07. Liability. The school district is responsible for ensuring that no public school property, public funds or other public resources are used in any way to operate these programs. The school district is not liable for any injury, act or event occurring while the student participates in such programs.

007. DEFINITIONS A - G.

01. Achievement Standards. Define “below basic,” “basic,” “proficient,” and “advanced”
achievement levels on the Idaho Standards Achievement Tests (ISAT) and level one (1) through level six (6) on Idaho’s English language assessment by setting scale score cut points. These cut scores are paired with descriptions of how well students are mastering the material in the content standards. These descriptions are called performance level descriptors or PLDs, and are provided by performance level, by content area, and by grade.

02. **Advanced Opportunities.** Placement courses, Dual Credit courses, Technical Competency Credit, or International Baccalaureate programs.

03. **Advanced Placement® (AP) - College Board.** The Advanced Placement Program is administered by the College Board at [http://www.collegeboard.com](http://www.collegeboard.com). AP students may take one (1) or more college level courses in a variety of subjects. AP courses are not tied to a specific college curriculum, but rather follow national College Board curricula. While taking the AP exam is optional, students can earn college credit by scoring well on the national exams. It is up to the discretion of the receiving college to accept the scores from the AP exams to award college credit or advanced standing.

04. **All Students.** All public school students, grades K-12.

05. **Assessment.** The process of quantifying, describing, or gathering information about skills, knowledge or performance.

06. **Assessment Standards.** Statements setting forth guidelines for evaluating student work, as in the “Standards for the Assessment of Reading and Writing.”

07. **Career Technical Education.** Formal preparation for semi-skilled, skilled, technical, or paraprofessional occupations, usually below the baccalaureate level.

08. **College and Career Readiness.** College and career readiness is the attainment and demonstration of state board adopted competencies that broadly prepare high school graduates for a successful transition into some form of postsecondary education and/or the workplace.

09. **Content Standards.** Describe the knowledge, concepts, and skills that students are expected to acquire at each grade level in each content area.

10. **Criteria.** Guidelines, rules or principles by which student responses, products, or performances, are judged. What is valued and expected in the student performance, when written down and used in assessment, become rubrics or scoring guides.

11. **Diploma.** A document awarded to a student by a secondary school to show the student has successfully completed the state and local education agency graduation requirements. Diplomas may be awarded to individuals who attended a secondary school prior to the year in which the student is requesting issuance of a diploma based on the graduation requirements in existence at the time the student attended. Determination of meeting past graduation requirements may be determined based on proficiency as determined by the local education agency. Each local education agency may determine the format of the diploma, including the recognition of emphasis areas based on a student’s completion of courses or courses or studies in an emphasis area or educational pathways, including but not limited to science, technology, engineering and math (STEM), career technical education, or arts and music.

12. **Dual Credit.** Dual credit allows high school students to simultaneously earn credit toward a high school diploma and a postsecondary degree or certificate. Postsecondary institutions work closely with high schools to deliver college courses that are identical to those offered on the college campus. Credits earned in a dual credit class become part of the student’s permanent college record. Students may enroll in dual credit programs taught at the high school or on the college campus.

08. **DEFINITIONS H - S.**

01. **Idaho Standards Achievement Tests.** Statewide assessments aligned to the state content standards and used to measure a student’s knowledge of the applicable content standards.

Although there is no standard format for a portfolio, it typically includes many forms of information that exhibit the student’s knowledge, skills, and interests. Teachers, mentors, and employers can use portfolios for assessment purposes and to record educational outcomes. (7-1-21)

Parties may choose to hold additional IEP team meetings which may be facilitated by the State Department of Education (SDE) or request voluntary mediation through the SDE. If these methods fail or are refused, the proposed IEP shall be implemented after fifteen (15) calendar days unless a due process hearing is filed by the parents or adult student, during which time the student shall remain in the current educational placement during the pendency of any administrative or judicial proceeding, unless the district/adult student agree otherwise. The education agency shall immediately notify the Department’s Director of Special Education of any request for a due process hearing. Within ten (10) calendar days of a written request for a regular hearing, or within five (5) business days of a written request for an expedited hearing, an impartial hearing officer shall be assigned by the Department. The Department shall maintain a list of trained hearing officers and their qualifications. (7-1-21)

The hearing officer shall issue a written decision that includes findings of fact and conclusions of law within forty-five (45) calendar days of the date a regular hearing is requested, unless a specific extension of this time line is requested by one (1) of the parties and granted by the hearing officer. The hearing officer shall issue a written decision that includes findings of fact and conclusions of law within twenty (20) calendar days of a written request for an expedited hearing, unless a specific extension of this time line has been granted. An extension of the time line for an expedited hearing shall not exceed an additional twenty-five (25) calendar days, and may be granted only if requested by one (1) of the parties and agreed to by both parties. The decision shall be sent to the parent or adult student, the education agency administrator, their respective representatives, and the State Department of Education. (7-1-21)

g. The hearing officer’s decision shall be binding unless either party appeals the decision by initiating a civil action. The hearing officer’s decision shall be implemented not later than fourteen (14) calendar days from the date of issuance unless an appeal is filed by a parent or adult student or the decision specifies a different implementation date. An appeal to civil court must be filed within forty-two (42) calendar days from the date of issuance of the hearing officer’s decision. (7-1-21)

Whenever an IEE is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, shall be the same as the criteria the education agency uses when it initiates an evaluation, to the extent those criteria are consistent with the parent or adult student’s right to an IEE. If an education agency has cost as one (1) of the criteria the education agency uses when it initiates an evaluation, the education agency may apply that criteria to independent educational evaluations. However, the parent or adult student has the right to demonstrate that unique circumstances justify an IEE that falls outside the education agency’s cost criteria, and if so demonstrated, that IEE shall be publicly funded. A due process hearing may be initiated by the education agency to determine if the evaluation conducted by the education agency is appropriate. If the final decision of a hearing officer, or civil court, if the hearing officer’s decision is appealed, is that the evaluation conducted by the education agency is appropriate, the parent or adult student still has the right to an independent educational evaluation, but not at the education agency’s expense. (7-1-21)

If a student is not granted a regular high school diploma or if a regular high school diploma is granted for completing requirements that are not comparable to regular graduation requirements, a student who is eligible for special education is entitled to receive a free appropriate public education through the semester in which the student turns twenty-one (21) years of age or until the student completes requirements that are comparable to regular graduation requirements, whichever comes first. (7-1-21)

c. Annual Measurable Progress.

i. ISAT Proficiency is defined as the number of students scoring proficient or advanced on the spring on-grade level ISAT.

ii. The State Department of Education will make determinations for schools and districts each year. Results will be given to the districts at least one (1) month prior to the first day of school.

iii. The State Board of Education will set long-term goals and measurements of interim progress targets toward those goals. The baseline for determining measurable student progress will be set by the State Board of Education and shall identify the amount of growth (percentage of students reaching proficiency) required for each intermediate period.
d. Full Academic Year (continuous enrollment).

i. A student who is enrolled continuously in the same public school from the end of the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included in the calculation to determine if the school achieved progress in any statewide assessment used for determining proficiency. A student is continuously enrolled if the student has not transferred or dropped-out of the public school. Students who are serving suspensions are still considered to be enrolled students.

ii. A student who is enrolled continuously in the school district from the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included when determining if the school district has achieved AYP.

e. Participation Rate.

i. Failure to include ninety-five percent (95%) of all students and ninety-five percent (95%) of students in designated subgroups automatically identifies the school as not having achieved measurable progress in ISAT proficiency. The ninety-five percent (95%) determination is made by dividing the number of students assessed on the Spring ISAT by the number of students reported on the class roster file for the Spring ISAT.

(1) If a school district does not meet the ninety-five percent (95%) participation target for the current year, the participation rate can be calculated by the most current three (3) year average of participation.

(2) Students who are absent for the entire state-approved testing window because of medical reasons or are homebound are exempt from taking the ISAT if such circumstances prohibit them from participating. Students who drop out, withdraw, or are expelled prior to the beginning of the final makeup portion of the test window are considered exited from the school.

ii. For groups of ten (10) or more students, absences for the state assessment may not exceed five percent (5%) of the current enrollment or two (2) students, whichever is greater. Groups of less than ten (10) students will not have a participation determination.

i. An elementary school includes a grade configuration of grades Kindergarten (K) through six (6) inclusive, or any combination thereof.

ii. A middle school is a school that does not meet the definition of an elementary school and contains grade eight (8) but does not contain grade twelve (12).

iii. A high school is any school that contains grade twelve (12).

iv. An alternative high school is any school that contains grade twelve (12) and meets the requirements of Section 110 of these rules.

v. The accountability of public schools without grades assessed by this system (i.e., K-2 schools) will be based on the third grade test scores of the students who previously attended that feeder school.

vi. A “new school” for purposes of accountability is a wholly new entity receiving annual measurable
progress determinations for the first time, or a school with a significant student population change as a result of schools being combined or geographic boundaries changing, or a result of successful school restructuring sanctioned by the Office of the State Board of Education.

(7-1-21)T

h. Graduation Rate. The graduation rate will be based on the rate of the cohort of students entering grade nine (9) during the same academic year and attending or exiting the school within a four (4) year or five (5) year period as applicable to the measure being determined. In determining the graduation cohort the school year shall include the students who complete graduation requirements prior to the start of the school district or charter schools next fall term. School districts may only report students as having graduated if the student has met, at a minimum, the state graduation requirements, pursuant to Section 105, and will not be returning to the school in following years to complete required academic course work. The State Board of Education will establish a target for graduation. All high schools must meet the target or make sufficient progress toward the target each year, as determined by the State Board of Education. The graduation rate will be disaggregated by the subgroups listed in Subsection 112.05.g.

(7-1-21)T

i. Additional Academic Indicator. The State Board of Education will establish a target for all additional academic and school quality measures. 01. Model Admission Procedures. All public charter schools must have an admission procedure approved by their authorized chartering entity, which complies with Section 33-5206(11), Idaho Code, and Section 203 of this rule. In order to ensure that public charter schools utilize a fair and equitable selection process for initial admission to and enrollment in a public charter school, as well as admission to and enrollment in a public charter school during subsequent school years, the Board has approved model admission procedures that may be utilized and adopted by petitioners. The approved model admission procedures are described in Subsections 203.03 through 203.12 of these rules. Petitioners are not required to adopt the Board’s model admission procedures, but must demonstrate a reason for varying from the Board’s approved procedures.

02. Enrollment Opportunities. Charter holders shall ensure that citizens in the primary attendance area shall be made aware of the enrollment opportunities of the public charter school. Such process shall include the dissemination of enrollment information, taking into consideration the language demographics of the attendance area, at least three (3) months in advance of the enrollment deadline established by the public charter school each year, to be posted in highly visible and prominent locations within the area of attendance of the public charter school. In addition, petitioners shall ensure that such process includes the dissemination of press release or public service announcements, to media outlets that broadcast within, or disseminate printed publications within, the area of attendance of the public charter school; petitioners must ensure that such announcements are broadcast or published by such media outlets on not less than three (3) occasions, beginning not later than fourteen (14) days prior to the enrollment deadline each year. Finally, such enrollment information shall advise that all prospective students will be given the opportunity to enroll in the public charter school, regardless of race, color, national or ethnic origin, religion, gender, social or economic status, or special needs.

03. Enrollment Deadline. Each year a public charter school shall establish an enrollment admissions deadline, which shall be the date by which all written requests for admission to attend the public charter school for the next school year must be received. The enrollment deadline cannot be changed once the enrollment information is disseminated as required by Subsection 203.02.

04. Requests for Admission. A parent, guardian, or other person with legal authority to make decisions regarding school attendance on behalf of a child in this state, may make a request in writing for such child to attend a public charter school. In the case of a family with more than one (1) child seeking to attend a public charter school, a single written request for admission must be submitted on behalf of all siblings. The written request for admission must be submitted to, and received by, the public charter school at which admission is sought on or before the enrollment deadline established by the public charter school. The written request for admission shall contain the name, grade level, address, and telephone number of each prospective student in a family. If the initial capacity of the public charter school is insufficient to enroll all prospective students, then an equitable selection process, such as a lottery or other random method, shall be utilized to determine which prospective students will be admitted to the public charter school, as described in Subsection 203.09 of this rule. Only those written requests for admission submitted on behalf of prospective students that are received prior to the enrollment deadline established by the public charter school shall be considered in the equitable selection process. Only written requests for admission shall be considered by the public charter school. Written requests for admission received after the established enrollment deadline will be added to the bottom of the waiting list for the appropriate grade. If there is an opening in one grade, a sibling, if any, from a late submitted application must go to the bottom of the sibling list.
05. Admission Preferences. A public charter school shall establish an admission preference for students residing in the attendance area of the public charter school, as provided in Section 33-5206, Idaho Code. In addition, a public charter school may establish additional admission preferences, as authorized by Section 33-5206(11), Idaho Code.

06. Proposed Attendance List for Lottery. Each year the public charter school shall create an attendance list containing the names of all prospective students on whose behalf a written request for admission was timely received by the public charter school, separated by grade level. In addition, the proposed attendance list shall contain columns next to the name of each student, in which the public charter school will designate admission preferences applicable to each prospective student. The columns shall be designated “A” for returning student preference; “B” for founders preference; “C” for sibling preference, with a corresponding cross-reference to each of the siblings of the prospective student; and “D” for attendance area preference.

07. Equitable Selection Process. If the initial capacity of a public charter school is insufficient to enroll all prospective students, or if capacity is insufficient to enroll all prospective students in subsequent school years, then the public charter school shall determine the students who will be offered admission to the public charter school by conducting a fair and equitable selection process. The selection procedure shall be conducted as follows:

a. The name of each prospective student on the proposed attendance list shall be individually affixed to or written on a three by five (3 x 5) inch index card. The index cards shall be separated by grade. The selection procedure shall be conducted one (1) grade level at a time, with the order for each grade level selected randomly. The index cards containing the names of the prospective students for the grade level being selected shall be placed into a single container.

b. A neutral, third party shall draw the grade level to be completed first and then draw each index card from the container for that grade level, and such person shall write the selection number on each index card as drawn, beginning with the numeral “1” and continuing sequentially thereafter. In addition, after selecting each index card, the name of the person selected will be compared to the proposed attendance list to determine whether any preferences are applicable to such person.

c. If the name of the person selected is a returning student, then the letter “A” shall be written on such index card. If the name of the person selected is the child of a founder, the letter “B” shall be written on such index card. If the name of the person selected is the sibling of another student that has already been selected for admission to the public charter school, then the letter “C” shall be written on such index card. If the name of the person selected resides in the attendance area of the public charter school, then the letter “D” shall be written on such index card.

d. With regard to the sibling preference, if the name of the person selected has a sibling who has already been selected, but the person previously selected did not have the letter “C” written on his or her index card (because a sibling had not been selected for admission prior to the selection of the index card of that person), then the letter “C” shall now be written on that person’s index card at this time.

e. With regard to the founder’s preference, a running tally shall be kept during the course of the selection procedure of the number of index cards, in the aggregate, that have been marked with the letter “B.” When the number of index cards marked with the letter “B” equals ten percent (10%) of the proposed capacity of the public charter school for the school year at issue, then no additional index cards shall be marked with the letter “B,” even if such person selected would otherwise be eligible for the founders preference.

f. After all index cards have been selected for each grade, then the index cards shall be sorted for each grade level in accordance with the following procedure. All index cards with the letter “A” shall be sorted first, based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “B,” based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “C,” based on the chronological order of the selection number written on each index card; followed by all index cards with the letter “D,” based on the chronological order of the selection number written on each index card; followed, finally, by all index cards containing no letters, based on the chronological order of the selection number written on each index card.
g. After the index cards have been drawn and sorted for all grade levels, the names shall be transferred by grade level, and in such order as preferences apply, to the final selection list. (7-1-21)

08. Final Selection List. The names of the persons in highest order on the final selection list shall have the highest priority for admission to the public charter school in that grade, and shall be offered admission to the public charter school in such grade until all seats for that grade are filled. (7-1-21)

09. Notification and Acceptance Process. (7-1-21)

a. With respect to students selected for admission to the public charter school, within seven (7) days after conducting the selection process, the public charter school shall send an offer letter to the parent, guardian, or other person who submitted a written request for admission on behalf of a student, advising such person that the student has been selected for admission to the public charter school. The offer letter must be signed by such student’s parent, or guardian, and returned to the public charter school by the date designated in such offer letter by the public charter school. (7-1-21)

b. With respect to a prospective student not eligible for admission to the public charter school, within seven (7) days after conducting the selection process, the public charter school shall send a letter to the parent, guardian, or other person who submitted a request for admission on behalf of such student, advising such person that the prospective student is not eligible for admission, but will be placed on a waiting list and may be eligible for admission at a later date if a seat becomes available. (7-1-21)

c. If a parent, guardian, or other person receives an offer letter on behalf of a student and declines admission, or fails to timely sign and return such offer by the date designated in such offer letter by the public charter school, then the name of such student will be stricken from the final selection list, and the seat that opens in that grade will be made available to the next eligible student on the final selection list. (7-1-21)

d. If a student withdraws from the public charter school during the school year for any reason, then the seat that opens in that grade will be made available to the next eligible student on the final selection list. (7-1-21)

10. Subsequent School Years. The final selection list for a given school year shall not roll over to the next subsequent school year. If the capacity of the public charter school is insufficient to enroll all prospective students during the next subsequent school year, then a new equitable selection process shall be conducted by the public charter school for such school year. (7-1-21)

The written decision shall include all of the reasons for the denial, and shall also include a reasoned statement that states or explains the criteria and standards considered relevant by the authorized chartering entity, the relevant contested facts relied upon, and the rationale for the decision based on the applicable statutory provisions and factual information presented to the authorized chartering entity. (7-1-21)

b. Petitions submitted to a local board of trustees of a school district or the public charter school commission may be appealed. DOCKET NO. 08-0000-2100F (FEE RULE)

NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE \ RESCISSION OF PREVIOUS TEMPORARY RULE

EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rules under docket 08-0000-2000F is effective July 1, 2021.

AUTHORITY: In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules and rescinded previous temporary rules. The action is authorized pursuant to Sections 33-118, 33-130, 33-1205, 33-2402 and 33-2403, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting temporary rules and rescinding previous temporary rules:

This temporary rulemaking adopts and republishes the following sections in existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 08, rules of the State Board of Education:

IDAPA 08

- **08.01.11**, Registration of Postsecondary Educational Institutions and Proprietary Schools:
  - Subsection 200.07, only, Registration Fee, Postsecondary Educational Institutions;
  - Subsection 300.06, only, Registration Fee, Proprietary Schools;
- **08.02.02**, Rules Governing Uniformity:
  - Section 066, only, Fees, Educator Certification;
  - Subsection 075.03, only, Fingerprinting and Background Investigation Checks;
- **08.02.03**, Rules Governing Thoroughness:
  - Section 128, only, Curricular Materials Selection and Online Course Approval.

Rescission of previous temporary rule aligns these chapters wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The fees in this rule are authorized by statute and necessary to fund the statutory provisions tied to them.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Title 33, Idaho Code, are part of either the Office of the State Board of Education and Department of Education’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The following is a specific description of the fees or charges:

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting the temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 09, rules of the Idaho Department of Labor:

IDAPA 09
• 09.01.01, Rules of Administrative Procedure of the Department of Labor;
• 09.01.08, Rules on Disclosure of Employment Security Information;

• 09.05.03, Rules for Determining Bargaining Representatives.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a), (b), and (c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. 016. REASONS FOR EXEMPTION FROM ATTORNEY GENERAL’S ADMINISTRATIVE PROCEDURE RULES.

01. Unemployment Insurance Benefits and Tax Contribution Proceedings. The thirty (30) day period for a response begins the date the notice is mailed to the wage claimant’s last known address. Mailed responses are deemed received the date they are postmarked. 027. WAGE CLAIM AND EMPLOYMENT SECURITY LAW DETERMINATIONS.

01. Determinations and Time for Filing Appeals. The date of mailing or service indicated on the determination shall be deemed the date of service of the determination. A determination is final unless, within fourteen (14) days after notice, as
provided in Sections 45-617(5) and 72-1368(5), Idaho Code, an appeal is filed by an interested party with the Department in accordance with these rules. If an appeal from a wage claim determination is not timely filed, the amount awarded by a final determination will be immediately due and payable to the Department. (7-1-21)

(7-1-21)

02. Filing of Notices of Appeal. To appeal a determination or other decision of the Department, interested parties must follow these rules and the instructions on the determination or other decision being appealed. If an appeal is delivered personally, the personal delivery date will be noted on the appeal and deemed the date of filing. A faxed or electronically transmitted appeal will be deemed filed on the date received by the Department (mountain time) or, if received on a weekend or holiday, the next business day. If mailed, the appeal will be deemed filed on the date of mailing as determined by the postmark on the envelope containing the appeal, unless a party establishes by a preponderance of the evidence that but for error by the U.S. Postal Service, the envelope would have been postmarked within the period for timely appeal. If such a postal error is established, the appeal will be deemed to be timely filed. Ref. Section 72-1368(6), and Section 45-617, Idaho Code. (7-1-21)

036. DATE OF SERVICE OF DETERMINATIONS. The date indicated on determinations and decisions as the “Date of Service” or “Date of Mailing” will be presumed to be the date the document was deposited in the United States mail, or the date the document was electronically transmitted to an electronic-mail address approved by the Department pursuant to Section 72-1368(5), Idaho Code, unless shown otherwise by a preponderance of competent evidence. (7-1-21)

02. Decisions of the Appeals Examiner. a. For an application for rehearing that must be filed within ten (10) days of notice of service of a decision, the period for filing a timely application for rehearing extends to ten (10) days from the date of actual
For an appeal to the Industrial Commission that must be filed within fourteen (14) days of notice of service of a decision, the period for filing a timely appeal extends fourteen (14) days from the date of actual notice. Ref. Section 72-1368 (5) and (6) and Section 45-617(7), Idaho Code.

038. DISMISSAL IF FILING IS LATE.
Where it appears any appeal (request for hearing) to the appeals examiner, or claim, or any other request or application, was not filed within the time period prescribed for filing, it will be dismissed on such grounds; provided, however, before or after such dismissal, the adversely affected interested party will be notified and given an opportunity to show that such appeal, claim for review, petition, or other request was timely. If it is found that such appeal, claim for review, petition, or other request or application was timely, the matter will be decided on the merits. Upon request for appeal, a hearing before an appeals examiner will be set. Written notice of the time and place of the hearing will be mailed or electronically transmitted to each interested party not less than seven (7) days prior to the hearing date.

01. Telephone Hearings. Hearings will be held by telephone unless, at the sole discretion of the appeals examiner, a personal hearing should be set. In deciding the manner in which to conduct the hearing, the appeals examiner will consider factors, including but not limited to the desires of the parties, possible delay and expense, the burden of proof, the complexity of the issues, and the number and location of witnesses.

02. Continuance. The appeals examiner may postpone or continue a hearing for good cause on the examiner's own motion or that of any party, before a hearing is concluded. The appeals examiner may dismiss an appeal for good cause, such as abandonment of the appeal.

03. Rehearing. An application for rehearing will be in writing and filed in person or postmarked within ten (10) days after the appeals examiner's decision is served.

04. No Appearance Hearings. If no party appears to present additional evidence, a decision may be based on the existing record. For this purpose, the existing record will consist of documents maintained by the Department in the ordinary course of adjudicating the issues in the case, copies of which are provided to the parties with the notice of hearing.

05. Exhibits and Recordings. Hearing exhibits and recordings may be destroyed, reused, or otherwise disposed of after the expiration of the time period for appeal from the decisions of the appeals examiner.

06. Subpoenas. After determining a subpoena of a witness or records is necessary and reasonable, the appeals examiner will issue the subpoena, which may be served by mail or in person.

07. Failure to Respond to Subpoena. If a person fails to respond to a subpoena issued by mail, the appeals examiner will proceed with the scheduled hearing and determine, after hearing available testimony, whether the subpoena is still necessary and reasonable. If so, the hearing will be continued and a second subpoena will be issued and personally served.

08. Witness Fees. Individuals who attend hearings before the appeals examiner as subpoenaed witnesses, not parties, are entitled to receive a fee of seven dollars and fifty cents ($7.50) for each day or portion thereof for attendance. In no case will a witness be paid more than seven dollars and fifty cents ($7.50) for any one (1) day. Subpoenaed witnesses are entitled to mileage expense at the current allowable mileage reimbursement rate as determined by the Idaho State Board of Examiners. For appeals under the Employment Security Law, such witness fees and mileage expenses will be paid from the Employment Security Administration fund. Under no circumstances
will interested parties to a hearing be granted witness fees or mileage expenses. Mileage fees are not allowed for vicinity travel.

09. Undecided Issues. When it is apparent that there is no prior ruling on an issue that must be decided under the Act, the appeals examiner may hear and decide the issue.

10. Type of Hearing. The proceeding before an appeals examiner will be a hearing “de novo” or original hearing and not solely a review proceeding. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

11. Role of Appeals Examiner. The appeals examiner will function as a fact finder and not solely as a judge. The appeals examiner will have the responsibility of developing all the evidence that is reasonably available. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

12. Order of Witnesses. The appeals examiner, in the exercise of reasonable discretion, will direct the order of witnesses and develop evidence in a logical and orderly manner to move the hearing along as expeditiously as possible. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

13. Evidence. The appeals examiner may exclude evidence that is irrelevant, unduly repetitious, or excludable on constitutional or statutory grounds, or on the basis of any evidentiary privilege provided by statute or recognized in the courts of this state. All other evidence may be admitted if it is of a type commonly relied upon by prudent persons in the conduct of their affairs. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

14. Disruptive Individuals. The appeals examiner may exclude disruptive individuals from the hearing or may postpone the hearing if the integrity of the proceedings is being compromised. If an interested party is excluded, they will be provided a copy of the recording of the proceedings and given an opportunity to submit written evidence and argument prior to the issuance of the decision and the opposing party will be given an opportunity to respond. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

15. Challenge of General Knowledge. If judicially cognizable facts or general, technical, or scientific facts within the appeals examiner’s specialized knowledge are used in the decision, the parties will be given an opportunity to challenge them at the time of the hearing, or at the time of the issuance of the decision. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

16. Closing Arguments. Closing arguments will be limited to five (5) minutes for each party unless the appeals examiner grants an exception. Ref. Sec. 72-1368(6) and Sec. 45-617(7), Idaho Code.

046. COMMUNICATION WITH APPEALS STAFF. No party involved in an appeal may communicate, either directly or indirectly, with appeals examiners, the Chief of the Appeals Bureau, or clerical staff of the Appeals Bureau, regarding any issue of fact or law relevant to an appeal, unless all parties involved have been provided notice and an opportunity to participate in such communication. No person acting on behalf of any party, including the Idaho Department of Labor, may attempt to influence the disposition of an appeal through such communications. No appeals examiner may knowingly cause a communication prohibited by this section to be made.

01. Prohibition of Ex Parte Contacts. The prohibition on ex parte contacts contained in this rule applies from the time an appeal is filed pursuant to IDAPA 09.01.01.025 or IDAPA 09.01.01.027 until the appeal becomes final and conclusive pursuant to Sections 72-1368 and 45-617, Idaho Code.

02. Issues of Fact. As used in this rule, the term “issue of fact or law relevant to an appeal” includes any matter relating to the merits of an appeal but does not include questions of appeals procedure or case status inquiries. Parties may not direct questions of appeals procedure or case status inquiries to the appeals examiner assigned to their case but rather to other appeals examiners, the Chief of the Appeals Bureau (unless he or she is functioning as the appeals examiner in the case), or to clerical staff of the Appeals Bureau.

03. Reporting Prohibited Contacts. An appeals examiner or other Appeals Bureau employee who receives a communication prohibited by this rule must place in the record of the case all such written communications or a memorandum stating the substance of all such oral communications. The Appeals Bureau must send a full copy...
of the communication to other interested parties to the appeal and allow an appropriate time for the parties to respond. (7-1-21)

(7-1-21)

This rule does not apply to claimants who establish eligibility under Section 150 of these rules, “Claimants with Disabilities.”(7-1-21)T

03. **Disability Compensation.** A claimant’s receipt of disability compensation does not in itself establish that he is unable to work or unavailable for work, even though the payee has been declared totally disabled. (7-1-21)T

04. **Illness Provision.** A person who claims benefits under the illness provision must remain available for local office job referral; however, he may leave the area for treatment of his illness and continue to be eligible under the illness provision. (7-1-21)T

Ref. Sec. 72-1366(4), (19), Idaho Code.

   b. **Performing Services.** “Lawfully present for purposes of performing services” includes three (3) groups of aliens:

      i. Canadian and Mexican residents who commute daily or seasonally and are authorized to work in the United States;

      ii. Legally-admitted non-immigrants who are granted a status by the U.S. Department of Homeland Security which authorizes them to work in the United States during their stay; and

      iii. Other aliens with U.S. Department of Homeland Security authorization to work in the United States regardless of their status.

   c. **Permanently Residing Under Color of Law.** The category of individuals who are “permanently residing in the United States under color of law” includes the following groups of aliens:

For informal U.S. Department of Homeland Security action to authorize an alien’s residence under "color of law," the U.S. Department of Homeland Security must know of the alien’s presence, and must provide the alien with official, documented assurance that enforcement of deportation is not planned.

126. -- 149. (RESERVED)

   **Availability Requirement.** A qualified claimant with a disability who is able to work with or without a reasonable accommodation will be considered as having complied with the requirement of being available for work provided the claimant is willing to work the maximum number of hours the claimant is able to work.

