Any person operating the licensed premises under this regulation must submit a signed agreement that he will assume all of the responsibilities of the licensee for operation of the premises in accordance with law. A person operating licensed premises under the regulation must demonstrate to the satisfaction of the Alcohol Beverage Control Bureau that he is qualified to hold an alcoholic beverage license. A guardian, executor, administrator, receiver, trustee in bankruptcy, or assignee for benefit of creditors may renew or transfer a license so held, in the same manner as other licensees, subject to the approval of the Alcohol Beverage Control Bureau. the review of the application, during which time the applicant for transfer may conduct business as a temporary permit holder. The permit holder, in accepting the temporary permit, is responsible for complying with all statutes and rules pertinent to the sale of alcoholic beverages. Sanctions against such permit holder, whether civil, administrative, or criminal lies with the permittee, and acceptance of the permit constitutes a waiver of any defenses by permit holder based upon the fact that the permit holder is not, technically, a licensee. The Alcohol Beverage Control Bureau may withdraw a temporary permit it has issued pursuant to this rule at any time without hearing or notice.  

05. **Product Replacement and Credit.** Any beer or wine products removed from the licensed retailer’s premises by a wholesaler/distributor for quality control or public health are not considered to be a violation of Section 23-1033 or 23-1325, Idaho Code, which prohibit aid to the retailer or of Sections 23-1031 or 23-1326, Idaho Code, which prohibit extension of credit to a retailer, if:

   a. The packages or kegs are replaced with identical product and quantity; or  

   b. In the instance of replacement of a partial keg of beer or wine, a credit to be redeemed on subsequent alcoholic beverage purchases by the retailer is given for the value of the unused portion; or  

   c. In the instance of removal of product for which the identical product or quantity thereof is not immediately available to the wholesaler/distributor at the time of removal of the product, a credit is given. The credit shall be redeemed on subsequent alcoholic beverage purchases by the retailer; or  

   d. In the case of a licensed establishment which is in operation no less than two (2) months and no more than nine (9) months of each year, prior to its period of closure, it is apparent that product will become outdated or spoiled before the date of re-opening, a wholesaler/distributor may remove product from the retailer’s premises and may give a credit to the retailer. Such credit shall be redeemed on subsequent alcoholic beverage purchases by the same retailer.  

   e. Credit is given to a retailer for the amount paid by the retailer at the time of purchase of the product being removed by the wholesaler/distributor.  

06. **Expiration of Licenses.** When a county has, pursuant to Sections 23-927 and/or 23-1012, Idaho Code, passed an ordinance extending the hours of sale of liquor and/or beer to two o’clock a.m. (2:00 a.m.), all liquor and/or beer licenses in that county expire at two a.m. (2 a.m.), on the first of the month of the year following their issuance. (Section 23-908(1), Idaho Code).  

07. **Maintenance of Keg Receipts.** Licensees shall retain a copy of all completed keg receipts required by Section 23-1018, Idaho Code, for a period of six (6) months.

013. **PRIORITY LISTS.**

01. **Priority Lists for Incorporated City Liquor Licenses.** The Alcohol Beverage Control Bureau maintains a priority list of applicants for those cities in which no incorporated city liquor license is available. A separate list is maintained for each city. A person, partnership, or corporation desiring to be placed on a priority list shall file a completed application for an incorporated city liquor license, accompanied by payment of one-half (1/2) of the annual license fee. Such application need not show any particular building or premises upon which the liquor is to be sold, nor that the applicant is the holder of any license to sell beer. Priority on the list is determined by the earliest application, each succeeding application is placed on the list in the order received.  

02. **Written Notification.** When an incorporated city liquor license becomes available Alcohol Beverage Control offers it in writing to the applicant whose name appears first on the priority list. If the applicant does not notify the Alcohol Beverage Control Bureau in writing within ten (10) days of receipt of the notice of his intention to accept the license, the license is offered to the next applicant in priority. An applicant accepting the license shall have a period of one hundred eighty (180) days from the date of receipt of Notice of License Availability in which to complete all requirements necessary for the issuance of the license. Provided, however, that upon a showing of good cause the Director of the Idaho State Police may extend the time period in which to complete the necessary requirements for a period not to exceed ninety (90) days.
03. Refusal to Accept Offer of License or Failure to Complete Application for License. An applicant refusing a license offered under this rule or an applicant who fails to complete his application may have his name placed at the end of the priority list upon his request. Should the applicant holding first priority refuse or fail to accept the license or to complete the application within the time specified, the applicant shall be dropped from the priority list, the deposit refunded, and the license offered to the applicant appearing next on the list. (3-6-07)

04. Limitations on Priority Lists. An applicant shall hold only one position at a time on each incorporated city priority list. An applicant must be able to demonstrate to the Director the ability to place an awarded license into actual use as required by Section 23-908(4), Idaho Code and these rules. An applicant for a place on an incorporated city liquor license priority list may not execute an inter vivos transfer or assignment of his place on the priority lists. For the purposes of this rule, “inter vivos transfer or assignment” means the substitution of any individual; partnership; corporation, including a wholly owned corporation; organization; association; or any other entity for the original applicant on the waiting list. An attempt to assign inter vivos a place on an incorporated city liquor license priority list shall result in the removal of the name of the applicant from the lists. An applicant, however, may assign his or her place on an alcoholic liquor license priority list by devise or bequest in a valid will. A place on an incorporated city liquor license priority list becomes part of an applicant’s estate upon his or her death. (3-6-07)

05. Priority Lists Where Licenses Are Available. The Alcohol Beverage Control Bureau shall not maintain a list for a city in which a liquor license is available, nor for a city that does not permit retail sale of liquor. If, prior to the promulgation of this rule, the Alcohol Beverage Control Bureau has maintained a priority list for any such city, the list shall be abolished and all license fees returned to the respective applicants. (3-31-95)

014. CONDUCT OF LICENSED PREMISES. Upon request of an agent of the Director, a licensee, or anyone acting on his behalf, must produce any records required to be kept pursuant to Title 23, Chapters 9, 10, or 13, Idaho Code, and permit the agent of the Director or peace officer to examine them and permit an inspection of the licensee’s premises. Upon request of a peace officer, a licensee, or anyone acting on his behalf, must permit an inspection of the licensee’s premises. Any inspection performed pursuant to this rule must occur during the licensee’s regular and usual business hours. The failure to produce such records or to permit such inspection on the part of any licensee is a violation of this rule. A violation of this rule, federal or state law or local code or ordinance may subject the licensee to administrative sanctions pursuant to Sections 23-933, 23-1037 and 23-1331, Idaho Code. (3-6-07)

(4-4-13)

02. Posting of Age Restriction Signs. Sections 23-945 and 23-1026, Idaho Code, require every alcoholic beverage licensee to post an age restriction sign. NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 25-1102, 25-1110, 25-1160 and 25-3302, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 11, rules of the Idaho State Police, Idaho State Brand Board:

IDAPA 11
• 11.02.01, Rules of the Idaho State Brand Board
• 11.02.02, Idaho Livestock Dealer Licensing

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Idaho State Brand Board is tasked with serving and protecting the Idaho livestock industry, by creating a deterrent of theft, illegal transportation and slaughter of livestock. The Brand Board finds failure to reauthorize these rules would eliminate the Board’s ability to carry out the statutory duties of protecting and regulating the livestock industry.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The Brand Board is solely operated by dedicated funds derived from Brand Recording, Brand Inspection and Dealer Licensing fees which are set in Rule. Failure to reauthorize these Rules would jeopardize Brand Board’s funding and eliminate the Board’s ability to provide necessary state service.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.

IDAPA CHAPTER 11.02.02 “Idaho Livestock Dealer Licensing”
IDAPA 11.02.02.012 Application Fees Livestock Dealers and Licensed Dealer

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Cody D. Burlile, State Brand Inspector, phone (208) 884-7070, Fax (208) 884-7097, e-mail cody.burlile@isp.idaho.gov.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

**RACING COMMISSION**  
**DOCKET NO. 11-0400-1900**  
**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 54-2506, 54-2507, 54-2508, 54-2509, 54-2512, 54-2513, and 54-2514, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 11, rules of the Idaho State Police, Idaho State Racing Commission:

- **IDAPA 11**
  - 11.04.04, Rules Governing Disciplinary Hearings and Appeals
  - 11.04.06, Rules Governing Racing Officials
  - 11.04.08, Rules Governing Pari-Mutuel Wagering
  - 11.04.09, Rules Governing Claiming Races
  - 11.04.10, Rules Governing Live Horse Races
  - 11.04.13, Rules Governing the Idaho State Racing Commission
  - 11.04.14 Rules Governing Owners, Trainers, Authorized Agents, Jockeys, Apprentice Jockeys, and Jockey Agents

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Specifically, the expiration of these rules on June 30, 2019 would occur during the middle of the already underway 2019 racing season, which is currently slated to end in September 2019. As such, expiration of these rules would immediately and effectively remove regulatory safeguards for the integrity of imminent horse races, the safety of horses and personnel involved in races, and the prevention of monetary fraud upon racing industry members and the public. Also, the expiration of these rules on June 30, 2019 would create inconsistent enforcement for the season, resulting in further injustice to the racing industry and the public.

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year:

This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Ardie Noyes at phone (208) 884-7080, Fax (208) 884-7098, or e-mail ardie.noyes@isp.idaho.gov.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

102. **PARI-MUTUEL TICKET SALES.**

(3-29-10)

07. **Claims by Bettor.** Claims pertaining to a mistake on an issued ticket, or a mistake involving failure to issue a ticket, must be made by the bettor prior to leaving the seller’s window except in accordance with written policies established by the racing association and approved by the Racing Commission. (3-29-10)

08. **Payment on Winning Pari-Mutuel Wagers.** Payment on winning pari-mutuel wagers is made on
the basis of the order of finish as purposely posted and declared “official.” Any subsequent change in the order of finish or award of purse money as may result from a subsequent ruling by the stewards or Racing Commission will in no way affect the pari-mutuel payout. If an error in the posted order of finish or payout figures is discovered, the official order of finish or payout prices may be corrected and an announcement concerning the change must be made to the public. (3-29-10)

This does not preclude earlier common pool wagers in accordance with a contract with the host association that has been approved by the Racing Commission. (3-29-10)

104. CLAIMS FOR PAYMENT FROM PARI-MUTUEL POOL. At a designated location, a written, verified claim for payment from a pari-mutuel pool must be accepted by the racing association in any case wherein the racing association has withheld payment or has refused to cash a pari-mutuel wager. The claim must be made on such form as approved by the Racing Commission. The original of such claim must be forwarded to the Racing Commission within 48 hours. (3-29-10)

01. Claim for Mutilated Ticket. In the case of a claim made for payment of a mutilated pari-mutuel ticket which does not contain the total imprinted elements required in these rules, the racing association will make a recommendation to accompany the claim forwarded to the Racing Commission as to whether or not the mutilated ticket has sufficient elements to be positively identified as a winning ticket. (3-29-10)

02. Racing Commission to Adjudicate or Deny Claim. In the case of a claim made for payment on a pari-mutuel wager, the Racing Commission must adjudicate the claim and may order payment thereon from the pari-mutuel pool or by the racing association, or may deny the claim, or may make such other order, as it may deem proper as provided for in Section 113 of these rules. (3-29-10)

105. PAYMENT FOR ERRORS. If an error occurs in the payment amounts for pari-mutuel wagers that are cashed or entitled to be cashed and, as a result of such error, the pari-mutuel pool involved in the error is not correctly distributed among winning ticket holders, the following applies: (3-29-10)

01. Underpayments. Verification is required to show that the amount of the commission, the amount in breakage, and the amount in payouts is equal to the total gross pool. If the amount of the pool is more than the amount used to calculate the payout, the underpayment belongs to the Racing Commission. In the event there is an underpayment on any race in the amount actually due to the wagerers, the amount of such underpayments to wagerers, at the end of each day of racing, will revert to and be paid to the Racing Commission and may not be retained by the racing association. (3-29-10)

02. Underpayment Claim. Any claim not filed with the racing association within thirty (30) days, inclusive of the date on which the underpayment was publicly announced, is deemed waived; and the racing association has no further liability. (3-29-10)

03. Overpayment. In the event the error results in an overpayment to winning wagers, the racing association is responsible for such payment. (3-29-10)
106. **BETTING EXPLANATION.**
A summary explanation of pari-mutuel wagering and each type of betting pool offered must be published in the program for every wagering performance. (3-29-10)

107. **DISPLAY OF BETTING INFORMATION.**

01. **Approximate Odds for Win Pool.** Approximate odds for Win pool betting must be posted on display devices within view of the wagering public and updated at intervals of not more than sixty (60) seconds for the current race of the performance. (3-29-10)

03. **Official Results and Payouts.** Official results and payouts must be displayed upon each contest being declared official. (3-29-10)

04. **Errors Corrected Promptly.** If an error is made in posting the payoff figures on the public board, it will be corrected promptly and only the correct amounts will be used in the payoff, irrespective of the error. If because of mechanical failure it is impossible to promptly correct the posted payoff, a statement must be made over the public address system stating the facts and corrections. (3-29-10)

108. **CANCELLED CONTESTS.**
If a contest is cancelled or declared “no contest,” refunds must be granted on valid wagers in accordance with these rules. (3-29-10)

(3-29-10)

04. **Horse Prevented from Racing Because of Starting Gate Failure.** If it is determined by the Stewards that a horse has been prevented from racing because of the failure of the stall door of the starting gate to open, the money bet on that horse must be refunded; except that when the horse is part of an Entry or the Field there will be no refund if the Entry or the Field, as the case may be, has at least one (1) actual starter. (3-29-10)

05. **Coupled Entries and Mutuel Fields.** If no horse finished in a race, all money wagered on that race must be refunded. (3-29-10)

109. **COUPLED ENTRIES AND MUTUEL FIELDS.**
01. **Coupled Entry Considered Single Betting Interest.** Contestants coupled in wagering as a coupled entry or mutuel field are considered part of a single betting interest for the purpose of price calculations and distribution of pools. Should any contestant in a coupled entry or mutuel field be officially withdrawn or scratched, the remaining contestant in that coupled entry or mutuel field may remain valid betting interests and no refunds will be granted; or the stewards may order a refund for the entire betting interest. If all contestants within a coupled entry or mutuel field are scratched, then tickets on such betting interests must be refunded, notwithstanding other provisions of these rules. (3-29-10)

02. **Dead Heat Involving Coupled Entry.** For the purpose of price calculations only, coupled entries and mutuel fields are calculated as a single finisher, using the finishing position of the leading contestant in that coupled entry or mutuel field to determine order of placing. This rule applies to all circumstances, including situations involving a dead heat, except as otherwise provided by these rules. (3-29-10)

110. **POOLS DEPENDANT UPON BETTING INTERESTS.**

01. **Offer Wagering Pools.** Unless otherwise provided by the Racing Commission, upon request received no later than twenty-four (24) hours after the post position draw, at the time the pools are opened for wagering, the racing association:

02. **Suspend Previously Approved Forms of Wagering.** The racing association may suspend previously-approved forms of wagering with the prior approval of the Racing Commission. Any carryover must be held until the suspended form of wagering is reinstated. A racing association may request approval of a form of wagering or separate wagering pool for specific performances. (3-29-10)
112. CLOSING OF WAGERING IN A CONTEST.

01. Close Wagering. A Racing Commission representative must close wagering for each contest after which time no pari-mutuel tickets may be sold for that contest. (3-29-10)

02. Approved Close Wagering System. The racing association must maintain, in good order, a system approved by the Racing Commission for closing wagering. (3-29-10)

117. PARI-MUTUEL CASH VOUCHERS.

01. Cash Vouchers. Pari-mutuel cash vouchers may be offered by a racing association that issues pari-mutuel tickets. These vouchers must be dispensed through the totalisator system. The stored value on a voucher may be redeemed in the same manner as a value of a winning pari-mutuel ticket for wagers placed at a pari-mutuel window or a self-service terminal, and may be redeemed for their cash value at any time. (3-29-10)

02. Vouchers as Incentives or Promotional Prizes. A racing association may, with the prior approval of the Racing Commission, issue special pari-mutuel cash vouchers as incentives or promotional prizes, and may restrict the use of those vouchers to the purchase of pari-mutuel wagers. (3-29-10)

119. -- 199. (RESERVED)

200. CALCULATION OF PAYOFFS AND DISTRIBUTION OF POOLS.

01. Pari-Mutuel Wagering Pools Must Be Separately and Independently Calculated and Distributed. All permitted pari-mutuel wagering pools must be separately and independently calculated and distributed. Takeout will be deducted from each gross pool as stipulated by law. The remainder of the monies in the pool constitutes the net pool for distribution as payoff on winning wagers. (3-29-10)

02. Standard or Net Price Calculation. Either the standard or net price calculation procedure may be used to calculate single commission pools, while the net price calculation procedure must be used to calculate multi-commission pools. (3-29-10)

03. Profit per Dollar. For each wagering pool, the amount wagered on the winning betting interest or betting combinations is deducted from the net pool to determine the profit; the profit is then divided by the amount wagered on the winning betting interest or combinations, such quotient being the profit per dollar. (3-29-10)

04. Single Commission Pools. With written approval from the Racing Commission, either the standard or net price calculation procedure may be used to calculate single commission pools, while the net price calculation procedure must be used to calculate multi-commission pools.
   a. Standard Price Calculation Procedure. (3-29-10)
i. Profit Split (Place Pool). Profit is net pool less gross amount bet on all place finishers. Finishers split profit one-half (1/2) and one-half (1/2) (place profit), then divide by gross amount bet on each place finisher for two (2) unique prices.

ii. Profit Split (Show Pool). Profit is net pool less gross amount bet on all show finishers. Finishers split profit one-third (1/3) and one-third (1/3) and one-third (1/3) (show profit), then divide by gross amount bet on each show finisher for three (3) unique prices.

i. Profit Split (Place Pool). Total profit is the total net pool less the total net amount bet on all place finishers. Finishers split total profit one-half (1/2) and one-half (1/2) (place profit), then divide by total net amount bet on each place finisher for two (2) unique unbroken base prices. (3-29-10)

ii. Profit Split (Show Pool). Total profit is the total net pool less the total net amount bet on all show finishers. Finishers split total profit one-third (1/3) and one-third (1/3) and one-third (1/3) (show profit), then divide by total net amount bet on each show finisher for three (3) unique unbroken base prices. (3-29-10)

c. If a profit split results in only one (1) covered winning betting interest or combinations it is calculated the same as a single price pool. (3-29-10)

d. Minimum payout and the method used for calculating breakage are established by the Racing Commission. (3-29-10)

e. The individual pools outlined in these rules may be given alternative names by each racing association, provided prior approval is obtained from the Racing Commission. (3-29-10)

f. In the event a minus pool occurs in either the Win, Place or Show pool, the expense of said minus pool will be born by the racing association and the State will receive intact its share of the remaining pools. (3-29-10)

201. WIN POOLS.

01. Win Pools. The amount wagered on the betting interest that finishes first is deducted from the net pool, the balance remaining being the profit; the profit is divided by the amount wagered on the betting interest finishing first, such quotient being the profit per dollar wagered to Win on that betting interest. (3-29-10)

02. Net Win Pool. The net Win pool must be distributed as a single price pool to winning wagers in the following precedence, based upon the official order of finish:

   a. To those whose selection finished first; but if there are no such wagers, then; (3-29-10)

   b. To those whose selection finished second; but if there are no such wagers, then; (3-29-10)

   c. To those whose selection finished third; but if there are no such wagers, then; (3-29-10)

   d. The entire pool must be refunded on Win wagers for that contest. (3-29-10)

03. Dead Heat for First. If there is a dead heat for first involving:

   a. Contestants representing the same betting interest, the Win pool is distributed as if no dead heat occurred. (3-29-10)

   b. Contestants representing two (2) or more betting interests, the Win pool is distributed as a profit split. (3-29-10)

202. PLACE POOLS.

01. Place Pools. The amounts wagered to Place on the first two (2) betting interests to finish are deducted from the net pool, the balance remaining being the profit; the profit is divided into two (2) equal portions, one (1) being assigned to each winning betting interest and divided by the amount wagered to Place on that betting interest, the resulting quotient is the profit per dollar wagered to Place on that betting interest. (3-29-10)

02. Net Place Pool. The net Place pool must be distributed to winning wagers in the following precedence, based upon the official order of finish: (3-29-10)

a. If contestants of a coupled entry or mutuel field finished in the first two (2) places, as a single price pool to those who selected the coupled entry or mutuel field; otherwise (3-29-10)

b. As a profit split to those whose selection is included within the first two (2) finishers; but if there are no such wagers on one (1) of those two (2) finishers, then; (3-29-10)

c. As a single price pool to those who selected the one (1) covered betting interest included within the first two (2) finishers; but if there are no such wagers, then; (3-29-10)

d. As a single price pool to those who selected the third-place finisher; but if there are no such wagers, then; (3-29-10)

e. The entire pool must be refunded on Place wagers for that contest. (3-29-10)

03. Dead Heat for First. If there is a dead heat for first involving: (3-29-10)

a. Contestants representing the same betting interest, the Place pool must be distributed as a single price pool. (3-29-10)

b. Contestants representing two (2) or more betting interest, the Place pool must be distributed as a profit split. (3-29-10)

203. SHOW POOLS.

01. Show Pools. The amounts wagered to Show on the first three (3) betting interests to finish are deducted from the net pool, the balance remaining being the profit; the profit is divided into three (3) equal portions, one (1) being assigned to each winning betting interest and divided by the amount wagered to Show on that betting
interest, the resulting quotient being the profit per dollar wagered to Show on that betting interest.  

