PREFACE

The Idaho Administrative Bulletin is an electronic-only, online monthly publication of the Office of the Administrative Rules Coordinator, Department of Administration, that is published pursuant to Section 67-5203, Idaho Code. The Bulletin is a compilation of all official rulemaking notices, official rule text, executive orders of the Governor, and all legislative documents affecting rules that are statutorily required to be published in the Bulletin. It may also include other rules-related documents an agency may want to make public through the Bulletin.

State agencies are required to provide public notice of all rulemaking actions and must invite public input. This is done through negotiated rulemaking procedures or after proposed rulemaking has been initiated. The public receives notice that an agency has initiated proposed rulemaking procedures through the Idaho Administrative Bulletin and a legal notice (Public Notice of Intent) that publishes in authorized newspapers throughout the state. The legal notice provides reasonable opportunity for the public to participate when a proposed rule publishes in the Bulletin. Interested parties may submit written comments to the agency or request public hearings of the agency, if none have been scheduled. Such submissions or requests must be presented to the agency within the time and manner specified in the individual “Notice of Rulemaking - Proposed Rule” for each proposed rule that is published in the Bulletin.

Once the comment period closes, the agency considers fully all comments and information submitted regarding the proposed rule. Changes may be made to the proposed rule at this stage of the rulemaking, but changes must be based on comments received and must be a “logical outgrowth” of the proposed rule. The agency may now adopt and publish the pending rule. A pending rule is “pending” legislative review for final approval. The pending rule is the agency’s final version of the rulemaking that will be forwarded to the legislature for review and final approval. Comment periods and public hearings are not provided for when the agency adopts a temporary or pending rule.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is identified by the calendar year and issue number. For example, Bulletin 13-1 refers to the first Bulletin issued in calendar year 2013; Bulletin 14-1 refers to the first Bulletin issued in calendar year 2014. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 13-1 refers to January 2013; Volume No. 13-2 refers to February 2013; and so forth. Example: The Bulletin published in January 2014 is cited as Volume 14-1. The December 2015 Bulletin is cited as Volume 15-12.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is an electronic-only, online compilation of all final and enforceable administrative rules of the state of Idaho that are of full force and effect. Any temporary rule that is adopted by an agency and is of force and effect is codified into the Administrative Code upon becoming effective. All pending rules that have been approved by the legislature during the legislative session as final rules and any temporary rules that are extended supplement the Administrative Code. These rules are codified into the Administrative Code upon becoming effective. Because proposed and pending rules are not enforceable, they are published in the Administrative Bulletin only and cannot be codified into the Administrative Code until approved as final.

To determine if a particular rule remains in effect or whether any amendments have been made to the rule, refer to the Cumulative Rulemaking Index. Link to it on the Administrative Rules homepage at adminrules.idaho.gov.

THE DIFFERENT RULES PUBLISHED IN THE ADMINISTRATIVE BULLETIN

Idaho’s administrative rulemaking process, governed by the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, comprises distinct rulemaking actions: negotiated, proposed, temporary, pending and final rulemaking. Not all rulemakings incorporate or require all of these actions. At a minimum, a rulemaking includes proposed, pending and final rulemaking. Many rules are adopted as temporary rules when they meet the required statutory criteria and agencies must, when feasible, engage in negotiated rulemaking at the beginning of the process to facilitate consensus building. In the majority of cases, the process begins with proposed rulemaking and ends with the final rulemaking. The following is a brief explanation of each type of rule.
1. NEGOTIATED RULEMAKING

Negotiated rulemaking is a process in which all interested persons and the agency seek consensus on the content of a rule through dialogue. Agencies are required to conduct negotiated rulemaking whenever it is feasible to do so. The agency files a “Notice of Intent to Promulgate - Negotiated Rulemaking” for publication in the Administrative Bulletin inviting interested persons to contact the agency if interested in discussing the agency’s intentions regarding the rule changes. This process is intended to result in the formulation of a proposed rule and the initiation of regular rulemaking procedures. One result, however, may also be that regular (proposed) rulemaking is not initiated and no further action is taken by the agency.

2. PROPOSED RULEMAKING

A proposed rulemaking is an action by an agency wherein the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a “Notice of Rulemaking - Proposed Rule” in the Bulletin. This notice must include very specific information regarding the rulemaking including all relevant state or federal statutory authority occasioning the rulemaking, a non-technical description of the changes being made, any associated costs, guidance on how to participate through submission of written comments and requests for public hearings, and the text of the proposed rule in legislative format.

3. TEMPORARY RULEMAKING

Temporary rules may be adopted only when the governor finds that it is necessary for:

   a) protection of the public health, safety, or welfare; or
   b) compliance with deadlines in amendments to governing law or federal programs; or
   c) conferring a benefit.

If a rulemaking meets one or more of these criteria, and with the Governor’s approval, the agency may adopt and make a temporary rule effective prior to receiving legislative authorization and without allowing for any public input. The law allows an agency to make a temporary rule immediately effective upon adoption. A temporary rule expires at the conclusion of the next succeeding regular legislative session unless the rule is extended by concurrent resolution, is replaced by a final rule, or expires under its own terms.

4. PENDING RULEMAKING

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it becomes a final, enforceable rule. When a pending rule is published in the Bulletin, the agency is required to include certain information in the “Notice of Rulemaking - Pending Rule.” This includes a statement giving the reasons for adopting the rule, a statement regarding when the rule becomes effective, a description of how it differs from the proposed rule, and identification of any fees being imposed or changed.

Agencies are required to republish the text of the pending rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule change is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule.

5. FINAL RULEMAKING

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is of full force and effect.
HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering schematic. Each state agency has a two-digit identification code number known as the “IDAPA” number. (The “IDAPA” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit “TITLE” number is assigned. There are “CHAPTER” numbers assigned within the Title and the rule text is divided among major sections that are further subdivided into subsections. An example IDAPA number is as follows:

IDAPA 38.05.01.200.02.c.ii.

“IDAPA” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

1. “38.” refers to the Idaho Department of Administration

   “05.” refers to Title 05, which is the Department of Administration’s Division of Purchasing

   “01.” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”

   “200.” refers to Major Section 200, “Content of the Invitation to Bid”

   “02.” refers to Subsection 200.02.

   “c.” refers to Subsection 200.02.c.

   “ii.” refers to Subsection 200.02.c.ii.

DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. Each rulemaking that is filed with the Coordinator is assigned a “DOCKET NUMBER.” The docket number is a series of numbers separated by a hyphen “-“. (38-0501-1401). Rulemaking dockets are published sequentially by IDAPA number (the two-digit agency code) in the Bulletin. The following example is a breakdown of a typical rule docket number:

“DOCKET NO. 38-0501-1401”

“38-” denotes the agency's IDAPA number; in this case the Department of Administration.

“0501-” refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), Rules of the Division of Purchasing (Chapter 01).

“1401” denotes the year and sequential order of the docket being published; in this case the numbers refer to the first rulemaking action published in calendar year 2014. A subsequent rulemaking on this same rule chapter in calendar year 2014 would be designated as “1402”. The docket number in this scenario would be 38-0501-1402.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

EFFECTIVE DATE: Pursuant to Section 20-212(1), Idaho Code, all rules, or the amendment or repeal of rules shall be effective thirty (30) days after the date of publication by the Office of the Administrative Rules Coordinator or sooner by proclamation of the Board with the concurrence of the Governor. The effective date of this rule is November 1, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 20-212(1), Idaho Code, notice is hereby given that this agency has promulgated rules by proclamation. Additionally, Section 20-212(1), Idaho Code, states that the rules of the Idaho State Board of Correction are subject to review of the Idaho State Legislature pursuant to Sections 67-454, 67-5291, and 67-5292, Idaho Code, but no other provisions of chapter 52, title 67, Idaho Code, apply to the Board, except as otherwise specifically provided by statute.

PUBLIC HEARING SCHEDULE: Pursuant to Section 20-212(1), Idaho Code, public hearings concerning this rulemaking will not be scheduled.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proclamation:

IDAPA 06.02.02, “Rules Governing Release Readiness,” removes obsolete references and non-substantive sections and provides more concise language in compliance with the Red Tape Reduction Act.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year:

This rulemaking is not anticipated to have any fiscal impact on the state general fund because the FY2020 budget has already been set by the Legislature, and approved by the Governor, anticipating the existence of the rules and fees being reauthorized by this rulemaking.

NEGOTIATED RULEMAKING: Negotiated rulemaking was not conducted because Section 20-212(1), Idaho Code, exempts the Idaho State Board of Correction from conducting negotiated rulemaking.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, incorporated material may be obtained or electronically accessed as provided in the text of the proposed rules attached hereto.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the proclamation, contact Jamie Hess Smith at jamismit@idoc.idaho.gov.

Date this 20th day of August, 2019.

07.03.01 – RULES OF BUILDING SAFETY
DOCKET NO. 07-0301-1901
NOTICE OF RULEMAKING – PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Section 39-4107, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than October 16, 2019.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This proposed rulemaking adopts and amends for Idaho the 2018 editions of the International Building Code (IBC), International Residential Code (IRC), International Existing Building Code (IEBC), and International Energy Conservation Code (IECC). Additionally, this proposed rulemaking eliminates or simplifies provisions in IDAPA 07.03.01 to comply with the Red Tape Reduction Act (Executive Order 2019-02).

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: N/A

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted. The Notice of Intent to Promulgate Rules - Negotiated Rulemaking was published in the June 5, 2019 Idaho Administrative Bulletin, Vol. 19-6, pages 38 through 39.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule:

The state has been operating under 2015 editions of the IBC, IEBC, and IECC and 2012 edition of the IRC. The 2018 editions of the IBC, IRC, IEBC, and IECC provide revisions and clarifications that streamline the codes and make them easier to understand and apply. The 2018 editions of these codes also provide enhanced building safety requirements and address emerging building technologies. In several ways, the 2018 editions of these codes reduce building requirements and expand building options. Adopting the 2018 editions of these codes will bring Idaho up to date with the latest building industry standards.

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the proposed rule, contact Jeff Egan, Building Code Program Manager, at (208) 332-7123 or at jeff.egan@dbs.idaho.gov.

Anyone may submit written comments regarding this proposed rulemaking. All written comments must be directed to the undersigned and must be delivered on or before October 23, 2019.

Dated this 30th day of August, 2019.

p. Cutters shall not work on the downhill side of the log being bucked unless absolutely unavoidable and only when the log is blocked or otherwise secured to prevent rolling when cut is completed. (6-30-19)

q. Cutters must give timely warning to all persons within range of any log which may have a tendency to roll or slide after being cut off. (6-30-19)

r. Logs shall be completely bucked-through whenever possible. If it becomes hazardous to complete a cut, then the log shall be marked and identified by a predetermined method. Rigging crews shall be instructed to recognize such marks and when possible cutters shall warn rigging crew of locations where such unfinished cuts remain. (6-30-19)

b. Clips should always be attached with the base or saddle of the clip against the longer or “live” end of the rope. See Figure 012.03-A. This is the only approved method.
c. Do not reverse the clips or stagger them. See Figure 012.03-B. Otherwise the “U” bolt will cut into the live rope when the load is applied.

d. After the rope has been used and is under tension, the clips should again be tightened to take up any looseness caused by the tension reducing the rope diameter. Remember that even when properly applied a clip fastening has only about ninety percent (90%) of the strength of the rope and far less than that when rigged improperly.

e. U-bolt wire rope clamps must not be used to form eyes on running lines, skylines, machine guylines, or straps.

(BREAK IN CONTINUITY OF SECTIONS)

454. WIRE ROPE.

   01. General Characteristics. Wire rope comes in many grades and dimensions, and every rope has its own characteristics with regard to strength and resistance to crushing and fatigue. A larger rope will outlast a smaller rope of the same materials and construction, used in the same conditions, because wear occurs over a larger surface. Similarly, a stronger rope will outlast a weaker rope, because it performs at a lower percentage of its breaking strength, with reduced stress. (6-30-19)
   02. Wire Rope Terms. Common grades of wire rope include extra improved plow steel (EIPS) and swaged powerflex, among others. The following terms are commonly used for wire rope: (6-30-19)
   a. Abrasion Resistance. Ability of outer wires to resist wear. Abrasion resistance is greater with larger wires. (6-30-19)
   b. Core. The foundation of a wire rope which is made of materials that will provide support for the strands under normal bending and loading conditions. A fiber core (FC) can be natural or synthetic. If the core is steel, it can be a wire strand core (WSC) or an independent wire rope core (IWRC). (6-30-19)
   c. Crushing Resistance. Ability of the rope to resist being deformed. A rope with an independent wire core is more resistant to crushing than one with a fiber core. (6-30-19)
d. Die-form Line. Made from strands that are first compacted by drawing them through a drawing die to reduce their diameter. The finished rope is then swaged or further compressed. (6-30-19)

e. Fatigue Resistance. Ability of the rope to withstand repeated bending without failure (the ease of bending a rope in an arc is called its “bendability”). Fatigue resistance is greater with more wires. (6-30-19)

f. Strength. Referred to as breaking strength, usually measured as a force in pounds or tons. The breaking strength is not the same as the load limit, which is calculated as a fraction of the breaking strength to ensure safety. (6-30-19)

g. Swaged Line. Manufactured by running a nominal-sized line through a drawing die to flatten the outer crown and thus reduce the rope diameter. This compacted rope allows for increased drum capacity and increased line strength. (6-30-19)

03. Typical Wire Rope Specifications. The table below lists a few examples of wire-rope breaking strengths. (6-30-19)

04. Synthetic Rope. High-tensile strength synthetic lines are considerably lighter than standard wire rope; however, some lines are dimensionally as strong as standard wire rope. Accordingly, high-tensile strength synthetic lines are permitted to be used in appropriate logging applications, including as substitutes for brush straps, tree straps, tail and intermediate support guylines, guyline extensions, and haywire. Manufacturers’ standards and recommendations for determining usable life or criteria for retirement of such lines shall be followed. Personnel shall examine the lines for broken or abraded strands, discoloration, inconsistent diameter, glossy or glazed areas caused by compression and heat, and other inconsistencies. Rope life is affected by load history, bending, abrasion, and chemical exposure. Most petroleum products do not affect synthetic ropes.

05. Inspection and Care.

a. Wire rope shall be inspected daily by a qualified individual and repaired or taken out of service when there is evidence of any of the following conditions:

i. Twelve and five tenths percent (12.5%) of the wires are broken within a distance of one (1) lay.

Source: Cable Yarding Systems Handbook. 2006. Worksafe BC. Table lists typical breaking strengths. See manufacturer’s specifications for specific lines.
ii. Evidence of chafing, sawing, crushing, kinking, crystallization, bird-caging, corrosion, heat damage, or other damage that has weakened the rope structure. (6-30-19)

b. Qualified personnel shall closely inspect those points subject to the most wear, including the knob ends of lines, eye splices, and those sections of line that most often run through blocks or carriages. If there is doubt about the integrity of the line, it is far safer to replace a suspect line, or cut out and resplice a defective area, than risk a failure during operation. Evaluation of the load-bearing yarder lines shall be stringent. A qualified person shall also inspect all other lines used on site and remove any that are unsafe. (6-30-19)

06. Additional Precautions. The following precautions shall also be observed: (6-30-19)

a. Ensure the working load limit for any line is adequate for the intended use. (6-30-19)

b. The manufacturer’s specifications with regard to assigned breaking strength shall be followed. Such specifications as determined by engineering test results should factor the grade of the wire, number of strands, number of wires per strand, filler wire construction, lay pattern of the wires, and the diameter of the line. (6-30-19)

07. Safety Factor. Operators shall follow the manufacturer’s specifications in determining load limits. The working load limit is a fraction of a line’s breaking strength – a factor of three (3), or one-third (1/3) the breaking strength, is commonly used as a safety factor for running and standing lines, when workers are not exposed to breaking lines or loads passing overhead. A safety factor of three (3) is commonly used to determine the working load limit for a standing or running line. A standard six (6) x twenty-six (26) IWRC wire rope with a diameter of one (1) inch has a breaking strength of approximately forty-five (45) tons – divide by three (3) – equals fifteen (15) tons working load limit. (6-30-19)

08. Wire Labeling. (6-30-19)

a. The elements of a typical wire rope are labeled, for example, six (6) x twenty-five (25) FW PRF RL EIPS IWRC. The label indicates a six (6)-strand rope with twenty-five (25) wires per strand (six (6) x twenty-five (25)), filler-wire construction (FW), strands pre-formed in a helical pattern (PRF), laid in a right-hand lay pattern (RL), using an extra-improved plow steel (EIPS) grade of wire, and strands laid around an independent wire rope core (IWRC). See figure 013.08-A for proper labeling of wire rope. (6-30-19)

FIGURE 013.08-A

b. Out of Service Standard Example. A six (6) x twenty-five (25) IWRC wire rope = six (6) strands in one (1) lay with twenty-five (25) wires per strand = one hundred fifty (150) wires. The rope must be taken out of service when twelve and five tenths percent (12.5%), or one-eighth (1/8), of the wires are broken within the distance of one (1) lay = one hundred fifty (150) divided by eight (8) = eighteen and seventy-five one hundredths (18.75), or nineteen (19) broken wires. (6-30-19)

09. Wire Line Life. Table 013.08-A provides the allowable life of a line in million board feet in accordance with line size and use. Figure 013.09-A illustrates both the correct and incorrect manner in which to measure line size (diameter). (6-30-19)

Source: Willamette Logging Specialist's Reference by Keith L McGonagill. 1976. Portland, OR: Willamette National Forest. Calculations of line life refer to EIPS 6x21 wire rope for the skyline, and EIPS 6x26 for other lines. Figures will be different for other classes of wire rope. (6-30-19)T
10. Dynamic Loads. Operators shall consider high dynamic loads when calculating safe working limits of wire ropes. Wire ropes are often subjected to high dynamic loads, which greatly multiply the force on a line and may exceed the safe working limit. Even a split second of time over the limit can lead to premature failure of a line. Typical dynamic loads occur when a turn hits a stump, a turn comes down off of the back hillside to full suspension, or when excessive force is applied to pulling a turnout of its bed. A high dynamic load or a sudden shock load that exceeds the working limit may not result in immediate failure, but rope strands may stretch and weaken, and may fail at a later time.