   **Additional Eligibility Requirements.** Qualified claimants with disabilities must meet all other
eligibility requirements, including the illness provision of Section 100 of these rules. (7-1-21)T

151. -- 174. (RESERVED) (7-1-21)T

175. AVAILABLE FOR WORK. (7-1-21)T

There must remain a reasonable possibility of a claimant finding and obtaining, or being referred and hired for, suitable work. Ref. Sec. 72-1366(4), Idaho Code. (7-1-21)T

01. Availability Requirements. The type of work for which the claimant is available must exist in the claimant’s area to the extent that a normal unemployed person would generally find work within a reasonable period of time. (7-1-21)T

02. Child Care. Child care must be arranged so as not to restrict a claimant’s availability for work or for seeking work. (7-1-21)T

03. Compelling Personal Circumstances. For the purposes of this rule, compelling personal circumstances are defined as: (7-1-21)T

a. A situation in which the claimant required the assistance of emergency response personnel; (7-1-21)T

f. Claimant work availability requirements are waived on Independence Day, Thanksgiving Day, Christmas Day, and New Year’s Day. (7-1-21)T

04. Conscientious Objection. No person may be held to be unavailable for work solely because of religious convictions not permitting work on a certain day. (7-1-21)T

05. Contract Obligation. A person who is bound by a contract that prevents him from accepting other employment is not eligible for benefits. (7-1-21)T

06. Distance to Work. A claimant seeking work must be willing to travel the distance normally traveled by other workers in his area and occupation. (7-1-21)T

07. Domestic Circumstances. A claimant is not eligible for benefits if domestic circumstances take precedence over the claimant’s availability for work or for seeking work. (7-1-21)T

08. Equipment. Claimants will be required to provide necessary tools or equipment in certain occupations. The lack of these tools or equipment will directly affect a claimant’s availability for work, unless he will accept other work. (7-1-21)T
09. **Evidence.** A claimant is responsible for providing proof of his availability for work and for seeking work if his availability is questioned or proof is required by these rules.

10. **Experience or Training.** A claimant is expected to be available for work consistent with his past experience or training, provided there is no change in his ability to perform that work.

11. **Full-Time/Part-Time Work.** To be eligible for benefits, a claimant must be available for a full workweek and a full, normal workday unless the claimant establishes that a majority of the weeks worked in his base period were for less than full-time work or the claimant establishes eligibility under Section 150 of these rules, "Claimants with Disabilities." An individual who restricts his availability to part-time work pursuant to Section 72-1366(4)(c), Idaho Code, will be considered fully employed and ineligible to receive benefits if the individual works hours comparable to his part-time work experience in his base period.

12. **Incarceration/Work Release.** A claimant who is incarcerated for any part of the workweek is not eligible for benefits for that week, unless the claimant can establish he has work release privileges which would provide him a reasonable opportunity to meet his work search requirements and obtain full-time employment.

13. **Jury Duty/Subpoenas.** A claimant serving on jury duty or subpoenaed is excused from the availability and work-seeking requirements of the law for that time period, and may refuse work that would commence during that time period.

14. **Licensing or Government Restrictions.** A claimant prohibited by law from engaging in certain work must be available for other employment to be eligible for benefits.

15. **Moving to Remote Area.** A claimant who moves to a remote locality where there is very little possibility of obtaining work will be ineligible for benefits.

16. **Public Official.** A public official who receives pay and performs “full-time” service is not unemployed or eligible for benefits. Part-time officials, even though receiving pay, may be considered available for work the same as any other individual employed on a part-time basis. Ref. Sec. 72-1312(1).

17. **Public Service.** Performing public service, including voluntary non-remunerated service, does not disqualify an individual for benefits as long as he is meeting the availability and work-seeking requirements.

18. **Restricting Work to Within the Home.** A claimant who restricts his availability to only work done within the home which severely limits the work available to him is ineligible for benefits.

19. **School Attendance or a Training Course.** A person who is attending school or a training course may be eligible for benefits if the attendance does not conflict in any way with that person’s availability for work or for seeking work and if he will discontinue attendance upon receipt of an offer of employment that creates a conflict between employment and the schooling or training.

20. **Temporary Absence from Local Labor Market to Seek Work.** All claimants, regardless of their attachment to an industry or employer, must meet the same standard of remaining within their local labor market area during the workweek in order to be considered available for work, unless the primary purpose of a temporary absence is to seek work in another labor market. Claimants otherwise eligible to receive benefits while participating in an approved training program or course are not deemed ineligible when the training or course occurs outside of their local labor market due to the unavailability of similar programs or courses within their local labor market. To remain eligible for benefits, claimants will remain within the state, territory, or country included in the USDOL Interstate Benefit Payment Plan.

21. **Time.**

   a. **Time Restrictions.** A claimant may not impose restrictions on his time, including either hours of the...
day or days of the week, which will limit his availability to seek or accept suitable work. (7-1-21)

b. Shift Restrictions. A claimant who restricts his availability to a single shift may not be fully available for work if the restriction significantly reduces his chances of becoming employed. (7-1-21)

22. Transportation Difficulties. Lack of transportation is not a bona fide reason for a claimant to fail to be available for or to seek work. Transportation is the responsibility of the claimant. (7-1-21)

23. Unreasonable Restrictions on Working Conditions. A claimant who places unreasonable restrictions on working conditions so as to seriously hinder his availability and search for work is ineligible for benefits. (7-1-21)

24. Vacation. A person on a vacation approved by his employer during time when work is available is not eligible for benefits. (7-1-21)

25. Wages. A claimant is eligible for benefits if the wages or other conditions of available work are substantially less favorable to the claimant than those prevailing for similar work in the local area. Ref. Sec. 72-1366(7)(b), Idaho Code. (7-1-21)

a. Demanding Higher Wages. A claimant is ineligible for benefits if he unduly restricts his availability for work by insisting on a wage rate that is higher than the prevailing wage for similar work in that area. (7-1-21)

b. Prior Earnings. The claimant’s prior earnings and past experience are considered in determining whether he is available for suitable work. (7-1-21)

26. Waiver of Two-Year Training Limitation. For purposes of approving a waiver of the two (2) year limitation on school or training courses, specified by Idaho Code Section 72-1366(8)(c)(ii), for claimants who lack skills to compete in the labor market, the following criteria must be met: (7-1-21)

a. Financial Plan. The claimant must demonstrate a workable financial plan for completing the school or training course after his benefits have been exhausted. (7-1-21)

b. Demand for Occupation. The claimant must establish there is a demand for the occupation in which the claimant will be trained. A “demand occupation” is one in which work opportunities are available and there is not a surplus of qualified applicants. (7-1-21)

c. Duration of Training. At the time that the claimant applies for the waiver, the duration of the school or training course is no longer than two (2) years to completion. (7-1-21)

d. Denial. No claimant will be denied a waiver of the two (2) year limitation on school or training because the claimant is already enrolled or participating in the school or training at the time he requests the waiver. (7-1-21)

176. -- 199. (RESERVED)

200. CANCELING CLAIMS. Upon the written request of a claimant, a claim may be canceled at any time, provided that the claimant did not misrepresent or fail to report a material fact in making the claim and the claimant has repaid any benefits received on the claim, unless the benefits received will be offset from a new claim the claimant is filing. Ref. Sec. 72-1327A, Idaho Code. (7-1-21)

201. -- 224. (RESERVED)

225. DECEASED CLAIMANTS. Upon the death of a benefit claimant who has completed a compensable period prior to his death, distribution of benefits due him will be made to the surviving spouse or, if none, to the dependent child or children. If there is no surviving spouse nor dependent child or children, the benefits become the property of the claimant’s estate. (7-1-21)
226. -- 249. (RESERVED)

250. DETERMINATIONS/APPELLATE PROCESSES.

01. Rebuttal Procedure. Whenever any information is provided in response to a claim, and the information contradicts a statement made previously, all interested parties will be given an opportunity for rebuttal. Ref. Sec. 72-1368(3), Idaho Code. (7-1-21)

02. Reestablishing Eligibility After a Determination of Ineligibility. Evidence of requalifying wages includes, but is not limited to, the name of the employer, the mailing address, the dates of employment, the type of employment performed, and the claimant’s gross earnings. Ref. Sec 72-1366(14), Idaho Code. (7-1-21)

251. -- 274. (RESERVED)

275. DISCHARGE.

01. Burden of Proof. The burden of proving that a claimant was discharged for employment-related misconduct rests with the employer. (7-1-21)

02. Disqualifying Misconduct. To disqualify a claimant for benefits, misconduct must be connected with the claimant’s employment and involve one of the following: (7-1-21)

   a. Disregard of Employer’s Interest. A willful, intentional disregard of the employer’s interest. (7-1-21)

   b. Violation of Reasonable Rules. A deliberate violation of the employer’s reasonable rules. (7-1-21)

   c. Disregard of Standards of Behavior. If the alleged misconduct involves a disregard of a standard of behavior which the employer has a right to expect of his employees, there is no requirement that the claimant’s conduct be willful, intentional, or deliberate. The claimant’s subjective state of mind is irrelevant. The test for misconduct in “standard of behavior cases” is as follows: (7-1-21)

      i. Whether the claimant’s conduct fell below the standard of behavior expected by the employer; and (7-1-21)

      ii. Whether the employer’s expectation was objectively reasonable in the particular case. (7-1-21)

03. Inability to Perform or Ordinary Negligence. Mere inefficiency, unsatisfactory conduct, failure of good performance as the result of inability or incapacity, inadvertencies, isolated instances of ordinary negligence, or good faith errors in judgment or discretion are not considered misconduct connected with employment. (7-1-21)

04. Non-Job Related Conduct. If the claimant was discharged for conduct involving personal, non-job related behavior, the discharge is not for misconduct connected with employment. (7-1-21)

05. When Notice of Discharge Prompts a Resignation. If a claimant has resigned after receiving a notice of discharge (or lay off due to a lack of work), but before the effective date of the discharge, both “separations” must be considered. The following three (3) elements should be present for both actions to affect the claimant’s eligibility: (7-1-21)

   a. The employee was given notice by the employer of a specific separation date; (7-1-21)

   b. The employee’s decision to quit before the effective date of the termination was a consequence of the pending separation; and (7-1-21)

   c. The voluntary quit occurred a short time prior to the effective date of the termination. (7-1-21)
06. **Indefinite Suspension.** A claimant who has been suspended without pay for an indefinite period of time, who has not been given a date to return to work, is considered discharged. (7-1-21)

276. -- 324. (RESERVED)

325. **EMPLOYEES OF EDUCATIONAL INSTITUTIONS.**

01. **Possibility of Employment.** An offer of employment by an educational institution or service agency is not “bona fide” if merely a possibility of employment exists. A possibility of employment, rather than a reasonable assurance, exists when:

   a. The circumstances under which the claimant would be employed are not within the control of the educational institution; and

   b. The educational institution does not provide evidence that such an individual normally would perform services the following academic year. (7-1-21)

02. **Reasonable Assurance.** “Reasonable assurance” of continuing employment exists when an educational institution or service agency provides an oral or written statement to the Department indicating that the claimant has been given a bona fide offer of a specific job in the second academic period. In addition, for such “reasonable assurance” to exist, the terms and conditions of the job offered in the second period must not be substantially less favorable than the terms and conditions of the job performed in the first period. (7-1-21)

03. **Reasonable Assurance Later Given.** A claimant who initially was determined not to have a reasonable assurance of continuing employment, will subsequently become disqualified for benefits under Sections 72-1366(17)(a), (b), or (c), Idaho Code, when an educational institution or service agency gives the claimant such reasonable assurance. (7-1-21)

04. **Retroactive Payments.** A claimant seeking retroactive payments pursuant to 72-1366(17)(b), Idaho Code, must make a request for the retroactive payment with the Department no later than thirty (30) days after the beginning of the second school year or term or retroactive payment will not be made. In addition, the claimant must provide written evidence from the employer who previously provided reasonable assurance of continuing work, that the claimant was not offered an opportunity to return to work in the second of two (2) successive school years or terms. (7-1-21)

05. **Under Contract, but Between School Terms.** Employees of educational institutions who are hired under contract for the school term, are considered unemployed between school terms even though they may receive their salary in twelve (12) monthly payments. (7-1-21)

326. -- 349. (RESERVED)

350. **EXTENDED BENEFITS.**
Ref. Sec. 72-1367A, Idaho Code. (7-1-21)

01. **Evidence of Employment for Extended Benefits.** Satisfactory evidence that an individual’s prospects for obtaining work in his customary occupation within a reasonably short period includes:

   a. A letter signed by a prospective employer giving assurances of work within the next four (4) weeks; or (7-1-21)

   b. A verifiable, written statement by the claimant that he will have work within the next four (4) weeks. (7-1-21)

02. **Remuneration Earned.** Remuneration earned must be in employment where an employee-employer relationship exists to satisfy requalification requirements for Extended Benefits. (7-1-21)

351. -- 374. (RESERVED)
375. FULLY EMPLOYED/NOT UNEMPLOYED.
Ref. Section 72-1312(1), Idaho Code. (7-1-21)

01. Excessive Earnings Week. An excessive earnings week is a week in which the claimant’s wages allocable to that week are more than one and one half (1-1/2) times the claimant’s weekly benefit amount. (7-1-21)

02. Leave of Absence. A claimant who is on a mutually agreed upon leave of absence, and whose employer has committed to the claimant's return to work at the end of the leave, is employed and not eligible for benefits. (7-1-21)

03. Suspension. A claimant suspended with or without pay for a specific number of days, who has been given a date to resume employment after the suspension, is not considered unemployed and is not eligible for benefits. (7-1-21)

04. Corporate Officer.
   a. A corporate officer has the burden of proving by a preponderance of evidence that he is unemployed due to circumstances beyond his control or the control of a family member with an ownership interest in the corporation. (7-1-21)
   b. Circumstances beyond a corporate officer’s control or the control of a family member with an ownership interest in the corporation. Circumstances beyond a corporate officer’s or a family member’s control are circumstances that last through the corporate officer’s benefit year end date and include, but are not limited to, the following:
      i. Unemployment due to the corporate officer’s removal from the corporation under circumstances that satisfy the personal eligibility conditions of Section 72-1366, Idaho Code;
      ii. Unemployment due to dissolution of the corporation; or
      iii. Unemployment due to the sale of the corporation to an unrelated third party. (7-1-21)

376. -- 399. (RESERVED)

400. LABOR DISPUTE/UNION RULES.
A “labor dispute” is a controversy with respect to wages, hours, working conditions, or right of representation affecting the work or employment of a number of individuals employed for hire which results in a deadlock or impasse between the contending parties. Ref. Sec. 72-1366(7), (10), Idaho Code. (7-1-21)

01. Burden of Proving Nonparticipation. The burden of proving non-participation, lack of financing and similar factors is upon the claimant. (7-1-21)

02. Involvement of Work Site in Labor Dispute. A claimant will not be denied benefits because of a labor dispute if the dispute is not in any way directly connected with the factory, establishment, or premises at which the individual is or was last employed. (7-1-21)

03. Lack of Work. A claimant’s unemployment will be deemed due to lack work and not due to a labor dispute if it is shown that because of the labor dispute the employer’s business has fallen off to the extent that he can no longer utilize the services of the claimant due to the drop in business. (7-1-21)

04. Laid Off Before Labor Dispute. A claimant laid off because of lack of work from an employer where a labor dispute later occurred will not be considered unemployed due to the labor dispute. (7-1-21)

05. Period of Ineligibility. The period of ineligibility applies for the whole of any week in which any part of a claimant’s unemployment is due to a labor dispute. (7-1-21)
06. Picketing Work Site. The act of picketing the work site of a labor dispute constitutes participation in the labor dispute, whether or not payment is made for such services. (7-1-21)

07. Refusal to Cross Picket Line. Voluntary refusal to cross a peaceable picket line to work constitutes participation in the labor dispute. (7-1-21)

08. Subsequent Employment. Subsequent employment does not make the claimant eligible for benefits if his unemployment is still due to the labor dispute. As long as the claimant intends to return to the employer where the labor dispute exists, his unemployment is due to the labor dispute regardless of any intervening employment. (7-1-21)

09. Termination of Labor Dispute. The period of ineligibility due to the labor dispute terminates at the end of the calendar week in which the labor dispute no longer exists. The termination of the dispute does not automatically make a claimant eligible for benefits. (7-1-21)

10. Union Member. The fact that an individual is a dues-paying union member alone does not constitute financing a labor dispute. Nor does the fact that he is not a union member establish that he is not financing or participating in the dispute. (7-1-21)

401. -- 424. (RESERVED)

425. NEW CLAIMS/ADDITIONAL CLAIMS.
Ref. Sec. 72-1308, Idaho Code. (7-1-21)

01. Claims for Benefits, Delayed Filing. When the Central Claims Office has determined that a claimant’s attempt to file an initial claim was delayed due to problems with the Department’s telephone or electronic filing system, the claim may be backdated if the claimant reported the access problem to the Central Claims Office within seven (7) days of the date the problem occurred. When a claim is backdated, the continued claim report for the period of time involved is timely if filed during the same week or the next week after the claim is filed. (7-1-21)

02. Effective Date of Backdated Claims. When the filing of an initial claim for benefits is backdated due to a Department system malfunction, the effective date is the Sunday of the week in which the claimant first reported to the Central Claims Office to file the claim or attempted to access the telephone or electronic claim filing system and there were problems with the system. (7-1-21)

03. Filing of New Claims, Additional, and Reopen Claims. Intrastate and interstate claims, including, without limitation, new claims, additional claims, and reopen claims, may be filed electronically or by telephone at the Department’s discretion. (7-1-21)

a. Electronically Filed Claims. Claimants may file claims electronically by accessing Idaho’s Internet claim system or, if filing through an American Job Center, by accessing the Department’s Intranet claim system. Electronically filed claims will be date and time stamped at the time the claimant completes the application process. The claim will not be completed until the claimant has finished the process and has electronically submitted the claim to the Department. A claim filed via the Internet or an American Job Center is effective as of the Sunday of the week of the date shown on the date/time stamp. (7-1-21)

b. Interstate Claims. Any claim filed by an interstate claimant is accepted in the same manner and conditions for which claims are accepted from intrastate claimants. (7-1-21)

c. Telephone Claims. A claimant may also file a claim by calling the Central Claims Office. A claim filed via telephone is effective as of the Sunday of the week in which the claimant first calls the Central Claims Office to initiate the claim. (7-1-21)

d. Claimants' Electronic Verification. A unique confidential number or other electronic method of verification approved by the Department may be used by a claimant or an employer to submit information or engage in transactions with the Department through electronic or telephonic means. Use of this method of verification has the same force and effect as a manual signature. (7-1-21)
04. **Registration/Reporting Requirements -- Interstate Claimants.** Interstate claimants are required to comply with the same reporting requirements prescribed for regular Idaho intrastate claimants. Ref. Sec. 72-1366(1), (2), Idaho Code.

07. **Requirement to Provide Information.** If a claimant fails to provide the Department with all necessary information pertinent to eligibility, the claimant is denied benefits until the information is provided. Any individual making a claim for benefits must provide the Department with:

   a. The claimant’s legal name;

   b. The claimant’s Social Security Number;

   c. The address where the claimant’s mail is delivered;

   d. The claimant’s place of last employment;

   e. The name, correct mailing address, dates of employment, and the reason for separation from all of the claimant’s most recent and base-period employers;

   f. If requested by the Department, a list of all other employment in the past twenty-four (24) months;

   g. The claimant’s plans for finding other employment at the earliest possible time; and

   h. Other information necessary for the proper processing of the claim.

   i. Once a claim has been established, the claimant must provide, upon request, a record of the claimant’s work search, in order for the Department to assess compliance with personal eligibility requirements.

   j. If the claimant’s identifying information does not match with data provided by the Social Security Administration, the Division of Motor Vehicles, or other public entities for identity verification purposes, the claimant will be provided notice and an opportunity to provide proof of identity before benefits are denied.

08. **Separation Notice.**

   a. Notice to Employer of Separation. Every employer (including employers not subject to Title 72, Chapter 13, Idaho Code), when contacted by a Department representative for a response, must respond to the Department with the reasons for the separation whenever the claimant:

   i. Left his employment voluntarily;

   ii. Was discharged from his employment due to misconduct;

   iii. Is unemployed due to a strike, lockout, or other labor dispute;

   iv. Is not working due to a suspension; or

   v. Was separated for any other reason except lack of available work.

   b. Employer Response. The employer’s response must be given by the employer or on the employer’s behalf by someone having personal knowledge of the facts concerning the separation. The employer should provide to the Department, via electronic media or mail, copies of any documentation supporting their position.

09. **Additional Claim or Reopened Claim.** A claim must be reestablished after a claimant has failed to report or has reported excessive earnings for two (2) or more consecutive weeks.
10. **Use of Wage Credits.** All unemployment insurance wage credits from any source that are assignable to the state of Idaho will be used in establishing a claim and determining the claimant’s monetary eligibility. Ref. Sec. 72-1367(1), Idaho Code.

11. **Valid Claim.** To be a valid claim for benefits, a claim must be filed during a week of no work, a week of less than full-time work in which the total wages payable to the claimant for work performed in such week amount to less than one and one-half (1-1/2) times the claimant’s weekly benefit amount, or a week in which the claimant is separated from employment. Ref. Sec. 72-1327A and 72-1312, Idaho Code.

426. -- 449. (RESERVED)

450. **QUIT.**
Ref. Sec. 72-1366(5), Idaho Code.

01. **Burden of Proof.** The claimant has the burden of proof to establish that he voluntarily left his employment with good cause in connection with the employment to be eligible for benefits.

02. **Cause Connected with Employment.** To be connected with employment, a claimant’s reason(s) for leaving the employment must arise from the working conditions, job tasks, or employment agreement. If the claimant’s reason(s) for leaving the employment arise from personal/non-job-related matters, the reasons are not connected with the claimant’s employment.

03. **Good Cause.** The standard of what constitutes good cause is the standard of reasonableness as applied to the average man or woman. Whether good cause is present depends upon whether a reasonable person would consider the circumstances resulting in the claimant’s unemployment to be real, substantial, and compelling.

04. **Moral or Ethical Quit.** A claimant who leaves a job because of a reasonable and serious objection to the work requirements of the employer on moral or ethical grounds and is otherwise eligible, will not be denied benefits.

05. **Quit Due to Health or Physical Condition.** A claimant whose unemployment is due to his health or physical condition which makes it impossible for him to continue to perform the duties of the job will be deemed to have quit work with good cause connected with employment.

06. **Quit for Permanent Work or Quit Part-Time Work for Increase in Work Hours.** A claimant who quits a temporary job for a permanent job or who quits part-time employment for employment with an increase in the number of hours of work will be deemed to have quit work with good cause connected with employment.

07. **Quit or Retirement During Employer Downsizing.** An individual who has continuing suitable work available and who voluntarily elects to retire or to terminate employment during a period of reorganization or downsizing will be deemed to have voluntarily quit the employment for personal reasons.

08. **Unrelated Discharge Prior to Pending Resignation.** The eligibility of a claimant discharged before a pending resignation has occurred for reasons unrelated to the pending resignation will be determined on the basis of the discharge.

09. **When Notice of Resignation Prompts a Discharge.** If a claimant had given notice of a pending resignation, but was discharged before the effective date of the resignation, both “separations” must be considered. The following three (3) elements should be present for both actions to affect the claimant’s eligibility:

a. The employee gave notice to the employer of a specific separation date;

b. The employer’s decision to discharge the claimant before the effective date of the resignation was a consequence of the pending separation; and
c. The discharge occurred a short time prior to the effective date of the resignation. (7-1-21)

10. Quit Due to Harassment. Good cause for quitting employment may be established by showing the party was subjected to any form of harassment that is unlawful under the Idaho Human Rights Act, Title 67, Chapter 59, Idaho Code. (7-1-21)

451. -- 459. (RESERVED)

460. PROFESSIONAL ATHLETES BETWEEN SEASONS.
Ref. Sec. 72-1366(18), Idaho Code. (7-1-21)

01. Base Period Wages. No base period wages are used to establish a claim when substantially all services performed during the base period consist of participation in sports, athletic events, training, or preparing to so participate, for any week which commences during the period between two (2) successive sport seasons (or similar periods) if the individual performed such services in the first season (or similar period) and there is a reasonable assurance that the individual will perform such services in the later of such seasons (or similar periods). (7-1-21)

02. Reasonable Assurance. Reasonable assurance requires the following: (7-1-21)

a. The claimant has a contract, either written or oral; (7-1-21)

b. The claimant offered to work and the employer expressed an interest in hiring the player for the next season (or similar period); or (7-1-21)

c. The claimant expresses a readiness and willingness or intent to participate in the sport the following season. Reasonable assurance exists if the claimant asserts he or she intends to pursue employment as a professional athlete the next season despite not having a specific employer to return to or a formal offer of employment. (7-1-21)

03. Substantially All Services. An individual is deemed to have performed “substantially all services” in sports, athletic events, training, or preparing to so participate if ninety percent (90%) or more of the base period wages were based on such services. (7-1-21)

461. -- 474. (RESERVED)

475. REFUSAL OF WORK/FAILURE TO APPLY.
Ref. Sec. 72-1366(6), (7), Idaho Code. (7-1-21)

01. Citizenship or Residency Requirements. An employer’s restrictions on citizenship or residency is deemed good cause for a claimant’s failure to apply for available work if he does not meet the requirements. (7-1-21)

02. Claimant Conduct. A claimant who, by his conduct, causes an employer to withdraw an offer of suitable work or terminate the offer after the claimant has accepted it is ineligible. (7-1-21)

03. Claimant Responsibility. A claimant has the responsibility to apply for and accept suitable work. (7-1-21)

04. Conscientious Objection. A claimant may refuse employment that requires him to work on his Sabbath if his religious convictions do not permit him to work on that day. (7-1-21)

05. Employer Requirements. Claimants are expected to comply with reasonable, lawful requirements that are typical of certain occupations, such as a requirement that a worker be bonded. Unreasonable requirements by employers will not be used as a basis to deny benefits. However, a claimant must have good cause to refuse or fail to meet an employer’s reasonable, lawful employment requirements to be eligible for benefits. (7-1-21)

06. Failure to Report. A claimant who fails to report to the Department when so directed, fails to
follow explicit instructions for applying for suitable, available work, or fails to report to work after accepting employment, without good cause, is ineligible. Ref. Sec. 72-1366(2), (6), Idaho Code.

07. Failure to Return to Work After Layoff. A claimant who has been laid off, but fails to return to work on the date specified by the employer at the time of layoff or fails to respond to a callback after a layoff, will be considered to have refused an offer of work if the ongoing employment relationship is severed as a result. If the claimant declines work with the employer but the ongoing employment relationship is not severed as a result, the claimant’s availability for work will be examined, but the claimant will not be considered to have refused an offer of work under Sections 72-1366(6) or (21)(a)(ii)(A), Idaho Code.

08. Government Requirements. A claimant who cannot meet government requirements within a reasonable period of time has good cause for refusing that opportunity to work.

09. Moral Objections. A claimant is not ineligible for failing to apply for or accept employment if the claimant has reasonable, serious objections to the work or the workplace on moral or ethical grounds.

10. Offer of Work. A claimant whose unemployment is due to his failure without good cause to accept available, suitable work is ineligible. The job offer must have been genuine and known to the claimant.

11. Part-Time Work. A claimant must be available for and willing to accept suitable part-time work in the absence of suitable full-time work.

12. Personal Circumstances. To have good cause to refuse to apply for or accept available, suitable work because of personal circumstances, a claimant must show that his circumstances were so compelling that a reasonably prudent individual would have acted in the same manner under the same circumstances.

13. Prospect of More Suitable Work. A claimant is not ineligible for failing to accept employment if he has excellent prospects for more suitable work with his former employer or in his regular occupation.

14. Suitable Work. Every claimant has the right to restrict his availability to suitable work.

15. Travel Distance. A claimant is not ineligible if the travel distance to available work is excessive or unreasonable. A claimant is ineligible if he fails to apply for and accept suitable work within a commuting area similar to other workers in his area and occupation.

476. -- 499. (RESERVED)

500. REISSUING BENEFIT PAYMENTS. Whenever a benefit payment is lost, stolen, destroyed, or forged, the claimant will be issued a new benefit payment upon his proper presentation of the facts and submission of an affidavit, in a form prescribed by the Department, for the issuance of a new benefit payment. Ref. Section 72-1368(1), Idaho Code.

01. Affidavit for Issuance of New Benefit Payment. A claimant’s affidavit filed for the issuance of a new benefit payment must be signed before a notary public or an authorized representative of the Department.

02. Reissuance of Stolen Benefit Payments. If a claimant knows who took a benefit payment, he must provide evidence that he has taken all reasonably available legal steps and been unsuccessful in recovering the benefit payment before the Department will consider reissuing the benefit payment.

501. -- 524. (RESERVED)

01. Back Pay or Disputed Wages. Amounts received as a result of labor relations awards or judgments for back pay, or for disputed wages, constitute wages for the weeks in which the claimant would have
02. Disability/Injury Compensation. Injury or disability compensation payments are not considered wages and are not reportable income for unemployment insurance purposes.

03. Disability Retirement Payments. Retirement payments as a result of disability are treated the same as other types of retirement payments. Ref. Section 72-1312(4), Idaho Code.

04. Gratuities or Tips. Gratuities or tips must be reported by a claimant for the week in which each gratuity or tip is earned.

05. Holiday Pay. Holiday pay must be reported as though earned in the week in which the holiday occurs.

06. Non-Periodic Remuneration. All non-periodic remuneration such as one-time severance pay, profit sharing, and bonus pay is reportable for the week in which paid.

07. Penalty or Damage Awards. Amounts awarded to a claimant as a penalty or damages against an employer, other than for lost wages, do not constitute wages.

08. Pension, Retirement, or Annuity Payments. The pension deduction provision of Section 72-1312(4), Idaho Code, only applies if the pension, retirement pay, annuity, or other similar periodic payment is made under a plan maintained or contributed to by a base period employer. The dollar amount of the weekly pension will be deducted from the claimant’s weekly benefit amount unless the claimant has made contributions toward the pension. If the claimant has made contributions toward the pension plan, no deduction for the pension will be made from the claimant’s weekly benefit amount. Ref. Section 72-1312(4), Idaho Code.

a. Pension Contributions. The burden is on the claimant to establish by substantial, competent evidence that he has made contributions toward the pension, retirement pay, annuity or other similar payment plan.

b. Pension Payment Changes. Any change in the amount of the pension, retirement, or annuity payments which affects the deduction from the claimant’s weekly benefit amount will be applied in the first full week after the effective date of the change.