**02. Net Show Pool Distribution.** The net Show pool must be distributed to winning wagers in the following precedence, based upon the official order of finish: 

a. If contestants of a coupled entry or mutuel field finished in the first three (3) places, as a single price pool to those who selected the couple entry or mutuel field, otherwise; 

b. If contestants of a coupled entry or mutuel field finished as two (2) of the first three (3) finishers, the profit is divided with two-thirds (2/3) distributed to those who selected the coupled entry or mutuel field and one-third (1/3) distributed to those who selected the other betting interest included within the first three (3) finishers, otherwise;  

c. As a profit split to those whose selection is included within the first three (3) finishers; but if there are no such wagers on one (1) of those three (3) finishers, then;  

d. As a profit split to those who selected one (1) of the two (2) covered betting interests included within the first three (3) finishers; but if there are no such wagers on two (2) of those three (3) finishers, then;  

e. As a single price pool to those who selected the one (1) covered betting interest included within the first three (3) finishers; but if there are no such wagers, then;  

f. As a single price pool to those who selected the fourth-place finisher; but if there are no such wagers, then;  

g. The entire pool must be refunded on Show wagers for that contest.  

**03. Dead Heat for First.** If there is a dead heat for first involving:  

a. Two (2) contestants representing the same betting interest, the profit is divided with two-thirds (2/3) distributed to those who selected the first-place finishers and one-third (1/3) distributed to those who selected the betting interest finishing third.  

b. Three (3) contestants representing a single betting interest, the Show pool must be distributed as a single price pool.  

c. Contestants representing two (2) or more betting interests, the Show pool must be distributed as a profit split.  

**04. Dead Heat for Second.** If there is a dead heat for second involving:  

a. Contestants representing the same betting interest, the profit is divided with one-third (1/3) distributed to those who selected the betting interest finishing first and two-thirds (2/3) distributed to those who selected the second-place finishers.  

b. Contestants representing two (2) betting interests, the Show pool must be distributed as a profit split.  

c. Contestants representing three (3) betting interests, the Show pool is divided with one-third (1/3) of the profit distributed to Show wagers on the betting interest finishing first and the remainder is distributed equally amongst Show wagers on those betting interests involved in the dead heat for second.  

**05. Dead Heat for Third.** If there is a dead heat for third involving:  

a. Contestants representing the same betting interest, the Show pool must be distributed as if no dead heat occurred.

204. DOUBLE POOLS.

01. **Double Pools.** Only one (1) Daily Double will be permitted during a single racing day, unless approval is obtained from the Racing Commission.

02. **First Place Finisher.** The Double requires selection of the first-place finisher in each of two (2) specified contests.

03. **Winning Distribution.** The net Double pool must be distributed to winning wagers in the following precedence, based upon the official order of finish:

   a. As a single price pool to those whose selection finished first in each of the two (2) contests; but if there are no such wagers, then;

   b. As a profit split to those who selected the first-place finisher in either contest; but if there are no such wagers, then;

   c. As a single price pool to those who selected the one (1) covered first-place finisher in either contest; but if there are no such wagers, then;

   d. As a single price pool to those whose selection finished second in each of the two (2) contests; but if there are no such wagers, then;

   e. The entire pool must be refunded on Double wagers for those contests.

04. **Dead Heat for First.** If there is a dead heat for first in either of the two (2) contests involving:

   a. Contestants representing the same betting interest, the Double pool is distributed as if no dead heat occurred.

   b. Contestants representing two (2) or more betting interests, the Double pool is distributed as a profit split if there is more than one (1) covered winning combination.

05. **Scratched Interest -- First-Half.** Should a betting interest in the first-half of the Double be scratched prior to the first Double contest being declared official, all money wagered on combinations including the scratched betting interest is deducted from the Double pool and refunded.

06. **Scratched Interest -- Second-Half.** Should a betting interest in the second-half of the Double be scratched prior to the close of wagering on the first Double contest, all money wagered on combinations including the scratched betting interest is deducted from the Double pool and refunded.

07. **Consolation Payout.** Should a betting interest in the second-half of the Double be scratched after the close of wagering on the first Double contest, all wagers combining the winner of the first contest with the scratched betting interest in the second contest are allocated a consolation payout. In calculating the consolation...
payout the net Double pool is divided by the total amount wagered on the winner of the first contest and an unbroken consolation price obtained. The broken consolation price is multiplied by the dollar value of wagers on the winner of the first contest combined with the scratched betting interest to obtain the consolation payout. Breakage is not declared in this calculation. The consolation payout is deducted from the net Double pool before calculation and distribution of the winning Double payout. Dead heats including separate betting interests in the first contest will result in a consolation payout calculated as a profit split. (3-29-10)

08. Cancelled or “No Contest.” If either of the Double contests are cancelled prior to the first Double contest, or the first Double contest is declared “no contest,” the entire Double pool must be refunded on Double wagers for those contests. (3-29-10)

09. Second Double Cancelled or “No Contest.” If the second Double contest is cancelled or declared “no contest” after the conclusion of the first Double contest, the net Double pool is distributed as a single price pool to wagers selecting the winner of the first Double contest. In the event of a dead heat involving separate betting interests, the net Double pool is distributed as a profit split. (3-29-10)

10. Payoff Posting. Before the running of the last half of the Daily Double pool, the payoff of each combination coupled with the winner of the first half of the Daily Double must be posted in a prominent place. (3-29-10)

11. Third Heat Announcement. In case of a dead heat for winner in the first half (1/2) of the Daily Double, the payoff of the Daily Double need not be posted until after the running of the second half (1/2) of the Daily Double. However, announcement of this fact must be made over the loud speaker and notice to this effect be posted on the board at conclusion of the first half (1/2) of the Daily Double. (3-29-10)

12. Close of Sale. Sale of Daily Double tickets must close not later than “off-time” of the first race of the Daily Double. (3-29-10)

13. Daily Double Not a Parlay. The Daily Double Pool is not a parlay and is not connected with the WIN, PLACE, SHOW or other pools in any manner whatsoever. (3-29-10)

205. WIN THREE POOLS.

01. Win Three Pools. The Win Three (3) requires selection of the first-place finisher in each of three (3) specified contests.

02. Distribution. The net Win Three (3) pool must be distributed to winning wagers in the following precedence, based upon the official order of finish:

   a. As a single price pool to those whose selection finished first in each of the three (3) contests; but if there are no such wagers, then;
   
   b. As a single price pool to those who selected the first-place finisher in any two (2) of the three (3) contests; but if there are no such wagers, then;
   
   c. As a single price pool to those who selected the first-place finisher in any one (1) of the three (3) contests; but if there are no such wagers, then;
   
   d. The entire pool must be refunded on Win Three (3) wagers for those contests.

03. Dead Heat. If there is a dead heat for first in any of the three (3) contests involving:

   a. Contestants representing the same betting interest, the Win Three (3) pool is distributed as if no dead heat occurred.
   
   b. Contestants representing two (2) or more betting interests, the Win Three (3) pool is distributed as a single price pool and is distributed as follows:

      i. As a profit split to those whose selections finished first in each of the three (3) contests; but if there are no such wagers, then;
      
      ii. As a single price pool to those who selected the first place finisher in any two (2) of the three (3) contests; but if there are no such wagers, then;
      
      iii. As a single price pool to those who selected the first place finisher in any one (1) of the three (3) contests; but if there are no such wagers, then;
      
      iv. The entire Win Three (3) pool is refunded.

04. Substitution of a Scratch. Should a betting interest be scratched from a leg of the Win Three (3) all bets with the scratched betting interest will be handled as follows:

   a. If the scratch (that herein after includes being declared a non-starter or a non-betting starter) was made prior to the start of the first leg, all bets containing such scratched betting interest must be refunded to determine the gross pool an removed from further consideration in the pool;
   
   b. If the scratch was made in the second leg after the start of the first leg, a consolation payoff will be computed for those bets combining the winners of the first and third legs with the scratched betting interest as follows:

      i. The statutory take-out is deducted from the gross pool and then the amount represented by the bets on combinations involving betting interests scratched from the third leg (reduced by the take-out thereon). (3-29-10)
      
      ii. The resulting remainder is divided by the amounts bet on the combination of such first and third leg winners with all betting interests (less breaks) to determine the consolation price per dollar payable to those bets combining winners of the first and third legs with the betting interest scratched in the second leg. The break may not be deduced from the pool.
c. If a betting interest is scratched in the third leg after the start of the first leg, a consolation payoff must be computed as for those bets combining the winners of the first and second legs with such scratched betting interest as follows: (3-29-10)

i. The statutory take-out is deducted from the gross pool and then the amount represented by bets on combinations involving betting interests scratched from the second leg (reduced by the rate of the take-out thereon). (3-29-10)

ii. The resulting remainder is divided by the amount bet on the combination of such first and second leg winners with all betting interests in the third leg (less breaks) to determine the consolation price per dollar payable to those bets combining winners of the first and second legs with a betting interest scratched in the third leg. The breaks must not be deducted from the pool. (3-29-10)

d. If betting interests are scratched in both the second and third legs after the start of the first leg, a consolation payoff is computed for those bets combining the winner of the first leg with the betting interests scratched in both the second and third legs as follows: (3-29-10)

i. The take-out is deducted from the gross pool and the remainder is divided by the amount bet on the winner of the first leg combined with all other betting interests (less breaks) to determine the consolation price per dollar payable to those tickets combining the winner of the first leg with the scratch betting interests from both the second and third legs. (3-29-10)

05. All Three Cancelled. If all three (3) Win Three (3) contests are cancelled or declared “no contest,” the entire pool must be refunded on Win Three (3) wagers for those contests. (3-29-10)

06. One or Two Cancelled. If one (1) or two (2) of the Win Three (3) contests are cancelled or declared “no contest,” the Win Three (3) pool will remain valid and must be distributed in accordance with these rules. (3-29-10)

206. PICK (N) POOLS.

01. Pick (n) Pools. The Pick (n) requires selection of the first-place finisher in each of a designated number of contests. The racing association must obtain written approval from the Racing Commission concerning the scheduling of Pick (n) contests, the designation of one (1) of the methods prescribed in these rules, and the amount of any cap to be set on the carryover. Any changes to the approved Pick (n) format require prior approval from the Racing Commission. (3-29-10)

02. Apportioning the Pool. The Pick (n) pool is apportioned under one (1) of the following methods: (3-29-10)

a. Method 1- Pick (n) with Carryover: The net Pick (n) pool and carryover, if any, must be distributed as a single price pool to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. If there are no such wagers, then a designated percentage of the net pool will be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests; and the remainder will be added to the carryover. (3-29-10)

b. Method 2 - Pick (n) with Minor Pool and Carryover: The major share of the net Pick (n) pool and the carryover, if any, must be distributed to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. The minor share of the net Pick (n) pool is distributed to those who selected the first-place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher of all Pick (n) contests, the minor share of the net Pick (n) pool will be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests; and the major will be added to the carryover. (3-29-10)

c. Method 3 - Pick (n) with No Minor Pool and No Carryover: The net Pick (n) pool must be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n)
contests, based upon the official order of finish. If there are no winning wagers, the pool is refunded. (3-29-10)

d. Method 4 - Pick (n) with Minor Pool and No Carryover: The major share of the net Pick (n) pool must be distributed to those who selected the first-place finisher in the greatest number of Pick (n) contests, based upon the official order of finish. The minor share of the net Pick (n) pool is distributed to those who selected the first-place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher in a second greatest number of Pick (n) contests, the minor share of the net Pick (n) pool is combined with the major share for distribution as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests. If the greatest number of first-place finishers selected is one (1), the major and minor shares are combined for distribution as a single price pool. If there are no winning wagers, the pool is refunded. (3-29-10)

e. Method 5 - Pick (n) with Minor Pool and No Carryover: The major share of net Pick (n) pool must be distributed to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. The minor share of the net Pick (n) pool is distributed to those who selected the first-place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher in all Pick (n) contests, the entire net Pick (n) pool is distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests. If there are no wagers selecting the first-place finisher in a second greatest number of Pick (n) contests, the minor share of the net Pick (n) pool is combined with the major share for distribution as a single price pool to those who selected the first-place finisher in each of the Pick (n) contests. If there are no winning wagers, the pool is refunded. (3-29-10)

f. Method 6 - Pick (n) with Minor Pool, Jackpot Pool, Major Carryover and Jackpot Carryover: Predetermined percentages of the net Pick (n) pool must be set aside as a Major pool, Minor pool and Jackpot pool. The Major share of the net Pick (n) pool is distributed to those who selected the first-place finisher of each of the Pick (n) contests, based on the official order of finish. If there are no tickets selecting the first-place finisher in each of the Pick (n) contests, the Major net pool is added to the Major carryover. If there is only one (1) single ticket selecting the first-place finisher of each of the Pick (n) contests, based on the official order of finish, the Jackpot share of the net Pick (n) pool and the Jackpot carryover, if any, is distributed to the holder of that single ticket, along with the Major net pool and the Major carryover, if any. If more than one (1) ticket selects the first-place finisher of each of the Pick (n) contests the Jackpot net pool is added to the Jackpot carryover. The Minor share of the net Pick (n) pool is distributed to those who selected the first-place finisher of the second greatest number of Pick (n) contests, based on the official order of finish. If there are no wagers selecting the first-place finisher of all Pick (n) contests, the Minor net pool of the Pick (n) pool is distributed as a single price pool to those who selected the first-place finisher of the greatest number of Pick (n) contests. (3-29-10)

03. Dead Heat. If there is a dead heat for first in any of the Pick (n) contests involving:

a. Contestants representing the same betting interest, the Pick (n) pool must be distributed as if no dead heat occurred. (3-29-10)

b. Contestants representing two (2) or more betting interests, the Pick (n) pool must be distributed as a single price pool with each winning wager receiving an equal share of the profit. (3-29-10)

04. Scratched Entry. Should a betting interest in any of the Pick (n) contests be scratched, the actual favorite, as evidenced by total amounts wagered in the Win pool at host association for the contest at the close of wagering on that contest, will be substituted for the scratched betting interest for all purposes, including pool calculations. In the event that the Win pool total for two (2) or more favorites is identical, the substitute selection will be the betting interest with the lowest program number. The totalisator must produce reports showing each of the wagering combinations with substituted betting interests which became winners as a result of the substitution, in addition to the normal winning combination. (3-29-10)

05. Cancellation and Refunds. The Pick (n) pool will be cancelled and all Pick (n) wagers for the individual performance will be refunded, if:

a. At least two (2) contests included as part of a Pick Three (3) are cancelled or declared “no contest”; (3-29-10)
b. At least three (3) contests included as part of a Pick Four (4), Pick Five (5) or Pick Six (6) are cancelled or declared “no contest”; (3-29-10)

c. At least four (4) contests included as part of a Pick Seven (7), Pick Eight (8) or Pick Nine (9) are cancelled or declared “no contest”; or (3-29-10)

d. At least five (5) contests included as part of a Pick Ten (10) are cancelled or declared “no contest.” (3-29-10)

Net Pool Distribution. If at least one (1) contest included as part of a Pick (n) is cancelled or declared “no contest,” but not more than the number specified in these rules the net pool must be distributed as a single price pool to those whose selection finished first in the greatest number of Pick (n) contests for that performance. Such distribution must include the portion ordinarily retained for the Pick (n) carryover but not the carryover from previous performances. (3-29-10)

Course Condition. If the condition of the course warrants a change of racing surface in any of the legs of the Pick (n) races, and such change was not known to the public prior to the closing of wagering for the Pick (n) pool, the stewards must declare the changed leg(s) a “no contest” for Pick (n) wagering purposes only. A “no contest” race is not to be considered as a contested race. (3-29-10)

Capped Carryover. The Pick (n) carryover may be capped at a designed level approved by the Racing Commission so that if, at the close of any performance, the amount in the Pick (n) carryover equals or exceeds the designated cap, the Pick (n) carryover will be frozen until it is won or distributed under other provisions of this rule. After the Pick (n) carryover is frozen, one hundred (100%) percent of the net pool, part of which ordinarily would be added to the Pick (n) carryover, must be distributed to those whose selection finished first in the greatest number of Pick (n) contests for that performance. (3-29-10)

Carryover Requested. A written request for permission to distribute the Pick (n) carryover on a specific performance may be submitted to the Racing Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution. (3-29-10)

Single Price Distribution. Should the Pick (n) carryover be designated for distribution on a specified date and performance in which there are no wagers selecting the first-place finisher in each of the Pick (n) contests, the entire pool must be distributed as a single price pool to those whose selection finished first in the greatest number of Pick (n) contests. The Pick (n) carryover must be designated for distribution on a specified date and performance only under the following circumstances:

a. Upon written approval from the Racing Commission as provided in these rules. (3-29-10)

b. Upon written approval from the Racing Commission when there is a change in the carryover cap, a change from one (1) type of Pick (n) wagering to another or when the Pick (n) is discontinued. (3-29-10)

c. On the closing performance of the meet or split meet. (3-29-10)

Carryover Deposit. If, for any reason, the Pick (n) carryover must be held over to the corresponding Pick (n) pool of a subsequent meet, the carryover must be deposited in an interest-bearing account approved by the Racing Commission. The Pick (n) carryover plus accrued interest must then be added to the net Pick (n) pool of the following meet on a date and performance so designated by the Racing Commission. (3-29-10)

Contribution to Pool. With the written approval of the Racing Commission, the racing association may contribute to the Pick (n) carryover a sum of money up to the amount of any designated cap. (3-29-10)

Prohibited Information. Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of live tickets remaining is strictly prohibited until the race is made official. This does not prohibit necessary communication between totaliser and
14. Suspension of Wagering. The racing association may suspend previously-approved Pick (n) wagering with the prior approval of the Racing Commission. Any carryover must be held until the suspended Pick (n) wagering is reinstated. A racing association may request approval of a Pick (n) wager or separate wagering pool for specific performances. (3-29-10)

a. If a coupled entry or mutuel field finishes as the first two (2) contestants in either contest, as a single price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest
in the official order of finish for that contest, as well as the first two (2) finishers in the alternate Quinella Double contest, otherwise; (3-29-10)