11. Other Common Wire Rope Considerations.

a. Wire Rope Stretching and Line Diameter. A stretched wire rope has a reduced diameter. Operators shall check for stretched lines by measuring the diameter, particularly on older lines and any line used in stressful situations.

b. Older Wire Rope. Standing lines and guylines are often kept in service for multiple years (four (4) to five (5), and as long as ten (10) years in some instances) without exhibiting any obvious signs of excessive wear other than rust. Operators shall check date stamps of wire rope and evaluate line life. Operators shall also inspect the core of older lines periodically for a fractured or dry core, which could indicate other deficiencies such as broken wires, excessive wear, or line deformation.

c. Hard Use. The life of a wire rope is also affected by hard use. Line life can be measured by the volume of wood hauled (see Table 013.08-A). Line life is reduced when a line exceeds its elastic limits, is heavily shocked, or rubbed against rocks or other lines. As a line wears, the safe working load limit shall be lower and the payload adjusted appropriately.

d. Wire Rope endurance and elastic limits. Working within the endurance and elastic limits of lines
can help preserve line life. The following principles shall be observed when evaluating the integrity and safe use of wire rope:

i. The “endurance limit” for all lines is fifty percent (50%) of the breaking strength. If wire rope tensioning regularly exceeds the endurance limit, the life of the line is reduced through fatigue.

ii. The “elastic limit” for all lines is sixty to sixty-five percent (60-65%) of the breaking strength. When a wire rope is loaded to its normal safe working limit, the line stretches, but then returns to its original size when the load is released. If a load increases past the elastic limit through prolonged exertion or repeated stress, the line will stretch and stay stretched, resulting in a permanent reduction in the breaking strength.

e. Lubrication and Abrasion. Wire rope is lubricated in the factory to reduce internal friction and corrosion, and prolong the life of the rope. Heat from friction causes the internal lubricant to deteriorate. Friction occurs when the rope stretches under load, particularly in places where it bends around sheaves or other objects. An improperly lubricated line can pick up particles of dirt and sand that will increase abrasion. Accordingly, operators shall:

i. Check for and ensure the proper lubrication of all lines and wire rope, following the manufacturer’s instructions. Commercial wire rope lubricants are available.

ii. Carefully inspect lines for faults in areas where dust and sand may collect.

iii. Store all wire rope and lines off the ground.

12. Line Connections.

a. Inspection. Operators shall regularly inspect shackles, hooks, splices, and other connecting equipment for damage and wear, as well as ensure the connectors are the correct type and size for the line and intended use.

b. Wire Splicing. Splices are used to form an eye at the end of a line, extend the length of a line, or repair a broken or damaged line. The splicing of wire rope requires special skill and shall only be performed under the supervision of a competent person with using the proper tools. Reference materials are available with detailed instructions for numerous types of splices. Individuals splicing wire shall always wear appropriate eye protection while splicing or assisting with a splicing procedure.

c. The logger’s eye splice and three (3)-pressed eye are the most common methods to form an eye for use as a skyline terminal. See Figure 013.12-A. The spliced eye is approximately eighty percent (80%) efficient. A three (3)-pressed eye can reach ninety percent (90%) line strength. The pressed eye is typically performed at the rigging shop. Spliced eyes may be placed in the field, but may require additional time to install.
d. When Flemish (Farmes, Rolled) eye splices are used on load-bearing lines, the strand ends must be secured by:
   i. Hand tucking each strand three (3) times; or
   ii. Applying a compression (pressed-eye) fitting.

   f. Guyline extensions must be connected by:
      i. A bell shackle using a safety pin to connect spliced eyes or pressed eyes; or
      ii. Poured nubbins (buttons) and a double-ended hook.

eg. Line Deformity. A line may deform where it loops around a shackle or pin, producing weakness that may result in line failure. A thimble in the loop protects the line. Thimbles may be used on standing lines, but not on running lines. Examples of the appearance of deformed lines and the use of thimbles in shackles are illustrated in Figure 013.12-B.

FIGURE 013.12-B

13. Shackles and Hooks.

   a. Hooks. Hooks shall be inspected to ensure that they have not sprung open. Ensure that shackles are positioned correctly to bear the load. Haywire swivels shall be inspected frequently, due to their susceptibility to wear rapidly.

   b. Shackle Safety. Proper bells or shackles shall be used to connect the guylines to the stumps, and the guyline lead blocks to the ring at the top of the tower. Connections shall have at least one and a half (1-1/2) times the strength of the guyline. The pins of the shackles must be secured to protect against dislodgement, and a nut and cotter key, or a nut and molly may be used for that purpose. The use of loops or mollies to attach guylines is prohibited. Examples of the appearance of some shackle equipment is illustrated in Figure 013.13-A.
c. The following practices shall be observed in order to ensure the safe use of shackles:

i. A shackle must have a rated breaking strength greater than the rated breaking strength of the lines attached to it, and the manufacturer’s rated strengths to determine oversized requirements shall be used. Accepted industry standards shall be utilized and adhered to when determining the correct shackle size based on the type and nature of the logging operation being performed. Examples of the appearance of some shackle equipment for the purposes of proper selection is illustrated in Figure 013.13-B.

ii. Shackles with pins, and securing nuts with mollies or a cotter key shall be used on standing or overhead rigging.

iii. Screw shackle pins shall not be used in any standing or overhead rigging.

iv. Screw shackle pins, where allowed to be used, shall be tightened securely.

v. Shackle pin mollies shall be rolled sufficiently and fit the pin hole fully. Mollies shall be tucked a minimum of three (3) times.

vi. The shackle shall always be placed with the pin nearest to the yarder, so that in the event the shackle fails the least amount of hardware may be thrown at the yarder.

vii. Replace shackles that are bent, broken, or show excess wear on the inner surfaces. Examples of the appearance of some damaged or non-conforming shackles are illustrated in Figure 013.13-A.

(6-30-19)T

**REPLACE SHACKLES THAT ARE BENT, BROKEN, OR SHOW EXCESS WEAR ON THE INNER SURFACES.**

a. Poured nubbins and a double-end hook are acceptable connectors in place of shackles in some instances. The use of quick nubbins (wedge buttons) as guylines and skyline end fittings is prohibited unless attaching guylines to guyline drums. Operators shall follow the manufacturer’s recommendations when attaching sockets and similar end fastenings.

b. Poured nubbins achieve ninety-nine percent (99%) of line strength and may be used. Quick nubbins only achieve a maximum of sixty-five percent (65%) under ideal conditions, and accordingly operators shall consider whether they are appropriate for safe use in any given application. Pressed ferrule are not certifiable for strength, and shall not be used. Examples of the appearance of some knob, ferrule, and nubbin equipment are illustrated in Figure 013.14-A.

c. Operators shall inspect knobs, ferrules, and eyes at cable ends for loose or broken wires, and corroded, damaged, or improperly applied end connections. Poured nubbins shall be date stamped.
15. **Brush Blocks.** Brush blocks shall be thoroughly inspected for cracks, wear, or deterioration. Operators shall closely examine the areas subject to the most wear, including bearings, sheave, frame, yoke, and pins. Defective parts shall be replaced immediately. Blocks shall be greased every time before each use.

![FIGURE 013.15-A](6-30-19)T

16. **Chains and Straps.** Chains or straps shall always be sized and used correctly for the intended purpose. Determining which size to use may depend on various factors. Oversized trailer lift straps, for example, shall have a breaking strength equal to five (5) times the load to be lifted. Towing chains shall have a tensile strength equivalent to the gross weight of the towed vehicle. The manufacturer’s specifications or other appropriate reference materials shall always be consulted to ensure the right chain or strap is used for a task.

   a. Operators shall periodically inspect chains for damaged, worn, or stretched links. Chains with more than ten percent (10%) wear at the bearing surface shall be replaced. Operators shall periodically inspect straps, and examine them for broken wires or wear. Examples of the appearance of damaged and safe chains are illustrated in Figure 013.16-A.

![FIGURE 013.16-A](6-30-19)T
501. LOG TRUCK TRANSPORTATION.

01. General. The following requirements are supplemental to any Idaho law governing automobiles, trucks, tractors, trailers, and any combination of these units. If there are any discrepancies in the codes between this section and any federal or Idaho motor vehicle regulations pursuant to title 49, Idaho Code, applicable in the state of Idaho, such federal or other governmental regulations will govern.

17. Proper Lay of Logs in Stakes or Bunks.  

a. The method of loading shall be such that the logs in any tier or layer unsecured by stakes or cheese blocks shall have their centers inside of the centers of the outer logs of the next lower tier or layer so that the load is stable without the aid of binders.  

b. Logs shall be well saddled without crowding so that there will be no excessive strain on the wrappers or stakes.  

c. No more than one half (1/2) of any log shall extend above the stakes unless properly and securely saddled.  

d. Bunk logs shall extend not less than twelve (12) inches beyond the bunk, with the exception of non-oscillating bunks.

19. Towing of Trucks. When trucks must be towed on any road, the person guiding the vehicle being towed shall, by prearranged signals, govern the speed of travel.  

20. Scaling and Branding. When at the dump or reload and where logs are scaled or branded on the truck, the logs shall be scaled or branded before the wrappers are released.  

21. Metal Parts Between Bunk and Cab to Be Covered. Suitable material shall be used on treading surfaces between the bunk and cab to prevent persons from slipping on the metal parts.

   b. At dumps where the load must remain suspended above the bunks until the truck is moved away and when the trailer is the type with a compensating pin in the reach, a device shall be installed that will allow the trailer to be towed away from the danger area. (6-30-19)

   a. All trailers shall be secured with a safety chain, or chains, which connect the frame of the truck assembly to the trailer unit. (6-30-19)
   b. The chains shall be capable of holding the trailer in line in case of failure of the hitch assembly. (6-30-19)

(BREAK IN CONTINUITY OF SECTIONS)

Logs shall be well saddled without crowding so that there will be no excessive strain on the binders, bunk chains, or stakes. No more than one half (1/2) of any log shall extend above the stakes unless properly and securely saddled.

NOTE: For logs in transit see “Log Truck Transportation” (IDAPA 07.08.12, Section 010).

Signs to this effect shall be prominently posted at each landing or dump. An extra wrapper shall be placed to hold the logs if it becomes necessary to move a wrapper to prevent it from being fouled by the unloading machine. Stake finger trips shall be released by using rip chains. The use of hammers, peaveys, etc., is strictly prohibited.

All log dumps, trailer loading areas, and landings shall be kept reasonably free from bark and other debris.

Artificial log ponds, subject to stagnation, shall be drained and refilled at such intervals necessary to keep them in a sanitary condition.

When binders are released by remote control devices and when the person releasing the binders is in a safe location, and when in view of the unloading operators, or signal person, the binders may be released from either side. After the unloading machine is in position to hold the load, the binders shall be removed and the person removing them shall be in a safe location in view of the operator. DOCKET NO. 08-0113-1901
NOTICE OF RULEMAKING – TEMPORARY AND PROPOSED RULE

EFFECTIVE DATE: The effective date of the temporary rule is August 29, 2019.

AUTHORIZED: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Section 33-4303, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than October 16, 2019.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

IDAPA 08.01.13 sets out the eligibility and application requirements for the Opportunity Scholarship, as authorized by Section 33-4303, Idaho Code. Senate Bill 1279 (2018), amended Section 33-4303, Idaho Code, authorizing the State Board of Education to award up to 20% of the funds appropriated for the Opportunity Scholarship to individuals with 24 or more postsecondary credits.

The proposed rule would make amendments to the student eligibility and application requirements to allow for a portion of the Opportunity Scholarship awards to be used for individuals who have earned 24 or more postsecondary credits. Proposed amendments include:

- Defining an “Adult Learner” and graduation plan;
- Lower the minimum GPA from 3.0 to 2.7 for all students while allowing Adult Learners to apply with a 2.5 GPA and renew with a 2.7 GPA;
- Allow Adult Learners to apply on an alternate date set by the Executive Director, rather than the current March 1 deadline;
- Require Adult Learners to have “stopped out” for 24 or more months, with the exception of two (2) courses;
- Allow Adult Learners to attend part-time;
- Pro-rate the amount of the awards for Adult Learners based on the number of credits attempted down to a minimum of six (6) credits;
- Require institutions to discuss opportunities for students to receive credits through prior learning assessments; and
- Require students to show progress on their educational plans to maintain scholarship eligibility.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) (b) and (c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons: The temporary rule is necessary to award eligible scholarship applicants for the 2019-2020 school year who meet the requirements of having some credits and no degrees established in Section 33-4303, Idaho Code.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: N/A

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Article IX, Section 2, Idaho Constitution and under Sections 33-105, 33-107 and 33-116, 33-320, 33-1212A, 33-1614, and 33-1616, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than October 16, 2019.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

During the 2019 Legislative Session the State Superintendent introduced legislation that removed the reference to the grade range performance metrics from Section 33-320, Idaho Code, and tied the required annual progress reporting to the new school district accountability report cards. These statutory changes conflict with the language in IDAPA 08.02.02.801 making it necessary to remove the language identifying the grade range performance metrics from Administrative Code. In addition to these changes, as part of the rule review process required by the Red Tape Reduction Act two additional sections were identified that are now obsolete and are being proposed for removal.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: N/A

02. Regulations Incorporated by Reference. The Federal regulations of the U.S. Department of Veterans Affairs as referred to by these regulations are incorporated herein and will have the same force and effect as if fully set forth. Copies of referred federal regulations may be obtained from the United States Veterans Administration, the State Department of Education, or the Idaho State Law Library. (4-1-97)

03. Definition. For the purposes of these rules, the following words and phrases will have these meanings: (4-1-97)

  a. No more than twenty percent (20%) of the students pursuing such a course should be able to complete the course in less than six (6) months for the normal length to be certified as six (6) months or more. The determination of this factor will be based upon the records of the school for the immediately preceding years.

Other training on-the-job courses: Any training on-the-job that does not qualify as an apprentice course as defined in these regulations, but that otherwise meets the requirements of subparagraph C of VA Regulation 14262 as incorporated by reference herein.
state approval agency may, upon adequate investigation, approve the application when the course or courses to which the application pertains and the institution or establishment offering them are found to have met the following criteria: for accredited courses, criteria set forth in VA Regulation 14253(D), (E), or (F) as applicable; for nonaccredited courses, criteria set forth in VA Regulation 14254(C); for correspondence courses, criteria set forth in VA Regulation 14256 in addition to criteria set forth in VA Regulations 14252 and 14253 as applicable; for apprentice courses, criteria set forth in VA Regulation 14261(C); for flight training courses, criteria set forth in VA Regulation 14263. In addition, the state approving agency requires that students complete a minimum of thirty (30) hours of instruction per quarter to maintain such eligibility.

06. Notice of Approval. Upon determining that an institution or establishment has complied with all the requirements for approval, the state approval agency will notify the institution or establishment by a letter setting forth the courses that have been approved and will furnish the VA with an official copy of the letter, attachments and any subsequent amendments.

07. Length of Time of Approval. Approval of a course is for an indefinite period of time. However, the state approval agency may require that requests for continued approval be submitted on an annual basis with appropriate supporting documentation. Furthermore, any revision or change made in a course will require resubmission of the course for approval by the state approval agency.

08. Suspension or Withdrowal of Approval. Continuing approval of a course or courses is contingent upon maintaining prescribed standards and conformance with requirements referred to above.

a. In the event that the evidence of record establishes that the course fails to meet such requirements for approval, approval of the course for new enrollments may be suspended by the state approval agency for a period not to exceed sixty (60) days to allow the institution or establishment to meet the requirements for approval.

b. The length of the suspension will not be for an indeterminate period but will be of a reasonable duration as determined by the state approval agency to be necessary for the institution or establishment to meet the requirements in light of the nature of the deficiencies.

c. Prior to the effective date of the suspension, the state approval agency will give notice of the intended action to the affected institution or establishment which will include facts or circumstances on which the intended suspension is based and any available supporting documentation. The state approval agency will also afford to such institution or establishment, prior to the effective date of the suspension, a reasonable opportunity to show compliance with all lawful requirements for the retention of approval either by providing written support or through oral presentations to the appropriate agency officials.

d. For those cases where a discrepancy has not been corrected at the time of the expiration date of a suspension period or in lieu of suspension for those cases where a discrepancy is so major as to substantially deprive the student of the protection afforded by the approval process or is of such a nature that it cannot be corrected within a period of sixty (60) days, the state approval agency will withdraw approval of the affected course or courses.

e. Prior to the effective date of the withdrawal of approval, notice of the agency's intended action will be provided to the affected institution or establishment, which will include a statement of the institution's right to a hearing, a statement of the authority and jurisdiction under which the hearing is to be held, a reference to the particular sections of statutes or rules involved, and a short and plain statement of the grounds upon which the intended action to withdraw approval is based.

f. An opportunity will be afforded the affected institution or establishment to respond to the agency's intended action and to present evidence and argument on all issues involved. A three (3) member hearing panel will be appointed by the executive officer of the state approval agency to review such appeal and submit recommended findings of fact and conclusions of law to the executive officer who will thereafter render a final decision in the matter.
g. Any final decision adverse to an institution or establishment will be in writing or stated in the record. The decision will include findings of fact and conclusions of law, separately stated. (4-1-97)

Accreditation allows an agent to keep one hundred dollars ($100). (4-1-97)

02. Cancellation of Enrollment. For a student requesting cancellation of enrollment after starting the course, the charge made will be based on lessons completed or time spent and will be computed on the following prorated basis: fifty percent (50%) retention during the first quarter; seventy-five percent (75%) retention during the second quarter; and one hundred percent (100%) retention during the third and fourth quarter. (A quarter means time reasonably expected for completion of one-fourth (1/4) of the course.) (4-1-97)

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Each career technical education program has content standards that are developed cooperatively with Idaho educators and Idaho industry partners. To be consistent with the academic content standards, during the 2016 rulemaking process the Division started the process of bringing the career technical education content standards forward for incorporation into Administrative Code. The standards being considered this year add or updated the following subcategories into the current content standard areas:

- Agriculture and Natural Resources
  - Food Science and Processing Technology – new incorporation/existing standard
- Business and Marketing Education

NOTICE OF RULEMAKING – PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221, Idaho Code, this agency hereby gives notice of proposed rulemaking. The action is authorized by Sections 36-104 and 36-1101, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The proposed rule change would remove the general requirement that diverters be used on ground set snares for gray wolf trapping, but would allow the Commission to require diverters in specific areas based on levels of non-target catch of animals that might be avoided by diverter use. The proposed rule would also require ground set snares for gray wolf trapping to use both a breakaway device and a cable stop; the current rule requires the use of at least one of these devices.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: The proposed rule has no associated fee.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: Not Applicable.

