SUBJECT INDEX ..........................................................................................................................116
PREFACE

The Idaho Administrative Bulletin is an electronic-only, online monthly publication of the Office of the Administrative Rules Coordinator, Division of Financial Management, that is published pursuant to Section 67-5203, Idaho Code. The Bulletin is a compilation of all official rulemaking notices, official rule text, executive orders of the Governor, and all legislative documents affecting rules that are statutorily required to be published in the Bulletin. It may also include other rules-related documents an agency may want to make public through the Bulletin.

State agencies are required to provide public notice of all rulemaking actions and must invite public input. This is done through negotiated rulemaking procedures or after proposed rulemaking has been initiated. The public receives notice that an agency has initiated proposed rulemaking procedures through the Idaho Administrative Bulletin and a legal notice (Public Notice of Intent) that publishes in authorized newspapers throughout the state. The legal notice provides reasonable opportunity for the public to participate when a proposed rule publishes in the Bulletin. Interested parties may submit written comments to the agency or request public hearings of the agency, if none have been scheduled. Such submissions or requests must be presented to the agency within the time and manner specified in the individual “Notice of Rulemaking - Proposed Rule” for each proposed rule that is published in the Bulletin.

Once the comment period closes, the agency considers fully all comments and information submitted regarding the proposed rule. Changes may be made to the proposed rule at this stage of the rulemaking, but changes must be based on comments received and must be a “logical outgrowth” of the proposed rule. The agency may now adopt and publish the pending rule. A pending rule is “pending” legislative review for final approval. The pending rule is the agency’s final version of the rulemaking that will be forwarded to the legislature for review and final approval. Comment periods and public hearings are not provided for when the agency adopts a temporary or pending rule.

CITATION TO THE IDAHO ADMINISTRATIVE BULLETIN

The Bulletin is identified by the calendar year and issue number. For example, Bulletin 19-1 refers to the first Bulletin issued in calendar year 2019; Bulletin 20-1 refers to the first Bulletin issued in calendar year 2020. Volume numbers, which proceed from 1 to 12 in a given year, correspond to the months of publication, i.e.; Volume No. 19-1 refers to January 2019; Volume No. 20-2 refers to February 2020; and so forth. Example: The Bulletin published in January 2019 is cited as Volume 19-1. The December 2019 Bulletin is cited as Volume 19-12.

RELATIONSHIP TO THE IDAHO ADMINISTRATIVE CODE

The Idaho Administrative Code is an electronic-only, online compilation of all final and enforceable administrative rules of the state of Idaho that are of full force and effect. Any temporary rule that is adopted by an agency and is of force and effect is codified into the Administrative Code upon Bulletin publication. All pending rules that have been approved by the legislature during the legislative session as final rules and any temporary rules that are extended supplement the Administrative Code. These rules are codified into the Administrative Code upon becoming effective. Because proposed and pending rules are not enforceable, they are published in the Administrative Bulletin only and cannot be codified into the Administrative Code until approved as final.

To determine if a particular rule remains in effect or whether any amendments have been made to the rule, refer to the Cumulative Rulemaking Index. Link to it on the Administrative Rules homepage at adminrules.idaho.gov.

THE DIFFERENT RULES PUBLISHED IN THE ADMINISTRATIVE BULLETIN

Idaho’s administrative rulemaking process, governed by the Administrative Procedure Act, Title 67, Chapter 52, Idaho Code, comprises distinct rulemaking actions: negotiated, proposed, temporary, pending and final rulemaking. Not all rulemakings incorporate or require all of these actions. At a minimum, a rulemaking includes proposed, pending and final rulemaking. Many rules are adopted as temporary rules when they meet the required statutory criteria and agencies must, when feasible, engage in negotiated rulemaking at the beginning of the process to facilitate consensus building. In the majority of cases, the process begins with proposed rulemaking and ends with the final rulemaking. The following is a brief explanation of each type of rule.
1. NEGOTIATED RULEMAKING

Negotiated rulemaking is a process in which all interested persons and the agency seek consensus on the content of a rule through dialogue. Agencies are required to conduct negotiated rulemaking whenever it is feasible to do so. The agency files a “Notice of Intent to Promulgate – Negotiated Rulemaking” for publication in the Administrative Bulletin inviting interested persons to contact the agency if interested in discussing the agency’s intentions regarding the rule changes. This process is intended to result in the formulation of a proposed rule and the initiation of regular rulemaking procedures. One result, however, may also be that regular (proposed) rulemaking is not initiated and no further action is taken by the agency.