09. Relief Work or Public Assistance.

a. Remuneration received for relief work or public service work will be considered wages on the same basis as any other employment.

b. Eligibility When Public Assistance Received. A person receiving public assistance is eligible for benefits if no work is involved and the claimant is otherwise eligible.

10. Self-Employment Earnings. When reporting earnings, a claimant must report gross earnings from self-employment. If the claimant demonstrates to the Department that certain expenses were reasonable and necessary in order to accomplish the work, the Department may allow the deduction of those expenses from claimant’s gross wages. Deductible expenses may include, but are not limited to, buying products wholesale for resale and renting equipment to accomplish a task. Non-deductible expenses include, but are not limited to, transportation costs, uniforms, and depreciation of equipment.

11. Severance Pay. An equal portion of a periodic severance payment must be reported in each week of the period covered by the payment. However, severance pay received in a lump sum payment at the time of severance of the employment relationship must be reported when paid.

12. Vacation Pay. Vacation pay allocable to a certain period of time in accordance with an employment agreement must be reported in the week to which it is allocable. However, vacation pay received in a lump-sum payment at the time of severance of the employment relationship must be reported when paid.
13. **Verification of Earnings on Claim Reports.** The Department may verify the earnings and/or reasons for separation reported by claimants on claim reports filed for benefit payments. Ref. Section 72-1368(1), Idaho Code.

14. **Wages for Contract Services.** A person who is bound by a contract which does not prevent him from accepting other employment but who receives pay for a period of not working, is required to report the contract payments as earnings in equal portions in each week of the period covered by the contract. This rule does not apply to employees of educational institutions.

15. **Wages for Services Performed Prior to Separation.** Wages for services performed prior to a claimant’s separation are reportable for the week in which earned.

16. **Temporary Disability Benefits.** For any week with respect to which a claimant is receiving or has received temporary disability benefits under a worker’s compensation law of any state or under a similar law of the United States, such payments must be reported in an amount attributable to such week.

526. -- 549. (RESERVED)

550. **REPORTING REQUIREMENTS.**

Each claimant must report weekly or biweekly for benefits as directed. When filing claim reports, a claimant must use the reporting method assigned by the Department. Failure to file timely reports in a manner required by this rule will result in ineligibility for benefits for the week(s) claimed. Ref. Section 72-1366(1), Idaho Code.

It is the responsibility of the corporation to notify the Department in writing in a format required by the Department when an exempt corporate officer no longer meets the election criteria. A corporation is responsible for any taxes, penalties, and interest due after the date the exemption is terminated or should have been terminated.

05. Reinstatement of Coverage. A corporation may elect to reinstate coverage for one (1) or more corporate officers previously exempted. Reinstatement requires written notice from the corporation to the Department in a format required by the Department. Reinstatement requests received by the Department on or before December 15th become effective the first day of the calendar year following the end of the exemption's initial two (2) year effective date. Coverage shall not be reinstated retroactively.

06. Definitions. For purposes of this chapter:

- “Bona-fide corporate officer” is defined as any individual empowered in good faith by stockholders or directors, in accordance with the corporation’s articles of incorporation or bylaws, to discharge the duties of a corporate officer.
- “Exercise substantial control in the daily management of the corporation” is defined as when an individual makes managerial decisions over a business function or functions that have some effect on the entire corporation. This includes the authority to hire and fire, to direct other's activities in the corporation, or the responsibility to account for and pay over taxes or debts incurred by the corporation.

07. Services in Employment. Unless specifically exempted, services performed by corporate officers are considered services in employment and are covered for purposes of unemployment insurance.

109. -- 110. (RESERVED)

111. SERVICES PERFORMED PART IN COVERED EMPLOYMENT AND PART IN EXCLUDED EMPLOYMENT.
When wages paid cover services performed both in covered employment and excluded employment, the employer’s records must show the hours and wages for covered employment and also hours and wages for excluded employment. When this distribution is not shown on the records, the employee’s entire wage will be deemed to have been earned in

112. DETERMINING STATUS OF WORKER.

01. Determining if Worker Is an Employee. In making a determination as to whether a worker is performing services in covered employment, it shall be determined whether the worker is an employee. To determine whether a worker is an employee, the following factors may be considered:

a. The way in which the business entity represented its relationship with the worker prior to the investigation or litigation, including representations to the Internal Revenue Service;

b. Statements made to the Department;

c. Method of payment to the worker, in particular whether federal, state, and FICA taxes are withheld from paychecks; and

d. Whether life, health, or other benefits are provided to the worker at the business entity’s expense.

02. Determining if Worker Is an Independent Contractor. If it cannot be determined that a worker is an employee pursuant to Subsection 112.01 above, then a determination shall be made whether the worker is an “independent contractor” pursuant to the terms of Section 72-1316(4), Idaho Code. For the purposes of that section and these rules, an independent contractor is a worker who meets the requirements of both Sections 72-1316(4)(a) and (b), Idaho Code.

03. Proving Worker Is Free from Control or Direction in His Work. To meet the requirement of Section 72-1316(4)(a), Idaho Code, the alleged employer must prove that a worker has been and will continue to be free from control or direction in the performance of his work, both under his contract of service and in fact. The following factors may be considered in this determination:

a. Whether the alleged employer has control over the details of the work, the manner, method or mode of doing the work, and the means by which the work is to be accomplished, but without reference to having control over the results of the work.

b. The freedom from direction and control must exist in theory (under a contract of service) and in fact; and

c. The employer must demonstrate that it lacked a right to control the worker.

04. Proving Worker Is Engaged in Independently Established Business. To meet the requirement of Section 72-1316(4)(b), Idaho Code, it must be proven that a worker is engaged in an independently established trade, occupation, profession or business. The following factors are significant and shall be considered in making this determination, although no single factor is regarded as controlling:

a. The level of skill required to perform the work;

i. A worker who performs routine tasks requiring little or no training is indicative of the worker’s status as an employee.

ii. A worker who performs work requiring skills marketable as a trade, occupation, profession or business, such as an electrician, attorney, physician, or CPA, is indicative of the worker’s status as an independent contractor.

iii. A worker who performs work requiring special licensing or compliance with regulatory requirements is indicative of the worker’s status as an independent contractor.

iv. A worker who receives all or substantially all of the worker’s job training from the alleged
employer is indicative of the worker’s status as an employee.

b. The extent to which the worker’s services are an integral part of the alleged employer’s business;
   i. A worker who performs the primary type of work that the alleged employer is in business to provide to its customers or clients is indicative of the worker’s status as an employee. For example, an automotive repair business hires an additional mechanic to help in its service repair shop. Since the work provided by the worker is the primary type of work the automotive repair business provides to its customers, the work is indicative of the worker’s status as an employee.
   ii. A worker who performs a specific job that is secondary to an integral part of the employer’s business is indicative of the worker’s status as an independent contractor. For example, if a manufacturing business requiring routine electrical work within its manufacturing facility hires an independent electrical company to provide that service, the electrical work performed is indicative of the worker’s status as an independent contractor.
   iii. A worker who supervises the alleged employer’s employees is indicative of the worker’s status as an employee.
   iv. If the success of a business depends to an appreciable degree upon the performance of certain services, the worker performing those services is indicative of that worker’s status as an employee.
   v. If a worker is not required to work solely for the alleged employer and there is a separate contractual relationship for each job that ends upon the completion of that job, the work is indicative of the worker’s status as an independent contractor.

c. The permanency of the relationship;
   i. The longer a worker works solely for a single alleged employer, the more indicative it is of the worker’s status as an employee.
   ii. A worker who makes the worker’s services available to the general public for hire on a regular and consistent basis is indicative of the worker’s status as an independent contractor.
   iii. A worker whose hours worked are regularly scheduled, rather than sporadic or occasional, is indicative of the worker’s status as an employee.
   iv. Work with a specific ending date that ends the working relationship between the worker and the alleged employer is indicative of the worker’s status as an independent contractor.
   v. Work that is open ended allowing the worker to continue working for the same alleged employer as long as performance standards are met, is indicative of the worker’s status as an employee.

d. A worker’s investment in facilities and equipment;
   i. A worker who is reimbursed for work-related purchases, materials or supplies, or is furnished work-related materials or supplies by the alleged employer is indicative of the worker’s status as an employee.
   ii. A worker who uses the tools and equipment of the alleged employer is indicative of the worker’s status as an employee.
   iii. A worker’s significant investment in tools and equipment compared to the cost of the tools and equipment provided by the alleged employer is indicative of the worker’s status as an independent contractor.
   iv. A worker who is financially responsible to the alleged employer for damage to equipment or tools
is indicative of the worker’s status as an independent contractor.

v. A worker’s investment in physical facilities used by the worker in performing services is indicative of the worker’s status as an independent contractor.

vi. A worker’s lack of investment in physical facilities indicating a dependence on the alleged employer for whom the worker’s services are performed is indicative of the worker’s status as an employee.

e. Whether a worker is customarily engaged in an outside trade, occupation, profession, or business providing the same type of services the worker provides for the alleged employer engaging his services;

i. A worker who provides one (1) type of service for an alleged employer, while providing the same type of service to others for hire, is indicative of the worker’s status as an independent contractor.

ii. A worker who provides one (1) type of service for an alleged employer, while providing a different type of service to others for hire, is indicative of the worker’s status as an employee of the alleged employer.

iii. A worker who advertises independently via yellow pages, business cards, web pages, or other types of media is indicative of the worker’s status as an independent contractor.

f. A worker’s opportunities for profit and loss;

i. A worker required to carry business related expenses such as insurance, bonding, or workers compensation coverage is indicative of the worker’s status as an independent contractor.

ii. A worker’s ability to earn a profit by performing work more efficiently or suffer a loss because of the work performed is indicative of the worker’s status as an independent contractor.

iii. A worker who is subject to a risk of economic loss due to significant investments or a bona fide liability for expenses is indicative of the worker’s status as an independent contractor.

g. Other factors when viewed fairly in light of all the circumstances that may or may not indicate that the worker was engaged in an independently established trade occupation, profession, or business. These factors may include control of the premises, right to determine hours, or who sets the rate of pay.

05. Meeting Criteria for Covered Employment. A worker who meets one (1), but not both, of the tests in Subsections 112.03 and 112.04 above shall be found to perform services in covered employment.

06. Evidence of Contractual Liability for Termination. For purposes of making a determination under Section 72-1316(4), Idaho Code, and this regulation, the party alleging that summary termination by either party would result in contractual liability must present some evidence upon which to base such allegation. Ref. Section 72-1316(4), Idaho Code.

113. -- 130. (RESERVED)

131. FARM COMMODITY OWNERSHIP.
In determining if the farm operator-processor produced more than fifty percent (50%) of the commodities being processed, the following apply:

01. Quantity. It will be determined on a quantity basis where the farm operator processes only one (1) commodity.

02. Wages. It will be determined on the basis of the relationship between wages paid for processing commodities raised by the farm operator-processor and total wages paid for processing where the farm operator processes several commodities. Wages paid for processing each commodity will be determined. The proportionate
share of such wages paid for processing that portion of the commodity raised by the farm operator-processor will be ascertained on the basis of the percentage of such commodity which was produced by the farm operator. This will be done for each commodity processed so as to ascertain total wages paid for processing commodities produced by the farm operator-processor. If such total is more than fifty percent (50%) of the total wages paid for processing all commodities, the activity will be exempt but if it is fifty percent (50%) or less, it will not be exempt. Ref. Section 72-1304, Idaho Code.

132. STATUS.

01. Status Information Required. To determine the taxable status of an employer, detailed information regarding the business activities of any person engaged in business in Idaho shall be submitted as required, including articles of incorporation, articles of organization, minutes of boards of directors, financial reports, partnership agreements, number of employees, wages paid, employment contracts, income tax records, and any other records or other information which may tend to establish such person’s status. Ref. Section 72-1337, Idaho Code.

02. Notification to Liable Employers. An employer shall be notified in writing of any determination as to its liability for contributions, or its status as a covered employer if a formal determination was made after the employer questioned its status. The determination shall be in the form required by IDAPA 09.01.01.27.01, and shall become final if no timely appeal is taken to an appeals examiner pursuant to the Rules of Administrative Procedure of the Department of Labor.

03. Employer Quarterly Report Forms. Employers who are liable to pay tax contributions, or who have elected a cost reimbursement option in lieu of tax contributions, shall submit quarterly report forms in any form or medium designated by the director or his authorized representative. Ref. Section 72-1349, Idaho Code.

04. Update Requirements. Covered employers shall furnish the Department with pertinent status data when new or additional information is available. Ref. Section 72-1337, Idaho Code.

133. (RESERVED)

134. PROFESSIONAL EMPLOYER ORGANIZATIONS. 01. Methods of Reporting. To report the wages and employees covered by the professional employer arrangement between a professional employer and client, professional employers and their clients shall make reports to the Department in one (1) of the following ways, subject to the conditions in Subsections 134.02 through 134.06 of this rule:

a. Report the workers included in the professional employer arrangement under the employer account number of the professional employer and transfer the rate of the client to the professional employer; or (7-1-21)

b. Report the workers included in the professional employer arrangement under the employer account number of the client without an experience rate transfer. Ref. Section 72-1349B, Idaho Code.

02. Joint Transfer of Experience Rate. In order to effect a transfer of a client’s experience rate into the experience rate of a professional employer organization, both the client and the professional employer organization shall jointly apply for the transfer of the experience rate within the same timeframes as required of employers by Section 72-1351(5), Idaho Code, from the date of the contract entered into between the professional employer organization and the client required by Section 44-2405, Idaho Code. Failure to submit a timely joint request for transfer of experience rate shall result in the professional employer organization reporting wages for the client under the employer account number of the client. Ref. Section 72-1351(5), Idaho Code.

03. Partial Transfers of Experience Rate Prohibited. In the event that a client and a professional employer organization jointly apply to transfer the experience rate of the client into that of the professional employer,
the client’s entire experience rate and factors of experience rate shall be transferred into that of the professional employer, and no partial transfers of experience factors or the experience rate shall be allowed. Ref. Section 72-1349B, Idaho Code.

04. Partial Reporting of Workers. If some of the client’s workers are included in the professional employer arrangement and some are not included, and the professional employer organization and the client elect to report the workers included in the professional employer arrangement under the employer account number of the client, then only one (1) quarterly report shall be remitted to the Department, which shall list or include all the client’s workers whether or not included in the professional employer arrangement. Ref. Section 72-1349B, Idaho Code.

05. Combined Wages or Services for Purposes of Coverage. If a client employer has employees or employment, or both, that does not independently meet the coverage or threshold requirements necessary to constitute covered employment, such employees, services or employment shall nonetheless be deemed to meet the coverage requirements of the Employment Security Law if, in combination with other employees, employment or services of such other employees of the professional employer organization or any of its clients, such wages, services or employees do jointly meet coverage requirements.

135. -- 165. (RESERVED)

166. FIELD OPERATIONS CONTROL.
When circumstances dictate, and as a result of nonpayment of liabilities, the employer shall be notified by mail to the last known address of lien proceedings against the employer's interests, with an explanation of the amounts due, and the accrual of interest at the proper rate until the lien is satisfied. Ref. Section 72-1360, Idaho Code.

01. Limitation for Commencing Administrative Procedures. The director may commence an administrative proceeding for purposes of establishing a tax liability, or otherwise to enforce the provisions of Section 72-1349, Idaho Code, by issuing a determination at any time within five (5) years from the due date of a quarterly report or the date a quarterly report is filed, whichever is later, subject to tolling pursuant to Section 72-1349, Idaho Code.

a. Notification of Audits. Employers shall be notified as soon as practicable of an impending payroll records audit for tax liability purposes. This shall allow time in which to agree as to a convenient time and place for audit. Ref. Section 72-1337, Idaho Code.

b. Frequency of Audits. The frequency of audits or inspections of an employer’s records to ensure compliance with the law and Department rules shall be based on the following criteria:

i. On the basis of random selection and other selection criteria in accordance with federal requirements;

ii. As a result of information received from any source, provided that the information received is of such a nature that it would be reasonable to conduct an audit or inspection of records as a result of that information; or

iii. As a result of a previous audit, if the business practices or records of the employer are of such a nature that it would be reasonable for a Department employee to re-inspect or re-audit the records to ensure future compliance with the law. Ref. Section 72-1337, Idaho Code.

02. Execution Against Assets. 167. -- 185. (RESERVED)

186. **ACCOUNTING AND DELINQUENCY CONTROL.**
Overpayments on employer accounts may be refunded without written application by the employer. Credits resulting from overpayments or adjustments to an employer's account shall be refunded periodically unless such credit is applied to a subsequent balance due. Ref. Section 72-1357, Idaho Code. (7-1-21)T

01. **Erroneous Wage Reports.** An employer submitting an erroneous report of employee wages resulting in payment of unearned unemployment insurance benefits shall have said benefit payments subtracted from any refund due that employer, if such employer benefited from the unearned benefit payments. Ref. Section 72-1372, Idaho Code. (7-1-21)T

02. **Notification of Underpayments.** Employers shall be notified periodically of any taxes, penalties, or lien interest due on their tax account. Ref. Section 72-1349, Idaho Code. (7-1-21)T

03. **Cancellation of Refund Warrants.** Refund warrants, outstanding after the validity date, shall be canceled, stop-payment procedures initiated, and then reissued only upon completion of an affidavit for the replacement of the lost or destroyed warrant. Ref. Section 72-1357, Idaho Code. (7-1-21)T

187. -- 220. (RESERVED)

221. **TRANSFER OF EXPERIENCE RATING.**
Upon request, employers shall be informed of the requirements for transferring an experience rating record. Notification shall be issued to interested parties when an experience rating record transfer request is made. Ref. Sections 72-1351 and 72-1351A, Idaho Code. (7-1-21)T

The parties in interest shall be notified of such transfer of experience as determined from the facts applicable to the case. The determination shall be in the form required by IDAPA 09.01.01.027.01, and become final if no appeal is taken to an appeals examiner pursuant to the Rules of Administrative Procedure of the Department of Labor. (7-1-21)T

02. **Partial Experience Rate Transfers.** The following method is used to compute the pro-rata share of the experience rate account that is to be transferred from the predecessor to a successor. The pro-rata share is determined by dividing the gross payroll associated with the portion of the business acquired by the total gross payroll for the entire business operations for the same time period. The time period upon which this computation is based is the four (4) most recently completed quarters as reported by the predecessor prior to the date of acquisition or change in entity. (7-1-21)T

03. **Continued Predecessor Employment for Liquidation.** When a total transfer of experience rating record has been completed and it is found that the predecessor employer continues to have employment in connection with the liquidation of his business, such employer shall continue to pay contributions at the assigned rate for the period of liquidation but not to extend beyond the balance of the rate year. Ref. Section 72-1351, Idaho Code. (7-1-21)T

04. **Management or Ownership or Control Substantially the Same.** For the purposes of Subsection 72-1351A, Idaho Code, in determining whether the ownership or management or control of a successor is substantially the same as the ownership or management or control of the predecessor factors to be considered include, but are not limited to, the extent of policy making authority, the involvement in daily management of operations, the supervision over the workforce, the percentage of ownership of shares or assets, and the involvement on boards of directors or other controlling bodies. (7-1-21)T

05. **Wage Paid by Predecessor.** The successor employer may use wages paid by the predecessor employer to arrive at the wage base for purposes of calculating taxable wages only when the experience rate of a predecessor employer has been transferred to a successor employer. Ref. Sections 72-1349(1), 72-1351(5), and 72-1350(8), Idaho Code. (7-1-21)T

231. EXPERIENCE RATING -- QUALIFYING PERIOD.

232. -- 240. (RESERVED)

241. BOARD, LODGING, MEALS.
When board, lodging, meals, or any other payment in kind considered as payment for services performed by an employee constitute a part of wages or wholly comprise an employee’s wages, the value of such board, lodging, or other payment shall be determined as follows:

01. **Cash Value.** If a cash value for such board, lodging, or other payment is agreed upon in any contract of hire, the amount so agreed upon shall be used provided it is a reasonable, fair market value. If there is no agreement, or if the contract of hire states an amount less than a reasonable, fair market value, the Department of Labor shall determine the reasonable or fair market value to be used. Ref. Section 72-1328, Idaho Code.

02. **Meals and Lodging Not Included in Gross Wages.** The value of meals and lodging furnished by an employer to the employee will not be included in the employee’s gross income if it meets the following tests:

a. The meals or lodging are furnished on the employer’s business premises;

b. The meals or lodging are furnished for the employer’s convenience; and

c. In the case of lodging (but not meals), the employees must be required to accept the lodging as a condition of their employment. This means that they must accept the lodging to allow them to properly perform their duties.

In order to exclude the value of lodging from an employee’s gross wages, the employer must show that the wages paid to the employee for services performed meets the prevailing wage for those services. If the employer’s records do not show or establish that the employee received the prevailing wage for services performed, then the reasonable or fair market value of the lodging will be included in the employee’s gross income as wages. Ref. Section 72-1328, Idaho Code.

03. **Meals or Lodging for Employer Convenience.** Meals or lodging furnished will be considered for the employer’s convenience if the employer has a substantial business reason other than providing additional pay to the worker. A statement that the meals or lodging are not intended as pay is not enough to prove that either meals or lodging are furnished for the employer’s convenience. Ref. Section 72-1328, Idaho Code.

04. **Subsistence Remuneration.** In the case of employees who receive remuneration in the form of subsistence, such as groceries, staples, and fundamental shelter, the fair value of such subsistence will be determined by the Director. Ref. Section 72-1328, Idaho Code.

242. -- 255. (RESERVED)

256. DETERMINATION OF FAIR VALUE OF REMUNERATION FOR PERSONAL SERVICES.
When the amount paid to an employee by an employer includes remuneration for other than personal services such as equipment use, travel costs, etc., the Director shall determine the fair value of the remuneration for the employee’s personal services. In making such determination, the Director shall consider the wages specified in the contract of hire, the prevailing wages for similar work under comparable conditions, and other pertinent factors. The wages so determined by the Director shall be reported by the employer. Ref. Section 72-1328, Idaho Code.

257. -- 261. (RESERVED)
262. **DETERMINATION OF PROPER QUARTER IN WHICH TO ASSIGN AND REPORT WAGES.**

01. **Wage Assignment to Proper Calendar Quarter.** Wages paid shall be assigned to the calendar quarter in which the wages were:

   a. Actually paid to the employee in accordance with the employer’s usual and customary payday as established by law or past practice; or
   
   b. Due the employee in accordance with the employer’s usual and customary payday as established by law or past practice but not actually paid on such date because of circumstances beyond the control of the employer or the employee; or
   
   c. Not paid on the usual or customary payday as established by law or past practice but set apart on the employer’s books as an amount due and payable or otherwise recognized as a specific and ascertainable amount due and payable to the worker in accordance with an agreement or contract of hire under which services were rendered. Ref. Section 72-1367, Idaho Code.

02. **Draws and Advances on Wages.** Payments to employees made prior to regular or established paydays will be assignable and reportable during the quarter in which they would have been paid unless a practice is established whereby all employees or a class of employees are given an opportunity to take a “draw” by which such action, another “regular” payday appears to have been created.

03. **Judgments of Wages.** Amounts received as a result of labor relations awards or judgments for back pay, or for disputed wages, constitute wages and will be reported in the quarter or quarters in which the award or judgment has become final, after all appeals have been exhausted, or the quarter or quarters to which the court assigns the wages, if different. Ref. Section 72-1328, Idaho Code.

04. **Awarded Damages Against Employers.** Amounts awarded to the claimant as a penalty or damages against the employer, other than for lost wages, do not constitute wages. Ref. Section 72-1328, Idaho Code.

263. **DETERMINATION OF REPORTABLE QUARTERS.**

An employer shall be covered for all four (4) quarters in the calendar year in which the employer becomes a covered employer as well as for all four (4) quarters in the succeeding calendar year. Employers are not required to file quarterly reports until meeting the coverage criteria pursuant to Section 72-1315, Idaho Code. Upon becoming a covered employer within a calendar year, the quarterly report(s) for the quarter(s) prior to the employer becoming covered shall be filed with the quarterly report for the quarter in which the employer became covered. Quarterly reports for the periods subsequent to coverage shall be filed when due after the end of each quarter. Ref. Sections 72-1315 and 72-1337, Idaho Code.

012. UNION AGREEMENTS AND INSULATED PERIOD.
Once the contract becomes effective as a bar to an election, no petition will be accepted until the end of the period during which the contract is effective as a bar. A contract for a fixed period of more than three (3) years will bar an election sought by a contracting party during the life of the contract, but will act as a bar to an election sought by an outside party for only three (3) years following its effective date. A contract of no fixed period will not act as a bar at all. Petitions filed not more than ninety (90) days but over sixty (60) days before the end of the contract bar period will be accepted and can bring about an election, or if a petition is filed after a contract expires it will be accepted. The last sixty (60) days of the contract bar period is called an insulated period. During that time the parties to the existing contract are free to negotiate a new contract or to agree to extend the old one. If they do so, petitions will not be accepted until ninety (90) days before the end of the new contract bar period. (7-1-21)

013. STRIKERS DEEMED EMPLOYEES.
Strikers are deemed to be employees even though replaced by other workers for representation purposes only and may be entitled to vote in any election conducted within twelve (12) months after the commencement of the strike. (7-1-21)

014. EMPLOYEE REPRESENTATION.

01. Petition or Union Representation. Any employer, union, or employee may petition the Department to conduct an investigation and/or hearing to determine whether the majority of the employees of any given business wish union representation and what union they wish to be represented by. Such petition must fully set forth and allege the exact question concerning representation of employees in the collective bargaining unit. The request must fully state the name of the employer, the place of business, the type of business, the name of the labor organization or organizations involved; and if the request is made by the employer it must include a list of employees employed in said unit. (7-1-21)

02. Requests Made by Unions. If the request is made by a union, such union must submit written statements or authorization cards from at least thirty percent (30%) of those workers in the unit to establish there is such a question of representation, except in establishments having less than six (6) employees, in which case twenty-five percent (25%) of the employees involved will be deemed sufficient. A description of the bargaining unit must be given. (7-1-21)

03. Collective Bargaining Unit. When a question arises concerning representation of employees in a collective bargaining unit the Department will investigate in order to determine the wishes of the majority of the employees in said unit. (7-1-21)

04. Hearings. In any such investigation, a hearing may be held after giving due notice to all interested parties as provided for in the procedural rules of the Department. If as a result of such hearing or investigation the parties agree which union, if any, may properly represent them, a certification will be made and issued by the Director of the Department designating the union for bargaining purposes. If after such a hearing and/or investigation, there is any doubt as to the wishes of the majority of the employees employed in said unit, a time and place will be scheduled to permit the employees to vote by secret ballot. (7-1-21)

05. Preparation of Ballot. In all cases where a secret ballot is taken, the ballot must be prepared by the Department to permit a vote for or against representation by anyone named on the ballot. In case of two (2) or more
unions, a place must be provided for a vote against any union.

06. Waiver of Investigation and Hearing. The investigation and hearing may be waived by consent of the parties pursuant to written stipulation by all parties involved, and a cross check may be conducted by representatives of the Department. Such cross check will be made by comparing the signatures or names appearing on the employer’s payroll with signatures on authorization cards submitted by the union involved. At such cross check, no representatives will be permitted to be present except representatives of the Department. The Department may, at its discretion, also question individual employees.

07. Elections. If it becomes necessary to conduct an election, such election will be held only after appropriate notice is posted by the department in a conspicuous place where the employees are employed. Whenever possible, the election will be held on the premises of the employer and at a time calculated to best permit all employees who are eligible to vote, and so far as possible at a time which will minimize the disruption of the employer’s business. Such notice must be posted at least twenty-four (24) hours before the election and in those cases where, because of the nature of the shifts, a longer time is necessary, it shall be so given. Every effort will be made to hold the election reasonably soon after the twenty-four (24) hour period except in those exceptional cases.

08. Observers. The parties involved may each designate and have present at the election only one (1) observer. Neither management nor union officials may act as observers. Employees having the right to hire or fire or to effectively recommend hiring or firing will be considered as management personnel of the employer and will not be permitted to vote at such election or to act as observers. No member of an employer’s immediate family will be eligible to vote at such representation election or to act as an observer, or any principal stockholder owning ten percent (10%) or more of the company stock.

09. Voting Eligibility. All employees in said bargaining unit on the payroll at the time the petition was received in the Department may vote. Regular part-time employees will be permitted to vote. Casual part-time employees or workers who are employed for a limited period will not be permitted to vote.

10. Challenging Eligibility. Any interested party or representative of the Department may challenge the eligibility of any person to participate in the election for cause under these rules. The ballots of such challenged person will be impounded. Upon conclusion of the election and before the ballots are counted, the parties will be permitted to offer evidence in support of their contentions as to eligibility to vote, after which time a ruling will be made sustaining or overruling the objection. If overruled, the ballot will be placed in the ballot box.

11. Ballots. Ballots prepared by the Department will set forth the question involved. One ballot will be given to each eligible voter. Such ballots are not to be signed by the voters. Voters will be requested to place an “X” in a square which will require only “YES” or “NO” votes. The ballot must be prepared to permit a vote against any representation.

12. Deauthorization of Union Representation. A petition in a union shop for an election to determine whether there should be any union representation or not, may be filed with the Department. In such petition, it must be shown at least thirty percent (30%) or more of the employees in the unit covered by the agreement desire deauthorization. Only employees in the bargaining unit will be counted for this purpose subject to the provisions of Subsection 014.12.

13. Petition for Election. The demand or petition set forth in Subsection 014.12 need not be in any particular form, but must comply with the procedural rules of the Department. No such election as set forth in Subsection 014.12 will be conducted among employees presently covered by a valid collective bargaining agreement, except when filed in accordance with the reopening or termination clause of such agreement.