The meeting did not result in consensus, and polarized opinions stated by meeting participants on issues within and beyond the scope of rulemaking are not suited to further negotiation. The agency considered public input received and proceeded with proposed rulemaking.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: N/A

This rulemaking contains the specific changes described below:

*Section 281 provides Medicaid services to inmates of a public institution should they need inpatient care in a hospital. This section will align with the rule in IDAPA 16.03.05, “Eligibility for Aid to the Aged, Blind, and Disabled (AABD),” around the ineligibility of inmates of public institutions;

*Section 400 outlines the rules that govern the newly expanded adult population that may receive Medicaid for people 19 - 64 years of age. This section also includes the pregnancy Medicaid program since the income limits and coverage aligns with other adult coverage; and

*Section 500 removes the relevant rules related to Pregnant Women coverage incorporated into section 400.

TEMPORARY RULE JUSTIFICATION: Pursuant to Section(s) 67-5226(1) section b, Idaho Code, the Governor has found that temporary adoption of the rule is appropriate to comply with deadlines in amendments to governing law or federal programs. NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted because this rulemaking is to align IDAPA code with statute.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: N/A

THE FOLLOWING IS THE PROPOSED TEXT OF DOCKET NO. 16-0310-1704
(Only Those Sections With Amendments Are Shown.)

037. GENERAL REIMBURSEMENT: PARTICIPANT SERVICES.
The Department will evaluate provider reimbursement rates that comply with 42 U.S.C. 1396a(a)(30)(A). This evaluation will assure payments are consistent with efficiency, economy, and quality of care and safeguards against unnecessary utilization of care and services. Reimbursements will be sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area. (4-4-13)

01. Applicable Participant Services. Unless otherwise provided in this chapter of rules, the following types of services are reimbursed as provided in this rule:

a. The Personal Care Services (PCS) described in Sections 300-308 of these rules.

b. The Aged and Disabled Waiver services described in Sections 320-330 of these rules.

c. The Children’s Developmental Disabilities Home and Community-Based State Plan Option Services described in Sections 520-528 of these rules.

d. The Adult Developmental Disabilities Waiver services described in Sections 700-706 of these rules.
e. The Adult Developmental Disabilities Home and Community-Based State Plan Option Services described in Sections 645-657 of these rules.

042. Review Reimbursement Rates. The Department will review provider reimbursement rates and conduct cost surveys when an access or quality indicator reflects a potential access or quality issue described in Subsections 037.02 and 037.03 of this rule.

043. Access. The Department will review annual statewide and regional access reports by service type comparing the previous twelve (12) months to the base-line year of State Fiscal Year 2012. The following measures will be used to determine when there is potential for access issues.

a. Compare the change in total number of provider locations for service type to the change in eligible participants; or (4-4-13)
b. When participant complaints and critical incidence logs reveal outcomes that identify access issues for a service type. (4-4-13)

044. Quality. The Department will review quality reports required by each program used to monitor for patterns indicating an emerging quality issue. (4-4-13)

045. Cost Survey. The Department will survey one hundred percent (100%) of providers. Providers that refuse or fail to respond to the periodic state surveys may be disenrolled as Medicaid providers. The Department will derive reimbursement rates using direct care staff costs, employment related expenditures, program related costs, and indirect general and administrative costs in the reimbursement methodology, when these costs are incurred by a provider. The Department will conduct cost surveys customized for each of the services defined identified in Section 038 of these rules.

a. Wage rates will be used in the reimbursement methodology when the expenditure is incurred by the provider type executing the program. Wages will be identified in the Bureau of Labor Statistics website at www.bls.gov when there is a comparable occupation title for the direct care staff. When there is no comparable occupation title for the direct care staff, then a weighted average hourly rate methodology will be used. (4-4-13)
b. For employer related expenditures:
   i. The Bureau of Labor Statistics’ report for employer costs per hour worked for employee compensation and costs as a percent of total compensation for Mountain West Divisions will be used to determine the incurred employer related costs by each provider type. The website for access to this report is at www.bls.gov. (4-4-13)
   ii. The Internal Revenue Service employer cost for social security benefit and Medicare benefit will be used to determine the incurred employer related costs by provider type. The website for access to this information is at www.irs.gov. (4-4-13)
c. Cost surveys to collect indirect general, administrative, and program related costs will be used when these expenditures are incurred by the provider type executing the program. The costs will be ranked by costs per provider, and the Medicaid cost used in the reimbursement rate methodology will be established at the seventy-fifth percentile in order to efficiently set a rate. (4-4-13)

038. General Reimbursement: Types of Participant-Specialized Reimbursement: Certain Home and Community-Based Services.

The following types of services are reimbursed as provided in Section 037 of these rules. The Department will review provider reimbursement rates to ensure compliance with 42 U.S.C. 1396a(a)(30)(A). This review will assure payments are consistent with efficiency, economy, quality of care and safeguard against unnecessary utilization of care and services. Reimbursements will be sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area. (4-4-13)
01. **Personal Care Applicable Home and Community-Based Services.** The fees for personal care services (PCS) described in Section 300 of these rules, home and community-based services provided by the following types of providers are reimbursed as described in this rule:

a. Developmental Disability Agencies providing services to adults; 

b. Developmental Disability Agencies providing services to children; 

c. Residential Habilitation Agencies; 

d. Supported Employment Agencies; and 

e. Targeted Service Coordination Agencies. 

02. **Aged and Disabled Waiver Services Timing, Description, and Results of Rate Reviews.** The fees for personal care services (PCS) described in Section 320 of these rules. 

a. Standard Rate Reviews. The Department will conduct a cost survey and review reimbursement rates at least once every five (5) years for each type of provider specified in this rule. Cost surveys will be conducted in the order and on the schedule established by the Department. 

b. Interim Rate Reviews. The Department will prepare an annual trigger analysis and publish the report on its Medicaid Providers webpage, http://healthandwelfare.idaho.gov/Providers/MedicaidProviders/tabid/214/Default.aspx. This annual report will describe the triggers for interim rate review, a summary of the data reviewed for each trigger, and the Department’s determination and rationale of whether each trigger was met. The Department will conduct an interim rate review upon the occurrence of one (1) or more of the following triggers:

i. When substantiated participant complaints, critical incidents, or both, related to a lack of qualified providers indicate an emerging access issue; 

ii. When quality reports prepared by the Department or substantiated participant complaints and critical incidents related to the quality of services provided indicate an emerging quality issue; or 

iii. When the federal or Idaho state minimum wage requirement in effect at the time of the standard rate review significantly increases or decreases. 

c. No Obligation to Revise Rates. The Department is not required to revise reimbursement rates each time a rate review or cost survey is conducted. The results of a rate review or cost survey do not guarantee a change to the reimbursement rate. 

03. **Children’s Waiver Services Cost Survey Procedures.** The fees for children’s waiver services described in Section 680 of these rules. 

a. Participation. The Department will survey one hundred percent (100%) of providers. A provider who refuses or fails to respond to the periodic cost surveys may be disenrolled as a Medicaid provider. 

b. Customization. The Department will conduct cost surveys customized for each type of provider identified in this rule. 

c. Independent Consultant. The Department will engage an independent cost survey consultant with expertise and experience in fee-for-service home and community-based services, including services for individuals with developmental disabilities. 

d. Provider Engagement. 

i. The Department will establish reimbursement advisory workgroups to advise on matters related to
the specialized reimbursement specified in this rule, including notice and development of cost surveys, recommendation of Bureau of Labor and Statistics occupation profile or profiles utilized when setting new reimbursement rates, and other reimbursement-related matters presented by the Department. The Department will retain final decision-making authority over all matters presented to or reviewed by the workgroups.

ii. The Department will provide reasonable prior notice of pending cost surveys to impacted providers.

iii. The Department or its cost survey consultants will train providers how to complete the cost survey, and provide technical assistance to providers during the cost survey response period.

04. **Adults with Developmental Disabilities Waiver Services Reimbursement Rate Setting Methodology**

   The fees for adults with developmental disabilities waiver services described in Section 700 of these rules. Reimbursement rates will be derived using a combination of four (4) cost components - direct care staff wages or targeted service coordinator wages, employee-related expenses, program-related expenses, and general and administrative expenses. Each provider must demonstrate that the average percent of wage and benefits paid to their direct care staff (or targeted service coordinators) meets or exceeds the percent of wages and employee-related expenses utilized in establishing the reimbursement rate for the service type. The cost components and new reimbursement rate are established in accordance with the following:

   a. **Direct Care Staff Wages and Targeted Service Coordinator Wages.**

      i. Direct care staff and targeted service coordinator wages are wages paid to individuals employed or contracted by an agency who perform duties described in the applicable service coverage description for at least seventy-five percent (75%) of the total annual amount of time they are compensated.

      ii. The wage component (Wage) used to establish the new reimbursement rate is set using the mean hourly wage of one (1) or more occupation profiles from the most current Bureau of Labor and Statistics (BLS) State Occupational Employment and Wage Estimates table for the state of Idaho found on the BLS website at www.bls.gov. The BLS occupation profile that most closely aligns with the duties, education level, and supervision requirements of the direct care staff (or targeted service coordinator) providing the service is utilized. If more than one (1) occupation profile aligns with the duties, education level, and supervision requirements of the direct care staff (or the targeted service coordinator) providing the service, then a weighted average of the mean hourly wage of multiple BLS occupation profiles is utilized.

      iii. When there is no comparable occupation profile or profiles for the direct care staff (or targeted service coordinator), then the wage component used to establish the new reimbursement rate is set using the weighted average hourly rate (WAHR) of the surveyed wages included in the final cost survey results.

      iv. The Department will make the final determination of BLS occupation profile or profiles after consideration of advice from the relevant Reimbursement Advisory Workgroup.

      v. The Department will evaluate an appropriate wage inflation factor based on the economic data available at the time the reimbursement rate is set.

   b. **Employee-Related Expenses (ERE).**

      i. ERE are the expenses incurred by the provider agency for the benefit of the direct care staff (or targeted service coordinators) of an agency in the following six (6) categories: (1) paid leave, (2) supplemental pay, (3) payroll taxes, (4) workers’ compensation, (5) insurance coverage, and (6) retirement contributions.

      ii. The ERE component percentage (ERE%) used to establish the new reimbursement rate is set using the cumulative percentage of employer costs for employee compensation from the most current BLS Employer Costs for Employee Compensation table for the West Region in the Mountain Division and IRS Publication 15.

   c. **Program-Related Expenses (PRE).**
PRE are wages and other expenses that support the objectives and provision of the service but cannot be tied to any particular person receiving the service. Requirements related to the delivery of services in accordance with statute and rule are PRE.

Program-related staff are individuals employed by an agency who perform program-related duties as required by statute or rule for at least seventy-five percent (75%) of the total annual amount of time they are compensated.

Utilizing data in the final cost survey results, each agency’s PRE component percentage (PRE%) is calculated by dividing the agency’s total PRE by the agency’s total wages. Each agency’s PRE% is ranked, and the PRE% used to calculate the new reimbursement rate is set at the mean of the agency PRE%.

g. General and Administrative (G&A) Expenses.

1. G&A expenses are wages and other expenses related to day-to-day operations common across all businesses.

2. G&A staff are individuals employed by an agency who perform administrative duties for at least seventy-five percent (75%) of the total annual amount of time they are compensated.

3. Utilizing data in the final cost survey results, each agency’s G&A component percentage (G&A%) is calculated by dividing the agency’s total G&A expenses by the sum of the agency’s total wages, plus the total ERE, plus the total PRE, plus the total G&A expenses. Each agency’s G&A% is ranked, and the G&A% used to calculate the new reimbursement rate is set at the mean of the agency G&A%.

4. The G&A% used to calculate the new reimbursement rate will not exceed ten percent (10%) of the total reimbursement rate per staff hour.

e. Total Reimbursement Rate Per Staff Hour of Service = ((Wage + (ERE% x Wage) + (PRE% x Wage)) / (1 - (G&A))).

f. The Department is not obligated to make budget requests based on the total reimbursement rate per staff hour. The Department will take into consideration the factors of efficiency, economy, quality of care, and access to care when determining rates. Reimbursement rates may be set at a percentage of the total reimbursement rate per staff hour. All reimbursement rate increases are subject to approval by the Idaho State Legislature.

05. Service Coordination—Quality Performance Incentives. The fees for service coordination described in Section 720 of these rules. (4-4-13)

a. Based on the quality of services provided to its Medicaid participants, a provider may become eligible to receive incentive payments.

b. Quality measures and associated payment percentages will be established by the Department, in collaboration with the Idaho Council on Developmental Disabilities and DisAbility Rights Idaho (or such other organization designated by the Governor as the state’s protection and advocacy system), and will be described in the Idaho Medicaid Provider Handbook available at www.idmedicaid.com. The Department will provide sixty (60) days prior notice of any substantive changes to the quality measures and associated payment percentages described in its provider handbook.

c. Incentive payments will be subject to the availability of State and federal funds, and may be rescinded if the quality of services declines.

06. Therapy Services. The fees for physical therapy, occupational therapy, and speech-language pathology services described in Section 215 of these rules include the use of therapeutic equipment to provide the modality or therapy. No additional charge may be made to either the Medicaid program or the client for the use of such equipment. (4-4-13)

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The proposed rulemaking proposes to align the Personal Needs Allowance (PNA) for all HCBS participants regardless of marital status. This alignment also allows the Department to reduce the PNA table from six (6) categories of eligibility down to two (2). The final determination of this rule change will align the PNA for all participants without a rent or mortgage expense to 100% of the Federal SSI benefit.

Additionally, a subsection has been added that details that Native Americans and Medicaid Workers with Disabilities are exempt from this share of cost requirement. 42 CFR 447.56 prohibits states from collecting share of cost from Tribal participants and MWD participants. This update is necessary to help align this chapter with other rule chapters, CFR, and clarify existing practice. While this is an addition to this rule, it also provides a clarification to this chapter that has been a source of confusion for participants and providers of HCBS services.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year as a result of this rulemaking:

Aligning the Personal Needs allowance (PNA) to 100% of SSI Federal benefit results in a net impact of an ongoing savings of $296,726 (approximately $207,708 Federal dollars and $89,018 State dollars) per year due to a reduction in Medicaid claims expenditures. The change will result in Share of Cost increasing for a small number of
participants (191 members in State Fiscal Year 2018 and approximately 30 members as of August 5, 2019) receiving Home and Community Based Services, which will decrease the amount of dollars paid in Medicaid claims.

Funding sources: Aligning the PNA to 100% of SSI Federal benefit results in a net impact of an ongoing savings of $296,726 (approximately $207,708 Federal dollars and $89,018) per year due to a reduction in Medicaid claims expenditures.

Automated Systems: There is no fiscal impact associated with changes to automated systems, the Idaho Benefit Eligibility System (IBES). Necessary changes will be incorporated into routine business operations and required annual updates will be made.

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted. The Notice of Intent to Promulgate Rules – Negotiated Rulemaking was published in the June 5, 2019, Idaho Administrative Bulletin, Vol. 19-6, pages 59-60.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: N/A

THE FOLLOWING IS THE PROPOSED TEXT OF DOCKET NO. 16-0318-1901  
(Only Those Sections With Amendments Are Shown.)

025. PARTICIPANTS EXEMPT FROM COST-SHARING.  
Native American and Alaskan Native participants are exempt from the cost-sharing provisions of Sections 200, 205, 215, and 400 of these rules. The participant must declare his race to the Department to receive this exemption. Participants in the Medicaid Workers with Disabilities (MWD) program are exempt from the cost-sharing provisions of Sections 200, 205, 207, and 400 of these rules.

(BREAK IN CONTINUITY OF SECTIONS)

215. PREMIUMS FOR PARTICIPATION IN MEDICAID ENHANCED PLAN.
01. **Workers with Disabilities.** A participant in the Medicaid for Workers with Disabilities coverage group must share in the cost of Medicaid coverage, if required. Countable income is determined under IDAPA 16.03.05, “Rules Governing Eligibility for Aid to the Aged, Blind, and Disabled (AABD).” A participant's premium for his share of Medicaid costs under this coverage group is determined in Subsections 215.02 through 215.04 of this rule.

02a. **Countable Income at or Below 133%.** A participant who has countable income at or below one hundred thirty-three percent (133%) of the current federal poverty guideline is not required to pay a premium for Medicaid.

03b. **Countable Income Above 133% to 250%.** A participant who has countable income above one hundred thirty-three percent (133%) to two hundred fifty percent (250%) of the current federal poverty guideline is required to pay a monthly premium of ten dollars ($10) to the Department.

04c. **Countable Income in Excess of 250%.** A participant who has countable income in excess of two hundred fifty percent (250%) of the current federal poverty guideline is required to pay a monthly premium to the Department. The amount due is the greater of ten dollars ($10); or seven and one-half percent (7.5%) of the participant's income above two hundred fifty percent (250%) of the current federal poverty guideline.

052. **Recomputed Premium Amount.** Premium amounts are recomputed when changes to a participant’s countable income result in a different percentage premium calculation as determined in Subsections 215.02 through 215.04 of this rule, and at the annual re-determination.

**(BREAK IN CONTINUITY OF SECTIONS)**

400. **PARTICIPATION IN THE COST OF HOME AND COMMUNITY-BASED WAIVER SERVICES.**

Medicaid participants required to participate in the cost of Home and Community-Based Waiver (HCBS) services as described in IDAPA 16.03.10, “Medicaid Enhanced Plan Benefits,” must have their share of cost determined as described in Subsections 400.01 through 400.10 of this rule.

01. **Excluded Income.** Income excluded under the provisions of IDAPA 16.03.05, “Rules Governing Eligibility for Aid to the Aged, Blind, and Disabled (AABD),” Sections 723 and 725, is excluded in determining participation.

02. **Base Participation.** Base participation is income available for participation after subtracting all allowable deductions, except for the incurred medical expense deduction in Subsection 400.07 of this rule. Base participation is calculated by the participant's Self Reliance Specialist. The incurred medical expense deduction is calculated by the Regional Medicaid Services (RMS) Division of Welfare.

