the customer’s local exchange service be terminated if the unpaid bill for local exchange service cited as grounds for termination is:

a. Less than thirty ($30) dollars; (3-29-10)

b. For telephone service provided to any other customer or former customer (unless that customer has a legal obligation to pay the other bill) or for a class of service (business or residential) other than the one to which the customer currently subscribes; (3-29-10)

c. For MTS or other goods and services provided by the telephone company or for which the telephone company bills; (3-29-10)

d. For service provided four (4) or more years ago unless the customer made a payment on the bill within the past four (4) years, or the customer signed a written payment agreement and then failed to pay; (3-29-10)

e. The subject of an informal or formal complaint filed with the Commission; or (3-29-10)

f. Is at issue in a case pending before a court in the state of Idaho unless termination is authorized by
309. RESTRICTIONS ON TERMINATION OF LOCAL EXCHANGE SERVICE -- OPPORTUNITY TO AVOID TERMINATION OF LOCAL EXCHANGE SERVICE (RULE 309).

01. When Termination Not Allowed. Unless the customer affected has consented in writing, local exchange service shall not be terminated on any Friday after twelve noon or on any Saturday, Sunday, legal holidays recognized by the state of Idaho, or after twelve noon on any day immediately before any legal holiday, or at any time when the telephone company’s business offices are not open for business, except as authorized by Rules 302.01 and 302.02, or for non-residential customers, as authorized by any Subsection of Rule 302. Local exchange services may be terminated only between the hours of 8 a.m. and 4 p.m., except as authorized by Rules 302.01 and 302.02.

02. Personnel to Authorize Reconnection. Each telephone company providing local exchange service shall have personnel available after the time of termination who are authorized to reconnect service if the conditions cited as grounds for termination are corrected to the telephone company’s satisfaction. Customers may be asked to pay reconnection fees before restoration of service.

03. Service to Persons Not Customers. If local exchange service is provided to a residence and the account is in the name of one who does not reside there, the telephone company, prior to termination, shall notify the person(s) receiving service and afford the person(s) a reasonable opportunity to negotiate directly with the telephone company to purchase service in the resident’s(s’) own name(s).

04. No Termination While Complaint Pending. Except as authorized by order of the Commission or of the Judiciary, local exchange service shall not be terminated for failure to pay amounts in dispute while a complaint over that telephone service filed pursuant to Rule 401 is pending before this Commission or while a case placing at issue payment for that telephone service is pending before a court in the state of Idaho.

310. PAYMENT ARRANGEMENTS (RULE 310).

01. Arrangements Allowed. When a customer cannot pay a bill in full, the telephone company may continue to serve the customer if the customer and the telephone company agree on a reasonable portion of the outstanding bill to be paid immediately, and the manner in which the balance of the outstanding bill will be paid.

02. Reasonableness. In deciding on the reasonableness of a particular agreement, the telephone company will take into account the customer’s ability to pay, the size of the unpaid balance, the customer’s payment history and length of service, and the amount of time and reasons why the debt is outstanding.

03. Application of Payment. Payments are to be applied first to the undisputed past due balance owed by the customer for local exchange services. In discussing or negotiating payment arrangements, the telephone company shall advise the customer what amount of payment the customer must allocate to local exchange service or to long-distance service or other goods and services in order to retain those goods and services.

04. Second Arrangement. If a customer fails to make the payment by the agreed due date, the telephone company may, but is not obligated to, enter into a second arrangement.

05. When Arrangement Not Binding. No payment arrangement binds a customer if it requires the customer to forego any right provided for in these rules.
Telephone companies providing long-distance services must provide reasonable notice before modifying a customer’s existing service. Nothing in this rule abrogates customers’ rights under those telephone companies’ tariffs or filings, written agreements with customer, or obligations otherwise imposed by statutory or common law.

(3-29-10)

02. Failure to Pay. A customer’s failure to pay for undisputed long-distance charges billed by the local exchange company may result in loss of 0+ or 0- and 1+ dialing access to long-distance services until such time as the customer pays the undisputed charges and any applicable reconnection charges.

(3-29-10)

03. Loss of Services. Customer failure to pay undisputed charges for other services may result in loss of those services.

(1-1-95)

312. CESSATION OF SERVICE IN A SERVICE AREA (RULE 312).

01. Single Local Service Provider. A telephone company that intends to terminate a service regulated under Title 61, Idaho Code, and an eligible telecommunications carrier that intends to terminate its universal service obligation in an area where it is the only eligible telecommunications carrier, must comply with the following:

(3-29-10)

a. Petition the Commission for authority to terminate the service at least ninety (90) days before the company intends to terminate the service. If the Commission does not deny the petition or set it for hearing within ninety (90) days after receiving the petition, it shall be deemed approved;

(3-29-10)

b. Mail a notice to each affected customer and to each telecommunications provider affected by the proposed cessation no later than ten (10) days after filing its petition with the Commission.

(3-29-10)

c. Include with its petition a copy of the notice to customers and the number of customers affected by the proposed cessation;

(3-29-10)

d. Demonstrate that the termination will not deprive the public of necessary telephone services;

(3-29-10)

e. Obtain Commission approval before transferring customers to other telecommunications providers.

(3-29-10)

02. Competitive Local Service Provider. A local exchange company that intends to terminate local exchange service that is not subject to regulation under Title 61, Idaho Code, and an eligible telecommunications carrier that intends to terminate its universal service obligation in an area where it is not the only eligible telecommunications carrier, must comply with the following:

(3-29-10)

a. Provide notice to the Commission and each affected customer at least forty-five (45) days prior to the proposed termination of service;

(3-29-10)

b. Inform the Commission of the number of customers and the other providers affected by the proposed termination, and the company’s plan to ensure that all customers served by the company will continue to be served;

(3-29-10)

c. The telecommunications company may, after complying with this rule, transfer customers to another telecommunications provider without obtaining affirmative approval from affected customers if the following conditions are satisfied:

(3-29-10)

i. The company terminating service has a written commitment from another provider to accept all of the exiting company’s customers within the receiving company’s service area;

(3-29-10)

ii. All affected customers are notified at least forty-five (45) days in advance that they may apply to another telecommunications company for the service that is being terminated, and that if they do not obtain service from another provider, then the exiting company will automatically transfer them to the receiving company.
iii. The receiving company may provide service to the terminating company’s customers for up to forty-five (45) days without the affected customer applying for service from the receiving company. If the affected customers do not apply for service from or otherwise affirm an agreement to be served by the receiving company within forty-five (45) days, the receiving company may discontinue service.

(3-29-10)

313. -- 399. (RESERVED)

COMPLAINT PROCEDURE
Rules 400 Through 499

400. COMPLAINT TO TELEPHONE COMPANY (RULE 400).

01. Subject Matter. A customer for service may complain to the telephone company about any deposit or guarantee required as a condition of service, billing, termination of service, quality or availability of service, or any other matter regarding telephone company services, policies or practices for local exchange service, and other services. Complaints to the telephone company may be made orally or in writing. A complaint is considered filed when received by the telephone company. In making a complaint, the customer shall state the customer’s name, service address, telephone number and the general nature of the complaint. (3-29-10)

02. Company Investigation. Upon receiving a complaint, the telephone company shall promptly, thoroughly and completely investigate the complaint, confer with the customer when requested, and notify the customer of the results of its investigation and make a good faith attempt to resolve the complaint. The oral or written notification shall advise the customer that the customer may request the Commission to review the telephone company’s proposed disposition of the complaint. (3-29-10)

03. Service Maintained. The telephone company shall not terminate service based upon the subject matter of the complaint while investigating the complaint or making a good-faith attempt to resolve the complaint. (7-1-93)

401. REVIEW BY COMMISSION (RULE 401).

01. Informal Review. The Commission has authority to investigate and resolve complaints made by subscribers to telecommunication services that concern the quality and availability of local exchange service, or whether price and conditions of service are in conformance with filed tariffs or price lists, deposit requirements for such service or disconnection of such service. If a customer who has complained to a telephone company is dissatisfied with a telephone company’s proposed disposition of the complaint, the customer may request the Commission to review informally the disputed issue and the telephone company’s proposed disposition of the complaint. The Commission may consider complaints regarding any telephone services over which the Commission has authority. (3-29-10)

02. Procedure on Review. The Commission will process these requests as informal complaints pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. Telephone service shall not be terminated nor shall termination be threatened by notice or otherwise in connection with the subject matter of the complaint while the complaint is pending before the Commission so long as the customer continues to pay all amounts not in dispute, including current telephone bills. Upon request by any party, the parties and a representative of the Commission shall be required to meet and confer. (7-1-93)

03. Rights Protected. No customer shall be denied the opportunity to file a complaint with the Commission. (3-29-10)

04. Formal Complaints. Formal complaints may be filed according to the Commission’s Rules of Procedure, IDAPA 31.01.01.000, et seq. (7-1-93)

402. RECORD OF COMPLAINTS (RULE 402).
01. **Recordkeeping.** Each telephone company must keep a record of written complaints and requests for conferences pursuant to Rules 400 and 401. These records must be retained for a minimum of one year at the office of the telephone company where the complaints were received. These written records are to be readily available upon request by the complaining customer, the customer’s agent possessing written authorization, or the Commission. The records must note whether the customer was advised as required by Rule 400.03 that the customer may request the Commission to review the telephone company’s proposed disposition of the complaint. (3-29-10)

02. **Reporting.** When previously requested by the Commission, a telephone company must submit a report to the Commission that states and classifies the number of complaints made to the telephone company pursuant to Rules 400 and 401 and the general subject matter of the complaints. (3-29-10)

403. **RESPONSES TO INFORMAL COMPLAINTS (RULE 403).**
Within ten (10) business days of receiving notification from the Commission that an informal complaint involving the company has been filed with the Commission, telephone companies must either respond orally or in writing to the Commission. A telephone company will be granted an extension of time to prepare its response if it represents that it is making a good faith effort to resolve the matter in dispute. A full and complete response should be submitted to the Commission no later than thirty (30) days after receipt of notification from the Commission. (7-1-99)

404. -- 499. (RESERVED)

QUALITY OF SERVICE
Rules 500 Through 599

500. **QUALITY OF SERVICE (RULE 500).**

01. **Service Standards.** Each telephone company providing local exchange service pursuant to Title 61 or Title 62, Idaho Code, as applicable, and each eligible telecommunications carrier (ETC) is required to employ prudent management and engineering practices to ensure that customers receive the best quality of service practicable. Each telephone company is required to adopt and pursue a maintenance program aimed at achieving efficient operation of its systems to render safe, adequate and uninterrupted service. These programs must include guidelines for keeping all plant and equipment in good repair, including the following:

a. Broken, damaged or deteriorated equipment must be promptly repaired or replaced; and

b. Transmission problems (including induction, cross-talk, or other poor transmission on any line) must be promptly corrected when located or identified. (7-1-93)

02. **Service Outage.** If a customer’s local telephone service quality deteriorates to such an extent that the customer cannot make local calls or cannot receive local calls or cannot use the service for voice grade communication because of cross-talk, static or other transmission problem, the telephone company must respond to a customer’s report of such a “service outage” in accordance with Rule 502. (3-27-13)

501. **RESPONSE TO SERVICE OUTAGE (RULE 501).**

01. **Receipt and Recording of Reports.** Each telephone company providing local exchange service shall provide for the receipt of customer trouble reports at all hours and make a full and prompt investigation of and response to all reports. The telephone company shall maintain an accurate record of trouble reports made by its customers. This record shall include accurate identification of the affected customer or service, the time, date and nature of the report, the action taken to clear the trouble or satisfy the customer, and the date and time of trouble clearance or other disposition. This record shall be available to the Commission or its authorized representatives upon request at any time within two (2) years of the date of the record. (3-29-10)

02. **Repair Commitments.** Commitments to customers for repair service shall be set in accordance with Rule 502. Each telephone company shall make every reasonable attempt to fulfill repair commitments to customers. Customers shall be timely notified of unavoidable changes. (3-27-13)
502. REPAIR SERVICE STANDARDS (RULE 502).

01. Restoration of Service. When a telephone company providing local exchange service is informed by a customer of a service outage as described in Rule 500.02, the telephone company must restore service within forty-eight (48) hours after the report of the outage, except:

a. Restore service within sixteen (16) hours after the report of the outage if the customer notifies the telephone company that the service outage creates an emergency for the customer; or

b. For outages reported on Friday, Saturday or Sunday, the company must restore service no later than the following Tuesday by 6 p.m.

02. Extenuating Circumstances. Following disruption of telephone service caused by natural disaster or other causes not within the telephone company’s control and affecting large groups of customers, or in conditions where the personal safety of an employee would be jeopardized, the telephone company is required to use reasonable judgment and diligence to restore service, giving due regard for the needs of various customers. When a customer causes the customer’s own service outage or does not make a reasonable effort to arrange a repair visit within the service restoration deadline, or when the telephone company determines that the outage is attributable to the customer’s own equipment or inside wire, the telephone company is not required to meet the restoration timelines of Rule 502.01.

03. Compliance Standard. Each month at least eighty percent (80%) of out-of-service trouble reports shall be cleared in accordance with Rules 502.01 and 502.02.

503. -- 599. (RESERVED)

MISCELLANEOUS PROVISIONS
Rules 600 Through 699

600. INFORMATION TO CUSTOMERS (RULE 600).

01. Required Information. Each telephone company providing local exchange service must make the following information available to its customers:

a. A summary of the general terms and conditions under which service is provided, referring to these rules as appropriate;

b. A clear and concise explanation of:

i. All the goods and services for which the customer is billed, including those goods and services provided as part of a package offered by the telephone company;

ii. All recurring charges associated with individual goods and services or package of goods and services for which the customer is billed;

iii. Any early termination fees that apply if the customer terminates service prior to the end of a service agreement or contract period;

iv. The telephone company’s dispute resolution procedures and a statement that an informal or formal complaint may be filed with the Commission; and

v. If the customer subscribes to non-published service, the circumstances under which the telephone company will release information about the customer or the customer’s service and to whom it will be released.
02. **When and How Information Provided.** Information must be provided to customers in writing upon initiation of service and whenever a material change in the terms and conditions of service or charges for goods and services takes place. Information provided upon initiation of service may be separately mailed or included with the paper or electronic billing statement delivered to the customer. Subsequent notices may be made by separate mailing, included with a billing statement or, with the customer’s consent, by electronic notice with reference to information contained on the telephone company’s website. (3-29-10)

601. **ACCESS TO EMERGENCY SERVICES (RULE 601).**
In counties where consolidated emergency communications systems, as defined by Section 31-4802, Idaho Code, are established, the local exchange company shall provide access to those services to all its customers. (7-1-99)

602. **REQUEST FOR TELEPHONE COMPANY RECORDS (RULE 602).**

01. **General Rule.** If any telephone company subject to these rules is directed by subpoena or court order to disclose customer records, as soon as practical, it must notify the customer what records were requested and of the company’s response to the request. In no case shall the reasonable period of time under this rule exceed two (2) business days after deciding to abide by that request. (3-29-10)

02. **Exceptions.** This rule does not apply if a judge of a court of competent jurisdiction has ordered a telephone company not to disclose that it has complied with a court order or subpoena to turn over a customer’s telephone records. (3-29-10)

603. **AUTOMATIC RECORDING (RULE 603).**
Certain federal, state or local agencies have been permitted by rule or tariff approved by or filed with the Federal Communications Commission or this Commission to automatically record all telephone conversations on certain lines of the agency. This automatic recording is allowed for security, safety or public interest purposes. Release of telephone conversations automatically recorded by such a government agency for purposes unrelated to security, safety or the public interest is expressly prohibited under the authority of rules or tariffs authorizing automatic recording of conversations. This rule does not preclude the records’ release pursuant to independent judicial, executive, legislative, or other order or authorization for release of such conversations, or upon consent of all parties whose conversations were recorded. (7-1-93)

604. **PUBLIC NOTICE (RULE 604).**
Telephone companies must give “public notice” of all proposed changes in rates as required by Section 62-606, Idaho Code. Public notice must be reasonably designed to call affected customers’ attention to the proposed changes in rates. Legal advertisements alone will not be considered adequate public notice. Individual notice to all customers affected will always constitute public notice. Notices of rate increases must be provided to individual customers at least ten (10) days before change is effective. (3-29-10)

605. **TELEPHONE SOLICITATIONS (RULE 605).**
Each telephone company providing local exchange service must summarize the provisions of Sections 48-1001 et seq., Idaho Code, in an annual insert in a billing statement mailed to customers or by conspicuous publication in the consumer pages of the local telephone directory. Local exchange companies may meet the requirements of this notice by publishing the following explanation or one (1) substantially similar: (3-29-10)
Vous avez des droits importants sous la Loi sur la sollicitation d'achats par téléphone d'Idaho. Sous cette loi, il est illégal pour les personnes qui essayent de vous vendre des biens ou des services par téléphone (sollicitateurs téléphoniques) de :

- Intimider ou harceler votre personne en relation avec l'achèvement de la vente.
- Refuser de raccrocher et de libérer votre ligne téléphonique immédiatement une fois que vous demandez de le faire.
- Tenter de distorsionner le prix, la qualité ou la disponibilité des biens ou des services, ou de ne pas révéler tous les termes essentiels de la vente.
- Offrir, représenter ou suggérer qu'ils ont le soutien d'un bureau ou d'une agence gouvernementale lorsque ce n'est pas le cas.
- Offrir, représenter ou suggérer qu'ils ont une inscription valable auprès de l'Avocat général lorsque ce n'est pas le cas.
- Utiliser des méthodes concurrentielles ou des pratiques trompeuses ou délictueuses.

Tout individu de moins de 18 ans qui achète des biens ou des services en vertu d'une sollicitation téléphonique peut annuler l'achat dans un délai raisonnable après l'achat a été effectué. Aucun parent ou tuteur légale ne peut être tenu responsable pour l'achat de biens ou de services par un individu de moins de 18 ans pendant une sollicitation téléphonique.

Quand vous décidez d'acheter des biens ou des services par téléphone, vous pouvez avoir le droit de reconsidérer et d'annuler votre accord dans les trois (3) jours ouvrables après avoir reçu une confirmation écrite de l'achat.

Une personne dont les droits sont violés par des sollicitateurs téléphoniques peut avoir le droit de déclarer un contrat d'achat nul et annulé ou invoquer d'autres mesures en vertu de la Loi d'Idaho sur la protection du consommateur.

Si vous pensez que un solliciteur téléphonique a commis une action illégale, vous pouvez contacter l'Office de l'Avocat général pour une assistance et des informations au: 1 (800) 432-3545 (toll-free) ou 334-2424 (Boise area).

(3-29-10)

**SECTION 606. INFORMATION, PRICE LISTS OR TARIFFS FOR NON-LOCAL EXCHANGE SERVICE (RULE 606).**

**01. Information to be Filed.** All telephone corporations, except mutual nonprofit or cooperative corporations, that did not on January 1, 1988, hold a certificate of public convenience and necessity issued by the Commission and that do not provide basic local exchange service are required by Section 62-604(1)(b), Idaho Code, to file a notice with this Commission before offering services in Idaho. The notice must contain the following information:

a. The name of the telephone corporation and the business name of the telephone corporation if it does business under an assumed business name;

(3-29-10)
b. The United States and electronic (if available) mailing addresses of the principal place of business of the telephone corporation, and, if there is a principal place of business in Idaho, the addresses of the principal place of business in Idaho; (3-29-10)

c. An agent in Idaho for service of process by the Commission in the state of Idaho including the agent’s United States and electronic (if available) mailing addresses; (3-29-10)

d. A description of the telecommunication services offered by the telephone corporation and a map of the area(s) served by the telephone corporation or in which the telephone corporation offers or intends to offer service; (3-29-10)

e. Address(es) and toll-free telephone number(s) for personnel responsible for handling consumer inquiries, complaints, etc., by the public; and (3-29-10)

f. Name(s), United States mail and electronic (if available) addresses, and telephone number(s) of person(s) designated as a contact for the Commission Staff in resolving consumer complaints, responding to consumer inquiries, and answering matters concerning rates and price lists or tariffs. These notices must be updated at least annually, between December 1 and December 31 each year, and whenever there is a change in the telephone corporation's name, address, or agent for service of process. (3-29-10)

02. Service. Notices, orders, rules, complaints and other documents issued by the Commission may be served by United States or electronic mail on the agent for service of process listed pursuant to this rule. This service constitutes due and timely notice to the telephone corporation, and no further service is necessary to bind the telephone corporation. Telephone corporations obligated by statute to file the notice required by this rule, but failing to do so, are bound by the Commission’s motions, orders, rules, complaints and other documents upon their filing with the Commission Secretary. (3-29-10)

607. PRICE LISTS OR TARIFF FILINGS (RULE 607).

01. Price Lists or Tariffs. All telephone corporations subject to the Telecommunications Act of 1988 are required by Section 62-606, Idaho Code, or by this Commission’s implementation of Section 62-616, Idaho Code, to file for informational purposes price lists or tariffs that reflect the availability, price, terms and conditions of all telecommunication services not offered under Title 61 of the Idaho Code. The price lists or tariffs must: (3-29-10)

a. Contain a title page identifying the telephone corporation; (3-29-10)

b. Show on each page the name of the company, the date of issuance and an effective date for their rates; (3-29-10)

c. Contain a table of contents; (3-29-10)

d. Number pages and paragraphs describing the services; (3-29-10)

e. Show when pages or services have been cancelled or revised; and (3-29-10)

f. Provide a mechanism (e.g., page revision numbers) for tracing additions, deletions or amendments to the price list or tariff. The price lists or tariffs must include schedules of rates for each type of service generally made available to subscribers, showing the effective date of all rates and charges and listing any rules and regulations associated with provision of the services. Surcharges, discounts, hours of availability, minimum service periods, and other conditions of service must be detailed. (3-29-10)

02. Changes to Price Lists or Tariffs. When required by Section 62-606, Idaho Code, changes to price lists or tariffs are effective not less than ten (10) days after filing with the Commission and giving public notice to affected customers except for charges for non-recurring services quoted directly to the customer when an order is placed or price reductions, both of which may take effect immediately with filing. Changes to price lists or tariffs must be accompanied by a letter of transmittal stating how affected customers received notice of the changes to price lists or tariffs. See Rule 604. (3-29-10)
03. **Tracking Price Lists or Tariffs.** Each revision to a price list or tariff must be accompanied by a cover letter summarizing the changes to the price list or tariff, specifically referring to existing tariff pages affected by the new price list or tariff and stating whether new pages replace, are in addition to, or delete existing pages. The Commission Secretary may adopt a system to number each company’s changes to its price lists or tariffs. (3-29-10)

608. **FORM AND NUMBER OF COPIES OF PRICE LIST OR TARIFF (RULE 608).**
Price lists or tariffs filed pursuant to Section 62-606, Idaho Code, or by this Commission’s implementation of Section 62-616, Idaho Code, must have a blank space approximately three by one and one-half inches (3” x 1-1/2”) square provided for the Commission’s filing stamp in the upper right or lower right corner of each schedule filed. An original and three (3) copies of the price list or tariff must be filed with the Commission. The Commission stamps its indication that the price list or tariff has been filed in the space provided on each copy of the price list or tariff, placing the original in its files and returning one copy to the telephone corporation. (3-29-10)

609. -- 699. (RESERVED)

---

**SLAMMING PROVISIONS**
Rules 700 Through 799

700. **THE UNAUTHORIZED CHANGE OF A CUSTOMER’S TELEPHONE COMPANY (RULE 700).**
Local exchange companies and interexchange carriers are prohibited from submitting or executing an unauthorized change in a customer’s selection of a provider of local or long distance telephone service. This practice is commonly referred to as “slamming.” The Commission will administer the Federal Communications Commission’s regulations regarding slamming. (3-15-02)

701. **ADOPTION OF FEDERAL SLAMMING REGULATIONS (RULE 701).**
The Commission adopts the slamming regulations promulgated by the Federal Communications Commission and found at Sections 64.1100 through 64.1170 and 64.1190, Title 47, Code of Federal Regulations (October 1, 2004). Local exchange companies and interexchange carriers shall comply with applicable provisions of the federal regulations adopted by reference except as modified in Rule 702. (3-29-10)

702. **STATE PROCEDURES (RULE 702).**
The federal slamming procedures incorporated by reference in Rule 701 are modified as follows: (3-29-10)

01. **Form.** Complaints regarding an unauthorized carrier change may be filed with the Commission in person, by mail, by e-mail, or by telephone. E-mail complaint forms to secretary@puc.idaho.gov. A copy of the telephone bill(s) in dispute and other relevant evidence shall be provided to the Commission by the complaining party. The slamming complaint shall include the following information: (3-15-02)

   a. Name, address and telephone number of complainant; (3-15-02)
   b. Name/identity of the alleged slamming carrier; (3-15-02)
   c. Name of the previous authorized carrier; (3-15-02)
   d. Name of the billing entity; (3-15-02)
   e. Date the alleged slamming occurred; (3-15-02)
   f. Whether the customer has been restored to the preferred carrier; (3-15-02)
   g. Whether the customer has paid any or all of the disputed charges; (3-15-02)
   h. Efforts in attempting to resolve the alleged slamming; and (3-15-02)
   i. Whether the customer was charged for changing carrier(s). (3-15-02)
02. Procedure. The Commission’s Consumer Assistance Staff shall be responsible for resolving slamming complaints under the Commission’s informal complaint procedures in IDAPA 31.01.01, “Rules of Procedure of the Idaho Public Utilities Commission,” Rules 21 through 24. Not later than twenty-one (21) calendar days after notification of a slamming complaint, the alleged unauthorized carrier shall provide to the Consumer Assistance Staff a copy of any valid proof of verification of the carrier change and any other evidence relevant to the complaint. Use of the Commission’s informal complaint procedures are mandatory. (3-15-02)

03. Written Determination. When its informal investigation is complete, the Consumer Assistance Staff shall issue a written determination to the customer, alleged unauthorized carrier, and the authorized carrier. (3-15-02)

04. Appeal of Staff Determination. A customer or carrier aggrieved by the Consumer Assistance Staff’s determination of a slamming complaint may file a formal complaint with the Commission pursuant to IDAPA 31.01.01, “Rules of Procedure of the Idaho Public Utilities Commission,” Rule 54. An appeal of Staff’s determination shall be filed with the Commission Secretary within twenty-one (21) calendar days of the Staff’s written determination. An aggrieved party’s failure to file a formal complaint shall constitute a waiver or abandonment of the slamming complaint. (3-15-02)

703. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 0).
These rules are adopted under the general legal authority of the Telecommunications Act of 1988, Chapter 6, Title 62, Idaho Code, and the specific authority of Section 62-610, Idaho Code. (7-1-93)

001. TITLE AND SCOPE (RULE 1).
The title of these rules is “Universal Service Fund Rules.” Their scope is that they apply to all telephone corporations’ collection of and payment of monies to fund the Universal Service Fund, to all disbursements from the Universal Service Fund, to all actions by the Universal Service Fund Administrator, and to any other matter that may involve the Universal Service Fund. (7-1-93)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
Any telephone corporation aggrieved by any decision of the Universal Service Fund Administrator or the Commission Staff under these rules may petition the Commission to review the decision of the Administrator or the Commission Staff by filing a formal petition according to the Commission’s Rules of Procedure, IDAPA 31.01.01.000, et seq. (7-1-93)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
Rule 303.05 details which papers filed with the Commission in connection with the administration of the Universal Service Fund are public records and which are trade secrets exempt from disclosure under Section 74-107(1), Idaho Code. (4-5-00)

005. DEFINITIONS (RULE 5).

01. Basic Local Exchange Service. “Basic local exchange service” means the provision of access lines to residential and small business customers with the associated transmission of two-way interactive switched voice communication within a local exchange area. See Section 62-603(1), Idaho Code. (7-1-93)

02. Basic Local Exchange Rate. “Basic local exchange rate” means the monthly charge imposed by a telephone corporation for basic local exchange service, but does not include any charges resulting from action by a federal agency or taxes or surcharges imposed by a governmental body that are separately itemized and billed by a telephone corporation to its customers. See Section 62-603(2), Idaho Code. (7-1-93)

03. Business Telephone Service. “Business telephone service” means telecommunication service that is not residential telephone service. (7-1-93)

04. Local Exchange Company (LEC). “Local exchange company” (LEC) is a telephone corporation providing local exchange service to customers in Idaho. (7-1-93)

05. Local Exchange Service. “Local exchange service” means the provision of local exchange access lines to residential or business customers with the associated transmission of two-way interactive switched voice-grade transmission within a local exchange area. (7-1-93)

06. Message Telecommunication Service (MTS). “Message telecommunication service (MTS)” means the transmission of two-way interactive switched voice communication between local exchange areas for which charges are made on a per-unit basis, not including wide area telecommunications service (WATS), or its equivalent, or individually negotiated contracts for telecommunication services. See Section 62-603(6), Idaho Code. (7-1-93)
07. **MTS/WATS Company.** “MTS/WATS company” means a telephone corporation providing Idaho intrastate MTS or WATS services within the definition of Section 62-603(6), Idaho Code. (7-1-93)

08. **Residential Customer.** “Residential customer” means a person to whom telecommunications services are furnished at a dwelling and which are used for personal or domestic purposes and not for business, professional or institutional purposes. See Section 62-603(a), Idaho Code. (7-1-93)

09. **Residential Telephone Service.** “Residential telephone service” means telecommunication service furnished and maintained at a dwelling primarily for personal or domestic purposes and not for business, professional or institutional purposes, i.e., service provided to a residential customer as defined in Section 62-603(7), Idaho Code. (7-1-93)

10. **Residual Revenue Requirement.** “Residual revenue requirement means a local exchange company’s revenue requirement as determined by the Commission less revenue generated by all intrastate telecommunications services, including local exchange services priced at one hundred twenty-five percent (125%) or more of the weighted statewide average and MTS/WATS access services priced at one hundred percent (100%) or more of the statewide average, less contributions from the federal universal service fund. See Section 62-610(4), Idaho Code. (7-1-93)

11. **Small Business Customer.** “Small business customer” means a business entity, whether an individual, partnership, corporation or any other business form, to whom telecommunications services are furnished for occupational, professional or institutional purposes, and whose business entity does not subscribe to more than five (5) access lines within a building. See Section 62-603(a), Idaho Code. (7-1-93)

12. **Telecommunication Service.** “Telecommunication Service” means the transmission of two-way interactive switched signs, signals, writing, images, sounds, messages, data, or other information of any nature by wire, radio, light waves, or other electromagnetic means (which includes message telecommunication service and access service), which originate and terminate in Idaho, and are offered to or for the public, or some portion thereof, for compensation. “Telecommunication Service” does not include the one-way transmission to subscribers of:

   a. Video programming; or (7-1-93)

   b. Other programming service, and subscriber interaction, if any, which is required for the selection of such a video programming or other programming service, surveying, or the provision of radio paging, mobile radio telecommunication services, answering services (including computerized or otherwise automated answering or voice message services), and such services shall not be subject to the provisions of Title 61, Idaho Code, or Title 62, Idaho Code. See Section 62-603(9), Idaho Code. (7-1-93)

13. **Telephone Corporation.** “Telephone corporation” means every corporation or person, their lessees, trustees, receivers or trustees appointed by any court whatsoever, providing telecommunication services for compensation within Idaho. Telephone corporations providing radio paging, mobile radio telecommunications services, answering services (including computerized or otherwise automated answering or voice message services), or one-way transmission to subscribers of:

   a. Video programming; or (7-1-93)

   b. Other programming service, and subscriber interaction, if any, which is required for the selection of such a video programming or other programming service or surveying are exempt from any requirement of Title 62 or Title 61, Idaho Code, in the provision of such services. See Section 62-603(10), Idaho Code. (7-1-93)

14. **WATS.** “WATS” means wide-area telecommunications service. (7-1-93)

006. -- 100. (RESERVED)

GENERAL PROVISIONS - RULES 101 THROUGH 200
101. ESTABLISHMENT AND PURPOSES (RULE 101).
Section 62-610, Idaho Code, directs the Commission to establish a universal service fund (USF) for the purposes of maintaining universal availability of local exchange service at reasonable rates and to promote the availability of message telecommunication service (MTS) at reasonably comparable prices throughout the state of Idaho. The USF is established pursuant to this statute. Rules or orders issued by the Commission concerning administration of the USF supersede previous rules, orders or provisions of the contract between the Commission and the Universal Service Fund administrator. (7-1-93)

102. ADMINISTRATOR OF THE USF (RULE 102).
The Commission shall contract with an administrator of the universal service fund. The administrator of the USF shall receive all monies surcharged by telephone corporations for payment into the USF, account for those monies pending their disbursement, disburse those monies to qualifying recipients according to the terms of the administrator’s contract and the Commission’s rules and orders, and comply with the other requirements of these rules or orders. The administrator shall have the authority to hire an attorney approved by the Commission to pursue enforcement action, including initiating civil proceedings, against telephone corporations that violate the USF rules. The Commission has a right to audit the books and records of the administrator of the USF. (4-26-95)

103. STATEWIDE END-USER SURCHARGES (RULE 103).

01. Imposition of Surcharges. Pursuant to 62-610(2), Idaho Code, the USF is funded by the imposition of statewide end-user surcharges on local exchange, MTS and wide-area telephone service (WATS) services in amounts to be determined by the Commission pursuant to Rule 104. (7-1-93)

02. Local Exchange Surcharges. The local exchange surcharges are imposed monthly as cents-per-line charges uniform throughout the state with the business-residential differential for the surcharges equal to the statewide average business-residential price ratio. (7-1-93)

03. MTS/WATS Surcharges. The MTS and WATS surcharges are imposed monthly on a uniform basis by:

a. A uniform cents-per-minute surcharge applied to the monthly MTS and WATS bill of each end-user for all MTS/WATS companies using this option; or, alternatively, (7-1-93)

b. A company-specific percentage surcharge applied to the monthly MTS and WATS bill of each end-user. (7-1-93)

04. Remittance of Surcharges. Surcharges of a given level are authorized by order of the Commission and continue in effect until modified by subsequent order of the Commission. Surcharges on Title 62 services may be explicitly added to customers’ bills in addition to charges that would otherwise be collected or may be implicitly included in customers’ bills (and remitted by the telephone corporation) without increasing customers’ bills. Unless otherwise provided by order of the Commission or letter from the Commission Staff or from the USF administrator issued pursuant to Rules 401 or 402, surcharges imposed by these rules are to be remitted monthly to the administrator pursuant to Rule 201. (7-1-93)

104. THE COMMISSION’S DETERMINATION OF FUNDING LEVELS (RULE 104).

01. Issuance of Commission Order. On or before September 1 of each year the Commission shall issue an order in response to the administrator’s report, which will establish statewide end-user surcharges to be in effect for the twelve (12) months beginning October 1 following issuance of the order. (7-1-93)

02. Findings and Directives of the Order Prescribing Statewide End-User Surcharges. The order prescribing statewide end-user surcharges for the twelve months beginning October 1 shall contain the following:

a. The Commission’s finding of the funding target for the USF for the twelve (12) months beginning October 1, based upon the anticipated revenue requirement of the USF for those twelve (12) months (including certain or likely changes in the revenue requirement of the USF from that reported by the administrator) and prudent
management of minimum fund balances; (7-1-93)

b. The Commission’s finding of the fair, just, and reasonable contribution to this twelve (12) month funding target that should be made from local exchange and MTS/WATS surcharges; and (7-1-93)

c. The Commission’s finding of the statewide end-user surcharges to be imposed for the twelve (12) months beginning October 1 to reach the funding target. (7-1-93)

03. **Calculation of Local Surcharges.** The surcharge imposed by Subsection 104.02.c. of this rule to be remitted by each LEC for residence and business local exchange service shall be calculated in the following manner from the total funds that the Commission finds should be recovered from local exchange surcharges. The Commission may round the surcharges for local residence and business service to the nearest cent per month. The following is an example of calculation of local service surcharge:

a. Total dollars to be funded from local service surcharges -- twenty-four thousand dollars ($24,000)/month. (7-1-93)

b. Total local residence lines (as reported in Rule 302.02) -- four hundred fifty thousand (450,000) (7-1-93)

c. Weighted, state-wide average one-party, single-line flat residence rate (as reported in Rule 302.03) -- ten dollars ($10)/month (7-1-93)

d. Hypothetical Residence revenues under statutory formula (line b x line c) -- four million five hundred thousand ($4,500,000)/month (7-1-93)

e. Total local business lines (as reported in Rule 302.02) -- fifty thousand (50,000) (7-1-93)

f. Weighted, statewide average one-party, single-line flat business rate (as reported in Rule 302.03) -- thirty dollars ($30)/month (7-1-93)

g. Hypothetical business revenues under statutory formula (line e x line f) -- one million five hundred thousand dollars ($1,500,000)/month (7-1-93)

h. Total hypothetical revenue (line d + line g) -- six million dollars ($6,000,000) (7-1-93)

i. Residence relative responsibility (line d / line h) -- .7500 (7-1-93)

j. Residence total responsibility -- eighteen thousand dollars ($18,000) (7-1-93)

k. Residence surcharge (line j / line b) -- four cents ($0.04)/month (7-1-93)

l. Business relative responsibility (line g / line h) -- .2500 (7-1-93)

m. Business total responsibility (line a x line l) -- six thousand dollars ($6,000)/month (7-1-93)

n. Business surcharge (line h /line e) -- twelve cents ($0.12)/month (7-1-93)

* These hypothetical revenues from residence and business lines do not correspond to any actual revenues received by telephone corporations. Instead, they represent a calculation of revenues that would result if every residence and business line subscribed to one-party, single-line service at the weighted statewide average rate calculated for those services, which is the statutory formula underlying the calculation of the surcharges.

04. **Calculation of MTS/WATS Surcharges.** The surcharge imposed by Rule Subsection 104.02.c. of this rule to be remitted by each MTS/WATS company for MTS/WATS service shall be calculated in one (1) of two (2) alternative manners:

\[\text{Residence surcharge (line h /line e) -- twelve cents ($0.12)/month (7-1-93)}\]
a. A uniform cents per minute surcharge for all MTS/WATS companies using this option will be calculated by the Commission by dividing the total revenues to be recovered from toll surcharges from all companies by the total actual toll minutes reported for all companies under Rule 204; or, alternatively, (7-1-93)

b. A company-specific percentage surcharge will be calculated by the company (and reviewed by the administrator) by multiplying the individual MTS/WATS company’s total toll minutes as reported in Rule 204 by the cents-per-minute surcharge calculated in a above, then dividing by the total toll revenues as reported for that company reported in Rule 204. (7-1-93)

105. TELEPHONE CORPORATIONS’ AUTHORIZATION TO IMPOSE SURCHARGES (RULE 105).

01. Local Exchange Companies. All local exchange companies are authorized to impose a surcharge for residence and business local exchange service in the amounts set forth in the order issued pursuant to Rule 104.03. The LEC may impose surcharges on the service of any customer subscribing to local service on or after October 1 following issuance of the order and may prorate the surcharge in the same manner as the LEC prorates other flat monthly charges. (7-1-93)

02. MTS/WATS Companies. All MTS/WATS companies (except those exempted from remitting surcharges to the USF administrator pursuant to Rule 402) are authorized to impose a surcharge on Idaho intrastate MTS/WATS services in the amounts set forth in the order issued pursuant to Rule 104.04. The MTS/WATS surcharge may be imposed in two (2) different manners:

a. The MTS/WATS company is authorized to impose beginning October 1 following issuance of the order an MTS/WATS surcharge per toll minute in the amount set forth in the order issued pursuant to the Rule 104.04.a.; or, alternatively, (7-1-93)

b. The MTS/WATS company is authorized to impose beginning October 1 following issuance of the order an MTS/WATS surcharge on a uniform percentage basis in the manner set forth in the order issued pursuant to Rule 104.04.b. Within fourteen (14) days after the Commission has issued its order pursuant to Rule 104 authorizing surcharges on MTS/WATS service, MTS/WATS companies authorized to impose surcharges under this paragraph must notify the administrator and the Commission in writing which option they choose for the twelve (12) months beginning October 1 following issuance of the order. (7-1-93)

106. APPLICATIONS FOR FUNDS -- ORDERS FOR FUNDING (RULE 106).

01. Eligibility. Pursuant to 62-610, Idaho Code, a telephone corporation that provides local exchange service and access service for MTS/WATS providers may apply for disbursement from the USF if:

a. Its average residence and business rates for local exchange service for one-party, single-line services exceed one hundred twenty-five percent (125%) of the weighted statewide average rates for one-party, single-line services for residence and business lines, respectively; and (7-1-93)

b. Its average rates per minute for MTS/WATS access services exceed one hundred percent (100%) of the weighted statewide average rate for the same or similar MTS/WATS access services. (7-1-93)

02. Continuation of Eligibility. Each telephone company’s average rate for one-party single-line residence and business service and for MTS/WATS access service shall be calculated individually and compared to the threshold rate based on the newly calculated statewide average as calculated annually by the Administrator pursuant to Rule 302. In order to continue receiving USF funding after the first year of eligibility, the rate shall be revised to equal or exceed the threshold rate, if a company’s average for one-party single-line residence or business service or its rate for MTS/WATS access service is below the threshold rate and if:

a. The difference in the company’s current average rate and the statewide average threshold rate is greater than three percent (3%); and (4-26-95)

b. The difference in the annual revenue associated with the company’s current rate and the revenue associated with the statewide average threshold rate is over six thousand dollars ($6,000). (4-26-95)
03. **Form of Application.** An application for initial USF funding or changes in USF funding may be made in a general rate case or as otherwise allowed by the Commission. Applications must quantify the USF funding sought and the proposed rates to be charged for one-party, single-line residence and business services and for MTS/WATS access services, indicating how USF funding will benefit the rates for these services. Applications must comply with the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (4-26-95)

04. **Changes to Funding on Commission’s Own Motion.** The Commission on its own motion may by order change a telephone company’s funding from the USF:

a. In connection with any proceeding affecting the telephone company’s residual revenue requirement; (7-1-93)

b. In connection with a recalculation of the statewide average rates for one-party, single-line residence and business rates and MTS/WATS access services and those recalculation’s effect on the threshold for eligibility for funding; (7-1-93)

c. In connection with redetermination of the percentage of the residual revenue requirement that should be met by the USF; or (7-1-93)

d. As otherwise provided by order. No order altering a telephone company’s funding from the USF will be issued without notice that USF funding is at issue and appropriate opportunity to be heard in person or in writing. (7-1-93)

05. **Order for Disbursement.** If the Commission finds that an applicant is eligible for USF disbursements, it may issue an order directing the USF to meet between seventy-five percent (75%) and one hundred percent (100%) of the telephone corporation’s residual revenue requirement as defined in Section 62-610(4), Idaho Code. See Rule 005.10. Disbursements from the USF shall be made monthly in one twelfth (1/12) of the annual disbursements ordered by the Commission. (4-26-95)

107. -- 200. (RESERVED)

TELEPHONE CORPORATIONS' OBLIGATIONS - RULES 201 THROUGH 300

201. **TELEPHONE CORPORATIONS' MONTHLY REMITTANCES OF USF SURCHARGES (RULE 201).**

01. **Local Exchange Companies.** Unless otherwise provided by order, letter from the Commission Staff or from the USF administrator issued pursuant to Rule 401, all LECs providing local exchange service in Idaho shall remit the following funds to the administrator on or before the first day of the month:

a. The number of local residence lines in service in Idaho on the first day of the preceding month multiplied by the monthly residence surcharge the companies are authorized to impose under Rules 104.03 and 105.01; and (7-1-93)

b. The number of local business lines in service in Idaho on the first day of the preceding month multiplied by the monthly business surcharge the companies are authorized to impose under Rules 104.03 and 105.01. The LEC’s remittance shall be accompanied by a report on a form supplied by the administrator separately stating the number of local residence and business lines in service in Idaho for that LEC on the first day of the preceding month. This amount shall be remitted to the administrator without regard to whether the local exchange company has separately imposed the surcharge authorized by Rules 104.03 and 105.01. (7-1-93)

02. **MTS/WATS Companies.** Unless otherwise provided by Order of the Commission or letter from the Commission Staff or from the USF administrator issued pursuant to Rule 402, all MTS/WATS companies offering intrastate MTS or WATS services in Idaho shall remit the following funds to the administrator on or before the first day of the month:

(7-1-93)
a. The number of actual toll minutes billed to customers in Idaho for intrastate MTS/WATS services in the last complete monthly billing cycle billed by the first day of the preceding calendar month multiplied by the surcharge per toll minute that the companies were authorized to impose under Rules 104.04.a and 105.02.a; or, alternatively;

b. The percentage surcharge of revenues from all intrastate MTS/WATS services provided in last complete monthly billing cycle billed by the first day of the preceding calendar month that the companies are authorized to impose under Subsections 104.04.b. and 105.02.b. These MTS/WATS companies’ remittances under both a and b of this paragraph shall be accompanied by a report on a form supplied by the administrator separately stating the number of toll minutes billed and the revenues associated with the toll minutes and showing the calculation of the surcharge on those minutes for the period stated in this paragraph. These amounts shall be remitted to the administrator without regard to whether the MTS/WATS company has separately imposed the surcharge authorized by Subsections 104.04 and 105.02. (7-1-93)

03. Failure to Comply. A telephone corporation failing to comply with this rule is subject to all sanctions provided by Section 62-620, Idaho Code. (7-1-93)

202. TELEPHONE CORPORATIONS' ANNUAL REPORTING TO ADMINISTRATOR (RULE 202).

01. Requirement to Report. Unless otherwise provided by order of the Commission or letter from the Commission Staff or from the USF administrator issued pursuant to Rule 402, on or before May 30 of each year all telephone corporations providing local exchange service or MTS/WATS intrastate service in Idaho shall report to the administrator the information required by these rules. The administrator shall annually supply forms for these reports on or before May 1 to all telephone corporations for which the administrator has records showing that the telephone corporation provides one (1) or more of these services. The administrator’s failure to supply forms does not relieve any such telephone corporation of its reporting requirements under these rules and statute. The reports that this rule requires to be filed with the administrator should not be filed with the Commission. (7-1-93)

02. The Administrator's Compliance Report. The administrator shall report to the Commission on or before June 15 whether all telephone corporations receiving the forms have complied with the reporting requirements of this Rule 202 and Rules 203 and 204, specifically identifying telephone corporations that have failed to report altogether, those that have incompletely reported, those that have reported late, and those that have failed to remit the monthly surcharges required by Rule 201. The report shall include a summary of the actions taken against the telephone corporations not complying with the USF rules. See Rule 303. (4-26-95)

03. Failure to Comply. A telephone corporation failing to comply with this rule is subject to all sanctions provided. (7-1-93)

203. LOCAL EXCHANGE COMPANIES' (LECS') ANNUAL REPORTS TO THE ADMINISTRATOR (RULE 203).

01. Reporting of One-Party, Single-Line Residence and Business Lines and Rates. The reports prescribed for LECs by this rule and Rule 202 must include the following information concerning the LEC’s customer base and rates for each of the LEC’s rate groups as of May 1 of that year:

a. Rates for one-party, single-line, flat-rate residential service (inclusive of mandatory extended area service (EAS) surcharges) and the number of customers subscribing to the service in each rate group, unless exchanges within the rate group have different rates, in which case exchange-by-exchange reporting is required;

b. Rates for one-party, single-line, flat-rate business service (inclusive of mandatory EAS surcharges) and the number of customers subscribing to the service in each rate group, unless exchanges within the rate group have different rates, in which case exchange-by-exchange reporting is required; and

c. The company-wide, weighted average rate for residential and business services described in Rules 203.01.a. and 203.01.b. of this paragraph. Rural zone and mileage charges are excluded from the rates reported in this
02. **Inventories of Other Local Access Lines.** These reports must also include reporting for each rate group (or exchange if required by Subsection 203.01) the following inventories of customers and public network access lines of other local services as of May 1 of that year:

- a. Multi-party residence local service;
- b. Multi-party business local service;
- c. Semi-public pay telephone service;
- d. Public access line service for customer-owned pay telephones;
- e. Centron, centrex or other central-office based telecommunication systems (including only the public network access lines to this kind of equipment, not the number of station lines behind the equipment); and
- f. Local service trunks for private branch exchanges (PBXs).

03. **MTS/WATS Actual Access Minutes and Revenues.** These reports must also include the following information:

- a. Rates for access minutes associated with the provision of MTS/WATS services in effect on May 1 of that year;
- b. Total minutes and revenues billed for MTS/WATS access services for the preceding calendar year;
- c. Total revenues that would be obtained by billing the access minutes reported in Rule 203.03.b. at the rates reported in Rule 203.03.a.; and
- d. Total revenues from billing and collection services for the preceding calendar year. If different exchanges have different rates, each rate must be reported as a separate line item, indicating the exchanges in which service is offered at each rate and total number of minutes billed to service at each rate. In making this report, telephone companies must include revenues associated with sale of intrastate access under feature groups A, B, C and D.

04. **MTS/WATS Equivalent Access Minutes.** If the LEC provides MTS/WATS services in addition to basic exchange services, these reports must also include a conversion of the LEC’s annual billed MTS/WATS minutes into “equivalent access minutes.” The method used to convert billed toll minutes into equivalent access minutes must be shown with the number of toll minutes used in the calculation. Actual access minutes reported pursuant to Rule 203.03 of this rule must be separately stated from “equivalent access minutes” reported under this paragraph. The manner in which these data may be filed is shown in Rules 302.03.a. through 302.03.h.

204. **MTS/WATS COMPANIES’ ANNUAL REPORTS TO THE ADMINISTRATOR (RULE 204).** The reports prescribed for telephone corporations offering intrastate MTS or WATS services (including those that are also LECs) by this rule and by Rule 202 must include the following information for the calendar year preceding the year in which the report is due:

- 01. Total Intrastate MTS Minutes and Revenues.
- 02. Total Intrastate WATS Minutes and Revenues.

205. -- 300. (RESERVED)
301. THE ADMINISTRATOR’S QUARTERLY REPORT TO THE COMMISSION (RULE 301).
On or before the fifteenth day after the close of each quarter, the administrator shall submit a report to the
Commission providing the following information:  

01. List of Companies Receiving Disbursements. A list of all companies receiving disbursements from the USF during the quarter, the individual disbursements for each company during the quarter, and the total disbursements to companies during the quarter;  

02. Administrator Fees and Expenses. The administrator’s fees and expenses for the quarter;  

03. List of Companies Remitting Surcharges. A list of all companies remitting surcharges to the USF during the quarter, indicating which companies remitted LEC surcharges, which companies remitted MTS/WATS surcharges, and which companies remitted both;  

04. Aggregate Amount. The aggregate amount of LEC surcharges remitted to the USF during the quarter, the aggregate amount of MTS/WATS surcharges remitted to the USF during the quarter, and the total of the two (2);  

05. Interest Earned. Interest earned during the quarter; and  

06. Fund Balances. Beginning, ending and monthly fund balances for the quarter, together with any other information that may be necessary to calculate beginning and ending balances for the quarter.  

302. THE ADMINISTRATOR’S CALCULATIONS FROM THE ANNUAL REPORTS (RULE 302).

01. Weighted Statewide Average Rates for One-Party, Single-Line Residence and Business Services. From the annual reports provided by LECs pursuant to Rule 203.01, the administrator shall calculate a weighted, state-wide average, one-party, single-line, flat residence rate and a weighted, state-wide average, one-party, single-line, flat business rate, including EAS surcharges.  

02. Inventory of Local Service Lines. From the annual reports of LECs provided pursuant to Rule 203.01 and 203.02, the administrator shall calculate the total number of local service lines in Idaho, with subtotals for residence and business service lines and for the categories of lines listed in Rule 203.02.  

03. Statewide Weighted Average Rate for MTS/WATS Access Minute. From the annual reports of LECs provided pursuant to Rule 203.03 and 203.04, the administrator shall calculate a statewide weighted average rate per MTS/WATS access minute in the manner shown in the following example:

<table>
<thead>
<tr>
<th>Example Using Three Companies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Actual annual access minutes (as reported under Rule 203.03.b.)</td>
</tr>
<tr>
<td>Annual pro forma actual access revenues (as reported under Rule 203.03.c.)</td>
</tr>
<tr>
<td>Average pro forma revenue per actual access minute (line b/line a)</td>
</tr>
<tr>
<td>Calculated equivalent access minutes from MTS/WATS (as reported under Rule 203.04)</td>
</tr>
<tr>
<td>Assigned average revenue (from line c)</td>
</tr>
<tr>
<td>Calculated equivalent access revenue (line d x line e)</td>
</tr>
<tr>
<td>Total actual and equivalent access minutes (line a + line d)</td>
</tr>
<tr>
<td>Total pro forma and equivalent access revenues (line b + line f)</td>
</tr>
</tbody>
</table>
### 04. Access

The figures for access minutes and access revenues on lines a, b and d include all access minutes and all access revenues from any access service reported pursuant to Rule 203.03 or 203.04, and all access under any feature group.

### 303. The Administrator's Annual Report to the Commission (Rule 303).

#### 01. The Administrator's Compliance Report

The administrator shall report to the Commission on or before June 15 whether all telephone corporations receiving the forms have complied with the reporting requirements of this Rule 303 and Rules 202, 203, and 204, specifically identifying telephone corporations that have failed to report altogether, those that have incompletely reported, those that have reported late, and those that have failed to remit the monthly surcharges required by Rule 201. The report shall include a summary of the actions taken against the telephone corporations not complying with the USF rules.

#### 02. Report of Existing Conditions

On or before July 15 of each year the administrator shall submit a report to the Commission providing the following information:

**a. Calculations of weighted statewide average rates required by Rule 302, providing workpapers showing each telephone corporation’s contributions to the totals and averages contained in the administrator’s calculation in Rule 302.**

**b. Calculations of the USF’s expected revenues under the status quo for the twelve (12) months beginning July 1 made by:**

1. Multiplying the existing local surcharge for residence service by the statewide total residence lines as of May 1;
2. Multiplying the existing local surcharge for business service by the statewide total business lines as of May 1;
3. Multiplying the total MTS/WATS access minutes for the previous calendar year by the existing MTS/WATS surcharge per access minute; and
4. Summing the three (3) products.

**c. Calculations of the expected revenue requirement of the USF under the status quo for the twelve (12) months beginning July 1 made by listing and summing the annualized rate of disbursement for every telephone corporation for which the Commission has ordered and authorized disbursements from the USF together with the administrator’s annual budget for administration of the USF.**

**d. Calculations of the expected revenue requirement of the USF as described in Rule 303.02.c. assuming that companies revise their rates pursuant to Rule 106.02 to maintain funding eligibility and that their USF funding is adjusted pursuant to Rule 106.04.**

(7-1-93)

---

(4-26-95)
e. Actual USF balances at the end of the quarters ending in June, September and December of the preceding year and of the quarters ending in March and June of the year of the report (or the estimated USF balance for the quarter ending June 30 if actual balances are not yet available). (4-26-95)

03. **Recommendation.** The administrator shall report the USF’s expected surplus or deficit for the twelve (12) months beginning July 1 based upon the assumption that the USF surcharges will not be changed. The administrator shall also report whether this surplus or deficit will alter the expected fund balance during the twelve (12) months beginning July 1 following the report significantly enough to recommend that USF surcharges be raised or lowered. If the administrator believes that the USF surcharges should be raised or lowered, the administrator shall recommend a target balance for the USF for the end of the twelve months beginning July 1 following this report and the amount by which USF collections would be increased or decreased beginning October 1 to meet this target. (7-1-93)

04. **Review by Commission Staff.** On or before August 15 the Commission Staff shall review the calculations and recommendations of the administrator and call any errors or omissions to the attention of the administrator and the Commission. (7-1-93)

05. **Report a Public Record--Workpapers Exempted Trade Secrets.** The report of the administrator showing statewide aggregate totals of local service and MTS/WATS revenues, inventories of services, and other information not identifying any telephone corporation or customer is a public record available for inspection, examination and copying under Section 74-102, Idaho Code. The workpapers accompanying the report showing individual telephone corporations’ data for Title 62 services and individual telephone corporation’s reports to the administrator showing data for Title 62 services, together with any data for Title 61 services protected from disclosure under applicable trade secret law, are trade secrets exempt from disclosure under Section 74-107(1), Idaho Code. (4-5-00)

304. -- 400. (RESERVED)

**EXEMPTIONS FROM REPORTING AND REMITTANCES - RULES 401 THROUGH 500**

401. **LECS’ EXEMPTION FROM REPORTING AND REMITTANCES (RULE 401).**

01. **Criteria for Exemption.** Local exchange companies may be exempted from monthly remittances and monthly reporting to the USF administrator under Rule 201 by order of the Commission or letter from the Commission Staff or from the USF administrator upon the grounds that the LEC provides such a small number of local service lines in Idaho and generates such a small monthly surcharge that neither the practical administration of the USF nor the public interest requires monthly remittances and reporting. (7-1-93)

02. **Action on Requests.** The order or letter excusing the LEC from monthly reporting shall specify quarterly, semiannual or annual remittances and reporting instead. The order or letter may be issued upon request of the LEC or upon the initiative of the Commission, the Commission Staff, or the USF administrator without a request from the LEC. No LEC will be excused from making remittances less often than annually nor from annual reporting under Rules 202 and 203. (7-1-93)

03. **Requests of Exemptions.** This Commission Staff shall maintain a file of all exemptions under this rule and supply a copy to the Commission Secretary and to the USF administrator. (7-1-93)

04. **Petition From Initial Denial by Commission Staff or Administrator.** If a request for a LEC’s exemption is denied by the Commission Staff or the Administrator, the LEC may petition the Commission. (7-1-93)

402. **MTS/WATS COMPANIES -- RESELLERS’ EXEMPTION FROM REPORTING AND REMITTANCES (RULE 402).**

01. **Criterion for Exemption.** MTS/WATS companies may be exempted from monthly remittances and monthly reporting to the USF administrator under Rule 201 by Order of the Commission or letter from the
Commission Staff or from the USF administrator upon the grounds that the MTS/WATS company is exclusively a reseller of MTS/WATS services from another MTS/WATS company that is already remitting the surcharge prescribed for MTS/WATS services for all of the reselling MTS/WATS company’s MTS/WATS minutes. (7-1-93)

02. Requirements of Request for Exemption. No exemption will be given under this rule unless the reselling MTS/WATS company has requested an exemption in writing. The request for exemption shall be directed to the Commission Secretary (or if received by the administrator or a member of the Commission Staff forwarded to the Commission Secretary). The request for exemption must state that the MTS/WATS company is seeking a reseller’s exemption, must name the reseller’s underlying MTS/WATS carrier, must certify that the named underlying carrier carries all of the reseller’s traffic in Idaho, and must be accompanied by a letter from the underlying carrier stating that the reselling carrier requesting the exemption is a customer of the underlying carrier, that the underlying carrier is remitting the surcharge to the USF for all minutes sold to the reselling carrier, and that the reseller will notify the Commission whenever one of its underlying carriers changes. (7-1-93)

03. Action on Requests. The Commission Staff or the USF administrator may grant a reseller an exemption from monthly remittances of USF surcharges and from monthly reporting of MTS/WATS use if the reseller has shown that another MTS/WATS company is remitting the surcharge for all of the reseller’s minutes. The exemption shall require the reseller to report to the Commission Staff whenever it changes its underlying carrier. The exemption ordinarily excuses the reseller from annual reporting under Rules 202 and 203, but does not exempt the reseller from annual recertification upon request of the Commission Staff or the administrator of its continuing status as a reseller. However, the Commission Staff or the administrator may require an exempt reseller to file an annual report upon written notification that the Commission Staff or administrator requires an annual report for that year. (7-1-93)

04. File of Exemptions. The Commission Staff shall maintain a file of all exemptions under this rule and supply a copy to the Commission Secretary and to the USF administrator. (7-1-93)

05. Petition From Initial Denial by the Commission Staff or Administrator. If a request for a reseller’s exemption is denied by the Commission or the Commission Staff or the Administrator, the company may petition to the Commission. The petition must contain a description of the telephone company’s network connections. (7-1-93)

403. -- 999. (RESERVED)
31.46.02 – RULES FOR TELECOMMUNICATIONS RELAY SERVICES (TRS)

000. LEGAL AUTHORITY (RULE 0).
These rules are adopted under the general legal authority of Chapter 13, Title 62, Idaho Code, and the specific authority of Section 61-1306, Idaho Code. (7-1-93)

001. TITLE AND SCOPE (RULE 1).
The name of this chapter is “Rules for Telecommunications Relay Services (TRS).” This chapter has the following scope: It governs provision of telecommunications relay services (TRS) in Idaho. (7-1-93)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
Any telephone corporation aggrieved by any decision of the Universal Service Fund Administrator, the Telecommunications Relay System Administrator, or the Commission Staff that affects any of the telephone corporation’s interests under these rules may petition the Commission to review the decision of the Universal Service Fund Administrator, the Telecommunications Relay System Administrator, or the Commission Staff by filing a formal petition according to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
Subsection 205.05 details which papers filed in connection with the administration of the Telecommunications Relay Service Fund are public records and which are trade secrets exempt from disclosure under Section 74-107(1), Idaho Code. (4-5-00)

005. DEFINITIONS (RULE 5).
As used in these rules:

01. Administrator. “Administrator” means the person with whom the Idaho Public Utilities Commission contracts to administer the program for delivery of telecommunications relay services. See Section 61-1302(1), Idaho Code. (7-1-93)

02. American Sign Language (ASL). “American sign language” means a visual language based on hand shape, position, movement, and orientation of the hands in relation to each other and the body. See 47 C.F.R. 64.601(1). (7-1-93)

03. ASCII. “ASCII” is an acronym for American Standard Code for Information Interchange, which employs an eight-bit code and can operate at any standard transmission baud rate including 300, 1200, 2400, and higher. See 47 C.F.R. 64.601(2). (7-1-93)

04. Baudot. “Baudot” means a seven (7) bit code, only five (5) of which are information bits. Baudot was used by some text telephones to communicate with each other at a forty-five point five (45.5) baud rate. See 47 C.F.R. 64.601(3). (7-1-93)

05. Communications Assistant (CA). “Communications assistant (CA)” means a person who transliterates conversation from text to voice and from voice to text between two (2) end users of TRS. CAs are also known by terms such as “TRS operator” or “TDD operator.” See 47 C.F.R. 64.601(5). (7-1-93)

06. Communications Impaired. “Communications impaired” means individuals who are hearing-impaired or speech-impaired as defined in Title IV, Section 401, Americans with Disabilities Act of 1990, Public Law 101-336, 47 U.S.C. 225, or regulations promulgated pursuant to that Act, in particular, 47 C.F.R. 64.601 et seq. See Section 61-1302(3), Idaho Code. (7-1-93)
07. Hearing Carry Over (HCO). “Hearing carry over (HCO)” means a reduced form of TRS where the person with a speech disability is able to listen to the other end user and, in reply, the CA speaks the text as typed by the person with the speech disability. The CA does not type any conversation. See 47 C.F.R. 64.601(6). (7-1-93)

08. Local Exchange Company. “Local exchange company” means a telephone corporation that provides access lines to residential and business customers with the associated transmission of two-way interactive switched voice communication within a geographic area where basic local exchange rates rather than message telecommunications service rates apply. See Section 61-1302(4), Idaho Code. (7-1-93)

09. Message Telecommunications Service (MTS). “Message telecommunications service (MTS)” means the transmission of two-way interactive switched voice communication between local exchange areas for which charges are made on a per-unit basis, not including Wide Area Telecommunications Service (WATS) (or its equivalent) or individually negotiated contracts for telecommunication services. See Section 62-603(6), Idaho Code, as adopted by reference in Section 61-1302(5), Idaho Code. (7-1-93)

10. Program. “Program” means the effort directed by the administrator to establish and operate an Idaho system to provide telecommunications relay services. See Section 61-1302(5), Idaho Code. (7-1-93)

11. Telephone Corporation. “Telephone corporation” means every corporation or person, their lessees, trustees, or receivers appointed by any court whatsoever, providing telecommunication services for compensation within this State, except telephone corporations solely providing radio paging, mobile radio telecommunications services, answering services (including computerized or otherwise automated answering or voice message services), or one-way transmission to subscribers of video programming, or other programming service, and subscriber interaction, if any, that is required for the selection of video programming or other programming service. See Section 62-603(14), Idaho Code, as adopted by reference in Section 61-1302(7), Idaho Code. (3-29-17)

12. Telecommunications Relay Services (TRS). “Telecommunications relay services (TRS)” mean services through which a communications-impaired person, using specialized telecommunications equipment, may send and receive messages to and from a non-communications-impaired person whose telephone is not equipped with specialized telecommunications equipment and through which a non-communications-impaired person may, by using voice communication, send and receive messages to and from a communications-impaired person. This term includes services that enable two-way communication between an individual who uses a text telephone or other non-voice terminal device and an individual who does not use such a device. TRS supersedes the terms “dual party relay system,” “message relay services,” and “TDD relay.” See Section 61-1302(8), Idaho Code, and 47 C.F.R. 64.601(7). (7-1-93)

13. Text Telephone (TT). “Text telephone (TT)” means a machine that employs graphic communication in the transmission of coded signals through a wire or radio communications system. TT supersedes the term “TDD” or “telecommunications device for the deaf.” See 47 C.F.R. 64.601(a). (7-1-93)

14. Universal Service Fund (USF). “Universal service fund (USF)” means the fund established by the Commission pursuant to Section 62-610, Idaho Code, and this Commission’s rules codified at IDAPA 31.46.01.000, et seq. The USF has an administrator whose duties are set forth by this Commission’s rules and this Commission’s contract with the administrator. See IDAPA 31.46.01.102. (7-1-93)

15. Voice Carry Over (VCO). “Voice carry over (VCO)” means a reduced form of TRS where the person with the hearing disability is able to speak directly to the other end-user. The CA types responses back to the person with the hearing disability. The CA does not speak on behalf of the TT users. See 47 C.F.R. 64.601(9). (7-1-93)

006. -- 100. (RESERVED)

THE TRS PROGRAM, ADMINISTRATOR, AND PROVIDER - RULES 101 THROUGH 200
101. REQUIREMENTS OF THE TRS PROGRAM (RULE 101).

01. Operational Requirements. State or federal law imposes the following operational requirements upon a TRS provider:

a. TRS must be provided twenty-four (24) hours per day, seven (7) days per week, every day of the year. See 47 U.S.C. 225(d)(1)(C); 47 C.F.R. 64.604(b)(4); Section 61-1303(2)(a), Idaho Code. (7-1-93)

b. The TRS provider shall not refuse calls or limit the length of calls using TRS, except that providers of TRS may decline to complete a call because credit authorization has been denied. See 47 U.S.C. 225(d)(1)(E); 47 C.F.R. 64.604(a)(3). (7-1-93)

c. The TRS provider must be capable of communicating with text telephone users using either the ASCII or Baudot format, at any speed generally in use. See 47 C.F.R. 64.604(b)(1). (7-1-93)

d. Except during network failure, the TRS provider shall answer eighty-five percent (85%) of all calls within ten (10) seconds, and no more than thirty (30) seconds shall elapse between receipt of dialing information and the dialing of a requested number. The TRS provider shall include adequate staffing to provide callers with efficient access under projected calling volumes so that the probability of a busy response due to unavailability of communications assistants will be functionally equivalent to what a voice caller would experience in attempting to reach a party through the voice telephone network. See 47 C.F.R. 64.604(b)(2). (7-1-93)

e. The TRS provider shall give TRS users access through the TRS to their chosen inter-exchange carrier and to all other operator services to the same extent that such access is provided to voice users. See 47 C.F.R. 64.604(b)(1). (7-1-93)

02. Communications Assistants’ Handling of Calls. TRS providers must require that communications assistants (CAs) be sufficiently trained to effectively meet the specialized communication needs of individuals with hearing and speech disabilities and that communications assistants have competent skills in typing, grammar, spelling, interpretation of typewritten ASL, and familiarity with hearing and speech disability cultures, languages and etiquette. Communications assistants are prohibited from disclosing the content of any relayed conversation regardless of content and from keeping records of the content of any conversation beyond the duration of a call. Communications assistants are prohibited from intentionally altering a relayed conversation and must relay all conversations verbatim unless the relay user specifically requests summarization. Communications assistants must relay all messages promptly and accurately. See 47 U.S.C. 225(d)(1)(F), -(G); 47 C.F.R. 64.604(a)(1), -(2); Section 61-1303(2)(b), and -(c), Idaho Code. (7-1-93)

03. Rates. The users of TRS shall pay rates no greater than the rates paid for functionally equivalent voice communication services with respect to such factors as the duration of the call, the time of day, and the distance from point of origination to the point of termination. In particular, this means that when a telephone call from one customer to another would not incur long-distance charges if the call were placed directly without use of the TRS system, then there will be no long-distance charge for that call when the TRS system is used, even if the TRS provider is located in a telephone exchange that would ordinarily require a long-distance call to reach the calling or answering party. See 47 U.S.C. 225(d)(1)(D); 47 C.F.R. 64.604(c)(3). (7-1-93)

04. Other Standards and Services. The standards and services required for TRS providers by this rule are minimum standards and services. The request for proposal for TRS services may require additional standards or services, or if the request for proposals does not, the selection of the TRS provider may take into account the ability of the TRS provider to meet standards or provide services in addition to the minimum standards or services required by this rule. (7-1-93)

102. TRS ADMINISTRATOR (RULE 102).

01. Appointment and Contract. The Commission shall appoint and contract with a qualified person to administer the TRS program in accordance with the requirements of state and federal law. The TRS administrator is not an employee or officer of the state of Idaho, but is instead an independent contractor. The appointment and contract shall be for fixed terms, but the Commission may renew terms of appointment or contract. (7-1-93)
02. **Duties and Responsibilities of Administrator.** The Administrator shall:

   a. Consult with and receive recommendations from a telephone industry technical advisory committee (or its representatives) appointed by the Commission; (7-1-93)

   b. Post a fidelity bond in the amount required by the contract with the Commission; (7-1-93)

   c. Meet timetables necessary to secure certification of the TRS program by the Federal Communications Commission; (7-1-93)

   d. Issue (upon such terms as the Commission finds reasonable) a request for proposals to providers of message relay services requesting responsive proposals to provide such services that may be necessary for the program; (7-1-93)

   e. Evaluate responsive proposals to offer TRS services and recommend one (1) or more proposals to the Commission for its review and approval; (7-1-93)

   f. Enter into a contract with the provider of TRS, which contract and provider have been approved by the Commission; (7-1-93)

   g. Consult with the Idaho State Council for the Deaf and Hard of Hearing and the Idaho State Council on Developmental Disabilities concerning program design and delivery of message relay services to communications-impaired persons within the state of Idaho; and (7-1-93)

   h. Perform other services concerning the program as may be deemed reasonable and necessary by the Commission or required by the Commission in its contract with the TRS administrator. (7-1-93)

03. **Contributions, Gifts and Grants.** The administrator may receive contributions, gifts and grants on behalf of and in aid of the TRS program. The contributions, gifts and grants shall be deposited in the Idaho Telecommunications Relay Services Fund. (7-1-93)

103. **ESTABLISHMENT OF TELEPHONE INDUSTRY ADVISORY COMMITTEE (RULE 103).**

   01. **Establishment of Committee.** The Commission hereby establishes a telephone industry advisory committee with which the administrator shall consult in the assessment of responses to the RFP, and review the services provided. The industry committee shall have three (3) members, who shall be representatives of:

   a. A large provider of local exchange and intraLATA MTS services in Idaho; (3-29-17)

   b. An independent telephone company providing local exchange services and a member of the Idaho Telephone Association (the trade group that includes independent telephone companies in Idaho); and (3-29-17)

   c. The Idaho State Council for the Deaf and Hard of Hearing, or the State Council on Developmental Disabilities. (3-29-17)

104. **CONSULTATION WITH REPRESENTATIVES OF THE HEARING-IMPAIRED AND THE SPEECH-IMPAIRED (RULE 104).**

   It shall be the duty of the administrator to consult with representatives of the Idaho State Council for the Deaf and Hard of Hearing and of the Idaho State Council on Developmental Disabilities. (3-29-17)

105. **REQUEST FOR PROPOSALS (RFP) -- SELECTION OF TRS PROVIDER (RULE 105).**

   01. **Formulation of RFP and Submission to the Commission.** The administrator, shall formulate and submit a request for proposals (RFP) for the provision of TRS to the Commission. The Commission shall review the RFP and return it to the administrator, with comments or changes that Commission finds appropriate, and direct the administrator to issue the RFP. (3-29-17)
02. Requirements of the RFP. The RFP issued by the administrator must request all companies responding to the RFP to comply with all requirements of state and federal law. See Rule 101. In addition, the RFP may require those responding to the RFP to meet additional requirements contained in the RFP or ask those responding to list additional standards they could meet or additional services that they could provide above the minimums required by state and federal law. (7-1-93)

03. Timetable for Decision. The administrator shall develop a timetable for formulation of the RFP, its review by the Commission, advertisement of the RFP for response, review of proposals submitted in response to the RFP, and final decision selecting a TRS provider that will complete the process of selection of the TRS provider in sufficient time to maintain uninterrupted relay services. (3-29-17)

106. STATE CERTIFICATION (RULE 106). The administrator shall submit a report to the Idaho Public Utilities Commission, to the Idaho State Council for the Deaf and Hard of Hearing, and to the Idaho State Council on Developmental Disabilities as necessary so that the Commission may file the necessary document with the Federal Communications Commission on or before October 1, 1992, requesting certification of the Idaho TRS in order to allow any Idaho intrastate telephone corporation to comply with its obligations under federal law to provide TRS by contracting with the Idaho TRS provider. (3-29-17)

107. RESOLUTION OF COMPLAINTS (RULE 107). The Idaho Public Utilities Commission hereby offers itself as a forum for resolution of customer complaints regarding TRS provided for Idaho intrastate services. Complaints can be filed and handled informally under Rules 401 et seq. of the Telephone Customer Relations Rules, IDAPA 31.41.01.400 et seq., or formally under the Commission’s Rules of Practice and Procedure, IDAPA 31.01.01.000 et seq. The Commission commits to process these complaints within the one hundred eighty (180) day timetable set forth in 47 C.F.R. 64.604(c)(5)(i). (7-1-93)

108. -- 200. (RESERVED)

TELECOMMUNICATIONS RELAY SERVICES FUND - RULES 201 THROUGH 300

201. TELECOMMUNICATIONS RELAY SERVICES (TRS) FUND -- ESTABLISHMENT AND PURPOSE (RULE 201). Section 61-1304, Idaho Code, directs the TRS administrator to establish a fund (the telecommunications relay services fund, or TRS fund) for the provision of telecommunications relay services. The TRS administrator is directed to deposit the fund in a depository approved by the Commission and to credit to that fund all monetary contributions, gifts and grants received by the administrator and all charges billed and collected pursuant to Section 61-1305, Idaho Code, and these rules. No funds derived from monies billed and collected from telephone corporations pursuant to Section 61-1305, Idaho Code, and these rules shall be used for the acquisition of end-user text telephones. All monies deposited in the TRS fund shall be spent for the purpose of defraying the expenses, debts and costs incurred in carrying out the provisions of the TRS program, or for defraying administrative expenses of the administrator, including necessary expenses for consultants to the administrator, expenses for travel, supplies and equipment and other expenses of the administrator necessary for the implementation of the TRS program. All monies credited to the TRS fund may be spent by the administrator at such times and in such manner as authorized by this Commission’s rules, orders or contract with the administrator. (7-1-93)

01. Issuance of Commission Order. On or before March 1 of each succeeding year, the Commission shall issue an order in response to the administrator’s annual report that will establish funding levels to be in effect for the twelve months beginning April 1 following issuance of the order. The Commission may issue an order revising funding levels at other times in order to preserve the integrity of the fund. (3-29-17)

02. Findings and Directives of the Order Prescribing Funding Levels. All orders prescribing funding levels issued pursuant to Rule 202.01 shall contain the following: (7-1-93)
The Commission’s finding of the funding target for the TRS program for the twelve (12) months beginning April 1 (or other appropriate time, if the order is not issued to be in effect for twelve (12) months beginning April 1), based upon anticipated expenses of operation of the TRS program for those twelve (12) months and prudent management of minimum fund balances; and

The Commission’s findings of the fair, just and reasonable allocations of the twelve (12) month funding target that will come from telephone corporations providing local exchange service and that will come from telephone corporations providing MTS/WATS services, respectively.

03. Calculation of Funding Levels. Telephone corporations providing local exchange service in Idaho and telephone corporations providing intrastate MTS/WATS services in Idaho must contribute to the TRS fund as follows:

Each telephone corporation providing local exchange service in Idaho shall file a monthly report, due on or before the first of each month, stating the number of local access lines it has for that month. The data used to determine a local exchange company’s number of local access lines shall be the same as that used for monthly reporting to the administrator of the Universal Service Fund (USF) for the monthly USF report. See USF Rule 201.01, IDAPA 31.46.01.201.01. (7-1-93)

Each telephone corporation providing intrastate MTS/WATS service in Idaho is required to contribute to TRS funding in proportion to the number of its intrastate MTS/WATS billed minutes, provided that those telephone corporations providing intrastate MTS/WATS service in Idaho that use the services of another telephone corporation for the actual transportation of calls and that have been granted exemptions from contributions to the Universal Service Fund by the Commission, the USF administrator, or the Commission staff are also granted exemptions from contributions to the TRS fund by operation of this rule. The USF administrator shall provide the TRS administrator with a list of all telephone corporations exempted from contributing to the USF and all changes to that list whenever they are made. The data determining an MTS/WATS company’s number of intrastate MTS/WATS billed minutes for a given monthly report due on or before the first of the month shall be the same provided to the administrator of the Universal Service Fund (USF) for the USF report also due on or before the first of that month. See USF Rule 201.02, IDAPA 31.46.02.201.02. (7-1-93)

203. TELEPHONE CORPORATIONS' MONTHLY REMITTANCES TO THE TRS ADMINISTRATOR (RULE 203).
Unless otherwise provided by order of the Commission or written exemption of the USF administrator or the Commission staff, on or before the first day of each month, all local exchange companies providing local exchange service in Idaho shall remit to the TRS administrator the funds due under the Commission’s order issued pursuant to Rule 202. Unless otherwise provided by order of the Commission or written exemption of the USF administrator or the Commission staff, on or before the first day of each month all MTS/WATS companies providing intrastate MTS/WATS services shall remit to the administrator the funds due under the Commission’s order issued pursuant to Rule 202.

204. THE ADMINISTRATOR'S QUARTERLY REPORT TO THE COMMISSION (RULE 204).
On or before the fifteenth day after the close of each quarter, the administrator shall submit a report to the Commission providing the following information:

01. Administrator's Disbursements. The administrator’s disbursements to the TRS provider for the quarter.

02. Administrator’s Fees. The administrator’s fees for the quarter.

03. List of All Companies. A list of all companies remitting monies to the TRS fund during the quarter, indicating which companies have remitted funds for their provision of local exchange service, which companies have remitted funds for their provision of MTS/WATS services, and which companies have remitted both.

04. Total Amounts Remitted. The total amounts remitted to the TRS fund by local exchange companies during the quarter, the total amounts remitted by MTS/WATS companies during the quarter, and the sum
05. **Total Number of Local Calls.** The total number of local calls handled by the TRS provider during the quarter, the total number of intrastate and interstate calls handled by the TRS provider during the quarter (keeping separate totals for each), and the total number of intrastate and interstate MTS/WATS minutes billed by the TRS provider during the quarter (keeping separate totals for each);

06. **Interest, Contributions and Other Income.** Interest earned during the quarter, contributions received during the quarter, and any other income for the quarter; and

07. **Fund Balances for the Quarter.** Beginning, ending and monthly fund balances for the quarter, together with any information that may be necessary to calculate beginning and ending balances for the quarter.

205. **THE ADMINISTRATOR'S ANNUAL REPORT TO THE COMMISSION (RULE 205).**

01. **Report of Existing Financial Conditions.** On or before February 15 of each year, the administrator shall submit a report to the Commission providing the following information:

a. A statement of the TRS fund’s income in the previous calendar year from remittances by local exchange companies and from remittances by MTS/WATS companies, and the total, and a statement of all other income (including interest), gifts, contributions, etc., for the calendar year;

b. Actual TRS fund balances at the end of the quarters ending in March, June, September and December of the preceding calendar year;

c. The statewide line count for local service lines on January 1 of that year and January 1 of the previous year, and the total number of MTS/WATS minutes reported to the TRS administrator for the year ending the previous December 31 and the year ending the December 31 before that.

02. **Report on Use of the TRS Program.** The administrator shall also report, based upon information to be supplied by the TRS provider, upon use of the TRS program in the previous calendar year. The administrator’s contract with the TRS provider shall require appropriate data collection by the TRS provider, including, but not limited to, the number of calls handled by the provider, with breakdown showing whether the calls are local or MTS, intrastate or interstate MTS, total intrastate and interstate MTS minutes, the hours when calls are made (e.g., from 8 a.m. to 5 p.m., from 5 p.m. to 11 p.m., from 11 p.m. to 8 a.m.), days of the week when calls are made, and patterns of increased or decreased usage of the TRS program from month to month for the previous calendar year. The TRS provider shall provide this information by month to the TRS administrator on dates to be specified by the administrator.

03. **Recommendation.** The administrator shall report the TRS fund’s expected surplus or deficit for the twelve months beginning April 1 based upon the assumption that the TRS funding levels will not change. The administrator shall also report whether this surplus or deficit will alter the expected fund balance during the twelve (12) months beginning April 1 following the report significantly enough to recommend that TRS funding levels be increased or decreased. If the administrator believes that the TRS funding levels should be increased or decreased, the administrator shall recommend a target balance for the TRS fund for the end of the twelve (12) months beginning April 1 following this report and the amount by which TRS fund remittances should be increased or decreased beginning April 1 to meet this target.

04. **Review by Commission Staff.** On or before March 1 the Commission Staff shall review the calculations and recommendations of the administrator and call any errors or omissions to the attention of the administrator and the Commission.

05. **Report a Public Record -- Workpapers Exempted Trade Secrets.** The report of the administrator showing statewide totals for local service and MTS/WATS minutes, inventories of service lines, and other information not identifying a telephone corporation or a customer is a public record available for inspection, examination and copying under Section 74-102, Idaho Code. Workpapers accompanying the report (including those
produced by the USF administrator) showing individual telephone corporation’s data for Title 62 services and individual telephone corporation’s reports to the TRS or USF administrators showing data for their Title 62 services, together with any data for Title 61 services protected from disclosure under applicable Trade Secret Law, are trade secrets exempt from disclosure under Section 74-107(1), Idaho Code. (7-1-93)

206. -- 300. (RESERVED)

PARTICIPATION IN THE TRS PROGRAM - RULES 301 THROUGH 400

301. PARTICIPATION IN PROGRAM (RULE 301).
All telephone corporations providing local exchange service within the state of Idaho and all telephone corporations providing intrastate message telecommunications service (MTS) within the state of Idaho, including those otherwise exempt from the jurisdiction of the Commission pursuant to Section 61-104, Idaho Code, and those providing local exchange service or MTS/WATS pursuant to the Telecommunications Act of 1988, Sections 62-601 et seq., Idaho Code, are required to participate in the TRS program and to contribute to the TRS fund under these rules, except as provided by Rules 203 and 302. (7-1-93)

302. EXEMPTION FROM TRS PARTICIPATION AND FUNDING (RULE 302).
The Commission may permit a telephone corporation that provides local exchange service in Idaho or intrastate MTS/WATS service in Idaho to provide TRS to its customers through a TRS provider other than the provider selected by the Commission and may waive the telephone corporation’s obligation to participate in the program and to fund the program if the Commission finds, upon application by the telephone corporation, that:

01. ADA. The telephone corporation will meet its obligation to its Idaho customers in accordance with the standards set forth in the Americans with Disabilities Act. (7-1-93)

02. TRS Program. The operation or provision of TRS under the program approved by the Commission will not be substantially impaired if that telephone corporation does not participate in or fund the TRS program. (7-1-93)

303. -- 999. (RESERVED)
31.51.01 – OPERATOR SERVICE AND PAY TELEPHONE RULES

000. LEGAL AUTHORITY (RULE 0).

001. TITLE AND SCOPE (RULE 1).
The name of this chapter is “Operator Service and Pay Telephone Rules.” This chapter applies to all provisions of operator services and pay telephone services in Idaho. (7-1-93)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
This rule governs consideration of exemptions and complaints under these rules. Any person requesting and receiving an informal Commission Staff determination with regard to an exemption or complaint may formally or informally request the Commission to review the Commission Staff’s determination. (7-1-93)

01. Exemptions from Rules. This subsection governs procedure for requests for exemptions from these rules. (7-1-93)

a. Any operator service provider (“OSP”), payphone service provider (“PSP”), telephone company, or customer may informally request an exemption from any provision of these rules for a specific person or persons by writing the Commission’s consumer assistance staff at the Idaho Public Utilities Commission, PO Box 83720, Boise, Idaho 83720-0074, or by telephoning the Commission’s Consumer Assistance Staff at 334-0369 (Boise area) or 1 (800) 432-0369 (out of Boise calling area). Any such person may in writing or by telephone request the Commissioners to informally or formally review the Staff’s decision. (3-15-02)

b. Any OSP, PSP, telephone company, or customer may formally petition the Commission for an exemption pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (3-15-02)

c. Any OSP, PSP, or telephone company requesting an exemption for all of its customers must formally petition the Commission pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (3-15-02)

02. Complaints. Any OSP, PSP, telephone company, or customer may file complaints under these rules. This paragraph governs procedure for filing complaints under these rules. (3-15-02)

a. Any OSP, PSP, telephone company, or customer may file an informal complaint under any provision of these rules concerning a specific provider, company or customer by writing the Commission’s consumer assistance staff at the Idaho Public Utilities Commission, P.O. Box 83720, Boise, Idaho 83720-0074, or by telephoning the Commission’s Consumer Assistance Staff at 334-0369 (Boise area) or 1 (800) 432-0369 (out of Boise calling area). Any such person may in writing or by telephone request the Commissioners to informally or formally review the Staff’s decision. (3-15-02)

b. Any OSP, PSP, telephone company, or customer may file a formal complaint under these rules with the Commission pursuant to the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (3-15-02)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
All requests for waivers of these rules are public records subject to inspection, examination and copying under the Public Records Act. All informal complaints concerning compliance with these rules are investigatory records...
exempt from disclosure under the Public Records Act. All formal complaints concerning telephone companies’
compliance with these rules are public records subject to inspection, examination and copying under the Public
Records Act. (7-1-93)

005. DEFINITIONS (RULE 5).

01. Fax Machine/Pay Telephone. “Fax Machine/Pay Telephone” means a facsimile (fax) machine
which permits pay telephone service only in conjunction with the use of the fax machine and does not generate a
separate charge for the telephone call. The transmission of a fax document is not considered to be a Pay Telephone
service under these rules. (3-15-02)

02. Local Exchange Company (“LEC”). A “LEC” is the telephone corporation (if any) providing
local exchange service to an OSP customer’s telephones or to a pay telephone. (3-15-02)

03. MTS Company or Interexchange Carrier. “MTS company” or “interexchange carrier” means a
telephone company providing MTS service. (7-1-93)

04. Message Telecommunications Service (“MTS”). “MTS” (commonly known as “long-distance
service”) means the transmission of two (2) way interactive switched voice communication between local exchange
areas for which charges are made on a per-unit basis and wide area telecommunications service (“WATS”) or its
equivalent. (3-15-02)

05. Operator and Directory Assistance Services. “Operator and directory assistance services (or
operator services)” are any telecommunications services that include, as a component, any automatic or live
assistance to a telephone caller to arrange for billing or completion, or both, of a telephone call. They include, but are
not limited to, intercept, call completion and assistance, and directory assistance services, whether local, MTS, or
both. (7-1-93)

06. Operator Service Provider (“OSP”). An “OSP” is a company that furnishes various automated or
live operator or directory assistance services. OSPs may contract with call aggregators (e.g., hotels, motels, hospitals,
colleges, airports, PSPs) that collect and route calls made by telephone callers to the OSP. OSPs may lease telephone
lines that transmit the telephone user’s call from the call aggregator to the OSP’s facilities. OSPs furnish operator
services such as collect, person-to-person, third-party billed and calling card calls. (3-15-02)

07. OSP Customer. “OSP customer” is a call aggregator i.e., any person not an institution of
confine ment as defined in Rule 300 who, in the ordinary course of its operations, makes telephones available to the
public or to transient users of its premises for telephone calls using a provider of operator services. Hotels, motels,
hospitals, colleges, airports, and PSP owners that collect and route calls by telephone callers to an OSP and that
contract with an OSP or receive operator services from a LEC are examples of call aggregators and OSP customers.
OSP customers own or exercise control over telephone instruments. (3-15-02)

08. Pay Telephone. “Pay Telephone or payphone” means a telephone instrument that requires coin,
collect, third-party billing or credit/calling cards in order to complete local or toll calls, including fax machines that
can be used to complete standard, non-fax related local and long distance calls for which there is a separate charge. A
pay telephone made available to inmates of an institution of confinement as defined in Rule 300 is not included in this
definition of “Pay Telephone.” (3-15-02)

09. Payphone Service Provider. Payphone Service Provider (“PSP”) is a provider who provides
public pay telephones, the provision of inmate telephone service in correctional institutions, and any ancillary
services. (3-15-02)

10. Public Access Line. Public Access Line (“PAL”) is a line that is tariffed to be attached to a
payphone. (3-15-02)

11. Telephone Caller. “Telephone caller” or “telephone user” is a person (other than a person calling
from an institution of confinement as defined in Rule 300) who originates or attempts to originate any telephone call
using operator services or from a pay telephone. (7-1-93)
12. Ten 14X Zero Plus (101XXXX 0+). “101XXXX 0+” represents the digits dialed by a caller to access the carrier of the caller’s choice for a collect, credit card, calling card, debit card or other means of non-sent paid call. (3-15-02)

13. (800) or Toll Free Service. 800 or toll free service includes service that is accessed by dialing 800, 888, 877 or any other three (3) digit NPA code reserved for such service by the Federal Communications Commission. (3-15-02)

006. -- 007. (RESERVED)

008. INCORPORATION BY REFERENCE – UNITED STATES CODE AND CODE OF FEDERAL REGULATIONS (RULE 8).

009. -- 100. (RESERVED)

101. INFORMATION TO BE DISPLAYED (RULE 101).
Pay telephones owned or controlled by an OSP customer must inform the telephone caller that the telephone is connected to an OSP. The following information must be displayed on or posted in proximity to the instrument: (3-15-02)

01. Name, Address, and Toll-Free Telephone Number of the OSP. (7-1-93)

02. No-Cost Procedures. No-cost procedure for:
   a. Reporting of service difficulties; (7-1-93)
   b. Making billing inquiries; (7-1-93)
   c. Obtaining the total rates and charges (including surcharges) to be billed by OSPs and MTS companies for the call; and (7-1-93)
   d. Any charges imposed by the OSP customer for the call; (7-1-93)

03. Instructions. Dialing instructions, including instructions for reaching the local exchange company operator if the OSP is not the local exchange company. (7-1-93)

04. Written Disclosure. Written disclosure that consumers have a right to obtain access to the MTS company of their choice and may contact their preferred MTS companies for information on accessing that MTS company’s service using that telephone. (7-1-93)

102. EMERGENCY ACCESS REQUIRED (RULE 102).

01. Access to Emergency Services. All telephones connected to an OSP are required: (7-1-93)
To provide direct access to a local exchange company operator for access to emergency services by dialing “0” (except for OSP customers like hotels, motels, hospitals, dormitories, etc., that direct “0” calls to a person on the OSP customer’s premises), and

Where available, to provide direct access to emergency service providers by dialing “911”, unless exempted by the Commission pursuant to Rule 102.02 of this rule. Unless exempted, access to the OSP network (other than the local exchange company’s) may be made through any other access number or keypad symbol. Exempted providers are required to maintain current lists of local emergency numbers.

Provide or pass through the information required by Enhanced 911 service providers, including but not limited to, signaling system seven (“SS7”) and automatic number identification (“ANI”).

02. **Initial Application for Exemption.** OSPs or PSPs can request an exemption from Rule 102.01 by filing an application for exemption with the Commission. The application must demonstrate that the OSP can immediately connect the caller with the correct emergency agencies that serve the telephone location and include:

- The full legal name, address and telephone number of the applicant, and any dba used by the applicant in Idaho;
- The legal form of business of the applicant, i.e., sole proprietorship, corporation or partnership, etc.;
- If a corporation, the name and address of the agent for service of process in the state of Idaho;
- On a separate page, the telephone number and location address of each pay telephone installed that the applicant wants included in the exemption (this page may be marked “Proprietary--for use by Commission personnel only”);
- The full name and address of the OSP facility;
- A description of the applicant’s service agreements that ensure the OSP’s compliance with the Commission’s Rules;
- A statement of procedures for and a toll-free telephone number for reporting service difficulties and making billing inquiries;
- A statement explaining how emergency numbers are obtained and how they are associated with the correct locations; and
- A statement that the applicant will contractually require that its customers comply or will comply with the requirements set out in these OSP rules.

03. **Review of Applications for Exemption.** The Commission Staff will review the application for exemption and issue a letter of exemption if the Staff determines the applicant meets the criteria set forth in Rule 102.02. If a request for an applicant’s exemption is denied by the Commission Staff, the applicant may petition the Commission to review the Staff’s denial.

04. **Annual Update of Information After Exemption Is Granted.** When the Commission has granted an application for exemption under Rule 102.02, the applicant must provide the Commission Staff on August 1 the following:

- Any change in the information listed in Rule 102.02.a. through 102.02.i.; and
- A current list by telephone number and location address of each pay telephone installed that is covered by the exemption (this page may be marked “Proprietary--for Commission use only”);
c. A current list of emergency numbers described in Rule 102.01 and a statement that the OSP has confirmed and updated the list.

05. **Emergency Dialing Instructions.** All pay telephones owned or controlled by the OSP customer must be posted with emergency dialing instructions.

06. **Termination of Service for Violation of This Rule.** Consistent with this Commission’s rules on termination of service (Telephone Customer Relations Rules 300-314, IDAPA 31.41.01.300 through 31.41.01.314 and Rule 213 of these rules), the LEC must terminate service to customers of record known to be in violation of Rule 102.01 that have not been granted an exemption under Rule 102.02. The Commission or its Staff shall notify the LEC in writing of customers it knows to be in violation and whose service should be terminated.

103. **ACCESS TO OTHER OSPS AND MTS COMPANIES REQUIRED (RULE 103).** Except as allowed by this rule, no telephone owned or controlled by an OSP customer and no OSP can block a telephone caller’s access to an OSP or MTS company that serves the local exchange where the OSP customer is located. Callers must be allowed access to the OSP or MTS company of their choice via the dialing patterns 950-, 800- and 101XXXX 0+ where allowed by the serving central office. The pay telephone instrument must transmit the access digits in the dialing pattern exactly as the caller dials them. Calls made by a dialing sequence that will bill the call back to the PSP rather than the telephone user, may be blocked.

104. **DISCLOSURE OF OPERATOR SERVICE PROVIDER (BRANDING) AND CHARGES (RULE 104).**

Every operator service provider must:

01. **Identify Itself.** Identify itself, audibly and distinctly (e.g., by saying “XYZ operator, may I help you?” or “Thank you for using XYZ”) to the telephone caller at the beginning of each telephone call and before the telephone caller incurs any charge for the call;

02. **Permit Caller to Terminate Call.** Permit the telephone caller to terminate the telephone call at no charge before the call is connected;

03. **Disclose to Caller.** Disclose immediately to the telephone caller, upon request and at no charge to the telephone caller:

a. A quote of the total rates and charges (including surcharges) to be billed by OSPs and MTS companies for the call;

b. The methods by which rates or charges will be collected; and

c. The methods by which complaints concerning rates, charges or collection practices will be resolved.

04. **Disclose to the Consumer.** Disclose, audibly and distinctly to the consumer (caller for non-collect calls, called party for collect calls), at no charge, and before connecting any intrastate operator service call, how to obtain the total cost of the call, including any aggregator surcharge, or the maximum possible total cost of the call, including any aggregator surcharge, before providing further oral advice to the consumer on how to proceed to make the call. The oral disclosure required in Rule 104.04 shall instruct consumers that they may obtain applicable rate and surcharge quotations either, at the option of the provider of operator services, by dialing no more than two (2) digits or by remaining on the line.

105. **COMPLIANCE WITH OSP RULES (RULE 105).**
The OSP and its customers are responsible for complying with all rules that apply to OSP services. These rules must be incorporated in all contracts, tariffs and price lists with Idaho OSP customers, and the OSP must advise new and renewing OSP customers of the OSP customer’s obligations under these rules.

106. **UNCOMPLETED CALLS -- SPLASHING (RULE 106).**
01. **Billing for Uncompleted Calls.** OSPs are prohibited from billing for unanswered or unaccepted telephone calls. Charges for unanswered or unaccepted calls must be removed from bills. (3-15-02)

02. **Splashing.** “Splashing” or “call splashing” means the transfer of a telephone call from one (1) provider of operator services to another provider in a manner that the subsequent provider is unable or unwilling to determine the actual originating location of the call and, because of that inability or unwillingness, is prevented from billing the call on the basis of its actual originating location. OSPs are prohibited from splashing calls unless the telephone caller:

a. Requests to be transferred to another provider of operator services; (7-1-93)

b. Is informed before incurring any charges that the rates for the call may not reflect the rates from the actual originating location of the call; and (7-1-93)

c. Consents to be transferred. Except as allowed by the previous sentence, OSPs shall not bill for a call on a basis that does not reflect the origin of the call. (7-1-93)

107. **INFORMATION ON BILLS (RULE 107).**

Bills for OSP services shall notify the customer of the procedures and toll-free telephone number for handling complaints and billing inquiries and must comply with Telephone Customer Relations Rule 201, IDAPA 31.41.01.201. Calls billed to a credit card issued by a financial institution not affiliated with or issued in conjunction with an OSP or MTS carrier (e.g., VISA, Mastercard, Diner’s Club, Discovery, American Express) need not contain Telephone Customer Relations Rule 201’s call detail. Call aggregators shall ensure that no charge by the aggregator to the telephone caller for using an “800” or “950” access code number, or any other access code number, is greater than the amount the aggregator charges for calls placed using the presubscribed provider of operator services. (3-15-02)

108. -- 200. **(RESERVED)**

PAY TELEPHONES - RULES 201 THROUGH 299

PAY TELEPHONES AND TELEPHONE CALLERS - RULES 201 THROUGH 210

201. **APPROVED INSTRUMENTS -- OPERATION OF INSTRUMENTS (RULE 201).**

01. **Registered or Exempt Instruments.** All PSPs connecting pay telephones to the network must connect pay telephone instruments that:

b. If not registered, are connected behind a protective coupler registered under Part 68 of the FCC Rules and Regulations; or (7-1-93)

c. Are exempted from registration by the FCC. See Title 47, Part 68.1 through 68.318 (October 1, 2000). (3-15-02)

02. **Instruments for the Hearing Impaired.** All owners of PSPs connecting pay telephones to the network must connect pay telephones that comply with the requirements of the Telecommunications for the Disabled Act of 1982 (January 3, 1983) and 47 CFR. Parts 68.112 and 68.316 (October 1, 2000) (which address access to the handicapped and hearing aid compatibility). (3-15-02)

03. **Operation of the Pay Telephones.** All pay telephones must: (7-1-93)
a. Comply with Rule 203 on coin-free operator and emergency access and Rule 204 on return of coins; (1-1-94)

b. Payphones that do not accept incoming calls shall be clearly labeled to advise the user; (3-15-02)

c. Allow access to any MTS company that originates calls in that exchange, as follows: Callers must be allowed access to the OSP or MTS company of their choice via the 950-, 800- and 101XXXX 0+ access dialing pattern where allowed by the serving central office. The pay telephone instrument must transmit the access digits in the dialing pattern exactly as the caller dials them, but calls that will bill the call back to the PSP rather than the telephone user, may be blocked; (3-15-02)

d. Allow access to any toll-free number (e.g., 800 or 950 numbers) without charge; and (7-1-93)

e. Have a keypad or dial that remains engaged during the call and continues to be able to send signals during the call. (7-1-93)

202. CHARGES FROM PAY TELEPHONES NOT REGULATED (RULE 202). A PSP must file a price list or tariff with the Commission indicating the rates charged from its pay telephones unless all rates are set by the servicing OSP and are already filed with the Commission by the servicing OSP. (3-15-02)

203. EMERGENCY NUMBERS (RULE 203). Pay telephones must allow coin-free operator and emergency 911 access in any exchange in which 911 service is available. Where 911 service is not available, instructions for completing coin-free emergency calls must be posted on the pay telephone instrument as required in Rule 207. (7-1-93)

204. COMPLETION OF CALLS -- REFUNDS (RULE 204). Pay telephones must be able to complete local as well as long-distance calls. If coin-operated, the pay telephone must return coins for uncompleted calls. (3-15-02)

205. PRIVACY (RULE 205). The telephone caller’s or telephone user’s privacy is to be ensured. Extensions to a pay telephone permitting third-party access to conversations are prohibited. (7-1-93)

206. DIRECTORY (RULE 206). The PSP for the pay telephone must make a diligent effort to provide a current telephone directory in good condition. (3-15-02)

207. LABELING OF PAY TELEPHONES (RULE 207). Pay telephones must be labeled with the following information or the information must be posted in proximity to the instrument:

01. Name, Address, and Phone Number. Name and address or name and toll-free telephone number of the PSP. (7-1-93)

02. Local Exchange and Address. The local exchange number and address of the telephone (in rural areas without a street address, the name of the street or highway nearest the telephone and a milepost reference can serve as the address). (3-15-02)

03. Procedure for Reporting. No cost procedure for reporting service difficulties and method of obtaining refunds and quotes for rates and charges. (7-1-93)

04. Charge. The charge for a local call. (7-1-93)

05. Provider(s) Reached. The presubscribed operator service provider(s) and the toll service provider(s) that will be reached when the telephone is used. (7-1-93)
06. **Dialing Instructions.** Dialing instructions for completing calls and a statement that all MTS (long-distance) companies serving the area can be reached from the telephone by dialing the access code or number provided by the MTS (long-distance) company. (7-1-93)

07. **Operational Characteristics.** (e.g., prepay or postpay). (7-1-93)

08. **Emergency Dialing Instructions.** (7-1-93)

208. -- 210. (RESERVED)

### PAY TELEPHONES - RULES 211 THROUGH 220

211. **CONNECTION OF PAY TELEPHONES (RULE 211).**
Pay telephones shall be connected only to public access lines (PAL). Every LEC must offer a PAL tariff or price list. There must be one (1) PAL for each pay telephone instrument. (3-15-02)

212. **PAYMENT OF BILLINGS -- DEPOSITS -- PAY TELEPHONES (RULE 212).**
The PSP is responsible for payment of all billings to the PAL to which the pay telephone is connected, including fraud calls (e.g., unbillable or incorrectly identified calls) made from the pay telephone if the customer of record did not subscribe to line identification service or did not use a billing validation service to verify the billing information provided by the telephone caller. The LEC may require a reasonable security deposit as a condition of connection and continued service. (3-15-02)

213. **RESPONSIBILITY FOR COMPLIANCE -- PAY TELEPHONES (RULE 213).**
01. **LEC Termination With Notice.** The PSP is responsible for compliance with the LEC’s and Commission’s rules for the provisions of pay telephone service. Consistent with this Commission’s Telephone Customer Relations Rules 300 through 314, IDAPA 31.41.01.300 through 31.41.01.314, on termination of service, the LEC must terminate service to customers of record known to be in violation of Rules 101 through 299. The Commission or its Staff shall notify the LEC in writing of customers it knows to be in violation and whose service should be terminated. (3-15-02)

02. **LEC Termination Without Notice.** Immediate termination without prior notice is required if the Commission Staff notifies the LEC that the pay telephone is:

   a. In a pattern of non-compliance with the Commission’s rules; or (1-1-93)

   b. In violation of a Commission rule within one (1) week of correcting a previous violation of the same rule. A pattern of non-compliance is defined as two (2) similar major violations within three (3) months. A major violation is further defined as blocking access to the caller’s OSP or MTS company of choice (Rules 103 and 201.03.c.), or failure to provide access to emergency services as outlined by the rules (Rules 102 and 203). Telephones installed without meeting the amplification standards as outlined by Title III of the Americans with Disabilities Act 42 U.S.C. Sections 12181 through 12189 (September 22, 2000) will be subject to immediate disconnection (Rule 201.02). (3-15-02)

214. -- 299. (RESERVED)

### PAY TELEPHONES IN AND OPERATOR SERVICES FROM INSTITUTIONS OF CONFINEMENT
**RULES 300 THROUGH 400**

300. **FURTHER DEFINITIONS (RULE 300).**
As used in Rules 300 through 310: (7-1-93)

01. **Institutions of Confinement.** “Institutions of confinement” mean those portions of prisons, jails, mental hospitals, etc., that house or enclose inmates. (7-1-93)
a. One (1) whose liberties are legally restricted by judgment or order of a court, or (2) who are confined under arrest, involuntary commitment, or other legal process; and (7-1-93)

b. Who are physically restrained from leaving the premises. Halfway houses, house arrests, etc., where inmates have freedom during some or all of the day to leave or to make telephone calls from telephones other than those provided by the institution, are not institutions of confinement under this rule. (7-1-93)

02. Operator and Directory Assistance Services. “Operator and directory assistance services (operator services)” are any telecommunications services that include, as a component, any automatic or live assistance to a telephone caller to arrange for billing or completion, or both, of a pay telephone call from an institution of confinement. They include, but are not limited to, intercept, call completion and assistance, and directory assistance services, whether local, MTS, or both. (7-1-93)

03. Inmate Operator Service Providers. “Inmate operator service providers (IOSPs)” are companies that provide operator services from pay telephones in an institution of confinement. (3-15-02)

04. Inmate OSP Customer. “IOSP customer” means the institution of confinement that collects and routes calls by inmates of the institution of confinement to an OSP. (3-15-02)

05. Inmate Pay Telephone. “Inmate pay telephone” means a telephone instrument that requires the use of any one (1) or more of coin, collect, third-party billing, or credit/calling cards in order to complete local or toll calls from an inmate of an institution of confinement. (3-15-02)

06. Inmate Telephone Caller. “Inmate telephone caller” or a “telephone user” is an inmate of an institution of confinement who originates or attempts to originate a call from a pay telephone in the institution. (3-15-02)

07. Telephone Customer. “Telephone customer” means the person paying rates and charges for a pay telephone call originated by an inmate of an institution of confinement. (7-1-93)

301. ADOPTION OF RULES BY REFERENCE (RULE 301).
All IOSPs offering operator services from pay telephones in an institution of confinement, all customers of record providing pay telephone service from institutions of confinement, all IOSP customers (i.e., the institutions of confinement), and all LECs, whichever are applicable, must comply with the following rules of the Commission adopted by reference: (3-15-02)

01. Rules 104.01 Through 104.04. Disclosure of IOSP (Branding) and Charges. Except that branding required by this rule must be given to the pay telephone customer accepting a collect call before the collect call is accepted. (3-15-02)

02. Rule 106. Uncompleted Calls--Splashing. (3-15-02)

03. Rule 107. Information on Bills. (3-15-02)

04. Rule 201.01. Approved Instruments. Registered or Exempt Instruments. (7-1-93)

06. Rule 204. Completion of Calls--Refunds. (7-1-93)

07. Rule 211. Connection of Pay Telephones, except for the last sentence. (3-15-02)

08. Rule 212. Payment of Billings--Deposits--Pay Telephones. (3-15-02)

302. INFORMATION TO BE DISPLAYED (RULE 302).
Pay telephones located in institutions of confinement designed to be used by inmates of the institutions must inform the telephone caller if the pay telephone is connected to an IOSP. The following information must be displayed on or posted in proximity to the instrument or made readily available to inmates:

01. Name, Address, and Toll-Free Number. Name, mailing address and toll-free telephone number of the IOSP and the name, mailing address and toll-free telephone number of the owner of the pay telephone if the owner is not the IOSP (these toll-free telephone numbers may be blocked to telephone callers in the institution of confinement, but must be accessible to telephone customers accepting calls from the pay telephone instrument).

02. PUC Address and Phone Number. The address and telephone numbers of the Idaho Public Utilities Commission and a statement of its consumer complaint authority over improper charges, inadequate service, etc.

03. Total Charge. The total charge for completing a local call, if no rate quote is provided audibly or available.

04. Time Limit. Where the length of a call is limited, the time limit per call.

303. EMERGENCY ACCESS (RULE 303).
If requested by the institution of confinement, pay telephones located in an institution of confinement must be made available for use of inmates of an institution of confinement to provide no-cost reporting of emergencies.

304. COMPLIANCE WITH RULE 300 THROUGH 310 (RULE 304).
The IOSP and its customer (the institution of confinement) are responsible for complying with the requirements of these Rules 300 through 310 that apply to IOSP and pay telephone services.

305. INSTRUMENTS FOR THE HEARING-IMPAIRED (RULE 305).
All pay telephones in institutions of confinement must comply with the requirements of 47 C.F.R. 68.112 and 68.316, which address access to the handicapped and hearing aid compatibility. In addition, as requested by the institution of confinement, amplified pay telephones must be reasonably provided and clearly labeled.

306. (RESERVED)

307. TOLL-FREE NUMBERS (RULE 307).
Persons billed for collect calls must be given a toll-free number, published on their monthly bill originating from pay telephones in an institution of confinement, at which they can reach the OSP or its agent to inquire about the correctness of bills, rates, or other information.

308. UNACCEPTED OR UNCOMPLETED CALLS (RULE 308).
Companies billing for collect calls originating from pay telephones in institutions of confinement cannot knowingly bill for unaccepted or uncompleted calls.

01. No Charges. Shall not charge the customer of record of a pay telephone located outside the institution of confinement for calls placed from the institution of confinement and accepted at the other pay telephone; or

02. Removal of Charges. Shall remove the charges from the bill of the customer of record of a pay telephone located outside the institution of confinement, unless the customer of record has not subscribed to billed number identification services (or other similar fraud protection services) with its local exchange company.

309. BLOCKING (RULE 309).

01. In General. Upon their own initiative IOSPs providing service to an institution of confinement may block access to:
a. Toll-free numbers (e.g., 800 or 950 numbers); (7-1-93)
b. Information service provider numbers (e.g., 900 or 976); (7-1-93)
c. Numbers designed for emergency reporting by the general public (e.g., 911); (7-1-93)
d. Directory assistance; (7-1-93)
e. 101XXXX dialing sequences (which will reach other toll carriers); and (3-15-02)
f. Incoming calls. IOSPs shall block local or long distance numbers as directed by the institution of confinement that is the IOSP customer. Any person may request the IOSP to block calls from a given institution of confinement to that person’s telephone. This section is not an exhaustive listing of all circumstances under which IOSPs can block access to numbers from pay telephones in institutions of confinement. (3-15-02)

02. Risk of Nonpayment. IOSPs providing service to an institution of confinement may block access to a telephone customer’s line when there is evidence of risk that the telephone customer cannot pay the IOSP’s charges. Factors indicating a risk of nonpayment include, but are not limited to:

a. No or inadequate deposit on file to pay charges described in Subsection 309.02.b. below. A history with the IOSP of nonpayment, payment of less than the total amount due, or payment with dishonored checks; or (3-15-02)

b. Accumulated charges and unbilled charges for IOSP services from that IOSP that exceed one hundred dollars ($100) in a one-month period. (3-15-02)

310. APPLICABILITY OF RULES 300 THROUGH 310 (RULE 310).
Rules 300 through 310 apply only to services provided for inmate use at institutions of confinement. If any persons providing pay telephones in or operator services from institutions of confinement also provide pay telephones or operator services elsewhere, including, for example, portions of jails or prisons open to the public, they must fully comply with all of the Commission’s rules for OSPs and pay telephones for those services. Rules 300 through 310 supersede all orders of the Commission previously issued granting exemptions from former Rules 9, 10 or 11 (former IDAPA 31.D.9, -.10 or -.11) for OSPs or pay telephone providers offering services to inmates in institutions of confinement. (7-1-93)

311. -- 999. (RESERVED)
000. LEGAL AUTHORITY (RULE 0).
These rules are promulgated pursuant to the authority of the Idaho Public Utilities Law, Sections 61-515 and 61-520, Idaho Code, and the Stray Current and Voltage Remediation Act, Section 61-803, Idaho Code. (4-11-06)

001. TITLE AND SCOPE (RULE 1).

01. Title. The title of these rules is the IDAPA 31.61.01, “Rules for the Measurement of Stray Current or Voltage” (Stray Voltage Rules). (4-11-06)

02. Scope. These rules are applicable to dairy producers, public utilities and all persons or entities involved in any way in the measurement or remediation of stray current or voltage within Idaho. (4-11-06)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
There are no provisions for administrative appeals within the Commission under these rules. (4-11-06)

004. INCORPORATION BY REFERENCE – REFERENCE TO SAFETY CODES (RULE 4).

01. Safety Codes. These rules reference two (2) national safety codes. (4-11-06)

a. The National Electrical Safety Code (NESC) is applicable to public utilities and is adopted by the Commission in IDAPA 31.11.01, “Safety and Accident Reporting Rules for Utilities Regulated by the Idaho Public Utilities Commission.” (4-11-06)

b. The National Electrical Code (NEC) is applicable to the installation of wires and facilities used to convey electric current and to apparatus to be operated by such electric current. Adoption of the National Electrical Code is found at Section 54-1001, Idaho Code, and IDAPA 07.01.06, “Rules Governing the Use of National Electrical Code,” Section 011. (4-11-06)

005. OFFICE – OFFICE HOURS – MAILING, ELECTRONIC AND STREET ADDRESSES (RULE 5).

01. Office Hours. The principal office of the Commission is in Boise, Idaho. This office is open from 8 a.m. to 5 p.m. except Saturday, Sunday and legal holidays. The Commission’s telephone number is (208) 334-0300. The hearing or speech impaired may reach the Commission through the Idaho Telecommunications Relay Service by dialing 711. (4-11-06)

02. Mailing and Street Addresses. The Commission’s mailing address is: Idaho Public Utilities Commission, PO Box 83720, Boise, Idaho 83720-0074. The street address for the Commission is: 472 West Washington Street, Boise, Idaho 83702-5983. All documents filed in all proceedings under these rules must be filed with the Commission at one (1) of these addresses. (4-11-06)

03. Electronic Address. The Commission’s electronic address for its Internet homepage is http://www.puc.idaho.gov. (4-11-06)

006. PUBLIC RECORDS ACT COMPLIANCE (RULE 6).
Unless specifically exempted from public disclosure by the Public Records Act, Title 74, Chapter 1, Idaho Code, all materials filed with the Commission pursuant to these rules are presumed to be public documents subject to inspection, examination and copying. Whenever a party believes that information contained in pleadings or other documents are trade secrets, confidential or otherwise exempt from public disclosure, the attorney of such party must state in writing that the information is protected by law from public inspection, examination or copying, citing the specific grounds and legal authority for that assertion. The Commission will treat confidential information in compliance with IDAPA 31.01.01, “Rules of Procedure of the Idaho Public Utilities Commission,” Section 067.

007. LIBERAL CONSTRUCTION (RULE 7).
These rules will be liberally construed to secure just, speedy and economical determination of all issues presented to the Commission.

008. PRACTICE AND PROCEDURES – FORMS (RULE 8).
All proceedings under these rules will be conducted in accordance with IDAPA 31.01.01, “Rules of Procedure of the Idaho Public Utilities Commission.” Forms used for recording voltage or current measurements under these rules appear in the Appendices. Subject to prior approval by the Commission, spreadsheets or electronic forms in substantially similar format and containing all relevant data may be used. Calculations may be automated as part of these electronic forms.

009. (RESERVED)

010. DEFINITIONS (RULE 10).

01. Adequate Remediation. Means corrective action taken by a utility which results in, and is reasonably likely to sustain, a reduction of stray current or voltage attributable to the utility’s distribution system to a measured level that is fifty percent (50%) or less of the preventive action level.

02. Ampere. A unit of measure of current. A milliampere is one-one thousandths (1/1,000) of an ampere.

04. Cow Contact Points. Means any two (2) points on electrically conductive materials in a dairy which a dairy cow may (in its normal environment on the dairy) unavoidably and simultaneously contact. Electrically conductive material may include the surface(s) that the cow is standing on as one (1) or both cow contact points.

05. Equipotential Plane (EPP). Means an area where wire mesh or other conductive elements are imbedded in or placed under concrete, bonded to all metal structures and fixed nonelectrical equipment that may become energized, and connected to the electrical grounding system to prevent a difference in voltage from developing within the plane.

06. Preventive Action Level (PAL). Stray current or voltage that, when correctly measured, is either:

a. A steady state, root mean square (rms) alternating current (AC) of two (2) milliamperes (mA) or more through a five hundred (500) ohm resistor (i.e., shunt resistor) connected between cow contact points, as measured by a true rms meter, or;

b. Any steady state, rms AC voltage of one (1.0) volt or more across (in parallel with) a five hundred (500) ohm resistor (i.e., shunt resistor) connected between cow contact points, as measured by a true rms meter.

07. Primary System. A term that describes the high voltage utility electrical system including the generation, transmission and distribution systems. It also refers to the high voltage side of a distribution transformer.
08. **Secondary System.** Means the low-voltage utility electrical system on the secondary side of a distribution transformer. The dairy’s on-farm system begins on the dairy’s side of the metering points, except for dairies metered on the high voltage side of the transformer(s). In the case of dairies metered on the high voltage side, the on-farm system begins at the transformer’s low-voltage lugs. (4-11-06)

09. **Service Provider.** Means any person, company or other legal entity providing stray voltage or current testing, consulting, measurements, analysis services, construction, or hardware. (4-11-06)

10. **Shunt Resistor.** A physical resistor or combination of resistors used to simulate a dairy cow during the measurement of cow contact voltage. As used in these rules, a shunt resistor shall be five hundred (500) ohm plus or minus two percent (+/- 2%). (4-11-06)

11. **Source Resistance.** Means that portion of resistance in the circuit, other than the resistance of the cow, when the cow is completing a circuit between contact points. Body-to-metal contact resistance and hoof-to-earth resistance may represent a portion of the source resistance. (4-11-06)

12. **Steady State.** The value of a current or voltage after an amount of time has passed where all transients have decayed to a negligible value. (4-11-06)

13. **Stray Current or Voltage.** Stray voltage or current is:
   
   a. Any steady state, sixty (60) hertz (Hz) (including harmonics thereof) root mean square (rms) alternating current (AC) less than twenty (20) milliamperes (mA) through a five hundred (500) ohm resistor (i.e., shunt resistor) connected between cow contact points, as measured by a true rms meter; or
   
   b. Any steady state, sixty (60) Hz (including harmonics thereof), rms AC voltage of less than ten (10) volts, across (in parallel with) a five hundred (500) ohm resistor (i.e., shunt resistor) connected between cow contact points, as measured by a true rms meter. (4-11-06)

   c. Stray current and voltage is a normal, inherent and unavoidable result of electricity traveling through grounded electrical systems, including a dairy producer’s on-farm system and a utility’s distribution system. These systems are required by the National Electrical Code (NEC) and the National Electrical Safety Code (NESC) to be grounded to the earth to ensure safety and reliability. (4-11-06)

   d. Unless the context otherwise requires, the term “stray voltage” shall mean stray current or stray voltage. (4-11-06)

14. **Tests, Measurements, Procedures and Analysis.** Means any or all of the stray voltage testing, measurement, work and work product defined in these rules. (4-11-06)

15. **Transient.** Transient or transient deviation means a non-steady state increase or spike in voltage or current. For the purpose of identifying and reporting transients in cow contact voltage (Vcc) or current (Icc), a transient occurs when the recorded maximum Vcc or Icc in a recording interval exceeds two hundred percent (200%) of the steady state Vcc or Icc recorded during the same recording interval. (4-11-06)

16. **Utility.** Means a public electric utility as defined in Section 61-332A, Idaho Code. (4-11-06)

011. **PURPOSE OF RULES -- CONFORMANCE TO ELECTRICAL CODE (RULE 11).** These rules standardize the measurement and testing procedures used to measure stray voltage and current. Standardization of testing will provide a consistent basis for determining the presence and level of stray voltage in a dairy and how to determine the source of that stray voltage or current. These rules do not replace existing safety standards embodied in electrical codes. Any conflict between these rules and the National Electrical Code or the National Electrical Safety Code shall be promptly brought to the attention of the Commission. Under these rules, testing is intended to determine:

01. **Presence of Stray Voltage.** The presence and amount of any stray voltage or current within the
dairy. (4-11-06)

02. **Sources of Stray Voltage.** The source(s) of any stray voltage or current detected. (4-11-06)

03. **Contributions to Stray Voltage.** The percent contribution from the utility side and the dairy side of the dairy service entrance to the total stray voltage or current measured on the dairy. (4-11-06)

012. -- 020. (RESERVED)

APPLICABILITY AND ADMISSIBILITY
RULES 21 THROUGH 30

021. **UTILITY (RULE 21).**
A utility measuring or testing for stray voltage or current at the request of a dairy producer, as directed by the Commission or on its own initiative, shall conduct such measurements in accordance with these rules. (4-11-06)

022. **DAIRY PRODUCER (RULE 22).**

01. **Serving Notice on the Utility.** A dairy producer providing written notice to a utility pursuant to Section 61-804, Idaho Code, shall specify why the dairy producer believes its dairy cows are being affected by electrical energy attributable to the utility. A dairy producer may provide such notice with or without first having conducted tests or measurements of stray voltage. (4-11-06)

02. **Cooperation.** When a written notice is filed with the utility, the dairy is obligated to make any contact point(s), service panels, grounding rods or other electrical equipment at the dairy available to the utility for measuring and testing. The utility shall provide reasonable notice and cooperate with the dairy producer to establish an appropriate time to conduct the tests and measurements. The dairy shall cooperate with the utility so that all tests and measurements necessary to identify the existence and magnitude of stray current or voltage, if any, are completed within fourteen (14) days of the utility’s receipt of such notice. (4-11-06)

023. **SERVICE PROVIDERS (RULE 23).**
Any person performing any stray voltage measurement or test on behalf of a utility or a dairy shall be deemed a service provider and shall follow these rules. (4-11-06)

024. **ADMISSIBILITY (RULE 24).**
Only tests and measurements made in compliance with these rules shall be admissible before the Commission or in any civil action. (4-11-06)

025. -- 030. (RESERVED)

QUALIFICATIONS OF PERSONS PERFORMING AND ANALYZING RESULTS OF STRAY VOLTAGE TESTS
RULES 31 THROUGH 40

031. **PERFORMANCE OF TESTS AND MEASUREMENTS (RULE 31).**
Measuring and testing for stray voltage under these rules for consideration by the Commission shall be performed by a qualified testing professional. The following persons are presumed to be qualified testing professionals: (4-11-06)

01. **Professional Engineer.** A professional engineer, licensed in any state, who has completed no fewer than forty-eight (48) hours of Commission-approved stray voltage training and who has been involved in no fewer than five (5) prior investigations involving the measurement or testing of stray voltage. (4-11-06)

02. **Master Electrician.** A master electrician, licensed in any state, who has completed no fewer than forty-eight (48) hours of Commission-approved stray voltage training and who has been involved in no fewer than five (5) prior investigations involving the measurement or testing of stray voltage. (4-11-06)

03. **Technician.** A technician who, under the supervision of a person presumed qualified under
Subsections 031.01 and 031.02, has completed no fewer than eight (8) hours of Commission-approved stray voltage training and who has been involved in no fewer than five (5) prior investigations involving the measurement or testing of stray voltage.

032. DATA ANALYSIS (RULE 32).
Analysis of data under these rules, for consideration by the Commission, shall be performed by a qualified analyst. A professional engineer, licensed in any state, who has completed no fewer than forty-eight (48) hours of stray voltage training and who has been involved in no fewer than five (5) prior investigations involving measurement or testing of stray voltage shall be presumed to be a qualified analyst.

033. PERSONS OTHERWISE QUALIFIED (RULE 33).
A person who does not satisfy the qualifications in Sections 031 and 032, may nonetheless be determined by the Commission to be a qualified testing professional or a qualified analyst if, on motion of any party, the Commission finds that person otherwise possesses the knowledge, skill, experience, training, or education that qualifies that person to offer expert testimony before the Commission.

034. -- 050. (RESERVED)

CALIBRATION OF AND EQUIPMENT USED FOR MEASURING AND RECORDING VOLTAGE, CURRENT AND RESISTANCE RULES 51 THROUGH 60

051. GENERAL REQUIREMENTS FOR STRAY VOLTAGE MEASURING AND RECORDING EQUIPMENT (RULE 51).
Equipment used for the measurement or testing of stray voltage, current, and resistance shall meet the following criteria:

01. Resolution and Accuracy. The accuracy and resolution of any instrument used to measure or record cow contact voltage or current, shall limit the error to five percent (5%) or less at one volt (1 V) or two milliampere (2 mA).

02. Voltage Measurement. Instruments used to measure cow contact voltage shall be capable of separating and independently measuring alternating current (AC) and direct current (DC) voltages. These instruments shall have a minimum internal impedance of ten thousand (10,000) ohm and shall be capable of measuring the true-rms voltage.

03. Current Measurement. A clamp-on ammeter, a digital multi-meter (DMM) with clamp-on device, or an in-line ammeter shall be used to measure current between two (2) points. The meters shall be capable of separating and independently measuring alternating current (AC) and direct current (DC) and shall be capable of measuring the true-rms current. Care must be taken to assure that clamp-on ammeters used have the required resolution and accuracy.

04. Resistance Measurement. Resistance shall be measured using either a volt ohmmeter (VOM) or a DMM. Resolution shall be to the level of one (1) ohm or less when measuring a resistance of less than one thousand (1,000) ohm. Accuracy shall be within plus or minus five (+/-5) ohm for a five hundred (500) ohm resistance.

05. Resistance-to-Earth Measurement. Grounding electrode resistance-to-earth measurements shall be made with a three- (3) point fall-of-potential instrument or a clamp-on resistance-to-earth tester.

052. CALIBRATION REQUIREMENTS (RULE 52).

01. Measuring Equipment Calibration. All measuring equipment shall be calibrated according to the manufacturer’s recommended calibration schedule, but no less than annually, to meet the manufacturer’s specifications for the accuracy and resolution of the equipment. Measuring equipment shall not be used after its next “calibration due” date for measurements or tests conducted during a stray voltage investigation. Calibration shall be performed by either:
a. The manufacturer of the equipment, who shall certify that the equipment meets the manufacturer’s specifications for accuracy and resolution; or (4-11-06)

b. A laboratory currently certified as meeting all applicable Institute of Electrical and Electronic Engineers (IEEE) and International Organization for Standards (ISO) standards. (4-11-06)

02. Calibration Certificates. The service provider performing the tests and measurements shall maintain certificates from the manufacturer or the calibration laboratory demonstrating compliance with calibration requirements. (4-11-06)

03. Field Check. Before voltage or current measurement or testing is performed, the instrument shall be field-checked by comparing measurements to those of other instruments or against a known source. (4-11-06)

053. REQUIREMENTS FOR MONITORING AND RECORDING DEVICES (RULE 53). Digital recording devices shall be used for the purpose of recording current and voltage for extended periods, such as the forty-eight (48) hour test. The recording devices shall have the same level of resolution and accuracy as the meters being used for the measurements. Monitoring systems, which combine measuring and recording functions in a single instrument, shall have the same level of resolution and accuracy as specified in Section 051. Recording devices and monitoring systems shall be capable of recording transient deviations of one-tenth (0.1) second or less in duration from the steady state. Digital recording devices, which have deviation settings, shall permit the deviation setting to be set “low” enough to meet the resolution and accuracy requirements in Subsection 051.01 of these rules. All recording devices shall be able to log the time and date of all data recorded and shall have their internal clocks synchronized. (4-11-06)

054. REQUIREMENTS FOR LOAD BOXES (RULE 54). The load box shall meet the following criteria: (4-11-06)

01. Volts. A load box shall be a primarily non-inductive nominal two hundred forty (240) volt, resistance heating type load with a minimum nominal full load of eighteen (18) kilowatts (kW). (4-11-06)

02. Split-Load. A load box shall be capable of operating at two (2) or more load settings, including approximately fifty percent (50%) and one hundred percent (100%) of the load box’s rated total load. (4-11-06)

055. -- 070. (RESERVED)

TESTING AND MEASUREMENT PROCEDURES RULES 71 THROUGH 80

071. STRAY CURRENT OR VOLTAGE TESTS (RULE 71). Subject to Subsection 071.02, there are six (6) tests used to detect and measure stray current or voltage. (4-11-06)

01. Scheduling of Stray Voltage Tests. Efforts shall be made to perform the tests under conditions substantially similar to those conditions existing at the time(s) the dairy producer believes stray voltage to be a problem. (4-11-06)

a. Test 1 - Cow Contact Test; (4-11-06)

b. Test 2 - Forty-Eight (48) Hour Test; (4-11-06)

c. Test 3 - Primary Profile Test; (4-11-06)

d. Test 4 - Secondary Neutral Voltage Drop Test; (4-11-06)

e. Test 5 - Load Box Test; and (4-11-06)

f. Test 6 - Signature Test. (4-11-06)
02. **Testing Sequence.** Test 1 shall be performed first. Tests 1 and 2 are used to determine the presence and level of stray voltage and shall be performed in all investigations, subject to the provisions of Subsection 071.03. Tests 3, 4, 5, and 6 may be performed in any order and may be performed without first determining that these tests are required under Paragraph 071.02.b. Tests 3, 4, 5, and 6 may be performed prior to starting the recording for Test 2 or while Test 2 is in progress. Test 2 may be interrupted as necessary to conduct Tests 4, 5, and 6, or for review and analysis of the data recorded up to that point. (4-11-06)

a. If the results from Tests 1 and 2 indicate that stray voltage does not exceed the preventive action level (PAL), the utility has no further testing or remediation obligations under these rules during this test cycle. (4-11-06)

b. If the PAL is exceeded, the utility shall perform the remaining four (4) tests except as provided in Subsection 071.03. The utility shall also perform analysis to determine whether the portion of the stray current or voltage attributable to an off-farm source exceeds fifty percent (50%) of the PAL. (4-11-06)

c. If the PAL is exceeded, and the portion of the stray current or voltage attributable to an off-farm source does not exceed fifty percent (50%) of the PAL, the utility has no further testing or remediation obligations. (4-11-06)

d. If the PAL is exceeded, and the portion of the stray current or voltage attributable to an off-farm source exceeds fifty percent (50%) of the PAL, the utility shall conduct remediation pursuant to Section 091. Under this condition, the forty-eight (48) hour recording of Test 2 may be reduced to no fewer than twenty-four (24) hours. (4-11-06)

e. For all testing conducted under these rules, the utility shall have a qualified analyst prepare a report pursuant to Section 082. (4-11-06)

03. **Suspended or Limited Testing.** With the written agreement of both the utility and the dairy producer, a stray voltage investigation may be suspended at any point in the investigation. With the written agreement of both the utility and the dairy producer, the utility may employ a limited set of tests or measurements on a dairy as part of an intentionally limited evaluation. If the utility proposes to suspend a stray voltage investigation or to conduct a limited evaluation, its reasons for doing so shall be set forth in the written agreement between the utility and the dairy producer. (4-11-06)

**072. PREPARATION FOR TESTING (RULE 72).**
The person performing the tests shall perform the following: (4-11-06)

01. **Remote Reference Grounding Rod.** (4-11-06)

a. Remote reference grounding rod(s) shall be installed and penetrate moist soil to a depth of thirty (30) inches. When practicable, remote reference rods shall be installed at least twenty-five (25) feet away from the nearest underground conductive electrical equipment of any type or at a distance equal to three (3) to four (4) times the buried depth of any metallic structure connected to the service entrance neutral. The reference ground rod shall be located not closer than twenty-five (25) feet from the centerline of a primary electrical conductor right-of-way. A reference rod shall be located not closer than one hundred (100) feet from the edge of a transmission line right-of-way. (4-11-06)

b. All remote reference grounding rods shall be checked for “remoteness” prior to their use for tests or measurements and if found to be insufficiently “remote,” a new location for that reference ground rod shall be found and retested for remoteness. Remoteness of the reference ground shall be determined by measuring the voltage from the transformer grounding electrode conductor to the remote reference ground. The resistance-to-earth of the transformer grounding electrode shall be measured. The grounding electrode current shall be measured. Remoteness is considered adequate if the measured voltage (transformer grounding conductor to reference ground, Vp) is within twenty percent (20%) of the voltage calculated by multiplying the grounding electrode current by the grounding electrode resistance-to-earth. (4-11-06)
c. If the transformer grounding electrode is within twenty-five (25) feet of other primary or secondary grounding electrodes, this remoteness test shall be conducted at the first primary system grounding electrode upstream of the transformer that is greater than twenty-five (25) feet from other primary or secondary system grounding electrodes. (4-11-06)

02. Inspecting the Transformer(s). Prior to testing, the utility transformer shall be inspected, grounding electrode resistance measured, and any repairs necessary for safety be made and recorded. In the case of a customer-owned transformer, qualified personnel shall inspect the installation, measure grounding electrode resistance, and make and record any repairs necessary for safety. Measurements that require contact with utility or customer-owned primary wires or equipment shall be made by the utility or other qualified personnel. (4-11-06)

03. In-Line Ammeters. If in-line or series ammeters are used, they shall be installed under safe conditions in accordance with the National Electrical Safety Code and the National Electrical Code with the entire dairy system or the specific circuit to be tested de-energized. (4-11-06)

04. Pre-Test Documentation. (4-11-06)
   a. All pre-test calibration requirements from Section 052 shall be completed and documented. (4-11-06)
   b. A sketch or drawing of the dairy shall be prepared indicating:
      i. The location of the buildings; (4-11-06)
      ii. Secondary electrical service panels and secondary feeder systems serving cow contact areas; (4-11-06)
      iii. Transformer(s) and central distribution point; (4-11-06)
      iv. Existing grounding electrodes (if known); (4-11-06)
      v. The location of all cow contact points to be tested; (4-11-06)
      vi. All remote reference grounding rods; and (4-11-06)
      vii. All primary and secondary neutral test points used in conjunction with the remote reference grounding rod(s). (4-11-06)
   c. A listing of planned test points shall be prepared using the applicable form prior to beginning each test. Each test shall be listed separately and specific reference numbers shall be given to each planned test point. (4-11-06)

05. Safety. (4-11-06)
   a. If the service provider reasonably concludes that a dairy’s noncompliance with the National Electrical Code poses a significant and immediate safety hazard which prevents completion of any test or measurement required by these rules, then the service provider’s obligations to proceed under these rules shall be suspended until the hazard is eliminated. (4-11-06)
   b. At the discretion of the service provider conducting the test, livestock shall be removed from any area where electrical equipment or wiring is examined or electrical measurements are taken. Testing may be suspended if the presence of cows or other animals creates a potential hazard to testing personnel. The locations of electric fences and other electrified cow control devices shall be noted and de-energized where practical. (4-11-06)

073. TEST 1 -- COW CONTACT TEST (RULE 73).

01. Purpose. The purpose of this test is to determine the location(s), if any, where stray current or
voltage exceeds the preventive action level (PAL) and to identify the location(s) at which the cow contact voltage will be recorded in the forty-eight (48) hour test. (4-11-06)

02. **Selection of Cow Contact Points.** The selection of cow contact points to be tested shall include a sufficient number of locations reasonably likely to demonstrate the presence of stray voltage or current, if any. (4-11-06)

03. **Conducting the Test.** The voltage across the shunt resistor or current through the shunt resistor shall be measured between cow contact points as shown in Figure 1. The source resistance shall be calculated during analysis for all cow contact points.

---

![Figure 1, Cow Contact Test.](image)

a. When using a voltmeter to measure voltage between contact points where one (1) of those points is the floor surface, the equipment shall be arranged as shown in Figures 1 and 2, using a metal plate, which shall make a high quality conductive contact with the ground or floor. If the service provider is unsure of having a high quality conductive contact with the floor or ground, then the procedure described in Paragraph 073.03.c. shall be followed. If necessary, corrosion shall be removed from the point(s) where test lead(s) make contact with metal equipment.
b. When using an in-line milliammeter or a clamp-around milliammeter to measure current between contact points and one (1) of those points is the floor surface or earth, the equipment shall be arranged as shown in Figure 3, using a metal plate which shall make high quality conductive contact with the ground or floor. If the service provider is unsure of having a high quality conductive contact with the floor or ground, then the procedures described in Paragraph 073.03.c. shall be followed. If necessary, corrosion shall be removed from the point(s) where test lead(s) make contact with metal equipment.
c. A metal plate used to make an electrical contact with the earth or floor shall be of regular shape (square, rectangular or round), and shall have a surface area equal to or greater than sixteen (16) square inches (4 inches x 4 inches or equivalent). Place a weight not less than twenty (20) pounds on the metal plate. This weight shall be applied evenly across the metal plate and not to the adjacent concrete or earth. Place the metal plate a minimum distance of twelve (12) inches from any metal equipment making contact with the floor or earth. (4-11-06)

i. Where the metal plate is to be placed on a concrete floor, the surface shall be flat. Clean the floor surface with a wire brush to remove debris that may add excess resistance. Use water to clean the floor surface at the point where the metal plate will be placed. Place a paper towel or similar material soaked in saltwater between the metal plate and the concrete floor. (4-11-06)

ii. Where the metal plate is to be placed on the ground or earth surface, the surface shall be flat. Remove any debris and add water to the area, if necessary, to dampen the soil. The surface of the metal plate that will make contact with the earth shall be clean and free of corrosion before use. Remove any corrosion, if necessary. (4-11-06)

04. Recording the Data. The person conducting this test shall record the location of, and measured values at, each test point. At each cow contact location, an open circuit voltage reading (Voc) and a voltage with five hundred (500) ohm nominal shunt resistor placed across the input to the meter (Vshunt) shall be taken. These readings shall be taken with ten (10) seconds or less time between each reading. Alternatively, a current measurement (Ishunt) may be taken in place of the voltage reading (Vshunt). Data for these test points shall be recorded on the form in Appendix 1. (4-11-06)

05. Source Resistance Calculation. The source resistance (Rsource) shall be calculated for each cow contact location measured and the value recorded in Appendix 1. The following formulas shall be used to calculate source resistance.

\[
R_{source} = \frac{V_{oc} - V_{shunt}}{V_{shunt}} \times R_{shunt}
\]

\[
R_{source} = \frac{V_{oc}}{I_{shunt}} - R_{shunt}
\]

074. TEST 2 -- FORTY-EIGHT HOUR TEST (RULE 74).

01. Purpose. The purpose of this test is to determine whether stray current or voltage exceeds the preventive action level (PAL) at selected location(s) over a forty-eight (48) hour period, subject to Subsection 074.06 and Paragraph 071.02.d. The test also demonstrates whether the primary or secondary sides of the system have a specific impact on the recorded current or voltage at specific times of day. (4-11-06)

02. Setup. A digitizing data recorder with averaging capability and capable of detecting and recording transient deviations of one-tenth (0.1) second or less in duration shall be used to record the following: (4-11-06)

a. Voltage from primary neutral at the transformer to remote reference ground, Vp. (4-11-06)

b. Voltage from secondary neutral in the service panel serving the area of the cow contact to remote reference ground, Vs. (4-11-06)

c. Voltage drops (Vps) from primary neutral at the location of connection for Vp to secondary neutral at the location of the connection for Vs. (4-11-06)

d. Cow contact current through (Icc) or voltage across a five hundred (500) ohm resistor at the high
voltage point(s) found in Test 1, Vcc. (4-11-06)

03. Measurement Interval. The results of the forty-eight (48) hour test may be highly indicative of the presence of stray voltage. A recording interval as high as ten (10) seconds may be used provided that transient deviations of voltage or current of one-tenth (0.1) second or less in duration of voltage or current are recorded to the maximum ability of the instrument. (4-11-06)

04. Measurement at the Cow Contact Point(s). Measurements to the earth or concrete surface shall be to a metal plate as described in Paragraph 073.03.c. When making measurements to metal objects, corrosion shall be removed to obtain a low resistance connection. (4-11-06)

05. Recording the Data. All of the data gathered by the recording equipment during the forty-eight (48) hour test including transients shall be downloaded and retained with the records of the investigation. In addition, the steady-state data shall be summarized in the investigation report. The recorded data shall be made available to the dairy producer or utility upon request. The person conducting this test shall record the location, and measured values at, each test point. The identification of the cow contact point shall be recorded on the form in Appendix 2. Transient deviations shall be recorded on the supplemental data form, page 3 of 3 in Appendix 2. A plot of the voltage versus time may be substituted for the recording of measured values in Appendix 2. (4-11-06)

06. Reduced Recording Period. If a qualified analyst concludes that remediation by the utility is required under Paragraph 071.02.d. prior to the completion of a forty-eight (48) hour recording period, the recording period may be reduced to no fewer than twenty-four (24) hours. (4-11-06)

075. TEST 3 -- PRIMARY PROFILE TEST (RULE 75).

01. Purpose. The purpose of this test is to measure or calculate neutral-to-earth voltage (NEV) for a multi-grounded distribution system. (4-11-06)

02. Conducting the Test. The primary profile test requires concurrent measurement of the ground electrode resistance and current at all primary system ground points within three quarters (3/4) of a mile on either side of all primary service points serving the dairy, or to the end of the line if less than three quarters (3/4) of a mile. Alternatively, the voltage between a remote grounding rod and the primary ground point being tested may be measured.

a. This test shall be conducted starting at one (1) end of the distribution system and working toward the other end along the main primary distribution system. Figure 4 below illustrates the procedure. (4-11-06)

i. Where the dairy is served by a dedicated tap of less than one-half (1/2) mile in length from a distribution line, the neutral-to-earth voltage shall be measured at each primary ground along the tap and on the distribution line to a distance of three-quarters (3/4) of a mile in each direction from the point of the tap; or (4-11-06)

ii. Where a dairy is served by a dedicated tap that extends more than one-half (1/2) mile from the distribution line, the neutral-to-earth voltage shall be measured at each primary grounding electrode along the tap and on the distribution line to a distance of one-half (1/2) mile in each direction from the point of the tap. (4-11-06)

03. Recording the Data. The person conducting this test shall record the location of, and measured values at, each test point. Data and calculation results for these test points shall be recorded on the form in Appendix 3.
076. TEST 4 -- SECONDARY NEUTRAL VOLTAGE DROP TEST (RULE 76).

01. Purpose. This test is used to determine the impact of each secondary service on the neutral-to-earth (NEV) and cow contact voltages on the dairy under controlled conditions. (4-11-06)

02. Conducting the Test. This test shall be performed for all service entrances. A proxy load of known characteristics (such as a resistive load like a one hundred twenty (120) volt, fifteen hundred (1,500) watt hairdryer) is required for this test. The proxy load must create a known and stable current and subsequent voltage drop for each neutral serving a main panel, sub-panel or end-of-service area. All service entrances other than that being tested shall be turned “off” to perform this test. A diagram showing the connections and measurement points for this test is shown in Figure 5.
03. **Data Collection.** The following data shall be collected for each secondary neutral tested:

a. Gauge and type of neutral wire.

b. Length of neutral wire.

c. Neutral current, Isn.

d. Voltage drop (\(V_{\text{DropM}}\)) between both ends of the secondary neutral being tested.

e. Cow contact voltage (Vcc) or current (Icc) at the same points used in the forty-eight (48) hour test.

f. Primary neutral at the transformer to reference ground voltage, Vp.

g. Secondary neutral to reference ground voltage, Vs.

04. **Measurements.** The three (3) voltages (Vcc, Vp and Vs) shall be measured with the proxy load "off" and "on." Calculated expected voltage drops (\(V_{\text{DropC}}\)) (see Appendix 4) shall be compared with measured voltage drops (\(V_{\text{DropM}}\)). If the measured and calculated voltage drops differ significantly, further investigation shall be undertaken to determine the source of additional voltage drop within the circuit. Neutral current shall be measured and recorded with the proxy load on (Isn).

05. **Recording the Data.** Any person conducting this test shall record the location of, and measured values at, each test point. Data and calculation results for these test points shall be recorded on the form in Appendix 4.

**TEST 5 -- THE LOAD BOX TEST (RULE 77).**

01. **Purpose.** This test is used to determine the extent to which the primary system contributes to stray
current or voltage at cow contact points. For dairies with three (3) phase balanced primary service, the service provider shall perform Steps One and Two in Paragraph 077.02.b. below.

02. **Conducting the Load Box Test.** This test shall be performed at the same time of day as the time(s) of highest cow contact voltage found in the forty-eight (48) hour test. During this test, voltage and current shall be measured and recorded at the points indicated in Figure 6.

![Load Box Test Diagram](image)

**Figure 6, Load Box Test.**

- **a.** The load box test requires the recording of eight (8) data points during each of the five (5) test steps. The eight (8) data points that shall be measured or calculated and recorded for each step are:
  - i. Primary line to neutral voltage, $V_{pri}$.
  - ii. Load Box Current, $I_{lb}$.
  - iii. Voltage at load box connection to secondary system, $V_{lb}$.
  - iv. Calculate transformer current $I_p$ using $I_p = \frac{I_{lb} \times V_{lb}}{V_{pri}}$.
  - v. Voltage from primary neutral at the transformer to remote reference ground rod, $V_p$.
  - vi. Voltage from secondary neutral in the service panel serving the area of the cow contact to remote reference ground rod, $V_s$.
  - vii. Voltage from primary neutral at the transformer to secondary neutral at the service panel serving the area of cow contact, $V_{ps}$.
  - viii. Cow contact voltage ($V_{cc}$) or current ($I_{cc}$) at the same point(s) used in the forty-eight (48) hour test.
b. Except for dairies with three (3) phase balanced primary service, the following five (5) test steps shall each be conducted for at least two (2) minutes:

i. Step One: The load box shall be de-energized, the dairy shall remain “on,” and the data shall be recorded. (4-11-06)

ii. Step Two: The load box shall be de-energized, the dairy shut “off,” and the data shall be recorded. (4-11-06)

iii. Step Three: The load box shall be set to half load, the dairy shut “off,” and the data shall be recorded. (4-11-06)

iv. Step Four: The load box shall be set to full load, the dairy shut “off,” and the data shall be recorded. (4-11-06)

v. Step Five: The load box shall be set to full load, the dairy shall be turned “on,” and the data shall be recorded. (4-11-06)

03. Calculating the K Factor. The K factor is a calculated ratio (Vcc/Vs). The K factor should be less than one (1) because Vcc (cow contact voltage) should be less than Vs (the dairy ground to reference ground voltage). If the K factor is greater than one (1), then there is contribution to Vcc from sources other than Vs. (4-11-06)

04. Recording the Data. The person conducting this test shall record the location of, and measured values at, each test point. Data and calculation results for these test points shall be recorded on the form in Appendix 5. (4-11-06)

078. TEST 6 -- SIGNATURE TEST (RULE 78).

01. Purpose. This test is used to determine the contribution to stray current or voltage of individual pieces of equipment operating on the dairy. The test is best performed when there is minimal farm electrical activity. (4-11-06)

02. Conducting the Signature Test. During this test, individual pieces of major current drawing equipment shall be started and stopped. The effects of starting, operating, and stopping each piece of equipment shall be measured and recorded for a period of operation of at least fifteen (15) seconds. The person conducting the test shall identify and record the equipment being tested and record the specific times that the equipment was started and stopped. A digitizing data recorder with averaging capability shall be used to measure and record the required electrical data. These measurements shall be taken at the same locations at the dairy where measurements were taken for the purpose of the load box test and forty-eight (48) hour test. (4-11-06)

a. Voltage from primary neutral at the transformer to remote reference ground rod, Vp. (4-11-06)

b. Secondary neutral at the service panel serving the area of cow contact to remote reference ground voltage, Vs. (4-11-06)

c. Primary neutral voltage drop (Vps) from the location of connection for Vp to secondary neutral voltage at the location of the connection for Vs. (4-11-06)

d. Cow contact voltage (Vcc) or current (Icc) at the preselected point. (4-11-06)

03. Recording the Data. All of the data gathered by the recording equipment during the signature test, including transients shall be downloaded and retained with the records of the investigation. In addition, the steady state data shall be summarized in the investigation report. The recorded data shall be made available to the dairy producer or utility upon request. The location of all test point(s) shall be recorded on the form in Appendix 6. A plot of the voltage versus time may be substituted for the recording of measured values on Appendix 6. (4-11-06)

079. -- 080. (RESERVED)
081. ANALYZING THE COLLECTED DATA (RULE 81).

01. Cow Contact Points. Examine the data recorded for the forty-eight (48) hour test in Appendix 2 and determine the highest steady state value of cow contact voltage (Vcc) or current (Icc). Determine the value of primary neutral to reference voltage (Vp) that was present for the highest cow contact value. Record these values on the data sheet of Appendix 7. These values shall be identified as “test cow contact voltage or current” (Vcc 48hr or Icc 48hr) and “primary neutral to reference voltage at time of maximum cow contact voltage or current” (Vp 48hr). The three (3) data sets created from the values are:

   a. The primary to reference ground voltage and the cow contact voltage or current measured during the load box test (Appendix 5) with the farm power “off” and the load box “off” shall be recorded on the data sheet of Appendix 7 as Vp OFF and either Vcc OFF or Icc OFF.

   b. The primary to reference ground voltage and the cow contact voltage or current measured with the load box set at one-half (1/2) load shall be recorded on the data sheet of Appendix 7 as Vp HALF LOAD and either Vcc HALF LOAD or Icc HALF LOAD.

   c. The primary to reference ground voltage and the cow contact voltage or current measured with the load box at maximum shall be recorded on the data sheet of Appendix 7 as Vp FULL LOAD and either Vcc FULL LOAD or Icc FULL LOAD.

02. Contributions to Stray Voltage or Current for Single Phase Dairies. The utility contribution to cow contact voltage or current shall be determined using the following formula. Compare the values determined to the preventive action level (PAL).

   Utility contribution to cow contact voltage = \[ \frac{V_{p48} - V_{p\text{HALF}}}{V_{p\text{FULL}} - V_{p\text{HALF}}} \times (V_{cc\text{ FULL}} - V_{cc\text{ HALF}}) + V_{cc\text{ HALF}} \]

   or

   Utility contribution to cow contact current = \[ \frac{V_{p48} - V_{p\text{HALF}}}{V_{p\text{FULL}} - V_{p\text{HALF}}} \times (I_{cc\text{ FULL}} - I_{cc\text{ HALF}}) + I_{cc\text{ HALF}} \]

03. Contributions to Stray Voltage or Current for Three Phase Dairies. The utility contribution to cow contact voltage or current for dairies with three (3) phase balanced load service, shall be determined by directly using the results of the load box test results for Step 1 and Step 2 as specified in Paragraph 077.02.b.

   a. The Vcc measured during Step 1 of the load box with the load box “off” and the dairy “on” will be the total Vcc.

   b. The Vcc measured during Step 2 of the load box test with the load box “off” and the dairy “off” is the contribution to Vcc from the utility, Vccutility.

   c. The contribution to Vcc by the dairy is the difference between Vcc and Vccutility, Vccdairy = Vcc - Vccutility.

082. REPORTING (RULE 82).
Within a reasonable period of time after completion of any tests required to be performed by the utility under these rules, a qualified analyst shall prepare a written report. The report shall include a summary of the tests performed, a
copy of the sketch or drawing of the dairy prepared pursuant to Section 072, all of the data or results obtained from
the tests, and an analysis of the data or results obtained from the tests. If remediation was required under these rules,
the report shall specify the actions taken or to be taken. The utility shall provide a copy of the written report to the
dairy producer. (4-11-06)

083. -- 090. (RESERVED)

REMEDIAL ACTIONS AND COMMISSION PROCEEDINGS
RULES 91 THROUGH 92

091. REMEDIATION (RULE 91).

01. Utility System. If the utility is required to conduct remediation, it shall commence such
remediation within five (5) business days. The utility shall diligently pursue to completion remedial procedures
which shall reduce, and are reasonably likely to sustain, that portion of the stray current or voltage attributable to the
utility’s distribution system to a level equal to or less than fifty percent (50%) of the preventive action level (PAL).
This may include addressing other off-dairy sources. (4-11-06)

02. Other Dairies, Farms and Industrial Sites. If a utility’s contribution to stray voltage exceeds fifty
percent (50%) of the preventive action level (PAL) and the utility determines that another customer is a significant
contributing source of stray voltage, the utility shall notify both the dairy and the other customer in writing. (4-11-06)

092. COMMISSION PROCEEDINGS (RULE 92).

01. Filing with the Commission. All petitions seeking relief under Section 61-805, Idaho Code, shall
be filed with the Commission Secretary pursuant to Section 005. Petitions shall conform to IDAPA 31.01.01, “Rules
of Procedure of the Idaho Public Utilities Commission,” Section 053. The petitioner shall file an original and five (5)
copies of the petition. (4-11-06)

02. Contents of Petition. The petition shall conform to IDAPA 31.01.01, “Rules of Procedure of the
Idaho Public Utilities Commission,” Section 053. The petition shall contain background information, the date the
notice was filed with the serving utility, a description of the alleged incident(s) of non-compliance with the Stray
Current and Voltage Remediation Act, and the remediation actions (if any) undertaken by either the utility or the
dairy. A copy of the utility’s entire stray voltage report shall accompany the petition. (4-11-06)

093. -- 999. (RESERVED)

TEST 1 – COW CONTACT POINT DATA FORM INSTRUCTIONS

1. The total information provided by the contact point identification, the contact point description, and the dairy sketch(es) shall be sufficient to allow a third party to accurately repeat the test locating the correct cow contact points for a specific contact voltage.

2. The voltages measured in this test shall be determined using the same instrument(s) for both data points. One reading shall be taken immediately following the other using the same meter.

3. The actual source resistance is calculated from the known shunt resistance and the measured voltage.

4. Record comments as appropriate or necessary.

\[
R_{\text{source}} = \frac{V_{oc} - V_{\text{shunt}}}{V_{\text{shunt}}} \times R_{\text{shunt}}
\]

or

\[
R_{\text{source}} = \frac{V_{oc}}{I_{\text{shunt}}} - R_{\text{shunt}}
\]

TEST 2 - “48-HOUR” TEST REPORT FORM 1 INSTRUCTIONS

Record the following data with a long term digitizing data recorder or its equivalent for a minimum of 48 hours as specified in Rule 074:

a. Voltage from primary neutral to remote reference ground, Vp, at transformer.

b. Secondary neutral to remote reference ground voltage, Vs, at the electrical panel serving the area for the Vcc or Icc selected.
c. Primary neutral to secondary neutral voltage, \( V_{ps} \), between points of connection for \( V_p \) and \( V_s \).

d. Steady state cow contact voltage or current at the preselected point(s) with the highest cow contact voltage or current recorded in Test 1, \( V_{cc} \) or \( I_{cc} \).

Steady State Data:

Steady state data recorded during the 48-hour test shall be presented in tabular format on Form 1 as described below, or it shall be presented graphically. Graphical presentation shall include a time scale for the entire recording period and a clear indication of the steady state readings of \( V_{cc} \) or \( I_{cc} \), \( V_p \), \( V_s \) and \( V_{ps} \) for the recording intervals. The scale(s) shall be such that steady state cow contact voltages or currents at or above the PAL are easily identifiable.

If using tabular format, the analyst shall enter data in the table for each hour of the 48 hours of the test in chronological order. The data recorded in the table shall include: the specific time that the highest steady state value of \( V_{cc} \) or \( I_{cc} \) was recorded in that hour; all four corresponding data points recorded at that time (\( V_p \), \( V_s \), \( V_{ps} \) and \( V_{cc} \) or \( I_{cc} \)), and the total time during the hour that the steady state \( V_{cc} \) or \( I_{cc} \) exceeded the PAL.

### TEST 2 – REPORT FORM 2
SUPPLEMENTAL DATA FOR FARM OWNER
TRANSIENT DEVIATIONS FOUND DURING “48-HOUR” TEST

Customer Name: \( \quad \) Date: \( \quad \)
Start Time: \( \quad \) Stop Time: \( \quad \)
Contact Point Identifier Number: \( \quad \)

<table>
<thead>
<tr>
<th>Hour</th>
<th>Time of Highest Peak ( V_{cc} ) (Icc)</th>

<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Transient deviations occur due to electrical events such as motor starts. The PAL level is 1.0 volt for steady state voltages but PAL does not apply to transient voltage deviations.

### TEST 2 - “48-HOUR” TEST REPORT FORM 2
INSTRUCTIONS

Recording Transient Data:

For the purpose of identifying and reporting transient deviations, a transient deviation occurs when the recorded maximum \( V_{cc} \) or \( I_{cc} \) in a recording interval exceeds two hundred percent (200%) of the steady state \( V_{cc} \) or \( I_{cc} \) recording during the same recording interval.

Transient data recorded during the 48-hour test shall be presented in tabular format on the “48-hour Test – Transient Deviation Data” form as described below, or it shall be presented graphically. Graphical presentation shall
include a time scale for the entire recording period and a clear indication of the maximum Vcc or Icc recorded for the recording intervals. The scale(s) shall be such that Vcc transient deviations at or above two (2.0) volts, or Icc transient deviations at or above four (4) milliamps, are easily identifiable.

If using a tabular format, the analyst shall enter data in the table for each hour of the 48 hours of the test in chronological order. The data recorded in the table shall include: the specific time during the hour that the transient deviation in Vcc or Icc with the largest peak magnitude occurred, the corresponding peak Vcc or Icc, the total number of transient deviations recorded in that hour, and the total number of transient deviations recorded in that hour with a peak magnitude of two (2) or more volts for Vcc or four (4) or more milliamps for Icc.

### APPENDIX 3

**TEST 3 – PRIMARY PROFILE DATA FORM**

**Dairy Name:**

**Dairy Location:**

**Date:**

<table>
<thead>
<tr>
<th>Item</th>
<th>Pole Location &amp; Identification</th>
<th>Time</th>
<th>Current Primary Ground Ipg</th>
<th>Resistance Primary Ground Rpg</th>
<th>Calculated Voltage (primary neutral-to-earth) Vpne</th>
<th>Measured Voltage (primary neutral-to-earth) Vpne</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>
ITEM EXPLANATION

A-J Describe load site location, neutral wire gauge, neutral wire length (in 100s of feet), resistance per 100 feet (see table below), measured neutral current, measured voltage drop, Vp, Vs and Vcc or Icc for load “off” and load “on.”

Voltage drop is measured from end-to-end of the secondary neutral being tested and the neutral bus of the building being tested. Electrical power to all buildings shall be turned-off during this test except at the building being tested. Locations of Vp, Vs and Vcc or Icc are the same as measured during the previous tests.

Calculate the total circuit resistance. Calculate using Ohm’s Law, the expected neutral voltage drop. Calculate the absolute value of the difference and divide by the expected voltage drop. Express this as a percentage. If the two values (measured voltage drop and calculated voltage drop) do not agree, further investigation is warranted to discover the reason for the discrepancy.

| F | Total Resistance (D times E) | Ω |
| G | Measured Neutral Current, Isn | A |
| H | Calculated Voltage Drop, VDropC | V |
|   | (F times G)                  |   |
| I | Measured Voltage Drop, VDropM | V |
| J | Percent difference [(H-I)/H]*100 | % |
| Vp load “off” | V |
| Vs load “off” | V |
| Vcc load “off” | V |
| Icc load “off,” if measured | |
| Vp load “on” | V |
| Vs load “on” | V |
| Vcc load “on” | V |
| Icc load “on,” if measured | |

**TEST 5 - LOAD BOX TEST**

**INSTRUCTIONS**

Note 1: Testing may be accomplished by a single 18/25 kW load box or a dual element 9/18 or 12.5/25 kW load box. The difference between full load and half load measurements is used in most calculations.

Note 2: If the dairy is found in an isolated condition, two load box tests must be performed: an isolated test and a non-isolated test.

Note 3: If the dairy is served by a three-phase system, measure and record only the dairy-off, load box off column and the dairy-on, load box off column or test only one phase of the three.

**ITEM EXPLANATION**

#

1. Enter date and customer name.

2. Attach load box to the 240-volt secondary side of transformer. Turn on load box and measure current and voltage and record on data sheet, Appendix 5.

3. Conduct load box test and for each step measure and record Vp, Vs, Vps and Vcc or Icc. Each step shall be maintained for approximately two minutes with the highest reading during that time interval recorded.

   - **Step 1** Farm power is “on” with load box “off”
   - **Step 2** Farm power is “off” with load box “off”
   - **Step 3** Farm power is “off” with load box “on” at half load
   - **Step 4** Farm power is “off” with load box “on” at full load
   - **Step 5** Farm power is “on” with load box “on” full load

4. Remove load box and restore normal power to the farm.

APPENDIX 7

PREVENTIVE ACTION LEVEL RESULTS

Enter the highest value of cow contact voltage or current that occurred during the 48-hour test from Appendix 2, and corresponding primary to reference ground voltage.
Enter the value of cow contact voltage or current and corresponding primary to reference ground voltage that was present during the load box test with the farm power off and the load box off:

\[ V_{p\text{ OFF}} : \_\_\_\_\_\_ \ V \ V_{cc\text{ OFF}} : \_\_\_\_\_\_ \ V \ or \ I_{cc\text{ OFF}} : \_\_\_\_\_\_ \ A \]

Enter the value of cow contact voltage or current and corresponding primary to reference ground voltage that was present during the load box test with the farm power off and the load box set at half load:

\[ V_{p\text{ HALF LOAD}} : \_\_\_\_\_\_ \ V \ V_{cc\text{ HALF LOAD}} : \_\_\_\_\_\_ \ V \ or \ I_{cc\text{ HALF LOAD}} : \_\_\_\_\_\_ \ A \]

Enter the value of cow contact voltage or current and corresponding primary to reference ground voltage that was present during the load box test with the farm power off and the load box at maximum:

\[ V_{p\text{ FULL LOAD}} : \_\_\_\_\_\_ \ V \ V_{cc\text{ FULL LOAD}} : \_\_\_\_\_\_ \ V \ or \ I_{cc\text{ FULL LOAD}} : \_\_\_\_\_\_ \ A \]

Calculations:

Utility Contribution to Cow Contact Voltage:

\[ V_{\text{p 48hr}} : \_\_\_\_\_\_ \ V \ V_{\text{cc 48hr}} : \_\_\_\_\_\_ \ V \ or \ I_{\text{cc 48hr}} : \_\_\_\_\_\_ \ A \]

\[ V_{p48hr} = \frac{V_{p\text{ 48hr}} - V_{p\text{ HALF}}}{V_{p\text{ FULL}} - V_{p\text{ HALF}}} \times (V_{cc\text{ FULL}} - V_{cc\text{ HALF}}) + V_{cc\text{ HALF}} \]

Utility contribution to cow contact voltage = \_\_\_\_\_\_ \ V

Utility contribution to cow contact voltage as a percentage of \[ V_{cc\text{ 48hr}} = \_\_\_\_\_\_ \ % \]

Utility contribution to cow contact voltage as a percentage of PAL = \_\_\_\_\_\_ \ %

Utility Contribution to Cow Contact Current:

\[ I_{\text{p 48hr}} = \frac{I_{p\text{ 48hr}} - I_{p\text{ HALF}}}{I_{p\text{ FULL}} - I_{p\text{ HALF}}} \times (I_{cc\text{ FINAL}} - I_{cc\text{ HALF}}) + I_{cc\text{ HALF}} \]

Utility contribution to cow contact current = \_\_\_\_\_\_ \ mA (milliamps)

Utility contribution to cow contact current as a percentage of \[ I_{cc\text{ 48hr}} = \_\_\_\_\_\_ \ % \]

Utility contribution to cow contact current as a percentage of the PAL = \_\_\_\_\_\_ \ %

See Section 071.02 for required actions based on these results.
IDAPA 31
TITLE 71
CHAPTER 01

31.71.01 – RAILROAD CLEARANCE RULES

000. LEGAL AUTHORITY (RULE 0).

001. TITLE AND SCOPE (RULE 1).
The title of these rules is “Railroad Clearance Rules.” The scope of these rules is that they determine railroad clearance standards for all railroad track located in Idaho. (7-1-93)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
There are no administrative appeals under these rules. All requests for exemptions or waivers should be submitted directly to the Commission in accordance with the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (7-1-93)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
All requests for waivers of these rules are public records subject to inspection, examination and copying under the Public Records Act. All informal complaints concerning compliance with these rules are investigatory records exempt from disclosure under the Public Records Act. All formal complaints concerning compliance with these rules are public records subject to inspection, examination and copying under the Public Records Act. (7-1-93)

005. DEFINITION (RULE 5).

01. Height of a Freight Car. “Height of a freight car” is the distance between the top of rail and the highest point of the car. (7-1-93)

02. Icing Platform. “Icing platform” includes structures used in performing the service of icing, cooling, heating, ventilating and servicing of cars used in the handling of commodities requiring these services. (7-1-93)

03. Overhead Clearance. “Overhead clearance” is that distance measured along a line which is perpendicular to and joins a horizontal plane passing through the top of the highest rail and the lowest point of the structure of obstruction overhead. (7-1-93)

04. Side Clearance. “Side clearance” is the shortest distance from centerline of track to a structure or obstruction at the side of the track. (7-1-93)

05. Track Clearance. “Track clearance” is the shortest horizontal distance between the centerlines of adjacent tracks. (7-1-93)

06. Width of a Freight Car. “Width of a freight car” is twice the distance from the center line of the car to its extreme outside part. (7-1-93)

006. -- 007. (RESERVED)

008. EXEMPTIONS (RULE 8).
Exemptions from any of the requirements of these rules will be considered by the Commission upon proper application or notice from the carriers, industries, or other interested persons. An application for exemption must be
accompanied by a full statement of the conditions existing and the reasons why the exemption is requested. Any exemption granted shall be limited to the particular case covered by the application. (7-1-93)

009. EMERGENCIES (RULE 9).
No restricted clearance in these rules shall apply to falsework, shoo-fly tracks, or other temporary emergency conditions caused by derailments, wash-outs, slides, or other unavoidable accidents or disasters. No restricted clearance in these rules shall apply to ballast, track material or construction material unloaded on and adjacent to tracks for use there or in the immediate vicinity, nor shall it apply to false work or temporary construction necessary on any construction project. (7-1-93)

010. MODIFICATIONS (RULE 10).
The Commission reserves the right to modify, in accordance with its Rules of Procedure, IDAPA 31.01.01.000 et seq., any of the provisions of these rules. (7-1-93)

011. -- 050. (RESERVED)

APPLICABILITY OF CLEARANCES
RULES 51 THROUGH 100

051. OVERHEAD CLEARANCE -- APPLICABILITY (RULE 51).
Overhead clearances authorized in these rules are applicable to tracks on which freight cars having a height from the top of the rail to the highest point of the car of fifteen feet six inches (15'6") or less are transported. In the case of cars or loads exceeding fifteen feet six inches (15'6"), the overhead clearance provisions and excess height provisions of Rules 501 through 502 and 601 through 607 must be complied with unless the railroad prohibits its personnel from occupying the top of freight cars in train service. (7-1-93)

052. EXCEPTION TO OVERHEAD CLEARANCE RULES (RULE 52).
Overhead impairments will be granted without application or a hearing upon consent of the operating railroad, provided that the National Electric Safety Code, as adopted by this Commission at the time in question, is not violated. Overhead impairments created by the railroad, not violating the National Electrical Safety Code, as adopted by this Commission at the time in question, will not require a variance from this Commission. Notice of the impairment and condition must be given to the Commission by letter. (7-1-93)

053. SIDE CLEARANCES (RULE 53).
Side clearances authorized in these rules are applicable to tracks on which freight cars having an overall width not greater than ten feet ten inches (10'10") are transported. In the case of cars or loads exceeding ten feet ten inches (10'10"), Rules 501 through 502 and 601 through 607 must be complied with. (7-1-93)

054. -- 100. (RESERVED)

SPECIAL PROVISIONS
RULES 101 THROUGH 200

101. FACILITIES EXISTING BEFORE APRIL 1, 1955 (RULE 101).
All structures, operating appurtenances, pole lines, service facilities and track arrangements existing before April 1, 1955, shall be exempt from these rules except as provided by these rules. (7-1-93)

102. CHANGES IN EXISTING TRACKS (RULE 102).
No change in track location or elevation shall be made which will reduce existing vertical or horizontal structural clearance below the minimums specified in these rules. (7-1-93)

103. REPAIRS TO EXISTING STRUCTURES (RULE 103).
No repair or maintenance work shall be done on structures, facilities or appurtenances adjacent to tracks which will reduce existing vertical or horizontal structural clearance below the minimum specified in these rules. (7-1-93)

104. EXISTING STRUCTURES NOT COMPLYING WITH THESE RULES (RULE 104).
Where a structure existing before April 1, 1955, does not provide clearance equal to the minimum that is required by
these rules, the portion of the structure producing the impaired clearance may be repaired and maintained by partial replacements. In no case shall the clearance available after April 1, 1955, be reduced. (7-1-93)

105. REPLACEMENT OF STRUCTURES NOT COMPLYING WITH THESE RULES (RULE 105). When the owner shall replace it its entirety the portion of a structure which does not meet the clearance standards of these rules, the rebuilt portion must meet the full standard clearance of these rules unless otherwise ordered by the Commission. (7-1-93)

106. EXISTING TRACKS (RULE 106). Existing tracks of all kinds may be maintained by reballasting, resurfacing and replacing rails and ties. Where existing yards are completely replaced or are partially replaced as a unit or section of a master plan, the arrangement must meet the provisions of these rules both as to track centers and clearance to structures and other facilities being built in connection with and as a part of such plan. Existing structures which are to remain and which do not provide the minimum clearance with respect to the proposed new tracks must be approved by the Commission for exemption from the terms of these rules. (7-1-93)

107. EXISTING TRACKS NOT MEETING CLEARANCE STANDARDS (RULE 107). Tracks laid before April 1, 1955, having less vertical clearance than required by the rules may be maintained, but the top of rail may not be raised without raising the overhead structure an equal distance to maintain the existing available clearance. Tracks laid before April 1, 1955, having less horizontal clearance between them than required by these rules for new construction, or having less horizontal clearance to structures than required by these rules, may be maintained, but they may not be shifted horizontally to reduce either the existing track centers or the existing structural clearance. (7-1-93)

108. ENGINE HOUSE AND SHOP FACILITIES (RULE 108). The clearances provided in these rules shall not apply to railroad’s engine houses, engine house facilities and shop buildings. (7-1-93)

109. -- 200. (RESERVED)

OVERHEAD CLEARANCES RULES 201 THROUGH 300

201. OVERHEAD CLEARANCE IN GENERAL (RULE 201). The allowable clearances are: (7-1-93)

01. Begun, Installed or Constructed After April 1, 1955. For structures, operating appurtenances, pole lines, service facilities and track arrangements begun, installed or constructed after April 1, 1955, and before September 1, 1980 twenty-two feet six inches (22’6”). (7-1-93)

02. Begun, Installed or Constructed After September 1, 1980. For structures, operating appurtenances, pole lines, service facilities and track arrangements begun, installed or constructed after September 1, 1980, the vertical clearance required by the owner of the railroad tracks or twenty-two feet six inches (22’6”), whichever is greater. (4-5-00)

03. Structures on Main Lines. For structures on main lines identified by railroad for possible electrification: (7-1-93)

a. At twenty-five (25) kilovolts twenty-four feet three inches (24’3”); or (7-1-93)

b. At fifty (50) kilovolts twenty-six (26’2”) feet. (7-1-93)

202. OVERHEAD CLEARANCE IN BUILDINGS (RULE 202). The general rule is that side clearances must be at least eighteen (18’) feet. The overhead clearance inside an entirely enclosed building may be reduced to eighteen (18’) feet, provided that this clearance shall apply only to tracks terminating within the building or in the immediate plant area if the track extends through the building, and further provided, that when an overhead clearance in the building is less than twenty-two feet six inches (22’6”), all cars,
locomotives or other equipment shall be brought to a stop before entering the enclosed building. (7-1-93)

203. **OVERHEAD CLEARANCE IN TUNNELS AND BRIDGES (RULE 203).**
Minimum overhead clearance in tunnels and through bridges may be decreased to the extent defined by the half-circumference of a circle having a radius of eight (8') feet and tangent to a horizontal line twenty-two feet six inches (22'6") above top of rail at a point directly above the centerline of track. (7-1-93)

204. **DECREASES IN OVERHEAD CLEARANCES PRESCRIBED IN RULE 201 (RULE 204).**
Minimum overhead clearance as prescribed in Rule 201 may be decreased to the extent defined by the half-circumference of a circle having a radius of eight feet six inches (8'6") and tangent to a horizontal line at the height prescribed by Rule 201 above the top of rail at a point directly over the centerline of track. (7-1-93)

205. -- 300. (RESERVED)

### SIDE CLEARANCES
RULES 301 THROUGH 400

301. **SIDE CLEARANCE IN GENERAL (RULE 301).**
The general rule is that side clearances must be at least eight feet six inches (8'6"). To further reduce operational hazards, it is recommended that, wherever practicable, all posts, pipes, warning signals and other small obstructions be given a side clearance of ten (10') feet. (7-1-93)

302. **SIDE CLEARANCE AT PLATFORMS (RULE 302).**

01. **Eight Inches.** Eight (8") inches or less above top of rail -- four feet eight inches (4'8"). (7-1-93)

02. **Four Feet.** Four (4') feet or less above top of rail -- seven feet three inches (7'3"). (7-1-93)

03. **Four Feet Six Inches.** Four feet six inches (4'6") or less above top of rail when used principally for loading or unloading refrigerator cars if constructed after April 1, 1955, but before September 1, 1980 -- eight (8) feet, if constructed after September 1, 1980 -- eight feet six inches (8'6"). (7-1-93)

04. **Platforms.** Platforms complying with Subsection 302.01 of this rule may be combined with those complying with Subsections 302.02 and 302.03, provided that the lower platform presents a level surface from a point not more than four feet eight inches (4'8") from centerline of track to the face of the wall of the platform with which it is combined. No other combinations will be permitted. (7-1-93)

303. **ICING PLATFORMS AND SUPPORTS (RULE 303).**
The general rule is that icing platforms and supports must have side clearances of at least six feet eight inches (6'8"). The dimension of six feet eight inches (6'8") shall apply to the platform at eave height of car. The supports of this platform shall provide clearance of eight (8') feet if constructed after April 1, 1955, but before September 1, 1980, and eight feet six inches (8'6") if constructed after September 1, 1980. (7-1-93)

304. **PLAT FORMS OTHER THAN ABOVE (RULE 304).**
The general rule is that platforms not listed in earlier rules must have side clearance of at least eight feet six inches (8'6"). Retractable platforms, either sliding or hinged, which are attached to a permanent structure must be so constructed that, when retracted or in nonworking position and firmly secured or anchored, the resulting clearance shall not be less than the clearances provided in these rules. (7-1-93)

305. **EXTENSION OF EXISTING PLATFORMS (RULE 305).**
Platforms which were constructed at prevailing clearances or clearances then authorized by this Commission’s rules may be extended at existing clearances. (7-1-93)

306. **SIDE CLEARANCE -- BRIDGES AND TUNNELS (RULE 306).**
The general rule is that side clearances for bridges and tunnels must be at least eight (8’) feet. (7-1-93)

307. **BRIDGES AND TUNNELS -- UPPER SECTION (RULE 307).**
IDAPA 31.71.01
Railroad Clearance Rules

Side clearance in through bridges and tunnels may be decreased to the extent defined by the half circumference of a circle having a radius of eight (8') feet and tangent to a horizontal line twenty-two feet six inches (22'6") above top of rail directly above centerline of track. See Rule 203. (7-1-93)

308. BRIDGES -- LOWER SECTION AND STRUCTURES FOUR FEET HIGH OR LESS -- GUARDS AND CATTLE CHUTES -- HAND RAILS ON BRIDGES AND TRESTLES -- OIL COLUMNS -- WATER BARRELS -- WATER COLUMNS (RULE 308).
Through bridges supporting track affected, hand rails, water barrels and refuge platforms on bridges and trestles, water columns, oil columns, block signals, cattle guards and cattle chutes, or portions thereof, four (4') feet or less above top of rail, may have clearances decreased to the extent defined by a line extending diagonally upward from a point level with the top of rail and five (5') feet distance laterally from centerline of track to a point four (4) feet above top of rail and eight (8') feet distant laterally from centerline of track: Provided that the minimum clearance for hand rails and water barrels shall be seven feet six inches (7'6") and the minimum clearance for fences of cattle guards shall be five feet nine inches (5'9"). Unless previously approved, the clearances authorized in this rule, except as provided for hand rails and water barrels, are not permitted on through bridges where the work of trainmen or yardmen requires them to be upon the decks of such bridges for the purpose of coupling or uncoupling cars in the performance if switching service on a switching lead. (7-1-93)

309. SIDE CLEARANCE INTERLOCKING MECHANISM SWITCH BOXES, ETC. (RULE 309).
The minimum side clearance for interlocking mechanism switch boxes, etc., is three (3') feet. Switch boxes, switch operating mechanism necessary for the control and operation of signals and interlocks projecting four (4") inches or less above top of rail. (7-1-93)

310. SIDE CLEARANCE -- MAIL CRANES AND TRAIN ORDER STANDS WHEN NOT IN OPERATIVE POSITION (RULE 310).
The minimum side clearance for mail cranes and train order stands when not in operative condition is eight feet six inches (8'6"). (7-1-93)

311. SIDE CLEARANCE -- POLES SUPPORTING TROLLEY CONTACT (RULE 311).
The minimum side clearance for poles with conductors supplying motive power to track affected--of bracket construction is eight feet three inches (8'3"). (7-1-93)

312. SIDE CLEARANCE -- POLES OTHER THAN TROLLEY POLES (RULE 312).
The minimum side clearance for poles other than trolley poles is eight feet six inches (8'6"). The clearance for poles other than trolley poles provided in the National Electrical Safety Code, as adopted by this Commission at the time in question, shall be governed by the provisions of the Code. (7-1-93)

313. SIDE CLEARANCE SIGNALS AND SWITCH STANDS THREE FEET HIGH OR LESS ABOVE THE TOP OF THE RAIL (RULE 313).
The minimum height of signals and switch stands when located between tracks where not practicable to provide clearances otherwise prescribed in these rules is at least six (6') feet. (7-1-93)

314. SIDE CLEARANCE -- SIGNALS AND SWITCH STANDS OTHER THAN ABOVE (RULE 314).
The minimum side clearance for signals and switch stands other than above is at least eight (8') feet. (7-1-93)

315. SIDE CLEARANCE ON CURVED TRACK (RULE 315).
Side clearances on all structures adjacent to curved track shall be increased as necessary to give the equivalent of tangent track clearances. As a general rule, the side clearance on curved track should be increased one and one-half inches (1 1/2") for each degree of curvature. (7-1-93)

316. SIDE CLEARANCES -- MATERIAL OR MERCHANDISE ADJACENT TO TRACKS (RULE 316).
No merchandise, material or other articles shall be placed or stored on the ground or platforms adjacent to any track at a distance less than eight feet six inches (8'6") from the centerline of track, except in cases of maintenance or emergency when such material is to be used within a reasonable period of time or where local conditions make compliance with this rule impossible. (7-1-93)

317. -- 400. (RESERVED)
TRACK CLEARANCES
RULES 401 THROUGH 500

401. TRACK CLEARANCES -- IN GENERAL (RULE 401).
The minimum distance between the center line of parallel standard gauge railroad tracks, which are used or proposed to be used for transporting cars, engines, motors or like equipment, shall be fourteen (14’) feet, except as otherwise prescribed in these rules. (7-1-93)

402. TRACK CLEARANCES -- MAIN AND SUBSIDIARY TRACKS (RULE 402).
The centerline of any standard gauge track, except a main track or a passing track, parallel and adjacent to a main track or a passing track shall be at least fifteen (15’) feet from the centerline of such main track or passing track; provided, however, that where a passing track is adjacent to and at least fifteen (15’) feet distant from the main track, any other track may be constructed adjacent to such passing track width clearance prescribed in Rule 401. (7-1-93)

403. TRACK CLEARANCES -- PARALLEL TEAM, HOUSE OR INDUSTRY TRACKS (RULE 403).
Minimum clearances between centerlines of parallel team, house or industry tracks shall be thirteen (13’) feet. (7-1-93)

404. TRACK CLEARANCES -- PARALLEL LADDER OR LADDER AND OTHER TRACK (RULE 404).
The centerline of any standard gauge ladder track, constructed parallel to any other track, shall have a clearance of not less than twenty (20’) feet from the centerline of such other track. (7-1-93)

405. TRACK CLEARANCES -- EXISTING TRACKS (RULE 405).
Existing tracks laid at prevailing clearances then authorized by this Commission’s rules may be extended at these clearances. (7-1-93)

406. -- 500. (RESERVED)

MARKING OF CARS
RULES 501 THROUGH 600

501. CARS EXCEEDING FIFTEEN FEET SIX INCHES IN HEIGHT (RULE 501).
Each car of a height exceeding fifteen feet six inches (15’6”) from top of rail to the highest point of the car, the movement of which is authorized by these rules, shall be marked, stenciled or placarded, and such markings maintained in a legible condition to read:

This Car
EXCESS
HEIGHT

The words “EXCESS HEIGHT” must occupy the greater portion of a rectangular space seven by ten inches (7” x 10”) enclosed within a three-quarter inch (3/4”) solid border. The markings required shall be made permanent on owned cars before their use. Lettering and border of signs shall be of colors contrasting to that of the car body. All such required marking and placarding shall be placed on the side adjacent to the ladder or handholds near the floor line of the car at each of the four (4) corners. (7-1-93)

502. CARS EXCEEDING TEN FEET TEN INCHES IN WIDTH (RULE 502).
Each car of a width exceeding ten feet ten inches (10’10”), the movement of which is authorized by these rules, shall be marked, stenciled or placarded, and such markings maintained in a legible condition to read:

This Car
EXCESS
WIDTH
The words “EXCESS WIDTH” must occupy the greater portion of a rectangular space seven by ten inches (7” x 10”) enclosed within a three-quarter inch (3/4”) solid border. The markings required shall be made permanent on owned cars before their use. Lettering and border of signs shall be of colors contrasting to that of the car body. All such required marking and placarding shall be placed on the side or end adjacent to the ladder or handholds near the floor line of the car at each of the four (4) corners.

