CUMULATIVE RULEMAKING INDEX OF IDAHO ADMINISTRATIVE RULES .......................................................................................................................... 199

LEGAL NOTICE - SUMMARY OF PROPOSED RULEMAKINGS .......................................................................................................................... 212

SUBJECT INDEX .......................................................................................................................................... 213
PREFACE

The Idaho Administrative Bulletin is an electronic-only, online monthly publication of the Office of the Administrative Rules Coordinator, Department of Administration, that is published pursuant to Section 67-5203, Idaho Code. The Bulletin is a compilation of all official rulemaking notices, official rule text, executive orders of the Governor, and all legislative documents affecting rules that are statutorily required to be published in the Bulletin. It may also include other rules-related documents an agency may want to make public through the Bulletin.

State agencies are required to provide public notice of all rulemaking actions and must invite public input. This is done through negotiated rulemaking procedures or after proposed rulemaking has been initiated. The public receives notice that an agency has initiated proposed rulemaking procedures through the Idaho Administrative Bulletin and a legal notice (Public Notice of Intent) that publishes in authorized newspapers throughout the state. The legal notice provides reasonable opportunity for the public to participate when a proposed rule publishes in the Bulletin. Interested parties may submit written comments to the agency or request public hearings of the agency, if none have been scheduled. Such submissions or requests must be presented to the agency within the time and manner specified in the individual “Notice of Rulemaking - Proposed Rule” for each proposed rule that is published in the Bulletin.

Once the comment period closes, the agency considers fully all comments and information submitted regarding the proposed rule. Changes may be made to the proposed rule at this stage of the rulemaking, but changes must be based on comments received and must be a “logical outgrowth” of the proposed rule. The agency may now adopt and publish the pending rule. A pending rule is “pending” legislative review for final approval. The pending rule is the agency’s final version of the rulemaking that will be forwarded to the legislature for review and final approval. Comment periods and public hearings are not provided for when the agency adopts a temporary or pending rule.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is identified by the calendar year and issue number. For example, Bulletin 13-1 refers to the first Bulletin issued in calendar year 2013; Bulletin 14-1 refers to the first Bulletin issued in calendar year 2014. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 13-1 refers to January 2013; Volume No. 13-2 refers to February 2013; and so forth. Example: The Bulletin published in January 2014 is cited as Volume 14-1. The December 2015 Bulletin is cited as Volume 15-12.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is an electronic-only, online compilation of all final and enforceable administrative rules of the state of Idaho that are of full force and effect. Any temporary rule that is adopted by an agency and is of force and effect is codified into the Administrative Code upon becoming effective. All pending rules that have been approved by the legislature during the legislative session as final rules and any temporary rules that are extended supplement the Administrative Code. These rules are codified into the Administrative Code upon becoming effective. Because proposed and pending rules are not enforceable, they are published in the Administrative Bulletin only and cannot be codified into the Administrative Code until approved as final.

To determine if a particular rule remains in effect or whether any amendments have been made to the rule, refer to the Cumulative Rulemaking Index. Link to it on the Administrative Rules homepage at adminrules.idaho.gov.

THE DIFFERENT RULES PUBLISHED IN THE ADMINISTRATIVE BULLETIN

Idaho’s administrative rulemaking process, governed by the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, comprises distinct rulemaking actions: negotiated, proposed, temporary, pending and final rulemaking. Not all rulemakings incorporate or require all of these actions. At a minimum, a rulemaking includes proposed, pending and final rulemaking. Many rules are adopted as temporary rules when they meet the required statutory criteria and agencies must, when feasible, engage in negotiated rulemaking at the beginning of the process to facilitate consensus building. In the majority of cases, the process begins with proposed rulemaking and ends with the final rulemaking. The following is a brief explanation of each type of rule.
1. NEGOTIATED RULEMAKING

Negotiated rulemaking is a process in which all interested persons and the agency seek consensus on the content of a rule through dialogue. Agencies are required to conduct negotiated rulemaking whenever it is feasible to do so. The agency files a “Notice of Intent to Promulgate - Negotiated Rulemaking” for publication in the Administrative Bulletin inviting interested persons to contact the agency if interested in discussing the agency’s intentions regarding the rule changes. This process is intended to result in the formulation of a proposed rule and the initiation of regular rulemaking procedures. One result, however, may also be that regular (proposed) rulemaking is not initiated and no further action is taken by the agency.

2. PROPOSED RULEMAKING

A proposed rulemaking is an action by an agency wherein the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a “Notice of Rulemaking - Proposed Rule” in the Bulletin. This notice must include very specific information regarding the rulemaking including all relevant state or federal statutory authority occasioning the rulemaking, a non-technical description of the changes being made, any associated costs, guidance on how to participate through submission of written comments and requests for public hearings, and the text of the proposed rule in legislative format.