03. **Community Spouse.** Except for the elderly or physically disabled participant's personal needs allowance, base participation for a participant with a community spouse is calculated under IDAPA 16.03.05, “Rules Governing Eligibility for Aid to the Aged, Blind, and Disabled (AABD),” Section 725. A community spouse is the spouse of an HCBS participant who is not an HCBS participant and is not institutionalized. The HCBS personal needs allowance for a participant living in adult residential care equals the federal Supplemental Security Income (SSI) benefit rate for an individual living independently.

04. **Home and Community Based Services (HCBS) Spouse.** Except for the elderly or physically disabled participant's personal needs allowance (PNA), base participation for a participant with an HCBS spouse is calculated and specified under IDAPA 16.03.05, “Rules Governing Eligibility for Aid to the Aged, Blind, and Disabled (AABD),” Section 723. An HCBS spouse is the spouse of a participant who also receives HCBS.

05. **Personal Needs Allowance.** The participant's personal needs allowance depends on his marital status and whether the participant has a legal obligation to pay rent or mortgage. The participant's personal needs allowance is deducted from any countable income after income exclusions and before other allowable deductions. To determine the amount of the personal needs allowance, use Table 400.05 of this rule.
06. Developmentally Disabled Participants. These allowances are specified in IDAPA 16.03.05, “Rules Governing Eligibility for Aid to the Aged, Blind, and Disabled (AABD).” The HCBS personal needs allowance for adult participants receiving waiver services under the Developmentally Disabled Waiver is three (3) times the federal SSI benefit amount to an individual in his own home.

07. Incurred Medical Expenses. Amounts for certain limited medical or remedial services not covered by the Idaho Medicaid Plan and not paid by a third party may be deducted from the base participation amount. The Department must determine whether a participant’s incurred expenses for such limited services meet the criteria for deduction. The participant must report such expenses and provide verification in order for an expense to be considered for deduction. Costs for over-the-counter medications are included in the personal needs allowance and will not be considered a medical expense. Deductions for necessary medical or remedial expenses approved by the Department will be deducted at application, and changed, as necessary, based on changes reported to the Department by the participant.

08. Remainder After Calculation. Any remainder after the calculation in Subsection 400.05 of this rule is the maximum participation to be deducted from the participant's provider payments to offset the cost of services. The participation amount will be collected from the participant by the provider. The provider and the participant will be notified by the Department of the amount to be collected.

09. Recalculation of Participation. The participant’s participation amount must be recalculated annually at redetermination or whenever a change in income or deductions becomes known to the Department.

NOTICE OF RULEMAKING – PROPOSED RULE

**AUTHORITY:** In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Section 56-202, Idaho Code, and CFR Title 45 Part 98, Child Care and Development Fund.

**PUBLIC HEARING SCHEDULE:** Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than October 16, 2019.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

**DESCRIPTIVE SUMMARY:** The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The Idaho Child Care Program is removing sections that are no longer necessary and updating language to existing rules to align with federal regulations. The language updates pertain to health and safety training for providers. The Idaho Child Care Program received federal guidance pertaining to identified sections of IDAPA and changes and additions must be completed to come into compliance with the regulations. The program also began reviewing components of the rule that can be removed to comply with the Red Tape Reduction Act.

**FEE SUMMARY:** The following is a specific description of the fee or charge imposed or increased: N/A

**FISCAL IMPACT:** The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking:

The program anticipates minimal, if any, negative impact on the state general fund as a result of this rulemaking. Removal of language pertaining to co-pays and mandatory reporting requirements for activity hours may result in small positive or negative impacts, depending on individual family circumstances, but the net impact of these changes is anticipated to be less than $10,000 in additional costs to the general fund.

**NEGOTIATED RULEMAKING:** Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted because this rulemaking is to align with federal regulations and is simple in nature.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: N/A

**ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS:** For assistance on technical questions concerning the proposed rule, contact Ericka Rupp, (208) 334-5641.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

IDPR seeks approval for rule changes to go into effect November 1, 2020. The proposed rule change updates definitions and standards, updates fee caps on facilities, creates new fees for pets and cleaning, consolidates rules governing the winter recreational parking permit program, and incorporates edits for clarity and brevity consistent with the Red Tape Reduction Act. The proposed rule also reduces the number and complexity of campsite types and sets fee caps for the new campsite types.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased:

The Park and Recreation Board is authorized under Section 67-4223, Idaho Code, to adopt, amend, or rescind rules as may be necessary for the proper administration of Title 67, Chapter 42, Idaho Code. The proposed rule accomplishes the following:

1. Removes fees for: primitive campsite; standard campsite; serviced campsite/W; serviced campsite/E; serviced campsite/W, E; serviced campsite/W, E, SWR; amenity fee for central water; and amenity for flush-toilets/showers.

2. Adds fees and fee caps for: basic campsite; electric campsite; full hook-up campsite; hike-in/bike-in campsite; pets; cleaning; and extra vehicle.

3. Raises fee caps for: fee collection surcharge; daily MVEF; commercial motor vehicle entrance; admission; overnight use of parking areas; camping cabins and yurts; each additional person above the base occupancy of the group overnight facility; and vessel launching.

The Park and Recreation Board is also authorized to further define and make specific the provisions regarding the winter recreational parking permit program as set forth in Sections 67-7115 through 67-7118, Idaho Code. The proposed rule transfers the existing fees from IDAPA 26.01.36 to IDAPA 26.01.20.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year as a result of this rulemaking:

We expect a positive fiscal impact to our 0243 dedicated fund account due to the new fee structure and caps. Once the new fee structure and caps are in place, we will work with the Park and Recreation Board to establish new fees. The Board will consider the fee changes at a noticed public hearing.

05. Improved Commercial or Industrial Property Category. Improved commercial or industrial property is all improvements used for commercial or industrial purposes and the land upon which these improvements are located. The assessor listed this property in secondary categories 11 and 33, 13 and 35, 14 and 36, 16 and 38, 17 and 39, 21 and 42, 22 and 43, 27, or 51, as described in Rules 510 and 511 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the State Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules.

06. Manufactured Homes on Leased Land Category. Manufactured homes on leased land are all
manufactured homes on leased land that the assessor listed in secondary categories 49 or 65 together with secondary category 47 as appropriate for inclusion when valuing this property, as described in Rule 511 of these rules, for the purposes of listing property values on the valuation assessment notice under Sections 63-301 and 63-308, Idaho Code, and reporting values to the State Tax Commission under Section 63-509, Idaho Code, and Rule 509 of these rules.

07. **Agricultural Land Category.** Agricultural land is all land that the assessor listed in secondary categories 1 through 5 as described in Rule 510 of these rules. For agricultural land, secondary, rather than primary, category values are to be tested if significant in any county as defined in Rule 131 of these rules.

131. **Use of Ratio Study or Other Method to Test for Equalization in Counties (Rule 131).**

Section 63-109, Idaho Code

01. **Equalization Ratio Study - Primary Categories Other Than Agricultural Land.** Each year the State Tax Commission shall will conduct a ratio study to assist in the equalization of assessments of property within and among the primary categories, other than agricultural land, established in Rule 130 of these rules. The ratio study shall will be conducted in accordance with the “Standard on Ratio Studies” and the “Standard on Verification and Adjustment of Sales” both referenced in Rule 006 of these rules. The annual ratio study shall will test assessments as of January 1 of each year. Except when sales or appraisals must be added or deleted to improve representativeness, sales used will be those occurring within each county between October 1 of the year preceding the year for which assessments are to be tested and September 30 of the year for which assessments are to be tested. Each sale price is to be adjusted for time and compared to market value for assessment purposes for the year for which assessments are to be tested, to compute ratios to be analyzed. The State Tax Commission may use sales from extended time periods and may add appraisals when data is lacking. Equalization ratio studies must consist of at least five (5) sales and/or appraisals. The State Tax Commission may delete sales when necessary to improve representativeness. Sales should be considered as potentially valid if a financial institution is the seller, provided that:
a. Such sales comprise more than twenty (20) percent of the sales in any primary category or other category tested for equalization; (4-4-13)

b. Such sales are validated to account for changes in property characteristics; and (4-4-13)

c. Any properties that have been vandalized are excluded. (4-4-13)

d. The study shall will be completed in February following the end of the period studied. Timing and notification of county officials is described in the “Timing and Notification Table” as provided in Subsection 131.03 of this rule. For non-agricultural categories, the appropriate ratio study statistical measure of level shall be is the median. For agricultural land categories, level of assessment is to be determined as described in Paragraph 131.02.b. of this rule. (4-4-13)

02. Equalization Study – Agricultural Land. Each year the Tax Commission will conduct a study to assist in the equalization of assessments of agricultural land. Any such study will analyze agricultural land values throughout each significant secondary agricultural land category using valuation methods found in Section 63-602K, Idaho Code and Rule 617 of these rules.

a. Notice of results and compliance will be provided to county officials according to the timing shown in Subsection 131.03 of this rule. (____)

b. Agricultural land secondary categories considered significant, as defined in Paragraph 131.02.c. of this rule, in any county will be subject to preliminary and follow-up studies of assessment level. Both studies will be based on valuation methodology described in Rule 617 of these rules. The preliminary study will be in comparison to prior year’s assessed values. The follow-up studies will test current year’s assessed values and will only be required when preliminary studies indicate level of assessment less than ninety percent (90%) or greater than one hundred ten percent (110%) of market value for assessment purposes. Assessed values for any agricultural land secondary category with an indicated level determined to be within this range and those categories not considered significant in a county will be considered in compliance. Note: For the purpose of this analysis, “level” means the ratio of the median per acre assessed value and the median per acre value for the secondary category determined by the Tax Commission using the valuation methodology found in Rule 617 of these rules. (____)

c. A secondary agricultural land category will be considered significant provided the category includes at least 10% of the acreage and at least 5% of the value of the primary agricultural land category. (____)

d. Agricultural land categories may also be subject to follow-up studies if the Tax Commission has received information indicating that county boards of equalization have changed values in such a way as to produce likely non-compliance. Notice for such follow-up studies will comport, to the extent possible, with the procedures found in Subsection 131.06 of this rule. The time table for completing preliminary and follow-up studies and providing notice is shown in the “Timing and Notification Table” found in Subsection 131.03 of this rule. (____)

### Tested for Equalization

Except as provided in Subsection 131.045 of this rule, categories, other than agricultural land to be tested for equalization purposes are the primary categories, described in Subsections 130.02 through 130.06 of these rules, provided adequate samples can be obtained. Agricultural land is to be tested as provided in Subsection 131.02 of this rule.

### Follow-Up Ratio Study

When indicated, based on criteria in Paragraph 131.045.a. and 131.045.b. of this rule, a follow-up ratio study shall will be conducted to test the assessments for January 1 of the year following the year tested by the preliminary agricultural study or annual ratio study and shall if a ratio study is to be done, it will be based on property sales occurring during the calendar year immediately preceding that date. A follow-up ratio study shall will be indicated whenever:

Assessors and county commissioners will be notified of results and compliance status by the 4th Monday in July, except that this deadline and the 3rd Monday in July deadline are to be extended if an extension has been granted to the county board of equalization. In that case, the final or additional studies will be finalized and notice provided within one week of the conclusion of the county board of equalization.</td>

#### 024.

**Tested for Equalization**. Except as provided in Subsection 131.045 of this rule, categories, other than agricultural land to be tested for equalization purposes are the primary categories, described in Subsections 130.02 through 130.06 of these rules, provided adequate samples can be obtained. Agricultural land is to be tested as provided in Subsection 131.02 of this rule.

#### 045.

**Follow-Up Ratio Study**. When indicated, based on criteria in Paragraph 131.045.a. and 131.045.b. of this rule, a follow-up ratio study shall will be conducted to test the assessments for January 1 of the year following the year tested by the preliminary agricultural study or annual ratio study and shall if a ratio study is to be done, it will be based on property sales occurring during the calendar year immediately preceding that date. A follow-up ratio study shall will be indicated whenever:

- **a.** The annual ratio study, provided in Subsections 131.01 and 131.02 of this rule, discloses that assessments in any primary category as described in Subsections 130.02 through 130.06 of these rules are out of compliance with the equalization standards of this rule; or

- **b.** The State Tax Commission is informed after the county board of equalization adjourns and before the state board of equalization adjourns or the implementation of assessment changes likely to result in a finding that a category found in compliance with equalization standards following the agricultural land study or annual ratio study would be found out of compliance with these standards for the current year’s assessments. The follow-up agricultural land study or ratio study authorized under this option shall will be conducted for the primary category likely to be out of compliance with equalization standards and for any secondary categories comprising the primary category, provided adequate samples can be obtained.

#### 046.

**Notice of Follow-Up Ratio Study**. The State Tax Commission shall will notify the county assessor of the reason for and results of the follow-up ratio study. If the follow-up ratio study is conducted as provided in Paragraph 131.045.b. or 131.02.d. of this rule, the notice shall will be sent to the county commissioners or board of equalization and county assessor and shall will describe the assessment changes that resulted in the need for the follow-up ratio study. The notice shall will indicate whether any adjustments will be considered by the State Tax Commission at its next equalization meeting in August based on either the annual, or any follow-up ratio study, and the reason for the proposed adjustments.

#### 047.

**Use of Ratio Study Results**. The results of the annual ratio study or any follow-up ratio study shall will be one (1) source of information upon which the State Tax Commission may rely when testing assessments for equalization purposes under Section 63-109, Idaho Code. When the results of any ratio study on any primary, or, if applicable under the provisions of Subsection 131.02 or Paragraph 131.045.b. of this rule, secondary category, described in Subsections 130.02 through 130.06 of these rules, show, with reasonable statistical certainty as defined in Subsection 131.0611 of this rule, that the appropriate measure of level of the category studied is less than ninety percent (90%) or greater than one hundred ten percent (110%), the assessment of property within that category may be considered not equalized. When this occurs, the State Tax Commission may, at its annual meeting commencing on the second Monday in August, order the county auditor to adjust the value of all property in the category or any portion of the category included in the analysis conducted in an amount the State Tax Commission finds necessary to accomplish equalization of assessments of property. Within any primary category, except as provided in Subsections 131.02 or 131.062 of this rule, adjustment will not be considered for any secondary category, described in Rule 510,
511, or 512 of these rules, that does not have at least one (1) observation in the ratio study conducted for that primary category. (4-7-11)

068. Exception from Requirement for at Least One (1) Observation for Use of Secondary Category in Adjusted Value Determination. Properties identified as secondary categories 10 and 31 rarely sell separately from farms and therefore do not appear in any ratio study. However, the level of assessment typically is similar to that of other rural residential property, including property in secondary categories 12, 15, 34, and 37. For any ratio study where there is an adjustment to be made to the assessed values in the residential designation, such adjustment shall will be applied to any assessed value in secondary category 10, provided there is at least one observation (sale) of property identified in either secondary category 12 or 15. Such adjustment shall will also be applied to any assessed value in secondary category 31, provided there is at least one (1) observation (sale) of property identified in either secondary category 34 or 37. (3-30-07)

029. Use of Alternate Ratio Study. When the follow-up ratio study required by Subsection 131.035 of this rule does not measure the true assessment level, the State Tax Commission may consider adjustment based on the most recent annually conducted ratio study or other information relevant to equalization. If the State Tax Commission has reason to question the representativeness of the sample used in an annual or follow-up ratio study conducted on any primary category, the State Tax Commission may delay implementation of any order to adjust property values until two (2) successive years’ ratio studies fail to produce an appropriate measure of level between ninety percent (90%) and one hundred ten percent (110%). (4-7-11)

108. Submission of Additional Information. Any party may petition the State Tax Commission to consider any information or studies relevant to equalization. The petition shall will include a description of the information to be presented and the petitioner’s conclusions drawn from the information. (4-5-95)

0911. Reasonable Statistical Certainty. For the purposes of Rule 131 and equalization pursuant to Section 63-109, Idaho Code, “reasonable statistical certainty” that any primary category is not equalized shall will mean that the appropriate measure of level determined by the ratio study for any category tested for equalization must be provably less than ninety percent (90%) or greater than one hundred ten percent (110%) of market value for assessment purposes. Such a determination shall will occur if:

a. The appropriate measure of level for the category(ies) being tested is less than ninety percent (90%) or greater than one hundred ten percent (110%) and a ninety percent (90%) two-tailed confidence interval around the appropriate measure of level fails to include ninety percent (90%) or one hundred ten percent (110%); or (4-7-11)

b. The appropriate measure of level for the category(ies) being tested has been less than ninety percent (90%) or greater than one hundred ten percent (110%) as determined by the most recent previous two (2) ratio studies on the category(ies) and an eighty percent (80%) two-tailed confidence interval around the appropriate measure of level fails to include ninety percent (90%) or one hundred ten percent (110%). No ratio study completed prior to August 31, 2007 will be considered as one of the most recent previous two (2) ratio studies. (4-7-11)

102. Cross References. The primary categories are described in Subsections 130.02 through 130.067 of these rules, and the secondary categories are described in Rules 510, 511, and 512 of these rules. (3-30-07)

317. OCCUPANCY TAX ON NEWLY CONSTRUCTED IMPROVEMENTS ON REAL PROPERTY
(RULE 317).

Section 63-317, Idaho Code

01. Property Subject to Occupancy Tax. Excluding additions to existing improvements, the occupancy tax shall apply to improvements upon real property, whether under the same or different ownership. The occupancy tax shall also apply to new manufactured housing, as defined in Section 63-317, Idaho Code, excluding additions to existing manufactured housing.

02. Prorated Market Value. The market value for occupancy tax purposes shall be the full market value on January 1 and shall be prorated at least monthly from the occupancy date to the end of the year.

03. Notice of Appraisal. When notifying each owner of the appraisal, the county assessor shall include at a minimum the full market value before any exemptions and before any prorating of the value, the length of time subject to the occupancy tax, and the prorated value.

04. Examples for Calculation of Value Less Homestead Exemption (HO). The following examples show the procedure for the calculation of the taxable value subject to the occupancy tax less the homestead exemption (HO):

   a. Example for prorated market value exceeding maximum amount of the homestead exemption for improvements subject to the occupancy tax beginning July 1, 2016.

   | Full Market Value of Home | $300,000 |
   | Prorated Market Value for 11 Month Occupancy | $300,000 x 11/12 = $275,000 |
   | Taxable Value | $275,000 - $100,000 (HO) = $175,000 |

   (3-29-17)

   b. Example for prorated market value resulting in less than the maximum amount of the homestead exemption.

   | Full Market Value of Home | $120,000 |
   | Prorated Market Value for 3 Month Occupancy | $120,000 x 3/12 = $30,000 |
   | Taxable Value | $30,000 - $15,000 (HO) = $15,000 |

   (3-30-07)

05. Market Value. The market value for occupancy tax purposes shall be entered on an occupancy tax valuation roll. Occupancy tax valuation shall not be included in the assessed value of any taxing district, but occupancy tax must be declared in the certified budget.