(7-1-93)

503. -- 600. (RESERVED)

OPERATIONS OF EXCESS DIMENSION LOADS
RULES 601 THROUGH 700

601. CARS CONTAINING LADING IN EXCESS OF FIFTEEN FEET SIX INCHES HIGH AND/OR FIVE FEET FIVE INCHES FROM CENTERLINE OF CAR (RULE 601).
Each open-top car containing lading of height exceeding fifteen feet six inches (15’6”) above top of rail, or which extends laterally more than five feet five inches (5’5”) from the centerline of the car, the movement of which is authorized by these rules, shall be marked, stenciled or placarded, and such marking maintained in a legible condition to read:

<table>
<thead>
<tr>
<th>This car</th>
<th>This car</th>
</tr>
</thead>
<tbody>
<tr>
<td>EXCESS</td>
<td>and/or</td>
</tr>
<tr>
<td>HEIGHT</td>
<td>WIDTH</td>
</tr>
</tbody>
</table>

The words “EXCESS HEIGHT” and/or “EXCESS WIDTH” must occupy the greater portion of a space seven by ten inches (7” x 10”) enclosed within a three-quarter inch (3/4”) solid border. Letters and border shall be of colors contrasting to the car body. These required markings and placarding shall be placed on the side or end adjacent to the ladder or handholds near the floor line of the car at each of the four (4) corners where practicable, and in addition one of these signs shall be placed on each side of the load in a conspicuous position before the car is used.

(7-1-93)

602. CARS CONTAINING LADING WHICH EXTENDS LATERALLY IN EXCESS OF FIVE FEET FIVE INCHES (RULE 602).
The movement of open-top cars containing lading which extends laterally in excess of five feet five inches (5’5”) is authorized if the lading is of such a nature that it cannot practically be reduced in dimensions.

(7-1-93)

603. MOVEMENT AND NOTICE OF EXCESS HEIGHT AND/OR EXCESS WIDTH CARS AND LOADS (RULE 603).
The movement of all open-top cars having lading in excess of fifteen feet six inches (15’6”) inches in height, or which extends laterally in excess of five feet five inches (5’5”) from centerline of car, will be authorized by written notice to the train crew stating the total number of such cars, and specifying that no member of the train crew will ride on top of such high car or the side of any such wide car.

(7-1-93)

604. WRITTEN NOTICE OF EXCESS HEIGHT OR EXCESS WIDTH RULE 604).
A written notice shall be delivered to every train containing any car, the lading of which extends laterally in excess of five feet five inches (5’5”) from the centerline of the car or which is in excess of fifteen feet six inches (15’6”) in height above top of rails, informing the crew of the train that the train includes such car or cars, stating the total number of these cars and advising that no member of the train crew will ride on the side of any such wide car or the top of any such high car.

(7-1-93)

605. NOTICE TO YARD SUPERVISORS (RULE 605).
Yard supervisors shall be notified sufficiently in advance of the arrival of such wide loads as described in Rule 603 as to enable them to take necessary precautions to safeguard employees in yard.

(7-1-93)

606. LOADS WHICH CANNOT BE PASSED OVER BY EMPLOYEES (RULE 606).
Open-top cars containing lading having an overall height in excess of fifteen feet six inches (15’6”) above top of rail or a width which extends laterally in excess of five feet five inches (5’5”), if otherwise in compliance with these requirements, and the nature of which precludes the possibility of employees passing over the cars, are exempt from
the provisions of Rules 603, 604 and 605, but written notice must be given to all members of the train crew informing them of the presence of such loads. (7-1-93)

607. EXEMPTIONS (RULE 607).
The common carrier railroads are authorized to move excess height loads and excess width loads, as described in Rule 601, over roads or portions thereof, without complying with the provisions of Rule 6, provided that clearances equivalent to the minimum prescribed by these rules for cars having a height of fifteen feet six inches (15’6”) and width of ten feet ten inches (10’10”) are maintained. (7-1-93)

608. -- 999. (RESERVED)
31.71.03 – RAILROAD SAFETY AND ACCIDENT REPORTING RULES

000. LEGAL AUTHORITY (RULE 0).
These rules are adopted under the general authority of the Idaho Public Utilities Law, Chapters 1-7, Title 61, Idaho Code, and the specific authority of Sections 61-515 and 61-515A, Idaho Code. (3-30-01)

001. TITLE AND SCOPE (RULE 1).
01. Title. The title of these rules is “Railroad Safety and Accident Reporting Rules.” (4-2-08)
02. Scope. The scope of these rules set safety, sanitation, and accident reporting standards that railroads must meet while operating in Idaho. (4-2-08)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
The Public Utilities Commission does not have written interpretations or agency guidelines for these rules. (7-1-93)

003. ADMINISTRATIVE APPEALS (RULE 3).
There are no administrative appeals under these rules. (7-1-93)

004. PUBLIC RECORDS ACT COMPLIANCE (RULE 4).
Most documents regarding these rules are public records. Accident investigative reports by the Commission or the Commission Staff may be investigatory records exempt from disclosure under Section 74-105(1), Idaho Code. Accident reports required by these rules and the results of further investigations by the Commission are prohibited from admission into evidence in any action for damages based on or arising out of the loss of life or injury to the person or property pursuant to Section 61-517, Idaho Code. (4-2-08)

005. DEFINITION (RULE 5).
The terms “railroad” has the meaning given to it by statute in Chapter 1, Title 61, Idaho Code, orders of the Idaho Public Utilities Commission, and decisions of the Supreme Court of Idaho construing these statutes. (7-1-93)

006. -- 007. (RESERVED)

008. INCORPORATION BY REFERENCE – CODE OF FEDERAL REGULATIONS (RULE 008).

009. -- 100. (RESERVED)

SAFETY, SANITATION CONDITIONS, AND ACCIDENT REPORTING FOR RAILROADS
(RULES 101 THROUGH 200)

101. FIRST AID KIT REQUIRED (RULE 101).
01. First Aid Kit. A First Aid Kit required under Section 61-515A, Idaho Code, will as a minimum consist of the following or its equivalent:

a. One (1) package aromatic spirits of ammonia ampoules. (7-1-93)
b. Two (2) triangle bandages. (7-1-93)
c. Four (4) three inch by three inch (3” x 3”) or four inch by four inch (4” x 4”) compresses. (7-1-93)
d. Ten (10) yards of two (2”) inch roller bandage. (7-1-93)
e. One (1) package (minimum sixteen three-fourths inch (16-3/4”) band-aids. (7-1-93)
f. Five (5) yards one-half inch (1/2”) adhesive tape. (7-1-93)
g. One (1) package burn ointment or other burn compound. (7-1-93)
h. First Aid Book. (7-1-93)

02. Removal of First Aid Kit. No person or employee of any railroad company shall remove, carry away from its proper place or use any emergency first aid kit provided in locomotives or cabooses as required by Section 61-515A, Idaho Code, except for the purpose of administering first aid in the event of injury to any employee or other person in an accident. (7-1-93)

102. SANITARY CUPS AND SANITARY DRINKING WATER (RULE 102).

01. Water. An adequate supply of cool, clean, sanitary water, satisfactory for drinking purposes, shall be made available to all employees. Drinking water shall be obtained only from sources approved by the State Department of Health, an approved water line, or commercially bottled water. (4-11-19)

02. Water Containers. When necessary, this water shall be provided in suitable, clean, sterilized and sanitary containers conveniently placed for the use of employees, but not in toilet rooms. Each container shall be equipped with an approved type of fountain, approved faucet, or other approved dispenser. (7-1-93)

03. Cleansed and Sterilized. All containers used to furnish drinking water shall be thoroughly cleansed and sterilized as often as necessary to assure a clean and sanitary water supply. (7-1-93)

04. Common Drinking Cup Prohibited. The common drinking cup for public use is prohibited; either single service containers or drinking fountains with sanitary angle head, shall be used in lieu thereof. (7-1-93)

103. TRANSPORTATION OF HAZARDOUS MATERIAL BY RAIL (RULE 103).

01. Hazardous Material Defined. “Hazardous material” means a substance or material which has been determined by the United States Secretary of Transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated by the Secretary of Transportation. The term includes hazardous substances, hazardous wastes, marine pollutants, elevated temperature materials as defined in 49 C.F.R. Section 171.8, materials designated as hazardous under the provisions of 49 C.F.R. Section 172.101, and materials that meet the defining criteria for hazardous classes and divisions in 49 C.F.R. Part 173. (3-30-01)

02. Adoption of Federal Safety Regulations. The Commission hereby adopts by reference 49 C.F.R. Parts 107, 171, 172, 173, 174, 178, 179, and 180 (October 1, 2014). All customers offering hazardous materials for shipment by rail and all railroads operating in Idaho that transport hazardous materials listed in, defined by, or regulated by the adopted federal safety regulations must comply with 49 C.F.R. Parts 107, 171, 172, 173, 174, 178, 179 and 180. (3-25-16)

03. Recognition of Federal Exemptions. Whenever a railroad or shipper has applied to a federal agency and has been granted an exemption from the transportation or packaging requirements of the federal safety regulations adopted in Subsection 103.02, the federal exemption will also be recognized under these rules. The Commission shall not administer a program to duplicate consideration or approval of federal exemptions on a state level. (3-30-01)
104. REPORTING OF RAILROAD ACCIDENTS (RULE 104).
The Commission incorporates by reference 49 C.F.R. Part 225 (October 1, 2014). Pursuant to 49 C.F.R. 225.1, all railroads that are required to file a copy of any accident/incident report with the Federal Railroad Administration shall also file a copy of such report with the Commission Secretary for accidents or incidents occurring in Idaho. Copies of accident or incident reports shall be mailed to: Commission Secretary, Idaho Public Utilities Commission, PO Box 83720, Boise, Idaho 83720-0074 (208) 334-0338. Copies of such reports may also be provided by facsimile at (208) 334-3762 or by electronic mail, secretary@puc.idaho.gov.

105. -- 999. (RESERVED)
GENERAL PROVISIONS
RULES 0 THROUGH 10

000. LEGAL AUTHORITY (RULE 0).
These rules are promulgated pursuant to the authority of the Electric and Natural or Manufactured Gas Consumption from Ground Water Pumping Act (hereinafter the Energy Consumption Act), Chapter 13, Title 62, Idaho Code, and the Public Records Act, Section 74-107(13), Title 74, Idaho Code. (4-26-95)

001. TITLE AND SCOPE (RULE 1).
The title of these rules is the “Energy Consumption Reporting Rules.” These rules apply to all suppliers of electricity, or natural or manufactured gas, including public utilities, municipal, mutual nonprofit, and cooperative corporations. These rules should be construed in connection with the Energy Consumption Act, the Public Utilities Law, the Public Records Law, and other applicable state laws. Procedures in these Energy Consumption Reporting Rules will be liberally interpreted to secure a just, speedy and economical determination of issues presented to the Commission. Unless prohibited by statute or rule of substantive law, the Commission may permit deviation from procedural rules in these rules when it finds compliance with them is impracticable, unnecessary or not in the public interest. (4-26-95)

002. WRITTEN INTERPRETATIONS – AGENCY GUIDELINES (RULE 2).
Written interpretations to these rules can be obtained from the Secretary of the Idaho Public Utilities Commission and are available from the office of the Commission Secretary. (6-30-19)

003. ADMINISTRATIVE APPEALS (RULE 3).
All administrative procedures under these rules are conducted under the Commission’s Rules of Procedure, IDAPA 31.01.01.000 et seq. (4-26-95)

004. PUBLIC RECORD ACT COMPLIANCE (RULE 4).
The energy consumption reports required by these rules are exempt from public disclosure and copying under Section 74-107(13), Idaho Code. (4-26-95)

005. DEFINITIONS (RULE 5).
Whenever any term used in these rules is defined or referred to in the Energy Consumption Act, that term takes its statutory definition in these rules. The following terms used in these rules are defined: (4-26-95)

01. Commission. The Idaho Public Utilities Commission. (4-26-95)

02. Consumption Reports. The reports created by the energy suppliers as authorized by these rules and submitted to the Department. (4-26-95)

03. Department. The Idaho Department of Water Resources. (4-26-95)

04. Energy Suppliers. All suppliers of electric power and natural or manufactured gas including all public utilities, municipal, mutual nonprofit, and cooperative corporations providing energy to an irrigation customer.
05. **Geographic Areas.** Hydrological basins with boundaries determined by the Department. The geographic areas are depicted in the Appendix to these rules. (4-26-95)

06. **Irrigation Customer.** A customer pumping ground water that is:

a. Receiving service from an energy supplier under an irrigation service tariff or rate schedule; or (4-26-95)

b. Irrigating three (3) or more acres if such information is known to the energy supplier. (4-26-95)

07. **Irrigation Season.** As used in these rules means the calendar period from March 1 through October 31 or the energy supplier’s billing cycles that include the calendar period. (4-26-95)

08. **Service Location.** The geographic position of the irrigation customer’s pumping location(s) by address, pole number, legal description, longitude-latitude designations, or other description of where the service is delivered, to the extent such information is readily available to the energy supplier. (4-26-95)

006. (RESERVED)

007. **FORMS (RULE 7).**
The Department is authorized to produce and distribute forms to carry out these rules. (4-26-95)

008. **CORRESPONDENCE -- CHANGE OF ADDRESS (RULE 8).**

01. **Department's Mailing Address.** All correspondence with the Department regarding these rules or energy consumption reports should be addressed to:

Water Allocation Bureau
Idaho Department of Water Resources
PO Box 83720
Boise, ID 83720-0098

The street address is: 322 E. Front St., Boise, ID 83720-0098. (4-26-95)

02. **Supplier's Mailing Address Must be Provided to Department.** Each energy supplier shall provide the Department with a name or department and its mailing address for the purpose of receiving notices and correspondence. Any change of address should be reported to the Department in writing. (4-26-95)

009. -- 010. (RESERVED)

**REPORTING RULES**
**RULES 11 THROUGH 20**

011. **REQUEST FOR REPORTS (RULE 11).**
No later than July 1 of each year, the Department may request consumption reports from energy suppliers for the current irrigation season. (4-26-95)

01. **Notification by Department.** The Department shall notify energy suppliers serving specific geographic areas that consumption reports must be submitted. (4-26-95)

02. **Submission of Consumption Reports.** Once the Department requests the consumption reports, such reports shall be prepared and submitted to the Department as soon as possible following the close of the irrigation season but no later than January 5 of the following year. (4-26-95)

012. **CONTENTS OF CONSUMPTION REPORT (RULE 12).**
01. **Content of Consumption Reports.** Each consumption report shall contain, to the extent available, the full name of the customer, customer account number, service location, service location identification number, and the amount of energy consumed in kilowatt hours (KWH), or cubic feet of gas, or other applicable volume measurement for each service location. For each service location, the annual consumption report shall indicate the customer’s energy consumption for each billing period during the irrigation season and the total energy consumption for the entire irrigation season. (4-26-95)

02. **Geographic Area(s) Covered in Consumption Report.** The energy supplier may file a consumption report covering the specific geographic area(s) set forth in the Department’s notice or, at the discretion of the supplier, a report that encompasses a larger territory so long as the Department’s designated areas are included. (4-26-95)

013. **REPORT FORMAT (RULE 13).**
Consumption reports will be forwarded to the Department in an electronic storage media in a format mutually acceptable to the Department and the energy supplier. If an agreement is not reached or if the supplier is unable to provide the consumption report in electronic media, the report shall be submitted in writing. (4-26-95)

014. -- 020. (RESERVED)

**REIMBURSEMENT RULES**
**RULES 21 THROUGH 30**

021. **REIMBURSEMENT OF COSTS (RULE 21).**
Energy suppliers are entitled to reimbursement of the costs for preparing and submitting the consumption reports. Reimbursement shall be paid by the Department. (4-26-95)

022. **WHEN TO FILE REIMBURSEMENT CLAIM (RULE 22).**
Requests for reimbursement shall accompany the consumption reports. Energy suppliers seeking reimbursement shall itemize in sufficient detail their actual costs in preparing and submitting the data. (4-26-95)

023. **RESOLUTION OF REIMBURSEMENT DISPUTES (RULE 23).**
When an energy supplier and the Department are unable to resolve a reimbursement dispute, either party or both may seek informal dispute resolution with the Commission’s staff. See IDAPA 31.01.01, “Rules of Procedure of the Idaho Public Utilities Commission,” Sections 021 through 024. If the outcome of the informal proceeding is unsatisfactory to either party, the aggrieved party may formally file a complaint with the Commission. See Sections 31.01.01.023 through 025, and 051 through 058. The Commission shall decide formal complaints in accordance with its Rules of Procedure, 31.01.01.000 et seq. (4-26-95)

024. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rule(s) listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 57-728(2) of the Idaho Code, which gives the Endowment Fund Investment Board (EFIB) authority to promulgate rules necessary to discharge EFIB’s duties for the administration of the Credit Enhancement Program.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 32, Title 01, Chapter 01, rules of the Endowment Fund Investment Board:

DAPA 32.01.01, Rules Governing the Credit Enhancement Program for School Districts

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The rule governing the Credit Enhancement Program for School Districts is beneficial for Idaho’s public schools because it lowers the cost of financing associated with the construction of new schools.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. 2010 Idaho Attorney General Opinion 01 concludes that EFIB must charge fees to offset the cost of the Credit Enhancement Program to the Endowments.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The Endowment Fund Investment Board charges school districts an application fee of $500 and a one-time bond guarantee fee equal to two one-hundredths of one percent (0.02% or two basis points) of the Total Debt Service.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature,
and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Chris Anton at (208) 334-3312.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

Chris Anton

IDAPA 32 – ENDOWMENT FUND INVESTMENT BOARD

32.01.01 – RULES GOVERNING THE CREDIT ENHANCEMENT PROGRAM FOR SCHOOL DISTRICTS

000. LEGAL AUTHORITY.
Section 57-728(2), Idaho Code, gives the Endowment Fund Investment Board authority to promulgate rules necessary to the discharge of the EFIB’s duties for the administration of the Credit Enhancement Program. 2010 Idaho Attorney General Opinion 01 concludes that the EFIB must charge fees to offset the costs of the Credit Enhancement Program to the Endowments. (4-7-11)

001. TITLE AND SCOPE

01. Title. These rules are titled IDAPA 32, Title 01, Chapter 01, “Rules Governing the Credit Enhancement Program for School Districts.” (4-7-11)

02. Scope. These rules contain the provisions for implementation of the Credit Enhancement Program. (4-7-11)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, this agency may have written statements that pertain to the interpretation of the rules of this chapter, or to compliance with the rules of this chapter. Any such documents are available for public inspection and copying at the EFIB’s office. (4-7-11)

003. ADMINISTRATIVE APPEALS.
The EFIB’s determination to invest through the Credit Enhancement Program is a discretionary exercise of its fiduciary duties to the Endowments. This chapter does not provide for appeal of the requirements under the Credit Enhancement Program as contested cases pursuant to the provisions of Title 67, Chapter 52, Idaho Code. (4-7-11)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into these rules. (4-7-11)

005. OFFICE -- OFFICE HOURS -- MAILING ADDRESS AND STREET ADDRESS.
The location and mailing address of the EFIB is 816 West Bannock Street, Suite 301, Boise, Idaho 83702. The offices are open daily from 8 a.m. to noon, and 1 p.m. to 5 p.m., except Saturday, Sunday, legal holidays, and when closed for mandatory leave without pay. The EFIB’s telephone number is (208) 334-3311 and the facsimile number is (208) 334-3786. (4-7-11)

006. PUBLIC RECORDS ACT COMPLIANCE.
This agency operates pursuant to the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (4-7-11)

007. -- 009. (RESERVED)

010. DEFINITIONS AND REFERENCES.

01. Administrative Fees. Application Fees and Pass-through Fees charged to School Districts applying for and receiving guarantees under the Credit Enhancement Program. (4-7-11)

02. Application Fee. The amount determined by the EFIB and set forth in this chapter as the cost of reviewing applications to the Credit Enhancement Program and administering the Credit Enhancement Program. (4-7-11)

03. Credit Enhancement Program. The Credit Enhancement Program for School District Bonds established in Section 57-728, Idaho Code. (4-7-11)
04. EFIB. Endowment Fund Investment Board. (4-7-11)

05. Endowments. The trusts granted to the state of Idaho by the Idaho Admission Bill, 26 Statutory Laws 215, chapter 656 as amended. The Endowments include the Public School Endowment established by Idaho Admission Bill sections 4 and 13. (4-7-11)

06. Guarantee Fee. The amount determined by the EFIB and set forth in this chapter as the cost of guaranteeing a school bond under the Credit Enhancement Program. The cost of guaranteeing a school bond includes the difference in the investment return to the Public School Endowment projected by the EFIB to arise from the guarantee and additional costs to the Endowments arising from investment of the Public School Endowment in the Credit Enhancement Program. (4-7-11)

07. Guaranty Program. The Idaho School Bond Guaranty Program established in Title 33, Chapter 53, Idaho Code. (4-7-11)

08. Pass-Through Fee. A direct cost to the EFIB for reviewing an application to the Credit Enhancement Program or for issuing a note to pay a debt service payment under the Credit Enhancement Program. Direct costs include the costs billed to the EFIB by legal, accounting, and financial professionals. (4-7-11)

09. School District. As defined in Section 33-5302, Idaho Code. (4-7-11)

10. Total Debt Service. The total amount to be repaid to bond purchasers over the stated maturity of the School District bond (principal plus interest). (4-7-11)

011. -- 019. (RESERVED)

020. APPLICATION. 

01. Required Materials. School Districts must submit the following application materials to the EFIB: (4-7-11)

a. Correspondence from the Idaho State Treasurer certifying that the School District has been approved to participate in the Guaranty Program and setting forth the maximum credit enhancement amount available to the School District within the limitations set forth in Section 57-728(8), Idaho Code. (4-7-11)

b. A fully completed application form as prescribed by the EFIB from time to time executed by a party authorized to bind the School District. (4-7-11)

c. Copies of the complete audited financial statements of the School District prepared pursuant to Section 33-701, Idaho Code, for the preceding three (3) fiscal years and the adopted budget for the current fiscal year. (4-7-11)

d. Upon request of the EFIB, documentation substantiating the information set forth in materials submitted pursuant to Subsection 020.01 of these rules. (4-7-11)

02. Submission Deadlines. School Districts may submit an application at any time. (4-7-11)

021. -- 029. (RESERVED)

030. FEES. 

01. Guarantee Fee. School Districts must remit to the EFIB a one-time fee equal to two one-hundredths of one percent (0.02% or two basis points) of the Total Debt Service. When Paid. School Districts must remit the Guarantee Fee to the EFIB within five (5) days of the sale of bonds guarantied by the Credit Enhancement Program. The EFIB will deposit the Guarantee Fee in the Public School Endowment. (4-7-11)
02. Administrative Fees.
   (4-7-11)
   a. Application Fee. School Districts shall submit to the EFIB an Application Fee of five hundred dollars ($500). School Districts shall submit the Application Fee to the EFIB with the application materials. The EFIB will use Application Fees to pay costs of reviewing applications and administering the Credit Enhancement Program. At the conclusion of each fiscal year, the EFIB will deposit unexpended Application Fees in the Public School Endowment. (4-7-11)
   
   b. Pass-through Fee. The EFIB may incur a Pass-through Fee related to the review of an application in its discretion. The EFIB will not invoice a School District for Pass-through Fees related to the review of an application without the prior written approval of the School District. The EFIB may incur a Pass-through Fee related to the issuance of a note without prior approval of the School District. The EFIB will invoice School Districts for the full amount of any Pass-through Fees related to the issuance of a note. School Districts shall remit each invoiced Pass-through Fee to the EFIB within thirty (30) days of invoice. The EFIB will use a Pass-through Fee to pay the direct costs to the EFIB under the Credit Enhancement Program giving rise to the fee. (4-7-11)

031. -- 039. (RESERVED)

040. APPROVAL AND DENIAL OF APPLICATIONS.

01. Review Periods. The EFIB will provide written approval or denial of an application within twenty (20) days of the submission of all required materials. If the Board requests substantiating documentation, the EFIB will provide written approval or denial of the application within twenty (20) days of the submission of the substantiating documentation. (4-7-11)

02. Delegation of Review and Approval.
   (4-7-11)
   a. Staff Review. The EFIB may delegate review of applications to EFIB staff. (4-7-11)
   
   b. Experts. The EFIB may engage experts to review an application. Experts include legal, accounting, and financial professionals. (4-7-11)
   
   c. Staff Approval. The EFIB may delegate approval of applications to the EFIB’s manager of investments. (4-7-11)

03. Discretionary Investment. The EFIB will invest in a School District bond issuance under the Credit Enhancement Program in its sole discretion and within its fiduciary responsibilities as trustees of the financial assets of the Endowments. The EFIB may deny an application for participation in the Credit Enhancement Program if the EFIB determines the investment is not in the best interests of one (1) or more of the Endowments. (4-7-11)

04. Denial of Application for Unpaid Fees. The EFIB may deny an application for participation in the Credit Enhancement Program if a School District has not paid a fee under a pending application or a prior guarantee issued by the Credit Enhancement Program. (4-7-11)

041. -- 999. (RESERVED)
IDAPA 33 – REAL ESTATE COMMISSION
DOCKET NO. 33-0000-1900F
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 54-2097 and 54-2020, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 33, rules of the Real Estate Commission:

IDAPA 33
• 33.01.01, Rules of the Idaho Real Estate Commission – Section 003 was modified to include 04.11.01 instead of 33.01.02, which is set to expire on July 1, 2019. Rule 000 and 001 were modified to include the Subdivided Lands Act in 33.01.01 instead of 33.01.03, which is set to expire on July 1.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Real Estate Commission is a self-governing agency authorized by statute to regulate real estate brokerage in Idaho. Without these Rules in place, the Commission will be unable to adequately protect the public in regulated real estate transactions.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The Commission is a dedicated fund agency, with funding for all Commission operations coming primarily from license and application fees established by these rules. Failure to re-authorize these rules would prevent the Commission from collecting any licensing, renewal, or timeshare registration fees, thus endangering the Commission’s ability to perform essential functions necessary to protect consumer, business, and public interests in Idaho.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.
IDAPA 33.01.01.100.01-02: Licensing Fees;
IDAPA 33.01.01.101: Late License Renewal Fees;
IDAPA 33.01.01.102: Fee to Print License Certificate;
IDAPA 33.01.01.103: Fee to Compile Education or License History;
IDAPA 33.01.01.104: Fee for Branch Office License;

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact MiChell Bird, (208) 334-3285.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

MiChell Bird
Executive Director
Real Estate Commission
575 E. ParkCenter Blvd., Ste. 180
Boise, ID 83706
Phone: (208) 334-3285
Fax: (208)334-2050
000. **LEGAL AUTHORITY.**
The Rules of the Idaho Real Estate Commission contained herein have been adopted pursuant to Section 54-2007, Idaho Code. Any violation of these rules, or of any provision of Chapter 20, Title 54, or Chapter 18, Title 55, Idaho Code, is sufficient cause for disciplinary action as prescribed in Sections 54-2059, 54-2060, or 55-1811, Idaho Code.

(3-15-02)

001. **TITLE AND SCOPE.**

01. **Title.** These rules are titled IDAPA 33.01.01, “Rules of the Idaho Real Estate Commission,” IDAPA 33, Title 01, Chapter 01.

(3-15-02)

02. **Scope.** These rules contain the requirements for implementation and enforcement of the Idaho Real Estate License Law, the Idaho Real Estate Brokerage Representation Act, and the Subdivided Lands Disposition Act, contained in Chapter 20, Title 54, or Chapter 18, Title 55, Idaho Code.

(6-30-19)

002. **WRITTEN INTERPRETATIONS.**
In accordance with Section 67-5201(19)(b)(iv), this agency has written statements which pertain to the interpretation of the rules of this chapter, or to documentation of compliance with the rules of this chapter. These documents are available for public inspection and copying at cost at the Idaho Real Estate Commission, 575 E. Parkcenter Blvd., Suite 180, Boise ID 83706.

(3-15-02)

003. **ADMINISTRATIVE PROCEEDING AND APPEALS.**
Administrative proceedings and appeals are administered by the Commission in accordance with the “Idaho Rules of Administrative Procedure of the Attorney General,” IDAPA 04.11.01, Subchapter B -- Contested Cases, Rules 100 through 800, which, for the purpose of Section 55-1813(4), Idaho Code, is known as Rules of Practice and Procedure of the Idaho Real Estate Commission Governing Contested Cases.

(6-30-19)

01. **Place and Time for Filing of Documents.** Documents in rulemaking or contested cases may be filed with the executive director of the Commission at the Commission office between the hours of 8 a.m. and 5 p.m., Mountain Time, Monday through Friday, excluding state holidays.

(6-30-19)

02. **Manner of Filing.** One (1) original and two (2) copies of each document must be filed unless otherwise specifically required by the person or officer presiding over a particular rulemaking or contested case proceeding. Filing by electronic or fax transmission is permitted if legible, complete, and received during the Commission's office hours. The filing party is responsible for verifying with the Commission staff that the electronic or fax transmission was successfully and legibly received.

(6-30-19)

004. **INCORPORATION BY REFERENCE.**
There are no materials incorporated by reference.

(3-15-02)

005. **OFFICE HOURS, MAILING AND PHYSICAL ADDRESS, PHONE NUMBERS.**
The office hours for Real Estate Commission are 8 a.m. to 5 p.m., Monday through Friday, excepting state holidays. The Commission’s mailing address and office location is 575 E. Parkcenter Blvd., Suite 180, Boise ID 83706. The telephone number is (208) 334-3285.

(3-15-02)

006. **ELECTRONIC SIGNATURES.**
A person’s entry of the identification number assigned by the Commission, or approved for the person’s use by the Commission, shall constitute the person’s signature when transmitted as part of or in connection with an electronic
document or procedure in the course of business with the Commission. Any identification number assigned or approved by the Commission shall be unique to the person using it, capable of verification, and conform to all applicable rules, guidelines and policies established by the Commission. (3-15-02)

007. -- 099. (RESERVED)

**RULES 100 THROUGH 199**

**APPLICATION, LICENSURE AND TERMINATION OF LICENSES**

100. **LICENSE FEES.**
License fees are established as follows. (3-15-02)

01. **Fees For Licensed Individuals.** The fees for an initial or renewing license for broker, associate broker, or salesperson shall be one hundred sixty dollars ($160) per license period, which fees include the twenty dollar ($20) fee prescribed in Section 54-2070, Idaho Code. (3-19-07)

02. **Fees For Licensed Legal Business Entities.** The fee for an initial or renewing license for each legal business entity shall be fifty dollars ($50) per license period. (10-1-05)

101. **LATE LICENSE RENEWAL FEES.**
When a license renewal application is submitted after the license period has elapsed, there shall be, in addition to the fees for renewing the license, a late fee in the amount of twenty-five dollars ($25). (3-26-08)

102. **FEE TO PRINT LICENSE CERTIFICATE.**
The fee for having the commission print a license certificate shall be fifteen dollars ($15) for each certificate. (3-26-08)

103. **FEE TO COMPILE EDUCATION OR LICENSE HISTORY.**
The fee for having the commission compile and certify a licensee’s education history or license history shall be ten dollars ($10) for each compilation. (3-26-08)

104. **FEE FOR BRANCH OFFICE LICENSE.**
The fee for an initial or renewing license for each branch office shall be fifty dollars ($50) per license period. (3-26-08)

105. **CONDITIONS TO RENEW EXPIRED LICENSE.**
The Commission may accept a licensee’s application to renew an expired license upon the following conditions: (3-29-10)

01. **Payment of Late Fee.** The applicant must pay the late license renewal fee established by this chapter; (3-29-10)

02. **Renewal After Expiration of Active License.** If the license expired on active license status, the licensee must complete and submit with the application, on the form approved by the Commission, one (1) of the following:

   a. A certificate attesting that during the period the license was expired, the licensee did not do or attempt to do any acts described in the definitions of real estate broker or salesperson in Section 54-2004, Idaho Code; or (3-29-10)

   b. A certificate admitting that during the period the license was expired, the licensee did or attempted to do an act described in the definitions of real estate broker or salesperson in Section 54-2004, Idaho Code, and either:

      i. Agree to pay the proposed civil fine, which amount will be in accordance with the scheduled amount approved by the Commission by motion; or (3-29-10)
ii. Request a hearing to determine any fine under the procedures set forth in the Idaho Administrative Procedure Act, Chapter 52, Title 67, and the Commission’s rules under IDAPA 33.01.02, “Rules of Practice and Procedure of the Idaho Real Estate Commission Governing Contested Cases.” (3-29-10)

03. Investigate or Discipline a Licensee. Nothing in this Section limits the ability of the Commission to investigate or discipline a licensee for violating Subsection 54-2018(3), Idaho Code, or for violating any other provision of the Real Estate License Law or the rules promulgated by the Commission. (3-29-10)

106. -- 116. (RESERVED)

117. CERTIFICATION OF MANDATORY ERRORS AND OMISSIONS INSURANCE. Every licensee, upon obtaining or renewing an active real estate license in the state of Idaho shall have in effect and maintain a policy of errors and omissions insurance when required by Section 54-2013, Idaho Code, to cover all activities contemplated under Chapter 20, Title 54, Idaho Code and shall certify such coverage to the Commission in the form and manner prescribed by statute and in these rules. (4-11-15)

01. Certification of Licensees Under Group Insurance Plan. Licensees covered under the Group Insurance Plan, as provided for in Section 118 of these rules, shall be deemed to have satisfied the certification requirement of Section 117. The effective date of coverage, however, shall be the day of final license approval. (4-2-03)

02. Certification of Licensees Obtaining Independent Coverage. Licensees obtaining independent coverage, as provided for in Section 119 of these rules, shall obtain a Certificate of Coverage, signed by an authorized agent or employee of the insurance carrier, which certificate shall be in a form approved by the Commission, reflecting proof of insurance meeting the requirements established by the Commission. Upon request by the Commission the licensee shall produce for inspection the Certificate of Insurance. (4-2-03)

118. GROUP INSURANCE PLAN. The Commission shall make available to all active licensees, subject to terms and availability from a qualified insurance carrier, a policy of Errors and Omissions Insurance under a Group Plan obtained by the Commission. (3-15-02)

01. Qualified Insurance Carrier Defined. For the purposes of Section 118, a “qualified insurance carrier” shall mean an insurance carrier:

a. Which, for the entire term of its contract shall provide the Group Plan of errors and omissions insurance contemplated by these rules, maintains an A.M. Best Company rating of B+ or better, and an A.M. Best Financial Size Category of Class VI or higher; (3-15-02)

b. Which is and will remain for the policy term duly authorized by the Idaho Department of Insurance to do business in the state of Idaho as an insurance carrier; (3-15-02)

c. Which is and will remain for the policy term qualified and authorized by the Idaho Department of Insurance to write policies of errors and omissions insurance in Idaho of the type contemplated by these rules; (3-15-02)

d. Which, after competitive bidding, has been notified by the Commission that it is the successful bidder for the Group Plan to provide the errors and omissions insurance contemplated by these rules; and (3-15-02)

e. Which has entered into a contract to provide said group errors and omissions plan in conformity with said contract, these rules and the Idaho Real Estate License Law. (3-15-02)

02. Right to Cancel. The group policy obtained by the Commission under these rules shall be available to all active licensees with no right on the part of the carrier to cancel any licensee. (3-15-02)

03. Approved Policy. The group policy obtained by the Commission shall cover all activities contemplated under Chapter 20, Title 54, Idaho Code, shall be subject to such terms and conditions as are customary
in the insurance industry for policies of errors and omissions insurance, which are otherwise permissible under Idaho law and the rules of the Idaho Insurance Department, and which are contained in a policy of insurance which has been approved by the Department of Insurance; provided, however, that said Group Plan shall provide, at a minimum, the following terms and conditions:

a. Not less than one hundred thousand dollars ($100,000) limit liability coverage for each occurrence, not including costs of investigation and defense;

b. An annual aggregate limit of not less than three hundred thousand dollars ($300,000), not including costs of investigation and defense;

c. The minimum coverage requirements of Subsection 118.03 shall apply to each individual licensee;

d. A deductible amount of not greater than three thousand five hundred dollars ($3,500), which shall include costs of investigation and defense;

e. A reasonable premium not to exceed the maximum premium set forth in Section 54-2013, Idaho Code;

f. A policy period equal to each licensee's two (2) year license renewal date or the prorated equivalent, or, if an annually renewable policy, a statement of the policy period, and in either case, the policy shall provide for continuous coverage during the policy period;

g. An extended reporting period per insured of at least ninety (90) days following termination of the policy period; and

h. Prior acts coverage shall be offered to licensees with continuous past coverage.

04. Standard of Group Policy Determined. For the purposes of these rules and the fulfillment of the Commission's obligations under Idaho Real Estate License Law, approval by the Idaho Department of Insurance of any group policy of errors and omissions insurance to be issued to the state of Idaho pursuant to these rules shall be conclusive proof that the terms and conditions of said policy meet the standards and practices in the insurance industry with respect to such policies, and that said policy meets the requirements of Idaho law and the rules of the Idaho Insurance Department with respect to such policies of insurance.

119. INDEPENDENTLY OBTAINED ERRORS AND OMISSIONS INSURANCE. Licensees may obtain errors and omissions insurance independently of the Group Policy available through the Commission, subject, however, to the terms and conditions set forth in these rules.

01. “Independently Obtained” Insurance Defined. The term “independently obtained” insurance shall mean a policy of errors and omissions insurance issued to each individual licensee or issued to the firm with which the licensee is affiliated and which shall provide, at a minimum, all of the following terms and conditions:

a. Covers all activities contemplated under Chapter 20, Title 54, Idaho Code, under such terms and conditions as are customary in the insurance industry for policies of errors and omissions insurance, which are otherwise permissible under Idaho law and the rules of the Idaho Department of Insurance, and which are contained in a policy of errors and omissions insurance which has been approved by the Idaho Department of Insurance;

b. If an “individual” policy specifies not less than one hundred thousand dollars ($100,000) limit liability coverage for each occurrence, not including costs of investigation and defense;

c. If a “firm” policy specifies not less than five hundred thousand dollars ($500,000) limit liability coverage for each occurrence, not including costs of investigation and defense;
d. If an “individual” policy, an annual aggregate limit of not less than three hundred thousand dollars ($300,000), not including costs of investigation and defense; (3-15-02)

e. If a “firm” policy, an annual aggregate limit of not less than one million dollars ($1,000,000), not including costs of investigation and defense; (3-15-02)

f. If an “individual” policy, the minimum coverage limits specified in Subsection 119.01 shall be available to each licensee; (3-15-02)

g. If a “firm” policy, the minimum coverage limits specified in Subsection 119.01 shall apply to the firm; (3-15-02)

h. An extended reporting period per insured of at least ninety (90) days following termination of the policy period; (3-15-02)

i. No policy of errors and omissions insurance shall be deemed “independently obtained” for purposes of this rule unless the insurance company specifically agrees in writing that it will not terminate, cancel, lapse, fail or refuse to renew or modify such policy without the company first providing the Commission and the licensee thirty (30) days' written notice; (3-15-02)

j. Contains a policy period equal to each licensee's two (2) year license renewal date or the prorated equivalent and which provided for continuous coverage during said policy period, or, if an annually renewable policy, a statement of the policy period and, in either case, the agreement of the insurance carrier that it will not modify, terminate, cancel, lapse or not renew the policy without first providing the Commission and licensee thirty (30) days written notice; and (3-15-02)

k. Prior acts coverage shall be offered to licensees with continuous past coverage. (3-15-02)

02. Approval by Department of Insurance. For the purposes of these rules and the fulfillment of the licensees' obligations under Idaho Real Estate License Law, approval by the Idaho Department of Insurance of a policy of independently obtained errors and omissions insurance covering the licensee shall create a presumption that the terms and conditions of said policy meet the standards and practices in the insurance industry with respect to such policies, and that said policy meets the requirements of the law and rules of the Idaho Department of Insurance with respect to such policies of insurance. Approval by the Department of Insurance, however, does not create any presumption of equivalency in coverage as required by Idaho Real Estate License Law and these rules. (3-15-02)

03. Carrier Issuing Independent Policy. A carrier issuing an independent policy shall meet all of the requirements of a qualified carrier set forth in Subsections 118.01.a. through 118.01.c. and shall maintain an A.M. Best Company rating of B+ or better and an A.M. Best Financial Size Category of Class VI or higher. (3-15-02)

120. CERTIFICATION A PREREQUISITE FOR LICENSE ISSUANCE OR RENEWAL. No applicant for an original active license or for renewal of an active license shall be issued such active license unless the applicant has certified to the Commission, in the form and manner approved by the Commission, that he is in compliance with the insurance requirements of this chapter. This certification of compliance by the applicant shall satisfy the filing requirement of Section 54-2013, Idaho Code. (3-15-02)

121. FAILURE TO MAINTAIN INSURANCE. Failure of a licensee to obtain and maintain insurance coverage required by Section 117 shall result in inactivation of any active license issued pursuant to Idaho Real Estate License Law or denial of any application for issuance or renewal of an active license. Failure to maintain insurance as required herein shall be deemed insufficient application for licensure under Section 67-5254, Idaho Code. (3-15-02)

01. Notice of Noncompliance. Within five (5) business days of the date the Commission is notified that a licensee does not have required coverage, the Commission shall notify the affected licensee of noncompliance. Notice shall be sent by first class mail to the licensee's business or residence address, as reflected in the Commission's records, and a copy of the notice shall be sent to the licensee's broker, if any. The notice shall provide that the licensee has ten (10) business days in which to comply with the law and these rules regarding errors and omissions insurance.
Failure to comply at the end of ten (10) business days shall result in the license being automatically inactivated.  

02. **Failure to Maintain Insurance.** Any failure of a licensee to maintain errors and omissions insurance while on active license status, regardless whether coverage is later obtained and made retroactive by the carrier, shall constitute a violation of these rules, and shall be grounds for disciplinary action as provided in Sections 54-2059 and 54-2060, Idaho Code, including but not limited to the assessment of civil fines. A late renewal is considered failure to maintain insurance and constitutes a violation of the law.  

122. **FALSIFICATION OF CERTIFICATES.**  
Any licensee who, acting alone or in concert with others, willfully or knowingly causes or allows a certificate of coverage to be filed with, or produced to, the Commission which is false, fraudulent, or misleading, shall be subject to disciplinary action, including but not limited to suspension or revocation of license, in accordance with Chapter 52, Title 67, Idaho Code; provided, however, that nothing herein shall entitle such licensee to notice and hearing on the automatic inactivation of license provided for in Subsection 121.01.  

123. -- 199. (RESERVED)  

**RULES 200 THROUGH 299**  
**OFFICE OPERATIONS**  

200. **BRANCH OFFICES.**  
The current license certificates for the branch office, the branch manager, and for each sales associate conducting business from the branch office shall be prominently displayed or available for public inspection at the branch office.  

201. -- 299. (RESERVED)  

**RULES 300 THROUGH 399**  
**BUSINESS CONDUCT**  

300. **DISPUTES CONCERNING COMMISSIONS AND FEES.**  
The Idaho Real Estate Commission shall not be involved in the resolution of disputes between licensees or between licensees and buyers and sellers concerning matters of commissions or fees.  

301. **PRICE FIXING.**  
The Idaho Real Estate Commission neither recommends nor recognizes any agreement to fix or impose uniform rates of commission on any real estate transaction by licensed real estate brokers.  

302. **TITLE OPINIONS.**  
No real estate broker or sales associate shall pass judgment upon or give an opinion with respect to the merchantability of the title to property in any transaction.  

303. **LEGAL OPINIONS.**  
A broker or sales associate shall not discourage any party to a real estate transaction from seeking the advice of an attorney.  

304. (RESERVED)  

305. **DESIGNATED BROKER PERMITTED ACCESS EDUCATION RECORDS OF THE BROKER'S LICENSED SALES ASSOCIATES.**  
As provided for in Section 74-106, Idaho Code, the Commission may establish a mechanism to enable a designated broker to access and review the electronically-kept continuing education record of any licensee currently licensed with the broker. Such records are otherwise exempt from the disclosure requirements of the Public Records Act, Title 74, Chapter 1, Idaho Code. Access to records shall be through the means made available by the Commission by motion.
402. APPROVED TOPICS FOR CONTINUING EDUCATION.
The primary purpose of continuing education is to help assure that licensees possess the knowledge, skills, and competency necessary to function in the real estate business in a manner that protects and serves the public interest, or that promotes the professionalism and business proficiency of the licensee. The knowledge or skills taught in an elective course must enable licensees to better serve real estate consumers. (3-20-14)

01. Topics Approved by the Commission. Approved topic areas for continuing education, as provided for in Sections 54-2023 and 54-2036, Idaho Code, include the following as they pertain to real estate brokerage practice and actual real estate knowledge: (5-8-09)

a. Real estate ethics; (3-20-04)
b. Legislative issues that influence real estate practice; (3-20-04)
c. Real estate law; contract law; agency; real estate licensing law and administrative rules; (3-20-04)
d. Fair housing; affirmative marketing; Americans with Disabilities Act; (3-20-04)
e. Real estate financing, including mortgages and other financing techniques; (3-20-04)
f. Real estate market measurement and evaluation; (3-20-04)
g. Land use planning and zoning; land development; construction; energy conservation in building; (3-20-04)
h. Real estate investment; (3-20-04)
i. Accounting and taxation as applied to real property; (3-20-04)
j. Real estate appraising; (3-20-04)
k. Real estate marketing procedures; (5-8-09)
l. Real estate inspections; (3-20-04)
m. Property management; (3-20-04)
n. Timeshares, condominiums and cooperatives; (3-20-04)
o. Real estate environmental issues and hazards, including lead-based paint, underground storage tanks, radon, etc.; (5-8-09)
p. Water rights; (3-20-04)
q. Brokerage office management and supervision; (3-30-07)
r. Use of technology; (5-8-09)
s. Licensee safety; (3-30-07)
t. Negotiation skills; (3-30-07)
u. Business success. (3-20-14)

02. Other Topics. Upon written request, the Commission may also approve any other topic that directly relates to real estate brokerage practice and that directly contributes to the accomplishment of the primary purpose of continuing education. (5-8-09)

03. Topics Not Eligible for Continuing Education Credits. The following activities shall not be eligible for approval for compliance with the continuing education requirement:

a. Those which are specifically exam preparation in nature; (3-20-04)
b. Real estate topics not directly related to real estate brokerage practice. (5-8-09)

403. -- 499. (RESERVED)

RULES 500 THROUGH 599
EDUCATION TEACHING STANDARDS

500. MINIMUM TEACHING STANDARDS OF THE COMMISSION.
All courses offered for credit by a certified provider shall be taught in accordance with the following standards of the Real Estate Commission: (3-13-08)

01. Certification Requirement. A course required to be taught by a Commission-certified or Commission-approved instructor shall be taught only by an instructor that is currently approved or certified for that course; (3-13-08)

02. Outlines and Curriculum. A course must be taught in accordance with the course outline or curriculum approved by the Commission; (3-13-08)

03. Attendance Requirement. The course instructor shall adhere to the Commission’s written attendance policy and shall submit credit hours only for students who have successfully met the attendance requirements for which the course was approved. (3-13-08)

04. Product Promotion and Recruitment. The course instructor shall adhere to the Commission’s written policies restricting product promotion and recruitment activities in the classroom; (3-13-08)

05. Professional Mannerism. The course instructor shall conduct himself or herself in a professional manner when performing instructional duties, and shall not engage in any form of harassment based on the gender, national origin, race, religion, age or physical or mental disability of any student, and shall not engage in conduct that degrades or disparages any student or other instructor. (3-13-08)

06. Subject Matter Knowledge. The instructor shall conduct the class in a manner that demonstrates knowledge of the subject matter being taught; (3-13-08)

07. Competent Teaching Skills. The instructor shall conduct the class in a manner that demonstrates competency in the following basic teaching skills: (3-13-08)

a. The ability to effectively communicate through speech; (3-13-08)
b. The ability to present instruction in an accurate, logical, orderly and understandable manner and to respond appropriately to questions from students; (3-13-08)
c. The ability to utilize varied instructional techniques in addition to lecture, such as class discussion, role playing or other techniques in a manner that enhances learning; (3-13-08)
d. The ability to utilize instructional aids and modern technology in a manner that enhances learning; (3-13-08)

e. The ability to maintain an appropriate learning environment and effective control of a class; (3-13-08)

f. The ability to interact with adult students in a manner that encourages students to learn, that avoids offending the sensibilities of students, and that avoids personal criticism of any other person, including fellow peer instructors, any agency or any organization. (3-13-08)

08. Maintaining Exam Security. The instructor shall take reasonable steps to protect the security of course examinations and shall not allow students to retain copies of final course examinations or the exam answer key. (3-13-08)

09. Use of Exam Questions Prohibited. The instructor shall not obtain or use, or attempt to obtain or use, in any manner or form, Idaho real estate licensing examination questions. (3-13-08)

10. Instructor Evaluations. The instructor must maintain, for the course, an annual average of four point zero (4.0) (based on one to five (1-5) scale) on the standard Commission evaluations for the instructor’s overall average category. (3-13-08)

501. -- 999. (RESERVED)
**IDAPA 34 – OFFICE OF THE SECRETARY OF STATE**  
**DOCKET NO. 34-0000-1900**  
**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 34-216, 42 U.S.C., 67-6603, 67-6607, 67-6608, 67-6610, 67-2211, 67-6612, 67-6614A, 67-6619, 67-6623, 67-903(9), Title 45 Chapter 2, Title 67 Chapter 52, 50-1304, 55-1606, and 55-1906, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 34, rules of the Secretary of State:

**IDAPA 34**
- 34.02.02, Rules Governing Complaint Process Under the Help America Vote Act
- 34.03.01, Rules Implementing the Sunshine Law
- 34.04.02, Rules Governing Business Entity Names
- 34.05.05, List of Federal Liens in Agricultural Crops
- 34.06.01, Rules Governing the Electronic Recording of Real Property
- 34.06.02, Rules Governing the Electronic Recording of Plats, Records of Survey, and Corner Records

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. As these rules contain the definitions, processes, and restrictions for implementation of the existing statutes pertinent to the above sections, they are necessary for the continued recordation of citizen information, election transparency and reporting, and due process.

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.
INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Chad Houck, Deputy Secretary of State at (208) 332-2862.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

Chad Houck
Deputy Secretary of State
Secretary of State
450 N. 4th Street
P.O. Box 83720
Boise, ID 83720-0080
(208) 332-2862
000. LEGAL AUTHORITY.
This chapter is promulgated pursuant to Section 34-216, Idaho Code, and 42 U.S.C. Section 15512. Federal law requires the Secretary of State to establish an administrative complaint procedure to remedy grievances under the Help America Vote Act, 42 U.S.C. Section 15481, et seq. (3-20-04)

001. TITLE AND SCOPE.

01. Title. The rules in this chapter shall be known as IDAPA 34.02.02, “Rules Governing Complaint Process Under the Help America Vote Act,” and may be cited as IDAPA 34.02.02. (3-20-04)

02. Scope. This chapter provides a uniform, nondiscriminatory procedure for the resolution of any complaint alleging a violation of any provision of Title III of the Help America Vote Act of 2002, 42 United States Code Sections 15481, et seq., including a violation that has occurred, is occurring, or is about to occur. The procedure set out in this chapter does not apply to an election recount under Sections 34-2301 et seq., Idaho Code, or to an election contest under Sections 34-2001 et seq., and 34-2101 et seq, Idaho Code. A Complainant who wishes to challenge the validity of any primary, general or special election, or to determine the validity of any ballot or vote must seek relief as otherwise provided by law. (3-20-04)

002. WRITTEN INTERPRETATIONS.
Written Interpretations of this chapter are available by mail from the Idaho Secretary of State. (3-20-04)

003. ADMINISTRATIVE APPEALS.
Administrative appeals are not available within the Secretary of State’s Office. (3-20-04)

004. INCORPORATION BY REFERENCE.
No documents have been incorporated by reference into this Chapter. (3-20-04)

005. CONTACT INFORMATION.
The Office of the Secretary of State is located in Boise, Idaho, in the Statehouse at 700 West Jefferson, Room E205. Office hours are Monday - Friday 8 a.m.- 5 p.m. except for legal holidays. The mailing address is P.O. Box 83720, Boise, Idaho 83720-0080. The Election Division telephone number is (208) 334-2852. The website address is http://www.sos.idaho.gov/ (3-20-04)

006. PUBLIC RECORDS ACT COMPLIANCE.
This chapter and its contents are subject to the Idaho Public Records Law. (3-20-04)

007. -- 009. (RESERVED)

010. DEFINITIONS.
In this chapter, the following terms have the meanings indicated.

01. Complainant. Means the person who files a complaint with the Secretary of State under this rule; (3-20-04)

02. Respondent. Means any State or County election official whose actions are asserted, in a complaint under this subtitle, to be in violation of Title III; (3-20-04)

011. **WHO MAY FILE.**
Any person who believes that there is a violation of any provision of Title III may file a complaint. (3-20-04)

012. **FORM OF COMPLAINT.**

01. **Writing and Notarization.** A complaint shall be in writing and notarized, signed and sworn under oath by the Complainant. The complaint must identify the Complainant by name and mailing address. The complaint must identify the section of Title III for which a violation is alleged. The complaint must set out a clear and concise description of the claimed violation that is sufficiently detailed to apprise both the Respondent and the hearing officer or arbitrator of the claimed violation. The complaint procedure is limited to allegations of violations of Title III in a federal election. (3-20-04)

02. **Prescribed or Other Form.** The Complainant may use:

a. The form prescribed by the Idaho Secretary of State, which is available from the Idaho Secretary of State Election Division, or which may be downloaded from the Idaho Secretary of State Election Division’s website at http://www.sos.idaho.gov/; or (3-20-04)

b. Any other form satisfying the requirements of Subsection 012.02.a. of this rule. (3-20-04)

013. **PLACE AND TIME FOR FILING, COPY FOR RESPONDENT.**

01. **Place for Filing.** A complaint shall be filed with the Election Division, along with adequate proof of mailing or delivery of a copy of the complaint to each Respondent. (3-20-04)

02. **Time for Filing.** A complaint may be filed no later than ninety (90) days after the final certification of the federal election and at issue. A complaint may be filed anytime prior to an election. (3-20-04)

03. **Copy for Respondent.** The Complainant shall mail or deliver a copy of the complaint to each Respondent. (3-20-04)

04. **Rejection of Complaint.** The Election Division shall examine each complaint, and may reject it for filing if:

a. It is not signed and notarized under oath; (3-20-04)

b. It does not identify the Complainant or include an adequate mailing address; (3-20-04)

c. Does not, on its face, allege a violation of Title III with regard to a federal election; or (3-20-04)

d. More than ninety (90) days have elapsed since the final certification of the federal election at issue. (3-20-04)

014. **PROCESSING OF COMPLAINT.**

01. **Consolidation.** The Secretary of State may consolidate complaints if they relate to the same actions or events, or if they raise common questions of law or fact. (3-20-04)

02. **Preparing the Complaint for Determination.** The Secretary of State shall take all necessary steps to prepare the complaint for determination under these rules. In the course of preparing the complaint for determination, the Secretary of State shall allow a party to proceed with the assistance of an English language interpreter if the Complainant is unable to proceed without assistance of an interpreter. It is the responsibility of the party who needs an interpreter to secure the services of the interpreter. The Secretary of State, in coordination with the parties, shall establish a schedule under which the Complainant and Respondent may file written submissions
03. Record. (3-20-04)
   a. The Secretary of State shall compile and maintain an official record in connection with each complaint under this rule; (3-20-04)
   b. The official record shall contain:
      i. A copy of the complaint including any amendments made with the permission of the Secretary of State; (3-20-04)
      ii. A copy of any written submission by the Complainant; (3-20-04)
      iii. A copy of any written response by any Respondent or other interested person; (3-20-04)
      iv. A written report of any investigation conducted by employees of the Secretary of State or Office of Attorney General who shall not be directly involved in the actions or events complained of, and shall not directly supervise or be directly supervised by any Respondent; (3-20-04)
      v. Copies of all notices and correspondence to or from the Secretary of State in connection with the complaint; (3-20-04)
      vi. Originals or copies of any tangible evidence produced at any hearing conducted under Section 015; (3-20-04)
      vii. The original tape recording produced at any hearing conducted under Subsection 015.07 of these rules, and a copy of any transcript obtained by any board or other party; and (3-20-04)
      viii. A copy of any final determination made under Sections 016 or 017. (3-20-04)

015. HEARING. (3-20-04)

01. Hearing on the Record. At the request of the Complainant, the Secretary of State shall conduct a hearing on the record. (3-20-04)

02. Time Frame for Hearing. The hearing shall be conducted no sooner than ten (10) days and no later than thirty (30) days after the Secretary of State receives the complaint. The Secretary of State shall give at least ten (10) business days’ advance notice of the date, time, and place of the hearing:
   a. By mail, to the Complainant, each named Respondent, and any other interested person who has asked in writing to be advised of the hearing; (3-20-04)
   b. On the Election Division web site; and (3-20-04)
   c. By posting in a prominent place, available to the general public, at the offices of the Election Division; (3-20-04)

03. Hearing Officer. The Secretary of State or his designee shall act as hearing officer. (3-20-04)

04. Who May Appear. The Complainant, any Respondent, or any other interested member of the public may appear at the hearing and testify or present tangible evidence in connection with the complaint. Each witness shall be sworn. The hearing officer may limit the testimony, if necessary, to ensure that all interested participants are able to present their views. The hearing officer may recess the hearing and reconvene at a later date, time, and place announced publicly at the hearing. (3-20-04)

05. Representation by an Attorney Not Necessary. A Complainant, Respondent, or other person who
testifies or presents evidence at the hearing may, but need not be, represented by an attorney. (3-20-04)

06. **Written Presentation.** If a person has already testified or presented evidence at the hearing and wishes to contradict testimony or evidence subsequently presented, that person is not entitled to be heard again, but may make a written presentation to the hearing officer. (3-20-04)

07. **Tape Recording of Proceedings.** The proceedings shall be tape-recorded by and at the expense of the Election Division. The recording shall not be transcribed as a matter of course, but the Election Division, or any party may obtain a transcript at its own expense. If a party obtains a transcript, the party shall file a copy as part of the record, and any other interested person may examine the record copy. (3-20-04)

08. **Filing of Written Brief or Memorandum.** Any party to the proceedings may file a written brief or memorandum within five (5) business days after the conclusion of the hearing. No responsive or reply memoranda will be accepted except with the specific authorization of the hearing officer. (3-20-04)

016. **FINAL DETERMINATION.**

01. **If No Hearing is Held.** If there has been no hearing under Section 015, the Secretary of State or his designee shall review the record and determine whether, under a preponderance of the evidence standard, a violation of Title III has been established. (3-20-04)

02. **Determination of Violation.** At the conclusion of any hearing under Section 015, the hearing officer shall determine, under a preponderance of the evidence standard, whether a violation of Title III has been established. (3-20-04)

03. **Form of Determination.**

a. If the Secretary of State or his designee, whether acting as hearing officer or otherwise, determines that a violation has occurred, the Secretary of State shall provide the appropriate remedy. The remedy shall be directed to the improvement of processes or procedures governed by Title III. The remedy so provided may include an order to any Respondent, commanding the Respondent to take specified action, or prohibiting the Respondent from taking specified action, with respect to a past or future election; however, the remedy may not include an award of money damages or attorney’s fees. The remedy may not include the denial of certification or the invalidation of any primary, general or special election, or a determination of the validity of any ballot or vote. Remedies addressing the certification of an election, the validity of an election, or of any ballot or vote may be obtained only as otherwise provided by law; (3-20-04)

b. If the complaint is not timely or not in proper form, or if the Secretary of State or his designee, whether acting as hearing officer or otherwise, determines that a violation has not occurred, or that there is not sufficient evidence to establish a violation, the Secretary of State shall dismiss the complaint; (3-20-04)

04. **Explanation in Written Decision.** The Secretary of State or his designee shall explain in a written decision the reasons for the determination and for any remedy selected. (3-20-04)

05. **Issuance of Final Decision.** Except as specified in Section 017, the final determination of the Secretary of State shall be issued within ninety (90) days after the complaint was filed, unless the Complainant consents in writing to an extension. The final determination shall be mailed to the Complainant, each Respondent, and any other interested person who has asked in writing to be advised of the final determination. It shall also be published on the Division’s website and made available on request to any interested person. If the Secretary of State cannot make a final determination within ninety (90) days after the complaint was filed, or within any extension to which the Complainant consents, the complaint shall be referred for final resolution under Section 017. The record compiled under Section 014 of this rule shall be made available for use under Section 017. (3-20-04)

017. **ALTERNATE DISPUTE RESOLUTION.**

If, for any reason, the Secretary of State or his designee does not render a final determination within ninety (90) days after the complaint was filed, or within any extension to which the Complainant consents, the complaint shall be resolved under this Section 017.
01. **Time Frames for Choosing and Arbitrator.** On or before the fifth business day after a final determination by the Secretary of State was due, the Secretary of State shall designate in writing to the Complainant a list of names of arbitrators who may resolve the complaint. Within three (3) business days after the Complainant receives this designation, the Complainant and the Secretary of State shall arrange to choose an arbitrator from this list by striking names from the list until an arbitrator acceptable to both parties is chosen. Within three (3) business days after the parties strike names, the Secretary of State shall contact the arbitrator chosen and arrange for the hearing by the arbitrator. (3-20-04)

02. **Information the Arbitrator May Review.** The arbitrator may review the record compiled in connection with the complaint, including the tape recording or any transcript of a hearing and any briefs or memoranda, but shall not receive additional testimony or evidence. In exceptional cases, the arbitrator may request that the parties present additional briefs or memoranda. (3-20-04)

03. **Resolution of Complaint.** The arbitrator shall determine the appropriate resolution of the complaint as set out in these rules. (3-20-04)

04. **Issuance of Written Resolution.** The arbitrator must issue a written resolution within sixty (60) days after the final determination of the Secretary of State was due under Section 016. This sixty (60) day period may not be extended. The final resolution of the arbitrator shall be transmitted to the Secretary of State and shall be the final resolution of the complaint. The final resolution shall be mailed to the Complainant, each Respondent, and any other interested person who has asked in writing to be advised of the final resolution. It shall be published on the Election Division website and made available on request to any interested person. (3-20-04)

IDAPA 34
TITLE 03
CHAPTER 01

34.03.01 – RULES IMPLEMENTING THE SUNSHINE LAW

000. LEGAL AUTHORITY.

001. TITLE AND SCOPE.
The rules in this Chapter shall be known as IDAPA 34.03.01, “Rules Implementing the Sunshine Law.” (4-6-05)

002. WRITTEN INTERPRETATIONS.
Written Interpretations of this Chapter are available by mail from the Idaho Secretary of State. (4-6-05)

003. CONTACT INFORMATION.
The Office of the Secretary of State is located in Boise, Idaho, in the Statehouse at 700 West Jefferson, Room E205. Office hours are Monday - Friday 8 a.m.- 5 p.m. except for legal holidays. The mailing address is P.O. Box 83720, Boise, Idaho 83720-0080. The Election Division telephone number is (208) 334-2852. The website address is http://www.sos.idaho.gov/ (4-6-05)

004. PUBLIC RECORDS ACT COMPLIANCE.
This Chapter and its contents are subject to the Idaho Public Records Law. (4-6-05)

005. ADMINISTRATIVE APPEALS.
Administrative appeals are not available within the Secretary of State’s Office. (4-6-05)

006. INCORPORATION BY REFERENCE.
No documents have been incorporated by reference into this Chapter. (4-6-05)

007. -- 010. (RESERVED)

011. FORMS.

01. Form for Lobbyist Registration. Pursuant to the authority of Section 23 of the Sunshine Law the official form for lobbyist registration as required by Section 17 is hereby adopted for use in reporting to the Secretary of State. This form shall be designated as “L-1” and shall be available online. The “L-1” form shall be accompanied by payment of a registration fee of ten dollars ($10). (4-6-05)

02. Annual Report Form. The official form for the lobbyist annual report as required by Section 67-6619, Idaho Code is hereby adopted for use in reporting to the Secretary of State. This form shall be designated as “L-2” and shall be available online.

a. Expenditures to be reported are those made or incurred by such lobbyist or on behalf of such lobbyist by the lobbyist’s employer either directly or indirectly for lobbying purposes. The total expenditures shall be cumulative for the calendar year covered by the report. Expenditure categories shall include entertainment, food and refreshment, advertising, living accommodations, travel, telephone, and other expenses or services. (4-6-05)

b. The annual report shall include the name and address of the lobbyist and the name and address of the lobbyists’s employer(s), and the subject matter or proposed legislation and the number of each senate or house bill, resolution, or other legislative activity which the lobbyist has been engaged in supporting or opposing during the reporting period; provided that in the case of appropriation bills the lobbyist shall enumerate the specific section or sections which he supported or opposed. (4-6-05)

c. The annual report shall be certified as a true, complete, and correct statement by the lobbyist and the lobbyists’s employer(s). (4-6-05)
03. **Monthly Report Form.** The official form for the lobbyist monthly report as required by Section 67-6619, Idaho Code is hereby adopted for use in reporting to the Secretary of State. This form shall be designated as “L-3” and shall be available online. (4-6-05)

   a. Expenditures to be reported are those made or incurred by such lobbyist or on behalf of such lobbyist by the lobbyist’s employer either directly or indirectly for lobbying purposes. The expenditure totals in such reports shall not be cumulative throughout the year but rather shall reflect the total expenditures during the calendar month covered by the report. Expenditure categories shall include entertainment, food and refreshment; advertising; living accommodations; travel; telephone; and other expenses or services. (4-6-05)

   b. The monthly periodic report shall include the name and address of the lobbyist and the name and address of the lobbyist’s employer; and the subject matter of proposed legislation and the number of each senate or house bill, resolution, or other legislative activity which the lobbyist has been engaged in supporting or opposing during the reporting period; provided that in the case of appropriation bills the lobbyist shall enumerate the specific section or sections which he supported or opposed. (7-1-93)

   c. The monthly report shall be certified as a true, complete, and correct statement by the lobbyist. (4-6-05)

04. **Form for the Appointment and Certification of Political Treasurer.** The official form for the appointment and certification of a political treasurer as required by Section 67-6603, Idaho Code is hereby adopted for use in reporting to the Secretary of State. This form shall be numbered “C-1” designated as “Appointment and Certification of Political Treasurer for Candidates and Committees” and shall be available online. (4-6-05)

05. **Forms for the Disclosure of Campaign Finances by Candidates and Political Committees.** The official forms for the statement required by Sections 67-6607, 67-6608, and 67-6612, Idaho Code are hereby adopted for use in reporting to the Secretary of State. The form numbered “C-2” shall be designated “Campaign Financial Disclosure Report” and shall be available online. The form numbers “C-2A” shall be designated “Contributions Pledged But Not Yet Received” and shall be available online. The form numbered “C-2B” shall be designated “Expenditures Incurred (Debts and Obligations) and Payments Made on Debt” and shall be available online. (4-6-05)

06. **Form for Report of Alleged Violation of Sunshine Law.** Pursuant to the authority of Section 67-6623(f), Idaho Code of the Sunshine Law the official form to be used in filing a complaint that a person has violated the Sunshine Law is hereby adopted for use in reporting to the Secretary of State. This form shall be designated as “L-5” and shall be available online. Any person may file a complaint against anyone covered by the Sunshine Law. Such complainant must submit form “L-5” to properly file his complaint. No other method of filing a complaint will be recognized. (4-6-05)

012. **DATE OF RECEIPT.**
When any application, report, statement, notice or any other document required to be filed by the provisions of Title 67, Chapter 66, Idaho Code has been deposited post paid in the United States mail properly addressed, it shall be deemed to have been received on the date of mailing. It shall be presumed that the date shown by the post office cancellation mark on the envelope is the date of mailing. (7-1-93)

013. **EXPENDITURES OTHER THAN CONTRIBUTIONS.**

   01. **Reporting Periods.** Reporting periods for disclosing expenditures other than contributions. The reporting periods for the statements required by Section 67-6611, Idaho Code shall be as follows: (7-1-93)

      a. The period covered by the Thirty (30) Day Post-Primary report shall be from the date of the first independent expenditure thru the twentieth (20th) day after the primary election. (7-1-93)

      b. The period covered by the Thirty (30) Day Post-General report shall begin on the twenty-first day following the primary election and continue thru the twentieth (20th) day following the general election. (7-1-93)

014. **SOURCE OF CASH ON HAND.**
Newly certified committees must disclose source of cash on hand. Political committees and candidates which have
cash on hand at the time of certification (which the committee or candidate anticipates using in an election) shall disclose on their first report the source(s) of these funds, including the information required by Section 67-6612, Idaho Code. Disclosure shall consist of reporting to the Secretary of State the name and address of each person who has contributed more than fifty dollars ($50) to the committee in the current calendar year and the immediately preceding calendar year along with the aggregate amount contributed by each person. (7-1-93)

015. ADVERTISING REGULATION EXEMPTION.
Items exempt from advertising regulation. Campaign buttons, bumper strips, pins, pens and similar small items upon which a disclaimer cannot be conveniently printed are not deemed to be regulated by the provisions of Section 67-6614A, Idaho Code. (7-1-93)

016. COMMUNITY PROPERTY CONTRIBUTIONS.

01. Contributions of Community Property -- How Treated. A contribution of community property shall be deemed to be given one-half (1/2) by each spouse. To be treated as community property the contribution must be specifically identified as such. Moneys contributed from a joint account of husband and wife shall be deemed to be received one-half (1/2) from each spouse only if both spouses have signed the check. The following are examples of contributions:

a. Husband contributes sixty dollars ($60) by personal check to political treasurer X out of community funds. There is no specific designation that such sixty dollars ($60) contribution is community property. X must treat the entire sixty dollars ($60) contribution as coming from husband. (7-1-93)

b. Husband contributes by personal check sixty dollars ($60) to a political treasurer X out of community funds. Accompanying such contribution is a statement certifying that such contribution is from the community funds of husband and wife. X must report husband and wife as each contributing thirty dollars ($30). (7-1-93)

c. Wife contributes sixty dollars ($60) to political treasurer X by personal check drawn on the joint account of husband and wife. Wife is the only spouse to sign the check. X must report the entire sixty dollars ($60) as being contributed by wife. (7-1-93)

d. Husband and wife contribute sixty dollars ($60) to political treasurer X by a check drawn on their joint account both husband and wife have signed the check. X should report husband and wife as each contributing thirty dollars ($30). (7-1-93)

e. Assuming that after contributing as in the example in Subsection 016.01.d., husband contributes separately another twenty-five dollars ($25) X should report husband aggregate total as fifty-five dollars ($55) and pursuant to Section 67-6610 must list husband’s name and address on the campaign financial disclosure report. (7-1-93)

017. -- 999. (RESERVED)
34.04.02 – RULES GOVERNING BUSINESS ENTITY NAMES

000. LEGAL AUTHORITY.
In accordance with Section 67-903(9), Idaho Code, the Secretary of State has authority to promulgate administrative rules in order to execute the duties of the office. (3-29-12)

001. TITLE AND SCOPE.

01. Title. These rules shall be cited as IDAPA 34.04.02, “Rules Governing Business Entity Names,” IDAPA 34, Title 04, Chapter 02. (3-29-12)

02. Scope. These rules shall apply to business entity name registration and business entity name reservation as provided for in Title 30, Chapters 1, 3 and 6, and Title 53, Chapter 2, Idaho Code. (3-29-12)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201, Idaho Code, documents relating to the interpretation of these rules, or to the documentation of compliance with the rules of this chapter, if any, are available for public inspection and copying at the Office of the Secretary of State. (3-29-12)

003. ADMINISTRATIVE APPEALS.
This chapter does not provide for appeal. (3-29-12)

004. INCORPORATION BY REFERENCE.
No documents are incorporated by reference into these rules. (3-29-12)

005. OFFICE -- OFFICE HOURS -- MAILING ADDRESS AND STREET ADDRESS.
The Office of the Secretary of State is located in Boise, Idaho, in the Statehouse at 700 West Jefferson, Room E205. The Commercial Division is located at 450 North 4th Street, Boise, Idaho. Office hours are Monday - Friday 8 a.m. - 5 p.m. except for legal holidays. The mailing address is P.O. Box 83720, Boise, Idaho 83720-0080. The telephone number for the office is (208) 334-2300. The telephone number for business entity inquiries is (208) 334-2301. The website address is http://www.sos.idaho.gov/. (3-29-12)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated in accordance with the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (3-29-12)

007. -- 009. (RESERVED)

010. DEFINITIONS.

01. Arabic Numerals. 0, 1, 2, 3, 4, 5, 6, 7, 8, and 9. (3-29-12)

02. Business Entity. A formally organized or registered entity created pursuant to state or federal law and usually designated through the use of a business entity identifier. (3-29-12)

04. English Alphabet. Letters A through Z. (3-29-12)

05. Internet Prefix. Internet prefixes include “www” and any other Internet prefix used to identify a
06. **Internet Suffix.** Internet suffixes include .com, .org, .net, .gov, .edu, .coop, and any other Internet suffixes approved by the Internet Corporation for Assigned Names and Numbers (ICANN). (3-29-12)

07. **Key Word.** Any word that is not an article, preposition, conjunction, or Business Entity Identifier. (3-29-12)

08. **Special Characters.** Any special characters, such as ! " $ % ( ) * @ ? +, and -, that are readily available on a standard English language keyboard. (3-29-12)

100. **GENERAL INFORMATION.**

01. **Determination by Secretary of State.** The Secretary of State shall determine whether a proposed business entity name is distinguishable on the records of the Secretary of State from the names of existing business entities by comparing the proposed business entity name to the names of existing business entity names. (3-29-12)

02. **Existing Business Entity Names Considered.** The names of business entities in good standing or business entities which have been administratively dissolved for less than six (6) months will be considered in determining whether a proposed business entity name is distinguishable on the records of the Secretary of State from existing business entity names. (3-29-12)

03. **Alphabet Names.** Where a name or a unit of a name consists of initials only or letters of the alphabet, the combination of initials will be considered as one (1) word for the purpose of determining if the business entity name is distinguishable.

EXAMPLE: The “words” AA – AAA –AAAA –A & B –AAB – AAC are different words and are distinguishable from one another. (3-29-12)

04. **Characters in Business Entity Names.** Business entity names shall consist of letters of the English Alphabet, Arabic Numerals, or Special Characters. (3-29-12)

05. **Foreign Words.** Although business entity names may include words in a foreign language, such words will not be translated for the purpose of determining if a business entity name is distinguishable. (3-29-12)

06. **Grossly Offensive Name.** The business entity name may not be one that is deemed to be grossly offensive. (3-29-12)

07. **Internet Prefixes and Suffixes.** Internet prefixes and suffixes shall not give any special weight or inference to the business entity name, nor shall they be interpreted for meaning or intent. (3-29-12)

08. **False Implication of Government Affiliation.** The corporate name may not be one that might falsely imply governmental affiliation. (3-29-12)

101. **NOT DISTINGUISHABLE ON THE RECORD.**

01. **Abbreviations.** The abbreviation of a word or Special Character is considered the equivalent of the complete word or Special Character. Such an abbreviation shall not make a name distinguishable.

EXAMPLE: DOE BROTHERS, LLC is not distinguishable from DOE BROS., LLC. (3-29-12)

02. **Business Entity Identifiers.** The addition, removal, or alteration of Business Entity Identifiers and their applicable abbreviations shall not make a name distinguishable.
EXAMPLE: DOE BROTHERS CORPORATION is not distinguishable from DOE BROTHERS, INC. (3-29-12)

03. **Numbers.** The use of a word or Roman numeral for a number instead of the Arabic Numeral shall not make a name distinguishable.

EXAMPLE: FOUR TURTLES, LLC is not distinguishable from 4 TURTLES, LLC, nor is it distinguishable from IV TURTLES, LLC. (3-29-12)

04. **Other Words.** The presence or absence of an article, preposition, conjunction, or pronoun shall not make a name distinguishable.

EXAMPLE: THE DOE BROTHERS, LLC is not distinguishable from DOE BROTHERS, LLC. (3-29-12)

05. **Punctuation.** Differences in punctuation shall not make a name distinguishable.

EXAMPLE: U.S.A. STEEL, LLC is not distinguishable from USA STEEL, LLC.
EXAMPLE: PROWIDGETS.COM is not distinguishable from PRO.WIDGETS.COM. (3-29-12)

06. **Spaces.** Spaces, or the absence of spaces, shall not make a name distinguishable.

EXAMPLE: USA STEEL, LLC is not distinguishable from USASTEEL, LLC. (3-29-12)

07. **Special Characters.** Differences created by use of Special Characters shall not make a name distinguishable.

EXAMPLE: AMERICAN PISTOLS, LLC is not distinguishable from AMERICAN P!STOLS, LLC. (3-29-12)

08. **The Letter “S”.** The addition or removal of the letter “s” to make a word singular, plural, or possessive shall not make a name distinguishable.

EXAMPLE: GOLDEN APPLE, LLC is not distinguishable from GOLDEN APPLES, LLC. (3-29-12)

09. **Typeface, Font, or Case.** The use of a different typeface, font, or case shall not make a name distinguishable.

EXAMPLE: SISTERS’ DINER is not distinguishable from Sisters’ Diner. (3-29-12)

201. -- 299. (RESERVED)

300. **DISTINGUISHABLE ON THE RECORD.**

01. **Key Word Difference.** If one (1) of the Key Words is different, the name is distinguishable.

EXAMPLE: WIDGET WONDER, LLC is distinguishable from WIDGET ELITE, LLC. (3-29-12)

02. **Key Word Order.** If the Key Words are in a different order, the name is distinguishable.

EXAMPLE: WIDGET WONDER, LLC is distinguishable from WONDER WIDGET, LLC. (3-29-12)

03. **Key Word Addition or Deletion.** The addition or deletion of one (1) or more Key Words shall make a name distinguishable.

EXAMPLE: AMAZING WONDER WIDGET, INC. is distinguishable from WONDER WIDGET, INC. (3-29-12)

04. **Difference in Meaning.** If the Key Words are significantly different in meaning, and the Key Words are not identical, the name may be distinguishable.
EXAMPLE: CAPITAL WIDGET, LLC is distinguishable from CAPITOL WIDGET, LLC. (3-29-12)

05. Internet Prefix and Suffix Addition or Deletion. The addition or deletion of an Internet prefix or suffix shall make a name distinguishable.

EXAMPLE: PRECISE WIDGETS, LLC is distinguishable from PRECISEWIDGETS.COM, LLC which is distinguishable from PRECISEWIDGETS.NET.

EXAMPLE: WWW.PROWIDGETS.COM is distinguishable from PRO.WIDGETS.COM. (3-29-12)

301. -- 399. (RESERVED)

400. MATTERS NOT CONSIDERED. When determining whether a business entity name is distinguishable on the records of the Secretary of State from another business entity name, the following are among the matters not considered: (3-29-12)

01. Purpose. Whether the purpose of the proposed business entity is the same as or similar to the purpose of an existing business entity. (3-29-12)

02. Location. Whether the business entities will be carrying out activities in the same or nearby locations. (3-29-12)

03. Prior Actions. Whether an analogous situation has previously been acted on by the Secretary of State. (3-29-12)

04. Activity. Whether an existing business entity is actively engaged in business, or has a telephone listing, or a location of a place of business. (3-29-12)

05. Intent. Whether an existing business entity is about to change its name or be dissolved or merged out of existence. (3-29-12)

06. Reliance. Whether the applicant has ordered stationery, opened a bank account, signed a contract, or otherwise altered his position in the expectation, hope or belief that the proposed name would be available. (3-29-12)

07. Influence. Whether the applicant is more or less important, extensive, widely known, or influential than an existing business entity. (3-29-12)

08. Common Law. Whether infringement or unfair trade practice has occurred or might occur. (3-29-12)

401. -- 999. (RESERVED)
34.05.05 – LIST OF FEDERAL LIENS IN AGRICULTURAL CROPS

000. LEGAL AUTHORITY AND REFERENCES.
  01. Title 45, Chapter 2, Idaho Code. (7-1-93)
  02. Title 67, Chapter 52, Idaho Code. (7-1-93)
  03. IDAPA 34.05.02, “Rules Governing Liens in Crops, for Seed, and Farm Labor,” Office of the Secretary of State. (7-1-93)

001. -- 003. (RESERVED)

004. DEFINITIONS AND ABBREVIATIONS.
Where terms used in this rule are not defined herein, definitions and usage of terms from the references are applicable. (7-1-93)
  01. IRS. United States Internal Revenue Service, as well as other federal entities which may file notices of federal lien pursuant to Title 45, Chapter 2, Idaho Code. (7-1-93)
  02. SOS. Idaho Secretary of State. (7-1-93)

005. -- 010. (RESERVED)

011. NOTICE OF FEDERAL LIENS IN AGRICULTURAL CROPS.
When the IRS files a notice of lien in personal property of an entity described in sub-paragraph (1), (2) or (3) of paragraph (c) of Section 45-202, Idaho Code, and the property includes agricultural crops, the IRS may identify the notice as pertaining to crops. The identification shall be by conspicuous notation on the face of the notice. (7-1-93)

012. COMPILATION AND DISTRIBUTION OF LIST.
  01. Content. The SOS shall compile a list of effective notices of federal liens pertaining to agricultural crops, arranged alphabetically by lienee name. Each entry on the list will include; (7-1-93)
    a. The name and address of the lienee(s); (7-1-93)
    b. The name of the federal entity claiming the lien; (7-1-93)
    c. The SOS document number; (7-1-93)
    d. The date of attachment of the lien; and (7-1-93)
    e. The date and time of filing of the notice. (7-1-93)
  02. Schedule. The SOS will publish the list on the same schedule as the list of notices of claim of lien in crops for seed or farm labor, as prescribed in IDAPA 34.05.02, Section 015, “Rules Governing Liens in Crops, For Seed, and Farm Labor,” Office of the Secretary of State. (7-1-93)
  03. Recipients. The SOS will distribute the list to persons who subscribe for the list of notices of claim of lien in crops pursuant to IDAPA 34.05.02, Section 014, “Rules Governing Liens in Crops, For Seed, and Farm Labor,” Office of the Secretary of State, at no additional charge. (7-1-93)

013. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
In accordance with Section 67-903(9), Idaho Code, the Secretary of State has authority to promulgate administrative rules in order to execute the Uniform Real Property Electronic Recording Act enacted as Title 31, Chapter 29, Idaho Code. (3-20-14)

001. TITLE AND SCOPE.

01. Title. These rules shall be cited as IDAPA 34.06.01, “Rules Governing the Electronic Recording of Real Property,” IDAPA 34, Title 06, Chapter 01. (3-20-14)

02. Scope. These rules shall govern the filing, acceptance, indexing and searching of real property records in the county recording offices under Title 31, Chapter 29, Idaho Code. (3-20-14)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, documents relating to the interpretation of these rules, and to the documentation of compliance with this chapter, are available for public inspection and copying at the Office of the Secretary of State. (3-20-14)

003. ADMINISTRATIVE APPEALS.
This chapter does not provide for appeal of the filing requirements. (3-20-14)

004. INCORPORATION BY REFERENCE.
Data and document formats necessary for electronic recording are incorporated by reference. (3-20-14)

01. PRIA Standards. Electronic recording of real property documents shall meet technical standards for document formatting and document data fields and follow implementation guidelines as prescribed by the Property Records Industry Association (PRIA) which are hereby incorporated by reference, made a part of this rule, and listed below: (3-20-14)

a. PRIA Request Version 2.4.2, August 2007; (3-20-14)
b. PRIA Response Version 2.4.2, August 2007; (3-20-14)
c. Document Version 2.4.1, October 2007; (3-20-14)
d. Notary Version 2.4.1, October 2007; (3-20-14)
e. eRecording XML Implementation Guide for Version 2.4.1, Revision 2, March 2007; (3-20-14)
f. URPERA Enactment and eRecording Standards Implementation Guide, December 2005. (3-20-14)

02. Standards Availability. These standards are available from the Property Records Industry Association, 2501 Aerial Center Parkway, Ste. 103, Morrisville, NC 27560, and at http://www.pria.us/. (3-20-14)

005. OFFICE HOURS -- CONTACT INFORMATION.
The Office of the Secretary of State is located in Boise, Idaho, in the Statehouse located at 700 West Jefferson. The Commercial Division is in the Basement at the West End of the Capitol and is open from 8 a.m. to 5 p.m. except Saturdays, Sundays and legal holidays. The mailing address is: Secretary of State’s Office, P.O. Box 83720, Boise, Idaho 83720-0080. The telephone number is (208) 334-2300. The facsimile number is (208) 334-2282. (3-20-14)

006. PUBLIC RECORDS ACT COMPLIANCE.
All records associated with these rules are subject to the provisions of the Idaho Public Records Act, Title 74, Chapter
010. **DEFINITIONS.**

01. **Delivery Agent.** A party who has entered into an agreement with a Participating Recorder to deliver an Electronic Document from a Submitter to a Participating Recorder and to return the recorded Electronic Document to the Submitter. (3-20-14)

02. **Document.** The meaning shall be the same as provided in Section 31-2902, Idaho Code. (3-20-14)

03. **Electronic Document.** The meaning shall be the same as provided in Section 31-2902, Idaho Code. (3-20-14)

04. **Electronic Document Delivery System.** An automated system for the secure transmission of an Electronic Document between a Submitter and a Participating Recorder through the use of a Delivery Agent. (3-20-14)

05. **Electronic Recording.** The delivery and return of an Electronic Document, using an Electronic Document Delivery System, for the purpose of recording that document with the county records. (3-20-14)

06. **Electronic Signature.** The meaning shall be the same as provided in Section 31-2902, Idaho Code. (3-20-14)

07. **Participating Recorder.** A county recorder who has elected to accept Electronic Documents for recording. (3-20-14)

08. **PDF (Portable Document Format).** The file format originally created by Adobe Systems for document exchange allowing documents to be viewed as they were intended to appear. PDFs are a common format for image exchange or World Wide Web presentation. (3-20-14)

09. **Submitter.** A party who requests that an Electronic Document be recorded. (3-20-14)

10. **TIFF (Tagged Image File Format).** The variable-resolution bitmapped image format originally developed by the Aldus Corporation (now part of Adobe Systems) and published as ISO 12639:2004, Graphic technology-Prepress digital data exchange-Tag image file format for image technology (TIFF/IT). TIFF is a common format for high-quality black and white, gray-scaled, or color graphics of any resolution and is made up of individual dots or pixels. (3-20-14)

11. **XML (Extensible Markup Language).** An extensible document language for specifying document content. XML is not a predefined markup language but a metalanguage (a language for describing other languages) allowing the user to specify a document type definition (DTD) and design customized markup languages for different classes of documents. (3-20-14)

101. **ELECTRONIC RECORDING MODELS.**

Electronic Documents shall conform to one of the following models:

01. **Model 1.** Model 1, which utilizes scanned ink-signed Documents, transmitted without XML indexing data; (3-20-14)

02. **Model 2.** Model 2, which utilizes scanned ink-signed Documents or Documents that have been created and signed electronically, transmitted with XML indexing data; or (3-20-14)

03. **Model 3.** Model 3, which utilizes Documents that have been created and signed electronically,
transmitted with embedded XML indexing data. (3-20-14)

102. TRANSMITTED FILES.

01. Technical Standards for Transmitted Files. The technical standards for document formatting and data fields for Electronic Recording are those in effect at the time of the Electronic Recording as prescribed by the Property Records Industry Association (PRIA) in the PRIA eRecording XML Standard Version 2.4, which includes PRIA Request Version 2.4.2 (August 2007); PRIA Response Version 2.4.2 (August 2007); Document Version 2.4.1 (October 2007); and Notary Version 2.4.1 (October 2007). (3-20-14)

03. Storage Formats. Electronic Documents shall be transmitted and stored as either TIFF or PDF files, in accordance with the TIFF 6.0 specification, published by the International Organization for Standardization as ISO 12639:2004, Graphic technology - Prepress digital data exchange - Tag image file format for image technology (TIFF/IT), or the PDF 1.7 specification, published by the International Organization for Standardization as ISO 32000-1:2008, Document management - Portable document format - Part 1: PDF 1.7. (3-20-14)

103. DATA FORMATS.
The data format for Electronic Recordings shall meet technical standards and data fields set forth by the Property Records Industry Association (PRIA) in the PRIA eRecording XML Standard Version 2.4, which includes PRIA Request Version 2.4.2 (August 2007); PRIA Response Version 2.4.2 (August 2007); Document Version 2.4.1 (October 2007); and Notary Version 2.4.1 (October 2007). The PRIA eRecording XML Implementation Guide for Version 2.4.1, Revision 2 (March 2007) should be consulted for reference. (3-20-14)

104. PARTICIPATING RECORDER.

01. Documents Accepted. A Participating Recorder is only required to accept Electronic Documents containing Electronic Signatures or notarizations that the Participating Recorder has the technology to support. (3-20-14)

02. Authentication. A Participating Recorder has no responsibility to authenticate Electronic Signatures or notarizations. (3-20-14)

105. ELECTRONIC RECORDING PROCESSING REQUIREMENTS.

01. Notice Requirements. A Participating Recorder shall provide appropriate notification to the Delivery Agent of the confirmation or rejection of an Electronic Recording through the Electronic Document Delivery System. (3-20-14)

a. A notice of confirmation shall identify and include recording information for the recorded Electronic Document. (3-20-14)

b. A notice of rejection shall identify the rejected Electronic Document and include a brief explanation of the reason for rejection. (3-20-14)

c. The Delivery Agent shall notify the Submitter of the confirmation or rejection of the Electronic Document. (3-20-14)

d. The failure of a Submitter to receive actual notice of confirmation or rejection of a recording shall not affect the validity of the confirmation or rejection. (3-20-14)

02. Contact Information. A Participating Recorder may contact a Submitter regarding an Electronic Document submitted for recording prior to sending a notice of confirmation or rejection. The Delivery Agent shall ensure that the Submitter includes telephone or email contact information with each Electronic Document submission. (3-20-14)
03. Time of Receipt. A Participating Recorder shall enter the time of receipt of Electronic Documents in accordance with Section 31-2410, Idaho Code.

106. SECURITY REQUIREMENTS.

Procedures shall be implemented and maintained to ensure the security of the Electronic Document Delivery System, including the authenticity and integrity of the Electronic Documents maintained by the Participating Recorder.

01. Secure Method. A Participating Recorder shall provide a secure method for accepting Documents through the Electronic Document Delivery System and for recording and maintaining Electronic Documents within the Participating Recorder's records.

02. Security Procedures. A Delivery Agent shall implement and maintain security procedures for all electronic transmissions and shall be responsible for maintaining the security of the systems within their offices.

03. System and Security Failures. Electronic Document Delivery Systems shall protect against system and security failures and, in addition, shall provide backup, disaster recovery and audit trail mechanisms. Delivery Agents shall provide audit trail information to Participating Recorders on request.

04. Unauthorized Party. Electronic Document Delivery Systems shall not permit any unauthorized party to modify, manipulate, insert or delete information, without detection, in Electronic Documents or in the public record maintained by the Participating Recorder.

05. Notification of Breach. If a breach in security is detected by the Participating Recorder, Delivery Agent or Submitter, the party discovering the breach shall notify the other parties immediately. All parties shall work cooperatively to take remedial action and to resolve any issues related to a breach.

107. AGREEMENT AND PROCEDURES.

01. Participation Agreement. The Delivery Agent and the Participating Recorder shall enter into an agreement specifying the requirements for Electronic Document recording with the county. At a minimum, the agreement shall address the following items:

a. Accepted Electronic Recording models;

b. Accepted Electronic Document types;

c. Defined technical specifications for data formats, document formats, electronic transmissions and security;

d. If used by the Participating Recorder, indexing fields required for each Electronic Document;

e. Electronic Signature and notarization requirements;

f. Payment options for recording fees and applicable taxes;

g. Hours during which Electronic Documents will be accepted and processing schedules that affect order of acceptance;

h. Electronic Document acceptance and rejection requirements and procedures;

i. Responsibility of the Delivery Agent to review the qualifications of each potential Submitter and to approve the potential Submitter prior to granting access to the Electronic Document Delivery System; and
j. Responsibility of the Delivery Agent to enter into an agreement with each approved Submitter, in which the Submitter agrees to submit Electronic Documents for recording in accordance with all applicable state statutes and rules and to maintain the security of the systems within the Submitter’s offices. (3-20-14)

02. Other Procedures and Requirements. A Participating Recorder may include in the agreement other procedures and requirements needed in order to implement fully an Electronic Recording program. (3-20-14)

03. Establishment and Posting of Procedures. A Participating Recorder shall establish procedures for Electronic Recording in the municipality and shall post the procedures in the recorder’s office, on the municipality’s Internet website, if available, and through the Electronic Document Delivery System, and shall make a copy of the procedures available on request. The procedures shall cover, at a minimum, the items listed above in this subsection. (3-20-14)

108. -- 999. (RESERVED)
000. LEGAL AUTHORITY.  
In accordance with Section 67-903(9), Section 50-1304, 55-1606, and 55-1906 Idaho Code, the Secretary of State has authority to promulgate administrative rules in order to execute electronic filing or recording of land surveying drawings and forms not inconsistent with the Uniform Real Property Electronic Recording Act enacted as Title 31, Chapter 29, Idaho Code and IDAPA 36.06.01 Rules Governing the Electronic Recording of Real Property. (4-11-19)

001. TITLE AND SCOPE.

01. Title. These rules will be cited as IDAPA 34.06.02, “Rules Governing the Electronic Recording of Plats, Records of Survey, and Corner Records,” IDAPA 34, Title 06, Chapter 02. (4-11-19)

02. Scope. These rules will govern the electronic filing, recording and retrieval of plats, records of survey and corner filing and perpetuation forms - known as corner records in the county recording offices under Title 50, Chapter 13, and Title 55, Chapters 16 and 19, Idaho Code. Only documents signed and sealed by a licensed professional land surveyor may be submitted for electronic filing or recording as governed by this chapter. Additional signatures and approvals are required by the county for plats as described in Title 50, Chapter 13, Idaho Code. (4-11-19)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, documents relating to the interpretation of these rules, and to the documentation of compliance with this chapter, are available for public inspection and copying at the Office of the Secretary of State or the Office of the Board of Licensure for Professional Engineers and Land Surveyors. (4-11-19)

003. ADMINISTRATIVE APPEALS.
This chapter does not provide for appeal of the electronic filing, recording or retrieval requirements. (4-11-19)

004. PUBLIC RECORDS ACT COMPLIANCE.
All records associated with these rules are subject to the provisions of the Idaho Public Records Act, Title 74, Chapter 1, Idaho Code. (4-11-19)

005. -- 009. (RESERVED)

010. DEFINITIONS.

01. Document. The meaning will be the same as provided in Section 31-2902, Idaho Code. (4-11-19)

02. Electronic Document. The meaning will be the same as provided in Section 31-2902, Idaho Code. (4-11-19)

03. Electronic Recording. The delivery and return of an electronic document for the purpose of recording that document with the participating recorder. (4-11-19)

04. Electronic Signature. The meaning will be the same as provided in 31-2902(4), Idaho Code. (4-11-19)

05. Participating Recorder. A county recorder who has elected to accept Electronic Documents for filing, recording or retrieval. (4-11-19)

06. CAD (Computer-Aided Drafting). Software used to create drawings in vector format. (4-11-19)
07. DWG (Drawing). A proprietary binary file format used for storing two- and three-dimensional design data and metadata. It is the native format for several CAD packages including DraftSight, AutoCAD™, IntelliCAD™ (and its variants), Caddie™ and Open Design Alliance compliant applications. (4-11-19)

08. DXF (Drawing eXchange Format). A file extension for a graphic image format typically used with AutoCAD™. (4-11-19)

09. PDF (Portable Document Format). The meaning shall be the same as provided in IDAPA 34.06.01, Rules Governing the Electronic Recording of Real Property. (4-11-19)

10. TIFF (Tag Image File Format). The meaning shall be the same as provided in IDAPA 34.06.01, “Rules Governing the Electronic Recording of Real Property.” (4-11-19)

11. Submitter. A professionally licensed land surveyor or a person designated by a professionally licensed land surveyor who requests that an electronic document be filed or recorded. (4-11-19)

011. ELECTRONIC FILING AND RECORDING. In addition to the following, electronic documents will conform to IDAPA 34.06.01, Rules Governing the Electronic Recording of Real Property. (4-11-19)

01. Plats And Records Of Survey. Plats and records of survey, which utilizes scanned ink-signed documents or documents that have been created and signed electronically for the purposes of electronic recording must include a PDF or TIF(F) electronic file in the format accepted by the participating recorder. The digital file must also comply to the following standards:

   a. Finished size 18 x 27 as required by 50-1304 or 55-1905, Idaho Code; (4-11-19)
   b. 2-COLOR BLACK/WHITE (1BPPP); (4-11-19)
   c. TIF(F) electronic files and/or scanned images will have a 400 DPI minimum resolution; (4-11-19)
   d. Include an image of the land surveyor's seal and an electronic signature; (4-11-19)
   e. Multiple sheets may be combined into one electronic file, if accepted by the participating recorder. (4-11-19)

02. Corner Record And Filing Forms. Corner record and filing forms – known as corner records, which utilize scanned ink-signed documents or documents that have been created and signed electronically for the purposes of electronic recording must include a PDF or TIF(F) electronic file in the format accepted by the participating recorder. The digital file will be compliant with the requirements of IDAPA 10.01.03, “Rules for Corner Perpetuation and Filing,” and must also comply with the following minimum standards:

   a. Finished size 8.5 x 14; (4-11-19)
   b. 2-COLOR BLACK/WHITE (1BPPP); (4-11-19)
   c. TIF(F) and/or scanned images must have a 400 DPI minimum resolution; (4-11-19)
   d. Include an image of the land surveyor's seal and an electronic signature; (4-11-19)
   e. Multiple sheets may be combined into one electronic file if accepted by the participating recorder. Only one file is allowed for each corner record. (4-11-19)

012. RETRIEVED FILES.

01. Plats and Records Of Survey Retrieval. The files retrieved must be legible at the size reproduced under Subsection 011.01 of this chapter. (4-11-19)
02. Corner Record Retrieval. The files retrieved must be legible at the size reproduced under Subsection 011.02 of this chapter. (4-11-19)

013. PARTICIPATING RECORDER.

01. Documents Accepted. A participating recorder may elect to accept electronic documents containing electronic signatures that the participating recorder has the technology to support. Participating recorders may accept corner records, records of survey, or plats or any combination of the three. (4-11-19)

02. Authentication. Land surveyors must use electronic signatures that are authenticated by a third-party security certificate. A participating recorder has no additional responsibility to independently authenticate electronic signatures. (4-11-19)

014. MINIMUM STANDARDS.

01. Forms. Forms for corner records must comply with the requirements of IDAPA 10.01.03 and are available from the Board of Licensure for Professional Engineers and Land Surveyors. (4-11-19)

02. Corner Records. Minimum standards for corner records are as required in Title 55 Chapter 16, Idaho Code. (4-11-19)

03. Records of Survey. Minimum standards for records of survey are as required in Title 55 Chapter 19, Idaho Code. (4-11-19)

04. Plats. Minimum standards for plats are as required in Title 50, Chapter 13, Idaho Code. (4-11-19)

05. Compliance. Corner records, records of survey, or plats must comply with the requirements of this chapter and the minimum standards prior to electronically filing or recording. (4-11-19)

015. -- 999. (RESERVED)
IDAPA 34 – SECRETARY OF STATE
DOCKET NO. 34-0000-1900F
NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 67-903(9), 28-9-523(g), 28-9-524, 28-9-526, 45-313(3), 45-316, Title 28 Chapter 9 Part 4, Title 45 Chapters 2 and 3 and Title 67 Chapter 52, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 34, rules of the Secretary of State:

IDAPA 34
• 34.04.01, Corporate Name Reservation Renewals
• 34.05.01, Rules Governing Farms Products Central Filing System
• 34.05.02, Rules Governing Liens in Crops for Seed or Liens in Crops for Farm Labor
• 34.05.03, Requests for Information-Form UCC-4-Fees
• 34.05.06, Rules Governing Lien Filings Under the UCC

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. As these rules provide the basis for fees charged and processes and definitions used for the filing of specific name reservations, liens, and lien search requests, their expiration would leave Idaho citizens without the means to protect their interests in these areas.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. As all of these fees collected by the Secretary of State are deposited to the state’s General Fund, the lack of authority for the Secretary of State to collect such fees would have an immediate and negative impact on State revenues.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.
• 34.04.01, Corporate Name Reservation Renewals fee
• 34.05.01, Farms Products Central Filing System filing fees and search fees as previously provided
• 34.05.02, Liens in Crops for Seed or Liens in Crops for Farm Labor filing fees and search fees as previously provided
• 34.05.03, Requests for Information-Form UCC-4 - search fees as previously provided
• 34.05.06, Lien Filings Under the UCC – all fees and cross references to fees found in other sections

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Chad Houck at (208) 332-2962.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

Chad Houck
Deputy Secretary of State
Secretary of State
450 N. 4th Street
P.O. Box 83720-0080
Boise, ID 83720
(208) 332-2862
34.04.01 – CORPORATE NAME RESERVATION RENEWALS

000. LEGAL AUTHORITY.
The Secretary of State is authorized under Section 67-903, Idaho Code, to adopt rules. (7-1-93)

001. -- 010. (RESERVED)

011. RENEWAL TERMS.
A corporate name reservation may be renewed at or after the expiration of any four (4) month reservation period by filing a new name reservation in writing, along with the required fee; provided that at the end of any such reservation period there is not on file in the office of the Secretary of State a competing name reservation which is to take effect at the expiration of the existing reservation. Competing reservations will have priority in order of receipt. Examples follow. (7-1-93)

01. Standby Reservation. On January 2, A reserves the name Acme, Inc. On March 2, B files a name reservation for the name Acme, Inc., to take effect upon the expiration of A’s reservation. Unless A files the articles of incorporation for Acme, Inc. by May 2, B’s reservation becomes effective on May 3, and A cannot renew. (7-1-93)

02. Priority Over Renewal. On January 2, A reserves the name Acme, Inc. On April 15, A files a renewal, to take effect upon the expiration of the first reservation period. On April 30, B files a name reservation for the name Acme, Inc. to take effect upon the expiration of A’s name reservation. On May 3, B’s name reservation becomes effective because it was on file at the expiration of A’s existing reservation. (7-1-93)

03. Priority Among Standby Reservations. On January 2, A reserves the name Acme, Inc. On March 2, B files a name reservation for Acme, Inc. On April 2, C files a name reservation for the name Acme, Inc. On May 3, B’s reservation takes effect because it was filed before C’s reservation and therefore had priority. (7-1-93)

012. -- 999. (RESERVED)
000. LEGAL AUTHORITY.
In accordance with Sections 67-903(9), 28-9-523(g), and 28-9-524, Idaho Code, the Secretary of State has authority to promulgate administrative rules in order to execute the duties of the Office of the Secretary of State. This authority includes rules to implement and maintain the USDA certified Idaho Central Filing System, in accordance with P.L. 99-198, Section 1324 of the Federal Food Security Act (1985) and Title 9, CFR Part 205 (2010). (4-7-11)

001. TITLE AND SCOPE.

01. Title. These rules shall be cited as IDAPA 34.05.01, “Rules Governing Farm Products Central Filing System,” IDAPA 34, Title 05, Chapter 01. (4-7-11)

02. Scope. These rules shall govern the requirements for the filing of Farm Products Financing Statements, for the filing of amendments to Farm Products Financing Statements, and for the compilation and distribution of a master list of Farm Products Financing Statements, and portions of the master list. (4-7-11)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, documents relating to the interpretation of these rules, or to the documentation of compliance with the rules of this chapter, are available for public inspection and copying at the Office of the Secretary of State. (4-7-11)

003. ADMINISTRATIVE APPEALS.
This chapter does not provide for appeal. (4-7-11)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into these rules. (4-7-11)

005. OFFICE -- OFFICE HOURS -- MAILING ADDRESS AND STREET ADDRESS.
The Office of the Secretary of State is located in Boise, Idaho, in the Statehouse at 700 West Jefferson, Room E205. The Commercial Division is located at 450 North 4th Street, Boise, Idaho. Office hours are Monday - Friday 8 a.m. - 5 p.m. except for legal holidays. The mailing address is P.O. Box 83720, Boise, Idaho 83720-0080. The telephone number for the office is (208) 334-2300. The telephone number for business entity inquiries is (208) 334-2301. The website address is http://www.sos.idaho.gov/. (4-7-11)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated in accordance with the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (4-7-11)

007. -- 009. (RESERVED)

010. DEFINITIONS.
The definitions set forth in Section 28-9-102, Idaho Code, apply with full force and effect to all provisions and sections of these rules. Where terms used in this rule are not explicitly or completely defined herein, definitions and usage of terms from the Legal Authority in Section 000 of these rules are applicable. (4-7-11)

01. Crop Year.

a. For a plant or plant product, the calendar year in which it is harvested or to be harvested. (7-1-93)

b. For mammals, the calendar year in which they are born or acquired. (7-1-93)

c. For bees and worms, the calendar year in which they are alive in adult form. (7-1-93)
d. For poultry and the products of mammals, poultry, and bees (i.e., milk, eggs, and honey), the calendar year in which they are sold or to be sold. (4-7-11)
e. For fish and other aquaculture, the calendar year in which they are harvested or to be harvested. (7-1-93)

02. Farm Products Financing Statement. A financing statement covering farm products. (4-7-11)

03. Item on a Master List or Portion of a Master List. An entry on a master list or portion of a master list relating to one (1) Farm Products Financing Statement and one (1) debtor listed thereon. (4-7-11)

04. PML Grouping. That related group of farm products which will appear on one (1) PML. (4-7-11)

011. ABBREVIATIONS.
Where abbreviations used in these rules are not explicitly or completely defined herein, definitions and usage of abbreviations from the Legal Authority in Section 000 of these rules are applicable. (4-7-11)

01. CS. A cumulative supplement to a PML which contains all additions to, changes to, and deletions from the PML which have been filed since the most recent publication of the complete PML. (4-7-11)

02. PML. A portion of the master list, which covers Farm Products Financing Statements relating to a particular farm product or group of farm products. (4-7-11)

03. SOS. Idaho Secretary of State. (4-7-11)

04. USDA. United States Department of Agriculture. (4-7-11)

012. -- 019. (RESERVED)

020. UNIQUE IDENTIFIER NUMBER (UIN).

01. UIN System. The Secretary of State’s Office shall use a UIN system that has been approved and certified by the USDA for the Idaho Central Filing System in place of the former use of complete social security numbers as a means of debtor identification. (4-7-11)

02. Social Security Numbers and Tax Identification Numbers. With the use of UINs, as approved by the USDA, the SOS will no longer require or accept social security numbers or tax identification numbers, in total, on Farm Products Financing Statements. Only the last four (4) digits shall be required and used. The SOS will not provide social security numbers or tax identification numbers, in total, to any person or business entity, in any format, from Farm Products Financing Statements. (4-7-11)

021. -- 099. (RESERVED)

100. FARM PRODUCTS FINANCING STATEMENT REQUIREMENTS.

01. Form. A Farm Products Financing Statement must meet the requirements of Section 28-9-502, Idaho Code, and must be filed on SOS form “UCC-1F.” (4-7-11)

02. Completion of Form. Form UCC-1F must be completed in accordance with instructions provided by the SOS. (4-7-11)

101. AMENDMENT, ASSIGNMENT, CONTINUATION, AND TERMINATION OF A FARM PRODUCTS FINANCING STATEMENT.

01. Form. An amendment, assignment, or continuation of a Farm Products Financing Statement must be filed on SOS form “UCC-3F.” (4-7-11)
02. **Completion of Form.** Form UCC-3F must be completed in accordance with instructions provided by the SOS. (4-7-11)

03. **Termination.** Termination of a Farm Products Financing Statement will be done either by the secured party’s signature on the termination signature line on the original of the UCC-1F or by checking the termination box on the UCC-3F. (4-7-11)

102. **FARM PRODUCTS FINANCING STATEMENTS UNDER THE UNIFORM COMMERCIAL CODE.**

Unless otherwise provided for in this chapter, Farm Products Financing Statements shall be governed by IDAPA 34.05.06, “Administrative Rules Governing Lien Filings Under the UCC,” with the following exceptions: (4-7-11)

01. **IDAPA 34.05.06.101.05 “File Number.”** Subsection 101.05 only applies in that a unique number shall be assigned. For Farm Products Financing Statements, the filing type shall be designated as “F” followed by a number that is assigned sequentially. The filing number bears no relation to the time of filing and is not an indicator of priority. (4-7-11)

02. **IDAPA 34.05.06.108 “Acceptable Forms.”** Section 108 does not apply to Farm Products Financing Statements. (4-7-11)

03. **IDAPA 34.05.06.111 “Filing Fees.”** Section 111 does not apply to Farm Products Financing Statements. (4-7-11)

04. **IDAPA 34.05.06.115.01 “Individually Identified Documents.”** Subsection 115.01 does not apply to Farm Products Financing Statements. Copies of Farm Products Financing Statements shall be made available either from a computer terminal in the reception area in the filing office or through any medium otherwise accepted by the filing office. There is a charge of one dollar ($1) per page for copies of Farm Products Financing Statements pursuant to Section 28-9-523(k), Idaho Code. (4-7-11)

05. **IDAPA 34.05.06.202.02 “Additional Debtor Identification.”** Subsection 202.02 does not apply to Farm Products Financing Statements. (4-7-11)

06. **IDAPA 34.05.06.301.01 “Identification Numbers.”** Subsection 301.01 applies, however, each Farm Products Financing Statement is identified by its file number as described in Subsection 102.01 of these rules. (4-7-11)

07. **IDAPA 34.05.06.301.05 “Status of Financing Statement.”** Subsection 301.05 does not apply to Farm Products Financing Statements. (4-7-11)

08. **IDAPA 34.05.06.302.01 “Individual Name Fields.”** Subsection 302.01 applies, however, no indicator is used to distinguish the name as that of an individual. (4-7-11)

09. **IDAPA 34.05.06.302.05 “No Assumed Business Names.”** Subsection 302.05 does not apply to Farm Products Financing Statements. However, if an assumed business name is used as the debtor name, the required information shall be as indicated in Subsection 020.02 of these rules. (4-7-11)

10. **IDAPA 34.05.06.303.01 “Single Field.”** Subsection 303.01 applies, however, no indicator is used to distinguish the name as that of an organization. (4-7-11)

11. **IDAPA 34.05.06.303.03 “No Assumed Business Name.”** Subsection 303.03 does not apply to Farm Products Financing Statements. However, if an assumed business name is used as the debtor name, the required information shall be as indicated in Subsection 020.02 of these rules. (4-7-11)

12. **IDAPA 34.05.06.306.02 “Status of Debtor.”** Subsection 306.02 does not apply to Farm Products Financing Statements. (4-7-11)

13. **IDAPA 34.05.06.306.03 “Status of Financing Statement.”** Subsection 306.03 does not apply to
14. IDAPA 34.05.06.310 “Termination.” Section 310 does not apply to Farm Products Financing Statements. (4-7-11)

15. IDAPA 34.05.06.312 “Procedure Upon Lapse.” Section 312 only applies to Farm Products Financing Statements in that a Farm Products Financing Statement lapses on its lapse date. Upon lapse of a Farm Products Financing Statement, the information management system shall cause the Farm Products Financing Statement to no longer be made available to the searcher. (4-7-11)

16. IDAPA 34.05.06.407 “Data Entry of Names - Designated Fields.” Section 407 applies to Farm Products Financing Statements, however, the filer is not required to designate whether a name is an individual or an organization. (4-7-11)

17. IDAPA 34.05.06.408 “Data Entry of Names - No Designated Fields.” Section 408 does not apply to Farm Products Financing Statements. (4-7-11)

18. IDAPA 34.05.06.410.02 “Name and Address of Each Debtor.” Subsection 410.02 applies to Farm Products Financing Statements, however, each debtor name is removed from the searchable index upon lapse or termination. (4-7-11)

19. IDAPA 34.05.06.411.03 “Amendment Financing Statement Lapses.” Subsection 411.03 applies to Farm Products Financing Statements, however, each debtor name is removed from the searchable index upon lapse or termination. (4-7-11)

20. IDAPA 34.05.06.413 through IDAPA 34.05.06.504. Sections 413 through 504 do not apply to Farm Products Financing Statements. (4-7-11)

103. -- 199. (RESERVED)

200. COLLATERAL INFORMATION CODES.
Codes are used to describe farm product collateral on the Farm Products Financing Statements and amendments, on the master list maintained by the SOS, and on the PMLs distributed to registered buyers, commission merchants, and selling agents. Assignment of farm product codes and PML Groupings, county codes, and farm product unit codes shall be done by the SOS. The SOS will provide a list of the established codes upon request. (3-29-12)

01. PML Groupings and Farm Product Codes. The table of PML Groupings, farm products, and their codes is as follows:

(3-24-16)

### 201. REGISTRATION OF BUYERS, COMMISSION MERCHANTS, AND SELLING AGENTS -- SUBSCRIPTION TO A PML.

#### 01. Form

Registration of buyers, commission merchants, and selling agents must be on SOS form “UCC-5F.”

(4-7-11)

#### 02. Right to Subscribe - Number

Registration entitles the registrant to subscribe for PMLs. Each registrant will be assigned a permanent registration number by the SOS.

(7-1-93)

#### 03. Duration

Registration is effective for a period of one (1) year. Renewal of registration may be filed at any time after ninety (90) days prior to expiration of a current registration period. The registrant must indicate his registration number on the renewal registration form.

(7-1-93)

#### 04. Change of Name or Address

Notice of a registrant’s change of name or address must be made in writing to the SOS.

(7-1-93)

#### 05. Initial Subscription

Subscriptions for PMLs may be made at the time of registration or at any time during the period for which the registrant is registered, provided that no subscription for a PML will run beyond the calendar quarter in which the registration period expires. Subscriptions made at the time of registration must be made on the UCC-5F.

(4-7-11)

#### 06. Other Subscription

Subscriptions made other than at the time of registration must be made on SOS form “UCC-6F.” The registrant must indicate his registration number on the subscription form.

(4-7-11)

#### 07. Period of Subscription

A subscription for any PML may be annual or by calendar quarter or quarters, which quarter or quarters may be at a specified time in the future.

(7-1-93)

#### 08. Initial Distribution

If a subscription starts at any time other than the start of a calendar quarter, the registrant will receive the most recent complete compilation of the PML, and all distributions of PMLs for the remainder of the calendar quarter.

(4-7-11)

#### 09. Special Subscription

If the registrant subscribes for a PML for fewer than all counties or crop years, the registrant must indicate the county codes of the desired counties or the desired crop years, or both. If no county codes or crop years are indicated, the PML will cover all counties and crop years.

(4-7-11)
10. **Copy of Rules.** At the time of registration, each registrant will be provided with a copy of these rules. (4-7-11)

202. -- 299. (RESERVED)

300. **FORM AND DISTRIBUTION OF A PML AND CS.**

01. **Content of List.** Each PML includes data from all Farm Products Financing Statements which cover a particular PML Grouping. (4-7-11)

02. **PML Publication Dates.** Each PML is published in complete form on the first regularly scheduled bi-weekly publication date in each calendar quarter. A PML may at other times be published in complete form at the discretion of the SOS when that appears to be more economical than to publish a CS. (7-1-93)

03. **Supplementation.** At bi-weekly intervals following the publication of each PML, the SOS publishes a CS for each PML. The CS includes all additions, deletions and changes which have occurred since the publication of the last complete PML. Additions are in the same form and cross-indexed in the same way as items on the PML. Deletions and changes need only refer to the affected item in either the PML or the “addition” section of the CS, and state what action has been taken or what change has been made to that item. (7-1-93)

04. **Cut-Off.** In order to be included on a PML or CS, a Farm Products Financing Statement must be received by the SOS at least one (1) business day prior to publication. (4-7-11)

05. **Schedule.** At the beginning of each calendar quarter, the SOS distributes to each registrant a schedule of proposed publication dates for that calendar quarter. The SOS may, for good cause, deviate from the schedule, but every PML and CS will be clearly marked with the actual date of publication. In no case will there be more than eighteen (18) days between publications of PMLs and associated CSs. (4-7-11)

301. **GENERATION OF AD HOC INFORMATION REPORTS.**

01. **Options.** Upon the request of any person, the SOS will provide a list organized or limited according to:

   a. An individual farm product or a PML Grouping; (7-1-93)

   b. Alphabetical order by debtor name; (4-7-11)

   c. By order of UIN; (7-1-93)

   d. County; or (4-7-11)

   e. Crop year. (7-1-93)

02. **Internal Organization.** When the request is for organization or limitation on the criteria specified in Paragraphs 301.01.a., 301.01.d., and 301.01.e., of these rules, the list will be organized alphabetically within each resulting group unless the request specifies otherwise. (4-7-11)

03. **Additional Criteria.** The request may specify additional criteria for further organization or limitation within the first grouping. (7-1-93)

302. **REQUESTS FOR INFORMATION.**

Requests for information on Farm Products Financing Statements will comply with IDAPA 34.05.03, “Rules Governing Requests For Information -- Form UCC-4 -- Fees.” (4-7-11)

303. **FEES.**
01. **Farm Products Financing Statement.** Farm Products Financing Statement and changes thereto (UCC-1F, UCC-2F and UCC-3F). (4-7-11)
   a. The fee for filing either a UCC-1F or a UCC-3F is provided in IDAPA 34.05.06, “Administrative Rules Governing Lien Filings Under the UCC - Farm Product Liens,” Section 606. (4-7-11)
   b. There is no charge for filing a complete termination of a Farm Products Financing Statement. (4-7-11)

02. **Registration of Buyers, Commission Merchants, and Selling Agents.** (4-7-11)
   a. The fee for the annual registration of each buyer, commission merchant, or selling agent is thirty dollars ($30). (4-7-11)
   b. The registration fee must be paid at the time of registration. (7-1-93)
   c. There is no fee for filing notice of a registrant’s change of name or address. (7-1-93)

03. **Subscription to PMLs by Buyers, Commission Merchants, and Selling Agents.** (4-7-11)
   a. The fee for subscribing to one (1) PML for one (1) year is:

<table>
<thead>
<tr>
<th>Internet Download (DL)</th>
<th>CD-ROM (CD)</th>
<th>Paper</th>
</tr>
</thead>
<tbody>
<tr>
<td>$30</td>
<td>$40</td>
<td>$200</td>
</tr>
</tbody>
</table>

   (3-24-16)
   b. New subscriptions purchased at any time after the beginning of a registration period will be prorated to the current or next fiscal quarter, such that the end of the new subscription coincides with the end of the customer’s registration period. (3-24-16)
   c. The subscription fee must be paid at the time the subscription is made. (4-7-11)

04. **Ad Hoc Lists.** (7-1-93)
   a. The fee for generating an ad hoc list as provided in Section 301 of these rules, is thirty-five dollars ($35) per hour for programming and analysis and eighty-five dollars ($85) per hour of computer time required to produce the list. In addition thereto, there is a fee of one dollar ($1) per printed page of the list so generated. (4-7-11)
   b. The fee for the generation of the list must be paid prior to or upon receipt of the list. (7-1-93)

05. **Fees for Requests for Information.** The fees for requests for information on Farm Products Financing Statements, both written and verbal, and for copies of Farm Products Financing Statements reported on the certificate, are provided in IDAPA 34.05.03, “Rules Governing Requests For Information -- Form UCC-4 -- Fees.” (4-7-11)

304. -- 999. (RESERVED)
34.05.02 – RULES GOVERNING LIENS IN CROPS FOR SEED OR LIENS IN CROPS FOR FARM LABOR

000. LEGAL AUTHORITY.
In accordance with Sections 67-903(9), 45-313(3), and 45-316, Idaho Code, the Secretary of State has authority to promulgate administrative rules in order to execute the duties of the Office of the Secretary of State. (4-7-11)

001. TITLE AND SCOPE.

01. Title. These rules shall be cited as IDAPA 34.05.02, “Rules Governing Liens in Crops for Seed or Liens in Crops for Farm Labor,” IDAPA 34, Title 05, Chapter 02. (4-7-11)

02. Scope. These rules shall govern the requirements for the filing, amendment, or termination of liens in crops for seed or liens in crops for farm labor, as well as the creation and distribution of a master list of liens in crops for seed or liens in crops for farm labor. (4-7-11)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, documents relating to the interpretation of these rules, or to the documentation of compliance with the rules of this chapter, are available for public inspection and copying at the Office of the Secretary of State. (4-7-11)

003. ADMINISTRATIVE APPEALS.
This chapter does not provide for appeal. (4-7-11)

004. INCORPORATION BY REFERENCE.
No documents have been incorporated by reference into these rules. (4-7-11)

005. OFFICE — OFFICE HOURS — MAILING ADDRESS AND STREET ADDRESS.
The Office of the Secretary of State is located in Boise, Idaho, in the Statehouse at 700 West Jefferson, Room E205. The Commercial Division is located at 450 North 4th Street, Boise, Idaho. Office hours are Monday - Friday 8 a.m. - 5 p.m. except for legal holidays. The mailing address is P.O. Box 83720, Boise, Idaho 83720-0080. The telephone number for the office is (208) 334-2300. The telephone number for business entity inquiries is (208) 334-2301. The website address is http://www.sos.idaho.gov/. (4-7-11)

006. PUBLIC RECORDS ACT COMPLIANCE.
The rules contained herein have been promulgated in accordance with the provisions of Title 67, Chapter 52, Idaho Code, and are public records. (4-7-11)

007. -- 009. (RESERVED)

010. DEFINITIONS.
The definitions set forth in Section 45-302, Idaho Code, apply with full force and effect to all provisions and sections of these rules. Where terms used in this rule are not defined herein, definitions and usage of terms from the Legal Authority in Section 000 of these rules are applicable. (4-7-11)

01. Family. A group of related persons living together as one economic unit, comprised of parents and children, including step-children. (7-1-93)

02. Farm Laborer. Anyone who provides farm labor used in the production of crops. When a business entity contracts for and provides such labor, e.g., aerial spraying or custom harvesting, the entity and not its individual employees shall be deemed to be the farm laborer. When individuals provide such labor directly to a producer, each individual is a farm laborer, whether or not they have been organized as a work crew or are members of a family which works as a unit. (7-1-93)
03. **Notice of Claim of Lien.** A written notice on the public record of a claimant’s lien in the crops of a producer. (4-7-11)

04. **SOS.** Idaho Secretary of State. (4-7-11)

011. -- 099. (RESERVED)

100. **REQUIREMENTS FOR NOTICE OF CLAIM OF LIEN.**

01. **Form.** The form for a notice of claim of lien shall be designated “SL-1.” (4-7-11)

a. Form SL-1 must be completed in accordance with instructions provided by the SOS. (4-7-11)

b. Collateral information codes shall be used to indicate the crop and the county where the crop is grown. The collateral information codes shall be assigned by the SOS. The SOS will provide a list of the established codes upon request. (4-7-11)

02. **Supplement.** If there is insufficient space on the form SL-1 for all producer and claimant information, the excess will be entered on a supplement form designated “SL-2.” (7-1-93)

101. **AMENDMENT, ASSIGNMENT, EXTENSION, AND RELEASE OF CLAIM OF LIEN.**

01. **Form.** The form for amendment, assignment, extension, and release of claim of lien shall be designated “SL-3.” (4-7-11)

a. Form SL-3 must be completed in accordance with instructions provided by the SOS. (4-7-11)

b. Collateral information codes shall be used to indicate the crop and the county where the crop is grown. The collateral information codes shall be assigned by the SOS. The SOS will provide a list of the established codes upon request. (4-7-11)

02. **Supplement.** If there is insufficient space on the first page of the form SL-3 for all information, the excess shall be entered on an attached second page SL-3. (7-1-93)

102. -- 199. (RESERVED)

200. **REGISTRATION AND SUBSCRIPTION FOR LIST OF LIENS IN CROPS FOR SEED OR LIENS IN CROPS FOR FARM LABOR.**

Any person may register and subscribe for regular distribution of lists of all presently effective notices of claim of liens in crops for seed or liens in crops for farm labor which have been filed under this rule. Unless otherwise set forth in this chapter, the registration and subscription for the list of liens in crops for seed or liens in crops for farm labor shall be administered by the rules as set forth in IDAPA 34.05.01, “Rules Governing Farm Products Central Filing System,” Section 201. (4-7-11)

201. **LIST OF NOTICES OF CLAIM OF LIEN (LIST).**

01. **Compilation and Distribution.** The SOS shall compile and distribute to subscribers therefore, a list which shall include all presently effective notices of claim of liens in crops for seed or liens in crops for farm labor. (4-7-11)

02. **Schedule.** The list will be published on a bi-weekly schedule to be established by the SOS. (4-7-11)

03. **Cut-Off.** In order to be included on a list, a notice of claim of lien must be received by the SOS at least one (1) business day prior to publication. (4-7-11)

04. **Schedule.** At the beginning of each quarter, the SOS will distribute to each registrant a schedule of
proposed publication dates for that calendar quarter. The SOS may, for good cause, deviate from the schedule, but every list will be marked with the actual date of publication. In no case will there be more than eighteen (18) days between publications of lists. 

202. -- 299. (RESERVED)

300. REQUEST FOR INFORMATION. 
Requests for information on notices of claim of liens in crops for seed or liens in crops for farm labor, both written and verbal, will comply with IDAPA 34.05.03, “Rule Governing Requests For Information -- Form UCC-4 -- Fees.”

301. FEES.

01. Notice of Claim of Lien. 
   a. The fee is four dollars ($4) if the form is typed or machine printed, and is eight dollars ($8) if hand written. (4-7-11)
   b. The fee shall be paid at the time of filing. (7-1-93)

02. Notice of Amendment, Assignment, or Extension. 
   a. The fee is four dollars ($4) if the form is typed or machine printed, and is eight dollars ($8) if hand written. (4-7-11)
   b. The fee shall be paid at the time of filing. (7-1-93)

03. Notice of Release. No fee charged. (7-1-93)

04. Registration and Subscription for List of Notices. The fees for registration and subscription shall be as set forth in IDAPA 34.05.01, “Rules Governing Farm Products Central Filing System,” Subsections 303.02 and 303.03. (4-7-11)

05. Fees for Requests for Information. The fees for requests for information on notices of claim of liens in crops for seed or liens in crops for farm labor, both written and verbal, and for copies of notices of claim of liens in crops for seed or liens in crops for farm labor reported on the certificate, are provided in IDAPA 34.05.03, “Rules Governing Requests For Information -- Form UCC-4 -- Fees.”

04. IDAPA 34, Title 05, Chapter 01, “Farm Products Central Filing System.” (7-1-93)  
05. IDAPA 34, Title 05, Chapter 02, “Liens in Crops, For Seed and Farm Labor.” (7-1-93)  

001. -- 003. (RESERVED)  
004. DEFINITIONS.  
01. SOS. Secretary of State. (7-1-93)  
02. EFS. An effective financing statement relating to farm products, as described in IDAPA 34.05.01, “Rules Governing Farm Products Central Filing System, Office of the Secretary of State.” (7-1-93)  
03. Notice of Lien in Crops. A notice of claim of lien in crops for seed or farm labor, as described in IDAPA 34.05.02, “Rules Governing Liens in Crops, For Seed, and Farm Labor,” Office of the Secretary of State. (7-1-93)  
04. Notice of Federal Lien. A notice of lien in personal property filed by the Internal Revenue Service or other federal entity pursuant to Title 45, Chapter 2, Idaho Code. (7-1-93)  
05. UCCFS. A financing statement filed pursuant to Sections 28-9-402 and 28-9-403, Idaho Code, other than one relating to farm products. (7-1-93)  
06. Notices. A collective term used in this rule to include all of the notices and financing statements described in the foregoing Subsections 004.02 through 004.05, as well as all ancillary documents pertaining thereto. (7-1-93)  
07. Debtor. As used in this rule, “Debtor” shall include a lienee under Title 45, Chapter 2, Idaho Code, and a producer under Title 45, Chapter 3, Idaho Code. (7-1-93)  
08. Secured Party. As used in this rule, “Secured Party” shall include the federal government under Title 45, Chapter 2, Idaho Code and a claimant under Title 45, Chapter 3, Idaho Code. (7-1-93)  

005. -- 010. (RESERVED)  
011. REQUESTS FOR INFORMATION.  
01. Content. Upon the request of any person, the SOS shall issue a certificate showing all notices of the types included in a request naming a particular debtor. The certificate shall include the date and hour of filing of each notice, and the name and address of each secured party named therein. If the requested notices include EFS’s or notices of liens in crops, the certificate shall further include other information described in IDAPA 34.05.01, Subsection 017.03, “Rules Governing Farm Products Central Filing System,” Office of the Secretary of State, and IDAPA 34.05.02, Subsection 015.04, “Rules Governing Liens in Crops, For Seed and Farm Labor,” Office of the Secretary of State, as applicable. (7-1-93)
02. Form. The SOS shall prescribe an approved form for such requests, designated “UCC-4.” Other forms may be used, provided they contain all the necessary information and provided that the fee for use of a non-standard form is paid. After January 31, 1993, only the form UCC-4 with a revision date of 10/92 or later will be held to be a standard form. Prior to that date, previously approved forms UCC-4 and UCC-4F will be held to be standard forms for the purposes for which they were intended; e.g., a form UCC-4F may be used to request information on EFS’s, notices of liens in crops, or both; an old UCC-4 may be used to request information on UCCFS’s, and if noted on the UCC-4, on notices of federal liens. A verbally conveyed request will be treated as a non-standard form request. (7-1-93)

012. VERBAL REQUESTS FOR INFORMATION.

01. SOS Responsibility. Upon the verbal request of any person, the SOS shall provide, within twenty-four (24) hours, a verbal report of the filing of any notices naming a particular debtor. The SOS will include in the report as much of the information described in Section 011, supra., as the requesting party wants. (7-1-93)

02. Time Computation. In computing the twenty-four (24) hour period, weekends and holidays shall not be counted, pursuant to Section 59-1007, Idaho Code. (7-1-93)

03. Attempts to Respond. If the verbal report is to be made telephonically and the requesting party cannot be reached at the stated telephone number within the twenty-four (24) hour period, the SOS shall attempt to reach the requesting party over an additional twenty-four (24) hour period. If at the end of that time the requesting party has not been reached, the SOS shall be deemed to have fulfilled his obligation to make a timely verbal report. A log of each attempted call shall be maintained by the SOS. At least three (3) attempts to reach the requesting party shall be made in each twenty-four (24) hour period, if the requesting party cannot be reached earlier. (7-1-93)

04. Written Confirmation. The SOS shall follow the verbal report with written confirmation, which shall be in the form of a certificate in response to a non-standard information request as prescribed in Section 011, supra. (7-1-93)

013. FEES.

01. Single Type. The fee for the certificate of the SOS showing all notices of a single type is six dollars ($6). (7-1-93)

02. Multiple Types. The fee for the certificate of the SOS showing all notices of more than one (1) type is ten dollars ($10). (7-1-93)

03. Copies. The fee for requesting copies of the notices reported on the certificate is six dollars ($6). (7-1-93)

04. Non-Standard. The fee for use of a non-standard form or for submission of a form which is not typed is four dollars ($4). (7-1-93)

05. Verbal Report. The fee for providing a verbal report of notices naming a particular debtor is ten dollars ($10). (7-1-93)

06. Single Copies. The fee for a copy of any notice, when the requesting party provides the document number to the SOS, is one dollar ($1) per page. (7-1-93)

07. Service Suspension. Notwithstanding any other provision of this rule, cash payment in advance will be required from a requesting party against whom the SOS holds an account receivable more than sixty (60) days past due or which exceeds one hundred dollars ($100). (7-1-93)

014. -- 999. (RESERVED)
000. **LEGAL AUTHORITY AND REFERENCES.**
In accordance with Sections 67-903(9) (1977) and 28-9-526 (2001), Idaho Code, the Secretary of State has authority to promulgate administrative rules in order to execute the duties of the Office; this authority includes rules to implement Revised Article 9 of the Uniform Commercial Code, House Bill 205 (2001). 

001. **TITLE AND SCOPE.**

01. **Title.** These rules shall be cited as IDAPA 34.05.06, “Rules Governing Lien Filings Under the UCC,” IDAPA 34, Title 05, Chapter 06.

02. **Scope.** These rules shall govern the filing, acceptance, indexing and searching of financing statements in the Secretary of State’s Office under Article 9 of the Uniform Commercial Code, as amended in 2001.

002. **WRITTEN INTERPRETATIONS.**
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, documents relating to the interpretation of these rules, and to the documentation of compliance with this chapter, are available for public inspection and copying at the Office of the Secretary of State.

003. **ADMINISTRATIVE APPEALS.**
This chapter does not provide for appeal of the filing requirements.

004. **INCORPORATION BY REFERENCE.**
No documents have been incorporated by reference into this rule.

005. **OFFICE HOURS -- CONTACT INFORMATION.**
The Office of the Secretary of State is located in Boise, Idaho, in the Statehouse at 700 West Jefferson, Room E205. The Commercial Division is located at 450 North 4th Street, Boise, Idaho. Office hours are Monday - Friday 8 a.m. - 5 p.m. except for legal holidays. The mailing address is P.O. Box 83720, Boise, Idaho 83720-0080. The telephone number for the office is (208) 334-2300. The telephone number for business entity inquiries is (208) 334-2301. The website address is http://www.sos.idaho.gov/.

006. -- 100. (RESERVED)

**SECTION 1 -- GENERAL PROVISIONS**

101. **DEFINITIONS.**
For the purpose of the rules contained in this chapter, the following definitions apply:

01. **Amendment.** A UCC document that purports to amend the information contained in a financing statement. Amendments include assignments, continuations and terminations.

02. **Assignment.** An amendment that purports to reflect an assignment of all or a part of a secured party’s power to authorize an amendment to a financing statement.

03. **Continuation.** An amendment that purports to continue the effectiveness of a financing statement.

04. **Correction Statement.** A UCC document that purports to indicate that a financing statement is inaccurate or wrongfully filed.
05. **File Number.** The unique identifying information assigned to an initial financing statement by the filing officer for the purpose of identifying the financing statement and UCC documents relating to the financing statement in the filing officer's information management system. For a financing statement with an initial financing statement filed on or prior to June 30, 2001, the file number includes the seven-digit (7) number assigned to the financing statement by the filing officer. For a financing statement with an initial financing statement filed on or after July 1, 2001, the file number includes three (3) segments; the year of filing expressed as a four-digit (4) number, followed by a unique seven-digit (7) number assigned to the financing statement by the filing office and ending with a one-digit (1) verification number assigned by the filing office but algorithmically derived from the numbers in the first two (2) segments. The filing number bears no relation to the time of filing and is not an indicator of priority. (3-15-02)

06. **Filing Office and Filing Officer.** The Idaho Secretary of State’s Office. (3-15-02)

07. **Financing Statement.** An initial financing statement and all UCC documents that relate to the initial financing statement. (3-15-02)

08. **Individual.** A human being, or a decedent in the case of a debtor that is such decedent's estate. (3-15-02)

09. **Initial Financing Statement.** A UCC document containing the information required to be in an initial financing statement pursuant to Section 2 of these rules which, when filed, causes the filing office to establish the initial record of the existence of a financing statement in the filing office's UCC information management system. (3-15-02)

10. **Organization.** A legal person who is not an individual under Subsection 101.08. (3-15-02)

11. **Remitter.** A person who tenders a UCC document to the filing officer for filing, whether the person is a filer or an agent of a filer responsible for tendering the document for filing. "Remitter" does not include a person responsible merely for the delivery of the document to the filing office, such as the postal service or a courier service but does include a service provider who acts as a filer's representative in the filing process. (3-15-02)

12. **Secured Party of Record.** With respect to a financing statement, a secured party or representative of a secured party named on the initial financing statement or, if an assignee is designated on the initial financing statement, instead shall mean the secured party or representative named as such assignee, and shall mean each other secured party or secured party representative named as an additional or substitute secured party on any amendment. Revised Article 9 provides that a person remains a secured party of record until the authorized filing of an amendment indicating that the person is no longer a secured party or secured party representative. However, as the filing officer cannot determine if such an amendment is in fact authorized, a secured party of record on a financing statement is not deleted from the filing officer’s information management system until the financing statement lapses. (3-15-02)

13. **Termination.** An amendment intended to indicate that the related financing statement has ceased to be effective with respect to the secured party authorizing the termination. (3-15-02)

15. **UCC Document.** An initial financing statement, a correction statement or any amendment, including an assignment, a continuation, or a termination. The word “document” in the term “UCC document” shall not be deemed to refer exclusively to paper or paper-based writings. In due time, UCC documents may be expressed or transmitted electronically or through media other than such writings. (Note: this definition is used for the purpose of these rules only. The use of the term “UCC document” in these rules has no relation to the definition of the term “document” in Section 28-9-102(a)(30), Idaho Code.) (3-15-02)

102. **Singular and Plural Forms.** Singular nouns shall include the plural form, and plural nouns shall include the singular form, unless the context otherwise requires. (3-15-02)
103. PLACE OF FILING.
The Secretary of State’s Office is the filing office for filing UCC documents relating to all types of collateral except for timber to be cut, as-extracted collateral (Section 28-9-102(a)(6), Idaho Code) and, when the relevant financing statement is filed as a fixture filing, goods which are or are to become fixtures. (3-15-02)

104. FILING OFFICE IDENTIFICATION.
In addition to the promulgation of these rules, the filing office will disseminate information of its location, mailing address, telephone and facsimile numbers, and its internet and other electronic “addresses” through usual and customary means. (3-15-02)

105. OFFICE HOURS.
Although the filing office maintains regular office hours, it receives transmissions by facsimile twenty-four (24) hours per day, three hundred sixty-five (365) days per year, except for scheduled maintenance and unscheduled interruptions of service. Electronic filings may be available in the near future, and will be possible twenty-four (24) hours per day, three hundred sixty-five (365) days per year, except for scheduled maintenance and unscheduled interruptions of service. (3-15-02)

106. UCC DOCUMENT DELIVERY.
UCC documents may be tendered for filing at the filing office as follows:

01. Personal Delivery, at the Filing Office’s Street Address. The file time for a UCC document delivered by this method is when delivery of the UCC document is accepted by the filing office (even though the UCC document may not yet have been accepted for filing and subsequently may be rejected). (3-15-02)

02. Courier Delivery, at the Filing Office’s Street Address. The file time for a UCC document delivered by this method is, notwithstanding the time of delivery, the next close of business following the time of delivery (even though the UCC document may not yet have been accepted for filing and may be subsequently rejected). A UCC document delivered after regular business hours or on a day the filing office is not open for business will have a filing time of the close of business on the next day the filing office is open for business. (3-15-02)

03. Postal Service Delivery to the Filing Office’s Mailing Address. The file time for a UCC document delivered by this method is the next close of business following the time of delivery (even though the UCC document may not yet have been accepted for filing and may be subsequently rejected). A UCC document delivered after regular business hours or on a day the filing office is not open for business will have a filing time of the close of business on the next day the filing office is open for business. (3-15-02)

04. Facsimile Delivery to the Filing Office’s Facsimile Filing Telephone Number. The file time for a UCC document delivered by this method is, notwithstanding the time of delivery, 5 p.m. on the day the filing office is open to the public next following the time of delivery (even though the UCC document may not yet have been accepted for filing and may be subsequently rejected). A UCC document delivered after regular business hours or on a day the filing office is not open for business will have a filing time of the close of business on the next day the filing office is open for business. (3-15-02)

107. SEARCH REQUEST DELIVERY.
UCC search requests may be delivered to the filing office by any of the means by which UCC documents may be delivered to the filing office. Requirements concerning search requests are set forth in Section 501. UCC search requests upon a debtor named on an initial financing statement may be made by an appropriate indication on the face of the initial financing statement form if the form is entitled to be filed with the standard form fee and the relevant search fee is also tendered with the initial financing statement. (3-15-02)

108. ACCEPTABLE FORMS.
The forms set forth in Section 28-9-521, Idaho Code, shall be accepted by the filing office. Forms approved by the International Association of Corporation Administrators on or prior to July 1, 2001, and forms approved by the filing office shall be accepted. (3-15-02)

109. -- 110. (RESERVED)
111. **FILING FEES.**

Section 28-9-525, Idaho Code.

01. **Filing Fee.** The fee for filing and indexing a UCC document of one (1) or two (2) pages communicated on paper or in a paper-based format (including facsimiles) is six dollars ($6). If there are additional pages, the fee is twelve dollars ($12). When available, the fee for filing and indexing a UCC document communicated by a medium authorized by these rules which is other than on paper or in a paper-based format shall be three dollars ($3).

02. **UCC Search Fee.** The fee for a UCC search request communicated on paper or in a paper-based format is twelve dollars ($12).

112. (RESERVED)

113. **METHODS OF PAYMENT.**

Filing fees and fees for public records services may be paid by the following methods:

01. **Cash.** Payment in cash shall be accepted if paid in person at the filing office.

02. **Checks.** Personal checks, business checks, bank-certified checks or cashier's checks and money orders shall be accepted for payment if they are drawn on a bank acceptable to the filing office or if the drawer is acceptable to the filing office.

03. **Prepaid Account.** A remitter may open an account for prepayment of filing fees by submitting an application furnished by the filing officer. Fees may be prepaid in amounts not less than fifty dollars ($50). The filing officer shall issue an account number to be used by a remitter who chooses to pay filing fees in advance. The filing officer shall deduct filing fees from the remitter's prepaid account when authorized to do so by the remitter.

114. **OVERPAYMENT AND UNDERPAYMENT POLICIES.**

01. **Overpayment.** The filing officer shall refund the amount of an overpayment exceeding two dollars ($2) to the remitter. The filing officer shall refund an overpayment of two dollars ($2) or less only upon the written request of the remitter.

02. **Underpayment.** Upon receipt of a document with an insufficient fee, the filing officer shall do one (1) of the following:

   a. A notice of the deficiency shall be sent to the remitter and the document shall be held for a period of ten (10) days from the date of the notice, in anticipation of receipt of the fee. Upon receipt of the fee, the document will be filed as of the time and date of receipt of the full filing fee. If the fee has not been received within ten (10) days of the date of the notice, the document shall be returned to the remitter with a written explanation for the refusal to accept the document; or

   b. The document shall be returned to the remitter as provided in Section 205. A refund of a partial payment may be included with the document or delivered under separate cover.

115. **PUBLIC RECORDS SERVICES.**

Public records services are provided on a non-discriminatory basis to any member of the public on the terms described in these rules. The following methods are available for obtaining copies of UCC documents and copies of data from the UCC information management system.

01. **Individually Identified Documents.** Copies of individually identified UCC documents are available either from a computer terminal in the reception area in the filing office or through any medium otherwise accepted by the filing office. There is a charge of twenty-five cents ($.25) per page for printed information, but only if four (4) or more pages are printed.
02. **Bulk Copies of Documents.** Bulk copies of UCC documents are available in TIF (image) format on CD-ROM. (3-15-02)

03. **Data from the Information Management System.** A list of available data elements from the UCC information management system, and the file layout of the data elements, are available from the filing officer upon request. Data from the information management system is available as follows: (3-15-02)

   a. Full Extract. A bulk data extract of information from the UCC information management system is available on a monthly basis. (3-15-02)

   b. Format. Extracts from the UCC information management system are available in ASCII .txt format on CD-ROM. (3-15-02)

04. **Direct On-Line Services.** On-line services providing UCC information are available on a subscription basis from the State’s Internet Portal Manager, Idaho Information Consortium, Inc., d/b/a Access Idaho. A description of subscription services is available from the filing officer or Access Idaho. (3-15-02)

**116. FEES FOR PUBLIC RECORDS SERVICES.**

Fees for public records services are established as follows: (3-15-02)

01. **Charge for Paper Copies.** The charge for paper copies of individual documents is twenty-five cents ($.25) per page if no staff assistance is utilized and one dollar ($1) per page with staff assistance. Facsimile charge is an additional fifty cents ($.50) per page. (3-15-02)

02. **Data From the Information Management System.** The charge for a full extract is one hundred twenty-five dollars ($125) per monthly delivery. (3-15-02)

**117. NEW PRACTICES AND TECHNOLOGIES.**

The filing officer may adopt practices and procedures to accomplish receipt, processing, maintenance, retrieval and transmission of, and remote access to, Article 9 filing data by means of electronic, voice, optical and/or other technologies, and, without limiting the foregoing, to maintain and operate, in addition to or in lieu of a paper-based system, a non-paper-based Article 9 filing system utilizing any of such technologies. In developing and utilizing technologies and practices, the filing officer shall, to the greatest extent feasible, take into account compatibility and consistency with technologies, practices, policies and regulations adopted in connection with Article 9 filing systems in other states. (3-15-02)

**118. -- 199. (RESERVED)**

**SECTION 2 -- ACCEPTANCE AND REFUSAL OF DOCUMENTS**

**200. ROLE OF FILING OFFICER.**

01. **Duties and Responsibilities.** The duties and responsibilities of the filing officer with respect to the administration of the UCC are ministerial. (3-15-02)

02. **What the Filing Officer Does Not Do.** In accepting for filing or refusing to file a UCC document pursuant to these rules, the filing officer does not: (3-15-02)

   a. Determine the legal sufficiency or insufficiency of a document. (3-15-02)

   b. Determine that a security interest in collateral exists or does not exist. (3-15-02)

   c. Determine that information in the document is correct or incorrect, in whole or in part. (3-15-02)

   d. Create a presumption that information in the document is correct or incorrect, in whole or in part. (3-15-02)
201. DUTY TO FILE.
Provided that there is no ground to refuse acceptance of the document under Section 202, a UCC document is filed upon its receipt by the filing officer with the filing fee and the filing officer shall promptly assign a file number to the UCC document and index it in the information management system. (3-15-02)

202. GROUNDS FOR REFUSAL OF UCC DOCUMENT.
The following grounds are the sole grounds for the filing officer's refusal to accept a UCC document for filing. As used herein, the term “legible” is not limited to refer only to written expressions on paper: it requires, when appropriate, a machine-readable transmission for electronic transmissions and an otherwise readily decipherable transmission in other cases.

01. Debtor Name and Address. An initial financing statement or an amendment that purports to add a debtor shall be refused if the document fails to include a legible debtor name and address for a debtor, in the case of an initial financing statement, or for the debtor purporting to be added in the case of such an amendment. If the document contains more than one debtor name or address and some names or addresses are missing or illegible, the filing officer shall index the legible name and address pairings, and provide a notice to the remitter containing the file number of the document, identification of the debtor name(s) that was (were) indexed, and a statement that debtors with illegible or missing names or addresses were not indexed. (3-15-02)

02. Additional Debtor Identification. An initial financing statement or an amendment adding one or more debtors shall be refused if the document fails to identify whether each named debtor (or each added debtor in the case of such an amendment) is an individual or an organization, if the last name of each individual debtor is not identified, or if, for each debtor identified as an organization, the document does not include in legible form the organization’s type, state of organization and organization number (or a statement that it does not have an organization number). UCC documents, including the UCC1 and UCC3, should not contain Social Security Account Numbers or other Taxpayer identification numbers although there are spaces for this information on the approved UCC1 and UCC3 form. If these numbers are entered on the forms, the filing officer shall cause them not to be readable on the scanned image retained by the filing office. (3-15-02)

03. Secured Party Name and Address. An initial financing statement, an amendment purporting to add a secured party of record, or an assignment, shall be refused if the document fails to include a legible secured party (or assignee in the case of an assignment) name and address. If the document contains more than one secured party (or assignee) name or address and some names or addresses are missing or illegible, the filing officer shall index the legible name and address pairings, and provide a notice to the remitter containing the file number of the document, identification of the secured party (or assignee) names that were indexed, and a statement that secured parties with illegible or missing names or addresses were not indexed. (3-15-02)

04. Lack of Identification of Initial Financing Statement. A UCC document other than an initial financing statement shall be refused if the document does not provide a file number of a financing statement which exists in the UCC information management system and which has not lapsed. (3-15-02)

05. Other Required Information. A UCC document that does not identify itself as an initial financing statement or as another type of UCC document shall be refused. (3-15-02)

06. Timeliness of Continuation. A continuation shall be refused if it is not received during the six (6) month period concluding on the day upon which the related financing statement would lapse.

a. First Day Permitted. The first day on which a continuation may be filed is the date of the month corresponding to the date upon which the financing statement would lapse, six (6) months preceding the month in which the financing statement would lapse. If there is no such corresponding date during the sixth month preceding the month in which the financing statement would lapse, the first day on which a continuation may be filed is the last day of the sixth month preceding the month in which the financing statement would lapse, although filing by certain means may not be possible on such date if the filing office is not open on such date. (3-15-02)

b. Last Day Permitted. The last day on which a continuation may be filed is the date upon which the financing statement lapses. (3-15-02)
07. **Fee.** A document shall be refused if the document is accompanied by less than the full filing fee tendered by a method described in Section 113. (3-15-02)

08. **Means of Communication.** UCC documents communicated to the filing office by a means of communication not authorized by the filing officer for the communication of UCC documents shall be refused. (3-15-02)

203. (RESERVED)

204. **TIME LIMIT.**
The filing officer shall determine whether criteria exist to refuse acceptance of a UCC document for filing not later than the second business day after the date the document would have been filed had it been accepted for filing and shall index a UCC document not so refused within the same time period. (3-15-02)

205. **PROCEDURE UPON REFUSAL.**
If the filing officer finds any basis under Section 202 to refuse acceptance of a UCC document, the filing officer shall return the document, if written, to the remitter and refund the filing fee. The filing office shall send a notice that contains the date and time the document would have been filed had it been accepted for filing (unless such date and time are stamped on the document), and a brief description of the reason(s) for refusal to accept the document under Section 202. The notice shall be sent to a secured party or the remitter as provided in Subsection 401.02.b. no later than the second business day after of the determination to refuse acceptance of the document. A refund may be delivered with the notice or under separate cover. (3-15-02)

206. **ACKNOWLEDGMENT.**

01. **When Filing Is a Paper or Paper-Based UCC Document.** At the request of a filer or remitter who files a paper or paper-based UCC document, the filing officer shall either: (3-15-02)

   a. Send to said filer or remitter an image of the record of the UCC document showing the file number assigned to it and the date and time of filing; or (3-15-02)

   b. If such filer or remitter provides a copy of such UCC document, note the file number and the date and time of filing on the copy and deliver or send it to said filer or remitter. (3-15-02)

02. **When Filing Is Not a Paper or Paper-Based UCC Document.** When appropriate for UCC documents not filed in paper or paper-based form, the filing officer shall communicate to the filer or remitter the information in the filed document, the file number and the date and time of filing. (3-15-02)

207. **OTHER NOTICES.**
Nothing in these rules prevents a filing officer from communicating to a filer or a remitter that the filing officer noticed apparent potential defects in a UCC document, whether or not it was filed or refused for filing. However, the filing office is under no obligation to do so and may not have the resources to do so. THE RESPONSIBILITY FOR THE LEGAL EFFECTIVENESS OF FILING RESTS WITH FILERS AND REMITTERS AND THE FILING OFFICE BEARS NO RESPONSIBILITY FOR SUCH EFFECTIVENESS. (3-15-02)

208. **REFUSAL ERRORS.**
If a secured party or a remitter demonstrates to the satisfaction of the filing officer that a UCC document that was refused for filing should not have been, the filing officer will file the UCC document as provided in these rules with a filing date and time assigned when such filing occurs. The filing officer will also file a filing officer statement that states the effective date and time of filing which shall be the date and time the UCC document was originally tendered for filing. The lapse date shall be calculated based upon the date the UCC document was originally tendered. (3-15-02)

209. -- 299. (RESERVED)
SECTION 3 -- UCC INFORMATION MANAGEMENT SYSTEM

300. POLICY STATEMENT.
The filing officer uses an information management system to store, index, and retrieve information relating to financing statements. The information management system includes an index of the names of debtors named on financing statements which have not been lapsed for more than one (1) year. (3-15-02)

301. PRIMARY DATA ELEMENTS.
The primary data elements used in the UCC information management system are the following: (3-15-02)

01. Identification Numbers.
   a. Each initial financing statement is identified by its file number as described in Subsection 101.05. Identification in the form of the file number of the initial financing statement is stamped on written UCC documents or is otherwise permanently associated with the record maintained for UCC documents in the UCC information management system. A record is created in the information management system for each initial financing statement and all information comprising such record is maintained in such system. Such record is identified by the same information assigned to the initial financing statement. (3-15-02)
   b. A UCC document other than an initial financing statement is identified by a unique file number assigned by the filing officer. In the information management system, records of all UCC documents other than initial financing statements are linked to the record of their related initial financing statement. (3-15-02)

02. Type of Document. The type of UCC document from which data is transferred is identified in the information management system from information supplied by the remitter. (3-15-02)

03. Filing Date and Filing Time. The filing date and filing time of UCC documents are stored in the information management system. Calculation of the lapse date of an initial financing statement is based upon the filing date or the effective filing date as provided in Section 208 of these rules. (3-15-02)

04. Identification of Parties. The names and addresses of debtors and secured parties are transferred from UCC documents to the UCC information management system using one (1) or more data entry or transmittal techniques. (3-15-02)

05. Status of Financing Statement. In the information management system, each financing statement has a status of active or inactive. (3-15-02)

06. Lapse Indicator. An indicator is maintained by which the information management system identifies whether or not a financing statement will lapse and, if it does, when it will lapse. The lapse date is determined as provided in Section 404. (3-15-02)

302. NAMES OF DEBTORS WHO ARE INDIVIDUALS.
The definition of “individual” is found in Subsection 101.08. This rule applies to the name on a UCC document of a debtor or a secured party who is an individual. (3-15-02)

01. Individual Name Fields. The names of individuals are stored in the same files as the names of organizations. Separate data entry fields are established for first (given), middle (given), and last names (surnames or family names) of individuals, and an indicator is marked with “I” to distinguish the name as that of an individual. The filing officer assumes no responsibility for the accurate designation of the components of a name but will accurately enter the data in accordance with the filer's designations. (3-15-02)

02. Titles and Prefixes Before Names. Titles and prefixes, such as “Doctor,” “Reverend,” “Mr.,” and “Ms.,” should not be entered in the UCC information management system. However, as provided in Section 407, when a UCC document is submitted with designated name fields, the data will be entered in the UCC information management system exactly as it appears. (3-15-02)

03. Titles and Suffixes After Names. Titles or indications of status such as “M.D.” and “esquire” shall
not be entered in the UCC information management system. Suffixes, such as “Sr.,” “Jr.,” “I,” “II,” and “III,” and “Est” (estate) are entered in a field designated for name suffixes. (3-15-02)

04. **Truncation -- Individual Names.** Personal name fields in the UCC database are fixed in length. Although filers should continue to provide full names on their UCC documents, a name that exceeds the fixed length is entered as presented to the filing officer, up to the maximum length of the data entry field. The length of data entry name fields are as follows. (3-15-02)

   a. First name: Fifty (50) characters.

   b. Middle name: Fifty (50) characters.

   c. Last name: Two hundred fifty-five (255) characters.

   d. Suffix: Ten (10) characters.

05. **No Assumed Business Names.** An assumed business name, whether or not on file under Chapter 5, Title 53, Idaho Code, is not the legal name of the individual using the assumed business name. (3-15-02)

303. **NAMES OF DEBTORS THAT ARE ORGANIZATIONS.**

This rule applies to the names of organizations which are debtors or secured parties on a UCC document. (3-15-02)

   01. **Single Field.** The names of organizations are stored in the same files as the names of individuals. The name of an organization is stored in the last-name field only, and an indicator is marked with “O” to distinguish the name as that of an organization. The filing officer assumes no responsibility for the accurate designation of an organizational name but will accurately enter the data in accordance with the filer's designations. (3-15-02)

   02. **Truncation-Organization Names.** The organization name field in the UCC database is fixed in length. The maximum length is two hundred fifty-five (255) characters. Although filers should continue to provide full names on their UCC documents, a name that exceeds the fixed length is entered as presented to the filing officer, up to the maximum length of the data entry field. (3-15-02)

   03. **No Assumed Business Names.** An assumed business name, whether or not on file under Chapter 5, Title 53, Idaho Code, is not the legal name of the organization using the assumed business name. (3-15-02)

304. **ESTATES.**

Although they are not human beings, estates are treated as if the decedent were the debtor under Section 302. “Est” should be entered in the suffix field. (3-15-02)

305. **TRUSTS.**

If the trust is named in its organic document(s), its full legal name, as set forth in such document(s), is used. Such trusts are treated as organizations. If the trust is not so named, the name of the settlor is used. If a settlor is indicated to be an organization, the name is treated as an organization name. If the settlor is an individual, the name is treated as an individual name. A UCC document that uses a settlor's name should include other information provided by the filer to distinguish the debtor trust from other trusts having the same settlor and all financing statements filed against trusts or trustees acting with respect to property held in trust should indicate the nature of the debtor. If this is done in, or as part of, the name of the debtor, it will be entered as if it were a part of the name under Sections 407 and 408. (3-15-02)

306. **INITIAL FINANCING STATEMENT.**

Upon the filing of an initial financing statement the status of the parties and the status of the financing statement shall be as follows: (3-15-02)

   01. **Status of Secured Party.** Each secured party named on an initial financing statement shall be a secured party of record, except that if the UCC document names an assignee, the secured party/assignor shall not be a secured party of record and the secured party/assignee shall be a secured party of record. (3-15-02)
02. **Status of Debtor.** The status of a debtor named on the document shall be active and shall continue as active until one (1) year after the financing statement lapses.

03. **Status of Financing Statement.** The status of the financing statement shall be active. A lapse date shall be calculated, five (5) years from the file date, unless the initial financing statement indicates that it is filed with respect to a public-financing transaction or a manufactured-home transaction, in which case the lapse date shall be thirty (30) years from the file date; or, if the initial financing statement indicates that it is filed against a transmitting utility, in which case there shall be no lapse date. A financing statement remains active until one (1) year after it lapses, or if it is indicated to be filed against a transmitting utility, until one (1) year after it is terminated with respect to all secured parties of record.

307. **AMENDMENT.**

Upon the filing of an amendment the status of the parties and the status of the financing statement shall be as follows:

01. **Status of Secured Party and Debtor.** An amendment shall affect the status of its debtor(s) and secured party(ies) as follows:

a. **Collateral Amendment or Address Change.** An amendment that amends only the collateral description or one (1) or more addresses has no effect upon the status of any debtor or secured party. If a statement of amendment is authorized by less than all of the secured parties (or, in the case of an amendment that adds collateral, less than all of the debtors), the statement affects only the interests of each authorizing secured party (or debtor).

b. **Debtor Name Change.** An amendment that changes a debtor's name has no effect on the status of any debtor or secured party, except that the related initial financing statement and all UCC documents that include an identification of such initial financing statement shall be cross-indexed in the UCC information management system so that a search under either the debtor's old name or the debtor's new name will reveal such initial financing statement and such related UCC documents. Such a statement of amendment affects only the rights of its authorizing secured party(ies).

c. **Secured Party Name Change.** An amendment that changes the name of a secured party has no effect on the status of any debtor or any secured party, but the new name is added to the index as if it were a new secured party of record.

d. **Addition of a Debtor.** An amendment that adds a new debtor name has no effect upon the status of any party to the financing statement, except the new debtor name shall be added as a new debtor on the financing statement. The addition shall affect only the rights of the secured party(ies) authorizing the statement of amendment.

e. **Addition of a Secured Party.** An amendment that adds a new secured party shall not affect the status of any party to the financing statement, except that the new secured party name shall be added as a new secured party on the financing statement.

f. **Deletion of a Debtor.** An amendment that deletes a debtor has no effect on the status of any party to the financing statement, even if the amendment purports to delete all debtors.

g. **Deletion of a Secured Party.** An amendment that deletes a secured party of record has no effect on the status of any party to the financing statement, even if the amendment purports to delete all secured parties of record.

02. **Status of Financing Statement.** An amendment shall have no effect upon the status of the financing statement, except that a continuation may extend the period of effectiveness of a financing statement.