3. TEMPORARY RULEMAKING

Temporary rules may be adopted only when the governor finds that it is necessary for:

a) protection of the public health, safety, or welfare; or
b) compliance with deadlines in amendments to governing law or federal programs; or
c) conferring a benefit.

If a rulemaking meets one or more of these criteria, and with the Governor’s approval, the agency may adopt and make a temporary rule effective prior to receiving legislative authorization and without allowing for any public input. The law allows an agency to make a temporary rule immediately effective upon adoption. A temporary rule expires at the conclusion of the next succeeding regular legislative session unless the rule is extended by concurrent resolution, is replaced by a final rule, or expires under its own terms.

4. PENDING RULEMAKING

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it becomes a final, enforceable rule. When a pending rule is published in the Bulletin, the agency is required to include certain information in the “Notice of Rulemaking - Pending Rule.” This includes a statement giving the reasons for adopting the rule, a statement regarding when the rule becomes effective, a description of how it differs from the proposed rule, and identification of any fees being imposed or changed.

Agencies are required to republish the text of the pending rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule change is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule.

5. FINAL RULEMAKING

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is of full force and effect.
HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering schematic. Each state agency has a two-digit identification code number known as the “IDAPA” number. (The “IDAPA” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or departments to which a two-digit “TITLE” number is assigned. There are “CHAPTER” numbers assigned within the Title and the rule text is divided among major sections that are further subdivided into subsections. An example IDAPA number is as follows:

**IDAPA 38.05.01.200.02.c.ii.**

“IDAPA” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

1. “38.” refers to the Idaho Department of Administration
   “05.” refers to Title 05, which is the Department of Administration’s Division of Purchasing
   “01.” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”
   “200.” refers to Major Section 200, “Content of the Invitation to Bid”
   “02.” refers to Subsection 200.02.
   “c.” refers to Subsection 200.02.c.
   “ii.” refers to Subsection 200.02.c.ii.

DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. Each rulemaking that is filed with the Coordinator is assigned a “DOCKET NUMBER.” The docket number is a series of numbers separated by a hyphen “-”, (38-0501-1401). Rulemaking dockets are published sequentially by IDAPA number (the two-digit agency code) in the Bulletin. The following example is a breakdown of a typical rule docket number:

**“DOCKET NO. 38-0501-1401”**

“38-” denotes the agency's IDAPA number; in this case the Department of Administration.

“0501-” refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), Rules of the Division of Purchasing (Chapter 01).

“1401” denotes the year and sequential order of the docket being published; in this case the numbers refer to the first rulemaking action published in calendar year 2014. A subsequent rulemaking on this same rule chapter in calendar year 2014 would be designated as “1402”. The docket number in this scenario would be 38-0501-1402.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

WHEREAS, the long-term academic success of children is dependent on third grade reading proficiency, with a foundation built on the language and literacy experiences of children from birth to age five; and

WHEREAS, the deliberate coordination of Idaho’s public and private early childhood services will allow for greater efficiency, expanded parental choice, and allow for a more accurate inventory of existing services, programs and initiatives for use by families and policymakers; and

WHEREAS, early childhood development is directly linked to economic development because it improves the quality of the future workforce and has been shown to create cost savings to taxpayers by reducing the need for educational remediation and diminishing social service and other government service utilization; and

WHEREAS, Idaho’s quality of life and long-term economic prosperity depend on a well-educated workforce; and

BRAD LITTLE GOVERNOR

LAWERENCE DENNEY SECRETARY OF STATE
WHEREAS, widespread property damage, personal injury and loss of life from manmade and natural disasters is an ever-present possibility in Idaho; and

WHEREAS, Chapter 10, Title 46, Idaho Code requires the protection of lives and property in any type of natural or man-made disaster emergency or threat that might conceivably confront the State; and

WHEREAS, local government is the principal provider of emergency services in Idaho; and

WHEREAS, the role of state government is to support and enhance local community emergency management and homeland security efforts including focusing state agency activities on supporting regional and community needs throughout Idaho; and

WHEREAS, the Legislature has directed the development of such state disaster prevention, protection, mitigation, response and recovery plans; and

WHEREAS, effective state protection, prevention, mitigation, response and recovery planning requires proactively identifying functions that would be performed during such emergencies and the assignment of responsibility for developing the capability to implement these plans;

NOW, THEREFORE, I, Brad Little, Governor of the State of Idaho, by virtue of the powers and authority vested in me by the Constitution and laws of this State do hereby assign emergency prevention, protection, mitigation, response and recovery functions to all state agencies.

I. GENERAL ASSIGNMENTS

Each department and agency shall ensure their organization can continue to provide critical services during an event that impacts the ability of the government to fully function. In addition, each department and agency, in order to ensure a coordinated disaster response in alignment with the Idaho Emergency Operation Plan, shall:

A. Prepare for and respond to emergencies or disasters, as defined in Idaho Code Section 46-1002, within the State of Idaho in a manner consistent with the National Incident Management System (NIMS). Agency employees expected to respond to emergencies or disasters within Idaho will have NIMS training commensurate with their expected roles in response to such emergencies or disasters.