2. PROPOSED RULEMAKING

A proposed rulemaking is an action by an agency wherein the agency is proposing to amend or repeal an existing rule or to adopt a new rule. Prior to the adoption, amendment, or repeal of a rule, the agency must publish a “Notice of Rulemaking – Proposed Rule” in the Bulletin. This notice must include very specific information regarding the rulemaking including all relevant state or federal statutory authority occasioning the rulemaking, a non-technical description of the changes being made, any associated costs, guidance on how to participate through submission of written comments and requests for public hearings, and the text of the proposed rule in legislative format.

3. TEMPORARY RULEMAKING

Temporary rules may be adopted only when the governor finds that it is necessary for:

a) protection of the public health, safety, or welfare; or
b) compliance with deadlines in amendments to governing law or federal programs; or
c) conferring a benefit.

If a rulemaking meets one or more of these criteria, and with the Governor’s approval, the agency may adopt and make a temporary rule effective prior to receiving legislative authorization and without allowing for any public input. The law allows an agency to make a temporary rule immediately effective upon adoption. A temporary rule expires at the conclusion of the next succeeding regular legislative session unless the rule is extended by concurrent resolution, is replaced by a final rule, or expires under its own terms.

4. PENDING RULEMAKING

A pending rule is a rule that has been adopted by an agency under regular rulemaking procedures and remains subject to legislative review before it becomes a final, enforceable rule. When a pending rule is published in the Bulletin, the agency is required to include certain information in the “Notice of Rulemaking – Pending Rule.” This includes a statement giving the reasons for adopting the rule, a statement regarding when the rule becomes effective, a description of how it differs from the proposed rule, and identification of any fees being imposed or changed.

Agencies are required to republish the text of the pending rule when substantive changes have been made to the proposed rule. An agency may adopt a pending rule that varies in content from that which was originally proposed if the subject matter of the rule remains the same, the pending rule change is a logical outgrowth of the proposed rule, and the original notice was written so as to assure that members of the public were reasonably notified of the subject. It is not always necessary to republish all the text of the pending rule.

5. FINAL RULEMAKING

A final rule is a rule that has been adopted by an agency under the regular rulemaking procedures and is of full force and effect.
HOW TO USE THE IDAHO ADMINISTRATIVE BULLETIN

Rulemaking documents produced by state agencies and published in the Idaho Administrative Bulletin are organized by a numbering schematic. Each state agency has a two-digit identification code number known as the “IDAPA” number. (The “IDAPA” Codes are listed in the alphabetical/numerical index at the end of this Preface.) Within each agency there are divisions or sections to which a two-digit “TITLE” number is assigned. There are “CHAPTER” numbers assigned within the Title and the rule text is divided among major sections that are further subdivided into subsections. An example IDAPA number is as follows:

IDAPA 38.05.01.200.02.c.ii.

“IDAPA” refers to Administrative Rules in general that are subject to the Administrative Procedures Act and are required by this act to be published in the Idaho Administrative Code and the Idaho Administrative Bulletin.

“38.” refers to the Idaho Department of Administration

“05.” refers to Title 05, which is the Department of Administration’s Division of Purchasing

“01.” refers to Chapter 01 of Title 05, “Rules of the Division of Purchasing”

“200.” refers to Major Section 200, “Content of the Invitation to Bid”

“02.” refers to Subsection 200.02.

“c.” refers to Subsection 200.02.c.

“ii.” refers to Subsection 200.02.c.ii.

DOCKET NUMBERING SYSTEM

Internally, the Bulletin is organized sequentially using a rule docketing system. Each rulemaking that is filed with the Coordinator is assigned a “DOCKET NUMBER.” The docket number is a series of numbers separated by a hyphen “-”. (38-0501-1401). Rulemaking docketts are published sequentially by IDAPA number (the two-digit agency code) in the Bulletin. The following example is a breakdown of a typical rule docket number:

“DOCKET NO. 38-0501-1901”

“38-” denotes the agency's IDAPA number; in this case the Department of Administration.