03. Dead Heat - First Place. If there is a dead heat for first in either of the two (2) Quinella Double contests involving:

b. Contestants representing two (2) betting interests, the Quinella Double pool is distributed as if no dead heat occurred. (3-29-10)

In calculating the consolation payout the net Quinella Double pool is divided by the total amount wagered on the winning combination in the first contest and an unbroken consolation price obtained. The unbroken consolation price is multiplied by the dollar value of wagers on the winning combination in the first contest combined with a combination including the scratched betting interest in the second contest to obtain the consolation payout. Breakage is not declared in this calculation. The consolation payout is deducted from the net Quinella Double pool before calculation and distribution of the winning Quinella Double payout. If there is no such wagers, the net Twin Quinella pool must be distributed as described in Subsection 212.02 of these rules. (3-29-10)

213. **TWIN TRIFECTA POOLS.**

01. **Twin Trifecta Pools.** The Twin Trifecta requires selection of the first three (3) finishers, in their exact order, in each of two (2) designated contests. Each winning ticket for the first Twin Trifecta contest must be exchanged for a free ticket on the second Twin Trifecta contest in order to remain eligible for the second-half Twin Trifecta pool. Such ticket may be exchanged only at attended ticket windows prior to the second Twin Trifecta contest. Winning first-half Twin Trifecta wagers will receive both an exchange and a monetary payoff. Both of the designated Twin Trifecta contests will be included in only one (1) Twin Trifecta pool. (3-29-10)

02. **Providing Pools.** After wagering closes for the first-half of the Twin Trifecta and commissions have been deducted from the pool, the net pool is then divided into separate pools: the first-half Twin Trifecta pool and the second-half Twin Trifecta pool. (3-29-10)

03. **Winning Precedence.** In the first Twin Trifecta contest only, winning wagers must be determined using the following precedence, based upon the official order of finish for the first Twin Trifecta contest: (3-29-10)

   a. As a single price pool to those whose combination finished in correct sequence as the first three (3) betting interests, but if there are no such wagers, then;

   b. As a single price pool to those whose combination included, in correct sequence, the first two (2) betting interests, but if there are no such wagers, then;

   c. As a single price pool to those whose combination correctly selected the first-place betting interest only, but if there are no such wagers, then;

   d. The entire Twin Trifecta pool must be refunded on Twin Trifecta wagers for that contest and the second-half must be cancelled. (3-29-10)

04. **Carryover Pool.** If no first-half Twin Trifecta ticket selects the first three (3) finishers of that contest in exact order, winning ticket holders will not receive any exchange tickets for the second-half Twin Trifecta pool. In such case, the second-half Twin Trifecta pool must be retained and added to any existing Twin Trifecta carryover pool. (3-29-10)

05. **Exchange of Tickets.** Winning tickets from the first-half of the Twin Trifecta will be exchanged for tickets selecting the first three (3) finishers of the second-half of the Twin Trifecta. The second-half Twin Trifecta pool must be distributed to winning wagers in the following precedence, based upon the official order of finish for the second Twin Trifecta contest:

(3-29-10)
a. As a single price pool, including any existing carryover monies, to those whose combination finished in the correct sequence as the first three (3) betting interests; but if there are no such tickets, then; (3-29-10)

b. The entire second-half Twin Trifecta pool for that contest must be added to any existing carryover monies and retained for the corresponding second-half Twin Trifecta pool of the next consecutive performance. (3-29-10)

06. Forfeiture of Rights. If a winning first-half Twin Trifecta ticket is not presented for cashing and exchange prior to the second-half Twin Trifecta contest, the ticket holder may still collect the monetary value associated with the first-half Twin Trifecta pool but forfeits all rights to any distribution of the second-half Twin Trifecta pool. (3-29-10)

07. Coupled Entries and Mutuel Field. Coupled entries and mutuel fields are prohibited in Twin Trifecta contests. (3-29-10)

09. Second-Half Betting Interest Scratch. Should a betting interest in the second-half of the Twin Trifecta be scratched, an announcement concerning the scratch must be made and a reasonable amount of time must be provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second Twin Trifecta contest, the ticket holder forfeits all rights to the second-half Twin Trifecta pool. (3-29-10)

10. Reduced Interests. If, due to a late scratch, the number of betting interests in the second-half of the Twin Trifecta is reduced to fewer than the minimum, all exchange tickets and the outstanding first-half winning tickets will be entitled to the second-half Twin Trifecta pool for that contest as a single price pool, but not the Twin Trifecta carryover. (3-29-10)

11. Dead Heat. If there is a dead heat or multiple dead heats in either the first or second-half of the Twin Trifecta, all Twin Trifecta wagers selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, is a winner. In case of a dead heat occurring in:

   a. The first-half of the Twin Trifecta, the payoff is calculated as a profit split. (3-29-10)

   b. The second-half of the Twin Trifecta, the payoff is calculated as a single price pool. (3-29-10)

12. Cancelled Contest. If either of the Twin Trifecta contests are cancelled prior to the first Twin Trifecta contest, or the first Twin Trifecta contest is declared “no contest,” the entire Twin Trifecta pool must be refunded on Twin Trifecta wagers for that contest and the second-half must be cancelled. (3-29-10)

13. Second-Half Cancelled. If the second-half Twin Trifecta contest is cancelled or declared “no contest,” all exchange tickets and outstanding first-half winning Twin Trifecta tickets will be entitled to the net Twin Trifecta pool for that contest as a single price pool, but not Twin Trifecta carryover. If there are no such tickets, the net Twin Trifecta pool must be distributed as described in Subsection 213.05 of these rules. (3-29-10)

14. Capped Carryover. The Twin Trifecta carryover may be capped at a designated level approved by the Racing Commission so that if, at the close of any performance, the amount in the Twin Trifecta carryover equals or exceeds the designated cap, the Twin Trifecta carryover will be frozen until it is won or distributed under other provisions of this rule. After the Twin Trifecta carryover is frozen, one hundred percent (100%) of the net Twin Trifecta pool for each individual contest must be distributed to winners of the first-half of the Twin Trifecta pool. (3-29-10)

15. Request to Distribute Carryover. A written request for permission to distribute the Twin Trifecta carryover on a specific performance may be submitted to the Racing Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance.

   e. As a single price pool to holders of outstanding first-half winning tickets.

17. **Exchange of Tickets.** Contrary to Subsection 213.04 of these rules, during a performance designated to distribute the Twin Trifecta carryover, exchange tickets will be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first-half of the Twin Trifecta. If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets will be issued for combinations correctly selecting the first- and second-place betting interest. If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets will be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first-half of the Twin Trifecta, all first-half tickets will become winners and will receive one hundred percent (100%) of that day’s net Twin Trifecta pool and any existing Twin Trifecta carryover.

20. **Prohibited Information.** Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of valid exchange tickets is prohibited until the race is made official. This does not prohibit necessary communication between totalisator and pari-mutuel department employees for processing of pool data.

21. **Contest Approval.** The racing association must obtain written approval from the Racing Commission concerning the scheduling of Twin Trifecta contests, the percentage of the net pool added to the first-half pool and second-half pool, and the amount of any cap to be set on the carryover. Any changes to the approved Twin Trifecta format require prior approval from the Racing Commission.

(3-29-10)

02. Breaks Through Gate. If a horse breaks through the stall door, or the stall door opens prior to the exact moment the starter dispatched the field, the horse must be declared a non-starter and the starting and entry fees refunded. If the field has not been dispatched, the horse may be allowed to start at the discretion of the Stewards. (3-29-10)

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 54-2506, 54-2507, 54-2508, 54-2509, 54-2512, 54-2513, and 54-2514, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 11, rules of the Idaho State Police, Idaho State Racing Commission:

- IDAPA 11
  - 11.04.02, Rules Governing Simulcasting
    - except for Subsections 010.06 and 010.13, Sections 047, 049 through 057
  - 11.04.03, Rules Governing Licensing and Fees
  - 11.04.05, Rules Governing Advanced Deposit Wagering
  - 11.04.07, Rules Governing Racing Associations
  - 11.04.15, Rules Governing Controlled Substance and Alcohol Testing of Licensees, Employees, and Applicants

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Specifically, the expiration of these rules on June 30, 2019 would occur during the middle of the already underway 2019 racing season, which is currently slated to end in September 2019. As such, the expiration of these rules would immediately and effectively remove regulatory safeguards for the integrity of imminent horse races, the safety of horses and personnel involved in races, and the prevention of monetary fraud upon racing industry members and the public. Also, the expiration of these rules on June 30, 2019 would create inconsistent enforcement for the season, resulting in further injustice to the racing industry and the public.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

Per Section 54-2515, Idaho Code, payment of salaries, travel, operating costs and any other expenses necessary for the Racing Commission to carry out the provisions of this act are to come from the licensees (save office accommodations furnished by the state), and no salary, wages, expenses or compensation of any kind shall be paid by...
the state of Idaho for, or in connection with, the work of the Racing Commission in carrying out the provisions of the Idaho Racing Act. Because of this prohibition on state funding, the lost revenue from the expiration of fee rules cannot be absorbed by state funds. This inability to absorb will, in turn, immediately result in the failure of the Racing Commission to meet not only its general overhead costs, but also its expenses directly and necessarily incurred for specific incidences of enforcing the provisions of the Idaho Racing Act. In addition to the general foregoing, the following are specific findings as to each chapter imposing a fee:

**IDAPA CHAPTER 11.04.02 “Rules Governing Simulcasting”**
Daily simulcast license fees are generally mandated by Sections 54-2508 and 54-2506, Idaho Code. Part of those fees are used to supplement the Idaho Public School Fund, and expiration of those fees will also result in a loss of revenue thereo.

**IDAPA CHAPTER 11.04.03 “Rules Governing Licensing and Fees”**
Section 54-2506, Idaho Code, mandates that the Racing Commission shall determine which persons are required to be licensed and that the Racing Commission shall set fees for such licensure. Moreover, the supplemental hair testing fee in IDAPA 11.04.03.330.05 is necessary to absorb the increased costs incurred by testing hair.

Hair testing rules were adopted in 2018 by the Racing Commission at the specific behest of the racing industry to further protect the integrity of horse racing. Expiration of this fee would result in no hair testing for subsequent races, would remove that requested safeguard, and, per the industry, would then discourage compliant owners and trainers from entering their horses into races.

**IDAPA CHAPTER 11.04.05 “Rules Governing Advanced Deposit Racing”**
Section 54-2512(10), Idaho Code, specifically mandates the source market fee as set forth in IDAPA 11.04.05.060.

**IDAPA CHAPTER 11.04.07 “Rules Governing Racing Associations”**
The $25.00 Racing Association fee is generally mandated by Section 54-2508, Idaho Code.

IDAPA 11.04.11.160 affords a trainer or owner an additional due process procedure when a test returns positive for non-permitted substances in the horse by allowing them to request a second testing of a split sample collected from the horse at the same time as the sample first tested. The fee rule in Subsection 160.03 of this rule is necessary to reimburse the veterinarian for shipping costs and the Racing Commission for additional laboratory testing costs. Because of this due process mechanism, expiration of the fee rule portion would require the Racing Commission to bear those additional costs and would create a shortfall in meeting the Racing Commission’s other financial and regulatory obligations.

**IDAPA CHAPTER 11.04.15 “Rules Governing Controlled Substance and Alcohol Testing of Licensees, Employees, and Applicants”**
IDAPA 11.04.15.150.02 similarly affords a due process retesting procedure for licensees, employees, or applicants who initially test positive for alcohol or unauthorized controlled substances. The fee rule portion of this subsection is necessary to reimburse the Racing Commission for the additional testing costs. Because of this due process mechanism, expiration of the fee rule portion would require the Racing Commission to bear those additional costs and would create a shortfall in meeting the Racing Commission’s other financial and regulatory obligations.

IDAPA 11.04.15.300 delineates what testing and treatment costs are born between the Racing Commission and tested individuals. Expiration of this rule would create uncertainty and potential litigation over financial responsibility for those costs.

**FEE SUMMARY:** The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

EFFECTIVE DATE: The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 19-5201 – 5204, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 11, rules of the Idaho State Police, Idaho Public Safety and Security Information System, known as “ILETS”:

- IDAPA 11
  - 11.10.01, Rules Governing Idaho Public Safety and Security Information System

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. ILETS is a dedicated data communication network that links local, state, federal and foreign criminal justice agencies to state records and files, and to the National Crime Information Center (NCIC), which includes criminal history data and files on wanted or missing persons, orders of protection, property and other files critical to criminal justice and public protection. Through ILETS, information and identification services are provided that assist law enforcement agencies to detect and apprehend criminals, promoting public and officer safety, and supporting the criminal justice system in the prosecution, adjudication, and correctional supervision of offenders. IDAPA rules, supporting the operation and connection of ILETS to other state and national criminal history data, provide a vital connection that is not available in any other agency, form, or process.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Funds generated by user access/usage fees cover costs associated with creating and maintaining the ILETS system, including data circuits and routers, message switch hardware and software, staff support and all other necessary components to the overall system. Section 19-5202(4), Idaho Code, mandates access fees based upon usage by participating agencies/users. Failure to fund the ILETS system through IDAPA required fees would put the entire Idaho Law Enforcement data sharing system in danger of collapse, potentially causing extreme public and officer safety issues. Other states, federal and foreign data sharing systems and Law Enforcement personnel would also be negatively affected if the Idaho ILETS system is non-operational.
FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. All law enforcement agencies with a signed user agreement and a direct terminal connection or system access to the ILETS network pay access and usage fees based on that agency’s percentage of total annual messages sent and received by the agency through the ILETS message switcher. The total percentage for an agency includes the message traffic generated by any other agency authorized to access ILETS through that agency’s direct terminal or system access.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

b. The department will conduct audits of ILETS message switcher traffic for even-numbered years to determine an agency’s annual usage fee. This fee is effective for two (2) years and begins with the quarterly statement beginning October 1 of odd-numbered years.

c. If an agency discontinues direct terminal or system access to ILETS and acquires authorized access through another agency, the usage fee for the agency maintaining direct access will be adjusted to reflect the
combined historical usage. (3-20-04)

d. A new agency approved for direct ILETS access that does not have historical usage will be assessed an interim usage fee by the department pending the next audit of ILETS message traffic. The department sets an interim fee based on the agency’s similarities to existing agencies with direct terminal or system access. An agency may appeal the interim usage fee set by the department to the ILETS Board. (3-20-04)

e. As operator of ILETS, the department, in lieu of payment of fees, provides direct and in-kind support of network operations. The Board reviews biennially the proportion of that support to the overall operating cost of the system. (3-20-04)

04. Billing and Payment. The department mails billing statements quarterly to all agencies with direct terminal or system access to ILETS. Payment of the fees is due by the first day of the month of each quarter (October 1, January 1, April 1, and July 1), unless it is a Saturday, a Sunday, or a legal holiday, in which event the payment is due on the first successive business day. (3-20-04)

05. Sanctions for Delinquency. Any user agency that becomes delinquent in payment of assessed fees is subject to sanctions under Section 028. (3-20-04)

019. ADJUSTED ACCESS FEES DURING PILOT PROJECTS. The Board may adjust access fees of user agencies participating in pilot projects being conducted by the department in behalf of ILETS. The fee adjustment is based on any cost savings, actual or anticipated, realized by the ILETS network. (3-20-04)

020. USER RESPONSIBILITIES.

1. User Agreement. Any agency with access to ILETS, whether directly or through another agency, is responsible for adhering to all applicable ILETS rules and policies and must have signed an agreement with ILETS or an interface agency to that effect. (3-20-04)

2. Record Validation. Any agency that enters information into ILETS or NCIC files is responsible for the accuracy, timeliness and completeness of that information. ILETS will send a record validation review list, regularly, to each agency. Validation is accomplished by reviewing the original entry and current supporting documents. Recent consultation with any appropriate complainant, victim, prosecutor, court, motor vehicle registry files, or other appropriate source or individual also is required with respect to the wanted person, missing person, and vehicle files. In the event the agency is unsuccessful in its attempts to contact the victim, complainant, etc., the entering authority must make a determination based on the best information and knowledge available whether or not to retain the original entry in the file. Validation procedures must be formalized and copies of these procedures must be on file for review during an ILETS or NCIC audit. When the agency has completed the validation process, the records must be modified to verify their validity no later than thirty (30) days after receiving electronic notification. (3-20-04)

3. Minimum Training. Each agency employee who operates a computer to access ILETS must complete ILETS training at a level consistent with the employee's duties. Each employee who operates a computer to access ILETS must be re-certified by the agency every two (2) years. (3-20-04)

4. Hit Confirmation. When another agency receives a positive record response (Hit) from ILETS or NCIC and requests confirmation of the status of the record (warrant, stolen vehicle, etc.), the agency responsible for entry of the record must respond within ten (10) minutes for urgent hit confirmation requests or within one (1) hour for routine hit confirmation requests, with an answer that indicates the status of the record or a time frame when the record status will be confirmed. (3-20-04)

5. Terminal Agency Coordinators. The agency administrator of each agency with computer access to ILETS must designate one (1) or more terminal agency coordinators who will be the primary contact(s) for all matters relating to use of ILETS by the agency. A terminal agency coordinator must have sufficient authority to implement and enforce necessary policy and procedures. (3-20-04)
06. **Background Checks of Terminal Operators Required.** Policies for access to the FBI-NCIC system require background screening of all terminal operators with access to the NCIC system. For efficiency and consistency, the NCIC background screening policies are also adopted for all ILETS access. (3-20-04)

021. **INFORMATION ACCESS AND DISSEMINATION.**

01. **General Policy.** Information is made available to ILETS users from various sources and agencies, including ILETS and other state justice information system files, motor vehicle departments, NCIC, and NLETS. Each user must observe any restrictions placed on the use or dissemination of information by its source. It is ILETS' responsibility to advise user agencies of any restrictions which apply to any information accessed via ILETS. (3-30-01)

02. **Criminal History Records.** Criminal history information accessed via ILETS from a state or national computerized file is available only to criminal justice agencies for criminal justice purposes. This precludes the dissemination of such information for use in connection with licensing applications, regulatory activities, or local or state employment, other than with a criminal justice agency. (3-20-04)

03. **Administrative Messages.** An administrative message (AM) is a free text message from one (1) agency to one (1) or more agencies. All administrative messages transmitted via ILETS must be by the authority of an authorized user and must relate to criminal justice purposes or matters of interest to the user community. Administrative messages sent within Idaho, either statewide, regionally or to individual terminal identifiers are subject to the following restrictions: (3-30-01)

a. No messages supportive or in opposition to political issues, labor management issues, or announcements of meetings relative to such issues. (3-30-01)

b. No messages supportive or in opposition of legislative bills. (3-30-01)

c. No requests for criminal history record information. (3-30-01)

022.--023. (RESERVED)

024. **ILETS SECURITY.**

01. **General Policy.** The data stored in the ILETS, NCIC, and other criminal justice information system files is documented criminal justice information. This information must be protected to ensure its integrity and its correct, legal and efficient storage, dissemination and use. It is incumbent upon an agency accessing ILETS directly, or another system that has access to the ILETS network, to implement the procedures necessary to make the access device secure from any unauthorized use and to ensure ILETS is not subject to a malicious disruption of service. ILETS access agencies must participate in ILETS training and compliance activities to ensure that all agency personnel authorized to access the ILETS network are instructed in the proper use and dissemination of the information and that appropriate agency personnel are aware of security requirements and of the dangers to network integrity. ILETS retains the authority to disconnect an access agency or network connection when serious security threats and vulnerabilities are detected. (3-20-04)