06. Allocation to Urban Renewal Agencies. Occupancy tax revenue shall be distributed to urban renewal agencies in the same manner as property taxes, except as provided in Paragraphs 06.a. and 06.b. of this rule.
a. The portion of the occupancy tax raised for funds specified in Section 50-2908, Idaho Code, and Rule 804 of these rules must be distributed to the tax districts levying property taxes for those funds and, therefore, must not be distributed to the urban renewal agency. (5-8-09)

b. Except for occupancy tax raised for funds specified in Section 50-2908, Idaho Code, and Rule 804 of these rules, occupancy tax for parcels within a newly formed revenue allocation area or within an area newly annexed to an existing revenue allocation area, occupancy tax for the tax year during which the formation or annexation took effect must be is not distributed to the urban renewal agency. (4-7-11)

07. Property Qualifying for the Homestead Exemption on Occupancy Value. When property is subject to occupancy tax, only the improvements shall be eligible for the homestead exemption found in Section 63-602G, Idaho Code. (3-30-07)

(BREAK IN CONTINUITY OF SECTIONS)

01. Definitions. (4-5-00)

a. “Urban renewal district.” An urban renewal district, as referred to in Section 63-215, Idaho Code, shall mean an urban renewal area formed pursuant to an urban renewal plan adopted in accordance with Section 50-2008, Idaho Code. Urban renewal districts are not taxing districts. (4-5-00)

b. “Revenue allocation area (RAA).” A revenue allocation area (RAA) as referred to in Section 50-2908, Idaho Code, shall be the area defined in Section 50-2903, Idaho Code, in which base and increment values are to be determined. A new urban renewal plan is required when an urban renewal agency establishes a new RAA. Revenue allocation areas (RAAs) are not taxing districts. (3-29-17)

c. “Current base value.” The current base value of each parcel in a taxing district or unit shall be the value of that parcel on the current base assessment roll as defined under Section 50-2903, Idaho Code. Current base value does not include value found on the occupancy roll. Current base value includes the previous year’s non-prorated value of current taxable property subject to assessment under Sections 63-602Y and 63-313, Idaho Code during the year the initial base value was established. (4-5-00)

d. “Initial base value.” The initial base value for each parcel is the sum of the taxable value of each category of property in the parcel for the year the RAA is established. In the case of annexation to an RAA, initial base value of each annexed parcel shall be the value of that parcel as of January 1 of the year in which the annexation takes place. The initial base value includes any prorated value added for property subject to Sections 63-602Y and 63-313, Idaho Code. (4-11-15)

e. “Increment value.” The increment value is the difference between the current equalized value of each parcel of taxable property in the RAA and that parcel’s current base value, provided such difference is a positive value. Newly constructed improvements with value listed on the occupancy roll within a newly formed RAA or within an area newly annexed to an existing RAA will be added as increment value in the year following the year of formation or annexation. (4-5-00)

f. “Revenue allocation financing provision.” A revenue allocation area (RAA) shall be considered to be a revenue allocation financing provision. (3-29-17)

02. Establishing and Adjusting Base and Increment Values. (4-5-00)

a. Establishing initial base value. If a parcel’s legal description has changed prior to computing initial base year value, the value that best reflects the prior year’s taxable value of the parcel’s current legal description must be determined and will constitute the initial base year value for such parcel. The initial base value includes the taxable
value, as of the effective date of the ordinance adopting the urban renewal plan, of all otherwise taxable property, as defined in Section 50-2903, Idaho Code. Initial base value does not include value found on the occupancy roll.

(4-5-00)

b. Adjustments to base value - general value changes. Adjustments to base values will be calculated on a parcel by parcel basis, each parcel being a unit and the total value of the unit being used in the calculation of any adjustment. Base values are to be adjusted downward when the current taxable value of any parcel in the RAA is less than the most recent base value for such parcel. In the case of parcels containing some categories of property which increase in value and some which decrease, the base value for the parcel will only decrease provided the sum of the changes in category values results in a decrease in total parcel value. Any adjustments shall be made by category and may result in increases or decreases to base values for given categories of property for any parcel. Adjustments to base values for any real, personal, or operating property shall establish new base values from which future adjustments may be made. In the following examples the parcel’s initial base value is one hundred thousand dollars ($100,000), including Category 21 value of twenty thousand dollars ($20,000) and Category 42 value of eighty thousand dollars ($80,000).

(4-5-00)

i. Case 1: Offsetting decreases and increases in value. One (1) year later the parcel has a one thousand dollar ($1,000) decrease in value in Category 21 and a one thousand dollar ($1,000) increase in Category 42 value. There is no change in the base value for the parcel.

(4-5-00)

ii. Case 2: Partially offsetting decreases and increases in value. One (1) year later the parcel has a three thousand dollars ($3,000) decrease in value in Category 21 and a one thousand dollars ($1,000) increase in Category 42 value. The base value decreases two thousand dollars ($2,000) to ninety-eight thousand dollars ($98,000).

(4-5-00)

iii. Case 3: Future increase in value following decreases. One (1) year after the parcel in Case 2 has a base value reduced to ninety-eight thousand dollars ($98,000), the value of the parcel increases by five thousand dollars ($5,000) which is the net of category changes. The base value remains at ninety-eight thousand dollars ($98,000).

(4-5-00)

c. Adjustments to base value - splits and combinations. Before other adjustments can be made, the most recent base value must be adjusted to reflect changes in each parcel’s legal description. This adjustment shall be calculated as described in the following subsections.

(4-5-00)

i. When a parcel has been split, the most recent base year value is transferred to the new parcels, making sure that the new total equals the most recent base year value. Proportions used to determine the amount of base value assigned to each of the new parcels shall be based on the value of the new parcels had they existed in the year preceding the year for which the value of the new parcels is first established.

(4-11-15)

ii. When a parcel has been combined with another parcel, the most recent base year values are added together.

(4-5-00)

iii. When a parcel has been split and combined with another parcel in the same year, the value of the split shall be calculated as set forth in Subparagraph 804.02.c.i. and then the value of the combination will be calculated as set forth in Subparagraph 804.02.c.ii.

(4-5-00)

d. Adjustments to base values when exempt parcels become taxable. Base values shall be adjusted as described in the following subsections.

(4-5-00)

i. Fully exempt parcels at time of RAA establishment. When a parcel that was exempt at the time the RAA was established becomes taxable, the base value is to be adjusted upwards to reflect the estimated value of the formerly exempt parcel as it existed at the time the RAA was established.

(3-26-19)

ii. Partially exempt parcels losing the speculative value exemption. When a partially exempt parcel with a speculative value exemption that applies to farmland within the RAA becomes fully taxable, the base value of the RAA shall be adjusted upwards by the difference between the taxable value of the parcel for the year in which the exemption is lost and the taxable value of the parcel included in the base value of the RAA. For example, assume a
parcel of farmland within an RAA had a taxable value of five hundred dollars ($500) in the year the RAA base value was established. Assume also that this parcel had a speculative value exemption of two thousand dollars ($2,000) at that time. Two (2) years later the parcel is reclassified as industrial land, loses the speculative value exemption, and has a current taxable value of fifty thousand dollars ($50,000). The base value within the RAA would be adjusted upwards by forty-nine thousand five hundred dollars ($49,500), the difference between fifty thousand dollars ($50,000) and five hundred dollars ($500). The preceding example applies only in cases of loss of the speculative value exemption that applies to land actively devoted to agriculture and does not apply to timberland. Site improvements, such as roads and utilities, that become taxable after the loss of the speculative value exemption are not to be added to the base value. For example, if, in addition to the fifty thousand dollars ($50,000) current taxable value of the undeveloped land, site improvements valued at twenty-five thousand dollars ($25,000) are added, the amount reflected in the base value remains fifty thousand dollars ($50,000), and the additional twenty-five thousand dollars ($25,000) is added to the increment value. In addition, this example applies only to land that loses the speculative value exemption as a result of changes occurring in 2010 or later and first affecting taxable values in 2011 or later. Parcels that lost speculative value exemptions prior to 2010 had base value adjustments as described in Subparagraph 804.02.d.ii. of this rule. (3-29-12)

### iii. Partially exempt parcels other than those losing the speculative value exemption. Except as provided in Subparagraph 804.02.d.vi. of this rule, when a partially exempt parcel, other than one subject to the speculative value exemption that applies to farmland, within the RAA becomes fully taxable, the base value of the RAA shall be adjusted upwards by the difference between the value that would have been assessed had the parcel been fully taxable in the year the RAA was established and the taxable value of the parcel included in the base value of the RAA. For example, assume a residential parcel within an RAA had a market value of one hundred thousand dollars ($100,000), a homeowner’s exemption of fifty thousand dollars ($50,000), and a taxable value of fifty thousand dollars ($50,000) in the year the RAA base value was established. After five (5) years, this parcel is no longer used for owner-occupied residential purposes and loses its partial exemption. At that time the parcel has a taxable value of one hundred eighty thousand dollars ($180,000). The base value within the RAA would be adjusted upwards by fifty thousand dollars ($50,000) to one hundred thousand dollars ($100,000) to reflect the loss of the homeowner’s exemption, but not any other value increases. (3-26-19)

### iv. Partially exempt properties for which the amount of the partial exemption changes. For partially exempt properties that do not lose an exemption, but for which the amount of the exemption changes, there shall be no adjustment to the base value, unless the current taxable value is less than the most recent base value for the property. For example, assume a home has a market value of two hundred thousand dollars ($200,000) and a homeowner's exemption of one hundred thousand dollars ($100,000), leaving a taxable value of one hundred thousand dollars ($100,000), all of which is base value. The following year the homeowner's exemption limit changes to ninety thousand dollars ($90,000), so the property's taxable value increases to one hundred ten thousand dollars ($110,000). The base value remains at one hundred thousand dollars ($100,000). Alternatively, assume the property in the preceding example increases in market value to two hundred twenty thousand dollars ($220,000) and the homeowner's exemption drops to ninety thousand dollars ($90,000) because of the change in the maximum amount of this exemption. The base value remains at one hundred thousand dollars ($100,000). Finally, the property decreases in value to one hundred eighty-thousand dollars ($188,000) at the same time the homeowner's exemption limit changes to ninety thousand dollars ($90,000). The property now has a taxable value of ninety-eight thousand dollars ($98,000), requiring an adjustment in the base value to match this amount, since it is lower than the original base value of one hundred thousand dollars ($100,000). (3-29-12)

### v. Change of exempt status. Except as provided in Subparagraph 804.02.d.vi. of this rule, when a parcel that is taxable and included in the base value at the time the RAA is established subsequently becomes exempt, the base value is reduced by the most current value of the parcel included in the base value. If this parcel subsequently becomes taxable, the base value is to be adjusted upward by the same amount that was originally subtracted. For example, assume a land parcel had a base value of twenty thousand dollars ($20,000). One (1) year later the parcel has a value of nineteen thousand dollars ($19,000), so the base value is reduced to nineteen thousand dollars ($19,000). Three (3) years later, an improvement valued at one hundred thousand dollars ($100,000) was added. The land at this later date had a value of thirty thousand dollars ($30,000). Both land and improvements were purchased by an exempt entity. The base would be reduced by nineteen thousand dollars ($19,000). Five (5) years later, the land and improvement becomes taxable. The base value is to be adjusted upwards by nineteen thousand dollars ($19,000). (3-26-19)
vi. Special case for exemption provided in Section 63-602NN, Idaho Code. Upon loss of the exemption, any newly taxable value in excess of the taxable value of the property in the year immediately preceding the first year of the exemption is to be added to the increment value provided the property was within an RAA when the exemption was granted and remains within the RAA at the time the exemption expires. If the parcel was annexed to an RAA during the period of the exemption, the value that would have been added to the base value at the time of annexation had the property not received the exemption would be added to the base at the time the exemption expires, while any remaining taxable value would be added to the increment. If the exemption has been granted in part, the adjustments provided in this subparagraph shall only apply to the portion of the property granted the exemption.

(3-26-19)

e. Adjustments to base values when property is removed. Base values are to be adjusted downward for real, personal, and operating property removed from the RAA. Property shall be considered removed only under the conditions described in the following subsections.

i. For real property, all of the improvement is physically removed from the RAA, provided that there is no replacement of said improvement during the year the original improvement was removed. If said improvement is replaced during the year of removal, the reduction in base value will be calculated by subtracting the value of the new improvement from the current base value of the original improvement, provided that such reduction is not less than zero (0).

(4-5-00)

ii. For personal property, all of the personal property associated with one (1) parcel is physically removed from the RAA or any of the personal property associated with a parcel becomes exempt. In the case of exemption applying to personal property, the downward adjustment will first be applied to the increment value and then, if the remaining taxable value of the parcel is less than the most current base value, to the base value. Assume, for example that a parcel consists entirely of personal property with a base value of twenty thousand dollars ($20,000) and an increment value of ninety thousand dollars ($90,000). The next year the property receives a one hundred thousand ($100,000) personal property exemption. The increment value is reduced to zero and the base value is reduced to ten thousand dollars ($10,000).

(4-11-15)

iii. For operating property, any of the property under a given ownership is removed from the RAA.

(4-5-00)

f. Adjustments to base value for annexation. When property is annexed into an RAA, the base value in the RAA shall be adjusted upwards to reflect the value of the annexed property as of January 1 of the year in which the annexation takes effect. As an example, assume that parcels with current taxable value of one million dollars ($1,000,000) are annexed into an RAA with an existing base value of two million dollars ($2,000,000). The base value of the RAA is adjusted upwards to three million dollars ($3,000,000).

(4-11-15)

g. Adjustments to increment values. In addition to the adjustment illustrated in Subparagraph 804.02.e.ii. of this rule, decreases in total parcel value below the initial base value decrease the base value for the parcel. This leads to greater increment value if the parcel increases in value in future years. For example, if a parcel with a initial base value of one hundred thousand dollars ($100,000) decreases in value to ninety-five thousand dollars ($95,000), but later increases to ninety-eight thousand dollars ($98,000), an increment value of three thousand dollars ($3,000) is generated. If the same parcel increases in value to one hundred two thousand dollars ($102,000) after the decrease to ninety-five thousand dollars ($95,000), the increment value would be seven thousand dollars ($7,000).

(4-11-15)

h. Apportioning operating property values. For operating property, the original base value shall be apportioned to the RAA on the same basis as is used to apportion operating property to taxing districts and units. The operating property base value shall be adjusted as required under Section 50-2903, Idaho Code.

(4-5-00)

03. Levy Computation for Taxing Districts Encompassing RAAs Within Urban Renewal Districts. Beginning in 2008, levies shall be computed in one (1) of two (2) ways as follows:

(5-8-09)

a. For taxing district or taxing unit funds other than those meeting the criteria listed in Subsection 804.05 of this rule, the property tax levy shall be computed by dividing the dollar amount certified for the property tax portion of the budget of the fund by the market value for assessment purposes of all taxable property within the
taxing district or unit, including the value of each parcel on the current base assessment roll (base value), but excluding the increment value. For example, if the taxable value of property within a taxing district or unit is one hundred million dollars ($100,000,000) but fifteen million dollars ($15,000,000) of that value is increment value, the levy of the taxing district must be computed by dividing the property tax portion of the district’s or unit’s budget by eighty-five million dollars ($85,000,000). (5-8-09)

b. For taxing district or taxing unit funds meeting the criteria listed in Subsections 804.05 and 804.07 of this rule, the property tax levy shall be computed by dividing the dollar amount certified for the property tax portion of the budget of the fund by the market value for assessment purposes of all taxable property within the taxing district or unit, including the increment value. Given the values in the example in Paragraph 804.03.a. of this rule, the levy would be computed by dividing the property tax portion of the fund by one hundred million dollars ($100,000,000). (3-28-18)

04. Modification of an Urban Renewal Plan. Except when inapplicable as described in Paragraphs 804.04.a, b, or c, of this rule, when an authorized municipality passes an ordinance modifying an urban renewal plan containing a revenue allocation financing provision, for the tax year immediately following the year in which the modification occurs, the base value of property in the RAA shall be reset by being adjusted to reflect the current taxable value of the property. All modifications to boundaries of RAAs must comply with the provisions of Rule 225 of these rules. (3-29-17)

a. Modification by consolidation of RAAs. If such modification involves combination or consolidation of two (2) or more RAAs, the base value shall be determined by adding together independently determined current base values for each of the areas to be combined or consolidated. The current taxable value of property in an area not previously included in any RAA shall be added to determine the total current base value for the consolidated RAA. (4-5-00)

b. Modification by annexation. (5-8-09)

i. If an RAA is modified by annexation, the current taxable value of property in the area annexed shall be added to the most current base value determined for the RAA prior to the annexation. (5-8-09)

ii. For levies described in Paragraphs 804.05.b., c., or d. of this rule approved prior to December 31, 2007, and included within the boundaries of a revenue allocation area by a change in the boundaries of either the revenue allocation area or the area subject to the levy by the taxing district or unit fund after December 31, 2007, the property tax levy shall be computed by dividing the dollar amount certified for the property tax portion of the budget of the fund by the market value for assessment purposes of all taxable property within the taxing district or unit, including the increment value. The example below shows the value to be used for setting levies for various funds within an urban renewal district “A” that annexes area “B” within a school district. Area (B) was annexed after December 31, 2007. Therefore, the Area (B) increment was added back to the base for all funds shown except the tort fund. The Area (A) increment value was added back to the base for the bond and override funds which were certified or passed after December 31, 2007.