“0501-” refers to the TITLE AND CHAPTER numbers of the agency rule being promulgated; in this case the Division of Purchasing (TITLE 05), Rules of the Division of Purchasing (Chapter 01).

“1901” denotes the year and sequential order of the docket being published; in this case the numbers refer to the first rulemaking action published in calendar year 2019. A subsequent rulemaking on this same rule chapter in calendar year 2019 would be designated as “1902”. The docket number in this scenario would be 38-0501-1902.

Within each Docket, only the affected sections of chapters are printed. (See Sections Affected Index in each Bulletin for a listing of these.) The individual sections affected are printed in the Bulletin sequentially (e.g. Section “200” appears before Section “345” and so on). Whenever the sequence of the numbering is broken the following statement will appear:

On March 25, 2020, Governor Little issued a Proclamation declaring an emergency and taking steps to reduce and slow the coronavirus spread. In compliance with the Proclamation and Stages of Reopening, ISDA will hold this meeting via telephone and web conferencing.

**METHOD OF PARTICIPATION:** Those interested in participating in the negotiated rulemaking process are encouraged to attend the scheduled meeting via telephone and web conferencing. Individuals interested in participating by telephone and web conferencing should contact rulesinfo@isda.idaho.gov. For those who cannot participate by attending the meeting, information for submitting written comments is provided below.

DESCRIPTIVE SUMMARY AND STATEMENT OF PURPOSE: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved:

These rules are being presented for authorization as part of the ISDA’s plan to review each rule every 5 years. There are no specific rulemaking changes planned by the ISDA at this time except for evaluation and amendment consistent with the Governor’s Executive Order 2020-01: Zero-Based Regulation. It is anticipated that rulemaking stakeholders will propose and advocate for rulemaking changes as part of the negotiated rulemaking process. The ISDA intends to carefully consider all changes presented by the public and may propose certain changes so long as they are consistent with the rules’ statutory authority and the Governor’s Executive Order. The ISDA will review the documents that are currently incorporated by reference in this rule and update that list as applicable.

Incorporated by reference documents presented for review will be part of informal negotiated rulemaking and stakeholders will provide input on that process.

The following rule chapters are germane to this rulemaking:

**DOCKET NO. 02-0414-2102 (NEW CHAPTER)**

**NOTICE OF RULEMAKING – ADOPTION OF TEMPORARY RULE**

**EFFECTIVE DATE:** The effective date of the temporary rule is the *sine die* adjournment of the 1st Regular Session of the 66th Idaho Legislature.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Section 37-603, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

This temporary rulemaking readopts a previously adopted temporary rule that was not submitted for extension to the 2021 legislature as required for continued enforcement.

The rules governing dairy byproduct outline standards for dairy environmental management plans governing the storage, containment, and land application of dairy byproduct. The rule sets limits on certain nutrient loading at land application sites and establishes prohibitions of discharges of dairy byproduct beyond property boundaries and/or into waters of the state.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1)(a), (b), and (c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This temporary rule is necessary to protect the public health, safety, and welfare of the citizens of Idaho and confers a benefit on its citizens. The temporary rule implements the duly enacted laws of the state of Idaho, provides citizens with the detailed rules and standards for complying with those laws, and assists in the orderly execution and enforcement of those laws. The expiration of this rule without due consideration and processes would undermine the public health, safety, and welfare of the citizens of Idaho and deprive them of the benefit intended by this rule.

**FEE SUMMARY:** No fee or charge is imposed or changed through this rulemaking.

**ASSISTANCE ON TECHNICAL QUESTIONS:** For assistance on technical questions concerning the temporary rule, contact Dr. Scott Leibsle (208) 332-8614.