308. **ASSIGNMENT OF POWERS OF SECURED PARTY OF RECORD.**
01. **Status of the Parties.** An assignment shall have no effect on the status of the parties to the financing statement, except that each assignee named in the assignment shall become a secured party of record. (3-15-02)

02. **Status of Financing Statement.** An assignment shall have no effect upon the status of the financing statement. (3-15-02)

309. **CONTINUATION.**

01. **Continuation of Lapse Date.** Upon the timely filing of one (1) or more continuations by any secured party(ies) of record, the lapse date of the financing statement shall be postponed for five (5) years. (3-15-02)

02. **Status of Parties.** The filing of a continuation shall have no effect upon the status of any party to the financing statement. (3-15-02)

03. **Status of Financing Statement.** Upon the filing of a continuation statement, the status of the financing statement remains active. (3-15-02)

310. **TERMINATION.**

01. **Status of Parties.** The filing of a termination shall have no effect upon the status of any party to the financing statement. (3-15-02)

02. **Status of Financing Statement.** A termination shall have no effect upon the status of the financing statement and the financing statement shall remain active in the information management system until one (1) year after it lapses, unless the termination relates to a financing statement that indicates it is filed against a transmitting utility, in which case the financing statement will become inactive one (1) year after it is terminated with respect to all secured parties of record. (3-15-02)

311. **CORRECTION STATEMENT.**

01. **Status of Parties.** The filing of a correction statement shall have no effect upon the status of any party to the financing statement. (3-15-02)

02. **Status of Financing Statement.** A correction statement shall have no effect upon the status of the financing statement. (3-15-02)

312. **PROCEDURE UPON LAPSE.**

If there is no timely filing of a continuation with respect to a financing statement, the financing statement lapses on its lapse date but no action is then taken by the filing office. On the first anniversary of such lapse date, the information management system renders or is caused to render the financing statement inactive and the financing statement will no longer be made available to a searcher unless inactive statements are requested by the searcher and the financing statement is still retrievable by the information management system. (3-15-02)

313. -- 399. **(RESERVED)**

SECTION 4 -- FILING AND DATA ENTRY PROCEDURES

400. **POLICY STATEMENT.**

This section contains rules describing the filing procedures of the filing officer upon and after receipt of a UCC document. It is the policy of the filing officer to file promptly a document that conforms to these rules. Except as provided in these rules, data is transferred from a UCC document to the information management system exactly as set forth in the document. Personnel who create reports in response to search requests type search criteria exactly as set forth on the search request. No effort is made to detect or correct errors of any kind. (3-15-02)

401. **DOCUMENT INDEXING AND OTHER PROCEDURES BEFORE ARCHIVING.**
01. **Cash Management.** Transactions necessary to payment of the filing fee are performed. (3-15-02)

02. **Document Review.** The filing office determines whether a ground exists to refuse the document under Section 202.

   a. **File Stamp.** If there is no ground for refusal of the document, the document is stamped or deemed filed and a unique identification number and the filing date is stamped on the document or permanently associated with the record of the document maintained in the UCC information management system. The sequence of the identification number is not an indication of the order in which the document was received. (3-15-02)

   b. **Correspondence.** If there is a ground for refusal of the document, notification of refusal to accept the document is prepared as provided in Section 205. If there is no ground for refusal of the document, an acknowledgment of filing is prepared as provided in Section 206. Acknowledgment of filing or notice of refusal of a UCC document is sent to the secured party (or the first secured party if there are more than one (1)) named on the UCC document or to the remitter if the remitter so requests by regular mail or by overnight courier if the remitter provides a prepaid waybill or access to the remitter's account with the courier. (3-15-02)

402. **FILING DATE.**
The filing date of a UCC document is the date the UCC document is received with the proper filing fee if the filing office is open to the public on that date; or, if the filing office is not so open to the public on that date, the filing date is the next date the filing office is so open, except that, in each case, UCC documents received after 5 p.m. shall be deemed received on the following day. The filing officer may perform any duty relating to the document on the filing date or on a date after the filing date. (3-15-02)

403. **FILING TIME.**
The filing time of a UCC document is determined as provided in Section 106. (3-15-02)

404. **LAPSE DATE AND TIME.**
A lapse date is calculated for each initial financing statement (unless the debtor is indicated to be a transmitting utility). The lapse date is the same date of the same month as the filing date in the fifth year after the filing date or relevant subsequent fifth anniversary thereof if a timely continuation statement is filed, but if the initial financing statement indicates that it is filed with respect to a public-finance transaction or a manufactured-home transaction, the lapse date is the same date of the same month as the filing date in the thirtieth year after the filing date. The lapse takes effect at midnight at the end of the lapse date. The relevant anniversary for a February 29 filing date shall be March 1 in the fifth year following the year of the filing date. (3-15-02)

405. **ERRORS OF THE FILING OFFICER.**
The filing office may correct the errors of filing officer personnel in the UCC information management system at any time. If the correction is made after the filing officer has issued a certification date that includes the filing date of a corrected document, the filing officer shall file a filing officer statement in the UCC information management system identifying the record to which it relates, the date of the correction and explaining the nature of the corrective action taken. The notation shall be preserved as long as the record is preserved in the UCC information management system. (3-15-02)

406. **ERRORS OTHER THAN FILING OFFICE ERRORS.**
An error by a filer is the responsibility of such filer. It can be corrected by filing an amendment or it can be disclosed by a correction statement. (3-15-02)

407. **DATA ENTRY OF NAMES – DESIGNATED FIELDS.**
A filing should designate whether a name is a name of an individual or an organization and, if an individual, also designate the first, middle and last names and any suffix. When this is done, Subsections 407.01 the through 407.03 shall apply:

   01. **Organization Names.** Organization names are entered into the UCC information management system exactly as set forth in the UCC document, even if it appears that multiple names are set forth in the document or if it appears that the name of an individual has been included in the field designated for an organization name. (3-15-02)
02. Individual Names. On a form that designates separate fields for first, middle, and last names and any suffix, the filing officer enters the names into the first, middle, and last name and suffix fields in the UCC information management system exactly as set forth on the form. (3-15-02)

03. Designated Fields Encouraged. The filing office encourages the use of forms that designate separate fields for individual and organization names and separate fields for first, middle, and last names and any suffix. Filers should be aware that the inclusion of a name in an incorrect field or the failure to transmit a name accurately to the filing office may cause a filing to be ineffective. (3-15-02)

408. DATA ENTRY OF NAMES -- NO DESIGNATED FIELDS. A UCC document that is an initial financing statement or an amendment that adds a debtor to a financing statement and that fails to specify whether the debtor is an individual or an organization shall be refused by the filing office. If it is accepted for filing in error, the following rules in Subsections 408.01 through 408.04 shall apply: (3-15-02)

01. Identification of Organizations. A name is treated as an organization name if it contains words or abbreviations that indicate status such as the following and similar words or abbreviations in foreign languages: association, church, college, company, co., corp., corporation, inc., limited, ltd., club, foundation, fund, L.L.C., limited liability company, institute, society, union, syndicate, GmBH, S.A. de C.V., limited partnership, L.P., limited liability partnership, L.L.P., trust, business trust, co-op, cooperative and other designations established by statutes to indicate a statutory organization. In cases where organization or individual status is not designated by the filer and is not clear, the filing officer will use his own judgment. (3-15-02)

02. Identification of Individuals. A name is entered as the name of an individual and not the name of an organization when the name is followed by a title substantially similar to one (1) of the following titles, or the equivalent of one (1) of the following titles in a foreign language: proprietor, sole proprietor, proprietorship, sole proprietorship, partner, general partner, president, vice president, secretary, treasurer, M.D., O.D., D.D.S., attorney at law, Esq., accountant, CPA. In such cases, the title is not entered. (3-15-02)

03. Individual and Organization Names on a Single Line. Where it is apparent that the name of an individual and the name of an entity are stated on a single line and not in a designated individual name field, the name of the individual and the name of the entity shall be entered as two (2) separate debtors, one (1) as an individual and one (1) as an entity. Additional filing fees for the amendment to add additional debtor name(s) may be required. (3-15-02)

04. Individual Names. The failure to designate the last name of an individual debtor in an initial financing statement or an amendment adding such debtor to a financing statement should cause a filing to be refused. If the filing is accepted in error, or if only the last name is designated, the following data entry rules apply: (3-15-02)

a. Freestanding Initials. An initial in the first position of the name is treated as a first name. An initial in the second position of the name is treated as a middle name. (3-15-02)

b. Combined Initials and Names. An initial and a name to which the initial apparently corresponds is entered into one (1) name field only [e.g. “D. (David)” in the name “John D. (David) Rockefeller” is entered as “John” (first name); “D. (David)” (middle name); “Rockefeller” (last name)]. (3-15-02)

c. Multiple Individual Names on a Single Line. Two (2) individual names contained in a single line are entered as two different debtors [e.g. the debtor name “John and Mary Smith” is entered as two (2) debtors: “John Smith” and “Mary Smith”]. (3-15-02)

d. One Word Names. A one (1) word name is entered as a last name [e.g. “Charro” is treated as a last name]. (3-15-02)

e. Nicknames. A nickname is entered in the name field together with the name preceding the nickname, or if none, then as the first name (e.g., “William (Bill) Jones”). (3-15-02)

409. VERIFICATION OF DATA ENTRY.
The filing officer uses double key entry to verify the accuracy of data entry tasks. (3-15-02)

410. INITIAL FINANCING STATEMENT.

01. New Record Bears the Unique UCC File Number. A new record is opened in the UCC information management system for each initial financing statement. The new record bears the unique file number of the financing statement and the date and time of filing. (3-15-02)

02. Name and Address of Each Debtor. The name and address of each debtor that are legibly set forth in the financing statement are entered into the record of the financing statement. Each such debtor name is included in the searchable index and is not removed until one (1) year after the financing statement lapses. (3-15-02)

03. Name and Address of Each Secured Party. The name and address of each secured party that are legibly set forth in the financing statement are entered into the record of the financing statement. (3-15-02)

04. Record Is Indexed According to the Name of the Debtor. The record is indexed according to the name of the debtor(s) and is maintained for public inspection. (3-15-02)

05. Lapse Date. A lapse date is established for the financing statement, and the lapse date is maintained as part of the record. No lapse date is established for a financing statement which indicates it is filed against a transmitting utility. (3-15-02)

411. AMENDMENT.

01. Date and Time of Filing Amendment. A record is created for the amendment that bears the file number for the amendment and the date and time of filing. (3-15-02)

02. Amendment Initial Financing Statement. The record of the amendment is associated with the record of the related initial financing statement in a manner that causes the amendment to be retrievable each time a record of the financing statement is retrieved. (3-15-02)

03. Amendment Financing Statement Lapses. The name and address of each additional debtor and secured parties are entered into the UCC information management system in the record of the financing statement. Each such additional debtor name is added to the searchable index and is not removed until one (1) year after the financing statement lapses. (3-15-02)

04. New Lapse Date Is Established. If the amendment is a continuation, a new lapse date is established for the financing statement and maintained as part of its record. (3-15-02)

412. CORRECTION STATEMENT.

A record is created for the correction statement that bears the file number for the correction statement and the date and time of filing. The record of the correction statement is associated with the record of the related initial financing statement in a manner that causes the correction statement to be retrievable each time a record of the financing statement is retrieved. (3-15-02)

413. GLOBAL FILINGS.

01. Filing a Single UCC Document. The filing officer may accept for filing a single UCC document for the purpose of amending more than one (1) financing statement, for one (1) or both of the following purposes:

a. Amendment to change secured party name; or (3-15-02)

b. Amendment to change secured party address. (3-15-02)

02. Global Filing. A global filing shall consist of a written document describing the requested amendment on a form approved by the filing office. Acceptance of a global filing is conditioned upon the
determination of the filing officer and is within the filing officer's sole discretion. (3-15-02)

414. NOTICE OF BANKRUPTCY.
The filing officer shall take no action upon receipt of a notification, formal or informal, of a bankruptcy proceeding involving a debtor named in the UCC information management system. (3-15-02)

415. -- 499. (RESERVED)

SECTION 5 -- SEARCH REQUESTS AND REPORTS

500. GENERAL REQUIREMENTS.
The filing officer maintains for public inspection a searchable index for all records of UCC documents that provides for the retrieval of a record by the name of the debtor and by the file number of the initial financing statement to which the record relates and which associates each initial financing statement and each filed UCC document relating to the initial financing statement. (3-15-02)

501. SEARCH REQUESTS.
Search requests shall contain the following information: (3-15-02)

01. Name Searched. A search request should set forth the full correct name of a debtor or the name variant desired to be searched and must specify whether the debtor is an individual or an organization. The full name of an individual should consist, whenever possible, of a first, middle, and last name, followed by any suffix that may apply to the name. The full name of an organization shall consist of the name of the organization as stated on the articles of incorporation or other organic documents in the state or country of organization or the name variant desired to be searched. A search request will be processed using the name in the exact form it is submitted. (3-15-02)

02. Requesting Party. The name and address of the person to whom the search report is to be sent. (3-15-02)

03. Fee. The appropriate fee shall be enclosed, payable by a method described in Section 113. (3-15-02)

502. OPTIONAL INFORMATION.
A UCC search request may contain any of the following information: (3-15-02)

01. Copies of Documents. A request that copies of documents referred to in the report be included with the report. The request may limit the copies requested by limiting them by reference to the city of the debtor, the date of filing, or a range of filing dates on the financing statements located by the related search. The request may ask for copies of UCC documents identified on the primary search response. (3-15-02)

02. Debtor Name. A request that the search of a debtor name be limited to debtors in a particular city. A report created by the filing officer in response to such a request shall contain the following statement: “A search limited to a particular city, the date of filing, or a range of filing dates may not reveal all filings against the debtor searched and the searcher bears the risk of relying on such a search.” (3-15-02)

03. Mode of Delivery. Instructions on the mode of delivery requested, if other than by ordinary mail, will be honored if the requested mode is at the time available to the filing office. (3-15-02)

503. RULES APPLIED TO SEARCH REQUESTS.
Search results are created by applying standardized search logic to the name presented to the filing officer by the person requesting the search. Human judgment does not play a role in determining the results of the search, except with respect to supplemental responses regarding individual debtor names that are not automated. The following, and only the following, rules are applied to conduct searches: (3-15-02)

01. No Limit on Number of Search Matches. There is no limit to the number of matches that may be returned in response to the search criteria. (3-15-02)
02. **Not Case Sensitive.** No distinction is made between upper and lower case letters. (3-15-02)

03. **Punctuation.** Punctuation marks and accents are disregarded. (3-15-02)

04. **Words and Abbreviations at the End of a Name.** Words and abbreviations at the end of a name that indicate the existence or nature of an organization as set forth in the “Ending Noise Words” list as promulgated and adopted by the International Association of Corporation Administrators, as amended from time to time, are disregarded (e.g., company, limited, incorporated, corporation, limited partnership, limited liability company or abbreviations of the foregoing). (3-15-02)

05. **“The” Disregarded.** The word “the” at the beginning of the search criteria is disregarded. (3-15-02)

06. **Spaces.** All spaces are disregarded. (3-15-02)

07. **Initials.** For first and middle names of individuals, initials are equated with all names that begin with such initials, and no middle name or initial is equated with all middle names and initials. (3-15-02)

08. **Names Searched On.** After taking the preceding rules into account to modify the name of the debtor requested to be searched and to modify the names of debtors contained in active financing statements in the UCC information management system, the search will reveal only names of debtors that are contained in active financing statements and, as modified, exactly match the name requested, as modified. (3-15-02)

504. **SEARCH RESPONSES.**
Reports created in response to a search request shall include the following: (3-15-02)

01. **Filing Officer.** Identification of the filing officer and the certification of the filing officer required by the UCC. (3-15-02)

02. **Report Date.** The date the report was generated. (3-15-02)

03. **Name Searched.** Identification of the name searched. (3-15-02)

04. **Certification Date.** The certification date applicable to the report; i.e., the date and time through which the search is effective to reveal all relevant UCC documents filed on or prior to that date. (3-15-02)

05. **Identification of Initial Financing Statements.** Identification of each unlapsed initial financing statement filed on or prior to the certification date and time corresponding to the search criteria, by name of debtor, by identification number, and by file date and file time. (Lapsed financing statements remain active for one (1) year after the lapse date and may be requested on the search form.) (3-15-02)

06. **History of Financing Statement.** For each initial financing statement on the report, a listing of all related UCC documents filed by the filing officer on or prior to the certification date. (3-15-02)

07. **Copies.** Copies of all UCC documents revealed by the search and requested by the searcher. (3-15-02)

505. -- 599. (RESERVED)

SECTION 6 -- OTHER NOTICES OF LIENS

600. **POLICY STATEMENT.**
The purpose of the rules in this section is to describe non-UCC liens maintained by the filing office. These liens are treated by the filing officer in a manner similar to UCC documents and are included, on request, with the reports described in Sections 504 and 505. (3-15-02)
601. NOTICE OF FEDERAL TAX LIEN.

01. Filing. Pursuant to Section 45-202, Idaho Code, federal tax liens on business entities, estates, and trusts are filed at the Secretary of State’s Office. (3-15-02)
   a. Fee. (3-15-02)
      i. The fee for filing is six dollars ($6); (3-15-02)
      ii. If there is an attachment there is an additional fee of one dollar ($1) per page. (3-15-02)
   b. Duration. Pursuant to the Internal Revenue Code, federal tax liens have a duration of ten (10) years. (3-15-02)

02. Mechanics of Search. (3-15-02)
   a. Fee for Search. (3-15-02)
      i. Six dollars ($6) for information only; (3-15-02)
      ii. Twelve dollars ($12) for information and copies. (3-15-02)
   b. Combination Search Available with UCC Search: (3-15-02)
      i. Ten dollars ($10) for information; (3-15-02)
      ii. Sixteen dollars ($16) for information and copies. (3-15-02)

602. NOTICE OF STATE TAX LIEN.

01. Filing. (3-15-02)
   a. Where to File. The Secretary of State accepts electronic filings from the Idaho Tax Commission pursuant to Chapter 19, Title 45, Idaho Code, and Title 63, Idaho Code. (3-15-02)
   b. Fee. None. (3-15-02)
   c. Duration. Five (5) years. (3-15-02)

02. Mechanics of Search. (3-15-02)
   a. Fee for Search. (3-15-02)
      i. Six dollars ($6) for information only; (3-15-02)
      ii. Twelve dollars ($12) for information and copies. (3-15-02)
   b. Combination Search Available with UCC Search: (3-15-02)
      i. Ten dollars ($10) for information; (3-15-02)
      ii. Sixteen dollars ($16) for information and copies. (3-15-02)

603. NOTICE OF OTHER LIEN IN FAVOR OF A GOVERNMENTAL BODY (NATURE AND DURATION).
01. **State Agencies.** Generally under Chapter 19, Title 45, Idaho Code. (3-15-02)
   a. Department of Commerce and Labor, Chapter 13, Title 72, Idaho Code (unemployment insurance-five year duration). (3-15-02)
   b. Department of Commerce and Labor, Chapter 6, Title 45, Idaho Code (wage claims-five (5) year duration). (3-15-02)

02. **Counties.** Chapter 35, Title 31, Idaho Code (indigent medical-indefinite duration). (3-15-02)

03. **Mechanics of Search.** (3-15-02)
   a. Fee for Search. (3-15-02)
      i. Six dollars ($6) for information only; (3-15-02)
      ii. Twelve dollars ($12) for information and copies. (3-15-02)
   b. Combination Search Available with UCC Search: (3-15-02)
      i. Ten dollars ($10) for information; (3-15-02)
      ii. Sixteen dollars ($16) for information and copies. (3-15-02)

604. **SEED AND FARM LABOR LIENS.**

01. **Mechanics of Filing.** Seed and farm labor liens pursuant to Chapter 3, Title 45, Idaho Code are filed in the same manner as initial financing statements and may use only forms prescribed by the Secretary of State’s Office. They are indexed by debtor name and will be revealed, on request, by searches under Sections 504 and 505. (3-15-02)
   a. Where to File. Seed and farm labor liens are filed with the filing office. (3-15-02)
   b. Fee. (3-15-02)
      i. Four dollars ($4), if typed; (3-15-02)
      ii. Eight dollars ($8), if handwritten. (3-15-02)
   c. Duration. (3-15-02)
      i. Farm labor liens remain in effect for twelve (12) months after filing and may be extended for six (6) months. (3-15-02)
      ii. Seed liens remain in effect for sixteen (16) months and may be extended for six (6) months. (3-15-02)

02. **Mechanics of Search.** (3-15-02)
   a. Fee for Search. (3-15-02)
605. AGRICULTURE COMMODITY LIENS.

01. Mechanics of Filing. Agricultural commodity liens pursuant to Chapter 18, Title 45, Idaho Code are filed in the same manner as initial financing statements and may use only forms prescribed by the Secretary of State’s Office. These types of liens are indexed by debtor name and will be revealed, on request, by searches under Sections 504 and 505.

a. Fee. Five dollars ($5).

b. Duration. Ninety (90) days.

02. Mechanics of Search. Fee for search:

a. Five dollars ($5), if combined with other searches;

b. Ten dollars ($10) for information;

c. Sixteen dollars ($16) for information and copies.

606. FARM PRODUCT LIENS.

01. Mechanics of Filing.

a. Pursuant to Section 28-9-526, Idaho Code, farm product liens are filed in the same manner as initial financial statements and may use only forms prescribed by the Secretary of State’s Office. They are indexed by debtor name and will be revealed, on request, by searches under Sections 504 and 505.

b. Where to File. Farm product liens are filed with the filing office.

c. Fee.

i. Ten dollars ($10), if typed;

ii. Fourteen dollars ($14), if handwritten;

iii. For attachments, it is an additional one dollar ($1) per printer page.

d. Duration. Farm product liens remain in effect for five (5) years and may be extended to five (5) years if continuation is received six (6) months prior to lapse.

02. Mechanics of Search.

a. Fee for Search:

i. Six dollars ($6) for information only;

ii. Twelve dollars ($12) for information and copies.
b. Combination Search Available with UCC Search:

i. Ten dollars ($10) for information;

ii. Sixteen dollars ($16) for information and copies.

607. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 63-105(2), Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 35, rules of the Idaho State Tax Commission.

**IDAPA 35**
- 35.01.01, *Income Tax Administrative Rules – all rules except 290 and 770*
- 35.01.02, *Idaho Sales and Use Tax Administrative Rules – all rules except 105.04 and 121*
- 35.01.03, *Property Tax Administrative Rules – all rules except 945, 968 and 990*
- 35.01.05, *Idaho Motor Fuels Tax Administrative Rules – all rules except 120 and 160*
- 35.01.06, *Hotel/Motel Room and Campground Sales Tax Administrative Rules*
- 35.01.07, *Kilowatt Hour Tax Administrative Rules*
- 35.01.08, *Mine License Tax Administrative Rules*
- 35.01.09, *Idaho County Option Kitchen and Table Wine Tax Administrative Rules*
- 35.01.10, *Idaho Cigarette and Tobacco Products Tax Administrative Rules*
- 35.01.11, *Idaho Beer Tax Administrative Rules*
- 35.01.12, *Prepaid Wireless E911 Fee Administrative Rules*
- 35.02.01, *Tax Commission Administration and Enforcement Rules – All rules except Subsections/Sections 005.02.a. through e., 010.05, and 100*

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. As stated in our mission statement, the Tax Commission has a duty “to administer the state's tax laws in a fair, timely, and cost-effective manner to benefit all Idaho citizens.” To help meet that responsibility, the Tax Commission’s administrative rules provide specific guidance to taxpayers on how to comply with Idaho tax laws.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Tom Shaner (208) 334-7518.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

Tom Shaner
Tax Policy Manager
Idaho State Tax Commission
800 Park Blvd, Plaza IV
Boise, ID 83712-7742
Phone: (208) 334-7518
Fax: (208) 334-7690
000. LEGAL AUTHORITY (RULE 000).
In accordance with Sections 63-105 and 63-3039, Idaho Code, the Tax Commission has promulgated rules implementing the provisions of the Idaho Income Tax Act. The rules relating to the administration and enforcement of income taxes as well as other taxes, such as sales taxes, are promulgated as IDAPA 35.02.01. (3-20-97)

001. TITLE AND SCOPE (RULE 001).
Section 63-3039, Idaho Code.

01. Title. These rules are titled IDAPA 35.01.01.000, et seq., Idaho State Tax Commission Rules IDAPA 35.01.01, “Income Tax Administrative Rules.” (2-27-12)

02. Scope. These rules will be construed to reach the full jurisdictional extent of the state of Idaho’s authority to impose a tax on income of all persons who derive income from Idaho sources or who enjoy benefits of Idaho residence. (2-27-12)

03. Effective Date. To the extent allowed by statute, rules in this chapter will be applied on their effective date to all taxable years open for determining tax liability. (2-27-12)

04. Closed Years or Issues. Taxable years closed by the statute of limitations remain closed and are not reopened by the promulgation, repeal or amendment of any rule. Issues resolved by the expiration of appeal time, a notice of deficiency determination, or a final decision of the Tax Commission will not be reopened by the promulgation, repeal, or amendment of any rule. (2-27-12)

05. Transactions Before an Effective Date. A rule will not be applied to transactions occurring before its effective date in a case where, in the opinion of the Tax Commission, to do so would create an obvious injustice. (2-27-12)

002. WRITTEN INTERPRETATIONS (RULE 002).
This Agency has written statements as defined in Section 67-5201(19)(b)(iv), Idaho Code, which pertain to the interpretation of the rules of this chapter or to the documentation of compliance with the rules of this chapter. To the extent that such documents are not confidential by statute or rule, the documents are available for public inspection and copying at the main office of the Tax Commission. See Rule 005 of these rules for the main office address. (3-15-02)

003. ADMINISTRATIVE APPEALS (RULE 003).
This chapter allows administrative relief as provided in Sections 63-3045, 63-3045A, 63-3045B, and 63-3049, Idaho Code. (3-20-97)

004. PUBLIC RECORDS (RULE 004).
The records associated with this chapter are subject to Title 74, Chapter 1, Idaho Code, to the extent these documents are not confidential pursuant to Sections 63-3076, 63-3077, or 74-101 through 74-126, Idaho Code. (3-15-02)

01. Main Office. The State Tax Commission main office is located at 800 Park Blvd., Plaza IV, Boise, Idaho 83712-7742. The correspondence mailing address is P.O. Box 36, Boise, Idaho 83722-0410. The State Tax Commission’s Website at www.tax.idaho.gov. The telephone number for Taxpayer Services is (208) 334-7660, or toll free 1-800-972-7660, and the facsimile number is (208) 334-7846. The e-mail address is taxrep@tax.idaho.gov.
Office hours are 8:00 a.m. to 5:00 p.m. Monday through Friday except for legal holidays. (3-15-02)

02. Hearing Impaired. Hearing impaired individuals may contact any State Tax Commission office by using the Idaho Relay Service Number 1-800-377-3529. (3-15-02)

006. INCORPORATION BY REFERENCE (RULE 006).
These rules incorporate by reference the following documents, which may be obtained from the main office of the Idaho State Tax Commission:

01. MTC Special Industry Regulations. These documents are found on the Multistate Tax Commission (MTC) Website at http://www.mtc.gov/Uniformity/Adopted-Uniformity-Recommendations, or can be obtained by contacting the MTC, 444 N. Capitol Street, NW, Suite 425, Washington, DC 20001. See Rules 580 and 581 of these rules. (3-15-02)

02. MTC Recommended Formula for the Apportionment and Allocation of Net Income of Financial Institutions. This rule incorporates the MTC Recommended Formula for the Apportionment and Allocation of Net Income of Financial Institutions as adopted November 17, 1994. This document is found on the MTC Website at http://www.mtc.gov/uploadedFiles/Multistate_Tax_Commission/Uniformity/Uniformity_Projects/A_-_Z/FormulafortApportionmentofNetIncomeFinInst.pdf or can be obtained by contacting the MTC, 444 N. Capitol Street, NW, Suite 425, Washington, DC 20001. See Rule 582 of these rules. (4-2-08)

007. -- 009. (RESERVED)

010. DEFINITIONS (RULE 010).
Section 63-3003, Idaho Code

01. Administration and Enforcement Rules. The term Administration and Enforcement Rules refers to IDAPA 35.02.01, relating to the administration and enforcement of Idaho taxes. (3-20-97)

02. Due Date. As used in these rules, due date means the date prescribed for filing without regard to extensions. (3-20-97)

03. Employee. An employee is an individual who performs services for another individual or organization that controls what services are performed and how they are performed. (3-20-97)

04. Employer. An employer is any person or organization for whom an individual performs services as an employee. (3-20-97)

05. Mathematical Error. A mathematical error includes arithmetical errors, incorrect computations, omissions, defects in a return, and entries on the wrong line. (3-20-97)

06. Sale. A sale is defined as a transaction in which title passes from the seller to the buyer, or when possession and the burdens and benefits of ownership are transferred to the buyer. A sale may have occurred even if the buyer does not have the right to possession until he partially or fully satisfies the terms of the contract. (3-20-97)

07. Tax Home. For income tax purposes, the term tax home refers to the taxpayer’s principal place of business, employment, station, or post of duty regardless of where he maintains his personal or family residence. Thus, a taxpayer domiciled or residing in Idaho with a permanent post of duty in another state is an Idaho resident for Idaho income tax purposes. However, he is not entitled to a deduction for travel expenses incurred in the other state since that is his tax home. (3-20-97)

08. Terms. Terms not otherwise defined in the Idaho Income Tax Act or these rules shall have the same meaning as is assigned to them by the Internal Revenue Code including Section 7701 relating to definitions of terms. (3-20-97)

09. These Rules. The term these rules refers to IDAPA 35.01.01, relating to Idaho income tax. (3-20-97)
10.  **Wages.** The term wages relates to all compensation for services performed for an employer regardless of the form of payment. (3-20-97)

11.  **Marriage.** For purposes of computing taxable income, including the computation of Idaho taxable income, any reference to marriage in federal or state law, including terms such as marriage, married, spouse, husband, wife, widow, or widower, shall be interpreted as referring to a marriage relationship defined in Section 32-201, Idaho Code, or recognized by Section 32-209, Idaho Code. For all purposes of the Idaho Income Tax Act, the marriage must be one which is considered valid or recognized under Article III, Section 28 of the Idaho Constitution. (3-20-14)

011. -- 014.  (RESERVED)

015.  **INTERNAL REVENUE CODE (RULE 015).**
Section 63-3004, Idaho Code

01.  **Interpretations.** Interpretations of the Internal Revenue Code may be found in various sources. These sources include decisions of the Tax Court, Congressional Committee Reports, General Counsel Memoranda, Decisions of the Federal and State Courts on federal income tax issues and Treasury Regulations. These interpretations are adopted by this reference to the extent that they are not in conflict with or inconsistent with the Idaho Code or administrative rules. (3-20-97)

02.  **Retroactive Amendments.** For the purpose of determining federal taxable income, any retroactive amendments to the Internal Revenue Code that are enacted on or before the date found in Section 63-3004(a), Idaho Code, are applied retroactively to the extent allowed under federal law. (3-26-19)

03.  **Tax Commission Granted Discretion in Determining Correctness of Tax Return.** Discretion granted to the Secretary of the Treasury to determine or reallocate items of income or adjustments to income, deductions, expenses, credits or other subjects of taxation by the Internal Revenue Code may also be exercised by the Tax Commission and its authorized agents, employees and deputies to enforce and administer the Idaho Income Tax Act and these rules. (3-20-97)

016.  **IDAHO GROSS INCOME (RULE 016).**
Sections 63-3011 and 63-3030, Idaho Code

01.  **In General.** Gross income means all income from whatever source derived, unless specifically excluded by the Internal Revenue Code. (3-25-16)

02.  **Gross Income from Pass-Through Entities.** Gross income includes an owner’s share of a pass-through entity’s gross income pursuant to sections 702(c) and 1366(c) of the Internal Revenue Code, and federal Treasury Regulation Section 1.61-13 (citing Part I, Subchapter J, Chapter 1 of the Internal Revenue Code). (3-25-16)

03.  **Gross Income from Idaho Sources.** Gross income from Idaho sources is that portion of total gross income derived from or related to sources within Idaho. Income derived from or related to sources within Idaho is determined pursuant to this rule and Rules 260 through 286 of these rules. (3-25-16)

04.  **Idaho Source Gross Income from a Pass-Through Entity.** (3-25-16)

a.  Partnership. The amount of a partner’s gross income from Idaho sources is: (3-25-16)

i.  The partner’s distributive share of partnership gross income included in the partnership’s apportionable income multiplied by the Idaho apportionment factor of the partnership; and (3-25-16)

ii.  The partner’s distributive share of gross income allocated to Idaho. (3-25-16)

b.  S Corporation. The amount of a shareholder’s gross income from Idaho sources is: (3-25-16)

i.  The shareholder’s pro rata share of the S corporation gross income included in the S corporation’s
apportionable income multiplied by the Idaho apportionment factor of the S corporation; and

   ii. The shareholder’s pro rata share of gross income allocated to Idaho.

   c. Trust or Estate. The Idaho source portion of the income that constitutes gross income pursuant to federal Treasury Regulation Section 1.61-13 and Part I, Subchapter J, Chapter 1 of the Internal Revenue Code, is the amount of such income that would be Idaho source if received directly by the individual.

05. Examples.

   a. A taxpayer’s federal adjusted gross income includes ten thousand dollars ($10,000) of ordinary loss passed through from a partnership that transacts business only in Idaho. However, the taxpayer’s distributive share of the partnership’s gross income determined under Section 61 of the Internal Revenue Code is fifty thousand dollars ($50,000). The taxpayer’s gross income from Idaho sources from the partnership is fifty thousand dollars ($50,000).

   b. A taxpayer’s federal adjusted gross income includes ten thousand dollars ($10,000) of ordinary loss passed through from a partnership that has a fifty percent (50%) Idaho apportionment factor. However, the taxpayer’s distributive share of the partnership’s gross income determined under Section 61 of the Internal Revenue Code is fifty thousand dollars ($50,000). The taxpayer’s gross income from Idaho sources from the partnership is twenty-five thousand dollars ($25,000).

   c. A nonresident taxpayer’s federal adjusted gross income includes five thousand dollars ($5,000) of guaranteed payments for services performed outside of Idaho received from a partnership that has a fifty percent (50%) Idaho apportionment factor. As provided in Section 63-3026A(3)(a)(i)(2), Idaho Code, none of the guaranteed payments are included in the partner’s gross income from Idaho sources because the services were performed outside of Idaho.

   d. A nonresident taxpayer’s federal adjusted gross income includes five thousand dollars ($5,000) of guaranteed payments for services performed in Idaho received from a partnership that has a fifty percent (50%) Idaho apportionment factor. As provided in Section 63-3026A(3)(a)(i)(2), Idaho Code, all of the guaranteed payments are included in the partner’s gross income from Idaho sources because the services were performed in Idaho.

   e. A nonresident taxpayer’s federal adjusted gross income includes three hundred thousand dollars ($300,000) of guaranteed payments for services performed outside of Idaho received from a partnership that has a fifty percent (50%) Idaho apportionment factor. As provided in Section 63-3026A(3)(a)(i)(2), Idaho Code, the first two hundred and fifty thousand dollars ($250,000) of guaranteed payments are sourced as compensation for services. Since the services were performed outside of Idaho, two hundred and fifty thousand dollars ($250,000) of the guaranteed payments are not included in the partner’s gross income from Idaho sources. However, twenty-five thousand dollars ($25,000) of the guaranteed payments in excess of two hundred and fifty thousand dollars ($250,000) are included in the partner’s gross income from Idaho sources based on the apportionment factor of the partnership.

   f. A nonresident taxpayer’s federal adjusted gross income includes ten thousand dollars ($10,000) of nonbusiness gross income passed through from a partnership that has a fifty percent (50%) Idaho apportionment factor. If the partnership’s nonbusiness income is allocated to Idaho, ten thousand dollars ($10,000) of the nonbusiness gross income is included in the partner’s gross income from Idaho sources. If the partnership’s nonbusiness income is allocated to a state other than Idaho, none of the nonbusiness gross income is included in the partner’s gross income from Idaho sources.

017. TREATMENT OF THE SECTION 965 OF THE INTERNAL REVENUE CODE INCREASE IN SUBPART F INCOME AND RELATED EXCLUSIONS (RULE 017).

Subpart F income as defined in Section 952, Internal Revenue Code, is gross income under Section 951(a), Internal Revenue Code, and included in a taxpayer’s taxable income under the Internal Revenue Code. Idaho taxpayers must include the Section 965, Internal Revenue Code, increase in their subpart F income (Section 965(a) reduced by Section 965(b), Internal Revenue Code), when computing their Idaho taxable income regardless of how such income is reported to the Internal Revenue Service on the federal income tax form. Section 63-3002, Idaho Code
025. TAXABLE YEAR AND ACCOUNTING PERIOD (RULE 025).

Section 63-3010, Idaho Code

01. In General. A taxpayer shall file his Idaho return for the same taxable year as filed for federal income tax purposes. If a federal return is not filed, the taxable year shall be the taxable year required by the Internal Revenue Code, any other period that may be required by law, or the calendar year. Taxable year generally corresponds to the taxpayer’s annual accounting period unless a short-period return is required. (7-1-98)

02. Change of Accounting Period. (3-20-97)

a. If a taxpayer changes his accounting period for federal income tax purposes, he shall make the same change for the same period for Idaho income tax purposes. If prior approval of the Commissioner of the Internal Revenue Service is required, a copy of that approval shall accompany the Idaho short-period return. (3-20-97)

b. If a change does not require prior approval of the Commissioner of the Internal Revenue Service, the change shall be noted on the Idaho short-period return, along with a statement that no prior approval was required and the authority cited. (3-20-97)

030. RESIDENT (RULE 030).

Section 63-3013, Idaho Code

01. Resident. The term resident applies to individuals, estates, and trusts. (3-20-97)

a. An individual is a resident if he meets either of the tests set forth in Section 63-3013, Idaho Code. For the rules relating to the residency status of aliens, see Rule 031 of these rules. For the rules relating to the residency status of servicemembers and their spouses, see Rule 032 of these rules. For the rules relating to Native Americans, see Rule 033 of these rules. (2-27-12)

b. For the rules relating to the residency status of estates, see Rule 034 of these rules. (3-20-97)

c. For the rules relating to the residency status of trusts, see Rule 035 of these rules. (3-20-97)

02. Domicile. The term domicile means the place where an individual has his true, fixed, permanent home and principal establishment, and to which place he has the intention of returning whenever he is absent. An individual can have several residences or dwelling places, but he legally can have but one domicile at a time. (3-20-97)

a. Domicile, once established, is never lost until there is a concurrence of a specific intent to abandon an old domicile, an intent to acquire a specific new domicile, and the actual physical presence in a new domicile. (3-20-97)

b. All individuals who have been domiciled in Idaho for the entire taxable year are residents for Idaho income tax purposes, even though they have actually resided outside Idaho during all or part of the taxable year, except as provided in Section 63-3013(2), Idaho Code. (7-1-98)

c. An individual meeting the safe harbor exception set forth in Section 63-3013(2), Idaho Code, is not considered a resident of Idaho. Any individual meeting the safe harbor exception to residency status is either a nonresident or part-year resident. (7-1-98)

d. The safe harbor exception to being a resident of Idaho does not apply to a servicemember or a servicemember’s spouse domiciled in Idaho if the Servicemembers Civil Relief Act applies to the individual. (2-27-12)
03. **Place of Abode.** See Rule 040 of these rules for information as to what constitutes a place of abode. (7-1-98)

031. **ALIENS (RULE 031).**
Sections 63-3013, 63-3013A, and 63-3014, Idaho Code

**01. Idaho Residency Status.** For purposes of the Idaho Income Tax Act, an alien may be either a resident, part-year resident, or nonresident, except a nonresident alien as defined in Section 7701, Internal Revenue Code, shall be a nonresident. See Paragraph 031.01.b., of this rule. (3-30-07)

a. An alien shall determine his Idaho residency status using the tests set forth in Sections 63-3013, 63-3013A, and 63-3014, Idaho Code. (3-30-07)

b. A nonresident alien as defined in Section 7701, Internal Revenue Code, is a nonresident for Idaho. If a nonresident alien has elected to be treated as a resident of the United States for federal income tax purposes, he shall determine his Idaho residency status as provided in Paragraph 031.01.a., of this rule. (3-30-07)

**02. Computation of Idaho Taxable Income.** (3-20-97)

a. To compute the Idaho taxable income of an alien, the first step is to determine his taxable income. This will depend on whether the alien is a resident, nonresident, or dual status alien for federal income tax purposes. (3-20-97)

b. Once the alien’s taxable income has been computed, the amount of income subject to Idaho income tax depends on the alien’s Idaho residency status. In general, if the alien qualifies as an Idaho resident, he is subject to Idaho income tax on all his taxable income regardless of its source. If the alien qualifies as a part-year resident or nonresident of Idaho, the amount of his taxable income subject to Idaho income tax is determined pursuant to Section 63-3026A, Idaho Code, and Rules 250 through 259 of these rules. (3-20-97)

c. In the case of a nonresident alien who does not elect to be treated as a resident for federal income tax purposes, the standard deduction is zero (0). However, a nonresident alien who qualifies as a student or business apprentice eligible for the benefits of Article 21(2) of the United States - India Income Tax Treaty is entitled to the standard deduction amount as if he were a resident for federal income tax purposes provided he does not claim itemized deductions. (7-1-99)

**03. Filing Status.** An alien shall use the same filing status for the Idaho return as used on the federal return. If for federal income tax purposes a married alien files as a nonresident alien and does not elect to be treated as a resident, the married alien shall use the filing status married filing separate on the Idaho return. (3-30-01)

**04. Copy of Federal Forms Required.** In addition to the requirements set forth in Rule 800 of these rules, a nonresident alien shall attach a copy of the following forms to his Idaho individual income tax return: (4-2-08)

a. Form 8843 if filed with the IRS; (4-2-08)

b. All Forms 1042-S received for the taxable year. (4-2-08)

032. **MEMBERS OF THE UNIFORMED SERVICES (RULE 032).**
Section 63-3013, Idaho Code

**01. Servicemembers Civil Relief Act.** Section 511 of the Servicemembers Civil Relief Act (50 U.S.C. App. Section 571) provides that a servicemember will neither lose nor acquire a residence or domicile with regard to his income tax as a result of being absent or present in a state due to military orders. (4-7-11)

**02. Servicemember.** A servicemember is defined to include any member of the uniformed services as that term is defined in 10 U.S.C. Section 101(a)(5). A member of the uniformed services includes: (4-7-11)
a. A member of the armed forces, which includes a member of the Army, Navy, Air Force, Marine Corps, or Coast Guard on active duty. It also includes a member of the National Guard who has been called to active service by the President of the United States or the Secretary of Defense of the United States for a period of more than thirty (30) consecutive days under 32 U.S.C. Section 502(f), for purposes of responding to a national emergency declared by the President and supported by federal funds. (4-2-08)

b. The commissioned corps of the National Oceanic and Atmospheric Administration in active service; and (4-2-08)

c. The commissioned corps of the Public Health Service in active service. (4-2-08)

03. Idaho Residency Status. (4-7-11)

a. A servicemember does not become an Idaho resident for income tax purposes by reason of being present in Idaho solely in compliance with military orders. (2-27-12)

b. A servicemember does not lose his status as an Idaho resident for income tax purposes by reason of being absent from Idaho solely in compliance with military orders. The safe harbor exception to being a resident as provided in Section 63-3013(2), Idaho Code, does not apply to a servicemember covered by the federal law. (2-27-12)

c. If a servicemember is present in or absent from Idaho for reasons other than compliance with military orders, the standard analysis of residency under Sections 63-3013, 63-3013A, and 63-3014, Idaho Code, applies. (2-27-12)

d. See Subsection 032.07 of this rule for information relating to a spouse of a servicemember. (2-27-12)

04. Military Service Compensation. (4-7-11)

a. Section 511 of the Servicemembers Civil Relief Act (50 U.S.C. App. Section 571) provides that the military service compensation of a servicemember who is not domiciled in Idaho is not considered income from Idaho sources. (4-7-11)

b. The military service compensation of a servicemember who is domiciled in Idaho is subject to Idaho income tax. However, Section 63-3022(h), Idaho Code, provides that compensation paid to a member of the United States Armed Forces for active duty military service performed outside Idaho is deducted from taxable income in determining the member’s Idaho taxable income. A member of the armed forces does not include the commissioned corps of the National Oceanic and Atmospheric Administration or the commissioned corps of the Public Health Service, unless they have been militarized by Presidential Executive Order under Title 42, United States Code. See Section 63-3022(h), Idaho Code, for the specific qualifications of this deduction. (4-7-11)

05. Military Separation Pay. Military separation pay received for voluntary or involuntary separation from active military service is not considered military service compensation. Therefore, Subsection 032.04 of this rule does not apply. (4-7-11)

a. Military separation pay is included in Idaho taxable income only if the recipient is domiciled in or residing in Idaho when the separation pay is received. (3-20-97)

b. For purposes of this rule, a former active duty servicemember whose home of record at the time of separation from the military was a state other than Idaho is not deemed to be residing in Idaho if he moves from Idaho within thirty (30) days from the date of separation from active duty. (3-20-97)

06. Nonmilitary Income. All Idaho source income earned by a servicemember is subject to Idaho taxation except as expressly limited by the Idaho Income Tax Act and these rules. (4-7-11)
07. **Spouses of Servicemembers.** Beginning on January 1, 2009, Section 511 of the Servicemembers Civil Relief Act also applies to the spouse of a servicemember. (2-27-12)

   a. If a spouse of a servicemember has the same domicile or state of residency for tax purposes as the servicemember, the spouse of the servicemember does not become an Idaho resident for income tax purposes by reason of being present in Idaho solely to be with the servicemember who is stationed in Idaho. (2-27-12)

   b. If a spouse of a servicemember and the servicemember are both Idaho residents for income tax purposes, the spouse of the servicemember does not lose his status as an Idaho resident for income tax purposes by reason of being absent from Idaho solely to be with the servicemember who is stationed outside of Idaho. (2-27-12)

   c. If the spouse is not a resident of Idaho for income tax purposes because of the reason stated in Paragraph 032.07.a. of this rule, income for services performed in Idaho by the spouse will not be deemed to be income from Idaho sources. (2-27-12)

033. **AMERICAN INDIANS (RULE 033).**

Section 63-3022S, Idaho Code

01. **Definitions.** For purposes of this rule: (2-27-12)

   a. Enrolled member means an enrolled member of a federally recognized Indian tribe. (2-27-12)

   b. Indian reservation means a federally recognized Indian reservation. (2-27-12)

02. **Idaho Residency Status.** An American Indian must determine his Idaho residency status using the tests set forth in Sections 63-3013, 63-3013A, and 63-3014, Idaho Code. Membership in an Indian tribe does not affect that individual’s Idaho residency status. (2-27-12)

03. **Gambling Winnings.** (2-27-12)

   a. Amounts received from gambling on an Indian reservation by an enrolled member who lives on the Indian reservation are not subject to Idaho tax. (2-27-12)

   b. Amounts received from gambling on an Indian reservation by an enrolled member who lives off the Indian reservation in Idaho are subject to Idaho tax. (2-27-12)

04. **Per Capita Distributions.** (2-27-12)

   a. Per capita distributions paid by an Indian tribe to an enrolled member who lives on the Indian reservation are tax-exempt by Idaho. (2-27-12)

   b. Per capita distributions paid by an Indian tribe to an enrolled member who resides off the reservation in Idaho are subject to Idaho tax. (2-27-12)

034. **ESTATE -- RESIDENCY STATUS (RULE 034).**

Section 63-3015, Idaho Code

01. **Resident Estates.** An estate is treated as a resident estate if the decedent was domiciled in Idaho on the date of his or her death. If the estate is other than an estate of a decedent, it is treated as a resident estate if the person for whom the estate was created is a resident of Idaho. (3-20-97)

02. **Nonresident Estates.** If the estate does not qualify as a resident estate, it is treated as a nonresident estate. The tax liability of a nonresident estate is computed in the same manner as a nonresident individual. (3-20-97)

035. **TRUSTS -- RESIDENCY STATUS (RULE 035).**

Section 63-3015, Idaho Code
01. **Resident Trusts.** A trust other than a qualified funeral trust is treated as a resident trust if three (3) or more of the following conditions exist:

a. The domicile or residency of the grantor is in Idaho;

b. The trust is governed by Idaho law;

c. The trust has real or tangible personal property located in Idaho;

d. The domicile or residency of a trustee is in Idaho;

e. The administration of the trust takes place in Idaho. Administration of the trust includes conducting trust business, investing assets of the trust, making administrative decisions, record keeping and preparation and filing of tax returns.

02. **Qualified Funeral Trusts.** A qualified funeral trust is treated as a resident trust under Section 63-3015, Idaho Code, if:

a. At the time of the initial funding of the trust, the trust was required to be established under the laws of Idaho; or

b. The requirement in Subsection 035.02.a. did not exist, but a funeral home or cemetery located in Idaho was identified to provide services or merchandise under the terms of a preneed contract requiring the establishment of the trust.

03. **Nonresident Trusts.** If the trust does not qualify as a resident trust, it is treated as a nonresident trust. The tax liability of a nonresident trust is computed in the same manner as a nonresident individual.

04. **Residency Status of a Trust.** For purposes of determining the residency status of a trust, no distinction is made between inter vivos trusts and testamentary trusts, or between revocable trusts and irrevocable trusts.

036. -- 039. (RESERVED)

040. **PART-YEAR RESIDENT (RULE 040).**
Section 63-3013A, Idaho Code

01. **In General.** A part-year Idaho resident is any individual who resides in or is domiciled in Idaho for only part of the taxable year.

a. An individual who has a place of abode in Idaho and is present in Idaho for other than a temporary or transitory purpose is deemed to reside in Idaho.

b. For the rules relating to the determination of an individual’s domicile, see Subsection 030.02 of these rules.

02. **Temporary or Transitory Purpose.** For purposes of this rule, an individual is not residing in Idaho if he is present in Idaho only for a temporary or transitory purpose. Likewise, an individual is not residing outside Idaho merely by his temporary or transitory absence from Idaho.

a. The length of time in Idaho is only one factor in determining whether an individual is present for other than a temporary or transitory purpose. Other factors to be considered include business activity or employment conducted in Idaho, banking and other financial dealings taking place in Idaho, and family and social ties in Idaho. In general, an individual is present for other than a temporary or transitory purpose if his stay is related to a significant business, employment or financial purpose or the individual maintains significant family or social ties in Idaho.
b. An individual is present in Idaho only for a temporary or transitory purpose if he does not engage in any activity or conduct in Idaho other than that of a vacationer, seasonal visitor, tourist, or guest. (3-20-97)

c. Presence in Idaho for ninety (90) days or more during a taxable year is presumed to be for other than a temporary or transitory purpose. To overcome the presumption, the individual must show that his presence was consistent with that of a vacationer, seasonal visitor, tourist or guest. (3-20-97)

03. Place of Abode. An individual who owns a home in Idaho will not be treated as having a place of abode at that residence if the individual does not have the right to immediately occupy that residence. This definition does not apply for purposes of the federal foreign income exclusion and only applies for purposes of Sections 63-3013 and 63-3013A, Idaho Code. (3-20-14)

a. Example. An individual who is not domiciled in Idaho owns a home in Idaho that is leased to a third party for the entire taxable year. Since the individual does not have the right to immediately occupy the home, it is not treated as that individual’s abode for purposes of determining his residency status. (7-1-98)

b. Example. An individual who is not domiciled in Idaho owns a home in Idaho that is offered for rent. For the first three (3) months of the taxable year the home is not rented and remains vacant. During the final nine (9) months of the taxable year the home is leased to a third party. The individual will be treated as having a place of abode in Idaho during the first three (3) months of the taxable year since the individual had the right to immediately occupy the home. If the individual is present in Idaho during the first three (3) months of the taxable year for other than a temporary or transitory purpose, that individual will be deemed to reside in Idaho. (7-1-98)

041. -- 044. (RESERVED)

045. NONRESIDENT (RULE 045). Sections 63-3014, 63-3026A, Idaho Code

01. Traveling Salesmen. (3-20-97)

a. A nonresident salesman who works in Idaho is subject to Idaho taxation regardless of the location of his post of duty or starting point. (3-20-97)

b. If an individual is paid on a mileage basis, the gross income from sources within Idaho includes that portion of the total compensation for personal services that the number of miles traveled in Idaho bears to the total number of miles traveled within and without Idaho. If the compensation is based on some other measure, such as hours, the total compensation for personal services must be apportioned between Idaho and other states and foreign countries in a manner that allocates to Idaho the portion of total compensation reasonably attributable to personal services performed in Idaho. See Rule 270 of these rules. (3-30-01)

02. Motor Carrier Employees Covered by Title 49, Section 14503, United States Code. Compensation paid to an interstate motor carrier employee who has regularly assigned duties in more than one state is subject to income tax only in the employee’s state of residence. A motor carrier employee is defined in Title 49, Section 31132(2), United States Code, and includes:

a. An operator, including an independent contractor, of a commercial motor vehicle; (3-20-97)

b. A mechanic; (3-20-97)

c. A freight handler; and (3-20-97)

d. An individual, other than an employer, who in the course of his employment directly affects commercial motor vehicle safety. Employees of the United States, a state, or a local government are not included. Employer, as used in this rule, means a person engaged in business affecting interstate commerce that owns or leases a commercial motor vehicle in connection with that business, or assigns an employee to operate it. See Title 49, Section 31132(3), United States Code. (3-20-97)

Section 045 Page 5412
03. Water Carrier Employees Covered by Title 46, Section 11108, United States Code. Compensation paid to a water carrier employee is subject to income tax only in the employee’s state of residence if such employee:

a. Is engaged on a vessel to perform assigned duties in more than one (1) state as a pilot licensed under Title 46, Section 7101, or licensed or authorized under the laws of a state; or

b. Performs regularly assigned duties while engaged as a master, officer, or crewman on a vessel operating on the navigable waters of more than one (1) state.

04. Air Carrier Employees Covered by Title 49, Section 40116(f), United States Code. Compensation paid to an air carrier employee who has regularly assigned duties on aircraft in more than one state is subject to the income tax laws of only:

a. The employee’s state of residence, and

b. The state in which the employee earns more than fifty percent (50%) of the pay from the air carrier.

05. Rail Carrier Employees Covered by Title 49, Section 11502, United States Code. Compensation paid to an interstate rail carrier employee who performs regularly assigned duties on a railroad in more than one (1) state is subject to income tax only in the employee’s state of residence.

06. Pension Income Covered by Title 4, Section 114, United States Code. Pension income, including certain guaranteed payments made to a retired partner of a partnership, per Title 4, Section 114(b)(1)(I), United States Code, is subject to income tax only in the individual’s state of residence or domicile.

046. -- 049. (RESERVED)

050. LIMITED LIABILITY COMPANIES (RULE 050). Section 63-3006A, Idaho Code

01. Classification. A limited liability company shall be classified for Idaho income tax purposes the same as classified for federal income tax purposes as provided by the Internal Revenue Code.

02. Application of Idaho Code and Rules. Idaho income tax laws and administrative rules shall apply according to the applicable classification of the limited liability company. For example, if a limited liability company has elected to be classified for income tax purposes as a partnership, Idaho’s income tax administrative rules that apply to partnerships shall also apply to such limited liability company.

051. -- 074. (RESERVED)

075. TAX ON INDIVIDUALS, ESTATES, AND TRUSTS (RULE 075). Section 63-3024, Idaho Code

01. In General. The tax rates applied to the Idaho taxable income of an individual, trust or estate for the latest five (5) years are identified in Subsection 075.03 of this rule. The Idaho income tax brackets are adjusted for inflation. The maximum tax rate as listed for the applicable taxable year in Subsection 075.03 of this rule applies in computing the tax attributable to the S corporation stock held by an electing small business trust. See Rule 078 of these rules.

02. Tax Computation.

a. The tax rates and income tax brackets listed in Subsection 075.03 of this rule are those for a single individual or married individuals filing separate returns.

b. The tax imposed on individuals filing a joint return, filing as a surviving spouse, or filing as a head
of household is twice the tax that would be imposed on one-half (1/2) of the total Idaho taxable income of a single individual. (4-7-11)

c. For example, if a married couple filing a joint return reports Idaho taxable income of thirty thousand dollars ($30,000), the tax is computed as if they had taxable income of fifteen thousand dollars ($15,000). The tax amount is multiplied by two (2). (4-7-11)

03. Tables Identifying the Idaho Tax Rates and Income Tax Brackets. (3-20-04)

a. For taxable years beginning in 2014:

<table>
<thead>
<tr>
<th>IF IDAHO TAXABLE INCOME IS</th>
<th>IDAHO TAX</th>

(3-28-18)
076. -- 077. (RESERVED)

078. TAX ON TRUSTS -- ELECTING SMALL BUSINESS TRUSTS (RULE 078).
Section 63-3024, Idaho Code

01. In General. The special rules for taxation of electing small business trusts as provided in Section 641, Internal Revenue Code, shall apply for purposes of computing the Idaho income tax. These rules include the following:

a. The portion of an electing small business trust that consists of stock in one (1) or more S corporations shall be treated as a separate trust.

b. The tax on the separate trust shall be determined with the following modifications from the usual rules for taxing trusts:

i. The only items of income, loss, deduction, or credit to be taken into account are the items required to be taken into account as an S corporation shareholder under Section 1366, Internal Revenue Code, and any gain or loss from the disposition of stock in an S corporation.

ii. As provided in federal Treasury Regulations, administrative expenses shall be taken into account to the extent allocable to the items described in Subparagraph 078.01.b.i.

iii. A deduction or credit shall be allowed only for an amount described in this paragraph. No item described in this paragraph shall be apportioned to any beneficiary.

c. A capital loss deduction provided by Section 1211(b), Internal Revenue Code, shall be allowed only to the extent of capital gains.

02. Tax Rate Applied. The tax rates applied to the Idaho taxable income of a trust are identified in Rule 075 of these rules. For taxable years beginning on or after January 1, 2003, the maximum tax rate as listed for that taxable year in Subsection 075.03 shall apply in computing the tax attributable to the S corporation stock held by an electing small business trust.

079. -- 099. (RESERVED)

100. ADJUSTMENTS TO TAXABLE INCOME -- IN GENERAL (RULE 100).
Section 63-3022, Idaho Code. Rules 101 through 249 of these rules discuss the additions to and subtractions from taxable income required when computing the Idaho taxable income of corporations, partnerships, and resident individuals, estates and trusts. For the rules relating to the adjustments to taxable income required of nonresident and part-year resident individuals and nonresident trusts and estates, see Rules 250 through 259 of these rules. (3-20-97)

101. -- 104. (RESERVED)

105. ADJUSTMENTS TO TAXABLE INCOME -- ADDITIONS REQUIRED OF ALL TAXPAYERS (RULE 105).
Section 63-3022, Idaho Code. The following items must be added by all taxpayers in computing Idaho taxable income.

01. State and Local Income Taxes. As provided in Section 63-3022(a), Idaho Code, state and local income taxes are added as necessary to the gross income of the taxpayer.
income taxes that are measured by net income and were deducted in computing taxable income must be added. This includes taxes paid to states other than Idaho and their political subdivisions, and amounts paid by an S corporation on capital gains, built-in gains, and excess net passive income.

02. Net Operating Loss Deduction. As provided in Section 63-3022(b), Idaho Code, the amount of the net operating loss deduction included in taxable income must be added.

03. Capital Loss or Passive Loss Carryover Deduction. As provided in Section 63-3022(i), Idaho Code:

a. A corporation must add a capital loss or passive loss that was deducted in computing taxable income if the loss occurred during a taxable year when the corporation did not transact business in Idaho. However, a capital loss is not required to be added back where the corporation was part of a unitary group and at least one (1) member of the group was taxable by Idaho for the taxable year in which the loss was incurred.

b. An individual must add a capital loss or passive loss that was deducted in computing taxable income if the loss was incurred in an activity not taxable by Idaho at the time it was incurred.

04. Interest and Dividend Income Exempt From Federal Taxation. As provided in Section 63-3022M, Idaho Code, certain interest and dividend income that is exempt from federal income tax must be added. For example, interest income from state and local bonds that is exempt from federal income tax pursuant to Section 103, Internal Revenue Code, must be added.

a. Interest from bonds issued by the state of Idaho or its political subdivisions is exempt from Idaho income tax and, therefore, is not required to be added to taxable income.

b. If a taxpayer has both Idaho and non-Idaho state and municipal interest income, expenses not allowed pursuant to Sections 265 and 291, Internal Revenue Code, must be prorated between the Idaho and non-Idaho interest income as provided in Subsections 105.04.b.i. and 105.04.b.ii. The addition to taxable income required for non-Idaho state and municipal interest income must be offset by the expenses prorated to that interest income. The allowable offset may not exceed the reportable amount of interest income. An unused offset may not be carried back or carried over. A schedule showing the interest and related offsets must be attached to the return.

i. Expenses prorated to Idaho state and municipal interest income are based on the ratio of Idaho state and municipal interest income to total state and municipal interest income.

ii. Expenses prorated to non-Idaho state and municipal interest income are based on the ratio of non-Idaho state and municipal interest income to total state and municipal interest income.

05. Interest Expense Attributable to Tax-Exempt Interest Income. As provided by Section 63-3022M, Idaho Code, a taxpayer must add interest expense on indebtedness incurred to purchase or carry certain obligations that produce tax-exempt interest income. Because this addition serves to offset the tax-exempt interest income, it is often referred to as an interest expense offset related to tax-exempt interest income. See Rule 115 of these rules for the computation of the interest expense offset related to tax-exempt interest.

06. Special First-Year Depreciation Allowance. As provided by Section 63-3022O, Idaho Code, if a taxpayer claims the special first-year depreciation allowance on property acquired before 2008 or after 2009 pursuant to Section 168(k), Internal Revenue Code, the adjusted basis of that property and the depreciation deduction allowed for Idaho income tax purposes must be computed without regard to the special first-year depreciation allowance. The amount of depreciation computed for federal income tax purposes that exceeds the amount of depreciation computed for Idaho income tax purposes must be added. The adjustments required by this subsection do not apply to property acquired after 2007 or before 2010.

106. ADJUSTMENTS TO TAXABLE INCOME -- ADDITIONS REQUIRED ONLY OF CORPORATIONS (RULE 106).
Section 63-3022, Idaho Code. As provided in Section 63-3022(d), Idaho Code, add the federal dividends received deduction subtracted in computing taxable income.

(2-27-12)

(2-27-12)

(5-3-03)
107. ADJUSTMENTS TO TAXABLE INCOME -- ADJUSTMENTS REQUIRED ONLY OF TAXPAYERS REPORTING NONBUSINESS INCOME (RULE 107).
Section 63-3027(a)(4), Idaho Code. All deductions relating to the production of nonbusiness income shall be allocated with the income produced. See Section 63-3027, Idaho Code, and Rules 330 through 336 of these rules for the definitions of business income and nonbusiness income. (4-11-06)

108. ADJUSTMENTS TO TAXABLE INCOME -- ADDITIONS REQUIRED ONLY OF INDIVIDUALS (RULE 108).
Section 63-3022, Idaho Code

01. Lump Sum Distributions. As provided in Section 63-3022(k), Idaho Code, an individual must add the taxable amount of a lump sum distribution excluded from taxable income. (4-7-11)

02. Withdrawals from an Idaho Medical Savings Account. As provided in Section 63-3022K, Idaho Code, an account holder must add the amount of a withdrawal from an Idaho medical savings account if the withdrawal was not made for the purpose of paying eligible medical expenses. See Rule 190 of these rules. (4-7-11)

03. Withdrawals from an Idaho College Savings Program.

a. As provided in Section 63-3022(o), Idaho Code, an account owner must add the amount of any nonqualified withdrawal from an Idaho college savings program, less the amount included in the account owner’s gross income. The addition is limited to contributions previously exempt from Idaho state income tax and earnings generated from the program as long as the earnings are not already included in federal adjusted gross income. Nonqualified withdrawal is defined in Section 33-5401, Idaho Code. (3-26-19)

b. As provided in Section 63-3022(p), Idaho Code, an account owner must add the amount of a withdrawal from an Idaho college savings program that is transferred on or after July 1, 2007 to a qualified tuition program operated by a state other than Idaho. For taxable years beginning on or after January 1, 2008, the addback is limited to the total of the amounts contributed to the Idaho college savings program that were deducted on the account owner’s Idaho income tax returns for the year of the transfer and the immediately preceding taxable year. (4-7-11)

04. Certain Expenses of Eligible Educators. As provided in Section 63-3022O, Idaho Code, prior to January 1, 2012, an eligible educator as defined in Section 62, Internal Revenue Code, must add the amount of out-of-pocket classroom expenses deducted as allowed by Section 62, Internal Revenue Code, in computing adjusted gross income. (4-4-13)

05. State and Local Sales Tax. As provided in Section 63-3022(j), Idaho Code, an individual must add the amount of state and local general sales taxes deducted as an itemized deduction. (4-7-11)

109. ADJUSTMENTS TO DISTRIBUTABLE NET INCOME OF ESTATES AND TRUSTS (RULE 109).
Section 63-3022, Idaho Code. As provided in Section 63-3022(g), Idaho Code, an estate or trust shall make the adjustments that are required of individuals as provided in Section 63-3022, Idaho Code, in determining the Idaho taxable income of the beneficiary of an estate or trust. (3-30-01)

110. -- 114. (RESERVED)

115. INTEREST EXPENSE OFFSET RELATED TO TAX-EXEMPT INTEREST INCOME (RULE 115).
Section 63-3022M, Idaho Code

01. In General. The interest expense offset provided by Section 63-3022M, Idaho Code, is a separate and distinct adjustment from provisions in the Internal Revenue Code that disallow interest expense related to federal tax-exempt interest. (7-1-99)

02. Tax-Exempt Interest Income. For purposes of computing the interest expense offset attributable to tax-exempt interest income, tax-exempt interest income shall mean interest on qualifying obligations of the United States and interest on qualifying obligations of the state of Idaho, its cities, and political subdivisions. (4-5-00)
a. If a taxpayer owns an interest in a pass-through entity, that entity’s tax-exempt income shall also be included to the extent of the taxpayer’s interest. (7-1-98)

b. Interest income that is only partially exempt for federal purposes is not included. Also, expenses related to tax-exempt interest income such as adjustments provided by Sections 265 and 291, Internal Revenue Code, are not included. (7-1-98)

03. Total Income. For purposes of computing the interest expense offset, total income shall be computed as follows:

a. Corporations.

i. Total income shall equal the amount reported as total income on Form 1120, U.S. Corporation Income Tax Return, for domestic corporations, plus the amount reported as total income on Form 1120F, U.S. Income Tax Return of a Foreign Corporation, for foreign corporations engaged in a U.S. trade or business, plus the amount of tax-exempt interest income not included in total income on Form 1120 and Form 1120F, plus the amount reported as nonexempt foreign trade income on Schedule B of Form 1120-FSC, Income Tax Return of a Foreign Sales Corporation, less the amount of foreign dividend gross-up included in federal income pursuant to Section 78, Internal Revenue Code. (3-30-01)

ii. If a taxpayer files a return using the worldwide combined reporting method, total income shall also include the amount reported as total income on Schedule C of Form 5471, Information Return of U.S. Persons With Respect to Certain Foreign Corporations, for each foreign corporation included in the combined report. (7-1-98)

iii. If the corporation is a partner in a partnership, total income shall also include the corporation’s distributive share of the partnership’s total income as reported on page one (1) of Form 1065, U.S. Partnership Return of Income, to the extent this amount is not included in total income on Form 1120. (7-1-98)

iv. Intercompany amounts shall be eliminated to the extent included in these amounts. (7-1-98)

b. S Corporations.

i. Total income shall equal the amount reported as total income on Form 1120S, U.S. Income Tax Return for an S Corporation, plus the amounts reported as net income from rental real estate activities, net income from other rental activities, interest income, dividend income, royalty income, net short-term and long-term capital gains, other portfolio income, net gain under Section 1231, and other income as listed on Schedule K, plus the amount of tax-exempt interest income not included on Form 1120S. (3-30-01)

ii. If the S corporation is a partner in a partnership, total income shall also include the appropriate partnership amounts as provided in Subsection 115.03.a.iii. (7-1-98)

c. Partnerships.

i. Total income shall equal the amount reported as total income on Form 1065, U.S. Partnership Return of Income, plus the amounts reported as net income from rental real estate activities, net income from other rental activities, interest income, dividend income, royalty income, net short-term and long-term capital gains, other portfolio income, net gain under Section 1231, and other income as listed on Schedule K, plus the amount of tax-exempt interest income not included on Form 1065. (3-30-01)

ii. If the partnership is a shareholder in an S corporation, total income shall also include the partnership’s distributive share of the S corporation’s total income as reported on page one (1) of the Form 1120S, U.S. Income Tax Return for an S Corporation, to the extent this amount is not included in total income on Form 1065. (7-1-99)

d. Individuals. (7-1-99)
i. Total income shall equal the amount reported as total income on Form 1040, U.S. Individual Income Tax Return. (7-1-99)

ii. If the individual is a partner in a partnership, total income shall also include the individual’s distributive share of the partnership’s total income as reported on page one (1) of Form 1065, U.S. Partnership Return of Income, to the extent this amount is not included in total income on Form 1040. (7-1-99)

iii. If the individual is a shareholder in an S corporation, total income shall also include the individual’s distributive share of the S corporation’s total income as reported on page one (1) of the Form 1120S, U.S. Income Tax Return for an S Corporation, to the extent this amount is not included in total income on Form 1040. (7-1-99)

iv. Total income shall also include the amount of tax-exempt interest income not included on Form 1040, plus his share of the amount not included on Forms 1065 and 1120S. (3-30-01)

04. **Unitary Taxpayers.** The interest expense offset shall be computed at the combined group level, not within each corporate entity. Total income, interest expense, and tax-exempt interest amounts from each member of the combined group are used in computing the interest expense offset. (7-1-98)

116. EXPENSES OTHER THAN INTEREST ATTRIBUTABLE TO TAX-EXEMPT INCOME (RULE 116).

Section 63-3022M, Idaho Code

01. **Directly Allocable Expenses.** Expenses, other than interest, that are directly allocable to exempt interest or dividend income, shall be allocated to such income and no deduction shall be allowed for such allocated expenses. (5-3-03)

02. **Indirectly Allocable Expenses.** If an expense is indirectly allocable to both a class of nonexempt income and exempt interest or dividend income, a reasonable proportion of such expense determined in the light of all the facts and circumstances in each case shall be allocated to each class. No deduction shall be allowed for expenses indirectly allocated to exempt interest or dividend income. (5-3-03)

117. -- 119. (RESERVED)

120. ADJUSTMENTS TO TAXABLE INCOME -- SUBTRACTIONS AVAILABLE TO ALL TAXPAYERS (RULE 120).

Section 63-3022, Idaho Code. The following items are allowable subtractions to all taxpayers in computing Idaho taxable income. (2-27-12)

01. **State and Local Income Tax Refunds.** State and local income tax refunds included in taxable income may be subtracted, unless the refunds have already been subtracted pursuant to Section 63-3022(a), Idaho Code. (2-27-12)

02. **Idaho Net Operating Loss.** As provided in Section 63-3022(c), Idaho Code, an Idaho net operating loss deduction described in Section 63-3021, Idaho Code, and allowed by Section 63-3022(c), Idaho Code, and Rules 200 through 210 of these rules may be subtracted. An S corporation or a partnership that incurs a loss is not entitled to claim a net operating loss deduction. The loss is passed through to the shareholders and partners who may deduct the loss. (2-27-12)

03. **Income Not Taxable by Idaho.** As provided in Section 63-3022(f), Idaho Code, income that is exempt from Idaho income taxation by a law of the state of Idaho or of the United States may be subtracted if that income is included in taxable income and has not been previously subtracted. Income exempt from taxation by Idaho includes the following:

   a. Interest income from obligations issued by the United States Government. Gain recognized from the sale of United States Government obligations is not exempt from Idaho tax and, therefore, may not be subtracted from taxable income. For the interest expense offset, see Rule 115 of these rules. (7-1-99)
b. Idaho lottery prizes exempt by Section 67-7439, Idaho Code. For prizes awarded on lottery tickets purchased in Idaho after January 1, 1998, a subtraction is allowed for each lottery prize that is less than six hundred dollars ($600). If a prize equals or exceeds six hundred dollars ($600), no subtraction is allowed. The full amount of the prize is included in income. (4-5-00)

c. Certain income from loss recoveries. See Rule 195 of these rules. (3-20-14)

04. Technological Equipment Donation. As provided by Section 63-3022J, Idaho Code, and Rule 180 of these rules, the lower of cost or fair market value of technological equipment donated to qualifying institutions may be subtracted, limited to the Idaho taxable income of the taxpayer. (3-20-14)

05. Long-Term Care Insurance. As provided in Section 63-3022Q, Idaho Code, a deduction from taxable income is allowed for the amount of the premiums paid during the taxable year for qualifying long-term care insurance for the benefit of the taxpayer, a dependent of the taxpayer or an employee of the taxpayer to the extent the premiums have not otherwise been deducted or accounted for by the taxpayer for Idaho income tax purposes. See Rule 193 of these rules. (3-20-14)

06. Special First-Year Depreciation Allowance. As provided by Section 63-3022O, Idaho Code, if a taxpayer claims the special first-year depreciation allowance on property acquired before 2008 or after 2009 pursuant to Section 168(k), Internal Revenue Code, the adjusted basis of that property and the depreciation deduction allowed for Idaho income tax purposes must be computed without regard to the special first-year depreciation allowance. The adjustments required by this subsection do not apply to property acquired after 2007 or before 2010.

a. Depreciation. The amount of depreciation computed for Idaho income tax purposes that exceeds the amount of depreciation computed for federal income tax purposes may be subtracted. (2-27-12)

b. Gains and losses. During the recovery period, the adjusted basis of depreciable property computed for federal income tax purposes will be less than the adjusted basis for Idaho income tax purposes as a result of claiming the special first-year depreciation allowance. If a loss qualifies as a capital loss for federal income tax purposes, the federal capital loss limitations and carryback and carryover provisions apply in computing the Idaho capital loss allowed.

i. If a sale or exchange of property results in a gain for both federal and Idaho income tax purposes, a subtraction is allowed for the difference between the federal and Idaho gains computed prior to any applicable Idaho capital gains deduction. (2-27-12)

ii. If a sale or exchange of property results in a gain for federal income tax purposes and an ordinary loss for Idaho income tax purposes, the federal gain and the Idaho loss must be added together and the total may be subtracted. For example, if a taxpayer has a federal gain of five thousand dollars ($5,000) and an Idaho loss of four thousand dollars ($4,000), the amount subtracted would be nine thousand dollars ($9,000). (2-27-12)

iii. If a sale or exchange of property results in an ordinary loss for both federal and Idaho income tax purposes, the difference between the federal and Idaho losses may be subtracted. For example, if a taxpayer has a federal loss of three hundred dollars ($300) and an Idaho loss of five hundred dollars ($500), the amount subtracted would be two hundred dollars ($200). (2-27-12)

iv. If a sale or exchange of property results in a capital loss for both federal and Idaho income tax purposes, apply the capital loss limitations and subtract the difference between the federal and Idaho deductible capital losses. For example, if a taxpayer has a federal capital loss of six thousand dollars ($6,000) and an Idaho capital loss of eight thousand dollars ($8,000), both the federal and Idaho capital losses are limited to a deductible capital loss of three thousand dollars ($3,000). In this case, no subtraction is required for the year of the sale. In the next year, assume the taxpayer had a capital gain for both federal and Idaho purposes of two thousand dollars ($2,000). The capital loss carryovers added to the capital gain results in a federal deductible capital loss of one thousand dollars ($1,000) and an Idaho deductible capital loss of three thousand dollars ($3,000). The taxpayer would subtract the difference between the federal and Idaho deductible losses or two thousand dollars ($2,000) in computing Idaho taxable income. (3-20-04)
07. **Income Restored Under Federal Claim of Right.** As provided by Section 63-3022F, Idaho Code, if a taxpayer included an item in Idaho taxable income in a prior taxable year and was later required to restore the item because it was established after the close of the prior taxable year that the taxpayer did not have an unrestricted right to such item or to a portion of the item, such taxpayer is allowed a deduction in determining Idaho taxable income if the taxpayer has not otherwise deducted such item in computing his taxable income. The deduction is allowed to the extent such deduction would have been allowed to the taxpayer under Section 1341, Internal Revenue Code, had the taxpayer claimed the deduction instead of the recalculation of federal tax, but only to the extent the item was included in Idaho taxable income in the prior taxable year. (2-27-12)

121. **ADJUSTMENTS TO TAXABLE INCOME -- SUBTRACTIONS AVAILABLE ONLY TO INDIVIDUALS (RULE 121).**

Section 63-3022, Idaho Code

01. **Income Not Taxable by Idaho.** As provided in Section 63-3022(f), Idaho Code, subtract the amount of income that is exempt from Idaho income tax if included in taxable income. Income exempt from taxation by Idaho includes the following: (7-1-99)

   a. Certain income earned by American Indians. See Rule 033 of these rules. (5-3-03)

   b. Retirement payments received pursuant to the old Teachers’ Retirement System. Prior to its repeal on July 1, 1967, the old Teachers’ Retirement System was codified at Title 33, Chapter 13, Idaho Code. Teachers who were employed by the state of Idaho and who retired on or after January 1, 1966, generally do not qualify for this exemption. Teachers who were not state employees and who retired on or after January 1, 1968, do not qualify. Teachers receiving benefits pursuant to the Public Employees’ Retirement System, Title 59, Chapter 13, Idaho Code, do not qualify for the exemption. No exemption is provided for amounts received from other states, school districts outside Idaho, or any other source if the proceeds do not relate to teaching performed in Idaho. (3-20-97)

02. **Military Compensation for Service Performed Outside Idaho.** As provided in Section 63-3022(h), Idaho Code, certain members of the United States Armed Forces may deduct from taxable income their military service pay received for military service performed outside Idaho. See Rule 032 of these rules. (3-30-01)

03. **Standard or Itemized Deduction.** As provided in Section 63-3022(j), Idaho Code, deduct either the standard deduction amount as defined in Section 63, Internal Revenue Code, or the itemized deductions allowed by the Internal Revenue Code. If itemized deductions are limited pursuant to the Internal Revenue Code, they are also limited for Idaho income tax purposes. (3-30-01)

   a. If state and local income or general sales taxes are included in itemized deductions for federal purposes pursuant to Section 164, Internal Revenue Code, they will be added to taxable income. If itemized deductions are limited pursuant to Section 68, Internal Revenue Code, the amount of state and local income or general sales taxes added back will be computed by dividing the amount of itemized deductions that are allowed to the taxpayer after all federal limitations by total itemized deductions before the Section 68 limitation. For taxable years beginning in or after 2007, this proration will be calculated four (4) digits to the right of the decimal point. If the fifth digit is five (5) or greater, the fourth digit is rounded to the next higher number ($10,000/$15,000 = .66666 = .6667 = 66.67%). If the fifth digit is less than five (5), the fourth digit remains unchanged and any digits remaining to its right are dropped ($10,000/$30,000 = .33333 = .3333 = 33.33%). The percentage may not exceed one hundred percent (100%) nor be less than zero (0). The result is then applied to state and local income or general sales taxes to determine the Idaho state and local income and general sales tax addback. See Rule 105 of these rules. (3-20-14)

   b. If an itemized deduction allowable for federal income tax purposes is reduced for the mortgage interest credit or the foreign tax credit, the amount that would have been allowed if the federal credit had not been claimed is allowed as an itemized deduction. (7-1-99)

   c. For taxable years beginning on or after January 1, 2000, the standard deduction allowed on a married filing joint return will be equal to two (2) times the basic standard deduction for a single individual. Add to this amount any additional standard deduction for the aged or blind allowed for federal income tax purposes. (3-20-14)
04. **Social Security and Railroad Retirement Benefits.** As provided in Section 63-3022(l), Idaho Code, subtract from taxable income the amount of social security and certain railroad retirement benefits included in gross income pursuant to Section 86, Internal Revenue Code. (3-30-01)

   a. The term social security benefits includes United States social security benefits and Canadian social security pensions received by a United States resident that are treated as United States social security benefits for United States income tax purposes. (7-1-99)

   b. The term certain railroad retirement benefits means the following amounts paid by the Railroad Retirement Board:

      i. Annuities, supplemental annuities, and disability annuities, including the Tier I social security equivalent benefits, and the Tier II pension amounts; (4-6-05)

      ii. Railroad unemployment; and (4-6-05)

      iii. Sickness benefits. (4-6-05)

05. **Self-Employed Worker's Compensation Insurance Premiums.** As provided in Section 63-3022(m), Idaho Code, self-employed individuals may subtract from taxable income the premiums paid to secure worker’s compensation insurance for coverage in Idaho if the premiums have not been previously deducted in computing taxable income. The term worker’s compensation insurance means “workmen’s compensation” as defined in Section 41-506(d), Idaho Code. Premiums paid to secure worker’s compensation insurance coverage are those payments made in compliance with Section 72-301, Idaho Code. (3-30-01)

06. **Retirement Benefits.** As provided in Section 63-3022A, Idaho Code, and Rule 130 of these rules, a deduction from taxable income is allowed for certain retirement benefits. (3-20-97)

07. **Energy Efficiency Upgrades.** As provided in Section 63-3022B, Idaho Code, and Rule 140 of these rules, a deduction from taxable income is allowed for qualified expenses related to the installation of energy efficiency upgrades in the residence of the taxpayer built or subject to an outstanding building permit on or before 2002. (4-4-13)

08. **Alternative Energy Devices.** As provided in Section 63-3022C, Idaho Code, and Rule 150 of these rules, a deduction from taxable income is allowed for qualified expenses related to the acquisition of an alternative energy device used in an Idaho residence of the taxpayer. (4-4-13)

09. **Household and Dependent Care Services.** As provided in Section 63-3022D, Idaho Code, and Rule 160 of these rules, a deduction from taxable income is allowed for certain employment related expenses incurred for the care of qualifying individuals. (3-20-97)

10. **Household Deduction for Elderly or Developmentally Disabled Dependents.** As provided in Section 63-3022E, Idaho Code, and Rule 165 of these rules, a deduction from taxable income is allowed for maintaining a household where an elderly or developmentally disabled family member resides. (3-20-97)

11. **Reparations to Displaced Japanese Americans.** As provided in Section 63-3022G, Idaho Code, certain individuals are allowed a deduction for amounts included in taxable income relating to reparation payments from the United States Civil Liberties Public Education Fund. (3-20-97)

12. **Capital Gains.** As provided in Section 63-3022H, Idaho Code, and Rules 170 through 173 of these rules, a deduction from taxable income may be allowed for net capital gains recognized from the sale of qualified Idaho property. (2-27-12)

13. **Adoption Expenses.** As provided in Section 63-3022I, Idaho Code, and Rule 185 of these rules, a deduction from taxable income is allowed for certain expenses incurred when adopting a child. (3-20-97)

14. **Idaho Medical Savings Account.** As provided in Section 63-3022K, Idaho Code, and Rule 190 of
these rules, a deduction from taxable income is allowed for qualifying contributions to and interest earned on an Idaho medical savings account.

15. **Idaho College Savings Program.** As provided in Section 63-3022(n), Idaho Code, a deduction from taxable income is allowed for qualifying contributions to a college savings program. (4-5-00)

16. **Health Insurance Costs.** A deduction from taxable income is allowed for the amounts paid by the taxpayer during the taxable year for insurance that constitutes medical care, as defined in Section 63-3022P, Idaho Code, for the taxpayer, the spouse or dependents of the taxpayer not otherwise deducted or accounted for by the taxpayer for Idaho income tax purposes. See Rule 193 of these rules. (3-15-02)

17. **Unused Net Operating Losses of Estates and Trusts.** An unused net operating loss carryover remaining on termination of an estate or trust is allowed to the beneficiaries succeeding to the property of the estate or trust. The carryover amount is the same in the hands of the beneficiaries as in the hands of the estate or trust. For taxable years beginning on and after January 1, 2000, but prior to January 1, 2013, the first one hundred thousand dollars ($100,000) of loss sustained in any taxable year of an estate or trust must first be carried back by the estate or trust unless an election has been made as provided by Section 63-3022(c), Idaho Code, to forego the carryback. The first taxable year of the beneficiaries to which the net operating loss is to be carried is the taxable year of the beneficiary in which the estate or trust terminates. No part of a net operating loss incurred by an estate or trust can be carried back by a beneficiary, even if the estate or trust had no preceding taxable years eligible for a carryback. For purposes of determining the number of years to which a loss may be carried over by a beneficiary, the last taxable year of the estate or trust and the first taxable year of the beneficiary to which a loss is carried over each constitute a taxable year. For taxable years beginning on and after January 1, 2013, the first one hundred thousand ($100,000) of loss sustained in any taxable year of an estate or trust may be carried back by the estate or trust if an amended return carrying the loss back is filed within one (1) year of the end of the taxable year of the net operating loss that results in such carryback. (5-3-03)

122. **ADJUSTMENTS TO TAXABLE INCOME -- SUBTRACTIONS AVAILABLE ONLY TO CORPORATIONS (RULE 122).**

Sections 63-3022 and 41-3821, Idaho Code

01. **Foreign Dividend Gross-Up.** As provided in Section 63-3022(f), Idaho Code, subtract the amount reported as a dividend pursuant to Section 78, Internal Revenue Code. (4-6-05)

02. **Stock Insurance Subsidiary Dividends or Distributions.**

   a. As provided in Section 41-3821, Idaho Code, a mutual insurance holding company or an intermediate holding company shall subtract the amount received as a dividend or distribution from a stock insurance subsidiary. The deduction shall be allowed for taxable years beginning on or after January 1, 2004. (4-6-05)

   b. The deduction allowed by Section 41-3821, Idaho Code, shall not be allowed if the stock insurance subsidiary’s Idaho premium tax liability for the preceding taxable year is less than the stock insurance subsidiary would have paid in Idaho income tax had it been subject to Idaho income taxation for that year. The Idaho premium tax liability is the amount of total premium taxes less total premium tax credits allowed. The Idaho income tax it would have paid shall be computed as provided by Section 63-3027, Idaho Code, net of any applicable income tax credits. (4-6-05)

   c. The taxpayer claiming the deduction shall include in its Idaho income tax return for the year the deduction is claimed information that it is entitled to the deduction. Such information shall include the amount of the stock insurance subsidiary’s Idaho premium tax for the preceding taxable year and the amount of Idaho income tax it would have paid for such year. (4-6-05)

123. -- 124. (RESERVED)

125. **ADJUSTMENTS TO TAXABLE INCOME -- BONUS DEPRECIATION ON PROPERTY ACQUIRED AFTER SEPTEMBER 10, 2001, AND BEFORE DECEMBER 31, 2007, OR AFTER DECEMBER 31, 2009 (RULE 125).**
Section 63-3022O, Idaho Code

01. **In General.** Section 63-3022O, Idaho Code, requires that when computing Idaho taxable income, the amount of the adjusted basis of depreciable property, depreciation, and gains and losses from the sale, exchange, or other disposition of depreciable property acquired after September 10, 2001, and before December 31, 2007, or acquired after December 31, 2009, must be computed without regard to bonus depreciation allowed by Section 168(k), Internal Revenue Code. In order to meet this requirement, a taxpayer must be consistent in making the Idaho adjustments required for all the taxable years in which federal bonus depreciation is claimed. See Subsection 125.02 of this rule. The adjustments required by this rule do not apply to property acquired after 2007 and before 2010.

(3-20-14)

02. **Depreciation.**

   a. If a taxpayer makes the Idaho addition in the first taxable year bonus depreciation was claimed for federal income tax purposes, in the subsequent taxable years the taxpayer is entitled to the Idaho subtractions for the additional depreciation computed for Idaho income tax purposes that exceeds the amount of depreciation claimed for federal income tax purposes.

(2-27-12)

   b. If a taxpayer fails to make the Idaho addition in the first taxable year bonus depreciation was claimed for federal income tax purposes, the taxpayer is not entitled to claim the Idaho subtractions for additional depreciation in subsequent taxable years. In such instances, claiming an Idaho subtraction for additional depreciation when the first year Idaho addition was not claimed constitutes computing depreciation with regard to Section 168(k), Internal Revenue Code, which is specifically prohibited in Section 63-3022O(1), Idaho Code. For example, the Idaho addition is required for a taxable year when the bonus depreciation is claimed even though the taxpayer may be limited in claiming a passive loss from a pass-through entity in which the bonus depreciation arose. If the bonus depreciation is not added back in that taxable year, the Idaho subtractions are not allowed in the subsequent taxable years.

(2-27-12)

   c. The Idaho adjustments are required in all taxable years in which the taxpayer has an Idaho filing requirement or is a member of a combined group of corporations in which at least one member has an Idaho filing requirement. If the taxpayer is not required to file an Idaho income tax return for one (1) or more years in which depreciation may be claimed, the taxpayer may claim the Idaho adjustment in the taxable years in which an Idaho return is filed if all such taxable years are treated consistently.

(2-27-12)

   d. Example. A corporation transacted business in California and Oregon during taxable year 2003. In 2004, the taxpayer began transacting business in Idaho and was required to file an Idaho corporation income tax return for that year. On the federal return filed for 2003, the taxpayer claimed bonus depreciation for assets placed in service that year. Because the taxpayer was not required to file an Idaho income tax return for one (1) or more years in which depreciation may be claimed, the taxpayer may claim the Idaho adjustment in the taxable years in which an Idaho return is filed if all such taxable years are treated consistently.

(2-27-12)

126. -- 127. (RESERVED)

128. **IDAHO ADJUSTMENTS -- PASS-THROUGH ENTITIES (RULE 128).**

   01. **In General.** An adjustment to a partnership, S corporation, estate or trust allowed or required by Idaho statute generally is claimed on the income tax returns of the partners, shareholders, or beneficiaries of the entity.

(3-20-97)
a. Partnerships. An adjustment passes through to a partner based on that partner’s distributive share of partnership profits. (3-20-97)

b. S Corporations. An adjustment passes through to a shareholder based on that shareholder’s pro rata share of income or loss. (3-20-97)

c. Estates and Trusts. An adjustment passes through to a beneficiary in the same ratio that income is allocable to that beneficiary. (3-20-97)

02. Limitations. Deductions claimed on a partner’s, shareholder’s, or beneficiary’s tax return may not exceed the limitations imposed by statute or rule. (3-20-97)

03. Different Taxable Year Ends. If a pass-through entity has a taxable year end different from that of a partner, shareholder, or beneficiary, the adjustment shall be claimed in the same taxable year that income or loss from that entity is reported for federal income tax purposes. (3-20-97)

04. Information Provided by a Pass-Through Entity. The pass-through entity shall prepare and distribute to each partner, shareholder, or beneficiary a schedule detailing the proportionate share of each adjustment. Copies of these schedules shall be attached to the pass-through entity’s Idaho income tax return or information return for the taxable year that the adjustment is allowed or required. (3-20-97)

05. Pass-Through Entities That Pay Tax. Generally, a pass-through entity shall report the same Idaho adjustments as those allowed to the individual partner, shareholder, or beneficiary for whom the pass-through entity is paying the tax. However, certain deductions that may be allowed to the individual if reporting and paying the tax shall not be allowed to the pass-through entity.

a. See Rule 291 of these rules for information on computing the taxable income on which a pass-through entity shall be subject to tax. (5-8-09)

b. See Subsection 173.01 of these rules for the disallowance of an Idaho capital gains deduction to a pass-through entity paying the tax for an electing owner or beneficiary. (5-8-09)

129. (RESERVED)

130. DEDUCTION OF CERTAIN RETIREMENT BENEFITS (RULE 130).

Section 63-3022A, Idaho Code

01. Qualified Benefits. Subject to limitations, the following benefits qualify for the deduction:

a. Retirement annuities paid to a retired civil service employee. For purposes of this deduction a retired civil service employee is an individual who is receiving retirement annuities paid under the Civil Service Retirement System, the Foreign Service Retirement and Disability System, or the offset programs of these systems. An individual is entitled to benefits from this retirement system only if he established eligibility prior to 1984. Retirement annuities paid to a retired federal employee under the Federal Employees Retirement System generally do not qualify for the deduction. Retirement annuities received under the Federal Employees Retirement System by a retiree previously covered under the Civil Service Retirement System qualify to the extent the retiree establishes the portion of the annuity attributable to coverage under the Civil Service Retirement System. (3-25-16)

b. Retirement benefits paid as a result of participating in the firemen’s retirement fund of the state of Idaho as authorized by Title 72, Chapter 14, Idaho Code. A fireman is entitled to benefits from this fund only if he established eligibility as a paid fireman prior to October 1, 1980. Retirement benefits paid out of the public employee’s retirement system do not qualify for the deduction. (3-25-16)

c. Retirement benefits paid to a retired Idaho city police officer: (4-4-13)

i. By a city or its agent in regard to a policeman’s retirement fund that no longer admits new members
and on January 1, 2012, was administered by a city in this state; or (4-4-13)

ii. In regard to a policeman’s retirement fund that no longer admits new members and on January 1, 2012, was administered by the public employee retirement system of Idaho; or (4-4-13)

iii. By the public employee retirement system of Idaho to a retired police officer in regard to Idaho employment not included in the federal social security retirement system; or (4-4-13)

iv. An unmarried widow or widower of a person described in Subparagraph 130.01.c.i., 130.01.c.ii., or 130.01.c.iii. of this rule. (4-4-13)

d. Retirement benefits paid by the United States Government to a retired member of the military services. (4-4-13)

02. Unremarried Widow or Widower. An unremarried widow or widower of a retired civil service employee, retired policeman, retired fireman, or retired member of the military services, who is sixty-five (65) or older, or sixty-two (62) and disabled, is eligible for the deduction, even though the deceased spouse was not eligible at the time of death. In this situation, the amount of the retirement benefits that can be considered for the deduction for the taxable year of the spouse’s death is limited to the benefits paid to the spouse as a widow or widower. (4-4-13)

a. Example. In year one (1), the husband of a married couple filing a joint income tax return received civil service retirement. The husband did not qualify for the Idaho retirement deduction that year since he was not disabled and was only age sixty (60) during that year. In year two (2) the husband died. Because his wife is age sixty-three (63) and disabled in that year, she is eligible for the deduction for year two (2) but only for the amount of her husband’s retirement benefits she received that year as a result of being the widow. She may not include in the computation of the deduction any amounts her husband was paid or entitled to prior to his death. For year three (3), she may compute the deduction based on all the retirement benefits she receives as the widow that year. (4-6-05)

b. Example. Assume the same facts as stated in Paragraph 130.02.a, of this rule, except that the wife is not disabled and does not reach age sixty-five (65) until year four (4). In year one (1) the husband did not qualify for the Idaho retirement deduction. In year two (2) the husband did not qualify for the deduction and the wife did not qualify after her husband died. In year three (3), the wife did not qualify. In year four (4), because the wife reaches age sixty-five (65) during that year, she is entitled to the Idaho retirement deduction on the amount of her husband’s retirement she received that year as a result of being a widow. (4-6-05)

c. Example. Once the widow remarries, she will not be eligible for the Idaho retirement deduction for that year and the years that follow on the amounts she receives from her previous husband’s retirement. (4-6-05)

03. Married Individuals Filing Separate Returns. Married individuals who elect to file married filing separate are not entitled to the deduction allowed by Section 63-3022A, Idaho Code. (7-1-98)

04. Publication of Maximum Deduction. The maximum deduction that may be subtracted when computing Idaho taxable income will be published each year in the instructions for preparing Idaho individual income tax returns. (4-4-13)

05. Disabled Individual. For purposes of this deduction, an individual is classified as disabled if he meets the requirements of Section 63-701, Idaho Code, or an individual who qualifies as a person with a “permanent disability” under Section 49-117 (7) (b) (iv), Idaho Code. This includes: (4-4-13)

a. An individual recognized as disabled by the Social Security Administration pursuant to Title 42, United States Code, or by the Railroad Retirement Board pursuant to Title 45, United States Code, or by the Office of Management and Budget pursuant to Title 5, United States Code; or (4-6-05)

b. A disabled veteran of any war engaged in by the United States, whose disability is recognized as a service-connected disability of a degree of ten percent (10%) or more, or who has a pension for nonservice-connected disabilities, in accordance with laws and regulations administered by the United States Veterans Administration.
131. -- 139. (RESERVED)

140. DEDUCTION FOR ENERGY EFFICIENCY UPGRADES (RULE 140).
Section 63-3022B, Idaho Code

01. Qualifying Date. The energy efficiency upgrade must be installed in a residence of the taxpayer, or addition to a residence, that existed on or before January 1, 2002. A residence, or addition to a residence, constructed after January 1, 2002, does not qualify. (4-4-13)

02. Qualifying Residence. The residence must be the primary residence of the taxpayer and must be located in Idaho. (3-20-14)

03. Energy Efficiency Upgrade Measure Definition. “Energy efficiency upgrade measure” means an energy efficiency improvement to the building envelope or duct system that meets or exceeds the minimum value for the improved component established by the version of the international energy conservation code (IECC) in effect in Idaho during the taxable year in which the improvement is made or accrued. The IECC in effect in Idaho refers to the version most recently adopted by the Idaho Building Code Board, including amendments made by the Board. See the Board’s administrative rules at IDAPA 07.03.01, “Rules of Building Safety,” Section 004. (4-4-13)

04. Siding. Siding is not considered an energy efficiency upgrade. If a layer of insulation is placed beneath siding, the cost of the insulation is deductible if it otherwise qualifies. If the siding consists of an outer shell for protection against the weather and an inner layer of insulating material, the insulating material qualifies if the cost is separately identified by the seller. (4-4-13)

141. -- 149. (RESERVED)

150. DEDUCTION FOR ALTERNATIVE ENERGY DEVICES (RULE 150).
Section 63-3022C, Idaho Code

01. Qualifying Residence. The deduction applies only to a residence of an individual and does not apply to rental housing, unless the renter, rather than the owner, installs and pays for the device. (3-20-97)

02. Converted Rental Unit. If a residence served by an alternative energy device is converted by the owner from a rental unit to his residence, the owner is entitled to any remaining allowable deduction for the year of the conversion based on the portion of the year that the residence served as his residence. For each subsequent year, the owner is entitled to the full amount of the allowable deduction for that year assuming the residence continues to be the owner’s residence. (3-20-97)

03. Purchase of a Residence. If a residence served by an alternative energy device is sold, both the seller and the buyer are entitled to a portion of the allowable deduction for the year of the sale based on the fraction of the year each individual had ownership of the residence. The new owner is entitled to any allowable deduction remaining for each subsequent year. The deduction is allowed even if the new owner previously rented the residence as his personal residence. No more than a five thousand dollar ($5,000) deduction may be prorated in any year. (3-20-97)

04. Common Distribution System.

a. If the alternative energy device is dependent on and a part of a common distribution system such as a common solar collector facility or a common pipeline that distributes geothermally heated water, the common system is an alternative energy device if owned by the users of the facility. (3-20-97)

b. For purposes of determining the amount of the deduction, each common owner may claim the cost of the portion of the alternative energy system owned solely by that owner that serves only his residence, plus his pro rata share of the costs of installation of the common system. The pro rata share of the cost shall be the actual cost charged to the residential owner for the common system if the costs are allocated by a method that is reasonably
related to the actual cost of providing the alternative energy to the various residential owners. (3-20-97)

c. The developer of a common system should provide a statement to each common owner identifying his allocable cost of the common system. If a statement is not provided, the common owners may agree to a reasonable allocation. If the common owners are unable to determine a reasonable allocation, they may petition the Tax Commission to make the determination. (3-20-97)

05. Destruction of Wood Burning Stove. The wood burning stove that does not meet the environmental protection agency requirements for certification shall be surrendered to the Department of Environmental Quality no later than thirty (30) days from the date of purchase of the qualifying alternative energy device. Failure to surrender the wood burning stove within the thirty (30) day period shall result in the new device failing to qualify as an alternative energy device. The thirty (30) day period may be extended only if the taxpayer can show good cause for the delay. (7-1-99)

151. -- 159. (RESERVED)

160. DEDUCTION FOR HOUSEHOLD AND DEPENDENT CARE SERVICES (RULE 160).
Section 63-3022D, Idaho Code. Section 21, Internal Revenue Code, provides for a credit against federal income tax of a percentage of the authorized employment-related expenses incurred for the care of qualifying individuals. The allowable household and dependent care service expense is a deduction in computing Idaho taxable income. The provisions of the Internal Revenue Code determine which dependents qualify, the maximum allowable expenses, and the qualified payees. (3-20-97)

161. -- 164. (RESERVED)

165. ADDITIONAL HOUSEHOLD DEDUCTION OR CREDIT FOR ELDERLY OR DEVELOPMENTALLY DISABLED DEPENDENTS (RULE 165).
Sections 63-3022E and 63-3025D, Idaho Code

01. Developmentally Disabled Defined. For purposes of the deduction allowed by Section 63-3022E, Idaho Code, or the credit allowed by Section 63-3025D, Idaho Code, developmentally disabled means a chronic disability that meets all of the following conditions: (7-1-99)

a. Is attributable to an impairment, such as intellectual disability, cerebral palsy, epilepsy, autism, or other condition closely related to or similar to one (1) of these impairments that requires similar treatment or services, or is attributable to dyslexia resulting from the impairment. The other condition must result in limitations of general intellectual functioning or adaptive behavior similar to those required for individuals with an intellectual disability. See IDAPA 16.03.10, “Medicaid Enhanced Plan Benefits,” Section 501 for the developmental disability determination standards. (4-7-11)

b. Has continued or can be expected to continue indefinitely. (3-20-97)

c. Has substantial functional limitations in three (3) or more areas of major life activity. Individuals with mild intellectual disabilities, controlled epilepsy, and mild cerebral palsy may not be viewed as developmentally disabled since the criteria of substantial limitation may not be met. Individuals who succeed in developing skills to function adequately in five (5) or more major life skill areas will no longer meet the definition of developmental disability. The following are areas of major life activity: (4-7-11)

i. Self-care; (3-20-97)

ii. Receptive and expressive language; (3-20-97)

iii. Learning; (3-20-97)

iv. Mobility; (3-20-97)

v. Self-direction; (3-20-97)
vi. Capacity for independent living; and (3-20-97)

vii. Economic self-sufficiency. (3-20-97)

d. Reflects the need for a combination and sequence of special, interdisciplinary or generic care, treatment or other services that are of lifelong or extended duration and individually planned and coordinated. Individuals who have limited or no need for services specific to disabilities do not qualify. (3-20-97)

02. Qualifying Individual.

a. Immediate Family Member. An immediate family member is an individual who meets the relationship test for being claimed as a dependent on the taxpayer’s federal income tax return. The family member does not have to be claimed as a dependent on the taxpayer’s income tax return to qualify. The family member must receive over one-half (1/2) of his support from the taxpayer. A spouse does not qualify as an immediate family member. (7-1-99)

b. Additional Household Deduction or Credit for Elderly. For purposes of the additional household deduction or credit for the elderly, a qualifying individual must be an immediate family member. (7-1-99)

c. Additional Household Deduction or Credit for Developmentally Disabled Dependents. For purposes of the additional household deduction or credit for a developmentally disabled dependent, a qualifying individual includes an immediate family member, the taxpayer, or his spouse. (7-1-99)

03. Fractions of Years.

a. The deduction is prorated at eighty-three dollars ($83) per month if the qualified individual lives in the household for less than a full year. A fraction of a calendar month exceeding fifteen (15) days is treated as a full month. (4-7-11)

b. The credit is not available to part-year or nonresident individuals. If the qualified individual lives in the household for less than a full year, the credit is prorated at eight dollars and thirty-three cents ($8.33) per month. (4-7-11)

166. -- 169. (RESERVED)

170. IDAHO CAPITAL GAINS DEDUCTION -- IN GENERAL (RULE 170).
Section 63-3022H, Idaho Code

01. Qualifying for the Idaho Capital Gains Deduction. To qualify for the Idaho capital gains deduction, a taxpayer must report capital gain net income, as defined in Section 1222(9), Internal Revenue Code, on his federal income tax return. (4-11-06)

02. Capital Gain Net Income Limitation.

a. The Idaho capital gains deduction may not exceed the capital gain net income included in taxable income. (4-11-06)

b. Example. A taxpayer recognizes a capital gain of five thousand dollars ($5,000) on the sale of Idaho real property that qualifies for the deduction. The taxpayer also recognizes a capital loss of two thousand five hundred dollars ($2,500) from the sale of shares of stock. These are the only sales during the taxable year. Sixty percent (60%) of the capital gain net income from qualified property is greater than the capital gain net income included in the taxpayer’s taxable income. Therefore, the taxpayer’s Idaho capital gains deduction is limited to the capital gain net income included in taxable income of two thousand five hundred dollars ($2,500), not sixty percent (60%) of the capital gain net income from the qualified property. (4-7-11)

03. Ordinary Income Limitation. Gains treated as ordinary income pursuant to the Internal Revenue
Code do not qualify for the Idaho capital gains deduction, including the following: (4-7-11)

a. Gain from dispositions of certain depreciable property treated as ordinary income pursuant to Sections 1245 or 1250, Internal Revenue Code. (4-7-11)

b. Gain treated as ordinary income pursuant to Section 1231(c), Internal Revenue Code, and allocated among the separate categories of net section 1231 gain as provided by Section 1(h)(8), Internal Revenue Code. Gain treated as ordinary income under Section 1231(c) and allocated among the separate categories of net section 1231 gain as provided by Section 1(h)(8), Internal Revenue Code, must be prorated within each category between the gains on property that qualifies for the Idaho capital gains deduction and gains on property that do not qualify for the Idaho capital gains deduction. (4-7-11)

c. Example. One hundred thousand dollars ($100,000) of capital gain income is treated as ordinary income. The first seventy thousand dollars ($70,000) of ordinary income is allocated to the net section 1231 gain in the twenty-eight percent (28%) category. None of the gain in this category qualifies for the Idaho capital gains deduction since it is all treated as ordinary income. The remaining thirty thousand dollars ($30,000) of ordinary income is allocated to gain from property in the twenty-five percent (25%) group. The gain in this category is derived from the sale on three (3) items of equipment. Two (2) of the items were qualified property located in Idaho. The third item was located in Oregon. Each item generated a gain of twenty-five thousand dollars ($25,000). The gain treated as ordinary income is prorated between the three (3) items, ten thousand dollars ($10,000) to each. As a result, fifteen thousand dollars ($15,000) of the gain on each item remains as capital gain. The fifteen thousand dollars ($15,000) of capital gain on each of the two items of Idaho equipment qualify for the Idaho capital gains deduction. Ten thousand dollars ($10,000) of the gain on the Oregon equipment does not qualify for the capital gains deduction since the equipment is not located in Idaho. (4-7-11)

04. **Losses From Nonqualified Property.** Losses from property not qualifying for the Idaho capital gains deduction may not be netted against gains from property qualifying for the Idaho capital gains deduction before the amount of the deduction is determined. (4-11-06)

05. **Losses From Qualified Property.**

a. Losses from property qualifying for the Idaho capital gains deduction are netted against gains from property qualifying for the Idaho capital gains deduction before the amount of the deduction is determined. (4-7-11)

b. A capital loss carryover from property qualifying for the Idaho capital gains deduction will be netted against current year gains from property qualifying for the Idaho capital gains deduction before the amount of the deduction is determined. If a taxpayer has a capital loss carryover consisting of qualified and nonqualified

---

**Section 170**  
**Page 5431**
property, the qualified capital loss carryover is the proportion that the qualified capital loss bears to the total capital loss shown on the return in the prior year multiplied by the capital loss carryover. (4-7-11)

06. Examples. (3-20-97)

a. A taxpayer sells two (2) parcels of Idaho real property that qualify for the deduction. These are the only sales during the taxable year. A capital gain of seven thousand five hundred dollars ($7,500) is recognized on the sale of Parcel A. A capital loss of five thousand dollars ($5,000) is recognized on the sale of Parcel B. Since both parcels are qualified property, the gain and loss are netted, resulting in capital gain net income from qualified property of two thousand five hundred dollars ($2,500). The capital gains deduction is sixty percent (60%) or one thousand five hundred dollars ($1,500). (4-7-11)

b. A taxpayer recognizes a capital gain of twenty thousand dollars ($20,000) on the sale of Idaho real property that qualifies for the deduction. The taxpayer also recognizes a capital loss of two thousand five hundred dollars ($2,500) from the sale of shares of stock that he has held for more than one (1) year. These are the only sales during the taxable year. In this case, since the long-term capital loss is not from qualified property, the loss on the sale of stock does not reduce the gain from qualified property for purposes of computing the deduction. The entire gain from qualified property of twenty thousand dollars ($20,000) is eligible for the Idaho capital gains deduction. The capital gains deduction is sixty percent (60%) or twelve thousand dollars ($12,000). (4-7-11)

171. IDAHO CAPITAL GAINS DEDUCTION -- QUALIFIED PROPERTY (RULE 171). Section 63-3022H, Idaho Code

01. Tangible Personal Property. Tangible personal property qualifies for the Idaho capital gains deduction if it was used in Idaho for at least twelve (12) months by a revenue-producing enterprise as defined by Section 63-3022H(4), Idaho Code, and Rule 172 of these rules. (4-7-11)

02. Real Property. Idaho real property qualifies for the Idaho capital gains deduction if it was held by the taxpayer for twelve (12) months. See Subsection 171.05 of this rule for examples of nonqualifying property. (3-25-16)

03. Gain from Forfeited Rights and Payments. Gain attributable to a cancellation, lapse, expiration, or other termination of a contract right or obligation does not qualify for the Idaho capital gains deduction. This includes any gain from the lapse of an option or from forfeited earnest money, down payment, or similar payments, related to otherwise qualifying property. (4-7-11)

04. Timber. As used in Section 63-3022H(3)(e), Idaho Code, qualified timber grown in Idaho includes:

a. Standing timber held as investment property that is a capital asset pursuant to Section 1221, Internal Revenue Code; and (3-20-97)

b. Cut timber if the taxpayer elects to treat the cutting of timber as a sale or exchange pursuant to Section 631(a), Internal Revenue Code. (3-20-97)

05. Nonqualifying Property. Nonqualifying property includes:

a. Real or tangible personal property not having an Idaho situs. (4-4-13)

b. Tangible personal property not used by a revenue-producing enterprise. (4-4-13)

c. Intangible property. Some examples of intangible property include, but are not limited to:

i. Stocks and bonds; (4-4-13)

ii. Interests in a partnership (except for interests identified in Section 63-3022H(3)(f)), Idaho Code, LLC, or S corporation. (4-11-19)
06. Holding Periods. (3-20-97)
   a. In General. To qualify for the capital gains deduction, property otherwise eligible for the Idaho capital gains deduction must be held for specific time periods. The holding periods for Idaho purposes generally follow Sections 1223 and 735, Internal Revenue Code. (5-8-09)
   b. Exception to the Tacked-On Holding Period. The holding period of property given up in a tax-free exchange is not tacked on to the holding period of the property received if the property given up was nonqualifying property based on the requirements of Section 63-3022H(3), Idaho Code. (4-4-13)
   c. Installment Sales. The determination of whether the property meets the required holding period is made using the laws applicable for the year of the sale. If the required holding period is not met in the year of sale, the gain is not from qualified property. The classification as nonqualified property will not change even though the gain may be reported in subsequent years when a reduced holding period is applicable. (4-5-00)
   d. Examples of nonqualifying property. (7-1-98)
      i. A taxpayer purchased land in California. After owning the land three (3) years, he gave up the California land in a tax-free exchange for land in Idaho. He owned the Idaho land for ten (10) months until selling it at a gain. For federal purposes the holding period of the California land tacks on to the holding period of the Idaho land. The gain from the sale of the California land would not qualify for the Idaho capital gains deduction since it is real property located outside Idaho. The holding period of the California land does not tack on to the holding period of the Idaho land for purposes of the Idaho capital gains deduction. Because the Idaho land was not held for twelve (12) months, the gain from the sale of the Idaho land does not qualify for the Idaho capital gains deduction. (3-30-07)
      ii. Assume the same facts as in the example in Subparagraph 171.05.d.i. except the taxpayer’s original purchase was land in Idaho. Because the taxpayer owned real property in Idaho that was exchanged for a second parcel of real property in Idaho, the holding period of the Idaho land given up tacks on to the holding period of the second parcel of Idaho land. Because the holding period of the second property, which includes the holding period of the first property, was at least twelve (12) months, the gain from the sale of the second parcel of real property qualifies for the Idaho capital gains deduction. (4-7-11)
07. Holding Periods of S Corporation and Partnership Property. (7-1-98)
   a. Property Contributed by a Shareholder to an S Corporation or by a Partner to a Partnership. A shareholder or partner who contributes otherwise qualified property to an S corporation or partnership may treat the pass-through gain on the sale of that property as a qualifying Idaho capital gain if the property has, in total, been held by the shareholder or partner and the S corporation or partnership for the required holding period. The noncontributing shareholders or partners may treat the pass-through gain as a qualifying Idaho capital gain only if the S corporation or partnership held the property for the required holding period. (5-8-09)
   b. Property Distributed by an S Corporation or Partnership. (2-27-12)
      i. Distributions. For purposes of this rule, the holding period of property received in a distribution from a partnership or from an S corporation other than in liquidation of stock includes the time the entity held the property. (3-25-16)
08. Sale of a Partnership Interest. For taxable years beginning on or after January 1, 2018, when 26 CFR 1.170A-13(c)(3) is used to determine the fair market value of the partnership’s qualified real property, the language of that federal regulation is to be treated as if it sets forth an appraisal method for determining the value of the qualified real property due to the sale of the partnership interest rather than a donation of property. (4-11-19)

172. IDAHO CAPITAL GAINS DEDUCTION -- REVENUE-PRODUCING ENTERPRISE (RULE 172). Section 63-3022H, Idaho Code

01. In General. Only the activities listed in Section 63-3022H(4), Idaho Code, qualify as a revenue-
02. **Nonqualifying Activities.** Examples of activities that do not qualify as a revenue-producing enterprise include the following:

- a. Retail sales;
- b. Professional or managerial services;
- c. Repair services or other service related activities;
- d. Transportation activities, unless they are an integral part of the taxpayer’s qualifying activity;
- e. Telephone, cable, and internet services;
- f. Agricultural services, such as horse training, veterinarian services, and crop dusting.

03. **Multiple Activities.** If a business is engaged in both revenue-producing and nonrevenue-producing activities, tangible personal property must be used in the revenue-producing activity to qualify for the Idaho capital gains deduction.

04. **Examples.**

- a. A taxpayer’s Idaho business includes buying wool and processing it into yarn, using the yarn to manufacture clothes, and selling the clothes to the customers. Only part of the taxpayer’s business activity qualifies as a revenue-producing enterprise. The activity related to retail sales does not qualify as a revenue-producing enterprise and any tangible personal property used in that activity does not qualify for the Idaho capital gains deduction.
- b. A taxpayer’s Idaho business includes cutting timber in a forest, transporting the logs to a sawmill, processing the logs into plywood, and selling the plywood to a furniture manufacturer. The entire business qualifies as a revenue-producing enterprise, including the selling activity, because the selling activity is at wholesale.
- c. A taxpayer’s Idaho business includes growing potatoes and operating a long-haul trucking business unrelated to the potato operations. Only the portion of the Idaho business involved in activities necessary to the growing of potatoes qualifies as a revenue-producing enterprise. Tangible personal property used in the taxpayer’s long-haul trucking business does not qualify for the Idaho capital gains deduction.

173. **IDAHO CAPITAL GAINS DEDUCTION -- PASS-THROUGH ENTITIES (RULE 173).**

Section 63-3022H, Idaho Code

01. **In General.**

- a. Qualified property held by an S corporation, partnership, trust, or estate may be eligible for the Idaho capital gains deduction. The deduction is allowed only on the return of an individual shareholder, individual partner, or individual beneficiary.
- b. Partnerships, S corporations, trusts, and estates that pay the tax for an electing individual pursuant to Section 63-3022L, Idaho Code, are not allowed to claim a capital gains deduction.

02. **Multistate Entities.** A nonresident shareholder of an S corporation or a nonresident partner of a partnership required to allocate and apportion income as set forth in Section 63-3027, Idaho Code, shall compute his Idaho capital gains deduction on his interest in income of that portion of the qualifying capital gains allocated or apportioned to Idaho.

03. **Examples.**
a. XYZ Farms, a multistate partnership, sold three (3) parcels of farmland: one (1) in Idaho purchased seven (7) years ago, one (1) in Washington, and one (1) in Oregon. The sale of the Idaho property resulted in a forty thousand dollar ($40,000) gain, the sale of the Washington property resulted in a thirty thousand dollar ($30,000) gain, and the sale of the Oregon property resulted in a twenty thousand dollar ($20,000) loss, for a net gain of fifty thousand dollars ($50,000). The income and loss from the sale of the farmland is determined to be business income and is included in income apportionable to Idaho. The partnership has a seventy-five percent (75%) Idaho apportionment factor. The three (3) nonresident partners share equally in the partnership profits. Each nonresident partner reports capital gain net income in determining taxable income for the year and may claim an Idaho capital gains deduction of six thousand dollars ($6,000), computed as follows: ($40,000 Idaho gain X 75% apportionment factor = $30,000 gain apportioned to Idaho X 1/3 interest = $10,000 attributable to each partner X 60% = $6,000 capital gains deduction allowable on each partner’s nonresident return). For taxable year 2001 only, the capital gains deduction is eighty percent (80%) of the capital gain net income from qualified property, or eight thousand dollars ($8,000). After 2001, the capital gains deduction returns to sixty percent (60%) or six thousand dollars ($6,000). (3-30-07)

b. Assume the same facts as in Paragraph 173.03.a. of this rule, except that one (1) of the nonresident partners reported capital gain net loss on his federal return. Because the partner did not meet the criteria of reporting capital gain net income in determining taxable income as required by Section 63-3022H(1), Idaho Code, he would not be entitled to the Idaho capital gains deduction on his Idaho return. (5-8-09)

c. Assume the same facts as in Paragraph 173.03.a. of this rule, except that the Oregon property was sold at a ninety thousand dollar ($90,000) loss, resulting in capital gain net loss from the partnership. If a partner had other capital gains to report and reported capital gain net income on his federal income tax return, he would be entitled to part or all of the capital gains deduction computed on the Idaho property in Paragraph 173.03.a. of this rule, limited to the amount of the capital gain net income from all property included in taxable income by the partner. (5-8-09)

d. Assume the same facts as in Paragraph 173.03.a. of this rule, except that the farmland is determined to be nonbusiness income. Therefore, the forty thousand dollar ($40,000) gain from the sale of the Idaho farmland is allocated to Idaho. Assuming each partner had no other capital gains or losses except from the partnership, each partner may claim an Idaho capital gains deduction of eight thousand dollars ($8,000), computed as follows: ($40,000 gain allocated to Idaho X 1/3 = $13,333 partner’s share X 60% = $8,000 Idaho capital gains deduction allowable on each partner’s nonresident return). For taxable year 2001, the capital gains deduction is eighty percent (80%) of the capital gain net income from qualified property, computed to be ten thousand six hundred and sixty-seven dollars ($10,667). (5-8-09)

e. An Idaho resident partner must report all partnership income to Idaho. As a result, his share of partnership income, including any capital gain included in apportionable income, is not limited by the apportionment factor of the partnership. Therefore, in the example in Paragraph 173.03.a. of this rule, a resident partner may claim an Idaho capital gains deduction of eight thousand dollars ($8,000) computed as follows: ($40,000 Idaho gain X 1/3 interest X 60% = $8,000). For taxable year 2001, the capital gains deduction is eighty percent (80%) of the capital gain net income from qualified property, computed to be ten thousand six hundred and sixty-seven dollars ($40,000 Idaho gain X 1/3 interest X 80% = $10,667). (5-8-09)

f. Gains that cannot be traced back to the sale of Idaho qualifying property do not qualify for the Idaho capital gains deduction. (3-30-07)

174. -- 179. (RESERVED)

180. DEDUCTION FOR DONATION OF TECHNOLOGICAL EQUIPMENT (RULE 180).
Section 63-3022J, Idaho Code

01. Limitations. The deduction for donations of technological equipment is limited to the lower of cost, fair market value, or Idaho taxable income of the taxpayer. Any amount in excess of Idaho taxable income is not allowed as a carryback or carryover. (3-20-14)
02. **Fair Market Value.** Fair market value is determined pursuant to Section 170, Internal Revenue Code. (3-20-97)

03. **Pass-Through of Deduction.**
   a. See Rule 128 of these rules for the general rules relating to deductions of pass-through entities. (3-20-97)
   b. The limitations in Subsection 180.01 apply at the entity level. The deduction may not exceed the amount of pass-through income less deductions of the entity making the contribution. (3-20-97)

181. -- 184. (RESERVED)

185. **ADOPTION EXPENSES (RULE 185).**
Section 63-3022I, Idaho Code

   01. **In General.** Subject to the limitations of Subsection 185.02, adoptive parents may deduct from taxable income legal and medical expenses related to the adoption of a child. Travel expenses related to the adoption may not be deducted. (3-20-97)

   02. **Maximum Deduction.** The deduction allowed for a successful adoption is limited to a maximum deduction for each adopted child. For taxable years beginning before 2018, the maximum deduction is three thousand dollars ($3,000). For taxable years beginning after 2017, the maximum deduction is ten thousand dollars ($10,000) regardless of whether the deduction is claimed in one (1) or more years. (3-26-19)

      a. Examples:

         i. A taxpayer spent five thousand dollars ($5,000) in 2017 and four thousand dollars ($4,000) in 2018 to adopt a child. He can deduct three thousand dollars ($3,000) in 2017 and four thousand dollars ($4,000) in 2018. (3-26-19)

         ii. A taxpayer spent five thousand dollars ($5,000) in 2017 and fifteen thousand dollars ($15,000) in 2018 to adopt a child. He can deduct three thousand dollars ($3,000) in 2017 and seven thousand dollars ($7,000) in 2018. (3-26-19)

   03. **Ineligible Expenses.**

      a. The costs associated with an unsuccessful attempt to adopt a child do not qualify for the deduction. (3-20-97)

      b. A deduction is not allowed for expenses incurred in violation of state or federal law or for a surrogate parenting arrangement. (3-20-97)

   04. **Year Deduction Allowed.** The deduction is allowed in the taxable year the expense is paid. A taxpayer shall file an amended return if he claimed any adoption expenses related to an unsuccessful attempt to adopt in a previous taxable year. (3-20-97)

   05. **Financial Assistance.** Eligible expenses shall be reduced by amounts received as financial aid for the adoption, or from a grant pursuant to a federal, state, or local program. (3-20-97)

186. -- 189. (RESERVED)

190. **IDAHO MEDICAL SAVINGS ACCOUNTS (RULE 190).**
Section 63-3022K, Idaho Code

   01. **Designation as a Medical Savings Account.** An account must be designated by a depository as a medical savings account to qualify as an Idaho medical savings account. To be designated as a medical savings
account, the words medical savings account or MSA must be clearly listed on the statement provided to the account holder and be included in one (1) of the following: (5-3-03)

a. The name of the account; (5-3-03)

b. The title of the account; (5-3-03)

c. The description of the account; or (5-3-03)

d. The designation of the account. (5-3-03)

02. Withdrawal to Reimburse the Account Holder. (4-5-00)

a. A withdrawal from an Idaho medical savings account to reimburse the account holder for expenses he paid is not a withdrawal to pay eligible medical expenses to the extent the account balance at the time the expense was paid was less than the withdrawal. (4-5-00)

b. Example. A taxpayer’s Idaho medical savings account had a balance of three hundred dollars ($300) on March 1. On that day, he paid a medical expense costing four hundred dollars ($400) using funds from his regular checking account. On March 10 the taxpayer deposited two hundred dollars ($200) into his medical savings account. On March 11 he withdrew four hundred dollars ($400) from his medical savings account to reimburse himself for the medical expense payment. Only three hundred dollars ($300) of the withdrawal qualifies as a payment of eligible medical expenses. The taxpayer may deduct two hundred dollars ($200) for the contribution to the account. However, he must include one hundred dollars ($100) in Idaho taxable income in addition to paying a penalty of ten dollars ($10). (7-1-98)

03. Pretax Contributions. Health benefits paid with pretax contributions, such as those paid pursuant to a salary reduction agreement, are considered paid by the employer and do not qualify as an expense paid by the employee. Health benefits paid with after-tax dollars are considered paid by the employee and qualify as an expense paid by the employee. (3-20-97)

04. Contributions That Exceed the Amount Deductible. An account holder is limited in the amount he can contribute to his Idaho medical savings account each year to the amount deductible for that year. For taxable years beginning on or after January 1, 1995, but before January 1, 2014, the maximum amount deductible is two thousand dollars ($2,000), four thousand dollars ($4,000) for a joint account. For taxable years beginning on or after January 1, 2014, the maximum amount deductible is ten thousand dollars ($10,000), twenty thousand dollars ($20,000) for a joint account. Contributions to an Idaho medical savings account that exceed the limitation for that year and that are not withdrawn as a deposit in error within thirty (30) days from the date of deposit, will be subject to tax and the distribution penalty if withdrawn for purposes other than the payment of eligible medical expenses. (4-11-15)

05. Death of a Spouse. If an Idaho medical savings account is established for married individuals as a joint account, no contributions will be made for an account holder who is deceased. In the year of death, one-half (1/2) of the contributions made up to the date of death will be attributed to each account holder. If the amounts are less than the maximum contribution amount, the surviving account holder may make contributions so that his total contributions for the year total the maximum contribution amount. For example, a married couple contributes three thousand dollars ($3,000) to their medical savings account in January of 2013. In April of that year, the husband dies. The contributions made to the date of death will be attributed to each spouse with the result that each spouse is considered to have contributed one thousand five hundred dollars ($1,500). Because the wife has not met the maximum deduction of two thousand dollars ($2,000) for taxable year 2013, she can contribute another five hundred dollars ($500) in that year. (4-11-15)

191. -- 192. (RESERVED)

193. HEALTH INSURANCE COSTS AND LONG-TERM CARE INSURANCE (RULE 193). Sections 63-3022P and 63-3022Q, Idaho Code
01. **In General.** The amounts paid by an individual taxpayer for health insurance and long-term care insurance that are not otherwise deducted or accounted for are allowed as deductions from taxable income. For taxable years beginning between January 1, 2001, and December 31, 2003, the deduction allowed for the long-term care insurance premiums was limited to fifty percent (50%) of the amount paid during the taxable year. (4-6-05)

02. **Costs Deducted or Accounted For.** Deductions are not allowed for health insurance costs and premiums paid for long-term care insurance that are otherwise deducted or accounted for. See Rule 194 of these rules for examples of the limitations when costs are otherwise deducted or accounted for. Health insurance costs and premiums paid for long-term care insurance that are otherwise deducted or accounted for include amounts: (5-8-09)

   a. Paid out of an Idaho medical savings account; (5-3-03)
   b. Paid through a cafeteria plan or other salary-reduction arrangement when these costs are paid out of pretax income; or (4-6-05)
   c. Deducted as business expenses. (5-3-03)

03. **Social Security Medicare Part A.**

   a. The payroll tax paid for Medicare A is not considered a medical expense under Section 213, Internal Revenue Code and, therefore, does not qualify for the Idaho deduction for health insurance costs. This applies to individuals who are covered by Social Security or are government employees who paid Medicare tax. (5-3-03)
   b. The amount of premiums a taxpayer pays to voluntarily enroll in Medicare A is deductible under Section 213, Internal Revenue Code, and qualifies for the Idaho deduction for health insurance costs. This applies to individuals who are not covered under Social Security or who were not government employees who paid Medicare tax. (5-3-03)

04. **Social Security Medicare Part B.** Amounts paid for Medicare B, which is a supplemental medical insurance, qualify for the deduction allowed under Section 213, Internal Revenue Code, and qualify for the Idaho deduction for health insurance costs. (5-3-03)

05. **Social Security Medicare Part D.** Amounts paid for Medicare D, which is a voluntary prescription drug insurance program for individuals with Medicare A or B, qualify for the deduction allowed under Section 213, Internal Revenue Code, and qualify for the Idaho deduction for health insurance costs. (5-8-09)

06. **Medical Payments Coverage and Personal Injury Protection of Automobile Insurance.** The portion of automobile insurance that covers medical payments coverage or personal injury protection does not qualify for the Idaho deduction for health insurance costs because the insurance coverage is not restricted to the taxpayer, the taxpayer’s spouse, or the dependents of the taxpayer. This insurance provides protection to the driver and passengers of the policyholder’s car or other injured parties. (5-3-03)

194. **HEALTH INSURANCE COSTS AND LONG-TERM CARE INSURANCE -- EXAMPLES OF LIMITATIONS (RULE 194).**

   Sections 63-3022P and 63-3022Q, Idaho Code

   01. **Examples of Limitations When Costs are Otherwise Deducted or Accounted For.** If a taxpayer elects to itemize deductions for Idaho purposes and his medical expenses exceed the federal adjusted gross income limitation, the amount that is deducted as an itemized deduction will first apply to health insurance costs, next to long-term care insurance, and last to other medical expenses. If the premiums exceed the amount deducted as an itemized deduction, the Idaho deductions for health insurance costs and long-term care insurance may be allowed if the premiums were not otherwise deducted or accounted for. If the taxpayer does not elect to itemize deductions for Idaho purposes, or if the taxpayer is unable to deduct medical expenses as an itemized deduction due to the federal adjusted gross income limitation, the full amount of health insurance costs and premiums paid for long-term care insurance (fifty-percent (50%) of the premiums for taxable years beginning prior to 2004), not otherwise deducted or accounted for, qualify for the Idaho deduction. Amounts used for calculating the limitations must not be less than
zero (0). (3-20-14)

02. Example with Applicable Percentage of Federal Adjusted Gross Income Equal to Zero (0).

(3-20-14)

**06. Applicable Percentage.** For taxable years beginning January 1, 2013, the percentage is seven and one-half percent (7.5%) if the taxpayer or spouse is age sixty-five (65) or older. The percentage for taxpayers under the age of sixty-five (65) is ten percent (10%).

(3-20-14)

**195. LOSS RECOVERIES (RULE 195).**

Section 63-3022R, Idaho Code

**01. In General.** A deduction is allowed in taxable years beginning after December 31, 2012 for recoveries of losses deducted from federal taxable income in a prior year that were not allowed or allowable as a deduction in calculating Idaho taxable income to the extent the recovery is included in federal taxable income of the current year.

(3-20-14)

**02. No Double Deduction.** No deduction is allowed for recovery of an amount not included in federal taxable income of the current year. No deduction is allowed to the extent the loss recovered previously reduced Idaho taxable income.

(3-20-14)

**03. Example.** A taxpayer claims an itemized deduction of one hundred thousand ($100,000) on his 2010 federal tax return for a theft loss from a Ponzi-type investment scheme. The deduction results in a federal net operating loss of fifty thousand ($50,000) for 2010 but no Idaho net operating loss because the itemized deduction is not allowable in calculating an Idaho net operating loss under Section 63-3021, Idaho Code. On his 2013 federal tax return, the taxpayer includes in federal taxable income a recovery of sixty thousand ($60,000) of the amount
previously deducted. Since ten thousand ($10,000) of the recovered amount reduced 2010 Idaho taxable income and fifty thousand ($50,000) did not reduce 2010 Idaho taxable income, a fifty thousand ($50,000) deduction is allowed in calculating 2013 Idaho taxable income. The 2013 Idaho deduction allowed is fifty thousand ($50,000) since that is the amount that was previously disallowed for Idaho purposes. (3-20-14)

196. -- 199. (RESERVED)

01. Unitary Taxpayers. Each corporation included in a unitary group must determine its respective share of the Idaho apportioned net operating loss incurred by the unitary group for the taxable year. A corporation's share of the net operating loss is computed using its Idaho apportionment factor for the year of the loss. The corporation must add or subtract its nonbusiness income or loss allocated to Idaho to its share of the apportioned loss. (3-20-97)

02. Example.

201. NET OPERATING LOSS CARRYBACKS AND CARRYOVERS (RULE 201).
Section 63-3022(c), Idaho Code

01. Definitions for Purposes of Net Operating Loss Carrybacks and Carryovers. (3-20-97)
   a. The term net operating loss deduction means the sum of the Idaho net operating losses carried to another taxable year and subtracted in computing Idaho taxable income. (3-20-97)
   b. A net operating loss is absorbed when it has been fully subtracted from Idaho taxable income, as modified by Section 63-3021, Idaho Code. (4-5-00)

02. Adjustments to Net Operating Losses. (3-20-97)
   a. Adjustments to a net operating loss will be determined pursuant to the law applicable to the loss year. (3-20-97)
   b. Adjustments to a net operating loss deduction may be made even though the loss year is closed due to the statute of limitations, but will not result in any tax due or refund for the closed taxable years. (3-25-16)

03. Adjustments in Carryback and Carryover Years. (3-20-97)
   a. Adjustments to income, including modifications pursuant to Section 63-3021, Idaho Code, in a carryback or carryover year must be made for purposes of determining, how much, if any, of the net operating loss may be carried over to subsequent years. (4-5-00)
   b. Adjustments are made pursuant to the law applicable to the carryback or carryover year. (4-5-00)
   c. Adjustments may be made even though the year is closed due to the statute of limitations, but will not result in any tax due or refund for the closed taxable years. (3-25-16)

04. Net Operating Loss Carrybacks Application. (3-20-14)
   a. The net operating loss carryback allowed for the entire carryback period may not exceed one hundred thousand dollars ($100,000) per taxpayer. Each corporation that has a net operating loss and is included in a unitary group is limited to a maximum carryback of one hundred thousand dollars ($100,000). (4-7-11)
   b. The sum of net operating loss deductions must not exceed the amount of the net operating loss incurred. (3-20-14)
   c. Except as provided in Paragraphs 201.04.d. and 201.04.f, a net operating loss is applied as follows: (3-20-14)
      i. Net operating losses incurred in taxable years beginning on and after January 1, 1990, but prior to January 1, 2000, are applied to the third preceding taxable year and if not absorbed, the difference is applied to the second preceding taxable year and if not absorbed, the difference is applied to the first preceding taxable year. The loss not absorbed in the carryback years is subtracted in the fifteen (15) succeeding taxable years, in order, until absorbed. (3-20-14)
ii. Net operating losses incurred in taxable years beginning on and after January 1, 2000, but prior to January 1, 2013, are applied to the second preceding taxable year and if not absorbed, the difference is applied to the first preceding taxable year. The loss not absorbed in the carryback years is subtracted in the twenty (20) succeeding taxable years, in order, until absorbed. (3-20-14)

iii. Net operating losses incurred in taxable years beginning on and after January 1, 2013, are applied to the twenty (20) succeeding taxable years, in order, until absorbed. (3-20-14)

d. For taxable years beginning prior to January 1, 2013, if the taxpayer makes a valid election to forego the carryback period as provided in Subsection 201.05, the provisions of Subsection 201.04.c. do not apply and the net operating loss carryover is applied as follows:

i. For net operating losses incurred in taxable years beginning on and after January 1, 1990, but prior to January 1, 2000, the net operating loss is subtracted in the fifteen (15) succeeding taxable years, in order, until the loss is absorbed. (4-5-00)

ii. For net operating losses incurred in taxable years beginning on and after January 1, 2000, but prior to January 1, 2013, the net operating loss is subtracted in the twenty (20) succeeding taxable years, in order, until the loss is absorbed. (3-20-14)

e. For taxable years beginning prior to January 1, 2013, if the taxpayer fails to make a valid election to forego the carryback period, the net operating loss must be carried back. If a carryback year is closed due to the statute of limitations, the net operating loss carryback may not result in a refund for the closed taxable year. (3-20-14)

f. For net operating losses incurred in taxable years beginning on and after January 1, 2013, if an amended return carrying back the loss is filed within one (1) year of the end of the taxable year of the net operating loss, the net operating loss is applied to the second preceding taxable year and if not absorbed, the difference is applied to the first preceding taxable year. The loss not absorbed in the carryback years is subtracted in the twenty (20) succeeding taxable years, in order, until absorbed. (3-20-14)

05. Timing and Method of Electing to Forego Carryback For Taxable Years Beginning Before January 1, 2013.

a. Net operating losses incurred in taxable years beginning on or after January 1, 2010. The election must be made by the due date of the loss year return, including extensions. Once the completed return is filed, the extension period expires. Unless otherwise provided in the Idaho return or in an Idaho form accompanying a return for the taxable year, the election referred to in this Subsection may be made by attaching a statement to the taxpayer’s income tax return for the taxable year of the loss. The statement must contain the following information: (4-7-11)

i. The name, address, and taxpayer’s social security number or employer identification number; (3-20-97)

ii. A statement that the taxpayer makes the election pursuant to Section 63-3022(c)(1), Idaho Code, to forego the carryback provision; and (7-1-99)

iii. The amount of the net operating loss. (3-20-97)

b. Attaching a copy of the federal election to forego the federal net operating loss carryback to the Idaho income tax return for the taxable year of the loss does not constitute an election for Idaho purposes. (4-7-11)

c. If the election is made on an amended or original return filed subsequent to the time allowed in Paragraph 201.05.a, it is considered untimely and the net operating loss is applied as provided in Paragraph 201.04.c. (4-7-11)

06. Order in Which Losses Are Applied in a Year. Loss carryovers are deducted before deducting any loss carrybacks applicable to the same taxable year. (3-20-97)
07. **Documentation Required When Claiming a Net Operating Loss Deduction.** A taxpayer claiming a net operating loss deduction for a taxable year must file with his return for that year a concise statement setting forth the amount of the net operating loss deduction claimed and all material and pertinent facts, including a detailed schedule showing the computation of the net operating loss and its carryback or carryover. (3-20-97)

08. **Conversion of C Corporation to S Corporation.** An S corporation may not carry over or back a net operating loss from a taxable year in which the corporation was a C corporation. However, an S corporation subject to Idaho tax on net recognized built-in gains or excess net passive income may deduct a net operating loss carryover from a taxable year in which the corporation was a C corporation against its net recognized built-in gain and excess net passive income. (4-7-11)

201. **In General.** Any taxpayer excluding from taxable income an amount resulting from the discharge of indebtedness in bankruptcy under Section 108(b) of the Internal Revenue Code, shall reduce Idaho net operating loss and basis in accordance with Section 346 of the Bankruptcy Code of the United States. If the discharge occurs outside of bankruptcy, the provisions of these rules shall not apply. (7-1-99)

02. **Order of Reduction.** The reduction referred to in Subsection 210.01 shall be made to the following tax attributes in the following order: (7-1-99)

   a. Any net operating loss deduction, as defined in Rule 201 of these rules, shall be reduced by the amount of the indebtedness forgiven or discharged in bankruptcy except as follows: (7-1-99)

      i. A deduction with respect to the liability which is disallowed for any taxable period during or after the liability is forgiven or discharged. A deduction with respect to the liability includes a capital loss incurred on the disposition of a capital asset with respect to a liability that was incurred in connection with the acquisition of such asset. (7-1-99)

      ii. To the extent that the indebtedness forgiven or discharged consisted of items of a deductible nature that were not deducted by the taxpayer, or resulted in an expired net operating loss deduction or carryover that did not offset income for any taxable period and did not contribute to a net operating loss in or a net operating loss carryover to the taxable period during or after the indebtedness was discharged. (7-1-99)

   b. The basis in the taxpayer’s property or of property transferred to an entity required to use the taxpayer’s basis in whole or in part shall be reduced by the lesser of: (7-1-99)

      i. The amount of the forgiven or discharged indebtedness, minus the total amount of adjustments made under Subsection 210.02.a.; and (7-1-99)

      ii. The amount of the debtor’s total basis of assets before the discharge that exceeds the total preexisting liabilities still remaining after discharge of indebtedness. Basis may not be reduced below a level equal to the remaining undischarged liabilities. (7-1-99)

03. **Exception to Basis Reduction.** The basis reduction under Subsection 210.02.b. is not required if the taxpayer elects to treat the amount that would otherwise be applied in reduction of basis as taxable income of the taxable period in which the debt is forgiven or discharged. (7-1-99)

04. **Discharge Not Treated as Discharged Indebtedness.** The following provisions exclude from this rule indebtedness that is discharged and treat the debtor as if it had originally issued stock instead of debt. No reduction to the Idaho net operating loss or basis is required if one (1) or more of these provisions are satisfied. (7-1-99)
a. The indebtedness did not consist of items of a deductible nature and is exchanged for an equity security, other than a limited partnership interest, issued by the debtor or is forgiven as a contribution to capital; or (7-1-99)

b. The indebtedness consisted of items of a deductible nature, and the exchange of stock for debt has the same effect as a cash payment equal to the fair market value of the equity security that is issued by the debtor or, if the value of the security is less than the value of the debt, only part of the debt will be excluded. (7-1-99)

250. NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- INCOME SUBJECT TO IDAHO TAXATION (RULE 250).

Sections 63-3026A(1) and (2), Idaho Code

01. Tax on Income From Idaho Sources. All income earned or received from sources within Idaho is subject to Idaho income taxation. For nonresidents and part-year residents, income from sources within Idaho must be determined in accordance with Section 63-3026A(3), Idaho Code, and Rules 260 through 275 of these rules. (2-27-12)

02. Tax on Income Received by Individuals Residing in or Domiciled in Idaho. All income earned or received by an individual who resides in or is domiciled in Idaho is subject to Idaho income taxation without regard to the source of the income. (3-20-97)

03. Receipt of Income -- Part-Year Residents. For purposes of determining if income is reportable to Idaho by a part-year resident, a cash basis taxpayer is considered to have earned or received income when it is actually or constructively received, except as provided in Subsections 250.04 and 250.05. (3-30-01)

04. Receipt of Intangible Income -- Part-Year Residents. (3-30-01)

a. Interest and dividend income received from a source other than from a pass-through entity is considered to be earned or received by a part-year resident ratably during the taxable year. (2-27-12)

b. If a transaction or activity gives rise to income that is reported in a subsequent year when the taxpayer is a part-year resident, the income must be treated as received ratably during that subsequent year. Subsection 250.04 also applies to income that is not received during the year by the taxpayer, but which must be reported in taxable income. See Subsection 250.05 for the receipt of income from a pass-through entity. (2-27-12)

c. A part-year resident must report such income to Idaho in the proportion that the number of days during the taxable year that the individual qualified as an Idaho part-year resident bears to total days in the taxable year. (2-27-12)

d. Example. An individual converts an amount from a traditional IRA to a Roth IRA in year one (1). He elects to have the income taxed over four (4) years. The individual moves to Idaho on August 1 of year two (2). Since the individual was an Idaho resident for one hundred fifty-three (153) days of year two (2), he must report as Idaho income forty-two percent (42%) of his income from the conversion to a Roth IRA for that year. (3-30-01)

05. Receipt of Pass-Through Items of Income and Losses -- Part-Year Residents. (3-30-01)

a. For a part-year resident who is a shareholder in an S corporation, or a partner in a partnership, the income, gains, losses and other pass-through items from the S corporation or partnership are treated as received ratably during the taxpayer’s taxable year. If the taxpayer was not a shareholder or partner for the entire taxable year, the pass-through items are treated as received ratably during the portion of the taxable year the taxpayer was a shareholder of the S corporation or partner of the partnership. (2-27-12)

b. For a part-year resident who is a beneficiary of an estate or trust, the income, gains, losses and other pass-through items from the estate or trust are treated as received ratably during the taxpayer’s taxable year. If the
taxpayer was not a beneficiary of the estate or trust for the entire taxable year, the pass-through items are treated as received ratably during the portion of the taxable year the taxpayer was a beneficiary of the estate or trust. (2-27-12)

c. A part-year resident must report such income to Idaho in the proportion that the number of days during the taxable year that the individual qualified as an Idaho part-year resident bears to total days in the taxable year. (2-27-12)

251. NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- COMPUTATION OF IDAHO TAXABLE INCOME (RULE 251).
Section 63-3026A, Idaho Code

01. Idaho Total Income. To determine the Idaho taxable income of nonresident and part-year resident individuals, first compute the taxpayer’s Idaho total income. (3-15-02)

a. Idaho total income is that portion of total income subject to Idaho taxation. It is the amount reported as total income on Form 43. (3-15-02)

b. For purposes of this rule, federal total income means gross income less certain deductions allowed under the Internal Revenue Code. It is the amount reported on the federal individual income tax return that is identified as total income. (3-20-14)

02. Idaho Adjusted Gross Income. From Idaho total income, make the applicable adjustments provided in Rule 252 of these rules to arrive at Idaho adjusted gross income. (3-15-02)

03. Idaho Adjusted Income. From Idaho adjusted gross income, make the applicable additions and subtractions set forth in Rules 253 and 254 of these rules to arrive at Idaho adjusted income. (3-20-97)

04. Idaho Taxable Income. From Idaho adjusted income, subtract the exemption and deduction amounts as provided in Rule 255 of these rules to arrive at Idaho taxable income. (3-20-97)

252. NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- ADJUSTMENTS ALLOWED IN COMPUTING IDAHO ADJUSTED GROSS INCOME (RULE 252).
Section 63-3026A(6), Idaho Code

01. In General. Deductions allowed in computing adjusted gross income will be allowed in computing Idaho adjusted gross income unless specifically denied by Idaho law. The amount allowed will be computed as provided in this rule. Each computation in this rule will include the amounts reported for the taxable year unless otherwise indicated. (3-20-14)

02. Deductions Directly Related to Specific Items of Income or Property. If the deduction directly relates to a specific item of income or property, the allowable deduction will be computed by dividing the amount of related income reported in Idaho income by the total of such related income reported in federal income. This percentage is multiplied by the deduction to arrive at the amount allowed as an Idaho deduction. If the deduction is related to property that did not generate income during the taxable year, the deduction will be allowed in the proportion that the property to which the deduction relates was located in Idaho. Examples of some of these deductions include the following: (3-20-14)

a. Penalty on early withdrawal of savings. The allowable deduction will be computed by dividing the interest income of the time savings deposit subject to the penalty included in Idaho income by the total interest income of the time savings deposit included in federal income. This percentage is multiplied by the penalty deduction allowed for federal purposes. (3-20-14)

b. Certain business expenses of reservists, performing artists, and fee-basis government officials. (3-29-10)

c. Domestic production activities deduction. The allowable deduction will be computed by dividing the qualified production activities income included in Idaho income by the total qualified production activities
income. This percentage is multiplied by the domestic production activities deduction allowed for federal purposes.

(3-20-14)

d. Jury duty pay remitted to an employer.

(3-29-10)
e. Deductible expenses related to income from the rental of personal property engaged in for profit.

(3-29-10)
f. Reforestation amortization and expenses. The allowable deduction will be computed by dividing the income from the related timber operations included in Idaho income by the total income from the related timber operations. If there is no income from the related timber operations for the year of the deduction, the allowable deduction will be computed based on the percentage of property in Idaho to total property to which the reforestation amortization and expenses relate. This percentage is multiplied by the reforestation amortization and expense deduction allowed for federal income tax purposes.

(3-20-14)
g. Repayment of supplemental unemployment benefits. The allowable deduction will be computed by dividing the supplemental unemployment benefits included in Idaho income by the total supplemental unemployment benefits reported in federal income. This percentage is multiplied by the repayment deduction allowed for federal purposes.

(3-20-14)
h. Attorney fees and court costs. The allowable deduction will be computed by dividing the total income related to the attorney fees and court costs included in Idaho income by the total income from such actions. This percentage is multiplied by the attorney fees and court costs allowed for federal purposes.

(3-20-14)

03. Deductions Allowed Based on Qualifying Types of Income. If the deduction is dependent on the taxpayer earning a qualifying type of income, the allowable deduction will be computed by dividing the amount of the qualifying income reported in Idaho income by the total of such qualifying income reported. This percentage is multiplied by the deduction to arrive at the amount allowed as an Idaho deduction.

(3-20-14)
a. Payments to an individual retirement account (IRA), federal health savings or medical savings account, or Section 501(c)(18)(D) retirement plan. The allowable deduction will be computed by dividing the taxpayer's Idaho compensation by the taxpayer's total compensation. This percentage is multiplied by the deduction allowed for federal purposes. For purposes of this rule, compensation means “compensation” as defined in Section 219(f)(1), Internal Revenue Code, and Treasury Regulation Section 1.219-1(c)(1). Idaho compensation is determined pursuant to Rule 270 of these rules.

(3-20-14)
b. Payments to a Keogh retirement plan, simplified employee pension (SEP) Plan, SIMPLE Plan, self-employment tax, and self-employment health insurance. The allowable deduction will be computed by dividing the taxpayer's self-employment income from Idaho sources by the taxpayer's total self-employment income. This percentage is multiplied by the self-employment deductions allowed for federal purposes.

(3-20-14)

04. Other Deductions. Deductions that do not relate to specific items of income or to the earning of qualifying income will be allowed in the proportion that Idaho total income bears to federal total income. The federal net operating loss deduction is not included in either the federal total income or the Idaho total income for this calculation. Such deductions include the following:

(3-25-16)
a. Alimony payments.

(3-29-10)
b. Moving expenses.

(3-29-10)
c. Student loan interest payments.

(3-29-10)
d. Tuition and fees deduction.

(3-29-10)

253. NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- ADDITIONS REQUIRED IN COMPUTING IDAHO ADJUSTED INCOME.
Section 63-3026A(6), Idaho Code. The following items must be added to Idaho adjusted gross income in computing the Idaho adjusted income of nonresident and part-year resident individuals.

01. Interest and Dividends Not Taxable Pursuant to the Internal Revenue Code. (3-20-97)
   a. Part-Year Residents. Interest and dividend income not taxable pursuant to the Internal Revenue Code that was received while residing in or domiciled in Idaho must be added. However, interest received from obligations of the state of Idaho or any political subdivision of Idaho is exempt from Idaho income tax and is not added. (4-7-11)
   b. Nonresidents. Interest and dividend income reportable from a pass-through entity that was transacting business in Idaho must be added to the extent the income was apportioned or allocated as Idaho income. See Rule 263 of these rules for multistate apportionment rules. (4-7-11)

02. Net Operating Loss Deduction. The amount of the net operating loss deduction included in Idaho adjusted gross income must be added. (4-7-11)

03. Capital Loss. Capital losses included in Idaho adjusted gross income must be added if the loss was incurred while not residing in and not domiciled in Idaho, or if the loss relates to an activity not taxable by Idaho at the time the loss was incurred. (4-7-11)

04. Lump Sum Distributions. Part-year residents must add the taxable amount of a lump sum distribution deducted in calculating taxable income received while residing in or domiciled in Idaho. This includes both the ordinary income portion and the amount eligible for the capital gain election. (4-7-11)

05. Idaho Medical Savings Account. An account holder must add the amount of any nonqualified withdrawal from an Idaho medical savings account if the withdrawal was not made for the purpose of paying eligible medical expenses. (4-7-11)

06. Idaho College Savings Program. (4-7-11)
   a. An account owner must add the amount of a nonqualified withdrawal from an Idaho college savings program, less the amount included in the account owner’s Idaho adjusted gross income. The addition is limited to contributions previously exempt from Idaho state income tax and earnings generated from the program as long as the earnings are not already included in federal adjusted gross income. Nonqualified withdrawal is defined in Section 33-5401, Idaho Code. (3-26-19)
   b. As provided in Section 63-3022(p), Idaho Code, an account owner must add the amount of a withdrawal from an Idaho college savings program that is transferred on or after July 1, 2007, to a qualified tuition program operated by a state other than Idaho. For taxable years beginning on or after January 1, 2008, the addback is limited to the total of the amounts contributed to the Idaho college savings program that were deducted on the account owner’s Idaho income tax returns for the year of the transfer and the immediately preceding taxable year. (4-7-11)

07. Special First-Year Depreciation Allowance. As provided by Section 63-3022O, Idaho Code, if a taxpayer claims the special first-year depreciation allowance on property acquired before 2008 or after 2009 pursuant to Section 168(k), Internal Revenue Code, the adjusted basis of that property and the depreciation deduction allowed for Idaho income tax purposes must be computed without regard to the special first-year depreciation allowance. An individual must add the amount of depreciation computed for federal income tax purposes that exceeds the amount of depreciation computed for Idaho income tax purposes. This addition does not apply to depreciation computed on property acquired after 2007 or before 2010. (2-27-12)

08. Certain Expenses of Eligible Educators. As provided in Section 63-3022O, Idaho Code, prior to January 1, 2012, the amount of out-of-pocket classroom expenses deducted pursuant to Section 62, Internal Revenue Code, must be added. (4-4-13)

254. NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- SUBTRACTIONS ALLOWED IN COMPUTING IDAHO ADJUSTED INCOME (RULE 254).
Section 63-3026A(6), Idaho Code. The following items are allowable subtractions in computing the Idaho adjusted income of nonresident and part-year resident individuals.

01. **Idaho Net Operating Loss.** An Idaho net operating loss deduction described in Section 63-3021, Idaho Code, and allowed by Section 63-3022(c), Idaho Code, and Rules 200 through 210 of these rules, may be subtracted to the extent the loss was incurred while the taxpayer was residing in or domiciled in Idaho or to the extent the loss was from activity taking place in Idaho. A net operating loss incurred from an activity not taxable by Idaho may not be subtracted.

02. **State and Local Income Tax Refunds.** State and local income tax refunds included in Idaho total income may be subtracted unless the refunds have already been subtracted pursuant to Section 63-3022(a), Idaho Code.

03. **Income Not Taxable by Idaho.** As provided in Section 63-3022(f), Idaho Code, income that is exempt from Idaho income taxation by a law of the state of Idaho or of the United States may be subtracted if that income is included in Idaho total income and has not been previously subtracted. Income exempt from taxation by Idaho includes the following:

a. Interest income from obligations issued by the United States Government. Gain recognized from the sale of United States Government obligations is not exempt from Idaho tax and, therefore, may not be subtracted from taxable income. For the interest expense offset, see Rule 115 of these rules.

b. Idaho lottery prizes exempt by Section 67-7439, Idaho Code. For prizes awarded on lottery tickets purchased in Idaho after January 1, 1998, a subtraction is allowed for each lottery prize that is less than six hundred dollars ($600). If a prize equals or exceeds six hundred dollars ($600), no subtraction is allowed. The full amount of the prize is included in income.

c. Certain income earned by American Indians. An enrolled member of a federally recognized Indian tribe who lives on his tribe’s federally recognized Indian reservation is not taxable on income derived within that reservation. See Rule 033 of these rules.

d. Certain income earned by transportation employees covered by Title 49, Sections 11502, 14503 or 40116, United States Code. See Rule 045 of these rules.

e. Certain income from loss recoveries. See Rule 195 of these rules.

04. **Military Pay.** Qualified military pay included in Idaho total income earned for military service performed outside Idaho may be subtracted. Qualified military pay means all compensation paid by the United States for services performed while on active duty as a full-time member of the United States Armed Forces which full-time duty is or will be continuous and uninterrupted for one hundred twenty (120) consecutive days or more. A nonresident does not include his military pay in Idaho total income and, therefore, makes no adjustment. See Rule 032 of these rules for information regarding the residency status of members of the United States Armed Forces.

05. **Social Security and Railroad Retirement Benefits.** Social security benefits and benefits paid by the Railroad Retirement Board that are taxable pursuant to the Internal Revenue Code may be subtracted to the extent the benefits are included in Idaho total income. See Subsections 121.04.a. and 121.04.b. of these rules.

06. **Household and Dependent Care Expenses.** The allowable portion of household and dependent care expenses that meets the requirements of Section 63-3022D, Idaho Code, may be subtracted if incurred to enable the taxpayer to be gainfully employed in Idaho. To determine the allowable portion of household and dependent care expenses, a percentage is calculated by dividing Idaho earned income by total earned income. The qualified expenses are multiplied by the percentage. Earned income is defined in Section 32(c)(2), Internal Revenue Code.

07. **Insulation and Alternative Energy Device Expenses.** Expenses related to the installation of insulation or alternative energy devices that meet the requirements of Section 63-3022B or 63-3022C, Idaho Code, may be subtracted.
08. Deduction for Dependents Sixty-Five or Older or with Developmental Disabilities. One thousand dollars ($1,000) may be subtracted for each person who meets the requirements of Section 63-3022E, Idaho Code. The deduction may be claimed for no more than three (3) qualifying dependents. If a dependent has not lived in the maintained household for the entire taxable year, the allowable deduction is eighty-three dollars ($83) for each month the dependent resided in the maintained household during the taxable year. For purposes of this rule, a fraction of a month exceeding fifteen (15) days is treated as a full month. (2-27-12)

09. Adoption Expenses. The allowable portion of adoption expenses that meets the requirements of Section 63-3022I, Idaho Code, may be subtracted. To determine the allowable portion, calculate a percentage is calculated by dividing Idaho total income by total income. The deduction allowable pursuant to Section 63-3022I, Idaho Code, is multiplied by the percentage. (2-27-12)

10. Capital Gains Deduction. The Idaho capital gains deduction allowed by Section 63-3022H, Idaho Code, may be subtracted. (2-27-12)

11. Idaho Medical Savings Account.
   a. The qualifying amount of contributions to an Idaho medical savings account that meets the requirements of Section 63-3022K, Idaho Code, may be subtracted. (2-27-12)
   b. Interest earned on an Idaho medical savings account may be subtracted to the extent included in Idaho total income. (2-27-12)

12. Technological Equipment Donation. As provided by Section 63-3022J, Idaho Code, and Rule 180 of these rules, the lower of cost or fair market value of technological equipment donated to qualifying institutions may be subtracted, limited to the Idaho taxable income of the taxpayer. (3-20-14)

13. Worker’s Compensation Insurance. As allowed by Section 63-3022(m), Idaho Code, a self-employed individual may subtract the premiums paid for worker’s compensation for coverage in Idaho to the extent not previously subtracted in computing Idaho taxable income. (3-30-01)

14. Idaho College Savings Program. The qualifying amount of contributions to a college savings program that meets the requirements of Section 63-3022(n), Idaho Code, may be subtracted. (2-27-12)

15. Retirement Benefits. As provided in Section 63-3022A, Idaho Code, and Rule 130 of these rules, a deduction from taxable income is allowed for certain retirement benefits. To determine the allowable portion of the deduction for certain retirement benefits, a percentage is calculated by dividing the qualified retirement benefits included in Idaho gross income by the qualified retirement benefits included in federal gross income. The deduction allowable pursuant to Section 63-3022A, Idaho Code, and Rule 130 of these rules, is multiplied by the percentage. (2-27-12)

16. Health Insurance Costs. The allowable portion of the amounts paid by the taxpayer during the taxable year for insurance that constitutes medical care as defined in Section 63-3022P, Idaho Code, for the taxpayer, spouse or dependents of the taxpayer not otherwise deducted or accounted for by the taxpayer for Idaho income tax purposes may be subtracted. To determine the allowable portion of the amounts paid for medical care insurance, a percentage is calculated by dividing Idaho total income by total income. The deduction allowable pursuant to Section 63-3022P, Idaho Code, is multiplied by the percentage. See Rule 193 of these rules. (2-27-12)

17. Long-Term Care Insurance. As provided in Section 63-3022Q, Idaho Code, a deduction from taxable income is allowed for the allowable portion of premiums paid during the taxable year for qualifying long-term care insurance for the benefit of the taxpayer, a dependent of the taxpayer or an employee of the taxpayer that have not otherwise been deducted or accounted for by the taxpayer for Idaho income tax purposes. To determine the allowable portion, a percentage is calculated by dividing Idaho total income by total income. The deduction allowable pursuant to Section 63-3022Q, Idaho Code, is multiplied by the percentage. See Rule 193 of these rules. (2-27-12)

18. Special First-Year Depreciation Allowance. As provided by Section 63-3022O, Idaho Code, if a
taxpayer claims the special first-year depreciation allowance on property acquired before 2008 or after 2009 pursuant to Section 168(k), Internal Revenue Code, the adjusted basis of that property and the depreciation deduction allowed for Idaho income tax purposes must be computed without regard to the special first-year depreciation allowance. The adjustments required by this subsection do not apply to property acquired after 2007 or before 2010. (2-27-12)

a. Depreciation. The amount of depreciation computed for Idaho income tax purposes that exceeds the amount of depreciation computed for federal income tax purposes may be subtracted. (2-27-12)

b. Gains and losses. During the recovery period, the adjusted basis of depreciable property computed for federal income tax purposes will be less than the adjusted basis for Idaho income tax purposes as a result of claiming the special first-year depreciation allowance. If a loss qualifies as a capital loss for federal income tax purposes, the federal capital loss limitations and carryback and carryover provisions apply in computing the Idaho capital loss allowed. (2-27-12)

i. If a sale or exchange of property results in a gain for both federal and Idaho income tax purposes, a subtraction is allowed for the difference between the federal and Idaho gains computed prior to any applicable Idaho capital gains deduction. (2-27-12)

ii. If a sale or exchange of property results in a gain for federal income tax purposes and an ordinary loss for Idaho income tax purposes, the federal gain and the Idaho loss must be added together and the total may be subtracted. For example, if a taxpayer has a federal gain of five thousand dollars ($5,000) and an Idaho loss of four thousand dollars ($4,000), the amount subtracted would be nine thousand dollars ($9,000). (2-27-12)

iii. If a sale or exchange of property results in an ordinary loss for both federal and Idaho income tax purposes, the difference between the federal and Idaho losses may be subtracted. For example, if a taxpayer has a federal loss of three hundred dollars ($300) and an Idaho loss of five hundred dollars ($500), the amount subtracted would be two hundred dollars ($200). (2-27-12)

iv. If a sale or exchange of property results in a capital loss for both federal and Idaho income tax purposes, apply the capital loss limitations and subtract the difference between the federal and Idaho deductible capital losses. For example, if a taxpayer has a federal capital loss of six thousand dollars ($6,000) and an Idaho capital loss of eight thousand dollars ($8,000), both the federal and Idaho capital losses are limited to a deductible capital loss of three thousand dollars ($3,000). In this case, no subtraction is required for the year of the sale. In the next year, assume the taxpayer had a capital gain for both federal and Idaho purposes of two thousand dollars ($2,000). The capital loss carryovers added to the capital gain results in a federal deductible capital loss of one thousand dollars ($1,000) and an Idaho deductible capital loss of three thousand dollars ($3,000). The taxpayer would subtract the difference between the federal and Idaho deductible losses or two thousand dollars ($2,000) in computing Idaho taxable income. (3-20-04)

255. NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- PRORATION OF EXEMPTIONS AND DEDUCTIONS (RULE 255).
Section 63-3026A(4), Idaho Code

01. In General. The exemptions and deductions allowable for federal purposes, except for the deduction of state and local income taxes and the deduction for state and local general sales taxes, are allowed in part in computing Idaho taxable income. To determine the portion of exemptions and deductions allowable for part-year and nonresident individuals, the total exemptions and deductions allowed by Section 151, Internal Revenue Code, and Section 63-3022(j), Idaho Code, are multiplied by the calculated proration. (4-7-11)

02. Proration. For taxable years beginning in or after 2007, the proration is calculated by dividing Idaho adjusted income by total adjusted income. Calculate four (4) digits to the right of the decimal point. If the fifth digit is five (5) or greater, the fourth digit is rounded to the next higher number ($10,000 / $15,000 = .66666 = .6667 = 66.67%). If the fifth digit is less than five (5), the fourth digit remains unchanged and any digits remaining to its right are dropped ($10,000 / $30,000 = .33333 = .3333 = 33.33%). The percentage may not exceed one hundred percent (100%), nor be less than zero (0). (4-2-08)

a. Idaho adjusted income means the Idaho taxable income of the taxpayer as computed pursuant to Title 63, Chapter 30, Idaho Code, except for any adjustments for the standard deduction or itemized deductions and
personal exemptions. Total adjusted income means the Idaho taxable income of the taxpayer computed as if he were a resident of Idaho for the entire taxable year, except no adjustments are made for the standard deduction, itemized deductions, personal exemptions, the deduction for active military service pay as provided in Section 63-3022(h), Idaho Code, and any deduction for income earned within a federally recognized Indian reservation. (3-30-01)

b. Generally, both Idaho adjusted income and total adjusted income are positive amounts. If Idaho adjusted income is less than or equal to the total adjusted income, the percentage is between zero (0) and one hundred percent (100%). If Idaho adjusted income is greater than the total adjusted income, the percentage is one hundred percent (100%). If Idaho adjusted income is a positive amount and total adjusted income is a negative amount, the percentage is one hundred percent (100%). If Idaho adjusted income is a negative amount and total adjusted income is a positive amount, the percentage is zero (0). (4-7-11)

03. Standard Deduction for Married Filing Joint Returns. The proration percentage is applied after making the following calculations for taxable years beginning on or after January 1, 2000. The standard deduction allowed on a married filing joint return is equal to two (2) times the basic standard deduction for a single individual. Add to this amount any additional standard deduction for the aged or blind allowed for federal income tax purposes. (4-7-11)

256. -- 259. (RESERVED)

260. INCOME FROM IDAHO SOURCES (RULE 260).
Section 63-3026A(3), Idaho Code. Income from Idaho sources is the gross income, or portion thereof, that is derived from a business, trade, profession, or occupation carried on within Idaho or from any property, trust, estate, or any other source with a situs in Idaho. Income of a nonresident that is derived from property located both within and without Idaho during the taxable year, or from business transactions that occur both within and without Idaho during the taxable year, is attributed to Idaho based on the principles set forth in Rules 261 through 275 of these rules. (4-7-11)

261. INCOME FROM ESTATES AND TRUSTS (RULE 261).
Section 63-3026A(3), Idaho Code. Income, gain, loss, or deduction of an estate or trust distributed to a nonresident beneficiary is income derived from or related to sources within Idaho if the income, gain, loss or deduction would be Idaho source income pursuant to Section 63-3026A, Idaho Code, if received directly by a nonresident individual. (3-20-97)

262. (RESERVED)

263. IDAHO SOURCE INCOME OF NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- DISTRIBUTIVE SHARE OF S CORPORATION AND PARTNERSHIP INCOME (RULE 263).
Section 63-3026A(3), Idaho Code

01. In General. The taxable amount of a shareholder’s pro rata share or a partner’s distributive share of business income, gains, losses, and other pass-through items from an S corporation or partnership operating both within and without Idaho is determined by multiplying each pass-through item by the Idaho apportionment factor of the business. The Idaho apportionment factor is determined pursuant to Section 63-3027, Idaho Code, and related rules. (3-20-97)

02. Nonbusiness Income. Pass-through items of identifiable nonbusiness income, gains, or losses of an S corporation or partnership constitute Idaho source income to the shareholder or partner if allocable to Idaho pursuant to the principles set forth in Section 63-3027, Idaho Code. (3-20-97)

03. Pass-Through Items. Whether a pass-through item of income or loss is business or nonbusiness income is determined at the pass-through entity level. Pass-through items of business income or loss may include:

a. Ordinary income or loss from trade or business activities; (3-20-97)

b. Net income or loss from rental real estate activities; (3-20-97)
c. Net income or loss from other rental activities; (3-20-97)
d. Interest income; (3-20-97)
e. Dividends; (3-20-97)
f. Royalties; (3-20-97)
g. Capital gain or loss; (3-20-97)
h. Other portfolio income or loss; (3-20-97)
i. Gain or loss recognized pursuant to Section 1231, Internal Revenue Code. (3-20-97)

04. Guaranteed Payments Treated As Compensation. (3-20-14)

a. Guaranteed payments to an individual partner up to the amount shown in paragraph 263.04.b. in any calendar year is sourced as compensation for services. If a nonresident partner performs services on behalf of the partnership within and without Idaho, the amount included in Idaho compensation is determined as provided in Rule 270 of these rules. (3-20-14)

b. The amount of guaranteed payments that are sourced as compensation for services is as follows:

<table>

(3-26-19)

264. INCOME FROM REAL AND TANGIBLE PERSONAL PROPERTY (RULE 264).
Section 63-3026A(3), Idaho Code

01. In General. Rents, royalties, profits, gains, losses and other items of income from the ownership or disposition of real or tangible personal property located in Idaho is Idaho source income. (3-20-97)

02. Property Located Within and Without Idaho. (3-20-97)

a. If the property is located or used within and without Idaho, specific allocation of the income, gain, or loss is appropriate if the gross receipts and related deductions and expenses are readily identifiable from the location or use of the property in Idaho. (3-20-97)

b. To the extent income derived from real property located both within and without Idaho cannot be specifically allocated, the rents, profits, gains, losses or other items of income that constitute Idaho source income are determined by multiplying each item of income by a fraction. The numerator of the fraction is the average value of the property located in Idaho and the denominator is the average value of the property located both within and without Idaho. The value of real property is determined by the original cost of the land and improvements. The average value is determined by averaging the values at the beginning and end of the taxable year. However, the Tax Commission may require the averaging of monthly values during the taxable year if required to properly reflect the average value of the taxpayer’s property. (3-20-97)
c. To the extent income derived from tangible personal property used both within and without Idaho cannot be readily allocated, the rents, royalties, gains, losses, and other items of income that constitute Idaho source income are determined by multiplying each item of income by a fraction. The numerator of the fraction is the total number of days the property was used in Idaho during the taxable year, and the denominator is the total number of days the property was used both within and without Idaho during the taxable year. (3-20-97)

03. Alternative Method. If either fraction in Subsection 264.02 does not fairly represent the income derived from the property’s use in Idaho, the taxpayer may propose or the Tax Commission may require an alternative method. For example, acres may be a more appropriate measure than average value in some cases. (3-30-01)

a. The taxpayer shall fully explain the alternative method in a statement attached to his Idaho individual income tax return. (3-20-97)

b. The method proposed by the taxpayer may be used in lieu of the method in Subsection 264.02 unless the Tax Commission expressly denies its use. (3-20-97)

265. SOLE PROPRIETORSHIPS OPERATING WITHIN AND WITHOUT IDAHO (RULE 265).
Section 63-3026A(3), Idaho Code

01. In General. A sole proprietorship that operates within and without Idaho shall apply the principles of allocation and apportionment of income set forth in Section 63-3027, Idaho Code, and related rules to determine the extent of proprietorship income that is derived from or related to Idaho sources. The use of a combined report, however, is available only to C corporations. (3-20-97)

02. Application of Rule. This rule also applies to farming activities operated as a sole proprietorship. (3-20-97)

03. Alternative Method. If the method described in Subsection 265.01 does not fairly represent the extent of the business activity in Idaho, the taxpayer may propose or the Tax Commission may require an alternative method. (3-30-01)

a. The taxpayer shall fully explain the alternative method in a statement attached to his Idaho individual income tax return. (7-1-99)

b. The method proposed by the taxpayer may be used in lieu of the method in Subsection 265.01 unless the Tax Commission expressly denies its use. (7-1-99)

266. IDAHO SOURCE INCOME OF NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- INCOME FROM INTANGIBLE PROPERTY (RULE 266).
Section 63-3026A(3), Idaho Code

01. In General. Gross income from intangible property generally is sourced to the state of the owner’s domicile. The following are exceptions to this rule. (4-11-06)

a. If the intangible property is employed in the owner’s trade, business or profession carried on within Idaho, any income derived from or related to the property, including gains from the sale thereof, constitutes income from Idaho sources. For example, if a nonresident pledges stocks, bonds or other intangible personal property as security for the payment of indebtedness incurred in connection with the nonresident’s Idaho business operations, the intangible property has an Idaho situs and the income derived therefrom constitutes Idaho source income. (7-1-99)

b. Interest income from the sale of real or tangible personal property on the installment method is treated as income from the sale of the underlying property and is therefore sourced to Idaho if the underlying property was located in Idaho when sold. (7-1-99)

c. Interest income paid by an S corporation to a shareholder or by a partnership to a partner is sourced
to Idaho in proportion to the Idaho apportionment factor of the partnership or S corporation. (7-1-99)

d. Gains or losses from the sale or other disposition of a partnership interest or stock in an S corporation are sourced to Idaho by using the Idaho apportionment factor for the entity for the taxable year immediately preceding the year of the sale of the interest or stock. However, a gain or loss from the sale of an interest in a publicly traded partnership transacting business in Idaho is Idaho source income to the extent of the gain or loss determined under Section 751, Internal Revenue Code, multiplied by the Idaho apportionment factor of the partnership for the year in which the sale occurred. (2-27-12)

02. Interest Income Earned on a Bank Account. (7-1-99)

a. Personal Bank Accounts. Interest income earned on a personal bank account is sourced to the owner’s state of domicile. A personal bank account is an account that is not used in connection with a business. (7-1-99)

b. Business Bank Accounts. If the business is a sole proprietorship, see Rule 265 of these rules. If the business is an S corporation or partnership, see Rule 263 of these rules. (7-1-99)

03. Payment of Penalties. Payment of penalties is sourced to Idaho the same as interest income. This includes penalties arising from the prepayment or late payment of an installment contract. If the installment contract is for the sale of Idaho property, any penalty paid is Idaho source income. (2-27-12)

04. Covenant Not to Compete. Income from a covenant not to compete is sourced to Idaho based on the Idaho apportionment factor of the entity sold for the taxable year immediately preceding the year of the sale. (2-27-12)

05. Goodwill. Gain or loss from the sale of goodwill from a business transacting business in Idaho is sourced to Idaho based on the Idaho apportionment factor of the business sold for the taxable year immediately preceding the year of the sale. (2-27-12)

06. Timing of Sourcing Determination for Intangible Personal Property. The source of gains and losses from the sale or other disposition of intangible personal property is determined at the time of the sale or disposition of the property. For example, if an Idaho resident sells intangible personal property under the installment method, and subsequently becomes a nonresident, gain attributable to any installment payment receipts relating to that sale will be sourced to Idaho even though the individual is a nonresident when a payment is received. If the intangible personal property was employed in the owner’s business, trade, profession or occupation conducted or carried on in Idaho as described in Paragraph 266.01.a., of this rule, at the time of the sale, any subsequent installment payments is Idaho source income. (2-27-12)

267. IDAHO SOURCE INCOME OF NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- PASSIVE ACTIVITY LOSSES (RULE 267). Section 63-3026A(6), Idaho Code

01. In General. Losses from a passive activity incurred while an individual is a nonresident are included in Idaho taxable income only to the extent the losses were from Idaho activity. (2-27-12)

02. Idaho Activity. An activity is an Idaho activity only to the extent the income from that activity would be included in the Idaho taxable income of a nonresident pursuant to Section 63-3026A, Idaho Code. If a passive activity is engaged in both within and without Idaho, the principles of allocation and apportionment of income set forth in Section 63-3027, Idaho Code, and related rules must be applied to determine the extent of Idaho activity. (2-27-12)

03. Prior Year Losses. Suspended passive activity losses from prior years included in federal taxable income for the current year are included in Idaho taxable income only to the extent the losses were from Idaho activity. (2-27-12)

04. Current Year Losses. Non-Idaho passive activity losses incurred in the current taxable year are
included in Idaho taxable income only to the extent the losses were incurred while the individual was an Idaho
resident. The portion of the losses incurred while an Idaho resident is determined by prorating the losses based on
the proportion of the year the individual resided in Idaho.

(2-27-12)

268. IDAHO SOURCE INCOME OF NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS --
SUSPENDED LOSSES FROM PASS-THROUGH ENTITIES (RULE 268).
Section 63-3026A, Idaho Code

01. In General. A nonresident individual’s suspended losses from a pass-through entity are included in
Idaho taxable income in the year included in federal taxable income only to the extent the losses were from an Idaho
source in the year incurred.

(4-11-15)

a. Suspended Loss. For purposes of this rule, a suspended loss is a loss required to be carried over to a
succeeding taxable year due to Section 465(a), Section 704(d), or Section 1366(d) of the Internal Revenue Code.

(4-11-15)

b. Idaho Source. A suspended loss is from an Idaho source in the year incurred to the extent provided
by Section 63-3026A, Idaho Code, and related rules. For purposes of this rule, the Idaho source portion of a
suspended business loss subject to apportionment is determined by multiplying the loss by the Idaho apportionment
factor of the pass-through entity in the year the loss was incurred. The Idaho apportionment factor is determined
pursuant to Section 63-3027, Idaho Code, and related rules.

(4-11-15)

c. Nonbusiness Losses. A suspended nonbusiness loss is from an Idaho source in the year incurred to
the extent the loss is allocable to Idaho pursuant to Section 63-3027, Idaho Code and Rule 263.02 of these rules.

(4-11-15)

d. Year Loss Incurred. For purposes of this rule, “year incurred” means the tax year the loss was first
suspended.

(4-11-15)

e. Example. A nonresident individual’s federal taxable income includes one hundred thousand dollars
($100,000) of loss from a partnership. Sixty thousand dollars ($60,000) of that loss was incurred in the prior tax year
and suspended due to the basis limitation of Section 704(d) of the Internal Revenue Code. Forty thousand dollars
($40,000) of that loss was incurred in the current tax year. The Idaho apportionment factor of the partnership is one
hundred percent (100%) in the current year and fifty percent (50%) in the prior year. The individual’s Idaho taxable
income includes seventy thousand dollars ($70,000) of the partnership’s loss, computed as follows: ($60,000 prior
year suspended loss x fifty percent (50%) prior year Idaho apportionment factor plus (Forty thousand dollars
($40,000) current year loss x one hundred percent (100%) current year Idaho apportionment factor).

(4-11-15)

02. Losses from Multiple Years. For purposes of this rule, losses from a pass-through entity are
considered used in the order incurred.

(4-11-15)

a. Example. A nonresident individual has suspended losses from a partnership of one hundred
thousand dollars ($100,000). The suspended losses consist of forty thousand dollars ($40,000) of loss incurred in
Year 1 and sixty thousand dollars ($60,000) of loss incurred in Year 2. The individual also has a loss from the
partnership in the current year of fifty thousand dollars ($50,000). The partnership’s Idaho apportionment factor is
one hundred percent (100%) in the current year and fifty percent (50%) in each of the preceding years. Due to the loss
limitation of Section 704(d) of the Internal Revenue Code, the individual’s current year deduction is limited to one
hundred thousand dollars ($100,000). The one hundred thousand dollar ($100,000) loss allowed in computing federal
taxable income is considered to be forty thousand dollars ($40,000) of suspended loss from Year 1 and sixty thousand
dollars ($60,000) of suspended loss from Year 2. The amount included in Idaho taxable income is fifty thousand
dollars ($50,000), computed as follows: ($40,000 Year 1 loss x 50% Idaho apportionment factor) plus ($60,000 Year
2 loss x 50% Idaho apportionment factor).