14. Existing Collective Bargaining Agreement. An existing collective bargaining agreement is a bar to any representation election except as provided for within Section 012.

15. Frequency of Election. No election may be held in any bargaining unit or subdivision thereof within which a valid election was held in the preceding twelve (12) month period.
NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE \ RESSION OF PREVIOUS TEMPORARY RULE

EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rule under docket 11-0801-2002 is effective July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules and rescinded a previous temporary rule. The action is authorized pursuant to Sections (Forensics) 67-2901, 18-8002A, 18-8004, 19-5504, 67-2919, (Forfeitures) 67-2901, 37-2744, (Motor Vehicles) 67-2901, 49-901, (Sex Offender Registry) 18-8304, 18-8305, (Commercial Vehicle Safety) 67-2901A, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting temporary rules and rescinding a previous temporary rule:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 11, rules of the Idaho State Police:

IDAPA 11
• 11.03.01, Rules Governing Alcohol Testing;
• 11.06.01, Rules Governing Civil Asset Forfeiture Reporting;
• 11.07.01, Rules Governing Motor Vehicles – General Rules;
• 11.07.02, Rules Governing Safety Glazing Material;
• 11.07.03, Rules Governing Emergency Vehicles/Authorized Emergency Vehicles;
• 11.10.03, Rules Governing the Sex Offender Registry; and
• 11.13.01, The Motor Carrier Rules.

Rescission of previous temporary rule aligns these chapters wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a), (b), and (c), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

17. **Monitoring Period.** A minimum time period of fifteen (15) minutes immediately prior to evidentiary breath alcohol testing. The monitoring period consists of a mandatory deprivation period and discretionary observation period. The observation period becomes mandatory if the numeric results from only a single breath sample are used.

18. **Observation Period.** The time period running concurrently with the deprivation period in which the officer(s) should be observing the subject/individual, and any belch/burp/vomit/regurgitation should be noted by the operator(s). 25. **Urine Alcohol Analysis.** An analysis of urine to determine the concentration of alcohol present.

011. – 012. (RESERVED)
013. REQUIREMENTS FOR LABORATORY ALCOHOL ANALYSIS.

01. Laboratory. Any laboratory desiring to perform urine alcohol, vitreous humor, blood alcohol, or beverage analysis shall meet the following standards:

   a. Prepare and maintain a written procedure governing its method of analysis, including guidelines for quality control and proficiency testing. A copy of the procedure shall be provided to ISPFS for initial approval. Whenever procedure, protocol, or method changes (however named) are adopted by a laboratory, a copy of the update with the changes clearly indicated shall be approved by ISPFS before implementation;

   b. Provide adequate facilities and space for the procedure used. The laboratory alcohol related functions shall be subject to an assessment by either an accrediting body or the department each calendar year, and the results from the annual audit shall be submitted to the department. The assessment shall be at the expense of the laboratory;

   c. Maintain specimens in a limited access and secure storage area prior to analysis. A chain of custody shall be maintained while the evidence is in the laboratory;

   d. All instrumentation, equipment, reagents and glassware necessary for the performance of the chosen procedure shall be on hand or readily available on the laboratory premises. Instrument maintenance documentation shall be available for review by the department;

   e. Participate in approved proficiency testing and pass this proficiency testing according to standards set by the department. Laboratories must participate in proficiency testing from a department approved provider at least once a calendar year. Approved providers include National Highway Traffic Safety Administration (NHTSA) and Collaborative Testing Services (CTS). Each test consists of at least four (4) blood samples spiked with an unknown concentration of ethyl alcohol, and possibly other volatiles, for qualitative determination. Participating laboratories must obtain proficiency tests from approved providers and are responsible for all costs associated with obtaining and analyzing such tests. Results from proficiency tests must be submitted by the due date to the test provider and ISPFS. Results not submitted to a test provider within the allowed time do not qualify as a proficiency test. An alcohol concentration range is determined from the target value and ±3.0 standard deviations as provided by the proficiency test provider. Reported values must fall within this range. If a laboratory determines more than one (1) alcohol value for a given sample, the mean value of results will be submitted and evaluated. Upon satisfactory completion of an approved proficiency test, a certificate of approval will be issued by the department to the participating laboratory. Approval to perform legal blood alcohol determinations is continued until the results of the next proficiency test are reviewed and notification is sent to the respective laboratory by ISPFS. Failure to pass a proficiency test shall result in immediate suspension of testing by an analyst or laboratory in the form of a written inquiry from the department inquiry. The test is graded as unsuccessful when the mean results are outside the tolerance range established from the accepted mean values. The laboratory shall have thirty (30) calendar days to respond to the department inquiry. The department shall notify the laboratory within fourteen (14) calendar days regarding corrective action steps necessary to lift the testing suspension, or the department may issue a written revocation. The department shall not lift a proficiency testing related suspension or revocation until a successful proficiency test has been completed by the individual analyst or laboratory.

   f. For a laboratory performing blood, urine, vitreous humor, or beverage analysis for alcohol, approval shall be awarded to the laboratory director or primary analyst responsible for that laboratory. The responsibility for the correct performance of tests in that laboratory rests with that person; however, the duty of performing such tests may be delegated to any person designated by such director or primary analyst. The department may temporarily suspend or permanently revoke the approval of a laboratory or analyst if the listed requirements are not met. The department will issue the suspension or revocation in writing to the laboratory director or primary analyst responsible;

   g. Reinstatement after revocation requires completed corrective action of any items listed on the revocation documentation issued by the department. Documentation of corrective actions taken to address the nonconformities shall be submitted to the department for review. Once the department is satisfied that the laboratory is in compliance with all requirements, the department will issue written approval for the resumption of testing by
that laboratory or analyst. A laboratory may appeal a suspension or revocation to the Director of the department.

02. **Blood Collection.** Blood collection shall be accomplished according to the following requirements:

   a. Blood samples shall be collected using sterile, dry syringes and hypodermic needles, or other equipment of equivalent sterility;
   
   b. The skin at the area of puncture shall be cleansed thoroughly and disinfected with an aqueous solution of a nonvolatile antiseptic. Alcohol or phenolic solutions shall not be used as a skin antiseptic;
   
   c. Blood specimens shall contain at least ten (10) milligrams of sodium fluoride per cubic centimeter of blood plus an appropriate anticoagulant.

03. **Blood Reported.** The results of analysis on blood for alcohol concentration shall be reported in units of grams of alcohol per one hundred (100) cubic centimeters of whole blood.

04. **Urine Collection.** Urine samples shall be collected in clean, dry containers.

05. **Urine Reported.** The results of analysis on urine for alcohol concentration shall be reported in units of grams of alcohol per sixty-seven (67) milliliters of urine. Results of alcohol analysis of urine specimens shall be accompanied by a warning statement about the questionable value of urine alcohol results.

06. **Records.** All records regarding proficiency tests, quality control and results shall be retained for three (3) years.

014. **REQUIREMENTS FOR PERFORMING BREATH ALCOHOL TESTING.**

01. **Instruments.** Each breath testing instrument model shall be approved by the department and be listed in the “Conforming Products List of Evidential Breath Measurement Devices” published in the Federal Register by the United States Department of Transportation as incorporated by reference in Section 002 of this rule. The department will maintain a list of benchtop and portable instruments approved for evidentiary testing use in Idaho. Each individual breath testing instrument must be certified by the department. The department may, for cause, remove a specific instrument by serial number from evidentiary testing and suspend or withdraw certification thereof.

02. **Report.** Each direct breath testing instrument shall report alcohol concentration as grams of alcohol per two hundred ten (210) liters of breath.

03. **Administration.** Breath tests shall be administered in conformity with standards established by the department. Standards shall be developed for each type of breath testing instrument used in Idaho, and such standards shall be issued in the form of Idaho administrative rules, ISPFS analytical methods, and ISPFS standard operating procedures.

   a. The breath alcohol test must be administered by an operator (BTO or BTS) currently certified in the use of the instrument.
   
   b. Prior to administering the monitoring period, any foreign objects/materials which have the potential to enter the instrument/breath tube or may present a choking hazard (e.g. gum, chewing tobacco, food) should be removed.
   
   c. The operator shall administer a monitoring period prior to evidentiary testing.
   
   d. If mouth alcohol is suspected or indicated by the testing instrument, the operator shall begin another fifteen (15) minute monitoring period if repeating the testing sequence. If during the monitoring period the subject/individual vomits or regurgitates material from the stomach into the breath pathway, the monitoring period should start over. If there is doubt as to the events occurring during the monitoring period (e.g. silent burp, belch,
vomit, regurgitation), the operator should evaluate the instrument results for any indication of mouth alcohol.

(7-1-21)T

e. A complete breath alcohol test includes two (2) valid breath samples taken during the testing procedure and preceded by air blanks. The breath samples performed with a portable breath testing instrument should be approximately two (2) minutes apart or more. If the subject/individual fails or refuses to provide two (2) adequate samples as requested by the operator, the test result of a single adequate sample shall be considered valid. If a single test result is used, then the observation criteria of the monitoring period (observation period) is mandatory. For hygienic reasons, the operator should use a new mouthpiece for each subject/individual tested.

(7-1-21)T

f. The operator has the discretion to end breath testing, repeat breath testing, or request a blood draw at any point during the testing process as the circumstances require (including but not limited to lack of sample correlation, lack of subject participation or cooperation, subject is incoherent or incapable of following instructions, subject incapacitation). If a subject/individual fails or refuses to provide adequate samples as requested by the operator, the results obtained are still considered valid, provided the failure to supply the requested samples was the fault of the subject/individual and not the operator.

(7-1-21)T

g. A third breath sample shall, when possible, be collected if the first two (2) results differ by more than 0.02 g/210L alcohol. Unless mouth alcohol is indicated or suspected, it is not necessary to repeat the monitoring period prior to obtaining a third breath sample.

(7-1-21)T

h. The results for breath samples should correlate within 0.02 g/210L alcohol to show consistent sample delivery, indicate the absence of RFI, and to indicate the absence of alcohol contamination in the subject/individual’s breath pathway as a contributing factor to the breath results.

(7-1-21)T

i. In the event of an instrument failure, the operator should attempt to utilize another instrument or have blood drawn.

(7-1-21)T

04. Training. Each individual operator (BTO or BTS) shall demonstrate sufficient training to operate the instrument correctly. This shall be accomplished by successfully completing a training course approved by the department on each instrument model utilized by the operator. Operator certifications issued after July 1, 2013 are valid for two (2) calendar years from the course completion date. The department may revoke individual operator (BTO/BTS) certification for cause.

(7-1-21)T

05. Performance Verification Checks. Each breath testing instrument shall be checked for accuracy with a performance verification standard approved by the department. Performance verification checks shall be performed according to a procedure established by the department and be documented. The official time and date of the performance verification is the time and date recorded on the printout, or the time and date recorded in the log.

(7-1-21)T

a. A performance verification check shall occur within twenty-four (24) hours before or after an evidentiary test. The benchtop instrument requires a performance verification check as part of the testing sequence. On the portable instrument, multiple breath alcohol tests may be covered by a single performance verification.

(7-1-21)T

b. A performance verification on a portable instrument consists of two (2) samples at either the 0.08 or 0.20 level. Both samples must be run with the same performance verification standard. Three (3) attempts at obtaining an acceptable performance verification are allowed. Troubleshooting measures may be employed during this process. If the third performance verification fails, the instrument shall be taken out of service and not be returned to service until it has been calibrated and certified by ISPFS.

(7-1-21)T
c. A performance verification acquired during a breath testing sequence on an approved benchtop instrument consists of one (1) sample at either the 0.08 or 0.20 level. A performance verification acquired outside the breath testing sequence on an approved benchtop instrument consists of two (2) samples at either the 0.08 or 0.20 level. Three (3) attempts at obtaining an acceptable performance verification are allowed. Troubleshooting measures may be employed during this process. If the third performance verification fails, the instrument must be taken out of service and not be returned to service until it has been calibrated and certified by ISPFS.
d. Performance verification checks must be within +/- 10% of the performance verification standard target value. (7-1-21)

e. A wet bath 0.08 performance verification standard should be replaced with fresh standard approximately every twenty-five (25) verifications or every calendar month, whichever comes first. For a closed loop, recirculating system (e.g. the Intox 5000 series), the 0.08 performance verification standard should be replaced with fresh standard approximately every one hundred (100) verifications or every calendar month, whichever comes first. (7-1-21)

f. A wet bath 0.20 performance verification standard should be replaced with fresh standard approximately every twenty-five (25) verifications. (7-1-21)

g. Dry gas performance verification standards may be used continuously without replacement until the canister is spent or the expiration date is reached. (7-1-21)

h. Performance verification standards should not be used beyond the expiration date. (7-1-21)

i. If Section 18-8004C, Idaho Code, (excessive alcohol concentration) is applicable, then a 0.20 performance verification must be run and results documented once per calendar month. Failure to perform a 0.20 performance verification will not invalidate any tests where Section 18-8004C, Idaho Code, is not applicable. A performance verification with a 0.20 standard does not need to be performed within twenty-four (24) hours of an evidentiary breath test in excess of 0.20 g/210L alcohol. (7-1-21)

j. Temperature of the wet bath simulator shall be between thirty-three point five degrees Celsius (33.5°C) and thirty-four point five degrees Celsius (34.5°C) in order for the performance verification results to be valid. (7-1-21)

k. An agency may run additional performance verification standard levels at their discretion. (7-1-21)

06. Records. Operators must document and retain test results (i.e. written log, printout, or electronic database). All records regarding maintenance and results shall be retained for three (3) years. ISPFS is not responsible for storage of documentation not generated by ISPFS. (7-1-21)

07. Deficiencies. Failure to meet any of the conditions listed in Sections 013 and 014. Any laboratory or breath testing instrument may be disapproved for failure to meet one (1) or more of the requirements listed in Sections 013 and 014, and approval may be withheld until the deficiency is corrected. (7-1-21)

08. Standards. Premixed alcohol simulator solutions shall be from an approved vendor and explicitly approved in writing by the department before distribution within Idaho. Dry gas standards from ISO 17025:2005 certified providers are explicitly approved by the department for use in Idaho without evaluation by the department. (7-1-21)

09. MIP/MIC. The presence or absence of alcohol is the determining factor in the evidence in an MIP/MIC case. The instrumentation used in obtaining the breath sample is often the same instrumentation utilized for acquiring DUI evidence. The different standard of evidence requires different standards for the procedure. (7-1-21)

a. Fifteen (15) minute monitoring period: The monitoring period is not required for the MIP/MIC procedure. (7-1-21)

b. The breath alcohol test must be administered by an operator currently certified in the use of that instrument. (7-1-21)

c. The instrument used must be certified by ISPFS. The instrument only needs to be initially certified by ISPFS. Initial certification shows that the instrument responds to alcohols and not to acetone. The instrument does not need to be checked regularly or periodically with any of the 0.08 or 0.20 standard. (7-1-21)
d. The officer should have the individual being tested remove all loose foreign material from their mouth before testing. False teeth, partial plates, or bridges installed or prescribed by a dentist or physician do not need to be removed to obtain a valid test. The officer may allow the individual to briefly rinse their mouth out with water prior to the breath testing. Any alcohol containing material left in the mouth during the entirety of the breath test sampling could contribute to the results in the breath testing sequence.

(7-1-21)

e. A complete breath alcohol test includes two (2) valid breath samples taken from the subject and preceded by an air blank. The breath samples do not need to be consecutive samples from the same subject. The individual breath samples should be approximately two (2) minutes apart or more. A deficient or insufficient sample does not automatically invalidate a test sample. The operator should use a new mouthpiece for each individual.

(7-1-21)

f. A third breath sample is required if the first two (2) results differ by more than 0.02 g/210L alcohol. In the event that all three (3) samples fall outside the 0.02 g/210L alcohol correlation, and testing indicates or the officer suspects mouth alcohol, they must administer a fifteen (15) minute monitoring period and then retest the subject. If mouth alcohol is not suspected or indicated by the test results, then the officer may retest the subject without administering a monitoring period.

(7-1-21)

g. The operator should manually log test results and/or retain printouts for possible use in court.

(7-1-21)

h. The instrument must not be in passive mode for the testing of subjects for evidential purposes.

(7-1-21)

i. The passive mode of testing using the Lifeloc FC20 or ASIII should be used for testing liquids or containers of liquid for the presence or absence of alcohol.

(7-1-21)

011. (RESERVED)

012. SAFETY FITNESS PROCEDURES.

01. Purpose and Scope. (7-1-21)
This section establishes procedures to determine the safety fitness of motor carriers, assign safety ratings, take remedial action when required and prohibit motor carriers receiving a safety rating of “unsatisfactory” from operating a commercial motor vehicle:

i. To provide transportation of hazardous materials for which vehicle placarding is required in accordance with 49 CFR Part 172, subpart F; or

ii. To transport more than fifteen (15) passengers, including the driver.

All provisions of Section 012 apply to all motor carriers subject to the requirement of this subchapter.

Definitions. The following definitions apply to Section 012.

Applicable safety regulations or requirements. Means 49 CFR subtitle, chapter III, subchapter B- Federal Motor Carrier Safety Regulations; and 49 CFR subtitle B, chapter I, subchapter C- Hazardous Materials Regulations. Amendments to the annual volumes are published in the Federal Register, pending their incorporation in the next annual volumes. Whenever a federal regulation is adopted by reference in these rules, subsequent recompileations are also adopted by reference, but subsequent amendments are not.

Preventable accident on the part of a motor carrier. Means an accident that:

i. Involved a commercial motor vehicle, and

ii. Could have been averted but for an act, or failure to act, by the motor carrier or the driver.

Reviews:

i. Compliance review. An onsite examination of motor carrier operations, which may be at the carrier’s place of business, including driver’s hours of service, vehicle maintenance and inspection, driver qualifications, commercial driver’s license requirements, financial responsibility, accidents, hazardous materials, and such other related safety and transportation records to determine safety fitness.

A compliance review may be conducted in response to a request to change a safety rating, to investigate potential violations of safety regulations by motor carriers, or to investigate complaints or other evidence of safety violations.

A compliance review may result in the initiation of an enforcement action.

Safety management controls. The systems, policies, programs, practices, and procedures used by a motor carrier to ensure compliance with applicable safety and hazardous materials regulations which ensure the safe movement of products and passengers through the transportation system, and to reduce the risk of highway accidents and hazardous materials incidents resulting in fatalities, injuries, and property damage.

Safety ratings:

i. Satisfactory safety rating. A motor carrier has in place and functioning adequate safety management controls to meet the safety fitness standard prescribed in Subsection 012.03 of this rule. Safety management controls are adequate if they are appropriate for the size and type of operation of the particular motor carrier.

ii. Conditional safety rating. A motor carrier does not have adequate safety management controls in place to ensure compliance with the safety fitness standard that could result in occurrences listed in Subsection 012.03 of this rule.

iii. Unsatisfactory safety rating. A motor carrier does not have adequate safety management controls in
place to ensure compliance with the safety fitness standard which has resulted in occurrences listed in Subsection 012.03 of this rule.

iv. Unrated carrier. A safety rating has not been assigned to the motor carrier.

03. **Safety Fitness Standard.** The satisfactory safety rating is based on the degree of compliance with the safety fitness standard for motor carriers. To meet the safety fitness standard, the motor carrier must demonstrate that it has adequate safety management controls in place, which function effectively to ensure acceptable compliance with applicable safety requirements to reduce the risk associated with:

a. Commercial driver’s license standards violations.

b. Inadequate levels of financial responsibility.

c. The use of unqualified drivers.

d. Improper use and driving of motor vehicles.

e. Unsafe vehicles operating on the highways.

f. Failure to maintain accident register and copies of accident reports.

g. The use of fatigued drivers.

h. Inadequate inspection, repair, and maintenance of vehicles.

i. Transportation of hazardous materials, driving and parking rule violations.

j. Violation of hazardous materials regulations.

k. Motor vehicle accidents and hazardous materials incidents.

04. **Factors to Be Considered in Determining a Safety Rating.** The factors to be considered in determining the safety fitness and assigning a safety rating include information from safety reviews, compliance reviews and any other data. The factors may include all or some of the following:

a. Adequacy of safety management controls. The adequacy of controls may be questioned if their degree of formalization or automation is found to be substantially below the norm for similar carriers. Violations, accidents or incidents substantially above the norm for similar carriers will be strong evidence that management controls are either inadequate or not functioning properly.

b. Frequency and severity of regulatory violations.

c. Frequency and severity of driver/vehicle regulatory violations identified in roadside inspections.

d. Number and frequency of out-of-service driver/vehicle violations.

e. Increase or decrease in similar types of regulatory violations discovered during safety or compliance reviews.

f. Frequency of accidents; hazardous materials incidents; accident rate per million miles; preventable accident rate per million miles; and other accident indicators; and whether these accident and incident indicators have improved or deteriorated over time.

g. The number and severity of violations of state safety rules, regulations, standards, and orders applicable to commercial motor vehicles and motor carrier safety that are compatible with Federal rules, regulations,
standards and orders. (7-1-21)T

05. Determination of Safety Fitness. Following a compliance review of a motor carrier operation, the Idaho State Police Commercial Vehicle Safety Program Manager, using the factors prescribed in Subsection 012.04 of this rule, will determine whether the present operations of the motor carrier are consistent with the safety fitness standards set forth in Subsection 012.03 of this rule. (7-1-21)T

06. Notification of a Safety Fitness Rating. Following a compliance review, the Idaho State Police Commercial Vehicle Safety Program Manager will determine the safety fitness of a motor carrier and notify the motor carrier and the Department in writing. Notification will include a list of those items for which immediate corrective actions must be taken. (7-1-21)T

07. Motor Carrier Certification. Upon notification of violations cited in the compliance review and recommendations made to correct violations a motor carrier must certify to the Idaho State Police Commercial Vehicle Safety Program Manager, within thirty (30) days, whether all corrective actions identified by the safety review have been taken. Failure to certify or falsely certifying under Section 012 of this Chapter will be considered a reporting violation under Section 67-2901B(3), Idaho Code. (7-1-21)T

DOCKET NO. 11-0000-2100F (FEE RULE)

NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE \\ RESCISSION OF PREVIOUS TEMPORARY RULE

EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rules under docket 11-0000-2000F is effective July 1, 2021.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting temporary rules and rescinding previous temporary rules:

This temporary rulemaking adopts and re-publish the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 11, rules of the Idaho State Police:

IDAPA 11
• 11.05.01, Rules Governing Alcohol Beverage Control; and
• 11.10.02, Rules Governing State Criminal History Records and Crime Information.

The Idaho State Police Alcohol Beverage Control is tasked with issuing licenses, maintaining priority waiting lists, inspecting new and existing premises, and enforcing violations of Idaho criminal statutes. The Idaho state central repository of criminal history records is an automated database of records based on fingerprint arrest records reported to BCI from Idaho criminal justice agencies. The information in the database is critical to effective decision-making at every phase of the criminal justice process. Additionally, the criminal history system is increasingly used for non-criminal justice background checks, such as employment screening and licensure. BCI also provides fingerprinting services to the public for a fee as prescribed in rule. These rules are necessary for the Idaho State Police to carry out the statutory duties of providing public safety services to law enforcement, prosecuting attorneys, the judicial system, and everyone who travels through or resides in the State of Idaho. The rescission of previous temporary rules aligns these chapters wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased is justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 23-904, 23-907, and 67-3010, Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

• 11.05.01.013.01 – Priority list fee
• 11.05.01.013.03 – Licensing fee return provision
• 11.10.02.031 – Fingerprint and background check fees

02. Death or Incapacity of Licensee. In the event of the incapacity, death, receivership, bankruptcy, or assignment for the benefit of creditors of a licensee, his guardian, executor, administrator, receiver, trustee in bankruptcy, or assignee for benefit of creditors may, upon written authorization from the Alcohol Beverage Control Bureau, continue the business of the licensee on the licensed premises for the duration of the license or until the business is terminated. Any person operating the licensed premises under this regulation must submit a signed agreement that he will assume all of the responsibilities of the licensee for operation of the premises in accordance with law. A person operating licensed premises under the regulation must demonstrate to the satisfaction of the Alcohol Beverage Control Bureau that he is qualified to hold an alcoholic beverage license. A guardian, executor, administrator, receiver, trustee in bankruptcy, or assignee for benefit of creditors may renew or transfer a license so held, in the same manner as other licensees, subject to the approval of the Alcohol Beverage Control Bureau. (Sections 23-908(1), 23-1005A, and 23-1317, Idaho Code). (7-1-21)T

When application for transfer of an alcoholic beverage license has been made, the Alcohol Beverage Control Bureau, in its discretion, may authorize issuance of a temporary permit during the review of the application, during which time the applicant for transfer may conduct business as a temporary permit holder. The permit holder, in accepting the temporary permit, is responsible for complying with all statutes and
rules pertinent to the sale of alcoholic beverages. Sanctions against such permit holder, whether civil, administrative, or criminal lies with the permittee, and acceptance of the permit constitutes a waiver of any defenses by permit holder based upon the fact that the permit holder is not, technically, a licensee. The Alcohol Beverage Control Bureau may withdraw a temporary permit it has issued pursuant to this rule at any time without hearing or notice.

05. **Product Replacement and Credit.** Any beer or wine products removed from the licensed retailer’s premises by a wholesaler/distributor for quality control or public health are not considered to be a violation of Section 23-1033 or 23-1325, Idaho Code, which prohibit aid to the retailer or of Sections 23-1031 or 23-1326, Idaho Code, which prohibit extension of credit to a retailer, if:

a. The packages or kegs are replaced with identical product and quantity; or

b. In the instance of replacement of a partial keg of beer or wine, a credit to be redeemed on subsequent alcoholic beverage purchases by the retailer is given for the value of the unused portion; or

c. In the instance of removal of product for which the identical product or quantity thereof is not immediately available to the wholesaler/distributor at the time of removal of the product, a credit is given. The credit shall be redeemed on subsequent alcoholic beverage purchases by the retailer; or

d. In the case of a licensed establishment which is in operation no less than two (2) months and no more than nine (9) months of each year, prior to its period of closure, it is apparent that product will become outdated or spoiled before the date of re-opening, a wholesaler/distributor may remove product from the retailer’s premises and may give a credit to the retailer. Such credit shall be redeemed on subsequent alcoholic beverage purchases by the same retailer.

e. Credit is given to a retailer for the amount paid by the retailer at the time of purchase of the product being removed by the wholesaler/distributor.

06. **Expiration of Licenses.** When a county or city has, pursuant to Sections 23-927 and/or 23-1012, Idaho Code, passed an ordinance extending the hours of sale of liquor and/or beer to two o’clock a.m. (2:00 a.m.), all liquor and/or beer licenses in that county expire at two a.m. (2 a.m.), on the first of the renewal month of the year following their issuance. (Section 23-908(1), Idaho Code).

07. **Maintenance of Keg Receipts.** Licensees shall retain a copy of all completed keg receipts required by Section 23-1018, Idaho Code, for a period of six (6) months.

013. **PRIORITY LISTS.**

01. **Priority Lists for Incorporated City Liquor Licenses.** The Alcohol Beverage Control Bureau maintains a priority list of applicants for those cities in which no incorporated city liquor license is available. A separate list is maintained for each city. A person, partnership, or corporation desiring to be placed on a priority list shall file a completed application for an incorporated city liquor license, accompanied by payment of one-half (1/2) of the annual license fee. Such application need not show any particular building or premises upon which the liquor is to be sold, nor that the applicant is the holder of any license to sell beer. Priority on the list is determined by the earliest application, each succeeding application is placed on the list in the order received.

02. **Written Notification.** When an incorporated city liquor license becomes available Alcohol Beverage Control offers it in writing to the applicant whose name appears first on the priority list. If the applicant does not notify the Alcohol Beverage Control Bureau in writing within ten (10) days of receipt of the notice of his intention to accept the license, the license is offered to the next applicant in priority. An applicant accepting the license shall have a period of one hundred eighty (180) days from the date of receipt of Notice of License Availability in which to complete all requirements necessary for the issuance of the license. Provided, however, that upon a showing of good cause the Director of the Idaho State Police may extend the time period in which to complete the necessary requirements for a period not to exceed ninety (90) days.

03. **Refusal to Accept Offer of License or Failure to Complete Application for License.** An applicant refusing a license offered under this rule or an applicant who fails to complete his application may have his
name placed at the end of the priority list upon his request. Should the applicant holding first priority refuse or fail to accept the license or to complete the application within the time specified, the applicant will be dropped from the priority list, the deposit refunded, and the license offered to the applicant appearing next on the list. (7-1-21)

04. Limitations on Priority Lists. An applicant shall hold only one position at a time on each incorporated city priority list. An applicant must be able to demonstrate to the Director the ability to place an awarded license into actual use as required by Section 23-908(4), Idaho Code and these rules. An applicant for a place on an incorporated city liquor license priority list may not execute an inter vivos transfer or assignment of his place on the priority lists. For the purposes of this rule, “inter vivos transfer or assignment” means the substitution of any individual; partnership; corporation, including a wholly owned corporation; organization; association; or any other entity for the original applicant on the waiting list. An attempt to assign inter vivos a place on an incorporated city liquor license priority list shall result in the removal of the name of the applicant from the lists. An applicant, however, may assign his or her place on an alcoholic liquor license priority list by devise or bequest in a valid will. A place on an incorporated city liquor license priority list becomes part of an applicant’s estate upon his or her death. (7-1-21)

05. Priority Lists Where Licenses Are Available. The Alcohol Beverage Control Bureau will not maintain a list for a city in which a liquor license is available, nor for a city that does not permit retail sale of liquor. (7-1-21)

014. CONDUCT OF LICENSED PREMISES. Upon request of an agent of the Director, a licensee, or anyone acting on his behalf, must produce any records required to be kept pursuant to Title 23, Chapters 9, 10, or 13, Idaho Code, and permit the agent of the Director or peace officer to examine them and permit an inspection of the licensee’s premises. Upon request of a peace officer, a licensee, or anyone acting on his behalf, must permit an inspection of the licensee’s premises. Any inspection performed pursuant to this rule must occur during the licensee’s regular and usual business hours. The failure to produce such records or to permit such inspection on the part of any licensee is a violation of this rule. A violation of this rule, federal or state law or local code or ordinance may subject the licensee to administrative sanctions pursuant to Sections 23-933, 23-1037 and 23-1331, Idaho Code. (7-1-21)

EFFECTIVE DATE: The effective date of the temporary rule being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rule under docket 11-0201-2100F is effective July 1, 2021.