01. Dairy Storage and Containment Facility Criteria.

a. Dairy storage and containment facilities shall be constructed to meet a minimum of one hundred eighty (180) days of holding capacity. Process water containment structures that are utilized as the secondary or final storage for effluent shall have a minimum two (2) vertical feet of freeboard.

b. Earthen dairy storage and containment facilities less than ten (10) vertical feet high with a maximum high water line of eight (8) vertical feet shall be required to have a top embankment width of at least eight (8) feet and a minimum of one (1) vertical foot of freeboard shall be maintained. The combined inside and outside embankment slopes must be at least five (5) horizontal to one (1) vertical, and neither slope shall be steeper than two (2) horizontal to one (1) vertical. Earthen dairy storage and containment facilities with outside embankments higher than ten (10) vertical feet from the naturally occurring ground level shall meet the NRCS Idaho Conservation Practice Standard Waste Storage Facility Code 313 December 2004 embankment requirements as incorporated by reference in Subsection 004.03 of these rules.

c. The inside bottom of the dairy storage and containment facility shall be a minimum of two (2) feet above the high water table, bed rock, gravel, or permeable soils. For an earthen dairy storage and containment facility, a soil liner shall be installed such that the specific discharge rate of the containment structure meet 1 x 10-6 cm3/cm2/sec or less as described in Appendix 10D. Concrete or synthetic liners must be constructed to the American Society of Agricultural and Biological Engineers Specification ASABE EP393.3 Manure Storages February 2004 and Appendix 10D as incorporated by reference in Section 004 of these rules.

**e.** Dairy environmental management systems shall be maintained in a condition that allows the producer to regularly inspect the integrity of the systems.

### 02. Dairy Nutrient Management Plan (DNMP)

Except as provided below, each dairy farm shall have a dairy nutrient management plan that is approved by the Department and included in the dairy farm’s environmental management plan. The DNMP shall cover the dairy farm site and other land owned and operated by the dairy farm owner or operator to which dairy byproducts are land applied. A new dairy farm governed by the IPDES program is not required to submit a DNMP to the Department. An existing dairy farm with an approved DNMP that has a discharge to waters of the U.S. that requires an IPDES permit must comply with the nutrient management plan requirements under the IPDES rules and IPDES permit, notwithstanding the Department approved DNMP. Requirements to comply with the provisions of a DNMP include the following:

**a.** Producer annual soil tests shall be conducted as set forth in IDAPA 02.04.30, “Rules Governing Nutrient Management.”

**b.** Regulatory soil tests will be conducted at frequencies sufficient to provide assurance of compliance with Section 031 and with IDAPA 02.04.30, “Rules Governing Nutrient Management.”

**c.** Accurate DNMP records shall be maintained. These records shall include at a minimum:

1. Regulatory soil samples shall be taken by a Certified Soil Sampler and tested by a laboratory that meets the requirements and performance standards of the North American Proficiency Testing Program under the auspices of the Soil Science Society of America outlined in the NMS, as incorporated by reference in Subsection 004.02, as part of NMS 590 or other methods as approved by the Department;
2. Annual soil analysis;
3. Date and amount of dairy byproduct and commercial fertilizer applied to individual dairy owned or operated fields;
4. Date(s) of exported dairy byproduct, number of acres applied, amount of dairy byproduct exported, and to whom dairy byproduct was exported; and
5. Actual crop yields on dairy owned or operated fields.
6. A nitrogen management plan worksheet (pages 35-36 of the 2017 Idaho Phosphorus Site Index Standards) shall be completed for all fields and pastures receiving land application of nutrients.

**d.** Pasturing. Pastures utilized for grazing of dairy animals, and other animals owned, leased or otherwise under the control of a producer within the same pasture, shall be incorporated in and subject to the DNMP. These pastures are also subject to the following requirements:

1. Soil testing. Soil tests shall be conducted pursuant to the NMS and Section 031 on all lands utilized as pasture.
2. Surface water access. If pastured animals have access to surface water within a pasture, the producer may be required to implement one (1) or more NRCS conservation practice standards to minimize adverse impact on surface water quality.
3. Land application. If land application occurs within a pasture, soil tests shall be conducted annually on that pasture.
4. Confinement areas. Confinement areas shall not be considered part of a pasture.
031. PHOSPHORUS MANAGEMENT.
Dairy farms shall utilize either Phosphorus Indexing (Section 031.01) or the Phosphorus Threshold (Section 031.02) to manage nutrient application. After June 30, 2023, dairy farms will no longer be allowed to use the Phosphorus Threshold (Section 031.02) provision and all facilities will be required to use Phosphorus Indexing (Section 031.01). (SD 2021)