iii. An annexation permitted pursuant to section 50-2033, Idaho Code, to an RAA in existence prior to July 1, 2016 shall not change the status of the urban renewal agency or the RAA and its related plan regarding inapplicability of the base reset or attestation provisions found in section 50-2903A, Idaho Code. (3-29-17)

c. Other modifications – attestation requirements. Modification resulting in adjustment of base value to reflect the current taxable value of the property within the RAA shall not be deemed to have occurred when the urban renewal agency attests to having made no modifications to a plan or is not required to attest to plan modifications. Certain urban renewal agencies are required to attest annually to having made or not made plan modifications. These include:

i. Urban renewal agencies that establish new RAAs on or after July 1, 2016, provided however that such agencies are only required to attest to having made or not made modifications with regard to any new RAA. (3-29-17)

ii. Urban renewal agencies that enact new plans including an RAA on or after July 1, 2016. (3-29-17)

d. Modifications when there is outstanding indebtedness. When any urban renewal agency attests to having had a plan modification that is not an exception identified in Paragraphs 804.04.a. or b. or c. of this rule or fails to provide the required attestation, the base value will be determined without regard to the modification, provided that the agency certifies to the State Tax Commission by June 30 of the tax year that there is outstanding indebtedness as defined in Section 50-2903A(2), Idaho Code. In this case, the allocation of revenue to the urban renewal agency shall be limited to the amount certified as necessary to pay the indebtedness. Any additional revenue shall be distributed to each taxing district or unit in the same manner as property taxes. Such revenue shall be treated as property tax revenue for the purpose of the limitations in Section 63-802, Idaho Code. The county clerk will notify the Tax Commission of the amount so distributed for each year beginning July 1 of the prior year and ending June 30 of the current tax year. (3-28-18)

e. Failure to submit attestation regarding plan modification. For any urban renewal agency subject to the requirements of Section 50-2903A, Idaho Code, attestation of plan modification or attestation that there has been no plan modification is required to be made to the State Tax Commission by the first Monday of June each year. Except as provided in Paragraph 804.04.d. of this rule, if such agency fails to provide the required attestation, the State Tax Commission will proceed to reset the base value or limit allocation of property tax to the urban renewal agency as otherwise required in Section 50-2903A, Idaho Code. Provided there is no new plan, an urban renewal agency with a plan including one or more revenue allocation financing provisions (RAAs) in existence prior to July 1, 2016 shall only be required to provide this attestation or be subject to base resetting or other limitations for failure to submit this attestation with respect to new RAAs formed on or after July 1, 2016. If such an agency develops a new plan, on or after July 1, 2016, or provides for a new RAA under an existing plan, the agency shall be subject to the attestation requirements and other provisions of Section 50-2903A, Idaho Code, with respect to any RAAs formed July 1, 2016 or later. (3-28-18)
f. Notice of actions related to base reset or revenue allocation limitations. (3-29-17)

i. The State Tax Commission will notify any urban renewal agency within thirty (30) days of the time the State Tax Commission receives an attestation that an urban renewal plan has been modified, or by July 30 in any year in which an attestation is required but none is received, of the State Tax Commission’s intent to initiate the process to reset the base value in the following tax year. Said notice will be provided to affected county commissioners and city officials. (3-29-17)

ii. In the case of base reset due to failure to attest to a modification or to having made no modification in an urban renewal plan, despite being required to provide this attestation, the agency and county and city officials will be so notified and will be given an opportunity to provide the necessary attestation. This further notice will provide that, if the State Tax Commission has not received the attestation by December 31 of the tax year, the base will be reset in the immediate following year. (3-29-17)

iii. In the case of a revenue allocation limitation pursuant to Section 50-2913, Idaho Code, notice will be provided to the agency, county, and city officials including the county assessor and county clerk, within thirty (30) days of the due date of the plan or plan update. (3-29-17)

iv. In the case of a revenue allocation limitation due to a plan modification but outstanding indebtedness, notice will be provided to the agency and county and city officials, including the county assessor and county clerk, within thirty (30) days of receipt by the State Tax Commission of the certification of the amount needed to repay the indebtedness. (3-29-17)

v. Once decisions about base reset or revenue allocation limitations are final, additional notice will be sent to the agency and county and city officials, including the county assessor and county clerk, within thirty (30) days of any such final decision. Said notice will include an identification of the year in which the reset or revenue allocation limitation will take effect and the amount of any revenue allocation limitation. (3-29-17)

05. Criteria for Determining Whether Levies for Funds Are to Be Computed Using Base Value or Market Value for Assessment Purposes. Beginning in 2008, levies to be certified for taxing district or unit funds meeting the following criteria or used for any of the following purposes will be computed as described in Paragraph 804.03.b. of this rule. (5-8-09)

a. Refunds or credits pursuant to Section 63-1305, Idaho Code, and any school district judgment pursuant to Section 33-802(1), Idaho Code, provided the refunds, credits, or judgments were pursuant to actions taken no earlier than January 1, 2008; (5-8-09)

b. Voter approved overrides of the limits provided in Section 63-802, Idaho Code, provided such overrides are for a period not to exceed two (2) years and were passed after December 31, 2007, or earlier as provided in the criteria found in Paragraph 804.05.e.; (5-8-09)

c. Voter approved bonds and plant facilities reserve funds passed after December 31, 2007, or earlier as provided in the criteria found in Paragraph 804.05.e.; (5-8-09)

d. Voter approved school or charter school district temporary supplemental maintenance and operation levies passed after December 31, 2007; or (3-29-10)

e. Levies described in Paragraphs 804.05.b., c., or d. approved prior to December 31, 2007, and included within the boundaries of a revenue allocation area by a change in the boundaries of either the revenue allocation area or the area subject to the levy by the taxing district or unit fund after December 31, 2007; (3-29-10)

f. Levies authorized by Section 33-317A, Idaho Code, known as the cooperative service agency school plant facility levy. (3-29-10)

g. Levies authorized by Section 33-909, Idaho Code, known as the state-authorized plant facility levy. (4-11-15)
h. Levies authorized by Section 33-805, Idaho Code, known as school emergency fund levy.  

06. Setting Levies When There is a De-annexation From an RAA. In any de-annexation from an RAA, levies will be set using the base value and, as indicated in Subsection 804.05 of this rule, the appropriate amount of increment value associated with the parcels and operating property remaining in the RAA after the de-annexation, provided that the de-annexation is in effect no later than September 1 of the current tax year and provided further that the de-annexation is approved by the State Tax Commission in accordance with Section 225 of these rules. (3-29-17)

07. Setting Levies When There is a Refinancing of Bonded Indebtedness. Refinancing of bonded indebtedness in existence as of December 31, 2007 does not create new bonded indebtedness for any taxing district with respect to the levy setting criteria in Subsection 804.05 of this rule. (3-28-18)

08. Cross Reference. The county auditor shall certify the full market value by taxing district as specified in Rule 995 of these rules. See also Rule 802 of these rules for calculation of new construction given de-annexation from an RAA and see Rule 805 of these rules for penalties for failure to submit plans. (3-29-17)

NOTICE OF RULEMAKING – PROPOSED RULE

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Sections 67-5221(1) and 63-105A, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than October 16, 2019.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

Rules 613 and 614 – Current law requires the assessor to utilize an income approach to value when assessing agricultural land. The calculations can be difficult and require additional examples to ensure equitable application when county assessors administer existing statute. A citizen petitioner requested we amend these companion rules to ensure fair and equitable assessments for farmers. These two rules will be eliminated and a new Rule, 617, will combine the two.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: N/A

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted. The Notice of Intent to Promulgate Rules – Negotiated Rulemaking was published in the June 5, 2019 Idaho Administrative Bulletin, Vol. 19-6, page 92.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: N/A

THE FOLLOWING IS THE PROPOSED TEXT OF DOCKET NO. 35-0103-1905
(Only Those Sections With Amendments Are Shown.)

613. PROPERTY EXEMPT FROM TAXATION -- SPECULATIVE PORTION OF VALUE OF AGRICULTURAL LAND (RULE 613).
Section 63-602K, Idaho Code

01. Definitions. (4-5-00)
   a. Taxable Value of Agricultural Land. The taxable value of agricultural land shall be the landlord’s share of net income per acre, capitalized by the annual rate required by Section 63-602K, Idaho Code, plus a component for the local tax rate. The component for local taxes achieves the necessary allowance for the expense of property taxes. (4-5-00)
   b. Speculative Portion. The speculative portion is the difference between the current market value and the taxable value of agricultural land. The market value of agricultural land is established from market sales of similar land. (4-5-00)
   c. Economic Rent. Economic rent is the average gross income per acre received by a landlord from either a cash rent or crop share rental agreement. The rent attributable to exempt irrigation equipment is not included in economic rent. Only the rent solely attributable to the agricultural land is included in economic rent. (4-7-11)
   d. Net Income. Net income is determined by deducting the landlord’s share of current expenses from economic rent per acre. (4-5-00)

02. Calculation of Net Income from Cash Rent. Net income from cash rent is calculated in the following manner. (4-5-00)
   a. Crops Grown. Determine the crops typically grown in the area. (4-5-00)
   b. Economic Rent. Determine the average per acre gross income from individual crop rents typical to the area over the immediate past five (5) years. (4-5-00)
   c. Landlord’s Expenses. Determine the landlord’s share of typical contracted expenses paid in the immediately preceding growing season. (4-5-00)
   d. Landlord’s Net Income. Subtract the landlord’s share of typical contracted expenses paid in the immediately preceding growing season to determine net income. (4-5-00)

03. Calculation of Net Income from Crop Share Rent. Net income from crop share rent is calculated in the following manner. (4-5-00)
   a. Crops Grown. Determine the crops typically grown in the area. (4-5-00)
   b. Average Crop Production. Determine average crop production per acre based on the most recent five (5) years. (4-5-00)
   c. Average Commodity Prices. Determine average commodity prices based on the most recent five (5) years. (4-5-00)
   d. Gross Income. Multiply average crop production per acre times the average commodity price to determine gross income per acre. (4-5-00)
e. Landlord’s Share of Gross Income. Determine the landlord’s share of gross income per acre from a crop rotation typical to the area. (4-5-00)

f. Expenses. Determine the landlord’s share of water, fertilizer, chemical, seed and harvest cost per acre for the immediately preceding growing season. (4-5-00)

g. Net Income. Subtract the landlord’s share of expenses from the landlord’s share of gross income to determine net income. (4-5-00)

04. Determination of Five Year Average Crop Prices. The State Tax Commission shall determine five (5) year average crop prices to be used in determining net income by surveying publicly available data from various sources, including the annual crop summary published by the Idaho Agricultural Statistics Service. Average crop prices determined in this manner by the State Tax Commission should be considered guidelines subject to modification based on local market data. (4-6-05)

05. Farm Credit System Interest Rate. Annually, the State Tax Commission shall calculate the five (5) year rolling average Farm Credit System interest rate (FCSIR). Using the twenty (20) year fixed rate interest rates received bi-monthly from Northwest Farm Credit Services in Spokane, Washington, calculate the average Farm Credit System interest rate for the prior year applying the formula in Paragraph 613.05.a. of this rule. Calculate the five (5) year rolling average Farm Credit System interest rate applying the formula in Paragraph 613.05.b. of this rule. (3-30-07)

a. Formula for Calculating Average Farm Credit System Interest Rate for Prior Year. FCSIR5 = (R1 + R2 + R3 + R4 + R5 + R6 + R7 + R8 + R9 + R10 + R11 + R12)/12.

Docket No. 35-0103-1905
Proposed Rulemaking

R11  is the interest rate received for November of the prior year.

R12  is the interest rate received for December of the prior year.

Formula for Calculating Five (5) Year Rolling Average Farm Credit System Interest Rate. FCSIR = (FCSIR1 + FCSIR2 + FCSIR3 + FCSIR4 + FCSIR5)/5.

06. Notification. In addition to providing notification of the Farm Credit System interest rate, the State Tax Commission will annually notify each county assessor of the most recent five (5) year average crop prices for the state.

07. Cross Reference. For agricultural land taxable value calculation examples, see Rule 614 of these rules. For eligibility criteria, see Rule 645 of these rules. For information relating to Christmas tree farms, other annual forest products, and yield tax, see Rule 968 of these rules.

614. SPECULATIVE PORTION OF VALUE OF AGRICULTURAL LAND—EXAMPLES (RULE 614). Sections 63-602K and 63-604, Idaho Code. The following examples show calculations for the taxable value of agricultural land. The example in Subsection 614.01 of this rule shows one (1) calculation of an average property tax rate, the example in Subsection 614.02 of this rule shows one (1) calculation of a capitalization rate (cap rate), the example in Subsection 614.03 of this rule shows calculations using cash rent agreements, and the example in Subsection 614.04 of this rule shows calculations using crop share agreements. The choice to use cash rent or crop share analysis in determining the taxable value of agricultural land should be predicated on the quantity and quality of data available and the analysis that produces the most reliable and supportable value conclusion.

617. AGRICULTURAL LAND VALUATION DEFINITIONS AND GUIDELINES.
Section 63-602K, Idaho Code

 01. Definitions.  
  
  a. Actual Use Value of Agricultural Land. The actual use value of agricultural land will be the landlord’s share of net income per acre, capitalized by the annual rate required by Section 63-602K, Idaho Code, plus a component for the local tax rate. The Actual Use Value will be considered market value for assessment purposes.  
  
  b. Economic Rent. Economic rent is the average gross income per acre received by a landlord from either a cash rent or crop share rental agreement. Only the rent solely attributable to the agricultural land is included in economic rent.  
  
  c. Net Income (Rent). Net income is determined by deducting the landlord’s share of all typical current expenses from economic rent per acre.  
  
  d. Agricultural Area. An identifiable geographical area of similar agricultural land.  

 02. Determination of Average Crop Rental Rates.  

  a. Determine the average per acre gross income from individual crop cash rents, whole farm cash rents, or crop share typical to the Agricultural Area over the immediate past five (5) growing seasons as reported by local farmers.  
  
  b. If data from local farmers is insufficient, data typical to the Agricultural Area from third party providers such as the United States Department of Agriculture (USDA), University of Idaho Crop Enterprise Budgets, or similar sources may be used.  
  
  c. The choice to use cash rent or crop share analysis in determining the taxable value of agricultural land should be predicated on the quantity and quality of data available when developing a supportable value conclusion.  

 03. Determination of Farm Credit System Capitalization Rate.  

  a. The State Tax Commission will gather the interest rate data from the Spokane office of the farm credit system and average the rate over the immediate past five (5) years and distribute the rate annually to assessors by the second Monday in September.  
  
  b. The local tax rate component is the rate most applicable to the Agricultural Area.  
  
  c. The local tax rate will be added to the farm credit system capitalization rate to develop the overall capitalization rate.  

 04. Calculation of Net Income from a Cash Rent Analysis. Net Income from cash rent for land secondary categories 1 and 3 is calculated in the following manner.  

  a. Crops Grown. Determine the crops typically grown in the area.  
  
  b. Economic Rent. Determine the average per acre gross income from individual crop rents or whole...
farm cash rents typical to the Agricultural Area over the immediate past five (5) years.

c. Landlord’s Expenses. Determine the landlord’s share of all typical expenses paid in the immediately preceding growing season.

d. Landlord’s Net Income. Subtract the landlord’s share of all typical expenses from the average gross income per acre for the immediately preceding year to determine net income.

05. Calculation of Net Income from a Crop Share Analysis. Net income from crop share rent for secondary land categories 1 and 3 is calculated in the following manner:

b. Average Crop Production. Determine the most recent five (5) year average production for typical crops grown in the Agricultural Area.

c. Average Commodity Prices. The Tax Commission will publish five (5) year average crop prices by surveying publicly available data from various sources, including the annual crop summary published by the Idaho Agricultural Statistics Service. Average crop prices determined in this manner by the Tax Commission should be considered guidelines when determining net income, subject to modification based on local market data.

d. Gross Income. Multiply average crop production per acre by the average commodity price to determine gross income per acre.

e. Landlord’s Share of Gross Income. Determine the landlord’s share of gross income per acre from a crop rotation typical to the Agricultural Area.

f. Landlord’s Expenses. Determine the landlord’s share of all typical expenses paid in the immediately preceding growing season.

g. Net Income. Subtract the landlord’s share of all typical expenses from the landlord’s share of gross income to determine net income.

06. Calculation of Grazing and Meadow Land Net Income. Net income from grazing and meadow rent for land secondary categories 2, 4, and 5 is calculated in the following manner:

a. Determine the income for a price per Animal Unit Month (AUM). An AUM consists of the feed per month for a one thousand (1,000) pound cow-calf pair or other animal equivalent.

b. Determine the gross yearly income of an AUM by multiplying the five (5) year average of locally reported rent per AUM or third-party provider equivalent by the average number of months of the grazing season.

c. Divide the total acres grazed by the total number of cow-calf pairs, or other animal equivalent, to determine the number of acres making up an AUM.

d. Divide the income per AUM by the number of acres per AUM to determine a gross annual income per acre.

e. Subtract landlord’s typical expenses from the immediately preceding year to determine net income per acre.

07. Calculation of Value Estimate per Acre to be used for Categories 1-5. Divide the Net Operating Income by the overall capitalization rate to calculate a value estimate per acre.

08. Cross Reference. For eligibility criteria, see Rule 645; for compliance standards, see Rule 131.

Revenue Ruling 2019-20
IDAPA 39 – IDAHO TRANSPORTATION DEPARTMENT

39.02.03 – RULES GOVERNING VEHICLE DEALER’S PRINCIPAL PLACE OF BUSINESS

DOCKET NO. 39-0203-1901

NOTICE OF RULEMAKING – TEMPORARY AND PROPOSED RULE

EFFECTIVE DATE: The effective date of the temporary rule is August 22, 2019.

AUTHORITY: In compliance with Sections 67-5221(1) and 67-5226, Idaho Code, notice is hereby given that this agency has adopted a temporary rule, and proposed rulemaking procedures have been initiated. The action is authorized pursuant to Sections 40-312 & 49-201, Idaho Code, and Sections 49-1608B & 49-1608F(9), Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than October 16, 2019.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This rule change clarifies the appropriate procedures for the Idaho Consumer Asset Recovery (ICAR) Board and Department staff to follow when tasked with determining the outcome of claims brought forth for payout from the ICAR fund. It also defines “actual loss,” a previously undefined term that serves as the basis for determining payout amounts that are referenced in Section 49-1608E, Idaho Code, and describes appeal procedures and judicial review.