AUTHORITY: In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule and rescinded a previous temporary rule. The action is authorized pursuant to Sections 25-1102, 25-1110, 25-1121, 25-1122, 25-1160, 25-3302 and 25-3303, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and rescinding a previous temporary rule:

This temporary rulemaking adopts and re-publishes the following existing rule chapter previously submitted to and reviewed by the Idaho Legislature under IDAPA 11.02, rules of the Idaho State Brand Board:

IDAPA 11.02
• 11.02.01, Rules of the Idaho State Brand Board.

The Idaho State Brand Board is tasked with serving and protecting the Idaho livestock industry, by creating a deterrent of theft, illegal transportation and slaughter of livestock. The Brand Board finds that without adoption these rules would eliminate the Boards ability to carry out the statutory duties of protecting and regulating the livestock industry. Additionally, the Brand Board is solely operated by dedicated funds derived from Brand Recording, Brand Inspection and Dealer Licensing fees which are set in Rule. These rules are necessary to provide funding to provide necessary state service. The rescission of previous temporary rule aligns this chapter wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This temporary rule is necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. The temporary rule implements the duly enacted laws of the state of Idaho, provides citizens with the detailed rules and standards for complying with those laws, and assists in the orderly execution and enforcement of those laws. The expiration of this rule without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by this rule.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased is justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 25-1160, 25-1121, 25-1122 and 25-3303, Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The following is a specific description of the fees or charges by section or subsection:

104. **CLAIMS FOR PAYMENT FROM PARI-MUTUEL POOL.**
At a designated location, a written, verified claim for payment from a pari-mutuel pool must be accepted by the racing association in any case wherein the racing association has withheld payment or has refused to cash a pari-mutuel wager. The claim must be made on such form as approved by the Racing Commission with the original claim forwarded to the Racing Commission within 48 hours.

105. **PAYMENT FOR ERRORS.**
If an error occurs in the payment amounts for pari-mutuel wagers that are cashed or entitled to be cashed and, as a result of such error, the pari-mutuel pool involved in the error is not correctly distributed among winning ticket holders, the following applies:

01. **Underpayments.** Verification is required to show that the amount of the commission, the amount in breakage, and the amount in payouts is equal to the total gross pool. If the amount of the pool is more than the amount used to calculate the payout, the underpayment belongs to the Racing Commission. In the event there is an underpayment on any race in the amount actually due to the wagerers, the amount of such underpayments to wagerers, at the end of each day of racing, will revert to and be paid to the Racing Commission and may not be retained by the racing association.

02. **Underpayment Claim.** Any claim not filed with the racing association within thirty (30) days, inclusive of the date on which the underpayment was publicly announced, is deemed waived; and the racing association has no further liability.

03. **Overpayment.** In the event the error results in an overpayment to winning wagers, the racing association shall have no further liability.\(\text{(7-1-21)}\)
association is responsible for such payment. (7-1-21)T

106. **BETTING EXPLANATION.**
A summary explanation of pari-mutuel wagering and each type of betting pool offered must be published in the program for every wagering performance. The rules of racing relative to each type of pari-mutuel pool offered must be prominently displayed on the racing association grounds and available upon request through racing association representatives. (7-1-21)T

107. **DISPLAY OF BETTING INFORMATION.**

01. **Approximate Odds for Win Pool.** Approximate odds for Win pool betting must be posted on display devices within view of the wagering public and updated at intervals of not more than sixty (60) seconds for the current race of the performance. (7-1-21)T

02. **Probable Payout.** The probable payout or amounts wagered, in total and on each betting interest, for other pools may be displayed to the wagering public at intervals and in a manner approved by the Racing Commission. (7-1-21)T

03. **Official Results and Payouts.** Official results and payouts must be displayed upon each contest being declared official. (7-1-21)T

04. **Errors Corrected Promptly.** If an error is made in posting the payoff figures on the public board, it will be corrected promptly and only the correct amounts will be used in the payoff, irrespective of the error. If because of mechanical failure it is impossible to promptly correct the posted payoff, a statement must be made over the public address system stating the facts and corrections. (7-1-21)T

108. **CANCELLED CONTESTS.**
If a contest is cancelled or declared “no contest,” refunds must be granted on valid wagers in accordance with these rules. (7-1-21)T

01. **Refunds.** Notwithstanding other provisions of these rules, refunds of the entire pool must be made on:

(7-1-21)T

04. **Horse Prevented from Racing Because of Starting Gate Failure.** If it is determined by the Stewards that a horse has been prevented from racing because of the failure of the stall door of the starting gate to open, the money bet on that horse must be refunded; except that when the horse is part of an Entry or the Field there will be no refund if the Entry or the Field, as the case may be, has at least one (1) actual starter. 109. COUPLED ENTRIES AND MUTUEL FIELDS.

01. Coupled Entry Considered Single Betting Interest. Contestants coupled in wagering as a coupled entry or mutuel field are considered part of a single betting interest for the purpose of price calculations and distribution of pools. Should any contestant in a coupled entry or mutuel field be officially withdrawn or scratched, the remaining contestant in that coupled entry or mutuel field may remain valid betting interests and no refunds will be granted; or the stewards may order a refund for the entire betting interest. If all contestants within a coupled entry or mutuel field are scratched, then tickets on such betting interests must be refunded, notwithstanding other provisions of these rules. (7-1-21)

02. Dead Heat Involving Coupled Entry. For the purpose of price calculations only, coupled entries and mutuel fields are calculated as a single finisher, using the finishing position of the leading contestant in that coupled entry or mutuel field to determine order of placing. This rule applies to all circumstances, including situations involving a dead heat, except as otherwise provided by these rules. (7-1-21)

110. POOLS DEPENDANT UPON BETTING INTERESTS.

01. Offer Wagering Pools. Unless otherwise provided by the Racing Commission, upon request received no later than twenty-four (24) hours after the post position draw, at the time the pools are opened for wagering, the racing association: (7-1-21)

02. Suspend Previously Approved Forms of Wagering. The racing association may suspend previously-approved forms of wagering with the prior approval of the Racing Commission. Any carryover must be held until the suspended form of wagering is reinstated. A racing association may request approval of a form of wagering or separate wagering pool for specific performances. (7-1-21)T

112. CLOSING OF WAGERING IN A CONTEST.

01. Close Wagering. A Racing Commission representative must close wagering for each contest after which time no pari-mutuel tickets may be sold for that contest. (7-1-21)T

117. PARI-MUTUEL CASH VOUCHERS.

01. Cash Vouchers. Pari-mutuel cash vouchers may be offered by a racing association that issues pari-mutuel tickets. These vouchers must be dispensed through the totalisator system. The stored value on a voucher may be redeemed in the same manner as a value of a winning pari-mutuel ticket for wagers placed at a pari-mutuel window or a self-service terminal, and may be redeemed for their cash value at any time. (7-1-21)T

02. Vouchers as Incentives or Promotional Prizes. A racing association may, with the prior approval of the Racing Commission, issue special pari-mutuel cash vouchers as incentives or promotional prizes, and may restrict the use of those vouchers to the purchase of pari-mutuel wagers. (7-1-21)T

(7-1-21)

04. **Affirmation.** Any request for approval of a stored value instrument or system must include an affirmation of the ready availability when requested by the Racing Commission. 200. **CALCULATION OF PAYOFFS AND DISTRIBUTION OF POOLS.**

01. **Pari-Mutuel Wagering Pools Separately and Independently Calculated and Distributed.** All permitted pari-mutuel wagering pools must be separately and independently calculated and distributed. Takeout will be deducted from each gross pool as stipulated by law. The remainder of the monies in the pool constitutes the net pool for distribution as payoff on winning wagers. (7-1-21)

03. **Profit per Dollar.** For each wagering pool, the amount wagered on the winning betting interest or betting combinations is deducted from the net pool to determine the profit; the profit is then divided by the amount wagered on the winning betting interest or combinations, such quotient being the profit per dollar. (7-1-21)

04. **Single Commission Pools.** With written approval from the Racing Commission, either the standard or net price calculation procedure may be used to calculate single commission pools, while the net price calculation procedure must be used to calculate multi-commission pools. (7-1-21)

i. Profit Split (Place Pool). Profit is net pool less gross amount bet on all place finishers. Finishers split profit one-half (1/2) and one-half (1/2) (place profit), then divide by gross amount bet on each place finisher for two (2) unique prices. (7-1-21)

ii. Profit Split (Show Pool). Profit is net pool less gross amount bet on all show finishers. Finishers split profit one-third (1/3) and one-third (1/3) and one-third (1/3) (show profit), then divide by gross amount bet on each show finisher for three (3) unique prices. (7-1-21)

i. Profit Split (Place Pool). Total profit is the total net pool less the total net amount bet on all place finishers. ii. Profit Split (Show Pool). Total profit is the total net pool less the total net amount bet on all show finishers. 201. WIN POOLS.

01. Win Pools. The amount wagered on the betting interest that finishes first is deducted from the net pool, the balance remaining being the profit; the profit is divided by the amount wagered on the betting interest finishing first, such quotient being the profit per dollar wagered to Win on that betting interest. (7-1-21)

02. Net Win Pool. The net Win pool must be distributed as a single price pool to winning wagers in the following precedence, based upon the official order of finish: (7-1-21)

a. To those whose selection finished first; but if there are no such wagers, then; (7-1-21)

b. To those whose selection finished second; but if there are no such wagers, then; (7-1-21)

c. To those whose selection finished third; but if there are no such wagers, then; (7-1-21)

d. The entire pool must be refunded on Win wagers for that contest. (7-1-21)

03. Dead Heat for First. If there is a dead heat for first involving: (7-1-21)

203. **SHOW POOLS.**

   01. **Show Pools.** The amounts wagered to Show on the first three (3) betting interests to finish are
deducted from the net pool, the balance remaining being the profit; the profit is divided into three (3) equal portions, one (1) being assigned to each winning betting interest and divided by the amount wagered to Show on that betting interest, the resulting quotient being the profit per dollar wagered to Show on that betting interest.

\[ \text{Profit}_n = \frac{\text{Profit}_t}{\text{Amount Wagered}_{\text{Show}}} \]

02. **Net Show Pool Distribution.** The net Show pool must be distributed to winning wagers in the following precedence, based upon the official order of finish:

a. If contestants of a coupled entry or mutuel field finished in the first three (3) places, as a single price pool to those who selected the couple entry or mutuel field, otherwise;

\[ \text{Profit}_{\text{Show}} = \frac{\text{Profit}_n}{3} \]

b. If contestants of a coupled entry or mutuel field finished as two (2) of the first three (3) finishers, the profit is divided with two-thirds (2/3) distributed to those who selected the coupled entry or mutuel field and one-third (1/3) distributed to those who selected the other betting interest included within the first three (3) finishers, otherwise;

\[ \text{Profit}_{\text{Show}} = \frac{2}{3} \text{Profit}_n + \frac{1}{3} \text{Profit}_{\text{Other}} \]

c. As a profit split to those whose selection is included within the first three (3) finishers; but if there are no such wagers on one (1) of those three (3) finishers, then;

\[ \text{Profit}_{\text{Show}} = \frac{2}{3} \text{Profit}_{\text{First}} + \frac{1}{3} \text{Profit}_{\text{Third}} \]

d. As a profit split to those who selected one (1) of the two (2) covered betting interests included within the first three (3) finishers; but if there are no such wagers on two (2) of those three (3) finishers, then:

\[ \text{Profit}_{\text{Show}} = \frac{1}{3} \text{Profit}_{\text{First}} + \frac{2}{3} \text{Profit}_{\text{Second}} \]

e. As a single price pool to those who selected the one (1) covered betting interest included within the first three (3) finishers; but if there are no such wagers, then;

\[ \text{Profit}_{\text{Show}} = \text{Profit}_{\text{Fourth}} \]

f. As a single price pool to those who selected the fourth-place finisher; but if there are no such wagers, then;

\[ \text{Profit}_{\text{Show}} = \text{Profit}_{\text{Fourth}} \]

g. The entire pool must be refunded on Show wagers for that contest.

03. **Dead Heat for First.** If there is a dead heat for first involving:

a. Two (2) contestants representing the same betting interest, the profit is divided with two-thirds (2/3) distributed to those who selected the first-place finishers and one-third (1/3) distributed to those who selected the betting interest finishing third.

\[ \text{Profit}_{\text{Show}} = \frac{2}{3} \text{Profit}_{\text{First}} + \frac{1}{3} \text{Profit}_{\text{Third}} \]

b. Three (3) contestants representing a single betting interest, the Show pool must be distributed as a single price pool.

\[ \text{Profit}_{\text{Show}} = \text{Profit}_{\text{First}} \]

c. Contestants representing two (2) or more betting interests, the Show pool must be distributed as a profit split.

\[ \text{Profit}_{\text{Show}} = \frac{1}{3} \text{Profit}_{\text{First}} + \frac{2}{3} \text{Profit}_{\text{Second}} \]

04. **Dead Heat for Second.** If there is a dead heat for second involving:

a. Contestants representing the same betting interest, the profit is divided with one-third (1/3) distributed to those who selected the betting interest finishing first and two-thirds (2/3) distributed to those who selected the second-place finishers.

\[ \text{Profit}_{\text{Show}} = \frac{1}{3} \text{Profit}_{\text{First}} + \frac{2}{3} \text{Profit}_{\text{Second}} \]

b. Contestants representing two (2) betting interests, the Show pool must be distributed as a profit split.

\[ \text{Profit}_{\text{Show}} = \frac{1}{3} \text{Profit}_{\text{First}} + \frac{2}{3} \text{Profit}_{\text{Second}} \]

c. Contestants representing three (3) betting interests, the Show pool is divided with one-third (1/3) of the profit distributed to Show wagers on the betting interest finishing first and the remainder is distributed equally amongst Show wagers on those betting interests involved in the dead heat for second.

\[ \text{Profit}_{\text{Show}} = \frac{1}{3} \text{Profit}_{\text{First}} + \frac{2}{3} \text{Profit}_{\text{Other}} \]

05. **Dead Heat for Third.** If there is a dead heat for third involving:

\[ \text{Profit}_{\text{Show}} = \text{Profit}_{\text{Fourth}} \]
a. Contestants representing the same betting interest, the Show pool must be distributed as if no dead heat occurred.

b. Contestants representing two (2) or more betting interests, the Show pool is divided with two-thirds (2/3) of the profit distributed to Show wagers on the betting interests finishing first and second and the remainder is distributed equally among Show wagers on those betting interests involved in the dead heat for third.

204. DOUBLE POOLS.

01. **Double Pools.** Only one (1) Daily Double will be permitted during a single racing day, unless approval is obtained from the Racing Commission.

02. **First Place Finisher.** The Double requires selection of the first-place finisher in each of two (2) specified contests.

03. **Winning Distribution.** The net Double pool must be distributed to winning wagers in the following precedence, based upon the official order of finish:

   a. As a single price pool to those whose selection finished first in each of the two (2) contests; but if there are no such wagers, then;

   b. As a profit split to those who selected the first-place finisher in either contest; but if there are no such wagers, then;

   c. As a single price pool to those who selected the one (1) covered first-place finisher in either contest; but if there are no such wagers, then;

   d. As a single price pool to those whose selection finished second in each of the two (2) contests; but if there are no such wagers, then;

   e. The entire pool must be refunded on Double wagers for those contests.

04. **Dead Heat for First.** If there is a dead heat for first in either of the two (2) contests involving:

   a. Contestants representing the same betting interest, the Double pool is distributed as if no dead heat occurred.

   b. Contestants representing two (2) or more betting interests, the Double pool is distributed as a profit split if there is more than one (1) covered winning combination.

05. **Scratched Interest -- First-Half.** Should a betting interest in the first-half of the Double be scratched prior to the first Double contest being declared official, all money wagered on combinations including the scratched betting interest is deducted from the Double pool and refunded.

06. **Scratched Interest -- Second-Half.** Should a betting interest in the second-half of the Double be scratched prior to the close of wagering on the first Double contest, all money wagered on combinations including the scratched betting interest is deducted from the Double pool and refunded.

07. **Consolation Payout.** Should a betting interest in the second-half of the Double be scratched after...
the close of wagering on the first Double contest, all wagers combining the winner of the first contest with the scratched betting interest in the second contest are allocated a consolation payout. In calculating the consolation payout the net Double pool is divided by the total amount wagered on the winner of the first contest and an unbroken consolation price obtained. The broken consolation price is multiplied by the dollar value of wagers on the winner of the first contest combined with the scratched betting interest to obtain the consolation payout. Breakage is not declared in this calculation. The consolation payout is deducted from the net Double pool before calculation and distribution of the winning Double payout. Dead heats including separate betting interests in the first contest will result in a consolation payout calculated as a profit split.

08. Cancelled or “No Contest.” If either of the Double contests are cancelled prior to the first Double contest, or the first Double contest is declared “no contest,” the entire Double pool must be refunded on Double wagers for those contests.

09. Second Double Cancelled or “No Contest.” If the second Double contest is cancelled or declared “no contest” after the conclusion of the first Double contest, the net Double pool is distributed as a single price pool to wagers selecting the winner of the first Double contest. In the event of a dead heat involving separate betting interests, the net Double pool is distributed as a profit split.

10. Payoff Posting. Before the running of the last half of the Daily Double pool, the payoff of each combination coupled with the winner of the first half of the Daily Double must be posted in a prominent place.

11. Third Heat Announcement. In case of a dead heat for winner in the first half (1/2) of the Daily Double, the payoff of the Daily Double need not be posted until after the running of the second half (1/2) of the Daily Double. However, announcement of this fact must be made over the loud speaker and notice to this effect be posted on the board at conclusion of the first half (1/2) of the Daily Double.

13. Daily Double Not a Parlay. The Daily Double Pool is not a parlay and is not connected with the WIN, PLACE, SHOW or other pools in any manner whatsoever.

205. **WIN THREE POOLS.**

  **01. Win Three Pools.** The Win Three (3) requires selection of the first-place finisher in each of three (3) specified contests.

  **02. Distribution.** The net Win Three (3) pool must be distributed to winning wagers in the following precedence, based upon the official order of finish:

  a. As a single price pool to those whose selection finished first in each of the three (3) contests; but if there are no such wagers, then;

  b. As a single price pool to those who selected the first-place finisher in any two (2) of the three (3) contests; but if there are no such wagers, then;

  c. As a single price pool to those who selected the first-place finisher in any one (1) of the three (3) contests; but if there are no such wagers, then;

  d. The entire pool must be refunded on Win Three (3) wagers for those contests.

  **03. Dead Heat.** If there is a dead heat for first in any of the three (3) contests involving:

  a. Contestants representing the same betting interest, the Win Three (3) pool is distributed as if no dead heat occurred.

  b. Contestants representing two (2) or more betting interests, the Win Three (3) pool is distributed as a single price pool and is distributed as follows:

    i. As a profit split to those whose selections finished first in each of the three (3) contests; but if there are no such wagers, then;

    ii. As a single price pools to those who selected the first place finisher in any two (2) of the three (3) contests; but if there are no such wagers, then;

    iii. As a single price pool to those who selected the first place finisher in any one (1) of the three (3) contests; but if there are no such wagers, then;

    iv. The entire Win Three pool is refunded.

  **04. Substitution of a Scratch.** Should a betting interest be scratched from a leg of the Win Three (3) all bets with the scratched betting interest will be handled as follows:

  a. If the scratch (that herein after includes being declared a non-starter or a non-betting starter) was made prior to the start of the first leg, all bets containing such scratched betting interest must be refunded to determine the gross pool an removed from further consideration in the pool;

  b. If the scratch was made in the second leg after the start of the first leg, a consolation payoff will be computed for those bets combining the winners of the first and third legs with the scratched betting interest as follows:

    i. The statutory take-out is deducted from the gross pool and then the amount represented by the bets on combinations involving betting interests scratched from the third leg (reduced by the take-out thereon). (7-1-21)T

    ii. The resulting remainder is divided by the amounts bet on the combination of such first and third leg winners with all betting interests (less breaks) to determine the consolation price per dollar payable to those bets combining winners of the first and third legs with the betting interest scratched in the second leg. The break may not be deducted from the pool.
c. If a betting interest is scratched in the third leg after the start of the first leg, a consolation payoff must be computed as for those bets combining the winners of the first and second legs with such scratched betting interest as follows:

i. The statutory take-out is deducted from the gross pool and then the amount represented by bets on combinations involving betting interests scratched from the second leg (reduced by the rate of the take-out thereon).

ii. The resulting remainder is divided by the amount bet on the combination of such first and second leg winners with all betting interests in the third leg (less breaks) to determine the consolation price per dollar payable to those bets combining winners of the first and second legs with a betting interest scratched in the third leg. The breaks must not be deducted from the pool.

d. If betting interests are scratched in both the second and third legs after the start of the first leg, a consolation payoff is computed for those bets combining the winner of the first leg with the betting interests scratched in both the second and third legs as follows:

i. The takeout is deducted from the gross pool and the remainder is divided by the amount bet on the winner of the first leg combined with all other betting interests (less breaks) to determine the consolation price per dollar payable to those tickets combining the winner of the first leg with the scratch betting interests from both the second and third legs.

05. All Three Cancelled. If all three (3) Win Three (3) contests are cancelled or declared “no contest,” the entire pool must be refunded on Win Three (3) wagers for those contests.

06. One or Two Cancelled. If one (1) or two (2) of the Win Three (3) contests are cancelled or declared “no contest,” the Win Three (3) pool will remain valid and must be distributed in accordance with these rules.

206. PICK (N) POOLS.

01. Pick (n) Pools. The Pick (n) requires selection of the first-place finisher in each of a designated number of contests. The racing association must obtain written approval from the Racing Commission concerning the scheduling of Pick (n) contests, the designation of one (1) of the methods prescribed in these rules, and the amount of any cap to be set on the carryover. Any changes to the approved Pick (n) format require prior approval from the Racing Commission.

02. Apportioning the Pool. The Pick (n) pool is apportioned under one (1) of the following methods:

a. Method 1- Pick (n) with Carryover: The net Pick (n) pool and carryover, if any, must be distributed as a single price pool to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. If there are no such wagers, then a designated percentage of the net pool will be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests; and the remainder will be added to the carryover.

b. Method 2 - Pick (n) with Minor Pool and Carryover: The major share of the net Pick (n) pool and the carryover, if any, must be distributed to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. The minor share of the net Pick (n) pool is distributed to those who selected the first-place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher of all Pick (n) contests, the minor share of the net Pick (n) pool will be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests; and the major will be added to the carryover.

c. Method 3 - Pick (n) with No Minor Pool and No Carryover: The net Pick (n) pool must be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n)
contests, based upon the official order of finish. If there are no winning wagers, the pool is refunded. (7-1-21)

d. Method 4 - Pick (n) with Minor Pool and No Carryover: The major share of the net Pick (n) pool must be distributed to those who selected the first-place finisher in the greatest number of Pick (n) contests, based upon the official order of finish. The minor share of the net Pick (n) pool is distributed to those who selected the first-place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher in a second greatest number of Pick (n) contests, the minor share of the net Pick (n) pool is combined with the major share for distribution as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests. If the greatest number of first-place finishers selected is one (1), the major and minor shares are combined for distribution as a single price pool. If there are no winning wagers, the pool is refunded. (7-1-21)

e. Method 5 - Pick (n) with Minor Pool and No Carryover: The major share of net Pick (n) pool must be distributed to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. The minor share of the net Pick (n) pool is distributed to those who selected the first-place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher in all Pick (n) contests, the entire net Pick (n) pool is distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests. If there are no wagers selecting the first-place finisher in a second greatest number of Pick (n) contests, the minor share of the net Pick (n) pool is combined with the major share for distribution as a single price pool to those who selected the first-place finisher in each of the Pick (n) contests. If there are no winning wagers, the pool is refunded. (7-1-21)

f. Method 6 - Pick (n) with Minor Pool, Jackpot Pool, Major Carryover and Jackpot Carryover: Predetermined percentages of the net Pick (n) pool must be set aside as a Major pool, Minor pool and Jackpot pool. The Major share of the net Pick (n) pool and the Major carryover, if any, is distributed to those who selected the first-place finisher of each of the Pick (n) contests, based on the official order of finish. If there are no tickets selecting the first-place finisher of each of the Pick (n) contests, the Major net pool is added to the Major carryover. If there is only one (1) single ticket selecting the first-place finisher of each of the Pick (n) contests, based on the official order of finish, the Jackpot share of the net Pick (n) pool and the Jackpot carryover, if any, is distributed to the holder of that single ticket, along with the Major net pool and the Major carryover, if any. If more than one (1) ticket selects the first-place finisher of each of the Pick (n) contests the Jackpot net pool is added to the Jackpot carryover. The Minor share of the net Pick (n) pool is distributed to those who selected the first-place finisher of the second greatest number of Pick (n) contests, based on the official order of finish. If there are no wagers selecting the first-place finisher of all Pick (n) contests, the Minor net pool of the Pick (n) pool is distributed as a single price pool to those who selected the first-place finisher of the greatest number of Pick (n) contests. (7-1-21)

03. **Dead Heat.** If there is a dead heat for first in any of the Pick (n) contests involving:

a. Contestants representing the same betting interest, the Pick (n) pool must be distributed as if no dead heat occurred. (7-1-21)

b. Contestants representing two (2) or more betting interests, the Pick (n) pool must be distributed as a single price pool with each winning wager receiving an equal share of the profit. (7-1-21)

04. **Scratched Entry.** Should a betting interest in any of the Pick (n) contests be scratched, the actual favorite, as evidenced by total amounts wagered in the Win pool at host association for the contest at the close of wagering on that contest, will be substituted for the scratched betting interest for all purposes, including pool calculations. In the event that the Win pool total for two (2) or more favorites is identical, the substitute selection will be the betting interest with the lowest program number. The totalisator must produce reports showing each of the wagering combinations with substituted betting interests which became winners as a result of the substitution, in addition to the normal winning combination. (7-1-21)

05. **Cancellation and Refunds.** The Pick (n) pool will be cancelled and all Pick (n) wagers for the individual performance will be refunded, if:

a. At least two (2) contests included as part of a Pick Three (3) are cancelled or declared “no contest”; (7-1-21)
b. At least three (3) contests included as part of a Pick Four (4), Pick Five (5) or Pick Six (6) are cancelled or declared “no contest”; (7-1-21)T

c. At least four (4) contests included as part of a Pick Seven (7), Pick Eight (8) or Pick Nine (9) are cancelled or declared “no contest”; or (7-1-21)T

d. At least five (5) contests included as part of a Pick Ten (10) are cancelled or declared “no contest.” (7-1-21)T

06. Net Pool Distribution. If at least one (1) contest included as part of a Pick (n) is cancelled or declared “no contest,” but not more than the number specified in these rules the net pool must be distributed as a single price pool to those whose selection finished first in the greatest number of Pick (n) contests for that performance. Such distribution must include the portion ordinarily retained for the Pick (n) carryover but not the carryover from previous performances. (7-1-21)T

07. Course Condition. If the condition of the course warrants a change of racing surface in any of the legs of the Pick (n) races, and such change was not known to the public prior to the closing of wagering for the Pick (n) pool, the stewards must declare the changed leg(s) a “no contest” for Pick (n) wagering purposes only. A “no contest” race is not to be considered as a contested race. (7-1-21)T

08. Capped Carryover. The Pick (n) carryover may be capped at a designed level approved by the Racing Commission so that if, at the close of any performance, the amount in the Pick (n) carryover equals or exceeds the designated cap, the Pick (n) carryover will be frozen until it is won or distributed under other provisions of this rule. After the Pick (n) carryover is frozen, one hundred (100%) percent of the net pool, part of which ordinarily would be added to the Pick (n) carryover, must be distributed to those whose selection finished first in the greatest number of Pick (n) contests for that performance. (7-1-21)T

09. Carryover Requested. A written request for permission to distribute the Pick (n) carryover on a specific performance may be submitted to the Racing Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution. (7-1-21)T

10. Single Price Distribution. Should the Pick (n) carryover be designated for distribution on a specified date and performance in which there are no wagers selecting the first-place finisher in each of the Pick (n) contests, the entire pool must be distributed as a single price pool to those whose selection finished first in the greatest number of Pick (n) contests. The Pick (n) carryover must be designated for distribution on a specified date and performance only under the following circumstances:

a. Upon written approval from the Racing Commission as provided in these rules. (7-1-21)T

b. Upon written approval from the Racing Commission when there is a change in the carryover cap, a change from one (1) type of Pick (n) wagering to another or when the Pick (n) is discontinued. (7-1-21)T

c. On the closing performance of the meet or split meet. (7-1-21)T

11. Carryover Deposit. If, for any reason, the Pick (n) carryover must be held over to the corresponding Pick (n) pool of a subsequent meet, the carryover must be deposited in an interest-bearing account approved by the Racing Commission. The Pick (n) carryover plus accrued interest must then be added to the net Pick (n) pool of the following meet on a date and performance so designated by the Racing Commission. (7-1-21)T

12. Contribution to Pool. With the written approval of the Racing Commission, the racing association may contribute to the Pick (n) carryover a sum of money up to the amount of any designated cap. (7-1-21)T

13. Prohibited Information. Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of live tickets remaining is strictly prohibited until the race is made official. This does not prohibit necessary communication between totalisator and...
pari-mutuel department employees for processing of pool data. (7-1-21)

14. **Suspension of Wagering.** The racing association may suspend previously-approved Pick (n) wagering with the prior approval of the Racing Commission. Any carryover must be held until the suspended Pick (n) wagering is reinstated. A racing association may request approval of a Pick (n) wager or separate wagering pool for specific performances.