B. Designate a NIMS compliant agency emergency coordinator to train, exercise and participate in the State Emergency Management Program to facilitate emergency support and logistics in response to emergencies and disasters. Larger departments will, by necessity, need to appoint subdivision emergency coordinators to report to the agency emergency coordinator. By July 1 of each year, provide or validate the names and contact information of agency emergency coordinators to the Idaho Office of Emergency Management.

C. Develop and maintain an agency specific emergency operations plan (EOP) to carry out the agency’s response and recovery support functions consistent with the National Response Framework and the National Recovery Framework. Agency EOP’s will be submitted on each even numbered year by July 1 to the Idaho Office of Emergency Management. Agency plans will assign emergency management duties to all applicable subdivisions and personnel within the agency. Agency plans will outline how the agency will support the Idaho Emergency Operation
Center (IDEOC) and agency specific Emergency Support Functions (ESF) as required by the Idaho Emergency Operation Plan and the National Preparedness System. Such agency support includes:

1. Contributing to the agency’s assigned ESF role as outlined in the state EOP whether as a coordinating agency, a primary agency, or a supporting agency. Depending on the agency’s role in the EOP, this may include functioning as a liaison for all organizations and agencies operating within a specific ESF.

2. Supporting the State’s emergency planning preparedness efforts by actively participating in and contributing to the biennial update of the EOP.

3. Supporting the Idaho Emergency Operations Center (IDEOC) processes and standard operating procedures. Providing information for situation reports, incident action plans, resource status, financial status, geospatial data, and organization/staffing/contact information to the IDEOC and its situational awareness platforms;

4. Providing ESF personnel and resources commensurate with IDEOC assigned roles and responsibilities; and

5. Providing resources and capabilities when mission-assigned by the IDEOC. This may include personnel, direct agency assistance or subject matter expertise in response to a request for assistance.

D. Notify the Idaho Office of Emergency Management of any impending emergency or disaster conditions that may warrant the need for support from the Idaho Emergency Operations Center.

E. Develop and maintain a Continuity of Operations Plan (COOP) to (a) address how the agency will continue to perform essential functions in the event of compromised facilities or leadership, and (b) return the agency to normal operations after the conclusion of the compromising event. Beginning calendar year 2020, agency COOP plans will be submitted on each odd numbered year by July 1 to the Idaho Office of Emergency Management.

F. Notify the Idaho Office of Emergency Management of any incident, emergency or disaster that requires activation of their COOP plan or otherwise impacts the ability of government to provide public services within the State of Idaho. The Director, Idaho Office of Emergency Management, will notify the Governor’s Office.

G. Grant and/or use waivers in accordance with the applicable provisions of the Idaho Code for necessary disaster emergency response and recovery operations.

H. Coordinate emergency management and homeland security training and exercise with the Idaho Office of Emergency Management to meet state emergency prevention, protection, mitigation, response, and recovery objectives.

I. Coordinate with the Idaho Office of Emergency Management on any agreement or memorandum of understanding that incorporates prevention, protection, mitigation, response, and recovery functions of an emergency or disaster. Such agreements or memorandums of understanding may be integrated as part of the Idaho Emergency Operations Plan.

J. Participate in the state Public Information Emergency Response (PIER) Team program. Public Information Officers of each State agency are collaterally assigned to the State’s PIER Team during emergencies and disasters. PIER Team members provide a level of public information expertise not otherwise available to state and local jurisdictions. In the event of emergencies, natural or man-made, PIER Team members can be activated and deployed, as necessary, to the IDEOC, Joint Information Center (JIC), field support offices and/or local jurisdictions.

K. Participation of agency leader in the Senior Advisory Committee, as requested, to exchange information, validate preparedness efforts, and enhance capabilities statewide in the five homeland security mission areas of prevent, protect, mitigate, respond and recover.

L. Participate in long term recovery planning. As requested, provide personnel for the support of long term recovery committees necessary for economic and community recovery of disaster-impacted areas.
M. Provide state personnel, as requested, to assist in conducting damage assessment surveys following a disaster.

N. Coordinate with the Idaho Office of Emergency Management to develop and promote mitigation strategies for state-owned or state-leased buildings. The purpose of the mitigation strategies is to prevent or reduce damage caused by natural or man disaster events.

O. Coordinate with the Idaho Office of Emergency Management to provide support for mitigation, preparedness, and recovery programs and activities in line with the expertise and resources of the agency.