02. **Definitions.** The following is a list of terms and their meanings as used in the ILETS security rule: (3-30-01)

a. Computer interface capabilities means any communication to ILETS allowing an agency to participate in the system. (3-20-04)

b. Firewall means a collection of components placed between two (2) networks that keep the host network secure by having the following properties: (3-30-01)

   i. All traffic from inside the network to outside, and vice-versa, must pass through it; (3-30-01)

   ii. Only authorized traffic is allowed to pass; and (3-30-01)
iii. The components as a whole are immune to unauthorized penetration and disablement. (3-20-04)

c. ILETS Security Officer (ISO) is the department staff member designated by the executive officer to monitor and enforce agency compliance with site and network security requirements. (3-20-04)

d. Peer networks are computer interfaces between cooperative governmental agencies in Idaho where none of the participating entities exercise administrative or management control over any other participating entity. (3-20-04)

e. Interface agency is an agency that has management control of a computer system directly connected to ILETS. (3-20-04)

f. Untrusted system is a system that does not employ sufficient hardware or software security measures to allow its use for simultaneously processing a range of sensitive or confidential information. (3-20-04)

03. Interface Agency Agreements. To ensure agencies having computer interface capabilities to ILETS are fully aware of their duties and of the consequences of failure to carry out those duties, a written and binding Interface Agency Addendum must exist between ILETS and all interface agencies. This agreement will clarify that the interface agency is equally responsible for actions by secondary and affiliated systems connected through their site to ILETS. Interface agencies must put in place similar subsidiary security agreements with secondary and affiliated systems to protect its network and ILETS. (3-20-04)

04. ILETS Security Officer. The ILETS Security Officer is responsible for the following duties: (3-20-04)

a. Disseminating to user agencies copies of ILETS security policies and guidelines; (3-30-01)

b. Communicating to user agencies information regarding current perceived security threats and providing recommended measures to address the threats; (3-30-01)

c. Monitoring use of the ILETS network either in response to information about a specific threat, or generally because of a perceived situation; (3-30-01)

d. Directing an interface agency, through its nominated contact, to rectify any omission in its duty of responsibility; (3-20-04)

e. When an agency is unable or unwilling to co-operate, reporting the issue to the executive officer and initiating the procedure for achieving an emergency disconnection; and (3-30-01)

f. Provide support and coordination for investigations into breaches of security. (3-30-01)

05. Agency Security Contacts. A terminal agency coordinator shall serve as that agency’s security contact for ILETS, unless another individual is specifically selected for this purpose and approved by the ILETS Security Officer. ILETS primary sites shall ensure the agency’s security contact, or another person or position designated in an incident contingency plan, can be contacted by the ILETS security officer at any time. (3-30-01)

06. Peer Networks. The security responsibilities of the operators of peer networks connected to ILETS, with respect to their user organizations, are parallel to those of ILETS user organizations in respect to their individual users. The ILETS Security Officer shall ensure that a written agreement exists between ILETS and an interface agency, signed by the agency heads, that embodies these principles. (3-20-04)

07. Physical Security Standards. Interface agencies will observe standards and procedures to ensure security of the physical premises and computing equipment. The minimum standards and procedures include the following: (3-20-04)

a. Access to computer rooms will be limited to staff who require access for the normal performance of
b. Electrical power protection devices to suppress surges, reduce static, and provide battery backup in the event of a power failure will be used as necessary. (3-30-01)

c. Computer system backups shall be stored in a secure location with restricted access. (3-30-01)

d. Network infrastructure components will be controlled with access limited to support personnel with a demonstrated need for access. (3-20-04)

e. Physical labeling of infrastructure components will be done to assist in proper identification. Additionally, all components will be inventoried at regular intervals for asset management and physical protection. (3-30-01)

f. An interface agency must create and enforce a password policy in which the agency is responsible for assigning ILETS users a unique password. The password policy must require that a new password be initiated by the user or agency every ninety (90) days. (3-20-04)

08. Network Security Standards. User agencies must exercise appropriate security precautions when connecting ILETS and computer systems linked to ILETS with external untrusted systems. The primary objective of such precautions is to prevent unauthorized access to sensitive information while still allowing authorized users free access. The minimum standards and procedures include the following: (3-20-04)

a. Agencies must routinely audit for and remove unused or unneeded services/accounts, review accounts periodically, and enforce aggressive and effective password strategies. (3-20-04)

b. Agencies must ensure that the software security features of the networks they manage are installed and functioning correctly. (3-20-04)

c. Agencies must monitor network security on a regular basis. Adequate information concerning network traffic and activity must be logged to ensure that breaches in network security can be detected. (3-20-04)

d. Agencies must implement and maintain procedures to provide the ILETS network adequate protection from intrusion by external and unauthorized sources. (3-20-04)

e. No computer connected to the network can have stored, on its disk(s) or in memory, information that would permit access to other parts of the network. For example, scripts used in accessing a remote host may not contain passwords. (3-30-01)

f. No connection to ILETS may be established utilizing dial-up communications. Asynchronous communications connections should be limited and tightly controlled as they pose a serious risk because they can circumvent any security precaution enacted to protect networks from untrusted sources. (3-30-01)

g. Network management protocols must be limited to internal or trusted networks. (3-20-04)

h. Any system having direct or indirect access to the Internet via their computer network must have in place services that allow no access to ILETS from the Internet. Organizations with large distributed Wide Area Networks connecting many remote sites may choose to incorporate many security layers and a variety of strategies. These strategies must incorporate the implementation of a firewall to block network traffic, and restriction of remote user access. (3-20-04)

i. Agencies accessing ILETS directly or through another agency, must insure that all telecommunications infrastructure meets the FBI CJIS Security Policy for encryption standards. (3-20-04)

j. No routing or IP Network Translations are to be performed on individual access devices. All routing and translation must be performed on a router or firewall device. (3-20-04)

028. USER AGENCY SANCTIONS.

01. Review of Violations. The board reviews violations of ILETS rules and may impose appropriate sanctions on access agencies.

02. Objective of Sanctions. The objectives of the sanction procedure are as follows:

a. To ensure the security, integrity, and financial stability of the ILETS.

b. To create an awareness among access agencies of the importance of following rules, regulations, and procedures in order to minimize the risk to liabilities that may be incurred by misuse of the system and access to its information.

03. Class of Sanctions. Sanctions are based upon the class of violation, any previous violations, and any exposure to criminal and civil liabilities that the violation might place on the system, its officials, and the offending agency. Violations are classed as either administrative (minor) or security (serious) violations. Security violations are defined as ones which have or could result in access of ILETS data by unauthorized individuals. All other violations are classed as administrative.

04. Form of Sanctions. When imposing sanctions, the Board considers the severity of the violation, the violation type, either administrative or security, and previous sanctions issued. The Board may require the violating agency to submit a mediation plan showing how the violation will be corrected and future violations prevented. The Board shall consider such a mediation plan, if submitted, when imposing sanctions. The Board may impose as sanctions one (1) or more of the following:

a. Written warning.

b. Written notice of violation.

c. Written notice of probation.

d. Written notice of temporary suspension.

e. Written notice of permanent suspension.

05. Effective Date of Sanctions. Temporary or permanent suspension of service will not begin, unless an emergency exists, until fifteen (15) days after the agency head has received written notice by certified mail or personal service.

06. Reinstatement. An agency placed on permanent suspension may apply to the Board for reinstatement.

029. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 19-5107, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 11, rules of the Idaho State Police, Peace Officer Standards and Training Council:

IDAPA 11
• 11.11.01, Rules of the Idaho Peace Officer Standards and Training Council (Modifying and reestablishing 11.11.01 to include previous rules defined in 11.11.01 through 11.11.06)

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons: These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Peace Officer Standards and Training (POST) is tasked with establishing the requirements for basic training and certification, providing academy and in-service training, issuing certifications, and maintaining permanent files and transcripts for all law enforcement officers in the State of Idaho. POST is also responsible for conducting decertification investigations of officers who violate standards of conduct as established by the POST Council’s code of ethics. Failure to reauthorize these rules, would eliminate the ability of POST to carry out the statutory duties of providing training and certification to the law enforcement officers who provide public safety services to the citizens of the State of Idaho.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. POST is almost entirely operated on dedicated funds. While the majority of those funds come from court fines and fees as provided by Sections 31-3201A, 31-3201B, and 31-3201D, Idaho Code, a portion of POST’s dedicated fund revenues are provided by fees charged for services, as authorized in Section 19-5118, Idaho Code. Failure to reauthorize these rules would jeopardize POST’s ability to provide necessary services. Law enforcement agencies and officers statewide would be affected by any reductions to POST’s ability to provide, facilitate, and assist with training.
FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.

11.11.01.134—Course evaluation fee
11.11.01.135.03—Course evaluation fee

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact POST Division Administrator, Brad Johnson, phone (208) 884-7251, Fax (208) 884-7295, e-mail brad.johnson@POST.idaho.gov.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 12, rules of the Idaho Department of Finance.

**IDAPA 12**

- IDAPA 12.01.04, *Rules Pursuant to the Idaho Credit Union Act* – All rules except Subsections 010.01.b, 010.04, 010.05, 020.05, 020.06, and Section 030.
- IDAPA 12.01.09, *Rules Pursuant to the Idaho Credit Code* – All rules except Section 006.
- IDAPA 12.01.10, *Rules Pursuant to the Idaho Residential Mortgage Practices Act* – All rules except Subsections 005.05, 040.01.a., 060.01, and 060.06
- IDAPA 12.01.11, *Rules Pursuant to the Idaho Collection Agency Act*

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules give authorization to financial institutions to exercise certain powers and conduct business; provide protection to customers of the institutions, investors, and others; support the orderly extension of credit to Idaho citizens and businesses; and support the Department’s orderly supervision of the state’s endowment care cemeteries.

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.
INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

If this service is “on premises” then prior written approval of the Director must be obtained before service is sold or otherwise made available to any outside customer. (7-1-93)

b. The assurances referred to above shall be submitted prior to the time the contract or agreement becomes effective in the form of letters from both parties and signed by a duly authorized officer of the credit union and by the party, or duly authorized officer or representative of such party, stating they will perform the services for the credit union, that the credit union and the party performing such services have entered into an agreement, that the performance of the services will be subject to rule and examination by the Director, and that such performance of services will be made available for examination.    c. The Director upon written notification to any or all credit unions may require that a true copy of the text of any advertisement be filed with his office at least five (5) days prior to the issuance, circulation, or publication of such advertisement.
a. Written Loan Policies. Except as provided in this section, the board of directors must adopt specific business loan policies within sixty (60) days of the effective date of this rule and review them at least annually. A credit union must submit the proposed written policies, and any future amendments to the policies, to the Director for approval at least thirty (30) days prior to the proposed date of implementation of the member business loan program or amendments. Any credit union that is NCUA insured must also provide notice and a copy of the loan policies or amendments to the appropriate NCUA regional office within thirty (30) days before adoption and implementation of the policies or amendments. (7-1-93)

b. Credit Unions that do not intend to make member business loans do not have to adopt and implement these policies. However, if such a credit union decides to begin making member business loans at some time in the future, the requirements of this section will apply, except that the specific business loan policies must be adopted and implemented no less than thirty (30) days before any member business loan is made. The policies shall at a minimum address the following: (7-1-93)

vi. Qualifications and experience of personnel involved in making and administering business loans. (7-1-93)

(7-1-93)

ix. Collateral requirements, including loan-to-value ratios; appraisals, title search and insurance requirements; steps to be taken to secure various types of collateral; and how often the value and marketability of collateral is to be reevaluated. (7-1-93)

xi. Loan monitoring, servicing, and follow-up procedures, including collection procedures. (7-1-93)

c. Loans to One (1) Member. The following restrictions apply to credit unions loans to one (1) member. (7-1-93)

i. The aggregate amount of outstanding member business loans to any one (1) member or group of associated members shall not exceed twenty percent (20%) of the credit union’s reserves. (7-1-93)

ii. If any portion of a member business loan is fully secured by a one (1) to four (4) family dwelling that is the member’s primary residence or secondary residence, or by shares in the credit union or deposits in another financial institution, or insured or guaranteed by, or subject to an advance commitment to purchase by, any agency of the federal government or of a state or any of its political subdivisions, such portion shall not be calculated in
determining the twenty percent (20%) limit. (7-1-93)

iii. Credit unions seeking an exception from the twenty percent (20%) limit must present to the Director, at a minimum: the higher limit sought, an explanation of the need to raise the limit, an analysis of the credit union’s prior experience making member business loans, and a copy of its business lending policy. In addition, at the same time this information is presented to the Director, any credit union that is NCUA insured must also submit a copy of the information to the appropriate NCUA regional office for its review and comment. (7-1-93)

iv. Any decision by the Director to grant any request to exceed the twenty percent (20%) loan-to-one borrower’s limit will be made only after consultation and coordination with NCUA. (7-1-93)

d. Allowance for Loan Losses. The determination of whether a member business loan will be classified as substandard, doubtful, or loss will rely on factors not limited to the delinquency of the loan. Non-delinquent loans may be classified, depending on an evaluation of factors including, but not limited to, the adequacy of analysis and documentation. (7-1-93)

e. Loans classified shall be reserved as follows: (7-1-93)

i. Loss loans at one hundred percent (100%) of outstanding amount; (7-1-93)

ii. Doubtful loans at fifty percent (50%) of outstanding amount; and (7-1-93)

100. IDAHO LEGISLATURE’S DETERMINATION AND THE DIRECTOR’S AUTHORITY (RULE 100).

In Section 26-31-103(1) of the Act, the Idaho Legislature determined that a uniform multistate administration of an automated license system for mortgage brokers, mortgage lenders and mortgage loan originators is consistent with both the public interest and the purposes of the Idaho Residential Mortgage Practices Act. In Section 26-31-103(2)(b) of the Act, the Idaho Legislature authorized the Director of the Idaho Department of Finance to establish by rule such new requirements as are necessary for the state of Idaho to participate in a uniform multistate automated licensing system upon the Director’s finding that such new requirements are consistent with both the public interest and the purposes of the Act. The Director finds that the requirements set forth in Sections 100 and 101 of these rules are consistent with the public interest and the purposes of the Act, and therefore promulgates such rules pursuant to Section 26-31-103(2)(b) of the Act.

101. NATIONAL MORTGAGE LICENSING SYSTEM AND REGISTRY (RULE 101).

The NMLSR is an Internet-based filing depository operated by the State Regulatory Registry, LLC (SRR), a wholly-owned operating subsidiary of the Conference of State Bank Supervisors (CSBS). The NMLSR is designed to accept license applications and license renewal applications electronically from mortgage brokers, mortgage lenders, and mortgage loan originators; collect associated statutory filing fees on behalf of participating jurisdictions, as well as the expenses associated with an applicant’s or licensee’s participation in the NMLSR; and provide the public with Internet-based access to information concerning mortgage brokers, mortgage lenders, and mortgage loan originators. The NMLSR began accepting electronic filings of applications from mortgage brokers, mortgage lenders, and mortgage loan originators from Idaho on January 1, 2008.

(3-29-10)

02. Licensing Through the NMLSR. All mortgage brokers, mortgage lenders, and mortgage loan originators who seek to obtain or retain a license under the Act must do so through the NMLSR and must pay the charge imposed and retained by the NMLSR to fund the costs of the NMLSR associated with an applicant’s or licensee’s participation in the system.

(3-29-12)

03. Statutory Fees. The NMLSR shall collect any statutory fees on behalf of the Idaho Department of Finance that are required to be paid to the Idaho Department of Finance by license applicants and licensees pursuant to the Idaho Residential Mortgage Practices Act. The NMLSR is required to forward to the Idaho Department of Finance all statutory fees it collects on behalf of the Idaho Department of Finance, pursuant to the terms of a written agreement between the Idaho Department of Finance and the SRR.

006. -- 999. **(RESERVED)**
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 27-416 and 30-14-605, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 12, rules of the Idaho Department of Finance:

IDAPA 12
• IDAPA 12.01.06, Rules Pursuant to the Idaho Endowment Care Cemetery Act
• IDAPA 12.01.08, Rules Pursuant to the Uniform Securities Act

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules support the Department’s orderly supervision of the state’s endowment care cemeteries and the offer and sale of securities to Idaho citizens. The Department’s review of securities registrations and filings helps protect the investments made in these securities by Idaho citizens. The Department’s ability to provide no-action or interpretive opinion letters to the securities industry confers a benefit on those citizens.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The fee imposed by IDAPA 12.01.06, Rules Pursuant to the Idaho Endowment Care Cemetery Act, Rule 5, supports the Department’s review of the annual registration statements of Idaho’s endowment care cemeteries. Fees are imposed by IDAPA 12.01.08, Rules Pursuant to the Uniform Securities Act, Subsections 003.04; 040.03; 053.01.b and c; and 053.02.b and c. These fees support the Department’s (1) providing no-action or interpretive opinion letters, (2) review of annual renewals of securities registration statements, (3) review of notice filings and annual renewal notices of investment companies, and (4) review of notice filings for Regulation D Rule 506 offerings.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules.
1. IDAPA 12.01.06, Rules Pursuant to the Idaho Endowment Care Cemetery Act, Section 005.: $150 annual filing fee at time of filing annual registration statement.
2. IDAPA 12.01.08, Rules Pursuant to the Uniform Securities Act, Subsection 003.04: $50 fee with each request for no-action position or interpretive opinion letter.
3. IDAPA 12.01.08, Rules Pursuant to the Uniform Securities Act, Subsection 040.03: $300 fee for annual renewal of registration statement.
4. IDAPA 12.01.08, Rules Pursuant to the Uniform Securities Act, Subsections 053.01.b and c: $300 fee for filing of notice of offering and annual renewal of mutual funds by investment companies, and $100 filing fee for notice of offering and annual renewal of unit investment trusts.
5. IDAPA 12.01.08, Rules Pursuant to the Uniform Securities Act, Subsections 053.02.b and c: $50 fee for Regulation D Rule 506 notice filings, and $50 additional fee for late filing.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

The CRD system will be utilized to effect FINRA registration as well as registration, termination, and renewal in the state.

02. Registrations Not Automatic. A filing of Form U-4, BD, or BR with the CRD system does not constitute an automatic registration in Idaho. Broker-dealers and investment advisers should not consider agents or investment adviser representatives registered until such approval from the state of Idaho has been received by them through CRD.

03. Electronic Signature. When a signature or signatures are required by the particular instructions of any filing to be made through CRD, a duly authorized officer of the applicant or the applicant him or herself, as required, shall affix his or her electronic signature to the filing by typing his or her name in the appropriate fields and submitting the filing to CRD. Submission of a filing in this manner shall constitute irrefutable evidence of legal signature by any individuals whose names are typed on the filing. (3-24-05)

b. When Filed. Solely for purposes of a filing made through IARD, a document is considered filed with the Administrator when all fees are received and the filing is accepted by IARD on behalf of the state. (3-24-05)

03. Electronic Filing. The electronic filing of any particular document and the collection of related processing fees shall not be required until such time as IARD provides for receipt of such filings and fees and thirty (30) days notice is provided by the Administrator. b. Continuing Hardship Exemption. (3-24-05)

i. Criteria for Exemption. A continuing hardship exemption will be granted only if the investment adviser is able to demonstrate that the electronic filing requirements of this rule are prohibitively burdensome. (3-24-05)

ii. To apply for a continuing hardship exemption, the investment adviser must file Form ADV-H which can be found at 17 CFR 279.3 in paper format with the Administrator at least twenty (20) business days before a filing is due; and, if a filing is due to more than one (1) securities regulator, the Form ADV-H must be filed with the Administrator where the investment adviser's principal place of business is located. **DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and publishes the following existing and previously approved and codified chapters of IDAPA 13, rules of the Department of Fish and Game. This temporary and proposed rulemaking includes edits and re-numbering that do not significantly change the effect of existing rules to comply with Uniform Format Requirements of “Rules of the Office Of Administrative Rules Coordinator,” IDAPA 44.01.01, and to comply with the Red Tape Reduction Act (Executive Order No. 2019-02) directing agencies to streamline state government through the repeal of outdated or ineffective rules or the significant simplification of rules.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

In addition, the Idaho Constitution, Art. 1, Sec. 23, states the “rights to hunt, fish and trap, including by the use of traditional methods, are a valued part of the heritage of the State of Idaho and shall forever be preserved for the people and managed through the laws, rules and proclamations that preserve the future of hunting, fishing and trapping.” Continuity of previously approved and codified Fish and Game rules governing the classification, protection, and taking of various types of fish and wildlife; the education and licensing of hunters, anglers, and trappers; emergency feeding of wildlife; and import, export, possession, release and sale of fish and wildlife implements this constitutional directive, as well as the directive of the State’s Wildlife Policy, as set forth in Section 36-103(a), Idaho Code, and other statutory directives. Continuity of existing rules for Commission procedure, use of state-owned or controlled lands, and authorization and accountability for licensing vendors implements good governance, public transparency, and responsible management of state monies and assets.