207. **QUINELLA POOLS.**

01. **Quinella Pools.** The Quinella requires selection of the first two (2) finishers, irrespective of order, for a single contest. (7-1-21)

02. **Distribution.** The net Quinella pool must be distributed to winning wagers in the following precedence, based upon the official order of finish:

   a. If contestants of a coupled entry or mutuel field finish as the first two (2) finishers, as a single price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the
official order of finish, otherwise;

b. As a single price pool to those whose combination finished as the first two (2) betting interests; but if there are no such wagers, then;

c. As a profit split to those whose combination included either the first- or second-place finisher; but if there are no such wagers on one (1) of those two (2) finishers, then;

d. As a single price pool to those whose combination included the one (1) covered betting interest included within the first two (2) finishers; but if there are no such wagers, then;

e. The entire pool must be refunded on Quinella wagers for that contest.

03. Dead Heat -- First Place. If there is a dead heat for first involving:

a. Contestants representing the same betting interest, the Quinella pool is distributed to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish.

b. Contestants representing two (2) betting interests, the Quinella pool is distributed as if no dead heat occurred.

c. Contestants representing three (3) or more betting interests, the Quinella pool is distributed as a profit split.

a. As a profit split to those combining the winner with any of the betting interests involved in the dead heat for second; but if there is only one (1) covered combination, then;

b. As a single price pool to those combining the winner with the one (1) covered betting interest involved in the dead heat for second; but if there are no such wagers, then;

c. As a profit split to those combining the betting interests involved in the dead heat for second; but if there are no such wagers, then;

d. As a profit split to those whose combination included the winner and any other betting interest and wagers selecting any of the betting interests involved in the dead heat for second; but if there are no such wagers, then;

e. The entire pool must be refunded on Quinella wagers for that contest.

208. QUINELLA DOUBLE POOLS.

01. Quinella Double Pools. The Quinella Double requires selection of the first two (2) finishers, irrespective of order, in each of two (2) specified contests.

02. Distribution. The net Quinella Double pool must be distributed to winning wagers in the following precedence, based upon the official order of finish:

a. If a coupled entry or mutuel field finishes as the first two (2) contestants in either contest, as a single price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest
in the official order of finish for that contest, as well as the first two (2) finishers in the alternate Quinella Double contest, otherwise;

b. As a single price pool to those who selected the first two (2) finishers in each of the two (2) Quinella Double contests; but if there are no such wagers, then;

c. As a profit split to those who selected the first two (2) finishers in either of the two (2) Quinella Double contests; but if there are no such wagers on one (1) of those contests, then;

d. As a single price pool to those who selected the first two (2) finishers in the one (1) covered Quinella Double contest; but if there were no such wagers, then;

e. The entire pool must be refunded on Quinella Double wagers for those contests.

03. Dead Heat - First Place. If there is a dead heat for first in either of the two (2) Quinella Double contests involving:

a. Contestants representing the same betting interest, the Quinella Double pool is distributed to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish for that contest.

b. Contestants representing two (2) betting interests, the Quinella Double pool is distributed as if no dead heat occurred.

c. Contestants representing three (3) or more betting interests, the Quinella Double pool is distributed as a profit split.

04. Dead Heat -- Second Place. If there is a dead heat for second in either of the Quinella Double contests involving contestants representing the same betting interest, the Quinella Double pool is distributed as if no dead heat occurred.

06. Betting Interest Deducted -- First Half. Should a betting interest in the first-half of the Quinella Double be scratched prior to the first Quinella Double contest being declared official, all money wagered on combinations including the scratched betting interest will be deducted from the Quinella Double pool and refunded.

07. Betting Interest Deducted -- Second Half. Should a betting interest in the second-half of the Quinella Double be scratched prior to the close of wagering on the first Quinella Double contest, all money wagered on combinations including the scratched betting interest will be deducted from the Quinella Double pool and refunded.

08. Consolation Payoff. Should a betting interest in the second-half of the Quinella Double be scratched after the close of wagering on the first Quinella Double contest, all wagers combining the winning combination in the first contest with a combination including the scratched betting interest in the second contest will be allocated a consolation payout. In calculating the consolation payout the net Quinella Double pool is divided by the total amount wagered on the winning combination in the first contest and an unbroken consolation price obtained. The unbroken consolation price is multiplied by the dollar value of wagers on the winning combination in the first contest combined with a combination including the scratched betting interest in the second contest to obtain the consolation payout. Breakage is not declared in this calculation. The consolation payout is deducted from the net Quinella Double pool before calculation and distribution of the winning Quinella Double payout. In the event of a dead heat involving separate betting interests, the net Quinella Double pool is distributed as a profit split.

09. Refunded Quinella. If either of the Quinella Double contests is cancelled prior to the first Quinella
Double contest, or the first Quinella Double contest is declared “no contest,” the entire Quinella Double pool must be refunded on Quinella Double wagers for those contests. (7-1-21)

10. **Second Double Contest Cancelled.** If the second Quinella Double contest is cancelled or declared “no contest” after the conclusion of the first Quinella Double contest, the net Quinella Double pool must be distributed as a single price pool to wagers selecting the winning combination in the first Quinella Double contest. (7-1-21)T

11. **Dead Heat.** If there is a dead heat or multiple dead heats in either the first or second-half of the Twin Trifecta, all Twin Trifecta wagers selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, is a winner. After the Twin Trifecta carryover is frozen, one hundred percent (100%) of the net Twin Trifecta pool for each individual contest must be distributed to winners of the first-half of the Twin Trifecta pool. (7-1-21)T

15. **Request to Distribute Carryover.** A written request for permission to distribute the Twin Trifecta carryover on a specific performance may be submitted to the Racing Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution. (7-1-21)T
16. **Winning Precedence.** Should the Twin Trifecta carryover be designated for distribution on a specific date and performance, the following precedence will be followed in determining winning tickets for the second-half of the Twin Trifecta after completion of the first-half of the Twin Trifecta:

If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets will be issued for combinations correctly selecting the first- and second-place betting interest. If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets will be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first-half of the Twin Trifecta, all first-half tickets will become winners and will receive one hundred percent (100%) of that day’s net Twin Trifecta pool and any existing Twin Trifecta carryover.

   b. Upon written approval from the Racing Commission when there is a change in the carryover cap or when the Twin Trifecta is discontinued.

   c. On the closing performance of the meet or split meet.

19. **Carryover from Past Subsequent Meet.** If, for any reason, the Twin Trifecta carryover must be held over to the corresponding Twin Trifecta pool of a subsequent meet, the carryover must be deposited in an interest-bearing account approved by the Racing Commission. The Twin Trifecta carryover plus accrued interest will then be added to the second-half Twin Trifecta pool of the following meet on a date and performance so designated by the Racing Commission.

20. **Prohibited Information.** Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of valid exchange tickets is prohibited until the race is made official. This does not prohibit necessary communication between totalisator and pari-mutuel department employees for processing of pool data.

21. **Contest Approval.** The racing association must obtain written approval from the Racing Commission concerning the scheduling of Twin Trifecta contests, the percentage of the net pool added to the first-half pool and second-half pool, and the amount of any cap to be set on the carryover. Any changes to the approved Twin Trifecta format require prior approval from the Racing Commission.

214. **TRI-SUPERFECTA POOLS.**
01. **Tri-Superfecta Pools.** The Tri-Superfecta requires selection of the first three (3) finishers, in their exact order, in the first two (2) designated contests and the first four (4) finishers, in exact order, in the second of the two (2) designated contests. Each winning ticket for the first Tri-Superfecta contest must be exchanged for a free ticket on the second Tri-Superfecta contest in order to remain eligible for the second-half Tri-Superfecta pool. Such tickets may be exchanged only at attended ticket windows prior to the second Tri-Superfecta contest. Winning first-half Tri-Superfecta tickets will receive both an exchange and a monetary payoff. Both of the designated Tri-Superfecta contests will be included in only one (1) Tri-Superfecta pool. (7-1-21)

02. **Providing Pools.** After wagering closes for the first-half of the Tri-Superfecta and commissions have been deducted from the pool, the net pool will then be divided into two (2) separate pools: the first-half Tri-Superfecta pool and the second-half Tri-Superfecta pool. (7-1-21)

03. **Winning Precedence.** In the first Tri-Superfecta contest only, winning tickets must be determined using the following precedence, based upon the official order of finish for the first Tri-Superfecta contest: (7-1-21)

   a. As a single price pool to those whose combination finished in correct sequence as the first three (3) betting interests; but if there are no such wagers, then; (7-1-21)

   b. As a single price pool to those whose combination included, in correct sequence, the first two (2) betting interests; but if there are no such wagers, then; (7-1-21)

   c. As a single price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then; (7-1-21)

   d. The entire Tri-Superfecta pool must be refunded on Tri-Superfecta wagers for that contest and the second-half cancelled. (7-1-21)

04. **Carryover Pool.** If no first-half Tri-Superfecta ticket selects the first three (3) finishers of that contest in exact order, winning ticket holders will not receive any exchange tickets for the second-half Tri-Superfecta pool. In such case, the second-half Tri-Superfecta pool must be retained and added to any existing Tri-Superfecta carryover pool. (7-1-21)

05. **Exchange of Tickets.** Winning tickets from the first-half of the Tri-Superfecta will be exchanged for tickets selecting the first four (4) finishers of the second-half of the Tri-Superfecta. The second-half Tri-Superfecta pool must be distributed to winning wagers in the following precedence, based upon the official order of finish for the second Tri-Superfecta contest: (7-1-21)

   a. As a single price pool, including any existing carryover monies, to those whose combination finished in correct sequence as the first four (4) betting interests; but if there are no such tickets, then; (7-1-21)

   b. The entire second-half Tri-Superfecta pool for that contest must be added to any existing carryover monies and retained for the corresponding second-half Tri-Superfecta pool of the next performance. (7-1-21)

06. **Forfeiture of Rights.** If a winning first-half Tri-Superfecta ticket is not presented for cashing and exchange prior to the second-half Tri-Superfecta contest, the ticket holder may still collect the monetary value associated with the first-half Tri-Superfecta pool but forfeits all rights to any distribution of the second-half Tri-Superfecta pool. (7-1-21)

07. **Coupled Entries and Mutuel Field.** Coupled entries and mutuel fields are prohibited in Tri-Superfecta contests. (7-1-21)

08. **Scratched Interest.** Should a betting interest in the first-half of the Tri-Superfecta be scratched, those Tri-Superfecta tickets including the scratched betting interest must be refunded. (7-1-21)

09. **Second-Half Betting Interest Scratch.** Should a betting interest in the second-half of the Tri-Superfecta be scratched, an announcement concerning the scratch must be made and a reasonable amount of time...
provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second Tri-Superfecta contest, the ticket holder forfeits all rights to the second-half Tri-Superfecta pool. (7-1-21)

10. Reduced Interests. If, due to a late scratch, the number of betting interests in the second-half of the Tri-Superfecta is reduced to fewer than the minimum, all exchange tickets and outstanding first-half winning tickets will be entitled to the second-half Tri-Superfecta pool for that contest as a single price pool, but not the Tri-Superfecta carryover. (7-1-21)

11. Dead Heat. If there is a dead heat or multiple dead heats in either the first- or second-half of the Tri-Superfecta, all Tri-Superfecta tickets selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, is a winner. In the case of a dead heat occurring in:

a. The first-half of the Tri-Superfecta, the payoff is calculated as a profit split. (7-1-21)

b. The second-half of the Tri-Superfecta, the payoff is calculated as a single price pool. (7-1-21)

12. Cancelled Contest. If either of the Tri-Superfecta contests are cancelled prior to the first Tri-Superfecta contest, or the first Tri-Superfecta contest is declared “no contest,” the entire Tri-Superfecta pool must be refunded on Tri-Superfecta wagers for that contest and the second-half cancelled. (7-1-21)

13. Second-Half Cancelled. If the second-half Tri-Superfecta contest is cancelled or declared “no contest,” all exchange tickets and outstanding first-half winning Tri-Superfecta tickets will be entitled to the net Tri-Superfecta pool for that contest as a single price pool, but not the Tri-Superfecta carryover. If there are no such tickets, the net Tri-Superfecta pool must be distributed as described in Subsection 214.03 of these rules. (7-1-21)

14. Capped Carryover. The Tri-Superfecta carryover may be capped at a designated level approved by the Racing Commission so that if, at the close of any performance, the amount in the Tri-Superfecta carryover equals or exceeds the designated cap, the Tri-Superfecta carryover will be frozen until it is won or distributed under other provisions of this rule. After the second-half Tri-Superfecta carryover is frozen, one hundred percent (100%) of the net Tri-Superfecta pool for each individual contest will be distributed to winners of the first-half of the Tri-Superfecta pool. (7-1-21)

15. Request to Distribute Carryover. A written request for permission to distribute the Tri-Superfecta carryover on a specific performance may be submitted to the Racing Commission. The request must contain justification for the distribution, an explanation of the benefits to be derived, and the intended date and performance for the distribution. (7-1-21)

16. Winning Precedence. Should the Tri-Superfecta carryover be designated for distribution on a specified date and performance, the following precedence will be followed in determining winning tickets for the second-half of the Tri-Superfecta after completion of the first-half of the Tri-Superfecta:

a. As a single price pool to those whose combination finished in correct sequence as the first four (4) betting interests; but if there are no such wagers, then; (7-1-21)

b. As a single price pool to those whose combination included, in correct sequence, the first three (3) betting interests; but if there are no such wagers, then; (7-1-21)

c. As a single price pool to those whose combination included, in correct sequence, the first two (2) betting interests; but if there are no such wagers, then; (7-1-21)

d. As a single price pool to those whose combination included, in correct sequence, the first-place betting interest only; but if there are no such wagers, then; (7-1-21)

e. As a single price pool to holders of valid exchange tickets. (7-1-21)

f. As a single price pool to holders of outstanding first-half winning tickets. (7-1-21)
17. **Exchange of Tickets.** Contrary to Subsection 214.04 these rules, during a performance designated to distribute the Tri-Superfecta carryover, exchange tickets will be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first-half of the Tri-Superfecta. If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets will be issued for combinations correctly selecting the first- and second-place betting interests. If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets will be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first-half of the Tri-Superfecta, all first-half tickets will become winners and will receive one hundred percent (100%) of that day’s net Tri-Superfecta pool and any existing Tri-Superfecta carryover as a single price pool. (7-1-21)

18. **Carryover Designation.** The Tri-Superfecta carryover may be designated for distribution on a specified date and performance only under the following circumstances:

   a. Upon written approval from the Racing Commission as provided in Subsection 214.15 of these rules. (7-1-21)

   b. Upon written approval from the Racing Commission when there is a change in the carryover cap or when the Tri-Superfecta is discontinued. (7-1-21)

   c. On the closing performance of the meet or split meet. (7-1-21)

19. **Carryover from Past Subsequent Meet.** If, for any reason, the Tri-Superfecta carryover must be held over to the corresponding Tri-Superfecta pool of a subsequent meet, the carryover must be deposited in an interest-bearing account approved by the Racing Commission. The Tri-Superfecta carryover plus accrued interest will then be added to the second-half Tri-Superfecta pool of the following meet on a date and performance so designated by the Racing Commission. (7-1-21)

20. **Prohibited Information.** Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of valid exchange tickets is prohibited until the race is made official. This does not prohibit necessary communication between totalisator and pari-mutuel department employees for processing of pool data. (7-1-21)

21. **Contest Approval.** The racing association must obtain written approval from the Racing Commission concerning the scheduling of Tri-Superfecta contest, the percentages of the net pool added to the first-half pool and second-half pool, and the amount of any cap to be set on the carryover. Any changes to the approved Tri-Superfecta format requires prior approval from the Racing Commission. (7-1-21)

215. **TWIN SUPERFECTA POOLS.**

01. **Twin Superfecta Pools.** The Twin Superfecta requires selection of the first four (4) finishers, in their exact order, in each of two (2) designated contests. Each winning ticket for the first Twin Superfecta contest must be exchanged for a free ticket on the second Twin Superfecta contest in order to remain eligible for the second-half Twin Superfecta pool. Such tickets may be exchanged only at attended ticket windows prior to the second Twin Superfecta contest. Winning first-half Twin Superfecta tickets will receive both an exchange and a monetary payoff. Both of the designated Twin Superfecta contests will be included in only one (1) Twin Superfecta pool. (7-1-21)

02. **Dividing Pools.** After wagering closes for the first-half of the Twin Superfecta and commissions have been deducted from the pool, the net pool must then be divided into two (2) separate pools: the first-half Twin Superfecta pool and the second-half Twin Superfecta pool. (7-1-21)

03. **Winning Precedence.** In the first Twin Superfecta contest only, winning wagers must be determined using the following precedence, based upon the official order of finish for the first Twin Superfecta contest:

   a. As a single price pool to those whose combination finished in correct sequence as the first four (4)
betting interests; but if there are no such wagers, then;

b. As a single price pool to those whose combination included, in correct sequence, the first three (3) betting interests; but if there are no such wagers, then;

c. As a single price pool to those whose combination included, in correct sequence, the first two (2) betting interests; but if there are no such wagers, then;

d. As a single price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then;

e. The entire Twin Superfecta pool must be refunded on Twin Superfecta wagers for that contest and the second-half cancelled.

04. Carryover Pool -- First Race. If no first-half Twin Superfecta ticket selects the first four (4) finishers of that contest in exact order, winning ticket holders will not receive any exchange tickets for the second-half Twin Superfecta pool. In such case, the second-half Twin Superfecta pool will be retained and added to any existing Twin Superfecta carryover pool.

05. Winning Distribution. Winning tickets from the first-half of the Twin Superfecta will be exchanged for tickets selecting the first four (4) finishers of the second-half of the Twin Superfecta. The second-half Twin Superfecta pool must be distributed to winning wagers in the following precedence, based upon the official order of finish for the second Twin Superfecta contest:

a. As a single price pool, including any existing carryover monies, to those whose combination finished in correct sequence as the first four (4) betting interests; but if there are no such tickets, then;

b. The entire second-half Twin Trifecta pool for that contest must be added to any existing carryover monies and retained for the corresponding second-half Twin Superfecta pool of the next performance.

06. Forfeiture of Second-Half Rights. If a winning first-half Twin Superfecta ticket is not presented for cashing and exchange prior to the second-half Twin Superfecta contest, the ticket holder may still collect the monetary value associated with the first-half Twin Superfecta pool but forfeits all rights to any distribution of the second-half Twin Superfecta pool.

07. Prohibited Entries. Coupled entries and mutuel fields are prohibited in Twin Superfecta contests.

08. Scratched First-Half Interest. Should a betting interest in the first-half of the Twin Superfecta be scratched, those Twin Superfecta tickets including the scratched betting interest must be refunded.

09. Scratched Second-Half Interest. Should a betting interest in the second-half of the Twin Superfecta be scratched, an announcement concerning the scratch must be made and a reasonable amount of time provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second Twin Superfecta contest, the ticket holder forfeits all rights to the second-half Twin Superfecta pool.

10. Late Scratch. If, due to a late scratch, the number of betting interests in the second-half of the Twin Superfecta is reduced to fewer than the minimum, all exchange tickets and outstanding first-half winning tickets will be entitled to the second-half Twin Superfecta pool for that contest as a single price pool, but not the Twin Superfecta carryover.

11. Dead Heat. If there is a dead heat or multiple dead heats in either the first- or second-half of the Twin Superfecta, all Twin Superfecta tickets selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, is a winner. In the case of a dead heat occurring in:

a. The first-half of the Twin Superfecta, the payoff is calculated as a profit split.
b. The second-half of the Twin Superfecta, the payoff is calculated as a single price pool. (7-1-21)T

12. Canceled Contest. If either of the Twin Superfecta contests are cancelled prior to the first Twin Superfecta contest, or the first Twin Superfecta contest is declared “no contest,” the entire Twin Superfecta pool must be refunded on Twin Superfecta wagers for that contest and the second-half cancelled. (7-1-21)T

13. Canceled Second-Half Contest. If the second-half Twin Superfecta contest is cancelled or declared “no contest,” all exchange tickets and outstanding first-half winning Twin Superfecta tickets will be entitled to the net Twin Superfecta pool for that contest as a single price pool, but not the Twin Superfecta carryover. If there are no such tickets, the net Twin Superfecta pool must be distributed as described in Subsection 215.03 of these rules. (7-1-21)T

14. Capped Carryover. The Twin Superfecta carryover may be capped at a designated level approved by the Racing Commission so that if, at the close of any performance, the amount in the Twin Superfecta carryover equals or exceeds the designated cap, the Twin Superfecta carryover will be frozen until it is won or distributed under other provisions of this rule. After the second-half Twin Superfecta carryover is frozen, one hundred percent (100%) of the net Twin Superfecta pool for each individual contest will be distributed to winners of the first-half of the Twin Superfecta pool. (7-1-21)T

15. Request for Carryover. A written request for permission to distribute the Twin Superfecta carryover on a specific performance may be submitted to the Racing Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution. (7-1-21)T

16. Winning Precedence. Should the Twin Superfecta carryover be designated for distribution on a specified date and performance, the following precedence will be followed in determining winning tickets for the second-half of the Twin Superfecta:

   a. As a single price pool to those whose combination finished in correct sequence as the first four (4) betting interests; but if there are no such wagers, then; (7-1-21)T

   b. As a single price pool to those whose combination included, in correct sequence, the first three (3) betting interests; but if there are no such wagers, then; (7-1-21)T

   c. As a single price pool to those whose combination included, in correct sequence, the first two (2) betting interests; but if there are no such wagers, then; (7-1-21)T

   e. As a single price pool to holders of valid exchange tickets. (7-1-21)T

   f. As a single price pool to holders of outstanding first-half winning tickets. (7-1-21)T

17. Exchange Ticket Distribution. Contrary to Subsection 215.04 of these rules, during a performance designated to distribute the Twin Superfecta carryover, exchange tickets will be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first-half of the Twin Superfecta. If there are no wagers correctly selecting the first-, second-, third-, and fourth-place finishers, in their exact order, then exchange tickets will be issued for combinations correctly selecting the first-, second-, third-, and third-place betting interests. If there are no wagers correctly selecting the first-, second- and third-place finishers, in their exact order, then exchange tickets will be issued for combinations correctly selecting the first- and second-place betting interests. If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets will be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first-half of the Twin Superfecta, all first-half tickets will become winners and will receive one hundred percent (100%) of that day’s net Twin Superfecta pool and any existing Twin Superfecta carryover as a single price pool. (7-1-21)T

b. Upon written approval from the Racing Commission when there is a change in the carryover cap or when the Twin Superfecta is discontinued.

c. On the closing performance of the meet or split meet.

19. **Carryover Held.** If, for any reason, the Twin Superfecta carryover must be held over to the corresponding Twin Superfecta pool of a subsequent meet, the carryover must be deposited in an interest-bearing account approved by the Racing Commission. The Twin Superfecta carryover plus accrued interest will then be added to the second-half Twin Superfecta pool of the following meet on a date and performance so designated by the Racing Commission.

20. **Prohibited Information.** Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of valid exchange tickets is prohibited until the race is made official. This does not prohibit necessary communication between totalisator and pari-mutuel department employees for processing of pool data.

21. **Written Approval.** The racing association must obtain written approval from the Racing Commission concerning the scheduling of Twin Superfecta contests, the percentages of the net pool added to the first-half pool and second-half pool, and the amount of any cap to be set on the carryover. **EFFECTIVE DATE:** The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rules under docket 11-0400-2000F is effective July 1, 2021.

**AUTHORITY:** In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules and rescinded previous temporary rules. The action is authorized pursuant to Sections 54-2506, 54-2507, 54-2508, 54-2509, 54-2512, 54-2513, and 54-2514, Idaho Code.

**DESCRIPTIVE SUMMARY:** The following is the required finding and concise statement of its supporting reasons for adopting temporary rules and rescinding previous temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 11.04, rules of the Idaho State Racing Commission:

**IDAPA 11.04**
- 11.04.02, Rules Governing Simulcasting;
- 11.04.03, Rules Governing Licensing and Fees;
- 11.04.05, Rules Governing Advanced Deposit Wagering;
- 11.04.07, Rules Governing Racing Associations;
- 11.04.11, Rules Governing Equine Veterinary Practices, Permitted Medications, Banned Substances and Drug Testing of Horses; and
- 11.04.15, Rules Governing Controlled Substance and Alcohol Testing of Licensees, Employees, and Applicants.

These rules are necessary to provide regulatory safeguards for the integrity of imminent horse races, the safety of horses and personnel involved in races, the prevention of monetary fraud upon racing industry members and the public, and provide consistent enforcement for the racing industry and the public. The rescission of previous temporary rules aligns these chapters wholly with the administrative code effective 7-1-21.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fee(s) or charge(s) being imposed or increased is justified and necessary to avoid immediate danger and the fee(s) is described herein:

The fees or charges, authorized in Sections 54-2506, 54-2508, 54-2512, and 54-2515, Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

c. If an Act of God, power failure, accident, strike, or other action that is beyond the control of the Racing Commission prevents a split sample from being tested, the test results of the primary laboratory will be accepted as prima facie evidence.

05. **Split Sample Test Results.** The referee laboratory sends the results of the split sample test to the Racing Commission and the Racing Commission will forward those results simultaneously to the requesting owner or trainer as quickly as possible.

a. If the split sample testing confirms the findings of the primary laboratory, it is considered a prima facie violation of the applicable provisions of this chapter.

301. -- 999. (RESERVED)
The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and rescinding a previous temporary rule:

This temporary rulemaking adopts and republishes the following existing rule chapter previously submitted to and reviewed by the Idaho Legislature under IDAPA 11.10, rules of the Idaho Public Safety and Security Information System, known as “ILETS”:

**IDAPA 11.10**

- 11.10.01, Rules Governing Idaho Public Safety and Security Information System.

ILETS is a dedicated data communication network that links local, state, federal and foreign criminal justice agencies to state records and files, and to the National Crime Information Center (NCIC), which includes criminal history data and files on wanted or missing persons, orders of protection, property and other files critical to criminal justice and public protection. Through ILETS, information and identification services are provided that assist law enforcement agencies to detect and apprehend criminals, promoting public and officer safety, and supporting the criminal justice system in the prosecution, adjudication, and correctional supervision of offenders. This IDAPA rule is necessary to support the operation and connection of ILETS to other state and national criminal history data, provide a vital connection that is not available in any other agency, form, or process. The rescission of previous temporary rule aligns this chapter wholly with the administrative code effective 7-1-21.

**TEMPORARY RULE JUSTIFICATION:** Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This temporary rule is necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. The temporary rule implements the duly enacted laws of the state of Idaho, provides citizens with the detailed rules and standards for complying with those laws, and assists in the orderly execution and enforcement of those laws. The expiration of this rule without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by this rule.

**FEE SUMMARY:** Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased is justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 19-5202(4), Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The following is a specific description of the fees or charges:

All law enforcement agencies with a signed user agreement and a direct terminal connection or system access to the ILETS network pay access and usage fees based on that agency’s percentage of total annual messages sent and received by the agency through the ILETS message switcher. The total percentage for an agency includes the message traffic generated by any other agency authorized to access ILETS through that agency’s direct terminal or system access.

01. Authorized Agencies. Consistent with Title 19, Chapter 52, Idaho Code, which mandates the exclusive use of ILETS for law enforcement and traffic safety purposes, access to ILETS is restricted to the following governmental agencies:

a. Criminal justice agencies;

b. Non-criminal agencies that provide computer services, dispatching support, or other direct support service to one (1) or more criminal justice agencies, and which have signed an ILETS-approved management control agreement with the criminal justice agency;

d. Non-criminal justice agencies that provide information or capabilities needed by criminal justice agencies for a criminal justice purpose, and access or use of a terminal will improve the ability to provide such information or capabilities.

02. Management Control Agreements. The management control agreement between a criminal justice agency and a non-criminal justice agency grants to the criminal justice agency the authority to set and enforce:

a. Priorities of service;

b. Standards for the selection, supervision, and termination of personnel authorized to access ILETS; and

c. Policies governing the operation of computers, circuits, and telecommunications terminals used to process, store, or transmit information to or receive information from ILETS.

03. Board Approval. The Board reviews all requests for access to ILETS and determines whether an agency meets the criteria for access and whether access is appropriate based on system resources. Approved non-criminal justice agencies may have access to ILETS information on a limited basis (for example, motor vehicle information only) as authorized by the Board.