II. COORDINATING INSTRUCTION

The Idaho Office of Emergency Management shall have authority to:

A. Draw upon subject matter experts, state agency leadership and existing advisory committees, commissions and councils to form a Senior Advisory Committee (SAC), as required by the Homeland Security Grant Program. The SAC will serve as a forum to exchange information, validate preparedness efforts, and enhance capabilities statewide in the five homeland security mission areas of prevent, protect, mitigate, respond and recover. The SAC shall develop a governing charter consistent with grant funding requirements and will meet at least twice annually.

B. Coordinate state and federal emergency response, recovery and mitigation operations during emergencies and disasters. Provide technical support to local jurisdictions involved in local emergencies and disasters that do not require state resources.

C. Establish and maintain the Idaho Emergency Operations Center for directing the coordination of emergency and disaster operations and information management activities.

D. Develop and coordinate the preparation and implementation of plans and programs for prevention, protection and mitigation to reduce the harmful consequences of disasters.

E. Help ensure state and local prevention, protection, mitigation, response and recovery plans are consistent with national plans and programs. F. Coordinate collaborative emergency management and homeland security efforts with other state governments and federal agencies and private sector entities.

G. Coordinate all requests from state and local governments for disaster emergency assistance.

H. Manage the use of state emergency communications and warning systems. Develop and integrate auxiliary communications, and other volunteer communications programs and organizations into a state system or network. Develop, maintain and exercise a communications plan. Continue to enhance the communications capabilities and capacity of the Idaho Emergency Operations Center with current and new technologies.

1. Support administration of the State’s Emergency Alert System (EAS) and Wireless Emergency Alert System (WEA). Facilitate a viable and effective statewide alert system for impending natural or manmade disasters.

2. Maintain the state emergency communications using adopted State and Federal High Frequency (HF) program and capabilities for emergencies and disasters communications.

3. Determine what statewide communication and warning requirements would improve emergency communications, and assist in the development and implementation of disaster emergency plans for use of all non-military communications and warning systems within the State.

I. In coordination with the Governor’s Press Secretary and/or Communications Director, coordinate
and administer the Public Information Emergency Response (PIER) Team program in support of state and local emergency and disaster public information prevention, protection, mitigation, response and recovery objectives.

J. Function as the State Administering Agency for federal emergency management and homeland security grant programs.

K. Assist local governments with the development of all-hazard mitigation, preparedness, response, and recovery plans, training and exercises.

L. Administer federal programs for disaster emergency planning and assistance pertinent to state and local governments.

N. Regularly review and revise the Idaho Hazardous Materials Incident Command and Response Support Plan used by state agencies to ensure compliance with the Idaho Hazardous Substance Response act in the provision of state assistance for hazardous materials/WMD emergencies in Idaho.

O. Coordinate state and federal emergency response efforts for hazardous materials incidents.

P. Provide technical assistance to emergency response agencies in recovering hazardous materials emergency response costs under state and federal laws.

Q. Administer and coordinate the state-sponsored hazardous materials regional response teams.

Any emergency support function identified in the Idaho Emergency Operations Plan, or parts thereof, may be transferred from one governmental agency to another with the consent of the heads of the agencies involved and with the concurrence of the Director of the Idaho Office of Emergency Management. The Director, Idaho Office of Emergency Management, may assign any new emergency support function to the head of a governmental agency by mutual consent.

With the exception of participation in the Senior Advisory Committee, the head of each governmental agency is hereby authorized to delegate to their staff the assignments outlined by this Order.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho in Boise on this 31st day of December in the year of our Lord two thousand and nineteen and of the Independence of the United States of America the two hundred forty-fourth and of the Statehood of Idaho the one hundred thirtieth.

BRAD LITTLE GOVERNOR

LAWERENCE DENNEY SECRETARY OF STATE
WHEREAS, I issued a proclamation on March 13, 2020, declaring a state of emergency in the State of Idaho pursuant to Chapter 10, Title 46, Idaho Code, due to the occurrence and imminent threat to public health and safety arising from the effects of the 2019 novel coronavirus (COVID-19); and

WHEREAS, I issued a proclamation on March 25, 2020, declaring a state of extreme emergency in the State of Idaho pursuant to Chapter 6; Title 46, Idaho Code, due to the increasing occurrence and threat to public health and safety arising from the effects of COVID19; and

WHEREAS, each of those Proclamations remain in effect today; and

WHEREAS, Congress has passed the Coronavirus Aid, Relief and Economic Security (CARES) Act (P.L. 116-136) which provided the State of Idaho $1.25 billion through the Coronavirus Relief Fund for qualifying expenses; and

WHEREAS, on April 30, 2020, the Board of Examiners approved, pursuant to Idaho Code § 67-3516(2), non-cognizable spending authority for the Governor's Office in fund 0345 for the $1.25 billion for the time period of March 1, 2020 through December 30, 2020; and

WHEREAS, on April 22, 2020, the US. Treasury issued guidance for state, territorial, local, and tribal governments on the proper uses of the Coronavirus Relief Fund; and