01. Phosphorus Indexing. The dairy farm shall utilize phosphorus site indexing (PSI) for each field where dairy byproducts and/or commercial fertilizers are land applied and for each pasture utilized for grazing, in accordance with the 2017 Idaho Phosphorus Site Index Standards. The PSI shall be calculated by a Nutrient Management Planner, certified by the Department, and be included as a component of the DNMP in the dairy farm’s Environmental Management Plan. It shall be the dairy farm’s responsibility to provide updated information, including annual soil test results, to the Nutrient Management Planner for calculation of the PSI on all fields and pastures on an annual basis. Failure to abide by the nutrient application and management provisions of a field or pasture’s PSI risk classification in the DNMP shall constitute a non-compliance and the producer may be penalized as provided in these rules. (SD 2021)

a. Notwithstanding anything to the contrary in the 2017 Idaho Phosphorus Site Index Standards, no land application of phosphorus shall be permitted on any fields or pastures that possess a soil phosphorus level exceeding three hundred (300) parts per million, as determined by the required annual soil test (via Olsen method). Further, the dairy farm shall not receive BMP Coefficient credit for implementing any best management practice designed to reduce phosphorus loss on fields exceeding three hundred (300) parts per million, via Olsen method. (SD 2021)

b. The Department may award zero (0) or partial BMP Coefficient credit when a dairy farm implements a best management practice designed to reduce phosphorus loss from fields that does not fully conform to NRCS standards or the standards set forth in the 2017 Idaho Phosphorus Site Index Standards BMP definition section. (SD 2021)

02. Phosphorus Threshold. If the regulatory or producer soil tests reveal that phosphorus thresholds on fields and pastures have exceeded the levels established in the NMS, the producer shall only apply phosphorus at the appropriate phosphorus crop uptake rate. Subsequent regulatory soil test(s) on fields and pastures that were identified as exceeding the phosphorus threshold will be conducted. If two (2) out of three (3) tests reveal the phosphorus index continues to trend upward, the producer will be penalized as provided in these rules. These tests shall be taken in the top one (1) foot of soil. (SD 2021)

032. – 039. (RESERVED)

040. INSPECTIONS.
Each dairy farm shall be inspected by an inspector or fieldman at least annually or at intervals sufficient to determine that dairy byproducts and process water have been managed to prevent an unauthorized discharge, unauthorized release, or contamination of surface and ground water. An official inspection report form as described in Section 041 will be completed at the time of inspection. (SD 2021)

041. INSPECTION REPORT FORMS.
An inspection report form shall be established by the Department based on parameters established in the NMP, NMS, and Appendix 10D. Each inspection item on the form shall indicate compliance and non-compliance. (SD 2021)

042. – 049. (RESERVED)

050. COMPLIANCE SCHEDULES.

01. Non-Compliance or Unauthorized Release Violations Identified. When the Director identifies items of non-compliance or unauthorized release violations, the deficiencies will be noted and discussed with the producer. Appropriate corrective actions will be identified and scheduled informally. The Director may develop a formal compliance schedule in the following cases:

a. When corrective actions cannot be completed within thirty (30) days; or (SD 2021)
b. When corrective actions require significant capital investment; or  

(SD 2021)T

(SD 2021)T

062. – 999. (RESERVED)
AUTHORITY: As authorized by Section 36-104, Idaho Code, and in compliance with Section 36-105(3), Idaho Code, the Commission adopts proclamations establishing seasons and limits for hunting, fishing, and trapping in Idaho.

AVAILABILITY OF OFFICIAL PROCLAMATIONS: Hunters, anglers, and trappers are advised to consult the text of the Commission’s official proclamation before hunting, fishing, or trapping. All proclamations are available on-line at https://idfg.idaho.gov/rules, with print versions available at Idaho Department of Fish and Game offices and license vendors.