(4-11-15)

269. (RESERVED)

270. IDAHO SOURCE INCOME OF NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS --
IDAHO COMPENSATION -- IN GENERAL (RULE 270).
Section 63-3026A(3), Idaho Code

01. In General. If a nonresident individual performs personal services, either as an employee, agent, independent contractor, partner, or otherwise, both within and without Idaho, the portion of his total compensation that constitutes Idaho source income is determined by multiplying that total compensation by the Idaho compensation percentage. (3-20-14)

02. Definitions. (3-20-97)

a. The Idaho compensation percentage is the percentage computed by dividing Idaho work days by total work days. (3-20-97)

b. The term Idaho work days means the total number of days the taxpayer provided personal services in Idaho for a particular employer or principal during the calendar year. If personal services were provided both within and without Idaho on the same day, that day is an Idaho work day unless the taxpayer establishes that less than fifty percent (50%) of the services were performed within Idaho that day. If an employee works in Idaho part of the day on a regular full-time basis, working hours must be used to determine the amount of Idaho compensation. (2-27-12)

c. Total work days means the total number of days the taxpayer provided personal services for that employer or principal both within and without Idaho during the calendar year. For example, a taxpayer working a five (5) day work week may assume total work days of two hundred sixty (260) less any vacation, holidays, sick leave days and other days off. (3-20-97)

d. Total compensation means all salary, wages, commissions, contract payments, and other compensation for services, including sick leave pay, holiday pay and vacation pay, that is taxable pursuant to the Internal Revenue Code. (2-27-12)

03. Work Days. Work days include only those days the taxpayer actually performs personal services for the benefit of the employer or principal. Vacation days, sick leave days, holidays, and other days off from work are considered nonwork days whether compensated or not. Total work days must equal Idaho work days plus non-Idaho work days. The taxpayer has the burden of establishing non-Idaho work days. Documentation establishing non-Idaho work days may be required to support the Idaho compensation percentage used by the taxpayer. (3-20-97)

04. Multiple Employers. If a taxpayer performs personal services both within and without Idaho for more than one (1) employer or principal, he must determine an Idaho compensation percentage separately for each employer or principal. (2-27-12)

05. Alternative Method. If the Idaho compensation percentage does not fairly represent the extent of the taxpayer's personal service activities in Idaho, the taxpayer may propose or the Tax Commission may require an alternative method. For example, working hours may be a more appropriate measure than work days in some cases. (3-30-01)

a. The taxpayer must fully explain the alternative method in a statement attached to his Idaho individual income tax return. (2-27-12)

b. The alternative method may be used in lieu of the method in Subsection 270.01 unless the Tax Commission expressly denies its use. (4-5-00)

271. IDAHO COMPENSATION: STOCK OPTIONS (RULE 271). Section 63-3026A(3), Idaho Code

01. In General. The granting of stock options is considered to be compensation for services. Although considered as compensation, in some circumstances the taxpayer may report the compensation on his federal income tax return as capital gain income. The character of the income from the granting of stock options and the timing of reporting it for federal income tax purposes shall apply in computing Idaho taxable income. (4-5-00)
02. **Definitions.** For purposes of this rule: (4-5-00)
   a. Work days, Idaho work days, and total work days are defined in Rule 270 of these rules. (4-5-00)
   b. Compensable period shall mean the period that begins at the date the stock option is granted and ends at the earlier of the date the stock option becomes vested or the date the employee’s services terminate. (4-5-00)
   c. Statutory stock options are options governed by specific Internal Revenue Code sections that impose restrictions on both the employer and the employee. Statutory stock options include incentive stock options as provided in Section 422, Internal Revenue Code, and options issued pursuant to employee stock purchase plans as provided in Section 423, Internal Revenue Code. (3-30-01)
   d. Nonstatutory stock options are options that do not meet the Internal Revenue Code requirements to qualify as statutory stock options or are granted pursuant to a plan or offering that does not qualify. (4-5-00)

03. **Compensation for Future Services.** The granting of stock options shall be presumed to be intended as compensation for future services. The party alleging otherwise shall bear the burden of proving that the stock options were intended for services rendered before the date of grant. (4-5-00)

04. **Statutory Stock Options.** (4-5-00)
   a. Compensation. Compensation is realized at the date the option is exercised, but not taxable until the income or gain is recognized for federal income tax purposes. If a taxpayer reports a capital gain for federal income tax purposes from statutory stock options, the amount of Idaho source compensation shall also be reported as capital gain income for Idaho income tax purposes. Idaho source compensation shall be determined as follows: (4-5-00)
      i. Compensation is equal to the portion of the gain that equals the difference between the option price and the fair market value of the stock at the date the option was exercised. Compensation shall be limited to the gain actually recognized if the stock is sold for less than its fair market value at the time the option was exercised. No compensation shall be reported if the stock is sold at a loss. (4-5-00)
      ii. Compensation for services performed in Idaho shall equal the compensation determined in Subsection 271.04.a.i., multiplied by the ratio of Idaho work days to total work days during the compensable period. (4-5-00)
   b. Investment Income. Appreciation in the value of the stock after the date the option was exercised shall be reported as investment income and sourced to the taxpayer’s domicile at the date the stock was sold. (4-5-00)

05. **Nonstatutory Stock Options.** (4-5-00)
   a. Compensation. Compensation is recognized at the date the stock option is exercised. The amount of Idaho source compensation related to the stock option is determined as follows: (4-5-00)
      i. Compensation for federal income tax purposes is equal to the difference between the option price and the fair market value of the stock at the date the option was exercised. (4-5-00)
      ii. Compensation for services performed in Idaho shall equal the compensation determined in Subsection 271.05.a.i., multiplied by the ratio of Idaho work days to total work days during the compensable period. (4-5-00)
   b. Investment Income. Appreciation or depreciation in the value of the stock after the date the option was exercised shall be reported as investment income and sourced to the taxpayer’s domicile at the date the stock was sold. (4-5-00)

272. **IDAHO COMPENSATION: SEVERANCE PAY (RULE 272).**
Section 63-3026A(3), Idaho Code
01. **In General.** In accordance with federal Treasury Regulation Section 1.61-2, termination or severance pay is treated as compensation for services. The amount of termination or severance pay received by a nonresident that is subject to Idaho income tax is determined pursuant to this rule. (3-15-02)

02. **Definitions.** For purposes of this rule work days, Idaho work days and total work days are defined in Rule 270 of these rules. (3-15-02)

03. **Calculation of Idaho Source Severance Pay.** The amount of severance pay that is Idaho source income shall be equal to the severance pay received during the taxable year multiplied by the ratio of Idaho work days to total work days during either of the following: (3-15-02)

   a. The employee's entire period of employment with such employer; or (3-15-02)

   b. The employee's last twelve (12) months of employment with such employer. (3-15-02)

04. **Alternative Method.** If the Idaho compensation percentage computed in Subsection 272.03 does not fairly represent the extent of the taxpayer's personal service activities in Idaho, the taxpayer may propose or the Tax Commission may require an alternative method. For example, working hours may be a more appropriate measure than work days in some cases. (3-15-02)

   a. The taxpayer shall fully explain the alternative method in a statement attached to his Idaho individual income tax return. (3-15-02)

   b. The alternative method may be used in lieu of the method in Subsection 272.03 unless the Tax Commission expressly denies its use. (3-15-02)

273. **IDAHO COMPENSATION: UNEMPLOYMENT COMPENSATION (RULE 273).**
Section 63-3026A(3), Idaho Code. Unemployment compensation benefits are Idaho source income if the benefits are received by the taxpayer from the state of Idaho, even though the benefits may relate to wages earned in Idaho and another state. Unemployment compensation benefits received from another state shall not constitute Idaho source income even though the calculation of the benefits may be based in part on wages earned in Idaho. (3-29-10)

274. **(RESERVED)**

275. **IDAHO SOURCE INCOME OF NONRESIDENT AND PART-YEAR RESIDENT INDIVIDUALS -- INVESTMENT INCOME FROM QUALIFIED INVESTMENT PARTNERSHIPS (RULE 275).**
Section 63-3026A(3)(c), Idaho Code

01. **In General.** (4-11-06)

   a. For taxable years beginning on or after January 1, 2007, the Idaho taxable income of a nonresident individual does not include the distributive share of investment income of a qualified investment partnership. The distributive share of noninvestment income of a qualified investment partnership derived from or related to sources within Idaho is included in Idaho taxable income. See Rule 250 of these rules for information on when pass-through income from a partnership is deemed to have been received. (2-27-12)

   b. The exemption from tax on investment income from a qualified investment partnership does not apply to gains or losses derived from the sale of a nonresident individual’s interest in a qualified investment partnership. The source of these gains and losses is governed by Section 63-3026A(3)(a)(vii), Idaho Code, and Rule 266 of these rules. The source of investment income that is not from a qualified investment partnership is determined as provided in Rule 263 of these rules. (2-27-12)

02. **Qualified Investment Partnership.** An entity is a qualified investment partnership only if it meets both of the following criteria: (2-27-12)

   a. The entity is classified as a partnership for federal income tax purposes, but is not a publicly traded partnership taxed as a corporation under Section 63-3006, Idaho Code. (4-2-08)
b. The gross income from investments of the entity is derived at least ninety percent (90%) from investments that when held by a nonresident individual directly, would not produce income subject to the Idaho income tax. See Rules 263 and 266 of these rules. (2-27-12)

03. **Investment Income**. For purposes of this exclusion, an item of partnership income is investment income only if it would not be Idaho taxable income of a nonresident individual if the individual held the investment directly. (2-27-12)

04. **Examples**. (2-27-12)

a. A is a nonresident individual member of ABC, a partnership operating solely within Idaho. The taxable income of ABC for the taxable year consists of ninety thousand dollars ($90,000) of dividend income and ten thousand dollars ($10,000) of capital gains from stock trading through a brokerage account. If A held the stock directly, Section 63-3026A(3)(a)(iii), Idaho Code, provides that the dividends and capital gains would not be included in Idaho taxable income. Since at least ninety percent (90%) of ABC’s income is from investments that would not be taxable to a nonresident individual if held directly by that individual, ABC is a qualified investment partnership and none of A’s distributive share of the income is included in Idaho taxable income even though ABC is an Idaho partnership. (2-27-12)

b. Assume the same facts as in Paragraph 275.04.a. of this rule, except that the ten thousand dollars ($10,000) of capital gains is from the sale of Idaho real property. Since at least ninety percent (90%) of ABC’s income is from investments that would not be taxable to a nonresident individual if held directly by that individual, ABC is a qualified investment partnership. A’s distributive share of ABC’s dividend income is excluded from A’s Idaho taxable income, but A’s distributive share of ABC’s gain from the sale of Idaho real property is included in Idaho taxable income because Section 63-3026A(3), Idaho Code, provides that such income would be taxable to A if A had owned the property directly. (2-27-12)

c. A is a nonresident individual member of ABC, a partnership operating solely within Idaho. The taxable income of ABC for the taxable year consists of eighty thousand dollars ($80,000) of dividend income and twenty thousand dollars ($20,000) of capital gains from the sale of Idaho real property. ABC is not a qualified investment partnership because less than ninety percent (90%) of ABC’s income is from investments that would not be taxable to a nonresident individual if held directly by that individual. A’s distributive share of ABC’s dividend income and capital gain income is included in Idaho taxable income as provided in Rule 263 of these rules. (2-27-12)

d. A is a nonresident individual partner in ABC, a partnership with a fifty percent (50%) Idaho apportionment factor. The gross income of ABC consists of ninety thousand dollars ($90,000) of dividend income, five thousand dollars ($5,000) of capital gain from the sale of non-Idaho real property used in the trade or business, and five thousand dollars ($5,000) of gross business income. Since at least ninety percent (90%) of ABC’s gross income is from investments that would not be taxable to a nonresident individual if held directly by that individual, ABC is a qualified investment partnership. A’s distributive share of ABC’s dividend income is excluded from A’s Idaho taxable income, but fifty percent (50%) of A’s distributive share of ABC’s gain from the sale of non-Idaho real property (which is business income under the facts of this example) and fifty percent (50%) of A’s distributive share of ABC’s other business income is included in Idaho taxable income, based on the Idaho apportionment factor of the partnership as provided in Section 63-3026A(3)(a)(i) and Rule 263 of these rules. (4-11-15)

276. -- 279. (RESERVED)

280. **PARTNERSHIPS OPERATING WITHIN AND WITHOUT IDAHO (RULE 280).** Sections 63-3026A(3), 63-3027 and 63-3030(a)(9), Idaho Code

01. **In General.** A partnership that operates within and without Idaho must apply the principles of allocation and apportionment of income set forth in Section 63-3027, Idaho Code, and related rules to determine the extent of partnership income that is derived from or related to Idaho sources. The use of a combined report, however, is available only to C corporations. (4-5-00)

02. **Exceptions to Apportionment Formula.** If the method described in Subsection 280.01 does not
fairly represent the extent of the business activity in Idaho, the partnership may file a request to use, or the Tax Commission may require, an alternative method, including the following:

(3-30-07)

a. Separate accounting as provided in Rule 585 of these rules;

b. The exclusion of a factor pursuant to Rule 590 of these rules;

c. An additional factor or substitute factor pursuant to Rule 595 of these rules; or

d. The employment of any other method that would fairly represent the extent of business activity in Idaho.

As of March 30, 2007

03. Information Provided to Partners. The partnership must provide to each partner information necessary for the partner to compute his Idaho income tax. Such information must include:

(4-5-00)

a. The partner’s share of each pass-through item of income and deduction;

b. The partner’s share of each Idaho addition and subtraction;

c. The partner’s share of Idaho qualifying contributions, Idaho tax credits, and tax credit recapture;

d. The partner’s share of income allocated to Idaho;

e. The partnership’s apportionment factor, and if the partner is not an individual, the partnership’s property, payroll and sales factor numerator and denominator amounts, including the amount of capitalized rent expense; and

f. The partner’s distributive share of partnership gross income if the partner is an individual, trust, or estate.

(4-7-11)

281. -- 284. (RESERVED)

Sections 63-3025 and 63-3025A, Idaho Code

01. Tax on S Corporations. An S corporation that is transacting business in Idaho or authorized to transact business in Idaho is subject to the tax imposed by Section 63-3025, Idaho Code, if not paying the tax imposed by Section 63-3025A, Idaho Code. The tax imposed by Section 63-3025 or 63-3025A, Idaho Code, shall be computed on the total of the net recognized built-in gains and the excess net passive income of the S corporation attributable to Idaho for the taxable year.

(4-2-08)

a. Net recognized built-in gains shall be determined pursuant to Section 1374, Internal Revenue Code, including any applicable limitations.

(4-2-08)

b. Excess net passive income shall be determined pursuant to Section 1375, Internal Revenue Code, including any applicable limitations.

(4-2-08)

c. If the tax computed in Subsection 285.01 of this rule is less than the minimum tax, the S corporation shall pay the minimum tax.

(4-2-08)

02. Minimum Tax. The minimum tax is required of every S corporation that is required to file a return. A name-holder or inactive S corporation that is authorized to do business in Idaho shall pay the minimum tax of twenty dollars ($20) even though the S corporation did not conduct Idaho business activity during the taxable year. A nonproductive mining corporation generally is not required to pay the minimum tax. See Subsection 285.03 of this rule.

(4-2-08)
03. **Nonproductive Mining Corporations.** A nonproductive mining corporation is a corporation that does not own any producing mines and does not engage in any business other than mining. An S corporation that qualifies as a nonproductive mining corporation is required to file and pay tax if it receives any other income. (4-2-08)

04. **Application of Credits.** If an S corporation was previously a C corporation with an Idaho income tax credit carryover at the time of the S corporation election, the S corporation may use any available credit carryover against the tax on the excess net passive income or net recognized built-in gains if the carryover period related to the Idaho income tax credit has not expired before the taxable year in which the tax must be reported. (4-2-08)

05. **Tax Resulting From the Requirements of Section 63-3022L, Idaho Code.** An S corporation shall be subject to tax at the corporate rate on the income required to be reported for qualifying shareholders under Section 63-3022L, Idaho Code. This tax shall be in addition to any tax the S corporation owes under Section 63-3025 or 63-3025A, Idaho Code. See Rule 291 of these rules for additional information. (4-4-13)

06. **Qualified Subchapter S Subsidiary.** A corporation that is a qualified subchapter S subsidiary (QSSS) shall be treated for Idaho income tax purposes the same as treated for federal income tax purposes. The QSSS will not be treated as a separate corporation, but all the assets, liabilities, and items of income, deduction, and credit of a QSSS shall be treated as assets, liabilities and such items of the S corporation. Since the QSSS is not treated as a separate taxpayer, it is not subject to the minimum tax. (4-2-08)

286. **S CORPORATIONS OPERATING WITHIN AND WITHOUT IDAHO (RULE 286).** Sections 63-3027 and 63-3030(a)(4), Idaho Code

01. **In General.** An S corporation that operates within and without Idaho must apply the principles of allocation and apportionment of income set forth in Section 63-3027, Idaho Code, and related rules to determine the extent of S corporation income that is derived from or related to Idaho sources. The use of a combined report, however, is available only to C corporations. (4-2-08)

02. **Exceptions to Apportionment Formula.** If the method described in Subsection 286.01 of this rule does not fairly represent the extent of the business activity in Idaho, the S corporation may file a request to use or the Tax Commission may require an alternative method, including the following: (4-2-08)

   a. Separate accounting as provided in Rule 585 of these rules; (4-2-08)
   b. The exclusion of a factor pursuant to Rule 590 of these rules; (4-2-08)
   c. An additional factor or substitute factor pursuant to Rule 595 of these rules; or (4-2-08)
   d. The employment of any other method that would fairly represent the extent of business activity in Idaho. (4-2-08)

03. **Information Provided to Shareholders.** An S corporation must provide to each shareholder information necessary for the shareholder to compute his Idaho income tax. Such information must include: (4-2-08)

   a. The shareholder’s share of each pass-through item of income and deduction; (4-7-11)
   b. The shareholder’s share of each Idaho addition and subtraction; (4-7-11)
   c. The shareholder’s share of Idaho qualifying contributions, Idaho tax credits, and tax credit recapture; (4-7-11)
   d. The shareholder’s share of income allocated to Idaho; (4-7-11)
   e. The S corporation’s apportionment factor; and (4-7-11)
   f. The shareholder’s distributive share of S corporation gross income. (4-7-11)
04. **Protection Under Public Law 86-272.** An S corporation whose Idaho business activities fall under the protection of Public Law 86-272 is exempt from the taxes imposed by Sections 63-3025 and 63-3025A, Idaho Code, including the minimum tax. (4-2-08)

05. **Qualified Subchapter S Subsidiary.** A corporation that is a qualified subchapter S subsidiary (QSSS) must include its apportionment attributes with its parent’s apportionment attributes to compute one Idaho apportionment factor for the S corporation. If the S corporation and its qualified subchapter S subsidiaries are carrying on more than one unitary business, each unitary business must allocate and apportion its income pursuant to Rule 340.03. (4-4-13)

287. -- 290. (RESERVED)

291. **TAX PAID BY PASS-THROUGH ENTITIES FOR OWNERS OR BENEFICIARIES -- COMPUTATION OF IDAHO TAXABLE INCOME FOR TAXABLE YEARS BEGINNING ON OR AFTER JANUARY 1, 2014 (RULE 291).**

Sections 63-3022L and 63-3026A, Idaho Code

01. **In General.** A pass-through entity is responsible for reporting and paying the tax for nonresident individuals or withholding tax on the individual’s share of income from the pass-through entity required to be included in Idaho taxable income as prescribed in Section 63-3036B, Idaho Code. For purposes of this rule, pass-through entity means “pass-through entity” as defined in Section 63-3006C, Idaho Code. (4-4-13)

02. **Income Reportable to Idaho.** The following items must be included in the computation of Idaho taxable income for an individual:

   a. Pass-through items that are income from Idaho sources of an owner as determined pursuant to Rule 263 of these rules. (4-7-11)

   b. Distributable net income from an estate or trust that is income from Idaho sources as determined pursuant to Rule 261 of these rules. (4-7-11)

03. **Deductions.** Pass-through entities paying the tax under Section 63-3022L, Idaho Code, are not entitled to claim the following deductions on behalf of an individual:

   a. Capital Loss. As provided in Section 63-3022(i), Idaho Code, S corporations and partnerships are not allowed to carry over or carry back any capital loss provided for in Section 1212, Internal Revenue Code. (3-30-07)

   b. Net Operating Loss. As provided in Section 63-3022(i), Idaho Code, S corporations and partnerships are not allowed to carry over or carry back any net operating loss provided for in Section 63-3022(c), Idaho Code. (3-30-07)

   c. Idaho Capital Gains Deduction. As provided in Section 63-3022H, Idaho Code, the Idaho capital gains deduction may only be claimed by individual taxpayers on an individual income tax return. (4-7-11)

   d. Informational Items. Amounts provided to owners of pass-through entities and beneficiaries of trusts and estates on the federal Schedule K-1 that are informational only may not be used as a deduction in computing the taxable income reportable under Section 63-3022L, Idaho Code. Informational items include the domestic production activities information and net earnings from self-employment. (4-7-11)

   e. Items Not Deductible Under the Internal Revenue Code. A deduction is not allowed for items disallowed under the Internal Revenue Code. For example, a deduction is not allowed for items disallowed as a deduction in Sections 162(c) and 262 through 280E, Internal Revenue Code, unless specifically allowed by Idaho law. Items allowed by Idaho law include expenses related to tax-exempt income under Section 265, Internal Revenue Code, which are allowed to be deducted as a result of Section 63-3022M, Idaho Code. (4-7-11)
f. Items Not Reported as a Pass-Through Deduction. Amounts not reported from the pass-through entity to the pass-through owner are not allowed as a deduction under Section 63-3022L, Idaho Code. These include:

   i. The standard deduction; (4-7-11)
   ii. Personal exemptions; (4-7-11)
   iii. Itemized deductions that result from activity of the pass-through owner. For example, a deduction is not allowed for charitable contributions made personally by the pass-through owner, but is allowed for the pass-through owner’s share of charitable contributions made by the pass-through entity. (4-7-11)

   g. Items Reported as a Pass-Through Deduction. Amounts reported from the pass-through entity to the pass-through owner in their distributive share are allowed as a deduction under Section 63-3022L, Idaho Code, unless otherwise disallowed under this rule. These include but are not limited to:

   i. Section 179, Internal Revenue Code, deduction; (3-25-16)
   ii. Charitable contributions made by the pass-through entity; (3-25-16)
   iii. Investment interest expense; (3-25-16)
   iv. Section 59(e)(2), Internal Revenue Code, expenditures (qualified research expenditures); (3-25-16)
   v. Amounts paid for medical insurance; (3-25-16)
   vi. Educational assistance benefits; (3-25-16)
   vii. Payments to a pension or IRA. (3-25-16)

   04. Double Deductions Disallowed. A pass-through owner may not deduct amounts that previously have been deducted by a pass-through entity paying the tax on his behalf. If the pass-through owner files an Idaho individual income tax return reporting federal taxable income that includes amounts previously deducted by a pass-through entity on his behalf, the pass-through owner must add back the duplicated deduction amounts in computing his Idaho taxable income on his individual income tax return. (4-7-11)

292. -- 299. (RESERVED)

300. TAX ON CORPORATIONS (RULE 300).
Sections 63-3025 and 63-3025A, Idaho Code

   01. Excise Tax. A corporation excluded from the tax on corporate income imposed by Section 63-3025, Idaho Code, is subject to the excise tax imposed by Section 63-3025A, Idaho Code. If a corporation is subject to the excise tax imposed by Section 63-3025A, Idaho Code, it is not subject to the tax on corporate income imposed by Section 63-3025, Idaho Code. (3-20-97)

   02. Minimum Tax. A name-holder or inactive corporation that is authorized to do business in Idaho shall pay the minimum tax of twenty dollars ($20) even though the corporation did not conduct Idaho business activity during the taxable year. A nonproductive mining corporation generally is not required to pay the minimum tax. See Subsection 300.03. (3-20-97)

   03. Nonproductive Mining Corporations. A nonproductive mining corporation is a corporation that does not own any producing mines and does not engage in any business other than mining. A corporation that qualifies as a nonproductive mining corporation is required to file and pay tax if it receives any other income. (3-20-97)

   04. Protection Under Public Law 86-272. A corporation whose Idaho business activities fall under
the protection of Public Law 86-272 is exempt from the taxes imposed by Sections 63-3025 and 63-3025A, Idaho Code, including the minimum tax. (3-30-07)

05. Corporate Income Tax Rates.

301. -- 309. (RESERVED)

310. ELECTIONS FOR MULTISTATE CORPORATIONS (RULE 310).
Section 63-3027, Idaho Code

01. Available Options. A multistate corporation transacting business in Idaho may elect to be taxed pursuant to the provisions of the Idaho Income Tax Act or pursuant to the Multistate Tax Compact, Section 63-3701, Idaho Code. This provides three (3) options: (3-20-97)

a. Apportionment and allocation pursuant to Section 63-3027, Idaho Code. (3-20-97)

b. Apportionment and allocation pursuant to Article III, Section 1 of the Multistate Tax Compact. However, if this option is elected, business income shall be apportioned using the apportionment formula pursuant to Section 63-3027(i), Idaho Code. (3-20-97)

c. Tax based on one percent (1%) of sales pursuant to Article III, Section 2 of the Multistate Tax Compact and Section 63-3702, Idaho Code. This option is available to corporations whose only activity in Idaho consists of sales that are not in excess of one hundred thousand dollars ($100,000) during the taxable year. (3-20-97)

02. Electing an Option. A multistate corporation shall file pursuant to Section 63-3027, Idaho Code, unless it elects to report and pay income tax pursuant to one of the options specified in Subsections 310.01.b. and 310.01.c. The election is made by attaching a written statement of the election to the return. The statement must affirmatively state each element required by statute to qualify for the option elected. The return must include any additional schedules needed to show how the tax due was computed. The election may not be changed for a taxable year after the return for that year has been filed. (3-20-97)

311. -- 319. (RESERVED)

320. APPLICATION OF MULTISTATE RULES (RULE 320).
Section 63-3027, Idaho Code

01. Prologue. Rules 320 through 699 of these rules are intended to set forth the application of the apportionment and allocation provisions of Section 63-3027, Idaho Code. The only exceptions to these allocation and apportionment rules are those set forth in these rules pursuant to the authority of Sections 63-3027(s) and 63-3027(u), Idaho Code. (3-20-97)

02. Taxpayers Conducting Business Within and Without Idaho. Section 63-3027, Idaho Code, and related rules apply to corporations conducting business within and without Idaho, and to other taxpayers if required by other provisions of the Idaho Code or of these rules. However, only C corporations may use the combined report to determine Idaho taxable income. See Rule 360 of these rules. (3-30-01)

321. -- 324. (RESERVED)
325. DEFINITIONS FOR PURPOSES OF MULTISTATE RULES (RULE 325). Section 63-3027, Idaho Code. For purposes of computing the Idaho taxable income of a multistate corporation, the following definitions apply:

01. Affiliated Corporation and Affiliated Group. An affiliated corporation is a corporation that is a member of a commonly controlled group of which the taxpayer is also a member. The commonly controlled group is referred to as an affiliated group. Although Idaho generally follows federal tax principles and terminology, Idaho’s use of the terms affiliated corporation and affiliated group means a corporation or corporations with over fifty percent (50%) of its voting stock directly or indirectly owned or controlled by a common owner or owners. For information on what constitutes common control, see Rule 344 of these rules.

02. Allocation. Allocation refers to the assignment of nonbusiness income to a particular state.

03. Apportionment. Apportionment refers to the division of business income between states in which the business is conducted by the use of a formula containing apportionment factors.

04. Business Activity. Business activity refers to the transactions and activity occurring in the regular course of a particular trade or business of a taxpayer or to the acquisition, management, and disposition of property that constitute integral parts of the taxpayer’s regular trade or business operations.

05. Combined Group. Combined group means the group of corporations that comprise a unitary business and are includable in a combined report pursuant to Section 63-3027(t) or 63-3027B, Idaho Code, if the water’s edge election is made.

06. Combined Report. Combined report refers to the computational filing method to be used by a unitary business which is conducted by a group of corporations wherever incorporated rather than a single corporation.

07. Gross Receipts.

a. Gross receipts are the gross amounts realized, (the sum of money and the fair market value of other property or services received) on the sale or exchange of property, the performance of services, or the use of property or capital (including rents, royalties, interest and dividends) in a transaction that produces business income, in which the income or loss is recognized (or would be recognized if the transaction were in the United States) under the Internal Revenue Code. Amounts realized on the sale or exchange of property are not reduced for the cost of goods sold or the basis of property sold. Gross receipts, even if business income, do not include such items as, for example:

i. Repayment, maturity, or redemption of the principal of a loan, bond, or mutual fund or certificate of deposit or similar marketable instrument;

ii. The principal amount received under a repurchase agreement or other transaction properly characterized as a loan;

iii. Proceeds from issuance of the taxpayer’s own stock or from sale of treasury stock;

iv. Damages and other amounts received as the result of litigation;

v. Property acquired by an agent on behalf of another;

vi. Tax refunds and other tax benefit recoveries;

vii. Pension reversions;

viii. Contributions to capital;
ix. Income from forgiveness of indebtedness; or

x. Amounts realized from exchanges of inventory that are not recognized by the Internal Revenue Code.

b. Exclusion of an item from the definition of gross receipts is not determinative of its character as business or nonbusiness income. Nothing in this definition shall be construed to modify, impair or supersede any provision of Rules 560 through 595 of these rules.

08. **Group Return.** A unitary group of corporations may file one (1) Idaho corporate income tax return for all the corporations of the unitary group that are required to file an Idaho income tax return. When used in these rules, group return refers to this sole return filed by a unitary group. Use of the group return precludes the need for each corporation to file its own Idaho corporate income tax return.

09. **MTC.** The Multistate Tax Commission.

10. **Multistate Corporation.** A multistate corporation is a corporation that operates in more than one (1) state. For purposes of this definition, state is defined in Section 63-3027(a)(6), Idaho Code.

11. **Unitary Business.** Unitary business is a concept of constitutional law defined in decisions of the United States Supreme Court. See Rule 340 of these rules.

330. **BUSINESS AND NONBUSINESS INCOME DEFINED: APPORTIONMENT AND ALLOCATION (RULE 330).**

Section 63-3027(a), Idaho Code. Sections 63-3027(a)(1) and 63-3027(a)(4), Idaho Code, require that every item of income be classified either as business income or nonbusiness income. Income for purposes of classification as business or nonbusiness includes gains and losses. Business income is apportioned among jurisdictions by use of a formula. Nonbusiness income is specifically assigned or allocated to one (1) or more specific jurisdictions pursuant to express rules. An item of income is classified as business income if it falls within the definition of business income. An item of income is nonbusiness income only if it does not meet the definitional requirements for being classified as business income.

331. **BUSINESS AND NONBUSINESS INCOME DEFINED: BUSINESS INCOME (RULE 331).**

Section 63-3027(a)(1), Idaho Code

01. **In General.** Business income means income of any type or class and from any activity that meets the “transactional test” described in Rule 332 of these rules, or the “functional test” described in Rule 333 of these rules. The classification of income by the labels occasionally used, such as manufacturing income, compensation for services, sales income, interest, dividends, rents, royalties, gains, operating income, and nonoperating income, is of no aid in determining whether income is business or nonbusiness income.

02. **Terms Used in Definition of Business Income and in Application of Definition.** As used in the definition of business income and in the application of the definition.

a. “Trade or business” means the unitary business of the taxpayer, part of which is conducted within Idaho.

b. “To contribute materially” includes, without limitation, “to be used operationally in the taxpayer’s trade or business.” Whether property materially contributes is not determined by reference to the property’s value or percentage of use. If an item of property materially contributes to the taxpayer’s trade or business, the attributes, rights or components of that property are also operationally used in that business. However, property that is held for mere financial betterment is not operationally used in the taxpayer’s trade or business.
01. **In General.** Business income includes income arising from transactions and activity in the regular course of the taxpayer’s trade or business.

02. **Business Income for Idaho.** If the transaction or activity is in the regular course of the taxpayer’s trade or business, part of which trade or business is conducted within Idaho, the resulting income of the transaction or activity is business income for Idaho. Income may be business income even though the actual transaction or activity that gives rise to the income does not occur in Idaho.

03. **Regular Course of the Taxpayer’s Trade or Business.** For a transaction or activity to be in the regular course of the taxpayer’s trade or business, the transaction or activity need not be one that frequently occurs in the trade or business. Most, but not all, frequently occurring transactions or activities will be in the regular course of that trade or business and will, therefore, satisfy the transactional test. It is sufficient to classify a transaction or activity as being in the regular course of a trade or business, if it is reasonable to conclude transactions of that type are customary in the kind of trade or business being conducted or are within the scope of what that kind of trade or business does. However, even if a taxpayer frequently or customarily engages in investment activities, if those activities are for the taxpayer’s mere financial betterment rather than for the operations of the trade or business, such activities do not satisfy the transactional test. The transactional test includes, but is not limited to, income from sales of inventory, property held for sale to customers, and services that are commonly sold by the trade or business. The transactional test also includes, but is not limited to, income from the sale of property used in the production of business income of a kind that is sold or replaced with some regularity, even if replaced less frequently than once a year.

333. **BUSINESS AND NONBUSINESS INCOME DEFINED: FUNCTIONAL TEST (RULE 333).**

Section 63-3027(a)(1), Idaho Code

01. **In General.** Business income also includes income from tangible and intangible property, if the acquisition, management or disposition of the property constitutes an integral or necessary part of the taxpayer’s regular trade or business operations.

02. **Terms.**

a. “Property” includes any interest in, control over, or use in property (whether the interest is held directly, beneficially, by contract, or otherwise) that materially contributes to the production of business income.

b. “Acquisition” refers to the act of obtaining an interest in property.

c. “Management” refers to the oversight, direction, or control (directly or by delegation) of the property for the use or benefit of the trade or business.

d. “Disposition” refers to the act, or the power, to relinquish or transfer an interest in or control over property to another, in whole or in part.

e. “Integral part” refers to property that constituted a part of the composite whole of the trade or business, each part of which gave value to every other part, in a manner that materially contributed to the production of business income.

03. **Integral, Functional, or Operative Component of Trade or Business.** Under the functional test, business income need not be derived from transactions or activities that are in the regular course of the taxpayer’s own particular trade or business. It is sufficient, if the property from which the income is derived is or was an integral, functional, or operative component used in the taxpayer’s trade or business operations, or otherwise materially contributed to the production of business income of the trade or business, part of which trade or business is or was conducted within Idaho. Depending on the facts and circumstances of each case, property that has been converted to nonbusiness use through the passage of a sufficiently lengthy period of time or that has been removed as an operational asset and is instead held by the taxpayer’s trade or business exclusively for investment purposes has lost its character as a business asset and is not subject to the rule of the preceding sentence. Property that was an integral
04. **Examples of Business Income Under the Functional Test.** Income that is derived from isolated sales, leases, assignments, licenses, and other infrequently occurring dispositions, transfers, or transactions involving property, including transactions made in liquidation or the winding-up of business, is business income, if the property is or was used in the taxpayer's trade or business operations. Income from the licensing of an intangible asset, such as a patent, copyright, trademark, service mark, know-how, trade secrets, or the like, that was developed or acquired for use by the taxpayer in its trade or business operations, constitutes business income whether or not the licensing itself constituted the operation of a trade or business, and whether or not the taxpayer remains in the same trade or business from or for which the intangible asset was developed or acquired. (4-6-05)

05. **Operational Function Versus Investment Function.** Under the functional test, income from intangible property is business income when the intangible property serves an operational function as opposed to solely an investment function. The relevant inquiry focuses on whether the property is or was held in furtherance of the taxpayer's trade or business, that is, on the objective characteristics of the intangible property’s use or acquisition and its relation to the taxpayer and the taxpayer’s activities. The functional test is not satisfied where the holding of the property is limited to solely an investment function as in the case where the holding of the property is limited to mere financial betterment of the taxpayer in general. (4-6-05)

06. **Property Held in Furtherance of Trade or Business.** If the property is or was held in furtherance of the taxpayer’s trade or business beyond mere financial betterment, then income from that property may be business income even though the actual transaction or activity involving the property that gives rise to the income does not occur in Idaho. (4-6-05)

07. **Presumptions.** If with respect to an item of property a taxpayer takes a deduction from business income that is apportioned to Idaho or includes the original cost in the property factor, it is presumed that the item or property is or was integral to the taxpayer’s trade or business operations. No presumption arises from the absence of any of these actions. (4-6-05)

08. **Application of the Functional Test.** Application of the functional test is generally unaffected by the form of the property (for example, tangible or intangible property, real or personal property). Income arising from an intangible interest, for example, corporate stock or other intangible interest in a business or a group of assets, is business income when the intangible itself or the property underlying or associated with the intangible is or was an integral, functional, or operative component to the taxpayer’s trade or business operations. Thus, while apportionment of income derived from transactions involving intangible property as business income may be supported by a finding that the issuer of the intangible property and the taxpayer are engaged in the same trade or business, i.e., the same unitary business, establishment of such a relationship is not the exclusive basis for concluding that the income is subject to apportionment. It is sufficient to support the finding of apportionable income if the holding of the intangible interest served an operational rather than an investment function of mere financial betterment. (4-6-05)

334. **BUSINESS AND NONBUSINESS INCOME DEFINED: RELATIONSHIP OF TRANSACTIONAL AND FUNCTIONAL TESTS TO U.S. CONSTITUTION (RULE 334).**

Section 63-3027(a)(1), Idaho Code. The Due Process Clause and the Commerce Clause of the U.S. Constitution restrict states from apportioning income as business income that has no rational relationship with the taxing state. The protection against extraterritorial state taxation afforded by these Clauses is often described as the “unitary business principle.” The unitary business principle requires apportionable income to be derived from the same unitary business that is being conducted at least in part in Idaho. The unitary business that is conducted in Idaho includes both a unitary business that the taxpayer alone may be conducting and a unitary business the taxpayer may conduct with any other person or persons. Satisfaction of either the transactional test or the functional test complies with the unitary business principle, because each test requires that the transaction or activity (in the case of the transactional test) or the property (in the case of the functional test) to be tied to the same trade or business that is being conducted within Idaho. Determination of the scope of the unitary business being conducted in Idaho is without regard to the extent to which Idaho requires or permits combined reporting. (4-6-05)

335. **NONBUSINESS INCOME (RULE 335).**
Section 63-3027(a)(4), Idaho Code

01. Nonbusiness Income. Nonbusiness income is all income other than business income. All deductions relating to the production of nonbusiness income shall be allocated with the income produced. Any allowable deduction that applies to both business and nonbusiness income of the taxpayer shall be prorated to those classes of income to determine income subject to tax. When used in these rules, the term nonbusiness income includes nonbusiness losses unless the context clearly indicates otherwise. (3-20-97)

02. Offset of Interest Expense Against Nonbusiness Income. Interest on indebtedness incurred or continued to purchase or to carry investment that generates nonbusiness income is offset against the income produced. If the facts do not support such a matching of the interest expense to the nonbusiness income, the portion of the taxpayer's interest expense that is offset against income from nonbusiness investments shall be an amount that bears the same ratio to the aggregate amount allowable to the taxpayer as a deduction for interest for the taxable year as the taxpayer's nonbusiness income mentioned in the preceding sentence bears to the taxpayer's total income for the taxable year. Aggregate amount allowable means the taxpayer's total interest expense deducted in determining taxable income as defined in Section 63-3011B, Idaho Code, plus interest expense disallowed under sections 265 and 291 of the Internal Revenue Code, plus interest expense from a pass-through entity, plus the interest expense of a corporation that, pursuant to Sections 63-3027 and 63-3027B through 63-3027E, Idaho Code, is included in a combined report with the taxpayer for the taxable year. See Rule 115 of these rules for the calculation of total income. (3-15-02)

03. Allocated to Idaho. Nonbusiness income, net of interest and other related expense offsets, that is attributable to Idaho is allocated to Idaho. (3-20-97)

04. Allocated to Other States. Nonbusiness income, together with interest and other related expense offsets, is allocated to other states if it is not attributable to Idaho. (3-20-97)

336. BUSINESS AND NONBUSINESS INCOME: APPLICATION OF DEFINITIONS (RULE 336).
Section 63-3027(a)(1), 63-3027(A)(4), Idaho Code

01. In General. The following applies the foregoing principles for purposes of determining whether particular income is business or nonbusiness income. (4-6-05)

02. Rent From Real and Tangible Personal Property. Rental income from real and tangible property is business income if the property for which the rental income was received is or was used in the taxpayer’s trade or business and, therefore, is includable in the property factor under Rule 465 of these rules. (4-6-05)

03. Gains or Losses from Sales of Assets. Gain or loss from the sale, exchange or other disposition of real property or of tangible or intangible personal property is business income if the property while owned by the taxpayer was used in, or was otherwise included in the property factor of the taxpayer’s trade or business. However, if the property was used to produce nonbusiness income, the gain or loss is nonbusiness income. (4-6-05)

04. Interest Income. Interest income from an intangible is business income if the intangible arises out of or was created in the regular course of the taxpayer’s trade or business operations or if the purpose for acquiring and holding the intangible is an integral, functional, or operative component of the taxpayer’s trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations. (4-6-05)

05. Dividends. Dividends from stock are business income if the stock arises out of or was acquired in the regular course of the taxpayer’s trade or business operations or where the purpose of acquiring and holding the stock is an integral, functional, or operative component of the taxpayer’s trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations. (4-6-05)

06. Patent and Copyright Royalties. Royalties from patents and copyrights are business income if the patent or copyright arises out of or was created in the regular course of the taxpayer’s trade or business operations or if the purpose for acquiring and holding the patent or copyright is an integral, functional, operative component of the taxpayer’s trade or business operations, or otherwise materially contributes to the production of business income of
the trade or business operations. (4-6-05)

337. -- 339. (RESERVED)

Section 63-3027, Idaho Code

01. The Concept of a Unitary Business. (4-6-05)

a. A unitary business is a single economic enterprise that is made up either of separate parts of a single business entity or of a commonly controlled group of business entities that are sufficiently interdependent, integrated and interrelated through their activities so as to provide a synergy and mutual benefit that produces a sharing or exchange of value among them and a significant flow of value to the separate parts. This flow of value to a business entity located in Idaho that comes from being part of a unitary business conducted both within and without Idaho is what provides the constitutional due process “definite link and minimum connection” necessary for Idaho to apportion business income of the unitary business, even if that income arises in part from activities conducted outside Idaho. The business income of the unitary business is then apportioned to Idaho using an apportionment percentage provided by Section 63-3027, Idaho Code. (4-6-05)

b. This sharing or exchange of value may also be described as requiring that the operation of one (1) part of the business be dependent upon, or contribute to, the operation of another part of the business. Phrased in the disjunctive, the foregoing means that if the activities of one (1) business either contribute to the activities of another business or are dependent upon the activities of another business, those businesses are part of a unitary business. (4-11-06)

02. Constitutional Requirement for a Unitary Business. (4-6-05)

a. The sharing or exchange of value described in Subsection 340.01 of this rule that defines the scope of a unitary business requires more than the mere flow of funds arising out of a passive investment or from the financial strength contributed by a distinct business undertaking that has no operational relationship to the unitary business. (4-6-05)

b. In Idaho, the unitary business principle shall be applied to the fullest extent allowed by the U.S. Constitution. The unitary business principle shall not be applied to result in the combination of business activities or entities under circumstances where, if it were adverse to the taxpayer, the combination of such activities or entities would not be allowed by the U.S. Constitution. (4-6-05)

03. Separate Trades or Businesses Conducted Within a Single Entity. A single entity may have more than one (1) unitary business. In such cases it is necessary to determine the business, or apportionable, income attributable to each separate unitary business as well as its nonbusiness income, which is specifically allocated. The business income of each unitary business is then apportioned by a formula that takes into consideration the in-state and the out-of-state factors that relate to the respective unitary business whose income is being apportioned. (4-6-05)

04. Unitary Business Unaffected by Formal Business Organization. A unitary business may exist within a single business entity or among a commonly controlled group of business entities. The relationship shall be determined by reference to the relationship that exists between all related and affiliated corporations, not just those corporations whose income and apportionment factors are required to be considered. For example, the relationship with foreign affiliates shall be considered even though a water’s edge election is made. A related corporation may include insurance companies and fifty percent (50%) or less owned corporations. The scope of what is included in a commonly controlled group of business entities is set forth in Rule 344 of these rules. (4-6-05)

341. PRINCIPLES FOR DETERMINING THE EXISTENCE OF A UNITARY BUSINESS: DETERMINATION OF A UNITARY BUSINESS (RULE 341).
Section 63-3027, Idaho Code

01. In General. Unity can be established under any one (1) of the judicially acceptable tests (Butler
02. Significant Flows of Value. A unitary business is characterized by significant flows of value evidenced by factors such as those described in Mobil Oil Corp. v. Vermont, 445 U.S. 425 (1980): functional integration, centralization of management, and economies of scale. These factors provide evidence of whether the business activities operate as an integrated whole or exhibit substantial mutual interdependence. Facts suggesting the presence of the factors mentioned above should be analyzed in combination for their cumulative effect and not in isolation. A particular business operation may be suggestive of one (1) or more of the factors mentioned above. (4-11-06)

342. PRINCIPLES FOR DETERMINING THE EXISTENCE OF A UNITARY BUSINESS: DESCRIPTION AND ILLUSTRATION OF FUNCTIONAL INTEGRATION, CENTRALIZATION OF MANAGEMENT AND ECONOMIES OF SCALE (RULE 342).
Section 63-3027, Idaho Code

01. Functional Integration. Functional integration refers to transfers between, or pooling among, business activities that significantly affect the operation of the business activities. Functional integration includes, but is not limited to, transfers or pooling with respect to the unitary business’s products or services, technical information, marketing information, distribution systems, purchasing, and intangibles such as patents, trademarks, service marks, copyrights, trade secrets, know-how, formulas, and processes. There is no specific type of functional integration that must be present. The following is a list of examples of business operations that can support the finding of functional integration. The order of the list does not establish a hierarchy of importance. (4-6-05)

a. Sales, exchanges, or transfers (collectively “sales”) of products, services, or intangibles between business activities provide evidence of functional integration. The significance of the intercompany sales to the finding of functional integration will be affected by the character of what is sold and the percentage of total sales or purchases represented by the intercompany sales. For example, sales among business entities that are part of a vertically integrated unitary business are indicative of functional integration. Functional integration is not negated by the use of a readily determinable market price to effect the intercompany sales, because such sales can represent an assured market for the seller or an assured source of supply for the purchaser. (4-6-05)

b. Common Marketing. The sharing of common marketing features among business entities is an indication of functional integration when such marketing results in significant mutual advantage. Common marketing exists when a substantial portion of the business entities’ products, services, or intangibles are distributed or sold to a common customer, when the business entities use a common trade name or other common identification, or when the business entities seek to identify themselves to their customers as a member of the same enterprise. The use of a common advertising agency or a commonly owned or controlled in-house advertising office does not by itself establish common marketing that is suggestive of functional integration. Functional integration is not negated by the use of a readily determinable market price to effect the intercompany sales, because such sales can represent an assured market for the seller or an assured source of supply for the purchaser. (4-6-05)

c. Transfer or Pooling of Technical Information or Intellectual Property. Transfers or pooling of technical information or intellectual property, such as patents, copyrights, trademarks and service marks, trade secrets, processes or formulas, know-how, research, or development, provide evidence of functional integration when the matter transferred is significant to the businesses’ operations. (4-6-05)

d. Common Distribution System. Use of a common distribution system by the business entities, under which inventory control and accounting, storage, trafficking, or transportation are controlled through a common network provides evidence of functional integration. (4-6-05)

e. Common Purchasing. Common purchasing of substantial quantities of products, services, or intangibles from the same source by the business entities, particularly where the purchasing results in significant cost savings or where products, services, or intangibles are not readily available from other sources and are significant to each entity’s operations or sales, provides evidence of functional integration. (4-6-05)

f. Common or Intercompany Financing. Significant common or intercompany financing, including the guarantee by, or the pledging of the credit of, one (1) or more business entities for the benefit of another business
entity or entities provides evidence of functional integration, if the financing activity serves an operational purpose of both borrower and lender. Lending which serves an investment purpose of the lender does not necessarily provide evidence of functional integration. (See Subsection 342.02 of this rule for discussion of centralization of management.) (4-6-05)

02. Centralization of Management. Centralization of management exists when directors, officers, or other management employees jointly participate in the management decisions that affect the respective business activities and that may also operate to the benefit of the entire economic enterprise. Centralization of management can exist whether the centralization is effected from a parent entity to a subsidiary entity, from a subsidiary entity to a parent entity, from one (1) subsidiary entity to another, from one (1) division within a single business entity to another division within a business entity, or from any combination of the foregoing. Centralization of management may exist even when day-to-day management responsibility and accountability has been decentralized, so long as the management has an ongoing operational role with respect to the business activities. An operational role can be effected through mandates, consensus building, or an overall operational strategy of the business, or any other mechanism that establishes joint management. (4-6-05)

a. Facts Providing Evidence of Centralization of Management. Evidence of centralization of management is provided when common officers participate in the decisions relating to the business operations of the different segments. Centralization of management may exist when management shares or applies knowledge and expertise among the parts of the business. Existence of common officers and directors, while relevant to a showing of centralization of management, does not alone provide evidence of centralization of management. Common officers are more likely to provide evidence of centralization of management than are common directors. (4-11-06)

b. Stewardship Distinguished. Centralized efforts to fulfill stewardship oversight are not evidence of centralization of management. Stewardship oversight consists of those activities that any owner would take to review the performance of or safeguard an investment. Stewardship oversight is distinguished from those activities that an owner may take to enhance value by integrating one (1) or more significant operating aspects of one (1) business activity with the other business activities of the owner. For example, implementing reporting requirements or mere approval of capital expenditures may evidence only stewardship oversight. (4-11-06)

03. Economies of Scale. Economies of scale refers to a relation among and between business activities resulting in a significant decrease in the average per unit cost of operational or administrative functions due to the increase in operational size. Economies of scale may exist from the inherent cost savings that arise from the presence of functional integration or centralization of management. The following are examples of business operations that can support the finding of economies of scale. The order of the list does not establish a hierarchy of importance. (4-6-05)

a. Centralized Purchasing. Centralized purchasing designed to achieve savings due to the volume of purchases, the timing of purchases, or the interchangeability of purchased items among the parts of the business engaging in the purchasing provides evidence of economies of scale. (4-6-05)

b. Centralized Administrative Functions. The performance of traditional corporate administrative functions, such as legal services, payroll services, pension and other employee benefit administration, in common among the parts of the business may result in some degree of economies of scale. A business entity that secures savings in the performance of corporate administrative services due to its affiliation with other business entities that it would not otherwise reasonably be able to secure on its own because of its size, financial resources, or available market, provides evidence of economies of scale. (4-6-05)

343. PRINCIPLES FOR DETERMINING THE EXISTENCE OF A UNITARY BUSINESS: INDICATORS OF A UNITARY BUSINESS (RULE 343).
Section 63-3027, Idaho Code

01. Same Type of Business. Business activities that are in the same general line of business generally constitute a single unitary business, for example, a multistate grocery chain. (4-6-05)

02. Steps in a Vertical Process. Business activities that are part of different steps in a vertically structured business almost always constitute a single unitary business. For example, a business engaged in the exploration, development, extraction, and processing of a natural resource and the subsequent sale of a product based
upon the extracted natural resource, is engaged in a single unitary business, regardless of the fact that the various steps in the process are operated substantially independently of each other with only general supervision from the business’s executive offices.

03. **Strong Centralized Management.** Business activities that might otherwise be considered as part of more than one (1) unitary business may constitute one (1) unitary business when there is a strong centralized management, coupled with the existence of centralized departments for such functions as financing, advertising, research, or purchasing. Strong centralized management exists when a central manager or group of managers makes substantially all of the operational decisions of the business. For example, some businesses conducting diverse lines of business may properly be considered as engaged in only one (1) unitary business when the central executive officers are actively involved in the operations of the various business activities and there are centralized offices that perform for the business activities the normal matters that a truly independent business would perform for itself, such as personnel, purchasing, advertising, or financing.

344. **PRINCIPLES FOR DETERMINING THE EXISTENCE OF A UNITARY BUSINESS: COMMONLY CONTROLLED GROUP OF BUSINESS ENTITIES (RULE 344).**

Section 63-3027, Idaho Code

01. **In General.** Separate corporations can be a part of a unitary business only if they are members of a commonly controlled group.

02. **Commonly Controlled Group.** A “commonly controlled group” means any of the following:

   a. A parent corporation and any one (1) or more corporations or chains of corporations, connected through stock ownership (or constructive ownership) with the parent, but only if:

      i. The parent owns stock possessing more than fifty percent (50%) of the voting power of a least one (1) corporation, and, if applicable,

      ii. Stock cumulatively possessing more than fifty percent (50%) of the voting power of each of the corporations, except the parent, is owned by the parent, one (1) or more corporations described in Subparagraph 344.02.a.i., of this rule, or one (1) or more other corporations that satisfy the conditions of this subparagraph.

   b. Any two (2) or more corporations, if stock, possessing more than fifty percent (50%) of the voting power of the corporations is owned, or constructively owned, by the same person.

   c. Any two (2) or more corporations that constitute stapled entities.

      i. For purposes of this paragraph, “stapled entities” means any group of two (2) or more corporations if more than fifty percent (50%) of the ownership or beneficial ownership of the stock possessing voting power in each corporation consists of stapled interests.

      ii. Two (2) or more interests are stapled interests if, by reason of form of ownership, restrictions on transfer, or other terms or conditions, in connection with the transfer of one (1) of the interests the other interest or interests are also transferred or required to be transferred.

   d. Any two (2) or more corporations, if stock possessing more than fifty percent (50%) of the voting power of the corporations is cumulatively owned (without regard to the constructive ownership rules of Paragraph 344.05.a., of this rule) by, or for the benefit of, members of the same family. Members of the same family are limited to an individual, the individual’s spouse, parents, brothers, sisters, grandparents, children and grandchildren, and their respective spouses.

03. **Elections and Terminations.**

   a. If, in the application of Subsection 344.02 of this rule, a corporation is a member of more than one
(1) commonly controlled group of corporations, the corporation shall elect to be treated as a member of only the commonly controlled group (or part thereof) with respect to which it has a unitary business relationship. If the corporation has a unitary business relationship with more than one (1) of those groups, it shall elect to be treated as a member of only one (1) of the commonly controlled groups with respect to which it has a unitary business relationship. This election shall remain in effect until the unitary business relationship between the corporation and the rest of the members of its elected commonly controlled group is discontinued, or unless revoked with the approval of the State Tax Commission. (4-6-05)

b. Membership in a commonly controlled group shall be treated as terminated in any year, or fraction thereof, in which the conditions of Subsection 344.02 of this rule are not met, except as follows: (4-6-05)

i. When stock of a corporation is sold, exchanged, or otherwise disposed of, the membership of a corporation in a commonly controlled group shall not be terminated, if the requirements of Subsection 344.02 of this rule are again met immediately after the sale, exchange, or disposition. (4-6-05)

ii. The State Tax Commission may treat the commonly controlled group as remaining in place if the conditions of Subsection 344.02 of this rule are again met within a period not to exceed two (2) years. (4-6-05)

04. Controlled. A taxpayer may exclude some or all corporations included in a “commonly controlled group” by reason of Paragraph 344.02.d. of this rule by showing that those members of the group are not controlled directly or indirectly by the same interest, within the meaning of the same phrase in Section 482 of the Internal Revenue Code. For purposes of this subsection, the term “controlled” includes any kind of control, direct or indirect, whether legally enforceable, and however exercisable or exercised. (4-6-05)

05. Stock Ownership. Except as otherwise provided, stock is “owned” when title to the stock is directly held or if the stock is constructively owned.

a. An individual constructively owns stock that is owned by any of the following: (4-6-05)

i. The individual’s spouse. (4-6-05)

ii. Children, including adopted children, of that individual or the individual’s spouse, who have not attained the age of twenty-one (21) years. (4-6-05)

iii. An estate or trust, of which the individual is an executor, trustee, or grantor, to the extent that the estate or trust is for the benefit of that individual’s spouse or children. (4-6-05)

b. Stock owned by a corporation, or a member of a controlled group of which the corporation is the parent corporation, is constructively owned by any shareholder owning stock that represents more than fifty percent (50%) of the voting power of the corporation. (4-6-05)

c. In the application of Paragraph 344.02.d., of this rule, (dealing with stock possessing voting power held by members of the same family), if more than fifty percent (50%) of the stock possessing voting power of a corporation is, in the aggregate, owned by or for the benefit of members of the same family, stock owned by that corporation shall be treated as constructively owned by members of that family in the same ratio as the proportion of their respective ownership of stock possessing voting power in that corporation to all of such stock of that corporation. (4-6-05)

d. Except as otherwise provided, stock owned by a partnership is constructively owned by any partner, other than a limited partner, in proportion to the partner’s capital interest in the partnership. For this purpose, a partnership is treated as owning proportionately the stock owned by any other partnership in which it has a tiered interest, other than as a limited partner. (4-6-05)

e. In any case where a member of a commonly controlled group, or shareholders, officers, directors, or employees of a member of a commonly controlled group, is a general partner in a limited partnership, stock held by the limited partnership is constructively owned by a limited partner to the extent of its capital interest in the limited partnership. (4-6-05)
f. In the application of Paragraph 344.02.d., of this rule (dealing with stock possessing voting power held by members of the same family), stock held by a limited partnership is constructively owned by a limited partner to the extent of the limited partner’s capital interest in the limited partnership. (4-6-05)

06. **Terms.** For purposes of the definition of a commonly controlled group, each of the following shall apply:

a. “Corporation” means a corporation as defined in Section 63-3006, Idaho Code. (4-6-05)

b. “Person” means a person as defined in Section 63-3005, Idaho Code. (4-6-05)

c. “Voting power” means the power of all classes of stock entitled to vote that possess the power to elect the membership of the board of directors of the corporation. (4-6-05)

d. “More than fifty percent (50%) of the voting power” means voting power sufficient to elect a majority of the membership of the board of directors of the corporation. (4-6-05)

e. “Stock possessing voting power” includes stock where ownership is retained but the actual voting power is transferred in either of the following manners:

i. For one (1) year or less. (4-6-05)

ii. By proxy, voting trust, written shareholder agreement, or by similar device, where the transfer is revocable by the transferor. (4-6-05)

f. In the case of an entity treated as a corporation under Paragraph 344.06.a., of this rule, “stock possessing voting power” refers to an instrument, contract, or similar document demonstrating an ownership interest in that entity that confers power in the owner to cast a vote in the selection of the management of that entity. (4-6-05)

345. -- 349. (RESERVED)

350. **PRORATION OF DEDUCTIONS (RULE 350).**
Section 63-3027, Idaho Code

01. **In General.** In most cases a taxpayer’s allowable deduction applies only to the business income arising from a particular trade or business or to a particular item of nonbusiness income. In some cases an allowable deduction applies to the business income of more than one trade or business, to several items of nonbusiness income, or to both. In these cases the deduction shall be prorated among the trades or businesses and the items of nonbusiness income in a manner that fairly distributes the deduction among the classes of income to which it applies. (3-20-97)

02. **Year to Year Consistency.** If a taxpayer departs from or modifies the method used for prorating any deduction in prior year Idaho returns, the taxpayer shall disclose the nature and extent of all modifications in its current year return. (3-20-97)

03. **State to State Consistency.** If the returns or reports filed by a taxpayer with all states to which the taxpayer reports pursuant to Section 63-3027, Idaho Code; Article IV of the Multistate Tax Compact; or the Uniform Division of Income for Tax Purposes Act are not uniform in applying or prorating any deduction, the taxpayer shall disclose the nature and extent of the variance in its current year Idaho return. (3-20-97)

351. -- 354. (RESERVED)

355. **APPLICATION OF SECTION 63-3027 -- APPORTIONMENT (RULE 355).**
Section 63-3027, Idaho Code. If a corporation has business activity both within and without Idaho, and is taxable in another state as a result of this business activity, the portion of the net income or net loss derived from sources in Idaho shall be determined by apportionment pursuant to Section 63-3027, Idaho Code. (3-20-97)
360. **APPLICATION OF SECTION 63-3027 -- COMBINED REPORT (RULE 360).**

Section 63-3027, Idaho Code. If a particular trade or business is carried on by a corporation and one (1) or more affiliates, nothing in these rules shall preclude using a combined report in which the entire business income of the trade or business is apportioned pursuant to Section 63-3027, Idaho Code. The use of the combined report is restricted to C corporations. (3-20-97)

361. -- 364. (RESERVED)

365. **USE OF THE COMBINED REPORT (RULE 365).**

Section 63-3027, Idaho Code

**01. In General.** Use of the combined report does not disregard the separate corporate identities of the members of the unitary group. The combined report is simply the computation, by the formula apportionment method, of the unitary business income reportable to Idaho by the separate corporate members of the unitary group. For purposes of this rule, included corporation means a corporation required to file an Idaho income tax return as a result of its own activities in Idaho and using a combined report. (3-20-97)

**02. Separate Computations.** Each included corporation shall:

- Be responsible for computing and paying its tax including any minimum tax due pursuant to Sections 63-3025 and 63-3025A, Idaho Code, as determined by the combined report. (3-20-97)
- Separately compute Idaho tax credits and limitations, except the investment tax credit, which is applied pursuant to Section 63-3029B, Idaho Code, and Rules 710 through 717 of these rules. (3-20-97)
- Separately determine and pay the permanent building fund tax required by Section 63-3082, Idaho Code. (3-20-97)

**03. Net Operating Loss.** The Idaho net operating loss carryover or carryback for each included corporation is limited to its share of the combined net operating loss apportioned to Idaho for each taxable year. See Rule 200 of these rules. (3-20-97)

**04. Nexus.** Each corporation shall determine whether it has nexus in Idaho based on its activities or those conducted on its behalf. (3-20-97)

**05. Throwback Sales.** When a corporation’s activities conducted in a state are within the protection of Public Law 86-272, the principle established in Appeal of Joyce, Inc., California State Board of Equalization, November 23, 1966, commonly known as the Joyce Rule, shall apply. Therefore, only the activities conducted by or on behalf of the corporation shall be considered for this purpose. (3-20-97)

**06. Filing Returns.** Each included corporation may file a separate return reporting its share of the combined net income or loss of the unitary group. In the alternative, the unitary group may elect to file a group return for all the included corporations. This election is allowed as a convenience to the taxpayer. Its use does not preclude the need for the separate recognition and computational requirements in this rule. (3-20-97)

**07. Dividends and Other Intangible Income.** Dividends and other intangible income shall be included in income subject to apportionment to the extent they constitute business income received from companies not included in the combined report. However, a dividend deduction and factor adjustments are allowed to the extent dividends received are paid from prior year earnings previously included in income subject to apportionment. Part I, Subchapter C, Internal Revenue Code, is applied to determine the taxable year in which the earnings and profits were earned that paid the dividend. It is the taxpayer’s responsibility to prove that the dividend, or a portion of it, was previously included in Idaho apportionable income. (4-6-05)
370. APPLICATION OF SECTION 63-3027 -- ALLOCATION (RULE 370).
Section 63-3027, Idaho Code. A taxpayer subject to the taxing jurisdiction of Idaho shall allocate all of its nonbusiness income or loss within or without Idaho pursuant to Section 63-3027, Idaho Code. (3-20-97)

371. -- 374. (RESERVED)

375. CONSISTENCY AND UNIFORMITY IN REPORTING (RULE 375).
Section 63-3027, Idaho Code

01. Year to Year Consistency. If a taxpayer departs from or modifies the method used for classifying income as business income or nonbusiness income in prior year Idaho returns, the taxpayer shall disclose the nature and extent of all modifications in its current year return. (3-20-97)

02. State to State Consistency. If the returns or reports filed by a taxpayer with all states to which the taxpayer reports pursuant to Section 63-3027, Idaho Code; Article IV of the Multistate Tax Compact; or the Uniform Division of Income for Tax Purposes Act are not uniform in classifying business and nonbusiness income, the taxpayer shall disclose the nature and extent of the variance in its current year Idaho return. (3-20-97)

376. -- 384. (RESERVED)

385. TAXABLE IN ANOTHER STATE: IN GENERAL (RULE 385).
Section 63-3027(c), Idaho Code

01. In General. A taxpayer is subject to the allocation and apportionment provisions of Section 63-3027, Idaho Code, if it has income from business activity that is taxable both within and without Idaho. A taxpayer’s income from business activity is taxable without Idaho if the taxpayer is taxable in another state within the meaning of Section 63-3027(c), Idaho Code, as a result of that business activity. A taxpayer is taxable in another state if it meets either of the following tests: (3-20-97)

a. The taxpayer is subject to one (1) of the taxes specified in Section 63-3027(c)(1), Idaho Code, as a result of its business activity in another state; or (3-20-97)

b. Another state has jurisdiction to subject the taxpayer to a net income tax as a result of its business activity, regardless of whether the state imposes the tax on the taxpayer. (3-20-97)

02. Not Taxable in Another State. A taxpayer is not taxable in another state with respect to a particular trade or business merely because the taxpayer conducts activities in the other state pertaining to the production of nonbusiness income or business activities relating to a separate trade or business. (3-20-97)

386. -- 389. (RESERVED)

390. TAXABLE IN ANOTHER STATE: WHEN A TAXPAYER IS SUBJECT TO TAX (RULE 390).
Section 63-3027(c)(1), Idaho Code

01. Subject to Tax. A taxpayer is subject to one of the taxes specified in Section 63-3027(c)(1), Idaho Code, if it carries on business activity in a state and that state imposes one of those taxes on it. A taxpayer that claims it is subject to one (1) of the taxes specified in Section 63-3027(c)(1), Idaho Code, shall furnish the Tax Commission, at its request, evidence to support this claim. The Tax Commission may request that evidence include proof the taxpayer has filed the required tax return in the other state and has paid any taxes imposed by the law of that state. The taxpayer’s failure to provide proof may be considered in determining whether the taxpayer is subject to one of the taxes specified in Section 63-3027(c)(1), Idaho Code. (3-20-97)

02. Concept of Taxability. The concept of taxability in another state is based on the premise that every state in which the taxpayer transacts business may impose an income tax even though every state does not do so. A state may impose other types of taxes as a substitute for an income tax. Only those taxes specified in Section 63-3027(c)(1), Idaho Code, that are revenue producing rather than regulatory in nature shall be considered in
determining taxability in another state. (3-20-97)

03. Examples of Taxability. (3-20-97)

a. State A requires each corporation that qualifies or registers in State A to pay the Secretary of State an annual license fee or tax for the privilege of doing business in the state, regardless of whether it exercises the privilege. The amount paid is determined according to the total authorized capital stock of the corporation; the rates progressively increase. The statute sets a minimum fee of fifty dollars ($50) and a maximum fee of five hundred dollars ($500). Failure to pay the tax bars a corporation from using the state courts to enforce its rights. State A also imposes a corporation income tax. Corporation X is qualified in State A and pays the required fee to the Secretary of State, but does not transact business in State A, although it may use the courts of State A. Corporation X is not taxable in State A. (3-20-97)

b. Assume the same facts as in Subsection 390.03.a., except that Corporation X is subject to and pays the corporation income tax. Payment is prima facie evidence that Corporation X is subject to the net income tax of State A and is taxable in State A. (3-20-97)

c. State B requires all corporations qualified or registered in State B to pay the Secretary of State an annual permit fee or tax for doing business in the state. The base of the fee or tax is the sum of: outstanding capital stock, and surplus and undivided profits. The fee or tax base attributable to State B is determined by a three (3) factor apportionment formula. Corporation X, which operates a plant in State B, pays the required fee or tax to the Secretary of State. Corporation X is taxable in State B. (3-20-97)

d. State A has a corporation franchise tax measured by net income for the privilege of doing business in that state. Corporation X files a return based on its business activity in the state, but the amount of computed liability is less than the minimum tax. Corporation X pays the minimum tax. Corporation X is subject to State A’s corporation franchise tax. (3-20-97)

04. Voluntary Tax Payment. A taxpayer is not subject to one (1) of the taxes specified in Section 63-3027(c)(1), Idaho Code, if the taxpayer voluntarily files and pays the tax when not required to do so by the laws of that state. (3-20-97)

05. Minimum Tax or Fee. A taxpayer is not subject to one (1) of the taxes specified in Section 63-3027(c)(1), Idaho Code if it pays a minimal fee for qualification, organization, or the privilege of doing business in that state, but:

a. Does not transact business in that state; or (3-20-97)

b. Engages in business activity not sufficient for nexus, and the minimum tax bears no relationship to the taxpayer’s business activity within that state. (3-20-97)

c. Example. State A has a corporation franchise tax measured by net income for the privilege of doing business in that state. Corporation X files a return and pays the fifty dollar ($50) minimum tax, although it does not transact business in State A. Corporation X is not taxable in State A. (3-20-97)

391. -- 394. (RESERVED)

395. TAXABLE IN ANOTHER STATE: WHEN A STATE HAS JURISDICTION TO SUBJECT A TAXPAYER TO A NET INCOME TAX (RULE 395).

01. In General. The test in Section 63-3027(c)(2), Idaho Code, applies if the taxpayer’s business activity is sufficient to give the state jurisdiction to impose a net income tax by reason of the business activity pursuant to the Constitution and statutes of the United States. Jurisdiction to tax is not present if the state is prohibited from imposing the tax due to Public Law 86-272, Title 15, Sections 381 through 385, United States Code. (3-20-97)

a. When determining if a state has jurisdiction to subject a taxpayer to a net income tax, the
jurisdictional standards applicable to a state of the United States shall also apply to the District of Columbia, the
Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political
subdivision thereof. (3-20-97)

b. The provisions of a treaty between a state and the United States are not considered when
determining jurisdiction to tax. (3-20-97)

02. Example. Corporation X is engaged in manufacturing farm equipment in State A and in Foreign
Country B. Both State A and Foreign Country B impose a net income tax but Foreign Country B exempts
corporations engaged in manufacturing farm equipment. Corporation X is subject to the jurisdiction of State A and
Foreign Country B. (3-20-97)

396. -- 449. (RESERVED)

450. APPORTIONMENT FORMULA (RULE 450).
Section 63-3027(i), Idaho Code

01. Apportionment Factors. All of a taxpayer’s business income shall be apportioned to Idaho using
the apportionment formula set forth in Section 63-3027(i), Idaho Code. The elements of the apportionment formula
are the property factor, the payroll factor, and the sales factor. See Rules 460 through 559 of these rules for general
rules applicable to these factors. See Rules 560 through 599 of these rules for special rules and exceptions to the
apportionment formula. The denominator of each factor may not exceed the sum of the numerators of that factor.
(3-20-97)

02. Intercompany Transactions. Intercompany transactions shall be eliminated to the extent
necessary to properly compute the numerators and the denominators of the apportionment factors of a combined
group. The apportionment factor computation may not include property, payroll, or receipts of any affiliated
corporation unless its income is included in the combined report. (3-29-10)

03. Rounding. The individual factors and the average apportionment factor shall be calculated six (6)
digits to the right of the decimal point. If the seventh digit is five (5) or greater, the sixth digit is rounded to the next
higher number. If the seventh digit is less than five (5), the sixth digit remains unchanged and any digits remaining to
its right are dropped. (3-20-97)

04. Verification of Factors. The taxpayer shall make available the fifty-one (51) state apportionment
factor detail when requested by the Tax Commission. Failure to do so may justify the imposition of the negligence
penalty provided by Section 63-3046(a), Idaho Code. (7-1-98)

451. -- 459. (RESERVED)

460. PROPERTY FACTOR: IN GENERAL (RULE 460).
Section 63-3027(k), Idaho Code

01. In General. The property factor of the apportionment formula for each trade or business of the
taxpayer includes all real and tangible personal property owned or rented by the taxpayer and used during the taxable
year in the regular course of its trade or business. The term real and tangible personal property includes land,
buildings, fixtures, inventory, equipment, and other property of a tangible nature, but does not include coin or
currency. (3-20-97)

02. Nonbusiness Income. Property used in connection with the production of nonbusiness income
shall be excluded from the property factor. Property used both in the regular course of the taxpayer’s trade or business
and in the production of nonbusiness income shall be included in the factor only to the extent the property is used in
the regular course of the taxpayer’s trade or business. The method of determining that portion of the value to be
included in the factor depends on the facts of each case. (3-20-97)

03. Average Value. The property factor shall reflect the average value of property includable in the
factor. See Rule 490 of these rules. (3-20-97)
04. Denominator. The denominator of the factor may not exceed the sum of all the numerators. (3-20-97)

461. -- 464. (RESERVED)

Section 63-3027(k), Idaho Code

01. In General. (3-20-97)

a. Property shall be included in the property factor if it is used, is available for use, or capable of being used during the taxable year in the regular course of the taxpayer’s trade or business. Property held as reserves or standby facilities or property held as a reserve source of materials shall be included in the factor. For example, a plant temporarily idle or raw material reserves not currently being processed are includable in the factor. (3-20-97)

b. Property or equipment under construction during the taxable year, except inventoriable goods in process, shall be excluded from the factor until the property is used in the regular course of the taxpayer’s trade or business. (3-20-97)

c. If the property is partially used in the regular course of the taxpayer’s trade or business while under construction, the value of the property shall be included in the property factor to the extent used. (3-20-97)

d. Property used in the regular course of the taxpayer’s trade or business shall remain in the property factor until it is permanently withdrawn by an identifiable event such as its sale, abandonment, or any event or circumstance that renders the property incapable of being used in the regular course of the taxpayer’s trade or business. (3-20-97)

02. Examples. (3-20-97)

a. A taxpayer closed its manufacturing plant in State X and held the property for sale. The property remained vacant until its sale one (1) year later. The value of the manufacturing plant is included in the property factor until the plant is sold. (3-20-97)

b. Assume the same facts as in Subsection 465.02.a., except the property was rented until the plant was sold. The plant is included in the property factor until the plant is sold. (3-20-97)

466. -- 469. (RESERVED)

470. PROPERTY FACTOR: CONSISTENCY IN REPORTING (RULE 470).
Section 63-3027(k), Idaho Code

01. Year to Year Consistency. If a taxpayer departs from or modifies the method used for valuing property, or for excluding or including property in the property factor in prior year Idaho returns, the taxpayer shall disclose the nature and extent of all modifications in its current year return. (3-20-97)

02. State to State Consistency. If the returns or reports filed by a taxpayer with all states to which the taxpayer reports pursuant to Section 63-3027, Idaho Code; Article IV of the Multistate Tax Compact; or the Uniform Division of Income for Tax Purposes Act are not uniform in valuing property and in excluding or including property in the property factor, the taxpayer shall disclose the nature and extent of the variance in its current year Idaho return. (3-20-97)

471. -- 474. (RESERVED)

475. PROPERTY FACTOR: NUMERATOR (RULE 475).
Section 63-3027(k), Idaho Code
01. **In General.** The numerator of the property factor shall include the average value of the real and tangible personal property owned or rented by the taxpayer and used in Idaho during the taxable year in the regular course of the taxpayer’s trade or business. (3-20-97)

02. **Property in Transit.** Property of the taxpayer that is in transit between locations shall be considered to be at the destination for purposes of the property factor. If property in transit between a buyer and seller is included by a taxpayer in the denominator of its property factor, it shall be included in the numerator according to the state of destination. (3-20-97)

03. **Mobile or Movable Property.**
   a. The value of mobile or movable property such as construction equipment, trucks, or leased electronic equipment located within and without Idaho during the taxable year shall be determined on the basis of total time and use in Idaho as a percentage of total time and use everywhere. (3-20-97)
   b. An automobile assigned to a traveling employee shall be included in the numerator of the state to which the employee’s compensation is assigned for the payroll factor or in the numerator of the state in which the automobile is licensed. (3-20-97)
   c. The value of aircraft used within and without Idaho during the taxable year shall be determined by multiplying the value of the aircraft by the ratio of departures from locations in Idaho to total departures. (7-1-98)

476. -- 479. (RESERVED)

480. **PROPERTY FACTOR: VALUATION OF OWNED PROPERTY (RULE 480).**
Section 63-3027(l), Idaho Code

01. **In General.** Property owned by a taxpayer shall be valued at its original cost. As a general rule, original cost is deemed to be the basis of the property for federal income tax purposes, prior to any federal adjustments at the time of acquisition and adjusted by subsequent capital additions or improvements and partial disposition, by reason of sale, exchange, abandonment, etc. However, capitalized intangible drilling and development costs of producing property shall be included in the property factor whether or not they have been expensed for either federal or state tax purposes. (3-20-97)

02. **Examples.**
   a. A taxpayer acquired a factory building in Idaho at a cost of five hundred thousand dollars ($500,000). Eighteen (18) months later the taxpayer remodeled the building for a cost of one hundred thousand dollars ($100,000). The taxpayer files its return on the calendar year basis. The taxpayer claimed a depreciation deduction of twenty-two thousand dollars ($22,000) on its current year return. The value of the building included in the numerator and denominator of the property factor is six hundred thousand dollars ($600,000). The depreciation deduction is not taken into account in determining the value of the building for purposes of the factor. (3-20-97)

   b. During the current taxable year, X Corporation merged into Y Corporation in a tax-free reorganization pursuant to the Internal Revenue Code. At the time of the merger, X Corporation owned a factory that it built five (5) years earlier at a cost of one million dollars ($1,000,000). X has been depreciating the factory at the rate of two percent (2%) per year. Its basis in X’s hands at the time of the merger is nine hundred thousand dollars ($900,000). Since Y acquired the property in a tax-free transaction, Y includes the property in its property factor at X’s original cost of one million dollars ($1,000,000). (3-20-97)

03. **Unknown Original Cost.** If the original cost of property cannot be determined, the property is included in the factor at its fair market value on the date it was acquired. (3-20-97)

04. **Inventory.** Inventory shall be included in the factor according to the valuation method used for federal income tax purposes. (3-20-97)
05. Gifts or Inheritance. Property acquired by gift or inheritance shall be included in the factor at its basis pursuant to the Internal Revenue Code.

481. -- 484. (RESERVED)

485. PROPERTY FACTOR: VALUATION OF RENTED PROPERTY (RULE 485).
Section 63-3027(l), Idaho Code

01. In General. Property rented by the taxpayer is valued at eight (8) times its net annual rental rate. The net annual rental rate is the annual rental rate paid by the taxpayer for the property, less the aggregate annual subrental rates paid by subtenants. Subrents are not deducted if they constitute business income because the property that produces the subrents is used in the regular course of the taxpayer’s trade or business when it is producing the income. Accordingly, there is no reduction in its value. See Rules 560 and 565 of these rules for special rules when using the net annual rental rate produces a negative or clearly inaccurate value or when the taxpayer uses property at no charge or rents it at a nominal rental rate.

02. Examples of Subrents.

a. A taxpayer receives subrents from a bakery concession in a food market operated by the taxpayer. Since the subrents are business income, they are not deducted from rent paid by the taxpayer for the food market.

b. A taxpayer rents a five (5) story office building primarily for use in its multistate business. It uses three (3) floors for its offices and subleases two (2) floors to various other businesses on a short-term basis because it anticipates it will need those two (2) floors for future expansion of its multistate business. The rental of all five (5) floors is integral to the operation of the taxpayer’s trade or business. Since the subrents are business income, they are not deducted from the rent paid by the taxpayer.

03. Annual Rental Rate. Annual rental rate is the amount paid as rent for property for a twelve (12) month period. If property is rented for less than a twelve (12) month period, the rent paid for the rental period constitutes the annual rental rate for the taxable year. However, if a taxpayer has rented property for a period of twelve (12) months or more and the current taxable year covers a period of less than twelve (12) months, the rent paid for the short taxable year shall be annualized. If the rental period is for less than twelve (12) months, the rent may not be annualized beyond its rental period. If the rental period is on a month-to-month basis, the rent may not be annualized.

04. Examples of Annual Rental Rate.

a. Taxpayer A, which ordinarily files its returns based on a calendar year, is merged into Taxpayer B on April 30. The net rent paid pursuant to a lease with five (5) years remaining is two thousand five hundred dollars ($2,500) a month. The rent for the short taxable year January 1 to April 30 is ten thousand dollars ($10,000). After the rent is annualized the net rent is thirty thousand dollars ($30,000) or ($2,500 x 12).

b. Assume the same facts as in Paragraph 485.04.a., of this rule except the lease would have terminated on August 31. In this example, the annualized net rent is twenty thousand dollars ($20,000) or ($2,500 x 8).

05. Annual Rent. Annual rent is the sum of money or other consideration payable, directly or indirectly, by the taxpayer or for the taxpayer’s benefit for the use of the property and includes:

a. Any amount payable for the use of real or tangible personal property whether the amount is a fixed sum of money or a percentage of sales, profits, or otherwise.

b. Any amount payable as additional rent or in lieu of rents, such as interest, taxes, insurance, repairs or any other items required to be paid by the terms of the lease or other arrangement, not including amounts paid as service charges, such as utilities, janitor services, etc. If a payment includes rent and other charges not separately stated, the amount of the rent shall be determined by considering the relative values of the rent and the other items.
06. **Examples of Annual Rent.** (3-20-97)

a. Pursuant to the terms of a lease, a taxpayer pays a lessor one thousand dollars ($1,000) per month as a base rental and at the end of the year pays the lessor one percent (1%) of its gross sales of four hundred thousand dollars ($400,000). The annual rent is sixteen thousand dollars ($16,000) or ($12,000 + (1% x $400,000)). (3-20-97)

b. Pursuant to the terms of a lease, a taxpayer pays a lessor twelve thousand dollars ($12,000) a year for rent, plus taxes of two thousand dollars ($2,000) and mortgage interest of one thousand dollars ($1,000). The annual rent is fifteen thousand dollars ($15,000). (3-20-97)

c. A taxpayer stores part of its inventory in a public warehouse. The total charge for the year is one thousand dollars ($1,000), of which seven hundred dollars ($700) is for storage space and three hundred dollars ($300) is for inventory insurance, handling and shipping charges, and C.O.D. collections. The annual rent is seven hundred dollars ($700). (3-20-97)

07. **Exclusions.** Annual rent does not include any of the following: (3-20-97)

a. Incidental day-to-day expenses such as hotel or motel accommodations, daily rental of automobiles, etc. (3-20-97)

b. Royalties based on extraction of natural resources, whether represented by delivery or purchase. For this purpose, a royalty includes any consideration conveyed or credited to a holder of an interest in property that constitutes a sharing of current or future production of natural resources from the property, whether designated as a royalty, advance royalty, rental, or otherwise. (3-20-97)

08. **Leasehold Improvements.** Leasehold improvements shall be treated as property owned by the lessee regardless of whether the lessee is entitled to remove the improvements or they revert to the lessor when the lease expires. The original cost of leasehold improvements shall be included in the lessee’s factor. (3-20-97)

09. **Safe Harbor Lease.** Property subject to a safe harbor lease shall be reported in the factor of the actual user of the property at original acquisition cost. (3-20-97)

486. -- 489. **(RESERVED)**

**490. PROPERTY FACTOR: AVERAGING PROPERTY VALUES (RULE 490).**
Section 63-3027(m), Idaho Code

01. **In General.** The average value of property owned by a taxpayer shall be determined by averaging the values at the beginning and end of the taxable year. (3-20-97)

02. **Monthly Averaging.** The Tax Commission may require or allow averaging by monthly values if that method of averaging is required to properly reflect the average value of the taxpayer’s property for the taxable year. Averaging by monthly values generally applies if there are substantial fluctuations in the property values during the taxable year or if property is acquired or disposed of during the taxable year. (3-20-97)

03. **Rented Property.** Rented property is averaged automatically by determining the net annual rental rate of the property as set forth in Rule 485 of these rules. (3-20-97)

491. -- 499. **(RESERVED)**

**500. PAYROLL FACTOR: IN GENERAL (RULE 500).**
Section 63-3027(n), Idaho Code

01. **In General.** The payroll factor of the apportionment formula for each trade or business of the taxpayer includes the total amount paid for compensation during the taxable year by the taxpayer in the regular course of its trade or business. (3-20-97)
02. **Compensation.** For purposes of the payroll factor, compensation means wages, salaries, commissions and any other form of remuneration paid to employees for personal services. (3-20-97)

   a. Compensation includes the value of board, rent, housing, lodging, and other benefits or services the taxpayer furnished to employees in return for personal services if the amounts constitute income to the recipient pursuant to the Internal Revenue Code. (3-20-97)

   b. If employees are not subject to the Internal Revenue Code, for example, those employed in foreign countries, the determination of whether the benefits or services would constitute income to the employees is made as if the employees were subject to the Internal Revenue Code. (3-20-97)

   c. If wages paid to employees are capitalized into the cost of an asset that is used in the regular course of the taxpayer’s trade or business, these wages are included in the payroll factor. (3-20-97)

03. **Amount Paid.** The total amount paid to employees is determined by the taxpayer’s accounting method. If the taxpayer uses the accrual method of accounting, all compensation properly accrued is deemed to have been paid. At the election of the taxpayer, compensation paid to employees may be included in the payroll factor by using the cash method if the taxpayer is required to use that method to report compensation for unemployment insurance purposes. (3-20-97)

04. **Employee.** For purposes of the payroll factor, employee means any officer of a corporation, or any individual who, pursuant to the usual common-law rules applicable in determining the employer-employee relationship, has the status of an employee. Generally, a person is considered an employee if he is included by the taxpayer as an employee for purposes of the payroll taxes imposed by the Federal Insurance Contributions Act (FICA); except that, since certain individuals are included within the term employees in the FICA who would not be employees pursuant to the usual common-law rules, it may be established that a person who is included as an employee for purposes of the FICA is not an employee for purposes of this rule. (3-20-97)

05. **Exclusions.** The following are excluded from the payroll factor: (3-20-97)

   a. Compensation paid to an employee for services connected with the production of nonbusiness income; (3-20-97)

   b. Payments to an independent contractor or a person not properly classifiable as an employee. (3-20-97)

06. **Year to Year Consistency.** If a taxpayer departs from or modifies the method used for treating compensation paid in prior year Idaho returns, the taxpayer shall disclose the nature and extent of all modifications in its current year return. (3-20-97)

07. **State to State Consistency.** If the returns or reports filed by a taxpayer with all states to which the taxpayer reports pursuant to Section 63-3027, Idaho Code; Article IV of the Multistate Tax Compact; or the Uniform Division of Income for Tax Purposes Act are not uniform in treating compensation paid, the taxpayer shall disclose the nature and extent of the variance in its current year Idaho return. (3-20-97)

501. -- 504. (RESERVED)

505. **PAYROLL FACTOR: DENOMINATOR (RULE 505).**

Section 63-3027(n), Idaho Code

01. **In General.** The denominator of the payroll factor is the total compensation paid everywhere during the taxable year. Accordingly, compensation paid to employees whose services are performed entirely in a state where the taxpayer is immune from taxation, for example, by Public Law 86-272, is included in the denominator of the payroll factor. The denominator may not exceed the sum of all numerators. (3-20-97)

02. **Example.** A taxpayer has employees in States A, B, and C. However, in State C the taxpayer is immune from taxation by Public Law 86-272. The compensation paid to employees for services performed in State C
is assigned to that state. This compensation is included in the denominator even though the taxpayer is not taxable in State C. (3-20-97)

506. -- 509. (RESERVED)

510. PAYROLL FACTOR: NUMERATOR (RULE 510).
Section 63-3027(n), Idaho Code. The numerator of the payroll factor is the total amount the taxpayer paid for compensation in Idaho during the taxable year. The tests in Section 63-3027(o), Idaho Code, apply in determining whether compensation is paid in Idaho. It shall be presumed that the total wages reported by the taxpayer to Idaho for unemployment insurance purposes constitute compensation paid in Idaho except compensation excluded by Rules 500 through 524 of these rules. The presumption may be overcome by satisfactory evidence that an employee’s compensation is not properly reportable to Idaho for unemployment insurance purposes. (3-20-97)

511. -- 514. (RESERVED)

515. PAYROLL FACTOR: COMPENSATION PAID IN IDAHO (RULE 515).
Section 63-3027(o), Idaho Code

01. In General. Compensation is paid in Idaho if one of the tests in Section 63-3027(o), Idaho Code, is met. (3-20-97)

02. Definitions. The following definitions shall be used for purposes of the payroll factor: (3-20-97)

a. Incidental means a service that is temporary or transitory in nature, or that is rendered in connection with an isolated transaction. (3-20-97)

b. Base of operations means the place of a more or less permanent nature where the employee starts his work and where he customarily returns to receive instructions from the taxpayer or communications from his customers or other persons, or to replenish stock or other materials, repair equipment, or perform any other functions necessary to his trade or profession. (3-20-97)

c. Place from which the service is directed or controlled means the place where the power to direct or control is exercised by the taxpayer. (3-20-97)

516. -- 524. (RESERVED)

525. SALES FACTOR: IN GENERAL (RULE 525).
Section 63-3027(p), Idaho Code

01. In General. Sales means all gross receipts of a taxpayer not allocated as nonbusiness income. The sales factor for each trade or business of the taxpayer includes all gross receipts derived by the taxpayer from transactions and activity in the regular course of that trade or business. (3-20-97)

02. Examples. (3-20-97)

a. If a taxpayer manufactures and sells or purchases and resells goods or products, sales includes all gross receipts from sales of the goods or products held primarily for sale to customers in the ordinary course of the taxpayer’s trade or business. Sales also includes gross receipts from the sale of other property that would be properly included in the taxpayer’s inventory if on hand at the close of the taxable year. Gross receipts means gross sales, less returns and allowances and includes all interest income, service charges, carrying charges, or time-price differential charges incidental to the sales. Federal and state excise taxes, including sales taxes, are included in gross receipts if these taxes are passed on to the buyer or included in the product’s selling price. (3-20-97)

b. In the case of cost plus fixed fee contracts, such as the operation of a government-owned plant for a fee, sales includes the entire reimbursed cost plus the fee. (3-20-97)

c. If a taxpayer provides services, such as operating an advertising agency, or performing equipment
service contracts or research and development contracts, sales includes the gross receipts from performing the service, including fees, commissions, and similar items. (3-20-97)

d. If a taxpayer rents real or tangible property, sales includes the gross receipts from the renting, leasing, or licensing the use of the property. (3-20-97)

e. If a taxpayer sells, assigns, or licenses intangible personal property, such as patents and copyrights, sales includes the gross receipts from these transactions. (3-20-97)

f. If a taxpayer derives receipts from selling equipment used in its business, the receipts constitute sales. For example, a trucking company owns a fleet of trucks and sells its trucks according to a regular replacement program. The gross receipts from the sale of the trucks are included in the sales factor. (3-20-97)

g. If a taxpayer derives receipts from foreign source dividends that are apportionable business income, the receipts constitute sales. No other apportionment factor relief is permitted to include this dividend income. Section 78, Internal Revenue Code, foreign dividend gross-up is excluded from sales. (3-20-97)

03. Disregarding Gross Receipts. In some cases, certain gross receipts should be disregarded in determining the sales factor so that the apportionment formula operates fairly to apportion the income of the taxpayer’s trade or business to Idaho. See Rule 570 of these rules. (3-20-97)

04. Year to Year Consistency. If a taxpayer departs from or modifies the basis used for excluding or including gross receipts in the sales factor in prior year Idaho returns, the taxpayer shall disclose the nature and extent of all modifications in its current year return. (3-20-97)

05. State to State Consistency. If the returns or reports filed by a taxpayer with all states to which the taxpayer reports pursuant to Section 63-3027, Idaho Code; Article IV of the Multistate Tax Compact; or the Uniform Division of Income for Tax Purposes Act are not uniform in including or excluding gross receipts, the taxpayer shall disclose the nature and extent of the variance in its current year Idaho return. (3-20-97)

526. -- 529. (RESERVED)

530. SALES FACTOR: DENOMINATOR (RULE 530). Section 63-3027(p), Idaho Code. The denominator of the sales factor includes the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business, except receipts excluded by Rules 525 through 559 and Rule 570 of these rules. The denominator may not exceed the sum of all the numerators. (3-20-97)

531. -- 534. (RESERVED)

535. SALES FACTOR: NUMERATOR (RULE 535). Section 63-3027(p), Idaho Code. The numerator of the sales factor includes gross receipts attributable to Idaho and derived by the taxpayer from transactions and activity in the regular course of its trade or business. All interest income, service charges, carrying charges, or time-price differential charges incidental to gross receipts are included regardless of where the accounting records are maintained or the location of the contract or other evidence of indebtedness. (3-20-97)

536. -- 539. (RESERVED)

540. SALES FACTOR: SALES OF TANGIBLE PERSONAL PROPERTY IN IDAHO (RULE 540). Section 63-3027(q), Idaho Code

01. Gross Receipts. Gross receipts from sales of tangible personal property, except sales to the United States Government as discussed in Rule 545 of these rules, are in Idaho if:

a. The property is delivered or shipped to a purchaser in Idaho regardless of the f.o.b. point or other conditions of sale; or
b. The property is shipped from an office, store, warehouse, factory, or other place of storage in Idaho and the taxpayer is not taxable in the state of the purchaser. (3-20-97)

02. Destination Sales. (3-20-97)

a. Property is deemed to be delivered or shipped to a purchaser in Idaho if the recipient is in Idaho even though the property is ordered from outside Idaho. Example: A taxpayer, with inventory in State A, sold one hundred thousand dollars ($100,000) of its products to a purchaser with branch stores in several states including Idaho. The order for the purchase was placed by the purchaser’s central purchasing department in State B. Twenty-five thousand dollars ($25,000) of the purchase order was shipped directly to purchaser’s branch store in Idaho. The branch store in Idaho is the purchaser in Idaho with respect to twenty-five thousand dollars ($25,000) of the taxpayer’s sales. (3-20-97)

b. Property is delivered or shipped to a purchaser in Idaho if the shipment terminates in Idaho, even if the property is subsequently transferred to another state by the purchaser. Example: A taxpayer makes a sale to a purchaser who maintains a central warehouse in Idaho where all merchandise purchases are received. The purchaser reships the goods to its branch stores in other states for sale. All of the taxpayer’s products shipped to the purchaser’s warehouse in Idaho constitute property delivered or shipped to a purchaser in Idaho. (3-20-97)

03. Purchaser. The term purchaser in Idaho includes the ultimate recipient of the property if at the request of the purchaser the taxpayer in Idaho delivers to or has the property shipped to the ultimate recipient in Idaho. Example: A taxpayer in Idaho sold merchandise to a purchaser in State A. The taxpayer directed the manufacturer or supplier of the merchandise in State B to ship the merchandise to the purchaser’s customer in Idaho according to the purchaser’s instructions. The sale by the taxpayer is in Idaho. (3-20-97)

04. Diverted Shipment. If a seller ships property from the state of origin to a consignee in another state, and the property is diverted while en route to a purchaser in Idaho, the sales are in Idaho. Example: The taxpayer, a produce grower in State A, begins shipping perishable produce to the purchaser’s place of business in State B. While en route the produce is diverted to the purchaser’s place of business in Idaho where the taxpayer is subject to tax. The sale by the taxpayer is in Idaho. (3-20-97)

05. Throwback Sales. If a taxpayer is not taxable in the state of the purchaser, the sale is attributed to Idaho if the property is shipped from an office, store, warehouse, factory, or other place of storage in Idaho. Example: A taxpayer has its head office and factory in State A. It has a branch office and inventory in Idaho. The taxpayer’s only activity in State B is the solicitation of orders by a resident salesman. All orders by the State B salesman are sent to the branch office in Idaho for approval and are filled by shipment from the inventory in Idaho. Since the taxpayer is immune from tax in State B by Public Law 86-272, all sales of merchandise to purchasers in State B are attributed to Idaho, the state from which the merchandise was shipped. (3-20-97)

06. Third-Party Throwback Sales. If a taxpayer’s salesman operating from an office in Idaho makes a sale to a purchaser in another state where the taxpayer is not taxable and the property is shipped directly by a third party to the purchaser, the following rules apply: (3-20-97)

a. If the taxpayer is taxable in the state from which the third-party ships the property, the sale is in that state. (3-20-97)

b. If the taxpayer is not taxable in the state from which the property is shipped, the sale is in Idaho. (3-20-97)

c. Example. A taxpayer in Idaho sold merchandise to a purchaser in State A. The taxpayer is not taxable in State A. On direction of the taxpayer, the merchandise was shipped directly to the purchaser by the manufacturer in State B. If the taxpayer is taxable in State B, the sale is in State B. If the taxpayer is not taxable in State B, the sale is in Idaho. (3-20-97)

541. -- 544. (RESERVED)
SALES FACTOR: SALES OF TANGIBLE PERSONAL PROPERTY TO THE UNITED STATES GOVERNMENT IN IDAHO (RULE 545).
Section 63-3027(q), Idaho Code

**01. In General.** Gross receipts from sales of tangible personal property to the United States Government are in Idaho if the property is shipped from an office, store, warehouse, factory, or other place of storage in Idaho. For purposes of this rule, only sales for which the United States Government makes direct payment to the seller pursuant to the terms of a contract constitute sales to the United States Government. Generally, sales by a subcontractor to the prime contractor, the party to the contract with the United States Government, are not sales to the United States Government. (3-20-97)

**02. Examples.** (3-20-97)

a. A taxpayer contracts with the General Services Administration to deliver a truck that was paid for by the United States Government. The sale is a sale to the United States Government. (3-20-97)

b. A taxpayer as a subcontractor to a prime contractor with the National Aeronautics and Space Administration contracts to build a rocket component for one million dollars ($1,000,000). The sale by the subcontractor to the prime contractor is not a sale to the United States Government. (3-20-97)

SALES FACTOR: SALES OTHER THAN SALES OF TANGIBLE PERSONAL PROPERTY IN IDAHO (RULE 550).
Section 63-3027(r), Idaho Code

**01. In General.** Section 63-3027(r), Idaho Code, provides for the inclusion in the numerator of the sales factor of gross receipts from transactions other than sales of tangible personal property, including transactions with the United States Government. Gross receipts are attributed to Idaho if the income producing activity that generates the receipts is performed wholly within Idaho. Also, gross receipts are attributed to Idaho if, with respect to a particular item of income, the income producing activity is performed within and without Idaho but the greater part of the income producing activity is performed in Idaho, based on costs of performance. (3-20-97)

**02. Income Producing Activity.** The term income producing activity applies to each separate item of income and means the transactions and activity engaged in by the taxpayer in the regular course of its trade or business for the ultimate purpose of producing that item of income. The activity includes transactions and activities performed on behalf of a taxpayer, such as those conducted on its behalf by an independent contractor. (5-8-09)

a. Income producing activity includes the following: (5-8-09)

i. The rendering of personal services by employees or by an agent or independent contractor acting on behalf of the taxpayer or the use of tangible and intangible property by the taxpayer or by an agent or independent contractor acting on behalf of the taxpayer in performing a service; (5-8-09)

ii. The sale, rental, leasing, licensing or other use of real property; (3-20-97)

iii. The rental, leasing, licensing or other use of tangible personal property; and (5-8-09)

iv. The sale, licensing or other use of intangible personal property. (5-8-09)

b. The mere holding of intangible personal property is not, by itself, an income producing activity. (3-20-97)

**03. Costs of Performance.** Costs of performance are the direct costs determined in a manner consistent with generally accepted accounting principles and according to accepted conditions or practices of the taxpayer’s trade or business to perform the income producing activity that gives rise to the particular item of income. Included in the taxpayer’s cost of performance are taxpayer’s payments to an agent or independent contractor for the
performance of personal services and utilization of tangible and intangible property that give rise to the particular item of income. (5-8-09)

04. Application. In general, receipts, other than from sales of tangible personal property, in respect to a particular income producing activity are in Idaho if:

a. The income producing activity is performed wholly in Idaho; or

b. The income producing activity is performed both within and without Idaho and a greater part of the income producing activity is performed in Idaho than in any other state, based on costs of performance. (3-20-97)

05. Special Rules. The following are rules and examples for determining when receipts from the income producing activities described below are in Idaho:

a. Gross receipts from the sale, lease, rental or licensing of real property are in Idaho if the real property is located in Idaho. (3-20-97)

b. Gross receipts from the rental, lease or licensing of tangible personal property are in Idaho if the property is located in Idaho. The rental, lease, licensing or other use of tangible personal property in Idaho is a separate income producing activity from the rental, lease, licensing or other use of the same property while in another state. Consequently, if property is within and without Idaho during the rental, lease or licensing period, gross receipts attributable to Idaho shall be measured by the ratio that the time the property was present or used in Idaho bears to the total time or use of the property everywhere during the period. (3-20-97)

c. Example. A taxpayer owns ten (10) bulldozers. During the year, each bulldozer was in Idaho fifty (50) days. The receipts attributable to the use of each bulldozer in Idaho are separate items of income and are determined as follows: ((ten (10) bulldozers x fifty (50) days) / (ten (10) bulldozers x three hundred sixty five (365) days)) x total receipts = receipts attributable to Idaho. (3-20-97)

d. Gross receipts for the performance of personal services are attributable to Idaho to the extent the services are performed in Idaho. If services relating to a single item of income are performed within and without Idaho, they are attributable to Idaho only if a greater portion of the services were performed in Idaho, based on costs of performance. Usually if services are performed within and without Idaho, they constitute a separate income producing activity. In this case the gross receipts attributable to Idaho are measured by the ratio that the time spent in performing the services in Idaho bears to the total time spent in performing the services everywhere. Time spent in performing services includes the time spent in performing a contract or other obligation that generates the gross receipts. This computation does not include personal service not directly connected with the performance of the contract or other obligation, as for example, time spent in negotiating the contract. (3-20-97)

e. Example. The taxpayer, a road show, gave theatrical performances at various location in State X and in Idaho during the tax period. All gross receipts from performances given in Idaho are attributed to Idaho. (3-20-97)

f. Example. The taxpayer, a public opinion survey corporation, conducted a poll in State X and in Idaho for the sum of nine thousand dollars ($9,000). The project required six hundred (600) man hours to obtain the basic data and prepare the survey report. Two hundred (200) of the six hundred (600) man hours were expended in Idaho. The receipts attributable to Idaho are three thousand dollars ($3,000): (200 man hours/600 man hours) x $9,000. (3-20-97)

06. Services on Behalf of the Taxpayer. An income producing activity performed on behalf of a taxpayer by an agent or independent contractor is attributed to Idaho if such income producing activity is in Idaho.

a. Such income producing activity is in Idaho: (5-8-09)

i. When the taxpayer can reasonably determine at the time of filing that the income producing activity is actually performed in Idaho by the agent or independent contractor. However, if the activity occurs in more than
one state, the location where the income producing activity is actually performed shall be deemed to be not reasonably determinable at the time of filing under Subparagraph 550.06.a.i. of this rule.

ii. If the taxpayer cannot reasonably determine at the time of filing where the income producing activity is actually performed, when the contract between the taxpayer and the agent or independent contractor indicates it is to be performed in Idaho and the portion of the taxpayer’s payment to the agent or contractor associated with such performance is determinable under the contract.

iii. If it cannot be determined where the income producing activity is actually performed and the agent or independent contractor’s contract with the taxpayer does not indicate where it is to be performed, when the contract between the taxpayer and the taxpayer’s customer indicates it is to be performed in Idaho and the portion of the taxpayer’s payment to the agent or contractor associated with such performance is determinable under the contract; or

iv. If it cannot be determined where the income producing activity is actually performed and neither contract indicates where it is to be performed or the portion of the payment associated with such performance, when the domicile of the taxpayer’s customer is in this state. If the taxpayer’s customer is not an individual, “domicile” means commercial domicile.

b. If the location of the income producing activity by an agent or independent contractor, or the portion of the payment associated with such performance, cannot be determined under Subparagraphs 550.06.a.i. through 550.06.a.iii. of this rule, or the taxpayer’s customer’s domicile cannot be determined under Subparagraph 550.06.a.iv. of this rule, or, although determinable, such income producing activity is in a state in which the taxpayer is not taxable, such income producing activity shall be disregarded.

551. -- 559. (RESERVED)

560. SPECIAL RULES (RULE 560).

Section 63-3027(s), Idaho Code

01. In General. A departure from the allocation and apportionment provisions of Section 63-3027, Idaho Code, is permitted only in limited and specific cases where the apportionment and allocation provisions contained in Section 63-3027, Idaho Code, produce incongruous results.

02. Alternate Methods. If the allocation and apportionment provisions of Section 63-3027, Idaho Code, do not fairly represent the extent of all or any part of a taxpayer’s business activity in Idaho, the taxpayer may petition for or the Tax Commission may require:

a. Separate accounting;

b. The exclusion of one (1) or more of the factors;

c. The inclusion of one (1) or more additional factors that fairly represent the taxpayer’s business activity in Idaho; or

d. The use of any other method to achieve an equitable allocation and apportionment of the taxpayer’s income.

03. Special Industry Methods. Rules 460 through 559 of these rules do not set forth appropriate procedures for determining the apportionment factors of certain industries. Nothing in Section 63-3027(s), Idaho Code, or in Rules 560 through 599 of these rules precludes the Tax Commission from establishing appropriate procedures pursuant to Sections 63-3027(k) through 63-3027(r), Idaho Code, for determining the apportionment factors for each of these industries. These procedures will be applied uniformly. See Rule 580 of these rules for the list of the special industries.
565.  SPECIAL RULES: PROPERTY FACTOR (RULE 565).
Section 63-3027(s), Idaho Code

01.  Subrents.  

   a.  In General. If the subrents taken into account in determining the net annual rental rate pursuant to Rule 485 of these rules produce a negative or clearly inaccurate value for any item of property, another method that properly reflects the value of rented property may be required by the Tax Commission or requested by the taxpayer. The value may not be less than an amount that bears the same ratio to the annual rental rate paid by the taxpayer for the property as the fair market value of that portion of the property used by the taxpayer bears to the total fair market value of the rented property.  

   b.  Example. A taxpayer rents a ten (10) story building at an annual rental rate of one million dollars ($1,000,000). The taxpayer occupies two (2) stories and sublets eight (8) stories for one million dollars ($1,000,000) a year. The taxpayer’s net annual rental rate may not be less than two-tenths (0.2) of the taxpayer’s annual rental rate for the entire year, or two hundred thousand dollars ($200,000).  

02.  Market Rental Rate. If property owned by others is used by the taxpayer at no charge or rented by the taxpayer for a nominal rate, the net annual rental rate for the property is determined based on a reasonable market rental rate for the property.  

566. -- 569.  (RESERVED)  

570.  SPECIAL RULES: SALES FACTOR (RULE 570).
Section 63-3027(s), Idaho Code

01.  Gross Receipts from Intangibles.  

   a.  If the income producing activity in respect to business income from intangible personal property can be readily identified, the gross receipts are included in the denominator of the sales factor and, if the income producing activity occurs in Idaho, in the numerator of the sales factor as well.  

   b.  Notwithstanding Rule 550 of these rules, gross receipts from the sale of an ownership interest in another entity are included in the sales factor numerator based on the proportion of the entity’s operational assets located in Idaho. The amount included is determined by multiplying the gross receipts received by the percentage of the entity’s total real and tangible personal property located in Idaho at the time of the sale.  

   c.  If business income from intangible property cannot readily be attributed to any particular income producing activity of the taxpayer, the gross receipts are excluded from the denominator and numerator of the sales factor. For example, if business income in the form of dividends received on stock, royalties received on patents or copyrights, and interest received on bonds, debentures or government securities results from the mere holding of the intangible personal property by the taxpayer, the dividends, royalties and interest are excluded from the denominator and numerator of the sales factor.  

   d.  This rule is not intended to limit the ability of the Tax Commission to allow or require alternative apportionment when appropriate to fairly represent the extent of the taxpayer’s business activity in this state. As a result, alternative apportionment may be allowed or required even if the income producing activity with respect to business income derived from intangible personal property can be readily identified.  

02.  Net Gains. If gains and losses on the sale of liquid assets are not excluded from the sales factor by other provisions of this rule, such gains or losses are treated as provided in Subsection 570.02 of this rule. This subsection does not provide rules relating to the treatment of other receipts produced from holding or managing such assets. If a taxpayer holds liquid assets in connection with one (1) or more treasury functions of the taxpayer, and the liquid assets produce business income when sold, exchanged or otherwise disposed, the overall net gain from those transactions for each treasury function for the tax period is included in the sales factor. For purposes of Subsection 570.02 of this rule, each treasury function is considered separately.
a. For purposes of Subsection 570.02 of this rule, a liquid asset is an asset, other than functional currency or funds held in bank accounts, held to provide a relatively immediate source of funds to satisfy the liquidity needs of the trade or business. Liquid assets include foreign currency, and trading positions therein, other than functional currency used in the regular course of the taxpayer’s trade or business; marketable instruments, including stocks, bonds, debentures, bills, notes, options, warrants, futures contracts; and mutual funds which hold such liquid assets. An instrument is considered marketable if it is traded in an established stock or securities market and is regularly quoted by brokers or dealers in making a market. Stock in a corporation that is unitary with the taxpayer or has a substantial business relationship with the taxpayer is not considered marketable stock. (2-27-12)

b. For purposes of Subsection 570.02 of this rule, a treasury function is the pooling and management of liquid assets for the purpose of satisfying the cash flow needs of the trade or business, such as providing liquidity for a taxpayer’s business cycle, providing a reserve for business contingencies, and providing for business acquisitions. A taxpayer principally engaged in the trade or business of purchasing and selling instruments or other items included in the definition of liquid assets set forth herein is not performing a treasury function with respect to income so produced. (2-27-12)

c. Overall net gain refers to the total net gain from all transactions incurred at each treasury function for the entire tax period, not the net gain from a specific transaction. (4-5-00)

d. Examples. (4-5-00)
i. A taxpayer manufactures various gift items. Because of seasonal variations, the taxpayer must keep liquid assets available for later inventory acquisitions. Because the taxpayer wants to obtain a return on available funds, the taxpayer acquires liquid assets, which are held and managed in State A. The net gain resulting from all gains and losses on the sale of the liquid assets for the tax year will be reflected in the denominator of the sales factor and in the numerator of State A. (4-5-00)

ii. A stockbroker acts as a dealer or trader for its own account in its ordinary course of business. Some of the instruments sold are liquid assets. Subsection 570.02 of this rule does not operate to classify those sales as attributable to a treasury function. (2-27-12)

03. Commissions and Fee Income Related to the Sale of Another Taxpayer’s Real Property. Notwithstanding the provisions of Rule 550 of these rules, gross receipts from commissions or fees arising as a result of the personal services and activities associated with the selling of another taxpayer’s real property are sourced to the state where the real property is located. (2-27-12)

579. (RESERVED)

580. SPECIAL RULES: SPECIAL INDUSTRIES (RULE 580). Section 63-3027(s), Idaho Code

01. Adoption of MTC Special Industry Regulations. This rule incorporates by reference the MTC special industry regulations as adopted in Subsection 006.01 of these rules. Copies of the MTC special industry regulations may also be obtained from the main office of the Idaho State Tax Commission. The following special industries shall apportion income in accordance with the applicable MTC regulation:

a. Construction Contractors. The apportionment of income derived by a long-term construction contractor shall be computed in accordance with MTC Regulation IV.18.(d) as adopted July 10, 1980; (3-20-97)

b. Airlines. The apportionment of income derived by an airline shall be computed in accordance with MTC Regulation IV.18.(e) as adopted July 14, 1983; (3-20-97)

c. Railroads. The apportionment of income derived by a railroad shall be computed in accordance with MTC Regulation IV.18.(f) as adopted July 16, 1981; (3-20-97)

d. Trucking Companies. The apportionment of income derived by motor common carriers, motor contract carriers, or express carriers that primarily transport tangible personal property of others shall be computed in
accordance with MTC Regulation IV.18.(g). as amended July 27, 1989, for taxable years beginning on or after January 1, 1997. (7-1-98)

e. Television and Radio Broadcasting. The apportionment of income derived from television and radio broadcasting shall be computed in accordance with MTC Regulation IV.18.(h). as amended April 25, 1996, for taxable years beginning on or after January 1, 1995. (3-20-97)

f. Publishing. The apportionment of income derived from the publishing, sale, licensing or other distribution of books, newspapers, magazines, periodicals, trade journals or other printed material shall be computed in accordance with MTC Regulation IV.18.(j). as adopted July 30, 1993, for taxable years beginning on or after January 1, 1995. (3-20-97)

g. Financial Institutions. See Rule 582 of these rules for the apportionment of income by a financial institution for taxable years beginning on or after January 1, 1998. (7-1-98)

02. References. See Rule 581 of these rules for the applicability of references used in the MTC special industry regulations and the calculation of the apportionment percentage. (3-15-02)

SPECIAL RULES: REFERENCES USED IN MTC SPECIAL INDUSTRY REGULATIONS (RULE 581).
Section 63-3027(s), Idaho Code. For purposes of applying the rules applicable to Section 63-3027, Idaho Code, references in the MTC special industry regulations shall mean the following: (3-20-97)

01. Article IV. Of The Multistate Tax Compact. (3-20-97)

a. Article IV. shall mean Section 63-3027, Idaho Code. (3-20-97)

b. Article IV.1 shall mean Section 63-3027(a), Idaho Code. (3-20-97)

c. Article IV.2 shall mean Section 63-3027(b), Idaho Code. (3-20-97)

d. Article IV.3 shall mean Section 63-3027(c), Idaho Code. (3-20-97)

e. Article IV.4 shall mean Section 63-3027(d), Idaho Code. (3-20-97)

f. Article IV.5 shall mean Section 63-3027(e), Idaho Code. (3-20-97)

g. Article IV.6 shall mean Section 63-3027(f), Idaho Code. (3-20-97)

h. Article IV.7 shall mean Section 63-3027(g), Idaho Code. (3-20-97)

i. Article IV.8 shall mean Section 63-3027(h), Idaho Code. (3-20-97)

j. Article IV.9 shall mean Section 63-3027(i), Idaho Code. (3-20-97)

k. Article IV.10 shall mean Section 63-3027(k), Idaho Code. (3-20-97)

l. Article IV.11 shall mean Section 63-3027(l), Idaho Code. (3-20-97)

m. Article IV.12 shall mean Section 63-3027(m), Idaho Code. (3-20-97)

n. Article IV.13 shall mean Section 63-3027(n), Idaho Code. (3-20-97)

o. Article IV.14 shall mean Section 63-3027(o), Idaho Code. (3-20-97)

p. Article IV.15 shall mean Section 63-3027(p), Idaho Code. (3-20-97)
q. Article IV.16 shall mean Section 63-3027(q), Idaho Code. (3-20-97)

r. Article IV.17 shall mean Section 63-3027(r), Idaho Code. (3-20-97)

s. Article IV.18 shall mean Section 63-3027(s), Idaho Code. (3-20-97)

02. MTC Regulations.

a. Regulation IV.1 shall mean Rules 330 through 354 of these rules. (3-20-97)

b. Regulation IV.2 shall mean Rule 325 and Rules 355 through 384 of these rules. (3-20-97)

c. Regulation IV.3 shall mean Rules 385 through 399 of these rules. (3-20-97)

d. Regulation IV.9 shall mean Rules 450 through 459 of these rules. (3-20-97)

e. Regulation IV.10 shall mean Rules 460 through 479 of these rules. (3-20-97)

f. Regulation IV.11 shall mean Rules 480 through 489 of these rules. (3-20-97)

g. Regulation IV.12 shall mean Rules 490 through 499 of these rules. (3-20-97)

h. Regulation IV.13 shall mean Rules 500 through 514 of these rules. (3-20-97)

i. Regulation IV.14 shall mean Rules 515 through 524 of these rules. (3-20-97)

j. Regulation IV.15 shall mean Rules 525 through 539 of these rules. (3-20-97)

k. Regulation IV.16 shall mean Rules 540 through 549 of these rules. (3-20-97)

l. Regulation IV.17 shall mean Rules 550 through 559 of these rules. (3-20-97)

m. Regulation IV.18.(a) shall mean Rules 560 through 564 of these rules. (3-20-97)

n. Regulation IV.18.(b) shall mean Rules 565 through 569 of these rules. (3-20-97)

o. Regulation IV.18.(c) shall mean Rules 570 through 574 of these rules. (3-20-97)

03. Tax Administrator. Tax Administrator shall mean Tax Commission. (3-20-97)

04. This State. This state shall mean Idaho. (3-20-97)

05. The Apportionment Percentage.

a. References in MTC Regulation IV.18.(d) to the computation of the apportionment percentage being the total of the property, payroll and sales percentages divided by three (3), shall be replaced with the total of property, payroll, and two (2) times the sales percentages divided by four (4) as required by Section 63-3027(i), Idaho Code. (3-20-97)

b. Examples. Since the Idaho sales factor is double-weighted, examples using a single-weighted sales factor shall be adjusted accordingly. (3-20-97)

582. SPECIAL RULES: FINANCIAL INSTITUTIONS (RULE 582).

01. Adoption of MTC Recommended Formula for the Apportionment and Allocation of Net Income of Financial Institutions. This rule incorporates by reference the MTC “Recommended Formula for the
Apportionment and Allocation of Net Income of Financial Institutions” as adopted in Subsection 006.02 of these rules. A copy of this regulation may be obtained from the main office of the Idaho State Tax Commission. (5-3-03)

02. **Definition of Financial Institution.** “Financial institution” means:

a. Any corporation or other business entity registered under state law as a bank holding company or registered under the Federal Bank Holding Company Act of 1956, as amended, or registered as a savings and loan holding company under the Federal National Housing Act, as amended; (7-1-98)

b. A national bank organized and existing as a national bank association pursuant to the provisions of the National Bank Act, Title 12, Sections 21 et seq., United States Code; (7-1-98)

c. A savings association or federal savings bank as defined in the Federal Deposit Insurance Act, Title 12, Section 1813(b)(1), United States Code; (7-1-98)

d. Any bank or thrift institution incorporated or organized under the laws of any state; (7-1-98)

e. Any corporation organized under the provisions of Title 12, Sections 611 to 631, United States Code; (7-1-98)

f. Any agency or branch of a foreign depository as defined in Title 12, Section 3101, United States Code; (7-1-98)

g. A production credit association organized under the Federal Farm Credit Act of 1933, all of whose stock held by the Federal Production Credit Corporation has been retired; (2-27-12)

h. Any corporation or other business entity that is more than fifty percent (50%) owned, directly or indirectly, by any person or business entity described in Paragraphs 582.02.a. through 582.02.g. (2-27-12)

i. A corporation or other business entity that, in the current tax year and immediately preceding two (2) tax years, derived more than fifty percent (50%) of its total gross income for financial accounting purposes from finance leases. For purposes of this subsection, a finance lease means any lease transaction which is the functional equivalent of an extension of credit and that transfers substantially all of the benefits and risks incident to the ownership of property. This includes any direct financing lease or leverage lease that meets the criteria of Financial Accounting Standards Board Statement No. 13, Accounting for Leases or any other lease that is accounted for as a financing lease by a lessor under generally accepted accounting principles. (2-27-12)

j. Any corporation or business entity that derives more than fifty percent (50%) of its gross income from activities that a person described in Paragraphs 582.02.a. through 582.02.g. and 582.02.i. of this rule is authorized to transact. For purposes of this subsection, the computation of gross income does not include income from non-recurring, extraordinary items. (2-27-12)

03. **Exclusion from Paragraph 582.02.j.** The Tax Commission is authorized to exclude any person from the application of Paragraph 582.02.j. upon such person proving, by clear and convincing evidence, that the income-producing activity of such person is not in substantial competition with those persons described in Paragraphs 582.02.a. through 582.02.g. and 582.02.i. of this rule is authorized to transact. For purposes of this subsection, the computation of gross income does not include income from non-recurring, extraordinary items. (2-27-12)

04. **Act Defined.** For purposes of applying the rules applicable to Section 63-3027, Idaho Code, references to [Act] in the MTC Recommended Formula for Financial Institutions refers to the Idaho Income Tax Act. (7-1-99)

05. **The Apportionment Percentage.** References in Section 1(b) of the MTC Recommended Formula for Financial Institutions to the computation of the apportionment percentage being determined by adding the taxpayer’s receipts factor, property factor, and payroll factor together and dividing the sum by three (3) are replaced with adding two (2) times the taxpayer’s sales factor, the taxpayer’s property factor, and the taxpayer’s payroll factor together and dividing the sum by four (4) as required by Section 63-3027(i), Idaho Code. (2-27-12)
585. EXCEPTIONS TO APPORTIONMENT FORMULA: SEPARATE ACCOUNTING (RULE 585).
Section 63-3027(s), Idaho Code. Separate accounting may be used only with prior approval of the Tax Commission. A written request must be filed with the Tax Commission at least thirty (30) days prior to the due date for filing the return. The Tax Commission shall notify the taxpayer whether the request has been approved or denied. This determination shall be based on whether the taxpayer has overcome the presumption that separate accounting will not be allowed when unitary filing and apportionment more accurately reflect the taxpayer’s income. (3-20-97)

586. EXCEPTIONS TO APPORTIONMENT FORMULA: EXCLUSION OF A FACTOR (RULE 590).
Section 63-3027(s), Idaho Code. The apportionment of income provided in Section 63-3027, Idaho Code, requires the use of the three (3) factor apportionment formula described in Section 63-3027(i), Idaho Code. However, if one (1) of the prescribed three (3) factors is inapplicable, the remaining two (2) factors shall be included as numerators of the fraction and the denominator of the fraction shall be two (2) or three (3) if necessary to maintain double weighting of the sales factor. (3-20-97)

587. EXCEPTIONS TO APPORTIONMENT FORMULA: ADDITIONAL OR SUBSTITUTE FACTORS (RULE 595).
Section 63-3027(s), Idaho Code. A factor other than the property, payroll, or sales factor may be used only with prior approval of the Tax Commission. A written request must be filed with the Tax Commission at least thirty (30) days prior to the due date for filing the return. The Tax Commission shall notify the taxpayer whether the request has been approved or denied. The taxpayer must establish that the use of the additional factor or substitute factor more accurately reflects the taxpayer’s income. (3-20-97)

600. ENTITIES INCLUDED IN A COMBINED REPORT (RULE 600).
Section 63-3027(t), Idaho Code

01. Combined Report. Each corporation that is a member of a unitary business transacting business within and without Idaho shall allocate and apportion its income to Idaho using a combined report pursuant to Rules 360 through 369 of these rules. See Rules 340 through 344 of these rules for the principles for determining the existence of a unitary business. (4-6-05)

02. Domestic International Sales Corporations. If an affiliated group subject to the income tax jurisdiction of Idaho owns more than fifty percent (50%) of the voting power of the stock of a corporation classified as a Domestic International Sales Corporation (DISC) pursuant to the provisions of Section 992, Internal Revenue Code, a combined filing with the DISC is required. (7-1-98)

03. Foreign Sales Corporations. If an affiliated group subject to the income tax jurisdiction of Idaho owns more than fifty percent (50%) of the voting power of the stock of a corporation classified as a Foreign Sales Corporation (FSC) pursuant to the provisions of Section 922, Internal Revenue Code, a combined filing with the FSC is required. (7-1-98)

04. Intercompany Transactions. If a return is filed on a combined basis, the intercompany transactions shall be eliminated to the extent necessary to properly reflect combined income and to properly compute the apportionment factor.

a. Dividends received from a real estate investment trust or a regulated investment company and not included in the pre-apportionment tax base as a result of the federal deduction for dividends paid allowed to the dividend payor are not eliminated as intercompany transactions in computing combined income. (3-30-07)

b. Internal Revenue Code Section 1248 Dividends. (3-30-07)
i. Taxpayers Using the Worldwide Filing Method. A corporation included in a worldwide combined group shall treat Section 1248 dividends as dividends for Idaho income tax purposes. An intercompany dividend elimination is allowed to the extent dividends received are paid from current or prior year earnings previously included in income subject to apportionment. (3-30-07)

ii. Taxpayers Using the Water’s Edge Filing Method. A corporation included in a water’s edge combined group shall treat Section 1248 dividends as dividends that qualify for the dividend exclusion allowed by Section 63-3027C(c)(1), Idaho Code. (3-30-07)

c. Dividends received from a stock insurance subsidiary and deducted by a mutual insurance holding company or an intermediate holding company pursuant to Section 41-3821, Idaho Code, are not eliminated as intercompany transactions in computing combined income. (3-30-07)

05. Insurance Companies. Pursuant to Section 41-405, Idaho Code, payment of an Idaho tax upon an insurance company’s premiums shall be in lieu of an income tax. (3-30-07)

a. If an insurance company is a member of a unitary business and pays the Idaho premium tax, the insurance company shall be included in the combined group and its income and factor attributes included in the combined report. The income tax attributable to the insurance company shall be deducted from the total tax computed in the combined report. Income tax credits that the insurance company may have earned may not be shared with other members of the unitary group. (3-30-07)

b. If an insurance company is a member of a unitary business and pays a premium tax to a state other than Idaho, or does not pay a premium tax to any state, the insurance company shall be included in the combined group and its income and factor attributes included in the combined report. The insurance company shall be liable for the Idaho income tax computed on its activity in Idaho and is not exempt from the income tax as a result of Section 41-405, Idaho Code. (3-30-07)

601. -- 604. (RESERVED)

605. ELEMENTS OF A WORLDWIDE COMBINED REPORT (RULE 605).
Section 63-3027(t), Idaho Code

01. Income: In General. Income for the worldwide combined group shall be computed on the same basis as taxable income subject to modifications contained in Sections 63-3022 and 63-3027, Idaho Code, and related rules. (3-20-97)

02. Income: Foreign Corporations Included in a Federal Consolidated Return. Corporations incorporated outside the United States that are included in a federal consolidated return shall include in the combined report the taxable income reported on the federal consolidated return. (3-20-97)

03. Income: Foreign Corporations Not Included in a Federal Consolidated Return. Corporations incorporated outside the United States that are not included in a federal consolidated return, shall include in the combined report either the amount in Subsection 605.03.a. or 605.03.b. as the equivalent of taxable income. The option chosen must be used for all unitary foreign corporations not included in a federal consolidated return. (3-20-97)

a. The taxpayer may use the financial net income before income taxes as reported to the United States Securities and Exchange Commission (SEC) if required to file with the SEC. If not required to file with the SEC, the taxpayer may use the financial net income before income taxes as reported to shareholders and subject to review by an independent auditor. (3-20-97)

b. The taxpayer may use the financial net income of each foreign corporation adjusted to conform to tax accounting standards as would be required by the Internal Revenue Code if the corporation were a domestic corporation required to file a federal income tax return. (3-20-97)
04. Consistent Application of Book to Tax Adjustments. If adjustments are made to conform financial net income to tax accounting standards, all book to tax adjustments as required by the Internal Revenue Code for domestic corporations shall be made for each unitary foreign corporation included in the combined report and shall be consistently applied in each year for which the worldwide method applies. These adjustments are subject to the record-keeping requirements of the Internal Revenue Code and Treasury Regulations for domestic corporations. (3-20-97)

05. Apportionment Factors. The rules for inclusion, value, and attribution of apportionment factors by location for the worldwide combined group shall be determined pursuant to Section 63-3027, Idaho Code, and related rules. Only the apportionment factor attributes of those corporations included in the worldwide combined group may be used. (3-20-97)

606. -- 619. (RESERVED)

620. ATTRIBUTING INCOME OF CORPORATIONS THAT ARE MEMBERS OF PARTNERSHIPS (RULE 620).

Section 63-3027, Idaho Code

01. In General. If a corporation required to file an Idaho income tax return is a member of an operating partnership, the corporation shall report its Idaho taxable income, including its share of income from the partnership, in accordance with this rule. For purposes of this rule, the term partnership includes a joint venture. (3-20-97)

02. Transacting Business. A corporation is transacting business in Idaho if it is a partner in a partnership that is transacting business in Idaho even though the corporation has no other contact with Idaho. In this case, both the partnership and the corporation have an Idaho filing requirement. (3-20-97)

03. Multistate Partnerships. If a partnership operates in more than one state, its income shall be apportioned and allocated on the partnership return as if the partnership were a corporation. The allocation and apportionment rules of Section 63-3027, Idaho Code, and related rules apply to the partnership. (3-20-97)

04. Partnership Income as Business Income of the Partner.

a. Income. If the income or loss of a partnership is business income or loss to a corporate partner, its share of this net business income or loss shall be apportioned together with all other net business income or loss of the corporation. Business income or loss is defined by Section 63-3027(a)(1), Idaho Code, and Rules 330 through 336 of these rules. (4-11-06)

b. Factors. A corporate partner’s share of the partnership property, payroll, and sales after intercompany eliminations, shall be included in the numerators and the denominators of the partner’s property, payroll, and sales factors when computing its apportionment formula. The partner’s share of the partnership’s property, payroll, and sales is determined by attributing the partnership’s property, payroll, and sales to the partner in the same proportion as its distributive share of partnership income if reporting net income for the taxable year or in the same proportion as its distributive share of partnership losses if reporting a net loss for the taxable year. Generally, the partnership’s property, payroll, and sales includable in the corporation’s factor computations is determined in accordance with Section 63-3027, Idaho Code, and related rules. To determine how the sales attribution rules of Section 63-3027(q), Idaho Code, apply to the sales factor of the corporate partner, the sales of the partnership are treated as if they were sales of the corporation. (3-30-01)

05. Partnership Income as Nonbusiness Income of Partner.

a. Income. If the partnership income or loss is not business income to a corporate partner, the income is nonbusiness income as defined in Section 63-3027(a)(4), Idaho Code, and Rules 335 through 339 of these rules. The corporate partner shall allocate the nonbusiness income to the state in which it was earned. The corporate partner, on its Idaho corporation income tax return, shall specifically allocate to Idaho its share of the nonbusiness income attributable to Idaho. (3-20-97)

b. Factors. If the partnership income or loss is nonbusiness income to the corporate partner, none of
the partnership property, payroll, or sales may be included in the computation of the factors of the corporation. (3-20-97)

621. -- 639. (RESERVED)

640. WATER'S EDGE: MAKING THE ELECTION (RULE 640).
Section 63-3027B, Idaho Code

01. In General. Rules 640 through 649 of these rules apply to taxpayers electing to use the water’s edge filing method. To the extent that these rules conflict with any other rules pursuant to this Act, Rules 640 through 649 of these rules control. (3-20-97)

02. The Election. The water’s edge election is made for purposes of determining which corporations are included in a combined group for Idaho income tax purposes. If a corporation is not part of a unitary group for which a combined report is required, the corporation cannot make the water’s edge election. The election must be made in accordance with Sections 63-3027B through 63-3027E, Idaho Code, and Rules 640 through 649 of these rules. (3-29-10)

a. The election may be made for a year beginning on or after January 1, 1993. The election must be filed with the original tax return for the first year of the election. If the water’s edge group changes in a subsequent year through the acquisition or disposition of a corporation with an Idaho filing requirement, a copy of the election shall be attached to the tax return for such taxable year and the changes to the water’s edge group shall be noted on the form. See Rule 643 of these rules for Change of Election. (3-29-10)

b. Any corporation included in the unitary group that files with Idaho a consent to the reasonable production of documents may make the election on behalf of the group. An election made by any member of a unitary group binds all other members regardless of any changes in the unitary group in later taxable years. (3-29-10)

c. The election must be made on a form provided by the Tax Commission and include a list of each corporation required to file an Idaho income tax return. The election must be signed by an individual authorized to bind all companies to the election. (3-29-10)

d. Idaho taxpayers having a valid water’s edge election shall compute Idaho taxable income in accordance with Sections 63-3027 and 63-3022, Idaho Code, except as modified by Sections 63-3027B through 63-3027E, Idaho Code, and Rules 640 through 649 of these rules. (3-20-97)

03. Failure to Include Election. Failure to include the election with the first return to which the election applies results in Idaho taxable income being determined in accordance with Sections 63-3027 and 63-3022, Idaho Code. (3-20-97)

641. WATER'S EDGE: ELEMENTS OF A COMBINED REPORT (RULE 641).
Section 63-3027B, Idaho Code

01. Income. Income for the water’s edge combined group is computed on the same basis as taxable income subject to modifications contained in Sections 63-3022 and 63-3027, Idaho Code, and related rules. Intercompany transactions between members of the water’s edge combined group shall be eliminated to the extent necessary to properly reflect combined income. Transactions between a member of the water’s edge combined group and a nonincluded affiliated corporation shall be included in the computation of the income of the water’s edge combined group. (4-2-08)

02. Factors. The rules for inclusion, value, and attribution of apportionment factors by location for the water’s edge combined group shall be determined pursuant to Section 63-3027, Idaho Code, and related rules. Intercompany transactions between members of the group shall be eliminated to the extent necessary to properly compute the apportionment factors of the water’s edge combined group. Transactions between a member of the water’s edge combined group and a nonincluded affiliated corporation shall be included, if appropriate, when determining apportionment factors. Dividends, to the extent included in apportionable income, shall be included in the sales factor computation. (4-2-08)
03. **Foreign Corporations Filing Protective Returns.** A foreign corporation filing a protective Form 1120-F return shall not be deemed to be filing a federal income tax return for purposes of taking into account the income and apportionment factors of affiliated corporations in a unitary relationship with the taxpayer solely on the basis of filing this federal return. If subsequent to the filing of the protective 1120-F return it is determined that the foreign corporation had income effectively connected with the United States and was required to file a federal income tax return, the income and apportionment factors of the foreign corporation shall be required to be included in the combined report of the unitary group for such taxable year and an Idaho return or amended return may be required.

(3-29-10)

642. **WATER’S EDGE: LEGAL AND PROCEDURAL REQUIREMENTS (RULE 642).**
Section 63-3027B, Idaho Code

01. **Required Form.** Proper filing of the water’s edge election and consent for production of records must be made on the form provided by the Tax Commission and included in the original income tax return for the first tax year to which the election applies.

(3-20-97)

02. **Required Information.** The following information must be included with each year’s tax return for which a water’s edge election applies:

a. A complete list of all affiliated corporations, foreign and domestic, of which more than twenty percent (20%) of the voting stock is, directly or indirectly, owned or controlled by a common owner;

(3-20-97)

b. Identifying information for each member of the water’s edge combined group, including: federal identification number, primary business activities, percent of ownership by members of the combined group, and dates of acquisition or disposition of interest;

(3-20-97)

c. A copy of the federal consolidated return, if applicable; and

(3-20-97)

d. A schedule of taxable income for each possession corporation excluded from the water’s edge group pursuant to Section 63-3027B(a), Idaho Code.

(3-20-97)

643. **WATER’S EDGE: CHANGE OF ELECTION (RULE 643).**
Section 63-3027C, Idaho Code

01. **In General.** Except as provided in Section 63-3027C(a) (1), Idaho Code, the taxpayer must submit a written petition to the Tax Commission and be granted written permission to change its reporting method from water’s edge for any subsequent tax year.

(3-20-97)

a. A change in the reporting method includes conversion from the water’s edge filing method to the worldwide filing method as well as the addition of companies previously omitted or the exclusion of companies previously included in the water’s edge combined group, except in the case of companies acquired or disposed of during the taxable year.

(3-20-97)

b. The Tax Commission may determine that one or more affiliated corporations should be included or excluded from the water’s edge combined group. Income and apportionment factors shall be modified accordingly.

(3-20-97)

02. **Written Petition.** A written petition must include the following:

a. An explanation of the legal or factual basis for requesting the change of reporting method; and

(3-20-97)

b. A computation of the taxpayer’s Idaho taxable income and tax liability computed using both the prior reporting method and the method the taxpayer is petitioning to use for the year of change.

(3-20-97)
03. **Due Date for Filing the Written Petition.** The written petition requesting the change of reporting method must be filed with the Tax Commission at least thirty (30) days prior to the due date for filing the tax return. (3-20-97)

04. **Failure to Provide Required Information.** Failure to provide complete and accurate information necessary for the Tax Commission’s review of the petition constitutes grounds for denial of the taxpayer’s petition or disregard of the taxpayer’s election. (3-20-97)

05. **Approval Attached to Original Return.** A copy of the Tax Commission’s written approval of the change in reporting method must be attached to the original return for the year in which the change is first made. (3-20-97)

06. **Appeal Rights.** A taxpayer may appeal the Tax Commission’s denial of a request to change the method of filing, by submitting a written letter of protest within sixty-three (63) days from date of the denial. If permission to change its filing method is denied, the taxpayer shall continue to file its income tax return with the method used in the previous year. If the appeal is resolved in the taxpayer’s favor, the taxpayer may file an amended return for the year of change. (3-20-97)

644. **WATER’S EDGE: DISREGARDING THE ELECTION (RULE 644).**
Sections 63-3027B and 63-3027C, Idaho Code. If a taxpayer fails to comply with Sections 63-3027B through 63-3027E, Idaho Code, and Rules 640 through 649 of these rules, the Tax Commission may disregard the water’s edge election or recompute the water’s edge combined income and apportionment factors, and assert penalties pursuant to Section 63-3046, Idaho Code, and Rules 400 through 419 of the Administration and Enforcement Rules. (3-20-97)

645. **WATER’S EDGE: TREATMENT OF DIVIDENDS (RULE 645).**
Section 63-3027C, Idaho Code

01. **Dividends Received from Payors Incorporated Outside the United States.** (1-4-19)
   a. Dividends received from payors who are incorporated outside the fifty (50) states and District of Columbia but are not included in the combined report are treated as business income. (1-4-19)
   b. As provided in Section 63-3027C(e)(1), Idaho Code, amounts included in income under sections 951 and 951A of the Internal Revenue Code are treated as dividends from payors outside the fifty (50) states and District of Columbia. (1-4-19)
   c. In order to avoid taxing income that had previously been included in Idaho apportionable income in a prior tax year, the remaining portion of the dividend that was not excluded from Idaho apportionable income under Section 63-3027C(3), Idaho Code, is excluded from Idaho apportionable income if the taxpayer can prove that the income was previously included in Idaho apportionable income in a prior tax year. (1-4-19)

02. **Dividends Received from Payors Incorporated in the United States.** Dividends received from payors who are incorporated within the fifty (50) states and District of Columbia but not included in the combined return are presumed to be business income of the water’s edge combined group. (3-20-97)

03. **Deemed Dividends from Possession Corporations.** The income of a possession corporation, excluded in Section 63-3027B(c), Idaho Code, shall be included in business income as a deemed dividend received from a payor incorporated outside the fifty (50) states and District of Columbia. The income of a possession corporation means taxable income greater than zero (0). Losses from possession corporations may not offset income of other possession corporations in determining the amount of deemed dividends. (4-5-00)

04. **Dividends from Foreign Sales Corporations.** (4-5-00)
   a. As provided in Section 63-3027C(d)(1), Idaho Code, dividends received from a Foreign Sales Corporation (FSC) shall be eliminated in the proportion that FSC federal taxable income for the year during which the dividend was paid bears to the total FSC income before taxes for that year. For purposes of computing the dividend elimination, total FSC income before taxes means book income before the deduction of federal income
b. For example, a FSC paid one million dollars ($1,000,000) in dividends during the taxable year. For that same taxable year, the FSC had federal taxable income totaling ten million dollars ($10,000,000) and total FSC income before taxes of twenty million dollars ($20,000,000). The dividends eliminated would be five hundred thousand dollars ($500,000) computed as follows: (($10,000,000 federal taxable income / $20,000,000 total FSC income before taxes) X $1,000,000 FSC dividend paid = $500,000 dividend elimination).

5. Interest Expense Offset. The interest expense offset provided in Section 63-3022M, Idaho Code, does not apply to any dividends subject to the eighty-five percent (85%) or eighty percent (80%) exclusion provided in Section 63-3027C or 63-3027E, Idaho Code.

646. WATER’S EDGE: DOMESTIC DISCLOSURE SPREADSHEET (RULE 646).
Section 63-3027E, Idaho Code

1. Filing Requirements. The domestic disclosure spreadsheet required by Section 63-3027E(b), Idaho Code, must be filed no later than six (6) months after filing the original return unless the taxpayer makes a declaration to forego the filing of the spreadsheet. The declaration is made on a year by year basis.

2. Spreadsheet Information. The spreadsheet information must be submitted using the forms contained in the Tax Commission’s “Idaho Water’s Edge Election Pamphlet” or on identically formatted forms that disclose the same information.

647. -- 699. (RESERVED)

700. CREDIT FOR INCOME TAXES PAID ANOTHER STATE OR TERRITORY: IN GENERAL (RULE 700).
Section 63-3029, Idaho Code

1. Taxpayers Entitled to the Credit. The credit for taxes paid to another state shall be allowed to qualifying individuals, estates, and trusts.

a. The credit is allowed to resident individuals who are domiciled in Idaho at the time the income was earned in another state.

b. The credit is allowed to part-year resident individuals who were domiciled or residing in Idaho at the time the income was earned in another state.

c. The credit is allowed to an estate or trust that is an Idaho resident at the time the income was earned in another state.

d. Income earned in another state shall be determined under Section 63-3026A, Idaho Code, and related rules.

2. Taxes Eligible for the Credit. The credit for taxes paid to another state is allowed for the amount of income tax imposed by another state on a qualifying individual, an S corporation, partnership, limited liability company, estate, or trust of which the individual is a shareholder, partner, member or beneficiary. For taxes paid to another state by a pass-through entity, the credit is allowed to the extent the tax is attributable to the individual as a result of his share of the entity’s taxable income in another state.

3. Taxes Not Eligible for the Credit. If any tax or portion thereof is imposed on capital stock, retained earnings, stock values, or a basis other than income, the tax is not eligible for the credit. The credit shall not be allowed for income taxes imposed by another state on income not taxed by Idaho.

4. Credit Calculated on a State-by-State Basis. The credit and credit limitations shall be calculated on a state-by-state basis. The taxpayer may not aggregate the income taxed by other states or the taxes paid to the other states for purposes of calculating the credit and its limitations.
05. **Income Tax Payable to Another State.** The income tax payable to another state shall be the tax paid after the application of all credits. The tax paid to the other state must be for the same taxable year that the credit is claimed. Tax paid to cities or counties does not qualify for the credit. (3-30-07)

06. **Limitations.** The credit for taxes paid to another state shall be limited as follows: (3-30-07)

   a. The credit allowed may not exceed the amount of tax actually paid to the other state. This includes the amount paid by a qualifying individual and the amount paid for such individual by an S corporation, partnership, limited liability company, estate, or trust. (3-29-10)

   b. If an individual receives a refund due to a refundable credit for all or part of the income tax paid by the pass-through entity, the amount of the refund attributable to the refundable credit shall reduce the income tax paid by the pass-through entity. For example, an individual domiciled in Idaho is required to pay tax in another state due to his interest in an S corporation operating in that state. In addition to the individual’s tax paid to the other state, the S corporation is required to pay an income tax to that state, of which four hundred dollars ($400) is attributable to the Idaho resident. The individual’s income tax to the other state totals three hundred dollars ($300), but he is entitled to a three-hundred sixty dollar ($360) refundable corporate tax credit due to his share of the tax paid by the pass-through entity, resulting in a net refund of sixty dollars ($60). In computing the tax actually paid to the other state, the tax paid by the pass-through entity must be reduced by the net refund received by the individual ($400 - $60 = $340). The credit for tax paid to the other state is limited to three hundred forty dollars ($340). (3-30-07)

   c. The credit may not exceed the proportion of the tax otherwise due to Idaho that the adjusted gross income of the individual derived from sources in the other state as modified by Chapter 30, Title 63, Idaho Code, bears to total adjusted gross income for the individual so modified. (3-29-10)

      i. For example, if the adjusted gross income derived in another state is twelve thousand dollars ($12,000) after taking into account the Idaho additions and subtractions required by the Idaho Income Tax Act, and the individual’s total adjusted gross income similarly modified equals fifty thousand dollars ($50,000), the credit cannot exceed twenty-four percent (24%) of the tax paid to Idaho ($12,000/$50,000 = 24% x tax paid to Idaho). (3-29-10)

      ii. See Rule 701 of these rules for information related to part-year residents. (3-29-10)

   d. The credit allowed to an estate or trust may not exceed the proportion of the tax otherwise due to Idaho that the federal total income of the estate or trust derived from sources in the other state and taxed by that state bears to the federal total income of the estate or trust. (3-29-10)

      i. Federal total income of the estate or trust derived from sources in the other state shall be determined using the Idaho sourcing rules applicable to nonresidents found in Section 63-3026A, Idaho Code and related rules. Income derived from the ownership or disposition of any interest in real or tangible personal property located in the other state shall be considered to be income derived from sources in the other state. Interest income earned on a bank account generally would not be income derived from sources in the other state as provided in Rule 266 of these rules. (3-29-10)

      ii. For example, if a trust sells Oregon property at a gain of thirty-six thousand dollars ($36,000), which is the only income derived from sources in the other state, and the trust’s federal total income is ninety thousand dollars ($90,000), the credit cannot exceed forty percent (40%) of the tax paid to Idaho ($36,000/$90,000 = 40% x tax paid to Idaho.) (3-29-10)

07. **Rounding.** For taxable years beginning in or after 2007, the proration calculated under Section 63-3029, Idaho Code, shall be calculated four (4) digits to the right of the decimal point. If the fifth digit is five (5) or greater, the fourth digit is rounded to the next higher number ($10,000/$15,000 = .66666 = .6667 = 66.67%). If the fifth digit is less than five (5), the fourth digit remains unchanged and any digits remaining to its right are dropped ($10,000/$30,000 = .33333 = .3333 = 33.33%). The percentage may not exceed one hundred percent (100%) nor be less than zero (0). (4-2-08)
701. CREDIT FOR INCOME TAXES PAID ANOTHER STATE OR TERRITORY: PART-YEAR RESIDENTS (RULE 701).
Section 63-3029, Idaho Code

01. Income Subject to Tax by Both States.

a. Individuals. For purposes of the credit for income taxes paid to another state, income subject to tax by both states shall mean the total amount of income an individual receives from sources outside of Idaho during the portion of the year he is domiciled or residing in Idaho. Income received during the portion of the year when the individual was not domiciled or residing in Idaho does not qualify.

b. Estates and Trusts. If an estate or trust is determined to be a part-year resident, income subject to tax by both states shall mean the total amount of income the estate or trust receives from sources outside of Idaho during the portion of the year the estate or trust is a resident of Idaho. Income received during the portion of the year when the estate or trust was not a resident of Idaho does not qualify.

c. Both the source state and Idaho must impose an income tax on the income for the income to be subject to tax by both states.

02. Examples. The following examples assume the taxpayer earned only wage income.

a. Taxpayer A was domiciled in California and worked in that state from January through June. In July he moved to Idaho and changed his domicile from California to Idaho. He worked in Idaho the rest of the year. California will tax only the wages earned in California and Idaho will tax only the wages earned in Idaho. Because no income is subject to tax by both states, no credit for income taxes paid another state is allowed.

b. Taxpayer B was domiciled in Oregon from January through June. On July 1 he moved to Idaho and changed his domicile from Oregon to Idaho. He resided in Idaho the rest of the year. He worked in Oregon for the same employer the entire year. Oregon will tax all the wages earned during the year since they were earned in Oregon. Idaho will tax only the wages he earned in Oregon while residing in Idaho. As a result, only one-half (6 months / 12 months = 1/2) of his wages qualify for credit purposes as being subject to tax by both Idaho and Oregon.

c. Taxpayer C was domiciled in California. He resided and worked in California from January through June. On July 1 he moved to Idaho, but did not change his domicile to Idaho as he intended to return to his home in California once his job assignment in Idaho was completed. California will tax all his income earned during the year since he is domiciled in California. Idaho will tax only the income he earned while residing in Idaho. Taxpayer C will not receive a credit for income taxes paid to California on his Idaho wages because this income is not earned in another state. If Taxpayer C received other income while residing in Idaho that is taxed by Idaho but sourced to another state, such as gains on the sale of stock, he may be entitled to a credit for taxes paid on this income.

702. -- 704. (RESERVED)

705. CREDIT FOR CONTRIBUTIONS TO EDUCATIONAL INSTITUTIONS FOR TAXABLE YEARS BEGINNING AFTER 2010 (RULE 705).
Section 63-3029A, Idaho Code

01. Qualified Contributions. Contributions must be made in cash or in another monetary form during the taxable year the credit is claimed. Unpaid pledges, goods, or services provided do not qualify as contributions. Tuition, room and board, student fees, and similar charges are not contributions.

02. Limitations - Individuals. The credit allowed to an individual is fifty percent (50%) of the amount contributed limited to the lesser of:

a. Fifty percent (50%) of the individual’s total income tax liability; or
b. Five hundred dollars ($500) if filing a return other than a joint return or one thousand dollars ($1,000) if filing a joint return. (2-27-12)

03. Limitations - Corporations. The credit allowed to a corporation is fifty percent (50%) of the amount contributed limited to the lesser of:

a. Ten percent (10%) of the corporation’s total income tax liability; or (2-27-12)

b. Five thousand dollars ($5,000). (2-27-12)

04. Pass-Through Entities. The credit may be earned by a partnership, S corporation, estate or trust and passed through to the partner, shareholder, or beneficiary. For pass-through entities paying tax and the application of limitations on pass-through credits, see Rule 785 of these rules. (3-15-02)

05. Other Limitations.

a. This credit is further limited if the credit for qualifying new employees is claimed. (3-15-02)

b. This credit plus other nonrefundable credits may not reduce the taxpayer’s tax liability below zero (0). See Rule 799 of these rules for the priority of credits. (3-15-02)

06. Effect on Itemized Deductions. The credit allowed does not reduce the amount of charitable contributions that may be included in itemized deductions. (3-20-97)

07. Nonprofit Public and Private Museums. To qualify as a museum pursuant to Section 63-3029A, Idaho Code, the public or private nonprofit institution must be organized for the purpose of collecting, preserving, and displaying objects of aesthetic, educational, or scientific value and must be open to the general public on a regular basis. (3-20-97)

706. -- 709. (RESERVED)

710. IDAHO INVESTMENT TAX CREDIT: IN GENERAL (RULE 710).

Section 63-3029B, Idaho Code

01. Credit Allowed. The investment tax credit allowed by Section 63-3029B, Idaho Code, applies to investments made during tax years beginning on and after January 1, 1982, that qualify pursuant to Sections 46(c), 47, and 48, Internal Revenue Code, as in effect prior to amendment by Public Law 101-508. Investments must also meet the requirements of Section 63-3029B, Idaho Code, and Rules 710 through 719 of these rules. (5-8-09)

02. Limitations. The investment tax credit allowable in any taxable year will be limited by the following:

a. Tax liability. (3-30-01)

i. For taxable years beginning on or after January 1, 2000, the credit claimed may not exceed fifty percent (50%) of the tax after credit for taxes paid another state. (3-30-01)

ii. For taxable years beginning on or after January 1, 1995 and before January 1, 2000, the credit claimed may not exceed forty-five percent (45%) of the tax after credit for taxes paid another state. (3-30-01)

b. Credit for qualifying new employees. If the credit for qualifying new employees is claimed in the current taxable year or carried forward to a future taxable year, the investment tax credit is limited by the provisions of Section 63-3029F, Idaho Code. (3-30-01)

c. Unitary taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules. (3-30-01)
d. Nonrefundable credits. The investment tax credit is a nonrefundable credit. It is applied to the income tax liability in the priority order for nonrefundable credits described in Rule 799 of these rules. (3-15-02)

e. Used Property Limitation. The term used property limitation shall mean the one hundred fifty thousand dollar ($150,000) limitation imposed by Section 48, Internal Revenue Code of 1986 prior to November 5, 1990. (4-4-13)

03. Carryovers.

a. Investment tax credit earned on investments made on or after January 1, 1990, but not claimed against tax in the year earned is eligible for a seven (7) year carryover. If a credit carryover from these years is available to be carried into taxable years beginning on or after January 1, 2000, the credit carryover is extended from seven (7) years to fourteen (14) years. (3-30-01)

b. For example, a calendar year taxpayer earned investment tax credit in calendar year 1993. The taxpayer was unable to use all the credit in that year and in the subsequent carryover years. Carryover was remaining into the seventh and final carryover year, calendar year 2000. Since the taxpayer had eligible carryover going into a taxable year beginning on or after January 1, 2000, the carryover period changes from seven (7) years to fourteen (14) years. Assuming the carryover is available for the entire carryover period, and that there are no short period years, the last year that the carryover can be used will be calendar year 2007. If the seventh carryover year was a taxable year beginning prior to January 1, 2000, the carryover period has expired and is not extended. (3-30-01)

c. Investment tax credit earned on investments made in taxable years beginning on or after January 1, 2000, but not claimed against tax in the year earned is eligible for a fourteen (14) year carryover. (3-30-01)

04. Motor Vehicle. Motor vehicle means a self-propelled vehicle that is registered or may be registered for highway use pursuant to the laws of Idaho. Gross vehicle weight is determined by the manufacturer’s specified gross vehicle weight. (3-20-97)

05. Expensed Property. The cost of property that the taxpayer elects to expense pursuant to Section 179, Internal Revenue Code, is not a qualified investment. (3-30-01)

06. Bonus Depreciation. The cost of property that the taxpayer elects to deduct as bonus first-year depreciation pursuant to Section 168(k), Internal Revenue Code, is not a qualified investment when the bonus first-year depreciation was also allowed in computing depreciation for Idaho. (3-20-14)

711. IDAHO INVESTMENT TAX CREDIT: TAXPAYERS ENTITLED TO THE CREDIT (RULE 711). Section 63-3029B, Idaho Code

01. Unitary Taxpayers. A corporation included as a member of a unitary group may elect to share the investment tax credit it earns but does not use with other members of the unitary group. Before the corporation may share the credit, it must claim the investment tax credit to the extent allowable against its tax liability. (2-27-12)

a. The credit available to be shared is the amount of investment tax credit carryover and credit earned for the taxable year that exceeds the limitation provided in Section 63-3029B(4), Idaho Code. The limitation is applied against the tax computed for the corporation that claims the credit. Credit shared with another member of the unitary group reduces the carryforward. (2-27-12)

b. In the taxable year when a corporation that earned the investment tax credit is acquired or disposed of, only a portion of the tax of the other members of the unitary group may be offset with shared investment tax credit from that corporation. To determine the allowable portion of the tax, a percentage is calculated by dividing the number of days that the corporation that earned the investment tax credit is included in the unitary group’s taxable year by the total number of days in the taxable year. The tax for each member with an Idaho filing requirement is multiplied by the percentage. The result is the amount of tax that can be offset with a share of the credit, subject to other limitations imposed by law or related rules. (2-27-12)

02. Conversion of C Corporation to S Corporation. (3-20-97)
a. An investment tax credit carryover earned by a C corporation that has converted to an S corporation is allowed against the S corporation’s tax on net recognized built-in gains and excess net passive income. The credit is allowed against this tax until the carryover period has expired. The credit is not allowed against the tax computed pursuant to Section 63-3022L, Idaho Code. In addition, the credit may not be passed through to the S corporation shareholders. (2-27-12)

b. The election to file as an S corporation does not cause recapture of investment tax credit. However, the S corporation shall be liable for any recapture of credit originally claimed by the C corporation as provided by Rule 715 of these rules. (3-20-97)

03. Agricultural Cooperatives. The portion of the investment tax credit earned by an agricultural cooperative that it cannot use for the taxable year shall be allocated to the members of the cooperative. If qualifying property is disposed of or ceases to qualify prior to the close of its estimated useful life, the recapture of credit as provided by Rule 715 of these rules applies as though the cooperative did not allocate any of the original credit to the members. (3-20-97)

a. The distribution to members is made as provided in Rule 785 of these rules. (3-15-02)

b. The investment tax credits claimed by the agricultural cooperative and its members may not be more than one hundred percent (100%) of the credit earned. (3-20-97)

04. Leased Property. Generally the credit for qualified investments in leased property is claimed by the lessor. A lessee may claim the investment tax credit on leased property only as provided in Paragraphs 711.04.a. and 711.04.b. of this rule. (3-29-10)

a. If the lessor elected to pass the investment tax credit to the lessee and filed the federal election pursuant to the Internal Revenue Code and Treasury Regulations prior to the 1986 Tax Reform Act, the investment tax credit shall be claimed by the lessee. Both parties must attach the original election and a schedule identifying the qualifying property. (3-20-97)

b. If a taxpayer is a lessee in a conditional sales contract, he is entitled to the investment tax credit on any qualifying property subject to the contract since the lessee is considered the purchaser of the property. (3-20-97)
i. The amounts of investment tax credit computed under the percentage-of-use method and the property factor numerator option are generally the same. Differences may result when a taxpayer uses certain MTC special industry regulations that allow the taxpayer to vary from using the percentage-of-use method for determining the Idaho numerator for each item of mobile property, and instead allow another method, such as the ratio of mobile property miles in the state compared to total mobile property miles or the ratio of departures of aircraft from locations in the state compared to total departures. These special industry regulations include the regulations for airlines, railroads, and trucking companies. See Rule 580 of these rules for a list of the special industries. (4-2-08)

ii. “Correctly included in the numerator of the Idaho property factor” means that the amount included in the Idaho property factor numerator was correctly computed using Section 63-3027, Idaho Code, and related rules including any MTC special industry regulations that apply to the taxpayer. If the amount included in the Idaho property factor numerator exceeds the amount that should have been included using Section 63-3027, Idaho Code and related rules, the investment tax credit will be allowed only on the amount that reflects the correct calculation for purposes of computing the Idaho property factor numerator. For example, a taxpayer includes one hundred percent (100%) of the basis of an asset in the Idaho property factor numerator, but the amount correctly computed under Section 63-3027, Idaho Code, should have been fifty percent (50%) of the basis of the asset. The investment tax credit will be allowed only on the fifty percent (50%) of the basis of the asset. (3-20-14)

03. Order of Limitations. The qualified investment in property used both in and outside Idaho is determined by first applying the rules of this section and then the used property limitations outlined in Rule 710. (4-4-13)

04. Examples. (4-4-13)

a. Idaho Percentage-of-Use Method. In January 2009, a calendar year corporation purchased a road grader for fifty thousand dollars ($50,000). Thirty percent (30%) of its hours were logged in Idaho during the year. No other qualified investments were made during 2009. The taxpayer elected to compute the credit using the percentage-of-use method. The taxpayer has a fifteen thousand dollar ($15,000) qualified investment computed by multiplying thirty percent (30%) by fifty thousand dollars ($50,000). The investment tax credit is computed at three percent (3%) of fifteen thousand dollars ($15,000) for a credit of four hundred fifty dollars ($450). (4-4-13)

b. Idaho Percentage-of-Use Method -- Assets placed in service within ninety (90) days of year end. A calendar year taxpayer elects the percentage-of-use method for a road grader placed in service on March 1, 2011, with a basis of seventy-five thousand dollars ($75,000). If eighty percent (80%) of the road grader’s hours were logged in Idaho measured between March 1 and December 31, 2011, the qualifying investment in the road grader is sixty thousand dollars ($60,000) computed at eighty percent (80%) of the asset’s basis. If the road grader was placed in service by the same calendar year taxpayer on November 1, 2011, the Idaho qualifying property is measured during the first ninety (90) days of use of the asset. If the percentage of hours logged in Idaho between November 1, 2011, and January 31, 2012, is seventy percent (70%), the qualifying investment in the road grader is fifty-two thousand five hundred dollars ($52,500) computed at seventy percent (70%) of the asset’s basis. (4-4-13)

c. Idaho Property Factor Method. In January, 2011, a calendar year corporation purchased a road grader for fifty thousand dollars ($50,000). Twenty percent (20%) of its hours were logged in Idaho during the year. In addition to the road grader, the taxpayer also purchased an asphalt layer and a dump truck in January, 2011. Twenty percent (20%) of the dump truck’s hours were logged in Idaho during the year. Only the road grader and dump truck were used in Idaho during the year. The taxpayer's Idaho property factor is thirty percent (30%). The dump truck cost seventy-five thousand dollars ($75,000), and the asphalt layer cost two hundred thousand dollars ($200,000). The taxpayer has qualified investments totaling twenty-five thousand dollars ($25,000), computed at twenty percent (20%) of the one hundred twenty-five thousand dollars ($125,000) basis in the road grader and the dump truck. The investment tax credit is computed at three percent (3%) of the twenty-five thousand dollars ($25,000) for a total credit of seven hundred fifty dollars ($750). The taxpayer would include twenty-five thousand dollars ($25,000) in the Idaho property factor numerator. The asphalt layer does not qualify for the credit since it was not used in Idaho at any time during 2011. (4-4-13)

d. Order of Limitations. Assume the taxpayer has two (2) asphalt layers costing two hundred thousand dollars ($200,000) each that are both mobile and used property. Fifty percent (50%) of the hours of both asphalt
layers was logged in Idaho during the year. The taxpayer has a two hundred thousand dollar ($200,000) qualified investment computed by multiplying fifty percent (50%) by four hundred thousand dollars ($400,000). The used property limitation of one hundred fifty thousand dollars ($150,000) is applied to the two hundred thousand dollar ($200,000) qualified investment and the investment tax credit allowed is computed at three percent (3%) of the one hundred fifty thousand dollars ($150,000).

715. IDAHO INVESTMENT TAX CREDIT: RECAPTURE (RULE 715).

Section 63-3029B, Idaho Code

01. **In General.** If a taxpayer is claiming or has claimed the investment tax credit for property sold or otherwise disposed of, or that ceases to qualify pursuant to Section 63-3029B, Idaho Code, prior to being held five (5) full years, a recomputation of the credit shall be made.

(3-20-97)

02. **Recomputation of the Investment Tax Credit.**

a. The recomputation of the credit and any recapture of prior credits is made pursuant to the Internal Revenue Code and Treasury Regulations for the taxable year in which the property is disposed of or ceases to qualify.

(3-20-97)

b. The recapture is computed by multiplying the credit by the applicable recapture percentage in Subsection 715.04.

(3-20-97)

c. The recapture of credit previously claimed against tax in prior taxable years is an addition to tax in the taxable year in which the property is disposed of or ceases to qualify. The addition to tax does not affect the computation of limitations used to determine the amount of investment tax credit or any other Idaho credit that may be claimed in the year of the recapture.

(3-20-97)

03. **Unitary Taxpayers.** The corporation that earned the credit is responsible for the recapture or recomputation of the credit when the property ceases to qualify.

(3-20-97)

04. **Applicable Recapture Percentages.** For qualified business property placed in service after December 31, 1990, the recapture amount is computed by multiplying the credit earned by the applicable recapture percentage. The length of time the asset qualifies determines the recapture percentage as follows:

a. If less than one (1) year, use one hundred percent (100%);

(3-20-97)

b. If more than one (1) year but less than two (2) years, use eighty percent (80%);

(3-20-97)

c. If more than two (2) years but less than three (3) years, use sixty percent (60%);

(3-20-97)

d. If more than three (3) years but less than four (4) years, use forty percent (40%);

(3-20-97)

e. If more than four (4) years but less than five (5) years, use twenty percent (20%).

(3-20-97)

716. IDAHO INVESTMENT TAX CREDIT: RECORD-KEEPING REQUIREMENTS (RULE 716).

Section 63-3029B, Idaho Code

01. **Information Required.** Each taxpayer must retain and make available, on request, records for each item of property included in the computation of the investment tax credit claimed on an income tax return subject to examination. The records must include all of the following:

a. A description of the property;

(3-20-97)

b. The asset number assigned to the item of property, if applicable;

(3-20-97)

c. The acquisition date and date placed in service;

(3-20-97)
The basis of the property; (3-20-97)

The class of the property for recovery property or the estimated useful life for nonrecovery property; (3-20-97)

The designation as new or used property; (3-20-97)

The location and utilization (the usage both in and outside Idaho) of the property; (3-20-97)

The retirement, disposition, or date transferred out of Idaho, or date no longer used in Idaho, if applicable; and (3-20-97)

The reason for acquisition if acquired prior to January 1, 1995. (3-20-97)

02. Accounting Records Subject to Examination. Accounting records that may need to be examined to document acquisition, disposition, location, and utilization of assets include the following: (3-20-97)

a. Accounting documents that contain asset and account designations and descriptions. These documents include a chart of accounts, the accounting manual, controller’s manual, or other documents containing this information. (3-20-97)

b. Asset location records including asset directories, asset registers, insurance records, property tax records, or similar asset inventory documents. (3-20-97)

c. Records verifying ownership including purchase contracts and cancelled checks. (3-20-97)

d. Invoices, shipping documents, and similar documents reflecting the transfer of assets in and out of Idaho. (3-20-97)

e. Purchase orders, authorizations for expenditures or other records that identify the reason for acquisition for property acquired prior to January 1, 1995. (3-20-97)

f. Log books measuring the use of property used both in and outside Idaho. These logs must be maintained for each item of property on which investment tax credit is claimed. These logs should measure use of property in accordance with the most accurate method for measuring the extent of use in Idaho. For example, use in Idaho of trucks, trailers, locomotives, and railcars shall be calculated according to actual mileage in and outside Idaho. (3-20-97)

g. A system that verifies that property on which the investment tax credit was claimed continues to maintain its status as Idaho qualifying property throughout the recapture period. (3-20-97)

03. Failure to Maintain Adequate Records. Failure to maintain any of the records required by this rule may result in the disallowance of the credit claimed. (3-20-97)

04. Unitary Taxpayers. Corporations claiming investment tax credit must provide a calculation of the credit earned and used by each member of the combined group. The schedule must clearly identify shared credit and the computation of any credit carryovers. (3-20-97)

717. -- 718. (RESERVED)

01. In General. Beginning with calendar year 2003, a qualifying taxpayer may elect a two (2) year property tax exemption on personal property placed in service during the year. Property placed in service prior to January 1, 2003, does not qualify for the exemption. The personal property must be qualified investment as defined in Section 63-3029B, Idaho Code, and Rules 710 through 716 of these rules. If the property tax exemption is elected on
an item of personal property, the taxpayer may not earn the investment tax credit on that item. The election is irrevocable.

02. Terms. As used in this rule:

a. Qualifying Taxpayer. A taxpayer must meet both of the following requirements to qualify for the property tax exemption on personal property.

i. The taxpayer’s rate of charge or rate of return must not be regulated or limited by federal or state law. For example, if a corporation’s rate of return is set by the Public Utilities Commission, that corporation shall not be eligible to claim the property tax exemption on any personal property it may place in service. The corporation may claim investment tax credit on the property if the property is qualified investment under Section 63-3029B, Idaho Code. Each corporation included in a unitary group shall determine whether its rate of charge or rate of return is regulated or limited by federal or state law based solely on its own activities.

ii. The taxpayer must have had negative Idaho taxable income in the second preceding taxable year.

b. Second Preceding Taxable Year. The term second preceding taxable year shall mean the second preceding taxable year from the taxable year in which the property is placed in service.

03. Negative Idaho Taxable Income in Second Preceding Taxable Year.

a. Net Operating Loss Carryovers and Carrybacks. Negative Idaho taxable income in the second preceding taxable year shall be determined prior to the application of any Idaho net operating loss carryforwards or carrybacks.

b. Taxable Year, for purposes of this calculation, includes a short taxable year as defined by the Internal Revenue Code.

c. Examples of Determining Second Preceding Taxable Year.

i. A taxpayer files income tax returns on a calendar year basis. During calendar year 2003, the taxpayer placed in service personal property that qualifies for the investment tax credit. The taxpayer’s two (2) preceding taxable years were calendar years 2001 and 2002. To qualify for the property tax exemption on personal property, the taxpayer must have had negative Idaho taxable income in calendar year 2001, the second preceding taxable year from calendar year 2003.

ii. A taxpayer files income tax returns on a June 30 fiscal year end basis. During the fiscal year ended June 30, 2003, the taxpayer placed in service between January 1, 2003, and June 30, 2003, personal property that qualifies for the investment tax credit. The taxpayer’s two (2) preceding taxable years were fiscal years ended June 30, 2001, and June 30, 2002. To qualify for the property tax exemption, the taxpayer must have had negative Idaho taxable income in fiscal year ended June 30, 2001, the second preceding taxable year from fiscal year ended June 30, 2003. Property placed in service during the fiscal year ended June 30, 2003, but in calendar year 2002 does not qualify for the exemption.

iii. Assume the same facts as in Subparagraph 719.03.c.ii., of this rule, except the taxpayer placed the property in service on September 30, 2003, during his fiscal year ended June 30, 2004. To qualify for the property tax exemption on personal property placed in service between July 1, 2003, and June 30, 2004, the taxpayer must have had negative Idaho taxable income in fiscal year ended June 30, 2002, the second preceding taxable year from the fiscal year ended June 30, 2004.

iv. Assume the same facts as in Subparagraph 719.03.c.ii., of this rule, except the taxpayer’s previous two (2) taxable years included a short taxable year from January 1, 2002, to June 30, 2002, and calendar year 2001. To qualify for the property tax exemption on personal property placed in service between January 1, 2003, and June 30, 2003, the taxpayer must have had negative Idaho taxable income in the taxable year for calendar year 2001, the second preceding taxable year from the fiscal year ended June 30, 2003.