018. USER ACCESS FEES.
01. **Payment of Fees Required.** Any agency that has signed a user agreement with ILETS to have direct terminal or system access to the network must pay access and usage fees as provided in Section 018. (7-1-21)

02. **ILETS Network User Access Fees.** The access fees approved by the Board and to be collected quarterly in advance by the department are as follows: (7-1-21)

   a. An agency at the county or municipal level pays an annual access fee of five thousand dollars ($5,000). (7-1-21)

   b. An agency at the state, federal, or tribal level pays an annual access fee of eight thousand, seven hundred fifty dollars ($8,750). (7-1-21)

03. **Usage Fee.** Any agency that has signed a user agreement with ILETS to have direct terminal or system access to the ILETS network pays quarterly a usage fee based on that agency’s percentage of total annual messages sent and received by user agencies through the ILETS message switcher. The total percentage for an agency includes the message traffic generated by any other agency authorized to access ILETS through that agency’s direct terminal or system access. (7-1-21)

   a. The usage fee is assessed according to the following schedule:

<table>
<thead>
<tr>
<th>Percentage of Total ILETS Message Traffic</th>
<th>Annual Usage Fee Effective October 1, 2014</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - .25 %</td>
<td>$1,875</td>
</tr>
<tr>
<td>.26 - .50 %</td>
<td>$3,750</td>
</tr>
<tr>

<td>$7,500</td>
</tr>
<tr>
<td>.76 - 1.0 %</td>
<td>$15,000</td>
</tr>
<tr>
<td>1.01 - 1.50 %</td>
<td>$22,500</td>
</tr>
<tr>
<td>1.51 – 2.0 %</td>

</tr>
<tr>
<td>2.01 – 5.0 %</td>
<td>$50,625</td>
</tr>
<tr>
<td>&gt; 5.01 %</td>
<td>$75,939</td>
</tr>
</tbody>
</table>

   b. The department will conduct audits of ILETS message switcher traffic for even-numbered years to determine an agency’s annual usage fee. This fee is effective for two (2) years and begins with the quarterly statement beginning October 1 of odd-numbered years. (7-1-21)

c. If an agency discontinues direct terminal or system access to ILETS and acquires authorized access through another agency, the usage fee for the agency maintaining direct access will be adjusted to reflect the combined historical usage. (7-1-21)

d. A new agency approved for direct ILETS access that does not have historical usage will be assessed an interim usage fee by the department pending the next audit of ILETS message traffic. The department sets an interim fee based on the agency’s similarities to existing agencies with direct terminal or system access. An agency may appeal the interim usage fee set by the department to the ILETS Board. (7-1-21)

e. As operator of ILETS, the department, in lieu of payment of fees, provides direct and in-kind support of network operations. The Board reviews biennially the proportion of that support to the overall operating cost of the system. (7-1-21)

04. **Billing and Payment.** The department mails billing statements quarterly to all agencies with direct
terminal or system access to ILETS. Payment of the fees is due by the first day of the month of each quarter (October 1, January 1, April 1, and July 1), unless it is a Saturday, a Sunday, or a legal holiday, in which event the payment is due on the first successive business day.

05. Sanctions for Delinquency. Any user agency that becomes delinquent in payment of assessed fees is subject to sanctions under Section 028.

019. ADJUSTED ACCESS FEES DURING PILOT PROJECTS.
The Board may adjust access fees of user agencies participating in pilot projects being conducted by the department in behalf of ILETS. The fee adjustment is based on any cost savings, actual or anticipated, realized by the ILETS network.

020. USER RESPONSIBILITIES.

01. User Agreement. Any agency with access to ILETS, whether directly or through another agency, is responsible for adhering to all applicable ILETS rules and policies and must have signed an agreement with ILETS or an interface agency to that effect.

02. Record Validation. Any agency that enters information into ILETS or NCIC files is responsible for the accuracy, timeliness and completeness of that information. ILETS will send a record validation review list, regularly, to each agency. Validation is accomplished by reviewing the original entry and current supporting documents. Recent consultation with any appropriate complainant, victim, prosecutor, court, motor vehicle registry files, or other appropriate source or individual also is required with respect to the wanted person, missing person, and vehicle files. In the event the agency is unsuccessful in its attempts to contact the victim, complainant, etc., the entering authority must make a determination based on the best information and knowledge available whether or not to retain the original entry in the file. Validation procedures must be formalized and copies of these procedures be on file for review during an ILETS or NCIC audit. When the agency has completed the validation process, the records must be modified to verify their validity no later than thirty (30) days after receiving electronic notification.

03. Minimum Training. Each agency employee who operates a computer to access ILETS must complete ILETS training at a level consistent with the employee's duties. Each employee who operates a computer to access ILETS must be re-certified by the agency every two (2) years.

04. Hit Confirmation. When another agency receives a positive record response (Hit) from ILETS or NCIC and requests confirmation of the status of the record (warrant, stolen vehicle, etc.), the agency responsible for entry of the record must respond within ten (10) minutes for urgent hit confirmation requests or within one (1) hour for routine hit confirmation requests, with an answer that indicates the status of the record or a time frame when the record status will be confirmed.

05. Terminal Agency Coordinators. The agency administrator of each agency with computer access to ILETS must designate one (1) or more terminal agency coordinators who will be the primary contact(s) for all matters relating to use of ILETS by the agency. A terminal agency coordinator must have sufficient authority to implement and enforce necessary policy and procedures.

06. Background Checks of Terminal Operators Required. Policies for access to the FBI-NCIC system require background screening of all terminal operators with access to the NCIC system. For efficiency and consistency, the NCIC background screening policies are also adopted for all ILETS access.

021. INFORMATION ACCESS AND DISSEMINATION.

01. General Policy. Information is made available to ILETS users from various sources and agencies, including ILETS and other state justice information system files, motor vehicle departments, NCIC, and NLETS. Each user must observe any restrictions placed on the use or dissemination of information by its source. It is ILETS' responsibility to advise user agencies of any restrictions which apply to any information accessed via ILETS.
02. **Criminal History Records.** Criminal history information accessed via ILETS from a state or national computerized file is available only to criminal justice agencies for criminal justice purposes. This precludes the dissemination of such information for use in connection with licensing applications, regulatory activities, or local or state employment, other than with a criminal justice agency. (7-1-21)

03. **Administrative Messages.** An administrative message (AM) is a free text message from one (1) agency to one (1) or more agencies. All administrative messages transmitted via ILETS must be by the authority of an authorized user and relate to criminal justice purposes or matters of interest to the user community. Administrative messages sent within Idaho, either statewide, regionally or to individual terminal identifiers are subject to the following restrictions: (7-1-21)

   a. No messages supportive or in opposition to political issues, labor management issues, or announcements of meetings relative to such issues. (7-1-21)

   b. No messages supportive or in opposition of legislative bills. (7-1-21)

   c. No requests for criminal history record information. (7-1-21)

022. -- 023. (RESERVED)

024. **ILETS SECURITY.**

01. **General Policy.** The data stored in the ILETS, NCIC, and other criminal justice information system files is documented criminal justice information. This information must be protected to ensure its integrity and its correct, legal and efficient storage, dissemination and use. It is incumbent upon an agency accessing ILETS directly, or another system that has access to the ILETS network, to implement the procedures necessary to make the access device secure from any unauthorized use and to ensure ILETS is not subject to a malicious disruption of service. ILETS access agencies must participate in ILETS training and compliance activities to ensure that all agency personnel authorized to access the ILETS network are instructed in the proper use and dissemination of the information and that appropriate agency personnel are aware of security requirements and of the dangers to network integrity. ILETS retains the authority to disconnect an access agency or network connection when serious security threats and vulnerabilities are detected. (7-1-21)

02. **Definitions.** The following is a list of terms and their meanings as used in the ILETS security rule: (7-1-21)

   a. Computer interface capabilities means any communication to ILETS allowing an agency to participate in the system. (7-1-21)

   b. Firewall means a collection of components placed between two (2) networks that keep the host network secure by having the following properties:

      i. All traffic from inside the network to outside, and vice-versa, must pass through it; (7-1-21)

      ii. Only authorized traffic is allowed to pass; and (7-1-21)

      iii. The components as a whole are immune to unauthorized penetration and disablement. (7-1-21)

   c. ILETS Security Officer (ISO) is the department staff member designated by the executive officer to monitor and enforce agency compliance with site and network security requirements. (7-1-21)

   d. Peer networks are computer interfaces between cooperative governmental agencies in Idaho where none of the participating entities exercise administrative or management control over any other participating entity. (7-1-21)

   e. Interface agency is an agency that has management control of a computer system directly connected to ILETS. (7-1-21)
f. Untrusted system is a system that does not employ sufficient hardware or software security measures to allow its use for simultaneously processing a range of sensitive or confidential information. (7-1-21)

03. Interface Agency Agreements. To ensure agencies having computer interface capabilities to ILETS are fully aware of their duties and of the consequences of failure to carry out those duties, a written and binding Interface Agency Addendum must exist between ILETS and all interface agencies. This agreement will clarify that the interface agency is equally responsible for actions by secondary and affiliated systems connected through their site to ILETS. Interface agencies must put in place similar subsidiary security agreements with secondary and affiliated systems to protect its network and ILETS. (7-1-21)

04. ILETS Security Officer. The ILETS Security Officer is responsible for the following duties:

a. Disseminating to user agencies copies of ILETS security policies and guidelines; (7-1-21)

b. Communicating to user agencies information regarding current perceived security threats and providing recommended measures to address the threats; (7-1-21)

c. Monitoring use of the ILETS network either in response to information about a specific threat, or generally because of a perceived situation; (7-1-21)

d. Directing an interface agency, through its nominated contact, to rectify any omission in its duty of responsibility; (7-1-21)

e. When an agency is unable or unwilling to co-operate, reporting the issue to the executive officer and initiating the procedure for achieving an emergency disconnection; and (7-1-21)

f. Provide support and coordination for investigations into breaches of security. (7-1-21)

05. Agency Security Contacts. A terminal agency coordinator shall serve as that agency’s security contact for ILETS, unless another individual is specifically selected for this purpose and approved by the ILETS Security Officer. ILETS primary sites shall ensure the agency’s security contact, or another person or position designated in an incident contingency plan, can be contacted by the ILETS security officer at any time. (7-1-21)

06. Peer Networks. The security responsibilities of the operators of peer networks connected to ILETS, with respect to their user organizations, are parallel to those of ILETS user organizations in respect to their individual users. The ILETS Security Officer shall ensure that a written agreement exists between ILETS and an interface agency, signed by the agency heads, that embodies these principles. (7-1-21)

07. Physical Security Standards. Interface agencies will observe standards and procedures to ensure security of the physical premises and computing equipment. The minimum standards and procedures include the following:

a. Access to computer rooms will be limited to staff who require access for the normal performance of their duties. (7-1-21)

b. Electrical power protection devices to suppress surges, reduce static, and provide battery backup in the event of a power failure will be used as necessary. (7-1-21)

c. Computer system backups shall be stored in a secure location with restricted access. (7-1-21)

d. Network infrastructure components will be controlled with access limited to support personnel with a demonstrated need for access. (7-1-21)

e. Physical labeling of infrastructure components will be done to assist in proper identification. Additionally, all components will be inventoried at regular intervals for asset management and physical protection.
f. An interface agency must create and enforce a password policy in which the agency is responsible for assigning ILETS users a unique password. The password policy must require that a new password be initiated by the user or agency every ninety (90) days.

08. Network Security Standards. User agencies must exercise appropriate security precautions when connecting ILETS and computer systems linked to ILETS with external untrusted systems. The primary objective of such precautions is to prevent unauthorized access to sensitive information while still allowing authorized users free access. The minimum standards and procedures include the following:

a. Agencies must routinely audit for and remove unused or unneeded services/accounts, review accounts periodically, and enforce aggressive and effective password strategies.

b. Agencies must ensure that the software security features of the networks they manage are installed and functioning correctly.

c. Agencies must monitor network security on a regular basis. Adequate information concerning network traffic and activity must be logged to ensure that breaches in network security can be detected.

d. Agencies must implement and maintain procedures to provide the ILETS network adequate protection from intrusion by external and unauthorized sources.

e. No computer connected to the network can have stored, on its disk(s) or in memory, information that would permit access to other parts of the network. For example, scripts used in accessing a remote host may not contain passwords.

f. No connection to ILETS may be established utilizing dial-up communications. Asynchronous communications connections should be limited and tightly controlled as they pose a serious risk because they can circumvent any security precaution enacted to protect networks from untrusted sources.

g. Network management protocols must be limited to internal or trusted networks.

h. Any system having direct or indirect access to the Internet via their computer network must have in place services that allow no access to ILETS from the Internet. Organizations with large distributed Wide Area Networks connecting many remote sites may choose to incorporate many security layers and a variety of strategies. These strategies must incorporate the implementation of a firewall to block network traffic, and restriction of remote user access.

i. Agencies accessing ILETS directly or through another agency, must insure that all telecommunications infrastructure meets the FBI CJIS Security Policy for encryption standards.

j. No routing or IP Network Translations are to be performed on individual access devices. All routing and translation must be performed on a router or firewall device.

028. USER AGENCY SANCTIONS.

01. Review of Violations. The board reviews violations of ILETS rules and may impose appropriate sanctions on access agencies.

02. Objective of Sanctions. The objectives of the sanction procedure are as follows:

a. To ensure the security, integrity, and financial stability of the ILETS.

b. To create an awareness among access agencies of the importance of following rules, regulations,
and procedures in order to minimize the risk to liabilities that may be incurred by misuse of the system and access to its information.

03. **Class of Sanctions.** Sanctions are based upon the class of violation, any previous violations, and any exposure to criminal and civil liabilities that the violation might place on the system, its officials, and the offending agency. Violations are classed as either administrative (minor) or security (serious) violations. Security violations are defined as ones which have or could result in access of ILETS data by unauthorized individuals. All other violations are classed as administrative.

04. **Form of Sanctions.** When imposing sanctions, the Board considers the severity of the violation, the violation type, either administrative or security, and previous sanctions issued. The Board may require the violating agency to submit a mediation plan showing how the violation will be corrected and future violations prevented. The Board shall consider such a mediation plan, if submitted, when imposing sanctions. The Board may impose as sanctions one (1) or more of the following:

a. Written warning.

b. Written notice of violation.

c. Written notice of probation.

d. Written notice of temporary suspension.

e. Written notice of permanent suspension.

05. **Effective Date of Sanctions.** Temporary or permanent suspension of service will not begin, unless an emergency exists, until fifteen (15) days after the agency head has received written notice by certified mail or personal service.

06. **Reinstatement.** An agency placed on permanent suspension may apply to the Board for reinstatement.

029. -- 999. (RESERVED)
EFFECTIVE DATE: The effective date of the temporary rule being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rule under docket 11-1101-2000F is effective July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule and rescinded a previous temporary rule. The action is authorized pursuant to Section 19-5107, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and rescinding a previous temporary rule:

This temporary rulemaking adopts and republishes the following existing rule chapter previously submitted to and reviewed by the Idaho Legislature under IDAPA 11.11, rules of the Peace Officer Standards & Training Council:

IDAPA 11.11
• 11.11.01, Rules of the Idaho Peace Officer Standards and Training Council.

Peace Officer Standards and Training (POST) is tasked with establishing the requirements for basic training and certification, providing academy and in-service training, issuing certifications, and maintaining permanent files and transcripts for all law enforcement officers in the State of Idaho. POST is also responsible for conducting decertification investigations of officers who violate standards of conduct as established by the POST Council’s code of ethics. This rule must be adopted to allow POST to carry out the statutory duties of providing training and certification to the law enforcement officers who provide public safety services to the citizens of the State of Idaho. The rescission of previous temporary rule aligns this chapter wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This temporary rule is necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. The temporary rule implements the duly enacted laws of the state of Idaho, provides citizens with the detailed rules and standards for complying with those laws, and assists in the orderly execution and enforcement of those laws. The expiration of this rule without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by this rule.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 19-5112 and 19-5118, Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The following is a specific description of the fees or charges:

• Section 134 – Course evaluation fee; and
• Subsection 135.03 – Course evaluation fee.

intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all to liberty, equality and justice.

I will maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret, unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime and the relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge or position of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of law enforcement/public service. I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence. EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to Sections 26-2144, 26-2228(4), 26-2248, 26-31-204(5), 26-31-302, and 28-46-104, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting the temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 12, rules of the Idaho Department of Finance:

IDAPA 12

EFFECTIVE DATE: The effective date of the temporary rule being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rule under docket 12-0000-2000F is effective July 1, 2021.

AUTHORITY: In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule and rescinded a previous temporary rule. The action is authorized pursuant to Section 30-14-605(a), Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and rescinding a previous temporary rule:

This temporary rulemaking adopts and republishes the following existing rule chapter previously submitted to and reviewed by the Idaho Legislature under IDAPA 12, rules of the Idaho Department of Finance:

IDAPA 12
• IDAPA 12.01.08, Rules Pursuant to the Uniform Securities Act.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This temporary rule is necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. The temporary rule implements the duly enacted laws of the state of Idaho, provides citizens with the detailed rules and standards for complying with those laws, and assists in the orderly execution and enforcement of those laws. The expiration of this rule without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by this rule. The fees encompassed within this rule support prudent oversight of securities related offerings and registrations for the purposes of protecting the public.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 30-14-605, Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget. The following is a specific description of the fees or charges:

1. Rule 003.04: $50 fee with each request for no-action position or interpretive opinion letter.
2. Rule 040.03: $300 fee for annual renewal of registration statement.
3. Rules 053.01.b. and 01.c.: $300 fee for filing of notice of offering and annual renewal of mutual funds by investment companies; $100 filing fee for notice of offering and annual renewal of unit investment trusts.
4. Rules 053.02.b. and 02.c.: $50 fee for Regulation D Rule 506 notice filings; $50 additional fee for late filing.

The CRD system will be utilized to effect FINRA registration as well as registration, termination, and renewal in the state. (7-1-21)

02. Registrations Not Automatic. A filing of Form U-4, BD, or BR with the CRD system does not constitute an automatic registration in Idaho. 01. Designation. Pursuant to Section 30-14-406, Idaho Code, the Administrator designates the web-based Investment Adviser Registration Depository (IARD) operated by FINRA to receive and store filings and collect related fees from investment advisers on behalf of the Administrator.

02. Use of IARD. Unless otherwise provided, all investment adviser applications, amendments, reports, notices, related filings and fees required to be filed with the Administrator pursuant to the rules promulgated under the Act, shall be filed electronically with and transmitted to IARD. The following additional conditions relate to such electronic filings:

Submission of a filing in this manner shall constitute irrefutable evidence of legal signature by any individuals whose names are typed on the filing.

b. When Filed. Solely for purposes of a filing made through IARD, a document is considered filed with the Administrator when all fees are received and the filing is accepted by IARD on behalf of the state.

03. Electronic Filing. The electronic filing of any particular document and the collection of related processing fees shall not be required until such time as IARD provides for receipt of such filings and fees and thirty (30) days notice is provided by the Administrator. Any documents or fees required to be filed with the Administrator that are not permitted to be filed with or cannot be accepted by IARD shall be filed directly with the Administrator.

a. Temporary Hardship Exemption.

i. Investment advisers registered or required to be registered under the Act who experience unanticipated technical difficulties that prevent submission of an electronic filing to IARD may request a temporary hardship exemption from the requirements to file electronically.

ii. To request a temporary hardship exemption, the investment adviser must file Form ADV-H which can be found at 17 CFR 279.3 in paper format with the Administrator where the investment adviser's principal place of business is located, no later than one (1) business day after the filing (that is the subject of the Form ADV-H) was due; and submit the filing that is the subject of the Form ADV-H in electronic format to IARD no later than seven (7) business days after the filing was due.

iii. Effective Date - Upon Filing. The temporary hardship exemption will be deemed effective upon receipt by the Administrator of the complete Form ADV-H. Multiple temporary hardship exemption requests within the same calendar year may be disallowed by the Administrator.

b. Continuing Hardship Exemption.

i. Criteria for Exemption. A continuing hardship exemption will be granted only if the investment adviser is able to demonstrate that the electronic filing requirements of this rule are prohibitively burdensome.

ii. To apply for a continuing hardship exemption, the investment adviser must file Form ADV-H which can be found at 17 CFR 279.3 in paper format with the Administrator at least twenty (20) business days before a filing is due; and, if a filing is due to more than one (1) securities regulator, the Form ADV-H must be filed with the
Administrator where the investment adviser's principal place of business is located. The Administrator who receives the application will grant or deny the application within ten (10) business days after the filing of Form ADV-H.

iii. Effective Date - Upon Approval. The exemption is effective upon approval by the Administrator. The time period of the exemption may be no longer than one (1) year after the date on which the Form ADV-H is filed. If the Administrator approves the application, the investment adviser must, no later than five (5) business days after the exemption approval date, submit filings to IARD in paper format (along with the appropriate processing fees) for the period of time for which the exemption is granted.

- 13.01.18, Rules Governing Feeding of Pronghorn, Elk, and Deer;
- 13.01.19, Rules for Selecting, Operating, Discontinuing, and Suspending Vendors – (Exempting IDAPA 13.01.19.102);

This temporary rulemaking adopts and publishes existing and previously approved and codified chapters of IDAPA 13, rules of the Department of Fish and Game. The rulemaking exempts fee sections of rules that the Department previously adopted as temporary rules. The rulemaking action includes edits that do not significantly change the effect of existing rules, streamlining state government through the repeal/simplification of outdated or ineffective rules in compliance with Executive Order 2020-01, Zero Based Regulation, (including the incorporation of edits addressed via negotiated rulemaking conducted under this Order in 2021).

The following is a brief descriptive summary of edits to expiring versions of the rule. Changes to IDAPA 13.01.01 (the subject of negotiated rulemaking in 2021 under Executive Order 2020-01) integrate delegation of authority provisions related to current agency practice for issuing permits, orders, etc. to address property damage from wildlife and feeding emergencies (transferring language from IDAPA 13.01.18.101). Revisions to IDAPA 13.01.07 (the subject of negotiated rulemaking in 2021 under Executive Order 2020-01) include the transfer of requirements for taking of upland game animals and integrating them into the re-codified IDAPA 13.01.09 (also the subject of negotiated rulemaking in 2021 under Executive Order 2020-01). Changes to IDAPA 13.01.07 also include
consolidating duplicative references in multiple chapters to generally applicable requirements such as seasons and limits; wounded animals; management/hunt area descriptions; closure areas; and shooting hours. Changes to IDAPA 13.01.09 also include provisions for consistency of controlled hunt applications across game bird species; identification of caliber limits for airguns, and deletion of references to a sage grouse permit to reflect 2021 legislation (House Bill 235) establishing a sage grouse tag. Duplicative tag designation provisions for turkey and big game animals were consolidated in the recodified 13.01.04. The rulemaking also revises IDAPA 13.01.04 to clarify resident use of unsold nonresident tags as second tags in light of the agency’s adoption of nonresident tag limits for some elk zones and deer units in which residents are not subject to tag limits. The rulemaking also revises IDAPA 13.01.08 and 13.01.16 to reflect changes arising from legislation enacted in 2021 (House Bill 91 and Senate Bill 1211) regarding allowances for take, tag use, and shooting hours for wolves, and use of bait in trapping fur-bearing animals; this rulemaking integrates rules for trapping of wolves (previously adopted in IDAPA 13.01.17) into IDAPA 13.01.16.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of these rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These previously approved and codified rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. Expiration of previously adopted rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

In addition, the Idaho Constitution, art. 1, sec. 23, states the “rights to hunt, fish and trap, including by the use of traditional methods, are a valued part of the heritage of the State of Idaho and shall forever be preserved for the people and managed through the laws, rules and proclamations that preserve the future of hunting, fishing and trapping.” Continuity of previously approved and codified Fish and Game rules governing the classification, protection, and taking of various types of fish and wildlife, and the licensing of hunters, anglers, and trappers, implements this constitutional directive, as well as the directive of the State’s Wildlife Policy, as set forth in Section 36-103(a), Idaho Code. Continuity of existing rules for Commission procedure, use of state owned or controlled lands, and authorization and accountability for licensing vendors implements good governance, public transparency, and responsible management of state monies and assets.

With the extended recess, without adjournment sine die, of the First Regular Session of the Sixty-Sixth Idaho Legislature, rescission of previously adopted temporary rules is appropriate to avoid ambiguity as to which versions of temporary rules are in effect.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

02. Determination. The Department will make its determination based on the reasonableness of the
    accommodation and its consistency insofar as possible with all provisions guiding other participants

(7-1-21)

The companion to a disabled hunter may validate and attach the disabled hunter’s game tag or permit in accordance with applicable rules (IDAPA 13.01.08, Rules Governing Taking of Big Game Animals, or IDAPA 13.01.09, Rules Governing Taking of Game Birds and Upland Game Animals). (7-1-21)

04. Accompanying the Disabled Hunter. The companion must accompany the disabled hunter while hunting. (7-1-21)

05. Written Statement of Designation. While taking wounded or killed game to assist a disabled hunter, the companion to a disabled hunter must possess a written statement from the disabled hunter designating that person as the disabled hunter’s companion, signed by the disabled hunter including the disabled hunter’s name, address, hunting license number, any applicable tag or permit number, and the dates of designation as a companion. b. Registration of an eligible property and landowner applicant will be on a form prescribed by the Department. The landowner must submit the registration form; a copy of the deed(s) and the most recent tax assessment(s) describing the eligible property and showing the name(s) of the owner(s); and a map of the eligible property to the Department regional office. Department personnel will certify the registration and land description and return a copy to the landowner. (7-1-21)T

c. If the person registering is an authorized corporate or partnership representative, the registration will include written verification from the board of directors, partnership, or an officer of the corporation, other than himself, verifying that he is authorized to register the property and eligible applicants. (7-1-21)T

02. Hunt Areas. LAP controlled hunt tags will be issued only for those controlled hunt areas designated by the Commission as eligible for such tags. (7-1-21)T

03. Tag Eligibility. Landowners may receive LAP controlled hunt tags only for the species and sex that use the eligible property and only for LAP hunt areas in which the registered property is located. (7-1-21)T

04. Controlled Hunt Applications. Applications for LAP controlled hunt tag(s) will be on a form prescribed by the Department. (7-1-21)T

a. Applications from landowners with six hundred forty (640) acres or more will be accepted on or after May 15 of each year. Applications submitted in person or mailed to the Department main office or any Regional Office, postmarked not later than June 15 of each year, will be entered in the random drawing for LAP controlled hunt tags. Each application will be entered in the random drawing one (1) time based upon each six hundred and forty (640) acres of eligible property registered by the landowner that are within the LAP controlled hunt area. (7-1-21)T

b. One (1) application may be submitted by a landowner with eligible property consisting of six hundred forty (640) acres to four thousand nine hundred ninety-nine (4,999) acres. A second application may be submitted for eligible property consisting of five thousand (5,000) acres or more. (7-1-21)T

05. Left Over Tags. Landowners with eligible property consisting of three hundred twenty (320) acres or more may apply for left-over tags following the random draw. Written applications will be accepted beginning on the first business day on or after July 15 of each year on a first-come, first-served basis, provided they are accompanied by the appropriate application fee as specified in Section 36-416, Idaho Code. (7-1-21)T

06. Issuance of Controlled Hunt Tag(s). (7-1-21)T

a. Once the Commission has determined the number of controlled hunt tags to be issued in any controlled hunt area, an additional ten percent (10%) of the number of controlled hunt tags may be issued as LAP tags. In subsequent years up to twenty-five percent (25%) of the number of controlled hunt tags may be issued only if the hunt is over subscribed by eligible LAP applicants. (7-1-21)T

b. Where the number of LAP applicants exceeds the number of LAP controlled hunt tags available in an area, successful applicants will be determined by drawing. All eligible landowners in the drawing will be considered for one (1) tag before any landowner is eligible for a second tag. (7-1-21)T

c. No more than two (2) LAP controlled hunt tags may be issued to any eligible landowner. (7-1-21)T
Only one (1) leftover LAP controlled hunt tag may be issued for eligible property consisting of between three hundred twenty (320) and six hundred thirty-nine (639) acres within a LAP controlled hunt area. Only one (1) LAP controlled hunt tag may be issued for eligible property consisting of between six hundred forty (640) and four thousand nine hundred ninety-nine (4,999) acres within a LAP controlled hunt area. One (1) additional controlled hunt tag may be issued to a landowner or designated agent(s) for eligible property in excess of five thousand (5,000) acres within a LAP controlled hunt area. No landowner or designated agent(s) is eligible to receive more than one (1) LAP controlled hunt tag for one (1) species in a calendar year.

A successful landowner, corporate or partnership representative drawing a LAP controlled hunt tag may designate an eligible individual to whom the controlled hunt tag will be issued.

It is unlawful to sell or market LAP controlled hunt tags. In addition to any statutory penalties, a violator of this provision will not be eligible to participate in the LAP program for three (3) years.

The restriction that applying for a moose, bighorn sheep, or mountain goat controlled hunt makes the applicant ineligible to apply for any other controlled hunt does not apply to persons who are otherwise eligible to apply for a LAP controlled hunt tag.

LAP controlled hunts are exempt from limits or quotas on nonresident tags.

LAP controlled hunt tags are exempt from the one (1) year waiting periods for deer, elk and pronghorn controlled hunt applications under IDAPA 13.01.08, “Rules Governing Taking of Big Game Animals,” Section 257.

Any person hunting with a LAP controlled hunt tag may hunt only within the boundaries described in the LAP controlled hunt area. Bag and possession limits set forth in IDAPA 13.01.08, “Rules Governing Taking of Big Game Animals,” Section 200, apply to holders of LAP controlled hunt tags.

The following numbers of nonresident general hunt deer tags and nonresident general hunt elk tags will annually be set aside and reserved for sale to persons who have entered into an agreement to utilize the services of an outfitter licensed under Chapter 21, Title 36, Idaho Code. For each Hunting Season:

- One thousand nine hundred eighty-five (1,985) deer tags (the combined total of regular and White-tailed);
- Two thousand eight hundred (2,800) elk tags (the combined total of A and B tags for all zones).

Tags for use in general hunts will be sold on a first-come, first-serve basis through July 14 of each year. Application for purchase of these tags will be made by the outfitter for the nonresident on a form prescribed by the Department. The application shall be accompanied by the appropriate license fees and a certification by the outfitter that the nonresident has a contract to hunt with the outfitter making application.

Any tags not sold by July 15 of each year will be sold by the Department to nonresidents on a first-come, first serve basis.

The following sections are reserved:

SECTION 500. NONRESIDENT DEER AND ELK TAG OUTFITTER SET-ASIDE.