DESCRIPTIVE SUMMARY AND PUBLIC MEETING SCHEDULE: The Commission meeting schedule and meeting agendas are available on-line at https://idfg.idaho.gov/about/commission/archive, with opportunities for public comment generally scheduled at its January, March, May, July, and November meetings.

In March, 2021, the Commission took the following proclamation actions:

1. Adopted a proclamation for the 2021 spring/summer Chinook Salmon fishing seasons and limits in the Snake River, Lower Salmon River, and Little Salmon River.
2. Adopted a proclamation for the 2021-2022 and 2022-2023 seasons and limits for taking certain species of big game (deer, elk, black bear, mountain lion, and gray wolf) in Idaho. The proclamation included the establishment of a wait period of five (5) days for eligibility to purchase elk tags for any person who applies for a controlled elk hunt in the same calendar year.
3. Adopted a proclamation for the 2021-2022 and 2022-2023 landowner appreciation program.
4. Amended the Commission’s November 20, 2020 proclamation as it relates to 2021 limits on total nonresident general hunt tags, over-the-counter tags, and outfitter allocated tags for regular and white-tailed deer.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions concerning proclamations, contact Owen Moroney at (208) 334-3715.
EFFECTIVE DATE: The effective date of the temporary rule is March 11, 2021. This temporary rule will expire by its own terms upon adjournment of the First Regular Session of the Sixty-sixth Idaho Legislature, and at which point Pending Rule docket number 13-0109-2002 becomes final and effective.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 36-103, 36-104, 36-408, 36-409, 36-1101, and 36-1102, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of supporting reasons for adopting a temporary rule:

This temporary rule provides for consistency of requirements for spring turkey controlled hunts for 2021. The application period for spring turkey controlled hunts closed at midnight on March 1, 2021. Controlled hunt draw results are typically available within a week of this date. Pending rule change to Section 102 of this Chapter was approved in Senate Resources and Environment and House Resources and Conservation during the 2021 Legislative Session. The Pending rule, poised to become effective upon the 2021 Legislature’s adjournment sine die, eliminates the need for a separate permit for turkey controlled hunts, and simplifies requirements to the use of a single controlled hunt turkey tag. However, the current earliest date anticipated for sine die precedes the date that spring turkey controlled hunt items are scheduled to be available for sale. This temporary rule allows the department to close the gap in sale of controlled hunt permits versus controlled hunt tags, and will simplify compliance with tagging rules when the turkey seasons open for youth controlled hunts on April 8 and for other controlled hunts on April 15, 2021.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a) and (c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

The Governor has found that temporary adoption of the rule is appropriate for the protection of the public health, safety or welfare or for otherwise conferring a benefit to resident Idaho hunters.

FEE SUMMARY: Not applicable. This temporary rule does not impose new fees or charges.

ASSISTANCE ON TECHNICAL QUESTIONS: For assistance on technical questions about the temporary rule, contact Toby Boudreau at (208) 334-2920.

102. WILD TURKEY TAGS, STAMPS, PERMITS, AND VALIDATIONS.
No person may hunt wild turkey without having in possession the appropriate hunting license, and tag and controlled hunt permit. (3-20-20) (3-11-21)

01. Tags. There are three (3) types of turkey tags available: the general or controlled hunt tags, extra tag, and special unit tag. A hunter may purchase one (1) general tag, two (2) extra tags, and three (3) special unit tags. The general tag and one (1) extra tag may be used during the spring general season; however, if one (1) or both go unused, the unused tag(s) may be used during the general fall season. A second extra tag may also be used during the general fall season. A general tag or an extra tag may be used with a controlled hunt permit in the spring and fall seasons. Special unit tags may be used in designated units during any season set by the Commission or in a depredation hunt when authorized by the Director. (3-20-20) (3-11-21)

02. Youth General Hunts and Youth Passport Holder Hunt Eligibility. Youth-only general hunts are limited to participation by hunters who are ten (10) to seventeen (17) years of age with a valid license. (3-20-20)

a. Youth-only general hunts are limited to participation by hunters who are ten (10) to seventeen (17) years of age with a valid license. (3-20-20)

b. Hunting passport holders eight (8) to seventeen (17) years of age are eligible to participate in general season hunts, youth-only general hunts, landowner permission controlled hunts with the appropriate landowner permission tag, and depredation hunts. (3-20-20) (3-11-21)