(3-20-04)

**d.** Unitary Taxpayers. Each corporation included in a unitary combined group shall use its Idaho taxable income, as determined pursuant to Section 63-3027, Idaho Code, to determine whether it had negative Idaho taxable income in the second preceding taxable year. See Rule 365 of these rules for more information on how unitary corporations determine their Idaho taxable income. (4-6-05)

**e.** Pass-Through Entities. A taxpayer who is a partnership or an S corporation shall not qualify for the property tax exemption unless the total of its net business income apportioned to Idaho and its nonbusiness income or loss allocated to Idaho is negative for the second preceding taxable year. (3-20-04)

**f.** Return Not Filed. If a taxpayer has not filed an Idaho income tax return for the second preceding taxable year so that the loss can be verified, the taxpayer shall not be entitled to the exemption. (3-20-04)

**04. Used Property Limitation.** (3-20-04)

**a.** In General. The cost of used property that a taxpayer may take into account for any taxable year in computing qualified investment shall not exceed one hundred fifty thousand dollars ($150,000). This includes the cost of property the taxpayer placed in service during the taxable year and also his share of the cost of property placed in service during the taxable year by a partnership, S corporation, estate or trust. Because property must be qualified investment to qualify for the property tax exemption, the taxpayer is limited to one hundred fifty thousand dollars ($150,000) for purposes of determining the property tax exemption. (3-20-04)

**b.** Selection of Items of Used Property. If the cost of the taxpayer’s used property eligible for the investment tax credit exceeds the used property limitation, the taxpayer must select the particular items of used property the cost of which is to be taken into account in computing qualified investment. When the taxpayer selects a particular item, the entire cost or the taxpayer’s share of cost of the particular item must be taken into account unless the one hundred fifty thousand dollar ($150,000) limitation is exceeded. For example, if a taxpayer places in service during the taxable year three (3) items of used property, each with a cost of sixty thousand dollars ($60,000), the taxpayer must select the entire cost of two (2) of the items and only thirty thousand dollars ($30,000) of the cost of the third item. The taxpayer may not select a portion of the cost of each of the three (3) items. The remaining thirty thousand dollars ($30,000) of the third item shall not qualify for the investment tax credit nor the property tax exemption since it is not qualified investment. The selection by a taxpayer shall be made by taking the cost of the
used property into account in computing the investment tax credit or the property tax exemption for a taxable year. (3-20-04)

c. Electing Property Tax Exemption on Selected Used Property Items. Once the taxpayer has selected the particular items of used property, the cost of which is to be taken into account in computing qualified investment, the taxpayer shall determine whether he may elect the property tax exemption on the items selected. If an item qualifies as personal property and the taxpayer had a negative Idaho taxable income in the second preceding taxable year, the taxpayer may elect to claim the property tax exemption on the item in lieu of earning the investment tax credit. For example, assume the same facts as in Paragraph 719.04.b., of this rule. The taxpayer may elect the property tax exemption on any of the three (3) items, limited to the amount included as qualified investment if the item qualifies as personal property and the taxpayer had a negative Idaho taxable in the second preceding taxable year. (4-6-05)

720. CREDIT FOR IDAHO RESEARCH ACTIVITIES: IN GENERAL (RULE 720).
Section 63-3029G, Idaho Code

01. Definitions. The Idaho credit is computed using the same definitions of qualified research expenses, qualified research, basic research payments, and basic research as are found in Section 41, Internal Revenue Code, except only the amounts related to research conducted in Idaho qualify for the Idaho credit. If an expense does not qualify for the federal credit under Section 41, Internal Revenue Code, it will not qualify for purposes of the Idaho credit. (4-7-11)

02. Limitations. The credit for Idaho research activities allowable in any taxable year is limited as follows:

a. Tax Liability. The total amount of any credit for Idaho research activities claimed during a taxable year may not exceed one hundred percent (100%) of the tax, after allowing all other income tax credits that may be claimed before the credit for Idaho research activities, regardless of whether the credit for Idaho research activities results from a carryover earned in prior years, the current year, or both. See Rule 799 of these rules for the priority order for nonrefundable credits. (3-15-02)

b. Credit for Qualifying New Employees. If the credit for qualifying new employees is claimed in the current taxable year or carried forward to a future taxable year, the credit for Idaho research activities is limited by the provisions of Section 63-3029F, Idaho Code. (3-15-02)

c. Unitary Taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules. (3-15-02)

03. Carryovers. The carryover period for the credit for Idaho research activities is fourteen (14) years. (3-15-02)

04. Pass-Through Entities. The credit may be earned by a partnership, S corporation, estate, or trust and passed through to the partner, shareholder, or beneficiary. See Rule 785 of these rules for the method of attributing the credit, for pass-through entities paying tax, and the application of limitations on pass-through credits. (3-15-02)

05. Short Taxable Year Calculations. Short taxable year calculations provided in Section 41, Internal Revenue Code, and related regulations are used to compute the Idaho credit if the taxpayer must use short taxable year calculations for purposes of computing the federal credit. (4-7-11)

721. CREDIT FOR IDAHO RESEARCH ACTIVITIES: ELECTIONS (RULE 721).
Section 63-3029G, Idaho Code

01. Election to Be Treated as a Start-Up Company. Regardless of whether a taxpayer qualifies as a start-up company for purposes of the federal credit for increasing research activities under Section 41, Internal Revenue Code, a taxpayer may elect to be treated as a start-up company for the credit for Idaho research activities. (3-15-02)
The election once made is irrevocable. (3-15-02)

The election is made by checking the appropriate box on Form 67. (4-7-11)

A taxpayer who makes the election under Section 63-3029G, Idaho Code, to be treated as a start-up company must use the fixed-base percentage that would be used by the taxpayer if the taxpayer had qualified as a start-up company for purposes of the federal credit under Section 41, Internal Revenue Code. For example, if the taxpayer’s fiscal year beginning in 2001 is the 8th such taxable year beginning after December 31, 1993 in which the taxpayer had Idaho qualified research expenses, the fixed-base percentage is one-half (1/2) of the percentage that the aggregate qualified research expenses of the taxpayer for the 5th, 6th, and 7th such taxable years is of the aggregate gross receipts of the taxpayer for such years. (4-7-11)

02. Unitary Sharing. A corporation included as a member of a unitary group may elect to share the credit for Idaho research activities it earns but does not use with other members of the unitary group. Before the corporation may share the credit, it must claim the credit for Idaho research activities to the extent allowable against its tax liability. The credit available to be shared is the amount of credit carryover and credit earned for the taxable year that exceeds the limitation provided in Section 63-3029G(3), Idaho Code, or Paragraph 720.02.b. of these rules, whichever is applicable. The limitation is applied against the tax computed for the corporation that claims the credit. Credit shared with another member of the unitary group reduces the carryforward. (3-15-02)

722. (RESERVED)

723. CREDIT FOR IDAHO RESEARCH ACTIVITIES: RECORD-KEEPING REQUIREMENTS (RULE 723)
Section 63-3029G, Idaho Code

01. Information Required. Each taxpayer must retain and make available, on request, records for each item included in the computation of the credit for Idaho research activities claimed on an Idaho income tax return. The records must include all of the following: (3-15-02)

a. Verification that the research was conducted in Idaho; (3-15-02)
b. Verification that wages included in the computation were for qualified service performed by an employee in Idaho; (3-15-02)
c. Verification that supplies included in the computation were used for research conducted in Idaho; (3-15-02)
d. Verification that contract research expenses were for research conducted in Idaho; (3-15-02)
e. Verification that the research activities meet the definition of qualified research; and (3-15-02)
f. Verification that the amounts included in the Idaho computation are includable in the computation of the federal credit allowed by Section 41, Internal Revenue Code. (3-15-02)

02. Failure to Maintain Adequate Records. Failure to maintain any of the records required by this rule may result in the disallowance of the credit claimed. (3-15-02)

03. Unitary Taxpayers. Corporations claiming the credit for Idaho research activities must provide a calculation of the credit earned and used by each member of the combined group. The schedule must clearly identify shared credit and the computation of any credit carryovers. (3-15-02)

724. -- 729. (RESERVED)

730. CREDIT FOR CONTRIBUTIONS TO IDAHO YOUTH FACILITIES, REHABILITATION FACILITIES AND NONPROFIT SUBSTANCE ABUSE CENTERS (RULE 730).
Section 63-3029C, Idaho Code

01. **Qualified Contributions.** Contributions must be made in cash or in kind during the taxable year the credit is claimed. Unpaid pledges do not qualify as contributions. Fees for services provided, room and board, and similar charges are not contributions. (3-30-01)

02. **Limitations: Individuals.** The credit allowed to an individual is fifty percent (50%) of the amount contributed limited to the lesser of:
   a. Twenty percent (20%) of his total income tax liability; or
   b. One hundred dollars ($100) if filing other than a joint return or two hundred dollars ($200) if filing a joint return. (3-20-97)

03. **Limitations: Corporations.** The credit allowed to a corporation is fifty percent (50%) of the amount contributed limited to the lesser of:
   a. Ten percent (10%) of its total income tax liability; or
   b. Five hundred dollars ($500). (3-20-97)

04. **Pass-Through Entities.** The credit may be earned by a partnership, S corporation, estate or trust and passed through to the partner, shareholder, or beneficiary. For pass-through entities paying tax and the application of limitations on pass-through credits, see Rule 785 of these rules. (3-15-02)

05. **Other Limitations.**
   a. This credit is further limited if the credit for qualifying new employees is claimed. (3-15-02)
   b. This credit plus any other nonrefundable credits may not reduce the taxpayer’s tax liability below zero (0). See Rule 799 of these rules for the priority order for nonrefundable credits. (3-15-02)

06. **Effect on Itemized Deductions.** The credit allowed does not reduce the amount of charitable contributions that may be included in itemized deductions. (3-20-97)

731. -- 749. (RESERVED)

750. **BROADBAND EQUIPMENT INVESTMENT CREDIT: IN GENERAL (RULE 750).**
Section 63-3029I, Idaho Code

01. **Credit Allowed.** The broadband equipment investment credit allowed by Section 63-3029I, Idaho Code, applies to investments made during taxable years beginning on and after January 1, 2001. The investment must also meet the requirements of Section 63-3029B, Idaho Code, and related rules as to what constitutes qualified investment. (4-6-05)

02. **Limitations.** The broadband equipment investment credit allowable in any taxable year will be limited as follows:
   a. The broadband equipment investment credit claimed during a taxable year may not exceed the lesser of:
      i. Seven hundred fifty thousand dollars ($750,000); or
      ii. One hundred percent (100%) of the tax, after allowing all other income tax credits that may be claimed before the broadband equipment investment credit, regardless of whether this credit results from a carryover earned in prior years, the current year, or both. See Rule 799 of these rules for the priority order for nonrefundable credits. (3-15-02)
b. Credit for Qualifying New Employees. If the credit for qualifying new employees is claimed in the current taxable year or carried forward to a future taxable year, the broadband equipment investment credit is limited by the provisions of Section 63-3029F, Idaho Code. (3-15-02)

c. Unitary Taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules. (3-15-02)

d. Transferred Credit. Limitations apply to each transferee as if the transferee had earned the credit. (3-15-02)

03. Carryovers.

a. The carryover period for the broadband equipment investment credit is fourteen (14) years. (3-15-02)

i. The fourteen (14) year carryover period provided by section 63-3029I(7), Idaho Code, extends throughout the fourteen (14) taxable years following the year in which the equipment was installed. The fourteen (14) year carryover period begins to run regardless of whether the taxpayer has sought and received approval from the Idaho public utilities commission (PUC). (4-11-15)

ii. Once a taxpayer has received the approval order from the PUC, the broadband tax credit may be claimed or transferred. If the statute of limitations has expired for filing a return to claim the credit for the taxable year of the installation, the taxpayer cannot claim any credit for that taxable year, but must calculate how much of the credit the taxpayer could have used to determine the amount of credit available to carry forward pursuant to section 63-3029I(7), Idaho Code. (4-11-15)

iii. Example: A calendar year filer installed qualifying equipment on July 20, 2001. However, it was not until 2013 that the taxpayer sought and received the approval order from the PUC. The fourteen (14) year carryover period already began to run based on the installation date and will expire at the end of the 2015 taxable year. On March 10, 2013 the taxpayer is preparing his tax returns and considering how much broadband credit is available and to which taxable years it could be applied to. The taxpayer can file an amended return to claim the credit starting with taxable year 2009 (prior years would be out of the statute of limitations for filing an amended return assuming all returns had been timely filed and no other special circumstances had held the period open). The taxpayer must look back to taxable year 2001 (the year of installation) to see how much credit the taxpayer could have used in each taxable year up to 2009 to determine how much credit carryover amount is still available pursuant to the carryover limitations of section 63-3029I(7), Idaho Code. The taxpayer must use up or transfer any unused credit before taxable year 2016; after taxable year 2015, the carry forward period will expire and any unused credit will no longer be available for the taxpayer to apply or transfer. (4-11-15)

b. See Rule 793 of these rules for the rules regarding the carryover of transferred credit. (3-15-02)

04. Taxpayers Entitled to the Credit. Rule 711 of these rules will apply to the broadband equipment investment credit except that limitations referenced in Subsection 711.01 of these rules will be those limitations as provided in Section 63-3029I, Idaho Code. (4-11-15)

05. Pass-Through Entities. The credit may be earned by a partnership, S corporation, estate, or trust and passed through to the partner, shareholder, or beneficiary. See Rule 785 of these rules for the method of attributing the credit, for pass-through entities paying tax, and the application of limitations on pass-through credits. (3-15-02)

751. (RESERVED)

752. BROADBAND EQUIPMENT INVESTMENT CREDIT: RECAPTURE (RULE 752).
Section 63-3029I, Idaho Code

01. In General. If a taxpayer is claiming or has claimed the broadband equipment investment credit for
property sold or otherwise disposed of, or that ceases to qualify pursuant to Section 63-3029B, Idaho Code, prior to being held five (5) full years, a recomputation of the credit shall be made. See Rule 715 of these rules. (3-15-02)

02. Unitary Taxpayers. The corporation that earned the credit is responsible for the recapture or recomputation of the credit when the property ceases to qualify. (3-15-02)

03. Transferred Credit. The transferor is responsible for the recapture or recomputation of the credit when the property ceases to qualify. (3-15-02)

753. BROADBAND EQUIPMENT INVESTMENT CREDIT: RECORD-KEEPING REQUIREMENTS (RULE 753).

Section 63-3029I, Idaho Code

01. Information Required. Each taxpayer must retain and make available, on request, records for each item of property included in the computation of the broadband equipment investment credit claimed on an income tax return subject to examination. The records must include all of the following: (3-15-02)

a. The order from the Idaho Public Utilities Commission confirming that the installed equipment is qualified broadband equipment.
   (3-15-02)

b. A description of the property; (3-15-02)

c. The asset number assigned to the item of property, if applicable; (3-15-02)

d. The acquisition date and date placed in service; (3-15-02)

e. The basis of the property; and (3-15-02)

f. The retirement, disposition, or date transferred out of Idaho, or date no longer used in Idaho, if applicable. (3-15-02)

02. Accounting Records Subject to Examination. Accounting records that may need to be examined to document acquisition, disposition, location, and utilization of assets include the following: (3-15-02)

a. Source documents supporting the application to the Idaho Public Utilities Commission; (3-15-02)

b. Accounting documents that contain asset and account designations and descriptions. These documents include a chart of accounts, the accounting manual, controller’s manual, or other documents containing this information; (3-15-02)

c. Asset location records including asset directories, asset registers, insurance records, property tax records, or similar asset inventory documents; (3-15-02)

d. Records verifying ownership including purchase contracts and cancelled checks; (3-15-02)

e. Invoices, shipping documents, and similar documents reflecting the transfer of assets in and out of Idaho; and (3-15-02)

f. A system that verifies that property on which the broadband equipment investment credit was claimed continues to maintain its status as Idaho qualifying property throughout the recapture period. (3-15-02)

03. Failure to Maintain Adequate Records. Failure to maintain any of the records required by this rule may result in the disallowance of the credit claimed. (3-15-02)

04. Unitary Taxpayers. Corporations claiming broadband equipment investment credit must provide a calculation of the credit earned and used by each member of the combined group. The schedule must clearly identify shared credit and the computation of any credit carryovers. (3-15-02)
05. **Credit Transferred.** A taxpayer that transfers the broadband equipment investment credit shall continue to be subject to the record-keeping requirements of this rule for as long as the credit may be carried over by the transferee or until further assessment or deficiency determinations are barred by a period of limitation, whichever is longer. (3-15-02)

754. -- 770. (RESERVED)

771. **GROCERY CREDIT: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 2007 (RULE 771).**
Section 63-3024A, Idaho Code

01. **Residents.**

   a. A resident individual may claim a credit for each personal exemption for which a deduction is permitted and claimed on his Idaho income tax return provided the personal exemption represents an individual who is a resident of Idaho. The maximum credit allowed per qualifying exemption is as follows:

<table>
<thead>
<tr>
<th>TAX YEAR</th>
<th>IDAHO TAXABLE INCOME $1,000 OR LESS</th>
<th>IDAHO TAXABLE INCOME MORE THAN $1,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>2016</td>
<td>$100</td>
<td>$100</td>
</tr>
<tr>
<td>2015</td>
<td>$100</td>
<td>$100</td>
</tr>
<tr>
<td>2014</td>
<td>$100</td>
<td>$90</td>
</tr>
<tr>
<td>2013</td>
<td>$100</td>
<td>$80</td>
</tr>
<tr>
<td>2012</td>
<td>$90</td>
<td>$70</td>
</tr>
<tr>
<td>2011</td>
<td>$80</td>
<td>$60</td>
</tr>
<tr>
<td>2010</td>
<td>$70</td>
<td>$50</td>
</tr>
<tr>
<td>2009</td>
<td>$60</td>
<td>$40</td>
</tr>
<tr>
<td>2008</td>
<td>$50</td>
<td>$30</td>
</tr>
</tbody>
</table>

   For tax years 2015 and after, the credit is one hundred dollars ($100). (3-28-18)

   b. A resident individual claiming the credit who is age sixty-five (65) or older may claim an additional twenty dollars ($20). An additional twenty dollar ($20) credit may be claimed for a spouse who is age sixty-five (65) or older. The additional twenty dollar ($20) credit may not be claimed for other dependents who are age sixty-five (65) or older. (5-8-09)

02. **Part-Year Residents.** A part-year resident is entitled to a prorated credit based on the number of months he was domiciled in Idaho during the taxable year. For purposes of this rule, a fraction of a month exceeding fifteen (15) days is treated as a full month. If the credit exceeds his tax liability, the part-year resident is not entitled to a refund. (5-8-09)

03. **Circumstances Causing Ineligibility.** A resident or part-year resident individual is not eligible for the credit for the month or part of the month for which the individual:

   a. Received assistance under the federal food stamp program; or (5-8-09)

   b. Was incarcerated. (5-8-09)

04. **Nonresidents.** A nonresident is not entitled to the credit even though the individual may have been employed in Idaho for the entire year. (5-8-09)
05. Illegal Residents. An individual residing illegally in the United States is not entitled to the credit. (5-8-09)

06. Members of the Uniformed Services. A member of the uniformed services who is:
   a. Domiciled in Idaho is entitled to this credit; (5-8-09)
   b. Residing in Idaho but who is a nonresident pursuant to the Servicemembers Civil Relief Act is not entitled to this credit. (5-8-09)
   c. See Rule 032 of these rules for the definition of member of the uniformed services. (4-7-11)

07. Spouse or Dependents of Members of the Uniformed Services. Beginning on January 1, 2009, a spouse of a nonresident member of the uniformed services stationed in Idaho who has the same domicile as the military service member’s home of record and who is residing in Idaho solely to be with the servicemember is a nonresident and is not entitled to the grocery credit. A spouse who is domiciled in Idaho is entitled to the credit. The domicile of a dependent child is presumed to be that of the nonmilitary spouse. (4-7-11)

08. Claiming the Credit. (5-8-09)
   a. An individual who is required to file an Idaho individual income tax return must claim the credit on his return. If the credit exceeds his tax liability, the resident will receive a refund. (4-7-11)
   b. An individual who is not required to file an Idaho individual income tax return must file a claim for refund of the credit on a form approved by the Tax Commission on or before April 15 following the year for which the credit relates. (4-7-11)
   c. No credit may be refunded three (3) years after the due date of the claim for refund, including extensions, if a return was required to be filed under Section 63-3030, Idaho Code. (4-7-11)

09. Donating the Credit. Taxpayers may elect to donate the entire credit to the Cooperative Welfare Fund created pursuant to Section 56-401, Idaho Code. A taxpayer may not make a partial donation of the credit. The election must be made as indicated on the form on which the credit was claimed. The election is irrevocable and may not be changed on an amended return. (5-8-09)

775. CREDIT FOR LIVE ORGAN DONATION EXPENSES (RULE 775).

Section 63-3029K, Idaho Code

01. Credit Allowed. The credit for live organ donation expenses allowed by Section 63-3029K, Idaho Code, applies to live organ donation expenses incurred by a taxpayer during taxable years beginning on or after January 1, 2007. (3-30-07)

02. Limitations. The credit allowed to an individual for the taxable year in which the live organ donation occurs is limited to the lesser of:

   a. The amount of live organ donation expenses paid by the taxpayer during the taxable year, or (3-30-07)
   b. Five thousand dollars ($5,000). (3-30-07)

03. Live Organ Donation. A live organ donation means a donation by a living individual who donates the following for transplanting in another individual:

   a. Human bone marrow, or (3-30-07)
b. Any part of an organ including the following: (3-30-07)
i. Intestine, (3-30-07)
ii. Kidney, (3-30-07)
iii. Liver, (3-30-07)
iv. Lung, or (3-30-07)
v. Pancreas. (3-30-07)

04. Live Organ Donation Expenses. Qualifying expenses shall be directly related to a live organ donation by the taxpayer or by a dependent of the taxpayer and shall include the following: (3-30-07)
   a. The unreimbursed cost of travel paid by the taxpayer to and from the place where the donation operation occurred. (3-30-07)
   b. Unreimbursed lodging expenses paid by the taxpayer. (3-30-07)
   c. Wages or other compensation lost because of the taxpayer’s absence from work during the donation procedure and convalescence. (3-30-07)

05. Carryover. The carryover period for the credit for live organ donation expenses is five (5) years. (3-30-07)

776. -- 784. (RESERVED)

785. CREDITS: PASS-THROUGH ENTITIES (RULE 785).
Section 63-3029(a), Idaho Code

01. In General. A credit earned by a partnership, S corporation, estate, or trust generally is claimed on the income tax returns of the partners, shareholders, or beneficiaries of the entity. (3-20-97)
   a. Partnerships. A credit passes through to a partner based on that partner’s distributive share of partnership profits. (3-20-97)
   b. S Corporations. A credit passes through to a shareholder based on that shareholder’s pro rata share of income or loss. (3-20-97)
   c. Estates and Trusts. A credit passes through to a beneficiary in the same ratio that income is allocable to that beneficiary. (3-20-97)
   d. Idaho credits may not pass through to partners or owners based on special allocations. (5-8-09)

02. Limitations.
   a. In General. Credits claimed on a partner’s, shareholder’s, or beneficiary’s tax return may not exceed the limitations imposed by statute or rule. (3-20-97)
   b. Example. Partnership XYZ has three (3) individual partners who each are entitled to a one-third (1/3) share of the partnership profits. The partnership contributed three thousand dollars ($3,000) to an educational institution. The contribution qualifies for the credit provided by Section 63-3029A, Idaho Code. One-third (1/3) of the contribution, one thousand dollars ($1,000), passes through to Partner X who files a joint return. He is allowed a credit of fifty percent (50%) of the amount contributed, but is limited to the lesser of two hundred dollars ($200) or twenty percent (20%) of his total income tax liability. (3-15-02)
c. Example. Assume the same facts as in Subsection 785.02.b., except Partner X also contributed two hundred dollars ($200) to a qualifying educational institution. Partner X is treated as contributing one thousand two hundred dollars ($1,200), to a qualifying educational institution. Since fifty percent (50%) of his contributions, six hundred dollars ($600) exceeds the limitation, the credit is limited to the lesser of two hundred dollars ($200) or twenty percent (20%) of his total income tax liability. The credit is not increased because part of the contribution was from Partner X as an individual and part from the partnership. (3-15-02)

03. Carryovers. Carryovers of credit are allowed to the partner, shareholder, or beneficiary to the extent provided by statute or rule. (3-20-97)

04. Different Taxable Year Ends. If a pass-through entity has a taxable year end different from that of a partner, shareholder, or beneficiary, the credit is available in the same taxable year that income or loss from that entity is reported. (3-20-97)

05. Information Provided by a Pass-Through Entity. The pass-through entity shall prepare and distribute to each partner, shareholder, or beneficiary a schedule detailing the proportionate share of each credit earned and any recapture that is required. Copies of these schedules shall be attached to the pass-through entity’s Idaho income tax return or information return for the taxable year that the credit is earned and to each return on which the credit is claimed. (3-20-97)

06. Pass-Through Entities That Pay Tax. (3-30-01)

a. A pass-through entity may apply and may recapture credits that generally pass through to the partner, shareholder, or beneficiary for whom the pass-through entity is paying the tax. For example, Idaho investment tax credit earned that would have passed through to the owner or beneficiary could be claimed by the pass-through entity subject to the applicable limitations. Limitations based on the tax liability apply to each owner’s or beneficiary’s tax liability being paid by the pass-through entity. (3-30-01)

b. The partner, shareholder or beneficiary is responsible for the recapture or recomputation of credits passed through to the partner, shareholder, or beneficiary. (3-30-01)

c. Carryovers that exist after a pass-through entity offsets the tax with credit available to that partner, shareholder or beneficiary, remain a carryover of the partner, shareholder or beneficiary. (3-30-01)

786. -- 789. (RESERVED)

790. TRANSFER OF CREDIT: IN GENERAL (RULE 790).
Sections 63-3029I and 63-3029J, Idaho Code

01. In General. A credit may be transferred only as specifically allowed in the statute authorizing the credit. The following credits are the only credits that may be transferred: (3-15-02)

a. The broadband equipment investment credit, as allowed by Section 63-3029I, Idaho Code. (3-15-02)

02. Terms. For purposes of Rules 790 through 795 of these rules, the following terms have the stated meanings: (3-15-02)

a. Transferor. The taxpayer who earns the credit and sells, conveys, or transfers the credit to another taxpayer shall be referred to as the transferor. (3-15-02)

b. Transferee. The taxpayer who receives the credit from the transferor or intermediary shall be referred to as the transferee. (3-20-04)

03. Transfer Limited. (3-20-04)

a. The broadband equipment investment credit may be transferred to another taxpayer required to file
an Idaho income tax return or to an intermediary. The intermediary may use all or a portion of the broadband equipment investment credit or resell the credit to a taxpayer required to file an Idaho income tax return. The broadband equipment investment credit may not be transferred more than two (2) times. (3-20-04)

b. A taxpayer who receives credit through unitary sharing may not transfer the credit to another taxpayer. (3-20-04)

791. TRANSFER OF CREDIT: NOTIFICATION OF INTENDED TRANSFER (RULE 791).
Sections 63-3029I and 63-3029J, Idaho Code

01. Timing of Notification. A taxpayer who intends to transfer qualified credit shall notify the Tax Commission in writing of its intent to transfer the credit at least sixty (60) days prior to the date of the transfer. A transfer may not take place prior to the Tax Commission providing its response as to the amount of credit available and the years the credit may be carried forward. (3-15-02)

02. Information Required. A transferor or intermediary shall notify the Tax Commission by submitting the following information on a form prescribed by the Tax Commission:

a. Name, address, and federal employer identification number of the transferor or intermediary; (3-20-04)

b. Name, address, and federal employer identification number of the transferee; (3-15-02)

c. Type of credit to be transferred; (3-15-02)

d. Amount of credit to be transferred; (3-15-02)

e. Date of intended transfer; (3-20-04)

f. Signature of authorized individual for transferor or intermediary; and (3-20-04)

g. A copy of the Idaho Form 68, Idaho Broadband Equipment Investment Credit and required schedules for each tax year the credit being transferred was earned. (3-26-19)

792. TRANSFER OF CREDIT: POSTING BOND (RULE 792).
Section 63-3029J, Idaho Code

01. Posting Bond or Security. Section 63-3029J, Idaho Code, provides that prior to obtaining the written statement from the Tax Commission that the transferor may transfer the credit, the transferor may be required to secure any liability by posting a bond or security as the Tax Commission may require. The Tax Commission will require the transferor to post a bond or security only if after receiving the request to transfer credit, the Tax Commission deems the requirement necessary. (5-3-03)

02. Waiver of Bond or Security. If the Tax Commission requires the transferor to secure the liability by posting a bond or security, the transferor may request that the Tax Commission waive the bond requirement if the transferor shows that he is financially responsible. A notice of denial of the bond waiver shall be treated in accordance with Section 63-3045, Idaho Code. A notice of denial of the bond waiver shall be subject to review in accordance with Section 63-3045B, Idaho Code. (5-3-03)

793. TRANSFER OF CREDIT: TRANSFEREE (RULE 793).
Sections 63-3029I and 63-3029J, Idaho Code

01. Tax Year Credit Available. A transferee may first claim the transferred credit on an income tax return originally filed during the calendar year in which the transfer takes place. However, if the transferee did not claim the transferred credit on his original return filed during the calendar year in which the transfer takes place, he may not amend such return to claim the credit for that tax year. The credit may not be claimed on a tax return that begins prior to January 1, 2001. (3-20-04)
02. **Copy of Transfer Form Required.** The form verifying the transferred credit shall be attached to the income tax return for each taxable year that the credit is claimed or carried over. (3-15-02)

03. **Carryover Period.** If a credit is transferred, the transferee is entitled to any remaining carryover period that would have been allowed to the transferor or intermediary had the credit not been transferred. The Tax Commission shall verify the carryover period. The carryover period approved shall apply to the taxable year of the transferee that begins in the calendar year in which the transferor’s taxable year begins. (3-20-04)

   a. Taxpayer A earned the broadband equipment investment credit in his taxable year beginning in 2002. He claimed part of the credit on his return for that year. In October of 2003, Taxpayer A sold the remaining credit to Taxpayer B, an intermediary. Taxpayer B resold the credit in May of 2004 to Taxpayer C. Taxpayer C claimed the credit on his original return for taxable year beginning in 2003, which he filed in November of 2004. Taxpayer C has a thirteen (13) year carryover remaining, the same as Taxpayer B would have been entitled to. (3-20-04)

**794. -- 798. (RESERVED)**

**799. PRIORITY ORDER OF CREDITS AND ADJUSTMENTS TO CREDITS (RULE 799).**

Section 63-3029P, Idaho Code

01. **Tax Liability.** Tax liability is the tax imposed by Sections 63-3024, 63-3025, and 63-3025A, Idaho Code. (3-20-97)

02. **Nonrefundable Credits.** A nonrefundable credit is allowed only to reduce the tax liability. A nonrefundable credit not absorbed by the tax liability is lost unless the statute authorizing the credit includes a carryover provision. Nonrefundable credits apply against the tax liability in the following order of priority: (3-20-97)

   a. Credit for taxes paid to other states as authorized by Section 63-3029, Idaho Code; (3-20-97)
   b. For part-year residents only, the grocery credit as authorized by Section 63-3024A, Idaho Code; (5-3-03)
   c. Credit for contributions to Idaho educational institutions as authorized by Section 63-3029A, Idaho Code; (3-20-97)
   d. Investment tax credit as authorized by Section 63-3029B, Idaho Code; (3-20-97)
   e. Credit for contributions to Idaho youth facilities, rehabilitation facilities, and nonprofit substance abuse centers as authorized by Section 63-3029C, Idaho Code; (3-30-01)
   f. Credit for equipment using postconsumer waste or postindustrial waste as authorized by Section 63-3029D, Idaho Code; (3-30-01)
   g. Promoter-sponsored event credit as authorized by Section 63-3620C, Idaho Code; (3-15-02)
   h. Credit for Idaho research activities as authorized by Section 63-3029G, Idaho Code; (3-15-02)
   i. Broadband equipment investment credit as authorized by Section 63-3029I, Idaho Code; and (3-15-02)
   j. Small employer investment tax credit as authorized by Section 63-4403, Idaho Code. (4-11-06)
   k. Small employer real property improvement tax credit as authorized by Section 63-4404, Idaho Code. (4-11-06)
   l. Small employer new jobs tax credit as authorized by Section 63-4405, Idaho Code. (4-11-06)
m. Credit for live organ donation expenses as authorized by Section 63-3029K, Idaho Code. (3-30-07)

n. Idaho child tax credit as authorized by Section 63-3029L, Idaho Code. (3-26-19)

03. Adjustments to Credits.

a. Adjustments to the amount of a credit earned shall be determined pursuant to the law applicable to the taxable year in which the credit was earned. (4-11-06)

b. Adjustments to the amount of a credit earned may be made even though the taxable year in which the credit was earned is closed due to the statute of limitations. Such adjustments to the earned credit shall also apply to any taxable years to which the credit was carried over. (4-11-06)

c. If the taxable year in which the credit was earned or carried over to is closed due to the statute of limitations, any adjustments to the credit earned shall not result in any tax due or refund for the closed taxable years. However, the adjustments may result in tax due or a refund in a carryover year if the carryover year is open to the statute of limitations. (4-11-06)

800. Valid Income Tax Returns (Rule 800).
Section 63-3030, Idaho Code

01. Requirements of a Valid Income Tax Return. In addition to the requirements set forth in IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Rule 150, an income tax return shall meet the requirements set forth in this rule. Those that fail to meet these requirements are invalid. They may be rejected and returned to the taxpayer to be completed according to these requirements and resubmitted to the Tax Commission. A taxpayer who does not file a valid income tax return is considered to have filed no return. (3-15-02)

02. Copy of Federal Return Required. A taxpayer shall include with the Idaho return a complete copy of the federal income tax return including all forms, schedules and attachments. (4-2-08)

03. Verification of Idaho Income Tax Withheld. A taxpayer who files an Idaho individual income tax return that is submitted on paper and reports Idaho income tax withheld shall attach appropriate Forms W-2 and 1099 and other information forms that verify the amount of the Idaho income tax withheld and claimed on the Idaho income tax return. Returns filed electronically shall include the W-2 and 1099 information in the electronic record transmitted. (5-8-09)

801. Persons Required to File Income Tax Returns (Rule 801).
Section 63-3030, Idaho Code

01. In General. Persons who meet the filing requirements under Section 63-3030, Idaho Code, will file Idaho income tax returns unless otherwise provided in the Idaho Income Tax Act or by federal law. (3-20-14)

02. Individuals Who Make Elections Under Section 63-3022L, Idaho Code. For taxable years beginning prior to January 1, 2012, if an individual partner, member, shareholder, or beneficiary is qualified and makes an election under Section 63-3022L, Idaho Code, for the entity to pay the tax attributable to his income from the entity, such individual will not be required to file an Idaho individual income tax return for that taxable year. (3-20-14)

03. Corporations Included in a Unitary Group. A unitary group of corporations may file one (1) Idaho corporate income tax return for all the corporations of the unitary group that are required to file an Idaho income tax return. Use of the group return precludes the need for each corporation to file its own Idaho corporate income tax return. See Rule 365 of these rules. (3-30-07)

04. Taxpayers Protected Under Public Law 86-272. A taxpayer whose Idaho business activities fall under the protection of Public Law 86-272 is not required to file an Idaho income tax return since the taxpayer is exempt from the tax imposed under the Idaho Income Tax Act. If a taxpayer is a member of a unitary group, it will be
802.  (RESERVED)

803.  ROUNDING (RULE 803).
Section 63-113, Idaho Code. Amounts shown or required to be shown on any return, form, statement or other document required to be submitted to the Tax Commission under Title 63, Chapter 30, Idaho Code, shall be rounded to the nearest whole dollar. Amounts less than fifty cents ($0.50) are reduced to the whole dollar. Amounts of fifty cents ($0.50) or more are increased to the next whole dollar. (4-5-00)

804.  (RESERVED)

805.  JOINT RETURNS (RULE 805).
Sections 63-3031, 32-201, and 32-209, Idaho Code

01.  Effect of Filing Status Used on Federal Returns. A married couple, as defined in Section 32-201, Idaho Code, or recognized by Section 32-209, Idaho Code, shall use the same filing status with Idaho as used when filing returns with the Internal Revenue Service. (3-20-14)

02.  In General. (3-20-97)

a.  Only a married couple, as defined in Section 32-201, Idaho Code, or recognized by Section 32-209, Idaho Code, may file a joint return. Section 63-3024, Idaho Code, provides for joint return tax rates for individuals filing joint returns and for an individual qualifying as a surviving spouse or head of household. (3-20-14)

b.  If a married couple files a joint return and the due date for filing a separate return has expired for either spouse, separate returns may not be filed thereafter. For example, a married couple files a joint return before April 15 in the year due and desires to change their federal and state election to file separately. They may do so only if they file the separate returns on or before April 15. (3-20-97)

03.  Resident Aliens or United States Citizens Married to Nonresident Aliens. A United States citizen or resident married to a nonresident alien may elect to treat the spouse as a resident alien allowing them to file a joint return. In this case they are taxed on their worldwide income. The individuals must be able to provide all records and information necessary to determine their tax liability. A statement declaring the election shall be attached to the return for the first taxable year for which the election is to apply. In addition, the statement shall include the name, address, and taxpayer identification number of each spouse, and shall be signed by both individuals making the election. (3-20-97)

806.  -- 809.  (RESERVED)

810.  TIME FOR FILING INCOME TAX RETURNS (RULE 810).
Section 63-3032, Idaho Code

01.  Due Date of Returns. (7-1-98)

a.  All taxpayers except farmer’s cooperatives. Each taxpayer, whether a corporation, S corporation, individual, partnership, estate or trust, is required to file an income tax return with the Tax Commission on or before the fifteenth day of the fourth month following the close of the taxable year. A taxable year, for this purpose, includes a short taxable year as defined by the Internal Revenue Code. However, if the time for filing a short taxable year for federal income tax purposes is later than the fifteenth day of the fourth month following the close of the taxable year, the later date will be the date the return is required to be filed with the Tax Commission. (4-4-13)

b.  Farmer’s cooperatives. Each farmers’ cooperative taxable pursuant to Section 63-3025B, Idaho Code, is required to file an income tax return with the Tax Commission on or before the fifteenth day of the ninth month following the close of the taxable year. (7-1-98)
02. **Timely Filing Defined.** If the last day for filing a return falls on a Saturday, Sunday, legal holiday, or a holiday recognized by the Internal Revenue Service, the return is deemed timely filed if it is filed on the next day that is not a Saturday, Sunday, or legal holiday. This rule also applies to returns falling due at the end of a period of extension granted by the Tax Commission. A legal holiday, for this purpose, is any holiday recognized by the state of Idaho, including special holidays declared by the Governor. (4-4-13)

03. **Mail.** Section 63-217(1), Idaho Code, specifies that an income tax return sent through the mail is filed timely if it is postmarked on or before the due date of the return. See IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Rule 010. (3-15-02)

04. **Fifty-Two/Fifty-Three Week Years.** A fifty-two fifty-three (52-53) week year is considered to end on the last day of the calendar month ending nearest to the last day of that taxable year. For example, the taxable year of a taxpayer with a fifty-two fifty-three (52-53) week year that ends on February 3 is considered to end on January 31. In this example the due date of the return is May 15, the fifteenth day of the fourth month following January 31. (3-20-97)

811. -- 814. (RESERVED)

815. **EXTENSIONS OF TIME (RULE 815).**
Section 63-3033, Idaho Code

01. **Taxpayers Abroad.** An extension granted by the Internal Revenue Service when a taxpayer has not yet met either the bona fide resident test or the physical presence test pursuant to Section 911, Internal Revenue Code, but expects to qualify after the two (2) month extension, is accepted as a valid extension for Idaho filing purposes. A copy of the approved federal extension form must accompany the Idaho income tax return. (7-1-99)

02. **Individuals in Combat Zone.** Section 7508, Internal Revenue Code, applies to individuals who are serving in a combat zone or who are hospitalized as a result of serving in a combat zone. In this case, returns are not due until one hundred eighty (180) days after the period of qualified service or qualified hospitalization, whichever occurs last. For individuals entitled to this extension of time, interest accrues on the portion of the tax not paid from the extended due date. (2-27-12)

03. **Interest.** Interest accrues on the portion of the tax not withheld or paid from the due date until the date the return is filed and the full amount of tax is paid. Exceptions only apply in the case of an individual in a combat zone as allowed by Section 63-3033(g), Idaho Code, and Subsection 815.02 of this rule, and when disaster relief is granted to a taxpayer as allowed under Section 63-114, Idaho Code, and Rule 817 of these rules. A taxpayer will not receive interest on amounts withheld or on corporation estimated tax in excess of the actual tax liability. See Section 63-3073, Idaho Code. (2-27-12)

816. (RESERVED)

817. **EXTENSIONS OF TIME AS DISASTER RELIEF (RULE 817).**
Section 63-114, Idaho Code

01. **In General.** Section 63-114, Idaho Code, allows the Tax Commission to grant an extension of time for up to one (1) year from the due date to file returns or make payments in the following situations: (5-3-03)

   a. When a taxpayer is adversely affected by a disaster declared by the President of the United States or by a governor of a state or territory of the United States; (5-3-03)

   b. When a taxpayer is entitled to an extension under Section 7508A, Internal Revenue Code, due to a Presidentially declared disaster or a terrorist or military action. (5-3-03)

02. **Penalties and Interest.** If an extension of time to file a return or pay tax is allowed under Section 63-114, Idaho Code, penalties and interest will not apply during the extension period. If the taxpayer fails to file by the extended due date, penalties as provided under Section 63-3046, Idaho Code, and interest shall apply after the
extended due date to the date of payment. (5-3-03)

818. -- 819. (RESERVED)

820. CORPORATE ESTIMATED PAYMENTS: IN GENERAL (RULE 820).
Section 63-3036A, Idaho Code

01. Estimated Tax. The term estimated tax means the corporation’s anticipated tax as imposed by this Chapter including the permanent building fund tax, plus any recapture of Idaho income tax credits, less the sum of any income tax credits. Estimated payments and non-income tax credits are not included as a credit. (5-3-03)

02. Computation of Estimated Payments. (3-20-97)

a. Estimated tax is paid in four (4) payments. Each estimated payment shall be twenty-five percent (25%) of the lesser of the tax required to be reported on the taxpayer’s return filed for the preceding taxable year or ninety percent (90%) of the tax required to be paid on the current year’s return. (3-20-97)

b. The tax required to be reported on the preceding year’s return and the tax required to be paid on the current year’s return means Idaho taxable income multiplied by the corporate income tax rate with a minimum of twenty dollars ($20), plus the permanent building fund tax, plus the recapture of income tax credits, less income tax credits excluding estimated payments. (5-3-03)

c. An estimated payment is not required if an Idaho return was not required for the previous taxable year. (3-20-97)

03. Revised Income Estimate. If, after making one or more estimated payments for a taxable year, a corporation makes a new estimate of its current year income, it shall recomputes its estimated tax. If the corporation has paid its new estimated tax in prior estimated payments, no payment is due. (3-20-97)

04. Net Operating Loss or Capital Loss Carryover. The allowable net operating loss carryover or capital loss carryover shall be deducted from income for the period before the estimated tax is computed. (5-3-03)

821. CORPORATE ESTIMATED PAYMENTS: PAYMENTS (RULE 821).
Section 63-3036A, Idaho Code

01. Underpayments. A payment of estimated tax shall be applied to previous payments of estimated tax in the order in which the estimated payments were required to be paid. To the extent the payment exceeds previous underpayments, it shall be applied to the estimated payment then due. (3-20-97)

02. Overpayments. (3-20-97)

a. If the estimated payments exceed the actual tax due, the overpayment may be claimed as a credit against the next payment only to the extent it exceeds all underpayments of prior estimated payments. (3-20-97)

b. The overpayment shall be applied to deficiencies of tax, penalties, and interest prior to refund or application to a subsequent year’s estimated payment or tax liability. (3-20-97)

c. A refund or credit may not be made to a corporation that fails to file its Idaho income tax return within three (3) years from the due date of the return for which it made the estimated payments. (3-20-97)

03. Obligation to File Returns. The payment of estimated tax does not relieve a corporation of the obligation to file a return when due pursuant to the Idaho Income Tax Act. An extension of time is not allowed for payment of estimated taxes. Making estimated payments as required in Section 63-3036A, Idaho Code, does not relieve the taxpayer of the requirement to pay the appropriate amount of tax with an application for extension of time to file or with the original return. (3-20-97)
822. CORPORATE ESTIMATED PAYMENTS: ANNUALIZED INCOME INSTALLMENT METHOD (RULE 822).
Section 63-3036A, Idaho Code

01. In General. (3-20-97)
   a. If a corporation uses the annualized income installment method for federal purposes and is required to make estimated payments for Idaho purposes, the corporation may use that method to compute its Idaho estimated tax. If a corporation does not use the annualized income installment method for federal purposes, the corporation may not use that method for Idaho purposes. (3-20-97)
   b. See Section 6655, Internal Revenue Code, for the determination of annualized income. (3-20-97)

02. Required Installment. The required annualized income installment is the applicable percentage of the tax computed on the annualized income less the aggregate amount of any prior required installments for the reporting period. The applicable percentages for Idaho are: (3-20-97)
   a. Twenty-two and one-half percent (22.5%) for the first period; (3-20-97)
   b. Forty-five percent (45%) for the second period; (3-20-97)
   c. Sixty-seven and one-half percent (67.5%) for the third period; and (3-20-97)
   d. Ninety percent (90%) for the fourth period. (3-20-97)

03. Computation of Tax. The tax computed on the annualized income includes the annualized income multiplied by the corporate income tax rate, plus the permanent building fund tax, plus recapture of investment tax credit, less any credits excluding estimated payments. (3-20-97)

823. CORPORATE ESTIMATED PAYMENTS: SHORT TAXABLE YEAR (RULE 823).
Section 63-3036A, Idaho Code

01. In General. If a short taxable year ends before an estimated payment due date, remaining estimated payments shall be made on the fifteenth day of the last month of the short taxable year. No estimated payment is required if the short taxable year is less than four (4) months or if the corporation does not meet the requirements to make an estimated payment before the first day of the last month in the short taxable year. (3-20-97)

02. Examples. (3-20-97)
   a. X, a corporation filing on a calendar year basis, changes to a fiscal year beginning September 1, 1993 and ending August 31, 1994. For the short taxable year, January 1, 1993 to August 31, 1993, X must make estimated payments of twenty-five percent (25%) of its minimum payment on April 15, 1993, and June 15, 1993. The remaining payment of fifty percent (50%) of the minimum payment, twenty-five percent (25%) for the third payment plus twenty-five percent (25%) for the fourth payment, is due on August 15, 1993, the fifteenth day of the last month of the short taxable year. (3-20-97)
   b. If, in the example in Subsection 823.02.a., X does not meet the requirement to make estimated payments until June 15, 1993, X is required to pay fifty percent (50%) of the estimated tax, twenty-five percent (25%) for the third payment and twenty-five percent (25%) for the fourth payment. No payment for the first and second reporting period is required on August 15, 1993, the fifteenth day of the last month of the short taxable year. (3-20-97)

824. CORPORATE ESTIMATED PAYMENTS: MISCELLANEOUS PROVISIONS (RULE 824).
Section 63-3036A, Idaho Code

01. Unitary Groups Filing Group Returns. (3-20-97)
Each corporation included in a group return that is required to make estimated payments shall separately compute its estimated tax. (3-20-97)

Estimated payments shall be made using the name and the federal employer identification number of the corporation whose name will be on the Idaho corporate income tax return. (3-20-97)

02. S Corporations. An S corporation is subject to Section 63-3036A, Idaho Code, limited to its tax on net recognized built-in gains, excess net passive income and from recapture of Idaho income tax credits. (3-29-10)

03. Tax-Exempt Organizations. A tax-exempt organization is subject to Section 63-3036A, Idaho Code, limited to its tax on unrelated business income. (3-20-97)

825. CORPORATE ESTIMATED PAYMENTS: INTEREST ON UNDERPAYMENT (RULE 825).
Section 63-3046A, Idaho Code

01. In General. If a taxpayer is required to pay estimated taxes as provided in Section 63-3036A, Idaho Code, and fails to pay the amount of estimated taxes due, interest shall be due on the underpaid estimated taxes. (5-3-03)

02. Net Operating Loss and Capital Loss Carrybacks. If the tax due for the taxable year is reduced after the application of a net operating loss carryback or a capital loss carryback, the interest on underpayment of estimated tax shall not be recomputed. (5-3-03)

826. -- 829. (RESERVED)

830. INFORMATION RETURNS (RULE 830).
Section 63-3037, Idaho Code

01. In General. Information returns are not required to be filed with the Tax Commission except as follows: (3-20-97)

a. Form 1098, Mortgage Interest Statement, if the property was located in Idaho. (4-5-00)

b. Form 1099-A, Acquisition or Abandonment of Secured Property, if the property was located in Idaho. (4-5-00)

c. Form 1099-B, Proceeds From Broker and Barter Exchange Transactions, if the property was located in Idaho or the service was performed in Idaho. (4-5-00)

d. Form 1099-C, Cancellation of Debt, if the secured property was located in Idaho. (4-5-00)

e. Form 1099-MISC, Miscellaneous Income, if it was issued for transactions related to property located or utilized in Idaho or for services performed in Idaho. (4-5-00)

f. Form 1099-R, Distributions from Pensions, Annuities, Retirement or Profit-Sharing Plans, IRA’s, Insurance Contracts, etc., if Idaho income tax was withheld. (4-5-00)

g. Form 1099-S, Proceeds From Real Estate Transactions, if it was issued for transactions related to property located in Idaho. (4-5-00)

h. Form W-2G, Certain Gambling Winnings, if the gambling took place in Idaho. (7-1-98)

02. Submitting Returns. Information returns must be submitted to the Tax Commission through electronic filing or on a paper copy of federal Form 1099. (4-7-11)

03. Due Date of Information Returns. Information returns are made on a calendar year basis. The due date for information returns submitted through electronic filing or on paper is the last day of February following the
Voluntary Withholding. Each person who withholds Idaho income tax from amounts reported on information returns required by Section 63-3037, Idaho Code, must:

a. Obtain an Idaho withholding account number as required by Rule 870 of these rules; and

b. Submit an annual reconciliation return to the Tax Commission and comply with the requirements provided for filing of annual reconciliation returns as discussed in Rule 872 of these rules. The reconciliation return must report amounts paid during the preceding calendar year and reconcile the state income tax withheld with the tax remitted for the preceding calendar year. The reconciliation return must be filed on or before the last day of January.

PERMANENT BUILDING FUND TAX (RULE 855).
Sections 63-3082 through 63-3087, Idaho Code

In General. The permanent building fund tax is an excise tax of ten dollars ($10) reportable on each income tax return required to be filed unless specifically exempt. The proceeds of this tax are credited to the Permanent Building Fund pursuant to Section 57-1110, Idaho Code.

Pass-Through Entities. The permanent building fund tax does not apply to a pass-through entity if all the income or loss of the entity is distributed to or otherwise reported on the income tax return of another taxpayer. A pass-through entity that has Idaho taxable income or loss must pay the permanent building fund tax.

Corporations Included in a Group Return. The permanent building fund tax applies to each member of a unitary group transacting business in Idaho, authorized to transact business in Idaho, or having income attributable to Idaho and included in a group return, except as provided in Subsection 855.05 of this rule.

Inactive or Nameholder Corporations. An inactive or nameholder corporation that files Form 41 to pay the twenty dollar ($20) minimum tax must pay the permanent building fund tax.

Taxpayers Protected Under Public Law 86-272. The permanent building fund tax does not apply to a taxpayer whose Idaho business activities fall under the protection of Public Law 86-272, since the taxpayer is exempt from the tax imposed under the Idaho Income Tax Act and is not required to file an income tax return.

Entities That Pay the Tax for Individuals Under Section 63-3022L, Idaho Code. When a pass-through entity pays the Idaho income tax on a composite return for an individual shareholder, partner, member, or beneficiary on his share of income from the entity, the entity must pay the permanent building fund tax for each individual filing as part of the composite return. When a pass-through entity pays backup withholding for individuals, the permanent building fund tax will be paid by each individual when they file their return. If an individual has tax paid by more than one (1) entity for a taxable year, each entity is required to pay the permanent building fund tax for the individual. Proration of the permanent building fund tax is not allowed for an individual who has tax paid by multiple entities for a taxable year.
01. **Idaho Withholding Account Number Required.** An Idaho withholding account number is required of:
   (3-20-97)
   a. Each employer who pays salaries, wages, or other compensation to an employee for services performed in Idaho, including agricultural, household, and domestic employers; and
   (3-20-97)
   b. Each person who withholds Idaho income tax.
   (3-30-07)

02. **Idaho Withholding Account Numbers Are Not Transferable.** If a business is sold, the new employer shall apply for a new withholding account number and file separate returns and W-2s. If a change in the form of doing business requires a new federal employer identification number, the new entity shall apply for a new withholding account number. Neither entity should report wages paid by the other entity, nor use the other entity’s withholding account number.
(3-20-97)

871. **STATE INCOME TAX WITHHOLDING REQUIRED (RULE 871).**
Sections 63-3035 and 63-3036, Idaho Code

01. **Employers Other Than Farmers.** An employer is required to withhold from all salaries, wages, tips, bonuses, or other compensation paid to an employee for services performed in Idaho if:
   (7-1-99)
   a. The employer is required to withhold for federal purposes; and
   (7-1-99)
   b. The employee is an Idaho resident; or the employee is a nonresident and compensation of one thousand dollars ($1,000) or more will be paid during a calendar year to the nonresident employee for services performed in Idaho.
   (7-1-99)

02. **Farmer-Employers.** An employer who is a farmer is required to withhold from all salaries, wages, tips, bonuses, or other compensation paid to an employee for services performed in Idaho if:
   (3-30-01)
   a. The farmer-employer is required to withhold for federal purposes; and
   (3-30-01)
   b. Compensation of one thousand dollars ($1,000) or more will be paid during a calendar year to the agricultural employee.
   (3-30-01)

03. **Services Performed Within and Without Idaho.** An employer is required to withhold only on the portion of the employee’s total compensation that is reasonably attributable to services performed in Idaho regardless of his post of duty. Compensation may be allocated to Idaho based on workdays, hours, mileage, or commissions.
   (7-1-99)

04. **Exceptions to Withholding Requirements.** Withholding is not required if:
   (3-20-97)
   a. The salaries, wages, tips, bonuses, and other compensation paid by an employer are for services performed wholly outside Idaho regardless of the residency or domicile of either the employer or employee.
   (3-20-97)
   b. The compensation is paid by the United States Armed Forces to a nonresident serving on active duty in Idaho;
   (3-20-97)
   c. The compensation is paid to an interstate transportation employee of a rail carrier covered by Title 49, Section 11502, United States Code, who is a nonresident of Idaho; or
   (7-1-99)
   d. The compensation is paid to an interstate transportation employee of a motor carrier covered by Title 49, Section 14503, United States Code, who is a nonresident of Idaho; or
   (7-1-99)
   e. The compensation is paid to an employee of an interstate air carrier covered by Title 49, Section 40116, United States Code, who is a nonresident of Idaho and earns fifty percent (50%) or less of his compensation in
The compensation is paid to a master or seaman on a vessel in the foreign, coastwise, intercoastal, interstate, or noncontiguous trade or to an individual employed on a fishing vessel or any fish processing vessel covered by Title 46, Section 11108, United States Code; or (4-6-05)

g. The compensation is exempt from federal withholding. (7-1-99)

872. REPORTING AND PAYING STATE INCOME TAX WITHHOLDING (RULE 872).
Sections 63-3035 and 63-3036, Idaho Code

01. Payment of State Income Tax Withheld. (4-6-05)

a. In General. An employer must remit monthly any state income tax withheld. These monthly payments are due on or before the 20th day of the following month. However, employers who owe seven hundred fifty dollars ($750) or less per calendar quarter may, at the discretion of the Tax Commission, be allowed to remit the tax withheld on or before the last day of the month following the end of the quarter. Employers who owe less than seven hundred fifty dollars ($750) annually may be allowed to remit the tax withheld annually on or before January 31. When a filing cycle is changed, the change will take effect on January 1 of the following year. (3-20-14)

b. Semimonthly Filers. (4-11-15)

i. An employer who withholds state income taxes that meet or exceed the monthly or annual threshold amounts provided in Section 63-3035, Idaho Code, and listed in Subparagraph 872.01.b.ii., of this rule, will remit the tax withheld based on semimonthly withholding periods. The first semimonthly withholding period begins on the first day of the month and ends on the 15th day of the same month with payment made no later than the 20th day of the same month. The second period begins on the 16th day of the month and ends on the last day of the same month with payment made no later than the fifth day of the following month. (4-11-15)

ii. Threshold amounts:

<table>
<thead>
<tr>
<th>Withholding Periods Beginning</th>
<th>Monthly Threshold Amounts</th>
<th>Annual Threshold Amounts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to January 1, 2004</td>
<td>$5,000</td>
<td>$60,000</td>
</tr>
<tr>
<td>On or After January 1, 2004, but Before July 1, 2005</td>
<td>$6,000</td>
<td>$72,000</td>
</tr>
<tr>
<td>On or After July 1, 2005</td>
<td>$20,000</td>
<td>$240,000</td>
</tr>
</tbody>
</table>

(4-6-05)

iii. An employer who meets the threshold amounts provided in Section 63-3035, Idaho Code, and listed in Subparagraph 872.01.b.ii. of this rule, but only has one (1) monthly pay period, may request approval by the Tax Commission to pay and report monthly. The request should include verification of monthly payroll. (3-29-17)

c. Farmer-Employers. Generally an employer who is a farmer will remit state income tax withheld on or before the last day of January. However, an employer who is a farmer will remit the state income tax withheld on or before the last day of the month following the end of the quarter if he is a covered employer required to file with the Department of Commerce and Labor. (3-20-14)

02. Filing of Annual Reconciliation Returns. (4-6-05)

a. In General. An employer must file an annual reconciliation return for any calendar year in which the employer had an active Idaho withholding account or withheld Idaho income taxes. Such return will: (3-20-14)

i. Report payroll paid during the preceding calendar year; and (4-6-05)

ii. Reconcile the state income tax withheld during the preceding calendar year with the tax remitted
for the preceding calendar year. (4-6-05)

b. Due Date of Reconciliation Returns. The annual reconciliation return must be filed with the Forms W-2 on or before such date as required for filing of the W-2. See Rule 874 of these rules. The Tax Commission may require a shorter filing period and due date. (3-20-14)

c. Zero Tax Returns. For reporting periods in which the employer had no payroll or withheld no tax, the annual reconciliation return must be completed and filed by the due date. (3-20-14)

03. Extension of Time to Pay or File Returns. The Tax Commission may allow a one (1) month extension of time to make a monthly or quarterly payment or to file the annual reconciliation return. (4-6-05)

a. The employer must file a written request by the due date of the payment or annual reconciliation return that identifies the reason for the extension and includes the required minimum payment. The minimum payment must be at least ninety percent (90%) of the tax withheld for the period or one hundred percent (100%) of the tax withheld for the same period of the prior year. (3-20-14)

b. The employer must file the annual reconciliation return within one (1) month of the due date. The tax paid with the extension request must be shown on the payment line of the return. Interest from the due date applies to any additional tax due. (3-20-14)

04. Valid Returns. All withholding returns and other documents required to be filed pursuant to Sections 63-3035 and 63-3036, Idaho Code, and this rule will be filed using the proper forms as prescribed by the Tax Commission. The forms will include the taxpayer’s name, signature, withholding account number, and federal employer identification number. Returns that fail to meet these requirements are invalid and may be returned to the taxpayer to be refilled. Failure to file a valid return by the due date may cause interest and penalties to be imposed. (3-20-14)

873. EMPLOYEE’S WITHHOLDING ALLOWANCE CERTIFICATES (RULE 873).
Section 63-3035, Idaho Code

01. Verification. The Tax Commission may request verification of the marital status or withholding allowances claimed by an employee on federal Form W-4. If the employee fails to verify the claimed marital status or withholding allowances, a Notice of Deficiency as provided by Section 63-3045, Idaho Code, may be issued. If a Notice of Deficiency is issued but is not protested or is upheld on appeal, the Tax Commission shall issue an order specifying the marital status and maximum number of withholding allowances the employee is allowed for Idaho withholding purposes. (4-5-00)

02. Notification. The Tax Commission shall notify the employer of the order. The order is effective immediately on receipt by the employer and shall remain in effect the rest of the calendar year, unless the employee files federal Form W-4 claiming fewer allowances than ordered. The employer is liable to the Tax Commission for any deficiencies that result from withholding in excess of the maximum number of withholding allowances specified in the most recent Tax Commission order. (4-5-00)

03. Petition for Changes. An employee subject to a Tax Commission order may petition the Tax Commission for a change to the order. If the employee establishes that a material change of circumstances has occurred, the Tax Commission shall issue a new order and notify the employer. The determination of the Tax Commission on any change to the order is final. (4-5-00)

874. EMPLOYEE’S WAGE AND TAX STATEMENTS (RULE 874).
Sections 63-3035 and 63-3036, Idaho Code

01. Form and Information Required. Federal Form W-2 (W-2) or a form of similar size and design may be used. In addition to the information required by the Internal Revenue Code, total Idaho wages paid, Idaho income tax withheld, Idaho withholding permit number, and the name of the state must be shown in the appropriate boxes. Incomplete, incorrect or altered forms are not acceptable and may be returned to the employer for correction. (4-7-11)
02. **Furnishing Forms W-2 to Employees.** The employer must furnish each employee a W-2 before February 1, or at the request of the employee within thirty (30) days after termination of his employment. (4-7-11)

03. **Filing Forms W-2 With the Tax Commission.** On or before the last day of January, each employer must file with the Tax Commission a state copy of the W-2 for each employee to whom Idaho taxable wages were paid, regardless of whether Idaho income tax was withheld. If the employer had no employees and subsequently did not pay wages or withhold tax, no W-2s are required. (3-29-17)

04. **Corrected Forms W-2.** If a corrected W-2 is filed with the Internal Revenue Service, the W-2c must be filed with the Tax Commission. (4-6-05)

05. **Employers With Fifty or More Idaho Employees.** Each employer with fifty (50) or more Idaho employees who is required to file W-2s electronically by Section 6011, Internal Revenue Code, must file through electronic filing with Idaho. In addition to the information required by the Internal Revenue Code, the electronic filing must also include the employer’s Idaho withholding account number, Idaho wages, and Idaho withholding. Employers who are required to file electronically but fail to do so are subject to the provisions of Section 63-3046(e)(1), Idaho Code, and treated as if no W-2s were filed. (5-8-09)

06. **Services Performed Within and Without Idaho.** If services are performed within and without Idaho, the state wages shown on the W-2 furnished to the employee must include the portion of the employee’s total wages reasonably attributed to services performed within Idaho as determined using the calculations in Rule 270 of these rules. (5-8-09)

07. **Extension of Time to File Form W-2.** The Tax Commission may allow a one (1) month extension of time to file the W-2s. (4-6-05)

   a. The employer must file a written request by the due date of the W-2s that identifies the reason for the extension. (4-6-05)

   b. The employer must file the W-2s within one (1) month of the due date. A penalty of two dollars ($2) per W-2 per month not filed may be applied if the W-2s are not submitted by the due date. (4-6-05)

875. -- 876. (RESERVED)

877. **BACKUP WITHHOLDING BY PASS-THROUGH ENTITIES (RULE 877).** Sections 63-3022L and 63-3036B, Idaho Code

01. **In General.** A pass-through entity that is transacting business in Idaho or an estate or trust that has income taxable in Idaho must withhold Idaho income tax from the owner’s or beneficiary’s share of income and guaranteed payments from the pass-through entity that is required to be included in the individual’s Idaho taxable income unless exempt from backup withholding by Section 63-3036B, Idaho Code, or this rule. For purposes of this rule, pass-through entity means “pass-through entity” as defined in Section 63-3006C, Idaho Code. The provisions of this rule do not affect the withholding requirements set forth in Sections 63-3035, 63-3035A, or 63-3036, Idaho Code, and related rules. (4-4-13)

02. **Exceptions to Backup Withholding.** Backup withholding by a pass-through entity is not required on the income of the following pass-through owners and beneficiaries:

   a. Owners and beneficiaries who are not natural persons, including corporations, partnerships, trusts, and estates. (4-7-11)

   b. Unit holders of a publicly traded partnership as defined by Section 7404(b), Internal Revenue Code, if the publicly traded partnership:

      i. Is treated as a partnership for purposes of the Internal Revenue Code; and (4-7-11)
ii. Has agreed to file an annual information return. The information return must be in the form of a schedule included with the partnership’s Idaho Partnership Return of Income reporting the name, address, taxpayer identification number, and other information requested by the Tax Commission of each unit holder with a distributive share of partnership income in Idaho in excess of five hundred dollars ($500) for the taxable year. (2-27-12)

c. Resident individuals and part-year resident individuals who have income other than from a pass-through entity.

d. Nonresident individuals if:

i. The pass-through entity has reported and paid the tax relating to the individual on a composite return pursuant to Section 63-3022L, Idaho Code. (4-4-13)

ii. Such individual’s share of income and guaranteed payments of the pass-through entity from Idaho sources is less than one thousand dollars ($1,000) for the taxable year in which the income is subject to tax; (4-4-13)

iii. The income is subject to withholding under Section 63-3035 or 63-3036, Idaho Code; or (4-4-13)

iv. The individual has signed and the pass-through entity has approved an Idaho nonresident owner agreement. (4-4-13)

03. Idaho Nonresident Owner Agreement. When an individual signs an Idaho nonresident owner agreement, he agrees to file and pay tax on his share of Idaho income from a pass-through entity. The signed agreement must be the proper form prescribed by the Tax Commission and must be submitted to the pass-through entity each year. The pass-through entity must sign and approve the nonresident owner agreement for it to be valid. Their approval will signify their acknowledgment that they are liable for any tax due at the corporate rate if the individual fails to file a return as agreed. If the pass-through entity does not approve the nonresident owner agreement, the pass-through entity must withhold or include the individual in the composite return. The pass-through entity must retain the forms for three years following the end of the taxable year for which it is to apply. (4-4-13)

04. Payment of Backup Withholding. (4-7-11)

a. The pass-through entity must withhold amounts from the pass-through income of nonresident individuals at the highest marginal rate applicable for the taxable year under Section 63-3024, Idaho Code. The amount withheld for a taxable year must be remitted to the Tax Commission annually on or before the fifteen day of the fourth month following the end of the taxable year, unless one of the exceptions under Subsection 877.02 of this rule apply to the owner or beneficiary. The amount withheld must be remitted on the appropriate return as required by the Tax Commission. (2-27-12)

b. Amounts remitted as backup withholding for a taxable year in accordance with the provisions of this rule will be considered to be in part payment of the tax imposed on such owner or beneficiary for his taxable year in which the pass-through entity’s taxable year ends. (2-27-12)

05. Backup Withholding Returns. A reconciliation schedule must be included with the pass-through entity’s Idaho income tax return. Returns submitted to the Tax Commission reporting amounts withheld as required by Section 63-3036B, Idaho Code, must include the following information:

a. The amount of income described in Section 63-3022L(2), Idaho Code, by owner or beneficiary; (2-27-12)

b. The amount of tax withheld; (4-7-11)

c. Name, address, filing option, and social security number of each owner or beneficiary; (4-4-13)

d. The pass-through entity’s name, and federal employer identification number. (2-27-12)

06. Failure to File Returns or Remit Backup Withholding. Returns that fail to meet the
requirements of this rule are invalid and may be returned to the pass-through entity to be refiled. Failure to file a valid return or remit the proper amount of backup withholding by the due date may cause interest and penalties to be imposed. (2-27-12)

878. -- 879. (RESERVED)

880. CREDITS AND REFUNDS (RULE 880).
Section 63-3072, Idaho Code

01. Overpayment. The term overpayment includes:
   a. A voluntary and unrequested payment greater than an actual tax liability. (3-20-97)
   b. An excessive amount that an employer withholds pursuant to Sections 63-3035 and 63-3036, Idaho Code. (3-20-97)
   c. An excessive amount that a pass-through entity withholds pursuant to Section 63-3036B, Idaho Code. (3-20-14)
   d. All amounts erroneously or illegally assessed or collected. (3-20-97)
   e. The term overpayment does not include an amount paid pursuant to a final determination of tax, including a compromise and closing agreement, decision of the Tax Commission, decision of the Board of Tax Appeals, or final court judgment. (3-20-97)

02. Requirements of a Valid Refund Claim. Before the Tax Commission can credit or refund an overpayment, the taxpayer making the claim must establish both of the following:
   a. The basis for the credit or refund claim, and (4-2-08)
   b. The amount of the overpayment. (4-2-08)

03. Timely Claim Required for Refund.
   a. The Tax Commission may not credit or refund an overpayment after the expiration of the period of limitations unless the taxpayer filed a claim before the expiration of the period. (3-20-97)
   b. When an adjustment to the taxpayer’s federal return affects the calculation or application of an Idaho net operating loss, capital loss, or Idaho credit in a year otherwise closed by the period of limitations, the taxpayer has one (1) year from the date of the final determination to file a claim for refund. (4-2-08)
   c. If a claim for credit or refund relates to an overpayment attributable to an Idaho net operating loss carryback incurred in taxable years beginning on and after January 1, 2013, an amended return carrying the loss back must be filed within one (1) year of the end of the taxable year of the net operating loss that results in such carryback. (3-20-14)

04. Amended Returns Required as Refund Claims. The claim for a credit or refund must be made on an amended Idaho income tax return that is properly signed and includes an explanation of each legal or factual basis in sufficient detail to inform the Tax Commission of the reason for the claim. By signing the amended return the taxpayer is declaring that the claim for refund is true and correct to the best of his knowledge and belief and is made under the penalties of perjury. (3-20-14)

05. Closed Issues. The Tax Commission will deny a credit or refund claim for a taxable year for which the Tax Commission has issued a Notice of Deficiency, unless the taxpayer shows that the changes on the amended return are unrelated to the adjustments in the Notice of Deficiency or that the changes result from a final federal determination. (3-20-14)
06. Limitations on Refunds of Withholding and Estimated Payments. As provided by Section 63-3072(c), Idaho Code, the Tax Commission may not refund taxes withheld from wages unless the taxpayer files a return within three (3) years after the due date. The Tax Commission may not refund any payment received with an extension of time to file or with a tentative return, including quarterly estimated payments, unless the taxpayer makes a claim for a refund within three (3) years of the due date of the return. However, when an individual is in a combat zone and entitled to an extension of time by Section 7508, Internal Revenue Code, the number of days disregarded under such section will be added to the three (3) year period for allowing refunds of amounts withheld or paid as estimated payments. (2-27-12)

07. Reduction or Denial of Refund Claims. If the Tax Commission determines that a refund claim is in error, the Tax Commission will deny the claim in whole or part. Unless the denial results from a mathematical error by the claimant, the Tax Commission will give notice of the denial by a Notice of Deficiency in the manner required by Section 63-3045, Idaho Code, and related rules. The protest and appeal process that applies to a Notice of Deficiency also applies to the denial or reduction of a refund. See Section 63-3045A, Idaho Code, for information on mathematical errors. (3-20-14)

08. Amended Federal Return. Filing a claim with the Internal Revenue Service to reduce taxable income does not extend the Idaho period of limitations for claiming a refund or credit of tax. If the statute of limitations is about to expire on a taxpayer’s Idaho return for which an issue is pending on his federal return or return filed with another state, the taxpayer should amend his Idaho return. He should clearly identify the amended return as a protective claim for refund. The taxpayer must notify the Tax Commission of the final resolution. (7-1-98)

09. Combined Reports -- Final Federal Determination and Change of Filing Method. If the Idaho period of limitations is open due to a final federal determination, a corporate taxpayer may not adjust its Idaho return to include a previously omitted corporation or to exclude any corporation previously included in a combined report. (3-20-97)

10. Duplicate Returns. If a return is filed pursuant to Section 63-217(1)(b), Idaho Code, where the taxpayer establishes by competent evidence that the return was deposited in the United States mail or with a qualifying private delivery service (See IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Rule 010) on or before the date for filing and the Tax Commission has notified the taxpayer that it has not received the return, the taxpayer must submit a duplicate return within fifteen (15) days of such notification for the newly filed return to qualify as a duplicate return. The period of limitations for a duplicate return is the later of one (1) year from the filing of the duplicate return or the date provided for in Section 63-3072(b), Idaho Code. (3-20-14)
taxpayer’s delay is more than sixty (60) days. Pursuant to this subsection, interest is computed from the due date, or extended due date, of the return. (3-20-97)

c. Tentative payments. The Tax Commission may not pay interest on a refund resulting from an estimated or tentative payment. (3-20-97)

03. Refunds from Net Operating Loss and Capital Loss Carrybacks. Refunds from net operating loss and capital loss carrybacks include refunds from credits carried to years other than the year to which the net operating loss or capital loss deduction applies. Interest on these refunds is computed from the last day of the loss year. (7-1-99)

886. -- 889. (RESERVED)

890. NOTICE OF ADJUSTMENT OF FEDERAL TAX LIABILITY (RULE 890). Section 63-3069, Idaho Code

01. Final Determination. The term final determination as used in Section 63-3069, Idaho Code means final federal determination as defined in Section 63-3068(f), Idaho Code. (3-20-97)

02. Written Notice.

a. Written notice shall include copies of all Revenue Agents’ reports, and any other documents and schedules required to clarify the adjustments to taxable income. If the final determination results in a refund of state taxes, an amended Idaho income tax return must accompany the written notice to be a valid claim for refund. (3-20-97)

b. Written notice included with an income tax return for a year or years other than the year subject to the federal adjustment shall not constitute the required notification. (3-20-97)

03. Immediate Notification. The Tax Commission may impose negligence penalties on any additional tax due if the taxpayer has not provided the written notice within one hundred twenty (120) days of the final determination. (3-26-19)

891. NOTICE OF ADJUSTMENT OF STATE OR TERRITORY TAX LIABILITY (RULE 891). Sections 63-3069 and 63-3069A, Idaho Code

01. Final Determination. The term final determination of any deficiency or refund of income tax due to another state or territory as used in Section 63-3069, Idaho Code, shall mean the final resolution of all issues that were adjusted by the other state or territory. (3-30-01)

02. Written Notice.

a. Written notice shall include copies of all reports issued by the other state or territory, and any other documents and schedules required to clarify the adjustments to taxable income of the state or territory. If the final determination results in a refund of Idaho taxes, an amended Idaho income tax return must accompany the written notice to be a valid claim for refund. (3-30-01)

b. Written notice included with an income tax return for a year or years other than the year subject to the adjustment by the state or territory shall not constitute the required notification. (3-30-01)

03. Immediate Notification. The Tax Commission may impose negligence penalties on any additional tax due if the taxpayer has not provided the written notice within one hundred twenty (120) days of the final determination. (3-26-19)

892. -- 894. (RESERVED)

895. PERIOD OF LIMITATION ON ASSESSMENT AND COLLECTION OF TAX (RULE 895).
Sections 63-3068 and 63-3069A, Idaho Code

01. **Federal Determination.** The additional one (1) year period of limitation provided in Sections 63-3068(f) and 63-3068(j), Idaho Code, does not begin to run if the final federal determination is delivered to the Tax Commission by someone other than the taxpayer or the taxpayer’s representative. The Internal Revenue Service and other taxing agencies are not representatives of taxpayers. (3-20-97)

02. **State or Territory Determination.** The additional one (1) year period of limitation provided in Section 63-3069A(2)(b), Idaho Code, does not begin to run if the final determination of income tax due to another state or territory is delivered to the Tax Commission by someone other than the taxpayer or the taxpayer's representative. Taxing agencies of other states or territories are not representatives of taxpayers. (3-30-01)

03. **Protest of a Notice of Deficiency.** If a taxpayer protests a Notice of Deficiency, the expiration of the period of limitations provided in Section 63-3068, Idaho Code, is suspended. (3-20-97)

04. **Waiver of the Period of Limitation.** If a taxpayer executes a waiver to extend the period of limitation, the waiver shall state the taxpayer’s name as shown on the tax return. If a group return is filed, the waiver shall apply to each corporation included in the combined group. (3-20-97)

05. **Duplicate Returns.** If a return is filed pursuant to Section 63-217(1)(b), Idaho Code, where the taxpayer establishes by competent evidence that the return was deposited in the United States mail or with a qualifying private delivery service (See IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Rule 010) on or before the date for filing and the Tax Commission has notified the taxpayer that it has not received the return, the taxpayer shall submit a duplicate return within fifteen (15) days of such notification for the newly filed return to qualify as a duplicate return. The period of limitations for a duplicate return is the later of one (1) year from the filing of the duplicate return or the date provided for in Section 63-3068, Idaho Code. (4-6-05)

896. **REQUEST FOR PROMPT ACTION BY THE TAX COMMISSION (RULE 896).**
Section 63-3068(e), Idaho Code

01. **In General.** A request for prompt action may be made pursuant to Section 63-3068(e), Idaho Code, for an income tax return that is required to be filed for a decedent or an estate of a decedent. The request does not apply to the estate tax imposed by Chapter 4, Title 14, Idaho Code. (7-1-98)

02. **Requirements of a Valid Request for Prompt Action.** The personal representative, executor, administrator, or other fiduciary representing the estate of a decedent shall file the request for prompt action in writing with the Tax Commission. The request must meet the following qualifications: (7-1-98)
   a. It must be filed after the applicable return has been filed;
   b. It must be filed separately from any other document;
   c. It must identify the taxpayer by name and identification number and the taxable periods for which the prompt action is requested; and
   d. It must clearly state that it is a request for prompt action pursuant to Section 63-3068(e), Idaho Code.
   (7-1-98)

03. **Applicable Returns.** A request for prompt action does not apply to any return filed after the request has been filed. The request applies only to returns reflecting income earned or other activities and transactions occurring during the lifetime of the decedent or by his estate during the period of administration. (7-1-98)

897. -- 899. **(RESERVED)**

900. **RESPONSIBILITY FOR PAYMENT OF CORPORATE TAXES AND PENALTIES (RULE 900).**
Section 63-3078, Idaho Code. The Tax Commission or its delegate may issue a jeopardy assessment or take any other action necessary to assess and collect the amounts due from liable individuals. The action may include the filing of a
lien on the property of the individual found liable, or seizure and sale of his property or any other means of collection. The liable individuals shall have the remedies provided in Sections 63-3045, 63-3049, 63-3065, and 63-3074, Idaho Code.

901. -- 939. (RESERVED)

Title 63, Chapter 44, Idaho Code. For purposes of administering the Idaho Small Employer Incentive Act of 2005, as modified by 2006 legislation, and Rules 940 through 946 of these rules, the following definitions apply:

01. Buildings and Structural Components. Buildings and structural components shall mean buildings and structural components of buildings as defined in Federal Treasury Regulation Section 1.48-1 for Internal Revenue Code Section 48 repealed by Public Law 101-508.

02. New Plant and Building Facilities. New plant and building facilities are facilities where employees are physically employed.

03. Investment in New Plant. Investment in new plant shall mean new plant and building facilities:

a. That are constructed or erected by the taxpayer, or

b. That are acquired by the taxpayer and whose original use begins with the taxpayer after such acquisition. Original use means the first use to which the property is put, whether or not such use corresponds to the use of such property by the taxpayer. Property used by the taxpayer prior to its acquisition shall not qualify as new plant.

c. That qualify for the investment tax credit under Section 63-3029B, Idaho Code, or is a building or structural components of buildings.

04. Making Capital Investments. The date capital investments are considered made shall be determined in the same manner as the date assets are considered placed in service pursuant to the federal treasury regulations.

05. New Employee. A new employee cannot be created by reorganizing the business in such a manner that the employee is reassigned to working in the project site instead of outside the project site. An employee within Idaho transferred to a qualifying position within the project site may qualify as a new employee if his previous position is filled by another employee creating a net new job in Idaho. An employee working outside of Idaho and transferred to a qualifying position within the project site may also qualify as a new employee.

06. Project Period. The project period is a period of time that begins and ends as follows:

a. The project period may begin on one (1) of the following dates, but not prior to January 1, 2006:
   i. The date of a physical change to the project site; or
   ii. The date new employees begin providing personal services at the project site.

b. The project period shall end at the earliest of:
   i. The conclusion of the project,
   ii. Ten (10) years after the beginning of the project; or
07. **Project Site.** The project site may include one (1) location or more than one (1) location in Idaho. However, if more than one (1) location in Idaho is used, eighty percent (80%) or more of the investment required in the tax incentive criteria shall be located at one (1) contiguous site. (3-30-07)

08. **Small Employer Investment Tax Credit.** Small employer investment tax credit shall mean the additional income tax credit allowed by Section 63-4403, Idaho Code. (3-30-07)

09. **Small Employer New Jobs Tax Credit.** Small employer new jobs tax credit shall mean the additional income tax credit for new jobs allowed by Section 63-4405, Idaho Code. (3-30-07)

10. **Small Employer Real Property Improvement Tax Credit.** Small employer real property improvement tax credit shall mean the real property improvement tax credit allowed by Section 63-4404, Idaho Code. (3-30-07)

11. **Small Employer Tax Incentive Criteria.** Small employer tax incentive criteria shall mean the tax incentive criteria defined in Section 63-4402(2)(j), Idaho Code. See Rule 942 of these rules for more information. (3-30-07)

12. **Small Employer Tax Incentives.** Small employer tax incentives shall mean the tax incentives allowed by Title 63, Chapter 44, Idaho Code. (3-30-07)

941. **IDAHO SMALL EMPLOYER INCENTIVE ACT OF 2005 AS MODIFIED BY 2006 LEGISLATION: IN GENERAL (RULE 941).**

Sections 63-4401 and 63-4406, Idaho Code

01. **Pass-Through Entities.** The income tax credits may be earned by a partnership, S corporation, estate, or trust and passed through to the partner, shareholder, or beneficiary. See Rule 785 of these rules for the method of attributing the credits, for pass-through entities paying tax, and the application of limitations on pass-through credits. (3-30-07)

02. **Reorganizations, Mergers and Liquidations.** The small employer investment tax credit and real property improvement tax credits shall be subject to recapture in accordance with Section 47, Internal Revenue Code, as in effect prior to the enactment of Public Law 101-508. Exceptions included in Section 47(b), Internal Revenue Code, to the general recapture rules, including a mere change in the form of conducting the trade or business and transactions to which Section 381(a), Internal Revenue Code, applies shall not cause recapture to occur so long as the property is retained in such trade or business as qualified investment in new plant and the taxpayer retains a substantial interest in such trade or business. To the extent that provisions of the Internal Revenue Code allow an acquiring taxpayer to succeed to and take into account unused investment credits of the distributor or transferor taxpayer, such provisions shall apply to the acquiring taxpayer with regard to any unused Idaho small employer investment tax credits and real property improvement tax credits. See Rule 946 of these rules for information related to the recapture required by an acquiring taxpayer. (3-30-07)

03. **Relocations.** The relocation from one (1) project site to a new project site within the state may not create new eligibility for the current or any succeeding business entity. (3-30-07)

04. **Unitary Taxpayers.** A corporation included as a member of a unitary group may elect to share the small employer investment tax credit, real property improvement tax credit, and new jobs tax credit it earns with other members of the unitary group. Before the corporation may share the credit, it must claim the credit to the extent allowable against its tax liability. The credit available to be shared is the amount of each credit carryover and credit earned for the taxable year that exceeds the limitations provided for each credit. The limitation is applied against the tax computed for the corporation that claims the credit. Credit shared with another member of the unitary group reduces the carryforward. (3-30-07)

942. **IDAHO SMALL EMPLOYER INCENTIVE ACT OF 2005 AS MODIFIED BY 2006 LEGISLATION: SMALL EMPLOYER TAX INCENTIVE CRITERIA (RULE 942).**

Section 63-4402, Idaho Code
01. **In General.** The small employer tax incentive criteria are the minimum requirements a taxpayer must meet in order to be eligible for small employer tax incentives. To meet the small employer tax incentive criteria, a taxpayer must satisfy the following requirements at the project site, during the project period:

   a. Making capital investment in new plant and building facilities totaling five hundred thousand dollars ($500,000) or more; (3-30-07)

   b. Increasing employment by at least ten (10) new employees who meet the requirements of Section 63-4402(2)(j)(ii)(1), Idaho Code; (3-30-07)

   c. Employment increases more than the ten (10) new employees described in Paragraph 942.01.b. of this rule shall meet the requirements of Section 63-4402(2)(j)(ii)(2), Idaho Code; and (3-30-07)

   d. Once the increase in employment has been reached, maintaining that increased employment in Idaho for the remainder of the project period. (3-30-07)

02. **Certification.** A taxpayer shall certify that he has met, or will meet, the small employer tax incentive criteria before he can claim any of the small employer tax incentives. Certification shall be accomplished by filing the applicable form as prescribed by the Tax Commission. The certification form shall include the following information and be filed with the Tax Commission prior to claiming any of the small employer tax incentives:

   a. A description of the qualifying project; (3-30-07)

   b. The estimated or actual start date of the project; (3-30-07)

   c. The estimated or actual end date of the project; (3-30-07)

   d. The location of the project site or sites; (3-30-07)

   e. The estimated or actual number of new jobs created during the project period; and (3-30-07)

   f. The estimated or actual cost of capital investment in new plant and building facilities for each year in the project period. (3-30-07)

03. **Copy of Certification Form Required.** A copy of the certification form shall be attached to the Idaho income tax return for each taxable year that a small employer income tax incentive is claimed or carried over. (3-30-07)

---

943. **IDAHO SMALL EMPLOYER INCENTIVE ACT OF 2005 AS MODIFIED BY 2006 LEGISLATION: SMALL EMPLOYER INVESTMENT TAX CREDIT (RULE 943).**

Sections 63-4403 and 63-4406, Idaho Code

01. **Credit Allowed.** The small employer investment tax credit allowed by Section 63-4403, Idaho Code, may be earned during taxable years beginning on or after January 1, 2006 and before December 31, 2020. (3-29-10)

   b. The credit applies to qualified investments placed in service during the project period. Qualified investments placed in service during the project period, but in a taxable year that does not qualify, shall not qualify for the small employer investment tax credit, but may qualify for the investment tax credit allowed by Section 63-3029B, Idaho Code. For example, if a project begins after December 31, 2005, but in a fiscal year beginning in 2005, the qualified investments placed in service during that taxable year shall not qualify for the small employer investment tax credit, but may qualify for the investment tax credit allowed by Section 63-3029B, Idaho Code. (3-30-07)

02. **Taxpayers Entitled to the Credit.** The small employer investment tax credit is allowed only to taxpayers who certify that they will meet the small employer tax incentive criteria. (3-30-07)
03. **Qualified Investments.**

   a. Investments in new plant must meet the definition of qualified investments found in Section 63-3029B, Idaho Code, and requirements of Rules 710 through 719 of these rules, in addition to the requirements of Section 63-4403, Idaho Code, and related rules to qualify as qualified investments. (3-30-07)

   b. Qualified investments must be placed in service in Idaho, but may be located in or outside the project site to qualify. (3-30-07)

04. **Limitations.** The small employer investment tax credit allowable in any taxable year shall be limited as follows:

   a. The small employer investment tax credit claimed during a taxable year may not exceed the lesser of:

      i. Seven hundred fifty thousand dollars ($750,000); or (3-30-07)

      ii. Sixty-two and five-tenths percent (62.5%) of the tax, after allowing all other income tax credits that may be claimed before the small employer investment tax credit, regardless of whether this credit results from a carryover earned in prior years, the current year, or both. See Rule 799 of these rules for the priority order for nonrefundable credits. (3-30-07)

   b. Unitary Taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules. (3-30-07)

05. **Carryovers.** The carryover period for the small employer investment tax credit is fourteen (14) years. (3-30-07)

06. **Coordination With Investment Tax Credit Allowed by Title 63, Chapter 30, Idaho Code.** A taxpayer who is eligible to claim the small employer investment tax credit is not eligible to claim the investment tax credit allowed by Section 63-3029B, Idaho Code, on the same property. However, if a taxpayer has qualified investments in a taxable year in which the project period begins or ends, the taxpayer may qualify for both the small employer investment tax credit on property placed in service during the project period in that taxable year and for the investment tax credit allowed by Section 63-3029B, Idaho Code, for property placed in service before or after the project period in that taxable year. (3-30-07)

944. **IDAHO SMALL EMPLOYER INCENTIVE ACT OF 2005 AS MODIFIED BY 2006 LEGISLATION: SMALL EMPLOYER REAL PROPERTY IMPROVEMENT TAX CREDIT (RULE 944).** Sections 63-4404 and 63-4406, Idaho Code

01. **Credit Allowed.**

   a. The small employer real property improvement tax credit allowed by Section 63-4404, Idaho Code, may be earned during taxable years beginning on or after January 1, 2006 and before December 31, 2020. (3-29-10)

   b. The credit applies to buildings and structural components of buildings placed in service during the project period. Qualified investments placed in service during the project period, but in a taxable year that does not qualify, shall not qualify for the small employer real property improvement tax credit. For example, if a project begins after December 31, 2005, but in a fiscal year beginning in 2005, the buildings and structural components placed in service during that taxable year shall not qualify for the small employer real property improvement tax credit. (3-30-07)

02. **Taxpayers Entitled to the Credit.** The small employer real property improvement tax credit is allowed only to taxpayers who certify that they will meet the small employer tax incentive criteria. (3-30-07)

03. **Buildings and Structural Components of Buildings.** (3-30-07)
a. To qualify for the small employer real property improvement tax credit, buildings and structural components of buildings must meet the following requirements:

i. The buildings and structural components of buildings must be new as defined in Subsection 940.03 of these rules. Structural components placed in service as part of a renovation of an existing building do not qualify.

ii. The buildings and structural components of buildings must be placed in service at the project site.

b. Buildings and structural components of buildings that meet the definition of qualified investments pursuant to Section 63-3029B, Idaho Code, shall not qualify for the small employer real property improvement tax credit.

04. Limitations. The small employer real property improvement tax credit allowable in any taxable year shall be limited as follows:

a. The small employer real property improvement tax credit claimed during a taxable year may not exceed the lesser of:

i. One hundred twenty-five thousand dollars ($125,000); or

ii. One hundred percent (100%) of the tax, after allowing all other income tax credits that may be claimed before the small employer real property improvement tax credit, regardless of whether this credit results from a carryover earned in prior years, the current year, or both. See Rule 799 of these rules for the priority order for nonrefundable credits.

b. Unitary Taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules.

05. Carryovers. The carryover period for the small employer real property improvement tax credit is fourteen (14) years.

945. IDAHO SMALL EMPLOYER INCENTIVE ACT OF 2005 AS MODIFIED BY 2006 LEGISLATION: SMALL EMPLOYER NEW JOBS TAX CREDIT (RULE 945).

Sections 63-4405 and 63-4406, Idaho Code

01. Credit Allowed.

a. The small employer new jobs tax credit allowed by Section 63-4405, Idaho Code, may be earned during taxable years beginning on or after January 1, 2006 and before December 31, 2020.

b. The credit applies to new employees hired during the project period. New employees hired during the project period, but in a taxable year that does not qualify, shall not qualify for the small employer new jobs tax credit. For example, if a project begins after December 31, 2005, but in a fiscal year beginning in 2005, new employees hired during that taxable year shall not qualify for the small employer new jobs tax credit, but may qualify for the credit for qualifying new employees allowed by Section 63-3029F, Idaho Code.

c. The applicable credit rate per new employee depends on the wage rate received by a qualifying new employee.

02. Taxpayers Entitled to the Credit. The small employer new jobs tax credit is allowed only to taxpayers who certify that they will meet the small employer tax incentive criteria.

03. Calculating Number of Employees.
a. Number of Employees Clarified. Only employees who meet the qualifications set forth in Sections 63-4402(2)(e) and 63-4405, Idaho Code, are included when computing the number of employees for a taxable year. Such requirements include the following:

i. The employee must have worked primarily within the project site for the taxpayer.

ii. The employee must have received earnings at a rate of more than twenty-four dollars and four cents ($24.04) per hour worked.

iii. The employee must have been eligible to receive employer provided coverage under a health plan described in Section 41-4703, Idaho Code.

iv. The employee must have been subject to Idaho income tax withholding.

v. The employee must have been covered for Idaho unemployment insurance purposes.

vi. The employee must have been employed on a regular full-time basis. An employee who customarily performs duties at least forty (40) hours per week on average for the taxable year shall be considered employed on a regular full-time basis. Leased employees do not qualify as employees of the lessee.

vii. The employee must have been performing such duties for the taxpayer for a minimum of nine (9) months during the taxable year. An individual employed in a seasonal or new business that was in operation for less than nine (9) months during the taxable year does not qualify.

b. Idaho Department of Labor Reports. The taxpayer should begin with his Idaho Department of Labor reports to determine the number of employees. However, all employees reported on these reports do not automatically qualify for the calculation of the number of employees.

c. Calculation. To calculate the number of employees for a taxable year, add the total qualified employees for each month and divide that sum by the number of months of operation.

04. Calculating the Number of New Employees.

a. The number of new employees is the increase in the number of employees for the current taxable year over the greater of the following:

i. The number of employees for the prior taxable year; or

ii. The average of the number of employees for the three (3) prior taxable years.

b. The requirements as to who qualifies for the calculation of the number of employees in Paragraph 945.03.a., of this rule shall apply in computing the number of employees in Subparagraphs 945.04.a.i., and 945.04.a.ii., of this rule. Calculations used in computing the number of new employees for the prior taxable year and average for the three (3) prior taxable years shall be made consistent with the computations for the current taxable year.

c. The number of new employees shall be rounded down to the nearest whole number and must equal or exceed one (1) or no credit is earned.

05. Computing the Credit Earned. The taxpayer shall identify each new employee who qualifies for the credit and his annual salary for the taxable year.

a. If during the taxable year the new employee earned more than twenty-four dollars and four cents ($24.04) per hour worked but less than or equal to an average rate of twenty-eight dollars and eighty-five cents ($28.85) per hour worked, the credit for such new employee shall be one thousand five hundred dollars ($1,500).
b. If during the taxable year the new employee earned more than an average rate of twenty-eight dollars and eighty-five cents ($28.85) per hour worked but less than or equal to an average rate of thirty-six dollars and six cents ($36.06) per hour worked, the credit for such new employee shall be two thousand dollars ($2,000).

(3-30-07)

c. If during the taxable year the new employee earned more than an average rate of thirty-six dollars and six cents ($36.06) per hour worked but less than or equal to an average rate of forty-three dollars and twenty-seven cents ($43.27) per hour worked, the credit for such new employee shall be two thousand five hundred dollars ($2,500).

(3-30-07)

d. If during the taxable year the new employee earned more than an average rate of forty-three dollars and twenty-seven cents ($43.27) per hour worked, the credit for such new employee shall be three thousand dollars ($3,000).

(3-30-07)

06. Limitations. The small employer new jobs tax credit allowable in any taxable year shall be limited as follows:

a. The small employer new jobs tax credit claimed during a taxable year may not exceed sixty-two and five-tenths percent (62.5%) of the tax, after allowing all other income tax credits that may be claimed before the small employer new jobs tax credit, regardless of whether this credit results from a carryover earned in prior years, the current year, or both. See Rule 799 of these rules for the priority order for nonrefundable credits.

(3-30-07)

b. Unitary Taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules.

(3-30-07)

07. Carryovers. The carryover period for the small employer new jobs tax credit is ten (10) years.

(3-30-07)

08. Coordination With Credit for Qualifying New Employees Allowed by Title 63, Chapter 30, Idaho Code. A taxpayer who has new employees who are eligible for the small employer new jobs tax credit may not claim the credit for qualifying new employees allowed by Section 63-3029F, Idaho Code, with respect to the same employees. However, a taxpayer may claim the credit for qualifying new employees for any new employees who do not meet the requirements for the small employer new jobs tax credit, but who meet the requirements of Sections 63-3029E and 63-3029F, Idaho Code.

(3-30-07)

Section 63-4407, Idaho Code

01. Failure to Meet Tax Incentive Criteria. If a taxpayer fails to meet the small employer tax incentive criteria, the full amount of the small employer investment tax credit, real property improvement tax credit and new jobs tax credit claimed in any taxable year shall be recaptured.

(3-30-07)

02. Year Deficiency Occurs. Recapture shall be a deficiency in tax in the taxable year when the disqualification first occurs. For investment in new plant, disqualification occurs when the property is disposed of or otherwise ceases to qualify. For new employees, disqualification occurs when the average number of qualifying employees for a taxable year in the recapture period falls below the average number of qualifying employees for the year in which the credit was earned in Section 63-4405, Idaho Code.

(4-2-08)

03. Early Disposition of Investment in New Plant.

a. If an investment in new plant is disposed of, or otherwise ceases to qualify, prior to the close of the recapture period, the recapture amount shall be computed by multiplying the credit earned by the applicable recapture percentage.

(3-30-07)

b. The recapture percentage shall be determined as follows. If the property is disposed of or ceases to qualify within:

(3-30-07)
i. One (1) full year or less from the date the property was placed in service, one hundred percent (100%) shall be used; (3-30-07)

ii. Two (2) full years or less, but more than one (1) full year from the date the property was placed in service, eighty percent (80%) shall be used; (3-30-07)

iii. Three (3) full years or less, but more than two (2) full years from the date the property was placed in service, sixty percent (60%) shall be used; (3-30-07)

iv. Four (4) full years or less, but more than three (3) full years from the date the property was placed in service, forty percent (40%) shall be used; (3-30-07)

v. Five (5) full years or less, but more than four (4) full years from the date the property was placed in service, twenty percent (20%) shall be used. (3-30-07)

04. Failure to Maintain Increased Employment. (3-30-07)

a. If the average number of qualifying employees for the taxable year in which the credit was earned in Section 63-4405, Idaho Code, is not maintained for the entire recapture period, the recapture amount shall be computed by multiplying the credit earned by the applicable recapture percentage. (4-2-08)

b. The recapture percentage shall be determined as follows. If the level of employment is maintained: (4-2-08)

i. One (1) full year or less from the date the project period ends, one hundred percent (100%) shall be used; (3-30-07)

ii. Two (2) full years or less, but more than one (1) full year from the date the project period ends, eighty percent (80%) shall be used; (3-30-07)

iii. Three (3) full years or less, but more than two (2) full years from the date the project period ends, sixty percent (60%) shall be used; (3-30-07)

iv. Four (4) full years or less, but more than three (3) full years from the date the project period ends, forty percent (40%) shall be used; (3-30-07)

v. Five (5) full years or less, but more than four (4) full years from the date the project period ends, twenty percent (20%) shall be used. (3-30-07)

c. Recapture shall not be required if a new employee is replaced by another employee who performs the same duties as the previous employee at a wage rate that would have resulted in the same amount of credit being earned. (3-30-07)

05. Reorganizations, Mergers and Liquidations. (3-30-07)

a. If the investment in new plant is disposed of or otherwise ceases to qualify before the close of the recapture period while in the hands of an acquiring taxpayer who succeeded to unused small employer investment tax credit or small employer real property improvement tax credit as provided for in Rule 941.03 of these rules, the acquiring taxpayer shall be responsible for any recapture that would have been applicable to the transferor. (3-30-07)

b. For purposes of computing the recapture when an acquiring taxpayer succeeded to unused small employer investment tax credit and small employer real property improvement tax credit as provided for in Rule 941.03 of these rules, the recapture period shall begin with the date on which the property was placed in service by the transferor taxpayer and shall end with the date of the disposition by, or cessation with respect to, the acquiring taxpayer. (3-30-07)
000. LEGAL AUTHORITY (RULE 000).
In accordance with Sections 63-105, 63-3624, 63-3635, and 63-3039, Idaho Code, the State Tax Commission has promulgated rules implementing the provisions of the Idaho Sales Tax Act. They are the State Tax Commission’s official statement of policy relating to interpretations and applications of the Idaho Sales Tax Act. (7-1-98)

001. TITLE AND SCOPE (RULE 001).
01. Title. These rules are titled IDAPA 35.01.02, “Idaho Sales and Use Tax Administrative Rules.” (3-30-07)
02. Scope. These rules are construed to reach the full jurisdictional extent of the state of Idaho’s authority to impose an excise tax upon each sale at retail of the sales price of all property subject to taxation under this act and on the storage, use, or other consumption in this state of tangible personal property. (3-30-07)

002. WRITTEN INTERPRETATIONS (RULE 002).
This agency has written statements as defined in Section 67-5201(19)(b)(iv), Idaho Code, that pertain to the interpretation of the rules of this chapter or to the documentation of compliance with the rules of this chapter. To the extent that such documents are not confidential by statute or rule, the documents are available for public inspection and copying at the main office of the State Tax Commission. See Rule 005 of these rules for the main office address. (3-15-02)

003. ADMINISTRATIVE APPEALS (RULE 003).
This chapter allows administrative relief as provided in Sections 63-3045, 63-3045B, 63-3049, 63-3620, 63-3620A, 63-3621, 63-3622, 63-3623B, 63-3626, 63-3631, 63-3633, and 63-3634, Idaho Code. (4-11-19)

01. Cross Reference. See IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules.” (4-11-19)

004. INCORPORATION BY REFERENCE (RULE 004).
These rules incorporate IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules.” (3-30-07)

01. Main Office. The State Tax Commission main office is located at 800 Park Blvd., Plaza IV, Boise, Idaho 83712-7742. The correspondence mailing address is P.O. Box 36, Boise, Idaho 83722-0410. The State Tax Commission's Website is www.tax.idaho.gov. The telephone number for Taxpayer Services is (208) 334-7660, or toll free 1-800-972-7660, and the facsimile number is (208) 334-7846. The State Tax Commission's e-mail is taxrep@tax.idaho.gov. Main Office hours are from 8 a.m. to 5 p.m. Monday through Friday except for legal holidays. (3-30-07)

02. Hearing Impaired. Hearing impaired individuals may contact any State Tax Commission office by using the Idaho Relay Service Number 1-800-377-3529. (3-15-02)

006. PUBLIC RECORDS ACT COMPLIANCE (RULE 006).
The records associated with this chapter are subject to the provisions of the Idaho Public Records Act, Chapter 3, Title 9, Idaho Code, to the extent that these documents are not confidential under Sections 63-3076, 63-3077 or 74-101 through 74-126, Idaho Code. (3-30-07)

007. -- 009. (RESERVED)

010. DEFINITIONS (RULE 010).
01. **Admissions.** The term admissions includes the right or privilege to enter into a place including seats and tables reserved or otherwise and other similar accommodations and charges made therefor. (7-1-93)

02. **Aircraft.** The term aircraft means any contrivance now known or hereafter invented, used, or designed, for navigation of or flight in the air. (7-1-93)

03. **Cash Discount.** The term cash discount means a discount offered by a retailer to a purchaser as an inducement for prompt payment. (7-1-93)

04. **Contractor Improving Real Property.** A contractor is any person acting as a general contractor, subcontractor, contractee, subcontractee, or speculative builder who uses material and equipment to perform any written or verbal contract to improve, alter, or repair real property. (4-11-15)

05. **Fleet.** The term fleet shall mean one (1) or more vehicles registered under the International Registration Plan or a similar proportional registration system. (4-2-08)

06. **Hand Tool.** A hand tool is an instrument used or worked by hand. (7-1-93)

07. **Logging.** The term logging includes the harvesting of forest trees for resale by cutting, skidding, loading, thinning, or decking, regardless of whether the forest trees are owned by the person doing the harvesting. The term logging does not include harvesting timber for firewood. (7-1-93)

08. **Manufactured Home/Mobile Home.** The term manufactured home, previously known as a mobile home, means a structure, constructed according to HUD/FHA mobile home construction and safety standards, transportable in one (1) or more sections, which, in the traveling mode, is eight (8) body feet or more in width or is forty (40) body feet or more in length, or when erected on site, is three hundred twenty (320) or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air conditioning and electrical systems contained therein, except that such term shall include any structure which meets all the requirements of this section except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of Housing and Urban Development and complies with the standards established under 42 U.S.C. 5401, et seq. (7-1-93)

09. **Manufacturer’s Discount Coupon.** The term manufacturer’s discount coupon means a price reduction coupon presented by a consumer to a retailer upon purchase of a manufacturer’s product, the face value of which may only be reimbursed by the manufacturer to the retailer. (7-1-93)

10. **Manufacturer’s Rebates.** The term manufacturer’s rebate means a cash payment made by a manufacturer to a consumer who has purchased or is purchasing the manufacturer’s product from the retailer. (7-1-93)

11. **Mining.** The term “mining” means the extraction from the earth of minerals including coal, phosphate, sodium, molybdenum, asbestos, gold, silver, lead, zinc, copper, antimony, building stone, pumice, scoria, clay, diatomaceous earth, sand, gravel, quartz, limestone, and marble, and includes the further processing of such mineral. The term “mining” does not include the extraction from the earth of geothermal resources nor does it include the extraction of soil. (6-23-94)

12. **Modular Building.** The term modular building, previously known as a prefabricated building, means any building or building component, other than a manufactured home as defined, above, which is constructed according to standards contained in the International Building Code, which is of closed construction and is either entirely or substantially prefabricated or assembled at a place other than the building site, and is designed to be affixed to real property. (4-2-08)

13. **Office Trailer.** An office trailer is a structure which is built on a permanent chassis, is transportable in one (1) or more sections, and is designed for use as an office. (7-1-93)
14. **Orthopedic Appliances.** The term orthopedic appliance shall include those braces and other external supports prescribed by a practitioner for the purpose of correction or relief of defects, diseases, or injuries to bones or joints. (7-1-93)

15. **Prescription or Work Order.** The terms prescription or work order shall mean an order issued to, or on behalf of, a specific individual by a practitioner licensed by the state under Title 54, Idaho Code, to prescribe such items. (7-1-93)

16. **Real Property.** The term real property means land and improvements or fixtures to the land. (7-1-93)

17. **Tax Rate.** The terms “tax rate” or “rate” means the current tax rate as defined in Sections 63-3619 and 63-3621, Idaho Code. References to the tax rate in these rules may not reflect the current rate in effect. (4-2-08)

---

**011. RETAIL SALES: SALE AT RETAIL (RULE 011).**

The Idaho Sales Tax is a tax on retail sales. Retail sales include all sales of tangible personal property except for property that will be resold, leased, or rented in the regular course of the buyer’s business. (7-1-93)

**01. Retail Sales.** Retail sales also include:

- **a.** Sales to any person who constructs, alters, repairs or improves real property regardless of whether the person improving the property intends to resell it. See Rule 012 of these rules. (3-30-07)
- **b.** Producing or fabricating property to the special order of the customer. See Rule 029 of these rules. (3-30-07)
- **c.** Furnishing, preparing or serving food, meals or drinks for compensation. See Rule 041 of these rules. (3-30-07)
- **d.** Admission charges. See Rule 030 of these rules. (3-30-07)
- **e.** Charges for the use or privilege of using tangible personal property or facilities for recreation. See Rules 030 and 047 of these rules. (3-30-07)
- **f.** Providing hotel, motel, tourist home and trailer court accommodations. See Rule 028 of these rules. (3-30-07)
- **g.** Leasing or renting tangible personal property. See Rule 024 of these rules. (3-30-07)
- **h.** For sales of air transportation services see Rule 037 of these rules. (3-30-07)

**02. Retail Sales of Tangible Personal Property Together with Services.** The sales tax applies to retail sales of tangible personal property. It does not apply to the sale of services except as stated above. However, when a sale of tangible personal property includes incidental services, the tax applies to the total amount charged, including fees for any incidental services except separately stated transportation and installation fees. The fact that the charge for the tangible personal property results mainly from the labor or creativity of its maker does not turn a sale of tangible personal property into a sale of services. The cost of any product includes labor and manufacturing skill. To determine whether a transaction is a retail sale of tangible personal property or a sale of services, the following tests must be applied. (7-1-93)

- **a.** To determine whether a transfer of tangible personal property is a taxable retail sale or is merely incidental to a service transaction, the proper test is to determine whether the transaction involves a consequential or inconsequential professional or personal service. If the service rendered is inconsequential, then the entire transaction is taxable. If a consequential service is rendered, then it must be determined whether the transfer of the tangible personal property is an inconsequential part of the transaction. If so, then none of the consideration paid is taxable. (7-1-93)
b. To determine whether a mixed transaction qualifies as a sale of services, the object of the transaction must be determined; that is, is the buyer seeking the service itself, or the property produced by the service. (7-1-93)

c. When a mixed transaction involves the transfer of tangible personal property and the performance of a service, both of which are consequential elements whose costs may be separately stated, then two (2) separate transactions exist. The one attributable to the sale of tangible personal property is subject to sales tax while the other is not. (7-1-93)

03. Determining the Type of Sale. To determine whether a specific sale is a sale of tangible personal property, a sale of services or a mixed transaction, all the facts surrounding the case must be studied and the tests described above must be applied. Here are some examples. (7-1-93)

a. Example 1: An attorney is retained by a client to prepare his will. The attorney prepares the will, sees that it is properly executed and bills the client. The physical document, the will, is then transferred from the attorney to the client. This is a sale of services because the client’s object is not to obtain the will itself, but to ensure that his estate is disposed of in a certain way when he dies. Since, the transaction between the attorney and the client is not a retail sale of tangible personal property, no sales or use tax applies. However, the attorney must pay sales or use tax when he buys stationery and other equipment to prepare the will. Compare Example 5. (7-1-93)

b. Example 2: The attorney in Example 1 prepares a form book of wills which he intends to sell to other attorneys. The will he prepared in Example 1 is included in the form book. The sale of the form book to other attorneys is a taxable retail sale of tangible personal property. From the buyer’s point of view, the object of the sale is to obtain the book, which is tangible personal property. The fact that special skill or knowledge went into the preparation of the book and is reflected in the purchase price does not make the sale of the form book a service transaction. (7-1-93)

c. Example 3: An architect is hired to prepare construction plans for a house. He prepares the plans and delivers them to his client. As in the example of the attorney preparing the will, this is a sale of services and the transfer of the tangible personal property, the plans, is inconsequential the transaction. No sales or use tax is due on the sale of the plans. (7-1-93)

d. Example 4: The architect in Example 3 is asked to provide additional copies of the same plans to his original client or to a third party. The architect copies the plans on a duplicating machine and sells them to the requesting party. This is a taxable retail sale of tangible personal property, since the buyer’s object is to obtain the property, the plans. (7-1-93)

e. Example 5: An artist is commissioned to paint an oil portrait. When the portrait is completed, ownership is transferred to the client who pays the artist a lump-sum amount for the portrait. This is a taxable retail sale of tangible personal property because the buyer’s object is to obtain the portrait. If the artist otherwise qualifies as a retailer, he is required to collect and remit sales tax on the sale of the portrait. (7-1-93)

f. Example 6: An automobile repair shop does repair work for a customer. To do the work, the shop must replace certain parts on the automobile. The repair shop bills its customer an amount for the repair parts and a separate amount for labor. This is a mixed transaction. As long as the sale of the tangible personal property, the parts, and the sale of services, the labor, are separately stated, sales tax is due only on the sale of the parts and not on the charge for labor. However, allocation of the total charge between parts and labor must be reasonable. If part of the charge for parts is unreasonably attributed to the cost of labor, the allocation may be adjusted by the Tax Commission. (7-1-93)

g. Example 7: A retail clothing store provides needed alterations to items purchased by customers. Even though the sale depends on the alterations being done, the service is incidental to the sale of the property. The entire transaction is a retail sale subject to tax on the total price paid by the buyer, even if the charge for the alteration labor is separately stated. (7-1-93)

04. Kinds of Services Incidental to the Sale. Two (2) kinds of services rendered incidental to a retail sale are specifically exempt from tax if the charge for the service is separately stated. They are: (7-1-93)
a. Charges for transportation after the sale. See Section 63-3613, Idaho Code, and Rule 061 of these rules; and

b. Installation charges. See Section 63-3613, Idaho Code, and Rule 012 of these rules.

05. Separately Stated Nontaxable Charges. Separately stated nontaxable charges for transportation or installation may not be used to avoid tax on the actual sales price of tangible personal property. If the allocation of the total price is unreasonable, the State Tax Commission may adjust it.

06. Tangible Personal Property Used or Consumed by a Business. Tangible personal property used or consumed by a business in performing a nontaxable service is subject to sales or use tax. See Rule 072 of these rules.

012. CONTRACTORS IMPROVING REAL PROPERTY (RULE 012).
Sections 63-3609(a), 63-3621, 63-3615(b), 63-3622B, Idaho Code

01. In General. This rule applies to contractors who construct, alter, repair, or improve real property. Contractors are defined as consumers of materials they use, whether or not they resell the material. All sales of tangible personal property to contractors are taxable.

a. Contractors include bricklayers, plumbers, heating specialists, painters, sheet metal workers, carpet layers, electricians, land levelers, well drillers, landscapers, and all others who do contract work on real property. Unless these persons are employees of a contractor, they are acting as contractors and are consumers just as other contractors.

b. Persons doing residential repairs, such as plumbers and electricians, as well as those who both sell and install carpet, also are contractors improving real property. Such contractors are defined as the consumers of the materials they install and are required to pay sales or use tax on their cost for the materials. They do not charge sales tax to their customers unless they make a sale of materials only, with no installation.

c. The terms “contractor” and “subcontractor” are not applicable to persons who merely sell tangible personal property in the form of building materials, supplies, or equipment to construction contractors for delivery at the job site without any requirement that they install such tangible personal property.

02. Contract. A contract to improve real property may be in any of the following forms.

a. Lump Sum Contract. A lump sum contract is an agreement to furnish materials and services for a lump sum.

b. Cost-plus Contract. A cost-plus contract is an agreement to furnish materials and services at the contractor’s cost plus a fixed sum or percentage of the cost.

c. Guaranteed Price Contract. A guaranteed price contract is an agreement to furnish materials and services with a guaranteed price which may not be exceeded.

d. Time and Material Contract. A time and material contract is an agreement to sell a specific list of materials and supplies at retail or an agreed price and to complete the work for an additional agreed price or hourly rate for services rendered.

e. The contractor or repairman who affixes or installs the personal property into real property is the consumer of tangible personal property regardless of the type of contract entered into, whether it is a lump sum, time and material, or a cost-plus contract.

03. Use. As used in this rule, the term use includes exercising any right or power over tangible personal property in performing a contract to improve real property, regardless of who owns the material or if the material is leased.
04. **Real Property.** See Rules 010 and 067 of these rules. (3-15-02)

05. **Use Tax Reporting Number.** Contractors need a use tax number if they make purchases on which sales tax has not been charged. In this case, they are required to report and pay the Idaho use tax to the state. If a contractor pays sales tax to his vendors on ALL purchases, he does not have to obtain a use tax number. (7-1-93)

06. **Purchases by Contractors.** Contractors are consumers of equipment they use in their business such as trucks, tractors, road graders, scaffolding, pipe cutters, trowels, wrenches, tools in general, oxygen, acetylene, oil, and similar items. They must pay the sales or use tax on their purchase of equipment, tools, and supplies. They must also pay tax on their purchase of building materials and fixtures. Fixtures include items such as lighting fixtures, plumbing fixtures, furnaces, boilers, heating units, air-conditioning units, refrigeration units, elevators, hoists, conveying units, awnings, blinds, vaults, cabinets, counters, and lockers. (7-1-93)

07. **Fuels.** A contractor must pay tax on fuels used in off-road equipment unless on-road fuels excise taxes have been paid. (7-1-93)

08. **Custom-Made Goods.** Sales tax applies to the entire price charged for custom-made goods sold by the maker. If a contractor orders fabricated steel from a steel company, he must pay sales tax on the entire price of the fabricated item, including the cost of the labor involved. On the other hand, if the contractor buys the steel and fabricates it himself for the job, he pays a tax only on the materials he buys. (7-1-93)

09. **Value.** The contractor owes use tax on the value of the job materials at the time he exercises right or power over them. Value, as used in Section 63-3621, Idaho Code, means:

a. When a contractor fabricates and installs tangible personal property into Idaho real property, the value is the cost of materials and parts he uses. If a contractor, with a contract to furnish and install goods, fabricates the goods and hires a subcontractor to do the installation, the amount subject to tax is the cost of material to the contractor who fabricated the goods. (7-1-93)

b. When a contractor who is also a retailer fabricates tangible personal property, puts it in his resale inventory, and later withdraws it for a job, tax applies to the fully fabricated value. This is true regardless of whether the fabricator installs the property himself or through an agent or subcontractor. (7-1-93)

10. **Materials Provided by Project Owner.**

a. If a project owner who is not exempt from tax buys materials for a job and hires a contractor to install them, he must pay sales or use tax when he buys the material. If the owner does not pay tax on the materials, the contractor may be held liable for the tax. (7-1-93)

b. If material needed for a contract is purchased or supplied by an owner who is exempt from sales and use taxes, then the use by the contractor is subject to use tax. This is true even if the property is owned by an exempt entity such as the federal government or a state government agency. For example, if a contractor has a public works contract to build a structure using materials owned and supplied by the government, whether federal, state, or local, he is the consumer of the materials and is subject to a use tax on their value. This tax falls directly upon the contractor and not the owner of the property. (7-1-93)

c. A contractor who buys tangible goods cannot avoid tax just because the goods will be built into a structure which will belong to, or be used by an exempt entity. Contractors and subcontractors may not avoid paying sales or use tax due to a contract which allows invoices to be made out in the name of the exempt entity, such as the U.S. Government, and designate the contractor or subcontractor as an agent of the exempt entity. In this case, the contractor or subcontractor is the user or consumer of the material and its use, while it is in his possession and subject to his labor, is taxable. (7-1-93)

11. **Subcontractor.** In general, a subcontractor is treated the same as a general contractor. Whether his contract is with the owner or the general contractor, the subcontractor pays tax on materials he buys to improve real property. Like any contractor, the subcontractor could be employed to work on or with material purchased by the
general contractor or the owner, with one or the other paying tax on the material purchased. These services rendered by the subcontractor are not taxable. His relationship with the owner or general contractor is no different than the relationship between the contractor and owner. However, the provisions of Subsection 011.10 of this rule apply equally to a subcontractor. (6-23-94)

12. **Land Leveling.**

   a. Persons who contract to level land are improving real property and are contractors under this rule. Accordingly, they are subject to tax on equipment, material, and supplies purchased for land leveling. (7-1-93)

   b. Notwithstanding the provisions of Rule 013 of these rules, contractors who crush rock are performing a nontaxable service if the rock is obtained on a construction site, and the crushed rock is used on the same site, for such purposes as backfill, land leveling, site preparation, or site cleanup. The use of such rock, backfill, or other related materials is not subject to tax; however, such a contractor is not primarily devoted to mining and his use of rock crushing equipment, or other equipment and supplies, does not qualify for exemption under Section 63-3622D, Idaho Code. (4-7-11)

   c. The sale or use of crushed rock that is removed from a construction site and used elsewhere is taxable. See Rule 013 of these rules. (4-7-11)

13. **Exempt Purchases by Contractors.** A contractor can buy materials tax exempt, provided that he will install them into real property in a state that does not have a sales tax, such as Oregon, Montana, or Alaska, or in a state where the materials would not be subject to a use tax or other similar excise tax in that state. For example, this exemption applies to a contractor improving real property on certain projects in Washington where he will not owe a use tax on materials incorporated into realty, even though a sales or use tax may be owed by a third party. This exemption only applies to materials incorporated into real estate in a nontaxing state. Tools, supplies, equipment, or any other tangible personal property purchased in Idaho that are not incorporated into realty are taxable when purchased in Idaho. In order to grant this exemption the retailer must have a properly completed exemption certificate on file. See Rule 128 of these rules. Idaho tax applies to materials purchased or withdrawn from inventory for use in a contract to improve real property in states where use tax applies to materials incorporated into realty, such as Nevada or Wyoming. (2-27-15)

14. **Cross-References.**

   a. Road and paving contractors, see Rule 013 of these rules. (3-15-02)

   b. Contractor/retailers, see Rule 014 of these rules. (3-15-02)

   c. Well drillers/pump installers, see Rule 015 of these rules. (3-15-02)
taxable, regardless of ownership, and include rock, sand, asphalt oil, chemicals, bonding agents, or any other like materials which become the aggregate pavement. (3-28-18)

b. Example 2: A contractor is hired to chip seal a local road. The chip seal includes a layer of liquid asphalt or similar material applied to the road with an immediate layer of rock chips applied on top of the wet asphalt. A roller sets the rock chips in place. Once this dries, the surface is cleaned and another oil seal or like product is applied. These three items and any other materials used to form the aggregate chip seal are subject to tax. (3-28-18)

c. Example 3: A contractor is hired to perform landscaping for the barrow pits and shoulders of a new highway. The highway district provides the grass seed and some bushes for the project. The contractor provides labor to sow the seed, plant the bushes, and labor and materials to provide erosion control, land leveling, contouring, etc. The contractor owes sales or use tax on all materials consumed, including those provided by the highway district. (3-28-18)

d. Example 4: A contractor is hired to install a new bridge and provide drainage for a new freeway interchange. The highway district provides the bridge components and culverts needed for the project, and the contractor provided all of the remaining materials and the labor for the project. The contractor will owe sales or use tax on all materials he consumes including the bridge components and culverts provided by the highway district, as well as on the materials the contractor purchased for use on the project. (3-28-18)

e. Example 5: A contractor is hired to install traffic control lights, signage, and roadway illumination for a rebuilt section of roadway. The highway district provides the traffic control signals and the permanent signage for the highway so that all signage will be consistent throughout the highway district. The contractor owes use tax on the value of the traffic signals and signage provided by the highway district as well as on the cost of electrical wiring, signal wiring, and the lights and light poles, etc., purchased and consumed by the contractor. (3-28-18)

04. Materials. The sale or use of materials which are extracted and crushed is taxable. Use tax does not apply to the use of natural materials that are secured on site and used without significant change. (7-1-96)

05. Rock Crushing. The application of the sales or use tax to rock crushing operations depends upon the circumstances of the case. (7-1-96)

a. A sale of crushing only is a sale of a taxable processing service. In this circumstance the crusher obtains raw material owned by another, crushes the rock, and stockpiles it for subsequent use either by the owner or a third party. Unless an exemption applies, the crusher must charge tax on all such sales. (7-1-96)

b. A contractor who applies crushed rock to the highway pursuant to a contract is a person engaged in improving real property. If the contractor applying the crushed rock purchases the rock, the purchase price will be subject to a sales or use tax. If the contractor applies rock owned by another party, the contractor will be responsible for a use tax on the value of the rock, unless the other party paid a sales tax upon its acquisition. This is true even if a government agency supplied the rock. If a recent retail acquisition of the crushed rock exists, the retail price shall be presumed to be the value of the material. If a recent retail sales price does not exist, then value shall be determined by the current acquisition cost of like material from the same or a similar source. For purposes of this section, a retail acquisition within one (1) year of the time of the performance of the contract shall be presumed to be a recent sales price. (7-1-96)

c. A contractor whose contract calls for him to both crush and apply rock to a road is also subject to sales or use tax on the value of the rock whether the contract is performed for a governmental or private contractee. The value shall be determined by the royalty or similar charge for raw materials. If a royalty or similar charge does not exist, then the value will be determined as the royalty fee or value of like material from a similar source. If the contractor chooses to have the rock crushed by a subcontractor, the measure of the use tax is on the crushed value. (7-1-96)

d. A sale of rock crushing services to a retailer who will sell the rock is an exempt sale. The sale of crushed rock to a consumer is a taxable sale unless an exemption applies. (7-1-96)

06. Production Exemption. (7-1-96)
a. Since a contractor improving real property is defined as the consumer of materials incorporated into realty, he is not producing an article for resale. Therefore, the production exemption does not apply to the use of equipment used by contractors to produce asphalt or concrete which are used to complete paving contracts. (7-1-96)

b. A business which is primarily devoted to producing crushed rock, asphalt, or concrete which is ultimately sold at retail will qualify for the production exemption. See Idaho Administrative Sales Tax Rules 079 and 082. (7-1-96)

014. CONTRACTORS/RETAILERS (RULE 014).

01. In General. This rule shows how Idaho sales and use tax applies to contractors who are also retailers. The general principles in Rule 012 of these rules also apply to contractor/retailers and should be reviewed along with this rule. (3-15-02)

02. Contractor/Retailer. In many cases, a contractor is also a retailer. For instance, mechanical contractors may operate retail plumbing shops. In this case, the contractor must have a sales tax permit and report sales made directly to customers, just like any other retailer. Also, he is a consumer when performing contracts to improve real property. Such a contractor might make separate purchases of material to be used on a specific job. He probably would do so with major items such as boilers, furnaces, and similar items. He also may remove necessary materials, probably small items such as joints, pipes, and tools, from his general inventory. (7-1-93)

03. Record Keeping Procedure. For convenience, the contractor-retailer may choose to follow any consistent procedure that can apply to his particular operation. (7-1-93)

a. For instance, if the majority of a contractor-retailer’s business is performing contracts to improve real property, he may wish to pay tax on all his purchases, keep a record of all his normal retail sales and then regularly apply for credit against the sales and use tax due the state for tax paid on purchase. (7-1-93)

b. If the majority of the contractor/retailer’s business is retail sales, he may wish to make all his purchases without paying tax by giving his suppliers a resale certificate, keeping a record of his withdrawals from stock for use on contracts and paying a use tax to the state on these materials. (7-1-93)

c. If the contractor does major jobs, he may want to use separate accounting procedures, and make his purchases for stock without paying tax by issuing a resale certificate, but pay tax on his major job material purchases. See Rule 128 of these rules. (3-15-02)

04. Inventory Withdrawals. When any withdrawal is made from nontaxed inventory, the use tax is due to the state when the material is delivered to the job site, regardless of when it is actually used in performing a contract. (7-1-93)

05. Tangible Personal Property vs. Improvements to Real Property. Built-in appliances and related items become fixtures to realty when installed in residential buildings. Such built-in appliances include dishwashers, microwave ovens, stove tops, refrigerators, stove hoods, central vacuum systems, waste disposal units, trash compactors, water softeners, water purification systems, and garage door openers. Some appliances retain the character of personal property such as microwave ovens that are not built-in, freestanding stoves, refrigerators, washers, and dryers. Other rules may apply to commercial, industrial, and other non-residential buildings. See Rule 067 of these rules. (5-8-09)

06. Sales with Agreement to Install. A regular over-the-counter sale of a complete unit with an agreement to install it is not a contract to improve real property if the item does not become affixed to realty. This applies to sales of stoves, refrigerators, washing machines, dryers, and other electrical appliances. In this case, tax is collected from the buyer by the seller on the retail sales price of the item. If the installation charges are properly separated, tax is due only on the cost of the unit. (5-8-09)

07. Sales of Both Tangible Personal Property and Improvements to Real Property. If a contract includes both retail sales of personal property and improvements to real property, the contractor-retailer must collect
sales tax on the retail portion of the contract. Also, if he does not pay sales tax to his vendor, he must pay use tax on the materials used to perform the real property portion of the contract. (7-1-93)

a. Example: A cabinet builder contracts to build and install kitchen cabinets and build a portable, freestanding china hutch. In the case of the cabinets, he is a contractor and must pay tax on his material costs. In the case of the china hutch, he is a retailer and must charge his customer sales tax on the full price of the hutch, including labor. (7-1-93)

b. Example: A cabinet builder is hired by Contractor X to fabricate and deliver cabinets to the job site. Contractor X will do the installation. In this case, the cabinet builder is a retailer and must charge sales tax to Contractor X on the full sales price, including labor. (7-1-93)

015. WELL DRILLERS/PUMP INSTALLERS (RULE 015).

01. In General. This rule is meant to explain how Idaho sales and use tax applies to contractors who drill wells and install pumps. The general principles in Rule 012 of these rules, Contractors Improving Real Property, also apply to well drillers and pump installers and should be reviewed along with this rule. (4-2-08)

02. Types. The types of wells covered by this rule include, but are not limited to:

a. Water wells, including those for municipal, domestic, commercial, and industrial purposes, and wells used for agricultural irrigation. (7-1-93)

b. Monitor wells used to check for contamination or to find the water table. (7-1-93)

c. Anode wells used to ground power or gas lines. (7-1-93)

d. Construction wells used for pilings, shoring, and elevator hoists. (7-1-93)

03. Contractor Improving Real Property. A well driller is a contractor improving real property. In general, he is subject to sales or use tax on materials and equipment he owns and uses or over which he exercises right or power while performing a contract. He should not charge sales tax on materials, such as casing, pumps, screens, piping, etc., used to complete a well. Section 63-3609(a), Idaho Code, states that these materials are consumed by the well driller. He is subject to tax even if the owner of the material is exempt from the tax, such as a government agency. Well drillers may be responsible for use tax on owner-supplied materials. See Rule 012 of this rule. Exemptions are discussed in Subsection 015.05 of this rule. Pumps that are installed with a well, such as a pump that supplies water to land or a building, are presumed to be real property improvements. Pumps that do not supply water to land or buildings and are used in commercial or industrial applications will generally be considered personal property unless they have been so integrated into the real estate that they would be considered a permanent fixture. (4-2-08)

a. Example: A well driller contracts to drill a water well and install a pump for a homeowner. He bills the homeowner separately for materials and labor as well as the drill bits he used. He should pay sales or use tax on his purchase of the materials and drill bits. He should not charge sales tax to the customer since this is a contract to improve real property. (4-2-08)

b. Example: A well driller contracts to drill a well for an Idaho city. He must pay sales or use tax on the materials and pumps used to complete the well, even though the eventual owner of these items is a governmental entity. See Rule 094 of these rules. (4-2-08)

04. Well Drillers/Pump Installers as a Retailer. In some cases, a well driller or pump installer also may be a retailer. For instance, he may sell casing, pumps or pump parts with no installation. In this case, he must have a seller’s permit number, collect sales tax, and file sales tax returns, just like any other retailer. For more information on contractors who are also retailers, see Rule 014 of these rules. (4-2-08)

05. Exemptions. In some cases, exemptions may apply to materials installed by well drillers and pump installers. Note: These exemptions apply only to project materials and not to construction equipment and supplies,
such as drilling rigs and drill bits. If a well driller or pump installer makes exempt purchases, he must complete an exemption certificate for the vendor’s records.

(4-2-08)

a. Materials installed in a well which will be used primarily for agricultural irrigation are exempt under Section 63-3622W, Idaho Code. The exemption applies even if the materials become part of the real property. Agricultural irrigation includes supplying water to crops, livestock, and fish which are produced for resale. (7-1-93)

b. Pumps and other equipment used directly in manufacturing or processing are exempt under Section 63-3622D, Idaho Code. Generally, such pumps retain the characteristics of personal property. This exemption applies only to tangible personal property. It does not apply to materials which will become part of real property. Examples include: pumps used directly in food processing; booster pumps and chlorine pumps used directly in manufacturing; and dairy waste pumps. (4-2-08)

06. Motor Vehicles. In general, drilling rigs and licensed motor vehicles are subject to sales or use tax when purchased by a well driller or pump installer. However, if a vehicle weighs more than twenty-six thousand (26,000) pounds, is used more than ten percent (10%) of the time outside of Idaho, and is registered under the International Registration Plan or similar pro rata plan, its purchase is exempt. See Rule 101 of these rules. This exemption does not apply to repair parts for motor vehicles, or to drilling rigs purchased separately from a motor vehicle. (4-2-08)

07. Fuel. Motor fuel taxes do not apply, or a refund may be obtained, if the fuel is used to run drilling rigs or other off-road equipment. Fuel purchased for such off-highway use is subject to sales or use tax. See Sections 63-2410 and 63-2423, Idaho Code, and related IDAPA 35.01.05, “Idaho Motor Fuels Tax Rules.” (7-1-93)

016. RETAIL SALE OF ASPHALT, CONCRETE, AND CONCRETE PRODUCTS (RULE 016).

01. In General. Asphalt, concrete and concrete products are building materials. The sale of such products to construct, alter, repair, or improve real estate is subject to sales tax. Separately stated charges for delivery by the vendor and vendor standby time are not subject to sales tax. (7-1-93)

02. Agricultural Irrigation. Materials purchased for agricultural irrigation are exempt from sales tax whether purchased by the farmer, contractor, or subcontractor. This exemption applies even if the material is permanently affixed to real estate, such as concrete used to line ditches or ponds. See Rule 096 of these rules. The buyer must provide the seller with an exemption certificate. See Rule 128 of these rules. (3-15-02)

03. Production Exemption. The retailer who produces and sells asphalt or concrete may qualify to claim the production exemption on equipment and supplies used directly to produce the concrete or asphalt for resale. See Rule 079 of these rules. However, trucks used by a ready-mix operator do not qualify for the production exemption because they are used for transportation. Although they may incidentally contribute to the manufacture of the final article, purchases of the truck, trailer, and the truck-mounted concrete mixer, which becomes a part of the motor vehicle, are not exempt from the tax. (3-15-02)

017. AIRLINES, BUSES, AND RAILWAY DINING CARS (RULE 017).

01. Sale of Meals. The sale of meals or drinks that are not included in the price of the ticket on commercial aircraft, railway dining cars or buses operating in Idaho is a retail sale. An airline, bus company or passenger train is operating in Idaho if a trip starts or ends in Idaho and part of the trip can be allocated to Idaho. (7-1-93)

02. Taxable Sales. The gross receipts of such a sale are taxable when the meals, beverages or other tangible personal property are ordered or served within the boundaries of Idaho. It does not matter whether the meals and other property are consumed in Idaho. (7-1-93)

03. Formula for Taxable Sales. A formula may be used to determine the taxable sales of meals and beverages on the trip if accurate records of actual sales are not kept. The formula is: first, find the percentage of trip miles in Idaho in relation to the total mileage of the trip; and then, multiply this percentage by the total sales of meals or beverages served on the entire trip. (7-1-93)
04. Complimentary Meals, Snacks, Beverages or Other Tangible Personal Property. When the price of an airline, bus, or railway ticket includes meals, snacks, beverages, or other tangible personal property, the cost of these complimentary goods is subject to use tax. If the complimentary goods are purchased in Idaho by the airline, bus company, or railway, sales tax must be paid to the vendor, whether or not the goods are distributed to passengers in Idaho. If the goods are purchased in another state and no sales or use tax has been paid to that state, the cost of goods distributed to passengers on trips that start or end in Idaho is subject to use tax. In the absence of accurate records, the airline, bus company, or railway may determine taxable use based on trip miles determined by the formula in Subsection 017.03 of this rule. (7-1-93)

018. RETAILER DEFINED (RULE 018). Sections 63-3610 and 63-3611, Idaho Code

01. Retailer. The term retailer includes a person doing a regularly organized retail business in tangible personal property and defined services and selling to the user or consumer, not for resale. Retailer includes commission salesmen, sales at auctions, out-of-state sellers that must overcome the presumption defined in Section 63-3611, Idaho Code, assignees for the benefit of creditors, receivers and any salesmen, representatives, peddlers, or canvassers as agents of the dealers, distributors, irrespective of whether they are making sales on their own behalf or on behalf of such dealers, distributors, supervisors or employers, the Tax Commission may so regard them and may regard the dealers, distributors, supervisors or employers as retailers. (3-26-19)

02. Retailers Selling Incidental Tangible Personal Property. A person may be a retailer within the meaning of the act although the sale of tangible personal property is incidental to his general business. For example, a plumbing contractor may sell some plumbing supplies as a sideline and thereby become a retailer within the meaning of this act. (7-1-93)

03. Farmers. Farmers who ordinarily sell their grain, livestock and other horticultural products for resale or processing are not subject to tax. However, when they sell to ultimate consumers or users, they must obtain a seller’s permit and report sales tax on their taxable sales. (7-1-93)

04. An Agent as a Retailer. Where there is a written agreement between a principal and his agent, dealer or other third party, and such agreement stipulates that the agent, dealer or other third party will be responsible for collection, reporting and payment of sales tax generated by sales, the Tax Commission will treat the position of the agent, dealer or third party as that of a retailer and impose on him the burden of collecting, accounting for, and paying the sales tax to the State Tax Commission. (7-1-93)

a. However, if for example, a milk route salesman, without such an agreement, makes regular deliveries, collects for the products, and sales tax is included in the total proceeds collected and remitted to the principal for proper crediting, accounting, discounts, etc., then it shall be the responsibility of the principal to relay the sales tax with proper reporting forms as prescribed by law. (7-1-93)

b. In some instances, such as the above, and the example of a newspaper delivery boy, the sales are actually made on behalf of the dairy and the newspaper company respectively. In the absence of any such written agreement, the Tax Commission will look to the principal as being responsible for the reporting and payment of the sales tax. (7-1-93)

019. SALES BY COUNTY SHERIFFS (RULE 019).

01. Sales. Where tangible personal property is sold by a county sheriff, either as a result of a court order or pursuant to any summary notice and sale foreclosure procedure, a sales tax shall be assessed and collected by the county sheriff at the time of the sale in the same manner as required of any other seller. (7-1-93)

02. Requirement to Register. There is no requirement for the various sheriff’s offices to register with the Commission. Each sheriff’s office in the state of Idaho is assigned a seller’s permit number and must file returns quarterly. Sheriffs’ offices must report all retail sales on Form ST-850. (3-30-07)

020. AUCTIONEER, AGENT, BROKER, DISTRIBUTOR AND FACTORS (RULE 020).
Every factor, auctioneer, broker and agent acting for a principal, or entrusted with any bill of lading, custom house permit for delivery or any tangible personal property or entrusted with possession of any personal property for the purpose of sale, shall be responsible for the proper collection and remittance of tax with respect to such sales, regardless of the fact that the principal or owner of the property being sold would not have been liable for collection of the tax if he had made the sale himself. (7-1-93)

021. MULTI-LEVEL MARKETING FIRMS (RULE 021).

01. Multi-Level Marketing Firm. A multi-level marketing firm is an organization that can convey to a person the right to sell a product and the right to convey those rights to another person. (7-1-93)

02. Agents. The Idaho Sales Tax Act provides the Commission with the authority to view salesmen, representatives, peddlers, or canvassers as agents of the dealers or distributors under whom they operate or from whom they obtain the tangible personal property sold by them, even if such persons are independent contractors. The Commission may require the dealers or distributors to collect and remit the sales tax on behalf of such agents. (7-1-93)

03. Requirement of Multi-Level Marketing Firms to Collect Tax. The Commission may, upon the request of the multi-level marketing firm or when it finds evidence of material failure to comply with the Idaho Sales Tax Act or these rules and when the Commission determines that it is necessary for the efficient administration of such act, require multi-level marketing firms to collect the sales and use tax on all taxable property sold by the multi-level marketing firm through such agents, whether or not the agents are independent contractors. (7-1-93)

04. Notification. The Commission, upon determination that a multi-level marketing firm shall be required to collect the tax on taxable sales through its agents, shall provide to the multi-level marketing firm, by certified mail, a notification of the sales and use tax remittance requirements imposed by the Commission. (7-1-93)

a. Beginning with the first reporting period after receipt of the notice, the multi-level marketing firm shall be responsible for collecting and remitting tax on all sales made by such agents. (7-1-93)

b. A taxpayer desiring to seek a redetermination of the notice must file a written protest with the Commission within the time limit provided in Section 63-3631, Idaho Code and under the procedures provided by IDAPA 35.02.01.320 - 328, “Tax Administration and Enforcement Administrative Rules.” (7-1-93)

022. DROP SHIPMENTS (RULE 022).

Sections 63-3615A, 63-3619, 63-3620, 63-3621, & 63-3622, Idaho Code

01. In General. Drop shipments refer to shipments made by a seller to someone other than its purchaser. For example, a Manufacturer produces Product X. The Retailer is a distributor of Product X. The Customer, which does business only in Idaho, is the ultimate purchaser and consumer of Product X. The Customer places a purchase order with the Retailer. The Retailer, having no inventory in stock, places a purchase order with the Manufacturer. The Retailer directs the Manufacturer to ship the product directly to the Customer in Idaho. The Manufacturer, however, bills the Retailer for the product and receives payment from the Retailer. The Retailer bills and receives payment from the Customer. The nature and use of Product X is not within any of the specified exemptions contained in the Idaho Sales Tax Act. The Manufacturer may or may not be required to have an Idaho seller’s permit. If the Manufacturer sells directly to the Customer without the presence of a retailer, the Manufacturer is acting as a retailer and the transaction is not a drop shipment. (4-11-15)

02. Parties to the Contract. The Idaho sales tax is imposed upon sales transactions. Since there is no sales transaction between the Manufacturer and the Customer, the Manufacturer will not be required to collect and remit sales tax from the Customer. (4-11-15)

03. Sales Tax Responsibilities of the Permitted Manufacturer. If the Manufacturer is required to have a valid Idaho seller’s permit, it has sales tax responsibilities as to the sales transaction between itself and the Retailer. (4-11-15)

a. If the Retailer has an Idaho seller’s permit, it will be necessary for the Retailer to provide the
Manufacturer with a resale certificate evidencing its intentions to resell Product X. If the Retailer does not provide the resale certificate, then the Manufacturer must charge Idaho sales tax on the sale of tangible personal property sold to the Retailer and delivered in Idaho. If the Retailer provides a resale certificate, the Retailer must then charge the Customer Idaho sales tax and remit the tax to the Idaho State Tax Commission together with a proper return.

(4-11-15)

b. If the Retailer is not required to have an Idaho seller’s permit, a resale certificate from the Retailer to the Manufacturer is unnecessary. If the Retailer has no nexus with the state of Idaho, it can accrue no sales tax liability and the sale between the Manufacturer and the Retailer is not subject to the jurisdiction of the Idaho State Tax Commission. The Manufacturer must obtain evidence of this fact in the form of a letter from the Retailer stating that they have no nexus in Idaho or by any other clear and convincing evidence. The Customer’s use or consumption of Product X within Idaho will cause it to accrue a use tax liability. The Customer will be required to file a use tax return and remit the use tax on the purchase of Product X.

(4-11-15)

04. **Sales Tax Responsibilities of the Unpermitted Manufacturer.** If the Manufacturer does not have and is not required to have a valid Idaho seller’s permit, it has no sales tax responsibilities as to the sales transaction between itself and the Retailer.

(4-11-15)

a. If the Retailer has an Idaho seller’s permit, the Retailer must then charge the Customer Idaho sales tax and remit the tax to the state tax commission together with a proper return.

(4-11-15)

b. If the Retailer is not required to have an Idaho seller’s permit, the Retailer is under no responsibility to collect Idaho sales tax from the Customer. The Customer’s use or consumption of Product X within Idaho will cause it to accrue a use tax liability. It will be required to file a use tax return and remit the use tax on the purchase of Product X.

(4-11-15)

c. The matrix below outlines the sales tax responsibilities of the Manufacturer:

<table>
<thead>
<tr>
<th>Manufacturer (Permitted)</th>
<th>Retailer (No Permit Required)</th>
<th>Customer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Obtain ST-101 or Collect Tax</td>
<td>Obtain Letter of No Nexus or Collect Tax</td>
<td>Do Not Collect Tax from Customer / Use Tax Owed by Customer</td>
</tr>
</tbody>
</table>

(4-11-15)

05. **Sales Tax Responsibilities of the Retailer.** If the Retailer is required to have a seller’s permit, it is responsible for collecting sales tax from the Customer. If the Retailer is not required to have a seller’s permit, it is not responsible for collecting sales tax from the Customer. The Customer is responsible to pay use tax to the State of Idaho if purchased from an unpermitted retailer.

(4-11-15)

a. The matrix below outlines the sales tax responsibilities of the Retailer:

<table>
<thead>
<tr>
<th>Retailer (Permitted)</th>
<th>Manufacturer (Permitted)</th>
<th>Manufacturer (No Permit Required)</th>
<th>Customer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Provide Valid Resale Certificate</td>
<td>None</td>
<td>Collect Tax from Customer</td>
<td></td>
</tr>
</tbody>
</table>
06. **Resale Certificate.** If either the Manufacturer or the Retailer is engaged in interstate commerce, the resale certificate which the Retailer provides to the Manufacturer may be in the form prescribed for uniform exemption certificates by the Multistate Tax Commission if the rules set forth in Rule 128 of these rules are met.

023. **(RESERVED)**

024. **RENTALS OR LEASES OF TANGIBLE PERSONAL PROPERTY (RULE 024).**

01. **In General.** The lease or rental of tangible personal property, including licensed motor vehicles, is a sale.

02. **Bare Equipment Rental.** A bare equipment rental, that is, a rental of equipment without operator, is a taxable sale. The owner of the equipment is a retailer and must get a seller’s permit and collect and remit sales taxes. The equipment owner must collect sales tax on each rental payment and remit the tax to the State Tax Commission just like any other retailer. The tax applies whether the equipment is rented by the hour, day, week, month, or on a mileage, or any other basis. The equipment owner who primarily rents bare equipment may buy the equipment without paying tax to the vendor by giving him a resale certificate. See Rule 128 of these rules. If the owner uses the equipment for his own benefit or in his own business operations, he must pay use tax based on a fair market rental value for the period during which he used his own equipment.

03. **Fully Operated Equipment Rentals.**

a. A fully operated equipment rental, equipment with operator, is a service rather than a retail sale of tangible personal property. No sales tax is due on a fully operated equipment rental.

b. A fully operated equipment rental is an agreement in which the owner or supplier of the equipment or property supplies the equipment or property along with an operator, and the property supplied is of no value to the customer without the operator.

c. The owner or supplier of the equipment or property used in a fully operated equipment rental is the consumer of the equipment or property, and is subject to sales or use tax when he buys or uses the equipment in Idaho. Special rules apply to transient equipment used for short periods in Idaho. See Rule 073 of these rules.

d. If the equipment or property has value to the customer without an operator, then the lease or rental of the equipment or property is a distinct transaction. It is subject to sales or use tax and its price must be stated separately from the price of the service provided by the operator.

e. Example: A crane rental company provides a mobile crane to a contractor, along with an operator. The contractor may not use the crane without the operator, so the leasing company is not required to charge sales tax on the lease of the crane.

f. Example: Pick-Up Industries provides a three (3) cubic yard trash container to a customer. Pick-Up also provides trash hauling service to empty the container. Since the container is used to store trash between collections, its transfer to a customer is a lease subject to sales tax.

04. **Mixed Use of Rental Equipment.**

a. If the equipment owner primarily rents bare equipment but sometimes supplies equipment with an operator, the equipment owner is the consumer of the equipment while it is used by the operator to perform a service...
contract. Accordingly, the equipment owner must pay use tax on the fair market rental value of the equipment for that period of time unless he paid tax when he bought the equipment.

b. If the equipment owner primarily rents fully operated equipment but sometimes rents bare equipment, he must charge and remit Idaho sales tax on the rental of the bare equipment. The tax applies even though the equipment owner’s purchase of the property was also subject to sales or use tax. In this case, the owner purchased the equipment for a purpose other than the resale or re-rental of that property in the regular course of business.

05. **Operator Required to Be Paid by Customer.** In some cases, an equipment owner supplies equipment along with an operator but a contract or a state or federal law requires the customer to pay the operator. If all other indications of an employee-employer relationship, such as the right to hire and fire, immediate direction and control, etc., remain with the equipment owner, the owner is viewed as supplying a service and no sales tax applies to the service fee. However, the fact that the transaction is a fully operated equipment rental must be clearly stated on the face of the invoice or other billing document. The State Tax Commission may, whenever it deems appropriate, examine the facts on a case-by-case basis to determine if a true employer-employee relationship exists between the equipment owner and the operator.

06. **Maintenance of Rental Equipment.** If the owner who primarily rents bare equipment is responsible for the maintenance of the equipment, he may buy the necessary repair parts and equipment tax exempt by providing his vendor with a resale certificate. The owner who rents fully operated equipment may not buy the equipment or repair parts tax exempt.

07. **Rentals to Exempt Entities.** The rental or lease of equipment invoiced directly to an entity exempt from sales tax, such as the state of Idaho or one (1) of its political subdivisions, is not subject to sales tax. However, if the rental or lease is to an individual or organization performing a contract for, or working for an exempt entity, the rental is taxable.

08. **Exempt Equipment Rentals.** Equipment which would have been exempt from tax if purchased is also tax exempt if leased or rented. To claim this exemption, the renter must furnish the owner with a properly completed and signed exemption certificate. See Rule 128 of these rules.

09. **Rental Payments Applied to Future Sales.** Rentals to be applied toward a future sale or purchase are taxable.

10. **Personal Property Tax.** A lessor may require reimbursement from the lessee for the personal property tax the lessor must pay on leased equipment. A charge for personal property tax will be exempt from sales tax if the lease is for a term of one year or longer; if the property tax is billed as a separate line item; and if the charge is no more than the property tax actually paid by the lessor.

11. **Out-of-State Rental/Lease.** Rental or lease payments on equipment used outside Idaho are not subject to Idaho sales tax. Rental or lease payments on equipment used in Idaho are taxable. If the equipment is delivered in Idaho, even though it will be used outside the state, then the rental or lease payment for the first month, or other period, is subject to Idaho tax.

12. **Lease-Purchase and Lease with Option to Purchase.**

a. Lease-purchase agreements include transfers which are called leases by the parties but are really installment, conditional, or similar sales. Where ownership passes to the transferee at the end of the stated terms of the lease contract with no additional consideration from the transferee, or where the additional consideration does not represent the fair market value of the property, the transaction is a sale and tax on the entire sales price is collected on the date the property is delivered.

b. Lease with option to purchase agreements include transfers in which the personal property owner, lessor, transfers possession, dominion, control or use of the property to another for consideration over a stated term and the owner, lessor, keeps the property at the end of the term unless the lessee exercises an option to buy the property at fair market value. The owner/lessor must collect sales tax from the lessee at the time each lease payment
is charged. If the lessee exercises the option to buy, the lessor/owner must collect sales tax from the lessee/buyer on the full remaining purchase price when the option is exercised.

13. Cross-References.

a. See Rule 025 of these rules on real property rental.

b. See Rule 037 of these rules on aircraft and flying services.

c. See Rule 038 of these rules on flying clubs.

d. See Rule 044 of these rules on trade-in for rental or lease property.

e. See Rule 049 of these rules on warranties and service agreements.

f. See Rule 073 of these rules on transient equipment.

g. See Rule 106 of these rules on motor vehicles.

025. RENTALS OR LEASES OF REAL PROPERTY (RULE 025).

01. In General. The sale, lease, or rental of real property, including office space, living space, lockers, boat docks, billboards, parking spaces, spaces for booths at fairs, and real property storage spaces is not subject to sales tax.

02. Hotel, Motel, and Campground Accommodations. The charge for providing hotel, motel, and campground accommodations is subject to sales tax as provided by Section 63-3612, Idaho Code. See Rule 028 of these rules.

026. (RESERVED)

027. COMPUTER EQUIPMENT, SOFTWARE, AND DATA SERVICES (RULE 027).

Section 63-3616, Idaho Code

01. Definitions. For purposes of this rule, the following terms will have the following meanings:

a. Canned Software. Canned software is prewritten software which is offered for sale, lease, or use to customers on an off-the-shelf basis with little or no modification at the time of the transaction beyond specifying the parameters needed to make the program run. Evidence of canned software includes the selling, licensing, or leasing of identical software more than once. Software may qualify as custom software for the original purchaser, licensee, or lessee, but become canned software when sold to others. Canned software includes program modules which are prewritten and later used as part of a larger computer program.

b. Computer. A computer is a programmable machine or device having information processing capabilities and includes word, data, and math processing equipment, testing equipment, programmable microprocessors, and any other integrated circuit embedded in manufactured machinery or equipment.

c. Computer Hardware. Computer hardware is the physical computer assembly and all peripherals, whether attached physically or remotely by any type of network, and includes all equipment, parts and supplies.

d. Computer Program. A computer program, or simply a program, is a sequence of instructions written for the purpose of performing a specific operation in a computer.

e. Computer Software. Computer software, or simply software, is defined as any of the following:
i. A computer program; (4-11-15)

ii. Any part of a computer program; (4-11-15)

iii. Any sequence of instructions that operates automatic data processing equipment; or (4-11-15)

iv. Information stored in an electronic medium. (4-11-15)

f. Custom Software. Custom software is software designed and written by a vendor at the specific request of a client to meet a particular need. Custom software includes software which is created when a user purchases the services of a person to create software which is specialized to meet the user’s particular needs. (4-11-15)

g. Digital Product. See definition for “Information Stored in an Electronic Medium” in Subsection 027.01.h. (4-11-15)

h. Information Stored in an Electronic Medium. Any electronic data file other than a computer program which can be contained on and accessed from storage media. The term includes audio and video files and any documents stored in an electronic format. For purposes of this rule, the term is interchangeable with “digital product.” (4-11-15)

i. Load and Leave Method. A method of software delivery in which the vendor or an agent of the vendor loads software onto the user’s storage media at the user’s location but does not transfer storage media containing the software to the user. (4-11-15)

j. Remotely Accessed Computer Software. Computer software that a user accesses over the internet, over private or public networks, or through wireless media, and the user only has the right to use or access the software by means of a license, lease, subscription, service, or other agreement. (4-11-15)

k. Storage Media. Storage media include, but are not limited to, hard disks, optical media discs, diskettes, magnetic tape data storage, solid state drives, and other semiconductor memory chips used for nonvolatile storage of information readable by a computer. (4-11-15)

02. Computer Hardware. The sale or lease of computer hardware is a sale at retail. Sales tax is imposed based on the total purchase price, lease, or rental charges. See Rule 024 of these rules. (4-11-15)

03. Canned Software. When canned software is sold and delivered on storage media to the user and the storage media remains in the possession of the user, it is tangible personal property and the sale is taxable. If the storage media is sold along with other computer hardware, any canned software loaded on the storage media is tangible personal property the sale of which is taxable. If canned software is sold and delivered electronically or by the load and leave method, it is not tangible personal property and the sale is not taxable. If canned software is sold using a physical package but the package does not contain the canned software on storage media, it is not tangible personal property and the sale is not taxable. For example, if a printed key code is sold in a box that allows the user to download canned software and activate the canned software using the key code, the sale is not taxable. (4-11-15)

a. If canned software is loaded on a user’s computer but has minimal or no functionality without connecting to the provider’s servers over the internet, the sale of that canned software may still be taxable based upon the delivery method of the canned software as outlined in Subsection 027.03 of this rule. (4-11-15)

b. Special rules apply to digital music, digital books, digital videos, and digital games. See Subsections 027.06 and 027.07 of this rule. (3-25-16)

c. When a sale of canned software is taxable, tax applies to the entire amount charged to the customer for canned software. If the consideration consists of license fees, royalty fees, right to use fees or program design fees, whether for a period of minimum use or for extended periods, all fees are includable in the purchase price subject to tax. (4-11-15)
04. **Remotely Accessed Computer Software.** Remotely accessed computer software is not tangible personal property and charges to use or access such software are not subject to tax. (4-11-15)

05. **Maintenance Contracts.** Maintenance contracts sold in connection with the sale or lease of canned software generally provide that the purchaser will be entitled to receive periodic program enhancements and error correction, often referred to as upgrades, either on storage media or through remote telecommunications. The maintenance contract may also provide that the purchaser will be entitled to telephone or on-site support services. (3-6-00)

   a. If the maintenance contract is required as a condition of the sale, lease, or rental of canned software, the gross sales price is subject to tax if the software to which the contract applies is subject to tax. Tax applies whether or not the charge for the maintenance contract is separately stated from the charge for software. In determining whether an agreement is optional or mandatory, the terms of the contract shall be controlling. (4-11-15)

   b. If the maintenance contract is optional to the purchaser of canned software: (3-30-07)

      i. Then only the portion of the contract fee representing upgrades is subject to sales tax if the fee for any maintenance agreement support services is separately stated and the upgrades are delivered on storage media; (4-11-15)

      ii. If the fee for any maintenance agreement support services is not separately stated from the fee for upgrades and the upgrades are delivered on storage media, then fifty percent (50%) of the entire charge for the maintenance contract is subject to sales tax; (4-11-15)

      iii. If the maintenance contract only provides upgrades delivered on storage media, and no maintenance agreement support services, then the entire sales price of the contract is taxable; (4-11-15)

      iv. If the maintenance contract only provides support services, and the customer is not entitled to or does not receive any canned computer software upgrades or enhancements, then the sale of the contract is not taxable. (3-30-07)

   c. If an optional software maintenance contract provides for software updates to be delivered electronically but also allows a customer to receive software updates on storage media, no portion of the contract is taxable unless the customer actually receives software updates on storage media. (4-11-15)

06. **Digital Products.** Digital music, digital books, digital videos, and digital games are tangible personal property regardless of the delivery or access method but only if the purchaser has a permanent right to use the digital music, digital books, digital videos, or digital games. Where the purchaser has a permanent right to use these digital products, the sale is taxable. Leases or rentals of these digital products are not taxable. (3-25-16)

   a. Other than digital music, digital books, digital videos, or digital games, information stored in an electronic medium is tangible personal property only if it is transferred to the user on storage media that is retained by the user. (3-25-16)

   b. If a digital game requires the internet for some or all of its functionality, the sale of that digital game is taxable if the purchaser has a permanent right to use the digital game. If a user pays a periodic subscription charge to play a digital game, the periodic subscription charge is not taxable. If a user pays a periodic subscription charge for a gaming service that enables certain functionality such as multiplayer capability in one or more digital games, the periodic charge is not taxable. (3-25-16)

07. **Digital Subscriptions.** Digital subscriptions consist of an agreement with a seller that grants a user the right to obtain or access digital products in a fixed quantity or for a fixed period of time. Digital subscriptions are not taxable. (3-25-16)

08. **Reports Compiled by a Computer.** The sale of statistical reports, graphs, diagrams, microfilm, microfiche, photorecordings, or any other information produced or compiled by a computer and sold or reproduced...
for sale in substantially the same form as it is produced is a sale of tangible personal property and is taxable if the final product is printed or delivered in an electronic format on storage media. If a report is compiled from information furnished by the same person to whom the finished report is sold, the report will be subject to tax unless the person selling the report performs some sort of service regarding the data or restates the data in substantially different form than that from which it was originally presented or delivers the report to the purchaser electronically. (3-25-16)

a. Example: An accountant uses a computer to prepare financial statements from a client’s automated accounting records. No tax will apply since what is sought is the accountant’s expertise and knowledge of generally accepted accounting principles. (7-1-93)

b. Example: A company sells mailing lists which are transferred to the user on storage media that remains in the possession of the user. The seller compiles all the mailing lists from a single data base. Since the same data base is used for all such mailing lists it is not custom software. Therefore, the sale is subject to tax. (4-11-15)

c. Example: An auto parts retailer hires a data processing firm to optically scan and record its parts book on a computer disk. No analysis or other service is performed regarding the data. Essentially, this is the same as making a copy of the parts book and the sale is, therefore, subject to tax. (7-1-93)

d. When additional copies of records, reports, manuals, tabulations, etc., are provided, tax applies to the charges made for the additional copies. Additional copies are all copies in excess of those produced simultaneously with the production of the original and on the same printer, where the copies are prepared by running the same program, by using multiple printers, by looping the program, by using different programs to produce the same output, or by other means. (7-1-93)

e. Charges for copies produced by means of photocopying, multilithing, or by other means are subject to tax. (7-1-93)

09. Online or Remote Data Storage. Charges to store data on storage media owned and controlled by another party is a nontaxable service. (4-11-15)

10. Training Services. Separately stated charges for training services are not subject to the tax, unless they are incidental services agreed to be rendered as a part of the sale of tangible personal property as provided by Rule 011 of these rules. (3-6-00)

a. When separate charges are made for training materials, such as books, manuals, or canned software, sales tax applies. (7-1-93)

b. When training materials are provided at no cost to the purchaser in conjunction with the sale of tangible personal property, the training materials are considered to be included in the sales price of the tangible personal property. (7-1-93)

c. When no tangible personal property, computer hardware or canned software, is sold and training materials are provided at no charge to the customer, the provider of the training is the consumer of the training materials and must pay sales tax or accrue and remit use tax. (3-6-00)

11. Custom Software. The transfer of title, possession, or use for a consideration of custom software is not subject to sales tax. Custom software is specified, designed, and created by a vendor at the specific request of a client to meet a particular need. Custom software includes software which is created when a user purchases the services of a person to create software which is specialized to meet the user’s particular needs. The term includes those services that are represented by separately stated and identified charges for modification to existing canned software which are made to the special order of the customer, even though the sales, lease, or license of the existing program remains taxable. Examples of services that do not result in custom software include loading parameters to initialize program settings and arranging preprogrammed modules to form a complete program. (7-1-93)

a. Tax does not apply to the sale, license, or lease of custom software regardless of the form or means by which the program is transferred. The tax does not apply to the transfer of custom software or custom programming services performed in connection with the sale or lease of computer equipment if such charges are
separately stated from the charges for the equipment. (3-6-00)

b. If the custom programming charges are not separately stated from the sale or lease of equipment, they will be considered taxable as part of the sale. (7-1-93)

c. Custom software includes a program prepared to the special order of a customer who will use the program to produce and sell or lease copies of the program. The sale of the program by the customer for whom the custom software was prepared will be a sale of canned software. (7-1-93)

12. Purchases for Resale. Sales tax does not apply when computer hardware or software is purchased for resale. A properly executed resale certificate must be on file. See Rule 128 of these rules. (3-6-00)

028. HOTELS, MOTELS AND CAMPGROUNDS (RULE 028).
Section 63-3612(2), Idaho Code

01. Fees. Fees charged for providing hotel, motel, and campground accommodations are subject to the state sales tax, the Idaho Travel and Convention taxes and may be subject to the Greater Boise Auditorium District sales tax. This includes fees collected for short-term rentals and vacation rentals even when the sale is facilitated by a short-term rental marketplace. These taxes are explained in IDAPA 35.01.06, “Hotel/Motel Room and Campground Sales Tax Administrative Rules.” (3-28-18)

02. Purchases by Hotels, Motels, Lodging Operators, Short-Term Rentals, Vacation Rentals, and Campgrounds. Hotels, motels, lodging operators, short-term rentals, vacation rentals, and campgrounds may purchase tangible personal property for consumption by their customers without paying tax if the tangible personal property is included in the fee charged to the customer and is directly consumed by the customer in such a way that it cannot be reused. Hotels, motels, lodging operators, short-term rentals, vacation rentals, and campgrounds must provide a resale certificate to their vendor when purchasing such items for resale. Examples include: (3-28-18)

a. Facial tissue, toilet tissue, toilet sanitation tissues, disposable laundry pickup bags, and paper napkins. (7-1-93)

b. Soaps, hair shampoo, hair conditioners, and lotions. (7-1-93)

c. Disposable plastic drinking glasses, disposable plastic utensils, disposable shoe shine cloths, and disposable shower caps. (7-1-93)

d. Candies, beverages, meals, and newspapers furnished with the room. (7-1-93)

e. Room stationery, envelopes, notepads, and matches. (7-1-93)

03. Tangible Personal Property Subject to Tax. Tangible personal property which is not included in the fee charged to the customer and not directly consumed by the customer is subject to the tax when purchased by the hotel, motel, lodging operator, short-term rental, vacation rental, or campground. Tangible personal property subject to tax includes property which is not directly consumed by the customer, property that is nondisposable in nature, or property that is depreciated in the books and records of the hotel, motel, lodging operator, short-term rental, vacation rental, or campground. The hotel, motel, lodging operator, short-term rental, vacation rental, or campground is the user and consumer of such supplies and equipment and will pay sales tax on the purchase of such items. Examples include: (3-28-18)

a. Bath towels, bath mats, linens, and bedding. (7-1-93)

b. Glassware, silverware, and china. (7-1-93)

c. Furniture and fixtures. (7-1-93)

d. Bibles, room service menus, and directories. (7-1-93)
e. Toilet sanitary rings and garbage can liners. (7-1-93)
f. Any tangible personal property available to the general public. (7-1-93)

029. PRODUCING, FABRICATING, AND PROCESSING (RULE 029).

01. In General. Tax applies to charges for producing, fabricating, processing, printing, imprinting, or the engraving of tangible personal property for a consideration, whether or not consumers furnish either directly or indirectly the materials used in the producing, fabricating, processing, printing, imprinting, or engraving. (7-1-93)

a. Example 1: An owner purchases cabinets from a cabinetmaker to be made according to specifications furnished by the owner. The cabinetmaker delivers the cabinets to the owner who installs them himself. A sales tax will be collected by the cabinetmaker from the owner measured by the entire sales price. (7-1-93)

b. Example 2: An owner purchases material, on which he pays a sales tax, which he delivers to a cabinetmaker. The cabinetmaker uses this material to manufacture cabinets for the owner according to specification. These cabinets are delivered to the owner and an agreed price is paid for the work done by the cabinetmaker. A sales tax will be collected from the owner, measured by the entire price charged by the cabinetmaker. (7-1-93)

c. Example 3: An individual takes a plaque, on which sales tax has been paid, to an engraver and requests the plaque be engraved with an inscription. The total price paid for the engraving shall be subject to tax. (7-1-93)

d. Example 4: A club purchases trophies from a retailer and requests that the trophies be engraved with individual names. The trophies are engraved and delivered for an agreed price. The measure of the sales tax is the price of the trophies plus the engraving charge. (7-1-93)

e. Example 5: An individual takes a beef to a packing plant and requests that the meat be processed by cutting, wrapping, and freezing the meat to the purchaser’s specification. The total price paid for this processing shall be subject to sales tax. (7-1-93)

f. Example 6: A hunter takes a deer to a business which processes smoked meats. Although the material actually consumed in the smoking process may be minimal, the entire price paid for this processing is subject to sales tax. (7-1-93)

02. Repairing and Reconditioning Distinguished. Producing, fabricating, and processing includes any operation which results in the creation or production of tangible personal property or which is a step in a process or series of operations resulting in the creation or production of tangible personal property. The terms do not include operations which do not result in the creation or production of tangible personal property or which do not constitute a step in a process or series of operations resulting in the creation or production of tangible personal property, but which constitute merely the repair or reconditioning of tangible personal property to refit it for the use for which it was originally produced. (7-1-93)

03. Cross-References. (7-1-93)

a. Repairs and Renovation of Tangible Personal Property. See Rules 011 and 062 of these rules. (7-1-93)

b. Fabrications by Contractors. See Rule 012 of these rules. (7-1-93)

030. ADMISSIONS DEFINED (RULE 030).

01. Admissions. Charges for admission to a place or event in Idaho are taxable. The charge to gain access to a place or event is subject to tax whether such charge is designated as a cover charge, minimum charge or any such similar charge. (3-6-00)

a. When an original admission charge carries the right to remain in a place or use a seat or table or
other similar accommodation for a limited time only and an additional charge is made for an extension of such time, the extra charge is paid for admission within the meaning of the code. (7-1-93)

b. When a person or organization acquires the sole right to use any place or the right to dispose of or control the admissions to any place with the intent to charge people to attend the event, the amount paid for such right is not subject to sales tax. Such a transaction constitutes a rental for resale. However, when the person or organization sells admission, the tax will apply to the amounts paid for such admission. If the person or organization does not charge people to attend the event, their rental of the recreational facility may be subject to sales tax. See Rule 129 of these rules. (3-6-00)

02. Rental of Tangible Personal Property. When a charge is made only for the rental of tangible personal property such as skates, golf clubs, etc., the rental will be taxable. If a lesser charge is made to a person not desiring to use the property or services offered, this lesser amount shall be deemed to represent the amount charged for admission. (3-6-00)

031. RADIO AND TELECOMMUNICATIONS EQUIPMENT AND LAND MOBILE RADIO SERVICE OF SYSTEMS (RULE 031).

01. General Rule and Scope. Sales and purchases of communication equipment and land mobile radio systems are subject to sales and use tax. This rule describes sales and use tax treatment of telephone terminal equipment or services and land mobile radio systems or service. (7-1-97)

02. Telephone Terminal Equipment and Services. (7-1-93)

a. Telephone terminal equipment includes, but is not limited to, desk sets, PBX systems, automated answering equipment, cellular telephones and mobile radio telephones. All lessors, or sellers, or both, of this type of equipment are required to obtain seller’s permits, and must collect and remit sales tax on the retail sales price or lease price. (7-1-97)

b. Fees for access charges, toll charges, call waiting, call forward, message recording, and similar charges to customers are not subject to the sales tax. (7-1-97)

03. Land Mobile Radio Systems or Services. (7-1-93)

a. Generally, land mobile radio systems or services are defined by 47 Code of Federal Regulations, Section 90.7. (7-1-93)

b. Sales of terminal equipment or customer premises equipment are taxable. Terminal and customer premises equipment shall include handsets, mobile telephones, antennae, and like or similar property. (7-1-97)

c. Separately stated fees for labor rendered to install or apply terminal or customer premises equipment on premises or in facilities under the dominion and control of the consumer are not subject to sales tax. (7-1-93)

d. Fees for access charges, toll charges, and similar charges are not subject to the sales tax. (7-1-97)

04. Provider Equipment. Equipment or tangible personal property used in receiving or transmitting, other than terminal or customer premises equipment, shall be deemed purchased for use by the owner or provider of the telephone or land mobile radio system or service, and subject to sales or use tax on his purchase cost. The owner or provider of telephone or land mobile radio systems or services will be deemed the consumer of other tangible personal property which he purchases and which is used for other purposes including, but not limited to, office supplies, repair equipment, accounting or customer billing equipment, and equipment or devices or other property used to maintain or repair land mobile radio systems or services. (7-1-93)

05. Drop-In Equipment and Inside Wiring. (7-1-93)

a. Drop-in equipment and inside wiring shall include wires, plugs, sockets, receptacles, connectors
and similar items which are or become improvements or accessions to real estate, and which are useful or necessary
to bring telephonic or radio communication transmissions from a source outside the premises of the user, for
example, telephone pole or transmitter, to terminal equipment within the user’s premises. (7-1-93)

b. Sales and purchases of drop-in equipment and inside wiring shall be subject to sales or use tax as
tangible personal property consumed by a contractor improving real estate, and persons installing drop-in equipment
and inside wiring shall be considered contractors for the purposes of such installations. See Rule 012 of these rules
for tax treatment of contractors. (3-20-04)

06. Wireless Telecommunications Equipment. A retailer may give away wireless
telecommunications equipment as an inducement to commence or continue a contract for telecommunications
service. Such a use is exempt from tax pursuant to Section 63-3621(a), Idaho Code. For the purposes of this
exemption “telecommunications service” means the transmission of two-way interactive switched signs, signals,
writing, images, sounds, messages, data, or other information that is offered to the public for compensation.
“Telecommunication service” does not include the one-way transmission to subscribers of video programming, or
other programming service, and subscriber interaction, if any, which is required for the selection of such video
programming or other programming service, surveying, internet service, alarm monitoring service, or the provision
of radio paging, mobile radio telecommunication services, answering services (including computerized or otherwise
automated answering or voice message services). (3-20-04)

032. (RESERVED)

033. SALES OF NEWSPAPERS AND MAGAZINES (RULE 033).

01. Subscriptions. Subscriptions to newspapers and magazines are sales of tangible personal property.
The sale will be taxed if the single copy price of each newspaper or magazine purchased by the subscriber exceeds
eleven cents ($0.11). The single copy price shall be computed on an annual basis regardless of whether the
subscription is paid weekly, monthly or on some other periodic basis. (7-1-93)

02. Single Copy Price. The single copy price shall be computed according to the following formula.
(Published subscription price) x (Number of subscription periods in one (1) year) / (Number of issues a subscriber
receives in one (1) year) = Single Copy Price. If the single copy price as computed exceeds eleven cents ($0.11) cents, the
subscription is taxable. If the single copy price is eleven cents ($0.11) or less, the subscription price is not taxable.
(7-1-93)

03. Computation of Tax. If the subscription price is taxable, the tax shall be computed on the
subscription price according to the schedule contained in Section 63-3619, Idaho Code. (7-1-93)

04. Subscription Price. As used in this rule, the terms published subscription price and subscription
price mean the total amount charged for purchase and delivery of the newspaper and magazine, except that separately
stated postage shall be excluded from the subscription price subject to tax. It is acceptable business practice for
publishers to establish a price for their newspapers as separate weekday-only and Sunday-only issues. The provisions
of this rule will be in effect in such cases. When the price is posted as a combined weekday-Sunday price, sales tax
will be charged on the combined subscription price. (7-1-99)

05. Individual Sales. Individual or separate sales of newspapers or magazines, except as provided in
Subsection 033.06 of this rule for a single price of eleven cents ($0.11) or less are not taxable. Individual or separate
sales of newspapers or magazines for a single price exceeding eleven cents ($0.11) are subject to tax according to the
schedule provided in Section 63-3619, Idaho Code. Separate or individual sales of newspapers or magazines together
with retail sales or other tangible personal property subject to tax shall be taxable if the total sales price of all taxable
property included in the sale exceeds eleven cents ($0.11). (3-15-02)

06. Vending Machine Sales. Sales of newspapers or magazines through a vending machine are
governed by the provisions of Section 63-3613, Idaho Code, and Rule 058 of these rules, except when the cost of the
newspaper is greater than the sales price, tax will be computed on the retail sales price. (7-1-99)

07. Independent Retailer Sales. The sale of newspapers by a publisher to an independent retailer will
be tax exempt only if the retailer provides the publisher with a properly executed resale certificate. See Rule 128 of these rules. The incidence of sales tax then falls upon the independent retailer who must have a registered seller’s permit number and will be responsible for collecting, accounting for and remitting the sales tax on all newspapers thus purchased and resold.

08. Carriers Less Than Sixteen Years Old. If the carrier is less than sixteen (16) years old, the publisher or other seller’s permit holder from whom he or she obtains the newspapers will be responsible for the collection of sales tax and remitting such taxes to the State Tax Commission.

09. Product Consumed by the Publisher. Eight-tenths of one percent (0.8%) of net press run of newspapers or magazines, will be taxed as product consumed by the publisher. Any percentage figure below eight-tenths of one percent (0.8%) must be supported by accepted accounting methods generally used in the publishing industry. The value of the newspapers used shall be set at the retail price charged the consumer. Example: (Eight tenths of one percent (0.8%) of Daily Net Press Run) x (Single Copy Retail Price) x (Tax Rate) / Daily Net Press Run = Tax Per Copy.

10. Single Unit Price and Net Press Run. For purposes of the computation in Subsection 033.09 of this rule single copy price shall be the amount computed by the formula in Subsection 033.02 of this rule. Net press run shall mean all readable, usable copies, including editorial copies, tear sheets, and archival copies, and not including spoiled runs or printing waste.

   a. See Rule 058 of these rules, Sales Through Vending Machines.
   b. See Rule 127 of these rules, Free Distribution Newspapers.
   c. See Rule 128 of these rules, Certificates for Resale and Other Exemption Claims.

034. TRADING STAMPS (RULE 034).

01. Sales Price. Sales price includes the total consideration paid whether received in money or otherwise. If property is purchased with trading stamps, a tax will be imposed at the time of sale measured by the listed retail selling price for the goods. If no such price is listed, the actual retail selling price or the redemptive value of the stamps, whichever is higher, will be used as the measure of the tax. Sales tax will be collected from the purchaser.

02. Purchase of Trading Stamps by Retailer. The purchase of trading stamps by a retailer for distribution to his customers is a purchase of tangible personal property subject to the tax. As the stamps are distributed by the retailer to his customers at no charge, the retailer is considered to be the customer of the trading stamps.

035. LAYAWAY SALES (RULE 035).

01. In General. Layaway sales will be assessed sales tax. The tax shall be collected on the total sales price of the items on layaway at the time of sale.