In addition, these rules incorporate simple modifications to existing IDAPA 13.01.04 as directed by 2019 legislation rather than re-authorizing outdated provisions; these changes were directed in Senate Bill 1088aa (changing the process for award of five special big game tags for disabled veterans with an Idaho Division of Veterans Services (IDVS) process to screen and prioritize applicants, with two of the tags allocated to hunts designated by IDVS) and House Bill 192 (as to a change in sale dates for outfitter allocated deer and elk tags and adding another option for allocating tags).

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedure Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

b. Landowner appreciation program controlled hunt tags issued to nonresidents shall not be considered as part of the nonresident quota. (6-30-19)

Only valid, current-year controlled hunt deer, elk, pronghorn, or black bear tags may be used in conjunction with a landowner appreciation program. No person may kill more than one (1) deer, elk or pronghorn during a calendar year EXCEPT:
a. Depredation Hunts. In depredation hunts, one (1) additional deer, elk, pronghorn, or black bear may be taken by persons holding tags for those hunts; EXCEPT: those depredation hunters who were selected for depredation hunts prior to the controlled hunt season for the unit(s) in which they hold a controlled hunt tag must include any animal they harvest within the restrictions imposed by the controlled hunt tag. b. Two thousand four hundred (2,400) elk tags (A or B tags for all zones). (6-30-19)

02. Restrictions. Tags for use in general hunts shall be sold on a first-come, first-serve basis through July 14 of each year. Application for purchase of these tags shall be made by the outfitter for the nonresident on a form prescribed by the Department. The application shall be accompanied by the appropriate license fees and a certification by the outfitter that the nonresident hunter has a contract to hunt with the outfitter making application. (6-30-19)

03. Unsold Tags. Any tags not sold by July 15 of each year shall be sold by the Department to nonresidents on a first-come, first serve basis. 501. – 504. (RESERVED)

505. DEER AND ELK TAG ALLOCATION.

01. Allocation of Tags for Capped General Hunt Units of Zones. Pursuant to Section 36-408, Idaho Code, the Commission may allocate a number of deer and/or elk tags for use by hunters with signed agreements with licensed outfitters in zones with limited numbers of tags. The Commission may use this subsection or the allocated tag provisions of Section 36-408, Idaho Code for outfitter tags in capped zones.

a. When the number of hunters in a general hunt unit or zone becomes restricted, the Department will calculate the initial number of allocated tags for each zone using the Idaho Outfitters and Guides Licensing Board’s records of average historic use during the previous five (5) year period. Where it is biologically feasible, any reductions in the number of tags available within a zone which exceeds twenty percent (20%) will be spread over a three (3) year period with a maximum reduction of fifty percent (50%) taken in the first year and twenty-five percent (25%) in the second year. (6-30-19)

b. The allocation of tags will be calculated on a zone basis. Any reduction or increase in hunting
opportunities will be proportionate among non-outfitted hunters and outfitted hunters and will be proportionate among resident and non-resident hunters; EXCEPT where such reduction would result in an allocation of greater than twenty-five percent (25%) for non-resident hunters, the Commission may reduce the allocation for non-resident hunters to a percentage of not less than twenty-five percent (25%). (6-30-19)

02. Allocation of Tags for Controlled Hunt Areas. The Commission may set a nonresident tag limit for any controlled hunt area, including an area where tags available to residents are unlimited. The Commission may only allocate outfitter tags in controlled hunt areas with historic licensed deer and/or elk outfitted area(s). Hunt application and eligibility rules will apply to allocated tags in controlled hunts. (6-30-19)

a. The number of outfitter allocated tags will be in addition to the number of tags authorized by the Commission within each controlled hunt area with historic licensed deer and/or elk outfitter areas. (6-30-19)

b. Prior to submitting an application for an outfitter allocated controlled hunt, the applicant must have a written agreement with an outfitter licensed in the hunt area. Successful applicants of an outfitter allocated controlled hunt must hunt with an outfitter licensed for the hunt area. The outfitter must purchase the successful applicant’s controlled hunt tag by August 20. (6-30-19)

c. Successful applicants who do not want to participate in the outfitted hunt can decline the hunt upon written notification to the Department. Those declining the hunt will then be eligible to participate in a general season or leftover controlled hunt. Those drawing an outfitted controlled hunt and then declining the controlled hunt will be subject to the appropriate waiting period. (6-30-19)

d. Successful applicants that do not secure the services of an Idaho licensed outfitter and have not purchased the controlled hunt tag by August 20 will forfeit the opportunity to purchase a controlled hunt tag. The forfeited controlled hunt tag will then be listed as a leftover controlled hunt tag. The Department will inform the Idaho Outfitters and Guides Board that a leftover controlled hunt tag is available. After securing a client, the outfitter(s) may then purchase the leftover controlled hunt tag at a Department office. (6-30-19)

e. The number of outfitter allocated tag(s) will be determined by using one (1) of the following options or by using the allocated tag provisions of Section 36-408, Idaho Code:

i. No less than one (1) tag and no more than three percent (3%) of the total tags; or (6-30-19)

ii. A number based on the average historic use during the previous five (5) year period to be rounded up when a decimal equals or exceeds zero point six (0.6) and rounded down when a decimal is less than zero point six (0.6); or (6-30-19)

iii. An unlimited number of allocated tags or a number of allocated tags based on historic use as alternatives only for controlled hunt areas with limited nonresident tags and unlimited resident tags; or (6-30-19)

iv. No tags will be allocated. (6-30-19)

506. DEER AND ELK OUTFITTER ALLOCATED TAG.

01. Allocated Tags. Deer and elk tags shall annually be allocated for sale to persons who have entered into a signed agreement to utilize the services of an outfitter who is licensed in that zone under Title 36, Chapter 21, Idaho Code. (6-30-19)

02. Distribution of Allocated Tags. Allocated tags shall be sold by the Department, as designated by Section 36-2107, Idaho Code, and any related IDAPA 25.01.01, “Rules of Idaho Outfitters and Guides Licensing Board,” to hunters with signed agreements with licensed outfitters in those zones with a cap on the number of tags sold. In zones where resident and nonresident deer and/or elk tags are issued by lottery, allocated tags will be issued by lottery. Application for the purchase of allocated tags shall be made by the outfitter for the hunter on a form prescribed by the Department. The application shall be accompanied by the appropriate license fees and a certification by the outfitter that the hunter has a signed agreement to hunt with the outfitter making application. (6-30-19)
03. **Designated Buyers.** Purchasers of allocated tags who return their unused tag and a notarized affidavit stating that the tag buyer has not hunted may designate another person to purchase a replacement tag. If the original buyer does not make a designation, the outfitter may make the designation. The designated buyer must pay the regular fee for the replacement tag. (6-30-19)

04. **Unsold Tags.** Any allocation tags not sold by August 1 of each year shall be sold by the Department through a waiting list methodology. (6-30-19)

Sections 36-104, 36-105 and 36-111, Idaho Code, authorize the Commission to adopt rules concerning feeding of pronghorn, elk, and deer. (6-30-19)

001. TITLE AND SCOPE.
The title of this chapter is “Rules Governing Feeding of Pronghorn, Elk, and Deer.” These rules establish criteria for determining a feeding emergency, govern feeding operations, and prohibit private feeding within a designated CWD Management Zone. (6-30-19)

002. WRITTEN INTERPRETATIONS.
Written interpretations of these rules and compliance documentation are available at the main office. (6-30-19)

003. ADMINISTRATIVE APPEALS.
“Idaho Rules of Administrative Procedure of the Attorney General,” IDAPA 04.11.01, govern administrative appeals under this chapter. (6-30-19)

004. INCORPORATION BY REFERENCE.
This chapter incorporates no documents by reference. (6-30-19)

005. OFFICE — OFFICE HOURS — MAILING ADDRESS AND STREET ADDRESS.
The main office of the Department and Commission is open from 8:00 a.m. to 5:00 p.m. except Saturdays, Sundays and legal holidays. The mailing address is P.O. Box 25, Boise, ID 83707. The street address is 600 S. Walnut Street, Boise, Idaho. (6-30-19)

007. -- 099. (RESERVED)

100. INTENT.
The Commission recognizes the importance of maintaining big game populations under natural conditions. Winter forage is the major limiting factor determining big game population size. To maintain these winter ranges, big game numbers are controlled through harvest. The Commission does not sanction widespread supplemental feeding programs. Additionally, supplemental feeding concentrates big game animals, making deer and elk susceptible to spreading or contracting Chronic Wasting Disease (CWD), as well as other diseases transmissible to livestock. The risk of disease transmission may factor into making a supplemental feeding decision. Big game harvests and weather vary from year to year throughout the state. In most years and areas, snow depths, temperatures, and animal body condition do not create adverse conditions for wintering animals. Unusual weather conditions, limited winter forage, or other circumstances may create critical periods of stress for animals or force them into areas involving public safety. The Commission is unable to manage big game populations for extreme weather. Therefore, emergency feeding of big game is appropriate under certain criteria. (6-30-19)

101. DELEGATION OF AUTHORITY TO REGIONAL SUPERVISORS.
Because the declaration of and quick response to a feeding emergency depends on local conditions, the Commission and Director delegate authority to declare a feeding emergency and to expend funds on feeding to the Department’s Regional Supervisors. (6-30-19)

102. EMERGENCY FEEDING CRITERIA.

01. Declaration of Feeding Emergency. A feeding emergency may be declared if one (1) or more of the following criteria are met:
a. Actual or imminent threat of depredation to private property. (6-30-19)T
b. Threat to public safety, including traffic hazards. (6-30-19)T
c. Excessive mortality that would affect herd recovery. (6-30-19)T
d. Limited or unavailable winter forage caused by fire or unusual weather. (6-30-19)T

02. **Additional Guidelines.** Regional Supervisors may develop additional guidelines on emergency feeding within the listed criteria based on risk of disease transmission, local conditions, and local public input. (6-30-19)T

103. FEED STOCKPILES.
The Department has identified certain locations for stockpiling emergency feed. It is impractical and cost prohibitive to purchase feed and transport it to these locations after snowfall. The Commission and Director declare that stockpile maintenance constitutes a feeding emergency and authorize the expenditure of funds for stockpile maintenance. (6-30-19)T

104. -- 199. (RESERVED)

200. PROHIBITION ON PRIVATE FEEDING OF DEER AND ELK WITHIN DESIGNATED CWD MANAGEMENT ZONE.

01. **Prohibition.** It is unlawful to purposely or knowingly provide supplemental feed to deer and elk within any CWD Management Zone designated by the Commission, except supplemental or emergency feeding activities conducted or authorized by the Department. (6-30-19)T

02. **Incidental Grazing.** Incidental grazing by big game animals on private rangeland forage, standing agricultural crops, or agricultural crop residue left on the ground following typical harvest practices is not a violation of this section. (6-30-19)T

03. **Incidental Feeding.** Incidental feeding of big game animals during the normal practice of providing feed to livestock in the winter is not a violation of this section. (6-30-19)T

201. -- 999. (RESERVED)
13.01.19 – RULES FOR SELECTING, OPERATING, DISCONTINUING, AND SUSPENDING VENDORS

000. LEGAL AUTHORITY.
Sections 36-301 and 36-307, Idaho Code authorize the Commission to adopt rules governing issuance and sale of licenses and authorization and accountability of license vendors. (6-30-19)T

001. TITLE AND SCOPE.
The title of this chapter for citation is IDAPA 13.01.19, “Rules for Selecting, Operating, Discontinuing, and Suspending Vendors.” These rules set forth the Commission’s and Department’s policies and procedures regarding vendor administration. (6-30-19)T

002. WRITTEN INTERPRETATION.

02. Class Two. A store with a sporting goods department or section which carries a complete line of hunting and fishing supplies and other sporting equipment, and open a minimum of five (5) days a week year around except for major holidays. (6-30-19)T

03. Class Three. A store which specializes in a single aspect of hunting or fishing such as gun, archery or fly fishing shops. (6-30-19)T

04. Class Four.

a. Strategic. A business or government agency located in an area where the Department has determined there is a need for the public to have licenses available. This may be in areas where there is no or very limited license availability within a twenty-five (25) mile radius from established license vendors. (6-30-19)T
b. **Exceptional Service.** A business which can provide exceptional license availability in comparison to existing license vendors in the vicinity. This may include, for example, being open twenty-four (24) hours a day, seven (7) days a week, but which would not be classified as a class one, two, or three vendor. (6-30-19)T

05. **Class Five.** A business which is not open on a twelve (12) month basis such as summer fishing resorts, but which would otherwise qualify for classes one to four, inclusive. If the business is an outfitter or guide, it must have a permanent business location open to the public for license services. (6-30-19)T

06. **Class Six.** All other businesses which provide no special or exceptional service to the Department or public. (6-30-19)T

101. **APPLICATION.**

01. **Form.** Applications will be on a form prescribed by the Department. Each vendor shall enter into a written agreement with the Department. (6-30-19)T

02. **Department.** (6-30-19)T

a. Nonresponse by Applicant. The application sent out by the License Section will be considered void if the License Section has not received the application form and all other required information from the applicant sixty (60) days after the date of the transmittal letter. The applicant may request up to a thirty (30) day time extension to complete the form. (6-30-19)T

b. Application Review -- Quarterly. The Department will quarterly evaluate vendor applications for approval or denial. The Department will have thirty (30) calendar days after receipt of all necessary forms from the applicant and department personnel to review and investigate the application. The date received plus thirty (30) days will determine into which quarterly evaluation each vendor application will be considered. Applications from the same area will be evaluated together to determine which will best meet the needs for a vendorship in that area. The evaluations and determination of approval or denial will be made quarterly on or before March 1, June 1, September 1, and December 1. Exceptions may be made by the Department when there are overriding Department and public needs for an immediate replacement of a license vendor in an area. This will primarily occur where there would be no vendor services available to the public within a twenty-five (25) mile radius. (6-30-19)T

c. Field Review. After the License Section has received the application form and all other required information from an applicant, they will contact the Regional Conservation Officer for a recommendation on the application. The Regional Conservation Officer will have ten (10) days to provide the License Section with a recommendation on the application. (6-30-19)T

03. **Applicant.** (6-30-19)T

a. Application Form. A license vendor applicant must complete the application form in its entirety. Any false or misleading response will void the application. (6-30-19)T

b. Credit Rating. The applicant must submit the original copy of a current credit rating from a recognized credit bureau with the completed application form. (6-30-19)T

Form Submission. The completed vendorship application form and credit rating must be submitted to the License Section no later than sixty (60) days after the date of the application transmittal letter. (6-30-19)T

c. Approved Application. If the application is approved the required vendorship contract, agreements, deposits, and bond (if required) must be received within sixty (60) days from the date of the applicant’s approval letter. Failure to meet the deadlines will void the approval except for extenuating circumstances approved by the Department. (6-30-19)T

d. Denied Application. Any applicant who has been denied a license vendorship may appeal that decision to the director. The applicant may request the director to establish a hearing in accordance with the Administrative Procedures Act. (6-30-19)T

The number of active vendors, including approved vendor applicants, is limited to four hundred seventy-five (475).

120. **CONTRACT AGREEMENT VIOLATIONS.**

   01. **Notices of Contract Violations.** Notices of contract violations will be issued by the Department, whenever a vendor shall fail to either make a license report or send in voided or canceled licenses on time or issue licenses as instructed.

   02. **Vendorship Performance Report.** Prior to issuing a third contract violation, a vendorship performance report (BA-119) will be sent to the appropriate conservation officer. The conservation officer should discuss the problem with the vendor and recommend whether or not a third violation should be issued. The form should be submitted to the License Section through the conservation officer’s supervisors for their comments.

   03. **Intent to Suspend.** Prior to suspending a vendor upon a suspension ground, a written notice of intent to suspend shall be sent to the vendor, except where the Department determines that an emergency or a risk to the public is created by the vendor’s conduct or where the vendor has failed to pay for any fund deficiency within the
prescribed time, in which case the Department may terminate the vendor’s agreement immediately. The vendor shall have fifteen (15) days in which to submit a written dispute to the Department.

04. Issuing Licenses. Each vendor is responsible to issue all licenses in the proper manner, and under the instructions set forth by statutes, Fish and Game rules, the contract agreement, the vendor manual, and the conservation officer.

121. TERMINATION OR SUSPENSION OF VENDOR.

01. Suspension Grounds. The Department may terminate or suspend a license vendor on the following grounds:

a. The vendor fails to have sufficient funds for the electronic funds transfer (EFT) to the Department more than once during any twelve (12) month period.

b. The vendor fails to make good any fund deficiency to the Department within three (3) days of notification.

c. The vendor fails to follow any procedures specified by the Department for selling or reporting sales.

d. A vendor will be suspended for up to twelve (12) months following a third contract agreement violation within any twelve (12) month period.

i. A vendorship will be terminated immediately upon notice from the bonding company that the vendor’s bond has been canceled.

k. A vendor will be terminated immediately upon receiving two (2) suspensions in any three (3) year period.

l. The issuing vendor must be sure that the license information is complete and is recorded before the license sale is final. Negligence in obtaining proof of residence or completion of the application portion of the license could constitute grounds for suspension of a vendorship.

All licenses, unused license stock, void or canceled documents, supplies, and equipment must be returned to the Department as soon as possible. The new owner must apply for a new vendorship. (6-30-19)

   b. All Other Areas. All other vendors who fail to sell at least one hundred twenty-five (125) licenses during the first year of operation, or at least two hundred twenty-five (225) licenses during the second and subsequent year, will be terminated at the end of the calendar year. (6-30-19)

   c. A vendorship not selling the minimum number of licenses will not be terminated if the Department determines the service is necessary. (6-30-19)

A person’s social security number is considered confidential and the vendor will not release the number to any third party. (6-30-19)

   03. **Complacency.** Vendors shall otherwise ensure that they issue licenses in compliance with Idaho Code, Title 36 and Title 13, IDAPA. (6-30-19)

The original voided license and cancellation receipt shall be submitted to the Department at the week’s end and is to be postmarked on or before the following Wednesday. If the original license is not received when due, the vendor may be charged for the value of the license. (6-30-19)

152. **LOSS OF DOCUMENTS AND FEES.**

A vendor is responsible for all lost documents and blank license stock, regardless of the reason for loss. The Department shall be notified immediately of any loss, and the vendor shall submit a detailed report of the loss. 157. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 36-104, 36-303, 36-404, 36-407, 36-409, 36-412, 36-701, 36-703, and 36-708, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code. In conjunction, the Idaho Fish and Game Commission (Commission) will accept oral comment concerning this rulemaking at its meeting at the Idaho Department of Fish and Game Regional Office at 99 Highway 93 North, Salmon, Idaho 83467 on July 24, 2019, beginning at approximately 8 pm.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and publishes the following existing and previously approved and codified chapters of IDAPA 13, Rules of the Department of Fish and Game. This temporary and proposed rulemaking includes edits and re-numbering that do not significantly change the effect of existing rules to comply with Uniform Format Requirements of “Rules of the Office Of Administrative Rules Coordinator,” IDAPA 44.01.01, and to comply with the Red Tape Reduction Act (Executive Order No. 2019-02) directing agencies to streamline state government through the repeal of outdated or ineffective rules or the significant simplification of rules.