WHEREAS, the U.S. Treasury stated that the funds may be used for expenditures incurred to respond to second-order effects of the emergency, such as by providing economic support to those suffering from employment or business interruptions due to COVID-19-related business closures; and

WHEREAS, the U.S. Treasury guidance outlined a non-exclusive list of eligible expenditures, including expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures; and

Treasury guidance; and

WHEREAS, on May 4, 2020, I provided a letter to CFAC, agreeing with and approving its proposed funding allocations, including a proposal for $300 million for small business interruption grants, because providing support to these businesses is necessary for the protection of life and property in Idaho and crucial to Idaho's recovery from the COVID-19 pandemic;

WHEREAS, on May 5, 2020, I issued Executive Order No. 2020-08 creating the Idaho Rebound cash grant and setting certain eligibility criteria for Idaho small business;

WHEREAS, on May 6, 2020, I sent a letter to CFAC directing that the Idaho Rebound grant not be available to private entities that directly lobby federal or state officials or to entities that exist for the purpose of advancing partisan political activities. I did so to ensure Coronavirus Relief Funds are used for the purposes intended—to help
Idaho small businesses whose operations were interrupted by the COVID-19 pandemic—and to avoid the appearance of impropriety; and

WHEREAS, these Idaho Rebound grants will also now be available to certain self-employed Idaho residents because providing support to these Idahoans is also necessary for the protection of life and property in Idaho and crucial to Idaho’s recovery from the COVID-19 pandemic.

NOW, THEREFORE, I, Brad Little, Governor of the State of Idaho, by virtue of the authority vested in me by the Constitution and laws of this state, including but not limited to Idaho Code§§ 46-601 and 67-3516(2), do hereby order:

ISDA will consider increasing fees for device licenses to cover ongoing and rising costs associated with growth in the state and an additional position which was added to ensure devices used for commerce in the State of Idaho are inspected. The proposal would increase the current license fees for commercial weighing and measuring devices in Table 1-A. **DESCRIPTIVE SUMMARY AND STATEMENT OF PURPOSE:** The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved:

This rule will reorganize Idaho’s Rules Governing Pesticide and Chemigation Use and Application. A reorganization is needed to clarify the rules, and to update the rules to comply with federal law changes (Federal Insecticide, Rodenticide, and Fungicide Act “FIFRA”; and 40 CFR, Part 171). The updates are important to maintain Idaho’s enforcement primacy under FIFRA and the cooperative agreement with the Environmental Protection Agency.

Additionally, Idaho’s pesticide law and rules were the subject of legislative action during the 2020 Legislative Session (House Bill 487a which was vetoed, and House Concurrent Resolution 042). Some of the pesticide applicators and other stakeholders have expressed confusion about the status of the rules. Negotiated rulemaking with all the stakeholders at the table will help clarify the rules for interested stakeholders.

NOTICE OF RULEMAKING – RESCISSION OF TEMPORARY RULE

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given that this agency has rescinded the temporary rule previously adopted under this docket. The action is authorized pursuant to Sections 36-104 and 36-408, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for rescinding the temporary rule.

At their May 14, 2020 meeting, the Fish and Game Commission approved rescinding Docket No. 13-0104-2001 (hereinafter “Rescission”) effective 10:00 a.m. Mountain Daylight Time, May 16, 2020. This Rescission effectively approves the resumption of sales of various nonresident licenses, tags, and permits.

The temporary rule in Docket No. 13-0104-2001 had authorized the temporary limit of some nonresident licenses, tags, permits, and hunting passports to the number sold as of April 4, 2020 due to the extreme emergency presented by COVID-19. This action was consistent with Governor and Idaho Department of Health and Welfare orders requiring people entering Idaho to self-quarantine for up to fourteen (14) days.

This Rescission is consistent with Stage 2 of the Governor’s Stay Healthy Order and guidelines for opening up Idaho (effective 12:00 a.m. Mountain Daylight Time, May 16, 2020), where individuals entering Idaho are no longer required to self-quarantine for fourteen (14) days. However, persons entering Idaho from areas with substantial community spread or case rates higher than Idaho are still strongly encouraged to self-quarantine for fourteen (14) days.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning the rescission of this temporary rule, contact Paul Kline at (208) 334-3771.

AUTHORITY: In compliance with Section 67-5220, Idaho Code, notice is hereby given that this agency intends to promulgate rules and desires public comment prior to initiating formal rulemaking procedures. This negotiated rulemaking action is authorized pursuant to Sections 36-104(b), 36-301, 36-401 through 413, and 36-1101, Idaho Code.

METHOD OF PARTICIPATION: Interested persons wishing to participate in the negotiated rulemaking must respond to this notice by contacting the undersigned either in writing, by email, or by calling the phone number listed below. To participate, responses must be received by June 26, 2020.

Should a reasonable number of persons respond to this notice, negotiated meetings will be scheduled and all scheduled meetings shall be posted and made accessible on the agency website at the address listed below.