02. The Time a Sale Occurs. A sale occurs when title to property passes through delivery to the customer or absolute and unconditional appropriation to a contract.
   a. The sales tax is accrued and remitted to the state based on the tax rate in effect at the time of sale.
   b. Separately stated nonrefundable service charges are not a measure of the applicable sales tax.
   c. Example 1: On March 1, 1986, a customer puts on layaway an item costing one hundred dollars ($100). A twenty dollar ($20) down payment is made, plus a nonrefundable two dollar ($2) service charge. A twenty
d. Example 2: The same circumstances as in Subsection 035.02.c., Example 1, except that only two (2) payments are made and the customer decides not to complete the layaway transaction. The retailer refunds all amounts paid, except the two dollar ($2) nonrefundable service charge. A sale does not occur and no sales tax is due. (7-1-93)

e. Example 3: The same circumstances as in Subsection 035.02.c., Example 1, except after one (1) payment the customer moves and cannot be located. No refund of amounts paid by the customer is made. The amount not refunded is not subject to sales tax because there is no sale through delivery of tangible personal property to the customer. See Section 63-3612, Idaho Code. (7-1-93)

036. SIGNS AND BILLBOARDS (RULE 036).

01. Signs and Billboards as Custom Made Articles. The fabrication, manufacturing, lettering, etc., of advertising or informational signs of whatever description, including, but not limited to, neon signs, display lettering on trucks, display cards, show cards, etc., are considered made-to-order goods or custom made articles and as such are subject to Idaho sales tax based upon the total sales price of the completed sign to the user. The sales price shall include material and labor. (7-1-93)

02. Rental of Signs. The rental of signs is subject to sales tax and a sales tax will be collected and remitted to the state upon the date on which rental payments are due and owing the lessor. The tax will be measured by the gross rental receipts. A lease-purchase agreement which in fact a sale, will be treated as a sale and tax collected on the entire sales price at the date upon which the contract is executed. (7-1-93)

03. Material That Becomes Part of a Sign. The sale of advertising signs may consist of a mixed transaction including both a sale of tangible personal property and a sale of real property. (3-20-14)

a. Persons who sell signs may buy materials which become a part of the product without paying tax if they give the seller the documentation required by Rule 128 of these rules. Both the materials and labor required to fabricate the sign are taxable. Therefore, the entire price of the tangible personal property sold will be taxable to the customer. (3-20-14)

b. Signs may be attached to poles or mountings that are affixed to real property in such a way that they are intended to remain in place and become a real property improvement. The person installing materials into real property is acting as a contractor and is the consumer of the materials installed, such as the concrete or sign poles. The contractor owes a sales or use tax on the purchase of these materials. (3-20-14)

04. Road Signs. Road signs are signs installed alongside or above roads that provide roadway information to users of the road. Examples of road signs include traffic signs such as speed limit signs and stop signs; street signs; recreational area signs; highway signs such as mileage signs and exit signs; and highway exit service information signs. (3-20-14)

a. In general, road signs become real property upon installation. Consequently, an installer of road signs acts as a contractor improving real property when performing the installation work. Therefore, a road sign installer is the consumer of all materials used in the installation of the road sign. The installer owes sales or use tax on its use of all sign materials regardless of whether the installer purchased the materials or had the sign materials provided by the sign owner. However, if the sign owner has already paid sales or use tax on its purchase of the sign materials, the installer will not owe any additional use tax. (3-20-14)

b. Alternatively, if a road sign is intended to serve a temporary purpose, the road sign does not become real property regardless of the nature of its purpose or how the road sign is affixed to real property. (3-20-14)
i. Example 1: A contractor installs a stop sign on behalf of a public transportation department to adjust traffic flow during a period of road construction. The contractor removes the stop sign upon completion of the construction and returns the stop sign to the public transportation department. The stop sign remains tangible personal property while installed. Therefore, the contractor does not owe use tax. (3-20-14)

ii. Example 2: A contractor purchases signs used to warn approaching vehicles of a construction project that affects traffic flow such as “Be Prepared to Stop.” The contractor maintains an inventory of such signs for use on a variety of projects. The signs only ever serve a temporary purpose for the duration of a project. The contractor does not resell the signs or install the signs on a permanent basis. The purchase of these signs is taxable to the contractor. (3-20-14)

05. Custom Painting Directly on Real Property. A sale of custom painting of displays, graphics or signs directly on walls or windows of a building is not considered to be a retail sale of tangible personal property and is not taxable. The sign painter must pay sales or use tax on purchases of materials used to paint these custom displays, graphics or signs. (7-1-99)

06. Billboards.

a. Billboards which are also referred to as twenty-four (24) sheet posters and painted billboards, are not in the same category as signs covered in this rule. The rental of a billboard is not a rental of tangible personal property under the Idaho Sales Tax Act. (7-1-99)

b. Billboard Material. Material used in the construction, erection, painting, and maintenance of a billboard is subject to sales or use tax. (7-1-99)

037. AIRCRAFT AND FLYING SERVICES (RULE 037).

Section 63-3622GG, Idaho Code

01. Definitions. For the purposes of this rule, the following terms have the following meanings:

a. Recreational Flight. The hiring on demand of an aircraft with a pilot to transport passengers for a recreational purpose. Examples are a pleasure ride, sightseeing, wildlife viewing, hot air balloon rides, or other similar activities. (7-1-94)

b. Freight. Goods transported by a carrier between two (2) points. Freight does not include goods which are being transported for the purpose of aerial spraying or dumping. See Subsection 037.06 of this rule. (4-11-06)

c. Transportation of Passengers. The transportation of passengers means the service of transporting passengers from one (1) point to another. It does not include survey flights, recreational or sightseeing flights, nor does it include any flight that begins and ends at the same point. (4-11-06)

d. Nonresident Individual. An individual as defined by Section 63-3014, Idaho Code. (7-1-94)

e. Nonresident Businesses and Other Organizations. A corporation, partnership, limited liability company, or other organization will be considered a nonresident if it is not formed under the laws of the state of Idaho, is not required to be registered to do business with the Idaho Secretary of State, does not have significant contacts with this state, and does not have consistent operations in this state. A limited liability company (LLC) or other legal entity formed by an Idaho resident under the laws of another state primarily for the purpose of purchasing and owning one (1) or more aircraft is not a nonresident. The use of an aircraft owned by such an entity will be subject to use tax upon its first use in Idaho. (4-4-13)

f. Day. For the purpose of this rule any part of a day is a day. (7-1-94)

g. Transportation of freight or passengers for hire. “Transportation of freight or passengers for hire” means the business of transporting persons or property for compensation from one (1) location on the ground or water...
to another. (4-4-13)

h. Common Carrier. The operation of an aircraft in the transportation of freight or passengers for hire by members of the public. When operating as a common carrier, the operator or owner of an aircraft usually charges a rate that will generate a profit. For flights in which federal regulations limit or minimize this profit, the aircraft is likely not operating as a common carrier. (4-4-13)

i. Public. The public does not include:

   i. Owners or operators of the aircraft; (4-4-13)
   
   ii. Employees of the aircraft owner or operator; (4-4-13)
   
   iii. Guests of the aircraft owner or operator; (4-4-13)
   
   iv. Any of the above with the same relationship to a parent of the aircraft owner, a subsidiary of that parent, or a subsidiary of the aircraft owner; (4-4-13)
   
   v. An individual or entity flying under a time sharing agreement which is an arrangement where an aircraft owner leases his aircraft with flight crew to another individual or entity and the aircraft owner limits the amount charged in accordance with federal regulations; or (4-4-13)
   
   vi. An individual or entity flying under an interchange agreement which is an arrangement where an aircraft owner leases his aircraft to another aircraft owner in exchange for equal time on the other owner’s aircraft and any fees charged may not exceed the difference between the costs of owning, operating, and maintaining the two (2) aircraft. (4-4-13)

02. Sales of Aircraft. Sales of aircraft are taxable unless an exemption applies. Section 63-3622GG, Idaho Code, provides an exemption for the sale, lease, purchase, or use of an aircraft: (4-11-06)

a. Primarily used to provide passenger or freight services for hire as a common carrier; (4-4-13)

   i. Example 1: An aircraft is flown for the following activities: the aircraft owner’s personal vacations, flight instruction, and charter operations for hire as a common carrier. The flight hours for each activity are forty-five (45), sixty-five (65) and seventy-five (75) hours respectively in a consecutive twelve (12) month period. The combined flight hours for the taxable uses of the aircraft, owner and flight instruction, (45 + 65 = 110 hours) are more than the hours operating as a common carrier (75 hours). Since the greater use of the aircraft is performing activities that do not qualify for an exemption, the use of the aircraft will be taxable at fair market value as of that point in time. (3-20-14)

   ii. Example 2: A charter aircraft service uses an aircraft for three purposes: flight instruction, air ambulance service, and charter flights operated as a common carrier. The flight hours for each activity are one hundred (100), sixty (60) and fifty (50) respectively in a consecutive twelve (12) month period. The combined flight hours for the exempt uses of the aircraft, as an air ambulance and as a common carrier (60 + 50 = 110 hours) are more than the hours used for flight instruction one hundred (100) hours. Since the greater use of the aircraft is performing activities that do not qualify for an exemption, the use of the aircraft will be exempt. (3-20-14)

b. Primarily used for emergency transportation of sick or injured persons; (3-29-17)

c. That is a fixed-wing aircraft primarily used as an air tactical group supervisor platform under a contract with a governmental entity for wildfire activity; or (3-29-17)

d. Purchased for use outside this state, when the aircraft is upon delivery taken outside this state, but only if:

   i. The aircraft is sold to a nonresident as defined in Subsection 037.01.d. or 037.01.e. of this rule; and (3-30-07)
ii. The registration will be immediately changed to show the new owner and the aircraft will not be used in this state more than ninety (90) days in any consecutive twelve (12) month period. (4-4-13)

03. Sales of Aircraft Repair Parts to Nonresidents. Subject to the restrictions of Section 63-3622GG, Idaho Code, sales of aircraft repair parts, including those paid for under a warranty or service agreement, are exempt from tax when installed on an aircraft owned by a nonresident individual or business as defined in Subsection 037.01 of this rule. (4-11-19)

04. Federal Law Prohibits States From Taxing Sales of Air Transportation. See 49 U.S.C. Section 40116. For this reason, sales of intrastate transportation as described by Section 63-3612(i), Idaho Code, are not taxable in Idaho. (4-11-06)

05. Rentals and Leases of Aircraft. The rental or lease of an aircraft without operator is a sale subject to sales tax, other than as provided in Subsection 037.02 of this rule. See Rule 024 of these rules. (4-11-06)

06. Aerial Contracting Services. Businesses primarily engaged in the application of agricultural chemicals as described in Federal Aviation Regulation Part 137, or in activities involving the carrying of external loads as described in Federal Aviation Regulation Part 133, such as aerial logging, are performing aerial contracting services. Such businesses are not primarily engaged in the transportation of freight. (4-11-06)

a. Aircraft purchased, rented, or leased for aerial contracting are subject to tax. It makes no difference whether or not the service is provided to a government agency or a private individual or company. Sales or use tax also applies to the purchase of repair parts, oil, and other tangible personal property. (4-4-13)

b. When aircraft held for resale are used by the owner, who is an aircraft dealer, for aerial contracting services, a taxable use occurs. The use tax is due on a reasonable rental value for the time the aircraft is used to provide the service. (4-11-06)

07. Air Ambulance Service. Charges for the emergency transportation of sick or injured persons, including standby time, are not subject to sales tax. (7-1-94)

08. Flying Instructions. Flying instructions or lessons which may include solo flights are a service and the fees are not subject to sales tax. (7-1-94)

a. Aircraft purchased, rented, or leased to be used primarily for flying instruction are subject to sales or use tax. (7-1-94)

b. When aircraft held for resale are used by the aircraft dealer for flying instructions or lessons, a taxable use occurs. The use tax is due on a reasonable rental value for the time the aircraft is used to provide the service. (7-1-94)

09. Recreational Flights. Sales and purchase of aircraft used primarily for providing recreational flights are subject to sales or use tax. (4-11-06)

10. Aircraft Held for Resale. Aircraft purchased and held for resale become taxable when used for purposes other than demonstration or display in the regular course of business. (7-1-94)

a. Rentals of aircraft held for resale are taxable as provided by Subsection 037.05 of this rule. (7-1-93)

b. When an aircraft held for resale is used for a taxable purpose, the dealer owes tax on that use. The use tax applies to a reasonable rental value for the time the aircraft is used. (7-1-94)

c. Parts and oil purchased to repair or maintain aircraft held for resale are not subject to sales tax. The aircraft dealer must provide the supplier with a properly completed resale certificate. See Rule 128 of these rules. (2-18-02)
11. **Fuel.** The sale or purchase of fuels subject to motor fuels tax, or on which a motor fuels tax has been paid, pursuant to Chapter 24, Title 63, Idaho Code, is exempt from sales and use tax. (7-1-94)

038. **FLYING CLUBS (RULE 038).**

01. **In General.** A flying club is an association of persons who have purchased or leased aircraft for the purpose of renting the aircraft to club members. The aircraft rentals to the club members are considered bare equipment rentals and are subject to the tax at a reasonable rental value. (7-1-93)

02. **Rental or Sale of Aircraft to Members.** The flying club is a retailer who is required to obtain a seller’s permit and collect and remit sales tax. The sales tax, at the prevailing tax rate, is to be collected by the flying club and remitted to the Commission in the manner prescribed for other retailers. The tax is applicable whether the aircraft is sold or is rented on an hourly, daily, weekly, monthly, or any other basis. The flying club, primarily engaged in the business of making bare equipment rentals to club members, may purchase or lease the aircraft without paying sales tax by giving to its vendor a valid resale certificate as required by Rule 128 of these rules. (3-15-02)

03. **Other Charges to Members.** Charges for membership fees are generally subject to sales tax. If the membership fee is in no way related to the rental of the aircraft, the fee is not subject to sales tax. Charges for flight instruction, if such charges are separately stated, are not subject to sales tax. However, charges for logbooks and flight instruction manuals are subject to tax. (7-1-93)

04. **Aircraft Repair Parts.** If the flying club is responsible for the maintenance of the aircraft, the club may purchase the necessary repair and replacement parts without paying tax by providing a valid resale certificate. See Rule 128 of these rules. (3-15-02)

05. **Cross-Reference.** Aircraft and Flying Services see Rule 037 of these rules. (3-15-02)

039. **SALE AND PURCHASE OF BULLION, COINS, OR OTHER CURRENCY (RULE 039).**

01. **Sales and Purchases of Bullion.** Sales and purchases of precious metal bullion and monetized bullion are exempt from sales tax. (7-1-93)

a. Precious metal bullion is an elementary precious metal, such as gold, silver, platinum, rhodium and chromium which has been processed by smelting or refining and where the value of the metal depends upon the content and not upon its form. (7-1-93)

b. Monetized bullion is a coin made of gold, silver or other metals which has been, is or will be used as a medium of exchange under the laws of this state, the United States or any foreign nation. (7-1-93)

02. **Jewelry or Other Works of Art.** The exemption does not extend to coins or money sold to create jewelry or other works of art. The exemption also does not extend to sales of coins whose values may be determined by their form, and which are not minted or manufactured as currency. (3-20-04)

a. Sales of medallions, tokens or other coins created to commemorate a historical event are taxable. However, sales of Idaho commemorative medallions through the Office of the Treasurer of the state of Idaho or its agents are exempt pursuant to Section 63-3622PP, Idaho Code. (3-20-04)

b. Sales of precious metal ingots are exempt from sales tax. Sales of jewelry items, such as belt buckles, bracelets or necklaces, containing silver dollars or other legal tender or ingots are taxable. (3-20-04)

c. Sales of coins, such as Krugerands the one (1) ounce gold coins of the Republic of South Africa, are exempt, unless incorporated into a jewelry item or other decoration. (3-20-04)

040. **PROFESSIONAL TAXIDERMIST (RULE 040).**

01. **In General.** The taxidermy profession is subject to Idaho sales and use tax under the category of
custom made items. The underlying reason for the custom made section of Idaho Code is to equalize the tax on custom made items to those that could be purchased and sold in channels of trade. When buying an item fabricated from either a hide or fur pelt, the purchase price is based on the full cost of material and labor. In the instance of the taxidermy profession, the untanned pelt of hide would be the basic raw material from which the finished product was fabricated. (7-1-93)

02. Fabrication. A deerskin brought to the taxidermist for tanning should be taxed on the price charged by the taxidermist for tanning. If later that tanned skin is taken to a business that fabricates either gloves, moccasins, or jackets, again the fabricator should charge tax on the cost of fabricating the tanned hide making the total tax on the item fabricated comparable with the deerskin, gloves, etc., purchased from a retail store. This also would apply to the mounting of antlers, etc., and even to the making of full mounts of animals. At the time the taxidermist receives the head, the antlers, etc., of the animal from the customer, he has received only a basic piece of material that would be useless until he performs certain functions to place it in a usable or finished condition. (7-1-93)

03. Materials. All materials, such as mounting material, tanning material, and preservatives may be purchased by the taxidermist tax exempt since he will charge tax on the finished product. He may provide his supplier with a resale certificate. See Rule 128 of these rules. (3-15-02)

041. FOOD, MEALS, OR DRINKS (RULE 041).
Sections 63-3612(2)(b), 63-3621(p), and 63-3622J, Idaho Code

01. In General. This rule covers the imposition of tax on sales of food, meals, or drinks by commercial establishments, college campuses, conventions, nonprofit organizations, private clubs, and similar organizations. (7-1-93)

02. Commercial Establishments. Sales tax is imposed on the amount paid for food, meals, or drinks furnished by any restaurant, cafeteria, eating house, hotel, drugstore, diner, club, or any other place or organization regardless of whether meals are regularly served to the public. (7-1-93)

03. Clubs and Organizations. Private clubs, country clubs, athletic clubs, fraternal, and other similar organizations are retailers of tangible personal property sold by them, even if they make sales only to members. Such organizations must obtain an Idaho seller’s permit and report and pay retail sales tax on all sales. Taxability of membership dues depends upon the nature of the club. See Rule 030 of these rules. Special rules apply to religious organizations. See Rule 086 of these rules. (3-15-02)

a. When an organization holds a function in its own quarters, maintains its own kitchen facilities, and sells tickets which include items such as meals, dancing, drinks, entertainment, speakers, and registration fees (convention), the charges may be separated and tax collected on meals, drinks, and admission fees when the ticket is sold. For example, an organization holds a dinner dance in its own building. It charges twenty dollars ($20) for dinner and dancing and twelve dollars ($12) for registration and speakers. Since the two (2) amounts are stated separately, tax is only imposed on twenty dollars ($20). The amount of the tax must also be stated separately. Sales of meals and the use of recreational facilities are taxable. Registration fees, speaker fees, and similar charges are not taxable. (4-2-08)

b. The organization holding the function or convention must obtain a seller’s permit and remit tax to the state. When the charges are not separated, the total price of the ticket is taxable. (7-1-93)

c. When an organization holds a function in facilities operated by a restaurant or motel and sells tickets for meals, drinks, and other services, no sales tax applies to these sales if the organization pays the restaurant or hotel sales tax on the meals and drinks furnished and all other services performed. The hotel, restaurant, or caterer will remit the tax to the state. (7-1-93)

04. Colleges, Universities, and Schools. A cafeteria operated by a state university, junior college district, public school district, or any other public body is treated the same as a cafeteria operated by a private enterprise. Purchases of food for resale are not taxable; meals sold are taxable. (7-1-93)
a. If a meal is paid for by cash or a meal ticket is sold to the student, tax is computed on the total sales price of the meal. If meals are sold as part of a room and board fee, the amount paid for board must be separated from the amount paid for the room. Tax is calculated and collected on that part of the total fee allocated to the purchase of meals. (7-1-93)

b. Sales of meals by public or private schools under the Federal School Lunch Program are exempted by Section 63-3622J, Idaho Code. (7-1-93)

05. Fraternities, Sororities, and Cooperative Living Group. Fraternities and sororities generally purchase and prepare food for their own consumption. The food is prepared and served in a cooperative manner by members of the fraternity or by employees hired by the group for this purpose. Purchases made by the fraternity or sorority are for consumptive use and subject to sales tax. There is no sale of meals to fraternity or sorority members and no sales tax imposed on any allocated charge for them whether stated separately or included as part of a lump sum charge for board and room.

a. If a concessionaire is retained by the fraternity or sorority to furnish meals, the concessionaire is a retailer engaged in the business of selling meals; food purchases are for resale and meals supplied by the concessionaire to members of the fraternity or sorority are subject to sales tax. (7-1-93)

b. If the fraternity or sorority regularly furnishes meals for a consideration to nonmembers, these meals become subject to tax and the fraternity or sorority must obtain an Idaho seller’s permit. (7-1-93)

c. Cooperative living groups are normally managed in much the same manner as fraternities and sororities. Food is purchased and meals are prepared and served by members of the group or their employees. The same conditions outlined above for fraternities and sororities apply to cooperative living groups. (4-11-06)

06. Boarding Houses. Sales of meals furnished by boarding houses are subject to tax, when they are charged separately. This applies whether or not the meals are served exclusively to regular boarders. Where no separate charge or specific amount is paid for meals furnished, but is included in the regular board and room charges, the boarding house or other place is not considered to be selling meals, but is the consumer of the items used in preparing such meals. (7-1-93)

07. Honor System Snack Sales. Honor system snack sales are those items of individually sized prepackaged snack foods, such as candy, gum, chips, cookies or crackers, which customers may purchase by depositing the purchase price into a collection receptacle. Displays containing these snacks are generally placed in work or office areas and are unattended. Customers are on their honor to pay the posted price for the article removed from the display. Purchases from these snack displays are subject to sales tax. (7-1-93)

a. Sales tax applies to the total sales. The posted price must include a statement that sales tax is included. (4-2-08)

b. The formula for computing the taxable amount is: TS/ (100% + TR) where TS is total sales and TR is the tax rate. (4-2-08)

08. Church Organizations. Special rules apply to religious organizations. See Rule 086 of these rules. (4-11-06)

09. Senior Citizens. Meals sold under programs that provide nutritional meals for the aging under Title III of the Older Americans Act, Public Law 109-365, are exempted from the sales tax by Section 63-3622J, Idaho Code. Organizations selling such meals must obtain an Idaho seller’s permit and collect sales tax when selling meals to buyers who are not senior citizens. (3-26-19)

10. Food or Beverage Tastings. If a participant must pay to participate in a food or beverage tasting, the charge to participate in the tasting is subject to sales tax. The provider of the samples does not owe a sales or use tax on its purchase or use of the product. (3-20-14)

11. Nontaxable Purchases by Establishments Selling Meals or Beverages. Persons who serve food,
meals, or drinks for a consideration may purchase tangible personal property without paying tax if the property is for resale to their customers, is included in the fee charged to the customer, and is directly consumed by the customer in such a way that it cannot be reused. A resale certificate must be provided to the vendor when the establishment purchases such items for resale. See Rule 128 of these rules. Examples of items which are purchased for resale and directly consumed by customers include:

a. Disposable containers, such as milkshake containers, paper or styrofoam cups and plates, to-go containers and sacks, pizza cartons, and chicken buckets. (7-1-93)
b. Disposable supplies included in the price of the meal or drink, such as drinking straws, stir sticks, paper napkins, paper placemats, and toothpicks. (7-1-93)
c. Candies, popcorn, drinks, or food, when included in the consideration paid for other food, meals, or drinks. (7-1-93)

12. **Taxable Purchases by Establishments Selling Meals or Beverages.** Tangible personal property which is not included in the fee charged to the customer and not directly consumed by the customer is subject to the tax when purchased by the restaurant, bar, food server, or similar establishment. Tangible personal property which is not directly consumed by the customer includes property that is nondisposable in nature or property that is depreciated in the books and records of the restaurant, bar, or similar establishment. Examples of taxable purchases include:

a. Wax paper, stretch wrap, foils, paper towels, garbage can liners, or other paper products consumed by the retailer, as well as linens, silverware, glassware, tablecloths, towels, and nondisposable napkins, furniture, fixtures, cookware, and menus. (7-1-93)
b. Any tangible personal property available to the general public, such as restroom supplies and matches. (7-1-93)

13. **Free Giveaways to Employees.** It is common practice for a retailer to give away prepared food and beverage, including full meals, to its employees free of charge. Giveaways of this nature normally trigger a use tax liability for the retailer calculated on the value of the items given away. However, if the retailer is in the business of selling prepared food and beverage, giveaways of prepared food and beverage to its employees are not taxable. Retailers that would qualify include restaurants and grocery stores with a deli or similar section that sells prepared food.

a. For purposes of this subsection, prepared food means food intended for human consumption that:

i. Is heated when given away; or (3-25-16)
ii. Consists of two (2) or more ingredients combined by the retailer and given away as a single item; or (3-25-16)
iii. Is customarily served with utensils. (3-25-16)

b. For purposes of this subsection, prepared beverage means any beverage intended for human consumption. (3-25-16)

**042. PRICE LABELS (RULE 042).**

Sales of price labels, stickers, pricing ink, pricing guns and shelf labels are considered to be property used and consumed by the store in the course of conducting its business activities and are subject to tax. Pricing labels which contain commodity information such as ingredients, nutritional information, or caloric information are not subject to tax, since the utility of the label does not end with the purchase of the product. (7-1-93)

**043. SALES PRICE OR PURCHASE PRICE DEFINED (RULE 043).**
01. **Sales Price and Purchase Price.** The term sales price and purchase price may be used interchangeably. Both mean the price paid by the customer or user to the seller including:

a. The cost of transporting goods to the seller. See Rule 061 of these rules. (3-20-04)

b. Manufacturer’s or importer’s excise tax. See Rule 060 of these rules. (3-20-04)

c. Services agreed to be rendered as part of the sale. (7-1-97)

d. Separately stated labor charges to produce or fabricate made to order goods. See Rule 029 of these rules. (3-20-04)

02. **Services Agreed to Be Rendered as a Part of the Sale.** The sales and use tax is computed on the sales price of a transaction. The term “sales price” is defined by Section 63-3613, Idaho Code, to include “services agreed to be rendered as a part of the sale.” The following items are among those that are part of the sales price and, therefore, may not be deducted before computation of the sales price. This is not intended to be an exclusive list of such items:

a. Any charges for any services to bring the subject of a sale to its finished state ready for delivery and in the condition specified by the buyer, including charges for assembly, fabrication, alteration, lubrication, engraving, monogramming, cleaning, or any other servicing, customizing or dealer preparation. (3-20-04)

b. Any charge based on the amount or frequency of a purchase, such as a small order charge or the nature of the item sold, such as a slow-moving charge for an item not frequently sold. (3-20-04)

c. Any commission or other form of compensation for the services of an agent, consultant, broker, or similar person. (3-20-04)

d. Any charges for warranties, service agreements, insurance coverage, or other services required by the vendor to be taken as a condition of the sale. If the sale could be consummated without the payment of these charges, the charges are not part of the sales price if separately stated. Also, see Rule 049 of these rules. (3-20-04)

e. Any fuel surcharges except those charges which the vendor can document are related only to delivery of the property to the end customer. (4-4-13)

f. Any environmental or disposal fee except those fees directly imposed by a governmental agency. (4-4-13)

03. **Charges Not Included.** Sales price does not include charges for interest, carrying charges, amounts charged for optional insurance on the property sold, or any financing charge. These various charges may be deducted from the total sales price if they are separately stated in the contract. In the absence of a separate statement, it will be presumed that the amount charged is part of the total sales price. (3-20-04)

04. **Gratuities.** When a gratuity is paid in addition to the price of a meal, no sales tax applies to the gratuity. A gratuity can be paid voluntarily by the customer or be required by the seller. A gratuity is also commonly known as a tip.

a. If a gratuity does not meet all of the following requirements, the gratuity will be subject to sales tax:

   i. A gratuity must be paid to the service provider of the meal as additional income to the base wages of the service provider; (3-29-12)

   ii. A gratuity must be separately stated on the receipt or be voluntarily paid by the customer; and (3-29-12)
iii. A gratuity must not be used to avoid sales tax on the actual price of the meal. (3-29-12)

b. For the purposes of Subsection 043.04 of this rule, the following definitions apply: (3-29-12)
i. Meal. Food or drink prepared for or provided to a customer. (3-29-12)

ii. Service provider. An individual directly involved in preparing or providing a meal to a customer. This includes, but is not limited to, the server, the busser, the cook and the bartender. This does not include individuals who manage or own the company if they are not directly involved in preparing and providing a meal. (3-29-12)

05. Service Charges. Amounts designated as service charges, added to the price of meals or drinks, are a part of the selling price of the meals or drinks and accordingly, must be included in the purchase price subject to tax, even though such service charges are made in lieu of tips and paid over by the retailer to his employees. (7-1-93)

044. TRADE-INS, TRADE-DOWNS AND BARTER (RULE 044).

Section 63-3613, Idaho Code

01. Trade-Ins. A trade-in is the amount allowed by a retailer on merchandise accepted as payment for other merchandise. Merchandise is tangible personal property which is, or becomes, part of an inventory held for resale. (7-1-93)

02. Trade-In Allowance. When a retailer sells merchandise from his resale inventory and lets the customer trade in other goods which the retailer places in his resale inventory, the taxable sales price of the merchandise may be reduced by the amount allowed as trade-in. To qualify for the trade-in allowance, the property traded in must be consideration delivered by the buyer to the seller. The sales documents, executed not later than the time of sale, must identify the tangible personal property being purchased and the trade-in property being delivered to the seller. The delivery of the trade-in and the purchase must be components of a single transaction. (4-4-13)

a. Example: A customer buys a car from a dealer for four thousand dollars ($4,000). A trade-in of one thousand five hundred dollars ($1,500) is allowed for the customer's used car. Tax is charged on two thousand five hundred dollars ($2,500). (4-4-13)

03. Trade-Downs. A trade-down is a transaction in which a vendor accepts a trade-in from the customer that equals or exceeds the value of the merchandise sold to the customer. The taxable sales price is reduced to zero (0) and no sales tax is due on the transaction. (4-4-13)

04. Disallowed Trade-In Allowances. (3-28-18)

a. Private Party Transactions. A trade-in allowance is not allowed on transactions between individuals because the trade-in property does not become a part of an inventory held for resale. (3-28-18)

i. Example: Two (2) individuals exchange cars of equal value. No money, property, service, or consideration other than the cars are exchanged. Both parties must pay tax on the fair market value of the vehicle received in the barter. (7-1-93)

ii. Example: Two (2) individuals, neither of whom are car dealers, exchange cars of different values. Tom’s vehicle, which is worth ten thousand dollars ($10,000), is transferred to Bill. Bill’s car, which is worth eight thousand dollars ($8,000), is transferred to Tom. Bill pays Tom two thousand dollars ($2,000). The trade-in allowance is not applicable because neither car is merchandise. Tom pays use tax on eight thousand dollars ($8,000); Bill pays use tax on ten thousand dollars ($10,000). (7-1-93)

b. Manufactured Homes (Mobile Homes), New Park Model Recreational Vehicles, and Modular Buildings. Trade-in allowances are not allowed on the sale of manufactured homes, new park model recreational vehicles, and modular buildings. See IDAPA 35.01.02.048 of these rules. (3-28-18)

05. Insurance Settlements. An insurance settlement does not qualify as a trade-in. Example: Tom is
involved in a car accident. His insurance company determines the damage exceeds the value of the car and settles with Tom on that basis. If Tom buys another car, he must pay sales tax on the entire sales price of the replacement car.

(3-30-01)

06. Core Charges. Parts for cars, trucks, and other types of equipment are often sold with an added core charge. When the used core is returned, the core charge is refunded. This is essentially a trade-in of a used part for a new part. Since the seller cannot be certain that the customer will return a reusable core, such core charges are subject to sales tax. The tax on the core charge will be refunded by the seller at the time credit for the core charge is allowed.

(7-1-93)

07. Trade-In for Rental/Lease Property. When tangible personal property is traded in as part payment for the rental or lease of other tangible personal property, sales tax applies to all payments made after the value of the trade-in property has been depleted and the lessor actually begins charging for the lease or rental. The methods of applying the trade-in value to the lease are:

a. The trade-in value may be subtracted from the value of the leased or rented property, thereby reducing the monthly payments and the sales tax due on those payments.

b. The trade-in value may be subtracted from the initial lease payments, with no sales tax due on those payments until it is used up.

c. A combination of the two (2) methods, above.

d. Example, a lessor leases a car for thirty-six (36) months at two hundred fifty dollars ($250) per month. The value on which the lease payments are based is ten thousand dollars ($10,000). The customer trades in a car worth two thousand dollars ($2,000).

i. Alternative 1: The customer and lessor agree to reduce the value on which the lease is based by two thousand dollars ($2,000) and reduce the payments to only two hundred dollars ($200) per month for thirty-six (36) months. Sales tax is due on each two hundred dollar ($200) payment.

ii. Alternative 2: The customer and lessor agree to apply the two thousand dollar ($2,000) trade-in allowance against the two hundred fifty dollar ($250) per month payments for the first eight (8) months of the lease. Sales tax is not due until the trade-in value is used up and the lessee is required to begin making monthly payments.

iii. Alternative 3: The customer and lessor agree to combine the two methods and apply one thousand dollars ($1,000) against the value on which the lease is based and use the remaining one thousand dollars ($1,000) against the monthly payments, reducing the sales tax liability accordingly.

(7-1-93)

08. Rental/Lease Property Traded-In. When a person disposes of tangible personal property that is leased and assigns his right to purchase the leased property to the retailer, no trade-in allowance is given for the amount of the residual buyout paid by the retailer. However, if the residual buyout amount which the lessee would pay to purchase the property is less than the amount that would be allowed by the retailer as a trade-in if the lessee had actually owned the vehicle, then the sales price subject to tax may be reduced by the difference between the total trade-in amount and residual buyout.

a. Example: A person is the lessee of an automobile. Near the end of the lease term, the lessee enters into an agreement to purchase a new vehicle from an automobile dealer. The residual buyout amount for the leased vehicle is ten thousand dollars ($10,000). The retailer would allow nine thousand dollars ($9,000) as a trade-in amount if the lessee actually owned the vehicle. Since the amount the automobile dealer is willing to allow as a trade-in is not greater than the residual buyout amount, there is no reduction in the sales price subject to sales tax.

(3-30-01)

b. Example: A lessee trades in his leased automobile for a new vehicle. The residual amount is ten thousand dollars ($10,000). The automobile dealer allows twelve thousand dollars ($12,000) as a trade. In this case, the sales price of the new vehicle is reduced by the difference between the residual amount and the total trade-in, or
two thousand dollars ($2,000). (3-30-01)

045. RESCINDED SALE, REFUNDS OF PURCHASE PRICE (RULE 045).

01. A Rescinded Sale. A transaction in which the seller and buyer place each other in the same positions they were in prior to entering into any sales taxable transaction; and a transaction which meets the rules of the Uniform Commercial Code for revoking acceptance in whole or in part. See Section 28-2-608, Idaho Code. (7-1-93)

02. Refund of Remitted Sales Tax. Where a seller has collected and remitted tax on the sale and has refunded it to the buyer on rescission, the Commission will refund or credit the seller accordingly. The burden of proving a rescission is on the person claiming the refund or credit on a rescinded sale. See Rule 117 of these rules. (7-1-93)

03. Amount Refunded Reduced. If the seller reduces the amount refunded to the buyer on returned merchandise to recover depreciation, buyer usage or other costs, the amount of the reduction is considered a charge by the seller to the buyer for use of the tangible personal property and is subject to sales tax in the same manner as a rental. The amount of sales tax refunded to the buyer must be reduced accordingly. (7-1-93)

04. Restocking Charge. If a seller places a restocking charge on returned merchandise, the charge is not taxable. A restocking charge is a fee charged by a seller to cover his time and expense in returning goods to resale inventory when the buyer has not used the goods in a way that decreases their value. (7-1-93)

05. Required to Buy Other Property. If the customer, in order to retain the refund, is required to buy other property at a higher price, there is no refund and the amount credited on the subsequent purchase is treated as a trade-in. The seller must charge the customer sales tax on the difference between the amount credited and the sales price of the other property. (7-1-93)

06. Documentation. In order to obtain refund credit, the seller must keep adequate documents to support his claim for refund or adjustment. (7-1-93)

046. COATINGS ON TANGIBLE PERSONAL PROPERTY (RULE 046).

01. Coatings Generally. A coating is a substance covering the surface of tangible personal property usually intended to improve the durability or aesthetic appeal of the tangible personal property to which it is applied. There are a variety of coatings including paint, powder coating, chrome plating, spray-on bedliners, and anodized coatings. Effective July 1, 2014, this rule applies to all types of coatings and it is intended that such coatings receive the same tax treatment. This rule does not apply to coatings applied directly to real property such as paint applied to the walls of a building. (3-20-14)

02. Coatings are Tangible Personal Property. The materials applied to tangible personal property to produce a coating are tangible personal property both before and after the application process. Therefore, unless an exemption applies, the sale of a coating is a taxable sale. (3-20-14)

03. Material Charges. Unless an exemption applies, the materials portion of a sale of a coating is taxable. If the seller is unable to measure the exact amount of material used, a reasonable method of estimation is acceptable. (3-20-14)

04. Nontaxable Labor Charges. In any of the following circumstances, the labor to apply a coating will be nontaxable labor:

a. A previous coating is removed and replaced with a new coating, regardless of any differences in quality between the two (2) coatings. (3-20-14)

b. A coating is applied to used tangible personal property on top of an already existing coating. (3-20-14)
c. Example 1: A vendor applies a spray-on bedliner to an individual’s truck bed. The truck bed surface is already coated with automotive paint. The materials charge is taxable, but the labor is not taxable. (3-20-14)

05. Taxable Labor Charges. In any of the following circumstances, the labor to apply a coating will be taxable labor:

a. A coating is applied to new tangible personal property, regardless of whether the tangible personal property already has a coating. (3-20-14)

b. A coating is applied to new or used tangible personal property that has never been previously coated. (3-20-14)

06. Separate Statement. For circumstances under which the labor portion of the transaction is exempt, both materials and labor must be separately stated on the customer’s billing statement. If there is no separate statement of materials and labor, the entire transaction is subject to sales tax. (3-20-14)

07. Used Tangible Personal Property. For purposes of this rule, tangible personal property is used if the tangible personal property has been previously put to the use for which it was intended. If a contractor hires someone to apply a coating to tangible personal property that the contractor intends to incorporate into real property, the tangible personal property has not been put to the use for which it was intended and is considered new tangible personal property.

a. Example 1: A contractor hires someone to apply a coating to metal ducting. The contractor intends to incorporate the metal ducts into a ventilation system in a building. Since the ducting has not yet been put to the use for which it was intended, it is not used tangible personal property and all labor and material charges will be taxable. (3-20-14)

b. Example 2: A person buys a piece of furniture for use in the home. The person uses the drawers for a year before hiring someone to apply a stain to the drawers. At that point, the drawers are used tangible personal property. If the drawers had a previous coating of any kind, the labor to apply the stain will be nontaxable. If the drawers had no previous coating, the labor to apply the stain will be taxable. (3-20-14)

c. Example 3: A company buys equipment from a supplier. Before the equipment is ever put to the use for which it was intended, the company takes the equipment to be coated by a different supplier. Since the equipment has not yet been put to the use for which it was intended, it is new tangible personal property. Regardless of whether the equipment already has a coating, both the materials and labor to apply the new coating are taxable. (3-20-14)

08. Tangible Personal Property Held for Resale. For new or used tangible personal property held by a seller as part of its inventory, any labor costs incurred to apply a coating to the tangible personal property and charged to the end consumer are taxable services agreed to be rendered as part of the sale of the tangible personal property. The labor charges are exempt only if the sale of the tangible personal property is exempt. However, if the seller pays a third party to apply a coating to tangible personal property in its inventory, the seller may claim a resale exemption on the transaction.

a. Example 1: A dealership has a used truck in its inventory. A customer will purchase the truck on the condition that the dealership will apply a spray-on bedliner. The dealership hires another company to apply the spray-on bedliner and pays three hundred dollars ($300) for the job (split evenly between materials and labor). The dealership fills out a resale exemption certificate for the spray-on bedliner company. No tax should be charged on this transaction. The dealership then charges its customer five hundred dollars ($500) (split evenly between materials and labor) and separately states these charges from the sales price of the truck. The materials charge is a taxable sale of tangible personal property. The labor charge is a taxable service agreed to be rendered as part of the sale of the truck. The dealership must charge tax on the entire five hundred dollars ($500). (3-20-14)

09. Exemptions. Like any sale of tangible personal property, if the customer provides a valid exemption certificate to the seller claiming an exemption that applies to the transaction, the seller has no obligation to collect sales tax on the transaction. The seller must maintain a copy of the exemption certificate on file. See Rule 128
Section 047

047. OUTFITTERS, GUIDES, AND LIKE OPERATIONS (RULE 047).

01. In General. Fees charged for services performed by outfitters, guides, dude ranches, hunting and fishing lodges, or camps are charges for the use of, or privilege of using, tangible personal property or other facilities for recreation. Fees charged by outfitters and like operations for providing outdoor recreational services are subject to sales tax. (7-1-93)

a. An outfitter is any person who holds himself out to the public for hire to conduct outdoor recreational activities, including: hunting animals or birds; float or power boating of rivers, lakes, and streams; fishing; hiking; skiing; hazardous desert or mountain excursions; and other recreational activities. (7-1-93)

b. A guide is a person employed by an outfitter to furnish personal services for the conduct of outdoor recreational activities. (7-1-93)

02. Services Performed in More Than One State. When an outfitter’s service to a client takes place in more than one (1) state, and the customer receives an invoice from the outfitter that separately displays the Idaho portion of the charges from those of the other states, only the Idaho portion is subject to Idaho sales tax. (7-1-93)

a. When an outfitter’s service to a client takes place in more than one (1) state and the outfitter fails to separately state the Idaho portion of the charges from those of other states, sales tax must be charged on the total amount. (7-1-93)

03. Government Use Fee. Land and water use fees imposed on outfitters, such as the three percent (3%) fee paid to the U.S. Forest Service, are not subject to the sales tax when separately stated on the customer’s invoice. (6-23-94)

04. Prepaid Travel Expense. When an outfitter’s invoice separately states prepaid travel expenses such as lodging, and the outfitter has paid sales tax, when applicable, to vendors providing the travel services, the outfitter will not be required to tax that portion of his bill to the customer. Example: An outfitter’s bill to a client for a seven (7) day hunt and prepaid travel expenses should read:

<table>
<thead>
<tr>
<th>SEVEN-DAY HUNT</th>
<th>FEE</th>
<th>IDAHO SALES TAX</th>
</tr>
</thead>
<tbody>
<tr>
<td>Airline Ticket (New York/Boise)</td>
<td>$500</td>
<td>$0.00 (none)</td>
</tr>
<tr>
<td>1 Night Lodging, Motel X Boise (Outfitter has paid tax to Motel X)</td>
<td>$50</td>
<td>$0.00 (none)</td>
</tr>
<tr>
<td>7 Day Hunt</td>
<td>$1,500</td>
<td>$75.00 (on 100%)</td>
</tr>
</tbody>
</table>

(4-11-06)

05. Lodging. If an outfitter provides overnight lodging for a client at a facility operated by the outfitter, charges for the lodging are subject to sales tax and hotel/motel taxes as provided by IDAPA 35.01.06, “Hotel/Motel Room and Campground Sales Tax Administrative Rules,” Rule 011. (6-23-94)

06. Equipment Rental. When an outfitter rents equipment such as ground sheets, sleeping bags, rain gear, boots and dry bags, to his client for use during the recreational activity, sales tax must be charged on the equipment rental. (7-1-93)

07. Game Processing, Packing, and Taxidermy. When an outfitter bills a client for game processing, packing, or taxidermy services, sales tax must be charged on the entire fee to the client. The outfitter will provide the vendor of the services with a properly completed resale certificate. (7-1-93)

08. Prepurchased Hunting and Fishing Licenses. When an outfitter purchases a hunting or fishing license for a client and separately states the fee on the billing to the client, no sales tax applies to the license fee.
09. Travel Agency Services.

a. When outfitter services are purchased by a client through a travel agency and the outfitter bills the
   travel agency for the fee, the amount billed to the travel agency is subject to tax. In this case, the agency is acting
   as an agent for the client and the additional fee charged by the agency to the client is not subject to the sales tax.

b. When outfitter services are arranged for a client by a travel agency but the outfitter bills the client,
   the amount billed to the client is subject to tax. In this case, the agency is acting as the agent of the outfitter and the
   fee paid to the travel agency by the outfitter cannot be deducted from the measure of the taxable sale. Even if the
   outfitter separately states the travel agency fee on his billing to the client, he must charge tax on the total amount.

c. When an outfitter, Outfitter X, books a client and hires a second outfitter, Outfitter Y, to provide the
   services to the client, Outfitter X must charge the client tax on the full fee. Outfitter Y must obtain a resale certificate
   from Outfitter X. If this form is not obtained, Outfitter Y must charge sales tax on the services provided to Outfitter
   X.

a. Outfitters must pay tax when purchasing equipment and supplies for use in their business.
   Examples include boats, rafts, oars, motors, horses, tack, llamas, transportation equipment, camp gear, cooking gear,
   animal feed, brochures, and promotional give-away items.

b. When an outfitter maintains an inventory of gear, such as ground sheets, sleeping bags, boots, rain
   gear, and dry bags, which is exclusively held for rental to clients, the outfitter may purchase the gear without tax in
   the manner previously described. The outfitter may purchase gear without paying tax only if the gear is rented to
   clients as a separate line item on the invoice to the client and sales tax is charged to the client. If gear is provided to
   clients as a part of the outfitter package fee, the outfitter must pay tax when purchasing the gear.

c. When an outfitter arranges travel accommodations for his client and pays the vendors of lodging,
   and restaurant or catered meals, he must pay sales tax, as well as other applicable hotel/motel taxes, to the vendors.
   When an outfitter purchases food that he will prepare and furnish to clients, no sales tax applies if the outfitter
   provides a resale certificate. The outfitter must then collect a tax from his client on the sale of the furnished food.
   Alternatively, an outfitter may buy food and pay tax on the purchase. Under this alternative, the outfitter will include
   the cost of the food in his nontaxable charges to his client.

d. When an outfitter purchases the services of a taxidermist or meat processor on behalf of his client,
   he should not pay tax to the vendor by providing the vendor with a properly completed resale certificate. The outfitter
   must charge tax to his client on this fee.

    November 25, 2002, prohibits the states from imposing tax on any vessel or other water craft, or its passengers or
    crew if the vessel or water craft is operating on any navigable waters. The Tax Commission interprets this statute to
    mean that states are prohibited from taxing sales of rafting and jet boating trips if they occur on navigable waters. See
    33 U.S.C. Section 5. If Congress repeals the preemption sales of rafting trips will become taxable on the effective
    date of the repeal. This interpretation is subject to judicial review and could change, depending on rulings from state
    or federal courts.

048. MANUFACTURED HOMES (MOBILE HOMES) AND MODULAR BUILDINGS (RULE 048).

01. New Manufactured Home. When a manufactured home is sold at retail for the first time, it is
    subject to sales tax on fifty-five percent (55%) of the purchase price. The purchase price of a new manufactured home
    shall include all component parts. Set up and transportation fees charged by the dealer shall be included in the
    purchase price. No trade-in allowance is permitted.
02. Modular Building. When a modular building is sold at retail, it is subject to sales tax on fifty-five percent (55%) of the purchase price including all component parts. No trade-in allowance is permitted. 

03. Used Manufactured Home. Only the sale of a new manufactured home is subject to sales tax. After the first sale at retail of a manufactured home, any subsequent retail sale of the unit shall be a sale of a used manufactured home. The sale of a used manufactured home is exempt from tax, whether or not the original retail sale was subject to sales taxes and without regard to whether the sale is made for use within or without Idaho or whether sold by a dealer. A dealer who sells both new and used manufactured homes must maintain adequate records to establish which sales are taxable and which are exempt for sales tax audit purposes.

04. Sale of Office Trailer. An office trailer does not qualify as a manufactured home, because it is not designed for use as a dwelling, nor does it qualify as a modular building, because it is not designed to be affixed to real property. When an office trailer is sold at retail, it is subject to sales tax on one hundred percent (100%) of the purchase price, including all furniture, fixtures, and appliances, whether the office trailer is new or used.

05. Component Parts. Component parts include items incorporated by the manufacturer which remain unchanged at the time of the original retail sale, such as sinks, cabinetry, closet doors, central heating and cooling, garbage disposals, water heaters, and carpeting. Refrigerators, ranges, draperies, and wood burning stoves placed in the unit by the manufacturer are considered to be component parts.

06. Noncomponent Parts. All fixtures, furniture, furnishings, appliances, and attachments not incorporated as a component part of a new modular building or manufactured home shall be subject to tax separately and distinctly from the sales price of such modular building or manufactured home. Such items shall be separately stated on the sales invoice and tax shall be assessed on the separately stated items on their full retail value.

07. Repairs. Repairs to or renovations of used modular buildings or manufactured homes are repairs to real property, whether or not the unit is affixed to real property and whether or not the unit is held for resale. Materials used to repair or renovate a used modular building or manufactured home shall be subject to sales tax at the time of purchase or use tax at the time of use.

049. WARRANTIES AND SERVICE AGREEMENTS (RULE 049).
Section 63-3613, Idaho Code

01. Warranties and Service Agreements. Warranties or service agreements may be furnished by the manufacturer or seller upon the sale, lease, or rental of tangible personal property by any of the following means:

a. Including the price of the warranty or service agreement as part of the sales, lease, or rental price of the tangible personal property.

b. Separately stating the price of the warranty or service agreement, but requiring the purchase of the warranty or service agreement as a condition of the sale, lease, or rental of tangible personal property.

c. Allowing the purchaser the option of purchasing a separately stated warranty or service agreement.

02. Separate Optional Contract. Service agreements may also be offered as a separate optional contract on tangible personal property not owned or sold by the seller of the service agreement.

03. Services Agreed to be Rendered. Services agreed to be rendered as a condition of a warranty or service agreement may be performed by the seller of the warranty or service agreement or by any dealer or repair facility that the seller may appoint to perform the repair or service.

04. Non-Optional Warranty or Service Agreement. If the warranty or service agreement is required as a condition of the sale, lease, or rental of tangible personal property, the gross sales price is subject to the sales tax whether or not the charge for the warranty or service agreement is separately stated from the sales price of the
tangible personal property.

a. When parts are replaced by the seller of the warranty or service agreement, no tax is imposed on the purchase of the parts by the seller. The parts replaced are considered to have been taxed at the time the warranty or service agreement was sold. (7-1-93)

b. When a third-party dealer or repair facility performs the repair, the seller of the warranty or service agreement may provide the repairer with a resale certificate. See Rule 128 of these rules. (7-1-93)

05. Optional Warranty or Service Agreement. If the warranty or service agreement is optional to the purchaser, no sales tax shall be charged on the sale of the warranty or service agreement. A taxable transaction does occur with regard to the seller of the warranty or service agreement upon performance of the repair. (7-1-93)

a. If the seller of the warranty or service agreement performs the repair and purchases parts for the repair or uses parts from his inventory, he will pay sales or use tax upon the parts when they are applied by him. (7-1-93)

b. When a third-party dealer or repair facility performs the repair and bills the seller of the warranty or service agreement, the third-party dealer or repair facility will separately state and charge sales tax on the parts to the seller of the warranty or service agreement. (7-1-93)

c. The seller of the warranty or service agreement will pay sales or use tax on parts for the repairs, whether or not the purchaser qualifies for any exemption under the Idaho Sales and Use Tax Act or rules. (7-1-93)

06. Parts in Addition to Warranty Fee. Regardless of any of the above, if the seller of the warranty or service agreement bills the purchaser for parts over and above the agreed upon warranty or service agreement fee, sales tax shall be charged to the purchaser on the sales price of the parts. (7-1-93)

07. Replacement Parts and Maintenance Supplies. As used in this rule, a warranty or service agreement applies to replacement parts and maintenance supplies that become a part of the tangible personal property that is being serviced. The sale of other tangible personal property, such as paper for a copy machine, must be separately stated from any warranty or service agreement fee and sales tax charged to the purchaser. (7-1-93)

08. Cross-Reference.

a. See Section 037.03 of these rules. Sales of Aircraft Repair Parts to Nonresidents. (4-11-19)

050. VETERINARIANS AND VETERINARY SUPPLIES (RULE 050).

Sections 63-3622 & 63-3622D, Idaho Code

01. In General. Fees charged by a veterinarian for professional services are not subject to sales or use taxes. Tangible personal property used or consumed by a veterinarian or sold by a veterinarian is taxable in accordance with the provisions of this rule. (3-25-16)

02. Drugs and Other Supplies. Drugs and other supplies used by a veterinarian while treating animal patients are tangible personal property consumed by the veterinarian in the course of providing services. If the veterinarian has not paid sales tax on his purchase of the drugs or supplies, a use tax is owed by the veterinarian. (3-25-16)

03. Services Provided to Exempt Customers. The veterinarian’s use of drugs is taxable even though he may be providing services to a cattle rancher, dairymen or other producer because the drugs are consumed by the veterinarian and not by the producer. Since the production exemption is available only to persons engaged in a production business, the veterinarian does not benefit from the exemption. (3-25-16)

04. Retail Sales of Drugs and Supplies. The sale of drugs and veterinary supplies by a veterinarian is a retail sale. Veterinarians making such sales must obtain a seller’s permit and must charge and remit the sales tax on such sales. However, the sale of drugs and veterinary supplies to a person operating a stock, dairy, poultry, fish, fur, or
05. Equipment and Supplies. Tangible personal property purchased or acquired by the veterinarian for the operation of his business including professional instruments and supplies, and office furnishings and equipment are taxable. (7-1-93)

051. DISCOUNTS, COUPONS, REBATES, AND GIFT CERTIFICATES (RULE 051).

01. Adjustments That Apply After Tax Calculation. Tax must be charged before deducting the following: (2-18-02)

a. Cash discounts. Sales tax must be computed on the full amount of the purchase price before the cash discount is subtracted. When an invoice or other billing document states that a discount will be allowed if payment is made before a certain date, then the discount is presumed to be a cash discount. Discounts allowed on payments received after the stated date are presumed to be cash discounts unless proven to the contrary by clear and convincing evidence. (7-1-93)

b. Manufacturer’s rebates. Except as provided by Subsection 051.02 of this rule, sales tax must be computed on the full amount of the purchase price without regard to the manufacturer’s rebate. Any rebate received by the purchaser from the manufacturer, distributor, or any person other than the retailer will not reduce the retail sales price subject to tax. Rebates paid by a retailer to the consumer will also be included in the price subject to sales tax if the retailer has been reimbursed by a third party, such as the manufacturer. (2-18-02)

c. Manufacturer’s discount coupons. Sales tax must be computed on the full amount of the purchase price before subtracting the coupon amount. This includes coupons issued by a manufacturer allowing the purchaser to buy one item and get a second item free if the retailer will be reimbursed by the manufacturer. (7-1-98)

d. Food Stamps and WIC. Purchases of food with coupons issued under the Federal Food Stamp Program or food checks issued by the Federal Special Supplemental Food Program for Women, Infants, and Children, (WIC), are exempt from sales or use tax. When a purchaser uses manufacturer’s discount coupons along with food stamps or WIC checks to purchase food items that qualify under these programs, the discount value of the coupon is subject to sales tax. For example, a food stamp recipient purchases fifteen dollars ($15) worth of eligible food, surrenders manufacturer’s discount coupons valued at two dollars ($2), and pays with thirteen dollars ($13) in food stamps. Sales tax is due on the two dollar ($2) discounted amount. The purchaser may not use food stamps or WIC checks to pay sales tax due. (7-1-98)

02. Adjustments That Apply Before Tax Calculation. Tax is charged after the deduction of the following: (2-18-02)

a. Trade discounts. A trade discount is a reduction from the posted or listed price offered by a retailer which is not an inducement for prompt payment and which, when applied to the posted or listed price, establishes the true selling price to be paid by the purchaser. (7-1-93)

b. Retailer’s rebates. A retailer’s rebate is an amount of money or property paid by a retailer to a purchaser which is conditioned upon the recipient making a purchase from the retailer. However, if a retailer is reimbursed by a manufacturer or other third party, the transaction is not a retailer’s rebate and the rebate amount is included in the sales price subject to sales tax. This would be the case when a purchaser sends the rebate claim to the retailer, the retailer sends the rebate amount to the purchaser and the manufacturer reimburses the retailer. (2-18-02)

c. Retailer discount coupons. Retailer discount coupons are coupons issued by a retailer which entitle the holder to purchase the issuing retailer’s products at less than the posted or listed retail price. (7-1-93)

d. Manufacturer’s motor vehicle rebates. Effective July 1, 1990, a manufacturer’s rebate offered to a purchaser of a motor vehicle may be deducted from the purchase price of the vehicle before computing the tax IF the rebate is used to reduce the retail sales price of the vehicle, or is used as a down payment on the purchase. The dealer’s customer invoice must show the manufacturer rebate as a deduction to, or down payment on, the purchase price.
price of the vehicle. Only manufacturer rebates offered on motor vehicles qualify for the exclusion from tax. Manufacturer rebates offered on trailers, off-highway equipment, and other property will be treated as discussed in Subsection 051.01.b. of this rule. (7-1-96)

03. **Coupon Books.**

   a. The sale of a coupon book that contains coupons offering discounts is deemed to be the sale of an intangible and is therefore not taxable. (3-30-07)

   b. When the purchaser of a coupon book redeems one (1) of the coupons, the discount allowed by the coupon is not included in the purchase price subject to tax if the retailer is not reimbursed by a manufacturer or other third party. (3-30-07)

04. **Donated Goods.** The donor is the consumer of donated goods and must pay sales or use tax on the purchase price of the goods. (7-1-98)

05. **Gift Certificates.** A gift certificate purchased from a vendor entitles a recipient to tangible personal property or services when presented to the vendor. The purchase of a gift certificate is not a taxable transaction. When the gift certificate is presented for redemption a sale is consummated. If the sale is a transfer of tangible personal property, the vendor must collect sales tax at the time of sale. Tax applies to the purchase price of the tangible personal property, irrespective of any cash refunded on any difference between the face value of the gift certificate and the purchase price. If the sale is for services not subject to tax under the Sales Tax Act, the vendor will not collect sales tax. (7-1-93)

06. **Buy One Get One Free Discounts.** If a retailer offers a “buy one get one free” discount in which the buyer purchases an item and receives another item of the same kind at no additional charge, the price subject to tax is the actual price paid after the discount is taken. Use tax is not applicable to the item sold at no charge; however, if a manufacturer’s discount allows the purchaser to receive a free item for which the retailer will be reimbursed by the manufacturer the price subject to tax is the full amount before the discount is calculated. (3-30-07)

07. **Complimentary Gift With Purchase of an Item.**

   a. If a retailer offers a complimentary item to a customer at the time of, and in connection with, the sale of tangible personal property, the gift is considered a part of the sale. The item given away is deemed to be purchased for resale by the retailer; however, if the sale is of an item exempt from tax and the sale of the gift item would have been taxable, the retailer is responsible for use tax on the gift. This subsection applies only to sales of tangible personal property. (3-30-07)

   i. Example: A retailer advertises that every purchaser of a refrigerator will receive a bike at no additional charge. Since both the bike and the refrigerator were purchased for resale, the retailer would not owe tax when it purchases either. When it sells the bike together with the refrigerator, the amount subject to sales tax is the sales price of the refrigerator. (3-30-07)

   ii. Example: A retailer offers to give a free coffee mug to anyone who purchases fifteen (15) gallons of gas. Since the sale of the gasoline is exempt pursuant to Section 63-3622C, Idaho Code, the retailer would not charge any tax to the purchaser. The retailer must pay use tax on its purchase price of the coffee mug. (3-30-07)

   b. If a retailer offers to give away a promotional item to anyone with no purchase required, then the retailer did not purchase the promotional item for resale. The retailer must pay sales or use tax on its purchase price of the promotional items given away. (3-30-07)

   c. This rule applies only to items given away by sellers of tangible personal property. See Rule 028 of these rules for items given away by hotels and motels. See Rule 041 of these rules for items given away by restaurants. (3-30-07)

052. **SALE OF TANGIBLE PERSONAL PROPERTY RELATING TO FUNERAL SERVICES (RULE 052).**
01. **In General.** The sale of tangible personal property relating to funeral services by a licensed funeral establishment is exempt from tax. (7-1-99)

02. **Sales by Licensed Funeral Directors.** The exemption applies only when, at the time of sale, the seller is a person holding a valid funeral director’s license issued pursuant to the authority of Title 54, Chapter 11, Idaho Code. A sale made by any seller not so licensed is not exempt under this provision. For example, a casket sold by a licensed funeral director as part of a funeral service is exempt. The funeral director’s purchase of the casket is a purchase for resale and, therefore, excluded from the tax. The purchase of a memorial marker is not an integral part of the funeral service. Accordingly, it is not included within the exemption for tangible personal property related to a funeral service. The purchase of a memorial marker, therefore, is a taxable transaction regardless of whether it is sold by a licensed funeral director or by another. Sales of tombstones and grave markers, which are embedded in the sod or set on foundations, are subject to tax. The retail selling price includes the charge for cutting, shaping, polishing and lettering. (7-1-93)

03. **Purchases by Licensed Funeral Directors.** The exemption does not include the sales to and purchases by funeral directors of equipment and supplies used and consumed by funeral directors in the course of providing funeral services. The funeral director’s purchase of equipment and supplies used for embalming and preparing bodies for burial and all other tangible personal property used or consumed by the funeral director in the course of his business operations to which title does not pass from the funeral director is taxable. (7-1-99)

04. **Caskets, Vaults, and Burial Receptacles.** Caskets, vaults and burial receptacles are exempt when sold by a licensed funeral director as a part of funeral services, even though they may be improvements to real property. The funeral director is not a person engaged in improving real property within the meaning of Section 63-3609(a), Idaho Code; and, therefore, his purchase of these items is not subject to tax. However, the construction of a building for use as a mausoleum is an improvement to real property and the sale or use of the materials for the construction of the mausoleum creates a taxable incident and shall be generally taxed in the same manner as other persons improving real property. See Rule 012 of these rules. (7-1-99)

05. **Use Tax.** When licensed funeral directors purchase equipment and supplies from suppliers who do not collect and remit Idaho sales tax, the funeral directors will be required to report and remit use tax on their taxable purchases. (7-1-93)

06. **Documenting Purchases for Resale.** Funeral directors purchasing tangible personal property for resale will be required to document the purchase for resale by providing their seller with a resale certificate. See Rule 128 of these rules. The purchase by the funeral director of such items as caskets and special clothing is a purchase for resale, even though the sale of the same property by the funeral director is exempt. (3-15-02)

07. **Seller's Permit Required.** A funeral director must apply for and maintain a valid seller’s permit. The seller’s permit number and sales tax returns shall be used to report use tax on those items which are subject to use tax. The funeral director should also report sales tax on the isolated retail sales of tangible personal property which may be made but which are not related to the providing of any funeral service. (7-1-93)

053. **FEES CHARGED FOR FAX SERVICES (RULE 053).**

01. **Sending a Fax.** A fee charged for sending a fax is a fee for a service and is, therefore, not subject to sales tax. (7-1-93)

02. **Receiving a Fax.** A fee charged by a print shop, hotel, or other retailer to a person receiving a fax is similar to a fee charged for a photocopy and is a taxable sale of tangible personal property. (7-1-93)

054. **PERSONS ENGAGED IN PRINTING (RULE 054).**

01. **Private Printing Plants.** Persons operating private printing plants in conjunction with their principal business must pay sales or use tax on the purchase of equipment and supplies used to produce display signs, advertising brochures, and other materials for their own consumption. (7-1-97)
02. **Printing upon Special Order.** Persons primarily engaged in the printing of tangible personal property upon special order for a consideration may purchase equipment and supplies directly used to produce such property exempt from sales or use tax. (7-1-93)

   a. The sale of typography, art work, photoengraving, electros, mats, stereotypes, hand or machine composition, lithographic plates or negatives, electrotypes, etc., to a person primarily engaged in the printing of tangible personal property for a consideration, and to be used directly by such person shall be deemed essentially sales of service or exempt materials and not taxable. (7-1-93)

   b. When purchasing goods exempt from tax, the printer must provide the seller with a properly completed exemption certificate. See Rule 128 of these rules. (3-15-02)

03. **Sales by Persons Engaged in Printing.** Fees charged to ultimate consumers for printing of tangible personal property upon special order are taxable. (7-1-97)

   a. Printing of tangible personal property shall include imprinting and all processes or operations connected with the preparation of paper or paper-like substances, the reproduction thereon of characters or designs and the alteration or modification of such substances by finishing and binding. (7-1-93)

   b. Upon such final sales, charges for materials, labor and production of fabrication or typography, author's alterations, art work, photo engravings, electros, mats, stereotypes, hand or machine composition, lithographic plates or negatives, electrotypes, etc., and binding and finishing services shall be included in the selling price and the tax shall be computed upon such selling price whether the various charges are separately stated or not. (7-1-93)

   c. The following charges, if separately stated, shall not be included in the selling price: charges for furnishing government postage as part of the printed item, and charges for addressing, stamping, sealing, inserting or wrapping in connection with the operation of a direct mail advertising in which items of tangible personal property and service are supplied. (7-1-93)

04. **Advertising Inserts.** As used in this rule, advertising inserts means printed advertising distributed concurrently with, but printed separately from, a newspaper, magazine, or other publication. (7-1-93)

   a. The sale of advertising inserts by a printer or other supplier to an advertiser for use by the advertiser in the promotion of its business or products, and not for resale by the advertiser, is a retail sale of tangible personal property subject to sales tax. If, for any reason, the seller of the advertising inserts fails to collect sales tax on the sale of the advertising inserts to the advertiser, the advertiser is subject to use tax on its use of advertising inserts in Idaho. (7-1-93)

   b. When an advertiser contracts for the distribution of advertising inserts to locations within this state, a taxable use by the advertiser occurs. The contracted distribution constitutes an exercise of right or power over the advertising inserts by the advertiser. The person performing the distribution services may be a publisher, printer, distributor of a newspaper, magazines, or other publication, or any other person performing distribution services. (7-1-93)

   c. A contract between an advertiser and a publisher of a newspaper, magazine, or other publication, whereby the publisher sells advertising space in its publication is not a sale subject to sales or use tax. (7-1-93)

05. **Labels and Other Printed Matter Sold to Manufacturers.** Sales of labels or name plates, and the printing thereon, to manufacturers, producers, or wholesale merchants where the purpose of the purchaser is to affix the label or name plate to his own product, or the container thereof will not be taxable. (7-1-93)

   a. Sale of package inserts, individual folding boxes and setup boxes, and the printing thereon to manufacturers, or producers, to accompany their own manufactured products, and to pass to the ultimate consumer upon final sales of the manufactured product contained or described therein, shall be deemed made for the purpose of resale. (7-1-93)
055. PERSONS ENGAGED IN ADVERTISING (RULE 055).

01. In General. Advertising agencies, television stations, radio stations, graphic artists, and other persons engaged in advertising may be engaged in either the rendering of professional services or the sale of tangible personal property or both. When such persons are engaged in the sale of tangible personal property, they are retailers and must collect and remit sales tax on the property sold. When such persons are engaged in the rendering of professional services, no sales tax applies to the service. Whether the sale is a sale of professional services or of tangible personal property is determined by the object of the transaction, i.e., is the object sought by the buyer the service per se or the tangible personal property produced by the service. Determining whether the sale is a sale of professional services or of tangible personal property is a question of fact which must be determined in view of all the facts and circumstances of each transaction. (7-1-93)

02. Advertising Agency as Agent of Client or as Non-Agent. An agent is one who represents another, called the principal, in dealings with third persons. Advertising agencies may act as agents on behalf of their clients in dealing with third persons or they may act on their own behalf. To the extent advertising agencies act as agents of their clients in acquiring tangible personal property, they are neither purchasers of the property with respect to the supplier nor sellers of the property with respect to their principals. To the extent advertising agencies act on their own behalf in acquiring tangible personal property they are purchasers of the property with respect to the supplier. Generally, they are sellers of any of the property so acquired which they deliver to, or cause to be delivered to, their clients or to third parties for the benefit of their client. They are also sellers of any of the property which they retain but title to which they transfer to their client. (7-1-93)

a. Items acquired from outside sources. All acquisitions by advertising agencies of tangible personal property are purchases by the agencies on their own behalf for resale or use unless the agency clearly establishes with respect to any acquisition that is acting as agent for its client. (7-1-93)

b. To establish that a particular acquisition was made as agent for its client the agency must clearly disclose to the supplier the name of the client for whom the agency is acting as agent; the agency must obtain, prior to the acquisition, and retain written evidence of agent status with the clients; and the agency must clearly state on the billing to its client that it is acting as agent for its client and that tax has been paid to the supplier or use tax has been accrued by the agency on behalf of the client. The agency fee billed to the client, whether or not separately stated, is not subject to the tax. The agency, in its records, must retain evidence of the payment of the tax. The agency may make no use of the property for its own account, such as charging the item to the account of more than one client. An advertising agency purchasing tangible personal property as an agent on behalf of its client may not issue a resale certificate, as provided by Rule 128 of these rules, to the supplier. It will be presumed that an advertising agency who issues a resale certificate to its supplier is purchasing the tangible personal property on its own behalf for resale and is not acting as an agent for its client. (3-15-02)

03. Items Prepared by Agency. Advertising agencies are sellers of all items of tangible personal property produced, printed, or fabricated by their own employees. Advertising agencies are not agents of their clients with respect to the acquisition of materials incorporated into items of tangible personal property prepared by their employees. (7-1-93)

04. Media Advertising and Advertisements. Media advertising is the use of mass media as a means by which to reach a wide audience, viewers, listeners, or readers, with an advertisement to promote a product, service, issue, or personality. Mass media is defined as radio, television, cable television, newspapers, periodicals, trade journals, or other such media which is capable of reaching a mass audience with an identical message. The object sought by the buyer purchasing media advertising is the intangible professional service of the seller. The sale of media advertising is a sale of professional service and is a nontaxable transaction. The transfer of tangible personal property is inconsequential to the services rendered. (7-1-93)

a. Radio and television advertisement. Sales tax does not apply to the amount charged to produce or create advertisements which are to be broadcast by a radio or television station. It makes no difference whether the
producer or creator sends the advertisement directly to the broadcast facility or to the advertiser, who in turn distributes the commercial to a broadcast facility.

b. Radio and television dubs. Charges for dubs which are produced from a master copy of a radio or television commercial or broadcast are not subject to sales tax so long as they are for distribution to other broadcasting facilities. Sales tax will apply to the sale of radio or television commercial or broadcast dubs which are not for distribution to a broadcast facility and are sold to a customer for another use. The measure of the tax will be the total price charged for the copies.

(7-1-93)

c. Magazine, newspaper, and periodical advertisements. Sales tax does not apply to the amount charged to a customer to produce camera ready artwork, veloxs, and other forms of artwork which are to be reproduced in and distributed as part of a mass media publication. Examples of such media publications are magazines, newspapers, trade journals, and periodicals.

(7-1-93)

d. Print media advertisement copies. Sales tax will apply to charges for reprints of a print media advertisement sold to a customer. The measure of the tax will be the price charged for the reprints.

(7-1-93)

05. Sales of Non-Media Advertising. Non-media advertising is any form of advertising which does not use the mass media in reaching the targeted audience. Examples of such advertising are posters, brochures, pamphlets, handbills, displays, business forms, stationery, business cards, key chains, cups and glasses, pens, pencils, t-shirts, and other similar items. The object sought by the buyer is the tangible personal property. If the advertising agency is the agent of its client, the sale is between the supplier of the tangible personal property and the client and is subject to tax based on the price charged by the supplier to the client. If the advertising agency is NOT the agent of its client, then the purchase from the supplier is for resale. The sale from the agency to its client is a retail sale and is subject to tax based upon the entire amount charged to the customer by the advertising agency, including separately stated fees for:

a. Artwork produced by the advertising agency, including all materials, design fees, and labor to develop and produce the artwork, lettering, and designs used in the finished non-media advertising.

(7-1-93)

b. Artwork, lettering, and designs purchased from a graphic artist.

(7-1-93)

c. Photographs, negatives, and other similar items whether purchased from a commercial photographer or produced in-house by the advertising agency.

(7-1-93)

d. Professional modeling fees.

(7-1-93)

e. Printing charges, whether printed by the advertising agency or a commercial printer, including any markup or service charge.

(7-1-93)

f. All other charges to the customer for services agreed to be rendered by the advertising agency as part of the sale of non-media advertising.

(7-1-93)

06. Sale of Custom Made Audio-Visual Films and Audio Recordings. A custom made audio-visual film or audio recording is a film or recording whose intended purpose is not for media advertising. Examples of custom audio recordings include those to be used with a slide show presentation, designed to be played alone for information purposes or in-store advertising, or other similar purposes. Examples of custom films are safety films, training films, filmed newsletters, in-store audio-visual advertising, and other audio-visual films not sold for media advertising.

a. The object of the purchaser is to obtain the tangible personal property. The fact that the charge for the tangible personal property, the film or recording, is principally derived from labor or creativity of the maker of the property does not transform the sale of the tangible personal property into a sale of services.

(7-1-93)

b. If the advertising agency is the agent of its client, the sale is between the supplier of the tangible personal property and the client and is subject to tax based on the price charged by the supplier to the client. If the advertising agency is NOT the agent of its client, then the purchase from the supplier is for resale. The sale from the
agency to its client is a retail sale and is subject to tax based upon all charges for copy writing, directing, producing, photographing, acting, vocal artists, recording, editing, mixing, and other similar charges to produce a finished film or audio recording. (7-1-93)

07. **Sales of Design Services.** Determining whether design fees are subject to the sales tax will depend on the object of the transaction. A fee charged to a customer for creation and design of a logo, product or business trademark, letterhead, or similar item which does not involve the transfer of tangible personal property beyond that which is required to convey the design to the customer, is a sale of services not subject to the sales tax. When design fees are services agreed to be rendered as a part of the sale of tangible personal property, sales tax will apply to the design fee. Tax does not apply to such fees when an agency acts as an agent. See Subsection 055.07.e. of this rule. (3-15-02)

   a. Example 1: A graphic artist is commissioned to design a business logo for a client. The artist completes the design and delivers it to the client. The transaction is a service transaction. The transfer of the tangible personal property is inconsequential to the services rendered. No sales tax is due on the transaction. (7-1-93)

   b. NOTE: Subsections 055.07.b. through 055.07.d. of this rule assume no agent relationship. Example 2: An advertising agency is commissioned by a client to design a trademark for its business and provide stationery with the trademark printed on it. On the charges billed to the client, the design fee is separately stated from the charges for printing the stationery and the paper stock. The advertising agency must charge sales tax on the entire amount charged. The object of the transaction is to obtain tangible personal property, the stationery. The services agreed to be rendered, the design, are inconsequential to the transaction. (3-15-02)

   c. Example 3: An advertising agency is commissioned by a client to design a logo for its business and provide stationery printed with the logo. The advertising agency commissions a graphic artist to design the logo. The sale of the design by the graphic artist to the advertising agency is a sale of services not subject to the sales tax. The object sought by the advertising agency is the services of the graphic artist. The advertising agency then prints the stationery and bills the client. As the object sought by the client is tangible personal property, the stationery, the advertising agency must charge the client sales tax on the entire fee billed, including the design fee. (7-1-93)

   d. Example 4: An agency is commissioned to design, produce, and provide one thousand (1,000) copies of a corporation’s annual report. As the object sought by the client is the tangible personal property, annual reports, the entire fee to the client will be subject to the sales tax. (7-1-93)

   e. NOTE: This subsection assumes an agent relationship. Example 5: An advertising agency is commissioned to design an annual report. As agent for its client, the agency orders one thousand (1,000) copies from a printer. The charge for the design is a nontaxable service. The charge for the printed reports is taxable. (7-1-93)

08. **Purchases by Radio and Television Broadcasters.** Section 63-3622S, Idaho Code, provides an exemption from tax for purchases of tangible personal property directly used and consumed in the production and broadcasting of radio and television programs by businesses primarily devoted to such production and broadcasting. (7-1-93)

   a. When broadcasters purchase tangible personal property to be directly used and consumed in the production of television or radio advertising, no sales tax applies if they give their vendors a properly executed exemption certificate. See Rule 128 of these rules. (3-15-02)

   b. When a radio or television broadcaster produces custom films or audio recordings that will not be broadcast, the exemption provided by Section 63-3622S, Idaho Code, does not apply. Purchases of tangible personal property will be taxed as provided by Subsection 055.06.b. of this rule. (3-15-02)

09. **Purchases by Advertising Agencies, Graphic Artists, and Similar Operations.** Persons engaged in advertising and graphic artists may provide both nontaxable services and taxable sales of tangible personal property. (7-1-93)

   a. When providing nontaxable services, including producing media advertising and providing design services which do not involve the sale of tangible personal property, the agency/artist must pay tax on purchases of:
Art supplies, such as poster board, paper products, inks, letters, and paints; amount charged by others to produce veloxs, negatives, lithographic plates, electrotype, and other such items; photographic work; prerecorded music and sounds; and props, costumes, and backdrops. (7-1-93)

b. When engaged in the retail sale of tangible personal property, such as the sale of non-media advertising items, custom films, custom audio recordings, or printed goods, the producer/agency/artist, when purchasing tangible personal property to be incorporated into the product for resale, may provide vendors with a properly executed resale certificate. See Rule 128 of these rules. Items considered to be directly incorporated into the product for resale include purchases of: Art supplies such as poster board, paper products, inks, letters, and paints; amounts charged by others to produce veloxs, negatives, lithographic plates, electrotype, and other such items; photographic works; prerecorded sounds and music; and printing charges. (3-15-02)

c. Purchases from photographers. The sale of photographic prints, photostats, negatives, film, and other articles of tangible personal property are retail sales subject to sales tax. See Rule 056 of these rules. Photographs, film, negatives, photostats, and other tangible personal property purchased by an advertising agency which are to be incorporated into media advertising are subject to sales tax. The total selling price on which sales tax will be charged is the amount charged by the photographer for shooting, developing, processing, and printing the photograph, film, negative, etc. Separately stated charges for travel expenses incurred by the photographer while under contract to an advertising agency for such items as travel, food, and lodging which are reimbursed by the advertising agency are not subject to sales tax. Photographs, film, negatives, photostats, and other tangible personal property purchased for resale, see, Subsection 055.09.b. of this rule. (3-15-02)

d. Rental of recording or production studios and equipment. Sales tax will apply to the rental of a recording studio, audio-visual production studio, recording equipment, and audio-visual production equipment, when the owner of the equipment does not furnish the personnel to operate the equipment and relinquishes total operational control of the equipment. A taxable rental also occurs if the studio personnel merely render incidental services such as maintenance and repair. No sales tax will apply to the rental of a recording studio, audio-visual production studio, recording equipment, and audio-visual production equipment when the personnel to operate the equipment is furnished with the rental of the equipment. (7-1-93)

e. Accounting. Persons engaged in the rendering of advertising or graphic artist services may elect to follow any consistent procedure in purchasing art supplies and other tangible personal property from their vendors which are to be incorporated into services or tangible personal property sold to their customers. The artist/agency may wish to purchase all art and graphics supplies without tax from their vendors by issuing a resale certificate. In this case the artist/agency will keep a record of all supplies withdrawn from inventory for use in nontaxable advertising services and pay use tax on these supplies. If the bulk or majority of the artist/agency’s work is nontaxable media advertising or design services, the artist/agency may wish to pay tax on all of their purchases, keep a record of all retail sales, and regularly take a credit against the sales and use tax due for tax originally paid upon purchases. If the artist/agency engages in major jobs, they may want to use separate accounting procedures and make purchases of supplies for inventory without tax by issuing a resale certificate. Purchases for a specific job would be made with or without tax dependent upon the taxable nature of the sale to the client. In all cases, art and graphic supplies are those items which are directly incorporated into the artwork or advertisement, such as paint, ink, colored pencils and markers, lettering, poster board, and other such consumable items. Items on which tax must be paid include rulers, triangles, t-squares, paint brushes, razor or artist knife blades, any other artist tool, office supplies and equipment, props, sets, wardrobes, costumes, and other equipment. (7-1-93)

10. Cross-References.

a. Newspapers and periodicals. See Rules 033 and 079 of these rules. (3-15-02)

b. Signs. See Rule 036 of these rules. (3-15-02)

c. Persons engaged in printing. See Rule 054 of these rules. (3-15-02)

d. Motion picture films. See Rule 087 of these rules. (3-15-02)

e. Resale certificates-purchases for resale. See Rule 128 of these rules. (3-15-02)
056. PHOTOGRAPHERS AND PHOTOFINISHERS (RULE 056).
Sections 63-3616 & 63-3622D, Idaho Code

01. Sales of Photographs. (3-25-16)
   a. Printed photographs are tangible personal property. Sales of printed photographs are taxable. (3-25-16)
   b. Digital photographs are tangible personal property when sold and delivered to the purchaser on storage media. Sales of digital photographs are taxable when sold and delivered to the purchaser on storage media. (3-25-16)
   c. Digital photographs are not tangible personal property when delivered electronically. Sales of digital photographs are not taxable when sold and delivered to the purchaser electronically. (3-25-16)

02. Sales by Photographers and Photofinishers. (3-25-16)
   a. When photographers or photofinishers sell films, frames, cameras, printed photographs, digital photographs delivered on storage media, photostats, blueprints, etc., they are making a sale of a completed article of tangible personal property and they must collect the tax on the total selling price unless an exemption applies. (3-25-16)
   b. When photographers or photofinishers render service, such as retouching, tinting, or coloring of print photographs belonging to others, they are performing taxable processing services and must collect the tax from their customers unless an exemption applies. When similar services are performed on a digital photograph, the service is only taxable if the final product is delivered on storage media. (3-25-16)
   c. Photographers may charge a sitting fee which may be separately stated from any charges for the photographs. When charged along with a sale of printed photographs or digital photographs delivered on storage media, sitting fees are charges for producing or fabricating tangible personal property and are taxable. See Rule 029 of these rules. (3-25-16)

03. Sales to Photographers and Photofinishers. (6-23-94)
   a. Photographers and photofinishers may qualify for the production exemption if they are primarily in the business of selling print photographs or digital photographs delivered on storage media. Photographers and photofinishers primarily in the business of selling digital photographs that are delivered electronically cannot qualify for the production exemption. (3-25-16)
   b. The production process begins when the image is captured. Therefore, photographers must pay sales or use tax on purchases of props, backdrops and other items used prior to the start of production of the photograph. Equipment and supplies including cameras, lights, lenses, film, paper, fix, developer, and enlargers used to produce photographs are used during the production process and are exempt if the photographer otherwise qualifies for the production exemption in Section 63-3622D, Idaho Code. (3-25-16)
   c. Photofinishers may purchase equipment and supplies exempt from sales or use tax as long as the equipment and supplies are directly used to produce photographs which they will sell and they otherwise qualify for the production exemption provided by Section 63-3622D, Idaho Code. (3-25-16)

04. Definitions. For purposes of this rule, the following terms have the following definition: (3-25-16)
   a. Storage media. Storage media include, but are not limited to, optical media discs such as CDs or DVDs, hard drives, diskettes, magnetic tape data storage, solid state drives, flash drives, and other semiconductor memory chips used for nonvolatile storage of information readable by a computer. (3-25-16)

057. DRY CLEANERS, LAUNDRIES, LAUNDROMATS, AND LINEN SUPPLIERS (RULE 057).
01. **Dry Cleaners and Laundries.** Dry cleaners perform a service and are not required to collect tax from their customers. Dry cleaners must pay sales or use tax on purchases of cleaning supplies, hangers, plastic bags and other supplies used in the performance of this service. As of July 1, 1997, purchases of dry-to-dry transfer systems by dry cleaners are exempt from sales and use tax. This exemption applies only to the purchase of entire systems and does not apply to purchases of repair parts for such systems. (7-1-98)

02. **Linen Suppliers.** (7-1-93)

a. Linen supply firms or laundries which furnish such items as sheets, pillowslips, towels, uniforms, diapers, etc., must collect and remit sales tax based on the rental charge. The sales tax will also apply to the rental of shop towels, floor mats for building entrances, dust mops, room deodorizers and any other tangible personal property rented or leased for building maintenance or service. The entire price charged for such rentals is taxable unless a reasonable charge for cleaning is separately stated. If the allocation between rental and cleaning fees is unreasonable, the State Tax Commission may deem the entire fee, or any portion thereof, to be taxable. (7-1-98)

b. Items acquired by these firms which are purchased for resale, rental or lease in the ordinary course of business, may be purchased exempt from sales tax if a properly executed resale certificate is provided to the seller, in accordance with Rule 128 of these rules. (3-15-02)

03. **Laundromats.** (7-1-93)

a. Receipts from coin-operated washers and dryers are not subject to the sales tax. Sales of cleaning supplies such as soap or bleach through coin operated vending machines, are subject to the tax as provided by Rule 058 of these rules. (3-15-02)

b. Persons engaged in the laundromat business must pay sales or use tax when purchasing washers, dryers, and other tangible personal property for the operation of their business. (7-1-98)

058. **SALES THROUGH VENDING MACHINES (RULE 058).**

01. **In General.** The sale of tangible personal property through a vending machine is a taxable transaction. The term vending machine shall mean any mechanical device which, without the assistance of a human cashier, dispenses tangible personal property to a purchaser who deposits cash in the device. Video games and other coin operated amusement devices are not vending machines. Fees paid for the use of coin operated amusement devices are not subject to sales tax pursuant to Section 63-3623B, Idaho Code. See Rule 109 of these rules. (5-3-03)

02. **Amount Subject to Tax.** Pursuant to Section 63-3613, Idaho Code, sales of items through a vending machine for amounts from twelve cents ($0.12) through one dollar ($1) are taxable at one hundred seventeen percent (117%) of the vendor’s acquisition cost of the items. Items sold for more than one dollar ($1) are taxable on the retail sales price. Sales of items for a price of eleven cents ($0.11) or less are exempt from tax pursuant to Section 63-3622L, Idaho Code. (5-3-03)

03. **Requirement to Obtain a Seller’s Permit.** Vendors who sell tangible personal property through a vending machine must obtain a seller’s permit. Only one seller’s permit is required; however, each vending machine operated by the vendor must conspicuously display the vendor’s name, address, and seller’s permit number. When a number of vending machines are placed in a single location, the owner’s name, address, and seller’s permit number need be displayed only once. (5-3-03)

04. **Calculation of Tax.** The following examples show how vending machine operators shall calculate the amount of sales tax due: (5-3-03)

a. Example 1: Corporation A’s business activity consists only of sales through vending machines in various locations in the state of Idaho. All of the items sold in the vending machines are sold for a unit price of twelve cents ($0.12) or more but none are sold for a price greater than one dollar ($1). During the month of July, Corporation A’s total sales from the vending machine sales were ten thousand dollars ($10,000). Corporation A purchased the items sold during that one (1) month period for eight thousand dollars ($8,000). The company made no nontaxable or
exempt sales. Corporation A should file a sales and use tax return for the month of July, computing and reporting its taxable sales as follows. Numbers correspond to line numbers on the return.

<table>
<thead>
<tr>
<th>Line 1. Total sales</th>
<th>$9,360</th>
</tr>
</thead>
<tbody>
<tr>
<td>Line 2. Less nontaxable sales</td>
<td>$0</td>
</tr>
<tr>
<td>Line 3. Net taxable sales</td>
<td>$9,360</td>
</tr>
</tbody>
</table>

Line 1 computed as follows:

\[
8,000 \times 117\% = 9,360
\]

Example 2: During the month of July, Corporation B had total Idaho sales in the amount of ten thousand dollars ($10,000). In addition to sales through vending machines, the corporation made over-the-counter sales, all of which were taxable, in the amount of two thousand dollars ($2,000). The remaining eight thousand dollars ($8,000) constituted sales through vending machines, of which one thousand dollars ($1,000) was for items with a unit retail price of over one dollar ($1). The other seven thousand dollars ($7,000) were sales of items through vending machines with a unit retail price of fifty cents ($0.50) each. The items sold during the month for fifty cents ($0.50) each were purchased by Corporation B for five thousand dollars ($5,000).

The amount to report as taxable sales is:

\[
\text{Taxable Sales} = 2,000 \text{ (over the counter items)} + \frac{5,850}{1 + \text{tax rate expressed as a decimal}} (\text{items sold through vending machines for more than one dollar ($1)}).
\]

Assuming a 6% tax rate this amount would be $1,000 divided by 1.06 or $943.40.

Note that if a vendor sells some items for more than one dollar ($1) the sales tax is included in the total sales. This amount must be divided by one (1) plus the current tax rate expressed as a decimal, to determine the sales before sales tax.

05. Cross-References.

a. Amusement devices, see Rule 109 of these rules.

b. Money operated dispensing equipment, see Rule 095 of these rules.

c. Sales of newspapers through vending machines, see Rule 033 of these rules.

059. SALES BY FLORISTS (RULE 059).

01. Sales. Florists are engaged in the business of selling tangible personal property and must collect the tax from the purchaser.

a. Charges for creating, processing, fabricating, or setting up floral or plant arrangements are taxable, even if separately stated.

b. Separately stated delivery charges, relating only to the transportation of the product after the sale, are not subject to the tax.

02. Rentals. Whenever florists rent or lease potted plants, palms, artificial wreaths and flowers, or other tangible personal property, they are making a sale within the meaning of Section 63-3612, Idaho Code, and must collect the tax on the amount charged.

03. Telegraphed Sales. The tax shall be collected on orders taken by an Idaho florist or nurseryman to be telegraphed to the second florist or nurseryman, whether the delivery is to be made within or without the state.
Telephone, wire, and handling charges in connection with such sales must be included in the sales price subject to the tax.

A florist or nurseryman making deliveries pursuant to telegraph orders received from another florist or nurseryman, shall not collect the tax regardless of whether the florist or nurseryman forwarding the order is within or without the state of Idaho.

04. Street Vendors. The above applies to individuals and street vendors as well as florists who maintain a regular place of business.

060. FEDERAL EXCISE TAXES AND RETAILERS TAXES (RULE 060).

01. General Rule. The measure upon which Idaho sales or use tax is imposed shall include any amount required to be paid by a retailer or his customer as a federal importer’s or manufacturer’s excise tax.

Such federal taxes include those on: Tobacco products, distilled spirits, beer, cheese, mixed flour, processed and renovated butter.

Any federal tax payable to the wholesaler, importer, manufacturer or other producers, such as taxes on gasoline, automobiles, tires, sporting goods, or other tangible personal property when sold by the wholesaler, importer, manufacturer, or other producer.

02. Excluded Federal Taxes. Federal taxes imposed directly on retail sales, such as those imposed by Section 4051, Internal Revenue Code, are excluded from the measure of sales or use tax.

061. TRANSPORTATION, FREIGHT, AND HANDLING CHARGES (RULE 061).

Section 63-3613, Idaho Code

In General. Whether or not transportation and handling charges are separately stated, the sales price includes any charges made for delivery of goods to the seller. Charges for transportation and handling of goods to the consumer are not included as a part of the sales price regardless of when title passes.

Charges Not Separately Stated. Regardless of other provisions of this rule, transportation and handling charges which are not separately stated are included in the sales price subject to tax.

Example 1: Charges for Delivery to the Seller. A customer orders goods from a retailer. The goods are shipped to a catalog store where the customer picks them up. A charge to the customer for delivery to the store is included in the sales price subject to sales tax.

Example 2: Freight-In Taxable. A seller of construction equipment orders a part for a customer. The seller separately states on the invoice charges for freight-in to the seller and freight-out to the consumer. The charges for freight-in are part of the sales price subject to sales tax. The charges for freight-out are not subject to sales tax.

Example 3: Delivery by Retailer. A consumer orders building materials from a retailer. The retailer delivers the goods to the purchaser by means of the retailer’s delivery van. The retailer separately states the charge for transportation and handling of the building materials. The charge for freight-out is not subject to sales tax.

Example 4: Use of Transportation Charges as a Means of Avoiding Sales Tax. Seller offers to give away merchandise worth approximately twenty dollars ($20) if the purchaser pays shipping of nineteen dollars and ninety-five cents ($19.95). The entire price of nineteen dollars and ninety-five cents ($19.95) is subject to sales or use tax.
01. **In General.** Repairs normally require both material and labor. Persons engaged in the business of repairing, renovating or altering tangible personal property owned by others are required to collect sales tax upon the parts or material required in the repair or renovation of the property. (7-1-93)

02. **Separate Statement of Parts or Materials.** The sales price of parts or materials must be separately stated and sales tax must be charged on these parts or materials. Separately stated repair labor is not taxable. If parts and materials are not separately stated from the repair labor, the total amount for parts and repair labor is subject to sales tax. (5-3-03)

03. **Repairs Covered by Insurance Benefits.** Repairs, the costs of which are covered by insurance benefits, are treated the same as otherwise described in this rule. Sales tax is to be collected on the parts and materials. Separately stated repair labor is not taxable. (5-3-03)

04. **Incidental Material.** In some instances because of the small amount of materials used in a repair job, the value of the material may be insignificant to the entire repair cost. For example, incidental amounts of material are sometimes used in repairs made to tires, clothing, watches, and shoes. If materials such as buttons, thread, watch parts, tire valve cores and stems are incidental to the repair they will be taxed when purchased by the repairman. Other examples of materials which are incidental to repairs are touch-up paint and soldering materials used in car repairs. Materials are incidental if they have a value which is insignificant and for which a reasonable retail sales price cannot be readily determined. (7-1-93)

05. **Shop Supplies.** Dealer/repair shops should not charge sales tax on shop supplies that are consumed during the repair, such as spray bottles, buffer pads, towels, masking tape, solvents, sandpaper; and other items that have no specific identifiable value billed to the customer and which do not become a part of the item being repaired. These supplies are subject to tax when purchased by the dealer/repair shop and should not be included as part of the taxable amount billed to the customer. (7-1-93)

06. **Repairs Versus Fabrications.** Repairs and renovations to tangible personal property must not be confused with fabrications of tangible personal property. Fabricated tangible personal property is subject to sales tax on the entire price whether the parts and materials are separately stated or not. See Rules 011 and 029 of these rules. (3-15-02)

07. **Parts for Resale.** When a repair shop buys parts that will be resold to its customers or an auto dealer buys parts to install in a car which is being reconditioned for sale, they should not pay tax to the supplier if they provide the documents required by Rule 128 of these rules. (3-15-02)

063. **BAD DEBTS AND REPOSSESSIONS (RULE 063).**

01. **In General.** Sales tax must be collected on an accrual basis. The tax is owed to the state at the time of sale, regardless of when the payment is made by the customer. (7-1-93)

02. **Rules for Unsecured Credit Sales.** The following rules apply to unsecured credit sales: (7-1-93)

   a. When a seller cannot collect accounts receivable arising from an unsecured credit sale of tangible personal property subject to sales tax, he may make an adjustment on his sales tax return or apply for a refund of taxes according to this rule. (7-1-93)

   b. The adjustment or refund may be claimed on the sales tax return for the month in which the bad debt adjustment is made on the books and records of the taxpayer. The tax for which the credit or refund is sought must be included in the amount which is financed and which is charged off as a bad debt for income tax purposes. (6-23-94)

   c. A written claim for the refund may also be filed with the State Tax Commission within three (3) years from the time the tax was paid to the State Tax Commission. The State Tax Commission will review all such refund claims. See Rule 117 of these rules, Refund Claims. (3-20-04)
03. **Rules for Secured Credit Sales.** The following rules apply to secured credit sales: (7-1-93)

a. If the collateral is not repossessed, the seller may treat a bad debt the same as an unsecured credit sale. (7-1-93)

b. If the collateral is repossessed and not seasonably resold at a public or private sale, its retention is considered to satisfy the debt and no bad debt adjustment is allowed. (7-1-93)

c. If the collateral is repossessed and seasonably resold at public or private sale, then the seller is entitled to a bad debt adjustment. However, before calculating the amount of tax that may be credited or refunded, the taxpayer must reduce the amount claimed as worthless by the amount realized from the sale of the collateral. (3-30-01)

d. If merchandise is repossessed and is subsequently resold at retail, sales tax is computed on the sales price and collected and remitted the same as on other retail sales. (7-1-93)

04. **Application to Taxpayers.** The following rules apply to taxpayers who remit sales tax on an accrual basis but report income tax on a cash basis or are not required to file income tax returns. (7-1-93)

a. Retailers are required to remit sales tax on an accrual basis, even though their accounting records and income tax returns may be prepared on the cash basis of accounting. (7-1-93)

b. For taxpayers who keep their records and file income tax returns on a cash basis, a worthless account cannot be written off as a bad debt because it has not been recognized as income in the taxpayer’s books. These retailers may still claim a bad debt for sales tax purposes. The claim should be made at the same time and in the same way discussed in Subsections 063.02 and 063.03 of this rule, even though the bad debt does not appear on the retailer’s income tax return. (7-1-93)

c. For taxpayers who are not required to file income tax returns, the claim should be made the same way discussed in Subsections 063.02 and 063.03 of this rule. (6-23-94)

d. As these claims cannot be verified against the income tax returns of these taxpayers, sufficient evidence must be attached to the sales tax return to prove that the account has become worthless, that the tax was remitted by the retailer, and that the retailer did not receive payment of the tax from the buyer. (7-1-93)

05. **Amount of Credit Allowed.** The amount of credit that can be claimed is the amount of sales tax that is uncollectible. If both nontaxable and taxable items are financed, credit may be taken only for that portion of the bad debt which represents unpaid sales tax. (7-1-93)

a. **Example:** Assume the tax rate is six percent (6%). A retailer sells a thirty thousand dollar ($30,000) forklift for thirty-one thousand eight hundred dollars ($31,800) including sales tax. The purchaser pays a five thousand dollar ($5,000) down payment and finances the balance. The purchaser later defaults and the retailer repossesses the forklift and sells it at a public auction for six thousand dollars ($6,000). At the time of repossession the purchaser owes seventeen thousand five hundred forty-five dollars ($17,545) including the financed sales tax. After the sale the amount that the retailer writes off is eleven thousand five hundred forty-five dollars ($11,545). The sales tax bad debt write off is six hundred fifty-three dollars ($653).

<table>
<thead>
<tr>
<th>Total taxable sale</th>
<th>$30,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>6% sales tax</td>
<td>$1,800</td>
</tr>
<tr>
<td>Total sale</td>
<td>$31,800</td>
</tr>
<tr>

<td>($5,000)</td>
</tr>
<tr>
<td>Total financed</td>
<td>$26,800</td>
</tr>
<tr>
<td>Payment to principal after sale</td>
<td>($9,255)</td>
</tr>
</tbody>
</table>
b. Example: A car dealer makes a taxable sale of an automobile for fourteen thousand nine hundred dollars ($14,900) along with an extended warranty for five hundred dollars ($500), a documentation fee of one hundred dollars ($100), a title fee of eight dollars ($8) and credit insurance for one hundred dollars ($100). The customer pays one thousand dollars ($1,000) cash and trades in a car worth ten thousand dollars ($10,000) which is pledged as security for an earlier outstanding loan of six thousand dollars ($6,000). The customer, therefore, has to borrow enough to pay off the old loan on the trade-in. The customer defaults on the new ten thousand nine hundred eight dollar ($10,908) loan after paying five hundred dollars ($500) towards the principal. The customer damages the automobile in an accident leaving the collateral worthless. The car dealer may take an adjustment for only that portion of the bad debt representing the taxable percentage of the total sales price of the car. Only five thousand dollars ($5,000) of the total fifteen thousand nine hundred eight dollar ($15,908) cost was taxable.

<table>
<thead>

<td>$10,908</td>
</tr>
<tr>
<td>Payment to principal after sale</td>
<td>($500)</td>
</tr>
<tr>
<td>Amount of bad debt</td>
<td>$10,408</td>
</tr>
</tbody>
</table>

Amount of down payment used to pay sales tax:  
($300 / $5,908) = 5.08%  
.0508 x $1,000 = $50.80

Amount of sales tax financed:  
$300 - $50.80 = $249.20

Percentage of loan representing sales tax:  
$249.20 / $10,908 = 2.28%

Sales tax paid by payments to principal:  
$500 x 0.0228 = $11.40

Amount of bad debt write-off:  
$249.20 - $11.40 = $237.80

(4-2-08)
06. Bad Debt Collected at a Later Date. If a bad debt account is collected later, the retailer must pay tax on the amount collected. (7-1-93)

07. To Claim Credit for a Bad Debt. Credit for bad debts for sales tax purposes may be claimed by the retailer that made the original sale and paid the sales tax to the state. Financial institutions or other third parties who are the assignees of the retailer may claim a bad debt for sales tax on property for which they provided financing, if the amount financed includes the sales tax remitted on the sale of the property. The person claiming the credit must be the person who ultimately bears the loss if the purchaser of the property defaults on the obligation to repay. (3-30-01)

08. Cross-Reference. Rescinded Sale. See Rule 045 of these rules. (3-20-04)

064. DEMURRAGE.
Demurrage charges are not subject to sales or use tax if right, power, and control of the ship, freight car, or truck remains with the transportation company. Demurrage is defined as a charge by a transportation company to its customer for detaining a ship, freight car, or truck beyond the time allowed for loading or unloading. (7-1-93)

065. TIRES BALANCING, STUDDING, AND SIPING (RULE 065).

01. Services Subject to Sales Tax. Sales tax applies to the amount charged for services agreed to be performed in conjunction with the sale of a tire. Examples of such taxable services are balancing, studding, siping, or similar charges. Sales tax will apply to the total amount charged for the tire, the services, and the materials used to perform the services. (7-1-93)

02. Services Not Subject to Sales Tax.

a. Sales tax does not apply to the amount charged for balancing, studding, or siping a tire owned by the customer. (7-1-93)

b. Sales tax does not apply to a separately stated fee to mount or install a tire whether sold new or owned by the customer. (7-1-93)

c. The person performing the nontaxable service must pay use tax on the value of the materials used in performing the service. (7-1-93)

03. Materials Used in Performing a Service. Studs, wheel weights, valve stems, cores, patches, and similar items are materials that may be used to perform both a taxable and nontaxable service. The seller may elect to use any consistent method in determining the value and the amount of materials used in performing taxable and nontaxable services. (7-1-93)

a. The allocation of materials may be determined using a percentage basis. Example: The seller determined through some reasonable basis that sixty percent (60%) of the studs purchased for resale are used in tires that are purchased from him. The remaining forty percent (40%) are used in tires owned by customers and brought in for studding. Use tax will apply to the forty percent (40%) used in studding customer owned tires. As sales tax applies to the entire fee charged for studding a tire sold to a customer, the remaining sixty percent (60%) of the studs will not be subject to use tax, but are included in the amount subject to sales tax imposed on the purchaser. (7-1-93)

b. The allocation may be determined based on the value of the material used in performing both taxable and nontaxable services. (7-1-93)

c. The allocation may be determined using any other method that will allow a reasonable allocation of materials used in both a taxable and nontaxable service. (7-1-93)

04. Cross-Reference. Repairs. See Rule 062 of these rules. (7-1-93)

066. CONTRACTOR'S USE OF TANGIBLE PERSONAL PROPERTY (RULE 066).
01. Use. The term use includes the exercise of any right or power over tangible personal property in the performance of a contract, regardless of whether title to the tangible personal property is vested in the contractor or the tangible personal property is leased. (7-1-93)

02. Contractors Use of Tangible Personal Property. If title to the tangible personal property is vested in an entity not entitled to the production exemption, use tax will apply to the contractor. For contractors improving real property, see Rule 012 of these rules. (7-1-93)

03. Exception. The Sales Tax Act provides only one (1) exception. If title to the tangible personal property is vested in a person entitled to the production exemption (see Rule 079 of these rules), the contractor’s use of the property will also be exempt. (7-1-93)

067. REAL PROPERTY (RULE 067).
Sections 63-3609, 63-3612, & 63-3616, Idaho Code

01. Improvements or Fixtures. Improvements or fixtures to real property include:

a. Property which is physically attached to the land or other improvements affixed to the land in such a manner that it may not be removed without materially damaging the real property or is of such a nature that it would normally be expected to be sold together with the land. (7-1-93)

b. Property which increases the market value of the land or increases the ability of the possessor of the land to use it more productively. (7-1-93)

c. Property which increases the market value or productivity on a relatively permanent basis. (7-1-93)

02. Three Factor Test. A three (3) factor test may be applied to determine whether a particular article has become a fixture to real property. The three (3) tests to be applied are:

a. Annexation to the realty, either actual or constructive. (7-1-93)

b. Adoption or application to the use or purpose to which that part of the realty to which it is connected is suitable. (7-1-93)

c. Intention to make the article a permanent addition to the realty. (7-1-93)

03. Example 1: The original builder or owner of an apartment building installs draperies. The draperies meet the three (3) factor test of a fixture to realty. First, they are constructively annexed to the realty when attached to the drapery rod. Although the draperies are not affixed to the realty, they comprise a necessary, integral, or working part of the object to which they are attached. Second, they appropriately adapt to the purpose of the realty to which they are connected. Window coverings are necessary in order to maintain occupancy of the apartment. The third and controlling factor in this example is the intention with which the installation was made. The intention must be determined from the surrounding circumstances at the time of installation. It is not the undisclosed purpose of the annexor, but rather the intention implied and manifested by his act. The builders intended that the drapes would remain as long as they served their purpose. (7-1-93)

04. Example 2: The three (3) factor test would not be met in Subsection 067.03 of this rule, if the drapes were installed by a tenant of an apartment leased for a term with no agreement as to ownership. The tenant would be expected to remove or sell the drapes to an incoming tenant, and his intention would be the controlling factor. The draperies would not be considered as fixtures to the real property. (5-8-09)

05. Personal Property Incidental to the Sale of Real Property. This rule does not affect the provisions of Section 63-3609(b), Idaho Code. (7-1-93)

06. Store Fixtures. Store fixtures are items that are affixed to a building and used by retailers in the conduct of their business. The term “store fixtures” includes display cases, trophy cases, clothing racks, shelving,
modular displays, kiosks, wall cases, register stands, and check-out counters. If store fixtures only benefit the
particular business occupying a building, they are not adapted to the use of the real estate and are therefore personal
property. A store fixture will only be deemed to be a real property improvement if:

a. It is affixed to the real estate and its removal would cause significant structural damage to the
building itself; or (5-8-09)

b. It is affixed to the real estate and is of benefit to the land or building regardless of the particular
business conducted on the premises. (5-8-09)

07. Fiber Optic and Communication Cable. Fiber optic and communication cable installed in a
building is presumed to be a real property improvement. (3-28-18)

068. COLLECTION OF TAX (RULE 068).
Section 63-3619, Idaho Code

01. In General. Idaho Sales Tax is an excise tax which is imposed upon each sale at retail. The tax is
computed at the time of each sale and the tax on the total sales for the reporting period, usually monthly, will be
reported and paid on or before the due date as established by Rule 105 of these rules. (4-11-06)

02. Sales Tax To Be Collected by Retailer. Sales tax shall be collected by the retailer from the
customer. The tax will be computed on and collected for all credit, installment, conditional or similar sales when
made or, in the case of rentals, when the rental is charged. (7-1-93)

03. Computation of Tax. The retailer will compute the tax upon the total sale to a purchaser at a given
time and not upon each individual item purchased. (7-1-93)

04. Bracket System for Six Percent Tax Rate. Beginning October 1, 2006, the sales tax rate is six
percent (6%). The following schedule is to be used in determining the amount of tax to be collected by a retailer at the
time of sale.

a. Multiply six cents ($0.06) for every whole dollar included in the sale, and (3-20-04)

b. Add for each additional fractional dollar amount of sale the corresponding tax below:

<table>
<thead>
<tr>
<th>Dollar Amount of Sale</th>
<th>Tax</th>
</tr>
</thead>
<tbody>
<tr>
<td>0.00 - 0.03</td>
<td>0.00</td>
</tr>
<tr>
<td>0.04 - 0.20</td>
<td>0.01</td>
</tr>
<tr>
<td>0.21 - 0.37</td>
<td>0.02</td>
</tr>
<tr>
<td>0.38 - 0.53</td>
<td>0.03</td>
</tr>
<tr>
<td>0.54 - 0.70</td>
<td>0.04</td>
</tr>
<tr>
<td>0.71 - 0.87</td>
<td>0.05</td>
</tr>
<tr>
<td>0.88 - 0.99</td>
<td>0.06</td>
</tr>
</tbody>
</table>

However, sales to a total amount of eleven cents ($0.11) or less are exempt from tax. (3-20-04)

05. Tax to Be Separately Displayed. The amount of tax collected by the retailer must be displayed
separately from the list price, marked price, the price advertised in the premises or other price on the sales slip or
other proof of sale. The retailer may retain any amount collected under the bracket system which is in excess of the
amount of tax for which he is liable to the state during the period as compensation for the work of collecting that tax.
06. **Reimbursement of Tax From the Purchaser to the Seller.** If the seller does not collect the sales tax at the time of the sale and it is later determined that sales tax should have been collected, the seller can then collect the sales tax from the purchaser if the delinquent tax has been paid by the seller. The legal incidence of the tax is intended to fall upon the buyer, Section 63-3619, Idaho Code. (7-1-93)

a. Example: The Commission determines that certain nontaxed sales by a seller are subject to sales tax and that the seller did not collect the tax and did not have documentation supporting exemption from the sales tax. The Commission issued a Notice of Deficiency Determination to the seller imposing the tax and interest. The assessment then paid by the seller entitles the seller to reimbursement from the buyer. (7-1-93)

b. The seller is also entitled to collect reimbursement from the buyer of the interest paid on the taxes assessed. (7-1-93)

c. The seller is not entitled to reimbursement from the buyer for penalties imposed as part of the assessment against the seller. (7-1-93)

d. The receivable established by the seller seeking reimbursement from the purchaser is not subject to expiration of the statute of limitations provided in Section 63-3633, Idaho Code. (7-1-93)

069. **INTERSTATE COMMERCE (RULE 069).**

When tangible personal property is located within the state of Idaho at the time of sale and is delivered within the state of Idaho, such sale is taxable irrespective of where the parties to the contract of sale are located and where the contract was made or accepted or the funds paid. Example: A Washington-based interstate trucking firm hires an Idaho repair facility to install parts on a disabled truck. The trucking firm takes delivery of the repaired vehicle in Idaho. The sale of the parts is subject to Idaho sales tax. (7-1-93)

070. **PERMITS (RULE 070).**

01. **Requirements for Obtaining Permits.** All retailers, wholesalers and other persons required to collect sales tax must obtain a permit from the Tax Commission before engaging in business. No fee is required for the initial sales tax permit. Application forms may be obtained by contacting any Tax Commission office. (7-1-93)

a. Every wholesaler, retailer or other person required to collect sales tax must apply for a permit on the form prescribed by the Commission. The application for a permit must list each place of business operated by the same person, firm or corporation. The permit must be posted in a conspicuous place at each location for which it is issued. A separate permit number must be obtained for each business name. (7-1-93)

b. Example 1: Corporation A operates the businesses named B, C, and D. Three (3) permit numbers are required, regardless of how many locations operate using the business names B, C, and D. (7-1-93)

c. Example 2: Corporation E operates three locations, using the business name F. Only one permit number is required, since all locations have the same business name. (7-1-93)

02. **Out-of-State Seller.** An out-of-state seller desiring to conduct business as a seller within Idaho must obtain a seller’s permit. This requirement also applies to any salesmen user’s agents who solicit orders for nonresident sellers. (7-1-93)

03. **Sales in Leased Premises.** When any established business leases a portion of its shelves, counters or floor space to other persons selling tangible personal property to consumers, the sales from such leased department may be included in the tax return of the lessor. When the lessee conducts the leased department in the same manner as a separate business and keeps separate business records, the lessee must apply for a sales tax permit. (7-1-93)

04. **Cancellation of Sales Tax Permits.** It is the responsibility of a permit holder to notify the Tax Commission in writing immediately upon any change in ownership of the permitted business or upon complete or partial termination of the permit holder’s business. Complete or partial termination of a permit holder’s business
includes the lease of part or all of the business or business location to another party who will be responsible for remitting the sales tax. This notice must include the following information. (7-1-93)

   a. This notice must include the date of closure, date of sale or date of lease. If the permit holder does not continue to operate a business under that permit number, the notice must state that the permit should be canceled. The permit holder must return the permit or send a written statement that the permit has been destroyed. If the permit holder has sold or leased his business, the notice must state the last day of operation and the name of the new owner or lessee. (7-1-93)

   b. If this information is not furnished to the Tax Commission and the new owner or lessee continues operation of the business on the previous owner’s or operator’s permit, without filing for and obtaining a new permit, the original permit holder may be held responsible for all tax liability incurred during the period that the new owner or lessee operated a business under the previous owner’s permit. (7-1-93)

 05. Suspension of Sales Tax Permits. The permit holder must notify the Tax Commission in writing of the anticipated discontinuation of a business due to seasonal operation or for any other reason. This notice must contain the date of closure and anticipated date of reopening. Upon receipt of this information, returns will be suspended during the period of closure. (7-1-93)

 06. Requirements of Holding a Seller’s Permit. A seller’s permit may be held only by persons actively engaged in making retail sales subject to Idaho sales tax. Any person holding a permit who fails to meet this requirement must surrender the permit to the Commission for cancellation. If a permit is held by a person who has reported no sales for a period of twelve (12) consecutive months, the Commission may revoke the permit and require the holder to return the permit to the Commission or provide a sworn statement that the permit has been destroyed by the holder. (7-1-93)

 07. Seller’s Permit and Sales Tax Permit. The terms seller’s permit and sales tax permit may be used interchangeably. Both refer to the permit issued to a person desiring to engage in business in Idaho as a retailer. (7-1-93)

 08. Temporary Seller’s Permits. The Commission may issue temporary seller’s permits that are valid for a limited period of time. The time period for which the temporary permit is issued will be shown on the face of the permit. No temporary seller’s permit shall be issued for a period of time greater than ninety (90) days. (4-11-06)

071. (RESERVED)

072. APPLICATION AND PAYMENT OF USE TAX (RULE 072).
Sections 63-3615 & 63-3621, Idaho Code

 01. Imposition of Use Tax. Use tax is imposed upon the privilege of using, storing, or otherwise consuming tangible personal property within Idaho. The tax is imposed on the value of the tangible personal property. A recent sales price is presumptive evidence of the value. In the absence of a recent sales price, the value of the property subject to the use tax will be the fair market value at the time of first use in Idaho. Special rules apply to transient equipment which is present in Idaho ninety (90) days or less in any consecutive twelve (12) months. See Section 63-3621A, Idaho Code. (7-1-93)

 02. Use. Use is the exercise of right or power over tangible personal property incident to either ownership of the property or the performance of a contract. The term “use” does not include use of tangible personal property incident to the performance of a contract if the owner of the tangible personal property is a business primarily engaged in producing tangible personal property for resale and the property is exempt under Section 63-3622D, Idaho Code. See Rules 012, 077, and 079 of these rules. (3-15-02)

 03. Storage. Storage is any keeping or retention of tangible personal property in this state, except as inventory for the purpose of sale in the regular course of business or for subsequent use solely outside Idaho. (7-1-93)

 04. Specifically Excluded from the Definition of Both Use and Storage Are:
a. Retention or use of property for subsequent transportation outside the state; or (7-1-93)

b. Processing, fabricating, repairing, or manufacturing property for subsequent transportation and use or resale solely outside the state. (7-1-93)

05. Receipt Showing Sales Tax Paid. If the property is purchased from an Idaho retailer and Idaho sales tax is charged by and remitted to the retailer, then no use tax will apply to the property. A purchase order issued by the purchaser advising the retailer to charge or include the Idaho sales tax is not sufficient evidence that the tax has been paid. The retailer’s receipt provided to the purchaser must display separate statement of the tax to relieve the purchaser of the use tax requirements. (7-1-93)

06. Out-of-State Purchases. If the property is purchased outside the state or from a retailer not subject to the Commission’s jurisdiction and is subsequently used, stored, or otherwise consumed in this state, then a use tax will apply. The purchaser must report and remit the use tax directly to the state by filing a use tax return on the forms prescribed by the Commission. (6-23-94)

07. Taxes Paid to Another State. The taxpayer may offset from the use taxes payable to Idaho any amount of general sales or use taxes paid to another state on the purchase or use of the same property if paid by the same taxpayer. A credit may not be claimed for taxes erroneously paid to another state if no taxable sale or use under the laws of that state occurred. In determining whether a tax is due in the state where paid, the Commission will be bound by the laws, rules, and administrative rulings of the state to which tax is paid. (7-1-93)

a. If the amount of tax levied by the state to which it is paid is less than the amount of the Idaho tax due, then the balance must be paid as Idaho tax. (6-23-94)

b. If the amount of tax levied by the state to which it is paid is equal to or greater than the Idaho tax, then there will be no taxes due to Idaho in regard to the same transaction or subsequent use of the property. (6-23-94)

c. If the taxes paid to the other state are greater than the Idaho tax, the amount of offset available is limited to the amount of Idaho tax due on the same transaction or use of the property. (6-23-94)

08. Use Undeterminable at Time of Purchase. In some cases a purchaser may be unable to determine at the time of purchase whether or not property purchased by him will be used for a taxable or nontaxable purpose. For example, a purchaser engaged in both a retailing and contracting business may not know whether an item will be sold at retail or withdrawn from inventory and used in the course of performing a contract to improve real property. In these circumstances the purchaser may purchase the goods without paying tax if he presents the documentation required by Rule 128 of these rules. The purchaser must maintain adequate accounting control to insure that use tax is properly accrued on all property subject to tax. (3-15-02)

09. Removal from This State. If property is held in this state solely for the purpose of subsequent transport and use outside Idaho or is to be processed, fabricated, attached to, or incorporated into property that is to be transported outside and used or sold outside the state, a use tax will not apply. (7-1-93)

10. Tangible Personal Property Removed From Inventory. A retailer or wholesaler may purchase tangible personal property for resale without paying sales tax. The tangible personal property then becomes part of inventory. The retailer or wholesaler may use inventory in displaying or demonstrating the inventory for purposes of selling the inventory in the normal course of business. If the retailer or wholesaler uses inventory for any purpose besides display or demonstration in the normal course of selling that inventory, the retailer or wholesaler owes use tax. If inventory is consumed during such display or demonstration, the retailer or wholesaler owes use tax. The retailer or wholesaler must calculate the use tax on the value of the tangible personal property. Use tax does not apply to any use or consumption of tangible personal property where such use is specifically exempted from use tax by Idaho Code. (4-4-13)

a. Inventory held for resale becomes subject to use tax at the time the retailer or wholesaler removes the tangible personal property from inventory. If a retailer or wholesaler removes tangible personal property from inventory and then performs additional manufacturing or processing labor, the retailer or wholesaler should calculate
use tax on the acquisition cost before the additional labor. However, if a retailer or wholesaler removes tangible personal property after performing additional manufacturing or processing labor, the retailer or wholesaler must calculate use tax on the total inventoried cost including the additional labor. (4-4-13)

b. Special rules apply to retailers giving away prepared food and beverage to their employees. See Rule 041 of these rules for more information. (3-25-16)

c. Example 1. A sawmill withdraws lumber from its resale inventory and uses it to construct a building. The lumber was not identified for this use until it was taken from inventory held for resale. Use tax is due on the manufactured value of the lumber taken from inventory. (7-1-93)

d. Example 2. A sawmill cuts specific trees from its own land. The sawmill then cuts these trees to specific dimensions and uses the beams and lumber to construct a building. The trees and lumber are identified for use in constructing the building from the time the trees are cut. Use tax is due on the stumpage value of the trees. (7-1-93)

e. Example 3. A retailer purchases shirts without paying tax for his resale inventory. The shirts cost the retailer ten dollars ($10) each. He withdraws ten (10) of the shirts from inventory and donates them to a sports team he is sponsoring. The retailer owes use tax on one hundred dollars ($100). (7-1-93)

073. TANGIBLE PERSONAL PROPERTY BROUGHT OR SHIPPED TO IDAHO (RULE 073).

01. Equipment Brought into Idaho. Equipment or other tangible personal property brought or shipped to Idaho by residents or nonresidents is presumed to be for storage, use, or other consumption in this state. Generally, tangible personal property is subject to use tax on its fair market value when it is first used in Idaho. Special rules apply to transient equipment present in Idaho for ninety (90) days or less in any consecutive twelve (12) month period. See Section 63-3621A, Idaho Code, and Subsection 073.03 of this rule. For property a contractor fabricates to install into Idaho real property, see Rule 012 of these rules. (4-11-06)

02. Substantive Use. Any substantive use of the property in Idaho is sufficient to subject the property to use tax. Use is defined in Section 63-3615, Idaho Code, and Rule 072 of these rules. The use tax does not apply to the use of items purchased before July 1, 1965, or the use of items excluded from tax by Idaho Code. (3-20-04)

03. Transient Equipment. Transient equipment means equipment that is: owned by the user, which is a business based in another state; a depreciable asset for income tax purposes and treated as such on the owner’s income tax returns; brought to Idaho and kept here for ninety (90) days or less in any consecutive twelve (12) months; and either was not taxed in another state or, if tax was paid to another state, the amount paid was less than the amount of Idaho use tax due. (7-1-93)

a. A nonresident business that brings transient equipment to Idaho may elect to pay use tax on either the fair market value of the equipment at the time it enters Idaho, or the fair market rental value of transient equipment for the time it is kept in Idaho. Fair market rental value is the amount it would cost to rent or lease similar equipment from an unrelated equipment rental company. (3-20-04)

b. Businesses that elect to pay use tax on the rental value of transient equipment may do so without the approval of the Tax Commission as long as the use tax due on the first month’s rental is paid in a timely manner. If the owner fails to pay the tax timely, he must get written approval from the Tax Commission to use this option. (7-1-93)

c. Equipment which remains in Idaho for more than ninety (90) days in any consecutive twelve (12) months is no longer transient. This equipment becomes subject to Idaho use tax on its fair market value at that time. No credit may be taken for use tax paid on fair market rentals against the use tax due at the time equipment ceases to qualify as transient. (7-1-93)

d. Example: A Wyoming contractor brings transient equipment, with a fair market value of one hundred thousand dollars ($100,000), to Idaho for use on a ninety (90) day project. The fair market rental value of the equipment for the ninety (90) days totals fifteen thousand dollars ($15,000). Idaho use tax on the fair market rental
value, assuming a rate of six percent (6%), totals nine hundred dollars ($900). The contractor paid three thousand five
hundred dollars ($3,500) of sales tax to the state of Wyoming when he bought the equipment new. The contractor
is not required to pay tax to Idaho since the tax paid to Wyoming exceeds the amount of Idaho use tax due. (4-2-08)

e. Example: The same contractor in the previous example returns to Idaho within the same twelve
(12) months with the same equipment, now with a fair market value of ninety-five thousand dollars ($95,000). As the
equipment has now exceeded the ninety (90) day rule for transient equipment, it is subject to Idaho’s six percent (6%)
use tax on its present value of ninety-five thousand dollars ($95,000) x six percent (6%) = five thousand seven
hundred dollars ($5,700). Credit of two thousand six hundred dollars ($2,600) is allowed for sales tax paid to
Wyoming, three thousand five hundred dollars ($3,500) less the nine hundred dollar ($900) credit already used on
rentals. The contractor owes three thousand one hundred dollars ($3,100) of use tax to Idaho. (4-2-08)

04. Licensed Motor Vehicles. A motor vehicle licensed in a nonresident’s home state and brought to
Idaho to use for ninety (90) days or less in any consecutive twelve (12) months is not subject to Idaho use tax. Once
the vehicle is used here more than ninety (90) days during any consecutive twelve (12) months, use tax applies to the
fair market value of the vehicle at that time unless tax was paid to another state in an amount equal to, or greater than,
the tax owed to Idaho. Special rules apply to new residents, nonresident college students, and temporarily assigned
military personnel in Idaho. See Rule 107 of these rules. (3-29-12)

074. DONATIONS TO POLITICAL SUBDIVISIONS AND CERTAIN NONPROFIT ORGANIZATIONS
OF TANGIBLE PERSONAL PROPERTY USED FOR IMPROVEMENTS TO REAL PROPERTY (RULE
074).

01. Donated Property. Effective July 1, 1991, there is an exemption from the use tax for the donation
of tangible personal property which is incorporated into real property, when donated to the state of Idaho, political
subdivisions of this state, or a nonprofit organization as defined in Section 63-3622O, Idaho Code. The exemption
applies whether the tangible personal property is incorporated into real property by the donee, a contractor or
subcontractor or any other person. (7-1-93)

02. Purchase of Donated Items. This exemption does not apply to sales tax which is applicable to the
purchase of tangible personal property which will be donated to the state of Idaho, its political subdivisions, or
qualified nonprofit organizations, for incorporation into real property. (7-1-93)

03. Property Not Incorporated into Real Property. This exemption does not apply to the sales or use
tax applicable to tangible personal property donated to the state of Idaho, its political subdivisions, or qualified
nonprofit organizations when the property donated will not be incorporated into real property.

a. Example 1: A concrete company removes from inventory and donates twenty (20) yards of redi-
mix concrete to a nonprofit Idaho college for the footings of a storage building. Another contractor who is donating
labor for erection of the building places the redi-mix concrete. Neither the redi-mix concrete company nor the
contractor are subject to use tax. (7-1-93)

b. Example 2: The same concrete company donates twenty (20) yards of redi-mix concrete to a
nonprofit organization which is not listed in Section 63-3622O, Idaho Code. The concrete company must declare and
pay use tax on the cost of the materials removed from inventory for the donation. (7-1-93)

c. Example 3: A contractor purchases materials from a local lumber yard which he donates to the
nonprofit Idaho college to be used in building a storage building. This contractor must pay sales tax on the material
because the law provides exemption only from use tax. (7-1-93)

d. Example 4: A local automobile dealer takes three vehicles from inventory and donates them to the
athletic department of an Idaho university. The exemption does not apply. The automobile dealer is subject to use tax
on his cost of the vehicles because the vehicles will not become improvements to real property. (7-1-93)

075. -- 076. (RESERVED)

077. EXEMPTION FOR RESEARCH AND DEVELOPMENT AT INL (RULE 077).
Section 63-3622BB, Idaho Code

01. **Exclusive Financing Exemption Under Section 63-3622BB(1), Idaho Code.** The purchase of certain tangible personal property used in connection with certain activities at the Idaho National Laboratory (INL) is exempt from sales and use tax. To qualify for this exemption, the property must be tangible personal property primarily or directly used or consumed in research, development, experimental and testing activities, exclusively financed by the United States Government.

   a. **Qualifying Activity.** Research, development, experimental, and testing activity means any activity of an original investigation, for the advancement of scientific knowledge in a field of laboratory science, engineering or technology and does not have an actual commercial application.

   b. **Real Property.** The exemption does not apply to real property or to tangible personal property which will become improvements or fixtures to real property. See Rules 012 and 067 of these rules.

   c. **Incidental Use of Property.** This exemption does not extend to the incidental use of any tangible personal property which fails to meet the test of primary or direct use or consumption.

   i. Areas of support which are considered incidental include: communications equipment; office equipment and supplies; janitorial equipment and supplies; training equipment and supplies; dosimetry or radiation monitoring equipment which lacks the capability of giving an immediate indication and would not result in an immediate evacuation of personnel or shutdown of equipment; subscriptions or technical manuals which provide technology not primarily used or directly connected to the research activity; and hot and cold laundry operations.

   ii. Materials of common support which are considered incidental include: clothing for weather protection or of a reusable nature; hand tools which are not subject to contamination at the time of initial use; protective coverings which are protection from other than radiation or are of a reusable nature; and all safety equipment and supplies which do not protect from direct radiation exposure.

   d. **Property Directly Used or Consumed.** Tangible personal property primarily or directly used or consumed in a research and development activity to perform quality assurance on research equipment is tax exempt. Items of a general support nature, such as coveralls, are taxable.

   e. **Parts for Equipment.** The use of tangible personal property which becomes a component part of research equipment being calibrated within a calibration lab is tax exempt; whereas, the use of parts and equipment in calibrating or for the repair of other maintenance equipment is taxable.

   f. **Radioactive Waste.** The initial containment or storage of radioactive waste is an exempt use. Any further processing or transporting of such waste not relating to a research and development activity is a taxable use.

   g. **Motor Vehicles.** The purchase of any motor vehicle licensed or required to be licensed by the laws of this state is taxable.

   h. **Agreements with Contractors.** The State Tax Commission may enter into agreements with contractors engaged in research at the INL prescribing methods by which the contractor or contractors may accrue use tax based on the accounting procedures required by the U.S. Department of Energy.

02. **Percentage of Tangible Personal Property Exemption Under Section 63-3622BB(2), Idaho Code.** If a facility is used by the United States or one (1) of its management and operating contractors for research and development activities at the INL and also is used by a person or persons in addition to the United States or one (1) of its management and operating contractors, there is exempted from the taxes imposed by this chapter a percentage of each sale or use of tangible personal property used or consumed at or for the benefit of the facility in the amount that the research and development activities of the United States or its management and operating contractors bear to the total use of the facility by all persons. The Tax Commission shall calculate, review, and verify the allocation provided for in this section.
078. MOTOR FUELS (RULE 078).

01. Exemptions. (7-1-93)

a. Motor fuels, including gasoline, diesel and gaseous fuels, upon which the taxes are imposed by Title 63, Chapter 24, Idaho Code, are exempt from sales and use taxes. IDAPA 35.01.05, “Idaho Motor Fuels Tax Administrative Rules,” explains in detail which petroleum and gaseous products are subject to taxation as motor fuel. Also exempt are purchases upon which motor fuels taxes have actually been paid. If such purchases are later included in credits or refunds for motor fuels taxes paid and not subject to taxes imposed by Title 63, Chapter 24, Idaho Code, and no other exemption applies, sales and use taxes will be applicable. (7-1-93)

b. Fuel may be exempt under Section 63-3622(D), Idaho Code. (7-1-93)

c. Fuel used as heating fuel may be exempt if it qualifies under the exemption for space heating materials. See Rule 088 of this rule. (7-1-93)

d. The sale or use of fuel for subsequent use outside this state and fuel brought into this state in the fuel tanks of vehicles in interstate commerce may be exempt. Carriers engaging in interstate commerce are required to maintain sufficient verifiable statistical data to substantiate any exemption claimed for fuel purchased in Idaho for use outside this state. In the case of a substantial change in the mode of operation of the carrier or other circumstances that would cause the statistical data to be invalid, the carrier is required to review and adjust the exemption claimed accordingly. (7-1-93)

02. Exclusion from Exemption. Purchase or use of any fuels may be subject to sales and use taxes if no other exemption applies. Examples include, without limitation: (7-1-93)

a. Fuel used by a road contractor in the operation of construction equipment or operation of stationary engines to generate electricity, unless all of the electricity generated is used primarily and directly in the processing, manufacturing or fabricating of tangible personal property to be sold at retail. (7-1-93)

b. Fuel used by private contractors in off-road vehicles in the performance of contracts with any governmental instrumentality. (7-1-93)

01. In General. Section 63-3622D, Idaho Code, known as the production exemption, provides an exemption from sales and use taxes for certain tangible personal property used in production activities. The production activities include: (5-8-09)

a. A manufacturing, processing, or fabrication operation primarily devoted to producing tangible personal property that it will sell and is intended to be ultimately sold at retail. (5-8-09)

b. The following types of businesses may also qualify for the exemption, even though they perform services and do not actually sell tangible personal property: (5-8-09)

i. The business of custom farming or operating a farm or ranch for profit. (7-1-93)

ii. The business of contract mining or operating a mine for profit. (6-23-94)

iii. Businesses devoted to processing tangible personal property for use as fuel for the production of energy. (5-8-09)

02. Qualifying Businesses. The production exemption applies only to a business or a separately operated segment of a business that primarily produces tangible personal property which is intended for ultimate sale at retail. (7-1-93)
a. For the purposes of this rule, a separately operated segment of a business is a segment of a business for which separate records are maintained and which is operated by an employee or employees whose primary employment responsibility is to operate the business segment. (7-1-93)

b. The production exemption does not include the performance of contracts to improve real property, such as road or building construction, or to service-related businesses not devoted to the production of tangible personal property for ultimate sale at retail. (7-1-93)

c. To qualify for the production exemption, a business must sell the products it produces or processes. The only exceptions are businesses primarily devoted to processing fuel to be used for the production of energy; custom farming; and contract mining. (5-8-09)

03. Exempt Purchases. As applied to manufacturing, processing, mining, or fabrication operations, sales and purchases of the following tangible personal property are exempt, except as limited by other subsections of this rule: (4-11-06)

a. Raw materials that become an ingredient or component part of the product which is produced. (7-1-93)

b. Equipment and supplies used or consumed primarily and directly in the production process and which are necessary or essential to perform the operation. To qualify, the production use must be the primary use of the equipment and supplies. Also, the equipment and supplies must be used directly in the production process. (7-1-93)

c. Chemicals and catalysts consumed in the production process which are used directly in the process but which do not become an ingredient or component part of the property produced. (7-1-93)

d. Repair parts, lubricants, hydraulic oil, and coolants, which become a component part of production equipment. (7-1-93)

e. Fuel, such as diesel, gasoline, and propane used in equipment while performing production exempt activities. (7-1-93)

f. Chemicals and equipment used in clean-in-place systems in the food processing and food manufacturing industries. (7-1-93)

g. Safety equipment and supplies required by a state or federal agency when used directly in a production area. (7-1-93)

h. Equipment such as cranes, manlifts, and scissorlifts used primarily to install production equipment. (7-1-93)

i. Equipment used primarily to fabricate production equipment. (7-1-93)

j. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (3-29-17)

04. Production Process Beginning and End. The production process begins when raw materials used in the process are first handled by the operator at the processing plant or site. The production process ends when the product is placed in storage, however temporary, ready for shipment or when it reaches the final form in which it will be sold at retail, whichever occurs last. See Rule 083 of these rules regarding farming. (3-29-17)

05. Taxable Purchases. The production exemption does not include any of the following: (4-11-06)

a. Motor vehicles required to be licensed by Idaho law. A motor vehicle required to be licensed, but not actually licensed, is taxable. A motor vehicle not required to be licensed is exempt under the production
exemption only if it meets the tests in Subsection 079.03 of this rule. (7-1-93)

b. Repair parts for any equipment which does not qualify for the production exemption. (7-1-93)

c. Office equipment and supplies. (7-1-93)

d. Safety equipment and supplies used somewhere other than a production area, such as an office, or which are not required by a state or federal agency even if used in a production area. (7-1-93)

e. Equipment and supplies used in selling and distribution activities. (7-1-93)

f. Janitorial equipment and supplies, other than disinfectants used in the dairy industry to clean pipes, vats, and udders, and clean-in-place equipment and chemicals used in food processing or food manufacturing. (7-1-93)

g. Maintenance and repair equipment and supplies which do not become component parts of production equipment, such as welders, welding gases, shop equipment, etc. (7-1-93)

h. Transportation equipment and supplies. (7-1-93)

i. Aircraft of any type and supplies. (7-1-93)

j. Paint, plastic coatings, and similar products used to protect and maintain equipment, whether applied to production equipment or other equipment. (7-1-93)

k. Other incidental items not directly used in production. (7-1-93)

l. Fuel used in equipment while performing activities that do not qualify for the production exemption. (7-1-93)

m. Recreation-related vehicles as described in 63-3622HH, Idaho Code, regardless of use. (3-28-18)

n. Parts to repair recreation-related vehicles. (7-1-93)

o. Equipment used primarily to construct, improve, alter or repair real property. (7-1-93)

06. **Real Property.** The production exemption applies only to tangible personal property. It does not apply to real property or to tangible personal property purchased with the intention of becoming improvements or fixtures to real property. The production exemption does not apply to equipment and materials primarily used to improve real property. (3-20-14)

07. **Change in Primary Use of Property.** If tangible personal property is purchased for a use which qualifies for the production exemption but later is used primarily for another purpose, it becomes taxable at its fair market value when it ceases to qualify for the exemption. For instance, a loader may be used primarily in a mining operation when purchased. If the primary use of the loader is later changed from mining to road building, it becomes taxable at its fair market value when it ceases to be used for mining. If tax is paid on tangible personal property because no exemption applies at the time of purchase, and the property later becomes eligible for the production exemption, no refund is due the owner. (7-1-93)

08. **Transportation Activities.** Equipment and supplies used in transportation activities do not qualify for the production exemption. (7-1-93)

a. Transportation includes the movement of tangible personal property over private or public roads or highways, canals, rivers, rail lines, through pipelines or slurry lines, or on private or public aircraft. (7-1-93)

b. Transportation includes movements of tangible personal property from one separate location which is a continuous manufacturing, processing, mining, fabricating or farming activity to another separate location which
is a continuous exempt activity or process. (7-1-93)

c. Transportation includes movement of raw materials, except farm produce, from a point of initial extraction or severance or importation to a point where processing, manufacturing, refining or fabrication begins. See Rule 083 of these rules regarding farming. (3-15-02)

09. Exemption Certificate. To claim the production exemption the customer must complete an exemption certificate for the seller’s records. See Rule 128 of these rules. (3-15-02)

10. Special Rules. Special rules apply to irrigation equipment, contractors, loggers, and farmers who act as retailers. Refer to the specific rules relating to those subjects. (7-1-93)

080. LUMBER MANUFACTURING (RULE 080).

Section 63-3622D, Idaho Code

This rule is intended to illustrate the application of the production exemption to the lumber manufacturing industry. The provisions of this rule are based upon the usual methods of doing business used in the industry generally. Factual differences in the manner in which a specific taxpayer may conduct its business can result in determinations different from those stated in this rule. In cases not covered by this rule, the general principles stated in Rule 079 of these rules will control. Some equipment may be used for more than one purpose. Determinations of taxability will be based upon the equipment’s primary use. This rule is limited in application to the manufacturing of rough and finished lumber and does not encompass the manufacturing of plywood, particleboard, veneer, or paper products. (3-15-02)

01. Nontaxable Activities. Generally considered as nontaxable activities are the following: (7-1-93)

a. Log receiving including log loaders, cranes, and front end loaders. (7-1-93)

b. Log deck/log pond including log loading equipment and boats moving logs from the storage area to the debarker; sprinkler equipment when used for prevention of product deterioration; and devices used to detect metal in logs. (7-1-93)

c. Debarking equipment used to strip bark from logs including conveyor equipment for moving debarked logs further into the mill or for conveying bark when bark is used as boiler fuel or when conveying bark to a further processing stage. (7-1-93)

d. Chipper, used to produce chips including chip storage bins and pneumatic conveyors. (7-1-93)

e. Mill deck, as used for grading and cutting to length. (7-1-93)

f. Headrig/shotgun, as used for sawing logs. (7-1-93)

g. Edger, as used for edging rough lumber. (7-1-93)

h. Trimmer, as used for trimming to length. (7-1-93)

i. Resaw, as used for producing the proper thickness. (7-1-93)

j. Green chain, as used to determine according to size and species the amount of time required in the dry kiln. (7-1-93)

k. Dry kiln, as used to reduce moisture content. This exemption encompasses fire brick, steam pipe and fans inside the kiln but does not include improvements to real property. (7-1-93)

l. Unstackers. (7-1-93)

m. Planers, as used for finishing, grading and grade stamping of specialty products. (7-1-93)

n. Boiler when used for the generation of steam used to operate production equipment. (7-1-93)
o. Powerhouse when used to generate power used to operate production equipment. (7-1-93)
p. Waste collection, as used for the collection of waste products for use as fuel for the boiler, generally referred to as hog fuel. (7-1-93)
q. Lumber wrap and steel strapping used for packaging material. (7-1-93)
r. Pollution control equipment when required by a state or federal agency. (7-1-93)
s. Equipment used primarily to install exempt equipment. (7-1-93)
t. Equipment used primarily to fabricate exempt equipment. (7-1-93)
u. Safety equipment and supplies required by a state or federal agency and used in a production area. (7-1-93)
v. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (3-29-17)

02. Taxable Activities. Generally considered as taxable activities are the following: (7-1-93)
a. Saw filing activities using saw filing equipment and saw filing supplies. (7-1-93)
b. Shipping, including loading equipment and strapping, seals, and binders used in shipping activities to secure lumber on railroad cars, trucks, etc. (7-1-93)
c. Cleanup. (7-1-93)
d. Equipment used to repair or maintain production equipment. (7-1-93)
e. Equipment used primarily to construct, improve, alter or repair real property. (7-1-93)
f. Safety equipment and supplies used in an area where no manufacturing occurs such as an office, or which are not required by a state or federal agency even if used in a production area. (7-1-93)
g. Other items specifically identified as taxable in Rule 079 of these rules. (3-15-02)

03. Exemption Certificate. Persons engaged in lumber manufacturing who wish to purchase goods that qualify for this exemption without paying sales tax must complete an exemption certificate. See Rule 128 of these rules. (3-15-02)

081. UNDERGROUND MINING (RULE 081).
Sections 63-3605B & 63-3622D, Idaho Code
This rule is meant to show how the production exemption applies to the underground mining industry. This rule is based on the usual methods of doing business. Differences in the way a specific taxpayer conducts his business can result in determinations different from those in this rule. In cases not covered by this rule, the general principles in Rule 079 of these rules apply. Determinations of taxability are based on the primary use of equipment. (3-15-02)

01. Nontaxable Purchases. The following are generally considered nontaxable: (7-1-93)
a. Development of known ore deposits, including diamond drilling and other activities to develop levels, laterals, crosscuts, drifts, stopes, raises and shafts. (7-1-93)
b. Support materials, including, timber, concrete, rock bolts, shotcrete, matting, and equipment used to install them. (7-1-93)
c. Drilling of blast holes to facilitate the extraction of ore including pneumatic rock drills and compressors used to supply compressed air to operate pneumatic rock drills. (7-1-93)

d. Blasting to facilitate the extraction of ore using explosives, caps, fuses, etc. (7-1-93)

e. Slushing/mucking to convey broken ore and waste to passes and chutes using scrapers, slushers, muckers, hoists and loaders, and backhoes used to recover both ore and waste. (7-1-93)

f. Hauling, horizontal transportation, to transport ore, waste, men or materials from chutes into cars and the movement of the cars to shaft stations using skips, hoists, hoist cable, shafts, shaft timbers, shaft stations, shaft pockets, shaft guides, concrete, etc. (7-1-93)

g. Haulage, vertical transportation, to hoist ore, waste, men or materials in skips, using skips, hoists, hoist cable, shafts, shaft timbers, shaft stations, shaft pockets, shaft guides, concrete, etc. (7-1-93)

h. Transportation to the surface to load the ore, waste, men or materials into main haulage cars for transportation using locomotives, haulage cars, track and track spikes, fuel batteries used to power locomotives, and conveyors and conveyor belts. (7-1-93)

i. Backfilling to pump tailings back underground as hydraulic sandfill to backfill mined-out areas using, pumps, sumps, pipe, and concrete. (7-1-93)

j. Personal equipment including hard hats, miners’ lights, belts, and batteries. (3-25-16)

k. Sampling/assaying for quality control purposes. (7-1-93)

l. Safety equipment and supplies required by a state or federal agency when used directly in a mining area. (7-1-93)

m. Equipment used primarily to install production equipment. (7-1-93)

n. Equipment used primarily to fabricate production equipment. (7-1-93)

o. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (3-29-17)

02. Taxable Purchases. The following are generally considered taxable:

a. Diamond drilling activities used for exploration. (7-1-93)

b. Air ventilation and conditioning if an improvement to real property including fans, motors, vent ducts; coolers; and air doors. (7-1-93)

c. Water lines and pumps used to remove water from the mine if improvements to real property. (7-1-93)

d. Safety equipment and supplies used somewhere other than a mining area, such as an office, or not required by a state or federal agency even if used in a mining area. (7-1-93)

e. Maintenance and cleanup using backhoes, except when the primary use is to recover ore or waste; equipment used to repair or maintain mining equipment; battery maintenance equipment including battery chargers, and shop supplies and other materials or supplies which do not become a component part of production exempt equipment. (7-1-93)

f. Sampling/assaying for purposes other than quality control. (7-1-93)

g. Other items specifically identified as taxable in Rule 079 of these rules. (3-15-02)
03. **Exemption Certificate.** To claim this exemption underground miners must complete an exemption certificate for the seller’s records. See Rule 128 of these rules. (3-15-02)

082. **ABOVEGROUND, OPEN PIT, MINING (RULE 082).**
Sections 63-3605B & 63-3622D, Idaho Code
This rule is meant to show how the production exemption applies to the aboveground, open pit, mining industry. This rule is based on the usual methods of doing business in the industry. Differences in the way a specific taxpayer conducts his business can result in determinations different than those stated in this rule. In cases not covered by this rule, the general principles stated in Rule 079 of these rules apply. Determinations of taxability are made based on primary use of the equipment. This rule applies only to aboveground mining activities commonly referred to as open pit mining. (3-15-02)

01. **Exempt Purchases.** The following are generally considered nontaxable: (7-1-93)

   a. Drilling and blasting, to loosen overburden for removal or, to define limits of existing ore bodies using track drills, rotary drills, and compressors to operate them, drill rods, drill bits, explosives, caps, fuses, etc., for this purpose. (7-1-93)

   b. Ore and overburden extraction and removal using front end loaders, track loaders, power shovels, backhoes, scoop loaders, and similar equipment used to extract and load ore or strip and load overburden. (7-1-93)

   c. Hauling of ore and overburden to stockpiles, loading sites, or disposal sites on the mine site using scrapers, carryalls, and off-highway trucks and trailers. (7-1-93)

   d. Ore sorting, grading, sizing, and crushing operations, including unloading from transport devices using bulldozers, front end loaders, crushers, conveyors, and similar equipment. (7-1-93)

   e. Pollution control equipment required by a state or federal agency. See Section 63-3622X, Idaho Code. (7-1-93)

   f. Safety equipment and supplies required by a state or federal agency when directly used in a mining area. (7-1-93)

   g. Equipment used primarily to fabricate or install production equipment. (7-1-93)

   h. Equipment such as cranes, manlifts, and scissorslifts, used primarily to install production equipment. (7-1-93)

   i. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (3-29-17)

02. **Taxable Purchases.** The following are generally considered taxable: (7-1-93)

   a. Exploration, where the primary purpose is to discover new ore bodies using equipment, including rotary drills, drill rigs, blasting equipment, seismic equipment, cats, bulldozers, and other materials and supplies, primarily used for such activities. (7-1-93)

   b. Real property improvements, construction, and maintenance activities, including materials and equipment used primarily for constructing or maintaining buildings, fences, railroads, concrete pads and footings, and roads. Equipment, including cranes, concrete equipment, and post hole diggers primarily used for such purposes. Materials and supplies, including lumber, steel, roofing, trusses, fence posts, gates, and wire; and concrete, rebar, and remesh. (7-1-93)

   c. Maintenance and cleanup activities, including those where the primary purpose is to maintain equipment and facilities or cleanup grounds and roads, except where cleanup activities are done primarily to recover ore. Shop or other equipment used primarily to repair, clean, or maintain production equipment, including welders,
lathes, shop tools, hoists, cranes, mechanics’ trucks, oiling trucks and trailers, steam cleaners, and testing equipment. Shop and other materials and supplies which will not become a component part of production equipment.  

(7-1-93)

d. Land reclamation activities, including activities where mined ore pits or panels are filled in, shaped, and reseeded, including seed or seedlings, fertilizers, soil conditioners, soil, and bulldozers, scrapers, and seed drills primarily used for this purpose; however, equipment primarily used for ore and overburden extraction and loading is exempt, even though this equipment is also used in land reclamation.  

(7-1-93)

e. Transportation of personnel and materials, including transportation to and from worksites or about the mine in general using buses, people movers, trailers, trucks, or similar equipment.  

(7-1-93)

f. Equipment and supplies used in transportation activities where ore or overburden is moved between geographically separated mine sites, processing plants or disposal sites, if 1) a substantial break in the production activities occurs, and 2) the activity does not sort, grade, size, crush, or in some other way further process the ore. Transportation activities include loading, transporting, unloading, and stockpiling. A substantial break in the production activities occurs when the product is transported between geographically separated production sites by means of public roads, waterways, railways, railcars, or any other public means. The production facility to which the product is transported is a separate processing facility, and the equipment and supplies used to transport the product are subject to tax. Examples of taxable equipment include: trucks and trailers, whether licensed or unlicensed; railroad equipment; barges and other watercraft; pipelines; conveyors; front end loaders; and bulldozers. If the means of transport to processing plants, smelters, etc., does not constitute a substantial break in the process, such as a slurry line directly from the mine to the plant, then the loading and unloading activities are not taxable.  

(7-1-93)

g. Personnel support activities, including facilities, equipment, and supplies for eating, sleeping, and recreation. Examples include eating trailers, utensils and food, clothing provided to employees at no charge, and pool tables, beds, and linen.  

(7-1-93)

h. Other items specifically identified as taxable in Rule 079 of these rules.  

(3-15-02)

03. Exemption Certificate. To claim the production exemption, above ground miners must complete an exemption certificate for the seller’s records. See Rule 128 of these rules.  

(3-15-02)

083. FARMING AND RANCHING (RULE 083).

Sections 63-3603, & 63-3622D, Idaho Code

This rule is intended to illustrate the application of the production exemption to the farming and ranching industry. The provisions of this rule are based on the usual methods of doing business in the industry. Specific factual differences in the manner in which a specific taxpayer may conduct his business can result in determinations different from those stated in this rule. Cases not covered by this rule are controlled by the general principles stated in Rule 079 of these rules. Some equipment may be used for more than one purpose. Determinations of taxability will be based upon the equipment’s primary use.  

(3-15-02)

01. In General. Farming includes custom farming and the operation of a farm or ranch, and includes stock, dairy, poultry, fish, fur and truck farms, ranches, ranges, and orchards operated with the intention of making a gain or profit. Farming does not include operation of ranches or stables where the sole purpose is showing or racing horses, or the breeding of show or race horses.  

(7-1-93)

02. Property Primarily and Directly Used. As applied to the business of farming, the exemption applies to all tangible personal property which is primarily and directly used to conduct the farming business, and which is necessary or essential to the operation, except those categories of property listed in other sections of this rule.  

(7-1-93)

03. Directly Used. The term “directly used or consumed in or during” farming operation means the performance of a function reasonably necessary to the operation of the total farming business, including the planting, growing, harvesting, storage and removal from storage of crops and other agricultural products, and movement of crops and produce from the place of harvest to the place of initial storage.  

(3-29-17)

04. Transportation Activities. Equipment used to move farm produce to initial storage is exempt,
even though it may be mounted on a vehicle which is required to be licensed and is taxable. Equipment qualifies for this exemption if:

- It is readily removable from the vehicle on which it is mounted; 
- It is separately stated on the vendor’s invoice; and
- It is sold to a qualified farming operation and is supported by a valid exemption claim form.

05. Disinfectants Used in the Dairy Industry. Effective January 1, 1990, disinfectants used in the dairy industry to clean cow udders or to clean pipes, vats, or other milking equipment are exempt.

06. Safety Supplies. Safety supplies required by a state or federal agency and directly used in a farming operation are exempt from sales or use tax.

07. Plants. Plants, such as orchard trees and grape vines, are exempt.

08. Quality Control. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards.

09. The Farming Exemption Does Not Include:

- Property purchased to meet the personal needs of a farmer, his family, or employees. Examples of items that are excluded from the exemption include, but are not limited to, hand soap, toothpaste, shampoo, blankets, sheets, pillowcases, towels, washcloths, irrigation boots, coveralls, gloves, other clothing, and grocery items.
- Food and supplies purchased for barnyard and household pets, such as cat and dog food, are subject to the tax. Even though a dog may occasionally be used for herding livestock or a cat may control mice in the barn, the supplies purchased for their care and maintenance do not qualify for the production exemption. Only when a dog’s SOLE purpose is the herding or protection of a rancher’s livestock may the food and supplies for the dog be purchased tax exempt under the production exemption.
- Livestock trailers which may be attached to motor vehicles used to transport horses, cattle, sheep, or other farm animals on public roads are transportation equipment and are subject to sales or use tax.
- Motor vehicles required to be licensed are subject to sales or use tax even when used exclusively in a farming operation. Motor vehicles purchased, but not licensed, by a farmer for use exclusively in an off-road production activity, such as a feed truck, are not subject to sales or use tax.
- Other items specifically identified as taxable in Rule 079 of these rules.

10. Exemption Certificate. Farmers or ranchers who wish to purchase goods that qualify for this exemption without paying sales tax must complete an exemption certificate. See Rule 128 of these rules.

084. CONTAINERS RETURNABLE/NONRETURNABLE (RULE 084).

01. Container. A container encloses or will enclose tangible personal property which is sold at wholesale or retail. A container may be comprised of one (1) or more components. Items used as shipping supplies which do not enclose the product are not considered to be containers. Example: Cartons of canned goods are placed on a pallet. Shrink wrap is used to bind the cartons to the pallet. A shipping address label is affixed to the shrink wrap. The container includes the cans in which the goods are enclosed; the cartons in which the canned goods are placed; and the shrink wrap and pallet which enclose the cartons. The address label is not part of the container.

02. Containers Exempt from Tax. The following containers are exempt from sales or use tax.
a. Nonreturnable containers purchased by a retailer or wholesaler who places the contents in the container and sells the contents with the container at retail or wholesale, including cans, barrels, boxes, cartons, grocery sacks, disposable soft drink cups and lids, and other to-go fast food containers. (4-6-05)

b. Returnable containers when the container, along with the contents, is sold at retail if the fee for the container is separately stated, including returnable beer kegs, returnable barrels, and returnable pallets. (7-1-98)

c. Returnable containers when sold back to retailers or manufacturers for refilling. (7-1-98)

d. Returnable or nonreturnable containers when sold with contents that are exempted from the tax, regardless of whether or not the container is separately billed, including containers for prescription drugs, and oxygen or acetylene cylinders, when the use of the gases qualifies for the production exemption. (7-1-98)

03. Taxable Containers. Containers subject to sales and use tax include containers used by persons who are providing a service rather than selling a product, such as plastic clothing bags purchased by dry cleaners. (7-1-98)

04. Supplies. Shipping, selling, or distribution supplies are not considered to be containers and are subject to the tax when purchased by the shipper, seller, or distributor, such as:

a. Shipping pallets and lumber stickers when not banded or shrink wrapped to the product to be sold, thereby not becoming a part of the container. (7-1-93)

b. Banding or binders used to secure goods to transportation equipment. (7-1-93)

c. Price stickers and address labels affixed to containers that do not provide any product information such as weight, quantity, nutritional value, or other necessary product description. See Rule 042 of these rules. (4-6-05)

d. Example: Plywood is wrapped with lumber wrap. The bundles are rested on pallets for shipping. In this example the lumber wrap is the only container. As the bundles are not enclosed onto the pallet, the pallet is not a container and is instead a shipping supply subject to the tax. (7-1-93)

085. SALES TO AND PURCHASES BY NONPROFIT ORGANIZATIONS (RULE 085).

01. In General. The Sales Tax Act does not provide any general exemption for, charitable or nonprofit organizations, corporations, associations or other entities. Specific statutory provisions provide exemptions for some charitable organizations. Unless an exemption is clearly granted to a specific organization or to specific sales or purchases by a specific organization or a class of organization, no exemption applies. Special rules apply to religious organizations. See Rule 086 of these rules. (3-6-00)

02. Educational Institutions. Sales to and purchases made by non-profit educational institutions, as defined in Section 63-3622O, Idaho Code, are exempt from Idaho sales or use taxes. (3-6-00)

03. Health Related Entities. Sales to and purchases made by the specific health related entities listed in Section 63-3622O, Idaho Code, are exempt from Idaho sales or use taxes. Health related organizations not named are not entitled to any exemption from sales and use taxes as a health related entity. (3-6-00)

04. Hospitals. In addition to the health related entities listed in Section 63-3622O, Idaho Code, hospitals which are nonprofit institutions licensed for the care of ill persons are exempt. To qualify for the exemption the hospital must be a facility defined in Section 39-1301(a), Idaho Code, and licensed as provided in Chapter 13, Title 39, Idaho Code, or an equivalent law in another state. Hospitals operated for profit do not qualify for this exemption, nor do nursing homes, clinics, doctors’ offices, or similar facilities unless the organization qualifies for an exemption under Section 63-3622O, Idaho Code. (3-6-00)

05. Idaho Foodbank Warehouse, Inc. The Idaho Foodbank Warehouse, Inc. is a nonprofit
corporation which gathers food and food products at one (1) central location for distribution to food banks throughout Idaho. All sales to, donations to, and purchases by the Idaho Foodbank Warehouse, Inc., are exempt from sales and use taxes.

(3-6-00)

Example 1: The XYC Corporation purchases food from a grocer to donate to the Idaho Foodbank Warehouse, Inc. The XYC Corporation must pay sales tax on the purchase since they are not purchasing the food for resale and no other exemption applies.

(3-6-00)

a. Example 2: The Idaho Food Bank Warehouse, Inc. purchases office supplies. No tax is due on the purchase.

(3-6-00)

06. Food Banks and Soup Kitchens. Food banks or soup kitchens are nonprofit organizations, other than the Idaho Foodbank Warehouse, Inc., which, as one of their regular activities, furnish food to others without charge. Sales to, donations to, and purchases of food or tangible personal property used by food banks and soup kitchens other than the Idaho Foodbank Warehouse, Inc. to grow, store, prepare, or serve food are exempt from sales and use taxes. However, there is no exemption from the sales tax if goods are purchased with the intent and purpose of donation to a qualified organization. This exemption does not extend to the sale, purchase, or use of licensed motor vehicles by food banks or soup kitchens.

(3-6-00)

a. Example 1: A grocer removes food from his inventory of goods held for resale to donate to a food bank or soup kitchen. The grocer is exempt from the use tax on his cost of the inventory donated.

(3-6-00)

b. Example 2: The XYZ Corporation purchases food from a grocer to donate to a food bank. The XYZ Corporation is not purchasing the food items for resale, and no other exemption from sales tax applies. Sales tax must be paid on the purchase.

(7-1-93)

c. Example 3: A food bank purchases a licensed motor vehicle. The purchase is subject to sales tax because the motor vehicle is not used to grow, prepare, or serve food.

(3-6-00)

07. Red Cross. See Rule 094 of these rules.

(3-29-12)

08. Nonsale Clothiers. Nonprofit organizations, one of whose primary functions is to provide clothing to the needy without charge, may purchase the clothing without paying tax. Only clothing qualifies for the exemption. Other purchases by the organization are taxable. Clothing may also be removed from a resale inventory and donated to these organizations exempt from use tax. However, there is no exemption from the sales tax if goods are purchased with the intent and purpose of donation to a qualified organization.

(3-6-00)

a. Example 1: A department store removes clothing from resale merchandise to donate to a nonprofit, nonsale clothier. The store is exempt from the use tax on the cost of the inventory donated.

(7-1-93)

b. Example 2: A nonprofit, nonsale clothier purchases clothing and bed sheets from a department store to give to the needy. No tax is due on the clothing, but the store must charge the organization sales tax on the bed sheets.

(7-1-93)

09. Exemption Certificate. The organizations listed in this rule may make purchases without paying sales tax to the vendor by completing an exemption certificate. See Rule 128 of these rules.

(3-6-00)

10. Literature. The sale, purchase, use, or other consumption of literature, pamphlets, periodicals, tracts, books, tapes, audio CDs, and other literature which is produced in a machine readable format that are both published and sold by an entity qualified under Section 501(c)(3) of the Internal Revenue Code are exempt from the tax if no part of the net earnings benefits any individual or shareholder.

(3-6-00)

11. Sales by Nonprofit Organizations. An exemption from sales tax on sales to one of the foregoing entities does not constitute an exemption from the requirements to collect and remit tax when the entity makes taxable sales to purchasers not exempt from tax. When an exempt organization qualifies as a retailer the organization must register with the State Tax Commission, obtain a seller’s permit, and collect and remit sales taxes on sales as defined in Section 63-3612, Idaho Code, in the same manner and in accordance with the same statutes and rules which govern
all other retailers in the state. There are two (2) exceptions to this rule. (3-6-00)

a. Sales of places to sleep by the Idaho Ronald McDonald house are exempt from sales taxes. (3-6-00)

b. Sales of admissions by an entity qualified under Section 501(c)(3) of the Internal Revenue Code, or by an organization conducting an exempt function defined in Section 527 of the Internal Revenue Code when:

i. The event is not predominately recreational or commercial; and (3-6-00)

ii. Any entertainment value included in the admission charge is minimal when compared to the charge for admission; and (3-6-00)

iii. Such entity has paid a sales or use tax on taxable purchases or tangible personal property or services consumed during the event. (3-6-00)

12. Senior Citizen Centers. Sales to certain senior citizen centers are exempt from sales tax. The definition of “senior citizen center” in Section 63-3622O, Idaho Code, is the same as the definition of a “multipurpose senior center” as defined in the Older Americans Act, Title 42, Section 3002, United States Code. To qualify for the exemption the center must have been granted exempt status pursuant to Section 501(c) (3) of the Internal Revenue Code. Long-term care facilities do not qualify for this exemption. (4-2-08)

13. Free Dental Clinics. Sales to and purchases by organizations providing free dental care to children are exempt from sales and use tax. For the purposes of this exemption “children” shall mean persons under the age of eighteen (18). To qualify for the exemption property or services must be:

a. Purchased by an organization whose primary purpose is providing free dental care to children; and (4-2-08)

b. Primarily used by an organization whose primary purpose is providing free dental care to children. (4-2-08)

086. SALES AND PURCHASES BY RELIGIOUS ORGANIZATIONS (RULE 086).

01. In General. The Sales Tax Act does not provide a GENERAL exemption from sales or use tax for religious organizations. Other than the exemptions discussed in this rule, sales and purchases by religious organizations are subject to tax. (7-1-93)

02. Meals Sold by a Church to Members Only. An exemption is provided by Section 63-3622J, Idaho Code, for the sale of meals by a church to its members at a church function. For the exemption to apply, the meals must be sold to members only. (7-1-93)

a. If the meal is open to members only, the church may purchase the food without paying tax by providing the vendor of the food with a properly completed exemption certificate or, if the church holds an Idaho seller’s permit number, it may provide the vendor with a properly completed resale certificate. See Rule 128 of these rules. (3-15-02)

b. If the meal is open to persons other than members of the church, this exemption does not apply. See Subsection 086.03 of this rule. (3-15-02)

c. Food purchased to prepare meals which are not sold by the church, such as meals for resident pastors or for nuns living in a convent or associated with a hospital, is subject to tax. (7-1-93)

03. Incidental Sales by Religious Corporations or Societies. Incidental sales by religious organizations are exempt from sales taxes by Section 63-3622KK, Idaho Code, beginning July 1, 1990. The exemption applies to sales of tangible personal property and other sales defined as subject to sales tax by the Idaho
Code, including taxes imposed on providing hotel/motel and campground accommodations. For the exemption to apply, the following conditions must be met:

a. If selling tangible personal property, the goods sold must either have been taxed when purchased by the organization or received as a gift. (7-1-93)

b. The proceeds from the sales made by the organization must be used exclusively in the programs of the organization which may include any combination of religious worship, education, and recreation. (7-1-93)

c. The sale may not be made to the general public in the open market in regular business competition. (7-1-93)

d. Example 1: A church has a used clothing store. The items sold are not exempt from the sales tax because the store makes sales to the general public in regular competition with similar enterprises. (7-1-93)

e. Example 2: A church holds an annual pancake breakfast in its basement. The meal is advertised and open to the public. If the church pays tax on the breakfast ingredients, it is not required to collect sales tax on the sale of the meals. Although the meal is open to the general public, the church is not in REGULAR competition with other food-serving enterprises. (7-1-93)

f. Example 3: A school owned by a religious corporation sells school supplies and meals only to its students. If the school pays tax when it purchases these items, it is not required to collect sales tax on the sales to its students. If, however, the school has a bookstore or cafeteria which is open to the general public, it must collect the sales tax. (7-1-93)

g. Example 4: A school owned by a religious corporation sells admissions to its students to attend athletic events through the sale of activity cards, and also sells admissions to the general public. The school must collect sales tax. The sale is open to the general public and is in regular competition with other recreational events to which admissions are charged. (7-1-93)

04. Sales of Literature by a Nonprofit Corporation. Literature which is both published and sold by qualifying nonprofit corporations is exempt from sales tax. Refer to Rule 085 of these rules. (3-15-02)

087. LEASE OR RENTAL OF MOTION PICTURE TELEVISION FILM (RULE 087). The sales tax or use tax is not applicable to rentals or leases of motion picture film to theaters or other exhibiting enterprises where admission to the showing of films is subject to the sales tax. In the case of radio and television stations, the purchase of films, tapes or records is exempt. (7-1-93)

088. SALE OR PURCHASE OF MATTER USED TO PRODUCE HEAT BY BURNING (RULE 088).

01. Scope. Matter used to produce heat by burning shall include natural gas, liquefied propane, coal, wood, oil, petroleum, and their by-products. (7-1-93)

02. Limitation. The phrase used to produce heat by burning shall mean the act of incineration of materials defined in Subsection 088.01 of this rule in a furnace or similar device for the purpose of raising or maintaining the temperature in an enclosed space, dwelling, or building including a building under construction, and shall also include heating water and cooking. Heating fuel delivered in bulk to a dwelling or building for this purpose and properly identified as such by the vendor in his books and records, on the delivery ticket, and invoice to the customer relieves the vendor of the responsibility to obtain a sales tax exemption certificate, from the purchaser. (7-1-93)

03. Liquefied Propane. Sales of liquefied propane in units of fifteen (15) gallons or less, identified in the vendor’s records as cylinder sales, will be considered to be used to produce heat by burning as defined in Subsection 088.02 of this rule. These sales will not require that a sales tax exemption certificate be obtained from the purchaser, and shall be exempt from the tax regardless of the use to which the purchaser places the liquefied propane. (3-15-02)
04. **Documentation of Other Exempt Sales.** All other sales of natural gas, liquefied propane, coal, wood, oil, petroleum, and its by-products are subject to the tax, unless specifically exempted or excluded elsewhere in the Sales Tax Act. Such exempted or excluded sales must be documented in the following manner: (7-1-93)

   a. If purchased for resale, the vendor must obtain a properly executed resale certificate. See Rule 128 of these rules. (3-15-02)

   b. If purchased to produce heat by burning as defined in Subsection 088.02 of this rule and not bulk delivered to the customer by the vendor, the vendor must either obtain a properly executed exemption certificate from the purchaser, or require the purchaser to complete a stamped or imprinted statement on the face of the sales invoice containing the following language:

   I certify that the gas I have purchased will be used in a furnace or similar device for the purpose of water heating, cooking, or raising or maintaining the temperature in an enclosed space, dwelling, or building.

   This tax exemption statement qualifies if this statement is signed by the purchaser and the name and address of the purchaser is shown on the invoice.

   Any person who signs this certificate with the intention of evading payment of tax is guilty of a misdemeanor.

   BUYER’S SIGNATURE

   The signature of the purchaser on this statement must be in addition to any other signature required on the invoice. (7-1-93)

   c. If the purchaser claims an exemption from the tax for reasons other than heat by burning, a properly executed exemption certificate must be obtained. See Rule 128 of these rules. (3-15-02)

089. **BOY SCOUT, GIRL SCOUT AND 4-H GROUP SALES AND PURCHASES (RULE 089).**

   01. **Sales by Scout and 4-H Groups.** In general, when a Scout or 4-H group makes retail sales to their members or to the public, they are a retailer and must obtain an Idaho seller’s permit number. (7-1-93)

   a. Sales to Members. Tangible personal property sold to members is subject to sales tax, including badges, insignia, uniforms, and magazines. Camp fees are subject to sales tax. Dues charged to members are not taxable. (7-1-93)

   b. Sales by Members. Sales of tangible personal property by members, such as cookies, food, and magazines are subject to the sales tax. The club is responsible for the collection and remittance of the tax. (7-1-93)

   c. Sales of Animals. Sales of animals in conjunction with a fair or at the Western Idaho Spring Lamb Sale by 4-H or FFA club members are not taxable. (7-1-93)

   02. **Purchases by Scout and 4-H Groups.**

   a. When a fee is charged to members to attend a camp, the food for the camp may be purchased by the club without paying tax. The club must provide the retailers of the food a validly executed resale certificate. See Rule 128 of these rules. (3-15-02)

   b. Other tangible personal property purchased for resale to members of the club or to the public may be purchased without tax as in Subsection 089.02.a. of this rule. (3-15-02)

   c. Materials and supplies purchased by the club for its own use and not for resale are subject to the tax. The club must pay tax to the vendor. (7-1-93)
090. GAS, WATER, ELECTRICITY DELIVERED TO CUSTOMERS (RULE 090).
Section 63-3622F, Idaho Code

01. In General. Gas, water and electricity delivered to customers shall include those products of public or private utility service or user's cooperative or similar organizations when sold to customers for such customer's use. (7-1-93)

02. Telephone Service. Electricity shall also include the dial tone for telephone utility service. (7-1-93)

091. SALES TO INDIANS (RULE 091).

01. Sales to Indians. Indians may make sales tax free purchases if these purchases are made within the boundaries of an Indian Reservation. The retailer must insist upon proof of the fact that a purchaser is an enrolled member of an Indian tribe. Presentation of an identification card issued by one (1) of the Indian tribes will be acceptable for this purpose. (7-1-93)

02. Records. The retailer must maintain records in support of these exempt sales. Any of the following methods may be accepted by the Tax Commission:

a. Recording of the purchaser's name and number from the purchaser's tribal identification card on the sales slip. (7-1-93)

b. Recording the name and number from the purchaser's tribal identification card on the cash register tape beside the record of the purchase. (7-1-93)

c. Completion of an exemption certificate recording the number from the purchaser's tribal identification card. (7-1-93)

03. Sales of Motor Vehicles to Indians. See Rule 107 of these rules. (7-1-93)

092. OUT-OF-STATE SALES (RULE 092).

01. Out-of-State Sales. Section 63-3622Q, Idaho Code, does not distinguish between purchases made by Idaho residents and nonresidents. The purchase of tangible personal property for delivery by the seller outside the state through either a common carrier, U.S. mails or seller's delivery service is not subject to sales tax. (7-1-93)

02. Records. The seller must maintain records to support the exemption claimed in this fashion. Shipping data in the form of bills of lading, postal receipts or invoices setting forth the out-of-state destination with adequate supporting documentation will be accepted as evidence of the exemption. (7-1-93)

093. SALES AND USE TAX LIABILITY OF FEDERAL AND STATE CREDIT UNIONS, NATIONAL AND STATE BANKS, AND FEDERAL AND STATE SAVINGS AND LOAN ASSOCIATIONS (RULE 093).

01. Purchases by Credit Unions. Purchases by Federal Credit Unions are exempt from sales and use tax under the provisions of 12 U.S.C. 1768. Purchases by state-chartered credit unions are exempted from sales and use tax by Section 26-2138, Idaho Code, and purchases by Idaho corporate credit unions are exempted from sales and use tax by Section 26-2186, Idaho Code. (7-1-93)

02. Purchases by Banks and Savings and Loan Associations. Purchases by national and state banks, as well as federal and state savings and loan associations, are subject to sales and use tax. (7-1-93)

03. Sales by Credit Unions, Banks, Savings and Loan Associations. When acting as a retailer, all retail sales made by credit unions, banks, and savings and loan associations are subject to sales tax. (7-1-93)
094. EXEMPTIONS ON PURCHASES BY POLITICAL SUBDIVISIONS, SALES BY THE STATE OF IDAHO, ITS DEPARTMENTS, INSTITUTIONS, AND ALL OTHER POLITICAL SUBDIVISIONS (RULE 094).

01. In General. This rule governs application of the sales and use tax to governmental instrumentalities. As used herein, the term governmental instrumentalities means the state of Idaho, its agencies, departments or institutions and all political subdivisions of the state of Idaho; but does not include other states, their agencies, departments, or institutions and political subdivisions. (7-1-93)

02. Extent of Exemptions. The state and all its agencies, departments and institutions are exempt from the sales and use tax. This exemption does not extend to corporations, the stock of which is owned in whole or in part by the state, nor does it extend to private agencies to which the state contributes funds. The exemption only applies in the case of purchases made directly by the state, its agencies, departments, and institutions. (7-1-93)

03. Political Subdivisions. Political subdivisions of this state are also exempt from payment of the sales and use tax. A political subdivision is a governmental organization which embraces a certain territory organized for public advantage and not in the interest of private individuals or classes to which has been delegated certain functions of state government. In addition to this, a political subdivision has the power to levy taxes. Included within the definition of political subdivisions would be all counties, municipalities, townships, towns and villages, public school districts, cemetery maintenance districts, fire protection districts, local improvement districts and irrigation districts. Canal companies and ditch companies do not come within the scope of this exemption. (7-1-93)

04. Purchases by Contractors. Contractors are consumers under Idaho tax law. Purchases made by contractors are subject to tax even though they are to be applied to use on a state or political subdivision construction project. (7-1-93)

05. Sales by Political Subdivisions. Sales by the state, its departments or institutions, counties, cities, school districts or any political subdivision are subject to sales tax which is to be collected by the political subdivision. If taxable sales are made, a permit is required. This permit is to be obtained by each sales outlet or by the office at which regular and current sales records are maintained. Examples of taxable sales are all sales of tangible personal property, admission charges, fees to use recreational facilities, recreational program fees, copies of documents for which a fee is not set by Idaho Code and garbage service when receptacles or dumpsters are provided by the service and part of the fee represents rental of the receptacle. (7-1-93)

a. Taxable sales. Taxable sales of tangible personal property will include sales of: code books; books sold by library, book fairs, etc.; maps; crime prevention signs; calendars; cafeteria sales to employees or the public; office supplies or any sale to employees; concession stands; trees, shrubs, or bedding plants; items sold to prisoners, such as cigarettes, candy, pop, etc., through vending machines (tax is to be computed on one hundred seventeen percent (117%) of acquisition cost if the machine is operated by the political subdivision); chemicals for noxious weeds; unclaimed property; chemicals for pest control; surplus property-assets; gravel, culverts, or pipe; uniforms to employees; equipment rentals with no operator; grave markers; rental of other property, golf carts, swimsuits; and nonresident or resident library cards. See Rule 058 of these rules. (7-1-93)

b. Admission charges. Taxable admission charges will include those fees for using golf courses and swimming pools, for attending athletic events, concerts, fireworks displays, and fund raising events. (3-4-10)

c. Use of facilities for recreation. Taxable use of facilities for a recreational purpose will include receipts from the use of park structures, picnic tables, fair grounds, rodeo grounds, gymnasiums, ball parks, snowmobile areas and campground areas. Exception: If an individual or organization rents or leases one of these facilities and charges admission to each person using the facility, tax will not be required on its rental or lease of the facility. However, the individual or organization will be required to register and apply for a seller’s permit number, under which the tax on the admission will be reported and paid. See Rule 030 of these rules. (7-1-93)

d. Recreation program fees. Fees to participate in recreational programs are taxable. Some examples of these programs are city recreational programs in softball, baseball, basketball and football. If instruction is included in such activities as tennis, golf or swimming, the tax will not be due on the separately stated instructional portion of the total fee. If not separately stated, the entire fee is taxable. (7-1-93)
e. Garbage service. Garbage service is taxable on that portion of the total charge which is the rental of the receptacle such as a dumpster. If the statement for service includes the rental of the dumpster or other receptacle but the rental charge is not separately stated, the entire cost of the service is taxable. (7-1-93)

f. The examples cited above are not inclusive. (7-1-93)

06. Federal Government. Sales to and purchases by the federal government and its instrumentalities are not subject to Idaho sales or use taxes except as provided by federal laws or regulations. Federal law also prevents the state of Idaho from imposing sales tax on any sales by the federal government or its instrumentalities. For purposes of Idaho sales and use tax, the American Red Cross is an instrumentality of the federal government. (3-29-12)

07. Other States. Sales to and purchases by states OTHER than Idaho and their political subdivisions are subject to the tax if delivery occurs in this state. (7-1-93)

095. MONEY-OPERATED DISPENSING EQUIPMENT (RULE 095).

01. Money-Operated Dispensing Equipment. The sale, purchase, lease, or rental of money-operated dispensing equipment is exempt from tax if the equipment is only used to dispense a tangible product, amusement, or service on which a retail sales tax is imposed by the state of Idaho. (4-4-13)

a. Money-operated dispensing equipment includes equipment operated by a debit or credit card. (4-4-13)

02. Parts, Kits, or Supplies. This exemption does not apply to parts, kits, or supplies used to repair, refurbish, or upgrade the dispensing equipment. Refer to Section 63-3622II, Idaho Code. (7-1-93)

096. IRRIGATION EQUIPMENT AND SUPPLIES (RULE 096).

Section 63-3622W, Idaho Code

01. Agricultural Irrigation. The Sales Tax Act exempts all irrigation equipment and supplies which are used directly for agricultural irrigation. To qualify for the exemption, the irrigation equipment or supplies must be used directly and primarily for agricultural irrigation purposes. If the use of the particular equipment or supplies is only incidental or only indirectly related to the agricultural irrigation process, the exemption will not apply. Examples include: (3-29-17)

a. An off-highway motorbike or all-terrain vehicle, ATV, used to transport men or equipment is indirectly related to the irrigation process. (7-1-93)

b. Irrigation boots worn to protect the irrigator are incidental to the process and subject to the tax. (7-1-93)

02. Nonagricultural Irrigation Equipment or Supplies. Irrigation equipment or supplies used for any purpose other than agriculture are not exempt. For example, irrigation pipelines or sprinkler systems used on a golf course are taxable. (7-1-93)

03. Real Property Improvements. The exemption applies regardless of whether the equipment becomes a part of real estate. It is not necessary to distinguish between pipeline which retains its identity as tangible personal property and pipeline which may become incorporated into real property such as buried mainline pipe. (7-1-93)

04. Title to Equipment. The exemption applies regardless of whether the equipment is installed by a farmer, a contractor, or a subcontractor. The incidence of tax will not turn upon the determination of whether title to the irrigation equipment passed at the time of sale or subsequent to installation. (7-1-93)

05. Exemption Certificate. A purchaser’s right to the exemption shall be documented by the use of an
exemption certificate in the manner prescribed by Rule 128 of these rules. (3-15-02)

097. YARD SALES (RULE 097).

01. In General. Tangible personal property may be sold tax exempt at a home yard sale if the yard sale meets the qualifications specified in this rule. A home yard sale is characterized by the following: (7-1-93)

a. The sale must be of short duration lasting no more than a few days. (7-1-93)

b. The seller may not be in the business of regularly selling the same or similar property as that which is offered for sale at the yard sale. (7-1-93)

c. The items offered for sale at the yard sale may not be items which are specifically purchased for the purpose of reselling them. (7-1-93)

d. The items offered for sale must be owned by the seller, no consignment sales may be made. (7-1-93)

e. The sale must be conducted on the residential premises of the seller. (7-1-93)

02. Exempt Yard Sales. An individual seller may only conduct two (2) exempt yard sales in the course of one (1) calendar year. Two (2) or more sellers may join together to conduct a single yard sale which will be considered to be a sale conducted by both such sellers. A home yard sale will include sales referred to as garage sales, moving sales, and other similar such sales if the prerequisites of this rule are otherwise met. (7-1-93)

098. FOREIGN DIPLOMATS (RULE 098).

01. In General. The United States Government grants immunity from state taxes to diplomats from certain foreign countries. The diplomat is issued a federal tax exemption card by the U.S. Department of State. The cards are nontransferable and bear a photograph of the holder, a federal tax exemption number, and specific instructions as to the extent of the exemption granted to the diplomat. (5-3-03)

02. Federal Tax Exemption Cards. Federal tax exemption cards list all restrictions on tax exemptions on the face of the card, including whether or not the card privileges extend to both official and personal purchases. (3-29-12)

03. Documentation. Retailers must document an exempt sale to a foreign diplomat by: (7-1-93)

a. Retaining a photocopy of the front and back of the federal tax exemption card to support the exempt sale; or (7-1-93)

b. Recording for their permanent record the name of the bearer, the mission represented, the federal tax exemption number displayed on the card, the date of expiration, and the nature of the exemption granted to the diplomat. (7-1-93)

099. OCCASIONAL SALES (RULE 099).

Sections 63-3622K, & 63-3622HH, Idaho Code

01. Occasional Seller. Sales of tangible personal property by an occasional seller are exempt from sales and use tax. In order to qualify as an occasional sale, the seller must not make more than two (2) sales of tangible personal property in a twelve (12) month period, nor hold himself out as engaged in the business of selling tangible personal property. (7-1-98)

a. If the sale does not qualify as an occasional sale, the seller becomes a retailer, is required to register for an Idaho seller’s permit, and must collect and remit sales tax. See Section 63-3610, Idaho Code. (7-1-98)

b. Proof of occasional sale. An occasional seller of tangible personal property must provide a written
statement to the purchaser if requested. An occasional seller of a transport trailer or office trailer may use Form ST-108TR to document his occasional sale claim. For occasional sales of other tangible personal property, the purchaser must obtain a written statement from the seller verifying that the seller is not a retailer and has made no more than one (1) other sale of tangible personal property within the last twelve (12) months. The seller’s name and address, the date, and the seller’s signature must appear on the statement. The purchaser must retain the occasional sale statement provided by the seller as evidence that the purchase of the tangible personal property is not subject to use tax.