• IDAPA 13.01.10.410 (expiring rule numbered as 13.01.10.400.09)
• IDAPA 13.01.19.102 (consolidation of expiring rules numbered as 13.01.19.112 and 13.01.20.102.04)

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

In addition, the Idaho Constitution, Art. 1, Sec. 23, states the “rights to hunt, fish and trap, including by the use of traditional methods, are a valued part of the heritage of the State of Idaho and shall forever be preserved for the people and managed through the laws, rules and proclamations that preserve the future of hunting, fishing and trapping.” Continuity of existing fee rules support hunter, archery, and trapper education, and implement good governance, public transparency, accountability for license vendors and large commercial wildlife facilities, and responsible management of state monies and assets.

The fee or charge imposed by these rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget, or are bond requirements for security of public...
money or guarantee of performance and reimbursement of state costs. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following are agency specific findings on a chapter-by-chapter basis. The fee rules in Chapter 2, Sections 100 and 102 (IDAPA 13.01.02.100.02, 13.01.02.102.02) implement an eight dollar ($8.00) fee for hunter, archery, and trapper education. Section 36-412(c), Idaho Code, specifically directs the Commission to establish education program fees not to exceed eight dollars ($8.00). These fees are part of the dedicated fund portion of the State of Idaho’s budget. The Department’s obligation to provide hunter, archery, and trapper education is a crucial safety measure and integral in fulfilling the Department’s constitutional and statutory obligation to provide hunting and trapping opportunities to the public. The fee rule in Chapter 4, Section 600 (IDAPA 13.01.04.600.03) establishes a $50 processing fee and sliding scale for refund of nonresident licenses, permits, and tag in special circumstances. These fees are part of the dedicated fund portion of the State of Idaho’s budget and are integral the Department’s license system. The fee rule in Chapter 8, Section 263 (IDAPA 13.01.08.263.d) provides that overpayment of fees of more than five dollars ($5) will be refunded and overpayment of five dollars ($5) or less will not be refunded and will be retained by the Department. This rule is critical for the Department because refunds of these amounts cost more to process than the amount of the actual refund. The fee rule in Chapter 10, Section 410 (IDAPA 13.01.10.410.03) provides bond requirements for large commercial wildlife facilities. These bonding requirements should be reauthorized to avoid immediate danger because they are integral to guarantee performance of license conditions and to reimburse the Department for any costs incurred for cleanup of abandoned or closed facilities, removal of animals from abandoned or closed facilities, capture or termination of escaped animals, or disease control. The fee rule in Chapter 19, Section 102 (IDAPA 13.01.19.102.04) implements a $10,000 minimum surety bond requirement for vendors that present a risk level appropriate for surety. License vendors receive and hold public monies from the sale of licenses, and Section 36-303 recognizes bonding requirements for license vendors. This fee rule needs to be reauthorized to avoid immediate danger because it is critical to ensuring the Department has the ability to recoup public licensing dollars from vendors who do not fully reimburse the Department.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The following is a description of each fee category:

- IDAPA 13.01.02.100.02 and 13.01.02.102.02 implement a statutory mandate to charge for hunter, archery, and trapping education. Section 36-412, Idaho Code, mandates that the Commission implement education programs in hunting, trapping, and archery and provides the “commission shall establish fees for each program not to exceed eight dollars ($8.00).” This rule carries out this statutory mandate by implementing an eight dollar ($8.00) fee for hunter, archery, and trapper education. These fees have been in effect since March 24, 2017.
- IDAPA 13.01.04.600.03 provides that non-resident general season and controlled hunt deer or elk tag fees may be refunded in certain circumstances. This rule establishes a $50 processing fee for tag refunds or a sliding scale for tag refunds in these special circumstances. This rule has been in effect since April 6, 2005.
- IDAPA 13.01.08.263.d provides that overpayment of fees of more than five dollars ($5) will be refunded and overpayment of five dollars ($5) or less will not be refunded and will be retained by the Department. This rule has been in effect since July 1, 1993.
- IDAPA 13.01.10.410.03 provides bond requirements for large commercial wildlife facilities of fifty thousand dollars ($50,000) or an amount equal to ten percent (10%) of the total facility construction cost plus two thousand dollars ($2,000) per animal. This bond is meant to guarantee performance of license conditions and to reimburse the Department for any costs incurred for cleanup of abandoned or closed facilities, removal of animals from abandoned or closed facilities, capture or termination of escaped animals, or disease control. This rule has been in effect since July 1, 1999.
- IDAPA 13.01.19.102.04 implements a $10,000 minimum surety bond requirement for vendors that present an undue risk. This bonding requirement ensures license vendors have sufficient coverage to ensure the Department is fully reimbursed for license sales and mitigating undue risk that may otherwise be placed upon the Department in the absence of such bonding. Section 36-303, Idaho Code, authorizes the Department to require a surety bond for license vendors. These vendor bonding rules have been in place since March 20, 1997.
FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedure Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

A facility must house at least three (3) or more species or encompass display or exhibit areas larger than one (1) acre to qualify for consideration. (6-30-19)

01. Animal Display and Security. Animals will be displayed in such a way as to preserve their dignity and in a natural appearing environment. Display should enhance appreciation for the species and its natural history. Any cage or enclosure shall be of such structure or type of construction to prevent escape of the captive wildlife, or damage to native wildlife through habitat degradation, genetic contamination, competition, or disease. The Department will refer to the standards such as those set by the American Zoological Association to develop cage, open space, shelter, and enclosure requirements. 13.01.19 – RULES FOR SELECTING, OPERATING, DISCONTINUING, AND SUSPENDING VENDORS

(BREAK IN CONTINUITY OF SECTIONS)

102. SELECTION.
The following factors will be considered for selecting an applicant to become a license vendor: (6-30-19)

01. Low Numbered Vendors. Applicants classified in lower-numbered vendor classifications will be given priority over applicants in higher-numbered classifications from the same general location. (6-30-19)

02. Class Six Applicants. Applicants classified as class six (6) will generally not be approved. They will be approved only when they have demonstrated a major significant public benefit to have a license vendorship at their location. (6-30-19)

03. Unsettled Debts Reported. Applicants who have unsettled debts listed with a credit bureau will not be approved. Unsettled debts that are in dispute will not be considered against the applicant. (6-30-19)

04. Surety Bond Needed. The Department may require an applicant to provide at a minimum for each location, a ten thousand dollar ($10,000) surety bond from a corporate surety authorized to do business in the state of Idaho, which guarantees the payment of all state funds collected as a result of licenses and tags issued by the license vendor if it appears from the application or information otherwise obtained by the Department that an undue risk might otherwise be placed upon the Department in the absence of such bonding. Applicants who would otherwise qualify for a vendorship and have been in business less than three (3) years will be required to furnish the Department a ten thousand dollar ($10,000) surety bond in the form and length as determined by the Director. Upon request, at the completion of two (2) years of service, the Department may review the requirement and may release the vendor from the bonding requirement. (6-30-19)

05. Permanent Place of Business Required. Applicants who do not have a permanent place of business open and accessible to all segments of the public will not be approved. (6-30-19)

06. Number of Existing Vendors in Area. The number of existing vendors in the applicant’s geographical area and their distance to the applicant. For the three (3) closest existing vendors, their hours and days of operation, classification, accessibility to the public, and other pertinent information, including their distance to the applicant, will be compared to the applicant. (6-30-19)

07. Minimum Sales Volume Requirement. The applicant’s estimated license sales volume should meet the minimum sales volume requirements. If the applicant is seeking to replace an existing vendor at the prior vendor’s location, the prior vendor’s sales volume will be used to estimate the applicant’s sales volume. (6-30-19)

08. Satisfactory Past Performance Record Required. If the applicant was a license vendor or the manager for a license vendor within the past five (5) years, the performance record for compliance with the requirements for license vendors must be satisfactory. (6-30-19)

09. No Fish and Game Violations Allowed. Neither the owner(s) nor store manager (if the applicant is a corporation) shall have had a fish and game violation other than an infraction within the past five (5) years. (6-30-19)

10. Remote Location. An applicant’s location will be considered remote if there are no year-round vendors within a twenty-five (25) mile radius. (6-30-19)

11. Need Determination. Can the public reasonably obtain licenses/tags without this vendor. (6-30-19)
**NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED RULEMAKING**

**EFFECTIVE DATE:** The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 67-5003, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters with modification and simplification under IDAPA 15.01, rules of the Idaho Commission on Aging:

**IDAPA 15.01**
- 15.01.01, Rules Governing Senior Services and Older Americans Act Programs (Formerly Senior Services Programs) – Reordered and simplified
- 15.01.02, Rules Governing Adult Protective Services Programs (Formerly Area Agency Adult Protection Programs) – Reordered and simplified
- 15.01.03, Rules Governing the Ombudsman for the Elderly Program
- 15.01.20, Rules Governing Area Agency on Aging (AAA) Operations – Reordered and simplified
- 15.01.30, Rules Governing the Senior Community Services Employment Program

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Idaho Senior Services and Older Americans Act are designed to provide older individuals with the assistance they need to compensate for functional or cognitive limitations with the goal of living safe, dignified, and healthy lives within the community of their choice. In addition, The ICOA is charged by statute to provide Adult Protective Services to ensure the vulnerable adult population in Idaho is protected from abuse, neglect, and exploitation.

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously...
promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

011. -- 019. (RESERVED)

020. POLICY STATEMENT.
The ICOA is charged by statute to provide APS services to ensure the vulnerable adult population in Idaho is protected from abuse, neglect, and exploitation. Protective services shall be provided that are the least restrictive to personal freedom and ensure the maximum independence of individuals served. In protecting the vulnerable adult
population, APS is also intended to provide assistance to care giving families experiencing difficulties in maintaining functionally impaired relatives in the household.

021. ADMINISTRATIVE REQUIREMENTS.
In accordance with Section 67-5011, Idaho Code, the ICOA shall administer APS through contracts with Area Agencies on Aging.

022. PROVISION OF SERVICE REQUIREMENTS.
In accordance with Section 67-5011, Idaho Code, each Provider shall assume all responsibilities cited in Title 39, Chapter 53, Idaho Code.

023. INVESTIGATIVE REQUIREMENTS.

01. Review of Allegations. Upon receipt of a report of abuse, neglect, or exploitation the Provider shall conduct a review of the allegations of such report to determine whether:

a. The report was required to be made to ICOA or its contractors pursuant to Section 39-5303, Idaho Code;

b. An emergency exists; and

c. In cases involving resident-to-resident contact reported pursuant to Section 39-5303(A), Idaho Code, determine whether the case involves the sexual abuse, death, or serious physical injury jeopardizing the life, health, or safety of a vulnerable adult, or involves repeated physical or verbal altercations between residents, not resulting in observable physical or mental injury, but constituting an ongoing pattern of resident behavior that a facility’s staff is unable to remedy through reasonable efforts.

02. Need for Investigation. If, based on its review, the Provider determines that a report involves a nursing facility defined in Section 39-1301(b), Idaho Code, and was required to be made to the Department pursuant to Section 39-5303, Idaho Code, the Provider shall immediately refer the report to the Department. If, based on its review, the Provider determines that a report involving resident-to-resident contact was exempted from reporting by Section 39-5303A, Idaho Code, no further investigation need be conducted on such report. The Provider shall investigate all other reports.

03. Vulnerability Determination. Upon investigating a report, the Provider shall determine whether an alleged victim is vulnerable as defined in Section 39-5302, Idaho Code. If the alleged victim is determined to be vulnerable as defined in Section 39-5302, Idaho Code, the Provider shall continue the investigation. If the alleged victim is not vulnerable as defined in Section 39-5302, Idaho Code, the case shall be closed; however, the Provider may refer the complaint to Information and Assistance, Case Management, the Ombudsman, law enforcement or other appropriate entity for investigation and resolution.

04. Assessment of Alleged Victim. An alleged victim’s vulnerability and associated risk factors shall be determined through the ICOA-approved standardized assessment forms. Initial interviews and assessments of an alleged victim shall be conducted by the Provider.
05. **Investigative Determinations.** The Provider shall make one (1) of two (2) investigative determinations upon completion of an APS investigation:

a. **Substantiated.** A report of abuse, neglect, or exploitation of a vulnerable adult by another individual is deemed substantiated when, based upon limited investigation and review, the Provider perceives the report to be credible. A substantiated report shall be referred immediately to law enforcement for further investigation and action. Additionally, the name of the individual against whom a substantiated report was filed shall be forwarded to the Department pursuant to Sections 39-5304(5) and 39-5308(2), Idaho Code, for further investigation. In substantiated cases of self-neglect, the Provider shall initiate appropriate referrals for supportive services with the consent of the vulnerable adult or his legal representative.

b. **Unsubstantiated.** The Provider shall close the case if a report of abuse, neglect, or exploitation is not substantiated. If a report is unsubstantiated, but the Provider determines that the vulnerable adult has unmet service needs, the Provider shall initiate appropriate referrals for supportive services with consent of the vulnerable adult or their legal representative.

06. **Protective Action Plan.** Upon substantiating a report of abuse, neglect, or exploitation of a vulnerable adult, the Provider shall develop and implement a Protective Action Plan.

07. **Caretaker Neglect.** In investigating a report of caretaker neglect, the Provider shall take into account any deterioration of the mental or physical health of the caregiver resulting from the pressures associated with care giving responsibilities that may have contributed to the neglect of the vulnerable adult. In such cases, the Provider shall make every effort to assist the primary caregiver in accessing program services necessary to reduce the risk to the vulnerable adult. In APS cases, in which family members are experiencing difficulties in providing twenty-four (24) hour care for a functionally impaired relative, the Provider shall make appropriate referrals to available community services to provide needed assistance.

08. **Adult Protective Services and Ombudsman Coordination.** Providers shall ensure that APS and the Ombudsman program maintain a written agreement establishing local cooperative protocols in the investigation of complaints.

09. **Confidentiality.** All records relating to a vulnerable adult and held by a Provider are confidential and shall only be divulged as permitted pursuant to Sections 39-5307, 39-5304(5), and 39-5308, Idaho Code.

032. **CASE CLOSURE.**

01. **Case Closure.** The Provider shall close a case under the following circumstances:

a. The Provider shall close a substantiated case upon a determination that an initiated PAP or law enforcement involvement has successfully reduced the risk to the vulnerable adult.

b. The Provider may close a substantiated case when the vulnerable adult refuses to consent to receive services, or upon a determination that the Provider has implemented all measures available to reduce risk but has been unable to reduce risk.

c. A case shall be closed if the Provider determines that an allegation has been made in bad faith or for a malicious purpose.

02. **Suspense File.** Closed cases shall be maintained in a suspense file until formal action is completed by law enforcement and/or the courts in the following instances:

a. Cases referred by the Provider to law enforcement for criminal investigation and prosecution as determined necessary by the law enforcement agency.

b. Cases referred by the Provider for guardianship/conservatorship proceedings.

These rules must be presented during orientation or, if that is not possible, at an enrollee meeting. The rules must also be contained in the subgrantee’s enrollee handbook or similar document. Enrollees must be given ample time to consider the ramifications of this policy. (7-1-98)

04. Relationship to the IDP. An IDP related termination must be a logical consequence of the agreements established between the enrollee and the subgrantee staff in the jointly signed IDP. The IDP must clearly and accurately reflect the goals of the enrollee. If the enrollee is unable or unwilling to commit to fulfilling the jointly signed IDP agreement, it is essential that this lack of commitment be determined and resolved early in the process. (7-1-98)

05. Consistency of Application. The subgrantee’s rules and procedures must be applied in a fair and consistent manner to all enrollees in a project. (7-1-98)

06. Adequate Internal Procedures. When the enrollee’s actions were not consistent with the IDP, staff must explore the cause in each case. A corrective action notice or letter must be developed and provided to the enrollee in each of these cases, including where a referral is provided but not fulfilled. The notice shall include appropriate response time frames. (7-1-98)

07. IDP Change. Where appropriate, an IDP may be modified to be consistent with a new situation which was not considered in the original IDP. (7-1-98)

08. Documentation. All determinations must specify the basic information relating to the termination. This information must be specific and verifiable. It must include written notice and time frames. (7-1-98)

09. Appeals Process. If an enrollee appeals the IDP-Related Termination decision, the Older Worker Coordinator will elevate the case to the administrator in charge of the local subgrantee’s operations for review. In the event the enrollee disputes the decision of the local administrator, the case will be elevated to the ICOA for resolution. (7-1-98)

012. COORDINATION.

01. Coordination Among JTPA Older Worker Programs, SCSEP, and Workforce Development Initiatives. Each subgrantee must demonstrate the coordination of ICOA administered SCSEP services with five percent (5%) JTPA Older Worker Program services and workforce development initiatives. (7-1-98)

02. Coordination Between JTPA Older Worker and SCSEP Service Providers. If the Area Agency on Aging (AAA) does not operate the JTPA Older Worker Program or the SCSEP in its PSA, the AAA must enter into a formal coordination agreement with the local service provider. (7-1-98)

013. SUBGRANTEE SELECTION.
Subgrantee selection shall be accomplished as stated in the SCSEP grant agreement between the ICOA and U.S. Department of Labor. (7-1-98)

014. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 67-5407(d)(e) and 67-5408, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 15.02, rules of the Idaho Commission for the Blind and Visually Impaired:

**IDAPA 15.02**
- 15.02.02, Vocational Rehabilitation Services – All rules except Sections/Subsections: 010.02 through 010.06, 010.08, 010.10, 011.01 through 011.07, 101.01, 101.07, 110.02 through 110.04, 111, and 210 through 210.03
- 15.02.03, Rules Governing the Independent Living Program – All rules except Subsections: 010.02, 010.03, 010.06, 011.01, and 011.02
- 15.02.04, Rules Governing the Prevention of Blindness and Sight Restoration Program – All rules except Subsections: 010.02 and 010.03
- 15.02.30, Business Enterprise Program – All rules except Sections/Subsections: 004, 100.08, and 140.01.c.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules and proposed changes are required for continued effective and efficient administration of programs and services provided by the Idaho Commission for the Blind and Visually Impaired.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the
agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. The dollar amount of insurance...
shall be fixed by the Program and the Committee using industry standards and state requirements as guidelines to assure up-to-date coverage. The cost of such insurance shall be a cost of operating the business of the facility and taken into account as such in determining the net proceeds of the business operation.

(3-15-02)

g. After an initial commitment to operate a primary location for twelve (12) months, an agreement may be terminated at anytime by the operator with at least thirty (30) days written notice to the Program. (3-15-02)

07. Cancellation. An agreement or contract may be cancelled by the Program at any time should the facility cease to be a vending facility by revocation of the permit by the property manager. NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 38-1508, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 15.03.01, rules of Administrative Procedure of the Idaho Forest Products Commission.

IDAPA 15.03
• IDAPA 15.03.01, Rules of Administrative Procedure of the Idaho Forest Products Commission – All rules except part of Section 010, and Subsections 200.02, 300.02, and Section 400.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These temporary rules are necessary to the operation of the Forest Products Commission to complete the mission of supporting Idaho’s Forest Products Industry by helping to grow awareness of the forest products industry.

The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. The Forest Products Commission budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the Forest Products Commission budget.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The fee rule specifies the collection and remittance of the assessment contained in Section 38-1515, Idaho Code.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being
re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Betty Munis, (208) 344-3292.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

Dated this 19th day of June, 2019.

**EFFECTIVE DATE:** The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

**AUTHORITY:** In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 67-5309, Idaho Code.

**PUBLIC HEARING SCHEDULE:** Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 15.04.01, rules of the Division of Human Resources (DHR) and Personnel Commission.