SECTION 501. PREVIOUSLY RESERVED:

SECTION 505. DEER AND ELK TAG ALLOCATION.
01. **Allocation of Tags for Capped General Hunt Units or Zones.** Pursuant to Section 36-408, Idaho Code, the Commission may allocate a number of deer and/or elk tags for use by hunters with signed agreements with licensed outfitters in units or zones with limited numbers of tags. The Commission may use this subsection or the allocated tag provisions of Section 36-408, Idaho Code, to allocate outfitter tags in capped general hunt units or zones. (7-1-21)

   a. When the number of hunters in a general hunt unit or zone becomes restricted, the Department will calculate the initial number of allocated tags for each zone using the Idaho Outfitters and Guides Licensing Board’s records of average historic use during the previous five (5) year period. Where it is biologically feasible, any reductions in the number of tags available within a zone that exceed twenty percent (20%) will be spread over a three (3) year period with a maximum reduction of fifty percent (50%) taken in the first year and twenty-five percent (25%) in the second year. (7-1-21)

   b. The allocation of tags will be calculated on a unit or zone basis. Any reduction or increase in hunting opportunities will be proportionate among non-outfitted hunters and outfitted hunters, and will be proportionate among resident and non-resident hunters; EXCEPT where such reduction would result in an allocation of greater than twenty-five percent (25%) for non-resident hunters, the Commission may reduce the allocation for non-resident hunters to a percentage of not less than twenty-five percent (25%). (7-1-21)

02. **Allocation of Tags for Controlled Hunt Areas.** The Commission may only allocate outfitter tags in controlled hunt areas with historic licensed deer and/or elk outfitted area(s). Hunt application and eligibility rules will apply to allocated tags in controlled hunts. (7-1-21)

   a. The number of outfitter allocated tags will be in addition to the number of tags authorized by the Commission within each controlled hunt area with historic licensed deer and/or elk outfitted area(s). Hunt application and eligibility rules will apply to allocated tags in controlled hunts. (7-1-21)

   b. A person is not eligible to apply for an outfitter allocated controlled hunt unless that person has a written agreement with an outfitter licensed for the hunt area. Successful applicants of an outfitter allocated controlled hunt must hunt with an outfitter licensed for the hunt area. The outfitter must purchase the successful applicant’s controlled hunt tag by August 20. (7-1-21)

   c. Successful applicants who do not want to participate in the outfitted hunt may decline the hunt upon written notification to the Department. Those declining the hunt will then be eligible to participate in a general season or leftover controlled hunt. Those drawing an outfitted controlled hunt and then declining the controlled hunt will be subject to any applicable waiting period under IDAPA 13.01.08, “Rules Governing Taking of Big Game Animals,” Section 257. (7-1-21)

   d. Successful applicants that do not secure the services of an Idaho licensed outfitter and have not purchased the controlled hunt tag by August 20 will forfeit the opportunity to purchase a controlled hunt tag. The forfeited controlled hunt tag will then be listed as a leftover controlled hunt tag. After securing a client, the outfitter(s) may then purchase the leftover controlled hunt tag at a Department office. (7-1-21)

   e. The Commission may use this subsection or the allocated tag provisions of Section 36-408, Idaho Code, to allocate outfitter tags in controlled hunt areas: (7-1-21)

      i. No less than one (1) tag and no more than three percent (3%) of the total tags; or (7-1-21)

      ii. A number based on the average historic use during the previous five (5) year period to be rounded up when a decimal equals or exceeds zero point six (0.6) and rounded down when a decimal is less than zero point six (0.6); or (7-1-21)

      iii. An unlimited number of allocated tags or a number of allocated tags based on historic use as alternatives only for controlled hunt areas with limited nonresident tags and unlimited resident tags; or (7-1-21)

      iv. No tags will be allocated. (7-1-21)
506. DEER AND ELK OUTFITTER ALLOCATED TAG.

01. Distribution of Outfitter Allocated Tags. Allocated tags will be sold by the Department, as designated by Section 36-2107, Idaho Code, and IDAPA 24.35.01.057, “Rules of Idaho Outfitters and Guides Licensing Board,” to hunters with signed agreements with licensed outfitters in those zones with a cap on the number of tags sold and in outfitter allocated controlled hunts. Application for the purchase of allocated tags will be made by the outfitter for the hunter on a form prescribed by the Department. The application shall be accompanied by the appropriate license fees and a certification by the outfitter that the hunter has a signed agreement to hunt with the outfitter making application.

02. Designated Buyers. Purchasers of allocated tags who return their unused tag and a notarized affidavit stating that the tag buyer has not hunted may designate another person to purchase a replacement tag. If the original buyer does not make a designation, the outfitter may make the designation. The designated buyer must pay the regular fee for the replacement tag.

03. Unsold Tags. Any allocation tags not sold by August 1 of each year will be sold by the Department on a first-come, first-served basis.

507. – 549. (RESERVED)

b. Designated Buyers of unused nonresident tags to which the quota has already applied: an unused nonresident general hunt deer or elk tag, accompanied by a notarized affidavit stating that the tag buyer has not hunted, may be designated to another nonresident for purchase at the regular tag price, by the original buyer or an outfitter or guide retained by the original buyer, or absent such designation, may be sold by the Department on a first-come, first-serve basis.

c. Holders of resident lifetime license certificates who are no longer Idaho residents.

d. Holders of nonresident junior mentored tags.
551. – 559. (RESERVED)

560. SALE OF UNSOLD NONRESIDENT GENERAL DEER AND ELK TAGS AS SECOND TAGS.
Any nonresident general deer or elk tags unsold on or after August 1 may be sold to residents and to nonresidents as a second general hunt tag, at the nonresident tag price. Unless the Commission has limited the use of second tags in a unit or zone by proclamation, a resident may buy a second tag for an elk zone where a nonresident limit has been reached if the zone is unlimited to residents, and a resident may use a second regular or white-tailed deer tag in any unit in the same manner as a first resident general hunt tag. (7-1-21)

561. – 601. (RESERVED)

b. A rain check for a hunting license and the same general or controlled hunt tag for the same species for the next calendar year hunting season; or (7-1-21)

c. For deer and elk only, an exchange in the calendar year for a general season tag for the same species in another zone or area so long as tags are available in that area or zone. (7-1-21)

201. -- 999. (RESERVED)
13.01.18 – RULES GOVERNING FEEDING OF PRONGHORN, ELK, AND DEER

000. LEGAL AUTHORITY.
Sections 36-104, 36-105 and 36-111, Idaho Code, authorize the Commission to adopt rules concerning feeding of pronghorn, elk, and deer.

001. TITLE AND SCOPE.
The title of this chapter is “Rules Governing Feeding of Pronghorn, Elk, and Deer.” These rules establish criteria for determining a feeding emergency, govern feeding operations, and prohibit private feeding within a designated CWD Management Zone.

002. -- 099. (RESERVED)

100. INTENT.
The Commission recognizes the importance of maintaining big game populations under natural conditions. Winter forage is the major limiting factor determining big game population size. To maintain these winter ranges, big game numbers are controlled through harvest. The Commission does not sanction widespread supplemental feeding programs. Additionally, supplemental feeding concentrates big game animals, making deer and elk susceptible to spreading or contracting Chronic Wasting Disease (CWD), as well as other diseases transmissible to livestock. The risk of disease transmission may factor into making a supplemental feeding decision. Big game harvests and weather vary from year to year throughout the state. In most years and areas, snow depths, temperatures, and animal body condition do not create adverse conditions for wintering animals. Unusual weather conditions, limited winter forage, or other circumstances may create critical periods of stress for animals or force them into areas involving public safety. The Commission is unable to manage big game populations for extreme weather. Therefore, emergency feeding of big game is appropriate under certain criteria.

101. (RESERVED)

102. EMERGENCY FEEDING CRITERIA.

01. Declaration of Feeding Emergency. A feeding emergency may be declared if one (1) or more of the following criteria are met:

a. Actual or imminent threat of depredation to private property.

b. Threat to public safety, including traffic hazards.

c. Excessive mortality that would affect herd recovery.

d. Limited or unavailable winter forage caused by fire or unusual weather.

02. Additional Guidelines. Regional Supervisors may develop additional guidelines on emergency feeding within the listed criteria based on risk of disease transmission, local conditions, and local public input.

103. FEED STOCKPILES.
The Department has identified certain locations for stockpiling emergency feed. It is impractical and cost prohibitive to purchase feed and transport it to these locations after snowfall. The Commission and Director declare that stockpile maintenance constitutes a feeding emergency and authorize the expenditure of funds for stockpile maintenance.

104. -- 199. (RESERVED)

200. PRIVATE FEEDING OF DEER AND ELK WITHIN DESIGNATED CWD MANAGEMENT ZONE.

01. Prohibition. It is unlawful to purposely or knowingly provide supplemental feed to deer and elk within any CWD Management Zone designated by the Commission, except supplemental or emergency feeding activities conducted or authorized by the Department.

02. Incidental Grazing. Incidental grazing by big game animals on private rangeland forage, standing agricultural crops, or agricultural crop residue left on the ground following typical harvest practices is not a violation of this section.
03. **Incidental Feeding.** Incidental feeding of big game animals during the normal practice of providing feed to livestock in the winter is not a violation of this section. (7-1-21)T

201. – 999. (RESERVED)
LEGAL AUTHORITY.
Sections 36-301 and 36-307, Idaho Code authorize the Commission to adopt rules governing issuance and sale of licenses and authorization and accountability of license vendors.

TITLE AND SCOPE.
The title of this chapter for citation is IDAPA 13.01.19, “Rules for Selecting, Operating, Discontinuing, and Suspending Vendors.” These rules establish standards for license vendors and related administration.

VENDOR CLASSIFICATION.
The Department classifies vendor applications into the following designations for record keeping, approval, and statistical purposes.

Class One. A sporting goods store carrying a complete line of hunting and fishing supplies and other sporting equipment, and open at least five (5) days a week year-round except for major holidays.

Class Two. A store with a section carrying a complete line of hunting and fishing supplies and other sporting equipment, and open at least five (5) days a week year-round except for major holidays.

Class Three. A store that specializes in a single aspect of hunting or fishing such as gun, archery or fly fishing shops.

Class Four. Strategic. A business or government agency located in an area where the Department has determined there is a need for the public to have licenses available. This may be in areas where there is no or very limited license availability within a twenty-five (25) mile radius from established license vendors.

Exceptional Service. A business that can provide exceptional license availability in comparison to existing license vendors in the vicinity, such as a business open twenty-four (24) hours a day, seven (7) days a week that would not be classified as a class one, two, or three vendor.

Class Five. A business not open on a twelve (12) month basis such as a summer fishing resort that would otherwise qualify for any class one through four, which may include an outfitter or guide business with a permanent business location open to the public.

Class Six. All other businesses that provide no special or exceptional service to the Department or public.

APPLICATION.
Form. Applications will be on a form prescribed by the Department.

Department Review. Application Review. The Department will evaluate and determine approval or denial of vendor applications quarterly, on or before March 1, June 1, September 1, and December 1. The Department will have thirty (30) calendar days after receipt of all necessary forms to review and investigate the application. The date received plus thirty (30) days will determine into which quarterly evaluation each vendor application will be considered. Applications from the same area will be compared to determine which will best meet vendorship needs in that area. Exceptions may be made by the Department when there are overriding needs for an immediate replacement of a license vendor in an area. This will primarily occur where there would be no vendor services available to the public within a twenty-five (25) mile radius.

Field Review. After the License Section has received the application form and all other required information from an applicant, they will contact the Regional Conservation Officer for a recommendation on the application. The Regional Conservation Officer will have ten (10) days to provide the License Section with a recommendation on the application.

Applicant.
a. Application. The Department will only consider license vendorship applications completed in their entirety and accompanied by an original copy of a current credit rating from a recognized credit bureau. The Department will only consider completed applications received by the License section no later than sixty (60) days after the date of the application transmittal letter. The Department may grant an applicant’s request to extend this period for up to thirty (30) additional days. Any false or misleading response will void the application. (7-1-21)

b. Approved Application. If the Department approves an application, the applicant will have sixty (60) days from the date of the applicant’s approval letter to provide the Department with a signed vendorship contract, and any bond, deposit, or documentation the Department may require. Failure to meet this deadline will void the approval except for extenuating circumstances approved by the Department. (7-1-21)

102. (RESERVED)

103. ACTIVE VENDOR CEILING.
The number of active vendors, including approved vendor applicants, is limited to four hundred seventy-five (475). (7-1-21)

104. LICENSING SYSTEM.

01. License Issuance. A vendorship must issue licenses according to statutes, administrative rules, the vendorship contract, the License Vendor Manual, and Department instructions. (7-1-21)

02. Deposit Schedule. Amounts collected from the sale and issuance of licenses, along with the Department’s share of the license issuance fee for each license will be deposited not less frequently than once every seven (7) calendar days in a bank account prescribed by the License Vendor. (7-1-21)

03. Reporting Time Period. The accounting and reporting time period is a calendar week (Sunday through Saturday). (7-1-21)

105. -- 109. (RESERVED)

110. OUT-OF-STATE VENDORS.
In general, an out-of-state location will not be approved to sell licenses unless it is located in close proximity (within fifty (50) miles) to the Idaho border or deemed to have a compelling benefit for the Department. (7-1-21)

111. VENDOR LOCATION NOT MOVABLE.
No vendorship may be relocated to another area (address) without advanced written consent from the Department. (7-1-21)

112. TYPES OF LICENSES SOLD BY VENDOR.
The Department will determine what licenses each vendor may issue. (7-1-21)

113. -- 119. (RESERVED)

120. CONTRACT AGREEMENT VIOLATIONS.

01. Notices of Contract Violations. The Department will issue notices of contract violations whenever a vendor fails to make deposits, submit reports, or send in voided or canceled licenses on time, or issue licenses as instructed. (7-1-21)

02. Intent to Suspend. Prior to suspending a vendor, a written notice of intent to suspend will be sent to the vendor, except where the Department determines that an emergency or a risk to the public is created by the vendor’s conduct or where the vendor has failed to pay for any fund deficiency within the prescribed time, in which cases the Department may terminate the vendor’s agreement immediately. The vendor will have fifteen (15) days in which to submit a written dispute to the Department. (7-1-21)
121. TERMINATION OR SUSPENSION OF VENDOR.

01. Grounds. The Department may terminate or suspend a license vendor on the following grounds:

a. Failure to have sufficient funds for the electronic funds transfer (EFT) to the Department more than once during any twelve (12) month period.

b. Failure to make good any fund deficiency to the Department within three (3) days of notification.

EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rules under docket 13-0000-2000F is effective July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules and rescinded previous temporary rules. The action is authorized pursuant to Sections 36-104, 36-303, 36-404, 36-407, 36-409, 36-412, 36-701, 36-703, and 36-708, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting temporary rules and rescinding previous temporary rules:

This temporary rulemaking adopts and republishes the following sections in existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 13, rules of the Department of Fish and Game:

IDAPA 13

- 13.01.02.200 and 201, only, Rules Governing Mandatory Education and Mentored Hunting;
- 13.01.04.601, only, Rules Governing Licensing;
- 13.01.08.263, only, Rules Governing the Taking of Big Game Animals;
- 13.01.10.410, only, Rules Governing the Importation, Possession, Release, Sale or Salvage of Wildlife; and
- 13.01.19.102, only, Rules for Selecting, Operating, Discontinuing, and Suspending Vendors.

Rescission of temporary rules previously adopted under docket 13-0000-2000F is appropriate to avoid ambiguity as to which versions of temporary rules are in effect.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rules is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of previously adopted rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The agency needs these rules to: continue mandatory hunter, archery, and trapper education programs; protect the state and agency’s fiscal interests in the efficient administration of refunds and overpayments; establish bonding requirements for large commercial wildlife facilities to avoid immediate danger by guaranteeing performance of license conditions and to reimburse the Department for any costs incurred for cleanup of, or removal of animals from, abandoned or closed facilities, or capture or termination of escaped animals, or disease control; and establish bonding requirements to protect the state and agency’s fiscal interests by ensuring the ability to recoup public licensing dollars from vendors who do not fully reimburse the Department.

With the extended recess, without adjournment sine die, of the First Regular Session of the Sixty-Sixth Idaho Legislature, rescission of previously adopted temporary rules is appropriate to avoid ambiguity as to which versions of temporary rules are in effect.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Sections 36-104, 36-303, 36-404, 36-407, 36-409, 36-412, 36-701, 36-703, and 36-708, Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.
The following is a specific description of the fees or charges:

- IDAPA 13.01.02.200.02 and 13.01.02.201.02 implement a statutory mandate to charge for hunter, archery, and trapping education. Section 36-412, Idaho Code, mandates that the Commission implement education programs in hunting, trapping, and archery and provides the “commission shall establish fees for each program not to exceed eight dollars ($8.00).” This rule carries out this statutory mandate by implementing an eight dollar ($8.00) fee for hunter, archery, and trapper education. These fees have been in effect since March 24, 2017.

- IDAPA 13.01.04.601.01 and 02 provide that non-resident general season and controlled hunt deer or elk tag fees may be refunded in certain circumstances. This rule establishes a $50 processing fee for tag refunds or a sliding scale for tag refunds in these special circumstances. This rule has been in effect since April 6, 2005.

- IDAPA 13.01.08.263.01.d. provides that overpayment of fees of more than five dollars ($5) will be refunded and overpayment of five dollars ($5) or less will not be refunded and will be retained by the Department. This fee rule has been in effect since July 1, 1993.

- IDAPA 13.01.10.410.03 provides bond requirements for large commercial wildlife facilities of fifty thousand dollars ($50,000) or an amount equal to ten percent (10%) of the total facility construction cost plus two thousand dollars ($2,000) per animal. This bond is meant to guarantee performance of license conditions and to reimburse the Department for any costs incurred for cleanup of abandoned or closed facilities, removal of animals from abandoned or closed facilities, capture or termination of escaped animals, or disease control. This fee rule has been in effect since July 1, 1999.

- IDAPA 13.01.19.102.04 requires a $10,000 minimum surety bond for vendors that present an undue risk. This bonding requirement ensures license vendors have sufficient coverage to ensure the Department is fully reimbursed for license sales and mitigating undue risk that may otherwise be placed upon the Department in the absence of such bonding. Section 36-303, Idaho Code, authorizes the Department to require a surety bond for license vendors. These vendor bonding rules have been in place since March 20, 1997.

13.01.10 – RULES GOVERNING THE IMPORTATION, POSSESSION, RELEASE, SALE, OR SALVAGE OF WILDLIFE

(BREAK IN CONTINUITY OF SECTIONS)

410. LARGE COMMERCIAL WILDLIFE FACILITIES.
Commercial wildlife facilities that are of a size large enough or with a large number of animals incompatible with the cage or enclosure requirements of Section 400 may, in the Director’s discretion, be addressed with facility-specific license terms. Only facilities housing at least three (3) or more species or encompassing display or exhibit areas larger than one (1) acre will qualify for this consideration. (7-1-21)

01. Animal Display and Security. Any cage or enclosure shall be of such structure or type of construction to prevent escape of the captive wildlife, or damage to native wildlife through habitat degradation, genetic contamination, competition, or disease. In identifying facility-specific license terms, the Department may refer to standards such as those set by the American Zoological Association for cage, open space, shelter, enclosure, and display in a natural-appearing environment and in such a way as to preserve animal dignity. Terms may include, but are not limited to, fence specifications, electric fence specifications, pits or moats, buried fencing, and display features to enhance appreciation for the species and its natural history. (7-1-21)

02. Application. Application for a large commercial wildlife facility license will generally meet the requirements of Subsection 400.04, and will identify the veterinarian of record for the facility. (7-1-21)

03. Bond. The Department will require, as a license condition, any large commercial wildlife facility to provide a bond to the Department in the amount of fifty thousand dollars ($50,000), or an amount equal to ten percent (10%) of the total facility construction cost plus two thousand dollars ($2,000) per animal, whichever is greater, executed by a qualified surety duly authorized to do business in the state of Idaho, to guarantee performance of license conditions and to reimburse the Department for any costs incurred for clean up of abandoned or closed facilities, removal of animals from abandoned or closed facilities, capture or termination of escaped animals, or disease control. With prior approval, the applicant may instead submit a cash bond to the Department including, but not limited to, certificates of deposit, registered checks, certified funds, and money orders. (7-1-21)

04. Specific Requirements. The Director has discretion to identify specific license conditions, and violation of any such condition is a violation of these rules. (7-1-21)

(BREAK IN CONTINUITY OF SECTIONS)
102. SELECTION.
The following factors will be considered for selecting an applicant to become a license vendor:

01. Low Numbered Vendors. Applicants classified in lower-numbered vendor classifications will be given priority over applicants in higher-numbered classifications from the same general location.

02. Class Six Applicants. Class six (6) applicants will be approved only when they demonstrate a significant public benefit to have a license vendorship at their location.

03. Unsettled Debts. Applicants who have unsettled debts listed with a credit bureau will not be approved. Unsettled debts that are in dispute will not be considered against the applicant.

04. Surety Bond. The Department may require an applicant to provide for each location, a ten thousand dollar ($10,000) surety bond from a corporate surety authorized to do business in the state of Idaho, which guarantees the payment of all state funds collected as a result of licenses issued by the vendor if it appears from the application or other information that an undue risk might otherwise be placed upon the Department in the absence of such bonding. Applicants who otherwise qualify for a vendorship and have been in business less than three (3) years will be required to furnish the Department a ten thousand dollar ($10,000) surety bond in the form and length as determined by the Director. Upon request, at the completion of two (2) years of service, the Department may release the vendor from the bonding requirement based on a review of financial risk.

05. Permanence and Accessibility. Applicants who do not have a permanent place of business open and accessible to all segments of the public will not be approved.

06. Number of Existing Vendors in Area. The three (3) closest existing vendors, their hours and days of operation, classification, accessibility to the public, and other pertinent information, including their distance to the applicant, will be compared to the applicant.

07. Minimum Sales Volume. If the applicant is seeking to replace an existing vendor at the prior vendor’s location, the prior vendor’s sales volume will be used to estimate the applicant’s sales volume.

08. Performance Record. An applicant who was a license vendor or the manager for a vendor within the past five (5) years will not be approved unless the applicant’s performance record was satisfactory.

09. Fish and Game Violations. No owner or store manager (if the applicant is a corporation) may have had a fish and game violation other than an infraction within the past five (5) years.

031. INVESTIGATIVE REQUIREMENTS.

01. Review of Allegations. Upon receipt of a report of abuse, neglect, or exploitation the Provider shall conduct a review of the allegations of such report to determine whether:

   a. The report was required to be made to ICOA or its contractors pursuant to Section 39-5303, Idaho Code;

   b. An emergency exists; and

   c. In cases involving resident-to-resident contact reported pursuant to Section 39-5303(A), Idaho Code, determine whether the case involves the sexual abuse, death, or serious physical injury jeopardizing the life, health, or safety of a vulnerable adult, or involves repeated physical or verbal altercations between residents, not resulting in observable physical or mental injury, but constituting an ongoing pattern of resident behavior that a facility’s staff is unable to remedy through reasonable efforts.

02. Need for Investigation. If, based on its review, the Provider determines that a report involves a nursing facility defined in Section 39-1301(b), Idaho Code, and was required to be made to the Department pursuant to Section 39-5303, Idaho Code, the Provider shall immediately refer the report to the Department. If, based on its review, the Provider determines that a report involving resident-to-resident contact was exempted from reporting by Section 39-5303A, Idaho Code, no further investigation need be conducted on such report. The Provider shall investigate all other reports.

03. Vulnerability Determination. Upon investigating a report, the Provider shall determine whether an alleged victim is vulnerable as defined in Section 39-5302, Idaho Code. If the alleged victim is determined to be vulnerable as defined in Section 39-5302, Idaho Code, the Provider shall continue the investigation. If the alleged victim is not vulnerable as defined in Section 39-5302, Idaho Code, the case shall be closed; however, the Provider may refer the complaint to Information and Assistance, Case Management, the Ombudsman, law enforcement or other appropriate entity for investigation and resolution.

04. Assessment of Alleged Victim. An alleged victim’s vulnerability and associated risk factors shall be determined through the ICOA-approved standardized assessment forms. Initial interviews and assessments of an alleged victim shall be conducted by the Provider.

05. Investigative Determinations. The Provider shall make one (1) of two (2) investigative determinations upon completion of an APS investigation:

   a. Substantiated. A report of abuse, neglect, or exploitation of a vulnerable adult by another individual is deemed substantiated when, based upon limited investigation and review, the Provider perceives the report to be credible. A substantiated report shall be referred immediately to law enforcement for further investigation and action. Additionally, the name of the individual against whom a substantiated report was filed shall be forwarded to the Department pursuant to Sections 39-5304(5) and 39-5308(2), Idaho Code, for further investigation. In substantiated cases of self-neglect, the Provider shall initiate appropriate referrals for supportive services with the consent of the vulnerable adult or his legal representative.

   b. Unsubstantiated. The Provider shall close the case if a report of abuse, neglect, or exploitation is not substantiated. If a report is unsubstantiated, but the Provider determines that the vulnerable adult has unmet service needs, the Provider shall initiate appropriate referrals for supportive services with consent of the vulnerable adult or their legal representative.

06. Protective Action Plan. Upon substantiating a report of abuse, neglect, or exploitation of a vulnerable adult, the Provider shall develop and implement a Protective Action Plan.

07. Caretaker Neglect. In investigating a report of caretaker neglect, the Provider shall take into account any deterioration of the mental or physical health of the caregiver resulting from the pressures associated with care giving responsibilities that may have contributed to the neglect of the vulnerable adult. In such cases, the Provider shall make every effort to assist the primary caregiver in accessing program services necessary to reduce the
risk to the vulnerable adult. In APS cases, in which family members are experiencing difficulties in providing twenty-four (24) hour care for a functionally impaired relative, the Provider shall make appropriate referrals to available community services to provide needed assistance.

08. Adult Protective Services and Ombudsman Coordination. Providers shall ensure that APS and the Ombudsman program maintain a written agreement establishing local cooperative protocols in the investigation of complaints.

09. Confidentiality. All records relating to a vulnerable adult and held by a Provider are confidential and shall only be divulged as permitted pursuant to Sections 39-5307, 39-5304(5), and 39-5308, Idaho Code.

01. Case Closure. The Provider shall close a case under the following circumstances:

a. The Provider shall close a substantiated case upon a determination that an initiated PAP or law enforcement involvement has successfully reduced the risk to the vulnerable adult.

b. The Provider may close a substantiated case when the vulnerable adult refuses to consent to receive services, or upon a determination that the Provider has implemented all measures available to reduce risk but has been unable to reduce risk.

c. A case will be closed if the Provider determines that an allegation has been made in bad faith or for a malicious purpose.

02. Suspense File. Closed cases will be maintained in a suspense file until formal action is completed by law enforcement and/or the courts in the following instances:

a. Cases referred by the Provider to law enforcement for criminal investigation and prosecution as determined necessary by the law enforcement agency.

EFFECTIVE DATE: The effective date of the temporary rules being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021.

AUTHORITY: In compliance with Section 67-5226, Idaho Code, notice is hereby given this agency has adopted temporary rules. The action is authorized pursuant to Sections 67-5407(d)(e) and 67-5408, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting the temporary rules:

This temporary rulemaking adopts and republishes the following existing rule chapters previously submitted to and reviewed by the Idaho Legislature under IDAPA 15.02, rules of the Idaho Commission for the Blind and Visually Impaired:

IDAPA 15.02
- 15.02.02, Vocational Rehabilitation Services;
- 15.02.03, Rules Governing the Independent Living Program;
- 15.02.04, Rules Governing the Prevention of Blindness and Sight Restoration Program; and
- 15.02.30, Business Enterprise Program.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a), (b), and (c), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

These temporary rules are necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These temporary rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules.

FEE SUMMARY: This rulemaking does not impose a fee or charge.

The Program will determine what inventory will be accepted from the outgoing vendor. The outgoing vendor shall have receipts no more than ninety (90) days old to show the value of inventory. Any inventory refused by the Program will become the property of the outgoing vendor. If the takeover inventory is less than initially assigned, the outgoing vendor will pay the difference in cash. If the Program agrees to accept more inventory than was initially assigned, the Program will reimburse the outgoing vendor in cash.  

c. The monthly income of the vendor shall be the net profit for the period in question; the expenses shall be in accordance with the monthly set aside report as developed by the Program and the Committee.

f. The business and premises shall be covered by adequate comprehensive and product liability insurance, and any such other insurance as will protect the vendor and anyone employed by the vendor against losses and claims arising out of the conduct of the business or which are required by law. NOTICE OF OMNIBUS RULEMAKING – ADOPTION OF TEMPORARY RULE \\ RECONCILIATION OF PREVIOUS TEMPORARY RULE

EFFECTIVE DATE: The effective date of the temporary rule being adopted through this omnibus rulemaking as listed in the descriptive summary of this notice is July 1, 2021. The rescission of previous temporary rule under docket 15-0300-2000F is effective July 1, 2021.

AUTHORITY: In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary a rule and rescinded a previous temporary rule. The action is authorized pursuant to Section 38-1508, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and rescinding a previous temporary rule:

This temporary rulemaking adopts and republishes the following existing rule chapter previously submitted to and reviewed by the Idaho Legislature under IDAPA 15.03, rules of the Idaho Forest Products Commission:

IDAPA 15.03

• IDAPA 15.03.01, Rules of Administrative Procedure of the Idaho Forest Products Commission.

Rescission of previous temporary rule aligns this chapter wholly with the administrative code effective 7-1-21.

TEMPORARY RULE JUSTIFICATION: Pursuant to Sections 67-5226(1)(a-c) and 67-5226(2), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

This temporary rule is necessary to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. The temporary rule implements the duly enacted laws of the state of Idaho, provides citizens with the detailed rules and standards for complying with those laws, and assists in the orderly execution and enforcement of those laws. The expiration of this rule without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by this rule.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger and the fees are described herein:

The fees or charges, authorized in Section 38-1515, Idaho Code, are part of the agency’s 2022 budget that relies upon the existence of these fees or charges to meet the state’s obligations and provide necessary state services. Failing to reauthorize these temporary rules would create immediate danger to the state budget, immediate danger to necessary state functions and services, and immediate danger of a violation of Idaho’s constitutional requirement that it balance its budget.

The fee rule specifies the collection and remittance of the assessment contained in Section 38-1515, Idaho Code.