TEMPORARY RULE JUSTIFICATION: Pursuant to Section 67-5226(1)(c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These rule changes are needed to address current outstanding actions as there are existing court claims that need immediate action. This rule change provides the direction and clarity needed for decisions to be made and citizens to be served.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year: N/A

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted formally via the publication of a “Notice of Intent to Promulgate Rules - Negotiated Rulemaking;” however, the Department did communicate with hundreds of Idaho dealers and also held an open, public meeting on July 16, 2019 from 4pm-6pm (MT), in which the Department received comments and input from stakeholders. Therefore, this rulemaking did include public involvement. Additionally, this rulemaking confers a benefit to Idaho consumers.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: N/A

ASSISTANCE ON TECHNICAL QUESTIONS, SUBMISSION OF WRITTEN COMMENTS: For assistance on technical questions concerning the temporary and proposed rule, please contact Brendan Floyd, DMV Program Specialist, at (208) 334-8474.

Anyone may submit written comments regarding the proposed rulemaking. All written comments must be directed to the undersigned and must be delivered on or before Wednesday, October 23, 2019.

Dated this 30th day of August, 2019.

THE FOLLOWING IS THE PROPOSED TEXT OF DOCKET NO. 39-0276-1901
(Only Those Sections With Amendments Are Shown.)

39.02.76 – RULES GOVERNING DRIVER'S LICENSE AND IDENTIFICATION CARD
RENEWAL-BY-MAIL AND ELECTRONIC RENEWAL AND REPLACEMENT PROCESSES

000. LEGAL AUTHORITY.
In accordance with Sections 49-201, 49-318, 49-319(10), and 49-2444, Idaho Code, the Idaho Transportation Board adopts the following rule to establish a process that may allow Idaho residents to renew or replace their Class D drivers’ licenses and identification cards by mail or electronically.

001. TITLE AND SCOPE.

01. Title. This rule is titled IDAPA 39.02.76, “Rules Governing Driver’s License and Identification Card Renewal-by-Mail and Electronic Renewal and Replacement Processes”.

02. Scope. The purpose of this rule is to establish standards by which Class D drivers’ licenses and identification cards may be renewed or replaced by mail or electronically for those individuals who are licensed Idaho residents and whose licenses Idaho credentials are about to expire or requires replacement due to loss or mutilation. The driver’s license renewal-by-mail and electronic systems are designed to reduce the length of driver’s license renewal waiting lines at county driver’s license offices.

002. WRITTEN INTERPRETATIONS.
There are no written interpretations for this chapter. This rule merely implements the provisions of Section 49-319(10), Idaho Code, which states: “The department may use a mail renewal process for Class D licenses based on criteria established by rule and regulation.”

010. DEFINITIONS.

Licenses or identification cards renewed by mail or electronically shall only be renewed once in an eight (8) year period, and shall have a four-year validity period.

02. License Renewal. Drivers’ licenses shall may not be renewed by mail or electronically for persons who:

   a. Hold a driver’s license with a “J” restriction (e.g. limited to a five (5) mile driving radius of residence, driving privileges limited to one (1) or two (2) counties, cannot drive without parent for a specified time period, etc.); (7-1-96)

AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Sections 40-312 & 49-201, Idaho Code, and Section 49-1004, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than October 16, 2019.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This rule change clarifies load allowances for standard 53 foot trailers and longer trailers for oversize non-reducible loads for drivers and carriers. Without the addition of the word “multiple” to Subsection 070.03, the law could be read to mean that a load cannot be moved on any trailer bigger than 53’ long. In practicality, that does not work, because generators, transformers, surge tanks, etc. are moved on 70’ to 100’ long trailers due the securement needs of the load.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: N/A

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted under Docket Number 39-0300-1901OM. The Notice of Intent to Promulgate Rules – Negotiated Rulemaking was published in the July 3, 2019, Idaho Administrative Bulletin, Vol. 19-7 pages 265-266.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: N/A

THE FOLLOWING IS THE PROPOSED TEXT OF DOCKET NO. 39-0305-1901
(Only Those Sections With Amendments Are Shown.)

070. GENERAL OVERSIZE LIMITATIONS.

01. Maximum Dimensions Allowed. The maximum dimensions of oversize vehicles or oversize loads depends on the character of the route to be traveled: width of roadway, alignment and sight distance, vertical or horizontal clearance, and traffic volume.

02. Practical Minimum Dimension of Load. Oversize loads shall be reduced to a practical minimum dimension. Except where noted below, permits will not be issued to exceed legal size if the load is more than one (1) unit in width, height, or length that results in them exceeding legal overhang. Additionally, permits shall not be utilized for multiple unit loads that may be re-positioned to meet legal dimensions established in Section 49-1010, Idaho Code.

03. Multiple Overwidth Loads on Single or Double Trailers. Multiple non-reducible loads may be transported on double trailer combinations not exceeding seventy-five (75') feet combination length and single trailers not exceeding fifty-three (53') feet exclusive of load overhang.

04. Overwidth Overhang. Overwidth loads shall distribute overhang to the sides of the trailer as evenly as possible.

05. Oversize. Special permits may be issued for continuous operation to haul or transport nonreducible loads having specified maximum oversize dimensions provided such permits for multiple trips can maintain the same measure of protection to highway facilities and to the traveling public as is provided by single trip permits.

a. Permits for continuous operation, oversize only.

i. Permits for continuous operation shall be issued to one (1) specified power unit. The permittee may tow various units with the specified power unit, either as towaway vehicles or as trailers hauling oversize loads. Oversize loads shall be nonreducible in width, length, or height. In the case of specially constructed equipment, mounted on a towed vehicle, or if the towed vehicle is only hauling an oversize but not overweight load, the permit may be issued to the towed vehicle.

ii. Maximum size of loads or vehicles transported under authority of an annual oversize for black and interstate routes shall be limited to a width of sixteen (16') feet, a height of fifteen feet six inches (15'6"), and to a combination length of one hundred ten (110') feet including load overhang. Annual oversize permits for red coded routes shall be limited to a width of twelve feet six inches (12'6"). A current Pilot/Escort Vehicle and Travel Time Requirements Map shall accompany such permits for extended operations and shall be considered to be a part of the permit.

06. Passing Lane Must Be Provided. Except for short movements in urban areas, and on routes having very low Average Daily Traffic (ADT), permits will not be issued for a load of such dimension that continuous passage of opposing traffic and frequent passing of following traffic cannot be maintained. Ten (10') feet or more of travelway should be provided for passage of traffic unless there are frequent turnouts, intersections, etc., to provide relief of accumulated traffic to the rear.

07. Hazardous Travel Conditions Restrictions. Refer to IDAPA 39.03.03, “Rules Governing Special Permits – General Conditions and Requirements,” for limitations on travel during hazardous conditions.
AUTHORITY: In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking procedures. The action is authorized pursuant to Sections 40-312 & 49-201, Idaho Code, and Section 49-1004, Idaho Code.

PUBLIC HEARING SCHEDULE: Public hearing(s) concerning this rulemaking will be scheduled if requested in writing by twenty-five (25) persons, a political subdivision, or an agency, not later than October 16, 2019.

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This rule change eliminates specifically referenced colors and allows the Department to create maps that are easier to read. It also decreases the number of attachments for permit holders and removes the requirement for rule to be updated each time a route color is changed. These changes will reduce confusion and make it easier for stakeholders and customers by enabling the streamlining of documents to a single source and will eliminate the need for multiple attachments for permit carriers. There was also language modified to bring clarity to the 129,000 pound route request process.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: N/A

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: N/A

By moving the details of the grantmaking functions of the agency to policies of the Commission, the implementation of responsive grant practices may be executed within a year of the citizen input.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: N/A

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: N/A

The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

This proposed rulemaking preserves a cash positive position in order to maintain the operational budget of the Board. The impetus for this rulemaking is the incremental increase of business expenses (legal fees, employee salaries/benefits, rent, risk insurance, etc.) These fee increases also go along with proposed statutory changes that allow for endorsement nationwide as well as less restrictive licensing requirements.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased:

Pursuant to the authority provided in Section 54-2105, Idaho Code, the Board’s proposed rulemaking provides for fee increases of $65 for veterinary license renewals, $33 for veterinary original licenses, and $10 for veterinary technician certification renewals. It also eliminates veterinary license verification fees of $20. These fee increases go along with proposed statutory changes that allow for endorsement nationwide as well as less restrictive licensing requirements, and rule changes that diminish the need for temporary license.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: N/A

NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted. The Notice of Intent to Promulgate Rules - Negotiated Rulemaking was published in the June 5, 2019 Idaho Administrative Bulletin, Vol. 19-6, pages 101 through 102.

The Rehabilitation Act of 1973, as amended by the Workforce Innovation and Opportunity Act provides the framework for the distribution of federal vocational rehabilitation funds. Due to the expiration of the June 30, 2019 version of IDAPA 47.01.01 clarification of those provisions and how they are implemented in Idaho need to be re-established. The temporary rule includes only those minimum federal requirements for vocational rehabilitation requirements and is a placeholder while the Division of Vocational Rehabilitation goes through a comprehensive process of engaging stakeholders and gathering feedback prior to submitting a proposed rule in 2020.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fee or charge being imposed or increased is justified and necessary to avoid immediate danger and the fee is described herein: N/A

In accordance with 34 CFR Part 361.57, the customer appeals process is governed by Section 103 of these rules. (8-29-19)

101. INFORMAL REVIEW PROCESS.
An informal review process is an option available to the customer as a method to resolve disagreements or dissatisfaction with the provision of services. An individual may request an informal review within twenty-one (21) calendar days of the agency notice regarding the provision or denial of services that are in question. The request must be in writing to the regional manager and describe the complaint. The regional manager will function as the administrative review officer in the informal review process. At the customer’s request, another regional manager may be substituted. The reviewer will be responsible for:

01. Advising the Customer. Advising the customer of his right to have a representative present and encouraging the customer to use the services of Client Assistance Program (CAP). (8-29-19)

02. Conducting the Review. Conducting the review within fifteen (15) calendar days following receipt of a written request for such a review, unless both parties agree upon an extension. (8-29-19)

03. Documented Effort. Extending the time allowed for conducting an information review accordingly, when the customer makes a documented effort to utilize CAP or another advocate to resolve the dissatisfaction. (8-29-19)

04. Review Location. Holding the review at a time and place convenient to the customer, generally at the local Division branch office. (8-29-19)
05. **Communication Method.** Provide communication using appropriate methods for those customers who have a sensory impairment. Providing an interpreter for those customers who cannot communicate in English. (8-29-19)

06. **Transportation.** Provide transportation to and from the review site, if needed. (8-29-19)

07. **Written Proposal.** Resolve the matter to the satisfaction of the customer, developing a written proposal with the customer at the conclusion of the appeal process. Results of the written proposal are binding for the division unless the proposal is not permitted by law. The customer may reject the proposal and request a fair hearing within ten (10) calendar days of the informal review proposal or sixty (60) calendar days of the original agency decision, whichever comes later. (8-29-19)

102. **MEDIATION.** Mediation is an alternate dispute resolution method available to applicants and eligible customers who have initiated the formal appeals process. (8-29-19)

01. **Timeline.** A customer may request mediation within twenty (20) calendar days of the original decision or ten (10) calendar days following the written proposal from the informal review. Mediation is available to a customer when an informal review has not resolved the dispute to the satisfaction of the customer. (8-29-19)

02. **Written Request.** Requests for mediation must be made in writing to the field services chief and clearly state the reason for dissatisfaction with the decision or results of the informal review. The chief of field services will represent the Division or assign a member of the administrative or supervisory staff who has not participated in the agency action that created the customer’s dissatisfaction. (8-29-19)

03. **Participation.** Participation in the mediation process is voluntary on the part of the customer and on the part of the Division. Either party may reject mediation as an alternate dispute resolution method. Once mediation has been accepted as an alternate dispute resolution method, either party may terminate the mediation process. (8-29-19)

04. **Fair Hearing.** Mediation may not be used to deny or delay the customer’s right to pursue a fair hearing. Should the customer and/or designated representative select mediation in lieu of a fair hearing the option for a fair hearing will be extended to allow the results of the mediation to be established. Once the final results of the mediation are determined, the customer retains the right to request a fair hearing. (8-29-19)

05. **Mediator.** All mediation is conducted by a qualified and impartial mediator who is selected randomly from a list of mediators maintained by the Division. (8-29-19)

06. **Confidentiality.** Mediation discussions are confidential and may not be used as evidence in a fair hearing. Both parties at the beginning of the mediation process will sign a confidentiality agreement. (8-29-19)

07. **Mediation Agreement.** The mediator will develop a written mediation agreement if an agreement between the parties is reached. The agreement must be signed by the customer, the mediator, and the Division designated representative. (8-29-19)

08. **Cost.** Cost of mediation is paid by the Division. The Division does not pay for any cost related to the representation of a customer. (8-29-19)

103. **FAIR HEARING PROCESS.**

The fair hearing process is an option available to any customer who is dissatisfied with any determination made by personnel of the Division that affects the provisions of vocational rehabilitation services. A customer may request a fair hearing immediately without having to go through any other appeal steps. A customer may request, or if appropriate may request through the customer’s representative, a timely review of the determination. Such request may be made within sixty (60) days of the Division decision resulting in the initial disagreement or within ten (10) calendar days of the conclusion of the informal review or mediation process, whichever is later. The fair hearing process will include a fair hearing conducted by a fair hearing officer. (8-29-19)
01. **Procedure.** A fair hearing is a procedure whereby a customer who is dissatisfied with any determination concerning the provision or denial of Division services or the findings of the informal review or mediation may seek a determination of agency action before a fair hearing officer. (8-29-19)

02. **Written Request.** Requests for a fair hearing must be sent in writing to the chief of field services and clearly state the customer’s dissatisfaction with the agency’s decision. (8-29-19)

03. **Timeline.** The hearing shall be conducted within sixty (60) calendar days of receipt of the individual’s request for review, unless informal resolution is achieved prior to the 60th day, or both parties agree to a specific extension of time. (8-29-19)

04. **Fair Hearing Officers.** The Administrator of the Division and the State Rehabilitation Council will identify a list of fair hearing officers jointly. The Administrator and the customer shall select the fair hearing officer from the list. (8-29-19)

05. **Written Report.** The fair hearing officer will issue a written report of the findings and decision of the hearing within thirty (30) calendar days of the completion of the hearing. (8-29-19)

06. **Decision.** The decision of the fair hearing officer will be considered final by the agency. (8-29-19)

104. -- 199. (RESERVED)

200. **PROVISION OF SERVICES ON A STATEWIDE BASIS.**
Vocational Rehabilitation services are offered on a statewide basis to individuals with disabilities, subject to eligibility determination. (8-29-19)

201. **REFERRAL AND APPLICATION FOR SERVICES.**

01. **Referral.** An agency, organization, individual (including self) or programs of the American Job Center network may refer an individual for services. The Division will make a minimum of three (3) attempts to respond to the individual before closing the referral. (8-29-19)

02. **Application for Services.** The application process includes the following: an individual must sign and date an application, or make a request for alternate application, provide necessary information to begin an assessment of eligibility, information gathered in the intake interview meets this criterion, and the customer is available and free of restrictions to complete the assessment process for determining eligibility for Division services. (8-29-19)

03. **Residency Requirement.** There is no duration of residency to apply for Division services. Individuals must be living in the state of Idaho and legally able to work in the United States (i.e., non-U.S. citizens must show they are legally able to work within the United States). (8-29-19)

04. **Other Requirements.** Customers must be available to participate in the eligibility determination process and will be informed of their rights and responsibilities as a customer of the program. (8-29-19)

202. **ELIGIBILITY REQUIREMENTS.**
Eligibility for Division services is based upon the following criteria:

01. **Physical or Mental Impairment.** The customer has a physical or mental impairment documented by a qualified professional;

   a. The customer’s physical or mental impairment constitutes a substantial impediment to employment as determined by a qualified Vocational Rehabilitation Counselor (VRC);

02. **Determination by Qualified VRC.** A determination by a qualified VRC employed by the Division that the customer requires vocational rehabilitation services to prepare for, secure, retain, advance in, or regain
employment consistent with the applicant’s unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. A qualified VRC is an individual who meets existing licensure or certification requirements applicable to the profession and who meets the Division’s Comprehensive System of Personnel Development policy.

203. PRESUMPTIVE ELIGIBILITY.
Individually eligible for Social Security benefits under Title II or Title XVI of the Social Security Act, based upon their disability, are presumed to meet the eligibility requirements for vocational rehabilitation services, unless the VRC questions the individual’s ability to benefit from vocational rehabilitation services because of the severity of the individual’s disability.

204. TRIAL WORK EXPERIENCE.
In cases where a VRC questions a customer’s ability to benefit from vocational rehabilitation services, due to the severity of their disability, the VRC must obtain clear and convincing evidence that the individual cannot benefit from services, prior to closing the individual’s case. A trial work plan should only include those services which will assess an individual’s ability to work in competitive integrated employment.