**IDAPA 15.04.01**

- IDAPA 15.04.01, *Rules of the Division of Human Resources and Personnel Commission* – All rules except Sections/Subsections 007, 010.02, 010.04, 010.07, 010.09, 010.13, 010.14, 010.16, 010.18, 010.22, 011, 011.01, 012, 012.01, 012.06, 013, 013.14, 020, 101, 101.02, 101.03, 102, 112, 141, 270, and 271.

- DHR removed sub-parts that were duplicated in statute, not referenced, obsolete, or outdated. The chapter has been reorganized and additional technical edits were made.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Section 67-5301, Idaho Code establishes DHR and states: “The legislature declares that, in its considered judgment, the public good and the general welfare of the citizens of this state require enactment of this measure, under the powers of the state.” DHR’s rules carry out this important legislative intent.

**FEE SUMMARY:** This rulemaking does not impose a fee or charge.

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.
INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

03. Separation. Employees appointed under a seasonal appointment may be separated from the seasonal appointment and returned as frequently as intermittent workload dictates. (3-16-04)

04. Duration of Appointment. If an employee has not been called to work for six thousand two hundred forty (6,240) hours (three (3) years), the seasonal appointment expires; rehire of the employee must be from a register. (12-10-90)

02. Transition to Classified Service. Temporary employees who have served at least one thousand forty (1,040) hours of continuous service, may go from temporary status to classified entrance probation status in that same position without further examination if the announcement for the temporary position from which the certified register was created indicates that the temporary position has the potential of becoming a permanent classified position. The classified position must be in the same classification and at the same location as announced. (3-29-17)
123. PROJECT-EXEMPT APPOINTMENTS (NON-CLASSIFIED).
Project-exempt appointments are non-classified positions and shall be limited to the length of the project grant or twenty-four (24) months, or four thousand one hundred sixty (4,160) hours of credited state service, whichever is shorter. (Ref. Section 67-5303(m), Idaho Code) (3-16-04)

As determined by the administrator, a current or former employee will be eligible for reinstatement to a classification in which he held permanent status, or if deleted its successor, or to another classification of equal or lower pay grade under the following conditions (salary treatment is covered by Rule 072.06). (5-8-09)

a. Reinstatement is limited to a period equal to the length of the employee’s probationary and permanent employment combined. (3-30-01)

b. The current or former employee must have separated from the classification for which reinstatement is desired without prejudice. A former employee must also have separated from state classified service without prejudice. (3-16-04)

c. The current or former employee must meet the current minimum qualifications of the classification to which reinstatement is desired. (3-16-04)

03. Examination. The administrator may require a current or former employee to pass an examination for the classification to which reinstatement is desired. (3-16-04)

04. Probationary Period. An appointing authority may negotiate for a probationary period as a condition of reinstatement except where prohibited. (Ref. Rules 124.05 and 145.01). (3-16-04)

05. Return from Military Duty. An employee returning from military leave without pay (Ref. Rule 250.04) who is relieved or discharged from military duty under conditions other than dishonorable will be, upon application, reinstated in his former position, or one of comparable classification, without loss of credited state service, status, or pay as prescribed by Sections 46-216, 65-508, and 65-511, Idaho Code, USERRA, or the Military Selective Service Act, Title 38, Chapter 43, U.S. Code. 03. Probationary Period. An appointing authority may negotiate with an employee for a probationary period as a condition for a voluntary transfer. Voluntary probation is not allowed for intra agency transfers. (Ref. Rule 150) (5-8-09)

04. Limitation. Transfers will not be used to abridge an employee’s rights in reduction in force prescribed by Rules 140 through 147. (5-8-09)

05. Transfer Between Agencies. An employee is eligible for transfer between agencies in the same classification in which he holds permanent status or to another classification in the same or lower pay grade for which
the employee meets the minimum qualifications. Accrued vacation and sick leave will be transferred in accordance with Rules 230.04 and 240.02. Salary treatment is covered by Rule 072.06. (5-8-09)

06. Restriction. Transfer of an employee between agencies is not permissible as long as there is a agency register with reemployment preference status (Ref. Rule 101.01) for the classification in the agency to which transfer is desired with names of eligibles who are willing to accept reemployment. (5-8-09)

07. Examination. The administrator may require an employee transferring between classifications to pass an examination for the classification to which transfer is desired. (3-16-04)

08. Involuntary Transfer. Notice and an opportunity to be heard must be given to any employee subject to an involuntary transfer. (5-8-09)

03. Resignation in Lieu of Dismissal. An employee may resign in lieu of being dismissed for cause. (7-1-93)

127. -- 128. (RESERVED)

129. ACTING APPOINTMENT TO A POSITION.

01. Conditions for Acting Appointment. At the discretion of an appointing authority, a classified employee with permanent status may be appointed to a position in a classification of higher pay grade within his own agency in an acting capacity whenever:

a. The incumbent of the position in the higher classification is on authorized leave of absence; or (3-16-04)

b. A vacancy exists and there is no agency register with reemployment preference status (Ref. Rule 101.01) with names of eligibles who are willing to accept reemployment, nor adequate agency register for the classification. (5-8-09)

02. Minimum Qualifications. To be eligible for an acting appointment, an employee must meet the minimum qualifications of the class. (4-5-85)

03. Notification. Appointing authorities must notify the administrator of each acting appointment no later than the effective date of the appointment unless an exception is specifically authorized by the administrator. (5-8-09)

04. Effective Date. The effective date of each acting appointment may be retroactive to the beginning of the pay period during which approval is granted. (3-16-04)

130. LIMITATION ON LENGTH OF APPOINTMENT.

Acting appointments shall be limited to the period of time necessary to fill the vacancy pursuant to procedures prescribed in these rules but in no case shall continue beyond one thousand forty (1,040) hours of credited state service unless specifically extended by the administrator. (3-16-04)

131. SALARY.
For any credited state service which an employee serves in a classification in an acting capacity, he or she shall receive the salary for the classification as though he or she had actually been promoted. (3-16-04)

132. EXPIRATION OF APPOINTMENT.

01. Return of Incumbent. When the incumbent of the classification returns from leave of absence, or the vacant position is filled, the acting appointment shall expire. The acting appointee shall be returned to the class, the pay grade and rate held immediately preceding the acting appointment. (3-16-04)

02. Failure of Incumbent to Return. Should the employee on leave of absence separate from state service, the employee serving in the acting appointment may continue to serve in that capacity until the vacancy has been filled but in no case exceed the time limits prescribed in Rule 130. (3-16-04)

133. -- 139. (RESERVED)

140. REDUCTION IN FORCE.

01. Conditions for Layoff. An appointing authority may lay off an employee whenever necessary due to:

a. Shortage of funds or work; (3-16-04)

b. Reorganization; (3-16-04)

c. The end of a limited service appointment; (3-16-04)

d. An employee’s failure to complete interagency promotional probation when demotion options are not available; or (3-16-04)

e. The abolishment of one (1) or more positions (ref. Rule 066). (3-16-04)

02. Layoff Decisions. Layoff decisions must not be based on race, color, national origin, gender, age, religion, disability, or political affiliation. Layoffs must be accomplished in a systematic manner with equity for the rights of classified employees and must not do away with an employee’s right to problem solving, or appeal if the layoff is in fact a dismissal. (5-8-09)

03. Assessment for Adverse Impact. In planning and conducting a reduction in force, the appointing authority must consider the effect layoff units and positions to be abolished may have on the composition of the agency work force. If layoff units or exclusions are established, adverse impact of protected classes must be assessed. The appointing authority must administer the reduction in force consistent with state and federal laws, and rules and guidelines governing adverse impact. (5-8-09)

04. Layoff by Position. Reduction in force must be by classification of position. (5-8-09)

a. Reduction in force may be limited to or specifically exclude employees appointed under selective certification (Ref. Rule 112) for bona fide occupational qualifications, or appointed to a classification with minimum qualification specialties. Inclusions or exclusions must include or exclude all incumbents of the classification appointed under similar selective certification, or the same option or minimum qualification specialty and must be approved in advance by the administrator. (3-16-04)

b. An appointing authority may petition the administrator to exclude an individual from a reduction in force whose retention may be required to meet agency mission critical needs. Requests must provide a documented rationale and exclusions must be approved in advance by the administrator. (5-8-09)

c. Limited-service appointments are defined by the project, program, or function for which the appointments were made. When a limited service project is completed or funding concluded, the limited service appointee is separated from state service as a layoff. However, limited service appointees have no reemployment
05. Layoff Unit. Reduction in force must be agency-wide or by organizational unit designated for layoff purposes. Layoff units are geographic, programmatic, or other identified subdivisions of an agency designated for layoff purposes by the appointing authority. They must be approved by the administrator before the effective date of the layoff. Organizational layoff unit designations must be renewed with a change in appointing authority or administrator. (3-16-04)

06. Reduction of Hours Worked. An involuntary reduction in the number of hours worked for a selected position constitutes a layoff unless there is an equal reduction of hours worked for all positions in the same classification in the agency or approved layoff unit for a limited period of time, such as a furlough. (5-8-09)

07. Downward Reclass. A material change in duties of one (1) or more positions resulting in an employee’s reclassification to a classification allocated to one (1) pay grade lower does not constitute a layoff (Ref Rule 067). More than one (1) pay grade change downward is considered a layoff, unless the change of duties is disciplinary (Ref. Section 190). (5-8-09)

141. CALCULATION OF RETENTION POINTS.
There will be an evaluation of all employees in the classification in the agency or organizational unit affected by the reduction in force based on a retention point system. Retention points are derived from experience as described in performance evaluations, classified state service, and veterans preference as described in Rule 141.03. The appointing authority will determine a process for the impartial assessment of evaluations to assign points as follows:

<table>
<thead>
<tr>
<th>Performance Level</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exemplary Performance</td>
<td>.100</td>
</tr>
<tr>
<td>Solid Sustained Performance</td>
<td>.075</td>
</tr>
<tr>
<td>Achieves Performance Standards</td>
<td>.050</td>
</tr>
<tr>
<td>Does Not Achieve Performance Standards</td>
<td>.00</td>
</tr>
</tbody>
</table>

01. No Performance Evaluation on File for a Twelve-Month Period. All credited state service for which there is no performance evaluation will receive seventy-five thousandths (.075) points per hour. A supervisor’s failure to document performance in a timely manner cannot be used to disadvantage an employee during retention point calculation. (5-8-09)

a. Grace period. Supervisors have ninety (90) days after each two thousand eighty (2,080) hours an employee works to complete the performance evaluation documentation. During that ninety (90) day time frame, the evaluation may be written to cover the two thousand eighty (2,080) hours or extended to also cover the time frame up to the date of the evaluation. (3-16-04)

b. Changes in prior periods not allowed. Once an evaluation has been signed by the supervisor, employee, manager, and other applicable reviewers, the document may not be changed, unless the change is a result of a problem solving dispute resolution. (3-16-04)

02. Calculation of Retention Points Since Last Evaluation. The most recent performance evaluation should be used to pro-rate retention points when calculating credited state service since that evaluation, unless that evaluation occurred more than two thousand eighty (2,080) hours from the date of calculation. In such cases, points are calculated in conformance with Rule 141.01. (5-8-09)

03. Veterans Preference. Veterans as defined in Title 65, Chapter 5, Idaho Code, will receive preference by the addition of retention points equivalent to three (3) years of service at a level that achieves performance standards. (Ref. Section 65-501, Idaho Code) (3-20-14)

04. Calculation Date Cutoff. No points will be calculated for the sixty (60) days prior to the effective
05. **Audit of Retention Points.** Each employee is entitled to an audit of retention points by an independent auditor designated by the administrator in cases of dispute between the appointing authority and the employee. The request for audit must be filed with the appointing authority within five (5) calendar days of the employee’s receipt of layoff notification. The decision of the independent auditor is binding on both parties unless an appeal is filed within thirty-five (35) calendar days from the date of the auditor’s notification to the affected parties. (3-16-04)

142. **CREDITED STATE SERVICE.**
Eligible credited state service for purposes of Rule 140 is defined as follows: (4-5-85)

01. **Service Prior to State Personnel System.** All credited state service prior to the establishment of classified service, Title 67, Chapter 53, Idaho Code. (Ref. Sections 67-5332 and 59-1604, Idaho Code, for definitions of credited state service) (4-5-85)

02. **Classified Service.** All classified credited state service since the establishment of classified service. (4-5-85)

03. **Nonclassified Service.** All credited state service in a position exempt from classified service if that position is subsequently transferred to classified service pursuant to Rule 040. (7-1-87)

143. **REDUCTION IN FORCE DETERMINATION AND NOTIFICATION.**

01. **Identification of Classifications.** The appointing authority will identify the classification of positions to be reduced or eliminated. (5-8-09)

02. **Calculation of Retention Points.** Retention points will be calculated for all employees assigned to the classification of position including those serving in underfill positions. Retention points need not be calculated where layoff involves a single-incumbent class. (5-8-09)

03. **Order of Reduction in Force.** The order of reduction in force will be by type of appointment held by the employee in the affected classification as follows: first to be laid off are the entrance probationary appointees, and then the permanent appointees including those serving a voluntary probation. Employees will be placed on the layoff list beginning with the employee with the highest number of retention points. Employee layoffs will be made from the layoff list in inverse order. When two (2) or more employees have the same combined total of retention points, retention will be determined in the following sequence: (Ref. Rule 150.02.c.) (3-28-18)

   a. The employee with the highest total retention points for the past thirty-six (36) months. (3-16-04)
   b. Random selection. (4-5-85)

04. **Notification to Affected Employees.** Each employee affected will be notified in writing of layoff and the rationale for the decision at least fifteen (15) calendar days prior to the effective date. Notification will include a copy of the agency layoff procedure and a copy of the computation of retention points when required (Ref. Rule 143.02). (5-8-09)

05. **Notification to Administrator.** The appointing authority must give written notice of layoff to the administrator at least fifteen (15) calendar days prior to its effective date and must provide a list of persons affected by the layoff with their retention point calculations and must indicate which employees will be laid off. (5-8-09)

144. **PLACEMENT ON REGISTER WITH REEMPLOYMENT PREFERENCE.**
A permanent employee laid off from their job or who chooses a voluntary demotion in lieu of a layoff, under these rules shall be placed on their classification’s register with reemployment preference in unranked order. Such placement will be for one (1) year from the effective date of demotion or layoff, or until the employee or former employee declines a total of three (3) separate job offers without good cause, whichever comes first. (Rule 104.01.n.) An employee or former employee may request their name be removed at any time. (3-16-04)
145. USE OF REGISTERS WITH REEMPLOYMENT PREFERENCE.

01. Priority for Reemployment by Agency that Conducted the Layoff. (3-16-04)

a. The employee who has been laid off will be offered reemployment to a position in the classification from which laid off, before any person outside that agency may be promoted to, transferred to, reinstated or appointed to that classification by an appointing authority of that agency. Appointing authorities may reassign or transfer individuals who are in the same classification within their agency but may not demote, promote, reclassify, or make acting appointments to that classification. If that agency determines a need to fill that classification, the employee who was laid off has first priority for that position. (Ref. Rules 125.04 and 125.08) Extenuating circumstances due to short term budget, workload, location, or other complexities may be used by the appointing authority to request a temporary waiver of this rule by the administrator. (4-7-11)

b. When attempting to fill vacancies for a classification where a lay off occurred, the agency will provide an opportunity to interview and will make their hiring selection from the individuals their agency laid off from the classification, including those separated from state service under Rule 241.02 and those that took a voluntary demotion in lieu of layoff. (5-8-09)

c. Individuals being returned to the classification from which they were laid off will be reinstated with the same salary, permanent status and their sick leave balance restored. If the pay minimum has increased, see Rule 072.03. (5-8-09)

02. Consideration for Hire by Other Agencies. For promotional opportunities, internal agency candidates are normally considered before outside recruitment occurs, including other agencies’ laid off candidates. However, individuals who have been laid off must be offered the opportunity to interview before other agencies consider candidates from statewide promotional or open-competitive recruitments. (3-16-04)

03. Employment by Other Agency. Individuals may be reappointed or reinstated if eligible. The salary of an employee re-hired after a layoff is negotiable between the employee and new appointing authority in the current pay grade for the classification in which the employee is appointed. (3-16-04)

04. Return to Register. If an individual finds another agency’s position unsatisfactory or does not satisfactorily complete a voluntary probation period, he may be placed back on a register for the remainder of their twelve (12) month time frame. Individuals appointed to a position, other than the classification from which laid off, will remain on preference register status for the remainder of the twelve-month (12) period if otherwise eligible. (5-8-09)

146. (RESERVED)

147. VOLUNTARY DEMOTION IN LIEU OF LAYOFF.

Within their layoff unit, an employee with permanent status may choose to accept a voluntary demotion rather than be laid off. Demotion options are limited to a classification, or if deleted, its successor, in which the employee held permanent status in the agency. Such demotion will not be permitted if it causes the layoff of an employee with greater retention points. (5-8-09)

01. Eligibility. (3-16-04)

a. Qualified. Employee must meet the classification’s current minimum qualifications and any minimum qualification specialties. (3-16-04)

b. Exclusion. Limited service appointees are not eligible to take any voluntary demotion that would result in the displacement of other employees. However, voluntary demotions to a vacant position are allowed with the approval of the appointing authority. (3-16-04)

02. Acceptance. To accept a voluntary demotion rather than a layoff, the employee must notify the appointing authority in writing of their decision no later than three (3) working days after written notification of the
layoff and opportunity to demote to a specific position. (3-16-04)

148. -- 149. (RESERVED)

150. PROBATIONARY PERIODS.

01. Probationary Period Required. Except as provided in Rule 040, every appointment and promotion to a classified position is probationary. (3-28-18)

02. Types of Probationary Periods. The probationary period serves as a working test period to provide the agency an opportunity to evaluate a probationary employee’s work performance and suitability for the position. There are three (3) types of probationary periods:

a. Entrance probation is the probationary service required of an employee at the time of his original appointment or any subsequent appointment to state classified service excluding reinstatement and transfer, the duration of which is one thousand forty (1,040) hours of credited state service except for peace officers (defined in Section 19-5101, Idaho Code), who must serve two thousand eighty (2,080) hours. (5-8-09)

b. Promotional probation is the probationary service required when an employee is promoted, the duration of which is one thousand forty (1,040) hours of credited state service except for peace officers (defined in Section 19-5101, Idaho Code), who must serve two thousand eighty (2,080) hours. (5-8-09)

c. Voluntary probation is an agreement between employees and the appointing authority for interagency employment actions such as reinstatement, transfer, or voluntary demotion. A voluntary probation is not to be used for employment actions within the agency. The probationary period is negotiable but may not exceed one thousand forty (1,040) hours of credited state service except for peace officers (defined in Section 19-5101, Idaho Code), who may serve up to two thousand eighty (2,080) hours. (5-8-09)

03. Extension of Probationary Period. Upon written request demonstrating good cause, the administrator may extend the probationary period of an employee for an additional specified period not to exceed one thousand forty (1,040) hours of credited state service. Extension must occur before an employee has worked one thousand forty (1,040) hours or two thousand eighty (2,080) hours for peace officers. (Ref. Section 67-5309(j), Idaho Code) (5-8-09)

04. Interruption of Probationary Period. The probationary period in any classification must be completed within a single agency uninterrupted by termination (Ref. Rule 152.02) or dismissal (Ref. Rule 190). An employee who separated during the probationary period must begin a new probationary period upon reappointment or promotion. (5-8-09)

05. Temporary Service Credit. At the request of the hiring agency, the administrator will allow temporary service time in a given classification to be used toward fulfilling the entrance probationary requirement in that classification as established in Section 67-5309(j), Idaho Code. The temporary duties must be substantially the same as the regular permanent appointment. (Ref. Section 67-5309(x), Idaho Code, and Rules 122 and 150.01) (3-29-12)

06. Acting Service Credit. At the request of the hiring agency, the administrator will allow acting appointment service time in a given classification to be used toward fulfilling the promotional probationary requirement in that classification as established in Section 67-5309(j), Idaho Code. The acting appointment duties must be substantially the same as the regular permanent appointment. (Ref. Section 67-5309(y), Idaho Code, and Rules 129 and 150.01) (3-29-12)