03. Controlled Hunts. A controlled hunt permit tag for wild turkey is valid only for the take of turkey in the controlled hunt area for which the permit tag was drawn, issued, and in general hunts. (3-20-20) (3-11-21)

a. Eligibility: The holders of hunting licenses valid for game birds are eligible to apply for spring and fall controlled hunts subject to the following restrictions: (3-20-20)

i. In the event a permit tag is issued based on erroneous information, the permit tag will be invalidated and the person will remain on the drawn list. (3-20-20) (3-11-21)

ii. Landowner permission controlled hunt application eligibility is limited to persons who have a signed permission slip, which includes the landowner’s name and address, from a landowner who owns more than seventy-nine (79) acres in the hunt area. (3-20-20) (3-11-21)

iii. Youth-only controlled hunt application eligibility is limited to persons nine (9) to seventeen (17) years of age, provided they will be ten (10) to seventeen (17) years of age during the hunt for which they apply. A nine (9) year old cannot participate in the hunt until turning age ten (10). A person who turns eighteen (18) years of age during the hunt may continue to participate through the end of the youth-only controlled hunt. A person sixty-five (65) years of age or older with a senior or disabled combination or hunting license may apply on a first-come, first-served basis for leftover youth-only controlled hunt permits. (3-20-20) (3-11-21)

b. Applications: Applications for spring and fall controlled hunts may be submitted electronically through the automated licensing system at any vendor location, including Department offices, through the Internet, or via telephone, not later than March 1 for spring hunts and June 5 for fall hunts, annually. (3-20-20)

i. Duplicate license numbers will not be accepted. Applications from Holders of a Duplicate License (Type 501) will be processed only if they include original license numbers. (3-20-20)

ii. Only one (1) application per person or group will be accepted. Additional applications will result in
all applicants being declared ineligible.  

iii. A single payment (either cashier's check, money order, certified check, or personal check) may be submitted to cover fees for all applications. If a check or money order is insufficient to cover the fees, all applications will be voided and returned. 

iv. A “group application” is defined as two (2) hunters applying for the same controlled hunt on the same application. 

t. Hunting license and tag fees will NOT be refunded to unsuccessful applicants. 

c. Drawing information: Single or group applications which are not drawn for the first choice hunt will automatically be entered into a second choice drawing provided the second choice hunt applied for has not been filled. 

04. Tag Validation. 

a. Tag and permit validation and attachment: Immediately after any wild turkey is killed, the turkey tag and permit, if a controlled hunt, must be validated and securely attached to the wild turkey. Tag and permit validation means cutting out and completely removing two (2) triangles on the border of each tag and permit, one (1) for the month and one (1) for the day of the kill. 

b. The tag and permit must remain attached so long as the turkey is in transit or storage. 

05. Tag Designation. 

a. Any resident adult person who possesses a controlled hunt permit tag may designate the controlled hunt permit tag to his or her resident minor child or grandchild who is qualified to participate in the hunt. 

b. Any nonresident adult person who possesses a controlled hunt permit tag may designate the controlled hunt permit tag to his or her nonresident minor child or grandchild who is qualified to participate in the hunt. 

c. The designation of the controlled hunt permit tag is not effective unless it is: 

i. Made on a form prescribed by the Department and submitted either in person to any Department Office or by mail to the License Supervisor at P.O. Box 25, Boise, ID 83707. 

d. Any child cannot be designated more than one (1) controlled hunt permit tag per calendar year. 

06. Landowner Permission Tags. Landowner permission hunt tags will be sold on a first-come, first-served basis at Department offices after March 20 for spring hunts and after July 10 for fall hunts.

The Forest Practices Advisory Committee (FPAC) voted to recommend language to the State Board of Land Commissioners which will provide for a simplified “Shade Rule” (030.07.e.ii (2014)) next to fish-bearing (Class I) streams and refine the definition of Class I streams (010.60.a) to apply only to aquatic life beneficial use. This simplification will promote rule understanding and make compliance easier and less costly. The objective is to retain management options for landowners while still affording appropriate protections to stream shade and large organic debris recruitment.