(3-25-16)

c. Sales arranged by a third party are taxable. If any sales agent, licensed or unlicensed, participates in the sale of tangible personal property, the sale is taxable. See Rule 020 of these rules. (3-15-02)

02. Change in the Form of Doing Business. A change in the form of doing business qualifies for an occasional sale exemption when the ultimate ownership of the property is substantially unchanged. Example: The incorporation of a partnership qualifies for an occasional sale exemption when substantially all of the property owned by the partnership is transferred to the corporation, and the stockholders of the corporation own substantially the same proportion of the corporation’s stock as they owned in the partnership interest as partners. (7-1-93)

03. Bulk Sale -- Sale of an On-Going Business. The sale of substantially all of the operating assets of a business or of a separate division, branch, or identifiable segment of a business qualifies for the occasional sale exemption if:

a. The purchaser continues the same type of business operation; and

b. Prior to the sale the income and expenses attributable to the separate division, branch, or identifiable segment can be determined from the accounting records and books.

c. Example: Corporation X sells its entire wood products division to Corporation Y, which continues to operate it in substantially the same form. The transaction qualifies for an occasional sale exemption. (7-1-93)

04. Sale of a Motor Vehicle Between Family Members. Sales of motor vehicles between family members related within the second degree of consanguinity, blood relationship, qualify for the occasional sale exemption but only if the seller paid a sales or use tax when the motor vehicle was acquired.

a. Example 1: A brother sells his automobile to his sister. The brother purchased the car from an Idaho dealer and paid Idaho sales tax on the original purchase. No tax applies to the sale of the vehicle to the sister. (7-1-93)

b. Example 2: A mother sells her automobile to her son for five thousand dollars ($5,000). The mother is an Oregon resident and did not pay a sales or use tax when she purchased the automobile. The son, who is a resident of Idaho, must pay Idaho use tax on the five thousand dollar ($5,000) purchase price of the automobile. (7-1-93)

05. Transfers Between Related Parties. The transfer of capital assets between related parties qualifies for an occasional sale exemption, but only if the person transferring the asset has paid a sales or use tax when the asset was acquired. Exempt transfers between related parties include: capital assets transferred in and out of businesses by owners, partners, shareholders stockholders, when the transfer is made only in exchange for equity in the business, and capital assets transferred between a parent corporation and its subsidiary, if the parent owns at least eighty percent (80%) of the subsidiary, and transfers between subsidiary corporations with a common parent, if the parent owns at least eighty percent (80%) of both, and if the transfers are made only in exchange for stock or securities.

a. Example: Two (2) individuals form a partnership. Each contributes a car in exchange for a percentage of ownership in the business. If each partner paid sales tax when he purchased his vehicle, no sales tax applies to the transfer of the vehicle into the partnership. (7-1-97)

b. Example: Three (3) individuals are equal partners in a construction business. They dissolve the partnership, and each person takes one-third (1/3) of the capital assets as his share of the equity in the business. If tax
was paid on the assets when they were purchased by the partnership, sales tax does not apply to the transfer of the assets from the partnership to the co-owners.  

(7-1-93)

c. Example: A corporation-owned car is given to a shareholder as a bonus for special accomplishments. There is no change in the recipient’s shareholdings. The shareholder must pay tax on the bonus based on the value of the car, regardless of whether the corporation paid tax when the car was purchased. The exemption does not apply because the transfer of the car did not change the shareholder’s equity.  

(7-1-93)

06. **Sales and Rentals to Related Parties.** The sale of a capital asset to a related party qualifies for the occasional sale exemption, but only if the seller has paid sales or use tax when the asset was acquired or if the seller acquired the asset from a related party who paid sales tax on acquisition of the asset. Rentals and leases of capital assets between related parties will also qualify for the occasional sale exemption, but only if the initial related party paid sales tax upon acquisition of the asset. If the initial purchaser does not pay sales or use tax upon the purchase of a capital asset and then leases the asset to a related party, the lessor must collect and remit sales tax on the lease payments. The lease payments must also represent a reasonable rental value for the asset. Exempt transactions between related parties include sales, rentals, and leases of capital assets other than aircraft, boats and vessels, snowmobiles, off-highway motorbikes, and recreational vehicles, as defined by Section 63-3622HH, Idaho Code, such as the following:

(4-11-06)

a. Sales to family members, but only if all parties to the sale are related within the second degree of consanguinity, relationship by blood, or affinity, relationship by marriage, i.e., spouses, children, parents, brothers, sisters, or grandparents. Example: A father and son are the stockholders of Corporation A. This corporation sells a business asset to Proprietorship B, which is owned by the son’s grandfather. This sale is exempt as long as Corporation A paid sales tax when the asset was acquired.  

(7-1-98)

b. Sales in which the new owners are identical to the prior owners. Example: Corporation B owns one hundred percent (100%) of Corporation A. If the initial purchaser paid tax when it acquired an asset, it may sell the asset to the other without tax. Example: John Doe owns one hundred percent (100%) of a corporation. He buys a truck and pays sales tax. He later sells the truck to his corporation. No tax applies to the sale of the truck to the corporation. Example: A and B each own fifty percent (50%) of a partnership. The partnership buys a capital asset and pays sales tax to the vendor. The partnership immediately leases the asset to Corporation C. A owns ten percent (10%) of Corporation C and B owns ninety percent (90%) of Corporation C. Since the percentages of ownership of the partnership and the corporation are not identical, the lease transaction does not qualify for the occasional sale exemption. The partnership must seek a refund of the sales tax paid on acquisition of the asset and collect and remit sales tax on the lease payments.  

(7-1-97)

07. **Motor Vehicles.** Sales of licensed motor vehicles are not considered occasional sales and are taxable, except under the provisions of Subsections 099.02 through 099.06 of this rule. If a motor vehicle transfer qualifies for an exemption under Subsections 099.02 through 099.06 of this rule, the purchaser must complete an appropriate exemption claim form prior to applying for an Idaho motor vehicle title. See Rule 107 of these rules regarding sales of licensed motor vehicles that do not qualify as occasional sales and the appropriate exemption claim form.  

(4-11-06)

08. **Sales of Business Assets.** Also excluded from the category of occasional sales, other than as provided by Subsection 099.06 of this rule, are sales of assets or other items of tangible personal property used in an activity requiring a seller’s permit. Even though the item sold is not of the type normally sold by the seller in his regular course of business, the sale is subject to the tax. Example: A construction equipment dealership sells its office computer. Even though the seller does not normally sell computers, it must collect sales tax on the sale of the computer as the computer is used in a business requiring a seller’s permit.  

(7-1-93)

09. **Taxable Sales of Aircraft, Boats, and Recreation Related Vehicles.** The occasional sale exemptions defined in Subsections 099.01 and 099.06 of this rule do not apply to the sale or purchase of the following:

(7-1-97)

a. Snowmobiles, including those required to be numbered as provided by Section 67-7102, Idaho Code.  

(7-1-97)
b. Off-highway motorbikes and dual purpose motorcycles. A dual purpose motorcycle is designed for use off developed roadways and highways, but is also equipped to be legally operated on public roadways and highways. (7-1-93)

c. All-terrain vehicles, ATVs, but not including tractors. A tractor is a motorized vehicle designed and used primarily as a farm implement for drawing plows, mowing machines, and other farm implements. (7-1-93)

d. Portable truck campers designed for temporary living quarters, but not including pickup shells or canopies that do not have a floor. (7-1-93)

e. Camping, travel, fifth-wheel travel-type trailers and park model recreational vehicles designed to provide temporary living quarters. (3-28-18)

f. Motor homes. (7-1-93)

g. Buses and van-type vehicles when converted to recreational use as temporary living quarters and providing at least four (4) of the following facilities: cooking; refrigeration or icebox; self-contained toilet; heating or air conditioning; a portable water supply system including a faucet and sink; and separate one hundred ten to one hundred twenty-five (110-125) volt electrical power supply or LP gas supply. (7-1-93)

h. Aircraft, meaning any device which is designed or used for navigation of or flight in the air, except a parachute or other device designed for such navigation but used primarily as safety equipment. See Rule 037 of these rules regarding other exemption provided for aircraft. (3-15-02)

i. Boats or vessels, meaning every description of watercraft used or capable of being used as a means of transportation on water. Example: A nonretailer sells a boat and boat trailer to an Idaho resident. The sale of the boat does not qualify for the occasional sale exemption and is subject to the tax. The sale of the boat trailer may qualify for the occasional sale exemption if the sales price of the boat trailer is separately stated on the bill of sale and an occasional sale affidavit is provided by the seller. (7-1-93)

10. Exempt Sales of Aircraft, Boats, and Recreation-Related Vehicles. Sales of aircraft, boats, or recreation-related vehicles under the provisions of Subsections 099.02 or 099.03 of this rule are exempted from the tax. Transfers of aircraft, boats, or recreation-related vehicles under the provision of Subsection 099.05 of this rule are exempted from the tax. The provisions of Subsection 099.04 of this rule apply to the sale of motorized, on-highway recreation-related vehicles. (7-1-98)

11. Exclusion from the Occasional Sale Exemption. Section 63-3622K, Idaho Code, excludes from the occasional sale exemption the use of tangible personal property used to improve real property when such property is obtained, directly or indirectly, from a person in the business of making like or similar improvements to real property. This exclusion applies only to building materials and fixtures that will be incorporated into real property. Sales of construction equipment such as loaders, backhoes, and excavators may still be included within the definition of “occasional sale” if the seller meets all the other requirements of the exemption. (4-11-06)

a. Example. A contractor enters into a contract to fabricate and install a wrought iron gate. The contractor fabricates the gate but prior to installation the building owner decides to install the gate himself and purchases it from the contractor. The building owner’s purchase does not qualify for the occasional sale exemption. (4-11-06)

b. Example. A contractor has a backhoe that he uses in his contracting business. He sells the backhoe to another contractor. If the seller is not a retailer, as defined by statute, the sale can still qualify as an exempt occasional sale. (4-11-06)
appliances, dental prostheses including crowns, bridges, inlays, overlays, prosthetic devices, durable medical equipment, eyeglasses, contact lenses, and certain other medical equipment and supplies specifically named in Section 63-3622N, Idaho Code, when:

a. Purchased by a practitioner to be administered or distributed to his patients if such practitioner is licensed by the state under Title 54, Idaho Code, to administer or distribute such items, or when; (3-29-17)

b. Purchased by or on behalf of an individual under a prescription or work order issued by a practitioner who is licensed by the state to practice one of the following professions: physician, physician assistant, surgeon, podiatrist, chiropractor, dentist, optometrist, psychologist, ophthalmologist, nurse practitioner, denturist, orthodontist, audiologist, or hearing aid dealer or fitter. Items purchased under the prescription or work order of a person who is not a health care practitioner specifically named in Section 63-3622N(b), Idaho Code, will not qualify for the exemption. (5-8-09)

c. Example: A physician issues a prescription for a wheelchair to a nursing home patient. The nursing home delivers the prescription to a wheelchair retailer and purchases the wheelchair on behalf of the patient. No tax applies. (7-1-93)

d. Example: A nursing home purchases wheelchairs for general use in its facility. Since the wheelchairs are not purchased under prescription for a specific patient, sales tax applies. (7-1-93)

02. Seller Must Document Exempt Sale. The seller must keep the written prescription or work order on file to document the exemption. Sales made without a prescription or work order are subject to tax. The seller must be able to identify sales which are exempt under prescription from sales which are taxable. (7-1-93)

a. Refills of prescriptions on file with a seller are exempt from tax. (7-1-93)

b. Some drugs may be lawfully sold without a prescription. When sold over the counter without a prescription, the drugs are subject to sales tax. When sold under a prescription, the drugs are exempt from tax. (7-1-93)

03. Purchases by Practitioners. A practitioner, who is licensed under Title 54, Idaho Code, to administer or distribute a medical product listed in Section 63-3622N, Idaho Code, may purchase the item exempt from tax by issuing his supplier an exemption certificate required by Rule 128 of these rules. Only the medical items named in Section 63-3622N, Idaho Code, which the practitioner is licensed to administer or distribute qualify for this exemption. (3-15-02)

04. Purchases by Nursing Homes and For Profit Hospitals. The Sales Tax Act does not provide a general exemption from tax for purchases made by nursing homes and similar facilities or by hospitals operated for profit. Tax must be paid on all purchases, with two (2) exceptions. The institution may purchase medical items exempted by Section 63-3622N, Idaho Code, if:

a. The purchase is made on behalf of a patient under a prescription or work order from a practitioner licensed to prescribe such items; or (7-1-93)

b. The purchased items can only be administered by a practitioner licensed to administer such items. (7-1-93)

c. An exemption certificate must be completed and provided to the vendor of the exempted items. See Rule 128 of these rules. (3-15-02)

05. Sale of Eyeglasses, Contact Lenses, and Related Products. The sale of non-prescription eyeglasses, non-prescription contact lenses and related products, such as carrying cases, non-prescription sunglasses, and cleaning solutions is subject to the sales tax. (3-29-17)

a. The sale of eyeglasses and their frames, lenses, nose pieces, hinges, and related eyeglass component parts required as part of a finished pair of eyeglasses sold under a prescription is exempt from sales tax on
b. The sale of prescription contact lenses on and after July 1, 2016, is exempt from sales tax. (3-29-17)

06. Dental and Orthodontic Appliances. The sale or purchase of dentures, partial plates, dental bridgework, orthodontic appliances, and related parts for such items by a dentist, denturist, orthodontist or other practitioner is not a taxable sale. (3-29-17)

101. MOTOR VEHICLES AND TRAILERS USED IN INTERSTATE COMMERCE (RULE 101).

01. In General. An exemption is provided from the sales and use tax for the sale or lease of motor vehicles and trailers to commercial or private carriers to be substantially used in interstate commerce. This exemption is commonly called the IRP Exemption. Commercial or private carriers are in the business of transporting persons or commodities owned by the carrier or another. Farm vehicles or noncommercial vehicles as defined by Section 49-123, Idaho Code, do not meet the requirements of the IRP exemption. (4-4-13)

02. Motor Vehicles. To qualify for the exemption, a purchaser must:

a. Immediately register the vehicle with a maximum gross weight of over twenty-six thousand (26,000) pounds; (4-6-05)

b. Register the vehicle under the International Registration Plan (IRP); and (4-4-13)

c. Operate the vehicle in a fleet of vehicles under the International Registration Plan (IRP) with a minimum of ten percent (10%) of the fleet miles operated outside the state of Idaho. (4-4-13)

03. Trailers. An exemption is provided from the sales or use tax for trailers when the purchaser will:

a. Immediately place the trailer in a fleet of vehicles registered under the International Registration Plan (IRP); and (4-4-13)

b. The trailer will be part of a fleet of vehicles with a minimum of ten percent (10%) of the fleet miles operated outside the state of Idaho under the International Registration Plan (IRP). (4-4-13)

04. Title or Base Plate. The exemption applies whether the motor vehicles and trailers are titled or base plated in Idaho or another state or nation. (7-1-93)

05. Documentation. Purchasers claiming this exemption must provide the seller or lessor with a properly completed Form ST-104MV, Sales Tax Exemption Certificate-Vehicle. When a vehicle qualifying for this exemption is purchased from a retailer who is not registered to collect Idaho sales tax, the Form ST-104MV must be completed by the purchaser and provided to the county assessor or Department of Transportation when titling or registering the vehicle in Idaho. (7-1-93)

06. Repair Parts and Supplies. The exemption does not apply to parts, supplies, or other tangible personal property purchased by persons engaged in interstate commerce. Purchases of glider kits as defined by Section 49-123, Idaho Code, will qualify if they are assembled into glider kit vehicles that will be immediately registered under the International Registration Plan (IRP). (7-1-93)

07. Failure To Meet Interstate Mileage Requirement. The use of a fleet of trucks and trailers, purchased exempt under the IRP exemption provided by Section 63-3622R, Idaho Code, will become taxable as of June 30 of any year in which the fleet’s out-of-state mileage is less than ten percent (10%) of the total fleet mileage during the previous four (4) quarters. (4-4-13)

102. LOGGING (RULE 102). Section 63-3605A, & 63-3622JJ, Idaho Code
01. In General. The Sales Tax Act provides an exemption from sales and use taxes for certain tangible personal property used in logging activities. The provisions of this rule are based on the usual methods of doing business in this industry. Specific factual differences in the way a specific taxpayer may conduct his business can result in determinations different from those stated in this rule. Since some equipment may be used for more than one purpose, determinations of taxability will be made based upon the primary use of the equipment. (7-1-93)

02. Real Property. The logging exemption applies only to tangible personal property. It does not apply to real property or to tangible personal property purchased for the purpose of becoming an improvement or fixture to real property. See Rules 010 and 067 of these rules for a definition of real property. (4-6-05)

03. Property Used in Logging Operations. The logging exemption applies to tangible personal property primarily used in a logging activity without regard to the primary business activity of the person performing the logging. For example, a contractor building a road for the Forest Service may claim the logging exemption when purchasing equipment and supplies primarily used to remove the timber from the right-of-way if the timber is resold, even though logging is not the contractor's primary activity. (7-1-93)

04. Logging Process Begins and Ends. The logging process begins when forest trees are first handled by the logger at the site where such an operation occurs. The logging process ends when the product is placed on transportation vehicles at the loading site, ready for shipment. (7-1-93)

05. Logging Exemption. Generally, the logging exemption includes equipment and supplies used or consumed in the logging process and which are necessary or essential to the performance of the operation. To qualify, the logging use must be the primary use of the equipment and supplies. Also, the equipment and supplies must be directly used in the logging process. Examples include:

   a. Chain saws and tree harvesters. (3-29-17)
   b. Skidders, tower-skidders, skidding cables, or chokers. (7-1-93)
   c. Log loaders and log jammers which are not licensed motor equipment. (7-1-93)
   d. Repair parts, lubricants, hydraulic oil, and coolants which become a component part of logging equipment. (7-1-93)
   e. Fuel, such as diesel, gasoline, and propane consumed by equipment while performing exempt logging activities. (7-1-93)

06. Directly Used. Directly used, as applied to logging, means the performance of any of the following functions when such functions occur between the point at which the logging operation begins and the point at which the operation ends, as defined in Subsection 102.04 of this rule:

   a. The performance of a function in the logging process that effects a physical change in the property being logged so as to render the property more marketable. (7-1-93)
   b. The performance of a function which occurs simultaneously with and which is an integral part of and necessary to a function which effects a physical change in the property being logged rendering it more marketable. (7-1-93)
   c. The performance of a function which is an integral and necessary step in a continuous series of functions which effect a physical change in the property being logged rendering it more marketable. (7-1-93)
   d. The performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (4-11-06)

07. Not Included in Logging Exemption. Generally, the logging exemption does not include the following activities and equipment: (7-1-93)
a. Road construction equipment and supplies such as tractors, road graders, rollers, water trucks, whether licensed or unlicensed, explosives, gravel, fill material, dust suppression products, culverts, and bridge material. (7-1-93)

b. Slash disposal or brush piling and clearing equipment and supplies, such as brush clearing machines, brush rakes, and tractors, except when part of the operation of a tree farm. (7-1-93)

c. Reforestation equipment and supplies, except when part of the operation of a tree farm. (7-1-93)

d. Safety equipment and supplies, including hard hats and earplugs. (7-1-93)

e. Transportation equipment and supplies including vehicles to transport logs from the loading site to the mill, whether the vehicles are licensed or unlicensed, and cable and tie-downs used to fasten logs to the vehicle. (7-1-93)

f. Machinery, equipment, materials, repair parts, and supplies used in a manner that is incidental to logging such as: office equipment and supplies; selling and distribution equipment and supplies; janitorial equipment and supplies; maintenance equipment and supplies which do not become component parts of logging equipment, such as welders, welding gas, and shop equipment; and paint, plastic coatings, and all other similar products used to protect and maintain equipment, whether applied to logging equipment or other equipment. (7-1-93)

g. Recreation-related vehicles, as defined in Section 63-3622HH, Idaho Code, regardless of use, such as All Terrain Vehicles (ATV), snowmobiles, and off-highway motorbikes. (4-6-05)

h. Aircraft or motor vehicles licensed or required to be licensed by the laws of this state, regardless of the use to which such motor vehicles or aircraft are put. A motor vehicle not required to be licensed is exempt under the logging exemption only if it meets the tests established elsewhere in this rule. (7-1-93)

08. Election to Pay Sales Tax. The owner of a log loader, log jammer, or similar fixed load motor equipment used in logging, not normally licensed for use on public roads, may elect to license and pay sales tax on the motor equipment rather than placing it on the personal property tax rolls, if the motor equipment may be legally operated on a public road as a commercial vehicle. (4-6-05)

a. Motor equipment licensed at the time of purchase. Sales tax applies to the total purchase price of the motor equipment. (7-1-93)

b. Motor equipment licensed after the date of purchase. Use tax applies to the fair market value of motor equipment on which no sales or use tax has been paid and which was not licensed at the time of purchase, if acquired within the last seven (7) years. See Section 63-3633, Idaho Code. Fair market value may be determined from the personal property tax records of the county assessor. (7-1-93)

103. (RESERVED)

104. RAILROAD ROLLING STOCK, PARTS, MATERIALS AND EQUIPMENT (RULE 104).

01. In General. Sections 63-3622CC and 63-3622DD, Idaho Code, provide exemptions from sales or use tax for rebuilt or remanufactured railroad rolling stock which was previously used in interstate commerce more than three (3) consecutive months, and for parts, materials, and equipment primarily used to rebuild or remanufacture such railroad rolling stock. (7-1-93)

02. Definitions. As used in this rule, the following terms have the following meanings. (7-1-93)

a. Railroad rolling stock. Flanged-wheel locomotives, railroad cars, maintenance of way equipment and other flanged-wheel vehicles designed and manufactured specifically for use on railroad tracks and railroad systems, including component parts thereof. (7-1-93)
b. Remanufacture/rebuild. To reconstruct, remake, reassemble or reprocess railroad rolling stock to materially extend the life of the equipment. This process requires extended removal of the railroad rolling stock from the transportation stream. (7-1-93)

c. Equipment. All equipment, other than railroad rolling stock, which is used in the actual remanufacturing/rebuilding process. (7-1-93)

d. Parts. Tangible personal property which becomes part of the remanufactured/rebuilt railroad rolling stock or which becomes part of the equipment described in Subsection 104.02.c. above. (7-1-93)

e. Materials. Tangible personal property which is used or consumed in the actual process of remanufacturing/rebuilding railroad rolling stock. (7-1-93)

f. Used in interstate commerce. Railroad rolling stock is used in interstate commerce when it actually performs a function which is necessary to the operation of a business which transports goods or people between two (2) or more states. (7-1-93)

g. Repair. To mend or restore to good usable condition railroad rolling stock which has not been damaged to an extent requiring extended removal from the transportation stream. (7-1-93)

h. Maintenance. Routine, periodic activities, such as lubrication and filter and oil changes, which are necessary to the continued use and operation of railroad rolling stock. (7-1-93)

i. Primary or primarily. Used more than fifty percent (50%) of the time to remanufacture/rebuild railroad rolling stock. (7-1-93)

03. Generally, Included Within the Exemption:

a. Equipment necessary to, and primarily used in the process of, remanufacturing/rebuilding railroad rolling stock. (7-1-93)

b. Tangible personal property which become part of the remanufacture/rebuilt railroad rolling stock or which becomes part of the equipment identified in Subsection 104.03.a., above. (7-1-93)

c. Tangible personal property which is consumed or primarily used in the remanufacturing/rebuilding process. (7-1-93)

d. Fuel used in testing remanufactured/rebuilt engines which are railroad rolling stock, and fuel used in equipment which is necessary to, and primarily used in, the remanufacturing/rebuilding process. (7-1-93)

04. Generally, Excluded from This Exemption:

a. Motor vehicles and trailers which are licensed or required to be licensed even though they may have flanged-wheel attachments which enable travel on railroad tracks. (7-1-93)

b. Tangible personal property which is used in such a way that it becomes a fixture to, or an improvement to, real property. (7-1-93)

c. Tangible personal property, equipment, parts, materials, used or consumed in an activity which is primarily repair or maintenance of railroad rolling stock. (7-1-93)

d. Fuel used in activities other than those stated in Subsection 104.03.d. of this rule and which is not exempt under other provisions of the Sales Tax Act. (7-1-93)

e. Tangible personal property used in related activities which are not primarily remanufacturing/rebuilding activities, including: office equipment and supplies; safety equipment and supplies; equipment, other than
railroad rolling stock, which is primarily used to construct, improve, alter or repair real property; and chemicals, solvents, and other cleaning agents used primarily for maintenance of the remanufacturing/rebuilding processing area. (7-1-93)

105. TIME AND IMPOSITION OF TAX, RETURNS, PAYMENTS AND PARTIAL PAYMENTS (RULE 105).

01. Time and Imposition of Tax. (7-1-93)

a. Sales Tax. Sales tax is imposed, computed and collected at the time of sale, without regard to the provisions of any contract relating to the time or method of payment. In the case of installment sales, sales on account, or other credit sales, the seller shall report as a taxable sale the entire sales price for the month in which the sale is made. No part of the sales tax may be deferred until the time the retailer actually collects payment from the buyer. A sale occurs when title to property passes through delivery to the customer or absolute and unconditional appropriation to a contract. Lease or rental payments are taxable during the month or other period for which the property is leased or rented. (7-1-93)

b. Use Tax. Use tax is determined at the time of the use, storage or other consumption of tangible personal property in Idaho. The tax is reported and payable in accordance with the provisions of this rule. Persons making purchases subject to use tax should apply for a use tax permit number from the Tax Commission. Application forms may be obtained by contacting any Tax Commission office. (7-1-93)

c. Taxable Sales Create State Revenue. The sales or use tax collected by a retailer from a customer at the time of purchase becomes state money at that time. The collected amounts may not be put to any use other than that allowed by Chapter 36, Title 63, Idaho Code, and these rules. (7-1-93)

02. Returns. (7-1-93)

a. Monthly Filing Generally Required. All retailers and persons subject to use tax are required to remit the tax to the state on a monthly basis unless a different reporting period is prescribed by the Commission. The remittance will include all sales and use tax due from the first through the last day of the preceding calendar month. (7-1-93)

b. Request to File Quarterly or Semiannually. Retailers or persons who owe seven hundred-fifty dollars ($750) or less per quarter and have established a satisfactory record of timely filing and payment of the tax may request permission to file quarterly or semiannually instead of monthly. (5-8-09)

c. Request to File Annually. Retailers or persons who have seasonal activities, such as Christmas tree sales or repeating fair booths, may request permission to file annually. Approval of the request is at the discretion of the Commission and is limited to taxpayers who have established a satisfactory record of timely filing and payment of the tax. (7-1-93)

d. Variable Filing. If the Tax Commission finds it necessary or convenient for the administration of the Sales Tax Act, it may assign an account to a taxpayer with a variable filing requirement. In such a case the taxpayer would not be required to file returns at regular intervals. The Tax Commission may also create one-time filing only accounts for taxpayers who are making a single payment of sales or use tax. (4-6-05)

e. Change in Filing Frequency. If the Tax Commission finds it necessary or convenient for the efficient administration of the Sales Tax Act, it may require taxpayers reporting taxable sales of less than twelve thousand dollars ($12,000) per year to file annually. (5-8-09)

f. Final Report. Whenever a taxpayer who is required to file returns under the Sales Tax Act or these rules stops doing business, he must mark cancel on the last return he files. This return ends the taxable year for sales or use tax purposes and constitutes the taxpayer’s final report of sales or use tax activities or liabilities. The taxpayer must enclose his seller’s permit with his request for cancellation or send a written statement that the permit has been destroyed. If the taxpayer continues business activity after filing a final report he may be subject to liabilities or penalties for failing to comply with the Idaho Sales Tax Act and these rules. (7-1-93)
03. **Valid Return.** A tax return or other document required to be filed in accordance with Section 63-3623, Idaho Code, and these rules must meet the conditions prescribed below. Those which fail to meet these requirements are invalid. They may be rejected and returned to the taxpayer to be redone in accordance with these requirements and refilled. A taxpayer who does not file a valid return is considered to have filed no return. A taxpayer’s failure to properly file in a timely manner may result in penalties imposed by Section 63-3634, Idaho Code, and related rules. (7-1-93)

   a. The sales and use tax return form must be completed and, if required, copies of all pertinent supporting documentation must be attached. The results of required supporting documentation must be carried forward to applicable lines on the sales or use tax return form. (7-1-93)

   b. All sales and use tax returns or other documents filed by the taxpayer must include his sales or use tax permit number and federal taxpayer identification number in the spaces provided. (7-1-93)

   c. A sales or use tax return that does not provide sufficient information to compute a tax liability does not constitute a valid return. (7-1-93)

   d. Perfect accuracy is not required of a valid return, although each of the following conditions is required: it must be on the proper form, as prescribed by the Commission; the tax liability must be calculated and have sufficient supporting information, if required, to demonstrate how the result was reached; and it must show an honest and genuine effort to satisfy the requirements of the law. (7-1-93)

04. **Forms Required.** The original return will be completed with the amount of total sales, nontaxable sales, taxable sales, items subject to use tax, and tax due inserted in the blanks. Payment must accompany the return. A complete sales and use tax return will be filed by each retailer or person subject to use tax. This return will be on a form prepared and mailed to the taxpayer by the Commission. If the original is lost or destroyed, a substitute form will be supplied upon request. (4-11-15)

   a. Retailers Must Report Own Use and Nontaxed Transactions. All retailers must report any sales or purchases on which no sales or use tax was collected or paid. Goods sold or produced and consumed by the retailer, items withdrawn from stock for personal use or employee use, stock removed and used for gift or promotional purposes, or any combination of such uses are subject to tax. (7-1-93)

   b. Reporting Adjustments. Any adjustments for additional tax due or credits claimed should be made on the next return due after the adjustments are discovered. These adjustments are to be shown on the line designated for adjustments on the return form and must be accompanied by an explanation and any documents that support the claimed adjustment. (7-1-93)

05. **Payment of Tax.** (7-1-93)

   a. Payment to Accompany Return. The return filed in accordance with this rule must be accompanied by a remittance of the total amount due as shown on the return. Checks or other negotiable instruments should be made payable to the Idaho State Tax Commission. (7-1-93)

   b. Payment of One Hundred Thousand Dollars ($100,000) or Greater. All taxes due to the state must be paid by electronic funds transfer whenever the amount due is one hundred thousand dollars ($100,000) or greater, in accordance with rules promulgated by the Idaho State Board of Examiners, which is incorporated by reference to these rules. (7-1-93)

   c. Remittance of Collections Required—Bracket Exception. Retailers are required to remit all taxes collected from purchasers, except any difference that may result from use of the bracket system described in Rule 068 of these rules. Any taxes erroneously collected in excess of those properly due should be refunded to the purchaser by the retailer. If the retailer either cannot or does not make the refund during the period for which the return is due, then the retailer must report the erroneously collected taxes on the return and pay them to the Commission. If the erroneously collected taxes are subsequently refunded to the purchaser from whom they were collected, the retailer may claim a credit or refund of sales taxes in accordance with Rule 117 of these rules. Under no circumstances may a
retailer retain any amount collected as sales or use tax which is greater than the retained amount authorized under the bracket system by Rule 068 of these rules. (3-20-04)

06. **Filing Dates--General Rule.** The filing date for all sales or use tax returns is the twentieth day of the calendar month immediately following the last day of the reporting period, unless otherwise allowed by these rules. This is the filing due date for all regular monthly, quarterly, semiannual, and annual accounts. If the twentieth is a Saturday, Sunday, or legal holiday, the return shall be due on the next following day which is not a Saturday, Sunday or legal holiday. (4-6-05)

106. **MOTOR VEHICLES SALES, RENTALS, AND LEASES (RULE 106).**
Sections 63-3612, 63-3613, 63-3619, 63-3621, 63-3622K, and 63-3622R, Idaho Code

01. **In General.** The sale, lease, rental, or purchase of a motor vehicle is subject to sales and use tax. Retailers, lessors, and dealers are required to collect the tax. (7-1-93)

02. **Forms.** The forms required for sales and use tax collection and reporting include the following, with modifications that may be required from time to time:

   a. The title application form required by the Idaho Transportation Department. (7-1-93)

   b. Form ST-104IC, Sales Tax Exemption Certificate – Interstate Commerce Vehicles. This form is used by qualifying interstate carriers claiming exemption under Section 63-3622R, Idaho Code. (3-26-19)

   c. Form ST-104-NR, Sales Tax Exemption Certificate - Vehicle/Vessel. This form is used by nonresidents claiming exemption under Section 63-3622R, Idaho Code. (3-26-19)

   d. Form ST-133, Sales Tax Exemption Certificate Family or American Indian Sales, used for sales between family members, and sales to enrolled members of an Indian tribe within the boundaries of an Indian reservation. (3-26-19)

   e. Other forms that may be required by the Tax Commission or the Idaho Transportation Department. (7-1-93)

03. **Vehicles Purchased from Idaho Dealers.** When a dealer of new or used motor vehicles sells any motor vehicle for delivery in Idaho, he must collect sales or use tax at the rate in effect on the date the motor vehicle is delivered to the buyer, unless an exemption applies. He must also prepare a title application form and include the dealer’s Idaho seller’s permit number, gross sales price, trade-in allowance, net sales price, and total tax collected. A title application form which is completed by the dealer and displays Idaho sales tax collected is evidence that the buyer paid sales tax to the dealer. (7-1-93)

04. **Vehicles Purchased from Out-of-State Dealers.** Title applications for vehicles purchased from out-of-state dealers must be made according to Idaho Transportation Department instructions. Any trade-in allowance must be shown on the original bill of sale, voucher, or other receipt from the out-of-state dealer. If sales tax was correctly paid to a dealer in another state, a credit is allowed against sales or use tax payable to Idaho. See Rule 107 of these rules. (4-2-08)

05. **Vehicles Purchased from Private Parties.**

   a. **Bill of Sale.** Title applications for vehicles purchased from nondealers, who are not required to have an Idaho seller’s permit, must be made according to Idaho Transportation Department instructions. The buyer must present a bill of sale or receipt as proof of the gross sales price. Canceled checks will not be accepted in lieu of a bill of sale. (3-26-19)

   b. **No Bill of Sale.** In the absence of a bill of sale or documentation supporting the value of the vehicle, tax is collected on the value established as the “average trade-in price” in the most recent NADA Official Used Car Guide for the same make, model, options, year, mileage, and condition. (3-26-19)
c. Trade In. A trade-in allowance is not allowed on a private party sale. See Rule 044 of these rules. The county assessor must collect tax on the gross sales price and remit the tax to the Tax Commission. (3-26-19)

d. Barter/Exchange. A barter or exchange of vehicles or other property is taxed on the value of the vehicles or other property involved in the exchange. In the absence of documentation supporting the value of the vehicle(s), tax is due on the value established as the “average trade-in price” in the most recent NADA Official Used Car Guide for the same make, model, options, year, mileage, and condition. (3-26-19)

06. Vehicles Purchased from Retailers. (3-26-19)

a. A retailer required to have an Idaho seller’s permit must collect the sales tax when selling a motor vehicle, even though he is not licensed as a motor vehicle dealer. The retailer must give the buyer the title to the motor vehicle, properly completing title transfer information on the title, including the retailer’s seller’s permit number as proof that Idaho sales tax was collected. The retailer must also give the buyer a bill of sale stating: the date of sale; the name and address of the seller; the complete vehicle description including the vehicle identification number (VIN), which must agree with the VIN on the title; the person to whom the vehicle was sold; the amount for which the vehicle was sold; and the amount of sales tax charged. (3-26-19)

b. A retailer is not relieved of the responsibility for collecting the tax unless he can provide satisfactory evidence to the Tax Commission that the buyer paid tax to the county assessor. If a retailer fails to collect the tax from the buyer, the county assessor must collect the tax. (3-26-19)

07. Vehicles Rented or Leased. (7-1-93)

a. A lease-purchase and lease with option to purchase have separate definitions and tax applications. See Rule 024 of these rules. A lease-purchase is subject to sales or use tax on the full purchase price at the time the vehicle is delivered to the lessee. A true lease and a lease with an option to purchase are subject to sales tax on each lease payment and on the buy-out or residual value when a lessee exercises his option to buy. The information in Section 106 deals with rentals, true leases, and leases with an option to buy. (4-2-08)

b. The lessor of a motor vehicle is a retailer and must collect sales tax from the lessee on any rental or lease payment on the date it is required to be made, at the tax rate in effect on that date. The lessor must also collect tax on any lessee’s exercise of an option to buy based on the full purchase price or residual, at the tax rate in effect on the date title is transferred to the lessee. (7-1-93)

c. The lessor may not rely on the county assessor to collect sales or use tax if the purchase option is exercised. (3-26-19)

d. The lessor must collect sales tax on each lease payment received from the renter or lessee and remit the tax to the state. The sales tax is applicable whether the vehicle is leased or rented on an hourly, daily, weekly, monthly, mileage, or any other basis. (7-1-93)

e. If the lessor is responsible for maintaining the vehicle and this is stated in the lease or rental agreement, tax does not apply to his purchase of necessary repair parts. (7-1-93)

f. Out-of-state lessors must obtain a seller’s permit and comply with this rule. If the county assessor cannot verify that the lessor is properly registered to collect the tax, title and registration will be denied. (3-26-19)

g. When a vehicle is traded in as part payment for the rental or lease of another vehicle, a deduction is allowed before computing the sales tax. The methods of applying the trade-in value to the lease are found in Rule 044 of these rules. (4-2-08)

08. Cross-References. (7-1-93)

a. See Rule 024 of these rules. Rentals or leases of tangible personal property. (4-2-08)

b. See Rule 044 of these rules. Trade-ins, trade-downs, and barter. (4-2-08)
c. See Rule 099 of these rules. Occasional sales. (4-2-08)
d. See Rule 091 of these rules. Sales to American Indians. (3-26-19)
e. See Rule 101 of these rules. Motor vehicles and trailers used in interstate commerce. (4-2-08)
f. See Rule 107 of these rules. Vehicles and Vessels - Gifts, Military, Nonresident, New Resident, Tax Paid to Another State, Sales to Family Members, Sales to American Indians. (3-26-19)
g. See Rule 108 of these rules. Motor vehicles manufacturer’s, rental company’s and dealer’s purchase or use of motor vehicles. (4-2-08)

107. VEHICLES AND VESSEL -- GIFTS, MILITARY PERSONNEL, NONRESIDENT, NEW RESIDENT, TAX PAID TO ANOTHER STATE, SALES TO FAMILY MEMBERS, SALES TO AMERICAN INDIANS, AND OTHER EXEMPTIONS (RULE 107).

01. In General. This rule discusses specific topics relating to vehicles including gifts, military personnel, and exemptions. Refer to Rule 106 of these rules for general information on purchases, sales, rentals, and leases of vehicles. (4-11-19)

02. Gifts of Vehicles. When the following facts clearly establish that a vehicle is being transferred as a gift from the titleholder to another, the vehicle can be transferred tax exempt if: (4-11-19)
   a. No money, services, or other consideration is exchanged between the donor and recipient at any time. (7-1-93)
   b. The recipient assumes no indebtedness. (7-1-93)
   c. The relationship of the donor and recipient indicates a basis for a gift. (7-1-93)
   d. The donor and recipient complete and sign a Form ST-133GT, Use Tax Exemption Certificate -- Gift Transfer Affidavit and submit it to the county assessor along with the title to the vehicle being transferred. If the donor is unable to sign the affidavit, the recipient can submit either: (4-11-19)
      i. A letter stating the vehicle is a gift, and signed by the donor, may be accepted by the county assessor and attached to the affidavit; or (4-11-19)
      ii. The title may be marked as a gift and signed by the donor. (3-4-10)

03. Purchases Brought into Idaho by Nonresidents. (4-11-19)
   a. A nonresident does not owe use tax on the use of a motor vehicle which is purchased outside of Idaho and titled or registered under the laws of another state or nation, is not used in Idaho more than ninety (90) days in any consecutive twelve (12) months pursuant to Section 63-3621(k), Idaho Code, and is not required to be registered or licensed under Idaho law. For purposes of this Subsection (107.03.a.), a motor vehicle is considered to have been used in Idaho for a day when it is present in this state for more than sixteen (16) hours during any twenty-four (24) hour period. This exemption applies only to nonresidents. A limited liability company (LLC) or other legal entity formed by an Idaho resident under the laws of another state primarily for the purpose of purchasing and owning one (1) or more vehicles or vessels is not a nonresident. The use of a vehicle owned by such an entity will be subject to use tax upon its first use in Idaho. (4-11-19)
   b. For the purposes of this rule, a corporation, partnership, limited liability company, or other organization will be considered a nonresident if it is not formed under the laws of the state of Idaho, is not required to be registered to do business with the Idaho Secretary of State, does not have significant contacts with this state and does not have consistent operations in this state. (3-29-12)
c. A nonresident college student does not owe use tax on any use of a motor vehicle while enrolled as a full-time student in a college or university located in Idaho. The motor vehicle must be registered under the laws of the student’s state of residence. The motor vehicle must be owned by the student or a family member of the student. The college or university must be accredited by the Idaho State Board of Education. (3-29-12)

04. New Residents. A new resident of Idaho does not owe tax on the use of household goods, personal effects, vehicles, vessels, and aircraft if they are personally owned and acquired while residing in another state and used primarily outside Idaho. If an owner obtained a registration or title from another state or nation of residence more than three (3) months before moving to Idaho, this is proof that it was purchased primarily for use outside Idaho. New residents entering Idaho with a vehicle titled or registered in a state that does not impose a general sales and use tax will be required to complete and sign Form ST-102, Use Tax Exemption Certificate - New Resident or Nonresident Military, and submit it to the or county assessor when applying for a title transfer or registration certificate.

a. If the vehicle, vessel, or aircraft was acquired less than three (3) months before the buyer moved to Idaho, it is presumed that it was acquired for use in this state. (4-11-19)

b. A personally owned vehicle, vessel, or aircraft is one that is owned by, and titled or registered to, an individual or individuals. (4-11-15)

05. Military Personnel.

a. Active duty military personnel and their spouses do not owe use tax on the use of household goods, personal effects, vehicles, vessels, and aircraft if they are personally owned and acquired prior to receipt of orders to transfer to Idaho or three (3) months prior to moving to Idaho, whichever time period is shorter. If a vehicle owner obtained a registration or title from another state or nation of residence prior to receipt of orders to transfer to Idaho or three (3) months prior to moving to Idaho, whichever time period is shorter, this is proof that the vehicle was primarily for use outside Idaho. (4-11-15)

b. Military personnel receive no special exemption from the Idaho sales and use tax regarding vehicles or other tangible personal property purchased while temporarily assigned in this state. A military person whose home of record is Idaho is considered to be a resident of this state. (4-11-19)

06. Tax Paid to Another State. When a general retail sales tax has been properly imposed by another state or political subdivision of a state of the United States in an amount equal to or greater than the amount due Idaho, no Idaho tax is due. The credit for state and local taxes paid in another state will be applied first to the state sales tax due and the remainder, if any, will be applied to any local taxes due.

a. If the amount paid to the other state is less, Idaho tax is due to the extent of the difference, unless some other exemption applies. The owner must provide evidence that the tax was paid to the other state. A registration certificate or title issued by another taxing state is sufficient evidence that tax was imposed at the other state’s tax rate. (3-30-07)

b. Example: A resident of another state buys a vehicle in that state for ten thousand dollars ($10,000) two (2) months before moving to Idaho. He presents his title from the other state to the county assessor. Since he acquired the vehicle only two (2) months before entering Idaho, no exemption applies. The tax paid to the other state was three hundred dollars ($300) when the vehicle was purchased. Credit for this amount is allowed against the six hundred dollars ($600) tax due Idaho. The county assessor will collect three hundred dollars ($300) tax. (7-1-93)

c. Example: A resident of another state purchased a vehicle two (2) months before moving to Iowa. The applicant paid four percent (4%) state sales tax, one and six tenths percent (1.6%) city sales tax, and one and six tenths percent (1.6%) county sales tax. The total general sales tax paid was seven and two tenths percent (7.2%). Since the Idaho tax rate is lower, no tax is due Idaho because the amount of tax paid to the other state exceeds the amount owed Idaho. (4-11-19)

d. Example: A resident of Alaska purchases a vehicle immediately prior to moving to Idaho. The
purchaser paid a three percent (3%) city sales tax in Alaska. When the purchaser moves to Idaho, credit will be given for the local tax paid against the Idaho state use tax due.

(3-30-07)

e. A registration certificate or title issued by another taxing state is proof that tax was paid to the other taxing state. This does not apply to states that do not have a tax, such as Montana and Oregon, or when a state has exempted the vehicle from tax.

(4-11-19)
f. Example: A church buys and titles a vehicle in Utah. The Utah sales tax law exempts the purchase of the vehicle from sales tax. The church later titles the vehicle in Idaho. Sales tax must be paid on the fair market value of the vehicle when it is titled in Idaho.

(7-1-93)
g. Taxes paid to another country cannot be used to offset the taxes owed to Idaho.

(4-11-19)

07. Sales to Family Members. The tax does not apply to sales of motor vehicles between members of a family related within the second degree of consanguinity. The second degree of consanguinity means only the following blood or formally adopted relatives of the person making the sale: parents, children, grandparents, grandchildren, brothers, and sisters. Relatives of the second degree of consanguinity do not include persons who are related only by marriage. However, when the motor vehicle sold is community property, and it is sold to a person who is related within the second degree of consanguinity to either spouse, the sale is exempt from tax.

(7-1-93)
a. Form ST-133, Sales Tax Exemption Certificate -- Family or American Indian Sales. A Form ST-133, is used to document this exemption. The seller and buyer must complete and sign Form ST-133 and submit it to the Idaho Transportation Department or county assessor along with the title to the motor vehicle being transferred. If the seller is unable to sign the affidavit a letter from the seller stating the sale was made to a qualified family member may be accepted by the county assessor and attached to the affidavit.

(4-11-19)
b. This exemption does not apply if the seller did not pay tax when he acquired the motor vehicle.

(4-11-19)
c. Example: An Oregon resident buys a motor vehicle and titles it in Oregon without paying sales or use tax. Later, he sells the motor vehicle for ten thousand dollars ($10,000) to his son who is an Idaho resident. No exemption applies, since the father did not pay sales or use tax when he acquired the motor vehicle. The son is required to pay Idaho use tax on the ten thousand dollar ($10,000) purchase price of the motor vehicle.

(4-11-19)

08. Sales to American Indians. An enrolled American Indian tribal member may buy a vehicle exempt from tax if the sale and delivery of the vehicle is made within the boundaries of the Indian reservation.

(4-11-19)
a. Form ST-133, Sales Tax Exemption Certificate -- Family or American Indian Sales. A Form ST-133, is used to document this exemption. The seller and the buyer must complete and sign Form ST-133 and provide the name of the tribe, the Tribal Identification Number, and the name of the reservation upon which the delivery occurred. The affidavit is then given to the county assessor along with the title to the vehicle being transferred. See Rule 091 of these rules.

(4-11-19)

09. Bulk Sale Transfers. A transfer or sale of a vehicle as part of a bulk sale of assets or property, as defined by Rule 099 of these rules, is exempt from tax. The buyer must complete and sign Form ST-133CATS, Sales Tax Exemption Certificate -- Capital Asset Transfer Affidavit to present to the county assessor when applying for transfer of title. The buyer must attach a copy of the sales agreement showing the sale qualifies for the exemption on the Form ST-133CATS.

(4-11-19)

10. Sales to Nonresidents.

(4-11-19)
a. Sales of motor vehicles, trailers, vessels, all-terrain vehicles (ATVs), utility type vehicles (UTVs), specialty off-highway vehicles (SOHVs), off-highway motorcycles, and snowmobiles to nonresidents for use out of this state, even though delivery is made within this state are exempt from tax when:

(4-11-19)
i. The motor vehicles, vessels, ATVs, UTVs, SOHVs, trailers, off-highway motorcycles, and
snowmobiles will be taken from the point of delivery in this state directly to a point outside this state; and (4-11-19)

ii. The motor vehicles, vessels, ATVs, UTVs, SOHVs, trailers, off-highway motorcycles, and snowmobiles will be registered immediately under the laws of another state or country and will be titled in that state or country, if required to do so by that state or country and will not be used in Idaho more than ninety (90) days in any twelve-month period. (4-11-19)

b. To claim the exemption, each buyer must provide the seller with a completed and signed Form ST-104NR, Sales Tax Exemption Certificate -- Nonresident Vehicle/Vessel. The seller must keep a copy for their records and send a copy of the completed form to the Tax Commission. (4-11-19)

c. This exemption does not apply to sales of truck campers or to the sales of canoes, kayaks, paddleboards, inflatable boats, or similar watercraft regardless of length when sold without a motor. (3-29-17)

d. For purposes of Subsection 107.10 of this rule, ATV, UTV, and SOHV have the same meaning given to them in Section 67-7101, Idaho Code. (4-11-19)

e. For purposes of Subsection 107.10 of this rule, a vessel means any boat intended to carry one (1) or more persons upon the water which is either:

i. Sold together with a motor; or (5-3-03)

ii. Eleven (11) feet in length or more, not including canoes, kayaks, paddleboards, inflatable boats, or similar watercraft unless such canoe, kayak, paddleboard, inflatable boat, or similar watercraft is sold together with attached motor. (3-29-17)

f. For the purposes of Subsection 107.10 of this rule a trailer must meet the definition of a park model recreational vehicle, a trailer or utility trailer found in Sections 49-117, 49-121, and 49-122 Idaho Code, which is a vehicle without motive power designed for carrying persons or property and for being drawn by a motor vehicle. The term “trailer” includes the specific types of trailers or park model recreational vehicles defined in Sections 49-117, and 49-121(6), Idaho Code. (3-28-18)

g. To qualify for this exemption the purchaser must be a nonresident of Idaho. An Idaho resident may form an LLC or other legal entity under the laws of another state. If such an LLC or other entity is formed primarily for the purpose of owning one (1) or more vehicles or vessels it is not a nonresident. The purchase or use of a vehicle or vessel in Idaho by such an entity is taxable. (4-11-19)

11. Motor Vehicles and Trailers Used in Interstate Commerce. The sale of motor vehicles with a maximum gross registered weight of over twenty-six thousand (26,000) pounds and trailers are exempt from sales or use tax when they are purchased to become part of a fleet of motor vehicles registered under the International Registration Plan, or similar proportional or pro rata registration system, and they will be used in interstate commerce with at least ten percent (10%) of the fleet miles operated outside this state. The buyer must complete and sign the Form ST-104IC, Sales Tax Exemption Certificate -- Interstate Commerce Vehicles and provide it to the seller. See Rule 101 of these rules. (4-11-19)

12. Related Party Transfers and Sales. Certain transfers and sales of vehicles between businesses defined as related parties are exempt from tax. Refer to Rule 099 of these rules. The new owner must complete and sign the Form ST-133CATS, Sales Tax Exemption Certificate -- Capital Asset Transfer Affidavit Form and submit the completed form to the county assessor when applying for title transfer. (4-11-19)

108. MOTOR VEHICLES MANUFACTURER'S, RENTAL COMPANY'S, AND DEALER'S PURCHASE OR USE OF MOTOR VEHICLES (RULE 108).

01. Purchases of Motor Vehicles for Resale. Licensed motor vehicle dealers, motor vehicle rental companies, and manufacturers of motor vehicles may purchase motor vehicles tax exempt when the vehicles are held for resale or rental and are used for no purpose other than retention, demonstration, or display while holding the vehicles for sale or rental in the regular course of business. Purchases of parts that will be installed on vehicles held in
a resale inventory are exempt from sales tax. (2-18-02)

02. **Titling a Motor Vehicle.** Under the Sales Tax Act, no motor vehicle may be titled without documentation establishing that any sales or use taxes which may be due have been paid. However, certain vehicles may be titled by dealers and rental companies with no tax applying. (7-1-93)

   a. Motor vehicle rental companies may title and register motor vehicles held in their rental inventory in their company name with no tax applying. (7-1-93)

   b. Idaho dealers may title motor vehicles held for resale in their dealer name to ensure clear title to the vehicle. However, the vehicle cannot be registered in the dealer’s name. If the dealer applies for registration, tax applies. (2-18-02)

03. **Dealer Plates.** Any vehicle upon which a dealer’s plate may be lawfully displayed, as provided by Sections 49-1627 and 49-1628, Idaho Code, shall be considered, for purposes of the Sales Tax Act, to be inventory held for sale and not subject to sales or use tax. If any use of a vehicle displaying a dealer plate requires that the dealer provide the user with a compensation form for federal income tax purposes, the amount so reported is subject to the use tax. The use tax must be paid by the dealer in the month immediately following the issuance of the compensation form. The unauthorized use or display of a dealer’s plate on the motor vehicle which is otherwise required to be titled or licensed under the laws of the state of Idaho shall subject the dealer to a use tax liability. (2-18-02)

04. **Service Vehicles.** Vehicles, such as work or service vehicles, which are not held in stock for sale or rental are subject to sales or use tax at the time of their purchase. The use tax shall be reported and paid on the sales tax return relating to the period during which the vehicle was purchased. In titling the vehicle, the motor vehicle dealer may report his seller’s permit number to the county assessor or Department of Transportation as evidence that sales or use tax has been paid. (7-1-93)

05. **Inventory Withdrawals by Dealers.** Motor vehicle dealers may withdraw motor vehicles from inventory and put them to a use for which a dealer’s plate is not authorized. Such vehicles which are required to be titled and licensed are subject to tax. The taxpayer may choose one (1) of two (2) methods for reporting the tax:

   a. At the time the vehicle is withdrawn from resale inventory, the taxpayer may report and pay use tax on his acquisition cost. (7-1-93)

   b. During each month or part of a month during which a motor vehicle is held for purposes other than resale, the taxpayer may report and pay use tax on a reasonable monthly rental value. A reasonable monthly rental value shall be an amount equal to rentals actually charged for vehicles of like or similar make and model when such vehicles are leased or rented by the taxpayer or by other persons in the community in the business of leasing or renting such vehicles. (7-1-93)

06. **Inventory Withdrawals by Rental Companies.** Motor vehicle rental companies that withdraw motor vehicles from their rental inventory and put them to a use subject to use tax may elect either method of reporting tax discussed in Subsection 108.05 of this rule. (7-1-93)

07. **Applicability of Rule 108.** The provisions of this rule apply only to motor vehicle dealers or manufacturers licensed as such by the Department of Transportation, and to companies engaged in the business of renting motor vehicles without operators. (2-18-02)

109. **AMUSEMENT DEVICES (RULE 109).**

   01. **Amusement Devices.** “Amusement device” means coin, currency, debit card, credit card, prepaid arcade card, or token operated machines and devices used for amusement or entertainment. This definition includes, but is not limited to, game machines; pool tables; jukeboxes; electronic games; video or cinematic viewing devices; crane, rotary, and pusher machines; and similar devices. It does not include vending machines that are used to sell tangible personal property or other machines or games described in Subsection 109.03 of this rule. (4-4-13)
02. Requirement to Obtain Permit. The owner or operator of amusement devices must obtain a seller’s permit if the owner or operator makes retail sales other than the use of amusement devices. If the owner or operator does not make such other retail sales, the owner or operator need not obtain a seller’s permit, but must obtain an amusement device permit for each amusement device in service. (4-4-13)

a. Owners and operators of amusement devices must pay a permit fee for every amusement device in operation. Section 63-3623B(c), Idaho Code, states that the fee may be increased proportionately to any increase in the tax rate. The formula to calculate the permit fee is seven hundred dollars ($700) x tax rate. For example, at a tax rate of five percent (5%) the amount of the permit fee is seven hundred dollars ($700) x five percent (5%) = thirty-five dollars ($35). If the tax rate is six percent (6%), the permit fee will be forty-two dollars ($42). If any change in the tax rate becomes effective on July 1 of a given year, the charge for the permit fee will change proportionately on that date also. If a change in the tax rate occurs on a day other than July 1, the permit fee will be changed on the next July 1 following the change in the tax rate. (4-4-13)

b. Upon receiving the appropriate payment, the Tax Commission will issue to the owner or operator of one (1) or more amusement devices, a permit for each amusement device in service. The owner or operator must affix a separate permit on each amusement device in service. The permit must be affixed to the machine in such a manner that it is easily visible. Permits are transferable from one person to another after written notice of the transfer is received and acknowledged by the Tax Commission. Permits may be transferred from an amusement device that is no longer in service to another amusement device owned or operated by the same person. An amusement device permit is not valid unless the name and business address of the owner or operator is typed or printed in black ink on the face of the permit. (4-4-13)

c. Video amusement devices may have more than one (1) monitor and be designed to be operated independently by more than one (1) person. In such cases a separate permit is required for each monitor. (6-30-95)

d. Amusement device permits must be renewed annually. Annual permits are valid from July 1 through June 30. Permits must be renewed on or before July 1 by the owner or operator of the amusement devices. Amusement devices acquired after July 1 or placed in service before the next July 1 will require the appropriate fee for a full-year permit. (3-16-04)

e. If an amusement device permit is lost, stolen, or destroyed, an amusement device permit for the current year must still be affixed to every operating amusement device. This may require the purchase of a new permit. The Tax Commission will not issue free replacement amusement device permits regardless of the reason for the loss of the permit. (3-29-12)

03. Other Amusement Machines or Games. Charges for the use of machines or games which do not meet the definition in Subsection 109.01 are subject to tax at the prevailing rate times one hundred percent (100%) of the gross proceeds received for the use of the device. This applies regardless of the method the owner or operator uses to determine the charge, such as by the hour or by the game. The owner or operator of such amusement machines or games must obtain a seller’s permit if the owner or operator charges for the use of such machines. (4-4-13)

04. Cross-Reference. See Rule 095 of these rules regarding purchases of Money-Operated Dispensing Equipment. (3-16-04)

110. RETURNS FILED BY COUNTY ASSESSORS AND FINANCIAL INSTITUTIONS (RULE 110).
Sections 63-3623 and 63-3638(9), Idaho Code

01. Filing Returns. Upon collection of sales tax on applications for certificate of title to a motor vehicle, trailer, or other titled property, or initial application for registration processed by the county assessor, the assessor shall, no less than monthly, complete and submit to the Commission, Form ST-852, Idaho Sales Tax Return-County Assessors. The assessor may, at his discretion, submit the form more frequently. But at no time shall the amount of tax collected during any month be submitted later than the twentieth day of the month following the month in which the tax was collected. (4-6-05)

02. Reimbursement. The assessor and the Idaho Transportation Department will be reimbursed at the rate of one dollar ($1) for each application for certificate of title or initial registration of a motor vehicle, trailer, or
other titled property; each Form ST-108, Transport Trailer, Office Trailer, and Untitled Boat Certificate; and each Form ST-108TR, Occasional Sale Exemption Claim -- Office Trailer and Transport Trailer, processed by the assessor except those upon which any sales or use tax due has been previously collected by a retailer or paid by the purchaser.

(3-25-16)

03. Financial Institutions. Financial institutions collecting tax on sales of tangible personal property that they are financing, whether sold by the financial institution or another person, must possess an Idaho seller’s permit and file returns to remit the tax as prescribed in Rule 105, of these rules. If the tax collected is not from a sale made by the financial institution, it can be reported as an adjustment on the return. Failure to remit the tax on a timely basis will result in the addition of penalties and interest as provided by Sections 63-3632 and 63-3634, Idaho Code.

(4-11-19)

04. Cross Reference.

a. Permits. See Rule 070 of these rules.

(4-11-19)

b. Time and Imposition of Tax. Returns, Payments and Partial Payments. See Rule 105 of these rules.

(4-11-19)

111. RECORDS REQUIRED AND AUDITING OF RECORDS (RULE 111).

01. In General. Every retailer doing business in this state and every purchaser storing, using, or otherwise consuming in this state tangible personal property shall keep complete and adequate records as may be necessary for the State Tax Commission to determine the amount of sales and use tax for which that person is liable under Title 63, Chapter 36, Idaho Code.

a. Unless the State Tax Commission authorizes an alternative method of record keeping in writing, these records shall show gross receipts from sales or rental payments from leases of tangible personal property, including any services that are a part of the sale or lease, made in this state, irrespective of whether the retailer or purchaser regards the receipts to be taxable or nontaxable; all deductions allowed by law and claimed in filing the return; and the total purchase price of all tangible personal property purchased for sale or consumption or lease in this state.

(3-30-01)

b. These records must include the normal books of account ordinarily maintained by the average prudent businessman engaged in such business, together with all bills, receipts, invoices, cash register tapes, or other documents of original entry supporting the entries in the books of account, together with all schedules or working papers used in connection with the preparation of tax returns.

(7-1-93)

c. For taxpayers that maintain the required records in both a machine-sensible and a hard-copy format, that taxpayer shall make the records available to the State Tax Commission in machine-sensible record format upon the State Tax Commission's request. Machine-sensible records must be maintained in the original format for the same time periods as required of hard-copy records outlines in Subsection 111.04 of this rule. “Machine-sensible record” is a collection of related information in an electronic format. This does not include hard-copy records that are created or recorded on paper or stored in or by an imaging system such as microfilm, microfiche or storage-only imaging systems.

(3-30-01)

02. Alternative Storage Media. Records, including general books of account, such as cash books, journals, voucher registers, ledgers, and like documents may be microfilmed, microfiched, or retained by a storage-only imaging system and the original hard-copy documents may be discarded when all other conditions of this rule are met. A storage-only imaging system involves computer hardware, software, and other reproduction equipment that provides for the storage, retention, and retrieval of records and documents which were originally created on paper. It does not allow for any manipulation or processing of the documents. These records must be authentic, accessible, readable, and meet the following requirements:

a. Appropriate facilities are to be provided for preservation of the storage media for the periods required and open to examination and the taxpayers must agree to provide transcriptions of any information on microfilm, microfiche, or imaged data which may be required for verification of tax liability.

(3-30-01)
b. All microfilmed, microfiched, and imaged data must be indexed, cross-referenced, and labeled to show beginning and ending numbers and to show beginning and ending alphabetical listing of documents included, and must be systematically filed to permit ready access. (3-30-01)

c. The taxpayer must make available upon request of the State Tax Commission facilities and equipment in good working order at the examination site for reading, locating, and reproducing any record concerning sales or use tax liability maintained on microfilm, microfiche, or other storage-only imaging system. (3-30-01)

d. The taxpayer must set forth in writing the procedures governing the establishment of its microfilm, microfiche, or other storage-only imaging system and the individuals who are responsible for maintaining and operating the system with appropriate authorization from the Board of Directors, general partners, or owner, whichever is applicable. (3-30-01)

e. The microfilm, microfiche, or other storage-only imaging system must be complete and must be used consistently in the regularly conducted activity of the business. (3-30-01)

f. The taxpayer must establish procedures with appropriate documentation so that the original document can be followed through the conversion system. (3-30-01)

g. The taxpayer is responsible for the effective identification, processing, storage, and preservation of microfilm, microfiche, or other storage-only imaging system making it readily available for as long as the contents may become material in the administration of any state tax law. (3-30-01)

h. The taxpayer must keep a record identifying by whom the microfilm, microfiche, or other storage-only image system was produced. (3-30-01)

i. When displayed or reproduced on paper, the material must exhibit a high degree of legibility and readability. For this purpose, legibility is defined as the quality of a letter or numeral that enables the observer to identify it positively and quickly to the exclusion of all other letters or numerals. Readability is defined as the quality of a group of letters or numerals being recognizable as words or complete numbers. (3-30-01)

j. All production of microfilm or microfiche and processing duplication, quality control, storage, identification, and inspection thereof must meet acceptable industry standards. (3-30-01)

03. Records Prepared by Automated Data Processing Systems, ADP. An ADP tax accounting system may be used to provide the records required for the verification of tax liability. Although ADP systems will vary from one taxpayer to another, all such systems must include a method of producing legible and readable records which will provide the necessary information for verifying such tax liability. The following requirements apply to any taxpayer who maintains any such records on an ADP system:

a. Recorded or reconstructible data. ADP records shall provide an opportunity to trace any transaction back to the original source or forward to a final total. If detailed printouts are not made of transactions at the time when they are processed, the systems must have the ability to reconstruct these transactions. (7-1-93)

b. General and subsidiary books of account. A general ledger, with source references, shall be written out to coincide with financial reports for tax reporting periods. In cases where subsidiary ledgers are used to support the general ledger accounts, the subsidiary ledgers shall also be written out periodically. (7-1-93)

c. Supporting documents and audit trail. The audit trail shall be designed so that the details underlying the summary accounting data may be identified and made available to the State Tax Commission upon request. The system shall be so designed that supporting documents, such as sales invoices, purchase invoices, credit memoranda, and like documents are readily available. (3-30-01)

d. Program documentation. A description of the ADP portion of the accounting system shall be made available. The statements and illustrations as to the scope of operations shall be sufficiently detailed to indicate:
application being performed; the procedures employed in each application, which, for example, might be supported by flowcharts, block diagrams, or other satisfactory descriptions of the input or output procedures; the controls used to insure accurate and reliable processing; and important changes, together with their effective dates, shall be noted in order to preserve an accurate chronological record. (7-1-93)

e. Data storage media. Adequate record retention facilities shall be available for storing tapes and printouts, as well as all supporting documents as may be required by law or this rule. (7-1-93)

04. Record Retention. All records pertaining to the transactions involving sales or use tax liability shall be preserved for a period of not less than four (4) years. If an assessment has been made and an appeal to the State Tax Commission or any court is pending, the books and records relating to the period under appeal by such proposed assessment must be preserved until final disposition of the appeal. (3-30-01)

05. Examination of Records. All of the foregoing records shall be made available for examination on request of the State Tax Commission or its authorized representatives. (3-30-01)

06. Failure of the Taxpayer to Maintain or Disclose Complete and Adequate Records. Upon failure by the taxpayer, without reasonable cause, to substantially comply with the requirements of this rule, the State Tax Commission shall:

a. Impose any penalty as may be authorized by law. (7-1-93)
b. Subpoena attendance of the taxpayer and any other witness when the State Tax Commission deems it necessary or expedient for examination and compel the taxpayer and witness to produce any documents within the scope of its inquiry relating in any manner to the sales and use tax. (3-30-01)
c. Enter such other order as may be necessary to obtain compliance with this rule in the future by any taxpayer found not to be in substantial compliance with the requirements of this rule. (7-1-93)

112. DIRECT PAY AUTHORITY (RULE 112).

01. In General. Direct Pay Authorization is issued to certain taxpayers where it is to the mutual convenience of the Tax Commission, the taxpayer, and the taxpayer’s vendors to have the sales and use tax liability upon the taxpayer’s purchases determined by the taxpayer and reported directly to the state in the form of a use tax. This allows vendors to sell all items of tangible personal property to the particular taxpayer without charging any sales tax. The only effect of this arrangement is to shift the reporting responsibility to the taxpayer holding the direct pay authority. (7-1-93)

02. Purchases Subject to Tax. If the particular transaction would have been one subject to the sales tax without the direct pay authorization, then the direct pay authorization holder must pay the sales tax to the state even if the use of the item is not subject to use tax. For example, if a direct pay authority holder purchases goods in Idaho from a retailer holding an Idaho seller’s permit, then the purchaser must pay sales tax on the transaction even if the goods are intended for use solely outside the state. (7-1-97)

03. Documentation. To make a purchase without paying sales tax to the vendor, the taxpayer holding the direct pay authorization must furnish to each of his vendors a copy of the letter from the Commission granting the direct pay authority. (7-1-93)

04. Holder’s Responsibilities. The direct pay authorization is granted only to those taxpayers who have demonstrated, to the Commission’s satisfaction, the accounting and technical capability to comply with the Sales Tax Act. Direct pay authority holders must make all purchases of tangible personal property tax exempt and all taxes due as required by the Idaho Sales Tax Act will be remitted directly to the Commission by the direct pay authority holder. Vendors will be allowed to sell all items of tangible personal property to the direct pay authority holder without charging sales tax provided they obtain and keep on file a copy of the letter granting the direct pay authority. (7-1-93)

05. Revocation. The Commission may revoke a direct pay authorization if it determines that the direct
pay authority holder is not complying with this rule or if the holder is allowing contractors or other third parties to make exempt purchases under the holder’s authority. Notice of revocation shall be given in the manner provided for deficiencies in taxes in Section 63-3629, Idaho Code, and shall be subject to review as provided in Section 63-3631, Idaho Code. Should the Commission revoke a taxpayer’s direct pay authority it shall be the taxpayer’s responsibility to notify his vendors of the revocation.

(7-1-97)

06. **Tax Imposed by Hotel/Motel Room Sales Tax.** Taxpayers granted direct pay authority may not use this authority for taxes imposed on hotel/motel room or campground space accommodations. State sales tax, Travel and Convention tax, and Greater Boise Auditorium District tax, when applicable, must be charged by and paid to the retailer by the direct pay permittee.

(7-1-93)

07. **Valid Only on Purchases of Tangible Personal Property.** The direct pay authority is valid only on purchases of tangible personal property. The holder may not use their direct pay authority when engaging contractors involved in improving real property. Special rules apply to contractors. Refer to Rules 012 through 015, and 066 of these rules.

(7-1-93)

08. **Expiration.** Direct pay authorizations are granted for a period of not more than five (5) years. If the authorization is not renewed at the end of the expiration period, the authorization will expire automatically.

(7-1-93)

113. **RECREATIONAL VEHICLE REGISTRATION (RULE 113).**

01. **Snowmobile, Motorbike, or ATV.** A new owner of a new or used snowmobile, motorbike, or ATV must obtain a title for the recreational vehicle according to the Idaho Transportation Department instructions. The buyer must present evidence that sales tax was paid to the seller of the recreational vehicle, or must pay any tax due to the county assessor, Idaho Transportation Department, or Tax Commission before a title will be issued.

(7-1-93)

02. **Boat.** A boat owner must register his boat each year with the Department of Parks and Recreation through authorized agents appointed by that department.

(7-1-93)

a. When registering the boat for the first time or transferring the registration to a new owner, the owner must complete Form ST-109, Recreational Vehicle Registration Sales Tax Affidavit, except as provided in Subsection 113.02.c. of this rule.

(7-1-93)

b. Each month the Department of Parks and Recreation will forward to the Tax Commission the copies of Form ST-109 submitted by its agents.

(7-1-93)

c. When registering a boat with a county assessor acting as an authorized agent of the Department of Parks and Recreation, the requirements of this rule do not apply. The assessor will collect and remit to the Tax Commission any sales or use tax due. See Rule 099 of these rules.

(7-1-93)

114. **SALES UNDER THE SNAP AND WIC PROGRAMS, RECORDS REQUIRED FOR PAYMENTS WITH ELECTRONIC BENEFIT TRANSFER CARDS AND WIC TENDER (RULE 114).**

Sections 63-3622EE and 63-3622FF, Idaho Code.

01. **In General.** Sales of food purchased under the Federal Supplemental Nutrition Assistance Program (SNAP) or the Federal Special Supplemental Food Program for Women, Infants, and Children (WIC) are exempt from the Idaho sales tax. Sales of food under these programs are exempt whether the purchaser uses electronic benefit transfer (EBT) cards, WIC tender, or any other exchange medium authorized for these programs by federal law.

(3-20-14)

02. **Records Required.** Retailers who accept EBT cards or WIC tender as payment must maintain accurate records of those sales. Adequate records include sales reports or tender-type reports with collections from each type.

(3-20-14)

115. **RECORDS REQUIRED, NONTAXED SALES BY RETAIL FOOD STORES (RULE 115).**

01. **Petition for Reduced Record Keeping.** Retail food stores may petition the Commission to be
relieved from the responsibility of retaining copies of detailed invoices for nontaxed sales. (7-1-93)

02. Form Required. A retail food store may apply for reduced record keeping requirements by submitting a completed Form ST-110, Petition for Sales Tax Records Reduction by a Retail Food Store, to the Commission. (7-1-93)

03. Authority. If authority for reduced record keeping is granted by the Commission, a retailer is not required to keep detailed sales invoices if he obtains a properly completed resale or exemption certificate from the customer and thereafter a properly completed Form ST-111, Sales Tax Exemption Claim Form-Grocer for each exempt sale. The completed Form ST-111 must include the following information: The name of the customer; the total purchase price of the exempt items; the date of the sale; whether the nontaxed merchandise sold consisted of food, nonfood items or both; and the signature of the person making the exempt purchase. (7-1-93)

04. Standard Industry Code. For the purposes of this rule, retail food stores shall mean those retail stores described in major group fifty-four (54) of the Standard Industrial Classification Manual, SIC, of 1987 and whose sales of food for home preparation and consumption account for more than fifty percent (50%) of the store’s total sales. Stores in major group fifty-four (54) consist of grocery stores; meat and fish markets; fruit and vegetable markets; candy, nut, and confectionery stores; dairy product stores; retail bakeries; and egg and poultry dealers. (7-1-93)

05. Review of Petitions. The Commission will review all petitions for reduced record keeping requirements. The Commission may examine the books and records of the petitioner to ensure that the petitioner is primarily engaged in the business of selling food for home preparation and consumption. The Commission will give written notice of its determination to the petitioner within sixty (60) days after receiving the petition. (7-1-93)

116. BONDING (RULE 116).

01. Posting Security. The State Tax Commission may require a retailer to post security to insure collection and remittance of sales and use taxes for cause including:

a. A retailer failing to file sales tax returns. (7-1-93)

b. A retailer failing to remit in full taxes due upon any sales tax return. (7-1-93)

c. A retailer with a consistent history of delinquency either in the filing of returns or payment of tax. (7-1-93)

d. The submission of a check for the payment of taxes which is subsequently dishonored. (7-1-93)

e. The filing of a fraudulent return or any return which fails to report all taxable transactions for the period for which the return relates. (7-1-93)

f. A retailer evidencing serious financial instability which, in the opinion of the Commission, creates reasonable doubt as to the ability of the retailer to pay over sales and use taxes collected by it. (7-1-93)

02. Amount of Security. The amount of security will be fixed by the Commission but shall not exceed an amount equal to three (3) times the anticipated monthly sales tax liability or ten thousand dollars ($10,000), whichever is less, except in the case of retailers who are habitually delinquent in their submission of returns and/or taxes in which case the amount of security shall not be greater than five (5) times the estimated average monthly liability or ten thousand dollars ($10,000), whichever is less. (7-1-93)

03. Written Demand. Written demand for security will be sent to the retailer by the Commission by certified mail or by personal service upon the retailer. Failure of the retailer to post the demanded security can be grounds for revocation of the retailer’s seller’s permit following proper notice and hearing. (7-1-93)

04. Forms of Security. The Commission will accept as security the following: (7-1-93)
a. Surety bond. A surety bond issued by a bonding company with the power of an attorney affixed thereto which grants the issuing agent the power to obligate the company for this type of liability. (7-1-93)

b. Cash bond. Preferably in the form of cashier’s check. (7-1-93)

c. Pledged savings accounts. This type of security may be furnished, providing the savings account is opened with a bank or savings and loan association and an assignment of the account is executed by the taxpayer or authorized individual and accepted by the bank or savings and loan association. The savings account may be in the business name or individual’s name, if a sole proprietorship; jointly in the names of the partners of a partnership; or in the name of a corporation with the assignment properly executed by the officer or officers with the delegated authority to sign documents for the corporation. (7-1-93)

05. Release of Security. Security which has been previously posted may be released by the Commission upon receipt of written request from the retailer if, after careful review of the circumstances, the Commission determines that security is no longer required. A request may be made one (1) year after posting the security. Security will also be released upon the retailer’s termination of its retail activities. In either case, if the Commission deems necessary, an audit may be conducted prior to the release of any security. (7-1-93)

117. REFUND CLAIMS (RULE 117).
Sections 63-3612, 63-3613, 63-3619, 63-3626, 63-3629(c), 63-3631, 63-3045, 63-3045B, 63-3049, and 63-4408, Idaho Code

01. In General. Application for refund of sales or use taxes paid in excess of those properly imposed by the Sales Tax Act, shall be in accordance with the provisions of this rule. (7-1-93)

02. Payment of Sales Tax by a Buyer to a Vendor. When a buyer has paid sales tax to a vendor, and later determines that the sales tax was paid in error, the buyer shall request the refund from the vendor to whom the excess tax was paid. If the buyer can provide evidence that the vendor has refused to refund the tax, he may then file a claim for refund directly with the Tax Commission. (3-26-19)

03. Payment of Sales or Use Tax Directly to the State. When a person holding a seller’s permit or use tax account number has paid tax to the state, and later determines that the sales or use tax was paid in error, he may file a claim for refund directly with the Tax Commission. (7-1-93)

04. Bad Debts. Claims for refunds arising from bad debts must be filed with the Tax Commission in the manner prescribed by this Rule 117 and Rule 063 of these rules. (3-26-19)

05. Mathematical Errors. When the filer of sales or use tax returns determines that a mathematical error has been made on a previously filed return resulting in overpayment of the proper amount of sales or use taxes, he may file a claim for refund directly with the Tax Commission. (7-1-93)

06. Refund Claims. Form TCR (Sales Tax Refund Claim) may be used to file for a refund from the Commission. Although a form is available for this purpose, it is not required. A refund claim, however, must be in writing and include the following information:

a. Full name, address, and phone number of the claimant; (3-26-19)

b. Claimant’s seller’s permit number or use tax account number if claimant has such a number; (3-26-19)

c. The amount of the refund claimed; (3-26-19)

d. A detailed statement of the reason the claimant believes refund is due; (3-26-19)

e. An itemized description of the specific goods or services to which the tax relates; (3-26-19)

f. The date on which the claimed excess taxes were paid; (3-26-19)
g. If the claimant is the retailer, a statement under oath that the amount of tax plus interest has been or will be refunded to the buyer; and (3-26-19)

h. If the claim is for bad debt, detailed individual account information for each customer and each item purchased for which a refund is claimed. (3-26-19)

i. A refund claim must be filed within three (3) years from the time the payment was made to the State Tax Commission. If a refund claim does not include the required information listed in Subsections 017.11.a. through h., as applicable, then the claim does not satisfy the requirement to file a written claim to stop the period of limitations provided in Section 63-3626(b)(1), Idaho Code, from running. A refund claim that does not include the required information will be denied and processed as set out in Subsection 017.11 of this rule. (3-26-19)

07. Outstanding Liabilities. No claim for refund will be approved or issued unless the claimant first satisfies outstanding liabilities for taxes administered by the Tax Commission. (3-26-19)

08. Payment Under Protest. It is not necessary for a taxpayer to pay taxes under protest in order to subsequently be able to claim a refund of such taxes. (7-1-93)

09. Statute of Limitations. A claim for refund will not be allowed if it is filed more than three (3) years from the time the payment of the tax was made. The time the payment was made is the date upon which the sales or use tax return relating to the payment was filed with the State Tax Commission. (5-3-03)

10. Taxes Paid in Response to a Notice of Deficiency Determination. A claim for refund may not be filed relating to any sales or use taxes which have been asserted by a notice of deficiency determination. A taxpayer contending that taxes have been erroneously or illegally collected by the State Tax Commission in conformance with a notice of deficiency determination must seek a refund by using the appeal procedures outlined in IDAPA 35.02.01.320 - 328, “Tax Administration and Enforcement Administrative Rules.” (5-3-03)

11. Denial of a Refund Claim. All claims for refund or credit will be reviewed by the State Tax Commission’s staff. If the staff concludes that all or part of the claim should not be allowed, notice of denial of the claim shall be given to the claimant by first class mail or by other commercial delivery service providing proof of delivery, whichever is the most cost efficient. The notice shall include a statement of the reasons for the denial. The notice of denial shall be the equivalent of a notice of deficiency determination. If the taxpayer wishes to seek a redetermination of the denial notice, he must file a petition for redetermination in the manner prescribed in IDAPA 35.02.01.320 – 328, “Tax Administration and Enforcement Administrative Rules.” A petition for redetermination must be filed no later than sixty-three (63) days from the date upon which the notice of denial is mailed to or served on the claimant. (3-26-19)

12. Interest on Refunds. See Rule 122 of these rules. (5-3-03)

13. Cross Reference. See Rule 003 of these rules, Administrative Appeals. (6-30-19)

118. RESPONSIBILITY FOR PAYMENT OF SALES TAXES DUE FROM CORPORATIONS, LIMITED LIABILITY COMPANIES AND PARTNERSHIPS (RULE 118).

01. Corporate Officers Duty to Pay Sales Tax. Individuals including corporate officers and employees with the duty to cause a corporation or a limited liability company to file a sales tax return or to pay sales tax when due, or any partnership member or employee with such duty, shall become liable for payment of the tax, penalty and interest due from the corporation or partnership if he shall fail to carry out his duty. Any such responsible individual shall have the defenses, remedies and recourse provided in Sections 63-3045, 63-3049, 63-3065 and 63-3074, Idaho Code, and shall be afforded notice and opportunity to be heard on the question of such liability. (7-1-99)

02. Penalty for Failure to Collect. Any individual required to collect, account for and pay over any tax who willfully fails to carry out or execute his duty will be required to pay, in addition to the tax, penalty and interest, an additional amount equal to the total amount of tax involved. This penalty is in addition to all other penalties provided in Section 63-3634, Idaho Code. (7-1-93)
119. **SUCCESSOR'S LIABILITY (RULE 119).**

01. **Making Inquiries.** Section 63-3628, Idaho Code, provides that when a vendor sells out his business or stock of goods, the buyer shall make inquiry of the State Tax Commission and withhold from the purchase price any amount of tax that may be due until such time as the vendor, seller, produces a receipt stating that no tax is due. If the purchaser fails to withhold from the purchase price the tax due, he becomes personally liable for the tax.

(5-3-03)

02. **Written Inquiry Required.** The purchaser must make written inquiry to the Boise Office of the State Tax Commission setting forth the following:

a. The name, location, and seller’s permit number of the business they are purchasing.  

(7-1-93)

b. A statement that they are purchasing the business or stock of goods.  

(7-1-93)

c. An inquiry as to any sales or use tax liability of the business they are purchasing.  

(7-1-93)

03. **Copy of Earnest Money.** The purchaser must attach to the written inquiry a copy of any earnest money or similar agreement already entered into with the prospective seller. If no earnest money agreement has been entered into, then the seller must provide written authorization to the State Tax Commission to release the information to the prospective buyer.

(5-3-03)

04. **Written Statement from State Tax Commission.** The State Tax Commission, after receiving the written inquiry from the purchaser as to the amount due, will issue a written statement to the purchaser setting forth the amount of tax due by the seller, if any. The State Tax Commission shall advise the prospective buyer only of any amount of sales or use tax that may be due to the State Tax Commission under the Sales Tax Act. The release of any other information is not authorized. In the case that the prospective buyer requests to see the prospective seller’s sales or use tax filing record in order to determine if the business is profitable, the prospective seller must provide a Power of Attorney appointing the prospective buyer as attorney in fact to receive confidential information regarding sales or use tax filings on behalf of the prospective seller.

(5-3-03)

05. **Application for Seller’s Permit Number.** Upon final sale, the purchaser must file an application Form IBR-1 for a new seller’s permit number with the State Tax Commission. The seller must forward his seller’s permit to the State Tax Commission for cancellation.

(3-30-07)

120. **JEOPARDY DETERMINATION (RULE 120).**

If collection of any part of a tax required to be paid to the state of if any determination or redetermination will be jeopardized by delay, the Tax Commission will make a determination of the tax or amount required to be collected noting the need for expeditious procedure and the amount of required security upon the assessment. The amount determined to be due the state is immediately payable and, if not paid immediately after service of notice of the deficiency, may be entered as a final assessment and collected by judgment processes or through use of any collection procedure available to the Tax Commission’s office. If, within thirty (30) days, the taxpayer files for redetermination and deposits with his petition for redetermination such security as the Tax Commission may, in this specific case, deem necessary to ensure compliance with this act, collection of the deficiency assessment will be delayed pending redetermination. Hearings and other procedure will then proceed in accordance with the rules pertaining thereto.

(7-1-93)

121. **(RESERVED)**

122. **INTEREST ON DEFICIENCIES, REFUNDS AND ESTIMATED RETURNS (RULE 122).**

01. **Interest Rate.** From July 1, 1981, to December 31, 1993, the rate of interest on deficiencies or refunds of tax was twelve percent per annum. As of January 1, 1994, the rate of interest on deficiencies or refunds of tax is determined annually as provided in Section 63-3045, Idaho Code, and IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Rule 310. All interest on sales or use tax deficiencies is simple interest. Interest applies only to tax and not to penalties.

(7-1-97)
02. **Interest Accruing During a Period Subject to Audit.** Interest on deficiencies accrues from the due date of the return to which the deficiency relates. On refunds, the interest accrues from the due date of the return or date of payment, whichever is later. However, when a refund is claimed or a deficiency is asserted for a period of time which includes several reporting periods, in lieu of calculating interest for each reporting period, interest may be averaged over the interest rate period if no substantial distortion results from the averaging technique. When averaging interest, sales or purchases of extraordinary amounts outside the usual course of business which would substantially distort the result should be excluded from the averaging calculation and interest calculated separately on such transactions. Average interest, accruing during an interest rate period, may be calculated according to the following formula:

\[
\frac{(N \times R) - R}{2}
\]

- **N** = Number of reporting periods in interest rate period.
- **R** = Interest rate per reporting period, e.g., one percent (1%) for monthly filers, three percent (3%) for quarterly filers, at a 12% annual interest rate, etc.

(6-23-94)

03. **Alternate Formulas.** Alternatively, interest may be calculated according to such other formula as the taxpayer and the Tax Commission’s sales tax audit staff may agree to apply.

(7-1-93)

04. **Estimated Returns.** Interest on estimated returns accrues at an annual rate as provided in Section 63-3045, Idaho Code, and IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Rule 310.

(7-1-97)

05. **Failure to Register.** Taxpayers who failed to have a tax number in a period where a deficiency exists will be, for interest computation purposes, considered to be monthly filers.

(7-1-93)

06. **Judgments.** Nothing in this rule is intended to effect interest rates on judgments pursuant to Section 28-22-104(2), Idaho Code.

(7-1-93)

123. **ADDITIONS AND PENALTIES (RULE 123).** All additions and penalties provided by Sections 63-3046, 63-3075, 63-3076 and 63-3077, Idaho Code, are incorporated in the Sales Tax Act.

(7-1-93)

01. **Substantial Underpayment.** For purposes of enforcing the substantial underpayment penalty provided by Section 63-3046(d), Idaho Code, the term taxable year shall, for purposes of the Sales Tax Act, mean the twelve (12) month calendar period for which an annual reconciliation is required. The return, for purposes of such taxable year, shall be the returns required to be filed under Rule 105 of these rules. The taxpayer’s entire calendar year or fiscal tax year shall be any fraction of a twelve (12) month period occurring prior to filing a final report.

(7-1-97)

02. **Repeated or Intentional Invalid Exemption Claims.** A purchaser who repeatedly or intentionally claims exemption from tax on purchases that are not exempt and has not reported and paid use tax on the purchases, shall owe the tax plus the interest prescribed in Rule 122 of these rules and may also be assessed a penalty of five percent (5%) of the purchase price of the goods or services, or two hundred dollars ($200), whichever is greater.

(7-1-97)

(7-1-97)

125. **DISTRIBUTION OF SALES TAX REVENUES (RULE 125).** Refer to IDAPA 35.01.03, “Property Tax Administrative Rules,” Rule 995 for information on distribution of sales tax revenues to cities, counties and other special purpose taxing districts.

(3-30-01)
126.  SALES TAX COLLECTED BY THE STATE LIQUOR DISPENSARY (RULE 126).

01.  Liquor Subject to Sales Tax. All sales of liquor which includes alcohol, spirits, beer, and wine as defined in Sections 23-105(g), 23-1303(a), and 23-1001(a), Idaho Code, unless specifically exempt, are subject to the tax measured by the sales price. (7-1-93)

02.  Sales for Resale. In the case of sales to persons licensed under the provisions of Title 23, Chapter 9, Idaho Code, only those purchases for resale by an establishment licensed to sell liquor will be exempt from the tax. If the licensee purchases liquor for any purpose other than for resale, the licensee is subject to the use tax. (7-1-93)

03.  Reporting. The superintendent of the State Liquor Dispensary shall forward monthly to the Tax Commission a report of all sales tax collected for the preceding month. All sales tax collected by the superintendent of the State Liquor Dispensary and by contract private liquor stores, when the product is supplied by the State Liquor Dispensary, shall be credited directly to the liquor account, and shall not become a part of the sales tax account. (7-1-93)

127.  FREE DISTRIBUTION NEWSPAPERS (RULE 127).

01.  Newspaper Format. The term “newspaper format” shall mean a publication bearing a title, issued regularly at stated intervals of at least twelve (12) times a year, and formed of printed paper sheets without binding. Catalogs, advertising fliers, travel brochures, employee newsletters, theater programs, telephone directories, restaurant guides, posters, and similar publications are not publications in newspaper format. (7-1-96)

02.  Purchase or Use of Tangible Personal Property. The purchase or use of tangible personal property used to produce newspapers distributed to the public free of charge is exempt from sales or use taxes if the requirements of Section 63-3622T, Idaho Code are met. (7-1-96)

03.  Qualifying for Exemption. To qualify for the exemption at least ten percent (10%) of the total newspaper, computed on an average annual column inch basis, must be devoted to the publication of nonincome producing informative material. Advertisements promoting the free distribution newspaper itself do not qualify as nonincome producing informative material. Neither do logos, column headings, mastheads, borders, etc. (7-1-96)

128.  CERTIFICATES FOR RESALE AND OTHER EXEMPTION CLAIMS (RULE 128).

Sections 63-3622, & 63-3622HH, Idaho Code

01.  In General. This rule applies to proper documentation for exempt purchases of tangible personal property for resale and all other exemption claims for taxable transactions enumerated in Section 63-3612, Idaho Code. All forms approved by this rule may be reproduced. (3-6-00)

02.  Burden of Proof. All sales made within Idaho are presumed to be subject to sales tax unless the seller obtains from the buyer a properly executed resale or exemption certificate. If the seller does not have an exemption certificate on file it will have the burden of proving that a sale is not subject to tax. The seller may overcome the presumption by establishing the facts giving rise to the exemption. If the seller obtains a valid certificate from the buyer, the seller need not collect sales or use taxes unless the sale of the tangible personal property or the transaction in question is taxable to the buyer as a matter of law in the particular instance claimed on the certificate. (3-26-19)

03.  Description and Proper Execution of Approved Forms. In order to be valid, all forms must be legible and include a date, the buyer’s name, signature, and address. If the buyer has a federally issued Employer Identification Number (EIN), the buyer must also include that EIN on the form. If the buyer does not have an EIN, the form must contain the buyer's driver's license number and the state of issue. The seller’s name and address must be completed on the form when requested. The buyer must comply with any additional requirements provided in these rules. (3-26-19)

04.  Form ST-101, Sales Tax Resale or Exemption Certificate -- Buying for Resale. To claim a resale exemption, Form ST-101, or a Uniform Sales and Use Tax Certificate -- Multi-jurisdiction, must be completed. The resale certificates approved by this rule may only be taken from a buyer described in Subsection 128.04.b. The
reason for the claimed exemption must be included on the form as well as the primary nature of business and the type of products sold, leased or rented by the buyer. An Idaho registered retailer must include its Idaho seller’s permit number. A buyer need not identify every type of product it sells but must indicate the general character of the property it sells, rents or leases.

(3-26-19)

a. Information on the resale certificate. The resale certificate shall bear the name and address of the buyer, the name and address of the seller, shall be signed and dated by the buyer or his agent, shall indicate the Idaho seller’s permit number issued to the buyer, or that the buyer is an out-of-state retailer, and shall indicate the general character of the tangible personal property sold by the buyer in the regular course of business. By executing the resale certificate, the buyer is certifying that the specific property is being purchased for resale.

(3-26-19)

b. Qualified Buyers. The resale exemption may be claimed by the following buyers when buying goods for resale:

i. A retailer or wholesaler doing business in Idaho who holds a current and valid Idaho seller’s permit number.

(4-4-13)

ii. A wholesaler who makes no retail sales and who is not required to hold an Idaho seller’s permit number.

(3-6-00)

iii. An out-of-state retailer who makes not more than two (2) sales in Idaho in any twelve (12) month period and is not required to hold an Idaho seller’s permit number.

(3-6-00)

c. Seller's Responsibility. A seller is not liable for the collection of sales tax on items sold to a customer from whom the seller has obtained a properly executed Sales Tax Resale and Exemption Certificate, Form ST-101, if the customer intends to resell the items in the regular course of business. The seller has no duty or obligation to collect sales or use taxes in regard to any sales transaction so documented unless the sale fits into the narrow classification of sales that can be considered to be taxable as a matter of law in the particular instance claimed on the resale certificate. If the particular item being purchased for resale does not commonly match the description of the general character of the tangible personal property as identified on the resale certificate, then it is presumed that the sale is taxable as a matter of law; however, if the seller questions the buyer and the buyer provides a new certificate specifically identifying the property in question as being purchased for resale, then the seller can accept the certificate and is relieved of any further responsibility.

(3-26-19)

d. Example. A grocery store that in addition to groceries sells miscellaneous items such as cosmetics, magazines, and school supplies. The store would provide its Idaho seller’s permit number and describe the primary nature of its business as selling groceries. It could buy cosmetics, magazines, and school supplies for resale and it does not need to list those items on the resale certificate. It only needs to indicate the general character of the property it sells as groceries.

(3-26-19)

e. Example. A lawn and garden store occasionally sells barbecue grills as promotional items. Even though it describes lawn and garden items as the types of products it sells, it can buy the grills for resale.

(3-26-19)

f. Example. A grocery store describes the primary nature of its business as selling groceries. It then buys an automobile for resale. The grocery store should provide the automobile seller a resale certificate for this transaction and identify its primary nature of its business as grocery and indicate it is specifically buying the automobile for resale.

(3-26-19)

g. Example: A restaurant operator completes a Form ST-101 for his supplier. He indicates the general character of the products he sells as food and beverages. The restaurant operator buys sugar and flour from the supplier. The supplier is not liable for the collection of the sales tax as the character of the goods is that which the restaurant operator will resell in the regular course of business. The resale claim made by the restaurant operator is available as a matter of law.

(3-26-19)

h. Example: The same restaurant operator later buys dish towels and dish washing soap. The supplier must collect the tax. The general character of the goods are not those sold by a restaurant in the normal course of business. The exemption claimed by the restaurant is not available as a matter of law. However, if the restaurant
operator identifies cleaning supplies as one of the types of items it resells, either on the original certificate or on a new certificate, then the supplier need not collect the tax. (3-26-19)

i. Example: An appliance store buys appliances and some furniture for resale from a supplier. The appliance store has a resale certificate on file with the supplier. The supplier also sells warehouse equipment as part of its business. The appliance store buys a forklift from the supplier. The supplier should charge tax. However, if the furniture store provides a new certificate indicating it will sell the forklift, the supplier has no duty or obligation to collect the tax. Without the new certificate, an objectively reasonable person would not assume a furniture store sells forklifts. Additionally, the furniture store is only buying one (1) forklift and this fact indicates to the supplier that it is not buying the forklift for resale. (3-4-10)

05. **Form ST-101, Sales Tax Resale and Exemption Certificate -- Claiming Exemptions.** A Form ST-101 must be completed to claim the sales tax exemptions for the following categories. The buyer must identify the exempt category and specific area within the category for the exemption being claimed. If claiming to be production exempt, the taxpayer must identify the type of business and list the product produced. When claiming a contractor exemption, the invoice, purchase order or job number will be identified along with the city and state of the job location, project owner name, and the reason the project is exempt. (3-26-19)

a. Form ST-101 Exemption Categories; (3-26-19)
   i. Production Exemptions; (3-26-19)
   ii. Exempt Buyers; (3-26-19)
   iii. Contractor Exemptions; and (3-26-19)
   iv. Other Exempt Goods and Buyers (3-26-19)

b. Information on the exemption certificate. An exemption certificate shall show the buyer’s name and address, business name and address, and be signed and dated by the buyer. The buyer shall also provide on the certificate the specific exemption being claimed and, if the production exemption is being claimed, a list of the products the buyer produces. If the buyer is claiming the contractor exemption, the buyer must identify the invoice, purchase order, or job number to which the claim applies, the city and state where the job is located, and the name of the project owner. If the buyer is claiming an exemption as an American Indian, then the buyer must provide a valid Tribal I.D. number. By signing the exemption certificate, the buyer is certifying that the purchase qualifies for an exemption from tax. (3-26-19)

c. Seller's Responsibility. A seller is not liable for the collection of sales tax on items sold to a customer from whom a properly executed Form ST-101, has been received if the nature of the exemption claimed is available to the buyer as a matter of law or the nature of the goods purchased qualify for the particular exemption claimed on the certificate. (3-26-19)

i. A retailer must collect tax on the sale of any goods that are specifically excluded from an exemption as a matter of law. For example, a buyer claiming the production exemption provided by Section 63-3622D, Idaho Code, may not claim an exemption on the sale of items that are specifically excluded from the exemption as a matter of law, such as: maintenance and janitorial equipment and supplies, office equipment and supplies, selling and distribution equipment and supplies, property used in transportation activities, equipment or other property used to make repairs, tangible personal property that becomes a fixture, improvement, or component of real property, licensed motor vehicles, aircraft; and recreation-related vehicles as described in Section 63-3622HH, Idaho Code. (3-26-19)

ii. A retailer cannot rely on an exemption certificate obtained from a buyer when the law does not provide an exemption from the tax for the buyer, such as a nonprofit organization not specifically exempted by the sales tax law or a governmental agency of another state. (3-26-19)

iii. Nor can a retailer rely on an exemption certificate when the limited language of the law pertaining to the exemption claimed excludes all but certain goods from the exemption. For example, certain contractors can execute an ST-101 to purchase construction materials for specific jobs in non-taxing states claiming an exemption.
d. Buyer’s Responsibility. A buyer has the responsibility to properly complete a certificate and ensure that tax is charged on all taxable purchases. If the buyer properly provides a certificate and normally makes exempt purchases, he nevertheless must ensure that tax is paid when a taxable purchase is made. If the seller does not charge the tax on a taxable purchase the buyer must either notify the seller to correct the billing and then pay the sales tax to the seller, or accrue and remit use tax on the transaction. If the buyer intentionally or repeatedly makes purchases, claiming they are exempt, when in fact they are not exempt, and the buyer fails to remit use tax, a penalty can be imposed in addition to the use tax. The penalty amount that may be asserted against the buyer is five percent (5%) of the sales price or two hundred dollars ($200), whichever is greater. The penalty will be asserted by the Commission as a Notice of Deficiency but the buyer may have the penalty abated when he can establish that there were reasonable grounds for believing that the purchase was properly exempt from tax. In addition, if the buyer gives a resale or exemption certificate with the intention of evading payment of the tax, the buyer may be charged with a criminal misdemeanor and could be punished by a fine not exceeding one thousand dollars ($1,000) or imprisonment for not more than one (1) year, or by both a fine and imprisonment.

(3-6-00)

(3-26-19)

06. Tax Exemption Statements. In lieu of Form ST-101, retailers, when selling property that the buyer claims is entitled to the exemptions listed below, may stamp or imprint on the face of their sales invoices, or buyers may stamp or imprint on the face of their purchase orders a statement containing the language prescribed in this rule.

a. A tax exemption statement must be signed by the buyer and the name, address, and nature of business of the buyer is shown on the invoice. The signature on the statement must be in addition to any other signature required on the invoice. If no Form ST-101 is on file with the vendor, then each exempt sale must be documented as described in this subsection. Any person who signs this certification with the intention of evading payment of tax is guilty of a misdemeanor.

(3-26-19)

b. Production or Logging Exemption. A tax exemption statement can be used when selling property that the buyer claims is entitled to the production exemption or the logging exemption. The statement can be made by either:

i. Having the seller stamp or imprint the following statement on the face of their sales invoices; or

(3-26-19)
ii. Having the seller stamp or imprint the following statement on the face of their purchase orders, a certificate containing the following language:

I certify that the property which I have here purchased will be used by me directly and primarily in the process of producing tangible personal property by mining, logging, manufacturing, processing, fabricating, or farming, or as a repair part for equipment used primarily as described above.

NATURE OF BUSINESS

BUYER’S SIGNATURE

(3-26-19)

c. Matter Used to Produce Heat by Burning. A tax exemption statement can be used when selling materials that the buyer claims will be used to produce heat by burning as defined in Rule 088 of these rules and for which no bulk delivery will be made. The statement can be made by either:

i. Having the seller stamp or imprint the following statement on the face of their sales invoices; or

(3-26-19)

ii. Having the buyer stamp or imprint on the face of their purchase order, a statement that contains the following language:

I certify that the matter I have purchased will be used in a furnace or similar device for the purpose of water heating, cooking, or raising or maintaining the temperature in an enclosed space, dwelling, or building.

BUYER’S SIGNATURE

(3-26-19)

07. Form ST-102, Use Tax Exemption Certificate -- New Resident or Nonresident Military. To claim exemption for vehicles, vessels, and aircraft that were personally owned and acquired while residing in another state and used primarily outside Idaho, new residents and nonresident military individuals must complete Form ST-102.

(3-26-19)

08. Form ST-104G, Sales Tax Exemption Claim for Cash Purchases by Governmental Agencies. Form ST-104G may be completed only by federal or, Idaho state, and local government agencies making cash purchases and must be furnished to the vendor at the time of sale. Each transaction requires a newly executed form signed by the agency’s purchasing agent and the employee/buyer. Blank forms will be furnished to government agencies by the State Tax Commission upon request. The form cannot be used for lodging and meals bought by a traveling government employee nor for any other reasons enumerated on the form.

(3-26-19)

09. Form ST-104HM, Sales Tax Exemption Certificate -- Lodging Accommodations. Form ST-104HM is used to claim exemption for lodging accommodations paid for using a credit card company who will directly bill to and be paid by federal or, Idaho state, and local government agencies or other qualifying organizations granted exemption under Section 63-3622O, Idaho Code. This form should not be used for credit card payments that are paid by the employee who is later reimbursed by the employer. Each lodging transaction requires a newly executed form signed by the employee/buyer.

(3-26-19)

10. Form ST-104IC, Sales Tax Exemption Certificate -- Interstate Commerce Vehicles. Form ST-104IC must be completed by a buyer claiming an exemption from tax under Section 63-3622R, Idaho Code, when purchasing a qualifying motor vehicle, trailer, or glider kit.

(3-26-19)
11. Form ST-104MV, Sales Tax Exemption Certificate – Vehicle/Vessel. Form ST-104MV must be completed by a buyer claiming an exemption from tax under Section 63-3622R, Idaho Code, when purchasing a qualifying motor vehicle, vessel, or trailer. This has been replaced with Forms ST-104IC and ST-104NR. (3-26-19)

12. Form ST-104NR, Sales Tax Exemption Certificate – Vehicle/Vessel. Form ST-104NR must be completed by each buyer claiming an exemption from tax under Section 63-3622R, Idaho Code, when a nonresident buyer is purchasing a qualifying vehicle, vessel, or trailer. (3-26-19)

13. Form ST-108TR, Occasional Sale Exemption Claim – Office Trailer and Transport Trailer. Form ST-108TR is required by any person claiming the occasional sale exemption on the purchase of a transport trailer or an office trailer. The seller must complete the seller’s statement section in order for the buyer to claim the occasional sale exemption. (3-26-19)

14. Form ST-111, Sales Tax Exemption Claim Form – Grocer. Retailers of food products who have been granted record reduction authority by the State Tax Commission may accept the Form ST-111 from a buyer if the retailer has a properly executed Form ST-101 on file from the buyer. Form ST-111 must include the buyer’s Idaho seller’s permit number (if applicable), the signature of the individual claiming the exemption, and the total purchase price and general nature of the nontaxable products sold. (3-26-19)

15. Form ST-133, Sales Tax Exemption Certificate – Family or American Indian Sales. (3-26-19)
   a. Family Sale. Form ST-133 must be completed when claiming an exemption from tax when selling a motor vehicle to a relative under the exemption provided by Section 63-3622K, Idaho Code. (3-26-19)
   b. American Indian Sales. Form ST-133 must be completed when claiming an exemption from tax when selling a vehicle, vessel, or RV to a member of an American Indian tribe within the boundaries of an American Indian reservation. (3-26-19)

16. Form ST-133CATS, Sales Tax Exemption Certificate – Capital Asset Transfer Affidavit. Form ST-133CATS is required under the provisions of Section 63-3622K, Idaho Code, when claiming an exemption from tax on the sale of certain vehicles included in the bulk sale of a business’ assets when the new owner will continue to operate the business in a like manner; for qualifying transfers of certain capital assets through sale, lease or rental; and, for the transfer of vehicles to and from a business or between qualifying businesses when there is no change other than owners’ equity. (3-26-19)

17. Form ST-133GT, Use Tax Exemption Certificate – Gift Transfer Affidavit. Form ST-133GT must be completed to claim an exemption from tax when a vehicle, vessel, camper, trailer, or recreational vehicle is being transferred or received as a gift. (3-26-19)

18. The Diplomatic Tax Exemption Program. This United States government program grants immunity from state taxes to diplomats from certain foreign countries. A federal tax exemption card issued by the U.S. Department of State bears a photograph of the holder, a federal tax exemption number, and specific instructions as to the extent of the exemption granted to the diplomat. Additional information is provided in Rule 098 of these rules. (3-26-19)

19. Timely Acceptance of Certificates. A seller may accept a certificate from a buyer prior to the time of sale, at the time of sale, or at any reasonable time after the sale to establish the exemption claim, with the exception of Forms ST-104HM and ST-104G which must be provided at the time of sale. The sale is presumed to be taxable if no approved certificate is obtained from the buyer in the manner provided or permitted by this rule. (3-26-19)
   a. Certificates obtained by a seller at a time subsequent to, but not within a reasonable time after, the time of sale will be considered by the State Tax Commission in conjunction with all other evidence available to determine whether or not the seller has established that a sales tax transaction is exempt from tax. (3-4-10)
   b. Example: A retailer sells goods to a customer without charging the sales tax but does not obtain an ST-101 from the customer. Instead, the customer writes his Idaho seller’s permit number on the invoice when he signs for the goods. The retailer is later audited by the State Tax Commission and fails in an attempt to obtain a certificate
from his customer. The retailer argues that the Idaho seller’s permit number written on the invoice is evidence that the customer purchased the goods for resale. However the number by itself does not establish that the customer bought the goods for resale. The retailer is liable for the tax on the sale. (3-26-19)

c. Example: A retailer sells a truck load of hay to a customer, does not charge sales tax on the transaction, and fails to obtain an ST-101. The retailer is later audited by the State Tax Commission and is unable to obtain an ST-101 from the customer. The retailer argues that hay is a farm supply and this alone should establish that the sale is exempt. However, the customer may be in a business which does not qualify for the farming production exemption, such as racing or showing horses. Or, the customer may be using the hay for a nonbusiness purpose, such as raising animals for his own consumption. The retailer is liable for the tax on the sale. (3-4-10)

d. When a Notice of Deficiency Determination has been issued to a seller by the State Tax Commission and the seller petitions for redetermination as provided by IDAPA 35.02.01.320 - 328, “Tax Administration and Enforcement Administrative Rules,” he may submit certificates obtained from his customers as evidence of exemption claims, but only if the certificates are presented to the State Tax Commission within ninety (90) days of the date of the Notice of Deficiency Determination. (3-6-00)

129. USE OF A RECREATIONAL FACILITY, INSTRUCTIONAL FEES, AND PARI-MUTUEL BETTING (RULE 129).

01. Use of a Recreational Facility. Charges or fees to procure the use of a particular facility, facilities, or building for the purpose of recreation or physical conditioning are subject to sales tax. (3-6-00)

02. Dues. Dues paid to fraternal organizations such as the Elks, Eagles, Masonic Order, or similar organizations are not normally paid primarily for the use of facilities for recreation; in such cases, recreational use of facilities will be incidental. However, any separate, identifiable fees charged by such fraternal organizations, in excess of ordinary membership dues and fees, specifically for the use of recreational or physical conditioning facilities will be subject to sales tax including, but not limited to, bowling fees, green fees, swimming fees, court fees, or equipment usage fees. (3-6-00)

03. Instructional Fees. Separately stated instruction fees, such as for jazzercise, aerobics, dance, and swimming are not subject to sales tax. (3-6-00)

04. Pari-Mutuel Betting. Pari-mutuel betting is not subject to sales tax. (3-6-00)

05. Use of Tangible Personal Property. Charges imposed on persons using swimming pools, skating rinks, golf courses and bowling alleys, etc., often combine the privilege of entering the place with the right to use tangible personal property. When a uniform price is imposed upon all persons without regard to the intention of the individual to use tangible personal property or the other facilities included, the total charge will be presumed a charge for the use of a recreational facility and subject to sales tax. (3-6-00)

130. PROMOTER SPONSORED EVENTS (RULE 130).
Sections 63-3620 & 63-3620C, Idaho Code

01. Promoter’s Responsibility. Promoters of promoter sponsored events, as defined in Section 63-3620C, Idaho Code, must obtain a completed copy of the sales tax declaration section of Form ST-124, Idaho Sales Tax Declaration, from each participant at an event. The promoter must obtain pre-numbered Forms ST-124 from the State Tax Commission. The promoter must forward a copy of the completed Form ST-124 to the State Tax Commission within ten (10) days following the beginning of the event. The promoter may also maintain a copy in its file. The State Tax Commission may request from the promoter a master list of participants to be submitted in addition to the completed Forms ST-124. (3-20-14)

02. Use of the Form ST-124. The promoter will provide each participant with the Form ST-124. Upon completing the sales tax declaration section of the form, the participant must return it to the promoter. In this section, the participant states that the participant either has a valid seller’s permit, will use Form ST-124 as a temporary seller’s permit for the event, or will not make any taxable sales at that event. If a participant uses Form ST-124 as a temporary seller’s permit, the promoter will be considered the issuer of that permit as an agent of the State Tax Commission. The Form ST-124’s sales tax declaration shall include the following: (3-20-14)
a. The name of the promoter sponsoring the event, the name of the event, the event location, and the dates of the event. (3-30-01)
b. The name, address, and phone number of participant in the event. (3-30-01)
c. Either:
i. The participant's valid seller's permit number; or (3-20-14)
ii. A statement from the participant that the Form ST-124 will be used as a temporary seller’s permit for the event; or (3-20-14)
iii. A statement from the participant that no taxable retail sales will be made at this event. (3-30-01)
d. Other information the State Tax Commission may deem necessary. (3-30-01)

03. Participant's Failure to Provide a Form ST-124 to the Promoter. For every participant that does not provide the completed sales tax declaration portion of Form ST-124 to the promoter, the promoter must provide to the State Tax Commission a list of those participants within ten (10) days following the beginning of the event. For each participant listed, the promoter shall include the following: the business name, address, phone number, and names of all individuals who own and operate the business. (3-20-14)

04. Temporary Seller's Permit Issued by Promoter. Before a promoter may claim the income tax credit provided for by Section 63-3620C, Idaho Code, the promoter must forward a completed Form ST-124 to the State Tax Commission for each Form ST-124 used as a temporary seller’s permit. (3-20-14)

05. Promoter's Sales Tax Liability. The promoter shall not be held responsible for collecting sales tax on sales made by participants other than sales made by the promoter himself. (3-30-01)

131. -- 132. (RESERVED)

133. RADIO AND TELEVISION BROADCAST EQUIPMENT (RULE 133). Sales and purchases of equipment primarily and directly used in the production and broadcasting of radio and television programs are exempt pursuant to Section 63-3622S, Idaho Code. To qualify for the exemption, a business must be primarily devoted to both producing and broadcasting either radio or television programs. Businesses that provide television or radio programs only to paid subscribers are not broadcasters and cannot claim this exemption. (5-3-03)

134. SALES OF LIVESTOCK (RULE 134).

01. Exempt Sales of Livestock. Beginning February 27, 2002, certain sales and purchases of livestock are exempt from sales and use tax. To qualify for the exemption, the livestock must be sold at a livestock market chartered by the Idaho Department of Agriculture, or an organization expressly exempted from chartering requirements by Section 25-1722, Idaho Code. Those groups expressly exempted from chartering requirements are:

a. Any place or operation where future farmers or 4-H groups, or private fairs conduct sales of livestock. (5-3-03)
b. Any place or operation conducted for a dispersal sale of the livestock of a farmer, dairyman, livestock breeder, or feeder who is discontinuing said business and no other livestock is sold or offered for sale. (5-3-03)
c. Any place or operation where a breeder or an association of breeders of livestock assemble and offer for sale and sell under their own management any livestock when such breeders shall assume all responsibility of such sale and the title of livestock sold. This shall apply to all purebred livestock association sales. (5-3-03)
d. All sales of livestock by any generally recognized statewide association or associations composed of persons engaged in the production in Idaho of cattle, calves, sheep, mules, horses, swine, or goats. (5-3-03)

e. Sales of livestock by any nonprofit cooperative association, corporation sole or religious, fraternal or benevolent corporation, provided such association or corporation complies with regulations of the director in connection with such sale and such sales are not held in the regular course of business of such corporation or association. (5-3-03)

f. Any Idaho auction market operated by an Idaho licensed auctioneer selling not more than twenty (20) animals a week or more than eighty (80) animals a month, provided such an auction market is bonded under the provisions of the Federal Packers and Stockyards Act, of 1921, as amended. (5-3-03)

02. Sales of Other Animals Excluded. This exemption is limited to sales of cattle, calves, sheep, mules, horses, swine, or goats. Sales of other animals do not qualify for the exemption regardless of who the seller is and where the sale takes place. (5-3-03)

135. SNOWGROOMING AND SNOWMAKING EQUIPMENT (RULE 135).

01. Exemption for Snow Equipment. Section 63-3622Y, Idaho Code, exempts the sale, storage, use or other consumption of tangible personal property that will become a component of an aerial passenger tramway and snowgrooming and snowmaking equipment purchased and used by the owner or operator of a downhill ski area. This exemption also extends to sales and purchases of component parts used to build or repair snowgrooming and snowmaking equipment. (4-2-08)

02. Consumable Supplies Not Exempt. This exemption only applies to sales and purchases of equipment that will become a component part of snowmaking or snowgrooming equipment. It does not apply to sales and purchases of fuel, fluids, or other consumable supplies. (4-2-08)

136. REBATES PAID TO CERTAIN REAL ESTATE DEVELOPERS (RULE 136).

01. Rebate of Sales Tax. Section 63-3641, Idaho Code, provides for a rebate of sales taxes to be paid to real estate developers who build a qualifying retail complex at a cost of four million dollars ($4,000,000) or more and who expend more than six million dollars ($6,000,000) for the installation of a highway interchange or for improvements on a highway. For the purposes of this rule, the term “qualifying shopping center” shall mean a qualifying retail complex as specified by Section 63-3641, Idaho Code. (4-7-11)

02. Qualifying Shopping Center Location. Qualified retailers that are located in a qualifying shopping center must apply for a separate sellers’ permit and report sales separately for that location. For instance, if a retailer has multiple stores in Idaho it must file a separate return for any store located in a qualifying shopping center. A retailer who ceases operation in a qualifying shopping center must notify the Tax Commission and cancel the sellers’ permit for that location. (4-7-11)

03. Confidential Information. Information about an individual store’s sales or aggregate sales for stores located in a qualifying shopping center is confidential and may not be released to the public. (4-2-08)

04. Developer Responsibilities. The developer of a qualifying shopping center must provide the names and taxpayer identification numbers of the stores located in the shopping center to the Tax Commission. The developer must also notify the Tax Commission whenever a new retailer begins operation or when a retailer ceases operations in a qualifying shopping center. (4-2-08)

05. Certifying Expenditures Prior to Rebate Payment. No rebate will be paid unless the Idaho Department of Transportation or an appropriate political subdivision of the state of Idaho has certified as to the amounts actually expended and that the expenditures were made for the purpose of constructing approved transportation improvements. (4-7-11)

06. Disposition of Revenue from a Qualifying Shopping Center. The Tax Commission will deposit sixty percent (60%) of the sales and use tax reported by qualifying retailers in the demonstration pilot project fund
after a developer has: (4-7-11)

   a. Identified the location and boundaries of the retail complex; (4-7-11)
   b. Identified the qualified retailers making retail sales within the complex; and (4-7-11)
   c. Verified that it has met the expenditure requirements of Subsection 136.01 of this rule. (4-7-11)

137. -- 999. (RESERVED)
IDAPA 35
TITLE 01
CHAPTER 03

35.01.03 – PROPERTY TAX ADMINISTRATIVE RULES

000. LEGAL AUTHORITY (RULE 000).
In accordance with Section 63-105 and 63-105A, Idaho Code, the State Tax Commission has promulgated rules implementing the provisions of the Idaho Statutes relating to the property tax laws and related statutes, Chapters 1 through 17 and Chapters 28, 30, 35, 36, and 45, Title 63, Idaho Code. Rules relating to the market value of recreational vehicles are authorized by Section 49-446, Idaho Code. Rules relating to taxation of newly constructed improvements are authorized by Section 63-105A, Idaho Code. (4-4-13)

001. TITLE AND SCOPE (RULE 001).
These rules are titled IDAPA 35.01.03, “Property Tax Administrative Rules.” (7-1-93)

002. WRITTEN INTERPRETATIONS (RULE 002).
This agency has written statements as defined in Section 67-5201(19)(b)(iv), Idaho Code, that pertain to the interpretation of the rules of this chapter or to the documentation of compliance with the rules of this chapter. To the extent that these documents are not confidential by statute or rule, the documents are available for public inspection and copying at the main office of the State Tax Commission. See Rule 005 of these rules for the main office address. (3-15-02)

003. ADMINISTRATIVE APPEALS (RULE 003).
This chapter does allow administrative relief of certain provisions outlined herein. These rules relate to proceedings pursuant to Sections 63-407 and 63-707, Idaho Code. (4-4-13)

004. PUBLIC RECORDS (RULE 004).
Sections 74-101 through 74-126, 63-302, 63-313, 63-602Y, 63-3076 and 63-3077, Idaho Code

01. Records Open to the Public. Public records under the Public Records Act, Chapter 1, Title 74, Idaho Code, are presumed to be open to the public to the extent that these records are not confidential under Sections 63-3076, 63-3077 or 74-101 through 74-126, Idaho Code. (3-29-12)

02. Records Not Presumed Open to the Public. The following public records are not presumed open to the public, are confidential, and may not be disclosed without the written consent, including by electronic means, of the taxpayer except as described in Section 74-107(24), Idaho Code:

a. The lists of personal property required to be filed by Sections 63-302 and 63-602Y; (3-29-12)

b. The lists of transient personal property required to be filed by Section 63-313; (3-29-12)

c. The operator’s statement required to be filed by Section 63-404; and (3-29-12)

d. Confidential, commercial, or financial information including trade secrets, provided the taxpayer gives notice of a claim to exempt the specific documents from disclosure. The notice of a claim to exemption shall be accomplished by stamping or marking each page or the first page of each portion of the document so claimed. (3-29-12)

03. County Assessor -- Officer of the State. The county assessor is included in the group of any officer, employee or authorized representative of the state as stated in Section 74-107(24), Idaho Code, and therefore may be given documents without the permission of the taxpayer for purposes of carrying out the provisions of state law including the proceedings of the county board of equalization. Exchanges of information between or among the State Tax Commission and county officials otherwise authorized by law are not limited by any provision of this Rule. (3-29-12)

01. **Main Office.** The State Tax Commission main office is located at 800 Park Blvd., Plaza IV, Boise, Idaho 83712-7742. The correspondence mailing address is P.O. Box 36, Boise, Idaho 83722-0410. The State Tax Commission’s Website is www.tax.idaho.gov. The telephone number for Taxpayer Services is (208) 334-7660, or toll free 1-800-972-7660, and the facsimile number is (208) 334-7846. The State Tax Commission's e-mail is taxrep@tax.idaho.gov. Main Office hours are from 8 a.m. to 5 p.m. Monday through Friday except for legal holidays. (3-15-02)

02. **Hearing Impaired.** Hearing impaired individuals may contact any State Tax Commission office by using the Idaho Relay Service Number 1-800-377-3529. (3-15-02)

006. **INCORPORATION BY REFERENCE (RULE 006).**

Unless provided otherwise, any reference in these rules to any document identified in Rule 006 of these rules shall constitute the full incorporation into these rules of that document for the purposes of the reference, including any notes and appendices therein. The term “documents” includes codes, standards, or rules adopted by an agency of the state or of the United States or by any nationally recognized organization or association. (5-3-03)

01. **Availability of Reference Material.** Copies of the documents incorporated by reference into these rules are available at the main office of the State Tax Commission as listed in Rule 005 of these rules or can be electronically accessed as noted in Subsection 006.02 of this rule. (5-8-09)

02. **Documents Incorporated by Reference.** The following documents are incorporated by reference into these rules: (5-3-03)

f. “Second-Growth Yield, Stand, and Volume Table for the Western White Pine Type” published by the Government Printing Office for the U.S. Department of Agriculture in 1932, Technical Bulletin No. 323. (5-3-03)

007. -- 019. (RESERVED)

020. **VALUE OF RECREATIONAL VEHICLES FOR ANNUAL REGISTRATION AND TAXATION OF UNREGISTERED RECREATIONAL VEHICLES (RULE 020).**

Section 49-446, Idaho Code
01. Value of Recreational Vehicle For Registration Fees. For the types of recreational vehicles shown in the “Depreciation Schedule for RV’s,” beginning with registration fees for calendar year 2004, the County assessors shall administer and collect the recreational vehicle (RV) registration fee based on the market value calculated from the following depreciation schedule. For all other types of recreational vehicles, the assessor shall use any available standard industry indices of retail value to determine the market value. If no such indices are available, the assessor shall determine market value from sale price or by using appraisal procedures as defined in Rule 217 of these rules.

To use this depreciation schedule, multiply the sales price or the market value of the RV adjusted by the percentage, if applicable from Subsection 020.02 or 020.03 below, by the appropriate “Percent Good” based on the “Age” and type of RV. Decide the “Age” based on the year of purchase as follows: purchased in the current year equals “Age” zero (0), purchased in the previous year equals “Age” one (1), etc. For example, in year 2004, the “Age” for an RV purchased in 2004 is zero (0), the “Age” for an RV purchased in 2003 is one (1), the “Age” for an RV purchased in 2002 is two (2), the “Age” for an RV purchased in 2001 is three (3), etc. For any RV still in use and purchased fifteen (15) or more years ago, calculate the minimum market value using the lowest depreciation rate for the correct RV type.

02. Value of Motor Home or Van Conversion For Registration Fees. The value of any motor home or van conversion used to calculate the registration fee shall exclude any chassis value. Beginning with the registration fees for calendar year 2004, the county assessor shall use the following schedule of valuation factors to calculate the value of the motor home or van conversion excluding the chassis value.
Multiply the motor home or van conversion’s total value by the appropriate factor to calculate the value excluding the chassis value. (5-3-03)

03. Value of Vehicles Designed For Combined RV and Non-RV Uses For Registration Fees. For vehicles designed to have part of the vehicle for RV use and other parts of the vehicle for non-RV uses like transporting horses or other cargo, the value of the RV to be used to calculate the registration fee on or after January 1, 2015 is fifty percent (50%) of the sales price. (3-20-14)

04. Assessment Notice Mailed or Assessment Canceled. If after August 31, the required annual registration fee has not been paid, a taxpayer’s valuation assessment notice shall be mailed to the owner of the recreational vehicle. If the registration fee is paid before the fourth Monday of November, the assessor shall cancel the assessment. (5-3-03)

Multiply the motor home or van conversion’s total value by the appropriate factor to calculate the value excluding the chassis value. (5-3-03)

03. Value of Vehicles Designed For Combined RV and Non-RV Uses For Registration Fees. For vehicles designed to have part of the vehicle for RV use and other parts of the vehicle for non-RV uses like transporting horses or other cargo, the value of the RV to be used to calculate the registration fee on or after January 1, 2015 is fifty percent (50%) of the sales price. (3-20-14)

04. Assessment Notice Mailed or Assessment Canceled. If after August 31, the required annual registration fee has not been paid, a taxpayer’s valuation assessment notice shall be mailed to the owner of the recreational vehicle. If the registration fee is paid before the fourth Monday of November, the assessor shall cancel the assessment. (5-3-03)

021. -- 113. (RESERVED)

114. POWERS AND DUTIES - PROPERTY TAX - VALUE INFORMATION (RULE 114).
Sections 63-105A and 63-509, Idaho Code. To provide needed value information under Subsection 63-105A(2), Idaho Code, each county assessor will, to the extent practicable, report to the State Tax Commission in the same manner and at the same time as the abstract under Section 63-509, Idaho Code, the total market value and exempted value of all property (land and improvements) used for residential purposes and granted the homeowner’s exemption under Section 63-602G, Idaho Code, for the current year’s assessment roll. Additionally, each county assessor will, to the extent practicable, report to the State Tax Commission the number of properties and the aggregate total market value of the properties granted the homeowner’s exemption in each group starting with the group of properties valued at less than or equal to twenty-five thousand dollars ($25,000) and including each subsequent group with value increases of twenty-five thousand dollars ($25,000) and ending with the group of properties exceeding the value of more than four hundred fifty thousand dollars ($450,000). (3-29-17)

115. POWERS AND DUTIES - PROPERTY TAX - VALUE INFORMATION (RULE 115).
Sections 63-105A and 63-509, Idaho Code

01. Requirement to Submit Abstracts. The county auditor must submit to the State Tax Commission abstracts for the county, the cities or the portion of each city located in the county, the Boise School District, and any taxing district or unit of government with a restriction providing that such district does not levy property taxes on all otherwise taxable property as described in Rule 808 of these rules. (3-29-12)

02. Values by Secondary Category. For each of the abstracts required in Subsection 115.01 of this rule, to provide needed value information under Subsection 63-105A(2), Idaho Code, each assessor will report to the county auditor the market value and exempted value of all property by secondary categories, described in Rules 510, 511, and 512 of these rules, in the same manner as the abstracts required for each county under Section 63-509, Idaho Code, and Rule 509 of these rules. (3-29-12)

03. Additional Abstracts to Accompany County Abstracts. Each county auditor will include city and any required additional abstracts described in Subsection 115.01 of this rule, when submitting to the State Tax Commission the abstracts required under Section 63-509, Idaho Code, and Rule 509 of these rules. (3-29-12)
04. Cross Reference. For the descriptions of secondary categories and clarification of responsibilities relating to listing and reporting values by secondary categories, see Rules 509, 510, 511, and 512 of these rules. For a description of levy criteria requiring submittal of additional abstracts, see Rule 808 of these rules. (3-29-12)

116. -- 119. (RESERVED)

120. INVESTIGATION OF WRITTEN COMPLAINTS (RULE 120). Section 63-105A, Idaho Code

01. Definitions. (4-11-15)

a. Complaint. Complaint means a signed, written statement submitted to the Tax Commission requesting that this agency investigate any actions by county officials relating to property tax assessment or administration, provided such actions are not related to personnel matter or matters relating to the expenditure of funds. (7-1-99)

b. Complainant. Complainant means any individual making a complaint. (7-1-99)

c. Investigation. Investigation means observation and close examination of a county official’s application of property tax assessment or administration law and State Tax Commission rules. The investigation may require field inspections of property, analysis of public records or the interviewing of witnesses. The investigation will be limited to specific issues identified in the complaint. (4-11-15)

d. County official. The term county official means the elected or appointed official whose actions are the subject of the complaint. (4-11-15)

02. Investigation Procedure. The following procedures apply to an investigation of a complaint. (7-1-99)

a. Examination of complaint. The complaint will be examined by the State Tax Commission to decide if a formal investigation will be conducted. (7-1-99)

b. Notification. Within thirty (30) days of receipt of complaint, the State Tax Commission will notify the complainant of the decision regarding initiation of an investigation. If an investigation is initiated, the affected county official(s) shall also be notified within this time frame. (4-11-15)

c. Delivery of investigation order. Within thirty (30) days of a decision to conduct an investigation, the State Tax Commission will deliver to the affected county official(s) a copy of the investigation order naming the investigators and outlining what is to be investigated. (4-11-15)

d. Preliminary report. A preliminary report will be prepared by the investigator and legal counsel. The report will include findings and recommendations, and may include information from the official(s). (4-11-15)

e. Presentation of preliminary report. The preliminary report will be presented to the complainant and the official(s). The State Tax Commission investigators will be present when the report is discussed with the affected county official(s) and the complainant. (4-11-15)

f. Comment period. The complainant and the county official(s) will be given a specified time to review and comment on the preliminary report, particularly to correct any errors of fact. (4-11-15)

g. Final report. At the end of the review by the complainant and the public official a final report will be prepared by the investigator and legal counsel and submitted to any affected county official(s) with any changes from the preliminary report highlighted. (4-11-15)

03. County Officials’ Response to Final Report. After the final report is completed, the county official(s) shall outline how the investigator’s recommendations will be implemented and provide a written explanation of why any recommendation has been rejected. (4-11-15)
04. **Conclusion of Investigation.** The investigator’s final report and the county officials’ written response to the report shall conclude the investigation. The conclusion of the investigation does not preclude the State Tax Commission from enforcing additional powers and duties as prescribed by law or the complainant and county official(s) from exercising his or her right to appeal property valuations before a County Board of Equalization, the State Board of Tax Appeals or in District Court. (4-11-15)

05. **Special Rules for Investigation of Complaints About Property Tax Budgets or Levies.** When complaints are made about property tax budgets or levies of taxing districts, the results of any investigation will also be reported to the appropriate taxing district, the county prosecuting attorney, and affected county officials. The Tax Commission's investigatory authority is limited to determining whether a levy rate or property tax budget increase exceeds any statutory maximum, or whether a levy is unauthorized. Any such investigation must be conducted in accordance with the time constraints found in Section 63-809, Idaho Code. (4-11-15)

121. -- 124. (RESERVED)

125. **PROGRAM OF EDUCATION (RULE 125).**
Section 63-105A(17), Idaho Code

01. **Administration.** The program of education is the responsibility of the State Tax Commission (Commission). The program of education shall be administered by the Commission’s education director (education director). (5-8-09)

02. **Appraisal School and Other Courses.** An appraisal school shall be held at least once each year. The school shall offer courses for training the Commission's employees, county commissioners, and assessment personnel. The Idaho Association of County Assessors Education Committee and the education director shall approve the curriculum for the annual appraisal school. Other courses may be developed and offered as approved by the education director. (5-8-09)

03. **Record Keeping and Reporting of Attendance, Grades, and Credit Hours.** The education director shall maintain student attendance records, records of education hours earned, status of certification, and grades. (5-8-09)

a. The education director and course instructors will monitor attendance and hours of education to be awarded to each student attending the Commission administered classes. A certificate of completion showing the number of education hours to be awarded will be issued by the education director for the Commission administered classes. In order to receive credit for classes not administered by the Commission, the student shall provide a certificate of completion showing the number of education hours completed, a course description, and the dates attended. (5-8-09)

b. The education director shall maintain records to show the number of education hours completed during the current year and the previous two (2) years. By June and November of each year, the education director shall send a certification status report to each county assessor or applicable supervisor. This report will list each certified property tax appraiser who is known to be employed by or under contract with said assessor and show the number of hours of education completed during the previous year and current calendar year. (5-8-09)

c. If a test is given for Commission developed courses, the education director will notify the appropriate county assessor or applicable supervisor of the grade achieved on the test. (5-8-09)

04. **Examination Committee -- Establishment and Procedures.** The examination committee shall be composed of three (3) assessors, one (1) member of the Idaho Association of Assessment Personnel, and the education director. The education director shall appoint the members of the committee. The committee will operate by majority rule. (5-8-09)

a. Terms. The term of the education director shall be continuous. The other members shall serve four (4) year terms. The education director shall maintain records of dates of appointments. (5-8-09)
b. If any member fails to serve the full-appointed term, the education director shall appoint another member for the remainder of the term. The appointee shall be from the same group as the member not completing the term. (5-8-09)

c. The education director shall chair the committee. (5-8-09)

d. An applicant may appeal any rulings, matters involving examination structure, grading, or grievances with the committee to a review board. No board member may be an assessor of the applicant’s county or a member of the examination committee. The review board shall consist of the following four (4) persons: (5-8-09)

i. The president of the Idaho Association of County Assessors; (5-8-09)

ii. A person appointed by the president of the Idaho Association of County Assessors; (5-8-09)

iii. A person appointed by the examination committee; and (5-8-09)

iv. A person appointed by the education director. (5-8-09)

e. The committee shall decide which courses meet the requirements for obtaining and maintaining certification and the hours of appraisal education awarded for each course. (5-8-09)

05. Cross Reference. See Rule 126 of these rules for the description of the certified property tax appraiser program and Rule 128 of these rules for the cadastral certification program. (5-8-09)

126. PROPERTY TAX APPRAISER CERTIFICATION PROGRAM (RULE 126).

Section 63-105A, Idaho Code

01. Application for Certification. The State Tax Commission (Commission) shall prescribe and make available the application for state certification form to each county assessor. (5-8-09)

a. After the applicant has completed the requirements of Subsection 126.02 of this rule, the applicant’s supervisor shall submit the completed application form to the education director. The application shall list the following: (5-8-09)

i. The name and address of the applicant, (5-8-09)

ii. The applicant’s employer, and (5-8-09)

iii. The courses completed. (5-8-09)

b. The application must be signed and dated by the applicant and by the applicant’s supervisor certifying the completion of the minimum experience requirement. (5-8-09)

c. The education director shall make available information regarding the certification process and the application form to students attending the courses referenced in Subsection 126.02 of this rule. (5-8-09)

02. Certification Requirements. An applicant for certification must pass at least two (2) appraisal courses: Commission Course No. 1 or the International Association of Assessing Officers’ (IAAO) Course 101; and IAAO Course No. 102 or IAAO Course 201 or IAAO Course 300 or equivalent courses, and must have a minimum of twelve (12) months experience appraising for tax assessment purposes in Idaho or equivalent property tax appraisal experience approved by the examination committee. These requirements must be completed in the five (5) year period immediately preceding application except when the applicant proves equivalent education and experience. (3-29-10)

a. Upon request to the education director, an applicant may take one (1) required course and challenge the second required course by passing a test. The education director shall set the time and place for the test. (4-11-15)
b. Equivalent courses may be approved by the education director and the examination committee. (5-8-09)

c. With the exceptions of the county assessor, the members of the county board of equalization, and the State Tax Commissioners, all persons making decisions regarding final values for assessment purposes shall be certified property tax appraisers. (5-8-09)

03. Maintaining Property Tax Appraisal Certification.

a. To maintain certification each appraiser must complete thirty-two (32) hours of continuing education within two (2) years of the certification date. Thereafter, by January 1 of each year, each appraiser shall have completed thirty-two (32) hours of continuing education during the previous two (2) years. (5-8-09)

b. When any certified property tax appraiser fails to meet the continuing education requirements, the examination committee shall place this person on six (6) month probation. When any certified property tax appraiser fails to meet the continuing education requirements within this probationary period, the person shall forfeit certification or may, on a one (1) time only basis, submit a written petition to the examination committee for a six (6) month extension of probation. This person must submit this petition at least thirty (30) days prior to the expiration date of the first probationary period. (4-11-15)

c. For recertification, an applicant must apply to the examination committee within five (5) years of the date certification was canceled. An applicant for recertification must satisfactorily complete a written examination approved by the committee. The committee shall decide the time and place of the examination. If more than five (5) years have lapsed since certification was canceled, the committee shall not grant recertification. After the five (5) year period, an applicant must apply for certification under the same conditions as required for initial certification and a new certification number will be issued. (4-11-15)

04. Cross Reference. See Section 63-201. (1)(a), Idaho Code for the requirement that only assessors or certified property tax appraisers place value on any assessment roll. See Rule 125 of these rules for the description of the examination committee. (5-8-09)

127. (RESERVED)

128. CADASTRAL CERTIFICATION PROGRAM (RULE 128).
Section 63-105A, Idaho Code

01. Application for Certification. The State Tax Commission (Commission) shall prescribe and make available the application for state certification form to each county assessor. (5-8-09)

a. After any applicant has completed the requirements provided in Subsection 128.02 of this rule, the applicant’s supervisor shall submit the completed application form to the education director. The application shall list the following:

i. The name and address of the applicant, (5-8-09)

ii. The applicant’s employer, and (5-8-09)

iii. The courses completed. (5-8-09)

b. The application must be signed and dated by the applicant and by the applicant’s supervisor certifying the completion of the minimum experience requirement. (5-8-09)

c. The education director shall make available information regarding the certification process and the application form to students attending the courses mentioned in Subsection 128.02. (5-8-09)

02. Certification Requirements. An applicant for certification must have passed the Commission’s
Basic Mapping Course and the International Association of Assessing Officers' (IAAO) Course 600 or IAAO Course 601 or both IAAO Courses 650 and 651, or equivalent courses, and must have a minimum of twelve (12) months experience working as a cadastral specialist in Idaho or equivalent cadastral experience approved by the examination committee. These requirements must be completed in the five (5) year period immediately preceding application except when the applicant proves equivalent education and experience. (5-8-09)

a. Upon request to the education director, an applicant may take one (1) required course and challenge the second required course by passing a test. The education director shall set the time and place for the test. (4-11-15)

b. Equivalent courses may be approved by the education director and by the examination committee. (4-11-15)

03. Maintaining Cadastral Specialist Certification. (5-8-09)

a. To maintain certification, each cadastral specialist must complete thirty-two (32) hours of continuing education within two (2) years of the certification date. Thereafter, by January 1 of each year, each cadastral specialist shall have completed thirty-two (32) hours of continuing education during the previous two (2) years. (5-8-09)

b. When any certified cadastral specialist fails to meet the continuing education requirements, the education committee shall place this person on six (6) month probation. When any certified cadastral specialist fails to meet the continuing education requirements within this probationary period, the person shall forfeit certification or, on a one (1) time only basis, submit a written petition to the examination committee for a six (6) month extension of probation. This person must submit this petition at least thirty (30) days prior to the expiration date of the first probationary period. (4-11-15)

c. For recertification, an applicant must apply to the examination committee within five (5) years of the date certification was canceled. An applicant, for recertification, must satisfactorily complete a written examination approved by the committee. The committee shall decide the time and place of the examination. If more than five (5) years have lapsed since certification was canceled, the committee shall not grant recertification. After the five (5) year period, an applicant must apply for certification under the same conditions as required for initial certification and a new certification number will be issued. (4-11-15)

04. Cross Reference. See Rule 125 of these rules for the description of the examination committee. (5-8-09)

129. (RESERVED)

130. DESCRIPTION OF PRIMARY CATEGORIES USED TO TEST FOR EQUALIZATION (RULE 130). Sections 63-109 and 63-315, Idaho Code. The State Tax Commission establishes the primary categories listed herein for the purpose of testing values in each county and each school district for equalization by the State Tax Commission under Section 63-109, Idaho Code. (3-30-07)

01. Definitions. The following definitions apply for the purposes of testing for equalization under Section 63-109, Idaho Code, notification under Sections 63-301 and 63-308, Idaho Code, and reporting under Section 63-509, Idaho Code. (3-30-07)

a. Primary Category. Primary category means the five categories established and described in Subsections 130.02 through 130.06 of this rule and used by the State Tax Commission to test for equalization under Section 63-109, Idaho Code. (3-30-07)

b. Secondary Category. Secondary category means the categories established and described in Rules 510, 511, and 512 of these rules and used by county assessors to list property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and report values to the State Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (3-30-07)
02. **Vacant Residential Land Category.** Vacant residential land is all vacant land used for residential purposes. The assessor listed this land in secondary categories 12, 15, 18, or 20, as described in Rule 510 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the State Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (3-30-07)

03. **Improved Residential Property Category.** Improved residential property is all improvements used for residential purposes and the land upon which these improvements are located. The assessor listed this property in secondary categories 10 and 31, 46, or 48, 12 and 34, 46, or 48, 15 and 37, 46, or 48, 18 and 40, 20 and 41, 46, or 48, 26, 46, 48, or 50 together with secondary category 47 as appropriate for inclusion when valuing this property, as described in Rules 510 and 511 of these rules, for the purposes of listing property on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the State Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (3-30-07)

04. **Vacant Commercial or Industrial Land Category.** Vacant commercial or industrial land is all vacant land used for commercial or industrial purposes. The assessor listed this property in secondary categories 11, 13, 14, 16, 17, 21, or 22, as described in Rule 510 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the State Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (3-30-07)

05. **Improved Commercial or Industrial Property Category.** Improved commercial or industrial property is all improvements used for commercial or industrial purposes and the land upon which these improvements are located. The assessor listed this property in secondary categories 11 and 33, 13 and 35, 14 and 36, 16 and 38, 17 and 39, 21 and 42, 22 and 43, 27, or 51, as described in Rules 510 and 511 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the State Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (3-30-07)

06. **Manufactured Homes on Leased Land Category.** Manufactured homes on leased land are all manufactured homes on leased land that the assessor listed in secondary categories 49 or 65 together with secondary category 47 as appropriate for inclusion when valuing this property, as described in Rule 511 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the State Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules. (3-30-07)

07. **Conversion Table: Secondary Categories to Primary Categories.**

08. **Cross Reference.** For clarification of responsibilities relating to listing values on the valuation assessment notices or reporting values on the abstracts, see Rule 114, 115, 509, 510, 511, and 512 of these rules. For descriptions of secondary categories used to list land values on the valuation assessment notices and report land
values on the abstracts, see Rule 510 of these rules, used to list improvement values on the valuation assessment notices and report improvement values on the abstracts, see Rule 511 of these rules, and used to list values for all property other than land or improvements on the valuation assessment notices and report these values on the abstracts, see Rule 512 of these rules. (3-30-07)

131. USE OF RATIO STUDY TO TEST FOR EQUALIZATION IN COUNTIES (RULE 131).
Section 63-109, Idaho Code

01. Equalization Ratio Study. Each year the State Tax Commission shall conduct a ratio study to assist in the equalization of assessments of property within and among the primary categories established in Rule 130 of these rules. The ratio study shall be conducted in accordance with the “Standard on Ratio Studies” and the “Standard on Verification and Adjustment of Sales” both referenced in Rule 006 of these rules. The annual ratio study shall test assessments as of January 1 of each year. Except when sales or appraisals must be added or deleted to improve representativeness, sales used will be those occurring within each county between October 1 of the year preceding the year for which assessments are to be tested and September 30 of the year for which assessments are to be tested. Each sale price is to be adjusted for time and compared to market value for assessment purposes for the year for which assessments are to be tested, to compute ratios to be analyzed. The State Tax Commission may use sales from extended time periods and may add appraisals when data is lacking. Equalization ratio studies must consist of at least five (5) sales and/or appraisals. The State Tax Commission may delete sales when necessary to improve representativeness. Sales should be considered as potentially valid if a financial institution is the seller, provided that:

a. Such sales comprise more than twenty (20) percent of the sales in any primary category or other category tested for equalization; (4-4-13)
b. Such sales are validated to account for changes in property characteristics; and (4-4-13)
c. Any properties that have been vandalized are excluded. (4-4-13)
d. The study shall be completed in February following the end of the period studied. The appropriate ratio study statistical measure of level shall be the median. (4-4-13)

02. Tested for Equalization. Except as provided in Subsection 131.03 of this rule, categories to be tested for equalization purposes are the primary categories, described in Subsections 130.02 through 130.06 of these rules, provided adequate samples can be obtained. (4-7-11)

03. Follow-Up Ratio Study. When indicated, based on criteria in Paragraph 131.03.a. and 131.03.b. of this rule, a follow-up ratio study shall be conducted to test the assessments for January 1 of the year following the year tested by the annual ratio study and shall be based on property sales occurring during the calendar year immediately preceding that date. A follow-up ratio study shall be indicated whenever:

a. The annual ratio study, provided in Subsections 131.01 and 131.02 of this rule, discloses that assessments in any primary category as described in Subsections 130.02 through 130.06 of these rules are out of compliance with the equalization standards of this rule; or (4-2-08)
b. The State Tax Commission is informed after the county board of equalization adjourns and before the state board of equalization adjourns of the implementation of assessment changes likely to result in a finding that a category found in compliance with equalization standards following the annual ratio study would be found out of compliance with these standards for the current year’s assessments. The follow-up ratio study authorized under this option shall be conducted for the primary category likely to be out of compliance with equalization standards and for any secondary categories comprising the primary category, provided adequate samples can be obtained. (4-7-11)

04. Notice of Follow-Up Ratio Study. The State Tax Commission shall notify the county assessor of the reason for and results of the follow-up ratio study. If the follow-up ratio study is conducted as provided in Paragraph 131.03.b. of this rule, the notice shall be sent to the county board of equalization and county assessor and shall describe the assessment changes that resulted in the need for the follow-up ratio study. The notice shall indicate whether any adjustments will be considered by the State Tax Commission at its next equalization meeting in August based on either the annual, or any follow-up ratio study, and the reason for the proposed adjustments. (4-2-08)
05. **Use of Ratio Study Results.** The results of the annual ratio study or any follow-up ratio study shall be one (1) source of information upon which the State Tax Commission may rely when testing assessments for equalization purposes under Section 63-109, Idaho Code. When the results of any ratio study on any primary, or, if applicable under the provisions of Subsection 131.03.b. of this rule, secondary category, described in Subsections 130.02 through 130.07 of these rules, show, with reasonable statistical certainty as defined in Subsection 131.09 of this rule, that the appropriate measure of level of the category studied is less than ninety percent (90%) or greater than one hundred ten percent (110%), the assessment of property within that category may be considered not equalized. When this occurs, the State Tax Commission may, at its annual meeting commencing on the second Monday in August, order the county auditor to adjust the value of all property in the category or any portion of the category included in the analysis conducted in an amount the State Tax Commission finds necessary to accomplish equalization of assessments of property. Within any primary category, except as provided in Subsection 131.06 of this rule, adjustment will not be considered for any secondary category, described in Rule 510, 511, or 512 of these rules, that does not have at least one (1) observation in the ratio study conducted for that primary category. (4-7-11)

06. **Exception from Requirement for at Least One (1) Observation for Use of Secondary Category in Adjusted Value Determination.** Properties identified as secondary categories 10 and 31 rarely sell separately from farms and therefore do not appear in any ratio study. However, the level of assessment typically is similar to that of other rural residential property, including property in secondary categories 12, 15, 34, and 37. For any ratio study where there is an adjustment to be made to the assessed values in the residential designation, such adjustment shall be applied to any assessed value in secondary category 10, provided there is at least one observation (sale) of property identified in either secondary category 12 or 15. Such adjustment shall also be applied to any assessed value in secondary category 31, provided there is at least one (1) observation (sale) of property identified in either secondary category 34 or 37. (3-30-07)

07. **Use of Alternate Ratio Study.** When the follow-up ratio study required by Subsection 131.03 of this rule does not measure the true assessment level, the State Tax Commission may consider adjustment based on the most recent annually conducted ratio study or other information relevant to equalization. If the State Tax Commission has reason to question the representativeness of the sample used in an annual or follow-up ratio study conducted on any primary category, the State Tax Commission may delay implementation of any order to adjust property values until two (2) successive years’ ratio studies fail to produce an appropriate measure of level between ninety percent (90%) and one hundred ten percent (110%). (3-30-07)

08. **Submission of Additional Information.** Any party may petition the State Tax Commission to consider any information or studies relevant to equalization. The petition shall include a description of the information to be presented and the petitioner’s conclusions drawn from the information. (4-5-95)

09. **Reasonable Statistical Certainty.** For the purposes of Rule 131 and equalization pursuant to Section 63-109, Idaho Code, “reasonable statistical certainty” that any primary category is not equalized shall mean that the appropriate measure of level determined by the ratio study for any category tested for equalization must be provably less than ninety percent (90%) or greater than one hundred ten percent (110%) of market value for assessment purposes. Such a determination shall occur if:

- **a.** The appropriate measure of level for the category(ies) being tested is less than ninety percent (90%) or greater than one hundred ten percent (110%) and a ninety percent (90%) two-tailed confidence interval around the appropriate measure of level fails to include ninety percent (90%) or one hundred ten percent (110%); or (4-7-11)

- **b.** The appropriate measure of level for the category(ies) being tested has been less than ninety percent (90%) or greater than one hundred ten percent (110%) as determined by the most recent previous two (2) ratio studies on the category(ies) and an eighty percent (80%) two-tailed confidence interval around the appropriate measure of level fails to include ninety percent (90%) or one hundred ten percent (110%). No ratio study completed prior to August 31, 2007 will be considered as one of the most recent previous two (2) ratio studies. (4-7-11)

10. **Cross References.** The primary categories are described in Subsections 130.02 through 130.06 of these rules, and the secondary categories are described in Rules 510, 511, and 512 of these rules. (3-30-07)

132. -- 204. (RESERVED)
205. PERSONAL AND REAL PROPERTY -- DEFINITIONS AND GUIDELINES (RULE 205).
Sections 39-4105, 39-4301, 63-201, 63-302, 63-309, 63-602KK, 63-1703, 63-2801, Idaho Code

01. Real Property. Real property is defined in Section 63-201, Idaho Code. Real property consists of land and improvements.
   a. Land. Land is real property as well as all rights and privileges thereto belonging or any way appertaining to the land.
   b. Law and Courts. Real property also consists of all other property which the law defines, or the courts may interpret, declare, and hold to be real property under the letter, spirit, intent, and meaning of the law.
   c. Improvements. Improvements are buildings, structures, fences, and similar properties that are built upon land. Improvements are real property regardless of whether or not such improvements are owned separately from the ownership of the land upon or to which the same may be erected, affixed, or attached.

02. Personal Property. Personal property is defined in Section 63-201, Idaho Code, as everything that is the subject of ownership that is not real property.

03. Fixtures. Fixtures are defined in Section 63-201, Idaho Code, as articles that were once moveable personal property items but have become real property as determined by the application of the three factor test.
   a. The three factor test consists of annexation, adaptation and intent as explained below.
      i. Annexation. Although once moveable chattels, articles become accessory to and a part of improvements to real property by having been physically or constructively incorporated therein or annexed or affixed thereto in such a manner that removing them would cause material injury or damage to the real property; and
      ii. Adaptation. The use or purpose of an item is integral to the use of the real property to which it is affixed; and
      iii. Intent. Items should be considered personal property unless a person would reasonably be considered to intend to make the articles, during their useful life, permanent additions to the real property. The intent depends on an objective standard and what a reasonable person would consider permanent and not the subjective intention of the owner of the property.
   b. If an item of property satisfies all three factors of the three factor test, the item becomes a fixture and therefore real property.

04. Operating Property. Operating Property is defined in Section 63-201, Idaho Code. For any purpose for which the distinction between personal property and real property is relevant or necessary for operating property, operating property will be characterized as personal or real based upon the criteria stated in this guideline and the rules of the State Tax Commission.

206. -- 216. (RESERVED)

217. RULES PERTAINING TO MARKET VALUE DUTY OF COUNTY ASSESSORS (RULE 217).
Section 63-208 Idaho Code

01. Market Value Definition. Market value is the most probable amount of United States dollars or equivalent for which a property would exchange hands between a knowledgeable and willing seller, under no compulsion to sell, and an informed, capable buyer, under no compulsion to buy, with a reasonable time allowed to consummate the sale, substantiated by a reasonable down or full cash payment.
   (7-1-97)
a. The assessor shall value the full market value of the entire fee simple interest of property for taxation. Statutory exemptions shall be subtracted. (7-1-97)
b. Personal property shall be valued at retail level. (7-1-93)

02. Appraisal Approaches. Three (3) approaches to value will be considered on all property. The three (3) approaches to market value are:

a. The sales comparison approach; (3-30-01)
b. The cost approach; and (3-30-01)
c. The income approach. (3-30-01)

03. Appraisal Procedures. Market value for assessment purposes shall be determined through procedures, methods, and techniques recommended by nationally recognized appraisal and valuation associations, institutes, and societies and according to guidelines and publications approved by the State Tax Commission. The appraisal procedures, methods, and techniques using the income approach to determine the market value for assessment purposes of income producing properties must use market rent, not contract rent. (3-29-10)

218. ASSESSOR’S PLAT BOOK (RULE 218).
Sections 50-1304, 63-209, 63-210, 63-212, 63-219, and 63-307, Idaho Code

01. Plat Maps. The assessor shall prepare plat maps for all land. (4-4-13)

a. Plat map format. Plat maps may be drafted and maintained either in ink, on drafting film, or in a digital format. When such maps are on drafting film, thirty (30) inch by thirty-six (36) inch, 0.003 inch drafting film (minimum thickness) should be used. Smaller plat map sizes are permitted as long as they clearly depict parcel boundaries and dimensions. (4-4-13)

b. Maintenance of plat maps. Plat maps of townships, sections, aliquot parts, subdivisions, and parcel boundaries completed after July 1, 2013 shall be updated and maintained in accordance with the “Manual of Surveying Instructions” referenced in Rule 006 of these rules. (4-4-13)

c. Maintenance of parcel numbers and all other desired information. Parcel numbers, and all other desired information, shall be maintained in a digital format or drafted with ink. Annotative information shall be added as necessary and, if plotted by computer be of appropriate font style and size to be easily readable. The minimum letter height shall be one point two five (1.25) millimeters. (4-4-13)

02. Section Outlines. Section outlines shall be mapped according to:

a. Technical descriptions of Bureau of Land Management, formerly the General Land Office (GLO), surveys, (Section 31-2709, Idaho Code); (7-1-97)
b. Descriptions on recorded surveys (Sections 55-1901 through 55-1911, Idaho Code); (7-1-97)
c. Recorded corner perpetuation records (Sections 55-1603 through 55-1612, Idaho Code); (7-1-97)
d. Recorded subdivision plats and assessor’s plats (Sections 50-1301 through 50-1330, 63-209, and 63-210(2) Idaho Code); (7-1-97)
e. Deeds or contracts with metes and bounds descriptions (Section 31-2709, Idaho Code); (7-1-97)
f. Highway, railroad, and other engineering quality route surveys; (7-1-97)
g. Relevant court decisions; and (7-1-97)
h. Unrecorded data from registered land surveyors (Section 31-2709, Idaho Code). (7-1-97)

03. **Subdivision of Sections.** Subdivision of sections shall be mapped in accordance with Sections 31-2709 and 63-209, Idaho Code. (4-4-13)

04. **Map Scales.** Non-Computer and computer generated maps shall be scaled. (7-1-97)

a. Non-computer generated maps. Non-computer generated maps shall be:

i. One (1) township at one (1) inch = fourteen thousand four hundred (14,400) inches (1,200 feet), 1:14,400; (5-8-09)

ii. Four (4) sections at one (1) inch = four thousand eight hundred (4,800) inches (400 feet), 1:4,800; one (1) section at one (1) inch = twenty four hundred (2400) inches (200 feet), 1:2,400; (5-8-09)

iii. One (1) quarter section at one (1) inch = twelve hundred (1,200) inches (100 feet), 1:1,200. (5-8-09)

b. Mapping done from aerial photographs. Mapping done from aerial photographs will have the scale recalculated and shown on the map. (4-4-13)

c. Plat maps of subdivision, townsite, and metes and bounds parcels. Subdivision, townsite, and metes and bounds parcels shall be mapped to include the basis of bearing with monuments and their coordinates relative to the “Idaho Coordinate System” as described by Sections 31-2709, 50-1301, 50-1303, and 50-1304, Idaho Code. (4-4-13)

d. Drafting of plat titles, subdivision names, and parcel dimensions. Plat titles, subdivision names, and parcel dimensions shall be drafted with ink, or generated by computer at an appropriate scale. The minimum letter height shall be one point two five (1.25) millimeters. (4-4-13)

05. **Property Ownership Records.** Ownership shall be shown on the property ownership records. (7-1-97)

a. Ownership notations. Ownership notations include the reputed owner of the property or note that the owner is unknown, or list other persons with interests of record. Ownership may be ascertained from numerous recorded sources as described in Sections 63-212 and 63-307, Idaho Code. (4-4-13)

b. Insertion of additional names. Purchasers, agents, guardians, executors, administrators, heirs, and claimants may have their names inserted with the recorded owner’s name as explained in Sections 63-212 and 63-307, Idaho Code. (4-4-13)

219. **UNIFORM PARCEL NUMBERING SYSTEM (RULE 219).**
Sections 63-209, 63-210, and 63-219, Idaho Code

01. **Definitions.** The following definitions apply to this rule. (5-8-09)

a. Parent parcel. A parcel of land in its original state prior to being segregated. The parcel may be described by a metes and bounds description, lot and block, aliquot part, or government lot. (5-8-09)

b. Child parcel. A parcel of land which has been segregated from the parent parcel. At the time a parent parcel is segregated into one or more parts, the parcels being segregated from the parent parcel shall be known as child parcels. The child parcel may be described by a metes and bounds description, a portion of a lot and block, a portion of an aliquot part, or a portion of a government lot. (5-8-09)

02. **Parcel Number Functions.** The uniform parcel numbering system shall be used for mapping and record keeping. Each parcel shall be assigned a parcel number that shall appear on the plat map and on a companion sheet. This assigned parcel number may also be the tax number. (5-8-09)
03. Parcel Number Cancellation or Retention Upon Property Transfers. As long as the property boundary does not change, the new owner's name shall be assigned to the same parcel number on the companion sheet. A parcel number that exists at the time a property is divided or added to may be canceled and a new number(s) assigned. If the parent parcel number is not canceled, it shall be assigned to the child parcel complying with the directions in this rule relating to assigning parcel numbers based on geographic location. (5-8-09)

04. Property Split by County Line, Section Line, or Tax Code Area Boundary. Properties contiguous under common ownership but split by county line or tax code area boundary shall require separate parcel numbers. Properties contiguous under common ownership but split by section line(s) and entirely located within the same county and tax code area will not require separate parcel numbers and the lowest section number will be included in the parcel number as explained in Paragraph 219.05.c. of this rule. (3-29-12)

05. Rural Land Not Subdivided. Assign parcel numbers to rural land that is not subdivided as follows: (5-8-09)
   a. Positions 1, 2, and 3 shall be the township descriptor minus the “T.” (5-8-09)
   b. Positions 4, 5, and 6 shall be the range descriptor minus the “R.” (5-8-09)
   c. Positions 7 and 8 shall be the section number. For properties contiguous under common ownership and split by section line(s) so that the parcel is located in multiple sections, the lowest section number shall be used. If the section number is less than ten (10), the section number is in position 8, preceded by a zero (“0”) in position 7. (3-29-12)
   d. Positions 9, 10, 11, and 12 shall be the quarter section numbers. To assign the quarter section number, begin numbering in the northeast quarter (NE1/4) of the northeast quarter (NE1/4) and proceed counterclockwise. Starting in the NE1/4 of the section the numbers used range from zero to two thousand three hundred ninety nine (0000 to 2399). Continuing counterclockwise, beginning in the NE1/4 of the northwest quarter (NW1/4), the numbers continue from two thousand four hundred to four thousand seven hundred ninety nine (2400 to 4799), thence, starting in the NE1/4 of the southwest quarter (SW1/4), assign numbers from four thousand eight hundred to seven thousand one hundred ninety nine (4800 to 7199), and beginning in the NE1/4 of the southeast quarter (SE1/4), assign quarter section numbers from seven thousand two hundred to nine thousand nine hundred ninety nine (7200 to 9999). The following quarter section breakdown key shows the sequence for assigning quarter section numbers for land not subdivided. (5-8-09)
Note: The northern quarters of sections 1, 2, 3, 4, 5, and 6 may be government lots and the western quarters of Sections 6, 7, 18, 19, 30 and 31 may be government lots. For the purpose of parcel numbering, these government lots shall be treated as if each was the respective quarter-quarter of the section. (5-8-09)

e. The following parcel number example denotes Township 10 North, Range 5 East, Section 4 with the parcel being in the NE1/4, NE1/4: 10N05E040235. (5-8-09)

f. The following table is an example of a companion sheet with parcel numbers for rural land not subdivided.

(5-8-09)
06. Urban Land not Subdivided. Assign parcel numbers to urban land that is not subdivided as follows: (5-8-09)
   a. Position 1 shall be the city letter. Each city shall have a unique letter. (5-8-09)
   b. Positions 2, 3, 4, 5, and 6 shall each be the number zero ("0"). (5-8-09)
   c. Positions 7 and 8 shall be the section number. Number these positions as directed in Paragraph 219.05.c. of this rule. (3-29-12)
   d. Positions 9, 10, 11, and 12 shall be the quarter section number. Number these positions as directed in Paragraph 219.05.d. of this rule. (3-29-12)
   e. When a metes and bounds parcel inside city limits is being numbered, positions 9, 10, 11, and 12 locate the parcel to the nearest quarter section. (5-8-09)
   f. If a government lot is within a section, or an extended government lot is an extension of a section, the quarter section numbering shall be assigned as rural land not subdivided. For a government lot within a quarter section, the assigned number shall be a number within the sequence of numbers for the quarter section. For an extended section, the assigned number shall be within the sequence from the extended quarter section. (5-8-09)
   g. The following parcel number example denotes a parcel in the NE1/4 of section 29 in the city identified by the letter “A”: A0000292163. (5-8-09)

07. Subdivided Rural Land. Assign parcel numbers to subdivided rural land as follows: (5-8-09)
   a. Position 1 shall be the number zero ("0"). (5-8-09)
   b. Positions 2, 3, 4, and 5 shall be the subdivision number. The subdivision number shall not contain alphabetic characters. Each subdivision, whether the original townsite or new subdivision, shall be assigned a four (4) digit number. (5-8-09)
   c. Positions 6, 7, and 8 shall be the block number. (5-8-09)
   d. Positions 9, 10, and 11 shall be the lot number designated on the subdivision plat or an assigned number if characters on the subdivision plat are not acceptable as a parcel number. (5-8-09)
   e. Position 12 shall be the number zero ("0") if the lot is as originally platted. If a lot has been split once or combined once, then this becomes the letter “A.” If split a second time, the letter becomes a “B,” etceteras. These splits or combinations shall be listed on the companion sheet. (5-8-09)
   f. The following parcel number example denotes a subdivided parcel not in any city, identified by the number zero ("0"), subdivision number 62, block number 200, and lot number 29: 000622000290. (5-8-09)

08. Subdivided Urban Land. Assign parcel numbers to subdivided urban land as follows: (5-8-09)
   a. Position 1 shall be the city letter. Each city shall have a unique letter. (5-8-09)
   b. Positions 2, 3, 4, and 5 shall be the subdivision number. The subdivision number shall not contain alphabetic characters. Each subdivision, whether the original townsite or a new subdivision, shall be assigned a four (4) digit number. (5-8-09)
   c. Positions 6, 7, and 8 shall be the block number. (5-8-09)
   d. Positions 9, 10, and 11 shall be the lot number designated on the subdivision plat. An assigned subdivision plat number may be used if numbers comply with the parcel numbering system. (5-8-09)
e. Position 12 shall be the number zero ("0") if the lot is as originally platted. If a lot has been split once or combined once, then this becomes the letter “A.” If split a second time, the letter becomes a “B,” etceteras. These splits or combinations shall be listed on the companion sheet.

f. When one (1) whole lot and part of another adjoining lot are under common ownership, one (1) parcel number may be assigned. That parcel number shall be written using the whole lot's number and position 12 shall be a letter.

(5-8-09)
g. The following parcel number example denotes a parcel in the city identified by the letter “A,” in subdivision with number 0062, block number 200, lot number 029, and has been modified once: A0062200029A.

(5-8-09)
h. The following table is an example of a companion sheet with parcel numbers for subdivided land within a city.

(5-8-09)

09. Patented Mines and Patented Mining Claims. Assign parcel numbers to patented mines and mining claims as follows:

a. The number nine ("9") shall be in positions 1 and 2.

b. Positions 3 through 8 shall denote the township and range, as in the land not subdivided format.

(5-8-09)
c. Positions 9 through 12 shall be a county assigned sequential account number for individual mines.

(5-8-09)
d. The following parcel number example denotes a parcel that is a patented mine in township 10 North, Range 36 East, with county assigned number 58: 9910N36E0058.

(5-8-09)

10. Condominiums. Assign parcel numbers to condominiums as follows:

a. Condominiums in a city shall have a letter in position 1 of the parcel number. The letter shall be unique for each city. For condominiums not in any city, position 1 is the number zero ("0").

(5-8-09)
b. Positions 2, 3, 4, and 5 shall be the condominium number and shall be four numbers. To differentiate between condominiums and subdivisions, numbers 0001 through 8999 are to be used for subdivisions, and numbers 9000 through 9999 for condominiums. Fill positions preceding the number with zeros to occupy all four (4) positions ("0000").

(5-8-09)
c. Positions 6, 7, and 8 shall be the block or building number. Position 6 may be a “C” to differentiate between a typical block or building number and a condominium common area.

(5-8-09)
d. Positions 9, 10, and 11 shall be the lot or unit number designated on the condominium plat or an
assigned number. An assigned condominium plat number may be used if numbers comply with the parcel numbering system.

e. Position 12 shall be the number zero ("0") if the parcel has not been modified since originally platted. If it has been split once or combined once, then this character becomes an “A.” If split a second time, the character becomes a “B,” et ceteras. These splits or combinations shall be listed on the companion sheet. (5-8-09)

f. The following parcel number example denotes a parcel that is in the city identified by the letter “A,” with condominium number 9062, block or building number 007, lot or unit number 029, and has not been modified since originally platted: A90620070290. (5-8-09)

220. RULES PERTAINING TO ASSESSMENT OF INTERNAL REVENUE CODE (IRC) SECTION 42 LOW-INCOME PROPERTIES (RULE 220).

Section 63-205A, Idaho Code

01. Definitions. The following definitions apply to the appraisal of IRC section 42 low-income properties as used in Section 63-205A, Idaho Code, and in this rule. (3-29-10)

a. Amount of Housing Tax Credits. The “Amount of Housing Tax Credits” is the Housing Tax Credits divided by the number of years of the term of the Tax Credit Regulatory Agreement. (3-29-10)

b. Asset Management Fee. “Asset Management Fee” is an annual fee paid to the limited partner for property management oversight, tax credit compliance monitoring, and related services. (3-29-10)

c. Audit Fee. “Audit Fee” is the fees and costs that may be charged by accountants for preparation and review of financial statements on behalf of the owner or investor. (3-29-10)

d. Compliance Fee. “Compliance Fee” is the fees and costs, if any, that may be charged by the Idaho Housing Financing Association (IHFA), or its agent, for review and inspection of the owner’s records, or the physical inspection of the project, as are required by the Regulatory Agreement or federal law. (3-29-10)

e. Existing Section 42 Project. An “Existing Section 42 Project” is a Section 42 low-income project for which Housing Tax Credits were entirely distributed before January 1, 2009. (3-29-10)

f. Federal Project Based Assistance. “Federal Project Based Assistance” means:

i. Rental assistance of any kind provided by the Department of Housing and Urban Development or other agencies of the United States federal government which allow for rental assistance payments to the owner on behalf of the project and not on behalf of any individual tenant; or

ii. Apartment projects that have federal financing at below market terms at the time when the financing was put in place, which financing is transferable without change in terms and conditions to subsequent transferees; or

iii. Apartment projects that receive financing from the federal Hope VI programs administered under 42 USC section 1437v.

(3-29-10)

g. Financial Statements. “Financial Statements” are profit and loss statements, or equivalent reports, that include a detailed schedule showing income and expense line items, the project’s rent roll showing the rent charged for each unit, and a copy of the IHFA’s Annual Occupancy Report that is submitted annually by each project’s owner or agent to the IHFA. (3-29-10)

h. General Partner Fee. “General Partner Fee” is the portion of cash flow that is paid to the general partner to compensate the general partner for managing the partnership’s operating assets and coordinating the preparation of the required IHFA’s, federal, state, and local tax and other required filings and financial reports. (3-29-10)
i. Housing Tax Credits. The “Housing Tax Credits” are the final total federal income tax credits as shown on the first year’s form 8609 and allocated by the IHFA to the project either in an original allocation or a new allocation and reported to the State Tax Commission by the IHFA. (3-29-10)

j. Tax Credit Regulatory Agreement. The “Tax Credit Regulatory Agreement” means the original agreement, or the extended agreement, between the section 42 project owner and the IHFA. (3-29-10)

02. Appraisal Approaches. The cost approach, the sales comparison approach, and the income approach will be considered when appraising section 42 properties. The individual values produced by each approach will be correlated into a single property value. (3-29-10)

a. The Cost Approach. The cost approach shall be adjusted for any economic obsolescence caused by rent restrictions imposed by the Tax Credit Regulatory Agreement. Following are three (3) examples illustrating analysis of economic obsolescence. In these examples intermediate step calculation results are rounded to the nearest dollar. (3-29-10)

i. Example 1: This example illustrates analysis of economic obsolescence in a market that supports construction of market rent apartments. In this example, the annual difference between market rent and the restricted rent of a tax credit project is capitalized. Market rent must consider any adjustments due to physical characteristics of the subject.

</tr>
<tr>
<td>8</td>
<td>Economic Obsolescence Divided by Step 7</td>
<td>$21,600 / .07 = $308,571</td>
</tr>
</tbody>
</table>

Example 2: This example illustrates analysis of economic obsolescence in a market that does not support construction of market rate apartments. The difference between the subject gross restricted rent and the feasible gross monthly rent is capitalized, and the resulting calculation shows the total economic obsolescence. Feasible gross monthly rent is calculated by adding the physically depreciated cost plus land value and dividing it by a gross income multiplier, which is found by analyzing sales of similar market rate apartments. The result is the market rent required to support the cost of the subject apartment project.

Example 2 Economic Obsolescence Calculation

<table>
<thead>
<tr>
<th>Step</th>
<th>Description</th>
<th>Calculations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Physically Depreciated Cost Plus Land Value</td>
<td>$1,401,961 - $112,157 + $35,000 = $1,324,804</td>
</tr>
<tr>
<td>2</td>
<td>Market Gross Income Multiplier</td>
<td>8.5</td>
</tr>
<tr>
<td>3</td>
<td>Annual Feasible Gross Rent</td>
<td>$1,324,804 / 8.50 = $155,859</td>
</tr>
<tr>
<td>4</td>
<td>Annual Feasible Gross Rent Per Unit</td>
<td>$155,859 / 24 = $6,494</td>
</tr>
<tr>
<td>5</td>
<td>Monthly Feasible Gross Rent Per Unit</td>
<td>$6,494 / 12 = $541</td>
</tr>
<tr>
<td>6</td>
<td>Monthly Subject Gross Restricted Gross Rent Per Unit</td>
<td>475</td>
</tr>
<tr>
<td>7</td>
<td>Monthly Per Unit Rent Loss</td>
<td>$541 - $475 = $66</td>
</tr>
<tr>
<td>8</td>
<td>Monthly Project Rent Loss</td>
<td>$66 x 24 = $1,584</td>
</tr>
<tr>
<td>9</td>
<td>Annual Project Rent Loss</td>
<td>$1,584 x 12 = $19,008</td>
</tr>
<tr>
<td>10</td>
<td>Capitalization Rate</td>
<td>0.07</td>
</tr>
<tr>
<td>11</td>
<td>Depreciation (Economic/Functional)</td>
<td>$19,008 / 0.07 = $271,543</td>
</tr>
</tbody>
</table>

iii. Example 3: This example illustrates that when subject gross restricted rents are at or above market gross rental rates, and the feasible gross rent per unit is less than the subject gross restricted rent, no economic obsolescence is found.

b. The Sales Comparison Approach. When available, sales of section 42 low-income properties that are similar and comparable shall be used. When non-section 42 comparable sales are used in this approach, the sales must be adjusted for the appropriate property attributes.

(3-29-10)

b. The Sales Comparison Approach. When available, sales of section 42 low-income properties that are similar and comparable shall be used. When non-section 42 comparable sales are used in this approach, the sales must be adjusted for the appropriate property attributes.

(3-29-10)

c. The Income Approach. The application of the income approach shall include the following procedures and provisions:

(3-29-10)
i. Market rents of section 42 properties and normalized expenses of section 42 properties must be used to determine net income unless the taxpayer fails to provide the Financial Statements in accordance with Subsection 220.03 of this rule. If the Financial Statements are not provided, the assessor may use market rents of non-section 42 properties and normalized expenses of non-section 42 properties to determine net income. If Financial Statements are not provided, the Amount of Housing Tax Credits shall not be added to the capitalized net income.

(3-29-10)

ii. The Amount of Housing Tax Credits shall not be used in the appraisal of Existing Section 42 Projects.

(3-29-10)

iii. The Amount of Housing Tax Credits shall, for the duration of the Tax Credit Regulatory Agreement, be included in the appraisal of section 42 properties that have received or will receive an allocation of Housing Tax Credits after January 1, 2009.