Failure of interested persons to respond to this notice of intent or the lack of a sufficient number of responses to this notice of intent may result in the discontinuation of further informal proceedings. In either event, the agency shall have sole discretion in determining the feasibility of scheduling and conducting informal negotiated rulemaking and may proceed directly to formal rulemaking if proceeding with negotiated rulemaking is deemed infeasible.

Upon the conclusion of the negotiated rulemaking, any unresolved issues, all key issues considered, and conclusions reached during the negotiated rulemaking will be addressed in a written summary. The summary will be made available to interested persons who contact the agency or, if the agency chooses, the summary may be posted on the agency website.

DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved. The rulemaking will address the following:

The rulemaking will address moving draw dates for the Landowner Appreciation Program (LAP) controlled hunt tags to an earlier time in the year to provide landowners with adequate notification of draw results for hunts beginning in August. Applications from landowners for LAP controlled hunt tags are currently accepted from June 15 through July 15. Moving the application period to an earlier time in the year (e.g., May 1 - June 5), would provide additional processing time and help ensure that the Department can provide timely draw result notification to landowners.

This rulemaking would provide the Commission the authority to limit the number of deer and elk tags made available annually to nonresident Disabled American Veterans (DAV) at nonresident DAV prices. If the number of tags made available at nonresident DAV prices sells out, nonresident DAVs would be eligible to purchase tags available at general, nonresident prices. General season deer and elk tags available to Nonresident DAVs are not included under the statewide general nonresident hunt tag limits for deer and elk (set by rule in IDAPA 13.01.04.550). Nonresident DAV participation has been growing. From 2016 to 2019, nonresident DAV elk tag sales increased from 910 to 1,682 and nonresident DAV deer tag sales increased from 1,149 to 1,839. Nonresident DAV elk and deer tags cost $22.00 and $38.00, respectively, and it is reasonable to expect continued growth in at least the near term if tags are not limited, with potential impacts on management of nonresidents in addressing hunter congestion.

DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved. This rule making would establish that any person whose name is drawn on a controlled pronghorn hunt may not apply for any other controlled pronghorn hunt for one (1) year. This proposed waiting period is consistent with IDAPA 13.01.08.257 governing controlled hunt eligibility for antlered deer and elk.

AUTHORIZED: In compliance with Section 67-5220, Idaho Code, notice is hereby given that this agency intends to promulgate rules and desires public comment prior to initiating formal rulemaking procedures. This negotiated rulemaking action is authorized pursuant to Sections 36-103, 36-104, 36-1101, and 36-1102, Idaho Code.

METHOD OF PARTICIPATION: Interested persons wishing to participate in the negotiated rulemaking must respond to this notice by contacting the undersigned either in writing, by email, or by calling the phone number listed below. To participate, responses must be received by June 26, 2020.

Should a reasonable number of persons respond to this notice, negotiated meetings will be scheduled and all scheduled meetings shall be posted and made accessible on the agency website at the address listed below.

In either event, the agency shall have sole discretion in determining the feasibility of scheduling and conducting informal negotiated rulemaking and may proceed directly to formal rulemaking if proceeding with negotiated rulemaking is deemed infeasible.

Upon the conclusion of the negotiated rulemaking, any unresolved issues, all key issues considered, and conclusions reached during the negotiated rulemaking will be addressed in a written summary. The summary will be made available to interested persons who contact the agency or, if the agency chooses, the summary may be posted on the agency website.

DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved. This rulemaking will address the following:

Consistent with executive orders, the purpose of this rulemaking is simplification of turkey tag options offered to the hunting public. Currently, there are three types of tags available: (1) general tags, (2) extra tags, and (3) special unit tags and there are limitations on how tags may be used (IDAPA 13.01.09.102). A general tag and an extra tag may be used during the spring general season; however, if one or both go unused, the unused tag may be used during the general fall season. A second extra tag may also be used during the general fall season. A general tag or an extra tag may be used with a controlled hunt permit in the spring and fall seasons. Special unit tags may be used in designated units during any season set by the Commission. Consistent with executive orders, the purpose of this amended rule language will make it easier for the hunting public to understand tag options to hunt turkey.

The rulemaking will address a delay in the nonresident pheasant opening date. Section 36-407(e), Idaho Code establishes a 5-day delay from the pheasant season opening date for nonresident holders of small game hunting licenses. The Fish and Game Commission received a rulemaking petition from residents in Franklin and Oneida counties to modify the pheasant season opening date for all nonresident hunters to November 1st. The petitioners would like resident only pheasant hunting before November 1st.