FPAC also identified a need to update rules specific to the use of ground-based equipment on steep slopes. The technology used in the industry has changed; machinery is now being used on steep slopes while tethered to an anchor with a specialized winch to improve traction. This traction assistance allows the machine to operate safely on steep slopes while minimizing soil disturbance. Reduced incidence of injuries and improvements in harvest efficiency have resulted from their use. Existing rule language does not allow for universal use of this new family of machines; modified rule language is needed to accommodate changing technology.

Given the opportunity to open rule promulgation to achieve the above objectives and in accordance with the Governor’s Executive Order 2020-01: Zero-Based Regulation, FPAC has also recommended removing some unnecessary rule language and amending other rules to reduce verbiage and improve readability. Collectively, these suggested changes will reduce the rule set length, simplify the language, promote rule understanding, and provide economic benefit while maintaining or enhancing water-quality protection.

DESCRIPTIVE SUMMARY AND STATEMENT OF PURPOSE: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved:

Following Executive Order 2020-01: Zero-Based Regulation, this rule chapter is scheduled to be repealed and replaced in 2021 for review during the 2022 legislative session. The Department anticipates reducing the overall regulatory burden by reducing both total word count and the number of restrictive words in the new rule chapter. Preliminary research supports a fee increase to cover the actual costs of processing applications.

DESCRIPTIVE SUMMARY AND STATEMENT OF PURPOSE: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved:

The purpose of the intended negotiated rulemaking is to invite public comment regarding the following:

Negotiated rulemaking would seek to amend the building codes adopted in IDAPA 24.39.30.004. Pursuant to House Bill 143, amendments would include adoption of the provisions of the 2021 International Building Code related to mass timber construction, including permitting mass timber construction types IV-A, IV-B, and IV-C and their corresponding maximum heights and fire safety features, which will allow Idaho builders to use mass timber in commercial and residential construction.

This rulemaking is consistent with Executive Order 2020-01: Zero-Based Regulation, which directs agencies to review all administrative rules over the five-year period of 2021-2025 (completing review no later than sine die 2026).

This rulemaking will review the “Rules of Procedure of the Idaho Department of Water Resources,” IDAPA 37.01.01, consistent with Executive Order 2020-01. This chapter governs contested case proceedings before the Idaho Department of Water Resources and the Idaho Water Resource Board. The Agencies have reviewed these rules pursuant to the zero-based regulation process and is considering the re-promulgation of this chapter with some substantive and procedural modifications to the existing chapter.

The Agencies have identified the following areas as potential changes from the existing chapter:

- Simplify, condense, and modernize rule language;
- Improve implementation of procedural requirements specific to the Agencies;
- Add specific filing requirements and improvements best suited to the Agencies; and
- Consider whether certain portions of the Idaho Rules of Administrative Procedure of the Attorney General (IDAPA 04.11.01) should be incorporated into the chapter.

**DESCRIPTIVE SUMMARY:** The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved:
This rulemaking will review the Agencies’ Stream Channel Alteration Rules, IDAPA 37.03.07, specifically Rule 61.01 and .03, consistent with Executive Order 2020-01. These subsections define minimum standards to permit suction dredge mining activities on rivers and streams in Idaho. Suction dredge operations meeting these minimum standards are not subject to more stringent permit requirements described by Idaho law. The Agencies have reviewed these subsections pursuant to the zero-based regulation process and are considering the re-promulgation of this chapter with some substantive and procedural modifications.

The Agencies have identified the following areas as potential changes from the existing Rule 61 subsections:

- Remove the subsection rules contingent on whether any non-regulatory measures can be implemented in lieu of the rules;
- Modify the subsection rules to accommodate suction dredge mining practices or standards that are new or different from the current rule standards;
- Simplify, condense, and modernize rule language; or
- Consider whether certain portions of the Idaho Department of Lands’ Rules for Riverbed Mineral Leasing in Idaho (IDAPA 20.03.05) should be incorporated into Rule 61.