151. SATISFACTORY SERVICE.
When a probationary employee has satisfactorily served the probationary period hours, the employee will become permanent status. The appointing authority shall no later than thirty (30) calendar days after the expiration of the probationary period provide the employee and the Division of Human Resources a performance evaluation. Certification to permanent status shall be effective one thousand forty (1,040) hours of credited state service after appointment, except that it shall be effective two thousand eighty (2,080) hours of credited state service after
appointment for peace officer classifications unless either period has been extended pursuant to Rule 150.03. (Ref. Section 67-5309(j), Idaho Code, and Rule 210.04) (3-29-17)

152. SEPARATION DURING PROBATION.

01. Notification. If a probationary employee does not serve satisfactorily, the appointing authority must provide the employee and the Division of Human Resources a performance evaluation indicating unsatisfactory performance in order to process the failure to complete probation separation within thirty (30) days after the expiration of the probationary period. (Ref. Section 67-5309(j), Idaho Code, and Rule 210.04) (3-29-17)

02. During Entrance and Voluntary Probation. (3-30-01)

a. An employee who does not serve satisfactorily during the entrance or voluntary probation must first be given the opportunity in writing to resign without prejudice; an employee who fails to resign may be terminated without cause assigned and without the right to file for problem-solving or an appeal. (Ref. Section 67-5309(j), Idaho Code, and Rule 210.04) (5-8-09)

b. Notice to the employee of termination for unsatisfactory service must be made not later than fifteen (15) calendar days prior to the effective date of termination, unless there are extenuating circumstances. (5-8-09)

153. UNSATISFACTORY PERFORMANCE DURING A PROMOTION PROBATION PERIOD.

01. Disciplinary Action. Regardless of the probation status, when a Rule 190 violation supports demotion, suspension, or dismissal, such action may occur. (3-16-04)

02. Intra-Agency. If an employee, on promotional probation, does not meet performance expectations, he or she shall be returned to a position in the classification which he or she holds permanent status or to another classification in the same pay grade for which the employee meets minimum qualifications. If the employee refuses to accept the position, it shall be considered a voluntary resignation. (3-16-04)

03. Inter-Agency. (3-16-04)

a. The employee may voluntarily demote to a vacant position in any classification he or she has held permanent status in state career service. However, the employee must meet the current minimum requirements for that classification. If more than one (1) option exists for demotion, the employee should be placed in the higher paid position, but the specific assignment is up to the appointing authority. (3-16-04)

b. If no position is available for the voluntary demotion option, the employee may be laid off and may:

i. Request their name be placed on a register with reemployment preference rights for the next available vacancy in the classification they would have demoted to in his/her new agency; and/or (3-16-04)

ii. Request their name be placed on a register for the classification in the agency where they last held permanent status. (3-16-04)

b. When reinstatement occurs in the classification they promoted from, in the new agency or the prior agency, the employee’s name is removed from reemployment required preference status. (3-16-04)

154. FAILURE TO PROVIDE PERFORMANCE EVALUATION.
If the appointing authority fails to provide a performance evaluation as required in Rule 151, the employee shall be considered to have satisfactorily completed the probationary period and shall be certified to permanent status as provided by Rule 151, unless the probationary period has been extended by the administrator. (Ref. Rule 150.03) (3-16-04)

155. -- 158. (RESERVED)
159. STATUS AND TENURE.

01. Probationary Promotions. Employees serving a promotional probationary period have continued permanent status in the classification from which promoted until they are certified as having satisfactorily completed the promotional probationary period in the classification to which promoted. (Ref. Rules 151, 152, and 153) (5-8-09)

02. Tenure of Employment. All employment in the state classified service is without definite term except where the term may be specified by law, or under conditions of a limited-service appointment. (Ref. Rule 120) (5-8-09)

160. -- 168. (RESERVED)

169. PROMOTIONS.

01. Use of Promotional Registers. (7-1-93)

a. Preference for Promotion. Whenever practical, a vacancy in a classified position must be filled by the promotion of an employee in the agency in which the vacancy occurs. (Ref. Section 67-5309(g), Idaho Code) (5-8-09)

b. Exception. An appointing authority may request that a position be filled from a statewide promotional register (Ref. Rule 101.03) or an open competitive register (Ref. Rule 101.04) whenever he determines that such an appointment will best serve the interests of the agency. (5-8-09)

c. Agency Registers with Reemployment Preference Status. Promotions to a classification are not permissible as long as there is an agency register with reemployment preference status (Ref. Rule 101.01) for the classification with names of eligible candidates who are willing to accept reemployment. (5-8-09)

02. Interagency Promotions. All interagency promotions must be made using statewide promotional registers (Ref. Rule 101.03) (5-8-09)

03. Eligibility for Promotion. Promotional appointees must have permanent status (Ref. Rule 159) and must meet the minimum qualifications of the promotional classification. (5-8-09)

04. Promotion, In-Grade. To reflect unique agency organization design, an agency may choose to request an internal competitive process to recognize the advancement of an employee with permanent status from a position occupied in one classification to a position in another classification having greater points or a unique specialty area, but within the same pay grade. EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 31-4816(18), 39-7101, 46-804, 46-805, and 46-1027, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 15.06, rules of the Military Division:

IDAPA 15.06
• 15.06.01, Rules Governing the Idaho Public Safety Communications Commission
• 15.06.02, Rules Governing the Idaho Public Safety Communications Commission Grants
• 15.06.04, Rules Governing the Idaho Youth Challenge Program
• 15.06.05, Hazardous Substance Response Rules - some technical corrections were made
• 15.06.06, Rules Governing Use of Disaster Emergency Account Funds

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. Many of the rules listed above govern various emergency response, public safety, and communications functions necessary for the continued health and safety of the public. Further, the rules governing the Youth Challenge Program help ensure the continued success of that program.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.
INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

(3-23-10)

008. -- 009. (RESERVED).

010. **DEFINITIONS (RULE 10).**

01. **Emergency.** As used in this chapter, “emergency” means a release or threat of release that, in the reasonable judgment of the local emergency response authority in consultation with the office, threatens immediate harm to the environment or the health and safety of any individual and that requires immediate action for the containment or control of a hazardous or potentially hazardous substance to prevent, minimize or mitigate harm to the public health, safety or the environment that may result if action is not taken.  

(3-23-10)

02. **Emergency Responder.** Person affiliated with an emergency response agency who is dispatched to the scene upon notification of a hazardous substance incident. Emergency responders may be local, state, federal or industry personnel who have received appropriate hazardous materials training as defined by OSHA and EPA Regulations.  

(3-23-10)

03. **EPCRA.** Emergency Planning and Community Right to Know Act of 1986 (Title III of the Superfund Amendments and Reauthorization Act).  

(3-23-10)

04. **Hazardous Substance.**

a. Any “hazardous substance” within the scope of section 101(14) of the Federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. 9601(14);  

(3-23-10)

(3-23-10)

c. Any extremely hazardous substance within the scope of section 302 of the federal Emergency Planning and Community Right-to-Know Act, (EPCRA) 42 U.S.C. 11002; and  

(3-23-10)

d. Any explosive or weapon of mass destruction utilized or threatened to be utilized in an act of terrorism, crime, or other threat to public safety.  

(3-23-10)

05. **Hazardous Substance Incident.** An emergency circumstance that requires a response by the state emergency response team or the local emergency response agency to monitor, assess and evaluate a release of, or the threat of a release of, a hazardous or potentially hazardous substance. A hazardous substance incident may require containment or confinement, or both, but does not include site cleanup or remediation efforts after the incident commander has determined the emergency has ended.  

(3-23-10)

06. **Hazardous Substance Incident Levels.**

a. Regulatory - A release of a ‘reportable quantity’ or less of regulated hazardous substances that does not require any emergency response on the part of public sector responders. This would include a weapons of mass destruction threat or suspicion that is clearly a hoax without requiring additional analysis.  

(3-23-10)

b. Level 1 - An incident involving any response, public or private, to an incident involving hazardous substances that can be contained, extinguished, or abated using resources immediately available to the responders having jurisdiction. A weapons of mass destruction threat or suspicion that requires local response to determine whether or not it is life threatening. A Level 1 incident presents little risk to the environment or public health with containment and clean up.  

(3-23-10)

c. Level 2 - An incident involving hazardous substances that is beyond the capabilities of the first responders on the scene, and may be beyond the capabilities of the public sector response agency having jurisdiction. Level 2 incidents may require the services of a state of Idaho Regional Response Team, or other state/federal
assistance. This would include a weapons of mass destruction (WMD) threat or incident that involves explosives, release of toxic material, release of radioactive material or release of organisms that can be analyzed and stabilized using resources that exist within the state of Idaho. This level may pose immediate and long-term risk to the environment and public health and could result in a local declaration of disaster. (3-23-10)

d. Level 3 - An incident involving weapons of mass destruction/hazardous substances that will require multiple state of Idaho Regional Response Teams or other resources that do not exist within the state of Idaho. These incidents may require resources from state and federal agencies and private industry. Level 3 incidents generally pose extreme, immediate and long-term risk to the environment and public health. (3-23-10)

07. Idaho Hazardous Materials/WMD Incident Command and Response Support Plan. A plan that has the primary purpose of providing effective, coordinated emergency response support to local government by state, federal and private agencies for incidents involving the release of hazardous substances in the state of Idaho. (3-23-10)

a. This plan may be activated independently of the Idaho Emergency Operations Plan. (3-23-10)

b. Authority for implementation of this plan is derived from the Idaho Hazardous Substance Emergency Response Act (Section 39-7101, Idaho Code), the Idaho Environmental Protection and Health Act (Section 39-101 et seq., Idaho Code), the Hazardous Waste Management Act (Section 39-4401 et seq., Idaho Code), Protection from Radioactive Materials (Section 39-3005, Idaho Code) and the Idaho Homeland Security Act of 2004 (Section 46-1001 et seq. Idaho Code). (3-23-10)

08. Idaho Regional Response Teams. Teams authorized by the state of Idaho which are trained and equipped to respond to incidents. These teams are based in local departments and respond outside local jurisdictional boundaries upon approval of the Office of Emergency Management. These teams include Regional Hazardous Materials Response Teams (RRT’s) as well as Regional Bomb Squads (RBS’s). The Idaho Regional Response Teams are responsible to the local Incident Commander. (3-23-10)

09. Incident Command System (ICS)/National Incident Management System (NIMS). (3-23-10)

a. The Incident Command System (ICS) is a widely used and understood emergency management tool. It is used by local, state, and federal agencies and the military. Use of the ICS for hazardous substance incidents is required by the Emergency Planning and Community Right to Know Act (EPCRA), Occupational Safety and Health Administration (OSHA) rules, and the National Fire Protection Association (NFPA). It has been adopted by the National Fire Academy as the model system for the fire service. It is also the policy of the state of Idaho that the ICS will be used in response to hazardous substance incidents. (3-23-10)

b. NIMS is a system mandated by Homeland Security Presidential Directive 5 that provides a consistent nationwide approach for federal, state, local and tribal governments, as well as the private-sector and nongovernmental organizations to work effectively and efficiently together to prepare for, respond to, and recover from domestic incidents, regardless of cause, size or complexity. NIMS builds on the ICS and the proven principles of unified command. (3-23-10)

10. Incident Commander. The designated local emergency response official responding to an incident. This person must be fully trained and knowledgeable in the ICS. Normally, the Incident Commander will be the local fire chief or law enforcement officer. A local jurisdiction, based on its local plan and resource assessment, may request that Idaho State Police assume incident command, particularly for incidents on U.S. Interstates and state-numbered routes, including rights-of-way. The Incident Commander shall be in overall charge of all efforts at the scene. (3-23-10)

11. Local Emergency Planning Committee (LEPC). A committee made up of local officials, citizens, and industry representatives charged with development and maintenance of emergency response plans for the local emergency planning district as per EPCRA requirements. Planning procedures include hazardous substance inventories, compilation and coordination of fixed facility emergency response plans, hazardous substance response training, and assessment of local response capabilities. (3-23-10)
12. **Local Emergency Response Authority (LERA).** Persons or agencies designated under Section 39-7105, Idaho Code, by the city or county to be the local representatives for hazardous substance incidents. The board of county commissioners will designate by ordinance or resolution a LERA. The governing body will notify the military division and the state communications center within sixty (60) calendar days of their designation. If no LERA has been designated, the Idaho State Police shall be the local emergency response authority. (3-23-10)

13. **Regional Response Team (RRT).** See Idaho Regional Response Teams. (3-23-10)

14. **Reimbursable Costs.** The total eligible expenses arising from response to a hazardous substance incident. Such costs generally include, but are not limited to, all state and local government expenses that result from the assessment and emergency phases of the response activity. Emergency response costs do not include clean-up or disposal costs of hazardous substances, except as may be reasonably necessary and incidental to preventing a release or threat of release of a hazardous substance or in stabilizing the emergency response incident. (3-23-10)

15. **Responsible Party.** Any person who owns, controls, transports, or causes the release, or threat of release of a hazardous substance which is involved in a hazardous substance incident shall be strictly liable for the costs arising out of the response. (3-23-10)

16. **Spiller.** See Responsible Party. (3-23-10)

17. **State Communications.** The communications center for state hazardous substance emergency response. State Communications can be reached by calling 1-800-632-8000 or 208-846-7610. Notification of State Communications is the first step in initiating the Idaho Hazardous Materials/WMD Incident Command and Response Support Plan. (3-23-10)

18. **State Emergency Response Teams.** See Idaho Regional Response Teams. (3-23-10)

19. **State On-Scene Coordinator (SOSC).** To ensure coordination during a significant incident, the state of Idaho will provide a State On-Scene-Coordinator (SOSC). The SOSC will facilitate the formation of a unified command during a significant incident. Under Unified Command, the Idaho SOSC can assist by acquiring resources, advising on response issues, and coaching the jurisdiction in overall scene management. The SOSC will coordinate with responding state agencies and be the principal state spokesperson in the unified command as an advocate for all state interests. In this role, the SOSC effectively represents the interests of the state of Idaho and its citizens. The Idaho SOSC will be appointed by the Director, Office of Emergency Management or his designee. (3-23-10)

EFFECTIVE DATE: The effective date of the temporary rules listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 46-804, Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 15.06, rules of the Military Division:

- IDAPA 15.06.03
  - 15.06.03, Public Safety Communications Systems Installation and Maintenance Fee Rules

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These rules establish fees for the installation and maintenance of public safety communications systems for local, state, federal, and tribal agencies, emergency, and first responders. These systems give emergency and first responders the ability to respond to normal and emergency situations and carry out normal and emergency operations in the protection of life, property, and civil authority.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. These rules establish fees for the installation and maintenance of public safety communications systems for local, state, federal, and tribal agencies, emergency, and first responders.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. The rule lists fee schedules for Fleet Vehicle Equipment Installation, Time and Materials Rate, Microwave Communication Services, Building Space Rental, Radio Communication Equipment Space Rental, and Radio Communication Services.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.
NEOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact Major Lauren Tschampl, (208) 42-5399.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.

NOTICE OF OMNIBUS RULEMAKING – TEMPORARY AND PROPOSED FEE RULEMAKING

EFFECTIVE DATE: The effective date of the temporary rule listed in the descriptive summary of this notice is June 30, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted temporary rules, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 23-206(b), Idaho Code.

PUBLIC HEARING SCHEDULE: Oral comment concerning this rulemaking will be scheduled in accordance with Section 67-5222, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This temporary and proposed rulemaking adopts and re-publishes the following existing and previously approved and codified chapters under IDAPA 15.10.01, Rules of the Idaho State Liquor Division:

IDAPA 15.10
  • 15.10.01, Rules of the Idaho State Liquor Division - with the following modifications:
    • 15.10.01.021.03.a. is deleted. This section of the rule contradicts with authority granted the Director in Statute and Rule and places impractical burdens on the Division to receive finished product that may be intended for out-of-state distribution.
    • 15.10.01.021.03.b. is modified to read, “It is a violation of Sections 23-203(a), 23-203(b) and 23-207(d), Idaho Code, for any Supplier or other party to ship Liquor into the state of Idaho for purposes not authorized by the Director.” Deleted is a portion of this section that reads, “or to any location other than the Division’s Warehouse.” This section of rule contradicts with authority granted the Director in Statute and Rule and places impractical burdens on the Division to receive unfinished product that is in a non-commercially marketable state, and it impedes Idaho industry from receiving raw material and converting it to a finished and marketable product. Deleting this section removes confusing language and clarifies the Director’s authority over liquor shipments and storage within Idaho.
    • 15.10.01.033. is deleted in its entirety. This rule is redundant in that the parameters for rule petitions are already addressed in Section 67-5230, Idaho Code.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. These established and instrumental rules outline the powers and duties of the Director of the Idaho State Liquor Division and of the Division, itself. These rules provide nuanced guidelines and establish a legal framework for a myriad of operational matters that are not adequately addressed by Idaho Code. They help to clarify the powers and duties of the Idaho State Liquor Division that enable the Division to safely and efficiently oversee the manufacturing, importation, marketing, distribution, and sale of distilled spirits in Idaho. The fee rules specifically allow for the appropriate cost reimbursements and the assessment of permit and sample fees for the efficient management and oversight of liquor suppliers and manufacturers that conduct business within Idaho.

The fee or charge imposed by the rules is necessary to avoid immediate danger. The fees or charges reauthorized in this rulemaking are currently existing and have been previously promulgated by the agency and reviewed and approved by the Legislature. These fees and charges are part of the dedicated fund portion of the state budget, which...
makes up a material portion of the FY2020 budget. The FY2020 budget has already been set by the Legislature and passed into law. That budget relies upon the existence of these fees and charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these fee rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. Fee rules outlined here offset costs incurred by the Division to adequately administer and exercise oversight of the liquor suppliers who conduct business within Idaho.

FEE SUMMARY: The preceding section and the attached rules provide a specific description of the fee or charge imposed or increased by this rulemaking. This rulemaking does not impose a fee or charge, or increase a fee or charge, beyond what was previously approved and codified in the prior rules. IDAPA 15.10.01, Section 022. allows the following fees to be charged by the Division:

1. **Cost Reimbursement.** The Division may seek cost reimbursement, as determined by the Division, from Supplier Representatives for mailing, shipping, or other expenses incurred by the Division to distribute information or displays to liquor stores at the request of a Supplier Representative.

2. **Maximum Fee for Samples.** There will be a maximum fee of twenty-five dollars ($25) per case charged to Supplier Representatives for Samples.

3. **Maximum Fee for Annual Supplier Representative Permit.** There will be a maximum fee of fifty dollars ($50) charged to Supplier Representatives each January for an annual permit.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

The Department has determined that the referenced chapters are critical and need to be reauthorized:

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY 2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not feasible because of the need to adopt the rules as temporary, and because these existing chapters of IDAPA are being re-published and re-authorized. Negotiated rulemaking also is not feasible because of the need to implement these rules before they expire; the rules form the regulatory framework of the laws of this state and have been previously promulgated and reviewed by the Legislature pursuant to the Idaho Administrative Procedures Act, Chapter 52, Title 67, Idaho Code; and because engaging in negotiated rulemaking for all previously existing rules will inhibit the agency from carrying out its ability to serve the citizens of Idaho and to protect their health, safety, and welfare.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the temporary and proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, contact the Administrative Rules Unit, dhwrules@dhw.idaho.gov, 450 W. State Street, 10th Floor, Boise, ID, 83720.
Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered within twenty-one (21) days after publication of this Notice in the Idaho Administrative Bulletin. Oral presentation of comments may be requested pursuant to Section 67-5222(2), Idaho Code, and must be delivered to the undersigned within fourteen (14) days of the date of publication of this Notice in the Idaho Administrative Bulletin.