This rulemaking will: establish uniform requirements for the validation and attachment of all game tags that are required for game birds under Section 36, 409(c), eliminate permit requirements for grouse species if game tags are statutorily required, and establish harvest report requirements for swan. Game tags are required for sandhill crane and turkey, with separate rule sections for validation and attachment. Legislation passed in 2020 (House Bill No. 545) established game tags for swan and set tag prices. Making tag validation and attachment requirements uniform for game bird species requiring a game tag, and eliminating permit requirements for a grouse species if a game tag is subsequently required by statute, will simplify rules consistent with executive orders. Establishing harvest report requirements for swan is a condition of federal agency approval of swan harvest in Idaho under the Migratory Bird Treaty Act.

This rulemaking would designate two special waterfowl hunting days for Veterans and Active Military personnel. Federal legislation passed in 2019 (the John D. Dingell, Jr. Conservation, Management, and Recreation
Act) allows states to offer veterans & active military two (2) waterfowl hunting days, which states may offer in combination with the two (2) days allowed for youth. This rulemaking would add the allowance for participation by veterans and active service members to the youth hunt days.

The summary will be made available to interested persons who contact the agency or, if the agency chooses, the summary may be posted on the agency website.

DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved. The rule making will address the following:

The Fish and Game Commission received a rulemaking petition proposing that certain allowances for use of bait and trap placement in wolf trapping also apply to the trapping of furbearing animals and predatory wildlife. These allowances include the placement of traps over naturally killed big game species as long as the carcass was undisturbed, and the use of legally taken road-killed animals as bait.

The Fish and Game Commission received a rulemaking petition to restrict the use of body-gripping traps with jaws wider than seven and one half (7 1/2) inches inside spread in sets on dry land within thirty (30) feet of bait or other attractant. The petition also requested that the Commission establish additional conditions for the use of body-gripping traps on dry land where the inside spread of the trap jaw is greater than six and one half (6 1/2) and less than seven and one half (7 1/2) inches.

Consistent with executive orders, the negotiated rulemaking may encompass simplification as between IDAPA 13.01.16.400, and IDAPA 13.01.17.400, Rules Governing the Use of Bait and Trapping for Taking Big Game Animals should the rulemaking increase the overlap between methods of takes requirements in the two chapters.

Dated this 1st day of May, 2020.
CORRECTION: This notice corrects an error made by the Office of the Administrative Rules Coordinator during the publication of the April 15, 2020, Special Edition of the Idaho Administrative Bulletin, Volume 20-4SE. In the Notice of Omnibus Rulemaking – Adoption of Temporary Rule, published under Docket No. 16-0000-2000F, certain portions of the temporary rule text were updated to show amendments from rulemakings that the 2020 Legislature reviewed and approved, reflecting a temporary effective date of March 20, 2020. However, the final effective date specified by the Department of Health and Welfare in the Notice of Adoption of Pending Rule for these rulemakings is July 1, 2020. These portions of rules have been clerically revised to rectify the publishing error and accurately reflect agency rulemaking action.

AUTHORITY: The Office of the Administrative Rules Coordinator and this agency are providing notice of a correction to the Notice of Omnibus Rulemaking – Adoption of Temporary Rule previously published in the Idaho Administrative Bulletin under this docket number. The action is authorized pursuant to Sections 67-5202 and 67-5226, Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise statement of the correction being made:

Section 67-5224(5)(c), Idaho Code, requires that any pending rule imposing a fee or charge to be reviewed and approved by concurrent resolution of the legislature in order for the pending rule to become final and effective. During the 2020 legislative session, the legislature did not adopt the required concurrent resolution approving the pending fees rules that were submitted for review and approval thereby voiding these pending fee rules making them null, void and of no force and effect. However, the proactive action taken by state agencies to conditionally re-approve fee rules upon sine die has ensured that they remain in effect as temporary rules as published in the April 15, 2020, Special Edition of the Idaho Administrative Bulletin, Volume 20-4SE.

There were a number of pending rulemakings submitted to the 2020 Idaho Legislature that amended chapters that were also being promulgated as pending fee rules. Although these pending rules were not rejected by concurrent resolution, they were rendered null and void because the rule chapter being amended was not approved as final and expired. When the fee chapters were adopted and published as temporary rules in the April 15, 2020, Special Edition Bulletin, the changes from the pending rulemakings were also adopted and included into these reauthorized fee chapters taking effect on March 20, 2020. However, as authorized by Section 67-5224(2)(c), Idaho Code, the final effective date specified in the pending rules being corrected by this notice is July 1, 2020, and therefore the changes were inadvertently included and prematurely updated in the reauthorized fee chapters as of March 20, 2020.

This rulemaking action corrects the following temporary rule chapters under Docket No. 16-0000-2000F:

IDAPA 16
• IDAPA 16.02.01, Idaho Time Sensitive Emergency System Council
• IDAPA 16.03.19, Certified Family Homes
• IDAPA 16.03.22, Residential Assisted Living Facilities
• IDAPA 16.05.06, Criminal History and Background Checks

The complete text of the chapters affected by this corrective action is being republished following this notice.