205. SEVERITY OF DISABILITY.
At the time a customer is determined eligible for vocational rehabilitation services, a determination of the significance of disability, as it relates to employment, will also be determined. A priority category assignment will be determined for all eligible individuals, in one of the following categories:

01. Priority Category 1 - Eligible Individuals with the Most Significant Disabilities (MSD).
   a. Meets criteria established for a customer with a significant disability; and
   b. Experiences a severe physical and/or mental impairment that seriously limits three or more functional categories (such as mobility, work skills, self-care, interpersonal skills, communication, self-direction or work tolerance) in terms of an employment outcome; and
   c. Requires multiple primary Individualized Plan for Employment (IPE) services for six (6) months or more.
02. Priority Category 2 - Eligible Individuals with Significant Disabilities.
   a. Meets the criteria for a customer with no significant disability; and
   b. Experiences a severe physical and/or mental impairment that seriously limits two functional categories (such as mobility, work skills, self-care, interpersonal skills, communication, self-direction or work tolerance) in terms of an employment outcome; and
   c. Requires multiple primary IPE services for six (6) months or more.
03. Priority Category 3 - All other Eligible Individuals with Disabilities.
   a. Has a physical or mental impairment; and
   b. Impairment constitutes or results in a substantial impediment to employment; and
   c. Requires vocational rehabilitation services to prepare for, secure, retain, regain or advance in employment consistent with the individual’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

206. COMPREHENSIVE ASSESSMENT OF REHABILITATION NEEDS.
A comprehensive assessment of rehabilitation needs is a process utilized to identify the customer’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice as it relates to identifying and
selecting a vocational goal. The assessment will be conducted in the most integrated setting possible, consistent with
the informed choice of the customer. (8-29-19)

207. INDIVIDUALIZED PLAN FOR EMPLOYMENT.

01. IPE Requirements. An eligible customer, or their representative, may develop all or part of their
Individualized Plan for Employment, with or without assistance from the Division, however the IPE must be agreed
to by a qualified Division staff member. The Division will not pay for IPE development services from other
providers. The customer is given a copy of the signed IPE and any subsequent IPEs. There will be only one active
IPE at any given time. The Division supports vocational goals in competitive integrated employment, including
supported employment and self-employment. (8-29-19)

02. IPE Content. The IPE will contain the following elements, per federal requirements, including:

a. Identification of a specific employment outcome; (8-29-19)

b. Necessary rehabilitation services to achieve the employment outcome; (8-29-19)

c. Timelines for achieving the employment outcome and for the initiation of services; (8-29-19)

d. Identification of service providers; (8-29-19)

e. Criteria used to evaluate progress; (8-29-19)

f. Terms and conditions including customer rights and responsibilities; (8-29-19)

g. Customer’s financial participation, if appropriate; (8-29-19)

h. Identification of comparable benefits as appropriate; and (8-29-19)

i. The expected need for post-employment services. (8-29-19)

03. Annual IPE Review. IPEs will be reviewed on an annual basis. (8-29-19)

208. CASE CLOSURE.
The Division may close a customer’s case at any time in the vocational rehabilitation process for various reasons, in
compliance with federal regulations and reporting guidelines. General reasons for case closure may occur when the
vocational rehabilitation counselor determines that a customer is either not eligible or no longer eligible for
vocational rehabilitation services; is unavailable to participate in the vocational rehabilitation program; declines to
participate in the program; or the customer achieves an employment outcome. Regardless of when in the process the
record of service is closed, the vocational rehabilitation counselor must make reasonable attempts to contact the
individual, or as appropriate their representative, prior to case closure to discuss the pending case closure. A closure
letter or appropriate form of communication is also sent to all individuals whose case is being closed. (8-29-19)

209. ORDER OF SELECTION.

01. Order of Selection. When the Division cannot provide the full range of vocational rehabilitation
services to all eligible customers because of fiscal or personnel capacity constraints, the agency will enter an order of
selection. The order of selection will be based on the following requirements: (8-29-19)

a. Students with disabilities, as defined by 34 CFR 361.5(c)(51), who received pre-employment
transition services prior to eligibility determination and assignment to a disability priority category will continue to
receive such services. (8-29-19)

b. All customers who have an Individualized Plan for Employment will continue to be served. (8-29-19)
02. **Priority Status.** Priority will be given to eligible individuals with the most significant disabilities, followed by those eligible individuals with significant disabilities, and finally those eligible individuals with disabilities. All eligible customers will be assigned to one (1) of the priority categories as outlined in Section 205 above.

(8-29-19)

03. **When Unable to Serve Eligible Individuals.** If the Idaho Division of Vocational Rehabilitation cannot serve all eligible individuals within a given priority category, individuals will be released from the statewide waitlist based on disability priority category and date of application.

(8-29-19)

210. -- 299. **(RESERVED)**

300. **FINANCIAL PARTICIPATION REQUIREMENTS.**
The Idaho Division of Vocational Rehabilitation will consider the financial need of an eligible customer for the purposes of determining the extent of their participation in the costs of vocational rehabilitation services. Financial need will not be a consideration in the determination of eligibility for Vocational Rehabilitation but will be a consideration in allocating the cost of VR services, with some exceptions.

(8-29-19)

01. **Financial Participation Assessment.** Financial participation will be assessed after eligibility, during plan development, while exploring comparable benefits, prior to a plan amendment, and on an annual basis or if a customer’s financial circumstances change significantly, whichever occurs sooner.

(8-29-19)

02. **Services Exempt from Financial Participation.** Services exempt from financial participation include:

a. Assessment for determining eligibility and vocational rehabilitation needs.

(8-29-19)

b. Vocational rehabilitation counseling and guidance and referral services.

(8-29-19)

c. Auxiliary aid or services needed (e.g., interpreter services or reader services) that an individual with a disability requires in order to participate in the vocational rehabilitation program.

(8-29-19)

d. Personal assistance services.

(8-29-19)

e. Job related services, including: job readiness training, job search assistance and placement assistance, SE job coaching, job supports – short term and youth extended services.

(8-29-19)

f. Pre-employment Transition Services.

(8-29-19)

03. **Financial Participation Criteria.** Several factors are considered in determining a customer’s level of financial participation, including the household income, family size, estimated annual plan costs, exclusions such as disability impairment related work expenses, and available financial resources which exceed the Department of Health and Human Services (HHS) Federal Poverty Guidelines. Individuals who receive Social Security benefits, because of their disability, are exempt for contributing towards plan costs, except for those costs exceeding Division limits. The Division has limits for services and uses a low bid, when possible. Exceptions to financial participation may be granted with appropriate approval when adherence to financial participation could seriously jeopardize the customer’s opportunity to achieve the Individualized Plan for Employment objectives and employment outcome.

(8-29-19)

301. **COMPARABLE BENEFITS.**
Eligible customers will identify and use all comparable benefits that may be available during the development of the Individualized Plan for Employment, including, but not limited to, accommodations and auxiliary aids and services, which may meet, in whole or in part, the cost of vocational rehabilitation services. Comparable benefits and services must be utilized before agency funds are used.

(8-29-19)

01. **Exempt Services.** Services exempt from the requirement to utilize comparable services and benefits include; medical, psychological or other examinations to determine eligibility, vocational counseling and
guidance, information and referral, job related services to include job search, job supports, job placement and retention services, evaluation of vocational rehabilitation potential, and rehabilitation technology (not including personally prescribed devices). (8-29-19)T

02. Availability of Comparable Benefits. If comparable services or benefits are not available at the time needed to ensure progress toward achieving the employment outcome, The Division may provide such services until comparable services and benefits become available. (8-29-19)T

302. -- 399. (RESERVED).

400. PURCHASING REQUIREMENTS. All services and purchases will follow federal, state, and Division purchasing guidelines. Purchases require written authorization prior to the initiation of the purchased service. Authorizations are issued on or before the beginning date of services. If services are provided without a Division approved authorization, the Division reserves the right to deny the vendor’s invoice. The method of procurement is determined in partnership with the customer, however, the Division prefers that an authorization for purchase be used over other methods, with an invoice from the vendor documenting the service provision. The Division will pay for pre-employment transition services and other services that contribute to the determination of eligibility or that are necessary to achieve an employment outcome. (8-29-19)T

401. PURCHASING STANDARDS. The Division pays usual, customary, and reasonable charges for services. The Division has established hierarchical levels of purchasing authority to balance process efficiency with the Division’s internal controls. The majority of service negotiation is at the counselor level. When necessary, varying levels of exceptions to purchasing authority are available by appropriate management staff. Decisions on case expenditures are determined on an individualized basis. The customer may choose their preferred vendor, however, if the cost of a service exceeds a control threshold, the customer will be responsible for the excess amount, absent an exception. Services that will meet the customer’s need at the least cost to the Division will be the service cost considered for planning purposes. Services available in the State of Idaho are preferred over more costly out-of-state options, where applicable. (8-29-19)T

402. PROVISION OF COMMUNITY REHABILITATION PROGRAM SERVICES. The Idaho Division of Vocational Rehabilitation will purchase vocational services from CRPs that are accredited by either the Commission Accreditation Rehabilitation Facilities or the Rehabilitation Services Accreditation System. In conjunction with the customer, the qualified professional vocational rehabilitation counselor will determine which CRP services, if any, are required for the customer to achieve an employment outcome. The Division will determine the method for establishing CRP service rates. (8-29-19)T

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The current process of using Average Daily Attendance to calculate funding for career technical schools does not align with the actual costs associated with delivering a program through a career technical school. Amendments to this section of rule would modernize career technical school funding, including strategies to reduce the reporting burden and data entry obligations. The proposed amendments would update the funding structure to an enrollment-based approach that includes funding based on capstone enrollment, number of technical skill assessments taken, and total credit hours enrolled in intermediate, capstone, and work-based learning courses. Additional amendments would further define work-based learning, clarify other required components of a career technical school and make technical corrections.

STATE BOARD OF CAREER TECHNICAL EDUCATION

Rules of Career Technical Schools

Docket No. 55-0103-1901

Proposed Rulemaking

103. APPLICATION PROCESS.

New and renewal applications for career technical school funding must be received by the Division of Career Technical Education on or before the first Friday in July fifteenth of April for the following fiscal year.

104. CAREER TECHNICAL SCHOOL ADDED COST UNIT FUNDING AND ELIGIBILITY.

Section 33-1002G, Idaho Code, provides school districts an opportunity to establish career technical schools that qualify for funding appropriated for the specific purpose of supporting the added cost of career technical schools. The funds are appropriated to the State Board for Career Technical Education to be expended by the Division of Career Technical Education. Funding is based on the average daily attendance (ADA) of students enrolled in the career technical school. The program shall be calculated as a portion of the annual appropriation based on the following criteria: 50 percent (50%) of the annual appropriation will be divided among the total enrollment units, 25 percent (25%) will be divided by the total participation, and 25 percent (25%) will be divided among the total cumulative credit hours. Qualifying pathway enrollment will be reported to the Department of Education. The Division of Career Technical Education will gather aggregate participation total data from the independent technical skill assessment providers annually.

105. CAREER TECHNICAL SCHOOL AVERAGE DAILY ATTENDANCE FUNDING CALCULATION.

The Division of Career Technical Education shall use the enrollment and attendance submitted to the Division of Career Technical Education by the school district to calculate career technical school average daily attendance (ADA) in accordance with applicable laws and rules (Section 33-1002, Idaho Code). Students in attendance at a qualifying career technical school shall be reported as aggregate hours and/or aggregate attendance. The aggregate hours and aggregate attendance will be combined to calculate the ADA for the career technical school. The distribution of individual career technical school funding will be calculated as a portion of the annual appropriation based on the following criteria: 50 percent (50%) of the annual appropriation will be divided among the total enrollment units, 25 percent (25%) will be divided by the total participation, and 25 percent (25%) will be divided among the total cumulative credit hours. Qualifying pathway enrollment will be reported to the Department of Education. The Division of Career Technical Education will gather aggregate participation total data from the independent technical skill assessment providers annually.

106. CAREER TECHNICAL SCHOOL ADDED COST UNIT CALCULATION.

The Division of Career Technical Education shall use the career technical school average daily attendance (ADA) as the basis for added cost unit funding.

01. Aggregate Hours. The daily hours of all students enrolled in approved intermediate and capstone courses who attend less than two and one half (2.5) hours per day shall be added together and reported as weekly aggregate hours.

02. Aggregate Attendance. Students enrolled in approved intermediate and capstone courses who attend more than two and one half (2.5) hours per day are to be reported as aggregate attendance.

03. State Support Unit Value. The added cost support unit value shall be based on state salary-based apportionment, state paid employee benefits (less state unemployment), base support, and safe environment distribution factors found in the Public School Support Program.
02. **Support Unit Divisor.** Added cost support units for career technical schools shall be calculated by using the secondary support unit attendance divisor of eighteen and one-half (18.5) as shown in Section 33-1002(6), Idaho Code.

03. **Added Cost Support Factor.** The added cost support factor for career technical schools shall be calculated by multiplying point thirty-three (.33) times the added cost support units generated in the career technical school.

04. **Estimated Distribution.** The estimated distribution shall be calculated by multiplying the state support unit value by the added cost support factor.

106. (RESERVED)

107. **CAREER TECHNICAL SCHOOL ADDED COST UNIT FUND DISTRIBUTION.** Once the career technical appropriation is made, the per unit value will be determined by dividing the total units into the appropriation. The value of each unit may vary from year to year, depending on the total appropriation and the total number of units in each of the enrollment categories.

01. **Payment Distribution.** Added cost support unit funds shall be distributed by the Division of Career Technical Education in two (2) payments:

   a. Seventy percent (70%) of the total estimated appropriated funds for which career technical schools are eligible shall be distributed no later than September 30th each year following receipt of first period attendance data from the approved career technical schools. Funding will not be distributed until reports have been received and approved by the Division of Career Technical Education from each approved school, the previous year enrollment units and the Division of Career Technical Education has verified aggregate participation total data.

   b. Based on actual support units generated during the year, the balance shall be distributed each year by July 15th. The remaining funds shall be distributed no later than June 30th.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The Sexual Offender Management Board is responsible for developing, advancing and overseeing sound sexual offender management policies and practices statewide. This rulemaking addresses proposed modifications to the Board’s standards and procedures related to certification of providers who conduct psychosexual evaluations, sex offender treatment and post-conviction sex offender polygraph examinations on adults and juveniles who have been convicted of or adjudicated for sexual offenses; and technical changes to standards-related forms. Specifically, the Board intends to adopt the “Idaho Rules of Administrative Procedure of the Attorney General,” IDAPA 04.11.01. Section 000 through 799 to govern contested cases brought before the Board. The Board is also removing references to compliance with IDAPA 06.01.01, “Rules of the Board of Correction,” when responding to public records requests. The Board will respond to all public record request in accordance with Title 74, Chapter 1, Idaho Code. This rulemaking removes the option of certification by conditional waiver as the Board believes there are sufficient paths available for practitioners to become certified without waiving any certification requirements. There is an option for certificate holders to seek a 60-day extension to submit proof of completing continuing education requirements upon renewal of certification. There would be a $25 fee for this 60-day extension. Providers whose certification expires will be immediately removed from the SOMB’s official provider roster. This rulemaking will also change the renewal process by routing any required work product of the provider submitted with a renewal application to the quality assurance subcommittee rather than the certification subcommittee, allowing the renewal applications to be processed in a more timely manner. This process will not apply to those providers seeking initial certification, requests for changes in level of certification, reinstatement requests, or providers on monitoring status. Modifications are also being proposed regarding the quality assurance procedures for polygraph examiners. Also updates documents incorporated by reference.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased:

There is an option for certificate holders to seek a 60-day extension to submit proof of completing continuing education requirements upon renewal of certification. There would be a $25 fee for this 60-day extension. This fee is authorized pursuant to Section 18-8314, Idaho Code.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year as a result of this rulemaking:

There will not be any impact on the general fund as a result of this rulemaking.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(2), Idaho Code, negotiated rulemaking was not conducted because it was not likely that a consensus would be reached on the proposed changes to the certification standards affecting providers of sexual offender services. However, the review of the standards by the SOMB was listed as an agenda item for the board meetings when the standards were discussed, and no interested parties attended those meetings. Recognizing the impact these proposed changes may have on providers, the SOMB intends to solicit comments at future board meetings following publication of this rulemaking as indicated above.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule:

The Sexual Offender Management Board is legislatively mandated to establish standards, qualification and certification procedures for post-conviction psychosexual evaluations/evaluators; sexual offender treatment and the providers who offer these services; and post-conviction sexual offender polygraph examiners. The practice standards and certification qualifications established by the agency pursuant to Section 18-8314, Idaho Code, are incorporated by reference. This rulemaking was initiated prior to the rules reauthorization wherein the Commission’s rules were adopted as temporary rules and are currently being promulgated as proposed rules. Through the reauthorization process, the two rule chapters of the Commission (60.05.01 and 60.05.04) will be consolidated into a single rule chapter under IDAPA 60.05.01 and retitled as the “Rules of the Idaho State Soil and Water Conservation Commission.” as part of Docket No. 60-0000-1900F.

The amendments made in this rulemaking will be incorporated into the newly consolidated chapter once both rulemakings become final.

FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased: This proposed rule change has no associated fee.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars ($10,000) during the fiscal year resulting from this rulemaking: There is no effect to the state general fund.
NEGOTIATED RULEMAKING: Pursuant to Section 67-5220(1), Idaho Code, negotiated rulemaking was conducted. The Notice of Intent to Promulgate Rules – Negotiated Rulemaking was published in the June 5, 2019, Idaho Administrative Bulletin, Volume 19-6, page 106.

INCORPORATION BY REFERENCE: Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference in this rule: Not Applicable.

THE FOLLOWING IS THE PROPOSED TEXT OF DOCKET NO. 60-0501-1901
(Only Those Sections With Amendments Are Shown)

103. IMPLEMENTATION OF AGREED TO PRACTICES.
Once the loan has been approved and the conditions of approval have been met, the contractee may install practices as identified and scheduled in the resource conservation plan. The applicant may, at their own risk, begin installing practices as identified and scheduled in the conservation plan provided the project is not completed before the loan is approved and the conditions of approval are met. Should the applicant choose to begin installing practices prior to the conditions of approval being met, the Commission may require additional title insurance to protect against intervening materialman’s liens. The applicant/contractee has the responsibility to obtain the appropriate technical assistance. Technical personnel shall assist the contractee in implementation activities to ensure that practices are properly designed, constructed, and managed. The applicant/contractee may install practices themselves or subcontract work out to a subcontractor. Whatever method is used, the applicant/contractee shall be responsible to ensure that the quality of materials and workmanship in the installation of practices meets the approved standards and specifications for each practice.

01. Practice Completion. Upon completion of the scheduled practice the applicant/contractee must notify the provider of technical assistance. The provider of technical assistance must inspect and document the amount and extent of the installed practice and certify its completion if it meets the quality standards and construction specifications of the practice and notify the applicant/contractee. If the practice does not meet practice standards and specifications the applicant/contractee must be notified by the provider of technical assistance, in writing, of the deficiencies and what needs to be done so the practice meets standards and specifications.

02. Submitting Vouchers and Bills.
a. The provider of technical assistance must provide a written certification of completion of the project to the Commission. The applicant/contractee must submit invoices, vouchers and bills for the project to the Commission.

b. Up to ninety-five percent (95%) of loan funds can be disbursed toward submitted bills during the loan installment period. The remaining loan funds will be disbursed upon receipt of written certification of project completion from the provider of technical assistance.

03. Warrant Requests. The Commission staff must prepare warrant request(s). The warrant(s) are paid to the order of the contractee(s) and the vendor, and are mailed to the contractee.

04. Drawing Loan Funds. The applicant/contractee must implement the practices as scheduled and the contractee may draw loan funds in multiple disbursements during installation of the project.

(BREAK IN CONTINUITY OF SECTIONS)

151. LOAN POLICIES.

04. Maximum Amount of Any One Loan. The maximum amount of any one (1) loan shall be two six hundred thousand dollars ($2,600,000).