(3-29-10)

iv. The Amount of Housing Tax Credits, when applicable to the appraisal, shall not be included in the net income capitalized to value but shall be added to the capitalized net income.

(3-29-10)

v. The State Tax Commission’s determination of capitalization rates derived from sales shall not preclude the use by the assessor of other methods for determining the capitalization rate, provided however, such other methods are consistent with Section 63-205A, Idaho Code, and this rule.

(3-29-10)

03. Financial Statements to be Provided by the Owners. The owners of section 42 properties shall, by April 1 of each year, provide to the State Tax Commission the prior year’s Financial Statements. Failure to provide the Financial Statements by April 1 shall result in the appraisal of the section 42 property as if it were an unrestricted rent, non-section 42 property. The State Tax Commission shall forward to the assessor all Financial Statements received from the owners of section 42 properties and the information received from the IHFA by April 15. The assessor shall use the Financial Statements to develop normalized income and expense information to be used in the appraisal of section 42 properties.

(3-29-10)

04. State Tax Commission to Provide Information on Section 42 Property Sales. The State Tax Commission shall gather information from sale transactions of section 42 properties and shall compute the capitalization rate for each sale. The State Tax Commission shall, for sales acquired during the immediate prior year, send capitalization rates and all information used to determine these rates to each county assessor by April 15. If information from three (3) or more comparable sale transactions of section 42 properties is sent to the assessors, the assessors will consider these sales’ capitalization rates in their determination of the capitalization rate to be used in appraising the particular section 42 property or group of section 42 properties.

(3-29-10)

05. Cross Reference. For an explanation of why income tax credits should be allowed in section 42 assessments, see Brandon Bay, Ltd. Partnership v. Payette County, 142 Idaho 681, 132 P.3d 438 (2006).

(3-29-10)
d. Deannex. Deannex means to delete or remove a portion but not all of a boundary for a city, taxing district, or RAA by completing all legal requirements to establish a new boundary for the city, taxing district or RAA. (4-6-05)

e. Disincorporate. Disincorporate or any derivatives of the word as used in Section 63-3638, Idaho Code, means completing all legal requirements to end the existence of a city. (4-6-05)

f. Dissolve. Dissolve or any derivatives of the word as used in Section 63-3638, Idaho Code, means completing all legal requirements to end the existence of a taxing district or RAA. (4-6-05)

g. Legal Description. Legal description means a narrative that describes by metes and bounds a definite boundary of an area of land that can be mapped on a tax code area map and shall include:

i. Section, township, range and meridian. (3-15-02)

ii. An initial point, being a government surveyed corner, such as a section corner, quarter corner or mineral survey corner. (3-15-02)

iii. A true point of beginning, defined by bearings and distances from the initial point, that begins a new city, taxing district, RAA or any alteration thereto. (3-15-02)

iv. Bearings and distances that continuously define the boundary of any area with a closure accuracy of at least one (1) part in five thousand (5,000). Variations from this closure requirement may be approved by the State Tax Commission if the description is sufficiently certain and accurate to ensure that the property is assigned to the proper tax code area. Such variations may include:

(1) Boundaries which follow mountain ranges, rivers, highways, lakes, canals and other physical features that are clearly delineated on published U.S. Geological Survey quadrangle maps at scale 1:24,000; or

(2) References to cardinal directions, government survey distances, and section or aliquot part corners; or

(3) References to recorded subdivision or town site plats, with copies of such plats; or

(4) Legislatively established boundaries as defined by reference to Idaho Code sections. (3-15-02)

v. The legal description to annex to or deannex from an existing city, taxing district, or RAA shall plainly and clearly define the boundary lines of the deannexed or annexed area and include a reference to existing boundaries where contiguous. (3-15-02)

h. Map Prepared in a Draftsman-like Manner. Map prepared in a draftsman-like manner means an original graphic representation or precise copy matching the accompanying legal description and drafted to scale using standard mechanical drawing instruments or a computer. The map shall include:

i. Section, township, range, and meridian identifications. (3-15-02)

ii. North arrow, bar scale, and title block. (3-15-02)

iii. District name and ordinance number or order date. (3-15-02)

iv. Bearing and distance annotation between boundary points or a legend or table identifying the bearing and distance between each set of boundary points. (3-15-02)

v. Clearly defined boundary lines of the newly formed city, taxing district, or RAA or of the alteration to an existing one together with reference to the existing boundary where contiguous. (3-15-02)
vi. Variations from the requirements of Paragraph 225.01.h. of this rule for what must be included on the map may be approved by the State Tax Commission if the map is sufficiently certain and accurate to ensure that the property is assigned to the proper tax code area.  

(4-6-05)

i. Countywide taxing district. A countywide taxing district is a taxing district having the same boundaries as one (1) or more counties.  

(5-8-09)

02. Documentation to Be Filed for Newly Created or Altered Cities, Taxing Districts, or RAAs.  

The following documentation shall be filed with the county assessor, county recorder, and the State Tax Commission no later than thirty (30) days following the effective date of any action creating or altering a city, taxing district, or RAA boundary, but no later than January 10 of the following year when any action creating or altering said boundary occurs after December 10.  

(3-15-02)

a. A legal description which plainly and clearly defines the boundary of a newly formed city, taxing district, or RAA or the boundary of an alteration to an existing one.  

(3-15-02)

b. A copy of a map prepared in a draftsman-like manner or a record of survey as defined by Chapter 19, Title 55, Idaho Code, which matches the legal description.  

(4-5-00)

c. A copy of the ordinance or order effecting the formation or alteration.  

(4-5-00)

d. For fire districts annexing territory within an existing fire district and/or city, a copy of the written approval from that existing fire district and/or city.  

(3-30-07)

e. In cases where newly created taxing district boundaries are countywide a copy of the ordinance or order effecting the formation which clearly states that the newly formed district is to be countywide shall fulfill the requirements of documents to be filed in Paragraphs 225.02.a. through 225.02.c. of this rule.  

(5-8-09)

03. Documentation to Be Filed for Disincorporated Cities or Dissolved Taxing Districts, or RAAs.  

(3-15-02)

a. No later than thirty (30) days following the effective date of the final action disincorporating a city or dissolving a taxing district or RAA, but no later than January 10 of the following year when the final action occurs after December 10, for the distributions of revenue as provided for in Sections 50-2908, 63-1202, 63-3029B and 63-3638, Idaho Code, the disincorporating or dissolving entity shall file a copy of the ordinance or order causing the disincorporation or dissolution with the county assessor, county recorder and the State Tax Commission.  

(4-4-13)

b. Upon receipt of the ordinance or order from a disincorporating city or dissolving taxing district, or RAA, the State Tax Commission shall prepare and send a list of the affected tax code area number(s) to the city, taxing district, or urban renewal agency and to the appropriate assessor(s) and recorder(s) within thirty (30) days except for any ordinance or order received after January 1 when the list shall be sent by the fourth Friday of January.  

(4-4-13)

c. After fourteen (14) days from the date of the mailing of the list of the affected tax code area(s), the State Tax Commission shall process the disincorporation or dissolution unless it receives a response from the disincorporating city, or dissolving taxing district, appropriate urban renewal agency, appropriate recorder(s) or appropriate assessor(s) that an error exists in the identification of the tax code area(s).  

(3-15-02)

d. For RAAs formed prior to July 1, 2011, within thirty (30) days of the earlier of one (1) year prior to any dissolution date found in the formation ordinance or the date as of which an RAA has been in existence for twenty-three (23) years, the State Tax Commission will notify the urban renewal agency of the date by which the RAA will be considered dissolved. Such notice shall include a statement indicating that the RAA may remain in existence if necessary to pay off existing bonded indebtedness, provided that, within thirty (30) days of receipt of this notice, the urban renewal agency notifies the State Tax Commission of such bonded indebtedness. Failure to provide notice of the dissolution date by the State Tax Commission to the urban renewal agency does not negate the statutory requirement for the urban renewal agency to dissolve.  

(3-29-12)
e. For RAAs formed beginning July 1, 2011, the notification procedures in Paragraph 225.03.d. of this rule shall be initiated within thirty (30) days of the earlier of one (1) year prior to any dissolution date found in the formation ordinance or the date as of which an RAA has been in existence for twenty (20) years. (3-29-12)

04. Digital Map Information. Digital map information in a format usable by the State Tax Commission may be submitted in addition to or as a substitute for any cloth, film, or paper copy maps. Such information shall be accompanied by metadata that clearly defines map projection, datum and attributes. (3-15-02)

05. Deadline for Completion. December 31 of the current year shall be the deadline for completing of any action that creates, alters, or dissolves any taxing district or RAA or creates, alters or disincorporates any city requiring a revision of the State Tax Commission’s tax code area maps for the following year, unless the law provides otherwise. (3-15-02)

06. Approval of Property Tax Levy or Revenue Allocation. For the purpose of levying property taxes or receiving revenue allocations no newly formed or altered city, taxing district, or RAA shall be considered formed or altered by the State Tax Commission if it:

a. Fails to provide the correct documentation plainly and clearly designating the boundaries of a newly formed city, taxing district, or RAA or of an alteration to an existing one; or (3-15-02)

b. Fails to provide the correct documentation in sufficient time for the State Tax Commission to comply with Rule 404 of these rules; or (4-5-00)

c. Has boundaries which overlap with like cities, taxing districts or RAAs. (3-15-02)

d. Has had one (1) previous annexation on or after July 1, 2011 and is requesting to annex additional area. In this case, the annexation request will be denied, and the area of the RAA established prior to the new annexation will be considered to comprise the entire RAA. (3-15-02)

07. Notification of Approval or Disapproval. The State Tax Commission shall send a letter of approval or disapproval to the taxing district or municipality. A copy of said letter shall be submitted to any affected urban renewal agency and the auditor(s) and assessor(s) of the involved county(ies). In the case of disapproval said letter will state the reason(s) for disapproval, the corrective action(s) needed for approval, and the time within which such corrective action(s) must be taken. The State Tax Commission shall send such letter within thirty (30) days of receipt of the document to which the disapproval relates, but not later than the fourth Friday of January except during the first quarter of the calendar year for documents relating to the next tax year. (4-6-05)

08. One Uniform System. The State Tax Commission will prepare one (1) uniform system of tax code area numbers and maps which shall be used by each county for property tax purposes. (4-5-00)

09. Tax Code Areas. The State Tax Commission shall create a separate, unique number for each tax code area. If any area annexed to an existing RAA includes a taxing district with any fund levying prior to January 1, 2008, and continuing to levy but which is not to be used to generate funds to be distributed to an urban renewal agency, the boundaries of the area added to the existing RAA shall constitute a separate tax code area. Only the State Tax Commission shall initiate or change a tax code area number. (5-8-09)

10. Furnished By The State Tax Commission.

a. Annually, the State Tax Commission will post the following documents on the State Tax Commission’s website:

i. Updated tax code area maps; (3-29-12)

ii. Updated taxing district maps; (3-29-12)

iii. Updated urban renewal revenue allocation area maps; and (3-29-12)
iv. Documentation of changes related to the above maps. (3-29-12)

b. This information is available to all parties. Upon specific request, the State Tax Commission will furnish without charge, one (1) hardcopy set of the above documents to each appropriate assessor, recorder, treasurer, and entity with operating property assessed by the State Tax Commission. There shall be a charge for all other hardcopy maps. (3-29-12)

226. -- 229. (RESERVED)

230. EXTENSIONS OF STATUTORY DEADLINES FOR DISASTER RELIEF (RULE 230).
Section 63-220, Idaho Code

01. Application by County Officials. A county official who, because of any extension of time authorized by Section 63-220, Idaho Code, is unable to comply with a statutory deadline imposed in Title 63, Idaho Code, may apply to the State Tax Commission for a reasonable delay, not to exceed sixty (60) days, of any such act. (3-23-98)

02. Contents of Application. The application shall be submitted prior to the statutory deadline in regard to which the approval of delay is sought and shall include:

a. A description of the nature of the relief granted, or expected to be granted, to taxpayers pursuant to Section 63-220(1), Idaho Code, by the Board of County Commissioners; and (3-30-01)

b. Identification of any statutory deadline in regard to which the delay is sought; and (3-23-98)

c. The date by which the official making the application expects to accomplish the action in regard to which the delay is sought; and (3-23-98)

d. A request that the State Tax Commission approve the delay sought. (3-23-98)

03. Procedure. Within five (5) working days of receipt of the request the State Tax Commission shall respond in writing to the official requesting the delay. The State Tax Commission shall approve any request for extension that complies with Subsections 230.01 and 230.02 of this rule. (3-30-01)

231. -- 303. (RESERVED)

304. MANUFACTURED HOME DESIGNATED AS REAL PROPERTY (RULE 304).
Sections 63-304 and 63-305, Idaho Code

01. Statement of Intent to Declare (SID). To declare a manufactured home real property, the homeowner shall complete a “Statement of Intent to Declare,” SID form, as prescribed by the State Tax Commission. (4-6-05)

a. All information and signatures requested on the form shall be provided prior to recordation. (3-23-94)

b. The homeowner shall record the completed form. (3-23-94)

c. The homeowner shall provide the assessor a copy of the recorded SID form and the title or Manufacturer’s Statement of Origin (MSO). If proof of ownership is being provided through the MSO, the buyer’s purchase agreement shall be accepted by the assessor pending receipt of the MSO. For the purpose of this rule, the Manufacturer’s Statement of Origin and Manufacturer’s Certificate of Origin are synonymous. (3-30-01)

d. For new manufactured homes, the assessor shall verify that sales or use tax has been collected or shall collect such tax. Any sales or use tax collected by the assessor shall be remitted to the State Tax Commission. (3-30-01)
e. The assessor shall forward a copy of the SID form and the title or MSO to the Idaho Transportation Department. The Idaho Transportation Department will cancel the title. (3-23-94)

02. Reversal of Declaration of Manufactured Home as Real Property. To provide for the reversal of the declaration of the manufactured home as real property, the homeowner shall complete the “Reversal of Declaration of Manufactured Home as Real Property” form as prescribed by the State Tax Commission. The homeowner shall submit this completed form to the assessor within the required time period. (3-30-01)

a. The homeowner shall also submit to the assessor a title report with the appropriate signatures of consent attached and shall make application for a title to the manufactured home. (5-3-03)

b. The assessor shall transmit to the Idaho Transportation Department a copy of the completed reversal form, title report with appropriate signatures of consent, and the application for title to the manufactured home. (3-23-94)

03. Definition of Permanently Affixed. In the year any manufactured home is to be declared to be real property, permanently affixed means complying with the Idaho Manufactured Home Installation Standard as adopted by IDAPA 07.03.12, “Rules Governing Manufactured Home Installations,” Section 004. (4-6-05)

04. Status of Manufactured Housing Previously Declared Real. All manufactured housing upon which a “non-revocable option to declare the mobile home as real property” or SID was correctly completed and properly recorded and filed shall be treated as real property until such time as a reversal (as provided for in Section 63-305, Idaho Code, and this rule) is correctly completed and properly recorded and filed. This status as real property is based on all criteria existing when said manufactured housing was originally declared real property. This property must be treated as real property and considered “permanently affixed” without any need to be retrofitted to comply with subsequent changes to the requirements for “permanently affixed,” including changes to the Idaho Manufactured Home Installation Standard as adopted by IDAPA 07.03.12, “Rules Governing Manufactured Home Installations,” Section 004, that occur after the manufactured home was originally declared real property. (4-6-05)

305. -- 311. (RESERVED)

312. PARTIAL YEAR ASSESSMENT OF REAL AND PERSONAL PROPERTY (RULE 312). Sections 63-311 and 63-602Y, Idaho Code

01. Quarterly Assessment. For each partial year assessment of any non-transient personal property, the assessment shall comply with the quarterly schedules provided in Sections 63-311 and 63-602Y, Idaho Code. (5-3-03)

02. Change of Status. The real or personal property that has a change of status as described in Section 63-602Y, Idaho Code, includes exempt governmental property. Such property of the United States, this state and its instrumentalities, including counties, cities, urban renewal agencies, school districts, and other taxing districts, that is transferred to a non-exempt owner or otherwise ceases to qualify for a property tax exemption is to be assessed as described in Section 63-602Y, Idaho Code. (3-26-19)

03. Cross Reference. The partial year assessment of any non-transient personal property shall comply with the Idaho Supreme Court decision in Xerox Corporation v. Ada County Assessor, 101 Idaho 138, 609 P.2d 1129 (1980). When assessing all non-transient personal property, each assessor should be aware of the following quotation from this decision: “Where the county undertakes to update its initial (personal property) declarations during the course of the tax year, it cannot increase a taxpayer’s tax burden to reflect the taxpayer’s acquisition of non-exempt property without decreasing that tax burden to reflect the fact that property reported by the taxpayer in an earlier declaration was no longer subject to the county’s ad valorem tax.” (Clarification added.) (5-3-03)

04. Effective Date. In the interest of addressing all property transfers made from the public sector to private ownership within the same year (2019) in a consistent manner, as per the proration schedule in Section 63-602Y, Idaho Code, the effective date for “Rule 312” is to be January 1, 2019. (3-26-19)
313. **ASSESSMENT OF TRANSIENT PERSONAL PROPERTY (RULE 313).**
Sections 63-213, 63-313, and 63-602KK, Idaho Code

01. **Definitions.** The following definitions apply for the assessment of transient personal property.

   a. **Home County.** Home county is identified in Section 63-313, Idaho Code, as the county selected by the owner of any transient personal property as that county where that transient personal property is usually kept. That county selected by the owner shall be a county in the state of Idaho.

   b. **Periods of Thirty (30) Days or More.** Periods of thirty (30) days or more mean increments of no less than thirty (30) consecutive, uninterrupted days, during which any transient personal property is located in any one (1) county. For any period of less than thirty (30) days, the property owner shall report the transient personal property as being in the home county.

   c. **Prorated Assessment.** Prorated assessment means the ratio of the number of days, exceeding twenty-nine (29), to three hundred sixty-five (365) days multiplied by the total market value of the transient personal property. For additional clarification, refer to the following examples.

      i. If located in a second Idaho county (not the home county) for twenty-nine (29) consecutive, uninterrupted days and in the home county for the remainder of the year, the transient personal property should be assessed for the total market value in the home county.

      ii. If located in a second Idaho county (not the home county) for fifty-nine (59) consecutive, uninterrupted days and in the home county for the remainder of the year, the transient personal property should be assessed for fifty-nine/three hundred sixty-five (59/365) of the total market value in the second county and for three hundred six/three hundred sixty-five (306/365) of the total market value in the home county.

      iii. If located in a second Idaho county (not the home county) for thirty-one (31) consecutive, uninterrupted days, in a third Idaho county (not the home county) for fifty-nine (59) consecutive, uninterrupted days, and in the home county for the remainder of the year, the transient personal property should be assessed for thirty-one/three hundred sixty-five (31/365) of the total market value in the second county, fifty-nine/three hundred sixty-five (59/365) of the total market value in the third county, and two hundred seventy-five/three hundred sixty-five (275/365) of the total market value in the home county.

      iv. If located in a second Idaho county (not the home county) for twenty-nine (29) consecutive, uninterrupted days and later in that same county for twenty-nine (29) consecutive, uninterrupted days and in the home county for the remainder of the year, the transient personal property should be assessed for the total market value in the home county.

      v. If located in a second Idaho county (not the home county) for fifty-nine (59) consecutive, uninterrupted days, outside the state of Idaho for any thirty-five (35) days and taxed in the other state, and in the home county for the remainder of the year, the transient personal property should be assessed for fifty-nine/three hundred sixty-five (59/365) of the value in the second county and for two hundred seventy-one/three hundred sixty-five (271/365) of the total market value in the home county. However, if the property in this example that was outside the state of Idaho for thirty-five (35) days was not taxed in the other state, then the time should be counted in the home county, and the property therefore should be assessed for three hundred six/three hundred sixty-five (306/365) of the total market value in the home county.

   d. **Transient Personal Property.** Transient personal property is defined in Section 63-201, Idaho Code.

02. **Overassessment Prohibited.** Section 63-213, Idaho Code, prohibits the assessment of any property in any one (1) county for the same period of time that property has been assessed in another county. The sum of the assessments of transient personal property in the home county and each other county where the property has been located shall not exceed the market value of the property.
03. Non-taxable Transient Personal Property. (3-20-04)
   a. Transient Personal Property in Transit. Under Subsection 63-313(4), Idaho Code, any transient personal property only in transit through the home county or any other county and not remaining in any county for the purpose of use is not subject to property taxation. (3-20-04)
   b. Sold Transient Personal Property on Which Taxes Have Been Paid. Under Subsection 63-313(4), Idaho Code, any transient personal property, which was sold by the owner in the home county and upon which the full current year’s property taxes were paid, is not subject to property taxation for the current year in any other county regardless of whether that property is to be used in or only in transit through any other county. (3-20-04)
   c. Qualified Investment Exemption. For information and directions relating to the qualified investment exemption, see Rule 988 of these rules. (3-20-04)

04. Exempt Transient Personal Property. (5-8-09)
   a. Section 63-602KK, Idaho Code, when applicable provides for exemption of each eligible taxpayer’s personal property to the extent of one hundred thousand dollars ($100,000) within each county. The limit on the exemption shall apply to the sum of the taxpayer’s non-transient personal property and transient personal property. Prior to applying the exemption, transient personal property shall be allocated among the counties based on the prorated value as provided in Subsection 63-313(2), Idaho Code. (5-8-09)
   b. In cases where the taxpayer has transient personal property located in multiple places within the county, the taxpayer may elect the location of the property to which the exemption will apply. Should the taxpayer not make an election as to where to apply the exemption, the county shall have discretion regarding the property to which the exemption shall apply. (5-8-09)

314. COUNTY VALUATION PROGRAM TO BE CARRIED ON BY ASSESSOR (RULE 314). Sections 63-314 and 63-316, Idaho Code

01. Definitions. (7-1-99)
   a. Continuing Program of Valuation. “Continuing program of valuation” means the program by which each assessor completes the assessment of all taxable properties each year. (7-1-99)
   b. Field Inspection. The “field inspection” shall include an observation of the physical attributes of all structures which significantly contribute to the property value, the visible land amenities, and a notation of any other factors which may influence the market value of any improvements. (7-1-99)
   c. Index. “Index” refers to any annual adjustment or trending factor applied to existing assessed values to reflect current market value. Ratio studies or other market analyses can be used to develop indexes based on property type, location, size, age or other characteristics. (7-1-99)
   d. Prediction of Market Value. As used in Section 63-314, Idaho Code, “prediction of market value” means an estimate of market value. (7-1-99)
   e. Category to be Assessed at Current Market Value. The level of assessment of each category will be considered to be current market value unless there is reasonable statistical certainty that the category is not equalized pursuant to Section 63-109, Idaho Code, and Rule 131. (3-30-01)

02. Plan for Continuing Program of Valuation. The plan for continuing program of valuation shall include: (7-1-99)
   a. General Contents. A parcel count by category, the number of parcels to be appraised each year, maps that show each of the market areas, an analysis of staff requirements, a budget analysis that provides adequate funding for labor costs, capital and supply costs, travel and education costs and the method of program evaluation. (3-30-01)
b. Market Data Bank. A market data bank including collection, verification and analysis of sales, income and expense data, building cost information, and application of this information to estimate market value. To mail assessment notices by the first Monday in June as required by Section 63-308, Idaho Code, assessors should include income and expense data submitted by property owners by the first Monday in April. Income and expense data for low-income housing properties receiving tax credits under Section 42 of the Internal Revenue Code includes actual rents, the monetary benefit of income tax credits, and expenses. (4-2-08)

c. Maps. Maps prepared in accordance with Section 63-209, Idaho Code, which identify characteristics of each geographic area. (7-1-99)

d. Property Record. A property record for each parcel, complete with the assigned secondary category and property characteristics necessary for an estimate of the current market value. Such characteristics may include data elements as described in the International Association of Assessing Officers (IAAO) Standard on Mass Appraisal of Real Property and the IAAO Standard on Digital Cadastral Maps and Parcel Identifiers. Common elements identified in these standards include:

i. Date of most current physical review. (3-29-12)

ii. Significant improvements, buildings and structures. (3-29-12)

iii. Photographs of significant improvements. (3-29-12)

iv. Sketches and/or blue prints of significant improvements. (3-29-12)

v. Location data, such as market area, neighborhood, site amenities and external nuisances. (3-29-12)

vi. Year built, effective age and/or condition of significant improvements. (3-29-12)

vii. Land size or diagram of all taxable parcels within the county. (3-29-12)

e. Date plan is submitted. The plan must be submitted to the State Tax Commission on or before the first Monday of February in 2017, and every fifth year thereafter. (3-28-18)

f. Request for extension. As provided in Section 63-314, Idaho Code, a county may request an extension to the current five (5) year county valuation plan.

i. Amended Plan. Any request for an extension must include an amended plan incorporating an inventory of the parcels to be appraised during the period of the approved extension. This inventory shall constitute the schedule of required appraisals for the initial year or years of the subsequent five (5) year valuation program. Parcels appraised during the extension will be considered appraised during both the current and subsequent five (5) year plan valuation program periods, maintaining the same five (5) year cycle for all counties. (3-30-01)

ii. Approval of the Extension and Amended Plan. A county shall be notified of the State Tax Commission's decision regarding the granting of an extension as provided in Section 63-314, Idaho Code, within thirty (30) days of receipt of the written request for the extension when accompanied by an amended plan. (3-30-01)

iii. Approval of the Amended Plan. The State Tax Commission's approval of any extension shall specify timing and nature of progress reports. (3-30-01)

iv. Voiding of the Extension. The State Tax Commission can void an extension unilaterally. (3-30-01)

03. Field Inspections. The methods of observation of the physical attributes of property as described in the International Association of Assessing Officers (IAAO) “Standard on Mass Appraisal of Real Property” referenced in Rule 006 of these rules should be followed to the extent that resources are available. This includes the use of aerial photographs and other digital imaging technology tools, which may be used to supplement, but not replace physical inspections. (3-28-18)
04. **Testing for Current Market Value.** Assessed values shall be tested annually by the State Tax Commission as described in Section 63-109, Idaho Code, and Rule 131 of these rules to determine whether the level of assessment reflects “current market value.”  

(3-30-01)

315. **USE OF RATIO STUDY TO EQUALIZE BOISE SCHOOL DISTRICT (RULE 315).**

Sections 63-315, 33-802(6), Idaho Code

**01. Procedures for Boise School District Ratio Studies.** The ratio study conducted by the State Tax Commission to comply with the requirements of Section 63-315, Idaho Code, shall be conducted in accordance with the “Standard on Ratio Studies” referenced in Rule 006 of these rules. The following specific procedures will be used.

(4-2-08)

a. Information on property sales, which meet the requirements of arm’s length and market value sales, will be obtained and assembled into samples representing various primary categories, described in Subsections 130.02 through 130.06 of these rules, and secondary categories, described in Rules 510, 511, and 512 of these rules, within designations defined in Subsection 315.02 of this rule in the Boise School District. Except when sales or appraisals must be added or deleted to improve representativeness, sales used will be those occurring within the Boise School District between October 1 of the year preceding the year for which adjusted market value is to be computed and September 30 of the year for which adjusted market value is to be computed. Each sale price is to be adjusted for time and compared to market value for assessment purposes for the year for which adjusted market value is to be computed. The State Tax Commission may use sales from extended time periods and may add appraisals when data is lacking. The State Tax Commission may delete sales when necessary to improve representativeness.

(4-2-08)

b. A ratio will be determined for each sale by dividing the market value for assessment purposes of the property by the adjusted sale price or appraised value.

(7-1-98)

c. A statistical analysis is to be conducted for the sales and any appraisals in each property designation described in Subsection 315.02 of this rule in the Boise School District and appropriate measures of central tendency, uniformity, reliability, and normality computed.

(4-2-08)

d. With the exception of any property designations with extended time frames or added appraisals, if fewer than five (5) sales and appraisals are available, no adjustment to the taxable value of the designation will be made.

(7-1-98)

e. If there are five (5) or more sales and appraisals and it is determined with reasonable statistical certainty that the property designation is not already at market value for assessment purposes, an adjusted market value will be computed for the Boise School District by dividing the taxable value for the year for which adjusted market value is to be determined by the appropriate ratio derived from the ratio study. The appropriate ratio to be used shall be the weighted mean ratio calculated from the sample for each designation, unless it can be clearly demonstrated that this statistic has been distorted by non-representative ratios. In this case the median may be substituted.

(4-2-08)

f. Within the Boise School District, adjusted market value or taxable value for each primary and each applicable secondary category of real, personal and operating property will be summed to produce the total adjusted market value for the Boise School District. The Boise School District taxable value will then be divided by this adjusted market value to produce the overall ratio of assessment in the Boise School District. Statewide totals are to be calculated by compiling county totals.

(4-2-08)

g. Urban renewal increment values will not be included in the taxable value or the adjusted market value for the Boise School District. Upon receipt of an urban renewal agency's resolution recommending the adoption of an ordinance for termination of a revenue allocation area by December 31 of a given year, the increment value in the immediate prior year will be included in the taxable value and the adjusted market value for the Boise School District. If the resolution is received prior to the first Monday in April, the actual value for the immediate prior year shall be adjusted by adding the increment value. If any ratio study-based adjustments are warranted, as provided in this rule, they shall be applied to the actual value including the increment value. If the resolution is received on or
after the first Monday in April, but by September 1, a corrected certification of actual and adjusted values shall be provided as soon as practical. (3-25-16)

h. “Reasonable statistical certainty,” that the property designation in question is not at market value for assessment purposes, is required. Such certainty is tested using ninety percent (90%) confidence intervals about the weighted mean or median ratios. If the appropriate confidence interval includes ninety-five percent (95%) or one hundred five percent (105%), there is not “reasonable statistical certainty” that the property designation is not at market value for assessment purposes. (3-30-01)

i. Primary and secondary categories subject to adjustment following the procedure outlined in this rule and ratio study designations from which measures of central tendency used for adjustments will be derived are:

<table>
<thead>
<tr>
<th>Secondary Categories</th>
<th>Primary Categories</th>
<th>Ratio Study Designations</th>
</tr>
</thead>
<tbody>

</tr>
<tr>
<td>11, 13, 14, 16, 17, 21, 22, 27, 33, 35, 36, 38, 39, 42, 43, or 51</td>
<td>Improved Commercial or Industrial Property</td>
<td>Commercial</td>
</tr>
</tbody>
</table>

j. For all secondary categories, described in Rule 510, 511, or 512 of these rules but not contained in the list in Paragraph 315.01.i. of this rule, adjusted market value will equal taxable value. (3-30-07)

k. “Appraisal” or “appraised value” refers to any State Tax Commission provided independently conducted property appraisal. (7-1-98)

02. Use of Property Designations. In computing the ratio for the Boise School District, the State Tax Commission will designate property as residential or commercial and shall assign appropriate primary categories, described in Subsections 130.02 through 130.06 of these rules, and secondary categories, described in Rules 510, 511, and 512 of these rules, to these designations as shown in Paragraph 315.01.i. of this rule. For the Boise School District, adjusted market value shall be computed by dividing the appropriate ratio ascertained for each of these designations into the sum of the taxable values for each primary and secondary category assigned to a designation. Except as provided in Subsection 315.06 of this rule, for the taxable value in any secondary category to be included in said sum, at least one (1) observation (sale or appraisal) from that secondary category must be present in the ratio study. If the ratio for any given designation in the Boise School District indicates that the market value for assessment purposes cannot be determined with reasonable statistical certainty to differ from statutorily required market value, the taxable value shown on the Boise School District abstract(s) required pursuant to Subsection 315.04 of this rule for each of the secondary categories included in that designation shall be the adjusted market value for said designation for said school district. (4-2-08)

03. Assessor to Identify Boise School Districts. Each county assessor will identify for the State Tax Commission which sales submitted for the ratio study are located within the Boise School District. (4-2-08)

04. Abstracts of Value for the Boise School District. Each applicable county auditor shall provide to the State Tax Commission abstracts of the taxable value of all property within the portion of the Boise School District in that county. These abstracts shall be submitted in the same manner and at the same time as provided for county abstracts of value. (4-2-08)
05. **Urban Renewal Increment and Exemption to be Subtracted.** The taxable value of each primary or secondary category within the Boise School District shall not include the value that exceeds the value on the base assessment roll in any urban renewal district pursuant to Chapter 29, Title 50, Idaho Code, and shall not include the value of any property exempt from property tax. (4-11-15)

06. **Exception from Requirement for at Least One Observation for Use of Secondary Category in Adjusted Value Determination.** Properties identified as secondary categories 10 and 31 rarely sell separately from farms and therefore do not appear in any ratio study. However, the level of assessment typically is similar to that of other rural residential property, including property in secondary categories 12, 15, 34, and 37. For any ratio study where there is an adjustment to be made to the assessed values in the residential designation, such adjustment shall be applied to any assessed value in secondary category 10, provided there is at least one (1) observation (sale) of property identified in either secondary category 12 or 15. Such adjustment shall also be applied to any assessed value in secondary category 31, provided there is at least one (1) observation (sale) of property identified in either secondary category 34 or 37. (3-30-07)

07. **Certification of Values.** The values required to be certified to the county clerk by the first Monday in April each year under Section 63-315, Idaho Code, shall be published on the State Tax Commission’s web site or provided in an alternate format on request by the first Monday in April each year to satisfy this required certification. (3-30-07)

08. **Cross References.** The primary categories are described in Subsections 130.02 through 130.06 of these Rules, and the secondary categories are described in Rules 510, 511, and 512 of these rules. The requirement to add increment value following dissolution of an urban renewal revenue allocation area is found in Section 33-802(6), Idaho Code. (3-25-16)

### 316. COMPLIANCE OF CONTINUING VALUATION PROGRAM (RULE 316).

**Sections 63-314 and 63-316, Idaho Code**

01. **Definitions.** (5-3-03)

   a. **Continuing Appraisal.** “Continuing appraisal” means the program by which each assessor completes the assessment of all taxable properties each year. This term includes any appraising or indexing done to accomplish the continuing program of valuation as defined in Rule 314 of these rules. (5-3-03)

   b. **Monitor.** “Monitor” means collecting data and compiling statistical reports that show the number and percentage of parcels physically inspected at scheduled intervals within each year of each five (5) year appraisal cycle. The term “monitor” also includes an examination of and summary report of compliance with the most recently completed ratio study under Section 63-109, Idaho Code, and Rule 131 of these rules showing the status of appraisal and indexing to achieve market value. (5-3-03)

   c. **Progress Reports.** “Progress reports” mean any informational or statistical report compiled and distributed by the State Tax Commission regarding the physical appraisal progress of a county. (5-3-03)

   d. **Appraisal Cycle.** “Appraisal cycle” means consecutive five (5) year periods beginning with appraisals completed for the 1998 property roll, as established by the requirement in Section 63-314, Idaho Code. (5-3-03)

   e. **Remediation Plan.** “Remediation plan” means, a written statement of the actions that will be taken by the county not in compliance with the requirements of Section 63-314, Idaho Code, to bring the continuing program of valuation into compliance with said Section. (5-3-03)

02. **Monitoring Procedure.** The State Tax Commission will monitor compliance with the continuing program of valuation in each county no less than annually. The State Tax Commission will monitor the completion of the appraisal of not less than fifteen percent (15%) of all parcels by the end of the first year of the appraisal cycle, not less than thirty-five percent (35%) by the end of the second year, not less than fifty-five percent (55%) by the end of the third year, not less than seventy-five percent (75%) by the end of the fourth year, and not less than one hundred percent (100%) by the end of the fifth year in order that all parcels are appraised not less than every five (5) years. As a result of the monitoring process, the State Tax Commission will prepare and distribute progress reports to each
county assessor at the end of each monitoring period. Each monitoring period will be conducted in the following manner:

a. The State Tax Commission will compile a progress report each July. The State Tax Commission will use this progress report in each county to determine compliance with Section 63-314, Idaho Code. This report will consist of an analysis of the county's progress within the current appraisal cycle as well as a summary report of the most recently completed ratio study showing the status of appraisal and indexing to achieve market value. The State Tax Commission will notify each county assessor on or before August 15 each year of the current status of the continuing program of valuation progress and any necessary corrective action. The State Tax Commission will notify the board of county commissioners that this report has been provided to the county assessor.

b. Upon receipt of a written request from the county assessor, the State Tax Commission will complete and distribute a six (6) month progress report in January. This January report will show the total parcels in the county, the number of parcels that need to be physically inspected for the current year's assessment, a summary report of the most recently completed ratio study, and the number of parcels upon which physical inspections were completed during the preceding six (6) months. The State Tax Commission will distribute any January progress report only to inform the county assessor of the status of the continuing program of valuation and will not use the data gathered for this report to determine compliance with Section 63-314, Idaho Code. The State Tax Commission will notify the board of county commissioners that this report has been provided to the county assessor.

03. Remediation Plans. If the results of any July report show that a county has not achieved the adequate appraisal of the required percent of the parcels, as stated in Subsection 316.02 of this rule, the assessor and board of county commissioners will be required to submit to the State Tax Commission, a remediation plan that demonstrates how compliance will be achieved. The remediation plan will be submitted to the State Tax Commission on or before September 15. The State Tax Commission will determine whether the plan is acceptable on or before October 1. Once a remediation plan has been approved, the continuing valuation program of the county will be considered in compliance so long as the county meets the terms of the remediation plan. The State Tax Commission will monitor progress toward successful completion of any remediation plan at intervals scheduled with the county assessor.

04. State Tax Commission To Ensure Corrective Action.

a. During the first four (4) years of any appraisal cycle, if any July progress report shows that a county assessor has not achieved the adequate appraisal of the required percent of parcels, as stated in Subsection 316.02 and implementation of the subsequent remediation plan does not achieve the required percent or the next July progress report shows the number of completed appraisals continues to be less than the required percent, the State Tax Commission will begin proceedings to ensure corrective action is taken up to and including taking exclusive and complete control of the continuing program of valuation as provided for in Section 63-316, Idaho Code.

b. If, at the end of any appraisal cycle a county has not achieved adequate appraisal of all parcels, the State Tax Commission may begin proceedings to ensure corrective action is taken up to and including taking exclusive and complete control of the continuing program of valuation as provided for in Section 63-316, Idaho Code. If, at the end of an appraisal cycle, a county has not met the requirements of Section 63-314, Idaho Code, and no extension has been granted pursuant to the provisions of Section 63-316(6), Idaho Code, the county plan for the next appraisal cycle submitted to the State Tax Commission must include provision for field inspection of those parcels not field inspected by the end of the expired appraisal cycle and an additional field inspection of the same parcels for the current plan for the continuing program of valuation.

05. Compliance Procedure Examples.

a. Example 1: The following chart outlines what will occur if a county assessor fails to complete the appraisal of the required number of parcels for 2003 and subsequently fails to complete the appraisal of the required number of parcels for 2004.

317. OCCUPANCY TAX ON NEWLY CONSTRUCTED IMPROVEMENTS ON REAL PROPERTY (RULE 317).
Section 63-317, Idaho Code
01. **Property Subject to Occupancy Tax.** Excluding additions to existing improvements, the occupancy tax shall apply to improvements upon real property, whether under the same or different ownership. The occupancy tax shall also apply to new manufactured housing, as defined in Section 63-317, Idaho Code, excluding additions to existing manufactured housing. (4-6-05)

02. **Prorated Market Value.** The market value for occupancy tax purposes shall be the full market value on January 1 and shall be prorated at least monthly from the occupancy date to the end of the year. (3-29-10)

03. **Notice of Appraisal.** When notifying each owner of the appraisal, the county assessor shall include at a minimum the full market value before any exemptions and before any prorating of the value, the length of time subject to the occupancy tax, and the prorated value. (5-3-03)

04. **Examples for Calculation of Value Less Homestead Exemption (HO).** The following examples show the procedure for the calculation of the taxable value subject to the occupancy tax less the homestead exemption (HO):

a. Example for prorated market value exceeding maximum amount of the homestead exemption for improvements subject to the occupancy tax beginning July 1, 2016.

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full Market Value of Home</td>
<td>$300,000</td>
</tr>
<tr>
<td>Prorated Market Value for 11 Month Occupancy</td>
<td>$300,000 x 11/12 = $275,000</td>
</tr>
<tr>
<td>Taxable Value</td>
<td>$275,000 - $100,000 (HO) = $175,000</td>
</tr>
</tbody>
</table>

(3-29-17)

b. Example for prorated market value resulting in less than the maximum amount of the homestead exemption.

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full Market Value of Home</td>
<td>$120,000</td>
</tr>
<tr>
<td>Prorated Market Value for 3 Month Occupancy</td>
<td>$120,000 x 3/12 = $30,000</td>
</tr>
<tr>
<td>Taxable Value</td>
<td>$30,000 - $15,000 (HO) = $15,000</td>
</tr>
</tbody>
</table>

(3-30-07)

05. **Market Value.** The market value for occupancy tax purposes shall be entered on an occupancy tax valuation roll. Occupancy tax valuation shall not be included in the assessed value of any taxing district, but occupancy tax must be declared in the certified budget. (3-30-07)

06. **Allocation to Urban Renewal Agencies.** Occupancy tax revenue shall be distributed to urban renewal agencies in the same manner as property taxes. (4-7-11)

a. The portion of the occupancy tax raised for funds specified in Section 50-2908, Idaho Code, and Rule 804 of these rules must be distributed to the taxing districts levying property taxes for those funds and, therefore, must not be distributed to the urban renewal agency. (5-8-09)

b. Except for occupancy tax raised for funds specified in Section 50-2908, Idaho Code, and Rule 804 of these rules, for parcels within a newly formed revenue allocation area or within an area newly annexed to an existing revenue allocation area, occupancy tax for the tax year during which the formation or annexation took effect must be distributed to the urban renewal agency. (4-7-11)

07. **Property Qualifying for the Homestead Exemption on Occupancy Value.** When property is subject to occupancy tax, only the improvements shall be eligible for the homestead exemption found in Section 63-602G, Idaho Code. (3-30-07)
318.--403. (RESERVED)

404. OPERATOR’S STATEMENT -- CONTENTS (RULE 404).
Sections 63-401 and 63-404, Idaho Code

01. Operator’s Statement. In the operator’s statement, the number of miles of railroad track, electrical and telephone wire, pipeline, etc., must be reported to the hundredth mile in decimal form (0.00) in each taxing district or taxing authority and must be reported by the uniform tax code area method. (7-1-99)

02. Tax Code Area Maps. By March 1 of each year, the State Tax Commission shall furnish to all entities having operating property within the state of Idaho, except private railcar fleets, a list of all changes in tax code area boundary lines. In case the State Tax Commission receives corrections to any tax code area boundaries, these changes must be furnished by March 15. Every day that the tax code area map deadline is extended beyond March 1 allows for an automatic extension in the filing requirement, equal to the delay, for the portion of the operator’s statement that includes taxing district or taxing authority specific information that is to be reported by tax code area as required in Section 404.01 of this rule. All other information, excluding the mileage as required in Sections 404.01 and 404.03 of this rule shall still be required by April 30 as required in Section 404.06 of this rule. The reporting entity shall review the list of changes to identify any tax code areas, within which any of the entity’s operating property is located. The reporting entity shall report, under Subsection 404.01 of this rule based on these identified tax code areas. The State Tax Commission shall provide the tax code area maps to the reporting entity as provided for in Rule 225 of these rules. (3-28-18)

03. Reporting of Mileage. The following procedures apply for reporting mileage. (7-1-99)

a. Railroad Track Mileage. The railroad track mileage shall be reported by the name of the main line and branch lines with the track mileage for the main line and branch lines reported as Main Track Miles. Track miles consisting of passing track, yard switching, spurs, sidings, etc., shall be reported as Secondary Track Miles. (5-3-03)

b. Electric Power Line Mileage. The electric power companies shall report electric power line mileage by transmission and distribution lines. The transmission lines are the lines at a primary source of supply to change the voltage or frequency of electricity for the purpose of its more efficient or convenient transmission; lines between a generating or receiving point and the entrance to a distribution center or wholesale point; and lines whose primary purpose is to augment, integrate, or tie together the sources of power supply. The distribution lines are the lines between the primary source of supply and of delivery to customers, which are not includable in transmission lines. Cooperative electrical associations may include lines designed to accommodate thirty-four thousand five hundred (34,500) volts or more as transmission or distribution lines. Transmission or distribution lines shall be reported by single linear wire mile. (5-3-03)

c. Telephone Wire Mileage. All telephone wire mileage shall be reported on a single linear wire mile basis, and include any ground wires. (5-3-03)

d. Natural Gas Pipeline and Gathering Line and Water Distribution Pipeline Mileage. Beginning January 1, 2013, all natural gas and water distribution companies shall report pipeline and gathering line miles on a three (3) inch comparison basis. For example, a company with five (5) miles of six (6) inch pipe will report ten (10) pipeline miles: five (5) times six (6) divided by three (3) equals ten (10) miles. (4-4-13)

e. Transmission Pipeline Mileage. All transmission pipeline companies shall report pipeline miles on a one-inch (1") comparison basis. (4-2-08)

04. Situs Property. Situs property includes microwave stations and radio relay towers. This property also includes facilities, used for and in conjunction with thermal generation of electricity, constructed after January 1, 2004, and located in or within five (5) miles of an incorporated city. The investment in this property shall be reported in the tax code area(s), within which it is located. (4-2-08)

05. Record of Property Ownership. The following procedures apply for maintaining records of operating property ownership. (7-1-99)
a. STC Form R. A record of each property owned, leased, or otherwise operated by each railroad, private railcar fleet or public utility shall be maintained by the State Tax Commission, the appropriate railroad, private railcar fleet or public utility, and the appropriate county assessor’s office. Each record shall be maintained on a form identified as STC Form R. The State Tax Commission shall send a copy of each STC Form R to the appropriate company and the appropriate county assessor’s office. (7-1-99)

b. Identification of Operating Property and Non-operating Property. On the STC Form R, the State Tax Commission shall identify which property is operating property and which property is non-operating property. (5-3-03)

c. Filing of Property Ownership by Railroad Companies. Each railroad company shall file the original railroad right-of-way maps with the State Tax Commission. Each railroad shall file an STC Form R, only, for property that is acquired, leased, or transferred between operating and non-operating status, or sold during the prior year. (7-1-99)

06. Filing Date for Operator’s Statement. By April 30 each year, each railroad, private railcar fleet, and or public utility operating in Idaho shall file information pertinent to the entity’s ownership and operation with the State Tax Commission. This information must be reliable for preparing an estimate of market value. For each entity submitting a written request for an extension on or before April 30, the State Tax Commission may grant an extension of the filing date until May 31. An automatic extension beyond April 30 may be granted as set out in Subsection 404.02 of this rule. Such automatic extension shall apply only to the taxing district, taxing authority, and tax code area specific information contained in the operator’s statement. (3-28-18)

07. Cross Reference. For information relating to the exemption of certain intangible personal property, see Section 63-602L, Idaho Code, and Rule 615 of these rules. For valuation, allocation, and apportionment information, see Section 63-405, Idaho Code, and Rule 405 of these rules. (4-2-08)

405. ASSESSMENT OF OPERATING PROPERTY (RULE 405).

Section 63-405, Idaho Code

01. The Unit Method. The unit method of valuation is preferred for valuing a railroad or public utility when the individual assets function collectively, are operated under one ownership and one management, are interdependent, and the property would be expected to trade in the marketplace as a unit. Under the unit method, the value of the tangible and intangible property is equal to the value of the going concern. The market value of the unit shall be referred to as the system value. For interstate property, allocation factors shall be used to determine what part of the system value is in Idaho. (7-1-99)

02. Identify the Unit. The unit includes all property used or useful to the operation of the system, property owned, used or leased by the business and the leased fee and leasehold interests. Assess all title and interest in unit property shall be assessed to the owner, lessee or operating company. (4-2-08)

03. Appraisal Approaches. The three (3) approaches to value may be considered for all property. (7-1-99)

04. Appraisal Procedures. Market value shall be determined through procedures, methods, and techniques accepted by nationally recognized appraisal and valuation organizations. For operating property, the direct capitalization techniques or derivatives thereof shall not be used in estimating value. (7-1-99)

05. The Cost Approach. For operating property, the appraiser may consider replacement, reproduction, original or historical cost.

a. Contributions in aid of construction. Contributions in aid of construction are valued at zero in the cost approach. (7-1-99)

b. Construction work in progress. Construction work in progress may be considered in the cost approach. (7-1-99)
c. Obsolescence. The appraiser shall attempt to measure obsolescence, if any exists. If obsolescence is found to exist, it may be considered in the cost approach. (7-1-99)

06. The Income Approach. For operating property, the income approach is based on the premise that value can be represented by the present worth of future benefits derived from the ownership, use or operation of the unit. The appraiser shall consider yield capitalization in processing the income approach. (7-1-99)

07. The Market Approach. In the market approach for operating property, the appraiser shall consider the sales comparison approach or the stock and debt approach. (7-1-99)

08. Reconciliation. Reconciliation, also called correlation, is an opinion regarding the weight that should be placed on each approach. The appropriate weight to be given each indicator is based on the appraiser’s opinion of the inherent strengths and weaknesses of each approach and the data utilized. The appraisal report shall disclose the weight given to the indicators. (7-1-99)

09. Allocation. Use readily available data from existing records to calculate the factors that are multiplied by the correlated system value to allocate that value to Idaho. (4-2-08)

10. Situs Property Apportionment. For situs property, as described in Subsection 404.04 of these rules, apportionment is based on physical location meaning the taxable value shall not be apportioned based on mileage but only to the tax code area(s) within which said property is situs or physically located. (4-2-08)

11. Cross Reference. For reporting information, see Section 63-404, Idaho Code, and Rule 404 of these rules. For information relating to the exemption of certain intangible personal property, see Section 63-602L, Idaho Code, and Rule 615 of these rules. (4-2-08)

406. RULES PERTAINING TO MARKET VALUE OF OPERATING PROPERTY OF RATE REGULATED ELECTRIC UTILITY COMPANIES (RULE 406).

Section 63-105(2) and Section 63-205(1), Idaho Code

01. Valuation of Operating Property of Rate Regulated Electric Utility Companies. The market value for assessment purposes of operating property of rate regulated electric utility companies shall be determined by the State Tax Commission using statute, these rules as referenced in Rule 001 of these rules, any other applicable law, and the following: (3-20-14)

a. Depending on the weighting placed on the income approach, as described in Subsection 406.01.d. of this rule, no more than twenty percent (20%) weight will be placed on the cost indicator when utilizing the Historic Cost Less Depreciation (HCLD) method in the system value correlation. (3-20-14)

b. In the income approach, income to be capitalized will be normalized, utilizing the Gross Domestic Product Implicit Price Deflator found in Table 1.1.9 from the United States Department of Commerce, Bureau of Economic Analysis, by using an average of at least the previous four (4) years’ net operating incomes and by adjusting each year’s net operating income for unusual non-recurring items. (3-28-18)

c. In the income approach, a market discount rate will be determined to which a flotation cost component of twenty hundredths of one percent (0.20%) will be added. (3-28-18)

d. A weighting between eighty percent (80%) and one hundred percent (100%) will be placed on the income approach in the system value correlation. (3-20-14)

e. Within the market approach, as prescribed in Rule 405 of these rules, a sales comparison approach may be used if reliable data is available and appropriate comparison adjustments can be made. No weight will be placed on a stock and debt approach in the system value correlation. (3-20-14)

f. For rate regulated electric utility companies, the weightings prescribed in this rule shall supersede any weightings in the system correlation prescribed in Subsection 405.08 of this rule. (3-20-14)
02. Accounting For Obsolescence. Subsection 406.01.a. of this rule shall be construed to mean that the use of no more than twenty percent (20%) weight placed on the cost indicator, when utilizing HCLD method to calculate the cost approach, accounts for any and all forms of depreciation, including any and all forms of obsolescence, and the appraiser shall not consider any further obsolescence as provided for in Subsection 405.05 of these rules. (3-20-14)

407. HEARING TO REVIEW OPERATING PROPERTY APPRAISALS (RULE 407).

Section 63-407, Idaho Code

01. Procedure Governed. This rule shall govern all practice and procedure before the State Tax Commission sitting as a Board of Equalization in hearings under Section 63-407, Idaho Code. Hearings are not contested cases under the Idaho Administrative Procedures Act. Hearings are open meetings under the Idaho open meetings law and all written materials are subject to Idaho public records law. The taxpayer may request that the board of equalization go into executive session to discuss confidential materials. (3-20-14)

02. Liberal Construction. These rules shall be liberally construed to secure just, speedy and economical determination of all issues presented to the State Tax Commission. For good cause the State Tax Commission may permit deviation from these rules and the taxpayer may request a stipulated finding that would result in an appealable decision in lieu of a hearing before the state board of equalization. (3-20-14)

03. Communication. All notices and petitions required to be filed with the State Tax Commission must be in writing. Each notice must identify the filing party, be signed by the filing party, be dated and give the filing party’s mailing address and telephone number. The provisions of Section 63-217, Idaho Code, apply to the filing of documents with the State Tax Commission. (7-1-99)

04. Service by State Tax Commission. All notices and orders required to be served by the State Tax Commission may be served by mail. Service shall be complete when a true copy of the document, properly addressed and stamped, is deposited in the United States mail. (7-1-99)

05. Notice to County Assessors. When the calendar of hearings under Section 63-407, Idaho Code, is final, the State Tax Commission shall send a copy of this calendar to the assessor of each county. (7-1-99)

06. Parties. The following are parties to a hearing of the State Tax Commission meeting as Board of Equalization. (7-1-99)

a. Petitioner. A person petitioning for a hearing shall be called the petitioner. (7-1-99)

b. Staff. The State Tax Commission staff may appear as a party at the hearing and may be represented by one (1) or more Deputy Attorneys General assigned to the State Tax Commission. (7-1-99)

c. Legal advisor to the commission. When sitting as a Board of Equalization, the State Tax Commission may obtain legal advice from a Deputy Attorney General who is not representing the State Tax Commission staff. (7-1-99)

07. Appearances and Practice. The following apply for appearances and practice in a hearing. (7-1-99)

a. Rights of parties. At any hearing, both parties may appear, introduce evidence, ask questions through the presiding officer, make arguments, and generally participate in the conduct of the proceeding. (3-20-14)

b. Taking of appearances. The presiding officer conducting the hearing shall require appearances to be stated and shall see that both parties present are identified on the record. (7-1-99)

c. Representation of taxpayers. An individual may represent himself or herself or be represented by an attorney. A partnership may be represented by a partner, authorized employee or by an attorney. A corporation may be represented by an officer, authorized employee or by an attorney. (7-1-99)
08. Pre-Hearing Conferences. (3-20-14)
   a. The State Tax Commission may, upon notice to both parties, hold a pre-hearing conference for the following purposes: (3-20-14)
      i. Formulating or simplifying the issues; (7-1-99)
      ii. Obtaining admissions of fact and of documents which will avoid unnecessary proof; (7-1-99)
      iii. Arranging for the exchange of proposed exhibits or prepared expert testimony; (7-1-99)
      iv. Limiting the number of witnesses; (7-1-99)
      v. Setting the hearing procedure, and including allocation of an amount of time for the hearing; and (3-20-14)
      vi. Reviewing other matters to expedite the orderly conduct and disposition of the proceedings. (7-1-99)
      vii. Allowing any continuance. (3-20-14)
   b. Action taken. Any action taken at the conference and any agreement made by the parties concerned may be recorded and the State Tax Commission may issue a pre-hearing order which will control the course of subsequent proceedings unless modified. (7-1-99)
   c. Compromise and offers to compromise. Evidence of an offer or agreement to compromise the dispute and the conduct and statements made in compromise negotiations are not admissible at the hearing. (7-1-99)

09. Hearings. The following apply to the hearings. (7-1-99)
   a. Request for hearing. A request for a hearing shall be in writing and filed with the State Tax Commission on or before August 1 of the current year. The request shall state the factual and legal basis on which the request is based. (3-20-14)
   b. Notice of hearing. The State Tax Commission shall notify both parties and all counties of the place, date and time of the hearing. (7-1-99)
   c. Submission of documents and other evidence. The taxpayer’s operating statement, applicable yield studies, the staff’s appraisal and the taxpayer’s notice of appeal and request for hearing are deemed a part of the record of the hearing. Other written appraisals, exhibits, statements, arguments and other documents for the Commissioners to consider shall be submitted by both parties at least three (3) days in advance of the hearing. Additional information may be presented by either party at the time of their oral presentations, but such additional information should be limited to subject matter and evidence provided at least three days prior to the hearing. Parties shall submit ten (10) copies. (3-20-14)
   d. Presiding officer. The Chairman of the State Tax Commission shall appoint an individual who is not a member of the State Tax Commission’s staff to conduct the hearing. In the absence of a conflict of interest or other good cause, this person will normally be the Commissioner overseeing the centrally assessed property section of the State Tax Commission or the designee thereof. A Commissioner shall not vote on any matters where he has oversight. (7-1-99)
   e. The proceeding. In a non-adversarial proceeding witnesses shall present evidence and arguments directly to the Commissioners. The presentation may include written materials including a transcript of the witnesses’ oral statements. Copies of written materials (including copies of visual presentations) shall be provided each Commissioner, the Commission’s secretary and the Staff. At the conclusion of a witness’ testimony, Commissioners may pose questions. The party with the burden of proof on the matter to be considered shall present first and may make a closing presentation. This closing presentation should be limited to the subject matter and evidence presented
f. Testimony under oath. All testimony to questions of fact to be considered by the State Tax Commission in hearings, except matters noticed officially or entered by stipulation, shall be under oath. Before testimony is presented each person shall swear, or affirm, that the testimony he is about to give shall be the truth. Attorneys may present oral and written legal argument on behalf of clients as part of the presentation by the party they represent.

(3-20-14)

g. Rules of evidence. No informality in any proceeding or in the manner of taking testimony shall invalidate any order or decision made by the State Tax Commission. Unless otherwise provided in these rules the Idaho Rules of Evidence will be generally followed but may be modified at the discretion of the State Tax Commission to aid in ascertaining the facts. When objection is made to the admissibility of evidence, the evidence may be received subject to later ruling by the State Tax Commission. The State Tax Commission, at its discretion, either with or without objection may limit or exclude inadmissible, incompetent, cumulative or irrelevant evidence. Parties objecting to the introduction of evidence shall briefly state the grounds of objection at the time such evidence is offered.

(3-20-14)

h. Recessing hearing for conference. In any proceeding the presiding officer may, in his discretion, call both parties together for a conference prior to the taking of testimony, or may recess the hearing for a conference. The presiding officer shall state on the record the results of the conference.

(7-1-99)

i. Transcript. An official electronically recorded transcript of the hearing may be taken at the discretion of the Commission when requested by a party. A petitioner desiring the taking of stenographic notes by a qualified court reporter may notify the State Tax Commission in writing and shall arrange for the hiring of a reporter and bear the expense of the reporter’s fees. If the reporter’s transcript is deemed by the State Tax Commission or presiding officer as the official transcript of the hearing, the petitioner shall furnish the State Tax Commission a transcript free of charge.

(3-20-14)

j. Transcript copies. A request for a copy of a transcript of proceedings at any hearing must be in writing or on the record. Upon completion of the transcript, the State Tax Commission shall notify the person requesting a copy of the fee for producing the transcript. Upon receipt of the fee, the State Tax Commission will send a copy of the transcript.

(3-20-14)

408. RE-EXAMINATION OF VALUE -- COMPLAINT BY ASSESSOR (RULE 408).

Section 63-408, Idaho Code

01. Request for Reexamination of Value. Section 63-408, Idaho Code, entitles the assessor (complainant) of any county in which the value of operating property is apportioned, to request that the State Tax Commission reexamine the valuation.

(7-1-99)

02. Information to be Provided by the State Tax Commission. After preliminary values are established and sent to the respective taxpayers, the State Tax Commission shall send to each County Assessor a statement of the value allocated to Idaho for each centrally assessed taxpayer, together with the previous year’s Idaho value for that taxpayer.

(3-26-19)

03. Complaint. On or before July 15, a complainant may file a complaint under Section 63-408, Idaho Code. A complaint by an assessor to the State Tax Commission to examine the valuation and allocation of value of operating property must be in writing and contain clear and concise questions regarding the valuation and allocation in question. The State Tax Commission shall send a copy of the complaint promptly to the taxpayer.

(7-1-99)

04. Meeting to Examine Valuation and Allocation. Upon receipt of a complaint under Section 63-408, Idaho Code, the staff of the State Tax Commission shall schedule a meeting between the staff appraiser(s) who performed the valuation and allocation and the complainant. Notice of this meeting shall be sent to the taxpayer in question. At this meeting, the staff appraiser(s) shall answer the complainant’s questions to the best of his knowledge. The taxpayer or representative may participate in this meeting.

(7-1-99)

409. -- 410. (RESERVED)
411. **PRIVATE CAR REPORTING BY RAILROAD COMPANIES (RULE 411).**
Section 63-411, Idaho Code. The president or other officer of each railroad company whose railroad tracks run through, in or into Idaho shall, by April 15 of each year file a report with the State Tax Commission. The report form is available from the State Tax Commission upon request. The completed report shall include the following: (5-3-03)

01. **Name of Reporting Railroad Company.** Report the name of the railroad company making the report. (5-3-03)

02. **Name of Private Railcar Fleet.** Report the name of each private railcar fleet, defined under Sections 63-201(14) and 63-411, Idaho Code, having traveled on the reporting railroad company’s track. (5-3-03)

03. **Private Railcar Fleet's Address.** Report the business address of each reported private railcar fleet. (5-3-03)

04. **Car Type.** Report the type of cars by symbol, according to the edition of the “Official Railway Equipment Register” referenced in Rule 006 of these rules. (5-3-03)

05. **Marks.** Report the car marks. (5-3-03)

06. **Miles Traveled.** Report the total number of miles traveled on the reporting railroad’s track, including main line, branches, sidings, spurs, and warehouse or industrial track in Idaho during the year ending December 31 of the preceding year. (5-3-03)

412. **(RESERVED)**

413. **SPECIAL PROVISIONS FOR PRIVATE RAILCAR FleETS (RULE 413).**
Section 63-411, Idaho Code

01. **Definitions.** The following terms are defined for the valuation, allocation and apportionment of private railcar fleets. (7-1-99)

a. **Idaho Miles.** The Idaho miles are the total number of miles traveled in Idaho by all cars in the private railcar fleet during the calendar year immediately preceding the current tax year. (7-1-99)

b. **Idaho Taxable Value.** The Idaho taxable value is that portion of the system value that reflects the value of that part of the private railcar fleet located in Idaho during all or part of a tax year. (7-1-99)

c. **System Miles.** The system miles are the total number of miles, both in and out of Idaho, traveled by all cars in the private railcar fleet during the calendar year immediately preceding the current tax year. (7-1-99)

d. **System Value.** The system value is the value of the entire private railcar fleet regardless of the location of its various components. (7-1-99)

02. **Railcar Valuation, Allocation and Apportionment.** For tax years beginning on or after 1998, the State Tax Commission will appraise the system value of each private railcar fleet and allocate a portion of the system value to Idaho to obtain the Idaho taxable value as set forth below. The Idaho taxable value will be apportioned to the appropriate counties in Idaho pursuant to section 63-411, Idaho Code. (7-1-99)

03. **Allocation.** System value is allocated using the “miles to miles” method of allocation. (7-1-99)

04. **“Miles to Miles” Method of Allocation.** The State Tax Commission will divide Idaho miles by system miles and multiply the quotient by five-tenths (0.5). The product of this calculation will be multiplied by the system value to determine Idaho taxable value. (7-1-99)

414. **(RESERVED)**
415. APPORTIONMENT OF RAILCAR FLEET’S ASSESSED VALUES WITHIN THE STATE (RULE 415).
Section 63-411, Idaho Code

01. Private Railcar Fleet Apportionment. Railroad track miles shall be used for the apportionment of each private railcar fleet’s assessed value when the value within Idaho equals five hundred thousand dollars ($500,000) or more. The Idaho value of each private railcar fleet shall be multiplied by a ratio of this private railcar fleet’s mileage for each railroad to this private railcar fleet’s total mileage in Idaho and divided by the in service main track mileage of that particular railroad, to obtain a rate per mile. This rate per mile is multiplied by the in service main track mileage in each county and tax code area to calculate the apportioned value. For the purpose of apportioning value by miles traveled, main track includes branch lines, as well as main lines, but does not include industrial spurs, sidings or passing tracks. (7-1-99)

02. Determination of Average Tax Rate -- Private Railcar Fleets Under Five Hundred Thousand Dollars Assessed Value. For private railcar fleets having an assessed value of less than five hundred thousand dollars ($500,000), the average tax rate is computed each year by dividing the current taxes for all private railcar fleets with assessed value of five hundred thousand dollars ($500,000) or more by the current Idaho value of all such fleets. By November 15 of each year, each county treasurer must provide the State Tax Commission with the amount of taxes due from all private railcar fleets in the county. (4-2-08)

416. (RESERVED)

417. PENALTY FOR FAILURE TO MAKE STATEMENT (RULE 417).
If a private railcar fleet fails or refuses to file the operator’s statement as provided by Section 63-404, Idaho Code, by April 30 of each year, the State Tax Commission shall add a penalty. The penalty is fifty percent (50%) of the assessed value, determined by the State Tax Commission, as provided by Section 63-411, Idaho Code. When an emergency exists, the company may petition the State Tax Commission for an extension of time for filing, not to exceed thirty (30) days. For such petition to be valid it must be submitted in writing to the State Tax Commission by April 30 of each year. (7-1-99)

418. -- 508. (RESERVED)

509. ABSTRACTS OF VALUE (RULE 509).
Sections 63-105A and 63-509, Idaho Code

01. Definitions. The following definitions apply for the purposes of testing for equalization under Section 63-109, Idaho Code, notification under Sections 63-301 and 63-308, Idaho Code, and reporting under Section 63-509, Idaho Code. (3-30-07)

a. Increment Value. Increment value means, as defined in Section 50-2903, Idaho Code, the total value calculated by summing the differences between the current equalized value of each taxable property in the revenue allocation area and that property’s current base value on the base assessment roll, provided such difference is positive. (3-30-07)

b. Primary Category. Primary category means the categories established and described by Subsections 130.02 through 130.06 of these rules and used by the State Tax Commission to test for equalization under Section 63-109, Idaho Code. (3-30-07)

c. Secondary Category. Secondary category means the categories established and described by Rules 510, 511, and 512 of these rules and used by county assessors to list property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and report values to the State Tax Commission under Section 63-509, Idaho Code, and this Rule. Secondary categories may also be tested for equalization purposes, provided they meet the criteria in Subsection 131.05 of these rules. (3-29-12)

d. Abstract. A document summarizing taxable (net taxable value) and market value for assessment purposes (full market value) by secondary category of property. Abstracts are prepared for the county, cities, the Boise School District, and any taxing district or unit of government which does not levy property tax against all
otherwise taxable property. Abstracts are to be prepared for the property roll and the combined missed and subsequent property rolls.  

02. **Additional Information to be Included.** In addition to the taxable value and the market value for assessment purposes of property on the property rolls, the abstract must report the value of exemptions required to be reported under Section 63-509, Idaho Code, any increment value and the value of any exemption provided under Sections 63-602W(4), 63-602GG, 63-602HH, 63-602II, 63-602NN, 63-4502, 63-606A, and 63-3029B, Idaho Code. Increment value and exemption value thus reported shall be subtracted from the market value for assessment purposes shown for each secondary category of property on each abstract.

03. **Verification of Abstracts.** For the purposes of this rule and meeting the requirements of Section 63-509, Idaho Code, the abstract of the property rolls prepared by the county auditor shall be considered duly verified provided that the auditor signs a document indicating:

a. That the required summary information is based on the most current available information received from the assessor following the conclusion of the county board of equalization, and;

b. That the assessor certifies to the auditor that all changes, corrections, additions, and exemptions entered onto the rolls as a result of county board of equalization action have been duly entered.

04. **Nature of Verification Document.** The abstract verification document shall include the signatures of the county assessor and auditor or duly appointed representatives. The substance of the verbiage in the document shall be equivalent to that found in the following sample:

(3-28-18)

(Name of county auditor), being first duly sworn, deposes and says that he/she is the duly qualified and acting auditor in and for the county of (Name), State of Idaho, and that the above and foregoing is a full, true and correct abstract of the valuation of all property entered on the property roll (or subsequent and missed property rolls) for the year (Year), as certified by the assessor to the auditor and equalized by the Board of County Commissioners of said county in session as a board of equalization.

05. **Submittal of Corrections to Erroneous Abstracts or Related Documents.** When completing the procedures set forth in Section 63-810, Idaho Code, boards of county commissioners should submit the corrections to the taxable values submitted on the abstracts or related documents under provisions of Section 63-509, Idaho Code, and this rule, no later than when they submit the corrected levies under Section 63-810, Idaho Code.

06. **Cross Reference.** See Rule 115 of these rules for requirements to submit city, Boise School District, and special district or unit of government abstracts. For the descriptions of the categories used to test for equalization, see Subsections 130.02 through 130.06 of these rules. For descriptions of secondary categories used to list and report land values, see Rule 510 of these rules, used to list and report the value of improvements, see Rule 511 of these rules, or used to list and report all property values other than that for land or improvements, see Rule 512 of these rules. For information relating to notification of corrections to erroneous levies, see Sections 63-809 and 63-810, Idaho Code, and Rule 809 of these rules.

510. **SECONDARY CATEGORIES FOR LAND - LISTING AND REPORTING (RULE 510).** Section 63-509, Idaho Code. County assessors will use the secondary categories described in the following subsections, indicated by numbers, to list land values on the valuation assessment notices under Sections 63-301 and 63-308, Idaho Code. County assessors will use these secondary categories described in the following subsections, indicated by numbers, and the secondary categories described in the following paragraphs, indicated by letters, to report land values to the State Tax Commission on the abstracts under Section 63-509, Idaho Code, and Rule 509 of these rules. For all of the above listed functions, assign all appropriate secondary land categories to parcels of property put to multiple uses.

01. **Secondary Category 1 - Irrigated Agricultural Land.** Irrigated land and only such irrigated land eligible for and granted the partial exemption for the current year's assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat” or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary
category. This irrigated land must be capable of and normally producing harvestable crops and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city. (3-30-07)

02. Secondary Category 2 - Irrigated Grazing Land. Irrigated land and only such irrigated land eligible for and granted the partial exemption for the current year’s assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat” or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary category. This irrigated land must be used for grazing and not normally capable of producing harvestable crops and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city. (3-30-07)

03. Secondary Category 3 - Non-Irrigated Agricultural Land. Land and only such land eligible for and granted the partial exemption for the current year’s assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat” or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary category. This non-irrigated land must be capable of and normally producing harvestable crops without man-made irrigation and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city. (3-30-07)

04. Secondary Category 4 - Meadow Land. Land and only such land eligible for and granted the partial exemption for the current year’s assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat” or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary category. This meadow land must be capable of lush production of grass and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city. (3-30-07)

05. Secondary Category 5 - Dry Grazing Land. Land and only such land eligible for and granted the partial exemption for the current year’s assessment roll as actively devoted to agriculture. (See Sections 63-604 and 63-602K, Idaho Code, and Rule 645 of these rules.) Only place land meeting the definition of “land actively devoted to agriculture” under Section 63-604, Idaho Code, or the requirements for “wildlife habitat” or “conservation agreement” under Section 63-605, Idaho Code, for the current assessment year in this secondary category. This land must be capable of supporting grasses and not normally capable of supporting crops on regular rotation and may be located inside or outside the boundaries of a subdivision without restrictions on such use or the boundaries of an incorporated city. (3-30-07)

06. Secondary Category 6 - Productivity Forestland. All land and only such land designated by the owner for assessment, appraisal, and taxation under Section 63-1703(a), Idaho Code, for the current year’s assessment roll. This land must be assessed as forest land under the productivity option and may be located inside or outside the boundaries of an incorporated city. Also included is all land assessed under Section 63-1704, Idaho Code. (3-30-07)

07. Secondary Category 7 - Bare Forestland. All land and only such land designated by the owner for assessment, appraisal, and taxation under Section 63-1703(b), Idaho Code, for the current year’s assessment roll. This land must be assessed as bare land with the yield tax option and may be located inside or outside the boundaries of an incorporated city. (3-30-07)

08. Secondary Category 8. Not presently used. (4-4-13)

09. Secondary Category 9 - Patented Mineral Land. All land used solely for mines and mining claims and only the part of such land not used for other than mining purposes for the current year’s assessment roll. This land may be located inside or outside the boundaries of an incorporated city. See Section 63-2801, Idaho Code. (3-30-07)

with secondary categories 1 through 9. Note: This land is always land with improvements located on it since land with no improvements should be in one (1) or more of categories 1 through 9. (4-2-08)

11. Secondary Category 11 - Recreational Land. Rural land used in conjunction with recreation but not individual homesites. (3-30-07)
   a. Secondary Category 11 - Vacant Recreational Land. Vacant rural land used for recreational purposes but not individual homesites or in a properly recorded subdivision. (3-30-07)
   b. Secondary Category 11 - Improved Recreational Land. Rural land with improvements, including exempt improvements, used for recreational purposes on that land but not individual homesites or in a properly recorded subdivision. (3-30-07)

12. Secondary Category 12 - Rural Residential Tracts. Rural residential land not in a properly recorded subdivision. (3-30-07)
   a. Secondary Category 12 - Vacant Rural Residential Tracts. Vacant rural land used for residential purposes but not in a properly recorded subdivision. (3-30-07)
   b. Secondary Category 12 - Improved Rural Residential Tracts. Rural land with improvements, including exempt improvements, used for residential purposes on that land but not in a properly recorded subdivision. (3-30-07)

13. Secondary Category 13 - Rural Commercial Tracts. Rural commercial land not in a properly recorded subdivision. (3-30-07)
   a. Secondary Category 13 - Vacant Rural Commercial Tracts. Vacant rural land used for commercial purposes but not in a properly recorded subdivision. (3-30-07)
   b. Secondary Category 13 - Improved Rural Commercial Tracts. Rural land with improvements, including exempt improvements, used for commercial purposes on that land but not in a properly recorded subdivision. (3-30-07)

14. Secondary Category 14 - Rural Industrial Tracts. Rural industrial land not in a properly recorded subdivision. (3-30-07)
   a. Secondary Category 14 - Vacant Rural Industrial Tracts. Vacant rural land used for industrial purposes but not in a properly recorded subdivision. (3-30-07)
   b. Secondary Category 14 - Improved Rural Industrial Tracts. Rural land with improvements, including exempt improvements, used for industrial purposes on that land but not in a properly recorded subdivision. (3-30-07)

15. Secondary Category 15 - Rural Residential Subdivisions. Rural residential land in a properly recorded subdivision. (3-30-07)
   a. Secondary Category 15 - Vacant Rural Residential Subdivisions. Vacant rural land used for residential purposes and in a properly recorded subdivision. (3-30-07)
   b. Secondary Category 15 - Improved Rural Residential Subdivisions. Rural land with improvements, including exempt improvements, used for residential purposes on that land and in a properly recorded subdivision. Also use this category for rural homesites within subdivisions when the remaining acreage qualifies as actively devoted to agriculture under Section 63-604, Idaho Code, or has been designated forestland under Chapter 17, Title 63, Idaho Code. (4-2-08)

16. Secondary Category 16 - Rural Commercial Subdivisions. Rural commercial land in a properly recorded subdivision. (3-30-07)
a. Secondary Category 16 - Vacant Rural Commercial Subdivisions. Vacant rural land used for commercial purposes and in a properly recorded subdivision.  
(3-30-07)

b. Secondary Category 16 - Improved Rural Commercial Subdivisions. Rural land with improvements, including exempt improvements, used for commercial purposes on that land and in a properly recorded subdivision.  
(3-30-07)

17. Secondary Category 17 - Rural Industrial Subdivisions. Rural industrial land in a properly recorded subdivision.  
(3-30-07)

a. Secondary Category 17 - Vacant Rural Industrial Subdivisions. Vacant rural land used for industrial purposes and in a properly recorded subdivision.  
(3-30-07)

b. Secondary Category 17 - Improved Rural Industrial Subdivisions. Rural land with improvements, including exempt improvements, used for industrial purposes on that land and in a properly recorded subdivision.  
(3-30-07)

18. Secondary Category 18 - Other Land. Land not compatible with other secondary categories.  
(3-30-07)

a. Secondary Category 18 - Vacant Other Land. Vacant land not compatible with other secondary categories.  
(3-30-07)

b. Secondary Category 18 - Improved Other Land. Land with improvements, including exempt improvements, on that land but not compatible with other secondary categories.  
(3-30-07)

(3-30-07)

20. Secondary Category 20 - Residential Lots or Acreages. Land used for residential purposes and inside city limits.  
(3-30-07)

(3-30-07)

b. Secondary Category 20 - Improved Residential Lots Or Acreages. Land with improvements, including exempt improvements, used for residential purposes on that land and inside city limits. Also use this category for urban homesites when the remaining acreage qualifies as actively devoted to agriculture under Section 63-604, Idaho Code, or has been designated forestland under Chapter 17, Title 63, Idaho Code.  
(4-2-08)

21. Secondary Category 21 - Commercial Lots or Acreages. Land used for commercial purposes and inside city limits.  
(3-30-07)

(3-30-07)

b. Secondary Category 21 - Improved Commercial Lots Or Acreages. Land with improvements, including exempt improvements, used for commercial purposes on that land and inside city limits.  
(3-30-07)

22. Secondary Category 22 - Industrial Lots or Acreages. Land used for industrial purposes and inside city limits.  
(3-30-07)

(3-30-07)

b. Secondary Category 22 - Improved Industrial Lots Or Acreages. Land with improvements,
including exempt improvements, used for industrial purposes on that land and inside city limits. (3-30-07)

23. **Secondary Category 25 - Common Area Vacant Land.** Common area vacant land not included in individual property assessments. (3-30-07)

24. **Secondary Category 45 - Utility System Vacant Land.** Vacant land used for locally assessed utility systems not under the jurisdiction of the State Tax Commission for appraisal. (3-30-07)

25. **Secondary Category 57 - Equities In Vacant Land Purchased From the State.** For identification purposes under Section 63-211, Idaho Code, vacant land purchased from the state under contract. (3-30-07)

26. **Secondary Category 81 - Exempt Land.** Category 81 is for county use to keep an inventory, including acreage, of exempt land. (3-30-07)

27. **Cross Reference.** For descriptions of secondary categories used to list values for improvements, see Rule 511 of these rules, or used to list property values other than that for land or improvements, see Rule 512 of these rules. For the descriptions of primary categories and the assignment of secondary categories therein, see Subsections 130.02 through 130.06 of these rules. (3-30-07)

**511. SECONDARY CATEGORIES FOR IMPROVEMENTS - LISTING AND REPORTING (RULE 511).**

Section 63-509, Idaho Code. County assessors will use the following secondary categories to list improved property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and to report improved property values to the State Tax Commission on the abstracts under Section 63-509, Idaho Code, and Rule 509 of these rules. For all of the above listed functions, assign all appropriate secondary improvement categories to parcels of property put to multiple uses.

01. **Secondary Category 25 - Common Area Land and Improvements.** Common area land and improvements on that land not included in individual property assessments. (3-30-07)

02. **Secondary Category 26 - Residential Condominiums.** Land and improvements included in individual assessments of condominiums or townhouses and used for residential purposes. (3-30-07)

03. **Secondary Category 27 - Commercial or Industrial Condominiums.** Land and improvements included in individual assessments of condominiums and used for commercial or industrial purposes. (3-30-07)

04. **Secondary Category 30 - Improvements.** Improvements, other than residential, located on secondary category 20. (3-30-07)

05. **Secondary Category 31 - Improvements.** Improvements used for residential purposes and located on secondary category 10. (3-30-07)

06. **Secondary Category 32 - Improvements.** Improvements, other than residential, located on secondary categories 1 through 12 and 15. (3-30-07)

07. **Secondary Category 33 - Improvements.** Improvements used in conjunction with recreation but not associated with homesites and located on secondary category 11. (3-30-07)

08. **Secondary Category 34 - Improvements.** Improvements used for residential purposes and located on secondary category 12. (3-30-07)

09. **Secondary Category 35 - Improvements.** Improvements used for commercial purposes and located on secondary category 13. (3-30-07)

10. **Secondary Category 36 - Improvements.** Improvements used for industrial purposes and located on secondary category 14. (3-30-07)
11. Secondary Category 37 - Improvements. Improvements used for residential purposes and located on secondary category 15. (3-30-07)

12. Secondary Category 38 - Improvements. Improvements used for commercial purposes and located on secondary category 16. (3-30-07)

13. Secondary Category 39 - Improvements. Improvements used for industrial purposes and located on secondary category 17. (3-30-07)

15. Secondary Category 41 - Improvements. Improvements used for residential purposes and located on secondary category 20. (3-30-07)

17. Secondary Category 43 - Improvements. Improvements used for industrial purposes and located on secondary category 22. (3-30-07)

18. Secondary Category 44. Not presently used. (4-4-13)

19. Secondary Category 45 - Utility System Land and Improvements. Locally assessed land and improvements used as utility systems and not under the jurisdiction of the State Tax Commission for appraisal. (3-30-07)

20. Secondary Category 46 - Manufactured Housing. Structures transportable in one (1) or more sections, built on a permanent chassis, for use with or without permanent foundation located on land under the same ownership as the manufactured home but assessed separate from the land. Include any manufactured home located on land under the same ownership as the manufactured home on which a statement of intent to declare as real property has been filed but becomes effective the following year. (3-30-07)

21. Secondary Category 47 - Improvements to Manufactured Housing. Additions not typically moved with manufactured housing. (3-30-07)

22. Secondary Category 48 - Manufactured Housing. Manufactured housing permanently affixed to land under the same ownership as the manufactured home and on which a statement of intent to declare as real property has been filed and has become effective. (3-30-07)

23. Secondary Category 49 - Manufactured Housing. Manufactured housing permanently affixed to leased land and on which a statement of intent to declare as real property has been filed and has become effective. (3-30-07)

24. Secondary Category 50 - Residential Improvements on Leased Land. Improvements used for residential purposes and located on leased land, including railroad rights-of-way under separate ownership, exempt land, or any other land under different ownership than the improvements. (4-4-13)

25. Secondary Category 51 - Commercial or Industrial Improvements on Leased Land. Improvements used for commercial or industrial purposes and located on leased land, including railroad rights-of-way under separate ownership, exempt land, or any other land under different ownership than the improvements. (4-4-13)

26. Secondary Category 57 - Equities in Land With Improvements Purchased From the State. Land with the improvements on that land that are purchased from the state under contract. (3-30-07)

27. Secondary Category 60. Not presently used. (4-4-13)
28. Secondary Category 61. Not presently used. (4-4-13)
29. Secondary Category 62. Not presently used. (4-4-13)
30. Secondary Category 65 - Manufactured Housing. Manufactured housing not designated real property and located on exempt, rented or leased land under separate ownership. Include any manufactured home located on exempt, rented or leased land on which a statement of intent to declare as real property has been filed but becomes effective the following year. (3-30-07)
31. Secondary Category 69 - Recreational Vehicles. Unlicensed recreational vehicles. (3-30-07)
32. Secondary Category 81 - Exempt Improvements. Category 81 is for county use to keep an inventory of exempt improvements. (3-30-07)
33. Cross Reference. For descriptions of secondary categories used to list land values, see Rule 510 of these rules, or used to list property values other than that for land or improvements, see Rule 512 of these rules. For the descriptions of primary categories and the assignment of secondary categories therein, see Subsections 130.02 through 130.06 of these rules. (3-30-07)

512. SECONDARY CATEGORIES, OTHER THAN LAND OR IMPROVEMENTS - LISTING AND REPORTING (RULE 512).

Section 63-509, Idaho Code

County assessors will use the following secondary categories to list property values, other than that for land or improvements, on assessment notices under Sections 63-301 and 63-308, Idaho Code, and will use these secondary categories to report values for property, other than land or improvements, to the Tax Commission on the abstracts under Section 63-509, Idaho Code, and Rule 509 of these rules. (3-30-07)

01. Secondary Category 45 - Utility System Personal Property. Personal property that is part of locally assessed utility systems not under the jurisdiction of the Tax Commission for appraisal. (3-30-07)
02. Secondary Category 55 - Boats or Aircraft. Unlicensed watercraft or unregistered aircraft. (3-30-07)
03. Secondary Category 56 - Construction Machinery, Tools, and Equipment. Unlicensed equipment such as cranes, tractors, scrapers, and rock crushers, used in the building trade or road construction. (3-30-07)
04. Secondary Category 57 - Equities in Personal Property Purchased From the State. Personal property purchased from the state under contract. (3-30-07)
05. Secondary Category 59 - Furniture, Libraries, Art, and Coin Collections. Trade articles used commercially for convenience, decoration, service, storage, including store counters, display racks, typewriters, office machines, surgical and scientific instruments, paintings, books, coin collections, and all such items held for rent or lease. (4-11-15)
06. Secondary Category 63 - Logging Machinery, Tools, and Equipment. Unlicensed logging machinery, shop tools, and equipment not assessed as real property. (3-30-07)
07. Secondary Category 64 - Mining Machinery, Tools, and Equipment. Unlicensed mining machinery, shop tools, and equipment not assessed as real property. (3-30-07)
08. Secondary Category 66 - Net Profits of Mines. That amount of money or its equivalent received from the sale or trade of minerals or metals extracted from the Earth after deduction of allowable expenses. See Section 63-2802, Idaho Code, and Rule 982 of these rules. (3-30-07)
09. **Secondary Category 67 - Operating Property.** Property assessed and apportioned by the Tax Commission. (3-30-07)

10. **Secondary Category 68 - Other Miscellaneous Machinery, Tools, and Equipment.** Unlicensed machinery, tools, and equipment not used in construction, logging, mining, or not used exclusively in agriculture. (3-30-07)

11. **Secondary Category 70 - Reservations and Easements.** Reservations, including mineral rights reserved, divide ownership of property rights. Easements convey use but not ownership. (3-30-07)

12. **Secondary Category 71 - Signs and Signboards.** Signs and signboards, their bases and supports. (3-30-07)

13. **Secondary Category 72 - Tanks, Cylinders, Vessels.** Containers. (3-30-07)

14. **Secondary Category 81 - Exempt Property, Other Than Land or Improvements.** Category 81 is for county use to keep an inventory of exempt property other than land or improvements. (3-30-07)

15. **Cross Reference.** For descriptions of secondary categories used to list land values on the valuation assessment notice or report land values on the abstracts, see Rule 510 of these rules or used to list values for improvements on the valuation assessment notice or report improvement values on the abstracts, see Rule 511 of these rules. For the descriptions of primary categories and the assignment of secondary categories therein, see Subsections 130.02 through 130.06 of these rules. (3-30-07)

513. -- 599. (RESERVED)

600. **PROPERTY EXEMPT FROM TAXATION (RULE 600).**
Section 63-602, Idaho Code

01. **Burden of Proof.** The burden of proof of entitlement to the exemption is on the person claiming exemption for the property. (4-4-13)

02. **Notice of Decision.** (4-4-13)

a. For property subject to local assessment with exemptions requiring annual application as specified in the statute providing the exemption or in Section 63-602(3), Idaho Code, the taxpayer must be notified of the decision of the county commissioners to grant or deny the exemption by May 15 unless a different date is prescribed in the law providing the exemption. (4-4-13)

b. For property subject to assessment by the State Tax Commission, application for any exemption shall be included with the operator’s statement to be submitted as provided in Section 404, of these rules. (4-4-13)

03. **Confidentiality.** Information disclosed as part of an application for an exemption is confidential to the extent provided by in Section 74-107, Idaho Code, or elsewhere in law. Information disclosed to the county commissioners as part of the application process for an exemption shall be deemed submitted to the assessor and entitled to any confidentiality that would have been conferred had such information been disclosed initially to the assessor. (4-4-13)

601. -- 602. (RESERVED)

603. **PROPERTY EXEMPT FROM TAXATION – RELIGIOUS CORPORATIONS OR SOCIETIES (RULE 603).**
Section 63-602B, Idaho Code

01. **Valuing the Taxable Part of Qualifying Property.** Under Section 63-602B(2), Idaho Code, a county shall determine the value of the part of the property used or leased for business or commercial purposes by considering the particular facts of each case, examining the amount of time, during the calendar year, the property is
used for business or commercial purposes, the percentage of the property used for business or commercial purposes, or a combination thereof. The county may require reporting by the religious corporation or society of any use of the property for business or commercial usage in such form, and by such date, as the county establishes. (4-2-08)

02. Comparable Valuation Methodology to Partially Exempt Property Under Section 63-602C, Idaho Code. To value the taxable part of any otherwise qualifying property exempt under Section 63-602B, Idaho Code, each county should use comparable methods to those being used to value the taxable part of qualifying exempt property under Section 63-602C, Idaho Code. (4-2-08)

604. (RESERVED)

605. PROPERTY EXEMPT FROM TAXATION - PROPERTY USED FOR SCHOOL OR EDUCATIONAL PURPOSES (RULE 605).
Section 63-602E, Idaho Code

01. Eligibility of Leased Property. Leased property used exclusively for non-profit school or educational purposes, including charter school purposes, shall be eligible for the exemption provided in Section 63-602E, Idaho Code, provided the following criteria are met: (4-4-13)

a. Leased real property must be exclusively used for the educational purposes identified in Subsection 605.01 of this rule. Such leased real property may be part of a multi-use property, in which case only the portions of the property used for the educational purposes shall be eligible for the exemption. (4-4-13)

b. Leased personal property must be exclusively used for the educational purposes identified in Subsection 605.01 of this rule. To be considered exclusively used in this manner, such personal property must:
   i. Be used exclusively at a non-profit school or charter school facility; or (4-4-13)
   ii. Have its use constrained or restricted in such a way as to effectively eliminate the possibility of use for other than educational purposes. (4-4-13)

02. Application for Exemption for Leased Personal Property. Only the owner of leased personal property can apply for this exemption. Proof of compliance with the requirements of Paragraph 605.01.b. of this rule is required and may be provided by the lessee. (4-4-13)

606. -- 607. (RESERVED)

608. PROPERTY EXEMPT FROM TAXATION - HOMESTEAD - CONTINUED ELIGIBILITY AFTER DEATH OF CLAIMANT (RULE 608).
Section 63-602G, Idaho Code

01. Ownership Interest. For the homestead previously qualifying for the exemption provided in Section 63-602G, Idaho Code, to continue to qualify in the year following the death of the qualifying claimant, the homestead must continue to be part of the claimant’s estate, without change in record owner. If the ownership interest upon which the exemption had been granted was a life estate, the continuation provided in Section 63-602G(8), Idaho Code, does not apply. (4-4-13)

02. Occupancy. The continuation of this exemption shall not be affected by occupancy status of the property during the year following the claimant’s death. For example, the property may be vacant or rented during that period and may be used for something other than residential purposes. (4-4-13)

609. PROPERTY EXEMPT FROM TAXATION -- HOMESTEAD (RULE 609).
Sections 63-602G, 63-701, 63-703, and 63-3077, Idaho Code

01. Homestead Exemption. The Homestead Exemption granted in 63-602G, Idaho Code shall also be known as the homeowner's exemption. (3-30-07)
02. Maximum Amount of Homestead Exemption. The homestead exemption is limited to the lesser of fifty percent (50%) of assessed value or one hundred thousand dollars ($100,000).

03. Partial Ownership. Any partial ownership shall be considered ownership for determining qualification for the homeowner’s exemption; however, the amount of the exemption shall be decided on the reduced proportion of the value commensurate with the proportion of partial ownership. The proportional reduction shall not apply to the ownership interests of a partner of a limited partnership, a member of a limited liability company or a shareholder of a corporation when that person has no less than five percent (5%) ownership interest in the entity unless any ownership interest is shared by any entity other than the limited partnership, limited liability company or corporation. For tenants in common with two (2) improvements located on one (1) parcel of land, determine the applicable value for the homeowner’s exemption using the procedure shown in Example 1 of Paragraph 609.03.a., of this rule unless the owner-occupant provides documented evidence of a different ownership interest in the improvement. See Examples 2, 3, and 4 in Paragraphs 609.03.b., 609.03.c., and 609.03.d. of this rule for additional partial ownership guidance. To calculate property tax reduction benefits when partial ownership exists, see Paragraph 700.05.b. of these rules.

  a. Example 1. John Smith and Bob Anderson own a property as tenants in common with two (2) residential improvements located on the property. Each residential improvement is owner occupied by one (1) of the tenants in common. The homeowner’s exemption is calculated as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>
<td>$42,000</td>
<td></td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$82,000</td>
<td>Occupied by Mr. Smith</td>
</tr>
<tr>
<td>Prorated Ownership Interest</td>
<td>$62,000</td>
<td>Mr. Smith’s interest</td>
</tr>
<tr>
<td>Homeowner’s Exemption</td>
<td>$31,000</td>
<td>For Mr. Smith as owner occupant</td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$67,000</td>
<td>Occupied by Mr. Anderson</td>
</tr>
<tr>
<td>Prorated Ownership Interest</td>
<td>$54,500</td>
<td>Mr. Anderson’s interest</td>
</tr>
<tr>
<td>Homeowner’s Exemption</td>
<td>$27,250</td>
<td>For Mr. Anderson as owner occupant</td>
</tr>
</tbody>
</table>

(3-30-07)

  b. Example 2. John Smith and Bob Anderson own a parcel of land as tenants in common with two (2) residential improvements located on the parcel. Mr. Smith has documented evidence of one hundred percent (100%) interest in one (1) residential improvement and Mr. Anderson has documented evidence of one hundred percent (100%) interest in the remaining residential improvement. Each residential improvement is owner occupied. The homeowner’s exemption is calculated as follows:

<table>
<thead>
<tr>
<th>Item Description</th>
<th>Value</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>
<td>$42,000</td>
<td>Split 50% to each owner</td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$82,000</td>
<td>Owned and occupied by Mr. Smith</td>
</tr>
<tr>
<td>Homeowner’s Exemption</td>
<td>$51,500</td>
<td>For Mr. Smith</td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$67,000</td>
<td>Owned and occupied by Mr. Anderson</td>
</tr>
<tr>
<td>Homeowner’s Exemption</td>
<td>$44,000</td>
<td>For Mr. Anderson</td>
</tr>
</tbody>
</table>

(3-29-17)
c. Example 3. Tom Johnson and Marie Johnson, husband and wife, and June Smith jointly own a property and occupy one (1) residential improvement located on the property. The following example shows how to calculate each homeowner’s exemption.

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>
<td>$95,000</td>
<td></td>
</tr>
<tr>
<td>Residential Improvement</td>
<td>$215,000</td>
<td></td>

<td>Mr. Person’s interest</td>
</tr>
<tr>
<td>Homeowner’s Exemption</td>
<td>$0</td>
<td>Mr. Person does not qualify for a homeowner’s exemption on this property.</td>
</tr>
</tbody>
</table>

(3-28-18)

04. **Part Year Ownership.** For qualifying taxpayers who claimed the homeowner's exemption on an eligible property, the homestead that qualified on January 1 of the current tax year shall continue to receive the exemption, provided however, the assessor may remove that property's exemption if, by April 15 of the tax year, the taxpayer owns a different homestead and requests that the exemption be transferred to the second homestead.

(4-11-15)

05. **Determination of Residency.** The State Tax Commission may release pertinent information from any Idaho income tax return to the county assessor and the county Board of Equalization for the sole purpose of providing one (1) indicator of eligibility for the homeowner's exemption. According to Section 63-3077(4), Idaho Code, this information is confidential and is not subject to public disclosure.

(4-11-06)
06. **Notification of Erroneous Claims.** When it is determined that an exemption granted under this Section to a taxpayer who has also received property tax relief under Chapter 7, Idaho Code, should not have been granted, the county assessor shall notify the State Tax Commission of the determination. (3-29-10)

610. **PROPERTY EXEMPT FROM TAXATION -- RESIDENTIAL IMPROVEMENTS -- SPECIAL SITUATIONS (RULE 610).**

Sections 63-602G and 63-701(2), Idaho Code

01. **Scope.** This rule addresses issues relating to the homeowner’s exemption as it applies to certain unusual factual situations. It states general principles applicable to unusual cases and provides some illustrative examples. The rule cannot address every conceivable situation that may arise, but the principles established may apply to the resolution of situations not addressed in the rule. (7-1-99)

02. **Definitions.** The following definitions apply to this rule: (4-7-11)

a. **Dual Residency Couples.** As used in this rule, “dual residency couple” means a husband and wife, each of whom has established a different dwelling place as his or her primary dwelling place as defined in Section 63-602G, Idaho Code, and Subsection 609.03 of these rules. (4-2-08)

b. **Multidwelling or Multipurpose Building.** “Multidwelling or Multipurpose Building” means a building which is the primary dwelling place of the owner and which has a portion used for any purpose other than the primary dwelling place of the owner. (4-7-11)

c. **Related Land.** “Related Land” means land, not to exceed one (1) acre, that is reasonably necessary for the use of the dwelling as a home. (4-7-11)

03. **Dual Residency Couples -- General Principles.** (7-1-99)

a. Whether a particular residential improvement is an individual’s primary dwelling place is a question of fact for each individual. Each spouse of a dual residency couple can maintain a separate primary dwelling place for purposes of the homeowner’s exemption. The test to be applied is the general test set out in Subsection 609.03 of these rules. (4-2-08)

b. If a residential improvement is community property, either the husband or wife may exercise full management or control over it, except that neither the husband nor the wife can sell or encumber the property without the written consent of the other. Thus, either the husband or the wife can file an application for the homeowner’s exemption regarding community property on his or her own authority. The signature of the other spouse is not required on the application. See Section 32-912, Idaho Code. (7-1-99)

c. Neither spouse is a partial owner of community property. (This principle is an exception to laws generally governing community property interests. It applies only for matters relating to the homeowner’s exemption or the circuit breaker property tax relief program. See Section 63-701(7) Idaho Code.) Thus, there is no authority to reduce the value of the improvement proportionally to reflect one (1) spouse's ownership in community property before determining the amount of the homeowner's exemption. For purposes of the homeowner’s exemption, a community property interest is treated the same as a full ownership interest. (3-15-02)

d. An owner may apply only once for the homeowner’s exemption. See Section 63-602G(c), Idaho Code. Thus, an application by one (1) spouse regarding a residential improvement that is community property, precludes the other spouse from making a second application on any other residential improvement whether held by the other spouse as community or separate property except as provided in Subsection 610.07. (3-15-02)

04. **Example -- Both Residences are Community Property.** (7-1-99)

a. Each member of a dual residency couple maintains his or her primary dwelling in a different residential improvement, each of which is owned by the couple as community property. Each applies for the homeowner’s exemption for the residence in which he or she resides. (7-1-99)
b. The first application is valid. Any subsequent application, though filed by the other spouse, is not valid because the couple can not make more than one (1) application. The homeowner’s exemption applies to the full value of the first residential improvement to qualify without any proportional reduction. The other residential improvement does not qualify. (3-15-02)

05. Example -- One Residence Is Community Property, the Other Is Separate Property. (7-1-99)

a. Each member of a dual residency couple maintains his or her primary dwelling in a different residential improvement. One (1) is owned by the spouse who resides in it as his or her separate property, the other is owned by the couple as community property. Each applies for the homeowner’s exemption for the residence in which he or she resides. (7-1-99)

b. The first application is valid. Any subsequent application, though filed by the other spouse, is not valid. If the first application relates to the community property, it is an application on behalf of both members of the community. Thus, the other spouse can not file a second application relating to his or her separate property. If the first application relates to the separate property, then the subsequent application relating to the community property is a second application by the spouse owning the separate property and is not valid. The homeowner’s exemption applies to the full value of the first residential improvement to qualify without any proportional reduction. The other residential improvement does not qualify. (3-15-02)

06. Example -- Both Residences are Separate Property. (7-1-99)

a. Each member of a dual residency couple maintains his or her primary dwelling in a different residential improvement, each of which is owned by the spouse residing in it as his or her separate property. Each applies for the homeowner’s exemption for the residence in which he or she resides. (7-1-99)

b. Both residential improvements qualify for the full homeowner’s exemption. Neither application is a second application by the same owner. Each spouse is a sole owner of the residential improvement, so the proportional reduction provisions for partial ownership do not apply. (7-1-99)

07. Apportionment of Homeowner's Exemption by Dual Residency Couples. Both spouses of a dual residency couple may elect to equally apportion the homeowner’s exemption between the two (2) residential improvements if each files a written election with the county assessor of the county in which each property is located. When the election is made each residential improvement shall be entitled to one-half (1/2) of the exemption applicable to that property alone. The total exempted value of both properties shall not exceed the amount of exemption available to the individual residential improvement with the greatest market value if no election were made. (4-5-00)

08. Multiple Ownership Including Community Interests as Partial Owners. A community property interest in a residential improvement is a partial ownership when combined with the ownership of another individual who is not a member of the marital community. For example, if a deed conveys title to real property to a husband and wife and to an adult child of theirs, the husband and wife hold a community property interest in the improvement and the child is a tenant-in-common provided ownership interests are not specified in the deed. The parents collectively hold a one-half (1/2) partial interest and the child holds a one-half (1/2) partial interest in the property. Ownership interests specified in the deed supersede this guidance. Qualification of the property for the homeowner’s exemption is as follows:

a. If the residential improvement is the primary dwelling of the husband and wife but not the child, the homeowner's exemption applies to one-half (1/2) of the value of the improvement. (3-26-19)

b. If the residential improvement is the primary dwelling of the child, but not of the husband or wife, the homeowner's exemption applies to one-half (1/2) of the value of the improvement. (3-28-18)

c. If the residential improvement is the primary dwelling of the husband, wife and child, the homeowner's exemption applies to the full value of the improvement. (3-15-02)
d. If the residential improvement is the primary dwelling of one (1) spouse but of neither the other spouse nor the child, the homeowner’s exemption applies to one-half (1/2) of the value of the improvement unless the residential improvement of the other spouse has previously qualified for the homeowner’s exemption under the dual residency couple rules set out in Subsections 610.02 through 610.07. The one-half (1/2) qualification results from the statutory provision that a community property interest is not considered a partial interest of either spouse. See Paragraph 610.03.c. of this rule. (3-28-18)

e. If the residential improvement is the primary dwelling of one (1) spouse and the child, the homeowner’s exemption applies to the full value of the improvement unless the residential improvement of the other spouse has previously qualified for the homeowner’s exemption under the dual residency couple rules set out in Subsections 610.02 through 610.07. (3-15-02)

09. Determining the Qualifying Portion of a Multidwelling or Multipurpose Building and the Related Land. The portion of a Multidwelling or Multipurpose Building and Related Land used for the primary dwelling place of the owner qualifies for the homeowner’s exemption. When determining the value of the qualifying portion, the assessor shall include the Related Land value. (4-7-11)

611. VALUE OF RESIDENTIAL PROPERTY IN CERTAIN ZONED AREAS (RULE 611). Sections 63-602H, Idaho Code

01. Residential Property. Residential property that may qualify for the special valuation exemption provided in Section 63-602H, Idaho Code, may include land and residential improvements. Such property may be owner or non-owner occupied, but must have been in continuous residential use from the time zoning was changed to other than residential. If use of any portion of the property changes to other than residential, the property loses this exemption. (4-5-00)

02. Qualifying Residential Improvements. Qualifying residential improvements are those improvements categorized by the assessor as residential and not consisting of more than four (4) residential units within any qualifying structure. (4-5-00)

01. Motor Vehicle Defined. Motor vehicle means any vehicle as defined in Section 49-123(2), Idaho Code, and any recreational vehicle as defined in Section 49-119(6), Idaho Code, and any personal property permanently affixed to any of those vehicles. (3-28-18)

02. Exempt Motor Vehicles. Except as provided in Subsection 612.03 of this rule, any motor vehicle, as defined in Subsection 612.01 of this rule, registered for any part of the previous year under Chapter 4, Title 49, Idaho Code, is exempt from property taxation under Sections 49-401 and 63-602J, Idaho Code. (4-11-06)

03. Taxable Vehicles. The following registered or permitted vehicles are taxable and not eligible for the exemption under Sections 49-401 and 63-602J, Idaho Code.

   a. Any vehicle issued a permit in lieu of registration under Section 49-432, Idaho Code. (4-11-06)

   b. Any manufactured home registered under Section 49-422, Idaho Code. (4-11-06)

04. Exempt Permanently Affixed Personal Property. Except as provided in Subsection 612.05 of this rule, any personal property permanently affixed to any motor vehicle registered as described in Subsection 612.02 of this rule is part of that vehicle. Hence, that permanently affixed personal property is exempt from property taxation under Section 63-602J, Idaho Code. (4-11-06)

05. Taxable Personal Property. The following personal property, not otherwise exempt under Chapter 6, Title 63, Idaho Code, is taxable and not eligible for the exemption under Section 63-602J, Idaho Code. (4-11-06)
a. Any personal property on, but not permanently affixed to, any motor vehicle registered as
described in Subsection 612.02 of this rule. (4-11-06)

b. Any personal property on or affixed, permanently or otherwise, to any vehicle issued a permit in
lieu of registration under Section 49-432, Idaho Code. (4-11-06)

c. Any personal property on or affixed, permanently or otherwise, to any utility trailer registered
under Section 49-402A, Idaho Code. (4-11-06)

06. Recreational Vehicles. The owner of a recreational vehicle, as defined in Section 49-119(6), Idaho
Code, must pay a recreational vehicle annual license fee as authorized by Section 49-445, Idaho Code, and as
computed in accordance with Rule 020 of these rules in order to be exempt under Section 63-602J, Idaho Code.
(3-28-18)

a. Recreational vehicles that qualify for licensing and registration and have paid the required
registration fee by August 31 each year are eligible for the exemption provided in Section 63-602J, Idaho Code. The
owners of recreational vehicles that do not qualify or have not paid the fee must be sent a valuation assessment notice
for the recreational vehicle after the August 31 deadline. The assessment of the recreational vehicle is subject to
cancellation as provided in Rule 020, provided any applicable registration fee is paid before the fourth Monday of
November. (3-28-18)

b. The provisions of Paragraph 612.06.a. of this rule apply to a park model recreational vehicle unless
it is determined by the assessor to:
   i. Be permanently attached to a foundation; or (3-28-18)
   ii. Have an attached building addition; or (3-28-18)
   iii. Have been substantially modified and no longer meet the definition of a park model recreational
        vehicle. (3-28-18)

07. Taxable Real Property Associated with Vehicles. Associated property, other than the vehicle
itself, is taxable unless another exemption applies. Examples include the land on which the vehicle is located, fences,
buildings, and appurtenances. Such property may be eligible for the exemption provided in Section 63-602J, Idaho
Code, regardless of whether the vehicle is exempt as provided in Section 63-602J, Idaho Code. (3-28-18)

613. PROPERTY EXEMPT FROM TAXATION -- SPECULATIVE PORTION OF VALUE OF
AGRICULTURAL LAND (RULE 613).
Section 63-602K, Idaho Code

01. Definitions. (4-5-00)

a. Taxable Value of Agricultural Land. The taxable value of agricultural land shall be the landlord’s
share of net income per acre, capitalized by the annual rate required by Section 63-602K, Idaho Code, plus a
component for the local tax rate. The component for local taxes achieves the necessary allowance for the expense of
property taxes. (4-5-00)

b. Speculative Portion. The speculative portion is the difference between the current market value and
the taxable value of agricultural land. The market value of agricultural land is established from market sales of similar
land. (4-5-00)

c. Economic Rent. Economic rent is the average gross income per acre received by a landlord from
either a cash rent or crop share rental agreement. The rent attributable to exempt irrigation equipment is not included
in economic rent. Only the rent solely attributable to the agricultural land is included in economic rent. (4-7-11)

d. Net Income. Net income is determined by deducting the landlord’s share of current expenses from
economic rent per acre. (4-5-00)
02. **Calculation of Net Income from Cash Rent.** Net Income from cash rent is calculated in the following manner. (4-5-00)
   a. Crops Grown. Determine the crops typically grown in the area. (4-5-00)
   b. Economic Rent. Determine the average per acre gross income from individual crop rents typical to the area over the immediate past five (5) years. (4-5-00)
   c. Landlord’s Expenses. Determine the landlord’s share of typical contracted expenses paid in the immediately preceding growing season. (4-5-00)
   d. Landlord’s Net Income. Subtract the landlord’s share of typical contracted expenses from the average gross income per acre for the immediately preceding growing season to determine net income. (4-5-00)

03. **Calculation of Net Income from Crop Share Rent.** Net income from crop share rent is calculated in the following manner. (4-5-00)
   a. Crops Grown. Determine the crops typically grown in the area. (4-5-00)
   b. Average Crop Production. Determine average crop production per acre based on the most recent five (5) years. (4-5-00)
   c. Average Commodity Prices. Determine average commodity prices based on the most recent five (5) years. (4-5-00)
   d. Gross Income. Multiply average crop production per acre times the average commodity price to determine gross income per acre. (4-5-00)
   e. Landlord’s Share of Gross Income. Determine the landlord’s share of gross income per acre from a crop rotation typical to the area. (4-5-00)
   f. Expenses. Determine the landlord’s share of water, fertilizer, chemical, seed and harvest cost per acre for the immediately preceding growing season. (4-5-00)
   g. Net Income. Subtract the landlord’s share of expenses from the landlord’s share of gross income to determine net income. (4-5-00)

04. **Determination of Five Year Average Crop Prices.** The State Tax Commission shall determine five (5) year average crop prices to be used in determining net income by surveying publicly available data from various sources, including the annual crop summary published by the Idaho Agricultural Statistics Service. Average crop prices determined in this manner by the State Tax Commission should be considered guidelines subject to modification based on local market data. (4-6-05)

05. **Farm Credit System Interest Rate.** Annually, the State Tax Commission shall calculate the five (5) year rolling average Farm Credit System interest rate (FSCIR). Using the twenty (20) year fixed rate interest rates received bi-monthly from Northwest Farm Credit Services in Spokane, Washington, calculate the average Farm Credit System interest rate for the prior year applying the formula in Paragraph 613.05.a. of this rule. Calculate the five (5) year rolling average Farm Credit System interest rate applying the formula in Paragraph 613.05.b. of this rule. (3-30-07)

   a. Formula for Calculating Average Farm Credit System Interest Rate for Prior Year. FCSIR5 = (R1 + R2 + R3 + R4 + R5 + R6 + R7 + R8 + R9 + R10 + R11 + R12)/12.

   | FCSIR5 | is the average Farm Credit System interest rate for the prior year. |
b. Formula for Calculating Five (5) Year Rolling Average Farm Credit System Interest Rate. FCSIR = \((FCSIR_1 + FCSIR_2 + FCSIR_3 + FCSIR_4 + FCSIR_5)/5\).

<table>
<thead>
<tr>
<th>FCSIR_5</th>
<th>is the average Farm Credit System interest rate for the prior year.</th>
</tr>
</thead>
<tbody>
<tr>
<td>FCSIR_4</td>
<td>is the average Farm Credit System interest rate for two (2) years ago.</td>
</tr>
<tr>
<td>FCSIR_3</td>
<td>is the average Farm Credit System interest rate for three (3) years ago.</td>
</tr>
<tr>
<td>FCSIR_2</td>
<td>is the average Farm Credit System interest rate for four (4) years ago.</td>
</tr>
<tr>
<td>FCSIR_1</td>
<td>is the average Farm Credit System interest rate for five (5) years ago.</td>
</tr>
</tbody>
</table>
06. **Notification.** In addition to providing notification of the Farm Credit System interest rate, the State Tax Commission will annually notify each county assessor of the most recent five (5) year average crop prices for the state.

07. **Cross Reference.** For agricultural land taxable value calculation examples, see Rule 614 of these rules. For eligibility criteria, see Rule 645 of these rules. For information relating to Christmas tree farms, other annual forest products, and yield tax, see Rule 968 of these rules.

614. **SPECULATIVE PORTION OF VALUE OF AGRICULTURAL LAND - EXAMPLES (RULE 614).** Sections 63-602K and 63-604, Idaho Code. The following examples show calculations for the taxable value of agricultural land. The example in Subsection 614.01 of this rule shows one (1) calculation of an average property tax rate, the example in Subsection 614.02 of this rule shows one (1) calculation of a capitalization rate (cap rate), the example in Subsection 614.03 of this rule shows calculations using cash rent agreements, and the example in Subsection 614.04 of this rule shows calculations using crop share agreements. The choice to use cash rent or crop share analysis in determining the taxable value of agricultural land should be predicated on the quantity and quality of data available and the analysis that produces the most reliable and supportable value conclusion.

01. **Average Property Tax Rate Calculation Example.**

(4-7-11)

05. Cross Reference. For definitions and general principles relating to the taxable value of land actively devoted to agriculture, see Rule 613 of these rules. For eligibility criteria, see Rule 645 of these rules. For information relating to Christmas tree farms, other annual forest products, and yield tax, see Rule 968 of these rules. (3-30-07)

615. PROPERTY EXEMPT FROM TAXATION - CERTAIN INTANGIBLE PERSONAL PROPERTY (RULE 615).
Section 63-602L, Idaho Code

01. Definitions. The following definitions apply to the exemption for certain intangible personal property. (1-1-99)

a. Contracts and contract rights. Contracts and contract rights are enforceable agreements, which establish mutual rights and responsibilities, and rights created under such agreements. Contracts and contract rights do not include tax credits received by low-income housing properties under Section 42 of the Internal Revenue Code. (3-30-07)

b. Copyrights. Copyrights are rights granted to the author or originator of literary or artistic productions, by which he or she is invested with the sole and exclusive privilege of making, publishing or selling copies for a specified time. (1-1-99)

c. Custom computer programs. Custom computer programs means those programs defined in Section 63-3616, Idaho Code. (1-1-99)

d. Customer lists. Customer lists are proprietary lists containing information about a business enterprise’s customers. (1-1-99)
e. Franchises. Franchises are special privileges. (1-1-99)

f. Goodwill. Goodwill is the expectation of continued public patronage of a business. Goodwill is the ability of a business to generate income in excess of a normal rate due to such things as superior managerial skills, superior market position, favorable community and customer reputation and high employee morale. (1-1-99)

g. Licenses. Licenses are permissions to do acts, which are not allowed without such permissions. (1-1-99)

h. Method A. Method A is the method by which the value of exempt intangible personal property is excluded from the value of operating property by subtracting the market value of exempt intangible personal property from the market value of the operating property at the system level. (1-1-99)

i. Method B. Method B is the method by which the value of exempt intangible personal property is excluded from the value of operating property by subtracting the market value of exempt intangible personal property from the market value of the operating property at the state level. (1-1-99)

j. Method C. Method C is the method by which the value of exempt intangible personal property is excluded from the value of operating property by using valuation models which value only the non-exempt assets. (1-1-99)

k. Patents. Patents are grants from the government conveying and securing the exclusive right to make, use and sell inventions. (1-1-99)

l. Rights-of-way which are possessory only and not accompanied by title. Rights-of-way, which are possessory only and not accompanied by title, are easements by which grantees acquire only the rights to pass over or to access for installation or maintenance, without acquiring exclusive use of the rights-of-way. (1-1-99)

m. Trademarks. Trademarks are marks of authenticity, through which products of particular manufacturers or vendible commodities of particular merchants may be distinguished from those of others. (1-1-99)

n. Trade secrets. Trade secrets are formulas, patterns, compilations, programs, devices, methods, techniques or processes, deriving independent economic values from not being generally known by other persons who can obtain economic values from disclosure or use. Trade secrets are the subjects of efforts that are reasonable to maintain secrecy. (1-1-99)

02. Tangible Property Value Not Affected by Intangible Personal Property Value. The values of the exempt intangible personal properties shall not affect the values of any tangible properties or the value of the attributes of any tangible properties, regardless of the role of the intangible personal properties in the use of the tangible properties. The exempt values shall not include any values attributable to availability of a skilled work force, condition of surrounding property, geographic features, location, rights-of-way, accompanied by title, view, zoning, and attributes or characteristics of real properties. (1-1-99)

03. Operating Property Election, Reporting and Methods. The following apply to operating property for the identification of valuation methods to be used by the State Tax Commission, election of Method A, Method B or Method C by the property owners, reporting by owners and valuation using Method C. (1-1-99)

a. Identification of valuation methods. When the State Tax Commission mails the blank Operators’ Statements to the property owners, the State Tax Commission shall identify proposed changes in valuation methods compared to those relied on in the prior year. (1-1-99)

b. Election default. In the event of default of the taxpayer to make an election, the State Tax Commission shall use the method proposed in the notice accompanying the Operator’s Statement. (1-1-99)

c. Election of exclusion method. When submitting the Operator’s Statement, the owner has the right to elect the method for exclusion of the values of the exempt intangible personal properties from the operating
property value. (1-1-99)

d. Amending Election. An owner may amend the elected method if written notice is received at least seven (7) business days prior to a hearing under Rule 407 of these rules. (1-1-99)

e. Reporting. The State Tax Commission shall consider the value and supporting data provided by the owners. If no supporting intangibles valuation information is provided by the owners, known exempt intangible personal property will be subtracted or will not be impounded in the value. (1-1-99)

f. Valuation using Method C. When the owner elects Method C, the State Tax Commission shall give primary consideration to the cost less depreciation model, without regulatory adjustment, in valuing tangible personal property and non-exempt intangible personal property. Only if this model fails to produce market value of the tangible personal property and nonexempt intangible personal property, shall the State Tax Commission consider other appropriate valuation models. (1-1-99)

04. Personal Property Reporting for Locally Assessed Property. The exemption for custom software, contracts and contract rights shall be claimed by scheduling such property on the owner’s personal property declaration form. (1-1-99)

05. Cross Reference. For clarification of contracts and contracts rights, see Brandon Bay, Ltd. Partnership v. Payette County, 142 Idaho 681, 132 P.3d 438 (2006). (3-30-07)

616. -- 617. (RESERVED)

618. COMPUTATION OF THE IDAHO IRRIGATION EXEMPTION (RULE 618).
Section 63-602N, Idaho Code

01. Production and Delivery Ratio. This ratio is computed by comparing the Idaho investment in production and delivery property to the investment for all Idaho unitary property. The resulting ratio shall be known as the production and delivery ratio. (4-5-95)

02. Idaho Production and Delivery Value. This is computed by multiplying the allocated Idaho unitary value, before any exemptions, by the production and delivery ratio. (4-5-95)

03. Irrigation Use Ratio. This ratio is computed by comparing Idaho irrigation revenue to the total Idaho revenue from unitary operations. The resulting ratio shall be known as the irrigation use ratio. (4-5-95)

04. Idaho Irrigation Exemption. This is computed by multiplying the Idaho production and delivery value by the irrigation use ratio. (4-5-95)

619. PROPERTY EXEMPT FROM TAXATION -- FACILITIES FOR WATER OR AIR POLLUTION CONTROL (RULE 619).
Section 63-602P, Idaho Code

01. Exempt Property. Only those portions of installations, facilities, machinery, or equipment which are devoted exclusively to elimination, control, or prevention of water or air pollution are exempt. The owner of the property shall annually apply for exemption. (4-4-13)

02. Calculation of Partial Exemption. The exemption shall not include the percentage of the value for any portion of the facility which is used for the production of marketable by-products. The exempted value is the difference between the market value of the pollution control facilities and the present value of the net income from the sale of by-products. Net income shall be determined by subtracting the expenses of sale, raw materials required to produce by-products, and transportation to F.O.B. point from gross sales of recovered by-product.

For example:
The industry capitalization rate is 10%.
The purchase price of scrubber is $1 million with a 20 year life.

**1st Year, Calculation of Exemption;**

<table>
<thead>
<tr>
<th>Component</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gross sales of precipitate</td>
<td>$11,000/yr</td>

Indirect costs associated with operating the scrubber such as power, maintenance, etc., are not to be deducted from gross sales to reach net income.

03. **Ineligibility.** Landfills, toxic waste dumps, or storage facilities deriving revenue from processing or storing pollution or pollution by-products generated by other persons or businesses are ineligible for this exemption.

04. **Filing Procedure.** Application for exemption shall be made in the following manner:

   a. The property owner may obtain the application form issued by the State Tax Commission from the county assessor or the State Tax Commission.

   b. The property owner completes the application to report an itemized listing of all installations, facilities, machines or equipment qualifying for exemption. Each component part of the system must be identified by a brief description (e.g., Dust Collector), the date of original acquisition, dollar amount of the original cost, and the percentage of the component devoted exclusively to pollution control. The application must be signed by the owner or duly authorized agent. Lack of required information shall be grounds for denial.

   c. The completed application must be filed with the county commissioners by April 15 for locally assessed property or with the State Tax Commission by April 30 for centrally assessed property.

05. **Inspection.** The county or State Tax Commission representative may inspect the property or audit the owner’s records to identify components for which the exemption has been applied. Those components listed on the application must be identifiable as capital assets of the property.

06. **Exemption Reported on Abstracts.** For locally assessed property, exempt value shall be reported on the property abstracts.

07. **Exemption for Portion of Water Corporation Property.** A portion of water corporation property may be exempt from taxation.

   a. On or before April 30, each year, the State Tax Commission shall receive a notice from the Idaho Public Utilities Commission listing the value of the investment percentage of the total plant of each water company that is devoted exclusively to the elimination, control, or prevention of water pollution or air pollution.

   b. In estimating the market value of the company for assessment purposes, the State Tax Commission will take into consideration the investment as certified by the Public Utilities Commission that such equipment bears to the total invested plant of the company.

   c. The State Tax Commission will notify the water company of the estimated market value, gross assessed value, and the amount of exemption allowed under Section 63-602P, Idaho Code, on or before July 15.
d. Any person or party wishing to contest the percentage of exemption reported to the State Tax Commission by the Public Utilities Commission may submit a written request for a public hearing to the State Tax Commission by August 1 of the current tax year. The request for a hearing shall state the petitioner’s grounds for contesting the percentage reported by the Public Utilities Commission. On or before the second Monday of August the State Tax Commission shall notify the petitioner of the hearing time and place.

620. EXEMPTION FOR NEVER OCCUPIED RESIDENTIAL IMPROVEMENTS (RULE 620).
Section 63-602W, Idaho Code

01. Qualifying Residential Improvements. Improvements to any land parcel that are residential and have never been occupied for residential purposes may qualify for the exemption pursuant to Section 63-602W, Idaho Code. This rule is effective January 1, 1998. Such qualifying improvements can include the following:

a. Single family residences, residential townhouses, and residential condominiums; and

b. Attached or unattached ancillary structures which are not intended for commercial use and are constructed contemporaneously with the improvements identified in Paragraph 620.01.a. Such structures may include sheds, fences, swimming pools, garages, and other similar improvements, subject to the limitations of Subsection 620.02.

02. Non-Qualifying Improvements. Never previously occupied residential improvements listed in the following Subsections do not qualify for this exemption.

a. Location. Ancillary structures (see Paragraph 620.01.b.) that are not located on the parcel on which the improvement is located, identified in Subsection 620.01.a. of this rule, shall not qualify for the exemption provided pursuant to Section 63-602W, Idaho Code.

b. Remodeled improvements. Remodeling of previously occupied residential improvements does not qualify for the exemption.

c. Improvements included in land value. Improvements included in land value, such as septic tanks, wells, improvements designed to provide utility services or access, and other similar improvements shall not qualify for the exemption.

621. -- 624. (RESERVED)

625. HOMEOWNERS EXEMPTION ON OCCUPANCY TAX ROLL (RULE 625).
Sections 63-317 and 63-602G, Idaho Code

01. Eligibility for Multiple Exemptions. Obtaining the exemption in Section 63-602G, Idaho Code, will not preclude a property owner from eligibility for the exemption granted by Section 63-317, Idaho Code. More than one (1) property may be eligible for this exemption provided that ownership and occupancy of the properties occurs at different times during the year and application is made on the owner's primary residence.

02. Separate Applications. The application for this exemption may substitute for the application required by Section 63-602G, Idaho Code.

626. PROPERTY EXEMPT FROM TAXATION -- CERTAIN PERSONAL PROPERTY (RULE 626).
Sections 63-105(A), 63-201, 63-302, 63-308, 63-313, 63-602Y, and 63-602KK, Idaho Code

01. Locally Assessed Property - Application Required.

a. The taxpayer must file one (1) or more of the lists of taxable personal property as required by Section 63-302, Section 63-313, or Section 63-602Y, Idaho Code if the total market value of the property to be listed is greater than one hundred thousand dollars ($100,000). The filing of said list(s) shall constitute the filing of an
For purposes of reporting personal property, the value is to be based on market value, not book value. (3-20-14)

b. Taxpayers establishing initial eligibility for the exemption provided in Section 63-602KK(2), Idaho Code, may in lieu of a list, file only an application attesting to ownership of otherwise taxable personal property having a cost of one hundred thousand dollars ($100,000) or less. In providing such cost, newly acquired personal property items acquired at a price of three thousand dollars ($3,000) or less, that are exempt pursuant to Section 63-602KK(1), Idaho Code, shall not be included. The application must be filed no later than April 15th of the first year for which the exemption is claimed. (3-20-14)

02. Locally Assessed Property - Taxpayers’ Election of Property Location. (3-20-14)

a. Multiple Locations Within A County. In cases where the taxpayer has personal property located in multiple places within the county, the taxpayer may elect the location of the property to which the exemption will apply by filing the “Idaho Personal Property Exemption Location Application Form” available from the State Tax Commission (Commission) for this purpose. To make the election for property required to otherwise be listed as provided in Section 63-302, Idaho Code, the form must be filed with the county assessor by April 15. For taxpayers with personal property required to be listed as provided in Sections 63-602Y and 63-313, Idaho Code, any application specifying the location of the property to which the exemption provided for in Section 63-602KK(2) will apply, must be filed by the dates specified for filing the lists required by these Sections. Should the taxpayer not make an election as to where to apply the exemption, the county shall have discretion regarding the property to which the exemption shall apply. However, to the extent possible and assuming the assessor is not aware of any changes in eligibility, the exemption will be first applied to the same property to which it applied in the immediate prior year. (3-20-14)

b. Multiple locations in different counties. The one hundred thousand dollar ($100,000) limit on the exemption applies to a taxpayer’s otherwise taxable personal property within any county. If the taxpayer owns qualifying personal property in more than one county, the limit is one hundred thousand dollars ($100,000) in market value per county. (3-20-14)

03. Centrally Assessed Property - Application Required. (3-20-14)

a. Except for private railcar fleets, the taxpayer may file a list of personal property located in Idaho with the operator’s statement filed pursuant to Rule 404 of these rules. The filing of such a list shall constitute the filing of an application for this exemption. Except as provided in Subsections 626.03.b. and 03.c. of this rule, for such personal property to be considered for the exemption, the operator’s statement must include: (3-25-16)

i. A description of the personal property located in Idaho; (3-25-16)

ii. Cost and depreciated cost of the personal property located in Idaho. (3-25-16)

b. For private railcar fleets subject to assessment by the Commission, the Idaho taxable value shall be reduced by subtracting the lesser of the Idaho taxable value before the exemption or the product of one hundred thousand dollars ($100,000) times the number of counties in Idaho in which the fleet operates. Provided that the remaining taxable value is five hundred thousand dollars ($500,000) or more, this value is to be apportioned to each taxing district and urban renewal revenue allocation area in accordance with procedures described in Rule 415 of these rules. (3-25-16)

c. After subtraction of the personal property exemption calculated as provided in Subsection 626.03.b. of this rule, for private railcar fleets subject to assessment by the Commission, and having an Idaho taxable market value of less than five hundred thousand dollars ($500,000), neither the final amount of the exemption nor the taxable value of the fleet shall be subject to apportionment, and the remaining taxable value shall be taxed as provided in Rule 415 of these rules. (3-25-16)

d. When operating property companies have locally assessed property, any exemption pursuant to Section 63-602KK(2), Idaho Code must be applied to the locally assessed property first. In this case, the county assessor must notify the Commission of the value of the exemption granted. If such exemption is entered on the
property roll, such notification must be made by the third Monday in July. The Commission will then reduce the amount of the exemption otherwise to be granted to the centrally assessed operating property of the company by the exemption value reported by the assessor. The Commission will notify the company of the reduction in exemption by the fourth Monday in July. This reduction will be made before determining the company’s Idaho taxable value. No additional exemption pursuant to Section 63-602KK(2), Idaho Code, will be granted for any locally assessed property of operating property companies. (3-25-16)

04. Valuation Assessment Notice. The valuation assessment notice required by Section 63-308, Idaho Code, must show the taxable market value before granting the exemption provided in Section 63-602KK(2), Idaho Code, the exempt market value pursuant to the exemption provided in Section 63-602KK(2), Idaho Code, and the net taxable market value of the personal property. After the year of initial eligibility, if the net taxable market value is zero, no valuation assessment notice is required. (4-11-15)

05. Correction of Personal Property Tax Replacement Amounts. If subsequent to finalization of the amount of replacement money to be paid to any county, an amount paid on behalf of any taxpayer is disapproved by the county, the county shall so notify the Commission, which shall adjust the payment to the county. The county may begin proceedings to recover any remaining excessive amounts paid on behalf of any taxpayer, pursuant to the recovery procedures found in Section 63-602KK(7), Idaho Code. (4-11-15)

06. Limitation on Eligibility for the Exemption. (3-20-14)

a. Except for taxpayers claiming and receiving the exemption provided for in Section 63-4502, Idaho Code, taxpayers receiving the personal property exemption provided in Section 63-602KK, Idaho Code, may be eligible for, and are not precluded from, other applicable exemptions. (3-20-14)

b. Personal property exempt in accordance with statutes other than Section 63-602KK, Idaho Code, shall not be included in determining when the one hundred thousand dollar ($100,000) limit provided in Section 63-602KK(2) is reached. (3-20-14)

c. Taxpayers with requirements to annually apply for, or list personal property for, which other statutorily provided personal property exemptions are sought, must continue to comply with the requirements of these statutes. (3-20-14)

d. Improvements, as defined or described in Sections 63-201 and 63-309, Idaho Code, shall not be eligible for the exemption provided in Section 63-602KK. Improvements shall be deemed to include mobile and manufactured homes and float homes, regardless of whether such property is considered personal property. Leasehold real properties and other leasehold improvements that are structures or buildings shall be considered improvements, and therefore ineligible for the exemption. Structures, such as cell towers, are improvements and therefore are not personal property eligible for the exemption. (3-20-14)

07. Special Rules for the Exemption Provided in Section 63-602KK(1), Idaho Code. (3-20-14)

a. Newly acquired items of personal property, exempt as provided in Section 63-602KK(1), are not to be reported on any list otherwise required pursuant to Sections 63-302, 63-602Y, and 63-313, Idaho Code. (3-20-14)

b. The exemption provided in Section 63-602KK(1), Idaho Code, is in addition to the one hundred thousand dollar ($100,000) per taxpayer, per county exemption provided in Section 63-602KK(2), Idaho Code. (3-20-14)

c. No application for the exemption provided in Section 63-602KK(1), Idaho Code, is necessary. (3-20-14)

d. The requirement in Section 63-602KK(6) requiring the assessor to provide the application by no later than March 1, applies only to taxpayers who have an obligation to file any application. (3-20-14)

08. Limitation on Replacement Money. (3-20-14)
In addition to replacement money reductions due to corrections as provided in Subsection 626.06 of this rule, there may be changes and reductions as follow:

i. If a taxing district dissolves, the state will make no payment of the amount previously certified for that district, and when an urban renewal district revenue allocation area dissolves and is no longer receiving any allocation of property tax revenues, the state will discontinue payment of amounts previously certified for that revenue allocation area, beginning with the next scheduled distribution.

ii. If taxing districts or revenue allocation areas within urban renewal districts are consolidated, the amounts of replacement money attributed to each original district or revenue allocation area shall be summed and, in the future, distributed to the consolidated taxing or urban renewal district.

iii. No urban renewal district shall receive replacement money based on exempt personal property within any revenue allocation area (RAA) established on or after January 1, 2013, or within any area added to an existing RAA on or after January 1, 2013.

iv. Any payment made to the Idaho Department of Education, as provided in Subsection 626.09 of this rule shall be discontinued if the state authorized plant facilities levy is not certified in any year. Certification in subsequent years shall not cause any resumption of this payment.

There shall be no adjustment to replacement money if personal property not receiving the exemption found in Section 63-602KK(2), Idaho Code, receives this exemption in the future.

The amount of replacement money calculated based on any 2013 state authorized plant facilities levy shall be remitted directly to the Idaho Department of Education for deposit to the Public School Cooperative Fund.

When personal property subject to the exemption in Section 63-602KK(2), Idaho Code, is within an RAA, any adjustment shall first be to the increment value, and there shall be no adjustment to the base value of the RAA unless the remaining taxable market value of the parcel is less than the most current base value of the parcel. In that case, the base value shall be reduced. The amount to be subtracted is to be determined on a parcel by parcel basis in accordance with procedures found in Rule 804 of these rules.

Beginning in 2014, taxing district values submitted to the Commission as required in Section 63-510, Idaho Code, shall not include or indicate the otherwise taxable value exempt pursuant to Section 63-602KK(2), Idaho Code.

For information on the definition of personal property see Rule 205 of these rules. For information on the definition of a taxpayer, see Rule 627 of these rules. For the purpose of this rule, “taxpayer” means the claimant of the exemption pursuant to section 63-602KK(2), Idaho Code, and must be a person, as that term is defined in Section 63-201, Idaho Code.

627. PROPERTY EXEMPT FROM TAXATION -- CERTAIN PERSONAL PROPERTY -- OWNERSHIP CLARIFICATION (RULE 627).
Section 63-602KK(2), Idaho Code

Idaho Code Section 63-602KK(2) Provides Persons With One Exemption in Each Idaho County in Which They Meet the Ownership Rules. Although persons are limited to receiving one (1) exemption per county, a person owning more than one (1) business within one (1) county may be entitled to more than one (1) exemption within the county.

Illustration of Common Enterprise and IRC Section 267 Restriction. For purposes of the Idaho Code Section 63-602KK(2) exemption, a person includes two (2) or more individuals or organizations using the property in a common enterprise, and the individuals or organizations are within a relationship described in Section 267 of the Internal Revenue Code. This is illustrated in the following chart:
a. First, an analysis must be made to determine if a common enterprise exists. If entities or individuals are organized to manage a common scheme of business, they would be in a common enterprise.

i. Horizontal Commonality is demonstrated by the following chart:

Here, the usual functions involved in a working car manufacturing company are split between several LLCs, all of which own the property involved with the functions they perform. The operation of the business is no different than if all the functions were combined in just Car Manufacturing, LLC.

ii. Vertical Commonality is demonstrated by the following chart:
b. Second, an analysis would be made to determine whether the ownership between the entities is within the relationships identified in Section 267 of the Internal Revenue Code. If such a relationship is found to exist, and the businesses are in a common enterprise, then the entities or individuals would be considered one (1) person for purposes of this exemption. (3-25-16)

c. Ownership alone does not determine whether entities are considered one (1) person for purposes of this exemption. Two (2) businesses can have identical ownership, and each receive the exemption, providing they do not operate as a common enterprise. In addition, entities in a common enterprise can receive separate exemptions, providing that their ownership does not consist of a relationship identified in Section 267 of the Internal Revenue Code. (3-25-16)

d. The following examples are given to illustrate eligibility situations related to common enterprise and related ownerships: (4-11-15)

i. Example 1. This is an example of a common enterprise, that is entitled to two (2) exemptions because the owners are not related in a manner as described in Section 267 of the Internal Revenue Code.
ii. Example 2. This is an example of the same owner with multiple businesses not all united in a common enterprise. Bob’s car businesses are common enterprises, and therefore entitled to only one (1) exemption for all the car businesses. Bob’s used furniture business is not involved with Bob’s car businesses, so Bob is entitled to an additional exemption related to his used car business.

iii. Example 3. This is an example of multiple businesses being entitled to only one (1) exemption because a common enterprise exists and all the businesses are constructively owned in a manner identified in IRC 267.
iv. Example 4. This is an example showing how owners of common enterprises may intersect.

(4-11-15)
This is an example of how common enterprises can intersect with one another. The companies Bob owns completely receive one exemption; John’s companies also receive one exemption, including Rock Crusher, LLC, because John’s ownership interest in that company falls within IRC 267.

(4-11-15)

e. In cases of partial ownership as noted in example four wherein Bob owns ten percent (10%) and Dump Trucks, LLC owns ninety percent (90%) only the majority owner is eligible to receive this exemption.

(4-11-15)

03. Cross Reference. For information on applying for the exemption provided in Section 63-602KK(2), Idaho Code, see Rule 626 of these rules.

(4-11-15)

628. PARTIAL EXEMPTION FOR REMEDIATED LAND (RULE 628).

01. Definitions. For the purpose of implementing the partial exemption for remediated land the following terms are defined.

a. Application for Partial Exemption. The “application for partial exemption” is the form, provided by the State Tax Commission, available from the State Tax Commission or the county assessor and used to apply for the exemption provided by Section 63-602BB, Idaho Code.

(7-1-98)

b. Certificate of Completion. The “certificate of completion” is the document issued by the Department of Environmental Quality after the successful completion of a voluntary remediation work plan pursuant to Section 39-7207(1), Idaho Code. The person receiving the “certificate of completion” shall record a copy of the “certificate of completion” with the deed for the “site” on which the remediation took place pursuant to Section 39-7207(2), Idaho Code.

(7-1-98)

c. Covenant Not to Sue. The “covenant not to sue” is the document issued by the Department of Environmental Quality pursuant to Section 39-7207(4), Idaho Code, upon request from a person receiving the “certificate of completion.”

(7-1-98)

d. Qualifying Owner. The “qualifying owner” is the entity identified as the owner on the deed to the property at the time the “certificate of completion” is issued by the Department of Environmental Quality.

(7-1-98)

e. Remediated Land. The “remediated land” is the “site” on which the remediation, as defined in Section 39-7203(7), Idaho Code, has been completed.

(7-1-98)

f. Remediated Land Value. The “remediated land value” is the market value for assessment purposes of the land on January 1 of the year following the issuance of the “certification of completion” (after remediation) less the market value for assessment purposes of the land on January 1 prior to the issuance of the “certification of completion” (before remediation).

(7-1-98)

g. Site. As defined in Section 39-7203(8), Idaho Code, a “site” is a parcel of real estate for which an application has been submitted under Section 39-7204, Idaho Code. The “site” shall be that parcel identified on the application as described in IDAPA 58.01.18, “Idaho Land Remediation Rules,” Subsection 020.02.c., including the assessor’s parcel numbers(s) and on the voluntary remediation work plan as described in IDAPA 58.01.18, Section 022.

(7-1-98)

02. Procedures to Qualify for the Exemption. The “qualifying owner,” or agent thereof, must complete the following procedures for the “site” to qualify for the exemption.

a. Obtain and complete the “application for partial exemption.”

(7-1-98)
b. Submit the “application for partial exemption” and copies of the “certificate of completion” and the “covenant not to sue” to the county assessor of the county in which the “site” is located. If the legal description of the “site” and a map identifying the location and size of facilities and relevant features is included in the information supporting the voluntary remediation work plan, pursuant to IDAPA 58.01.18, “Idaho Land Remediation Rules,” Subsection 022.03.a.i., a copy of this information shall be included with the “application for partial exemption.” (7-1-98)

c. File the “application for partial exemption” with the county assessor on or before March 15 of the year for which the exemption is claimed. The “application for partial exemption” must be filed only once, during the first year of seven (7) year exemption period. (7-1-98)

03. Calculation of the Exemption. The exemption is fifty percent (50%) of the “remediated land value.” This exempt value is constant throughout the term of the exemption. The amount of the exemption shall never exceed the current market value of the land. For example:

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land Value on January 1 (after remediation)</td>
<td>$200,000</td>
</tr>
<tr>
<td>Land Value on January 1 (before remediation)</td>
<td>-$125,000</td>
</tr>
<tr>
<td>Remediated Land Value</td>
<td>$75,000</td>
</tr>
<tr>
<td>Exemption Percent</td>
<td>x 50%</td>
</tr>
<tr>
<td>Exempt Value</td>
<td>$37,500</td>
</tr>
</tbody>
</table>

For the example cited, the value of thirty-seven thousand five hundred dollars ($37,500) would be the exempted value for each of the seven (7) years. (3-30-01)

04. Exempt Value Subject to Taxation. For any property eligible for the exemption provided by Section 63-602BB, Idaho Code, the exempt value will immediately be subject to taxation when any of the following events occur:

a. If the “covenant not to sue” is rescinded during any year the exemption is in effect, the exempt value will immediately be subject to taxation for the entire year. Pursuant to IDAPA 58.01.18, Subsection 025.02, the Department of Environmental Quality shall notify the assessor of the county in which the “site” is located that the “covenant not to sue” is rescinded. (3-30-01)

b. If the “site” is transferred to a new owner during any year in which the exemption is in effect, the exempt value will immediately be subject to taxation for the entire year. (7-1-98)

c. The seven (7) year exemption period expires. (3-30-01)

05. Sites Previously Granted the Exemption are Ineligible. No “site” shall be granted the exemption provided in this section if said “site” had been previously granted this exemption regardless of whether the entire seven (7) years of the exemption had been used. (3-30-01)

629. PROPERTY EXEMPT FROM TAXATION -- QUALIFIED EQUIPMENT UTILIZING POST CONSUMER OR POST INDUSTRIAL WASTE (RULE 629).
Section 63-602CC, Idaho Code

01. Qualified Personal Property. Only that qualified personal property, located in Idaho, which utilizes postconsumer waste or post industrial waste in the production of a “product,” shall be exempt from taxation as personal property. The owner of the equipment shall, annually, petition the assessor for exemption. (7-1-97)

02. Application. The exemption shall be allowed only if the owner files the form prescribed by the State Tax Commission, which reports for the previous calendar year, the actual time each piece of qualified equipment is in use in the production of qualified “product” and non-qualified “product.” (7-1-97)
03. **Exempt Petition’s Definitions.** Petition for exemption shall be filed in the following manner:

- **a.** Forms. Declaration forms for the reporting of personal property qualifying for exemption may be obtained from the county assessor or State Tax Commission.
- **b.** Declaration - qualified equipment. The declaration shall contain an itemized listing of all machinery or equipment qualifying for exemption. Each component part of the system must be identified by a brief description, the date of purchase and original cost, and the percentage of production time the component is devoted exclusively to the production of “product.” The petition must be signed by the owner or duly authorized agent. Lack of required information shall be grounds for denial.
- **c.** Declaration - non-qualifying equipment. The declaration shall contain an itemized listing of all non-qualifying machinery or equipment used in the production of “product.” This declaration shall list all non-qualifying taxable personal property as described in Section 63-302, Idaho Code.
- **d.** Timing. The completed declarations must be filed with the county assessor by March 15th of each year.
- **e.** Inspection. The county or State Tax Commission representative may inspect the property or the owner’s records to identify components petitioned for exemption. Those components listed on the declaration must be identifiable as qualifying personal property assets of the claimant.

630. **TAX EXEMPTION FOR NEW CAPITAL INVESTMENTS (RULE 630).**

Section 63-4502, Idaho Code

- **01.** **Notification of New Capital Investment – Locally Assessed Property.**
  - **a.** Prior to receiving the benefit of the tax exemption, the taxpayer shall notify the county in which the project site is located that the taxpayer expects to meet the criteria of the New Capital Investments Tax exemption. Notification shall be accomplished by submitting a written declaration or notification with the board of county commissioners containing the following information:
    - **i.** The name and address of the taxpayer;
    - **ii.** A description of the new capital investment project;
    - **iii.** The assessor’s parcel number(s) identifying the location of the project site;
    - **iv.** The date that the qualifying period began;
    - **v.** A statement that the taxpayer will make a qualified new capital investment of at least one billion dollars ($1,000,000,000) within the qualifying period, which shall be specified.
  - **b.** The notification required hereunder may be submitted by the taxpayer to the board of county commissioners at any time after the qualifying period begins. However, if the notification is submitted after April 15 in a given year, a taxpayer may receive the benefit of the exemption only for tax years following the year in which the notification is filed. Submittal of the notification required hereunder shall constitute application for the exemption in compliance with Section 63-602, Idaho Code. Until the taxpayer meets all the requirements for the New Capital Investments Tax exemption, for each year after the first year in which the exemption is granted, the notice must identify the name and address of the taxpayer and the location of the project site, but does not need to provide additional information as required in Paragraph 630.01.a. of this rule.

- **02.** **Notification of New Capital Investment – Centrally Assessed Operating Property.** For taxpayers applying for the exemption for operating property subject to assessment by the State Tax Commission, the taxpayer shall provide notice to the State Tax Commission no later than April 30 of the first year the exemption is sought, as part of the operator’s statement required pursuant to Section 63-404, Idaho Code, and Rule 404 of these
rules, that the taxpayer expects to meet the criteria of the New Capital Investments Tax exemption. (3-26-19)

a. To be eligible for the exemption, information to be provided on the operator’s statement must include:

i. A description of the new capital investment project; (3-26-19)

ii. The location of the project site, including county and tax code area(s); (3-26-19)

iii. The date that the qualifying period began; (3-26-19)

iv. A statement that the taxpayer will make a qualified new capital investment of at least one billion dollars ($1,000,000,000) within the qualifying period, which shall be specified. (3-26-19)

b. The notification required hereunder may be submitted by the taxpayer to the State Tax Commission at any time after the qualifying period begins. However, if the notification is submitted after April 30 in a given year, a taxpayer may receive the benefit of the exemption only for tax years following the year in which the notification is filed. Submittal of the operator’s statement including notification information required hereunder shall constitute application for the exemption in compliance with Section 63-602, Idaho Code. Until the taxpayer meets all the requirements for the New Capital Investments Tax exemption, for each year after the first year in which the exemption is granted, the notice must identify the location of the project site, but does not need to provide additional information as required in Paragraph 630.02.a. of this rule. (3-26-19)

03. Notification of New Capital Investment – Taxpayers Applying on Behalf of both Locally and Centrally Assessed Property. A taxpayer may apply for this exemption on behalf of both locally and centrally assessed property located in the same county. (3-26-19)

a. The taxpayer must comply with notice requirements in Subsection 630.01 of this rule for locally assessed property and for centrally assessed property the April 30 filing deadline found in Paragraph 630.02.b. of this rule shall apply. (3-26-19)

b. Once the taxpayer notifies the State Tax Commission as provided in Subsection 630.02 of this rule, the State Tax Commission will notify the county commissioners and county assessor by the second Monday in May of the taxpayer’s new capital investment project property to be locally assessed and of the taxpayer’s filing an application for the exemption. By the later of the fourth Monday in July or the conclusion of the county board of equalization, as provided in Section 63-501, Idaho Code, the county clerk must provide to the State Tax Commission a statement of the equalized assessed value of the taxpayer’s locally assessed property. (3-26-19)

c. The exemption will be granted by the State Tax Commission, which will notify the county commissioners and taxpayer by the first Monday in September of the amount of the exemption and the remaining taxable value of the centrally assessed operating property of the taxpayer. This remaining value is to be calculated so that the sum of the centrally and locally assessed property of the taxpayer in the county in which the exemption is being granted does not exceed four hundred million dollars ($400,000,000). (3-26-19)

d. The exemption will apply to the combined total value of the locally and centrally assessed property of the taxpayer within the county in which the project site is located. For continuation of the exemption for both locally and centrally assessed property, Subsections 630.07 and 630.08 of this rule shall apply, and, upon satisfaction of the requirements therein, the State Tax Commission shall notify the county of the continuing exemption. (3-26-19)

04. Property of the Taxpayer. Property of a taxpayer includes all real, personal, or operating property that is owned by or leased to the taxpayer under an agreement that makes the taxpayer responsible for the payment of any property taxes on the property. (3-26-19)

05. New Construction. Property taxable under Section 63-4502, Idaho Code and that qualifies for listing on the new construction roll as described by Section 63-301(A)3, Idaho Code, should be listed on the new construction roll. (3-29-12)
06. Failure to Make the Qualifying New Capital Investment. (4-4-13)

a. If the taxpayer fails to make the qualifying new capital investment during the qualifying period, the property shall lose the exemption granted by this section at the conclusion of the qualifying period. (4-4-13)

b. In the event that, at any time during the qualifying period, the taxpayer receiving the exemption for locally assessed property no longer intends to fulfill the qualified new capital investment requirements, the taxpayer must notify the county commissioners who shall notify the county assessor. Upon receipt of such notification, the property previously granted the exemption shall become taxable for the remainder of the year in which the notification is provided, pursuant to Section 63-602Y, Idaho Code. Failure of the taxpayer to provide such notice does not prevent the county assessor from discovering the taxpayer’s intent through alternate procedures and then notifying the county commissioners that the requirements for the exemption are no longer met. In such an instance, the taxpayer must be notified and may appeal loss of the exemption to the county board of equalization as provided in Section 63-501A, Idaho Code. (3-26-19)

c. In the event that, at any time during the qualifying period, the taxpayer receiving the exemption for operating property no longer intends to fulfill the qualified new capital investment requirements, the taxpayer must notify the State Tax Commission. Upon receipt of such notification, the property previously granted the exemption shall become taxable. If the notification is received before the State Tax Commission has completed the assessment of the operating property for a given year, the exemption shall not be granted for that year. If the notification is received after the assessment is completed, the exemption shall be rescinded beginning the following tax year. If the taxpayer owns centrally and locally assessed property, the tax commission will also notify the county commissioners and assessor of the rescinding of the exemption. (3-26-19)

07. Continuation of Tax Exemption Following the End of the Qualifying Period – Locally Assessed Property. (3-26-19)

a. At any time during the qualifying period, but not later than ninety (90) days after the conclusion of the qualifying period, the taxpayer must provide notice to the county commissioners with sufficient evidence to prove that the required qualifying new capital investment has been made. (4-4-13)

b. Once the taxpayer has successfully met all the requirements pursuant to Section 63-4502, Idaho Code, and provided notice to the county commissioners pursuant to Paragraph 630.07.a. of this rule, the county commissioners shall notify the county assessor and taxpayer of the taxpayer’s continuing qualification for the exemption for all years thereafter. The county assessor shall retain this notice. (3-26-19)

c. After the year in which the taxpayer has been notified of continuing qualification as provided in Paragraph 630.07.b. of this rule, the taxpayer must continue to notify the county annually to identify the property to be exempted pursuant to Subsection 630.07. Failure to make such notification will not invalidate the exemption; the county assessor must then apply the exemption against the assessed value of the taxpayer’s highest value parcel within the county. (3-26-19)

08. Continuation of Tax Exemption Following the End of the Qualifying Period – Centrally Assessed Operating Property. (3-26-19)

a. At any time during the qualifying period after the requirements for this exemption have been met, but not later than ninety (90) days after the conclusion of the qualifying period, the taxpayer must provide notice to the State Tax Commission with sufficient evidence to prove that the required qualifying new capital investment has been made. (3-26-19)

b. Once the taxpayer has successfully met all the requirements pursuant to Section 63-4502, Idaho Code, and provided notice to the State Tax Commission pursuant to Paragraph 630.08.a. of this rule, the State Tax Commission shall notify the taxpayer that the exemption will continue to be granted in perpetuity, and shall notify the taxpayer annually prior to the due date for the operator’s statement that they must identify the property qualifying for the exemption in these statements. Failure to provide either notification will not invalidate the exemption; the State Tax Commission must then apply the exemption against the assessed value of the taxpayer’s operating property within the county. Centrally assessed taxable property otherwise permitted to be included on the new construction roll
will be reported to the county assessor for inclusion on the next available new construction roll. (3-26-19)

09. Cross Reference. For an explanation of the treatment of new construction relating to Sections 63-802 and 63-301A, Idaho Code, see Rule 802 of these rules. (3-29-12)

631. TAX EXEMPTION FOR INVESTMENT IN NEW OR EXISTING PLANT AND BUILDING FACILITIES UPON COUNTY COMMISSIONERS’ APPROVAL (RULE 631).
Section 63-602NN, Idaho Code

01. The Investment in Plant. In order to qualify for this exemption a taxpayer must invest at least the minimum required investment as established by county ordinance in new or existing plant or building facilities excluding the investment in land. (3-28-18)

a. Ordinance to establish the minimum required investment. The county commissioners must pass an ordinance to establish any minimum required investment amount of not less than five hundred thousand dollars ($500,000). Once passed, any minimum so established shall remain in place until superseded by another ordinance. (3-28-18)

b. Frequency of ordinances to establish minimum required investment. Any ordinance establishing a minimum required investment must remain in effect during the tax year in which it is first in effect. After that tax year, the county commissioners may provide a different required investment amount by passing a new ordinance. However, any agreement entered into under minimum investment criteria established by prior ordinance will be effective for the duration of the exemption time period granted. (3-28-18)

02. The Exemption. The board of county commissioners may agree to exempt all or a portion of the value of non-retail commercial and industrial real property improvements and associated personal property that would otherwise be in excess of the base value for property designated as the defined project for a period of up to five (5) years. Real property improvements owned or leased, and personal property owned, by the taxpayer applying for the exemption may be granted the exemption. Land is not eligible to be included in this exemption. (3-28-18)

a. Base value. The base value is the taxable value, as found on the property roll, subsequent property roll, or missed property roll, of the property associated with the plant investment for the tax year immediately preceding the first year in which the exemption is to be granted. This includes the taxable value of existing buildings and personal property but not the taxable value of land. (3-28-18)

b. Site improvements. Site improvements, which may add value to land, but are not otherwise categorized as improvements for property tax purposes, are not eligible for this exemption. (3-28-18)

c. Mixed use properties. Non-retail portions of any mixed use building or structure otherwise used for commercial or industrial purposes may qualify. (3-28-18)

d. Application. Except as provided in Paragraph 631.02.f. with respect to occupancy tax, the taxpayer must make application by April 15 of the first year for which the exemption is sought. Such application must be made with the county commissioners who have complete discretion to accept or deny the application. (3-28-18)

e. Agreement for exemption. The agreement granting the exemption shall be considered a contract arrangement between the county and the taxpayer for the exemption time period as granted by the county commissioners, not to exceed five (5) years. The amount of exemption as provided by the agreement may be any amount related to taxable value added due to the investment, to the extent the property’s total taxable value before considering the exemption exceeds the base value and the increase in value is not associated with or due to an increase in land value. (3-28-18)

f. Occupancy tax. As provided in Section 63-602Z, Idaho Code, the exemption may apply to property subject to occupancy tax. Granting of the exemption from occupancy tax will not reduce the period during which the property tax exemption provided in Section 63-602NN, Idaho Code, may be granted. The April 15 application deadline is not applicable to exemption from occupancy tax, which may be granted any time during the year. (3-28-18)
03. Examples. The exemption applies only to plant or building facilities in which the required investment is to be made during the project period and that are located at the project site. The exemption may be applied to any value increases if these increases are directly attributable to the investment. See the following clarifying examples, all of which are based on the assumptions that the county has established five hundred thousand dollars ($500,000) as the required minimum amount of investment and the county enters into an agreement with the taxpayers for the period shown in the examples. (3-28-18)

a. A company chooses your community to tear down an existing facility and build a new manufacturing facility. Prior to the project, the base value is four million dollars ($4,000,000) which is comprised of the market value of the land three million dollars ($3,000,000) and the market value of the existing facility at one million dollars ($1,000,000), thus, the base value is one million dollars ($1,000,000). After construction, the land and facility have a taxable value of thirteen million dollars ($13,000,000), three million ($3,000,000) of which is the land value. Providing all conditions of the agreement have been met and the commissioners agreed to a full exemption, the exempt amount will be nine million dollars ($9,000,000). (3-28-18)

b. An existing company chooses to expand and build a new processing line. Prior to the project, the base value of the existing building and land is twelve million dollars ($12,000,000). After the expansion project is complete, the new processing line increased the value of the building and land to sixteen million dollars ($16,000,000), with all of the increase in value attributed to the building. Providing all conditions of the agreement have been met and the commissioners previously agreed to a full exemption, the exempt amount will be four million dollars ($4,000,000). No portion of the original taxable value of twelve million dollars ($12,000,000) can be granted this exemption. (3-28-18)

c. A company purchases an existing building and land which are valued at eight million dollars ($8,000,000). The company will purchase new equipment in the amount of three million dollars ($3,000,000). After the investment is made, the existing land, building and equipment are now valued at twelve million dollars ($12,000,000). The additional one million dollars ($1,000,000) in building value is attributed to the contributory value of the investment. The investment did not add value to the land. Providing all conditions of the agreement have been met and the commissioners agreed to a full exemption, the exempt amount will be four million dollars ($4,000,000). No portion of the original taxable value of eight million dollars ($8,000,000) can be granted this exemption. (3-28-18)

d. A company buys a building with a prior year’s value of one million dollars ($1,000,000). The company makes application to the county commissioners requesting a full exemption for the next five (5) years for any increases in value that are directly related to its plan to invest in the facility. An agreement is reached whereby the taxpayer will be granted a limited exemption for the increase in market value up to two million dollars ($2,000,000) for three years. In the first year, the company invests two million dollars ($2,000,000) in the facility and the market value of the building increases to two million five hundred thousand dollars ($2,500,000) (not all of the investment contributes to market value). Providing all conditions of the agreement have been met, the first year exempt amount will be one million five hundred thousand dollars ($1,500,000). In year two (2), the company invests an additional eight hundred thousand dollars ($800,000) and the value of the building increases to three million three hundred thousand dollars ($3,300,000). The exemption in year two (2) will be two million dollars ($2,000,000). This is the difference between the original base value of one million dollars ($1,000,000) and the current value in year two (2), but is limited by the agreed-upon two million dollar ($2,000,000) maximum. In year three (3), the company makes additional investments and the building value increases to four million dollars ($4,000,000). The exemption in year three (3) is limited to two million dollars ($2,000,000) as provided in the original agreement. Beginning in year four (4), there will be no exemption allowed under the original agreement. (3-28-18)

04. Cross Reference. See Rule 802 of these rules for instructions relating to the valuation of new construction. (5-8-09)

632. PROPERTY EXEMPT FROM TAXATION - OIL OR GAS RELATED WELLS (RULE 632).
Section 63-60200, Idaho Code

01. Definitions of Oil or Gas Well. (3-20-14)
a. Wells drilled for the production of oil, gas or hydrocarbon condensate may include the well, casing, and other structures permanently affixed inside the well, and the land inside the perimeter of the well. (3-20-14)

b. The well shall include the part where the gas producing stratum has been successfully cased off from any oil. (3-20-14)

02. Ineligible Land and Equipment.

a. Wellheads and gathering lines or any line extending above ground level shall not qualify. Equipment used for the extraction, storage, or transportation of oil, gas, or hydrocarbon condensate shall not qualify. (3-20-14)

b. Land, other than that used for the well as defined in Subsection 632.01 of these rules, shall not qualify. If the presence of the well increases the market value of nearby land, the assessed value of such land shall reflect the increase, unless the land qualifies independently for any other property tax exemption. (3-20-14)

633. -- 644. (RESERVED)

645. LAND ACTIVELY DEVOTED TO AGRICULTURE DEFINED (RULE 645).
Section 63-604, Idaho Code

01. Definitions. The following definitions apply for the implementation of the exemption for the speculative value portion of agricultural land. (7-1-99)

a. Homesite. The “homesite” is that portion of land, contiguous with but not qualifying as land actively devoted to agriculture, and the associated site improvements used for residential and farm homesite purposes. (7-1-99)

b. Associated Site Improvements. The “associated site improvements” include developed access, grading, sanitary facilities, water systems and utilities. (7-1-99)

c. Nursery Stock. Nursery stock is defined in Section 22-2302, Idaho Code. (3-15-02)

d. Land Used to Produce Nursery Stock. “Land used to produce nursery stock” means land used by an agricultural enterprise to promote or support the promotion of nursery stock growth or propagation, not land devoted primarily to selling nursery stock or related products. This term also includes land under any container used to grow or propagate nursery stock. This term does not include land used for parking lots or for buildings sites used primarily to sell nursery stock or related items or any areas not primarily used for the nurturing, growth or propagation of nursery stock. (3-15-02)

e. Speculative Value Exemption. The “speculative value exemption” is the exemption allowed on land actively devoted to agriculture. (7-1-99)

02. Homesite Assessment. Effective January 1, 1999, each homesite and residential and other improvements, located on the homesite, shall be assessed at market value each year. (7-1-99)

a. Accepted Assessment Procedures. Market value shall be determined through procedures, methods, and techniques recommended by nationally recognized appraisal and valuation associations, institutes, and societies and according to guidelines and publications approved by the State Tax Commission. Acceptable techniques include those that are either time tested in Idaho, mathematically correlated to market sales, endorsed by assessment organizations, or widely accepted by assessors in Idaho and other states. (7-1-99)

b. Appropriate Market and Comparable Selection. The appropriate market is the market most similar to the homesite and improvements located on the homesite. In applying the sales comparison approach, the appraiser should select comparables having actual or potential residential use. (7-1-99)

c. Assigning secondary category. List and report the secondary category for the homesite using the
Homesite Independent of Remaining Land. The value and classification of the homesite will be independent of the classification and valuation of the remaining land.

03. Valuing Land, Excluding the Homesite. The assessor shall value land, excluding the homesite, on the following basis:

a. Land Used for Personal Use or Pleasure. Any land, regardless of size, utilized for the grazing of animals kept primarily for personal use or pleasure and not a portion of a for profit enterprise, shall be valued at market value using appraisal procedures identified in Paragraph 645.02.a. of this rule and shall not qualify for the speculative value exemption.

b. Land in a Subdivision. Land in a subdivision with restrictions prohibiting agricultural use shall be valued at market value using appraisal procedures identified in Paragraph 645.02.a. of this rule and shall not qualify for the speculative value exemption. Land meeting the use qualifications identified in Section 63-604, Idaho Code, and in a subdivision without restrictions prohibiting agricultural use shall be valued as land actively devoted to agriculture using the same procedures as used for valuing land actively devoted to agriculture and not located in a subdivision.

c. Land, Five (5) Contiguous Acres or Less. Land of five (5) contiguous acres or less shall be presumed non-agricultural, shall be valued at market value using appraisal procedures identified in Paragraph 645.02.a of this rule, and shall not qualify for the speculative value exemption. If the owner produces evidence that each contiguous holding of land under the same ownership has been devoted to agricultural use for the last three (3) growing seasons and it agriculturally produced for sale or home consumption fifteen percent (15%) or more of the owner’s or lessee’s annual gross income or it produced gross revenue in the immediate preceding year of one thousand dollars ($1,000) or more, the land actively devoted to agriculture, shall qualify for the speculative value exemption. For holdings of five (5) contiguous acres or less gross income is measured by production of crops, nursery stock, grazing, or gross income from sale of livestock. Income shall be estimated from crop prices at harvest or nursery stock prices at time of sale. The use of the land and the income received in the prior year must be certified with the assessor by April 15, each year.

d. Land, More Than Five (5) Contiguous Acres. Land of more than five (5) contiguous acres under one (1) ownership, producing agricultural field crops, nursery stock, or grazing, or in a cropland retirement or rotation program, as part of a for profit enterprise, shall qualify for the speculative value exemption. Land not annually meeting any of these requirements fails to qualify as land actively devoted to agriculture and shall be valued at market value using appraisal procedures identified in Paragraph 645.02.a. of this rule.

04. Cross Reference. For definitions and general principles relating to the taxable value of land actively devoted to agriculture, see Rule 613 of these rules. For agricultural land taxable value calculation examples, see Rule 614 of these rules. For information relating to Christmas tree farms, other annual forest products, and yield tax, see Rule 968 of these rules.

646. -- 699. (RESERVED)

700. DEFINITIONS FOR PROPERTY TAX REDUCTION BENEFIT (RULE 700).
Section 63-701, Idaho Code
01. **Blind.** A person for whom there exists the medically documented opinion that the person is functionally blind as defined in Section 67-5402(2), Idaho Code. (3-30-01)

02. **Burden of Proof.** See Rule 600 of these rules. (3-15-02)

03. **Claimant's Income.** All income defined in Section 63-701(5), Idaho Code, that is received by either spouse is included in household income even if one spouse lives in a medical care facility or otherwise lives outside the home except as provided in Rule 709 of these rules. For the purposes of excluding from claimant’s income any return of principal paid by the recipient of an annuity, follow these guidelines. (3-30-07)

   a. An annuity means a contract sold by an insurance company to the claimant or claimant’s spouse and designed to provide payments to the holder at specified equally spaced intervals or as a lump sum payment with the following conditions:

      i. The annuity must not be part of any pension plan available to an employee; (3-30-07)

      ii. No tax preference is given to the money spent to purchase the annuity (purchase payments must not reduce the buyer’s taxable income); (3-30-07)

      iii. The buyer of the annuity must have purchased the annuity voluntary and not as a condition of employment or participation in an employer provided pension system; and (3-30-07)

      iv. Earnings from investments in the annuity must be tax-deferred prior to withdrawal. (3-30-07)

   b. Annuities do not include KEOGH plans, Individual Retirement Accounts (IRAs), employer provided pensions, and similar financial instruments. Life insurance premiums shall not be treated as the principal of an annuity. (3-30-07)

   c. The recipient of the annuity payment(s), the claimant or claimant’s spouse, has the burden of proving the income is the principal paid by the recipient. Such proof includes copies of the holder’s annuity contract and any other documentation clearly indicating the conditions listed in Subparagraphs 700.03.a.i. through 700.03.a.iv. of this Rule are met. IRS form 1099 does not provide sufficient proof. (3-30-07)

04. **Fatherless/Motherless Child.** Fatherless/Motherless child for purposes of Section 63-701(1), Idaho Code, means a child judicially determined to be abandoned, as defined by Sections 16-1602 or 16-2005, Idaho Code, by the child's male/female parent or a child whose male/female parent has had his parental rights terminated pursuant to court order or is deceased. (3-30-01)

05. **Proportional Reduction of Value.** Proportional reduction of value pursuant to Section 63-701(7), Idaho Code, is required for partial ownership of otherwise eligible property. (3-15-02)

   a. There is no reduction of value for community property with no other interests except as provided in Rules 610.07 and 709.04 of these rules. Additionally, there is no reduction in value for the ownership interests of a partner of a limited partnership, a member of a limited liability company or a shareholder of a corporation when that person has no less than a five percent (5%) interest in the entity unless any interests are shared by any entity other than the limited partnership, limited liability company or corporation. (3-15-02)

   b. In other cases, benefits are to be calculated by applying the claimant's property tax reduction benefit to the eligible net taxable value of the claimant's share of the property. This value is determined by multiplying the market value of the land and of the improvement times the claimant's percent of ownership and subtracting the claimant's homeowner's exemption. (4-2-08)

      i. Example 1. The claimant is the sole occupant of the property but only owns fifty percent (50%) of the property. In this example, the claimant’s property tax reduction benefit will be applied to the tax on his/her net taxable market value of $50,000.
ii. Example 2. Tom Johnson and Marie Johnson, husband and wife, and property tax reduction claimant June Smith jointly own a property and occupy one (1) residential improvement located on the property. Calculate both homeowners’ exemptions, and apply Ms. Smith’s property tax reduction benefit to the tax on the net taxable value of her interest in the property.

06. **Physician.** Physician shall mean a licensed physician, as defined in Section 54-1803(3), Idaho Code.

07. **Widow/Widower.** A widow/widower is a person who has not remarried after the death of their spouse or whose subsequent marriage has been annulled.

08. **Cross Reference.** See Chapter 79, Title 67, Idaho Code, for requirements relating to lawful
presence in the United States. See IDAPA 35.02.01, “Tax Commission Administration and Enforcement Rules,” Subsection 702.02.c. for information concerning authorization to release applicant information to a state or federal elected official.  

701. HOW TO VERIFY THAT CLAIMANTS ARE LAWFULLY PRESENT IN THE UNITED STATES (RULE 701).  
Sections 63-701 through 710 and Sections 67-7901 through 7903, Idaho Code

01. **Lawful Presence in the United States.** The county assessor shall verify that any claimant for property tax reduction pursuant to Sections 63-701 through 710, Idaho Code, who is eighteen (18) years of age or older is lawfully present in the United States by doing the following:  

**a.** Providing to the State Tax Commission electronically and by paper copies documentation verifying that the claimant’s name, social security number, and date of birth used for social security records of the claimant and the claimant’s spouse, if married, are correct. Examples of documentation that would verify that the information is correct include, but are not limited to the following:  

i. Federal Form W-2;  
ii. Federal Form 1099;  
iii. Form 1099 received by the claimant from the Social Security Administration or the Railroad Retirement Board, or the federal Personnel Management System;  
iv. Social Security Card;  
v. Birth Certificate; or  
vi. Documents listed under paragraph 701.01.b. of this rule.  

**b.** If the claimant or the claimant’s spouse, if married, is not currently receiving benefits from the Social Security Administration, the Railroad Retirement Board, or the federal Personnel Management System, then requiring the claimant to submit the following, a copy of which shall be attached to the application for property tax reduction:  

i. An Idaho driver’s license or an Idaho identification card issued pursuant to Section 49-2444, Idaho Code; or  

ii. A valid driver’s license or similar document issued for the purpose of identification by another state or territory of the United States, if such license or document contains a photograph of the individual or the claimant’s age, sex, race, height, weight, or other such personal identifying information relating to the individual sufficient to show that the individual is the person identified in the other state or territory of the United States driver’s license or similar identification document; or  

iii. A United States military card or a military dependent's identification card; or  
iv. A United States coast guard merchant mariner card; or  
v. A Native American tribal document; or  
vi. A valid United States passport.  

**c.** Attestation of Lawful Presence. In addition to the documentation provided in Paragraphs 701.01.a. and 701.01.b. of this rule the claimant is also required to attest, under penalty of perjury and on a form designated by the State Tax Commission, that;  

i. The social security number(s) provided is/are valid; and
ii. The claimant and the claimant’s spouse, if married, are United States citizens or legal permanent residents; or (4-2-08)

iii. The claimant and the claimant’s spouse, if married, are otherwise lawfully present in the United States pursuant to federal law. (4-2-08)

d. Audit. During audit the State Tax Commission shall:

i. Verify the claimant’s and the claimant’s spouse’s, if married, social security number(s) electronically with the Social Security Administration or through other appropriate governmental agencies or means. (4-2-08)

ii. Presume the attestation to be proof of lawful presence for purposes of this section until such verification of lawful presence is made. (4-2-08)

e. Successive Applications. Once a claimant and the claimant’s spouse, if married, have been verified as lawfully present in the United States pursuant to this rule, a claimant and the claimant’s spouse, if married, in successive years will be presumed to be lawfully present in the United States if the claimant and the claimant’s spouse, if married, continue to attest in each successive application that no change has occurred in their status. (4-2-08)

702. VETERAN’S BENEFIT – CONTINUED ELIGIBILITY AFTER DEATH OF CLAIMANT (RULE 702).
Sections 63-701, and 63-705A, Idaho Code

01. Surviving Spouse. The veteran’s benefit applies to the qualifying homestead, as defined in Section 63-701(2), Idaho Code, of the veteran and surviving spouse. The surviving spouse may not transfer the benefit to a different homestead. (4-11-19)

02. Application By Surviving Spouse. The surviving spouse may file an application on behalf of the deceased spouse if the deceased spouse qualified or would have qualified as a claimant on January 1 or before April 15 of the year in which the claim is filed. (4-11-19)

703. -- 708. (RESERVED)

709. PROPERTY TAX REDUCTION BENEFIT PROGRAM -- SPECIAL SITUATIONS (RULE 709).
Section 63-701, Idaho Code

01. Scope. This rule addresses issues relating to the property tax reduction benefit program as it applies to certain unusual factual situations. It states general principles applicable to unusual cases and provides some illustrative examples. The rule cannot address every conceivable situation that may arise, but the principles established may apply to the resolution of situations not addressed in the rule. The following examples apply to qualified property tax reduction claimants. (3-30-01)

02. General Principles. Benefits under the property tax reduction program are only available to owners of property that have first qualified for the homeowner’s exemption under Section 63-602G, Idaho Code. See Rule 610 of these rules. (3-15-02)

03. Dual Residency Couples. The definition of “dual residency couple” in Rule 610.02 of these rules applies to this rule. (3-15-02)

a. Example -- Both residences are community property. Property tax reduction is available in regard only to the residential improvement qualifying for the homeowner’s exemption. See Rule 610.04 of these rules. (3-15-02)

b. Example -- One (1) residence is community property, the other is separate property. Property tax
reduction is available in regard only to the residential improvement qualifying for the homeowner’s exemption. See Rule 610.05 of these rules. (3-15-02)

c. Example -- Both residences are separate property. Property tax reduction is available in regard to both residential improvements. See Rule 610.06 of these rules. (3-15-02)

d. Household income. In the three (3) examples in Subsection 709.03, the household income upon which qualification is determined is the total of one-half (1/2) the community income plus any separate income of the spouse residing in the residence. (3-15-02)

04. Apportionment of Property Tax Reduction Benefits by Dual Residency Couples. If a dual residency couple makes the election provided in Subsection 610.07 of these rules and the applicable county assessor provided the State Tax Commission with a copy of the election required under that rule, each spouse shall be entitled to one-half (1/2) of the amount of any property tax reduction available to that spouse alone. The household income of the spouse shall be one-half (1/2) of the community income plus any separate income of the spouse residing in the residence. The total property tax reduction benefit shall not exceed the amount of benefit available to the individual spouse with the least household income if no election were made. (3-15-02)

05. Multiple Ownership Including Community Interests as Partial Owners. Example: A deed conveys title to real property to a husband and wife and to an adult child of theirs. The husband and wife hold a community property interest in the improvement and the child is a tenant-in-common provided ownership interests are not specified in the deed. The parents collectively hold a one-half (1/2) partial interest and the child holds a one-half (1/2) partial interest in the property. Ownership interests specific in the deed supersede this guidance. For clarification of the calculation of the net taxable value, see Rule 700.05.b. of these rules. Qualification for the property tax reduction is as follows:

a. If the residential improvement is the primary dwelling of the husband and wife but not of the child, the claimant qualifies for full benefits applied on one-half (1/2) of the value of the property less the homeowner's exemption. Household income is the total of the community and separate income of the spouses. (3-26-19)

b. If the residential improvement is the primary dwelling of the qualifying child, but neither the husband or wife, the claimant qualifies for full benefits applied on one-half (1/2) of the value of the property less the homeowner's exemption. Household income is the total of the child’s income. (3-28-18)