16.02.01 – IDAHO TIME SENSITIVE EMERGENCY SYSTEM COUNCIL

000. LEGAL AUTHORITY.
The Idaho Time Sensitive Emergency System Council (TSE) is authorized under Section 56-1028, Idaho Code, to promulgate rules for the purpose of establishing standards and for the administration of a voluntary time sensitive emergency system of care. Sections 56-1024 through 56-1030, Idaho Code, provide requirements for the TSE Council, its membership, duties, regional TSE committees, standards criteria, and the designation of centers. The Department is authorized to charge and collect fees established by rule under Section 56-1007, Idaho Code, and to establish and collect data for a Time Sensitive Emergency (TSE) Registry under Section 57-2003, Idaho Code.

001. TITLE, SCOPE, AND INTENT.

01. Title. The title of these rules is IDAPA 16.02.01, “Idaho Time Sensitive Emergency System Council.”

02. Scope. These rules provide for the administration and establishment of standards for a voluntary statewide time sensitive emergency system of care that includes procedures and requirements for designation of trauma, stroke, and heart attack centers including data reporting, fees, appeal process and enforcement procedures, determination of regions to provide an effective access to the TSE system within the state, and operational procedures for regional TSE committees.

03. Intent. With the maturation of the Time Sensitive Emergency System (TSE), the intent is for the state to have the ability to designate TSE centers without reliance on national accreditation bodies. The TSE Council, upon review of appropriate documentation, may provide reciprocity for facilities in Idaho that also choose to operate under a designation in a neighboring state’s system.

01. Civil Monetary Penalties. Civil monetary penalties are based upon one (1) or more deficiencies of noncompliance. Nothing will prevent the Department from imposing this remedy for deficiencies which existed prior to the survey or complaint investigation through which they are identified. Actual harm to a resident or residents does not need to be shown. A single act, omission or incident will not give rise to imposition of multiple penalties, even though such act, omission or incident may violate more than one (1) rule. (3-20-20)

02. Assessment Amount for Civil Monetary Penalty. When civil monetary penalties are imposed, such penalties are assessed for each day the facility is or was out of compliance. The amounts below are multiplied by the total number of occupied licensed beds according to the records of the Department at the time non-compliance is established.

03. Notice of Civil Monetary Penalties and Appeal Rights. The Department will give written notice informing the facility of the amount of the penalty, the basis for its assessment and the facility's appeal rights.

04. Payment of Penalties. The facility must pay the full amount of the penalty within thirty (30) calendar days from the date the notice is received, unless the facility requests an administrative review of the decision to assess the penalty. The amount of a civil monetary penalty determined through administrative review must be paid within thirty (30) calendar days of the facility's receipt of the administrative review decision unless the facility requests an administrative hearing. The amount of the civil monetary penalty determined through an administrative hearing must be paid within thirty (30) calendar days of the facility's receipt of the administrative hearing decision unless the facility files a petition for judicial review. Interest accrues on all unpaid penalties at the legal rate of interest for judgments. Such interest accrual will begin one (1) calendar day after the date of the initial assessment of the penalty;

05. Failure to Pay. Failure of a facility to pay the entire penalty, together with any interest, is cause for revocation of the license or the amount will be withheld from Medicaid payments to the facility.

03. Revocation of Clearance. An individual’s previously issued clearance may be revoked for the following: (3-20-20)

Following a challenge of the Department’s unconditional denial, an individual may appeal the Department’s decision under the provisions in IDAPA 16.05.03, “Contested Case Proceedings and Declaratory Rulings.” The request to appeal an unconditional denial does not stay the action of the Department. METHOD OF PARTICIPATION: Persons wishing to participate in the negotiated rulemaking must respond to this notice by contacting the agency either in writing (paper or email) or by calling the phone number listed below, and/or by attending the public meeting.

Upon conclusion of the negotiated rulemaking, any unresolved issues, all key issues considered, and conclusion reached during the negotiated rulemaking will be addressed in a written summary. The summary will be made available to interested persons who contact the agency or, if the agency chooses, the summary may be posted on the agency website.

DESCRIPTIVE SUMMARY AND STATEMENT OF PURPOSE: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved:

The State Fire Marshal adopts the International Fire Code (IFC) then adjusts, via negotiated rulemaking, provisions of the IFC that we wish to exempt Idaho from enforcing at least at the state level. Under the 2018 fire code (IFC) that will go into effect on January 1, 2021, there was a new section added regulating food trucks. Two sub sections require additional inconveniences on the part of the food truck owner and additional money to the entrepreneur. Section 319.2 states that permits shall be required as set forth in section 105.6. This rulemaking seeks to change the language so that permits be required “if required by the local jurisdiction.”

The SFM is unaware of any company that provides this inspection and certification in Idaho. This rulemaking will leave it to the individual jurisdictions to determine inspection and enforcement feasibility.
